Chapter 411

Click~!

Thousands of feet of calamity thunder struck Qin Baobao crazily.

Qin Baobao carried it easily without any injuries. Only the residual electricity that squeaked around her body.

In the next second, she absorbed the remaining electricity, and her aura actually increased.

She let out a cheerful dragon roar.

Seeing this scene, Qin Feng was relieved.

Everyone below also breathed a sigh of relief.

Soon, the second catastrophe came.

The baby greeted him again and blocked it easily, and his momentum increased again.

Then, the third and fourth lanes.....

Until the ninth catastrophe, Qin Baobao easily accepted them all.

Among the crowd, Chu Chu breathed a sigh of relief.

All nine heavenly tribulations have been taken over, and the baby is finally safe.

Emperor Feng and others also showed happy expressions

"Lord Feng Emperor, the little princess has successfully overcome the tribulation, and our Qin Clan has another nine-star master, haha!!"

The Turtle Emperor laughed happily.

All the emperors smiled.

Even the Phoenix Emperor showed joy.

But at this moment, a sudden change occurred.

The calamity cloud that should have dispersed did not dissipate.

Deep in the calamity cloud, Rolling non-stop... After a moment , a red calamity cloud appeared in the center of the black calamity cloud.

The red calamity cloud slowly spread and reached a hundred miles before stopping, emitting a calamity cloud that was twice as powerful as before.

The power of that day appeared. , Emperor Feng and others felt so much pressure that they couldn't help but tremble slightly.....

They actually felt fear

"Sister Fengdi, what's going on? Why did the red calamity cloud appear?", Chu Chu panicked a little.

"Not sure....",Emperor Feng's expression also became serious.

Something doesn't seem right about this situation.

Is the catastrophe not over yet?

The emperors were so angry that they did not dare to breathe.

They don't understand the situation and don't dare to speak.

Under the clouds, Qin Feng's expression became serious when he saw this scene.

At this moment, deep in the red calamity cloud, a violent thunder roared.

Click~!

A red thunderbolt instantly illuminated a radius of thousands of miles, turning the world into blood red, and struck directly at Qin Baobao.....

The catastrophic power that destroyed the world completely reached the level of the Great Emperor's blow...

Everyone below was exclaimed.

Snap~!

The red calamity thunder bombarded Qin Baobao.

The dragon's scales were chapped, and the baby groaned and made a sound of pain.

"The baby is injured!", Chu Chu exclaimed, extremely distressed.

Emperor Feng and others were also a little panicked. Emperor Turtle looked puzzled:"Isn't there only nine ways of heavenly tribulation? Why does the little princess still have a tenth catastrophe?"

"yes! Or red thunder! Never heard of this!"

The White Tiger Emperor also looked puzzled.

But at this moment, another red light shone in the sky!

Click~!

The eleventh heavenly tribulation descended!

Boom~ click! ~ click~!

Roar~!

The golden dragon roared in pain~!

Countless scales Fei Fei~!

This time, Qin Baobao was really injured!

Chu Chu and others were panicking.

In the air, Qin Feng's pupils shrank, and his heart suddenly hung up.

He also began to get nervous.

"Dad, it hurts so much!", the baby's crying voice sounded in Qin Feng's mind

"Baby, there's only one last step left! hold onto!", Qin Feng encouraged.

He and Qin Baobao have a spiritual connection and understand the baby's condition very well.

He also knows very well that only by letting the baby complete the tribulation on its own will the baby gain the greatest benefit.

At this moment, the twelfth heaven The calamity has come.

This heavenly calamity is so red and purple!

Click~!

Wherever the thunder light passes, the space is shattered!

The terrifying power is so shocking that the emperors dare not move!

Boom~! Click~! Click~!

The thunder light The bombardment hit Qin Baobao.

Countless dragon scales shattered and flesh and blood burst out.

The painful dragon roar resounded between heaven and earth.

The next second, Qin Baobao was swallowed up by the red lightning.

"Baby!", Chu Chu yelled anxiously.

Emperor Feng and others opened their eyes nervously.

Hundreds of millions of people below were also dumbfounded.

The little princess was swallowed up by the thunder!

Is anything going to happen?!

Click~! Click~! Click~!

The red thunder light kept exploding!

After a long time, it gradually dispersed, revealing the dying golden dragon.

Seeing this scene, everyone's hearts were hanging.

But at this moment, the wild thunder roaring deep in the calamity cloud gradually subsided, and the oppressive The power of Heaven gradually receded.

Then, countless smallpox, rain, dew, and golden lotus fell from the calamity clouds and sprinkled on the golden dragon.

Qin Baobao's injuries were recovering rapidly at a speed visible to the naked eye.

Her momentum was also rising sharply.

Seeing this scene, hundreds of millions of people cheered.

Emperor Feng and others were completely relieved

"The baby finally survived the tribulation successfully!", Chu Chuxi smiled broadly

"yes! I didn't expect that the baby's tribulation would be through twelve heavenly tribulations, which was different from ours!" Emperor Feng was also overjoyed.

All the emperors sighed.

The little princess is really extraordinary!

The tribulation is so different.

In the air, Qin Feng was very pleased.

His vision now is much higher than that of Emperor Feng and others. Human.

The reason why the baby can transcend the twelve paths of tribulation is determined by the baby's potential.

The gray tribulation cloud represents the potential of an ordinary emperor.

The black tribulation cloud represents the potential of a great emperor.

Red emerges from black, which is the potential of domination.

Nine tribulations Tao is the ultimate, and twelve is perfection.

The three red tribulation thunders behind represent the baby's potential to cross the three ladders of the wheel and the sea and enter the realm of domination.

To put it bluntly, the higher the talent potential, the greater the test from heaven and earth.

Likewise. The truth is, as long as you successfully overcome the tribulation, the benefits will be greater

"Ding! Congratulations to the host pet for successfully surviving the tribulation, breaking through to the nine-star realm, and increasing its combat power to 500 billion....."

"Ding! Congratulations to the host pet for awakening the seventh consciousness and gaining the mysterious ability - the power of reincarnation....."

"Huh! The baby has awakened his seventh consciousness!"

Qin Feng's eyes shone with a look of surprise.

Awakening the seventh consciousness is a necessary condition for breaking through to the wheel sea realm.

Baby Qin already has it.

And the baby's ability to awaken is the same as that of the Little Wheel King, and his vitality has become extremely tenacious.

Even a person ten times stronger than Baobao may not be able to kill Baobao.

From now on, he can rest assured about Baobao's safety.

Another extremely joyful dragon roar resounded over the entire Nandu City.

After a moment, Qin The baby transformed into a girl.

Her appearance also changed slightly, from a four or five-year-old to a five- or six-year-old. She looked cute and adorable.

"Dad, I successfully survived the tribulation!"

Baby Qin flew over happily.

Qin Feng hugged her and kissed her pink and white face.

The little guy's face was always fragrant.

In the distance, the emperors saw this warm Even if they look alike, they can't help but smile

"Sister Fengdi, let's go over and take a look!", Chu Chu couldn't wait.

"Um~!", Emperor Feng nodded

"Ha ha!! Let's go there together!", Turtle King and others also said with a smile.

The group was about to go over.

But at the next scene, everyone was stunned.

Qin Feng patted the baby's back and put the coquettish little guy down.

Then, he Under the eyes of everyone, he transformed into a billion-foot-long body, stood tall on the sky, faced the thousand-mile calamity cloud, and opened his mouth to inhale. The thousands-mile calamity cloud that was about to dissipate suddenly poured into Qin Feng's mouth like a rushing tsunami.....

Below, hundreds of millions of people were stunned.

The emperors were even more stunned.

Except for the Turtle Emperor, this was the first time they saw Qin Feng swallowing Jieyun.

But this time, the Turtle Emperor was dumbfounded!

Last time, the calamity that Your Majesty swallowed was only thirty or fifty miles away.

This time, His Majesty actually wanted to eat Qianli Jieyun in one bite.

Oh My God!

I'm not dazzled, right?

At this moment, the whole city was shocked..

Chapter 412

"Oh My God! Your Majesty swallowed up the calamity cloud!"

"Can Jie Yun be eaten?"

"Probably not! As far as I know, Jie Yun is also very destructive, and most people can't get it, let alone eat it."

The emperors were dumbfounded, with only infinite admiration in their eyes.

Hearing the emperors' exclamations,

Chu Chu, Feng Di, and Ni Shan all felt inexplicably proud in their hearts."

Those hundreds of millions of people could no longer describe their mood in words.

Those younger generations have fanatical admiration in their hearts.....

Qin Feng didn't know about this.

At this moment, he was devouring Jie Yun with great satisfaction, enjoying the pleasure of rapidly increasing strength.....

"Ding! Devouring the Tribulation Cloud Successfully.....Physical strength has been greatly enhanced....."

"Ding! Devouring the Tribulation Cloud Successfully.....Soul strength has been greatly enhanced....."

"Ding! Devouring the Tribulation Cloud Successfully.....The awakening degree of the seventh consciousness has been greatly improved....."

"Ding! Devouring the Tribulation Cloud Successfully.....The completeness of obtaining the Divine Tribulation Seal is greatly improved....."

"Ding! Successfully swallowing the Tribulation Cloud, the qualifications are improved...the dragon god inheritance awakening is improved....."

Qin Feng swallowed faster and faster.

His body!

His soul!

His seventh consciousness!

His divine calamity seal!

His Dragon God inheritance awakens!

These are constantly being strengthened rapidly!

A full half an hour passed before the thousand-mile calamity cloud was completely swallowed up by him.

"Ding! Devouring the Tribulation Cloud is completed...the physical strength is increased to the Great Emperor level (98%)Defense and recovery are greatly improved.....Combat power greatly increased....."

"Ding! Devouring the Tribulation Cloud is completed...the soul strength is increased to the emperor level (98%)The power of divine consciousness is greatly improved.....Combat power greatly increased....."

Ding! Devouring Tribulation Cloud Completed.....Obtain the integrity of the Divine Tribulation Seal to 45%, and increase the power of the Divine Tribulation Thunder to the Great Emperor level....."

"Ding! Swallowing the Tribulation Cloud is completed, qualifications are improved...Dragon God's inheritance and awakening are improved by 74%.....Combat power greatly increased....."

"Ding! Devouring Tribulation Cloud Completed.....The awakening degree of the seventh consciousness is increased to 100%, and all spatial abilities are increased tenfold....."

"Ding! The eighth consciousness begins to awaken....."

"Ding! Congratulations to the host for successfully awakening the eighth consciousness.....Gain the ability to time...control the flow rate of time (within a radius of 1 meter)....."

"Ha ha!! Finally awakened the eighth consciousness!"

