

God level 3071

Chapter 3071

It turned out that the reward the Prince of Northern Qin received in the first test was twenty Bigu Pills.

He could have entered the Xuyan Realm in advance. In that case, he could have practiced in the Xuyan Realm for at least twenty years.

But in order to intercept and kill those trialists, he was delayed in the corridor of life and death for a long time.

As a result, all the advantages were taken away by Qingtian Qi, and he wasted five years of training time.

When he thought of this, the Prince of Northern Qin became extremely frustrated, and unknowingly transferred all his resentment for missing this opportunity to Qingtian Qi.

"stop! Even if I don't break through to the seventh level, with my current strength, there is no problem in killing that Ye Yulong.

In fact, I have the 'Black Demonic Sword' in my hand, and within level six, there are few people who are my opponents.

Who is Ye Yulong? How can you compare with this prince? snort! Damn Ye Yulong, just wait!

You'd better pray you never meet me again.....

Thinking of this, the Prince of Northern Qin stood up and looked away towards where Qingtian Qi was.

I saw Qingtian Qi still sitting there cross-legged, motionless, as if he had not received the warning from the gods.

Seeing this, the Prince of Northern Qin sneered.

This ignorant thing! How long does he want to delay here?

At most you can practice here for half an hour. How much progress can you make in this half hour? snort! This prince is not in the mood to stay here any longer.

Thinking of this, the Prince of Northern Qin no longer looked at Qingtian Qi. He flashed his figure and rushed towards the passage door in the center of the platform.

In the blink of an eye, the Prince of Northern Qin arrived next to the 'passage door'.

But just when the Prince of Northern Qin was about to step out, the vitality between heaven and earth suddenly fluctuated greatly.

As soon as he felt this huge fluctuation of vitality, the Prince of Northern Qin's face changed slightly and he quickly looked back.

In the distance, with the blue sky as the center, a huge vortex of earth energy formed around him, which was a hundred meters high. It was actually extremely astonishing.

Seeing such a scene, the Prince of Northern Qin immediately opened his eyes in horror, and said that he couldn't believe it.

"Oh my God! This is already the fourth time. How can this be? Within two years, four vitality levels in a row reached the sixth level. This damn guy actually broke through four vitality levels in a row to the sixth level. How did he do it? This prince is really angry!"

Just when the prince of Northern Qin was extremely depressed, Qingtian Qi in front had already stood up and made a hand to condense the real elixir.

Soon, an earthy yellow solid elixir was formed on the top of Qingtian Qi's head, emitting a dazzling light.

See At this point, Qingtian Qi was overjoyed. He opened his mouth and sucked the solid pill into his body. His aura also increased sharply.

Then, Qingtian Qi's hearty laughter sounded across the entire platform.

"Ha ha!! Breakthrough! My earth energy has finally broken through to the sixth level!"

Hearing Qingtian Qi's cheerful voice, the Prince of Northern Qin felt inexplicably upset. He immediately snorted coldly, and left the realm of Xuyan in a flash.

On the other side, Qingtian Qi was still immersed in the ecstasy of breakthrough.....

"Fortunately, there are four spiritual opening pills, otherwise my earth energy would not be able to keep up with the progress of the other three lines of energy!"

Qingtian Qi felt the progress of his cultivation with a face of joy.

It turns out that Qingtian Qi's earth element qualifications have been progressing very quickly since he was promoted to a pseudo-spirit. However, compared with the three elements of water, wood and fire, it still started a little late..

So, when Qing Tianqi broke through the three elements of water, wood, and fire to the sixth level, in order to let the earth element Qi catch up with the progress of these three elements, he also took the four spirit-opening pills, so that the earth element energy could also catch up with the progress of these three elements. Breaking through to the sixth level.

At this point, the four elements of Qingtian, Qi, Water, Wood, Fire, and Earth have all advanced to the sixth level.

The gold element has the worst qualifications and the slowest progress in cultivation...

Chapter 3072

After fifteen years of hard training, Qingtian Qi's Jin Yuan Qi was only at the level of fifth level Dzogchen.

But no matter what, these fifteen years of training have been a huge opportunity for Qingtian Qi, and his strength has also undergone earth-shaking changes.

Today, Qingtian Qi's basic combat strength has reached 500,000 people, and after the transformation of Mad God, it has 550,000 people.

In terms of basic combat power alone, Qingtian Qi has reached the level of a sixth-order Dzogchen warrior, but his overall strength is much stronger than an ordinary sixth-order Dzogchen warrior.

After all, he has extremely extraordinary speed and special means such as the God-Destroying Thorn.

Now even if I don't merge with Qiuqiu, no sixth level Dzogchen warrior is my opponent.

If I merge with Qiuqiu, even the sixth level Dzogchen peak warrior is no match for me.

