

God level 2471

Chapter 2471

After Qin Chuan and others left, Lin Yuecai said quietly: "Tong Yu, do you really know that there is a blood orb in the attached hall?"

"No! I lied to Qin Chuan!

Lin Yue looked at the Monkey King with slight surprise: "Why?" Do you want to give him the Blood Soul Pearl you treasure? Are you willing to do so?"

"good! What's so embarrassing about this? I no longer have any ambitions. I just want to become a human being and find a small mountain village to live quietly with Yue'er. That blood soul bead can be regarded as the final reward for Qin Chuan! Yue'er, don't you think this is bad?"

Lin Yue smiled slightly, and her haggard face finally had some brilliance.

"What's so good about it? Now I just want us to be an ordinary couple, stay away from this worldly world, and live a plain and peaceful life."

At the same time. In the air outside the mountain, Qin Chuan drank monkey wine and couldn't help but sigh in his heart.

At that moment, Qin Chuan and everyone flew towards the Holy Island.

After Qin Chuan and others returned to the Holy Island, It was already dusk. As soon as the few people returned to the sky above the Holy Island, Qing Yanhai and the others sensed it and flew into the air to greet them.

When Qing Yanhai saw the wind beast, his face showed joy and he congratulated Qing Yanfei.

At that moment, the Teng Master and the Phoenix Master were also surprised by the momentum of the eighth-level peak of the Feng Jian Beast, and they both congratulated Qing Yanfei.

Qing Yanfei had recovered the Feng Jian Beast. After the two channeled together, his strength was infinitely close to that of the eighth-level beast. The level of perfection has been reached.

In this way, the power of the three clans has increased a lot. Now

, after the three Qingfengteng families have united, there is one ninth-level warrior and one member with quasi-ninth-level strength.

This quasi-ninth-level person naturally refers to Qin Chuan, as long as he waits for a few more decades, Qin Chuan, who possesses the artifact, will naturally have ninth-level strength, unlike now, where he can only have ninth-level strength temporarily for a few days.

However, if Qin Chuan decades later, After finding all the remaining four seven-star blood soul beads, Ming Ling'er completely refined the power of the soul of the weapon. Even if Ming Ling'er failed to break through, the power of the Sun and Moon Heavenly Wheel could be regarded as a high-quality product among low-grade artifacts.

If , Qin Chuan opens the third door again, and he can directly control the sun and moon wheel, so that he can better exert the power of the artifact.

Of course, direct control and complete control here are two different things. After all, Qin Chuan is too weak, even if Even if he opens the third gate, it is impossible to fully control the divine weapon.

However, by then, although Qin Chuan's strength is not as strong as that of the ninth-level peak warrior, he is not considered weak among the ninth-level warriors.

In addition, today's There are four eighth-level warriors from the three tribes.

Among them, Qing Yanhai's comprehensive strength is definitely the peak of the eighth-level

Dzogchen. Qing Yanfei's strength has greatly increased after retrieving the wind beast, and it is infinitely close to the level of the eighth-level Dzogchen. Phoenix Master Having the semi-artifact Fierce Sun Ring also has peak eighth-level strength.

Master Teng is the weakest, but as a descendant of the five ancient clans, he is definitely one of the top ten among eighth-level warriors, and ordinary eighth-level warriors are no match for him..

In this way, after the three clans unite, their comprehensive strength can definitely be regarded as a super clan in Tianfeng Continent, a super clan that can establish a territory and establish a country.

Generally speaking, to measure whether a family is a super clan, just look at Are there ninth-level warriors among its strongest?

As long as there are ninth-level warriors, then this family is a super rich family.

After all, one ninth-level warrior can be worth hundreds of eighth-level warriors.

However, having said that, one If there is really only one ninth-level warrior guarding the super clan, but there is not even an eighth-level warrior in the clan, the external deterrent effect of this super clan will still be much smaller. After all, no matter how strong the ninth-level warrior is, it is impossible To do everything by hand, he also needs some powerful men to help him intimidate the low-level warriors and handle many trivial matters.

Therefore, a super-rich clan also needs eighth-level warriors.

And the more eighth-level warriors there are, the greater the external expansion of this super-rich clan. The faster the speed.

Although the Qing Feng Teng Tribe has become a super powerful clan capable of opening up territories and establishing a country, it is still far behind the power of Long Xing...

Chapter 2472

Not to mention how strong Long Xing is now.

Just say that there are four ninth-level helpers under him.

In terms of peak ninth level strength alone, Long Xing's side is much stronger than the three Qing Feng Teng families.

As for eighth-level warriors, as far as the Long family in Longxing is concerned, it is said that there are more than a dozen eighth-level warriors.

It is not that easy for the Qing Feng Teng clan to seek revenge against Long Xing.

It is said that after Qin Chuan returned to the Holy Island, he exchanged a few words with several elders.

Then he took Ming Ling'er to find a quiet place on the island to meditate, and waited for Teng Xiaoshan to recover before everyone left together.

Today, time is still very tight for Qin Chuan.

So as soon as he returned to the Holy Island, Qin Chuan ignored the fact that it was getting late and found a quiet place to continue to comprehend the second level of the Mad God Art.

