

God level 2181

Chapter 2181

Now, whether Qin Chuan can successfully wake up depends on himself.

But it was said that Qinchuan was enveloped by three clouds of white energy. It took a long time for the three balls of white energy to be completely absorbed by Qinchuan.

Perhaps due to the absorption of white energy, the fire poison on Qin Chuan's body quickly receded, the burst blood vessels on his body were completely healed, and his body was strengthened by a large amount of essence.

The biggest change was Qin Chuan's burnt black leg bones.

The pair of charred leg bones turned into a lustrous silvery white after absorbing a large amount of golden essence and life force.

It turned out that after Qinchuan's burnt black leg bones were infiltrated by a large amount of gold essence, the texture of the leg bones also changed subtly, and it was no longer mainly calcium, but mainly gold.

It can be said that the strength of Qin Chuan's leg bones is at least ten times that of before. It can be said that it has been greatly strengthened.

After absorbing the white energy, it took a long time before Qin Chuan woke up leisurely.

When Qiuqiu saw him waking up, he quickly crawled to his face, licked Qin Chuan's face with his little tongue, and cried out as usual.

Qin Chuan felt itchy on his face, and he opened his eyes with difficulty. When he saw it was Qiuqiu, he also looked happy.

Soon, he found that Qiuqiu looked very sluggish and his cultivation level had dropped significantly, and he suddenly felt that something was wrong.

Then, he felt that all the wounds on his body had healed, and the blackened leg bones turned silver-white.

Qin Chuan seemed to understand something, picked up Qiuqiu and asked softly: "Qiuqiu! Did you do all this?"

"Gujiguji!!" Qiuqiu nodded obediently.

Seeing Qiuqiu nodding, Qin Chuan understood everything immediately. He knew that in order to save himself, Qiuqiu must have sacrificed his own cultivation, or even something more precious than his cultivation. To wake himself up from a coma.

Thinking of this, Qin Chuan was moved and distressed at the same time.

This little guy has been with him since he was born, inseparable. Although he is naughty sometimes, he listens to himself very much. Why didn't he treat it as his own? I treat it as my own child and never hope that it will be harmed.

But now, I didn't protect it well, but instead let Qiuqiu sacrifice a lot to save my life.

"Little guy, are you stupid? My legs have long since become useless, why do you want to keep them?"

Qin Chuan had tears in his eyes, smiling and stroking Qiuqiu.

Seeing Qiuqiu regressing to the infancy stage, with a depressed look on his face, he felt very sad. If it weren't for himself, Qiuqiu wouldn't be like this.

"Gujiguji!!"

As if he could see Qin Chuan's sadness, Qiuqiu comforted him obediently, and pointed at Qin Chuan's leg bones with his little paws, assuring him that he would be fine.

Qin Chuan smiled bitterly: "Little guy, I Only the skeleton of both calves is left, what use can they be left with? Even if you strengthen them, it's useless"

"Although this leg bone was not burned to ashes before, the marrow inside it has been burned out and it has completely turned into a skeleton. It seems that I can only walk on my knees in the future."

Speaking of this, Qin Chuan felt a burst of sadness in his heart. Without his legs, he became half a useless person.

"what to do? Without legs, maybe I can't even get out of this strange palace."

"Gujiguji!!"

Qiuqiu also showed sadness in his eyes. Qin Chuan lost his legs, and he was very sad in his heart.

After thinking for a while, Qiuqiu showed Qin Chuan a look like he was carrying someone on his back.

Qin Chuan soon understood. Understanding what he meant, he smiled and said: "What do you mean, you will always carry me on your back from now on?"

"Gujiguji!"

Qiuqiu nodded obediently.

Qin Chuan smiled movedly.

But at this moment, he suddenly thought of something, and a glimmer of light flashed in his eyes.

"That's right! How could I forget this thing!"

Thinking of this, Qin Chuan immediately took out a purple wooden box from the God of War Order space.

Opening the purple wooden box, there was a white pill inside, and a fragrance immediately spread out..

Chapter 2182

This white elixir is the top-grade elixir 'Jade Bone Shengji Pill' given to him by Mr. Bai. It is said to have the miraculous healing function of white bones and flesh.

Mr. Bai once said that he hoped this elixir could save him a second time.

I heard that the Jade Bone Muscle Pill can make bones grow flesh. His calves have become like this. I wonder if this pill can make the meat in his calves grow back?

Regardless of whether it works or not, try it first and then tell!

Thinking of this, Qin Chuan seemed to have grasped a life-saving straw, saw a glimmer of hope, and was ready to refine the elixir immediately.

At that moment, Qin Chuan gave a few instructions to Qiuqiu, then swallowed the elixir himself and began to meditate and refine it.

In fact, this Jade Bone Muscle Pill does have the miraculous effect of whitening bones and growing flesh, but that is only for small-area wounds.