Qin Feng was ecstatic.

To open the second round of the wheel, he needs to awaken the eighth consciousness.

Qin Feng already has this qualification in advance.

Although his ability is a bit weak at this time, everything is just the beginning.

Qin Feng can completely accept it.

You know, he Having awakened the space ability, if you awaken the second special ability, you will be suppressed by the rules of heaven and earth.

Therefore, there are far fewer emperors in the second-wheel realm than in the first-wheel realm. And those in the third wheel realm are even rarer, and their status is extremely respected.

As for The master is the God of one side, the existence at the top of the universe.

To put it bluntly, Qin Feng's time ability improvement is more than ten times more difficult than Chu Chu's improvement.

"This calamity cloud is indeed a wonderful thing....."

Qin Feng looked at himself with satisfaction, feeling a little unfinished.....

This time, in addition to awakening the time ability, his combat power also skyrocketed to 700 billion.

The next second, Qin Feng shrank in size and became the size of an ordinary person in the blink of an eye.

"Dad, is Jie Yun delicious?"

Baby Qin was the first to run over happily, with little stars in her eyes.

The child's focus was different. She was almost drooling, looking like a foodie.

Qin Feng didn't know whether to laugh or cry: "Can't you eat that Jie Yun?"

"why? The baby sees his father eating a lot, and the baby wants to eat too!"

"Dad has practiced a kind of skill, so he can swallow the catastrophe. You haven't learned that exercise, so you can't eat it."

"Oh, okay!", the baby's little mouth pouted, showing a look of thinking.

Qin Feng knew that she was not willing to give in, so he lied: "Jie Yun is very bitter, not sweet at all, does the baby still want to eat it?"

"Is it bitter? Then I won't eat it!" Baby Qin stuck out his cute little tongue and showed a cute look of disgust.

At this moment, Emperor Feng, Chu Chu and others also rushed over.

"I have met His Majesty!"

All the emperors saluted Qin Feng one after another.

"aunt!"As soon as the baby saw Chu Chu, he rushed towards her.

Chu Chu also happily hugged the baby.

The relationship between the two is extremely close.

"Auntie, I succeeded in overcoming the tribulation! I am also the Nine-Star Emperor!"

The baby raised his cute little face, waiting for praise.

"Bo~! ", Chu Chu gave a big kiss,"My baby is amazing!"

"whee~!",The baby had a smile on his face, and his eyes turned into crescent moons.

Everyone couldn't help but smile when they saw this warm scene.

"Congratulations, Your Majesty, our Qin Clan has another nine-star warrior!", the White Tiger Emperor smiled and congratulated.

The Turtle Emperor said dissatisfied:"White Tiger, are you not mistaken? Judging from the imperial power in the little princess, she is fully capable of the great emperor. What our Qin clan now has is not the nine-star combat power, but the great emperor's combat power!

The White Tiger Emperor slapped his head and said,"Look at my brain!" The Turtle Emperor is right. The little princess's imperial power has completely reached the level of a great emperor, not much worse than the two weird guys who came today..."

After hearing this, Qin Feng's heart moved and he hurriedly asked:"Two of them? Weird guy? Two great emperors came today?

Emperor Feng said hurriedly:"Sect Master, I was about to report this matter to you!""

"Oh, what's going on?"

"The thing is like this, just seven hours ago, a huge interstellar spaceship suddenly flew over....."

Emperor Feng narrated the arrival of Beimen and Dongying in detail.

After listening, Qin Feng looked at Chu Chu:"Did the baby and I just left with our front legs, and those two guys came with our back legs!"

"Yes! Brother, not even twenty seconds after you left, the spaceship arrived!"

Hearing this, Qin Feng suddenly realized.

He finally understood the meaning of the second luck hint.

This allowed him to cleverly avoid the exploration of Beimen and Dongying.

At that time, he had already entered the challenge space and left the earth. , the two people from Beimen must have found nothing.

It can be seen from this that their identity as the inheritors of the Ancestral Dragon cannot be exposed, otherwise it will be very troublesome

"By the way, do those two people have anything special to say?", Qin Feng asked again.

Chu Chu thought for a while and said:"After they tested my inheritance level, the woman said that I was not the person they were looking for, and urged the man to leave!"

Qin Feng nodded slightly, thinking to himself that it was indeed the case.

Those two people should have come to find him.

Thinking about this, Qin Feng felt a little stressed again.

To be able to have two emperors who were suspected of being in the late stage of foundation building as his subordinates, the people behind them must be extremely powerful. It is definitely not something he can deal with now.

He relied on luck to avoid the disaster.

It can be seen that it is not a good thing for those people to find himself, the inheritor of the ancestral dragon.

Fortunately, he has now obtained this information, You can make some preparations in advance.

This is much better than knowing nothing!

Of course, the best way to protect yourself is to make yourself stronger.

So, he needs to become stronger!

"Brother, what are those two people going to do?"

"Not sure!", Qin Feng shook his head, "There is no need to ask about this matter! You guys go below and wait for me!"

"Brother, won't you go down?"

"I want to survive the tribulation!"

As soon as these words were said, everyone was happy.

Their Majesty was about to overcome the tribulation.

The strength of the Qin Sect was about to increase greatly.

At that moment, everyone left one after another.

"Dad, come on!", the baby encouraged him before leaving.

After everyone flew to the ground, Qin Feng raised his head and looked up at the sky.

Feeling that he had an invisible and powerful enemy, he couldn't wait to overcome the disaster.

"The robbery is coming!"

Qin Feng looked up to the sky and roared!

In an instant, the sky and the earth changed color again, and the calamity clouds appeared out of thin air!

In an instant, dark clouds rolled in, the sun and the moon lost light, stretching for thousands of miles, covering the sky and the earth.....

The people below were shocked!

Emperor Feng and others were stunned again.

OMG!

Your Majesty's calamity cloud actually covers thousands of miles, ten times that of the little princess. It's really terrifying!..

Chapter 413

"Oh My God! This calamity cloud is too terrifying!"

"It seems that His Majesty's calamity is ten times more difficult than that of the little princess!"

All the emperors were amazed!

Even Qin Baobao opened his mouth in surprise.

At this time, the power of Heaven fell from the sky and reached the level of Foundation Establishment. The power of Heaven enveloped hundreds of millions of miles in radius.....

Under the power of God, hundreds of millions of people were frightened, and countless elemental masters were trembling with fear.

The emperors' legs were weak, and they actually had the idea of kneeling down to worship...

In the air, Qin Fengqi was calm and relaxed, looking up at the sky...

The potential to dominate, the catastrophe is thousands of miles away!

The potential of the Star Master is a disaster for thousands of miles!

He is indeed a potential star master.

I wonder to what extent my combat power will increase after this tribulation?

Qin Feng's heart was full of expectations.

At this moment, the calamity clouds rolled violently, and the wild thunder circulated crazily...

Crack~!

Thunder resounded throughout the nine heavens!

The electric light fills the sky!

The first thunderbolt fell from the sky and bombarded Qin Feng.....

The power of this first heavenly tribulation is obviously much stronger than the baby's first one!

"Your Majesty has begun to overcome the tribulation!"

Everyone below cheered excitedly!

People are full of expectations for Qin Feng's tribulation.

But Emperor Feng and Chu Chu were extremely nervous.

This is the most important person in their hearts!

They don't want anything to go wrong with him.

In the blink of an eye, The calamity thunder arrived over Qin Feng's head.

Countless people opened their eyes wide.

They wanted to see how His Majesty overcame the calamity!

Qin Feng raised his head and raised the corners of his mouth slightly.

The next second, he opened his mouth and took a breath. Swallowed that thunderbolt.....

Countless people were amazed! so amazing!

The young people in the crowd were excited to see it, and their admiration was beyond words!

In the blink of an eye, Qin Feng swallowed up the first thunder, arcs of electricity flowed on the surface of his body, and his momentum surged all the way.....

Then, a look of ecstasy appeared on his face.

Just the first heavenly tribulation caused his body, soul, and Yuanli to completely transform and evolve, and his strength skyrocketed...

In fact, other people who went through the tribulation were also absorbing the power of the tribulation thunder to temper themselves, allowing their bodies and souls to undergo a complete transformation and evolution. , Yuanli's comprehensive transformation and evolution.....

But they don't have god-level devouring talents, they are all forced to absorb the power of thunder.
.....

They can only absorb about one-tenth of the power of a thunderbolt. It would be good if a person with strong potential can absorb one-third.

But Qin Feng swallowed it all in one gulp, absorbing it all without wasting any of the power of the thunder.

To put it simply, his ability to overcome tribulations is ten times that of ordinary people, and more than three times that of those with super talents.

Such benefits are so wonderful that no one can understand them!

Click~!

The second thunder strikes again!

Qin Feng was so happy that he opened his mouth and swallowed it!

After a while, his momentum surged again, and he still had more to say.....

In the blink of an eye, the third... the fourth... the fifth... all the way to the ninth, Qin Feng swallowed them all!

His momentum skyrocketed, reaching an extremely terrifying level.....

After the end of the ninth path, thousands of miles of calamity clouds rolled, and a red calamity cloud appeared in the center, reaching thousands of miles.....

Countless people below were amazed again!

Everyone had long expected that Qin Feng would survive the red tribulation.

But this red calamity cloud reaches thousands of miles, and is ten times as long as the little princess, which makes people marvel.

In the blink of an eye, the tenth catastrophe came.

The red thunder light reflected the sky and the earth, making it blood red!

The power of that red thunderbolt was several times greater than Baobao's.

Wherever the calamity thunder passed, the heaven and earth trembled, and the space collapsed...

Qin Feng raised his head proudly and swallowed it again.

This time, he finally felt the slightest numbness from lightning. It was very weak and did no harm to him.

After a while, he finished digesting the red thunder, and his momentum doubled instantly...

Below, Qin Baobao was dumbfounded.

"Dad is so awesome!"

The baby's eyes are full of little stars, and she admires her father extremely.

She knows very well how terrifying the red thunder is!

The red thunder is more than ten times stronger than the ordinary thunder!

She almost couldn't bear it.

Until now, she still There was lingering fear in his heart...

At this time, the eleventh red thunderbolt fell.

Qin Feng swallowed it in one gulp again.

This time the thunderbolt was twice as powerful as the last time.

Qin Feng felt a slight pain and frowned slightly.

But This feeling soon disappeared, replaced by an extremely comfortable feeling of surge in strength.....

A moment later, the twelfth catastrophe came, its power doubled again.....

Click~!

Where Jie Guang said it, the thin ice in space collapsed and shattered, revealing an endless dark abyss...

Qin Feng raised his head, opened his mouth and swallowed...

It hurt!