By the way, over the years, my soul power has returned to level five.

The improvement of this soul power is too slow!

It seems that this place is not suitable for cultivating soul power.

However, now that my soul power has reached level five, I can refine a seventh-level soul-marked puppet beast.

When the time comes, with the help of the Soul Seal Puppet Beast, few of the sixth-level warriors can be my match.

Thinking of this, Qing Tianqi couldn't help feeling proud.

At this moment, the spirit-posessed puppet who had been guarding the side said:"My lord, we should leave now, there is too much time!"

After being reminded by the spirit-possessed puppet, Qingtian Qi woke up, calmed down his excitement, and said "Okay! Let's go then!"

At that moment, Qingtian Qi put away the spirit-possessed puppet first, and then rushed towards the exit.

After so many years of training, although Qingtian Qi Fenhun's soul power has increased very slowly, it has reached level four, and is not far from the peak of level four.

Now the combat power of the possessed puppets has reached 300,000 people, and their overall strength is equivalent to the peak of the sixth level.

After Qingtian Qi left the realm of Xuyan, he saw Qiuqiu guarding near the exit.

As soon as he saw the blue sky coming out, Qiuqiu turned into a white light and threw himself into his arms acting like a baby.

Qing Tianqi had no choice but to shake his head and smile.

"Little guy, you are a sixth-level master. Many warriors outside will be frightened when they see you. Why are you still acting like a spoiled child like you were when you were a kid? Okay, we're going out, and we don't know what's going on outside. In order to reduce some trouble, you'd better go to the psychic space first!"

"Gujiguji!"

Qiuqiu was very obedient and nodded obediently.

Qingtian Qi gained a lot from this trip to the ancient training ground, but Qiuqiu's gain was even greater.

Not only did Qiuqiu eliminate the hidden dangers planted by the demon god in his body, It also became a dual-system mutant ferocious beast. After advancing to the sixth level, its combat power reached 400,000 people after the second transformation.

Now, after Qingtian Qi and Qiuqiu merged, their basic combat power reached 710,000 people. The power is slightly stronger than that of the sixth-order Dzogchen Peak warrior. The basic combat power of the sixth-order Dzogchen Peak warrior is only the strength of 700,000 people.

Now, even if the Prince of Northern Qin has cultivated to the sixth-order Dzogchen Peak, there are With the help of the semi-artifact Black Demon Sword, he may not be able to do anything to Qing Tian Qi.

Because even if the Northern Qin Prince and the Black Demon Sword 'human sword' become one, and their strength increases, their speed will not be as fast as Qing Tian Qi.

Moreover, Qing Tian Qi There are still four 'True Soul Pills' on his body that he has not taken. He wants to save them until he becomes a 'Wind and Thunder Double Elephant Warrior' and use them. Maybe they will be more effective after that.

More importantly, Qingtian Qi still has many holy beasts on his body. The blood essence has not been refined.

If it were all refined, his strength would be greatly improved.

Of course, no matter how Qingtian Qi's strength improves, the strength gap between him and the seventh-level warrior will be huge.

The seventh-level warrior The weakest basic combat power of a warrior is the strength of six million people.

Qingtian Qi can only be killed instantly in front of a seventh-level warrior..

Chapter 3073

The lowest basic combat power of a seventh-level warrior is six million manpower.

Qing Tianqi could only be killed instantly in front of a seventh-level warrior.

In addition, only after a warrior reaches the seventh level can he truly enter the ranks of martial arts masters. That is already at another level and cannot be compared with warriors below the sixth level.

One of the most obvious features is that the lifespan of warriors below the sixth level is about a hundred years like ordinary people.

But the seventh-level warrior has exceeded the limit of lifespan and has a lifespan of five hundred years.....

Therefore, in the world of warriors, there is a default rule.

That is, when warriors below the sixth level see a seventh-level warrior, they must address them as seniors and treat them with the courtesy of a junior.

Even if the seventh-level warrior looks like a young man in his twenties, he must be called "senior"....

After all, a seventh-level warrior can live for five hundred years, so his age cannot be judged from his appearance.

However, it is extremely difficult for a sixth-level warrior to become a seventh-level warrior.....

Even for a true spiritual warrior like the Prince of Northern Qin, it would be impossible to break through from the peak of the sixth level of Dzogchen to the seventh level within about thirty years.

Pseudo-spiritual bodies are even more difficult.

But after Qing Tianqi put the ball into the psychic space, he walked towards the exit with great ambition.

Meanwhile, in the Forgotten Valley.

In the valley, more than twenty ninth-level experts were nervously looking at the barrier gate in front of them.

Among the crowd, Long Xing was suddenly among them.

Aomori was standing next to Long Xing.

Behind the two, there were four young people standing.

These four young people are naturally Bai Jinyu, Zhou Yanzhi, Qingtianjun, and Yi Chenxi.

