

## God level 2151

### Chapter 2151

"Brother Wang, this road can't be passed, can we go around to the front of this guy?"

Feng Xing suddenly asked Wang Yide. He asked himself that a person might not be Qin Chuan's opponent. If he took Wang Yide and went around in front of Qin Chuan, with Wang Yide's help, he would still be sure to kill Qin Chuan.

But he didn't expect that Wang Yide Shaking his head and sighing

"Brother Feng, you don't know something. This road is a shortcut to the second floor. There is an underground molten river cutting the road ahead. It can be said that the road ahead is like an isolated island."

"Generally, only fifth-level warriors take this shortcut to the second floor, while the rest of the people go to the second floor via another route."

"So, there's nothing we can do about this kid for the time being?"

"yes! Why!"

Speaking of this, Wang Yide couldn't help but shook his head and sighed.

Hearing this, Feng Xing was extremely upset, and then sneered again.

"Brother Wang, don't be disappointed. This kid will definitely go to the second floor. As long as he goes to the second level, with the three of us joining forces, we will definitely be able to kill him. When the time comes, I will not only ask this little beast to hand over the Fire Jade Lotus King, but I will also ask him to hand over his life!"

Hearing this, Wang Yide also nodded and said:"What Brother Feng said is good, then let's go to the second floor to find him. Feng

Xing also said:"In that case, let's go back and find Brother Lei first, help Brother Lei heal his injuries, and then go to the second floor to settle the score with this damn bastard!""

"That's exactly what Brother Feng said!"

At that moment, Feng Xing and Wang Yide turned back to look for Lei Yun.

Seeing that there was no hope of snatching the Fire Jade Lotus King, the remaining group of warriors cursed a few times and dispersed.

However, Feng Xing and Wang Yide turned around and found Lei Yun..At this moment, Lei Yun healed his injuries for a while, and the look on his face improved a lot.

When he saw Feng Xing and the other two returning empty-handed, he was surprised and asked why.

Feng Xing told the whole story. thundercloud

"I didn't expect that little beast to be so lucky. This guy is so blind!"

Lei Yun's eyes were full of annoyance.

Wang Yide on the side was even more annoyed.

"Why! What a pity for that Fire Jade Lotus King! I spent so much effort to grab it, but I didn't expect that in the end I got the advantage of that beast."

Hearing Wang Yide's complaint, Lei Yun felt a little embarrassed. In order to save his life, he threw the Fire Jade Refining King to Qin Chuan.

Although it was forced by the situation, in any case, Wang Yide lost the Fire Jade Lotus King. , they all have great responsibilities.

At the moment, Lei Yun said: "Brother Wang, don't worry, when we go to the second floor and meet that kid, I will definitely kill him. Sooner or later, the Fire Jade Lotus King will be ours"

"Brother Lei Yun, don't take this matter to your heart. I only hate that hateful beast now. You'd better recover from your injuries as soon as possible. Then we'll go down to the second level together. Feng

Xing also said: "That's exactly what I said, Brother Lei, let's find a quiet place to heal your injuries first!"

At that moment, the three of them left.

But on the other side, after Qin Chuan left the underground molten river, he saw that everyone behind him was leaving in all directions, so he took the Fire Jade Lotus King into the God of War Order space, and then took out He checked the map of the Fire Lotus Cave placed in the God of War Order space.

When he saw it, his face suddenly showed joy.

It turned out that this road was a shortcut to the second floor, and there was an underground molten river ahead that cut off the road. It seems that they can't come over.

In this case, I will find a place in front of here and heal my injuries for a while before leaving!

Thinking of this, Qin Chuan took Qiuqiu to find a suitable place nearby to heal his injuries..

Chapter 2152

He had been injured by Lei Yun's three divine thunder sons before, and had not been treated in time. Qiuqiu also suffered a sword wound.

It didn't take long for Qin Chuan to find a suitable place, which was a culvert next to the passage. The entrance was small and the inside was spacious, resembling a small stone house.

After entering the place, Qin Chuan took some coagulation powder and applied it on the wounds outside Qiu Qiu's body, and then gave Qiu Qiu the last small piece of extraterrestrial meteorite.

