

God level 2671

Chapter 2671

After saying this, Chu Hongjian was about to lead Liu Qi and Chu Bilian and leave angrily.

But at this moment, a loud laughter sounded from outside the crowd

"Ha ha!! Is Brother Chu about to leave? Why! It was really disappointing to finally see two masters duel, to be interrupted like this."

With this laughter, a figure in the crowd jumped into the arena.

It was a young warrior with a smile on his face and a slightly fat body.

When Qing Tianqi saw the young warrior, his face showed surprise again.

Because This young warrior turned out to be a fifth-level warrior. As soon as this young warrior appeared, Long Xiaotian frowned and said.....

"Zhou Yanzhi, are you coming to cause trouble too?

Zhou Yanzhi laughed and said, "Brother Long, don't misunderstand me. I was attracted by the fighting here. Just when I was watching the excitement, you came."

At this time, Chu Hongjian said: "Zhou Yanzhi! Do you think it looks good? I think you want to see Chu's joke, right?

Zhou Yanzhi laughed and said, "Haha!! Brother Chu misunderstood. The battle just now was indeed very exciting.!" "

"snort!"

Chu Hongjian snorted angrily, unwilling to talk to Zhou Yanzhi anymore, and left with Chu Bilian and the others.

After Chu Hongjian left, Long Xiaocai turned his head and glanced at Xuanyuan Zhantian

"I hope you won't cause trouble again, at least don't fight with others for no reason before the rookie conference is over, otherwise you will be disqualified from the competition. Don't blame Long for not warning you in advance!

Qingtian Qiluo cupped his fists and said, "I've learned a lesson!"

"good!"

Long Xiaotian nodded slightly and looked at Zhou Yanzhi again.

"The same to you!"

Zhou Yanzhi immediately laughed and said: "Haha!! Brother Long, don't worry, I don't like fighting with others. At most, I just like to collect some treasures."

"Just don't cause trouble!"

At this time, five black-feathered giant eagles fell from the sky.

The largest black-feathered giant eagle had no one riding on it, and the other four giant eagles each had a person sitting on their back.

The four people were wearing clothes, and they were all the same. Like Long Xiaotian, they all wear uniform white uniforms, but there is no golden armband on the collar, and their cultivation levels are not weak either. They are all warriors of the fourth level or above.

And the five giant eagles are all third-level ferocious beasts, and they are obviously all They are pets.

But these pets can only grow to the third level.

Seeing this, Qingtian Qi secretly sighed in his heart

"It seems that after more than a thousand years of accumulation, Long Xing has accumulated the strength of the Long family to be very strong! Just look at the flying team responsible for public security. It is extremely powerful. Even an ordinary member is a fourth-level warrior. This is not something that ordinary super families can do. It seems that it is not that easy for our five tribes to destroy the Long family!"

At this time, a member of the flying team said to Long Xiaotian

"Captain, should these be dismissed?"

Long Xiaotian nodded slightly and said to the people around him

"Everyone, please disperse!"

At that moment, the onlookers began to slowly disperse.

Then, Long Xiaotian ordered another team member to call the urban construction team to repair the damaged streets. He took the other team members and left.

After Long Xiaotian left, then Zhou Yanzhi raised his hands to the blue sky and said

"The battle just now was very exciting. I didn't expect that Zhou would see another master today. Would you like to know your name?"

"Xuanyuan Zhantian!"

"Ha ha!! It turned out to be Brother Xuanyuan, who was known as 'Mr. Duobao' in Zhou Yan. Brother Xuanyuan, Zhou is here to remind you that Chu Hongjian has always been narrow-minded. This time he has not come up with his trump card. You must be careful next time at the rookie conference."

Hearing this, Qingtian Qi's expression froze slightly. He knew that Zhou Yanzhi was right.

Chu Hongjian did have reservations, and he probably didn't want to expose his strength before attending the rookie conference.

Otherwise, Qingtian Qi said in front of Chu Hongjian today His men persisted for so long.

At that moment, Qingtian Qi bowed his hand to Zhou Yanzhi and said

"Thanks for the reminder, Brother Zhou!"

"Ha ha!! Brother Xuanyuan is so polite! I have something else to do, so I'll take my leave now!"

At that moment, Zhou Yanzhi politely handed over his hand and left..

Chapter 2672

After seeing everyone leave, Qingtian Qi looked at the crowd that had not dispersed yet, and said to Qingtian Ling

"Brother Tianling, let's go find the registration for the Rookie Conference."

Qingtian Ling looked at Qingtian Qi deeply as if he was meeting Qingtian Qi for the first time, and then nodded.

"good!"

Obviously, Qingtian Qi's previous performance completely shocked Qingtian Ling.

He didn't expect that Qingtian Qi was so powerful that he could fight with a fifth-level warrior for a long time without losing.

This made him feel unbelievable.

At that moment, Qingtian and Qi left in a hurry to avoid everyone's fiery gazes.