These four people are the only ones who survived in Dakun Kingdom.

At this moment, Long Xing's face looked very ugly. He had been waiting for Qingtian Qi to come out, but there was no sign of Qingtian Qi.

He also asked Bai Jinyu and the others if they had seen 'Xuanyuan Zhantian'.

Bai Jinyu and Qingtianjun both insisted that Xuanyuan Zhantian should be dead.

Zhou Yanzhi and Yi Chenxi also said that they had not seen Xuanyuan Zhantian.

When Long Xing heard these words, he was naturally very depressed, but he was also very unwilling to do so.

After all, it was a matter related to a five-element divine elixir, and it was also a major event in creating a ninth-level powerhouse.

When Emperor Qing heard the news brought back by Bai Jinyu and the others, he felt even more depressed. He had already guessed that Lin Quan was dead inside, and Xuanyuan Zhantian should also be dead. The plan that had been prepared for so long failed again.

The only thing that puzzled Qingdi was that Long Xing suddenly ran over, which made him suspicious.

At this moment, there was a sudden sound of surprise in the audience.

"Huh! Look! The barrier door lit up again, and someone came out again!"

"yes! On the fifteenth day, someone finally came out again."

In the field, the barrier gate suddenly lit up with white light, and with a wave of fluctuations, a Shadow walked out of the barrier door.

But he was a young man of about seventeen or eighteen years old with a long sword in his arms.

This man is the Prince of Northern Qin

"hehe!! It turned out to be the prince of Northern Qin. Huh! He has actually reached the peak of the sixth level of Dzogchen. He is indeed a true spiritual body!"

"yes! In fact, even a true spiritual body cannot cultivate to such an extent at the age of seventeen or eighteen. It seems like this kid got a great adventure inside."

At that moment, the Crown Prince of Northern Qin walked to an old man of sixty or seventy years old amidst the discussion of many ninth-level experts. When the old man saw the Crown Prince of Northern Qin coming out, he breathed a sigh of relief. He could finally let go of his worries for so many days.

When he saw the great improvement in the cultivation of the Northern Qin Prince, he felt even more relieved. The only regret was that only the Northern Qin Prince was left alive in their Northern Qin Kingdom, which made him a little unpredictable..

Chapter 3074

When the Prince of Northern Qin approached the old man, the old man couldn't help but asked in a low voice: "The mission failed?"

"Um!"

The prince of Northern Qin lowered his head in shame.

"what reason?"

"A powerful guy suddenly appeared among those trialists. It was that guy's stop that made me fail."

Hearing this, the old man's eyes showed surprise.

"No way? How could anyone stop you? The only one who can stop you is a sixth-level warrior. Who would be so strong? Could it be the two of them?"

The old man inadvertently looked at Bai Jinyu and Zhou Yanzhi behind Long Xing.

In his opinion, only these two people were barely qualified to stop the Crown Prince of Northern Qin.

Unexpectedly, the Crown Prince of Northern Qin immediately shook his head and said:"It's not them two. Well, the two of them are not qualified to stop this prince, there is someone else!"

"Someone else? Who could that be?"

The surprise in the old man's eyes became even stronger.

But at this moment, the barrier door lit up again, and then another red-haired boy of fifteen or sixteen years old came out, it was Qingtian Qi. Qingtian Qi just came out Appeared.

The ninth-level experts present all stared at each other, and then there was a sigh.

"Huh! Another sixth-level warrior, but he is still a boy of fifteen or sixteen years old. Which country is this player from? With such a level of cultivation at such a young age, he is not a true spirit body again, is he?"

"How can a true spiritual body appear so easily? It's rare to see it even in hundreds of years! That represents a quasi-ninth-level existence! This little guy probably isn't. I vaguely discovered that there is more than one system of vitality in his body. A multi-system warrior cannot be a true spiritual body."

"However, even if this red-haired boy is not a true spirit, he can break through to the sixth level in the training ground and is so young, which shows that the 'order' contained in him is not weak! It seems that this little guy has a high chance of becoming a ninth-level powerhouse in the future."

"yes! If you want to become a ninth-level powerhouse, you must have strong sequence ability. Even a true spiritual warrior can only become a stepping stone for others if his 'preface' is not strong enough."

"Before reaching the ninth level, he may die young. Therefore, although a true spiritual warrior is called a quasi-ninth level, he may not be able to reach the ninth level. Who knows why he will encounter misfortune and die young?"

"Um! In any case, this red-haired boy is not simple! It is enviable for that country to have such players! Maybe hundreds of years later, another ninth-level powerhouse will be created! By the way, do you know which country this red-haired boy is a player from?"

"I do not know!"

At this moment, all the ninth-level masters looked at Qingtian Qi with gleaming eyes, and their eyes showed great admiration.

