Chapter 361

"Mr. Star King, it was Qin Feng who came to kill him!", the emperors were horrified. The

Nightless Star Emperor was also stunned.

How did Qin Feng break through the protective formation?

He should not have emperor-level strength!

The next second, he saw the puppet army and was shocked again.

That puppet The battle formation layout of the army is the Heaven-Slaying Formation!

Damn it!

This Qin Feng is also proficient in formations!

The Nightless Star Emperor was shocked.

But he didn't have time to think about it.

"The Black Water Emperor, the Wanshan Emperor, the Immortal Wood Emperor... you go to the Bu Zhutian Formation to fight!"

"yes!"

The three emperors took the order and left.

In fact, the Nightless Star Emperor was a little depressed.

They originally had two Heaven-Slaying Formations.

But Qin Feng's surprise attack was too fast. Before the Fire Emperor and three people could set up their Heaven-Slaying Formations, they defeated

"Gale Emperor, follow my leader to fight, and buy time for Blackwater Emperor and others to set up their formation....."

Wuye Xinghuang ordered anxiously, but there was no movement behind him.

He quickly turned around and saw that the Gale Emperor was already flying towards the back of the temple.

"Emperor Gale, what are you doing?" Wuye Star Emperor was angry.

This guy didn't obey the order.

But at this moment, the Ice Emperor's shrill screams came from the front.

Wuye Star Emperor was startled and quickly followed the sound, and saw Qin Feng bringing the Ice Emperor to him. Killed.

At this moment, Qin Feng looked over with a sneer.

The two sides were only dozens of miles away.

The Night Star Emperor was horrified.

Without the help of the Gale Emperor, he would not dare to fight Qin Feng.

By the way! The Gale Emperor must be... this cunning guy! The

Nightless Star Emperor suddenly thought of something, turned around and chased in the direction of the Gale Emperor...

In the distance, Qin Feng saw this scene and hurriedly chased after him.....

The Nightless Star Emperor wants to escape?

Qin Feng sneered.

He teleported twice in a row and caught up to the back of the temple.

When he reached the rear, he saw a large formation in the distance.

Emperor Gale was already standing in the center of the formation and activated the formation.

The entire formation shines brightly and roars continuously

"Huh! This seems to be a planetary teleportation array!", Qin Feng was surprised.

The teleportation array he arranged on the earth is an ordinary teleportation array, and the teleportation distance is within a million miles.

This planetary teleportation array is a higher level and can teleport between planets in the solar system.....

When the Gale Emperor saw that the situation was not good, he actually wanted to escape in a planetary teleportation array.....

"Wait for me!" Wuye Star Emperor shouted anxiously when he saw this.

He just wanted to escape now and prepare to make a comeback in the future. After all, the situation was not right.

But the next second, a white light flashed and the Gale Emperor disappeared.

"Damn thing!" Wuye Star Emperor was angry.

He speeded up, dodged a few times, and entered the teleportation array.

The next second, he took out a jade talisman and activated the formation.

Buzz~!

The teleportation array lit up again!

But get off In one second, the teleportation array let out a low groan, the light quickly dimmed, and the formation stopped operating.

The Nightless Star Emperor was stunned.

Immediately, he jumped with anger: "Great Wind Emperor! I'll fuck your mother! I'm going to kill you!"

It turns out that this teleportation array leads to Mars.

There is a branch of the Star Orcs, responsible for mining the mineral resources for cultivation on Mars.

There must be two teleportation arrays connecting between planets.

Gale After the emperor fled to Mars, he was worried that Qin Feng would chase him, so he directly destroyed the teleportation array on Mars.

In this way, the teleportation array was ineffective.

Naturally, the Nightless Star Emperor was furious.

He only discovered today that the Gale Emperor Such a person

"Nightless Star Emperor, suffer death!"

At this time, Qin Feng came to kill

"Qin Feng, you can't kill me! Do you know the background of my Xingkong clan? Do you know who my father is?.....! "

"idiot!"

Qin Feng didn't pay attention at all. Ten thousand swords fired together, instantly killing the Nightless Star Emperor to pieces.

The shrill screams echoed in the starry sky.

Not far away, the Eternal Wood Emperor, the Black Water Emperor, and Wan Shan Huang Zheng presided over the Heaven-Slaying Formation, and the Headless Golden Man and the two Fire Demon Generals hosted the Heaven-Slaying Formation, fighting against each other. The formations were against each other!

But on the side of the puppet army, with the help of the Phoenix Emperor and the Turtle Emperor, they occupied an absolute Advantage.

But at this moment, the screams of the Nightless Star Emperor rang out.

The whole audience was shocked and turned their heads to look.

At this glance, they saw Qin Feng killing the Nightless Star Emperor.

Emperor Feng and others were delighted Inexplicable.

The Starry Sky Beast Clan was so frightened that the Nightless Star Emperor was instantly killed by Qin Feng!

You know, the Nightless Star Emperor is almost invincible in their hearts!

Could it be that that young man is the Great Emperor!

At this moment, all the Starry Sky Beast Clan instantly Their faith collapsed and they no longer had the will to fight...

Feng Di and others took the opportunity to break through the opponent's formation, screams rang out, and a massacre began.

The Immortal Wood Emperor, the Black Water Emperor, and the Wanshan Emperor were desperate and immediately divided into three directions. Escape towards the stars.....

"Immortal Wood Emperor! Where are you going?!"

Feng Di sneered, chased after him, and intercepted him.

Enemies were extremely jealous when they met each other.

But now Feng Di is no longer what he used to be, and his strength is more than one level stronger than the Immortal Wood Emperor. There are several When they met, she gained the absolute upper hand and killed the Immortal Wood Emperor until he screamed in agony.

On the other side, the Turtle Emperor also intercepted the Wanshan Emperor.

The headless golden man led the puppet army and slaughtered the starry sky beast clan crazily...

The Black Water Emperor had no one to chase him for the time being, so he took the opportunity to escape...

Qin Feng sneered when he saw this scene.

He quickly put away the origin and storage ring of the Nightless Star Emperor, then spread his wings and chased after him.....

After a while, the Black Water Emperor and the Wanshan Emperor were both killed by Qin Feng.

Their origins and storage rings also fell into Qin Feng's hands.

Afterwards, Qin Feng killed the starry sky beast clan again.....

After a quarter of an hour, the battle finally ended.

The air is filled with blood mist...

Within thousands of miles, there are corpses of the starry sky beast clan.

The scene is very shocking!

In this battle, the Starry Sky Beast Tribe was almost completely slaughtered, with only the Gale Emperor escaping.

As for Qin Feng's side, except for the damage to dozens of fire demon terracotta warriors, there was no loss.

He can just go back and repair those damaged terracotta warriors.

"Your Majesty, we have achieved a great victory this time!"

The Turtle King was extremely excited.

The starry sky beast clan that had been threatening the earth was just wiped out.

He couldn't believe it.

Qin Feng smiled slightly and turned to look at the Immortal Wood Emperor.

At this moment, the Immortal Wood Emperor was seriously injured..

He slumped to the ground with anger, and he didn't even have the strength to stand up.

At this time, when he saw Qin Feng, he was so frightened that his heart trembled.

"Lord Qin Feng, please...please spare me!", the Immortal Wood Emperor begged with a trembling voice.

"Say it! Why do you, the starry sky beasts, invade the earth?", Qin Feng looked down at him

"For..for the Star Stone....", the Immortal Wood Emperor lowered his head.

He is extremely afraid of Qin Feng

"lie!", Qin Feng frowned.

The Immortal Wood Emperor's face changed slightly:"Master Qin Feng, I didn't lie, that's all I know. As for the deeper reasons, only the Nightless Star Emperor and the Gale Emperor know...."

His tone was sincere, not like he was lying.

The Nightless Star Emperor and the Gale Emperor are both at the top of the Nine Stars.

The other six emperors are all at the nine-star level.

The status of those two people is definitely higher.

Thinking of this, Qin Feng's eyes suddenly lit up with silver light...

The memory scan was activated!

The next second, he spied on the memory of the Immortal Wood Emperor, with a look of astonishment on his face..

Chapter 362

The Immortal Wood Emperor did not lie.

He didn't know the real purpose of the Star Orcs' invasion.

The reason for this is that he is not of a high level and does not have the right to know.

It can be seen that this secret is very important.

At present, it seems that only Emperor Gale knows about it.

In addition, Qin Feng also got two important pieces of information.

One is the restriction of the Creation Sky Monument.

As for why this is the case, the Immortal Wood Emperor does not know. This seems to be a rule known to the Star Alliance.

This also made Qin Feng even more curious about the origin of the Heavenly Monument of Creation.

Another important piece of information is that the Golden Crow Emperor of the Star Orcs will arrive within three months.

The Golden Crow Emperor is no ordinary emperor. He has mastered the true meaning of the sun and is considered the strongest among the great emperors.

This news made Qin Feng feel even more stressed.

Fortunately, he destroyed the Star Orcs' camp in advance and got this important news.

It seemed that he had to shorten the period of tribulation as soon as possible.

Otherwise, he is in danger.

The earth will also fall.

Because the Sky Monument has been broken, the Emperor can take action against the Earth.

It was a good thing for Qin Feng to get this news.

At least he understood the situation and could make some preparations in advance

"Lord Qin Feng, you...what did you just do to me?"

The Immortal Wood Emperor was very panicked.

He just had an inexplicable heart palpitations.

In addition, Qin Feng's eyes suddenly glowed with silver, and he had to think wildly.

