

God of Life 1091

Chapter 1091: Enemy Medusa

"Meteorology!"

Fang Yue's palm was lifted, the void shattered, and a human head-sized meteorite dragged a long flame tail across the sky.

Liu Kuan next to him was stunned by this scene.

He stayed in this logistics office for half his life, and as the army fought and killed him, he was not considered an ignorant person.

However, he had never seen such a confrontation before, it was like a **** or a monster in myth.

"broken!"

Medusa smiled slightly. The meteorite exploded in mid-air and turned into countless pink powder, which was scattered on the ground with red light.

"Tsk tusk, my little man, your little power can't threaten my sister! If your skills stop here, let me tell you the true meaning of strength!"

Medusa's voice became cold, and Fang Yue found that his internal organs were gradually petrifying.

Petrification.

This is where the source lies.

Whether it is a person who refines qi or a witch, the petrochemical techniques they study are derived from this.

"The true meaning of power, I understand. Your previous method was the legendary mind-cultivation. When a thought falls, the world is under your control. This is a change in mental power, but few people can master it!"

Fang Yue's eyes lit up, and the moment he was hit by the petrification technique, he felt a vague and strong spiritual force invading his body.

Nianxiu, Fang Yue has only seen it in the oldest classics, and it is listed as the two manifestations of the ultimate spiritual evolution along with spiritual materialization.

Once you understand the principle.

This Medusa's method is no longer terrible.

"All laws will not invade, all evil will be changed, eternal blessing!"

Fang Yue sprinkled blessings on himself.

This is also a genre of witch repair, this genre is very partial, if it had not been inherited from the tomb of the sky witch, Fang Yue would not be able to master this method.

The blessing technique specifically targets various abnormal states or curses.

The petrification of Medusa is unsolvable, not only because it is a manifestation of the road of earth, but more importantly, because the petrification contains cursing power.

The blessing technique falls.

The petrification of Fang Yue's internal organs dissipated instantly.

Medusa finally showed a touch of surprise.

As Medusa's unfavorable trump card, petrochemical technique, it actually failed on Fang Yue's body.

"Blessing, such a partial witchcraft is still circulated in this world, but even if you don't use petrification, you still have a dead end, my little man obediently accept your fate! My sister will always remember you! "

Medusa's unrefined hands flicked in the void.

A slender stone sword appeared from her hand. The stone sword had no edge, but a strange force surged above it.

"kill!"

Medusa lightly spit out the word "kill".

The stone sword slashed and hit Fang Yue's body directly.

This swordsmanship is very clumsy, even without any fancy and changes.

However, at the same time, Medusa spit out the word "sleepy" again.

Fang Yue felt that the surrounding air had turned into strips of pythons entwining his body, making him unable to move.

The terrible thing about Nianxiu lies here.

It is fickle, and it is simply impossible to guard against.

"Shading!"

Fang Yue's body became virtual, becoming a shadow, invisible and innocent, and escaped into the ground.

One more method is one more life-saving hole card.

Fang Yue turned into a shadow and disappeared.

The fierceness in Medusa's eyes was even stronger.

"Sure enough, it is a big fish, shadow transformation, tsk tsk, these are all such ancient methods, I didn't expect you to understand the law of darkness in addition to witch cultivation, it should be regarded as half a cultivation of Qi."

Medusa was not disappointed, but rather surprised.

Hunt Fang Yue, she will inherit all the talents of Fang Yue.

The stronger Fang Yue's performance, the stronger the power she will gain after the hunt!

"Manifest!"

As Medusa spoke out, Fang Yue changed from a shadow to an entity again.

"This Nianxiu is worthy of being one of the ultimate methods of mental power, but this method is not absolutely invincible."

Fang Yue also felt lucky.

I can meet a Nianxiu at this time, and the strength of this Nianxiu is quite limited, not invincible.

"When death is approaching, you don't know the horror. My little man, my sister is really reluctant to kill you at this time. It's a pity that you are the caller and the sister is a stowaway. After all, the position is different. Only you die and you live! "

"The world is twisted, and the wind and clouds flow!"

The cold voice sounded again.

Medusa's bare hands moved the world.

In an instant, the sun and the moon dimmed. Streams of light flew from outside the sky, Fang Yue's figure was shrouded in it, and the whole person seemed to be trapped in a cage unable to move.

The world around Fang Yue was distorted, and he was no longer standing in the arsenal.

Surrounded by a desolate next door, nine rounds of intense sun burning, making people extremely hot.

"Welcome to my world!"

Medusa's face showed a bright smile, and her partner Yue leaned slightly, like a lady of manners.

This is in her thoughts, not the real world, but even if all this is illusory, Fang Yue's soul has been trapped in it. As long as the soul dies, the outer body will quickly decay and eventually return to the dust.

"One thought, one world, is this the legendary Nianxiu? It is indeed a well-deserved reputation. If it is replaced by another person, you may really be taken down by you."

Fang Yue observed his surroundings, commenting on his head and his feet. In this strange world, he was more a traveler than a foreigner imprisoned here.

"Don't keep struggling. When you come to my world, I will make all the rules. Not to mention that even if you become a powerful person in the cycle, it is difficult to get out of it."

Medusa is full of confidence.

This is her real killer, the previous method is a bit behind.

Medusa's talent is already well known, and the means of exposing to the sun is no longer enough to be a hole card.

Only this kind of dormant and unprepared magical powers can be regarded as her reliance.

"Didn't you find it? I brought something in my body."

Fang Yue's smile remained unchanged, and he picked up the white jade small tripod in his hand.

"Dingding Qiankun!"

Fang Yue smashed the small tripod in his hand to the ground.

The earth cracked, and cracks spread in all directions.

"What is this? Is it a legendary soul weapon?"

A flash of astonishment flashed in Medusa's eyes, and she had already clearly felt that the white jade Xiaoding could not only exist in her mind world, but could also cause obvious damage to her mind world.

"This world is a bit monotonous, except that the nine days are suspended in the sky, I think we still need to use stars to exist!"

Fang Yue's finger pointed towards the sky, and bright stars appeared one by one. These stars were as dazzling as diamonds. Even in the daytime, they could still shine brightly.

"It's impossible. This is the world forged by my mind. How can you make your fingers and feet in this world."

A trace of fear finally rose in Medusa's heart, which was the fear of the unknown.

Such a scene has never appeared since she became Nianxiu.

"Because I am the other extreme of spiritual practice! Everyone calls it spiritual materialization."

Fang Yue's smile became brighter.

Medusa widened her eyes and exclaimed, "No, this is impossible!"

Medusa is not unheard of spiritual materialization, but they are all ancient legends, and they simply cannot exist in reality.

"Even if you are the darling of the Forbidden Land, it is impossible to master such a method. There will not be such a heavenly inheritance, because this will affect the normal operation of the universe!"

"Impossible? My method of spiritual materialization is not penetrated in this forbidden place, but I have mastered this method before I came here! However, your mindfulness does not seem to be so profound. In this world of thoughts, there seems to be some illusionary elements in it."

In Fang Yue's hand, a long bow turned out, which was exactly the same as the deity of Hou Yi bow in the legend.

Houyi bow is the long bow used by descendants to shoot the sun.

This myth and legend have been circulated among the ten thousand realms.

Fang Yue pulled the bowstring like a full moon.

A silver arrow was born naturally on the bowstring, and the power of the surrounding heaven and earth converged toward the bowstring.

In the end, Fang Yue opened his fingers lightly.

With a swish, the sun crashed down.

"Pump!"

Medusa spouted black blood, and her face turned pale.

"Fang Yue, are you going to kill me?"

"Since it is hostile, it must be your life and death, but you told me this before!"

A ruthless look appeared in Fang Yue's eyes, he was already at this point, there was nothing to discuss!

"These nine great days should be the patterns you meditated on! Your meditation method is not perfect, you can only use meditation to create the world. The real meditation should be one world!"

Fang Yue pulled the bowstring again and shot towards another round of big sun.

With a bang, the sun fell.

It smashed the ground and formed an extremely deep pit.

Medusa's face became paler, and even her own breath became weaker.

"No, don't do this!"

There was a hint of despair in Medusa's cry.

If all the nine rounds of great sun fall, it means that she will be dispelled from the world, completely removed from the world, and even have no chance of reincarnation!

"But, you are my enemy, if I don't kill you, I don't have a second choice!"

Fang Yue moved the bowstring again.

Medusa is already begging for mercy.

"Please, don't be like this! I, I am willing to dedicate my soul and become your eternal servant!"

Medusa's voice softened.

The corner of Fang Yue's mouth was a slight smile.

What Fang Yue wanted was exactly this kind of effect, Nian Xiu, even though he hadn't reached the realm of his cultivation, his future potential was limitless.

It would be a shame if such a person were killed easily.

If it can be accepted as one of his own hands, then it is naturally a better thing!

"Let go of your soul and let me imprint an eternal imprint on you! From then on you will be my servant, and I will be your only master!"

Fang Yue's voice is a bit evil.

Chapter 1092: Acknowledge

But Medusa couldn't resist, a hesitation flashed across her face.

With a bang, Fang Yue burst out with another arrow, directly shooting down the red sun on the horizon, shattering every inch and turning into flames of dust falling from the horizon.

"No, Fang Yue, I choose to surrender, please, please, don't do anything to my red sun again!"

This red sun is the source of her spirit. If Fang Yue shoots all the red sun down, then her whole person will basically be destroyed.

Medusa finally opened her soul and was imprinted eternally by Fang Yue.

Although not reconciled, Medusa eventually became Fang Yue's servant.

When she opened her eyes again, the scene had switched to the arsenal.

Medusa's gaze towards Fang Yue became extremely admired and subdued.

The brand that Fang Yue chose was the strongest and most powerful slave brand. This brand not only allowed Medusa's life and death to be completely in his hands, but could even reverse Medusa's thinking and make her admire herself extremely. Very obedient, willing to join you for her birth, ASDFGERTYUIOP[]\ die.

"Medusa, see Sir Yinyue!"

Medusa knelt on one knee, her pale little face, arousing affection.

"This is five drops of Third Transformation Soul Essence, you refine them all, and the previously lost mental power will be fully made up for. If I guess it is correct, it can also push your spirit to a higher level."

To Fang Yue, Medusa, whose soul power was greatly damaged, was a tasteless one.

Only by repairing her soul intact can she be a qualified servant.

Fang Yue is dangerous in this forbidden place, he doesn't want to take a tow bottle to shuttle through the flames of war.

Yinyue's eyes were full of light, and it was obvious that she had longed for this soul fluid for a long time, or in other words, for every spiritual practitioner, this soul fluid was a treasure that was difficult to evaluate by value.

Even if there is only one drop, they will die to fight for it.

"Thank you for your reward."

After Medusa thanked her, she sat in a corner of the arsenal for refining.

This forbidden place is equally dangerous for her. Only by returning to the peak level and mastering all of her strength can she be a little relieved and have a full sense of security.

When Fang Yue saw this, he couldn't help but nodded slightly, and then he shifted his gaze to Liu Kuan who was nearby.

"Liu Kuan, what did you see just now?"

Fang Yue's attitude was gentle, but Liu Kuan's heart was trembling. Although he was also at the level of the heaven and earth realm, his cultivation was piled up forcibly by family resources. And in the Federation, there is only martial arts, but there is no such fancy means when Fang Yue and Medusa are at war.

"I, I didn't see anything!"

Liu Kuan was trembling, he felt that he was about to be scared to pee by Fang Yue.

Here, what kind of people have come here?

Like gods and demons, is it possible that they are evil creatures incarnate into human forms, spies who sneak into our Federal Army?

Liu Kuan couldn't help but think about it.

And Fang Yue still looked at him with a smile.

"Why don't you see anything? If you see it, you see it. Just don't say anything in the future!"

