

God level 331

Chapter 331

Under the purple mist, strong thoughts came from the dragon egg, calling him strongly.

It felt like a baby calling.

Qin Feng smiled.

It seems that this little guy is hungry.....

He smiled and walked over.

When his eyes fell on the purple mist again, a light screen popped up in his eyes.

Item name: True Dragon's Qi

Grade: Extremely rare

Remarks: Can be swallowed

"Can this thing be swallowed?"

Qin Feng was surprised.

He walked over quickly and took a gentle breath.

"Ding! Absorbing the true dragon's energy successfully.....Soul strength increased....."

"Ding! Absorbing the true dragon's energy successfully.....Increased physical strength....."

Huh! That's okay!

Qin Feng's eyes lit up.

Then, he tried to communicate with the dragon egg... and soon, he looked happy.

It turned out that he swallowed the real dragon's energy outside the shell and had no effect on the dragon egg.

At that moment, he opened his mouth and sucked in all the real dragon energy.

"Ding! Absorbing the true dragon's energy successfully.....Soul strength increased....."

"Ding! Absorbing the true dragon's energy successfully.....Increased physical strength....."

"Ding! Dragon God inheritance awakening increased to 16.1%.....Combat strength increased by 100 million....." really!

Devouring the true dragon's energy will help awaken the dragon god's inheritance!

Qin Feng was overjoyed.

Huh! This is.....

At this time, Qin Feng discovered that the dragon egg had some special changes...

A light screen popped up in his eyes.

Category: True Dragon Clan (Dragon Girl)

Potential: Dominant Level (Fire Attribute)

Form: Dragon Egg

Hatching Progress: 37% (Hatching Progress is Accelerating)

Current Energy Level: Eight Stars

Remarks: Can sign a contract

"It turns out that the life born in this dragon egg is a dragon girl... Hey! Can sign a contract....."

Qin Feng was surprised.

With a thought in his mind, he tried to sign a contract with all living beings.

With a flick of his finger, a black rune flew towards the dragon egg and disappeared...

A moment later, the contract was signed successfully.

The little life inside the dragon egg sent him a close telepathy.

The feeling was so strong that it felt like flesh and blood were connected.

Qin Feng's heart was touched and he inexplicably wanted to love this little guy.....

This is not just a contractual effect.

Qin Feng absorbed the true dragon spirit bred by the little guy, which also resonated with his soul.

But at this moment, he could actually tell what the little guy meant.

This little guy was really hungry and was crying for food...

Qin Feng couldn't bear to let the little guy go hungry, so he quickly filled the dragon pond with Emperor's liquid (fire).

Then, he added the remaining few hundred drops of dragon blood on his body.

The little life inside the dragon egg emits extremely happy thoughts.

Then, the little guy absorbed it beautifully.

Qin Feng could feel that the spiritual liquid in the dragon pond was decreasing slightly.

The hatching progress bar has also increased from 37% to 37.23%...And it continues to rise.

In addition, there are wisps of dragon energy that are difficult to see with the naked eye.

With a thought in his mind, Qin Feng added a few drops of his own blood essence into the spirit pool.

As soon as his essence and blood enter the pool, the dragon egg actively absorbs it.

After a while, the feeling of blood connection between the two became even stronger.

Qin Feng was pleased and regarded this little guy as his own child.

A quarter of an hour later, the little guy seemed to have eaten and drank enough, and his mind fell into a deep sleep.

The amount of spiritual fluid in the pool was one-fifth less.

At this time, Qin Feng discovered that the information about the dragon egg had changed, and the hatching progress increased to 38.3.%...

The current energy level has been raised to the peak of eight stars.

The meaning of this energy level is the current state of cultivation of the dragon egg.

This guy hasn't even been born yet, but his strength is comparable to the peak of Eight Stars. He is extremely talented.

According to this progress, the little guy will reach the pinnacle of Eight-Star Dzogchen as soon as he is born, or even the period of transcending tribulation.

Qin Feng couldn't help but sigh, this little guy has the potential to be a master, and he is born to be extraordinary.

Afterwards, he filled the dragon pond with Emperor Liquid Slurry and left silently.

The next moment, he returned to the secret practice room, summoned the headless golden man, and began to perform sacrifices.....

At the same time, the Vermillion Bird Alliance was standing above the starry sky.

Gale King overlooked the desert below.

In the past few days, the golden masked man, the Fire Emperor and others have been practicing the formation, and they have achieved good results.

At this moment, a black hole of light appeared silently behind him.

Then, a cold young man in black walked out of the black hole

"I've met Lord Star King!", Gale Emperor saluted respectfully.

The person who came was none other than the leader of the Starry Sky Beast Clan—Wuye Star Emperor.

Although this Wuye Star Emperor is only at the peak of Nine Stars, his combat power has reached 30 billion. Gale, who is also at the peak of Nine Stars Emperor, if you can't move five moves in front of him, you will be defeated.

Therefore, Emperor Gale is very in awe of Wuye Star Emperor

"How's it going?" Wuye Xinghuang asked quietly.

"all the best!", Gale Emperor had a warm smile on his face.

He always greeted people with a smile.

Star Emperor nodded slightly: "Ten days later will be the day of enlightenment on the Heavenly Monument... I hope the people of the Holy Alliance will not let me down!"

Dale Emperor smiled and said: "Those three guys from the Holy Alliance have always been trying to take chances. Their plan is nothing more than to steal the Daoyun fragments after breaking the Heavenly Monument... What a pity! They underestimated the power of Lord Star King...."

"Ah~! ", the Star King sneered, "That's because they are greedy! They don't have the potential to become the leader of the earth, but they insist on getting to that position, so naturally they have to do this....."

"However, they did underestimate the emperor!"

Wuye Star Emperor's expression is indifferent, and his eyes are full of confidence.

Decades ago, his combat power was only about 24 billion.

But now, he has successfully cultivated the secret technique and reached 30 billion.

Regarding this fact, Only the top brass of the Starry Sky Beast Clan knew that, and none of the Earth's emperors knew it. The three emperors of the Holy Alliance also guessed it.

The moment they destroy the Heavenly Monument, the Nightless Star Emperor will definitely take action to stop them from snatching Daoyun. Fragments.

The Starry Sky Orcs will not let them benefit.

The two sides just use each other.

Unfortunately, the people of the Holy Alliance did not guess that the strength of the Nightless Star Emperor has greatly increased.

It turns out that the truce contract signed between the Earth and the Starry Sky Orcs, There is a clear rule.

During the truce, no more than two emperors from either side can appear in the other side's territory at the same time.

Otherwise, it will be a violation of the contract. The emperors of the side that violates the contract will suffer the pain of soul backlash.

If not done well, strength will will fall.

Therefore, even if both sides want to spy on each other's intelligence, only one emperor can go there at a time.

If the Star Orcs want to prevent the Holy Alliance from getting benefits, they can only send one person to stop it, and then this person is naturally the strongest Wu Night Star Emperor.

When the Immortal Wood Emperor came to Earth to kill Qin Feng, he came alone, without other emperors accompanying him.

This was the restriction of the armistice contract.

"By the way, in addition to the three emperors, does the Holy Alliance have any hidden emperor masters? Have they roped in anyone else recently?"

Wuye Xinghuang suddenly asked

"should not!"The Gale Emperor smiled and shook his head,"My subordinates have secretly investigated it! There are only a few emperors on earth"

"Except for the three members of the Holy Alliance who have been practicing formations, the rest are practicing in seclusion, so there will be no fourth emperor in the Holy Alliance....."

"That's good!"Wuye Star Emperor nodded with satisfaction,"After ten days, you return to the headquarters and leave the rest to me!"

"yes! Big boss!"..

Chapter 333

A few minutes later, Qin Feng came to an elegant and exquisite room.

In the room, the windows are bright and clean.

The floors were spotless.

There is a faint fragrance floating in the air.

This is the boudoir of Emperor Feng.

No one has ever dared to set foot here.

Qin Feng was the first person allowed to enter here.

He looked at the extremely beautiful back in front of him and felt happy in his heart.

Yue'er has indeed broken through to the peak of nine stars.

The breath is obviously stronger than before.

Qin Feng walked over with a smile and stood side by side with her in front of the window.

The two of them had a good rapport and looked at each other with a smile.

"How are you getting on?", Emperor Feng's beautiful face showed concern.

"look...",Qin Feng released his own realm aura.