A burning pain!

Qin Feng frowned deeply.

After a while, the pain gradually disappeared, and his momentum surged crazily...

Qin Feng opened his brows and enjoyed that wonderful feeling again.....

Below, hundreds of millions of people cheered loudly.

Chu Chu and Emperor Feng were overjoyed

"Ha ha!! The twelve heavenly tribulations are all over! Your Majesty has succeeded in overcoming the tribulation!"

The Turtle Emperor laughed heartily.

All the emperors also looked happy.

But at this moment, a sudden change occurred.

In the sky, the thousands of miles of calamity clouds rolled again.

Deep in the central red calamity cloud, it was boiling.

After a moment, unexpectedly, The golden calamity cloud was born, spread slowly, and reached a hundred miles before stopping. It exuded the power of the calamity cloud that was dozens of times stronger than before, overwhelming the heavens and the earth, and scorning everything!

Buzz~! As soon as the power of that day appeared, everyone's ears There was a buzzing sound, like the low voice of heaven...

Fear~! Fear~! Endless fear~!

Spreading in the hearts of the emperors, their minds gradually went blank,.....

They feel like they are just ants, looking up at the unknown horror.....

In the air, Qin Feng was extremely shocked.

As far as he knew, the test of heavenly tribulation faced by Star Lord-level potential was also twelve heavenly tribulations, because twelve was the number of perfection.

The only difference is that the twelve heavenly tribulations with Star Lord level potential are much more powerful.

But he has already survived twelve heavenly tribulations!

Why are there still golden calamity clouds appearing now?

Is there another heavenly calamity on top of the twelve heavenly calamities? how so?

Is there any higher qualification than Star Lord? Or some other reason.

At this moment, Qin Feng actually felt fear.

The power of the golden calamity cloud was so terrifying that he couldn't help but tremble slightly.
.....

At this moment, a burst of thunder roared deep in the golden calamity cloud.

Click~!

A golden thunderbolt instantly illuminated the entire world and struck Qin Feng.....

At this moment, everyone could not see the sky, the earth, people, or Qin Feng. There was only endless golden light in their eyes...

It was as if all the light in the sky and the earth were swallowed up by golden thunder.....

A strong sense of fear was born in the hearts of the emperors, as if in the next second, everyone and the earth would be blasted to pieces by the golden thunder...

That kind of terror was so real that it made people extremely desperate and unable to extricate themselves!

In the air, Qin Feng saw the golden tribulation thunder and instantly felt the danger, and the hair on his body stood up.

The power of this golden tribulation thunder was dozens of times stronger than the twelfth tribulation thunder.

The twelfth heavenly tribulation had already made him feel pain.

If this was dozens of times stronger, he wouldn't dare to devour it, and was ready to sacrifice six spirit skulls to resist.

But at this moment, he felt a throbbing feeling in his heart.

The hint of luck came again at this moment!

That luck actually suggested that if he swallowed it directly, it would have endless magical effects.

Qin Feng hesitated for a moment, then he felt cruel and opened his mouth to devour.....

Boom~!

Devoured by divine thunder!

Qin Feng's body was destroyed by the power of divine thunder, and the boundless pain almost made him lose consciousness.

In the blink of an eye, Qin Feng's internal organs exploded, his cells were shattered, and even the cell nuclei collapsed into powder, and his soul was also destroyed by the golden god. Thunder melts quickly.....

Before his eyes, Qin Feng was about to die and turn into ashes in the thunderstorm.....

At this extremely critical moment, Qin Feng used his time ability.

His time ability is very weak and can only affect a one meter radius.

But this is enough!

One meter in radius is enough for him to affect the flow rate of his own time.

At the moment, he slowed down the destructive speed of the divine thunder by half, and at the same time, he was running his true will to repair his body and doubled the time.

One goes and the other goes up. With the help of time ability, the repair speed actually reaches a balance with the destructive speed of the divine thunder.

Under this delicate balance, Qin Feng's god-level devouring is speeding up, and the power of the divine thunder is slowly being devoured and digested.....

His body!

His soul!

His Yuan Power!

They are all evolving in an all-round way!

His strength is improving!

As his strength increased, his body's repair speed gradually exceeded the destructive speed of the divine thunder..

Chapter 414

a long time! a long time!

Qin Feng finally digested the golden thunder!

The golden light between heaven and earth gradually dispersed.

People's attention is restored.

At this moment, everyone saw that under the calamity cloud, Qin Feng's clothes were flying, standing proudly, with a domineering momentum.

He successfully survived the golden catastrophe!

The next second, the mutation regenerated.

I saw that in the sky above Qin Feng's head, the calamity clouds that were supposed to disperse turned into thousands of clouds, filled with auspiciousness, and various auspicious beasts such as unicorns, dragons and phoenixes, swaying their heads and tails, walking among the auspicious clouds.

Such boundless auspiciousness falls from the sky!

Countless smallpox, sweet rain, golden lotuses, necklaces, and hanging beads fell from the auspicious clouds, and the fairy music filled the air, and the whole sky celebrated together.....

In the sky, clouds of clouds hung down from the sky again, stretching for thousands of miles, pouring into Qin Feng's body, making his momentum surge all the way.....

Wait until all the clouds are swallowed up!

Two holy flowers appeared above Qin Feng's head.

A golden flower is the flower of the other shore.

A jade-colored flower is the flower of the soul.

Both flowers bloom at the same time.

The flower blooms with nine petals, and the fragrance is overflowing!

At this moment, Qin Feng's whole body was filled with purple light, which shot straight into the sky thirty-three days away...

Above his head, there were thousands of clouds gathering, like an umbrella, like an imperial canopy, extremely majestic.....

He looks down upon hundreds of millions of people!

The boundless imperial power fell, and hundreds of millions of people and many emperors knelt down to celebrate the success of Emperor Qin in overcoming the tribulation!

This scene is deeply imprinted in the minds of all living beings.....

"Ding! Congratulations to the host for completing the tribulation and breaking through to nine stars...the combat power has increased several times....."

"Ding! Congratulations to the host, the physical strength has increased to the ultimate emperor level (foundation period), the flower of the other side has bloomed, with nine petals, and the combat power has been greatly improved....."

"Ding! Congratulations to the host, the soul strength has been increased to the ultimate emperor level (foundation period), the flower of the soul has bloomed with nine petals, and the combat power has been greatly improved....."

"Ding! Congratulations to the host, the qualifications have been greatly improved, and the dragon god inheritance awakening has been increased to 85%....Combat power greatly increased....."

"Ding! Congratulations to the host, the awakening degree of the eighth consciousness has been increased to 9%, and the time ability has been improved....."

"Ding! Congratulations to the host, the integrity of the Heavenly Tribulation Divine Seal has been increased to 80%, and the power of the Heavenly Tribulation Divine Thunder has been upgraded to Lunhai level (ignoring all defensive true meanings)....."

"Ding! Congratulations to the host, your luck has been greatly improved....."

At this point, Qin Feng's combat power has exceeded 7 trillion in one fell swoop, far exceeding the Great Emperor of the Great Perfection of Foundation Establishment, and not far from the 10 trillion combat power threshold of the Wheel Sea Realm.

And stepping into the Wheel Sea Realm means stepping into the ladder to heaven, and you will become a giant in the universe.

Therefore, the great emperor of the Wheel Sea Realm is also called the Patriarch of the Tianlai Realm.

Of course, Qin Feng gained more than just this.

He also gained the ability to time, as well as the mysterious power of luck.

This time, his gains were too great.....

But Qin Feng didn't know that the moment he completed his tribulation, he had already alarmed some of the top figures in the universe.

Deep in the distant universe, in the vast starry sky, something is happening.

Black holes are one of the most terrifying things in the universe.

A black hole is not a real hole, but a terrifyingly dense celestial body.

It can absorb all surrounding stars, even light cannot escape, and time and space must be distorted, so its true appearance cannot be seen.

At this moment, deep in the universe, a black hole object is swallowing a huge star.

The star, dozens of times larger than the sun, was disintegrating inch by inch, and the material on its surface was being pulled and absorbed by the black hole.

It is getting closer and closer to the black hole, and its size is getting smaller and smaller.....

But no one knew that there was an extremely huge altar on the black hole celestial body.

Sitting cross-legged in the center of the altar was an old man in black, who was hundreds of millions of feet tall and towering over the sky.

Next to the old man, there were two people sitting, both tens of thousands of feet tall, like two slaves.

It's just that the auras of these two slaves are actually at the master level.

The stellar energy swallowed by the black hole celestial body was absorbed by this altar, and then 90% was converted to the old man, and the remaining 10% was converted to the two masters.

At this moment, the old man in black seemed to sense something. He suddenly opened his eyes and looked at the outside world in shock.

"Master, what's wrong?", a master was shocked

"Just now, I sensed that someone had passed through the thirteenth heavenly tribulation!", the old man in black looked serious.

The two masters were slightly stunned.

One of them asked doubtfully: "Master, isn't there a maximum of twelve levels of heavenly tribulation? The so-called nine is the extreme and twelve is the perfection. How come there are thirteen levels?"

The old man in black shook his head: "It's not just the twelve levels. There are a number of mutations in this world, and some existences have reached the thirteenth level!" Thirteen! Thirteen! This is a weird number!"

The old man in black actually showed anxiety.

Another master seemed to have noticed something and hurriedly asked: "Master, is it unlucky for someone to survive the thirteenth level of tribulation?"

The old man in the dark night sighed: "Thirteen! Thirteen! Weird numbers! It's hard to determine whether this number is good or bad! It doesn't matter if that person fails to overcome the tribulation, but if he succeeds in overcoming the tribulation and the Lord of Weirdness returns, the universe may be facing another catastrophe! The master was shocked:"

Master, it has only been 500 million years since the last cosmic catastrophe, why is there another catastrophe?" So can we stay out of trouble this time?"

"It's hard to say! It's hard to say!", the old man just shook his head.

Another master also asked uneasily: "Master, can you deduce the location of the strange master?"

The old man sighed: "It can't be calculated!" Not to be pushed! The lord of weirdness is protected by luck. If you make a rash calculation, you will be jealous of heaven!"

At this moment, the two masters looked at each other, and they were extremely shocked.

.....

At the same time, somewhere else in the universe.

Deep in a nebula, a giant larger than the banking system woke up from his deep sleep.

He looked at the starry sky in the distance with a shocked face, muttering silently

"Thirteen! Thirteen! Either the world will be prosperous or the world will be destroyed!"

A deep sigh.

The giant closed his eyes again and continued to sleep.....

On the other side, above the earth.

Over Nandu City.

Qin Feng doesn't know everything about the outside world.