After Qingtian Qi walked away, the group of young warriors behind them who were reluctant to disperse began to talk carefully.

"Do you think that Xuanyuan Zhantian is a fifth-level warrior?"

"nonsense! He must be a fifth-level warrior. How could a non-fifth-level warrior fight Chu Hongjian for seventy or eighty rounds without losing?"

"that is! If you ask me, Xuanyuan Zhantian is a fifth-level warrior!"

"But Chu Hongjian seemed to have said before that Xuanyuan Zhantian was not a fifth-level warrior!"

"Ah!! Do you believe this too? From my point of view, Xuanyuan Zhantian should have just advanced to the fifth level, so his strength is slightly weaker, but it is definitely true that he is a fifth level warrior."

"Besides, Master Duobao Zhou Yanzhi is also one of the top ten rookies. He has always been arrogant and never associates with anyone below the fifth level. And he just called Xuanyuan Zhantian brothers, and he obviously regards Xuanyuan Zhantian as a master of the same level as him. From this point, it can also be judged that Xuanyuan Zhantian is a fifth-level master."

"good! What you said makes sense! Oh my God! Unexpectedly, there is a fifth-level master staying in the same inn with us. This is really exciting!"

"yes! This is so exciting. I never thought that one day, I would be so close to the top ten decision makers on the rookie list!"

Qingtian Qi naturally couldn't hear the discussion of these young warriors.

If he heard that everyone mistook him for a fifth-level warrior, I don't know what he would think?

Should he be happy? Or should he smile bitterly?

At this moment, Qingtian and Qi stayed away from the place where they fought earlier.

After asking people on the street, they found out that the registration for the Rookie Conference had started for three days and would end in four days.

Because the people who came to register were special. Every day, a large number of young warriors arrive in Kyoto from all over the country. At that moment, Qingtian and Qi asked for the registration address and hurried over.

When they arrived at the registration place, they were shocked by the sea of people in front of them..

The square was very noisy with crowds of people. Of course, most people came to watch the excitement. There was also a long queue at the registration office, which was a thousand meters long.

In the square, the Long family also sent many imperial guards. We are maintaining order to prevent anyone from cutting in the queue and causing trouble.

Looking at the long queue, Qingtian Ling couldn't help but frown and said

"So many people! The queue is so long, even if we queue now, we may not be able to register today!"

"yes!"

Qingtian Qi nodded slightly.

However, he soon discovered that something was wrong.

He found that those who signed up were all second-level warriors, and there was not even a third-level warrior above. This made him a little confused.

At the moment, Qingtian Qi grabbed a young warrior and asked him

"My friend, I would like to ask you why all the people who come to register at this registration office are second-level warriors. Why are there no warriors of third-level and above? The young warrior smiled and said: "It seems that you have just arrived in Kyoto from somewhere else, and you don't understand the rules of the rookie conference yet, right?" Then I will tell you the rules of the rookie conference!"

At that moment, the young warrior told Qingtian Qi the rules of the rookie conference..

Chapter 2673

It turns out that the registration office is divided into four locations.

The first and largest place is where second-level warriors specially sign up, and the qualification order they obtain is the 'Wood Order'.

The second place is where third-level warriors sign up, and what they get is the 'Bronze Order'.

The third place is where warriors from the fourth section sign up, and what they get is the 'Silver Order'.

The fourth place is where fifth-level warriors sign up, and what they get is the 'Golden Order'.

Anyone with a Bronze Order or above does not need to participate in the first round of preliminary examination and will directly enter the second round.

In other words, warriors of level three or above do not need to participate in the first round of preliminary examinations and directly enter the second round.

In the first round of preliminary examination, only second-level warriors were selected, and some winners were selected, and the qualification orders of those winners were changed to 'Bronze Orders'.

In the second round of re-examination, only contestants with 'Bronze Orders' will be selected, and the winner's Qualification Order will be exchanged for a Silver Order. Warriors of level 4 and above do not need to participate and will directly enter the third round.

By analogy, the last round is the ranking battle for players with the 'Golden Order', and it is also the ranking at the top of the rookie list.

Hearing this, Qingtian Qi nodded slightly. He felt that this competition system was very reasonable.

After all, the level barriers for warriors are there. For each higher level, the gap in strength is huge. Therefore, it is reasonable to select those high-level warriors as seeds to appear in the later stage. They have the qualifications and the strength.

At the moment, Qingtian Qi asked the young warrior for other relevant details and the registration positions of the other three places. The young warrior also told Qingtian Qi one by one.

It turns out that the registration office for third-level, fourth-level, and fifth-level warriors is in another square, not far from the square where the second-level warriors registered.

At that moment, Qingtian Qi thanked the young warrior and left with Qingtian Ling.

At the same time, in the main hall of the Ryū family's mansion in Kyoto.

A gloomy-looking man was looking at a document in his hand.

