

## God level 311

### Chapter 311

But it was said that after Qin Feng left the Deep Sea Clan, he summoned a reverse space and disappeared where he was.

The next second, he appeared in a secret training room, and a sweet cry sounded behind him.

"Door owner!"

Qin Feng turned around and saw Luo Li getting up excitedly.

It turned out that this was Luo Li's secret room.

"How have you been practicing lately?", Qin Feng asked with a smile.

"With the Jingyuan Pill given by the sect master, cultivation will naturally go smoothly. I should be able to break through to quasi-eight stars within three months!", Luo Li said happily

"That's good!" Qin Feng also nodded happily.

He gave Luo Li thirty Jingyuan Pills, which was enough for her to break through.

"By the way, how is Chu Chu now..." Qin Feng thought of his sister.

Now that Chu Chu and Luo Li live together, they can also take care of each other.

"Chu Chu has been in retreat! By the way, she is progressing very quickly. In just five or six days, she has broken through to the mid-seven-star stage. I don't know how she did it!"

Luo Li's tone was full of envy.

Qin Feng smiled and said nothing.

He naturally knew what was going on.

Chu Chu's time ability was getting stronger and stronger.

The speed at which she could refine an Imperial Liquid Crystal was dozens of times faster than that of ordinary people. times.

In addition, she has obtained the sixth-level Dragon God inheritance, and her strength has naturally improved very quickly.

And her overall strength is also very strong.

If they have the same level of cultivation, Xiao Lun Wang is not her opponent.

Although Xiao Lun Wang He also awakened the seventh consciousness and has the special ability of immortal reincarnation.

Chu Chu awakened the seventh consciousness and has the special ability of time.

But Chu Chu is of the ice system, and Xiao Lun Wang is of the water system. In terms of elemental attributes, Chu Chu is slightly better.

More The important thing is that Chu Chu also has the inheritance of the Dragon God.

Therefore, Chu Chu is destined to surpass Xiao Lun King

"Luo Li, I have something to arrange for you to handle!"

"Master, please tell me!"

"Please help me find out where the insect corpses that Shangguan Yunyang sent from Yunyang City are....."

Qin Feng explained it carefully to Luo Li.

Let her find out the mysterious insect corpse related to Lin Yuankun.

He wanted to find out why Lin Yuankun's map was activated.

There is a mark on the map: we will meet in ten days.

But he still couldn't figure out the reason for that map. He couldn't figure out where the meeting point was?

Therefore, he must seize the time

"Sect Master, I will find out the whereabouts of the insect corpse as soon as possible...."

"good! Once you find the insect carcass, take it out quietly. This matter should not be made public. ...."

"clear!"

After the explanation, Qin Feng left Luo Li's residence.

A quarter of an hour later, the Southern Alliance and Emperor Feng came to the palace.

Emperor Feng looked at Qin Feng happily.

She has been a little worried about Qin Feng these days.

Today she saw Qin Feng return safely. , she finally let go of her anxiety

"Qin Feng, is the transaction going smoothly?", Emperor Feng asked with concern.

She did not wear a veil.

She no longer covered up in front of Qin Feng.

"very smooth!"

Qin Feng gently held Feng Di's soft waist and looked at the beautiful face tenderly.

Yue'er is the most beautiful woman he has ever seen, and the person who makes his heart move the most.

"The Whale Emperor and the Shark Emperor didn't make things difficult for you, right?"

Feng Di blushed slightly.

This time, she did not avoid it, but took the initiative to lean in...

She felt the warmth of Qin Feng, and she felt inexplicably at ease in her heart.

It turns out that this is how it feels to be close to the person she loves. , making people feel happy and comfortable

"Everything the Whale King and the others said was true. This time, they gave me a big opportunity...."

Qin Feng hugged Emperor Feng happily, feeling more at ease than ever before

"Have you obtained the source of water?"

Fengdi asked in a low voice.

She was very concerned about Qin Feng's affairs.

"Got it....",Qin Feng smiled slightly.

At this moment, footsteps sounded outside the hall.

Someone is coming...

Feng Di was startled and left quietly.

She is the empress of the Southern Alliance.

Although Qin Feng is her beloved, he is also her subordinate.

It would not be good if other subordinates saw the two of them being so close.....

After a while, King Neptune and King Lu hurried in.

"I have met His Majesty!"

The King of the Sea and the King of Lu came to the Feng Emperor and saluted with great respect.

Then, the two of them smiled and said hello to Qin Feng.

"How's it going?"Fengdi returned to his previous aloofness and looked at the two of them indifferently.

"Returning to your majesty, my subordinates are incompetent. After searching for several days, they still can't find out where the origin of the nine-star wind system is!"

"Even my subordinates didn't find out....."

Neptune King and Land King both had wry smiles on their faces.

Emperor Feng was disappointed.

She sighed leisurely:"I don't blame you! We don't have a wind emperor on earth yet. If you want to find the origin of the nine-star wind system, it will be difficult for you. You go down!""

"Thank you, Your Majesty!"

The two Neptunes left with some guilt.

Emperor Feng had always treated these subordinates well.

They couldn't complete the task, and they always felt a little sorry.

After the two Neptunes left, Emperor Feng looked at Qin Feng with some disappointment.

"You also heard that I couldn't find the source of the wind element you wanted for you...."

"Yue'er, it's okay!", Qin Feng comforted him softly.

Emperor Feng said sadly:"I am worried that you will miss the heavenly monument, which is an extremely rare opportunity....."

Qin Feng smiled and said:"Without the origin of the wind element, I can still make great progress. That opportunity cannot be missed."...."

Emperor Feng's beautiful eyes lit up:"Without the origin of the wind element, how can you break through to the eighth star?"

"I'm afraid it's more than that, don't talk about that. Look what this is?", Qin Feng took out a fiery red crystal stone

"Star Stone!", Emperor Feng opened her eyes wide in surprise.

Immediately, she looked at Qin Feng in disbelief

"Qin Feng, where did you get such a valuable thing? Could it be that the opportunity the Whale Emperor and the others mentioned has something to do with this??"

"clever!"Qin Feng's lips curled up slightly,"However, I got more than them. I will tell you the specific situation later. Take this!"

Qin Feng handed over a storage ring.

Emperor Feng took it and looked at it, and was dumbfounded.

He saw thirty Xingxi stones (fire) neatly placed in the ring.

Oh my God!

So many. ah!

"Qin Feng, what are you?...."

"Yue'er, this is all for you..."

"ah~! ", Emperor Feng was shocked.

But then, she shook her head:"These will be of great help to your future cultivation, you can keep them for yourself..."

Emperor Feng sent them back firmly.

I don't know since when, Qin Feng has become the sky in her heart.

She always wanted to help Qin Feng, regardless of her own cultivation.

Even if I see such a good thing, I still want to leave it to Qin Feng

"Yue'er, I still have a lot..." Qin Feng hugged her lovingly

"That's what you need most right now, isn't it? With these, you can get more benefits from understanding the heavenly monument..."

Qin Feng's words are very reasonable.

Emperor Feng hesitated: "You really still have...."

"certainly!" Qin Feng looked at Feng Di's beautiful face.

He already felt that Yue'er was always so concerned about his affairs, and would even sacrifice some of his own things to help him.

For example, finding the origin of the wind system for him, in order to practice the emperor-level skills and jade talismans...

These days, Yue'er has not practiced in retreat at all.

You know, other emperors are racing against time to retreat, just to improve their strength and get more benefits from the comprehension of the heavenly monument.

"Oh well....", Emperor Feng silently put away the ring

"Yue'er, are these star stones enough for you to break through to the peak of nine stars?"

"Enough!" Emperor Feng showed a smile and said, "Twenty or so pills are enough. There should be some left...."

"Speaking of which, I quite admire you. So far, the earth has not produced as many star stones as you have given me. If this matter spreads, those emperors will be jealous..."

Qin Feng smiled slightly.

He thought of another thing.

It takes more than twenty moons to break through to the peak of nine stars.

The Whale Emperor and Shark Emperor are not as strong as Yue'er, the two of them got only about twenty Xingxi stones in total.

Thinking about it, they will make progress, but it will be difficult to break through to the peak of Nine Stars.

At the same time, he was also amazed.

The progress of the Nine Star Emperor's strength should be It's extremely difficult.

Even for something as precious as a star tidal stone, dozens of them are needed for them to make substantial progress.

"Yue'er, when you break through to the peak of Nine Stars, how will you compare with Emperor Qinglong?"

Emperor Feng said confidently: "I should be better than him. My talent has always been higher than his." Unless he takes out the real imperial weapon, he can tie with me..."

Qin Feng was delighted: "Then my Yue'er is the best master on earth!"

Feng Di also smiled.

That smile was like a hundred flowers blooming, so beautiful.

It was as if she was the only one blooming in the world, and everything around her lost color.

Qin Feng's eyes were filled with amazement, and he felt so happy that he couldn't help but lower your head.....

Emperor Feng looked at the handsome face that was getting closer, his beautiful eyes gradually widened, but he did not avoid it.....

Qin Feng lightly touched the red lips and raised his head.

He opened his eyes again and saw his beloved Yue'er's face flushed, with some joy and shame in her eyes.....

"Yue'er, these days you should retreat and break through...."

"Um!", Yue'er responded obediently.

The Feng Emperor, who used to be aloof, showed a girl-like demeanor next to Qin Feng.

"Then I'm leaving! I'm going to retreat too...."

Qin Feng greeted with a smile.

It's time for him to refine the water source.

There are also super-god-level challenges and mysterious maps waiting for him.

And the Heaven Monument Enlightenment is approaching.

Time is precious!

After a while, Qin Feng left.

Emperor Feng was the only one left in the hall.

She silently took out a Xingxi Stone, and a scene emerged in her mind.

On a sunny morning.

On an altar, a somewhat embarrassed young man said to her that he wanted to repay her...

He seemed to have done it...

Feng Di smiled sweetly, and his heart felt warm..

Chapter 312

A quarter of an hour later, there was a secret training room.

Qin Feng looked at the water source in front of him and smiled.

There was a time when he was not even qualified to get close to the origin of Nine Stars.

But now, he can directly touch the origin of Nine Stars without being harmed.

Under the Nine Stars, he is the only one who can do this.

At this time, Qin Feng had a thought in his mind.

The true dragon body is activated!

Golden dragon scales emerged, and the nine-star emperor's power emanated.

Qin Feng's body instantly reached the nine-star level.

Then, he opened his mouth and swallowed the water source.

This time, he did not choose to refine it slowly, but to devour it forcefully.

As soon as the Nine Star Origin enters the body, huge destructive power rages in the body.

Qin Feng's face showed pain.

There was blood all over his mouth, ears, eyes and nose.....

At the same time, the god-level devouring system operates automatically, devouring the source of the water system very quickly.

