

## God level 31

### Chapter 31

Level 10 spirits are very resistant to bright light.

In less than 2 seconds, Bing Mei recovered.

But Qin Feng had already reached it.

Bing Mei couldn't dodge, so she stabbed Qin Feng in the chest with her claws.

If Qin Feng continues to attack, this claw will definitely pierce Qin Feng.

This is to surround Wei and save Zhao, allowing Qin Feng to voluntarily give up the attack.

Qin Feng smiled evilly, and continued to stab without stopping at all.

A violent blow breaks out!

The blood bone knife lit up with a dazzling white light, like the scorching sun piercing the sky, rising in the snow, leaving a permanent mark.

Click~~!!

Ice chips are flying!!

A shrill scream!

Qin Feng pierced Bing Mei's throat with a knife.

Pfft~~!

Bing Mei also pierced Qin Feng's chest with a claw.

Blood splattered~!

Extremely tragic!

This time, both sides suffer!

Bing Mei pinched her throat in pain and retreated wildly. Milky white liquid flowed out from her fingers, like a kind of blood.

"Ha ha!! Cool!!"

Qin Feng laughed heartily.

He opened his mouth and swallowed a beast core, then rushed forward again.

God-level devouring started automatically.

In just a few breaths, Qin Feng recovered most of his strength, and his combat power was rising rapidly.

Bing Mei was horrified. The ground's eyes widened.

What's going on?

How did this level 5 little monster recover so quickly from his injuries?

But the next second, Qin Feng's attack came, slashing straight with his sword, exchanging injuries for injuries, and fighting for his life. It didn't work at all. To defend.

This is Qin Feng's current style of play.

A few minutes later, Bing Mei had more than a dozen stab wounds on his body, and his strength plummeted.

Qin Feng had god-level devouring and beast cores to help him, and his injuries continued to recover, and his combat strength It has been maintained at its peak.

One by one, the ice charm gradually became no match for Qin Feng.

In the end, it could no longer hold up and collapsed, turning into countless ice shards and shattering on the ground.

Only a level 10 crystal core and a A skill stone is in place.

A level 10 crystal core can be exchanged for 80 million coins!

And the skill stone should be ice concealment.

"Ha ha!! I made a lot of money this time!"

Qin Feng was ecstatic and quickly picked up the crystal core and skill stone.

Then he swallowed the skill stone.

A powerful spiritual ability rushed directly to his mind....

"Ding! Successfully swallow the skill stone and acquire the skill: Ice Invisibility....."

"Got another skill!"Qin Feng was in a good mood.

This ice concealment technique is very useful for sneak attacks or spying on information.

As long as it is applied properly, it can work wonders

"Ding! Congratulations to the host for completing the third god-level challenge, rewards have begun to be distributed....."

"Ding! Reward a piece of Fengshen Seal fragment!"

"Ding! Reward a fragment of the Ice God Seal!"

"Ding! Reward a fragment of the Thunder God's Seal!"

"Ding! Reward a fragment of the Vulcan Seal!"

"Ding! Reward 10 level four beast cores (fire element)!"

"Ding! Reward a fire source bead!"

Hey! What's going on?

How can you reward a bunch of fire-type things?

But he obviously doesn't have the fire-type talent!

Qin Feng was a little confused.

As soon as he thought, a red bead appeared in his hand, and it popped up in his eyes. Light screen.

Item name: Fire Origin Bead

Category: Rare Object (extremely rare)

Remarks: Can be swallowed. Seeing this, Qin Feng did not hesitate and swallowed the Fire Origin Bead in one gulp.

God-level swallowing was activated, and the Fire Origin Bead automatically dissolved. It turned into a hot stream of heat and flowed to his whole body, strengthening every cell in it. The violent energy made his internal organs feel tingling.....

This time, Qin Feng actually felt a little painful. His whole body became hot and his skin turned red. It was like his whole body was being burned on a fire...

This feeling lasted for several minutes.

"Ding! Successfully swallowed the fire source bead. Congratulations on the host's physical change and acquisition of fire sensitivity 1.2...."

"Ding! Congratulations to the host for obtaining the fire training talent. The training talent is ordinary level....."

What? Do I have the talent for fire training?

Qin Feng quickly pulled out the training template.

Practitioner: Qin

Feng Wind talent: peerless level

Thunder talent: peerless level

Ice talent: genius level

Fire talent: ordinary level

"Ha ha! This is really the case!"

Qin Feng was extremely happy.

One more cultivation talent means that his strength will skyrocket.

Even if the fire talent he just obtained is only an ordinary level, it will not hinder his improvement in strength.

This is definitely a super gain!

Then, Qin Feng couldn't wait to take out the rewarded ten fire beast cores (level 4) and swallow them directly.

The beast cores melted, heat rose from the body, and began to strengthen his body.

"Ding! Successfully swallowed the level 4 beast core, the body's fire quality +10%..."

Sure enough, the absorption and conversion rate of ordinary-level talents to beast cores is very low.

However, Qin Feng still has 9 level 4 beast cores in his hand

"Ding! Successfully swallowed the level 4 beast core, the body's fire quality +10%..."

"Ding! Successfully swallowed the level 4 beast core, the body's fire quality +10%..."

"Ding! Swallow level 4....."

Not long after, Qin Feng swallowed all the beast cores, and the fire quality of his body reached 100%, greatly increasing his combat power.

He quickly pulled out the attribute template.

Challenger: Qin Feng (King Level)

Level: Level 5 (Quasi Elemental Master Realm)

Talent Skills: God Level Devouring

Combat Skills: Violent Blow

Auxiliary Skills: Ice Concealment Technique

Combat Power Index: 900 points

"good! The combat power has reached 900 points!"

Qin Feng showed a satisfied smile.

This combat power index is close to that of a one-star Dzogchen elementalist. The combat power index of a one-star Dzogchen elementalist is only 1,000 points.

However, his overall strength should be equivalent to a two-star early stage elementalist. , or even stronger.

Qin Feng was naturally satisfied with all this.

Then, his eyes fell on the word 'king level'.

This represented the level of strength at the same level.

He was finally promoted from quasi-king level to king level. Level

"I wonder if there are any levels above the king level?", Qin Feng muttered in his heart

"Ding! Remind the host that above the king level, there are emperor level, emperor level, god level, etc. The host needs to keep up the good work!"

It's true!

Qin Feng is looking forward to it.

He is only at the king level, and he can cross the level to challenge the two-star early elemental masters, and even fight against the two-star mid-level elemental masters.

If he reaches the god level, how powerful will he be? Huh?

Just thinking about it makes people's hearts swell!...

## Chapter 32

Next, Qin Feng swallowed all the divine seal fragments rewarded by the system

"Ding! Successfully swallowed the fragments of the Thunder God Seal, and the completion of the Seal Condensation +30%...."

"Ding! Successfully swallowed the Ice Seal fragments, and the Seal Condensation Completion Degree +30%...."

"Ding! Successfully swallowed the fragments of the Wind God Seal, and the completion of the Seal Condensation +30%...."

"Ding! Successfully swallowed the fragments of the Fire God's Seal, and the completion of the Seal's condensation +30%...."

Qin Feng called up the training template.