The pinnacle of Eight-Star Dzogchen!

Emperor Feng's beautiful eyes lit up.

She always thought that Qin Feng hadn't broken through to the quasi-eight-star level yet, but that his strength had reached the quasi-eight-star level.

She was still worried that Qin Feng would not be able to participate in the Heaven Monument meditation.

I didn't expect that my man would achieve Eight-Star Perfection so quickly.

"Qin Feng, your current strength should be above that of the King of Heaven. I want to confer a position on you so that you can control the king of heaven, king of sea and king of land. What position do you think is suitable?"

Feng Di asked in a low voice.

She wanted to give her man greater authority.

Qin Feng gently leaned against Feng Di's ear:"I only need you....."

Emperor Feng's pretty face blushed slightly.

She looked up happily and saw Qin Feng's loving eyes.

There was still a fire hidden under those eyes, which made her feel confused.

The next second, she felt Qin Feng's big hands holding her waist.....

She didn't resist, her eyes gradually blurred...

If other emperors saw this scene, they would definitely be surprised.

This dignified empress has fallen so low that she allowed an eight-star subordinate to.....

After a moment, she closed her eyes slightly. She looked so beautiful...

Qin Feng was moved by what she saw.....

He whispered softly into Emperor Feng's ear.

Emperor Feng blushed...

There was a gentle breeze in the air, and the feeling of spring was strong...

Time flew by quickly.

In a blink of an eye, seven hours passed.

The wind and rain stopped...

In Emperor Feng's boudoir, Qin Feng was sitting on the sofa, enjoying a cup of tea.....

At this time, Emperor Feng walked out of the back room.

She changed into a long white dress, which was extremely beautiful.

Qin Feng's eyes lit up with admiration.

Emperor Feng was delighted and sat next to Qin Feng, his eyes full of tenderness.

After experiencing the intimacy just now, the two of them became closer to each other..

Chapter 334

Luo Li blushed and stared at Qin Feng lovingly, her heart beating wildly.

Those beautiful eyes are watery and full of tenderness.

Qin Feng's toxic suppression has reached its limit, his body is almost burning, and his eyes are gradually turning red.

"You are addicted!."

Luo Li noticed something and her eyes were full of concern.

"help me detoxify....", Qin Feng whispered.

Luo Li blushed and nodded slightly.

I don't know how long it has been.....

Qin Feng began a pleasant detoxification process.....

At the same time, in other assessment spaces.

All examiners are challenging the challenge arduously.

Only the last hour remains.

Those assessors in the late seven-star stage were the most nervous.

They have to kill ten late-stage seven-star puppet dragon soldiers within three hours to get ten points.

This is not something everyone can do.

But in order to survive, they have no choice but to fight...

At this moment, the fourth area is an independent space.

Long Shang is checking his points.

More than two hours have passed, and he has killed twelve dragon captains, accumulating 6,000 points.

"Tsk tsk! 6000 points! First place secured! Ha ha!!"

Long Shang felt extremely happy.

He had participated in the Dragon God inheritance assessment in his own star domain.

At that time, the first place in their star domain was only 4300 points.

This earth world must be even lower.

According to his estimation, those who It would be good for an Earthling to score 800 points.

With 6,000 points, he could win first place with his eyes closed.

After all, the Earth's star field is still too weak.

"How many points will the second place get this time? Five hundred or eight hundred?!"

The more Long Shang thought about it, the more proud he became, with a smile on his lips. Then, he wiped his sweat, dragged his tired body, and continued to fight.

Not only did he want to get first, but he also wanted to get more points.

He was very Clearly.

In this kind of inheritance assessment, points are extremely important.

The more points, the more benefits, and you can even get some incredible benefits.

Whether you can get a higher level of inheritance, points play a very important role.

Therefore, he must continue to work hard and continue Fighting.

Another space.

Xiao Qingfeng was panting from exhaustion.

He fought for more than two hours before killing three puppet dragon captains and gained 150 points.

He felt that he was exhausted.

However, he was very satisfied with himself. I was very satisfied with my results.

In another space, a deep-sea disciple with the body of a dragon head was looking at the points in his hand with excitement. It was a total of 400 points!

He felt that he should be able to get a good ranking.

His name was Li Jiao, the vice-captain of the Deep Sea Clan, a master of the essence fusion realm.

He is the Deep Sea Clan, the person with dragon power.

However, his is only the first level dragon power.

Although his strength is stronger than that of the same level, he can get So many points are entirely dependent on Xiao Lun Wang.

Thinking of this, Li Jiao looked respectfully at Xiao Lun Wang in front of him

"Have you rested enough?"

Little Lun Wang looked at Li Jiao with a lofty expression.

"Yes! Little Wang Zun!"

"good! Then let's continue!"

As soon as he finished speaking, Xiao Lun Wang's body automatically decomposed into countless molecules and poured into Li Jiao's body.

Li Jiao's body suddenly swelled.

His momentum surged, and his strength doubled in the blink of an eye, reaching four levels of combat power. Ten million, we are not far away from the quasi-eight stars.

At this time, the voice of Little Wheel King sounded in Lijiao's mind

"This time, I'll take the lead!"

"good!"

The next second, Li Jiao's face changed.

His whole person transformed into the appearance of Xiao Lun Wang, and the breath all over his body was also that of Xiao Lun Wang. There was no trace of Li Jiao's breath.

Then, Xiao Lun King launched a summons, Two puppet dragon captains appeared on the field.

The two sides immediately started fighting.

Before long, Xiao Lun Wang killed the two dragon captains and gained 100 points.

"This time, you come!"

The next second, Xiao Lun Wang turned into a glass dragon again, and his aura disappeared.

The two continued to summon and hunt.

The points gained this time belong to the glass dragon.

This is one of Xiao Lun Wang's abilities.

He can Possessing other people is like parasitism.

He used this method to start an alternative cheating mode.

Time passed quickly.

In the last hour of the assessment, everyone was working hard and working hard.

Qin Feng Detoxifying comfortably.....

Everything is so wonderful, like being on top of the clouds, floating in a fairyland....

It feels like drinking fairy brew...every pore in the body is opened....

Extremely enjoyable!

Unknowingly, the assessment time is finally coming, with only the last three minutes left.

The assessors also returned to the square one after another..

Chapter 335

After leaving the Phoenix Emperor's palace, Qin Feng took out the five Xingxi stones and swallowed them in one gulp.....

"Ding! Successfully swallowed the Star Stone.....The completion degree of Chaos Dao Core has been increased to 99.61%..."

"Well.....It's still a little bit worse!"

Qin Feng was a little regretful.

The Xingxi Stone was born with Dao charm, which can increase the speed of the Dao core's condensation.

But Qin Feng's Dao core is different.

Ordinary emperors have a single-element Dao core.

His is a Chaos Dao core, which is superior to all elements. Above that, more Tao Yun is needed.

In addition, once the Tao core is condensed, it can break through to the Tribulation Transcendence stage, and its combat power will skyrocket. The combat power at the peak of the Eight-Star Great Perfection is generally 500 million.

Once you enter the Tribulation Transcendence stage , In the first stage, it will start at 800 million.

Then it will skyrocket to about 1 billion in just one month.

At that time, the catastrophe will come.

In short, from the eight-star Dzogchen breakthrough to the tribulation stage, the strength will change tremendously The progress has almost doubled.

Therefore, Qin Feng is eager to break through to the Tribulation Stage.

As long as he can enter the Tribulation Stage, it will not be difficult to complete this system task.

"Maybe, if I swallow another seven or eight Star Stones, I can break through to the Tribulation Realm... By the way, the Earth Fire Demon King is so eager to summon me. Could it be that he has discovered a new Star Stone?"

Qin Feng's eyes lit up.

As early as more than ten days ago, he gave the order to the two earth fire demon kings to search for Xingxi stone mines in the magma layer.

The earth has existed for more than four billion years, and there must be more There are many star stones.

The Earth Fire Demon King came with news at this time. It is very likely that a new mine has been discovered.....

At that moment, Qin Feng's thoughts moved and disappeared.

The next second, he appeared in the mantle magma layer hundreds of thousands of feet below.

When he appeared, he looked up and saw white magma all around him.

The two earth fire demon kings gathered around excitedly and uttered strange words.

Qin Feng probably understood what they meant through the power of the contract.