Seeing Qin Chuan working so hard, Ming Ling'er couldn't help but reveal a sweet smile on her face. This smile was like spring light, so beautiful that the surrounding scenery suddenly lost its color.

Most women want the person they love to be a positive person.

Ming Ling'er naturally hopes that Qin Chuan can become stronger quickly. After all, Qin Chuan is the inheritor of the quasi-God of War. He has to face the life and death challenge of another inheritor. He has no time for romance. He has to race against time and fight against fate..

Because only the living person can be the final winner.

Failure, only death!

Ming Ling'er saw that he was practicing seriously and didn't want to disturb him, so she silently helped him protect the law from a distance.

Summer nights come late, but dawn comes early.

I don't know, two days have passed without even realizing it.

On this day, the four of Qing Yanhai were meditating silently in the house.

Suddenly, a plain voice sounded in the ears of the four people, but it was a voice transmitted from thousands of miles away.

"Yan Hai, Yan Fei, Phoenix Master, Teng Master, it's time for us to leave now!"

Hearing this message, the four people opened their eyes together, looked at each other knowingly, and immediately walked out of the room.

When the four people walked out, they saw Teng Xiaoshan standing outside the door with a majestic look, waiting for them. The four people He hurriedly stepped forward to greet Teng Xiaoshan.

At this moment, Teng Xiaoshan's face had swept away the decadence from two days ago and became energetic again. However, he still looked like he was in his fifties, but he had not changed back to his forties. Appearance.

Qing Yanhai and the others didn't know the reason for the change in Teng Xiaoshan's appearance.

When Teng Xiaoshan's 'True Demon Blood Sacrifice' expired, he instantly became much older.

At that time, only Qin Chuan and Ming Ling'er At the scene.

Now, Qing Yanhai and others suddenly saw Teng Xiaoshan getting older, but they did not dare to ask more questions.

And Teng Xiaoshan could not tell them the reason.

If Qing Yanhai and others knew the reason, they must know that Teng Xiaoshan was about to face something More than a hundred years later, the 4,000-year-old calamity happened, which inevitably caused another blow to the confidence that the children of the three tribes had built up.

"Are you ready?"

Teng Xiaoshan glanced at Qing Yanhai and the four of them and asked lightly.

Qing Yanhai stepped forward respectfully and said: "Senior Teng, I have already prepared and can set off at any time. I am waiting for you!"

"Where is Tianqi?"

"He is cultivating somewhere in Daoshan, but we don't know exactly where he is! Otherwise, this junior will go find him now."

Teng Xiaoshan did not speak, but slowly closed his eyes. A strange energy wave began to emanate from him and quickly covered the entire island.

In just a moment, Teng Xiaoshan opened his eyes, and a trace of energy appeared on his face. Smile: "Yan Hai, you don't need to look for it, I already know where that little guy Tianqi is. That little guy is really interesting. He is in a special state at the moment. Let's all go and take a look!"..

Chapter 2473

At that moment, Teng Xiaoshan took off and flew somewhere on the island.

Qing Yanhai and others immediately followed.

But he said it was in a remote valley on the island.

Ming Ling'er stood slim and graceful under a maple leaf tree, her beautiful face full of joy, and she was looking ahead happily.

In front of her, she saw a tall and well-proportioned white-haired boy standing.

The boy's white hair is longer than his waist.

The boy's eyes looked black at first glance, but upon closer inspection, they were different.

I saw that in the depths of those eyes, there was a little gold in the left eye and a little silver in the right eye.

In addition, two blood-red stars appeared between the boy's eyebrows.

All these things gave this young man a cold and evil charm.

In fact, this young man is none other than Qin Chuan.

It turned out that after Qin Chuan understood the second level of the Mad God Technique, he performed the Mad God Transformation, but he didn't expect that his appearance after this transformation would be completely different from before.

In fact, the difference between the transformation images of the first level and the second level of Mad God Technique is not that big. The biggest difference is just the blood-red star dot between the eyebrows.

After performing the first level of transformation, only the first star point will appear between the eyebrows.

After performing the second level of transformation, a second star point will appear between the eyebrows.

By analogy, when the last layer is applied, seven star points will naturally appear between the eyebrows.

But when Qin Chuan used the battle body madness transformation before, there were no blood-red dots between his eyebrows, and the color of his eyes was also different.

This is because the battle body madness technique has been modified by the God of War. It is still different from the first level of the madness technique, and its image after transformation is naturally different.

However, Qin Chuan was so excited after completing the second level transformation of Mad God Technique that he gathered all his energy and blasted a huge boulder in the valley with only his physical body.

With a loud "boom", the boulder was suddenly bombarded and torn into pieces.

Qin Chuan immediately opened his eyes in surprise and laughed.

"Ha ha!! This second level transformation of the Mad God Technique can indeed increase the amplitude of the physical body's power by 100%, which is to say, it is fully doubled. I just smashed the thousand-jin boulder into pieces with just one blow."

Now, after Qin Chuan learned the second level of Mad God Technique, his strength has greatly increased again.

