

God level 2931

Chapter 2931

During this tempering process, every cell of Qingtianqi is expelling impurities.

These cells not only refer to his physical cells, but also his internal organs cells are constantly refining impurities.

Just like that, I don't know how long it took.

Suddenly, Qingtian Qi, who was sitting with his eyes closed, his whole body shook violently, and then two strange energies between heaven and earth roared and surged towards Qingtian Qi.

Those two strange energies are filled with the two qi of yin and yang between heaven and earth.

As soon as the yin and yang energy poured into Qingtian Qi's body, Qingtian Qi seemed to sense something, and immediately opened his eyes, and then traces of black mist were discharged from his body.

Those black mist are the impurities refined from the cells in Qingtian Qi's body. At this moment, under the action of the two forces of yin and yang, those impurities turned into black mist and were expelled from Qingtian Qi's body.

After all the impurities in the body were discharged, Qingtian Qi was shocked and used the power of yin and yang to disperse all the black mist surrounding him.

At this moment, his whole body was transparent, all the impurities in his body had been expelled, and the yin and yang energy from heaven and earth was pouring into his body at a faster speed.

At the same time, the tightly closed third door in Qingtian Qi's body vibrated suddenly and finally opened.

Immediately, an extremely majestic energy was released from the third door.

Qing Tianqi immediately closed his eyes tightly. His whole body trembled violently, and then clouds of blood mist sprayed out from outside his body and enveloped his whole body, and soon a huge blood cocoon formed inside and outside his body.

Qingtian Qi's physical body finally began its third evolution.

With the formation of the blood cocoon, the yin and yang energy between heaven and earth stirred up again, began to pour into the blood cocoon crazily, and formed a huge black and white cyclone outside the blood cocoon, rotating at high speed around the blood cocoon..

The black and white qi are naturally the two qi of yin and yang.

But it was said that Qing Tianqi opened the third door and caused a huge vision in the cave.

Several people who were practicing in front of the cave noticed it immediately and went into the depths of the cave to check.

When Bai Jinyu and others saw the huge blood cocoon in front of them and the violent black and white cyclone outside the blood cocoon, they all opened their eyes in horror.

In particular, they all felt that a life was being nurtured within the blood cocoon, and that life possessed heart-stopping energy.

At that moment, Bai Jinyu was shocked and said: "What's going on? Why is there a blood cocoon here? Where did Tian Qi go?"

"yes! Why is Tianqi missing? Why is there another strange thing here? It seems terrible."

Wu Xiaoyue also looked shocked.

Suddenly, in front of everyone, Qiuqiu let out a low roar and stood in front of everyone. It seemed that it didn't want them to destroy Qingtian Qi's evolution.

Seeing the strange behavior of Qiuqiu, Bai Jinyu The others were wondering.

Qingtian Jun on the side took a deep breath and said excitedly:"I know what is going on. This is Tianqi's physical cultivation making progress again. Ha ha!! It seems that this time, Tianqi's strength will be greatly increased again. Tianqi's strength has become stronger, and the five of us will have more strength to collect the Nine Yuan Fruit."

At that moment, Lord Qingtian briefly explained what happened to Qingtian Qi.

Everyone immediately sighed.

Bai Jinyu said with anticipation:"Haha!! Tianqi always surprises people! I wonder to what extent Tianqi's strength will improve this time? I wonder if he is qualified to enter the top five in this second comprehensive strength test? It's really exciting!"

Qingtianjun also said:"This time the rewards for the top five are all very generous! Whether it is the 'True Soul Pill' or the 'Opening Spirit Pill', they are rare elixirs that were only available in ancient times, and they are also extremely precious. You can't find it in the outside world at all"

"This is a rare opportunity. If you miss this opportunity, you will never have such a rare opportunity again."..

Chapter 2932

Hearing this, Bai Jinyu said excitedly:"Yes! In this test, I can no longer hide my strength. I must enter the top five. Let's not talk about the 'True Soul Pill', just talk about the 'Open Spirit Pill' I must get the elixir. Although the true soul elixir is more precious than the spiritual elixir, I want to get the elixir even more."

Wu Xiaoyue smiled and said:"Brother Jin Yu is already a fifth-level Dzogchen peak warrior, and the 'spiritual elixir' There is a 50% chance of helping Brother Jin Yu break through the bottleneck and enter the sixth level. Naturally, you want it very much."

Bai Jinyu nodded and smiled:"Yes! Although the chance of opening the spiritual pill to break through is only 50%, the chance is very small. But it has a characteristic. Every time you take one more pill, you can deepen your understanding of breaking through the bottleneck and shorten the time to break through the bottleneck."

"This alone will make countless fifth-level Dzogchen peak warriors go crazy. In fact, I didn't expect to break through to the sixth level in one fell swoop by relying on the 'Kai Ling Dan', because that was almost impossible. I only hope that the magic pill will shorten the time it takes for me to break through the bottleneck."

"Under normal circumstances, if I want to break through the existing bottleneck, it will not take more than ten years. But if I can take a 'opening pill', it can at least help me shorten one or two years of hard work. Of course, it would be better if you could get a better ranking."

Hearing this, Lord Qingtian and others couldn't help but show envy.

At that moment, everyone talked for a while, and then went back to continue refining the spirit fruit.

