

## God level 2171

### Chapter 2171

Qin Chuan stood at the center of the island, which was also the highest point, and had a clear view of his surroundings.

After everyone saw Qin Chuan climbing the island, they started to board the island one after another and dispersed to the edge of the island.

Because the island will be traveling in the lake soon, and you will definitely see a lot of fire jade lotuses along the way.

Of course, bargains can only be found on the edge of the island.

This made Qin Chuan feel a little more at ease.

After a while, most of the warriors dispersed around the edge of the island, each guarding an area. Only General Cheng remained unmoved and continued to monitor Qin Chuan's actions from a hundred meters away.

The floating island seemed to be spiritual, when everyone landed on the island.

The floating island trembled slightly, then slowly started to move towards the center of Tianhuo Lake.

The speed of this small island is not slow. It didn't take long before it was twenty or thirty miles away from the shore and entered the dense fog area.

From a distance, Qin Chuan saw another group of people coming to the shore.

Unfortunately, that group of people arrived a step too late and missed the trip to the floating island.

When the floating island entered the lake forty or fifty miles away, fire jade lotuses began to appear along the way.

Many warriors began to stand on the edge of the island, using various strange tricks to salvage the Fire Jade Lotus from the lake.

Moreover, as the floating island travels toward the center of the lake, the more Fire Jade Lotuses you encounter along the way.

Many people have gained something.

Among them, the most rewarding ones are Zhang Chi and Feng Xing.

Zhang Chi has a flying pet that has been flying around the island. It is very convenient to pick those fire jade lotuses.

Fengxing has the air skill and can fly in the air.

It's just that his flying skills are not very fast.

As for General Cheng, in order to monitor Qinchuan, he could only temporarily miss this great opportunity.

In general, along the way, everyone's mood gradually became high and excited.

After all, many people picked fire jade lotus flowers along the way, and they were naturally in a good mood.

In the blink of an eye, everyone was riding on the island and drifting in the lake for two days.

In the past two days, General Cheng and others have changed several shifts to monitor Qinchuan.

What surprised them was that after two days and two nights in a row, Qin Chuan was still full of energy and not at all sleepy.

On the other hand, the little prince had already fallen asleep after being frightened for days.

However, in these two days, all the warriors gained a lot, and almost everyone got more than one Fire Jade Lotus.

Unfortunately, no one saw the Fire Jade Lotus King.

In the past two days, besides paying full attention to all the changes around him, Qin Chuan's biggest feeling was the shock brought to him by the hugeness of the Sky Fire Lake.

If there is no floating island to guide the way, a person flying alone over Tianhuo Lake is likely to lose his way.

There is no sunrise or moonset here to help identify the direction. Everything can only be done by intuition.

Getting lost over Skyfire Lake would be fatal.

But on this day, Qin Chuan was still as usual, alert to the surveillance ahead.

Suddenly, his expression moved slightly and he looked to the left and back.

He vaguely heard a strange turning sound coming from that direction.

Zhang Chi in front also noticed something strange about Qin Chuan, but he did not act rashly immediately. Instead, he looked in the direction Qin Chuan was looking. Soon, the doubt in his eyes became stronger and stronger.

Apparently, he also noticed something strange.

Sure enough, it didn't take long.

Qin Chuan vaguely saw a huge talisman formation suspended in the air on the lake in front of him.

It's just too far apart to see clearly

"Huh! That seems to be a big formation!"

Zhang Chi, who was not far away, obviously saw it too, with a look of surprise in his eyes.

As the floating island got closer and closer to the formation, more and more warriors saw it.

Everyone stopped their picking work, Everyone gathered together curiously and stopped to look at the large formation in the distance.

When the floating island was only a dozen miles away from the formation, everyone could see the appearance of the large formation clearly, and their eyes showed incomparable horror.

Even Qin Chuan was shocked...

Chapter 2172

I saw the large formation in front, suspended in the sky above Tianhuo Lake.

In the center of the formation is an extremely huge black flame, burning fiercely, at least a thousand meters high, and emitting extremely terrifying energy at this moment.

Qin Chuan was more than ten miles away from it, and he could feel the energy contained in it, expanding the tension that burned everything in the world. At the same time, he felt an unprecedented fear in his heart.

However, what surprised him even more was that there were eight huge rune stone tablets more than 10,000 meters long suspended around the black flame, which were slowly rotating around the black flame at the moment.

And below the formation, the fiery red magma within tens of thousands of square meters automatically built the appearance of an altar.

On the altar made of lava, huge runes composed of magma arrangements kept appearing one after another. They were constantly changing, rotating, and appearing and disappearing!

