

God level 2191

Chapter 2191

Thinking of this, Qin Chuan said: "Qiuqiu, have you discovered anything new?"

"Roar!"

Qiuqiu nodded again.

"Ball ball!! Then you fly towards that place, I want to see what you find?"

With a low roar, Qiuqiu immediately changed its direction and flew in that direction excitedly.

After flying for about ten miles, Qin Chuan saw the scene ahead clearly and was shocked.

It turned out that the light in the void was very dim. , Qin Chuan could not clearly see the situation ahead more than ten miles away. When he approached, he was immediately shocked by the sight in front of him. What he saw in front of him was a floating island in the void with a radius of nearly a hundred miles.

This floating island was extremely huge. Moving slowly in the void, like a giant mobile fortress

"Roar!"

Qiuqiu was extremely excited when he saw the huge floating island in front of him. It seemed that there was something very attractive to him in front of him.

Could the entrance to the third level be on this huge floating island in the void? Otherwise, how could he be in this void? Why would such a big floating island suddenly appear?

By the way, why did he do this?

Qin Chuan's heart Then a question came to mind, a question that he ignored.

That day, when he was on Tianhuo Lake, he heard someone say that it would take about five or six days to reach the entrance to the third level of Huolian Cave by riding on the floating island.

It would take half a year, or even a year, to reach the other side along the shore of Tianhuo Lake. When you reach the other side, you may not be able to find the entrance to the third level!

In fact, this kind of information is also recorded on the map of Fire Lotus Cave.

Qin Chuan just glanced at it in a hurry and didn't take it seriously.

Looking back now, I feel a little unreasonable.

If the entrance to the third level of Fire Lotus Cave is really on the other side, why can it take five or six days to reach the other side by taking a floating island, while going around the shore of Tianhuo Lake, it will take half a year or even a year to reach the other side, and it is not yet You must be able to find the entrance to the third floor.

In fact, the speed of the floating island he took that day was not very fast.

Calculated based on a five- to six-day journey, the width of Tianhuo Lake is only two to three hundred miles.

But if calculated according to a normal lake, the lake is two to three hundred miles wide, and it would only take two to three months at most to get around to the other side, instead of a year and a half.

Does this illustrate a problem?

In fact, the third level of Fire Lotus Cave is not on the other side of Tianhuo Lake at all, but on an extremely huge floating island in Tianhuo Lake, just like the giant floating island in front of you.

Moreover, the huge floating island should be moving all the time like the floating island in front of you. It would be difficult to find their location if you don't come by floating island or floating palace.

This also shows that the width of the Lake of Fire that day was far more than two to three hundred miles, and because of this, it only took a year and a half to get around to the other side.

Thinking of this, Qin Chuan felt a burst of surprise in his heart.

It seems that he has found the place to enter the third floor of the Golden Temple!

The Golden Temple and the Fire Lotus Cave look completely different on the surface, but the actual layout is almost exactly the same.

Since the exit of the Fire Lotus Cave is on the third floor, the exit of the Golden Temple should also be on the third floor. As long as I enter the third floor of the Golden Temple, I can find the exit!"

Thinking of this, Qin Chuan suddenly became excited and quickly urged Qiuqiu to fly towards the floating giant island.

Qiuqiu responded and flew forward excitedly.

However, this little guy aimed towards someone on the giant island with purpose. It flew in one direction.

Qin Chuan did not stop it. He knew that Qiuqiu must have discovered something, otherwise he would not have flown in that direction.

Soon, Qiuqiu flew over the giant island, and then headed towards the giant island. Flying into a valley.

When the ball fell into the valley, Qin Chuan was surprised to find that there was a huge hole at the bottom of the valley.

But the hole was blocked by a silver light curtain.

When Qin Chuan saw the silver When he saw the light curtain, his face showed a look of fear.

Because he recognized that the silver light curtain was composed of the "Magnetic Aurora"..

Chapter 2192

This dazzling magnetic aurora is the natal aura that can only be condensed by eighth-level gold warriors. It can also be called the natal sword light. It has extremely strong destructive power. It is the same level as the earth flame and sky fire. It is a top-grade aura of the metal system.

In fact, Qin Chuan had seen Qiuqiu sacrifice his natal spiritual sword and transform it into a spiritual weapon. The entire spiritual sword was silver-white.

The reason why its natal spiritual sword turns silver-white is because it has the natal spiritual light of Qiuqiu attached to it.

Just as Qin Chuan looked at the light curtain composed of the magnetic aurora with fear, Qiuqiu beside him roared, with excitement in his eyes.

It turns out that it was attracted by this 'dazzling magnetic aurora'

"Little guy, this is a dazzling magnetic aurora! Even a fifth-level ferocious beast will be easily cut into two pieces by it. Aren't you afraid of it?"

