

God level 2841

Chapter 2841

In the past, it was impossible for a sixth-level warrior to appear, but this time this rule was broken. How could this not be shocking?

This incident also let everyone know that it won't be long before a fifth level nine strong man appears in the Northern Qin Kingdom and will also join the ranks of a great nation.

Because it is only a matter of time for a true spirit warrior to reach the ninth level. Hundreds of years later, the Northern Qin Prince will definitely be able to enter the ranks of the ninth level warriors.

The appearance of the Prince of Northern Qin also caught the Qing Emperor by surprise. He privately told all the players many times to be careful of the Prince of Northern Qin, and it was best not to meet him, otherwise there would be no hope of surviving from the opponent's hands.

Just like that, at noon on the fourth day, there were sudden bursts of huge roars above the valley bottom, and then the space continued to distort, and a barrier gate gradually appeared in the sky.

The gate to the barrier has finally opened

"look! The barrier gate finally appears!" As soon as the enchantment gate appeared, many players shouted in surprise.

The enchantment gate was just a light hole ten feet in diameter.

The light curtain in the middle swayed like water. It seemed transparent, but it made people... It was impossible to see through the scenery inside.

Then, a ninth-level warrior said loudly:"Everyone, we have waited for so long, and the enchantment gate finally appeared. It is time for young people to enter and explore. I won't be polite to you all, so I'll let our Yueshengguo players take the first step."

As soon as he said this, he signaled the four young warriors behind him to step into the barrier gate.

The four young warriors understood, and there was a girl in a white dress who took the lead and stepped into the water like water. The interface was shaking like a normal one.

The girl in white could easily penetrate the water-like interface, as if walking through the water. Her body quickly blended in and disappeared in the blink of an eye. The barrier gate fluctuated slightly and returned to its original state.

Afterwards, the other three players from the Yuesheng Kingdom also entered the barrier gate.

Seeing this, the players from other countries couldn't hold back. They all excitedly wanted to enter the barrier gate first, for fear of falling behind. , all the treasures inside were snatched away first.

At this time, Qingdi turned around and said to the Dakun players behind him:"After passing through the barrier gate, you will randomly appear on the edge of the training ground. Everywhere is not together"

"In addition, the ancient ferocious beasts inside are used by the gods to train disciples, so the ferocious beasts that the gods have released in them are extremely bloodthirsty and violent ferocious beasts. Not only will they actively attack humans, but they will also kill each other even if they encounter each other."

"If you encounter something, you should either deal with it quickly or run away immediately. The longer you delay, it will only attract more ferocious beasts, which will be more detrimental to you. Okay, I won't say more if it's unnecessary. You will get corresponding prompts after entering."

After saying this, Emperor Qing said no more.

Players from other countries also began to enter one by one.

Not long after, it was the turn of the players from Dakun Country.

Soon, it was Qingtian Qi's turn.

When Qingtian After Qi stepped into the barrier gate, he first felt that the scenery around him changed, with countless white lights surrounding him, and his body stepped into a void.

Through the surrounding white lights, he actually saw the stars in the universe, the sun falling and the moon falling. , the body seemed to be traveling rapidly through a space.

Suddenly, Qingtian Qi felt that his body suddenly paused, as if he had arrived somewhere.

Then, the stars in front of him disappeared, and the surrounding scenery also changed. First, What caught his eye were towering trees dozens of feet high, followed by many shrubs and plants that he had never seen before. The blue sky immediately looked up at the sky, and the sky was pale and gloomy, like a cloudy sky.

There was a fresh earthy smell floating in the air, mixed with the smell of some rotting leaves.

However, what surprised Qingtian Qi was that the vitality of the five elements between heaven and earth here was extremely strong, reaching at least thirty times more than the outside world.

Good. The rich vitality of heaven and earth!

In just an ordinary environment, the concentration of vitality has reached more than thirty times that of the outside world. It is simply incredible.

It seems that this is the edge of the ancient training ground...

Chapter 2842

Qing Tianqi felt a little excited and took a deep breath of the air around him, then closed his eyes slightly, raised his ears, and used the ability of Tianting to judge the situation around him.

Nowadays, Qing Tian Qi's 'Tian Ting' can hear the sound of crawling ants within a thousand meters, but the limit of hearing range is five miles away.

In other words, if an ordinary person is talking five miles away, he can vaguely notice that someone is talking, but he just can't hear it clearly.

In just a moment, Qingtian Qi used the power of Heaven's Listening Power to roughly hear the situation within a radius of five miles.

When Qing Tianqi opened his eyes again, a look of horror appeared on his face.

Unexpectedly, there are more than twenty ferocious beasts within a radius of five miles.

It seems that the ferocious beasts here are very dense. I have to be very careful. Maybe encountering a ferocious beast is not a big deal.

They were afraid that they would be entangled by a ferocious beast, and the fight between them would attract nearby ferocious beasts, which would be bad.