Although Qin Chuan was far away from the formation, he could clearly sense that the entire formation was producing a huge suction force, frantically sucking all the fire energy around him into the formation, as if he was refining the huge mass of energy. black flame

"Oh my God! This is the Heaven-Refining Fire-nurturing Array. Who on earth has such a big hand and actually put up such a huge Heaven-Refining Fire-nurturing Array on the Sky Fire Lake?? "

Zhang Chi couldn't help but marvel, his eyes filled with shock.

Among the warriors not far away, some also recognized the black flame and exclaimed.

"That black flame is the top-grade spiritual fire, Earth Flame and Sky Fire'! "

"yes! It is indeed Earth Flame and Sky Fire. I have heard people say that it is called Sky Fire Lake because there is Earth Flame and Sky Fire in it. Now it seems that it is indeed the case."

"I heard that the power of the Earth Flame and Sky Fire is so amazing that even a fifth-level warrior will be burned to ashes if he encounters the Earth Flame and Sky Fire."

"That is! This Earth Flame and Sky Fire can only be condensed by an eighth level fire element warrior. However, even an eighth-level warrior cannot condense so much. It is really unheard of to have so many earthly and heavenly fires!"

Qin Chuan still knows about the Earthly Flame and Heavenly Fire. After all, it is one of the famous high-grade spiritual fires. Generally speaking, the natal spiritual fires condensed by fourth- and fifth-level fire warriors are low-grade spiritual fires. Sixth-level spiritual fires

What is condensed with the seventh-level fire warrior is the middle-grade spiritual fire.

The natal spiritual fire condensed by the eighth-level fire warrior is the high-grade spiritual fire.

Of course, there are also some fourth-level warriors who rely on chance or understanding to condense the middle-grade natal fire. Spiritual fire, the strength will naturally increase greatly.

With the middle-grade spiritual fire, he can be proud of the same level, but there are very few such examples.

It is absolutely impossible for a fourth-level warrior to condense the high-grade natal spiritual fire. Even if he condenses it, If you come out, you will be destroying yourself, and you will be burned to ashes in an instant. It is an impossible barrier to cross.

Soon, the floating island was only two miles away from the huge floating formation, and all the warriors also felt that the formation was There was a huge suction force getting stronger and stronger. One person was so frightened that he lay on the island and did not dare to move. He was afraid that he would be sucked in by the large formation and turned into ashes by the 'Earth Flame and Sky Fire'.

However, everyone soon discovered that in the distance, Within the 200-meter radius of the formation, there are several Fire Jade Lotus King plants growing. One of them is astonishingly big, as big as a bathtub. It is obviously the Fire Jade Lotus King that has been growing for more than a thousand years..

Everyone on the island was moved when they saw the oversized Fire Jade Lotus King, but no one dared to go there.

Even Zhang Chi didn't dare to go there to pick it.

Because it was too close to the formation, and he was afraid of himself Being sucked into the formation.....

At this moment, all the warriors were worried about a problem.

The question is whether this floating island will be sucked by the giant formation.

Fortunately, the floating island seemed not to be affected by the suction force of the formation. When it was two miles away from the formation, it no longer approached, but passed by and continued to the other side.

Everyone breathed a sigh of relief, but the shock brought by the huge 'Heaven-Refining Fire-nurturing Formation' still remained in their hearts, and they unknowingly felt a pang from the bottom of their hearts towards the person who set up such a great formation. kind of awe...

Chapter 2173

The floating island continued to move forward, getting further and further away from the formation. Not long after, the formation was no longer visible.

The warriors began to disperse to the edge of the island and continued to pick fire jade lotus flowers.

About a hundred miles later, everything was as usual.

General Cheng and others changed another team to monitor Qin Chuan.

This time, it was Lei Yun and others who monitored Qin Chuan.

At this moment, Lei Yun and others were muttering in their hearts, secretly thinking that Qin Chuan was a monster. He had not slept for almost three days and two nights, but there was no trace of fatigue on Qin Chuan's face.

This makes them unclear about Qinchuan's limits.

"Brother Feng, I always think this guy is a bit weird! It's like he doesn't need to sleep!"

"Um! Feng felt the same way. In fact, we learned this lesson the last time we were in Anye Town. We didn't think anything of it at that time. But now that we were face to face with him, we realized that this kid really didn't seem to need to sleep."

"Brother Feng, does this little thief really not need to sleep?"

"impossible! He is not a god, so how can he not need to sleep? As long as we are human, there will be times when we are mentally tired. Maybe this kid is just holding on, but in fact he has reached his limit. We don't have to worry, just wait with him!"

"Um! That's all it can do now."

Qin Chuan, who was not far away, naturally heard the two people's whispers clearly. A sneer appeared at the corner of his mouth, and his own thoughts began to swirl in his heart.

"This is not an option! This group of people had no intention of letting me leave safely. Even if I get out of the Fire Lotus Cave, I won't be safe. I still have to think of a foolproof plan."