"Roar!"

Qiuqiu growled, and there was a trace of hesitation in his eyes. It was a complicated look that was both excited and worried. This made Qin Chuan extremely worried. He didn't know what Qiuqiu was thinking, but he knew that Qiuqiu was so excited about this show. The magnetic aurora was still a little scary.

Suddenly, Qiuqiu let out a low roar and looked warily at a huge rock next to the cave entrance.

Qin Chuan's expression moved and he also looked at that place, with a look of surprise on his face.

I saw a human skeleton wearing armor lying in the shadow behind the rock.

Seeing this, Qin Chuan immediately walked over with Qiuqiu and went around behind the rock.

He was surprised to find that, except for the In addition to the human bones, there is also the corpse of a ferocious beast next to it.

It is a ferocious beast corpse with wing bones.

It means that it is a flying ferocious beast.

"Huh! This is the ultimate defensive weapon!"

Qin Chuan looked at the set of silver-white armor worn on the human skeleton with surprise.

From the texture of the armor, Qin Chuan quickly judged that the armor was actually the best defensive weapon.

Among all the spiritual weapons, it was the most powerful attack weapon. Sexual spiritual weapons are very common, but defensive spiritual weapons are very rare and much more expensive than offensive spiritual weapons.

This is because refining defensive spiritual weapons requires much more materials than offensive spiritual weapons, and the cost of refining is much higher. This is naturally much more expensive.

Generally speaking, an ordinary offensive spiritual weapon is worth two to three hundred thousand gold coins, just like Qinchuan's ice and fire swords. But an ordinary defensive spiritual weapon can be sold for one or two Millions of gold coins, not to mention that the armor in front of you is a top-quality defensive spiritual weapon.

Generally speaking, a top-quality offensive spiritual weapon is worth seven to eight million, or even tens of millions of gold coins. And a top-quality defensive spiritual weapon is worth at least three to four thousand. Ten thousand gold coins

"Oh my God! It was actually the ultimate defensive spiritual weapon. This dead person actually had such a precious treasure!"

Qin Chuan was pleasantly surprised, but he did not immediately take off the armor. Instead, he looked up at the rock next to the corpse and saw that the rock wall was densely engraved with words. He thought it was the dead person. It was carved before his death.

Qin Chuan read the content of those words carefully.

When Qin Chuan read the content of those words, he finally understood everything.

It turned out that those words were indeed carved by this person before his death.

Look. After finishing those words, Qin Chuan knew that the person who died on the ground was named Ke Yuan. He was a fifth-level Dzogchen warrior during his lifetime.

And that body was a ferocious beast with wing bones, which was his flying pet..

Chapter 2193

It turns out that the Golden Temple was opened six years ago.

As one of the first batch of warriors to enter the Golden Temple, Ke Yuan gained a lot thanks to the help of flying pets and left the Golden Temple safely.

Three years later, three years ago, Ke Yuan entered the Golden Temple to hunt for treasures for the second time.

This time, before he entered the Golden Temple, he obtained a top-quality defensive spiritual weapon, which was the set of armor he wore, the 'Ruyi Battle Armor'.

The best spiritual weapons are extremely rare. Even seventh-level warriors may not be able to possess one. However, Ke Yuan, as a fifth-level Dzogchen warrior, possesses a top-quality spiritual weapon, and it is also a defensive top-quality spiritual weapon. This is entirely due to For the first time, he harvested a large amount of magnetic blue gold in the Golden Temple.

With the money from selling the Yuanci Blue Gold and his previous savings, Ke Yuan spent nearly 40 million gold coins to buy this set of 'Ruyi Battle Armor'.

With this set of Ruyi armor, Ke Yuan's strength greatly increased, and when he entered the Golden Temple for the second time, he became arrogant.

That day, when he realized that he had not made it in time to catch the first trip to the Floating Palace, he relied on the fact that he was a fifth-level Dzogchen warrior and had a fifth-level flying pet. He followed the route he remembered for the first time and tried to fly over there by force. A piece of void directly arrived at this floating giant island.

Unexpectedly, he and his pet were lost in the void.

The trip that originally only took five or six days took them a full month to find this floating island.

At that time, all the dry food they had on them had long been eaten up. Everyone and the animals had been hungry for seven or eight days. They were all exhausted from hunger and were on the verge of collapse.

With their last will, they rushed to the entrance of the third floor and found that more than a month had passed and the entrance to the third floor had been closed.

In desperation, Ke Yuan took his flying pet and wandered around the floating island. One was to find some food, and the other was to find another entrance to the third floor.

Finally, Ke Yuan found the valley and discovered the cave entrance sealed by the magnetic aurora.

