

God level 301

Chapter 301

The Whale King smiled slightly: "It's time to tell you now, what we want is the Xingtide Stone....."

Star stone?

Qin Feng quickly thought of Jade Qilin.

She mentioned to Qin Feng that the Xingxi Stone was extremely precious and would be of great help to the Nine-Star Emperor's cultivation.

To put it simply, the effect of Xingxi Stone on the Emperor.

It is equivalent to the effect of Imperial Liquid Crystal on Seven-Star Elemental Masters, which can quickly improve their cultivation level.

"Your Majesty, what exactly is the Xingxi Stone? Is it rare?", Qin Feng inquired curiously.

He knew very little about Xingxi Stone.

After all, he had just come into contact with the nine-star level.

The Whale Emperor smiled cheerfully: "Haha!! Little friend, it's okay to tell you. You have cultivated to this level, sooner or later you will know the preciousness of the Star Stone"

"This Xingxi Stone will be of great help to our Nine-Star Emperor's cultivation. It's just that the formation of this thing is extremely demanding. It would take an ordinary planet ten thousand years to condense one....."

"Hiss~! Only one takes ten thousand years! That is indeed rare!"

Qin Feng couldn't help but take a breath.

This Xingxi Stone is rarer than he thought.

The Whale Emperor also sighed: "Yes! This thing is indeed extremely precious! Generally speaking, two Xingxi stones can be exchanged for one pseudo-imperial weapon."

"But even so, there is still a price but no market. No more than ten tidal stones have been excavated on Earth so far."

"Otherwise, Emperor Qinglong would not be the only one on our planet who has cultivated to the peak of Nine Stars, and the rest of us would be far behind."

"However, if we can successfully dig this time, Emperor Shark and I will hopefully break through to the top of the Nine Stars....."

The Whale King touched his chin, looking forward to it.

The Emperor Shark beside him also had beautiful eyes shining, and he was equally excited.

Now that things had happened, they didn't want to hide it anymore.

In fact, the Whale Emperor didn't say a word.

As long as he and Emperor Shark break through to the peak of the Nine Stars, they will definitely get more benefits from the Heavenly Monument after more than twenty days.

Maybe they can find a way to break through to the Nine-Star Emperor

"Your Majesties, the Xingxi Stone should have attributes, right?", Qin Feng continued to ask

"good! Xingtide stones are also divided into attributes such as five elements, wind and thunder. Hidden under this volcano are water-type tidal stones....."

"Uh... shouldn't there be fire-attributed treasures at the bottom of the volcano? How could a water-attributed treasure be produced?"

"This emperor cannot understand this either. The wonders of the universe cannot be glimpsed even by emperors like us."

The Whale Emperor sighed.

Immediately, he said again: "Little friend, I don't have much to say. Now you know the situation, what we want are those water tidal stones...."

"My little friend is a fire elemental master, and these water tidal stones have no effect on you. However, what if we find other fire treasures down there, and they all belong to the little friends?"

Qin Feng smiled slightly: "No problem!"

He now understands why the Whale Emperor and the Shark Emperor are so generous.

There must be a lot of water tidal stones hidden under this volcano, and their value is much greater than a fire-type pseudo-imperial weapon.

After all, the earth has existed for 4.6 billion years. In ten thousand years, a lot of star stones can be produced.

"Little friend, let's go!"

At the moment, the Whale Emperor is leading the way.

Qin Feng and the Shark Emperor are following closely behind.

"Your Majesty the Whale King, the starry sky beasts have always wanted to invade our earth. Is it because of these star stones?"

Qin Feng suddenly came up with this idea.

The Whale Emperor sighed:"It is indeed related to the Xingxi Stone, but it is not entirely for the Xingxi Stone. What are they for? we haven't figured it out yet"

"However, one thing is for sure. As long as the planet has been occupied by the Star Orcs, it will become a desolate Death Star, where all living things cannot survive."

Qin Feng finally understood some of the reasons.

This starry sky beast clan is really a scourge!

Unknowingly, the three of them walked near the volcano's crack.

Purple-red magma gushes out from the crack, rolling around and slowly condensing. The temperature of the sea water was extremely high.

The Whale Emperor held up the protective light shield and drilled directly into the red magma.

Qin Feng and Shark Emperor followed closely.

As soon as they entered the magma, Qin Feng saw a dark red outside the light shield.

Let People couldn't tell up, down, left and right.

Endless heat waves came through the light shield, burning the skin.

However, this temperature did not harm Qin Feng in the slightest.

Immediately, the three of them released their spiritual consciousness and headed deep into the magma. Dive everywhere.

One thousand meters.....Three thousand meters...five thousand meters.....

The deeper you dive, the higher the temperature of the magma, and the greater the pressure on the mask.

Twenty thousand meters.....Forty thousand meters.....Seventy thousand meters...

Seventy thousand meters underground, it has entered the mantle layer...

The temperature all around is extremely high, and it is surrounded by rolling lava...

The mask supported by Qin Feng has been slightly deformed under such high pressure.

At this moment, he sensed extremely pure water energy fluctuations coming from deep below, which should be the water star tidal stone.

In addition, he also heard various noises of magma flowing.

As well as various infrasound waves and ultrasonic waves that ordinary people cannot hear, they are disturbing people's moods.

And these noises were actually mixed with some demonic howls.

Are there monsters under this mantle?

"Brother, can you hold on?" Same Emperor asked with concern, with some worry in his beautiful eyes.

Now we have reached one hundred thousand meters underground. This is the limit of the Eight-Star King.

"no problem!" Qin Feng didn't feel the slightest pressure

"Brother, going down is just the beginning of danger. You have to pay attention..." Emperor Shark asked with concern. She had a good impression of Qin Feng.

The three of them continued to dive into the rock berries more than 10,000 meters below. A change has occurred.

The originally pure liquid lava began to turn into a solid-liquid mixed state, and the density of the magma also increased sharply.

Qin Feng's light mask began to distort under the huge pressure.

At the same time, solids of different sizes began to form. , following the flowing magma, constantly hitting him.

These solids can not melt at such high temperatures, and they are mostly high-density metal ores, etc.

They are suitable for use as auxiliary materials for making ordinary Yuanwu, as well as titanium alloys. Weapons.

However, these winds have long looked down upon them.

But at this moment, a sudden change occurred. An extremely harsh howl sounded from the magma not far away, which was shocking.

Qin Fengxun's reputation When I went there, I saw two ferocious monsters rushing over from the magma layer below.

The two monsters were covered in white flames, their faces were like demons, they had two claws and one tail, but no legs.

In this magma layer, they were like They were as agile as swimming fish and rushed directly towards Qin Feng, constantly making harsh howling sounds.

The speed was astonishingly fast, reaching the eight-star level.

They seemed to have discovered that Qin Feng was the weakest, and they all rushed towards him.
Qin Feng

"finally come!"

The Whale Emperor and the Shark Emperor rushed to Qin Feng at the same time, each dealing with a monster. The two of them killed the two monsters with a casual blow.

But before they died, the two monsters both spewed out an invisible heat wave. Ignoring the water energy blockage of the two Demon Emperors, it directly penetrated the defensive light shield and bombarded the two Demon Emperors.

Two groans!

Both the Whale Emperor and the Demon Emperor showed pain on their faces.

"What attack is that?", Qin Feng was surprised

"Fire poison!", the Whale King turned around, "This fire poison attack can ignore the elemental defense and directly attack the physical body. Even the emperor's physical body cannot continue to resist....."

Emperor Shark also urged: "Brother, quickly open the Nine Fire Divine Dragon Shield! If you want to resist the fire poison, the only way to resist the fire poison is the Nine Fire Divine Dragon Shield!"

It turns out that this is where they need Qin Feng.

Qin Feng directly offered sacrifices to Emperor Wu without saying a word.

I saw the golden ring flying out of my finger, and the lava for miles around started rolling.

In the blink of an eye, the golden ring turned into a huge golden fire shield, with nine fire dragons circling around it, roaring and dancing with an astonishing momentum.

This is the Nine Fire Divine Dragon Cover!

Qin Feng stood in the shield and could clearly sense that the defensive power of this fire shield was more than ten times stronger than his previous protective light shield.