Just when Qin Chuan was thinking secretly, the floating island began to slow down for some unknown reason.

Everyone quickly sensed this change.

Qin Chuan naturally sensed it too.

"Huh! How is this going? Why is this floating island getting slower and slower?"

There was a hint of astonishment in Qin Chuan's eyes.

Soon, the floating island gradually stopped.

Looking at the boundless sea of lava around them, many warriors began to show panic, because everyone realized a problem.

If this If the floating island does not reach the other shore, then everyone will be trapped in this lake of fire. Not many people can leave, and they will have to be trapped here alive.

Because it is still a long way from the other shore, and there are not many people here. Being able to cross the sea of magma in front of them and reach the other side was the reason why most people panicked.

Soon, the warriors gathered together and started discussing in a panic.

"what happened? Why is this floating island not moving?"

"I do not know!"

"What to do? If this floating island does not reach the other side, we will be trapped here."

"What...what can I do? There is a sheet of lava all around! It's definitely hard to get through. This island is also bare, there is nothing, and you will starve to death if you stay here!"

"Looks like we're in dire straits!"

At this time, a confused voice sounded from the crowd

"impossible! I came here once fifteen years ago! I have never heard that this floating island will stop halfway through the journey. This is really strange!"

The person who spoke was actually Zhang Chi.

It turned out that Zhang Chi came to this Fire Lotus Cave to explore the treasures fifteen years ago. He naturally knew the situation of Tianhuo Lake and also knew that if there was a flying pet in this Fire Lotus Cave, it would naturally be. It was very beneficial.

For this reason, fifteen years ago, after he left the Fire Lotus Cave, he began to spend a lot of money to buy flying pet eggs.

In the end, he was very lucky to get a pet of the fourth-level black feathered eagle king. Dan, all this is for this trip to the Fire Lotus Cave.

In fact, he has gained a lot from relying on the Black Feathered Eagle King this time.

Hearing Zhang Chi's doubts, many warriors looked towards him..

Chapter 2174

General Cheng stepped forward and said, "So City Lord Zhang came here fifteen years ago?"

"Yes! Fifteen years ago, Zhang came here once, but that time he was a little unlucky and didn't gain much. I remember that the floating island was traveling all the way to the other side, but it never stopped!"

Hearing this, worries began to appear on the faces of the warriors.

Since this kind of imagination has never happened before, but it has happened now, it means there is something abnormal. As for what the abnormality is, no one knows, but it won't be What a good thing.

At this moment, General Cheng also looked worried:"So, if this floating island stops, it will be a lot of good things. Then won't we be trapped here?"

As soon as these words came out, the warriors around were like a pot exploding, and they all began to discuss worriedly.

"Are we really trapped here?"

"What to do? If you're stuck here, you're waiting to die!"

"yes! There is magma everywhere. How far is it from the other side?"

Seeing the discussion of the group of warriors below, Qin Chuan also felt vaguely uneasy. He also felt that it was not a good thing for the floating island to suddenly stop.

Suddenly, Qin Chuan's mind flashed and he thought of a suspicious question.

At that moment, Qin Chuan Chuan then asked Zhang Chi loudly:"City Master Zhang, I have a question in my mind that I would like to ask. Seeing Qin

Chuan suddenly asking himself a question, Zhang Chi glanced at him in surprise, and then said:"If you have any questions, just tell me!" Qin Chuan then said:"

City Lord Zhang, when I was waiting to land on the island and left two days ago, I saw a group of warriors who had just arrived at the lake shore and failed to leave on the floating island with us. I wonder if someone had already left on the floating island when City Lord Zhang and others arrived at the lake shore? Zhang

Chi thought for a while and said: "We should be the second batch. Before us, the first batch of warriors had already left on the floating island." "

"So, the group of warriors I saw later were the third batch?"

"Yes! Why do you ask?"

Zhang Chi asked with some confusion.

Qin Chuan's face became more and more ugly, and he continued to ask: "City Lord Zhang, were you among the first batch when you came to Fire Lotus Cave last time?"

Zhang Chi glanced at him in surprise and said in surprise: "Yes, I was among the first batch last time." But how do you know?

Qin Chuan smiled bitterly and said, "You guessed it!" If you were among the first batch last time, we would be in big trouble soon!"

"How to say this?"

Qin Chuan continued: "I think you should have heard a rumor before entering the Fire Lotus Cave." This rumor is: Only a few people who entered the Fire Lotus Cave got out, and most of them disappeared inexplicably. Where did those missing people go?"

When they heard this, the expressions of all the warriors changed drastically. All the warriors present had heard of this rumor.

Before entering the Fire Lotus Cave, they all thought that there must be something dangerous in the Fire Lotus Cave, so they did not. Few people died in the Fire Lotus Cave, and only a few people came out alive.

