

God of Life 1221

Chapter 1221: I am a bachelor who am I afraid of

If you can't manage public relations, maybe you will, maybe...

Chen Nuo suddenly discovered that everything Fang Yue had worked hard with his own hands, wealth, status, and reputation belonged to his army.

His reputation is broken, and nothing seems to affect him!

Is it possible that the soldiers under Fang Yue's Sirius plane still use Weibo and QQ?

They don't even know a Chinese character, not at all!

Chen Nuo suddenly understood.

The Great Wall Biological Co., Ltd. was pitted by Fang Yue, and Fang Yue dragged them into a battlefield where he would not suffer any damage, but the Great Wall Biological Co., Ltd. could not.

Great Wall Biological Co., Ltd. has shares and employees. It needs a strong shell and strong reputation to support the company to move forward.

And Fang Yue?

A bachelor.

You have the ability to kill me!

This is a very rogue style of play that hurts the enemy three thousand and hurts nothing!

"Fang Yue, this Great Wall Biological Co., Ltd. is not the only one!"

Suddenly, Chen Nuo said weakly.

"I know, of course I know this! But I will take whatever tricks they make. Don't think that they are the best in the world. Everyone is their prey!"

What Fang Yue is best at is not a knife or a sword, but a set of Wangba punches.

Let's talk indiscriminately and beat you up!

In Chen Nuo's heart, a hint of mourning suddenly rose for Great Wall Biological Co., Ltd.

Sure enough, Fang Yue, who had attacked the Internet for a long time, all of Fang Yue's previous posts were sunk.

Just when Lei Mingzhi was so proud and watching that all the screens on the Internet were swearing by the other party, Yue, he suddenly realized an extremely critical issue.

Fuck, my son is still in the hands of that bastard, he must be rescued quickly!

Lei Ling is not the only son of Lei Ming.

Even when sorted, he is one hundred...oh, not two hundred and thirty-two sons.

In terms of talent and strength, Lei Ling was not the highest, and he could not even rank in the top 100.

In the era when Thunder was born, the strong was respected, and marrying a one-bedroom, two-bedroom, three-bedroom, four-bedroom, or five-bedroom was not a problem at all.

Where is it like now, housing prices are skyrocketing, and how many houses are needed to marry how many young wives, and he is a little bit powerless.

Ah, I want to be crooked again.

There are really a lot of Lei Ming's sons, and he is scattered to different areas. After all, eggs cannot be placed on the same plate.

In terms of investment, Lei Ming is a staunch conservative.

Lei Ling is a banner launched by his Great Wall Biological Co., Ltd. If you don't do business with me, I will kill you.

He is a good knife. Under the deterrence of this good knife, the foundation of Great Wall Biological Co., Ltd. is as stable as Mount Tai.

If the knife is broken or rusted.

Then the prestige accumulated by Great Wall Biological Co., Ltd. will be gone!

At that time, the younger generations began to spy on the authority of their Great Wall Biological Co., Ltd. again.

Any bull, ghost, and zombie will jump out and make ghosts.

Therefore, Lei Ling could not die, he died, it was a series of troubles.

"Send me a King Kong man to rescue Lei Ling."

Thunder rubbed his temples, and hadn't met an opponent for a long time. I felt a headache when I first encountered it!

I'm old and old, it really doesn't work anymore!

"Yes, boss!"

In the shadow, a cold and merciless voice came.

When the voice disappeared, they started to make arrangements!

In Jingnan City, Fang Yue began to build the teleportation array.

The distance between this teleportation formation is not very far, it is a two-way teleportation formation from inside the city to the outside. This formation is a moat, blocking the enemy's footsteps, but at the same time, this thing doesn't know its own people, and it traps Fang Yue and the others. Died in Jingnan City.

It's a good thing that the enemy can't get in, but it's troublesome to trap oneself in the city.

In the end, Fang Yue established eighteen teleportation arrays, which were opened at any time, two-way in and out, at least with a way of in and out.

The province is no trouble.

Fang Yue Ding Ding Dangdang built a teleportation array outside Jingnan City.

"It's so tired!"

Fang Yue touched the sweat on his head.

There were not many people who knew the formation technique these days, and even none of Fang Yue's men could be singled out.

The general formation mage, the status and status are relatively noble, each one is pampered, and will not go to the front line.

This was the last teleportation formation, and Fang Yue saw the dawn of hope.

In the future, when he has time, he will open a formation training class to collect all the talented people under his hand, and then help him with the work.

Every day, what a thing he does by himself as a boss.

When Fang Yue was planning a training class.

A two-meter-high man with a bronze skin and a simple face walked over.

"Brother, ask you something, how do you get to the southern city of Beijing?"

The man's voice was thick and his smile showed a hint of restraint.

"Jingnan City, behind me, are you doing anything to Jingnan City?"

Fang Yue wiped the sweat on his forehead.

He looked at this seemingly honest and honest boy, the man seemed to be hiding the power of a dragon, with blood surging, as if a river was running.

This is not caused by the cultivation base, but the big boy has a different bloodline in his body, and he is taking the path of refining the body and refining both Qi.

According to Fang Yue's experience, he also embarked on the path of a hundred levels of physical body.

"I came to Beijing South City and went to Fang Yue! My second uncle said, I can have food to take refuge in him!"

There was a look of yearning in the man's eyes.

Damn it, are you here to eat and drink?

Dude, this is not a guest house, a shelter.

However, Fang Yue's expression remained unchanged, he felt that the origin of this man was strange.

This person is the blood of a pure earth person, Fang Yue can tell at a glance, but there is a faint blood of the ancient chaotic beast in his body.

This bloodline is of extremely high grade, even if it has not been fully excavated, it has surpassed the ordinary earth-level bloodline.

If he came here in good faith, Fang Yue would definitely be a subordinate, and this guy would definitely be one of his subordinates when he cultivated it.

"Excuse me, who is your second uncle?"

Fang Yue asked with a clever move.

"My second uncle! Have you ever heard of Cheng Yaojin? He said that he once had a huge reputation in China back then, and fell into a deep sleep because he entered the Age of Doom. He just woke up some time ago. He said that for a while Time will be born again, and now we will recover and take a nap!"

Fang Yue understood the words immediately.

It turns out that this is the offspring of the famous Tang Dynasty general Cheng Yaojin!

Cheng Yaojin is definitely a strong general. If he recovers from sleep, he is at least a leader-level powerhouse!

"Okay, okay, okay, you'll follow me in the future, I'm Fang Yue! This is enough to eat! As long as you work!"

Fang Yue agreed with full mouth. This is a kind of friendship with Cheng Yaojin in disguise. After he recovers and wakes up, if he has something to do, Cheng Yaojin will not leave it alone!

Fang Yue felt that all the ancient Chinese people were extraordinary. For example, Wang Feng was just a soldier under Bai Qi, and his name was unknown. In the heyday, he was also a realm-level powerhouse!

"Then I'm welcome! I need to eat 500 kilograms of blood and flesh of fierce beasts at the heaven and earth level, and 3,000 low-grade spirit stones every night. Every three days, I have to eat the flesh of fierce beasts at the rotation level. ,and also....."

Listening to this guy's endless list of menus, Fang Yue finally understood why his second uncle Cheng Yaojin had sent him out.

It turns out that I can't afford it.

"Let me make arrangements for you later! Oh, yes, I have been talking for a long time, I haven't told your name yet!"

Fang Yue suddenly thought of a rather important question.

The man chuckled and said: "My name is Cheng Sanaxe! You can call me Sanaxe from now on! This name was given by my second uncle. It is said that his most proud move is his three axes!"

Fang Yue was speechless, this second uncle gave his nephew a random name!

Fang Yue inexplicably subordinates a subordinate who can eat.

Then build the teleportation array and let him enter the southern city of Beijing.

After Cheng Sanxiong left.

Fang Yue suddenly snorted, "Since he came to kill me, there is no need to hide cats with me!"

Fang Yue's voice fell.

A burly figure appeared in front of Fang Yue, his body was covered with a layer of mysterious golden armor, and the armor was covered with a layer of fine scales.

King Kong people!

Fang Yue knew the identity of the other party a long time ago. He was one of Thunder's killers, and he hadn't been exposed before.

Three months ago, a demonic cultivator from the third level of the Yin-Yang realm from the Dark Moon plane wanted to plunder the wealth in Thunder's hands, but was blocked by a King Kong man.

The King Kong man slapped the third layer of the Yin-Yang realm and severely wounded him, and then the two sides fought dozens of moves, and the Yin-Yang realm was sneaked and killed by another King Kong man who was secretly groping out.

In the world of practitioners, the Vajra's reputation suddenly rose.

Some people say that a single Vajra can already be comparable to ordinary practitioners on the second and third levels of Yin-Yang realm!

Especially for the shell made of alloy, it is inaccessible, gunpowder is difficult to use, and there is no special method. If you want to kill the King Kong people, even the strong at the fourth or fifth level of Yin and Yang may not be able to do it!

"This thunder really hates me. When dealing with the Dark Moon plane, he became a tortoise with a shrunken head. He has been trapped in the Imperial City until now, but in order to kill me, he actually sent someone who is comparable to the Yin and Yang realm. King Kong people! I am afraid that every Chinese family has a strong hole card in their hands. It's just that everyone is not willing to contribute because they are all sweeping the snow!"

Fang Yue sighed secretly.

And the face of the King Kong man showed a touch of murderous intent.

"Fang Yue, it's an honor for you to die in my hands! Now I can give you the last chance to choose in this life. It's you to decide yourself and die without pain, or I will do it myself, capture you alive and slowly tortured, And then let you fall in endless regret."

The tone of the King Kong people is quite domineering.

It was as if Fang Yue had become the fish on his chopping board.

Fang Yue didn't care, anyway, the people who talked to him were dead.

"Are the seats ready? The live broadcast is about to begin!"

Fang Yue suddenly yelled, four cameras set up.

"Old irons! I, Fang Yue, are back again. This time I have suffered thunderous persecution by the Great Wall Co., Ltd. again! He preserved his strength during the embarrassing moment of the besieged nation in the Imperial City, and never took action. But because of his little personal Gratitude, but sent a King Kong person comparable to the Yin and Yang level to kill me! Let everyone witness the strength of the King Kong person under this thunder! Friends who enter the room, flowers and gifts, all brush up!"

Chapter 1222: Big Net Red

Fang Yue didn't know where he made a microphone.

He roared frantically into the microphone, full of passion.

The King Kong people were stunned.

What's going on! Didn't it mean that Fang Yue was attacked and killed?

How did it become a live show?

"Damn you!"

The King Kong man yelled at the four staff members carrying cameras, and the coercion of the Yin and Yang level fell, as if it were dark clouds, and as if it was the end of the world!

King Kong people feel that although he is a dogleg, at least he is a doglegged with dignity, strength and status.

How can he be seen as a monkey in his life and death battle?

But the next moment, the King Kong people were stunned!

Around him, an arena was automatically formed in a radius of 100 meters, and the ring slowly rose, confining him and Fang Yue, and any energy fluctuations in it could not be transmitted from it!

This ring was obtained by Fang Yue from a disciple of the Nine Profound Sect.

This thing can force two people to fight, and it is destined that only one person can survive from the ring.

And this ring can also prevent energy diffusion.

This thing is perfect for live broadcasting.

Soon, there were more than 10,000 people in Fang Yue's room. This was a life-and-death struggle between the strong of Yin and Yang realm, and there was no chance to see it in ordinary times.

In the eyes of ordinary people, the realm of heaven and earth can fly into the sky and escape the earth, omnipotent, and exist like gods.

The yin and yang realm is even more legendary, and the dragon sees the head but not the end.

On the homepages of some live broadcast websites, exaggerated slogans were even posted!

This is a big gimmick, big traffic!

Can blast the headlines of half the world!

Not only ordinary people, but also some major forces have begun to pay attention to this live broadcast.

Battles at the Yin-Yang level are rare, and it is great to observe and observe for the disciples under his command.

After half a minute, the audience in Fang Yue's room exceeded 100,000.

In one minute, the attention in Fang Yue's room soared to 320,000.

The servers of major websites were squeezed by an influx of people.

Three minutes later, the attention of Fang Yue and the King Kong people reached 3 million!

"Mr. Lei, there is something wrong with Mr. Lei!"

Great Wall Biological Co., Ltd., the president's office, a man ran in in a panic.