As for whether Qin Chuan's legs can grow back, no one knows.

Because there has never been anyone like Qin Chuan, who only had a bare skeleton on his two calves, and then he took Yugu Shengji Pills.

However, Qin Chuan has one more advantage than ordinary warriors.

That is, he is a physical warrior, his body is very active, and the essence energy he cultivates can also quickly repair injuries.

But he said that after Qin Chuan took the Jade Bone Muscle Pill, he started refining it.

The refined medicinal power mixed with essence energy flowed towards the wound under Qin Chuan's knee.

After a while, he felt an itching and crawling sensation from the wound on his knee. This was the feeling of the body resuming growth. Then, he felt that the bone marrow in the bone cavity had begun to recover, along the leg bones. The bone cavity grew downward. These findings surprised Qin Chuan.

This shows that Yugu Shengji Pills can indeed make bones white and produce flesh, and there is hope for his calf to recover again.

This made Qin Chuan see the light, his confidence suddenly increased, and he began to work hard to refine the elixir.

Qiuqiu was on the side, guarding Qin Chuan while also opening his mouth to suck in the golden energy around him.

The gold energy around here is very strong, almost twenty times that of the outside world.

Qiuqiu absorbs these golden energy, which is also helpful to it.

In this way, Qin Chuan spent several days refining elixirs to heal his injuries.

Qiuqiu, for the first one or two days, kept an eye on him obediently, but in the next few days, he couldn't bear the loneliness anymore and wandered around the palace.

Qin Chuan is now at a critical moment of healing, so naturally he can't control it.

However, Qin Chuan now also has many questions in his mind.

First of all, he doesn't know where this palace is? Although he guessed it was the Golden Temple, it was still his guess. Whether it was true or not was not confirmed.

Another question lingering in his mind is, if this is really the Golden Temple, why has he been in the hall for so long and no one has come?

It stands to reason that the Fire Lotus Cave and the Golden Temple were opened at the same time.

There are many fire warriors going to the Fire Lotus Cave to hunt for treasures, and there should be many gold warriors going to the Golden Temple as well.

This thought just flashed through Qin Chuan's mind and he stopped thinking about it.

After all, the most important thing for him right now is healing.

However, on the fifth day of Qin Chuan's treatment, Qiuqiu came back carrying a large piece of blue metal, then sat on the ground and started chewing it.

Although Qin Chuan didn't have any extra thoughts to care about it, he was still shocked when he saw the piece of blue metal in the corner of his eye.

Because that blue metal is called Yuan Magnetic Blue Gold, and like meteorite iron, it is a high-grade metal spiritual object.

High-grade gold spiritual objects are extremely rare. How could this not frighten Qin Chuan?

But Qin Chuan didn't have the extra thought to ask these questions.

Just like that, ten days passed in the blink of an eye.

Qin Chuan's legs actually grew flesh again under the influence of the medicinal power of Yugu Shengji Pills and the energy of essence, and they were back to their original state.

This made Qin Chuan very excited, as if he had been reborn after a disaster..

Chapter 2183

"Ha ha!! This Jade Bone Muscle Pill is really amazing! Thanks to Mr. Bai for gifting me this elixir! Otherwise, I would have nothing below the knees. Next time I meet him, I will definitely thank him."

Qin Chuan's heart was full of excitement.

The meat on his legs has grown back. I wonder if he can walk like before?

Thinking of this, Qin Chuan stood up again and walked a few steps to give it a try.

At first, maybe he was not used to it and walked a little uncoordinated.

After practicing several times, Qin Chuan gradually adapted to it.

Moreover, Qin Chuan was surprised to find that the strength of his legs was much stronger than before.

"Huh! It seems that not only the strength of my legs has increased, but the strength of my body has also increased. What is going on? Could it be that Qiuqiu strengthened my body to save me that time?"

Previously, Qin Chuan did not pay attention to these things in order to treat the injuries on his legs.

Now that his legs have recovered, he soon discovered that his body's strength has greatly increased.

In fact, Qin Chuan's body was sprayed out by the ball. A large amount of gold essence and life essence have been strengthened, so his physical strength will be strengthened.

Qin Chuan tried to throw a few punches, and a sonic boom sounded immediately in the air.

Only when the strength of the punch reaches a certain level Only after that can a sonic boom be produced.

This discovery made Qin Chuan look surprised.

How could he become so strong? It seems that his physical strength has increased a lot!

This discovery really made Qin Chuan He was greatly shocked. He did not expect that Qiuqiu's golden essence and life essence could strengthen his body to such an extent.

"However, the strength of my calves seems to have increased even more because I feel more explosive in my calves!"

Thinking of this, Qin Chuan immediately moved and made a few dodgy movements in the hall, leaving only a few afterimages in the air.