Practitioner: Qin

Feng Wind realm (peerless): quasi-element master (divine seal completion rate 82%)

Thunder realm (peerless): quasi-element master (divine seal completion rate 71%)

Ice realm (genius): quasi-element Master (90.5% completion of divine seal)

Fire realm (ordinary): Quasi-elemental master (30% completion of divine seal)

Talent skills: God-level swallowing

Combat skills: Violent blow

Auxiliary skills: Ice concealment

Combat power index: 900 Click

After reading this, Qin Feng felt relaxed.

The completion rate of the Wind God Seal has reached 82%. With his peerless talent in the wind system, he will definitely be able to break through to the elemental master level within two days.

The completion rate of the Thunder God Seal is 71%, and one can break through to the elemental master within three days.

As for the ice system, although the completion rate of the Ice God Seal has reached 90.5%, the ice system talent is only genius level and is expected to be broken through within twenty days.

The fire department only has ordinary talents, so I won't care about it for now.

"Ding! The residence time has expired and the host will exit the polar ice prison in 10 seconds...10...9...8...."

A burst of white light flashed, and Qin Feng disappeared on the spot.

The next second, he returned to the secret practice room.

In the secret room, Qin Feng called up the system mall and exchanged the level 10 crystal core for 80 million coins.

In this way, he has 140 million coins on him.

This god-level challenge is full of rewards again.

Qin Feng had some unfinished ideas.

Unfortunately, all three of his god-level challenges were used up.

When the new god-level challenge opens, he will have to wait until he is about to break through to a two-star elementalist. That will take some time.

"It's time to go to Yuanqi Pavilion!"

Qin Feng looked at the time. It was four o'clock in the afternoon, and the Yuanqi Pavilion had not gotten off work yet. Today he saw two exquisite Yuanwu with 100% amplitude. One was the Wind Shadow Boots, and he had already obtained the other.

, he didn't have enough money at the time, so he had to give up.

Now that he has enough money, he naturally wants to get that treasure.

What's more, it is a battle armor.

The battle armor is the item Qin Feng needs most at the moment.

His The monster armor had been destroyed by Ice Charm and was missing a defensive elemental weapon.

Thinking of this, Qin Feng hurriedly changed into a new set of clothes.

He had just experienced a fierce battle and his clothes were a little tattered.

After changing his clothes, Qin Feng hurriedly left the training room and rushed to the Yuanqi Pavilion.

He had to get the armor as soon as possible. If it took too long, he might be picked by someone else, and he would miss the opportunity.

Twenty minutes later, Qin Feng rushed to Yuanqi Pavilion and went straight to the gambling hall on the eighth floor.

Entering the hall, there were many people inside and it was still very lively.

However, this was different from the people he saw at noon. Come on now Go, a group of people have changed.

Qin Feng ignored these and walked directly to the northwest corner of the hall.

The box he was looking at before was in that direction

"fine! Not selected!"

Qin Feng walked over quickly and picked up a large square box, feeling calm.

"Handsome guy, don't choose this big box."

A beautiful lady saw Qin Feng holding a big box and quickly persuaded him kindly.

"Oh why?", Qin Feng asked casually.

This imperial sister is wearing hot clothes, with a waist as thin as a willow, and strong breasts. She is a rare and enchanting beauty.

What is even more shocking is that she is actually a perfect star. Master Yuan.

At such an age, with such strength, his talent is definitely extraordinary.....

### Chapter 33

The beautiful lady smiled charmingly: "Little handsome boy, I can tell at a glance that this is your first time to bet on Yuanwu. Let me tell you this, usually the big boxes contain big items, such as battle armor and so on."

"This type of Yuanwu is very valuable. Yuanqi Pavilion is not that generous and will not take out any good and large items, so the items in these big boxes are basically low-quality Yuanwu. You are right to believe my sister! Qin Feng smiled:"

Sister, it seems that you have gambled a lot?"

Meiyan Yujie sighed: "If my money was not spent here, but used to purchase training resources, I would have broken through to two stars long ago. Unfortunately, my luck was not very good and I never got any good stuff."

Qin Feng said with a smile: "So, this thing depends on luck. I think there will be good stuff in this box."

"Little handsome boy, if you don't listen to your sister, you will suffer a lot!"

"hey-hey! I've always had good luck!" Qin Feng held the box and walked to the counter.

The beautiful lady seemed to be very interested in Qin Feng and followed him.

In fact, the moment Qin Feng entered the hall, she paid attention.

This young man is very good-looking. , with a great temperament, which attracted her immediately.

When he came to the counter, Qin Feng put the box down.

The old man behind the counter recognized him at a glance

"Boy, here we go again!", the old man took a sip of fragrant tea.

"Uncle Zheng, do you know him?", the beautiful lady seems to be very familiar with the old man.

"At noon today, he was the lucky guy who drew the Shadow Boots!", the old man put down the teapot in his hand with a smile.

"It turns out to be you!", the beautiful lady looked surprised, "Young handsome guy, he's not bad! My sister was blinded!"

Meiyan Yujie is more interested in Qin Feng

"Boy, do you want to buy again?"

"Well, I think I got lucky today. Now that luck has come, it's natural to take advantage of it."

"Old rules! Transfer money first!", the old man pointed to the bank card number on the counter.

Qin Feng did not hesitate, took out his mobile phone and started transferring money.

Sister Meiyan kindly reminded: "Little handsome boy, luck is elusive, you should be more cautious. According to mathematical probability theory, the probability of winning the lottery twice in a row is extremely low."

"Maybe, but I will do what I believe in."

After a while, Qin Feng completed the transfer.

"Ding! 130 million coins have been collected!"

The melodious electronic female voice startled the people around

"Huh! Someone bought the box again!"

"Still a young man! Let's go over and see how lucky he is!"

Many gamblers came around curiously.

The old man received the money and pressed his fingerprint happily.

Click~!

The box unlocked.

Qin Feng opened the lid unhurriedly. Inside was a fiery red armor, exuding Thick fire energy fluctuations

"It's a fire armor!"

"Let's see what properties it is?"

"Let me see!!"

The beautiful lady was the most active.

She took the initiative to pick up the metal plate next to the armor.

It read: Fire armor, fire elemental weapon, defensive type, defense amplitude 100%.

The crowd was in an uproar.

"OMG! Amplitude 100%! ! "

"The war armor type Yuanwu are all big items! Tsk tsk!! Little brother, you are rich!"

"How enviable! This armor is worth at least 550 million!"

Everyone looked envious.

Qin Feng was also very happy.

This fire armor is more than a hundred times stronger than the monster armor.

With this fire armor, his overall strength will be greatly improved.

"Boy, you are really lucky."

The old man at the counter lost his previous calmness.

He looked at Qin Feng seriously, as if he wanted to get to know Qin Feng again.

This was the first time in so many years that he saw someone who could win two high-quality products with 100% amplitude in a row. Yuan Wu.

The beautiful lady was also completely shocked.

"Handsome guy, you must be Newton's long-lost brother - awesome, right??!"

"Forehead.....", Qin Feng couldn't laugh or cry, "It's just luck, it's not that exaggerated."

He put away the fire armor and walked out of the hall.