Turn the violent source into powerful energy to repair injuries.....

"Ding! Successfully swallowed the source of the nine-star water system.....The water attribute has been strengthened to the nine-star level...the combat power has been increased to 3.2 billion..."

The refining was completed in just ten minutes!

Qin Feng opened his eyes in surprise.

If refining according to normal conditions, it would take a long time.

This god-level devouring is indeed Extremely powerful!

The more he practices to the end, the more Qin Fen can feel the power of this innate skill

"Just missing the last wind element....."

Qin Feng dispelled the True Dragon Tyrant Body and checked himself again. There were no sequelae.

In addition, he felt that his physical body had been strengthened again, and he was vaguely about to break through the ninth level.

If he obtains the origin of the wind element again, his physical strength may be able to break through the barrier and reach the true nine-star level in one fell swoop.

At that time, if he uses the True Dragon Overlord Body, his physical strength should reach the level of a great emperor, surpassing all emperors in one fell swoop.

Thinking of this, Qin Feng felt secretly happy.....

After a moment, he pondered again.

He had no way to obtain the origin of the wind system for the time being, so he might as well start a super god level challenge...

If before this, he would not have dared to start the challenge easily.

But it's different now. He has absorbed the fire poison, and his inheritance has awakened. His strength has improved much more than expected, and he can try the challenge.

Of course, he had to make some preparations before starting the challenge.

Qin Feng waved, the space fluctuated, and three more figures appeared in the field.

It was Li Xun, Wan Hansheng, and Lu Ming.

After the three people saw Qin Feng, they were stunned for a moment, and then they all came forward to pay their respects.

"I've met the door owner!"

"Master, what are your orders?"

The three asked respectfully

"Have you ever heard of petrified turtles?", Qin Feng suddenly asked.

Lu Ming hurriedly said:"I have heard of it! That is a five-star earth monster... The attack power of this monster is very weak, not even as good as a four-star monster"

"However, it has two advantages. One is that it has strong survivability and can survive no matter how harsh the environment is."

"Another one, it can petrify itself. Once it turns petrified, its appearance is no different from ordinary stone, and even the Eight-Star King will have difficulty discovering its existence."

Qin Feng nodded slightly.

Lu Ming was right.

He was talking about this kind of monster.

Li Xun was curious:"Master, this monster is extremely rare. Are you looking for this kind of monster?"

Qin Feng nodded:"Not bad!" This sect leader gives you a task: help me find a few petrified turtles within five days. The more, the better. By the way, live!"

"Subordinates obey!"

At that moment, the three of them took the order and left.

Qin Feng continued to stay in the secret room, took out the inscription formation secret book, and began to study it.

He wanted to wait until Lu Ming and the others found the petrified turtle before starting the super god level challenge.

He I already have a plan in mind..... time flies.

In the blink of an eye, five days passed.

There are only nineteen days left until the Heaven Monument is enlightened.

And there are only five days left before the weird map gathering time.

On this day, King Qin visited the palace and the guest room.

Qin Feng sat leisurely on the sofa.

He was waiting for Lu Ming and the others.

Today is the deadline for him to issue the task.

In these five days, he gained a lot.

He has completely understood the secret realm of the inscription formation and has reached the king level.

This level can only be considered average in the Star Alliance.

But on earth, no one can surpass it.

Even Emperor Qinglong, who is known as the number one in runes, is still one level behind him.

In addition, in the past few days.

Emperor Feng conferred him the title of King of Qin, enjoying all the rights of the Eight-Star King.

Luo Li, Chu Chu, Lu Ming, Li Xun, and Wan Hansheng were all named fifth-level monarchs, and they all came under his command.

As a result, Qin Feng's forces became the strongest among the kings.

You must know that although there are many seven-star monarchs in the Southern Alliance, only a few of them have reached the Jingyuan Fusion Realm.

Now they are all under Qin Feng's command.

In addition, Emperor Feng also allocated a group of subordinates to him. There were twenty or thirty seven-star elemental masters alone.....

The entire SAARC has no objections to these changes.

Although not many people in the Southern League knew about Qin Feng's current strength, they did know that he killed the quasi-eight-star Long Shang and brought back extremely rich resources to the Southern League.

Today, the entire SAARC is grateful to him.

And Qin Feng, at such a young age, can kill a quasi-eight-star strong man.

At his age, no nine-star emperor on earth could achieve half as much as he did.

Therefore, people knew in their hearts that Qin Feng was destined to become the emperor.

In just a few days, the name of King Qin spread, deeply rooted in the hearts of the people, and gained the admiration and admiration of countless young people.

The King of Heaven, King of Neptune, and King of Land had no objections.

They would not dare to offend a future emperor.

Qin Feng didn't care about these false names.

If he shows his true strength, he will definitely shock the world.

The position of king is no longer worthy of his status.

At this time, footsteps sounded outside the hall

"Sect Master, please see me!"

The voices of Lu Ming, Li Xun, and Wan Hansheng sounded outside the door.

These three people finally came back.

"come in!"

The next second, LuThe three of them walked in respectfully.

All three of them looked dusty.

In the past five days, they traveled to many places in search of petrified rocks.

Even the Northern League, White Tiger League, and Xuanwu League next door went.

"How's it going?"Qin Feng put down the teacup in his hand and looked at the three of them.

"Fortunately, I did not disgrace my life! My subordinates were lucky and found two petrified stones..."

Lu Ming took out two gray stones as big as a washbasin from the storage ring.

The two stones had no life breath and were just like ordinary stones.

Qin Feng He glanced at it and showed a satisfied smile.

This petrified stone was indeed good at hiding.

When he blinked, he was almost deceived and really thought they were two ordinary stones.

The next second, his eyes lit up, and his expression The consciousness attack was launched.

The two stones screamed at the same time, and then automatically produced prototypes.

Sure enough, they were two demon turtles the size of a washbasin.

At this moment, they looked at Qin Feng with horrified faces, trembling all over. Dare to move even a little bit.

This human boy gave them a much scarier feeling than those eight-star kings.

"Where are you two?", Qin Feng looked at Li Xun and Wan Hansheng

"Sect Master, we are a bit unlucky. Only one person found...."

Li Xun and Wan Hansheng each took out a stone.

"very good!!"

Qin Feng casually waved twenty Jingyuan Pills.

Lu Ming rewarded 10 pills, and Li Xun and Wan Hansheng received 5 pills each.

The three of them were overjoyed.

"Thank you very much!"

Especially Lu Ming, he received the most rewards.

It can be seen that the sect leader has clear rewards and punishments, which makes them more active.

Li Xun and Wan Hansheng are envious, but they also have comparisons.

They are all filled with feelings. They were full of energy.

Next time, they had to work harder to complete the tasks assigned by the door owner.

The door owner would never treat them badly.

The enthusiasm of the two people also increased unknowingly.

After a while, the three of them left with happy faces. After the three people left, Qin Feng looked at the four petrified beasts on the ground.

"From now on, the four of you will follow me!"

Qin Feng stood up proudly, his eyes lit up with silver light.

The illusion was activated!

The four petrified animals were instantly confused.

The sacred contract was signed!

Four golden runes flew to the four eyebrows and blended in.

Everything is completed, both sides have it. The telepathy was activated.

Si Gan worshiped Qin Feng.

Qin Feng thought and issued an order.

Si Gan took the initiative to turn into four stones.

Qin Feng waved his hand and sent the four stones into the storage ring.

After doing this, he raised the corner of his mouth. Smiling.

Ordinary creatures cannot be put directly into the storage ring.

But these petrified animals are very special.

They have low intelligence and weak strength.

Once petrified, they are no different from real stones and can even be put directly into the storage ring. Material rings.

With these four petrified monsters, he can start the super-god-level challenge..

## Chapter 313

Ten minutes later, in a secret room.

Qin Feng released four petrified beasts and rewarded them with some Emperor Liquid Slurry, Emperor Liquid Crystal, and Xiaojing Yuan Dan respectively.

Although Xiao Jing Yuan Dan is far inferior to Jing Yuan Dan, it is already a holy product to Shi Hua Gan.

This will go a long way in helping them break through bottlenecks.

This Shi Huan's cultivation level is in the early stage of five-star, and his strength is indeed a bit weak.

Qin Feng wants to improve as much as possible.

Then, he inscribed rune formations on the backs of the four petrified ghosts.

These petrified men only have one skill - absolute petrification!

But certain aspects of this skill are comparable to king-level skills.

This is very special.

In order to enhance Shi Huan's survival skills, Qin Feng prepared to carve a formation on the turtle's back to conceal the soul.

The only flaw of the petrified stone is that it can hide all the breath of its own life, but it cannot hide the breath of the soul.

The combination of Qin Feng's formation and Shi Hua's absolute petrification would be perfect.

Now, his inscription level has reached the king level and he can try to inscribe formation seals.

Time flies.

In the blink of an eye, two days passed.

Qin Feng finally finished carving all the formations.

At the beginning, his technique was relatively unfamiliar, and it took him only one day to successfully engrave one.

But he has the help of the Enlightenment Pill, and his understanding is all-powerful.

The first successful engraving gave him great insights into the inscription of the battle method and he gained a lot.

Next, he engraved faster and faster, and it only took one day to engrave all three.

And with the help of Emperor Liujian and Xiaojing Yuandan, these four petrified beasts also successfully broke through the bottleneck and entered the mid-five-star stage.

Now, after these four petrified animals are absolutely petrified, and combined with the soul-concealing aura formation, the Eight-Star King cannot notice anything strange at all.

Even the Nine-Star Emperor would find it difficult to find it.

This ability to hide is better than Qin Feng.

This made Qin Feng very satisfied

"You should be good to go! System, start the super god level challenge....."

"Ding! Super god level challenge is activated....."

"Ding! Remind the host that you need to complete two challenges in a row within three hours....."

"There is no reward for any failure! If you pick successfully in a row, the reward will be doubled!"

"Special reward: a light source bead (perfect level)....."

"Ding! Enter the challenge world in ten seconds...10...9...8....."

Ten seconds later, Qin Feng stepped into the void.

He looked at the sky. Stars were twinkling in the distance, and the surrounding area was cold and dark.

Thousands of meters below the feet is a desolate planet surface.

Is this a new challenge space?

Qin Feng slowly fell from an altitude of 10,000 meters and looked around.

There is no air here, it is desolate and dark.

The world is filled with the strong power of the wind element, while the power of other elements is much thinner.....

This is a strange planet, I don't know how big it is.

Qin Feng intuitively thought that this planet should be very small, and its gravity was less than one-twentieth of the earth.

Apparently, this planet is much smaller than the moon.

Thinking of this, Qin Feng waved his hand and released only three petrified animals.

As soon as the petrified men landed, they followed the instructions, escaped into the ground, and dispersed in three directions at high speed.