After running for more than ten laps, Qin Chuan stopped and looked in his eyes. The look of surprise is even stronger.

Judging from the speed just now, his current speed can catch up with the speed of using the Blood Shadow Escape Technique before.

Obviously, the strongest part of his body now is his calf.

The strength of this calf is great. The strengthening has greatly increased my movement speed. It should be 20% faster than before, right? Is it because the bones of the calf have been strengthened?

Qin Chuan thought about it and felt that it was indeed the case.

His calf and body The only difference in other parts is that the bones of the calf are different from before and have been greatly strengthened.

He estimated in his mind that his current speed is probably even faster than Feng Xing.

Thinking of this, Qin Chuan was pleasantly surprised..Whether it is the increase in combat power or speed, all this is thanks to Qiuqiu!

By the way, what secret technique did Qiuqiu use? To use such a heaven-defying secret technique, the little guy must have sacrificed his life. A lot, wouldn't you have sacrificed your life and longevity?"

Thinking of this, Qin Chuan was very moved, and then thought of Qiuqiu.

But Qiuqiu was nowhere to be seen in the hall, and the little guy went there to play again without knowing it.

A few days ago, the piece of magnetic blue gold that Qiuqiu found had been eaten by it long ago, and now he is looking for something to eat.

Maybe it was because Qiuqiu was at the fourth level before, so he ate the piece of magnetic blue gold in one go, and then continued to look for food.

Unlike before, Qiuqiu had to sleep to digest after eating a few mouthfuls of meteorite.

Its current state should be one of recovery, not the previous kind of refining growth.

But Qin Chuan didn't see Qiuqiu, so he shouted several times around

"Ball ball!! Ball ball!!"

"Gujiguji!!"

After a while, a round and cute figure flashed out of the corner of the hall.

It was Qiuqiu who came after hearing the sound.

But at this moment, it held another piece of 'Elemental Magnetic Blue Gold' in its arms, which was bigger than the one last time. Even bigger...

Chapter 2184

"Huh! It's Yuan Magnetic Blue Gold again. Where did you find Qiuqiu? Huh! Your cultivation level has returned to the third level of Dzogchen! It seems that the piece of Yuan Magnetic Blue Gold was not in vain last time! After eating this piece again, you can return to level four!"

Qin Chuan saw Qiuqiu holding back another piece of Yuanci blue gold. This Yuanci blue gold is extremely rare.

Qiuqiu actually got two pieces in just two days. He was naturally very surprised. However, What's more, it's a surprise.

Because the more Yuan Magnetic Blue Gold Qiuqiu eats, the faster he can recover his cultivation level.

"Gujiguji!!"

At this time, Qiuqiu hugged Yuancilanjin with a proud look on his face, and then pulled Qin Chuan's clothes and walked out of the hall.

Qin Chuan immediately understood that this little guy must want to tell himself where he found Yuancilan Golden.

At that moment, Qin Chuan followed Qiuqiu and left.

The hall seemed small, with no other decorations except statues and reliefs around it. What surprised Qin Chuan even more was that except for one main hall, there were no separate halls.

Not long after, Qin Chuan followed Qiuqiu to the door of the main hall.

As soon as he walked out of the door of the main hall, Qin Chuan's face showed a look of horror.

It turned out that there was an endless void around the main hall.

And this small palace was Hovering in the void.

All around the void, there are turbulent flows of gravel, and occasionally you can see a few huge meteorites floating around.

"What on earth is this place?"

Qin Chuan was surprised and looked at the endless void, unable to see the edge.

"Gujiguji!!"

At this time, Qiuqiu stretched out its chubby little paw, pointed at the turbulent flow of gravel, and then pointed at the Yuanci Blue Gold in his arms.

Qin Chuan immediately realized that Qiuqiu's Yuancilan Gold was found from the turbulent flow of gravel.

At this moment, Qin Chuan's mind flashed, and he seemed to think of something. It seems that this should be the Golden Temple.

This void is similar to the Sky Fire Lake in Fire Lotus Cave..

The main hall he is in now is similar to the floating island in Tianhuo Lake, and the magnetic blue gold in the void is almost the same as the fire jade lotus. I remember that when the demon head appeared, two people appeared in the sky above Tianhuo Lake at the same time. A huge whirlpool.

If I guessed correctly, one whirlpool should lead to the Golden Temple and the other to the Mingyu Palace.

The reason why this phenomenon occurs is that these three secret places are connected.

Demon The three clone projections of him appeared in three places at the same time. One was above the floating island in Tianhuo Lake, and the other should be in the main hall.

When he entered the main hall, everyone in the main hall was surrounded by other people. A clone projection was captured as a sacrifice, so this place is empty.

From this point of view, all this is a conspiracy.

And the person who presides over this conspiracy is the devil hidden behind the three secret places. Every time he released the first batch of treasure-hunting warriors and captured the remaining batches of warriors as sacrifices.