This middle-aged man is the supreme commander of the Dakun Empire's Intelligence Department, Long Cangyu, who is also a descendant of the Long family and a seventh-level warrior.

At this moment, there was a young man in his twenties standing next to Long Cangyu.

If Qing Tianqi were here, he would be surprised to find that the young man was an acquaintance of his.

Because that young man was none other than Zhou Qishao from the Xie family back then.

However, Long Cangyu looked gloomy and after reading the information in his hand, handed it to Zhou Qishao beside him and said

"Xiao Qi, this is the news that just came from Chijin City. There is a portrait named Wang Tianqi in it. Do you think he is that Qin Chuan? And the pets around him, have you seen them before?"

Zhou Qishao took the portrait and looked at it carefully, and immediately said with excitement.

"Sir, the boy in this portrait is indeed Qin Chuan.

There are also pets around him. The strange beast that appeared in our Xie family's forbidden area looks similar to it, except that its white hair has been replaced by dragon scales. It is probably the same beast."

Hearing what Zhou Qishao said, Long Cangyu nodded slightly.

"It seems that our people's judgment was correct, that Wang Tianqi is Qin Chuan, the remnant of the Qing family, but we didn't expect that he was actually a fifth-line warrior. hehe!! I never thought that the Qing family could produce such an elite child. This is not a good thing for our Long family."

"yes! Sir, the remnants of the three Qing Feng Teng families are plotting a counterattack now. If they are not eliminated as soon as possible, they will definitely destroy the foundation of the Da Kun Kingdom."

Long Cangyu smiled coldly and disdainfully.

"snort! It's just a resurgence. With the current strength of the three tribes, they are still no match for the Da Kun Kingdom."

"Of course, we cannot take it lightly. I heard that Qin Chuan passed through Red Gold City to attend the Rookie Conference. What is the purpose of Qin Chuan coming to Kyoto at this very moment and attending the Rookie Conference?"..

Chapter 2674

"this? Zhou

Qishao pondered for a while and said

"It stands to reason that Qin Chuan would not participate in the competition just for the vanity of entering the rookie list. Because even if he came to participate, he would not dare to use his real name or his original appearance to participate in the competition."

"In this case, even if he gets a good ranking in the rookie conference, no one will know his true identity, and the honor he will get will be in vain. Besides, it is dangerous for him to enter Kyoto. It is hard to understand that he would risk being discovered and sneak into Kyoto."

"You analyzed it well! There is indeed a reason why Qin Chuan came to attend the Rookie Conference."

Long Cangyu smiled with a heart full of pride.

"The so-called not going without benefit means that for a smart person, no matter what he does, he should have a purpose. That Qing Tianqi is not an idiot. He would take the risk to come to Kyoto to participate in the Rookie Conference. Naturally, he has a purpose."

"Since it is not for the vanity of the rookie ranking, it is naturally for the reward of entering the rookie list."

"Judging from the information sent back, Qingtian Qi's cultivation has reached the peak of the fourth level of Great Perfection. Xiaoqi, what do you think is most attractive to a fourth-level Dzogchen peak warrior? Zhou

Qishao thought for a while and said

"Of course he has broken through to the fifth level."

As soon as these words came out, an idea flashed in Zhou Qishao's mind, and he said in shock

"Could it be that Qing Tianqi came to Kyoto to enter the top ten rookies and win the reward of Tianqi Dan?

Long Cangyu smiled and said, "That should be the case!" This Apocalypse Pill is an extremely rare and top-quality elixir. It has a 20% chance of helping a fourth-level Dzogchen peak warrior to break through the bottleneck and advance to the fifth level."

"No fourth-level warrior could resist such a temptation, not to mention that Qin Chuan had reached a bottleneck that he had to break through, so he would not be tempted. Judging from the data, Qin Chuan and his pet are extremely powerful together and should have a good chance of entering the top ten, so he naturally does not want to give up this great opportunity."

"In fact, this also illustrates a problem. It shows that the three Qing Feng Teng families are not yet able to refine the 'Apocalypse Pill'. From this point, it can also be seen that the remaining members of the Qing Feng Teng family are not strong in material and financial resources. Many things are scarce, and now is the time to annihilate them in one fell swoop."

Hearing this, Zhou Qishao immediately became excited.

He hated the Qingfengteng clan extremely much. After all, these three clans destroyed their Xie family.

"Sir, what should we do? How can we completely wipe out the remnants of those three tribes and make them completely disappear from this world?"

Long Cangyu pondered for a while and said: "In fact, from the appearance of Qinchuan in Chijin City, we can judge that the three tribes are probably hiding in the Black Forest area. Because Scarlet Gold City is located on the border, not far from the Black Forest, it is a good hiding place."