"Yue'er, you handle it!", Qin Feng ignored the Immortal Wood Emperor.

Emperor Feng understood.

This was Qin Feng's chance to take revenge.

She walked towards the Immortal Wood Emperor expressionlessly.

"Feng...Feng Emperor, you...what are you going to do?"The Immortal Wood Emperor felt something was wrong.

Emperor Feng said coldly:"What am I going to do! Can't you guess?!"

Hearing this, Emperor Mu's expression changed drastically.

Without even thinking about it, he summoned up his last strength, turned around and fled towards the starry sky.....

"die!"

Feng Di sneered, and Hong Ling sacrificed.....

A red light shot into the sky!

Boom~!

The red damask reaches the body!

Flesh and blood flying!

Emperor Feng instantly killed the Immortal Wood Emperor with one strike.

In the sky, there remains a mass of nine-star origin, a storage ring plant, and a black seed.

Speaking of which, this Immortal Wood Emperor is quite special among the emperors.

His body is a starry sky spiritual plant, and it is extremely difficult to cultivate to nine stars.

After the death of a wood-type monster, there will occasionally be seeds or something left behind.

As soon as Emperor Feng waved his hand, he sucked the three things in the air into his hand and handed them to Qin Feng.

Qin Feng looked at the Nine Star Origin in his hand with satisfaction, feeling secretly happy.

This time the harvest was good!

He got a total of seven groups of nine-star origins, storage rings of seven emperors, an emperor-level blood knife, and an emperor-level spiritual plant seed.

"Your Majesty, the hidden danger of the Star Orcs has been eliminated. What should we do next?"

The Turtle Emperor asked respectfully.

After today's events, he respected Qin Feng even more.

The credit for today's battle is basically attributed to Qin Feng.

Qin Feng shook his head slightly: "The hidden dangers have not been completely eliminated! Not to mention far away, let's talk about close. The Gale Emperor escaped to Mars through the teleportation array. There is also a small settlement of the Starry Sky Beast Clan there, with about several thousand monster clans. The

Turtle King smiled: "There is nothing to fear from a Gale King. I don't think he will dare to come near the earth again."

Qin Feng sneered: "No matter whether he dares to approach or not, I will destroy him! Whether it is the moon or Mars, they belong to our earth's resources. How can we allow these foreigners to occupy them!" The

Turtle Emperor said excitedly: "Your Majesty said That's right!"

Qin Feng said again: "You two can deal with these star beast corpses! These are a lot of resources, and they will be of great use in the future."

Feng Emperor and Turtle Emperor nodded, with excitement in their eyes.

These star beast corpses are indeed a great resource.

Qin Feng then ordered:"In addition, I want to establish a station here and build several teleportation arrays to connect the moon and the earth. Please make arrangements for the establishment of this station....."

Emperor Feng was pleasantly surprised:"Your Majesty, do you want to include the moon into our territory?"

Qin Feng smiled slightly:"Of course! I want to expand externally step by step! Not only the moon, but also Mars, Venus, Mars...Even the entire solar system should be under the control of our Qin Sect!"

These words made Phoenix Emperor and Turtle Emperor excited.

"Your Majesty, let's do it right now!"

The two responded positively.

Qin Feng suddenly asked:"By the way, how long does it take to fly from the earth to Mars at the speed of nine stars? Emperor Feng thought for a while and said:"It will probably take more than a month..."

Qin Feng nodded slightly, understanding in his heart.

If the Nine-Star Emperor needs more than a month, he may not need it for ten days, or even less.

However, he He planned to digest today's harvest before dealing with the Gale Emperor.

At the moment, Qin Feng left Feng Emperor and the two to clean up the battlefield and returned to the earth alone.

Today's harvest was so rich that he couldn't wait to go back and digest it..

Chapter 363

Return to Earth, Nandu City Headquarters.

In the secret room, Qin Feng excitedly took out the harvest and took inventory.

There are seven groups of nine-star origins. One is the dark origin at the peak of the nine-stars, which comes from the Nightless Star Emperor.

There are six nine-star origins, one for water, one for ice, one for wood, one for earth, one for metal, and one for fire.

Qin Feng left the water, ice, and wood elements behind, and these three were used to refine the Enlightenment Pill.

Not only does he lack the true meaning of water, he also lacks the true meaning of wood, so he keeps the wood element as a backup.

He opened his mouth and sucked in the remaining three balls of essence, swallowing them all.....

"Ding! Successfully swallowed the origin of the nine-star gold system... The ninth star pattern was realized 68%....Combat power increased by 1.1 billion....."

"Ding! Successfully swallowed the origin of the nine-star earth element... The ninth star pattern was realized 75%....Combat power increased by 1.15 billion....."

"Ding! Successfully swallowed the origin of the nine-star fire system... The ninth star pattern was realized 83%....Combat power increased by 1.3 billion....."

Qin Feng swallowed up the origin of Wuye Star Emperor again.....

"Ding! Devouring the Dark Origin of Nine Star Peak Successfully.....The ninth star pattern materializes 92%....Combat power increased by 2.45 billion....."

Qin Feng was delighted.

The ninth star pattern has been realized to 92%, the tribulation period has been shortened to two months, and the combat power has been increased to 79 billion.

He should be able to complete the tribulation before the Golden Crow Emperor arrives.

"However, there may be changes here...."

Qin Feng murmured in his heart.

That Gale Emperor is too cunning.

After he escapes to Mars, he will definitely contact the Golden Crow Emperor.

The Golden Crow Emperor will probably arrive early.

However, even if it were advanced, it would not be anywhere near.

Arriving within three months means that the Golden Crow Emperor is coming at full speed.

After all, the headquarters of the Star Orcs is too far away from the earth. No matter how fast we go, it will take time to travel.

Thinking of this, Qin Feng breathed a sigh of relief.

Of course, the realization of the ninth star pattern needs to be accelerated, and the sooner the tribulation is completed, the better.

At this moment, Qin Feng began to investigate the storage rings of the beast kings.

After this investigation, he made another surprising discovery.

These beast kings are indeed richer than the emperors on earth!

Everyone has a Star Stone in their storage ring.

There are actually seven or eight yuan in the Wuyexing Emperor's ring, and everyone else has two or three yuan.

In total, it's about twenty yuan.

In addition, he also found a dark-type imperial weapon and a fire-type imperial weapon.

The fire emperor can be used by Yue'er.

In addition, he made a surprising discovery.

He actually found a nine-star fire element feather from one of the storage rings.

He wants to refine the emperor-level Yuanwu - the Seven Birds Divine Fire Fan, which requires seven nine-star natal feathers of the wind or fire system.

Now I have collected the second one.

Qin Feng put away the spirit feather with satisfaction and continued to look at the storage ring for a while.

There are also many treasures left, such as elixir formulas.

Among them is a formula for a small soul pill, which can strengthen the soul body, but the materials are difficult to find.

There are also some array diagrams, including those of planet-level teleportation arrays.

This discovery made Qin Feng very happy.

He is worried about how to connect the moon and the earth.

From the moon to the earth, ordinary teleportation arrays cannot connect.

This planetary teleportation array just helped him solve the problem.

Next, Qin Feng took stock again and put away the storage rings with satisfaction.

There is no rush to establish the planetary teleportation array.

He has some matters of his own to deal with now.

At that moment, he opened his mouth and swallowed all thirty Xingxi stones.....

"Ding! Successfully swallowed the star tidal stone... The ninth star pattern was realized 99.7%....Combat power increased by 2 billion....."

"The realization is 99.7%, and in almost twenty days, the tribulation will be over! Ha ha!"

Qin Feng laughed heartily.

As long as he can complete the tribulation, the Golden Crow Emperor will have nothing to fear, and he can start joining the Star Alliance.

Not only that, his combat power has also been increased to 81 billion.

The harvest this time is very great. big

"It's time to refine the Pill of Enlightenment..."

Qin Fengxing hurriedly left the secret room.

He was going to prepare some alchemy materials.

He was very much looking forward to the True Meaning of Endlessness.

If he could master the two supreme True Meanings, he would be more confident in dealing with the Golden Crow. The Great Emperor.

The true meaning of Fuxi is the fusion of the true meaning of the five elements.

Now he lacks the true meaning of water and the true meaning of wood.....

At the same time, in the Endless Star Territory, near Sirius, a temple larger than the earth hung.

At this moment, inside the temple.

The Lord of Darkness sits on a divine throne hundreds of millions of feet high, suspended in the air.

His body is extremely majestic, shaped like a giant holding the sky, and his momentum is overwhelming.

On both sides of him, there are seven million-foot-high divine thrones.

There is a great emperor sitting on each throne.

In the center of the hall, above the ground, stood two Nine-Star Emperors, the God Emperor and the Pluto Emperor.

At this moment, the two of them looked very small, like ants, standing there tremblingly.

Being looked around by all the great emperors, the God Emperor and the Hades Emperor were very uneasy and did not even dare to breathe.

Any great emperor here can kill them with one finger.

"Among the seven, who is willing to accompany Yanguang to conquer the Earth Star Territory?"

The Dark Lord spoke slowly.

Yanguang is the real name of the God Emperor.

The emperors hesitated, and each showed a reluctant expression.

The Dark Lord silently closed his eyes.

He had expected it. This will happen.

The Star Alliance's fifth-level star domain ranking assessment is about to begin.

These guys have been working hard on this recently, and each of them wants to get a good ranking for their star domain in the assessment.

In that case, they can get huge benefits from the alliance.