Fang Yue's attitude was unexpectedly gentle.

Fang Yue also took out a longan-sized pill, smashed and refined it, and instilled it directly into Liu Kuan's body.

Liu Kuan only felt that his spirit was shocked, and there was a slight bottleneck loosening in the cultivation base that he could not make any further progress in his life.

In an instant, his breath went through the clouds.

The second layer of heaven and earth.

Liu Kuan became more excited and excited.

"You are my deputy in this army. Being my person naturally has the advantage of following me!"

Although Fang Yue's words were not loud, they were filled with this domineering taste.

Liu Kuan bowed his head and proclaimed his minister, and Fang Yue expressed his loyalty.

In Liu Kuan's impression, although there are many masters in this army, there are very few people who can break the bottleneck of his cultivation base with a pill. At the very least, officers below the regiment level of the army can never do this.

"Tell me, tell me what you know about the battalion commander."

Fang Yue found a stool and sat down.

Since he wants to take advantage of the federation, he naturally needs to know himself and the enemy.

"Is it the Lord Zhang? Is it the Lord? Is the Lord the master of the first level of the rotation realm. He is a master of swordsmanship and traverses the mountains and rivers. Could it be that the adults have always been self-assertive, he despises people, and he always has a lot of criticism about the adults' airborne. If it were not for the **** creatures and another force to suppress him, he would have already taken the adults down. "

Liu Kuan paused for a while, seeing Fang Yue's face as usual, and there was no sense of emotion or anger.

He had the courage to continue and said: "If an adult becomes a deputy battalion commander, you must be careful about whether it is an adult. If you are caught with a pigtail, the military of this federation, it is difficult for the adults to have a foothold!"

Fang Yue nodded, indicating that he understood.

"Then there are things that need attention in this arsenal, but it doesn't matter."

Liu Kuan pondered for a moment before he said, "Actually, this arsenal is divided into two levels, the inside and the outside. This secret is generally only outside the battalion commander. This outer level is for everyone in the army to visit and choose weapons. The inner layer is a hidden, smaller arsenal, in which there are some taboo weapons, which are generally not used."

"What forbidden weapon?"

Fang Yue originally just asked casually, who could have imagined that there was really some tricky hidden in it.

"For example, anti-matter annihilation devices, such as energy impulse devices, these things are all devastating weapons, even the strong at the Yin-Yang level dare not touch them at will. Some people say that because anti-matter devices can threaten the entire environment Marshal-level powerhouses were banned and listed as taboo weapons. Therefore, these things are strictly blocked and cannot be used normally."

"Since it was put in the arsenal, there must be a way to take it out. You should have a way to take out these forbidden weapons!"

Fang Yue is extremely interested in these taboo weapons. These things are the real wealth of this world, high-tech weapons that can threaten the leader-level powerhouse!

Carrying it with you is definitely a killer.

No wonder, this federation has been able to fight against evil creatures for so long and it hasn't been destroyed.

It turned out to be ready to go.

"It is said that these things can only be taken out when the camp reaches the critical moment of life and death. I know the location of this inner library, but the way it is opened, I am afraid that only the previous battalion commanders will understand!"

"Tell me where you are, and I will help you break through a small realm!"

...

The first day of Fang Yue's appointment was spent in the arsenal. It was not because Fang Yue liked to study these high-tech weapons, but because it was the adults who did not pay attention to him at all, as if completely ignored his existence.

And Fang Yue happened to be happy and leisurely.

He is constantly familiar with the situation of this arsenal and the use of various weapons.

In fact, Fang Yue understands what this means, which in itself is a kind of prejudice.

Let Fang Yue sit on the cold bench, then go to him, and finally let Fang Yue fall into his rhythm and fall into his applause.

If it were replaced by another deputy battalion commander who was a little bit more daunting, he would probably leave.

Who is Fang Yue?

How can I give in.

The spirit of the nail house is not for nothing.

He is born with a sense of strength, the more others want to manipulate him, the less he does not follow other people's rules.

One day, two days, three days, time passed by.

Could it not find Fang Yue, and Fang Yue did not find it.

The two seem to be two parallel lines that never intersect, and there is no intersection at all.

On the fourth day.

In the early morning, the sky was not yet clear, and Fang Yue was awakened by a blast of sound.

"Hurry up and open the door!"

"Who, it's so early to prevent people from getting a good night's sleep!"

Fang Yue rubbed his eyes, yawned, stretched his waist, and got up slowly.

No matter how anxious the people outside him, he just follows his own pace, not hurriedly or slowly.

The door of this arsenal dangled more and more vigorously.

"Open the door quickly, it delayed the battalion commander's business, it is for you to ask!"

The people outside are very angry, and the words are threatening.

Fang Yue's face was dark, which was threatening.

After a while, Liu Kuan had already opened the door before Fang Yue could reach the door of the arms depot.

With a bang, a soldier general kicked open the door of the armory.

Wuyangyang, there were seven or eight people behind him.

"Move things!"

The man indiscriminately entered the house as if he were a bandit and prepared to search.

Fang Yue's face was sullen, and he understood that this must be because the person who came was unkind and treated him.

"who are you?"

"Hey, is this the new deputy battalion commander? In charge of armaments? Such a young person is still a little white face, I think it is the top seller!"

The ruffian opened his mouth and it smelled like a stream of breath.

Without saying a word, Fang Yue took out a pistol and directly put it on the soldier's forehead.

"You can say this again, I don't mind wiping out the gun and piercing your head!"

There was a trace of murderous in Fang Yue's voice.

He is here to complete the task, not to be angry.

He hadn't heard such insulting words for a long time.

The soldier was not afraid of Fang Yue, instead he laughed and said: "Scare who? You can shoot! If you are a bully, put the gun down, and a little white face dares to climb on the head of the master, you...ah! Your mother dare to shoot!"

Fang Yue's muzzle moved down, and not a single shot broke the rogue.

But his bullet hit the guy's left arm.

A dark bullet hole appeared instantly, and gurgling blood flowed out along the bullet hole.

"Counsel? Huh!"

Fang Yue blew off the white smoke from the muzzle and smiled contemptuously.

The soldier frowned slightly, clutching the wound on his left arm with his right hand, and cursing.

"You are so stunned, you dare to shoot me! Do you know that you are seeking your own death, and there will be no place for you in this camp from now on!"

Time!

Fang Yue didn't know when he took out a dagger and dropped a piece of white flesh from the right arm of the soldier.

"What did you just say? I didn't catch it! Could you please say it again!"

Fang Yue's movements are elegant, as if moving clouds and flowing water.

Chapter 1093: Yangmou

The soldier was injured twice before he finished speaking.

The severe pain in the wound made him gritted his teeth.

The big beads of sweat flowed down his cheeks, and they became white lines.

This Fang Yue's courage was amazing, and he looked like a cruel generation.

When the soldier looked at Fang Yue, he couldn't help but feel a bit of panic in his eyes.

Originally thought that Fang Yue's appearance was rather weak, so he was soft and kind to be deceived, but he didn't expect that the new deputy battalion commander's methods were a bit more vicious than him.

If Fang Yue didn't kill people, he just couldn't help him.

Because in the federal army, there are federal rules.

No matter how high your official position is, if you kill your soldiers for no reason and kill them, you will be subject to severe investigation by the Military Discipline Department.

However, it would be hard to say if only a slight punishment was imposed.

Fang Yue is the deputy commander of the battalion, and he is a person who has made great contributions. He provoked first, even if Fang Yue injured him badly, he would not die, even if it was reported to the Military Discipline Department, the military Discipline Department did not. How can Fang Yue really be?

"Unexpectedly, it's still a hard stubble!"

A soft smile appeared on the face of the soldier.

"However, Fang Yue, I am the battalion commander May Fei's person. I was ordered to take the arms prepared for the war in the arsenal. What do you mean by desperately blocking here? Is it possible that you want to resist allergy?"

The soldier snapped off his big hat.

His ultimate move is one move after another.

"Could it be that the battalion commander asked you to come? What about the manuscript? What about the military order? I only recognize the military order, not the people!"

Fang Yue is not a newbie in the barracks, he knows the twists and turns here, if the soldier speaks, he will believe it, that is the real fool.

Even if it was really the soldier who came here, without a manual, would it be possible to take away the arms and turn his face and deny the person, and give Fang Yue a charge of malfeasance, Fang Yue can't bear it.

This is an obvious conspiracy.

"Handbook? What kind of handbook? Could it be that the battalion commander's words are handbooks? If the military plane is delayed, you are asking!"

The soldier became serious suddenly.

Fang Yue squinted his eyes and said, "Just get out of here if you don't have a manual! Don't think that the little master doesn't understand anything. You are obviously pretending to be the messenger of the adults and deceived the arms. Although I am not a member of the Military Discipline Department, if you If I really want to grab it hard, I also have the right to hold you accountable or even beheaded to protect the arms!"

Fang Yue's tone became worse.

This guy has to make an inch!

At this time, the outside world was full of artillery fire, and the sky filled half of the sky.

In Fang Yue's heart, there was a squeak, special, there really was a fight outside.

A triumphant smile appeared on the soldier's face. This was his last killer move.

Really sing fake dramas!

It is true that he is the messenger.

The order to dispatch arms is also true.

The camp was attacked by small-scale evil creatures.

Once there is a problem, could it be possible to shift the responsibility to Fang Yue. In special times, special affairs are handled specially, and Fang Yue is stubborn and conservative, and does not know how to work around, resulting in heavy casualties in the camp and no longer suitable for the position of deputy battalion commander... ..

Even then, they had already thought about Fang Yue's complaint.

Could it be that the method is very spicy, once it is shot, there must be no room for it!

Fang Yue's heart was like a bright mirror, and he could naturally see clearly whether it was a trick after another.

But sometimes, it is still very difficult for ghosts to see clearly and really want to deal with it.

"Hahaha! Fang Yue, even if you have made military exploits, how about relying on celestial creatures to mix into the army to become a deputy battalion commander? In the end, are we not calculating and becoming cannon fodder?"

Seeing Fang Yue's ugly look, the soldier became more proud.

And Fang Yue sighed softly: "Actually, I am a good person, I didn't want to kill anyone!"

Fang Yue's voice fell, and a fluttering coolness fell on the soldier.

"what!"

The soldier felt his body sting, and a piece of white flesh on his body was brutally cut off by Fang Yue.

"Fang Yue, what are you going to do? I'm a federal soldier, you can't do this to me!"

Obviously the overall situation has been decided, and he no longer needs to make any sacrifices.

But the strong murderous intent on Fang Yue's body made the soldier feel afraid to move easily.

"You, I didn't kill it. This evil creature is too cruel. It can't attack the arsenal. It actually scrapes the soldiers alive in order to vent the anger in their hearts."

Fang Yue's voice was full of sadness and solemnity.

The soldier immediately understood that Fang Yue was really murderous, and he had no intention of letting him return safely.

"kill!"

The ruffian was stripped of white flesh from his body, and his body was actually sealed forcibly, unable to move any minute.

"No, Fang Yue, you can't do this! I am a Federation sergeant. If you kill me, you will be accountable by the Military Discipline Department!"

The soldier roared loudly.

However, Fang Yue turned a deaf ear.

Kill the chicken and scare the monkey.

Fang Yue felt that he was still too benevolent and not enough to stand up in the army, otherwise, could it be that he would not send any cats and dogs to block him.

"Did you know? When I was a small soldier, our platoon leader couldn't help me. I killed him with a single knife, and then designed to kill all evil creatures. Not only did the military not pursue me, but Give me a great military exploit!"

Fang Yue's speech was not fast, and he was telling the story of his life.

However, Fang Yueyue said, this soldier's heart became more and more fearful.

When he was a soldier, he dared to kill his own chief.

This Fang Yue is simply turning the head!