Six days passed peacefully like this.....

In order not to disturb Qing Tianqi's breakthrough, everyone has not entered the depths of the cave to inquire....

Because they know that with Qiuqiu watching over them, nothing will happen to Qingtianqi.

But on this day, Qiuqiu just wanted to take a nap after eating a few gold spiritual fruits.

At this moment, it has returned to its original plush and cute appearance.

Just when the ball was patting its round belly, contentedly wanting to sleep.

Suddenly, all the hairs on its body stood up, and its little face looked behind it in horror.

Behind it, the huge blood cocoon suddenly exuded a heart-stopping aura.

This momentum was so terrifying that even Qiuqiu felt a sense of fear.

Just when Qiuqiu blinked his small eyes and looked uneasily at the blood cocoon in front of him, the blood cocoon suddenly exploded, and then a tall figure slowly stood up in the blood mist. It was naturally the completion of the third physical body. The evolving blue sky.

And as Qing Tianqi stood up, a terrifying power emanated from him.

At this time, Qing Tianqi felt that his whole body was filled with explosive power, which made his heart extremely excited.

At that moment, he clenched his fists and felt the increased strength, and couldn't help but feel overjoyed.

"Ha ha!! After this physical evolution, my body's combat power has indeed reached the strength of ten thousand people!"

Qing Tianqi excitedly punched the air in front of him.

The air was suddenly agitated, and a series of sonic booms were heard.

"good! good!"

Qingtian Qi said to himself and withdrew his fist with satisfaction.

After the third physical evolution, Qingtian Qi's appearance did not change much. He still looked like a fifteen or sixteen-year-old red-haired boy, but he was a few inches taller than before. The skin was also more delicate and transparent.

At this moment, a white shadow suddenly rushed from the front and jumped into his arms, but it was Qiuqiu.

"Gujiguji!"

Qiuqiu was in a very good mood when he saw Qingtian Qi coming out of seclusion. He kept pushing his little head into Tianqi's arms. He looked at Qiuqiu acting coquettishly in his arms.

Qingtianqi gently stroked its plush head. Without a smile.

Later, after Qingtian Qi played with Qiuqiu for a while, he did not go to find Qingtian Jun and others, but continued to learn the third level of "Mad God Art"..

Chapter 2933

In this way, six days passed peacefully.

The second final test is just two days away.

The trialists hiding in various parts of the mountains appeared one after another and began to rush to the second trial base pointed out by the gods, which was also the place where the comprehensive strength of the second experience was finally tested.

The place where Qingtian Qi and others are now is one day away from the second trial base.

In order to gather on time, Qingtian Qi and others also stopped practicing. At this moment, everyone is out of the cave and ready to set off.

During this period of time, except for Bai Jinyu who was at a bottleneck and unable to make progress, everyone's strength had greatly increased.

The one who has made the most progress is naturally Qingtian Qi.

It turns out that during this period of time, Qingtian Qi not only opened the third gate, but also learned the third level of the Mad God Technique. In the last few days, he broke through the wood energy to the peak of the fourth level of great perfection, leaving the fifth level of the wood system. Just one step away.

Originally, Qing Tianqi was still thinking of taking the Apocalypse Pill and breaking through the wood element to the fifth level.

However, it will take at least two days to refine the Apocalypse Pill. They have to rush to meet up now and have no time to refine it.

Qingtian Qi had no choice but to temporarily postpone Mu Yuanqi's breakthrough.

Because Mu Yuanqi has broken through to the peak of the fourth level of Great Perfection, Qingtian Qi's Yuanqi power has also increased a lot. Coupled with the improvement of his physical combat power, his basic combat power has reached the strength of 30,000 people. However, after his transformation, his combat power has increased. But it can reach the strength of 50,000 people.

Although the comprehensive combat power after transformation is the strength of 50,000 people, Qingtian Qi's speed has been improved by the Blood Shadow Escape Technique and Phantom Tracking Step. Its speed can be compared with that of a warrior with the strength of 70,000 people, which is to say, compared with the original Ouyang Huai is quite good.

Coupled with the fact that Qingtian Qi has the best double swords in his hands, his overall strength is close to the strength of 60,000 people.

However, compared with Bai Jinyu, Qingtian Qi's strength is still slightly inferior.

After all, Bai Jinyu possesses two top-quality spiritual weapons and can also perform the 'Flowing Light Phantom Step'. His speed is even faster than Qingtian Qi's, and his basic combat effectiveness is also better than Qingtian Qi's.

However, Qingtianqi still has Qiuqiu to help.

During this period of time, Qiuqiu ate a lot of gold-type spiritual fruits. Although it has not yet advanced to the peak of fifth-level perfection, its combat power has been increased to the strength of 35,000 people, and its strength has also increased greatly.

Qingtian Qi and Qiuqiu team up to deal with Bai Jinyu. It is hard to say who will win and who will lose.

The only thing that Qing Tianqi felt was a pity was that he failed to learn the yin and yang clone technique.

Otherwise, his strength will increase greatly.

The Yin-Yang Clone Technique is a top-notch physical skill that can create a clone with exactly the same strength as the original body.

Once he learns it, Qing Tianqi's strength will double. Even if he meets Ouyang Huai again, he will dare to fight him.