Who would be willing to waste their training time for a primitive star field like the earth?

If it were normal times, they would still consider it, but the ranking assessment is about to start.

The so-called fifth-level star field, as long as there is a great emperor in the star field, you can apply to the alliance to be promoted to the fifth-level star field.

There is no great emperor on the earth, it belongs to the original star field without levels, and is the lowest level in the star field alliance.

But as long as If you successfully apply for the Earth Star Domain, you will be eligible to participate in this five-level star domain ranking assessment.

"Your lord,Guang just mentioned that the earth's creation sky monument is still there, and it is still under the protection of heaven's rules. We can't take action against the earth even if we go there!"

A great emperor said respectfully.

All the great emperors nodded.

They found a reason not to go.

The earth's creation sky monument was destroyed, and everyone didn't know the news.

Even the faint master didn't know.

He slowly opened his eyes:"If you don't want to go, that's fine! However, each major star field needs to send three nine-star emperors for Yanguang to dispatch! Let Yanguang lead them to conquer the earth...."

"no problem!"

The great emperors happily agreed, but only a skinny old man did not express his position.

The Faint Master looked at him:"Heaven Puppet, what do you think? The skinny old man smiled:"

Back to the master, my subordinate emperors are busy with some things, and I'm afraid they won't be able to find the manpower." However, my subordinate has a puppet, I wonder if it can be replaced?"

"oh? Put it out and take a look!"

"yes!", the skinny old man waved his hand.

A puppet with a height of ten thousand feet appeared out of thin air, and the monstrous force covered thousands of miles, from ten thousand feet in the sky.

Both the God Emperor and the Hades Emperor looked shocked.

The combat power of this puppet reached 50 billion.

Five A puppet with tens of billions of combat power is worth three emperors, or even more

"What a powerful puppet!"

The emperors were greatly surprised, their eyes shone brightly, and they all looked at the puppet.

They saw that the puppet had a golden head, and the seal character 'Twelve' was engraved on the forehead.

Under the head was a bronze body. It's a little different from the head, as if it's been forcibly grafted on

"Huh....."

The comatose master opened his eyes and looked at the puppet curiously.

After a moment, he looked at the skinny old man: "Tian Puppet, your puppet's head seems to be a part of the legendary Twelve Golden Men, right?"

The old man smiled: "Master Dominator has a sharp eye! This puppet's head is indeed a part of the Twelve Golden Men." The parts of the golden man were discovered by a subordinate in a secret place. Unfortunately, only the head was found and no other parts were found. The subordinate made a body for it....."

"good!", the Faint Master nodded with satisfaction.

This old man is known as the Heavenly Puppet Emperor, and his ability to refine puppets is not even as good as the Faint Master.

"This time, you are allowed to use puppets to replace the three emperors!

The Heavenly Puppet Emperor was overjoyed:"Thank you Lord Lord for your understanding!"

Then, he waved his hand, and the golden-headed and bronze-bodied puppet automatically shrank to the size of an adult and flew to the side of the God Emperor.

"Yanguang, this is the token to control the puppet! After refining, you can control it!"

The Heavenly Puppet Emperor casually took out a black token.

The God Emperor caught it with excitement on his face:"Thank you, Emperor!"

Then, he carefully put away the token.

With this powerful puppet, plus the manpower sent to him by the great emperors, plus him and the Hades Emperor, there are a total of twenty emperors! With such power, conquering the earth is like this The primitive star field is not yet within reach.

As for the nine emperors and the starry sky beast clan, they will all be destroyed.

Thinking of this, the God Emperor is full of ambition, with hidden joy in his eyes..

Chapter 364

At the same time, on earth, inside the secret room of the dragon's lair.

Qin Feng was bathed in Chu Chu's time force field.

Qin Feng had previously given Chu Chu a large amount of Nine Transformation Essence Pills.

Chu Chu's mental power finally broke through to the nine-star level, and his cultivation level also broke through to the eight-star perfection, and his strength skyrocketed.

Her time field was also strengthened tenfold.

In other words, one day has passed in the outside world, and ten days have passed in the force field.

At this moment, Qin Feng was refining the elixir in her time force field.

In order to familiarize himself with the technique, he first refined some ordinary elixirs, and the success rate was 100%.

After he became proficient in the operation techniques, he began to refine the Enlightenment Pill.....

In the blink of an eye, a day passed in the outside world.

Within this day, the news that Qin Feng destroyed the Starry Sky Beast Clan's station spread among the top brass of the Qin Clan.

The emperors were extremely shocked at first.

The hidden danger that had plagued the earth for many years was thus eliminated by Qin Feng.

At that moment, all the emperors were excited and full of gratitude to Qin Feng.

Unknowingly, Qin Feng rose to a very high position in their minds, making them feel respected from the bottom of their hearts.

The White Tiger Emperor, Xuanwu Emperor, Ice and Snow Emperor, Whale Emperor and others all truly recognized Qin Feng at that moment and were truly willing to be loyal to Qin Feng.

Needless to say, Emperor Feng, Emperor Turtle, and Ni Shan were Qin Feng's confidants.

In short, the news of the destruction of the Starry Sky Orcs was quickly conveyed from the top to the bottom.

As soon as the news spread, the entire earth began to boil, and people's enthusiasm was extremely high.

Qin Feng's prestige has increased unprecedentedly.....

But it is said that one day has passed in the outside world, and ten days have passed in the time force field.

In these ten days, Qin Feng's alchemy went very smoothly.

He refined a total of three Enlightenment Pills, one of water type, one of ice type, and one of wood type.

At this moment, he left the dragon's nest, came to a secret room, and took out the Guishui Spirit Fruit.

Then, he took out the Enlightenment Pill and the Fortune Pill

"Ding! Devouring the Enlightenment Pill Successfully.....The host's understanding is improved, and the success rate of swallowing the Guishui Spirit Fruit is increased to 18%...."

"Ding! Successfully swallowed the Creation Pill... failed to obtain the true meaning...The host's understanding is improved, and the success rate of swallowing the Guishui Spirit Fruit is increased to 27%...."

"Ding! Successfully swallowed the Creation Pill... failed to obtain the true meaning...The host's understanding is improved, and the success rate of swallowing the Guishui Spirit Fruit is increased to 36%...."

After eating the only two fortune pills, the success rate increased to 36%.

Qin Feng took a deep breath and took out the Ice Enlightenment Pill and the Water Enlightenment Pill.

Ice and water come from the same source, so the two series of Enlightenment Pills can be used interchangeably.

Qin Feng first swallowed the Ice Enlightenment Pill

"Ding! Successfully swallowed the Ice Enlightenment Pill... failed to obtain the true meaning of the Ice Element....The host's awareness of the ice and water system is improved, and the success rate of swallowing the Guishui Spirit Fruit is increased to 47%...."

It really works!

The effect is actually better than Good Fortune Pill.

Obviously, the true meaning perceived by Good Fortune Pill is random.

This Enlightenment Pill is a targeted realization, and the effect is naturally better.

Qin Feng was delighted and quickly swallowed the last water-based Enlightenment Pill.....

"Ding! Successfully swallowed the Water Enlightenment Pill... failed to obtain the true meaning of the Water Element...The host's awareness of the ice and water system is improved, and the success rate of swallowing the Guishui Spirit Fruit is increased to 61%...."

61% success rate!

You can give it a try!

Qin Feng opened his mouth and swallowed the sunflower water fruit.

"Ding! Successfully swallowed the Sunflower Water Spirit Fruit...successfully obtained the true meaning of water system....."

"Ding! The host qualifications are improved, and the Dragon God inheritance is awakened to 33%...Combat strength increased by 1 billion....."

"Ha ha!! Success!"

Qin Feng looked at himself with joy.

The mission of Everlasting True Meaning lacked the true meaning of wood.

Unfortunately, he did not have the spiritual fruit in his hand that could realize the true meaning of wood.

Thinking of spiritual fruit, Qin Feng thought of the mysterious The cave in the center of the earth.

According to the order in which he obtained the spiritual fruits, first the earth spiritual fruit, then the gold spiritual fruit, and then the water spiritual fruit.

He could see at a glance that there was a hidden pattern here.

That is, earth-born gold, gold water, water, wood.....

The order in which this spiritual fruit appears is in the order of the five elements.

If he continues walking, he should encounter a wood spiritual fruit.

Thinking of this, Qin Feng was moved.

He also wanted to explore the cave in the center of the earth.

I wonder if the mysterious monster in the cave is sleeping?

Soon, he suppressed the thoughts in his mind.

Even if the monster in the cave is asleep, he can't get the wood spiritual fruit if he goes deep into the cave.

The last time he entered, his combat power was 70 billion, but now it is only 82 billion. He might not be able to enter the area where the wood-type spiritual fruit appears.

According to his calculations, it would take at least 90 billion combat power to reach the place where the wood spiritual fruit grows.

It seems that this matter will still be postponed.

Let's wait until his strength increases by 90 billion.

At the moment, Qin Feng took out three more storage rings.

This is what Emperor Qinglong, Emperor Fire, and Emperor Cang left behind.

Some time ago, when he was anxious to destroy the Star Orcs, he only looked at the ring roughly, without looking at the details.

Now that he is free, he can take a closer look.

He first carefully checked Cang Emperor's ring. There were many treasures, but not many of them were useful to him.

However, there is a pseudo-emperor level ice-type long sword that can be used by Chu Chu.

Then, he looked at the Fire Emperor's ring.

At this sight, he was pleasantly surprised.