The reason why he let go of the first batch of warriors was to tell the outside world that these three secret places have a lot of treasures, and you can get them if you are lucky. Only in this way can you attract people from behind to continue to come to hunt for treasures.

He can capture more people as sacrifices.

But, why does he want so many people as sacrifices?

Are there any other secrets? Why did thunder bites occur on the day when the three secret places were opened? What is the connection between them?

And what exactly is this demon? It doesn't look like a human being, but last time I saw it in the statue, he has a human body, which is really puzzling!

Thinking of this, Qin Chuan's heart became heavier and heavier, because he knew that he had fallen into a devil's plan..

Chapter 2185

And this demon has at least the ninth level of strength, which is definitely not something that an ant like him can contend with.

Another point is that the huge 'Tianhuo Fire Formation' he saw last time in Tianhuo Lake should also be arranged by the devil.

Why does he want to cultivate Earth Flame Sky Fire, and what is the purpose of cultivating Earth Flame Sky Fire?

Forget it, these things are beyond his control. He'd better find a way to get out of here as soon as possible!

Leave the void here and go to either the third or second floor of the Golden Temple.

But this hall is suspended in the air and does not move. If he wants to leave this void, he can only rely on balls.

It's just that Qiuqiu hasn't recovered to the fourth level of strength yet. It's a bit inconvenient to fly in the void. Let's wait until it recovers to the fourth level!

For now, this void is much safer for him than the Skyfire Lake.

After all, there is magma everywhere in Tianhuo Lake. If Qiuqiu loses his way, there will be no landing.

But in this void, there are floating stones everywhere, and Qiuqiu can rest on those stones.

Moreover, Qiuqiu does notWorrying about food, you can find Yuan Magnetic Blue Gold in the turbulence of gravel for food, and you can also use this to restore some strength.

What Qin Chuan is worried about now is that the dry food he has stored can only last for a limited time.

Before entering the Fire Lotus Cave, Qinchuan had learned from the experience of entering the Cloud Valley before, and had stored dry food that could last for two months. These were foods that could be stored for a long time.

Now, I have eaten a lot of those dry foods and can still last for a month and a half.

However, Qin Chuan didn't know how big the void was. If the ball didn't fly out of the void after flying for two months, he would have to starve to death.

"Qiuqiu, it seems we still have to hurry up! Find a direction and take a gamble!"

Qin Chuan made a decision quickly. He already had the temperament of a gambler.

He remembered that the floating island seemed to be moving in the east direction, and that direction was the third floor of the Fire Lotus Cave.

The Golden Temple and There is obviously a connection with the Fire Lotus Cave, and maybe its third floor is also in that direction. Thinking about it, the exit of the Golden Temple should also be on the third floor.

Thinking of this, Qin Chuan took Qiuqiu back to the main hall.

He began Sitting cross-legged, preparing to practice for a while while Qiuqiu recovers to the fourth level of cultivation.

Of course, the main thing is to cultivate the golden vitality.

The concentration of golden vitality here is more than twenty times that of the outside world, which is exactly It was a good time for Qin Chuan to practice Jin Yuan Qi.

After making a plan, Qin Chuan first looked inside his sea of Qi.

That day, the Earth Flame and Sky Fire were inexplicably swallowed up by an energy in his body. Qin Chuan vaguely felt that he was listening to It was related to true blood.

Later, the energy poured into his sea of qi, and he fainted because of the unbearable pain. He had no idea what happened in the sea of qi.

Later, after he woke up, in order to seize the time to heal, Qin Chuan didn't have time to look inside the sea of qi.

Only now did he have time to look inside his sea of qi. Everything in the sea of qi was as usual.

The only thing that had changed was the spirit of the natal fire.

What surprised Qin Chuan was that the drop In addition to the purple flame seeds bred in the natal fire spirit, there are actually two tiny black flames.

These two tiny black flames are the earthly flames and sky fires that caused him so much suffering.

At this moment, The two tiny Earth Flames and Heavenly Fires were wrapped in a strange energy, which prevented his natal fire spirit from collapsing. I think that the energy wrapping the Earthly Flames and Heavenly Fires should be the true blood from the True Blood of Listening.

If the True Blood of Listening in my body had not been activated, I would be dead now.

Warriors of the sixth level and above may be able to compete with this earthly flame and sky fire, but warriors below the fifth level can only die! It is simply terrible!..

Chapter 2186

However, now that the Earth Flame and Heaven Fire are in his natal fire spirit, this is not good! In this way, as soon as I break through to the fourth level, will they immediately come out to cause trouble?

When that time comes, it will be different than this time. Instead of burning my calves, it burns directly from my Dantian, directly burning my internal organs to ashes. At that time, I would have to die even if I didn't want to.

Thinking of this, Qin Chuan immediately broke into a cold sweat.