It's a pity that he hasn't learned it yet.

In addition to Qing Tianqi, others have also made great progress.

With the help of a large number of spiritual fruits and hundreds of saint fruits, Wu Xiaoyue finally broke through to the fifth level of perfection in one fell swoop.

Qingtian Qi was afraid that she was not strong enough, so he gave her both the Yunlan Sword and the Yunlan Armor.

The quality of the Yunlan Sword was slightly better than Wu Xiaoyue's Ruoshui Sword, and the Ruoshui Sword was naturally taken back by Qingtian Qi.

With the help of Yunlan Sword and Yunlan Armor, Wu Xiaoyue's strength has greatly increased again, and is already comparable to the fifth level Dzogchen peak warrior.

And Lord Qingtian and his little fox, with the help of a large number of spiritual fruits, both reached the peak of the fifth level.

Now, after Qingtianjun channeled and merged, his basic combat power has reached the level of fifth-level perfection, but he has the Jumang Sword.'、 ‘With the help of "Feiyu Fighting Boots", "Phantom" and "Shadowless Incarnation", its overall strength is slightly stronger than that of the fifth level Dzogchen peak warrior...

Chapter 2934

As for the Moon Princess Bai Jinyue, with the help of the 'Sui Jinguo', she also broke through to the fifth level of Dzogchen.

But with the help of the sword formation, her overall strength is equivalent to that of two fifth-level Dzogchen peak warriors.

In fact, Bai Jinyue can use the sword formation because her talent inheritance is the "Spirit Dividing Technique". She can divide her sword spirit into seven, one becomes seven, and each is attached to a rune sword. In this way, she has the ability to control seven swords at the same time and form a sword array.

Other gold-type warriors can only cultivate a sword spirit and can only remotely control a sword. Naturally, they cannot control a sword formation.

In fact, Qingtian Qi also got a benefit from this, that is, the 'Sui Jin Fruit' and 'Hundred Saint Fruit' that Bai Jinyue and Wu Xiaoyue had not used up were also given to him.

Because he is a fifth-element warrior, these two top-quality spiritual fruits will be of great use to him in the future.

In general, after nearly half a month of retreat, the strength of Qingtian Qi's side has undergone earth-shaking changes, and everyone is very confident in the next comprehensive strength test.

In the valley, Bai Jinyu looked at the cultivation of the four people in front of him, with a satisfied look on his face.

"good! In the past half month of retreat, the progress of the four of you has not disappointed me. Especially the progress of Xiaoyue and Tianjun surprised me even more. However, what surprises me the most is, how did you collect so many spiritual fruits?"

"Even if the spiritual fruits collected by Yue'er and I add up, they are still less than one-tenth of yours! We think that the spiritual fruits we have collected are not small among these trialists. I didn't expect you three to be scarier."

Speaking of this, Bai Jinyu sighed.

Naturally, he didn't know that Qingtianjun was unmatched in collecting spiritual fruits because of the 'Spirit-Asking Technique', and his number was far greater than that of other trialists..

Even after half a month of seclusion and practice, Qingtian Qi and the others still have a lot of spiritual fruits left to refine, mainly because there is no time to refine them. Especially

Qingtian Qi, he has been busy practicing during this period. Regarding cultivation matters, among the spiritual fruits he harvested, except for giving some of the gold spiritual fruits to Qiuqiu to eat, the other spiritual fruits were almost not refined. A large amount of them are still stored in the God of War Order space, but now There is no time to refine it.

As long as he has free time and refines all those spiritual fruits, his strength will be greatly increased.

However, after Bai Jinyu sighed, he turned to look at Qingtian Qi and asked: "Tianqi, I wonder how much your strength will increase after you open the third gate?"

Qingtian Qi's strength in physical cultivation cannot be seen by outsiders. Bai Jinyu and others can only sense the strength of his vitality.

Qingtian Qi's vitality is only as powerful as 20,000 people, which is quite a lot. At the level of fifth-level Dzogchen warriors.

But Bai Jinyu and others knew very well that Qingtian Qi was definitely much stronger than fifth-level Dzogchen warriors.

Therefore, when Bai Jinyu asked, several others also looked at it curiously. Xiang Qingtianqi, they also wanted to know the extent of Qingtianqi's comprehensive strength.

Looking at everyone's curious eyes, Qingtianqi smiled and said: "The basic combat strength is 30,000 people!"

As soon as these words came out, several people in the field were shocked. The basic combat power of all of them was about 20,000 people. Only Bai Jinyu, a gold-type warrior at the peak of the fifth level of Dzogchen, reached the power of 30,000 people..

Now, Qingtian Qi has reached such a level.

In other words, Qingtian Qiguang's basic combat power is stronger than ordinary fifth-level Dzogchen peak warriors.

At that moment, Bai Jinyu sighed: "Tian Qi, you are still just The basic combat power of a fifth-level warrior is already so strong. If you reach the peak of the fifth-level Great Perfection, your strength will be very terrifying. Even if I use the inherited talent 'Tiger God Roaring Sky', I may not be your opponent!"

"With your current strength and Qiuqiu, I don't think there is much problem in entering the top five."

Hearing this, Qing Tianqi didn't say much, just smiled slightly: "Brother Jin Yu deserves the award!"