With the substantial increase in basic combat power, Qin Chuan's maximum speed has also increased significantly. Roughly speaking, it should barely reach the lowest level of a fifth-level warrior. level.

This immediately made Qin Chuan overjoyed.

Now, if he and Qiuqiu team up to fight against the fifth-level warrior, it should be more than three rounds. As for how long he can last, he can only know after the battle.

"whee!! My little husband, you are so smart! My understanding is indeed extraordinary. It has only been a few days! You actually learned the second level of Mad God Art."

Ming Linger's figure flashed and appeared in front of Qin Chuan, diligently helping Qin Chuan wipe the sweat from his face.

This immediately made Qin Chuan feel a little embarrassed.

"Ling'er, I'll do it myself!"

After saying that, Qin Chuan's handsome face turned slightly red.

Now, after his transformation, he has grown five inches taller, almost as tall as Ming Ling'er.

Seeing Ming Ling'er standing in front of him, he breathed out warm air, sprayed on his face, with the fragrance of yucca, making him even more embarrassed.

At this moment, five more figures flew from the distance.

The two people immediately turned around and saw Teng Xiaoshan with Qing Yanhai and others flew over.

When Qing Yanhai and the others saw Qin Chuan's transformed appearance, they were all surprised. At the same time, they also sensed that the aura on Qin Chuan's body had strengthened a lot..

Chapter 2474

Teng Xiaoshan seemed to have known about it for a long time and was not as surprised as Qing Yanhai.

I saw him stroking the beard on his chin and smiling.

"Tianqi, your strength seems to have improved a lot in the blink of an eye. You look different now from before. You may have used physical skills that are only known by legendary physical warriors! After you use this skill, your combat power will probably be close to that of a fifth-level warrior, right? Hearing this

, Qin Chuan also praised: "Senior Teng, you are indeed well-informed!" What the junior uses is physical skill, which is a variant combat skill. After using this skill. He could barely survive in the hands of a fifth-level warrior."

When they heard this, everyone's expressions changed slightly and they looked at each other.

In the past, they only knew that Qin Chuan's strength was far stronger than that of his peers, but they didn't want to be so strong.

Teng Xiaoshan said in surprise: "Maybe Warriors of the five systems should be able to reach this level by cultivating all the vitality of the five systems to the fourth level of Dzogchen. But although you are a warrior of the fifth series, you have only cultivated the fire energy to the peak of the fourth level. The other four series of vitality have not reached the fourth level, but your combat power has reached such a terrifying level."

"If I hadn't known in advance that you were a legendary physical warrior, I would have thought you were a freak. It seems that I have underestimated your potential! Ha ha!"

At the end of the sentence, Teng Xiaoshan laughed happily.

Qinchuan is the future pillar of the five races and the successor in Teng Xiaoshan's heart. The stronger Qinchuan's potential, the happier he will naturally be.

In fact, Teng Xiaoshan and Qing Yan Hai and others didn't know that Qinchuan's basic attack power was not limited to this.

Because Qinchuan's natal spiritual fire was a middle-grade spiritual fire that even fifth-level warriors were afraid of. With the auxiliary bonus of the middle-grade spiritual fire, Qin Chuan's actual combat power Stronger. What they didn't even know was that what Qin Chuan was best at was not combat power, but speed, which was comparable to the speed of a fifth-level warrior.

Enough chatter.

However, Qin Chuan also felt a little embarrassed to be praised by a ninth-level warrior.

At that moment, Qin Chuan said with a smile: "Senior, you're so grateful. This time the seniors and other elders came here, they must be leaving the island, right?"

Teng Xiaoshan nodded gently and smiled: "Yes! Tianqi, Miss Ling'er, I don't know if you have anything else to do. If not, let's set off!"

Obviously, Teng Xiaoshan treats Qin Chuan better than he treats Qing Yanhai and the other four.

Although Qin Chuan is the junior among the juniors, in Teng Xiaoshan's eyes, his potential is much stronger than Qing Yanhai and others. , more worthy of his cultivation

"OK! Senior, I'm going to say goodbye to the second priest now, and we'll set off in a moment! |

Teng Xiaoshan nodded and said:"This is what it should be!"

Then Qin Chuan went to say goodbye to the second priest briefly.

The group of people then left the Holy Island and flew into the sky towards the Qing Family's secret residence, the Ten Thousand Flowers Valley.

The Valley of Ten Thousand Flowers is located in the Black Domain Forest.

The Black Domain Forest is very far away from Shenyang City, about two thousand miles away. It is located on the border of Dagon Kingdom, bordering Baixi Kingdom to the north, Ten Thousand Beast Kingdom to the south, and Dagon Kingdom to the east.

Now Qin Chuan and others set off, eight or nine days later than Qing Xuanlin led the children of the three tribes to the Ten Thousand Flowers Valley.

However, Qin Chuan and others are all warriors above the eighth level, so their speed is naturally much faster than Qing Xuanlin and others.

In fact, the day after Qin Chuan and others left.

A middle-aged man with a majestic look and a dignified appearance appeared in the sky above Shenyang City.

To the left of the middle-aged man stood a pale-faced man with white hair.

This white-haired man is none other than Ling Tianhan, whose hand was cut off by Qin Chuan that day.