According to his speculation, the cave is another entrance to the third level.

But the entrance was also sealed by the magnetic aurora, so he still couldn't get in.

Although he was wearing the Ruyi Armor, a top-notch defensive weapon.

However, that dazzling magnetic aurora belongs to the high-grade natal aura, which is the natal sword radiance of a gold warrior.

The sword light of a gold-type warrior has a characteristic, that is, it can 'break armor', hurt people through objects, and attack through the body with sword energy.

Although the Ruyi Battle Armor can block the physical attacks of warriors and various attribute damage, it is difficult to withstand the penetrating attack of the sword light of gold warriors.

With Ke Yuan's fifth-level Dzogchen strength, even with Ruyi Armor on him, he couldn't withstand the power of the Magnetic Aurora.

Facing the dazzling magnetic aurora, he had no choice but to be cut in two.

Therefore, Ke Yuan could not break through the light curtain composed of the dazzling magnetic aurora, and he did not dare to break through.

According to Ke Yuan's speculation, it might take three years until the Golden Temple is opened again before the light curtain blocking the entrance disappears, but he can no longer wait that long.

In the end, Ke Yuan wrote his own experience in despair. He and his pet starved to death outside the cave.

His last words were that if anyone found the remains of him and his pets, he asked them to bury him and his pets together and not let their bodies be exposed to the wild.

In return, he was willing to give his Ruyi armor to future generations.

Seeing this, Qin Chuan couldn't help but sigh.

He also did not expect that Ke Yuan, as a fifth-level Dzogchen warrior, would end up starving to death.

"Why! Fortunately, I have the God of War Order space, which can store a lot of dry food. Otherwise, my fate would be the same as that of Senior Ke Yuan, starving to death here."

At this time, he thought of a serious problem again.

This serious problem is, how can he pass through the light curtain composed of the 'dazzling magnetic aurora'?..

Chapter 2194

Without the strength of a sixth-level warrior or above, it would be almost impossible to pass through the light curtain. If he forced his way through, he would definitely be cut into pieces by the light curtain.

If he did not pass through the light curtain, he would not be able to enter the third floor of the Golden Temple, and he would not be able to leave the Golden Temple. The final outcome would be the same as Ke Yuan's, starving to death here.

Thinking of this, Qin Chuan couldn't help but feel worried.

However, Qin Chuan also knew that there was no point in rushing now. It was better to calm down, deal with the problem at hand, and then think of a countermeasure.

At that moment, Qin Chuan followed the introduction on the rock jade, bit off his index finger, dripped his own blood on a hidden rune mark on the chest of the 'Ruyi Battle Armor', and then pinched several control seals to input his own vitality..

The Ruyi battle armor made a soft sound, and automatically shrank from the corpse, and finally shrank into a token as big as a palm.

At the same time, Qin Chuan also found a small white jade porcelain bottle and a martial arts jade tablet next to Ke Yuan's body.

That martial arts jade token is actually the superior gold-based martial arts—Moon God Slash!

However, this Moon God Slash needs to be practiced to the fifth level before it can be learned. Qin Chuan naturally has no need of it now, so he just put it into the God of War Token space.

Then, he opened the small white jade porcelain bottle, and an extremely rich golden energy emanated from the bottle.

Qin Chuan looked closely and saw that the bottle contained half a bottle of golden liquid.

"Huh! This seems to be the 'Hundred Gold Jade Dew', which is a good thing that can greatly improve the metal system! I heard that it is very helpful in improving the cultivation level of warriors below the fifth level. If it exceeds the fifth level, its effectiveness is greatly reduced."

One drop of this Hundred Gold Jade Dew is worth about 10,000 gold coins, which is barely comparable to the value of a middle-grade elixir.

Thinking of this, Qin Chuan's face showed a look of surprise. This Hundred Gold Jade Dew is exactly what he needs most at the moment. Item.

Because this Hundred-Gold Jade Dew is different from other elixirs, it has a unique characteristic, that is, any warrior of any level below the fifth level can absorb and refine it.

Unlike some elixirs, which are of insufficient levels, they cannot Completely refining and absorbing.

Just like it is more appropriate for a quasi-warrior to take the Little Juyuan Dan for cultivation. If he takes the Juyuan Dan, it seems a bit wasteful. A lot of the medicinal power cannot be refined and absorbed in time, and is wasted in vain.

And this hundred gold Jade Dew has mild medicinal properties and is spiritually condensed without dissipation. Even if a quasi-warrior comes to refine it and take it, it will not cause any waste.