Obviously, it is not a good thing for the Earth Flame and Sky Fire to appear in the natal fire spirit. what to do? It seems impossible to drive them out. I wonder if I can refine them?

Thinking of this, Qin Chuan's heart moved and he made a bold decision.

He wanted to mix the two Earth Flame Sky Fires and his own Purple Fire Seeds to refine them, but he didn't know whether he would succeed.

However, the possibility of failure is high.

Qinchuan's purple fire seeds are actually the seeds of low-grade spiritual fire, while the earthly fire and sky fire are high-grade spiritual fires.

He wants to use the seeds of lower-grade spiritual fire to fuse with higher-grade spiritual fire, which may cause the natal fire spirit to self-destruct.

However, Qin Chuan dared to make such a decision because of the tolerance of the power of the true blood that made him dare to try.

Even if he doesn't try now, the hidden dangers of Earth Flame and Sky Fire will not disappear, so he must try to eliminate this hidden danger as soon as possible.

Thinking of this, Qin Chuan made a decision and began to use his will power to control the two Earthly Flame Fires in the Fire Spirit Liquid to slowly approach the Purple Fire Seeds.

As the Earthly Flame and Heavenly Fire approached, the purple fire seeds in the natal fire spirit developed a strong resistance, and the closer to the purple fire seeds, the stronger the resistance, and Qin Chuan's heart became more nervous.

However, he did not stop there, but continued to use his mind power to control the two Earth Flame Sky Fires to approach the Purple Fire Seeds.

In the end, Qin Chuan used his mind power to forcibly fuse the two earthly flames with the purple fire seeds.

As soon as the two came into contact, there was a "boom" and turned into a ball of purple-black chaotic fire energy. At the same time, an explosive energy spread out, and the entire natal fire spirit also trembled and expanded rapidly.

Seeing this, Qin Chuan was horrified.

If the natal fire spirit continues to expand, it will eventually explode automatically. Although it cannot be compared with the self-destruction of the Xudan, it is still a kind of self-destruction and will probably cause him to self-destruct.

Thinking of this, Qin Chuan became anxious and tried his best to suppress the natal fire spirit with his mind power to prevent it from exploding.

But the natal fire spirit was still being expanded by the expansion energy generated internally. No matter how hard Qin Chuan suppressed it, he could not suppress its expansion. not good! If this continues, he will definitely explode!

At this moment, Qin Chuan was already breaking out in a cold sweat.

However, no matter how hard he suppressed it with his mind, he still couldn't control the expansion of the natal fire spirit.

In the blink of an eye, the natal fire spirit expanded to twice its original size and was about to explode.

But at this moment, the power of true blood that had previously wrapped the two earthly flames and sky fires appeared again, wrapping the chaotic fire energy in the natal fire spirit, and then began to compress it.

The expansion of the natal fire spirit also stopped and began to shrink and recover automatically.

This change made Qin Chuan very happy.

At the same time, he was glad in his heart that he had made the right bet again. The power of Listening True Blood really helped him merge with Earth Flame Sky Fire.

It didn't take long for the natal fire spirit to return to its original size.

The original flame seeds in the natal fire spirit have also mutated. They are neither the original purple nor the black of the earth's fire and the sky's fire, but have become purple-black.

But Qin Chuan clearly felt that the purple-black flame seeds were several times more violent than the previous purple flame seeds, and contained an explosive energy. Apparently, the flame seeds bred by the natal fire spirit had undergone earth-shattering changes. Change.

It turned purple and black. Judging from its violent appearance, it didn't look like a low-grade spiritual fire seed. Could it have evolved into a mid-grade spiritual fire seed?

With this thought in his mind, Qin Chuan couldn't help but show excitement on his face...

Chapter 2187

Whether they are fourth-level fire-type warriors or fifth-level fire-type warriors, the natal spiritual fire perceived by most people is low-grade spiritual fire. There are very few people who can perceive middle-grade spiritual fire, not even one in a hundred.

When a fourth- or fifth-level warrior with mid-grade spiritual fire deals with a warrior below fifth-grade, because of the help of mid-grade spiritual fire, the power of attribute damage is greatly increased, and his combat effectiveness is invisibly increased by 20%.

At this moment, the flame seeds bred in Qin Chuan's natal fire spirit merged with the earthly flames and sky fire, mutating into purple-black flame seeds. They were obviously not low-grade spiritual fires. They should be a higher-level existence than low-grade spiritual fires. They were Middle grade spiritual fire

"There are ninety three types of middle-grade spiritual fire in this world. I wonder which type of middle-grade spiritual fire my flame seed is?

Thinking of this, Qin Chuan wanted to use his thoughts to enter the natal fire spirit to explore.

As soon as the tentacles of his thoughts came into contact with the purple-black flame seeds, Qin Chuan's whole body was shaken, his brain roared, and an extremely powerful thought was forcefully instilled into his brain.