But next, should I break through the water energy to the ninth level first?

Is it better to go to Brother Tianjun first?"

Just as Qing Tianqi was thinking about his next plan, he unconsciously took two steps forward. However, just after he took two steps, there was a sudden 'swish' in front of his eyes, and a transparent light curtain erected. He The whole person was caught off guard and hit the transparent light curtain.

The huge rebound force made Qingtian Qi groan and bounce him back to the original place.

Qingtian Qi immediately looked at the light curtain in front of him in horror, and then looked at it. After looking around himself, it was only then that he realized that he was actually on a small altar.

But before, the small altar was covered by fallen leaves, and he had been standing on the fallen leaves, so he did not notice the existence of the altar.

However, just when he was about to leave the altar, the small altar was automatically activated, stimulating a transparent light curtain and trapping Qingtian Qi in the altar.

This suddenly made Qingtian Qi greatly surprised and puzzled. , and also felt a little uneasy.

What is going on? Why was I trapped on this strange little altar as soon as I entered this ancient training ground? Could it be that this is also a test, and I have to rely on my own strength to break through it? Do you want to leave this altar?

Just when Qingtian Qi was wondering, a strange spiritual fluctuation suddenly fell from the sky. It was extremely cold and enveloped Qingtian Qi in an instant.

In that strange mental fluctuation, Qingtian Qi He couldn't help but shudder, and then there was strangely more information in his mind.

When Qing Tianqi finished digesting the information, a look of surprise appeared on his face again.

It turned out that the information was left by the gods to the testers.

The so-called trialists are those who enter this ancient training ground and participate in life and death training.

The life and death training lasts for a total of three months.

Those who can survive these three months will be promoted to new disciples of the gods.

And now , Qingtian Qi will face the first life-and-death training test, which is also the simplest qualification test.

This test is that the tester must pass through the jungle in front of him and rush to the tester base within five days.

Before The ten people who arrive will receive prompts from God and receive corresponding rewards in the base.

These rewards will be of great help to future experience.

Moreover, among the top ten, the higher the ranking, the higher the reward will be. The richer it is.

And within five days, those who do not arrive at the trialist base on time will have no need to survive. The will left by the gods will automatically impose heavenly punishment, and those trialists who have not completed the task will be directly punished. Obliterate.

In order to ensure the fairness of this first competition, the gods have to wait until the outer barrier door is closed and all the testers are in place before the altar light curtains surrounding the testers will automatically disappear.

And After the light curtain disappeared, that's when the trialists began to compete.

Unexpectedly, just after entering the ancient training ground, I received the first trial mission, and it was a life and death mission, which had to be completed. It's just that this mission is not easy to complete!..

Chapter 2843

It is nearly 800 miles from here to the trial base. Even if a fifth-level warrior goes all out, it will still take three days and three nights to get there!

It turns out that when Qing Tianqi got that information, he also had a map to the trial base and related information in his mind.

But this 800-mile journey is not a flat road, but passes through the jungle in front of you.

From the information just now, we can know that there are many ancient ferocious beasts in the jungle in front of us, and there are even sixth-order ferocious beasts.

Even if you are a fifth-level Dzogchen warrior, if you are careless, you may be killed by a vicious beast before you reach the trial base.

For fifth-level warriors, it is even more dangerous."

Generally speaking, when rushing to the trial base, you must try to avoid the ferocious beasts as much as possible. It is impossible to go straight.

In this way, if an ordinary fifth-level warrior wants to reach the trial base within five days, I am afraid it will be a long time. It is a very difficult thing.

I am afraid that many fifth-level warriors will be wiped out in this first test!

Thinking of this, Qingtian Qi couldn't help but worry about Qingtian Jun and Wu Xiaoyue.

For this first test, Qingtian Qi Naturally, you don't have to worry about not being able to pass the test.....

Although his current comprehensive strength is not as good as that of a fifth-level Dzogchen warrior, his strongest point is speed. His speed is faster than an ordinary fifth-level Dzogchen warrior, and is infinitely close to that of a fifth-level Dzogchen warrior. The level of a peak warrior.

In addition to speed, Qingtian Qi also has a trump card, which is his inherited talent 'Tian Ting'.

This ability of 'Tian Ting' allows Qing Tianqi to avoid the vicious beasts before encountering them. This allows him to avoid a lot of trouble, and it can be regarded as a kind of opportunism.

At that moment, Qingtian thought for a while and sighed in his heart.

"From the information I just got, it can be seen that each player is nearly a hundred miles apart. It seems that I can't find Brother Tianjun and Sister Xiaoyue first. We can only wait for the two of them at the trial base, hoping that they can successfully pass this first level."

Thinking of this, Qingtian Qi stopped thinking about Qingtian Lord and others, and focused on this first trial.

There are rewards for this trial. If I can successfully enter the top ten, then I can Got the reward.

