

## God level 2371

### Chapter 2371

After flying for a while, Qin Chuan was surprised to find that Wei Qinghe was actually following him.

This immediately made Qin Chuan feel dizzy and he muttered secretly.

Why! It seems that I am still too big!

I must try the strength of a fifth-level warrior. In fact, Qiuqiu and I attacked Wei Shaohua from the beginning, so we wouldn't have been injured.

Now, both Qiuqiu and I are seriously injured. In this state, I don't know if we can last until Duantian Lake.

Even if I insist on reaching Duantian Lake, I may not be able to find the exit there.

If we can't find the exit, we will eventually fall from the sky. Wouldn't it be an advantage for Wei Qinghe at that time?

It turned out that Qin Chuan and Qiuqiu had deliberately fought against Wei Qinghe to see how long their combined power could last in the hands of a fifth-level warrior.

Facts have proved that Qin Chuan and Qiuqiu can only barely withstand about ten rounds in the hands of fifth-level warriors.

This is because Wei Qinghe did not use martial arts. If he had used martial arts.

It would be good if Qin Chuan and Qiuqiu could last three rounds.

Fifth-level warriors have condensed virtual elixirs, comprehended the secrets of elements, and generally mastered one or two superior martial arts.

Although Qin Chuan was a little worried, he still ordered the ball to fly towards Duantian Lake.

Just like that, Qin Chuan and Qiuqiu were flying in the air.

Wei Qingyan was chasing below.

Although Wei Qingyan cannot fly, with his speed it is easy to keep up with the ball.

One was flying in the sky and the other was chasing on the ground. Before he knew it, more than half an hour had passed.

Qinchuan was still dozens of miles away from Duantian Lake, and Qiuqiu had not had time to heal since he was injured. His injuries worsened, his physical strength gradually became weak, and his flying speed became slower and slower.

Wei Qinghe below clearly noticed something strange about Qiuqiu, and immediately laughed proudly and said

"Ha ha!! Little bastard! It seems your pet is too injured to fly. Wei, let's see how long you can hold on? Wait for you to fall from the sky and see how Mr. Wei takes care of you? I will make it impossible for you to survive! You can't die!"

"snort!"

Qin Chuan snorted coldly and ignored him, but he became extremely anxious in his heart.

What should we do now? Looking at the current state of Qiuqiu, it seems that he cannot fly to Duantian Lake! If he falls from the sky now, Qiuqiu and I will definitely be poisoned by Wei Qinghe.

Thinking of this, Qin Chuan became more and more anxious.

Just when Qin Chuan was worried, there was a faint rumble of the air in front of him.

Hearing the sound of the air, Qin Chuan Chuan's heart moved, and he quickly looked around.

He saw a small black dot flying towards him from the direction of Duantian Lake.

The black dot was moving very fast.

Because it was traveling so fast, it actually rubbed against the space and made a rumbling roar.

Like this Not only Qin Chuan noticed the strange phenomenon, but Wei Qinghe below also felt it.

Both of them were greatly surprised.

Not long after, the black dot flew closer and closer, and the sound of breaking through the air became louder and louder.

The black dot The image gradually became clearer.

It was actually a person flying in the air.

Seeing the person flying over from a distance, Qin Chuan was suddenly confused. He didn't know whether the person flying in front was the ancestor of the four families or Qing Yanhai. Or maybe it was Qing Yanfei.

Just when Qin Chuan was startled and doubtful, the people flying in front seemed to have seen Qin Chuan, and flew directly towards Qin Chuan.

They shouted loudly from a distance: "Tian Qi! Come quickly, I will take you out of Duantian Lake. Otherwise, you won't be able to get out from there with your strength!"

As soon as he heard this voice, Qin Chuan was immediately overjoyed. It turned out that the person who came was Qing Yanfei.

At the same time, Qin Chuan also secretly marveled that Qing Yanfei's eyesight was indeed far beyond that of ordinary people, and he could see himself clearly from such a distance.

At the moment, Qin Chuan responded excitedly: "Yan Fei is the ancestor! Come quickly, there is a remnant of the Wei family here who is chasing the boy!"

"What?!"

Qing Yanfei was furious.

"There are still remnants of the four tribes, I will be here soon!"

But Wei Qinghe below said that when he saw Qin Chuan and Qing Yanfei talking, he immediately felt something bad, and immediately said nothing, preparing to run away with his tail between his legs..

Chapter 2372

But he didn't expect to be discovered by Qin Chuan and reveal his traces with one word.

Wei Qinghe's expression suddenly changed, and he ran back desperately without caring about anything else.

Seeing him like this, Qin Chuan immediately ordered Qiuqiu to turn around and chase Wei Qinghe.

When Wei Qinghe saw Qin Chuan chasing after him, he immediately wanted to cry without tears. If Qin Chuan chased him like this, he would know his whereabouts, and he couldn't hide it even if he wanted to.