After Shihua Gen walked away, Qin Feng looked at the desolate surroundings again.

Where is my challenge goal?

Huh! That was...

Qin Feng seemed to sense something, and quickly used the super ice concealment technique to hide his figure and fly forward.

After galloping for hundreds of miles, he finally saw movement ahead.

On a mountain peak dozens of miles away, dark clouds with a radius of dozens of miles gathered...

Between the clouds, thunder and lightning crisscrossed, and the momentum was extremely terrifying.....

Even though they were dozens of miles apart, Qin Feng could feel that those thunder and lightning contained the power to destroy the heaven and earth, which was no less than that of the Nine Star Origin... It was strange!

This planet obviously has no air, so how can it produce dark clouds?

This is unreasonable!

Qin Feng was confused!

But in the next second, he figured out what was going on.

It turns out that those dark clouds are not real clouds, but clouds of calamity.

The so-called calamity cloud is a kind of pure energy condensed.

Rumor has it that the calamity cloud can predict heavenly calamities.

Heavenly Tribulation is a special energy different from the power of elements.

As for why the phenomenon of transcending tribulation occurs?

Some emperors have studied that it is because their own energy is too strong, which affects the structure of the world.

The universe is made of matter and antimatter.

The formation of heavenly tribulation has a huge relationship with antimatter, and it varies from person to person.

As for what exactly is going on, people haven't figured it out yet.

However, everyone knows that heavenly tribulation can wash away bones and marrow, causing huge transformations in people, but it can also destroy people in an instant.....

"Is there someone here to survive the tribulation?"

Qin Feng was surprised.

The next second, he saw a humanoid black dot shaking on the top of the mountain.....

Sure enough, someone is going through the tribulation!

Qin Feng was surprised.

You must know that after the Eight-Star Great Perfection is broken through, it will be the period of transcending tribulation...

This state generally only exists for a few short months...

After a few months, the masters of the period of transcending tribulation have to go to transcend tribulation.

If you successfully overcome the tribulation, you will be a nine-star master.

If you fail to overcome the tribulation, you will be wiped out.

In fact, the success rate is no more than one in ten, so very few people in the world can become nine stars.....

Could it be that my goal is this master who has transcended the tribulation period?

Thinking of this, Qin Feng rushed in that direction.

In the blink of an eye, he traveled more than thirty miles.

At this moment, he could clearly see the situation on the top of the mountain.

On the top of the mountain, a middle-aged man in green robe was looking at Jie Yun solemnly, looking very nervous.

Behind him, there was a row of blue long swords suspended in the shape of feathers, densely packed with thousands of handles.

At this time, a message from a middle-aged man popped up in Qin Feng's eyes.

Name: Qingyu Dapeng King

Level: Level 40 (Tribulation Stage, Wind Element)

Skills: Supreme Sword Heart (Emperor Level Skill, Skill Stones Can Be Dropped on the First Kill)

Formation Proficiency (Emperor Level, the First Kill Can Obtain the Formation) Magic secrets)

Mastery of elixirs (king level, first kill can get elixir secrets)

Dapeng spreads wings (emperor level skills, talent skills, first kill can drop talent skill stones)

Weapon: Thousand Feather Sword Array (one thousand high-grade swords ) Composed of the feathers of King Qingyu Dapeng, its power is comparable to that of Emperor Yuanwu)

Reminder: The winning rate is higher than 70%

After reading this information, Qin Feng smiled.

In the past, it was rare for his winning rate to exceed 10%.

Today, his winning rate is as high as 70%.

This shows that his strength has improved greatly, far beyond the same level, and is increasingly in line with the system's expectations.

Thinking about it, the average strength of a strong person in the Tribulation Stage is about 2 billion, how can he compare with Qin Feng.

Of course, this Qingyu Dapeng King is not an ordinary tribulation period.

His success rate in overcoming tribulations is extremely high

"This guy actually has two emperor-level skills and one emperor-level weapon, which is really good!"

Qin Feng was excited.

The Thousand Feather Sword Formation is comparable to a real emperor-level weapon, one level stronger than the Nine-Fire God Dragon Cover.

If he still gets it, he will crush many emperors on the earth in terms of weapons.

And those two swords An emperor-level skill.

The Supreme Sword Heart is obviously used to control the sword array, which can strengthen his attack.

Needless to say, the roc spreads its wings, it must be a speed skill.

The roc flew up in one day, soaring ninety thousand miles.

This Qin Feng is salivating at the sight of the emperor-level skills.

In short, if he kills the Qingyu Dapeng King, he will at least get an emperor-level sword array and two emperor-level skills.....

You know, those nine-star emperors only master one or two emperor-level skills.;

"This super god-level challenge doesn't seem difficult. It seems that my strength has really improved a lot....."

The corner of Qin Feng's mouth curled up slightly, and he was about to take action...

Hey! wrong!

But at this moment, he seemed to have discovered something, and turned to look at another mountain peak.

I saw an old man in golden robe standing on that mountain peak.

The old man's aura was hidden, and he had never noticed it before.

At this moment, the old man was looking at the Qingyu Dapeng King with concern.

Light screens automatically popped up in Qin Feng's eyes.

Name: Golden-winged Dapeng King (father of Qingyu Dapeng King)

Level: Level 41 (nine-star, wind system)

Skills: Uncheckable!

Weapons: Uncheckable!

Warning: win rate below 5%.....

After reading this, Qin Feng couldn't help but take a deep breath of air.

There was actually a Nine-Star Emperor hidden next to him, and he almost didn't notice it.

At this time, the Golden-winged Dapeng Emperor seemed to sense something and looked towards Qin Feng.

Qin Feng's heart skipped a beat.

At the same time, the system sound also sounded

"Ding! The first stage of the super god-level challenge begins!"

Challenge content: Kill the Qingyu Dapeng King within three minutes.....

Reminder: The task is not completed and all rewards will be cancelled.....

"Ding! The challenge starts after ten seconds: 10...9...8....."

At this moment, the golden-winged Dapeng Emperor flew directly towards Qin Feng...

Damn it~!

Qin Feng looked helpless.

His concealment skills can hide the transitional tribulation period, but he cannot hide it from the Nine Star Emperor.

Apparently, he was discovered.

There is no way around this.

It seems that he can only do it hard!

But even the Nine-Star Emperor couldn't kill a master of the Tribulation Stage in front of the Nine-Star Emperor, let alone Qin Feng.

Besides, the time is only three minutes..

Chapter 314

"Why~! "

Qin Feng sighed helplessly.

At this moment, the Golden-winged Dapeng Emperor was only ten miles away from him.

And he is more than twenty miles away from King Qingyu Dapeng.

He wanted to force his way through, but it was absolutely impossible.

Perhaps, before he could get close to the Green Feather Dapeng King, he was killed by the Golden Winged Dapeng King.

After all, he is not the opponent of the Nine-Star Emperor yet

"Boy, who are you?"

The voice of the Golden-winged Dapeng Emperor rang in Qin Feng's mind.

At this moment, his expression was extremely unkind.

Huh! What is this human boy doing here?

He used the invisibility technique in front of the emperor, and he was still sneaky. At first glance, he was not. what good stuff.....

Emperor Dapeng was very angry.

In order to allow his son to survive the disaster safely, he spent a lot of effort to find this small, desolate planet. He just didn't want to be disturbed... but he didn't want to be disturbed anyway...

The other party was a human who couldn't even reach eight stars. Young man, you dare to approach the Tribulation Area, it's obvious that you are here to pick up bargains.....

It turns out that crossing the tribulation is extremely dangerous.

After many people pass through the tribulation and fall, they leave behind a lot of items, which are often taken advantage of by those who watch the tribulation.

Emperor Dapeng thought Qin Feng had this idea.

Therefore, the more he thought about it, the more furious he became, and he made up his mind to destroy Qin Feng. ...

If someone seems to be doing something bad, there is no need to defend it.

Qin Feng suddenly escaped a thousand meters underground. really!

There's something wrong with this guy!

Emperor Dapeng sneered disdainfully and took a step, spanning ten thousand meters in an instant.  
.....

At the same time, thousands of meters underground.

Qin Feng quietly released the last petrified animal.

As soon as the petrified stone appeared, it turned into stone. At the same time, the hidden soul array on its back was activated, hiding all auras.

After Qin Feng finished all this, he followed the ground and fled towards the Qingyu Dapeng King as fast as possible.

In the blink of an eye, he escaped for several miles, and was only a dozen miles away from King Qingpeng...

Above the sky, King Qingpeng was stunned.

He sensed that Qin Feng was running away from the ground towards his son.

At the same time, thunder thunder sounded behind him!

That was a disaster falling from the sky!

The sound of thunder does not come from the air, but from the depths of the soul. It is very strange.  
.....

What's more, this small planet has no air!

The thunder of calamity sounded, and the hearts and souls of all living beings within a hundred miles trembled...

His son's calamity finally began....

"damn it!"

The Dapeng Emperor was furious.

As soon as his son passed the tribulation, this human boy rushed over. His intention to cause trouble was so obvious...

He wanted to crush this boy to death!

"die!"

The Dapeng Emperor's hand instantly turned into a huge claw, grabbing the ground...

In an instant, gravel flew everywhere and the mountain collapsed.....

Under the ground, Qin Feng had nowhere to hide, so he had to rush out of the ground...

As soon as he appeared, he saw a giant claw descending from the sky and crushing him...

The endless imperial power enveloped several miles around. , extremely scary.....

The power of this blow is obviously stronger than that of the Earth Fire Demon King!

Qin Feng was horrified and was about to teleport away, but at this moment, he suddenly thought of something, sighed secretly in his heart, and directly met the palm...

It turned out that he was thinking of Shihua Gen.

The petrified stone is hidden thousands of meters underground, just within the attack range of this palm.....

If Qin Feng avoids it, the petrified turtle will definitely be shocked to death from the air.

His plan cannot be carried out.

At that moment, he launched Hunyuan transformation.

The combat power instantly increased to more than 3.8 billion...

The true dragon body was activated!

The Nine Fire God Dragon Mask is sacrificed!!

Emperor Dapeng's palm just fell, and in an instant the sky collapsed and the earth shattered...

The defense of the Nine Fire God's dragon shield was shattered in an instant like paper...

A palm that destroyed the world fell on Qin Feng.

Immediately, Qin Feng's golden scales exploded, blood flew everywhere, and his body almost disintegrated.....

Ha ha!!

As expected, he withstood the Nine-Star Emperor's blow!

"How can this be!"

The Dapeng Emperor was extremely shocked!

The human boy in front of him, who was clearly at the Jingyuan Fusion Realm, was able to withstand his own blow without being killed instantly.

You know, even his son, who was in the Tribulation Realm, couldn't withstand his attack. One blow!

