

## God level 441

### Chapter 441

"Sir, please start the timer! I'm going to make an elixir!"

The examiner was stunned.

Looking at Qin Feng's posture, is it possible that he can produce the elixir within half an hour?

Immediately, the examiner shook his head slightly, feeling that he was thinking too much.

"Sir, do you want to start the timer?", a deputy examiner asked in a low voice

"Time him!"

"good!"

Buzz~!

The timing light screen next to the hall is activated, and the numbers pop up: 00:00...00:01....

"You are good to go!", the examiner reminded.

Qin Feng smiled slightly, stroked it with one hand, and the lid of the alchemy furnace flew up automatically.

The next second, he put in the two alchemy materials together.

There were also other auxiliary materials, and they were all put in. Now.

When~!

Cover the alchemy furnace!

This scene made the three examiners stunned.

"This is....."

"What is this guy doing?!"

The two deputy examiners looked confused!

The examiner frowned even more!

What is this kid doing?

Give him two Jiulin flowers and two materials, which means giving him two chances.

What if he fails once ? , I can do it again.

But this guy is good!

He used it all at once!

Is this too confident or arrogant?

The examiner is a little unhappy.

Even if he has some ability, he shouldn't express himself in this way. Confidence!

To put it bluntly, this is called pretending to be too much!

The other two deputy examiners also shook their heads slightly!

The three of them could not help but look on coldly.

Poof~!

At this time, the alchemy fire was ignited under the alchemy furnace.

Qin Feng pinched the elixir with both hands. Jue.

The technique is as smooth as clouds and water...

Under his control, the fire of the alchemy furnace rises and falls, and advances and retreats in a certain degree.

Seal formulas are driven into the furnace, and the medicinal materials inside are divided and combined. well organized.....

"Tsk tsk! What a skillful technique!"

The three examiners were moved, with wonder in their eyes.

No wonder this guy dared to show off, he is indeed quite capable!

The speed of the alchemy is closely related to the alchemist's control of the alchemy.

The changes in the alchemy are also extremely difficult to control.

Ordinary elixirs have thousands of variations, and there are tens of thousands, or even hundreds of thousands, of emperor-level elixirs. If you make the wrong step, your previous efforts may be wasted. It is difficult for ordinary people to have such memory and understanding. Therefore, it is extremely difficult to learn alchemy.

Gradually, Qin Feng moved the alchemy skills faster and faster, moving more and more like clouds and flowing water.....

"so fast!"

The three examiners began to be shocked.

The speed of this secret formula completely exceeded the level of the emperor.

According to this speed, as long as this kid does not fail in refining the pill, he will definitely make it very quickly.....

But at this moment, Qin Feng's speed increased again....

"Good boy!"

The examiner couldn't help but admire.

The two deputy examiners were silent.

Qin Feng's speed of making secrets had already caught up with them.

But at this moment, Qin Feng's speed of making secrets doubled again.....

This speed has exceeded the limit of the two deputy examiners.

Even the examiner must not be distracted, otherwise he will not be able to keep up.

A deputy examiner couldn't help but frown.

Then, he whispered: "This examiner only cares about speed and does not consider the rate of elixir formation! Doesn't he know that if he speeds up blindly, the failure rate of elixir refining will be greatly increased?~! "

The other deputy examiner nodded and smiled: "Young people always like to act cool, which is understandable! However, he put the two materials in together. If he failed, he would have no chance!"

"hehe! He has no one else to blame, he can only blame himself. Young people have to pay for their own impulses!"

Just when the two deputy examiners were muttering, Qin Feng's speed doubled again.

The two deputy examiners were speechless.

This guy really wants to go away and never come back in terms of speed.

Even the examiner... Frowning, his eyes could hardly keep up.

But at this moment, the mutation reappeared.

With a thought in Qin Feng's mind, the time force field was activated.

Within a radius of ten meters, the flow of time accelerated five times.

Qin Feng's pinch speed It increased five times in an instant.

The examiner was stunned for an instant!

He couldn't see clearly!

The two deputy examiners were completely dumbfounded!

They couldn't even see clearly how Qin Feng's fingers moved.

But the next second, the three of them noticed What, shocked

"Huh! It's time ability!"

"Oh My God! This examiner actually awakened the ability of time! Could it be that he has the potential to become a master of the Sea Realm!"

The three examiners were shocked.

They didn't think anything of becoming the Great Emperor.

But becoming the Wheel Sea Realm would be extraordinary.

The Wheel Sea Realm is a big shot no matter where it is.

Even the examiner has just completed the Foundation Establishment and has not yet reached the Great Perfection. Sea realm, because he has not yet awakened the seventh consciousness.

Not to mention the other two deputy examiners.

With this thought, the eyes of the three of them looking at Qin Feng changed..

"Why! such a pity! This young man has good talent, but he is a little impulsive!"

A deputy examiner expressed some regrets.

"yes! He blindly pursued time and did not leave any room for himself. He refined two elixirs at once. This time he was afraid that the exam would be in vain....."

Another deputy examiner was also not optimistic about Qin Feng.

Even the examiner expressed regret.

In his opinion, at such a fast speed, the rate of elixir formation would be reduced by 90%.

A good young man, but in order to show off, he went too far.

"You two, stop muttering and watch people making elixirs....."

"yes! grown ups! However, it has only been seventeen minutes now. When he finishes refining the alchemy, it will take at least several hours, and the two of us will be bored....."

Before I could finish saying this, a sudden change occurred in the field!

Buzz~!

Poof~!

The elixir fire goes out!

The time force field is removed~!

The three examiners were stunned and looked at Qin Feng.

Qin Feng looked up with a smile: "Three examiners, I have finished refining the elixir!"

"What?!"

"Finished refining the elixir?!"

The three examiners were a little confused!

It's only been seventeen minutes!

They practiced too fast!

The three of them couldn't help but look at each other!

After a while, the examiner swallowed and said:"Young man, you really show your speed. Improved to the extreme! Even a Lun Hai level alchemist can't do it! Qin Feng smiled:"

Examiner, what you just said is that if you can make a pill within half an hour, you will get 20 points. Does it still count?"

The examiner laughed:"Of course it counts!" The premise is that you must be able to make a pill. If you use two sets of materials and fail to make a pill, you can only treat it as 0 points."

"Young people don't just have to be fast. Also, you can obviously refine it twice, so you have one more chance. Why do you need two ingredients to refine it?....."

The examiner was gushing.....

But before he could finish his words, Qin Feng raised his hand and the lid of the alchemy furnace floated up automatically.

A strong fragrance of red dandelion floats out

"Huh! Danxiang! He actually became a pill!"

The examiner opened his mouth so much that he couldn't say anything else.

Oh my god!

This guy is so fast, and he actually did it.

The two deputy examiners were also dumbfounded.

"Mr. Examiner, can I get 20 points now?", Qin Feng asked with a smile.

"have! can have!"

The examiner was shocked.

At this moment, the three examiners looked at Qin Feng with different eyes. They were in awe.

Not to mention, although this kid likes to show off, he is really capable!

"My friend, can you let us see how many pills you can make? If you have more pills, you will get extra points."

The examiner's tone became polite.

The two deputy examiners did not dare to say anything. The fact that he could still produce elixirs at such a high speed shows that Qin Feng's alchemy level has reached at least the emperor level.

The two deputy examiners His level is only the Great Emperor level.

The examiner is barely at the Lun Hai level.

Naturally, they dare not look down on Qin Feng anymore.

"of course!"

Qin Feng waved his hand, and a string of Jiulin Pills flew out of the pill furnace.

"So many!"

"Huh! its not right! How come there are eleven!"

"How can this be?!"

The three examiners were extremely shocked.

As we all know, one Jiulin flower can only refine 5 Jiulin pills at most, which is the limit of the effectiveness of Jiulin flower.

Even Lunhai-level alchemists can't change it.

But Qin Feng actually used two Jiulin flowers to refine 11. What's going on?

"My friend, what's going on with you?", the examiner asked eagerly.

The two deputy examiners also looked over.

Qin Feng smiled slightly: "Three examiners, this is what happened. Everyone in the world believes that the maximum medicinal effect of one Jiulin flower is five Jiulin pills, but this is not actually the case. Its limit is not five, but five and a half!"

"That's why I refined the two materials together, so that I could refine eleven. If you refine it alone, you can only refine five pieces at most!"

As soon as these words were said, the three examiners suddenly realized.

No wonder Qin Feng wanted to refine the two materials together. They thought he was showing off. It turned out that they judged the heart of a gentleman with a villain's heart, and they misunderstood!

The three of them misunderstood! I felt so ashamed that my face turned red.

"My little friend, I have learned a lesson!"

The examiner actually took the initiative to salute Qin Feng.

"Your Excellency, Emperor Qin, has great alchemy skills, I admire you!"

"yes! We didn't know until today that the limit of Jiulin Flowers is five and a half, which is shameful! Ashamed!"

The two deputy examiners also saluted Qin Feng.

In addition to being ashamed, the three of them also really admired Qin Feng's alchemy skills.

When they looked back, they felt that they were really not as good as Qin Feng.

At this thought, the three of them were very disappointed with Qin Feng. Their attitude became respectful, and at the same time, the three of them were a little excited.

It turns out that the maximum efficacy of Jiulin Flower is five and a half pills. This secret is rarely known in the industry!

It is really amazing that Emperor Qin discovered it!

"You two, I think Emperor Qin's alchemy level can be rated at 30 points. What do you think?"

"Sir, no problem! 30 points is completely appropriate."

The two deputy examiners completely agreed.

30 points, this is the highest score they have ever given.

The second highest score is only 20 points

"Hurry up and enter the results for Emperor Qin!"

"Ha ha!! This subordinate will do it now!"

A deputy examiner quickly handled the business.

In this assessment, such a powerful alchemist was produced, and he felt inexplicably happy.

Qin Feng was also very satisfied with the results.

The ninth-level promotion is 10-20 points, and the eighth-level promotion is 10-20 points. The promotion was 21-40 points.

He just showed off his alchemy skills and was promoted to the eighth level.

Soon, Qin Feng's results were entered.

At the same time, the real-time assessment data table in the viewing hall immediately changed..Qin Feng, who was originally ranked at the bottom, suddenly rushed to the top ten.

Ninth place, Emperor Qin, Earth Star Territory, points: 30

The crowd immediately became commotion.

"Huh! Look! A new member appears in the top ten...."

"Emperor Qin? This person's score is rising so fast!"

"Ah! He is only ninth. No matter how fast he rises, can he be as fast as Emperor Yedu? Emperor Yedu, after three hours, he has already scored more than 200 points! Currently, his scores are still rising!"

"yes! Emperor Yedu was eligible for promotion hundreds of years ago, but he has restrained himself until today before applying. He just wants to win the first place on the century list. Who can compare with him?"

The commotion in the hall was not big.

But Nanyuan in the crowd was stunned.

After she saw the results, she couldn't believe it!

At the same time, a staff member at the registration office even exclaimed

"Huh! Emperor Qin of the Earth Star Territory actually scored!"

"Isn't it? Can you score points even at the top of nine stars?!"

"Huh! He really scored! Oh my God, it's still 30 minutes! Such a high score!"

At this time, everyone in the registration office was shocked.

It has been a long time since I saw a nine-star person come to register.

They thought it was just for fun, but they didn't expect that this nine-star person could score a high score.

Even Mr. Feng was curious. He took out the token and checked it.

Sure enough!

Qin Huang scored 30 points.

This score is very high!

More importantly, it has only been twenty minutes since Qin Feng signed up and got the score!

This is too fast!

Feng Feng! The adults just came up with this idea, and there was another change in the ranking list.

Chu Chu's information jumped.

Chu Chu, Earth Star Domain, 20 points!

Master Feng was shocked.

Exclaims also sounded in the registration office at the same time.

"Oh My God! Another person in the Earth Star Domain also scored!"

"Still 20 points!!"

"hiss~! "

At this moment, all the staff were shocked and looked at each other.

In the same star field, two nine-stars get high scores at the same time.

They seemed to have received two incredible monsters before!

At this thought, the whole place fell into silence.

But they don't know that this is just the beginning..

Chapter 442

After a while, the staff came to their senses

"Master Feng, the two assessors in this Earth Star Domain are not simple!"

A staff member sighed.

Mr. Feng nodded slightly: "Yes! I originally thought that Yedu Star Region would shine alone in this competition for the list, but unexpectedly, another dark horse appeared. This Earth star field is a bit interesting...."

The staff member smiled and said: "There is only one Emperor Yedu in the Yedu Star Region. He suppressed for hundreds of years before applying for promotion for this hundred-year list. Even if he wins the first place, it is not amazing."

"On the contrary, in the Earth Star Region, two assessors with nine-star peak cultivation have such outstanding performance, which is really amazing!"

As soon as these words came out, everyone nodded, feeling that they made sense.

Lord Feng shook his head slightly: "Don't underestimate Emperor Yedu, I'm afraid you don't know yet, that Emperor Yedu is already a master of the first level.! Otherwise, Elder Xiu would not accept him as his disciple!"

"What?! Emperor Yedu was accepted as a disciple by Elder Xiu?!"

Everyone was shocked.

After a moment, someone sighed

"It seems that we have underestimated this Emperor Yedu! I'm afraid he's determined to be number one in a century this time!"

"hehe! He is a strong person in the first level. No matter how bad his grades are, they will not be much worse....."

At the same time, the combat effectiveness assessment area.

The end area of the first level combat strength assessment.

More than a hundred assessors looked at Chu Chu coming out of the combat area with awe.

These assessors are all emperor-level experts.

However, they are all in the early stages of foundation building, and their combat power is around 200-400 billion.

In the first-level combat strength assessment area, the highest score is 20 points.

To get 20 points, the condition is to defeat the siege of ten puppet warriors in the early stage of foundation building by one person.

It is equivalent to scoring 1 point for defeating a puppet soldier.

In fact, with each additional puppet soldier sieging, the difficulty will increase a lot.

If you want to advance through the lowest ninth level, you have to defeat the siege of ten puppet soldiers to get 10 points.

Fortunately, the combat power of those puppet soldiers is around 200 billion, which is at the threshold of combat power in the early stage of foundation building.

But even so, many great emperors in the early stages of foundation building have failed. It is really too difficult.

Right now, Chu Chu had just entered the examination room for ten minutes, and she defeated the siege of twenty puppet soldiers by herself, and received the highest rating of 20 points.