It's getting late now, it's time to go home with Chu Chu.

Tomorrow is the day to go out on patrol. Today, the little girl needs to rest early and recuperate.

When Qin Feng walked to the elevator door, a gust of fragrant wind hit him, and the beautiful lady stopped in front of him

"Handsome guy, do your sister a favor!"

"What are you busy with?"

"Help your sister choose a box. Sister wants to take advantage of your good luck!"

"Can I help you choose?", Qin Feng smiled slightly, "Is there any benefit?"

"The handsome young man is indeed the one who won't suffer any loss." The charming young woman smiled and said, "Well, you choose for me. My sister just thinks she owes you a favor. My sister's name is Liu Yan, and she still has some energy in Yunyang City."

What Liu Yan said is not a lie.

With her one-star Dzogchen strength, she is very popular in Yunyang City. She also has such a good background and connections.

"Favor? This one is a bit imaginary, is there anything more practical?"

"Want something more practical?" Liu Yan smiled charmingly, leaning against the elevator entrance enchantingly, raising her long white legs

"how about this? If you do this favor for your sister, she will ask you out tonight. You know, my sister has never dated anyone before, but you are the first one!"

"Forehead....", Qin Feng was stunned.

Are all women in this era so bold?

"how? Don't like this? What about this style?"

Liu Yan rolled up her long hair, tied it into a neat ponytail, and put away her charming smile.

Her whole person instantly became heroic and heroic, and she was as charming as a woman, which made people's eyes bright.

"Little brother, do you like your sister's style?" Liu Yan asked seriously.

At this moment, there was no charm in her body, but there was a kind of heroic beauty that was stunning.

"how? Don't like this either? Liu Yan suddenly smiled evilly,"Then do you like the pure student type, or the well-behaved maid type?" You name it, there's no character that I, the ever-changing witch, can't play.".....

## Chapter 34

Qin Feng was sweating profusely:"Forget it. If you want to buy it, just buy the seventh box from the third row of shelves."

Liu Yan was overjoyed:"Thank you, little handsome guy! Remember to wait for me here. Oh, I will thank you later!"

"Don't! I just rely on luck. If it's just a low-quality Yuanwu, don't blame me."

"Do not blame you! No matter what it is, my sister recognizes it. By the way, handsome boy, what is your favorite type?"

"Um...pure, right?...."

"good! Wait for me here!"

After that, Liu Yan hurried away.

Watching her leave, Qin Feng shook his head with a smile and took the elevator directly downstairs.

He had to go find Chu Chu and had no time to tangle with this woman.

Qin Feng The front foot had just left the Yuanqi Pavilion.

Liu Yan's cheers came from the eighth floor.

She had just followed Qin Feng's instructions and fired a water-based Yuanwu with an amplitude of 86%, worth more than 300 million.

This caused a stir all around. Marveled.

Liu Yan was extremely excited.

When she returned to the elevator, she found that Qin Feng had long disappeared.....

Qin Feng left Yuanqi Pavilion and went to Warrior Building.

Half an hour later, he arrived at the third floor of the Warrior Building.

Before he entered, he heard cheers coming from inside.

Qin Feng was curious and walked in.

I saw a group of people surrounding a huge 3D screen, watching enthusiastically.

In the 3D light screen, a battle scene is being played.

On both sides of the battle, one is a strong man with a beard.

The other one is Chu Chu.

At this moment, Chu Chu was holding a narrow long sword.

The strong man holds a thick-backed sword.

The two sides were going back and forth, and the killing was inextricable.

There were waves of exclamation from the crowd

"Wow! Who is this little girl? She was able to fight with Tao Shen for so long, how amazing!"

"Tsk tsk! In terms of melee combat skills, Tao Shen ranks among the top ten in Yunyang City. This little girl can fight to such an extent with Tao Shen, she is indeed amazing!"

"So young and so powerful! She is a natural fighter!"

People were full of admiration for Chu Chu.

Qin Feng also showed a look of surprise when he saw the picture on the 3D light screen.

Everyone was right. This girl Chu Chu is indeed a natural fighting child with extremely amazing fighting talent.

This 3D virtual fighting , the characters in it are not real people, they are virtualized.

The height, body shape and other appearance parameters of the virtual characters are exactly the same as the real ones.

As for the combat power parameters of the virtual characters, regardless of attack power, speed, defense Everyone's strength is the same.

In other words, everyone's fighting strength is on the same starting line.

Then the two sides fight, whether they win or lose, all depends on fighting skills and experience.

This is a real training method to hone fighting skills.

With strength Suppressing people, in this mode, will not work. At this moment, both Chu Chu and the strong man showed amazing fighting skills.

The strong man has rich experience.

Chu Chu relied entirely on talent and consciousness

"This little girl is pretty good!"

Qin Feng was overjoyed.

This was an unexpected discovery.

However, in Qin Feng's eyes, Chu Chu and Zhuang Han's fighting skills are still rough and have many loopholes.

After all, he has integrated god-level fighting skills and has an extremely high vision.

"This girl can be trained well!"

Qin Feng is extremely satisfied with Chu Chu's performance.

This little girl has only been exposed to fighting for the first time, and she can perform like this, which is very good.

At this moment, the battle in the 3D light screen changed.

Chu Chu was seen dodging. , his steps were wrong, and he made a perfect S-shaped move, instantly sticking to the side of the strong man and entering the strong man's defensive corner. The strong man was startled, and he had no time to turn around.

But he was experienced and long-term. The sword quickly switched from the right hand to the left hand, and swept towards Chu Chu's legs, trying to force Chu Chu to retreat.

Chu Chu jumped up very quickly, avoiding the slash, and at the same time pierced the strong man's neck with the sword.

The strong man was about to die. A throw of the knife also cut off Chu Chu's right leg.

K.O!

Chu Chu wins!

Chu Chu's name was printed on the 3D light screen.

The strong man's body disappeared, and Chu Chu also automatically exited.

"Wow! So cool!"

"Little sister, you are so awesome!"

There was a cheer in the crowd.

Qin Feng also showed a satisfied smile.

After a moment, two figures, one large and one small, walked out from the 3D fighting cabin behind the 3D light screen. It was Chu Chu and the strong man.

Many spectators were excited They gathered around him enthusiastically, and immediately surrounded Chu Chu.

"Little sister, can we make friends?"

"Little sister Chu Chu, we in Dongchang need talents like you, come and join us!"

"Chuchu, we at Western Union also need talents like you, join us!"

"I go! What are you two eunuch organizations doing? If Chu Chu wants to join, she should join our Fire Phoenix!"

Those mercenary organizations invited Chu Chu to join one after another.

The little girl was also very happy, with a smile on her face.

It was also the first time that she discovered that she had such a talent.

"No, I don't plan to join the mercenary organization yet, thank you all."

The little girl politely refused.

The main combat force of these mercenary organizations is genetic warriors.

In addition to forming groups to hunt ferocious beasts, they sometimes also complete some tasks for their employers.

Such organizations are very popular in this era.

However, the little girl The girl is very obedient. She doesn't dare to make blind decisions without Qin Feng's permission.

"Little sister, you are very good. In this Yunyang City, in terms of pure close combat, there are not many people who can beat me, and you are one of them."