As ninth-level masters, they are naturally knowledgeable people.

Even the prince of Northern Qin, with his ninth-level master, Even those who have reached the peak of their strength have not received Qing Mi like them.

Because in their view, that is still acceptable.

After all, the Prince of Northern Qin is a true spiritual warrior.

Even Bai Jinyu and Zhou Yanzhi who came out earlier did not Can attract their attention.

Only the appearance of Qingtian Qi made their eyes brighten.

Because Qingtian Qi is not a true spirit, but his cultivation level has reached the sixth level, and his age is much younger than other players.

This It was obviously different.

In the eyes of these ninth-level warriors, they had already been deeply touched by the mysterious 'preface', and naturally knew that it represented more meanings.

Even Long Xing on the side couldn't bear it. Keep showing admiration

"Nice little guy, it's not easy to be able to cultivate to the sixth level at such a young age! I don't know which country the players are from? Ye Jingyu, do you know who this red-haired boy is?"

Hearing Long Xing's casual question, Bai Jinyu immediately stepped forward and replied:"Report to the king, this red-haired boy is the prince of the Crescent Kingdom, his name is Ye Yulong."

"oh! He turned out to be the prince of the Crescent Moon Kingdom. hehe!! I didn't expect that a small country like the Crescent Country could produce such a peerless genius. It seems that the Crescent Moon Country is very likely to produce a second ninth-level powerhouse in the future. It is expected that it will become stronger!"

Speaking of this, Long Xing also showed envy in his eyes..

Chapter 3075

At the same time, the old man from Northern Qin also expressed his admiration for Qingtian Qi

"Huh! This little red-haired guy is not bad, and he is quite a talented person. Prince, who is he?"

The Prince of Northern Qin immediately said with an angry look on his face:"Senior Xiao! He is the guy who ruined my good deeds!"

"It turned out to be him!"

The old man's face immediately showed a gloomy look, and then he fell silent, seeming to be thinking about something.

However, after Qingtian Qi walked out of the barrier gate, he saw the ninth-level powerhouses around him, and they all focused on him.

For a moment, he felt some inexplicable nervousness and uneasiness in his heart. After all, he was facing ninth-level bosses, all of whom were at the pinnacle of martial arts, so it was inevitable that he would feel nervous.

But at this moment, the crowd A clear and melodious shout rang out

"younger brother!! Why don't you come over quickly? Are we all waiting for you?"

Hearing this voice, Qing Tianqi felt happy and quickly looked around.

In a corner of the crowd, Bai Jinyue was waving to herself happily.

Behind her, there was a handsome middle-aged man standing. He is also smiling and looking at himself.

That handsome middle-aged man is naturally the current patriarch of the Bai family, the leader of the Crescent Kingdom Bai Xiaotian, and the only ninth-level strong man in the Crescent Kingdom.

Obviously Bai Jin After the moon came out, she quietly told him some things about Qingtian Qi.

"It seems that this senior is the patriarch of the Bai family and the second ninth-level powerhouse among our five clans."

At that moment, Qingtian Qi felt excited, and without any hesitation, he strode towards Bai Jinyue.

After Qingtian Qi walked to Bai Jinyue,

Bai Xiaotian looked at Qingtian Qi carefully, with a look of joy on his face.

"Well done, little guy!"

"Grandpa, this is what a kid should do."

"Ha ha!! good! good!"

Bai Xiaotian praised several times with great comfort in his tone.

At this time, all the ninth-level strong men also knew that Qingtian Qi turned out to be a player from the Crescent Kingdom.

At that moment, many ninth-level strong men had expressions in their eyes. A look of envy.

Especially those small countries with the same strength as the Crescent Country are even more envious in their hearts.

"Unexpected! It's really not easy for a small country like Crescent Country to produce such talents!"

"yes! This Crescent Moon Country has only been established for a few hundred years, but now that such an outstanding talent has emerged from the royal family, there are signs of prosperity!"

At this moment, a ninth-level powerhouse standing next to Bai Xiaotian even smiled and said:"Master Ye Kingdom, I didn't expect that one of your descendants would have another great talent. There is hope for your new moon to be strong! Congratulations to Wang!"

"Ha ha!! The Lord of the Kingdom has won the prize!!"

Bai Xiaotian also returned the gift with a happy face.

Among the crowd, an old man who looked about fifty or sixty years old also nodded slightly to Qingtian Qiye and murmured to himself

"Not a bad little guy, but it's a pity that our Baixi Kingdom failed to produce such an outstanding talent."

It turns out that this old man is the leader of Baixi Kingdom.

As a player of Baixi Kingdom, Wu Xiaoyue was standing silently behind him.

Just when everyone focused on Qingtian Qi, the space shook, and the knot The gate of the realm suddenly disappeared.

