

God of Life 1261

Chapter 1261: Haotian Mirror

The saint is strong, free and easy, not everyone will honestly sit in the heavenly palace.

These saints are already all the numbers in the Heavenly Dao Palace before the powerhouses who have been retreating.

The Samsara Tower is the foundation for the prosperity of the Heavenly Dao Palace, and there can be no loss.

"I propose to open the Haotian Realm and take a look at what is happening inside this Samsara Tower!"

There was a middle-aged man with a feminine expression. His voice was a bit shrill, but there was a majesty that could not be refuted.

Half of this middle-aged man's foot has already reached the level of the Great Sage Realm, and his combat power is no longer inferior to the average Great Sage.

Even in the Heavenly Dao Palace, he is also a top-ranked existence.

It's not that Tiandao Palace has no great sage, no virtual immortal.

But those ordinary sages and imaginary immortals are either wandering in the heavens or retreating in the depths of endless time and space.

This middle-aged man is already a very strong presence among those who can come out to take the lead.

"Elder Liufeng, this Haotian realm is a great sacred artifact. Although it is not considered to be the treasure of the palace in my Heavenly Dao Palace, every time it is used, it also needs to go through layers of approval. I am afraid that this thing is not what they want to use. It can be used easily!"

Elder Tianque showed a look of worry, and explained to Elder Liu Feng, a middle-aged man with a feminine face.

"When is this? If there is something wrong with this reincarnation tower, can you bear the responsibility? What's more, I only have half a step to become a great sage-level existence. I don't have any other skills, so use one. I still have the qualifications for the Great Sacred Artifact!"

Elder Liu Feng showed a look of anger. Is Elder Tianque provoking his authority in this Heavenly Dao Palace?

"Don't dare, don't dare!"

When Elder Tianque saw that Elder Liu Feng was really angry, he immediately persuaded him.

Originally, Elder Tianque was not a person who likes to defend the majesty of Tiandao Palace.

He just said this just to remind Elder Liu Feng, and at the same time, if something really goes wrong, he can shirk responsibility.

I have said everything, but they don't listen!

Soon, the Haotian realm was sent over by a gray-haired old slave.

The old slave's skin was wrinkled, and the blood in his body dried up, and it was almost time for the oil to run out.

However, when the old slave arrived, the many elders of the Heavenly Dao Palace all showed respectful and humble expressions!

It's not that they respect the old and love the young, but the identity of this old slave is really unpredictable. Since they entered the Tiandao Palace, this old slave has been like this, always guarding the treasure house of the Tiandao Palace.

Now they have all become powerful saints, vicissitudes of life, time has changed, at least thousands of years have passed, and this old slave is still the same.

Just this birthday, people can't help but think a lot!

The old slave handed the Haotian realm to the elder Liu Feng.

Elder Liu Feng stretched out his hands, and respectfully took the Haotian Realm over.

If this Haotian Realm looked ordinary from the outside, there was no majesty due to any divine artifact at all.

However, anyone who knows a little bit of inside information will understand how powerful this seemingly ordinary Haotian Realm is.

In the Haotian realm, there is no hindrance to insight into the nine heavens, down to the underworld, and the yang realm in the underworld.

His first director even used it to kill the gods, and the Vast Sky Realm had a dazzling light, and five successive high-ranking gods all fell under the light of the Vast Sky Realm!

Elder Liu Feng took over the Haotian Realm, and a ray of excitement flashed deep in his eyes.

Great sacrament!

This is the great sacred artifact he dreams of!

Although Liu Feng was an elder in the Heavenly Dao Palace, he was a half-step great saint-level powerhouse.

However, his resources are still relatively limited. He has been holy for 1,700 years, but he has only collected two saint-level magical instruments, and the rest are all made with the master-level peak magical instruments!

As far as he is concerned, the Great Sacred Artifact is even more unattainable.

Because of this incident, he also suffered a lot in the confrontation at the Saint level.

For this reason, Elder Liu Feng vowed that he must get a great sacrificial artifact in his hand before becoming a great saint, so as not to become the bottom of it again after entering the level of great saint.

And this time, it was a godsend.

As for the so-called Samsara Tower, he doesn't care!

The Samsara Tower belongs to Tiandao Palace, not his!