This is a little sheep who is bullied by others, it is simply a live bandit who kills people like hemp.

"You can go with peace of mind, may it be your lord will go to **** to accompany you soon. His thoughts, I naturally know that he wants to give me a stubborn, conservative guilt. But if he died on duty, he would die. In the horde of evil creatures, it is estimated that there will be no chance to question me!"

Fang Yue narrowed his eyes and cut them down together.

The soldier's head fell to the ground, his eyes were angrily open, and he couldn't squint.

Fang Yue didn't have time to torture this soldier. Everything before that was just the anger in his heart.

"My lord, what about these people?"

The soldier also brought seven soldiers. They were almost peeing their pants when they saw the murder of the soldier!

"Let it go! I finally kill someone, they don't give me propaganda, how can I stand in the army!"

Fang Yue's voice was a bit feminine.

"Let it go?" Liu Kuan was a little surprised. This kind of murder should be the best way to kill people without knowing it. It seems that Fang Yue's actions just now are definitely not a stupid and kind person.

But Fang Yue let go of these witnesses, it was tantamount to leaving eloquence and a handle for him!

"They are willing to talk and just say, I have military merits, this military high-level will not treat me like that!"

Fang Yue's eyes were clear, and he understood the federal military's rules.

On the one hand, it respects the inherent class power. Those disciples who are powerful, powerful and wealthy can naturally become high-ranking officials in control of military power.

But if they are marching to fight, they still need someone with extraordinary military talents from the bottom up.

So there is another aspect.

Those who can really fight and know how to fight will not easily miss it.

As for the fight between the two sides, whoever will win the battle will depend on the eight immortals crossing the sea to show their magical powers! In short, this world is where the winner is king.

Only those who survive are qualified to speak.

If it was dead, then no matter how these seven people complained, they would not affect Fang Yue at all.

And if he won, Fang Yue would definitely choose to return to his world immediately.

The Military Discipline Department wants to be held accountable and can it find others?

Fang Yue had already figured out a way out for himself. He hadn't fought, so he would lose first.

Be careful to make Wannian ship.

"Liu Kuan, help me post a request for help, saying that the arsenal is being targeted by evil creatures and is in danger of falling at any time! I hope that the battalion commander will come to support me soon!"

Fang Yue sat on a reclining chair, took out a grape on his own, and put it in his mouth comfortably!

"My lord, where's the evil creature here!"

Liu Kuan glanced around the arsenal, let alone evil creatures, not even a rabbit eating grass.

Fang Yue stared: "Whether you are the chief or I am the chief, I will let you post and ask for help. Just do as I say!"

After Fang Yue finished speaking, his eyes fell involuntarily to the sky outside the arsenal.

Outside, it was indeed a clear sky, without even the figure of Dodo.

However, the truly magnificent waves are hidden under this calm sky.

Liu Kuan finally nodded, and released information on asking for help.

"This Lin Ping is dead, and Fang Yue sent me a signal for help again. What is going on?"

Could the battalion commander draw the copybooks of the ancients in his study?

The attack from the evil creature outside was not a climate for him.

This kind of offense occurs every day, but today it is a little bit stronger.

"I'm afraid this is Fang Yue's trick to lure the enemy. He wants to induce the adult to his hole card, then kill the adult, or threaten the adult."

A deputy battalion commander with a goatee is like an ancient dog-headed military division.

There was still a faint murderous intent in his eyes.

Originally, the position of the deputy battalion commander in charge of logistics was his.

However, a Cheng Yaojin was killed halfway, and Fang Yue who had landed in the air actually took away his fat difference.

For this reason, he already had a grudge!

Half of this plan to make things difficult for Fang Yue was planned by him.

"However, this Fang Yue has already revealed his next game! If you don't seize this opportunity to kill him, it will make me feel a pity! There is clearly nothing in this arsenal! But he actually sent me a distress signal, false Sending orders, this is also a big taboo!"

Chapter 1094: Yan King

With a click, could it be that he shattered the brush in his hand.

The relationship between him and the celestial creature was very unharmonious, and the celestial creature blatantly planted his cronies beside him or placed it in a logistics position. This made his heart suffocated.

If Fang Yue does not die this time, his reputation in the army will be greatly affected.

"Come here! Call my guards and mobilize two platoons of troops to protect the arsenal with me! I want to see what is Fang Yue doing! Want to kill me and capture the king? It's not that easy !"

Could it be that he put on a black cloak, flicked, and walked out of the study.

The goatee is following closely.

Another aspect.

Yan Wang Alpha is having a long talk with Pasteur.

"Come, sit down and have some hot water!"

Seeing Pasteur coming from far away, his face still blushed with excitement.

"No, no, King Yan, I am here to thank you specially! You have done a great favor to us. Although we have not thoroughly studied the three technologies contributed by Fang Yue, we have already given many of them. We have a lot of inspiration."

Pasteur stood in front of King Yan, "This Fang Yue's alien technology is analogous, allowing many dead knots in the research of the gods to be opened one by one. What about Fang Yue? I want to place him again, if I can More new technologies will be even better! This is the means that will change the entire federation in the future. Destiny is destined, and my **** creature will become the hero of the federation!"

"Fang Yue? Haha, I'm afraid you won't see that kid yet! He has been arranged by me to be May Fei's deputy!"

Alpha smiled and handed the hot tea on the table to Pasteur.

Pasteur did not take the tea, but looked at Alpha with a serious face.

"Alpha, this kind of thing is no joke, who is it that you are talking about? My **** creature's old adversary, that kid from the Mo family?"

"Bingo, the answer is correct, but there is no reward! I think this Fang Yue is a piece of material, so I want to test him, if he can survive under the hands of Mayi, he will definitely have a bright future in the future! If he dies, then It proves that his luck is still not enough!"

Alpha took out a cup of tea and took a sip.

A leisurely appearance made Pasteur wish to strangle him.

"Alpha, you are crazy, the value of Fang Yue is not here. If he is really killed by him! Then the source of our new technology will be cut off, we finally see a glimmer of light, you will let us fall into Chaos and darkness?"

Pasteur complained about Alpha.

He knew that the two systems were different, and he could not ask Fang Yue to do anything.

"Now, call Fang Yue that boy, I will squeeze all the value from him!"

"I'm afraid it's too late! Could that kid have already done something to each other Yue!"

Alpha is still a leisurely appearance.

The military department has its consideration.

One aspect of technology, but senior generals like Alpha think that these things are auxiliary things, and only an iron army can truly expel evil creatures from the territory of the Federation.

Pasteur was pale and weak. He slumped in a chair, making breathing much more difficult.

"Alpha, you will become a sinner forever..."

Fang Yue didn't know what was happening outside, he was still half-lying on the recliner where he was still an old god, staring slightly at his own eyes.

Outside the arsenal, a group of little demon Wuyang Wuyang was busy doing various pre-war preparations, and the various weapons in the arsenal had long been emptied by Fang Yue.

Fang Yue summoned hundreds of little demons at once, and equipped the little demons with corresponding weapons. The little demons are extremely capable of learning and soon mastered the use of various thermal weapons.

In a moment, a large shadow in the sky fell, and evil creatures arrived as expected.

With a wink, Fang Yue sent many little demons into a different dimension.

In an instant, the huge arsenal became empty.

Only Fang Yue was left, Medusa's figure had disappeared, and Liu Kuan also found a horn and hid it.

Fang Yue now looked like a polished commander, he directly rushed out of the arsenal to face many evil creatures alone.

"Why this kid again."

"There will be no ambush at his feet!"

Many evil creatures suddenly stopped, they looked at each other, and they were shocked by Fang Yue alone. This person is afraid of being famous and afraid of being strong.

Fang Yue's notoriety had already spread among the evil creatures. He almost destroyed more than 5,000 evil-minded creatures alone, and this deed has been heard by many evil-minded creatures.

Just when many evil creatures had not taken action, could it be that they had already led the army to arrive.

"There really are evil-minded creatures..." Could it be that the hordes of evil-minded creatures could not help but feel bored.

If he had known that evil thought creatures had appeared, he would come slowly, and when the evil thought creatures killed Fang Yue, he would come to avenge Fang Yue again.

However, everything is without if.

At the moment it came, he became a thorn in the eyes of many evil creatures.

Fang Yue didn't want to provoke them. But could it be that they are not in the ranks they fear.

The moment he appeared, the soldiers in the two platoons behind him were all loaded with guns and fired frantically at the evil creatures.

Whether to deal with Fang Yue is put aside, these evil creatures must die.

Otherwise, they are the ones who die.

This is the hatred between different ethnic groups, with no solution at all.

Fang Yue was stunned. Originally, he thought that these evil creatures would hate him full, and then launched a crazy fight against him.

But I didn't expect that the evil creatures were all stunned the moment they saw him, and then all focused their firepower on Mo Fei's body.

Could it be that he is a good person!

Fang Yue had calculated today's show a long time ago, but this drama, unexpectedly went on a hundred times more smoothly than imagined.

"kill!"

Could it be that his eyes were red, do these evil creatures think he is a soft persimmon?

Don't kill Fang Yue actually do it yourself!

Could it be that he was a master himself, one of his palms slapped out, and the gust of wind roared, vaguely the shadow of the mountains appeared.

This palm is strong, vigorous, composed, and strong.

With one palm launch, it seems that thousands of worlds are backing away.

All the evil creatures greeted with the palm of Mo Fei's hand were all broken into pieces.

As if it were made of clay, it was simply vulnerable.

"Could it be the battalion commander, old iron 666!"

Fang Yue cheered for Mayfield beside him. He didn't know where he got a small flag and fluttered in the wind.

Could it be that he almost vomited blood when he saw this scene.

Who is this **** person!

We are fighting hard here, don't you know how to come up and help?

Could it be that he was about to scold Fang Yue.

A three-eyed ape at the rotation level suddenly jumped out. This three-eyed ape is a typical evil creature evolution.

It has a very high level of blood, and its power is infinite, and its three eyes contain different Taoist moods.

One eye is born, one eye is dead, one eye is reincarnation.

This is somewhat similar to the artistic conception of Fang Yue's "The True Scripture of Life" and "The True Scripture of Death".

However, this method is like the reincarnation zhenqi refined by Fang Yue, which is more than one level behind.

Fang Yue's reincarnation real energy has incorporated the essence of the "Soul Truth". There is only life and death, but no soul. Such reincarnation has no value and meaning.

Moreover, Fang Yue also incorporated his own understanding of reincarnation in the true energy of reincarnation!

Fang Yue's finger gently tapped.

In the void, the ripples involuntarily spread out.

He was summoning a trace of reincarnation in his own deity, and then compared with the three-eyed apes.

Three people, there must be my teacher.

Even though the power of reincarnation of this three-eyed monkey is not as good as Fang Yue's deity, there are still similarities and differences between the two, which can be used to learn from each other.

But he didn't expect that Fang Yue's reincarnation vitality had just appeared, and the three-eyed ape immediately screamed and backed away.

It seemed to have encountered something terrible and couldn't face it, so it had to choose to escape.

"Um, don't be nervous, I don't mean anything else, you two continue to fight, I just watch, I won't join in!"

Fang Yue was a little embarrassed, who would have thought that this would happen.

"Fang Yue, you bastard! What are you talking about? You can say it again if you have the ability?"

Although it was a hostile relationship with Fang Yue, he did not expect that the enemy would do things so decisively.

"As a camp, I order you to actively fight and help me block this three-eyed ape."

Could it be that Fang Yue should have a special way to restrain this three-eyed ape.

"the host!"

Before Fang Yue had time to do it, the three-eyed ape was a divine transmission that fell into Fang Yue's mind.

Fang Yue froze, master?

This is obviously not Medusa's voice.

"Master, I am a three-eyed ape! As long as someone who has the power of true reincarnation is the real master of our three-eyed ape!"