Behind these two people, Yan Li, the ancestor of the Yan family, stood aside with an awe-inspiring expression.

At this time, Ling Tianhan said to the middle-aged man: "Master Longxing Kingdom, we have searched for hundreds of miles around, and there is no trace of their presence at all. Obviously they have retreated long ago." It turns out that this middle-aged man is today's Long Xing, Lord of Dagon Kingdom..

Chapter 2475

Long Xing narrowed his eyes slightly and looked into the distance calmly: "Since they chose to retreat, it means that they have no confidence to stay here. It seems that their current strength is not too strong. Ling Shengshi, what do you think?"

Ling Tianhan nodded and said: "The Lord Long Xing is right! Although the opponent has two ninth-level people, those two people combined can't defeat the Lord Long Xing alone."

"Yi Ling estimated that they also surmised that Lord Longxing had reached the peak of the ninth level after thousands of years of hard training, so they chose to retreat first. However, they are lucky. Lord Dragon Kingdom, you have indeed reached the peak of the ninth level."

After hearing this, Long Xing still looked calm, and after thinking for a moment he said

"Now that the other party has evacuated, we want to find the other party's whereabouts. It's a little difficult for you and me. I think they should have a secret stronghold. However, after this battle, it was impossible for them not to leave clues behind. Yanli!"

"The subordinates are here!"

Yanli responded respectfully and stepped forward.

Long Xing glanced at Yanli lightly and said

"Yanli, the leader of this country now gives you a task. After that night of battle, it is impossible for all the children of the four tribes to be killed. Your mission is to find the surviving children of the four tribes. Among the surviving disciples, there must be someone who remembers the appearance of some of the remnants of the Qing Feng Teng clan. You ask them to draw the appearance of those people."

"The owner of the country will send people to secretly search for the person in the portrait. If we can find one or two of them, we may be able to follow the clues and find the base camp of the remaining members of the three tribes. Do you understand?"

"yes! My subordinates understand! Yan

Li replied, and then he remembered something again and said, "Master, I have one more thing to report."

"Say it!"

"yes! Lord of the country! That Qing Yanhai used to be called Huo Xinhai, and he also established a big family in our Dagon Kingdom, the Huo family in Yuncheng. The subordinates think that we can also start searching from the Huo family."

Long Xing narrowed his eyes slightly and said in an unchanged tone: "You don't need to worry about this. The Lord of the country has already sent people to Yuncheng to capture the children of the Huo family, but no one of the children of the Huo family will be let go. Okay, there you go!"

"yes!"

At that moment, Yan Li took the order and left.

After Yan Li left, Long Xing said to Ling Tianhan: "Sheng Ling, is it true that the young man with the divine weapon you mentioned is responsible for this?"

"snort! Is it necessary for Ling to lie?"

"Too! With the identity and status of Ling Sheng Envoy, there is no need to lie. It's just that Long was surprised that a boy of fourteen or fifteen years old possessed a divine weapon. You know, even if we, the ninth-level warriors, want Qingmi to get the divine weapon and recognize us as their master, we have to rely on great luck and luck."

"And that young man is only fourteen or fifteen years old, and his cultivation level is only at the fourth level, so why should he let a divine weapon recognize him as its master?"

After hearing these words, Ling Tianhan pondered for a while and said

"Lord Long is right! It is unbelievable that a fourteen-year-old or fifteen-year-old boy can make a divine weapon recognize him as its master."

"All artifacts and weapon spirits are arrogant and extraordinary. It is impossible to recognize a low-level warrior as their master. Even a ninth-level warrior is extremely difficult to get the recognition of the weapon spirit. What's more, that boy is only a fourth-level warrior? Now that I think about it, it makes me really jealous!"

"yes! However, Long is worried about another problem! Why!"

Long Xing rarely showed a worried look on his face.

Seeing this, Ling Tianhan said in surprise:"What is the Lord of the Dragon Kingdom worried about? Is it because the three Qing Feng Teng families are resurrected and you are worried about the revenge of the three families?"

"Especially that Teng Xiaoshan, his strength was much stronger than yours back then. If he practices meditation for several more decades and recovers all his strength, with the help of that artifact boy, it is not impossible to assassinate you. Long

Xing shook his head slightly:"What Long is worried about is not because of the resurgence of the three clans, nor because Teng Xiaoshan survived.""

"Why is that?"

Ling Tianhan was greatly surprised.

But Long Xing took a deep breath and said:"Long is worried about the young man with the divine weapon."..

Chapter 2476

Hearing this, Ling Tianhan became even more puzzled.

"That kid just got lucky and got an artifact. In fact, with that boy's strength, he couldn't exert the power of the artifact at all, and he relied entirely on the artifact to fight. If that kid can cultivate to the eighth level and can superimpose his own strength and divine weapon, he will still be a threat."

"However, it's hard to say whether that kid can reach the eighth level, let alone the ninth level."