After practicing to such a realm, the elder Liu Feng has quite a clear understanding of the distinction between things inside and outside of the body.

"Haotian Mingming, shine on the universe!"

Elder Liu Feng's wisp of pure and incomparable saint air poured into it.

On the Haotian realm, a golden light suddenly flashed.

The golden light poured into the Samsara Tower.

A picture emerged on the surface of the Samsara Tower.

This is the image of Fang Yue when he went through the barrier.

At this moment, he is fighting with the domain of the stone man!

Fang Yue revolves in the dual realm of darkness and light, and the two realms are mutually reinforcing and restraining each other, forming a Tai Chi pattern, with yin and yang fish linking each other to swim.

A laid-back, extremely leisurely scene.

"Who got this in the Tower of Reincarnation? It's really crazy! Comprehending the two avenues, and all of them have reached the level of three or more. This Tianjiao is not even at the level of Yin and Yang. He should recruit, not Make enemies! His future is boundless, and he should be drawn to become a disciple of my Heavenly Dao Palace!"

Elder Liu Feng saw Fang Yue's figure at first glance.

Double Avenue Field!

If such a talented arrogant is under his command, he will definitely accept him as a disciple to train him. If he reaches the level of a saint, he is afraid that he will soon be invincible in the same realm!

This state is easy to cultivate, but the rules are hard to understand.

With such a good foundation, as long as you practice step by step, even if you want to have no achievements in the future, it is impossible!

"This is the war of reincarnation started by Nangong Fashion!"

Elder Sparrow said with a black face.

He and Elder Liu Feng had the same feeling when they first saw Fang Yue.

Amazing, this kid is simply amazing!

Before reaching the level of Yin-Yang realm, he has mastered two kinds of Dao realms. Such Tianjiao are quite rare in the entire galaxy!

"Nangong Style? How come I have never heard of this name?"

Elder Liu Feng was a little stunned.

He has heard of any disciple of the inner sect who is a little bit famous in the entire Tiandao Palace!

"I haven't heard of it, maybe it's an ordinary inner disciple!"

Elder Sparrow slowly shook his head, thinking for a long time, he didn't catch any information related to this name in his mind.

"Oh, it turned out to be like this. Such a guy has eyes and no paper, and doesn't know the overall situation. If this war of reincarnation is lost, it will be fine. If he wins, just deal with it!"

The casual sentence of the elder Liu Feng is the end to the life of Nangong Fashion!

In the eyes of the outside world, this Nangong style is a strong leader at the leader level, aloof.

But in the eyes of the elders of Tiandao Palace, such disciples are like crucian carp who cross the river, and there are countless.

One more, one less, there is not much difference for them.

Good mood, prizes!

In a bad mood, kill!

In this Heavenly Dao Palace, there are benefits and backing, but at the same time, it is also like a tiger, and I don't know when it will be killed by the big guys. And I don't know how I died when I die.

"My origin!"

At this moment, Liu Yun didn't care about Fang Yue's talent. What he cared most was where his origins had gone.

If he can re-refine and swallow those origins, he still hopes to return to the peak age.

"Don't worry, let's see the situation! Although this little guy knows the two avenues of light and darkness, he has no ability to take your origin from the tower of reincarnation!"

Elder Sparrow is still calming Liuyun.

But everyone knew in their hearts that the origin of the flowing clouds would be taken away from them in all likelihood.

The origin of Liuyun is different from the origin of ordinary saints. It contains not only the origin of saints, but also the aura of saints.

Those origins are coveted by everyone.

Even the elders of the Saint Realm present were a little undesirable.

If some of the origins of the Saints were refined in their master-level weapons, it might be possible to make their weapons truly evolve to the level of Saints.

"Although there are many laws in this stone man, they are messy and disorganized. Only a few have reached the third level, most of them are still in the first level, and the second level is wandering! There are even a few of them. Part of the fragments of the law, the fragments of the chain of order, may be a blessing for those who have different laws, but in my eyes, it is just a child's play for children!"

Fang Yue muttered to himself, and didn't put the stone man in his eyes.

When it comes to the level of comprehension of the law, few people in the sage can match him.

Under Fang Yue's body, the yin and yang fish moved slowly.

The realm of the two laws of darkness and light spread out.

Within the range covered by this drinking fish, Fang Yue's ability to control the law reached an extreme level.