There are 164 contestants who entered here this time, including one person at the sixth level, seven people at the peak of the fifth level Dzogchen, and 21 people at the fifth level Dzogchen.

If those twenty-one fifth level Among the Dzogchen warriors, if there are no speed martial arts, and if there are no spiritual weapons to assist speed, there are only eight people who are faster than me.

In order to survive in the training ground, before entering, Qingtian Qi naturally faced I have secretly made statistics on the strength of those players.

Based on such statistics, and my speed is combined with the ability of God to listen, I still have a good chance of entering the top ten.

I just don't know who among the twenty-one fifth-order Dzogchen warriors. , is there anyone who has special means like me?

Thinking of this, Qingtian Qi is still very confident that he will enter the top ten, and he can't help but feel a little secretly happy in his heart. As long as he can enter the top ten, he will be rewarded, or Naturally, he is looking forward to the rewards left by the ancient gods.....

His only regret was that in order to get a ranking in this first test, he had to temporarily give up breaking through the water energy and join the trial first.

Because if he wants to break through, it may take him two or three days. At that time, let alone getting a ranking, it is hard to say whether he can even pass the test, so Qingtian Qi can only wait until he reaches the trial base before breaking through.

At that moment, Qingtian Qi made a decision in his heart.

But at this moment, there was a sudden wave of mental fluctuations between heaven and earth.

Then, the transparent light curtain in front of Qingtian Qi disappeared.

The first experience test has finally begun!...

Chapter 2844

A confident smile appeared on Qingtian Qi's lips, and then he hurried towards the trial base in a flash.

However, before Qingtian Qi took a few steps, he suddenly stopped, released the appearance-changing technique, changed into another set of clothes, and restored his original appearance.

After all, his previous identity as Xuanyuan Zhantian, as the only fourth-level warrior among the ten players of the Dakun Kingdom, was a bit too conspicuous, and it was difficult not to be remembered.

Therefore, he changed back to his original appearance. In this case, even if he entered the top ten in the first trial, it would not cause any sensation. After all, no one would recognize his original appearance, and it would also reduce him a lot. unnecessary trouble.

But after Qing Tianqi changed his clothes, he happened to see Qiuqiu sleeping in the space of the God of War Order.

This made him feel emotional again.

It's been more than a month and this little guy is still sleeping.

This time it can be said that it has slept for the longest time.

The Jinti tree is indeed a metal spiritual tree that has grown for more than three thousand years. The metal energy contained in it is so huge that it took Qiuqiu so long to digest it, but it still couldn't be digested.

I don't know what kind of strength this little guy will have when he wakes up?

It's really exciting!

However, it would be nice if this little guy could wake up earlier. I really need his help now.

Thinking of this, Qing Tianqi smiled helplessly in his heart, and with a flash of his figure, he rushed towards the trial base again.

At the same time, in every corner of the jungle, the figures of the trialists loomed one by one, and everyone was rushing to the trial base.

Because this is a competition between life and time.

The losers will be completely wiped out and no one will dare to look down upon them.

Somewhere in the jungle, there was a handsome young man who looked about seventeen or eighteen years old, wearing a snow-white gown, with long black hair fluttering in the wind.

At this moment, he was holding a samurai sword in his arms, crossing his hands on his chest, looking deeply in the direction of the trial base, with a faint sneer on his lips.

"hehe! Interesting, is this the first trial? Don't know what the reward will be for first place? But this first place must belong to this prince."

This young man in white is none other than the strongest among the contestants and the only sixth-level strongman - the Prince of Northern Qin.

"However, compared to those rewards, what I am more interested in is killing all the players from Dakun and Dajin. This time, no one from the two countries can get out of here alive. Those Nine Yuan Fruits are destined to belong to our Northern Qin Kingdom."

The Crown Prince of Northern Qin snorted coldly, with a sinister look in his eyes. He immediately stepped forward, and he was already several feet away. It turned out that the Crown Prince of Northern Qin had a mission when he entered the ancient training ground this time. That is to kill all the players from Da Kun and Da Jin and steal all the Nine Yuan Fruits.

Northern Qin is already very ambitious and has long wanted to become a big country.

Now that a Northern Qin prince has emerged, it is only a matter of time before they want to become a big country..

However, no matter what, Dakun State and Dajin State are both established big countries.

It will still take some time and means for Northern Qin to catch up with the strength of the two countries.

And this time, Northern Qin State's method is to let The prince of Northern Qin killed all the contestants of the two powerful countries, making the two powerful countries gain nothing from this operation, which was a heavy blow to the two powerful countries.

But they, the Northern Qin country, were able to take this opportunity to obtain an absolute majority of the Nine Yuan Fruit. Greatly enhance the strength of Northern Qin.

This will be of great benefit to Northern Qin in catching up with the two powerful countries...

Chapter 2845

At the same time, somewhere in the jungle.

Long Xiaotian looked up to the sky and smiled:"Haha!! My flame boots can increase my movement speed by 50%. This first test is of great benefit to me! It seems that I must be among the top three. Maybe besides the Prince of Northern Qin, I should be the second one to arrive."

