

God level 27

Chapter 27

The eighth floor is like a huge exhibition hall.

As soon as Qin Feng entered, he found that it was very lively with dozens of people inside.

Most of these people are one-star elemental masters.

Only a handful of people are masters of physical strength.

Elementalists, who are usually rare to see, are very common here.

At this moment, these people were surrounding black metal boxes of various sizes, looking at them carefully, as if they were selecting goods.

"What are these metal boxes for?", Qin Feng asked curiously.

The female shopping guide smiled and said: "Sir, these metal boxes are specially made by our Yuanqi Pavilion. They can block any detection. Even if the seven-star elemental master comes, he can't see what's inside."

"Inside these boxes are placed low-grade Yuanwu, with values ranging from 100 million to 500 million, and some high-quality products can reach 600 million."

Qin Feng suddenly said: "Then these people are buying boxes." As for the quality of Yuanwu you can buy, it all depends on luck. Is this the so-called gambling on Yuan Wu?

The beautiful shopping guide smiled playfully: "Young Master is so smart!" That's it!"

"How are these boxes sold?"

"No matter how big or small, there are 130 million."

At this moment, a fat elementalist picked out a rectangular box and walked to the counter.

"I want to buy this!"

As soon as these words came out, many people gathered around curiously.

Everyone wanted to see the fat man's luck.

Qin Feng also watched curiously.

Behind the counter, he saw an old man with white hair sitting, his face full of There are wrinkles, but those cloudy eyes hide a sparkle.

This old man is actually a two-star elemental master.

Two-star elemental masters usually have the title of viscount. They are genuine nobles and a big shot in the eyes of ordinary people.

Here, he is just a person. Manager.

The old man picked up the purple clay teapot at hand, took a leisurely sip of tea, and looked at the fat man expressionlessly.

"130 million! Pay first, open the box later!"

The old man pointed to the bank card number on the counter.

"good!"

The fat man took out his mobile phone and started to transfer money with a look of pain on his face. Even his hands were shaking a little.

130 million!

This is his entire net worth!

I think he has been a one-star early elemental master for more than ten years before he accumulated so much. Money.

He just wanted to buy a decent Yuanwu to improve his strength.

But how could he buy a good Yuanwu with 130 million?

So, he took a gamble.

In case, he could get a Yuanwu with an amplitude of 70%. Yuan Wu, he has become very powerful.

Moreover, such Yuan Wu greatly improves his strength, and can even allow him to cross levels to fight against one-star mid-level elemental masters.

"Ding! 130 million coins have been collected!"

The pleasant electronic female voice for payment was announced.

The transfer was successful by Fatty Elementalist

"Lord Viscount, I have paid the money, please help me open the box."

The fat man looked at the old man with a flattering look.

"Um!"The old man put down the teapot leisurely and pressed the button under the metal box with one finger.

Ding!

Fluorescence lit up on one side of the metal box, and there was an electronic touch screen there.

The old man's index finger pressed on the touch screen

"Ding! Fingerprint authentication successful! The secret box is open!"

Click~!

There was a soft sound, and the metal box was opened.

The fat elementalist couldn't wait to open the lid of the box, and saw a long, fiery red knife lying inside, exuding a faint fluctuation of fire energy.

This was a piece of fire Department of Yuanwu.

The fat man nervously picked up the metal plate next to the long knife.

There was a detailed introduction to the long knife.

Everyone also gathered around to look.

I saw that the metal plate read: Flame Knife, Fire Department Yuanwu, Attack Type , the fire attack amplitude is 50%

"What? Only 50%! "

The fat man's face became particularly ugly.

An amplitude of 50% is the worst Yuanwu, and its general market price is worth 100 million.

Everyone shook their heads

"hehe!! This knife is worth at most 100 million. Fatty, you lost 30 million this time!"

"Ha ha!! Fatty, you are so unlucky!"

There were some in the crowd who were sympathetic, and some who were gloating.

The fat man was about to cry, and he stepped aside dejectedly.

At this time, another middle-aged man came to the counter holding a square box.

"Lord Viscount, I want to buy this box!"

"pay first!"The old man was too lazy to talk nonsense.

The middle-aged man quickly completed the payment.

The old man opened the box.

But this time, there was an exclamation from the crowd.

"Earth Spirit Shield, defense amplitude 76%! Damn it! You are rich!"

"76% amplitude!! Tsk tsk!! This is worth at least 300 million!"

Everyone looked at the middle-aged man with envy.

"Ha ha!! luck! It's all luck!"

The middle-aged man was so happy that he could hardly close his mouth.

Seeing this, Qin Feng was also moved.

He only had 200 million coins, and he couldn't buy any good Yuanwu at all.

But ordinary Yuanwu is against The improvement in strength is limited.

If he can get a good Yuanwu, he will be more sure of passing the third level god-level challenge.

Therefore, he wants to try his luck and take a gamble.

Thinking of this, Qin Feng looked at those metal boxes Go.

When his eyes fell on a metal box, a light screen automatically popped up in his eyes.

"Huh! Turns out my system can be probed!"

Qin Feng opened his eyes wide in surprise.