When Qiuqiu saw the piece of meteorite, his tired expression seemed to be energized again, and his eyes gleamed. He let out a low growl, opened his mouth and swallowed the piece of meteorite, and then shrunk in size. He returned to his original appearance, crawled into Qin Chuan's arms and fell asleep.

Seeing Qiuqiu's appearance, Qin Chuan ignored it, swallowed a Qingling Pill, and healed the injury himself.

In fact, Qin Chuan's internal injuries were not serious. It only took him an hour to heal all his injuries and return to his prime.

Qiuqiu was still asleep in Qin Chuan's arms and did not wake up.

In order not to disturb Qiuqiu, let it sleep for a while.

Qin Chuan did not rush off immediately, but took out the huge Fire Jade Lotus King from the God of War Order space and studied it.

Previously, he had been busy dealing with various situations and had not had time to study them.

Qin Chuan took out the Fire Jade Lotus King as big as a basin, and a light and elegant fragrance immediately spread out.

Qin Chuan took a slight breath and inhaled the fragrance into his body. He immediately felt refreshed all over his body and felt extremely comfortable in his heart. At the same time, he also felt a warm softness, mixed with this artistic conception of fire, which was a warm artistic conception.

"This Fire Jade Lotus King is indeed a rare treasure! Just a hint of fragrance can bring a sense of enlightenment."

Qin Chuan sighed in his heart, and his eyes fell on the Fire Jade Lotus King.

He saw that the lotus flower was crystal clear, as if it were carved from fine ruby. In the faint, red light bloomed like a flame, and there was a fragrance floating in it.

"The petals are indeed like ruby, and the radiance is like a flame. No wonder it is called the Fire Jade Lotus. The lotus seeds in the lotus pod should be the fire jade lotus seeds."

Qin Chuan once took Fire Jade Lotus Seeds. He got it from Deputy Cao, in order to break through to the third level.

However, the Fire Jade Lotus Seeds that Qin Chuan took that time were just ordinary Fire Jade Lotus Seeds.

For ordinary fire jade lotus seeds, it only takes decades for the lotus seeds in the lotus pod to mature, and there is a 10% chance that a second-level Dzogchen warrior can break through the bottleneck and reach the third level.

However, compared to this fire jade lotus, this fire jade lotus It is far from the king.

Only Fire Jade Lotus that is more than five hundred years old can be called the Fire Jade Lotus King. It can be seen that its effect is naturally much better than the ordinary Fire Jade Lotus.

However, the Fire Jade Lotus King's Lotus seeds are only helpful for breaking through the bottleneck from the second level to the third level, but are not very helpful for breaking through the third level to the fourth level.

Because the breakthrough from the third level to the fourth level requires not only the accumulation of vitality, but also the need for enlightenment. Create your own natal spiritual fire.

In fact, when a warrior reaches the fourth level, in addition to the basic destructive power, his attack power also comes with elemental attribute damage.

The strength of this elemental attribute damage depends on the depth of the warrior's understanding of the elements of cultivation. The deeper you go, the stronger the elemental damage, and you can often get unexpected effects in battle.

However, most fourth-level warriors have similar perceptions, and their elemental damage is not much different.

Only a few warriors, perhaps because of their understanding The natal spiritual fire they obtain is extremely destructive due to unusual heights or various unexpected encounters, and they can often defeat opponents stronger than themselves.

Just like fourth-level fire warriors, most of the natal spiritual fires perceived by fourth-level warriors belong to Low-grade spiritual fire has limited attribute damage. If it is a middle-grade spiritual fire, its attribute damage is greatly increased, which is equivalent to an invisible increase in combat effectiveness by 20%.

In general, this Fire Jade Lotus King cannot help Qin Chuan broke through to the fourth level of the fire system.

However, after Qin Chuan reaches the fourth level of the fire system and refines this Fire Jade Lotus King, his fire system cultivation can be greatly improved...

Chapter 2153

After a warrior reaches the fourth level, it is extremely difficult to improve his cultivation.

Even if Qin Chuan is a genius in the fire system, it will take more than ten years for him to practice from the fourth level of the fire system to the peak of the fourth level.