At this moment, he was happily observing his own changes, and with a thought, he put away the Flower of the Other Side and the Flower of Soul.

The glow around him and the clouds above his head also converged.

Everything is back to its original nature, simple and unpretentious.

At this time, Emperor Feng, Chu Chu and others flew up and celebrated.

The emperors and hundreds of millions of people were all delighted

"Dad, you are so awesome!" Qin Baobao rushed over with admiration.

She has only survived the twelfth level of tribulation, but her father has survived the thirteenth level.

In her opinion, he is much more powerful than her.

Qin Feng hugged her lovingly

"Your Majesty, you have broken through to the Nine-Star Emperor. Are you going to Tianfu Star to be promoted to the fifth-level star realm immediately? Emperor White

Tiger asked excitedly.

Qin Feng smiled slightly:"After handling some trivial matters, we should be able to set off." However, it will take a few days. This emperor still has to wait for someone else!"

"Is Your Majesty waiting for the Golden Crow Emperor?", Emperor Feng asked curiously.

Qin Feng nodded slightly:"Not bad!"

"Chu Chu, you have to work hard! Before I kill the Golden Crow Emperor, if you haven't broken through to the Tribulation Stage, I won't take you to Tianfu Planet this time....."

"Brother, don't worry, I can do it!"Chu Chu was also a little anxious. She didn't want to miss this opportunity.

"Baby, come down! These days, you are practicing with your aunt, trying to improve your strength before leaving....."

"OK, Dad! The baby also likes her aunt very much!"

Soon, Qin Feng dismissed everyone and left alone.

He hadn't received the god-level challenge reward yet.

He wanted to see what good things this reward contained..

Chapter 415

After a while, Qin Feng returned to the secret practice room.

As soon as he waved his hand, dozens of groups of nine-star origin appeared in front of him.

He opened his mouth and sucked it all in.....

"Ding! Successfully swallowed the origin of Nine Stars...the cultivation level broke through to Nine Stars 7%....Combat power increased to 7.2 trillion....."

Far from enough!

Qin Feng took out the origin of the Nine Regiments Emperor (foundation stage) and swallowed it....

"Ding! Successfully swallowed the origin of the Nine-Star Emperor (foundation period)...his cultivation level broke through to Nine-Star 61%....Combat power increased to 10 trillion....."

Still not enough!

Qin Feng waved again, and a total of 30,000 Xingxi stones appeared in front of him.

He opened his mouth and sucked it in, devouring it at the god level and running it with all his strength.

Additional time ability, increased devouring speed.....

"Ding! Successfully swallowed the Xingtide Stone...his cultivation level reached the peak of nine stars....Combat power increased to 12 trillion....."

"It has reached the peak of nine stars so quickly!"

Qin Feng felt very happy.

His current combat power is 12 trillion, which is equivalent to a first-level master. The combat power range of the first-level realm is 10 trillion to 5 billion.

Next, he only needs to realize a true meaning. When it reaches 100%, by condensing the Divine Seal of True Meaning, he can build a foundation and break through to the realm of the Great Emperor.

Therefore, his next training task is to comprehend the true meaning.

Now, his perception of the true meaning of destruction is 35%, and his true meaning of destruction is 50%.

"That's right!"

Qin Feng seemed to have thought of something and took out the Liangyi True Meaning Divine Seal from the storage ring.

Item: True Meaning Divine Seal

Category: Liangyi True Meaning (Supreme True Meaning)

Note: After swallowing, there is a 20% chance of getting two true meanings.

"The success rate has increased from 10% to 20%. It seems that my talent potential has been greatly improved!"

Qin Feng was delighted.

As long as he found a way to increase the probability, he would be able to obtain the third supreme true meaning.

After doing this, Qin Feng opened the system panel and checked the rewards for the god-level challenge.

He read the reward list carefully.

This time God-level challenge rewards are as follows:

Reward: 20 Creation Pills. Reward: 100 Soul Body Pills.

Reward: 2 True Meaning Awareness Stones.

True Meaning Awareness Stone: After swallowed, it will increase the True Meaning Perception.

Ordinary True Meaning (can increase the perception by 10-20 %)

Top true meaning (can increase perception by 5-10%)

Supreme true meaning (can improve perception by 1-5%)

Qin Feng was delighted, this is definitely a good thing!

As can be seen from the list above, the improvement of supreme true meaning It is also the most difficult.

Reward: Nine-turn Golden Body Skill Stone (Lun Hai-level body forging technique, first turn) is another good thing!

He currently only has one of the Lun Hai-level exercises and skills, and that is Heavenly Tribulation Divine thunder can ignore all defensive true meanings.

If the destructive power of the true meaning of destruction is added, it is simply a weapon for cross-level challenges.

Now, he has another wheel-level skill.

Reward: 1 Demon Ancestor Residual Spirit

Talisman Notes : One-time consumable item; used once, you can collect a group of remnant spirits of the Demon Ancestor scattered in the corners of the universe.

"Tsk tsk!! Good stuff again!"

Qin Feng was delighted and continued reading.

Reward reminder: The host's clearance time is within 10 minutes, so the reward is tripled.

The final reward list is as follows:

Reward Good Fortune Pill: 60

Reward Soul Body Pill: 300.....

Reward True Meaning Stones: 6.....

Nine-turn Golden Body Skill Stone: 3 (1st, 2nd, 3rd)

Demon Ancestor Remnant Spirit Talisman.

Also comes with special rewards: a light source bead (perfect level), a fire source bead (perfect level) pellets.

After reading the information, Qin Feng was overjoyed.

Not only has this reward been tripled, but it also comes with two special rewards.

By refining light source beads and fire source beads, you can obtain light and fire talents.

Although he can't use it, Chu Chu and Bao Bao can.

In this way, the strength of Chu Chu and Bao Bao will be greatly increased.

The system has been stingy for so long and is finally generous.

At the moment, Qin Feng waved.

There was a space fluctuation in front of them, and Chu Chu and Bao Bao were summoned.

"dad!"

"Brother, are you looking for us?"

Chu Chu is wearing a bathrobe.

She is a girl of fourteen or fifteen years old, with a beautiful face and a well-developed body, looming.

The baby is even more exaggerated. There seems to be nothing on her body, only soap bubbles.

However, she is a five- or six-year-old child. Baby, it's nothing

"Um, you two....."

When Qin Feng saw this scene, he slapped his head and felt a little embarrassed.

He thought these two were practicing, so why did they run to take a shower?

Fortunately, Chu Chu was wearing a bathrobe, otherwise it would have been even more embarrassing

"Poof~! ", but Chu Chu was happy,"Brother, didn't you often see me wearing a bathrobe before, and you weren't so shy...."

"Silly girl, that happened when I was a child, you are grown up now!"

"what the hell! I'm only fourteen years old, I haven't grown up yet!"

"Although you are not very old, you are growing quickly. Look at you.....Forget it, let's not talk about that. Didn't you say you wanted to retreat before? It seems that next time I call you, I need to communicate first!"

A picture suddenly appeared in Qin Feng's mind.

For example, one of his subordinates was playing a trumpet, and he suddenly summoned him. That picture would be so touching!

"Baobao said that she had experienced a lot of battles these days and her body was dirty. She wanted to take a comfortable bath first before going to retreat, so I helped her take a bath....."

"yes! Dad, my aunt helped me take a bath, I was so happy! Dad, would you like to come and take a shower together? It feels so comfortable!"

The baby looked cute.

Qin Feng was a little speechless.

However, he couldn't blame him for his childish words.

"Take these two spirit beads and refine them!"

Qin Feng flicked it casually.

The light source bead (perfect level) flew towards the baby.

The fire source bead (perfect level) flew towards Chu Chu

"Dad, what is this? Can it be eaten?"

Qin Baobao swallowed his saliva, his big eyes were filled with bright light, and his nature as a snack food was exposed again.

"This is not for eating, it is for refining."

Qin Feng has to worry.

If the little guy is really eaten, he will be in trouble.

"Brother, what is this?", Chu Chu also asked curiously

"This is a long story, you will understand when you take it back and refine it. By the way, take these too!"

Qin Feng flicked his fingers again, and the two storage rings flew towards Bao Bao and Chu Chu respectively.

When they took the storage rings, they both looked surprised.

There were ten good fortune pills in those two storage rings. and thousands of tidal stones

"Wow! Dad, there are so many star stones!"

"Brother, why did you give us so many star stones? Keep it for yourself! Qin

Feng smiled slightly:"I have reached the bottleneck of the Nine Stars Peak. I can't use the Xingxi Stone for the time being. You can use it!" Besides, I still have quite a few...."

Qin Feng is telling the truth. He still has more than 20,000 Xingxi stones left on him, and there are too many resources to use up.

"oh~! ", Chu Chu was relieved of her men.

Immediately, she thought of something and said in surprise:"Brother, have you broken through to the peak of Nine Stars?"

"yes!"

"so fast!", Chu Chu was shocked

"Wow! Dad, you are so awesome!", Qin Baobao looked adoring again.

Qin Feng smiled and said nothing.

Then, he smiled and urged:"Chu Chu, take the baby to take a bath, she has her butt naked all the time, it is too indecent!"

"Baby, let's go~! "

Chu Chu took out two sets of clothes from the storage ring.

After she and the baby put it on, they left happily.

This is the forbidden area of Qin Feng's palace. Except for the three of them, no outsiders dare to break in.

After Chu Chu and Bao Bao left, Qin Feng summoned Emperor Feng over again.

The two of them had a good rapport and smiled when they saw each other.

"good! You have realized the true meaning of fire....."

Qin Feng admired Feng Di's beautiful figure and gently held her in his arms.

Over this period of time, Emperor Feng's strength has greatly increased, reaching a combat power of 30 billion.

"It's a pity that the true meaning of the light system has not yet shown signs..."

Emperor Feng looked up at his man, his eyes full of tenderness.

"These ten creation pills should help you realize the true meaning of light system....", Qin Feng casually took out the Good Fortune Pill.

Emperor Feng exclaimed:"You have obtained so many high-grade elixirs. I really don't know how you did it."...."

Qin Feng smiled and said nothing, and handed over another storage ring.

Emperor Feng took it and took a look, extremely shocked.

There are actually massive resources inside.

There are all kinds of elixirs, weapons, medicinal materials, jade charms, star stones, etc.

"What are you...."

"Qinmen is developing and needs a lot of resources. How to allocate and arrange these resources is up to you!

Emperor Feng hesitated:"Qin Feng, don't you keep some for yourself?" Qin

Feng smiled slightly:"These resources are basically useless to me, but they are of great use to the Qin Clan!"

"I understand!", Emperor Feng silently put away the storage ring.

Qin Feng gave her full authority to handle these resources, which also established her absolute authority in the Qin Clan.

