

God level 431

Chapter 431

"This is?", Qin Feng narrowed his eyes slightly

"Dad, what's wrong with aunt?", Qin Baobao is a little worried.

In her heart, besides Qin Feng, Chu Chu is the most important

"Chu Chu is fine! The true meaning of ice and the true meaning of fire in her are merging."

Qin Feng's vision was higher than Baobao's, and he saw some clues.

Baobao was overjoyed: "It turns out it's a fusion of true meanings! Auntie will definitely be able to fuse the top true meaning this time! Auntie is great!"

"Huh! Dad, something is wrong. My aunt is integrating the true meaning. Why don't those clouds of calamity disappear? Hasn't she already overcome the calamity?"

"this.....", Qin Feng couldn't answer.

The situation before me was strange.

It stands to reason that after Chu Chu has survived the nine heavenly tribulations, it should be over.

Why does this calamity cloud show no signs of disappearing?

Moreover, there was constant thunder in the clouds, which seemed to contain something.

Is Chu Chu going to survive the tenth heavenly tribulation?

Qin Feng thinks it's impossible.

This heavenly calamity is either nine or twelve.

As long as the domination potential is higher, twelve heavenly tribulations will occur.

Chu Chu has not yet reached that potential.

So what's going on?

Qin Feng is puzzled!

"Dad, look!", the baby exclaimed.

The changes in Chu Chu's body accelerated.

A red and blue light appeared on her body. Red represents the true meaning of fire, and blue represents the true meaning of ice.

At this moment, the red and blue light blended together and gradually mixed into One color, that is purple!

Boom~!

Purple is 10%!

Chu Chu's momentum surged!

Her two ordinary true meanings were smoothly merged into one top true meaning

"Done!"

"whee!! Auntie succeeded!"

Qin Feng and the baby were overjoyed.

But at this moment, a sudden change occurred.

Ouch~!

A dragon roar sounded from Chu Chu's body.

Immediately, her whole body was filled with aura, and her aura continued to surge, soaring all the way.

In a moment, Her fighting strength and momentum doubled, and it continued to rise...

Qin Feng and Baobao were stunned.

Ouch!

A dragon roar sounded from Chu Chu's body.

Immediately, a shadow of a giant dragon appeared behind her!

The huge dragon head looks down majestically at the heaven and the earth!

Click~! Click~! Click~!

At the same time, golden dragon scales appeared all over Chu Chu's body!

Dazzling dragon-shaped runes lit up between her eyebrows.....

"It's the inheritance that has completely awakened!"

Qin Feng exclaimed!

He finally understood what was going on.

This is the Dragon God inheritance that Chu Chu obtained has fully awakened.

She is completely integrating with the inheritance.

Sure enough!

In the next second, Chu Chu's momentum doubled!

Skyrocketing! Skyrocketing! Crazy skyrocketing!

Continuously soaring all the way!

Boom~!

The sky and the earth change colors!

The calamity clouds in the sky roll violently, transforming from gray and black to pure black, and the coverage of the calamity clouds is also spreading.....

In the blink of an eye, the calamity cloud covered thousands of miles, and the power of God increased several times rapidly.....

"This is a disaster that dominates the potential!"

Qin Feng was shocked.

After Chu Chu's inheritance was completely awakened, her potential was directly upgraded to the dominance potential!

Is this the real beginning of the benefits of inheritance?!

Qin Feng was excited at this thought.

His Ancestral Dragon inheritance was only activated 85 %, has not yet fully awakened.

If it does, there should be a big explosion like Chu Chu's current situation.

"Dad, is aunt okay? The calamity has become more powerful!", the baby worriedly said

"Do not worry! Not only is your aunt fine, but she has also activated her own opportunity!", Qin Feng's face showed joy.

Ouch~!

There was another shocking dragon roar!

The sound waves swayed in all directions!

The power of the sky was brilliant!

Wherever the sound waves went!

Everything became silent!

It was as if everything in the world was solidified!

Everything was quietly Stagnant!

Even the wind has stopped!

The scene in front of him is very strange. It seems to be moving but still.

Qin Baobao is a little dumbfounded.

She can't understand!

Qin Feng is like a enlightenment, and a kind of understanding comes to his heart.....

"Ding! Congratulations to the host for having an epiphany.....Time abilities are enhanced.....The awakening degree of the eighth consciousness is increased to 27%....."

Qin Feng was surprised!

He had an epiphany.

Speaking of which, I have to thank Chu Chu for this.

It turns out that the changes in the sky are the reflection of Chu Chu's time ability.

At this moment, a sudden change occurred in the sky.

The shadow of the giant dragon roared loudly and disappeared into Chu Chu's body.

Chu Chu's true meaning continues to strengthen.....

Boom~!

For a moment, her true aura suddenly broke through the bottleneck, emitting a purple-gold light that illuminated the heaven and earth.

Wherever the light reaches, the leaves will wither and come back to life.....

The rocks weathered into sand for a while, and then solidified into stone again...

Those are the traces of time!

Ice and water have the same origin, and water is the beginning of life!

Fire can burn everything and return everything to dust, which can be said to be the end of life!

From ice to fire, it can be said that from life to death!

In the dust, new life can be born, which can be said to be from death to life.

The starting point and the end point always rotate with each other. The only thing that remains unchanged is what is experienced in the process, that is, the years.....

Chu Chu added her own perception of time to the true meaning!

From this, she realized her supreme true meaning in one fell swoop—the true meaning of time!

Rumble~!

At this time, the calamity clouds rolled violently in the sky!

A red calamity cloud surged out from the central area, covering hundreds of miles.....

Click~!

A bolt of red lightning fell from the sky and struck Chu Chu directly...

Chu Chu raised her head proudly, facing the heavenly catastrophe.....

The true meaning of time is activated!

The attack speed of all forms is controlled by her.....

The calamity is coming as fast as being frozen, falling slowly.....

Chu Chu blocked it easily!

"Wow! Auntie is so awesome!", Qin Baobao looked in admiration.

Qin Feng was also shocked.

Among the supreme true meanings, this true meaning of the years should be ranked at the top.

A moment later, Chu Chu easily passed through the second red tribulation..Then

, he passed the third red tribulation.

In the blink of an eye, Chu Chu passed through all the tribulations.

This was much easier than Qin Baobao's last time.

Thinking about it, Baobao did not grasp the supreme true meaning when he went through the tribulation. , it is naturally more difficult.

Chu Chu will make such great progress, but the Dragon God inheritance skills are not there!

Qin Feng sighed.

This is only a level 6 inheritance, but it has such an effect.

Then his Ancestral Dragon inheritance is completely awakened, right? The effect is stronger?

At this time, the heavenly tribulation is completely over.

Rain, rain, dew, smallpox, golden lotus... are falling from the tribulation cloud. The fairy sound is dazzling, auspicious rewards! Endless purple energy fills the sky! Under the auspiciousness of many, Chu Chu's momentum is soaring.

In the blink of an eye , In an instant, her combat power and momentum increased to 2 trillion...

This was simply a transformation!

After a moment, Chu Chu opened her eyes with a look of ecstasy.

At the same time, the calamity clouds in the sky began to recede.

Qin Feng quickly flew into the air, Open your mouth and swallow.

This master-level calamity cloud is even more tonic..

Chapter 432

At this moment, Qin Feng transformed into a billion-foot-long body, stood tall against the sky and faced the calamity clouds thousands of miles away, and opened his mouth to suck wildly.

The thousand-mile calamity cloud suddenly poured into his mouth like a rushing tsunami.....

"Ding! Successfully swallowing the Tribulation Cloud...the soul strength is increased...the progress of the next blooming of the Soul Flower is increased to 44%.....Combat strength is improved....."

"Ding! Successfully swallowed the Tribulation Cloud... The physical strength increased... The flower of the other shore bloomed next time and the progress was increased to 7%.....Combat strength is improved....."

"Ding! Devouring the Tribulation Cloud Successfully.....The awakening degree of the eighth consciousness is increased to 37%.....Greatly improved time capabilities....."

"Ding! Devouring the Tribulation Cloud Successfully.....The integrity of the Divine Tribulation Seal has been increased to 80%.....The power of the Heavenly Tribulation Divine Thunder is greatly increased....."

"Ding! Qualifications are improved...Dragon God inheritance awakening is increased to 90%.....Combat power greatly increased....."

After everything is devoured, Qin Feng's body, soul, eighth consciousness, divine seal of calamity, and dragon god inheritance awakening are fully enhanced.

This domination level Jie Yun is really a great supplement!

Then, Qin Feng took out the Liangyi True Meaning Divine Seal and swallowed it

"Ding! Devouring the True Meaning Seal (Liangyi True Meaning) successfully... The perception of the True Meaning of Light is improved.....Increased combat power....."

"Ding! Devouring the True Meaning Seal (Liangyi True Meaning) successfully... The perception of the true meaning of darkness is improved.....Increased combat power....."

"Ding! The true meaning of light and the true meaning of darkness automatically merge....."

"Ding! Congratulations to the host for obtaining the third supreme true meaning - the true meaning of Liangyi...."

"Ding! Congratulations to the host for understanding the skill - Liangyi Clone Technique (Lun Hai Level)....."

"Ha ha!! Success!"

Qin Feng was delighted.

This series of opportunities increased his combat power to 25 trillion.

If he uses Chaos Transformation again, his combat power can skyrocket to more than 32 trillion, reaching the level of the late stage of the First Stage.

Qin Feng was very satisfied with this harvest.

After a while, he turned into the size of a normal person and fell back to the ground.

Chu Chu and Bao Bao had been waiting for him for a long time.

"elder brother!" Chuchu walked over happily.

Qin Feng also looked at her with a smile.

After this girl's strength improved, her temperament also changed a lot.

She became more beautiful and charming, and she was incomparable.

The breath of a young girl came to her face.

"Brother, my Dragon God inheritance is fully awakened...."

"I saw!", Qin Feng nodded, very pleased

"Brother, I didn't expect the sixth-level Dragon God inheritance to be so powerful! Yours is a unique ninth-level inheritance. After fully awakening, it should be even more powerful! Qin

Feng smiled slightly:"You have to wait until it is completely awakened to know this."...."

"Brother, now that I have mastered a supreme true meaning, can I also learn Bai Qi's secret technique?"

Chu Chu said what matters most to her.

"this...."Qin Feng was helpless,"You can't learn for the time being!"

"Why? Brother, are you not even willing to teach your sister?", Chu Chu grabbed Qin Feng's arm and shook her coquettishly.

Her brother had always taken good care of her and doted on her.

Unexpectedly, he rejected her this time.

This made her a little disappointed!

Could it be that after her brother had another woman, he started to Alienated herself?

At this thought, Chu Chu became scared, hugged Qin Feng's arms tighter, and raised her little mouth higher.

Qin Feng felt a soft feeling on his arms, which was a little embarrassing.

Unknowingly, this girl He has grown up!

It's just that he is still as unruly as he was when he was a child.

Although the two are not related by blood, their relationship is closer than that of relatives, and some things should be avoided. Qin Feng wanted to withdraw his arm, but did not.

Chu Chu wouldn't let it go

"Dad, Bai Qi can learn it, why can't Auntie learn it?"

Baobao Qin was not happy either, and his little mouth was raised higher than Chu Chu's.

Qin Feng smiled and shook his head:"It's not that I can't learn, but I can't learn for the time being because I lack a treasure.!"

"treasure? Brother, what else are you missing?", Chu Chu asked with concern

"Star core!", Qin Feng explained, "My secret technique can only be practiced by four people for the time being. These four people need to use the star core as a medium with me"

"And it only requires the four star cores of earth, fire, water, and wind! The Fire Star Core has been given to Bai Qi, and the Earth Star Core has been given to Bao Bao. I haven't gotten the remaining Wind Star Core and Water Star Core yet!"

