

God of Life 1211

Chapter 1211: Peddling potions

In this era, the civilization of practitioners is still the mainstay. Technological civilization can be developed in concert, but it cannot be the main task and invest too much human, material and financial resources.

Fang Yue's concept of the overall situation is indeed rare.

Looking at Kardashian's rather disappointed expression.

Fang Yue didn't bother to talk to her either. The relationship between them was purely an exchange of interests and did not involve any personal feelings.

"The Galaxy Bank can actually provide a lot of services for the current earth, such as helping the earth build some military bases, which can withstand the energy aftermath from the powers of the Yin-Yang realm and below!"

Kardashian still did not give up the plan to pay out of Fang Yue's pocket.

After finally encountering a fat sheep, how could she give up easily, and Fang Yue still has such a good thing as supernatural power in his hands.

Fang Yue yawned. He had no interest in the so-called base. Now that the war has broken out in full, what good is a strong house?

If the earth is subjugated and extinct, everyone will be extinct with it. Will that solid base be left as a tent for the people on the Dark Moon plane?

Fang Yue is not short of money, but good steel always needs to be used on the blade!

Kardashian's face was embarrassed. She thought she had caught Fang Yue's attention, but in fact, she was completely off the track!

"How many star VIPs do I need to buy genetic medicine?"

Fang Yue suddenly remembered something. In addition to the traditional technology and practice in the universe of Ten Thousand Realms, there is also genetic technology that can quickly change a person's physique and raise the level of combat power.

"Gene potion? How did you know this thing?" Upon hearing Fang Yue's words, Kardashian couldn't help showing a look of astonishment.

This genetic medicine is a product of biological civilization. Practitioner civilization is common, and technological civilization is not rare. But there are very few planets that follow the path of biological civilization. Even in the galaxy, Kardashian knows of only a handful of civilizations that can produce genetic medicine.

Kardashian never thought that Fang Yue would have something to do with the planet of biological civilization.

"In the case of gene medicine, most of them have strong side effects, but there are only a handful of medicines without side effects! Among them, the most common type A8 biopharmaceuticals, I can sell to you. With your current Samsung VIP level, you can buy them all at once. One hundred biopharmaceuticals of type A8. One biopharmaceutical of type A8 can make the life level of a practitioner who is new to the innate realm jump and become a creature comparable to the realm of heaven and earth. It has no side effects and will not hinder Subsequent repairs are progressing. The price of an A8 type biopharmaceutical is 3 million stars!"

Kai Daishan quoted the price.

Fang Yue was stunned immediately.

"No, no, no, you should have misunderstood, I want to sell some biopharmaceuticals, not from you!"

Fang Yue has a lot of research on life sciences, especially combining the methods of bloodline experts, which can produce many kinds of biological drugs.

These biological agents have small side effects and strong effects!

"Do you still know the preparation of biological agents?"

Kardashian stroked her little heart, no way, no way! Can't continue dealing with this Fang Yue, this person compares people, people deserve to die, shop around, stocks should be thrown away!

He is so rich and so mysterious.

There is even research on biological civilization?

We must know that the fresh goods and technologies produced by the biological civilization of the Galaxy Bank's team are all recycled at high prices.

This is an evolutionary branch of the civilization of Ten Thousand Realms, but there are very few people who can finally make some achievements!

"Of course I know!"

Fang Yueang raised his head, looking like I was still amazing, he really enjoyed the look in Kardashian's envious and admiring eyes.

"This biopharmaceutical was researched by myself! It can add a hint of fire talent without any side effects!"

Fang Yue took out a test tube.

There is a bottle of potion in this test tube, the potion is orange, but there is a flame burning fiercely on it!

Kardashian saw the flames and immediately showed a look of surprise.

She can feel the power of the rich blood in it.

Only a certain degree of bloodline power can evolve anomalies in the medicine.

Kardashian was so knowledgeable, she naturally would not think that the test tube was filled with real flames.

That is the phantom of blood.

Burning fire can burn all the impurities in the practitioner's body!

This is not just a matter of flame blood, but involves more complicated changes, which can purify the practitioner's physique and slowly exercise the practitioner's internal organs!

"What's the name of this biopharmaceutical, Fang Yue, how much are you going to offer?"

Kardashian did not expect that she wanted to empty Fang Yue's pocket. But now, this position has changed, Fang Yue has become a seller, and he is still the kind of arrogant, the thing in my hands, you like to buy or not.

"I named it the Fire Potion. After taking it, you can have a practitioner with a bloodline comparable to the three-layer flame of the Profound Stage! It can purify the impurities in the practitioner's body, especially some disciples who rely on resources to pile up the realm to make the daddy have a fire The blood given by the medicine can even remove the hidden dangers of the foundation!"

Fang Yue's bloodline carefully studied by himself naturally knew the drawbacks and advantages of this bloodline.

Kardashian nodded slightly. Sure enough, this medicine was researched by Fang Yue, and it might not be so easy to buy at a low price.

"I spent a lot of effort on this flame potion. I carefully selected every material. Therefore, a bottle of flame potion is 8 million star crystals. The price is not two. This price is for those daddy disciples. The price should not be high!"

Fang Yue showed a smile like a little fox, and he pitted the rich second generations.

Put it on the heads of civilians, even if it is a strong person in the rotation realm, let him take out 8 million star crystals to buy a bottle of blood medicine, they need to consider it, hesitate for a moment.

But those dude disciples don't care!

They spend money like dirt, using resources piled up in the realm of cultivation. On the way of cultivation, the ghost knows how much resources they consume.

Eight million star crystals solve the hidden danger of accumulation of impurities in the body caused by taking too much pill in the past.

Worth it!

Kardashian was taken aback for a moment, and a complicated expression flashed in her eyes.

This Fang Yue is definitely better at doing business than her.

Her products are simply customized for those second generations!

"How many flame potions do you have in your hand?"

Kardashian has no objection to Fang Yue's offer. If experiments prove that the flame potion in Fang Yue's hands can really drive out impurities in the body without any side effects, its price will probably double!

The problem is only how much supply this Fang Yue has.

If there is only one bottle, it is an occasional work, then its value and significance will plummet.

If it is in batches, Kardashian is almost foreseeable, and a promotion and salary increase are waiting for her.

"How about a hundred bottles? I have more stock in my hand if needed."

In Fang Yue's words, Kardashian was injected with a stimulant.

"Okay, I will inform my supervisor. It is a fresh blood medicine. It is difficult for me to determine its value. Only my supervisor can call the shots for me!"

Kardashian understands the rules of the workplace.

If she brought this blood medicine back, it would naturally be a great achievement. The business points earned are at least four digits.

But she shot her head. She has excellent business in Galaxy Bank, but she is just an ordinary employee with no background and status. How can she not be suppressed.

But it would be different if she gave the credit to her boss!

Her boss, Ziyu, is the daughter of a certain vice president of the Galaxy Bank. She is a strong man at the pinnacle of Yin and Yang. Her status and background are completely different from her. This credit is given to Ziyu. Ziyu will surely be happy, that person The vice president knows her contribution, and will secretly write down her favor.

At that time, although business points will be reduced.

But the gains in favor are difficult to measure with business points.

Fang Yue saw the careful thoughts of Daishan, he did not feel disgusted by it, but felt that Kardashian knew how to advance and retreat and could make good friends.

Often such a small person can live longer, and only after a long life can he become a big person!

Why is Fang Yue able to live till now, not because he is strong, but because he pretends to be awkward every day.

Others never knew his hole cards, so he was able to save him time and time again!

Soon Kardashian's boss appeared.

A wormhole appeared, and a young man with purple hair and a beautiful body, wearing a black low-cut evening dress, appeared in front of Fang Yue.

Her figure is tall and her purple lipstick shows a touch of enchantment.

A pair of dark eyes, pure and flawless, like two inlaid gems.

As soon as she appeared, Fang Yue felt his heart beating twice in his chest.

This is a throbbing from male instinct, without any charm, but it makes Fang Yue's body feel!

"Ziyu has seen everyone!"

Ziyu's voice is very nice, like a yellow oriole, with a crisp voice.

When Fang Yue saw Ziyu, the throbbing in his heart became more obvious.

He couldn't help taking a deep breath, before he calmed down his sanity.

"Miss Ziyu, Kardashian must have already told you about the situation just now! My flame potion is here for you to experiment with. If possible, I hope to establish a long-term cooperation with you!"

Fang Yue was straightforward and didn't hide his true purpose at all.

The star crystals sold by this flame potion are not the purpose.

Fang Yue's purpose is to establish a long-term partnership with Galaxy Bank through this blood medicine.

Only benefits can link them together, and this partnership will bring huge benefits to the planet.

Ziyu received the flame potion in his hand and put it into a portable instrument.

Di di di di, soon, the test result of this medicine was officially released.

There is no problem, and the conclusion drawn is exactly the same as Fang Yue introduced before.

Chapter 1212: Establish trade relations

"There is no problem with the medicine. Each bottle of 10 million star crystals. I want the exclusive right to sell and purchase. Without our permission, even your relatives and friends, or even yourself, cannot take it!"

Ziyu's conditions were relatively harsh, but the price offered was higher than Fang Yue's.

monopoly!

Only monopoly can generate real huge profits.

Fang Yue didn't say anything, but agreed directly.

"no problem!"

"This flame potion, if you supply it for a long time, how much can you provide us with every month?"

In Shangyanshang, Ziyu needs to judge the benefits of this thing for the Galaxy Bank through the output of Fangyue's production of flame potions.

"Can I say that I boiled dozens of pots at the time, and I still have 50,000 or 60,000 bottles?"

Fang Yue muttered in his heart, this thing was not configured by him, but was refined with small iron.

Of course, Fang Yue didn't say this in his heart.

This thing is rare and expensive, and he said that this blazing potion is too cheap, and he is afraid that it would be difficult to get the attention of Galaxy Bank.

"Five hundred bottles a month, this is already my limit!"

Fang Yue gritted his teeth and pretended to be reluctant.

A ray of light flashed in Ziyu's beautiful eyes.

"it is good!"

Ziyu quickly took out an electronic contract.

"On behalf of the Galaxy Bank, I signed a five-year contract with you. You are responsible for providing 500 bottles of Fire Potion to our Galaxy Bank every month. Our Galaxy Bank will pay you 500 million stars. The five-year contract is completed. , We can consider renewing the contract again."

Ziyu is decisive and neat, without any muddle-headedness.

Fang Yue has a good impression of this purple jade, what he likes is this simple and neat character.

"There is no problem with this contract! I will pay the goods for the first three months first!"

Fang Yue took out 1,500 bottles of Fire Potion at a time.

Ziyu's eyes lit up.

"Sure enough, it is a hero! If the earth is really gone, you can call us at any time. With your skill in refining bloodline potions, my Galaxy Bank can guarantee you safe and sound!"

Ziyu Jinkouyu said that she did not represent himself.

Behind her stood a deputy governor of the Galaxy Bank. With the touch of her fingers, she could gather a massive flow of funds.

Money can make you push ghosts!

Who does the Galaxy Bank really want to protect? Forces at the level like the Dark Moon plane are not yet qualified to object to it.

"Thank you Miss Ziyu for sheltering!"

"Ok!"

A cooperation negotiation was successful.

Ziyu quickly opened the black hole with the contract and left the demon realm. She has limited time to be able to take the time to talk about cooperation with Fang Yue, which is not easy.

In a short while, Fang Yue's account had 1.5 billion more stars!

Kardashian's eyes on Fang Yue changed.

Fang Yue has successfully transformed from a three-star VIP client to a partner of Galaxy Bank.

As long as the flame potions provided by Fang Yue can be sold at a good price, then he can become a veritable guest of Galaxy Bank.

At that time, in order to ensure that its goods will not be interrupted, Galaxy Bank will secretly send someone to protect Fang Yue!

1.5 billion stars are credited!

Li Qingyun and others saw this scene with their own eyes.

At this moment, Li Qingyun's heart is tumbling and boiling!