The three-eyed monkey Fang Yue called again.

Fang Yue's heart was pleasantly surprised. He didn't expect that he would be able to hook up a three-eyed ape with that ray of reincarnation vitality.

This three-eyed ape is obviously not weak, at least it has reached the fourth level of the rotation realm, and in terms of combat power, it can compete against the ordinary seventh level masters of the rotation realm!

With such a three-eyed ape escorting him, Fang Yue immediately felt that his safety factor in this federation had increased a lot.

"Can you kill me!"

Fang Yue was also polite and gave the order directly.

Originally, he planned to use the knife to kill, but now he has directly become a murderer!

There was a fierce air on Fang Yue's face.

The three-eyed ape grinned, his legs jumped up, and he immediately culled to May Fei.

Could it be that his heart panicked.

How did this three-eyed ape become more vicious than before!

"Fang Yue, come and save me!"

"How is this going?"

Alpha was dragged desperately by Pasteur and took a small spaceship above the clouds.

Originally under the coercion and lure of Pasteur, he was about to make a move to plead for Fang Yue. Alpha saw the scene in front of him and was immediately stunned.

Isn't that right, Fang Yue was left out in the camp, and now he doesn't even have a cronie?

Chapter 1095: Three-eyed monkey

But, what scene is this in front of you?

Fang Yue moved a small bench, ate snacks, and chirped his mouth. He looked like a crowd eating melons, watching a three-eyed ape attack him.

This three-eyed ape's shot was quite spicy. Its tricks were deadly and there was no room for escape.

Could it be that he could only resist, but his cultivation level was far inferior to that of Demon Ape. He had already used up three life-saving hole cards, but he still hadn't escaped from the crisis.

This three-eyed ape seemed to have a deep hatred like this, staring at him, leaving him bruised and bruised.

Except for it, the two platoons of soldiers under him are being surrounded by evil creatures, and they struggled to resist. Although the number of evil creatures that appeared this time is not very large, each of them is elite, and the cultivation level is the weakest. They are all above the fifth layer of the heaven and earth realm.

However, the evil creature present at the scene seemed to ignore Yue, and did not bother him with one end. Sometimes evil creatures accidentally approached. Will deliberately avoid it, as if avoiding a plague god.

"Fang Yue, what's going on? Why is this being besieged by evil creatures, but you are safe and sound?"

Alpha couldn't help Yue Chuanyin, and he was surprised at the scene in front of him.

Alpha and the evil creature have been fighting for more than a year or two, but this is the first time he has seen such a scene.

"Master Alpha, you are here!"

Fang Yue felt Alpha's breath and sound transmission, and his spirit involuntarily let go.

Divine Sense penetrated the clouds and touched the breath of Alpha.

He couldn't help but look back into the distance, as if he had already seen Alpha hidden by the clouds.

"I don't know what's going on. Before, the barracks were faintly attacked by evil creatures. Based on the previous experience of being besieged by the beast tide, I vaguely feel that the drunkenness of evil creatures this time is not about drinking. Their real purpose is very It might be an arsenal. So I took precautions and notified Master May to be careful. After a while, the evil creatures appeared. They just came with their front feet, and then the evil creatures started a terrifying battle with Master May!"

Fang Yue's explanation was quite detailed.

However, Al Fan was not satisfied with Fang Yue's answer.

He can roughly guess the cause and effect before and after. But why, these evil-minded creatures specifically targeted him, and Yue turned a blind eye.

Such a scene is simply too weird!

Fang Yue also seemed to feel Alpha's doubts.

Fang Yue immediately understood that he appeared too leisurely in this battlefield, which would easily arouse others' suspicion.

"The three-eyed apes attack me! Or you can find someone to fight with me! You are all fighting like a raging fire, and I haven't been affected by anything. This is a bit abnormal!"

Fang Yue spoke to the three-eyed monkey.

The three-eyed ape immediately understood it, and he still had to deal with it intensively.

So the three-eyed monkey directly sought out Fang Yue, a gusty wolf at the seventh level of the heaven and earth realm.

The Wolf of Gale received the death order from the three-eyed monkey, but it was just a feint, and could not really cause Fang Yue to be injured.

The class of this evil creature is steep, and this three-eyed ape is the presidential leader of this attack on the camp.

He will do what he says, and the hurricane wolf's orders to it are carried out thoroughly.

The Wolf of Wind stretched out its sharp claws and scratched towards Fang Yue.

Fang Yue flashed sideways, then kicked out lightly, hitting the lower abdomen of Wind Wolf.

The wolf of the wind whirred and flew out.

Then the Wolf of the Wind rolled up from the ground and looked at Fang Yue with blood red eyes, and roared at him continuously.

Alpha and Pasteur are simply speechless, this drama is too fake!

However, after all, this Fang Yue is still theirs, and could it be that he is a hostile force.

It is also a good thing to let Mo Fei suffer a little bit of trouble. At least it can warn the people of the Mo family not to be too much, even their **** creatures dare to bully at will.

"Fang Yue, I know that there seems to be a constant relationship between you and this evil creature. We don't go into it deeply, and we are willing to keep a secret space for you, but if this is done too much, we can't die. Here. Otherwise, the people of the Mo family will investigate, it would be quite difficult for us to be caught in the middle!"

Alpha spoke to Fang Yue again, and he was begging for mercy.

Between the Mo family and the deity creature, although it is everyone who is not pleasing to the eye.

But the real fight is the result of losing both sides.

Could it be that it can reach the level of rotation with the support of Mo family resources.

Even if he was just a stupid straw bag, he couldn't die in front of the arsenal.

"understood!"

From the moment he discovered Pasteur and Alpha, Fang Yue understood that he could no longer do anything with him this time. At least it could not die here.

The two sides have not yet turned their faces!

If he died here, it would definitely cause a battle between the two powers.

Now that the enemy of evil creatures is present, it is natural to compromise with each other, and the overall situation must be the most important.

Fang Yue secretly gave an order for the three-eyed ape to retreat, and promised to send some arms to the three-eyed ape as compensation.

The three-eyed apes slapped the earth with a slap unwillingly, and then reluctantly took his men and horses to evacuate.

Seeing the figure of the evil creature leaving the dust, Alpha was speechless for a while.

He fell into a deep groan, and it took a long while to speak again.

"Pasteur, this Fang Yue is really interesting! The secret in him is deeper than I thought!"

A faint light flashed in Alpha's eyes.

Since evil minds appeared a year ago, it has been difficult to communicate and negotiate with humans.

In history, it is not that there has been no psychic who can talk to evil creatures. But the influence of those psychics is quite effective, and it is difficult to influence the various thoughts of this evil creature.

And Fang Yue seems to be different, he even has a certain influence on these evil creatures.

I just let him let him go, and spare his life, these evil creatures receded like a tide.

Interesting, really interesting.

"Oh, it hurts!"

Fang Yue rolled all over, as if his whole person had been seriously injured.

Could it be that he got up from the ground with a blue nose and a swollen face, his eyes were filled with the look of a vulture.

In this beast tide, he lost a lot. He lost five full cards just to save his life.

One hole card, one life!

Five hole cards, could it be that I feel slightly distressed thinking about it.

Looking back, the two platoons had lost nearly one-third of their troops. Although some evil creatures were left behind, they were not enough to offset his loss.

Almost all of the soldiers in these two platoons were his cronies and his trump cards, and many of them were dead soldiers trained by the Mo family.

If they die one less, and if they want to cultivate again, he will not be able to take the time and energy spent.

On the other hand, Fang Yue, who was rolling on the ground, was unscathed, and he could even see that his complexion was ruddy and white.

"Fang Yue!"

Could it be that he gritted his teeth and hated Fang Yue to his bones.

If it weren't for Fang Yue, he wouldn't have brought his direct line into this almost mortal situation.

"Come here! This Fang Yue colluded with the evil creature, betrayed the human race and brought it to me!"

Could it be that a feces basin was buttoned on Fang Yue's head, this time there must be an explanation.

"You are slander!"

Fang Yue stared at him.

Could it be a sneer: "My site listens to me, what about slander? Come here! This Fang Yue not only colluded with evil creatures, but also defied the order and resisted law enforcement. I ordered this Fang Yue to be killed on the spot, just to emulate him! "

Could it be that the orders were connected one after another.

His killing thoughts are sensational, and he will not give up unless Fang Yue is killed.

"It's really funny. This family has family laws and military rules. Could it be, do you really think that just a few words of yours can kill me?"

Before Fang Yue stared at Could it be, Liu Kuan had also said to himself that it might be that this person was self-serving and domineering, but Fang Yue hadn't really learned before.

This time, he understood what kind of person he was.

"Hahaha! Fang Yue, what do you guys know? This rule is also made by people. Behind me is the Mo family, who is one of the rulers. So, if you feel like a fire, it is the truth. My rule is that no one can disobey!"

Could his laughter be cold, his eyes staring at Fang Yue like a poisonous snake.

Fang Yue suddenly showed a relaxed smile, he raised his head and looked in the direction of the clouds on the horizon.

"It's not that I don't give you face, but that I don't want to stop here!"

Fang Yue's voice fell.

It seemed natural to talk to himself.

However, could his heart suddenly burst.

He suddenly realized that something was wrong.

In the clouds, a spaceship fell.

Two people got off the spaceship. An old man has extraordinary bearing, but his face is so vivid that he doesn't know him.

But the other person made May Fei's heart suddenly tighten.

Even the breathing became quick.

"Master leader!"

"Did you make these military regulations? Do you want to depose me as the commander too!"

Yan King Alpha was so angry, although he knew that it was because he had run rampantly in his already barracks, using it as his back garden.

But he didn't expect it to be unreasonable to such an extent!

Mo Jia is the rule maker.

Even if this is true, it cannot be said.

Some things are placed on the table. Although they are fake, they must be respected.

"I, I didn't mean that!"

Could it be that he wanted to argue, but every word of him was so pale and weak.

Facts speak louder than words. The scene just now has been recorded by the spacecraft. No matter how much he argues, it is useless.

"Leave it to the Military Judicial Department to judge this matter! Although Fang Yue has not been in the army for a long time, he is also a deputy battalion commander. Your official position is a bit higher than him, but you haven't dealt with one at will. The qualifications of the deputy battalion commander!"

Chapter 1096: Shi Canghai

Yan King Alpha's power is extremely strong.

He wanted to oppress, could he bow his head.

Could it be that he was about to speak, temporarily admitting counseling.

A majestic breath suddenly came down.

This breath occludes the sky and the earth, swallows the galaxy, and even the Lang Lang's day is transformed into a pure black ink color.

"Little friend, give me a face, this matter is indeed my Mo family's fault, but he is young and vigorous and ignorant, how about this?"

Between heaven and earth, a vague face appeared.

This is an exaggerated face.

He is not the real body manifestation, however, this is even more terrifying, obviously not the real body, but has the power to change the world.

"Are you... Lord Shi Canghai?"

Alpha said in disbelief.

Shi Canghai was one of the most famous saints in this federation. He did not enter the army, and he did not even belong to the federation.

However, his personal strength is already at the peak of the federation, and his face can't be ignored by anyone!

"Why? Just now, this is clearly meant to kill me, and as soon as you show up, I will give you a face to let it go. Maybe this is not fair to me. If I let the tiger go, could it continue to target Me, what should I do? Could it be that I was resisted and didn't fight back?"

Fang Yue struck his neck and said to Shi Canghai.

At this time, the realm of Canghai was indeed aloof, but Fang Yue was not afraid of him when someone was afraid of her.

Fang Yue's multiple clones have reached the level that can defeat the saints, and he also has an understanding of the power of that realm level.

"Fang Yue, how dare you defy Master Shi Canghai like this? It's a treachery! You must die!"