He seems to be the master in this field, the **** in the field.

When a thought falls, you can control everything in the domain.

Fang Yue stuck out one of his palms, and grabbed a rule to get the fragments.

This is a fragment of the law of flame, not a system.

"This fragment of the law can be refined into a weapon to make it a soldier of the rules!"

Fang Yue muttered to himself, that is, to store the fragments of this law.

The elders in the Heavenly Dao Palace were all dumbfounded and pale after seeing this scene.

this is okay too?

The Reincarnation Tower is a unique opportunity for their Tiandao Palace.

As the elders of Tiandao Palace, they naturally experienced the test of this reincarnation tower in their youth and got rewards and opportunities.

Even many of them relied on the tempering in this reincarnation tower to lay a solid foundation, and finally braved the wind and waves to get to where they are today.

They also experienced, felt, and made breakthroughs on the second floor of this reincarnation tower in their youth.

But none of them thought that there would be such a way to break through!

Directly grab the fragments of the law in the second layer.

Is this to abolish the Samsara Tower directly?

This buddy is too simple, too violent!

But from the perspective of those who passively accept the war of reincarnation.

There is no problem with maximizing one's own interests.

And if the fragments of the law in the reincarnation tower are lost, they are lost, and they can put them inside!

It's just a fragment of a mere law, they want to get it, it's not too difficult.

Nowadays, many elders at the Saint level in the Heavenly Dao Palace can only comfort themselves like this.

However, a fragment of the law of flame is far from satisfying Fang Yue's ambitions.

This benefit is not enough for them to stuff their teeth.

Chapter 1262: Mass law fragments

Fang Yue mobilized the power of the domain and continued to extract the law fragments in the second floor of this reincarnation tower.

"Shards of the Law of Frost!"

"Shards of the Law of Thunder!"

Wow!

The fragments of the law fell from the sky like snowflakes and fell into Fang Yue's hands.

These things are usually hard to come across.

Whether it is refining into weapons, or for some practitioners who are stuck on the threshold of the rotation realm and cannot break through the peak of the world realm for a long time, they can exert great value!

In a blink of an eye, Fang Yue had already taken away at least thirty or fifty pieces of the law.

Elder Sparrow's face was a little pale, and his lips were trembling, comforting himself: "I don't feel bad, I don't feel bad!"

He will take care of this Samsara Tower on weekdays.

He also supplements the resource consumption of some daily reincarnation towers.

This is a beautiful difference.

On weekdays, the cost of the Samsara Tower is small, but the amount of resources allocated is huge.

Elder Sparrow always fished a lot. This time, he suffered a heavy loss. Although the fragments of this law are not rare in the Tiandao Palace, according to the internal price of the Tiandao Palace, the price of a fragment of the law The price ranges from 10 million to 30 million Lingshi!

Losing a fragment of one or two pieces of the law, the elder Sparrow's home has a great cause.

It's nothing.

But the thirty or fifty pieces of the law that disappeared all at once, if you add, this is also a big expense!

"It seems that Elder Sparrow will be bleeding this time!"

Liu Feng said a little gloating.

He had already coveted the position of Elder Sparrow.

Elder Sparrow can not only secretly arrange hundreds of places to enter the reincarnation tower for trial every year, but also make enough money from the replenishment of the resources of the reincarnation tower.

If someone can arrange him in this position... Elder Liu Feng's eyes suddenly flashed with excitement.

Perhaps this time it is a person who will be able to drive away the wolves and the tigers, and drive the elder celestial bird from the position of the guardian elder of the Samsara Tower!

"Liu Feng, I know you have been coveting my seat, but although your combat power is stronger than me, and your cultivation base is higher than mine, you may not be able to sit in my position!"

The elder celestial sparrow is old and fine, and he is very clear about the peeping of the elder Liufeng on his side.

However, Elder Tianque is not afraid, since he can achieve this position, he has the capital to secure this position.

"Elder Sparrow, don't speak so surely. This time there is a problem with the Samsara Tower, and your responsibility is inevitable!"

Liu Feng said slowly: "Before the battle of reincarnation, you should strictly review the identity of the person who is passively fighting! This little guy should definitely not let him enter the reincarnation tower if you have reviewed it this time. His talent Extremely, it should be a certain plane in the Milky Way or a certain native planet that has not yet been excavated! If it can be drawn to my Heavenly Path Palace and cultivated well, maybe one day in the future, he can be with me Sit on an equal footing!"