Thinking of this, Long Xiaotian was overjoyed.

Immediately, he put on the flame combat boots, turned on the flame armor, and held the top-quality spiritual weapon, the flame combat gun, in his hand.

After the whole body was equipped, Long Xiaotian looked up to the sky and let out a roar before confidently heading towards the trial base.

In another part of the jungle, a man in black, about twenty-eight or nine years old, looked in the direction of the trial base and frowned slightly.

This man in black is actually a fifth-level Dzogchen peak warrior.

"There will be rewards for entering the top ten. In such a dangerous place, it would be nice to get some rewards in advance and improve your strength. If this is the case, then I will no longer hide my strength!"

Thinking of this, the man in black sat on the ground, took out three black skulls that exuded a cold aura, placed them beside him in three directions, and then continued to seal.

Soon, the three skulls sprayed out. A large cloud of black mist enveloped the man in black. The man in black opened his mouth and sucked in all the black mist. As soon as the black gas was inhaled by the man in black, the man in black's breath became weird. Gloomy, black patterns appeared on his face, and then the man's momentum also increased rapidly. In a blink of an eye, he broke through the limit of the fifth level of Dzogchen, reaching a terrifying level. After a while, the man in black opened his eyes, A sinister smile appeared on the corner of his mouth, and then he rushed towards the trial base.

On the other side of the jungle, a fifth-level player who was on his way suddenly encountered a fifth-level ferocious beast.

The two sides immediately fought together..

Not long after, the fifth-level player was greatly defeated, and was killed by the beast's claw that penetrated his chest.

After all, the ancient beast was very powerful, and most warriors of the same level were no match for it.

At the same time, somewhere in the jungle, In a corner, a girl in white was also being chased by a fifth-level ferocious beast with a leopard body, a lion's head, and bone spurs on its back. The ferocious beast was extremely fast and was about to catch up with the girl.

The girl suddenly turned around and cast A martial arts skill sealed the ferocious beast in ice, and then used the Mist Hidden Technique to escape.

This girl was none other than Wu Xiaoyue.

For a time, various chases and fights were staged throughout the jungle.

Someone succeeded. Escape.

Some people also died tragically in the battle with ferocious beasts.

Qingtian Qi relied on the talent of 'Tian Ting' to bypass many ferocious beasts without any danger.

In the blink of an eye, half a day passed.

Those who died in the jungle The number of players is gradually increasing.

At the end of the jungle is a huge white stone platform.

In the middle of the white stone platform, there is a huge rune stone pillar.

The stone pillar is surrounded by ten rune teleportation arrays.

At this moment, the entire white stone platform is It is empty, with not a single person in sight.

Around the white stone platform, there are more than a dozen huge rune pillars erected. A transparent light curtain is formed between the pillars, protecting the entire platform. Outside the light curtain, there are occasionally a few Ferocious beasts wandered by.

However, these ferocious beasts could not pass through the light curtain and could only stare at the things inside the light curtain.

In fact, this huge white stone platform was the first trial base for the trialists.

But on this day, That was the afternoon when the contestants conducted the first test.

Outside the light curtain of the trial base, there happened to be three silver-horned fire wolves passing by the base.

Suddenly, one of the silver-horned fire wolves sensed something and suddenly roared, He quickly looked towards the jungle ahead.

The other two silver-horned fire wolves also sensed it and looked quickly.

I saw a young man in white slowly walking out of the shadow of the jungle ahead.

This young man in white was looking for a way. The coming Prince of Northern Qin..

Chapter 2846

The Prince of Northern Qin looked forward with a smile, his eyes passing directly over the three silver-horned fire wolves and looking towards the white stone platform behind.

When he saw that there was no one on the platform, a proud smile appeared on his lips.

"The platform in front should be the trial base. It seems that I, the Prince of Northern Qin, was the first to arrive here. Among those players, no one can be my opponent."

Thinking of this, the Prince of Northern Qin smiled coldly and arrogantly, and then strode towards the platform.

But at this moment, the three silver-horned fire wolves in front of him that he ignored all roared angrily at him, seeming to ignore him. He was very angry, roared angrily at him, and then rushed towards him together.

These silver-horned fire wolves are all fifth-level Dzogchen ferocious beasts. Three of them attack at the same time, and their strength is extremely terrifying.

And the Prince of Northern Qin Seeing three silver-horned fire wolves coming to kill him, he frowned slightly and felt very unhappy.

But just when the three silver-horned fire wolves were about to pounce on him, a large dazzling white light suddenly burst out around him. , and cut the three silver-horned fire wolves into pieces.

It turned out that the Prince of Northern Qin was a golden spirit body, and the previous white light was his natal aura, which was his natal sword light.

This time, he did not take action personally, only one by one. , he used the light of his natal sword to kill three fifth-level Dzogchen beasts.

