

God level 2821

Chapter 2821

Afterwards, Teng Xiaoshan fell from the sky, and everything that followed was left to Wu Qianxue to take charge.

I saw Wu Qianxue shouting to Qingtian Qi below: "Tianqi, I will integrate the Xuanwu True Blood extracted from Luo Guiling into your body. Are you ready?"

"The boy is ready!"

At this moment, Wu Qianxue no longer hesitated and pressed her palm on the Xuanwu Pearl.

The Xuanwu Pearl immediately roared and shot out a red light, which shot directly to Qingtian Qi below, pouring directly in from Qingtian Qi's head.

Qingtian Qi His body suddenly shook, and then he felt a majestic and friendly energy pouring in from the top of his head, and then quickly spread to his whole body and blended into his blood.

Qingtian Qi knew that that strange energy was Xuanwu True Blood.

Not long after, Wu Qianxue integrated all the Xuanwu True Blood extracted from Luo Guiling's body into Qingtian Qi's body.

Qingtian Qi also vaguely felt that his sense of the surrounding water energy was becoming more and more sensitive. , obviously his water talent has improved unknowingly.

When Qingtian Qi integrated the Xuanwu true blood, Wu Qianxue's voice came from the sky again

"Tianqi, your true blood has been completed. Now I am starting to activate this formation to activate your true blood. You must be well equipped!"

After saying this, Wu Qianxue sent out thirty-six seals in succession, and punched them into the thirty-six rune pillars.

For a moment, the thirty-six rune pillars roared in unison, and they all emitted light. The large formation finally started to activate.

As the formation started, thirty-six rune pillars shot out thirty-six rays of black light and merged into the Xuanwu beads. The huge Xuanwu shadow emerging in the sky became clearer.

Then, Wu Qianxue shouted again: "Qi!"

I saw her pressing the Xuanwu Pearl with one hand again, and the Xuanwu Pearl once again poured a red light into Qingtian Qi's head. Immediately, a bloody Xuanwu flew out of Qingtian Qi's body, circled and roared in the air, and then returned to Qingtian Qi's body again..

As soon as the bloody Xuanwu returned to Qingtian Qi's body, Qingtian Qi's body shook violently, his whole body emitted a strong light, and then his whole body slowly floated.

At the same time, Qingtian Qi's momentum increased rapidly..

Seeing such a scene, the disciples of the Wu family became excited.

"Ha ha! The Xuanwu true blood in little brother Tianqi's body has finally been activated!"

"yes! I wonder what level Brother Tianqi's water qualifications can reach?"

"He has just fused the Xuanwu true blood in Luo Guiling's body, so his qualifications should be quite high, right? I wonder if I can achieve the qualifications of a water pseudo-spirit?"

"Um! Little brother Tianqi is a successor of the same bloodline, and there are other energies in his body, so his water system can only reach the water system pseudo-spirit body at the highest level. I just don't know if he can reach the pseudo-spirit body?"

At this moment, everyone looked expectantly at Qingtian Qi in the sky. They all wanted to know how far Qingtian Qi's qualifications would be improved? It didn't take long for

Qingtian Qi's aura to reach a peak. His water energy cultivation level It also climbed to an incredible level.

At this moment, a dazzling black halo began to appear behind Qingtian Qi's head.

The so-called platinum black water, that black aura naturally represented Qingtian Qi's qualifications.

But everyone said As soon as they saw the black halo appear, they became very nervous, because they knew that to what extent Qingtian Qi's water qualifications would be improved, they would have an answer soon.

In fact, not to mention that the disciples of the Wu family were nervous at this time, even Qing Yanhai and Teng Xiaoshan also watched nervously.

After all, both of them attach great importance to Qingtian Qi. The better Qingtian Qi's water talent, the greater the potential of Qingtian Qi. What will happen to them among the five ancient tribes? This is naturally a great thing.

Especially for Teng Xiaoshan, he has always regarded Qingtian Qi as his successor, and naturally hopes that Qingtian Qi's potential will be as strong as possible.

But at this moment, in the air, Qingtian Qi's brain After that, eight haloes appeared in succession.

Seeing this, everyone immediately became nervous and looked forward to it even more.

They were looking forward to the ninth halo.

The eight haloes represent the top genius qualifications, and the nine haloes represent Pseudo-spiritual body qualification. I saw eight haloes appearing in the sky, and then stopped.

After about ten breaths, the outline of a halo appeared again around the eighth halo.

Gradually, the ninth halo appeared. The outline of the halo became clearer and clearer, and finally it emitted the same dazzling light as the other eight halos.

Seeing this, everyone below showed great joy...

Chapter 2822

Teng Xiaoshan even touched his beard and smiled happily: "Haha! This little guy Tianqi really did not disappoint me. His water talent has really been improved to the level of pseudo-spirit body. It seems that God will never destroy me." Clan, there are people after our five clans!"

Qing Yanhai was also surprised and said: "This kid from Tianqi is so outstanding in the three systems of water, wood and fire. In the future, he will definitely be able to cultivate the energy of these three systems to the eighth level. By then, even if he If you can't become a ninth-level warrior, you can still be the first person below the ninth level!"

"Ha ha!! That's true! Besides, this kid also has a magical weapon. As long as his divine weapon is released, as an eighth-level warrior of the third series and combined with the divine weapon, he is fully qualified to be on par with ninth-level warriors."

Just as Teng Xiaoshan and Qing Yanhai were discussing excitedly.

Qingtian Qi had fallen back to the ground, and the Xuanwu true blood activation ceremony had ended.