The strong man greeted Chu Chu enthusiastically, feeling a little sympathetic.

"Uncle, I was just lucky too.", Chu Chu responded humbly.

But as soon as she said her words, everyone around burst into laughter.

The strong man touched his beard and said with a blush: "Actually, I am only 19 years old this year. ...."

## Chapter 35

".....", Chu Chu was a little embarrassed, "Oh, I'm sorry, I didn't know you were only 19 years old. ...."

In the crowd, Qin Feng also laughed dumbly.

That strong man must have looked too impatient. He was clearly nineteen years old, but he looked like he was in his thirties.

The strong man also smiled shyly: "It doesn't matter! I'm used to it. My name is Ning Tao! The Yunyang mercenary community is used to calling me Tao God. I hope we can have a chance to fight again next time"

"OK!", Chu Chu happily agreed.

"Little girl, it's time to go home!", Qin Feng walked over with a smile

"Brother, if you don't come to me, I will go to you.", the little girl was so happy when she saw Qin Feng

"Let's go! It's not too early!"

The two brothers and sisters were preparing to leave under the envious eyes of everyone.

Everyone could see that the brother and sister had a great relationship.

The man was handsome and the woman was very beautiful and cute.

The genes of this family are really excellent..Of course they don't know that Qin Feng and Chu Chu are not biological brothers and sisters.

"Brother, wait a minute.", Ning Tao caught up with him

"Oh, is something wrong? Ning

Tao scratched his head shyly:"That's it. I think Chu Chu is really talented in fighting, but I found that some of her fighting skills are relatively unfamiliar. She must have just started fighting skills not long ago, right?"

Qin Feng nodded and admitted.

This Ning Tao is still experienced, and he can see Chu Chu's shortcomings at a glance.

"No wonder!", Ning Tao continued,"I think Chu Chu is a genius in fighting. I suggest that after you go back, buy Chu Chu a 3D fighting cabin and a network permission card, so that Chu Chu can enter the global fighting network."

"There are many powerful fighting masters in the Global Fighting Network, and there are also many fighting modes. There are pure close combat like today, mixed martial arts like elemental masters, and real strength fighting with holographic strength scanning. I think these will be of great help to Chu Chu's fighting skills."

When it comes to fighting, Ning Tao's whole body feels like he's been pumped, he's very excited.

"Brother, this sounds very interesting!"

"Well, that's a really good idea, I'll consider it." Qin Feng also became interested.

Ning Tao smiled shyly and said:"I also have an account on Douwang. My account name is Yunyang Taoshen. If Chuchu applies for an account in the future, you can contact me. Let's have another discussion online"

"OK!", the little girl agreed happily.

Then, the brother and sister said goodbye to Ning Tao and left the virtual fighting hall.

The little girl was in a particularly good mood today.

When she went downstairs, she also asked: "Brother, will you buy me a fighting cabin? ?"

"I can!" Qin Feng pinched the little girl's cute face lovingly, "But we'll talk about it in a few days. There are still important things to do tomorrow!"

"Um!", Chu Chu was so happy, "Brother, you are so kind!"

She is now very interested in fighting.....

An hour later, Qin Feng and Chu Chu left the Warrior Building and returned to their home in the refugee area. It was already six o'clock in the afternoon.

By the time the brother and sister had finished dinner and showered, it was already past 8 p.m.

Chu Chu originally wanted to play with her phone for a while, but Qin Feng confiscated her phone and rushed to bed early.

After Chu Chu fell asleep, Qin Feng began to meditate and practice.

Since entering the quasi-elemental master realm, his mental state has been particularly good and he only needs to sleep for one or two hours a day.

Rumor has it that a two-star elemental can be very energetic even if he doesn't sleep for days and nights.

Since there is no need to sleep, Qin Feng does not want to waste time and speeds up the time to condense the divine seal.

A fellow practitioner from the four elements, elements from the four elements of ice, wind, fire and thunder poured into his body at the same time.....

At the same time, in the center of the base, in the small courtyard of a luxurious villa.

In the night, under dim lights.

A shirtless young man was playing with sandbags.

He had punched more than 30,000 times, and the sweat was flowing and soaked into his trousers.

He is Lin Xuyang, the second son of the Lin family.

Tomorrow is the day I take action!

Father!

I will definitely do it cleanly this time!

I will never let you look down upon me again!

I will definitely prove to you that I am no worse than big brother!

Lin Xuyang punched the sandbag in front of him hard.

Bang~!

The dull sound of boxing echoed in the night sky.

The sandbag made of monster animal skin was deeply dented.

He is a level four genetic warrior.

But after several years of hard training, his combat power reached 100 points, which was equivalent to that of a quasi-elementalist.

At this time, footsteps sounded behind him, and a delicate woman who looked like a servant came over.

"Second Young Master, it's very late. It's time for you to rest."

The woman's tone was respectful, and her eyes were full of fear for Lin Xuyang.

This Lin Xuyang is not an ordinary second-generation official.

He works hard! He goes all out!

However, in order to become stronger, his character is a little twisted.

He likes to do sadistic things, especially to women

"Well, I get it." Lin Xuyang took off his gloves and asked, "Xiaolu, what are the arrangements?"

"Everything is arranged. Tomorrow, that Chu Chu will report to the Refugee Department. I've arranged an insider over there. As long as she enters the Refugee Department, her whereabouts will always be under our surveillance.", Xiaolu responded seriously

"very good!", Lin Xuyang nodded with satisfaction, "Have all my off-road vehicles been inspected? Are those micro missiles filled?"

"Come back, sir, everything is ready"

"Well, go and give me some bath water. I'm going to take a shower soon." Lin Xuyang casually threw the gloves to Xiaolu

"Young Master, do you need my subordinates to relieve your anger tonight?", Xiaolu asked anxiously

"Need not!" Lin Xuyang glanced at Xiaolu's voluptuous figure and said, "I have business tomorrow, so I need to conserve my energy tonight."

Xiao Lu secretly breathed a sigh of relief. She didn't have to be abused tonight.

"Young Master, I'm going to put the bath water in for you now."

Xiao Lu respectfully left.

Lin Xuyang was the only one left in the courtyard.

He looked up at the starry sky, the moon was a little incomplete, and his heart was very lonely.

Everything will wait for tomorrow.

This time, he will do it neatly and not let anything happen. People are suspicious.

He wants to impress his father.

Once that little refugee girl dies, no one will think of the big event that is about to break out the day after tomorrow. It is related to the Lin family.

And he will also have the opportunity to obtain the talent for cultivation.

As long as he can practice Talent, as long as he has the chance to become an elemental, what does it mean to kill a small refugee?

Even if he kills a thousand or ten thousand, he can do it.....

Chapter 36

In the blink of an eye, the night passed.

Early in the morning, the genius has just dawned.

Qin Feng opened his eyes with a happy face.

This night of practice was fruitful.

He couldn't wait to open the training template.