"what's up?"

Thunder frowned slightly. He often gave lectures to his subordinates on weekdays, so he didn't panic. How did this guy learn?

Thunder reluctantly suppressed the anger in his heart, and then slowly said: "Let's talk about it, what is going on?"

"This Fang Yue, this Fang Yue boldly sponsored the sky, and actually broadcast the life and death battle between him and the King Kong people in public!"

There was something stuttering in the man's voice. Fang Yue's move was really unpredictable, and it was impossible to guard against!

"What? He is broadcasting the life and death battle between him and the King Kong people? Where is it? Let me see!"

An uneasy feeling in Thunder's heart exploded with a bang.

His heart is punishable, his heart is punishable!

Fang Yue's move has already pushed Great Wall Biological Co., Ltd. to the forefront. No matter who Fang Yue and the King Kong people win or lose in this battle, Great Wall Biological Co., Ltd. will definitely lose in the end!

There is no other reason. This mysterious King Kong man's hole cards will be completely exposed to the public's eyes. Once exposed, the once hole cards will no longer be their magic weapon for surprising victory. Other big forces will carefully study the strengths and weaknesses of the King Kong people, and then formulate targeted strategies. Secondly, the exposure of this King Kong man to the people means that Great Wall Biological Co., Ltd. is no longer without the power to fight against the Dark Moon plane.

If they avoid war in the future, there will be no excuses and excuses, and even the saliva of people will be able to flood their company.

This Fang Yue's heart was vicious, and it made thunder blatantly.

"The entire network is a live broadcast of the battle between two people. Up to now, five million people in the live broadcast room have followed!"

The man handed the phone to Thunder's face with a trembling hand.

On the screen of the mobile phone, during the live broadcast of the ultimate battle between Fang Yue and the King Kong man, next to the room number, a small blue letter that kept beating represents the amount of attention the two battled live broadcast.

This number is not brushed out. It's the actual number of people in the room.

In this era, there may be people who are not interested, but absolutely no one can ignore the mysterious battle between the two masters of Yin and Yang level.

This is Fang Yue's battle of the heart!

Regardless of victory or defeat, Great Wall Biological Co., Ltd. will be under unprecedented pressure.

Fang Yue's sinister mind gave Lei Ming a great sense of crisis.

"How should we deal with this matter, please enlighten Mr. Lei."

The man was standing in front of the thunderous table, and he had already smelled a gust of wind and rain.

Leiming fan stared, and after a moment of contemplation, he said to the man: "Tell the King Kong man first. In this battle, he can only win, not lose. It doesn't matter if he uses some special cards. My Great Wall creatures are limited. The company's complete rise in this troubled world is not based on the faith of the people. It must let the King Kong people show invincible demeanor and let them know that my Great Wall Biological Co., Ltd. is not easy to provoke. Only if they are afraid, will our company be allowed. get respect!"

There was a hideous fierceness on Thunder's face.

The Great Wall Biological Co., Ltd. was able to reach the place it is now because he thunderously paid a great price and then fought with one blow. He will not allow Fang Yue to influence his overall plan by such a jumping clown, and he will not allow Great Wall Biological Co., Ltd. to have the slightest difference in his own hands!

"Then, hold a press conference for me! I want to provide the Huaxia military with a newly developed advanced cell damage repair agent. Didn't Fang Yue want to make me stink forever? Then I won't let him do it! It's just a pity With this trump card in my hand, I could have asked the military for a good price. But at this time I have to contribute!"

Hearing the thunderous arrangement, the man gradually recovered his confidence.

"Yes, Mr. Lei, I'll order someone to set it up!"

After the man left, thunderous eyes focused on the phone screen again.

Fang Yue and Jingangren have attracted tens of millions of people, including not only domestic users, but also foreign users!

Fang Yue and King Kongren stood at both ends of the ring.

The eyes of the two met, and the eyes of the King Kong man burst into sharp murderous intent.

Fang Yue was the opposite. He was a little arrogant. It seemed that this was not a life-and-death game at all, but an ordinary meeting of old friends.

"The popularity of 13 million people! I think it's time for me to shoot!"

Fang Yue said to himself, a sharp light radiated from his eyes.

The King Kong man took the lead to seize the opportunity, and the anxiety in his heart became more intense.

The iron fist swung out, the wind screamed, and a phantom of the blue dragon accompanied his fist soaring towards Fang Yue's front door.

Fang Yue smiled slightly, one hand blocked the King Kong man's iron fist.

Fang Yue's shots are not fancy, but every move has a taste of returning to the original.

Fang Yue's fist was resisted by the King Kong man. He felt that his fist was plunged into a quagmire, even though he could not pull it out even though he exhausted his whole body strength, there was a great attraction in it that made his fist fall. Getting deeper and deeper!

"King Kong people, but so!"

Fang Yue said in the live broadcast room.

At the same time, he still had time to blow a kiss to the camera with the other hand. The sloppy look made the thunder in front of the screen want to break the phone screen.

"How is it possible? How could this Fang Yue be so powerful? According to the description of the information, didn't he just step into the level of Yin-Yang realm? But his precise control of strength may not be comparable to him. !"

As the saying goes, the layman looks at the doorway, the insider looks at the excitement.

Fang Yue's moves are all quite satisfactory, but what they contain is extremely majestic law.

Fang Yue used the law to completely suppress the King Kong people, unable to show even one percent of his strength.

At this moment, the weakness of the King Kong people was finally completely exposed.

This King Kong man is a powerful man made using modern biotechnology. In the physical aspect, he may be comparable to the powerful man in the Yin and Yang realm, but it is absolutely impossible to grasp the law in the level of understanding.

If you encounter the ordinary Yin-Yang realm, this shortcoming is not so obvious. After all, the ordinary Yin-Yang realm hides its own law and power in the weapon. For example, when Fang Yue got started, the Five Elements Heavenly Dao Law directly suppressed a few.

Absolute laws suppressed, and it was not easy for the King Kong people to stand in front of Fang Yue.

The slightly weaker Yin-Yang realm, I am afraid that it is already lying under this law realm.

"This King Kong man is over!"

A look of despair suddenly appeared on Thunder's face.

Sure enough, Fang Yue took a shot after a while and knocked out the King Kong man.

It only took less than three breaths from the time the King Kong man shot to Fang Yue's death.

Afterwards, Fang Yue said to Lei Ming through the screen, "Is this the King Kong people of Great Wall Biological Co., Ltd.? It's hard to be known under the reputation. I look forward to the next assassination of Lei!"

Fang Yue's voice fell.

The room is closed.

All the audience were invited out of the room.

Fang Yue this is an obvious rhythm of pure death.

Many people squeezed a cold sweat for Fang Yue, who is Thunder? The owner of Great Wall Biological Co., Ltd., an old antique that survived hundreds of years ago.

His strength is unpredictable, and his subordinates are like clouds.

A King Kong man can't represent his limit. Fang Yue killed his King Kong man in the live broadcast and provoked thunder. Isn't this a court death?

However, this is the thought of some people who know their love.

There are not many such people, even in China.

The short video is a little lackluster in content. Three tricks and two methods are the winners and losers.

If it is placed in peacetime, it will be quickly submerged in the information tide of the Internet.

But this time the video seems to have become a stubborn reef in the tide. No matter how the tide beats, it cannot shake this reef half.

This is the first frontal confrontation between Yin and Yang level powerhouses in the history of the earth network!

This video was circulated, as if a bomb fell on the calm water and immediately caused intense spray.

Chapter 1223: Tian Linghou returns

Many people began to analyze the limited content of this video.

Some specialized physicists even used mechanics to roughly calculate the strength of the King Kong people.

Strong, strong!

The energy response in this King Kong person is no less than a nuclear reactor.

And Fang Yue was stronger and killed him with a punch, directly ko.

The defeat of King Kong also means that Great Wall Biological Co., Ltd. has fallen into an unprecedented crisis.

King Kong people are one of Great Wall Biotech's trump cards. This exposure also means that an arm of Great Wall Biotech has been cut off.

In the past, Great Wall Biological Co., Ltd. was a giant in the eyes of many people and an irresistible existence.

However, after they experienced a failure, those who once thought that Great Wall Biological Co., Ltd. was unattainable had doubts about the strength of Great Wall Biological Co., Ltd. in their hearts.

Great Wall Biological Co., Ltd. is very powerful?

It seems to be!

They are rich in the world, and the thundering boss has a deep background, and has reached the top level of the Yin Yang realm.

But the problem is that there is no brother's shadow in the arena, only brother's legend!

This Great Wall Biological Co., Ltd. rarely has a record before, and every time it is legendary.

This legend belongs to legend.

The real combat power still has to be seen under the hand!

Great Wall Biological Co., Ltd. recently made a shot, this time with Fang Yue, and then they were defeated, they were abused, and even their signboards were down!

Could it be that the strength of Great Wall Biological Co., Ltd. was blown out before?

Maybe.

Suspicious of this thing, as if it has its own vitality, once it is born, it will continue to multiply irresistibly.

Some upstream and downstream partners of the Great Wall Biological Co., Ltd. began to have a close relationship with them.

However, some hostile forces of Great Wall Biological Co., Ltd. have become more and more intensified.

But now, Fang Yue has little interest in Great Wall Biological Co., Ltd.

Fang Yue's Jingnan City welcomes a rare visitor-Tianlinghou from the Dark Moon plane!

This time, Tian Linghou came in his own plain clothes, and came quietly all alone!

In the closed conference room, there were only Fang Yue and Tian Linghou.

Tian Linghou was dressed in a white robe, and his demeanor was handsome. He no longer had the conservative and timid feeling of the three lords coalition forces before.

"I take the liberty to bother, and hope that General Fang Yue won't be offended!"

Tianlinghou was quite polite.

But Fang Yue felt a sense of arrogance from behind that polite.

That's right, Linghou did have a proud capital this day, and his aura was completely different from before.

The breath that Linghou displayed at this moment turned out to be the peak of Yin-Yang realm. Even among the princes, he could be regarded as the top pinch, and Fang Yue also felt a sense in Tian Linghou's body. Very powerful breath!

This breath shocks the world, weeping ghosts, if Fang Yue expected it to be good, this should be the top bloodline in the earth!

With the bloodline matching the realm, Linghou definitely has the ability to challenge the leader-level powerhouse this day.

The water on this dark moon plane is very deep!

On that day, he didn't even see Tian Linghou's disguise.

Fang Yue's heart was secretly wary.

"Don't blame it, don't blame it, come and have a sip of tea!"

Fang Yue personally handed a cup of hot tea to Tian Linghou's mouth. As the saying goes, he doesn't hit the smiley person with his hand. Fang Yue believes that Linghou came to discuss cooperation with him this time. Otherwise, he could not. In order to show my sincerity, I came here alone.

Of course, on this day, Linghou might also have absolute confidence, thinking that no one below the real level on this earth can help him!

Tian Ling Hou slightly smelled the fragrance of tea, there is no problem, being in a high position, he always cherishes his life very much!

Out of courtesy, Tian Linghou took a sip of tea.

The tea entrance is full of fragrance.

The faint scent of tea floated between Tian Linghou's lips and teeth, and his face showed an expression of enjoyment.

I don't know what kind of material was added to the tea, which made him feel a faint soul floating when the tea entered his throat.

He felt that after drinking tea, there was a slight crack in the bottleneck of the cultivation base that had not been loosened. His spirit strength has also grown a little.

"Good tea!"

After Tian Linghou had tea, he paid more attention to the boy in front of him.

He became more and more sure that his decision before coming was the right choice.

"If Tian Linghou likes it, before leaving, I can give Tian Linghou a small bag. The visitor is a guest, and I will never let Tian Linghou go home empty-handed!"

Fang Yue said with a smile.

Tian Linghou smiled and said: "Then I would like to thank General Fang Yue, if so, I am disrespectful! This time, I am grateful to General Fang Yue! General Fang Yue swept the territory of Jiuyouhou before and killed the nine. Youhou, now that Jiuyouhou's former territory has been divided by me and Mingyuehou! I occupy 40% of the territory, and the power of my subordinates has grown further! This time I also brought 100 million spirit stones and 500 tons. Fire jade came to thank General Fang Yue!"

One hundred million Lingshi Fangyue doesn't value much. As a billionaire worthy of a trillion, this resource is tantamount to a little bit of water for him.

But fire jade is a good thing!