This is because Baijin Jade Dew is not an elixir, but the golden energy of heaven and earth that naturally condenses under specific conditions. It is formed by alienation. To a certain extent, it can be said that it is a highly concentrated liquid gold energy, which is naturally suitable for warriors of any level to absorb and refine. Because of this, this Hundred Gold Jade Dew is extremely popular among those below the fifth level. Warriors welcome it, which means that although its efficacy is not as good as that of a middle-grade elixir, its price has reached the level of a middle-grade elixir.

Even at such a price, it is extremely rare to see anyone taking it out at auctions. Auction.

Although the efficacy of this Baijin Jade Dew is not as good as that of middle-grade elixirs, it can be regarded as the best of the best among low-grade elixirs. It is countless times better than that of Xiao Juyuan Dan.

During this time , , Qin Chuan has always taken Xiao Ju Yuan Dan to cultivate Jin Yuan Qi.

In terms of his metal qualifications, taking a large amount of Xiao Ju Yuan Dan will only be of limited help.

His current Jin Yuan Qi has opened up thirty-two Main point, if he continues to practice here, based on the current speed, he will need at least ten days of practice to reach the peak level of a quasi-warrior..

Chapter 2195

Although Qin Chuan is still short of reaching the level of a quasi-warrior at the pinnacle of the gold system by opening three main acupoints, this practice becomes more difficult as he goes to the later stages. Each additional main acupoint that is opened is several times more difficult than the previous one.

Therefore, even if the concentration of gold energy here is more than twenty times that of the outside world, it would still take Qin Chuan more than ten days to open up the last three main points and become a quasi-warrior at the top of the gold system.

Naturally, he couldn't afford to spend such a long time. It was impossible for him to continue to waste here for so long. After all, he didn't have much dry food stored now.

However, now that he has obtained Baijin Jade Dew, the situation is different.

This Hundred Gold Jade Dew is countless times stronger than the Little Juyuan Pill. Even the Juyuan Pill is far from being able to compare with it.

If he takes it and refines it now, it may only take a day or two for him to break through the golden energy to the level of a peak quasi-warrior!

Thinking of this, Qin Chuan felt happy. He had always been anxious about the progress of Jin Yuanqi's cultivation, but now he finally let go of the burden in his heart.

With this bottle of Hundred-Gold Jade Dew, it would be easy for him to cultivate his gold energy to the first level before entering the Zhou family's forbidden area.

If he can cultivate Jin Yuanqi to the first level before entering the Zhou family's forbidden area, then he can become a true five-element warrior and his strength will be greatly increased.

After putting away the bottle of hundred-gold jade dew, Qin Chuan was able to take stock of the top-grade defensive spiritual weapon, the Ruyi Battle Armor.

The weapons of warriors can be divided according to quality: fine iron weapons, ordinary spiritual weapons, top-quality spiritual weapons, semi-sacred weapons, and divine weapons.

At the same time, warriors' weapons need to be mixed with iron essence that has the ability to transmit vitality, so these weapons are called refined iron weapons, and they are also the lowest weapons.

On top of the refined iron weapons are ordinary spiritual weapons, just like Qin Chuan's swords of ice and fire.

In fact, even ordinary spiritual weapons are extremely rare among warriors, let alone top-quality spiritual weapons.

As for semi-sacred weapons, they are only possible in the hands of ninth-level warriors.

The artifact is a legendary existence that has been rare for thousands of years.

Top-quality spiritual weapons are at a higher level than ordinary spiritual weapons. In addition to their simple amplitude effects, they also have their own characteristics.

The characteristic of the Ruyi armor in Qin Chuan's hand is that it can be deformed as desired and automatically shrink into a token shape. When fighting, as long as the mind moves, it will turn into a battle armor and be worn on the body, and it can fit anyone's body shape and adjust The size and shape of the armor to achieve the most suitable state.

Moreover, this Ruyi Battle Armor can be driven by any type of vitality, and its defensive power can withstand external attacks that are double the attack power of its own basic vitality.

This kind of defensive power is even stronger than Qinchuan's Four Phase Hunyuan Shield.

However, Qin Chuan activates the Four Phase Hunyuan Shield and puts on this armor, which is equivalent to double defense.

"With this Ruyi armor, my defense power will be greatly increased and my strength will be greatly enhanced."

Thinking of this, Qin Chuan was extremely excited.

Now that he has mastered the control seal of Ruyi Armor, he is equivalent to possessing a top-notch defensive weapon.

"Roar!"

But at this moment, Qiuqiu next to Qin Chuan suddenly growled at him, and then looked pitifully at the Ruyi armor that turned into a token in Qin Chuan's hand.

Seeing Qiuqiu's strange expression, Qin Chuan's heart moved and he smiled and said: "Qiuqiu, you want it?"

"Roar!"

Qiuqiu nodded repeatedly...