It turns out that in the past ten days, two Earth Fire Demon Kings and nearly a thousand Earth Fire Demons have been looking for Xingxi Stone Mine everywhere.....

Unfortunately, they haven't found it yet.....

However, they made a special discovery today.

But they couldn't see what it was, so they had to call Qin Feng to come and check.

After understanding this, Qin Feng also became interested.

"lead the way!"

At that moment, Qin Feng gave the order.

The two Earth Fire Demon Kings immediately respectfully led the way.

Not long after, they arrived at their destination.

There was an extremely huge black hole there, and it was impossible to see the bottom at a glance.

What was shocking was that the entrance to the black hole There is an invisible force field everywhere, which is extremely powerful and spreads outward from the inside of the cave. The underground magma cannot get close to the entrance of the cave.

Within a thousand meters outside the cave, there is nothing, no magma, and nothing.

The force field leaking from inside and outside the cave is extremely strong , even the Earth Fire Demon King couldn't get close, let alone go into the cave to investigate.....

"What a strange black hole....."

Qin Feng looked at it curiously.

Here is the mantle layer, and below that is the outer core layer of the earth, then the inner core layer, and finally the core.

Could this black hole lead to the center of the earth?

And is there any treasure hidden in this black hole?

Otherwise, how could there be such a strong invisible force field that even the Earth Fire Demon King could not get close to.

According to the idea conveyed to him by the Earth Fire Demon King, they could only approach the cave entrance nine hundred meters away, and then they could not get any closer.

The force field was too strong and their strength was not enough, so they found Qin Feng

"You two stay outside, I'll go in and take a look..."

Qin Feng ordered the two earth fire demon kings and stepped into the force field at the entrance of the cave.

As soon as he stepped in, the invisible force field came in, like an overwhelming force. , pushing him outward...

Sure enough!

This push is no less than the threshold of the nine-star level. No wonder the Earth Fire Demon King can't get close.

Fortunately, this force field only repels, preventing people from approaching the hole, but it has no offensive type.

And A force field of this magnitude could not stop him.

At the moment, Qin Feng continued to walk towards the entrance of the cave.

Nine hundred meters...eight hundred meters...seven hundred meters... the closer he got to the entrance of the cave, the stronger the invisible repulsive force became. In the blink of an eye ,

Qin Feng approached 200 meters from the entrance of the cave...

He could not move forward half a step further.

The invisible force of repulsion had increased to 17 billion combat power, which was exactly the same as his combat power.

Qin Feng was helpless.

Then The cave entrance was only 200 meters away from him. He wanted to see what was going on inside the cave, but unfortunately he couldn't walk...

In fact, he tried using teleportation, but found that the invisible force field could restrain the space ability...

He wanted to enter Black holes can only rely on their own strength to overcome the repulsive force of black holes.....

It seems that without the combat power of the nine-star peak, there is no way to step into the cave...

Qin Feng made a thought and used the emperor-level skill - Chaos Transformation...

Chaos Transformation, with special attributes, can confuse Yin and Yang, reverse the five elements, All evils are evaded, all forces are invulnerable, and the combat power is increased by 30%.

Qin Feng's momentum skyrocketed, and his combat power skyrocketed.....

In the blink of an eye, his combat power increased to 22 billion.....

The next second, he easily took a step forward. one hundred and fifty meters.....One hundred meters... sixty meters...

After a moment, Qin Feng stepped into the cave under the surprised eyes of the two earth fire demon kings.....

As soon as he entered the black hole, Qin Feng felt that his surroundings dimmed and became pitch black.

This black hole can absorb all light, making it difficult to see.

Even with his spiritual consciousness, he can only see things within a ten-meter radius.

In addition, the temperature inside the cave is extremely high, more than ten times higher than outside.

The invisible force of repulsion still exists, and it is stronger than outside.

Qin Feng took a deep breath and took a step forward.

Sure enough, the power of repulsion has increased again.

He didn't care so much and took a few steps forward.

Huh! what is that?

Qin Feng soon discovered that there was a large round yellow thing in front of him, emitting spiritual light, attached to the corner of the cave wall...

He quickly walked over and found that it was a large pile of soil.

This soil has its own attributes of earth and fire, and is rich in spiritual energy. It looks like it is not a mortal thing at first glance...

What kind of soil is this?

Qin Feng murmured in his heart.

He didn't recognize this kind of spiritual creature.

But at this moment, a system prompt sounded in his mind

"Ding! Congratulations to the host for discovering the emperor-level material - Earth Fire Breathing Soil....."

What? Imperial grade material!

Qin Feng was overjoyed and his eyes sparkled.

Imperial grade material, extremely useful.

As his level of weapon refining improves, he learns more about the materials.

Imperial grade materials are generally used to refine imperial weapons and are extremely rare on earth.

Even if it is discovered, it will only be a small group at most.

But there are thousands of balls of fire and earth in front of us!

It's happening now!

"By the way, with this thing, can't I do that thing?....."

Qin Feng suddenly thought of something, and his face showed a look of ecstasy.

There seems to be a solution to the problem in his mind.

At that moment, he excitedly put away the earth fire and soil.

This black hole is good, there are strange treasures at the entrance, and there must be more treasures inside.

After collecting the fire and soil, Qin Feng continued to move forward.

Not long after, he discovered another pile of earth fire soil.

Qin Feng happily put away the spiritual soil and moved on.....

In the blink of an eye, Qin Feng penetrated two hundred meters into the black hole and was unable to enter.

The repulsive force inside had reached his limit, making it difficult for him to move forward.

Qin Feng didn't force it either.

When his strength improves, he will explore again.

What's more, his gains this time are also very big.

Back and forth, he got more than a dozen piles of earth fire breath soil.

He could try his plan.

If he can solve that problem, the earth will be his world..

Chapter 336

Unable to go deeper, Qin Feng had to retreat.

He plans to come back after his strength improves.

Outside the cave, Qin Feng explained to the two earth fire demon kings.

He asked the two demon kings to send a few earth fire demons to guard the entrance of the cave, and left the others alone.

In addition, the search for Xingxi Stone Mine must continue.

After finishing the chores, Qin Feng used the reverse space summons and returned to the Dragon's Nest secret room in the Southern League in an instant.

He took the opportunity to check on the progress of the dragon eggs hatching, added some imperial ooze, and left in a hurry.

A quarter of an hour later, inside the secret cultivation room.

Qin Feng excitedly took out some earth fire soil and some auxiliary materials.

Then, he took out the weapon refining secret book, turned to a page in Emperor Garuda's notes, and started his plan.

Time flies.

In the blink of an eye, five hours passed.

Qin Feng followed Emperor Garuda's method and used earth fire soil as the main material, and successfully refined two clay puppets.

This clay puppet is an imitation of the headless golden man.

However, this clay puppet is only a semi-finished product.

In order for it to truly possess combat power, it is necessary to use incorporeal creatures with similar attributes to be sacrificed into a puppet spirit, in order to truly activate the puppet.

Qin Feng already had the materials for this kind of puppet spirit.

As soon as he thought, the space in front of him fluctuated, and an eight-star earth fire demon was summoned by him.

As soon as the earth fire demon appeared, his face showed a look of extreme pain, and his body began to collapse.

Its life form is very strange. It has no solid body and can only exist in the magma layer. Once it comes out of the magma, it will automatically disintegrate.

Qin Feng was well prepared. He sealed the seals, injected them into the clay puppet, and then began to perform sacrifices.

An hour later, the earth fire demon and the clay puppet merged perfectly.

The Earth Fire Demon became the spirit of the puppet, and the clay puppet became its body.

After the two were combined, their combat power skyrocketed to eight-star perfection.

This is the real clay puppet.

Qin Feng was very satisfied.

He finally solved the problem of being unable to bring the Earth Fire Demon out of the magma layer.

Now, he not only brought out the magma layer, but also raised the Earth Fire Demon's combat power to a higher level.

This can be said to kill two birds with one stone!

In addition, this clay puppet itself has earth escape attributes, making it more convenient to use.

Qin Feng became more and more satisfied as he watched.

He thought for a while, it was inappropriate to call this thing the Earth Fire Demon, and it was time to change its name.

Qin Feng thought it looked a bit like the Terracotta Warriors and Horses, so he simply named it the Fire Demon Terracotta Warriors.

Then, he took out an Eight-turn Jingyuan Pill, directly extracted the medicinal power, and injected it into the Fire Demon Warriors.

This is what he is trying to do.