"If he really reaches the ninth level, and has a divine weapon to help him, and the strength of the two is superimposed, he will indeed be a terrifying existence. However, is it so easy to cultivate to the ninth level? I dare to say that that boy must not have reached the ninth level of cultivation. Long

Xing shook his head slightly: "Anyone who is recognized as the owner of a divine weapon must be outstanding. Ling Shengshi should not underestimate that young man." Besides, the young man was able to cultivate to the fourth level at the age of fourteen or fifteen, which means that the young man should have the pseudo-spiritual qualification. In this case, it is also possible to advance to the ninth level."

"snort! So what if he has pseudo-spiritual qualifications? There is only a 10% chance that the pseudo-spiritual qualification can be advanced to level nine. This 10% chance can be described as pitifully small."

Ling Tianhan showed a touch of disdain on his face. He was originally a water spirit and had always been proud of his qualifications. This journey of cultivation has also been smooth and smooth. He has successfully cultivated to the ninth level, so he looked down on those with lower qualifications than himself. He looks down on people even if they have pseudo-spiritual qualifications."

"It is precisely because Ling Tianhan has a water spirit body qualification that is rare in hundreds of years. He has cultivated to the seventh level at a very young age. This is also the reason why he has a young and handsome appearance.

In fact, Ling Tianhan's young and handsome appearance also made many ninth-level warriors secretly jealous.

Because most ninth-level warriors look like old people.

But after hearing what Ling Tianhan said, Long Xing still shook his head and said: "Sheng Ling, you are wrong! No matter whether that young man can cultivate to the ninth level, one thing is certain."

"What's up?"

"That boy is a man of deep blessings"

"Deep blessing!"

Ling Tianhan heard the four bodies tremble slightly, as if he thought of something, and then whispered to himself

"yes! At the age of fourteen or fifteen, his cultivation level was only at the fourth level, but he was able to obtain a divine weapon and identify its owner. It would be fair to say that he had a profound blessing."

At the end of the sentence, Ling Tianhan actually became emotional.

Seeing that Ling Tianhan was like this, Long Xing said:"It seems that Ling Shengshi has also heard those legends."

"good! Ling has heard of it! There is a saying in this world: first there is yin and yang, then there are the five elements. The five elements are born and all things are born, and all things are born and destiny arises"

"yes! Destiny is the fate of heaven and earth. This is a seemingly irregular, but regular order. Even if we are ninth-level warriors, we have escaped the realm of those different orders and still have birth, old age, sickness and death."

"Legend has it that only by deciphering the secrets of the thirteen floating islands overseas can we know the big secret hidden behind all the rules and why order exists.

Ling Tianhan nodded and said,"Yes!" Some people say that the seemingly irregular but regular order is also called destiny. It is actually a kind of energy."

"Precisely because of the existence of this order, there are people with deep blessings and people with shallow blessings in this world. People with profound blessings often encounter many opportunities and go far in their spiritual practice."

"good! Because of this, Long was worried that that kid might reach the ninth level in the future. If he reached the ninth level, he would be a big threat to me. As for Teng Xiaoshan, Long was not worried"

"Because he used the 'True Demon Blood Sacrifice', he would definitely not be able to survive the 4,000-year-old calamity he was about to face. At that time, he would have perished without Long's intervention."

Long Xing knew very well how long Teng Xiaoshan had lived, so he could easily infer Teng Xiaoshan's current situation..

Chapter 2477

Ling Tianhan nodded slightly, and then smiled coldly.

"Ling also heard a legend. Legend has it that as long as you kill a person with deep blessings, the person who kills him can obtain the energy of the order and gain the other person's deep blessings. So on the other hand, anyone can have blessings."

Long Xing smiled slightly and said:"Haha!! Anyone who can reach the ninth level is not a person with profound blessings? Only by killing someone who is more blessed than ourselves can we gain more benefits. If that person is not as blessed as ourselves, there is no point in killing him."

"Although that young man is indeed blessed with profound blessings, it is hard to say whether his blessings are as profound as ours! After all, the power of Xu is intangible and invisible."

"makes sense! No matter what, the young man had to die. He cut off one of Ling's hands, and Ling asked him to pay with his head."

Ling Tianhan's face was full of sinister looks.

Long Xing also sneered: "Yes! That boy was also the biggest potential danger to Long, and Long wanted to get rid of him quickly! It's just that I want to find out his whereabouts, but it's not that easy. Ling Tianhan sneered and said,"

Lord Dragon, actually you don't have to worry so much. Then Teng Xiaoshan snatched away the golden holy bead without hesitation. The holy bead contained the soul imprint of our Holy Lord."

"As long as they keep the Holy Pearl with them, our Holy Lord can find them no matter where they hide. Even if they ran to the ends of the earth, they would never be able to escape."

Hearing this, Long Xing looked happy and said with a smile: "If this is the case, then they are bringing about their own destruction. However, it will take some time to wait for the Holy Lord to arrive. During this time, Long will mobilize the whole country to search for the whereabouts of the remaining members of the three clans.

Ling Tianhan smiled and said, "That's right!"

But on the other side, Qin Chuan and others continued to rush towards the Ten Thousand Flowers Valley.

And Long Xing also began to mobilize the power of the whole country to search for the whereabouts of the three tribes.