"However, the Black Forest is too vast and spans the borders of the three countries. It is not easy to find the stronghold of the three tribes there! Maybe it will take five or six years to find"

"It's hard to say what changes will happen in these five or six years. We can't give the remnants of the three tribes time to breathe, and we must find their hiding place as soon as possible. There was an opportunity right in front of him, which was to start with Qin Chuan. As long as we find that Qin Chuan, I will be able to find out from him the hiding place of the remnants of the three clans.

Zhou Qishao said happily: "That's great!" Sir, how should we find out that Qin Chuan next?"

Long Cangyu smiled and said: "The contestants participating this time will have their true age tested and relevant information recorded. With Qin Chuan's strength, if he wants to be in the top ten, he must bring his pet to the battle, so even if he changes his appearance, we can easily identify him."

"A fifteen-year-old five-series warrior with a strange pet. Such characteristics are easily identifiable at a glance. As long as we find out that player is him, as soon as the rookie conference is over, we will secretly capture him alive, and then I will have a way to get what we want from him."..

Chapter 2675

But on the other side, Qingtian and Qi were rushing to the registration place.

Just when the two of them were about to arrive at the registration office, Qingtian Qi suddenly stopped and said.....

"Brother Tianling, can I lend you a drop of blood?"

Qingtian Lingqi said: "What do you want that for?" Qing Tianqi said: "

Since this Rookie Conference requires young warriors under the age of thirty to participate, then the blood age must be tested.""

"Although my appearance has changed and I look like I am in my mid-twenties, my actual age cannot be changed. If my true age is found out. With my fifteen-year-old age and my status as a fifth-line warrior, the people in Longxing know who I am without even thinking."

"So I will use your essence and blood to change my age, so that my appearance and age will be completely different from the original ones. It will be difficult for people in Longxing to regard me and Qin Chuan as the same person."

Actually, Qingtian Qi came up with the idea of borrowing blood essence in Scarlet Gold City.

After listening to Qingtian Qi's words, Qingtian Ling also said worriedly

"Your concern is warranted. I just don't know what their test age rules are. It's hard to say whether you can pass the test in terms of age!"

"It all depends on people. If I can't pass the test due to my age, then I have no choice but to give up this competition. It's a pity that Qidan was no longer with me that day. Qingtian

Ling consoled him: "Whether you can get through it or not, you won't know until you go there!" You catch this drop of blood!"

I saw Qingtian Ling scratching his fingertips with his nails, and a drop of red blood essence popped out.

Qingtian Qi immediately showed joy, wrapped the ejected drop of blood essence with his vitality, and hid it in the palm of his hand.

"Tianqi, let's rush there quickly! After the essence and blood are separated from the body, it will become invalid after more than half a cup of tea, and the age cannot be measured. It's not good for us to be delayed for too long."

"Um! Let's go!"

At that moment, the two of them hurried to the registration office.

They saw that there were three registration entrances, and each registration entrance had obvious registration signs.

The first registration entrance was the registration office for third-level warriors.

The second one was for fourth-level warriors. The registration office for level 5 warriors. The third one is the registration office for level 5 warriors. There are only seventy or eighty people queuing at the registration office for level

3 warriors. Only one or two people come in and out of the registration office for level 4 warriors.

The registration office for level 5 warriors The place was quiet, as if no one was coming or going.

After all, most of the young warriors under the age of thirty were at the level of second-level warriors.

Those who could reach the third-level level were all genius-like elites.

It is even rarer to be able to reach the fourth and fifth levels.

Qingtian Qi and the two did not waste time and went straight to the registration office for fourth-level warriors.

As soon as they entered the door, they found a light curtain blocking the way.

Qingtian Qi felt strange. At this time, an old voice came from inside the house

"Anyone over thirty years old cannot pass through the light curtain. If you are over the age of participation, please go back!"

After hearing this, both Qingtian and Qi were doubtful and tried to pass through.

Unexpectedly, they both passed through smoothly.

As soon as they passed through the light curtain, they could clearly see the scene in the hall.

Only I saw a desk in the center of the hall, and an old man with gray hair was immersed in writing something.....

Sensing Qingtian and Qi coming in, the old man slowly raised his head and said

"It seems that both of you are of the right age to participate in the competition. This is the place where fourth-level warriors sign up. Don't go to the wrong place. My temper is not very good! I'll say the ugly things first!"

After saying this, the old man took a closer look at the cultivation of the two.

When the old man saw clearly the cultivation of Qingtian and Qi, his previously indifferent face suddenly burst into joy..

Chapter 2676

"Ha ha!! One is a fourth-level Dzogchen peak warrior, and the other is a fourth-level peak warrior, okay! good! It seems that our Dakun Country has gained two more rare talents! Two young people, you have passed the registration review, come and fill in the information! You go first!"

The old man first pointed at Qingtian Ling and asked him to drop a drop of blood on the age-testing stone again.

The age-testing stone is different from the light curtain outside. It is used to test the specific age....

Under the old man's gaze, Qing Tianling followed the instructions and dropped a drop of blood on the age-testing stone. Soon, the number 'twenty' was displayed on the age-testing stone.

