

God level 2831

Chapter 2831

Long Xing looked deeply into the distance with his eyes

"Qingdi also entered the ancient training ground six hundred years ago. At that time, his cultivation level was only the fifth level of Dzogchen Peak, and his talent was just a pseudo-spiritual body. But since he came out of the ancient training ground alive, his cultivation has improved by leaps and bounds, and he has broken through to the ninth level in just a few hundred years. Don't you think it's a little strange?"

"yes! This is indeed strange. I think Qingdi must have had some adventure inside, that's why he broke through to the ninth level so smoothly."

Long Xing nodded slowly:"Not bad! He must have had some adventures there, and they were great adventures. But what the adventure was, I have also asked him privately, but he kept silent, or he was just thinking about it and didn't want to tell it. That's all"

"But since he came out of the ancient training ground, he seemed to be very interested in the ancient training ground. Every time the ancient training ground was opened, he took the initiative to invite Ying to lead the team, and also secretly inserted some of his own people into it. What do you think he wants to do?"

Hearing this, Long Xiaotian opened his mouth wide in surprise. After a while, he was a little unsure and said

"Ancestor, according to Xiaotian's guess, there must be a treasure hidden in that ancient training ground that even Qing Emperor's heart would be moved by. The treasure should have been found the last time he entered it, but he was unable to take it out last time. And now he can't enter it personally, so he can only borrow the hands of others to bring what he wants out of the ancient training ground."

Long Xing smiled and said:"You are right in guessing, I think so too. I just don't know what kind of treasure can make Aomori's heart flutter. However, for him to spend so much effort on that thing, it must not be an ordinary treasure."

"Judging from the rookie conference, Aomori has contacts with Xuanyuan Zhantian and Lin Quan, and Aomori once helped Xuanyuan Zhantian improve his Mu Yuanqi cultivation."

"Xuanyuan Zhantian and Lin Quan are both casual cultivators. Judging from all these factors, I speculate that Aomori must have promised something to them. He must have wanted to use their hands to get what he wanted. Want something"

"Therefore, the task I give you, ancestor, is to secretly follow Xuanyuan Zhantian and Lin Quan, find out what treasure they are after, and then kill those two people and seize the treasure. Of course, if necessary, you can capture one of them alive, force him to tell the truth and then silence him."

Long Xiaotian immediately replied:"Ancestor, don't worry! Xiaotian will definitely complete this task successfully!"

Hearing this, Long Xing laughed with satisfaction and said:"Haha!! That's good!"

"By the way, Xiaotian! In addition to keeping an eye on Xuanyuan Zhantian and Lin Quan, your biggest task is to come back alive. Although your strength is pretty good among the other players, it is hard to say whether you can come back alive."

"Because the ancient training ground was originally a place where the gods selected new disciples. Legend has it that in ancient times, the gods would summon a group of outstanding young warriors under the age of thirty from all over the continent every once in a while, and let them go through life and death tests in the ancient training ground. Only those who survived in the end could be considered the true warriors of the gods. new disciple"

"To put it simply, the ancient training ground was actually designed for sixth-level warriors. Because the vitality of heaven and earth was very strong in ancient times, it was much easier for warriors to practice than it is now. Among the younger generation, many outstanding talents can reach the sixth level."

"Unlike today, it is almost impossible to practice to the sixth level before the age of thirty."

"However, even a sixth-level warrior cannot guarantee that he can escape 100%, and at most he only has an 80% chance of survival. As for a fifth-level warrior, a 30% chance of survival would be pretty good. In order to bring you back alive, I will also give you some top-quality spiritual weapons for self-defense."

Speaking of this, Long Xing waved his hand casually, and three things appeared in the palm of his hand.

The first one was the 'Red Breast Guard', which exuded a red light like a flame.

The second one was a pair of red combat boots..The third item was a metal doll about one foot tall.

At that moment, Long Xing introduced them one by one...

Chapter 2832

At the moment, Long Xing introduced them one by one.

"Xiaotian, you already have a top-quality offensive spiritual weapon, but you lack a top-quality defensive spiritual weapon. This red breast mirror is actually an excellent defensive weapon. Its name is: Flame Armor. As long as you activate the activation seal, it can turn into a set of fiery red armor to protect your whole body"

"This second combat boot, called the Flame Combat Boot, is an extremely rare and top-quality auxiliary spiritual weapon. Wearing it can increase your movement speed by 50%"

"This third item is also a top-quality auxiliary spiritual weapon. It is the most precious of the three items. It is called the 'God-possessed puppet'."

Speaking of this, Long Xing briefly pressed the seal, and the metal doll sensed it, and its figure skyrocketed, instantly transforming into a silver-armored warrior the size of an adult, with a silver sword in his hand.

From its appearance, it looks lifelike, like a real person, but the aura it exudes is extremely terrifying, reaching the level of the peak of the fifth level of Dzogchen.

Seeing this, Long Xiaotian on the side couldn't help but widen his eyes in horror.