This made the emperors admire him and looked at Chu Chu with awe.

Although Chu Chucai is at the peak of nine stars, no one dares to look down upon her.

"Auntie, you are so great!", the baby was jumping happily next to the examination room.

Each examiner can bring one or two followers into the examination room to handle some trivial matters for them, such as healing.

Therefore, the baby followed Chu Chu in the name of a follower Entered the assessment area

"Baby, let's go to the second-level examination room!"

"Great!"

Baby followed Chu Chu in a hurry.

The examiners were all envious.

Only those who get the highest score in the first-level combat strength assessment area are eligible to enter the second-level combat strength assessment area.

Where is it? The score you can get is 21-40 points, which is the assessment score for eighth-level promotion.

Generally, only the emperors in the middle stage of foundation building have the opportunity to break in.

After a while, Chu Chu and Bao Bao arrived at the exit of the end area of the first-level assessment area.

From there Going out is the entrance to the second-level examination area.

In that position, two examiners were guarding.

One examiner opened the second-level entrance door with a smile.

"Miss Chuchu, I wish you good luck!"

The examiner had a very good impression of Chu Chu.

"Thank you sir! Baby, let's go in!"

"Um!"

After a while, Chu Chu and Bao Bao entered the second-level assessment area.

Many assessors were left with envious eyes.

At the same time, in the fifth-level combat strength assessment area.

In the rest area, a middle-aged man with a majestic temperament , is meditating and resting.

He is the only assessor in this huge five-level assessment area.

He is Emperor Yedu who performed brilliantly in this assessment.

The challenge he just experienced cost a lot of money. His strength is recovering.

Beside him, there are two followers waiting on him.

At this time, a follower held the assessment token and said nervously:"Great Emperor, look, the examiner's data has changed.!"

Hearing the sound, Emperor Yedu slowly opened his eyes, took the token and started to investigate.

The next second, he saw the list of assessment information.

First place, Emperor Yedu, Yedu Star Territory, points: 271 points Second place, Crimson Emperor, Crimson Star Territory, points: 51 points.

Third place, White Lotus Emperor, Immortal Lotus Star Territory, points: 46 points.

Fourth place...

Emperor Yedu saw this, with disdain on his lips.

The second and third places didn't even catch up with him.....

"It's not the same as before, what's all the fuss about?"

Emperor Yedu looked at the attendant with some dissatisfaction.

The attendant whispered:"Emperor, look at the results of the ninth and seventeenth places....."

Emperor Yedu frowned.

He doesn't like the second and third places, what about the ninth and seventeenth places?.....

However, he still took aim.

Ninth place, Emperor Qin, Earth Star Territory, points: 0 points.

Seventeenth place, Chu Chu, Earth Star, points: 20 points.

Emperor Yedu said disapprovingly:"It turns out that one and two examiners both got points, which is rare! However, their points are not high. Do you think the two of them will join forces to defeat me?" The follower was frightened. : "The emperor misunderstood. My subordinates just think that this star field needs attention. They want to surpass us, which is absolutely impossible!"

Emperor Yedu smiled with relief:"That's right! Our opponent is only ourselves, and others are not qualified. Be my enemy. This emperor is here to create miracles, not to compete with others."

"I estimate that this is the end of Emperor Qin's achievements. There is nothing to pay attention to. ...."

As soon as he said this, the information in the token was refreshed.

First place, Emperor Yedu, Yedu Star Territory, points: 271 points.

Second place, Crimson Emperor, Crimson Star Territory, points: 51 points.

Third place, Emperor Qin, Earth Star Territory, points: 50 points.....

Emperor Yedu:"....."

The two followers also saw the changes in the token and looked shocked.

Emperor Yedu's old face turned slightly red.

He just said that Qinhuang's points had not changed much. This guy suddenly jumped 20 points and jumped to third place. Isn't this a slap in his face??

"Cough~! Cough~! I made a small mistake in my judgment! However, this Earth star field was not famous before. It's not like we've been famous for a long time. This Emperor Qin may have some skills, but that Chu Chu should be like this....."

Emperor Yedu concealed his embarrassment.

But as soon as he finished speaking, the information in the token changed again.

Seventh place, Chu Chu, Earth Star Territory, 40 points.....

Chu Chu also added 20 points.

Emperor Yedu opened his mouth wide.

Paralysis~!

Could it be that the two players in the Earth's star field are specifically against me?

He finally managed to show off in front of his men, but these two guys kept hitting him in the face.

Emperor Yedu's face darkened.

Even the two followers around him felt a little embarrassed and did not even dare to look at their emperor.

The embarrassment of bragging in public can easily make people angry.

They were afraid that Emperor Yedu would vent his anger on them.

The two followers of Emperor Yedu, one is a gray-haired old man and the other is a middle-aged man, both are Nine Star Emperors.

The scene was awkward for a moment, and the old man's attendant couldn't help but remind him

"Great Emperor, the two players in the Earth Star Domain have a total of 90 points, which is almost one-third of ours. They have also reached the sixth level of promotion. This is worth noting!"

The points range for sixth-level promotion is 81-160 points.

The points range for fifth-level promotion is 161-320 points.

Emperor Yedu became wary.

Indeed, his current points are 271 points before reaching fifth-level promotion.

This earth star field is coming fiercely

"Mr. Ye, go find out how these two players were promoted. I am very curious!"

"It's Your Majesty!"

Mr. Ye saluted and left in a hurry.

Although this Yedu Star Territory is a new star territory, they have industries in Tianmo City, a wide range of contacts, and have contacts with high-level leaders of the alliance.

What's more, Emperor Yedu not long ago , and also worshiped in the name of Elder Xiu.

Elder Xiu is one of the five elders in Tianmo City.

At the same time, in the second-level combat strength assessment area.

Chu Chu took the baby and entered the third-level assessment under the astonished eyes of many assessors. district.....

On the other side is the alchemy assessment area.

The three examiners looked at the five fortune pills in front of them, and they were all full of praise.

"Tsk!! Tsk!! Sir, this Good Fortune Pill has nine halo rings and is extremely effective! If I were to refine it, it would be at most a four-ring elixir halo. My alchemy skills are far inferior to His Majesty Qin Huang!"

"Hey~! Neither am I!"

The two deputy examiners were filled with admiration.

0·Please give me flowers0·.....

The examiner was also secretly amazed.

If he were to practice it, it would be seven rings at most.

He is not as good as Qin Feng.

At this moment, the three of them all showed respect for Qin Feng, and even felt cautious about meeting the master.

Just now, Qin Feng started the emperor-level alchemy assessment again.

This time he was refining the Good Fortune Pill, and once again he conquered the three examiners.

Three people gave it a perfect score of 20 points.

At this point, Qin Feng's points reached 50 points

"Three examiners, do you have any more advanced assessments here?"

Qin Feng's intention is still unfinished

"Forehead....."

The three examiners looked at each other with strange expressions.

There are very few people taking part in this alchemy assessment, so it is a big deal that an emperor-level alchemist can emerge within a year.

Emperor-level alchemy skills are rare to see in a hundred years.

As for the reincarnation level alchemist, it is rare to see one in a thousand years.

The three of them are not qualified to take the exam.

Even the examiner's level barely reached Lun Hai level.

And he is already one of the top alchemists in Tianmo City.

Although his cultivation level is only the Great Perfection of Foundation Building, his status is no less than that of the Wheel and Sea Realm, and he relies entirely on alchemy.

But he dare not give Qin Feng an assessment now.

He intuitively felt that his alchemy level was not qualified for Qin Feng to assess.

What's more, in this promotion assessment, the highest level is the Great Emperor level, there is no higher level.

In fact, this cannot be blamed on the low standard of the office.

Those who apply for promotion are basically from the new star field, and most of them only have a few hundred years of cultivation history. It is incredible that an emperor-level alchemist can be born, let alone a wheel-level alchemist.

000Qin

Feng is a complete freak!

"Are the three examiners gone?"Qin Feng was a little disappointed.

"Um...that....", the examiner hesitated to speak.

"Sir, if you have something to say, just say it!"

"Your Excellency Emperor Qin, if what I predict is correct, can you refine the reincarnation level elixir?"

"That's right!", Qin Feng said very modestly.

The three examiners took it seriously and were not surprised at all.

The examiner said respectfully: "Your Majesty Qin Emperor, if I expected it to be true, your alchemy skills should be better than mine. I am no longer qualified to give you an assessment"

"What's more, in this promotion assessment, 50 points is the full score, and His Excellency Qin Huang has already received the full score! but...."

Qin Feng's heart moved, a turning point was coming, there should be something interesting.

The examiner continued: "In addition to the full score of 50 points, our examiners also have special commendation points of 1 to 10 points. If His Excellency Qin Huang can refine a reincarnation-level elixir on the spot, we can give you commendation points.!"

Qin Feng smiled slightly: "This is simple, how to refine it?"

Seeing Qin Feng agreeing so readily, the examiner hesitated for a moment and took out 2 Emperor Soul Flowers from his storage ring.

"Your Majesty Qin Huang, these two Emperor Soul Flowers are mine. With my current alchemy aquatic culture, each flower can successfully refine an Emperor Soul Pill."

"As long as you can use 2 flowers to refine 3 Emperor Soul Pills, I will give you 10 points of commendation. If the number is less than 2, there will be no commendation points. I wonder if you would like to give it a try?"

The examiner was a little nervous when he said these words.

The Emperor Soul Pill is a reincarnation-level elixir, which is difficult to refine.

He just feels that his alchemy skills are limited, so he has been reluctant to refine it for fear of wasting the medicinal materials.

Now, He saw that Qin Feng's alchemy skills were good, and wanted to borrow Qin Feng's hands to help him refine it.

As soon as he said this, the two deputy examiners looked strange.

This examiner is really naughty!

If he is outside, please make a reincarnation-level alchemy. The teacher took action once, and the price was extremely high.

The examiner actually thought of this method and asked Qin Feng to take action once for free.

However, these 10 special commendation points were still a good deal.

Qin Feng laughed when he heard those words.

He had been for a long time Refining the Emperor Soul Pill is as easy as drinking water.

With one Emperor Soul Flower, he can refine at least three or four Emperor Soul Pills, which is much better than the examiner. It was only because he showed the level of reincarnation that he got the 10 points.

This assessment system is a bit unsound!

Just as Qin Feng was thinking about it, his heart palpitated.

The luck hint reappeared!

Every time after the luck hint, he would have great benefits, and he could do this.

Qin Feng's eyes lit up and he immediately said cheerfully:"Okay! Let me refine it and take a look!"

He waved, two Emperor Soul Flowers were taken into his hands, and he started refining elixirs..

## Chapter 443

Qin Feng waved his hand, and two Emperor Soul Flowers were thrown directly into the alchemy furnace.

He waved his hand again, and the auxiliary materials were thrown in.

Dang~!

All actions are smooth and smooth, simply and decisively!

The examiner was horrified.

An Emperor Soul Flower is worth 100 Xingtide Stones!

Those are high-end medicinal materials!

Every time he refines the Emperor Soul Pill, he is cautious, for fear of destroying an Emperor Soul Flower.

If it really fails after refining, he will feel distressed for most of the day.

If Qin Feng is so casual, will the refining fail?

The examiner was a little panicked.

The two deputy examiners were also shocked.

They are not yet qualified to refine reincarnation-level elixirs.

But if you think about it, you will know that it is extremely difficult.

Why does Emperor Qin look so skilled?

Does he refine it often?

The three examiners had different ideas.

The examiner was the most uneasy.

He was worried that his medicinal materials would be used up.

According to his idea, Qin Feng had better refine it one by one.

In this way, although the refining speed will be slower, the waste rate of material refining will be reduced.....

Qin Feng was too lazy to care what the three of them thought.

He has become extremely familiar with the refining of the Emperor Soul Flower. Even if he closes his eyes, he can quickly refine it.

I saw him pinching his hands, and the pills were flying.

Under the five times acceleration of the time force field, the technique was too fast to be seen clearly.

The three examiners were stunned.

Damn it~!

The speed of this "zero zero zero" elixir is much faster than when he was refining the chemical elixir!

Could it be that Emperor Qin was more skilled at refining the Emperor Soul Pill than he was at refining the Chemical Pill?

This is impossible!

The three of them looked at each other and felt incredible!

Normally, the difficulty of refining Samsara-level elixirs is more than ten times that of Great Emperor-level elixirs!

Of course, there is also a special situation.

That is to refine a certain kind of elixir for a long time, to the point where practice makes perfect, and you can perform beyond your level.

This is what Qin Feng is doing now!

He is more skilled at refining Emperor Soul Pills than he is at refining Emperor-level pills.

This is also what makes Qin Feng special.

Ordinary alchemists would have such a good opportunity to get so many Emperor Soul Flowers to practice.

In the blink of an eye, a quarter of an hour passed.

Dang~!

The alchemy furnace is ringing!

The hall trembles!

Pfft~!

The elixir fire goes out!

Qin Feng waved his hand and removed the time force field.

Is it going to be fine so soon?

The two deputy examiners were shocked.

The examiner was confused for a moment.

In the past, it would take him at least ten hours to refine a furnace of Emperor Soul Pill.

Emperor Qin only spent ten minutes!

Is the gap between them so big?

This guy wouldn't have lowered the rate of elixir formation for the sake of time, right?

As soon as this thought came up, the lid of the alchemy furnace flew up automatically, and a stream of alchemy fragrance floated out, filling the whole place.

The elixir is ready!

The examiner secretly breathed a sigh of relief.

But the next second, he was stunned.

I saw seven Emperor Soul Pills flying out of the pill furnace, spinning in the air、

"OMG! Seven Emperor Soul Pills!"

The two deputy examiners were shocked beyond words.

The chief examiner was also dumbfounded!

From seven Emperor Soul Pills, on average, one Emperor Soul Flower can refine three or four Emperor Soul Pills.

This is the level of Qin Emperor's alchemy. , more than ten times stronger than him!

After being shocked, the eyes of the three examiners looking at Qin Feng changed again.

The alchemist was already arrogant, and even if his cultivation level was not high, he still had his own arrogance.

But now, the three of them are facing each other. Qin Feng respects him very much

"Lord Qin, how did you do it?"

A deputy examiner couldn't help but ask.

His tone was very respectful, and he actually called Qin Feng Sir.

In fact, with Qin Feng's alchemy level, if word spread, his status would be comparable to that of a powerful person in the Wheel Sea Realm.