One of the raw materials for making weapons of the world level.

This thing cannot be produced on the earth at all and needs to be purchased from the outside world!

The purchase price of Galaxy Bank is 100,000 stars per catty.

This price must be inflated, and it cost 20,000 stars a catty, but the earth has no allies on other planets or planes, so it can only admit it!

The 500 tons of fire jade in Linghou that day directly solved Fang Yue's urgent need!

"How embarrassing is this?"

Although Fang Yue said so, he directly put the storage ring that Tian Linghou handed over on his hand. The small mosquito legs are meat.

As for the conditions behind Tian Linghou, let's take away the benefits first.

Seeing that Fang Yue had something under his hands.

Tian Linghou smiled like a flower.

What he fears most is that Fang Yue is extremely upright and unwilling to join hands with the people of the Dark Moon plane. It's good to be greedy for money!

People who are greedy for money have shortcomings, and they can use them to become allies instead of enemies!

"In addition, there are two billion spirit stones to be handed over to General Fang Yue. These spirit stones are not mine, but from General Zhou Ying. On that day, General Zhou Ying had promised General Fang Yue, and I just made it for him. Just hand it over!"

Tian Linghou took out another storage ring, which was filled with massive spiritual stones.

Fang Yue smiled brighter when he heard this!

Fang Yue never forgot the promise of Zhou Ying.

Only that day, after opening the space node, Zhou Ying had disappeared without a trace. Fang Yue hadn't seen Zhou Ying for a long time, so he finally left with regret.

Unexpectedly, Zhou Ying was in a gang with Tian Linghou this week, and he also gave Fang Yue two billion spirit stones.

If these two billion spirit stones are placed in front of Li Qingyun, it is estimated that his eyes can turn into the look of a rabbit.

"Thank you Tian Linghou, and thank General Zhou Ying for me! I don't know what will happen to Tian Linghou this time. If our party can help, it must be my duty!"

Fang Yue's face was full of justice.

Tian Linghou secretly sighed hypocrisy in his heart.

But what he wanted this time was Fang Yue's attitude.

"This time I came, indeed, there was a merciless invitation! I am a talented person, and my status is humble in the Tianfeng Empire! I want to expand the territory and become a real official of the border. But I need General Fang Yue is here to help me!"

Linghou's eyes turned around that day.

Fang Yue immediately understood what he meant.

Is Linghou's territory not big enough this day?

Just swallowed four tenths of the territory of Jiuyouhou before!

What he meant by this was to imply that Fang Yue could do the same thing before!

Killed Mingyuehou, the territory of Mingyuehou is his.

As for whether people stay or not, in fact, it doesn't matter to Tian Linghou, the Dark Moon plane is originally overcrowded, they lack everything but there is no shortage of population.

The city where Jiuyouhou was slaughtered by Fang Yue before is now full again.

Fang Yue was slightly silent.

"What's the benefit to me in doing this?"

Fang Yue did not have any euphemisms, but directly stated the key points.

"Fresh! If you do this, General Fang Yue can have three benefits. First, General Fang Yue can get my ally! I can notify General Fang Yue of any troubles in the Tianfeng Empire in the future! Second! Point, if General Fang Yue can help me annex the territory of Mingyue Hou, I can offer 50 billion Lingshi plus a large amount of minerals, and you and I can establish a chain of cooperation. The different planes captured by General Fang are different. Anyone who is strong can be sold as a slave trade through me. The income obtained is divided into two to eight. I only need 20% of the hard work, and 80% of the income goes to General Fang Yue, and General Fang Yue can also use the spirit stone to get I buy various minerals from the Dark Moon plane. The earth's aura has just recovered. Although the potential is unlimited, it has no foundation to support! The third point, as long as the cooperative relationship is established, if it is on earth in the future, what will General Fang Yue have? For those who are not easy to kill, I can be your knife. My subordinates do things simply and neatly, no one will doubt it!"

Tian Linghou came prepared, and one by one, Fang Yue was excited.

But Fang Yue did not immediately agree.

Greed is the original sin.

After a moment of silence, Fang Yue spoke again.

"You and Zhou Ying are not actually members of the Tianfeng Empire!"

Fang Yue's words were shocking, and even Tian Linghou was taken aback by Fang Yue.

"How did you know this?"

Tian Linghou calmed down quickly and asked back.

"Because you don't have any sense of belonging to the Skywind Empire. This is one of them. Before Zhou Ying asked me to kill the people on the Dark Moon plane as much as possible, now I want to come. Those people in front of the space node at the time were all from the Skywind Empire. People, this is the second. Far-reaching and near-attacking is actually a very common strategic method. Who benefits most from the damage to the strength of the Tianfeng Empire? It must be the enemy countries around the Tianfeng Empire, which is the third. It's not bad, you should be a member of the Ice and Snow Empire bordering the Tianfeng Empire, not only you, but also General Zhou Ying! Around the Tianfeng Empire, there are several countries where the Tianfeng Empire is as deep as the sea, but you can The Tianfeng

Empire planted spies and became a prince, and the only country that can use such a large amount of wealth to buy mine is the Ice and Snow Empire!"

Fang Yue's reasoning made Tian Linghou involuntarily startled with a cold sweat.

Chapter 1224: Cooperation

This Fang Yue's inference is quite reasonable. He was able to draw such a conclusion with only a little information. This Fang Yue's thinking ability is simply terrible!

"Then what else did you infer?"

Tian Linghou's voice was a little low.

"I also inferred that if the Ice and Snow Empire conquered the Skywind Empire, the next step might be to reach out to the earth! After all, the dark moon plane is not far away, and the earth's aura is gradually recovering. With infinite potential, it is likely to become the next colony of the Tianfeng Empire."

Fang Yue's voice fell.

A drop of sweat on Tian Linghou's forehead rolled down.

This Fang Yue is too demon!

Even this can be inferred.

"Then are you still ready to cooperate with me? I can tell you now that all your guesses are correct! If the emperor conquered the Tianfeng Empire, the next target must be the earth!"

Tian Linghou was outspoken, and lying in front of people like Fang Yue had no meaning at all.

"Cooperate, why not cooperate?"

Fang Yue's mouth showed a happy smile: "Although the Ice and Snow Empire is more powerful than the Tianfeng Empire, even with my cooperation, the Ice and Snow Empire will not be able to defeat the Tianfeng Empire within ten years. No one knows what can happen in time! Maybe the earth has been occupied by other planes in ten years? For the time being, we have a common enemy, the Skywind Empire! As for the Ice Empire to conquer the Skywind Empire Who knows the future?"

Fang Yue's thinking made Tian Linghou feel amazed. At the same time, he smiled bitterly at Fang Yue and said, "Can I say that I don't want to cooperate with you now? I think that cooperation with you is totally attracting wolves into the room! If so, if possible, I would never be your enemy for the rest of my life!"

Fang Yue smiled and said: "It's too long in my life, I can't see too far, I just hope that our cooperation can go on happily in a short time!"

"Happy cooperation!" Tian Linghou and Fang Yue signed a contract and left quickly.

The contract itself is bound by a causal force.

Its validity period is three years.

In other words, Fang Yue and Tian Linghou's friendship and relationship with allies can only last for three years.

Three years later, the two are their own masters, and they are likely to meet each other and become enemies.

When Tian Linghou left, Fang Yue had another hole card in his hand!

In the next half month, Fang Yue's life fell into a weird peace.

It seems that the whole world has forgotten his existence.

The only episode was that Lei Ming finally ransomed Lei Ling after a difficult negotiation at the cost of 100 million Lingshi.

Lei Ling is the son of Lei Ming, and he is also a sharp knife of Great Wall Biological Co., Ltd.

He can't die, otherwise, Great Wall Biological Co., Ltd. will appear weaker and weaker.

Once the Great Wall Biological Co., Ltd. showed a weak posture, the cows, ghosts, and snakes who were dormant would rush out and take a bite.

When the wolves eat the tiger, even if it is a fake weakness, it will become truly weak in the constant struggle and resistance, and eventually decline, and the wind will disappear.

Li Qingyun was also present when the Great Wall Biological Co., Ltd. redeemed Leiling.

Li Qingyun saw the terrible capital for the first time!

Spend money like dirt, and you will get a hundred million spirit stones! If this spirit stone is invested in the military, how many masters can be trained?

However, the stingy Great Wall Biological Co., Ltd. is still inexhaustible, and even with the release of new products, it has squeezed a lot of military wool.

After staying in Jingnan City for seven or eight days, Li Qingyun left. After all, he is a member of the military. He has completed his mission and rescued his two comrades in arms. Naturally, he needs to return to the military and obey the arrangements.

As a strong man in the Yin-Yang realm, he must sit on the side.

Even if it is a strategic deterrence, as a powerful person in the Yin-Yang realm, he cannot rush everywhere.

Those bombs donated by Fang Yue and purchased from Galaxy Bank were also actively developed by the military to analyze their structural principles.

Although it has not been imitated, the research results of half a month are said to have improved the earth's technology in this area by a decade.

Some military leaders expressed their gratitude to Fang Yue through Li Qingyun.

Moreover, Fang Yue was given the rank of major general symbolically.

This rank is admitted by the military, but it is not true. On the one hand, it is to reward Fang Yue's contribution to donating high-tech weapons. On the other hand, it is also necessary to trap Fang Yue in this way and restrain his troops from doing mischief on the earth.

However, the military thinks too much.

Fang Yue didn't even have the intention to make trouble.

It has been quiet for the past half month, but Fang Yue hasn't been idle at all.

Fang Yue spent a lot of money and spent a full 50 billion stars to transform Jingnan City into a future science fiction city through Galaxy Bank.

Its city defense system is just completed, capable of instantly killing the masters of Yin and Yang level.

Jingnan City also has its own scientific research and training bases, and a futuristic robot production line. As long as the resources are sufficient, it will be able to produce an army of robots far and wide.

The most important thing is that Fang Yue spoke alone and engraved a total of one hundred and eighty thousand teleport runes in the southern city of Beijing, turning the entire southern city into a magical weapon.

Once the situation is not good, Fang Yue can temporarily teleport the entire Jingnan City to another dimension to avoid the crisis of life and death.

Fang Yue's method was to protect his subordinates in case of accidents.

Fang Yue is an absolutely conservative person.

But the peaceful years will always pass.

A news from Emperor Jing broke the tranquility of the past.

After being besieged by the Dark Moon for more than half a month, the Emperor finally began to launch a general attack on the remaining fifteen princes of the Dark Moon!

late at night.

A troop consisting of pure biochemical warriors at the rotation level surprises the garrison of the princes along the dark moon plane.

This army of biochemical warriors has a total of 1,000 people, turned into death in the dark and harvests lives.

In less than ten minutes, they were the elite warriors of the Heaven and Earth realm who had slaughtered tens of thousands of Dark Moon planes, and they also beheaded three hundred famous people of the Dark Moon plane rotation realm.

These thousands of human soldiers were destroyed at the same time, and no one survived!

The princes of the Dark Moon were furious, and he sent an army of 200,000 to Yanzhou, which is closer to the Dark Moon, to massacre the ordinary people on the earth.

Unexpectedly, they encountered an ambush and were all killed by the mysterious nerve poison, and they never survived!

In this regard, the final battle of the Imperial City kicked off.

The forces from all over China have sent troops to help the emperor, they either fight for aid or send troops directly to support!

For example, Fang Yue directly led the elite fighters of the three thousand Sirius planes to sweep around, intercepting the reinforcements of the five thousand Heavenly Wind Empire who wanted to support the Emperor.

Fang Yue's military exploits were not outstanding, but his report was extremely dazzling.

For a head-on charge, the opponent has five hundred rounds of strong players and four thousand five hundred elite fighters in the world.

But after one round, Fang Yue didn't make a move. The reinforcements of the Five Thousand Heavenly Wind Empire were destroyed, and Fang Yue's men had no casualties!

Crush, this is absolute crush!

The only reason is that Fang Yue taught the soldiers of the Sirius plane different battle formations, so that they can use the power of war to change their formations at any time, attacking one body, and not afraid of war.

Emperor Jing's decisive battle was fought fierce.

Only on the first day of the war, the two sides each had more than 100,000 injuries!

But a discerning person like Fang Yue can see through it at a glance. This is just a prelude, and all deaths are cannon fodder.

No one really took out their wealth.