More importantly, the Nine Fire God Dragon Cover can absorb fire poison damage

"Your Majesties, come in!"

Qin Feng casually made a seal, and the divine fire shield opened an entrance.

The Shark Emperor got in first.

The Whale Emperor went deep into the magma and grabbed it twice from the air.

Two fiery red inner elixirs came out of the magma. The depths flew into his hands.

The next second, he also entered the divine fire shield

"My friend, as I said before, except for the Xingxi Stone. The other treasures obtained here belong to you. Please accept these two inner elixirs!"..

Chapter 302

The Whale Emperor handed the two inner elixirs to Qin Feng.

Qin Feng took it and took a look, feeling overjoyed.

These two are both eight-star inner elixirs!

It was obviously left behind after the death of the monster just now.

He is about to break through to quasi-eight stars.

Once he reached the quasi-eight-star level, the Emperor Liuqing and the seven-star inner elixir were of little help to him.

If he wanted to improve his cultivation quickly, he could only swallow eight-star inner elixirs.

But there are only seven or eight eight-star demon clans on earth, and they are all kings of the deep sea clan, so they cannot be killed.

He is worried about how to quickly improve his cultivation level after breaking through to the quasi-eight stars!

At the moment, Qin Feng put away the inner elixir with satisfaction

"Your Majesty the Whale Emperor, didn't the monster just leave any essence beads behind?"

The Whale King shook his head: "Those monsters are not considered demons. They have no intelligence and rely on instinct to act. They only have inner elixirs in their bodies and no essence pearls."

The Whale Emperor actually looked down on the monster in his tone.

"I didn't expect such strange creatures to exist in the earth's mantle. Your Majesty, what is the name of this monster?", Qin Feng asked curiously.

The Whale Emperor explained: "We named it Earth Fire Demon. We don't know what it is specifically."

"This earth fire demon is very weird. They can only survive in the mantle magma and cannot leave here."

"If they are forcibly taken out of the outside world, they will automatically collapse and die. That state is like bringing a deep-sea fish out of the water. Perhaps, they are born from magma!"

"The world is full of wonders!"Qin Feng sighed,"Your Majesty, are there any Earth Fire Demons down here?"

"have! Much! After all, the earth has been around for more than four billion years. We still don't know how many monsters have been bred in the mantle."

"Perhaps, they appeared earlier than all living things on the ground. It's just that they are flawed and cannot live without magma."

While speaking, there was another movement below.

From the depths of the magma, seven or eight more Earth Fire Demons rushed out, one of which reached the Eight-Star Great Perfection level.

The Whale Emperor and the Shark Emperor immediately took action.

With the Nine Fire Divine Dragon With the help of the fire shield, the two demon emperors were not afraid of fire poison and were very easy to kill.

Qin Feng controlled the divine fire shield while collecting the inner elixir from the air after the earth fire demon died.

The three of them cooperated very well.

It only took ten minutes. , seven or eight earthly fire demons were killed.

In just a while, Qin Feng collected another seven or eight eight-star inner elixirs, and he was very happy.

Next, the three of them continued to dive.

Along the way, they encountered There are more and more Earth Fire Demons.

Qin Feng's harvest is getting richer and richer.

Two hours later, Qin Feng received more than 30 eight-star inner elixirs.

In fact, the Whale Emperor and Demon Emperor despised those The eight-star inner elixir is useless to them and has extremely narrow uses.

After all, the earth is still in the enlightenment stage of cultivation, and the use of many items has not yet been developed.

But when those inner elixirs are in Qin Feng's hands, they will use them up. Used it.

As long as he gets a hundred eight-star inner elixirs, he can directly break through from the quasi-eight star to the eight-star.

This can save him more than ten years of hard training!

Thinking of this, Qin Feng felt happy After taking flowers, Ye became more active in cooperating with the Whale Emperor and Shark Emperor.

In the blink of an eye, the three of them dived to a depth of 200,000 meters in the mantle.

The situation began to change.

They seemed to have entered a special area.

The surrounding magma turned bright white, Like running water, the temperature reached a million degrees strangely...

The number of Earth Fire Demons doubled several times, and they seemed to have entered the Earth Fire Demon's lair.

Hundreds of Earth Fire Demons surrounded the Nine Fire God Dragon Cover and attacked wildly.

This It's like hundreds of eight-star experts are besieging a target.

Countless fireballs erupt, like meteors impacting...

The Whale Emperor and the Shark Emperor join forces to show their power.

The two emperors resist the attacks of hundreds of eight-star experts.

In the field The explosions continued!

The area thousands of miles away was shaken, causing huge fluctuations! The aftermath of the explosion spread everywhere, like earthquake waves.

Some of the aftermath waves were transmitted to the earth's crust, the earth trembled, and the ground cracked, just like an earthquake.

In some deep sea places in Antarctica, There was magma spurting out.

The scene was extremely shocking!

Gradually, Qin Feng realized that something was wrong.

The Whale Emperor and the Shark Emperor could not stop the joint efforts of hundreds of Earth Fire Demons.

Many Earth Fire Demon attacks directly bombarded the Nine The fire dragon mask was on.

After withstanding hundreds of attacks, the divine fire mask gradually dimmed and cracks began to appear.

The expressions of the two demon emperors changed slightly.

They were not afraid of attacks, but they were afraid of fire poison.

Without the protection of the divine fire mask, hundreds of The fire and poison attack will definitely kill them physically.

The situation is somewhat critical!

"Little friend! Be sure to hold on!"

The Whale Emperor and the Shark Emperor were worried that Qin Feng was not strong enough.

"Senior, how much further do we have to dive?!"

Qin Feng also felt the pressure

"My friend, if we dive 10,000 meters, it will be enough. Let's speed up....", the Whale Emperor said anxiously

"Two seniors, let's speed up! Otherwise, I won't be able to hold on for long!"

"good!"

The three of them broke through the siege of the Earth Fire Demon in one fell swoop and dived quickly.

The Earth Fire Demon's army was hot on their heels.

In the blink of an eye, the three of them dived another six to seven kilometers.

Qin Feng was surprised to find that a large area appeared below. Land is like reaching the seabed.

But the sea water is replaced by bright white magma.

The seabed is a black metal-like earth.

The closer to the black ground, the higher the temperature.

Every hundred meters closer, the temperature doubles.

He felt He seemed to be approaching the bottom of the hot pot.

At this moment, he doubted whether the ground in front of him was the core of the earth.

However, before he had time to think about it, the number of the earth fire demon army chasing behind him surged to seven or eight hundred.

Nine Fires The dragon shield had been severely deformed by the attack.

At this moment, he saw a mine on the seabed below.

The mountain was inlaid with faint blue crystal stones, each as big as a fist, like stars in the sky, emitting a bright light. Starlight.

Incomparably majestic water energy fluctuations emanate from those crystal stones.

The temperature in the vicinity drops sharply!

They are water star tidal stones!

There are eight or ninety of them.

The Whale Emperor and the Shark Emperor are allecstasy! '

In just a moment, the three of them approached the mine.

Qin Feng opened an exit, and Whale King rushed to the mine to collect.

At this time, hundreds of fire demons chased after them.

Qin Feng and Shark Emperor rushed to intercept and buy time for Whale Emperor.

But Emperor Shark obviously couldn't stop him.

In a moment, dozens of fire demon attacks broke through Emperor Shark's blockade and bombarded the Nine Fire God Dragon Cover.

Click~! Click~! Click~!

The divine fire cover is full of cracks

"Whale King, the divine fire shield can't last long, hurry up!"

The Shark Emperor cried out anxiously.

The second wave of attacks arrived!

There were a few more soft sounds!

The cracks in the divine fire shield deepened!

Qin Feng's eyes rolled slightly, he was deliberately pretending to be unable to hold on. Only in this way could he match his previous performance. strength.

There was no way he would not be tempted by the dozens of Xingxi Stones below.

At this time, hundreds of Earth Fire Demons came from a distance, and the situation was grim.

Emperor Shark was extremely anxious.

"Whale King, you can collect as much as you want, we won't be able to hold on anymore!"