Liu Yun didn't expect to be able to move to Elder Sky Sparrow this time, but he was going to disgust the old guy anyway.

Elder Sparrow frowned slightly.

"I admit that I have been a bit slack in the review of the samsara war recently. If the samsara war starts again next time, I will definitely identify it carefully. If it is impossible to distinguish, please help from the elders!"

Elder Sparrow was a bachelor, and did not deny Liu Feng's accusation.

This is a typical method of retreat for advancement. The facts are here, and he can't shirk his responsibility no matter how he explains it. Instead, he feels like a strong word.

Instead of that, it's better to just admit it.

This is very bachelor, but it makes the elders have a good impression of the elders.

This courage to take responsibility is a very beautiful quality, but this quality is extremely rare and rare in the saint.

Moreover, the mistake of the elder Sparrow was not his problem. In fact, any other saint would make similar choices.

They are all high above saints, and they are more concerned about their own cultivation realm.

Those who are full and have nothing to do, check the challengers of this round of war every day.

This frank answer not only didn't make Elder Sky Sparrow lose points, but it also added a lot to the hearts of other elders.

Liu Feng also immediately discovered this problem.

He cursed the old fox secretly in his heart, and then he said no more.

Fang Yue drew a bunch of fragments of the law, and soon lost interest in the fragments of the law.

He actually walked to the stone man and hit his idea on the stone man.

"What does this kid want to do? Why is he so close to the stone man?"

Elder Sparrow just won a small win, and he was in a good mood, and even the loss of the fragments of the law was temporarily forgotten.

But when he saw Fang Yue again, there was a sudden hum in his heart.

This kid just doesn't play cards according to the routine!

If you go through the barriers well, you will be able to get through the barriers, understand the rules, and leave after alive.

Why are you so close to that stone man?

Could it be that you want the idea of hitting the stone man?

Boy, you can't be too greedy!

However, what Elder Tianque said was to say in the Heavenly Dao Palace, this Haotian Realm had no sound transmission and warning functions.

Fang Yue's palm touched Shi Ren's body.

Shi Ren's body really trembled involuntarily.

At the moment of shaking, fragments of the law fell out.

Can the stone-slayer still drop law fragments?

In this scene, the eyes of the old guys in the Tiandao Palace were red.

What kind of situation is this, they have never seen it before!

The stone people in this Samsara Tower have existed since the day the Samsara Tower was built.

Every time they maintain, they just feel that the number of fragments in the law is less, so they add some occasionally. But no one thought about what kind of mystery existed in this stone man.

But this time, they vaguely noticed a trace of silly.

Could it be that the way they climb the tower is wrong every time?

The reward for the second layer of the Samsara Tower was not given by the Taling, but the stone man himself was a reward?

A group of old guys are full of eyes, but their hearts are full of endless regrets.

They will never meet this stone man anymore, because they have reached the level of the saint realm, and when they enter the Samsara Tower again, they will also start to climb up from the 27th floor!

As for the other disciples of the Heavenly Dao Palace, who can be so perverted that they can comprehend the two avenues and reach the level above the third level to form two opposing and dependent areas before entering the saint realm.

Even their hearts were suspicious.

The avenue of light and darkness that Fang Yue understood was not limited to the realm of the third level of the avenue, it could be stronger, otherwise, he would not be able to walk so recklessly in the second level and plunder the law.

Of course, all these speculations are after all speculations. They old guys still think that Fang Yue just comprehend the dark and light roads to the third level. Otherwise, this kid is too bad.

Where does this put their old faces away!

When they were as old as Fang Yue, they probably hadn't even stepped into the rotation level yet!

Let alone comprehend two different great ways, and both have reached this level!

They were also Tianjiao.

But the title of pride that day has too much moisture compared with Fang Yue now!

Fang Yue is still studying the stone man.

A hammer can spit out a fragment of the law.

This stuff is great!

If you move away, you can play with it at home. Just collect and sell the fragments of the law every day, he can make a lot of money!

Fang Yue beat three times in succession, and the stone man spit out three pieces of the law.

These three law fragments are all different, there are fragments of the law of fire, fragments of the law of thunder, and fragments of the law of darkness!