After killing the three beasts, the Prince of Northern Qin passed through the light curtain and entered the big stone platform.

As soon as he entered the platform, The rune pillar in the middle shot a golden seal towards his forehead, and it went in instantly.

Then, there was some more information in his mind. After digesting the information in his mind, the Prince of Northern Qin walked towards the first portal surrounding the stone pillar. Disappeared on the platform.

An hour later, the Prince of Northern Qin reappeared on the platform.

Then, the Prince of Northern Qin sat cross-legged on the platform, meditating with his eyes closed, waiting for the next contestant to arrive. Until the next morning.

The second The person who arrived on the platform appeared, but it was a man in black in his twenties, the same man who used three black skeletons earlier.

After the man in black arrived, he went directly to the second one like the prince of Northern Qin. The teleportation array disappeared.

An hour later, his figure appeared on the platform again.

At this time, the Prince of Northern Qin, who had been meditating with his eyes closed, slowly opened his eyes to look at the other party. After a moment, there was a trace of horror in his eyes. Afterwards

, the Prince of Northern Qin said quietly: "Your Excellency's strength is indeed extraordinary! If this prince is not mistaken, your aura seems to have reached the strength of 70,000 people. This is definitely not something that a fifth-level Dzogchen peak warrior can do. I wonder how you did it?"

Hearing this, the face of the man in black changed slightly, and then he smiled and said

"His Highness the Crown Prince's eyes are indeed sharp, and he can tell the strength of his subordinates at a glance. However, with this level of strength, I should not be in the eyes of His Highness the Crown Prince."

"His Royal Highness is a sixth-level warrior. The weakest level six warriors have the strength of 200,000 people. In the hands of His Highness the Crown Prince, I'm afraid I can't make it past three moves. As for why I have such strength, I am not in a position to tell you, and I hope His Highness the Crown Prince will forgive me!"

The Prince of Northern Qin smiled slightly: "Since Your Excellency doesn't want to say it, I won't force it." However, it seems that you are not a player from any big country. I don't know which country you are from?"

The man in black said politely: "I, Tuobahun, come from Jiuyou Kingdom, and I have met His Highness the Crown Prince here."

"It turned out to be Brother Tuoba. Unexpectedly, the second person who entered the platform was not from the Great Kun Kingdom, nor from the Great Jin Kingdom, but actually from the small country of Jiuyou. This actually surprised the prince. However, with Brother Tuoba's strength, he is well-deserved for being ranked second."

Hearing this, Ouyang Huai immediately smiled proudly and said: "Prince, thank you! Your Highness, who do you think the third person to arrive will be? The Prince of Northern

Qin thought for a while and said: "Besides you, among the contestants here this time, there are six other fifth-level Dzigchen Peak warriors. This third person should be among these six people."

"However, this prince is more optimistic about Long Xiaotian from the Great Kun Kingdom and Lian Mingyu from the Great Jin Kingdom. These two people are both fifth-level Dzigchen pinnacle warriors and descendants of the royal family. They should have their own trump cards."

"Ha ha!! So, I have the same thoughts as His Highness the Crown Prince"

"hehe!! In this case, the two of us will wait here slowly to see who the third person is? Is this prince very curious about the third person who arrived? I hope that Long Xiaotian and Lian Mingyu will not disappoint this prince."

Just when the Crown Prince of Northern Qin finished saying this, Ouyang Huai on the side suddenly let out a startled cry, looked up at the jungle ahead, and said with a hint of surprise: "Your

Highness the Crown Prince! It seemed that the two of us didn't have to wait long, as the third person to arrive appeared."

Sure enough, as soon as Ouyang Huai finished speaking, there was a figure shaking in the shadow of the jungle ahead. A moment later, a red-haired boy walked out of the dark shadow of the trees.

This red-haired boy was none other than a changed man. Qingtian Qi returns to his original appearance..

Chapter 2847

It turned out that in the past two days, Qingtian Qi had easily avoided many ferocious beasts by relying on the power of 'Tian Ting', and reached his destination smoothly along the way.

As a result, he became the third person to reach the trial base.

However, when the Prince of Northern Qin and Ouyang Huai saw that the third person who had arrived finally appeared, their faces showed excitement inadvertently.

However, when they saw Qing Tianqi's appearance clearly, they were stunned.

None of them expected that the third person to arrive was not Long Xiaotian from the Great Kun Kingdom, nor Lian Mingyu from the Great Jin Kingdom, nor any of the other fifth-level Dzogchen Peak warriors, but actually a man who looked about fifteen years old. A six-year-old red-haired boy with a strange appearance.

However, when they saw Qing Tianqi's cultivation level again, they were completely shocked.

For a moment, the two looked at each other with expressions of disbelief.

The prince of Northern Qin even hesitated and said:"Brother Tuoba, is this prince dazzled? What do you think of this person's cultivation?"

"this....."