But at this moment, Qingtian Qi's face was full of ecstasy.

Because, not only His water element talent has been upgraded to the level of pseudo-spiritual body, and even his water element energy has been greatly improved.

It turns out that his water element energy has been upgraded from the fourth level to the peak of the fourth level Dzogchen in one fell swoop, which is five years away from the water element. The level is only half a step away. How can this not make him ecstatic?

Of course, Qingtian Qi's water energy and water talent can be improved to such an extent, all thanks to the 'Blood Sacrifice Technique'.

If not for Luo Guiling made a sacrifice, and it was impossible for him to make such a big progress.

Now, after Qingtian Qi's water energy broke through to the peak of the fourth level of great perfection, his overall strength has been greatly improved again, and his basic combat power has reached 10,000 people. His power has actually reached the lower limit of a fifth-level warrior.

What's even more frightening is that what Qingtian Qi has improved is his basic combat effectiveness.

And as his basic combat effectiveness increases significantly, his speed will also greatly increase.

According to Qingtian Qi's own estimate is that his current speed can be regarded as the top among fifth-level Dzogchen warriors.

At this moment, Qingtian Qi was secretly happy.

This time the harvest is really not small!

Although I haven't advanced to the level yet Level 5, but my basic combat power has reached the level of a Level 5 warrior.

And my speed is slightly faster than an ordinary Level 5 Dzogchen warrior. In addition, I have a top-quality spiritual weapon in my hand. Taken together, I My overall strength has completely reached the level of a fifth-level peak warrior. It is estimated that it is almost the same as the original Luo Changxiu. If I have the help of Qiuqiu, even if I meet a fifth-level Dzogchen warrior, I can still fight with him. He competed.

When he thought of Qiuqiu, Qingtianqi thought of another question.

By the way, Qiuqiu has fallen asleep now.

When it wakes up, its strength will definitely increase greatly.

Its strength cannot be as strong as before. Forget it.

As for whether it can advance to the top of the fifth level, it's hard to say.

However, Qiuqiu's strength is inevitable.

There is just one thing, when will Qiuqiu wake up?

It won't wait until I enter the ancient training It hasn't woken up yet?"

Thinking of this, Qing Tianqi couldn't help but feel a little troubled.

Because he had long discovered that as Qiuqiu's strength improved, Qiuqiu slept longer and longer, so his worries were not unreasonable.

However, Qingtian Qi is not very worried. Even if Qiuqiu cannot wake up temporarily, with his strength, he can barely protect himself even if he encounters a fifth-level Dzigchen warrior.

Now, what Qing Tianqi is most worried about is whether there will be a sixth-level warrior among those who enter the ancient training ground? If there is a sixth-level warrior, he will be very dangerous.

But Qingtian Qi was thinking about those things in his heart, and he had already stepped off the altar.

Qing Yanhai stepped forward to congratulate him first and said: "Tianqi, congratulations! This time your strength has greatly increased, and you have more to rely on when you go to the ancient training ground!"

As soon as he finished speaking, the Xuanwu Pearl that had just been Wu Qianxue fell from the sky after receiving it, and then said

"Although that is said, the ancient training ground is an extremely dangerous place. Even if a sixth-level warrior enters it, there will be no benefit. Tian Qi still needs to be extremely careful when entering it. Tian Qi, you must remember this!

Qing Tianqi said quickly: "Thank you, senior, for reminding me!"..

Chapter 2823

At this time, Wu Qianxue had already walked in front of everyone and suddenly said to Qing Yanhai: "Brother Yan Hai, I have something that I must tell you clearly in front of Tian Qi."

Qing Yanhai said in surprise: "What's the matter with you? Just say it!"

Wu Qianxue said immediately: "Brother Yan Hai, you also know that there have always been mutual marriages among the five races in ancient times."

"When most children of two races combine, the offspring will generally only inherit the blood inheritance of one of their parents. Only a very small number of people will inherit the blood inheritance of both parents. We call these few people the same blood inheritance. And Tianqi is the successor of the same bloodline. Qing Yanhai nodded and said,"

I've known this for a long time. I wonder what it has to do with what you said?"

Wu Qianxue did not answer directly, but continued: "After the children of our five clans get married, the descendants passed down have to judge which family they belong to, which is different from the world."

"People in the world are mainly based on the patriline, and all descendants belong to the patriline. However, in order to ensure the purity of the blood inheritance, our five clans judge the family affiliation based on the blood inheritance of the holy beast obtained by the descendants."

"For example, if a woman from our Wu family marries your Qing family, but the child she gives birth to only inherits the Xuanwu true blood, then this child will belong to our Wu family, and he will have the same surname as his mother. These are just for ordinary children of the five races."

"For blood successors, we judge his family affiliation based on his talent for inheriting the true blood of the holy beast. Which family with the strongest talent is considered his real family, and the other family can only count as half of him. family"

"Nowadays, Tianqi has a pseudo-spiritual qualification for the water element, but only a hidden spirit qualification for the wood element. Obviously, his inheritance of Xuanwu True Blood is higher than Qinglong True Blood"

"From this point of view, Tianqi should be a child of our Wu family, not a child of your Qing family. He can only be regarded as half a child of the Qing family. He should follow his mother's surname of 'Wu'."

After hearing what Wu Qianxue said, Qingtian Qi was stunned on the spot.

But Qing Yanhai was so angry that he rolled his eyes and said angrily: "I'm talking about the Wu family girl, what are you going to say? It turns out that you have gone around in this circle just to poach our Qing family! You clearly know that Tian Qi is the most outstanding disciple of the younger generation of our Qing family and the hope for the future of our Qing family. You actually want to recruit him to your Wu family. I will never agree to this!"

