

God level 2401

Chapter 2401

Qin Chuan smiled awkwardly, but still told his life experience and current situation. After listening to it, Ming Ling'er naturally sighed.

"Unexpectedly, the young husband's family is still burdened with such deep hatred! Don't worry, little husband, Ling'er is your wife and will definitely help you get revenge."

"However, the man behind the scenes you are talking about is a master of the ninth level of Dzogchen. He also has a divine weapon in his hand, so Ling'er is no match for him. Unless your strength reaches the ninth level of Great Perfection, there is still hope for revenge, otherwise there is no chance."

"Linger, I know this in my heart. We, the five ancient races, are temporarily powerless against that mysterious master. However, for Long Xing, we have no chance. Back then, Long Xing massacred countless children of our five tribes, and then took our Five Saints Kingdom as his own, turning it into his Dagon Kingdom. This blood debt must be repaid by him no matter what."

Ming Ling'er nodded slightly: "Yeah! We do still have some opportunities for Long Xing. However, you have to wait until I completely refine the power of Lei Ya's weapon soul."

"Of course!"

"One more thing, if you want to seek revenge from Long Xing, I'm afraid it won't be possible for you and me alone. He is now the leader of Dagon Kingdom, and he has four ninth-level warriors under his command. We also need help from ninth-level warriors!"

Qin Chuan smiled and said: "Ling'er, this is why I want to ask you for help." Remember what I just told you? One of the five heads of the five families who were trapped in ancient times is still alive."

"That person is Senior Teng Xiaoshan, the head of the Teng family. He is slowly refining the altar that trapped him, but at his speed, it may take decades. He once told me that if he could find a few eighth-level masters to help him, he might be able to get out of trouble as soon as possible."

"However, based on my speculation, even if an eighth-level master comes to help him, it will probably take several years to get him out of trouble, which may be too late for us."

"Because we have just wiped out the four traitorous Nanyanwei families, Long Xing will definitely be alert and he will definitely come to Shenyang City. With Long Xing's strength, it would be very easy to find the eighth-level warriors hiding around Shenyang City."

"We may even find that there is something wrong with Senior Teng Xiaoshan's altar. If he discovers this problem, it will be over, so we'd better rescue Senior Teng Xiaoshan before Long Xing arrives."

"Originally this was impossible, but now with you, Linger, it has become possible. In fact, my original plan was to take several eighth-level seniors to see senior Teng Xiaoshan to see if they could help him. If not, then tell him that Long Xing would come and let him do it. Good job of hiding. However, it is no longer necessary now, because Ling'er is here for you."

Ming Ling'er said: "So what you asked me to help you with was to rescue that Teng Xiaoshan." Of course this is no problem. However, I am the spirit of your artifact. Only by working together can you and I exert the greatest power. We still need to work together to resolve this matter faster."

"Of course!"

"whee!! Young Master, if you and I take action to rescue Teng Xiaoshan, it will only take two or three days to get him out of trouble. By then, your five ancient clans will have another ninth-level warrior. Then you can seek revenge from Long Xing. It's even more certain."

Qin Chuan also showed an optimistic expression: "Yes!" As long as we can rescue Senior Teng, the strength of our five ancient tribes will be greatly increased."

Ming Ling'er also smiled and said: "Yeah! yes! However, I can only come out for fifteen days this time. After fifteen days, I must return to the Sun and Moon Heavenly Wheel for retreat, so you must rescue Teng Xiaoshan within these fifteen days."

"Fifteen days is enough!"

"So when do I act?"...

Chapter 2402

Qin Chuan pondered for a while and said: "We have to wait until our seniors from the Qing family come to find us. If my guess is correct, they should come tomorrow. Then we will go to senior Teng Xiaoshan's house with several eighth-level seniors. Regarding the altar, we will have to wait until we meet Senior Teng to know how to act."

"All right!"

After the two talked about this,

Ming Ling'er made a casual move, causing the sun and moon wheel in the sky to turn into a red light again and penetrate into the center of Qin Chuan's right hand.

After doing this, Ming Ling'er sat down next to Qin Chuan..At this time, she had time to look at the scenery around her. Previously, she had put all her attention and thoughts on Qin Chuan.

"Huh! Is this place so familiar?"

As soon as Ming Ling'er looked at the surrounding scenery, her flawless face showed a hint of familiar confusion.

Seeing Ming Ling'er's expression, Qin Chuan sighed slightly and said softly: "Ling'er, look behind you?"

Ming Ling'er heard this and turned around.

"Huh! There is even a statue here! This is...."

When Ming Ling'er recognized the statue as the God of War, her memories opened like a tide. Her beautiful body trembled slightly, and her eyes turned slightly red, sparkling with tears.

"Father!"

Ming Ling'er's voice was choked with sobs. She was the person in front of her, and it took thousands of years to give birth to her. The God of War was both her master and the father who gave birth to her.