Let her better manage the Qin Clan and consolidate the rear for Qin Feng.

A quarter of an hour later, the two lingered for a while.

Emperor Feng also left.

Qin Feng then took out the system reward.

He wanted to digest these resources and improve himself again..

Chapter 416

Qin Feng first took out the True Meaning Awareness Stone and swallowed one...

God-level devouring movement, a wonderful energy seeped into the depths of his soul.

He opened his eyes and found that the world had changed and turned into a strange world connected by countless dots and lines.....

Those points, those lines, are the essence of this world.

Qin Feng understood clearly in his heart and thought about how to understand the true meaning of destruction.....

"Ding! Devouring the True Meaning Stone Successfully.....The perception of the true meaning of destruction increases by 3%...Combat power is improved....."

"not bad!"

Qin Feng is relatively satisfied.

A true meaning perception stone can improve the supreme true meaning by 1% to 5%.

He has improved by 3%, which is considered normal performance.

At the moment, he continues to devour

"Ding! Devouring the True Meaning Stone Successfully.....Perseverance of Endless True Meaning increases by 4%...Combat power is improved....."

"Ding! Devouring the True Meaning Stone Successfully.....

In the blink of an eye, Qin Feng swallowed 5 true meaning stones in a row, the highest was only 4%, and 5% had not yet appeared.

Qin Feng was a little depressed and swallowed the last true meaning stone.....

"Ding! Devouring the True Meaning Stone Successfully.....Luck power added.....The perception of the true meaning of destruction increases by 10%...Combat power greatly increased....."

"Huh! It can still be like this!"

Qin Feng was overjoyed and felt as if he had won a big prize!

It turns out that the power of luck has such a wonderful effect. It's so cool!

In this way, his perception of the true meaning of destruction has been increased to 55%, and his true meaning of destruction has been increased to 54%, and the battle The power increased to 12.25 trillion, which was a big improvement.

Later, Qin Feng swallowed the Nine-turn Golden Body Skill Stone (the first turn)

"Ding! Successfully swallowed the skill stone...Cultivating the first turn of the Nine-turn Golden Body.....Need a lot of energy to replenish....."

At the same time, Qin Feng clearly sensed that his body was feeling extremely hungry, as if it needed a lot of energy to replenish...

With a move in his heart, he summoned a thousand Xingxi stones and swallowed them...

That majestic The energy immediately surged into every cell in his body....

"Ding! Congratulations to the host.....The First Transformation of the Nine-Transformation Golden Body (Lun Hai Level)... Combat Power Increased by 250 Billion....."

At this moment, Qin Feng's whole body glowed with golden light, his energy and blood were majestic, and the world trembled.....

"Ding! Successfully swallowed the skill stone...Cultivating the second turn of the Nine-turn Golden Body.....Need a lot of energy to replenish....."

"Ding! Congratulations to the host.....The Second Transformation of the Nine-Transformation Golden Body (Lun Hai Level)... combat power increased by 500 billion....."

This time, Qin Feng consumed 2,000 Xingxi stones before he could reach the second level. His energy and blood surged, and his physical body strengthened again.....

"Ding! Successfully swallowed the skill stone...Currently practicing the third turn of the Nine-turn Golden Body.....Need a lot of energy to replenish....."

This time, Qin Feng consumed more than 4,000 Xingtide stones.....

"Ding! Congratulations to the host.....The Third Transformation of the Nine-Transformation Golden Body (Lunhai Level)... combat power increased by 1 trillion....."

"Ding! Congratulations to the host... the flower of the other shore blooms again, with ten petals, the body is immortal, and the combat power increases by another 1 trillion....."

I saw the golden flower of the other shore emerging above Qin Feng's head, blooming again, and indeed it had ten petals...

Qin Feng opened his eyes with a look of ecstasy.

The flower blooms with ten petals, which can only be done by a strong person in the first round.

Qin Feng was still at the peak of the Nine Stars, but he relied on the Nine Turns Golden Body to reach the point where a flower blooms with ten petals, which is unimaginable.

You know, the flower on the other side blooms with ten petals, which represents the immortality of the physical body.

Even after being dead for countless billions of years, the physical body can still exist intact and be immortal.

The remains of the great emperor that Qin Feng saw in the Mars Temple were only a skeleton, but he had not reached the Wheel and Sea realm and his physical body was gone.

To a certain extent, Qin Feng and the Great Emperor of the First Stage have many similarities.

Firstly, they have similar combat power, and secondly, they both have the same flower with ten petals.

But in a battle of equal strength, Qin Feng would most likely win.

This is because he has mastered two supreme true meanings and awakened the eighth consciousness. The power of elements is the power of chaos that suppresses all elements.

And many first-level emperors have only one true meaning, most of which are top-level true meanings. They have only awakened the seventh consciousness, and their elemental power is still suppressed by Qin Feng.

In addition, Qin Feng also has luck to protect him, which also affects the battle situation.

In this comparison, with the same combat power, the first-level emperor is no match for Qin Feng.

Unless their combat power is much stronger than Qin Feng.

At this point, Qin Feng's combat power reached 15 trillion.

Qin Feng was very satisfied.

Then, he summoned the golden puppet and took out the Demon Ancestor's Remnant Spirit Talisman.

Qin Feng sacrificed the talisman.

For a moment, it seemed as if the entire universe had a response, and unpredictable power began to manifest.

Above the earth, the atmosphere is outside..

The phantom of a demon god standing hundreds of millions of feet in height quietly appeared.

The demon god has the face of a human and the body of an animal, with green snakes hanging from his ears and a mad dragon on his feet. His aura is extremely domineering. He just looked numb and lost his mind.

Qin Feng knew that this was the weather demon ancestor among the twelve demon ancestors - Ancestor She, who controlled the two elements of water and wind.

Ranked at the bottom of the Twelve Demon Ancestors in terms of strength, he is half a step above the Star Master level.

Qin Feng's golden puppet is the twelfth golden figure, which was cast for Ancestor She, and the remnant spirit of Ancestor She lives inside.

The person summoned by this jade talisman was naturally the remnant spirit of She Ancestor.

At the moment, Qin Feng made several seals.

The remnant spirit of She Ancestor in the starry sky automatically turned into a fist-sized ball of light, falling from the sky to the earth, and finally fell into the golden puppet in the secret room.

Subsequently, the remaining spirit of the group automatically merged with the remaining spirit in the golden man's body.

The two have the same origin, and they merge very quickly.

As the fusion progressed, the Jin's combat power skyrocketed.

After a while, the fusion was completed, and the Jinren's combat power increased to 3.1 trillion.

Qin Feng was pleasantly surprised, this Demon Ancestor Residual Spirit Talisman was really easy to use.

At this time, the summoning of the first jade talisman was completed and turned into powder automatically.

All this process happened very quickly and quietly, and no one on the earth noticed it.

At the moment, Qin Feng offered up the second Demon Ancestor Remnant Spirit Talisman.

After a while, the second group of the remnant spirits of She Ancestor was collected and integrated with the golden puppet, and the combat power was once again increased to 5.1 trillion.

Soon, the third jade talisman was sacrificed, and the golden puppet obtained another residual spirit, and its combat power was increased to 8 trillion.

Qin Feng was ecstatic and got another powerful assistant.

The benefits brought by this demon ancestor's residual spirit talisman were far beyond his imagination.

This also made him understand that if he wanted to quickly increase the Jin people's combat power in the future, just collecting the remnant spirits of the Demon Ancestor would be enough.

Perhaps, as long as he collects all the remaining spirits, he can raise the Jin man's strength to the dominant level.

At this thought, Qin Feng was full of expectations.

Next, he put away the golden puppet, took out a large number of Jiulin flowers and auxiliary materials, and began to refine the Jiulin Pill...

This matter has also been delayed for a long time!

Time flies.

In a blink of an eye, five days passed.

On this day, Qin Feng came to the depths of the cave in the center of the earth.

In the past five days, he had refined more than 2,000 Jiulin flowers and obtained nearly 10,000 Jiulin pills.

That is equivalent to nearly ten thousand Xingxi stones, which is also a huge wealth.

His resources are becoming more and more abundant.

After handling those trivial matters, Qin Feng came to this mysterious cave in the center of the earth.

Before he leaves the earth, there are two things that must be dealt with.

One is the Golden Crow Emperor, and the other is the cave in the center of the earth.

Today, he wanted to see what the monster deep in the cave was.

Also, is there a secret treasure hidden deep in this cave?

This time, Qin Feng's strength increased greatly.

The repulsive force in the cave had no effect on him.

He strode towards the cave.

A quarter of an hour later, he arrived at the place where he last found the Liangyi Yuan magnet.

Inside the cave, it was pitch black.

Qin Feng looked into the depths of the cave, which was dark and quiet. It was like looking into an abyss, and the atmosphere was a bit depressing.

He didn't hesitate and walked straight into the abyss.

Da~! Da~! Da~!

In the silent cave, the footsteps seemed particularly loud.

At this moment, Qin Feng sensed that the monster in the cave had awakened.

Roar~!

A low roar came from the depths of the cave, suppressing endless anger.

It seemed to recognize Qin Feng.

Immediately, there was a sound of running deep in the cave!

Boom~! ...Boom~! ..Boom~!

The demon actually took the initiative to kill him!

The corners of Qin Feng's mouth curled up slightly, and he went straight to meet him...

Boom~! Boom~! Boom!.....

The footsteps are getting louder and louder!

The two sides are getting closer and closer! one hundred meters.....eighty meters.....Fifty meters...twenty meters....

Qin Feng finally saw it.

I saw ahead, deep in the darkness, a demon with the head of a bird and the body of a human body, rushing towards me with murderous intent.....

"Could it be him?!."

Qin Feng was shocked when he saw the appearance of the demon clearly.

This guy seems to be the floating corpse in space that the Fire Emperor had seen!

It is also the object that the Starry Sky Orcs have been searching for!

But isn't he dead?

Why is he there again ? Alive!

Still appearing deep in the heart of the earth!..

Chapter 417

Qin Feng suddenly had an enlightenment.

The Nightless Star Emperor and the Gale Emperor followed the floating corpse in space and came to the vicinity of the earth.

But when it arrived, the induction was cut off.

Could it be that there is something deep in the cave that can cover up the aura of this floating corpse, making the detection methods of Wuye Star Emperor and others useless.

Just as he was thinking about it, the demon with the head of a bird and the human body was already approaching.

Qin Feng saw it more clearly.

This monster has a bird-like head like a phoenix. It is wearing a white shirt, its eyes are blood red, blood is shining all over its body, and its murderous intent is everywhere!

"kill!"