Could it be that he was stern, he saw Fang Yue's retort, not only did he not feel fear, but a deep sense of pride was born in his heart.

This Fang Yue simply didn't know what was good or bad, he dared to talk back to Master Shi Canghai, just looking for his own death.

Who is Shi Canghai?

There are only a few saints in this world, and he speaks the law freely, and what he says is the metaphor of the heaven and the earth.

When Fang Yueding hit Canghai, he was trying to find his own way. No one could save him.

"Huh? You want to make terms with me?"

Shi Canghai's gaze slowly moved to Fang Yue's body, and a ray of light flickered in his eyes.

He also felt quite surprised by Fang Yue's contradiction.

However, Shi Canghai did not have the idea of punishing Fang Yue.

"This Mo family once caused me to owe a small favor when I was young. I passed by here just now and saw that you want to punish me, so I want you to sell me to save this, but A cause and effect. The more advanced this practice is, the more attention is paid to cause and effect, but if you have any conditions, you can talk to me!"

What Shi Canghai looked at at the moment was not the face of Fang Yue, but the face of the creature behind him.

Shi Canghai, as a free and easy looser, was unwilling to let himself participate in the intrigue of these forces.

If it can be resolved peacefully, he is willing to draw the matter to a successful conclusion in a peaceful way.

Of course, if Fang Yue insists on killing him, he will try to stop it.

"Actually, my conditions are not complicated. I want to know whether there is a higher level of existence above the realm of saints. If Master Shi Canghai can answer me, the grievances between me and May Fei can be wiped out."

Fang Yue raised his head and asked a question that almost everyone knows.

In the Federation, the saints are already standing on top of all beings, how could there be higher-level creatures standing on their heads.

Shi Canghai pondered for a moment, and said, "I don't know what you are asking to ask this question, but since you have asked, then I will answer you truthfully. The strongest existence in this world today is The existence of the saint state. However, it is said that there are levels beyond the saint state among the evil minds. He was once shocked, and no one knows his name and origin.

And we have verified that there have been countless civilizations rising and falling on this planet. In prehistoric civilizations, there were indeed levels beyond the realm of saints, which we call the Great Sage. There is a saying among the saints that some people suspect that the great saints of prehistoric civilization still have alive people, but they are always asleep and have never been awakened. "

Shi Canghai answered Fang Yue's question truthfully.

All the people around who heard this answer trembled.

They looked at Shi Canghai with incredible eyes, and then at Fang Yue.

Shi Canghai's answer was simply subverting their common sense.

"In this case, that's right!"

Fang Yue's eyes flickered, and he said to himself: "I had a speculation before, where these evil-minded creatures came from. Some evil-minded creatures were transformed by this civilization, but the prototypes of some evil-minded creatures are different from each other. The prehistoric creatures inferred from some ancient books are somewhat similar. Perhaps every civilization is destroyed under the invasion of evil creatures, and it is not only the creatures of prehistoric civilization that fall asleep, but also the evil creatures of prehistoric civilization!"

"Behind the prehistoric creatures, there is still an invisible big hand controlling all of this. The owner of that big hand may have reached an incredible realm, at least surpassing the level of the Saint Realm."

The power level of a world directly affects the strength of the world's rules.

Fang Yue had already felt that when he arrived, the rules of this world were not very stable. In comparison, even the earth was a hundred times more stable than it.

This means that the ceiling of the power that this world can bear will not be very high.

The Great Sacred Realm is already the limit that the entire world can bear. Beyond this level, the rules of this world will collapse on their own.

Fang Yue guessed that the birth and arrival of this evil creature is essentially a self-preservation measure in this world. Every time a powerful person beyond the Great Sacred Realm is about to appear, various disasters will occur in this world, and the world will be destroyed. After the creatures were destroyed, and then there was a dead silence, new creatures were brewed again, and they continued to explore and expand their understanding of the power level until they reached the bottleneck of the peak level of the Great Sacred Realm, and new disasters broke out, repeating again and again.

Fang Yue's voice just fell.

An indifferent voice appeared in Fang Yue's ears.

"You touched part of the essence of the world's calamity, and you obtained five thousand heavenly stones."

Fang Yue couldn't help showing a touch of shock when he heard the words. He knew the value of this Heavenly Dao Stone very well.

Every piece of heaven and earth stone is the evolution of the will of heaven and earth.

This is the cohesion and evolution of the origin of heaven and earth.

The average powerhouse, if he could harvest a few Heavenly Dao Stones, he would be ecstatic, thinking that he had a great opportunity.

And even a strong person in the Saint Realm can fight to the death for a hundred Heavenly Dao Stones.

The Five Thousand Heavenly Dao Stone, this is an amazing treasure, even the powerful of the Great Sage level will give birth to endless greed when it learns.

"Continue to explore the nature of the world and the source of the calamity, and you will get more generous rewards. This mission is an open mission. The type and number of rewards will be changed due to the different progress of exploring the source."

The indifferent voice disappeared.

Fang Yue vaguely felt that he should be the key to the forbidden place.

"Thank you for the saint's guidance. My grievance with May Fei has since been wiped out, but if it provokes me again, I will not be merciful."

Fang Yue was not too polite, and put the ugly words on the front.

At that time, Canghai's clone also gradually dissipated.

"This is natural. After this incident, the Mo Family's love I owe has been exhausted. No matter how you target Mo Fei or Mo Family, you will have nothing to do with me. Boy, you are really very good. Not bad! It is indeed admirable for the courage and courage to be able to talk freely before the pressure of the saint and make conditions to me."

The voice of that big face disappeared.

Fang Yue and May Fei looked at each other, and then let out a cold snort. The two of them were you walking through your Yangguan Road, and I crossed my single-plank bridge.

"Fang Yue, this time the matter is fine, but you and Could it be that you are the officers of the same camp after all, and you must not affect the morale of the entire camp because of personal grievances."

Alpha warned Fang Yue, but he also told May Fei when this was passed.

Could it be that this period of time is too public and has touched his bottom line.

"Humph!"

Could it be that he gave a cold snort, and finally didn't even give Alpha the face.

Just when Afar was in a bad mood and wanted to take the surgery, the harsh alarm bell sounded again.

Fang Yue's heart stopped beating for a while.

The red light spread all over the camp in an instant.

At the same time, the sound transmission of the three-eyed monkey floated from far away.

"Master, run away! Master Nissan has already ordered a total offensive! Tens of millions of evil creatures form a coalition army, and all the twelve cities around here will be uprooted and become homes for our evil creatures. We are just the vanguard, the real The main force will be here soon!"

The voice of the three-eyed monkey became more and more distant.

Fang Yue's heart twitched fiercely.

Originally thought that joining the Federal Army was hugging a thigh, but unexpectedly, this thigh was not thick enough, and it might become food in the eyes of evil creatures.

"The red alert represents the highest warning of the federal military. The number of beasts this time may exceed the 500,000 mark."

Alpha's face sank, he turned around and stepped onto the spaceship.

However, Pasteur did not follow in Alpha's footsteps.

He was frowning, thinking deeply.

"Pastel, won't you follow me?"

Alpha looked at the alarm that had dyed the sky crimson. He glanced back at Pasteur. He didn't have too much time to wait and hesitate. Normal wars require him to personally direct.

"I heard what Fang Yue said, and suddenly remembered some questions! Alpha, you go first, I will ask you for help if I need it. Fang Yue, you go with me! Hurry up, we may have to go deeper this time Go to the hinterland of evil creatures and look for the remains of the destruction of the last civilization."

Pasteur looked at Fang Yue, his eyes blazing with the light of faith burning.

Fang Yue just wanted to refuse, the ghost wanted to follow you to the hinterland of the evil creature.

However, Fang Yue's words have not yet been exported.

The task assigned by the indifferent voice sounded in his ears.

"Trigger temporary quests and follow Pasteur to explore the ruins of ancient civilizations. You will definitely have unexpected gains in the ruins. The rewards of quests will increase with the increase in exploration."

Fang Yue couldn't help gritting his teeth when he heard the words. He understood that the missions released in this forbidden place were all missions for death.

If you don't play to death, you won't let it go.

"Okay, Lord Pasteur, I am willing to go with you!"

"Okay, come with me, could it be, arrange for me a small off-road jeep, fill it up!"

Pasteur ordered it.

Could it be that he was particularly obeying Pasteur's order, and even Fang Yue vaguely saw a trace of his awe of Pasteur in his eyes.

Chapter 1097: Insidious

What kind of identity is this Pasteur? Is it possible that even such a master who is not afraid of the sky, the earth is not afraid of the gods, and the ghosts and ghosts, has born a fear from the heart?

Fang Yue didn't know.

But sooner or later he will know.

Soon, a bulletproof military jeep was dispatched.

This Jeep's mailbox is of the 80L type, with a total of seven seats. It is an extended version of the jeep, and there is even an intelligent artillery system on it. If it hits, it is enough to penetrate the body of the evil creature at the heaven and earth level.

This is definitely a high-end product of the war years, with strong defense, high mobility, and a certain counterattack.

"boarding!"

Pasteur decided to drive himself, and in this aging body, he seemed to burst with infinite energy and blood.

"and many more!"

Fang Yue didn't get into the jeep, because when the vehicle came, could it be that he led his men to leave.

Then, the arsenal without garrison was surrounded by evil creatures.

Inside and outside, three outside, surrounded by groups.

Pasteur's blood extinguished instantly.

What's wrong with this?

"We were calculated! He didn't use it himself, but he attracted evil creatures to kill with the sword. He evacuated all the defenders, leaving us brothers alone!"

Fang Yue spread out his hand and explained helplessly.

It seems that the punishment just now is still not enough, this is not because of his killing intent.

"Could it be!"

Pasteur gritted his teeth with hatred. Originally, he was a researcher and a non-combat player.

If in the field of research, Pasteur is naturally one hundred, and it is no problem to block thousands.

But the problem is that in terms of combat, well, he is just a five-scumbag who relies on resources to pile up the heaven and earth level.

"If I were to catch Pasteur, he would surely be broken into pieces and he would die!"

In vain, he just asked AI Code to persuade Fang Yue not to kill Mo Fei and the Mo family, but as a result, this guy turned his head and wanted to kill him.

"You two are already surrounded, hurry up and give up resistance! Put down the weapons in our hands, we can treat you two preferentially in accordance with international practices!"

A black shadow of tens of feet can reach the sky.

A burly, dark-skinned man sat on the shoulders of the black shadow, carrying a big horn in his hand, to persuade Fang Yue and Pasteur to surrender.

Fang Yue is very familiar with this line.

Fang Yue is also very familiar with this voice.

"Li Tiezhu, you two hundred and five, get out of here!"

Fang Yue gritted his teeth with hatred, how did this stuff come to a forbidden place.

And it seems that he was still assigned to the camp of evil creatures.

"Gah? How do you know my name? And your voice seems familiar to me!"

The man sitting on top of the dark shadow scratched his messy hair.

Fang Yue rose into the sky and flew to the same position as Li Tiezhu.

"Cousin???"

Li Tiezhu was also stunned.

Although the appearance is different, the breath of this soul is definitely not bad.

"This is a clone of me. The deity is cultivating outside and has not entered a forbidden place."

Fang Yue used his divine thoughts to transmit his voice, after all, he was a caller and he couldn't show his feet.

"My lord, are you going to kill him?"

Under Li Tiezhu's body, the black shadow urn said angrily.

At this time, Fang Yue saw clearly that under Li Tiezhu was a chimpanzee with long black hair.

This chimpanzee has at least the strength of the pinnacle of rotation.

At this moment, Li Tiezhu's breath was stronger than that of chimpanzees, and he had reached the fifth step of Yin-Yang realm.

"Cousin, have you also become the caller? And you joined the federation camp. Well, I belong to the camp of evil creatures. According to the rules of the Forbidden Land, should we fight each other!"