Just after saying this, the third wave of attacks arrived!

This wave of attacks is far stronger than the previous two waves!

Click~! Click~! Click~!

The cracks in the divine fire shield deepened, and small cracks appeared, and some fire poison penetrated.

For a moment, slight fire poison filled the divine fire shield.

Qin Feng quickly defended himself.

But the next second, he was pleasantly surprised to find that the fire poison entered his body and was directly absorbed by him, and he felt very comfortable. His The physical body is not afraid of fire poison and can absorb fire poison.

On the other side, Emperor Shark showed a hint of pain.

However, she quickly resisted.

The trace of fire poison that leaked in could not hurt her.

But this can't continue!

"Whale King, it's time to retreat!", Emperor Shark urged

"Why!"

The whale king below sighed.

He had already collected nearly twenty of them, which was already enough.

But there were still more than seventy stars in front of him.

He was unwilling to give up!

After all, it was not easy to come down here!

Just when the Whale King hesitated, a shocking demonic roar came from the ground not far away!

The roar was deafening, causing the magma to roll, and the cracks in the divine fire cover deepened and spread.

The power of the roar of the light actually exceeded eight Star perfection level

"not good! The Earth Fire Demon King has awakened!"

The whale emperor's face changed drastically..

Chapter 303

The Whale Emperor returned directly without even thinking about it.

"Qin Feng, let the Whale Emperor in quickly!", Emperor Shark also had a look of fear.

The Earthfire Demon King's strength is comparable to that of the Nine-Star Emperor.

But in this magma, its strength is even stronger than that of the Nine-Star Emperor.

This is its home ground.

Moreover, it also has many Baxing's men.

It is definitely not a good thing to wake up this monster.

Qin Feng also felt bad. He saw hundreds of earthly fire demons stop attacking and actually worshiped in the direction of the demon's roar.

The next second, a fire demon with a height of ten thousand feet appeared. , broke out of the ground, exuding a heaven-destroying aura.

"Go quickly!"

The three of them did not dare to stay. They rushed out of the siege of the Earth Fire Demon under the divine fire shield and fled upward at high speed.

What's more, they had already collected nearly twenty Xingxi Stones, which was enough.

But the three of them wanted to escape. The Earth Fire Demon King did not let go.

With a roar, nearly a thousand Earth Fire Demon Army chased the three of them.

The Earth Fire Demon King also chased after them.

The speed of Qin Feng and the others was obviously faster than the Earth Fire Demon Army. Both sides The distance gradually widened.

But the Earth Fire Demon King was extremely fast. He immediately surpassed the Earth Fire Demon Army and chased after him, getting closer and closer to Qin Feng and the others. The

Whale Emperor and the Shark Emperor suddenly felt something bad.

The three of them People are slower because Qin Feng is slower.

After all, Qin Feng only has the strength of the Eight-Star Great Perfection, and his speed cannot be compared to the existence of the Nine-Star.

If the Earth Fire Demon King catches up, entangles the three of them, and then is The fire demon army was besieging them, and the situation was not good.

At this moment, the Earth Fire Demon King in the rear let out a strange roar.

Not far away, there was an immediate response to the strange roar.

A moment later, another Earth Fire Demon King thousands of feet tall , appeared from the side and the front.

The faces of the Whale King and the three people changed drastically.

In this mysterious magma area, there were actually two Earth Fire Demon Kings.

At this moment, the two Demon Kings attacked from a flank.

"Your Majesty, let the three of us escape separately! You each lure away a demon king. As long as you don't get caught up by them, you don't have to worry about any fire poison!"

At the critical moment, Qin Feng instantly thought of a way to escape.

The two demon kings' eyes lit up, this method is feasible!

If the three of them continue to be together, sooner or later they will be caught up

"how about you?", Emperor Shark expressed concern.

"As long as your majesties distract the demon king, the remaining earth fire demons won't be able to catch up with me....."

"Little friend, be careful! Don't be surrounded, otherwise even if you have ten lives, you will lose them....."

The Whale King gave an urgent instruction and left the Divine Fire Shield.

Emperor Shark also left soon after.

Sure enough, with the deliberate temptation of the two demon kings.

The two demon kings chased the demon emperor respectively and ignored Qin Feng.

The army of nearly a thousand earth fire demons began to chase Qin Feng.

But Qin Feng's speed was obviously faster than the fire demon army, and they couldn't catch up at all.

In the blink of an eye, the two demon kings and the two earth fire demon kings disappeared without a trace.

Qin Feng actually stopped.

He turned around and faced the Fire Demon Legion with a smile on his face.

Nearly a thousand fire demons were stunned.

Are the humans in front of me crazy?

They have low intelligence and cannot understand.

But this human has invaded their home.

Their hearts are extremely violent.

The next second, hundreds of fire demons rushed towards Qin Feng.

They want to tear the boy in front of them into pieces.

But Qin Feng, with a smile on his face, actually took the initiative to remove the Nine Fire Divine Dragon Cover, and went directly to greet him without any protection.

For a moment, the two sides came into contact.

Qianbai Earth Fire Demon is ready to attack.

Their combined attack was comparable to the attack of the Nine-Star Emperor. It was not easy to kill the boy in front of him.

But at this moment, Qin Feng's eyes glowed with silver.

The ultimate king-level illusion—activate!

In just an instant, nearly a thousand violent earth fire demons were pulled into the illusion.

They suddenly became extremely docile, and when they saw Qin Feng's expression of awe, they all retreated to the side.

At this moment, in their eyes, Qin Feng is the Earth Fire Demon King, their king!

It turned out that Qin Feng had long discovered their flaws, which were lack of intelligence and low mental strength.

This is exactly the target of illusion restraint!

Without the obstruction of the Earth Fire Demon, Qin Feng easily returned to the previous mine.

Now, the Earth Fire Demon King is gone, and the Earth Fire Demons have also been deceived and tamed.

Looking at the nearly a hundred Xingxi stones in front of him, he happily collected them.....

It only took more than ten minutes for Qin Feng to collect the Xingxi Stone.

This time, his harvest alone was three to four times that of the Whale Emperor and Shark Emperor. He really made a lot of money.

For other emperors, although the Xingxi Stone is good, it still needs to have consistent attributes.

For Qin Feng, there is no worry at all.

He can absorb any attribute.

After doing this, a wave of magma came from behind Qin Feng.

He turned around and saw seven or eight earth fire demons surrounding him.

Those earth fire demons each held the inner elixir in their hands and offered it respectfully.

These inner elixirs were all dropped by the Earth Fire Demon who was killed during the previous fierce battle.

Qin Feng had no time to collect them.

At this moment, he used illusion to manipulate these earth fire demons to retrieve them.

Qin Feng put away the inner elixir at will, feeling secretly happy again.

He now has about a hundred eight-star inner elixirs, which are enough.

Then, he looked at the several earth fire demons in front of him, and his eyes erupted with silver light again.

After a while, the earth fire demons knelt down one after another, showing piety in their eyes.

Qin Feng's mouth showed a smile.

These earth fire demons are easier to control than five-star elementalists, and they are so confusing.

Now, they open their minds to themselves.

Soon, Qin Feng signed a sacred contract with these earth fire demons.

With this kind of signing, if he wants to enter this area in the future, it only takes a thought.

Of course, this is also because the earth fire demon's intelligence is too low.

If it were humans and monsters, they wouldn't be able to use illusions to free their minds.

Then the sacred contract cannot be completed.

After signing the contract, Qin Feng used memory reading again.

Soon, his eyes widened in surprise.

Ha ha!! It's developed again this time!

Just now, he discovered another Xingtide stone mine from the memories of these earth fire demons.

That mine produced fire star tidal stones, and it was nearby.

Neither the Whale Emperor nor the Shark Emperor knew they existed.

In fact, there is an Earth Fire Demon King guarding each Xingxi Stone Mine.

Two Earth Fire Demon Kings appeared in this area, so there should be two mines.

At that moment, Qin Feng ordered several earth fire demons to lead the way.

It didn't take long for him to arrive at his destination. There were a hundred Xingxi stones (fire), which were richer than the previous minerals.

Soon, they were all plundered by him.