The princes of the Fifteenth Route are all their own men! These people worked hard, even if they really conquered the imperial family of the Emperor Tianfeng Empire, they would not be able to supplement them!

The Imperial Capital is also the main force of the Chinese military.

These main forces are China's hope. If they are all lost, China will have difficulty gaining a foothold on the earth.

On the same day, Li Qingyun came.

His identity this time is a lobbyist.

Next to Li Qingyun there is a woman in red, a uniform in uniform, at the pinnacle of the rotation realm, with a proud expression on her face!

"Fang Yue, I am here this time to request your support on behalf of the military!"

Li Qingyun lowered his posture and spoke very politely. He saw Fang Yue right away.

Because of the war, it is urgent.

With every delay, thousands of soldiers will die on the battlefield.

Over time, this battle of Emperor Jing will become a huge meat grinder.

The speed of sacrifice will get faster and faster.

"Huh! Li Qingyun doesn't need to be so polite with him. Everyone is responsible for the rise and fall of the country. As a Chinese, Fang Yue must go all out!"

Before Li Qingyun finished speaking, she was interrupted angrily by the woman in red next to her.

Fang Yue originally wanted to look at Li Qingyun's face and put more effort into it, but when he saw the attitude of the woman in red, he was suddenly disappointed.

"Sorry, I am not a husband, I am a prince along the way! I have pushed back the princes of the Three Ways, and killed the princes of the Three Ways. And I killed the five thousand reinforcements on the Dark Moon plane to prevent them from attacking the Imperial Capital! Now my mission It is to defend this southern Beijing city and not fall! Therefore, you have no reason to threaten me from a righteous point of view! Moreover, this is my site, you are not welcome here, please leave!"

Fang Yue stretched out his hand, already making a gesture of rushing people.

The woman in red was furious: "Fang Yue, do you know who I am? You dare to drive me away!"

"I don't need to know who you are, and I don't want to know who you are. I only know that this is my territory, and I don't welcome you!"

Fang Yuepingsu, what he hates most is being threatened by others.

He is a bit soft but not hard.

Fang Yue had his own opinions regarding the siege of the Imperial City by the Dark Moon plane.

In his opinion, this is a game, and a little carelessness is likely to cause trouble to the upper body.

The Tianfeng Empire underestimated the Imperial Capital, and too underestimated China.

The power of Gu Huaxia is far from what they can imagine!

This emperor once witnessed the rise and fall of the dynasty generation after generation, how could it be breached so simply!

Not only the Imperial Capital, but also the southern part of Beijing where Fang Yue is located, it was also the ancient capital of some dynasties.

The more Fang Yue studied, the more frightened.

Chapter 1225: Li Mengyun

Although the secret hidden in Jingnan is not as good as that of the Imperial Capital, it is definitely a mysterious place in which the shocking Xin Mi is hidden!

The Imperial Capital will not fall, and even China's military will not be able to defeat the Fifteenth Route princes without paying too much.

The previous stalemate was not because China's military lost to the fifteenth route princes on the Dark Moon plane, but what they were preparing for the final break!

"Fang Yue, this is Li Mengyun, the younger sister of Fengyun Sword Sect. She has been a little bit fierce in her speech since she debuted. Here I apologize to you for her!"

And Li Mengyun is more wronged than Li Qingyun.

With regard to Fang Yue's temperament and personality, Li Qingyun has already understood him better after spending so much time with him.

Fang Yue didn't have China in his heart, but he didn't want to be threatened and oppressed in the name of righteousness. If he negotiated well, there might be room for return.

Blindly tyrannical will only make the relationship with Fang Yue stiff!

"Li Qingyun, I did the right thing. Why do you apologize for me! What qualifications do you have to apologize for me! You are just a subordinate of my father, Lin Qingyun, and you are my domestic slave in the spiritual world!"

Li Qingyun was immediately stunned when he heard this, his face was ashen as if it were iron plates.

What does it mean? I, Li Qingyun, follow Marshal Lin because I admire him and admire him, so I am willing to saddle him and listen to his dispatches. In the mouth of you yellow-haired girl, how come I have become Marshal Lin's dog-legs?

At any rate, I am also a strong man in the Yin-Yang realm, and belong to the small group of people at the top of the pyramid on this earth.

Minion?

nonexistent!

That's it! I don't care about this time!

Li Qingyun was discouraged and didn't expect that his behavior would only be used as a slave in the eyes of Marshal Lin's family.

"After Li Mengyun went back, I told your father that I, Li Qingyun, and him will be absolutely stubborn from now on! Although Li Qingyun, I am not talented, I still have a few arrogance on my backbone! Being loyal to China is not necessarily the only way to follow him!"

Li Qingyun was not impulsive, but had already felt that Marshal Lin and his subordinates did not seem to respect him so much.

It's just that Li Qingyun himself didn't want to admit it all the time.

And this Li Mengyun's words completely pierced the last layer of window paper.

Fang Yue stood by and was stunned.

Brother, sister, didn't you two come to persuade me to play?

Why haven't I said anything, you two get started first?

Li Qingyun is not talking.

Since he had decided to get rid of Marshal Lin's sequence, he would not do anything for them.

People must not be arrogant, but at least they must be arrogant.

People treated him as a slave, and he didn't need to lick his face, he really served as a slave.

Li Mengyun also twiddled his fingers, with a slight smile on the corners of his mouth.

"If you want to leave the control of the Lin family, where is it as easy as you think, a slave for a day and a slave for life. I will give you another chance and tell me your final decision. If you are still willing to continue to work for the Lin family, I can As you said, I didn't hear a word, but if you are obsessed with understanding and continue to persevere, don't blame me for being ruthless!"

Li Mengyun's attitude is even tougher.

There was a smell of contempt in her eyes when she looked at Li Qingyun.

Fang Yue's eyebrows twitched a little.

Li Qingyun also felt uneasy in her heart.

No matter how strong Li Mengyun is, it is at the pinnacle level of the rotation realm, and when he is weak, Li Qingyun is also a strong at the Yin Yang realm level!

What qualifications does she have to threaten herself?

Is it possible that Li Mengyun still has an unknown hole card in his hand?

Li Qingyun spoke again: "Skills can be killed, not insulted. It's all about it, don't want me to return to Lin Shuai's hands and be used as a slave by him!"

Li Qingyun is also a temperamental master. You treat me like a cow or horse, and I treat you like dung. No matter how much benefit this handsome Lin can give him, he can never bow down and be called as a servant.

Li Mengyun's phoenix eyes were slightly picked: "Li Qingyun toasts and does not eat or drink fine wine. You asked for it! Before I came, my father gave a token and said that I only need to instill a ray of divine power into it. You can suffer all the torture and pain, and then obey me!"

Li Mengyun's voice fell, and Li Qingyun's face changed suddenly.

Had he been poisoned by someone when he was not paying attention?

Li Mengyun really took out a silver token, which was engraved with dense curses.

Li Mengyun poured a ray of spiritual thought into it, and then triumphed on the spell on it.

Bytes fell from Li Mengyun's mouth, and Li Qingyun's face suddenly became pale.

"Ah! It hurts! Lin Shuai, I believe you so, but secretly poisoned me, you must not die! I Li Qingyun and you are at odds!"

Li Qingyun wailed in pain. He felt as if there were countless insects crawling in his body. These zergs were eating his flesh and bones. They were everywhere, making him intolerable.

"Hahaha! What dad gave me is really good. My dad knew you were unreliable and rebellious, so he left behind so that I could surrender to you. How about the strong in Yin-Yang realm? What about the great man who has reached the tip of the pyramid of the earth? He is not like a dead dog begging for mercy in front of me. Hurry up and tell me, do you dare to resist me rudely?"

Li Mengyun proudly scolded Li Qingyun.

Fang Yue watched such a farce coldly.

This thing is actually a good thing for Li Qingyun, which allows him to understand the sinister heart of the world and see through the warm and cold changes of human feelings!

"You vicious girl, you have the ability to kill me! Otherwise, I, Li Qingyun, would rather die. If I can't die, all of you Lin family father and daughter will not die!"

Li Qingyun would rather die than yield.

As a strong man in the Yin and Yang realm, he still has a bit of backbone.

There was a playful look on Li Mengyun's face. In her eyes, Li Qingyun had already completely removed the fish on the chopping board.

His current stiffness is at best a dying struggle.

A long sword suddenly appeared in Fang Yue's hand.

The long sword rested on Li Mengyun's neck.

Li Mengyun's hair exploded. She had known that Fang Yue was powerful, but she didn't expect that he could approach herself silently, posing a fatal threat to herself.

However, Li Mengyun didn't have much fear on his face.

"Do you know why my last name is Li but not Lin?"

Li Mengyun suddenly thought about it.

"Because you followed your mother's last name, your mother is better than your father Marshal Lin!"

Fang Yuebai gave Li Mengyun a glance. Back then, we were also the one who read the books of Aunt Qiongyao and Uncle Finance.

This old routine, buddy still understands.

There was a slightly surprised expression on Li Mengyun's face: "Then you don't know who my mother is?"

"do not wanna know!"

Fang Yue's answer was straightforward.

Then, a silver sword light floated from the void.

Flying out of the sky!

A sword trick that is not uncommon comes quickly.

Fang Yue's figure was illusory and missed this ultimate move.

"If you don't want to know, then go to **** and be a fool!"

A gloomy old man's voice came.

Fang Yue's figure appeared ten meters away.

He saw a figure of a slightly hunched old man appeared behind Li Mengyun.

The old man's beard and hair were all white, but there was a lingering hostility on his face.

Even years can't erase this hostility.

Fang Yue shook his sleeve robe, and the silver token in his sleeve robe fell and appeared in Fang Yue's hand.

"Elderly, if you are old and have trouble with your legs and feet, you should stay at home for a long time. At this age, there is no need to run around for the juniors. Be careful not to protect the late festival and take all the little life you have. Go up!"

Fang Yue's speech was not fast. He lowered his head and played with the silver token in his hand. He didn't seem to pay any attention to the sudden old man.

It was the silver token that made him quite interested.

"This should be the method of the legendary child-mother Gu! Well, it's a good job. The child Gu worm was first planted in Li Qingyun's body, and then reproduced over time. Once the mother Gu worm sends a signal, the child Gu worm will He began to make waves in Li Qingyun's body, making him miserable, and finally had to succumb to the lustful might of Gu!"

Fang Yue spoke slowly, but his words revealed the mystery.

The mother Gu worm is no longer activated by the spell, and it no longer triggers the child Gu worm like Li Qingyun.

Li Qingyun stood up slowly, his face pale, and the moment of torment just now obviously caused quite serious trauma to his body.

In addition, Li Qingyun's heart also suffered a lot of damage. Before he saddled Marshal Lin with his orders, but he did not expect to end up like this in the end!

"Boy, this matter has nothing to do with you. Hand over the token in your hand and I can treat it as if nothing happened!"

The old man's voice was hoarse, and Fang Yue threatened.

It's not that he didn't want to kill Fang Yue together, but the speed of reaction Fang Yue showed just now, which really made him feel quite frightened.

He is a killer carefully cultivated by Li Mengyun's mother.

After practicing the killing skills for a lifetime, he even comprehended the assassination trails by assassinating the Dao, but for that matter, he was spotted by Fang Yue at the moment of the assassination shot and easily avoided!

Such sensitive people are the nemesis of their killers.

If it is possible, the old man does not want to provoke Fang Yue.

However, the old man did not want to be an enemy of Fang Yue, but Fang Yue did not let the old man mean.

"When you acted on me just now, you didn't feel that I had nothing to do with this thing! Now that I can't kill you, so if you say this, all the good things have become yours! Your old things, don't If you think you have some abilities, come out and learn how to protect the way. You should protect yourself first!"

Chapter 1226: Kidnapping Li Mengyun

When Fang Yue's voice fell, he acted accordingly.

The sword light floated, flying all over the sky.

The patter of sword rain, as if the spring rain is like a cow hair falling down.

However, the old man's face changed suddenly, "Not good!"

His voice just roared, and the thin sword rain shuttled past him.

In a blink of an eye, the old man's body became a sieve, riddled with scars, and no place was complete.

A strong man in the Yin and Yang realm fell, and his body was divided by Fang Yue.

The blood spurting and dyed the earth red!

Li Mengyun's face was pale.

She finally understood that in this world, some people she can afford, and some people she can't afford!