Practitioner: Qin

Feng Wind realm (peerless): quasi-elemental master (93% completion of divine seal)

Thunder realm (peerless): quasi-elemental master (82% completion of divine seal)

Ice realm (genius): quasi-element Master (Divine Seal Completion Degree 91%)

Fire Realm (Ordinary): Quasi-Elemental Master (Divine Seal Completion Degree 30.0005%)

Talent Skills: God-level Devouring

Combat Skills: Violent Blow

Auxiliary Skills: Ice Concealment Technique

Combat Power Index: 900 point

"very nice!"

After seeing the progress of his training, Qin Feng was very satisfied.

The completion rate of the wind divine seal has reached 93%. He only needs to practice for one more day to become a one-star wind elemental master.

By then, his strength will skyrocket.

And The thunder element will also break through to one star within two days, and his strength will skyrocket.

His future is bright.

"pity! There's no way to practice today," Qin Feng said with some unfinished thoughts.

He looked back at Chu Chu on the bed.

The little girl was sleeping soundly.

Her rosy little lips were slightly raised, and she was holding a bear doll in her arms, which was very cute.

The room was only 20 square meters and had only one bed.

The brother and sister had been crowded on the same bed.

When she was a child, the little girl liked to sleep with him in her arms and was very clingy.

There was no other way, so Qin Feng bought her a bear doll. The girl liked it very much.

Seeing this, Qin Feng felt that this scene was so familiar.

He suddenly remembered that in the original earth world, the morning when Chu Chu had an accident.

He also woke up early like this and looked at the little girl like this.

What a familiar scene..

It seems that something similar will happen today.

But this time, he will not let the tragedy happen again.

Qin Feng took a deep breath and looked up out of the window.

It was dawn, and it was time for him to take action.

Today, What he has to do is to kill Lin Xuyang. Unless

Lin Xuyang dies, Chu Chu will always be in danger.

Even if he becomes an elemental master, this hidden danger will always exist.

When Lin Xuyang dies, his next step is to destroy the Lin family.

Perhaps, only by doing this can their brother and sister be safe forever.

Thinking of this, Qin Feng began to make preparations.

Wash, make breakfast, and check weapons and equipment.

Time passed quickly.

At around seven o'clock in the morning, the brother and sister finished breakfast. Finally, Qin Feng asked Chu Chu to put on the monster armor next to her body, and then put on an ordinary piece of clothing.

In this way, others would not be able to tell that the little girl had the monster armor on her body.

The monster armor was made of monster skin. It is made, very soft, close to the body and easy to wear.

The little girl's titanium-manganese alloy women's long sword was also put into the storage ring by Qin Feng, so that it was not exposed for the time being.

After doing this, Qin Feng also changed into ordinary clothes..Looking at it this way, the two brothers and sisters are just refugees.

"Brother, why are we dressed like this?", the little girl was a little confused.

"Show weakness to the enemy and lower others' vigilance. This way you can catch them by surprise and attack them unprepared"

"oh!", Chu Chu seems to understand but not understand

"Let's go!"Qin Feng didn't bother to explain,"I have to report to the Refugee Department before eight o'clock, so don't be late."

"Um~! ", Chu Chu was very well-behaved,"Let's go!"

At that moment, the brother and sister were bathing in the morning light and headed towards the Refugee Department.....

Twenty minutes later, Qin Feng and Chu Chu rushed to the No. 7 Refugee Department and went to register first.

There was a long queue of refugees waiting in front of the registration office.

Some of these refugees were wearing fierce animal skin armor, some were carrying long knives, and some were carrying grenade guns. They were all kinds of strange things.

Like Chu Chu, they all came to perform a week's patrol mission.

Soon, it was the Qin Feng brother and sister's turn to register.

Sitting behind the desk is Chen Ming, the highest official in this area.

There is a female assistant sitting next to him, registering data on the computer.

"Why don't you buy some equipment for self-defense?", Chen Ming asked casually

"Ordinary equipment cannot deal with ferocious beasts. The better ones are too expensive, so I won't buy them.", Qin Feng casually talked nonsense

"You only have one life, don't be reluctant to spend money." Chen Ming took out a form, "This is a task registration form, please fill it out!"

Qin Feng took the form and filled it out at will.

The work efficiency in the refugee area is very low.

He has been promoted to a citizen for three days.

His registration information in the refugee area is still a refugee.

Of course, as long as he takes out the citizen certificate, he can He left immediately without performing any tasks.

However, Qin Feng's purpose was to kill Lin Xuyang and pretend to be a refugee for a day or two. It was no big deal.

After filling out the task form, Qin Feng handed it over.

Chen Ming looked at it and found that there was no problem. Take out another form

"This is the will form. Make a will and specify the beneficiaries. If you don't make a will and you die in action, your estate will be owned by the government by default."

In this troubled world, the lives of the weak are at stake.

Before each refugee performs his mission, he will leave a will to make arrangements for his property and pension after his death.

Qin Feng shook his head: "There is no need for a will.!",

Chen Ming nodded, and without saying anything else, he asked the assistant on the side to enter the form.

Next, Chu Chu registered.

Chu Chu originally wanted to make a will and benefit all his pension and other benefits to Qin Feng, but Qin Feng stopped.

How could Qin Feng let her get into trouble during this mission?

After registration, Chen Ming arranged for someone to lead the Qin Feng brothers and sisters to the mission hall.

An hour later, all the refugees had completed their reports.

In the hall, people gathered. There were hundreds of refugees preparing to carry out the mission.

Chen Ming also entered the hall, followed by ten genetic warriors.

"Next, you will be divided into ten teams, each team will be led by a genetic warrior. Then, everyone will be arranged to the S-22 defense area and accept the arrangements of the commander there."

After Chen Ming announced, he looked at the ten genetic warriors again.

"What kind of subordinates do you want? Choose it yourself!"

"yes! Sir!"

At this moment, the ten genetic warriors began to select people..

Chapter 37

These genetic warriors have sharp eyesight.

Those who are strong or have good equipment will be picked first.

Those who are old, weak, sick, or unprepared will have few candidates.

There is no doubt that Chu Chu is too young and belongs to the old, weak, sick and disabled category. No one chooses her at all.

After all, going out on patrol involves a certain amount of risk, and no one wants to bring a gas bottle with them.

In their eyes, a little girl like Chu Chu is just a drag.

"Hello! you! It's you! Follow me!"

A ruffian-looking genetic warrior casually pointed at a tall, bald man.

"Thank you sir!"

The bald man was so happy that he ran over in a hurry.

The ruffian gene warrior was very satisfied with the bald man's attitude, and his face showed a condescending attitude.

However, this is normal.

These refugees are ordinary people, how can they Compared with genetic warriors.

In this era, strength is status.

"Hello! Boy, come here too!", the ruffian gene warrior took a fancy to Qin Feng again.

Qin Feng glanced at him, but he was only a third-level gene warrior.

This strength is considered to be average and upper-class among the ten gene warriors, not outstanding.

The strength of the team leader depends on his strength. The life safety of team members is also affected.

"Hello! The adults are calling you, stop dawdling. Come quickly!"

Seeing that Qin Feng hadn't moved for a long time, the bald man quickly urged him, as if he was trying to please the ruffian gene warrior.

"I can join you, but I must bring my sister with me.", Qin Feng pointed at Chu Chu next to him.

When the ruffian gene warrior saw that Chu Chu was so young, he quickly shook his head:"Then forget it!"