Long Xiaotian smiled slightly and continued to explain:"This god-possessed puppet is a top-grade gold-type spiritual weapon. Its body is extremely hard and can be said to be invulnerable. In fact, it

is a puppet spiritual weapon that requires seven gold-type weapons of the same level. The evil beast's inner elixir serves as energy so that it can be driven"

"I have put seven fifth-level Dzogchen Peak ferocious beast inner elixirs into it, so its aura has now reached the level of the fifth-level Dzogchen Peak, but its real strength should be equivalent to that of two fifth-level Dzogchen Peak warriors. Strength, it can be said that it will be your strongest weapon"

"Of course, your current cultivation is at the fifth level of Dzogchen Peak, so you can only control the puppets at the fifth level of Dzogchen Peak. In the future, if you can breakthrough to the sixth level, you can replace the seven fifth-level inner elixirs inside with the sixth-level inner elixir, and its strength will also be increased to the sixth level."

"This spiritual weapon is extremely practical, and even some semi-divine weapons may not be able to match it."

Hearing this, Long Xiaotian was overjoyed.

Long Xiaotian continued:"With the help of these three spiritual weapons, you will be invincible among fifth-level warriors. Except for sixth-level warriors, no one can What will happen to you"

"According to my estimation, your overall strength should be equivalent to the combined strength of four fifth-level Dzogchen pinnacle warriors. Even if you face a sixth-level warrior, you still have a chance to escape. Your chance of surviving from the ancient training ground can also be increased to 60%."

At that moment, Long Xiaotian said excitedly:"Thank you, ancestor, for the reward!! By the way, Ancestor, if Xuanyuan Zhantian and Lin Quan are both members of the Qing Emperor, if they separate, who should I follow first? After all, I am only one person.

Long Xiaotian pondered for a while and said,"You should focus on following Xuanyuan Zhantian!" I think Qingdi is very concerned about Xuanyuan Zhantian. Maybe Xuanyuan Zhantian is his real secret chess piece. He once personally helped Xuanyuan Zhantian improve his cultivation, and worked hard to get Xuanyuan Zhantian into the top ten rookies."

"On the contrary, he didn't have much contact with Lin Quan. Maybe he contacted Lin Quan to distract me."

"Ancestor, Xiaotian understands!"

"good! It's good that you understand. In fact, I have always asked you to learn ancient writing just for this day. After all, the ancient training ground is an ancient ruin. The writings in ancient times are the same as those in ancient times."

"You have learned ancient writing, which should be of great help to you. I don't think you understand my painstaking efforts until today, right?"

Hearing this, Long Xiaotian's eyes once again showed horror...

Chapter 2833

At the same time, in a remote mountain forest on the outskirts of Kyoto.

A very handsome man stood with his hands behind his back, looking at the mountains and forests ahead.

This man is none other than Qingdi Aomori.

At this moment, a young man in green clothes emerged from the depths of the forest, walked respectfully behind the Qing Emperor, and stood aside with his head lowered.

"You came!"

Qingdi didn't look back and said softly.

"Um! Qing Quan has met his ancestor!"

The young man bowed respectfully to Qing Emperor.

If Qing Tianqi were present, he would be surprised to find that Qing Quan is none other than Lin Quan, who is in the top ten of the rookie list.

It turns out that Lin Quan is not a casual cultivator. Warrior, but the descendant of Qing Emperor.

At this time, Qing Emperor said: "Qing Quan, Long Xing is a very suspicious person. He must have long suspected that I had discovered something in the ancient training ground, and was worried that I had secretly interfered with something. People enter the ancient training ground.

In order to reduce Long Xing's suspicion, I have been training you secretly and asked you to seal your cultivation to lower Long Xing's vigilance. Otherwise, with your fifth-level Dzogchen cultivation, the first place in this rookie competition should go to you. all"

"Ancestor, Qingquan understands your painstaking efforts!"

"Just understand! This time, your purpose of entering the ancient training ground is to enter the pantheon of gods and obtain the 'Wood God Pill'. With that Wood God Pill, your wood talent can be upgraded to a true spiritual body. At that time, you can be like me and spend hundreds of years to enter the ninth level."

"Back then, it was because I got a 'Wood God Pill' that I transformed my aptitude into a true spiritual body, which allowed me to successfully enter the ninth level."

"However, there are only two Wood God Pills in the temples, and I got one six hundred years ago. As for the other one, I didn't have the strength to take it away at the time, so I can only rely on you this time. If you succeed, then our Qing family will have two ninth-level warriors in the future, and we will be able to escape from Long Xing's control and establish our own country of the Qing family."

After hearing this, Lin Quan was still a little worried and said: "Ancestor, Lin Quan is worried that his strength will not reach the last level of the temple. If you can't enter the last level of the temple, it will be impossible to get the 'Wood God Pill'.

Qingdi nodded and said, "I have already thought about this." In order to improve your strength, I have prepared two top-quality spiritual weapons for you. In addition, you are good at psychics and have your own psychic beast. Your overall strength should exceed the level of a fifth-level Dzogchen peak warrior."