"Fang Yue, don't make a move. Lin Mengyun does have some background. Her mother is the third elder of Fengyun Sword Sect. Because she is a strong master at the master level, she has always been unable to escape from the world! Once the seal of the heaven is loosened again, the leader A strong person in the realm can get out of the sect. This Li Mengyun can immediately become a noble little princess. His father is a marshal in the army and his mother is a powerful elder in the sect.

Li Qingyun stopped Fang Yue, he shook his head slightly.

For himself, he didn't want Fang Yue to cause trouble to his upper body!

"Yes, you can't offend my parents. Now you let me go quickly. I can assume that nothing happened."

Li Mengyun spoke quickly, although her tone was still blunt, but there was already a hint of compromise in her words.

She just came out of the mountain, thinking that her strength and background could already walk sideways on the earth, who knows, she suffered a big loss the first time she did something.

Even the protector that her mother arranged for her was dead.

Li Mengyun felt flustered in her heart at the moment, she just wanted to leave Fang Yue's place quickly and get rid of the dangerous situation right now.

"I can't provoke? Then try it! Now you quickly tell your parents that you were kidnapped by me, let them come to Jingnan City to redeem people!"

Fang Yue didn't care about Li Mengyun's background or anything.

What's so special about you is that you are playing Journey to the West. All the monsters without background were killed by a stick by the monkey, and the monsters with background were taken away by the gods above!

Li Mengyun suddenly felt her body tense, and the blood flowing in her body became thick and slow.

Li Mengyun's body was stiff, and the look in Fang Yue's eyes was full of horror. She didn't expect that Fang Yue's boldness and innocence would dare to attack her.

"Fang Yue, don't! This is turning your face with Lin Shuai, this Lin Shuai is a big man in the military, he is so powerful, he will never compromise with you!"

Li Qingyun squeezed a cold sweat for Fang Yue, this Fang Yue's courage was simply too great.

Every decision he made was unbelievable, and it felt incredible.

Fang Yue slowly said: "What Lin Shuai and Wang Shuai are handsome? I feel that I am the most handsome subordinate in this world! The earth nowadays is not a big man who is pushed to the front of the stage. No matter how good Lin Shuai is, his Didn't the daughter still follow her mother's surname? If I didn't expect it to be bad, then Lin Shuai is just a puppet pushed by Fengyun Sword Sect to the stage! The so-called strengths are all in the foxes, and they borrowed the Fengyun Sword. The power of Zong!"

Fang Yue sighed slightly. This Li Qingyun is indeed a good person, and he is also quite talented in cultivation, but he is suitable to be a pure practitioner. He has no knowledge of analyzing the situation or anything, and is a pure layman!

Sweat rolled off Li Mengyun's little face.

On the one hand, she was frightened by Fang Yue. She had never been kidnapped since she was a child.

On the other hand, Li Mengyun was shocked by the situation analyzed by Fang Yue. She grew up in Fengyun Sword Sect. Every time her father came to Fengyun Sword Sect to face the elders, she saw that in her eyes, although she didn't inquire about anything, she was able to analyze it, and his father really used the power of Fengyun Sword Sect to prop up the facade outside!

This Fang Yue is simply a ghost, not only has his own uniqueness in cultivation, but also analyzes various causes without any difference.

at this time.

Fang Yue's cell phone rang suddenly.

Answering the phone, a faint voice came from outside.

"Fang Yue, come out, I'm outside Jingnan City, I have something to discuss with you!"

The owner of this voice is Wei Yuan.

When Fang Yue remembered it, it seemed that his previous life was still in his hands!

"OK, wait for me!"

Fang Yue hung up the phone.

He asked Wei Yuan for an explanation.

That day, why did Wei Yuan deceive herself and let him enter the periphery of the space node?

"Lin Qingyun, look at this Li Mengyun, if she has anything to do, just kill her without asking me!"

A strong murderous intent flashed through Fang Yue's eyes.

In troubled times, we should use heavy codes.

Cowering, looking forward and backward, will never be a big climate.

Fang Yue soon came to the outside of Jingnan City.

Wei Yuan was really waiting for Fang Yue.

I haven't seen it for a few days, Wei Yuan's cultivation realm is actually a step up, and her natural flavor of Taoism is even stronger and detached!

"I haven't seen you for a few days, I didn't expect you to be the hero of the famous town!"

Wei Yuan's eyes towards Fang Yue were a bit complicated. When he saw Fang Yue for the first time, Fang Yue was still a boy at the rotation level. Although by various means, he was barely able to compare

to the powerful person who had just entered the Yin and Yang realm. At that time, Wei Yuan hadn't really regarded Fang Yue as an existence that could be equal to her.

However, as the years passed, only a few days had passed.

The realm of Fang Yue's cultivation is as fast as he is sitting on a rocket.

He has truly entered the level of Yin Yang Realm!

There are millions of troops under his command, as well as several commanders of Yin and Yang level.

Now, Fang Yue is already the hero of the side, and even the princes of the Dark Moon plane feel a little timid when they mention Fang Yue's name.

Huaxia's military high-level officials also acquiesced to Fang Yue's existence, and did not strike or make other moves!

Fang Yue now needs her to look up slightly.

Wei Yuan sighed secretly in her heart, if she had known that Fang Yue could have the current achievements, maybe she would not have made that decision that day!

"I came this time to apologize to you for what happened last time. I don't know that there is such a big danger in that place. Believe it or not, if I really know that place is so dangerous, I will never let you. Into it."

Wei Yuan is straight to the point, her tone is slow and soft.

There was a sincere apology in his eyes.

Fang Yue nodded slightly: "No matter whether you are intentional or unintentional, I am not willing to pursue that matter. Anyway, the final result is good for me! If it weren't for that matter, I wouldn't be able to do it. Such rapid growth!"

Fang Yue's performance is quite generous.

This made Wei Yuan even more embarrassed.

"I am here this time to tell you a piece of news!"

Wei Yuan spoke again.

Before Fang Yue's inquiry, he proactively said: "39 kilometers east of the Imperial City, a small ruin world is opening! This ruin world was collected from outside the territory by an ancestor of China by catching the stars and catching the moon. Coming. It is already deserted, but it may contain a heart-pounding treasure. The digital planes are already gathering on the periphery of the ruins! They are preparing to divide the ruins, and China also wants to get a share of the pie, or grab a piece of it. Go back to the ruins, but suffer from the lack of current strength, so I hope you will help out!"

Wei Yuan's voice gradually became smaller.

Her pair of pure black eyes looked like Fang Yue.

"What about the siege of the fifteenth route princes?"

Fang Yue's thinking jumped and shifted to another topic.

"The three-way princes have divided their troops out to protect this ruin world tightly, and the earthlings are not allowed to take a half step!"

There was a trace of sadness in Wei Yuan's tone.

This is clearly the legacy left by the ancestors of Huaxia to the Huaxia people, but it is not allowed for the Huaxia people to get involved!

Fang Yue looked at Wei Yuan, was silent for a moment, and then said, "Do you want me to take action for China's Liwei?"

Wei Yuan nodded slightly, and then said: "Yes, this ruin, even if the Huaxia people get all the wealth in it, it may not be able to make Huaxia grow up quickly and reach the point where it can face the dark moon, but this world If the remains of China are not even qualified to get involved, it will be a fatal blow to China's belief in resistance. This is an unbearable humiliation for me!"

Wei Yuan's face showed a decisive expression.

She didn't want to see the earth humiliated, but today's earth is just a creature under the sword of other worlds.

The reason why the earth has not completely died is not because those people are merciful and want to let the earth go, but because some people suspect that there are some treasures in the earth that require the blood of the people on the earth to be able to open.

Once the value of the people on earth disappears, they will be sold as slaves, pigs and dogs, realizing the last bit of value in them.

Fang Yue nodded: "I know about this, and I will participate in the dispute over the ruins world!"

Wei Yuan was pleasantly surprised: "What you said is true?"

"Since I promised you, I won't regret it, but what I got is mine. Don't try to rob me in the name of righteousness! If someone treats me domineeringly and domineeringly, be careful and I will turn my face immediately! "

Fang Yue said the ugly words before, he shot for the earth this time, to win glory for China, this is definitely not a fight for a certain force, and the final glory and spoils will not be divided!

Today, most of the big figures on the earth are spokespersons elected by some dormant practitioners of the world sect. They also cannot represent the interests and glory of China!

Fang Yue would rather donate the extra resources in his hand to some schools that cultivate talents for the earth, and don't want to give those resources to those who seem righteous and awe-inspiring spokespersons!

"This is no problem. As long as the resources in the ruined world fall into the hands of our earthlings, we won't be considered a loser in this one. However, there are many civilized forces that have appeared in

battle this time. Amazing reputation! Fang Yue, although you are extremely talented, you must be careful not to capsize in the gutter!"

Fang Yue smiled and said, "There is no problem with this! When I settle down the affairs of Jingnan City, I will leave as you please, and we will meet the powerhouses of other world civilizations for a while!"

About an hour later, Fang Yue settled the affairs of Jingnan City. He left a puppet of Yin and Yang level to sit in the southern city of Beijing.

Then Fang Yue's aura avatar, with a black and white mask on his face, followed Wei Yuan's departure from Jingnan City and headed towards the emperor!

Chapter 1227: Amami Castle

Imperial Capital, the remains of Tianhai City.

Tianhai City, in the past, a small county seated under the cover of the towering tree of the Imperial Capital, but now a small county town that was not a big one, has now become the focus of the gathering of many forces.

All kinds of creatures descended into Tianhai City one after another.

They have hippie smiles and are bargaining with vendors on the street.

Others are full of serious faces, with a murderous breath lingering around their bodies, as if they are ready to draw swords and kill people at any time!

Fang Yue came to Tianhai City and felt the changes of the earth. In fact, the Yanhuang ethnic group is a very adaptable nation.

Many worlds struck, but the Yanhuang tribe did not fall.

Instead, he gradually adapted to this situation in a short period of time.

Few small merchants and hawkers of the Yanhuang tribe even paid attention to these outside visitors.

They use some electronic products that are not in the world of practitioners to exchange spirit stones for these outside visitors.

Fang Yue just glanced at it with surprise, when he saw a young girl selling a PSP to a wolf-headed alien, and the wolf-headed alien had an expression of excitement on her face.

He paid one hundred lower-grade spirit stones as a transaction.

The girl did not show a happy expression, it seemed to be just one of the many businesses she had completed.

Soon, she moved Lingshi to other alien races.

"this is okay too?"

Fang Yue laughed dumbfounded when he saw this.

This girl looked only twenty-two years old, with a beautiful appearance, but her aptitude for cultivation was quite ordinary.

However, she has now cultivated to the third level of the Innate Realm, and such achievements are already considered to be the middle and upper reaches of the earth.

The qualifications she needs for her practice are probably all obtained through selling such electronic products.

Fang Yue nodded secretly in his heart, the coming of the ten thousand realms may be a danger to the earth, but also a chance.

If it can survive, relying on the business acumen of the people on earth and many methods, it should be easy to gain a firm foothold in the world.

"Let's go! This ruin world is outside Haitian City. The entrance to that ruin world has not been opened yet, but it has been surrounded by the army of the Dark Moon plane. The people of these major forces can approach the ruins. Entrance, but my Chinese people are excluded!"

A helpless wry smile appeared on Wei Yuan's face.

Fang Yue's expression also became a little cold, "I want to know who is sacred, and guarded the entrance of that ruin!"

Fang Yue and Wei Yuan walked side by side, and they soon walked out of Haitian City.

Not long after the two walked out, they were stopped by a group of soldiers from the Dark Moon plane.

"Huaxia people are not allowed to approach the ruins entrance within a radius of 10 kilometers!"

The soldiers on the Dark Moon plane were very targeted. When they looked at Fang Yue and Wei Yuan, their faces showed deep disdain.

During the whole process of the Dark Moon plane invading the earth, the earth is like a broken bamboo. In their eyes, the earth is an impenetrable civilization, and the earth people are the most ignorant natives.

"This Dark Moon plane has become so arrogant around the Imperial Capital? There are soldiers from the Dark Moon plane beside Jingnan City, but they all detoured after seeing me!"

Fang Yue and Wei Yuan said.

Wei Yuan was speechless for a while.

You Fang Yue's wicked name has already risen in the vicinity of the southern city of Beijing. This time you are wearing a mask. If you show your true face and show your identity, the soldiers in this team will definitely not dare to stop you. !

