

God level 29

Chapter 29

After leaving Yuanqi Pavilion, the brother and sister were in a very good mood.

"Brother, where are we going now?", Chu Chu looked at the sky, it was already noon.

The brother and sister had been shopping for a long time.

"Let's have lunch first, and then we'll go to the Warrior Building. Don't you want to test your combat power index?"

"Yes!", the little girl was full of expectations again.

She had always been curious about her combat power.

Seeing the little girl happy, Qin Feng was also pleased.

Afterwards, the brother and sister went to eat first.

This lunch was very luxurious and very Comfortable.

Now, Qin Feng still has more than 70 million, and he is considered a small rich man. He is not short of money.

After lunch, the brother and sister went to the Warrior Building.

He also wanted to go to the Warrior Building to find a secret cultivation room. Use it.

Tomorrow is the day when Lin Xuyang is going to take action.

There is only half a day and one night left.

He wants to pass the third level of the god-level challenge as soon as possible to improve his strength.

On the way, Qin Feng also bought a few level 1 beasts. Core, he had some guesses in his mind, and wanted to go to the secret cultivation room to confirm it. When he arrived at the Warrior Building, there were very few people.

It was still lunch break time, and many people went to take a lunch break instead of eating.

Qin Feng and Chu Chu came to the second floor Testing hall.

Chu Chu couldn't wait for a long time. She was the first to rush in.

"Hello! Little girl, I just mopped this area, don't get it dirty!"

A reminder from a mopping lady.

But when she saw Qin Feng behind Chu Chu, her entire face turned pale.

"Yuan..Master Elementalist...", the mopping lady looked frightened, "Sir, last time I...."

"It's none of your business, please leave for a while.", Qin Feng glanced at the aunt lightly.

This aunt was the one Qin Feng met last time.

"oh! oh! Sir, I'm leaving now!" The mopping lady grabbed a mop and a bucket and left in a hurry.

She had lost sleep because of what happened last time, for fear of offending Qin Feng again this time.

Fortunately, there is no one in the testing hall now.

Otherwise, she would definitely be shocked when she saw this scene. Surprised.

After the mopping lady left, Chu Chu asked curiously: "Brother, do you know her?"",

"do not know! Little girl, don't ask so many questions, just test it quickly!"

"Um!"

The little girl happily came to a dynamometer and punched out with all her strength.

The huge sound echoed throughout the hall.

Ding~~! Ding~~! Ding~~!!

The values on the monitor were crazy! Jump, and finally settle on 199

"Brother, my combat power has reached 199."

The little girl was so excited that her face turned red.

Qin Feng also smiled happily. With a combat power of 199, he can sweep through the quasi-elemental masters.

The little girl already has some ability to protect herself.

Of course, this is still because the little girl has not grown up. If fully grown, it should be able to reach 200 combat power.

"Brother, we will definitely surprise many people in our patrol mission tomorrow."

"Little girl, remember to keep a low profile tomorrow. Don't let anyone know our strength yet"

"Why?", Chu Chu was a little puzzled.

Qin Feng pinched Chu Chu's cute little face: "Little girl, you don't need to ask so many questions. When the time comes, you will understand."

Of course he won't tell anything about Lin Xuyang.

"Oh fine!", Chu Chu listened to Qin Feng's words, "Brother, you mean, we have to pretend to be ordinary people?"

"um, yes"

"whee! That must be fun!"

"Little girl, go to the training hall on the third floor. There is a 3D simulated fighting room there. You can practice your fighting skills. Now you have all the fighting power, but no fighting experience. If you encounter a ferocious beast, you will definitely be in a hurry."

"Well, brother, will you come with me?"

"No! I'm going to practice for a while. I'll find you then!"

The system taught Qin Feng god-level fighting skills, so naturally he didn't need to learn any fighting experience.

Then, the two separated.

Chu Chu went to the 3D training hall on the third floor.

Qin Feng went to the training area.

Although Chu Chu only had half a day of training Time, but sharpening a gun in battle is not a bright thing.

Qin Feng hopes that the little girl can master some fighting skills, which is not a bad thing.

A quarter of an hour later, in the secret training room.

Qin Feng took out the blood and bone knife and began to test his guess.

He first used The knife scratched his arm, leaving only a faint white mark, but it was not cut.

Qin Feng was pleasantly surprised.

This physical defense was actually stronger than one-star mid-level monsters, and even stronger than those one-star elemental masters. Too many.

At the same level, the physical defense of a one-star elemental is not as good as that of a one-star monster.

This is the benefit of the three-series element tempering.

Qin Feng added another point of strength, and the blood-bone knife immediately cut him open The skin was so deep that the bones were visible, and blood flowed like a torrent for a while.

Qin Feng quickly swallowed the prepared level 1 wind beast core.

The swallowing skill started automatically.

The beast core dissolved quickly, and familiar energy poured into the wound.

The wound Healing at a speed visible to the naked eye.

In the blink of an eye, the wound formed a scar and fell off on its own.

The original wound was white and flawless, without a trace of scar or pain.

Back and forth, less than a minute.

Haha!! This recovery speed is too fast. Awesome!

Qin Feng was pleasantly surprised.

It turned out that his god-level swallowing could not only quickly improve his cultivation, but also absorb energy to help him heal.

This was a surprising discovery!

With such a strong self-healing ability, he His comprehensive strength has improved a lot.

At that moment, Qin Feng hurriedly left the training chamber.

Half an hour later, he returned.

He just went out and purchased a large number of level 1 beast cores for future use.

These beasts Checking other people is of little use, but for Qin Feng, all of them are life-saving panaceas.

In addition, he also purchases a large number of thermal weapons that may be useful.

Such as armor-piercing bombs and high-explosive landmines , high-energy heavy snipers, even incendiary bombs, and flamethrowers.

He spent 10 million before and after.

Of course, it was mainly spent on level 1 beast cores.

Then, Qin Feng put on the monster armor, and Feng Shadow boots, paired with a blood bone knife, everything is armed to the teeth

"System, I want to conduct the third god-level challenge!"

"Ding! The third god-level challenge is activated,"

"Ding! After 10 seconds, enter the challenge map - Polar Ice Prison, 10...9...8...7....".