He called him Your Excellency is right too

"Sir, I wonder if I can ask you some questions about alchemy after this assessment?"

Another deputy examiner also begged respectfully.

Qin Feng was a little dazed.

He is here to collect points, not here.

"His Excellency Qin Huang has superb alchemy skills, I am ashamed of myself. The examiner sincerely praised

"The examiner is so humble. I wonder if I can get 10 commendation points this time!"

Qin Feng waved his hand, and seven Emperor Soul Pills flew towards the examiner.

"sure!

The examiner excitedly put away the elixir

"Xiaobei, quickly record the results for His Excellency Qin Huang!"

"This subordinate will do it now!", the deputy examiner hurriedly processed it.

After a while, Qin Feng's score was entered, and the score was increased to 60 points.

Qin Feng was satisfied.

This is already the pill assessment area, and the scores that can be obtained are the ultimate.

"The three examiners took their leave!"

Qin Feng smiled and cupped his hands, preparing to go to the next assessment point.

"Your Excellency Qin Huang, please wait!", the examiner suddenly stopped Qin Feng

"What else do you want, sir?", Qin Feng wondered

"that.....", the examiner was a little embarrassed to say it.

He hesitated for a while and then said:"Your Excellency Emperor Qin, I have a merciless request!"

"Sir, tell me!"

"I have collected more than seventy Emperor Soul Flowers, but I am not very good at elixirs and dare not practice them rashly. I wonder if His Excellency Qin Huang can help me refine it?"

At this point, the examiner's face turned red and he felt a little embarrassed.

"this.....", Qin Feng was not very willing.

He is here for the assessment, there is no reason to help others make elixirs for no reason.

The examiner hurriedly said:"Of course, we will share the refined Emperor Soul Pill equally! The divided pill will be regarded as the reward I paid....."

These words made Qin Feng feel more comfortable.

If this is the case, Qin Feng should be able to get about a hundred Emperor Soul Pills, which is equivalent to 10,000 Xingxi stones.

It's a small fortune!

You can do this!

This reminded Qin Feng of his previous hint of luck.

Every time luck hints, he will benefit greatly.

Could it be that the benefit this time is just a profit worth 10,000 Xingshi stones?

It feels a little missing!

Could it be that the real opportunity hasn't arrived yet?

"Your Excellency, Emperor Qin, I wonder if you are willing?", the examiner was a little uneasy.

In today's Demonic City, there are very few people who are better at alchemy than him, and the level is limited.

It is really difficult to find an alchemy master like Qin Feng, he must grasp it!

"This... I can also help you make elixirs. In addition to giving me half of the finished elixir, you have to prepare a secret alchemy room for me!"

Qin Feng decided to act according to the luck prompts and see if there are any big opportunities later.

Besides, if you waste a little time, you can get about a hundred Emperor Soul Pills, which is not a loss at all.

The examiner was overjoyed: "Qin Huang Your Excellency, there is an alchemy room next to me. I will take you there!"

At this moment, the examiner was extremely enthusiastic and took the lead.

On one side of the assessment hall, there were several alchemy rooms.

The examiner selected the best alchemy room and gave the materials on his body to Qin Feng.

A total of 77 Emperor Soul Flowers, and all auxiliary materials.

After doing this, the examiner withdrew.

When he came out, the two deputy examiners looked at him with envy.

This examiner is indeed an old cunning man!

With Emperor Qin's The elixir production rate is that one flower can produce three or four Emperor Soul Pills.

Even if the examiner only needs half of the elixirs, he can still get more than a hundred pills.

This is much better than the examiner refining it himself.

In the alchemy room.

Examiner After leaving, Qin Feng closed the door and opened the barrier.

Then, while refining the elixir, he quietly waited for the real opportunity to appear.....

At the same time, the fifth-level combat strength assessment area.

At this moment, Emperor Yedu was in the rest area, listening to Mr. Ye's report.

"Your Majesty, my subordinates have already made it clear that Emperor Qin of the Earth Star Region is taking the test in the alchemy area, and Chu Chu is taking the test in the combat area....."

Mr. Ye reported respectfully...

Emperor Yedu was surprised:"Hey! That Emperor Qin is still an alchemist! What a talent!"

Mr. Ye said with a strange look:"Your Majesty, I have also inquired about two things. Incredible thing!"

"Say it!"

"The first thing is that the Earth's star field has become highly dimensional, and it seems to have only been a hundred or two hundred years ago!"

"This is too late!", Emperor Yedu was surprised

"The second thing is that Emperor Qin and Chu Chu's cultivation levels are both at the peak of nine stars!"

"What?!", Emperor Yedu was shocked.

Even another follower was shocked, and his mouth opened wide.

"Mr. Ye, do you think you got it right?!"

Emperor Yedu didn't believe it.

"Your Majesty, my subordinates couldn't believe it at first. After many confirmations, those two people are indeed at the top of the Nine Stars!"

Hiss~!

Emperor Yedu took a deep breath of cold air and finally felt the pressure.

Before this, he really didn't take Qin Feng and Chu Chu seriously.

But these two people had such low cultivation levels, but they performed so eye-catchingly..

Then he will definitely get high scores in the final qualification test.

This is a great threat to him!

At this moment, another follower exclaimed

"Your Majesty, look! That Emperor Qin's grades changed again!"

"What?! So fast!"

Emperor Yedu was nervous.

His score hadn't moved yet. Why did Emperor Qin increase again?

It was only ten minutes or so!

This improvement was too fast!

Emperor Yedu took out his token and took a look..Second place ,

Emperor QinEarth Star Domain, points: 60 points.

Sure enough!

This Emperor Qin scored again!

"Something is wrong!"

Emperor Yedu suddenly raised his head and looked at Mr. Ye

"Your Majesty, what's wrong?"

"According to this improvement rate, Emperor Qin should still be in the alchemy assessment area, right?"

"should be!"

"But as far as I know, the full score for the alchemy assessment is 50 points. How did Emperor Qin get 60 points?"

About the commendation points, very few outsiders knew about it.

Emperor Yedu didn't know either.

As soon as he said this, Mr. Ye and another follower felt there was something wrong.

Emperor Yedu continued to analyze:"One more thing, this The Earth's star field has only been in high dimension for a hundred or two hundred years, and Emperor Qin's cultivation has only reached the peak of nine stars. Is his alchemy so superb?"

"For thousands of years, no one has been able to get a perfect score of 50 in alchemy. This guy actually scored 60 points at 0.8, which is 10 points more than the full score. Is it possible that he, a small nine-star peak person, can have Lun Hai level alchemy skills?"

Mr. Ye and another attendant nodded frequently, feeling that it made sense.

"Your Majesty, what do you mean?" Mr. Ye asked in a low voice.

Emperor Yedu smiled coldly:"It's obvious! This Emperor Qin is cheating! He does not have Lun Hai level alchemy level. He should be familiar with the assessor of the alchemy area, and both parties colluded to cheat!"

"Makes sense!" Mr. Ye was like enlightened and his eyes lit up.

Another follower also nodded repeatedly.

They would rather believe that Qin Feng cheated than believe that Qin Feng had Lunhai-level alchemy skills.

After all, the history of earth's cultivation is too short, Qin Feng's cultivation It is unreasonable to have such high alchemy skills.

It would be more reasonable to say that Qin Feng cheated.

"Your Majesty, what should we do now?"

"snort! The thing I hate most in this life is someone cheating! This Emperor Qin and the examiners in the alchemy area are not good birds! I want to report them!"

Emperor Yedu was filled with righteous indignation.

After saying this, he angrily took out the communication jade talisman.

He wanted to report it!.

Chapter 444

Soon, Emperor Yedu finished sending the message

"snort! Dare to cheat! This Emperor Qin is dead!", Emperor Yedu sneered and put away the communication jade talisman.

"Your Majesty, that Emperor Qin colluded with the examiner. He must have some background. It's hard to report!" Mr. Ye was worried.

Emperor Yedu was proud:"If it were someone else, there really wouldn't be anything we could do against him! Unfortunately, he met me. This emperor reported it directly to the master this time. Do you think he can still escape?"

Ye Lao suddenly realized.

Immediately, he and another follower showed joy.

The master of Emperor Yedu is Elder Xiu, one of the five elders of Tianmo City, and a super strong man in the third wheel realm.

In Tianmo City, the highest status It was the city lord, then the deputy city lord, and then the five elders.

If an elder took action in this matter, no one would dare to cover it up.

At that moment, Mr. Ye smiled and said:"Your Majesty, if Elder Xiu takes action to rectify it, even if Emperor Qin has a big background, , there is no way to escape severe punishment!"

"snort! Cheating is the most taboo in the league, especially colluding with the examiner! This Emperor Qin himself has no ability, but he insists on doing such a dirty thing. If he is punished, he deserves it!"

Emperor Yedu looked gloating.

In his mind, he had already determined Qin Feng.

He is a genius and has always had his own pride, otherwise Elder Xiu would not accept him as his disciple.

In his opinion, he can't do it. No one else can do what he has done.

Even if someone is better than him, they are only so good.

And Qin Feng's excellence is beyond his understanding, and that is cheating!...

At the same time, the elder of Tianmo City Mansion.

In the hall, an old man with a white face and no beard sat on the tall Grand Master's chair.

At this moment, he looked at the communication jade talisman in his hand, frowned, and his expression became gloomier.

He is the master of Emperor Yedu ——Elder Xiu

"Someone cheated?"

Elder Xiu has great trust in his apprentice.

He also hates cheating.

However, when it comes to cheating in the assessment, it is still necessary to confirm one or two

"Someone come!"

"The subordinates are here!"

The light and shadow flashed around Elder Xiu, and a 02 subordinate wearing an official uniform appeared and saluted respectfully.

"Go check it out and find out what's going on in this newly promoted star field called the Earth Star Field, especially the one named Emperor Qin!!"

"yes! Elder!"

The subordinate immediately disappeared.

Elder Xiu closed his eyes again and continued to meditate.

Time passed quickly!

A quarter of an hour later, the light and shadow around Elder Xiu flashed, and the subordinate came back.

"How's it going?", Elder Xiu slowly opened his eyes

"Return to the elder, my subordinates just checked! The cultivation time in that Earth's star field was very short, probably only one or two hundred years. There were two people who signed up this

time. One is called Emperor Qin and the other is called Chu Chu. They are both at the peak of Nine Stars....."

"Sure enough!" Elder Xiu sighed.

The situation reported by this subordinate is consistent with the situation reported by Emperor Yedu.

It seems that Emperor Yedu did not exaggerate.

"Elder, what happened?", the subordinate asked carefully.

Elder Xiu sighed:"Someone reported that Emperor Qin colluded with the examiner in the alchemy assessment area to cheat and got 60 points for alchemy, which was more than the full score of 50 points!

The subordinate was shocked:"That Emperor Qin is so brave?" And those examiners are too courageous!"

Elder Xiu pondered for a while and said:"This is also a loophole in management. This alchemy additional point assessment is different from the combat strength assessment. It has not been watched for a long time, so it has become unsupervised, which provides favorable conditions for cheating!"

"What the elder said makes sense! Then I'll notify the people in the office to handle it! Elder Xiu shook his head:"

This matter involves the examiners. If they are left to handle it internally, they may be suspected of covering up!"

The subordinate was anxious:"Elder, how should we deal with it?"

Elder Xiu smiled coldly:"The top manager of the office is the deputy city lord!" I will report the situation directly to the deputy city lord, who will personally take action. Who dares to protect me?!

The subordinate's eyes lit up: "The elder is right!"

At that moment, the elder Xiu took out the communication talisman and began to report the situation to the deputy city lord.

A moment later, in the deputy city lord's mansion.

In the secret training room, a man with a majestic look and a domineering temperament opened his eyes from practicing.

He is the demon. The deputy city lord of the city, Emperor Yingtian, has a cultivation level that reaches the limit of the Great Perfection of the Third Wheel Realm, and is only half a step away from being the master. A strong person in the Third Wheel Realm, with all nine consciousnesses fully opened, three flowers blooming, the body is immortal, and the soul is immortal. Immortal, reincarnation will not cross.

Except for the influence of the five declines of heaven and man, they are already immortal.

And the strength of the third wheel realm is far stronger than that of the second wheel realm.

In other words, the strong people in the second wheel realm will not be able to survive in the third wheel realm. , just like the difference between a mantis and an elephant, vulnerable.

Therefore, in order to distinguish the strong people in the Third Wheel Realm from ordinary emperors, the strong ones in the Third Wheel Realm are given the title of God Emperor.

And the Shadow Sky God Emperor is also the God Emperor The top existence in the world has reached the ultimate emperor level.

He is also the second strongest person in Tianmo City, and his strength is only lower than that of the city lord.

At this moment, he frowned when he saw the message from Elder Xiu.

Elder Xiu is very calm in his work. It seems that someone is really cheating.

This matter involves officials and cannot be tolerated. It must be dealt with seriously.

It seems that on the day when the centenary list is to be released, all kinds of things will come out!

Emperor Yingtian The more he thought about it, the more angry he became. He also hated cheating!

What's more, this happened in his own management department.

It seemed that he had to personally take action and sort out this bad trend.

"Someone come!"

"The subordinates are here!"

"Call in the manpower! I'll go to the office with my city lord in a while!"

"yes! This subordinate is going now!" .....

A quarter of an hour later, Emperor Yingtian led a group of subordinates and marched toward the office in a mighty manner.....

At the same time, the alchemy assessment area.

Outside the alchemy room, the examiner was waiting anxiously, feeling a little restless.

"Sir, you don't have to worry! With Lord Qin Huang's level of alchemy, you don't have to worry?"

"yes! Examiner, just wait and see," the two deputy examiners joked.

The examiner smiled awkwardly and said,"I think so too, but I just can't control my mood. I'm so ashamed!"

As soon as these words were said, the big bell of the alchemy room rose slowly.

Boom~Long~Long!

"So fast!"

The three examiners were surprised.

After a while, Qin Feng walked out with a smile.

"Your Majesty Qin Huang, how is the situation?", the examiner asked nervously

"Perfection!" Qin Feng waved his hand, and a storage ring flew towards the examiner.

The examiner took it and took a look, and found more than a hundred Emperor Soul Pills neatly placed inside.

The examiner was overjoyed, and his hands were shaking with excitement.

"Your Majesty Qin Huang, thank you so much this time!", the examiner looked grateful.