At this moment, she saw the statue of her father. , thinking that the person in front of her was far away, how could she not feel sad in her heart?

Suddenly, a sad emotion quietly spread from Ming Ling'er, as if the air around her suddenly became much heavier.

Even the people on the side Qin Chuan also felt Ming Ling'er's sadness deeply.

Qin Chuan did not stop him, but stood aside silently and waited.

After a long time, Ming Ling'er recovered from the sad mood, but her white cheeks There are still two lines of clear tears hanging on it

"Linger, are you feeling better?"

"Um!"

Ming Ling'er nodded slightly.

"Seeing the statue of my father reminds me of many things from the past. I remembered that I had been to this place before. My father had a battle here with an extremely terrifying holy beast. In that battle, this place was reduced to ruins. In the end, the holy beast was sealed by my father."

"My father found some of his believers from thousands of miles away, asked them to help guard the seal, and taught them some basic body training methods, as well as several good physical skills."

Hearing this, Qin Chuan was shocked.

"Linger, what did you say? Wasn't the person who fought against the God of War a great supernatural being called the Demon God? How could it be a holy beast? Did you remember correctly?"

Ming Ling'er shook her head and said, "How could I remember it wrong?" I personally participated in that war. The other party is indeed a holy beast, not a human being. However, you might as well call it the Demon God. Because at that time, the humans living on this continent also called it 'Demon God'."

"This is impossible, right?"

Qin Chuan still couldn't believe it, because he clearly remembered that in the murals in the Mokuo tribe's forbidden stronghold, he saw a handsome man with three eyes fighting the God of War. How could it be a holy beast? ?

Thinking of this, Qin Chuan told the matter.

After listening to it, Ming Ling'er suddenly realized it and said with a sweet smile: "My dear husband, don't you know that you can transform after the ninth level?"

"Ninth level transformation? I've heard of it! Any ninth level warrior can perform the art of transformation. Ming

Ling'er shook his head and said: "The ninth-level transformation I am talking about does not refer to humans, but to the ninth-level ferocious beasts." This is different from the transformation technique of human warriors. The ninth level ferocious beast transforms into a human form. In other words, the ninth-level ferocious beast can not only speak human words, but also turn into human form."

"It's just that after a ninth-level warrior turns into a human form, he will leave behind many of his own characteristics, such as an animal head and a human body. But the holy beasts are different. They can completely transform into humans, so that you can't tell that the three-eyed man you saw is exactly the same holy beast that transformed into a human."

"As for the third eye on his forehead, it is his powerful killing move. He can also hide it at any time. It is usually only revealed during battle."..

Chapter 2403

"I see!"

Qin Chuan showed an expression of sudden realization, and then began to think deeply again.

"It has a third eye. By the way, does the holy beast also have white wings?"

"Yes! Hearing this

, Qin Chuan's body trembled involuntarily, his eyes showed a look of extreme horror, and he asked anxiously: "Ling'er, what kind of holy beast is that? Do you know?" Ming

Ling'er pondered for a while and then said: "I heard my father mention it once, it seems to be called Taotie!"

"Sure enough!"

Qin Chuan couldn't help but take a deep breath.

At this moment, he thought of another question that shocked him.

That question was about Qiuqiu.

At first, Qin Chuan learned from his father Qingyunfeng that Qiuqiu was an ancient mutated form of the ferocious beast Gold-Eating Beast. The Gold-Eating Beast is a descendant of the holy beast Taotie.

From all aspects, Qiuqiu seems to be closer to Taotie than those Gold-Eating Beasts.

Because the Gold-Eating Beast does not have a third eye.

And Both Qiuqiu and Taotie have third eyes.

Not only is Qiuqiu's appearance more similar to those of the gold-eating beasts, but his devouring nature is also similar.

Legend has it that the gold-eating beasts can only swallow gold spiritual objects.

But Qiuqiu can not only Devouring metal spiritual objects, it can also devour the inner elixir of ferocious beasts of any attribute.

In comparison, Qiuqiu is stronger than ordinary gold-eating beasts, and is closer to the holy beast Taotie.

Because the holy beast Taotie also has the ability to devour all things.

However, these are just appearances. What makes Qin Chuan suspicious the most is the scene when he wants to meet Qiuqiu for the first time.

Qin Chuan remembers the first time he met Qiuqiu, when Qiuqiu was just a floating ball. Golden eggs in the air.

According to common sense, whether it is an eighth-level ferocious beast egg or a ninth-level ferocious beast egg, it cannot float on its own.

When Qin Chuan saw Qiuqiu's egg for the first time, it floated In the air, this is something that shouldn't happen.

So why does this egg float in the air?

You can only say that there is someone behind the scenes.

Who is the person behind the scenes?