On the fragments of these laws, Fang Yue could also slightly taste a slightly different aura.

The fragments of these laws are actually contaminated with extremely thin human breath.

"The fragments of the law can't be born out of thin air! And they are still stained with the human breath!"

Fang Yue pondered for a moment.

He put his hand into the storage bag around his waist.

He took out an inner alchemy of the heaven and earth realm level and placed it in front of the stone man.

Shiren's eyes suddenly became scarlet, his mouth slowly opened, and a suction force came from it.

That inner pill was swallowed by him!

In a moment, Shi Ren's eyes returned to their normal look.

The mouth is also slightly closed.

Fang Yue fist and hammer again.

A fragment of the law spouted out of Shiren's mouth again.

The fragments of this law are rare fragments of the law of corrosion, and the aura on it is exactly the same as the aura on the inner alchemy before.

"Sure enough, as I expected! Those who failed to pass the level swallowed by the Samsara Tower became the source of energy and rewards for each level. Part of the inner alchemy was swallowed by this second layer of stone men, and then it is the second-tier world of the Samsara Tower!"

Fang Yue talked to himself and gave out his own speculation.

This Haotian realm, although unable to transmit sound.

But the elders of Tiandao Palace are all mature and refined.

They still understand some of this lip language!

Fang Yue's speculation made many elders think about it.

Although this tower of reincarnation is part of Tiandao Palace, as the elders of Tiandao Palace, they don't know much about this tower.

"This kid is good, he has a better exploration of the Samsara Tower than our old guys!"

Elder Sparrow spoke slowly.

If this stone person can be developed this kind of function, it also means that their Heavenly Dao Palace may have an extra way of making money-selling law fragments.

The fragmentation value of this law is much more expensive than Naidan.

Although the inner alchemy can also be swallowed, and let the practitioners of the innate realm break through the realm, so that the practitioners of the world realm can understand the true meaning of the law.

However, this understanding has its drawbacks. The drawback is that it is difficult to fit oneself on the road of practicing the way of others. In the future, the road to the practice of the law will be difficult, and it is ten times or even a hundred times more difficult than others!

But the fragments of the law are more useful. They can be used to forge rules and can also be used to quickly train super masters.

This inner pill, a person can only refine one in his life.

The fragments of the law do not have this restriction.

Refining the law fragments can quickly comprehend the true meaning of the corresponding laws. Although part of the content in the law fragments may be lost in this process, there is no disadvantage of refining the inner alchemy!

Of course, the speed of refining law fragments is much slower than the speed of refining inner alchemy.

But at any rate, the fragments of the law of refining have the possibility of entering the Tao. Compared with the endless waiting, it is better than that. I don't know how many times!

Chapter 1263: Rule stone figure

Although Tiandao Palace is the top ten organization in the galaxy, it is a giant.

In the eyes of outsiders, it is very glamorous, but only the real high-level elders of Tiandao Palace know.

Their lives are actually not easy. Without the support of huge financial institutions and wealth-generating machines like Galaxy Bank, their lives are stretched.

The supply of resources for his disciples is even worse than that of some affluent small schools.

If it weren't for the sign of the Heavenly Dao Palace standing here, and the elders of their Heavenly Dao Palace supporting the facade, as well as the Samsara Tower, etc., it is a holy land for ordinary practitioners that is impossible to achieve.

Those proud of heaven would never choose Tiandao Palace as their place of practice.

Today's Tiandao Palace urgently needs a path that can bring them sustainable benefits.

Only with more resources can we cultivate more outstanding disciples!

Fang Yue explored the stone man for a moment, then shook his head and left.

This stone man and the Samsara Pagoda are one body, and it is impossible to remove the stone man with his current methods!

After that, Fang Yue began to madly collect the fragments of the law that was the second floor of the Samsara Tower.

The Samsara Tower contains the universe, and the area of each floor is huge!

Soon Fang Yue collected thousands of law fragments.

Then it was decided to go to the third floor of the Samsara Tower!

The moment Fang Yue decided to leave, Taling descended.

"Congratulations on deciphering the true meaning of the second floor of the Samsara Tower! As a reward, I will give you a special gift!"

The voice of the tower spirit of the Samsara Tower fell, playful and lively!