It is a violent idea, an idea that wants to burn everything, an idea that calls from the depths of the magma in the center of the earth, an idea that is similar to the Earthly Fire but not the Earthly Fire.

Qin Chuan instantly understood that this was the will of fire, the will conveyed to him by the purple-black flame seeds.

At the moment, Qin Chuan did not resist this idea, but let go of his heart, spread his thoughts, and wholeheartedly accepted this idea, felt this idea, and felt the will of the flame.

When Qin Chuan fully accepted that idea, an extremely pleasant message suddenly came from his heart.

Because he felt the mood of the purple-black fire, which was a happy mood of finding a place to belong.

This joyful mood was also transmitted to Qin Chuan, making him happy and excited!

Suddenly, 'Boom!' The ground trembled, coming from the depths of the soul.

Qin Chuan felt as if his soul had been sublimated and flew out of his body. He came to a world full of flames, a world deep in the center of the earth.

He was surrounded by purple-black flames, covering his whole body and burning endlessly.

But he couldn't feel the harm caused by the flame. Instead, it gave him a warm feeling, like a spiritual connection.

It turned out that Qin Chuan had an epiphany at this moment.

Thinking back, it was Qin Chuan who personally experienced the burning of earthly flames and sky fire, and had a personal experience of the burning pain of flames, and his understanding of fire was deeper than before.

Later, after being slightly triggered by external factors, he had an epiphany.

Following Qin Chuan's epiphany, the purple-black flame seeds in his natal fire spirit frantically absorbed the surrounding red spirit liquid, and grew crazily.

The fire energy around the hall was also pouring into Qin Chuan's body crazily.

Qin Chuan's momentum also increased crazily.

Not long after, the purple-black flame seeds in the Qi Sea absorbed all the red spirit liquid. The original natal fire spirit disappeared and was replaced by a purple-black flame. The outer edge of the flame was also wrapped. There was a big black fog.

At the same time, Qin Chuan's body also exploded, surrounded by a circle of purple-black flames, and there was also a circle of thick black fog around the flames. Qin Chuan's momentum also climbed to a peak, reaching a frightening level.

It turned out that after Qin Chuan's enlightenment, the fire energy actually broke through to the fourth level in one fell swoop.

"Ha ha!! My fire energy finally broke through to the fourth level!"

Qin Chuan looked at the burning flames on his body with great excitement, then stretched out a hand, and with a thought, a purple-black flame with a thick black mist appeared in the palm of his hand.

This is the fourth-level realm of turning virtual reality into reality. Really good! Now I can finally control real flames freely!"..

Chapter 2188

Looking at the flames in the palm of his hand, Qin Chuan was extremely excited. It was only then that he finally got a glimpse of the nature of fire.

Qin Chuan looked at the purple-black flames in the palm of his hand for a while, and then said:"In the future, with the help of this 'Earth's Nether Flame', I will be able to take advantage of fighting warriors below the fifth level!!"

Thinking of this, Qin Chuan's thoughts As soon as he moved, he took the spiritual fire burning outside his body into his body, and also took a look inside the sea of qi.

In the Qi Sea, the original natal fire spirit disappeared, and was replaced by a ball of 'Earthly Fire', which was the origin of his natal spiritual fire. This change was also a symbol of entering the fourth level.

Qin Chuan withdrew his thoughts from the sea of Qi with satisfaction. Only then did he realize that Qiuqiu on the side was looking at him in shock, dazedly there.

It turned out that after Qin Chuan's fire energy entered the fourth level, his strength increased greatly, and his overall momentum also climbed to a terrifying level, and he actually suppressed Qiuqiu.

Qin Chuan realized this problem, quickly calmed down his momentum, and said with a smile: "Qiuqiu, I have already broken through, you have to work hard too!"

"Gujiguji!!"

Qiuqiu nodded slightly, and then happily jumped into Qin Chuan's arms.

It knew that Qin Chuan's strength had greatly improved, so it was naturally happy for Qin Chuan.

Now, after Qin Chuan's fire element energy breaks through to the fourth level, his combat power has also increased. A lot.

Now his combat power is almost the same as Feng Xing's.

Moreover, after Qin Chuan's calf bones have been strengthened, his movement speed has greatly increased.

If he uses the blood shadow escape method again, Qin Chuan's speed will be much faster than Feng Xing's..

In addition, the power of Qinchuan's middle-grade spiritual fire, the amplitude of the two spiritual weapons of ice and fire, as well as the distraction sword technique and the four-phase Hunyuan Shield. At this moment, Qinchuan, even if Fengxing Leiyun joins forces, cannot He must be his opponent.

The great improvement in strength naturally made Qin Chuan feel good, and he also gained more confidence in the void outside the palace.