Wu Qianxue refused to give in and said: "Brother Yan Hai, I have no intention of poaching. What I said is well-founded. Those are the rules passed down by our five ancient tribes for thousands of years. Isn't it just my sudden whim?"

"Could it be that Brother Yan Hai wants to ignore the rules passed down by our five races? In fact, Brother Yan Hai doesn't have to worry about losing such an outstanding disciple as Tian Qi. After all, he still has the Qinglong true blood of your Qing family flowing in his body, and he can be regarded as half a descendant of the Qing family."

It turns out that Wu Qianxue saw that Qingtian Qi's water talent was a pseudo-spirit body, and she had an idea in her mind, and wanted to snatch Qingtian Qi away from the Qing family.

After all, a pseudo-spirit disciple is extremely rare, and it is possible to become a nine-year-old. Although the chance of being a martial artist is very small, it is still possible.

If Qingtian Qi can be won over to their Wu family, she will naturally be willing to do so.

However, after Wu Qianxue said those words, some quick-thinking Wu family disciples also immediately came forward to echo

"yes! My family head is right, Tianqi should be a descendant of our Wu family"

"Senior Yan Hai, this is the old rule of our five tribes. You can't break the rule today."

"Everyone, since little brother Tianqi is a child of our Wu family, shouldn't he be called Qingtianqi? According to seniority, he should be called Wu Xiaoqi"

"yes! yes! The name Wu Xiaoqi sounds much better than Qingtianqi!"

Qing Yanhai rolled his eyes in anger when he heard the words of a group of martial arts disciples..

Chapter 2824

Afterwards, Qing Yanhai said with a slight anger

"Wu family girl, if you want to snatch Tianqi away from our Qing family like this, it is a bit unethical, and it is absolutely impossible. Besides, the reason why Tianqi's water element talent is higher than that of the wood element is because of the effect of the blood sacrifice method. Otherwise, his water element talent would not be higher than that of the wood element."

But she didn't want to, Wu Qianxue continued to argue:"No matter what Qingtian Qi was like before, his current talent in the water system is higher than that in the wood system. This is an undeniable fact."

"In order to enable Tian Qi to achieve higher achievements in the future, let Tian Qi come to our Wu family. With the guidance of our Wu family, Tian Qi may be able to break through the water system to the ninth level in the future. For the sake of Tianqi's future, the younger sister should advise Brother Yanhai to let it go!"

"hehe!! Girl from the Wu family, your words are nice. On the surface, it is for Tianqi. I think it's more for your Wu family's own consideration, right?"

Wu Qianxue smiled and said:"My little sister does not deny this. But brother Yan Hai, you can't deny that Tianqi's talent in the water system is higher than that in the wood system. He must focus on practicing the water system, so Tianqi's entry into our Wu family is the most correct way."

"The younger sister knows that doing this will make Brother Yan Hai a little unwilling, but Brother Yan Hai, please consider for the future of Tianqi and the future of our five races, you should let it go!"

The corner of Qing Yanhai's mouth couldn't help but twitch, and then he rolled his eyes and suddenly asked: "Girl of the Wu family, you mean that Tianqi's focus on practicing the water element is more promising than practicing the wood element, so Tianqi is more suitable to join you. Wu family?"

"good!"

"But if in fact, Tianqi has a better future by practicing the wood element than the water element, then should he still stay in our Qing family? Hearing this

, Wu Qianxue hesitated for a while, and finally nodded: "Not bad!" If Tianqi has a better future in practicing wood element than water element, for the sake of Tianqi's future, I will let Tianqi enter the Qing family."

After hearing this, Qing Yanhai immediately laughed and said

"Girl from the Wu family, you said this yourself!"

"To tell you the truth, although Tianqi's wood talent is only a hidden spirit, his natal spiritual plant is the extremely rare wood spirit tree. In other words, after Tianqi reaches the sixth level, his wood talent is compared to The pseudo-spiritual body is slightly better, so Tianqi is more suitable to be a disciple of our Qing family, haha!!!"

After hearing this, Wu Qianxue's face changed drastically, and she couldn't believe it.

"Brother Yan Hai, are you kidding? My little sister heard that the 'Wood Spirit Tree' is an extremely rare thing. Is Tianqi's natal spiritual plant really the Wood Spirit Tree?"

Qing Yanhai felt relieved when he saw Wu Qianxue's shocked expression and smiled: "Girl from the Wu family, if you don't believe me, you can ask Tianqi directly or ask Senior Teng, they can both prove it."

As soon as he said this, Teng Xiaoshan immediately proved: "Qianxue, Yan Hai did not tell lies. Tianqi's natal spiritual plant is indeed the wood spirit tree."

Seeing Teng Xiaoshan personally come forward to prove it for him, Qing Yanhai was overjoyed and continued: "Girl of the Wu family, do you know that what I said is the truth? I think you should stop arguing with me. Tian Qi is a descendant of our Qing family."

After hearing these words, Wu Qianxue showed a look of disappointment on her face, but she was still a little unwilling and continued to quibble.

"Brother Yan Hai, there is one thing you must understand. No one knows whether the Wood Spirit Tree is that magical or not. Some of the information you and I have learned are just rumors."

"Maybe there is nothing magical about the Wood Spirit Tree at all. If that's the case, if you let Tianqi major in wood in your Qing family, it will delay his future."

"Of course, the little girl will not completely deny the role of the Wood Spirit Tree all of a sudden. I think it still has a little role, otherwise there would be no such rumors."