But if he refines this Fire Jade Lotus King, it can save him five years of training time.

It can be seen from this that the preciousness of this Fire Jade Lotus King is

"Unexpected! I had such a big harvest just after entering the Fire Lotus Cave. Although the Fire Lotus Cave produces Fire Jade Lotus, the Fire Jade Lotus King is rare to see in a hundred years."

Getting a Fire Jade Lotus King made Qin Chuan very satisfied with his trip to the Fire Lotus Cave. Even if he couldn't get other treasures later, getting this Fire Jade Lotus King would be considered a great harvest.

At the moment, Qin Chuan Chuan then dug out all the lotus seeds of the Fire Jade Lotus King.

These lotus seeds were much stronger than ordinary fire jade lotus seeds and were of great help to the second-level Dzogchen warriors to break through to the third level. Qin Chuan had other uses for digging them out..

Then, Qin Chuan cut off another half of the petal, and took the entire Fire Jade Lotus King into the space of the God of War.

After doing this, Qin Chuan ate the small half of the petal, then closed his eyes and meditated, and began to practice Transformation.

His current fire cultivation level is still the third level of Dzogchen, and has not yet reached the peak of the third level of Dzogchen.

Qin Chuan wants to refine this small half of a petal, and cultivate his fire energy to the peak of the third level of Dzogchen in one fell swoop.

Having said that, the concentration of fire energy in this Fire Lotus Cave is more than twenty times that of the outside world, so it is indeed a good place for cultivation.

However, Qin Chuan said that as soon as he ate the petals, he immediately felt a warm feeling coming from the petals. The air flow instantly spread throughout his limbs, and more air flow rushed directly to the sea of Qi in Dantian. The fire energy in the cave seemed to be induced by something, and began to converge towards him with Qinchuan as the center.

The fire energy More and more of them gathered, and finally a huge phantom of the lotus was formed around Qinchuan.

Qinchuan seemed to be sitting in the middle of the lotus.

Then, the phantom lotus actually began to wrap up Qinchuan, and a large number of them The fire energy also surged into Qin Chuan's body.

Of course, Qin Chuan had his eyes closed, and he did not know what was happening in the outside world.

In this way, Qin Chuan spent three hours refining, and then he slowly He opened his eyes.

When Qin Chuan opened his eyes, his face was full of ecstasy.

His fire energy had finally reached the peak of the third level of perfection in one fell swoop.

He never expected that he could cultivate his fire energy to the level of the third level of perfection so easily. It's at its peak. The effect of the Fire Jade Lotus King is really extraordinary!

Qin Chuan sighed in his heart, and quickly closed his eyes and looked inside his Qi sea.

In his Qi sea, the red droplets representing the spirit of the natal fire had already It is as big as a walnut, which is already the limit of the size of the natal fire spirit.

However, the biggest difference between this natal fire spirit and the past is not the size, but the fact that a small purple flame is born in the center of the red droplet.

That The purple flame was extremely small, only about the size of a soybean, suspended in the middle of the red liquid droplets, like a baby wrapped in an embryo, and the red liquid was like mother liquid, nourishing and cultivating it.

Seeing the small purple flame, Qin A look of joy appeared on Chuan's face.

Because the little purple flame is the seed of the natal spiritual fire.

Only when one reaches the peak of the third level of perfection, the spiritual fire seeds will be born in the natal fire spirit.

This is also the advanced level. The symbol of the third-order Dzogchen peak.

In fact, it is extremely difficult to generate spiritual fire seeds. This requires a deep understanding of 'fire'. Many third-order Dzogchen warriors have been unable to cultivate to the third-order Dzogchen peak. It's because he's stuck here.

Qin Chuan's ability to successfully break through to the peak of the third level of Dzogchen is inseparable from his extremely high understanding, apart from eating the small half of the petals of the Fire Jade Lotus King...

Chapter 2154

Sure enough, as others said, as long as you practice to the peak of the third level of Dzogchen, you can give birth to your own spiritual fire seeds. I wonder if my natal spiritual fire in the future will also be a low-grade spiritual fire?

I think it must be a low-grade spiritual fire. How can it be so easy to comprehend the middle-grade spiritual fire? However, with this progress, my strength has increased a lot!