The egg of Qiuqiu comes from It floated up in the lost ancient jungle.

And the sacred beast Taotie was sealed in that jungle.

It was obvious that the person behind this was the sacred beast Taotie.

As for what he wanted to do?

Obviously, he wanted someone to find out. Qiuqiu and took Qiuqiu away.

But why did Taotie want people to take Qiuqiu away? Qin Chuan couldn't figure it out.

At this moment, he was only worried about one question.

This question was, what happened to Qiuqiu and the sacred beast Taotie? What is the relationship?

"Could it be that Qiuqiu is the devil? Will not! Qiuqiu is definitely not a demon. He once sacrificed his life to save my life. If it were a demon, it wouldn't do this."

Qin Chuan can't believe this inference, and it's not tenable.

If Qiuqiu is the demon god Taotie, it definitely can't be just an eighth-level ferocious beast. Even if it is a clone of the demon god, it has at least a ninth-level Dzogchen. The peak strength is not just the eighth level.

However, if Qiuqiu and the Demon God Taotie have nothing to do with each other, Qin Chuan will never believe it.

Thinking of this, Qin Chuan feels a headache.

But the thought of Qiuqiu and the Demon God Taotie has something to do with it. Qin Chuan felt a pain in his heart again.

He had hatched Qiuqiu with his own hands. The relationship between him and Qiuqiu was extremely deep, like a family member. He didn't want to see Qiuqiu becoming his enemy in the future.

Hey! Qiuqiu What is the relationship between him and Taotie? It is obvious that Taotie is still in the seal. He must have done something to Qiuqiu, and deliberately released Qiuqiu's eggs for others to take away.

What is his purpose in doing this? What?

The more Qin Chuan thought about it, the more he broke into a cold sweat. He already knew that he had fallen into the devil's plan, but he didn't know what the other party wanted to do? What worried him even more was Qiuqiu.

Qiuqiu was like a family member to him , he neither wants Qiuqiu to become his enemy, nor does he want Qiuqiu to suffer any losses.

No! I have to figure out the relationship between Qiuqiu and the Demon God, so that I can prescribe the right medicine.

But how can I sort out the relationship between them? What about the relationship? Hey! That's right!

Qin Chuan's eyes suddenly lit up and he thought of a way..

Chapter 2404

Qin Chuan's eyes suddenly lit up and he thought of a way.

I once asked my father about the natal psychic beast. He once told me that when we choose a ferocious beast as our natal psychic beast, we can obtain all the memories of that ferocious beast, and even some of the inherited memories.

From then on, there is a natural telepathy between the host and the natal psychic beast, and they can sense what the other person is thinking without using words to express it. Maybe this is a breakthrough.

Because if the Demon God Taotie wants to tamper with Qiuqiu, he can't tamper with the inherited memory.

After I accepted Qiuqiu as my natal psychic beast, I gained part of Qiuqiu's inherited memory, and maybe I can find the relationship between them from there. However, before that, I must cultivate Mu Yuanqi to the fifth level.

After thinking about it, Qin Chuan silently vowed that he must practice Mu Yuanqi diligently in the future, not for himself, not for the Qing family's great cause of revenge, even for Qiuqiu, in order to prevent the demon Taotie from coming out again to harm the world, he must practice it diligently. Cultivation of Mu Yuan Qi.

Moreover, he must step up his efforts to cultivate Mu Yuanqi to the fifth level. Who knows when Demon God Taotie will attack.

When the time comes, Qiuqiu may get lost or even become his enemy. This is not the result Qin Chuan wants to see.

However, Ming Ling'er who was standing aside saw Qin Chuan in a daze, and then the expression on his face became unsightly.

At that moment, Ming Ling'er asked relatedly: "My dear husband, what's wrong with you? You seem to have something on your mind?"

This question made Qin Chuan wake up from his thoughts, then shook his head and smiled.

"It's nothing, I just remembered some unhappy things from the past."

Qin Chuan doesn't want Ming Ling'er to know about Qiuqiu.

As for Qiuqiu's identity, he doesn't want anyone to know.

Because Qiuqiu's status in his mind is very important.

"oh!"

Ming Ling'er did not doubt that he was there and comforted her.

"My dear husband, you are not very old, but you have a lot of burdens on your heart! Better stop thinking about those things! Linger will accompany you for a walk on the island. By the way, Ling'er remembers that there is a Kung Fu teaching platform on this island. It was the place where my father taught Kung Fu to those believers. Come with me!"

"A power transmission platform? Is there such a place? Then take me there and take a look!"

Curiosity also arose in Qin Chuan's heart.

At that moment, Ming Ling'er followed her memory and took Qin Chuan to wander around the island.

After all, it had been too long, and many things had changed.

The two of them had changed. After searching for a long time, it was not until dawn that the two of them found the Kungfu teaching platform that Ming Ling'er had mentioned in a small valley on the island.