Not only can he use these Xingxi stones (fire) for himself, but he can also use them for Yue'er.

In this way, Yue'er will soon be able to break through to the peak of Nine Stars, and then she will be able to stand shoulder to shoulder with Emperor Qinglong.

Thinking of this, Qin Feng was secretly happy.

At this moment, not far away, the roar of the Earth Fire Demon King suddenly came.

The sound waves vibrated, and Qin Feng was shocked to the point where his blood flowed.

The direction of the roar is the location of the water star tidal mine

"not good! The Earth Fire Demon King is back, so it's time for the other one to return too....."

As soon as this thought came to mind, the magma in the distance began to surge.

Vaguely, he saw a huge black shadow rushing from the depths of the magma.

The nine-star emperor's power on his body was overwhelming towards Qin Feng.

The second Earth Fire Demon King also rushed back.

It seemed to sense Qin Feng's existence!

The situation is not good!

With Qin Feng's current strength, he is still not Jiuxing's opponent.

In the blink of an eye, the Earth Fire Demon King was approaching a hundred meters away.

Those scarlet eyes have reflected Qin Feng's figure.

In an instant, it saw the star tidal stone on the mine disappear.

Roar~!

The Earth Fire Demon King was furious and struck Qin Feng with his huge claws.

At the same time, the Earth Fire Demon King from the other side also rushed here..

Chapter 304

In the blink of an eye, the Earth Fire Demon King's sharp claws struck.

I saw that the sharp claws were emitting a dazzling golden light, like gold poured down, pressing down.

Rumble~!

The mantle is thousands of miles away and the roar is constant!

Before the sharp claws arrive, the coercion arrives first!

Click~! Click~! Click~!

Qin Feng's feet.

The extremely hard ground was cracked by the pressure.

Qin Feng looked excited: "Haha!! Just in time! I've been waiting for you for a long time!"

Hunyuan transformed!

The combat power has skyrocketed to 3.1 billion!

Emperor-level skill—True Dragon Overlord Body!

Countless golden dragon scales emerged, and a nine-star imperial power emanated from Qin Feng, offsetting the imperial power of the Earth Fire Demon King.

The ultimate king-level illusion—activate!

Qin Feng's eyes glowed with dazzling silver light.

His illusion skills were pushed to the extreme!

He actually wants to control the Earth Fire Demon King!

This ambition is jaw-dropping.

In an instant, the illusion was completed.

The Earth Fire Demon King was actually in a trance, and he had a tendency to be controlled.

But the next second, it woke up and clapped its hands with great anger.

The illusion failed!

Qin Feng was so excited that his eyes lit up.

The spiritual power of this Earth Fire Demon King is not much stronger than the Eight Star Dzogchen.

As long as his mental power reaches the nine-star level, he can capture this guy.

At that time, he would be like having a nine-star subordinate with endless uses.

At this moment, the attack of the Earth Fire Demon King was approaching, with the momentum of destroying the world and destroying the world.

"Ha ha!! I won't play with you anymore!"

Qin Feng laughed.

He had got the result he wanted, and there was no need to stay.

The reverse summoning of space was activated!

In just an instant, Qin Feng disappeared without a trace.

The Earth Fire Demon King was stunned, holding up his hands blankly, stagnant in In mid-air.

Another devil arrived just in time.

It looked at the empty mine and was also dumbfounded.....

At the same time, near Antarctica, at the entrance to the deep-sea volcano.

Emperor Shark and Emperor Whale were waiting extremely anxiously.

They have been escaping for half an hour, but they still haven't waited for Qin Feng to escape.

At this time, the two people looked a little ugly.

"Whale Emperor, will something happen to Qin Feng?", Emperor Shark asked worriedly.

At this moment, she looked tired, her skin was all red, and her delicate body was shaking slightly.

This was a sign of being poisoned by the demon king

's fire. The fire poison of the earth fire demon was stronger than that of the ordinary earth fire demon. The fire poison is more than ten times more powerful.

During the process of escaping, the same king was accidentally attacked.

The whale king was slightly stronger than her, so it didn't matter.

Logically speaking, the same king should find a solution immediately.

But this place is not suitable for detoxification. , she didn't find a way to detoxify, she would wait until she got back.

What's more, Qin Feng hadn't appeared yet.

They still had to wait for Qin Feng to come out.

"Ni Shan, Qin Feng hasn't come out for so long, maybe the situation is in danger!", the Whale Emperor's face was full of sadness.

Nishan is the real name of the Shark Emperor.

When she heard this, her face became ugly.

Qin Feng has been regarded as the world's number one genius by default.

It is also the best way for the earth's forces to fight against the star beasts in the future. Successor.

If Qin Feng died here, not to mention that Emperor Feng would not let them go, what would the other emperors think?

More importantly, Qin Feng died on the side of the Deep Sea Clan.

Will those humans be jealous?

Think they are Worried that the human race was powerful and deliberately killed Qin Feng?

The more they thought about it, the more worried they became. This Qin Feng couldn't die!

Especially Nishan, she was really sad inside.

Could that ridiculously handsome young man really be worthy of death? Die like this?

Thinking about it, she found it a bit hard to accept!

When she saw Qin Feng for the first time, she was amazed by him.

No matter what kind of creature they are, they are full of appreciation for beautiful things.

When beautiful things disappear , there will be some regret left in my heart

"Whale King, Qin Feng's speed is not slow. As long as he is not trapped by the earth fire demon army, he should be able to escape!"

Ni Shan is still imagining.

The Whale King said helplessly: "Have you forgotten the Earth Fire Demon King? Think about it, after we escaped, the Earth Fire Demon King had no choice but to return. You said, what will happen if they happen to encounter Qin Feng when they return?"

"this....", Nishan smiled bitterly, "Hey! It seems that Qin Feng is in danger...."

After saying this, she frowned.

The poisonous fire was getting stronger and stronger, causing her some pain.

"Nishan, it seems that the fire poison in your body has worsened! You go back to detoxify quickly, this matter cannot be delayed!"

"how about you?"

"I will stay here, waiting for Qin Feng!"

"good!"

At the moment, the Whale Emperor stayed where he was, waiting for Qin Feng to come out.

The Shark Emperor Nishan returned to the Sea Clan.

At the same time, in the palace of the Sea Clan headquarters, he saw that in the secret cultivation room, the Little Lun King was practicing in seclusion.

Suddenly, beside him, There was a fluctuation in the space.

He noticed it, opened his eyes quickly, and saw Qin Feng suddenly appeared.

He was startled.

After seeing clearly that it was Qin Feng, he stood up in surprise:"Master!"

"By the way, Sect Master, didn't you go to a secret place with your two majesties? where are they?"

"We're out! They were delayed because of something and will be back later....."Qin Feng's consciousness swept around and he was sure that he was back

"Huh! Master, are you poisoned? What's going on with your skin?"

Little Wheel King seemed to have discovered something, and looked at Qin Feng's arms in surprise.

Qin Feng lowered his head and saw that his arms were red, and invisible waves of fire were radiating around.

This is fire poison.!

Qin Feng understood what was going on at just one glance.

It turned out that the Earth Fire Demon King's attack had added fire poison damage.

Those fire poison damage ignored the elemental defense, and he would be hit as long as he was attacked.

Although the Earth Fire Demon King The Demon King did not hit him, but the invisible fire poison had already corroded him in advance, making it difficult for people to guard against it.

After thinking about this, Qin Feng laughed dumbly.

The fire poison of the Earth Fire Demon King was more than ten times more powerful than the Earth Fire Demon.

But Qin Feng's physical body was strange, He is not afraid of fire poison attacks at all.

Although the poisonous gas has always possessed him, it has not harmed his physical body at all, nor has it caused him any pain.

Perhaps it is the relationship between the nine series of body quenching that makes him naturally resistant to fire poison.

"Master, are you okay?", Xiao Lun Wang was a little worried.

"fine!", Qin Feng smiled slightly, "You go outside and wait for the Whale Emperor and Shark Emperor. If they come back, notify me as soon as possible!"

"yes! Door owner!", Xiao Lun Wang quickly took the order and left.