After that, he left without looking back.

He didn't want to bring a drag bottle with him.

Being rejected, Chu Chu raised her mouth dissatisfied and whispered:"What! They are very powerful!"

Qin Feng smiled and touched the little girl's head. This is the effect he wanted.

The more Chu Chu is underestimated, the safer he will be.

At this moment, another genetic warrior with a kind face came over.

This He is a middle-aged man, a fourth-level genetic warrior.

With such strength, he is considered the strongest among the ten genetic warriors. Many refugees want to follow him.

But this middle-aged man has no choice, but walks directly towards Chu Chu

"Little sister, do you want to team up with me?", the middle-aged man showed a kind smile

"Um..." Chu Chu was a little surprised, "I want to be with my brother. Can you let my brother join your team?"

The middle-aged man glanced at Qin Feng and said with a smile, "Of course!" Chu Chu was delighted:

Brother, look, someone is still willing to choose me!" Uncle, thank you very much!

The middle-aged man smiled: "Call me team leader from now on!" Call me uncle, I always feel like I am getting old. By the way, my name is He Feng. What are your names?"

"My name is Chu Chu!", the little girl happily reported her name.

It is always a pleasure to be recognized by others.

"Little brother, what about you?", He Feng looked at Qin Feng with a smile.

"Qin Feng!"

Qin Feng's tone was lukewarm.

He always felt that He Feng was a bit weird.

Other team leaders were all picking strong ones, but this guy picked Chu Chu as soon as he came up, which was against common sense.

"Team Leader He, my sister doesn't have much fighting ability, I'm afraid she will drag you down this time.", Qin Feng said deliberately

"I just wanted to take care of her because she is young." He Feng suddenly felt a little emotional, "When I see Chu Chu, I think of my sister. Back then, when my sister was this old, she died in the beast wave....."

"Feel sorry! Reminds you of bad things....."

"fine! He Feng smiled gently and said, "You two, take these two pistols. I see that you two don't have any self-defense equipment. You may encounter some dangers when you leave the city.""

He Feng took out two pistols and gave them to Chu Chu and Qin Feng.

These two mobile phones are specially made and can cause certain damage to first-level ferocious beasts. The market price is tens of thousands of coins, and most people are not willing to lend them to others..

This He Feng is quite generous.

After the explanation, He Feng went to recruit other people

"Brother, this leader He Feng is such a good person!", Chu Chu played with the pistol and was a little moved.

"maybe!", Qin Feng put away the pistol at will.

Half an hour later, everyone was divided into groups.

There were ten people in He Feng's group, and Qin Feng and Chu Chu were the youngest among the ten.

After the grouping, Chen Ming arranged ten vehicles. Trucks transported ten groups of people to the S-22 defense area outside the city.

An hour later, Qin Feng and others arrived at the S-22 defense area.

A government army was stationed in this defense area.

Those garrison soldiers were all genetic warriors. There are thousands of people, and hundreds of quasi-elemental divisions serving as officers.

In addition, there are several one-star elemental divisions serving as senior officers in the garrison.

At this moment, hundreds of refugees have gathered in the square of the defensive area.

These are all. They were mobilized from several nearby refugee areas.

Qin Feng and Chu Chu were also among them.

"What is our main patrol mission this time?"

"What else could it be? When the garrison patrols, we are responsible for attacking and doing engineering work."

"That's right! If we really encounter a ferocious beast, we have to rely on these garrison troops, and we have no choice but to escape..."

From time to time, there were comments from the crowd.

At this moment, a group of soldiers walked in front.

The three leaders, all wearing The Order of the Baron.

That is the symbol of a one-star elemental.

The crowd immediately caused a commotion

"Look! Three elemental masters are here!"

"Shh~! Keep your voice down! They are all senior officers of the garrison."

Having said this, the crowd gradually became quiet.

"Brother, the elemental masters are so cool!", Chu Chu looked envious.

Qin Feng smiled and looked up at the three elemental masters.

Those three were all one-star elemental masters, and none of them were his opponents.

But when he saw the appearance of the leader clearly, he was a little surprised.

The leader was actually Liu Yan...

## Chapter 38

At this moment, Liu Yan was wearing a straight military uniform, with the rank of major on her shoulders, a Yuanwu sword on her waist, and high-top demon leather boots. She looked heroic and very aura.

That heroic aura had a different kind of beauty that astonished everyone present.

It turns out that when a woman becomes heroic, she can be so beautiful!

Qin Feng's eyes also flashed with surprise.

Liu Yan's outfit looks even better than last time.

But then, Qin Feng quietly lowered his head.

He didn't want to be recognized by Liu Yan for the time being.

At the moment, Lin Xuyang has not appeared yet, so it is not suitable to be exposed.

At this time, Liu Yan and others walked up to the refugees and began to lecture them.

"Welcome to join the S-22 Defense Zone! I am the commander of the ninth regiment of the garrison  
- Liu Yan!"

"In the next week, you will cooperate with our army to perform patrol missions. There is only one thing you have to do, and that is to obey orders! Absolute obedience!"

"Even if the order of this captain is wrong, you must obey it! If anyone dares to violate it, he will be killed without mercy!"

Liu Yan's words are very domineering.

In this S-22 area, she always says the same thing and no one dares to disobey her.

"Deputy Commander Wang!"

"The subordinates are here!"

A young man stepped forward immediately. He was also an elementalist.

"Next, you make the arrangements!"

"yes! Leader!"

An hour later, Deputy Commander Wang completed the arrangements.

Hundreds of refugees were divided into several patrol teams, and together with the defenders, they began to perform patrol tasks.

The refugees all received shovels, picks, hoes and other items.

During the patrol, the refugees' The task is to repair the fortifications destroyed by ferocious beasts and serve as engineers.

In addition, refugees without weapons can also receive a rifle for self-defense. However

, those rifles are okay for shooting wild beasts, but they are just for decoration to deal with ferocious beasts.

Done With these preparations, each major patrol team headed towards the patrol area they were responsible for.

Two hours later, outside Yunyang City, West District 1.

A patrol team shuttled through the jungle covered with thorns.

This team, It consists of a five-person government garrison and two groups of refugees.

Qin Feng and Chu Chu are among this team.

Along the way, Qin Feng saw many abandoned city ruins, all overgrown with weeds and bushes. A different kind of vicissitudes.

These are places where humans were invaded by vicious beasts and were forced to give up.

"Everyone should always be vigilant!"

He Feng reminded his team members.

Along the way, his performance has been recognized by the team members.

He is an amiable team leader who has taken great care of his team members along the way and quickly won the support of the team members..

Even the members of another refugee group felt envious.

Their group leader always acted aloof and was lukewarm to the members.

Not long after, the patrol encountered a fortification that was damaged by a ferocious beast.

That It is a ten-meter-high surveillance tower with electronic monitoring equipment installed on it.

Now it has been destroyed.

This kind of surveillance tower is mainly used to monitor the movements of ferocious beasts. Once the beast tide appears, it can be predicted in advance, which is very useful.

"A group of refugees came and erected the tower again. Which group of you will stay?"

The patrol captain looked at He Feng and another refugee team leader.