This kid is getting richer and richer! If these 1.5 billion Star Coins can be converted into resources, how many strong people can they cultivate for China?

Tyrant!

Big brother!

Li Qingyun now has an urge to hug Fang Yue's thigh.

"Fang Yue, what do you plan to do next? Will you return to the Imperial Capital?"

Li Qingyun looked at the army of the Sirius plane behind Fang Yue, as well as the ferocious Zerg tribe full of mountains and plains.

His heart was full of excitement. As long as Fang Yue ordered the two armies to come out to support the Emperor, the crisis of the Emperor would be greatly eased.

"Far away can't quench the near thirst. If these 18th princes get news of the defeat of the reinforcements, they will definitely launch a general attack on the Imperial Capital at the first time. And this news cannot be blocked, and it will let the 18th princes at the latest. I know, and it will take us at least three days to reach the Imperial Capital!"

Fang Yue shook his head and rejected Li Qingyun's request. Although he had a large number of men and women, he was still a bit unable to solve the siege of the Emperor. What's more, Fang Yue didn't believe that the Emperor would really be broken.

This Huaxia water is very deep, and many experts in the leader realm and saint realm are watching in secret. They couldn't really watch the Emperor Jing being broken in the siege. There really is a problem, even if the big bosses don't come forward in person, they will let their people help Huaxia win.

With this thought in mind, Fang Yue was more willing to focus on the conquest of the Dark Moon plane.

Could it be that the Dark Moon plane can conquer the earth, but the earth does not have the slightest strength to fight back?

Jiuyouhou is dead, and the territory he left is around the space node.

Keep it, it will definitely be cheaper for the two guys Mingyuehou and Tianlinghou.

Fang Yue is going to roll up his sleeves and do a big job, come to encircle Wei and save Zhao, invade the Dark Moon plane, and rob them first!

Fang Yue told Li Qingyun and others about his plan, and Li Qingyun showed an expression of shock.

"Fang Yue, you are brave. Once something goes wrong in the enemy's hinterland, no one can save you!"

Li Qingyun discouraged Fang Yue. He knows Fang Yue's good intentions, but he can't watch Fang Yue jump into the fire pit by himself!

Fang Yue looked at Wang Feng and wanted to ask for his opinion.

Wang Feng's eyes showed a decisive killing air.

"Huaxia's prestige, don't be insulted! If you violate my Tianwei, you will be punishable even if you are far away! I agree with Fang Yue's plan. If it really leads to a war, I will summon some old brothers from the grave. They have fallen asleep. After a while, it's time to come out and move your muscles and bones!"

Wang Feng is extremely decisive.

He was born in the last years of the Warring States Period. In that era, there was no peace at all, wars were flying, and blood drifted.

He led his soldiers to conquer the Quartet not confined to the territory of China, and even some small dimension planes were within their scope of attack.

There is nothing in Wang Feng's heart to take a step back and protect himself. There is only the awakening to fight or die.

Compromise, you can't get the respect of the opponent, and only by desperately hitting the opponent can you make your opponent timid.

"Crazy, you are all crazy!"

Li Qingyun screamed loudly, but Fang Yue and others didn't care!

"Guards, who wants to join me on the dark moon plane, burn, kill and plunder! I will keep 50% of the treasures obtained, and the remaining 50% will be equally divided among the soldiers!"

Fang Yue raised the battle flag high.

The soldiers of the Sirius plane under his command boiled immediately!

Fang Yue's offer was too generous.

Usually, the generals go out, even if they triumphantly win the triumphant triumphant triumphant achievement that they can be divided into is already thank god!

"The God Envoy is mighty!"

"The God Envoy is mighty!"

"I am willing to follow the divine envoy to march and conquer the Dark Moon plane!"

Many soldiers on the plane of Sirius were full of enthusiasm. They were not afraid of war, let alone the enemies of the Dark Moon plane!

Accompanied by shouts and shouts.

Fang Yue set off immediately.

Of course, many of the corpses, armor, storage bags, etc. left underground were also searched and cleaned by his army.

Fang Yue Shounuo, as expected, only took 50% of the trophies, and the rest was allocated to the soldiers who accompanied him.

The soldiers on the plane of Sirius were even more convinced by Yue Xin.

Why are they desperately leaving their hometowns to fight in blood? Isn't it for a chance, to accumulate a lot of wealth, to assist in breakthroughs, and to reach a higher level!

Follow the other generals, the generals eat meat, they eat dirt.

And follow Fang Yue, Fang Yue eat meat, they can drink the broth!

You know, the war just now is not fierce for them.

In most of the battle, Fang Yue took the risk and killed Jiuyouhou. They just beat Soy Sauce and shouted 666.

Then a lot of resources were allocated for no reason.

This made them love Fang Yue the general even more.

Li Qingyun, who was next to him, saw this scene, and was a little bit ridiculous in his heart. The soldiers of these Sirius planes really have well-developed limbs and simple minds. Are Fang Yue's things so easy to take?

Didn't you see Prince Dan seeing off Jing Ke by the riverside of Yi River?

Why did Jing Ke die?

Prince Dan was destined to let his confidant die as soon as he sent him.

For the same reason, Fang Yue gave them all the benefits. Can they not do their best to fight for Fang Yue?

However, Li Qingyun just watched silently and didn't say anything. After all, the men and horses on the plane of Sirius were outsiders. After all, Fang Yue let the army invade the plane of Dark Moon, it was also for the sake of the earth!

One day later, Fang Yuebing approached the Dark Moon plane, and in half a day he swept away eight cities and 231 villages under the name of Jiuyouhou.

Wherever he went, no piece of armor was left, from the eighty-year-old old man to the children waiting to be fed, all slaughtered.

For half a day, Fang Yue slaughtered nearly tens of millions of people on the Dark Moon plane.

Some people estimate that Fang Yue has swept over at least 100 billion spiritual stones, and various materials, herbs, and minerals are piled up like a mountain, worth at least 500 to 600 billion.

For a time, Fang Yue's fierce fame rose and spread throughout the Dark Moon plane.

The next day, Fang Yue retired and assisted the emperor.

Three of the 18 princes led an army to intercept Fang Yue.

Li Qingyun looked at a white robe, harmless to humans and animals, as if he was a flamboyant young Fang Yue, and a deep fear appeared in his eyes.

Fierce, ruthless, and heroic.

Li Qingyun wanted to extract various words from his mind to describe Fang Yue.

But no word can accurately describe the image that appeared in Fang Yue's mind.

Fang Yue's decisive use of troops completely exceeded Li Qingyun's imagination.

Fang Yue complied with his promise and allocated 50% of the result to the soldiers on the Dark Moon plane.

Soldiers on the plane of Sirius, who were tempted by huge profits, were incarnate into bloodthirsty and vicious greed, squeezing every resource in Jiuyouhou territory.

Their combat power is several times better than usual.

Jiuyouhou was defeated and fell, and none of the soldiers he led to the expedition returned. This made Jiuyouhou's territory already strong in the outside world, leaving only an empty shelf.

Fang Yue's army approached, and it was a one-sided massacre of the residents in Jiuyouhou territory.

Chapter 1213: Great Warlord

After Fang Yue seized a large amount of spoils, Li Qingyun even suspected that this Fang Yue did not invade the Dark Moon plane in order to understand the besieged capital.

His real purpose is to kill people and overtake goods.

Viet Nam is not the most terrifying.

The scariest thing is killing.

All the corpses were swallowed by Fang Yue's zerg army.

Those Zergs eat everything and no grass grows wherever they go.

Eighty percent of the Zerg races have raised at least one small realm level, and the Zerg's mother emperor has also been promoted to two small realms.

Promoting from the first level of the Yin-Yang realm to the third level of the Yin-Yang realm, to the mother emperor of the Zerg tribe, seems to be a simple accumulation of resources!

Fang Yue's path is exactly the line of a troubled man who uses war to support war.

Unruly, pure and incomparable law of the jungle.

On the Dark Moon plane, the voice of conquest continued.

This is a great shame for them.

In the eyes of the inhabitants of the Dark Moon plane, people on earth are natives, something inferior to reptiles.

But it was these natives who were inferior to these reptiles. They actually defeated the coalition forces of their three princes and slaughtered thousands of their compatriots.

"Fang Yue, what on earth do you think? This kind of method of massacre and extermination is not advocated in China at all!"

Li Qingyun complained to Fang Yue.

The matter is over, and he has no power to recover.

But for Fang Yue's choice, Li Qingyun just felt reckless.

This will not only take a deep hatred with the Dark Moon plane, but also let some people in the country come to crusade.

Huaxia pays attention to benevolence and righteousness, and sometimes the prisoners captured alive are reluctant to kill.

But Fang Yue slaughtered innocent civilians and plundered their assets. What is the difference between this and executioner?

When Li Qingyun complained, Fang Yue was reading and chanting.

After waiting for a long time, Fang Yue just put down his scriptures and said.

"My team is a warrior from the plane of Sirius, a warrior from the Zerg race, why should I give those people an explanation!"

Fang Yue's voice was faint.

Don't care about these at all.

Fang Yue saw the enthusiasm in the eyes of those Sirius planes looking at him after the spoils were distributed.

Also after the Zerg warriors swallowed one corpse after another, they felt their growth and strength!

This is his subordinate.

Loyal and fearless.

In the troubled times, Fang Yue was not unprepared to become a hero who saved the country and the people.

His goal is to be a great warlord.

Heroes, because of their faith and righteousness, are easy to be seen through their weaknesses and involved in control, but unruly heroes are often the existence that everyone fears most.

Fang Yue's deeds soon spread to the earth, but only a handful of people knew the truth of this matter.

After all, Fang Yue's battle results were too terrifying, and the time was short, and the news had not completely spread.

Huaxia Imperial Capital, in an ancient mansion.

A burly middle-aged man stood up when he heard the news, like a demon god, his body exuded an aura of oppression.

A pair of eyes, King Kong glared, with a temperament of no anger and might.

"You said that Fang Yue led the army and the Zerg on the plane of Sirius and defeated the more than four million reinforcements composed of the three princes on the plane of Dark Moon, beheaded a prince, and killed him back the same way. He plundered Dark Moon. The massive wealth in the plane is still killing Yingye, the tens of millions of residents of the Dark Moon plane, even the children waiting to be fed?"

The middle-aged man has a very high status. It is Lei Ming, the chairman of Tiancheng Biological Co., Ltd. Some people say that he is an ancient man who has lived for at least 700 years. He has an ancient pill in his hand and relies on the blood qi pill. , Cuiguwan, two basic medicinal pills started, he has mastered the technology of mass production of the two medicinal pills, which allows the practitioners of the earth to quickly step into the level of innate realm.

He can be regarded as a pivotal figure on the whole earth, with a solid industrial foundation.

"President Lei, my news is definitely not wrong. This is from General Li Qingyun. General Li Qingyun personally witnessed that battle. Fang Yue's combat power was extremely high, and he had a lot of divine power in his hands. Erupted with strength comparable to that of a strong person in the Yin and Yang realm!"

A fat man with a rich figure patted his fleshy breast to ensure that when his palm was slapped on his chest, the fat on his chest was trembling because of excessive force.

This fat man is also quite famous in China. Chen Nuo, the second son of the Chen family, is not very talented in cultivation. Even with the accumulation of resources of the Chen family, he has only reached the third level of the Innate Realm for several years. , In today's turbulent earth, this little strength is powerless to save life.

But by the way, Chen Nuo is all-sided and exquisite, and he has placed cronies in all aspects. There are many sources of information, and it is a bag inquiring.

Many big bosses want to get some of the most cutting-edge news from his mouth.

This time, Lei Ming asked Chen Nuo to confirm the truth of the news.

After all, this news is a bit too sensational. In the confrontation with the Dark Moon plane, the earth has always been in a weak position.

The situation of being able to fight against the Dark Moon plane to wound the enemy a thousand, and self-defeating 800 is already considered a big victory.

And like Fang Yue, who suffered very little loss, but the battle that could not raise his head on the army of the Dark Moon plane was simply a mythical existence.

"The earth is about to enter the second stage!"