After this explanation, Chu Chu suddenly realized.

It turned out that he had misunderstood!

Chu Chu suddenly smiled like a flower.

"Brother, you mean that as long as I find the wind star core or the water star core, I can practice the secret technique, right?"

Qin Feng nodded: "That's what happened!" However, star cores are very rare and may not be easy to find. What's more, we still need to find those with the designated wind and water attributes.

Chu Chu smiled and said: "Brother, have you forgotten where this place is!" This is Tianfu Star, one of the core areas of the Star Alliance, and a place where all races gather."

"Are you still worried that you can't find the star core here? The only thing you should worry about is not enough Star Stones!"

Hearing this, Qin Feng laughed dumbly.

What Chu Chu said is right.

What resources does Tianfu Star have? Are you afraid that you can't find the Xingxi Stone?

What he should worry about is that there are not enough Xingxi Stones.

After all, in the world of elemental masters, Xingxi stones are hard currency and are used as currency.

"Chu Chu is right to remind you! Let's do this, I'll teach you the secret technique first, and after you get a star core, you can practice it directly"

"OK!", Chu Chu was delighted, and then let go of Qin Feng's arm.

Qin Feng pressed a finger on her smooth forehead and transmitted the secret technique to her.

After a while, the transmission of the secret technique was completed.

Qin Feng took out two more Ziyun Tokens, Lost it to Chu Chu and Qin Baobao

"Take these two tokens! With them, you can successfully enter the Ziyun Secret Realm.!"

"Great!" Qin Baobao played with the token happily.

Chu Chu suggested:"Brother, this Ziyun Secret Realm will be opened in a month. I suggest that before entering the secret realm, I, Bao Bao, and Bai Qi should first practice this secret technique."

"At that time, as long as you use the combination of stars, all the combat power of the three of us can be superimposed on you, then you are secretlyYou are invincible! Hearing this

, the baby's eyes lit up:"Dad, aunt is right!"

Qin Feng was also looking forward to it.

Then, he smiled and said:"It's a good idea! However, we need to get a star core first. Let's go! Let's go to a nearby city to scan to see if there are any star cores!"

At that moment, the three people came out of the valley with confidence.

This time, the three people's strength increased greatly, and they were naturally full of confidence in the future..

Chapter 433

After leaving the valley, Qin Feng and the others made a simple plan.

The procedures for promotion to the fifth-level star field need to be completed at the first-level star field office.

The first-level star field offices are only available in first-level main cities.

The entire city of Tianfu Star is divided into seven levels, with level seven being the lowest and level one being the highest.

There are hundreds of thousands of cities, but there are only a hundred first-level main cities.

Qin Feng chose Tianmo City as the place for promotion.

Because Tianmo City is the first-level main city closest to Ziyun Secret Realm.

After they are promoted, it will be more convenient to go to the secret realm.

And their current location is near a third-level city called Gale City. The city owner is a second-round realm expert, the strongest person within tens of billions of miles.

With Qin Feng's current strength, he doesn't have the slightest fear and can escape even if he can't be beaten.

From Gale City to Heavenly Demon City, you have to pass through hundreds of large and small cities.

There is no way, Tianfu Star is too big, and there are very few first-level main cities.

Fortunately, there are teleportation arrays between every city.

As long as you can afford enough Xingxi Stones, you can still get to the Demonic City quickly.

Qin Feng and the other three were not in a hurry.

They plan to visit a few more cities to search for useful resources first, especially to find the star core.

An hour later, the three of them arrived at Gale Wind City.

At this moment, Qin Feng was walking on the street while admiring the exotic customs of Tianfu Star.

"Dad, there are so many people!"

Baobao Qin looked around with that cute look, curious about everything he looked at.

"Brother, there are ordinary people here!"

Chu Chu held Qin Feng's arm affectionately.

She had been so attached to Qin Feng all the way.

She finally had the opportunity to get along with her brother, and she naturally didn't want to let it go.

"yes! There's something special about these people!"

Qin Feng looked at some ordinary people in the crowd.

Those people's bodies were particularly strong and could resist the gravity of the Tianfu Star. However, there was no fluctuation of energy in their bodies, indicating that they were just ordinary people.

However, these people were only physically strong and had no fighting power. He is not very strong, his status is not high, and his number is not large.

The people coming and going on the street are basically elemental masters, most of whom are six to eight stars. Nine-star emperors are very rare.

Nine-star emperors are in such a third-level city. He can be regarded as a person of great status.

"Brother, there is a spiritual plant shop here. Let's go in and take a look...."

"Um~! "

As soon as Qin Feng and the other three entered the store.

The receptionist at the door saw that Qin Feng and the others were nine-star experts, and immediately looked extremely respectful, not daring to show any slights.

Those who can achieve Nine Stars are all people with outstanding talents, and they are leaders of the party everywhere.

Even in a super power, he is still a backbone, a small leader or something.

These low-level elementalists dare not neglect.

What's more, the three of Qin Feng are all so young and promising. They have extraordinary talents at first glance, and they are likely to become emperors in the future.

It would be incredible if he became the Great Emperor.

He is a local overlord, and he is also a middle-level leader in a super power. If he is the emperor of the Lunhai realm, it will be even more extraordinary.

Thinking of this, the receptionist did not dare to neglect, and warmly received Qin Feng and the others as if they were distinguished guests.

The three of them walked around the store and indeed found a lot of useful medicinal materials, including those that Qin Feng was interested in, such as the Emperor's Soul Flower.

This Emperor Soul Flower is clearly priced at 100 Xingxi Stones here, and there are only a few dozen in the entire store.

Qin Feng bought them all in one go.

The flower of his soul is blooming again at 44% progress, and he can continue to work hard in this regard.

At the same time, the Ling Zhi Store also purchased some Ling Zhi.

Qin Feng had already accumulated a large amount of unused spiritual flowers and herbs.

Those things are useless and would be a pity to throw away.

Qin Feng used them as waste and sold them all to Lingzhi Store, and exchanged them for 30,000 Xingxi Stones. This was an unexpected gain...

In this way, Qin Feng had more than 60,000 Xingxi Stones. , his net worth is much richer than that of the Great Emperor in the Foundation Establishment Period.

After leaving the spiritual plant store, Qin Feng and the other three continued to wander around, and time passed quickly.

In the blink of an eye, most of the day passed.

Qin Feng and the others visited almost all the big shops in Gale City.

Along the way, Qin Feng had a clear goal.

He only buys Emperor Soul Flowers and Star Cores.

There are too many good things, but he has too little money.

Wanting everything, buying everything, may end up accomplishing nothing!

The reason he bought the Emperor Soul Flower was because he wanted to let the Soul Flower bloom again before the Ziyun Secret Realm opened and greatly increase his strength.

Needless to say, buying a star core would allow Chu Chu to practice secret techniques and achieve a good star-level integration.

Along the way, Qin Feng gained a lot. He bought more than a hundred Emperor Soul Flowers, and he had about 50,000 Xingxi Stones left.

The only pity is that they didn't see anyone selling star cores.

After some inquiring, they learned about it from a shop owner.

There may be star cores for sale in Freeflight City in Gale Wind City.

Free Square City is a place where all races gather. If many elemental masters who pass through Gale City are short of money, they can go to Free Square City to set up stalls. They only need to pay a small stall fee.

Wherever you go, you can find all kinds of treasures.

Likewise, dragons and snakes are mixed there, and there are many liars.

If you don't have rich experience and extraordinary insight, you can easily be deceived!

Every day in Freefang City, some people find treasures and make a fortune, while others are deceived and go bankrupt.

As for the rules of the market, once you leave the market, no matter whether you are deceived or not, you are responsible for everything.

Therefore, most people would not dare to go there without a pair of piercing eyes.

But when Qin Feng heard the news, he was very happy. He took Chu Chu and Bao Bao and went to Freefang City...

He had the secret skill of spying on other people's memories.

He can tell at a glance whether the goods sold by others are genuine or fake, so he doesn't have to worry about being deceived.

Maybe he can find treasures somewhere else.

This thought made him look forward to it.

Half an hour later, Qin Feng and the others arrived at the entrance of Free Square City.

There were people coming and going at the door, and it was very lively.

Although there is a mixture of dragons and snakes in this free market, you can still find rare treasures.

Most people come here for this purpose

"Dad, it's so lively here!", Qin Baobao looked excited.

This is what children pay attention to, and they like lively places the most.

Qin Feng smiled slightly: "Let's go in!"

At that moment, the three of them entered the market.

The market was very huge and very lively inside. As soon as they entered the entrance, they saw dozens of Nine-Star Emperors surrounding the stall owner at a stall, fighting fiercely for it. What to buy.

The stall owner is also the Nine-Star Emperor.

But at this moment, he has an arrogant look on his face and is scorning all the emperors.

"stop fighting! stop fighting! Everybody line up! If you keep arguing, get out! I won't even sell him a Jiulin Pill!"

The stall owner scolded him impatiently.

Not only were the nine-star emperors not angry, but they all looked fawning.

"Ha ha!! Brother Dandi, don't be angry, I'll line up right now!"

"exactly! What are you people in a hurry for? Just line up and buy one by one....."

At this moment, all the nine-star emperors lined up.

This scene surprised Qin Feng and the others.

The Nine-Star Emperor was considered a prominent figure, and the stall owner was just the Nine-Star Emperor.

Why are these people so obedient?

In just a moment, the team was lined up

"Pill Emperor, I'll buy five Jiulin Pills!"

The old man at the head of the queue said flatteringly.

"One Jiulin Pill and five Xingxi Stones! Five, twenty-five yuan!"

The stall owner Dan Di said expressionlessly.

"What? A five-piece starstone? Why did you raise the price again? Didn't it sell for four yuan yesterday?", the old man was surprised.

Emperor Dan said impatiently: "At this moment, at that moment, don't you know that the secret realm of Ziyun is about to be opened? The demand for Jiulin Pills is now in short supply, so don't push it down! Next person!"

"ah! ...I want! I want! Why~! "

The old man had a wry smile on his face and took out twenty-five Xingxi stones with a pained expression on his face.

"promise! This is Jiulin Pill!"

The Pill Emperor threw out five Jiulin Pills and put away the Xingxi Stone.

"good! OK!"

The old man put away the Jiulin Pill as if it were a treasure and left.

As soon as the old man left, a second person immediately went to buy it, and he didn't care about the price increase at all.

Seeing this scene, Qin Feng was a little confused.

One pill. The effect of Jiulin Pill is equivalent to that of a Xingxi Stone.

Logically speaking, one Jiulin Pill is worth one Xingxi Stone.

But now, Dan Emperor sells 5 Xingxi Stones for one Jiulin Pill, and many people are still grabbing it. I'm going to buy it.

What's going on?

Listening to their conversation just now, it seems that the price increase of Jiulin Pills is related to the opening of Ziyun Secret Realm.

Then I have more than 10,000 Jiulin Pills in my body. Isn't this the way to get rich??! .

Chapter 434

"Brother, is Jiulin Pill so expensive?", Chu Chu was very puzzled.

"I'd love to know too!", Qin Feng shrugged

"Hello! Brother, would you like to see what my sister has here? I have a lot of good stuff here!"

A woman's voice sounded behind Qin Feng.

When he turned around, he saw a beautiful woman with a piece of spiritual grass in her mouth, standing in front of her stall and saying hello to him.

The woman was wearing close-fitting leather armor, and her clothes were flaming. Hot, with curves, a beautiful figure on full display, and a bold temperament!

She noticed Qin Feng as soon as he walked in.

This guy was so handsome that it was hard for her not to notice, and it made her heart itch.