He actually discovered a nine-star fire-type natal feather.

In this way, there are three divine feathers he wants to collect.

I don't know where the Fire Emperor got the divine feather from?

Qin Feng put away Shenyu with satisfaction and continued to read.

Soon, he discovered a strange token and a jade charm that recorded information.

Qin Feng picked up the information jade talisman and casually explored it.

After a moment, he showed a look of ecstasy

"Ha ha! This is how the Fire Emperor's immortality skills come from!"

Qin Feng waved his hand, and a drop of divine blood emitting golden light appeared in front of him.

This was the drop of divine blood that remained when he killed the Fire Emperor.

Qin Feng opened his mouth and sucked it in, and swallowed the divine blood directly, closing his eyes. Refining.....

"Ding! Devouring Phoenix's inherited divine blood successfully.....Awakening inheritance skills - rebirth of fire....."

"Ding! Successfully swallowed the inherited divine blood of the Phoenix...obtained the Phoenix God, and increased combat power by 2 billion....."

"Ding! Successfully swallowed the phoenix inheritance divine blood...the host's qualifications have been improved...the awakening of the dragon god inheritance has been increased to 34%....Combat strength increased by 1 billion...."

Qin Feng opened his eyes happily.

His combat power increased to 85 billion, and his strength increased again.

What's even more surprising is that he has acquired an extremely powerful inherited skill - Rebirth by Fire.

As long as his soul is immortal, he can be reborn.

And his soul strength is at the emperor level (43%), which is not considered weak even among the emperors.

To put it simply, even if Qin Feng did not survive the tribulation, it would be difficult for the emperor to kill him.

This rebirth of fire gave him powerful survivability.

In a way, his strength has been greatly improved

"This Fire Emperor still has some luck! It's a pity, it's all too easy for me....."

Qin Feng's mouth showed a smile, and his heart felt happy.

It turned out that the Fire Emperor's qualifications were very ordinary and it was impossible to be promoted to Nine Stars.

After he cultivated to the Eight-Star Dzogchen, he wanted to go to the moon out of curiosity.

Shortly after he flew out of the Earth's atmosphere, he discovered a corpse floating in the sky.

Even after death, the floating corpse with the head of a bird still exuded extremely terrifying imperial power.

The Fire Emperor was frightened and did not dare to approach.

But then, he found a storage ring on the floating corpse's hand.

The Fire Emperor was moved, and after all his efforts, he approached the floating corpse and took away the ring.

The Fire Emperor was also seriously injured.

According to the Fire Emperor's memories, the imperial power of the corpse was at least the level of a great emperor, or even higher.

After that, the mysterious floating corpse floated away and disappeared.

The Fire Emperor got a divine feather, a drop of phoenix inherited divine blood, and the black token from the ring.

Next, the Fire Emperor spent ten years refining that drop of inherited divine blood.

As a result, he gained the fire rebirth skill, and his cultivation qualifications were also improved, and he finally broke through to the nine-star realm.

But all these opportunities finally benefited Qin Feng.

Qin Feng put away the Fire Emperor's ring, feeling satisfied.

Then, he continued to look at the ring of Emperor Qinglong.

This investigation led to another surprising discovery...

Chapter 365

"So that's what happened!"

Qin Feng looked surprised and put away Emperor Qinglong's storage ring, leaving only a jade talisman.

The jade talisman recorded Emperor Qinglong's secret technique - spiritualism.

After reading the information in the jade talisman, Only then did Qin Feng know that what Emperor Qinglong had used before was not a real psychic technique.

A real psychic technique could allow a psychic to merge with his battle pet and transform, greatly increasing the psychic's combat power.

However, the psychic must be a human race , the war pet must be a creature of the mythical beast type.

Both of them require cultivation levels above the Tribulation Stage to display the combined skills.
After

Emperor Qinglong learned this psychic technique, he also thought about finding a psychic war pet, which can be above the Tribulation Stage. It was too difficult to find the mythical beast.

In the end, he shifted his target to his wife.

But his wife was a human and could not be used as a war pet.

The psychic technique naturally failed.

Emperor Qinglong's wife was mentally damaged because of this, and was finally killed by Qinglong
The emperor refined the psychic corpse.

Thinking of this, Qin Feng felt that the Qinglong Emperor was too cruel.

Even though he knew it would fail, he still did it with a sense of luck.

Of course, this is also because the psychic combination can increase the combat power too much. , made Emperor Qinglong crazy.

According to Emperor Qinglong's estimation, as long as he can successfully channel, his combat power can be increased by at least 50%.

At that time, his ambition to unify the world can be realized.

Unfortunately, he failed in the end..

The reason for his failure was not only because he did not have a suitable psychic pet, but also because he did not have a psychic pill. It turns out that to practice this psychic technique, the pet also needs to take a psychic pill to successfully complete the psychic contract..

The psychic pill is made from the seeds of emperor-level spiritual plants and the essence and blood of psychics.

The seeds of emperor-level spiritual plants can be found but cannot be found, and the Azure Dragon Emperor naturally does not have them.

He uses an eight-star spirit. Instead of planting seeds, he refined a pseudo-spiritual elixir, and the effect is needless to say.

He always has a trace of luck and always thinks on the bright side. His acting style is a bit like a gambler, and the result is that he harms others and himself..

If Emperor Qinglong didn't have such a personality, he would not destroy the Monument of Creation.

However, this psychic technique is definitely the top emperor-level secret technique.

If it can be refined, the combat power will be greatly increased.

What makes Qin Feng excited is that, This secret technique was completely created for him.

When it comes to psychic battle pets, he has a ready-made one, and that is the dragon egg.

The dragon is the top divine beast, and it is the most suitable battle pet.

What's more, the dragon egg has dominator-level potential and future strength. It will become stronger and stronger.

The stronger the battle pet is, the stronger the fighting power it will bring after the psychic fusion.

As for the main material of the psychic pill, he also has it ready.

After the death of the Immortal Wood Emperor, he left An emperor-level spiritual plant seed is just used to refine the psychic pill.

This psychic technique, as long as it follows the normal procedures, will never bring any harm to the dragon egg.

On the contrary, the psychic can also feed it back and speed up the battle. The growth of pets will speed up the growth of battle pets.

This is absolutely beneficial and harmless.

Just do it when you think of it. Qin Feng immediately took out the emperor-level spiritual plant seed, then took out a few drops of blood essence from his own body and began to refine it. Spiritual Pill.

This Spiritual Pill is much easier to refine than the Enlightenment Pill.

It only took Qin Feng three hours to refine it.

He put away the Spiritual Pill with satisfaction and kept it for later use.

He is now I am even more looking forward to the dragon egg hatching.

There should be a surprise when the little guy hatches out.

Next, Qin Feng took out the planetary teleportation array diagram and began to study it.

He wanted to connect the earth and the moon as soon as possible.....

Time flies.

In a blink of an eye, it was the next day.

Qinmen headquarters, Southern Capital City.

In a square of Qinhuang Palace, hundreds of Qinmen members were busy.

Neptune held a blueprint and directed from the side.

Qin Feng stood in the air, quietly looking at the busy people below.

King Tian and King Lu stood behind him silently, with extremely respectful expressions.

At this time, there was excitement hidden in their eyes.

Their great Emperor Qin has even produced an analysis diagram of the planetary teleportation array.

At the moment, Neptune is directing his subordinates to build a planetary teleportation array according to the analysis diagram of the grand array.

Directly connect the moon and Nandu City

"Your Majesty, according to this progress, Neptune will be able to build the formation in two days. Your Majesty, I wonder when this formation will be activated?"

The King of Heaven asked excitedly, his tone seemed to be a little impatient.

Qin Feng smiled:"All your people have been summoned.?"

"Return to Your Majesty! They have been summoned, a total of 3,000 people, ready to station on the moon at any time.", the King of Heaven replied respectfully.

It turns out that the King of Heaven was selected as the first city lord of the Moon Base City.

He has already gathered his men and they are ready to move in at any time.

The rapid expansion of Qin Clan is very exciting.

Qin Feng also Nodding with satisfaction:"That's good! As long as the formation here is completed, teleportation can be activated! There is a ready-made planetary transmission array on the other side of the moon!"

The King of Heaven was overjoyed:"That's great!"

"King Lu!"Qin Feng looked at King Lu again

"The subordinates are here!"

"How are you handling the things that the emperor arranged for you?"

King Lu said excitedly:"Your Majesty, things are going very well." As soon as the news was released, tens of thousands of elemental masters around the world enthusiastically signed up. Now we are conducting assessments to select talented people....."

The task Qin Feng assigned to King Lu was to select talents with talents in alchemy, weapon refining, and formations from all over the world.

He wants to popularize these three aspects of knowledge around the world and improve the level of cultivation on earth.

King Lu is very active in this regard.

He could see Emperor Qin's ambition, which made him very excited

"Your Majesty, the assessment results are expected to be available in three days."

"good! After three days, the list of passers will be handed in!"

"yes! His Majesty!"

As soon as he said these words, the fire energy between heaven and earth suddenly trembled.

Qin Feng noticed it immediately and quickly turned his head to look in the direction of the backyard of the palace.

The next second, a surge of imperial power came from that direction.

The fire energy within a thousand miles became violent and trembled continuously.

In a moment, the entire southern capital city felt it, and all the people were shocked and turned their heads to look in that direction.

In the square, hundreds of Qinmen members stopped. He was looking at the work in his hands in that direction in shock.

At this time, there was another purple energy rising into the sky in that direction, reaching the sky.....