Seeing the gate of the realm disappear, there was another look of surprise in the crowd.

"Huh! The barrier gate disappeared, and it seemed that there was no one inside. We don't have to wait any longer"

"Why! Unexpectedly, this time, none of our Yunluo players came out alive."

"hehe!! The same goes for my country, Tianxing!"

At this moment, many ninth-level powerhouses in the crowd showed disappointment...

Chapter 3076

The gate of the barrier is closed, which means that there are no more living people inside. Those ninth-level experts who have not waited for the players from their country to come out naturally have a look of disappointment.

"Unexpectedly, there were only about twenty trialists who came out alive this time. Compared with the past, the number was less than half! It looked like the fighting was fierce inside!"

"yes! However, this time, four sixth-level ones came out in succession, which was more than before! In the past, only two people could reach the sixth level at most."

"Um! It seems that danger always coexists with opportunity! Forget it, since no contestants from our Tianxing Kingdom come out alive, there is no point in staying here. Everyone, I'll take my leave now!"

"hehe! The gates to the barrier have been closed, and there is no need for us to wait here any longer. Let's all disperse!"

At this moment, the crowd began to gradually disperse.

Each ninth-level powerhouse flew towards his own country.....

Wu Xiaoyue also returned to Baixi Kingdom first under the leadership of the leader of Baixi Kingdom.....

In the blink of an eye, there were only about ten people left in the field.

Long Xing is still among them.....

Obviously, Long Xing was a little unwilling to wait for Xuanyuan Zhantian to come out.

Suddenly, he turned to Bai Jinyu and the other four and asked, "By the way, is there someone named Wang Xi among these trialists? Have any of you seen him?"

"Report to the king, my subordinates have seen it!"

Bai Jinyu immediately stepped forward and replied.

"Oh, has Wang Xi come out?"

"No! He should be dead inside"

"So this is ah!"

Long Xing nodded slightly and breathed a sigh of relief in his heart.

According to Xiaotian, the only one who had the ability to break through the dark hall before was Wang Xi.

Now that Wang Xi has not come out, Xuanyuan Zhantian has not come out either. Think about these two Everyone died inside.

This way, no one will know the secret of the Five Elements Divine Pill. Finally, the secret can be kept temporarily.

This time it is considered a failure. It seems that if you want to get the Five Elements Divine Pill, We have to wait another three hundred years.

Thinking of this, Long Xing said:"Now that it's over. Aomori, let's go back too!"

At that moment, Long Xing left with the Da Kun Kingdom people.

After a while, everyone in the field left one after another, leaving only Bai Xiaotian, Qingtian Qi, and Bai Jinyue.

Everyone was seen leaving. Far behind, Bai Xiaocai looked at Qingtian Qi with a smile and said,"Your name is Tian Qi?"

"Um! The juniors Qingtian come together to pay homage to Senior Bai!"

"Ha ha!! good! good! I didn't expect that your Qing family would also produce an outstanding talent like you. Ling Yue told me everything about you. I heard that you also have a magical weapon. It seems that the Qing family will rely on you to support it in the future."

"Senior, thank you! I wonder if Senior Bai is planning to return to the Crescent Country first, or what other plans he has?"

"Do you still need to consider this? Of course, we need to go to Ten Thousand Flower Valley to meet Senior Teng first. I never thought that God would not destroy my five tribes! All of our five clans have children alive, and Senior Teng even survived. As a junior, Bai should go and pay a visit to Senior Teng, and then discuss the future plans of the five clans. Now that our five tribes are gathered together, there is hope for revenge!"

After hearing this, Qing Tianqi was also excited, and immediately said happily: "Senior Bai, now our five races are reunited. Now that there are two ninth-level masters among the five clans, you and Senior Teng, can we start our revenge plan?"

"Ha ha!! Even if you want revenge, you have to wait until you have ninth level strength. In that case, our five tribes will have three ninth-level powerhouses, and our chances of revenge will be even greater. Hearing this

, Qingtian Qi nodded repeatedly, and then asked: "Senior Bai, when will we set off to Ten Thousand Flowers Valley?"

Bai Xiaotian pondered for a while and said, "Let's wait in this valley for three days!" Departing after three days will also save you some trouble!"

It turns out that the direction to New Moon Country and the direction to Dakun Country are different.....

If Bai Xiaotian and the others set out for Dakun Country now, they are likely to meet Long Xing on the way, which would not be good.

At that moment, Qingtian Qi and the others continued to stay in the valley..

Chapter 3077

At the same time, in the direction of Northern Qin.

The old man from Northern Qin State was flying rapidly in the air with the crown prince of Northern Qin State.

At this moment, the old man still had a gloomy expression on his face.

After a while, he suddenly sighed and said to the Prince of Northern Qin: "Prince, have you missed a great opportunity this time?"