"Of course, all this may not be enough, so I also found an assistant for you."

Hearing this, Lin Quan showed surprise on his face.

"Ancestor, who is the assistant you are looking for for me? Qing

Di smiled coldly and said, "The assistant I'm looking for for you is Xuanyuan Zhantian." The condition I made to him at the beginning was that if he could successfully pass my test, I would accept him as a disciple. I think he is a casual martial artist, and he also wants to be my disciple. It seems that he is very tempted."

"The test for him this time is to let him break into the last level of the temple with you. With him sharing some of the dangers with you, your chances of entering the last level will be much greater."

Hearing this, Lin Quan frowned and said: "Ancestor, in my opinion, Xuanyuan Zhantian's strength is too weak, and I'm afraid it won't be of much use.

Qingdi sneered: "I deliberately found you a weaker assistant." If your assistant is too strong, you won't be able to control him, and you're afraid that in the end, he will turn against you, which would be bad."

"After all, the matter of the Wood God Pill is of great importance and must not be known to outsiders. After he helps you enter the last level, just kill him and silence him.

Lin Quan said indifferently: "The strength of Xuanyuan Zhantian is too weak, and he can barely reach the level of a fifth-level warrior." It would not be difficult for me to kill him and silence him. But with his strength, I'm afraid he won't be able to help me share any danger. If his strength can reach the peak of the fifth level, then he can still be of some use.

Qingdi nodded and said, "I have already thought about this." This time he entered the top ten rookies, didn't he get an 'Apocalypse Pill'? If my prediction is correct, he will probably choose to break through his fire energy at the ancient training ground"

"After all, his fire energy has reached the peak of the fourth level of Dzogchen. As long as his fire energy breaks through to the fifth level, as a fifth-line warrior, his overall strength should reach the peak of the fifth level."

"What if his breakthrough fails?"

Lin Quan couldn't help but be a little worried...

Chapter 2834

Qingdi smiled and said: "You entered the top ten rookies this time, didn't you also get an 'Apocalypse Pill'? You gave me the Tianqi Pill and I will hand it over to Xuanyuan Zhantian. With the help of two Apocalypse Pills, In the environment of the ancient training ground, he should have an 80% chance of succeeding in breaking through."

Hearing this, Lin Quan's eyes lit up and he said happily: "That's true! If that kid can succeed in breaking through, he will go to the temples this time. It can also help share some dangers. It's a pity that I have to give the Apocalypse Pill to such an outsider."

When he said this, Lin Quan sounded a little unhappy.

Qing Di lectured: "Qing Quan, what we do is also a kind of game. For the future glory of our Lin family, what does this small contribution count? Besides, Xuanyuan Zhantian is bound to die. With an Apocalypse Pill, It's worth exchanging his life."

After hearing this, Lin Quan nodded repeatedly and said: "Yes! After the matter is completed, Xuanyuan Zhantian must be silenced. After all, the 'Wood God Pill' is not a trivial matter, it can make anyone Wood warriors below level nine are crazy about it"

"They will even pay any price to get the 'Wood God Pill'. After all, it is a magic pill that can make wood warriors reach the ninth level. It is not something that we mortals can refine, and only the ancient gods can refine it. ability. Who can not be moved by such a magical elixir?"

Qingdi smiled proudly and said, "It's good that you know." I have been hiding this secret for six hundred years, just not wanting outsiders to know. I don't think outsiders would have thought that there would be such a magical elixir hidden in the deepest part of the temple, haha!!"

"Okay, please give me the Qidan of that day. We should have less contact with each other to avoid Long Xing being too suspicious. Even if he is already suspicious, we must transfer the focus of his suspicion to Xuanyuan Zhantian, so that you will be safer. By the way, this time when you enter the ancient training ground, you must be careful about Long Xiaotian"

"yes! Ancestor!"

At that moment, Lin Quan handed the 'Apocalypse Pill' to Emperor Qing and left quietly.

Qingtian Qi, who was far away in the city, didn't know what happened here.

Three days passed before he knew it. It was finally time to report to the palace.

In the past three days, Qingtian Qi also refined a bottle of Jinti tree sap. His Jin Yuan Qi cultivation had also been greatly improved, and his Metal qualifications had also been slowly improved. It has not been promoted to medium qualifications.

However, the breakthrough of Jin Yuanqi and the improvement of qualifications still make Qingtian Qi secretly happy.

Because this gives him hope, he believes that if this continues, the gold qualifications will be upgraded to medium qualifications.

Gold qualifications The improvement of qualifications is of great significance to his future strength.

Because if he wants to transform into a warrior of the Wind and Thunder Twin Elephants, he must upgrade his gold qualifications to above the upper level.

Of course, in the past three days, there have been many changes in Kyoto. An extremely sensational event happened.

That is, the Luo family was wiped out in one day by a mysterious ninth-level warrior and two eighth-level warriors.

Regarding this incident, many people in Shenwu City saw it that day. The three of them flew into the air.