Of course, Wei Yuan was just slander.

"What if I want to force it?"

Fang Yue did not subdue softly, and immediately showed a rather strong posture.

The soldiers in that group were taken aback for a moment. The Chinese people they usually intercept all bowed to their knees and detoured after seeing them.

This masked stunned young man dared to yell at them and even rush?

Is it possible that he is really not afraid of death?

"If you dare to push hard, we will kill you!"

One of the soldiers with extremely vicious faces at the heaven and earth level suddenly grinned and approached Fang Yue aggressively.

"dead!"

Fang Yue took out the white jade small tripod.

Bai Yu Xiaoding shrouded a group of twelve patrol soldiers on the Dark Moon plane at the heaven and earth level.

An irresistible suction suddenly rolled out.

"You are Fang Yue!"

The twelve soldiers all exclaimed, this white jade small tripod has become Fang Yue's signature method!

"Damn, can you tell? Could it be that I'm already so famous on the Dark Moon plane?"

Fang Yue swallowed his chin and said narcissistically.

In a blink of an eye, the Baiyu Xiaoding had sacrificed all the patrolling soldiers on the Dark Moon plane.

As for their wealth, it was left to Fang Yue.

Fang Yue's actions were simply and neatly killed without leaving a trace.

Wei Yuan next to her rolled her eyes wildly.

"Don't you know Fang Yue that you are already on the blacklist on the Darkmoon Plane? Now you are ranked tenth among the many people on Earth in the Darkmoon Plane's black market bounty list! The top nine Either he is the leader of a country, or he is a strong man who is suspected to be entering the leader level!

Wei Yuan was also speechless.

Fang Yue's portrait was almost in the hands of the soldiers of the Earth Assistant on the Dark Moon plane.

As long as you see him, you must immediately report his whereabouts to your superiors.

There are not many people on Earth who can arouse such attention from the Dark Moon plane.

Fang Yue's treatment was simply...unexplainable.

"On the black market bounty list, I'm actually tenth? What is my bounty?"

Fang Yue frowned, he had tried very hard to offend the Dark Moon plane.

These guys on the Dark Moon plane are so useless!

I can't even see who is the most threatening.

"Your bounty is 20 billion spirit stones."

Seeing Fang Yue's dissatisfaction, Wei Yuan also disliked her ranking too low on the black market bounty list.

The higher the ranking, the greater the risk factor.

Many of the top 100 people on the black market in the Dark Moon plane are already scared to go out!

"Then what's the ninth?"

Fang Yue frowned and asked.

"The ninth is Da Teng Yingmu, the strong man who survived the Heian era of the Eastern Kingdom, and the strong man who is suspected of being the peak of the Yin-Yang realm. He once killed seven strong men of the Yin-Yang realm on the Dark Moon plane! His bounty is three hundred and five. One billion spirit stones!"

Wei Yuan said slowly.

"So much more than me! The people on this Dark Moon plane really have no eyes!"

Fang Yue showed a slight expression of indignation, and then said solemnly: "I have decided to set a small goal for myself. For the people of the Dark Moon plane, I will kill them by 100 million first, and then my reward will exceed This big Teng Yingmu."

Hearing Fang Yue's determined goal, Wei Yuan didn't know whether he should cry or laugh.

This Fang Yue's return is really amazing. Others are anxious and worried because of the reward offered by the Dark Moon plane, but Fang Yue turned out to be angry because his reward was too small!

However, this guy should be joking.

If Fang Yue really killed a hundred million people on the Dark Moon plane, it is estimated that the dynasty of the Tianfeng Empire would be extremely angry and let the monarch of the Tianfeng Empire conquer himself!

"Not enough, you remind me that when there are too many people, my white jade Xiaoding can't be used! My current identity is a mysterious person. If Fang Yue's identity is revealed, they will definitely be vigilant. It's a pit! This white jade small tripod is too dazzling, almost becoming my signature! This is a change of identity, you have to change a weapon!"

Fang Yue's eyes turned over, constantly calculating how to deceive and harm others.

Wei Yuan was almost speechless.

Was he blindfolded by lard? I think he will be the savior and the hope of China in the future!

Looking at the current situation, as long as Fang Yue does not add chaos to China, it will be good.

This guy is completely insane and doesn't play cards according to normal people's routines!

Fang Yue and Wei Yuan continued on.

After walking only a few steps, they encountered another group of soldiers from the Dark Moon plane. This group of soldiers from the Dark Moon plane was more alert than the previous one. They saw Fang Yue and Wei Yuan. He shot almost without hesitation.

Fang Yue subconsciously picked up the small white jade cauldron in his hand and included the soldiers in that group.

For a while, there was no room to breathe.

Fang Yue started quite decisively.

Wei Yuan couldn't help being stunned when she saw this scene.

"Fang Yue, didn't you just say that you can't use the white jade Xiaoding to shoot? You need to change your identity and weapon!"

Fang Yue patted his forehead when he heard the words, revealing a look of regret.

"Look at my memory. I sacrificed the white jade Xiaoding just now! But it doesn't matter! No one around sees it anyway, the dead will not reveal my secrets!"

Fang Yue showed red mouth and white teeth, and a bright smiling face.

Wei Yuan was speechless, and she didn't know which sentence was true or which was false.

But he is always right to kill the fighters of the Dark Moon plane, he kills one more person, and the crisis of this emperor will be reduced by one point.

It's going to rain this day, so if you want to marry your mother, let's go with him.

as long as you are happy.

In a moment, Fang Yue encountered another group of patrols from the Dark Moon plane. This time, the patrols were already led by a powerful person in the rotation realm.

But they still couldn't survive for a moment under Fang Yue's hand. This time Fang Yue had learnt, hesitated for a moment before taking the shot, and took out a machete. With two swipes, the heads of the soldiers were chopped off to the ground.

The soldiers on the Dark Moon plane were killed, as if they were cutting vegetables in front of Fang Yue.

Sometimes Wei Yuan really hopes, if all of Huaxia's soldiers were as brave as Fang Yue.

Even if there were three or five times more people on the Dark Moon plane, it would be difficult for China to cause any harm.

In this way, Fang Yue and Wei Yuan made it through all the way.

Just less than five kilometers away, Fang Yue killed the soldiers of the twelve teams.

Among these soldiers, there are elite martial artists in the heaven and earth realm, as well as masters at the rotation realm level, but none of them is an enemy of Fang Yue's generals.

Fang Yue ran rampant, and he didn't evade anyone when he saw him.

Blood was everywhere, and the corpses became mountains.

Wei Yuan looked at Fang Yue: "Don't you know to keep a low profile? Doing this will easily attract the attention of the Dark Moon plane!"

Wei Yuan said weakly. She felt that she was playing the piano to a cow.

"Low-key, low-key why? I originally wanted to earn some face for the Huaxia people. The bigger the trouble, the better, the bigger the trouble, the Huaxia people will win the honor and win the face!"

The old **** Fang Yue was there.

His voice has not yet landed.

Hundreds of strong men from the Dark Moon plane gathered.

Chapter 1228: Son of darkness

Among these hundreds of dark moon planes, more than 20% of the people are experts at the rotation level. This place is close to the entrance of the ruins, and there is no room for the slightest error. Even the soldiers garrisoned are dark moon. The elite division of the plane army!

The leader among these hundreds of people turned out to be a powerful person on the ninth level of the rotation realm, and there was already a hint of yin and yang rotation on his body.

This means that he has a partial understanding of the Yin and Yang realm, and even half of his foot is about to step into it.

"who are you?"

The man spoke, and the other Yue asked.

Just now, hundreds of soul jade patrolling soldiers shattered, which made him quite angry.

These people are all his elite soldiers, who have followed him from birth to death for many years!

"Huaxia, son of darkness!"

Fang Yue made a firm voice under the mask.

"Huaxia, son of light!"

Wei Yuan was a little lacking in confidence, and Fang Yue had forcibly put on a black and white mask on her face. It seemed that Fang Yue was a partner.

What surprised Wei Yuan was that the black and white mask in Fang Yue's hand was so extraordinary, it could conceal all the breath on her body, making it impossible to see her depth.

As for the name of Son of Bright as the second grader, it was naturally thought of by the official Fang Yue.

When Fang Yue asked her to talk, she still felt nothing.

But when these four words are blurted out, I really feel so ashamed!

"What sons of light, sons of darkness, since you are Huaxia people, you should wait outside. The ruin world here has nothing to do with you. Huaxia people are not qualified to enter here, do you know?"

The man's attitude was rather tyrannical.

He is completely occupying the magpie's nest, taking this relic as his own attitude.

This attitude made Fang Yue quite unhappy.

"We are not qualified? Are you sure?"

You are tyrannical, I am more tyrannical than you.

Fang Yue's attitude is also extremely strong.

Behind this strength is Fang Yue's strength supporting it!

With a click, Fang Yue's machete shredded the ground and inserted it into it.

"Fuck me now, otherwise, be careful I will kill you all!"

Fang Yue is now like a gangster who blocked the road and robbed him, no matter his temperament or his words and deeds.

"The humble native, you will regret what you just said!"

The man was still arrogant in the meeting.

"You killed this arrogant native, and I will make his skull into my wine glass."

The leader of the pinnacle of Rotating Realm ordered a small captain of the fifth floor of Rotating Realm to take action.

The captain hasn't walked out yet.

Fang Yue's machete has already fought undeclared.

With a click.

The captain was cut in half.

He couldn't squint, because he only saw a beam of silver light hitting him in the end. He didn't even know when Fang Yue made the shot!

"Is this your subordinate? How do I feel, he is just like that!"

Fang Yue flew with a sword, the arrogant look on his face even more intense!

Together, they killed a strong person on the fifth level of the rotation realm.

His bones were not cold, and there was still hot air coming out of the smooth wound.

The billowing blood passed the feet of many people.

At this moment, they are all dumbfounded, some of them can't react.

"The people on the Dark Moon plane are nothing more than that! Even if they have cultivated to the level of the rotation realm, they are not my single-strike enemy."

Fang Yue's laughter was extremely hearty, and in a flash, it spread over a radius of tens of kilometers around.

He used the supernatural power of the Buddhist lion roar, and the sound of this sound became extremely penetrating.

The face of the leader at the pinnacle level of the cycle is even more ugly.

This guy deliberately wants to make things big!

It doesn't matter if Fang Yue kills everyone.

Anyway, there are not many others in the Dark Moon plane, and there are many masters at the rotation level.

But if Fang Yue makes the matter big, letting the people of other planes see the people of the Dark Moon plane, even the people on Earth that they have never seen before can stop them.

Then they are really lost.

"Shut up and stop laughing!"

The opponent Yue, who is the strongest rotation realm on the Dark Moon plane, yelled.

Fang Yue glanced at him faintly.

"You people on the Dark Moon plane are really overbearing! You are guarding the entrance of my Huaxia world ruins and not letting me in. You are just too overbearing!"

Fang Yue protested aggrievedly.

Of course, his face was hidden under the mask, and no one else could see his aggrieved appearance.

However, it is useless to stop the strong person at the peak of the Dark Moon plane's rotation stage, because people have seen that the people of all forces have gathered here.

Watching the excitement is something that people in the whole world like to do.

Especially the self-reliant and tyrannical Darkmoon plane's powerhouses are deflated, which is a scene they are more willing to see.

The Dark Moon plane fought on many planes, and its performance was particularly strong. The more powerful, the more dissatisfied many people.

In fact, they don't want to see the Dark Moon plane invade the earth so smoothly. They even hope that the Earth can constantly friction with the Dark Moon plane and consume a part of the Dark Moon plane's vital power.

"The Dark Moon plane turns out to be a paper tiger that is strong and dry. Even the aboriginals of an influent civilization like the earth can make noise with you!"

There is a frivolous-faced young man who mocks the Dark Moon plane.

The face of the strong person at the peak level of the Dark Moon Plane's rotation realm changed slightly, and the thing he worried most still happened.

Part of the power of the Dark Moon plane lies in its own strength, and another part lies in the power and terrifying majesty of the Dark Moon plane.

Once this majesty is broken, many ethnic groups suppressed by the Dark Moon plane will rise up. Although these people are not a climate, their large numbers will also deplete their strength and cause them great trouble.

"Son of Darkness, right! I said that Huaxia people do not have the qualifications to enter, but they don't!"