Hearing this, the Prince of Northern Qin was shocked and asked in confusion: "Senior Yue, , what do you say?"

The old man replied: "Judging from today's situation, the performance of Ye Yulong of the New Moon Kingdom is no less than that of a ninth-level powerhouse, and is even better than you, the prince. It is very likely that he will become a ninth-level powerhouse in the future."

"If the prince can kill him at the ancient training ground, the 'sequence' on him will be transferred to the prince. This is a great opportunity for the prince. If the prince can obtain the 'sequence' ability of that boy, even if he wants to become a ninth-level peak powerhouse in the future, that is very possible!"

Hearing this, the Prince of Northern Qin was horrified and said: "Senior Yue, is the 'Sequence' in that boy so strong?"

"Um! Stronger than you!"

"So that's it. However, the juniors don't understand. Since killing him can obtain his 'sequence' ability, why don't the seniors kill him? The old man shook his head and said:"

If you want to obtain the other party's 'sequence' ability, you must first have the other party's luck to be stronger than yours." If the other party is not as lucky as you, killing him will not help you much. In addition, only by killing someone of the same level or above can you gain the other person's luck."

"That night, Yulong's cultivation level was far inferior to that of me. Even if his luck was better than mine, I couldn't rob him of his luck by killing him. But there is not much difference in cultivation between you and him, but you can gain great benefits by killing him."

After hearing this, the Prince of Northern Qin seemed to have some realization.

At this time, the old man continued

"In fact, if a person kills more people by jumping up the ranks, his luck will also subtly improve, so the luck of multi-system warriors will generally be stronger. From my observation just now, Ye Yulong seems to be a multi-system warrior. I can vaguely feel the fluctuations of several systems of spiritual energy from his body."

"Senior Yue, that Ye Yulong was actually a five-element warrior."

Hearing this, the old man immediately showed a look of horror.

"A five-series warrior? He is actually a fifth-line warrior! I see! No wonder! No wonder! Five-line warriors are extremely rare, rarely seen in hundreds of years, and their rarity is comparable to that of true spirits. However, many people think that warriors of the five series can only be at the same level, but they don't know that every warrior of the five series is a person of great luck."

"Because warriors of the fifth element killed too many warriors of the same level, and could even kill people of higher levels, it was difficult for their luck not to improve! This is the most terrifying thing about the five series warriors. To deal with the five-element warriors, a sure kill is needed. If they are given a chance to breathe, the consequences will be disastrous. Why!"

When he said this, the old man shook his head and sighed.

But on the other side, Qingtian and Qi were still in the Forgotten Valley.

In the blink of an eye, three days passed.

On this day, Bai Xiaotian looked at the sky in the distance and smiled. Said:"Tianqi, Xiaoyue, those people should have gone far, it's time for us to set off."

"yes! senior!"

The two of them were about to follow Bai Xiaotian.

But at this moment, Qingtian Qi suddenly remembered something and said to Bai Xiaotian:"Senior Bai, before setting off, I have something I want to ask Senior Bai to help me with."..

Chapter 3078

Bai Xiaotian asked curiously:"Oh? What's the matter?"

Qingtian Qi pondered for a while and said:"That's it, this junior is a fifth-line warrior. After returning to Wanhua Valley this time, he is also planning to ask Senior Teng for advice to transform

into a "Wind and Thunder Double Elephant Warrior" "Things. Previously, because the junior's gold qualifications were not high enough, they could not be transformed."

"But after Senior Tonight and Qiuqiu channeled each other, his gold qualifications have improved. As for the extent to which he has been promoted and whether he has been promoted to a superior level, the junior has never been clear. Every time I think about this, I can't help but feel uneasy, so I want to ask Senior Bai to help test the boy's gold qualification."

After hearing this, Bai Xiaotian said

"I also know a little bit about how a warrior from the five elements transforms into a warrior from the Wind and Thunder Double Elephant. However, the transformation of the five elements into the twin elephants of wind and thunder is a good thing for others, but for people like you who have different qualifications in the five elements, it may not be a good thing."

"Okay, let's not talk about this for now. Let me help you test some gold qualifications to see if you can convert them?"

At that moment, Bai Xiaotian made a seal with his hand and pressed his finger on Qingtian Qi's forehead, and a soft energy invaded Qingtian Qi's body.

Qingtian Qi felt his spirit shaken, and his whole body lit up with white light, and then the back of his head White haloes lit up.

One, two, three.

A total of seven haloes lit up behind the blue sky.

"The seven haloes are elite genius qualifications. It seems that if you want to transform into a wind and thunder warrior, there is no problem."

Bai Xiaotian slowly retracted his finger.

Hearing this, Qingtian Qi's face immediately showed a look of joy.

Then, he asked again: "Senior Bai, you just said that if this junior transforms into a wind and thunder warrior, he will not. It must be a good thing, why is this?"