After he left, Qin Feng closed the door of the secret room, lowered his head and looked at the fire poison attached to his body.

This fire poison is a bit strange!

It does not seem to be very powerful, but it can make the Nine Star Emperor The imperial capital has countless defenses.

And its function is to infringe on the physical body.

Although it is a chronic infringement, it can continuously wear down the opponent's strength during the battle.

In short, this is a great method.

It is ineffective for Qin Feng, But for some people, it is no less harmful than the emperor-level skills.

For example, the Whale Emperor and Shark Emperor are very afraid.

Otherwise, they will not invite themselves to join.

Thinking of this, Qin Feng smiled and began to try to absorb fire poison

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

Huh! That's okay!

Qin Feng was pleasantly surprised, and his eyes lit up.

At the same time, he also observed that after absorbing the fire poison, his Hunyuan Power gradually changed.....

It turns out that absorbing this nine-star fire poison is good for yourself.

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully....."

Qin Feng quickly absorbed it.

His Hunyuan Qi continues to grow, and the red color on his skin is quickly fading away.....

In the blink of an eye, he absorbed all the nine-star fire poison from his body

"Ding! Absorbed fire poison successfully.....The awakening degree of the Supreme Dragon God has been increased to 10.1%, the power of the Dragon God has been partially awakened, and the combat power has increased by 100 million....."

Qin Feng was stunned.

This absorption of fire poison can actually help him awaken part of his inheritance.

This is amazing!

It seems that this fire poison will be of great use in the future!

Qin Feng felt great.

Now, his combat power has reached 2.72 billion, and his strength has greatly increased again..

Chapter 305

"I have to find an opportunity to absorb some more fire poison..."

Qin Feng still had some unfinished ideas.

However, he did not dare to try easily.

At the moment, the two earth fire demon kings must be in a violent state. If he went over hastily, there is still a danger of falling.

After all, that They are all existences comparable to Nine Stars. It is possible to join forces and kill him instantly.

To put it bluntly, his strength is not enough.

In order to absorb the fire poison, it is unwise to risk his life.

Besides, he is not at the point where he has to go. situation.

Thinking of this, Qin Feng was about to leave the secret room and wait outside for the return of Emperor Shark and Emperor Whale. The water source he wanted had not yet been obtained.

But at this moment, he seemed to sense something and took out the storage ring A map.

The map was very crude, and what was drawn on it was hard to understand.

But at this moment, the map inexplicably lit up with silver light...

Then, the originally partially blank page began to appear with thin lines. Thin lines.

All the lines are connected to form a complex map.

On one side of the map, a red light spot appeared.

Next to the light spot, a line of small words appeared: Ten days later, we will meet here!

"Um? This map is....."

Qin Feng was a little surprised.

When did this strange picture appear in his ring?

Look at this map, it's not an ordinary thing!

If he got it, how could he not see through it?

Huh! wrong!

Qin Feng took the map and looked at it carefully.

He thought the map looked familiar.

"It turns out to be this map!"

Qin Feng remembered.

This map belongs to Lin Yuankun, the old head of the Lin family!

When he killed Lin Yuankun and got this map, he still couldn't understand the meaning.

And Lin Yuankun was also very weird.

He kept talking about it. It seems that he has a mental problem that makes it difficult for people to see through.

He seems to have many secrets hidden in him.

For example, Lin Yuankun used to have ordinary qualifications, but after an adventure, his talents improved and his strength became stronger.

Many people thought that he had received an unexpected encounter.

But Qin Feng knew that it was not that simple.

Lin Yuankun once sent a starry sky beast clan and his puppet clone to assassinate him.

This shows that Lin Yuankun is involved with the starry sky beast clan.

At present, Lin Yuankun has been dead for a long time. The traces on him This map was suddenly activated.

What on earth is going on?

Qin Feng was surprised and quickly studied it.....

At the same time, thousands of miles above the sky, there was the moon.

Only one side of the moon always faces the earth.

Its back side can never be seen by people on earth.

This is already common knowledge. so. Humans can only see the shadow of the front side of the moon, which remains unchanged for thousands of years.

Human beings imagine those shadows as laurel trees and Wu Gang cutting down trees.

At this moment, the barren back side of the moon.

It was dark and cold.

Deep in the darkness, beside a crater, was a tall temple.

At this moment, inside the temple, above the main hall.

A handsome young man in black is sitting on the throne.

Below, several Nine-Star Beast Emperors stood respectfully in two rows, looking like pilgrims.

The Immortal Wood Emperor stood at the end of the queue.

It turns out that this temple is one of the residences of the Star Orcs.

At this time, the young man in black opened his eyes from meditation.

Those eyes were bright, as if stars were lighting up in the dark night, with an extremely cold aura.

"Chief, how's it going?", the Beast Emperor asked.

It turns out that this young man in black is the strongest among the Beast Emperors - the Nightless Star Emperor

"I just received a spiritual message, and one year later, the emperor will arrive as promised!" Wuye Star Emperor spoke slowly.

The emperors were surprised.

The emperor is coming, and the earth will be destroyed.

At this time, the Immortal Wood Emperor seemed to have thought of something and stepped forward.

"The monument will not be destroyed and the emperor will not emerge. This is destiny! Chief, what should we do?"

The words of the Immortal Wood Emperor immediately aroused discussion

"good! The Heavenly Monument of Creation is immortal, and the Nine-Star Emperor cannot take action against the earth. Although the people on earth don't know it, this is destiny and cannot be violated!"

"yes! At that time, even if the emperor arrives, he will not be able to take action. Unless the heavenly monument of creation is destroyed in advance...."

Many beast kings raised the key to the problem.

The origin of the Heavenly Creation Monument is mysterious.

It was born from the mutation of the earth.

The people on earth don't know its details, but these beast kings know a little bit about it. They are very afraid of this heavenly monument of creation.

At this time, another Beast Emperor said: "According to time, it will take a hundred years for this heavenly monument to dissipate on its own.""

"But in a hundred years, the earth may give birth to a great emperor, and we will lose our advantage. At that time, the earth's resources will be almost exhausted, and it will be meaningless for us to occupy the earth."

"good! We must occupy the earth in one year. But with the Sky Monument here, there is still some trouble!"

"Folks, you don't have to argue! The big leader has already thought about these problems!"

In the crowd, a Beast King smiled.

Hearing this, the kings looked at the Nightless Star King one after another. The Star King looked down at the kings: "This leader has received news that in twenty-four days, the Earth's Creation Sky Monument will be activated. This is the best time for us to destroy the Sky Monument. Once the sky monument is destroyed, the emperor can take action!"

"This... Big boss, according to heaven's rules, we can kill people on earth, but we cannot destroy their heavenly monuments."

"yes! What's more, the truce contract between us and the earth has not expired. If you act rashly, the consequences of the contract backlash are not small!"

The emperors raised objections again.

The Star King smiled coldly: "Of course we can't wait to take action. But what if the people on earth destroyed the monument themselves?"

"What? Are the people on Earth destroying themselves?"

"How can this be? How could they do that?"

The emperors were confused.

The Star Emperor smiled and said nothing.

He turned to look at a young man at the head below.

The young man's face was like a crown jewel, and he always had a spring breeze smile on his face.

He was also the strongest among the emperors - —Dale Emperor

"Wind Emperor, what's going on?", Star King asked with a smile

"Back to the big boss, I have activated the map. The seeds we have sown should start to sprout..."
King Gale showed a mysterious smile. Emperor

Wuye Star also showed a smile.

Thousands of seeds have been sown, and it's time to play their role. But the emperors are in the clouds In the mist.

Could it be that the Nightless Star Emperor and the Gale Emperor had some secret plans?

"Big boss, you guys....."

"You don't need to ask any more questions!" Wuye Xinghuang interrupted directly, "In a month, everyone will know the truth! The meeting is over!"

"yes! Big boss!"

The leaders did not dare to ask any more questions and retreated one after another.

After a while, only the Nightless Star Emperor and the Gale Emperor were left in the hall.

"In just twenty days, the Monument of Creation on Earth will reappear. I really want to see how it has been destroyed!"