The topic of thunder suddenly changed.

The fat on Chen Nuo trembled involuntarily, and his eyelids bounced twice involuntarily.

Breathing became a little heavy.

"President Lei, what do you mean? Why can't I understand?"

Chen Nuo squeezed a reluctant smile on his fat face.

Lei Ming said meaningfully: "Chen Nuo, you are a bit dishonest! My thunder is not bad for you! Over the years, how many resources have you taken away from my Tiancheng Biological Co., Ltd.! I know you got it. In order to awaken the bloodline talent of the Sky-Swallowing Beast, each realm requires at least ten times the resources of practitioners of the same realm, but at the same time it is 15 or 6 times stronger than practitioners of the same realm in terms of combat power! This is your secret , It's your trump card, the Chen family doesn't know, so it's not optimistic about you! So you rely on selling news to seek its resources and find breakthroughs! The Chen family can't tolerate you, but I thunderously raised you! The news just now is worth a thousand souls Shi, you can now take the spirit stone and leave!"

The words of thunder caused Chen Nuo to breathe suddenly.

His eyes were a little flushed.

Chen Nuo's heart surged. He did not expect that his deepest secret would be exposed by thunder.

And this Thunder seems to know a lot of things, not what he said.

"Mr Lei, I was wrong! I shouldn't hide that news from you!"

Soon, Chen Nuo made a decision. Since this thunder had already known the matter, there was no need to hide it.

"The Earth's recovery is divided into three stages. The first stage is the stage of aura recovery. Although the aura is revived, it is actually through the birth of space cracks and space channels to let the aura of other worlds and planes pour out. Next, instill auras into the earth. In this stage, all the auras of the earth come from the outside world, not produced by itself! After the first stage, there is a second stage. At this time, some famous mountains and rivers on the earth, ancient relics will emerge. It has emerged that the territory of the ancient earth is thousands of times that of the present earth. Those territories have been sealed off with the end of the law. With the end of the age of the law, the earth will return to the ancient times, and ancient creatures will emerge one after another. Come out and change the current pattern of the earth! And this is far from the end. After the second phase is over, it is said that there will be a third phase. In this phase, some of the earth's strong men who were born in ancient times, even the last civilization era will be Strong return!"

Chen Nuo said surprisingly, this is the top secret of the earth.

There are definitely no more than one hundred people who know now. Even the thunder had only vaguely heard about it, knowing that it was half-clawed, half-coaxed, half-deceitful, and only then came out the truth from this fat man.

"That's it! I don't know where did you get the news, Chen Nuo?"

Thunder's tone seemed loose but was actually quite nervous.

The news is not important, what is important is the source of the news.

This news represents the future direction of the earth.

Lei Ming will also judge the true or false based on the source of the news. If it is true, he will make arrangements in advance and place a shocking bet.

If it is false, he can also use it cleverly, spread it out, and profit from it!

"This is when my father Chen Yun was offering sacrifices in the ancestral hall. The void split and an inscription was lowered. The inscription described the three stages of the earth's recovery!"

Chen Nuo spoke.

The thunderous pupils shrank suddenly!

The Chen family, Lei Ming still knows, this is one of the most low-key but most powerful families in the Imperial Capital today.

Chen Yun is the Patriarch of the Chen family. Although the displayed cultivation base is the peak level of the Yin-Yang realm, Lei Ming knows that he is a practitioner older than him!

Chen Yun's yin and yang realm peak was only suppressed by the earth's heaven today.

Once the seal of the Heavenly Dao is unlocked, Chen Yun will be able to restore his cultivation to the leader realm in no time!

And Chen Yun's ancestors are even more serious. They are the famous ancient giants on the earth. He has authored books on practice such as "Prenatal Breath Jue" and "Zhixuan Pian".

The word Zhuji is definitely a masterpiece for pioneering wasteland and leading the way in the world of spiritual practice.

The inscription of the ancestor Chen Tuan should not be wrong.

Lei Ming couldn't help be more convinced of the three-stage statement of the Earth's recovery.

"If the earth's recovery enters the second stage, the most valuable place is the Imperial Capital. The Imperial Capital, suppressing the fortune of dragons, is an ancient capital of several dynasties. There are dragon veins in the underground. No one believes it that it is worthless!"

Chen Nuo talked freely and relaxed.

The most critical news has been revealed to Thunder, and the rest is the icing on the cake!

Lei Ming waved his hand to signal Chen Nuo to go down. The value of Emperor Jing is known to Chinese people with a little bit of common sense, okay?

The key is that this Emperor has no qualifications to fight for. Don't look at him in China at this stage, because the tiger is not at home and the monkey is the king.

Lei Ming understands his weight and value. Most of the reason why he submerged or fell asleep was because his aptitude was not high. Since his cultivation, he is still at the ninth level of Yin-Yang realm, which is quite good to outsiders.

But among the ancient practitioners of China, there is no weight at all! His talent is mediocre, if it weren't for his excellent alchemy, it would be difficult to gain a foothold in the entire imperial capital.

The water in the imperial capital is very deep, where dragons and snakes gather, and the number of potential cultivators that thunder recognizes alone exceeds ten people.

Each of these ten people is not simple, all of them are stuck in the bottleneck of the Yin-Yang realm, and they are only half a step away from breaking through to the real realm.

Chapter 1214: Chen Nuo

If these ten people make a move, the so-called 18th route princes are as ridiculous as toys expected, and the powerful at the Yin and Yang level can sweep at will without being hurt! But because of various restrictions, they couldn't make a move directly. They could watch the imperial capital be besieged by others, and suffered a humiliation that had not been suffered in a thousand years.

Lei Ming is now wondering if he wants to occupy a little-known hill.

Then use the opportunity of the recovery of the mountains and rivers to resonate with them and strive to break through to the ground level!

"This benefit?"

Chen Nuo was taken off guard, and there was a hint of wretched smell on his fat face.

This brother belongs to the brother, and the benefits are still needed.

"This news counts you as fifty thousand spiritual stones! Don't be unsatisfied. Even if you consume ten times the resources of an ordinary person in your practice, making good use of these fifty thousand spiritual stones at the level of the innate realm will allow you to break through one or two smoothly. A small realm!"

"Thank you for the reward, Boss Lei!"

Chen Nuo clasped his fists and withdrew.

But his face was somber as water, what an important news, he actually gave fifty thousand spirit stones!

Seeing Chen Nuo's back left, Thundering's eyes narrowed slightly, and a touch of murderous intent floated past.

He has no shortage of resources, but he can give it to others, not Chen Nuo.

Chen Nuo is a chess piece arranged by Chen Yun. It seems to be ignored in the Chen family, but it is definitely a diehard of the Chen family!

Once the recovery of heaven and earth aura enters the second stage, the storm is surging, and the heroes will compete. At that time, China's internal fighting will definitely be indispensable.

It is difficult to tell whether the Chen family is an enemy or a friend.

If he becomes an adversary, wouldn't he be an adversary to cultivate Chen Nuo now?

This Chen Nuo took the path of the Sky-Swallowing Beast, and he was destined to not be too weak. It would be a step to delay him!

The murderous in Lei Ming's heart also faded. Maybe after the rejuvenation of Heaven and Earth reached the second stage, Chen Nuo would still grow up, and it would be difficult for him to pose any threat.

After leaving the thunderous Chen Nuo, a ridiculous smile appeared on the corner of his mouth.

"Well, you are thundering, you hide so much careful thoughts from me. You want to kill me because I think you are my brother!"

Recalling the scene just now, Chen Nuo couldn't help feeling that cold murderous intent was like a thorn in his back.

For Thunder, it is difficult for him to give birth to any good feelings.

"However, although I have told you some news, it is true and false. There are indeed three stages in the recovery of this earth, but these three stages overlap! The first stage has not come to an end, but the second The stage is about to begin! Those ancient ruins are already being born one after another, and the great age of cultivation that belongs to the people on earth is probably coming soon too!"

Chen Nuo left and ran towards the remains of Jingnan Ruins.

This Fang Yue seems to be a big rich man, selling the news to him might be able to make a fortune!

At this moment, Fang Yue led the army out of the scope of the ruins.

In Jingnan, Fang Yue encountered an unprecedented siege.

The three-way princes who withdrew from the emperor had already laid a net around the southern part of the capital.

They did not choose to head-on, but arranged a lot of formations, waiting for Fang Yue to throw himself into the net.

"Are you here?"

Fang Yue stood in a corner of the southern city of Beijing, his face was as usual, and he was not surprised at the encirclement and suppression of the three princes.

This is the best place to kill.

The ruins are too dangerous, and there are a lot of weirdness hidden in them.

It is difficult for them to guess Fang Yue's marching route when they walk out of the ruins and change locations. After all, this Fang Yue is typical in the eyes of the princes of the Dark Moon plane to play cards not in accordance with common sense.

Every time Fang Yue made a choice, they were extremely surprised.

For example, Fang Yue abducted an army from the plane of Sirius and attacked the plane of Dark Moon. This plane of Sirius was originally a good for the invaders of the earth, so how could he enshrine you as a divine envoy? And how courage Fang Yue is, after killing Jiuyouhou, he even dared to blitz and attack the territory of the Dark Moon plane. He was about to break the sky, and the monarch of the Skywind Empire on the Dark Moon plane heard the news, and was about to be conquered by himself.

This is a shame that is rare in thousands of years for the Dark Moon plane.

And this incident actually happened in his country, his personal emotions are simply unacceptable!

Fang Yue is alone this time. The Zerg army has been housed in the Worm's Nest by the Worm King. The Worm King's Worm's Nest is equivalent to a storage artifact that can store Zerg warriors. Only the Zerg warriors multiplied by the Worm King can do so. Into it.

The size of this Cordyceps is very small, only the baby's thumb is big, and it is very convenient to be carried by the Emperor.

And the army on the plane of Sirius stopped at the exit of the ruins.

Fang Yue vaguely felt that this Demon Realm might be a very crucial place, and it could involve some secrets of the earth.

This time Fang Yue prepared to fight the three princes alone.

He walked outside Jingnan City.

Seeing the formations of the blocks stand upright, each block is exquisite and deep.

The three-way princes also understood that He Fangyue's army could not be forced, the victory or defeat was the Tianfeng Empire.

But their losses are their own.

Among other things, Fang Yue has millions of troops under him, and he is also a warrior from the plane of Sirius and a Zerg. If they are really swarming, they must have suffered heavy losses, even if they can win, they will win tragically.

So they wanted to use this peripheral formation to consume as much as possible the vital power in Yixia Yue's hand.

Fang Yue's source of troops has been polished to a great extent, and then they defeated it in one fell swoop.

Their abacus is very good.

But Fang Yue is not stupid.

He really let the rushed army attack these formations, and he must be severely hit by the formations.

Fang Yue is the ancestor of playing formations, and he can tell at a glance that these formations are a series of formations, one big formation is buckled with a big formation, killing formations, illusion true, lost formations, trapped formations are all kinds, and they are impossible to defend!

But Fang Yue didn't follow the opponent's routine.

He directly teleported past the opponent's formation.

The formation blockades the space, but it also depends on the opponent's attainments in space.

Fang Yue's comprehension of the Heavenly Way of Space, it is estimated that even the imaginary fairy who specializes in this way would be ashamed of it.

Fang Yue rushed to the army of the three princes on the Dark Moon plane.

"Where is this? Who am I?"

Fang Yue cried out and fell into a tent.

There was a confused look on his face.

Can you transfer it to another place next time?

In the tent, Fang Yue was a little breathless with three powerful breaths.

The three big bosses are all strong at the Yin and Yang level!

These are the three princes of the Dark Moon plane, and it is estimated that they are also the leaders of the three-way army!

Fang Yue's teleportation point was immediate.

But he didn't know how to calculate, he would fall into the marshal tent of the three army camps!

The three princes gathered together and were discussing about dealing with Fang Yue around a desk.

There is also a portrait on top of the desk. The technology of this portrait is quite good, not at all inferior to the high-resolution photos.

Who is the portrait?