The old man immediately showed a look of surprise, then stroked his gray beard and said

"Young man, it turns out you are only twenty years old! I thought you were already twenty-four or five years old. It seems that you look older!"

It turns out that after Qing Tianling used the face-changing technique, he looked like he was twenty-four or five years old, which made the old man think he looked older.

"However, your talent is far beyond my expectations! Tsk tsk!! You have cultivated to the peak of the fourth level at the age of twenty. If I estimate that your talent is not bad, your talent should have exceeded the level of elite genius, and it has probably reached the level of pseudo-spiritual body, right?"

"Tsk tsk!! This is really not simple! Judging from your talent, you will definitely be able to enter the fifth level in ten years. If you come to participate in the Rookie Conference at that time, you will definitely have a place in the top ten! Come on, young man! I like you! By the way, what's your name?"

"Junior Ji Tianling!"

"good! Ji Tianling, twenty years old, the peak of the fourth level of the wood element!"

The old man quickly registered Qing Tianling's information and drew Qing Tianling's portrait for the record. In this way, no one can impersonate him next time.

After recording these, the old man gave Qing Tianling a silver token..

I saw the silver token, with runes engraved on the front, the words 'Rookie List' engraved in the middle, and the words 'Silver Twenty-Seven' engraved on the back.

After Qingtian Ling took the silver token, the old man explained

"This silver token corresponds to your information and portrait. Every time you enter the arena with the token, someone will compare you with your portrait to prevent anyone from cheating! Do you know?"

"Thank you, senior, I will remember this!"

"Um!"

The old man nodded slightly, then looked at the blue sky and said

"The young man has actually reached the pinnacle of the fourth level of the Great Perfection of the Fire Element. It's so rare!"

It turns out that this time, Qingtian Qi only showed the fire system, and the other systems were hidden.

"Young people, let's test your specific age, and I will help you register your information."

Hearing this, Qingtian Qi secretly took a breath and inadvertently glanced at Qingtian Ling beside him.

Qingtian Ling immediately understood and nodded slightly.

At that moment, Qingtian Qi strode forward and looked at the old man's bright eyes. Under the attention of his divine eyes, he cut his fingertips and squeezed out a drop of blood.

Just when Qingtian Qi was about to drop his blood on the age-testing stone, Qingtian Ling suddenly shouted

"senior! I have a question for you, junior!"

"what is the problem?"

The old man was interrupted by Qing Tian Ling and immediately turned to look at Qing Tian Ling.

Qing Tian Qi took advantage of the old man's attention to Qing Tian Ling and quickly replaced his own blood essence with the drop of blood he had hidden in advance. It bounced into the age-measuring stone.

As soon as the age-measuring stone absorbed the drop of essence and blood, the red light flashed again, showing 'twenty'. When the old man saw this number, he immediately showed surprise.

"Huh! You are only twenty years old! Boy, you look too old! I thought you were already twenty-seven or eighty years old!"

The old man looked at the white-haired Qing Tianqi in surprise. No matter how he looked at it, he felt that Qing Tianqi looked like a young man of 27 or 28 years old.

Immediately, he figured out something and sighed.

"Young man, it seems that you have been doing hard training in the mountains, eating and sleeping outdoors until now. Although you have achieved astonishing achievements now, excessive hard work has also made your hair turn gray prematurely and you look a little older. It is probably the result of long-term overwork and malnutrition. I have heard of such examples before."

"No matter what, I deeply admire your perseverance! However, I still need to pay more attention to my health in the future! By the way, what's your name?"

"Thank you for your concern, senior. My name is Xuanyuan Zhantian!"

"Xuanyuan Zhantian, twenty years old, reached the pinnacle of the fourth level of Fire Element Dzogchen! good! good! He is indeed a rare talent. Your talent should be comparable to Ji Tianling, but you practice harder than Ji Tianling, so your cultivation level is higher!"

At that moment, the old man also logged in Qingtian Qi's information one by one, and finally gave Qingtian Qi a silver token..

Chapter 2677

Qing Tianqi happily accepted the silver order and was even more happy in his heart.

"Very good! This time I finally passed the age test!"

At this time, what did the old man think about and asked Qingtian Ling

"Ji Tianling, you just said you had something to ask for advice. What exactly was it?"

"senior! The junior wants to ask, what if this silver order is accidentally lost?"

"You can come to my place to re-apply. I have your portrait information here when you registered."

"So that's it, junior, thank you senior for telling me this!"

Immediately, Qingtian and Qi resigned to the old man and left happily.....

Of course, the happiest thing was that the sky was clear. This registration test allowed him to successfully get over the issue of age.

However, when the two of them just walked out of the door, another person walked towards them, and it turned out to be Lord Qingtian.

Seeing Qingtian Jun coming over, Qingtian and Qi looked at each other unexpectedly, but did not take the initiative to say hello.