Moreover, with the increase in strength, Qin Chuan's speed also increased.

Based on Qin Chuan's current estimation, the speed will definitely surpass Lei Yun, and even compared with Feng Xing, it is not far behind.

Generally speaking, although Qin Chuan's combat effectiveness is not much better than that of an ordinary fourth-level Dzogchen warrior, his speed and defense are much stronger than that of an ordinary fourth-level Dzogchen warrior.

The improvement in strength made him more confident.

At this time, Qin Chuan felt something moving in his arms.

Qin Chuan immediately opened his eyes, only to see Qiuqiu looking at him with a pair of small eyes open.

It turned out that this little guy had woken up a long time ago. When he saw Qin Chuan finishing his practice, he closed his eyes and ignored him. He couldn't help but feel a little anxious, and he thrust his little head into Qin Chuan's arms.

"Little one, you're awake too!"

"Gujiguji!!"

Qiuqiu nodded obediently.

At this time, Qin Chuan found that the sword wound outside Qiuqiu's body had been completely healed, his spirit was fully restored, and his strength seemed to have increased a bit.

This made him secretly think: "It seems that Qiuqiu shot That silver beam of light consumes a lot of energy, but this meteorite can quickly restore his energy."

"Little guy, that light of yours is quite strong. Let's give it a name. How about calling it 'The Divine Light of Destruction'?"

"Gujiguji!"

Qiuqiu tilted his little head and thought for a while, then nodded happily, obviously very satisfied with the name.

"That's fine since you agree. Let's go! We have been delayed here for several hours. Let's go to the second floor quickly. There should be more treasures on the second floor!"

"Gujiguji!!"

Qiuqiu immediately happily jumped onto Qin Chuan's shoulders.

Qin Chuan smiled and touched its fluffy little head, and was about to set off.

Before he walked out of the hiding place, his expression moved slightly, He quickly listened carefully, and then his eyes showed surprise.

"somebody is coming! There seems to be more than one. How did these people take this shortcut? Are there fifth-level warriors among them, or do they also have flying pets?"

Thinking of this, Qin Chuan continued to hide there, eavesdropping on the conversation of those people.

After a while, those people came closer, and Qin Chuan finally heard clearly that there were three people coming and one more. There was a ferocious beast.

When Qin Chuan heard the voices of the two of them clearly, his eyes showed horror, and he thought to himself: "It can't be such a coincidence, right? I actually met them here." turn out to be, Chuan heard that two of the three people were actually the little prince and his personal bodyguard commander Zou.

At this time, the little prince's voice came from not far away

"This time, thanks to General Cheng, otherwise we would not be able to cross such a wide underground molten river.

Another old voice immediately said: "Your Highness, you are welcome, this is what a subordinate should do."

Hearing the old man's voice, Qin Chuan knew that this old man was General Cheng and the fifth-level warrior that the little prince was waiting for..

Chapter 2155

"hehe!! General Cheng doesn't have to be humble! This time we came to Fire Lotus Cave a step later than others. Those people entered the Fire Lotus Cave first. I think there should be many people rushing to the second floor at this moment."

"The first floor of the Fire Lotus Cave is just that, there are not many treasures, but the second floor has a lot of treasures. If we follow the original path, we will definitely fall behind others. By the time we get to the second floor, I am afraid that all the treasures will have been collected by others."

"If we want to get ahead of others, we can only take this shortcut. However, this shortcut cannot cross the two underground molten rivers without the strength of the fifth level, so it is thanks to General Cheng's help!"

General Cheng still shook his head and sighed.

"His Highness's words make this official feel ashamed! If the official hadn't been delayed by something on the way, he could have met up with His Highness earlier. Now there would be no need for His Highness to rush on his way in such a hurry. His Highness would not be deceived by that Wang Tianqi and defrauded of dozens of Yun Breaths at once. Dan."

When the little prince heard General Cheng mention this, he immediately became furious and gritted his teeth.

"General Cheng, please stop mentioning that damn liar Wang Tianqi. That matter, this prince is not done with him."

"When things are over here, I will ask General Cheng to accompany me to Tianshui City again to see if I can find the liar. If I can find that liar, I will cut the body into pieces. Only by doing this can I relieve the hatred in my heart!"