"Dad, she has the Emperor Soul Flower over there!" Qin Baobao saw at a glance that there was an Emperor Soul Flower on the woman's stall.

"Go check it out!"

Qin Feng became interested and walked over.

When he reached the stall, he took a look and found that the woman was actually a nine-star peak cultivator. She was considered to be a good cultivator in the Free Square City.

"Brother, take a look! Here are the fine products I have accumulated over more than 100 years, you are guaranteed to be satisfied!"

The woman looked at Qin Feng with burning eyes.

The young man looked even more handsome up close.

What's even more surprising is that he is so young and his cultivation is the same as hers, which is really good!

"Sister, how much did you spend on this imperial soul?"

"90 star stones!"

"Forehead.....", Qin Feng was slightly startled.

The price is cheaper than outside.

The woman smiled sweetly: "Brother, do you think the price is cheaper than outside?"

Qin Feng smiled and nodded.

"I don't know something, but big shops outside have to pay shop tax, so the cost is naturally high. We are all wild people, so it is naturally cheaper."

The woman told the truth. She was quite fond of Qin Feng's appearance.

"Makes sense! I want this Emperor Soul Flower!"

Qin Feng happily took out ninety Xingxi stones.

The woman was overjoyed: "Brother is so refreshing!"

Although she is the emperor at the top of the Nine Stars, her net worth is only a few hundred Xingxi Stones.

These ninety Xingxi Stones are a big deal for her.

The woman put away the Xingxi Stones happily, feeling that Qin Feng The more I look at it, the more pleasing it becomes to my eyes.

"Sister, let me ask you something....."

"whee! Say it! Don't ask about something, even if you ask your sister out for a cup of tea, that's fine. ...", The woman looked very excited

"Sister, why is the business at the stall opposite so popular?"

"You are talking about Alchemy Emperor!" The woman looked up to the opposite side with a look of envy.

Then, she sighed: "Hey! Alchemy Emperor is an alchemist, and we people are incomparable. These alchemists all have high status and are extremely rich. We are incomparable."

"Does the alchemist have a high status?", Qin Feng asked casually.

The woman looked at Qin Feng in surprise: "Yes! The status of alchemy is very high. After all, alchemy is too difficult to practice. It depends on talent. Hard work alone is useless."

"Especially alchemists above the emperor level, their status is even more respected. Just like the Emperor Dan across from you, look at his arrogant look. To those emperors, his eyes are not eyes, and his nose is not nose...."

"This is his status! Although he is only at the nine-star realm, he is not as good as you and me, but he is an emperor-level alchemist, and his actual status is comparable to that of the great emperor in the early stage of foundation building!"

"So high!"

Qin Feng and Chu Chu were both a little surprised.

Qin Baobao didn't understand this, so he gnawed a spiritual fruit on his own, and his little mouth was already stuffed....

"Of course it's high! To the Alliance, every emperor-level alchemist is a talent....", the woman sighed

"Does the emperor-level alchemist have a higher status?", Chu Chu suddenly asked

"That's for sure! An emperor-level alchemist! Tsk tsk!! It's hard to even meet him!", the woman was even more emotional.

Chu Chu looked at Qin Feng with a smile.

Her brother could even refine the Emperor Soul Pill.

That Emperor Soul Pill is a pill from the Wheel Sea Realm.

So, my brother's level of pill refining has reached the level of Wheel Sea. It's sea level, higher than the average emperor level.

If word of this gets out, my status will definitely soar.

"Brother, you rarely go out before, right?", the woman asked with a smile.

Qin Feng and Qin Feng lacked a clear understanding of the status of alchemists, and they obviously had not had much contact with the circle of elemental masters before.

Qin Feng changed the topic: "Sister, as far as I know, this Jiulin Pill is It is only worth one Xingxi stone. Why is Dandi selling 5 Xingxi stones for one piece, and so many people are rushing to buy it? The woman was stunned:"

Brother, don't you know that Ziyun Secret Realm is about to open?"

"I know!"

"Then you still ask?"

"Um, does this Ziyun Secret Realm have something to do with the price increase of Jiulin Pill?"

"Of course!", the woman explained seriously, "Brother, think about it! It usually takes three or four days to refine a piece of Xingxi Stone, but it only takes half an hour to refine a Jiulin Pill. Both are equally effective!"

"But you have to know that Jiulin Pill is erysipelas and eating too much of it is not good, but refining Xingxi Stone has no side effects. But why is its price similar to that of Xingxi Stone? It's not just easy to refine!"

"This time, the secret realm of Ziyun is opened, and the battle inside is inevitable. When there is fighting, there is consumption. If you want to rely on the Xingxi Stone to restore your vitality, the speed is too slow, far not as fast as the Jiulin Pill!"

"To put it bluntly, they bought Jiulin Pill to restore their energy. Sometimes, if you recover your strength faster than your opponent, you may be able to save a life, or even become the final winner!

Qin Feng felt happy and said with a smile:"That's it!"

He has always had a fixed mindset.

For others, refining the Xingxi Stone is too difficult, but for him it is just a blink of an eye.

This is what makes him different.

To put it bluntly, he can use the Xingxi Stone to recover. , Jiulin Pill can be sold completely

"So, the price of Jiulin Flower has also increased, right?" Qin Feng looked at other stalls.

Many stalls had Jiulin flowers for sale.

The woman smiled bitterly:"How dare you raise the price? Those alchemists are very bullying. They jointly lowered the price and did not allow Jiulin to be refined. Dan's materials have increased in price. Everyone was worried about the status of the alchemist, so they didn't increase the price. The Jiulin Flower now is still a Xingxi Stone!

Qin Feng was stunned:"So domineering!" The woman was helpless:"

These alchemists have always been domineering!" Actually, it doesn't make much difference whether the price goes up or not."

"There are only a few emperor-level alchemists in this Fierce Fire City. With their level and speed of alchemy, the speed at which Jiulin Flowers are consumed is very limited, and the Jiulin Pills they produce are even more limited, so the supply exceeds demand on the market!"

"The price of Jiulin Flower is really going to rise, and I'm afraid not many people will buy it. To put it bluntly, there are still too few alchemists, but there is no shortage of materials!"

These words made Qin Feng secretly happy.

As far as he knew, for an emperor-level alchemist, one Jiulin flower can refine two or three Jiulin pills.

His alchemy level is at the reincarnation level, and he can combine the effects of Jiulin pills. After squeezing it dry to the extreme, it won't be a big problem to refine four or five.

Even if the price of these Jiulin Flowers doesn't increase, he should be able to make a fortune this time if he buys them on a large scale.

"By the way, little brother, don't miss this Ziyun Secret Realm!", the woman suddenly reminded

"oh? Why?"

"Now a prophecy is spreading throughout Tianfu Star. The opening of the Ziyun Secret Realm this time will be the most grand in hundreds of millions of years, and there will be many opportunities to break out this time. The inheritance of Lord Ziyun will also have a successor!"

Hearing this, Qin Feng's heart moved.

What he wanted was the inheritance of Lord Ziyun.

This time the secret realm opened, he must not miss it.

After understanding this, Qin Feng said hello to the woman.

Then, he With a reluctant look in her eyes, the woman left with Chu Chu and the baby. At that moment, Qin Feng and the three of them went shopping in Fangshi.

Qin Feng was very happy during this visit.

There were many Emperor Soul Flowers and Jiulin Flowers in Fangshi. He made a big purchase.

An hour later, the three of them visited most of the market and found someone selling star cores. Unfortunately, the star cores were of fire attribute and were not what Qin Feng needed.

However, Qin Feng passed the scan and Memory, and also obtained the market price of star cores.

For example, the water attribute star core he wants has a market price of 80,000 star cores.

The wind attribute star core is more expensive, costing 100,000 star cores.

This is still the bottom line price, and when the market demand changes. If there are more, it will rise.

But Qin Feng now only has 50,000 Xingxi stones, and he can't afford even one star core.

Unless he sells all the Jiulin Pills he has.

Qin Feng is very willing to do this.

Jiulin Pill is a treasure to others, but to him it is worthless, and there is no regret in selling it.

But Qin Feng did some calculations, and even if he sells Jiulin Pill, he is still worse.

Two star cores, at least 180,000 star stones

"Brother, this star core is so expensive!", Chu Chu's face was full of pain.

"Only with so many planets can a star soul be born. This star core is naturally expensive!"

Qin Feng doesn't care.

He has a way to make money.

"Dad, how about we go to Tianmo City quickly to take the promotion assessment! Wouldn't promotion reward a lot of Star Stones?"

After the baby finished speaking, he took a big mouthful of spiritual fruit.

Chu's eyes lit up: "Yes! Brother, in this promotion assessment, as long as you pass the lowest ninth-level assessment, you will be rewarded with 10,000 Xingxi stones. If you pass the eighth-level assessment, you will have a reward of 20,000, which is doubled."

"As long as I get good grades, I will definitely make enough money to buy a star core! I heard that if you pass level 4 or above, there will be special rewards! Qin

Feng smiled slightly: "For the fourth-level reward, the Xingxi Stone reward alone is 320,000, which is indeed enough!" In fact, even if I don't take the assessment, I can still make enough money!"

"Brother, are you talking about refining Jiulin Pill and selling it for money?"

"Um!"

"Brother, in fact, we can grab it with both hands. The more money we can earn, the better. Who still dislikes having more money?"

"This is true!" Qin Feng smiled.

He has now found a way to make money, and he is in a good mood.

The opening of Ziyun Secret Realm provides him with an opportunity to make a fortune, and he will naturally not miss it.

After the Ziyun Secret Realm is over, Jiu Lindan will definitely lower its price

"Chu Chu, let's buy more Jiulin Flowers now, and then go to Tianmo City. Where there are more people and is close to Ziyun Secret Realm, the market is better!"

"Um! Brother, I also want to buy the Emperor Soul Flower you want!"

The brother and sister were wandering around and planning at the same time.

Bao Bao, a foodie, followed behind and gnawed the fruit hard.

She didn't care about those trivial matters, not to mention she didn't understand them.

As for the star core, Qin Feng was not worried at all about not being able to buy it.

There are several free shops in Tianmo City, and they are bigger. There must be something for sale there.

Even the big shops in Tianmo City sell them.

For Qin Feng, what he lacks at present is not the supply of goods, but money.

Unknowingly, , Qin Feng brother and sister visited the market and harvested a few Jiulin flowers.

When they were about to leave, Qin Feng suddenly made a surprising discovery.

In the deepest part of the market, there was a lonely stall.

No one around dared to approach.

The stall owner was a middle-aged man who had been half-suspended in the air, meditating with his eyes closed. His whole body was full of gloomy aura, mixed with the smell of blood.

If you look closely, you will find that the man is actually in the first round. A super strong man.

And Qin Feng's eyes were attracted by a treasure on the man's stall..

Chapter 435

Qin Feng strode over.

Chu Chu and Bao Bao followed closely behind him.

Both of them looked a little wary.

Chu Chu's combat power is 2 trillion, and Baobao's is 5 trillion.

That man is a first-level master. Judging from the momentum, he is at least 150,000 yuan, not inferior to Bai Qi.

Da~! Da~! Da~!

Qin Feng's footsteps echoed.

The stall owners around were alarmed, and they all looked at Qin Feng and the others in shock.

No way?

This guy dares to get close to the Blood Wheel Emperor's stall!

Is this your first time coming to this city?

The stall owners all looked at each other.

The atmosphere in the venue was a little weird.

There were some in the crowd who were gloating about their misfortune, some who were worried, and some who looked indifferent as it had nothing to do with them....

"This young man ran over with two girls. Didn't he know the rules? Only the emperor can approach that stall. Why! These three are really....."