At that moment, Wei Qinghe yelled angrily: "Qin Chuan, you bitch, I'll kill you if you follow me!"

"Ha ha!! Wei Qinghe! You were chasing me so hard just now, why are you running now?"

Hearing this, Wei Qinghe's face turned livid, but he ignored Qin Chuan and just kept running for his life.

He is a fifth-level warrior, and his speed is naturally much faster than Qiuqiu after being seriously injured. He ran away in a short time.

But at this time, Qinghe Yan Fei also rushed over.

At that moment, Qin Chuan pointed out the direction of Wei Qinghe's escape to Qing Yanfei and stopped chasing him.

Qing Yanfei laughed and chased after him.

Not long after, Qin Chuan heard a sound coming from the front Screaming.

After a while, Qing Yanfei flew back.

Qin Chuan knew that Wei Qinghe must have been poisoned.

As soon as Qing Yanfei came back, Qin Chuan asked anxiously: "Senior Yan Fei! How is the battle between the ancestors of Qing Yanhai and the ancestors of the four families? Qing

Yanfei frowned slightly and said, "When I rushed to Duantian Lake, I only saw Wei Feng's body, and the other three were missing." Later, I went out from Duantian Lake. I didn't see those three beasts Nan Feng, nor that lunatic Qing Yanhai."

"I searched a few times but couldn't find it. I decided to go back to the forbidden area and take you out first. Tianqi, Qinglongzhu, please keep it safe!"

"Senior Yan Fei, don't worry! The Blue Dragon Pearl is more important than the boy's life, so it must be well kept!"

"That's good!"

Qing Yanfei nodded with satisfaction.

"Tianqi, I will take you out of the forbidden area now. You take me to meet your elders. I haven't seen us Qing family members for hundreds of years. I want to see how many people there are in the Qing family today!"

Speaking of this, Qing Yanfei's face actually showed excitement.

Qin Chuan immediately nodded and said: "Senior Yan Fei, with your return this time, the strength of our Qing family has been raised to another level. The elder of my ancestors has It must be too late to be happy. There are two major gains from this attack on the four forbidden areas. One is to regain the Azure Dragon Pearl, and the other is to save the senior."

"Ha ha!! You kid is quite good at talking. We don't need to waste any more time. Huh! It seems that you and your pet are seriously injured. I will help you heal your injuries for a while before leaving!"

At that moment, Qing Yanfei personally helped Qinchuan and Qiuqiu heal their injuries.

Qing Yanfei, an eighth-level master, came to help. After healing for more than half an hour, the congestion in Qinchuan and Qiuqiu's bodies was drained, and their injuries recovered. Afterwards

, Qing Yanfei took Qin Chuan and flew towards Duantian Lake.

After flying for about as long as a cup of tea, Qing Yanfei took Qin Chuan and Qiuqiu to the sky above a huge lake.

Then The lake is only ten miles in diameter, and the water is extremely clear and green.

However, what is surprising is that the five-color glow blooms above the lake, and in the center of the lake, there are five kilometer-long fog dragons leaping into the air, roaring, and the scene is very amazing..

It's just that the five fog dragons have different colors, including red, yellow, green, white, and black.

Seeing this scene, Qin Chuan's eyes showed a hint of horror.

It seems that this is Duantian Lake without a doubt!

But he didn't expect it. It looks like this! No wonder the children of the four families don't allow the Blood Guard to approach Duantian Lake.

Anyone who sees such a scene will know that Duantian Lake is unusual.

But, what are the five giant fog dragons in the center of the lake? what happened?..

Chapter 2373

Seeing the doubts in Qin Chuan's heart, Qing Yanfei smiled and said: "Tianqi boy, this is what you call Duantian Lake. It is also the interface between the void and the illusory world and the outside world."

"Senior Yan Fei, what's going on with the five mist dragons in the middle of the lake?"

"Ha ha!! I asked you why you are confused, it turns out it is because of this. In fact, this is a common sense question about the void and illusory world. Tianqi, you should know that everything in this world is transformed by the five elements. The five elements transform everything, and everything originates from the five elements."

"In fact, the thing referred to here refers to matter, not space. What is space? Not many people have been able to figure it out since ancient times. Some people say that space is the sky and the earth, where we stand"

"Some people also say that space is the universe, the universe is up, down, left and right, and the universe is the past and present, so space is an infinite extension, with time from past to present as the axis, running through the long river of time, where you step today, you can still find it tomorrow, and where you step tomorrow. , unknown today. This is because, with yourself as the center, the space is constantly expanding, and you don't know where it has not been expanded."

Hearing these novel remarks, Qin Chuan thought about it silently and had some insights in his heart. Seeing Qin Chuan's expression of listening attentively, Qing Yanfei was relieved, secretly saying that he is a good boy, and continued to explain.

"The object here does not refer to space, nor does it refer to the mysterious source of the soul. The soul comes from Huo and goes to where. From ancient times to the present, it is even more unknown.