Qingtianjun did not recognize the two of them. He just glanced at them and entered the registration office without stopping.

It turned out that Qingtianjun had never seen Qingtianqi and Qingtianling look like them after face-changing surgery, so he didn't recognize them.

After Qingtianjun entered, Qingtian and Qi also left the registration office.

On the way, Qingtian Ling whispered:

"It seems that guy didn't recognize us. Should we say hello to him? Anyway, he will know our identities sooner or later. Maybe we can hide it in front of others, but it is unlikely that we can hide it from him in front of him."

Hearing this, Qingtian Qi nodded slightly.

He knew that Qingtian Ling was right. Now that the Qinglong true blood in their bodies is activated, there is an extremely subtle feeling among the Qing family's children.

When the time comes, as long as Qingtianjun uses his heart, After distinguishing, one can still sense that the two of them are descendants of the Qing family, and then they will naturally know who they are.

Qing Tianqi pondered for a while, and then said

"good! Let's say hello to him. I have something to ask him for help!"

The two of them were waiting in the square for Qingtianjun to come out.

After about a cup of tea, Qingtianjun's registration was completed. After Qingtianjun came out, he left the square directly.

Qingtian and Qi followed quietly.

Half an hour later, in a remote and deserted alley, Qingtianjun was running quickly.

Suddenly, he stopped and slowly turned his head. His handsome face was already full of murderous intent.

"who?! Get out now!"

Qingtian Jun shouted sternly at the street behind him.

Following this stern shout, the figures of two young warriors turned out from the end of the street.

It was Qingtian Qi and Qingtian Ling who followed them. When they saw Qingtian Qi, they
Appearing, Qingtianjun shouted coldly with a hostile look on his face.

"Who are you two? Why follow it?"

Qing Tianqi stepped forward with a smile and said

"hehe!! Unexpectedly, Brother Tianjun doesn't even recognize us."

After hearing this, Lord Qingtian's face changed slightly. He looked at Qingtian and Qi carefully several times. After a while, he put away his hostility and regained his gloomy look.

"It turns out to be the young patriarch!"

Qingtianjun knew from Qingtianqi's voice and the unique feeling of the Qing family's children that the white-haired young man in front of him was Qingtianqi, and the person next to Qingtianqi was naturally Qingtianling.

"Brother Tianjun, I wonder when you arrived in Kyoto?"

"Arrived yesterday! Young Patriarch, do you have a problem with me?"

Qingtianjun's tone was very calm.

But Qingtianqi didn't care and still smiled.....

"Brother Tianjun, I have something to ask you for help. I wonder if you are willing to help me?"

After saying this, Qingtian Qi looked at Qingtian Jun with some worry. He was not sure whether the other party would agree..

Chapter 2678

Qingtianjun frowned and pondered for a while before saying

"Say it!"

Hearing this, Qingtian Qi felt relieved and smiled.

"I can't talk about the things I want Brother Tianjun to help me with yet, because some things haven't developed as I expected. However, Brother Tianjun may take action in the next few days. As for the specific time, it depends on the development of the situation. I will notify Brother Tianjun separately in the meantime. I don't know where Brother Tianjun lives now. How can I find you?"

Qingtianjun was silent for a while and said

"I live in the 'Fuyun' Inn in Dongcheng District. I have a 'message talisman' here. If you have anything to do, crush it and I will be able to sense your location and I will come to you when the time comes."

At that moment, Lord Qingtian took out a 'message talisman' from his body and threw it to Qingtian Qi.

Qingtian Qi immediately put it away.

"Then thank you very much for Brother Tianjun's willingness to help!"

"You're welcome, young patriarch. If nothing happens, I'll leave first!"

Immediately, Lord Qingtian was about to turn around and leave.

Suddenly, he thought of something, turned back and said to Qingtian seriously

"For our Qing family, I can help you, even sacrifice my own life! But I also ask you two to hide your identities, so as not to implicate the family! Take care of yourselves!"

After saying this, Qingtian Jun left without looking back.

Looking at Qingtian Jun's leaving figure, Qingtian Qi and Qingtian Qi fell silent.

After a while, Qingtian Ling sighed.

"No matter what, he is also a descendant of the Qing family! In his heart, maybe the Qing family is more important than anything else. Maybe I was a little biased against him before."

Qingtian Qi also said: "He is a proud person. Maybe he can't lower his head about some things, but his feelings for the family are the same as you and me, maybe deeper than us. After all, that's where he was born and raised.. Okay, Brother Tianling, it's time for us to go back."

"Um!"

At that moment, the two of them rushed to Yuelai Inn.

On the way, Qing Tianling suddenly thought of something and said with some worry

"Tianqi, I'm still worried about something in my heart"

"whats the matter? Qing

Tianling thought for a while before saying: "Tianqi, although you have changed your appearance and age, and you have hidden Qiuqiu, your identity as a fifth-line warrior is too conspicuous." After all, five-element warriors, like true spiritual bodies, are rare to see for hundreds of years!"