A beautiful woman stall owner showed some anxiety in her eyes

"Emperor Hongman, you'd better not meddle in other people's business. If you offend the Blood Wheel Emperor, you won't be able to eat and walk around!"

"yes! Even though this is Free City, it has official protection. If the Blood Wheel Emperor kills you, it will probably be fine. At most, you won't set up a stall here in the future!"

"Besides, Blood Wheel Emperor's stall is obviously different from ours. That kid doesn't have the eyesight, so you don't care whether he lives or lives!"

Several stall owners persuaded in low voices.

The beautiful woman seemed to be frightened and did not dare to say more.....

At the same time, Qin Feng had already walked to the stall.

His eyes fell on one of the treasures through the protective cover of the stall, and his eyes became hot.

That's right!

This is what he wants!

At this time, the Blood Wheel Emperor was alarmed.

He slowly opened his eyes, revealing a pair of scarlet eyes.

The peak of nine stars?!

The Blood Wheel Emperor was stunned!

Has anyone forgotten his rules?

If you don't have the strength above the Great Emperor, you are not qualified to approach his stall!

He only does business with the emperor!

This young man is really ignorant!

"snort!", the Blood Wheel Emperor snorted.

With this cold snort, the registered stall owners not far away widened their eyes.

They knew that the Blood Wheel Emperor had taken action!

"Why~! "

Among the crowd, Emperor Hongman felt regretful.

Even the Emperor of the Foundation Stage couldn't withstand the blood wheel emperor's attack, not to mention that young man was only at the peak of nine stars.....

It seemed that this young man would be seriously injured if not dead.

Most of the other stall owners looked on indifferently, some were regretful, and even more were gloating...

Sure enough!

As the Blood Wheel Emperor snorted coldly, an invisible imperial power descended from the sky, carrying the aura of destroying the heaven and the earth, and pressed towards Qin Feng.

Click~! Click~! Click~!

The ground cracked with a radius of hundreds of meters!

The surrounding stalls were blown to pieces.

All the stall owners exclaimed!

Bang~! Bang~! Bang~!

The earth trembles!

The stall owners with a radius of several hundred meters were all forced to kneel on the ground by the emperor's power!

How is this going?

The stall owners were panicked!

It turns out that the Blood Wheel Emperor is extremely domineering!

He was angry that these stall owners did not remind Qin Feng and allowed Qin Feng to disturb him!

While he punished Qin Feng, he also punished the surrounding stall owners.....

The stall owners were extremely panicked and didn't know what mistake they had made.

But the next second, all the stall owners looked forward in shock.

I saw Qin Feng, Chu Chu, and Bao Baobao, leisurely and contented under the emperor's power, without being affected at all.

You know, Qin Feng and the others were at the center of the imperial power's pressure, and the pressure they received was more than ten times stronger than them!

That is the imperial power of Lun Hai level!

Why are Qin Feng and the other three okay?

"Huh!", the Blood Wheel Emperor was surprised

"You are a little unfriendly!", Qin Feng seemed to be smiling but not smiling.

"Ah! I underestimate you! Then I will try your true abilities!"

The Blood Wheel Emperor's belligerent temperament was aroused.

He had just clearly sensed that the imperial power he was pressing against Qin Feng and the others was completely blocked by Qin Feng.

How could a nine-star peak be able to block his pressure? Possible?

This was hard for him to accept!

Not to mention in full view of the public!

Could it be that this young man had a treasure that could withstand the pressure?

So, he wanted to try it with his own hands!

Oh~!

The Blood Wheel Emperor teleported one by one and disappeared out of thin air.

As a wheel The Great Emperor of Sea Realm, the seventh consciousness he awakened is the ability of space

"not good!"

Not far away, the stall owners exclaimed in their hearts.

Oh my god!

The Blood Wheel Emperor has personally taken action, and this young man is going to be in trouble.

Hey! Where did the Blood Wheel Emperor teleport to?

The stall owners were a little confused.

The Blood Wheel Emperor After teleporting, he disappeared out of thin air and was not seen for a long time.

Isn't teleporting as far as the mind and body?

At this moment, there was a fluctuation in the space in front.

The figure of the Blood Wheel Emperor appeared.

As soon as he appeared, everyone was shocked. The stall owner was confused.

The Blood Wheel Emperor himself was also confused!

Damn it~!

Didn't I teleport?

Why am I still in the same place?

Immediately, he thought of something and looked at Qin Feng with a shocked look on his face.

"You actually mastered spatial abilities!"

Qin Feng smiled and said nothing.

The Blood Wheel Emperor looked serious.

Not only did this kid master the space ability, he also mastered it better than himself.

"Pavilion...come down...here...."

The Blood Wheel Emperor opened his mouth to ask.

But midway through his words, his expression changed drastically, and he stared at Qin Feng in shock.

The speed of his speech actually slowed down, and the flow of time around him slowed down...

Oh my God!

This kid actually felt the eighth consciousness and had the power to tell time.

This is not one of the signs of a strong person in the second round.

But this young man is clearly at the top of the Nine Stars!

At this time, Qin Feng sneered, and his eyes suddenly lit up with silver light.

He actually used a memory scan on the Blood Wheel Emperor in front of everyone.

"That seems to be the secret technique of scanning memory!"

"No way!"

All the stall owners exclaimed.

Scanning other people's memories in public is a naked humiliation of people, and is usually done in secret.

"Damn it!"

The Blood Wheel Emperor was furious.

This young man actually wanted to spy on his own memory. He was looking down on himself.

How could he, a majestic emperor, be spied on by a nine-star peak person?

At that moment, he was going to go crazy.

But Qin Feng instantly exuded a His combat power and aura immediately suppressed him on the spot.

Emperor Xuelun's face changed drastically.

This young man's aura was far stronger than him, making him unable to move.

But he was still a little unconvinced in his eyes.

His soul was blooming. The young man wanted to pry into his memory and dream.

But in the next second, Qin Feng easily shattered his soul defense, and the memory scan was successful.

The Blood Wheel Emperor's body shook violently, and his face turned pale.

Immediately, he He looked at Qin Feng with great horror.

Just now, Qin Feng peeked into his memory in the past two days!

How could this happen?

Isn't this young man at the top of the Nine Stars?!

At the same time, after Qin Feng peeked into his memory, he showed a look of realization..

He finally understood why the Blood Wheel Emperor attacked him.

This guy set up a stall here and was not doing serious business at all.

On the surface, he set up a stall and sold the things on the stall.

In fact, those were not for sale.

What he really What is for sale is the True Meaning Seal.

You can only possess the True Meaning Seal after killing the Great Emperor.

The alliance cherishes the existence of the Great Emperor, so the official does not allow the purchase and sale of the True Meaning Seal in the market, at least not openly. Allowed.

In order not to stimulate the fight between the emperors.

As the saying goes, if there is business, there will be killing!

But there will always be people who do things that are profitable.

This Blood Wheel Emperor is very special. He has connections and channels in both the official and the underworld.

Some The true meaning seals of unknown origin will all flow to him.

Then, he will sell them in the Free Market, and then go back and share the stolen goods with the owner!

Over time, everyone knows what he is selling.

The true meaning seals are only for the emperor. Super elemental masters are useful, but not those below the Great Emperor.

Therefore, the Blood Wheel Emperor only trades with the Great Emperor. If he sees that the Emperor is not approaching, he will chase them away without hesitation.

Over time, a rule has been formed that no one can approach unless the Great Emperor approaches. Knowing this, Qin Feng was overjoyed.

His True Meaning of Destruction was awakened by 57%, his True Meaning of Endlessness was awakened by 60%, and his True Meaning of Liangyi was awakened by 21%.%....

If he wants to break through to the Great Emperor, he needs to awaken one of them to 100%.

Devouring other true meaning divine seals is the fastest way to increase your awakening level.

"I want all your goods!", Qin Feng suddenly said

"What?!", the Blood Wheel Emperor didn't react for a moment.

He was still in panic.

"The Divine Seal of True Meaning!", Qin Feng lowered his voice.

"Um...you...you want?! "

The Blood Wheel Emperor is now very afraid of Qin Feng.

The flower of his soul had bloomed with nine petals, but this young man still broke through the soul barrier.

Obviously, this young man's flower of soul power has bloomed with ten petals.

At this moment, he deeply suspected that Qin Feng was a super strong person in the second round realm.

The second round realm, the second level of the ladder!

Only the city lord and deputy city lord in Gale Wind City have reached this level. He can't afford to offend them.

"Friends, do you really want them all?"

The Blood Wheel Emperor's attitude changed drastically and he was extremely respectful.

In the distance, the stall owners looked a little confused.

"That's right! Want them all! how much do you have?"

"Friends, are there no requirements for element attributes?"

"No requirement!"

"I have four pieces of ordinary-level true meaning and one piece of high-level true meaning!"

Qin Feng's eyes lit up:"What's the price?""

"Ordinary true meaning, 300 Xingtide stones each. The top true meaning, one thousand Xingtide Stones."

The Blood Wheel Emperor quoted the price carefully.

He quoted the lowest price and did not dare to raise the price randomly.

Qin Feng just snooped into some of his memories.

He didn't know what he knew. Since others know the details, it's better to be honest and quote the lowest price.

"good! Bought them all!"

Qin Feng readily handed over a storage ring.

The Blood Wheel Emperor took it and saw that 2,200 yuan was not missing.

This young man was decisive.

He quickly took out a storage ring and handed it over.

Qin Feng took it After a quick look, there were 4 ordinary-level True Meaning Seals and 1 top-level True Meaning Seal, which was correct.

What an unexpected gain this time!

Qin Feng put away the storage ring with satisfaction.

"how much is this?"Qin Feng pointed at the treasure on the stall again.

He had been eyeing it for a long time.

"Ah...this....", the Blood Wheel Emperor quickly shook his head, "Friend, this is not for sale, I just took it out for show...."

"But I like it, what should I do?", Qin Feng looked at him with a smile but not a smile.

"Dad, if you want it, just grab it! He can't beat you anyway!"

Qin Baobao was childish and spoke out his thoughts.

The Blood Wheel Emperor felt cold sweat break out on his forehead.

Not to mention, what this little kid said made sense.

He was not afraid of others snatching his things..

But the young man in front of him is suspected to be a strong man in the second round. Without the deputy city lord or the city lord to take action, I'm afraid he can't stop him!

What's more, his business will be in trouble.

He doesn't want to make things big.

"Hey~! Then...that...I'll sell it to you!"

After saying this, the Blood Wheel Emperor had a look of pain on his face.

Qin Feng was so happy that he couldn't help but touch the baby's little head..

Chapter 436

"How much does this cost?", Qin Feng pointed at the treasure.

It was a long black flag. Even across the barrier, you can feel the mighty power of the devil.

This is the magic flag.

When he challenged the space at the god level, the death demon Jun also had a pole, but it was a pity that it was chopped into pieces by the golden puppet's sword.

Of course, it would have been impossible not to chop it into pieces at that time.

The magic calling flag controlled the spirit of the demon ancestor, and only when the magic calling flag was broken, the golden puppet could be free. The quality of the Demon Summoning Banner in front of you is obviously a higher level than that of the Death Demon Lord. The better the quality of the Demon Summoning Banner, the higher the success rate of summoning the Demon Ancestor's residual spirit, and the stronger the summoned residual spirit is!

In fact, , the demon summoning flag of the Death Demon Lord is of average quality.

But this demon summoning banner is a fine product, ten times better in quality than the Death Demon Lord's one, and it is considered top-notch among the emperor-level Yuanwu.

Otherwise, Even the Blood Wheel Emperor will not be reluctant to part with him

"My friend, if you really want it, Three Thousand Stars Stone....."

The Blood Wheel Emperor reported the price with a pained look on his face.