"Let's stay in our group!", He Feng took the initiative to accept the task

"good! After you finish this work, use the walkie-talkie to contact us. If an emergency occurs, please contact us in time!"

"clear! Sir!"

"good! The rest, continue patrolling!"

At that moment, the patrol leader took the others and left.

He Feng was the only group of refugees left at the scene.

"I will be responsible for the vigilance, everyone, hurry up and start!", He Feng urged, "Get it done as soon as possible and gather with the patrol team as soon as possible! This is not a place to stay for long, so don't let your guard down."

A young man with yellow hair didn't care: "Team leader, the patrol has just swept through, there should be no ferocious beasts, what are you afraid of!"

"Young man, you don't understand the cruelty of the world outside the city! Sometimes, humans are scarier than beasts! We must not only defend against ferocious beasts, but also against humans. We must not take it lightly at any time. He Feng sighed.

The yellow-haired young man was puzzled: "Shouldn't we humans help each other?" How could it be more terrifying than a ferocious beast?

He Feng said with a serious expression: "There are still legal restrictions in the city." Outside the city, it was a world of the jungle and the strong. Here, as long as you are not discovered, your death will be in vain if you are killed."

"In addition, there are some hostile forces that often come to the outskirts of our Yunyang City to hunt down our Yunyang City people."

These words made everyone's hearts tremble.

Sure enough, there was always a crisis outside the city.

At that moment, everyone did not dare to neglect. They all took shovels and picks to speed up the repair work.

Qin Feng asked curiously: "Team Leader He, are there hostile forces in Yunyang City?"

"Some! He Feng turned his head and looked to the east, "Risang City, which is three thousand miles away to the east, is at feud with our Yunyang City." Our two sides have been at war for many years, with each other winning and losing."

When Chu Chu heard this, she looked worried and said: "Team Leader He, the world outside this city is so scary!"

"Don't worry, Chu Chu! No matter how dangerous it is, the team leader will protect you."

He Feng smiled, with a touch of sadness deep in his eyes.

This little girl really looked like his dead sister.

Chu Chu was a little touched when she heard this.

Some of the refugees had strange looks in their eyes.

Then, He Feng climbed to the top of a high ground, be on alert.

Qin Feng and the refugees are working hard to repair the fortifications.

At the same time, outside the city, somewhere in the jungle.

Lin Xuyang is smoking a cigarette and sitting in a super tank with Xiaolu.

This The outer shell of the tank uses double-layer titanium-manganese alloy armor. The core is XS-927 micro-nuclear reaction power. It has three built-in TX6 micro-missiles and a high-energy Gatling machine gun. The market price is more than 170 million.

"Sir, our people have sent a signal. Chu Chu's position was determined, at six o'clock, twenty-one miles away from here."

Xiao Lu is holding a laptop, which displays a map outside Yunyang City.

In the picture, a small red dot keeps flashing, which is Chu Chu's location.

"good!", Lin Xuyang threw away the cigarette butt,"Action!"..

Chapter 39

"good!", Lin Xuyang threw away the cigarette butt,"Action!"

At this moment, Lin Xuyang started the chariot and headed towards Chu Chu's location.

On the other side, Qin Feng and others were working hard to repair the fortifications.

Outside the city is a place where ferocious beasts are rampant, and it is also a lawless place, full of all kinds of things. Danger, no one dares to neglect it.

He Feng has been carefully guarding from a high place.

Twenty minutes passed in the blink of an eye.

The collapsed tower was re-erected, the lines were re-installed, and the damaged monitoring equipment was replaced.

Before he could see it , Seeing that the fortifications were about to be repaired, everyone secretly breathed a sigh of relief.

But at this moment, intensive machine gun fire sounded from deep in the jungle.

"This is...."

The faces of the refugees changed slightly and they quickly looked in the direction of the gunfire.

"The situation may change! Everyone be on guard... Hey! That's..." He Feng's face changed drastically, "No, there are more than 20 ferocious beasts rushing over, everyone, retreat quickly!"

He Feng yelled anxiously.

Everyone's expressions changed drastically.

Twenty-odd ferocious beasts are equivalent to more than twenty genetic warriors!

He Feng is the only one among them who is a genetic warrior, and he is no match at all.

It's over now!

"It's over! It's over! Those ferocious beasts must have been alerted by the gunfire!"

"Team leader, what should we do?"

The refugees panicked

"Everyone spreads out and runs away, which will give them a higher chance of survival.", He Feng commanded, taking out his walkie-talkie and anxiously contacting the patrol team.

"Captain, when we were repairing the fortifications, we encountered a group of small ferocious beasts. The situation is critical! Please come to the rescue quickly!"

As soon as these words were said, there was a large rustling of leaves in the jungle ahead, and the sound of running, even the ground shook.

"The beast is approaching! You run! I first use the sound of gunfire to attract the attention of the vicious beasts and hold them back first. He

Feng urged anxiously, and at the same time he picked up the grenade gun and fired randomly into the depths of the jungle.

Sure enough, when the ferocious beasts heard the fighting, they all moved towards He Feng.

The refugees were completely panicked and scattered in all directions. Escape.

In a blink of an eye, only Chu Chu and Qin Feng were left in the field.

"Why don't you two run away?", He Feng jumped from a high place

"Team Leader He, we want to stay and help you!" Chu Chu has always been grateful to He Feng and thinks he is very good.

"Nonsense!", He Feng was furious, "Can you deal with these ferocious beasts? You hurry up and retreat to the defensive zone, I'll hold them back...."

"That's too late!" Qin Feng raised his head and looked in a certain direction.

He saw more than twenty wild boar monsters in that direction, rushing towards this direction.

Those wild boar monsters were each three meters tall, five meters long, and had long mouths and long tusks. Up to half a meter, like a group of tanks, any obstacle is bulldozed wherever it goes.

This is the third-level ferocious beast - the iron-tusked wild boar, which lives in groups, is metallic, and is as hard as iron. It can be used against ordinary thermal weapons. They have no effect.

If these twenty dozen are pushed together, even three or four level four genetic warriors may not be able to resist them.

"Come with me!"

He Feng pulled out the titanium-manganese alloy sword from behind and fled in one direction with the Qin Feng brothers and sisters.

Ouch~~Ouch~!

Those iron-toothed wild boars howled and chased Qin Feng and the others.

"There is a mountain col ahead! Where to run!"

He Feng pointed forward anxiously.

He was very nervous now.

If he was really caught up by these ferocious beasts, the most he could do was protect himself, but he couldn't save the two brothers and sisters.

Just when he was panicking, something happened suddenly.

In the jungle ahead, there was a roar of machines.

A super tank rushed out of the jungle, blocking the three people's escape direction.

On top of the tank, Xiaolu drove the tank.

Lin Xuyang held on to the Gatling cannon on the roof of the tank. , looked at Chu Chu with a proud look.

After struggling for so long, he finally got everyone out of the way.

He could come and kill this little refugee quietly without making anyone suspicious.

Afterwards, people would only think that , this little girl died in the beast wave.

This time, he wants to prove to his father that as long as he wants to, he can do everything perfectly.

His ability to do things is not bad at all!

"Sure enough it was him!"