Wuye Xinghuang looked forward to it

"that must be very interesting! I heard that the Heavenly Monument of Creation was destroyed, and the supreme element Tao Yun contained in it would spread. If absorbed in time, the benefits would be great!"

The Star King regretted:"What a pity! Even the emperor couldn't digest those benefits, let alone the people on earth. Do they have the qualifications to surpass the Great Emperor? In short, the opportunity for people on earth will be cut off....."

Emperor Gale smiled proudly and said:"That's natural! Once the Sky Monument is destroyed, there will be no restrictions on the Emperor. One year later, when the Emperor arrives, it will not be easy for us to destroy the earth.....".....

At the same time, on Earth, the headquarters of the Deep Sea Clan.

In the secret room, Qin Feng studied the strange map for a while, but still couldn't figure out the reason.

However, he vaguely felt that this map had something to do with the Starry Sky Beast Clan.

"By the way, the body of the starry sky beast was handed over to the SAARC headquarters by the Lord of Shanguan City. After I went back, I asked Luo Li to look for it. I wonder if the beast corpse is still there?"

Qin Feng was thinking in his heart.

At this moment, footsteps sounded outside the secret room.

Qin Feng calmly put away the map

"Sect Master, His Majesty the Shark Emperor is back and wants you to see her quickly!"

Little Wheel King's voice sounded outside the secret room.

"good! I'll go now!"

Qin Feng stood up quickly.

He finally waited.

When he got the source of the water system, he returned to the Southern Alliance to investigate the insect corpses..

Chapter 306

A quarter of an hour later, Qin Feng saw Emperor Shark in a side hall.

When he saw Emperor Shark, he was a little surprised.

Emperor Shark's originally white skin, which could be broken by a blow, turned red, and his whole body was filled with heat.

Even standing ten meters away, you can still feel her body temperature being extremely high, like a red-hot lotus.

Her mental state was also very depressed, and there was a hint of pain in her eyebrows.

It's just that she has been holding back.

Obviously, Emperor Shark was deeply poisoned by fire.

And the fire poison was more than ten times stronger than Qin Feng's before.

After thinking about this, Qin Feng's eyes sparkled, looking at Emperor Shark as if he were seeing a treasure.

He was worried that there was no way to absorb the fire poison. Isn't there a ready-made one in front of him?

"Qin Feng, I didn't expect you to come back before me... How did you do it?", the Whale Emperor looked surprised.

Seeing that Qin Feng came back alive, she breathed a sigh of relief in her heart, but she was also a little confused.

"Your Majesty, after you lured away the Earth Fire Demon King, I thought that if I tried to escape via the original route, I would probably encounter the Demon King who retreated. In that case, there is a high probability that I will perish....."

"So, I took another route to escape. Unexpectedly, I accidentally found a shortcut and escaped quickly"

"And that exit was not in the same place as the previous entrance, and I couldn't figure out where it was, so I went back in the general direction and returned to the palace unknowingly..."

Qin Feng rambled casually.

But what he said sounded like It was reasonable and well-founded.

Emperor Shark believed it!

She also praised:"Thank you for your cleverness! If you escape the same way you came, you will definitely encounter the two Earth Fire Demon Kings. Then it will be dangerous"

"To be honest, we didn't think it through well. Fortunately, you're fine....."

"Your Majesty, where is Senior Whale King?"

"He is still guarding the original entrance, waiting for you to come out! I'll summon him shortly.....By the way, this is for you!"

Emperor Shark took out a crystal ball, which contained a ball of milky white water element.

Qin Feng was overjoyed.

The nine-star water element was obtained.

"Your Majesty, these are thirty Jingyuan Pills. Take a look...."

Qin Feng took the water source and handed over a medicine bottle.

Emperor Shark checked the medicine bottle, no more, no less, exactly thirty pills.

Emperor Shark smiled with satisfaction:"Brother, this transaction is completed. We have a great time cooperating... If there is a chance, we will cooperate next time."..."

"no problem!"

"alright! I won't say much more. If there is nothing else, I won't keep you.....", Emperor Shark looked a little anxious.

"Your Majesty, are you deeply poisoned by fire?", Qin Feng turned to the topic

"Why! yes!", Emperor Shark sighed helplessly.

Anyone could see that she was poisoned.

"Your Majesty, have you found a way to detoxify?"

"this...",Emperor Shark had a sad look on his face,"Not yet! This fire poison is strange, and the water element power cannot remove it. I can only suppress it first, and then slowly find a way to remove it..."

Emperor Shark did not say a word.

If she doesn't get rid of it in time, the fire poison will slowly invade the bone marrow, and eventually the bones will be destroyed, and the physical body will no longer exist. It's extremely serious!

In fact, the Earth Fire Demon King's combat power was average among the Nine Stars, even the lowest level existence.

But with their fire poison, they can make the emperors intimidated and not dare to underestimate them.

"So your Majesty hasn't found a way to remove the fire poison yet?"

"Not yet!", Emperor Shark looked sad.

She was confident that she could find a way to remove it, but it would take a lot of time.

It might take a few days, or it might take a month or two.

But in another twenty days, the Monument of Creation would reappear, and she couldn't afford to delay it..

She doesn't want to miss this once-in-a-decade opportunity.

"Your Majesty, I have a way to help you quickly remove the fire poison....."

"Do you have any idea?", Emperor Shark looked at Qin Feng in surprise.

Qin Feng smiled slightly:"Your Majesty, stretch out your hand....."

Emperor Shark subconsciously stretched out his jade hand.

Qin Feng generously held the jade hand, and pressed it with his other hand, tightly joining the palm of Emperor Shark...

It looked like the two palms of lovers joining together.

Emperor Shark blushed.

What is this guy doing?

Do you want to take this opportunity to belittle me?

This young man is very courageous!

Emperor Shark looked at Qin Feng's extremely handsome facial features and beautiful eyes, and couldn't help but think wildly.

Fortunately, she was poisoned by the fire and could not see any change in her face.

But the next second, she knew she had misunderstood.

I saw Qin Feng's palm pressing up.

Qin Feng's palm issued a strong suction force, which directly sucked away a trace of the fire poison on her palm.....

Her palms, which had been so hot, began to lose heat, and the pain became less intense.....

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

Sure enough it can!

Qin Feng was overjoyed and absorbed the fire poison in Emperor Shark's hands to his heart's content...

This fire poison was an extremely terrifying poison to others.

But for Qin Feng, it is simply a great tonic.

For every point he absorbs, his combat power increases by one point.

After the fire poison entered his body, it blended perfectly with his chaotic energy, causing his Hunyuan power to undergo special changes.....

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully..."

Chapter 307

In just a moment, Qin Feng absorbed all the fire poison from Emperor Shark's palm.

His combat power has also increased by a full 100,000.

The power of this fire poison is extraordinary, and the harvest is good!

Qin Feng also clearly felt that Emperor Shark's hot palm gradually became as warm and moist as jade.....

He took his palm away and saw that the jade palm was no longer red and turned back to snow white.

This effect is really remarkable!

"Huh! my hand is healed.....", Shark Emperor's beautiful eyes widened.

Then, she said with a look of surprise:"Qin Feng, it turns out that you can absorb fire poison directly! This is amazing! By the way, how can you have such an ability?"

"I don't know either! Maybe it's because I am a fire elemental master! Emperor Shark shook his head:"As far as I know, those fire masters cannot absorb fire poison. It should be because your physique is special."..."

"By the way, if you absorbed these fire poisons, it would not harm you, right?"

"Not found yet!

Emperor Shark was overjoyed:"Qin Feng, please help me remove the fire poison... As long as you do this favor for my sister, treat me as a favor to you."...."

Qin Feng smiled:"This is a simple task, your Majesty does not need to worry about it."....."

In fact, even if Emperor Shark doesn't say any favors, he will not give up these fire poisons.

This is a great supplement!

How could he miss it!

Emperor Shark was in a good mood:"You are good at talking.....There's more! In private from now on, please call me Sister Nishan. Nishan is my real name....."

Qin Feng was not pretentious and said with a smile:"Sister Nishan, let's continue to detoxify....."

"Um~! ", Emperor Shark smiled and nodded.

The more she looks at Qin Feng, the more she likes him.