However, the Kung Fu teaching platform had long since become dilapidated and was covered with wisteria plants.

This scene immediately made Ming Ling'er filled with emotion.

At this time, Qin Chuan suddenly discovered that there was a broken monument not far from the training platform.

Looking from a distance, he could vaguely see it in the morning light. It was full of ancient texts.

Qin Chuan was curious and took a closer look.

When he saw clearly the text on the stone tablet, a look of surprise suddenly appeared on his face.

"Huh! Didn't expect that half of the ruined monument is here?"

The stone tablet in front of him reminded Qin Chuan of the half-stone tablet he saw in Mayor Wang's back garden when he was on a mission in Beike Town.

His physical skill 'Battle Body Mad Transformation Technique' came from that half-stone tablet. Obtained.

The battle body madness technique is of great help to Qin Chuan. It can increase the amplitude of physical combat power by 50%, which is stronger than ordinary superior martial arts. It is one of Qin Chuan's commonly used physical techniques...

Chapter 2405

At that time, Qin Chuan not only obtained the battle body madness technique, but also obtained a 'clone technique'.

Just because the lower half of the stone tablet was incomplete, the clone technique that Qin Chuan obtained only contained the contents of the upper half, which made him unable to practice, which made him very regretful.

Later, when Qin Chuan saw that Qiuqiu's comprehensive strength had greatly increased after he transformed into a clone, he felt even more envious. He had been looking forward to finding the other half of the ruined monument, but he didn't expect to find it in the small valley on the island today.

At the moment, Qin Chuan suppressed his excitement, carefully studied the content on the stone tablet, and then combined it with the first half of the content he had seen before, a complete physical skill 'Clone Technique' emerged in his mind.

Qin Chuan also had a complete understanding of this clone technique.

However, after he learned about this clone operation, he was extremely excited and shocked.

It turns out that the clone technique recorded on this stone tablet is also called the yin and yang clone technique.

This yin and yang clone technique is much stronger than the clone technique that Qiuqiu obtained from inherited memories.

Qin Chuan knew that after Qiuqiu separated into clones, the combat effectiveness of the main body and the clone was only 80% of the original. Although the combined strength of the two was stronger than the original, it would not be much stronger.

But after this yin-yang clone technique is used, the strength of the main body remains unchanged, and the fighting power of the clone is exactly the same as that of the main body.

This is very terrifying. It is equivalent to one person suddenly becoming two people, doubling their strength, and their combat effectiveness will be greatly enhanced.

Seeing this, Qin Chuan was not overjoyed, and sighed to himself.

I didn't expect that this clone technique is so powerful. If I learn it, wouldn't my strength be greatly increased?

What a pity! This clone actually needs to open the third door 'Yin Yang Gate' to learn. Now even if I know this physical skill, I still can't learn it!"

Ming Ling'er on the side heard Qin Chuan's sigh and walked over curiously. When she saw the half stone tablet, she couldn't help but frown slightly and whispered.

"Unexpectedly, the monument that my father built to pass on his merits would now be destroyed like this. I don't know how the Mokuo people guard this power transmission platform, hey!"

Hearing this, Qin Chuan said:"It turns out that this stone tablet was also erected by the God of War. So, the stone tablets I once saw in Beike Town also wandered out from here. I just don't know what happened here before. What happened to make this power transmission platform look like this?"

"You will know this soon if you ask the Mokuo people here."

Ming Ling'er sighed softly. After all, this place used to be a place that left her with deep memories. Now that it has become like this, she can't help but feel a little bit sad about the changes in the world and how things have changed.

"Um!"

Qin Chuan nodded slightly. He could understand Ming Ling'er's mood very well.

"By the way, Linger! Your father built a power transfer platform to teach the Mokuo people how to train their bodies, and also built a power transfer monument to teach them physical skills. Why are the Mokuo people still so weak?

Ming Linger smiled and said:"This is because my father only asked his believers to help guard the seal and prevented some ignorant people from destroying the seal. He did not regard them as his inheritors, so he only taught them some basics.""

"However, my father also passed on to them two powerful physical skills. These two physical skills are the 'Battle Body Mad Transformation Technique' and the 'Yin Yang Clone Technique'. However, judging from some of the things you told us, the Mokuo people are very poor in body-refining talents. It seems that no one can open the third door."

"If the third door is not opened, then the Yin and Yang Clone Technique cannot be practiced. This physical skill has been wasted on them!"

"yes! What a pity for this clone technique. If the Mokuo people can learn this clone technique, their overall strength will be greatly increased! It's just that I don't understand. Why is this clone technique called Yin-Yang clone technique?"...