However, along the way, they all discovered that there was nothing thrilling in the Fire Lotus Cave. As long as they did not die in a fight, everyone should be able to We reached the third floor safely and finally left safely.

However, in fact, only a few people left the Fire Lotus Cave, which is opened every three years, alive, and most people disappeared inexplicably. So where did the missing people go?

What is even more surprising is that every time the people who come out alive are not necessarily those with advanced cultivation, there are also third-level warriors who come out alive, and every time the people who disappear, there are also fifth-level warriors.

This seems to indicate that those The disappearance of the warrior has little to do with the depth of his cultivation.

"City Lord Zhang, I have another question for you. During your last trip to the Fire Lotus Cave, were the people who got out alive the first batch of people to sit on the same floating island with you? Are those missing people from the later batches?"..

Chapter 2175

Hearing this, Zhang Chi looked ugly, and after a while he said with difficulty:"It seems like this. You mean, only the first batch of warriors can leave here alive, and the following batches of warriors will disappear here?"

Qin Chuan sighed Said:"Hey! I also hope that my guess is wrong! But judging from the current situation, I'm afraid we are in a very bad situation."

As soon as these words came out, the warriors below became even more panicked.

"impossible! Boy, don't be alarmist there!"

"yes! Maybe this floating island just stops for a while and then they will move on."

"This kid is really trying to scare us by saying such things!"

Hearing the self-deception of the warriors below, Qin Chuan smiled slightly and ignored it.

In fact, he knew that many warriors below had believed his speculation, but they just couldn't accept it for a while.

While the warriors were still arguing, the whole A quiet force suddenly fell over the island, and the surrounding space seemed to become darker. A strange feeling was like a huge boulder pressing down on everyone's heart. At this moment, everything around him became silent. , everyone's faces showed a look of panic involuntarily, and their hearts became even more nervous. Everyone was focused on guarding the surroundings of the island. Where they came into view

, there was still Wang Yang's sea of magma, but it was terrifyingly silent.

Time was Bit by bit, that strange feeling became more and more obvious, and everyone's hearts became heavier and heavier. Unknowingly, everyone fell into a strange atmosphere.

About once again, we waited for a cup of tea After a while, there was still silence all around.

It was a kind of tranquility that almost made people collapse.

Many warriors could hardly bear the psychological torture. They knew that something was going to happen, but it just didn't come.

Just Just when some people could hardly bear the gloomy silence, two Skyfire Lakes not far away actually began to make rumbling roars.

Everyone immediately followed the sound. They saw that on the Skyfire Lake to the west and south of the floating island, at the same time A strange change occurred.

I saw a huge tremor occurred on the two lakes at the same time, and then began to rotate with a rumble, and slowly formed an extremely huge magma vortex, leading straight to the bottom of the lake. From a distance, the diameter of the vortex was at least several Kilometers long, and only seven or eight miles away from the island.

These two huge whirlpools actually formed a three-dimensional formation with the floating island.

Seeing this, everyone was horrified.

However, before everyone could wake up from the shock Coming over, the entire floating island began to tremble violently, and many people's faces immediately turned pale with fear.

At this time, six huge statues began to appear strangely around the floating island.

The six statues all looked the same. It has two horns on its head, fangs on its mouth, a very ferocious face, but its body is a human body, with its hands folded in front of its chest. The only difference is that the runes on the foreheads of the six demon statues are different. At this moment, those runes They were all flashing with red light.

Seeing six demon statues floating strangely out of the lake, everyone suddenly felt something was wrong.

Sure enough, a ferocious sneer suddenly came from above the island.

"quack!! The first batch of sacrifices has finally arrived!"

As soon as they heard this, the warriors raised their heads in horror.

Above their heads, a devil's head as big as a floating island appeared. However

, this devil's head was made of red flames. At this moment, it was grinning ferociously, looking down at the people on the island.

The weird feeling everyone felt before was emanating from the flaming head.

Many people screamed in panic when they saw the huge flaming head.

"Oh my God! Is this a demon?"

"not good! This time we will be eaten as sacrifices by the devil!"

"Ha ha!! It's good if you have this awareness!"

The flaming head actually sneered, and at the same time an invisible coercion emanated from it.

As soon as they felt that pressure, everyone felt their hearts chilling.

Because they felt that the momentum emanating from the flaming head was stronger than The eighth level warrior was even stronger.

This discovery made everyone completely despair..

Chapter 2175

Hearing this, Zhang Chi looked ugly, and after a while he said with difficulty:"It seems like this. You mean, only the first batch of warriors can leave here alive, and the following batches of warriors will disappear here?"

As soon as they felt that pressure, everyone felt their hearts chilling.

Because they felt that the momentum emanating from the flaming head was stronger than The eighth level warrior was even stronger.

This discovery made everyone completely despair..