To be honest, Qin Feng felt that this was quite profitable.

By helping Emperor Shark detoxify him, he not only improves his own strength, but also builds a good relationship with Emperor Shark. It really kills two birds with one stone.

In the future, if he wants to unify the world, he will definitely need the support of Emperor Shark.

At the moment, Qin Feng continued to detoxify.

He pressed his hand on Emperor Same's palm again and continued to absorb the fire poison.

But this time, he couldn't absorb even a trace.

Confused, he turned over Emperor Shark's hand.

The back of the hand was red, full of fire poison.

He pressed the back of his hand and continued to inhale the fire poison...

This time, he successfully absorbed it.....

The fire poison on the back of Emperor Shark's hand faded away at a speed visible to the naked eye.

Qin Feng's combat power is also constantly improving.

At this time, both Qin Feng and Emperor Shark understood.

It turns out that if Qin Feng wants to successfully absorb the fire poison, his hand must be in contact with the poisoned part to absorb the fire poison, otherwise it will be ineffective.

After a few minutes, the fire poison on the back of the hand was also absorbed.

Emperor Shark's entire hand returned to its original state.

She looked happy and asked Qin Feng to continue.

Qin Feng followed her wrist, his palm against the soft skin, and moved up step by step, absorbing the fire poison step by step.....

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully....."

In the blink of an eye, the fire poison in the entire small arm was absorbed by Qin Feng.

He continued up.

But up from the forearm, there are the sleeves of the skirt.

Emperor Shark was wearing a long aqua dress, with a tight figure and perfect curves.

It was a mid-sleeve long dress, with only a part of the forearm exposed.

Qin Feng had no choice but to absorb the fire poison above his upper arm through the thin skirt.

But this time it failed again.

Emperor Shark's long skirt is also a treasure, the material is dustproof and fireproof.

Qin Feng couldn't absorb the fire poison through his skirt.

"Qin Feng, please roll up the sleeves of your skirt..." Emperor Shark also discovered this problem.

Qin Feng rolled up his sleeves as instructed, revealing his delicate upper arms.

This time, his palms touched the delicate arms, and he was able to absorb them again. Fire poison.

After a while, the fire poison in the entire arm was absorbed, and

Qin Feng was unable to start again.

Moreover, the two of them were a bit weird like this.

If someone broke into the hall at this time, I'm afraid there would be some misunderstanding.

Emperor Shark also noticed it.

She smiled and said:"It seems that if my skirt doesn't take off, you won't be able to absorb it. Then this place is not suitable. Qin Feng, come with me...."

Qin Feng was stunned and thought so.

At that moment, he followed Emperor Shark and left the hall.....

A quarter of an hour later, Qin Feng and Qian Huang arrived at a room, which was divided into two rooms: an inner one and an inner one.

There are desks, coffee tables, and bonsai outside.

The inner room is the bedroom.

The entire room is exquisitely decorated, with soft colors, elegant and noble.

There is still a faint fragrance wafting in the house

"Qin Feng, this is my boudoir.....", Emperor Shark's words had a hint of astringency.

This was the first time she let a man enter her boudoir.

Of course, this happens for a reason, there is no other way

"You come with me....",Emperor Shark waved his hand.

The room door closes automatically.

There were only two people in the house, and no one could come in and disturb them.

Afterwards, Emperor Shark took the initiative to walk towards the bedroom.

Qin Feng looked at her beautiful back, hesitated for a moment, and then followed her.

Nishan's true form is a mermaid, and she is the most beautiful among the mermaids.

That stunning beauty is unparalleled and unparalleled.

After she transformed into a human form, she had exquisite curves, and every inch was perfect. She could not be thinner or fatter, and she was extremely beautiful.

Qin Feng had to sigh after seeing the back view.

This Banshee Queen is indeed a peerless beauty..

Chapter 308

After a while, Qin Feng and Qian Huang entered the inner bedroom.

Inside the house, the fragrance overflows and the air is warm.

Emperor Shark turned around and said slightly shyly:"For a moment, please stop looking around.
...."

Qin Feng was embarrassed:"I'm afraid it's useless even if I close my eyes. I have spiritual consciousness. It's the same when I open my eyes or close them."...."

Pfft~!

Hearing this, Emperor Shark was actually happy.

"It seems that my sister is going to take advantage of you today. My sister has been practicing so far and has never been seen by anyone except her parents...."

"Sister Nishan, is there no other way? Do my hands have to be in direct contact? How about I take a look through ordinary clothes?"

Qin Feng said seriously.

He also felt that this was a bit embarrassing.

Although he is a modern person and his thinking is not stubborn, this situation is too ambiguous and will still embarrass the two of them.

After all, the two of them are nothing. Couples just like each other

"Do you think my sister hasn't thought about it? Ordinary clothes won't do.", Emperor Shark shook his head and smiled bitterly.

"This fire poison not only corrodes the human body, it contains extremely high temperatures. As soon as ordinary clothes are put on the body, it will be instantly burned to ashes....."

"That's it...",Qin Feng suddenly said,"Then how about...."

"Okay~! If my sister doesn't restrict you from looking around, let's get started. If you delay it any longer, you will cause misfortune to your sister....."

Emperor Shark glanced at Qin Feng with an angry look.

In fact, she also has a good impression of Qin Feng deep down in her heart.

More importantly, she really couldn't hold it any longer.

In those places where the fire poison has not been removed, the poison has migrated to the core of the cells, and some of it has penetrated into the bone marrow.

If she continues to adhere to red tape like this, even if her body is destroyed, she will lose half of her life.

After all, Emperor Shark is not a human being, and he has the determination of the demon clan in his bones.

After saying this, she gently tugged on her skirt.....

The aqua blue dress slipped down...

The perfect curves were displayed, like a fairy falling into the mortal world, astonishingly beautiful.

Qin Feng couldn't help but marvel.

Seeing the expression on his face, Emperor Shark felt inexplicably proud.

A man dies for a man who knows himself, and a woman looks good for a man who pleases her.

Men want to be recognized for their strength, and women want to be recognized for their appearance, especially by the opposite sex.

"let's start!", Emperor Shark walked to the bed and lay down generously.

Qin Feng didn't show any pretense and walked straight over.

"Sister Nishan, please forgive me if I touch a place that I cannot touch..."

Pfft~!

Emperor Shark smiled sweetly: "You are being naughty. You are excusing yourself before I even start.....Okay~! As long as you didn't mean it, how can I blame you?"

"That's good!", Qin Feng sat down on the bedside.

Immediately, he waved his hand, and the room was filled with glow.

Emperor Shark's graceful curves covered everything, and everything was invisible.

Of course, this kind of cover can only be used for those below eight stars, and for Qin Feng and Shark The emperor had no effect.

This was entirely to reduce the embarrassment between the two of them and to have a psychological effect.

The emperor smiled and felt that Qin Feng was quite reliable.

Then she closed her eyes and let Qin Feng do what he did..At this moment, Qin Feng looked serious, without any blasphemy on his face.

He stretched out his palm and gently pressed it on Emperor Shark's smooth lower abdomen.

The lower abdomen was flat and soft, but it was hot.

The invasion of fire poison was deep.

Qin Feng Close your eyes and start performing.....

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully....."

After a few minutes, the fire poison in the lower abdomen is completely absorbed.

Qin Feng's hand moved up his flat belly.....

Emperor Shark's delicate body was trembling slightly...

Inside the house, the spring breeze was rippling and the warmth was warm.

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully....."

Qin Feng happily absorbed the fire poison.....

His strength is constantly improving.....

Unknowingly, two hours have passed.....

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully.....The awakening degree of the Supreme Dragon God is increased to 10.2%, the power of the Dragon God is partially awakened, and the combat power is increased by 100 million....."

Ha ha!! Another part of the inheritance has awakened!

Qin Feng was secretly happy.

His current combat power has reached 2.87 billion.

At this time, Qin Feng felt that Emperor Shark under his palm was weakening..

Chapter 309

Qin Feng withdrew the glow and saw Emperor Shark looking at him with misty eyes.....

On that delicate face, the cheeks are crimson

"Why did you stop?.....", Emperor Shark suddenly felt empty.