Chapter 2406

Ming Ling'er explained patiently:"Everyone in the world knows that the five elements transform all things. But they don't know that any five elements have two sides, yin and yang. For example, 'fire' can be divided into extremely yang fire and extremely yin fire. It can be said that any element can be Divided into two, creating the yin and yang sides"

"Yin-Yang Clone Technique uses this principle to divide the body into two. The main body and the clone are actually yin-yang different bodies. Only then can the separated clone be as powerful as the main body without weakening the main body. It can be said that the yin and yang clone technique is the top clone technique among all clone techniques."

Hearing this, Qin Chuan suddenly realized

"So that's the case, no wonder this clone technique needs to open the third 'Yin Yang Gate' before it can be learned. It seems that you need to master the power of yin and yang first before you can create a clone. However, this clone is so powerful that it is almost comparable to the top martial arts skills of Qi cultivators."

"In other words, once I open the third door, it will be equivalent to mastering a top-notch martial art! In the future, even if you want to cross a higher level and challenge a fifth-level warrior, it will become possible."

Qin Chuan became more and more excited as he thought about it, his face filled with joy.

It is extremely rare for warriors of the fifth level and above to be able to master one of the best martial arts. Every time you master one more skill, your strength will increase by one point.

But , not every fifth-level martial artist can master a top-level martial skill, and even a sixth-level warrior may not be able to master a top-level martial skill.

This is because even if a top-level martial skill is obtained, if the corresponding secret is not understood, it will not be possible. It cannot be learned.

This is also the reason why the Qing family's children are stronger than the warriors of the same level.

Because the Qing family's children are born with the ability to master the 'spiritual art'.

And many wood warriors, even if they practice to the sixth level, may not be able to master the psychic art. Spiritual skills.

Seeing Qin Chuan being so excited, Ming Ling'er on the side smiled and said

"The Yin-Yang Clone Technique is indeed a powerful physical skill, which is comparable to the top-notch martial arts skills of those who practice Five Elements Yuan Qi, and is not much worse than your Qing family's 'Psychic Technique'. However, it has the same disadvantage"

"The disadvantage is that the speed of consuming Yin and Yang Qi will be three times that of normal combat, so using Yin and Yang Clone Technique is not suitable for protracted battles. Of

course, if you have enough yin and yang energy accumulated in your body, you don't have to worry about this"

"In fact, although this yin and yang clone technique is powerful, it is far inferior to the battle body madness technique. That was my father's lifelong research effort. Hearing this

, Qin Chuan was greatly surprised.

"No way! Although this battle body mad transformation technique is very powerful, probably equivalent to the level of top-level martial arts, compared with the Yin and Yang Clone Technique, it is still far behind! How could it be more powerful than the Yin-Yang Clone Technique?"

Ming Ling'er said with a meaningful smile.

"Yes, from the surface, the Yin-Yang Clone Technique is indeed much stronger than the Battle Body Madness Technique. The clones created by the Yin-Yang Clone Technique can copy the past unchanged, whether it is the physical combat power of the original body or the vitality combat power."

"The battle body madness technique can only strengthen the body's fighting power and does not help the vitality at all. However, you would never have thought that my father had tampered with this battle body madness transformation technique."

"Have you done anything? Linger, how do you say this?"

Seeing Qin Chuan's curious look, Ming Ling'er felt very proud, covered her mouth and smiled sweetly.

"My dear husband, let me tell you the truth! In fact, the battle body madness technique you learned was not originally called the battle body madness technique, but the mad god technique. It is a magical skill created by my father."

"What? Magical skill?"

Qin Chuan's eyes showed a look of disbelief...

As far as Qin Chuan knew, the magical skills were definitely legendary martial arts, great magical powers used by gods. Even the ninth-level Dzogchen warriors standing at the top could not master one, but he had learned one unknowingly. How could he believe in this divine door skill?

Moreover, this magical skill doesn't seem to be very powerful, and it doesn't have the power that a magical skill should have.

Seeing the disbelieving look on Qin Chuan's face, Ming Ling'er's little mouth curled up slightly.

"how? You still don't believe it! Forget it, I'll explain it to you. Although this 'Mad God Technique' is still an incomplete magical skill, it is much more powerful than the so-called best martial arts in the world."

"In fact, you think it is not powerful because you only learned the first level and did not learn the complete 'Mad God Art'. If you learn all seven levels, you will know its true power by then."

Hearing this, Qin Chuan's face showed a look of surprise.

"Ling'er, what do you mean, the 'Battle Body Mad Transformation Technique' I learned is only the first level of the 'Mad God Technique', so its power is not obvious? In fact, this 'Mad God Technique' is divided into seven levels?"

"Yes! The seven levels of 'Mad God Technique' correspond to the seven doors of the human body. Each time you open a door, you can learn the next level. And every time you learn a level, the power will also increase one level. If you learn all seven levels, its power will reach the true power of magical skills."