Qin Feng recognized Lin Xuyang at a glance, and hatred in his heart instantly exploded.

He wanted to kill this guy!

"elder brother! Team leader! Someone is here to help us!"

Chu Chu didn't know the truth. When she saw Lin Xuyang's chariot, she ran over happily.

She thought that everyone was human, and the people who came would definitely help them deal with the ferocious beasts.

Lin Xuyang's lips curved into an evil smile.

He raised his machine gun. , aimed at Chu Chu, and pulled the trigger.

But at this critical moment, Qin Feng dodged, picked up Chu Chu, rolled, and hid behind a boulder.

Ta~! Ta~! Ta~!

Lin Xuyang's strafing shot suddenly failed..

Good guy!

The hand Qin Feng showed shocked both Lin Xuyang and He Feng.

This speed! This skill! He is definitely a master!

This information is wrong!

Isn't Chu Chu's brother an ordinary person?

How could he be so powerful ? skill!

"Damn it!", Lin Xuyang was furious, "I will blow you up!"

He quickly sat back in the cab and pressed the electronic button.

A mini-missile rose and aimed in the direction of the boulder where Chu Chu was hiding.

Xiaolu's face changed drastically: "Master, it's too close! We will be in danger too!"

"Shut up!", Lin Xuyang has gone crazy.

Behind the boulder, Chu Chu was stunned.

She couldn't understand why Lin Xuyang wanted to kill herself

"Chuchu, I'm going to kill that guy!" Qin Feng had no time to explain.

He Feng was shocked: "Qin Feng, don't be impulsive!"

"Team Leader He, help me take care of Chu Chu!"

After saying that, Qin Feng said something close to Chu Chu's ear.

After Chu Chu heard this, his face changed drastically, and his eyes were full of disbelief.

At this moment, Lin Xuyang pressed the button, and a miniature missile activated At the same time, Qin Feng jumped up and kicked the mini-missile.

The missile fell into the group of ferocious beasts behind, killing five or six iron-tusked wild boars on the spot, and the entire forest shook.

The wild boar monsters were frightened and fled in all directions.

Lin Xuyang, He Feng and others were shocked.

This skill is too strong!

Gene warriors definitely don't have such skills.

Could it be that Qin Feng is an elemental master?

Thinking of this, Lin Xuyang and Xiaolu's expressions changed drastically.

When encountering an elemental master, they can only run for their lives, how can they dare to fight?

"Xiaolu, run away!" Lin Xuyang urged urgently. Without saying a word, Xiaolu drove in a sharp turn and was about to escape.

Qin Feng sneered.

Lin Xuyang must die today!...

Chapter 40

Qin Feng sneered.

Lin Xuyang must die today!

He is not dead! Endless troubles!

The Lin family will definitely not let Chu Chu go! I will never let myself go!

Qin Feng quickly accelerated and chased Lin Xuyang.....

At the same time, thousands of meters away.

A middle-aged man with fair complexion was standing on the top of a tree, holding a telescope in his hand and watching Lin Xuyang's every move from a distance.

He is Bai Su who was ordered to secretly protect Lin Xuyang.

"not good! He is a master!"

When Bai Su saw Qin Feng's skills, his expression changed drastically. He quickly stretched out his hand, and a long vine shot out from the palm of his hand and wrapped around a big tree a few meters away.

He was like Spider-Man, jumping from a tree. One big tree swings to another big tree.

Then it shoots out vines and swings to the next tree.

The speed is extremely fast, far exceeding the speed of the fourth-level genetic warriors and ferocious beasts.

The second young master encountered He was in danger, and he had to go to the rescue.

On the other side, Lin Xuyang was scared out of his mind when he saw Qin Feng chasing him.

What's going on?!

What's going on?!

The intelligence said that this Qin Feng is an ordinary person.

But what he just showed His strength has clearly reached the level of an elemental master!

"Speed up! Add five gears! quick!"

Lin Xuyang roared.

He is crazy!

But he is not stupid!

But Qin Feng caught up in a moment, the blood and bone knife suddenly appeared, and the sword energy burst out for several feet.

A dazzling knife light flashed across dozens of meters in radius.

Click~!

With just one knife, the super tank was split in half.

The cut was as smooth as a mirror.

Xiaolu was killed on the spot.

Lin Xuyang jumped sideways and fell off the tank.

With this fall, he fell He was so dizzy.

But when he saw Qin Feng approaching, he was so frightened that he rolled and crawled back.

"Don't! do not come! I didn't mean to kill that girl just now, the bullet just missed....", Lin Xuyang kept shrinking

"Lin Xuyang, you didn't expect today to happen!", Qin Feng stepped forward step by step, with a cold look in his eyes.

"I...we know each other?", Lin Xuyang was surprised.

He could recognize Qin Feng because he had checked the information before.

But why did Qin Feng call out his name all of a sudden?

It was obviously the first time they met.

"Of course we do! I was your enemy in the previous life!"

Qin Feng smiled coldly and walked forward.

Lin Xuyang's face changed drastically and he shouted behind Qin Feng: "You still don't take action, do you want to watch me die?"

As soon as these words were said, a sudden change occurred in the scene.

He Feng, who was watching the battle, suddenly took action and grabbed Chu Chu's neck with a claw.

He was actually Lin Xuyang's accomplice.

He wanted to capture Chu Chu alive to threaten Qin Feng, saved Lin Xuyang.

But Chu Chu seemed to have expected it. He turned sideways to avoid the claw, and at the same time kicked sideways and swept across. His combat power, which exceeded that of a quasi-elemental master, exploded in an instant, and swept He Feng away with one kick.

What happened suddenly This scene caught Lin Xuyang and He Feng by surprise.

What happened?

Isn't this Chu Chu an ordinary person?

Why is he so strong!

This completely surpasses the quasi-elemental master.

Even if the two of them join forces, they will not be Chu Chu's opponent..

These brothers and sisters completely subverted their understanding.

Click!

Chu Chu quickly pulled out the pistol, cocked the bolt, and pointed it at He Feng's eyebrows.

She was angry:"Why? Why did you lie to me?!"

The little girl can't accept the facts in front of her.

If Qin Feng hadn't reminded her to always be on guard against He Feng, she might have been tricked.

"It turns out that you are not an ordinary person, it was me who was careless.", He Feng smiled bitterly,"I'm sorry, Chu Chu! Go ahead and kill me!"

He Feng closed his eyes and let out a long breath, seeming to be relieved.

"Why are you doing this?"

Chu Chu's hands were trembling.

She had never killed anyone.

She couldn't bear to kill someone who had always taken care of her.

"No why?", He Feng looked sad, "I need money to save my daughter... She is so young, but God made her suffer from such a serious illness. It is because I am incapable of it, no wonder others, you do it!"

Chu Chu relented and slowly put down the pistol.

But at this moment, a flash of light flashed in He Feng's eyes, and he suddenly made a sneak attack and chopped off Chu Chu's head with a knife.

Chu Chu was shocked to realize that the fighting talent possessed him. With a wrong step, he easily avoided that With one knife, he raised his hand and shot it through the center of He Feng's eyebrows.

He Feng opened his eyes wide in horror and fell slowly.

He never expected until his death that Chu Chu would take action so quickly...