At this moment, the powerhouse of the Dark Moon plane at the peak of the turning realm showed an extremely tough attitude.

Fang Yue's attitude is even tougher.

"Since I am not qualified, then I will play this qualification! It seems that I didn't kill enough just now, and the people who didn't kill your Dark Moon plane feel distressed and chill!"

Fang Yue's voice fell, and a cold wind blew up suddenly.

When the wind strikes, the clear sky turns into an endless haze.

Under the earth, a stone man emerged from the ground.

One, two, three... and soon reached the number of thousands.

The breath of every stone man is no less than that of a practitioner in the cycle of rotation!

These thousands of stone men are an elite teacher!

"You will kill me whoever sees the Dark Moon plane! Kill my Chinese people's qualifications, kill the Chinese people's dignity, and kill the Chinese people's prestige!"

Fang Yue's strong attitude made the people around him meet with different moods.

But Fang Yue's strength was enough to prove it at this moment.

Being able to summon thousands of stone men at the rotation level in an instant, the strength of Fang Yue's own mana is simply unimaginable!

If this elite division really obeyed Fang Yue's order and killed the soldiers on the periphery of the Dark Moon plane, it would be a one-sided killing.

Even though the Dark Moon plane is strong, it still relies on elite fighters at the heaven and earth level as the main force of the battle!

Occasionally encountering one or two sporadic rotations, it can also be easily crushed by the advantage of numbers.

"Enough of you! Is there any place for you to run wild among the army of the Dark Moon plane!"

The strong man on the Dark Moon plane at the peak of the rotation realm was also a little flustered at the moment. He knew that Fang Yue might not be weak, but he did not expect to be so strong.

This is definitely for trouble.

He brazenly shot, ready to kill Fang Yue.

As long as Fang Yue dies, the stone man he summoned loses the source of power, and will once again turn into mud in the earth without any harm.

Before he started, Fang Yue had already stormed.

The machete slashed, his movements were agile, but his moves were extremely blunt.

Fang Yue had repaired swords and practiced swords, but had never heard of machetes.

The choice of this weapon was only due to his interest.

Moreover, when this thing kills, the enemy is cut in two, how can it be a good word.

The knife light passed.

The strong of the Dark Moon plane at the peak of the rotation realm resisted with his broad sword.

Once again, sparks splashed.

The strong man on the Dark Moon plane at the peak of the rotation realm felt his tiger's mouth numb, groaned, and took two steps back.

Fang Yue was blocked with a knife, but another one.

Knife and Knife Chain, it does not give this dark moon plane of Yin and Yang peak power a chance to breathe.

Fang Yue's performance was quite fierce.

If one cuts it, I will pay two.

The second knife fell, and the strong old power of the dark moon plane at the peak of the rotation realm was exhausted, and the new power was not born.

At the moment Fang Yue's second sword fell, he reluctantly offered his broad sword to resist.

There was a fragile sound, and the surface of the broad sword gave birth to fine cracks.

Then Fang Yue raised the knife and cut again.

With a clang, the broad sword finally died.

Such wild dismissal surprised many onlookers.

"This buddy is taking the route of pure body refining, isn't it so powerful?"

There were shocked expressions in their eyes.

This cut with a single knife, although there is no skill, but it has extremely high requirements for the control of the true energy and the tempering of the physical body.

Fourth knife.

The powerhouse at the peak of the Dark Moon plane's rotation realm finally fell to the ground.

A strong man of quasi-yin-yang state has fallen.

The audience was silent and silent.

This time, the Dark Moon plane met the iron plate.

They said that people on Earth are not qualified to enter the ruins, but their people can't even stop them with their swords.

Four swords killed a quasi-yin-yang realm-level powerhouse.

This record is already a bit appalling!

Earthlings are so powerful!

"The Dark Moon plane has grown bigger this time, saying that they are not qualified, but they were slapped in the face!"

People on other planes couldn't help showing a gloating expression.

Seeing the Dark Moon plane collapsed, their hearts were dark and refreshing.

This time in the Ruins World, the strength of the Dark Moon plane made their hearts unhappy.

Although the Dark Moon plane did not say that they were not qualified to enter the Ruins World, what does it mean that the Dark Moon plane sent these millions of troops to surround the entrance of the Ruins World to Tuan Tuan?

At that time, the Dark Moon plane will enter a hundred people, and those of us from other worlds will enter one person.

I really met a baby, this **** thing must not be besieged and killed by you unconsciously!

Anyway, the ruins world is also a relatively closed world, and no information for assistance can be disseminated.

Chapter 1229: Cruel fight

If you kill someone, you will kill if you kill it. It is said that it was unfortunately perished in the process of exploration. In this way, who can investigate the truth and falsehood of it!

Fang Yue's machete turned sideways again.

"Who else would dare to say that I am a human being on Earth are not qualified?"

Fang Yue's voice fell, and the remaining hundreds of Dark Moon planes looked at each other.

You killed our heads, who would dare to risk this!

At the same time, there was a scream in the vicinity.

The stone people also began to show off their power, scattered everywhere, specializing in patrols on the Dark Moon plane to kill.

The number of patrol teams is small, and the cultivation level is not very high.

Once you encounter a stone man, it will be the end of the entire army being destroyed, and there is not even the slightest other possibility!

The corpses they killed spread all over the field, and blood flowed into rivers.

Even the sky turned into a blood red color.

This is a complete executioner, born indifferent and ruthless, born to kill, dedicated himself to death, and died.

These stone men were originally born in the mud. They are not afraid of death. Regardless of whether you are a creature of the Dark Moon plane of the realm or what status, I will just slash them.

The patrol on the Dark Moon plane was robbed.

They lost a lot this time.

Someone let go of their spiritual knowledge and secretly estimated.

In just a short time, at least a hundred patrol teams on the Dark Moon plane were killed, and more than a thousand people died.

This loss is not very large in terms of the total population base of an army of millions.

But the problem is that the Dark Moon plane has boasted Haikou, saying that the Chinese people are not qualified to enter the entrance of this ruined world!

Those who are not qualified can kill the dark moon plane to change the color of the world.

What about all the qualifications in the mouth of the Dark Moon plane?

"Don't say anything! Then you must think that I am a human being who is still not qualified to enter the entrance of this ruined world?"

Fang Yue waved the machete in his hand, and indiscriminately began to slash the people on the Dark Moon plane.

The powerhouses of the hundreds of Dark Moon planes joined forces in a hurry to organize resistance, and they used various methods to resist Fang Yue.

As a result, those methods fell on Fang Yue, as if hitting a rock with a pebble, unable to cause any harm at all.

A black armor appeared on Fang Yue's body. The origin and rank were unknown, but it had an extremely strong dark swallowing effect. What kind of magic, what sword and light sword shadow fell on Fang Yue's body seemed to be a mud cow into the sea, even a spray. Can't lift up.

And Fang Yue cut it with this knife, as if he was cutting melons and vegetables, and he fell a piece in an instant.

"Who the **** is not qualified?"

Fang Yue asked loudly.

His voice fell, like a thunderstorm, and the waves that this voice turned into directly slapped four or five practitioners in the world of the Dark Moon plane to death!

Fang Yue is really a sheep entering a wolf pack, so he doesn't go mad, and there are corpses everywhere!

Just a few breaths.

The people on the hundreds of Dark Moon planes were completely killed by Fang Yue.

The ground is full of broken corpses, not even a complete one.

"It's too cruel! The fighting between the races is as brutal as it is, either you die or I die. There is no room for relaxation."

The strong man from other planes who was on the sidelines opened his mouth, his eyelids throbbed, and he felt the boiling murderous intent rising into the sky.

Fang Yue alone fought hundreds of people on the Dark Moon plane.

In the end he won with a crushing advantage.

Fang Yue won.

Win simply and neatly.

"You have been recognized by my Dark Moon plane! However, other Chinese people are still not eligible to enter!"

An old man walked slowly from the entrance of the Ruins World, his face was gloomy and his voice was hoarse.

The world of ruins is about to open. During this period of time, no change is tolerated. Even if this son of darkness killed a lot of masters on the plane of Dark Moon and shame the plane of Dark Moon, he still has to approve Fang Yue's entry into the ruins. The qualifications of the world.

It's a face-saving death, but it's actually more contemptible than temporary service.

Fang Yue's killing of the many soldiers on the Dark Moon plane has proven his strength and the qualifications to enter the ruins.

If it is this time to send a large army to encircle and suppress, or a master to kill Fang Yue, it may not be impossible to kill Fang Yue, but at that time, the dark moon plane will inevitably fall into the tongue.

"What about me? I am also from Huaxia, am I eligible to enter this ruin?"

Wei Yuan also gradually learned Fang Yue's style. Since he was facing the enemy, he had to be stronger. Kill them for fear, frighten them, and smash their heads!

The meaning of the old man's words was very obvious just now. What they admitted was Fang Yue's qualification to enter the entrance of the ruins, not the Chinese.

Perhaps in their eyes, Fang Yue's performance is still an extremely rare case.

Therefore, Wei Yuan stepped out to continue playing on behalf of the Chinese people!

"You can not!"

The old man answered Wei Yuan's question decisively.

Acknowledging a Fang Yue already reduced the reputation of their Dark Moon plane a lot.

If we add another Wei Yuan, isn't that going back?

"You said I'm not qualified? Then don't count what you say! Come to someone who counts, talk to me again!"

Even if it was nearly a hundred meters apart, Wei Yuan's beautiful eyes showed a vast world of stars.

The old man met Wei Yuan's eyes, and immediately felt that his body seemed to have lost control. After that, he seemed to have fallen into a vast and chaotic world!

His soul sank, and he gradually lost himself in that world.

I don't know that at that moment, he was assimilated by that universe and eventually disappeared completely.

With a bang, the old man's body fell.

Smashed up a piece of dust.

The old man is not the kind of person Wei Yuan said that he has a low status in the Dark Moon plane and said that he can't count.

On the contrary, his position on the Dark Moon plane is quite impressed, because he is a powerhouse at the pinnacle of the rotation realm. Although his vitality has begun to decline, he is still an old steward under a certain prince.

But in front of Wei Yuan, his life is as fragile as paper.

Just one look was to make the old man completely lost himself, groggy, until he fell completely.

The old man has fallen.

A master at the rotation level just turned into a cold corpse silently.

A disagreement means raising one's hand to kill.

This son of light seems to be more determined than Fang Yue!

"Are the people on this earth so powerful?"

People in other worlds began to talk.

They could see that it was not that the humans on the Dark Moon plane were too weak, but that the two earthlings were too strong!

The powerhouse at the pinnacle of the rotation realm, kill if you say kill.

If all the people on earth are such strong people, then the Dark Moon plane might encounter great trouble on the earth.

The rotation realm is the reserve army of the Yin-Yang realm, the reserve, and it is also the backbone of the Dark Moon plane.

A master of this level, placed in every world, is already a local tyrant and squire, and he is not considered weak.

And these two earthlings, who were not in their eyes at the beginning, easily killed them. It is easy to doubt that the potential limit of this earthling is?

"You also have the qualification to enter the entrance of the ruins!"

At the entrance of the ruins, a cold snort came.

The owner of that voice belongs to a prince!

His cold snort represented the dissatisfaction of Yue and Wei Yuan.

But even though he was dissatisfied, he finally admitted the strength of Fang Yue and Wei Yuan.

At the same time, with that cold snort, all the stone men Fang Yue summoned before were all shattered into ashes.

But they have already achieved their merits and killed nearly 10,000 soldiers on the Dark Moon plane!

When the Imperial Capital and the Eighteenth Route princes on the Dark Moon plane tentatively called for a confrontation, in a small battle, the number of soldiers who fell on the Dark Moon plane was only this number!

It's no wonder that the prince of the Dark Moon plane in the dark will personally kill these stone men.

The stone man is immortal, and I don't know how many soldiers on the Dark Moon plane will be killed before he will stop.

Upon seeing this, Fang Yue said with a little regret: "Brother, you don't care about doing this!"

Fang Yue hummed, but in the end he didn't make any more moths. This Dark Moon plane has already given him down the steps. If he is still making noise, the princes of the Dark Moon plane who are sitting at the entrance of the ruins may also personally take action to kill Fang Yue.

Fang Yue and Wei Yuan arrived at the entrance of the so-called ruin world without hindrance.