Chapter 2196

"hehe!! Qiuqiu, this Ruyi armor needs a seal to drive it. You are a ferocious beast, how could you possibly use a seal to control it? If you can learn its operating seal, why not give it to you?"

After hearing this, Qiuqiu became excited, his eyes shone, and he growled a few more times at Qin Chuan, as if asking if what Qin Chuan said was true.

Qin Chuan smiled and said, "Look at your excitement. Look, can you really know how to use the Seal Technique? If that were the case, you would no longer be a ferocious beast, but would almost become a monster. Of course, what I said is true. If you can use the seal, I will give it to you."

After speaking, Qin Chuan spread his hands and placed the Ruyi Battle Armor Token in front of Qiuqiu. He was also curious about why the little guy was suddenly so interested in the Ruyi Battle Armor.

But Qin Chuan saw Qin Chuan put the Ruyi Battle Armor Token away. In front of him, there was a look of joy in his eyes. He thought Qin Chuan had promised to give it to him, so he opened his big mouth without hesitation, sucked hard, and swallowed the Ruyi War Armor Token. Seeing this, Qin Chuan's face changed. Big change, he only knew that Qiuqiu was interested in Ruyi Battle Armor, but he didn't expect that Qiuqiu would actually be swallowed up by Qiuqiu.

When he realized something was wrong, the Ruyi Battle Armor Order had already been swallowed by Qiuqiu, and suddenly Qin Chuan's eyes turned black and he was so angry that he almost vomited blood.

A top-quality spiritual weapon that he finally obtained, which was also a very rare defensive top-quality spiritual weapon, was actually eaten by Qiuqiu as food.

Thinking of this, Qin Chuan was filled with excitement. Staring at Qiuqiu with regret on his face

"Qiuqiu, you loser! That is an excellent defensive weapon! What is wrong with you, why do you insist on eating it? That's 40 million gold coins? Just let you eat it in one bite. If you really want to eat it, isn't there a lot of multi-magnetic blue gold stored in the space of my God of War Order? Why!!"

Seeing Qin Chuan's scolding, Qiuqiu immediately shrank and returned to its original appearance, but blinked a pair of small eyes and looked aggrieved.

"snort! Little guy, you ate a top-quality spiritual weapon and you didn't know how to admit your mistake. You even pretended to be aggrieved. I think I was the one who was aggrieved!"

"Gujiguji!!"

Qiuqiu saw that Qin Chuan was really angry this time. He quickly ran to Qin Chuan and pulled his trousers pitifully.

Qin Chuan felt soft in his heart when he saw his appearance and could no longer bear to blame him. He sighed

"OK! OK! It's my bad luck. I deserve that the Ruyi Armor is not mine. I don't blame you, little guy, let's bury Senior Ke Yuan's body! After all, we took his relics, this is what we should do"

"Gujiguji!!"

Qiuqiu also nodded repeatedly.

At that moment, Qin Chuan and Qiuqiu found a place to bury Ke Yuan's bones and his pet's bones together, and erected a stone tablet.

After completing these trivial tasks, Qin Chuan took the Follow the ball to the hole sealed by the 'dazzling magnetic aurora'

"Ball ball!! Let's quickly think of a way to get through this light curtain! If we cannot pass through this light curtain, we will not be able to enter the third level, and we will not be able to get out of the Golden Temple."

Thinking of this, Qin Chuan couldn't help but feel worried. Even Ke Yuan couldn't pass through the dazzling magnetic aurora in front of him, and he couldn't pass through it even more.

Ke Yuan is a fifth-level Dzogchen warrior, and his strength is much stronger than him.

"This is how to do ah? Am I going to follow in the footsteps of Senior Keyuan and starve to death here?"

Thinking of this, Qin Chuan couldn't help but frown, and became even more anxious.

There was not much time left for him, and he had to come up with a solution as soon as possible.

But at this moment, Qiuqiu beside Qin Chuan suddenly roared, In a blink of an eye, it becomes a fighting state..

Chapter 2197

Qin Chuan was wondering what it was going to do when he saw Qiuqiu take a big gulp at the dazzling magnetic aurora, sucking in a dazzling magnetic aurora directly from the light curtain and swallowing it.

A head-sized black hole immediately appeared in the magnetic aurora light curtain, which was actually caused by the ball swallowing a piece of the magnetic aurora.

However, the light curtain quickly returned to its original appearance, and the black hole disappeared. It seemed that the source of the dazzling magnetic polar light was continuous and would not decrease.

But when Qin Chuan saw Qiuqiu suddenly swallowing a dazzling magnetic aurora, his expression changed drastically, and he quickly looked at Qiuqiu worriedly.

"Qiuqiu, are you okay?"

After Qiuqiu swallowed a dazzling magnetic aurora, he lay still on the ground and began to doze off. His eyes closed involuntarily.

