

## God level 30

### Chapter 30

"Ding! The third god-level challenge is activated,"

"Ding! After 10 seconds, enter the challenge map - Polar Ice Prison, 10...9...8...7...."

A burst of white light flashed, and Qin Feng disappeared into the secret practice room.

The next second, he appeared in a new space.

Qin Feng looked up and found that he was on a huge ice island. In the distance was an ocean with many ice floes. There was a thick layer of ice under his feet, and the sky and the earth were white.

The air is extremely cold, with temperatures reaching at least seventy or eighty degrees below zero.

In just a few breaths, a layer of frost formed on Qin Feng's eyelashes, and goose bumps appeared all over his body.

Fortunately, his body was strong enough to withstand the cold.

Ordinary genetic warriors and physical masters have long been defeated.

Qin Feng exhaled a long breath, and white mist condensed in the air. If he looked carefully, there were fine ice crystals in the mist.

He pulled out the attribute template in the challenge state.

Challenger: Qin Feng (Quasi-King Level)

Level: Level 5 (Quasi-Elemental Master Realm)

Talents and Skills: God-Level Swallowing

Combat Skills: Violent Blow (Double Combat Power Instantly)

Combat Power Index: 700 points

Qin Feng made an estimate , his attack power only reached the mid-level one-star threshold.

But he has two skills: god-level swallowing and violent strike.

There are also two exquisite Yuanwu such as Blood Bone Sword and Wind Shadow Boots, which can crush even one-star late elemental masters.

His overall strength should be comparable to the one-star Dzogchen.

Qin Feng put away the template with satisfaction and looked around, but found no monsters.

At this moment, a soft"click" sound came from the valley ahead, like the sound of breaking ice.

Is it a spirit?

Qin Feng thought and hurriedly walked towards the valley.

After a while, he entered the valley, only to find that the valley was empty without any ghosts.

But there were several clear footprints left on the snow in the center of the valley.

Qin Feng stepped forward and looked shocked.

These footprints are human footprints, and they are stepped on with bare feet.

Are there other humans here besides myself?

Qin Feng was surprised.

At this moment, a harsh sonic boom sounded behind him. not good!

Someone is attacking!

Qin Feng's expression changed drastically.

But it was too late.

The attacker's attack speed exceeded the speed of sound.

By the time he heard the sound, the attack had already arrived.

Bang~!

There was a dull crash.

Qin Feng's back was hit hard, the monster armor was blown to pieces, and his whole body was vomited blood and flew out from the blow.

Plop~~!

Qin Feng fell heavily on it.

The earth trembled.

Fortunately, he was wearing monster leather armor and blocked the blow.

Otherwise, that heavy blow could break his spine.

However, his monster armor was also scrapped.

Damn it!

Qin Feng was furious, spit out a mouthful of blood, and looked at the attacker.

Not far behind him, he saw a white humanoid monster standing.

It has a pair of silver-white eyes with no pupils. It is looking at Qin Feng with an evil smile.

A light screen automatically popped up in Qin Feng's eyes.

Name: Ice Charm (normal level)

Level: Level 10 (early stage of two stars)

Skill: Ice Invisibility (skill stone will drop on first kill)

Warning: Extremely dangerous level (win rate less than 5%)

This is actually a level 10 spirit!

Its strength is equivalent to that of an early two-star elemental!

This third god-level challenge won't ask me to kill these level 10 monsters, right?

"Ding! The divine challenge begins!"

Challenge content: Kill the ice charm within twenty minutes

"I go! You really let me kill Bing Mei!"

Qin Feng has the urge to curse.

He really gets what he wants!

According to the data, his winning rate is less than 5%, and there is almost no possibility of defeating him. But the system not only requires him to kill Bing Mei, but also requires him to kill it within 20 minutes..

This is much harder than the previous two levels!

It is simply as difficult as climbing to the sky!

However, the reward this time must be richer than the previous two!

When the light ice charm is killed for the first time, the skill stone - Ice Hidden Technique will drop.

1 Thinking of the skill stone, Qin Feng's heart became hot.

This thing does not exist in the outside world at all.

As far as he knows, elemental masters will not master skills until they reach three stars.

Therefore, every time he masters one more skill, he will be better than his peers. The level is stronger.

Thinking of this, Qin Feng took a deep breath and slowly calmed down.

The win rate given by the system is less than 5%, and the weapons and equipment are not taken into account. This is a BUG.

He still has a chance.

"Ding! The challenge will automatically start after 3 seconds...3...2...1.."

"Ding! The challenge begins! Automatic timer 20:00....."

"Jie! Jie!!"

At this moment, Bing Mei let out a weird laugh, which was very harsh.

Its eyes looked at Qin Feng, full of disdain, and seemed to have high intelligence.

Then, its body gradually became transparent.

After a moment, Its figure disappeared on the spot, and even its breath disappeared.

The entire valley was empty and turned into a dead silence.

Qin Feng was horrified.

He could not sense the existence of the ice charm.

The enemy is in darkness and we are in the dark.

This is very detrimental to him!

Could it be? Is this the Ice Hidden Technique?

Qin Feng calmly took out a beast core and swallowed it.

In the blink of an eye, his injuries recovered as before.

At the same time, he was very alert and alert.

He To prevent the sneak attack of the ice demon.

The valley was extremely quiet.

It was a kind of silence with the breath of death.

It was suffocating!

Suddenly, a strong wind sounded behind Qin Feng.

Qin Feng moved, the wind shadow boots were activated, and the speed increased sharply. Twice.

The fusion of god-level fighting skills.

He ducked out of the way, and a transparent light and shadow streaked across his back.

Poof!!

The clothes on his back were torn, leaving five clear claw marks, and blood flowed across them..

He slashed with his sword.

Skill! Violent blow!

Blood and Bone Knife 100% amplitude!

Two by two superimposed!

Attack power doubled.

Qin Feng exploded with the strongest blow!

Boom~~!

A loud noise!

Countless fragments of dust Debris flew!

A transparent claw blocked the attack of the Blood Bone Knife.

Qin Feng was shocked and took dozens of steps back.

Bing Mei was also shaken out of his body and took several steps back.

Immediately, it became furious. , rushed towards Qin Feng again.

During the culling process, its figure quickly blended into the air and disappeared, and its breath disappeared with it.

Qin Feng reacted quickly and waved his hand, and more than a hundred landmines were spread around him, forming a protective Bring.

Boom~~!

A landmine suddenly exploded!

Bing Mei didn't know what it was, so she stepped on one and was blown away.

Its body shape was exposed.

The mine couldn't hurt it at all. , but made it stunned for a moment.

The opportunity has come!

Qin Feng took advantage of Bing Mei's dazed moment, closed his eyes, and threw a flash bomb.

Whoa~!

The dazzling bright light filled the valley.

Roar~~!

Bing Mei roared!

Its eyes were pierced by the strong light, and it couldn't see anything for a while.

Taking advantage of your illness! I want to kill you!

Qin Feng immediately rushed up and stabbed Bing Mei in the throat....
