

God level 2991

Chapter 2991

"That bastard Xuanyuan Zhantian's internal organs have been shattered by me. Unless he knows the 'Reincarnation Technique', even the gods can't save him. In a few days, his body would rot in the belly of the mountain. Let's leave quickly too!"

"The spiritual power contained in the six golden inner elixirs in this possessed puppet can only sustain my activities for twenty-six days. After more than twenty-six days, the spiritual power of the inner elixir is exhausted. Without power, it is difficult for me to operate this puppet. Unless you still have six gold-based inner elixirs in your body to replenish. If not, we must do it in these twenty-six days. Find the pantheon within the sky"

"Report to ancestor! Xiaotian only has two gold-type inner elixirs in his body!"

"That's it! Then we should not waste time and quickly find the way to the temples. This time we must get a Fire God Pill so that our Long family can produce another ninth-level warrior."

"yes! Ancestor!"

At that moment, everyone started looking for a way to the third floor.

It turns out that the so-called 'god-possessed puppet' is not as simple as a top-quality auxiliary spiritual weapon. It is a collection of a 'horcrux' and a metal spiritual weapon. It can also be said to be a top-quality horcrux used by gold soul mutants. The so-called 'god-possessed' of this god-possessed puppet is actually a wisp of the user's 'split soul'. The god-possessed puppet is extremely powerful. Weak, mainly related to the strength of the soul power of the divided soul.

The stronger the soul power of the divided soul, the stronger the power of the possessed puppet. It has nothing to do with the ferocious beast inner elixir installed in the re-attached puppet.

The six elements in the installed re-attached puppet The function of a gold-based inner elixir is only to serve as a source of spiritual power to keep the puppet running.

The higher the level of the gold-based inner elixir, the longer it will naturally keep the puppet running.

But once the spiritual power in the inner elixir is exhausted, The puppet was unable to operate.

At first, Long Xing deceived Long Xiaotian, saying that the strength of the possessed puppet came from the six gold-based inner elixirs. That was because he did not want Long Xiaotian to know the secret of his lurking in.

In fact, the puppet was actually manipulated. It is Long Xing's split soul hidden in the 'soul crystal' in the puppet's brain.

The stronger the soul power of this split soul, the stronger the power it can naturally control the gathered vitality.

Generally speaking, if the split soul's soul power If it can reach the level of a sixth-level warrior, the basic combat power of the god-possessed puppet can reach half of that of a sixth-level warrior. The soul of Long Xiaotian's possessed soul on the god-possessed puppet has a soul power equivalent to that of a seventh-level warrior. That is, soul power level five.

But he is a fire warrior, and although this possessed puppet is a soul weapon, it is also a metal spiritual weapon. It needs to rely on metal energy to operate, which is not in line with the energy he cultivates.

So Long Xiaotian's split soul was forced to operate, and his strength was greatly reduced. He could only exert the basic combat power of 230,000 people.

What made Long Xing even more depressed was that he could not use martial arts or use the gold element. The effect of the sword light, after all, he is not a gold-type warrior.

If it is used by a soul mutant who practices gold-type vitality, and is also a split soul of the fifth-level soul power, controlling this god-possessed puppet, it can display at least two effects. With the fighting power of a million men, he can also use the gold martial arts he already knows.

In fact, Long Xing has no choice. Over the past nine hundred years, he has spent countless hours in order to enter this ancient training ground and explore its secrets. Thoughts.

In the end, he researched and found that although ninth-level warriors could not enter, their souls could enter hidden in the soul crystal.

After this discovery, Long Xing spent a lot of effort to get the god-possessed puppet. A top-quality soul weapon that can be compared to a semi-divine weapon.

It's a pity that the god-possessed puppet needs to be driven by golden spiritual energy. Long Xing is a fire element warrior, and his soul's perception of the fire element is very handy. He can control the fire spiritual energy. It is very easy, but it would be very difficult to control the golden spiritual energy.

However, with his powerful soul power, Long Xing can barely control the golden spiritual energy after more than ten years of training, but he cannot exert the power that the possessed puppet should have.

But Even so, Long Xing's split soul also exerted the power of the possessed puppet to a basic combat strength of 230,000 people.

However, he was unable to use martial arts like a gold-type warrior, so his overall strength was still inferior to that of a sixth-level warrior. But such strength can already sweep across the ancient training ground..

Chapter 2992

Regarding the split soul, a warrior who has cultivated to the ninth level and has a strong enough soul body can usually split a ray of split soul.

The original Teng Xiaoshan also had his own soul.

However, the spirit power of the souls separated by ninth-level warriors will not be too strong, and the strongest ones can only reach the seventh-level level.

In other words, the current soul in the possessed puppet is already the strongest soul that can be separated from the dragon soul.

As for the method of dividing souls, eighth-level warriors cannot do it.

However, soul mutants can still do it even if they are not at level nine.....

Because among the soul skills is the 'Soul Splitting Technique', the split souls can continue to grow and become equivalent to a second self.

However, this soul-dividing technique has a huge hidden danger, that is, the soul power of the divided soul cannot be stronger than the main soul.

If the split soul is stronger than the main soul, it will bite back, swallow up the main soul, take the place of the main soul, and become the main soul.

Moreover, those split souls have their own thoughts, and once they are beyond the sensing range of the main soul, they are difficult to control.

But on the other side, the earth python and the blue sky were scurrying around in the middle of the mountain.

I don't know how long it took, but the ground python got into a cave in the middle of the mountain.....