Li Tiezhu eagerly smirked.

He has been bullied by his cousin since he was a child, and when he finally turned a serf to sing his brother, how could he not seize the opportunity?

"Okay!"

Fang Yue's expressionless face, an illusory figure gradually formed behind him.

Qianshi's clone has crossed the boundary.

Li Tiezhu's smile stopped abruptly.

Half-step saint!

Who special mother said that Feng Shui turns, these years, your uncle will always be your uncle.

Always will be!

"Hahaha, cousin, I was joking just now, you are my beloved cousin, how could I do something to you? What **** camp, what taboo, all these things are deceptive! It's all!"

Li Tiezhu smiled awkwardly, alleviating the tension.

"Tie Zhu, how many evil creatures can you control?"

Fang Yue looked at the dwarf army of evil creatures, there were a lot of people.

"fifty thousand."

Li Tiezhu said blankly.

But for Fang Yue, who is familiar with Li Tiezhu, this cousin's expressionless expression is already the biggest expression.

This lack of expression proves that Li Tiezhu actually feels embarrassed.

"Fifty thousand, quite a lot!"

Fang Yue chirped. This time, it was a general attack launched by evil thought creatures. It was not a cat or a dog that was mixed up in it. If you want to enter this army of evil thought creatures, at least the level of the heaven and earth realm, the peak of the innate realm will not work.

Among them, there are generals in rotation, almost one in a hundred.

Such a large army cannot be underestimated even if it is placed in the world of practitioners.

"The Fifty Thousand Horse Commander is the weakest commander. There are a million horses in the hands of the Grand Commander!"

The chimpanzee who was seated under Li Tiezhu owed something in.

Li Tiezhu's expressionless face finally had an expression: "Lack of pumping!"

"Hahaha, it turned out to be like this!"

Fang Yue understood Li Tiezhu's embarrassment.

The commander or something is indeed majestic, but those are all for outsiders who don't know what to do.

The weakest commander represents the rookie in the commander. In terms of face, it is very ugly.

"The missions of the federation and the evil creature camps are different, and their identities are different. The electors of the evil creatures camp will receive a series of tasks when they arrive, and they will continue to increase their command value. The higher the level, the greater the number of evil creatures that can be commanded. This commander is divided into lord level, prince level, emperor level, and emperor level. I have just entered the prince level and have not had time to complete the follow-up tasks. There are still many electors who are still struggling at the lord level, and the number of commanders is not as good as mine!"

After explaining for a long time, Li Tiezhu really only wanted to say the latter sentence.

Many people are not as good as me!

Fang Yue laughed loudly: "What is your task to increase the commander value? I will help you complete it!"

The arrival of Li Tiezhu was undoubtedly a surprise for him.

In this way, he was in the Federation, Li Tiezhu was among the evil creatures, and then with the assistance of the three-eyed apes, it became easier to explore the world.

"Kill you, take the arsenal!"

Li Tiezhu continued to test his face without expression.

"Cousin, why don't you commit suicide!"

"I wipe it!"

Fang Yue didn't expect this mission to be so perverted, it turned out to be to kill each other.

"Can you change the task?"

Fang Yue said weakly, the bull that just blew up fell from the sky in an instant.

It left a big shadow in Fang Yue's heart.

"I can also increase the command value by killing high-ranking officials in the federation."

Li Tiezhu looked around, his face full of sorrow, where is there any spooky federal officer in this place.

The only one is his own cousin who can't move or kill. Isn't this deliberately blocking him?

"If you are a federal officer, I can recommend you."

Fang Yue rolled his eyes and thought about it.

"It's not about the Federation officers now, but there is an army of evil creatures behind me thinking about my commander value all day long. The camp of evil creatures, the rules formulated are entirely to let the electors fight each other. It is difficult to have the possibility of peaceful coexistence. Not only is the task conflicting, but the goal is the same, only one person can complete it. If you kill other callers in the same camp, you have a chance to accept a certain percentage of the command value dropped by the opponent!"

Li Tiezhu sighed. He was a dead otaku. He was very satisfied to see Teacher Cang all day and learn the skills of Teacher Bodo.

However, God refused to let him live, and sent him into the smoke of gunpowder and the real turbulent world.

"The team chasing behind you is very strong?"

Fang Yue glanced at Li Tiezhu, and naturally understood his thoughts.

Li Tiezhu intends to join forces with him to kill the pursuers behind him.

The people of his family are more than thief.

"It's okay! The seventh level of the Yin-Yang realm, with a command value of 80,000. If your cousin intends to release the clone behind you, killing him is as easy as crushing an ant!"

Li Tiezhu looked at the clone behind Fang Yue.

Obediently, a half-step saint-level existence, this is a thick leg that can't be thicker.

"This matter needs a long memory. The avatar of Qianshi is one of my trump cards. It is not a last resort and will not be used. However, there are many ways to kill in this world, and it may not really require a head-on collision!"

Fang Yue glanced at the arsenal, he was already thinking about it.

"Li Tiezhu, I see where you are going!"

A stern figure appeared in the air.

Behind him was also an army of evil-minded creatures, and this army of evil-minded creatures was more powerful than the army under Li Tiezhu.

Not only the difference in the number of people, but also the difference in morale.

The soldiers under Li Tiezhu are in a loose manner. It is better to say that they are on a picnic and outing rather than marching and fighting.

Li Tiezhu is an otaku by himself. Although he has obtained the means of realization, his turn of insight is still far worse than those who have licked blood on the tip of a knife and have experienced many trials in the Forbidden Land. far.

And the soldiers brought by the cold and stern figure are completely different. Their aura is concentrated, and they are killing each other. Each soldier is tall and straight, as if a javelin is standing.

"Ning Que, don't go too far! You and I are all evil creatures, the generals and commanders should be in the same spirit. At this time, the internal fighting will be cheap for the Union military! If it delays the emperor's plan, only You are asking!"

Li Tiezhu scolded the cold and stern figure, but how to listen to it, how did it feel that it was strong outside and inside dry.

Fang Yue couldn't help covering his face.

My cousin is really not suitable for this kind of war.

Chapter 1098: Surprise? Scared!

"Hahahaha! Li Tiezhu, are you still saying such naive things to me at this time? It is absolutely impossible to cooperate between you and me. You have no second choice other than death. The baby on you is mine. Even your commander value is mine!"

Ning Que's eyes seemed to be filled with flames.

His lips lifted slightly, like a cat catching a mouse.

Li Tiezhu turned his head and ran towards the arms depot without saying a word.

Ning Que looked at Li Tiezhu's figure and did not pursue him.

"Escape? Li Tiezhu, I want to see where you can escape!"

Ning Que seemed to have everything under his control, and Li Tiezhu would definitely not be able to overcome the storms and waves.

Li Tiezhu soon fell to the door of the arsenal.

Fang Yue didn't know when he appeared at the door of the arsenal.

"Li Tiezhu, why don't you run farther! I have already given you a chance to escape, you don't even know to cherish it!"

The taunting taste in Ning Que's voice became stronger.

Newcomers like Li Tiezhu who have only experienced three or two taboos are the best prey in his eyes.

"Yeah, Li Tiezhu, you really surprise me!"

Ning Que's eyes turned and fell on Fang Yue. Fang Yue did not hide his identity as the caller, so Ning Que could see at a glance that he was the caller of the federal military camp.

The electors of different camps are not at the same time. If he can kill Fang Yue, he will get a full command value of 10,000.

"Surprise? Haha, I will make this surprise turn into a fright."

Fang Yue raised his hand, and the plasma pistol started.

A beam of light burst out of the sky and took Ning Que's life.

"Ice Mirror!"

Ning Que raised his hand, and a frosty mirror stood in front of him.

When the beam collided with the ice mirror, it bounced back in an instant.

"Small vultures, dare you to show off such wonderful things?"

There was a trace of obvious disdain on Ning Que's face. If the caller of the rotation realm came, this plasma pistol might be a little threatening, but he is the power of the Yin and Yang realm, let alone threatening him. The safety of life, even if he was asked to take another look, he would be disdainful.

Fang Yue turned sideways, avoiding the reflected plasma beam.

However, Fang Yue's face did not show the slightest loss when the ultimate move was blocked.

"Ning Que, do you really think that the technology of this federation is just a strange thing?"

Fang Yue's words fell, and Ning Que immediately responded: "Everything is like this, without exception, in this world, there is only a right way of cultivation, with the help of foreign objects, it will always be accomplished by the bottom!"

"Then you try this again! X bomb, blow me up! Burst! Burst!"

Fang Yue carried Li Tiezhu, and a silver light flashed, disappearing.

The white light enveloped the area of fifty meters in radius.

This is the explosion of an X bomb, but dozens of X bombs exploded at the same time.

Bomb explosions belong to the category of kinetic energy of quantum mechanics. Without the slightest fluctuation of spiritual energy, it is naturally impossible to prevent for practitioners and cannot cause any alertness!

Ning Que's figure was drowned in the vast white light.

After a long time, Ning Que came out. The silver armor on his body was now resplendent. The young man who had just been outstanding, now he has become like a dog in the water.

"You count me!"

Ning Que was wounded all over his body at the moment. Although the X bomb did not take his life, it also caused quite serious injuries to him.

Ning Que was furious.

At this moment, nowhere can he see the light and windy appearance of his body before.

How can Ning Que be said to be a proud caller, a mighty person, even in a forbidden place, he is a veteran and a veteran.

However, it was really painful for him to collapse under Fang Yue's hands.

The bomb just now destroyed almost 30% of his treasures.

Ning Que thought that the treasures on his body were very expensive, and even one random piece was invaluable, and he couldn't compensate for killing Fang Yue and Li Tiezhu.

"What about you? Didn't you just say that the arms of this federation are all tricks and tricks?"

Fang Yue smiled coldly, a look of disdain appeared on his face.

This Ning Que was crippled by the bombing, the strength of his body, and the remaining three achievements were considered good.

Ning Que grinned: "Okay, okay, okay! It's really courageous! Today, if you fall into my hands, I will definitely let you survive or die!"

Ning Que, the other party, made a bold move. Behind him, a faint starry sky emerged. This is the bloodline of the behemoth in the starry sky. Fang Yue once moved the bloodline of the son of the stars that he wanted to evolve. Actually appeared on Ning Que's body.

"No, this is not the blood of the sons of the stars, at least it is very impure, the sons of the stars, claiming to suppress all the blood of the stars, and there is a part of the blood of the stars and demons in my body, but I don't feel any oppressive feeling! "

Fang Yue shook his head, this Ning Que's bloodline of the son of the stars was inferior.

The level of this bloodline is not advanced.

The completed bloodline, with the help of the power of the stars, can oppress an era, making the people of the same generation unable to lift their heads.

But if it is a broken bloodline, then it is very bad. Since it is a broken blood, there will definitely be fatal flaws.

"This, this is horrible! It is simply the reappearance of the demon **** from the ancient times, overwhelming sentient beings!"

Pasteur watching the battle next to him was not taken care of. He was guarded by Li Tiezhu's evil creatures, and he was still in a relatively safe position for the time being.

He witnessed the battle between Fang Yue, Li Tiezhu and Ning Que with his own eyes. At the beginning, it belonged to his comprehensible category. However, when Ning Que displayed the methods of gods and demons, Pasteur felt his own recognition And common sense is being subverted.

The previous education was all a scam.

It turns out that the martial artist can be so powerful, in addition to the pure martial skills, there are supernatural powers!

"The stars are falling!"

Ning Que didn't give Fang Yue and Li Tiezhu room to breathe. After all, this was Fang Yue's home court. Ning Que would not make the same mistake again if he underestimated the enemy.

"The lion fights the rabbit, and it needs to do its best!"