In this way, on the fourth day, Qin Chuan and others had entered Black Forest, the entrance of Ten Thousand Flowers Valley

"Senior Teng, the Valley of Ten Thousand Flowers is ahead."

Qing Yanhai respectfully introduced to Teng Xiaoshan.

In the valley ahead, he saw hundreds of flowers blooming in a variety of purples and reds.

At a glance, it was boundless, like a sea of flowers.

Among the thousands of flowers, there were colorful butterflies and bees, and strange insects and small animals were playing among them.

Not only is the scenery extremely beautiful, but it is also a vibrant scene

"This place is so beautiful!"

Seeing the beautiful sea of flowers in front of her, Ming Ling'er sighed involuntarily, her eyes showing excitement.

And Qin Chuan also felt relaxed and happy. It was also the first time for him to see such a beautiful scenery.

At this time, Qing Yan Hai smiled and said: "Miss Ling'er, don't look at how beautiful the Valley of Ten Thousand Flowers is. In fact, there are many dangers hidden behind this beauty."

"oh? How to say this?"

Ming Ling'er asked curiously.

Qing Yanhai then explained with a smile.

"Although the Valley of Ten Thousand Flowers is called a valley, it is actually a small basin. Its area is extremely large, with a radius of hundreds of miles, and tens of thousands of various plants and spiritual creatures grow within it. Because of the special ecological environment of Wanhua Valley, there are many strange Kunlings and plant spirits living here."

"What are Kunling and Zhiling? Qin

Chuan asked curiously

"Kunling is an insect-type ferocious beast. Most insect-type ferocious beasts live in groups. Even if these gregarious creatures do not have strong attack power, they are extremely numerous and difficult to guard against. They are much more difficult to deal with than ferocious beasts of the same level. , and can even defeat ordinary ferocious beasts across levels."

"The plant spirit is even more peculiar. It is an existence between plants and animals. It looks like a plant on the outside, but it is very similar to an animal on the inside. It has its own consciousness and soul. It does not live by absorbing water and sunlight, but by absorbing water and sunlight. They make a living by devouring insects, fish, birds and beasts, but all plant spirits have some unique skills that make it difficult to guard against them."

"In addition to these dangers, there are many swamps in the Valley of Ten Thousand Flowers, so there are many kinds of miasma in the valley, making it easy for people to lose their way. Moreover, those miasmas are toxic or can cause hallucinations in the brain, so ordinary warriors are not willing to venture into the Valley of Ten Thousand Flowers. After hearing these words

, Qin Chuan said:"It seems that this Ten Thousand Flowers Valley is a good hiding place.""..

Chapter 2478

Qing Yanhai smiled and nodded, and then said:"Okay, Ten Thousand Flowers Valley has arrived. I think Xuan Lin and the others have already arrived. I will inform them to come out to pick us up. Everyone, please wait a moment!" After saying that, Qing Yanhai took out the A messenger talisman was crushed.

This communication talisman can only convey messages more than ten miles away.

It was obvious that Qing Yanhai was not sending a message to the Qing family's secret stronghold, but to a secret sentry near the mouth of the valley.

However, as soon as Qing Yanhai sent out the summons, everyone stood silently waiting at the mouth of the valley.

After a while, Ming Ling'er's bright eyes turned, and she seemed to have thought of some evil idea, and whispered a few words in Qin Chuan's ear.

Qin Chuan's expression suddenly seemed dumbfounded.

Seeing this, Qing Yanhai and others were naturally curious, but they were afraid of Ming Ling'er and did not dare to step forward to inquire.

But Teng Xiaoshan pretended not to see it and smiled silently.

Just when the four people in Qing Yanhai were suspicious, Ming Ling'er raised her flawless pretty face and said

"The little girl has just made up her mind. This time when she enters the valley, the little girl will not show up. After all, this is the first time that my husband-in-law has returned to the clan to meet the elders of the clan. The little girl wants to see secretly, how do the elders of the clan treat my husband-in-law?"

"As long as they are nice to my husband, forget it. If there is something wrong with the arrangements, the little girl will come out to settle accounts with them. No matter who the elder is, as long as anyone dares to be rude to my husband, the little girl will be rude to him.."

She naturally said this to Teng Xiaoshan and others.

After hearing this, Qin Chuan immediately started sweating profusely and said hurriedly:"Ling'er, don't make any more trouble, don't hide, come with me. Go in and meet the elders! Ming

Ling'er refused, saying,"Silly Sir, Ling'er will go into seclusion in two or three days, and won't be able to come out to take care of you for a long time." If Ling'er goes in with you, I'm afraid that the so-called elders will be in awe of you because of Ling'er's existence, but in fact they don't treat you well in their hearts."

"Therefore, this time Ling'er must hide his figure first to see if they are really good to you. If they are good to you, that's it. If they are not good to you, Ling'er must teach them a lesson. Only in this way can Ling'er rest assured in the future."

"All right! whatever!"

Qin Chuan smiled helplessly. He knew that Ming Ling'er was doing it for his own good, so he couldn't stop her too much.

However, when Ming Ling'er saw that Qin Chuan no longer stopped him, he said to Teng Xiaoshan:"Teng Xiaoshan, if there is no little girl, With permission, please don't tell your juniors about the little girl's existence!"