Ouyang Huai also frowned, unsure and said, "Your Highness, I think this person's cultivation level seems to be only at the peak of the fourth level of Dzogchen, and not even a fifth level warrior. Could it be that I'm wrong? Your Highness the Crown Prince How is this man's cultivation?"

Hearing this, the Prince of Northern Qin couldn't help but asked in surprise

"It seems that this prince is not dazzled. I think this red-haired boy's cultivation level is only at the peak of the fourth level of Dzogchen. Just do you think this is possible? Do you think that a fourth-level warrior not only safely passed through the jungle in front of the ground, but also reached the trial base for the third time. is it possible?"

"I also think this is impossible!"

Tuoba Hun also shook his head repeatedly.

"Don't say that he is not a fifth-level warrior. Even if he is a fifth-level warrior, I can't believe that he can reach here third. Your Highness, do you think the person in front of you is hiding his strength? His actual cultivation level has already reached the fifth level of Dzogchen Peak?"

The prince of Northern Qin nodded slightly and said, "It's very possible!" The distance between each trialist and this trial base is about 800 miles."

"Such a distance, even if it is a flat road, it is impossible to reach here within two days at the speed of a fifth-level peak warrior. And this red-haired boy is only a fourth-level warrior. This is impossible no matter how you think about it."

Hearing the analysis of the Northern Qin Prince, Ouyang Huai also nodded and said: "Yes! If it were the speed of a fifth-level Dzogchen warrior, he might be able to get here in two days if he hurried with all his strength. But there are so many ferocious beasts on this road, it is absolutely impossible to avoid them all, you can only fight your way out."

"In this way, this boy's true strength is definitely at the peak of Level 5 Dzogchen, or even stronger. It seems that this red-haired boy has hidden enough!"

"That should be it!"

The prince of Northern Qin frowned slightly.

"I think this red-haired boy is only fifteen or sixteen years old, younger than me. If he can reach the peak of the fifth level of Dzogchen at his age, I think his talent should be as good as mine, and he has the qualifications for a true spiritual body. Could it be that in addition to this prince, our Eastern Alliance has another true spiritual body?"

Hearing this, Ouyang Huai was immediately surprised and said: "This seems unlikely. How can true spiritual body qualifications appear so easily? Isn't that rare to see in hundreds of years? The prince of Northern Qin sneered: "

If we don't explain it like this, do you think this red-haired boy can reach the peak of fifth-level Dzogchen at his age?"

"Seems unlikely? Could it be that our Eastern Alliance really has another true spiritual warrior?"

Speaking of this, Ouyang Huai's eyes once again revealed a look of extreme horror.

The Prince of Northern Qin said quietly: "It is very possible. I just don't know which country this new master is from? Couldn't they be from Dakun and Dajin?"

After saying this, the eyes of the Prince of Northern Qin showed infinite murderous intent.

He did not want new talents to appear in these two great countries, which would hinder the rise of their Northern Qin State.

If he found out that Qingtian Qi was the great Kun State He will kill Qingtian Qi without hesitation..

Chapter 2848

At this time, Ouyang Huai said again: "Your Highness, this new master should not be from the Great Kun Kingdom and the Great Jin Kingdom. I was in the Forgotten Valley before and did not see him in the teams of the two countries' players."

"I haven't even met this guy. Maybe this person has been hiding his cultivation at the fourth level, and I didn't pay attention to those fourth-level warriors, so I didn't remember his existence.

The prince of Northern Qin also showed a wry smile:"Yes!" Previously, this prince only remembered that there was a white-haired young man in Dakun Country who was a fourth-level warrior. None of the other fourth-level warriors paid attention to him, nor did they remember his existence. But it's okay, he is not from the Great Kun Kingdom or the Great Jin Kingdom."

Speaking of this, the prince of Northern Qin showed a playful smile.

At this moment, the blue sky in front of him was only more than a hundred meters away from the white stone platform.

The two people's soft conversation behind the light curtain was naturally attracted by the blue sky. Qi Qi listened in his ears.

When Qing Tian Qi heard that these two people mistakenly thought that he might be a true spiritual warrior, he felt funny in his heart.

However, he would not explain it because of this matter.

In fact, Before Qingtian Qi approached the platform, he used the Breath Condensation Technique to shield his four elements of cultivation, except for the fire element.

He did this because he did not want the Prince of Northern Qin and Ouyang Huai to discover his identity as a fifth element warrior..

If these two people find out, they will inevitably think that he is Xuanyuan Zhantian.

In addition, Qingtian Qi also heard from the tone of the Prince of Northern Qin that the Prince of Northern Qin was very interested in whether he was a player from the Great Kun and the Great Jin. He cares, which inevitably makes him a little doubtful.

The prince of Northern Qin seems to have no good intentions towards the players from the two powerful countries, so I have to be careful.

And the guy named Tuoba is also extremely scary from the perspective of his momentum. This character is definitely not what a fifth-level Dzogchen peak warrior can achieve. What kind of cultivation level is he?