The demon roared, sound waves swaying in all directions, the sky was dark and the earth was dark. In an instant, Qin Feng's whole body's energy and blood were aroused, and even his soul was affected.

Illusions appeared in front of his eyes. In front of him was a sea of blood, and in his ears were endless shouts. The sound of killing was shocking!

"Huh! This is the supreme true meaning - the true meaning of killing!"

Qin Feng was surprised.

His vision is much higher now than before.

This demon actually mastered a supreme true meaning, which surprised him.

Among the many great emperors he has seen, only the Yin Yang Little Demon Ancestor has mastered the supreme true meaning. That guy It has the potential to dominate.

It seems that this demon has extraordinary potential!

While thinking about it, the demon has already killed Qin Feng.

"kill! kill! kill!!"

The sea of blood surged, and millions of blood swords rushed out of the sea of blood, overwhelmingly shooting at Qin Feng. The attack momentum in this scene actually reached five trillion.

The demon's injuries seemed to have recovered a lot, The combat power is obviously much stronger than last time.

"Ah!", Qin Feng sneered.

The illusion of the sea of blood was shattered!

The million blood swords disappeared!

"bring it on!", Qin Feng waved his hand!

The space skill - Sky Capture!

Activate!

The two people disappeared out of thin air!

The next second, the two people appeared outside the earth, in the dark starry sky.

Qin Feng deliberately brought the demon out of the center of the earth.

He was worried that the battle between the two would cause damage to the earth.

With his current strength, every move would cause heavy damage to the earth.

This demon also has the strength of the Great Emperor and also has huge destructive power on the earth.

At this moment, the demon was stunned. For a moment.

There was some intelligence in the blood-red pupils, and he looked at the surrounding starry sky with a puzzled look.

Immediately, his eyes moved to Qin Feng, and then he remembered what happened before, and roared to kill him again.

"kill! kill! kill!"

This time, the demon relied on its own essence and blood.

It coagulated blood and turned into a sword! The ten thousand

-foot blood sword shot out of the air!

Cutting the sky and destroying the Tao! Go straight to Qin Feng!

The power of that sword suddenly reached one hundred trillion combat power, cutting all the way Open the space barrier and destroy the world.....

"good!"

Qin Feng couldn't help but admire.

This demon's own combat power is only about 30,000.

But he can exert an attack of 10 trillion!

This is the effect of the true meaning of killing.

The true meaning of killing and the true meaning of destruction are both the main attack. The true meaning.

The difference is that all attacks of the true meaning of destruction can be amplified, such as spiritual attacks.

The true meaning of killing can only amplify the Yuanli attack!

In the blink of an eye, the blood sword is close to Qin Feng's head.

"roll!"

Qin Feng shattered the blood sword with one finger.

In an instant, the blood light shone for billions of miles, and the starry sky trembled for a million times!

The demon was directly blown away tens of thousands of meters.

Qin Feng teleported to catch up.

"die!"

Qingtian slapped it down with a palm!

Boom~!

The demon roared miserably, and was slapped dozens of miles away. Blood spurted out from all its seven orifices!

"Huh! Why is everything okay?"

Qin Feng was surprised.

Now, his combat power has reached 15 trillion, plus the increase of the true meaning of destruction, he can blast the body of the Foundation Establishment Dzogchen Emperor into powder with one palm.

This demon's combat power is only 2 trillion. Even if it is not a piece of cake, it should be broken into pieces.

But this guy's body is actually intact.

The strength of this body exceeds Qin Feng's expectation.

He quickly teleported and reached the sky above the demon's head.

The demon's eyes were closed tightly, and he had already fainted. He died.

It turned out that although this demon was extremely strong physically, his soul was very fragile. He was knocked unconscious by Qin Feng's palm.

"What a strange guy!"

Qin Feng observed silently.

Soon, he discovered that the demon's physical body had a golden halo.

This was clearly a sign of the physical body's completion.

In other words, this demon was once the emperor of the first round realm, and had opened the first round. It is the body wheel.

The three realms of the wheel and the sea are the body wheel, the soul wheel, and the life wheel.

The life wheel is the most difficult to open, and it is basically the last one to open.

The body wheel and the soul wheel are equally difficult to open.

The first wheel that some great emperors open is the body wheel. Wheels, some are soul wheels.

The first wheel opened by the monster in front of me should be the body wheel.

If you want to kill those with strong body wheels, it is difficult to destroy their physical bodies. They often use shock to kill the soul body, because the soul body is theirs. Weaknesses.

The strength of this demon's soul is only at the nine-star level.

Therefore, even with strong physical protection, he was still shocked by Qin Feng's palm and his six senses of the soul were interrupted, and his consciousness fell into a coma.

"That's right!"

Qin Feng seemed to have thought of something, and his eyes lit up with silver light.

Memory scan!

Activate!

After a moment, the silver light in Qin Feng's eyes faded, revealing a look of surprise.

Sure enough!

Most of what he guessed were correct. Yes.

This guy used to be the Great Emperor of the First Realm, and he also had the Body Wheel turned on.

He has a great connection with the Shenfeng Clan.

The Shenfeng and Shenlong Clan were once equally powerful races.

But for some unknown reason, this demon was killed by Xingkong. The beasts chased them, and in the end the soul was shattered, leaving only the last remnant, which drifted in the starry sky with the body.

When it drifted near the earth, relying on the instinct of the remnant soul and various coincidences, it accidentally entered He entered the earth's core cave.

Unexpectedly, there were strange objects deep in the earth's core cave that could nourish the soul.

His remnant spirit, which was about to be extinguished, recovered and gradually returned to a state comparable to that of the Nine Stars.

His strength also He is slowly recovering.

What a pity!

Some soul wounds cannot be recovered!

Most of his previous memories have been lost, and his intelligence has only returned to the state of a two- or three-year-old.

With no one to teach him, he instinctively expressed... He is like a beast, wary of everything outside, and has a strong sense of self-protection.

After learning this, Qin Feng suddenly sympathized with this monster.

What's more, he also has a grudge against the Starry Sky Beast Clan.

This monster was also forced into this state by the Starry Sky Beast Clan. The enemy's enemy may not be an ally.

At this moment, the demon's eyes trembled, slowly opened his eyes, and woke up again.

He saw Qin Feng again, his eyes widened in horror, and he retreated wildly

"Where to go!"

Qin Feng waved his hand, and the space with a radius of ten thousand meters was instantly imprisoned.

The demon was immediately unable to move.

He was frightened and angry, roaring, and a huge shadow of the flower of the other shore appeared behind him.

The flower of the other shore was in full bloom, and it was actually ten flowers in bloom. Two petals.

When the flower bloomed, the demon's momentum surged.

Click~! Click~! Click~!

There were cracks in the confined space.

The monster wanted to break free.

"Huh! The flower of the other shore....."

Qin Feng looked at the shadow behind the demon in surprise.

The twelve petals of the flower represent that this demon was once in the Great Perfection.

Generally speaking, the combat power of a Dzogchen Realm is about 50 trillion.

But this demon has mastered the supreme true meaning and has the inheritance of the divine phoenix. It is the best among its peers.

His combat power definitely exceeds 50 trillion.

This demon was once a super strong man

"If you surrender! I will spare your life!"

Qin Feng's eyes suddenly lit up with silver light, and the emperor-level illusion was activated instantly.

The originally irritable and restless demon gradually calmed down, and his eyes began to appear confused.

Qin Feng was happy, it seemed like there was something going on!

Under normal circumstances, he would never be able to subdue a demon. As a slave to a great emperor, let alone an emperor in the wheel sea realm.

But the current situation is special. The demon's soul has not yet recovered. It is when he is most vulnerable and easiest to subdue.

"Still not surrendering?!"Qin Feng used all his strength to activate the illusion.

There was a look of struggle in the demon's eyes.

"If you surrender! I will help you repair your soul! Also, I can help you resolve your feud with the Starry Sky Beast Clan!"

Boom~!

The demon's giant body shook, as if he was moved.

Bang~!

The next second, he knelt down on one knee and lowered his head.

Qin Feng was overjoyed.

This guy was finally willing to surrender.

"Free your mind!", Qin Feng drew the contract runes in the air.

The demon raised his head and turned into a handsome white-haired man in the blink of an eye.

Qin Feng hid the runes between his eyebrows.

The contract between all living beings was completed instantly.

There was an extra layer of spiritual connection between the two.

The white-haired man looked at Qin Feng and became awed.

"Get up!", Qin Feng was delighted.

This time, he had another profitable subordinate.

"Thank you...Thank you, Master!"The white-haired man stood up respectfully, but his words were not very clear.

After all, his intelligence has not fully recovered yet.

"What's your name?"

The man in white thought for a moment, then stretched out his left hand.

On the palm of his hand, he saw a line of blood words engraved: My name is Bai Qi! Don't forget! Don't forget!

Qin Feng suddenly understood.

When the soul of the man in white was shattered, he was worried about the rebirth of his soul. After that, he will forget all the past memories and carve his name to remind himself in the future.

Qin nodded slightly and looked at the man again. He was white-clothed and white-haired, full of heroic spirit. He thought of the original parallel universe.

There was also a man named Bai Qi's man was once known as the God of Killing.

It's interesting that this man actually has the same name as that man!

At the moment, Qin Feng laughed and said:"Since you are practicing the true meaning of the way of killing, I will designate you as the God of Killing.""

"Thank you master!"

Although Bai Qi doesn't understand much, he inexplicably likes this title of God of Death.

Qin Feng is also in a good mood.

As long as this Bai Qi is trained a little, he will be a great general.

"Let's go! Take this emperor to see the depths of the earth!"

When he thought of the treasure deep in the cave, Qin Feng couldn't wait.

At that moment, the two of them disappeared into the vast starry sky..

Chapter 418

A quarter of an hour later, the two returned to the cave in the center of the earth and arrived at the place where they met before.

Deep inside the cave, it is still as dark as an abyss and as quiet as eternal night.

Qin Feng strode towards the cave.

Bai Qi followed respectfully.

Unknowingly, the two of them traveled tens of thousands of meters deep, and the repulsive force deep in the cave increased to a trillion force.

Qin Feng also saw changes in the cave.

After reaching the power of one trillion, the repelling power will increase a lot with every meter traveled.

And there is a faint floral fragrance in the air.

The fragrance is very refreshing. Just one breath will make you energetic and your six senses will be greatly enhanced.

Qin Feng was delighted.

It looks like we are about to reach the bottom of the cave, and there is indeed a treasure inside.

This time, Qin Feng walked several hundred meters, and the repulsive force of the cave increased to 3 trillion.

This repulsive force has increased geometrically and increased extremely quickly.

This also shows that the cave is almost at the end.