"Ha ha!! Of course!"

Teng Xiaoshan laughed heartily and nodded in agreement.

"And you four too!"

Ming Ling'er glanced at the four people of Qing Yanhai again.

The four people of Qing Yanhai suddenly became excited and nodded repeatedly: "Don't worry, Miss Ling'er, we will naturally not tell anyone without your permission."

"That's good! Ming

Ling'er smiled sweetly, turned to Qin Chuan and said, "Ms. sir, I'll hide it too!"

As soon as he finished speaking, Ming Ling'er turned around and turned into a ray of white light, which penetrated into the sun and moon mark on the palm of Qin Chuan's hand.

Seeing that Ming Ling'er had hidden his figure, Qing Yanhai and the four of them couldn't help but take a deep breath. They took a breath of air-conditioning, and then the four of them looked at each other with strange expressions.

At this moment, the four of them were praying secretly in their hearts, praying that there would be no short-sighted people among the three tribes who would act like elders towards Qin Chuan. Hu Xiaoshan.

If anyone really does that, that person must be unlucky.

After all, Ming Ling'er is a ninth-level existence.

Even if Ming Ling'er wants to teach that person a lesson, not even Teng Xiaoshan will come forward to stop him.

Without Teng Xiaoshan Who else dares to come forward to stop him? He can only be embarrassed.

So while the four of them prayed in their hearts, they also had a hint of gloating. They also wanted to see if an unlucky man would appear.

Just tomorrow After Ling'er hid her body with a cup of tea, a strong wind blew in the distance, and then she saw a large group of colorful butterflies flying towards Qin Chuan and others...

Chapter 2479

Seeing such a scene, Qin Chuan and others looked stern.

Not long after, the group of colorful butterflies flew in front of everyone.

Then the butterfly group turned into a beautiful man.

This beautiful man is naturally Qing Yunxiu, a descendant of the Qing family.

Seeing Qing Yunxiu show his true form, the Phoenix Master on the side immediately sighed:"Tsk! Tsk! This is the legendary wood-type top martial skill 'All Souls' Body Technique', right?"

Qing Yunxiu had seen the Phoenix Master before, so he naturally recognized it.

He immediately stepped forward and said respectfully:"Junior Qing Yunxiu has met senior Phoenix Master. Senior is right. The martial arts used by junior and roommate just now is the top-notch wood-based martial arts 'Ten Thousand Spirits Body Technique'.""

"Sure enough!"

Phoenix Lord nodded repeatedly in praise.

"Only one fifth-level warrior can comprehend and learn a top-level martial skill. However, as long as he can master a top-level martial skill, his strength will be greatly increased, and he can even sweep across the same level."

"God has favored you, the Qing family, as long as you reach the fifth level of cultivation, you can automatically master a top-notch wooden martial art, which is the 'spiritual art'. The strength after the fifth level is generally stronger than that of warriors of the same level."

"Now, the two of you have learned the top-level martial arts technique 'All Souls Reincarnation Technique', which means you have mastered two top-level martial arts skills. It seems that you are among the strongest among your peers, right? Qing

Yunxiu said with a smile: "Senior Phoenix Master, you deserve the award. My strength is pretty good among my peers!"

The Phoenix Master shook his head and said, "You don't have to belittle yourself. It's easy to get a top-notch martial skill, but it's extremely difficult to learn to master it. As a fifth-level warrior, it is really rare for you to be able to learn two top-level martial arts. It can be said to be one of a million. Okay, no more gossip. I don't know when you came back. How are the others?"

"Senior, I arrived at the valley two days ago. After arriving, the patriarch ordered the two of us to wait here quietly for the elders. At present, the people of the three tribes have been safely transferred to the secret stronghold, and the clean-up work has been completed. Hearing this

, Phoenix Master said with satisfaction: "That's good!"

It turns out that after the three Qingfengteng clans united, the three clans had already negotiated to move all the direct descendants of the Feng family and Teng family to Wanhua Valley. In this way, the three clans could look after each other and concentrate their strength, even if they encountered a strong force. They can work together to resist the enemy.

So from that time on, the Qing family's children opened a secret base for the Feng family and Teng family near the original stronghold, and transferred some low-level children and relatives of the Feng family and Teng family there in advance..

When Qing Yanhai joined the three clan alliance and planned to deal with the four Nanyan Wei and Xie families, he also expected that his identity would be exposed, so before the war, he quietly moved all his direct descendants and relatives to the vicinity of Shenyang City. The properties in Yuncheng were handed over to some disciples with foreign surnames.

As soon as the war ended, all the relatives of the Huo family followed Qingxuan Lin into the Ten Thousand Flowers Valley base.

Also because of this major transfer, there were many low-level disciples. Therefore, Qing Xuanlin and others moved very slowly, arriving only two days earlier than Qin Chuan and others.

However, Qing Yunxiu said that he had met Master Feng and told a little about the situation in the base in the valley.

Now, in the base, the Feng family Arrangements have been made with the Teng family.

The children of the Huo family are originally a branch of the Qing family, so they were arranged in the Qing family's camp.