At this time, Qin Chuan asked with some confusion:"Senior, what does this have to do with the fog-shaped dragon in the center of the lake?"

"Ha ha!! Boy, don't be impatient, just listen to me slowly. This illusory world of void is a space created by the strength of ninth-level warriors. In fact, the illusory world of void created in this way is the world of death and cannot support the survival of living beings."

"If you want to turn this world of death into the world of life, you must extract the five elements of vitality from the outside world, because the five elements of vitality can not only transform all things, but are also the source of survival for all living things."

"The five giant fog dragons you see are actually transformed from the five elements of energy drawn from the outside world, the so-called platinum, black water, green wood, red fire, and loess. Because the extracted vitality was too large and rich, these five strands of vitality produced spirituality and turned into a mist dragon."

"Then why is it transformed into the image of a dragon and not the image of other creatures?"

"Ha ha!! This is because the dragon is the head of all spirits, and the five elements of vitality are the beginning of all things. If they have spirituality, they will naturally transform into dragons.

Hearing this, Qin Chuan suddenly realized and said:"So that's it!" In this way, every illusory world will have an interface with the outside world, and its main purpose is to extract the five elements of energy from the outside world."

"good! Because the illusory world of void cannot generate the five elements of vitality on its own, it can only be extracted from the outside world. Therefore, when a ninth-level warrior opens up a void and illusory world, he must spend a lot of money to create an interface, set up a five-element extraction array, and extract a large amount of five-element energy from the outside world to nourish the void and illusory world."

"Only in such a void and illusory world can people and living beings survive. Otherwise, the illusory world opened up cannot provide for the survival of living beings. It would be a dead world

and has no meaning in existence. alright! Tianqi, I want to go down and open the interface exit. You wait for me here."

At this moment, Qin Chuan rode on the back of the ball and stayed in the air.

Qing Yanfei flew towards the center of the lake..

Chapter 2374

When Qing Yanfei flew to the center of the lake, the five mist-shaped dragons immediately flew around him and roared.

Qing Yan was not unmoved. He made seals with both hands and condensed a strange and complicated rune on his chest. Finally, he roared and pressed down with a void hand.

"Inside and outside the boundary, the five elements of heaven and earth, the interface array! rise!"

With a loud roar, Qing Yanfei struck the condensed strange runes into the center of the lake.

The calm lake water suddenly rioted and started to boil.

"rise!"

Qing Yanfei opened his eyes wide, grasped with five claws, and slowly rose up. A rumbling roar came from the lake below.

Five huge black shadows slowly rose from the bottom of the lake.

Not long after, the five A huge black shadow broke out of the water, and there were five small islands.

On the top of each island was a huge rune stone.

The front of each stone was engraved with the five words 'gold, wood, water, fire, and earth'. Big characters.

As soon as these five islands surfaced, the waters in the center of the five islands automatically formed an extremely huge whirlpool, and there was a white light hole at the bottom of the center of the whirlpool. When he saw the white light hole, Qin Chuan's face showed a strange expression The color.

Because the white light hole in front of him seemed familiar to him. It was very similar to the white light hole he had encountered in the Fire Lotus Cave and the Sky Fire Lake.

This made Qin Chuan think:"It seems that I have seen it twice. The white light holes are all the same type of light holes. These light holes should be passages between different interfaces."

Actually, Qin Chuan's guess was correct. The white light holes he saw twice were the same thing, both interface wormholes.

After turning on the interface five elements formation, Qing Yanfei was sweating profusely. It seemed that he had turned on such a The formation is very strenuous

"Ha ha!! Okay, Tianqi baby! This interface channel has been opened by me! You and Qiuqiu come here quickly! I want to take you through the passage."

At that moment, Qin Chuan and Qiuqiu flew towards Qing Yanfei.

Then, Qing Yanfei waved his hand and turned into a green light shield. After covering the two people and the beast, he whispered:"Tian Qi, You must be ready, I am going to take you there."

As soon as he finished speaking, Qing Yanfei made a seal with his hand, and then let out a low roar.

"Walk!"

The entire light mask, carrying the three people, turned into a blue meteor and rushed towards the white light hole.

"boom!"

There was a loud noise, and Qin Chuan felt a huge tremor between heaven and earth, and saw a flash of white light.

Before he could understand what was going on, he felt the entire light shield flicker, and they had already passed through the passage and reached the outside world..

Qin Chuan quickly looked around and found that the surroundings were full of water, and there was a white light hole not far below him.

It turned out that the interface to the void and illusion world was also under the water.

After entering the outside world, Qing Yan was not the same. He didn't stop there and continued to rush toward the water with Qin Chuan and Qiuqiu.

"Boom!"With a sound!

Two people and one beast broke out of the water, carrying a water column more than ten meters high. The momentum was amazing.

"Ha ha!! Tianqi, we are out!"

Qing Yanfei was breathing heavily, with beads of sweat still hanging on his face.