Qin Feng smiled slightly:"Sister Nishan, I have absorbed all the places that can be absorbed. Some places are taboo and I can't touch them. After all, men and women cannot be intimate.....

"Besides, the remaining fire poison does not exceed 30%.....Sister Nishan should be able to restrain herself. You can slowly think of a solution yourself....."

Having said this, Qin Feng stopped talking.

To be honest, he felt quite sorry inside.

If he can absorb all the remaining fire poison, his strength will increase

"What a person you are....", Emperor Shark looked at Qin Feng leisurely

"Is there anyone who only does half of the work and then leaves the problem alone? What do you mean by making your sister so miserable? To detoxify, you have to detoxify completely, you continue....."

Qin Feng smiled and said nothing.

Emperor Shark said angrily: "I didn't blame you for taking advantage. Why are you hesitating... Quickly detoxify. Anyway, you have touched a lot of things that you shouldn't have touched, and there is no difference at all."

At the end of the sentence, Emperor Shark turned red.

"Sister Nishan, this is what you said....."

The corners of Qin Feng's mouth were slightly raised, and his big hands moved along his flat belly.
.....

Oh My God!

Emperor Shark opened his eyes wide.....

This guy either doesn't do anything, or he gets to the point directly.....

As soon as Qin Feng took action, he refused to give up an inch of ground.....

The fire poison was also continuously inhaled by him.....

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully.....Combat power increased by 1000...."

"Ding! Absorbed fire poison successfully....."

There is fire poison to absorb!

So cool!

Qin Feng felt comfortable.

His big hand is the palm of the devil...

Emperor Shark's expression began to become trance-like. time flies.....

In the blink of an eye, an hour passed.

Qin Feng finally absorbed the fire poison from Emperor Shark's body without missing an inch.....

Huh~!

You're done!

Qin Feng took a long breath and removed his palm

"Ding! Congratulations to the host for completing the absorption of fire poison. The Hunyuan Power has mutated, with additional fire poison damage. The Hunyuan Power has been destructive."

Fire poison damage (Emperor-level enhancement): It can ignore the defense of elemental power, corrode the body, and the damage is long-lasting.....

"Ding! Congratulations to the host for awakening fire poison damage.....The awakening degree of the Supreme Dragon God has been increased to 10.3%, the power of the Dragon God has been partially awakened, and the combat power has increased by 100 million....."

Qin Feng was pleasantly surprised.

After absorbing so much fire poison, he actually gained the power of fire poison.....

This is equivalent to him possessing emperor-level skills.

Although it is only a status skill, it greatly strengthens his attack capabilities.

Originally, he defended against the strong and attacked the weak.

Now, he has an emperor-level defense skill - True Dragon Overlord Body.

The attack has an emperor-level skill - Fire Poison.

His condition is getting better and better.

Moreover, his current combat power has been increased to 3 billion.

If the Hunyuan transformation is performed again, it can reach 3.6 billion.

With such strength, even the strongest Qinglong Emperor on Earth could not kill him instantly.

The more Qin Feng thinks about it, the more comfortable he becomes

"Sister Nishan, your poison has been cured.....", Qin Feng stood up.

But Emperor Shark still didn't respond.

Qin Feng lowered his head and saw that Emperor Shark's eyes were a little blurry.

There is a fire hidden deep in those beautiful eyes.

She stared at herself closely, as if calling, as if longing for.....

Qin Feng was slightly startled.

Did you cause trouble?..

Ni Shan stared at Qin Feng with fiery eyes.....

That beautiful face is so beautiful that people are fascinated by it.....

She closed her eyes silently, pursed her red lips slightly, as if waiting for something.....

So beautiful~!

Qin Feng was fascinated by the sight and gently bowed his head.

But at this moment, Nishan opened her eyes again.

When she opened her eyes this time, her eyes had become clear...

She looked at the handsome face approaching, her heartbeat accelerated involuntarily, and her cheeks turned red...

This young man who made her heart moved actually wanted to kiss her.

She was a little panicked!

She is the high-ranking Demon Emperor...

At this moment, she was a little nervous facing a human boy.

She wanted to close her eyes and pretend not to know.

But at this moment, Qin Feng suddenly opened his eyes.

Those eyes as bright as stars, with a smile, contain an intoxicating charm..... so hot!

Nishan's heart was throbbing and she was a little crazy...

Hey! How could I do this?

Nishan felt that it was inappropriate for her to do this again

"Sister Nishan, I thought you were asleep!"

Qin Feng had long known that she would be like this, and stood up with a smile.

But his smile was a little bad.

Nishan suddenly realized.

This guy seemed to be teasing herself.....

"You dare to tease my sister...be careful, I won't let you return to the human race, and I will keep you by my side....."

Ni Shan rolled her eyes at him angrily, stood up gracefully, and put on her long skirt.

Afterwards, she walked back and forth in the hall to check whether the fire poison in herself was gone...

Her beautiful body curves were displayed perfectly as she walked. It was really picturesque and as beautiful as a fairy...

After a while, she discovered There was no more poison left in him, and his face showed joy.

Qin Feng did a good job in this matter

"Sister Nishan, how do you feel? Are there any sequelae?"

Qin Feng walked over with a smile.

"The fire poison is gone! But you always do things halfway, which makes my sister neither better nor worse...My sister is a little unhappy...."

Nishan glanced at him faintly.

She seemed to be blaming Qin Feng for not kissing him.

Qin Feng smiled:"Sister Nishan, I will make up for it now....."

He generously embraced the Queen's slender waist.....

"late....",Ni Shan ducked away with a sweet smile,"Do you really think that my sister would give her life to repay her kindness?...."

A narrow smile appeared at the corner of Nishan's mouth.

It turned out that she also wanted to tease Qin Feng.

Although she was so excited by Qin Feng, she was still clear-headed and would not really let Qin Feng succeed.

After all, she is the Nine-Star Demon Emperor, and her mind will not lose control so easily.

Unexpectedly, Qin Feng seemed to have seen through her mind a long time ago, and instead teased her

"That's a pity! I lost such a good opportunity. Sister Nishan, will I have a chance to get close to you in the future?", Qin Feng pretended to feel sorry.

Ni Shan said proudly:"Look at your performance....."

Qin Feng smiled.

Then, he said with a serious face: "Sister Nishan, let's talk about business, I should also go back to the Southern League. After being away for so many days, His Majesty Feng Di is also worried...."

"Um! That's right! The enlightenment of that monument is about to begin, and it's time for you to go back and make more preparations. This is an opportunity that comes once in ten years, don't miss it..."

Nishan also knows that this is not the time for children to love each other.

Now, all the masters of eight stars and above on the earth are working hard for the opportunity of the heavenly monument.

Even the King of Small Lun He is fighting for this.

This time, Xiao Lun Wang gets the help of Jing Yuan Dan, and it is certain to break through to the eighth star. Coupled with his immortal ability, he is still expected to give it a try.

Not only Xiao Lun Wang, but also Chu Chu Work hard.

Nowadays, the world's strongest people have entered an era of collective retreat.

Qin Feng has obtained the water source he wanted.

He is anxious to go back to refine and cannot waste time.

In fact, he feels vaguely uneasy in his heart.

That is Lin Yuankun The map suddenly activated, which seemed abnormal.

A year later, the Earth Realm will resume war with the Star Orcs.

At this time, the map was activated, and it seemed a little strange. He must go back and find out as soon as possible.

Thinking of this, Qin Feng said : "Sister Nishan, I'm leaving then! These days, you should also take a good retreat!"

"Do not worry! I got a dozen star stones (water) this time, and my strength will definitely improve."

"See you in the Qinglong Holy Land in the next twenty days or so!"

At that moment, Qin Feng said goodbye to Nishan.

Looking at Qin Feng's leaving figure, Nishan felt a little reluctant and a little emotional.

This time, Qin Feng helped her a lot and relieved her of the fire poison.

But this time The bad guy also took advantage of her.

Nowadays, the person who is most familiar with her body, besides herself, is Qin Feng.

This guy is really...

Nishan looked at the direction where Qin Feng left, with tenderness in her beautiful eyes..