"From my point of view, it's better to do this! You and I have the same talent in the water and wood systems of Tian Qi. As for which family Tian Qi belongs to, we won't interfere and let him make his own choice, okay? After hearing these words

, Qing Yanhai immediately said angrily: "Girl of the Wu family, are you obviously quibbling?" ..

Chapter 2825

Unexpectedly, Wu Qianxue covered her mouth and smiled sweetly: "What? Does it mean that Brother Yan Hai doesn't have the confidence to let Tian Qi make his own choice? Do you also think that Tian Qi will not choose your Qing family?"

"snort! What did you say there? I believe in Tianqi. If Tianqi is given a choice, he will definitely choose our Qing family.

Seeing that Qing Yanhai had fallen into the trap, Wu Qianxue immediately said: "Okay!" Then it's settled, you and I should stop talking and let Tianqi make his own choice!"

"Tianqi, you can make your own choice now. Whether you want to be a descendant of the Qing family or a descendant of our Wu family, tell it today in front of Senior Teng. You don't have to worry about anyone threatening you!"

Hearing this, Qing Tianqi, who was involved, suddenly felt a big headache, and at the same time felt a little dumbfounded.

He never thought that he would become so popular and become a disciple that the Qing family and the Wu family competed for.

At this moment, Qingtian Qi looked at each other. Seeing Qing Yanhai's anxious eyes in front of him and Wu Qianxue's constantly hinting eyes, he suddenly felt that he was riding a tiger.

At this moment, the disciples of the Wu family who were watching on the side also deliberately pretended to have a discussion on their own.

"hehe!! What's good about the Qing family? Our Wu family is better! Our Wu family's water system is the most unpredictable!"

"yes! Water turns gas into mist, liquid into water, and solid into ice. It is the most unpredictable system among the five elements. It is also the system with the most martial arts among the five systems. It is much stronger than the wood system."

"That is! It is said that the highest good is like water. The strongest of the five elements is naturally the water element."

These Wu family disciples deliberately talked like this, naturally they wanted to disturb Qingtian Qi's mind and make Qingtian Qi choose to join their Wu family.

Qingtian Qi is a person with a clear mind, so he naturally knows what they are thinking.

However, deep down in Qing Tianqi's heart, he still regards himself as a descendant of the Qing family. If he is really asked to choose, he will still choose the Qing family.

However, he couldn't just say it, let alone say it himself.

Because if he said this, he would disappoint Wu Qianxue and break the hearts of all the martial arts disciples. This was not what he wanted to see.

At the moment, Qing Tianqi felt helpless and had no choice but to look at Teng Xiaoshan who was standing aside, asking for help.

Teng Xiaoshan was also an old man. He immediately understood Qing Tianqi's thoughts and stepped forward to smooth things over.

"Qianxue, please stop arguing, I'll just say something fair! Tianqi owns the Wood Spirit Tree, and his talent in the wood system will indeed be slightly higher than that of the water system in the future. As I see it, Tianqi is better off as a member of the Qing family."

"Of course, Tianqi also possesses the Xuanwu true blood of your Wu family. His identity as a half-disciple of the Wu family is undeniable, so you should stop fighting!"

Seeing Teng Xiaoshan come forward and say these words in person, Wu Qianxue immediately smiled helplessly and said: "Since the seniors have said so, what can the juniors say more?"

At this moment, the turmoil over the identity dispute ended.

Qing Yanhai and Qing Tianqi also secretly breathed a sigh of relief.

At this time, the disciples of the Wu family felt a little disappointed.

At this time, Teng Xiaoshan looked around. Everyone said again: "Okay! Everything in this forbidden area has been resolved. Let's do this, Qianxue, you take Tianqi and all the disciples of your Wu family and wait for us on the outskirts of Shenwu City."

"Yan Hai, you should kill the Luo family's children outside the forbidden area now. Remember to kill them all and leave no one alive. After you leave the forbidden area, I will collect all the seven spiritual weapons above the forbidden area. Those are seven top-quality spiritual weapons! It would be best to reward them to the outstanding children of our five tribes."

Speaking of this, Teng Xiaoshan looked up at the seven top-quality spiritual weapons in the sky, and his face showed joy.

After all, top-quality spiritual weapons are extremely rare, and even Teng Xiaoshan couldn't bear to harvest seven top-quality spiritual weapons at once. There was a burst of secret joy in his heart.

After all, the resources of the five tribes were too scarce, and many outstanding disciples did not have any good weapons.

Teng Xiaoshan also saw it and was anxious in his heart.

But now, he has these seven top-quality spiritual weapons at once. , Teng Xiaoshan was naturally secretly happy.

Next, Qing Yanhai, Wu Qianxue and others took the order and left.

After Teng Xiaoshan, Qing Yanhai and others came out of the forbidden area, they began to collect the seven stars in the air. A top-notch spiritual weapon..

Chapter 2826

In a remote mountain forest on the outskirts of Shenwu.

Qingtian Qi and a group of martial arts disciples were waiting silently.

After Wu Qianxue settled everyone, she went to the city to meet Teng Xiaoshan and Qing Yanhai.

Just when everyone was getting a little anxious, Qing Tianqi suddenly raised his head and looked in the direction of Shenwu City.

Not long after, three figures appeared in that direction, flying rapidly towards him.

As soon as he saw the three figures, Qing Tianqi said happily: "Seniors of the Wu family, senior Teng and the others are back!"

At this time, the disciples of the Wu family realized that Teng Xiaoshan and the others were back.