"At the same time, two five-element warriors appeared at once. The possibility of this is extremely small and almost impossible! You said that you are now participating in the rookie conference as a fifth-line warrior. No matter what you say, you will arouse the suspicion of the Long family!"

Qingtian Qi showed a deep smile.

"I know this. My purpose is to make them doubt me and make them suspect that Xuanyuan Zhantian is probably Qin Chuan, because I have to figure out one thing first."

"whats the matter?"

"I want to find out whether the people in the Long family know about my existence? After all, I was previously worried that the identity of 'Qin Chuan' had been known to the Long family. It was all my own assumptions and has not been confirmed."

"Because at the beginning we only knew that the ancestor of the Yan family, Yan Li, escaped, I don't know if there were any other members of the other four families who escaped. Does Yanli, who escaped, know about my existence? I am not sure as well. All this can only be discovered through this incident"

"If the Long family already knew about the existence of 'Qinchuan', then they should have found out that 'Wang Tianqi' was Qinchuan, and they should also know that Qinchuan was a 'Five Elements Warrior'. Knowing that Qin Chuan is a fifth-line warrior, they will doubt Xuanyuan Zhantian. This is why I want to fight Chu Hongjian today. I just want them to doubt me."

Hearing this, Qingtian Ling was shocked. Suddenly, he understood something and said in surprise

"It turns out that you had a battle with Chu Hongjian today because you deliberately exposed your identity as a fifth-line warrior in front of many people? Is this the only way to attract the attention of the Long family as quickly as possible?"..

"good! Qingtianqi smiled and nodded.

"Although many of the young warriors present at the time did not realize that I was a fifth-level warrior, Chu Hongjian, Liu Qi, Zhou Yanzhi and the others should have noticed. After all, their knowledge was different from those of second- and third-level warriors. The most important thing is that Long Xiaotian also saw it. I think this matter will soon spread to the inside of the Long family!"

"Tianqi, aren't you just like a moth flying into a flame and sending it to your door?"

Qing Tianqi laughed again:"No!" Even if the Long family knows my identity as a fifth-line warrior, they are not sure that I am that Qin Chuan. After all, my current appearance is very different from Qin Chuan. They must have gone to the registration office first to check my relevant information."

"When they found out that my age was twenty, which did not match Qin Chuan's age, they became even more uncertain that I was Qin Chuan. At that time, they will send people to test me first. If the test fails, they will send people to monitor my whereabouts until I show my mistakes."

"Of course, everything I said is based on their knowledge of the existence of 'Qinchuan'. If the Long family didn't know about the existence of 'Qinchuan', they wouldn't have taken any action."

"Then it doesn't matter whether I am a fifth-series warrior or not. Even Qiuqiu can accompany me to participate in the rookie conference. However, based on my speculation, it is more likely that the Long family knows about the existence of 'Qinchuan'. After all, I made a lot of noise in the four forbidden areas that day. Yan Li should know something about me."

"Tianqi, since you think that the Long family is likely to know the existence of 'Qinchuan', why do you still do this? Isn't this dangerous? If we are really being monitored by the Long family, we will be in danger."

Qing Tianqi's mouth showed a sly smile.

"good! It's very dangerous! But it's also my best chance to clear myself from suspicion."

"How do you say this?"

Qingtian Ling had a look of confusion on his face. Qingtian Qi smiled meaningfully.

"Brother Tianling, if I have been under the surveillance of the Long family, there will be no movement. But at the same time, Wang Tianqi appeared in another place in the city. Do you think people from the Long family will still doubt me?"

"They must think that I am who I am, and Wang Tianqi is Wang Tianqi. It is impossible for Wang Tianqi to appear in two different places at the same time. Ha ha!! By then, my suspicion will be completely cleared."

"yes! In this case, you can completely get rid of suspicion, but there is only one of you, how can you be separated into two places at the same time and appear in two different places? Qing

Tianqi smiled slightly:"I have my own way!" Let's not talk about this for now. Will anyone from the Long family come over in the next few days? I want to confirm first whether the people of the Long family know about the existence of 'Qinchuan'."

At that moment, the two stopped talking and went straight back to the inn.

After returning to the inn, Qingtian Qi found that the inn had been tidied up again, and the group of young warriors were still sitting inside, and it was still as lively as at noon.

It seemed like noon The fights happened all the time.

Qingtian and Qi were also hungry all day, so they ordered some wine and food to eat and drink.

They originally wanted to have a hearty meal, but they didn't expect that since they entered the store, there were people in the hall. It became elegant and silent.

The young warriors and shopkeepers looked at Qingtian and Qi with awe in their eyes, as if they did not dare to make loud noises in the hall for fear of angering the two of them.

This made the two of them very unhappy. At ease.

