

## God level 28

### Chapter 28

"Huh! It turns out my system can be probed!"

Qin Feng opened his eyes wide in surprise.

It felt so good.

Qin Feng walked forward quietly, preparing to detect those metal boxes.

"Brother, do you really want to bet on Yuan Wu?", Chu Chu grabbed Qin Feng's clothes.

It's a 130 million bet!

If you buy a low-quality Yuanwu and go back, you will lose 30 million!

Qin Feng smiled and touched Chu Chu's head: "Little girl, Don't worry, I know what's going on!"

He knew that the little girl was worried that she would suffer a loss.

"oh!"

Chu Chu obediently let go of Qin Feng's clothes, but her big eyes were full of worry.

She didn't want to see her brother suffer. But

Qin Feng was confident and continued to look at the second box, with light screens popping up in his eyes again.

Item name: Ice gun

Category: Ice elemental weapon Grade

: Low grade

Efficacy: Amplitude ice attack power 50%.

This one is too bad, he doesn't like it.

Continue to the next box.

Item name: Kuangsand War Armor

Category: Earth Department of Yuanwu

Grade: Low grade

Efficacy: Amplitude defense 73%.

Not bad!

This piece is barely worth 300 million.

What a pity! It did not meet Qin Feng's heart's requirements.

He continued to detect one by one.

In the hall, there were large and small metal boxes. There were more than two hundred.

Qin Feng naturally wanted to detect them all.

He only had 200 million coins and only had one chance to buy them, so he naturally wanted to choose the best one.

Before he knew it, half an hour had passed.

Qin Feng collected all the coins. I have finished reading the boxes.

In just such a period of time, seven or eight people bought the boxes.

Without exception, they were all low-quality Yuanwu with 50% amplitude.

There were a lot of angry curses at the counter.

"What a fool! What kind of bad luck is this? Another low-quality elemental weapon, and it's of the wood type. I'm a water elemental master!"

"Why! Mine is also of poor quality, and it makes me cry if I talk about it too much!"

"Everyone! Everyone!! Selling firearms and weapons! The market price is 100 million, but now it's sold for 90 million! Does anyone want it? Grass! If no one buys it, I will go bankrupt!"

Seeing such a scene, Chu Chu became even more worried.

"Brother, let's go! There should be nothing good in these boxes!"

Chu Chu saw that those who bet on Yuanwu all lost money, and always felt that it was unreliable.

"Little girl, there are still good things. You'll find out in a moment."

Qin Feng smiled and walked towards a square box.

He had already made his choice.

Picking up the box, he walked towards the counter.

Chu Chu followed him obediently. When he arrived at the counter, Qin Feng Put down the box

"I want to buy this!"

As soon as these words came out, many gamblers looked over curiously.

Unexpectedly, the person betting on Yuan Wu this time was actually a young man. Someone who has money to gamble at such a young age must be a child of a wealthy family.

Everyone couldn't help but look more. Qin Feng didn't dare to look down upon him.

The old man behind the counter also put down the teapot, looked at Qin Feng carefully, and then pointed to the bank card number on the counter.

"Old rules! Transfer money first!"

Qin Feng didn't talk nonsense. He took out his mobile phone and started transferring money.

In this era, there is no QR code, no online payment, and no Taobao.

Qin Feng always feels that mobile banking is not easy to use.

Sometimes, he thinks, wait for him When I have the ability in the future, I will create a QR code and make online payments. It will definitely be very popular.

Two minutes later, 130 million coins were notified to be transferred out.

The old man also unlocked the password of the box.

Onlookers gathered around curiously.

Chu Chu clenched her little hands nervously. As soon as the box was opened, Qin Feng opened the lid slowly.

He saw a pair of exquisite combat boots lying in the box. The workmanship was very fine and exuded a strong wind energy.

"Huh! It's actually from the wind element!"

Many people exclaimed.

Generally speaking, wind elemental weapons are rarer and more expensive.

Even the worst 50% of the amplitude can sell for about 120 million

"Let's see what the amplitude is?"

Many people looked at the metal plate next to the boots.

Everyone was shocked when they saw it.

They saw the words written on the metal: Wind Shadow Boots, wind auxiliary type, speed increase of 100%

"Oh My God! Amplitude 100%! ! "

"I go! It's still 100% true!"

"Tsk ts! Young man, you have made a fortune! This is worth at least 500 million!"

"What 500 million? This is a rare wind-type auxiliary type. It's hard to sell for even 600 million."

"yes! This should be the best low-grade Yuanwu I have ever seen!"

Everyone looked envious.

"Brother, you are great!", Chu Chu was almost overjoyed.

"Boy, what a blessing!", the old man at the counter showed a kind smile.

He rarely praises others.

But I have to admit that this young man is really lucky.

The first time he came to gamble on Yuanwu, he won a top-notch product.

No one has such luck. Got it

"The old gentleman has won the prize! Just luck!"

Qin Feng smiled slightly, but he felt secretly happy.

It was so satisfying to buy a high-quality product worth 600 million for 130 million.

Moreover, with these Wind Shadow Boots, his speed doubled and his strength greatly increased.

In fact, Qin Feng He found that among the more than 200 boxes, only two had 100% amplitude.

Unfortunately, he didn't have enough money, so he could only take the one he needed most first, and leave the remaining one until he got the money.

A few minutes later , Qin Feng took Chu Chu and left happily.

The gamblers looked at their leaving figures, some were envious, and some were jealous.

"Fuck! I don't believe it, my luck is not as good as a kid! I'll buy another one to try!"

"Damn! I'll buy one too!"

Everyone was excited by Qin Feng's good luck and went to buy it one after another.

Another gambling frenzy started.

A few minutes later, Qin Feng brother and sister went downstairs happily.

This trip was fruitful.

Chu Chu was very happy all the way.

Anyway, as long as her brother gets benefits, she is happier than herself.

Even the beautiful shopping guide who accompanied them all the way is happy.

"Young Master, your luck is so good! High-quality products like Fengying boots may not appear once a year!"

The tone of the beautiful shopping guide was full of envy.

"It seems that my luck is indeed good! By the way, do those medium and large base cities have gambling Yuanwu like this?", Qin Feng asked casually

"Yes, I have! I heard that in some super base cities, even high-grade Yuanwu can participate in gambling! However, those cities are too far away from us, and there are many monsters along the way, making it difficult to get there."

"interesting!"

Qin Feng smiled softly, his heart full of expectations.

He has the system in hand. It would be good to go to the big base city to find some treasures in the future.....