At this moment, several clever young men of the Wu family were secretly shocked.

What shocked them was that Qingtian Qi was able to discover that Teng Xiaoshan and the others were back before them, which had to surprise them with Qingtian Qi's keenness.

Naturally, they didn't know that Qingtian Qi relied on Tian Ting's ability to judge.

Not long after, Teng Xiaoshan and the others flew to the gathering place and fell from the sky.

Qing Tianqi hurriedly went up to say hello to the three of them.

"Senior Teng, have all the affairs of the Luo family been settled? Qing

Tianqi asked respectfully

"Um! All done!"

Teng Xiaoshan smiled and nodded.

"This time not only did they destroy the Luo family, but they also harvested seven top-grade spiritual weapons. The harvest was pretty good."

"By the way, Tianqi, I know that you got a top-quality spiritual weapon from Luo Changxiu last time, called the 'Snowflake Hundred Battles Gun'. The Snowflake Hundred Battles Gun is Luo Changxiu's famous weapon. If you were in ancient times, If you use it at the training ground, you will definitely be recognized by the players from Dakun Country, and then some people will suspect that you killed Luo Changxiu."

"And today we destroyed the Luo family again. This matter is not a trivial matter, and it will probably reach Long Xing's ears soon. As long as Long Xing sends people to investigate, it is very likely that we, the five tribes, will be found to have done this."

"When the time comes, once he connects these two things, he will suspect that you are a descendant of our five races, so your Snowflake Hundred Battle Gun is still inconvenient to use in the ancient training ground."

After listening to Teng Xiaoshan's analysis, Qingtian Qi nodded and said: "Senior, in fact, I have already thought about this issue, so I only planned to use it in front of players from other countries at the beginning, and never thought about using it in front of players from Dakun Country. use."

Teng Xiaoshan smiled and said: "Tianqi, actually there is no need to go to such trouble." This time I have harvested seven top-quality spiritual weapons, and I will give you two of them. You can use them freely in front of everyone in the future without fear of others suspecting you, because these seven spiritual weapons have been sealed in Luo In the forbidden area, no one knew that they were from the Luo family. Hearing this

, Qing Tianqi was overjoyed: "Then junior, thank you senior!"

"Ha ha!!"

Teng Xiaoshan laughed heartily, then took out two long swords and handed them to Qingtian Qi.

The two long swords were exactly the same style. The swords were as bright as snow and as sharp as rainbows. At first sight, they felt that they were two different swords. It has a good sword, but the only difference is that one is engraved with a scorching sun and the other is engraved with a bright moon on the hilt.

When the blue sky saw the two long swords, they couldn't help but exclaimed in surprise: "Hey! Senior, these two long swords seem to be top-grade spiritual weapons of the gold system."

Teng Xiaoshan nodded and smiled: "Not bad! These two swords are both top-grade spiritual swords of the gold system. They are also the two best pieces among the seven top-grade spiritual weapons I got this time."

"You have to know that among all the best offensive spiritual weapons, the attack amplitude effect of the golden spiritual weapon is the greatest, so among the offensive spiritual weapons, the golden spiritual weapon is the best."

"To put it simply, the attack amplitude of this long sword is much stronger than that of the Snowflake Hundred Battles Spear. And since you are a fifth-element warrior, you can naturally use this gold-element spiritual weapon."

Hearing this, Qingtian Qi's heart moved, and he quickly injected vitality into the two swords in his hands to feel it.

With this feeling, Qingtian Qi was pleasantly surprised to find that the amplitude effect of these two gold spiritual swords had reached 100%, this suddenly made Qing Tianqi look overjoyed...

Chapter 2827

At that moment, Qingtian Qi thought secretly in his heart: "These two top-grade gold-type swords are indeed extraordinary. Their attack amplitude effect has reached 100%. So if I use this gold-type spiritual sword to attack, my basic combat power will be able to increase the amplitude." With the strength of 20,000 people!"

Thinking of this, Qing Tianqi was amazed in his heart.

You must know that the basic combat power of a fifth-level warrior is the minimum strength of 10,000 people; the peak combat power of the fifth-level warrior is 14,000; the fifth-level Dzogchen warrior is 20,000; the peak of the fifth-level Dzogchen is 25,000 The power of a thousand people.

The attack power amplitude of the Snowflake Baizhan Gun is 80%. After Qingtian Qi uses the amplitude, its basic attack power can reach the power of 18,000 people.

This kind of attack power is equivalent to the amplitude effect of a fifth-level peak warrior using an ordinary spiritual weapon.

An average fifth-level warrior will have an ordinary spiritual weapon in his hand.

In other words, after Qingtian Qi uses the Snowflake Hundred Battles Spear, its attack power is equivalent to that of a fifth-level peak warrior.

And if Qing Tianqi uses the top-grade gold spirit sword in his hand, his basic attack power can reach the strength of 20,000 people, which is slightly stronger than the attack power of an ordinary fifth-level peak warrior.

To put it simply, using the top-grade gold spiritual sword can make Qingtian Qi's attack power slightly stronger than that of an ordinary fifth-level peak warrior.

At this time, Teng Xiaoshan continued: "Tian Qi, look at the handles of these two gold-type top-grade spiritual swords. They have their names engraved on them. One is called 'Chasing the Sun' and the other is 'Chasing the Moon.'"

"This Sun-Chasing Moon Sword should be a matching pair of swords. Each of them is stronger than your Snowflake Hundred Battles Spear. When the two swords are combined, they are even stronger."