Qingtian Qi immediately ordered the ground python to stop escaping.

In the cave, the ten-foot-long ground python opened its mouth wide.

Qingtian Qi dragged Lin Quan's body out of the ground python's mouth. This movement made his injuries worse and he vomited another mouthful of blood.

At this moment, he was extremely injured and on the verge of death.

As soon as he climbed out of the giant mouth of the ground python, Qingtian Qi glanced at the surrounding cave walls and found that the surroundings were dark and damp. He should be in a very deep place, which was relatively safe.

At that moment, he didn't have time to think too much, threw Lin Quan's body aside, and casually attacked the python.

The earth python immediately turned into a red light and shot into the palm of his hand, and its huge body immediately turned into a pile of broken soil.

Afterwards, Qing Tianqi released the ball again.

As soon as Qiuqiu came out, he was extremely surprised to see Qingtian Qi was so seriously injured, and his eyes showed sadness.

But Qingtian Qi had no time to explain too much to it, so he only ordered it to watch quietly from the side.

After doing this, Qingtian Qi's consciousness began to become a little blurry, and a wave of tiredness came over his mind, making him just want to have a good sleep.

Qing Tianqi immediately bit the tip of his tongue and let the pain wake him up. He knew that he must not lose consciousness. If he lost consciousness at this time, he would definitely die.

Afterwards, Qingtian Qi quickly took out all the healing elixirs and spiritual fruits and swallowed them all.

This time, he was severely injured, and his internal organs were shattered. He didn't know whether he could survive such a serious injury, so he had no choice but to treat him like a dead horse.

After swallowing those elixirs and fruits, Qingtian Qi sat cross-legged, braced himself, and began to forcibly circulate the yin and yang cyclones in the sea of qi.

As the yin and yang cyclones in the sea of qi rotated at high speed, the three hidden doors in Qingtian Qi's body were fully opened and began to frantically absorb the yin and yang qi between heaven and earth.

In this ancient training ground, not only the concentration of the five elements of vitality is dozens of times that of the outside world, but also the concentration of the yin and yang qi is dozens of times that of the outside world.

In just an instant, a huge black two-color cyclone formed around the blue sky, spinning at high speed and making a "rumbling" roar.

Even Qiuqiu on the side was horrified and stepped back unconsciously, not daring to get close to him.

But it was said that as soon as the Yin and Yang Qi poured into Qingtian Qi's body, part of it flowed into the Yin and Yang cyclone in the Qi Sea, part of it flowed into the cells outside Qingtian Qi's body to start tempering his body's bones, and part of it flowed into Qingtian Qi's body to start automatically repairing his internal organs..

Soon, Qing Tianqi was surprised to find that the Yin and Yang Qi could repair injuries many times better than the Jingyuan Qi.

This seemed to make him understand why many doctors always talk about 'harmony of yin and yang' when treating others. It seems that these two qi of yin and yang are naturally suitable for body shaping and healing.

However, what surprised Qing Tianqi even more was that the Yin and Yang Qi refined and improved the body's strength ten and a hundred times faster than the Jing Yuan Qi. He could vaguely feel that his physical strength was improving.....

This time, Qing Tianqi opened the third door, and his body evolved for the third time, and he could continue to cultivate physical strength. Therefore, under the tempering of yin and yang, his physical body was like rain after a long drought, and his physical strength was rapidly improving..

This discovery immediately surprised Qingtian Qi, knowing that there was hope for recovery..

Chapter 2993

This discovery immediately surprised Qingtian Qi, and he knew there was hope for recovery.

At that moment, he suppressed the excitement in his heart, quickly calmed down, and absorbed the yin and yang energy between heaven and earth with all his strength.

At the same time, he was also distracted by refining the medicinal power of those elixirs and fruits in order to quickly heal his injuries.

In this way, Qingtianqi healed his wounds silently in the cave, while Qiuqiu was not far away, guarding him with all his heart.

Three days later, Qing Tianqi's injuries finally stabilized. The broken internal organs either healed or grew again, and some of the congestion in his body was also excreted by Qing Tianqi.

It's just that Qing Tianqi's face is still pale and his body is still extremely weak.....

However, the injury finally stabilized.

At this moment, Qing Tianqi no longer just treated the injuries. He took out some spiritual fruits from the God of War Order space and used them for multiple purposes. While treating the injuries, he also cultivated the five elements of vitality.

Because Qing Tianqi knew that his current injury was in the recovery period, and there was no point in being anxious. He could only wait to recover slowly, and simply used Yin and Yang Qi to heal his injuries while cultivating the Five Elements Qi.

Just like that, without knowing it, another seven days passed.....

Qing Tianqi's originally pale face gradually turned rosy.

But on this day, Qing Tianqi, who was closing his eyes to heal his wounds, moved his eyelashes slightly, and the black and white cyclone surrounding him suddenly collapsed.

Immediately, Qing Tianqi opened his eyes with a look of surprise and laughed: "Haha!! I didn't expect this to be a blessing in disguise. Not only did my injuries recover, but my internal organs were also strengthened for the second time. This internal strengthening also increased my physical strength. It's been strengthened a lot!"

After saying this, Qingtian Qi stood up and performed a set of punches. He felt that his injuries were indeed completely healed, and he didn't feel any discomfort despite the strenuous exercise.

This immediately made Qingtian Qi feel a lot more at ease.