How is this possible?!

Emperor Dapeng was confused for a moment.

Qin Feng took the opportunity to teleport and escaped ten miles away, only a few miles away from King Qingpeng...

No!

Emperor Dapeng was horrified..

This kid can actually teleport.

His son is in danger!

At this thought, he no longer held back, and instantly transformed into a monster body.

His wings spread out, covering the sky and the earth...

Qin Feng seized the opportunity and did not give it at all. He had the opportunity to teleport again.

The next second, he appeared next to King Qingpeng...

At this moment, King Qingpeng had just received the second thunder tribulation, leaving some minor injuries on his body.....

Qin Feng's sudden approach frightened him...

But at the same second, Emperor Dapeng also arrived.

Qin Feng was shocked.

The innate skill of the Dapeng Emperor - the Dapeng spreads its wings, can actually catch up with his own teleportation.

This speed is too terrifying!

It is indeed an emperor-level talent skill!

"Go to hell!"

The Dapeng Emperor grabbed it with one claw, and a large area of space collapsed, and five space claw marks appeared in the void.....

Qin Feng was horrified.

He had just been hit hard by one blow and could not withstand the second blow.

If he insists on killing King Qingpeng, he will definitely be caught by this claw.

Qin Feng instantly escaped ten miles away.

But as soon as he appeared, Emperor Dapeng arrived at the same time and grabbed his heavenly spirit with one claw.

Damn it!

This guy's speed can really keep up with teleportation!

Qin Feng teleported again.

The Dapeng Emperor was hot on his heels.

Phew~! Phew~! Phew~!

Within three seconds, Qin Feng jumped a dozen times in a row, but could not get rid of the Dapeng Emperor.

Moreover, the time difference between the two is getting shorter and shorter, and Qin Feng will fall into the trap sooner or later.

But his physical injuries have not been completely repaired.

The repair speed of the god-level devouring inner elixir this time could not be kept up.

This time it's a speed battle!

"Ha ha!! You are dead!"

The Dapeng Emperor laughed proudly!

He has discovered Qin Feng's flaw.

Although Qin Feng can teleport, the teleportation distance is not far.

His speed can completely catch up.

The so-called Dapeng spreads its wings for 90,000 miles.

It is so short. The teleportation of distance was not faster than his speed.

The next second, Emperor Dapeng finally equalized the speed difference between the two. He grabbed Qin Feng's back with a claw.

His fingertips had already touched Qin Feng's scalp.

If you go further down, you can scratch this kid's head.

But at this critical moment, Qin Feng teleported and disappeared.

The next moment, his breath appeared a hundred miles away.

Emperor Dapeng was stunned..

This kid's teleportation limit seems to be about ten miles. How come it was suddenly raised to a hundred miles?

But before Emperor Dapeng could think about it, Qin Feng fled away at a high speed after reaching a hundred miles.

Can you escape?

Dapeng. Emperor Peng sneered, spread his wings, and turned into a golden light to chase after him.

It was only a hundred miles away, and it only took him a few seconds to catch up. In the blink of an eye, Qin Feng had escaped dozens of miles away.

Before he could breathe a sigh of relief. , a strong wind suddenly started behind him, and the Dapeng Emperor caught up again.

Qin Feng was horrified.

The old guy was too fast, and he caught up in less than five seconds.

"No one can escape from this emperor! Neither can you!"

The Dapeng Emperor sneered and rushed forward and attacked again.

He was not wrong.

His opponent can only be stronger than him.

If you are weaker than him and want to escape alive, it is impossible.

There are not many people in the world who can The speed can be compared with him.

But at this moment, Qin Feng disappeared again.

The next moment, Qin Feng's breath appeared two hundred miles away.

The Dapeng Emperor was stunned again, a little depressed.

This kid's teleportation Why is the limit getting longer and longer?

It turns out that Qin Feng was not using teleportation, but reverse summoning in space.

The location he teleported to was the location of the petrified turtle.

Emperor Dapeng didn't know about it, so he was fooled He was stunned for a while.

But he had no intention of letting Qin Feng go.

If he let him go, where would his face be?

No one weaker than him had ever been able to escape from him.

This time, there would be no exception!

The Dapeng Emperor roared and continued to chase.

Ten seconds later, he finally caught up with Qin Feng.

But in the next teleportation, Qin Feng launched a reverse summon again and arrived three hundred miles away.

That was the third petrified turtle. Position.

Emperor Dapeng had no choice but to continue chasing.

After another twenty seconds, Emperor Dapeng caught up with Qin Feng again.

But at this moment, Qin Feng suddenly turned around and smiled.

That smile was full of endless ridicule.

Emperor Dapeng Startled, he vaguely felt something was wrong.

Before he could figure it out,

Qin Feng disappeared again.

This time, Qin Feng appeared at the location of the fourth petrified turtle.

And the fourth petrified turtle had been hiding in the place where he had overcome the tribulation..

The Dapeng Emperor sensed Qin Feng's position in an instant.

He roared suddenly and rushed towards the place of transcending the tribulation.

But he was too far away from the place of transcending the tribulation.

He could not reach it within thirty seconds.

Here we are. At this moment, he knew that he had fallen into the trap of diverting the tiger away from the mountain.

But on the other side, the Qingpeng King had just received the seventh tribulation thunder, and was seriously injured, with less than half of his strength left. As soon as

Qin Feng appeared, he teleported Reaching behind him, a sword cut him in half.

The shrill scream resounded throughout the world...

King Qingpeng's body collapsed instantly.

An inner elixir and two emperor-level elixirs fell on the ground. Skill stones, two secret books, and a set of Thousand Feather Swords.

In addition, there is a large ball of wind source energy suspended in the air.

This wind source is evolving towards the nine-star source.

Qin Feng is ecstatic!

Isn't this just him? You need it!

Although the origin of this group is a little worse than the Nine Stars, it is much stronger than the Quasi-Nine Stars and there are more of them.

As long as he refines them all, there is a great chance that his wind element will also be strengthened to the Nine Stars..

Chapter 315

I really made a lot of money this time!

Qin Feng was excited and quickly put away the wind element.

Then, he put away all the trophies on the ground and recalled all four petrified turtles to put them away.

After doing this, he looked up.

As soon as the Qingpeng King died, the calamity clouds in the sky shrank automatically, leaving only the size of a few miles.

A question suddenly occurred to him.

These calamity clouds themselves are special energy that can refine the physical body and transform people.

It's just that ordinary people need it to brew tribulation thunder and use it to overcome tribulations and temper their bodies.

They cannot directly absorb the calamity cloud.

But I am different!

He has god-level Devouring ability and can directly devour all things.

Thinking of this, Qin Feng flew up into the sky, straight up thousands of feet, opened his mouth and sucked in the calamity clouds in the air.....

For a moment, the calamity cloud rolled and formed a huge funnel, which he sucked in...

As soon as the calamity cloud entered his body, it was like a bone-eating maggot, rapidly eroding his body...

Qin Feng's face showed a look of immense pain..

But the next second, the god-level devouring movement was running at extremely high speed... the strange calamity cloud energy was easily resolved.....

"Ding! Devouring the Tribulation Cloud Successfully.....Physical strength is strengthened....."

"Ding! Devouring the Tribulation Cloud Successfully.....Soul strength strengthened....."

"Ding! Devouring the Tribulation Cloud Successfully.....The awareness of the seventh consciousness is strengthened....."

Qin Feng was pleasantly surprised that the swallowing of the calamity cloud went very smoothly.

He swallowed faster and faster.

His body!

His soul!

His seventh consciousness!

It is also constantly being strengthened.

In the blink of an eye, all the calamity clouds in the sky were swallowed up by him.

"Ding! Successfully swallowing the calamity cloud...the physical strength has been increased to the nine-star level....."

"Ding! Devouring the Tribulation Cloud Successfully.....Mental strength increased to nine-star level....."

"Ding! The best king-level illusion is upgraded to the emperor-level illusion....."

"Ding! The sacred contract is upgraded to the contract of living beings (emperor level)....."

"Ding! Memory reading is upgraded to memory scanning (Emperor level)....."

"Ding! Devouring the Tribulation Cloud Successfully.....The awakening degree of the seventh consciousness is increased to 30%....."

Note: When the awakening degree of the seventh consciousness reaches 100%, the eighth consciousness can be awakened and the second mysterious ability can be obtained.

"Ding! The space ability is promoted to the sixth level, all space skills are strengthened by 100%, and the space skill is awakened - Dimensional Blade (Emperor Level Skill)"

"Ding! The space ability is promoted to the seventh level, all space skills are strengthened by 200%, and the space skill is awakened - Vientiane Heavenly Yin (Emperor Level Skill)"

"Ding! Congratulations to the host for obtaining the Divine Tribulation Seal (completeness 7%) ....."

"Ding! The Divine Tribulation Seal (7% completeness) successfully merges with the Divine Eye of Punishment, and automatically evolves into the Divine Eye of Divine Tribulation, and acquires the skill - Divine Tribulation Thunder (Emperor level, growable)."

Note: The more complete the Divine Tribulation Seal is, the more complete it is. , the more powerful the Heavenly Tribulation Divine Thunder is.....

"Ding! The host qualifications have changed, the inheritance of the Supreme Dragon God has awakened to 11%, the power of the Dragon God has awakened, and the combat power has increased by 700 million....."

"Ha ha!! This robbery cloud is indeed a good thing!"

Qin Feng looked up to the sky and smiled, feeling heroic.

At this moment, the Golden-winged Dapeng Emperor arrived.

His face was ferocious and his eyes were red.

It was the little bastard in front of him who killed his son!

He wanted to tear this little bastard to pieces.!

Chi~!

The tip of his claws lit up with a dazzling light, illuminating a radius of ten thousand meters. A large area of space was shattered, leaving five clearly visible claw marks in the air.....

"Just in time!"

Qin Feng smiled heroically.

He waved his hand, and a thousand-foot-long dimensional blade struck directly at the Golden-winged Dapeng Emperor...

At the same time, his eyebrows split open, revealing his golden eyes, and shot a beam at the Golden-winged Dapeng Emperor. Heavenly Tribulation Divine Thunder.....

Boom~! Boom~! Bang~!

A devastating collision!

The world is shattered!

The ground cracks, mountains and rivers tremble.....

The mountain peaks were instantly flattened...

When all the smoke and dust fell to the ground, a man and a demon were revealed.

At this moment, the golden-winged Dapeng Emperor looked at Qin Feng in shock.

Qin Feng was seen standing proudly in the sky.

There were no injuries on his body, except for a faint claw mark on his chest...

But the next second, the claw mark disappeared.

Qin Feng is intact! how so?

How long has it been?

This human boy's strength has doubled!

The Golden Winged Dapeng Emperor finds it difficult to accept

"You can't kill me now!", Qin Feng's mouth outlines a smile.