Three thousand Xingxi stones, he had already priced it very low, it was a completely fair price.

He was also afraid of Qin Feng, so he didn't dare to play tricks.

If anyone else buys it, he will ask for at least 5,000!

Qin Feng also thinks the price is very reasonable.

But before he could speak, Qin Baobao on the side exclaimed

"Wow! 3,000 star stones! too expensive! Dad, let's grab it!"

Qin Feng:"....."

Blood Wheel Emperor:"....."

How do the children in this family educate themselves?

Why do you always want to steal other people's things?

The Blood Wheel Emperor wiped the cold sweat from his forehead.

He only dared to think about this idea in his heart, but did not dare to say it out.

In fact, he had secretly observed Qin Baobao a long time ago and was so frightened.

This little girl looks like she is five or six years old, but her cultivation has reached the peak of nine stars, and her combat power and momentum have reached 5 trillion.

Damn it~!

This is definitely a dominating potential!

And it's considered outstanding among the dominators!

He can't afford to offend this little girl!

Who dares to easily provoke a future master!

Not only this little girl, but also the girl next to Qin Feng, who looks about fourteen or fifteen years old, but has a nine-star cultivation level and an aura of 2 trillion!

Damn it!

This is definitely a dominating level!

As for Qin Feng, he no longer dared to guess!

In short, he couldn't be beaten, couldn't be provoked, and he was worried!

He could even imagine what would happen if he really clashed with the other party and provoked the city lord and other big shots.

When they saw the potential of these three people, they might even try to please them, and they would be completely screwed.

The Blood Wheel Emperor became more and more uneasy as he thought about it!

In fact, he didn't pay attention to Qin Baobao and Chu Chu at first.

When Qin Baobao said he wanted to grab something for the first time, Baobao's aura was exposed.

Chu Chu also exuded momentum.

That posture seems to be really trying to grab it!

This scared him so much that he quickly said he wanted to sell it!

"Can't yours be cheaper?", Qin Feng casually asked

"ah?"The Blood Wheel Emperor panicked.

Even Qin Feng had to counter-offer.

Is this price beyond his tolerance?

He doesn't really want to rob him, right?!

"friend! This is really just a breakeven price... Just... Hey! That's it! 2800, 200 less! Just make a friend!"

After saying this, the Blood Wheel Emperor felt that his heart was bleeding.

Qin Feng was a little surprised.

He just asked casually and did not intend for the other party to really lower the price.

He did not expect that counter-offering would be so easy!

In fact, these are all It was the Blood Wheel Emperor who scared him!

Now he just wants to send the great god Qin Feng away!

"Fine!"Qin Feng stopped talking and paid the money readily.

"Friends, this is the magic flag you want!", the Blood Wheel Emperor's voice was trembling.

Qin Feng took the magic flag, looked at it for a while, and then put it away with a look of joy.

This thing is of great use to him!

After a while, Qin Feng stood around the stall owner With their awed eyes, they took Chu Chu and Bao Bao away.

This trip was a good harvest, and the three of them were in a good mood.

After leaving Fangshi, Qin Feng took Chu Chu and Bao Bao directly out of the city.

Two hours later , three figures appeared in a valley hundreds of millions of miles away from the Fire City.

"Brother, there are no people around here for tens of thousands of miles, so it should be safe....."

In the air, Chu Chu looked around

"good!"

Qin Feng waved, and the space in front of him fluctuated, and the golden puppet appeared.

"Take it and summon it yourself!"

Qin Feng threw the demon summoning banner that had been sacrificed.

The golden puppet understood, and after taking the demon summoning banner, he began to summon...

This demon summoning banner will summon the remnants of the demon ancestors to help him fight. , the success rate is only one-third.

But the situation is different when the Golden Puppet takes action on its own.

It summons its own remnant spirit, is connected to the soul, and understands God's will. The success rate is absolutely 100%.

I saw the Golden Puppet incarnate into billions of feet, Stand upright, then wave the flag in your hand.....

In an instant, the situation in the world changed.

Billions of miles of demonic clouds rolled, the power of the sky was mighty, and a mysterious power quickly spread out of the sky, covering the entire Tianfu star field.

Subsequently, the remnant spirits of the She ancestors that emanated from every corner of the entire star field were awakened one by one, gathered and fused from all directions.....

For a moment, the phantom of a thousand-billion-foot-long demon god slowly appeared above the demon cloud.

The demon god has the face of a human and the body of an animal, with green snakes hanging from his ears and a mad dragon on his feet. His aura is extremely domineering.

That is none other than She Ancestor among the Twelve Demon Ancestors!

It is also the true spirit of this golden puppet!

As soon as the shadow of the She Ancestor appeared, it actually exuded a fighting power of 40 trillion. All creatures within hundreds of millions of miles around felt it and looked in this direction in shock.

The Fiery City hundreds of millions of miles away was also alarmed, and countless people looked in the direction of Qin Feng and the others in horror.

Too far away, they can't see the specific situation and don't know what's going on.

But the terrifying aura of combat power had caused a sign from the sky, and the sky above the entire city was gloomy.

At this moment, two figures emerged in the center of the city.

Those are the city lord and deputy city lord of Agni City.

Both of them are strong men in the second round realm.

They sensed it.

Hundreds of millions of miles away, there is a powerful being being born.....

At the same time, in the valley.

Chu Chu and Bao Bao both looked up at the remnant spirit of the Demon Ancestor in the sky in shock.

Qin Feng was also surprised.

He guessed that if the golden puppet himself summoned his own remnant spirit, the effect would be ten times better.

Unexpectedly, the golden puppet summoned all his remaining spirits in this star field.

And after these residual spirits gathered together, their momentum was so strong!

At this moment, there was a change in the field.

The remnant spirit of the She ancestor fell from the sky and landed on the golden puppet.....

In an instant, the golden puppet's momentum surged, and it surged all the way.....

It lasted for a full quarter of an hour before the remnant spirit of the She Ancestor and the remnant spirit of the Jinren Puppet were completely integrated.....

At this time, the momentum of the golden puppet also reached 50 trillion

"hiss~! "

Qin Feng and Chu Chu couldn't help but take a deep breath!

50 trillion combat power!

This is the strength of the Dzogchen Realm!

"Wow~! Dad, this puppet is so powerful!"

Baby Qin even forgot to nibble the fruit in his hand, his eyes were full of wonder.

Buzz~!

The magic cloud in the sky dispersed, and the golden puppet automatically shrank to the size of an adult.

At this moment, its eyes were more agile, and its intelligence seemed to be much higher..

Then, it strode up to Qin Feng and respectfully handed the demon summoning flag back to Qin Feng.

Qin Feng was very satisfied, and with one move, he put away both the golden man and the demon summoning flag.

Chu Chu could see I'm so amazed.

I'm so awesome!

A puppet next to me can be so powerful!

"Dad, if we change places, can the golden man still summon the remaining spirits?", the baby had a sudden thought.

Qin Feng smiled and shook his head:"No way! The remnant spirits of the She ancestors in this star field have all been absorbed by the golden puppets, and the remnant spirits of the She ancestors cannot be summoned. You can only go to other places in the universe, or the Ziyun Secret Realm!"

"Dad, how can this be possible in Ziyun Secret Realm?"

"Ziyun Secret Realm is an ancient battlefield. It is a sealed space. There are twelve remaining demon ancestors in it. Naturally, they can be collected again."

"Oh, it looks like this.....",Qin Baobao seemed to understand but ate his own fruit again.

"Brother, can your magic flag summon the remnant spirits of other demon ancestors?", Chu Chu suddenly asked

"of course! When I get other golden puppets, I will let them use this magic flag to quickly restore their combat power....."

"Brother, then you got such a good deal on this magic summoning flag!", Chu Chu was a little excited.

Qin Feng smiled slightly:"Let's go! It's not a good place to stay for a long time!"

At that moment, the three people left in a hurry..

Chapter 437

After the three people left, they quietly returned to Raging Fire City, and then passed through the teleportation array to the next city.

When they arrived in the new city, the goal of Qin Feng and the others was to raid shops and markets.

The Emperor Soul Flower, Jiulin Flower, and the True Meaning Seal sold on the black market.

Time flies.

In a blink of an eye, half a month passed.

The three of Qin Feng swept all the way and finally arrived at Tianmo City.

Along the way, Qin Feng's harvest was extremely good, and he spent all the 50,000 Xingxi stones on his body.

He spent all of it to buy items such as the Emperor Soul Flower, Jiulin Flower, and True Meaning Seal.

Speaking of the True Meaning Seal, Qin Feng gained a lot.

For others, the Divine Seal of True Meaning can only be used for enlightenment, and only emperor-level figures can use it.

But if you understand it, one piece is enough to last a long time.

Therefore, the market for true meaning seals is very small, and the price is lower than their own value.

In this way, Qin Feng would be better off.

His demand for the True Meaning Seal is very high.

In the past half month, he has bought dozens of true meaning seals, six or seven of which are top-level true meanings. The total cost is less than 20,000 Xingxi stones, which can be said to be a huge profit!

As for the divine seal of supreme truth, not a single one was seen.

The supreme true meaning is still extremely rare.

Besides, it's not easy to kill the emperor who possesses supreme true meaning.

In short, after devouring the dozens of true meaning seals, Qin Feng's true meaning of destruction increased to 72%, the true meaning of endlessness increased to 70%, and the true meaning of Liangyi increased to 40%.

His combat power increased to 30 trillion in one fell swoop, just reaching the threshold of the late Lun Hai period.

In addition, Qin Baobao also received a lot of benefits.

The little guy's understanding of the true meaning of life has increased to 90%, and his combat power has increased to 7 trillion.

According to this progress, she will soon be able to gather the Divine Seal of True Meaning and break through to the realm of the Great Emperor.

At this moment, on a street in Tianmo City.

Qin Feng and the other three looked at the bustling crowd and were amazed.

The Demonic City is so prosperous today!

Pedestrians on the street can't see the end at a glance.

Speaking of which, Demon City is hundreds of times larger than Fiery City.

After all, it is one of the 100 main cities in Tianfu Star.

It is rumored that the lord of Tianmo City is a master.

The Lord is the top figure in the universe.

However, there is only one dominator in Tianmo City, and it has just broken through to the early stage of domination.

As for the masters of the Third Wheel Realm, there are only two or three in the entire Demonic City. They are all big shots who can make the Demonic City tremble with just a stomp of their feet.

"Brother, the closer it gets to the opening of the Ziyun Secret Realm, the more people there will be in this Demonic City. It's still more than half a month before the secret realm opens, and the peak number of people has not yet reached it!"

Chu Chu looked at the crowd and analyzed

"Makes sense!" Qin Feng nodded slightly, "This Tianmo City is close to Ziyun Secret Realm, and more people will arrive in a few days. Where there are many people, there is wealth, and the price of Jiulin Pill is going to increase again!"

Qin Feng's mouth showed a smile.

He didn't sell any of his Jiulin Pills, just waiting for the price to rise.

Along the way, the price of Jiulin Pills has indeed increased, and now one can sell for 6 Xingxi Stones

"Dad, are we going to get promoted now?", Qin Baobao's mouth was full.

The snack food never forgot to eat wherever she went.

Qin Feng also doted on her and kept feeding her well.

"Um...here, do you two still have Xingxi stones on you?"

"Brother, why do you want the Xingxi Stone?"

"I heard that when you apply for promotion, you have to pay an application fee and a fee for the loss of combat equipment, which costs hundreds of Xingtide stones!"

Chu Chu suddenly realized.

Along the way, my brother bought too many Jiulin flowers and Emperor Soul flowers, and all the Xingxi stones on his body were spent.

"Brother, I only have a hundred or so Xingxi stones here!"