Unexpectedly, the fire demon warrior directly absorbed the power of the medicine, and its mental power skyrocketed, reaching the six-star level in a moment.

The originally stupid eyes actually lit up with aura.

Its intelligence has improved, and the entire puppet has become spiritual.

Qin Feng was overjoyed.

He has five hundred Eight-turn Jingyuan Pills in his hand, all prepared for those Earth Fire Demons.

After all, the earth fire demon's intelligence is too low, resulting in low combat power.

Qin Feng originally wanted the Earth Fire Demon to take the elixir directly, but the Earth Fire Demon has no physical body and its living environment is special, so it cannot absorb the elixir.

Now, Qin Feng has transformed the earth fire demon into a fire demon terracotta warrior, and his life form has undergone certain changes.

He tried to deliver the medicine, but he didn't expect it to succeed.

At the moment, Qin Feng took out the second Eight-turn Jingyuan Pill and turned it into medicine and injected it into it.

This time, the Fire Demon Warriors could no longer absorb it, and its mental power had been raised to six stars, which seemed to be its limit.

However, Qin Feng is already very satisfied.

Six-star mental power already has good spirituality, and it is very convenient to control in battle.

In addition, after the spiritual power of this fire demon terracotta warrior was improved, the combat power was directly increased to the peak of the Eight-Star Great Perfection, which is about 500 million combat power.

His Eight-turn Jingyuan Pill was well spent.

Next, Qin Feng began to build the second fire demon terracotta warrior.

This time, he summoned the Eight-Star Great Perfection Earth Fire Demon.

A quarter of an hour later, the second fire demon terracotta warrior was created.

The combat power of this puppet actually reached one billion, reaching the stage of transcending tribulation.

Qin Feng was both surprised and surprised.

It turns out that the eight-star fire demon can be used to create the eight-star fire demon terracotta warriors at the pinnacle of the Great Perfection.

The eight-star Dzogchen Fire Demon can produce fire demon terracotta warriors in the tribulation period.

What about the Earth Fire Demon King?

The Earth Fire Demon King is his main combat power.

If the Earth Fire Demon King can be refined into a Fire Demon General figurine, his combat power will definitely increase greatly, and he will definitely no longer be at the bottom of the Nine Stars.

Qin Feng became more and more excited as he thought about it.

However, there is a difficulty here.

The energy of the Earth Fire Demon King is too strong for ordinary clay puppets to bear and cannot serve as their bodies.

He needs to make a higher level clay puppet.

Emperor Garuda's information also describes the production method of top-level clay puppets, which requires more auxiliary materials.

Qin Feng checked his resources.

The most important main material - imperial grade mud.

He already has it, which is the earth, fire and soil.

In addition, more than 40 kinds of auxiliary materials are needed, and he still lacks 17 kinds.

In addition, he also wants to upgrade his weapon refining level to the emperor level.

He has understood 87% of the weapon refining secret book. As long as he understands 100%, he will be at the emperor level.

Qin Feng thought about it in his mind.

There are still eight days left before the Sky Monument Enlightenment starts, and everything can be done in time.

As long as he can refine two Earth Fire Demon Generals.

When the time comes, even if the Nightless Star Emperor causes trouble, it won't be able to stop him from completing his mission.

He did what he thought of, and Qin Feng hurriedly left the secret room.

Half an hour later, King Qin arrived at the palace.

In the meeting hall, the door was closed and a soundproof barrier was opened around it.

At this moment, Qin Feng is sitting on the throne.

Luo Li, Lu Ming, Wan Hansheng, Li Xun, Xiao Lun Wang, Li Jiao, Xiao Qingfeng, Bai Qianyue, Wu Sihai, Duan Muxue and others stood respectfully below.

Qin Feng summoned the first batch of backbone members of the Qin clan.

He glanced at everyone indifferently and found that everyone's cultivation level had been greatly improved, and they were not far from the eight-star level.

Xiao Lun Wang and Xiao Qingfeng are even closer to the eight-star realm.

"How are you guys doing these days?" Qin Feng asked quietly.

Xiao Lun Wang was the first to step forward and reported excitedly: "Back to the sect master, Li Jiao and I have joined forces. Our Deep Sea Hall has developed more than 3,000 subordinates, including those with five stars or above. There are more than a thousand...."

"In addition, as long as those with a five-star or above cultivation level, we have them sign a contract to join the Qin Clan, there is no problem with their loyalty....."

"very good!", Qin Feng nodded with satisfaction.

Xiao Lun Wang smiled and said: "This achievement is entirely due to the sect master's Xiaojing Yuan Dan. It is impossible to do it just with the prestige of Li Jiao and I....."

Qin Feng smiled and said nothing.

Little Wheel King was right.

If Xiao Jing Yuan Dan hadn't been used as bait, how could those people easily join the Qin Clan?

Qin Feng got a million small essence pills from Longxu.

He distributed hundreds of thousands of pills to Xiao Lun Wang and others to develop disciples.

Although the Little Jingyuan Pill has many flaws and is far inferior to the Jingyuan Pill, it is still useful to people on earth who lack the ability to improve their mental power.

Every little essence is a treasure, very tempting

"Going back to the sect master, our Qinglong Hall has also secretly developed more than 2,000 members, and there are more than 700 people with five stars or above....."

Xiao Qingfeng also respectfully stepped forward to report

"Back to the sect master, our White Tiger Hall has grown to 1,900 members....."

"Returning to the sect master, our Xuanwu Hall has grown to 1,600 people....."

"Returning to the sect master, our Snow Mountain Alliance has developed 2,100 members....."

Bai Qianyue, Wu Sihai, and Duanmuxue also reported it.

Qin Feng was greatly relieved.

These people are worthy of being the elite among the elite, and they are all extremely capable in doing things.

In less than a month, they have secretly grown the number of members of the Qin Sect to more than 10,000 people, and more than 3,000 people with five stars or above.....

This is a force that cannot be underestimated!

"You all are doing great! Take these!"

Qin Feng tossed it casually, and several storage rings fell into everyone's hands.

When everyone took a look, they saw a large amount of Emperor's Liquid and some Emperor's Liquid Crystals inside.

"You use these resources to train five-star or above disciples, so that they can improve their strength very quickly. In ten days, they will be of great use....."

Qin Feng said calmly.

Everyone couldn't help but look at each other.

Then, Xiao Lun Wang asked cautiously:"Sect Master, are we going to take action?"

"good!"Qin Feng nodded slightly:"Perhaps our battle to unify the world will be faster than you think. You can go back and wait for orders....."

These words excited everyone.

They had been hoping that Qin Feng could raise the banner of reunification as soon as possible.

Unexpectedly, Qin Feng was really going to start.

At this moment, everyone's hearts were aroused with fighting spirit.

"In addition, there is another task for you...."

Qin Feng waved his hand, and more than a dozen jade talismans flew into everyone's hands.

Xiao Lun Wang and others took a look and found that the jade talisman recorded seventeen kinds of weapon refining materials..

"I am in urgent need of the weapon refining materials in this jade talisman. You go back and arrange for your men to search, and give me an answer in three days....."

"no problem!"

Everyone agreed.

Qin Feng also secretly breathed a sigh of relief.

With the Qin Sect's current power, it should be easy to search for these materials.

Afterwards, he explained some trivial matters and sent everyone back.

After doing all this, Qin Feng He was about to go back to the secret room and continue to improve his weapon refining level.

But at this moment, the Turtle Emperor sent him a message and wanted to see him for something important..

Chapter 337

Qin Feng read the message.

Cast reverse space summon and disappear in the hall instantly.

The next second, he appeared in the desert.

The Turtle King had been waiting there for a long time.

Behind him, there were four men and two women standing, each with an eight-star cultivation level.

"I've met the door owner!"

When the Turtle Emperor saw Qin Feng appearing, he quickly stepped forward to salute respectfully.

"Meet the owner!"

The four men and two women followed closely, kneeling to Qin Feng one after another, and actually called the master

"they are....", Qin Feng's eyes lightly swept across the six people

"Sect master, they are the demon kings in the hands of their subordinates. Your subordinates will summon them, sign a contract with you, and wait for your orders....."

Qin Feng nodded slightly, very satisfied.

Later, the Turtle Emperor introduced the six people to Qin Feng.

These six people are the Lion King, Tiger King, Bear King, Wolf King, Snake King, and Butterfly King.