Obviously going through this interface array had consumed a lot of his energy.

"yes! senior! Qin

Chuan also showed excitement and looked around curiously. He wanted to know where the interface to the void and illusion world was located.

After looking at the scenery around him, Qin Chuan realized that he and others were suspended in a On top of the lake, the lake is surrounded by mountains and forests. There are towering trees ten feet high everywhere, just like a vast virgin forest.

"Huh! What on earth is this place? I wonder how far this place is from Shenyang City?"

The scenery around him felt strange to Qin Chuan. He didn't know where he was at this moment.

At this time, Qing Yanfei said: "Tian Qi, let's find a place to rest first. I need to adjust my breath for a while and regain my strength. It's time to hurry up"...

Chapter 2375

Qing Yanfei was trapped for hundreds of years and was already in a weak state.

Now I have gone back and forth to the forbidden area twice, and I feel a little tired now.

Hearing this, Qin Chuan immediately said: "Okay, senior! I also want to find a place to adjust my injuries!"

"good! There is a small island ahead, and a group of strange people live on it, but I can't understand what they say. After I came out of the forbidden area for the first time, I went around the island in order to find the madman Qing Yanhai. Why don't we go to the island to rest for a while?"

"Everything depends on the ancestors!"

"good! Then let's go!"

At that moment, Qing Yanfei took Qin Chuan and Qiuqiu and flew in the same direction.

The two of them flew on the lake for only a moment, and Qin Chuan saw a small island emerging from the lake in the distance.

When they As he got closer and closer to the island, the appearance of the island gradually became clearer.

However, what surprised Qin Chuan was that he saw that on the island, which was only a dozen miles in diameter, there was actually a hundred-meter tall island standing in the center. A giant statue of 3 meters.

When Qin Chuan saw the appearance of the giant statue, his face immediately showed a look of horror and a hint of surprise.

Because the image of the statue was very familiar to Qin Chuan.

The appearance of the statue was a A handsome man with long flowing hair, handsome appearance and evil eyes.

The man pointed forward with one hand and held a strange weapon in his other hand.

The strange weapon was the same as the artifact Qin Chuan obtained not long ago, the Sun, Moon and Sky. The wheels were exactly the same.

It turned out to be him! Great God Ama! He was also the God of War!

Seeing the statue of the God of War not far away, Qin Chuan was filled with emotion.

After experiencing so many things, Qin Chuan vaguely felt that he and the God of War were not the same. There is an unexplained origin.

He first obtained the God of War's body-forging method from Senior Tuntian that day, and then obtained the God of War's Order. Then from the image of the God of War in the God of War's Order, he obtained the 'ancient Seven Forms of Forging the Body, and finally obtained the Sun Moon Wheel, the weapon of the God of War.

Unknowingly, he had become the inheritor of the God of War.

Thinking of this, Qin Chuan couldn't help but show respect for the statue in the distance.

Although He has never seen the God of War, let alone talked to the God of War, but he has vaguely regarded the God of War as his master.

As if he saw something strange about Qin Chuan, Qing Yanfei asked curiously:"Tian Qi , do you know who the statue in front is?

Qin Chuan nodded slightly: "I know you!" He was a great and powerful man from ancient times, named the God of War!"

"It turns out to be the God of War!"

Qing Yanfei's face also showed surprise.

"Regarding the God of War, I have also heard people mention it. I have heard that he is a great supernatural being who appeared in ancient times. However, their magical powers sound too terrifying and not like human beings, so I always thought that they were characters made up by ancient people and did not believe that such characters really existed."

"Unexpectedly, there is still a statue of him here. Could it be that a figure like the God of War really existed in ancient times?"

Qin Chuan nodded seriously and said, "I think it really existed."

Of course Qin Chuan believes in the existence of the God of War. He has even obtained the God of War's artifact. How could he not believe in the existence of the God of War?

"Tianqi, let's go to that statue and have a look!"

"good!"

At this time, Qin Chuan also wanted to know why there was a statue of the God of War on the island.

Not long after, two people and one beast flew over the island and flew directly towards the statue.

When the two approached the statue, Qin Chuan saw from a distance a group of indigenous people wearing strange costumes and painted faces standing under the statue.

At this moment, the indigenous people looked at the strange visitors in the air with panic, and mumbled some strange words in their mouths. language.

When Qin Chuan saw the attire of these indigenous people, a look of surprise immediately appeared on his face.

Because the attire and image of these indigenous people were exactly the same as the Mokuo people he had seen.

Obviously, the indigenous people on this island are also Mokuo people. A branch of the Kuo people.

No wonder there is a statue of the God of War on this island. It turns out that the residents of this island are the Mokuo people.

Where is this place? Why are there Mokuo people here? Are we here?...

Chapter 2376

Qin Chuan suddenly thought of a place in his mind.

At this time, Qin Chuan and others had fallen from the air and landed directly under the statue.