"Your Excellency, you are welcome!"

"Tsk tsk!! Lord Qin Huang's alchemy skills are really superb, and he was able to make them so quickly!"

The two deputy examiners were filled with admiration.

Qin Feng smiled and said nothing.

His method of refining the Emperor Soul Pill is a bit different from others.

Others refine it one by one, while he refines it with more than twenty flowers. , the speed is naturally faster.

This is also a habit he has developed for a long time because he has too much material.

Others have no such experience and dare not try this.

Having said that, Qin Feng also harvested more than a hundred Emperor Soul Pills this time , and he was in a good mood.

Just as the three examiners were surrounding Qin Feng, asking questions enthusiastically, there was a rush of footsteps outside the hall.

The next second, Emperor Yingtian walked in with a group of people.

As soon as everyone entered In the hall, they saw three examiners surrounding Qin Feng to please him.

Everyone suddenly felt that the painting style was a bit weird!

It was so inappropriate!

Normally, it is the examiners who please the examiners. When did it become the examiners who please the examiners?

Emperor Yingtian's expression suddenly became gloomy.

It seems that Emperor Yedu's report was right!

There is indeed something fishy between Emperor Qin and the three examiners!

He must handle this matter seriously.

The three examiners were alarmed.

As soon as they saw The Emperor Yingtian suddenly showed panic

"I have met the Vice City Lord!"

The three examiners saluted one after another.

Qin Feng was a little surprised and couldn't help but look at the Yingtian God Emperor.

This man's aura was like an endless abyss, and he couldn't tell the depth at all. He was definitely no match.

He is indeed the deputy city lord of Tianmo City!

"Are you the Qin Emperor from the Earth Star Domain?!"

Ying Tian Divine Emperor looked directly at Qin Feng, without even looking at the three examiners.

"Yes." Qin Feng nodded slightly.

"That's fine! Someone reported that you colluded with the examiner and cheated on the assessment. Can you admit it?", Yingtian God Emperor looked very serious.

As soon as he said this, Qin Feng frowned slightly.

When did he cheat?

The expressions of the three examiners changed drastically.

"City Lord, we did not collude! No cheating!"

The examiner looked shocked.

"yes! Who blindly reported this! We give scores fairly and never cheat!"

"Xiaobei, you are talking nonsense again! When have we been fair? Our grading is not fair at all! Do you think Lord Qin Huang's strength is only 60 points? Do you think the 60 allocation is worthy of Lord Qin Huang's ability?"

A deputy examiner was very angry.

Xiaobei nodded quickly: "Yes! yes! 60 points is too low!"

The examiner also echoed: "Deputy City Lord, my subordinates have the same idea as them." Our assessment mechanism is not perfect, and Mr. Qin Huang's ability is definitely more than 60 points. "I don't know that blind person is reporting randomly!" The three examiners all looked indignant.

This made Yingtian Divine Emperor and his party confused!

There seems to be something wrong with this atmosphere!

These three guys are so confident, they don't look like thieves with a guilty conscience!

Is this Emperor Qin really capable?

Emperor Yingtian's expression gradually softened.

He looked at Qin Feng curiously for a while.

Is this young man who is only at the peak of Nine Stars really that magical?

Seeing how young this young man is, will his alchemy skills be better than those of those thousand-year-old alchemists?

He knew that alchemy mainly relied on talent, but no matter how high the talent was, it still needed time to polish it!

This Emperor Qin is too young.....

"What exactly happened? Tell me!"

Yingtian Divine Emperor looked at the examiner and his tone became gentler.

"Deputy City Lord, this is what happened....."

At the moment, the examiner described Qin Feng's assessment process.

The group of people were dumbfounded.

Even the Emperor Yingtian was surprised.

When the examiner said that Qin Feng could refine three or four Emperor Soul Pills from one Emperor Soul Flower, the whole audience was extremely shocked.

Emperor Yingtian's eyes even shone.

However, among the people who were shocked, there were still some doubts!

Could it be that the three examiners were bragging?

The Emperor Yingtian was also doubtful.

He looked at Qin Feng and asked: "Little friend, can you really refine three or four Emperor Soul Pills from one Emperor Soul Flower?"

"That's right!", Qin Feng answered readily.

Emperor Yingtian was slightly moved.

Immediately, he said again: "Little friend, the most powerful alchemist in our Tianmo City can only refine two Emperor Soul Pills from one Emperor Soul Flower."

"But you said that you can refine three or four of them, which is really unbelievable! Can you show it to me in front of this city lord?"

The tone of Yingtian Divine Emperor has become very polite.

Qin Feng was surprised when he heard that.

The most powerful alchemist in Tianmo City, one Emperor Soul Flower can only refine two Emperor Soul Pills?

Tianmo City Are all alchemists so bad?

Or is his alchemy talent too high?

All this time, Qin Feng has been working behind closed doors.

He has no idea what his alchemy talent is because he has no reference.

He has always thought that his alchemy talent is His alchemy talent is just passable.

But in fact, his alchemy talent is at the heaven-defying level, far stronger than those of peerless geniuses.

Unfortunately, Qin Feng himself doesn't even know that he is so defiant in alchemy that it is outrageous. He thought it was at the level of an ordinary person!

So, he was very surprised when he heard from the deputy city lord that the strongest alchemist in Tianmo City could only refine two Emperor Soul Pills from one Emperor Soul Flower!

"Are you willing, kid?", Emperor Yingtian asked again

"no problem! Bring it!", Qin Feng stretched out his big hand

"What are you.....", Yingtian Divine Emperor was puzzled

"Where is the Emperor Soul Flower? My descendants don't have that medicinal material!", Qin Feng said casually.

Emperor Yingtian laughed dumbly.

Everyone was also stunned.

This boy is bold and stingy. He even asked the deputy city lord for medicinal materials.

"I have all the materials for refining the Emperor Soul Pill. Take it!"

Ying Tian Divine Emperor waved his hand, and an Emperor Soul Flower plus auxiliary materials flew towards Qin Feng.

Qin Feng was slightly startled. This deputy city lord was quite interesting. How could he have such complete materials? He didn't think much, so he could only summon The alchemy furnace was opened to make alchemy in public.

Buzz~!

The alchemy furnace was opened!

The medicinal materials were put in!

Poof~

The elixir fire rose!

Time accelerated!

Qin Feng flew his hands and started to refine the elixir!

Everyone was dazzled and dumbfounded.

This time, he only made one Flowers, Qin Feng made it extremely easy and smooth. Only ten minutes have passed!

Buzz~!

The alchemy furnace chanted softly! The alchemy is over!

Damn it!

So fast!

Everyone was shocked!

But the next second, Qin Feng waved his hand, Four Emperor Soul Pills flew out of the alchemy furnace, and the whole audience was shocked.

Oh my god!

Four Emperor Soul Pills!

Four pills were refined from one flower!

The whole audience was as shocked as if they had seen a ghost. He looked at the elixir in the air!

"evildoer! The ultimate monster!"

Yingtian Divine Emperor was even more excited.

Immediately, he looked at Qin Feng with fiery eyes, his face full of excitement.

The person he was looking for was finally found!

The problem that had troubled him for hundreds of years was finally solved by someone.!

At this thought, the eyes of Emperor Yingtian became more and more fiery.

There was also a hint of respect in that fiery look!..

Chapter 445

"good! good! My little friend, this city lord admires your alchemy skills greatly!"

Yingtian Divine Emperor suppressed the excitement in his heart and was full of praise.

At this moment, he was smiling all over his face and was indescribably kind.

"Vice City Lord, I wonder if my level is worthy of the 60-point evaluation?", Qin Feng asked calmly

"value! Of course it's worth it! No, my alchemy level is more than 60 points! Even adding 200 points is worth it!"

Yingtian God Emperor said it very seriously.

With his kind expression and friendly attitude, anyone could see that he intended to get close to Qin Feng. Just kidding!

This Qin Emperor is so young, and his alchemy skills can sweep through most reincarnation levels.

According to this development, Emperor Qin will become a dominator-level alchemist sooner or later.

At that time, even if he wants to curry favor with Emperor Qin, he will not be qualified. A dominator-level alchemist will have to give three cents of face to even the dominator, let alone He.

What's more, there are only a few master-level alchemists in the entire universe, and the dragon has not yet seen its end.

"My little friend, you have such a high level of alchemy skills. This city lord has a merciless request. I didn't know that you....."

The Emperor Yingtian hesitated to speak.

Qin Feng smiled slightly.

Sure enough, this deputy city lord was so enthusiastic towards me because he wanted to ask for something!

"Mr. Deputy City Lord, it seems that you still have one more thing to deal with!"

"Oh, what's the matter?"

"Didn't someone report that I colluded with three examiners to cheat? I don't know who made the false accusation, but I hope the deputy city lord will make the decision!"

Yingtian Divine Emperor suddenly realized.

This Emperor Qin is not someone to be trifled with!

However, Emperor Yedu did make a false accusation, and there is no need for him to help him carry it.

"Changfeng!"

"The subordinates are here!"

"You go and warn Emperor Yedu. If you fail to understand the situation next time and report blindly, he will be asked to get out of the examination area! Even if his master, Elder Xiu, begged for mercy, it would be useless!"

As soon as these words were said, everyone was shocked.

For the sake of Emperor Qin, the deputy city lord did not even give elder Xiu face.

However, the deputy city lord has a higher status than elder Xiu, so it is normal not to give him any favors.

It can be seen that the deputy city lord has no respect for this Qin emperor. The emperor attaches great importance to it!

"This subordinate is going now!", Emperor Changfeng cupped his hand and disappeared out of thin air.

Seeing this scene, Qin Feng couldn't help but look at the Emperor Yingtian.

This deputy city lord was somewhat interesting.

What he said just now was like telling himself directly that in the end Who reported him?

At the same time, he kindly reminded himself that the backer of Emperor Yedu was Elder Xiu.

Then he punished Emperor Yedu and made his position clear.

This action not only told him what he wanted , and also attracted himself, he is a man of skill.

Qin Feng silently wrote down the name of Emperor Yedu.

Emperor Yedu is no stranger to him, and he is currently ranked first in points.

"You three did a great job this time! I will give you rewards when things are done here.

Emperor Yingtian praised the three examiners again.

The three examiners were overjoyed and thanked them one after another.

The three of them were also grateful to Qin Feng.

They also knew very well that they were influenced by Qin Feng.

"Deputy City Lord, I wonder what you have to do with me?"

Qin Feng asked with a smile. He knew what propriety meant. Before he had enough strength, he would have to show off because of his talent.

Sure enough!

Qin Feng's initiative was greatly appreciated by the Emperor Yingtian.

"Ha ha!! Little friend Qinhuang is really happy! This city lord will tell you directly, I have sixteen thousand Emperor Soul Flowers here, and I would like to ask my friend to help me refine the Emperor Soul Pill. I will give you all the auxiliary materials....."

"As long as I use these medicinal materials to help me refine 4 emperors, the rest will belong to me personally. As long as you agree, the city lord will give your family 300 promotion points now!"

When they heard this, everyone was extremely shocked.

Sixteen thousand Emperor Soul Flowers!

This number is too huge!

Even Qin Feng was surprised.

He has never gotten so many Emperor Soul Flowers so far!

This look Where did the city lord get it?

Emperor Yingtian seemed to see Qin Feng's doubts.

He sighed:"To be honest, little friend, this is the result of the city lord's collection for more than five hundred years. Unfortunately, these are still not enough!"

"What this city lord needs is 40,000 Emperor Soul Pills, but the top alchemist in this city can only refine 30,000 of these Emperor Soul Flowers, leaving a gap of 10,000!"

"I wonder if my little friend can do this city lord a favor and help me refine 4 Emperor Soul Pills. I am very grateful!"

The Yingtian God Emperor spoke sincerely, calling himself 'I'm here' at the end, and his attitude was very low.

He really asked for it sincerely!

He would need to collect more than a hundred years to make up for the shortfall of 10,000 Emperor Soul Pills!

But! He really couldn't wait any longer!

Qin Feng was also surprised. What on earth did the deputy city lord want to do? He actually wanted 4 Emperor Soul Pills.

The three examiners looked at each other with shock in their eyes.

They thought of the circle of alchemists. There is a rumor.

Hundreds of years ago, the deputy city lord was looking for top alchemists to help him refine the Emperor Soul Pill, but he never found the right one.

Rumor has it that the deputy city lord is only half a step away from breaking through to becoming a master.

His only flaw is that his soul power is insufficient.

He needs 4 Emperor Soul Pills to increase his soul power.

If Emperor Qin can do this big favor for the deputy city lord, when the deputy city lord breaks through to the master, it will be equivalent to a master who owes Emperor Qin a big favor!

The master! Not everyone is qualified to have this kind of favor.

This is a great thing!

"Dear Qin Huang, I wonder if you can help me with this?"

Emperor Yingtian was actually a little worried.

This matter is so important to him!

The guesses of the three examiners were right! The

4 Emperor Soul Pills were his breakthrough The key to mastery!

He has spent more than five hundred years of hard work on this matter

"Deputy City Lord, I want to help, but I am powerless!"

"Um, how do you say this?", Yingtian Divine Emperor's heart tightened.

"Here's the thing! This alchemy is extremely mentally draining. If I only refine a few hundred or thousands of pills, I can keep one flower producing three or four pills. But if the number is too large, I will spend too much energy, which will reduce the rate of elixir formation."

"At that time, one flower may refine two or three emperors. Therefore, it is difficult to guarantee that the 16,000 Emperor Soul Flowers you mentioned can be used to refine 4 Emperor Soul Pills!"

Qin Feng kept talking.

He lied!

Without enough benefits, he would not agree easily.

In fact, his soul is extremely strong and the flower has ten petals. There is no hidden danger in this regard at all.

Sixteen thousand He could refine the Emperor Soul Flowers in one breath, and he could always maintain the elixir-generating rate of three or four for each flower.

But the Emperor Yingtian believed it!

Everyone present also believed it.

The examiner also helped: "Deputy City Lord, His Excellency Qin Huang is right, constantly refining elixirs is extremely labor-intensive and will reduce the rate of elixirs....."

As soon as he said this, everyone nodded.

This is common sense and everyone has heard it.

Emperor Yingtian slapped his head and said with some embarrassment: "Look, I forgot about this!"

Then, he looked at Qin Feng's alchemy furnace and asked: "Little friend Emperor Qin, your alchemy furnace is only an emperor-level one." Right?"