It seems that these two guys are both extremely masters. I will have to deal with them carefully in a while.

At the moment, Qingtian Qi pretended to be a With a calm face, he walked calmly towards the white stone platform.

Not long after, Qingtian Qi came to the edge of the white stone platform and easily passed through the light curtain.

As Qingtian Qi passed through the light curtain, the center of the platform The rune stone pillar immediately let out a soft chirping sound.

Then, the stone pillar's spiritual light appeared, and with a swish, a golden rune was shot towards Qingtian Qi's forehead.

Seeing the rune coming, Qingtian Qi was horrified. He instinctively wanted to dodge, but found that the space around him seemed to be imprisoned, preventing him from moving at all. But at this moment, the golden rune hit Qing Tianqi's eyebrows, and then disappeared into his eyebrows, and in the blink of an eye he was gone. It disappeared, leaving no trace on the forehead, but Qingtian Qi had a lot more information in his mind.

At that moment, Qingtian Qi closed his eyes slightly and began to digest the information he had just received.

It turned out that the golden rune just now, It is the qualification mark of the trial person.

Only those who successfully complete the first test can obtain the qualification mark of the trial person and become a real trial person.

Those who do not obtain the qualification mark of the trial person will end the first test. Later, he was completely wiped out.

The trialist base where Qingtian Qi is located is actually a platform for trialists to restore their vitality.

On this platform, it is forbidden for trialists to fight with each other, otherwise they will be left behind by the gods. Will directly obliterate.

In fact, this is also a measure for the gods to give the weak some breathing space and protect the weak.

Qingtian Qi is very satisfied with this. At least he does not have to worry about the Northern Qin Prince and Ouyang Huai being unfavorable to him.

In addition , Qingtian Qi is very satisfied with this. , he also got a piece of information.

It turns out that the ten teleportation arrays around the rune stone pillar will be transmitted to ten different secret rooms.

Each secret room contains a treasure.

The treasures in those secret rooms are for the top ten strong ones. rewards.

The order in which treasures are obtained is to enter the teleportation array in the corresponding order according to the ranking obtained.

After receiving this piece of information, Qingtian Qi was overjoyed, and immediately walked straight to the third teleportation array.

At this moment, he couldn't wait to know what kind of treasure the gods left him as a reward?..

Chapter 2849

But just when Qing Tianqi walked to the third teleportation array and was about to step into the teleportation array, the voice of the Prince of Northern Qin sounded behind him.

"My friend, why are you in such a hurry? The so-called meeting means destiny. How about you and I getting to know each other? Hearing this

, Qing Tianqi stopped, slightly cupped his hands towards the Prince of Northern Qin, and said, "Haha!" Wang Xi has the honor to meet His Highness the Crown Prince, and also has the honor to meet Brother Tuoba!"

Seeing Qingtian Qi also greeting him, Ouyang Huai's face immediately showed a look of horror, and he said in surprise

"This little brother Wang Xi, it seems that you and I have never met before. How did you know that my surname is Tuoba?"

Qing Tianqi laughed softly and said: "Haha!" Just now, His Royal Highness the Crown Prince referred to Brother Tuoba. If I didn't know Brother Tuoba's last name was 'Tuoba', it would be a bit stupid. Okay, you two, I am anxious to see what treasure I will get. I will talk to you two after I get the treasure and come out.

After saying this, Qingtian Qi said no more and stepped directly into the third teleportation array.

As soon as he stepped into the formation, the teleportation formation started to operate immediately.

With a flash of light, Qingtian Qi's figure disappeared into the formation.

On the stage, only the Northern Qin Crown Prince and Ouyang Huai were left looking at the empty teleportation array, each showing expressions of surprise.

After a while, Ouyang Huai took a deep breath and said, "The conversation between the two of us just now was heard by this guy named Wang Xi."

"yes!"

The prince of Northern Qin nodded slightly.

"He could hear my conversation from such a distance, so it seemed that he was indeed a master of concealment."

At this moment, both of them had a very high evaluation of Qingtian Qi, and they both thought that Qingtian Qi was a top master.

But what troubled them was that they couldn't figure out what Qingtian Qi's strength was. On the other hand, Qingtian Qi was teleported directly to a secret room by the teleportation array.

The secret room was a closed house, no more than ten feet long and wide.

On the left side of the secret room was a return teleportation array.

On the right was a picture Carved purple wood table.

I saw a brocade box sitting alone on the purple wood table.

I don't know how many years the brocade box has been there. On the surface, it still shines with gold, like a new box. People couldn't help but sigh in their hearts.

As soon as Qingtian Qi saw the brocade box, he was secretly ecstatic, because he knew that the reward left to him by the gods was in that brocade box.

At that moment, Qingtian Qi quickly walked to the table, Picked up the brocade box.

After opening the brocade box, a white jade porcelain vase was reflected in Qingtian Qi's eye window.