The radiant power of heaven makes people frightened.

The boundless momentum also spread.

The fighting force momentum emanating from that place suddenly reached about 20 billion.

20 billion combat power, the peak level of nine stars!

The King of Heaven, King of Sea, and King of Land were shocked.

On the earth today, apart from Emperor Qin, the only person whose strength has reached the nine-star peak or above is Emperor Feng.

But Emperor Feng is still on the moon, and other emperors are still building teleportation arrays around the world, not at the Qinmen headquarters.

There should be no Nine-Star Emperor in this Qinmen headquarters.

Who is this nine-star peak emperor who suddenly appears?

The king and others were even more surprised.

Qin Feng looked excited, he knew what was going on.

At this moment, Chu Chu's anxious message rang in his ears.

"Brother, come quickly! The little one is about to be born!"

It turns out that the dragon egg is about to hatch.

This dragon egg is indeed a master-level potential. It has nine-star peak combat power as soon as it is born, and its future is limitless.

Qin Feng took a step and rushed towards the dragon nest..

Chapter 366

The next second, Qin Feng arrived above the Dragon Nest.

I saw the roof of the dragon's nest, filled with purple rays of light, auspicious.

Qin Feng teleported and entered the dragon's nest.

As soon as he entered, he saw Chu Chu standing next to Longchi with a nervous look on his face.

Qin Feng's arrival shocked her

"Brother, come on!"

Chu Chu turned around and called anxiously.

Qin Feng ducked and arrived at the dragon pond.

In the dragon pond, he saw dense cracks all over the dragon egg, and countless milky white dragon aura overflowed from the egg.

The dragon aura was extremely rich and condensed A large piece of Qingyun formed.

Within the Qingyun, I saw that all the heavens and worlds emerged, with the sun, moon and stars shining all over the place, and thousands of dragons flying. In the Qingyun, seven-colored light illuminated the heavens, and eight-tone fairy music resounded throughout the world.

Qingyun In addition, countless golden lanterns, golden lotuses, necklaces, and hanging beads fell all over the sky, like a steady stream of water dripping from the eaves, which was extremely auspicious... Click~! Click~! Click~! The dragon egg suddenly shattered! A dragon egg burst into pieces! The golden divine dragon soared into the sky, penetrated the barrier of the dragon's nest chamber, and flew thousands of feet high into the sky.....

"oops! The baby dragon is running away!"

Chu Chu was so anxious that he flew out after him.

Qin Feng smiled slightly and knew it was okay.

He was about to follow him out to see the situation.

But at this moment, he found that those Qingyun were dissipating.....

These Qingyun are formed by the condensed dragon energy, and they also contain endless auspiciousness. It would be a pity to dissipate like this.....

At that moment, he opened his mouth and swallowed the whole room full of Qingyun.

"Ding! Devouring Dragon's Qingyun Success.....The soul strength is increased to the emperor level (59%) ..."

"Ding! Devouring Dragon's Qingyun Success.....Physical strength increased to emperor level (53%) ..."

"Ding! Devouring Dragon's Qingyun Success.....Dragon God inheritance awakening increased to 39%.....Combat strength increased by 5 billion....."

"Ding! Devouring Dragon's Qingyun Success.....Luck is improved....."

Qin Feng was extremely surprised.

The effect of Qingyun is very miraculous!

It not only strengthened its physical body and soul, but also increased its combat power to 90 billion.

More importantly, it can actually improve your luck.

Luck is the most mysterious, elusive and unpredictable thing.

Even the master cannot control his own destiny.

This was the first time that Qin Feng had improved his luck, which was a surprise...

But on the other side, as soon as the baby dragon flew into the air, it turned into a dragon of ten thousand feet, hovering and flying in the air. Dragon roars resounded thousands of miles away, and hundreds of millions of people Terrified.....

"Oh my God! It's Shenlong! Look! There is a dragon!"

"Oh My God! There is a real dragon in this world!"

The crowd exclaimed.

Under the endless power of the dragon!

Some were shocked! Some were excited! Some were in awe! But the King of Heaven, the King of Sea, and the King of Land were horrified.

This dragon is too powerful, and its momentum is definitely at the peak level of nine stars...

In the entire Qin Sect, only Qin Feng and Feng Emperor could suppress it.

Such an existence was really terrifying!

Then, in the shocked eyes of everyone, Chu Chu appeared.

Seeing this scene, the three kings were shocked

"not good! Why did Princess Chu Chu get close to the dragon?"

"quick! Let Princess Chu Chu retreat quickly!"

That divine dragon is so powerful that the three Heavenly Kings are afraid that something will happen to Chu Chu.

Countless members of the Qin clan below are also nervous.

They all know that Chu Chu is Qin Feng's sister, and don't want to see anything happen to Chu Chu...

But at this moment, another figure appeared out of thin air. And now, the overwhelming imperial power covers the entire audience...

Qin Feng appears!

"It's Your Majesty!"

"Ha ha!! Your Majesty is here!"

Hundreds of millions of people cheered.

Everyone's hanging hearts dropped.

With Qin Feng present, there would definitely be no trouble.

But unexpectedly, the ten thousand-foot dragon circled and turned into a little girl carved in pink and jade, wearing a The little red bellyband jumped directly into Qin Feng's arms.

When Qin Feng saw the girl, he was very kind, with warmth in his heart, and hugged her.

Only then did he see clearly.

The girl looked about two years old, with a pair of black eyes. Big eyes, very cute.

If it weren't for the two tiny dragon horns on her head, she would look no different from a human girl. The more

Qin Feng looks at her, the more friendly she becomes, and the more she looks at her, the more she likes her.

The baby dragon raised his little head , hugging Qin Feng affectionately, and kept calling in a milky voice

"dad!! dad!!"

This scene made everyone below dumbfounded.

Oh my god!

It turns out that this little dragon is the daughter of Emperor Qin!

No wonder it is so powerful!

The crowd was talking about it.

After many members of the Qin Clan were shocked, they felt happy in their hearts.

There are more Qin Clan members. A nine-star peak master.

The power of the Earth Star Domain has increased again.

On the square, the King of Heaven and the King of Lu could not help but murmur.

"Heavenly King, how could your Majesty's daughter be a dragon?", King Lu was a little puzzled.

King Tian smiled:"Hey! You don't understand this! I once heard a rumor that Your Majesty may be the reincarnation of the ancestral dragon. Zulong's daughter is a divine dragon, what's so surprising? King

Lu was confused again:"Then who do you think the mother of this Dragon Princess is?" The

King of Heaven thought for a while and then whispered:"I heard that Your Majesty and Emperor Feng are on good terms. Princess Dragon's mother may be Emperor Feng."...."

King Lu frowned:"That's nonsense! Master Feng Di is still on the moon....."

"You two are so brave, how dare you discuss His Majesty and Lord Feng Emperor's personal affairs behind their backs....."

Neptune suddenly appeared behind the two.

The two of them were shocked, with cold sweat breaking out on their foreheads, and they did not dare to say anything more.

Neptune shook his head, these two guys really have the potential to gossip.....

In the air, Baby Dragon lay in Qin Feng's arms for a long time.

Looking at her cute look, Chu Chu felt very itchy.

"Brother, this baby dragon is so cute, let me hug it!"

Qin Feng smiled and handed the baby dragon over.

The baby dragon also threw himself into Chu Chu's arms affectionately.

This made Chu Chu very happy.

This little guy was very kind to her and seemed to like her very much.

This was naturally because of her. She has the inheritance of the Dragon God.

The baby dragon regards her as a relative

"Baby, call me aunt!", Chu Chu teased the baby dragon's little face

"aunt! Auntie!" Baby Dragon shouted in a milky voice.

"So good!", Chu Chu looked up happily, "Brother, give her a name!"

"Um.....", Qin Feng thought for a while and said, "Let's call her Qin Baobao from now on."...."
neat:"....."

Chu Chu rolled her eyes angrily.

This name is too casual!

Such a cute and powerful baby has such a name.....

"Let's go! Let's talk somewhere else!"

But at this moment, Qin Feng waved his hand, and the three of them disappeared into the air..

Chapter 367

After a while, Qin Feng and three others appeared in a living room.

"Brother, please change the baby's name!", Chu Chu was a little confused.

"Want to change?" Qin Feng looked at Baby Long, "Baby, don't you like this name?"

"Um! hug!" Baby Long was confused and stretched out his hands for Qin Feng to hug him.

"Look! She loves this name!"

"Baby likes it!", the baby dragon's milky voice lingered in Qin Feng's arms.

"Forehead! All right!"

Chu Chu patted her forehead, a little speechless.

The little guy is still too young and doesn't understand anything.

When she grows up, she will definitely regret what she said today.

"Baby, this is for you....", Qin Feng took out the psychic pill.

As soon as the elixir came out, it gave off an extremely attractive fragrance.

Qin Baobao opened his mouth and took the initiative to swallow it.

After eating, she licked her mouth and looked at Qin Feng with unfinished thoughts, wanting to take another one.

Qin Feng smiled slightly, scratched his fingertips, and then outlined a bloody psychic rune, pressing it into the center of the baby's eyebrows.

The runes disappear and the aura shines!

Buzz~!

A roar from the depths of the soul.

Qin Feng and Qin Baobao resonated spiritually at the same time.

It felt very wonderful and very pleasant.

Both of them closed their eyes, with extremely comfortable expressions on their faces.

After a while, the spiritual light dissipated and the psychic contract was successfully completed!

Qin Feng opened his eyes with a look of joy.