Among them, the Lion King and the Tiger King are both eight-star Dzogchen masters.

Qin Feng quickly signed a contract with six people.

With six more eight-star subordinates, Qin Feng was in a good mood.

Mastering the Turtle King and the Six Kings is equivalent to completely mastering the power of the land demon clan.

What's more, this kind of intelligent subordinate is different from the puppet terracotta warriors.

They can act alone and manage a party for themselves

"How many five-star or above minions do you have?", Qin Feng asked

"There are more than 1,100 people under my command.....", Lion King first reported

"There are more than 900 people under my command....."

"I have more than seven hundred....."

All the kings reported.

It turns out that there are hundreds of thousands of terrestrial monsters who have reached one-star level or above, and nearly ten thousand who have reached five-star level or above.

Qin Feng was happy.

The hidden power of the Qin clan is getting stronger and stronger.

The grass-roots combat strength below nine stars is not under the Holy Alliance.

"Taiyue!"

"The subordinates are here!", Turtle Emperor respectfully stepped forward

"From now on, you land demon tribe will be the Earth Demon Tribe of the Qin Clan, and you will be the elder of the Earth Demon Tribe."

"There are six halls, namely the Crazy Lion Hall, the Fierce Tiger Hall, the Fierce Bear Hall, the Blood Wolf Hall, the Ming Snake Hall, and the Wind Butterfly Hall... You six kings are the hall masters....."

"Subordinates obey!"

The Turtle Emperor and the Six Kings took orders one after another.

"The sect master, the Golden Mask Man and the Fire Emperor, asked me to mobilize nearly ten thousand demon soldiers in the near future and station them at the border of the Azure Dragon Alliance. When the time comes, a war breaks out and the six kings lead their troops directly into the Azure Dragon Holy Land. What should I do?"

The Turtle Emperor asked respectfully.

It turns out that the six kings of the Earthly Demon Tribe did not appear here for no reason.

The Golden Mask Man and the Fire Emperor tried their best to win over the Turtle Emperor, not only because they were interested in the Turtle Emperor's strength.

They were also interested in the Turtle Emperor's hands. power

"Take advantage of the situation! Just follow their instructions and let the six kings station troops at the border of the Qinglong Alliance.....When the time comes, counterattack and attack the Holy Alliance directly!"

"The subordinates understand! By the way, Sect Master, I found out that the golden masked man, the Fire Emperor, and another one have also been secretly deploying people in the past few days, and they all have their own forces..." The

Turtle Emperor carefully reported another piece of news.

Qin Feng nodded slightly, not surprised.

The three emperors of the Holy Alliance must be three of the nine emperors.

For example, the Fire Emperor, the Suzaku Alliance is his power.

There must be his confidants in the Suzaku Alliance.

He is going to do something this time If something happens, he will naturally ask his confidants to bring people to support.

Otherwise, the few emperors of the Holy Alliance alone cannot suppress the whole crowd.

In addition, the golden mask and another emperor will also arrange their own confidants. Support.

The power of the Holy Alliance is not just the 10,000 people.

This may be a war sweeping the world.

It may even decide who will rule the world in the future!

"The six of you go back and prepare first. Use these resources to train your subordinates....."

Qin Feng waved his hand and six storage rings flew towards the six kings.

The kings took a look and saw that there was a large amount of Emperor's Liquid inside the ring, as well as thousands of small essence essence pills.

All the kings were overjoyed and thanked him one after another.

After the kings left, the Turtle Emperor took out a jade talisman and handed it to Qin Feng respectfully.

"Sect Master, my subordinates have obtained the Heaven-Slaying Formation diagram you requested....."

Qin Feng took the jade talisman and saw that it was indeed the Heaven-Slaying Formation, and he was overjoyed.

This Heaven-Destroying Formation belongs to the Emperor Level Formation, it is a wonderful thing!

With it, Qin Feng can better utilize the Qinmen's combat power.

The only pity is that he now has to study the refining of top puppets and has no time to study formations.

The research on this Heaven-Destroying Formation will be postponed for some time.

"Well done! Go back, if you have any questions, please contact us in time!"

"Subordinates obey!"

After the Turtle Emperor left, Qin Feng also returned directly.

After returning to the Southern Alliance, Qin Feng continued to study the art of refining weapons.

Time passed quickly.

In the blink of an eye, three days passed, and there was only one left left to comprehend the heavenly monument. Five days.

In these three days, Qin Feng gained a lot.

He first spent two days to understand 100% of the weapon refining secrets.

His weapon refining level finally reached the emperor level.

And he finished reading the weapon refining secrets. After that, another surprising discovery was made.

It turned out that the last page of the qi training secret book contained another page of notes from Emperor Garuda.

That was the method for refining the Emperor-level Yuanwu - the Seven Birds Divine Fire Fan.

The Emperor-level Yuanwu Wu has never been heard of on earth, let alone appeared.

Neither does the Starry Sky Beast Clan.

In fact, emperor-level Yuanwu is extremely rare, and even the Nine-Star Great Emperor rarely has one.

Generally speaking, the Nine-Star Great Emperor uses The weapon is also an imperial weapon. Only emperors with less than 10% have the opportunity to obtain a great emperor Yuanwu.

And these people rely on the emperor Yuanwu, and their strength is the best in the emperor class.

If a nine-star emperor possesses the great emperor Yuanwu , the strength is almost doubled, and it is not difficult to kill the same level.

This discovery made Qin Feng extremely excited.

But then, he looked at the method of refining the Seven Birds Divine Fire Fan, and got a headache.

This Seven Birds Divine Fire Fan requires seven The natal divine feather of the bird emperor of the root wind or fire system.

Qin Feng killed Emperor Garuda before and got a blue feather, which is the natal divine feather of Emperor Garuda.

This natal divine feather is somewhat similar to the natal dragon ball of the dragon clan..

Most of the nine-star divine birds will refine their natal divine feathers, which contain their inherited memories and magical powers and can be passed on to the next generation.

In this way, Qin Feng has a ready-made divine feather in his hands.

He thought of the Gale Emperor again.

The Great Wind Emperor is also a bird, and he should also have his own divine feathers.

In addition, to refine the Seven Birds Divine Fire Fan, you also need an emperor-level material as the fan handle, which must also be of the wind or fire system.

This is It was even harder.

This matter was too far away, so Qin Feng could only put it aside for the time being.

In the next day, he continued to refine the fire demon terracotta warriors.

The weapon refining skills were upgraded to the emperor level, and the speed at which he refined the puppets doubled. times.

In less than a day, he refined the nine fire demon warriors in the tribulation period.

This made Qin Feng very happy.

Among the nearly a thousand fire demons, more than a hundred were eight-star Dzugchen. The rest are all eight stars.

Qin Feng plans to first refine all the eight-star earth fire demons into fire demon terracotta warriors who will transcend the tribulation period.

In this way, he will have more than a hundred subordinates who will transcend the tribulation period..

This is an extremely powerful force.

More than a hundred puppets who have transcended the tribulation period can fight against a nine-star emperor and even defeat him.

But on this day, Qin Feng was refining the puppet.

Outside the secret room, Luo Li sounded the sound of

"Sect Master, Luo Li wants to see you!"

"come in!"

Qin Feng made a casual move, and the stone door of the secret room rose automatically.

Luo Li walked into the secret room excitedly

"Door owner, they will collect all the materials you want for you, take a look!"

Luo Li handed over a storage ring.

Qin Feng checked it and found that it contained the seventeen kinds of weapon refining materials he needed.

Qin Feng was overjoyed:"Well done!"

He happily put away the storage ring.

He can try to refine the fire demon general figurine.

"Door Master, do you have any other tasks?"

Luo Li looked at the young man in front of her with fascination, her eyes full of tenderness.

As long as Qin Feng needs anything, she can satisfy him at any time.

"Your mission is to break through to the quasi-eight star as soon as possible... These pills should be helpful to you...."

Qin Feng casually rewarded ten eight-turn essence pills

"Thank you very much!", Luo Li took the elixir and left reluctantly.

After dismissing Luo Li, Qin Feng excitedly took out the earth fire soil and began to refine the fire demon general figurines..

Chapter 338

After sending Luo Li away, Qin Feng excitedly took out the earth fire soil and began to refine the fire demon general figurines.

The difficulty of making top-level clay puppets is more than ten times that of ordinary clay puppets.

It took Qin Feng a whole day to successfully make a top-notch clay puppet.