Seeing this, Qin Chuan breathed a sigh of relief.

He knew The state of Qiuqiu usually only appears when refining something, and every time he wakes up, Qiuqiu will make some progress. It is unbelievable that Qiuqiu can swallow the magnetic aurora.

You must know this Even the fifth-level ferocious beasts dare not stick to the Magnetic Aurora, but Qiuqiu actually swallowed them, and it seems that they can be refined.

Qiuqiu really deserves to be a freak who grew up eating all kinds of metals! Now even the Magnetic It can be swallowed."

But just when Qin Chuan was surprised and even a little surprised, Qiuqiu's face showed an extremely painful look, as if the dazzling magnetic aurora that had just been swallowed was starting to cause trouble in its stomach.

Seeing this, Qin Chuan became anxious and asked: "Qiuqiu, what's wrong with you?"

But Qiuqiu still didn't open his eyes, and still closed them tightly. The pain on his face became thicker and thicker, and there was unexpectedly something on his forehead. Cold sweats began. not good! It seems that with Qiuqiu's current cultivation level, it is too reluctant to swallow this dazzling magnetic aurora.

Qiuqiu seems to have reached a critical moment now. I don't know if he can survive it. If he can survive it, Qiuqiu may be fine.

If not, Qiuqiu may be in danger of his life.

Thinking of this, Qin Chuan felt even more uneasy.

However, he didn't know how to help Qiuqiu, so he could only worry on the sidelines. It seemed that Qiuqiu could only rely on himself for all this.

At this time, the pain on Qiuqiu's face became more and more serious. Gradually, the fur on its body began to bleed, and blood slowly oozed out. Blood also began to ooze from the corners of its mouth and nostrils.

Seeing this, Qin Chuan suddenly felt something bad. He felt anxious, suddenly thought of something, and immediately cursed himself for being stupid for forgetting that.

At that moment, Qin Chuan pressed his palm on Qiuqiu's back and began to continuously inject essence energy into it.

Qin Chuan is a physical martial artist.

The essence of energy cultivated by physical warriors is very helpful in healing injuries.

Qiuqiu's current state is obviously due to lack of strength, and he wants to use his talent of swallowing gold and silver to forcibly swallow the refined Magnetic Aurora.

However, Qin Chuan said that as soon as Qin Chuan injected his essence energy into Qiuqiu's body, he immediately felt that there was an extremely terrifying force inside Qiuqiu, which was destroying Qiuqiu's body and internal organs wantonly.

In addition, there is another energy that is desperately suppressing that destructive energy.

Apparently, that destructive energy is the magnetic aurora.

And the energy that suppresses the dazzling magnetic light should be Qiuqiu's innate ability to swallow gold and silver.

At the moment, Qin Chuan no longer hesitated and used his essence energy to repair the injuries inside the ball..

Chapter 2198

With Qin Chuan's help, the look of pain on Qiuqiu's face suddenly diminished a bit. Because of the reduction in pain, it became more focused and concentrated its full strength once again to suppress and devour the dazzling magnetic aurora.

In this way, Qin Chuan continuously fed Qiuqiu with essence energy to help Qiuqiu repair the injuries in his body. Qiuqiu worked hard to refine the dazzling magnetic aurora, and each person and the beast cooperated in a tacit understanding.

Unknowingly, two days and two nights passed. Qiuqiu finally completely refined the dazzling magnetic aurora in a thrilling way. Qin Chuan was also frightened into a cold sweat.

If he hadn't remembered at the critical moment that his essence energy could help Qiuqiu, I'm afraid Qiuqiu would have died.

"Roar!"

Qiuqiu roared excitedly. The two days and two nights of refining without sleep did not make him tired, but instead made him more energetic.

However, Qin Chuan discovered that after Qiuqiu refined the dazzling magnetic aurora, his cultivation level It seemed to have only increased slightly, which made him very surprised.

According to the energy contained in the dazzling magnetic light, the cultivation level should have greatly increased after the ball was swallowed and refined., but now it has only increased slightly.

But at this moment, Qiuqiu's third eye opened, emitting a more breathtaking light than before.

"Huh! This is?"

At this time, Qin Chuan discovered that after Qiuqiu swallowed the dazzling magnetic light, the biggest change was the third eye.

He saw that there was an extra circle of looming silver eyes in Qiuqiu's third eye. The blue halo.

It seems that the dazzling magnetic aurora has been swallowed up. The biggest change is the third eye of Qiuqiu. In this way, the divine light of destruction it shoots now should be much stronger than before. I am afraid it has more than doubled the attack..