"Dad, the baby doesn't have any pocket money!"

"All right! With these 100 Xingxi stones, we can rent a place to live first, and it's time to make money!"

When Qin Feng thought about the 10,000 Jiulin Pills in his hand, his heart became hot.

When it was time to take action, he took action.

If he didn't sell it, the Jiulin Pills would become worthless when the Ziyun Secret Realm opened.

At the moment, the three of them They started looking for a place to live.

Two hours later, Qin Feng rented a small courtyard in the city. The rent was a Xingxi stone for a day, which was considered cheap.

They would stay in Tianmo City for a while this time until the Ziyun Secret Realm opened. , so it is necessary to rent a place to live.

The small courtyard has its own enchantment and is relatively spacious. It is no problem to accommodate seven or eight people. At this moment, in the hall,

Qin Feng, Chu Chu, and Bao Bao are having a meeting.

"Brother, you can make elixirs at home, and my baby and I can go to the market to sell Jiulin elixirs! You have more than a thousand Jiulin Flowers on your body. If you don't refine them, the Jiulin Pill will be worthless when the secret realm is opened!"

Chu Chu said his suggestion.

Qin Feng nodded: "You two can't do it alone!"

He waved his hand and the space summoning was activated.

Bai Qi and Yu Qilin were summoned at the same time.

"I have met His Majesty!" Bai Qi hurriedly bowed to him.

When Yu Qilin saw her lover, her heart was filled with joy and her beautiful eyes were filled with joy.

Could it be that His Majesty summoned her to come and sleep with her?

After all, there was no other woman around His Majesty, and Luo Li was still on the flying boat, so she was the only one suitable for this. Something.

As for Chu Chu, she is His Majesty's sister.

"Bai Qi, how are you practicing the secret technique?", Qin Feng looked at Bai Qi.

Bai Qi's soul has recovered a lot, and his combat power has also increased to 20 trillion.

"Returning to Your Majesty, the secret technique has been successfully refined, and I have finished refining the star core!"

Bai Qi took out the star core (fire) and handed it over respectfully.

Qin Feng took the star core and was overjoyed.

He clearly sensed that the star core contained Bai Qi's soul and essence and blood, as well as the killing path. Breath of true meaning.

Next, as long as he successfully refines the star core again, the star fusion can be used.

This secret technique is equal to half the success.

Qin Feng put away the star core with satisfaction, and when he is free, he will come to sacrifice

"Your Majesty, why did you summon us?", Yu Qilin asked curiously

"Let you and Bai Qi help sell the elixirs....."

At the moment, Qin Feng briefly talked about the market changes.

Yu Qilin and Bai Qi were very excited after listening.

This is indeed a great opportunity to make money

"Take these three storage rings and sell them in three markets. Don't sell them in one market....."

Qin Feng divided the Jiulin Pill into three parts and gave them to Chu Chu, Bai Qi, and Yu Qilin respectively.

Then Chu Chu and Bao Bao were in a group, and Bai Qi was in a group.

The two groups of people quickly went out and looked for markets to sell.

Yu Qilin is the only one left in the field

"Jade Qilin, this emperor-level Yuanwu is for your self-defense!"

Qin Feng waved his hand, and the bracelet of the six spirit skulls flew towards the jade unicorn.

Then, he summoned the golden man puppet and ordered the golden man to protect the jade unicorn.

At this moment, the golden man puppet was wearing a big black robe that concealed his aura. It was difficult for him to identify its identity.

After doing this, Qin Feng let Yu Qilin leave with confidence.

After all, Jade Qilin is still a little weak, and in that city where dragons and snakes are mixed, it is necessary to do some self-defense.

After handling the trivial matters, Qin Feng entered the alchemy room and started refining alchemy.

His main purpose was to refine the Emperor Soul Pill, and the Jiulin Pill was secondary. The purpose of selling the Jiulin Pill was to make money, which he could use to buy the Emperor Soul Flower and the True Meaning Divine Seal.

Emperor Soul Both the elixir and the True Meaning Seal can improve his strength, which is what Qin Feng really needs.

Time flies.

In the blink of an eye, three days have passed.

In these three days, Qin Feng made a lot of money.

The price of Jiulin Pill has increased to Each one sold for 7 Xingxi Stones.

Qin Feng's 10,000 Jiulin Pills were sold out within three days.

Later, he refined some more and earned a total of more than 70,000 Xingxi Stones.

The money was Used to buy the Emperor Soul Flower and the True Meaning Divine Seal.

In the end, all the elixir sales were handled by Yu Qilin alone, with the golden puppet always guarding him.

Bai Qi continued to retreat and regained his strength.

Qin Baobao was also in retreat. , sacrificing the star core.

Chu Chu is also in retreat, trying to hit the peak of the nine stars.

Qin Feng gave Chu Chu a large number of Xingxi stones, asking her to break through to the peak of the nine stars in a short time.

And Yu Qilin is also very good at trading, and can mix in the market. She was like a fish in water.

Not only did she take good care of Qin Feng's elixir business, but she also helped Qin Feng buy a lot of Emperor Soul Flowers, True Meaning Divine Seal, and some Jiulin Flowers.

Time flew by in a blink of an eye!

It passed in the blink of an eye. Six days, there are only seven days left before the secret realm is opened.

In the alchemy room, Qin Feng looked at the densely packed Emperor Soul Pills in front of him with a look of joy, more than three thousand pills in total...

This is what he has accumulated during this period.

Yu Qilin is here He contributed a lot!

These days, he has devoured dozens more true meaning seals.

His true meaning of destruction has been awakened to 80%, his true meaning of endlessness is 78%, and his true meaning of Liangyi is 43%. His combat power has been greatly improved.....

The baby also gets the benefits, the true meaning of life is increased to 98%, and the combat power is increased to 8 trillion.

The little guy is just one step away from breaking through to the Great Emperor.

Now, it's time for him to devour these Emperor Soul Pills and reap the fruits...

Qin Feng opened his mouth and sucked in all the more than 3,000 Emperor Soul Pills.....

"Ding! Successfully swallowed the Emperor Soul Pill...the soul body was greatly strengthened.....The combat power has been greatly improved... The flower of the soul will bloom next time and the progress will be 70%..."

"good!!"

Qin FengLooking at himself thoughtfully.

The next flowering of the Soul Flower is 70% progressed, and the eleven petals are not far away.

And his combat power has also skyrocketed to 35 trillion. Basically, everything that should be improved has been improved, and it is time to participate in promotion.

With this promotion, he will definitely achieve good results.

At that moment, Qin Feng walked out of the alchemy room with a confident look on his face..

Chapter 438

After leaving the alchemy room, Qin Feng went to the hall and summoned Bao Bao and Chu Chu.

Bao Bao and Chu Chu were both in retreat together.

With the help of Chu Chu's time force field, the two of them stayed in seclusion for six days, which was equivalent to two months of cultivation.

"Dad, my secret technique is ready!"

Qin Baobao happily took out the star core (soil), with his little face raised high, waiting for praise.

"Well done baby!"

Qin Feng fondly touched the baby's little head.

"whee!" Qin Baobao's two big eyes turned into crescent moons when he smiled.

Qin Feng looked at the star core in his hand. It did contain the baby's essence, blood and soul breath, as well as the supreme true meaning - the breath of the true meaning of life.

Wait. When he had time, he would sacrifice Bai Qi's star core and Bao Qi's star core together.

After he finished refining, he wouldn't worry about anything happening to Bao Bao and Bai Qi.

As long as he didn't die, he could use the star core to save Bao Qi. He Bai Qi infinitely resurrected

"Brother, when can I practice this secret technique?", Chu Chu looked at it with envy.

After two months of hard training, and with the help of a large number of Xingxi stones, her cultivation level broke through to the peak of nine stars, and her combat power reached 4 trillion.

Now she wants to be like Bao Bao, Also learn that star core secret technique

"Soon! I asked Yu Qilin to inquire about it. There are star cores for sale in several big shopping malls in Tianfu Star."

"The water attribute star core costs 80,000 star stones, and the wind attribute star core costs 100,000. The price is the same as elsewhere."

"I plan to let you practice the wind attribute. Your true meaning of years is somewhat consistent with the wind attribute."

Qin Feng said as he put away the baby's star core.

"Brother, let's buy a wind-attributed star core now!", Chu Chu couldn't wait.

Qin Feng smiled and said:"The money is not enough! During this period, I bought a lot of True Meaning Seals and Emperor Soul Flowers, and I only had 40,000 Xingxi Stones left in my available funds. These will be left to Yu Qilin for trading..."

"Brother, what should I do?", Chu Chu felt a little worried.

"Dad, is it true that the baby eats fruit every day and makes dad poor? You can't even afford star cores.", Qin Baobao had a sudden thought.

Qin Feng laughed dumbly.

"Did you two forget? There are generous rewards in the promotion assessment!"

When reminded of this, Chu Chu's eyes lit up:"Brother, are we going to take the assessment now? Qin Feng smiled and said,"

Of course!" The money we paid to buy the star core depends on it!

Chu Chu was overjoyed:"I have been waiting for this day for a long time!""

"yeah! Dad, the baby also wanted to go very early!", Qin Baobao also jumped up happily

"Dad, we must be able to make a lot of money this time, right? Chu

Chu picked up the baby and said,"Baby, as long as our results reach the fourth level, we will be rewarded with 320,000 Xingxi stones!" In addition, there are special rewards!"

"Wow!! So many! Dad, let's go quickly!"

"Then let's go!"Qin Feng is also full of expectations.

"Brother, why don't you call me Shang Baiqi?"

"Need not! Let him continue to retreat and regain his strength!"

"oh!"

At this moment, a group of three people left the small courtyard.

Qin Feng did not let Bai Qi go. Firstly, Bai Qi had little influence on the assessment results, and secondly, he was worried that Bai Qi would be recognized.

Bai Qi was severely injured in the first place, and he was his enemy. What he did.

According to the fragments of Bai Qi's memories, this incident seems to be related to the inheritance of the Divine Phoenix, and also to the Starry Sky Beast Clan. It seems that the Starry Sky Beast Clan has a lot to do with breaking through to the Half-Step Star Lord for the inheritance of the Divine Phoenix.

Qin Feng is not there now He had time to deal with these things, so he just wanted to let them go.

His most important thing now is Ziyun Secret Realm.

Tianmo City is very big.

After Qin Feng and the others left their residence, they rushed to the Star Territory Office.

There are restrictions in this Tianmo City , without the strength of the Wheel Sea Realm, it is impossible to fly in the air.

Therefore, most people are walking on the streets, and only a few people are flying in the air.

The flyers in the sky caused many people to stop and marvel.

The strong ones No matter where he goes, he will be respected!

With Qin Feng's strength, he can easily fly in the air.

Even the baby can barely fly.

After all, the baby's combat power has reached 8 trillion, which is close to the 10 trillion threshold of the Wheel Sea Realm. Almost.

Only Chu Chu was not strong enough and could only walk.

Qin Feng naturally had to accompany his sister.

Half an hour later, the three of them arrived at the promotion office.

The Star Territory Office was very impressive, covering an area of 10,000 acres and reaching 100 million yuan. There are barriers all around, and spiritual consciousness cannot spy.

Rumor has it that the walls of this office can resist the attacks of strong people in the second round.

At this moment, in the lobby of the office.

Qin Feng looked at the endless crowd of people, feeling a little dazzled..

Great emperors can be seen everywhere here, even great emperors of the Wheel and Sea Realm.

They basically come to apply for promotion.

There are fewer people in the nine-star realm than those at the emperor level.

After all, only the emperor's strength is eligible to apply for promotion.

Those nine-stars The realms are all here to see the world, none of them come to advance to the next level.

