

Supreme God Of Fire

Chapter 20 - Huo Ming Came to Save Him -

C20 Huo Ming Came to Save Him

"These are all small matters. The important thing is, it's good that people are fine... Your Huo family has always been a single disciple. Losing one person is a huge loss. If both of them are lost, it will be the loss of the entire Baizhu Country..."

"As for this matter, it will temporarily come to an end..." The Monarch looked at Wang Yueming in the hall and withdrew.

"The death of the old prime minister must be investigated. The most important thing is not to investigate the death of the old prime minister, but to find out where the prison war-criminal went. In the raging fire, there is no trace of him. How many days has it been? There's actually not a single trace of movement?"

"Could it be that everyone is a good-for-nothing? They are all holding the gold and silver in the treasury and not doing anything?"

Actually, none of these were the most important. The Inkice Prison was used to imprison those who had failed in the war and were captured. Those who had failed in the war would be subjected to cruel punishments in the prison. The reason why they did not kill them was also to be punished.

However, up until now, there had been no news of these people. This naturally made the Monarch extremely worried. This was not a simple matter. Currently, the entire Baizhu Country had become a lot stronger. It had been more than thirty years, and there had not been a single war.

However, everyone would wonder if there would be any signs of them appearing at some point in time. In the end, the country would be destroyed and the people would die, and the mountains and rivers would no longer exist.

It was also because of this that the Monarch was constantly on guard against these things. He was afraid that something might happen in the east. The previous night, he was still the ruler of a country, and after dawn, he would become the ruler of a destroyed country.

This was the laughingstock of Baizhu Country. If the Baizhu Country had been conquered by his ancestors and became like this, he, Yun Que, would not even have the heart to die.

"Old Marshal, I will have someone investigate this matter. Also, two generations of people from Huo family have been assassinated. This is definitely not a simple matter.

Therefore, this time, the Monarch will do his best to investigate this matter. " Old Marshal, please don't worry about this matter... "

The next moment, just as Yun Que was about to leave, Wang Yueming, who was kneeling on the ground, suddenly slapped his sleeves and a poisonous needle flew out.

In the next moment, Wang Yueming suddenly rushed towards Yun Que. This was also the moment Huo Ming was most worried about. It was an assassination. Using the life of an old prime minister in exchange for an opportunity to kill someone. If he failed, he could escape from this place and at the same time, it would affect the Huo family...

This was a matter that could kill two birds with one stone. Assassination, lack of protection, lack of strict investigation. With just these, the Huo family wouldn't be able to escape!

After Huo Ming thought of all of this, he suddenly had an idea and flew towards the poisonous needle. No one would know that a teenager would take the initiative to protect the needle.

Even the guard of the Sovereign King Yun Que could not react to this poisonous needle. In just a few breaths' time, the poisonous needle had pierced into Huo Ming's arm, causing him to faint instantly.

Wang Yueming knew that his sneak attack had failed, so he could only flee. However, since Huo Ming was injured, Old Master Huo Ye wouldn't agree to it, and neither would the guard. When Wang Yueming escaped, the two of them killed dozens of people in a row. Under such circumstances, Wang Yueming was killed by an assassin's hidden weapon.

When the two of them brought Wang Yueming's corpse back to Prime Minister's Mansion, Huo Ming was in Yun Que's arms. "Hurry up and call for the Imperial Physician. Call for the best Imperial Physician. We must save Huo Ming..."

The guard's speed was not slow. He immediately left the place and headed towards the imperial capital. Not long after, the guard grabbed the old doctor and shakily appeared in front of the Prime Minister's Mansion.

"Imperial Physician Hu, please. The son of the old marshal has been poisoned by the hidden weapon. I hope Imperial Physician Hu can do his best!" The guard had a cold expression on his face.

When Imperial Physician Hu entered the Prime Minister's Mansion, he looked up and saw Old Master Huo Ye and Yun Que. Just as he was about to bow, Yun Que shouted, "Hurry up and save him. If you cannot save him, you will die!"

This scared Imperial Physician Hu. He immediately walked up and checked Huo Ming's condition. With a glance, he realized that this was the Black Heart Poison. It was the Black Heart Poison that was refined from the Black Heart Grass. The poisonous needles that were soaked in it contained deadly poison. If one did not have a cultivation base, they would die without a doubt. Those with a cultivation base could still resist it. This child...

After taking a closer look, Imperial Physician Hu discovered that the poison had yet to reach the heart meridian. He immediately placed a silver needle to protect the heart meridian. "Monarch, this child's injuries are very serious. He needs all the Imperial Physicians in the entire Grand Hospital to discuss countermeasures and decide whether to save him or not..."

"Old Marshal's grandson was injured in order to save Monarch. Do you want to save him or not?" Yun Que's face was full of anger as he grabbed the old doctor. The old doctor was so scared that he almost lost his soul.

"This, Your Majesty, there is only one way now. That is to use the Earth Flame to burn the poison of the old marshal's grandson. " In the end, I will take out the poison needle along with it... "

"You said it was the Earth Flame? You want me to find the Earth Flame for you?" Yun Que roared.

Yun Que no longer had his usual demeanor. Huo Ming had been injured because of him. No matter the price, he had to be saved. The old marshal would not be able to explain for the time being.

First, Huo Ming was hunted down, then Huo Tian was assassinated, and then the son of the old prime minister. Wang Yueming also wanted to kill him. This matter continued one after another. Currently, there was only one guard here, but he was also a Spiritual Infant Stage warrior. Such strength was considered extremely high in Baizhu Country.

Although his status wasn't as high as others, he was still a warrior of sacrifice. In the Baizhu Country, he was a top expert. After all, there weren't many cultivators in the Baizhu Country. Even if they were to cultivate, they were all people with low strength.

"Monarch, the fire of Earth Flame exists in the Dragon Gate..." When the old doctor said that, Yun Que was also stunned.

That's right. There was indeed a fire at the Dragon Gate. However, that was the place of fortune for the entire Baizhu Country. If they moved there, they would be in big trouble...

However, Huo Ming's life force was gradually weakening. Yun Que's expression changed when he looked at the old marshal. "Let's go. Let's ride the dragon gate. We'll go get the Earth Flame!"

If Huo Ming died because of him today, it would not be a problem of internal and external troubles. Instead, it would be a matter of whether to start a war or not. Old Master Huo Ye's clan was a single generation. If Huo Ming was to die because of him, then Old Master Huo Ye wouldn't be far away from plotting a rebellion.

Old Master Huo Ye frowned. He sighed when he saw Yun Que carrying Huo Ming and rushing towards the dragon gate. What he was worried about had happened all along.

As expected, if the Monarch and the official were not plotting, they must be plotting against someone else... He had always thought that they were all plotting against someone else. Now, it seemed that everything was fake. He quickly followed up. He was just worried that Huo Ming wouldn't be in trouble...