"I don't believe it!"

The Golden-winged Dapeng Emperor roared heart-breakingly and rushed towards Qin Feng again.

He must avenge his son!

He still has a trump card!

He is confident that he can tear this boy to pieces!

Qin Feng stood firm and motionless. , looked at the Golden Winged Dapeng King with a smile...

When the Golden Winged Dapeng Emperor approached, he disappeared out of thin air.

The Golden Winged Dapeng Emperor was immediately dumbfounded.

A moment later, under the starry sky, the Golden Winged Dapeng Emperor looked up to the sky in sorrow. Roar.....

At the same time, Qin Feng has returned to Earth.

He still has a second challenge to go on, so naturally he doesn't want to get entangled with the Golden-winged Dapeng Emperor... In the secret room, Qin Feng looked at the emperor-level skill stone in his hand with joy.

That was left by King Qingyu Dapeng.

In fact, he had no intention of killing King Qingpeng in front of King Dapeng from the beginning.

Because even if he was killed, he would not have the chance to pick up the loot based on his strength at the time, so he had the idea of leaving the tiger away from the mountain from the beginning.

Fortunately, everything went smoothly!

Qin Feng opened his mouth and swallowed the skill stone.

"Ding! Successfully swallow the emperor-level skill stone, and obtain the emperor-level skill—Supreme Sword Heart (the maximum number of swords you can control is 10,000)!"

"Ding! Successfully swallow the talent skill stone and obtain the talent skill - Dapeng Spreads Wings (Emperor level, growth type)."

Tsk! Tsk!

This talent skill - Dapeng Spreads Wings, is really a good thing!

It is a growth-type skill and may be used in the future. There is a chance to be promoted to the emperor level skill, or even the master level.

Qin Feng was secretly happy, and took out a large group of wind element, which was dozens of times the usual source.

This is also what he needs most.

His wind element Whether it can be strengthened to the nine-star level depends on it.

Qin Feng opened his mouth and swallowed up the large group of origins...

Time flew by. In the blink of an eye, half an hour passed.

Qin Feng finally swallowed up those origins. Completed swallowing

"Ding! Devour successfully.....The wind attribute is strengthened to the nine-star level.....Combat power increased by 150 million....."

"Ding! Congratulations to the host for strengthening his body again and increasing his combat power by 50 million.

Chapter 316

Qin Feng opened his eyes happily.

His physical strength increased again, approaching the peak level of nine stars.

If he uses the True Dragon Body again, his physical strength will surpass the nine-star peak in one fell swoop and be infinitely close to the Great Emperor's body.

In short, in terms of physical strength, no one on earth can compare with him.

In addition, his combat power has been increased to 4.1 billion, and can reach 5 billion after Hunyuan transformation.

Nowadays, it is not easy for an ordinary emperor to kill him even if he wants to, let alone kill him instantly.

Even if he can't fight, he can escape.

The combination of his teleportation and the roc's wing-spreading skills would make it difficult for even the emperor to catch up.

Unless the opponent's strength reaches the peak of nine stars.

In short, Qin Feng now has the qualifications to challenge the Nine Star Emperor.

Of course, he still doesn't have the ability to kill the Nine-Star Emperor.

If you want to kill the Nine-Star Emperor, it will be difficult even if you are at the top of the Nine-Stars.

After all, Nine Stars and Nine Stars Peak are both in the same realm.

The combat power threshold of Nine Stars is 10 billion, and the upper limit is generally 20 billion.

The nine-star peak refers to those who have reached the upper limit of 20 billion.

As for the Great Emperor, it is different. It is a breakthrough in a small realm, entering another level and undergoing a qualitative change.

No matter how powerful the nine-star pinnacle is, he can only be killed instantly in front of the emperor, let alone the nine-star emperor.

You know, the threshold of the emperor's combat power is 200 billion, and he can crush the nine-star emperor with a snap of his fingers.

If the emperor doesn't come out, heaven and earth will compete.

As soon as the emperor comes out, the sun and the moon are in harmony with the wind.

Before the great emperor was born in many primitive star fields, many nine-star emperors dominated one area.

Only when the great emperor is born can he hope to unify the primitive star field.

Today's earth is facing the same situation.

In addition, only if a great emperor is born in one star domain, this star domain will be eligible to join the star domain alliance and share the resources of the universe.

"It's strange, I have completed strengthening all nine systems, why haven't I integrated the power of chaos yet?"

Qin Feng checked himself.

At this time, a system prompt sounded in his mind, and he suddenly realized. It turned out that in order to condense the power of chaos, he also needed to break through to eight stars.

The plan always fails to keep up with changes.

It seems that , he was about to change his strategy.

Qin Feng looked at the time, and there were 2 hours left.

He did not start the second challenge immediately.

He knew the nature of the system very well.

The difficulty of this second challenge must be much more difficult than the first one. , at least ten times more.

He cannot fail.

If he fails, there will be no reward.

If he wins, the reward will be doubled ten times.

So, he wants to make some preparations.

Qin Feng disappeared in place with a thought.

Next In one second, he appeared under hundreds of thousands of miles of earth's crust.

All around him were white magma.

Beside him, an Earth Fire Demon saluted him with great respect.

These were the Earth Fire Demons he had conquered last time. One of the demons.

It turned out that he used reverse summoning and returned to the mantle lava layer.

Qin Feng glanced at the Earth Fire Demon lightly.

The memory scan was activated!

In just one second, he scanned all the memories of the Earth Fire Demon.

Next In one second, he moved towards the depths of the magma.

The Earth Fire Demon King was hiding there.

After a while, Qin Feng returned to the place where he collected the Xingxi Stone last time.

As soon as he arrived, a sudden change occurred in the place. ~! Boom~!

The earth shook!

The lava rolled within thousands of miles, and the undercurrent surged...

Two earth-fire demon kings, who were ten thousand feet tall, broke out of the ground.....

It turns out that since Qin Fengcai took away all the Xingxi stones last time.

The two earth fire demons gathered together.

Today, Qin Feng comes again.

They sensed Qin Feng's breath in an instant.

This familiar scent immediately aroused the anger in their hearts.

It was this nasty little human thief who stole their treasures.

Roar~! Roar~!

Sound waves vibrate!

Within a hundred miles, the hearts and souls of many Earth Fire Demons were trembling, and they all looked over in horror.

The next moment, the two earth fire demon kings took action at the same time.

Two giant fists holding the sky, like gold cast, emitting a dazzling spiritual light, smashed down overwhelmingly.....

The momentum is so devastating that even the Nine-Star Emperor dare not resist it head-on.....

The corners of Qin Feng's mouth curled up slightly, and his eyes burst into silver light.

The emperor-level illusion is activated!

In an instant, all living creatures within a hundred miles were pulled into the illusion.

The expressions of the two Earth Fire Demon Kings were in a trance.

Although they are expensive at the nine-star level, their flaws are too obvious.

That means the mental power is too weak and the intelligence is insufficient.

Qin Feng controlled them in an instant.

The Earth Fire Demon King's expression was confused, and deep in his eyes, there was a look of struggle from time to time.

But all this is in vain.

A few minutes later, the two demon kings were completely confused, and they both showed respect to Qin Feng.

Qin Feng raised his hand again.

The Contract of All Beings is activated!

Two black runes filled with evil magic flew out directly and merged into the eyebrows of the two demon kings.

After a while, the contract was signed successfully!

Plop~! Plop~!

Two loud bangs!

The two demon kings knelt down directly to Qin Feng.

This kneeling made the earth shake and the mountains shake, and the hearts of all demons trembled.

Bang~! Bang~! Bang~!

The two demon kings kowtowed to Qin Feng.

His attitude was extremely pious, and there was still awe in his eyes.

At this moment, the two demon kings completely surrendered to Qin Feng, and they were loyal and would never betray.

This is the role of the contract between living beings.

The sacred contract is sacred to me and respected by all people.

All living beings have a contract, all living beings are not equal, but I am the only one who is supreme.

Signing a contract with all living beings is equivalent to recognizing Qin Feng as the master and being absolutely loyal to Qin Feng, which is a higher level than a sacred contract.

Moreover, once this contract is successfully signed, the emperor will have no solution.

At this time, the two demon kings roared!

A moment later, nearly a thousand earth fire demons came from all directions.

Under the leadership of the two demon kings, they all knelt down and worshiped Qin Feng.

Qin Feng stood proudly and proudly.

This is equivalent to him having two nine-star subordinates and nearly a thousand eight-star subordinates all at once.

This power can crush any force on earth.

Of course, the Earth Fire Demon King can only be considered the weakest Nine Star.

But when the two of them join forces, they are stronger than the average nine-star emperor.

The only flaw is that it is difficult for Qin Feng to bring them out of the center of the earth.

But there is always a solution to everything, and Qin Feng also thought of a solution

"let's start!"

Qin Feng gave an order.

The two demon kings understood each other, and streams of fire poison passed from them to Qin Feng...

The remaining nearly a thousand earth fire demons also sent fire energy to Qin Feng.

Qin Feng launched a god-level devouring , quickly absorbed

"Ding! Successfully absorbing fire poison...the power of the host's fire poison is increased...the combat power is increased by 10 million.....

"Ding! Successfully absorbing fire poison...the power of the host's fire poison is increased...the combat power is increased by 10 million.....

"Ding! Absorbed fire poison successfully...."

It turned out that although Qin Feng possessed the fire poison, the fire poison was not powerful enough.

Before, when he fought against the Golden-winged Dapeng Emperor, he found that his fire poison did very little damage and caused little trouble to the Dapeng Emperor.

He concluded that although his fire poison skills were at the imperial level, they were subject to certain restrictions, so their power was limited.

In fact, his fire poison damage is similar to that of the Earth Fire Demon, far from reaching the Demon King level.

The fire poison of the Earth Fire Demon can also harm the Nine Star Emperor, but the damage is limited.

If it can do damage, it means that this skill has reached the emperor level, otherwise it would not have such an effect.

In order for the fire poison to cause the same damage as Emperor Shark did last time, the Earth Fire Demon King would probably have to take action, or perhaps hundreds of Earth Fire Demons would be besieging him.

Qin Feng guessed that if he wanted to increase the power of fire poison, he would need to absorb more fire poison to evolve.

Now it seems that it is indeed the case!

At the moment, Qin Feng stood among thousands of fire demons, silently absorbing the fire poison.

Before you know it, half an hour has passed

"Ding! The host's fire poison is saturated.....Can no longer be absorbed....."

"Ding! Congratulations to the host, the power of fire poison has been raised to the limit and reached the level of the devil....."

"Ding! The inheritance of the Supreme Dragon God has awakened to 11.2%, the power of the Dragon God has awakened, and the combat power has increased by 200 million....." good!