The news that the Luo family was exterminated was extremely sensational. When it reached Kyoto, the whole city was shocked.

You must know that the Luo family is one of the top families in Dakun Country and has a great status in Dakun Country.

Long Xing got the news After that, he was even more furious and immediately sent many people to Shenwu City to investigate the truth.

However, he said that this day was the day when the top ten rookies went to the palace to report. After Qingtian Qi entered the palace to report as promised, he was arranged to stay and waited. The other players gathered together.

On the first day of the report, except Luo Changxiu, the other nine players came as scheduled.

At this moment, everyone knew that something must have happened to Luo Changxiu, and more people thought , Luo Changxiu had already fallen in the genocide.

Long Xing had no choice but to order Long Jinghui to assign Nangong Hongjun, the eleventh rookie, as a substitute according to the rookie rankings.

As a result, they discovered that Nangong Hongjun He also disappeared, which made Long Xing secretly surprised. However, Long Xing had no time to investigate those trivial matters. After all, the ancient training ground was about to open, and players from all over the world were getting ready. At the moment,

Long Xing had to give up his position. Qingtianjun, who was ranked twelfth on the rookie list, came as a substitute.

In this way, Qingtianjun also successfully entered the ranks of players going to the ancient training ground.

At this point, the ten players from Dakun Country have gathered and everything is ready to go...

Chapter 2835

Dakun Country. A large school ground in the palace compound.

Long Xing and Qing Emperor stood side by side, looking calmly at the row of ten people in front of them.

Those ten people were the ten players sent by Dakun Kingdom to the ancient training ground this time, and Qingtian Qi and Qingtian Jun were naturally among them.

At this time, Long Xing smiled and touched the beard on his chin and said

"Everyone, this time you go to the Tianyuan Ancient Training Ground and you will face a test of life and death. Maybe most of you will not survive. Of course, dangers and opportunities coexist. The more dangerous the place, the greater the opportunities."

"Let me be honest with you, every time the contestants enter, less than one-third come back alive."

"However, as long as those who can come back alive, their cultivation has been greatly improved, and a very small number of people have even broken through to the sixth level. It was there that the Qing Emperor broke through to the sixth level."

After saying this, Long Xing looked at Qingdi with a smile.

Qingdi immediately understood and took a step forward.

"good! Before I entered the ancient training ground, my cultivation level was only the fifth level of Dzogchen Peak. When I came out, my cultivation level had broken through to the sixth level, and I also brought out many treasures from there."

"To put it simply, the ancient training ground is indeed an excellent place for training. You must cherish this great opportunity. As the Lord just said, dangers and opportunities coexist. The more dangerous the place, the greater the opportunities we will get."

After listening to Qing Emperor's words, many people became excited and wished they could immediately enter the ancient training ground to take risks.

At this time, Long Xing said again:"Everyone, you have heard what Qing Emperor said just now, and some other encouraging words, The owner of this country won't say much. Before leaving, the leader of this country repeated what he said before."

"This time when you go to the ancient training ground, all the other spiritual objects you get will be yours. As for the Nine Yuan Fruits you harvested, you can exchange them for one Nine Yuan Pill for every three Nine Yuan Fruits. If there are less than three, you can exchange them for one Nine Yuan Pill. , we will exchange it with you for other items"

"I think each of you wants to become a ninth-level warrior, right? Everyone wants to step into the pinnacle of martial arts, right? The leader of my country once said that there is such a rule in martial arts: the sooner a warrior enters the eighth level, the greater the chance of entering the ninth level, and this has nothing to do with qualifications."

"If you want to give yourself more opportunities to enter the ninth level, then strive to enter the eighth level as soon as possible. There is an opportunity in front of you right now, that is, try to collect a few more Nine Yuan Fruits and get a few more Nine Yuan Pills. With the help of the Nine Yuan Pills, you can step into the eighth level earlier."

"Okay, I won't say any more unnecessary words. After entering the ancient training ground this time, I hope you can unite. This time the team is led by Emperor Qing. If you have any questions, you can ask Emperor Qing."

After saying this, Long Xing turned to Aomori and smiled:"Aomori, the next thing will be left to you."

"good!"

Qingdi responded, walked forward and said with a smile.

"Everyone, do you have any questions?"

Everyone shook their heads, indicating that they had no doubts. Emperor Qing then smiled and said:"Since everyone has no doubts, let's set off now. This trip to Yuesheng Country is tens of thousands of miles away, so we'd better hurry up and get there as soon as possible! After saying this

, Qingdi made a seal with his hand and shouted:"Psychic space - now!""

With Qingdi's low shout, the space behind him suddenly shook, and then a dark space crack appeared, and a nine-tailed demon scorpion with a human face pattern on its back slowly crawled out of the space. It turned out that Qingdi The emperor used his psychic technique to release his own psychic beast from the psychic space.

The nine-tailed demon scorpion was a ferocious beast at the peak of the eighth-order Great Perfection. As soon as it came out of the psychic space, it exuded a violent aura. The expressions of Long Xiaotian and others changed slightly under the pressure, and they almost couldn't breathe...