"Brother, there are so many great emperors here! Are they all here to apply for promotion? Are there so many promoted star fields in the universe?", Chu Chu sighed

"Yes! I also think there are many great emperors! But they are not as good as me!"

The baby was talking carelessly while eating the fruit.

People passing by laughed and said nothing when they heard this.

Who would take a child's words seriously?

Qin Feng looked around silently.

Soon , he was attracted by a huge light screen in the hall.

I saw rows of data displayed on the light screen.

First place: Gale Star Territory, sixth level promotion.

Second place: Iron Blood Star Territory, seventh level promotion.

No. Three: Thunder Star Territory, seventh-level promotion.

Fourth... except that the first one is promoted to sixth-level, the following series are all seventh-level promotions, and then eighth-level promotions.....

There are thousands of them, most of them are ninth-level promotions.....

"Brother, this seems to be the performance ranking of Star Territory promotion!"

Chu Chu also saw it and looked over curiously.

"Dad, why are there no fourth-level promotions here?", Qin Baobao looked curious.

"Yes! I didn't see anyone in the fourth class either. The highest was only the sixth class, and there was only one!", Chu Chu looked at it for a long time.

Not to mention the fourth grade, there was not even a fifth grade. Is this promotion assessment difficult, and no star field promotion score reached the fifth grade?

This thought made Chu Chu a little uneasy.

This is not a good thing. Ah!

This means that the assessment is very difficult.

Qin Feng is also thoughtful.

His goal is to be above the fourth level. The reward for the fifth level is only 160,000 Xingxi Stones, and the sixth level is only 80,000.

These are not enough!

At this moment , a female staff member came over.

The female staff member had a nine-star cultivation level, was wearing a uniform, and had a heroic appearance. With her exquisite facial features and snow-white skin, she was very eye-catching.

At this moment, she stared at Qin Feng with her beautiful eyes. She walked over with a smile on her face.

She had been paying attention to Qin Feng for a long time.

The moment Qin Feng walked in, she was attracted.

This young man should be the most handsome young talent among the people she has ever seen..

It stands to reason that they, the official staff, are here to receive the emperor.

They pay little attention to those nine-star personnel.

These people are just watching the fun, and there is nothing to receive.

Now, Qin Feng, the nine-star, is an exception.

He is naturally noble. Her temperament and appearance successfully attracted this beautiful staff member

"Bro, is there anything I can help you with?", the beautiful staff member took the initiative to say hello.

She saw that Qin Feng was confused now.

Qin Feng's eyes lit up and he saw the woman's identity and asked quickly:"I want to ask, what is the data on this light screen? The female staff member smiled coquettishly:"It seems like this is my first time coming to the office, right?"

"Indeed!"Qin Feng didn't hide it either.

The female staff member smiled and said:"That's no wonder! This is the promotion list, and each office has one. The data on the list is the ranking of promotion results in our branch's star field within a hundred years. Qin Feng suddenly said:"

Within a hundred years?" No wonder the ranking is almost a thousand!

Immediately, he was surprised and said:"In the past hundred years, the best result has been sixth class?" Is this promotion assessment difficult?"

"yes! It's very difficult! That Gale Star Territory was successfully promoted thirty years ago, and it was the only one to pass the sixth level. No one can surpass it so far!"

The female staff members were full of praise for the Gale Star Territory.

Qin Feng and Chu Chu looked at each other with a strange look in their eyes.

Within a hundred years, only one of them has reached the sixth level.

Promotion in this Star Territory is more difficult than they thought!

At least the test It is very difficult to get good results!

"By the way, you came at the right time this time, just in time to see the centenary award conference!", the female staff member said with a smile.

Qin Feng was puzzled:"A reward conference? what is that?"

The female staff member explained:"This list is not just for people to see, it has real rewards. It is summarized every hundred years, and the top ten will be rewarded!"

"This time, the 100-year ranking will be completely announced in three days. At that time, the top ten stars will receive generous rewards!"

Hearing this, Qin Feng and Chu Chu looked at each other, with joy on their faces.

They came at the right time.

As long as they get good results in the assessment within these three days and enter the top ten, there will be surprises What a harvest!..

Chapter 439

Seeing that both Qin Feng and Chu Chu had joy in their eyes, the female staff member misunderstood.

She smiled and said:"You are really lucky. A once-in-a-century award conference like this is not something you can just expect to see."

"Sister, are the rewards for the top ten very generous?", Chu Chu asked

"Of course it's rich! Not counting other things, the reward for the light star tidal stone, ranking tenth, will be 100,000!"

"So many! How much is the reward for ranking first?"

"1 million Xingxi stones, and special rewards!"

Hiss~!

Chuchu couldn't help but take a deep breath, her eyes were burning.

"Dad, there are so many rewards for first place!", the baby was shocked.

Qin Feng smiled and said nothing.

In fact, his heart was moved.

The female staff member seemed to enjoy it when she saw Chu Chu and the baby's surprised look.

She continued:"I'll tell you another secret, don't look at it. This is the current ranking. In fact, the ranking changes in this list were the most drastic in the last three days!

Chu Chu was puzzled:" Why?"what?"

The female staff member explained:"Some star organizations are very thieves. They can obviously apply for promotion, but they don't and have been secretly developing their strength."

"Then, they waited for the last three days when the century-old list was released before taking part in the assessment and entering the top ten in one fell swoop. Get list rewards!

Chu Chu suddenly realized:"So that's it!" I said that there are many people here to sign up for promotion. Could it be because of this incident that the number of people has increased?"

The female staff member said:"Half of it is because of this, and the other half is because the Ziyun Secret Realm is about to be opened. Many people who applied for promotion came here because it was very close to Ziyun Secret Realm."

This made Qin Feng and Chu Chu think so.

They came here just because it is close to Ziyun Secret Realm.

"In short, the number of people applying for promotion has increased by more than ten times these days, and the battle for ranking has become more intense."

02 The female staff member sighed.

Qin Feng suddenly asked:"Will anyone be promoted to the fifth level in the past three days? The female staff member smiled coquettishly:"Fifth grade is hard to say!" That one is too difficult. I guess there might be two or three sixth-level ones."

"Brother, if you want to see the promotion process of those great emperors, you can go to the viewing hall. Admission is free for nine stars, and the admission fee for a star tidal stone below nine stars is...."

Qin Feng smiled slightly:"I'm not here to watch the battle, we are here to sign up for promotion!"

"Forehead....", the female staff member was a little surprised

"Brother, you may not know the rules for registration! This promotion application must be registered in person by the examiner to be valid. You cannot apply on behalf of your elders!

Qin Feng smiled lightly and said:"I am the examiner, not the one applying on behalf of others!""

"Well!.....You seem to be at the peak of Nine Stars...."

"That's right! Can't I sign up for Nine Star Summit?"

"Registration is possible! It's just that with the strength of the nine-star peak, there is basically no hope of passing the promotion. If you really want to sign up, I'm afraid the registration fee will be included in it... To apply for a quota, it costs 200 Xingxi Stones, which is not cheap!"

The female staff member kindly persuaded.

She had seen too many nine-star examiners, and without exception, they all failed.

200 Xingxi stones, for the nine-star emperor, is almost half of his net worth.

She was worried that Qin Feng lacked common sense, so Please remind me more

"By the way, don't you have a stronger master in your star field? I see you are so young!"

"there is none left! We should be considered the strongest! Could you please tell us, sister, where is the registration office?"

"All right! I'll take you there!"

The female staff member saw that she couldn't be persuaded, so she stopped talking.

There are some things that are useless to talk about. Only by experiencing them can you know the depth.

In fact, she was also a little curious. This guy looked confident, so he didn't really have any abilities. Right?

At that moment, a group of people left the hall.

Under the leadership of the female staff member, Qin Feng and the other three arrived at the promotion registration office.

Along the way, everyone had a good chat.

Qin Feng knew that the female staff member's name was Nan Yuan.

Nan Nan Yuan seemed to be a little interested in Qin Feng. When chatting with Qin Feng, he always seemed a little excited.

Entering the registration office, Qin Feng found something special.

There were more than a dozen staff members and a supervisor inside, all wearing uniforms.

The supervisor was a An old man with a beard-covered face, a majestic temperament, and a strong person in the first round of cultivation

"Master Feng, these three people are here to sign up for promotion to the fifth-level star field!"

Nanyuan reported respectfully to the old man.

She didn't dare to kick him in front of the old man.

This Lord Feng is a powerful person in the reincarnation realm!

Even if he is only in the reincarnation realm, she can only hold him back.

"kindness!", the old man nodded slightly, with a nonchalant expression.

His arrogance was revealed in the inadvertent details.

He raised his eyes slightly to look at Qin Feng and the other three, and couldn't help but frown secretly.

Nine-star peak?

You're not mistaken!

You dare to come to the nine-star peak. Sign up?

Are there too many Xingxi stones?

At the same time, the three staff members, Qin Feng, all looked strange.

It has been a long time since I saw Jiuxing people come to sign up!

"Still too young!"

Some staff members came up with this idea immediately.

In fact, Qin Feng and the other three looked young, and they felt that Qin Feng might not understand the situation.

"Nanyuan, didn't you tell them?" Master Feng looked at Nanyuan with some dissatisfaction.

He didn't want young people to waste money.

After all, promotion registration is not free.

"My lord, I told you!", Nan Yuan was a little aggrieved.

Lord Feng frowned and looked at Qin Feng: "Young man, before you sign up, I would like to remind you of two things."

"The first thing is that even the Nine-Star Emperor in the early stage of foundation building may not be able to pass promotion, and the success rate is only 70%"

"Second, registration is not free. No matter whether you succeed or fail in promotion, the registration fee will not be refunded"

"Fortunately, if you are promoted successfully, the alliance will give you generous rewards. If you fail, you will lose more than you gain. You have to think about it and sign up!"

Master Feng has a cold expression, but his words are full of earnest persuasion.

"Old gentleman, I have already thought about it! I want to sign up!"

Qin Feng smiled calmly

"good! The registration fee is 200 Xingxishi per quota. How many of you will participate?"

Mr. Feng will stop talking nonsense.

He has gone as far as to be benevolent and righteous.

It's the other party's business to listen or not.

"By the way, the examiner must be an original resident of the applying star area, immigrants are not counted."

Master Feng reminded me again.

Qin Feng was surprised:"How many more people can be signed up?"

"That's right! There is no limit to the number of people who can sign up for a star field, and fees are charged per head. Your assessment results will be accumulated together to calculate the assessment points for your star field. If you accumulate 10 points, you have passed the ninth level promotion!"

Hearing this, Qin Feng was overjoyed.

He took the assessment alone and was a little worried that he wouldn't get good enough results.

If Chu Chu was added to the mix, the result would be different.

Chu Chu now has a combat power of 400 million, which is better than Foundation Establishment. The emperors are stronger.

The two brothers and sisters will get higher points if they join forces.

As for the final level of promotion, he still doesn't know.

And Chu Chu is also excited.

She has long wanted to do something for the promotion of the Earth Star Territory. Make some contribution.

Now is your chance!

"Sir, my sister and I have both signed up for the assessment!"

"good! Two places, 400 Xingxi Stone registration fee! By the way, where is this little guy?"

Master Feng looked at Qin Baobao again.

Although he couldn't see through the baby's cultivation, he intuitively felt that there was something special about the baby.

"Grandpa, I don't want to sign up! The baby is daddy's pet, and the baby can fight with daddy!"

Baobao Qin hugged Qin Feng's big thigh affectionately.

Looking at her cute look, Lord Feng laughed dumbly.

"It turns out to be a battle pet! very nice! Very spiritual!" Lord Feng couldn't help but admire.

Then, he ordered a staff member: "Turn on the star array!"