Now the two hurriedly filled their stomachs and returned to their rooms.

As soon as they returned to their rooms, Qingtian Qi closed the door and continued to practice.

In this way, the day passed in the blink of an eye.

On the second day, In a hall of the Intelligence Department of the Kyoto Military Aircraft Camp,

Long Cangyu was sitting at his desk working.

At this time, a middle-aged man came in and submitted a secret report to him.

When Long Cangyu After reading the secret report, Cang Yu's face immediately showed a look of surprise..

Chapter 2680

When Long Cangyu read the secret report, his face immediately showed a look of surprise.

"I just asked people from the Intelligence Department to search the city for any information about the five-series warriors yesterday. I didn't expect the results to come out today. Well done! By the way, have you collected this portrait of Xuanyuan Zhantian?"

"Report sir, not yet! The subordinates only found out that Xuanyuan Zhantian was a warrior of the fifth line. Yesterday, he fought Chu Hongjian, a disciple of the Chu family, at the entrance of the Yuelai Inn. He actually fought against him for seventy or eighty rounds without losing. As for Xuanyuan Zhantian's appearance, I heard people say he has white hair and is in his mid-twenties."

"Twenty-seven or eighty years old? Or a head of white hair?"

Long Cangyu couldn't help frowning, and then asked again

"Did he join forces with a pet to fight Chu Hongjian for seventy or eighty rounds without losing?"

"Report sir! According to the investigation by his subordinates, Xuanyuan Zhantian has no pets!"

Hearing this, Long Cangyu was immediately shocked.

"No pets? Could it be that he could fight Chu Hongjian for seventy or eighty rounds relying only on his own strength? How can this be?! Judging from the previous information, it seems that Qin Chuan is not that strong!"

"Could it be that Qin Chuan has hidden strength in Crimson Gold City? Or is this Xuanyuan Zhantian not Qin Chuan at all? By the way, go and get a copy of Xuanyuan Zhantian's portrait. Even if he changes his appearance, there should be traces to follow."

"Sir, I have one more thing to report!"

"What's up?"

"Sir, the battle between Xuanyuan Zhantian and Chu Hongjian was stopped by Captain Long Xiaotian, the captain of the sixth flying team."

"So that kid Xiaotian has met Xuanyuan Zhantian. That would be better. Go and call Xiao Tian and Xiao Qi over."

"yes! The subordinate resigned first!"

Immediately, the middle-aged man withdrew respectfully.

Not long after, Long Xiaotian and Zhou Qishao were both called into the hall.

Long Cangyu first told Long Xiaotian about Qin Chuan, and then took out Qin Chuan's portrait.
Long Xiaotian identification

"Xiao Tian! Does Xuanyuan Zhantian look like Qin Chuan in this portrait?"

Long Xiaotian only glanced at it and shook his head.

"Uncle Sixteen, they are completely two different people, they don't look alike at all! Uncle Sixteen, I don't think they are necessarily the same person."

As soon as he said this, Zhou Qishao on the side said anxiously

"Sir, I don't think you should doubt Xuanyuan Zhantian just because he doesn't look like Qin Chuan. Xuanyuan Zhantian is a fifth-line warrior, and Qin Chuan is also a fifth-line warrior. These five-line warriors have been rare to see for hundreds of years. How could two of them appear at the same time?"

"This possibility is so small that it almost does not exist. Therefore, my subordinates believe that Xuanyuan Zhantian is very suspicious. Maybe he just used a special method to change his appearance so that we can't recognize him. In fact, he is Qin Chuan."

"Um! I think so too!"

Long Cangyu nodded slightly.

"However, this can only be speculation. Although the possibility of two fifth-line warriors appearing at the same time is extremely small, it is not impossible. We cannot think that Xuanyuan Zhantian is Qin Chuan just because he is a warrior of the fifth element. This is a bit arbitrary."

"If the wrong person is arrested afterwards, it will only make Xuanyuan Zhantian feel cold. After all, he is also an extremely talented person. It would be unwise if our Dakun Country lost an extremely talented person because of this incident."

"Sir, what should we do? Is it because of this that we no longer doubt Xuanyuan Zhantian?"

Zhou Qishao asked anxiously

"of course not! What I mean is that when there is no conclusive evidence to prove that Xuanyuan Zhantian, we must not alert the snake. We must first prove whether he is Qin Chuan. In fact, it is not difficult to prove whether he is Qin Chuan"

"No matter how a person's appearance changes, his age cannot be changed. If this Xuanyuan Zhantian has already registered for the Rookie Conference, his age information should be recorded.

As long as we call up Xuanyuan Zhantian's registration information, we will naturally know his true age. If he was fifteen years old, he would undoubtedly be Qin Chuan!"

"That's right! Why didn't I think of that?"

Zhou Qishao's eyes suddenly lit up, and he said with admiration

"Your Excellency is indeed very pleased! The subordinates have learned a lesson!"..