Afterwards, a stone figure that looked exactly the same as the second floor of the Samsara Tower, except that a small stone figure that had been reduced a hundred times fell into Fang Yue's hands.

The Taling of the Samsara Tower said: "Only those who have entered this Samsara Tower and cracked the mystery of the second-tier Samsara Tower can receive this reward and listen to the words of the owner of the Samsara Tower."

"This is what I unearthed from the dust and ashes of the years! This time the cycle of cosmic civilization was cut off by people, and a period of time and space was deliberately erased from existence. However, its brilliance, people yearn for, and its strength, Awesome. The unimaginable power in the ancient ruins sleeping. This power may not be the most straightforward combat power, but it will become an opportunity for the rise and prosperity of the universe.

My disciple! I hope you can continue my footsteps to trace the shadow of that ancient civilization! This is my expectation of you, and also my pleading for you! This regular stone figure is my imitation of the ancient regular stone figure. Although its function is not as good as one percent of the body, it can better help you understand the original appearance of the ancient civilization! "

A hoarse and slightly tired voice echoed in Fang Yue's ears.

Fang Yue seemed to be able to see the painful pleading of a serious and persistent old man.

Fang Yue did not make any promises, but silently put away the regular stone figure.

Then he moved in the direction of the voice and started to worship.

Expressed their respect and respect.

"If I have the opportunity, I will explore the remains of the ancient civilization!"

Fang Yue didn't want to influence his future choice because of a promise, but if he could easily explore the mysteries of ancient civilization, he would not mind doing it.

The elders of the Tiandao Palace couldn't hear Ta Ling and that old voice.

They just guessed that Fang Yue received a different reward from others.

Then, they saw Fang Yue ascend the third floor of the Samsara Tower!

At this moment, Nangong Fashion is still pondering the rules of the second floor of the Samsara Tower.

Where is it so easy to understand the rules!

Even in the environment with such a strong law atmosphere on the second floor of the Samsara Tower.

He wants to truly understand the true meaning of a law, but it still seems difficult!

"Hmph, it is so difficult even for me to be a talented person like me to comprehend a law. The native Fang Yue, for his exhaustive life, may not be able to comprehend from the second level of this reincarnation tower. The true meaning of the law!"

The corner of Nangong Fashion's mouth curled up with a smile full of superiority.

While many elders in Tiandao Palace were also paying attention to Fang Yue, they observed the changes in the expression of Nangong's fashion.

When they saw Nangong Fashion talking to themselves, they translated this guy's thoughts through their lips.

And the smile that outlines a sense of superiority.

Elder Sparrow was simply so angry.

"Which idiot was the one who accepted the second fool? Everyone has cracked the mystery of the second level of the tower of reincarnation. He is still comprehending the law. Who is the one who accepted the second fool? The Tiandao Palace includes disciples and only looks at the realm. Do you not check your IQ?"

The words of Elder Sparrow left the elder Yigan speechless.

Look at Fang Yue, and then look at the disciples of their Tiandao Palace.

This gap really is no longer on the same level!

"Thousands of fragments of the law!"

Thinking of this loss, Elder Tianque felt a pain in his heart!

This guy must win over his subordinates, depending on the current situation, Nangong Fashion's victory over Fang Yue in the Samsara battle is estimated to be completely useless.

However, knowing that Nangong fashion is not in play, why is he so happy in his heart?

Oops, forget it!

Keep watching!

The third floor of the Samsara Tower.

Fang Yue saw a figure in white clothes, and the background of this tower of reincarnation was an endless snow field.

Fang Yue was suspended in the air, not falling into the snowy field, standing three inches from the ground, like a **** walking on earth.

You pretend to be forceful, so will I!

Fang Yue displayed the magic of transforming the gods, and there really was a hint of sacredness!

"Who came from?"

The figure in white clothes slowly turned his head, and a pretty handsome face was revealed under the white clothes.

Fair skin can make countless girls envy and scream.

The light blue eyes seemed to be inlaid with two gems.

"Fang Yue!"

Fang Yue reported his family.

Fang Yue felt an inviolable smell on the body of the white clothed man.

He is the most holy, pure heart!

Like a piece of uncut jade, it has not been polluted by any worldly dust.

"Fairy spirit body?"

Fang Yue's heart was slightly startled.