After a moment, the altar in the center of the hall was activated.

A huge three-dimensional starry sky map appeared in the hall.

Those star maps were densely packed with countless star fields.

Qin Feng glanced at it and saw the Milky Way in the corner.

"Young man, find your home galaxy, we want to verify your identity!"

"Old sir, which galaxy is my hometown in?...."

Qin Fengyao pointed to the location of the Milky Way.

Master Feng waved his hand, the star map rotated, and the star map of the Milky Way flew over.

The next second, the starry sky map of the Milky Way was magnified a million times.

Qin Feng quickly found the solar system and the earth.

When a virtual projection of the Earth appears.

Master Feng used his secret technique to test the identities of Qin Feng and Chu Chu.

After a moment, he opened his eyes:"That's right! You two are both from Earth, and your identities are correct. The Earth's star field is indeed a newly developed primitive planet. Xiaoling, come and help them handle the registration matter!"

Master Feng ordered a staff member.

At that moment, a staff member led Qin Feng and three others to go through the formalities.

"Nanyuan, it's time for you to get busy!"

"Yes, my lord!"

Nanyuan didn't dare to neglect and left.

But before she left, she secretly memorized the words"Earth Star Territory".

As long as you know the name of the Star Territory, you can check the promotion results of this Star Territory at any time.

She will secretly remember it when the time comes. Pay attention.

She was inexplicably curious about the assessment of Qin Feng brother and sister.

Not long after, the registration procedures for Qin Feng and Chu Chu were completed.

Both of them got an assessment pass.

On the back of the pass was an earth pattern, representing them The identity.

The front is the number.

Qin Feng is 397, Chu Chu is 398.

This means that Qin Feng is the No. 397 player participating in the assessment, and Chu Chu is the No. 398.

If you probe the token with your spiritual mind, you can see some data.

The first line of data shows: No. 77, Crimson Emperor, from the Crimson Star Territory, points: 37 points... The second line: No. 39, White Lotus Emperor, from the Immortal Refining Star Territory, points: 35 points.....

It turns out that the data in this token shows the assessment status of the emperors who are participating in the assessment.

Occasionally, Qin Feng saw someone's name disappear out of thin air.

That means that the assessor's assessments are all over and will no longer be displayed in the token.

Qin Feng checked the rankings of himself and Chu Chu again.

As expected, the two of them were ranked at the bottom, both with 0 points.

At the end of the data, several lines of numbers are displayed.

10-20 points, ninth level promotion.

21-40 points, eighth level promotion.

41-80 points, seventh level promotion.

81-160 points, sixth level promotion.....

After reading it, Qin Feng was filled with sighs.

Among the hundreds of examinees who are currently taking the assessment, the highest score is only 37 points. This assessment is estimated to be quite difficult.

"All registrations have been processed! There is an assessment guide in this jade talisman, go and take the assessment!"

Master Feng threw two jade talismans casually and flew towards Qin Feng and Chu Chu.

"Thanks, sir!"

Qin Feng said hello politely, and took Chu Chu with him, and couldn't wait to leave the registration office.

After Qin Feng and the other three left, the staff at the registration office started talking.

"It's been a long time since I've seen the Nine-Star Summit coming for the promotion assessment. I wonder what their results will be in this assessment?"

"Is there any need to guess? The two of them must have scored 0 points!"

"Ha ha!! It would be embarrassing if they were all 0 points"

"Ah! The embarrassment is a trivial matter, but the registration fee of four hundred Xingxi stones was wasted!"

"I told you guys, don't laugh. I just checked and it's only been a hundred or two hundred years since the Earth's star field became high-dimensional. It's already amazing that they can give birth to two top nine-stars so quickly!"

These words made everyone quiet for a while.

At this time, Master Feng said softly: "You are too busy! So if you want to know their assessment results, don't you have tokens? Check it out anytime, you'll know!"

It turns out that the identity tokens of these staff members also have the function of checking the player results at any time.

At that moment, a staff member smiled and said: "Master Feng is right to remind you. If you are so curious, just check the tokens at any time! Maybe, a miracle will happen this time!"

"I hope the two of them can surprise us, so that work will not be boring. Speaking of which, more and more people have come to take the assessment recently, and you can actually see one or two outstanding assessors every day!"

Everyone started chatting again..

Chapter 440

On the other side, Qin Feng and Chu Chu left the registration office and headed to the assessment area.

Qin Feng looked at the information in the token while walking.

At the same time, in the viewing hall, tens of thousands of spectators were attracted by the light curtain on one side.

The light screen had just been refreshed, and the names of Qin Feng and Chu Chu appeared at the bottom.

"Huh! Another star field has signed up!"

"Earth star field?! They actually had two assessors sign up!"

"hehe! interesting!"

A moment later, Qin Feng and Chu Chu arrived at the assessment area, and Bao Bao followed Qin Feng.

At this moment, Qin Feng had read the information in the token, and a confident smile gradually appeared at the corner of his mouth.

Chu Chu looked nervous.

"Brother, you don't seem nervous at all!"

"I just figured something out! Our results this time will definitely not be bad!", Qin Feng confidently put away the token

"Why?"

"Think about it! There is only one assessor in so many assessment star fields, which shows that it is extremely difficult for them to train a great emperor, and it is even harder to train a master!"

Hearing this, Chu Chu was thoughtful.

After a moment, she seemed to understand, with a bright smile on her face.

My brother's strength is top-notch in the first-round realm, and he can instantly kill the Great Emperor of the Great Perfection of Foundation Establishment..

And most of these examiners are emperors in the early stages of foundation building, and there is no comparison at all.

Not to mention my brother, with her 4 trillion combat power, she can sweep away the emperors who have completed the foundation building process.

In this way, their How could their grades be bad?

Maybe they can create a miracle and get promotions above third level.

Promotions above third level have not appeared in Tianmo City for hundreds of millions of years.

"Brother, this assessment is divided into three parts: a combat promotion point, an additional point for potential test, and an additional point for alchemy, weapon refining, and formation formation. Which one are you going to take the test for?"

"Can I still get points for alchemy, weapon refining, and formations?"Qin Feng was a little surprised.

"Yes, I just read the assessment guide. The level of alchemy, weapon refining, and formation techniques can also reflect the level of cultivation in that star field, so they are included in the assessment score."

"oh!"

Qin Feng curiously took out the jade talisman of the assessment guide and went in to check it out.

Sure enough, those three items also count as points.

However, you must be at least the emperor level to get points, and the points are not many.

Assessment promotion, the main body Scores still depend on combat points, followed by potential test points, and finally alchemy and the like.

In fact, very few people participate in alchemy, weapon refining, and formation assessments.

These three aspects require talent and are also time-consuming. Most people don't want to put in the effort to learn

"No matter how small a mosquito is, it's still meat. I'm going to test alchemy first. It would be good to get some extra points...."

"Brother, then I'm going to take the combat test."

"Dad, I want to see my aunt fight...."

"Well, just follow your aunt and don't cause trouble everywhere!"

"Well, babies don't cause trouble!"

At the moment, the three of them split into two groups.

Bao Bao followed Chu Chu.

Qin Feng went to assess the alchemy first.

Not long after, Qin Feng arrived.

The alchemy assessment area was very deserted.

There was not even an audience outside the assessment area.

Although alchemy is also a There are additional assessment items, but it is rare to have an assessor within a year.

Unlike the combat assessment area, assessments are added every moment.

Over time, no one comes here to watch.

After all, the emperor-level alchemy is too difficult to achieve, and the score Not much.

At this moment, the examination hall was deserted.

The examiner and the two deputy examiners were busy chatting somewhere.

"Yo! Sir, look at the information in the token. There are actually two examiners from one star field."

A deputy examiner looked at the token with interest

"This is quite rare!"

The examiner smiled slightly and took out the token to check.

The examiner was an old man. He was full of the fragrance of alchemy. He looked like a master of alchemy.

"Earth Star Territory....Qin Huang...Chu Chu....."

The examiner is muttering.....

There were footsteps outside the hall.

The three assessors were alarmed and raised their heads.

It's been almost a year, and finally a new assessor is here!

After a moment, a light flashed at the door, and a handsome young man walked in.

"Nine-star peak!"

The three examiners looked at each other and remained calm.

For alchemists, this kind of cultivation is enough. They only look at the level of alchemy and don't care about cultivation.

"Sir Examiner, I am here to take the alchemy assessment!"

Qin Feng expressed his intention to the three examiners.

"Young man, let me remind you. Only those who reach the level of alchemy above the emperor level can gain points. If you don't have such a level, you can quit as early as possible without wasting your time....."

The examiner reminded me casually as usual.

Qin Feng smiled:"Sir, if I didn't have such confidence, I wouldn't come here for the assessment!"

The examiner nodded:"Okay! You come here to register the information first!"

Qin Feng approached the desk and took out Your own assessment token.

A deputy examiner quickly registered the information.

Emperor Qin, Earth Star Territory... Points: 0 points.

When the three examiners saw the registration information, they smiled knowingly.

I didn't expect such a coincidence. They were just talking about the Earth Star Territory, and this person came.,

"Emperor Qin, there are more than thirty kinds of emperor-level elixirs here. You can choose one to refine. Let me remind you, you only have two chances. If you fail to refine it both times, you will lose the qualification for the assessment. Do you understand?."

"clear!"

"good! You pick a pill to refine!"

A screen of light appeared in front of the examiner, showing a row of text and a shadow of the appearance of the pill.

Qin Feng saw a very familiar pill at a glance - Jiulin Pill!

He couldn't help but smile.

This paragraph Over time, he has refined too many Jiulin Pills and has reached the level of proficiency.

"Sir, I want to refine Jiulin Pill!"

"The difficulty of refining this Jiulin Pill is not small. Don't you think about making it easier?", the examiner kindly reminded

"No! I will refine Jiulin Pill!"

"good! Xiaobei, give him two copies of Jiulin Pill materials!"

Soon, a deputy examiner took out the materials from the warehouse and sent them to Qin Feng.

At this time, the examiner said again:"Young man, just refine it in front of the three of us. Two materials, as long as If you successfully refine one copy, it means you have the emperor level and can get 1 point."

"Is there only a maximum of 1 point?", Qin Feng asked curiously.

The examiner smiled and shook his head:"Of course not! The elixir formation rate and elixir formation time both affect points."

"For example, the pill-forming rate of Jiulin Pill is that one Jiulin flower can produce up to 5 pills. If you can refine 5 of them, that's 5 points."

"For another example, the time to refine a furnace of Jiulin Pill usually takes 24 hours. If it comes out within 12 hours and becomes an elixir, it will count as 2 points. Qin Feng suddenly said:"

So that's it!" What if it comes out within half an hour? How many points?"

"half an hour?!", the examiner was stunned.

Immediately, he shook his head and said:"Young man, don't be unrealistic! I have never seen anyone who can become an elixir within half an hour. That's an exaggeration zero! Qin

Feng smiled slightly:"Examiner, I just want to know, if someone really produces the elixir within half an hour, how many points will it count?"

The examiner frowned, this young man is a bit stubborn!

You know, even if you are an emperor-level alchemist, it will take you at least 3 hours to refine the Jiulin Pill.

And the even more powerful Lunhai-level alchemist, you can refine the Jiulin Pill, and it will take you at least 3 hours to produce the pill." It will take almost an hour.

It is a dream to expect the elixir to come out in half an hour!

At that moment, he said angrily:"If such a thing really happens, I will give him 20 points!"

Qin Feng was overjoyed:"Okay!"

As soon as he finished speaking, he sat cross-legged and waved, and an alchemy furnace appeared in front of him.

Then he looked at the examiner:"Sir, please start the timer! I'm going to make an elixir!"..