Bai Xiaotian said: "There is a big difference between Celestial Warriors and ordinary warriors." Ordinary people are all Five Elements Body, but Celestial Elephant Warriors are not Five Elements Body, they are Celestial Elephant Body. The celestial body is further divided into: wind body, thunder body, wind and thunder body."

"If you want to become a celestial warrior, you must first transform your Five Elements Body into a celestial body. After becoming a celestial body, the celestial qualifications are the average qualifications of the original five systems. If you transform into a wind and thunder body, your qualifications will definitely be reduced and you should not be able to reach the level of a pseudo-spiritual body. This will have a great impact on your future highest achievements."

"If you don't transform, you might have a better chance of becoming a ninth-level warrior. If transformed, the possibility of becoming a ninth-level warrior would be much smaller. Are you still willing to convert?"

After hearing these words, Qingtian Qicai also understood the disadvantages. He pondered for a while and said: "Senior, I still have to insist on transformation!"

Bai Xiaotian immediately showed surprise and asked, "Why?"

"Because the boy knows in his heart that becoming a ninth-level warrior requires more than just qualifications, unless he is a true spirit. Some ninth-level warriors only have the qualifications of an elite genius, but he still became a ninth-level strongman, so the boy feels that sometimes belief is more important than qualifications"

"The boy believes that even if my qualifications decline after transforming into a wind and thunder body, I will one day reach the true peak of martial arts."

Hearing this, Bai Xiaotian's eyes lit up and he said in surprise

"Good boy, it seems that I still underestimate you! You are right, in the journey of martial arts, you should move forward courageously. If you have too many worries, it will restrict your hands and feet. In fact, if you want to become a strong person, the most important thing is to have a strong heart. As long as you have a goal in your heart, you can face any difficulty no matter how big it is."

"Senior, thank you! I would like to ask you again, how can I transform into a wind and thunder body?"...

Chapter 3079

Bai Xiaotian seemed to admire the red-haired boy in front of him and explained with a smile.

"You can use the method of 'Five Qi Chao Yuan' to transform into a wind and thunder body. However, to practice this method of 'Five Qi Chao Yuan', you need the assistance of 'Wind Spirit Crystal' and 'Thunder Spirit Crystal'. You must have these two things in your hands. Only then"

"However, these two things are relatively rare and difficult to find. There are only a few places in the entire continent, and the annual production is very limited."

The so-called wind spirit crystal and thunder spirit crystal are spirit crystals that contain the natural power of wind and thunder.

Qingtian Qi has seen these two things in the "Ten Thousand Treasures Illustrated Book".

After hearing this, Qingtian Qi thought: "Thunder Spirit Crystal, I do. Among the treasures left behind by Chen Ting happened to be this piece of Thunder Spirit Crystal. However, I don't have the Wind Spirit Crystal. It seems that if I want to transform into a wind and thunder body, I still have to find a wind spirit crystal first!"

Thinking of this, Qing Tianqi asked: "Senior Bai, do you know where the Wind Spirit Crystal is produced?"

"The nearest place is the Rift Valley, which is hundreds of thousands of miles away. That 'Rift Valley' is not within the scope of our Eastern Alliance, it belongs to the area of the Southern Alliance. It's very dangerous inside, with many wind-like beasts."

"The lowest level of wind beasts is level four or above. It is one of the ten most famous evil places on the mainland. Legend has it that the ancient 'Wind Temple' was located deep in the Rift Valley. If you go there, be careful. In fact, many wind warriors and water, wood, and fire warriors go there every year. What they are after is the Wind Spirit Crystal."

Hearing this, Qing Tianqi said happily: "Tian Qi knows. Thank you for telling me, senior." After the other trivial matters were taken care of, Tian Qi wanted to go to the Southern Alliance for a walk, or to travel around the mainland and go out and see something."

"It doesn't matter if you travel a bit, it will broaden your horizons and give you a deeper understanding of the Tao. Tianqi, actually I want to remind you, even if you have obtained the 'Wind Spirit Crystal' and 'Thunder Spirit Crystal', you should not rush into transforming into 'Wind and Thunder Body' first."

Hearing this, Qingtian Qi was very puzzled.

"Why?"

"Let me tell you this! There are four types of human bodies in this world, namely: single-element body, five-element body, celestial body, and chaotic body. The vast majority of human beings are five elements, including our blood family."

"Single-line bodies are actually true spiritual bodies. They can only cultivate a certain series of vitality, but cannot cultivate the other four series. You already know the celestial bodies. The last kind of chaotic body is the most mysterious, and I don't know exactly what it is."

Bai Xiaotian continued: "The difference between these four constitutions is mainly reflected in the perception of 'Tao'. Just like the Prince of Northern Qin, he is a golden spirit body in a single body. He can only comprehend the secrets of the metal element in his life, and it is impossible for him to comprehend the other four elements."