Bai Jinyu and others didn't know that after Qingtian Qi transformed, his basic combat power could reach 50,000 people.

In fact, before Qingtian Qi opened the third door, even if he transformed, his physical combat power was only 2,000 people. It's just power, and it doesn't have a great impact on Qingtian Qi's overall strength.

But this time, after opening the third door, it will be a qualitative leap in improving Qingtian Qi's strength.

More importantly, as a magical skill, the 'Crazy God Technique', and gradually showed its power.

Afterwards, a few people talked for a while, and then set off to the second base of the trialer..

Chapter 2935

At the same time, in every corner of the mountain forest, other trialists also walked out of their hiding places one by one and converged on the base.

Somewhere in the mountains, Wu Lei and Yue Lin stood side by side, looking in the direction of the base.....

"Brother Wu, what are your plans for this test? Wu

Lei said in a deep voice:"In this training ground now, besides that guy from the Northern Qin Prince, who else is my opponent?" However, the reward for second place is a 'True Soul Pill'. Although this True Soul Pill is more precious than the Open Spirit Pill, it is not what I need most at the moment. For me, the 'spiritual pill' is what I need most at the moment. Hearing this

, Yue Lin suddenly realized:"It turns out that Brother Wu wants to get third place." The third place will be rewarded with three 'Spiritual Opening Pills'. So, did you want to lose to Ouyang Huai on purpose?

Wu Lei nodded immediately:"Not bad!" After all, it is safer to get the elixir first. It would not be good if someone else gets it first and refines it first.

Yue Lin sighed:"It's a pity that Ouyang Huai has to take advantage this time and let him win second place.""

Wu Lei sneered:"How could I, Wu Lei, let him get the advantage for nothing? After I get the reward for third place, if I look for an opportunity to kill Ouyang Huai, won't the True Soul Pill reward he got still belong to me?"

"By the way, I can't let go of the fourth and fifth places either. The rewards they received for the magical elixir were all mine."

Speaking of this, Wu Lei's eyes showed a trace of sinisterness.....

It wasn't until this moment that Yue Lin understood Wu Lei's ambition, and he was immediately horrified.

He didn't expect that Wu Lei didn't take Ouyang Huai seriously at all, and he even wanted to kill Ouyang Huai.

Seeing Yue Lin's shocked look, Wu Lei's eyes flashed with pride, and he said casually:"Brother Yue, time is running out, let's go to the base to gather!"

At that moment, the two of them rushed to the second base.

At the same time, in another place in the mountain, the Prince of Northern Qin held a samurai sword in his arms and looked coldly ahead with a very cold expression.

Behind him stood five players from the Northern Qin Kingdom tremblingly.

At this moment, there was a sound of breaking through the air in the forest, and a young man came out from behind the tree, hurriedly walked to the Prince of Northern Qin, and said uneasily

"Reporting to His Highness the Crown Prince, his subordinates still could not find Wang Xiong's whereabouts."

Hearing this, the Prince of Northern Qin's face became even more gloomy.

After a while, a trace of anger appeared on his face as delicate as white jade.

"snort! For so many days, the six of you have not found Wang Xiong's whereabouts, and now that the test is about to end, Wang Xiong has not come to join us. This can only mean one thing, Wang Xiong is dead. Otherwise, it would be time for him to report to me."

Hearing what the Crown Prince of Northern Qin said, the other six Northern Qin players showed complicated expressions on their faces. They had already guessed this result.

Then, a Northern Qin player cautiously stepped forward and asked, "Your Highness, Could Wang Xiong be killed by some ferocious beast?"

The prince of Northern Qin sneered.

"Wang Xiong is a fifth-level Dzogchen warrior. He also has a warning talisman on his body. If he encountered a critical situation, he would have sent me a message long ago. But he hasn't sent a message yet. This can only mean one thing. He was killed instantly, and he didn't even have time to send a message."

"But in this area, there is no ferocious beast that can instantly kill a fifth-level Dzogchen warrior. Could it be that Ouyang Huai did this? Or the mysterious 'Wang Xi'? , at present, only two of them have this kind of strength, and only one of them could have done it."

Speaking of this, the anger in the eyes of the Prince of Northern Qin became even stronger.

"snort! I, the Prince of Northern Qin, have not started to kill people, but someone has started to attack my people in Northern Qin. What if I, the Prince, know who killed Wang Xiong? I will be the first to kill him. It's getting late, let's go!"

At that moment, the Prince of Northern Qin led a group of Northern Qin players towards the second base. The

Wang Xiong mentioned by the Prince of Northern Qin was naturally the fifth-level Dzogchen warrior who was killed by Wu Lei. It was just the Prince of Northern Qin. Just don't know the truth..

Chapter 2936

At the same time, a dark and thin young man emerged from a cave somewhere in the mountain.

As soon as he came out of the cave, he looked up to the sky with a sad face and sighed.

"Why! I have only collected two spiritual fruits this month and refined them all. My cultivation has not reached the peak of the fifth level! It seems that this time the test will be a disaster!"

But on the other side, on a road in the forest.

Two warriors were rushing towards the meeting point.

I saw one of them with a proud look on his face.

The person behind him sighed and said:"Brother Li, I didn't expect you to be in this place. Such great progress has been made during Yue's trial! He actually made a breakthrough from the fifth level of Dzogchen to the peak of the fifth level of Dzogchen. Maybe you can make it into the top five this time!"