Qin Feng opened his eyes happily.

His strength has improved again.

Now, his combat power has increased to 4.4 billion, and after transformation it reaches 5.3 billion. Coupled with many emperor-level skills and space abilities, he dares to fight the Nine-Star Emperor.

Generally, Nine-Star Emperors don't have that many emperor-level skills, let alone space abilities.

It's almost ready to turn on!

Qin Feng looked at the time and saw that there was only one hour left before the challenge time limit.

With a thought in his mind, he started the second challenge and disappeared..

Chapter 317

The next second, Qin Feng appeared in a new world.

At this moment, he was floating in the air.

Beneath the tens of thousands of feet in the sky, there is a green planet with countless creatures and humans on it.

This is a world of creatures similar to the earth.

Soon, Qin Feng looked away from the planet and looked forward.

There, there is a piece of land, suspended in the sky, like a fairyland.

Within the fairyland, there are magnificent palaces.

In addition, there is also a dragon skeleton, standing in the center of the fairyland, hundreds of millions of feet high, reaching the sky and the earth.

The huge dragon head looked at the endless starry sky, exuding endless sadness... When

Qin Feng saw the bone-white dragon head, his heart was inexplicably touched, and he felt a little sad..He has such emotions, maybe it has something to do with inheriting the Dragon God inheritance.

"The target of this challenge is the Juelong Holy Land?"

Qin Feng murmured in his heart.

It turns out that this place that looks like a fairyland is called the Juelong Holy Land.

The so-called Juelong means dragon slaying.

This is not a good place!

Qin Feng With one step, he was fifty miles away in an instant.

His teleportation limit had been increased to fifty miles.

In the blink of an eye, Qin Feng entered the Holy Land.

As soon as he stepped in, he sensed the breath of many creatures, tens of thousands of them. Multiple channels.

At the same time, there were several sounds of breaking through the air ahead.

In a moment, three bird-headed monsters flew over and blocked Qin Feng's path.

"Why are you, a human race from the lower realm, here?"

The three spirits looked arrogant.

They were surprised.

Why didn't this inferior human race kneel down and salute after seeing them?!

You know, they are members of the holy race.

Qin Feng glanced at the three monsters lightly.

The emperor-level illusion was quietly activated..

The three demons were in a trance for an instant, and they knelt down at the same time, kowtowing to Qin Feng.

These three demons were only seven-star cultivation, how could they resist Qin Feng's illusion.

The memory scan was activated! Qin Feng instantly read all the memories of the three demons. In a moment

, all the three demons' memories were read.

Finally, a flash of anger flashed across his eyes.

It turned out that this holy land was established by the Garuda tribe.

Garuda are giant bird bodies that swallow dragons and eat them.

Their appearance is very similar to that of the Golden-winged Dapeng tribe.

The most obvious thing is The difference is that there is a meat bead on their foreheads, which is bright red, called the Dragon Swallowing Bead. The

Garuda clan loves dragon meat very much.

The Dragon Swallowing Beads on their foreheads can absorb the dragon soul and prevent the eaten dragon from reincarnation. It can be said to be extremely vicious.

The huge dragon bone in the center of the holy land is the nine-star emperor-level true dragon that was eaten by them.

Now there is only one skeleton left, which they placed in the center of the holy land to show off.

It turns out that the planet below is called the Blue Star.

It was originally a place where humans and dragons coexisted.

After the Garuda clan came, they killed the dragons, enslaved the humans, and established a holy land on this planet.

They called themselves saints, calling humans and other creatures Inferior races must be worshiped by them.

Moreover, they do not allow eight-star strong men to appear among humans and other creatures, and they will secretly kill them when they find them.

In short, they have been raising humans as livestock.

Qin Feng understood this, and felt somewhat angry in his heart

"Ding! The second round of the super god level challenge begins....."

Challenge content: Kill the Garuda King and his entire clan within thirty minutes.

Tips: Do not leave out any Garuda demon clan, otherwise the mission will fail!

Damn it~!

Can't leave any behind?

This is too perverted!

You know, there are more than 300,000 Garuda people in this holy land.

Among them, there are more than twenty eight stars.

Emperor Nagalou Luo is the Nine-Star Emperor.

Just killing a Garuda Emperor would give him a huge headache.

You know, even the Nine-Star Peak cannot kill a Nine-Star Emperor, let alone him.

But this mission not only required him to kill a Nine-Star Emperor, but also to slaughter more than 300,000 powerful monsters.

It must also be within thirty minutes.

Killing more than 300,000 powerful Garuda clan within thirty minutes is no less difficult than killing a Nine-Star Emperor!

Qin Feng had no choice but to wave his hand.

The three Garuda demons in front of them immediately self-destructed, leaving behind three seven-star inner elixirs and three red beads.

"This bead is....."

Qin Feng waved and got three red beads.

Light screens popped up in his eyes.

Item name: Swallowing Dragon Pearl (seven stars, containing the power of dragon soul)

Features: Unique to the Garuda Clan, specifically designed to defeat the Dragon Clan. Notes: Can be swallowed

"Huh! Can it be swallowed?"

Qin Feng opened his mouth and swallowed three dragon-swallowing beads.

"Ding! Devour the Dragon Ball successfully.....Obtained the power of dragon soul....."

"Ding! The degree of completion of the seventh consciousness awakening is increased by 0.001...."

"Ding! Increased soul strength...increased mental power...increased combat power....."

"Ding! Remind the host that absorbing enough dragon soul power can accelerate the awakening of the Dragon God inheritance..."

Qin Feng was overjoyed.

Swallowing dragon beads has such a wonderful effect!

Great!

Especially swallowing dragon beads can increase the awakening of the seventh consciousness, allowing Qin Feng to Shocked.

He was worrying about how to increase his arousal level, but an opportunity presented itself.

"Ding! The challenge will start in ten seconds....10....9....8....."

It's about to begin!

Qin Feng overlooked the entire holy land.

If he hunted the Garuda tribe one by one, the efficiency would be too slow.

I'm afraid that in half an hour, less than tens of thousands could be hunted.

In extraordinary times, we can only resort to extraordinary measures!

Qin Feng teleported and disappeared.

The next second, he appeared above the dragon skeleton

"Ding! The second super god-level challenge begins, the timer starts at 30:00...29:59....."

"rise!"

Qin Feng stopped wasting time and made a move with his big hand.

The sky-holding dragon bone actually rose up, and the whole holy land trembled slightly.

Countless Garuda tribesmen were alarmed and looked at the sound.

Everyone was shocked when they saw it.

In the center of the holy land, a young man was seen floating in the air, moving the trophy they used to show off - the Dragon Emperor's skeleton!

"Who is that young man?!"

"They can't be the remnants of the Dragon Clan!"

"Damn it! He is actually stealing the Dragon Emperor's skeleton!"

The demons are angry!

No matter what the background of this young man is, if he dares to come to their holy land to cause trouble, he must pay the price.

For a time, thousands of Jia Luo clan monsters flew out from every corner of the holy land, flying towards them with murderous intent.

Only In a moment, Qin Feng completely lifted the dragon bone and put it directly into the god-level storage ring.

This immediately angered all the Garuda clan.

Hundreds of thousands of great demons came to kill them all.

"snort! How could such a young person dare to cause trouble in this emperor's holy land!"

A very majestic voice resounded throughout the holy land.

The demons were overjoyed.

Their emperor was also alarmed and came out of the retreat directly.

Qin Feng followed the sound and saw an Eagle Hook with a sinister face. The man with a nose descended from the sky.

The endless imperial power enveloped the entire holy land..

Chapter 318

Qin Feng looked at the man, a light screen popping up in his eyes.

Name: Garuda Emperor

Level: Level 41 (Nine-Star Emperor, Fire Element)

Skills: Transforming Dragon Evil (Emperor Level, Talented Skill, Talent Skill Stone can be dropped on the first kill)

Burning Heaven Purple Flame (Emperor Level, Skill can be dropped on the first kill) Stone)

Weapon Refining Proficiency (Emperor level, skill stone can be dropped on the first kill)

Weapon: Dragon Spear (Emperor Martial, refined from True Dragon Horn)

Special Equipment: Headless Golden Man

Warning: The winning rate is less than 10%.....

"Huh! this....."

After reading the information, Qin Feng felt that there was something about this Emperor Garuda.

With his current strength, when facing the Nine-Star Emperor, his winning rate should be about 30%.

But when facing the Garuda Emperor, why is his winning rate lower than 10%?

This is strange!

This also shows that Emperor Garuda is stronger than Emperor Golden Winged Dapeng!

"Um? How come you have the aura of the ancestral dragon on you?"

Emperor Garuda seemed to have discovered something, and looked at Qin Feng with a surprised look.

Ancestral Dragon Breath?

Qin Feng was also stunned.

Immediately, he figured it out.

He inherited the inheritance of the Supreme Dragon God.

Then the Supreme Dragon God should be It's Zulong

"It turns out you are a remnant of the dragon clan! I thought you were a human being, and I almost misjudged you....."

"Since you have the aura of the ancestral dragon, your bloodline should be higher than that of the previous generation Dragon Emperor, and your flesh and blood must be more delicious....."

Emperor Garuda stretched out his scarlet tongue and licked his lips, showing a salivating expression.

At the same time, more and more Garuda demons came.

All the demons watched from a distance, all looking gloating at the misfortune.

This young man has provoked their emperor, and he is probably about to die!

They were waiting for the 'Emperor' to tear this remnant of the dragon clan into pieces, divide some flesh and blood, and give them some soup.....

Qin Feng remained calm.

He waited quietly for all the Garuda demons to appear.

In a moment, he will kill them all

"Huh! Boy, what kind of cultivation are you doing?"

Emperor Jialou Luo looked confused.

He saw that Qin Feng's momentum was stronger than that of the Tribulation Period, and weaker than that of the Nine-Star Emperor.....

"none of your business!", Qin Feng sneered lightly.

Emperor Jialouluo was furious:"Seeking death!"

In an instant, he took action.

The Dragon Transformation Evil was activated!

Invisible evil force enveloped the whole place!

Under the Dragon Transformation Evil, the real dragon bowed its head, and the dragon clan's combat power would be weakened by 30%.

It was specially used to restrain the dragon clan.

Now, Garuda The emperor used it to deal with Qin Feng, to weaken Qin Feng's combat power.

All the Jialouluo demons sneered.

They were all waiting to see Qin Feng's joke.

They wanted to see the terrifying expression of this remnant of the dragon clan under the evil dragon..

To put it bluntly, the Dragon Transformation Sha is a soul-based attack, naturally suppressing the dragon soul.

But the next second, the whole audience was shocked.

They saw that Qin Feng was at ease under the Dragon Transformation Evil, without being affected in any way.

He But how could an out-and-out human race be controlled by the Dragon Transformation Evil?