"I've thought about it, since you haven't learned marksmanship before, you shouldn't be comfortable using the 'Snowflake Hundred Battles Gun'. You are learning the distraction swordsmanship and are good at using two swords. This Sun-Chasing Moon Sword is given to you, which is perfect."

Hearing this, Qing Tianqi sighed in his heart and said with some anxiety: "Senior! This Sun-Chasing Moon-Chasing Sword is too valuable. As the saying goes, no reward will be given for no merit. This junior has already received enough favors from his seniors. If he accepts the Sun-Chasing Moon-Chasing Sword again, he will be a little unbearable! Teng

Xiaoshan frowned and comforted: "Tianqi, don't shirk the blame or be embarrassed." Not to mention that these swords are of the gold type. Among the four clansmen among us, you are the only one who can use them, and they are suitable for you to use."

"What's more important is that when you go to the ancient training ground this time, you bear the expectations of our five ancient races. But it is a very dangerous place. Only by trying to make you stronger can you have more chances to survive and fulfill the great trust that our five tribes place on you. Hearing this

, Qing Tianqi stopped being pretentious and said immediately: "In that case, I will accept it shamelessly.""

Actually, Qingtian Qi is also very satisfied with the Sun-Chasing Moon Sword.

Now that he has the Sun-Chasing Moon Sword in hand, Qingtian Qi is confident that his strength should have completely reached the level of Luo Changxiu.

At that moment, Qingtian Qi gathered He picked up the two swords, took out the Snowflake Hundred Battle Guns, and the two swords with flames and green patterns, handed them to Teng Xiaoshan, and said

"Senior Teng, this junior has the Sun Chasing Moon twin swords in hand. The Snowflake Hundred Battle Spear and the Flame Blue Pattern Sword are of no use anymore. It would be a waste to put them in the hands of juniors. Please give them to seniors and pass them on to other disciples in need!"

Teng Xiaoshan nodded and said with a smile: "Haha! good! It seems that your child still cares about the five races."

At that moment, Teng Xiaoshan put away all the spiritual weapons handed over by Qing Tian Qi.

Then, Teng Xiaoshan took out a green broad-backed giant sword and said to Qing Tian Qi: "Tian Qi, this giant sword is a sword. The top-quality spiritual weapon with a wooden handle is called Jumang Sword. You bring it to Tianjun!"

Qingtian Qi immediately put away the Jumang Sword.

Next, Teng Xiaoshan took out a narrow-edged long sword and said: "This long sword is called the Spring Water Sword. It is a top-quality water-based spiritual weapon. You can use it to Bring it to Xiaoyue!"

"The Mang Sword and the Spring Water Sword were both obtained by me in the forbidden area of the Luo family. You can transfer these two top-quality spiritual weapons to Tianjun and Xiaoyue so that their strength can be improved."

"The three of you are the most outstanding disciples of our five tribes. This time you are going to a dangerous place like the ancient training ground. There are only so many things that the family can do for the three of you. You can only rely on the three of you for the rest."

"yes! senior!"

At that moment, Qingtian Qi also put away the Spring Water Sword...

Chapter 2828

At this time, Teng Xiaoshan said with some regret: "What a pity! There are only offensive top-grade spiritual weapons in the Luo family's forbidden area, but there is no defensive top-grade spiritual

weapon. If there are any, I might as well give them to you. This will do the trick. Give you more ability to protect yourself in the ancient training ground"

"However, thinking about it, the best defensive spiritual weapons are much more valuable than the best offensive spiritual weapons. The Luo family is naturally reluctant to use the best defensive spiritual weapons as the base of the 'Little Void Illusion Realm', so this time I got it from the Luo Family's forbidden area. The seven top-grade spiritual weapons are all offensive top-grade spiritual weapons."

It turns out that spiritual weapons are divided into three categories, namely offensive spiritual weapons, defensive spiritual weapons, and auxiliary spiritual weapons.

The most valuable of them are auxiliary spiritual weapons, followed by defensive spiritual weapons, and finally offensive spiritual weapons.

However, Teng Xiaoshan sighed. After that, he said again:"Tianqi, this time our mission to Shenwu City has been completed, it's time for us to rush back to the Valley of Ten Thousand Flowers, and you still have to go to Kyoto to report.

It seems that you are about to say goodbye to us.

At this time, Wu Qianxue came to Qingtian Qi, took out a mandarin duck jade pendant and a letter and handed it to Qingtian Qi, saying:"Tianqi, this jade pendant and letter are my tokens and letters to Xiaoyue. Please give them to me." If you give her something, you will naturally gain her trust."

Qingtian Qi silently put away the jade pendant and the letter.

Afterwards, he said goodbye to Teng Xiaoshan and others, and embarked on the official road to Kyoto alone.

Teng Xiaoshan and others also left Shenwu City and headed towards Ten Thousand Flowers Valley.

But he said that after Qingtian Qi said goodbye to Teng Xiaoshan and others, he walked until he was a hundred miles away from Shenwu City.

Then, when he saw no one around, he used the Face Changing Technique and the Mad God Technique to transform himself into the appearance of Xuanyuan Zhantian. Then he continued on his way while thinking about the problem.

There are still seven days left before the deadline to report in Kyoto, which is enough time for me to rush to Kyoto.

I just don't know if Qiuqiu can wake up after seven days?

If I still can't wake up, I will have to fight alone in the early days of entering the ancient training ground.

Thinking of Qiuqiu who was still sleeping in the God of War space, Qing Tianqi felt helpless in his heart.

When will Qiuqiu wake up?

What kind of strength will he have when he wakes up?

He couldn't even predict it.