"Don't worry, Your Highness, I will definitely accompany you! Qin

Chuan, who was hiding in the dark, looked very complicated after hearing these words, and said secretly: "This little prince really hates me. If I show up this time, he will definitely skin me alive." "

But at this moment, another soft 'Hey!' came from the distance from General Cheng.

Then Qin Chuan heard General Cheng deliberately lower his voice and said: "Your Highness, there seems to be someone in front of you, hiding on the side of the passage. In the fork in the road."

Hearing this, the faces of the little prince and Commander Zou changed slightly, showing surprise.

The little prince even lowered his voice and asked: "General Cheng, if that person can appear on this road, he must have crossed that road. There is a molten river underground. Could it be that he is also a fifth-level warrior? General

Cheng shook his head slightly, staring at the place where Qin Chuan was hiding, with a look of doubt.

After a while, he said: "It's too far away, I can't sense it clearly, but he must not be a fifth-level warrior, because his aura is not strong." , should be weaker than the fifth level warrior."

But Qin Chuan, who was hiding in the dark, immediately changed his face when he heard their conversation.

Because he knew that General Cheng must have discovered him.

Unexpectedly, a fifth-level warrior was so sharp that he could detect him from such a distance.. What should we do?

If he looks like this, as soon as he goes out, the little prince will definitely recognize him at a glance, and General Cheng will definitely kill him. But it's too late for him to escape now.

General Cheng is five A level 5 warrior, my speed cannot match him.

How could I escape the pursuit of a level 5 warrior? What should I do? Am I going to wait here to die?"

Thinking of this, Qin Chuan became a little anxious.

At this time, the little prince's voice came from the distance again.

The little prince seemed to be relieved and said:"Since he is not a fifth-level warrior. General Cheng, let's go over and take a look. Who is hiding there?"

"I obey my orders!"

At that moment, the group of three people walked towards the place where Qin Chuan was hiding.

Qin Chuan, who was hiding in the dark, became even more anxious when he heard the three little princes approaching.

However, he quickly calmed down and sorted out everything Thoughts, Qiuqiu quickly gave Qiuqiu a look.

Qiuqiu also immediately understood, and obediently asked Qin Chuan to put it into the space of the War God Token.

After hiding Qiuqiu, Qin Chuan took off the mask, released the transformation, and then put himself His cultivation level was at the level of the third level of the fire system, and all other vitality cultivation levels were hidden.

Afterwards, Qin Chuan also stuffed the mask into the space of the God of War Order and hid it. After doing this quickly, Qin Chuan felt relieved. Tone..

## Chapter 2156

The little prince only knew that he was Wang Tianqi when he transformed into a mask. As long as he didn't transform, the little prince would naturally not recognize him as Wang Tianqi.

As for hiding Qiuqiu, he was also afraid of arousing the suspicion of the little prince. The little prince had seen Qiuqiu look like after his transformation.

"Since I can't escape, I have to deal with you patiently, hoping that I can escape this time. Qin

Chuan thought to himself and waited for a while.

He waited until the little prince and the three were only forty or fifty meters away from his hiding place, and then slowly walked out of the hiding place. As soon as

Qin Chuan walked out of the hiding place , then looked at the three little princes.

When his eyes fell on the little prince, he immediately pretended to be full of surprise and shouted to the little prince:"Is this the little prince in front of you from the Kingdom of Beasts?"

Hearing Qin Chuan's shout, the little prince showed surprise on his face and looked at Qin Chuan with doubtful eyes. The boy in front of him had long hair and was only fourteen or fifteen years old, but his clothes were all in tatters. It was in tatters, with some burn marks, and looked a little embarrassed.

However, he also felt that the boy in front of him looked familiar, but he couldn't remember who it was for a while.

At this time, the little prince and others had already come closer.

"Who are you? Have you met this prince? How else would you recognize that I am the little prince of the Kingdom of Beasts?"

The little prince looked at Qin Chuan with confusion. The more he looked, the more familiar he felt. He just couldn't figure out where he had seen the young man in front of him.

At this time, Qin Chuan also took a step forward, pretending to be surprised.