However, what surprised Qing Tianqi even more was that after these ten days of tempering the body with yin and yang, the second rebirth and strengthening of his internal organs increased his physical combat effectiveness to the strength of more than 13,000 people. Using the Mad God Transformation Behind him, the physical combat power was nearly 40,000 people.

And these spiritual fruits that Qingtian Qi had not had time to refine in these days, he has now refined a small part of them.

With the help of those spiritual fruits, Qingtian Qi's five elements of vitality have been greatly improved.

Although the vitality of the three systems of water, wood, and fire is still at the fifth level, and the metal and earth are still at the fourth level, the vitality of the five systems has greatly increased on the original basis. Now his power of vitality has increased from the original strength of 35,000 people to The strength of more than 40,000 people.

Taken together, Qingtian Qi's current basic combat strength has reached 80,000 people.

This time, not only was the injury healed, but his strength was greatly improved, and Qing Tianqi was in a good mood.

Of course, the reason why Qingtian Qi's strength has improved so quickly is also because of the effects of a large number of spiritual fruits and secondary strengthening of internal organs.

He has been in this cave for ten days.

In total, it has been eleven days since he entered the Dark Palace.

According to the rules of the game, he must enter the Corridor of Life and Death within thirty days, otherwise he will be obliterated.

It seemed like he had to hurry up and get on his way.

It takes four days to get to the entrance teleportation array into the third level of the pantheon from here. What will happen after entering the pantheon?

By the way, I wonder where Long Xiaotian and the others are now? This second level is very big. They don't have a map. It's not easy to find the entrance teleportation array of the temples!

When Qingtian Qi thought of the map, he thought of Lin Quan's body.

At that moment, he walked to Lin Quan's body.

Although the cave was dark and damp, Lin Quan had long been chopped into charcoal by Chen Ting, but there was no sign of decay.

At that moment, Qingtian Qi began to search Lin Quan..

Chapter 2994

Soon, Qingtian Qi found two maps from Lin Quan.

One of them was a map from the entrance of the Dark Hall to the entrance of the Temple of Gods. Qingtian Qi also had it, and it was given by Emperor Qing.

The other one is an internal map of the temples.

At that moment, Qingtian Qi carefully put the map away...

In addition, Qingtian Qi also found several bottles of elixirs and some wood-based martial arts on Lin Quan.

One of the wood-type superior martial arts that Qingtian Qi was very interested in was the 'thorn vine technique' that Lin Quan once used.

This 'Thorn Vine Technique' not only has a stronger binding function than the 'God Binding Technique', the thorns on the vine are as hard as gold and iron, and also have the effect of injuring the enemy.

More importantly, those vine thorns have paralyzing toxicity and can reduce the enemy's ability to move. It can be said that although this 'thorn thorn technique' is only a superior martial skill, it is a very practical martial skill.

At that moment, Qing Tianqi put away the 'thorn vine technique' with satisfaction.

However, what surprised Qing Tianqi the most was that he found a top-notch defensive weapon, the Hundred Flowers Armor, from Lin Quan.

For a long time, what Qingtian Qi lacked most was the best defensive spiritual weapon, but now they got one.

If he had been wearing top-quality spiritual armor last time, he wouldn't have been so seriously injured by the possessed puppet.

After all, the defense of top-grade spiritual armor is different from that of ordinary spiritual armor. With this top-grade spiritual armor, Qingtian Qi's strength has been greatly enhanced.

At that moment, Qingtian Qi happily put away the 'Hundred Flowers Armor', and then released a ball of earth-centered flames, burning Lin Quan's body to ashes.

After doing this, Qing Tianqi wanted to ask Qiuqiu to leave.

But at this moment, he suddenly remembered something and took out a simple magic talisman from his body. This was the invisibility talisman he secretly picked up.

Through the dim light, Qingtian Qi vaguely saw several ancient characters on the talisman.

Qingtian Qi had studied ancient characters and immediately recognized them carefully.

After this recognition, Qingtian Qi was immediately overjoyed

"It turns out this is the invisibility charm! It seems that Long Xiaotian can become invisible thanks to it. Ha ha!! This is really great. I need to figure out how to use this 'invisibility talisman'. Even if I encounter a god-possessed puppet controlled by Long Xing next time, I will have hope of escaping."

Speaking of this, Qing Tianqi's face was full of joy.

If he wanted to get out of the dark temple, he had to enter the temples, because only the temples have teleportation arrays.

As long as he enters the temples, he will be with Long Xing. It is unavoidable that the controlled god-possessed puppets meet.

Although Qingtian Qi's strength has greatly increased this time, if he encounters the god-possessed puppets again, he will still have to run for his life. As for whether he can escape the second time, Qingtian Qi himself had no idea.

However, with this invisibility talisman, Qingtian Qi had the confidence to escape.

"Ha ha!! It seems that now is not the time to leave in a hurry. I will study how to use this invisibility talisman first!"

At that moment, Qingtian Qi began to study the invisibility talisman in the cave.

However, Qingtian Qi took the 'invisibility talisman' and studied it for a while, and found that no matter what kind of energy was input, the talisman did not react at all, and he felt strange in his heart..

Then, he tried to use his soul power to probe in.

As soon as he probed in, he was surprised to find that there was a mass of blood containing the mark of the soul in the talisman.

After Qingtian thought about it, he understood that it turned out that this 'invisible talisman' It is necessary to shed blood to recognize the owner.

Only after dripping blood to recognize the owner can it be used by others.

Even if other people get this talisman again, they cannot use it.