"Ha ha!! Brother Ke joked that I was just lucky and got the help of more than a dozen spiritual fruits, and then I made a breakthrough. However, if you want to say that I can enter the top five, that is something you dare not even think about."

"After this trial, Li is not the only one who has greatly improved in strength? There must be many people who have received great opportunities and have greatly improved their abilities. I think after this trial, there must be no less than ten people whose strength has reached the peak of fifth level Dzogchen."

"Um! This is also true."

At this moment, the two of them continued to rush to the meeting point.

In this second trial, the intention of the gods was also to allow the trialists to increase their strength as much as possible.

In this trial, some people's strength improved much. , some people made little progress, and some people failed to make any progress.

Some people were happy about this trial, and some were worried.

But Qingtian Qi and the five people rushed together, rushing to the second base according to the information given by the gods.

When they arrived at the second Heaven, when the five Qingtian Qi were about to arrive at the second trial base, Qingtian Qi put away the ball and turned back into Xuanyuan Zhantian's appearance. After walking out of the mountain range, the five Qingtian Qi saw something at the foot of the mountain. A huge palace.

According to the information given by the gods, that palace is the second base.

At that moment, Qingtian Qi and the five people all looked happy

"look! Ahead is the second base, and we finally arrived!"

Wu Xiaoyue looked excited.

Bai Jinyu also said: "Yes! I didn't expect that the second base was actually a palace. I wonder how the next comprehensive strength ranking test will proceed? Let's go in and take a look! I wonder if anyone arrived before us."

At that moment, the five people from Qingtian Qi walked towards the palace.

Not long after, the five people from Qingtian Qi arrived outside the palace.

But as soon as the five people from Qingtian Qi stepped on the steps of the palace gate, the testers on the five people's foreheads The marks lit up individually, and then there was some more information in the five people's minds, but it was the gods conveying new instructions to the five people.

At that moment, the five people closed their eyes slightly and stayed in place, digesting the information in their minds.

It turned out that the information was Describe the relevant regulations that need to be followed when entering this hall.

According to the regulations, after entering the hall, testers are prohibited from killing each other, and violators will be directly eliminated.

After understanding this information, the five Qingtian Qi continued to walk towards the hall Go. At this moment, there are dozens of testers in the hall.

Most of these testers are based on countries, gathering in twos and threes.

But some are players from several small countries forming a small group. , gathered together.

As soon as the five Qingtian Qi people arrived at the entrance of the main hall, they caused a commotion in the main hall.

"Huh! Look! Another person came, five more!"

As everyone was talking, Qingtian Qi and the other five entered the hall.

At this time, Qingtian Qi glanced around.

He saw that there were five gates in the hall.

But at this moment, those five gates were all closed..

Above the main hall, there are about fifty or sixty warriors, all sitting cross-legged, waiting for the other testers to arrive.

According to the test regulations, the test will only begin after all the testers have gathered.

And there is no Those who arrive at the hall within the specified time will be directly eliminated.

As for how to test, we will notify you later..

Chapter 2937

After seeing the situation in the main hall clearly, Qingtian Qi and the other five people were thinking of finding a place to sit down and wait.

From a certain corner in the hall, a clear voice sounded

"Ha ha!! Bai Jinyu, Xuanyuan Zhantian, and Zongtianjun, you three are here too! This is great, come on! Come! Come and wait here!"

I saw a tall and majestic figure standing in that corner.

This figure was none other than Long Xiaotian.

It turned out that Long Xiaotian had arrived first.

And beside Long Xiaotian, there were also sitting Lin Quan and Zifeng. , Yi Chenxi and Ying Zong, and other four contestants from Dakun Kingdom.

What surprised Qingtian Qi was that he did not see Fang Xueer. He remembered that Fang Xueer and Ying Zong were together at the beginning, but now he only saw Fang Xueer Ying Zong, but did not see Fang Xueer, thought it was more likely to be more serious than bad.

At that moment, Qingtian Qi and the others walked over at Long Xiaotian's greeting.

Bai Jinyue and Wu Xiaoyue also followed behind.

Wait for Qingtian Qi and the others When people passed by, the two sides greeted each other.

At this time, Qingtian Qi realized that he had not seen each other for a month. Except for Long Xiaotian, who was still at the bottleneck of the fifth level of Dzogchen Peak, and his strength did not seem to have changed much, the other people were all strong. Great increase.

Both Zifeng and Yingzong have broken through the bottleneck of the fifth-level peak and become fifth-level Dzogchen warriors; Yi Chenxi has also become the fifth-level peak warrior of the gold and water dual elements, and his overall strength is comparable to the fifth-level Dzogchen.

As for Lin Quan's strength, it has always been unclear. No one knows whether his strength has improved in this month.

In any case, Qing Tianqi saw that several people had greatly increased their strength, and felt in his heart Naturally, although this ancient training ground is very dangerous, it is indeed a place of great opportunities.

Normally, if a fifth-level peak warrior wants to break through to the fifth-level perfection, even if he has pseudo-spiritual qualifications, it will take two or three. Years have passed, and now less than a month has passed, and many people have achieved breakthroughs.