Thinking of this, Qin Chuan was very curious about the evolution of Qiuqiu's third eye, but he didn't let Qiuqiu test its power, because he knew that every time Qiuqiu shot out the divine light of destruction, it would consume a lot of himself. of

"Little guy, you are too reckless, and your cultivation is not enough, so you dare to swallow the magnetic aurora. Fortunately, you are fine, otherwise you wouldn't be able to stand here."

Qin Chuan did not forget to teach Qiuqiu a few words, so that Qiuqiu could remember the lesson.

"Roar!"

Qiuqiu growled, with some fear in his eyes.

"By the way, little guy, since you can swallow the magnetic aurora, maybe if we want to enter the third level this time, we have to rely on you. It's just that you can swallow too little now. Last time, you only made a black hole the size of your head, and you couldn't let us pass through it."

"If you could make the black hole bigger, you could fit both of us through it. However, I can also see that the amount you swallowed last time was already your limit."

"This time, you have refined that dazzling magnetic aurora. Have you made any progress? Can you swallow more?"

"Roar!"

Qiuqiu roared, looking at the light curtain, with a look of love and fear in his eyes. After a while, he nodded slightly.

Seeing its attitude, Qin Chuan said happily: "You mean, you have made progress and can be better than the first one. Devour more at once?"

"Roar!"

Qiuqiu nodded repeatedly.

Seeing this, Qin Chuan was overjoyed, as if he saw the hope of entering the third level.

"That's good, I will help you refine it. However, we are in no rush to devour it now. Wait for a while to rest and regain some energy."

At that moment, Qin Chuan took out a piece of magnetic blue gold from the War God's Order space and gave it to Qiuqiu. He also ate some dry food himself, and then meditated to recover.

In order to help Qiuqiu refine the magnetic aurora, he had been without food for two days and two nights. He had neither eaten nor slept, and naturally needed to recover at this moment before he could fully cope with the next refining.

When Qin Chuan'er meditated for more than an hour and recovered his energy, he slowly opened his eyes and saw something that made him A surprising scene.

I saw Qiuqiu sitting cross-legged on the ground. At this moment, the third eye on its forehead shot out a red beam of light and was refining a spiritual weapon in the air.

That spiritual weapon was not its native spirit. The sword was the Ruyi armor that had been swallowed by it earlier.

Seeing this, Qin Chuan suddenly realized that he had mistakenly blamed Qiuqiu before..

Chapter 2199

Qiuqiu didn't eat the Ruyi Armor as food, but as a spiritual weapon, swallowed it in his stomach and refined it on his own.

However, this scene made Qin Chuan feel a little incredible.

He had never heard that ferocious beasts could use spiritual weapons, but when he thought that Qiuqiu could even refine spiritual weapons by himself, he was not surprised.

At this moment, the Ruyi armor in the air was also a little different from before. It changed from pure silver to silver-blue, and it was obvious that some magnetic blue gold had been penetrated by Qiuqiu.

Seeing the refining situation of the ball, it seems that it will not be over for a while.

Qin Chuan didn't want to interrupt its refining, so he took this opportunity and took a drop of Baijin Jade Dew to refine it.

When he finished refining the drop of Hundred Gold Jade Dew, it was already three hours later. His Gold Yuan Qi had also taken a big step forward. Thirty-four main acupoints had been opened. It's only one step away.

As long as he can cultivate his Jin Yuan Qi to the level of a peak quasi-warrior, he can take the Awakening Pill and break through the Jin Yuan Qi to the first level of elementary level within three days. At that time, he will become a true five-system warrior.

For this day, Qin Chuan had prepared an awakening pill for himself in advance, waiting for his golden energy to reach the peak level of a quasi-warrior.

"Ha ha!! I have opened up thirty-four main acupuncture points, and I am not far from the level of a peak quasi-warrior. It seems that it will not be long before I become a fifth-line warrior."

Qin Chuan opened his eyes happily, only to see that Qiuqiu had already finished refining the Ruyi War Armor and was guarding him.

Seeing this, Qin Chuan said:"Qiuqiu, you will refine the Ruyi War Armor. Finished?"

Qiuqiu nodded repeatedly.

"Then show me how to use it, and I'll see if you can use it!"

Hearing this, Qiuqiu let out a low roar, opened his mouth and spit out a token, which was the Ruyi Battle Armor Token.

The Ruyi Battle Armor Token swayed in the air, then turned into a silver-blue light and attached to Qiuqiu. , instantly transformed into a set of silver-blue armor, covering Qiuqiu's whole body.

Even Qiuqiu's claws were also wrapped in armor.

Except for the wings, tail, and some areas on the head, most of Qiuqiu's body area All were covered by armor.

This made it look extremely powerful and extraordinary, just like the mount of an ancient god.

Seeing this scene, Qin Chuan's eyes showed horror.