However, this is not a problem for Qingtian Qi, because he can use soul power Exorcise the blood in the talisman, and then drip his own essence and blood to identify the owner.

After understanding these reasons, Qingtian Qi felt excited, and began to pour soul power into the talisman to clear the blood.

In about one meal, Qingtian Qi After finally clearing the blood from the talisman, he added a drop of his own essence and blood.....

The invisibility talisman immediately absorbed Qingtian Qi's essence and blood, and then the spiritual light bloomed, and a red light shot out from the talisman into the center of his eyebrows..

Chapter 2995

At that moment, Qing Tianqi felt that there was a spiritual connection between himself and the invisibility talisman, which made him very happy.

"Ha ha!! It seems that this invisibility talisman has successfully recognized its owner. I will try to see the invisibility effect now."

Thinking of this, Qingtian Qi thought, and input a burst of vitality into the invisibility talisman.

Immediately, the invisibility talisman emitted a burst of strange energy fluctuations, wrapping Qingtian Qi, and then the entire space fluctuated strangely. Qingtian Qi He just disappeared out of thin air, and even his breath disappeared completely.

Qiuqiu on the side blinked his small eyes, showing a look of astonishment.

Just when Qiuqiu was surprised that Qing Tianqi was missing, the space fluctuated again, and Qing Tianqi's body The shape appears again

"Ha ha!! really not bad! The magic of invisibility is indeed a magical skill! I'll study it more carefully!"

At the moment, Qingtian Qi studied it happily again.

After some research, Qingtian Qi noticed some details.

That is, when using the invisible talisman, in order to maintain the invisible state, one needs to continuously input vitality. If the input of vitality is stopped, , the invisibility state will disappear.

This means that most people cannot maintain invisibility during battle.

Because many people cannot fight while inputting vitality into the talisman at the same time, Long Xiaotian, in the previous battle, Its invisibility status disappears.

However, this is not a problem for Qingtian Qi. He can be distracted for five purposes, so he can naturally maintain his invisibility status during the battle. This is good for his combat effectiveness. , there is simply an immeasurable improvement.

This discovery made Qingtian Qi ecstatic, and his heart suddenly became alive.

He originally thought about how to deal with the invisible puppet controlled by Long Xing next time?

Now there are Now that I have this 'invisible talisman', I have a way to deal with him.

Huh! Long Xing, the traitor, colluded with the Holy Lord to harm my ancestors of the five races, and then massacred the children of my five races in order to plot the territory of my Five Saints Kingdom. Such a deep hatred must be avenged, but this traitor is too strong, and our five tribes are not yet sure of dealing with him.

However, now Long Xing only has his soul here. If I kill his soul, I will definitely Long Xing was traumatized and his cultivation level dropped a lot. This was also a rare opportunity for revenge!

Thinking of this, Qing Tianqi's eyes showed joy, and soon, he wanted to solve another problem.

Although this It's a rare opportunity for revenge, but Long Xing's ability to control the god-possessed puppet is too strong.

Even if his strength has greatly increased now, his attack can't cause any harm to Long Xing!

The only one who can cause harm to Long Xing is 'God-Destroying Thorn'.

However, if he judged correctly, the soul power level of Long Xing's split soul should be the level of a seventh-level warrior.

His soul power level is only level four, which is the level of a sixth-level Dzogchen warrior, which is the same as The gap between him is quite big! If it weren't for the fact that my God-Destroying Thorn is specifically designed to restrain the 'soul body', it might not be able to cause much harm to him." It turns out that

Qingtian Qi's 'God-Destroying Thorn' can only target souls with lower power levels than his own. people causing harm.

The lower the soul power level is than one's own, the greater the damage caused.

In other words, Qingtian Qi's God-Destroying Thorn will not cause any harm to seventh-level warriors, because the opponent's soul power level is higher than his own.

Even against a sixth-level Dzogchen peak warrior, the damage from the God-Destroying Thorn is extremely slight.

However, if dealing with a fourth-level warrior, Qingtian Qi's God-Destroying Thorn can defeat the opponent with one move and even make him go crazy on the spot.

Of course, because the God-Destroying Thorn specifically restrains the soul body and increases the damage to the soul body by dozens of times, his Soul-Destroying Thorn can only cause slight damage to Long Xing's seventh-level soul.

It seems that even if he has the invisibility talisman, it will be difficult to kill Long Xing's split soul. After all, his 'God-Destroying Thorn' does too little damage to Dragon Xing.

Dragon Xing may be able to withstand hundreds of his God-Destroying Thorn attacks, but he cannot withstand one attack from Dragon Xing. In front of Dragon Xing, he can only be killed instantly.

Qing Tianqi believed that even with the help of the invisibility talisman, Long Xing's split soul would definitely be able to seize two or three opportunities to attack him among the hundreds of God-Destroying Thorn attacks.

As long as Long Xing's split soul can attack Qing Tian Qi once, Qing Tian Qi will definitely die.

Unless Qingtian Qi can enhance the power of the God-Destroying Thorn, the more powerful the God-Destroying Thorn is, the fewer times it needs to be released, and the chance of Qingtian Qi being attacked by Long Xing's split soul will be reduced. Only in this way can he have a chance to defeat Long Xing's split soul..

Chapter 2996

At that moment, Qing Tianqi thought to himself,

"It seems that I can only increase the power of the God-Destroying Thorn. To increase the power of the God-Destroying Thorn, the only way is to increase the soul power level. There are many ferocious beasts in this second level jungle. I will kill some ferocious beasts here first and absorb their soul power to see if I can raise my soul power to the peak of level four."