Chapter 2836

At this time, Qing Emperor whispered a few words to the nine-tailed demon scorpion.

The nine-tailed demonic scorpion immediately swelled with the wind and turned into a giant shape that was hundreds of feet long.

The entire school grounds could hardly let go of its body, leaving Qing Tianqi and others dumbfounded.

Seeing everyone's shocked looks, Qingdi smiled gently and jumped onto the back of the nine-tailed demon scorpion.

However, Qingdi's body looked as small as an ant in front of the giant nine-tailed demon scorpion, and the contrast was extremely shocking.

At this time, Qingdi shouted to the contestants who had not yet woken up from the shock: "Come up quickly, we are about to set off!"

Only then did the contestants understand and jumped to the nine-tailed demon scorpion. on the back.

After all the players got up, the nine-tailed demon scorpion neighed before flying into the air.

It turns out that eighth-level ferocious beasts, like eighth-level warriors, can fly in the air.

Qing Emperor's natal psychic beast, the nine-tailed demon scorpion, is a ferocious beast at the peak of the eighth level of Great Perfection. Naturally, it can also fly in the air, and its flight speed is extremely fast, making it an excellent means of transportation.

But it was said that Qingdi controlled the nine-tailed demon scorpion and led all the players to appear. The overwhelming scene immediately shocked the entire Kyoto. At this moment, the entire Kyoto looked up to the sky and marveled.

Of course, a few people recognized the nine-tailed demon scorpion as the Qing Emperor's psychic beast, and immediately shouted excitedly.

Qing Emperor is a legend in the eyes of many people in Dakun Kingdom.

At this moment, Qingtian Qi and others officially rushed to the Forgotten Valley of Yuesheng Kingdom.

Calculated at normal speed, it will take nearly a month to reach the Forgotten Valley this time.

Therefore, in addition to normal supplies, everyone has to fly continuously in the air for about a month.

During this month, everyone had nothing to do but travel.

Of course, many players want to use this month to get to know each other, enhance their relationship through chatting, and secretly make an alliance agreement. Their purpose is to advance and retreat together in the ancient training ground. It is said that there is strength in numbers. to increase your chances of survival.

Qingtian Qi is naturally not interested in such an unstable alliance agreement.

Besides, he has two firm allies, Qingtianjun and Wu Xiaoyue, so he no longer needs to make concessions with others.

At the moment, Qingtian Qi used the time on the road to silently refine the sap of the Jinti tree.

Qingtianjun is also using this time to read the "Ten Thousand Treasures Illustrated Book".

In this way, Qingtian Qi spent half a month refining before finally refining all the Jinti tree sap.

As he expected, his gold talent was upgraded to a medium talent qualification, and his ability to absorb gold energy was several times faster than before.

However, another thing that makes Qing Tianqi secretly happy is that the sap of those Jinti trees not only improved his metal talent to a medium qualification, but also allowed his gold energy to break through to the level of third-level perfection. Qingtian Qi's comprehensive strength has improved again.

Today, Qingtian Qi's basic combat strength has slightly exceeded the strength of ten thousand people.

Although this kind of progress has little impact on Qingtian Qi's current strength, it is still an improvement to some extent.

After all, a journey of a thousand miles begins with a single step, and strength is accumulated slowly.

After refining the sap of the Jinti tree, Qingtian Qi began to read the 'Ten Thousand Treasures Illustrated Book' in the next moment.

Qingtianjun had already finished reading the 'Ten Thousand Treasures Illustrated Book' two days ago.

In the blink of an eye, another ten days have passed. Qingtian Qi has also finished reading the 'Ten Thousand Treasures Illustrated Book', and is not far from his destination, the Forgotten Valley.

But on this day, everyone rode the nine-tailed demon scorpion to the territory of Yuesheng Kingdom.

Qing Emperor suddenly called Qing Tianqi and Lin Quan, and the three of them started talking quietly to the side.

"Xuanyuan Zhantian, Lin Quan, we have now reached the territory of Yuesheng Kingdom. In just a few days, we'll reach Forgotten Valley"

"Last time, I told you two that I would like to choose one of you to be my disciple. However, when I choose a disciple, I look first at qualifications and secondly at luck. After all, if you want to become a ninth-level warrior, it will be difficult to succeed without luck."

"The purpose of recruiting disciples is to train a ninth-level warrior. I think the qualifications of both of you are just about adequate, and there's not much difference between them. Now is the time to test your luck. Which of you two has the stronger luck? I will accept whoever is stronger as my disciple. This is also the second and final test I give you."

After saying this, Qingdi took out two maps and gave them to the two of them...

Chapter 2837

Qing Tianqi took the map and felt a burst of doubt in his heart.

At this time, Qingdi explained:"The map I gave you two is to go to a place called the Temple of Gods. It contains both a map of the route to the temple and a map of the interior of the temple. This is what I accidentally did when I entered the ancient training ground. There are many treasures hidden in the temple. However, the most treasures are on the last floor."