Chapter 2176

Obviously, the huge flaming head in front of them may be a clone projection of a ninth-level demon, which is definitely not something they can contend with.

However, not everyone is disappointed.

At this moment, three figures suddenly flew out of the floating island, running in three different directions towards the Sky Fire Lake, desperately escaping for their lives.

These three figures turned out to be Feng Xing, Zhang Chi, and Qin Chuan.

It turned out that Qin Chuan felt something bad as soon as he saw six huge demon statues appearing around him. He immediately pushed the little prince away, released the ball, and let it transform immediately.

Later, when he saw the flame head appear again, he ran away on Qiuqiu without thinking.

Although he knew that he would never be able to escape the clutches of the demon above the floating island, he would not give up until the last moment.

Feng Xing and Zhang Chi had the same idea as him.

So the three of them flew in three directions in unison.

Because they know that staying on the floating island can only mean waiting for death. Maybe there is still a chance to escape like this.

This is also their last struggle.

However, when the warriors on the island saw Qinchuan and the others fleeing, many of them became red-eyed, and many of them collapsed completely, kowtowing to the flaming head and praying.

The flame head still laughed ferociously: "Humans! They are all so cowardly! Do you think I will agree to your prayers? You are destined to be my sacrifice." After hearing this, everyone on the island people are desperate.

A burst of laughter suddenly came from the crowd, but it was General Cheng who laughed crazily with his eyes red.

"Ha ha!! It's all death anyway! demon! I will fight with you!"

General Cheng jumped up, brandished the long knife in his hand, and slashed towards the flaming head in the sky.

"Dare to offend my majesty! court death!"

I saw the flame head snorting coldly, opening its mouth and spitting out a large ball of black flames, which turned out to be earthly flames and sky fires.

The earthly flames and sky fires instantly enveloped General Cheng and burned him.

General Cheng suddenly screamed miserably, and from the air Falling.

Before General Cheng could completely fall from the sky, his entire body was burned to ashes and completely destroyed.

Seeing this scene, everyone showed a look of horror. Only at this moment did they truly see the power of Earth Flame and Sky Fire..

They never imagined that a fifth-level warrior would be burned to ashes by a ball of earthly flames.

After killing General Cheng, the flaming head looked at the three escaping people, and then opened its mouth to suck Zhang Chi, and actually killed Zhang Chi. It sucked it back from several miles away and swallowed it in one gulp.

Then, it looked at Qin Chuan and Feng Xing again.

After hesitating, it also sucked Feng Xing back, and then swallowed it alive.

Finally, it looked at Qin Chuan said with a ferocious smile: "This sacrifice is too weak. Since you want to escape, I will make you suffer a little."

"As long as you enter the third realm, it is impossible to escape from my control, not even for an eighth-level warrior, not to mention that you are only a small third-level warrior. Since you want to escape, burn your legs first! quack!!"

After saying that, the flame head laughed ferociously, and as soon as his eyes were focused, there were two soybean-sized earthly flames and sky fires, which locked on Qin Chuan's legs and flew towards him quickly. However,

Qin Chuan was riding the ball in the air with all his strength. He ran away.

Suddenly, he saw Feng Xing, who was closer to him, being sucked back by the demon head. He was horrified. He quickly looked back and saw the demon head swallowing Feng Xing alive in one gulp. He was so frightened that his whole body shivered. , chills suddenly appeared all over his body.

At that moment, Qin Chuan urged anxiously: "Run Qiuqiu! Otherwise we will both be eaten by that monster!"

"Roar!"

Qiuqiu roared and flapped its wings desperately. It also realized that it was on the line between life and death. It completely stimulated all its potential and showed the fastest speed in its life..

Chapter 2177

However, Qin Chuan soon realized that something was wrong, because he didn't feel the demon's swallowing, which was a bit unreasonable.

According to common sense, after the demon devoured Feng Xing, it should have devoured him next, but the demon did not do that.

This kind of doubt made Qin Chuan couldn't help but look back, only to see the flaming head looking at him and sneering, and there were two tiny black spots in the sky approaching him rapidly.

Seeing those two tiny black spots, Qin Chuan suddenly felt something was wrong. He felt anxious and kept urging the ball to fly quickly.

Qiuqiu understood and flew forward desperately.

But a moment later, a huge force suddenly came from below, pulling Qiuqiu and Qin Chuan downwards.

Qin Chuan suddenly shouted, and Qiuqiu suddenly fell rapidly downwards involuntarily.

It turned out that Qin Chuan and Qiuqiu were in a panic during their escape and accidentally flew over the huge magma vortex.

At first, there was nothing unusual.

When the ball flew over the center of the vortex, it was suddenly sucked towards the center of the magma vortex by a huge suction force.

No matter how Qiuqiu struggles, nothingNo effect at all. , one person and one beast, are being sucked towards the center of the huge magma vortex at an extremely fast speed.