I'll take it, so familiar!

Isn't this me?

How did that happen?

Fang Yue is a little confused!

Are they planning to kill me?

But Fang Yue was not the only one who was trapped. The three princes of the Dark Moon plane were also confused.

This person's face is familiar, I really want to see it from somewhere just now!

Wait, isn't this Fang Yue in the portrait?

But why did he throw himself into our tent?

Enemy attack!

This word suddenly appeared in the hearts of the three princes.

But before they shouted, Fang Yue had already split the world, turning this area of one hundred meters into a small independent space.

All the sounds, images, and images inside can't go out.

Even the suppression of the outside world has been temporarily cut off!

"Fang Yue, did you come into our army to kill the generals of the three armies?"

A prince snarled at Fang Yue in a stern and inner voice.

But his obvious lack of confidence is not that he is not confident, but that Fang Yue is too weird.

We obviously set up a lot of formations around Jingnan City, and we can't even fly a fly. How did your kid come here? Is it so spicy?

There is more! Our three armies discussing military affairs are 100% secret. Even my little wife and eldest son don't know. How did you find it?

The most important point is that Fang Yue dared to come here alone, he must have his own cards.

The ghost knew that Fang Yue didn't come here on purpose. He entered here by mistake and happened to meet three princes in a meeting.

"I'm here to attack and kill you, how can you drop it!"

Fang Yue recovered from the panic. Is this really disrupting my arrangements?

"Bold thief, dare to assassinate the marshal among our three armies, today we will let you have no return!"

Another prince of the Dark Moon plane spoke, and he was cheering for the other two princes.

Are the three of us afraid of Fang Yue alone?

Fang Yue slowly said, "Actually, I didn't want to expose my hole cards so early, but being able to kill three princes at once is worth it. Anyway, no one else knows!"

Fang Yue's voice fell.

A figure walked out slowly from a crack in space.

A puppet at the peak of the leader realm in the burial tower slowly walked out.

Fang Yue does three powerful men in Yin-Yang realm alone?

The deity is here, maybe it can be easily crushed, but he is just an aura!

The opposing prince is the best in the Yin-Yang realm. Maybe there is some hole card that can kill him?

Fang Yue is timid, he is greedy for life, he is afraid of death.

So simply didn't try this spiritual qi clone, and directly asked the deity to send out this puppet at the peak level of the leader.

The breath of the peak of the leader realm fell, and there was even a wisp of pressure from a saint in it.

The three princes peed instantly.

What's wrong with this? Isn't it a good idea, this earth is suppressed by the heavenly way, can't all the strong who exceed the level of the leader be able to come?

What kind of situation is this?

This buddy is about to become holy! This is where the people on Earth recruited foreign aid. The big bosses of this series are standing on the top of the pyramid in the Dark Moon plane!

"You guys, this is a violation!"

One of the princes rebelled.

Fang Yue didn't bother to pay attention to him. If he violated the rules, he would violate the rules. No one knew.

Chapter 1215: Fall of the Prince

His independent space cuts off the Dao of Heaven, strictly speaking, it is not even the territory of the earth.

As soon as the puppet at the pinnacle of the leader realm shot, all three princes were shaken to death, with no injuries on the outside and complete souls.

Fang Yue directly used the small white jade cauldron to sacrifice. It is rare to have such a complete body, which is definitely a good sacrifice material.

As for their wealth, the Tiger Talisman of the Three Armies was also confiscated by him.

The arrogant three-way army commander was thus destroyed by Fang Yue.

Fang Yue guessed that this might be the fastest and worst prince on the Dark Moon plane in history!

After reaping enough benefits, Fang Yue removed the isolation from the space barrier.

The puppets at the pinnacle level of the leader realm returned to the burial tower along the unclosed space cracks.

The three princes fell.

No one in the army!

The combat effectiveness of the three-way army has dropped sharply, but no matter how weak they are, they are still millions of people!

When Fang Yue's eyes rolled, he suddenly had an idea.

A strand of his spiritual thought entered the small white jade cauldron, attached to the sacrificial object, and came to the plane where Fang Han was.

Fang Han is at ease at this moment!

During this period of time, Fang Yue gave him more and more sacrifices, and the cultivation level of this sacrificial expert is getting higher and higher. The origin of this evolution is making up for his consumption and deficits over the years.

This gave him a glimmer of hope and confidence in the confrontation with the Destruction Demon.

Fang Yue's spiritual thoughts came, and Fang Han was the first to feel his emotions.

He was surprised at what the origin of this kid was, and the essence of his soul was so tough that he could travel through time and space to the plane where he was.

Fang Han didn't know that Fang Yue's soul tenacity was only one aspect of it, and more importantly, Fang Yue had already incorporated his understanding of space and heaven into his soul!

His soul itself is protected by the extremely high and deep space heaven, and naturally will not be affected by the power of space.

After Fang Han came into contact with Fang Yue's divine mind, he asked with great interest: "I can sense the pure blood of our Fang family from the essence of your soul! But even if it is from the Fang family, it is impossible for a ray of spiritual thought to travel countless distances to this place where I am trapped!"

"Perhaps because my soul is stronger in nature, and I am also proficient in space and heaven!"

The moment Fang Yue came into contact with Fang Han, Fang Yue immediately realized that this old ancestor's powerhouse, in terms of pure strength, this Fang Han ancestor was probably hundreds of times that of Ruyizi.

Ruyizi is already a leader among the virtual immortals, and may even have taken a crucial step.

And this ancestor is hundreds of times the strength of Ruyizi, so his realm is very likely to have reached the level of true fairyland!

In front of the real immortal, Fang Yue really felt that he was fragile as if he was an ant.

Without the slightest resistance, even every change in his thoughts will be caught by the other party. It is definitely not good to lie at this time and then be exposed.

"Space Heaven, that's how it is!"

Fang Han was taken aback for a moment, and then came to realize that if he cultivated the Space Heavenly Dao to an extremely high level, it would indeed be possible to do so by blending into his soul.

However, Ruyizi didn't ask too much. Everyone has his own secret, and even if his heirs have never met, he can't ask to know him well.

"Since you are here, let me chat with me! It's been lonely to be trapped in this place all these years!"

Fang Han spoke.

Fang Yue burned his eyebrows.

"Old ancestor, can this chat be changed to another day! I have a big deal here to discuss with you."

"Big business? What kind of business?"

Fang Han showed a look of surprise. With his cultivation level, even the disciples of the Fang family should be respectful and obedient to his words when they see him, but this Fang Yue is very different from what he imagined, and it seems that he doesn't respect his ancestor very much. .

But Fang Han prefers this attitude.

If you don't even have the courage to face the strong and remain neither humble nor arrogant, then even the highest level of cultivation is a waste.

The disciples of the Fang family should be courageous and strategic, and daring to take responsibility.

"Let's talk, what kind of business." Fang Han said. Not only did he not feel the slightest disgust at the Fang family disciple's presumption, but he gave birth to a trace of excitement and interest.

This world is cut off from other worlds, and Fang Han doesn't know how much time he has spent in this world. He lives like years and must maintain a high level of mental tension at all times. If it weren't for Fang Han's desire to protect the universe from being invaded by the Destroyed Demons, he would have already suffered a nervous breakdown.

The appearance of Fang Yue is that Fang Han has provided some fresh feelings. He burned a glimmer of hope and interest in this world again.

"There is a group of enemies outside, many of them three or four million, they want to kill me, I am very panic..."

Fang Yue laughed and said, but there was no panic on his face.

"Millions of people are going to kill you, what are you doing badly?" Fang Yue's words aroused Fang Han's interest.

Fang Yue's cultivation base is not high, but he has a lot of abilities to cause trouble. Millions of people were chased and killed, as if he had experienced it when he was young, but at what level was he at that time?

It seems to be the leader of the cult.

"You have seen my situation. The deity is trapped here and it is difficult to get out. If I leave, this world will be completely destroyed. This is the line of defense of the universe. Once it completely collapses, the entire universe will be exposed to destruction. Under the iron hoof of the clan. At that time, the vast universe of all realms will say that peace is rare."

Fang Han explained to Fang Yue that he was so powerful that he was a mud bodhisattva and it was impossible for him to protect himself. He was also powerless to help Fang Yue.

Fang Yue rolled his eyes and said, "Actually, the millions of people who besieged me are not very strong. The strongest is the level of Yin and Yang. The rest are shrimp soldiers and crabs, that is, those of the Rotating Realm. level."

Fang Han was stunned, "At this level of cultivation, I thought it was a yin-yang realm of millions, a leader realm! Killing them is just a matter of effort, but I guess you have any special requirements!"

Fang Han took a deep look at Fang Yue. This kid was absolutely mysterious and unpredictable. He could even enter this banned and isolated world. It is not easy to kill millions of Rotating Realms, the little ones at the Heaven and Earth Realm level.

That's right, in Fang Han's eyes, the rotation realm and the heaven and earth realm are both small, and even the yin and yang realm and the complete realm are also small. Without being in the realm of a saint, he doesn't even have the qualifications to be included in the Dharma Eye.

"Hehe is still the clever ancestor. I want to make these people die silently, with their souls separated from their bodies." Fang Yue showed a serious expression.

This involves his plan for the future. If successful, he can deceive a large number of people.

"Death silently! And the soul is separated from the body. If the number of millions is targeted at the strong above the realm, it may not be easy, but if there is only the world and the rotation state, it is easy for me. However, you must pay attention to cause and effect in everything. If you gain, you will lose. I can do it, but you have to pay the corresponding price!"

Fang Han spoke slowly, and there was a strange look in his eyes. This causal destiny is unpredictable even to the point of his cultivation.

But causal gains and losses cannot be out of balance, otherwise, disasters will inevitably occur.

"You want to benefit from me! As an ancestor, are you reluctant to help with this little help?"

Fang Yue pointed to Fang Han and said with excitement. He covered his chest with a distressed expression on his face.

Three black lines hung on Fang Han's forehead.

I don't know this stuff, this stuff is not my offspring, this stuff is not my offspring.

Fang Han's heart kept breaking and breaking, what a powerful family the Fang family is, how could such a shameless prodigal thing appear.

"Let's talk, what kind of business." Fang Han said. Not only did he not feel the slightest disgust at the Fang family disciple's presumption, but he gave birth to a trace of excitement and interest.

This world is cut off from other worlds, and Fang Han doesn't know how much time he has spent in this world. He lives like years and must maintain a high level of mental tension at all times. If it weren't for Fang Han's desire to protect the universe from being invaded by the Destroyed Demons, he would have already suffered a nervous breakdown.

The appearance of Fang Yue is that Fang Han has provided some fresh feelings. He burned a glimmer of hope and interest in this world again.

"There is a group of enemies outside, many of them three or four million, they want to kill me, I am very panic..."

Fang Yue laughed and said, but there was no panic on his face.

"Millions of people are going to kill you, what are you doing badly?" Fang Yue's words aroused Fang Han's interest.

Fang Yue's cultivation base is not high, but he has a lot of abilities to cause trouble. Millions of people were chased and killed, as if he had experienced it when he was young, but at what level was he at that time?

It seems to be the leader of the cult.

"You have seen my situation. The deity is trapped here and it is difficult to get out. If I leave, this world will be completely destroyed. This is the line of defense of the universe. Once it completely collapses, the entire universe will be exposed to destruction. Under the iron hoof of the clan. At that time, the vast universe of all realms will say that peace is rare."

Fang Han explained to Fang Yue that he was so powerful that he was a mud bodhisattva and it was impossible for him to protect himself. He was also powerless to help Fang Yue.

Fang Yue rolled his eyes and said, "Actually, the millions of people who besieged me are not very strong. The strongest is the level of Yin and Yang. The rest are shrimp soldiers and crabs, that is, those of the Rotating Realm. level."

Fang Han was stunned, "At this level of cultivation, I thought it was a yin-yang realm of millions, a leader realm! Killing them is just a matter of effort, but I guess you have any special requirements!"