"If the soul power can be raised to the peak of level four, the damage to Long Xing's split soul should be doubled!"

Thinking of this, Qing Tianqi decided in his heart that he would not go to the third floor of the pantheon for the time being. He would kill the ferocious beasts on the second floor and practice the 'Six Transformations of Heavenly Soul Art' to increase his soul power.

After making this decision, he took the He walked out of the cave with the ball and went to kill the ferocious beast outside the cave.

Half a day later, somewhere in the jungle,

Qing Tianqi was holding the "Double Swords of Chasing the Sun and Chasing the Moon" and wearing the "Hundred Flowers Armor", looking fully armed.

And Qiuqiu is also wearing Ruyi battle armor, looking as powerful as a battle-armored beast.

But at this moment, Qingtian Qi and Qiuqiu have a lot of blood on their bodies. And right in front of them, two leopards at the peak of the fifth-order Dzogchen The ferocious beasts were all looking at the person and beast opposite them in horror.

"Ha ha!! Ball ball!! Adding these two together, we should have killed sixty-three, right? Now one person each, let's see who is faster?"

"Roar!"

As soon as Qiuqiu heard this, he immediately roared, and with a flash of figure, he rushed towards one of them first.

Seeing this, Qingtian Qi smiled slightly: "Little guy, how dare you play tricks on me and want to be the first to attack? ? However, you are still not fast!"

At the same time as he finished speaking, Qingtian Qi was already killing another ferocious beast.

However, the other ferocious beast saw Qiuqiu attacking its companion and quickly went to help, but did not expect Qingtian Qi to also kill it.

That ferocious beast Frightened and angry, he turned around to deal with Qingtian Qi, but suddenly he felt a stabbing pain in his head, and his mind immediately became confused.

But the ferocious beast was hit by Qingtian Qi's God-Destroying Stab.

Before the ferocious beast could recover from the confusion, When it woke up, Qingtian Qi was already in front of it like lightning, and cut off its head with a sword.

The beast didn't understand how it died until it died?

Qingtian Qi killed the beast If the beast kills, he immediately activates the 'Sixth Transformation Heavenly Soul Technique' to absorb the soul power of the beast.

A ray of red light flies out of the beast's head and penetrates directly into the center of his eyebrows.

On the other side, Qiuqiu and his opponent After a few rounds of fighting, he slapped the beast away with one claw.

The beast groaned miserably, fell to the ground, then quickly got up, and was about to escape from the scene.

But unexpectedly, it was penetrated by Qiuqiu's divine light of destruction. He passed by and was killed on the spot.

Qingtian Qi activated the 'Six Revolutions of Heavenly Soul Technique' again and absorbed the soul power of the ferocious beast.

When the second red light penetrated Qingtian Qi's eyebrows, Qingtian Qi suddenly felt that his head was swollen. He felt that this was because he absorbed too much soul power but failed to refine it in time.

Along the way, Qingtian Qi and Qiuqiu killed sixty-three ferocious beasts in a row.

As long as the ferocious beasts' soul power dispersed outside, They were all absorbed by Qingtian Qi.

However, Qingtian Qi only absorbed them, but did not have time to convert these soul powers into his own soul power.

Now, Qingtian Qi's sea of consciousness is filled with red soul power mist, making his consciousness The sea swelled a little, and it was almost reaching the limit of what he could bear.

At that moment, Qingtian Qi said:"Qiuqiu, you have absorbed enough soul power today. I need to find a place to refine these soul powers first."

"Roar!"Qiuqiu growled, and immediately nodded obediently.

Afterwards, Qingtian Qi dug out the ferocious beast's inner elixir and left the scene with Qiuqiu.

Soon, he found a cave in a valley.

Qingtian Qi Let Qiuqiu guard the entrance of the cave while he refines his soul power in the cave.

The cave is dry and ventilated, but it is a good place to rest.

Qingtian Qi chose a clean place, sat cross-legged, and then put his The power of his thoughts slowly returned to his own sea of consciousness.

In the sea of consciousness, Qingtian Qi's soul body had his eyes slightly closed, and his body was emitting a faint five-color light.

And surrounding the soul body was some light red mist.

Suddenly, Qingtian Qi's soul The body slowly opened his eyes and looked at the red mist around him, with a satisfied smile on his lips.

"good! I hunted sixty-three ferocious beasts this time and absorbed enough soul power. I wonder to what extent my soul power will increase after refining these soul powers? Don't waste time, just refine it immediately"..

Chapter 2997

Thinking of this, Qing Tianqi felt a little excited and immediately sat cross-legged in the sea of consciousness.

At this moment, he is a soul body. The feeling of the light-transformed soul entity is very different from that of controlling the body. It has a feeling of weightlessness.

Since completing the first turn of the 'Six-turn Heavenly Soul Technique', Qingtian Qi has been able to take his consciousness back into his soul body and control its actions.

But Qing Tianqi sat cross-legged in the sea of consciousness, then opened his mouth and took a big mouthful of red mist, and then began to silently operate the "Soul Refining Technique" in the "Six Revolutions of Heavenly Soul Technique" and began to refine the soul power.

With the activation of the 'Soul Refining Technique', Qingtian Qi's soul body also began to emit a faint red light.

At this moment, the outside world is also undergoing strange changes.

I saw Qingtian Qi sitting quietly in a corner in the dim cave.