By the way, my fire energy and water energy have now reached the fourth level of Great Perfection, and I still have three Apocalypse Pills in my body.

Should I break through the fire energy to the fifth level first, or should I break through the water energy to the fifth level first?

But these two lines of vitality are not what I want to break through!

Thinking of this problem, Qing Tianqi couldn't help but feel a little worried.

Some time ago, Qingtian Qi was reluctant to refine the Apocalypse Pill and break through his fire energy to the fifth level. That was because he had his own plans in mind.

The plan in his mind was to break through his Mu Yuan Qi first.

Because as soon as his Mu Yuan Qi broke through to the fifth level, he naturally mastered the top martial art 'Psychic Technique', and then he signed a psychic ritual with Qiuqiu.

When the time comes, after Qingtian Qi and Qiuqiu merge together, their combat effectiveness will be greatly improved and will reach an incredible level.

This is much more useful than breaking through the fire energy to the fifth level.

It's a pity that Qingtian Qi's Mu Yuanqi cultivation is only the fourth level of Great Perfection, and has not yet reached the peak of the fourth level of Great Perfection. Naturally, it has not yet reached the bottleneck of breakthrough.

In fact, there was another reason why Qing Tianqi did not take Tianqi Pill immediately. That is, the Apocalypse Pill's chance of breakthrough is only 20%, and one Apocalypse Pill may not guarantee a successful breakthrough.

In order to increase the chance of breakthrough, most people will find a suitable environment to refine the Apocalypse Pill. Qing Tianqi has been on the road during this period, so he can't find a suitable environment to break through. This is why he has not refined the Apocalypse Pill for a long time.

After all, the Apocalypse Pill was too valuable, and Qingtian Qi didn't want to waste it. He had to be certain before refining it.

But now, what surprised Qing Tianqi was that before his fire energy could break through, his water energy had reached the peak of the fourth level of great perfection.

This makes it difficult for him to choose which series to break through first..

Chapter 2829

By the way, I think it's better to break through the water element first.

Because among the five elements, water can produce wood. If I can break through the water energy to the fifth level in one fell swoop, then due to the influence of water's ability to generate wood, my progress in cultivating the wood energy should be accelerated a lot.

In this case, my Mu Yuan Qi can reach the peak of the fourth level of Dzogchen as soon as possible.

At that time, I can rely on the remaining Apocalypse Pill to break through the Mu Yuan Qi to the fifth level in one fell swoop.

At that time, if I merge with Qiuqiu again, my strength will be greatly improved.

Thinking of this, Qingtian Qi had a plan in mind.

He decided to break through his water energy to the fifth level first.

Four days later, Qingtian Qi finally arrived in Kyoto.

After arriving in Kyoto, Qingtian Qi heard that a very sensational thing had happened in Kyoto in the past month.

That thing is that Zong Tianjun, who was originally ranked 18th on the rookie list, has broken through to the fifth level and launched a challenge to Qin Zhongyu, who is 12th on the rookie list.

In the end, Zong Tianjun succeeded in the challenge and replaced Qin Zhongyu's position, becoming the twelfth rookie.

In fact, that Zongtianjun was none other than Qingtianjun, and Zongtianjun was just his pseudonym for participating in the rookie conference.

However, after Qingtian Qi arrived in Kyoto, he quickly found Qingtian Jun at Yuelai Inn.

Yuelai Inn, in a guest room.

Qingtian Qi handed over Jumang Sword to Qingtianjun.

After Lord Qingtian got the Jumang Sword, he was very happy.

At that moment, Qingtian Qi told Qingtianjun all the tasks arranged by Wu Xiaoyue and Teng Xiaoshan.

After listening to this, Mr. Qingtian was naturally very excited.

"Tian Qi, I didn't expect that the Wu family has returned to our five clans, so now it's the Bai family that has not been found. If we can find the Bai family, then our five ancient tribes can reunite!"

"yes!"

Qingtian Qi also nodded slightly.

"As long as we can find the Bai family and the Bai family's inherited artifacts, then Senior Teng can establish the 'True Five Elements Illusion World' for our five clans. We five tribes don't have to worry about the Holy Lord's pursuit."

Hearing this, Lord Qingtian frowned worriedly and said, "It's been more than half a year now, and there's only less than a year and a half left until Holy Master comes from overseas."

"In the meantime, I don't know if there will be any surprises? If the Holy Lord uses special methods to arrive early, then our five tribes will face annihilation again. This time it may be real annihilation."

"Brother Tianjun's concern is warranted. At present, we can only hope that things will develop in a normal direction. As for our five tribes, it is best to find the Bai family within the remaining year. That will also give our five tribes more time to breathe and prepare."

Qingtianjun also sighed: "Hey! It seems that can only be the case. It's just that now we don't even have any news about the Bai family, which makes people sad just thinking about it. Forget it, let's not talk about the Bai family for now, let's just say that this time we enter the ancient training ground, we must try our best to collect more Nine Yuan Fruits"

"Each additional Nine-Yuan Fruit collected will allow our five tribes to refine one more Nine-Yuan Pill. This will be of great help to our five tribes in improving their strength in the future!"

"yes! Qingtian

Qi also nodded and said

"The next step for our five tribes is to seek revenge from Long Xing, Nangong Yao, and Chu Tiannan. Not to mention that these three people are all ninth-level warriors, and Long Xing is even the peak ninth-level warrior."

"Let's just say that the combined strength of the descendants of these three people is much stronger than the descendants of my four tribes. Our four races now urgently need to improve our overall strength. Entering the ancient training ground this time is a great opportunity and a great turning point for our five ancient races."