He had seen this kind of physique in Wei Yuan, but Wei Yuan's fairy body was still far from the white man in front of him.

At the very least, Wei Yuan doesn't have the ethereal and endless feeling of a man in white!

"Yes! I didn't expect anyone in this world to know the existence of my fairy clan!"

The white-clothed man spoke slightly, his eyes revealed a rare expression of surprise.

"Fairy?"

When Fang Yue saw that the white-clothed man didn't mean to do anything, he was also very happy.

He is very interested in all kinds of gossip!

"The fairy world was once the homeland of the immortal clan. This clan was born as an immortal with an ethereal physique! Then in the ancient times, the immortal clan encountered an unimaginable crisis and was eventually almost annihilated. Since then, the immortal clan has declined, after the end of the ancient era. , Heavenly Court entered the immortal realm and became the lord of the immortal realm today!"

The man who answered Fang Yue was not in front of him.

It is the tower spirit of the ubiquitous Samsara Tower.

If you change to someone else, you will definitely not have this treatment. Bring a Baidu Baike with you. If you have any questions, please mention it at any time.

But Fang Yue is different!

He has fully demonstrated his uniqueness in the previous two-story reincarnation tower.

Taring was very close to him, so he made an exception to answer some ancient Xinmi.

"The so-called immortal spirit body is the descendant of the immortal clan! And ordinary people, even if they cultivate to the level of the real fairyland, still cannot contain the attributes of the immortal spirit body in their blood, and they cannot give birth to the descendants of the immortal spirit body!"

Taring's voice dissipated.

Fang Yue has a deeper understanding of the Xinmi from the ancient times.

I just don't know, where did the master of this reincarnation tower touch out such a fairy body, even if it is not the deity, but there is his blood and aura, the reincarnation tower can perfectly simulate it!

"Take my three swords and pass through your level!"

The voice of the man in white was faint, and there was a touch of nostalgia between his eyebrows.

"it is good!"

Fang Yue also took out his own saber.

This saber was snatched from the hands of a practitioner in the Yin and Yang realm.

Fang Yue never had his own exclusive weapon.

Because his cultivation realm is seriously mismatched with his own combat power, weapons with too high rank are difficult for him to use, and weapons with low ranks will explode when used.

In many cases, Fang Yue would exchange weapons for a fight, and sometimes even after a battle, seven or eight weapons had to be abolished.

"The body of the fairy spirit has the sincere heart. Sincere obsession can transform endless mighty power!"

The man in white whispered to himself, as if he was the only one left in this world.

The vast Xueye stood in white clothes.

People and landscapes are blended, and there is no difference between them!

"Sword One!"

The sword light of the white-clothed man flicked out.

The heart of the elders in the Tiandao Palace outside the Samsara Tower is hanging.

They all learned the swordsmanship of men in white.

That swordsmanship seems to be the wanton of Tianma and the starry sky, it is simply impossible to guard against.

Anyway, before they were sanctified, they relied on external forces to resist when they passed the third level.

No one really wanted to defeat the swordsmanship of the man in white.

This Fang Yue wouldn't be too confident, he really wanted to compete with this white man!

In the Samsara Tower, if it is killed by a man in white, it is really dead!

"Sword Light Realm!"

Fang Yue slowly raised the sword in his hand, and held it high, over his head.

Above the blade, the endless light was dazzling, crashing down!

Hundreds of thousands of wisps of sword energy fell and turned into a real world.

You can pretend, I can pretend better than you.

What I hate most on weekdays is someone like you who is obviously more handsome than me and likes to pretend!

Fang Yue's careful eye was committed at this moment.

The endless light of the knife evolved into a world, and the endless snowfield melted in the light of the knife!

The man in white has strong swordsmanship.

Power is in the unity of nature and man, and in the thing and me as one!

Confronting him is tantamount to fighting the entire world, so it is scary and impossible to crack!

So Fang Yue gave birth to another idea!

I am the world, you and I have the ability to become one!

This kind of shameless cracking thought shocked the elders in Tiandao Palace.

But after thinking about it, Fang Yue's solution was indeed the most correct.

Start with the principle of the move, and then destroy one of the key links.

The greater the power of this move, the more links there are, and the more links there are, the more flaws it has.

Xueye became a knife field.