Ning Que is encouraging himself, he is self-examined, and what he has done in these days is indeed a bit too late!

He was too arrogant, which led to the crime of underestimating the enemy, but he regretted it in time, and he probably hadn't caused a big loss.

But before Ning Que's reflection hadn't touched him, Fang Yue performed a witchcraft.

"Dou Zhuan star shift, time and space deflection!"

The first half of Fang Yue's witchcraft belongs to the category of witchcraft inheritance, and the second half is his own creation, which incorporates part of the time and the means of heaven and heaven.

This witchcraft has the ability to deflect various methods.

Fang Yue's witchcraft fell, and huge meteorites smashed towards the arsenal behind Fang Yue.

Just now, the arsenal, which was still standing still under the explosion of dozens of X bombs, shuddered under the bombardment of meteorites with huge flame tails.

"The blood of the sons of the stars is indeed the king among the blood of many stars. Even if it is incomplete, the methods used are so terrifying!"

Fang Yue watched as the arsenal was being trampled on, it was constantly distorted and deformed, and it seemed to be completely destroyed.

This thing is very strong.

Fang Yue had tried many times to obtain the taboo weapons in the inner library but failed!

This time, Ning Que's arrival gave him a very good boost.

Ning Que heard this sound extremely harsh.

The blood of his son of the stars is lacking, this is a thorn in his heart that cannot be removed.

The blood of the stars, how noble, he only got a small part of the thin blood on the sky road, and the blood of the sons of the stars was derived from the forbidden land with a lot of points, and then there were various expensive accumulations. , Has just reached the current level.

However, he is still far away from becoming a true Son of the Stars, and the bloodline concentration of his Son of the Stars is only one percent.

"Fang Yue, your mouth is really owed, do you think that if I cast a mess of witchcraft and deflect my spell, it will be invincible?"

The corners of Ning Que's mouth were raised, revealing a touch of pride.

The meteorites that fell on the library unexpectedly floated in the air again, and these meteorites smashed down towards Fang Yue.

Even after the meteorite hits the ground, it will still be under Ning Que's control.

However, the meteorite has not yet landed, and beams of lasers in the arsenal have already cut the meteorite.

All meteorites became powdery in an instant.

Fang Yue's body was shocked with cold sweat.

This **** Liu Kuan.

Obviously, the fall of these meteorites has touched Neiku's autonomous defense system.

This system is set up specifically to protect taboo weapons, and its strength is self-evident.

Even a meteorite that is as hard as iron is as fragile as tofu under the irradiation of a laser.

"What the **** is this?"

Ning Que's eyes widened. Because his cultivation level was too high, he was a veteran who had experienced dozens of terrifying places.

So he arrived relatively late, and didn't join the camp of evil creatures until the early morning of yesterday.

He did not yet have a clear understanding of the technological strength of this world, even if it was the explosion of dozens of X bombs just now, he still attributed it to Fang Yue's calculations, not the horror of technology!

"Find the target, lock the target!"

"The Annihilation Beam is ready to activate!"

"Zizzi!"

A terrifying sound fell.

A jet of dark light had pierced Ning Que's collarbone.

The silver armor on his body was melted like steel, leaving a small black hole on the shoulder.

"This is a strong person at the Yin and Yang level."

Li Tiezhu swallowed. He has also traveled through different worlds, but he has never seen such a technological weapon that can injure the strong in Yin-Yang realm.

"Tie Zhu! Different worlds have different characteristics. The highest level of this federation is technological civilization. I even suspect that the reason why the evil creatures descended is not because there are already warriors in this world who are about to break through to the Great Sage. Realm! It's because the world's technological civilization has reached its peak and is about to reach the realm of transcending the Great Sage, giving mankind the ability to destroy the world!"

Fang Yue's guess was just said.

The indifferent voice sounded again.

"The speculation on the origin of the calamity is correct, and you will receive 500 heavenly stones as a reward!"

The voice was short, crisp and clean.

Chapter 1099: Taboo weapons

Five hundred heavenly stones fell into the pocket.

And Fang Yue himself was still in a daze.

Fang Yue didn't even know what he was saying, so he got the approval of the will of this forbidden place.

"It is technology, not force, that has touched the ceiling of this world's power level, so will this world encounter a crisis of destruction?"

Fang Yue muttered to himself, he seemed to have mastered something, but it seemed that he had not obtained anything.

Ning Que's eyes had completely changed at this moment, from being dismissive a while ago to now being like a ghost.

This technological weapon is really terrifying, if you give him two more blows, it will be enough to evaporate him from the world!

Fang Yue took advantage of the moment when Ning Que was in a trance, and rolled into the inner library.

There are taboo weapons in it, and once he has his hands, he has the capital to rely on technological weapons to fight against the powerful in Yin and Yang realm.

Neiku's door has been blasted open by the meteorite just now.

Fang Yue drilled through a crack in the door.

The furnishings in the inner library are quite simple.

There are three shelves in total, and they are even covered in dust.

On a shelf are placed nine one-inch-high, disc-like iron plates. There are three shelves, three on each floor.

There is a bullet box on a shelf, a transparent glass box, and there is no marking on the lid!

Another shelf is empty and there is nothing on it.

Fang Yue was tired and crooked, and he didn't even leave any instructions for these things. Leave them to him, there is a chicken to use!

At this time, it seemed that Fang Yue's helplessness had been sensed.

The indifferent voice of Forbidden Land is rare and kind.

"The caller touches a forbidden weapon and gets the right to purchase the forbidden weapon. You can use the points to exchange for the forbidden weapon."

"Because the caller touches the forbidden weapon at the Yin-Yang level, the purchase authority is set to 32 types of forbidden weapons at the Yin-Yang level (and below). When the caller gets a higher level forbidden weapon in the forbidden land, Elevated privilege!"

Fang Yue opened the list of taboo weapons.

There are corresponding records about the two weapons.

The circular iron plate, called the annihilation device, forms an annihilation position five seconds after it is activated, with a radius of ten meters and a duration of ten seconds. Within ten seconds, all the energy and matter in the annihilation position are implicated and plunged into Annihilated state.

Bullets are anti-matter bullets that can collide with any matter, convert matter into energy, and achieve a strong explosion.

According to the introduction of the purchase list of forbidden places, these forbidden weapons have fatal flaws, so they are listed as forbidden weapons at the Yin Yang level. Its true power can threaten Taoist masters!

Annihilation device, in the purchase list of Taboo Power, is 1,000 points per piece, and antimatter bullets are 500 points per round.

In addition, there are black hole vortex bombs, which can form a small vortex, absorb and annihilate all matter, and the price is 3000 points.

These are all typical representatives of the success of scientific and technological civilization. They may not be of high level, but they are absolutely practical in battle.

"Cousin, come out quickly, I can't hold it anymore!"

Outside Neiku, Ning Que, who was slowing down, was murderous.

Now, Fang Yue's status in the federal military is not very high, and he has already mastered such a terrifying killer. If his status is improved, wouldn't it be possible to bomb him at any time.

Ning Que thought of the rules of the Forbidden Land, and gradually understood the arrangement when the Forbidden Land came.

Selectors with relatively immature cultivation bases and qualifications were placed in the federal military, allowing them to use technological weapons to make up for their lack of combat power.

The callers with superior cultivation bases and older qualifications have entered the camp of evil creatures.

The evil creatures belong to the chaotic and evil camp, and they fight each other to create a stronger crisis.

Sure enough, none of the tasks in the Forbidden Land is easy to complete.

This Fang Yue's living mouth can't be kept, otherwise, he will die next time instead of Fang Yue.

Thinking of this, Ning Que suddenly acted on Li Tiezhu, and the existence of Sima smile was always a thorn in his eye.

Ning Que waved, and another meteorite descended.

However, he did not expect that Li Tiezhu also had his own bridge plan, summoning a layer of qigong mask, blocking all the meteorites from his body.

At the same time, Li Tiezhu screamed, calling Fang Yue, while still summoning goblins, in groups, brandishing the green small machete in his hand, and walking towards Ning Que sharply.

As a game otaku.

Li Tiezhu didn't have any other abilities, and realized a head of game creature to besiege Ning Que.

Ning Que looked at the goblins all over, feeling crooked.

With a wave of his hand, the wind blade fluttered, flying all over the sky, killing all these goblins, and flying flesh and blood.

But the wind blade hasn't all landed yet.

Li Tiezhu has realized a tauren totem pole.

The totem pole waved slightly, and the goblins that had been cut into pieces climbed up from the ground again, installed their arms and legs, and reborn on the ground.

Goblins are constantly being called out, increasing in number.

In a blink of an eye, Li Tiezhu's surroundings have turned into a green sea.

Head-to-head goblins brandished their respective weapons and violently attacked in Ning Que's direction.

When Fang Yue came out of the inner library, Ning Que was almost overwhelmed by the goblins. These goblins were rough and thick, and they were not afraid of death, which made Ning Que difficult to deal with.

What made Ning Que even more uncomfortable was that these goblins' clubs and machetes were all very powerful and smashed into him. Although they were not fatal, they would also burn deep and shallow scars. If this scar is just one spot The two are not deadly enough, but the accumulation is so much that even he can't bear it!

"Have the ability to single out! Don't use this method!"

In the sea of goblins, Ning Que was still roaring hoarse.

But soon, his voice was drowned out by the squeaking sound of the goblins.

Soon, Li Tiezhu was reminded of the taboo.

"Kill Ning Que, the elector of the evil creature camp, and get 5800 points randomly and inherit 80% of the command value. Now your command value is 114,000. Get a bloodline of the child of the broken stars."

At the same time, Fang Yue also received a reminder of a forbidden place.

"Assisted in killing the evil creature camp Ning Que, made a big contribution, gained 1200 points, inherited 20% of the command value, and now your command value is 16,000. Because you assisted in killing the evil mind creature camp caller, and The caller is stronger than you and is more than ten times better than you. An extra resurrection coin will be awarded."

"Resurrection Coins, dying in the Forbidden Land quest, can resurrect you or a designated person within 10 seconds, and the resurrection state is the peak state during the lifetime.

"Ding!" A metal coin appeared in Fang Yue's palm, and the face of the resurrection coin was carved with the image of death.

Resurrection coins!

Fang Yue's heart was slightly startled.

This forbidden place actually has such a heaven-defying prop.

He calmly put away the resurrection coin carefully.

It's not that he didn't trust Li Tiezhu and worried that he would **** the resurrection coin. It was Fang Yue who worried that this silly boy would challenge the senior callers who were dozens of times higher than his evaluation in order to get the resurrection coins.

Their calculations are in the same line, and so is greed.

But the command value.

After Fang Yue came into contact with this information, he felt that he could command the creatures that were three small realms below him and without any resisting ideas.

If this thing falls into the hands of other people, it must be ecstatic.

And for me, have a chicken!

A faint worry appeared on Fang Yue's face.

Whether he is the deity or this clone, his realm is not high!

Especially this clone, the level of the first level of the world just now.

The creatures below his three small realms, the eighth level of the innate realm?

Used as cannon fodder, some are not quite qualified in this kind of battle!

"What about the remaining evil creatures brought by Ning Que?"

Ning Que died, but the evil creatures he brought were still gathering outside.

Now they have no human management, although the harm is far less than before, but if they really let them rush into the camp, it would also cause great chaos.

"I killed Ning Que and increased the command value of 64,000! Among these 80,000 evil creatures, the strongest 64,000 evil creatures I can take away!"

Li Tiezhu's face glowed with glory.

His command value has been increased to 114,000. Among all the commands of evil creatures, it is finally not the bottom.

"Leave the remaining evil-minded creatures to me for a living sacrifice! Anyway, the evil-minded creatures originally advocated chaos and fighting, and killed 16,000 evil-minded creatures at the heaven and earth level. It is estimated that no one will jump out and say anything. "

Fang Yue's eyes burned, looking at the chaotic and disorderly evil creatures, as if he had found a treasure.