Then, he summoned the Earth Fire Demon King and merged into the puppet. The process went very smoothly.

In just one hour, a fire demon made the figurine.

The combat power of the Earth Fire Demon King skyrocketed from 10 billion to 14 billion.

Later, Qin Feng used the Eight-turn Jingyuan Pill to enhance the mental power of the Earth Fire Demon King.

Qin Feng used ten Eight-turn Jingyuan Pills to raise his mental power to the extreme of Eight-Star Great Perfection.

This is also the limit of the Earth Fire Demon King.

As soon as his spiritual power increases, the Earth Fire Demon King becomes more spiritual and can actually communicate in simple words.

Its combat power also increased to 15 billion, an increase of 1 billion.

With such strength, he is considered to be an upper-middle-class expert among the nine-star emperors.

Qin Feng was very satisfied.

Then, he began to make the second fire demon general figurine.

With one experience, the second production will go smoothly.

In the blink of an eye, another day passed.

There are only three days left before the Heaven Monument is enlightened.

On this day, inside the secret room.

Qin Feng looked excitedly at the fire demon general figurine in front of him.

At this time, the second fire demon general figurine was also successfully produced, with a combat power of 15 billion.

"Go down!", Qin Feng waved.

The fire demon handed over the warriors and accepted the order, escaped directly underground, and returned to the mantle magma layer.

The bodies of these warriors and generals can still move in the mantle magma layer.

The task of searching for the Xingxi Stone Mine is still there. Have to continue.

After handling these trivial matters, Qin Feng continued to make the fire demon terracotta warriors.

There are still three days left. If he speeds up, he should be able to make thirty or forty fire demon terracotta warriors in the tribulation period.

But here At this moment, light footsteps sounded outside the secret room.

Qin Feng put down the things in his hands, and Chu Chu's voice sounded outside the door.

"Brother, I have something to ask you for..."

"come in!"

The door of the secret room opened, and an extremely beautiful girl walked in.

Qin Feng's eyes lit up, and surprise flashed across his eyes.

They hadn't seen each other for a month, and Chu Chu had changed a lot. She was more than half a head taller than before, and her body was Her figure became slimmer and more convex.

Although she was only fourteen years old, she looked more like a sixteen-year-old girl.

It seemed that the little girl had entered a period of rapid development and was growing faster and faster.

However, what shocked Qin Feng was her cultivation. Improvement.

In just one month, the little girl has actually broken through to the quasi-eight stars.

Her cultivation progress is obviously faster than Xiao Lun Wang, Xiao Qingfeng and Luo Li.

This has a lot to do with her time ability.

At the same time, Qin Feng gave her the most and best resources among all the people.

In addition, Chu Chu has a sixth-level dragon god inheritance. Her potential is at the emperor level, and her talent is higher than all the emperors on the earth.

Her progress speed is naturally far higher. higher than others

"Little girl, what do you want from me?"

Qin Feng looked at his sister dotingly.

"Brother, I have reached the bottleneck in my cultivation. I was feeling bored, so I came to see you.", Chu Chu smiled and sat next to Qin Feng

"In addition, I have some good news to share with you....."

Chu Chu looked like she was offering a treasure.

Qin Feng was curious:"Oh? What's the good news?"

"whee!! Brother, look!"

Chu Chu thought.

A strange invisible force field emanated from her body.

For a moment, with her as the center, the flow of time in a radius of 100 meters accelerated twice.

"The time within 100 meters is doubled! Very strong ability!"

Qin Feng's eyes lit up.

This is a very powerful ability!

In the past, Chu Chu's time ability could only affect individuals and could not operate on multiple people at the same time.

But it is different now. She can operate on a large scale and affect an entire area. area.

Chu Chu said with some pride:"Brother, my ability is called time force field. As long as I have enough mental power to maintain it, I can always maintain the existence of the time force field....."

Upon hearing this, Qin Feng's eyes lit up.

Immediately, he said happily: "That's great! What I'm short of now is time! I want you to do a favor now...."

"Brother, just say it...."

Chu Chu was extremely happy.

In her eyes, her brother is everything to her.

She always wanted to help her brother deal with it, but was unable to do so because of lack of strength.

Now, she finally has a chance to help her brother

"You come with me....", Qin Feng didn't have any extra time to explain.

The two hurriedly left the secret room.

A few minutes later, the two arrived at the secret room of the dragon's nest.

As soon as she entered the house, Chu Chu was particularly excited to see the dragon egg.

At first glance, she felt that this dragon egg was so friendly, as if she were seeing family.

The dragon egg sensed her and actually sent out extremely intimate thoughts.

"Wow~! Brother, what is this? It feels so friendly~! "

Chu Chu ran over excitedly and touched around the dragon egg.

The dragon egg also sent out happy thoughts, and seemed to like Chu Chu's touch.

Qin Feng was stunned at first.

Soon, he figured it out.

Chu Chu also has the inheritance of the dragon god, and has the aura of the dragon clan in his body.

The dragon egg sensed the aura and regarded her as a relative.

"Brother, what kind of egg is this? I feel like the baby inside seems to like me very much!"

Chu Chu touched the dragon egg and felt very happy.

"This is a dragon egg...."

Qin Feng explained briefly

"Wow~! This guy is actually a dragon egg! Brother, if it hatches, should you call me aunt?"

"It should be..." Qin Feng smiled.

He was also very happy to see Chu Chu and Long Dan so close.

This feeling is very warm.

"Chu Chu, these are for you...."

Qin Feng waved his hand casually, and two hundred eight-turn essence pills flew towards Chu Chu.

"Brother, what kind of elixir is this? What a strong spirit!"

Chu Chu happily took the elixir.

"This is the Eight-turn Jingyuan Pill, which can greatly enhance mental power. If you refine them, you should be able to break through the eight-star realm....."

Qin Feng said with a smile.

He was right, Chu Chu had already condensed the eighth star pattern.

As long as she condenses the Seven Consciousness Divine Ring and fuses the Divine Ring with the Eight-Star Divine Seal, she can step into the Eight-Star Realm.

This time, Chu Chu was overjoyed.

Qin Feng said again:"Your time force field can continue to be activated as long as you have enough mental strength to support it.""

"These days, you are in retreat here, always turning on the time field. These elixirs should be able to provide you with enough mental strength...."

Chu Chu smiled and said:"Hehe!! These pills are enough.....Brother, is time speeding up or slowing down? Qin

Feng said with a smile:"Of course I'm speeding up. What I'm short of now is time!""

Chu Chu suddenly realized.

Only then did she know what Qin Feng wanted her to do.

Under the force field that accelerates time, everything will develop faster.

Two days have passed in the force field, and only one day has passed in the outside world.

Qin Feng did the math, There were only three days left before he could comprehend the Heavenly Monument.

He wanted to refine all the eight-star Dzogchen fire demons into fire demon terracotta warriors, which would take at least five or six days, which was obviously not enough time.

But if Chu Chu's time ability was used, then you can turn three days into six days.

This is simply a cheat!

In addition, letting the dragon egg accelerate in time can also speed up the hatching process.

This is how Qin Feng brought Chu Chu into the dragon nest. The reason.

At that moment, the brother and sister began to retreat.

Chu Chu opened the time force field.

The flow rate of time was twice that of the outside world.

Then, she swallowed the spiritual pill and worked hard to condense the seven-consciousness divine ring.

Qin Feng was refining it at the side. Fire Demon Terracotta Warriors..

Chapter 339

Time flies.

In the blink of an eye, a day passed in the outside world.

Two days passed in the time force field.

In the past two days, Chu Chu successfully condensed the Seven Senses Divine Ring with the help of a large number of Eight-turn Jingyuan Pills.

Her mental power has greatly increased, and her ability with the time field has been strengthened, and the flow of time can be accelerated three times.

This is equivalent to one day in the outside world and three days in the time force field.

This change surprised Qin Feng, and he had more time.

In the blink of an eye, another day passed in the outside world.

Three days have passed in the time force field, and Chu Chu has successfully broken through to the eighth star.

With this breakthrough, Chu Chu's combat power soared to 500 million, comparable to the peak of Eight-Star Great Perfection.

If coupled with her time ability, she can definitely overcome the enemy's calamity.

This little girl is indeed someone with the potential to be a great emperor.

In addition, Chu Chu's time force field was strengthened again, and the time flow rate reached five times.