At the moment, Qin Chuan took out some dry food and water from the God of War Order space, ate and drank After finishing his food, he saw that his clothes were already in tatters, so he changed into another set of clothes. He looked much more energetic.

Then, Qin Chuan gave a few instructions to Qiuqiu and continued to practice.

Now Qiuqiu has not yet recovered his cultivation level. If he wants to leave here, he has to wait until Qiuqiu re-enters the fourth level, which will take some time.

However, Qin Chuan said that after swallowing a few pills, he meditated again and entered the realm of cultivation. Status.

This time, Qin Chuan mainly cultivates Jin Yuan Qi.

The concentration of Jin Yuan Qi here is more than twenty times that of the outside world. It is a great opportunity to cultivate Jin Yuan Qi, and Qin Chuan does not want to miss it.

With Qin Chuan's gold element qualifications, If you want to practice to the level of a quasi-warrior at the pinnacle of the gold system, even with the assistance of a large number of pills, it will take about two years.

But if you practice here, it may only take more than a month, so Qin Chuan naturally does not want to miss it. This opportunity.

At this moment, Qin Chuan greedily absorbed the gold energy around him, and practiced the gold energy crazily without sleeping.

Unknowingly, Qin Chuan had been practicing in the hall for three days.

In these three days, because of the surrounding people, The reason for the unusually strong Jin Yuan Qi was that Qin Chuan's Jin Yuan Qi cultivation progress was much faster than before, and he actually opened up eleven main acupoints.

But on this day, Qin Chuan was immersed in cultivation.

Suddenly, there was a beast roar, and the whole body was stunned. The whole hall trembled.

Qin Chuan was also awakened from his training by the beast's roar, and quickly opened his eyes.

But in the hall, Qiuqiu turned into a powerful figure with a dragon head and a lion's body, and its wings had been spread out. The three eyes also opened again, and it actually entered the growth stage again..

Chapter 2189

Seeing this, Qin Chuan was overjoyed.

Later, he was even more surprised to find that after Qiuqiu ate the second piece of Yuan Magnetic Blue Gold, not only did he re-enter the fourth level, but his strength also increased slightly.

"Qiuqiu, it turns out your cultivation has been restored! That's great!"

Qin Chuan stood up in surprise.

"Roar!"

Qiuqiu roared, and his eyes were filled with joy.

His roar before was also because he roared happily because his cultivation level had been restored.

"Ha ha!! Little guy, now that you have recovered, let's set off quickly! This is not a place to stay for a long time. We need to find the third floor and leave here as soon as possible. Otherwise, we will all die here!"

"Roar!"

Qiuqiu growled, and immediately signaled Qin Chuan to ride on its back. It was going to take Qin Chuan away from here.

At that moment, Qin Chuan rode on Qiuqiu's back without any delay.

When Qin Chuan sat firmly, Qiuqiu Spreading his wings, he flew out of the hall, then turned around and flew in the east direction. That direction was also the direction Qin Chuan had bet on before. As for whether it was the direction of the third floor, Qin Chuan was not sure.

That's it. , Qiuqiu spread his wings and carried Qin Chuan through the gravel flows at an extremely fast speed.

However, before flying for a long time, Qiuqiu's nose wrinkled slightly, suddenly turned around, and flew towards a gravel flow.

Qin Chuan was very surprised, but he did not stop it.

Soon, he discovered the reason.

It turned out that there was a piece of blue metal in the gravel flow, which was Yuan Magnetic Blue Gold.

Qiuqiu relied on his own The innate induction of metal spiritual objects quickly discovered the piece of Yuanmai Blue Gold, so it naturally would not miss it.

Qin Chuan was also delighted. He did not expect to find another piece of Yuanmai Blue Gold so easily.

This Yuanmai Blue Gold It is a high-grade gold spiritual object. One piece is worth 560,000 gold coins, which is naturally a big gain.

At the moment, Qin Chuan happily helped Qiuqiu collect the Yuanmai Blue Gold into the God of War Order space for Qiuqiu's future. Food.

After harvesting this piece of magnetic blue gold, one person and one beast continued to move forward in the previous direction.

The concentration of gold energy in this void is also extremely rich, which is equivalent to the concentration of gold energy in the floating temple, and is also second to none in the outside world. More than ten times.

Qin Chuan simply gave all the initiative to Qiu Qiu, and he sat on Qiu Qiu's back and continued to practice Jin Yuan Qi.

In this way, Qin Chuan practiced on Qiu Qiu's back with his eyes closed.

Qiu Qiu kept Locking in one direction and flying forward.

Not long after, Qiuqiu discovered another piece of magnetic blue gold based on its sensitivity to metal spiritual objects.

Thinking about it, the output of magnetic blue gold in this void is the same as that in the Skyfire Lake. Like the fire jade lotus, it was very rich.