"Yes!"

"My friend, the higher the level of the alchemy furnace, the higher your rate of elixir formation! ?"

"indeed so!", Qin Feng nodded truthfully.

"Then what do you think of this alchemy furnace?"

The Yingtian Divine Emperor made a move, and an alchemy furnace appeared out of thin air. The whole body of the alchemy furnace exuded spiritual light, and within the spiritual light there was a faint shadow of a divine phoenix, and there was a Qing Dynasty on the furnace wall. The clouds are flowing.

What is Qingyun? It is the manifestation of luck!

This alchemy furnace actually has luck attached to it. This is a divine object!

The eyes of the whole audience were attracted by the alchemy furnace!

"Huh! This seems to be the legendary Feng Ding Dan Furnace!"

"Feng Ding Dan Furnace? Isn't that the legendary treasure of the Shenfeng clan? Legend has it that only those with the blood of the Divine Phoenix can use it!"

"That's right! Is such that! It is rumored that this alchemy furnace is a wheel-level treasure. It has a bit of luck and can increase the rate of elixir formation. It is an extremely rare treasure!"

There was a lot of discussion in the crowd.

The three examiners were dumbfounded for a moment.

Damn~!

This is really a Lunhai-level alchemy furnace!

This is the treasure that alchemists dream of!

Unfortunately, they can only take a look!

Qin Feng His eyes also lit up.

This alchemy furnace is very good!

He likes it very much!

Because he has refined the inherited divine blood of the Shenfeng clan, he can be considered to have the blood of the Shenfeng.

If he uses this alchemy furnace to refine the Emperor Soul Pill, a flower can After producing four or five elixirs and sixteen thousand Emperor Soul Flowers, he can produce about 70,000 elixirs.

When the time comes, he will give 4 more elixirs to Yingtian God Emperor, and he can still get about 30,000 elixirs.

Damn~!

This is It's a rhythm that's about to explode!.

Chapter 446

Qin Feng's heart was moved, but he pretended to be calm on the surface

"My friend, this alchemy furnace is at the reincarnation level. I got it in the Ziyun Secret Realm when I was young. Rumor has it that it is related to a certain top lineage of the Divine Phoenix. Of course, that's just a rumor"

"Little friend, if you use this pill furnace to refine pills, I wonder if you can make 4 Emperor Soul Pills?"

Emperor Yingtian looked at Qin Feng expectantly.

"If it's this alchemy furnace, it's barely okay.....", Qin Feng nodded slightly.

Emperor Yingtian was overjoyed:"That's great! My friend, if you agree to do this favor for me, this alchemy furnace will be given to you as a reward for this alchemy....."

Hearing this, Qin Feng was overjoyed.

A reincarnation-level alchemy furnace! It's worth hundreds of thousands of Xingxi stones!

Absolutely worth it!

What's more, as long as he helps refine pills, he can get 30,000 Emperor Soul Pills, which are worth 3 million Xingxi Stones!

This deal is so worth it!

"My friend, is this okay?", Yingtian God Emperor's tone was a little embarrassed.

In his opinion, Qin Feng had this pill furnace to help him, but due to the problem of mental consumption, he could only refine 40,000 pills at most.

The pills Qin Feng could leave behind The medicine is very limited.

But the workload he has to do is extremely huge.

After calculation, he feels that Qin Feng does not earn much.

Is he being a little harsh?

After all, Qin Feng's cultivation level is only at the peak of nine stars, and he is very worried about Qin Feng. Qin Feng was exhausted, but he didn't want to miss it.

Such a top master would be hard to find if he missed it!

"Lord City Lord, I agree to this, and I will accept the alchemy furnace. It's just that the alchemy furnace seems to need the power of the divine phoenix to activate it!"

Yingtian Divine Emperor laughed: "Haha!! This is not simple!"

With a casual move, nine drops of the divine phoenix's blood exuded spiritual light flew towards Qin Feng.

"My friend, these are a few drops of the blood of the Divine Phoenix inheritance that I found at the place where I found the alchemy furnace. Unfortunately, it has a fire attribute and does not match my Yuan000 element attribute, so I keep it."

"My friend, if you are an alchemist, you must be a fire elemental master. As long as you refine these drops of divine blood, you will have the power of the divine phoenix and be able to activate this Phoenix Cauldron Alchemy Furnace!"

Qin Feng was overjoyed and had another unexpected gain.

He kept calm and collected the blood of the divine phoenix.

"Vice City Lord, where are the medicinal materials? I'll start refining now!"

Qin Feng was also afraid of long nights and many dreams, so he had to get all the benefits first.

Emperor Yingtian was grateful:"My little friend, that's great! All the medicinal materials are in this storage ring!"

He took out a storage ring and handed it over to look at it.

Qin Feng took it and took a closer look. Sure enough, there were 16,000 Emperor Soul Flowers inside, and all the auxiliary materials were also available.

"Deputy City Lord, I am going to the alchemy room to make alchemy right now. I hope no one will disturb me!"

"rest assured! Little friend Qin Huang, although you go to refine it, the city lord is here to protect the law personally, and no one will disturb you in the slightest!"

At that moment, Qin Feng stopped talking nonsense and returned directly to the alchemy room.

The Emperor Yingtian looked at Qin Feng's back and was overjoyed.

The problem that had troubled him for hundreds of years was finally solved.

"Master Wei!"

He suddenly turned back and looked at the examiner

"The subordinates are here!"

"Go quickly and add 300 points to Qin Huang's little friend's promotion points! If anyone asks, just say it was instructed by the city lord!"

The examiner was overjoyed:"City Lord, my subordinates are going to enter the scores now!"

The two deputy examiners on the side also looked happy.

They were all happy for Qin Feng.

Ever since he was reported by Emperor Yedu, they had unknowingly regarded Emperor Qin as one of their own.

Now Emperor Qin has gained 300 more points. Just enough to hit Emperor Yedu (acai) hard in the face.....

At the moment, Emperor Yingtian led a group of people to wait in the hall to protect Qin Feng.

In the alchemy room, Qin Feng closed the door of the secret room and raised the barrier.

Then, he excitedly took out the Feng Ding Dan Furnace.

This is a reincarnation-level alchemy furnace, two levels higher than his previous one.

What's even better is that this alchemy furnace still has a trace of luck attached to it.

Luck is a very magical thing. With its existence, the rate of elixir success will be maximized.

Not only that, carrying this luck treasure with you all the time can also bring you good luck.

"This is really good stuff!"

Qin Feng watched for a while and couldn't put it down.

He remembered one more thing.

Just now, Emperor Yingtian mentioned that this alchemy furnace was obtained from Ziyun Secret Realm, and it seemed to be related to a certain top divine phoenix inheritance.

This time he He is going to the Ziyun Secret Realm. Can the Alchemy Furnace help him?

This Divine Phoenix inheritance is related to both him and Bai Qi. The strength of the Divine Phoenix clan is not inferior to that of the Ancestral Dragon and should not be underestimated.

Qin Feng was naturally a little moved.

Then , he waved his hand, and nine drops of divine phoenix true blood appeared.

He opened his mouth and sucked it all in, swallowing it all.....

"Ding! Devouring the True Blood of Divine Phoenix Heritage Successfully.....Obtain a large amount of the power of the divine phoenix... and increase the battle by 1 trillion....."

"good!"

Qin Feng opened his eyes happily and began to refine the Fengding Pill Furnace.....

Nowadays, he is dominated by the blood of the Dragon God, supplemented by the blood of the Divine Phoenix.

The concentration of his divine phoenix bloodline is stronger than the Emperor Yingtian imagined.  
.....

In just a moment, Qin Feng finished refining the Feng Ding Dan Furnace.

The sacrifice went smoothly, and Qin Feng was in a great mood.

In the next scene, he directly put a hundred Emperor Soul Flowers into the alchemy furnace and started refining alchemy.....

If the outside world saw this technique, they would be stunned.

Only Qin Feng dares to refine hundreds of Emperor Soul Flowers at once.....

At the same time, the fifth-level combat strength assessment area.

Emperor Yedu looked at the standings comfortably.

First place, Emperor Yedu, Yedu Star Territory, points: 360 points.

Second place, Emperor Qin, Earth Star Territory, points: 60 points.....

"Ah! This Emperor Qin's points have not changed yet!"

Emperor Yedu showed a trace of disdain on his lips and put away the token.

"Your Majesty, we have achieved the highest score in the fifth-level combat strength area and are qualified to enter the sixth-level combat strength assessment area."

Mr. Ye came over with a flattering look on his face.

"Let's go! Go to the sixth level area!"

Emperor Yedu walked towards the entrance of the sixth-level combat strength assessment area.

Mr. Ye followed closely.

"Emperor Yedu, congratulations!"

The examiner at the entrance to the sixth level showed a flattering smile.

This Emperor Yedu is a talented person. There is no harm in being friendly with him.

"The examiner has passed the award. Am I now qualified to enter Level 6?"

"Of course! please!"

"Thank you!"

Emperor Yedu smiled proudly and prepared to go in.

"Wait!"

But at this moment, a lukewarm voice sounded behind him.

Emperor Yedu was stunned and turned around to look.

Mr. Ye and the examiner also followed the sound and saw a middle-aged man with an arrogant expression. The man came over.

The imperial power exuded by the man was extremely powerful, and he suddenly reached the second-wheel realm.

Emperor Yedu's face changed slightly.

Why did the emperor of the second-wheel realm come here?

This is just the assessment area for the new star field. Those who are in the second wheel realm are extremely rare, let alone the strong ones in the second wheel realm.

Emperor Yedu couldn't help showing awe.

In front of the masters in the second wheel realm, he didn't dare to trust him.

"It turns out to be Master Changfeng! I have met Lord Changfeng!"

The examiner saw the person coming and hurriedly came forward to greet him.

"Are you Emperor Yedu?"

Emperor Changfeng looked at Emperor Yedu indifferently.

"That's right. I wonder who you are?"

"Chang is the Great Emperor Changfeng under the deputy city lord! The deputy city lord asked me to bring you a message!"

Emperor Yedu's eyes lit up.

The deputy city lord actually wanted to give him a message.

Did he perform too well, or did he report and meritorious service?

"Sir, please speak!", Emperor Yedu smiled.

Emperor Changfeng said coldly: "The deputy city lord asked me to tell you, don't report blindly if you don't understand the situation in the future! If you make the same mistake next time, please get out of the office!"

"What?!" Emperor Yedu was stunned as if he was struck by lightning.

Mr. Ye and the examiner were also dumbfounded. What mistake did Emperor Yedu make?!

The deputy city lord was so furious!

"Sir, what's going on?", Emperor Yedu asked in fear.

"snort! what happened? Reflect on yourself! The deputy city lord also said that if you do it again, it will be useless even if Elder Xiu pleads for mercy!"

"ah?!", Emperor Yedu was confused again.

"Just take care of yourself!"

Emperor Changfeng dropped this warning and left directly.

Emperor Yedu was stunned on the spot.

Mr. Ye and the examiner couldn't help but look at him.

They didn't understand what happened.

However, there is one thing that can be done Definitely, the deputy city lord didn't seem to want to see Emperor Yedu anymore.

This is not a good thing!

The venue became quiet and the atmosphere was a bit awkward.

After a moment, Emperor Yedu entered the sixth level with a sullen face under the examiner's strange eyes. Combat strength assessment area.

Mr. Ye quickly followed in.

After a while, the two arrived at the sixth-level assessment area.

Emperor Yedu's face became even more gloomy.

What happened? Why did the deputy city lord dislike me so much? Did he report the wrong thing

?

?

That Emperor Qin really got 60 points based on his ability?

How is this possible!

Emperor Yedu didn't believe it at all!

But at this moment, Mr. Ye's exclamation sounded behind him

"Your Majesty, this is not good! Emperor Qin's points gained 300 points!"

"What?!", Emperor Yedu was shocked.

He quickly took out the token and took a look.

First place, Emperor Yedu, Yedu Star Territory, points: 360 points.

First place, Emperor Qin, Earth Star Territory, points: 360 points ....Boom

~!

Emperor Yedu felt as if he was struck by lightning, and his mind instantly went blank..

Chapter 447

Qin Huang indeed increased his score by 300 points and tied for first place with him.

"how so?"

Emperor Yedu was in despair.

"Mr. Ye, that Qin Emperor had 60 points just now, why did it suddenly become 360 points! How did he do that?"

Emperor Yedu found it difficult to accept the facts before him.

He also could not understand the change in points.

The fastest way to increase points is to conduct combat strength assessment challenges.

If you want to increase your points by 300, you need to challenge to the fifth level of combat strength in one go. Assessment area.

But he had just come out of the fifth-level assessment area, and there was no second assessor except him.

This Emperor Qin definitely did not score in the combat strength assessment.

"Your Majesty, we should report the mistake!" Mr. Ye looked complicated.

"What's the meaning?"

Mr. Ye analyzed:"Your Majesty, if your subordinates' expectations are correct, Emperor Qin got 60 points based on his true ability. Not only that, his alchemy ability far exceeds this score!"

"Therefore, after the deputy city lord saw him, he not only discovered that our report was wrong, but also discovered that Emperor Qin was extremely amazing, even a heaven-defying alchemist, so he rewarded him with 300 points at once!"

Mr. Ye's analysis was very logical and consistent with the facts.

After hearing this, Emperor Yedu was shaken all over, and his face became even more ugly.

After a moment, he raised his head slightly:"Mr. Ye, you mean, our report , helped Emperor Qin and let him get a 300-point reward for nothing?!"

Mr. Ye smiled bitterly:"I don't want to believe it either, I'm afraid it's the truth!""

"Damn it!"

Emperor Yedu's tiger body swayed slightly, and he was hit both physically and mentally.

He was worried that the two people in the Earth Star Domain would join forces to catch up with him, so he went to report Emperor Qin.

Now, it's better to steal the chicken instead of losing the rice, but to give away the rice. This gave him a great opportunity.

Under normal circumstances, no matter how good Qin Feng's alchemy skills were, he could only get 50 or 60 points, and it was absolutely impossible to get 360 points.

But he didn't know that the one he sent to Qin Feng Great opportunities, far more than that

"Your Majesty, the matter has come to this, there is no point in thinking about it. What we have to do now is to keep our number one spot. Now, the combined scores of the two people in the Earth Star Domain have surpassed us!"

Mr. Ye looked anxious.