This Ruyi armor originally required a certain amount of I didn't expect that after being refined by Qiuqiu, I could be freely controlled by it.

"The characteristic of this Ruyi Battle Armor is that it can be deformed as desired and can be transformed into a shape that suits any user. Now it seems that this is indeed the case. This armor fits so well on Qiuqiu. It looks like a mythical beast in armor, very powerful! Qin

Chuan marveled in his heart, and at the same time he thought of a problem.

The problem is that after Qiuqiu got this Ruyi armor, its defensive power was greatly increased, and its shortcomings of weak defense were completely eliminated.

Qiuqiu's own attack The power has far surpassed that of the fourth-level Dzogchen Peak Warrior. With this Ruyi Armor and its own defense, even Fengxing Leiyun cannot hurt it. In other words

, Qiuqiu has obtained this piece of armor. The Ruyi Armor no longer has any weaknesses, and its strength has doubled.

In terms of its current comprehensive strength, it is already comparable to Qin Chuan.

Seeing Qiuqiu's strength greatly increased, Qin Chuan was naturally extremely surprised.

Only then did he realize Come on, Ruyi Battle Armor is more suitable for Qiuqiu than using it yourself..

Chapter 2200

"Qiuqiu, you did a good job! Let's refine that dazzling magnetic aurora quickly! There is no time to waste any more!"

"Roar!"

Qiuqiu roared, his eyes condensed, and he acted immediately. He took a big sip at the light curtain, and immediately inhaled another dazzling magnetic aurora.

This time he inhaled more than the last time. The light curtain A black hole appeared that was a circle larger than the last time.

However, the black hole was too small and still could not let Qin Chuan and Qiu Qiu pass through.

Qin Chuan could not care so much and immediately injected Qiu Qiu with essence energy to help It refined the magnetic aurora it swallowed.

Two days later, Qiuqiu finished refining the magnetic aurora it swallowed for the second time. Its cultivation level improved slightly, and the blue aperture in its third eye became clearer.

After refining the magnetic aurora that was swallowed for the second time, Qin Chuan and Qiuqiu rested for a while and then started to swallow it for the third time.

By repeating this process, thirteen days passed unknowingly.

Qinchuan's food had already been eaten. He had already eaten, and he had been hungry for three days.

During this period, Qiuqiu had devoured six times in a row, and the amount he devoured was more and more each time.

Qiuqiu's cultivation has also reached a level that can break through the peak of the fourth level at any time. The state is only one thin film away from the fourth level of perfection.

However, its biggest change is that the blue halo in the third eye has clearly formed. Qin Chuan also deeply sensed that the third eye of the ball has to emit light. The momentum that came out was terrifying, and its power was definitely extraordinary. As for how strong it was, he didn't know.

However, one thing is certain, Qiuqiu's current comprehensive strength is probably slightly better than Qin Chuan's.

"Qiuqiu, today is the last time, are you sure? Qin

Chuan looked at the light curtain in front of him and looked at Qiuqiu with a solemn expression.

He had been hungry for three days and he could not wait any longer.

According to his estimation, Qiuqiu should be able to devour Qiuqiu this time. A black hole that he can pass through.

Therefore, he must seize this opportunity.

He must pass through that black hole at an extremely fast speed without any hesitation, because as long as he slows down a little, he will be dazzled. The magnetic aurora was cut off in two.

Thinking of this, Qin Chuan couldn't help but feel nervous, and even his palms were sweating.

At that moment, Qin Chuan activated the battle body madness, and at the same time activated the blood shadow escape method to increase his momentum. To reach the peak state.

After doing this, Qin Chuan cautiously said to the ball: "Little guy, are you ready?"

"Roar!"

Qiuqiu's limbs were also tense, and the hair on his body stood up, making him ready to pounce. His eyes were looking forward solemnly, and he nodded slightly.

Obviously, Qiuqiu was also very nervous.

Because they were going through together. , this will be a life and death bet. If you pass through, you will live. If you cannot pass through, you will die on the spot.

"Ball ball! Then let's get started!"

Following Qin Chuan's order,

Qiuqiu immediately roared and took a big sip towards the light screen in front.

A large black hole as thick as a bucket immediately appeared on the light screen.

"Ball ball! quick!"

Before Qin Chuan could finish speaking, Qiuqiu had already kicked off his legs, and his body was already in mid-air, rushing towards the black hole. At the same time, its body shrank rapidly in the air, and instantly changed back to its original appearance.

As soon as the ball became smaller, there was a flash of blood behind it, but Qin Chuan arrived at a faster speed, hugged it, and pierced the black hole ahead at lightning speed.

"Uh-huh!"

A streak of blood flashed through the black hole like lightning, at an astonishing speed..