When the Mokuo people saw Qin Chuan and others falling from the sky, they all stepped back in awe to make way for them to open an open space, and they did not dare to come forward to inquire.

It turned out that these Mokuo people had never seen anyone flying in the air. Now that they saw people flying down from the sky, they immediately regarded Qin Chuan and others as gods descending from the sky. They were afraid that they would behave inappropriately, anger the gods, and suffer consequences. to punishment.

After landing, Qin Chuan was not in a hurry to say hello to the Mokuo people. Instead, he and Qing Yanfei looked up at the statue in front of them.

"good! Although I have never seen this person's true appearance, just looking at the statue of this person, I can feel that this person is no ordinary person. The evil spirit is born and cannot be imitated by ordinary people."

Qing Yanfei sighed in praise.

Qin Chuan on the side nodded slightly, then put one hand across his chest and saluted respectfully to the statue of the God of War.

Seeing Qin Chuan salute to the statue of the God of War, the Mokuo people were slightly moved.

This At that moment, there was a commotion from behind the Mokuo people, and then an old voice came from behind.

"I heard that a messenger from heaven came to our holy island. I wonder who the messenger is?"

The person who came here still spoke his own clan language, which is the ancient language.

Qingyan couldn't understand it naturally.

But Qin Chuan showed a look of surprise, because he knew who the person who came was, and the person who came was in Mokuo that day. The second priest of the Mokuo tribe, whom he had met once before.

At this time, Qin Chuan finally understood where he was.

It turned out that they were deep in the savage forest.

At first, he had spent some time with the Mokuo tribe..

I know that the Mokuo people are divided into two camps.

One is stationed at the exit of the forbidden area where the demon gods are suppressed, and is guarded by the high priest.

The other is stationed at a place called the Holy Lake deep in the Savage Forest, guarded by two priests.

Obviously , the place where he is now is the so-called holy lake of the Mokuo people.

At this time, a emaciated old man was seen standing out from the crowd. He was the second priest of the Mokuo people.

When the two priests saw Qin Chuan immediately showed a look of surprise and excitedly stepped forward to salute.

"It turns out that the descendant of God has arrived! The servants have seen Lord Goddess!"

After saying that, the second priest shouted to the Mokuo people behind him:"Why don't you come over quickly to pay homage to the Goddess!"

After the second priest roared like this, the tribesmen suddenly woke up and showed surprise.

They didn't expect that the young man in front of them turned out to be the god descendant who had appeared a year ago.

At that moment, all the tribesmen showed excitement. They all respectfully came forward to bow down to Qin Chuan.

"The servants have seen Lord Goddess!"

"The servants have seen Lord Goddess!"

At that moment, the scene was very spectacular.

Qing Yanfei on the side was stunned. He couldn't figure out what happened and why an old man came out and said a few words to Qin Chuan, and then a group of tribesmen knelt down and worshiped Qin Chuan.

Continue The scene that came down made Qing Yanfei even more stunned.

Qin Chuan actually opened his mouth and said some words that he couldn't understand, and those words were the same as the language of the indigenous people.

Later, he found that the indigenous people seemed to be in awe of Qin Chuan. , Qin Chuan just said a few words, and those people all stood up obediently and stood aside. If

Qing Yan couldn't understand the ancient language, he naturally couldn't understand what Qin Chuan, the second priest and others were saying.

At this time , the second priest asked Qin Chuan excitedly:"Master Divine, are you coming back this time to strengthen the Demon God's seal?"...

Chapter 2377

Hearing this, Qin Chuan smiled bitterly in his heart.

If he wants to strengthen the Demon God's seal, he is naturally unable to do anything now. His current strength is too weak.

Even if he wanted to ask Qing Yanfei for help, he couldn't.

Because the seal of the God of War is a sealing technique for system warriors, it can only be strengthened by physical warriors, and Qing Yan is naturally unable to help.

However, Qin Chuan's physical training has only opened the second door, and he has no ability to strengthen the seal.

Thinking of this, Qin Chuan sighed:"Second Priest, I am not able to strengthen the seal now, so this matter will have to be delayed for a while."

After hearing this, the Second Priest was slightly disappointed and immediately said:" I see, the servants hope that Lord Goddess can think of some solution as soon as possible. Now it is less than a hundred years since the demon god broke through the seal. If the demon god appears in the world again, it will be a disaster for all living beings and another great disaster in the world!"

Hearing this, Qin Chuan also felt anxious. Now that he has unknowingly regarded himself as the inheritor of the God of War, he is naturally the true descendant of the God.

In this case, the important task of sealing the Demon God should also be borne by him.

"Second Priest, don't worry! The god descendant knew this matter well and would never let the demon break out of the seal and endanger the world!"

Hearing Qin Chuan's words of comfort, the second priest felt much relieved.

"The servants believe that Lord Goddess can definitely do it. If Lord Goddess needs anything, just ask our subordinates, and we will do our best to help Lord Goddess."