Emperor Yedu came to his senses.

Immediately, he said angrily: "Humph! Didn't this Emperor Qin just rely on the appreciation of the deputy city lord that he was lucky enough to even the score with this emperor? This emperor has not yet shown his true strength. He wants to take the first place from me, but that is a dream!"

"Your Majesty is right! 360 points should be the limit that Qin Huang can achieve. With his nine-star peak cultivation level, he should not be able to make any achievements in the combat strength assessment."

Mr. Ye continued to analyze.

He was not trying to comfort him this time. He really thought so.

With a nine-star peak cultivation level, he basically got 0 points in the combat strength assessment.

After hearing these words, Emperor Yedu gradually recovered from the blow. Come here.

At this time, he thought of Chu Chu again

"By the way, that Chu Chu has been silent until now. Has she reached her limit?....."

Emperor Yedu looked at Mr. Ye.

Mr. Ye nodded:"That should be the case! After all, she is still at the top of the Nine Stars. It is already a miracle that she can achieve such an achievement....."

Emperor Yedu smiled, he thought so too

"Speaking of which, this Chu Chu is very surprising. With her nine-star peak cultivation, it is incredible that she can score 40 points in the combat zone! This Earth's star field is full of weirdos! I wonder if Emperor Qin would be like this?"

"Your Majesty, this should be impossible! That Chu Chu is a freak. It's a miracle that she can surpass the level like this. And Emperor Qin was also a freak, and he blamed it on alchemy. As the saying goes, there are specialties in the arts. Even if Emperor Qin is good at alchemy, he can't be good at everything....."

"Hope so! Even if Emperor Qin is somewhat capable, at most he will have the same results as Chu Chu... Haha! 40 points of combat power! This emperor disdains!"

The corner of Emperor Yedu's mouth curled up slightly, and he gradually recovered from the blow, and confidence gradually appeared in his eyes.

So what if Qin Feng and Chu Chu's combined results have surpassed him?

His true strength has not yet been unleashed!

What's more, he The real trump card has not been revealed yet.

If he reveals his trump card, he will probably shock the world!

Thinking of this, Emperor Yedu said proudly:"Mr. Ye, what is the score of Emperor Qin and Chu Chu together?"

"Return to Your Majesty, 400 points!"

"Ah! Only 400 points! It is estimated that they will always be stuck at this score point...."

Emperor Yedu was disdainful.

But as soon as he finished speaking, Mr. Ye's face changed slightly.

"Your Majesty, this is not good! Chu Chu's points have changed!"

"What?!"

Emperor Yedu was shocked.

He quickly picked up the token and saw that the information on it had changed.

First place, Emperor Yedu, Yedu Star Territory, points: 360 points....

First place, Qin Huang, Earth Star Region, points: 360 points...

Second place, Chu Chu, Earth Star Region, points: 80 points.....

Emperor Yedu suddenly felt that his eyes were a little dark...

Damn it~!

Why did this Chu Chu suddenly gain 0 points again, and her ranking suddenly shot up?

"Your Majesty, the Earth Star Domain points have exceeded 400, reaching 440 points!"

"Noisy!"

Emperor Yedu became angry.

He just said that the Earth Star Domain was stuck at 400 points. In the blink of an eye, it was 440 points, and he was slapped in the face.

"damn it! Are there no limits for the freaks in this Earth's star field?"

Emperor Yedu was extremely angry.

"Your Majesty, what should we do now?" Mr. Ye was a little uneasy.

Emperor Yedu took a deep breath.

After a moment, he said in a dark voice: "Now that things have come to this, it's time for me to let the world see my trump card! It's just a dream for two mere nine-star peaks to join forces to defeat this emperor!"

As soon as he finished speaking, he made a move at any time.

A huge golden puppet fell from the sky.

Boom~!

The feet of the ten thousand-foot golden man landed on the ground. The entire examination area was trembling, and monstrous evil energy soared into the sky.

In the distance, Level 6 The examiners in the combat area were horrified.

Oh my god!

The combat power of this golden puppet has reached about 15 trillion, which is the strength of the early stage of the first stage.

The examiners were shocked!

Here, Mr. Ye was shocked again Happy again.

He has known for a long time that Emperor Yedu's trump card is this golden puppet!

Outsiders have always thought that Emperor Yedu has not applied for promotion just to win the first place in the century-old list.

In fact, that is just one of them Part of the reason.

The bigger part of the reason is because of this golden puppet.

This golden puppet was obtained by Emperor Yedu in a secret realm.

But this puppet was unruly and untamable. It took Emperor Yedu nearly a hundred years to get it. it's barely under control

"What a powerful puppet! Worthy of being one of the legendary Twelve Golden People!"

Ye Lao sighed.

Emperor Yedu said proudly:"Humph! There are two people in the Earth Star Domain. I have this golden puppet and helpers! This time, I will make them stay behind and never be able to catch up with us!"

"Your Majesty, with the help of this puppet, you will be invincible! Emperor Qin and the others are definitely far behind!"

"Ha ha!!"

Emperor Yedu looked up to the sky and laughed.

But the way he looked at the golden puppet was still a little wary.

He couldn't fully control this puppet, so he was a little nervous when using it.

His combat power is 10 trillion, just now Reaching the threshold of the early stage of the first stage.

This puppet is 15 trillion, which is better than him, and the control is not so smooth.

However, he still has no problem in controlling the Jinren assessment.

Huh! People!

You are shocked!

Yedu The emperor's confidence rose again.....

At the same time, there was a crazy commotion in the viewing hall of the assessment area.

Tens of thousands of spectators were shocked by the data on the screen.

First place, Emperor Yedu, Yedu Star Territory, points: 360 points.....

First place, Qin Huang, Earth Star Region, points: 360 points...

Second place, Chu Chu, Earth Star Region, points: 80 points.....

0·Request flowers 0·····

"Oh My God! That Earth Star Field is so awesome!"

"yes! Both of their players are terrifyingly strong!"

"Tsk tsk!! Emperor Qin immediately caught up with Emperor Yedu, and there was Chu Chu on his side! Now the points of the Earth Star Region exceed those of the Yedu Star Region!"

"It's so awesome!"

In the crowd, Nan Yuan was completely dumbfounded!

Oh my god!

Who am I receiving today? Are the brothers and sisters of Emperor Qin really just the top nine stars?

At this moment, Nan Yuan was deeply suspicious.

In her mind , Qin Feng's unparalleled handsome face emerged, and it was deeply engraved on him.

In this life, a person encounters too many people and things.

How many people and things can be remembered?

This young man who met by chance made him It's hard for her to forget...

On the other side, at the registration office.

Master Feng and other staff also saw the latest results list

"This earth star field is really amazing!"

All the staff were amazed.

Mr. Feng also sighed: "I underestimated the Earth Star Territory! It seems that the battle for the top spot this time should be between the Earth Star Region and the Yedu Star Region....."

At this moment, the sensation caused by Qin Feng and Chu Chu gradually spread among the crowd.

The battle for the top spot between the Earth Star Region and the Yedu Star Region has slowly attracted more people's attention.

000

Neither Chu Chu nor Qin Feng knew about all this.

At this moment, Chu Chu appeared in the fourth-level combat strength assessment area.

There was only one evaluator, Chu Chu, and the scene was deserted.

To be able to enter the fourth-level assessment area, the combat power has basically reached 1 trillion, which is the emperor who has perfected the foundation.

If you want to gain points in this war zone, you must defeat a Dzogchen combat puppet alone.

If you want to get more points, you need to defeat more puppet sieges.

In the newly promoted star field, it would be good to have an emperor who is in the early stages of foundation building, let alone an emperor who has completed the foundation building process.

Therefore, no one can enter this level four assessment area.

As for Chu Chu, she is extraordinary.

Her combat power reached 4 trillion, she also controlled the ability of time, and she mastered the supreme true meaning.

Even if she encounters an opponent with 400 million combat power, she can easily defeat him.

Entering this fourth-level combat assessment area, she has plenty of room to perform.

"Auntie, it's so deserted here, there's no one around!"

The baby gnawed on the fruit and looked around.

Apart from them, there were two examiners at the door.

Those examiners were only responsible for recording, but they didn't ask about chores.

Chu Chu touched the baby's little head

"Baby, you have to be good, just play here and don't run around! Auntie is going to challenge!"

"Well, come on, aunt!", the baby's mouth was bulging.

Chu Chu smiled slightly and walked towards the assessment area.....

On the other side is the alchemy assessment area.

In the alchemy room, Qin Feng looked at the densely packed Emperor Soul Pills in front of him and almost smiled crookedly.

This is the seventeenth batch of elixir he has refined.

One hundred Emperor Soul Flowers actually produced 570 Emperor Soul Pills!

What is the concept at this time?

This is equivalent to how he can refine five or six Emperor Soul Pills with one Emperor Soul Flower!

This is simply double his original size!

He had completely underestimated the value of Fengding Dan Furnace before!

Of course, he found that his alchemy skills had also made slight progress.

In the first furnace, he only produced four or five elixirs from one flower.

Unexpectedly, after more than ten furnaces, the number increased to five or six, which completely exceeded my expectations!

In this way, from 16,000 Emperor Soul Flowers, he can refine at least 80,000 Emperor Soul Pills.

If he gives 4 more to Yingtian Divine Emperor, he can earn 4 more!

This is too exaggerated!

It's so cool!

Sure enough: when fortune comes, heaven and earth all work together, but when time passes, heroes are not free!

Qin Feng was excited, put away the elixir suspended in front of him, and continued to refine it..

Chapter 448

Time flies.

In the blink of an eye, two and a half days passed.

Today is the last day for the 100-year promotion list.

There have been huge changes on the centenary list.

Sixth-level promotions, which were extremely rare in the past, have already appeared in four cases.  
.....

However, what people really care about is not this, but the battle for the top spot between the Yedu Star Territory and the Earth Star Territory.

The final results of these two star areas have not yet been released, so their names have not yet appeared on the century list.

At this moment, in the viewing area, hundreds of thousands of spectators are watching the changes in the results of Qin Feng, Emperor Yedu, and Chu Chu.

I saw the results on the light screen as follows:

First place, Emperor Yedu, Yedu Star Territory, points: 920 points

Second place, Chu Chu, Earth Star Territory, points: 400 points

Second place, Emperor Qin, Earth Star Domain, points: 360 points.....

This is the score accumulated in the past three days

"Tsk tsk!! Emperor Yedu is so powerful! In the combat proficiency test alone, I scored 890 points, which is really amazing!"

"hehe! If he didn't have that powerful golden puppet, I'm afraid he wouldn't be able to score so many points!"

"Puppet is also a part of strength. There is nothing wrong with Emperor Yedu using puppets!"

"Miss Chu Chu is so awesome! She also scored 400 points!"

"such a pity! She has reached a bottleneck in her combat prowess assessment! She still can't pass this level!"

Under the light curtain, people were talking a lot

"Strange! What happened to Emperor Qin? Since three days ago, his score has been 360 points, without any movement!"

"yes! If his score could be improved a little, Miss Chu Chu wouldn't be under so much pressure!"

"What is this Emperor Qin doing? Now only Miss Chu Chu is fighting in the Earth Star Territory. It's so scary to watch!"

"Why! I have always been optimistic about the "Zero Zero Zero" Earth Star Territory. If this continues, the Earth Star Territory will lose!"

Many people in the crowd were a little dissatisfied with Qin Feng's performance.

Everyone couldn't figure out what the hell Emperor Qin was doing?

Not only did they think so, but even Nan Yuan was worried.

She knew Qin Feng and Chu Chu.

In her heart, she longed for Qin Feng and Chu Chu to win.

But Qin Feng didn't know what was going on and never showed up.

If this continues, the Earth Star Territory will lose!

Even the registration office, Mr. Feng and all the staff are anxious. At this moment, a staff member at the registration office reported to Mr. Feng

"Sir, I checked and found out that Emperor Qin never came out after entering the alchemy assessment area! Master Feng frowned:"

What is he doing there?" You didn't go in to remind him that there were only four hours left before the centenary list was released."

"If he doesn't participate in other project assessments, the Earth Star Territory will miss the opportunity to be ranked first!"

Master Feng doesn't know what's wrong with him.

He is particularly concerned about the Earth Star Territory.

Not only him, but the entire registration office staff are biased towards the Earth Star Territory.

Perhaps it is more exciting when the weak defeat the strong.

They want to see Qin Feng He and Chu Chu use their nine-star peak cultivation to counterattack

"Sir, I want to go over and remind you! But I don't dare!", the staff member had a bitter look on his face.

Mr. Feng frowned: "Why don't you dare?!"

"Sir, as soon as I entered the alchemy assessment area, I saw the Deputy City Lord. Before my subordinate could say anything, he told me to get out!"

The staff member's face was filled with grievances.

Mr. Feng was sweating on his forehead!

Strange!

Why is the deputy city lord there?!

"Sir, why don't you go there yourself!

Master Feng rolled his eyes angrily:"You want to die!" Don't hold me back!"

He doesn't want to get scolded!

"Sir, what should I do about this matter?", the staff member asked in a low voice

"This matter has something to do with the deputy city lord. Let's not interfere and let nature take its course!" Mr. Feng looked very serious.

"The subordinates understand!"

Just then, a staff member exclaimed

"Look! The score has changed! Emperor Yedu's score has improved again!"

The staff hurriedly checked.

Sure enough!

Emperor Yedu's score is 1210.

The scores of Chu Chu and Emperor Qin still have not changed.

Everyone became more anxious after reading this.

This situation is not good for the Earth Star Territory!.....

At the same time, in the viewing area, under the results light screen.

Countless onlookers talked about it

"Look! Emperor Yedu scored 1210 points!"

"yes! The scores of Chu Chu and Qin Huang haven't changed yet!"

"Why! The gap between the Earth Star Territory and the Yedu Star Territory is getting wider and wider!" .....

Many spectators who prefer the Earth's star field are becoming more and more anxious as they watch.

"Huh! Look! Emperor Yedu came out of the combat strength assessment area!"

Someone in the crowd reminded.

Everyone looked towards the combat assessment area.

In this viewing area, you can see the movements of the players through the light curtain. At this moment, everyone saw Emperor Yedu and his entourage Ye Lao, from the assessment area. Come out of the area and walk towards the qualification test assessment area.

1210 combat power points, this is the limit of the combat power of Emperor Yedu.