Chapter 1216: Use everything as a dog

Fang Han took a deep look at Fang Yue. This kid was absolutely mysterious and unpredictable. He could even enter this banned and isolated world. It is not easy to kill millions of Rotating Realms, the little ones at the Heaven and Earth Realm level.

That's right, in Fang Han's eyes, the rotation realm and the heaven and earth realm are both small, and even the Yin Yang realm and the complete realm are also small. Without being in the realm of a saint, he doesn't even have the qualifications to be included in the Dharma Eye.

"Hehe is still the clever ancestor. I want to make these people die silently, with their souls separated from their bodies." Fang Yue showed a serious expression.

This involves his plan for the future. If successful, he can deceive a large number of people.

"Death silently! And the soul is separated from the body. If the number of millions is targeted at the strong above the realm, it may not be easy, but if there is only the world and the rotation state, it is easy for me. However, you must pay attention to cause and effect in everything. If you gain, you will lose. I can do it, but you have to pay the corresponding price!"

Fang Han spoke slowly, and there was a strange look in his eyes. This causal destiny is unpredictable even to the point of his cultivation.

But causal gains and losses cannot be out of balance, otherwise, disasters will inevitably occur.

"You want to benefit from me! As an ancestor, are you reluctant to help with this little help?"

Fang Yue pointed to Fang Han and said with excitement. He covered his chest with a distressed expression on his face.

Three black lines hung on Fang Han's forehead.

I don't know this stuff, this stuff is not my offspring, this stuff is not my offspring.

"In everything, the cycle of cause and effect, how much benefit you get, is how much you need to pay. This cause and effect cannot be broken, otherwise, there will be unforeseen disasters for you."

Fang Han sternly clarified the truth with Fang Yue.

The way of cause and effect is profound and profound, and it involves the operation of some of the rules of fate, even he can't explain it clearly.

Seeing Fang Han's appearance, Fang Yue finally understood that this ancestor was not joking with him.

"Well, then! I have three drops of Rank 5 Soul Liquid here, which have a powerful nourishing and warming effect on the soul! These three drops of Rank 5 Soul Liquid are dedicated to the ancestors, how about letting the ancestors do it for me once?"

Fang Yue reluctantly took out three drops of Wuchang Soul Liquid.

Fang Han was taken aback when he saw the soul liquid, and suddenly became pleasantly surprised.

The soul fluid is a rare treasure for repairing the soul. Over the years, he has fought and fought against the Destroyed Demons, which has greatly consumed the soul.

After the changes in the sacrificial rules, all the items sacrificed by Fang Yue became a strand of original power. This original power can nourish his viscera and help him recover some vitality and flesh, but it is not for the mysterious soul. A little help.

And Fang Yue's sacrifice to him with three drops of the Five Revolving Soul Liquid was tantamount to a long drought in the rain!

After these three drops of Rank 5 Soul Liquid were refined, his almost dried-up soul could be nourished and restored, at least allowing him to hold on for another thirty to fifty years.

"Good thing! This is definitely a good thing! Fang Yue, do you have any other enemies? I can kill you at the same time!"

Fang Han was extremely excited, and he promised Fang Yue: "Don't say it's the rotation realm, the heaven and the earth realm, even if it is the real realm, the saint realm is nothing in the eyes of your ancestors! As long as you can afford this soul I can kill them all for you!"

Fang Yue was speechless for a while, it turned out that his irregularities were all in the same line.

Didn't you tell me just now that you want to suppress these Destroyed Demons with all your strength, lest the creatures of the universe will be overwhelmed?

How can I free my hands to help me kill the enemy now!

"Ahem, ancestor, am I the kind of person who likes to make enemies? Who doesn't know that I am kind, kind and low-key, and rarely provoke enemies."

Fang Yue boasted shyly.

Fang Han glanced at Fang Yue: "You are kind, kind and low-key, and you will provoke millions of enemies. Don't talk to your ancestors. All the disciples of this Fang family are geniuses! Genius, general You are jealous. If you don't provoke others, others will count on you! Fang Yue, don't worry if you provoke enemies outside in the future, your ancestors will support you in everything! Our reputation is Kill out, not hide out. The enemy you can't beat, the ancestor will help you destroy him!"

Fang Han blew the big faro.

Fang Yue is hehe, he seriously doubted the intentions of this ancestor.

But he is not too embarrassed to speak out in front of his ancestors.

Fang Yue nodded, humbly accepting.

Seeing Fang Yue's attitude, Fang Han couldn't help but said with satisfaction: "Then it's settled. After receiving your benefits, I will do what I promised. Some small reptiles, small chores, just watch me kill them. Kill them!"

Fang Yue's spirit returns.

He just settled.

Looking up, I saw a huge whirlpool in the sky, and an invisible force spreading in the whirlpool.

Silently, all the soldiers on the Dark Moon plane fell down like straws.

Their bodies were not dead and fell to the ground, but their souls floated out with blank expressions on their faces.

Millions of soldiers on the Dark Moon plane are gone.

Seeing this scene, even Fang Yue's pupils were suddenly locked.

There was an unprecedented vast wave in my heart.

The saint is unkind, and regards the people as the dog.

The world is not benevolent, and everything is a dog!

At this moment, Fang Yue deeply understood the connotation and true meaning of this sentence.

In front of the real powerhouse, no matter what the world and the world, you are really not as good as a dog!

"Come!"

Fang Yue twitched his sleeves and put away all his souls.

Later, he opened the storage bag again and put away the corpses everywhere.

The vortex in the sky slowly closed, and disappeared in an instant.

All this happened is just a few thoughts changing time.

The army of three-way princes, millions of creatures, dissipated in an instant, without seeing people or dead bodies.

All this made Fang Yue feel a little bit like a dream.

But he quickly calmed down, and this path of cultivation still needs to be walked step by step!

Fang Yue stayed behind, and he planned to use Jingnan City as his base.

These formations are his natural moat, and even the attack of the strong in the Yin and Yang realm can be trapped for three days and five days.

Fang Yue returned to Jingnan City, walking lightly and quietly.

And the first time he returned to Jingnan City, Kardashian appeared in front of Fang Yue.

"The three princes are all dead?"

Kardashian's eyes are incredibly looks.

She stared at Fang Yue fiercely, the Galaxy Bank's intelligence network spread in all directions, the first time Fang Yue killed all of the three princes, she got the news.

However, this news was so magical to her, so unbelievable.

That is an army of millions, an elite division composed of millions of practitioners in the world of heaven, earth, and rotation, and among them are the strong men of the Yin and Yang realm. They are quietly here like Hot Tang Woxue. The world disappeared.

It's not that Kardashian has never heard of more sensational war rumors, but after all, it was heard and not seen.

"Well, it's all dead!"

Fang Yue said frankly.

"None is alive. Kill me first. You must be prepared to be killed."

Fang Yue said that it was an understatement, as if he was not killing millions of army, but just killing a nasty mosquito. Every word he said was light and light.

But the weight of every word is heavy.

Kardashian froze in place, she was dumbfounded.

Kardashian felt that he had to inform the Galaxy Bank and investigate the strength of the earth in more detail.

The water here is deep and unpredictable.

If we treat the earth as an influent civilization, she feels that the entire universe will suffer a great loss!

"Kardashian do me a favor! Build this southern city into a battle fortress!"

Fang Yue opened his mouth, and once again said astonishing.

Battle fortress, what level of architecture is that!

Even the weakest battle fortress can easily shut out tens of thousands of strong men of the world level!

But soon Kardashian recovered from the shock.

This Fang Yue is a fat sheep, a battle fortress that others can't build, Fang Yue may not be bad!

"Battle fortresses are divided into twenty-six major levels from Z to A according to their levels. Each major level is divided into 1-10, ten small levels. Battle fortresses of different levels also have a world-wide difference in combat effectiveness. But even the cheapest Z1 battle fortress, each one needs 100 million stars to buy."

Kardashian introduced Fang Yue cautiously.

This price is enough to scare away most upstarts like Fang Yue.

If you have money, you can't be so arrogant!

However, even if Fang Yue only sells a battle fortress, she is still making a lot of money!

"How about the performance of the Z1 battle fortress?"

Fang Yue listened, and the price was acceptable.

"The battle fortress of the Z1 model needs to consume 50,000 star crystals to maintain normal operation every day. It is made of Urgi alloy and can withstand attacks below the sixth level of the world without any damage. If the energy shield is turned on, the battle fortress It can withstand attacks below the rotation level. The Z1 battle fortress comes with thirty-six shaped cannons that can bombard and kill practitioners below the fifth level of the rotation level."

Kardashian briefly introduced the effect of the Z1 fortress. This is one of the most common fortresses in ground combat.

Its price is low, performance is stable, and it is simply a steel monster sweeping the world in low-level battles below the rotation level.

"This Z1 battle fortress works well, I want it!"

Fang Yue spoke, Kardashian's eyes showed a hint of disappointment, but at the same time he was slightly happy.

Disappointment is that Fang Yue is indeed a small native, and he still can't get rid of the constraints of his birth. He only decided to buy after hearing the effects of a Z1 battle fortress. Don't you want to listen to the effects of a higher-level battle fortress anymore? ?

The excitement is that even the lowest Z1 battle fortress, that is the price of 100 million stars.

Having made such a big deal, she can get a lot of money in commission.

Chapter 1217: Buyout

"Well, give me ten of the Z1 battle fortress!"

Fang Yue spoke again, and Kardashian was shocked!

Ten...

This battle fortress is said to be retail? When are they going to wholesale!

"Mr. Fang Yue, although this Z1 battle fortress is not very large, it is relatively speaking. A battle fortress can hold about two thousand people!"

Kardashian was afraid that Fang Yue had heard it wrong, so he set such a number. In case he wants to return the goods when the time comes, it is another trouble, it is better to explain things clearly in advance.

"Yes, it's ten! We have money!"

Fang Yue patted his chest and said confidently.

This thing is good, good quality and low price, the key is that it is suitable for battle!

Rotational realms are generally small bosses of the same age in the military. The main force in war is still practitioners of the heaven and earth realm. If the heaven and earth realm cannot be breached, he can fight back in time.

"Ok! Okay!"

Seeing Fang Yue's thoroughly subsoil buns and the nouveau riche's performance, Kardashian's 10,000 contemptuous eyes floated by, but on the bright side, she was still respectful and respectful.

Big money master!

This is definitely a big benefactor!

She opened a billion orders, she made it!

"I'm introducing other types of battle fortresses, well, it's like that kind of stuff that can't stop attacks at the rotation level, needless to say!"

Fang Yue spoke again.

Kardashian's eyes lit up suddenly.

Is there an order?

No way.....

"The following is the Z10 battle fortress, which is also the most high-end battle fortress in the Z series launched by our Galaxy Bank. Its main material is made of Crow 304 alloy, which can withstand it under normal conditions. For attacks below the third level of the rotation realm, the Z10 type protective cover can withstand the attacks of the strong first level of the Yin and Yang realm. It is known as an invincible mobile fortress below the rotation realm. There are also 1000 plasma condensing units in the battle fortress. The cannon, every time it fires a beam, it can penetrate the defense of all practitioners below the Yin-Yang realm!

However, the cost of the Z10 battle fortress is relatively high, and the general price is around 12 billion stars. If you need to increase the configuration, you need to add additional costs. "

Kardashian was interrupted by Fang Yue before she finished speaking.

"The grade is too low, change one!"

Fang Yue's impatient voice made Kardashian a little angry.

But soon she calmed down and kept warning herself that this was her own financial father and should not be angry.

These days, if you have milk, you are a mother, and if you have money, you are a father.

The arrogance that Kardashian had brought to her because of her birth at the Galaxy Bank had all been wiped out by Fang Yue's local tyrant at this moment!

"But every time a large series is crossed, the price of this battle fortress will increase exponentially."

Kardashian showed a look of hesitation, she was worried that her price would be too high and would scare Fang Yue, the rare gold master father, away.

"It doesn't matter, we have money!"

Fang Yue showed his white teeth, which reflected white light under the sunlight.