"good! If necessary, I will not be polite!"

However, Qing Yanfei watched Qin Chuan and the second priest asking and answering questions. He couldn't help but asked, "Tianqi, what on earth is going on?" Who are they? How do you know their language?"

"Yan is not an ancestor, these people are all indigenous people who have been blessed by the God of War in ancient times. They were ordered by the God of War to guard a demon seal here."

At the moment, Qin Chuan pulled Qing Yanfei aside and briefly explained the process of the matter in a low voice.

Of course, Qin Chuan did not say anything about the God of War Order and the Sun, Moon and Heavenly Wheel.

And Qing Yanfei finished listening to Qin Chuan After speaking in Sichuan dialect, I was still shocked

"I never thought that the God of War really existed in ancient times! There is actually a demon god. Since the demon is called a god, he must be a terrifying existence. Tianqi, this is no small matter! By the way, Tianqi, you said that they mistakenly thought you were a descendant of the God of War when they saw that you were a martial artist. Where did you learn this physical training technique?"

"Yan is not an ancestor! I got this physical training technique from my clan's senior Tun Tian. Hearing this

, Qing Yanfei opened his eyes wide in surprise, grabbed Qin Chuan's hand, and asked excitedly: "What?" Have you met Senior Tuntian? Is Senior Tuntian still alive? Where is it?"

Seeing Qing Yanfei's excited and surprised expression, Qin Chuan lamented in his heart, and immediately told Qing Yanfei about the situation of Tun Tian and the affairs of the heads of the five families.

After listening to these words, Qing Yanfei immediately fell silent. , a moment later, a sad look appeared on the old face

"People raise pearls! That man was so cruel back then. He treated me like this, the head of the Qing family, and treated us like the five ancient families. This revenge must be avenged!"

"Yan is not an ancestor! Besides that person, there is also Long Xing! That Long Xing was even more hateful than the mysterious ninth-level Dzogchen warrior. The blood of the children of the five tribes on his hands was countless! If we want revenge, we must first seek revenge from Long Xing!

Qing Yanfei nodded sadly: "Tianqi, you are right!" However, Long Xing's strength was extraordinary and he was considered a strong one among ninth-level warriors. Moreover, he had two ninth-level accomplices back then. And we don't even have a ninth-level warrior here. How easy is it to get revenge?"

Speaking of this, Qing Yanfei's face looked very gloomy...

Chapter 2378

"Senior Yan Fei, who said there are no ninth-level warriors on our side? Don't we still have Senior Teng Xiaoshan and Teng here? He is still alive! Didn't I just tell you?"

"yes!"

Qing Yanfei's eyes regained a glimmer of light.

"But! The head of the Teng family is still trapped in the altar. If he wants to refine the entire altar, it will take decades!

Qin Chuan smiled and said, "Maybe it won't take that long!" Of course I met senior Teng. He once asked if there were any eighth-level warriors in our clan. If three or four eighth-level warriors take action, they can help him refine the altar and help him get out of trouble as soon as possible."

"But at that time, my Qing family didn't even have an eighth-level warrior, so that plan was naturally not feasible. Even if the Feng family and the Teng family later united, because there were too few eighth-level warriors, the boy did not dare to tell the matter, lest he alert the ninth-level warrior who was guarding Shenyang City."

"But things are different now. Now that we have you, Senior Qingyanhai, Master Teng, and Master Feng, four eighth-level masters, it is very possible to rescue Senior Teng as soon as possible."

"In particular, the strength of senior Qing Yanhai has reached the eighth level of Great Perfection, and his natal psychic beast has also reached the eighth level of Great Perfection, which is equivalent to five eighth level masters."

After hearing these words, Qing Yanfei was very happy.

"Ha ha!! Tianqi, you are right. With our current strength, we can definitely help the head of the Teng family get out of trouble. By the way, my natal psychic beast is also a ferocious beast at the peak of the eighth level."

"Since coming out of the forbidden area, I have vaguely sensed that he exists somewhere within a few hundred miles, but its current situation seems not good! When I find it, our strength will increase greatly."

"Tianqi, what you just said is so important. How about this! Let's rush back now, find our people, and quickly discuss with them how to rescue the head of the Teng family! It's time for a showdown with the man behind the scenes."

Qin Chuan shook his head and said, "Senior!" There is no rush now! Now we are deep in the Savage Forest, two to three hundred miles away from Shenyang City. Even at the speed of our seniors, it would take a day to get there. By the time we get to Shenyang City, the battle there will have been over long ago"

"The three members of our family must have retreated long ago and will not stay there. As for where they will go, the boy doesn't know. Presumably all the previous strongholds will also be removed. After all, this war has a great impact, Long Xing will definitely lead a counterattack"

"We, the children of the three tribes, will definitely no longer be able to stay in our original strongholds. For example, the Four Killing Alliance will definitely move secretly. Even if we rush over now, we still can't find them. We might as well just wait here and wait for them to come and find you and me!"