This entrance is actually a black cave, but there are waves of energy in the cave.

At the entrance of that cave, there are already four powerful men of Yin and Yang level sitting in town! They all came from the Dark Moon Plane, and they always showed the dominance of the Dark Moon Plane facing this cave entrance.

Fang Yue's divine consciousness extended into the entrance of the cave, and he could clearly sense that there was a thick space barrier in the depth of the entrance that blocked the exploration of his divine consciousness.

That layer of space barrier is melting and dissolving at an extremely slow speed.

This is close to the core of the ruins world.

The figure is faint, but even the weakest person's cultivation is at the pinnacle level of the rotation realm.

There are not many people around the entrance of this ruin world.

Add up to hundreds of people.

Among them, the people on the Dark Moon plane are the most among the many forces. There are a total of 70 or 80 people, of which 30 or so are masters at the Yin-Yang level, and the rest are half-footed to the Yin-Yang level. Tianjiao, their expressions are arrogant, they never put Fang Yue in their eyes.

However, the peaks of the rotation realm among the incoming people from other planes are in the minority, and most of them are at the Yin Yang realm level.

This master clashes, no matter how many people with a low level come, there is no effect.

On the contrary, it is easy to be traumatized in the battle at the Yin-Yang level and die early.

Fang Yue was surprised to find that he and Wei Yuan were not the only people on earth who came to the entrance of this ruin world. Among the Chinese people, there were already five powerful men at the Yin and Yang level.

One of them is Simakong, whom Fang Yue is quite familiar with. At this moment, Simakong's temperament is more calm after the previous blow, and a **** smell is faintly floating on his body.

His eyes were sharp, like two **** long swords.

Except for Sima Kong, Fang Yue didn't know the other four people.

"Who are these people? Why did they get in?"

Fang Yue asked Wei Yuan in surprise.

Wei Yuan shook her head slowly: "Among the five Chinese people, I only know Simakong. The person on the left of Simakong seems to have a bit of impression. I saw it on an old scroll a long time ago. His portrait. Lin Qingxia is an ancient Chinese. He should be from the same age as Zhang Sanfeng. When he was a teenager, he fought against Zhang Sanfeng, but soon, Zhang Sanfeng's cultivation level surpassed him, and then he They are all people who are unknown."

Chapter 1230: Strong aid

Fang Yue followed Wei Yuan's gaze.

Lin Qingxia, who was next to Simakong, had a cold face. He was dressed in white and smelled like a fairy.

Lin Qingxia also wore a long sword around her waist.

Among the five, Simakong was not the dominant one. A young man stood in the middle of the five, and he was half of his position earlier than Simakong and the others.

The purple robe worn by the young man was also embroidered with a five-clawed golden dragon. He was unspeakably expensive. Although he was not so tall and burly, he gave people a breath of Megatron.

After excluding the five powerhouses in the Yin-Yang realm, Huaxia still has ten famous people at the pinnacle level of the rotation realm. They are either young or old.

Obviously the thugs Simakong and others found.

"Unexpectedly, this time the Chinese people, besides the five An Ruxin, also came two mysterious masters! These two mysterious masters, but there is nothing left in the record of my dark moon plane. Mark of!"

An old man on the Darkmoon plane opened his mouth, his skin was wrinkled, layer upon layer, and there were age spots left over by years on his skin.

Obviously he is too old, it is already difficult to stop the physical aging drive.

But Fang Yue and others were not careless and contemptuous because his body had already begun to go downhill.

Because this old man is not taking the path of refining qi, but purely technical cultivation.

Shuxiu, the older the age, the stronger the soul, and the more subtle the mana displayed.

There is even a saying that the pinnacle of Shu Xiu's life is the moment before the death of old age.

"This old guy is called Taoist Xuanhai. His status on the Dark Moon plane is almost equal to that of the leader-level powerhouse. He has reached the end of the Yin-Yang level, and he can even challenge the new leader-level powerhouse. This time he blocked the Chinese people from entering the ruins world, and he called the noise the most vicious!"

Wei Yuan secretly spoke to Fang Yue.

Wei Yuan gritted her teeth, resenting the Taoist Xuanhai deeply.

"We also don't know the identities of these two people!"

The purple-robed boy An Ruxin glanced at Fang Yue and Wei Yuan, then shook his head.

There was a look of surprise in his eyes, and he didn't expect the earth to have strong support.

However, the purple-robed boy An Ruxin did not have much hope for Fang Yue and others.

After all, the earth can be said to be a backwater battle. The real high-end combat power is too far from the Dark Moon plane. If you want to really stand up for the earth in the dispute over the entrance to the ruins world, and enter the ruins world can be described as extremely difficult!

The five of them came with a deadly ambition, even if all of them fell, they would drag a few strong men from the Yin-Yang realm on the Dark Moon plane to Huangquan.

And the ten subordinates at the pinnacle level of the rotation realm who followed them are all subordinates comparable to dead men in their hands.

Not hesitate to fight for his life, but also to use blood to prove that China cannot be bullied.

"It turns out that there are two groups of people, but it doesn't matter. Anyway, no matter how many waves of your Huaxia people come, they will eventually be corpses! This time, everyone must have understood the rules. Then we will proceed according to the previous plan. Right!"

Taoist Xuanhai spoke.

Fang Yue looked dumbfounded.

Damn, I just came here, what you said just now, I don't know!

"I didn't come just now, I hope Taoist Xuanhai will repeat what I just said again!"

Fang Yue spoke directly, very recklessly.

Taoist Xuanhai glanced at Fang Yue, and didn't bother to pay attention to him.

Fang Yue didn't get angry when he saw Taoist Xuanhai ignore him.

"living comfortably without anybody's help!"

Fang Yue muttered to himself, with one hand sticking out, he grabbed a soldier at the peak of the Dark Moon plane's rotation stage.

"Boy smash, tell me, what did Taoist Xuanhai just say?"

Fang Yue tried his best to make his tone more pleasant.

As a result, the soldier at the pinnacle of the Dark Moon plane's rotation realm just snorted disdainfully, and Fang Yue's question was not answered at all.

"Boy smash, have a temper!"

Fang Yue gave a thumbs up and complimented.

boom!

Fang Yue was still amiable for one second, and turned his face in the next second. He crushed the head of the soldier at the peak of the Dark Moon plane's rotation stage with one hand. It exploded like a watermelon, and the two colors of red and white splashed all over the place.

"you dare!"

Taoist Xuanhai glared.

This Fang Yue didn't play cards according to the rules!

Fang Yue responded indifferently: "I asked, if you don't say it, I will ask someone who knows it again. If he doesn't say it, then I have to search for the soul! However, just now, you scared me and I took his soul. Let go, you have to find another one to search for souls!"

Fang Yue casually grabbed a warrior at the peak of the Yin-Yang realm on the Dark Moon plane.

Before Fang Yue could speak, this buddy said it tremblingly.

"Don't kill me, I say, I say!"

"Just now Master Xuanhai said that the entrance to this world of relics needs blood to be poured to open the seal, otherwise, it will take as little as three to five months, or as long as a year, before there is hope of entering!"

The strong man at the peak of the Dark Moon plane's rotation realm is simply crying bitterly and telling Fang Yue.

"Then how much flesh and blood is needed to open the entrance to this ruined world?"

Fang Yue continued to ask.

The look on his face became serious.

"The blood of a thousand people in the heaven and earth realm, the blood of a hundred people in the rotation realm, and the blood of ten people in the Yin and Yang realm! So Master Xuanhai proposed to let people from all forces compete. The winner will get one entry, while the loser will have to become the sacrifice that opened the seal!"

Fang Yue's expression immediately changed as soon as the words of the strong man at the peak of the Dark Moon plane's rotation stage came out.

He didn't expect this Taoist Xuanhai to be so vicious that he wanted to kill people with the help of this method to let people from all sides kill each other and fall into a melee.

It is the turn of the spirit of the study of space barriers, I am afraid that none of the people here will be his opponent.

Although this space barrier is extremely strong, there is no other way to open it except for the blood sacrifice.

Moreover, this blood sacrifice does not necessarily require the blood of a living person, even the blood of a fierce beast of the same realm can achieve the same effect or even better.

Fang Yue was silent for a moment before speaking.

"So now is the battle at the rotation level?"

"Soldiers against soldiers, generals against generals, you wear a mask, we can't tell which level of practitioner you are! In case you are a practitioner of Yin-Yang level but disguised as a cycle level, then you are on the field Sweeping Invincible, won't people from all walks of life suffer losses?"

Xuan Hai spoke, his slightly dim eyes fixed on Fang Yue. He wanted to know the true face of the so-called Son of Darkness, Lushan, whether there are any strong men on this earth that they don't know about?

To be honest, the days of the Dark Moon plane have not been very easy lately, and they have been a bit tight on all fronts. The power they can send out on the earth is really not a lot, and it is difficult to form a crushing advantage.

On the earth, however, an unidentified master has been resurrected one after another. Joining the battlefield is like the previous battle of Jingnan. Suddenly, two masters of Yin-Yang level emerged from the earth.

One is Wang Feng, which is said to have jumped out of the tombstone.

His combat experience is extremely rich, and he is suspected to have existed at the master realm level. His cultivation realm is constantly recovering. If the seal on this earth is unlocked, he is likely to reach the sky in one step and reach the level of the master realm.

The other is Fang Yue. This Fang Yue has become more and more courageous in the battle. He has already killed their three princes. The three princes and millions of people have mysteriously evaporated outside Jingnan City.

Up to now, their Dark Moon plane has sent a large number of strong men to investigate, but no one has said exactly where the three-way princes and horses have gone.

It is said that his performance in the Demon Realm is also quite outstanding, beheading Jiuyouhou and resisting the reinforcements of the three princes.

These two guys have become their confidant.

Such a record and potential are not considered weak even in their Dark Moon plane.

With the lessons learned from these two people, Taoist Xuanhai is now extremely vigilant and paying attention to the masters of the earth that suddenly jumped out.

"Don't ask, both of us are cultivation bases at the Yin-Yang level. We Chinese people will not be as brazen as your people on the Dark Moon plane, bullying the small by the big and bullying the weak."

In a blink of an eye, Fang Yue released the Yin Yang realm level aura cultivation base.

Moreover, he shamelessly poured a basin of dirty water on the people on the Dark Moon plane.

The Taoist Xuanhai was stunned, and then gritted his teeth and said: "Who is shameless, who is bullying the weak with big bullying and bullying, just killed thousands of people on my Dark Moon plane!"

Taoist Xuanhai had a new understanding of Fang Yue's shamelessness.

Fang Yue glanced at the Taoist Xuanhai: "If there are practitioners from the Heaven, Earth and Rotary Realms running to you, yelling at you, wantonly insulting, blocking your path, saying that you are not qualified to move forward, don't you? Will you fight back and protect the dignity of the strong in the Yin and Yang realm?"

Fang Yue sneered.

Taoist Xuanhai is speechless, what you said is so reasonable, I turned out to be speechless.

Taoist Xuanhai understood that no matter how he spoke, it was Fang Yue's truth.

However, since the Son of Darkness has chosen to participate in the war, plan to be regarded as a flesh and blood sacrifice to open the space barrier!

"The battles at the two levels of Yin-Yang Realm and Rotating Realm are soldiers-to-soldiers, and generals, in no particular order, as long as they challenge people of the corresponding realm!"

Taoist Xuanhai's voice just fell.

There was a sly light in Fang Yue's eyes.

"Does it mean that I can challenge as long as I am a practitioner at the Yin and Yang level?"

"That's right, the yin and yang state is to the yin and yang state, and the heaven and earth are to the heaven and earth state!"

Taoist Xuanhai answered extremely decisively.

Fang Yue immediately selected an opponent from the dark moon planes!

"This, I choose this person to be my opponent!"

Fang Yue quite shamelessly chose a cultivator on the dark moon plane of the third layer of the Yin Yang realm as his opponent.

This persimmon is specially looking for a soft pinch, if it is too hard, it is easy to drink cold water for gallstones.

"you....."

Daoist Xuanhai just wanted to challenge the opponent Yue, but he didn't expect Fang Yue to take a step faster than him, and found the weakest opponent from the Dark Moon plane!

"it is good!"

The guy on the third layer of the Yin-Yang realm on the Dark Moon plane doesn't have half the stage fright. Now that he has come, he is ready to be challenged!