He now has to take the last assessment, the qualification points assessment

"Emperor Yedu wants to test his qualifications"

"The final results of Yedu Star Territory are coming out!"

The qualification test area is near the combat strength assessment area.

At the moment, many people came to watch.

Soon, the qualification test of Emperor Yedu came out.

The qualification of the God Emperor, in other words, Emperor Yedu has the hope of being promoted to the third round realm. The great emperor.

As soon as this result came out, the entire office was alarmed.

God Emperor!

That is the big shot in the future!

As one of the hundred great masters of Tianfu Star in Tianmo City, there are only six God Emperors on the official side of the city.

That is The deputy city lord and the five chiefs. This Emperor Yedu has a great future!

No wonder he can be accepted as a disciple by Elder Xiu.

At this moment, everyone admired him.

Emperor Yedu was even more proud, and he had unlimited glory for a while.

His points also The score rose to 1510 in one fell swoop.

The Divine Emperor qualification is 300 points.

At this moment, the qualification test area.

TestOutside, countless spectators watched Emperor Yedu from afar in the viewing area.

There are those who are envious and those who admire..... within the testing area.

The test officer respectfully handed the token to Emperor Yedu

"Lord Yedu, your results have been entered!"

"Um!"

Emperor Yedu proudly took the token and glanced at it.

First place, Emperor Yedu, Yedu Star Territory, points: 1510 points!

1510 points!

Not bad!

Emperor Yedu showed a smile on his lips

"Lord Yedu, do you want to report your results?", the testing official asked respectfully

"Your Majesty, do we want to report it now?" Mr. Ye asked respectfully

"Wait first!", Emperor Yedu smiled mysteriously

"Your Majesty, what do you mean?....."

"Qin Huang and Chu Chu haven't come to test their qualifications yet, have they? This emperor wants to wait for them! Mr.

Ye's eyes lit up, as if he had thought of something, and he immediately smiled and said, "I understand!"

"Let's go! Let's take a break!", Emperor Yedu walked to the rest area.

Mr. Ye followed closely.

"Lord Yedu, do you need something to drink?"

The test officials are very attentive and please everyone.

The rest area here provides some rest services for the examiners."

"Let's have some spiritual fruit juice!"

"OK, my lord!"

Lingguo Fragrance Juice can relieve fatigue and restore vitality.

A moment later, in the rest area,

Emperor Yedu sat on the sofa, drinking the Lingguo Fragrance Juice comfortably.

Mr. Ye stood aside respectfully

"Your Majesty, our results this time have reached the fourth level of promotion, which is rare in a thousand years! Your Majesty will report the results soon, and people outside will be shocked!"

At this moment, Mr. Ye looked excited.

The standard for fourth-level promotion is 1500-2000 points, and theirs is 1510 points, which is just within this range.

"Don't rush to report your results yet! This emperor wants to put pressure on Emperor Qin and Chu Chu!"

Emperor Yedu showed a proud sneer.

After reporting the results, his results and name will disappear from the assessment list.

Then it will become the results of Yedu Star Territory and appear on the hundred-year promotion list.

Emperor Yedu doesn't want to do it so early in the morning Report.

He wants Chu Chu and Qin Feng to always see his results!

He wants to put invisible pressure on Chu Chu and Qin Feng!

He wants to let those two people know that he is the best!

This time, the top spot is not Yedu It belongs to none other than Star Territory!

"Mr. Ye, how many points does the Earth Star Domain have?", Emperor Yedu took a leisurely sip of the fragrant juice.

"Returning to Your Majesty, Chu Chu has 400 points, Qin Huang has 360 points, and the total is 760 points!"

"Ouch~! It seems to be only half of me!", Emperor Yedu smiled proudly.

Mr. Ye said flatteringly:"The two of them joining forces are half of His Majesty's achievements. They are indeed far inferior to His Majesty! Now, that Chu Chu is still struggling in the combat strength assessment area, and Emperor Qin is missing....."

"wait!", Emperor Yedu glanced at the qualification testing area,"They will come here eventually!"

The qualification test is the easiest to score.

Even a low-grade foundation-building potential can get 1 point.

Therefore, no examiner is willing to miss it.

Qin Feng and Chu Chu will definitely come.....

At the same time, the fourth-level combat powerThe edge of the nuclear zone.

Chu Chu woke up from meditation with a happy face

"Wow! Auntie, your fighting power has become stronger again!"

The baby immediately sensed Chu Chu's changes.

During this period, Chu Chu's understanding of the supreme true meaning has been improving in battle.

Her true meaning of time has been awakened to 20%, and her combat power has increased to 4.5 trillion.

"Baby, have you been staying here?"

"yes! Auntie is having an epiphany, so of course I have to stay by and not let others disturb you!"

"The baby is so good!"

"whee!!", the baby raised his little face happily.

Chuchu couldn't help but kiss him.

The baby smiled so much that his eyes narrowed.

People in the viewing area were extremely anxious when they saw this scene.

"Why! Time is running out, will Miss Chu Chu still challenge?"

"I do not know! She has failed this level 274 times!"

"Speaking of which, I admire Miss Chu Chu more and more. Her perseverance is so amazing!"

"yes! It's really admirable!"

"Did you find it? Miss Chu Chu has been fighting longer and longer, and she seems to be getting stronger and stronger!"

"Huh! It seems so!"

As soon as these words were said, people looked at Chu Chu in the light curtain and became more respectful.

During this period of time, Chu Chu had gained many fans without knowing it.

They could not sense the changes in Chu Chu's combat power through the light curtain. But many details made them discover that Chu Chu was getting stronger.....

At the same time, the combat effectiveness assessment area

"Auntie, our situation seems to be bad! The bad guy, Emperor Yedu, has a score of 1510. It's hard for us to chase him....."

The baby looked worried.

Chu Chu was also surprised:"There are so many! I don't know what my brother is doing?"

"Something must be wrong with dad. If he were here, we would definitely win!"

The baby worships Qin Feng blindly.

Chu Chu sighed:"It will be over in more than three hours. Regardless of that, it's time for me to conduct the final battle strength assessment!"

"Auntie, come on!", the baby cheered.

Chu Chu smiled slightly, turned around and walked towards the combat strength assessment tower.

There was a commotion in the viewing area.

"Look! Miss Chu Chu starts to challenge again!"

"This is her 275th time!"

Many people in the crowd became nervous.

They all admired Chu Chu's perseverance.

Last time, Chu Chu challenged 59 times before she succeeded.

This level was the number of times she challenged.

After a while, Chu Chu entered the challenge tower.

Watch the battle. People in the area cannot see the battle scene, and everyone is waiting nervously.

This is to protect the privacy of the examiners.

Only the examiners can see the situation in the challenge tower.

At this moment, inside the tower.

A closed space.

Chu Chu is calm The ground was suspended in the air.

In front of her, two figures appeared out of thin air.

Two puppet warriors with a combat power of 10 trillion! They were comparable to two great emperors who had reached the first-level combat power threshold!

But Chu Chu's combat power was only 45,000 Billion.

Now she has to fight one against two.

If she wins this game, she will get 100 points.

The challenge in the previous game is: one-on-one, defeat a puppet with a combat power of 10 trillion.

She After failing 59 times, she finally did it! 0.8

And she also found that in this constant battle, her understanding of the true meaning of the years was constantly improving, and her strength was constantly increasing.

This time, her combat power increased At 4.5 trillion!

She was confident that she could win!

Chu Chu waved her hand, and two divine swords appeared beside her.

One was fiery red and wrapped in fire, and it was a fire-type emperor-level Yuanwu!

The other was blue and surrounded by ice crystals. Ice-type emperor-level Yuanwu!

She stretched out her hands, and two divine swords fell into her hands.

The true meaning of years fell from the sky!

Ouch~!

The shadow of a ten thousand-foot-long golden dragon appeared behind her, covering the sky and the earth.....

The two puppet warriors were shocked.

The next second, they rushed over.

Chu Chu fights proudly!

The two sides immediately started fighting.....

At the same time, the alchemy assessment area.

In the alchemy room.

Qin Feng looked at the seven hundred Emperor Soul Pills in front of him with a smile.

This is the last batch of elixir he refined.

This alchemy lasted for three days, and with the blessing of his five times time force field, it lasted for fifteen days.

After these fifteen days, he finally finished refining sixteen thousand Emperor Soul Flowers.

A total of more than 81,000 Emperor Soul Pills were obtained, and 40,000 were distributed to the Yingtian God Emperor. He still had more than 41,000 pills left.

"time is limited!"

Qin Feng looked at the assessment time.

There were only three and a half hours left before the final release time.

He looked at the current assessment results list again, and the corners of his mouth curled up slightly.

Next, it was

Qin Feng 's turn to appear. He stood up, put away the alchemy furnace, and walked outside the alchemy room..

Chapter 449

At this moment, in the alchemy assessment area, in the main hall.

Emperor Yingtian sat in the examiner's seat with his eyes closed to relax.

All the subordinates stood aside respectfully, not even daring to breathe loudly.

The atmosphere was very serious.

In fact, Emperor Yingtian was very anxious in his heart.

Although he gave Qin Feng the Phoenix Cauldron Pill Furnace, he was still worried that Qin Feng would not be able to refine the four Emperor Soul Pills.

This is not to say that Qin Feng's alchemy skills are not good, but that continuously refining 16,000 Emperor Soul Flowers is too labor-intensive for the nine-star peak.

I hope Qin Huang can complete it smoothly!

Emperor Yingtian prayed in his heart!

Buzz~

The sound of the barrier being revoked!

Boom~Long~Long!

The door of the alchemy room slowly rises

"Finished practicing?"

"So fast!"

Everyone turned their heads and looked at the alchemy room.

Emperor Yingtian stood up slowly.

After a moment, with the sound of refreshing footsteps, Qin Feng walked out of the alchemy room.

"My friend, how is the situation?"

Yingtian Divine Emperor smiled and walked down from his seat, with some nervousness deep in his eyes.

"Fortunately, I did not disgrace my life!", Qin Feng smiled and took out a storage ring.

Emperor Yingtian took the ring and penetrated it with his spiritual consciousness. He saw that the ring was densely packed with 40,000 Emperor Soul Pills.

Emperor Yingtian was ecstatic:"Haha!! Dear Qinhuang, thanks to you this time! Ying Mou is very grateful!"

"It is also an honor for me to be able to help the Vice City Lord!"

"Ha ha! My little friend, from now on, don't call me"junior" in front of this city lord. You have done such a big favor to this city lord, I owe you a big favor! From now on, you are my friend and we are equals!"

Yingtian God Emperor looked very excited.

"this.....", Qin Feng was a little stunned.

The onlookers around were also a little confused.

The deputy city lord is a great figure who is perfected by the God Emperor, but he wants to be friends with Emperor Qin's equals. This matter.....

"how? Little friend, you don't like this city lord?"

"That's not true! Only later generations can reach the peak of nine stars....."

The Emperor Yingtian quickly interrupted:"Little friend, you must not underestimate yourself! With your current level of alchemy, if word spreads, your status will not be lower than that of the God Emperor. My little friend is fully qualified to interact with this city lord on an equal footing!"

God Yingtian! The emperor said seriously.

He really wanted to form a friendship with Qin Feng.

He sees far.

Qin Feng is so young and has such an amazing talent for alchemy.

In time, this Qin Feng will definitely become a master-level alchemist.

To make friends with such a super genius, you must take care of him before he grows up and make friends with your heart.

If we wait until he grows up before making friends with him, it will be difficult for him to become a true friend, and we won't even have the chance to make friends with him.

"Lord City Lord, in this case, I will not be pretentious. I will boldly call you brother from now on!"

"It should be so! My name is Yingtian. From now on, just call me Brother Yingtian. I don't know what to call Emperor Qin's brother?"

"Qin Feng!"

"good!", Ying Tian Divine Emperor turned around and looked at many of his subordinates

"You saw it and you heard it! From now on, Qin Feng will be the friend of this city lord, and you must respect him as much as I do!"

As soon as these words were said, all the subordinates were shocked, but they did not dare to neglect

"I'll understand later!"

All the subordinates agreed.

In the next scene, everyone looked at Qin Feng with envy and respect.

To be honest, with Qin Feng's alchemy level, no one in the entire Tianmo City can compare.

He does have an equal. intersectional qualifications

"Brother Qin Feng, when are you going to get together at my house?", Yingtian Divine Emperor warmly invited.

Qin Feng smiled slightly:"Brother, my promotion test has not been completed yet!

Emperor Yingtian slapped his head:"Look, I forgot about this matter." That's fine! I am also preparing to go back to retreat. After I break through this time, let's get together again!"

"OK!"

"Ha ha!! Brother Qin Feng, I'll take my leave now!"

After saying that, Emperor Yingtian led a group of people and left excitedly.

Four Emperor Soul Pills were obtained!

He wanted to retreat and break through to the master!

In the blink of an eye, only Qin Feng and three examiners were left in the hall.

"Lord Qin, congratulations!"

The examiner looked envious, and his tone became extremely respectful.

Qin Feng was puzzled:"Why are you so happy?

The examiner whispered:"Your Majesty Qin Huang, the deputy city lord just said that he wants to go back to retreat." The deputy city lord is only one step away from being the master! This time,

with the help of 4 Emperor Soul Pills, he will definitely be able to break through to the Dominator in one fell swoop...."

At the end of the sentence, the examiner paused.

The two deputy examiners suddenly realized it and looked at Qin Feng with envy.

This is already obvious.

When the deputy city lord breaks through to the master, Qin Feng is equal to a master.

Many people would never dare to think about such connections!

Qin Feng also understood and just smiled lightly

"Everyone, farewell!"

"Mr. Qin Huang, walk slowly!".....

After leaving the alchemy area, Qin Feng entered the weapon refining assessment area.

In the weapon refining area, the test is the ability to repair Yuanwu.

It only took Qin Feng ten minutes to repair a damaged Lunhai-level Yuanwu.

The three examiners were shocked and unanimously approved, giving a perfect score of 50 points.

This situation is the first time in a thousand years!

Afterwards, Qin Feng left the weapon refining assessment area and entered the formation assessment area under the admiring gazes of the examiners.....

At the same time, the fourth-level combat strength assessment area has also changed.

Chu Chu walked out of the combat strength assessment tower.

This time, she won!

She fought one against two and defeated two puppet warriors with a strength of 100,000, and gained 100 points.

Her total points increased to 500 points!

As soon as the result came out, the spectators cheered.