"It's a pity that time was so tight back then that my father only created the first six levels of skills. Before the last level could be created, he.....Why! Therefore, this 'Mad God Technique' is an incomplete magical skill. However, although it is incomplete, it has an advantage that other magical skills do not have."

"What are the advantages? Qin

Chuan asked curiously

"As we all know, if you want to learn a magical skill, the Five Elements Qi cultivator must have at least the ninth level of cultivation, and the body cultivator must at least have all seven doors fully opened. Otherwise, even if you are an eighth-level warrior or have opened the sixth level of physical cultivation, you will not be qualified to learn magical skills."

"But this Mad God Technique is different. Its requirements are very low. As long as the physical cultivator opens the first door, he can learn it."

"To put it simply, it is a growth-producing magical skill. As the physical warrior opens more energy gates, its power will also increase. Therefore, its first level of power is not outstanding, but the further it goes, the more powerful it becomes. Its power is even more terrifying. If you practice to the last level, your power can reach the level of destroying the heaven and the earth. Hearing this

, Qin Chuan couldn't help but secretly smacked his tongue, and then asked:"Ling'er, you said that your father did something wrong back then." Does it mean that your father only passed on the first level of the 'Mad God Art' to his believers, but did not pass on the subsequent levels to them?"

"Not exactly, we also made some slight changes on the first level, so that people who have learned the first level of 'Mad God Technique' will not notice that there are six levels behind it. And because the first level can only be learned after opening the first 'War Gate', it was renamed 'Battle Body Madness Transformation Technique'"

"So this is ah! Ling'er, do you know the complete content of 'Mad God Technique'?"

"Of course I know this. Qin

Chuan was overjoyed and said with a smile:"Ling'er, can you pass on all the 'Mad God Technique' to me?"

"This!"

Ming Ling'er pretended to hesitate.

"Why! It's not that I don't want to teach you, it depends on whether you are sincere or not. If you sincerely want to be my husband-in-law, it will be no problem for Ling'er to hand over the 'Mad God Technique' to you. My dear husband, do you think you are sincere?"

Hearing this, Qin Chuan was covered in cold sweat. He didn't expect Ming Ling'er to say this.

However, for Qin Chuan now, it seems that magical skills are more attractive than his wife.

At that moment, Qin Chuan said with a bitter face: "Good Linger, dare I say you are not my wife? Just teach me that mad magic!"

"whee!! My dear husband, you just know how powerful I am!"

Ming Ling'er covered her mouth and smiled sweetly.

"All right! For the sake of you calling me 'Haoling'er'. Ling'er will teach you the real 'Mad God Technique'..."

Chapter 2408

Qin Chuan was immediately overjoyed: "Hey!! I knew Ling'er would definitely teach me"

"OK! Just to make you happy, I will tell you the complete content of the 'Crazy God Technique' now. You must listen carefully."

At that moment, Ming Ling'er passed all the contents of the Mad God Technique to Qin Chuan.

The two of them were like this, one imparting analysis and the other listening and taking notes.

It took more than an hour until the sun rose. Qin Chuan Only then did he memorize all the contents of the Mad God Technique.

Unfortunately, the Mad God Technique only had the first six levels, and the seventh level was still blank.

In addition, Qin Chuan also memorized the Yin and Yang Clone Technique on the broken monument. Keep it in mind.

After remembering these contents, Qin Chuan was very satisfied.

Although only one night passed, his gains this night were very huge.

Looking at the red rising sun in the distance, Qin Chuan felt hot and couldn't help but Give birth to a kind of heroic feeling that looks up to the sky and screams

"My dear husband, looking at the proud look on your face, you should have remembered it all, right? There is a lot of content in this Mad God Technique, and it is not easy to remember it all at once."

Qin Xi smiled proudly:"Ling'er, these can't trouble me. I remember them all. This mad magic is indeed not simple. Just listening to what you explained to me, I know that the person who can create such a magical skill is definitely a peerless genius in the world!"

Speaking of this, Qin Chuan couldn't help but sigh, and he respected the God of War even more in his heart.

Through what Ming'er explained, Qin Chuan already knew that after learning the first level of Mad God Art, the body's combat power can reach 50% of the amplitude, and the second level can The amplitude is 100%, and the third level can increase the amplitude to 20%, which means that the body's combat effectiveness is increased to three times its original value. As for the subsequent levels, we don't care about it for the time being.

Just talking about the second level, the amplitude of the physical body's combat effectiveness is 100%, which is very scary..

And Qin Chuan's second door has long been opened, and he can learn the second level of 'Mad God Art' right now.

As for the third level of Mad God Art, he has to wait until Qin Chuan opens the third door before he can learn it.

Open it. After the third gate, the body will evolve for the third time, and the physical combat power can reach the limit of the fourth-level Great Perfection Peak in one fell swoop. When Qin Chuan learns the third level of Mad God Art, after becoming mad, he can reach the level with only physical combat power. The strength of the fifth level peak.