Qingtian Qi immediately eagerly opened the white jade porcelain vase and found that there were ten light green pills inside, exuding Qi. The fragrance of the elixirs in the heart and spleen can't help but whet his appetite, and he almost couldn't help but eat one.

However, he didn't know what these ten elixirs were, so he didn't dare to eat them randomly.

At that moment , Qingtian Qi suppressed his appetite and rummaged through the brocade box again.

He believed that the gods would not reward him or fail to give him any hints. At least there should be an explanation of what kind of elixir this was..

Sure enough, Qingtian Qi quickly found a piece of paper from the brocade box.

The piece of paper was filled with densely packed words, all of which were ancient words.

Seeing these ancient words, Qingtian Qi was secretly glad in his heart.

Because he learned Having read ancient texts, it was natural to recognize them all.

Qingtian Qi glanced at the note and found that the note was an introduction to the function of the elixir in the bottle.

At that moment, Qingtian Qi was overjoyed and immediately read the note seriously. After reading the note.

However, when Qing Tianqi read the note, he suddenly felt the urge to vomit blood, and started to curse loudly in his heart.

"Oh my God! Why is this a pill-breaking medicine? Is this really a reward left to me by the gods?"

It turns out that the elixir Qingtian Qi got is called 'Bigu Pill', which is a common elixir in the ancient times of the gods..

Chapter 2850

Nowadays, its refining method has long been lost.

The so-called bigu pill, its function is naturally 'bigu'.

You must know that warriors can only survive by absorbing the vitality of heaven and earth without eating food until they reach the eighth level.

And this Bigu Pill, even if you are not an eighth-level warrior.

Even if an ordinary warrior takes one, he can go without food or drink for a year without starving to death.

Although this 'big grain' effect is indeed miraculous, it rarely comes in handy.

For today's Qingtian Qi, it has no effect at all.

Because there is enough food here, there is no need to worry about lack of food.

Besides, he still has the God of War Order space, and the dry food stored in it can last for more than a month, and can cope with many sudden situations.

Therefore, the ten Bigu Pills that Qingtian Qi obtained were simply worthless. It would be a pity to throw them away if they were tasteless.

"Why! I didn't expect that the elixir I got this time would be such a useless elixir, which made me happy in vain!"

Qingtian Qi was very disappointed.

Originally, he was secretly proud that he had won third place and the reward should be relatively generous, but he didn't want to get such a useless elixir.

According to his idea, he should be able to get a pill that can improve his cultivation. There are elixirs for me, or spiritual weapons and martial arts that can enhance my strength.

But there is always a gap between reality and dreams.

Forget it, the matter is over, there is no use thinking about it anymore.

I still find ways to improve myself as soon as possible. Strength!

Not to mention the strength of the two guys outside are extremely terrifying.

Just say that among the players who came in this time, there are only twenty-nine who have reached the fifth level of Great Perfection or above.

Among the remaining fifth level peak warriors, There must be people whose comprehensive strength exceeds the fifth level of Dzogchen."

And my current comprehensive strength is not as good as that of ordinary fifth-level Dzogchen warriors.

Calculating it this way, without the help of Qiuqiu, my personal strength can only be considered average among these trialists.

With such strength, it is difficult to survive here, let alone control the overall situation.

The most important thing for me right now is to break through the water energy. The water energy in this secret room is as strong as the outside, and I don't have to worry about anyone disturbing me. So I might as well break through here!"

Thinking of this, Qingtian Qi was about to put away the Bigu Pill, then sat cross-legged, took out an Apocalypse for refining, and began to attack the bottleneck of water vitality with all his strength. In this way,

Qing Tian was immersed in the breakthrough with all his strength.

And outside On the white stone platform, the Prince of Northern Qin and Ouyang Huai sat silently in the distance, waiting for Qingtian Qi to come after he got the treasure.

In their opinion, Qingtian Qi should be like them, wait for the treasure and do some research. It should come out.

However, the two waited outside for more than two hours, and the third teleporter still did not respond.

This made both of them look surprised.

In the blink of an eye, the two waited for another hour, and still there was no response. Qing Tianqi did not come out.

At that moment, the Prince of Northern Qin couldn't help but said: "Brother Tuoba, why do you think Wang Xi didn't come out for so long in order to go in? Ouyang

Huai pondered for a while and said, "Maybe the treasure that Wang Xi got is some kind of elixir. He should be refining the elixir." Hearing this

, the Prince of Northern Qin thought for a moment and said, "So, that Wang Xi can understand ancient texts." Ouyang

Huai immediately smiled knowingly and said: "It seems that His Highness the Crown Prince cannot understand ancient texts, so he came out so quickly."

As soon as these words were said, the two of them looked at each other and smiled knowingly. It turned out that after they obtained the treasure, they came out of the secret room very quickly because they could not understand the ancient texts and did not know what the treasure they obtained was.

At that moment, the two of them sat in silence again..