At the edge of the assessment area, the baby jumped with joy

"yeah! Auntie, you win! Our points have gone up!"

"Baby! Let's go to the qualification test area!", Chu Chu was also happy in her heart

"Auntie, did you try the next level unexpectedly? Chu Chu shook his head:"

The next level is I am no match for the siege of four puppet warriors. Besides, there are only 3 hours left and we are too late!"

"Oh fine! Then let's go to the testing area! Huh! Auntie, look, dad's score has changed!"

The baby suddenly made a new discovery.

Chu Chu was overjoyed and quickly took the token to take a look.

Sure enough, Qin Feng's score changed from 360 to 410.

It's been almost three days!

My brother's score finally changed.

"My brother's matter must have been dealt with. We sent him a message and told him that we went to the qualification testing area and where we were waiting for him!"

"Um!"

Baobao nodded obediently, didn't even eat the fruit, and sent a message to Qin Feng.

Then, the two left the combat strength assessment area and walked to the qualification test area next to it.

At the same time, there was the qualification test area and the rest area.

Emperor Yedu was half lying there, drinking spiritual fruit juice leisurely

"Your Majesty, Chu Chu's score has changed!", Mr. Ye said in a low voice.

"oh?"Emperor Yedu raised his eyebrows and said,"Take it and take a look!"

Mr. Ye handed over the token respectfully.

Emperor Yedu took a look with his spiritual consciousness.

Sure enough, Chu Chu's score was 500, an increase of 100 points!

"Ah! Just 100 points more! She can't change the situation!"

Emperor Yedu didn't take it seriously and raised the corners of his mouth.

"Your Majesty is right, the two people in the Earth Star Region have a combined score of only 860, which is far behind our score of 1510. This time the top spot is none other than us!"

Mr. Ye looked excited.

"Ah! This is inevitable! By the way, has Emperor Qin's score not changed yet?"

"No change!"

Emperor Yedu sneered: "It seems that Emperor Qin is useless!"

As soon as he said these words, Mr. Ye's face changed slightly.

"Your Majesty, Emperor Qin's score has changed!"

"oh?....", Emperor Yedu raised his eyebrows and looked towards the token.

Sure enough, Qin Huang's score increased from 360 to 410 points!

This guy is actually making some noise!

Paralysis~!

As soon as I said he was abolished, he changed and deliberately went against me!

Emperor Yedu frowned slightly, feeling a little unhappy.

"Your Majesty, this is really strange. This Emperor Qin has been silent before, so why is there any movement now?", Mr. Ye looked puzzled. 670

Emperor Yedu looked disdainful: "Humph! Just lingering! He should have just overcome that difficulty and scored these 50 points."

"Think about it, it took him nearly three days to score 50 points, and now there are only three hours left. What tricks can he do? This is his limit!"

Emperor Yedu made a self-righteous analysis.

Mr. Ye nodded slightly, thinking it made sense.

But at this moment, the spectators outside the test area became commotion.

Some people in the crowd whispered, saying that Emperor Qin had scored again.

Emperor Yedu He and Mr. Ye were slightly stunned.

Immediately, Emperor Yedu took out the token and looked at it, and he was stunned.

Qin Feng's score changed again, from 410 to 460, another 50 points!

This time, too Soon!

Emperor Yedu's face turned black!

Paralysis!

Is I a crow's mouth?

Every time I say something bad about him, he scores points!

"Your Majesty, what's going on?"

"Shut up!", Emperor Du looked unhappy.

At the same time, at the entrance of the formation assessment area, Qin Feng walked out with a satisfied look on his face.

This formation test is simpler, that is, breaking the formation.

The highest-level formation in the assessment area is only at the Great Emperor level and not yet at the Lunhai level.

Qin Feng's formation level has also reached Lun Hai level.

It is extremely easy for him to crack the emperor-level formation.

In less than five minutes, under the astonished eyes of the examiners, he broke through three of the most difficult emperor-level formations and scored a perfect score of 50 points.

"Huh! Chuchu sent a message!"

Qin Feng looked at the communication jade talisman and showed a smile.

Chu Chu was going to the qualification test area, and the baby was also there.

The two of them were also a little worried about him.

That's okay!

He wanted to go to the qualification test area, take a look at the two of them, and then go to the battle. The strength assessment area.

Anyway, the combat strength assessment area and qualification test area are right next door.

There are still 3 hours left, so there is enough time..

Chapter 450

At that moment, Qin Feng rushed to the qualification testing area.

At the same time, the qualification test area has become extremely popular.

Because Chu Chu came over, the onlookers also came over to watch.

The highlight of this century-old list is the Earth Star Domain and the Yedu Star Domain.

As long as Chu Chu completes the qualification test, her final results will be announced.

At this moment, in the testing area.

Chu Chu was communicating with the test officials to understand the test procedures.

Emperor Yedu and Mr. Ye had walked out of the rest area and were watching from a distance.

"Your Majesty, Chu Chu is also here. It seems that she has reached her limit."

Mr. Ye was a little happy.

If Chu Chu still stayed in the combat strength assessment area, he would be worried that Chu Chu still had trump cards and could still score points in combat strength.

Now it seems that he has thought too much.

Chu Chu has no trump cards.

After she finishes testing her qualifications, Her final points are out

"Mr. Ye, how many points has the Earth Star Domain accumulated now?", Emperor Yedu asked casually

"Back to Your Majesty, Chu Chu has 500 points and Qin Huang has 410 points, totaling 910 points. 600 points less than us...."

"Ah! 600 points!", Emperor Yedu was secretly happy.

The gap of 600 points is not small!

"Mr. Ye, what do you think this Chu Chu's qualifications are?"

Ye Lao said hurriedly: "Your Majesty, according to my subordinates, she has the qualifications of the Wheel Sea Realm at most, and she has definitely not reached the qualifications of a god emperor. There can be at most one god emperor in a thousand years.

"Your Majesty is the only one with the qualifications of a God Emperor in the past one thousand years. Logically, there will be no second person, so I judge that Chu Chu does not have the qualifications of a God Emperor."

Ye Lao's words are naturally suspected of flattery.

However, what he said It's not completely unfounded.

It is true that in this Tianmo City test area, a god-emperor qualification only appeared in a thousand years, and this has happened more than ten times in a row.

This has almost become a rule, and many people have subconsciously accepted this rule.

Now that Emperor Yedu has the qualifications to be a God Emperor, everyone is a little worried about Chu Chu's potential test.

Especially those spectators who are biased towards the Earth Star Domain are even more worried.

On the contrary, Emperor Yedu listened to Mr. Ye's flattery. , feeling very comfortable

"Ah! If the qualification of God Emperor is common, it would not be unusual! According to my opinion, this Chu Chu has the qualifications of the second round realm at most!"

Emperor Yedu put his hands behind his back, looking like an expert was commenting.

Ye Lao smiled and agreed: "Your Majesty, the second-round realm is also extremely rare. It's hard to say whether this Chu Chu has the qualifications for the second-round realm....."

Just after saying this, there was movement in the field.

I saw Chu Chu striding towards the test altar.

There is a test crystal ball in the center of the altar.

With this change, the atmosphere in the field changed.

Everyone looked at Chu Chu, paying full attention.

The atmosphere in the field was actually a little tense.

Among the crowd, Nanyuan was even more nervous.

She held her breath and prayed silently, hoping that Chu Chu would have good grades.

After a while, Chu Chu went up to the altar and pressed the test crystal ball with one hand.

"The test begins!"

Everyone opened their eyes wide.

The next second, Chu Chu's hand pressed on the crystal ball.

Buzz~!

The test array was activated instantly!

A dazzling spiritual light lit up!

The next second, the center of the test crystal ball also lit up. A dazzling white light appeared.

It was like a light being lit, getting brighter and brighter.

Buzz~!

A silver halo of light lit up outside the test crystal ball!

"The first one appears!"

"Let me just say, Miss Chu Chu can definitely become the emperor!" There was a lot of discussion in the crowd.

Many people were nervous for Chu Chu.

The halo represents potential.

One halo represents the potential to become an emperor in the early stage of foundation building.

Two halo represents the potential in the middle stage of foundation building.

This is used to push....The six halos represent the potential of the God-Emperor.....

While everyone was talking, the second and third circles of light came out.

The crowd was getting more and more excited.

At the edge of the test, Emperor Yedu still looked calm.

The first three halos are nothing, many people can achieve them.

The difficult thing is the fourth halo, which represents the potential to become the Wheel Sea Realm, but it is just a big threshold.

Most people's qualifications are stuck here!

Can Chuchu do this?

The corners of Emperor Yedu's mouth curled up slightly.

But at this moment, the test light ball lit up the fourth ring.

It was a light golden halo!

It looks particularly dazzling!

There was a cheer from the crowd

"Ha ha!! The fourth halo is out!"

"Miss Chu Chu really has the potential to be in the Wheel Sea Realm!"

Many of the spectators who were biased towards the Earth Star Territory showed happy expressions.

At the edge of the test area.

Emperor Yedu frowned slightly, with a trace of displeasure flashing across his eyes."

"snort! It's only four tracks, what do these people have to cheer about!"

Just after this thought came up, a change occurred in the field.

Buzz~!

The fifth halo appeared!

The potential of the second round!

Emperor Yedu frowned.

He felt threatened!

"Your Majesty, this Chu Chu is quite powerful!"

Mr. Ye was a little embarrassed.

In order to cater to Emperor Yedu, he said that Chu Chu didn't have the qualifications for the second round. He didn't expect to look at him so quickly!

Emperor Yedu was very unhappy.

He sneered in a low voice: "This is the end of Chu Chu.! Do you think she can have the qualifications of a god emperor?"

Mr. Ye quickly agreed: "Your Majesty is right!" Only one God Emperor has the qualifications in a thousand years, and the second is the destiny of heaven and earth. How can this Chu Chu defeat it?"

Just after saying these words, there was a sudden sound in the field.

Buzz~!

The measuring spirit beads vibrated!

Immediately afterwards, the sixth halo appeared, extremely dazzling!

The whole place suddenly went into a sensation!

"OMG! God Emperor Qualifications! Miss Chu Chu also has the qualifications of a god emperor!"

"Tsk tsk!! Generally, only one God-Emperor will be qualified within a thousand years, but Aunt Chuchu actually broke this rule! This is amazing!"

The crowd sighed.

Everyone looked at Chu Chu with respect.

Any person with the qualifications of a god emperor is still worthy of respect.

They are all still big figures in the future!

Beside the test area, Emperor Yedu was dumbfounded!

How is this possible?

How could this Chu Chu have the same potential as himself!

How could two divine emperor qualifications appear at the same time within a thousand years?

Emperor Yedu's expression became extremely ugly.

Mr. Ye was so confused!

Damn it~!

This It was completely beyond his expectation!

After a moment, he swallowed his saliva and said bitterly:"Your Majesty, this Chu Chu is also qualified as a God Emperor, so her qualification points are also 300 points!"

"snort!", Emperor Yedu was inexplicably angry,"So what??! "

"Even if she has 300 qualification points, her total score in the Earth Star Domain is only 1210 points, which is still 300 points less than us! They still can't surpass us!"

But just as he finished speaking, a change occurred in the field!

Buzz~!

A soft cry resounded throughout the audience!

Immediately, a red-gold halo emerged, illuminating the heaven and earth, extremely bright!

The entire audience was stunned for a moment!

"It's the seventh halo!"

"OMG! Dominate the potential!"

Everyone's eyes widened!

The potential to dominate!

The Lord of Heavenly Demon City is a big shot!

Heavenly Demon City is one of the top 100 main cities, not an ordinary city!

This time, thousands of people were shocked!

"This...how is this possible?!"

Emperor Yedu's tiger body shook violently!

At this moment, his eyes were a little black.

If Chu Chu's potential was equal to his, he could barely accept it.

But he didn't expect that Chu Chu's potential was even higher than his!

From then on! The sixth ring crossed to the seventh ring!

That was a qualitative leap!

The meaning was completely different!

At this time, Chu Chu took her hand away from the test crystal ball and opened her eyes with joy.

Her qualifications had indeed reached Master!

Although he is only a low-level master, he has surpassed countless people.

Becoming a master means immortality. Only when catastrophe comes, will there be a threat of death!

".Master Chu Chu's results are out! Lord! Dominant potential!"

The crowd cheered!

Countless people looked at Chu Chu excitedly.

The name everyone called her changed from Miss Chu Chu to Master Chu Chu.

No one dared to be disrespectful to a future master!

The test official was so excited that his hands were shaking!

Master Chu Chu. Potential!

It takes hundreds of thousands of years to see it!

Unexpectedly, he actually witnessed it with his own eyes!

After today, Chu Chu will definitely be famous in Tianfu Star!

The test officer quickly completed the data entry.

The potential of a low-grade dominator will be worth 500 points.!

Chu Chu's points were exactly 1,000 points.

Soon, the data on the assessment form was updated.

The data everyone saw was as follows:

First place, Emperor Yedu, Yedu Star Territory, points: 1510 points.

Second place, Chu Chu, Earth Star Region, points: 1000 points.

Third place, Qin Huang, Earth Star Region, points: 460 points.....

"Your Majesty, the total points in the Earth's star domain are 1,460, which is only 50 points behind us....."

Mr. Ye panicked.

Emperor Yedu also frowned

((Zhao) He is also nervous now.

Is the number one spot on the list going to be lost?

Now, Chu Chu's assessment is all over, and it's up to Qin Huang.

That Emperor Qin only had to wait 50 more points to tie.

This situation is not good!

At this time, Chu Chu walked down from the test altar

"aunt! aunt! You are awesome! We are almost catching up with Yedu Star Territory!"

The baby was so happy that he ran over and jumped.

Chuchu happily picked her up

"Master Chu Chu, this is your assessment token! The scores have been entered for you!"

The test official came over and handed the token back respectfully.

Chu Chu took it back with a smile.

But at this moment, there was a commotion at the entrance.

Chu Chu, Bao Bao, Emperor Yedu and others couldn't help but turn their heads to look.

The next moment , and saw an extremely handsome young man walking in.

That was Qin Feng arriving!

"elder brother!", Chu Chu and Bao Bao ran over in surprise.

"Is he Emperor Qin?"

The commotion in the crowd became even greater.

The mysterious Emperor Qin finally appeared.

Unexpectedly, he was such a handsome young man.

At this moment, everyone's eyes fell on Qin Feng..