Qin Baobao also opened his eyes and looked at him with attachment.

The two of them felt more cordial and could communicate directly and unhindered, which was very wonderful.

Qin Feng can convey his orders to Qin Baobao with just one thought.

What's even more amazing is that he found that he could check some of Qin Baobao's information at any time.

As long as he thinks about it, the information will appear in his mind.

Battle Pet: Qin Baobao (Domination Potential)

Cultivation: Tribulation Stage (1%)

Combat Power: 20 billion

"Brother, what did you just feed your baby? And what kind of rune is that?", Chu Chu asked curiously.

Qin Feng smiled and said nothing. He made seals with one hand and pressed it against the baby's heart. The psychic refeeding was activated.

The chaotic energy in his body flowed into the baby's body, but no rejection was produced.

This is the secret of channeling. The wonderful use of spiritual arts.

Like the original Qinglong Emperor, who was clearly a Mu Yuan master, he was able to swallow the wind source of the psychic corpse. The two superimposed on each other, greatly increasing his strength.

Logically speaking, the Qinglong Emperor did not have a wind physique. It is impossible to use the wind element source, which will cause rejection.

But the result is that there is no rejection, and Emperor Qinglong can use the wind element power normally.

This is the case for Qin Feng now.

His chaotic element power enters Qin Baobao's body, There is no rejection, and it is still strengthening Qin Baobao's physical body.

Qin Baobao's momentum is also constantly increasing, and his body is actually growing.

"The baby is growing up!"

Chu Chu on the side was surprised.

Qin Feng smiled and pressed another finger to Qin Baobao's eyebrows, inputting mental power and tempering soul power.....

Qin Baobao closed his eyes comfortably, enjoying Qin Feng's psychic feedback.

After a quarter of an hour, the feedback ended.

Baby Qin's appearance has also changed, and he has become like a three-year-old. The little horns on his head have disappeared. His appearance is the same as that of a human girl, and he has become more cute.

Those big eyes were bright and lively, and seemed to have become a lot smarter.

Her message has also changed.

Battle Pet: Qin Baobao (Domination Potential)

Cultivation: Tribulation Stage (31%)

Combat Power: 26 billion

After reading the information, Qin Feng was pleased.

This psychic feedback is really useful!

But after all this exertion, he was extremely exhausted.

It turns out that every time a battle pet breaks through a realm, it can receive psychic feedback.

However, a state can only accept feedback once.

At this time, Qin Baobao also felt his own changes.

She said excitedly: "Dad, you are so powerful! I seem to have become stronger!"

"Wow! Brother, how did you do it? The baby seems to have grown up a lot!"

Chu Chu looked at Baby Qin in surprise, admiring Qin Feng in her heart.

Qin Feng smiled tiredly: "Chu Chu, come and take care of the baby these days, let her get familiar with the human world and learn more about life!"

"okay!", Chu Chu picked up the baby as if it were her beloved toy.

She naturally felt close to this little niece.

"Baby, you have to listen to your aunt these days!"

"OK!", Qin Baobao readily agreed, but his big black eyes kept moving around.

Qin Feng had a vague headache when he saw this scene.

He had not yet figured out what kind of character this little guy has just been born.

What if ? If the little guy really wants to make trouble, Chu Chu really can't control her.

But Qin Feng is too tired now, and feeding him back will consume his energy. He must quickly retreat to recover.

If it is delayed for a long time, it will cause a decline in strength.

I hope this little guy Guys, don't be too naughty.

At that moment, Qin Feng gave a few instructions and went back to retreat..

Chapter 368

Time flies.

In the blink of an eye, ten days passed.

The teleportation arrays on the earth and the moon are all arranged.

The king of heaven also took thousands of people and settled on the moon.

The defenses of the entire Earth and Moon are integrated and impregnable.

The momentum of the whole people is high. The creatures on the earth have never been so confident for a moment, and their mental outlook is different from before.

After humans and ferocious beasts coexisted peacefully, ordinary people began to leave the base city, and global integration rapidly advanced.

And the universalization of elemental cultivation has also begun to be promoted.

In the past, the seven major alliances, the Sea Clan, and the Monster Clan each occupied one area of resources and exchanged things for things, which inevitably made it difficult to circulate resources and the prices were still high.

After Qin Feng integrated global forces, the circulation of resources accelerated and prices dropped a lot.

In the past, many low-level elementalists could not afford resources, but now they see hope.

In addition, Qin Feng really invested the large amount of resources he brought from the Dragon Ruins.

The massive resources taken back from the Starry Sky Orcs were also invested in the cultivation of the whole people.

As a result, the world is prospering.

The cultivation of those elemental masters is improving by leaps and bounds every day and night, and the power of the earth continues to increase.

According to this development rate, it won't be long before the earth will have a new look.

On the other side, Qin Feng also began to train alchemists, formation masters, and weapon refiners.

He wants to raise the overall strength of the earth to a higher level in a very short period of time, reaching the level of the fifth-level star field.

Of course, Qin Feng also has his own key training targets.

Elites like Xiao Qingfeng, Bai Qianyue, Wu Sihai, Duan Muxue, etc., have all stepped into the realm of the Eight-Star King one after another with his massive resources, and they all hold important positions.

These elites are the first elders of the Qin clan, and they are also his confidants, so he naturally has to focus on taking care of them.

Many emperors, including the White Tiger Emperor, the Xuanwu Emperor, and the Whale Emperor, also settled in Nandu City to guard the Qin Palace.

The top combat forces on Earth are gathered together like never before.

This completely raises the explosiveness and mobility of Earth's combat power to a new level.

In these ten days, Qin Feng had already recovered from his weakness due to back-feeding.

The appearance of Qin Baobao once again shocked the world.

The whole people was excited.

There is another emperor-level figure on the earth, and the safety of the earth is also more guaranteed.

After being excited, the people were filled with wonder.

His Majesty the Qin Emperor is not only powerful himself!

Even my own daughter is so awesome!

The most shocked ones were the great emperors.

They originally thought that they were great, and some even thought that they were forced by circumstances to surrender to Qin Feng.

However, the appearance of Qin Baobao gave them a great impact.

Only then did they realize that they were not that great. Any daughter of Emperor Qin could abuse them completely.

All the emperors felt humbled and became more in awe of Qin Feng.

Of course, there are also people with different ideas.

For example, Nishan.

She knew for the first time that Qin Feng had a daughter, who was still a dragon girl.

She got excited.

She thought Qin Feng had killed a dragon.

Otherwise, how could there be a dragon girl?

Her feeling for Qin Feng is very strange.

At first it was admiration, in the end it was admiration, and then there was a sense of inferiority complex.

Qin Feng is so good, getting stronger day by day.

She was a little worried that Qin Feng would dislike her for being a mermaid.

But after hearing that Qin Feng's daughter was the Dragon Girl, she took the initiative to come over and said that she also wanted to give Qin Feng a child.

Qin Feng did not refuse and satisfied her.....

But on this day, Qin Feng was in his study, dealing with some trivial matters.

At this moment, he looked at some lists in his hand.

King Lu stood aside with great respect.

After a while, Qin Feng casually made two sketches on the list and handed it over.

King Lu carefully took the list and looked at it, his eyes a little surprised.

He hesitated for a while before he couldn't help but ask: "Your Majesty, this Liu Yan's talent level is B in the weapon refining assessment, which is considered to be an upper-middle level. Why did Your Majesty turn her into a core apprentice to train her?...."

"By the way, there is also Shangguan Yunxi. Her alchemy talent is good, at the first level, but she has not reached the level of a core apprentice. How can His Majesty treat her as a disciple?...."

Qin Feng frowned slightly: "These are not things you should ask!"

King Lu panicked: "My subordinate is talking too much! Then I will make arrangements now!"

"Wait!"

"Your Majesty, do you have any other orders?", King Lu asked uneasily

"Give these resources to the two of them, don't say it's from me."

Qin Feng threw it casually, and the two storage rings flew into King Lu's hands.

King Lu took it, explored it a little, couldn't help but swallowed, and was shocked.

The resources in this ring are so rich!

I miss him eight stars. The king at the top was a little excited when he saw these resources.

But he didn't dare to touch any of them. This was given by Emperor Qin himself.

Not to mention him, even the emperors didn't dare to touch it.

Nowadays, who doesn't know that Emperor Qin only wants to You can see through your subordinates' thoughts at a glance.

It seems that these two female apprentices are not simple!

They are so valued by His Majesty, and I must try to please him in the future.

What's more, becoming a core apprentice is equivalent to the emperor's disciple, which is considered important. He is His Majesty's registered disciple.

His status in the future will definitely be higher than his own.

If he doesn't try to fawn over him now, it will be useless to try to fawn over him when they grow up.

King Lu felt confident and decided to go back and please Liu Yan and Shangguan Yun. Xi, everything will be arranged for them in the best way.

At that moment, King Lu congratulated and said: "Your Majesty, my subordinates will do it now!"

Qin Feng nodded slightly.

King Lu left carefully.

After King Lu left, Qin Feng thought of Liu Yan and Shangguan Yunxi, with a smile on his lips. All the core apprentices he recruited this time were from him Teaching in person is equivalent to being his disciple.

Each of the three branches of weapon refining, alchemy, and formation will temporarily accept a core apprentice.

This core apprentice not only depends on talent, but also trust.

After all, what Qin Feng lacks most now is a confidant Instead of being a genius, he naturally wants to cultivate trustworthy people.

As for lack of talent and lack of understanding, it is a trivial matter to Qin Feng.