Naturally, the demon head in the distance also saw such a scene. He just smiled ferociously and stopped caring, not even looking at it, as if everything was under his control.

And the two Earth Flames and Sky Fires he shot still followed Qin Chuan and shot into the center of the whirlpool.

But when Qin Chuan was sucked into the huge magma whirlpool, he screamed in horror.

Below him, Qiuqiu was also struggling desperately.

All around him were swirling fiery red magma, with a huge roar that was deafening. The rolling heat waves heated his whole body and made his hair curl.

And the further down it falls, the stronger the surrounding heat wave is and the higher the temperature is.

Qin Chuan felt like he was about to be baked dry, his whole body was filled with smoke, and his clothes began to smell like they were burning.

This was just being baked by the temperature of the magma, and his body had not yet been involved in the magma.

If you are sucked into the magma, you will definitely die!

"It's over, this time it was sucked into the center of the magma whirlpool. It will definitely be melted to the point where no dregs are left, and it will be impossible to die anymore."

Qin Chuan couldn't help but feel a burst of despair in his heart.

But he said that the whirlpool went straight to the bottom of the lake and was very deep.

It took a long time for Qin Chuan to see the bottom of the whirlpool under the blazing heat.

When he saw the scene at the bottom of the whirlpool clearly, he opened his eyes in surprise. Big eyes

"Huh! That is? Why is the bottom of this vortex like this?"

I saw a white light hole deep in the center of the vortex.

Just when Qin Chuan was surprised that there was a white light hole at the bottom of the vortex, he and Qiuqiu were being sucked into the white light hole at an extremely fast speed.

It turns out that the huge suction above the vortex is caused by the white hole.

But when Qin Chuan was sucked in by the light hole, his whole body was immediately torn apart by a huge force, as if he was about to be torn apart.

The pain caused Qin Chuan to roar loudly, and the blood vessels on his body burst. In an instant, he turned into a bloody man.

The same was true for Qiuqiu, whose silver hair was dyed red with his own blood.

The unbearable intensity made Qin Chuan instantly forget the pain of being burned before, and his brain was filled with fear.

Just when Qin Chuan was about to faint from the pain, there was a sudden tremor in front of him. Qin Chuan felt his body suddenly light up, and the tearing force disappeared.

It's like breaking through a barrier and suddenly entering another place.

Then, there was another heavy impact, but Qin Chuan fell from the air and fell heavily to the ground, lying there motionless..

Chapter 2178

After a while, Qin Chuan's body moved slightly.

After the tearing force disappeared, Qin Chuan's pain was greatly reduced, and his mind gradually regained some clarity.

At this moment, Qin Chuan only felt as if his whole body had been cut by a thousand knives. The bursts of tearing pain made him grit his teeth in pain, and the air was filled with the smell of his own blood.

"correct! What about Qiuqiu?"

Qin Chuan suddenly thought of Qiuqiu, and looked up with difficulty, only to see Qiuqiu lying dying not far away, covered in blood, and he breathed a sigh of relief.

At least Qiuqiu is not dead yet.

The white light hole just now How terrifying! If he wasn't a body cultivator and Qiuqiu wasn't a freak who grew up eating metal, the two of them would have been torn to pieces long ago.

Presumably, no fourth-level warrior can pass through that white light hole, right? Even so. Even a fifth-level warrior may not be able to pass through safely.

By the way, where is this place?

Only then did Qin Chuan think of his situation, and raised his head with difficulty to look around.

However, he was surprised to find that he and Qiuqiu were actually here. In the hall of a palace, the surrounding floors and walls are made of red gold rock. There is extremely rich gold energy floating in the air.

Looking at the carvings of the surrounding palaces, there is also the rich gold energy in the air.

Qinchuan Nao After a flash, he was surprised:"Is this the Golden Temple, one of the three secret places?"

Just when Qin Chuan was surprised, his expression suddenly changed slightly and he looked up at the sky above the hall. He saw an inexplicable distortion in the space, and then two black flames the size of soybeans suddenly appeared in the air, and then immediately moved towards Qin Chuan shot both legs.

As soon as Qin Chuan saw the two black flames, he immediately recognized them as the 'Earth Flame and Sky Fire'. His face changed with fright, and he got up and ran away, ignoring the pain that was tearing through his body.

But the two Earthly Flames and Sky Fires seemed to have spirituality, chasing after Qin Chuan's legs, and they were extremely fast. They caught up with Qin Chuan in an instant, attached to his legs and burned.

Qin Chuan suddenly started to throb in pain. He reached the ground and rolled over.

The two small particles of earth-flaming sky fire were like corrosive venom, slowly burning on Qin Chuan's legs, spreading slowly, burning the muscles of his legs into ashes inch by inch. It did n't pass. In a moment, the two soybean-sized fires spread to the size of a palm, and the speed of spreading became faster and faster.