Suddenly, a faint spiritual light lit up in the back of his head.

The spiritual light was colorful, although it was very weak, but it looked very dazzling in the dim cave.

Qiuqiu, who was guarding the entrance of the cave, saw this phenomenon and opened his eyes wide in surprise, with a look of confusion on his face.

However, Qiuqiu is very spiritual. It knows that Qingtian Qi must be practicing something and must not disturb him at this moment. Therefore, although Qiuqiu is extremely curious, he still lies at the entrance of the cave to guard.

And just when Qiuqiu was planning not to watch Qing Tianqi's changes and concentrate on guarding the entrance of the hole.

It suddenly felt sleepy inexplicably, and the sleepiness was so strong that it couldn't help but yawn.

But it was still thinking about Qing Tianqi's order to guard the entrance of the hole, so Qiuqiu tried hard to keep its eyes wide open and not let itself fall asleep.

At the moment, Qiuqiu kept dozing off, his head like a chicken pecking at rice.

In the end, Qiuqiu couldn't resist the sleepiness, so she gently closed her eyes, lay down on the ground and fell asleep.

But just a moment after Qiuqiu fell asleep, its head raised strangely again, and its eyes slowly opened again.

But at this moment, the look in its eyes and the temperament it exudes are completely different from before.

If Qing Tianqi saw Qiuqiu like this now, he would definitely be horrified and would not dare to recognize him.

The ball woke up again, then slowly turned its head to look at Qing Tianqi in the cave, with murderous intent in its eyes.

Then, a sneer appeared on the corner of its mouth, and it even whispered human words.

"What an interesting human being! Not only has he cultivated the five elements of vitality, but he is also a soul mutant! It's a pity that now is not the time to kill you. After saying this

, Qiuqiu turned to look outside again and sneered: "It's really interesting here. I feel some familiar atmosphere. I wonder if there is anything interesting behind it?" Forget it, I'd better sleep for a while and recover my soul power first."

After Qiuqiu said this, he closed his eyes again and dozed off.

However, as soon as Qiuqiu fell asleep this time, he woke up from his sleep with a jolt.

At that moment, he looked around blankly, and there was an inexplicable feeling in his heart. The ground was throbbing.

Just now, it felt that it had had a dream, a very real dream.

In the dream, it could speak like a human being.

But what it couldn't believe was that in the dream, it actually It wants to kill Qingtian Qi, which it cannot believe and cannot accept.

In its heart, Qingtian Qi is its only relative and the most important person to it. How could it kill Qingtian Qi?

Thinking of this , Qiuqiu's heart was frightened, and he quickly looked back.

When he saw Qingtian Qi still sitting in that corner, safe and sound, he breathed a sigh of relief.

At that moment, Qiuqiu shook his head vigorously, trying to remove the weird one from before. The dream cleared his mind, and then he guarded the entrance of the cave with all his concentration..

Chapter 2998

But on the other side, Qingtian Qi was still concentrating on refining soul power.

At this moment, he was controlling his soul body in the sea of consciousness, so he was unaware of everything happening in the outside world.

In fact, even if there was lightning striking beside him now, Qingtian Qi would not be able to notice it.

Because in order to control the soul body, Qing Tianqi took all his six senses back into the soul body. His physical body was equivalent to the "six senses being sealed". Naturally, he had no idea what was happening in the outside world.

In this way, Qingtianqi was refining his soul power in the cave, and Qiuqiu was guarding the entrance of the cave.

Time flies like an arrow, and one day has passed before you know it.

But on this day, Qing Tianqi, who had been sitting in the corner, suddenly moved.

First, the light in the back of his head slowly converged, and then he opened his eyes.

After opening his eyes, Qing Tianqi's face was filled with joy.

It turns out that after a day of crazy refining, Qingtian Qi finally refined all the soul power.

"Ha ha!! This time the refining soul power has really increased a lot! Although my soul power has not reached the peak of level four, the power of the God-Destroying Thorn must have increased a lot. The next time he encounters a possessed puppet, he will definitely be surprised."

Thinking of this, Qingtian Qi was overjoyed.

But at this moment, Qiuqiu saw Qingtian Qi waking up, and immediately ran to Qingtian Qi happily to have fun.

Qingtian Qi laughed and played with him for a while.

Then, Qingtian Qi gave Qiuqiu another piece of Yuan Magnetic Blue Gold, and he also took out some dry food to fill his stomach. After all, he had not eaten for a day.

After filling his stomach, Qingtian Qi walked towards Qiuqiu.

"Qiuqiu, although my soul power has increased a lot this time, it is still a long way from the peak of the fourth level of soul power. We still need to continue to work hard! Only by cultivating my soul power to the peak of level four can I have a chance to deal with Long Xing's split soul."

After hearing Qing Tianqi's words, Qiuqiu nodded in understanding.

"alright! Little guy, let's continue hunting ferocious beasts!"

At that moment, one person and one beast left the cave and continued their journey of hunting ferocious beasts.

There were so many ferocious beasts in this second layer of jungle.

Qingtian Qi and Qiuqiu had no worries about finding ferocious beasts to hunt.

Of course, other There are also terrifying existences like sixth-level ferocious beasts, and even seventh-level ferocious beasts.

However, Qingtian Qi has the "Heavenly Listening" technique and the "invisibility talisman", so naturally he does not worry about encountering sixth-level ferocious beasts. The above terrifying beasts.

In this way, Qingtian Qi rushed towards the entrance point of the third floor while hunting the beasts to increase his soul power.