"It is indeed the little prince. Your Highness, the little prince, we have met on the grounds of the Water Academy of the Tianshui School. At that time, the younger one was delivering a letter to my Miss Xie Qi."

Hearing Qin Chuan's reminder, the little prince immediately remembered it, with a look of surprise on his face.

"This prince remembered, it turns out that you are the Zhou family guard who delivered the letter to Miss Seventh. This prince said, why do I think you look so familiar? It turns out that we have indeed met before. By the way, I remember that your cultivation at that time was the second level of Dzogchen. I didn't expect that you would reach the third level so quickly!"

"It seems that your talent is indeed amazing! I have never seen many people whose talent can match yours."

General Cheng on the side also nodded and praised: "This guy's talent is really good!" Qin

Chuan pretended to be modest and said: "Your Highness is very grateful. I was just lucky for a while, and I just made a breakthrough recently."

"Oh I got it! Logically speaking, you should be at the Zhou family, why did you show up at the Fire Lotus Cave?"

The little prince raised the question in his heart.

Qin Chuan lied casually: "Your Highness, the matter is like this."

"The younger one came to Riyun Town to deliver a letter to the mayor. After completing the task, he wanted to try his luck in the Fire Spirit Valley. It happened that the younger one had just broken through to the third level. He was arrogant and did not know how high the sky was. At that time, after entering the Fire Spirit Valley, I went directly into the inner valley, but I didn't want to enter this strange place by mistake."

"It was also because he was too weak that he ended up like this not long after entering this place."

After saying that, Qin Chuan pointed to the ragged clothes and some burnt places on his body.

In fact, he looked like this because he was exploded by the God of Thunder.

After listening to Qin Chuan's words, the three little princes were surprised. I thought it was reasonable.

After thinking for a while, the little prince smiled and asked: "Seeing that your clothes are burnt in many places, you couldn't have been touched by the lava, right?" But how do you get lava on yourself?

Qin Chuan pretended to shake his head and sighed: "Hey!" Your Highness doesn't know anything. As soon as I entered here, I met a group of treasure robbers. They fought with each other and exploded the magma in the ditch. The younger one watched from the sidelines, but he didn't want to be harmed by the fish and ended up like this."

Chapter 2157

Hearing Qin Chuan's explanation, the little prince nodded slightly and asked: "I can understand why you are in such a mess. But how did you get here? The underground molten river was over a hundred meters wide that day. It's impossible to cross it with your strength"

"Here's the thing. When I entered this strange place, I just wanted to find an exit, but I couldn't get out after wandering around for a long time. Finally, I met a fifth-level senior."

"When the senior saw that the young man had good qualifications, he wanted to accept him as his apprentice. He said that if the little one agreed, he would take the little one out. When I was young, I recognized the fifth-level senior as my master."

"I see! Well, I would like to congratulate you for having a fifth-level senior as your master. Having said that, with your qualifications, there will indeed be many masters willing to accept you as their apprentice."

"Thank you for the compliment, Your Highness!"

"hehe! You don't have to be humble either. Listening to what you just said, your master brought you here when you came here. So where did your master go? Qin

Chuan replied:"My master thinks that the young one is too weak, so he asked me to hide here first. He will deal with some things first and come back to me later.""

After listening to Qin Chuan's words, the little prince and the three of them were silent for a while. They carefully thought about what Qin Chuan had said, but found no flaws.

At that moment, General Cheng believed it 70% or 80% and said to himself He said:"Unexpectedly, a fifth-level warrior has already come in before us. Your Highness, I suggest that we go to the second floor quickly, otherwise all the good things will be looted.

Hearing this, the little prince hesitated, then pulled the two of them aside and started talking quietly.

When Qin Chuan saw the little prince doing this, he couldn't help but shuddered in his heart, and suddenly felt that something was wrong.

Sure enough, soon the little prince's whisper came from

"Commander Zou, do you think this boy is that Wang Tianqi?

Hearing this, Commander Zou looked surprised and said,"Your Highness, why do you think so?"

"Don't you remember what Wang Tianqi said? He said that he was at the scene the day my prince and Liu Xian fought."