Qin Feng also made a new discovery.

I saw a spiritual flower blooming tens of meters ahead.

The spirit flower is jade-colored, has twelve petals, golden leaves, and is fragrant.

The floral fragrance in the air is what it emits

"Ding! Congratulations to the host for discovering the Emperor Soul Flower (Emperor level, high quality)....."

The so-called emperor-level boutiques are Lunhai-level treasures.

Qin Feng was overjoyed.

This Emperor Soul Flower is a sacred object that nourishes the soul!

Later, he discovered that there were several withered stems of the Emperor Soul Flower nearby.

The spiritual flowers above have already been picked.

"Bai Qi, were you the ones who picked those Emperor Soul Flowers?"

"Yes Master!"

Bai Qi answered truthfully.

His soul repair relies on the Emperor Soul Flower.

He was attracted to it in the first place.

"There is an Emperor Soul Flower ahead, why don't you pick it?"

"Master, I can't get close.....", Bai Qi briefly described.

Qin Feng suddenly realized.

The repulsive force here reached three trillion, which was Bai Qi's limit, so Bai Qi only picked a few peripheral plants.

"Just stay here!"

"yes!"

"These elixirs should be able to help you recover some soul power, take them!"

Qin Feng threw a storage ring casually.

Bai Qi took it and saw that it was full of soul and body pills, a total of a hundred.

Although he couldn't recognize what pill it was, he felt that it was good for him. It's of great use.

Bai Qi was overjoyed:"Thank you, master!"

"You can refine it here!!"

"yes! Owner!", Bai Qi respectfully accepted the order.

At that moment, Qin Feng walked in alone.

This time the system rewarded 300 soul pills.

He had just given Bai Qi 100 pills, which was enough to repair Bai Qi's soul body to the peak of nine stars.

Soul body pills are only useful for those below the Nine Star Peak and have no effect on the emperor.

Therefore, those soul body pills have no effect on Qin Feng and can only be used to train his subordinates.

The Emperor Soul Flower is a higher level and has no effect on Qin Feng's soul power. Improvement helps a lot.

Now, his Flower of the Other Side has ten petals, but the Flower of Soul still has nine petals, so it needs to be improved.

Qin Feng happily picked the Emperor Soul Flower.

Fortunately, this cave has the power of repulsion, otherwise This round of sea-level spiritual objects will all be eaten by Bai Qi.

Speaking of which, this Emperor Soul Flower is suitable for alchemy. If you eat it directly, the effect will only be one-third, which is very wasteful!

Qin Feng thought of being eaten by Bai Qi He felt a little sorry for the few flowers he picked.

Then he continued to move inside the cave.

After more than a hundred meters, he found the second Emperor Soul Flower.

Qin Feng was secretly happy. After picking it, he continued to move forward..... five hundred meters.....seven hundred meters.....one thousand meters.....

Unconsciously, Qin Feng traveled more than a thousand meters.

Along the way, he discovered three more Emperor Soul Flowers, and the cave's repulsive force also increased to nine trillion.

At the same time, dozens of meters ahead, it was no longer pitch black, but a large blue aura appeared.

The spiritual light is condensed and not dispersed. It is very dazzling but does not spread around. , you can only see it if you are tens of meters closer.

This phenomenon goes against common sense of physics and is very weird!

In addition, the aura can block the detection of spiritual consciousness, making Qin Feng unable to see things in the aura.

Is the bottom of the cave ahead?

Qin Feng took a deep breath, feeling a little expectant and a little nervous.

But at this moment, soul power fluctuations came from the spiritual light.

A very kind consciousness came and actually summoned Qin Feng.

Qin Feng also felt that this consciousness was very friendly inexplicably.

At that moment, he walked over quickly.

In just a moment, he approached the light curtain, stepped in, and his eyes suddenly opened up.

Qin Feng looked at the scene in front of him in surprise.

This is a huge space, with a radius of hundreds of miles, far larger than he imagined.

The space is filled with the fragrance of flowers.

Qin Feng looked around and was stunned.

The Emperor Soul Flower, which he cherished very much before, was everywhere here.

They grow densely and in patches, with thousands of them in total.

This time I made a fortune!

You know, an Emperor Soul Flower on Tianfu Star can be worth 100 Xingtide Stones.

Qin Feng did a rough calculation and found that there were at least three to four thousand Emperor Soul Flowers here, which equals three to four hundred thousand Xingtide Stones!

Qin Feng looked up into the sky again.

There was a huge ball of blue light suspended there.

Qin Feng was like an ant in front of it.

The appearance of the light ball is the same as that of the earth.

There are oceans, mountains, snow-capped mountains, deserts, cities, and even people and monsters can be seen traveling across the continent.....

Qin Feng also found Nandu City above.

He saw the Turtle King directing the expansion in the city.

Everything that happens on the earth will be projected on this light ball.....

"This should be the Star Soul!"The more Qin Feng looked at it, the more delighted he became.

Only a planet with a star soul can give birth to life. To a certain extent, this star soul is the mother of all living things on the earth.

It brings with it all the creatures that were not born on its own planet. It is hostile to the creatures born on this planet. It only shows intimacy and is willing to get close to the creatures born on this planet.

At this moment, the star soul issued a friendly call to Qin Feng.

Qin Feng immediately thought of a rumor.

If you want to get close to the star field, you can only reach the battle strength of Ten trillion is the threshold of the First Stage Realm.

In fact, this is a test.

After passing this test, you will be recognized by the Star Soul and get a huge benefit.

It seems that your new opportunity has come!

Thinking of this, Qin Feng took a step forward and flew towards Xinghun..

Chapter 419

Rumor has it that anyone who passes the test of Star Soul will be recognized by Star Soul as their master.

And those who obtain the Star Soul will receive incredible benefits.

Of course, only native-born people will be recognized.

People from the outer star realm, no matter how strong they are, will not be recognized by the star soul.

After a while, Qin Feng flew to Xinghun's side.

An extremely kind consciousness came from the star soul.

Qin Feng closed his eyes and communicated with that consciousness.

After a moment, a look of joy appeared on his face. really!

Those rumors are true!

Xinghun must take the initiative to recognize Qin Feng as his master.

Qin Feng readily agreed.

At this moment, Xinghun was also in a state of excitement.

You must know that a strange existence like Star Soul does not have an unlimited lifespan.

As a star soul grows, it will also weaken and die.

When the star soul dies, the species on this planet will become completely extinct and eventually become a Death Star.

Star souls have souls and thoughts, so naturally they don't want to die.

The way they want to survive is to recognize a strong person as their master and achieve symbiosis.

This strong man must have the strength of one level or above.

If it is too weak, not only will it not be able to help the star soul, but it will also cause the star soul to be consumed too quickly and accelerate aging.

This is why the Star Soul Association arranges assessments.

There is another condition, which is that the star soul can only reach soul unity with the person born on this star, that is, the contract is reached. pity! The Wheel Sea Realm is too difficult to break through.

Among millions of living planets, only one emperor of the Wheel Sea Realm can be born.

The vast majority of star souls on living planets eventually end up weak, old, and dead.

At this moment, the Earth Star Soul discovered the existence of Qin Feng and felt the friendly atmosphere of the Earth people in Qin Feng.

It was incredibly exciting.

In fact, the Earth Star Soul is very young.

It also has an extremely long lifespan.

Meeting Earthlings with whom it can coexist at such a young age already makes it stand out.

After some exchanges, Qin Feng and Xinghun reached an agreement

"Ding! Congratulations to the host for being recognized by Star Soul.....The contract between the two parties is being generated....."

The next second, the star soul separated into a group of souls and merged into Qin Feng's soul body.

This fusion actually caused Qin Feng's soul to be tempered and his soul power to soar.....

"Ding! The contract is reached... Congratulations to the host for becoming the Lord of Star Soul (Earth)....."

"Ding! Congratulations to the host...for obtaining the skill of the Lord of Star Soul - Heavenly Star Divine Control!"

Celestial Star Divine Control: Can absorb the power of all the elemental masters on the planet to deliver the strongest blow (only used within the solar system, cannot be used beyond the distance)

Qin Feng was surprised.

This Star Divine Control is very powerful.

If the elemental masters on the earth The more there are, the more nine-star masters there are, and the stronger this move will be.

In other words, Qin Feng will be stronger in the solar system. It can be said that he is invincible at the same level within his lair.

"Ding! Congratulations to the host...your soul body has been tempered by the power of the star soul.....The strength of the soul body is greatly increased, and the combat power is increased by 500 billion... The progress of the flower of the soul's next bloom (36%) "

"Ha ha!! good! good!"

Qin Feng opened his eyes with joy.

Unexpectedly, after obtaining the Star Soul recognition, he can also strengthen his soul body.

Now, his combat power has increased to 15.5 trillion.

The flower of the soul will bloom next time at 36%. If it reaches 100%, that is when it blooms for the second time.

At that time, the flower blooms with ten petals and enters the realm of immortality of the soul.

The immortality of the soul can only be mastered by the emperor who has opened the soul wheel realm.

Once you reach that realm , the soul is extremely difficult to kill.

Even if the soul is broken, it can be quickly integrated and repaired.

Even if the body is destroyed, the soul is not destroyed.

Therefore, for the emperors of the Wheel Sea Realm, it is easy to seriously injure them, but it is too difficult to kill them.

For example, Bai Qi, Dead but not stiff, he is about to be resurrected.

And the flower of the other shore and the flower of the soul all have ten petals, which is even more terrifying.

Qin Feng headed in this direction

"Bloom progress 36%...."

Qin Feng lowered his head and looked down, with a smile on his lips.

These thousands of Emperor Soul Flowers are just for you!

After you refine all these spirit flowers into elixirs and then swallow them, you should be able to make the flower of soul bloom for the second time.

This thought made him feel happy.

However, he was in no hurry to collect Emperor Soul Flowers.

He still has unfinished business.

At this moment, his mind sank into his sea of consciousness.

I only saw an extra blue sphere in the sky over the sea, exactly like the Earth's Star Soul.

On the sphere, the sea, mountains, deserts, mountains, cities, streets, people, and trees are all visible.

He immersed himself in his thoughts.

In an instant, his eyes lit up and his perspective changed dramatically.

He seemed to have become a god and could see every corner of the earth at a glance.

Everything from mountains as big as ten thousand feet to as small as an ant was within his sight, as if they were right in front of him.

This is Star Soul's perspective.

As a star master, you can transmit sounds to any living being on the earth, and you can also teleport to any corner of the earth, wherever you want to go.

At this moment, on this earth, he is already a god-like existence.

He is the only master of this planet!

This feeling made Qin Feng feel very good.

It was once rumored that a strong man who had perfected the third level of perfection dared to fight against the master in his own lair.