"Wait here for them to come? Will they come to us? Qin

Chuan said confidently:"Young man is a junior and doesn't know that there are secret strongholds among our three tribes, but senior Qing Yanhai definitely knows." After he finishes hunting down the ancestors of the four families, he will definitely go to the secret stronghold to join the others."

"If he hadn't noticed that we hadn't gone back yet, he would have definitely brought someone to look for us at this exit. He knew the location of this exit. Besides, with the Blue Dragon Pearl in our hands, there's no way they won't come looking for us. Hearing this

, Qing Yanfei smiled and said:"Little guy!" If I really have you, it seems you dare to plot against anyone! Ha ha! So, let's wait here! I just took this time to regain some strength so that I could prepare to save the head of the Teng family in the future. Qin

Chuan also smiled and said:"The residents here are very friendly to me. If we recuperate here, they will treat us kindly." This is the perfect place to rest and recuperate"

"Ha ha!! I will listen to your arrangements!"

Unconsciously, Qing Yanfei handed over the decision-making power of the action to Qin Chuan..

Chapter 2379

At that moment, Qin Chuan smiled slightly, walked up to the second priest and said:"Second priest, this old man is a friend of this divine descendant. I want to rest here for a while. Please make arrangements for me.""

"Lord God, this is a trivial matter! Please follow the subordinates to the island station, please!"

At this moment, the two priests led Qin Chuan and others to the station on the island.

After a while, the group arrived at the station.

The station was a village. The houses in the village were all made of wood and connected in a ring. In the center of the village was a Stone well.

According to the introduction of the two priests, the water in the well is holy water, which is water containing the energy of the extreme sun.

Holy water is one of the two sacred objects of the Mokuo people.

The other sacred object is planted by the Mokuo people at the entrance to the forbidden land. The holy fruit contains extremely yin energy.

These two things are necessary for the Mokuo people to open the Huasheng Pond.

Qinchuan has experienced the baptism of the Huasheng Pond, so he is naturally familiar with these two things.

After entering the station, the two The priest prepared two of the best rooms for the two of them, and ordered people to quickly notify the high priest and clan leader to come and see them.Sir.

Qin Chuan and Qing Yan were naturally adjusting their breaths and recuperating.

Qiuqiu and Qin Chuan were in the same room, and they also ate Yuanci Blue Gold to heal themselves.

While Qin Chuan and Qing Yanfei were staying in the Mokuo tribe to recover from their injuries, the battle between the Qing Feng Teng Huo tribe and the four Qing Feng Teng Huo tribes to destroy the Nan Yan Wei Zhou family had long ended.

After Qingyunfeng's layout and calculation, none of the four ancestors came to the rescue.

The direct descendants of the Zhou family of Nan Yanwei suffered heavy casualties, and the city lord Nan Xiaofeng also died on the spot.

The entire Shenyang City saw Nan Xiaofeng's death with their own eyes.

Such a battle scene is so amazing that it's hard not to see it.

As soon as Nan Xiaofeng died, the fighting spirit of the four children immediately collapsed.

Subsequently, all the seventh-level elders of the four families were killed.

The rest of the disciples either fought or fled, and some of the four disciples who tried to escape from the city gate were also ambushed and killed directly.

At this point, all the children of the four families were dead and injured, and there were not many survivors.

As for the four Qingfeng and Tenghuo families, except for a dozen people who were injured, there were no casualties.

In this battle, the four Qingfeng and Tenghuo families were completely victorious.

After the battle, the four Qingfeng and Tenghuo families also quickly evacuated Shenyang City and moved secretly.

It wasn't until dawn that the people in Shenyang City learned that almost all the disciples of the Zhou family of Nanyanwei were wiped out. Only then did they understand the fierceness and bloodiness of the battle last night, and they couldn't help but feel terrified in their hearts.

Only those small and medium-sized families and their strengths that had been hunkered down all night dared to poke their heads out.

After these small forces learned about the battle last night, they couldn't help but sigh. It was definitely a battle between the big clans, and they could not participate.

Of course, the big news that Nan Yanwei's family was massacred on Thursday was like a bomb that exploded and spread to other parts of Dakun Country at an extremely fast speed.

But this news had only spread in the morning, and another rumor spread in Shenyang City, that is, the ancestors of the four families who had not shown up that night had died long before the battle.

As soon as they heard the news, the small and medium-sized forces in Shenyang City suddenly became excited. They sprung up like mushrooms one after another, fighting each other in Shenyang City and grabbing each other's territory.

Previously, they were worried about the survival of the ancestors of the four families and did not dare to make any changes.

At this moment, when I heard that the ancestors of the four families had died a long time ago, and then thought about the fact that the ancestors of the four families had not appeared last night, they all believed this rumor.

At this moment, various small and medium-sized forces wielded their swords and began to carve up the former land and properties of the four major families. The properties of the four major families in Shenyang City were also robbed and divided up.