"I thought about it afterward, and there were not many people present that day who were above level three, but this red-haired boy was present at that time, and his strength was considered one of the stronger people present, so I The prince felt that he was probably one of the suspects"

"If you look at him, he is already at the third level of cultivation. How long has it been? Could it be that this kid is hiding his strength? In fact, he is Wang Tianqi."

After listening to the little prince's analysis, Commander Zou's expression moved slightly, and he also felt that it was possible.

"His Highness said this, this boy is indeed suspicious, but Wang Tianqi is a third-level Dzogchen warrior."

"If this kid is really Wang Tianqi, then his true strength is that of the third-order Dzogchen. He looks like he is only fourteen or fifteen years old. At such an age, he has the cultivation of the third-order Dzogchen. Is it a bit too exaggerated?"

"snort! Although it is indeed an exaggeration to say it, such geniuses do exist in this world. Maybe this kid is such a genius"

"Your Highness, what should we do? Since you doubt him, why don't we kill him now!"

General Cheng on the side stopped him and said, "No!" Didn't you listen to what that kid said just now? He just recognized a master. That master is a fifth-level warrior."

"If we really kill him, if his master knows about it, this trip to the Fire Lotus Cave will be dangerous. Although the official is not afraid of his master, the official cannot guarantee the safety of His Highness."...

Chapter 2159

Not long after, the group encountered an underground molten river.

With the help of General Cheng, the little prince and Zou Tong crossed the underground molten river first.

In the end, Qin Chuan and the little prince's purple-horned ice clouded leopard was carried across the underground molten river by General Cheng in one hand.

After crossing the melting river, everyone walked forward for about three or four miles, and then they saw a cave entrance in front of them.

Seeing the entrance of the cave, everyone's faces showed joy.

The little prince pointed at the entrance of the cave and said, "You can reach the second floor by entering the entrance in front. Let's go in quickly!"

At that moment, a group of people entered the second floor.

As soon as he reached the second floor, Qin Chuan felt that the fire energy in the cave was more intense than on the first floor. The sky was filled with red light all around, and the cave was filled with sewer magma. Less red crystal rock.

Qinchuan knew that those red crystal rocks were called fire spirit rocks, which were also a good fire material. They could be found in many volcanic craters, so they were not valuable.

Generally speaking, a fist-sized fire spirit rock was worth more than a dozen gold coins, but Qin Chuan looked down upon this value.

However, it is easy to generate fire crystals in these fire rocks.

At this time, General Cheng surveyed the surroundings for a while and then said to the little prince: "There are many footprints around here. It seems that someone has already entered the second level before us."

After hearing this, the little prince said anxiously: "Then let's go in quickly!"

Immediately, the group of people hurriedly walked deeper into the cave.

Not long after walking, we encountered three forked roads.

Seeing these three forked roads, the little prince said: "These three roads all lead to the Sky Fire Lake on the second level. We can take any of them. General Cheng, take a look again. Which of these three roads is less popular? ?"

General Cheng listened to the order and immediately started investigating, and soon found that no one was walking on one of the forked roads, which meant that not many people came in.

At that moment, the group of people set off along the forked road that no one had ever traveled before.

Along the way, I found several Fire Spirit Crystals, which were all divided up by the three little princes, but Qin Chuan did not get a share.

Although two of them were discovered by Qin Chuan, the little prince and others regarded them as their own and had no intention of sharing them with Qin Chuan.

In fact, they were basically treating Qin Chuan as a hostage. How could they possibly share his treasure?

"Huh! Fire Jade Lotus!"

At this time, the little prince's cry of surprise came from not far away.

In a small molten pool in front of him, there was a fire jade lotus as big as the mouth of a bowl growing.

The little prince immediately ran over in surprise and took the flower. The fire jade lotus was picked.

Qin Chuan on the side saw this scene and secretly marveled. Only then did he know that the fire jade lotus grew in the magma. Maybe it was because he had just got a fire jade lotus, and the little prince was in a good mood. , and talked more

"Ha ha!! No one has walked on this road, so there are indeed many treasures!

Commander Zou immediately flattered him and said, "Yes!" I still want to congratulate His Highness on getting a Fire Jade Lotus."