"How can it be?!", Emperor Garuda looked confused.

It's time to start!

Qin Feng's consciousness instantly scanned the entire holy land.

All the Garuda demons came out and it was time to take action.

Hunyuan transformed!

Qin Feng launched instantly, fighting The power soared to 5.3 billion!

Emperor Garuda also took action immediately. The Dragon Spear was in his hand instantly, and he bombarded it with one shot.

That shot destroyed the heaven and earth, as if space began to distort, and time began to distort...

All the monsters looked at it They were dumbfounded.

They rarely saw the emperor take action.

But this move was like the earth falling apart, so terrifying...

Qin Feng was also horrified.

The power of this attack was much stronger than that of the Golden Winged Dapeng Emperor.

Obviously, Garuda The emperor's attack was assisted by a divine spear.

The Dragon Spear was a real imperial weapon!

Qin Feng did not dare to take a direct hit, so he teleported and arrived behind Emperor Garuda.

Hey! Space ability?

Emperor Garuda was surprised.

Space ability is a special ability. These people are far stronger than others at the same level and are very difficult to deal with.

"Let's take action together!"

Emperor Garuda gave the order.

Three hundred thousand monsters attacked Qin Feng.

He wanted to use the human sea tactic to restrain Qin Feng's space ability.

The situation began to become unfavorable.

At this critical moment, Qin Feng It was activated instantly.

The emperor-level illusion was activated! It instantly enveloped a radius of dozens of miles.

At this moment, all the demons below eight stars were attacked and started fighting each other.

Emperor Garuda and all the eight-star great demons were stunned.

It turns out that Qin Feng deliberately made these movements to attract all the demons.

After all, the holy land is too big and his emperor-level illusion cannot cover the entire holy land.

Only by attracting them all can he let all the demons be attacked. , there will be no omissions.

If one is accidentally omitted, his mission will fail.

"how so?"

All the eight-star demons were at a loss.

"Kill him!"

Emperor Garuda rushed towards Qin Feng angrily.

Needless to say, this must have been Qin Feng's fault.

But before he could get close, the mutation regenerated. The emperor-level skill - All-Seeing Heavenly Influence!

With a radius of thousands of miles, the heaven and earth shook. The space fluctuated violently.

A stream of hot white magma, like a ten thousand-foot waterfall, slanted down and submerged the entire holy land in a moment.

Countless screams rang out in the holy land.

Those low-level Garuda demons were instantly melted by the hot magma.

With this, At the same time, two tall earth-fire demons rushed out from the depths of the magma and rushed towards the Garuda Emperor.

Nearly a thousand eight-star earth-fire demons rushed towards the Garuda demons.

Qin Feng used the all-natural celestial guide and space summons , summoned the magma sea, the Earth Fire Demon King, and the Earth Fire Demon Army.

With this activation, a fierce battle broke out in the audience. As soon as the two demon kings took action, Emperor Garuda was entangled, and the two sides were able to fight. The result was a tie.

Qin Feng took the opportunity to raise the Thousand Feather Sword Formation, used the splitting light sword technique, and rushed towards the demon group.

Nearly a thousand earth fire demons also followed suit.

The roc spread its wings and was as fast as lightning.

Tens of thousands of sword lights, Criss-crossing.

Qin Feng's side had an absolute advantage. It was completely crushing, which was easier than chopping melons and vegetables.

In just tens of seconds, he slaughtered tens of thousands of monsters.

Garuda in the distance The emperor roared repeatedly.

He wanted to save his subordinates, but he was tightly entangled by the two demon kings and had no time to separate.

The demons below eight stars were all confused, and many of them were fighting each other without knowing it. Escape.

The eight-star demons who still retained some sense tried to escape, but were surrounded by hundreds of earth fire demons and were beaten alive.

In the blink of an eye, one hundred thousand demons were slaughtered.

Qin Feng opened his mouth and sucked in ten. He devoured the remaining Dragon-Swallowing Pearls after the death of all the monsters.

Those were one hundred thousand Dragon-Swallowing Pearls!

"Ding! Devour the Dragon Ball successfully.....Obtain a large amount of dragon soul power....."

"Ding! The soul mutates and acquires dragon soul attributes... The inheritance of the dragon god is increased to 11.7%....Combat strength increased by 500 million.....".

"Ding! The seventh consciousness awakening completion degree has been increased to 39% ....Space capabilities greatly improved.....Teleportation limit increased to a hundred miles....."

In the blink of an eye, Qin Feng's strength increased greatly.

Ha ha!! It's so cool!

Thousands of sword lights shot out, and Qin Feng killed the demon group again.

In the blink of an eye, he slaughtered tens of thousands more demons

"Damn it!"

Emperor Garuda was so anxious that he was sweating profusely.

All this happened too fast.

In just a few minutes, more than half of his tribe had been killed or injured.

Speaking of which, this is because Qin Feng's group killing ability is too strong.

Normally The Nine-Star Emperor couldn't do it at all.

Even the Nine-Star Peak couldn't do it.

This kind of mass killing ability is comparable to the Great Emperor's sweep. It's terrible!

But now, he has no time to think about it.

He must stop it immediately.

Otherwise, his people will die light

"Golden slave! come out!"

With this call!

The whole holy land trembled violently.

Then, a tall headless golden man, exuding the aura of destroying the world and the might of the emperor, slowly rose from the ground.

This was actually a beast with A golden puppet with nine-star strength.

Its whole body was exuded with metallic luster, it held a long sword in its hand, and the seal character "Twelve" was engraved on its chest.

When it completely broke out of the ground, it flew towards Qin Feng.

Endless murderous intent soared into the sky. Rise!..

Chapter 319

Qin Feng was shocked.

With his current strength, he is still unable to challenge the Nine-Star Emperor head-on. At best, he can only remain undefeated.

But his mission is to kill the Garuda clan and the Garuda Emperor.

Now a nine-star puppet suddenly appeared, wouldn't it hinder his mission?

Qin Feng took a glance and saw that there were only 17 minutes left.

He couldn't tangle with this puppet.

Otherwise, the mission is doomed to fail.

In the blink of an eye, the headless golden man arrived in front of Qin Feng, raised his sword to the sky, cut through the sky, and slashed down!

Tsk~!

The magma sea was split open!

The might of the sword shocked the world!

The attack power of that sword was no less than that of Emperor Garuda's.

Qin Feng teleported and easily avoided the sword.

But in the next breath, the headless golden man swept across with his sword and pursued closely.

At this time, Qin Feng suddenly thought that this headless golden man was a puppet, and his mental power must be very weak.

He immediately launched an illusion spell on the headless golden man. invalid!

Launch a spiritual attack!

Still doesn't work!

This headless golden man can actually shield soul and mental attacks.

Isn't this perfect!

Then he seems to have no advantage against the headless golden man.

This headless golden man is not flesh and blood, so he is certainly not afraid of fire poison.

Moreover, its whole body is made of strange metal, so its defense must be amazing.

I'm afraid even the Nine-Star Emperor can't break through its defense, let alone Qin Feng.

There's some trouble now!

Qin Feng looked at the mission time again, and there were only sixteen minutes left...

We can't delay it any longer!

Time is running out for the mission... but he is entangled with this puppet and it is absolutely impossible to complete the mission!

At this moment, the headless golden man attacked with another devastating sword!

Billions of magma exploded!

Hundreds of fire demons were injured!

Qin Feng frowned. ,

Emperor Garuda in the distance saw this scene and showed great joy.

In fact, the strength of this headless golden man is even stronger than him.

It seems that he was lucky enough to get this puppet from a secret place.

The only pity is that this puppet is missing a head!

If this puppet had a complete head, it would have the strength of the Nine-Star Emperor. How could it make this young man so rampant!

But even without the head, the puppet seemed to have the upper hand.

At this scene, Emperor Garuda's eyes showed joy.

He seems to have seen hope of a comeback!

At this moment, the headless golden man once again struck the sky with his sword!

Qin Feng was a little annoyed and was about to fight back.

Huh! correct!

Qin Feng suddenly thought of something and activated his space skills on the headless golden man.

All things are attracted by heaven!

Buzz~!

Skills take effect instantly!

Phew~!

The headless golden man disappeared instantly.

Emperor Garuda was immediately stunned!

The next second, through his soul thought, he sensed that the headless golden man was millions of miles away.

He was completely dumbfounded!

Damn it! What the hell is this?!

Ha ha!! Success!

Qin Feng was ecstatic.

It turns out that space summoning is used to summon creatures.

The Vientiane Heavenly Yin can only move non-living objects.

Such as this magma sea.

Qin Feng suddenly thought that this golden puppet seemed to be quite intelligent, but after all, it was just a puppet. It should not belong to a living being, but to an object.

He tried to use the All-Seeing Heavenly Yin.

Sure enough, it worked!

After removing the headless golden man, there was no longer any obstacle, and Qin Feng started to kill the monsters again.

Tens of thousands of sword lights swept across, and shrill roars came one after another.....

In just a few seconds, Qin Feng slaughtered tens of thousands of monsters, and he killed them faster and faster.....

Emperor Jialuo roared in grief, but there was nothing he could do.

After a while, Qin Feng finally killed all the monsters.

He opened his mouth and swallowed all the more than 200,000 Dragon Swallowing Balls.....

"Ding! Devour the Dragon Ball successfully.....Obtain massive dragon soul power....."

"Ding! The soul mutates and acquires dragon soul attributes... The Dragon God inheritance awakening is increased to 13%....Combat power increased by 1.3 billion.....".

"Ding! The completion level of seventh consciousness awakening has been increased to 51% ....Space capabilities greatly improved.....Teleport limit increased to 200 miles....."

This improvement in strength is so exciting!

Qin Feng is ecstatic!

His combat power has actually increased to 6.2 billion, and in the transformed state it is 7.5 billion!

This combat power is not far from the nine-star threshold.

If you include various means and spatial abilities, he has the true strength of an emperor.

Qin Feng suddenly felt heroic.

He suddenly looked back and looked at Emperor Jialuolou.

At this moment, Emperor Garuda was actually being killed by two demon kings and was retreating steadily.

Qin Feng understood it in an instant, and his eyes showed joy.

It turned out that King Garuda was able to fight one against two and fight the two demon kings to a draw.

But as time passed, the fire poison invaded his body, causing him great physical pain and his strength declined.

In this way, he fell into a disadvantage, and it became more and more serious.

At this moment, Emperor Jialouluo seemed to sense something.

He turned around and saw Qin Feng killing all the clan members and looking towards him.

His face changed with fright.

The situation is over!

He glanced at a certain palace with a pained expression on his face, turned around and ran away.

Qin Feng saw this subtle change.

He has been secretly paying attention to that palace for a long time.

Many palaces were burned in the magma sea, but that palace remained intact.