As the earthly fire and sky fire spread, the flesh on the instep of Qin Chuan was first burned to ashes, exposing the bones inside.

The severe burning pain made Qin Chuan miserable. He rolled on the ground desperately in an attempt to suppress the fire.

However, at this life-and-death moment, Qin Chuan still maintained a trace of consciousness.

He did not dare to use his hands or other parts of his body to put out the fire.

Because he knew that it was the top-grade spiritual fire, the Earth Flame and Heavenly Fire, which could not be extinguished by him. The only thing he could do was to wrap his legs and feet with the Five Elements Yuan Qi and Jing Yuan Qi to resist the erosion of the Earth Flame Heaven Fire.

But the Five Elements Yuan Qi could not resist the erosion of the Earth Flame Heavenly Fire. The erosion of the Earth Flame and Sky Fire has no effect at all. On the contrary, the Qi of Essence has some effect on resisting the erosion of the Earth Flame and Sky Fire. This slightly slows down the spread of the Earth Flame and Sky Fire, but it still cannot resist the erosion. It can only ensure that the bones are not damaged. Was burned.

Not long after, all the flesh on Qin Chuan's feet was burned away, leaving only a skeleton.

It was Qin Chuan who desperately wrapped the skeleton tightly with the energy of essence to prevent his feet from being burned. The bones of the feet were also burned to ashes.

However, the bones of the feet were still burnt black.

The fire continued to spread along Qin Chuan's calf.

Everywhere it went, there were only blackened bones, and all the muscles were slightly ashes.

Only a few breaths In the meantime, Qin Chuan's two calves were almost completely burned into blackened skeletons, and the fire was almost close to his knees..

Chapter 2179

Seeing his skeleton being burned inch by inch, Qin Chuan felt not only pain but also fear in his eyes.

At this moment, he was on the verge of suffering pain, his voice had long been hoarse from shouting, and he could no longer shout out.

I saw him sweating like rain from the pain, mixed with the blood from the burst blood vessels on the surface of his body, flowing down like blood and tears.

But the fire was still burning more and more fiercely. It had already burned Qin Chuan's knees and began to burn up his thighs.

If the burning continues like this, sooner or later Qinchuan will be burned until only a skeleton is left.

"what to do? what to do? If it continues to burn like this, I will be burned to death! I can't be anxious, I can't be anxious, I have to calm down!"

Qin Chuan roared desperately in his heart. The severe pain made him unable to think. He tried his best to keep himself clear.

"Can't die! , I can't die! We can't keep burning like this! I want to stop it!"

At this critical moment, Qin Chuan made a decision in his heart.

He suddenly pulled out a long sword and was about to chop off his two calves. He wanted to cut off his two calves. Only in this way can the fire be prevented from spreading.

However, he will become a cripple without legs from now on.

But just when Qin Chuan made this determination in pain, something in his body seemed to be suddenly activated, and all the blood in his body There was a burst of boiling, and then the brain roared, and the consciousness became blurred for a while.

"Roar!"

A low roar from ancient times.

A huge phantom of a ferocious beast suddenly appeared behind Qin Chuan, a phantom of a ferocious beast with flames all over its body.

The flames burning on this ferocious beast were as black as ink, and were as dark as the earth's flames. The sky fire is much darker.

It is the ancient holy beast Tingting.

Qinchuan's body contains the true blood of the three series of holy beasts. Only the Tingting true blood was activated, and he also received the talent of Tingting to inherit the 'Skill of Heavenly Ting'. Listen carefully, it is said that it is a holy beast from hell. It can control the flames of hell that can burn everything in the world. The black ink-like flames burning all over its body are the flames of hell.

And this flame of hell is composed of high-grade spiritual fire earth flames. It evolved from the sky fire.

It turned out that Qin Chuan's body was slowly burned by the earth's fire and the sky fire, and finally activated the inherited memory of the True Blood of Tingting in his blood. Therefore, the blood all over his body boiled, and the holy beast Tingting appeared behind him. Phantom.

Immediately, two forces rushed out from his sea of qi, rushed directly to his knees, and spurted out from the wounds on his two knees. What was sprayed out was actually two masses of blood mist.

I saw The two masses of blood mist swallowed up all the fire in an instant, swallowing up all the earthly flames and sky fires, and then penetrated into Qin Chuan's body and poured directly into Qin Chuan's sea of qi.

However, Qin Chuan is no longer there He looked inside at the changes in the Qi Sea, and the intense burning pain almost made him faint.

As soon as he saw the earthly flames and sky fires being swallowed up by the inexplicable energy, he could no longer control it, his heart relaxed, and he fainted..

In fact, all this sounds very complicated, but in fact it happened very quickly.