Speaking of this, Qingdi paused for a while, and glanced at Qingtian Qi intentionally or unintentionally. He saw Qing Tianqi's shocked expression after hearing the news, and a smile appeared on his lips.

At the moment, Qingdi continued:"To enter the last level of the temple, it is impossible for one person to enter. The two of you must work together to enter. When you enter the last level, you will find that there are many in the last level. Room"

"In fact, there is the same treasure in every room, but everyone can only have one chance to choose a room. Once selected, it cannot be changed. After you enter the room and take the treasure, you will be automatically teleported out of the temple."

"Of course, these treasures are also good and bad. Whether the treasure you get is good or bad depends entirely on your own luck. Whoever gets the better treasure will have better luck, this is undeniable"

"After you two come out, I will use this to determine which of you has stronger luck and which one has weaker luck. I will accept him as a disciple if he is lucky. Do you two understand it?"

As soon as he said this, Lin Quan immediately said:"Senior, junior understands! Qingtian

Qi hesitated for a moment, then nodded and said,"Junior understands too!""

After hearing this, Qingdi nodded with satisfaction and said:"It's good that you understand. Well, Lin Quan, you go back first. I want to have a few words with Xuanyuan Zhantian."

"yes! senior!"

After Lin Quan left, Qing Emperor said in a deep voice:"Xuanyuan Zhantian, in fact, I want to accept you as my disciple. After all, you are a fifth-line warrior. If your wood element can luckily break through to the ninth level in the future, as a fifth element warrior, your strength will be stronger than that of an ordinary ninth level warrior."

"However, your current cultivation level is too weak. It is difficult to even protect yourself in the ancient training ground, let alone enter the last level of the temple to test your luck with Lin Quan. Therefore, the most urgent thing for you to do now is to break through yourself as soon as possible. The cultivation of the fire system has been advanced to the fifth level, giving oneself the ability to protect oneself. I wonder if you can take the Apocalypse Pill you got at the Rookie Conference?"

"Not taken yet! The junior wants to enter the ancient training ground before taking it."

Hearing this, Qingdi nodded and said:"You are right to do this. Refining the Apocalypse Pill in the ancient training ground has a greater chance of breakthrough. However, an Apocalypse Pill may not necessarily help you break through. Well, I happen to have another Apocalypse Pill here, and I'll give it to you too."

"With two Apocalypse Pills, you should be able to successfully break through the Fire Yuan Qi."

Then, Qing Emperor took out an Apocalypse Pill and gave it to Qingtian Qi.

Qingtian Qi was stunned for a moment, and then showed a look of surprise.

At that moment, he gave a few words of humility and accepted the Apocalypse Pill.

Although Qingtian Qi has three Apocalypse Pills, what he wants to break through is the vitality of the three systems of water, wood, and fire.

Not every Apocalypse Pill can guarantee that he can break through successfully. After all, there is a problem with the probability of breakthrough.

So for Qingtian Qi Generally speaking, the more Apocalypse Pills the better.

The Qing Emperor wanted to give him an Apocalypse Pill, so he naturally would not refuse.

Seeing Qing Tian Qi accept the Apocalypse Pill, the Qing Emperor smiled on his face, and then encouraged him After a few words, Qing Tianqi was sent away..

Chapter 2838

But after Qing Tianqi got the Apocalypse Pill, he continued to meditate and practice.

However, when he recalled everything Qingdi had done, he felt vaguely weird.

Senior Qingdi has always said that we will test who is stronger and who is weaker in terms of luck. Why do I feel like there is a big loophole in the method he said?

In fact, according to what Senior Qingdi said, just looking at who gets better treasures from the temples will have better luck. There is something wrong with this!

Is luck so easy to judge?

I can definitely bring out a treasure and say it was obtained from the gods of the gods, and he won't know whether it is true or false.

And what's even more strange is that he asked me and Lin Quan to join forces to enter the last level of the temple.

Why should I join forces with Lin Quan to go in?

In fact, I could completely ignore Lin Quan and let Brother Tianjun and Xiaoyue accompany me in.

Could it be that Senior Qingdi has his own plans in mind? Or am I thinking too much?

Qing Tianqi thought for a while and felt that he had no clue, so he simply stopped thinking about it and continued to meditate.

In the blink of an eye, another three days passed.

Qing Tianqi and the others finally arrived at their destination, the 'Forgotten Valley'.

When they arrived at the valley, Qingdi put away the nine-tailed demon scorpion and led a group of young strong men towards the depths of the valley.

When the group of people reached the bottom of the valley, someone had already arrived there first.

There were more than thirty people at the bottom of the valley, divided into seven or eight small groups, each occupying a small area, waiting for the gate to open.

These people are all ninth-level team leaders from Eastern League countries and players who have entered the ancient training ground.

However, these groups are not large in size.

The largest group only had one ninth-level warrior and six players.

According to the agreement between the Eastern Alliance countries, the number of places to enter the ancient training ground is strictly limited. The number of people selected by each country is based on the strength of each country.