Because of the addition of the Huo family, the Qing family has become the strongest and largest among the three families. However,

Qing Yunxiu briefly told the situation in the base, and then came forward to see the Teng Master.

Finally, Qing Yunxiu respectfully came to Qing Yanhai and said: "Junior, I have met the Supreme Elder Yan Hai!

Qing Yanhai smiled and nodded: "Haha!" "I good! Little guy, I will introduce you to another elder, Yan Fei, please come over!"

Qing Yunxiu heard what Qing Yanhai said, and immediately said excitedly: "Supreme Elder Yan Hai, could this senior be the Supreme Elder Yan Fei who was previously trapped in the forbidden area of Zhou?"

"good! The little guy was quite clever and guessed the old man's identity right away."

Qing Yanfei also looked at Qing Yunxiu, a descendant of the Qing family, with a smile.

But when Qing Yunxiu heard Qing Yanfei's personal admission, he immediately stepped forward to greet him with excitement...

"The junior Qing Yunxiu met the Supreme Elder Yan Fei. Ha ha!! That's great!"

"As soon as Elder Yan Fei returned to our clan, our Qing family had another eighth-level warrior. Now, together with Phoenix Master, Teng Master, and Supreme Elder Qing Yanhai, our three clans have four eighth-level warriors. Such strength is considered strong among the big clans!"

The more Qing Yunxiu spoke, the more excited he became.

Originally, after Qing Yanhai's identity was revealed, the children of the Qing family were very excited.

Thinking that the children of the Qing family have been living in the world for thousands of years without even an eighth-level warrior, but now there are two more at once. As an eighth-level warrior, how could Qing Yunxiu not be excited?

At this time, Qin Chuan also stepped forward to greet Qing Yunxiu.

"Tian Qi met Uncle Yunxiu"

"Ha ha!! It's Tianqi! Little guy, you did a good job this time. This time, you and your father have contributed a lot to killing the rebellion of the four Wei and Xie tribes in Nanyan. This time, if you had not destroyed the teleportation array in the forbidden area in advance and allowed Senior Phoenix Master and Senior Teng Master to come back in time for rescue, our Qing family would not have suffered any losses. Otherwise, the consequences will be disastrous!"

Qin Chuan smiled and said, "Uncle Yunxiu, thank you!"

"correct! Qing Yunxiu suddenly remembered something, turned around and asked anxiously: "Teacher Yan Hai, do you know if you have obtained the Azure Dragon Pearl?"

Qing Yanhai smiled and said, "Little guy, seeing how excited you are, you're asking about other things before you've even met all the elders." However, I want to make you happy first. We have obtained the Blue Dragon Pearl."

After hearing this, Qingyun Xiu's face showed a look of ecstasy, and he was so excited that his hands and feet trembled slightly.

After a while, he happily muttered to himself

"Very good! That's great! I finally got the Blue Dragon Pearl, and our Qing family can finally be revitalized."

"Ha ha!! Supreme Elder Yan Hai, being able to recapture the Blue Dragon Pearl is of great significance to our Qing family. Our Qing family has spent nearly a thousand years trying to regain it, so that we can revitalize the Qing family and have the opportunity to take revenge."

"As soon as the clan leader came back this time, he had already ordered people to open the 'Hualong Pond' and was waiting for the Blue Dragon Pearl. Now all the children of the Qing family are eagerly waiting for their seniors to bring back the Blue Dragon Pearl. If the younger generation delivers this news to them now, they will definitely be ecstatic."

The Tengzhu on the side laughed and said, "Haha!!" It seems that the children of the Qing family are very eager to look forward to the return of Qing Longzhu!

Qing Yanhai shook his head and said, "Little guy, your name is Qing Yunxiu, right?" Seeing that you are not young, you should learn more from Tian Qi in doing things and learn not to be surprised by favors or disgrace. I have reminded you just now that you are happy when you are happy, and all the elders will see you, so don't lose your etiquette."

After being scolded by Qing Yanhai so lukewarmly, the Qingyun scholar came to his senses. Among this group of people, apart from Qing Yanfei, whom he had just met, there was also a man who was about fifty years old, with an unattractive appearance, weak aura, and some gray hair. He has not yet stepped forward to greet the old man.

This gray-haired old man is naturally Teng Xiaoshan.

But at this moment, Teng Xiaoshan restrained his breath and kept smiling at everything in front of him.

Qingyunxiu could not see him at all. In Qing Yunxiu's view, Teng Xiaoshan's momentum was not as powerful as Qing Yanhai and others, and he was probably just a seventh-level warrior.

Therefore, in a hurry and excitement, he did not give Teng Xiaoshan a gift, but first paid his respects to Teng Xiaoshan. Phoenix Master greeted Qing Yanhai and others, and had forgotten Teng Xiaoshan.

Now, when Qing Yanhai reminded him, he remembered that there was a strange old man here who did not show courtesy, and he was indeed not thorough in etiquette.

At the moment , Qing Yunxiu walked up to Teng Xiaoshan a little embarrassed, bowed his hands and said

"The junior Qing Yunxiu has met this senior. Is he also a member of my five ancient clans?"...