In the blink of an eye, six days passed.

This was already after Qingtian Qi entered the dark hall It's the eighteenth day.

According to the map, Qingtian Qi is not far from the entrance teleportation array of the temples.

In these six days, Qingtian Qi has gained a lot.

First, Qingtian Qi and Qiuqiu killed several people along the way. Hundreds of ferocious beasts.

After absorbing and refining the soul power of those ferocious beasts, Qingtian Qi's soul power has greatly improved, but it still has not reached the peak of the fourth level.

After all, when Qingtian Qi entered the dark hall, his soul power had just reached the fourth level.

It was almost impossible for him to reach the peak of the fourth level of soul power in just a few days. After all, soul power cultivation became more and more difficult as time went by.

However, even if Qingtian Qi's soul power did not reach the peak The fourth level peak has been greatly improved, and it is not too far away from the fourth level peak. The power of the soul-destroying thorns has naturally increased a lot.

Now the power of Qingtian Qi's two god-destroying thorns is equivalent to The power of the three soul-destroying thorns was stronger than before.

What made Qingtian Qi even more proud was that he finally figured out how to fire out the god-destroying thorns from both pupils at the same time. This was equivalent to launching two god-destroying thorns at once, doubling the attack range.

Except In addition, during these six days, Qingtian Qi also briefly read the soul skills in the soul book, and learned the 'soul sealing technique' among them.

The 'soul sealing technique' is a very practical soul skill. The skill can imprison the soul and make people fall into coma and sleep, and can capture and capture enemies alive.

In addition, Qingtian Qi also saw the 'Soul Splitting Technique' in the "Soul Code", which can separate a soul from the soul body.

However, you need to learn The soul technique requires at least five levels of soul power, and Qingtian Qi is still far from meeting the requirements. The last gain is that Qingtian Qi found another known origin of the Nine Yuan Fruit according to the map.

Let Qingtian Qi be happy Fortunately, the Nine Yuan Fruit was not discovered by the possessed puppet and Long Xiaotian.

But what surprised Qingtian Qi even more was that the guardian beast guarding the Nine Yuan Fruit was actually a two-headed beast that had mutated in the later stage. It was still a water beast that could grow to the seventh level of perfection.

Qingtian Qi remembered that he had promised to help Qingtian Ling find the psychic beast, so he did not kill the guardian beast. Instead, he used the 'Soul Sealing Technique' to kill the beast. The soul of the guardian beast was imprisoned and placed in the space of the God of War Order.

And the four Nine Yuan Fruits there were naturally obtained by Qingtian Qi..

Chapter 2999

But on this day, Qingtian Qi and Qiuqiu came outside a quaint small palace.

The palace gate is very tall, more than ten feet high.

There is a white light curtain covering the entrance of the temple, making it difficult to see the condition of the temple.

Seeing this, Qingtian looked at the tall palace door with a smile on his lips.

"We finally arrived, and there was a teleportation array to the temples inside. I wonder if the possessed puppet and Long Xiaotian arrived earlier than us? Maybe they have entered the pantheon."

Thinking of this, Qingtian Qi's heart moved, and he looked around outside the palace door.

What surprised Qingtian Qi was that there were no human footprints around the outside of the palace, only the footprints of some ferocious beasts.

"There are no human footprints here, which means that the possessed puppet and Long Xiaotian haven't arrived yet? No way, they should have traveled ten days longer than me, but they haven't found this place yet? Qingtian thought for a while and said to himself: "Forget it, I'd better go in and take a look first.""

At that moment, Qingtian Qi took Qiuqiu and walked directly into the palace gate.

As soon as he passed through the light curtain, the trial mark on Qingtian Qi's forehead lit up, and then he had some more information in his mind.

Qingtian Qi After quickly digesting the information in his mind, he had time to look at the situation in the hall.

I saw that the hall was very spacious and very tall, with a height of thirty or forty feet.

There was a rune in the center of the hall. In the process of teleportation.

In the center of the teleportation array, there is a black rune stone pillar.

In front of the teleportation array, there are two tall stone statues.

One is a humanoid stone statue one foot tall, holding a spear in his hand.

The other one is a three-foot-long animal-shaped stone statue.

The animal-shaped stone statue looks like a lion and a unicorn, and it looks very powerful.

These two stone statues are the guardian stone statues that guard the teleportation array, and they are six in strength. Level.

Qingtian Qi knows from the information he just received that as long as someone approaches within a hundred meters of the teleportation array, the two guardian stone statues will actively attack the person approaching.

However, as long as the trialist activates the teleportation array, it will be considered as passing. After the test, the two guardian stone statues will stop attacking and allow the tester to pass safely.

To activate the teleportation array, the method is very simple, which is to input vitality into the rune stone pillar in the center of the teleportation array and continue to input it for thirty breaths. It cannot be interrupted.

If it is interrupted, the time can only be recalculated.

This is the last test arranged by the gods for the trialists to pass the dark temple.

If you can pass this test, you can enter the pantheon of pantheons and learn from the pantheon of pantheons. The teleportation array leaves the dark hall, otherwise you can only die here.

Because this is the only way out of the dark hall.

In fact, this test is extremely difficult. Relying only on personal strength, even the prince of Northern Qin cannot pass this test..

Although the Prince of Northern Qin is very powerful, he alone cannot deal with two sixth-level guardian stone statues.

If he cannot deal with the two stone statues, he will not be able to activate the teleportation array.