"hey-hey!! This is nothing, let's hurry to the 'Sky Fire Lake'. I heard that the 'Sky Fire Lake' is rich in Fire Jade Lotus. If you are lucky, you can even find the Fire Jade Lotus King."

"Anyone who enters the Fire Lotus Cave will definitely go to the Tianhuo Lake. We'd better go there quickly and don't let others get there first."

"yes! Your Highness!"

The group was about to set off.

Xiao Wang remembered something again, turned to Qin Chuanpi and said with a smile: "Brother Qin Chuan, it stands to reason that your master must be in Tianhuo Lake. We will definitely see him this time when we go to Tianhuo Lake, right?"..

Chapter 2160

"I don't know about this kid. My master only told me to go to the second floor. As for going to the second floor, he didn't tell me."

"hehe!! Yeah?"

The little prince smiled coldly, a cold light flashed in his eyes, and then said

"I think your master should be there. That day the Fire Lake was the only way to go to the third level, and it was also the place rich in treasures in the Fire Lotus Cave. Your master has gone down to the second floor, there is no way he will not go there. We should meet your master this time when we go to Tianhuo Lake, right?"

After speaking, the little prince stared at Qin Chuan coldly. He wanted to see how the other party would answer.

Qin Chuan was helpless and could only say: "If according to what His Highness the little prince said, the lake of fire was a place rich in treasures that day, I think I The master will probably be there!"

"Ha ha!! When we get there, you must introduce your master to us!"

"Ha ha!! must! must!"

At that moment, the two pretended to be polite and set off again.

On the way, Commander Zou stepped forward, got close to the little prince, and asked softly: "Your Highness, when we arrive at Tianhuo Lake later, what should we do if we don't find this boy's master? ?"

"snort! That means that what this kid said is most likely false. No matter how many there are then, let's kill him first!"

"What if what this kid said is true?"

"Even if it is true, his master is not in Tianhuo Lake, and no one will avenge him if we kill him. Besides, after passing Skyfire Lake, you will reach the third level. You can go out by then. Are you still afraid that his master will chase him?"

"Does His Highness mean to kill his master if he doesn't find him as soon as he arrives at Tianhuo Lake?"

"good! I would rather kill the wrong person than let him go! Do we still have to carry this burden all the way to the third level?"

"That's exactly what His Highness said!"

Qin Chuan, who was behind the team, naturally heard the conversation between the two clearly and couldn't help but secretly thought.

"This little prince is indeed vicious. When I arrive at Tianhuo Lake, as long as I can't find a master, he will definitely let General Cheng kill me. It seems that I have to figure it out first and come up with a way to escape."

Not long after, the group of people came to an intersection.

This intersection is the convergence point of three forked roads, and there is only one road in front.

It is a very narrow passage that can only allow one person to pass.

On both sides of the passage are hundreds of feet of cliffs, and there is still a cliff under the cliff. It was fiery red lava, which looked very dangerous and made people a little frightened.

However, the group of people passed the narrow passage smoothly.

Not long after walking forward, everyone came to a cave made of earthly fire lava. Huge magma lake.

Before he even got close, Qin Chuan felt waves of heat coming from the lake.

He could only see the lava lake not far away, shrouded in red mist. At a glance, he could not see the edge.

The fiery red magma It kept rolling and splashing, sometimes emitting streams of flames, and sometimes emitting streams of black smoke.

However, the lake was bare, without a single island or even a reef to stand on.

At this moment, the shore in front of Twenty or thirty warriors were gathered, seemingly waiting for something.

"What a huge molten lake! Could this be Tianhuo Lake?"

Looking at the huge molten lake, Qin Chuan couldn't help but sigh.

At this time, the voice of the little prince came to his ears.

"Tianhuo Lake has arrived. Brother Qinchuan, among the group of people in front, there should be your master. Let's go there!"

The little prince glanced at Qin Chuan proudly, and used his eyes to signal General Cheng to keep an eye on Qin Chuan.

General Cheng understood and immediately walked behind Qin Chuan, focusing all his attention on Qin Chuan.

As long as Qin Chuan made any changes, he would Kill the opponent with one palm without hesitation..