Unknowingly, Qinchuan and Qiuqiu flew in the void for a month.

Qinchuan's golden energy also made great progress, and at this time, he had opened up thirty-two This main acupuncture point is not far from the level of the peak quasi-warrior.

However, Qiuqiu's harvest during this period was even greater.

After flying for a month, Qiuqiu fed on Yuanmai blue gold every day.

Although Qiuqiu After the ball entered the growth stage, its growth rate slowed down, but he fed on Yuan Magnetic Blue Gold every day, but it was still comparable to the growth rate when he ate Black Iron Essence during his infancy. In this month, it actually grew to four At the peak of the level, Qin Chuan's strength naturally increases greatly. As for the extent of the increase, Qin Chuan is not sure.

According to Qin Chuan's estimation, Qiu Qiu's combat power should be equal to his own.

Although Qiu Qiu makes a living by devouring various metals, Its body is extremely powerful, but it is a gold-type beast. It is only good at attack, but not good at defense. It does not even have a defensive skill.

This is also its flaw, and it is also the flaw of most gold-type beasts..

Chapter 2190

Although Qiuqiu has one more advantage than most gold-type ferocious beasts, and that is its body solidity, which is far from comparable to ferocious beasts of the same level, but compared with Leiyun Fengxing, it has no defensive martial arts, and its defense is ultimately inferior. One chip.

However, the power of the divine light of destruction emitted from Qiuqiu's third eye is very powerful. According to Qin Chuan's estimation, the power of the divine light of destruction should be equivalent to twice the attack power of Qiuqiu itself, which is extremely terrifying.

However, Qiuqiu's divine light of destruction consumes a lot of energy, and it cannot be emitted continuously.

In general, Qiuqiu's strength after reaching the peak of the fourth level is already comparable to Lei Yun Fengxing.

However, for Qin Chuan, the biggest gain this month is not the huge improvement in his gold energy, nor the improvement in Qiuqiu's cultivation.

But within this month, Qiuqiu can harvest two or three yuan magnetic blue gold every day.

Today, Qinchuan God of War has stored more than 70 pieces of Yuanci Blue Gold in the space, and most of the space is occupied by Yuanci Blue Gold.

The total value of these more than seventy pieces of metamagnetic blue gold is about 40 million gold coins.

This is absolutely an astronomical figure.

Qin Chuan was naturally very happy to have harvested so much Yuan Magnetic Blue Gold. This also solved a huge problem that he had been worried about.

This puzzle is Qiuqiu's food.

With so much Yuan Magnetic Blue Gold, Qin Chuan no longer has to worry about finding food for Qiuqiu.

At least until Qiuqiu reaches level six, he doesn't have to worry about food for Qiuqiu.

Moreover, these Yuan Magnetic Blue Gold are high-grade gold spiritual objects, which are also very helpful to the growth of Qiuqiu and can speed up its growth.

However, although this month has achieved a lot, Qinchuan now faces another serious problem.

There is not much food and water stored in the space of his God of War Order.

Although he has been frugal, he can still last for ten days at most.

If he cannot fly out of this void within these ten days, he will have no choice but to starve and eventually starve to death in this void.

Thinking of this, Qin Chuan couldn't help but feel a little more anxious.

But on this day, Qin Chuan and Qiuqiu were traveling in the air

"Qiuqiu, let's take a break first! You've been flying all day!"

"Roar!"

Qiuqiu let out a low roar and flew to a large pumice stone nearby to rest.

Qin Chuan took out a piece of magnetic blue gold for Qiuqiu to eat, and also ate some dry food himself.

Looking at the endless void in front of him, Qin Chuan couldn't help but feel He became suspicious, wondering whether the direction of his bet was wrong.

Because, according to normal circumstances, he should have flown out of this void long ago, but so far, he still has not flown out.

He may have flown in the wrong direction. direction.

However, Qin Chuan did not dare to change his decision.

Since he has been flying in this direction for a month, he must keep flying, even if it is the wrong direction.

Because only in this way, he Only then can there be a glimmer of hope to fly out of this void.

If he changes direction now, it is not much different from committing suicide. Even if he finds the right direction, he may not be able to fly out of this void within ten days.

"Ball ball!! Let me continue on my way!"

After resting for a while, Qin Chuan saw that Qiuqiu had regained its strong energy and urged it to continue on its way.

One man and one beast continued to fly in that direction.

After flying for about half a day, Qiuqiu suddenly became energetic and headed forward. Someone roared excitedly from a certain direction.

Qin Chuan's expression moved slightly and he asked quickly:"Qiuqiu, have you discovered another piece of magnetic blue gold?"

"Roar!"

Qiuqiu shook his head slightly.

Seeing this, Qin Chuan showed surprise on his face and thought:"Qiuqiu must have made some new discovery, otherwise he wouldn't have such a big reaction."..