From the moment when the earth's flames and the sky's fire burned Qinchuan's feet, to being swallowed up by the strange energy, and then to Qinchuan's fainting, it only took a dozen breaths. That's it.

But after Qin Chuan fainted, the ball not far away finally gained some strength, immediately got up and ran to Qin Chuan.

When it saw Qin Chuan's body was covered with blood, and there were only two black strips below his knees. When his skeleton looked very miserable, he suddenly started to moan sadly.

Then, the ball shrank back to its original appearance, crawled to the unconscious Qin Chuan, and licked Qin Chuan with his soft little tongue. Chuan's little face, it wants to wake Qin Chuan up..

Chapter 2180

Qiuqiu is very spiritual. It knows that if Qin Chuan doesn't wake up immediately, he will definitely die.

But Qin Chuan first experienced the external force of the white light hole, and then the burning of the earth's fire, and his will had already collapsed. At this moment, when he was unconscious, the fire poison invaded along his calves, and soon invaded Qin Chuan's brain, making him He fell into a dreamlike hallucination.

Qin Chuan's lips were chapped, his whole body was hot, and he was mumbling in pain.

In that hallucination, Qin Chuan felt that he was in a large formation and was being burned by the fire from the earth and the sky. The burning pain seemed to never stop.

In fact, Qin Chuan's state was very dangerous.

Now, only his skeleton is left below his knees. If he doesn't receive early care, he will still die.

After being comatose, he could not stop the fire poison from invading. The fire poison had already invaded his brain, making him unconscious and his whole body burning hot. If the fire poison could not be removed in time, he would also die.

"Woo!! Woo!!"

Qiuqiu looked sadly at Qin Chuan who was in a coma. No matter how much he licked him with his little tongue, Qin Chuan just couldn't wake up.

"Woo!! Woo!!"

Two tears fell gently from its eyes. From the first time it saw Qin Chuan from birth, it regarded Qin Chuan as its closest relative and its only relative in this world.

But now, it has to watch helplessly How could he not be sad when Qin Chuan died? How could he not be sad?

"Woo!! Woo!!"

Qiuqiu's voice was full of sadness. He still kept licking Qin Chuan's hot cheeks with his soft little tongue. Big tears fell on Qin Chuan's face, but he still couldn't wake Qin Chuan up. After seeing him for a long time Qin Chuan could not be woken up.

Qiuqiu screamed at the empty space, and the sound was so sad that it made people heartbroken.

After a while, Qiuqiu seemed to have made a decision, with a trace of determination in his eyes. Its whole body suddenly glowed with white light, and then it lit up with a bloody light, and then it opened its mouth and sprayed out a large ball of white air, wrapping Qin Chuan's whole body.

It turned out that Qiuqiu sacrificed his longevity and cultivation in order to save Qin Chuan. , activated the heaven-defying secret technique 'Life Sacrifice'.

This is a secret technique from its inherited memory, and it can only be used once in its life.

However, the white air ball ejected by the ball not only contains a large amount of The life force of Qiuqiu also contains the golden essence refined by Qiuqiu himself.

This golden essence was refined after it devoured a large number of golden spiritual objects. Wrapped in the white air ball, The numerous small wounds on Qin Chuan's body healed one after another, and they also automatically absorbed the white gas.

The life force in the white gas was constantly repairing Qin Chuan's body, while the golden essence in it was quietly repairing Qin Chuan's body. It strengthened Qin Chuan's body, causing his body to quietly mutate, with a hint of the hardness of gold.

At the same time, it was not only Qin Chuan's body that was strengthened and restored, but also Qin Chuan's two blackened legs. The calf bones were also repaired by the white air, and a large amount of golden essence penetrated into the bones, changing the original structure of the bones.

It didn't take long for Qin Chuan to absorb the ball of white air emitted by Qiu Qiu.

Qin Chuan's My body has recovered a little better than before, but I'm still in a coma.

"Woo! Woo!"

Qiuqiu let out a low roar and sprayed out another large ball of white air.

Every time it sprayed out a ball of white air, it was extremely damaged and its cultivation level would also drop a lot.

When Qiuqiu sprayed out the second ball of white air , it would do great damage to it. When the Qi was white, its cultivation level dropped from the fourth level to the third level of Dzogchen.

The body also began to show signs of degeneration. The third eye closed automatically, the hair on the body began to fall off, and the down grew again, and it returned automatically. In its infancy stage.

But Qiuqiu didn't stop there. It sprayed out two white air masses in succession.

Its cultivation level also dropped from the third level of Dzogchen to the third level. It sprayed three white air masses in one breath, and Qiuqiu spewed out two white air masses in succession. It couldn't hold on anymore, and lay down beside Qin Chuan's face listlessly, "Woo! Woo!" it screamed sadly, with tears in its eyes.

It had tried its best and could no longer spit out the fourth cloud of white air...