"The Y series battle fortress quoted from 50 billion stars! The Y1 battle fortress quoted 52 billion stars. The metal application of Wu-titanium super alloy can resist all attacks below the seventh layer of the cycle. Opening the protective cover can block attacks below the fifth level of the Yin-Yang realm. It has 72 defensive cannons, each of which can cause serious trauma to the strong in the Yin-Yang realm. If two cannons are at the same time If you hit a strong person in the Yin-Yang realm, there is a 70% chance that it will resonate with energy and turn the strong person in the Yin-Yang realm into fly ash."

Kardashian did not elaborate or recommend it when introducing the Y-series battle fortress.

After all, the price of this thing is here. Although it can be comparable to the powerhouse of Yin and Yang level, the high price is generally not even in the level of civilization, and few people will buy it.

"Can this Y1 battle fortress fly into space?"

Fang Yue continued to inquire.

"No problem! As long as the spacecraft after the Z5 series have this effect!"

"That's it!"

Fang Yue made a decisive decision and wanted to buy a Y1 battle fortress.

Kardashian cast a suspicious look.

"Respectful Mr. Fang Yue, Galaxy Bank has never allowed VIP customers below the seven-star level to owe bills."

Although Kardashian spoke quite politely, she doubted Fang Yue's ability to pay.

Fang Yue is indeed rich, but it is impossible to buy all of them to buy battle fortresses!

After all, Fang Yue's own combat effectiveness no longer needs this level of battle fortress to assist!

"no problem!"

Fang Yue didn't have the slightest doubt, he took out a piece of metal from his pocket.

This metal was discovered by Fang Yue while cleaning the battlefield on the Dark Moon plane.

Fang Yue didn't know this thing at first, but the insect emperor sent him a clear message.

An Erna Smart Metal!

This is a rather rare metal in the universe. It can be melted into the spacecraft to allow the spacecraft to generate self-awareness, and then to give birth to its own life.

Anerna Metal is the standard equipment of the top spacecraft.

Rare is precious, and it is irreproducible and irreplaceable.

Therefore, its value remains high all year round in the universe.

"An Erna Smart Metal, a piece the size of a fist, have you seen it?"

Fang Yue is still the face of the explosive household.

But this time Kardashian didn't mind.

Her eyes are straight.

This thing is worth making her abandon the identity of the Galaxy Bank, okay?

Ana Smart Metal is calculated in grams.

The price of one gram of Anerna smart metal is generally around two billion stars.

Such a large piece, even if the density of Anerna Smart Metal is not high, it is at least two or three kilograms.

Two or three kilograms are four or five trillion stars.

Fang Yue is now a big local tyrant in Galaxy Bank, right?

"After verification, this is indeed An Erna Smart Metal, with a quality of 2,720 grams. It is purchased at a standard price of 2 billion stars per gram. We will pay you 51,440 billion stars. !"

After taking a few breaths of cold air, Kardashian suppressed the idea of killing people in her heart.

On the one hand, she definitely couldn't do anything with Fang Yue, this guy was really hands-on, and even the powerhouse of Yin and Yang realm could not be suppressed. She is so small, it is estimated that Fang Yue will be rotten after two beats. On the other hand, Galaxy Bank has always done formal business, and it is not good to spread the name of killing people and selling goods.

If someone knows that they are killing people and overtaking them, who dares to contribute resources to them in the future.

Fang Yue nodded.

"Congratulations to Mr. Fang Yue for becoming a seven-star VIP. As a seven-star VIP, you will have the authority to hire terrestrial-level cosmic warriors to protect you from killing people. In addition, you will issue reward missions below five stars within the scope of the galaxy."

From possessing a bank card of Galaxy Bank to a seven-star member, Fang Yue just passed two days.

I am afraid that this can be regarded as the fastest VIP promotion in the history of Galaxy Bank. As Fang Yue's account manager, Kardashian can at least get tens of thousands of performance points, from the lower level of the second-level account manager, promoted Five-level business managers to the middle level.

This is something she didn't even dare to think about jumping three levels.

If it is in normal times, Kardashian will definitely be ecstatic.

But in front of Fang Yue, Kardashian felt that she couldn't be happy anyway.

She felt that compared with Fang Yue, she was a piece of soil under Jinshan.

Even if the soil is stained with the light of Jinshan and promoted to a big rock, it is still more than a grade worse than the glorious Jinshan.

Kardashian is very inferior.

She never thought that she would actually feel inferior in front of the natives of an uncivilized small planet.

"Well, take 50 billion stars from my account and buy the Y1 battle fortress!"

Fang Yuecai said boldly.

Buying a Y1 battle fortress now is drizzling for him.

Kardashian no longer prevents Fang Yue from buying the Battle Fortress.

People have money, and how they want to squander is entirely their own business.

"This battle fortress has a total of 51 billion stars, but because you are a distinguished seven-star VIP, you can enjoy a 10% discount on high-tech products according to the rules! So you only need to pay a total of 4.59 million stars. You can buy a battle fort!"

Kardashian's tone became increasingly humble.

She was almost humbled into the dust.

What wealth cannot be fornication, poor and low cannot be moved.

All are deceptive!

If you really meet the father of the gold master, you will fall to the same place if you do anything like morals?

"When will things arrive?"

"In an hour."

Fang Yue had to admire the strength of the Galaxy Bank, and their wormhole transportation system could deliver materials to any place in the galaxy in the shortest time.

If this transportation system is put in a war, it will be a heavily stocked army to carry around.

The service of the Galaxy Bank is indeed terrifying, no wonder it can grow to such a degree, it is in a monopoly position in the financial industry of the Galaxy.

Fang Yue couldn't help but secretly marveled, existence is the truth.

There is no reason why the Galaxy Bank has been able to get to where it is today.

Sure enough, the wormhole opened after an hour.

Eleven battle fortresses appeared in front of Fang Yue.

The Z1 battle fortress has the smallest size, but it is also the size of ten footballs. It can allow two thousand people to live comfortably in it for a period of time.

The Y1 battle fortress is even more exaggerated. It has a height of ten stories and covers an area of at least several thousand acres.

The battle fortress of the Y1 model stands there, majestic and spectacular.

Even if he had never approached, Fang Yue felt almost suffocated.

"No loss is something bought at a high price. The value is different! If the earth is destroyed, this battle fortress may still be able to wander in the universe for a while with the seeds of hope from the earth!"

Fang Yue has a good impression of this Y1 battle fortress, and he feels that this battle fortress is not at a loss.

Chapter 1218: Battle fortress

When this battle fortress went out, he would definitely be able to shock his jaw.

"Yes, all good things are good!"

Fang Yue groped his chin, admiring these eleven battle fortresses very much.

"Of course, none of my Galaxy Bank's things are not boutique."

Kardashian raised her proud little chin slightly, and she was quite proud of the beauty of this battle castle.

"This battle fortress, each has thousands of functions, including not only combat, but also production, entertainment and other functions. The intelligent optical brain in it, as the level of the battle fortress improves, its functional strength is also different. But. Even the lowest-level Z1 battle fortress produces food that can be consumed by 10,000 people every day. It can also absorb the light emitted by solar energy and other stars in the universe to maintain its own operation. Of course, this Z1 model Battle

fortress, the version delivered to you is still the lowest equipped version, which only has the basic functions of combat and defense. You can buy some additional programs for Z1 castle function expansion from my hand, and it can also be expanded out of 3750. Twelve functions."

Profiteers!

Definitely a profiteer!

This battle fortress is expensive enough, but there are a lot of additional functions that need to be opened with star coins!

It's a bit like buying a car. Buying a car is easy and difficult to maintain!

This battle fortress is cool to buy, but it is not so comfortable to use.

Fang Yue got into the battle fortress and began to study the structure of this fortress! There are indeed many functions in this fortress, and there are actually three arms production lines in it.

One assembly line can produce self-explosive robots. Each small robot is only the size of a power bank, and its moving speed can reach 500 meters per minute. The effect of self-detonation is equivalent to 1000 kg of TNT explosives, killing elites at the world level. Warriors are not a problem.

The raw materials needed for the production of self-explosive robots are available on the earth, which is probably iron, copper, steel, and some basic materials such as sulfuric acid and saltpeter. The materials are not expensive, which is about a thousand yuan. The valuable is energy. The production line consumes Xingjing, to produce a self-explosive robot, it needs about three thousand star coins.

If this production line is fully powered up, it would be 500 self-explosive robots a day.

This is a money-burning production line, and the daily consumption of single star crystals is as high as 1.5 million star coins.

In addition, the other two production lines, one of which produces energy protective clothing, costs about five thousand stars. When the protective shield is opened, it can withstand about five times of practitioners on the seventh layer of the world. Full attack, its energy is diverse, it can be star crystals or electricity!

The last production line produced energy swords, technologically civilized, and didn't know how to refining weapons, but in close combat, energy swords were better to use than weapons of heaven and earth level in low-end battles.

The cost of an energy sword is about eight thousand stars! Part of these eight thousand stars is the cost of energy, and some of the raw materials for this energy sword need to be purchased from the Galaxy Bank, which cannot be produced on earth temporarily.

The three money-burning pipelines made Fang Yue quite distressed, but these things were also an opportunity to change the low-end combat power of the earth.

"Mr. Fang Yue, someone is asking to see you outside Jingnan City!"

Kardashian and Fang Yue made a big deal and got tens of thousands of business points.

She was in a good mood, and the little inferiority complex just now was wiped out.

She cares about something with Fang Yue, the bun.

No matter how rich Fang Yue is, he is trapped in a corner of the earth. And she has a vast sea of stars.

"Someone wants to see me? Who!"

Fang Yue doesn't have many households on this earth. It has not been long since he returned, and there are not many strong people who know him.

Although the Taoist Hungry Wolf and the others knew the news of Fang Yue's return, Fang Yue had established contact with them a long time ago, and asked them to stay dormant in secret for the time being not to show up easily.

This is a hole card in Fang Yue's hand.

It may play an unexpected role at a critical moment.

"A fat man said he was Chen Nuo."

Kardashian shook her head a little. She guessed that this was Fang Yue's former friend, and now that Fang Yue is rich, she came to take refuge in him.

"Fatty, Chen Nuo, don't know me!"

Fang Yue pondered for a moment, and decided to meet him.

Those who dare to come to him at this time are either fools or extremely clever people.

Fang Yue's current situation is very embarrassing, he is actually not being seen on both sides.

On the one hand, he has completely offended the Dark Moon plane and slapped his face. It is estimated that even if he surrendered to the Tianfeng Empire's lord, no one would be willing to forgive him.

On the other hand, his relationship with the Chinese military is also very delicate. Li Qingyun is only half a member of the Chinese military, and does not represent the will of too many people. What the Chinese military wants is unity and absolute obedience to it. . Fang Yueqiang is strong, but he is not an obedient master. The senior officials of the Chinese military must be quite responsive to Fang Yue, but Fang Yue's combat effectiveness is too amazing, and his achievements are one by one. It was all because of Huaxia's birth and death, which shocked the world, so the Huaxia military could not find a suitable reason to deal with him. That's why I left him by the side and put it aside for now!

Don't look at Fang Yue's surging sky now, he really fell down one day, he would definitely be beaten down by the Dark Moon plane and the Chinese military.

This kind of glory seems to be a flash in the pan in the eyes of many people.

Therefore, Fang Yue shouted loudly one after another, but only some netizens shouted 666.

No one dares to fight for his own worth and life to rely on him!

Fang Yue went to the outside of Jingnan City.

The fat guy Kardashian said was really fat.

With a height of 1.8 meters, at least two hundred and thirty catties, the cultivation base is not high, it is the level of the innate realm.

His skin is very white, but because of the fat on his body, his small eyes are almost squeezed out.

"Emperor, Chen Nuo, Su Wen, general is here to defect!"

Chen Nuo's words are quite polite, a bit like lines in the Romance of the Three Kingdoms.

Unfortunately, Fang Yue did not eat this set.

"Who said I was righteous? Why don't I know?"

Fang Yue dismantled directly. This made Chen Nuo very embarrassed.