"No problem, I controlled the 16,000 evil creatures first, you find a different dimension space to put them inside, and then I will control the remaining evil creatures."

Li Tiezhu had a deep understanding of Fang Yue.

The two hit it off and reached an agreement.

Soon, 16,000 evil minds of the heaven and earth realm level lined up into a different dimension space newly opened by Fang Yue.

Then, Li Tiezhu was a little greedy.

"Cousin, this, can you also open up such a different-dimensional space for me? I am always a messenger, and there are always more than one hundred thousand people behind my butt, but the goal is too big. It's easy to attract attention! As the saying goes, I can't do it!"

Li Tiezhu looked at Fang Yue with greedy eyes.

Fang Yue pondered for a moment, and then said: "No problem, I will also open up a different-dimensional world for you in a while, where the environment is suitable for evil creatures to live. When you need it, you will call them out to fight for you, if you don't need it. , Let them cultivate in peace of mind."

Fang Yue took out a silver token. The material of this token was very special. It was forged with space mithril, and it was mixed with a little bit of space debris.

On the token, there are the coordinates of another world, as long as a steady stream of true energy is injected into it, the portal of a world can be opened.

The craftsmanship of this token is not complicated, but it requires an extremely deep level of understanding of space and heaven!

Li Tiezhu quickly put away all his subordinates with tokens.

More than one hundred thousand evil creatures disappeared from this world.

The surroundings of the arsenal became empty.

Pasteur looked at the scene in front of him, and his whole person fell into a trance.

Chapter 1100: Go to the ruins

"This is the legendary passage to the world! I didn't expect that I would be lucky enough to see it during my lifetime."

Pasteur is a scientific lunatic, his life hobby is to explore this huge and unknown world.

Before, Fang Yue gave him the black technology that made him more interested, but now he has seen an even more amazing scene.

Practitioners like gods and demons can mobilize the power of heaven and earth to create meteorites.

There is also an unimaginable magical power like Fang Yue, who opened up a world channel and sent away all the more than 100,000 evil creatures!

"Master Pasteur, I hope you can keep a secret for us. I don't want to be known by the second person what I saw today."

Although Fang Yue had a smiling face, Pasteur understood that people like Fang Yue were absolutely ruthless if today's news leaked out, or if he dared to say a word, Fang Yue would definitely be able to make him corpse on the spot.

"Of course, my beloved Master Fang Yue!"

Pasteur leaned slightly to show respect for Yue.

Now that his identity is different, Fang Yue has become the upper hand between the two under Pasteur's leaning.

Fang Yue has no opinion on this.

"Of course, in return, I will give you another piece about the new circuit model."

Fang Yue understood, hit a club and gave a sweet date.

This Pasteur is a well-known scientific madman in the Federation, and his dedication to new technology has surpassed his own life.

"Thank you, thank you!"

Pasteur's trembling palm took the note that Fang Yue handed over.

This thing made him unable to refuse.

"The next step, let's go to the ruins of ancient civilization! I hope that in the ruins, we all have new gains."

Fang Yue's body also had a task of a forbidden place.

Pasteur grinned excitedly: "I'm happy to!"

Originally, the two-person expedition turned into a four-person team.

Not only did Li Tiezhu join the expedition, but Medusa Yinyue also appeared and joined the team.

Silver Moon has a special identity, she represents the infiltrator, and there are many secrets in Medusa Silver Moon.

Nianxiu!

This is an ancient and powerful heritage.

If he can comprehend the mystery of Nian Xiu and superimpose the means of spiritual materialization, Fang Yue feels that his spiritual understanding and exploration will reach a new level.

At this moment, in the Celestial City, the wind and clouds gathered, and the leaders of many forces gathered together.

There are a total of 18 top seats in a table, and on top of each top seat is a strong man in the virtual fairyland in the Emperor City!

Every strong person in the virtual fairyland represents at least one big power behind it.

These eighteen people, all looking serious, are waiting for something.

"Liu Juan, what do you mean by calling everyone here? Heavenly Emperor City, there has not been such a gathering for many years!"

A middle-aged man with a burly figure and mellow hair, who looked like an ape, said to the woman who had convened a meeting of eighteen strong men in the virtual wonderland.

Liu Juan is the representative of the middle door of the Heavenly Emperor City.

"This time we are summoning everyone. There are two things. This sign of heaven has already appeared. Within a hundred years, Heavenly Emperor City will face a catastrophe. Presumably, you have chosen the people who should be in your hands based on the signs of heaven. ?"

Liu Juan's voice is delicate, like gurgling water.

There were a lot of virtual immortals present, and some people were thinking about it. At this moment, they all quieted down ingeniously.

"The signs of the sky are the signs of the sky, after all, there is a certain possibility of being wrong! I only believe in myself, not the signs of the sky!"

A man dressed in Tsing Yi and a hat on his head whispered to himself.

His voice is not loud, but there is a smell of cutting everything.

He is like a long sword that can cut everything, cause and effect, bondage, opportunity, everything has nothing to do with him.

"Oh, Qingyun Sword Immortal, you are up and down the Qingyun Sect, but there are hundreds of disciples. Among them, it is normal that there are no chosen children. This proves that God has abandoned you Qingyun Sect. Don't be abandoned. It sounds so nice!"

A **** and demon slowly spoke. He was a human head and a snake body. In fact, most of the eighteen people present were not humans.

Even Liu Juan, who presided over this meeting, has the face of a human woman, but her true identity is a rare Taoist.

"No matter how weak my Azure Cloud Sect is, I can destroy your Snake Demon clan. Believe it or not, tomorrow I will kill your so-called Son of Heaven?"

There was an indelible edge in Qingyun Sword Fairy's eyes.

The demon **** with a snake head was slightly startled, and then he stopped talking.

Qingyun Jianxian has always done what he said.

Moreover, although they are both in the virtual fairyland, in the virtual fairyland, there are also high and low strength rankings.

The person present, the strongest, should be Liu Juan, who belongs to the Taoist clan, and she does her part. She is born in harmony with the Tao, and when she turns, it is the circulation of heaven and earth.

Secondly, it is Qingyun Jianxian.

Qingyun Sword Immortal walked on the road of sword cultivation, a sword pierced out, and ten thousand ways resonated. It is said that he is the only virtual immortal who can cut through the obstacles of the countercurrent of time and space and leave this world.

Although some people say that this is just a rumor, Qingyun Jianxian has never personally admitted this matter.

If Qingyun Jianxian insisted on destroying which power, they really didn't dare to take it lightly.

"Okay, Qingyun, stop making trouble. The son of Heavenly Chosen is related to the survival of my Heavenly Emperor City. If the calamity comes, the children of this Heavenly Chosen have not fully grown up yet, I'm afraid that this Heavenly Emperor City will also be out of the question. Nine is hard to save!"

Liu Juan glared at Qingyun Jianxian.

Even in her capacity, she didn't dare to scold Qingyun Jianxian too much.

The killing of Qingyun Sword Immortal, the first virtual immortal in Tiandi City.

She also relied on her balance in all aspects, so she was lucky enough to beat Qingyun Jianxian in the overall ranking.

If Qingyun Sword Immortal really wants to fight desperately, it is really hard to say who will live and who will die.

"The reason why I called you here this time is because there is an urgent matter that needs to be discussed with you. In a forbidden place, a vision of heaven and earth has been vaguely presented. This vision is calculated by deduction. , It represents a great opportunity. If anyone gets this opportunity, it will be a step faster than the growth of his own child of choice!"

Liu Juan's voice is delicate.

All the virtual immortals present here showed a hint of interest.

Forbidden places contain many opportunities, some of which they cannot bestow upon juniors.

"Fang Yue, are you still in the federal camp?"

Fang Yue was riding in a jeep, on his way to the ancient ruins.

A thick, powerful voice suddenly fell.

This made Fang Yue suddenly startled, then frowned.

"Tianchi?"

Fang Yue subconsciously reacted, this was the voice of Tianchi, but when he left Tianchi Palace, he had never given himself any sound transmission equipment.

"Yes, it's me! When you left my palace, I left a mark on you. According to this mark, with the help of a special ceremony, I can sense your existence!"

"The following words are very important to you. You can only accept, but cannot refuse! There are a total of 33 heavenly chosen children in the Celestial City. When they were born, they gave birth to the signs of heaven! In the future, in the Celestial City There will be a calamity, and they need to fight against that calamity. However, it should be less than a hundred years before the calamity comes. Therefore, every child of the heavenly choice must grow up quickly! And your task is to assist me in witchcraft. The son of the Chosen in China, Ding Yao has found the original mystery of this world! This task is your duty, you cannot shirk it, you should do your best!"

Tianchi's voice is deep.

In a moment, it dissipated between heaven and earth.

And Fang Yue's eyes narrowed slightly. A trace of displeasure rose in his heart.

I was not a member of your witch race, and you didn't give me any benefits, and even let me unconditionally agree to your request?

Even if they are connected by blood and have an inseparable relationship, this is a bit too much!

What's more, I already know a lot about the mystery of the origin of this heaven and earth, why should I tell you!

Fang Yue's mind turned, and a ray of thought of the deity descended across time and space.

Thoughts enveloped the body.

Fang Yue's mark left by Tianchi was erased.

Today, the level of his deity's divine consciousness is comparable to that of the Great Sage, and even in some respects it is still superior.

"This Tianchi has never treated me as an equal creature, otherwise, it would not leave a mark of divine consciousness on my body, and I have been so yelling at me!"

Fang Yue's thoughts turned, he had no intention of participating in the affairs of the Son of Heaven.

Those things are all competitions between the various forces in Heaven, Earth and City, and he has nothing to do with an outsider.

"Fang Yue, this place has arrived!"

Pasteur's driving technique was quite stable, at a speed of more than 300 miles, deep into the hinterland of the evil creature, he avoided all the strict grip areas of the evil creature.

Came to bring a piece of ancient mountains and rivers.

In the mountains and rivers, the rocks are rugged, the dead wood is withered, the wisps of wind flow, there are no insects, fish, birds and beasts, even the green vegetation is sparse, quite rare.

"I saw this place in an ancient treasure map. When I was young, I once visited this place. I have been around here and have obtained one or two artifacts from ancient civilizations, but because of something bad, So I finally chose to leave and not set foot anymore!"

Speaking of the old things about this mountain and river, Pasteur's face is not very good.

Fang Yue looked at Pasteur, reduced his mind, and put aside the matter of Tianchi just now.

He is measuring the mountains, rivers and terrain here. This is an obvious place of natural geomantic omen. The dragon is distressed and the sun and the moon are dark. If judged by the simple geomantic omen, this is a place where gods and demons are buried. This is using the power of the earth and the power of Feng Shui to suppress the corpses of the gods and demons, prevent the occurrence of corpses, rebirth, and disasters.

"What relic did you get? We are already grasshoppers on a rope. If you don't tell us the truth, I'm afraid we will all die here this time!"

Fang Yue didn't have the slightest joking tone. It was just outside the ruins. He already felt a vicious atmosphere spreading.

If it is deep, according to the trend of this terrible place, I am afraid that he will step on some unsolvable areas. At that time, even if he has the means to reach the sky, it will be difficult to escape from it.

"I got a bronze ring with a mottled rust on the top. Every time I dream, the ring will turn into a sound, echoing in my mind, telling a song of history. Although, after waking up, For some sounds, my memory will always be blurred, but occasionally there will be some details remaining. Since then, my spiritual

power has continued to grow, and I can use it with my heart to study science. Otherwise, with my talent, it is still not possible. Come to where it is today."

Pasteur raised his left hand, and above his index finger, there was indeed a bronze ring. On the ring, there was a pattern of a hideous skull.