Among them, many new forces have also been born.

These new forces were originally members of the four major families with foreign surnames.

When they saw that the four major families were destroyed, and when they saw that the situation was not right, they set up their own family.

Today's Shenyang City can be said to have entered a period of extreme chaos, with everyone fighting for territory and dividing industries, and the power structure has not yet stabilized.

The rumor that all the ancestors of the four families had died a long time ago was spread by Qing Yunfeng's order. The purpose was to disrupt Shenyang City and use the small and medium-sized people in Shenyang City to completely disintegrate the remaining children and forces of the four families..

## Chapter 2380

In fact, Qing Yunfeng and others have no idea whether the ancestors of the four families are dead or not.

They don't know what happened in the forbidden area, let alone the true identity of the ancestor of the Huo family.

After the battle, they also sent people to investigate and found that the teleportation array of the Zhou family was also destroyed. As for what happened to the ancestors of the Huo family and Qin Chuan in the forbidden area, they did not know, so they had no choice but to retreat.

But on the other side, the ancestors of the four families were being chased crazily by Qing Yanhai.

The ancestors of the Wei family and the Zhou family were later killed by Qing Yanhai. Nan Feng, the ancestor of the Nan family, was also severely injured. The ancestor of the Yan family was the most cunning, but he was only slightly injured.

By the afternoon of that day, Yan Li and Nan Feng finally reached Shenyang City.

When the two of them saw the tragic scene in Shenyang City and learned about the battle last night, the four families' children were almost wiped out in blood.

Nan Feng was so angry that he vomited blood and died.

Yan Li immediately left Nan Feng's body alone and quietly entered a mysterious place in the center of Shenyang City.

Qing Yanhai, who followed after him, searched the entire Shenyang City and only saw Nan Feng's body, but could not find any trace of Yan Li.

At this moment, in a mysterious dark hall hundreds of meters underground in Shenyang City.

In the main hall in the center of the dark hall, there is a large altar.

A white-haired young man sat in the center of the altar.

Between the brows of the white-haired young man, there was a jade-like snowflake mark, which was still faintly emitting a cold light. His handsome and somewhat enchanting face was looking indifferently at the old man who was kneeling in front of him.

The old man was covered in dust and a lot of blood, and he looked very embarrassed.

This old man is none other than Yan Li, who escaped from Qing Yanhai.

At this moment, Yan Li cried with sadness on his face.

"Lord Holy Envoy, the remnants of the Qing family are back again. This time they not only killed three of my senior brothers, but also killed all the descendants of the four of us. They also hope that the Holy Envoy will take action to avenge me!"

"Are there any descendants of the Qing family still alive?"

The white-haired young man looked at Yan Li indifferently, without any emotion on his face.

He was neither surprised that the Qing family's children reappeared in the world, nor was he sad or angry because of Yan Li's cries.

"Yes! Lord Holy Messenger! I hope the Holy Envoy will take action once and help me avenge my family's annihilation!"

After saying this, Yanli cried loudly.

But the white-haired young man smiled coldly: "Who am I? Why should I, Ling Tianhan, help you?"

Hearing this, Yan Li was stunned for a moment, then respectfully said

"I know it would be presumptuous to ask the Holy Envoy to take action! I also hope that the Holy Envoy will not remember the villain's reckless mistakes."

"It's just that among the remnants of the Qing family, there was an eighth-level Dzogchen master. Even the junior fellow apprentices were no match for him, and even lost three of them. The villain was really desperate, so he came to ask for help. I beg the Holy Envoy to help me just this time for the sake of Lord Dragon Kingdom!"

Ling Tianhan was unmoved and still said coldly: "Humph! You broke into my dark temple altar without my permission, and you deserve to die. If it weren't for Long Xing's sake, I would have given you the death penalty! Do you still want me to help you? Hearing this

, Yan Li trembled all over, and cold sweat broke out on his forehead.

At this time, Ling Tianhan said softly: "Actually, it's not a bad idea to let me help you, but you have to give me a reason to do it." Not to mention avenging the genocide for you and others, if this is the reason, you should go find Long Xing!"

"This..."

Yan Li pondered for a moment, and then said very carefully: "Master Holy Envoy, there is something I don't understand. I don't know if I can ask?"

"go ahead!"

After hearing this reply, Yan Li became a little more courageous and asked immediately

"Lord Holy Messenger! This time the Qing family's descendants came to attack, it was clear that they were here for revenge. Thousands of years ago, the five ancient tribes were exterminated, although most of the children of the five tribes died at the hands of the Lord of the Dragon Kingdom and us. But in total, we can only be regarded as accomplices. The one who really caused the Qing family's death was the Holy Lord!"

"If the Holy Lord hadn't taken action to capture the four old guys of Qing Wushen, how could Lord Longxing and I dare to take action? Now that the remnants of the Qing family are turning back to seek revenge, isn't the Holy Envoy worried about their revenge?"...