"As a five-element body, we can cultivate a certain system of vitality at will, and after practicing, we can gain insights into a certain system of vitality. You are a five-element warrior, so you can understand all five elements. However, if you transform into the wind and thunder body now, your understanding of the five elements will only stay at the current level, and you will not have a deeper understanding of the five elements in the future."

"In the future, you can only understand the secret of wind and thunder. This is the limitation of the body, the limitation from the depth of the soul, and the order of rules. No one can break it."

Hearing this, Qingtian Qi vaguely understood, and asked: "Senior, what you mean is that if I transform into the wind and thunder body now, my understanding of the five elements will stop and I can only stay at the current level. In the future, I can only I realized the wind and thunder"

"Yes! Think about it, have you ever heard that wind elephant warriors have psychic beasts?"

"I don't think I've heard of this before."..

Chapter 3080

Bai Xiaotian immediately smiled and said:"That's right! It's normal that you haven't heard of it. Because most of the wind elephant warriors are transformed at the fourth level, and the secrets of psychic can only be understood at least at the fifth level of the wood element. , so the vast majority of wind warriors do not have psychic beasts"

"However, if you have understood the mysteries of wood channeling before transformation, after becoming a wind warrior, your understanding of wood will remain at the previous level, and you can still use channeling."

Hearing this, Qingtian Qi's eyes lit up and he suddenly said:"Senior's intention is to let me try my best to understand the secrets of the five elements before transforming into the wind and thunder body. Even if I transform into a wind and thunder body in the future, my previous understanding of the Five Elements will still remain."

"good! If you can have a deeper understanding of the mysteries of the Five Elements, it will be of great help to your future. Don't talk about the distance, just talk about what's in front of you"

"As a descendant of the Qing family, you are born with the ability to understand the 'spiritual secrets'. After you transform into a wind and thunder warrior, you can also possess a psychic beast. This is much stronger than a wind and thunder warrior of the same level! If you have more understanding of the five elements, you will be more powerful when you transform into a wind and thunder warrior in the future.

Qingtian Qi nodded repeatedly and said,"Senior is right!" If I transform into the wind and thunder body now, I will lose the opportunity to understand the secrets. I might as well understand more of the five elements.

Hearing this, Bai Xiaotian said happily:"It's good if you can think like this." In fact, the reason why I want you to understand more about the five elements now is not to let you learn more top-notch martial arts, but to hope that you can achieve higher achievements in the future."

After hearing this, Qingtian Qi immediately asked curiously: "Senior, how do you say this?"

Bai Xiaotian turned to look at Qingtian Qi, and said seriously: "Do you know what martial arts is?" " "

"From the understanding of younger generations, martial arts means entering the Tao through martial arts, breaking the Tao through martial arts, and comprehending the hidden meaning of Tao between heaven and earth through martial arts, thereby transcending one's own limits. Hearing this

, Bai Xiaotian's eyes showed surprise again, and he praised: "Tianqi, it's amazing that you have such understanding." You are right, martial arts is to use martial arts to enter Taoism, martial arts first and then Taoism, so martial arts is divided into: martial realm and Tao realm."

"From the first level to the sixth level is the martial realm. The so-called martial realm is still in the realm of human power and has not transcended the category of human beings. Therefore, no matter how strong a sixth-level warrior is, his lifespan has not transcended the category of normal humans."

"After humans break through to the seventh level, they have entered the Tao realm. When a warrior reaches the seventh level, his body and soul are sublimated to another realm, and his lifespan greatly exceeds the limits of human beings. To a certain extent, they are no longer ordinary beings. They transcend the category of human beings and are a higher level than ordinary humans."

"In fact, in some small barbaric countries where martial arts are underdeveloped, warriors above the seventh level are regarded as 'gods'. In their opinion, if a human being can live to be five hundred years old, what is that other than a god?"

"But then again. Martial realm is actually a simple accumulation of strength. You don't need to have too much understanding of 'Tao', and your cultivation level can be improved quickly. But entering the 'Tao' realm is different. Entering the 'Tao' is closely related to the improvement of cultivation."

"The more and deeper the Tao you understand, the faster your cultivation will improve. Moreover, the influence of 'Tao' on the improvement of cultivation will be more profound in the later stages. After reaching the ninth level, the more Tao you need to understand, the better. No matter which aspect of Tao, as long as you understand more, you will see the world more thoroughly, and you will be better. It's easy to control the vitality of heaven and earth."

After hearing this, Qingtian Qi finally understood Bai Xiaotian's painstaking efforts, and immediately said gratefully: "It turns out that the senior told me this so that the junior can practice martial arts more smoothly in the future. I, the junior, would like to thank my senior for reminding me."..