Of course, it is because of the help of those spiritual fruits that the strength of the trialists has been greatly improved.

Although there are many spiritual fruits in the mountain range, it seems that It is already very common, but only here, it is the blessing left by the gods to the trialists.

In fact, any spiritual fruit in the mountain range, even the lowest grade spiritual fruit, can be auctioned. Hundreds of thousands of gold coins. As for top-quality spiritual fruits like the 'Hundred Saint Fruit', their value is close to millions in external auctions.

At this time, Long Xiaotian saw Wu Xiaoyue and Bai Jinyue behind Qingtian Qi. , then asked:"Who are these two people?"

Qingtian Qi immediately introduced:"These two are friends that the three of us met on the road. This is Wu Xiaoyue from Baixi Kingdom, and this is Her Royal Highness Princess Yue from New Moon Kingdom."

"It turns out that they are friends of Baixi Kingdom and Crescent Moon Kingdom!"

At the moment, Long Xiaotian was polite and ignored him. His eyes were even more disdainful. He didn't pay attention to the players from the small country.

Afterwards, Qingtian Qi and others waited quietly with Long Xiaotian and others. The arrival of other players.

Next, more and more players came to the base.

Not long after, the Crown Prince of Northern Qin and his party also arrived.

After the Crown Prince of Northern Qin arrived, he looked for Ouyang Huai and 'Wang Xi' in the crowd. Naturally, nothing was found.

Gradually, there were more and more people in the hall. Except for Zhou Yanzhi and Fang Xueer, the contestants from the Dakun Kingdom had all arrived.

Just one hour before the gathering time, Long Xiaocai pressed on Wrinkling with a look of confusion

"Huh! It's really strange, why haven't any of those annoying guys from Da Jin arrived yet? This shouldn't be the case! With Lian Mingyu's strength, he should have arrived long ago."

As soon as he said this, Ying Zong on the side said

"yes! It's really strange. If two or three players from the Great Jin Kingdom didn't arrive, it would be understandable. Why didn't ten of them arrive? By the way, Ouyang Huai didn't arrive either. Ouyang Huai's strength makes it impossible for him to be in any danger! Why didn't he arrive?"

After hearing the conversation between the two, Qing Tianqi and others remained silent. They naturally knew the truth of the matter.

In fact, many people in the hall had noticed this problem at this moment.

Especially Ouyang Huai's delay in showing up, which made many Everyone is surprised..

Chapter 2938

In a corner of the hall, Wu Lei was even more puzzled by Ouyang Huai's absence.

Time passed unconsciously.

The deadline is less than a cup of tea away.

At this moment, there were more than 80 trialists gathered in the hall, which was nearly half less than the more than 100 people a month ago.

The dozens of missing people were basically in bad luck and had died in the second test.

If there are still people alive, it's time to arrive at the base now. After all, there is only half a cup of tea before the end time.

At this time, Long Xiaotian suddenly said:"The time is almost up. It seems that the people from the Jin Kingdom and Ouyang Huai haven't arrived yet. I think something happened. It's really unexpected!"

As soon as he said this, he should Zongjiu whispered:"Boss Long, I think this matter may have been done by the Prince of Northern Qin, and he is the only one with such strength."

After hearing this, Long Xiaotian's face changed slightly, and he nodded immediately: "Well! It's very possible. However, it's better to say less like this in the future. It would be bad if the Prince of Northern Qin hears it."

At this moment, Yi Chenxi, who had been silent all this time, suddenly felt deeply sighed

"Why! It's been so long, and Zhou Yanzhi hasn't arrived yet. I think it's going to be very bad!"

"Why! That guy has always been known as the 'luckiest Mr. Duobao', but this time he was not so lucky."

Zifeng couldn't help but sigh.

The relationship between these two people and Zhou Yanzhi has always been good. Now they saw that Zhou Yanzhi hadn't arrived yet, and they couldn't help but feel a little sad.

Qingtian Qi heard the sighs of the two people and realized that Zhou Yanzhi hadn't arrived yet. , he knew that the other party was probably dead, and he couldn't help feeling a little sad. He still had a good impression of Zhou Yanzhi.

Looking back on the first time the two met outside the Yuelai Inn, the other party's smile remained in his memory, Now he is gone, which makes people sigh.

Just when Qing Tianqi was sighing in his heart, a burst of laughter suddenly came from outside the hall.

"Ha ha!! Finally arrived, almost missed the time."

Hearing this laughter, the people in the hall looked outside the hall curiously. They all wanted to know who was the lucky guy who came back at the last moment.

Even Qingtian Qi looked curiously to the hall. He looked outside.

But at this moment, a figure walked in from outside the hall, but it was a round-faced young man in his twenties.

When the players from the Da Kun Kingdom saw the appearance of the person clearly, their eyes were filled with tears. Showing a look of surprise.

It turned out that the person was none other than Zhou Yanzhi.

However, what shocked Qingtian Qi and others even more was that not only did Zhou Yanzhi come back, but his cultivation level also broke through from the fifth level to the level of the fifth level Great Perfection Peak. , I don't know what adventures he had in this month, and his cultivation has improved by leaps and bounds.

At this time, everyone has a new understanding of him, the man with many treasures who is known as the "luckiest man".

After Zhou Yanzhi arrives, Not long after, the deadline finally arrived.