There must be an extremely important treasure hidden there.

At this moment, Emperor Garuda broke out of the attack of the two demon kings and fled towards the starry sky.

The corners of Qin Feng's mouth curled up slightly, and a pair of giant wings instantly appeared behind him.

The roc spreads its wings and launches!

The roc rises with the wind in one day and soars up to 90,000 miles!

Qin Feng caught up with Emperor Garuda in an instant and slashed Emperor Garuda back with one sword.

The two demon kings took the opportunity to get involved.

Qin Feng joined.

The three parties worked together to encircle and suppress Emperor Jialouluo.

Nearly a thousand fire demons also besieged him.

Emperor Garuda suddenly became extremely miserable and screamed repeatedly.

He broke out several times, only to be beaten back to his original form by Qin Feng.

Because he was not as fast as Qin Feng, he couldn't escape at all.

At this moment, Emperor Garuda regretted it.

He hesitated for a few minutes just because he didn't want to part with the treasure.

Unexpectedly, he had no chance to escape now.

In the blink of an eye, under the siege of everyone, Emperor Jia Luolou suffered severe injuries in many places, and his momentum became weaker and weaker.

His downfall is doomed.

Emperor Jialuolou felt despair.

But at this moment, above the starry sky, a sound broke through the sky.

A tall golden man descended from the sky with overwhelming momentum.

The headless golden man came from a million miles away.

Emperor Garuda was overjoyed:"Jin Slave! Save me!"

Ka~!

The murderous aura moves the sky!

The starry sky is shattered!

The headless golden man struck Qin Feng with a sword.

It knows that this guy is the leader.

With a thought in his mind, Qin Feng instantly sent out spiritual instructions to the two demon kings and nearly a thousand fire demons.

At this moment, the two demon kings and nearly a thousand fire demons attacked Qin Feng at the same time.

Emperor Garuda was stunned for a moment.

What's going on?!

But before Emperor Garuda could react, Qin Feng changed his position with him.

At that moment, Qin Feng sacrificed a skill jade talisman.

That was the trump card given to him by Yue'er, which sealed Yue'er's unique move - Jing Tian!

The power of Jingtian is more than stronger than the attack of the headless golden man, and is comparable to the attack from the top of Nine Stars.

This is also Qin Feng's strongest attack so far.

Boom~! Boom~! Boom~! Boom~!

Four loud bangs in a row!

Emperor Garuda was instantly blasted!

A shrill scream!

It resounded across the starry sky!..

Chapter 320

Emperor Garuda was instantly blasted!

A shrill scream!

It resounded across the starry sky!

After a moment, Garuda's physical body collapsed, leaving two skill stones on the ground, a secret book, an imperial weapon, a swallowing dragon ball, a cyan feather, and a large ball of nine-star fire source.

After reaching Nine Stars, the elemental master's star pattern divine seal will be transformed into its original source.

The inner elixir of the demon clan is also transformed into the elemental origin.

Both ended up in the same form of cultivation.

It can be said that different paths lead to the same goal!

Emperor Galois died.

The soul thought he attached to the headless golden man automatically collapsed.

The headless golden figure seemed to have lost its soul, its aura dimmed, and then it shrank rapidly, turning into a human being in the blink of an eye, standing there motionless.

Qin Feng was ecstatic.

Obviously, this golden puppet has become an ownerless thing.

Isn't this just his!

When he finds a way to refine this puppet, he will have a loyal nine-star slave.

What's more, this headless golden man is obviously stronger than the Earth Fire Demon King and easier to summon.

When he summons the Earth Fire Demon King, he must summon the magma sea.

The magma sea is too destructive and is likely to harm his human men and even destroy his station.

This would be somewhat inconvenient.

Qin Feng was delighted, and with a wave of his hand, he sent back the Earth Fire Demon King, the Earth Fire Demon Army, and the Magma Sea.

Then he began to collect the loot.

The headless golden man, the skill stone, the imperial weapon, the nine-star fire source, the cyan feather, the nine-star swallowing dragon ball...

Qin Feng put them all into the storage ring.

When packing up the trophies, Qin Feng intuitively realized that the cyan feather was extremely unusual.

It's just that he doesn't have time to study it now.

His stay in this world is limited.

After packing up everything, Qin Feng hurriedly flew to the mysterious palace.

After blasting through the protective barrier outside the palace and entering the main hall, he saw an altar.

There is a mysterious giant egg in the center of the altar, which is as big as an adult and exudes a dazzling aura.

"Huh! This is...."

Qin Feng actually felt that the dome looked familiar.

But he has never seen this kind of dome before!

Why does it look familiar?

Soon, he figured out what was going on.

It turned out to be the influence of the Dragon God inheritance on him.

To put it bluntly, it's about passing on memories.

"Could it be that the treasure that Emperor Jialuolou was reluctant to part with was this dragon egg?"

Qin Feng was confused.

He vaguely felt that there was an extremely weak heartbeat in the dragon egg, indicating that life was bred inside.

Looking at the altar in front of him, it turned out to be a large formation that absorbed the fire energy of heaven and earth to support the dragon eggs.

Strange!

How could Emperor Garuda hatch a dragon egg?

Shouldn't he have eaten the dragon egg?

Qin Feng looked at the dragon egg carefully again, with a look of surprise in his eyes.

He finally understood what was going on.

Only Seeing the dragon egg looming, it exudes eleven haloes, divided into eight silver, two gold and one purple.

These haloes represent the potential of the dragon egg. The nine haloes are the potential to reach the emperor level, the tenth halo is the potential of the great emperor, and the eleventh halo is the master. Potential, this dragon egg actually has the potential to dominate!

Emperor Garuda wanted to hatch this dragon egg, but his intentions were sinister.

Dragon meat is equivalent to a panacea for the Garuda tribe.

Wait until he hatches this little dragon, and then eat it Dragon meat, he has the hope of raising his qualifications to that of a great emperor.

Thinking about it this way, you can understand why Emperor Garuda attaches so much importance to it. If you want to become a great emperor, only one out of a hundred emperors has a higher success rate than overcoming the tribulation. Young.

After thinking about this, Qin Feng was overjoyed.

He wants this dragon egg!

He wants to hatch it with his own hands and adopt him as an adopted son or daughter in the future. This is equivalent to seeing a descendant with the potential to dominate!

Qin Feng walked away excitedly Go up to the altar.

As soon as he got closer, the dragon egg actually sent out affectionate thoughts to him.

Qin Feng also felt that the dragon egg was kind.

He just didn't know whether this dragon egg would hatch into a dragon son or a dragon girl?

He carefully collected the dragon egg.

At the same time, his time to stay was up. A minute later, Qin Feng returned to the earth world.

In the secret room, he took out the harvest and began to digest it.....

"Ding! Devouring skill stones successfully.....Acquire the emperor-level skill - Dragon Transformation (specializes in defeating dragons, weakening 30% of strength)...."

"Ding! Devouring skill stones successfully.....Obtain the emperor-level skill - Burning Heaven Purple Flame (Emperor-level)....."

"Ding! Swallow the nine-star dragon ball successfully.....Obtain massive dragon soul power....."

"Ding! The properties of the Dragon Soul have been improved....The Awakening of the Dragon God's inheritance has been increased to 13.5%....Combat strength increased by 500 million.....".

"Ding! The seventh consciousness awakening completion degree has been increased to 53% ....Space capabilities greatly improved.....Teleportation limit increased to 300 miles....."

The nine-star Dragon Swallowing Pearl is just extraordinary.

One is comparable to hundreds of thousands of low-level swallowing dragon beads.

Qin Feng's intention is still unfinished.

However, he has completed the god-level challenge, and it's time to break through.

Qin Feng smiled proudly.

In just one thought, the eighth star pattern was condensed and completed!

"Ding! The eighth star pattern is condensed... The eight-star divine seal is completed. Congratulations to the host for breaking through to the quasi-eight star... The combat power is increased by 800 million....."

"Ding! The eight-star divine seal and the ring of divine consciousness were successfully integrated... The eight-star origin was formed... Congratulations to the host for breaking through to the eight-star realm,.....Combat power increased by 1 billion....."

But it's not over yet.

Qin Feng made a casual move, and hundreds of eight-star inner elixirs appeared.

He opened his mouth and swallowed it all

"Ding! Swallowing the eight-star inner elixir to become...the cultivation level is raised to eight-star 37%....Combat strength increased by 500 million....."

Qin Feng was shocked.

Hundreds of eight-star inner elixirs have been digested.

His cultivation level is only 37% of eight stars.

He needs too much energy, far more than a hundred times more than the same level.

Qin Feng waved again, and more than a hundred Xingtide stones appeared.

He opened his mouth and sucked it all in

"Ding! Successfully swallowed the Star Stone.....Cultivation level increased to the peak of eight stars....."

"Ding! Successfully swallowed the Star Stone.....Improve your cultivation to the Eight-Star Great Perfection....."

"Ding! Successfully swallowed the Star Stone.....Cultivation level increased to the limit of Eight-Star Dzogchen....."

"Ding! Successfully swallowed the Star Stone.....Origin Tao Core Completion Degree 17%....."

After ten minutes, everything calmed down.

Qin Feng absorbed all available resources in one breath.

His cultivation level also skyrocketed, directly reaching the limit of Eight-Star Great Perfection, and once again reached a cultivation bottleneck.

If he wants to improve his cultivation further, he needs to increase the completeness of his original Tao core to 100% and enter the tribulation period.

As long as you successfully overcome the tribulation, you will be the Nine-Star Emperor.

This is an extremely long process, and many Eight-Star Dzogchen have not been successfully condensed in their lifetime.

That not only relies on cultivation, but also requires a very high understanding of the way of elements.

Of course, Xingxi Stone can accelerate the condensation of Tao core.

But Qin Feng no longer has the Xingxi Stone in his hand.

"Ding! It is detected that the host conditions are met, and the power of the nine elements is automatically fused....."

"Ding! Fusion successful.....Congratulations to the host for acquiring the power of chaos (to restrain the power of all elements)....."

"Ding! Hunyuan Transformation (King Level Skill) Advanced Chaos Transformation (Emperor Level Skill)....."

"Ding! Super Ice Hide Technique (Super Technique) and Shadow Escape Technique (King Level Technique) automatically merge into Chaos Void (Emperor Level Technique)

"Ding!....."

After another evolution, Qin Feng has undergone earth-shaking changes.

Now, his combat power has been increased to 13 billion.

On Earth, the combat power of those nine-star emperors is between 10 billion and 17 billion.

The Azure Dragon Emperor's combat power is 20 billion, and his cultivation level is at the peak of nine stars.

Now, he dares to fight with Emperor Qinglong

"Ding! Congratulations to the host for completing the super god level challenge, rewards have begun to be distributed....."

The system finally sent a reward prompt..