Moreover, after opening the third gate, he can also learn the Yin and Yang Clone Technique.

At that time, it is hard to imagine how long his strength will increase. I am afraid that even if he is ranked first on the rookie list, he will not be able to do it. That's it.

Of course, although Qin Chuan has barely met the requirements for opening the third door, his body's absorption of Yin and Yang Qi has not yet reached saturation.

And he cannot find the 'Yuan Yang' and 'Yuan Yin' Qin Chuan would not be able to open the third door without the Qi of Yuan Yang and Yuan Yin to temper his body.

Knowing these difficulties, Qin Chuan has no intention to spend time on this aspect for the time being.

Because he knows that it is not possible to open the third door. Such a simple thing cannot be accomplished overnight, it can only depend on timing and chance.

However, he can learn the second level of Mad God Art immediately.

However, Qin Chuan did not learn it immediately.

Because he still has The more important task is to rescue Teng Xiaoshan, the head of the Teng family.

As for the second level of Mad God Art, he can only postpone learning it.

Because Qin Chuan knows that Mad God Art is a magical skill after all, even if it is the second level, he wants to It doesn't take a day or two to learn it. Even with Ming Ling'er's help, it will take five or six days to learn it.

Therefore, Qin Chuan had no choice but to postpone learning the second level of Mad God Art.

In any case, the priority of the matter, He could still tell the difference clearly.

At that moment, Qin Chuan calmed down his excitement, looked at the rising sun in the distance, and whispered

"I don't know if Senior Qing Yanfei and the others will come over today. I'd better go back to the village first! Let's take a look at Qiuqiu first. I wonder how that little guy is doing now?"....

Chapter 2409

Thinking of Qiuqiu, Qin Chuan's heart surged with complicated and unexplainable emotions.

Ever since he learned about Qiuqiu's life experience, Qin Chuan felt a pressure in his heart.

But he knew he couldn't escape.

Whether as the inheritor of the God of War or the owner of the ball, he has to face the devil directly. This has become his unavoidable fate.

Thinking of this, Qin Chuan said:"Ling'er, let's go back! I want to see the little guy Qiuqiu. He hasn't gone back all night. I don't know what's going on with him now. Do you want to hide temporarily in the Sun and Moon Heavenly Wheel? Come with me?"

Ming Ling'er said:"My dear husband, since Ling'er has come out, I naturally want to stay with you more. I don't want to hide in the sun and moon wheel anymore. However, Ling'er wants to go to the island now. Let's look at other places. After all, I have a lot of memories here."

"My dear husband, if you are worried about Qiuqiu, then go ahead! I am your artifact. Even if you are hundreds of miles away, I can sense your location and find you at any time."

"Well! Ling'er, I'll go back first!"

At that moment, Qin Chuan separated from Ming Ling'er and hurried back to the village alone.

With Ming Ling'er alone, he naturally didn't have to worry about Ming Ling'er's strength.

But after Qin Chuan returned to the village, Just a ray of white light rushed out of his house and jumped into Qin Chuan's arms.

This white light was exactly Qiuqiu who had returned to his original cute appearance.

Come to think of it, Qiuqiu sensed Qin Chuan's return and became happy. Qin Chuan ran out of the house.

Seeing the fluffy ball in his arms licking the palm of his hand with his soft little tongue and shouting "Goo Chi Chi Chi", Qin Chuan felt a burst of warmth in his heart.

Then Qin Chuan Met the second priest.

Qin Chuan casually asked about the merit transfer platform and the merit transfer monument.

Although the second priest was surprised how Qin Chuan knew the existence of the merit transfer platform, he did not dare to ask randomly, so he still told Qin Chuan about the merit transfer platform. The story was told to Qin Chuan.

It turned out that a long time ago, a group of foreign warriors accidentally entered the Holy Island and discovered the Mokuo people stationed here.

After that, the group of warriors accidentally discovered the legend engraved with ancient writings. They also found that the Mokuo people guarded the merit stele very closely.

This immediately aroused the suspicion of those warriors, thinking that the stone tablet was some kind of treasure.

The group of warriors took advantage of the dark night to sneak attack on the Mokuo clan stationed there. The guards of the power transmission platform snatched away most of the stone tablets in the chaos.

Since then, the power transmission platform has been abandoned.

This incident also made the Mokuo people hate outsiders even more and cut off all contact with them.

In their In his eyes, people in the outside world are greedy.

After knowing this, Qin Chuan realized that the half of the stone tablet he saw in Beike Town was originally snatched by people from outside.

It is estimated that in the end, those people discovered that it was What was recorded was something they could not cultivate, so they discarded it.