"Um!"

Qingtianjun nodded in thought, and then said

"By the way, Tianqi! I see that your water and fire vitality has reached the fourth level of Great Perfection. You can use the Apocalypse Pill to break through the bottleneck and advance to the fifth level. There are still three days before we enter the palace to report. Why don't you break through one of the series in these three days! Qing

Tianqi shook his head and said:"Now that we can't find a suitable environment to break through, the chance of success is very low." If I can't break through one of the series after taking three Apocalypse Pills in a row, then the gain outweighs the loss. In this case, it is better to enter the ancient training ground to break through"

"Do you want to enter the ancient training ground to break through? It's an extremely dangerous place there."

Qingtianjun showed a look of surprise.

"good! The ancient training ground is indeed very dangerous, but it is also the best place to break through the bottleneck. I think Brother Tianjun has also heard that in ancient times, the concentration of the five elements of vitality on the mainland was extremely strong, which is said to be dozens of times that of today."

"If my prediction is correct, the concentration of the five elements vitality in the ancient training ground will be dozens of times that of the outside world. If so, it would be a good place to break through the bottleneck"

"Listening to what you said, it is indeed true. The ancient training ground is indeed a good place to break through bottlenecks."..

Chapter 2830

At that moment, Lord Qingtian stopped trying to dissuade him.

Afterwards, the two discussed a few more words.

Qingtian Qi gave the "Ten Thousand Treasures Illustrated Book" to Qingtianjun and asked him to read it first.

Qingtian Qi himself began to refine the remaining Jinti tree sap.

In this regard, the two waited for the report three days later.

At the same time, in a secret room in the Long Family Palace.

In the secret room, there was a small rune array, and in the center of the rune array was a young man in his mid-twenties sitting cross-legged.

A middle-aged man was suspended above the young man's head.

In fact, that young man was none other than Long Xiaotian, the most outstanding disciple of this generation of the Long family.

And that middle-aged man is Long Xing, the leader of Dakun Kingdom.

At this moment, Long Xing launched a large formation with the Seal Seal Technique with one hand, and pressed Long Xiaotian's Heavenly Spirit Cover with the other hand, forcefully pouring vitality into it.

I saw that the entire formation was emitting a dazzling red light, and the light was rotating at high speed around the formation, making a "buzzing" earthquake sound.

Suddenly, Long Xing shouted low: "Change the sky! Change the body! Pass!"

Following Long Xing's low shout, an extremely majestic fire energy came out of Long Xing's hand and was forcibly poured into Long Xing. The top of the sky.

Long Xiaotian's whole body was immediately shaken, and his face showed a twisted look of pain.

Then, his aura began to increase sharply.

It didn't take long for Long Xiaotian's aura to build up to a peak, and then he suddenly spoke and roared to the sky, and the pain on his face also dissipated.

At this time, Long Xing took back the hand on Long Xiaotian's head, fell from the air, and the entire formation stopped running.

Long Xiaotian also slowly opened his eyes, his face full of surprise. It turned out that his cultivation level had actually reached the peak of the fifth level of Dzogchen.

At that moment, Long Xiaotian plopped down and knelt down in front of Long Xiaotian, and said in a respectful tone: "Xiaotian, thank you, ancestor, for your help!"

Long Xing narrowed his eyes slightly, looked at him and said nothing, and then fell silent after a long while. The voice said: "Xiaotian, do you know why I am willing to waste my true energy to help you forcefully break through to the peak of fifth level Dzogchen with the help of this 'shifting the sky and changing the element' formation?" At this point, Long Xiaotian thought nervously for a while before he answered carefully: "The ancestor was worried that Xiaotian was too weak and would not be able to protect himself in that ancient training ground. In order to make Xiaotian more The ability to protect oneself helped Xiaotian break through to the fifth level of Dzogchen."

Unexpectedly, Long Xing was noncommittal after hearing Long Xiaotian's answer.

Then, he slowly said:"Xiaotian, you can say that. Since the ancient training ground was discovered, every time it was opened, we Long family disciples entered, but none of them came back alive, so we have no idea what is inside. What kind of situation, ancestor, I can only know from the mouths of the players who came back alive from my country. It is still unclear whether it is what others said."

"However, my ancestor has always suspected that someone is hiding something from me, especially a certain person. He thinks he is doing some tricks behind my back, but the master of the country doesn't know yet, hum!"

"Let's not talk about that person. This time I will not hesitate to consume my true energy to help you improve your cultivation, just to let you find out the truth and try to come back alive to tell me everything."

"Ancestor, what should Xiaotian do?"

Long Xing pondered for a while and said:"When you enter the ancient training ground this time, you mainly pay attention to two people. These two people are also players from our Dakun Country. As for snatching the Nine Yuan Fruit, you don't have to worry about it. Hearing this

, Long Xiaotian immediately showed surprise, and then asked respectfully:"Ancestor, which two people do you want Xiaotian to keep an eye on?"

Long Xing pondered for a while and said,"It's Lin Quan and Xuanyuan Zhantian!""

"Why are there two of them? Ancestor, these two people don't seem to be very powerful! Why are you so wary of the two of them?"

Long Xing smiled coldly:"The one I have to be wary of is not the two of them, but Qing Emperor Aomori."

Hearing this, Long Xiaotian was horrified and looked at Long Xing with a shocked face.

Then he suddenly realized:"Ancestor, you just said that someone did not tell you the truth and was making small moves behind your back. Could it be that the person you are talking about is Qingdi?"

"good!"...