This day turned into five days.

However, Chu Chu also completely reached a bottleneck.

Her mental power is stronger than the same level and has reached the peak of eight stars.

The Eight-turn Jingyuan Pill has no effect on improving the mental power above the Eight-Star Peak.

And the Emperor Liuqing had no effect on improving Chu Chu's cultivation.

Now she can only rely on her own cultivation and slowly get through it.

Of course, even if Chu Chu continued to practice, she still made no progress. She still turned on the time force field and accompanied her brother in retreat.

In the blink of an eye, another five days passed in the time force field.

In the outside world, the Sky Monument Enlightenment is finally about to begin.

The Azure Dragon League had already sent invitation letters to all major alliances a day ago.

At this moment, inside the secret room of Dragon's Nest.

Chu Chu has put away the time force field

"Brother, tomorrow is the time to comprehend the Heaven Monument. I don't know how many opportunities I will get..."

Chu Chu looked forward to it.

Qin Feng smiled:"Don't think so much, go back quickly and keep your spirits up. It starts tomorrow...."

"Hmm~! Brother, you should also have a good rest..."

"I have my own arrangements! You go back!"

"OK!"

Chu Chu agreed obediently and left.

She was indeed a little tired.

Although only three days had passed in the outside world, eleven days had passed in the time force field.

During these eleven days, she urged her day and night. It was indeed a bit too much to activate the time force field.

She also wanted to take a good rest to restore herself to her peak state.

After Chu Chu left, Qin Feng looked at Longchi.

In the past eleven days, the little guy's hatching progress has been improved to 92%, the hatching is getting closer and closer.

According to this progress, the little guy will be able to hatch within ten days.

And the little guy's energy level has also reached the peak of the Eight-Star Great Perfection, and if he takes a step further, he will be able to hatch. Overcoming the Tribulation Realm.

This made Qin Feng very satisfied and looking forward to it.

He made a move, and there was a wave of space behind him, and seventeen fire demon terracotta warriors appeared.

Qin Feng turned back:"From now on, you will protect the dragon nest. , no one is allowed to fail even half a step!"

The eyes of the fire demon terracotta warriors glowed red, and they bowed their heads to accept the order. Only then did Qin Feng leave with satisfaction.

These are all the fire demon terracotta warriors at the pinnacle level of the Eight-Star Great Perfection.

Seventeen of them joined forces together, and the masters in the tribulation stage also There is no way to get close to the dragon's nest.

Tomorrow morning, Qin Feng will go to the Qinglong League with Yue'er and others.

This dragon's nest naturally needs people to guard it.

In fact, Qin Feng has gained a lot in these days.

Those more than one hundred and eight All the Star Dzogchen Fire Demons were refined by him into the Fire Demon Soldiers in the Tribulation Period.

In addition, he refined a dozen Eight-Star Dzogchen Level Fire Demon Soldiers.

Until the Earth Fire Breathing Soil on his body After all was used up, he had to stop.

Now, there are still more than 800 earth fire demons that have not been refined into warriors. He still needs a large amount of earth fire breath soil.

This can only wait until his next breakthrough in cultivation before entering. In the center of the earth, he went to collect earth fire breath soil.

Qin Feng completed these things in only seven days.

In the remaining four days, Qin Feng took out the emperor-level formation secret book to study.

His formation level was already King level, it is easy to continue researching.

In just four days, his formation level has been raised to the emperor level.

Now, he is a master who has reached the emperor level in both formation and weapon refining.

This will be of great benefit to him in the future. Help.

After leaving the dragon's nest, Qin Feng came to the small courtyard.

The afterglow of the setting sun dyed the whole courtyard golden.

It was autumn now, giving people a sense of coolness in the high autumn air.

Qin Feng enjoyed the beautiful sunset in a comfortable mood.

At this time , a message came from his communication jade talisman.

After reading the message, he smiled slightly and disappeared into the small courtyard.

The next second, his figure appeared over the vast sea.

Not far away, there was an unknown island.

This was exactly It was the entrance to the Dragon Ruins Secret Realm.

As soon as he appeared, he saw a graceful figure flying over.

Seeing that pure and beautiful face, he smiled

"Master, I have been waiting for you for a long time. If I don't hurry, you don't know when you will come over?"

Yu Qilin raised her little mouth slightly, and her tone was a little coquettish. With her extremely pure face, she looked extremely cute. It turned out that it was Qin Feng who asked her to come here secretly so that Qin Feng could use the reverse space summoning. Okay. Save time.

After all, what Qin Feng lacks most now is time

"Haven't the God Emperor and Hades Emperor come back yet?", Qin Feng asked with a smile.

"Not yet! They were waiting for Emperor Ye to come out of seclusion, and then accompany him to Earth. It will take some time for Ye Tianzi to leave seclusion, so they will not return to Earth in the near future....."

The jade unicorn moved to Qin Feng's side, bringing a fragrant breeze

"Who is Ye Tianzi?", Qin Feng was curious.

Somehow, he felt that this person seemed to have an influence on him.

"He is the only son of the Lord of Hun. The Lord of Hun asked the God Emperor to seal the secret realm of Dragon Ruins. It should be for him....."

Yu Qilin explained.

Qin Feng frowned.

It's not a good thing that this matter involves that Emperor Ye.

This shows that Longxu is being targeted by the Faint Master.

However, these things were still too far away and he didn't bother to think about them.

Now, he should also let the Dragon Ruins secret realm disappear on the earth and cut off some people's thoughts.

In addition, there are six star stones in this sealing formation.

He wanted to take away these Xingxi stones and break through the realm.

Tomorrow is the day of enlightenment on the Heavenly Monument.

It would be even better if he could break through to the tribulation stage today.

"Your coming out this time did not arouse the suspicion of the organization, right?"Qin Feng asked with concern.

Yu Qilin smiled sweetly:"That's not true! My status in the organization is not low now. The God Emperor and the Underworld Emperor are not here, and there are not many people who can restrain me..."

Qin Feng smiled:"That's good!"

Yu Qilin's current cultivation level is quasi-eight-star, and the six-consciousness divine ring has also been condensed. He is just one step away from eight-star.

This progress is faster than Xiao Lun Wang and Xiao Qingfeng.

And with such strength, in any organization, They are all mainstays.

At the moment, Qin Feng said no more.

He directly summoned the inheritance token, with hundreds of little red dots lighting up on it.

Each little red dot represented a secret realm of Dragon Ruins.

Then, Qin The wind pinched several runes and printed them into the token.

The inheritance token was activated, and the spiritual light shined.

For a moment, there was a rumble and roar deep in the sea.

At the same time, the wind and clouds on the sea changed color, and the waves were violent.....

The next second, there was a cracking sound on the bottom of the sea, as if something was collapsing on itself,.....

A quarter of an hour later, a bright spot on the inheritance token went out.

The aura of the entrance to the Dragon Ruins Secret Realm on the earth also disappeared.

The seal array on the sea floor suddenly collapsed, and six Xingxi stones automatically emerged from the sea, emitting a dazzling spiritual light.

Qin Feng was delighted, and with a wave of his hand, he got all six Xingxi stones.

At this moment, the token in his hand seemed to have a chain reaction.

Those red bright spots disappeared one after another...

At the same time, the hidden Dragon Ruins secret realms in every corner of the Star Alliance also mysteriously disappeared one after another.

Some secret realms are currently active, and there are still people inside who are participating in the assessment.

But the next second, the secret realm suddenly disappeared, leaving only a group of confused assessors, messy in the wind and rain.....

In this way, a change that shocked the entire Star Territory Alliance quietly occurred...

The news about the complete disappearance of the Dragon Ruins Secret Realm began to spread in all corners of the Star Territory from this moment on...

It won't be long before this news will shock The entire Star Alliance.

The disappearance of the Dragon Ruins Secret Realm means that after thousands of years, someone has finally obtained the inheritance of the Supreme Dragon God.....

This will drive a lot of people crazy.

By then, there will definitely be people looking for this inheritor everywhere.....

Of course, it will take a long time for all this to come, and Qin Feng will have grown up by then.

After all, the Star Alliance is so big that it will take a lot of time for the news to spread to every corner.

"alright! All here!"

Qin Feng looked at the Xingxi Stone in his hand with satisfaction.

"Door Master, now that we have the things, let's go find a quiet place...."

Yu Qilin said with a smile

"Um... why are you looking for a quiet place?"Qin Feng was puzzled.