Chen Nuo had the urge to scold his mother. He came to Fang Yue with enthusiasm this time. In fact, he was full of hope and expectation.

Fang Yue's footing is not stable. At this time, he came to join him. Fang Yue must be ecstatic. Corporal courtesy. Then he would offer Fang Yue several strategies to build his reputation in China and gradually establish his own foundation. The shareholders of the original shares have not made a lot of money.

As a result, as soon as he came to the southern city of Beijing, he was extinguished by a basin of cold water.

He can't even enter the gate of South Beijing City.

When was there a large array around the southern city of Beijing? The series of large arrays completely isolated the southern city from the outside world and became an independent small kingdom.

Chen Nuo had never seen these big formations.

And when it was even more hateful, Fang Yue didn't even set up a correspondent, defensive officer, or the like outside this big formation.

He is not Fang Yue's mobile phone number, so there is no way to call him. Here, he uses the most primitive means of communication-howling at Jingnan City for half an hour. The sky is pitiful. This Fang Yue only came from Jingnan City. Slowly came out.

Chen Nuo was tired, and the oil on his body was about to drain.

Is it easy for me to raise this fat body?

When they met, Fang Yue's attitude towards him was so cold.

What ecstasy, Corporal Lixian, nothing good!

things in fairy tale are lies.

"I like to get straight to the point, and I don't like those who have no idea!"

Fang Yue looked at Chen Nuo in embarrassment and stopped teasing him.

Fang Yue still heard of the Chen family of Emperor Beijing.

This is a low-key family, but the ancestor is said to be very powerful, and is the ancestor of Chen Tuan. The Patriarch of the Chen family is said to be a master at the master level. Once the seal of the Tao of Heaven is loosened again, he can immediately be called the ancestor!

What's more awesome is that the ancestor of the Chen family, Chen Tuan, is said to have not died yet! He was asleep and occasionally appeared. The ancestor Chen Tuan is a well-known practitioner in the history of China. If this is revived, at least he will be a strong starter in the Saint Realm!

Fang Yue couldn't neglect this fat man with this background.

Chen Nuo nodded slightly. It turned out that he was flattering and slapped a horse's leg. No wonder he was kicked by a horse.

"General Fang Yue is really a man who understands things. I was left behind. Although Chen Nuo has a low level of cultivation, I can be regarded as a small think tank in the Imperial Capital. I am familiar with Huaxia, whether it is the world of practitioners. Or the ordinary world has its own intelligence eyeliner. As the saying goes, knowing yourself and your opponents will never end in a hundred battles. I am willing to help General Fang Yue to inquire about intelligence, anticipate the enemy's first opportunity, and plan tactics!"

Chen Nuo knelt down on one knee, and the more he spoke, the more excited he got. He knelt on the ground for Fang Yue and called for the main attack.

At this moment, Fang Yue's eyes suddenly narrowed.

"What is the purpose of you coming to join me? Don't talk about spiritual inspiration, worship me and other nonsense, there are many people who worship me, but they are all keyboard guys, call me 666, old iron, come on! It's fierce, but in fact there is not even one who gave me cotton clothes!"

Fang Yue ruthlessly exposed Chen Nuo's careful thinking.

Chen Nuo fell into embarrassment again.

Don't be so blunt, okay, straight men can't find a good wife.

"You are the blood of the Sky-Swallowing Beast?"

Fang Yue said suddenly.

Chen Nuo's hair exploded and he was shocked. He raised his head with tension in his eyes.

Fuck, how did you know! How do you all know! That's it, this is my hole card, you all know, this is still a dog's hole card!

"I see, you come to join me, it must have two meanings, one is that you want to take some resources from me, and then slowly improve yourself. The second is that your Chen family sees that I have potential and intends Give charcoal in the snow, use you to bet on me!"

Chen Nuo's eyes straightened after listening.

How wise to approach the demon, he is not talking about Zhuge Liang, he is talking about you!

Bingo, all right!

Chen Nuo suddenly didn't want to do it. Working under such an extremely smart person is like a transparent person. He can see through any thoughts at a glance, and he is very insecure!

"The bloodline of the Sky-Swallowing Beast is interesting and really interesting. The Chen family really looks up to me, and even let you come to me! They are not afraid of defeat, and then involve you in it?"

Chapter 1219: Are you so unconfident?

Fang Yue looked at Chen Nuo.

Chen Nuo looked at Fang Yue a little worried.

Brother, are you so unconfident?

If you are so unconfident, don't lead the soldiers to fight, okay? When others recruit their subordinates, they always say, "When I become rich, then XXX."

Why are you when I lost, OOO.

Is this sentence pattern obviously wrong?

"Our Patriarch has given me a hole card to save my life, even if you lose, I can leave safely!"

Chen Nuo didn't bother to act with Fang Yue.

This pretended to be too much, but Fang Yue would be disgusted.

"Oh, it turned out to be like this! Then you will be my subordinate!"

Fang Yue nodded, and suddenly turned around, and directly accepted Chen Nuo.

Chen Nuo was surprised.

Is this a special situation?

Shouldn't you let me show some value, so that I can tell some sensational news that can shock passers-by, and then accept me?

My news is ready, you can ask!

If you don't play the cards according to the script, you will be suffocated!

"I don't have much talent, and I need a lot of resources to practice. Is it really alright for you to accept me like this?"

Chen Nuo was also weak, and he didn't bother to speak carefully and politely.

He directly asked the deepest question in his heart.

Fang Yue smiled and said, "Of course, you are a disciple of the Chen family after all. This represents a network and relationship. If I have something to cooperate with the Chen family in the future, there will be someone who talks and runs errands!"

Chen Nuo's heart is tired.

It turned out that Fang Yue had this idea.

I have to say that Fang Yue's perspective on the world is different from ordinary people.

"I am a self-reliant and self-reliant person. I don't want to make others look upon me because I am a disciple of the Chen family. I prefer to prove myself in my own way!"

Chen Nuo said somewhat unconvincingly, what he hates most is that others see his identity halo, so he takes a high look.

He prefers when others introduce him, this is Chen Nuo, XXX.

Not that this is Chen Nuo, a disciple of the Chen family, whose father is XXX, and his ancestor is XXX.

If he really wants to rely on the Chen family, and ask for resources from the family, he would have cultivated to the heaven and earth realm or even the rotation realm long ago!

Although the bloodline of the Sky-Swallowing Beast requires a lot of resources when practicing, the huge Chen Family still doesn't care about that.

"Oh, boy, you are still too young. You have not experienced the hardships of the world and the sinister hearts of people. You don't understand that it is not easy for a person to live in this world. If you have no background, you will be despised and bullied there. Do you know how much I admire your origin, and want a big tree to shelter me from wind and rain and cover me?"

Fang Yue said to Chen Nuoyu earnestly.

Even Chen Nuo was a little moved by this.

The routine is wrong!

Isn't it all in the book that the more powerful you are, the more you like the kind of people who are ambitious and self-reliant?

The character of this lord seems to be different from the people who made great things in the book!

Chen Nuo became more suspicious.

Can this lord succeed?

Don't let the time come, become a half-day after Fang Yue's saddle, then wasted youth and wasted paper towels.

"Relationship and background are also a manifestation of strength. Forcibly avoiding and setting aside the advantages that God has given you because of self-esteem is a manifestation of inferiority and vanity!"

Fang Yueyu became a thought counselor with great earnestness.

Chen Nuo nodded again and again, with a reasonable look.

Nonsense!

I'm not here to talk about this with you.

"Master, I have an important military situation to report to you!"

Chen Nuo clasped a fist and said: "The Sky City Biological Co., Ltd. covets the wealth in the Lord's hand. I am afraid that it will soon send people to the Lord and the Dark Moon plane when the three-way princes are fighting to lose and lose, and take advantage of the fire."

After Chen Nuo finished speaking, he looked at Fang Yue.

Fang Yue's face was as sinking as water, without the slightest anger.

Is this lord really a big deal? At a young age, he was able to be incapable of being happy and angry.

But at the next moment, Chen Nuo knew that he was thinking too much.

A large helicopter buzzed, hovering in the air, and then one after another silhouettes jumped off the helicopter.

The head is a middle-aged man, wearing a black cloak, his muscles are firm, like a block of sudden rocks, bronze skin, a bit of Shaolin Temple eighteen copper ren.

Behind him were eighteen half-human and half-beast biochemical warriors.

The middle-aged man's cultivation base is not high, that is, the level of entering the rotation realm, he is not weak on earth.

But the corpses of the Rotating Realm that died in Fang Yue's hands could be piled up into mountains.

The eighteen biochemical warriors are also cultivation bases at the rotation level, but their aura is obviously stronger than the windbreaker man headed by this one.

They should act as bodyguards.

Chen Nuo immediately showed an ugly look when he saw the man in the trench coat.

"Chen Nuo, why are you here?"

The man in the windbreaker glanced at Chen Nuo with a slight disdain in his eyes.

"Lei Ling, if you can come, can't I come?"

Chen Nuo swept away the humbleness before and boldly confronted the man in the trench coat.

Although the barrage in Chen Nuo's heart is "I'm so scared!" "Energy ahead" and "What if he kills me?"

But on the bright side, he still had to pretend to be fearless, so as not to be despised by Fang Yue.

Lei Ling looked up and down Chen Nuo.

He suddenly showed a smile but a smile: "Is it possible that your Chen family chose him to invest? Don't be jokes, such a dying thing won't last long!"

The contemptuous attitude in Lei Ling's tone was clear.

Fang Yue was immediately unhappy when he heard this.

"Don't bother you two! And who is Chen Nuo? You can't speak so much!"

"Lei Ling, the son of Lei Ming, Chairman of the Longevity Biology Co., Ltd., is a good knife in Lei Ming's hands. He kills people like **** and has bad marks. But this guy has a meticulous mind. "

Chen Nuo explained Lei Ling's identity to Fang Yue, and Chen Nuo did not expect this thunderous determination to be so great.

He even directly sent his most confidant son.

Fang Yue nodded, that's it!

"Knowing my identity, I will give you two paths. One is that you are now leading your men to surrender to me and surrender all the wealth in your hands. There is also a way to survive. The second is that I leave and wait for the Dark Moon plane. The three-way army comes to cooperate with them, you and your entire army will be destroyed!"

When Lei Ling spoke, it was completely instructive.

Fang Yue smiled and looked at Lei Ling.

"Seeing that your Lei family is not doing well in Huaxia! Don't you know that the army of the three-way princes has already come, you see, they left behind the formation behind me!"

Fang Yue spoke.

Lei Ling's heart panicked.

What, have you been here?

Why is Fang Yue still safe and sound?

Emperor Beijing was besieged by the 18th Road Princes, but he experienced it personally. Although the Lei family did not take action, the strength of the Dark Moon plane was enough to make him unforgettable.

Even if only the three princes joined forces, this Fang Yue couldn't resist!

Originally, he saw Fang Yue come out of Jingnan City unscathed, but he thought it was the three-way princes who had delayed something!

"Then your subordinates must have fought against the three-way army of the Dark Moon plane to the point of losing both. I know that you are now a paper tiger of foreign powers. You are here to scare me and sing empty city plans, right!"

Lei Ling finally caught a straw of hope.

Unfortunately, Fang Yue's face still didn't have any panic.

His old **** looked at Lei Ling, "Guess!"

The more calm Fang Yue was, the more restless Lei Ling was.

I guess, I guess what a fart!

Looking at you like this, you must have killed the three-way princes of the Dark Moon plane without paying too much!

But how is that possible?

That's the three-way prince of the Dark Moon plane!

Each of them is powerful, with millions of men and women.

The three-way princes teamed up, even if it was their Great Wall Biological Co., Ltd. they might not be able to please.

Lei Ling's original idea was to intimidate Fang Yue, then scoured the wealth in his hands, and then handed him over to the Dark Moon plane for disposal.

But I didn't expect that the reality and imagination seem to be different!

This Fang Yue was too strong, and the prince army on the three-way Dark Moon plane would be killed if they were killed.