He gave Liu Yan and Shangguan Yunxi a large amount of enlightenment pills, which can completely make up for the two women's lack of understanding.

"Chu Chu did a pretty good job on this matter!"

Qin Feng smiled.

It was no accident that Liu Yan and Shangguan Yunxi appeared on the list.

He secretly instructed Chu Chu to do this.

Chu Chu, Liu Yan, and Shangguan Yunxi were all best friends.

He asked Chu Chu to persuade these two Women participated in the test.

The results of the test made Qin Feng very satisfied.

Neither of the two women's talents were top-notch, but they both met his standards.

Among them, Shangguan Yunxi's talents were considered outstanding.

"Huh! Information is coming!"

Qin Feng was thinking. There was movement in his jade talisman, which was sent by Jade Qilin.

He took out the jade talisman and used his spiritual sense to check it out.

"Huh! Three months later, the Star Territory Alliance will start the fifth-level Star Territory ranking assessment! Ha ha!! This is good news!"

Qin Feng looked happy.

The news said that as long as he can achieve good results in the fifth-level star field ranking assessment, he will receive extremely generous rewards and will also receive attention from the alliance."

"The star field that is the focus of the alliance will be protected by the alliance, and the master will not dare to capture it."

He was worried about how to fight against the faint organization, and now he has a way.

This thought made Qin Feng feel happy.

It seems that he should get over the disaster as soon as possible..

Chapter 369

Qin Feng estimated that if he completed the tribulation, he would definitely have the strength of a great emperor and be stronger than ordinary great emperors.

At that time, he can go to the alliance to be promoted to the fifth-level star field, and then participate in the ranking assessment of the fifth-level star field.

But here comes the question, where is the headquarters of the Star Alliance?

How should he go?

This question should be asked to Yu Qilin.

He knew very little about the outside world.

Thinking of this, Qin Feng sent a message to Yu Qilin.

After a while, a message came back from there: An emergency meeting is in progress, I will contact you later.....

Qin Feng silently put away the communication jade charm. It seemed that something was going to happen to the organization.

Otherwise, Yu Qilin would not even have time to reply to the message.

At this moment, there were rapid footsteps outside the study room.

"Your Majesty, I would like to see you!"

Neptune's voice sounded outside the door.

"come in!"

Creak~!

The door opened.

Neptune walked in with a sad face.

"Your Majesty, the little princess did something bad again!", Neptune's voice was filled with tears.

"ah! What did she do again?"Qin Feng has a big head.

This little princess is Qin Baobao

"Your Majesty, the little princess took the Whale King to a competition today and injured the Whale King again. Wulin Pavilion and Chaofeng Pavilion were smashed to pieces by her. It would cost a lot of money to repair them!"

The King of the Sea wanted to cry but had no tears.

He was responsible for the construction of the headquarters city.

The southern capital city had to be expanded a hundred times and the palaces of the emperors were built, which made him extremely busy.

Looking at the buildings he had built so hard one after another, they were just like this. The little princess was smashed to pieces, and he felt distressed!

No, he came to complain again!

"Why! Didn't Chu Chu care?"Qin Feng is really big-headed.

These days, he finally understands Qin Baobao's character. He is naughty and mischievous. He is not a worry-free master.

The King of the Sea said bitterly:"Your Majesty, Princess Chu Chu has already taken care of it, otherwise the whole South The capital city will be overthrown by the little princess. By the way,

Lord Whale King asked me to ask you, his spine was injured by the little princess. Does this count as a work-related injury?"

Qin Feng slapped his head, a little speechless.

This little guy can't do anything anymore.

In just a few days, the White Tiger Emperor, Xuanwu Emperor, and Ice and Snow Emperor were all injured by her.

Now the Whale Emperor is also injured.

If this continues, how many of them will All her powerful subordinates will be bullied by her again

"good! The Emperor knows it! Go down!"

"yes! His Majesty!"

The King of the Sea respectfully retreated.

When the King of the Sea left, Qin Feng showed a smile on his lips.

The White Tiger Emperor and the others should know how powerful they are. With this killing blow, these people will be more obedient in the future.

Now, he also It's time to take care of Qin Baobao.

This little guy also needs to be disciplined.

It turns out that Qin Feng secretly instigated Chu Chu to guide Qin Baobao and the White Tiger Emperor and others to compete in martial arts to defeat the majesty of the emperors.

These emperors used to be of the same side. The ancestor was forced to take refuge with him because of the situation...

He suddenly became his subordinate, and this change in mentality was not so easy to accept.

He needed to shake the mountain and shake the tiger to facilitate future management.

In fact, he has done a lot of power now. Success, the mentality of the White Tiger Emperor and others has changed, and they are indeed more submissive than before.....

At the same time, somewhere in the void near the earth, there was a temple hovering.

That was the branch of the faint organization established by the God Emperor.

At this moment, an emergency meeting was being held in the meeting hall inside the temple.

There were only seven people participating in the meeting, all of whom had eight-star cultivation, and Yu Qilin was among them.

Among the people, a middle-aged man in green shirt with a lean face sat at the head of the table, with a proud expression and a fierce temperament.

His name is Feng Yu Wang, and he is the only eight-star Dzogchen Feng Yuan master among the people.

However, he is no ordinary Eight-Star Dzogchen.

Rumor has it that when he was young, he got a wind divine feather, which gave him a great opportunity, making him much stronger than his peers.

Although he is an Eight-Star Great Perfection, his strength is comparable to that of the Tribulation Stage.

All the eight-star kings also respected him very much.

After the God Emperor and the Pluto Emperor left, he became the supreme leader here.

At this moment, his expression solemnly swept across the kings

"How's it going? Haven't you guys gotten in touch yet?" Feng Yu King asked coldly.

An Eight-Star King sighed: "Master Yu King, I have contacted you many times, but I just can't get in touch. I don't know why the contact was suddenly cut off... Hey!"

"yes! My subordinates here can't be contacted either!", another king agreed.

The other eight-star kings all showed pain on their faces and hesitated to speak.

When King Feng Yu saw this scene, he immediately understood and felt extremely depressed.

Needless to say, those spy agents placed on the earth, He must have not contacted anyone.

But he didn't notice that in the corner of the conference room, a flash of light flashed across Yu Qilin's eyes.

After the God Emperor and the Pluto Emperor left, they were worried that their lair would be discovered, so they ordered those who stayed on the earth to Eyeliner, do not contact the headquarters for the time being.

After all, after what happened in the Dragon Ruins Secret Realm, the emperors on the earth have already known their existence.

Those emperors will definitely check their whereabouts.

If the lair is accidentally exposed, there will be no God Emperor Guarding with the Hades Emperor, there might be a lot of trouble.

As a result, the Hun organization informants on the earth suspended contact with the headquarters.

But now the situation has changed, the God Emperor and the Hades Emperor are about to return.

They asked Feng Yu King, how is the recent situation on the earth?

After receiving the message, King Fengyu quickly contacted the informants on the earth, but there was no reply.

This made him feel bad, so he quickly summoned the kings and contacted his subordinates one after another.

As a result, more than thirty people None of the famous eyeliners were contacted.

They did not know that the information of those eyeliners had been secretly passed to Qin Feng by Yu Qilin.

Qin Feng had secretly dealt with those eyeliners long ago.

Naturally, these people could not be contacted.

This is also the fundamental reason why the Hun Organization did not know that the Sky Monument was destroyed.

"How ridiculous!", King Feng Yu sneered,"We are very close to the earth. But understanding its current situation is completely blind!"

"Now, the God-Emperor is still waiting for my king's reply. You think, how should this king respond? Could it be that we don't know? In that case, the God Emperor will definitely think that we are incompetent!"

King Feng Yu was very annoyed.

All the kings looked at each other.

Yu Qilin pondered for a while and said: "Master Yu Wang, those eyeliners suddenly lost contact, is there something wrong on the earth?"

As soon as these words were said, all the kings nodded their heads.

"yes! Lord Yuwang, there may be some changes on the earth."

King Feng Yu frowned slightly.

After a moment, he sighed: "It seems that I have to go to the earth myself and explore it."

"Sir, why do you need to take action in this matter yourself? Why don't you let me go there?"

Yu Qilin took the initiative to ask for help.

She didn't want King Feng Yu to know about the destruction of the Heavenly Monument of Creation.

That might attract the Emperor.

But she didn't want to, King Feng Yu shook his head: "I vaguely feel that this matter is not a big deal, so I'd better go there in person. Bar! Besides, you have participated in the Dragon Ruins Secret Realm, and many people on earth know you. If you go there, you will be easily exposed!"

As soon as these words were said, all the kings nodded, feeling that it made sense.

"How about this! King Lei, go with me!"

"Subordinates obey!", a strong man quickly agreed.

This Thunder King is the second strongest among the people, and his cultivation level is also at the peak of eight stars. When

Yu Qilin saw this scene, he was a little helpless and a little worried.

She didn't know clearly, this Feng Yu King Er Where on Earth will people land?

If you don't know clearly, it will be easy for these two people to find out the truth once they land on Earth.

After all, there were too many people involved in the battle when the Monument of Creation was destroyed.

Basically, all elemental masters with five stars or above are I know something, it's not difficult to find out

"Yu Qilin, the God Emperor specifically asked about Qin Feng this time, saying that Qin Feng was too talented and was a threat. Do you know anything about Qin Feng?"

King Feng Yu suddenly asked about this matter.