If a country only has one ninth-level powerhouse in charge, only two players can be selected.

Dakun Country has five ninth-level experts, so it has ten places.

After all, Dakun Country is considered one of the great powers in Tianfeng Continent.

According to the standards of Tianfeng Continent, a country can be considered a big country if it has more than five ninth-level warriors.

Only a country with three or more ninth-level warriors can be considered a moderately powerful country.

The rest are all small countries.

Among the more than 20 countries in the entire Eastern Alliance, there are only two major countries, namely the Great Kun Kingdom and the Great Jin Kingdom.

The two sides have been fighting openly and secretly for many years to compete for the dominance of the Eastern Conference, and no one can do anything about the other.

Although Da Kun failed to become the only overlord of the Eastern Alliance, Da Kun's reputation resounded throughout the Eastern Alliance. Except for two countries, the rest of the countries were very afraid of Da Kun.

Among the two countries that are not afraid of Da Kun, one is Da Jin, which has been competing with Da Kun for dominance.

The other one is the strongest of the seven medium powers in the Eastern Alliance, the 'Northern Qin State'.

Northern Qin is the only country among the seven medium powers that has four ninth-level warriors, and it is also the only country that is qualified to become a great power.

Moreover, the Northern Qin State has always been ambitious and wants to form a three-legged alliance with the Great Kun State and the Great Jin State, and does not betray the face of the two powerful countries in many matters.

But he said that Emperor Qing led a group of Dakun players into the inner valley.

The goal of the group of more than ten people was huge, and it was obvious at first glance that a big country was stationed.

At that moment, everyone in the inner valley was in a commotion..

Chapter 2839

Many young players from small countries whispered softly, and when they looked at the players from Dakun Country, their faces could not help but show awe.

This is the natural feeling of awe that small countries have towards big countries.

Because the stronger a country is, the larger its territory will be.

The larger the territory, the more people there are.

The more people there are, the greater the chance of talented people emerging.

Therefore, any big country is more likely to produce some talented people, and the average strength of its players is stronger than that of small countries.

For players from small countries, they naturally think that players from big countries are very strong.

But when the players from the small countries saw the players from the Da Kun Kingdom entering the valley, they all whispered

"Look! Ten contestants came to their party. I wonder if they are from the Da Kun Kingdom or the Da Jin Kingdom?"

"I don't know this!"

Just when the young players were confused, several ninth-level warriors leading the team in the valley saw Aomori and stepped forward to say hello with a smile.

"Ha ha!! Brother Aomori, we meet again. You and I haven't seen each other for more than a hundred years"

"Brother Aomori, this time you will lead the team in Dakun Country!"

"yes! This time, Dakun Country was led by Qing. It's too early for you all to arrive. Qing has also seen you all here."

Seeing all the ninth-level powerhouses coming to say hello, Qing Emperor did not dare to neglect and stepped forward to return the greeting.

At this point, the young players from the small country finally knew that Qing Tianqi and the others were from the Great Kun Country.

Afterwards, Qing Tianqi came to say hello. The emperor and ten people from Qingtian Qi also chose an open space to rest and wait for the gate to open.

At this time, Qingtian Qi also had time to look at the players from all over the valley.

At the same time, the players from all over the world were also looking at them carefully. Players from Dakun Country.

Although players from all countries now live in peace, they become competitors after entering the ancient training ground, and they are enemies of life and death.

Therefore, it is very necessary to size up your opponents now and analyze their strength. The so-called knowing yourself and the enemy will ensure victory in any battle. After careful inspection by Qing Tianqi, they found that most of the more than thirty players from other countries were fifth-level warriors, and two of them were fifth-level Dzogchen warriors.

Only two of them were not fifth-level warriors..

Of those two people, one is a fourth-level Dzogchen Peak Thunder Elephant warrior, and the other is a fourth-level Dzogchen Peak warrior who has a fifth-level pet.

In the entire valley, including Qingtian Qi, there are only three of them who are not fifth-level. It can be seen that those who are qualified to enter the ancient training ground are definitely not weak.

Of course, while Qing Tianqi is sizing up players from other countries, players from other countries are also sizing up players from Dakun Country.

The most important thing is to attract players from other countries. The players are naturally paying attention to Long Xiaotian and Ye Jingyu.

Even Qingtian Lord has attracted everyone's attention.

But no one is willing to take a second look at Qingtian Qi. In their view, no matter how strong the fourth-level warrior is, he cannot be The opponent of the fifth-level warrior, Qingtian Qi, should have been used by Da Kun to make up the numbers, and was not worthy of attention at all.

At the moment, Qingtian Qi was directly ignored by all the players.

Of course, this also aroused the jealousy of some players from small countries.

"hehe!! Did you see it? The white-haired boy from Dakun Country is just a fourth-level warrior. Why! Unexpectedly, the mighty Great Kun Kingdom actually sent a fourth-level warrior to make up the numbers."

"Saw it! It seems that the Great Kun Kingdom is in decline and cannot even gather ten fifth-level warriors. It is really unworthy of its status as a great country!"