There was a sudden strange mental fluctuation in the hall, and then the marks on the foreheads of all the testers lit up, and there was an additional message in everyone's mind, that is: the second comprehensive item The combat effectiveness ranking test began.

Then, everyone had more information about the test rules in their minds.

After everyone digested the rule information, the five closed stone doors in the depths of the hall finally slowly opened, revealing themselves to everyone. There are five enchantment gates flashing with white light.

Looking at the five enchantment gates in front of them, everyone began to become nervous, and many people became restless.

Because what follows is the final step of this second experience. After the test, only the top seventy people can survive.

But now, there are eighty-seven practitioners in this hall.

In other words, there will be seventeen people who will be beaten by the gods after the test. The will is directly obliterated.

Among these eighty-seven people, thirteen are at the peak of the fifth-level Dzogchen, twenty-four are at the fifth-level Dzogchen, forty-one are at the peak of the fifth-level, and only nine are fifth-level warriors..

Qingtian Qi is one of those nine people.

The other is Wu Lei who still hides his cultivation..

Chapter 2939

At this time, Wu Lei was also very surprised by Ouyang Huai's disappearance, but he also suspected that the prince of Northern Qin did it.

However, after the five enchantment gates appeared, all the testers stared blankly at the light gate in front of them, but no one was the first to step forward.

It turns out that the second test rule is this: let the tester fight against the machine puppet beast. The machine puppet beast is divided into five levels.

The basic combat power of the machine puppet beasts in the first light gate ranges from 10,000 to 20,000 people.

The basic combat power of the mechanism puppet beast in the second light gate ranges from 20,000 to 30,000 people.

The basic combat power of the machine puppet beasts in the third light gate ranges from 30,000 to 50,000 people.

The basic combat power of the mechanism puppet beast in the fourth light gate ranges from five to one hundred thousand people.

The basic combat power of the machine puppet beasts in the fifth light gate ranges from ten to two hundred thousand people.

The ranking of the trialists' comprehensive strength is based on the points obtained by killing the puppet beasts. The higher the points obtained, the higher the ranking.

And every time a puppet beast is killed, the points obtained are not necessarily certain. It mainly depends on the basic combat power of the puppet beast.

The higher the basic combat power of the puppet beast is killed, the higher the points will be obtained.

In addition, the test time is limited, and each trialist only has one hour of test time.

The more puppet beasts the trialist kills within this hour, the more points he will gain.

If not even one is killed within an hour, it will be 0 points and it is destined to be wiped out.

However, according to the information given by the gods, those puppet beasts are extremely powerful.

Generally speaking, it is slightly stronger than a fifth-level warrior with the same combat effectiveness.

In other words, even the weakest puppet beast is stronger than a fifth-level warrior.

However, everyone in the venue looked at the five light gates in front of them, but no one came forward. The Northern Qin Prince finally couldn't help it anymore, and immediately snorted with disdain, stood up and walked straight into the last light gate.

As the Prince of Northern Qin entered the room for the first time, everyone began to commotion.

At that moment, Long Xiaotian stood up for the second time and laughed proudly: "Haha!! The top five in this test, Long will definitely get it!"

After saying this, Long Xiaotian looked at everyone's shocked eyes. , stepped into the third light gate, which was also the light gate with a power of 30,000 to 50,000.

With the Northern Qin Prince and Long Xiaotian taking the lead, everyone entered the corresponding light gate one after another.

At the moment, warriors whose strength is below the fifth level of Dzogchen have chosen to enter the weakest first gate of light.

Only a few fifth-level Dzogchen warriors and fifth-level Dzogchen pinnacle warriors chose to enter the second gate of light.

There were only two people like Long Xiaotian who entered the third light gate.

One was Lin Quan, and the other was Zhou Yanzhi.

Only one person entered the fourth gate, and that was Bai Jinyu.

According to the information given by the gods, the more you enter the higher light gate, the more unexpected gains you will have.

This information is still very tempting, and this is also the motivation for the gods to encourage trialists to challenge higher-level puppet beasts.

Although no one knows what the unexpected harvest will be, the gods will deliberately bring it up, so it must not be simple to think about.

However, no one dared to try it easily.

After all, these puppet beasts are extremely powerful, and even warriors with the same combat power may not be their opponents, so no one dares to choose a puppet beast with a higher combat power than themselves to fight.

In the blink of an eye, there were only nine people left in the hall.

That is to say, there are only nine fifth-level warriors, Qingtian Qi is also among them, and one of them is Wu Lei who hides his cultivation.

In the main hall, Qingtian looked at the light door in front of him, thinking about which light door he should choose to enter.

According to the information given by the gods, if you kill a puppet beast with a basic combat strength of 10,000 people, you will get 1 point.

Killing one with a force of 20,000 people is worth 5 points, killing one with a force of 30,000 is worth 10 points, and killing one with a force of 50,000 is worth 30 points.

At the moment, Qing Tianqi compared them in his heart.

According to the information given by the gods, the puppet beast's strength has increased, and its points have also doubled.

Maybe it's safer to kill low-level puppet beasts, but it will be slower to gain points this way.

Moreover, the test time is only one hour.

Within an hour, I can kill at most twenty puppet beasts with a power of ten thousand, but if I continue like this, I can only get twenty points.