I'm Lei Ling, now I'm panicking, give me some ideas for the old guys and tell me what to do...

"What's the status of Lei Ling in Lei's family?"

Fang Yue glanced at Chen Nuo.

"The status is very high, and it has a place in Thunder's heart."

Chen Nuo responded in a deep voice, this Lei Ling is not easy to deal with! Unexpectedly, I encountered a sting when I first came.

"Oh, Chen Nuo helped me give Leiming a message. His son is in my hands. If you want him to go back in full, please show some sincerity!"

Fang Yue said, why do you feel familiar?

Ah, isn't this the tone of a scammer?

However, this time it was not a scam, it was real.

"Let my dad pay the ransom, hahaha, Fang Yue, are you crazy? The two armies are fighting, don't cut the enemy, let alone I came with kindness, you can't do anything to me! Not only that, you have to Treat me with delicious food, otherwise, my Lei family will not let you go!"

Lei Ling smiled weakly.

This Fang Yue is here to play for real!

Then, Lei Ling was taken away by Fang Yue. He was like a little chicken, and he couldn't even use his strength.

As for the eighteen biochemical warriors, Fang Yue put a look in his eyes.

These broken gadgets have obvious defects. The limbs are Kongwu, but the physical body is strong, the soul is severely weak, the yin and yang are imbalanced, and the natural life span is less than a hundred years. It is not a bit worse than its real cycle!

Chen Nuo was completely stunned.

When he came, he heard that Fang Yueqiang was very powerful, but he didn't expect Fang Yue to be so strong!

The disciple of the Lei family said that he would fall down.

Is this really the Lei Ling like the living Hades?

Why is it so weak?

"The two armies should not be cut in a clash!"

Lei Ling is still struggling, why is Fang Yue playing his cards completely against the rules?

After being arrogant for so many years, Lei Ling never thought that one day he would be **** by someone, struggling in vain, and there was no room for resistance.

"Come on! I am a great hero of Huaxia. I killed enemies for Huaxia, charged into battle, and killed so many masters on the Dark Moon plane. But you guys, sit on the mountain and watch the tigers fight. Did you run out to take advantage of the fire? You really think that Fang Yue is a vegetarian!"

Fang Yue cursed, leaving Lei Ling somewhat speechless.

"I have recorded all the words you threatened me just now. I will put them on the Internet so that people can see the faces of your Lei family!"

On the three abuses of the Tao, Fang Yue, who grew up in the market and has been a nail house for half his life, is the ancestor!

Chapter 1220: Super Tech City

Lei Ling was stunned, does Fang Yue still have this hand?

Isn't that right, he is a hero, should he disdain such a counterattack?

Is this really a hero?

Seeing Lei Ling's puzzled eyes, Chen Nuo suddenly felt a sense of being connected with his life.

Brother dei, I have your doubts too!

What is Fang Yue's background?

When Lei Ling and Chen Nuo came to Jingnan City, their eyes were straight.

Jingnan City is a well-known big city in China.

Famous at home and abroad. They have all been here before.

But the city in front of them is completely different from the Jingnan City in their impression!

One after another, battle fortresses stood tall, and the silver shells reflected dazzling light under the sun.

This level of technology must be at least a thousand years ahead of the current earth!

Fang Yue, are you sure that you are the roots of a human being from Earth, not the roots left by aliens?

Lei Ling and Chen Nuo have doubts in their hearts, but they dare not say!

This Fang Yue is too powerful.

It's so amazing that they are beyond imagination!

Lei Ling's hands and feet were cold, at this moment, he didn't struggle anymore.

The Lei family is over!

He is over too!

Today's Lei Family is not Fang Yue's opponent at all!

Half an hour later, a strong storm swept across the entire China Network.

A video circulated.

For the first time, Fang Yue, the great hero who has repeatedly contributed to the earth and wiped out the Dark Moon plane, appeared in public for the first time.

However, his appearance was threatened by Lei Ling, the son of Great Wall Biological Co., Ltd., asking him to surrender his wealth, or to cooperate with the Dark Moon plane.

As soon as this was said, an uproar occurred across the entire network.

Now, the Dark Moon plane has become the public enemy of the whole earth and all mankind!

The Great Wall Company treats heroes in this way, and even wants to join forces with the Dark Moon plane. This is the rhythm of betraying all mankind every minute!

There are filthy filth in private.

But these things cannot be placed on the table.

Some things, once on the table, die in sight.

According to the current rhythm, the Great Wall Biological Co., Ltd. building will be in full swing!

Countless angry netizens flooded into the Internet, verbally and penalized, and carried out crusades against Great Wall Biological Co., Ltd.

Fang Yue was sitting in front of a computer, and the old **** was watching the abuse and crusade against Great Wall Biological Co., Ltd. by netizens.

Chen Nuo sat next to Fang Yue, frightened.

This young man is too insidious, not to mention the kidnapping of Lei Ling, he even ruined the entire Lei family.

Following such a lord, Chen Nuo reminded himself that he must be careful, and be careful, lest he should offend Fang Yue when he does not even know how he died.

Fang Yue glanced at Chen Nuo, who was frightened and secretly admonishing himself.

"Do you know whose hands this Great Wall Biological Co., Ltd. died?"

Fang Yue's meaningful question left Chen Nuo somewhat puzzled.

"Didn't they die in your hands?"

Chen Nuo answered tentatively.

"No, they died in their own hands."

"Death in my own hands?" Chen Nuo was quite surprised by Fang Yue's statement. Did you mean to say that thunder was seeking death by himself?

Chen Nuo pondered for a moment, but did not speak. He was waiting for Fang Yue's conclusion. Chen Nuo instinctively felt that Fang Yue's answer would not be so simple.

"As the saying goes, the wood show and the forest wind will destroy it! People who walk out of the public will destroy it. This Lei Jiaping has done things too publicly, and accumulated a lot of wealth in a short time, which will inevitably cause a lot of People's dissatisfaction is also the people's hatred of wealth. People often don't have much opinion on the old nobles, not because the old nobles are of high quality, but because people are used to it! But the Lei family's rich wealth, people still I'm not used to it, so this contradiction has been accumulated on weekdays. My video is just a fuse to vent anger."

Fang Yue's words are very meaningful.

This gave Chen Nuo a deeper understanding of Fang Yue. This Fang Yue is definitely not a simple hero. He understands people's hearts and has the ability to borrow and build momentum.

"Actually, the Lei family doesn't know that the real giants are unassuming. They hide themselves among the masses of sentient beings, and most people don't even know their existence. The so-called invisible

avenue is the truth. The gap between the upstart and the big boss is not only the distance between wealth and combat power on paper, but also the gap between mentality and means!"

The old **** Fang Yue is here, watching the crisis of Great Wall Biological Co., Ltd. from the shore.

Li Qingyun walked in at this time, and Fang Yue shouted in a low voice: "Fang Yue, you are playing with fire! This pill produced by Great Wall Biological Co., Ltd. creates a large number of masters for China every year. You want to vent your hatred. Emotions have pushed Great Wall Biological Co., Ltd. to the forefront of the storm. In case they have a terrible loss, can you bear the responsibility?"

It is not Li Qingyun who is angry, but from the perspective of the overall situation. The position of Great Wall Biology Co., Ltd. is too important. They hold the technology of mass production of basic medicine. This is also one of the reasons why China's combat power has grown rapidly in the era after the revival of aura.

Fang Yuebai gave Li Qingyun a look, slightly displeased.

"I am a person who has revenge, no pattern, no ideals, you have the ability to bite me!"

Fang Yue thinks that his contribution to killing the army of Dark Moon is no less than that of the broken pills made by Great Wall Biological Co., Ltd.

If he hadn't acted personally, the six princes or the nearly ten million men under them would join forces, which would cause much damage to the earth.

No one remembers my credit.

Why didn't one force jump out to help me when the three princes came to encircle and suppress me.

Why didn't you Li Qingyun stand up and speak for me when Lei Ling came to oppress me.

Fang Yue's indifferent attitude made Li Qingyun also aware.

Fang Yue was not laughing, but a great resentment was vaguely revealed in his words.

Li Qingyun also noticed that he was wrong.

If Fang Yue had turned it back, it would be more harmful than ten Great Wall Biological Co., Ltd.

Where is Fang Yue's bottom line?

Li Qingyun has not touched it so far. The army of the three-way princes disappeared silently during the siege of the southern city of Beijing. The reason for this has not been investigated by the military until now.

Fortunately, this kind of method is aimed at the creatures on the Dark Moon plane, if Fang Yue turns his spear and points to Huaxia, the result is really unimaginable.

In addition, Fang Yue supports his own soldiers. There are people under him. He wants money, money, equipment, and even advanced weapons and equipment that surpasses the earth for a thousand years.

His betrayal will be a disaster for Huaxia!

In an instant, Li Qingyun was startled in a cold sweat, and for the first time he officially realized Fang Yue's strength.

"The Longevity Biology Co., Ltd. is about to fight back. According to your description, this thunder should be regarded as a hero. Although a little brash, it is still a bit **** and courageous. I use the media to attack him like this, if he has the courage to fight back. Neither, nor qualified to be my opponent!"

Fang Yue stretched slightly, yawned and said.

Chen Nuo showed a look of surprise when he heard this. Fang Yue knew that doing so would offend Great Wall Biological Co., Ltd. completely, and he even dared to provoke.

Unlike Fang Yue's sudden emergence, Great Wall Biological Co., Ltd. is actually an established company in China. It was only at the beginning. In the age when the spirits had not yet recovered, Great Wall Biological Co., Ltd. was operating a Chinese medicine business, which was not very popular. In recent years, the era of aura recovery began, the company showed a blowout outbreak.

However, Great Wall Biological Co., Ltd. has long existed in all aspects, black and white, and there are some other gray industry network resources.

Fang Yue smiled and said: "They are coming, so I will take the move! The big deal is, let's go to a stand and see who wins and loses in the end!"

Fang Yue is going to be tough this time. If he wants to win the respect of others, he doesn't just need to kneel down and beg for mercy.

Sure enough, less than a quarter of an hour.

The conversation on the Internet suddenly reversed.

A lot of news about Fang Yue emerged.

Fang Yue's early dark history has surfaced. There are videos of his family's ancestral nail households, poppi rascals, street folks, and poor personal conduct, even skipping classes in elementary school and entering the wrong women's bathroom.

What the hell!

Fang Yue was full of black lines on his forehead.

This Great Wall Biological Co., Ltd. does not have a bottom line, it is rogue enough.

Their goal is simple, and that is to destroy Fang Yue's personal image.

Fang Yue is no longer a hero, so the attack on Great Wall Biological Co., Ltd. in Fang Yue's video was naturally self-defeating!

Of course, these are appetizing side dishes.

The real meal is the last set of videos sent by Great Wall Biological Co., Ltd.

That was the final battle between Fang Yue and Jiuyouhou on the dark moon plane in the ruins. There was not a single earthling under his leadership, all of them were soldiers from the plane of Sirius. In addition, there were densely packed Zergs to clear the way. .

After Fang Yue killed Jiuyouhou, he even let Tianlinghou and Mingyuehou leave freely.

This is not a problem in the eyes of some more rational people.

A black cat and a white cat are good cats if they can catch mice.

But ordinary people don't think so at the instigation of Great Wall Biological Co., Ltd.

What do you mean, Fang Yue, a human from Earth, leading people from other planes to attack the Dark Moon plane?

Look down on the people on earth!

Also, letting the tiger go back to the mountain will have endless troubles.

Why did you let away Mingyuehou and Tianlinghou under the premise of heyday?

All kinds of navy, overwhelming.

Posts denouncing Fang Yue quickly became popular searches and headlines.

For a time, Fang Yue was reprimanded as a traitor, a minister, a traitor, a stinky gangster, and everything.

Fang Yue glanced, very pleasantly surprised!

"Chen Nuo, I'm an Internet celebrity, right?"

Fang Yue's wonderful thinking put Chen Nuo in Lei.

Does this have anything to do with internet celebrities?

This is your public relations crisis, big brother!