However, if several people join forces in this level However, there is a way to pass it. The Qing Emperor used this method back then.

At this time, Qing Tianqi looked directly at the vicinity of the teleportation array.

Because there were seven or eight skeletons near the teleportation array.

The skeletons of those people were still wearing spiritual armor, holding spiritual weapons in their hands, and there were some other items scattered around them.

Obviously, those were the testers who failed to break through the level and were killed by the guardian stone statue near the teleportation array.

And It seems that the situation at that time was very critical. After the death of these trialists, no one checked their belongings. When

Qingtian Qi saw the scattered belongings, his eyes shone with light, and he thought to himself.

I wonder if these people are The same group of people who broke into the Dark Palace as Qing Emperor?

If so, many people entered the Dark Palace during Qing Emperor's time. Unfortunately, only Qing Emperor came out alive in the end.

If there are others alive, what about the Five Elements Divine Pill? The secret has been known to many people for a long time.

In any case, if these people can come here, they are definitely not weak, and the things they have on them are probably not too bad, right?

Thinking of this, Qingtian Qi looked at the items scattered around the bones from a distance Go, his eyes flickering.

Then, he remembered something again and looked around the hall.

He found that there were no new signs of fighting or any new corpses around...

Chapter 3000

At this moment, Qingtian Qi has confirmed that the possessed puppet and Long Xiaotian have not arrived here yet.

"Unexpectedly, they haven't arrived here yet, and I don't know what they encountered? No matter how many things there are, I'd better get through this level first and talk about it!"

Thinking of this, Qingtian Qi's mind moved, and he took out the 'Invisibility Talisman' and input his vitality.

Immediately, the space fluctuated, and Qingtian Qi disappeared out of thin air.

Qiuqiu on the side saw that Qingtian Qi suddenly became invisible, and his eyes showed confusion..

But just when Qiuqiu was puzzled, the two guardian stone statues guarding the front of the teleportation array suddenly moved. The originally dim eyes suddenly glowed red, as if they suddenly came to life, and then they turned to look at them at the same time. The air in a certain place.

That air was about a hundred meters away from the teleportation array, and it was on the cordon of the guardian stone statues.

Then, the two guardian stone statues suddenly rushed towards that air at the same time.

They were both extremely fast, It only took a moment to cover a distance of more than ten feet, and the momentum it exuded was extremely terrifying. Even Qiuqiu, who was standing outside the cordon, felt an inexplicable fear and stepped back involuntarily.

And right here At that moment, the human-shaped stone statue pierced the air in front with a spear, and the tip of the spear shot out a beam of energy.

At the same time, the animal-shaped stone statue also opened its mouth and sprayed a ball of yellow light into the air.

Boom!

With a loud noise, the gun Mang Jinqi struck the air, blasting a big pit on the ground, and gravel flew everywhere for a while.

Then, there was a muffled groan in the air ten meters away from the big pit, and then the space fluctuated, and the blue sky appeared. Qi's figure was retreating backwards in a somewhat embarrassed manner.

"What a terrifying attack power!"

Qingtian Qi's eyes showed horror. He had clearly avoided the attack just now, but he was still swept back by the aftermath of the attack.

But what was even more shocking was that one of Qingtian Qi's arms was moving at a speed that could be seen with the naked eye. petrified

"not good! That yellow light can turn to stone!"

It turns out that the yellow light group emitted by the beast-shaped stone statue can turn people into stone.

Qingtian Qi's arm was accidentally brushed by the yellow light just now, and the strange energy of petrification directly invaded Qingtian Qi's arm.

At that moment, Qingtian Qi then circulated the vitality in his body to clear away the strange vitality in his body.

When the two stone statues saw that Qingtian Qi was already a hundred meters away, they retreated to their original positions, the red light in their eyes converged, and turned back into lifeless guardian stone statues.

No more It didn't take long for Qingtian Qi to clear away the strange energy that invaded his arm, and the arm returned to its original state. He also put away the invisibility talisman in his hand.

"It seems that this 'invisibility magic' has no effect on protecting the stone statue! Even if I am invisible, the guardian stone statue can still sense my presence, and we can only pass this level by cooperating with Qiuqiu."

It turned out that Qingtian Qi had previously wanted to test whether the 'invisibility technique' had any effect on the guardian stone statues.

As a result, he was disappointed to find that the invisibility technique had no effect.

At the same time, the terrifying power emitted by the two guardian stone statues also left Qingtian Qi with lingering fear. , because that is not something he can compete with head-on.

At that moment, Qingtian Qi looked at the two guardian stone statues and thought about how to pass this level.

If I summon the earth python, let it and Qiuqiu go within the 100-meter warning line Each of them attracted a guardian stone statue, and if there was any danger, they would move out of the 100-meter cordon. I rushed into the teleportation array as soon as possible to activate the teleportation array.

Although this was very dangerous, it was also the best way to pass this level. There's a way."

Thinking of this, Qing Tianqi suddenly raised his head and looked at the high hall, a flash of inspiration suddenly flashed in his mind, and a look of surprise appeared on his face.

Huh! By the way, why didn't I think of this method?

With this method, I can completely kill these two stone statues. Why take the risk to activate the teleportation array?

Besides, the soul power level of these two guardian stone statues seems to be level four. If I absorb their soul power, my soul power level will definitely reach the peak of level four, and maybe even reach level five. When that happens, At that time, it would be much easier to kill Long Xing's soul.

Thinking of this, Qingtian Qi was immediately moved..