Yu Qilin blushed slightly and said:"Master, have you forgotten? My responsibilities are twofold. One is an insider of the organization, and the other is to sleep with you... I haven't slept with you for a long time..."

At this point, she raised her chest slightly.

Under the sunset, her extremely beautiful figure was uneven and graceful.

"It's not a good place to stay for a long time! You also sneaked out, so you better go back quickly...."

Qin Feng patted her angrily....

"oh~! ", Yu Qilin is still a little reluctant to leave.

She loved Qin Feng so much that after finally seeing her once, she actually.....

"Let's go back! When I'm done with the Sky Monument, I'll go find you and make you well fed....."

Qin Feng pinched her little face and showed a wicked smile at the corner of his mouth.

Jade Qilin was delighted.

She just likes to see Qin Feng looking bad.

At that moment, she left happily.

Qin Feng also made a reverse summons and returned directly to the dragon's nest.

In the secret room of the dragon's nest, Qin Feng excitedly took out six Xingxi stones.

His current Dao core completion degree is 99.61%.....

Whether he can break through to the tribulation stage depends on them.

The next second, he swallowed it all..

Chapter 340

"Ding! Successfully swallowed the Star Stone.....Tao core completion degree increased to 99.91%....."

"Well.....", Qin Feng felt a little sorry.

He swallowed six Xingxi stones, and he was still just a little short of it.

It is too difficult to break through the Tribulation Realm.

It seems that the opportunity has not come yet.

Perhaps his opportunity for breakthrough lies in his understanding of the Heavenly Monument.

Thinking of this, Qin Feng stepped out of the secret room with one step.

A few minutes later, he arrived at the Feng Emperor's palace and entered the Feng Emperor's boudoir unimpeded.

Emperor Feng was wearing a white dress, as beautiful as a fairy, and walked out of the back room.

She had long sensed Qin Feng's arrival

"I saw you retreating, so I didn't bother you. Tomorrow is the day for meditating on the Heavenly Monument. How are you preparing?"

Feng Di walked to the coffee table and made tea for Qin Feng with his own hands.

She knew that Qin Feng had the habit of drinking tea.

"Pretty well prepared.....", Qin Feng casually walked to the sofa and sat down, "Has the light source bead been refined?"

"Hmm~" Feng Di made a cup of tea and brought it over.

She looked like a good wife.

Qin Feng took the tea cup and felt warm in his heart.

You know, Feng Di always thought that he had eight-star strength, and he didn't know his true strength.

Generally speaking, the Eight Stars are like ants in front of the Nine Stars Emperor, and their status is very different.

It is simply impossible for the Nine Stars Emperor to make tea for the Eight Stars Elementalist!

Qin Feng should be the third An eight-star elemental master who enjoyed the tea made by the Nine-Star Emperor himself.

This also shows that Emperor Feng really regards him as his own man from the bottom of his heart.

"This tea is so fragrant....", Qin Feng took a sip happily

"Does it smell good? I didn't feel it when I drank it..." Feng Di was confused.

"This is what I soaked in Yue'er, it's naturally fragrant.....", Qin Feng took another pleasant sip.

Emperor Feng smiled a little shyly

"Qin Feng, look at my changes now....."

As soon as Emperor Feng thought, his body emitted wave elements of light and fire.

Qin Feng was delighted.

Yue'er actually refined the Light Source Pearl (perfect level) and obtained the power of the light element.

After the power of the two elements was superimposed, her combat power reached 26 billion in one fell swoop, far exceeding the limit of the nine-star peak.

"Very good! Yue'er, this time, you should have surpassed the Nightless Star Emperor and become the most powerful person in this star field, right?"

Qin Feng is really happy.

His Yue'er has become stronger. This time he goes to war with the Holy Alliance and the Midnight Star Emperor, and he is even more sure of winning.

"It's hard to say, but the Nightless Star Emperor has the potential to be a great emperor. Decades have passed, and it is impossible for him to not make any progress..."

Emperor Feng was very humble.

What she said was true.

Qin Feng smiled:"My Yue'er also has the potential of a great emperor, and you will surpass him sooner or later...."

Just after saying this, somewhere in the alliance headquarters, the energy of heaven and earth suddenly erupted into a sudden burst of movement.

Qin Feng and Feng Di sensed it at the same time.

The two people's consciousness scanned at the same time.

After a while, the two regained their consciousness.

Qin Feng's mouth showed a smile.

It turns out that the commotion just now was caused by Luo Li's breakthrough to the quasi-eight star....

"Qin Feng, your spiritual consciousness is so strong!"

Qin Feng turned around and saw Emperor Feng looking at her with surprise.

Just now, she was pleasantly surprised to find that Qin Feng's spiritual consciousness was not inferior to her own.

You know, her soul power was at the peak of nine stars.

Unexpectedly, Qin Feng's soul power has reached this level.

But isn't Qin Feng's cultivation level only eight-star perfection?

Qin Feng smiled and did not continue to discuss the matter of divine consciousness.

"Yue'er, I'm going to the Qinglong League tomorrow. I want to take Chu Chu with me.....", Qin Feng put down the tea cup in his hand

"no problem. However, even if Chu Chu goes to the Qinglong League, if she wants to enter the Qinglong Holy Land and understand the Heavenly Monument, she can only rely on her own strength, and no one else can help..."

Qin Feng smiled slightly: "Chu Chu now has eight stars. With strength, she has the ability to enter the Holy Land..."

Emperor Feng was surprised: "So fast!"

This pair of siblings is really surprising.

"Yue'er, let me tell you something. This time, the Heavenly Monument is not as simple as before. You have to be careful of the Immortal Fire Emperor... In addition, the Nightless Star Emperor will also come to cause trouble....."

Emperor Feng was puzzled: "Why?"

Qin Feng took a sip of tea and whispered: "I recently detected some intelligence. There is an organization called the Holy Alliance, which is preparing to destroy the Monument of Creation."

At the moment, Qin Feng briefly told the story of the Holy Alliance.

Emperor Feng was shocked

"Qin Feng, where did you get the news?"

"I can't tell you these things right now, and I'll tell you when the time comes. In short, when you go to visit the Heavenly Monument this time, please be more careful...."

"In addition, when we leave tomorrow, the most powerful person in the Southern Alliance headquarters is Luo Li....."

Emperor Feng nodded slightly, that was indeed the case.

Tomorrow everyone with eight stars and above will go to the Azure Dragon League.

As a quasi-eight-star, Luo Li is naturally the strongest.

Qin Feng continued:"What I mean is that after we leave, let Luo Li mobilize the troops of the Southern Alliance and secretly go to the border of the Qinglong Alliance....."

Emperor Feng nodded:"I will arrange this later and let all members of the Southern Alliance headquarters temporarily listen to Luo Li's command from tomorrow....."

Finally everything was arranged.

Qin Feng put down his tea cup and stood up with a smile.

"Are you leaving again?", Feng Di's beautiful eyes are faint.

"how could be?"Qin Feng stretched and said,"I'll spend the night here tonight....."

Emperor Feng's pretty face turned red

"Where is the bathroom? I'm going to take a bath and relax first....."

"Over there...I'll get some water for you.....", Emperor Feng took the initiative to help.

Time flies.

A night of silence.

Early the next morning, Qin Feng walked out of Fengdi's boudoir with a healthy mind and body.

Last night, he enjoyed the Phoenix Emperor all night long.

At this moment, his whole body was refreshed and he was in an extremely comfortable mood.

His moon is still fresh and delicious.

When he arrived at the small courtyard, Qin Feng discovered that Emperor Feng had been waiting for him in the courtyard for a long time. At this moment, Emperor Feng was wearing a long red dress and a veil. His temperament was sharp and he had returned to his previous aloofness.

Only at the moment when he saw Qin Feng, tenderness appeared in his eyes.

Qin Feng was amazed.

The Nine-Star Emperor has an extraordinary physique.

Last night, Yue'er still looked like she was about to die, and even cried and begged for mercy.

Why did I look so lively again this morning?

"Let's go! They have been waiting for a long time.....", Emperor Feng looked at him tenderly.

Then, the two left.

When the two arrived at Union Square.

King of Heaven, King of Sea, King of Land, and Chu Chu were already waiting, with a saucer-shaped aircraft parked next to them.

Afterwards, a group of six people boarded the aircraft and flew directly to the Qinglong League..