Yu Qilin's eyes lit up and he immediately said:"Sir, that Qin Feng is indeed extremely talented. However, his strength will not improve quickly. He is now at most eight stars."

"Sir, if you want to inquire about Qin Feng, I suggest you go to two places....."

"Those two places?"

Yu Qilin said:"One is Nandu City, the headquarters of the Southern Alliance, and the other is Yunyang City, Qin Feng's hometown....."

"Sir, I suggest you start with Yunyang City. That's his hometown. People in his hometown are definitely paying attention to him and can definitely find out about his current situation."

"If you go to Nandu City, where there are so many experts, you will be easily exposed....."

Hearing this, King Feng Yu nodded slightly, feeling that it made sense.

King Lei on the side also said:"Lord King Yu, maybe Qin Feng has returned to his hometown. If you go to Yunyang City to meet him and kill him easily, that will be a great achievement!"

King Feng Yu nodded. : "This is not bad! Firstly, you can inquire about the situation on the earth, and secondly, you can inquire about Qin Feng's current situation. Kill two birds with one stone! Then let's go to Yunyang City first!"

"I just don't know how much progress that Qin Feng has made. If you encounter it, you may have to do a lot of work."

Thunder King flattered me and said:"Master Yu Wang, your strength is comparable to that of the Tribulation Stage. No matter how talented Qin Feng is, how can he be better than you? If he meets you, he will only be killed instantly!"

"Ha ha!! This has been said!"

King Feng Yu stroked his beard and laughed, with some satisfaction in his eyes.

"OK! That's it for this meeting! Thunder King, let's go! Head to Yunyang City!"

At that moment, the meeting ended.

The kings dispersed.

King Fengyu and King Thunder quickly left the temple and flew to the earth.

However, Yu Qilin returned to his residence after the meeting, and then quietly sent a message to Qin Feng..

Chapter 370

But on the other side, the Qinmen headquarters.

In the study, Qin Feng sat behind the desk with a serious face.

In front of the desk, stood a four or five-year-old little girl, with fair and tender skin, sculpted pink skin, and extremely cute.

This little girl is Qin Baobao.

In just ten days, Baobao Qin has grown up a lot, and she already looks like a four or five-year-old girl.

Her strength has also made breakthroughs, her combat power has reached 30 billion, and her progress in the tribulation period has increased to 46%.

She is indeed a dragon girl with the potential to dominate.

Of course, Chu Chu's contribution is also here.

During these ten days, Qin Baobao, apart from being naughty, causing trouble and looking for fights, was practicing with Chu Chu.

With the help of Chu Chu's ten times time force field, Qin Baobao's accumulated training time is equivalent to two months.

With Qin Baobao's potential, it is normal for his strength to increase to this extent in two months.

Generally speaking, the maximum combat power of a person with domination potential can reach more than 40 billion during the tribulation period.

In short, Qin Feng is very pleased with Qin Baobao's progress.

The stronger Qin Baobao is, the greater the benefit will be to him.

And Chu Chu has also gained a lot these days.

When Qin Baobao practices, he will produce the spirit of a true dragon.

These dragon energies are useless to Qin Feng, but they are useful to Chu Chu.

Chu Chu is also the inheritor of the Dragon God and can naturally absorb dragon energy.

During this period, under the nourishment of dragon energy, she unknowingly broke through to the peak of the Eight-Star Great Perfection, and was one step away from the stage of transcending the tribulation.

Her combat power has also increased to 2 billion, which is much stronger than during the Tribulation Stage.

This is the potential of the emperor.

At this moment, Qin Baobao was holding back his mouth, his eyes were red, tears were rolling in his eyes, and he was about to cry.

Chu Chu was snickering on the sidelines

"Dad, I won't make trouble anymore!", Qin Baobao cried.

She had just been scolded by Qin Feng, and she felt aggrieved and scared.

"alright! alright! Don't challenge Whale Emperor and the others again. They are no match for you. If you bully them like that, you won't lose face..."

Qin Feng's serious expression softened.

Seeing that Qin Baobao was about to cry, he was reluctant to reprimand him any more.

"You are not allowed to bully those emperors anymore, remember?"Qin Feng's voice also softened.

"Well, babies won't hit them anymore....."

Qin Baobao rubbed his eyes with his white and tender hands, trying hard not to shed tears.

However, her mood gradually eased.

Qin Feng was really distressed and couldn't bear to talk about it anymore.

But at this moment, Yu Qilin sent a message.

Qin Feng frowned after reading the message.

"Brother, what's wrong?", Chu Chu asked with concern

"Take a look for yourself!"

Qin Feng casually threw the communication jade talisman over.

After reading it, Chu Chu's face changed slightly.

"Brother, this King Fengyu and King Thunder are going to Yunyang City!", she was a little anxious.

Yunyang City is her hometown.

She has deep feelings for Yunyang City.

She doesn't want anyone in Yunyang City to get hurt.

"Let's do this, you go to Yunyang City to protect Shangguan Yunyang... If what I predict is correct, then King Fengyu will definitely come to Shangguan Yunyang first....."

"OK!", Chu Chu handed back the jade talisman of communication.

"Baby!", Qin Feng looked at Qin Baobao, "You and your aunt can go there together....."

"What were you doing in the past?", Qin Baobao was puzzled.

"Go over and fight!

Qin Baobao blinked: "Dad!" Didn't you tell me not to bully others?

Qin Feng smiled and said: "You can't bully your own people, but it doesn't matter if you are a bad person." ..."

"whee! It turned out that I was going to fight the bad guys! Then I want to go! I will definitely beat the bad guys to pieces!"

Qin Baobao waved her little fists and jumped for joy again.

She is a child, and her emotions come and go quickly.

"You can go! Remember, you must listen to your aunt. Otherwise, I will really punish you next time!"

"I got it! Aunt, let's go quickly! Take me to the bad guys quickly!"

Qin Baobao excitedly held Chu Chu's hand.

Chu Chu had a big head.

She couldn't control this child.

"You go ahead, I'll come later!"

"Brother, are you going too?"

"Well, I'm going to take care of some trivial matters first....."

"OK! Then I'll go there with the baby first.....", Chu Chu secretly breathed a sigh of relief.

As long as Qin Feng is here, someone can control Qin Baobao.

At that moment, Chu Chu took Qin Baobao out of the study and went straight to the teleportation area in the backyard of the palace.

Qin Feng built dozens of teleportation arrays in his backyard, which lead to all parts of the world and the moon, extending in all directions, which is very convenient.

Nowadays, the earth can be said to be: all roads lead to the Southern Capital, and all roads lead to the Qin Palace.

After Chu Chu left, Qin Feng ducked and disappeared into the study.

The next second, he appeared in a room.

The room was filled with fragrance and dotted with girlish pink. It was obviously a woman's boudoir.

As soon as Qin Feng appeared, a sweet cry sounded from the front

"Huh! Why are you here?"

Qin Feng looked up and saw a curvy figure and an extremely pure face, looking at him in surprise.

This woman was Yu Qilin.

This is actually the residence of the Hun Organization.

"Come and see you, okay?", Qin Feng smiled evilly and glanced at the layer of gauze on Yu Qilin's body.

Under the translucent pajamas, everything was looming, and it was actually a vacuum.

Yu Qilin was delighted and threw himself into Qin Feng's arms without hesitation.

Qin Feng felt it clearly. So soft.

He pushed the beauty in his arms away calmly and said seriously: "Put on your clothes! Gotta get down to business later!"

"I'll just say it! You took the risk of being exposed and came to the temple to find me. Something must have happened....."

Yu Qilin changed her clothes in front of Qin Feng without any taboo.

Qin Feng walked to the sofa aside and sat down leisurely.

He casually picked up the energy drink on the table, opened the ring, and drank while admiring his woman.

The curves are wonderful, so exquisite that every arc is perfect. It is indeed a visual enjoyment.

After a while, Yu Qilin changed his clothes. He was wearing a uniform that was close to the body, showing his gracefulness and heroic temperament.

"Sect Master, aren't you worried about King Feng Yu? He went to your hometown!"

Yu Qilin walked up behind Qin Feng and took the initiative to massage Qin Feng's shoulders.

"King Feng Yu is just a small character, and there is no need for the sect leader to personally take action....", The corners of Qin Feng's mouth curled up slightly, and he put down the drink in his hand.

"This sect leader comes with two questions. One is to ask you where is the headquarters of the Star Alliance? The other is to solve the hidden dangers caused by coma tissue"

"Master, what's the hidden danger?"

"Do you think that after the death of King Feng Yu and King Thunder, will the other Eight Star Kings continue to go to Earth to inquire for information?"

"Forehead....."

Yu Qilin was slightly startled. She was not as far ahead as Qin Feng thought.

"It should!", Yu Qilin's rubbing hand was very gentle.

Qin Feng smiled:"This is a hidden danger! If it is not stopped, there will be no end. It would eventually arouse the suspicion of the God-Emperor. I'm here today to solve this hidden danger....."

Yu Qilin said in surprise:"You don't want to kill all the members of the Hun Organization, do you?"

Qin Feng shook his head:"That's not necessary! It's not time to kill them yet!"

"Come!", Qin Feng hooked his fingers.

Yu Qilin understood and bowed his head gently.

Qin Feng whispered in her ear.

Yu Qilin suddenly realized:"Master, I'm going now!"

At that moment, the two began to take action.

Yu Qilin left in a hurry.

Qin Feng sat on the sofa, sipping a drink leisurely.

He was going to set a trap for the God Emperor.

And everything currently is under his control..