Qin Feng is a little convinced now!

In his current state, in this solar system, even if he encounters a strong person in the second round of Dzogchen, he would still dare to fight.

This is the advantage of the Star Soul Lord.

Qin Feng withdrew his thoughts and looked through the rock formations.

He saw Bai Qi.

Bai Qi is refining the Soul Body Pill.

Bai Qi doesn't have swallowing skills.

These one hundred soul pills were enough for him to refine for seven or eight days.

Qin Feng didn't want to disturb him and allowed him to continue refining the elixir.

This cave in the center of the earth is very quiet and no one disturbs it. It can be regarded as a good retreat.

An hour later, Qin Feng had collected thousands of Emperor Soul Flowers and left happily.

He wanted to go back and quickly refine these spirit flowers into Emperor Soul Pills.

Not only does he need this Emperor Soul Pill, Bai Qi also needs it.

If Bai Qi's soul body can be restored to the early stage of the Great Emperor's foundation building, his combat power can be restored to at least more than 100,000, or even more than 200,000.

Before leaving, Qin Feng discovered that the base of the creation monument was actually in the center of the earth.

After some research, he couldn't figure out a reason, so he put the storage ring away.

Soon, Qin Feng left.

Quietness returned to the center of the earth.....

Time flies!

In the blink of an eye, seven days passed.

On this day, the edge of the solar system.

A small sun flies from the depths of the starry sky, getting closer and closer to the solar system.

If you look carefully, you will find that the small sun is actually a three-legged golden crow.

It was born with an imperial feather crown, with the shadow of the Holy Wheel of the Great Sun on its back, and its whole body burned with golden flames, filling the sky with golden light.....

He is the Golden Crow Emperor!

Here to avenge the Star Orcs!

Today, he finally arrived at the edge of the solar system!..

Chapter 420

"finally reached!"

The Golden Crow Emperor looked coldly at the solar system not far away.

He came this time to destroy Qin Feng and avenge the Starry Sky Clan.

Then, he used the secret technique of the Starry Sky Beast Clan to extract the power of the star soul of the earth..Although the Star Soul is powerful, it unfortunately only has some instincts and does not have high wisdom.

At first, Wuye Star Emperor and others only discovered that there is a Star Soul on the earth, so they thought of occupying the Earth, and then slowly extracted the power of the Star Soul.

After all, that It is a big project.

And the power of the star soul can temper the soul body, which is of great benefit to the starry sky beast clan.

"That star soul probably hasn't recognized its master yet, right?"

The Golden Crow Emperor suddenly came up with this idea.

If the star soul recognizes its master, their secret technique will be ineffective.

To put it bluntly, their secret technique is a kind of confusion technique, which can only have an effect on the star soul without an owner.

That is, Deceive the star soul to obtain the power of the star soul.

If the star soul recognizes its master, it cannot be deceived and the power of the star soul cannot be extracted.

After thinking about it for a while, the Golden Crow Emperor felt that his idea was a bit ridiculous.

According to the instructions given by the Gale Emperor, There is no information about the earth. There is not even a great emperor in the foundation building period. How can there be a big figure who can make the star soul recognize its master!

Not only that, he feels that it will be difficult for the earth to have an emperor in the future.

A creation sky monument is a planet The foundation.

Its function is to allow this planet to grow a great emperor.

The day the great emperor appears will be the end of creation.

At that time, the sky monument will collapse and the foundation will remain.

But what about now?

Stupid Earth Man himself destroyed the Heavenly Monument.

Without the help of the Heavenly Monument of Creation, the earth would not have been able to give birth to the Great Emperor.

Therefore, the star soul of the earth is definitely an ownerless thing, and he can steal some of the power of the star soul and make it his own.

The Golden Crow Emperor The more I think about it, the better it feels!

He had selfish motives when he originally fought for this task.

As for avenging the Gale Emperor and others, he ranked second.

"Should we go to Mars first or to Earth first?"

The Golden Crow Emperor hesitated for a while and looked in the direction of the earth.

After analysis, Qin Feng must have returned to the earth after killing the Gale Emperor.

And the star soul he wanted was also on the earth, so he might as well go directly to the earth.

At that moment, the Golden Crow Emperor turned into a ball of golden light and flew towards the earth.

At his speed, it would take about two or three days to fly from the edge of the solar system to the earth.

After all, he was only an emperor in the early stage of foundation building, and his speed was limited.

If it were changed Cheng Qin Feng, the speed is extraordinary, it only takes a few hours.....

Meanwhile, the solar system, Mars.

Mars Temple, in the Altar of Time.

Qin Feng sat in the center of the altar, with an alchemy furnace placed in front of him.

These days, he has been refining elixirs here.

Because his medicine garden is here, and some auxiliary materials are also obtained from here.

Besides, there is still time altar to help here.

At this moment, Qin Feng opened the pill furnace in front of him with a look of anticipation.

The next second, dozens of milky white pills flew out of the pill furnace, and the fragrance overflowed.

"Thirty-seven Emperor Soul Pills were refined from eleven Emperor Soul Flowers. Our alchemy skills have improved again! Ha ha!!"

Qin Feng was in a great mood.

These days, he refined more than 3,000 Emperor Soul Flowers, and obtained a total of about 3,000 Emperor Soul Pills.

The value of one Emperor Soul Flower is more than a hundred A star tidal stone.

The value of an Emperor Soul Pill is also about a hundred star tidal stones.

An Emperor Soul Flower can refine two or three pills.

With this change of hands, the value has doubled several times.

The alchemy industry , Sure enough, it was a huge profit.

Qin Feng's current net worth is far higher than that of the emperors of the same level, and he is extremely rich.

At this time, he waved his hand, and more than a thousand Emperor Soul Pills appeared in front of him.

He opened his mouth and sucked them all in.....

"Ding! Successfully swallowed the Emperor Soul Pill.....The soul body is greatly strengthened.....Combat strength increased by 700 billion.....The progress of the second bloom of the Soul Flower has been increased to 67%....."

"not enough?"

Qin Feng waved his hand, and more than a thousand Emperor Soul Pills appeared.

He swallowed them in one gulp again.

"Ding! Successfully swallowed the Emperor Soul Pill.....The soul body is greatly strengthened.....Combat strength increased by 800 billion.....The progress of the second bloom of the Flower of Soul is increased to 100%...."

"Ding! Congratulations to the host, the flower of the soul blooms again, with ten petals, and the soul is immortal... The combat power has increased by another 1 trillion....."

At the same time, the flower of soul appeared above Qin Feng's head, blooming automatically. The flower opened with ten petals, and its body was like jade. The light filled the sky, and it was extremely majestic!

Qin Feng opened his eyes happily.

At this point, the flower of his soul and the flower of the other side have ten petals, and his body is immortal and his soul is immortal.

The difficulty of killing him is even more difficult than killing the first level.

And his combat power has also increased to 18 trillion!

"This Emperor Soul Pill is really good!"

Qin Feng's intention is still unfinished.

He still has about a thousand Emperor Soul Pills left.

However, he does not plan to continue to devour them.

He plans to train Bai Qi with these thousand Emperor Soul Pills so that Bai Qi can quickly regain some strength.

Wait. After solving the hidden danger of the Golden Crow Emperor, he will travel to Tianfu Star, and Bai Qi will be a good assistant.

Of course, he still has about two thousand Emperor Soul Flowers that have not been refined.

It is not that he is unwilling to continue refining, but The medicine for refining the elixir was gone. He wanted to go back to Earth to get some. The medicine for refining the Emperor Soul Pill was very strange. It was not very precious, but it was rare.

It was an emperor-level spiritual object and contained some spiritual power.

Qin Feng used the emperor-level shark bead this time.

He had to go back to find Nishan.

Thinking of this, Qin Feng left the Mars Temple.

Ten minutes later, he returned to Earth.

In Nandu City, in Emperor Shark's palace.

At this moment, Nishan was wearing an exquisite close-fitting cheongsam, lying lazily on the sofa.

Her face was beautiful, and her figure was perfect.

But at this moment, she was stroking her flat belly with some sadness.

Suddenly, there was a burst of space in front of her. Fluctuation.

Qin Feng appeared out of thin air

"Why are you here?!", Nishan's beautiful eyes lit up

"What's wrong? stomachache?"

Qin Feng asked with concern, gently touching his flat belly with one hand, and carefully exploring, but found nothing abnormal.

Pfft~!

Nishan smiled sweetly: "I'm fine!"

"Um... Looking at your frown, I thought you were feeling uncomfortable."

Qin Feng secretly breathed a sigh of relief, sat aside and naturally held her in his arms.

"Why! I'm frowning because I'm not pregnant with your baby, so I'm so anxious....."

Nishan lay in his arms with long eyes.

Qin Feng laughed dumbly: "It is rare for existences like us to have heirs. According to the laws of nature, the more advanced a creature is, the rarer its offspring will be. Somehow, there may be restrictions from heaven....."

Nishan said coquettishly: "These are all your excuses. The main reason is that you don't work hard enough."...."

Qin Feng: "....."

Nishan asked again: "By the way, you are such a busy person, why did you come to see me today? Are you leaving the earth soon?"

Qin Feng smiled slightly: "It's almost! It is estimated that the Golden Crow Emperor will be able to arrive in the next few days. Arrive. Wait until I kill him and then set off....."

"Can you take me to Tianfu Star with you?", Nishan's eyes showed longing

"You also want to help me teach Liu Yan and Shangguan Yunxi, so you have time to run around? By the way, how are they doing in alchemy and weapon refining?"

"Learning pretty well! Both of them have made great progress! Hey, you have incurred a lot of romantic debts on your own, and you still want me to take care of you....", Nishan acts coquettishly

"You're the only one who's too worried! They and I are fellow villagers and we were friends in the past. Just take care of them. What's more, my experience in alchemy and weapon refining must be taught to people I trust!"

"It's hard to say! If nothing happens now, there is no guarantee that something will not happen in the future. Both of them are great beauties...You bad guy is not an honest person. Didn't my sister just give it to you back then?...."

Nishan's face is rosy

"Let's not talk about this! Are you looking for something?", asked Nishan

"Well, would you like some shark beads?"

"Uh... You're a bad person. Shark Pearl is the teardrop of my clan. You want me to cry when we meet you? I'm so happy to see you. I can't cry. What should I do??"

"Is there really no way to shed tears?"

"Why! Really not! Although I really want to help you, I can't do it!"

"Okay, we can only use the method last time....", Qin Feng sighed helplessly

"What can be done?", Ni Shan was puzzled.

"Come with me!"

Qin Feng raised the corners of his mouth slightly, picked up Ni Shan, and strode towards the boudoir..