If I can kill a puppet beast with the strength of 50,000 people, I can get thirty points at a time. Maybe I can kill more than one puppet beast with the strength of 50,000 people in one hour.

This way you can earn more points quickly.

It seems that it is better for me to choose to enter the fourth light gate. Only in this way can I get more points and make it easier to enter the top five.

The basic combat power of the puppet beasts in the Fourth Light Gate ranges from the power of five people to the power of 100,000 people.

The weakest one has the strength of 50,000 people.

Bai Jinyu chose the fourth door.

Bai Jinyu's basic combat ability can reach the strength of more than 55,000 people after using the talent inheritance. Moreover, he also has the top martial art "Flower Phantom Step" with double the amplitude of the speed, so he is confident that he can deal with the strength of 50,000 people. The puppet beast.

After Qing Tianqi uses Mad God to transform, his combat power can also reach 50,000 people, but his blood shadow escape method and phantom walking step increase his speed by twice as much, which is equivalent to the effect of 'streaming light phantom step'.

Calculating this, Qingtian Qi is also confident that he can defeat the puppet beast with a basic combat strength of 50,000 people.

Thinking of this, Qingtian Qi made a decision..

Chapter 2940

He decided to enter the fourth gate test just like Bai Jinyu.

By the way, since it is a puppet beast, maybe...

Qingtian Qi suddenly thought of a question, and a hidden smile appeared at the corner of his mouth.

At this moment, a fifth-level warrior sitting not far from him sighed deeply, and then looked back at Qingtian Qi and others with a sad look on his face.

"Why! Everyone, we all know that as a result of this test, only the top seventy people can survive, and the rest will be wiped out. The strength of the nine of us is only level five, and it is impossible to escape this disaster. ah!"

The fifth-level warrior's words were sad, and he looked at the light gate in front of him and said nothing.

At this time, another fifth-level warrior sighed: "Hey! Not to mention that the nine of us cannot escape this disaster, even those fifth-level peak warriors cannot escape intact, and there will be many people who will be wiped out like us!"

After hearing what they said, the other fifth-level warriors also looked sad.

They all knew in their hearts that it was almost impossible for the nine of them to pass this test, and even the top fifth-level warriors might not be able to. After passing this level, let alone them?

Looking at the sad expressions of those fifth-level warriors, Qingtian Qi could not help but feel sympathy for them.

At this moment, a fifth-level warrior suddenly stood up and said with a tragic expression. : "Everyone! We still have to face what we have to face, and we have to do some things even if we know that they will fail. As long as you don't give up, there is still a glimmer of hope. If you give up, even the last bit of hope is gone. That's all for now, everyone, take care, I'm going first!"

After saying this, the fifth-level warrior walked toward the first door with a tragic face.

Looking at the leaving figure of the fifth-level warrior, all the fifth-level warriors felt a trace of tragedy in their hearts.

Qingtian Qi also felt in his heart. I was extremely emotional and thought to myself: "If I face another quasi-war god inheritor in the future, will it be the same as they are today? It's been less than a hundred years since the demon's seal was broken. Within this hundred years, there must be someone between me and that person who will inherit the inheritance of the God of War. Just like this person said: There are some things that you have to do even if you know you will fail."

Just when Qing Tianqi was sighing in his heart, a harsh mocking voice sounded from the corner of the hall.

"Ha ha!! What a bunch of pitiful and pathetic guys! Now you know how to lament your fate?"

"Now that you know that today is here, why did you enter this ancient training ground to die without overestimating your capabilities? To put it bluntly, don't you want to make some gains from this? Since you want to make a profit, you must be prepared to die! There's no one to blame!"

Hearing this, everyone in the hall became angry and turned to look at the speaker.

Qingtian Qi was also moved and looked back.

Only to find that the person who spoke was a blue-haired young man in his mid-twenties. Qing Tianqi looked familiar to this young man, because the person in front of him was Wu Lei, who was the last one to arrive at the base in the first test.

However, at that time, Wu Lei's cultivation level was fourth level, and now he is fifth level. level.

But it was said that when those fifth-level warriors heard Wu Lei's taunt, some of them immediately became angry.

At that moment, someone sneered:"Ha! I thought who was making sarcastic remarks, aren't you Wu Lei from Black Rock Country? I remember that when you first entered here, you were only a fourth-level warrior. Now that you have only reached the fifth level, you still say such big words. Don't you think it's a bit ridiculous?"

"yes! Wu Lei, what qualifications do you have to criticize us? You are just a fifth-level warrior. Even if we can't pass this level, you may not be able to pass it either. What are you proud of?"

"Ha ha!! What a bunch of stupid and pathetic guys!"

Wu Lei laughed, walked up to the fifth-level warriors, and glanced at Qingtian Qi and others with disdain.

"Let me tell you poor guys, I am different from you! Do you really think that I am a fifth-level warrior? Open your eyes wide and take a good look!"

After saying this, Wu Lei suddenly exuded a terrifying aura, and a powerful spiritual pressure spread around, immediately forcing several fifth-level warriors who were closer to him to retreat. After a moment,

Wu Lei He spread out his momentum, and the strength of the fifth-level Thunder Elephant
Dzogchen peak warrior was undoubtedly revealed...