Qin Chuan naturally did not want to comment on these past events, so he chatted with the second priest for a few more words, and then took Qiuqiu to find Qing Yanfei.

Inside the house, Qing Yanfei As soon as he saw Qin Chuan, he squinted his eyes and smiled:"Tianqi, you didn't come back last night, did you go there to practice?"

Qin Chuan smiled slightly, and was about to say something, but his expression changed slightly, and he quickly listened carefully.

It turned out that he vaguely heard shouts coming from outside the island.

Seeing his expression, Qing Yanfei was stunned and also Listen carefully.

After a while, Qing Yanfei also heard the shouting, and a strange look appeared on his face. He couldn't help but look at Qin Chuan a few more times.

Hey! How is this possible? How could this little guy be ahead of me? Heard the shouts from outside the island?

The shouts seemed very far away. I had to concentrate to hear some of them, but he heard them effortlessly! How is this possible?..

Qing Yan was not aware that Qin Chuan's hearing was abnormal.

In his opinion, he was an eighth-level warrior and Qin Chuan was only a fourth-level warrior. How could Qin Chuan's hearing be better than his?

Just when Qing Yanfei was surprised, he saw Qin Chuan said in surprise

"Senior Yan Fei, let's get out of the island quickly! I heard Senior Qing Yanhai calling us from outside the island?"

"What? Did you really hear Qing Yanhai calling us?"

Qing Yanfei opened his eyes wide in surprise. Although he heard shouting, he couldn't hear it clearly and couldn't hear the content at all.

But Qin Chuan smiled and said

"Yan is not an ancestor! Naturally, the boy heard clearly the shouts of not only Senior Qing Yanhai, but also the other two seniors. Elders, don't worry. Regarding this matter, how dare you fool your elders? We'd better get out of the island quickly so as not to miss this opportunity to meet them."

However, Qing Yanfei still couldn't believe it.

You really heard it was their voice, didn't you hear it right?"

"Ancestors! Did you hear me right? We will know as soon as we leave the island!"

"good!"

Although Qing Yanfei has some doubts in his heart, after spending the past few days together, he knows that Qin Chuan is not an ordinary young man and cannot treat him as a child.

In his heart, he still quite recognizes Qin Chuan.

At the moment, Qing Yanfei Soared into the sky and flew out of the island.

Qin Chuan also flew out on the ball.

The two of them followed the direction of the sound and flew for a moment. They saw three small black spots in the distance, and their voices were heard in the air. shouts

"Is Qing Yanfei and Tianqi ahead? Hearing this cry,

Qing Yanfei was overjoyed and said in surprise:"It is indeed the voice of that lunatic Qing Yanhai." Tianqi boy, you really surprised me. I didn't expect that your hearing is better than me. How did you do it? Qin

Chuan said with a smile:"Senior Yan Fei, this junior will explain this matter in detail later. Now let's invite Senior Qing Yanhai and the three of them to come to the island first!"

"Um! Exactly!"

At that moment, Qin Chuan and the others stopped in the air, and Qing Yanfei shouted to Qing Yanhai and the others in the distance.

"Qing Yanfei, I and Tianqi are both here. Come over quickly and talk about it on the island!"

After hearing Qing Yanfei's response, Qing Yanhai's hearty laughter suddenly came from the distance.

"Ha ha!! That boy Yunfeng's guess was indeed correct. Sure enough you are all here."

With laughter, Qing Yanhai and the others flew towards Qinchuan and Qin Chuan.

After a while, Qing Yanhai and Qin Chuan met up with Qin Chuan.

The group was overjoyed.

Qin Chuan respectfully stepped forward to greet him, and then He cleverly introduced Qing Yanfei to Master Teng and Master Feng.

Among the five, he was the only junior, so he naturally had to do these trivial matters.

And Master Feng, the three of them, naturally praised Qin Chuan.

The three of them already knew that Qin Chuan had to be credited with successfully wiping out the Zhou family of Nanyanwei this time without causing any losses to the Qing family.

After everyone talked happily, Qing Yanhai became anxious Asked:"By the way, Qing Yanfei, have you taken good care of the Green Dragon Pearl?"

The Qinglong Pearl is related to the rise and fall of the Qing family, so Qing Yanhai is naturally very concerned about it.

"Brother Hai, don't worry about this! That Green Dragon Pearl has been well kept by Tianqi and I! It's in Tianqi's hands now. Hearing this

, Qing Yanhai breathed a sigh of relief and said with a smile,"That's good!" Tianqi, you have done a great job this time! By the way, you should leave the Azure Dragon Pearl to me for safekeeping. After all, you are too weak and it is not safe in your hands!"

"Senior Yan Hai said exactly what he said, Tian Qi will hand over the Blue Dragon Pearl to senior for safekeeping!"

Qin Chuan immediately took out the Qinglong Pearl and handed it to Qing Yanhai..