"That's right. Letting a fourth-level warrior enter the ancient training ground. Giving up such a great opportunity to a fourth-level warrior is simply a waste."

"yes! What if his quota was given to our country? Our country's rookie conference produced five fifth-level warriors, but it's a pity that we only have four places to enter the ancient training ground. Come to think of it, it's really unfair!"

"snort! Does that white-haired boy really think that such a great opportunity is so easy to get? This time at the ancient training ground, if he meets me, I will kill him immediately without saying a word!"

"Ha ha!! I also have this idea. Sometimes people need to be self-aware. Is that a place where their fourth-level warriors can enter and wander around at will?"

At the moment, some jealous players from other countries had inexplicable contempt for Qingtian Qi and made sarcastic comments one after another..

Chapter 2840

Although the voices of those players were very low, Qing Tianqi's abnormal hearing could naturally hear them.

Naturally, Qing Tianqi didn't bother to pay attention to these clowns, and just closed his eyes and meditated.

Not long after Qingtian Qi entered trance, there was another commotion in the valley, waking him up from trance.

I saw another mighty team coming in from outside the valley.

But it was the players from another powerful country, the Great Jin Kingdom, who arrived.

The ninth-level powerhouse led by Da Kun was a middle-aged man.

As soon as the middle-aged man saw the Qing Emperor, he led all the players from the Jin Kingdom and walked straight over.

"Ha ha!! Aomori, I didn't expect you to be one step ahead of Zhu this time!"

"hehe! I wish you well, brother!"

Although the two people said it politely, there was a sense of competition in their tone. After all, the two countries have been fighting for many years and want to compare each other in many aspects.

But they said that after the middle-aged man greeted the Qing Emperor, he said The ten players from Kun Kingdom looked at each other. When his eyes fell on Qing Tianqi, he couldn't help but show ridicule on his face.

"Aomori, could it be that your Dakun Kingdom has declined and you can't even afford ten fifth-level warriors, so you have to use one fourth-level warrior to make up the number? Ha ha!!"

After saying this, the middle-aged man actually laughed loudly on purpose.

He deliberately let the people in the valley see it and let people in other countries know that the country of Dakun has fallen, so that he could use this to attack Dakun. country.

Sure enough, as soon as he said these words, many people in the field showed strange expressions, but more people looked like they were watching the show.

Sure enough, when the players from Dakun Country heard those words, they felt in their hearts They were all secretly angry.

In order to cooperate with the middle-aged man, the players from the Great Jin Kingdom all looked at Qingtian Qi with disdain and deliberately shook their heads and sighed.

It seemed that Qingtian Qi was very unbearable.

They just wanted to use this to suppress him. Da Kun Country overcame Da Kun Country to let other small countries know who is the overlord of the Eastern Alliance.

At that moment, the atmosphere in the field was a bit tense.

And the ninth-level powerhouses from other countries looked like they had nothing to do with it. , did not come forward to persuade.

Seeing this, Qingdi did not want to argue with him, and did not argue too much. After all, his purpose was not to compete with the Jin Kingdom, and he himself was not that loyal to the Dakun Kingdom. The purpose was for the 'Wood God Pill', and he had his own ambitions.

However, everyone in the valley saw that Qing Emperor handled it in such a low-key manner.

At that moment, everyone no longer doubted one fact.

That fact was that Qing Tian Qi was indeed used to make up the numbers. Otherwise, Dakun Country would not have dealt with it in such a low-key manner.

Precisely because Qingtian Qi was used to make up the numbers, Dakun Country had no confidence to argue with others.

Of course, all this is the opinion of outsiders.

And Dakun Country's own Players, but no one thought that Qingtian Qi was inferior to the fifth-level powerhouse.

With the end of this small storm, everyone had a lower evaluation of Qingtian Qi.

Next, players from other countries also arrived one after another.

Qingtian Qi and Qingtianjun has been looking forward to the players from Baixi Kingdom arriving.

There are only two players from Baixi Kingdom, one male and one female.

The female is a girl, about seventeen or eighteen years old, and she is also very beautiful. The scene attracted the attention of countless young and powerful men.

Qingtian Qi knew that this girl was Wu Xiaoyue from the Wu family.

However, he could not recognize her now, so he had to secretly remember Wu Xiaoyue's appearance and prepare to recognize her after entering the training ground..

In this way, a group of people waited silently in the valley for three days.

During these three days, players from more than 20 countries in the Eastern League also arrived one after another. The most sensational thing during this period was the death of players from Northern Qin. Appearance.

Because among the eight contestants of the Northern Qin Kingdom, there is a sixth-level warrior.

This sixth-level warrior is none other than the direct descendant of the leader of the Northern Qin Kingdom. He has now been named the 'Prince of Northern Qin', a A boy of only seventeen years old, he is also a true spiritual warrior who has been rare in hundreds of years.

When the prince of Northern Qin appeared on the scene, he immediately caused a sensation in the audience..