When the white-clothed man's sword pierced Fang Yue's face, it had completely lost its power.

This was the most common sword. Fang Yue raised his foot and kicked it towards the opponent's lower abdomen.

With a bang, the body of the man in white flew out, and in a blink of an eye he fell to the ground.

Chapter 1264: kendo

Jian Xiu has a fatal weakness.

Achieve by the sword, lose by the sword.

They rely on the sword too much, and the sword repairs without the sword are the weak ones, especially Fang Yue is still an extremely powerful body repair.

The sword repairer whose moves have been cracked, standing in front of a body repairer is not looking for death?

But this man in white is not a pure sword repairer.

To be precise, he is not a living creature.

From a certain point of view, he is just a projection, a fragment, an aggregate of energy.

So, he healed quickly after his injury, and then got up again.

He wiped the dust off his body and said, "Yes, you are very good! You are qualified to bear my second sword!"

The man in white is quite confident in his own strength.

After he failed to use the first sword successfully, he soon prepared for the second sword.

"Sword Two!"

The swordsmanship of the man in white is very memorable.

There is no fancy, just use one, two and three to name it.

But the more such a sword move, the more powerful it is, because the people who create the sword move spend all their energy on the sword style, and they are not willing to spend too much energy even when naming them.

Can such a person be good? Can it be scary?

Fang Yue's heart beat slightly.

He smelled the approaching crisis.

The sword came out, yin and yang divided, the earth trembled, and the sky collapsed!

Sword Two, a sword technique that only listens to the name and is extremely simple.

However, Fang Yue felt a sense of crisis like the end of the world.

"Dao begets one, one life two, two begets three, three begets everything!"

Fang Yue muttered silently, if he hadn't been able to confirm before, then this sword pierced out, Fang Yue has thoroughly understood the origin of this sword one and two!

The name of this sword is not random.

It was born according to the sword intent.

Sword begets one, one is two, two is three, three is all things!

The unity of things and me is one.

Then the harmony of heaven and earth is two!

If there are three, it should be the power of the three talents of heaven, earth and man!

Behind Jiansan, there should be swords.

Fang Yue understood everything, but couldn't stop the fusion of heaven and earth.

"Ten Thousand Worlds Body!"

Fang Yue murmured softly, his figure blurred and merged into the void.

The world collapses, the world is at the end of the world, as long as the creatures in this world are inevitable.

Only by being detached from the world, can you avoid this mortal sword.

The elders who watched Fang Yue and the white-clothed man in the Tiandao Palace were stunned.

Sword Two, why isn't the second sword we experienced like this?

Although the second sword is stronger than the first sword, it is limited.

If the sword 2 we experienced was so powerful, the grass on the tomb should be one foot tall!

"Is it because we don't deserve it?"

Elder Sparrow told a fact that was extremely close to the truth, but they were emotionally difficult to accept.

Even Jian Yi and the others need to use foreign objects to resist, if they really encounter Jian two and they will not survive alone.

This can't survive Sword One, so there is no need to accept Sword Two's test.

This is a kind of protection given to them by the seniors of Tiandao Palace, right?

Elder Sparrow was a little sad.

They are sorry for the high hopes of the predecessors of Tiandao Palace!

The world collapsed, chaos.

There is only a white figure in the chaos.

There was a dazed smell in the eyes of the white figure.

He couldn't figure out how his sword light could be avoided by others!

However, Fang Yue's figure resurfaced in the void.

It's not that Fang Yue doesn't want to hide, but that he doesn't show up. I'm afraid this white-clothed man will never use Sword Three.

If he couldn't survive the sword three, he couldn't pass the third floor of this reincarnation tower.

"Sword Three!"

When the white-clothed man saw Fang Yue, his eyes condensed again.

If one sword can't kill you, just another one!

In the sword light of the man in white, a piece of the world reappeared.

Peng birds are flying in the sky, real dragons are going to sea, phoenixes are singing, and unicorns are flying.

All the beasts appeared, crushing towards Fang Yue.

Fang Yue stood still, and suddenly shot a sword: "Sword Three!"

It was obviously a sword, but it fell into Fang Yue's hand and it spilled out sword intent.

Swordsmanship reaches the depths, plucking leaves and hurting people, flying flowers and beheading, and every plant and tree can be a sword in the hands of a swordsman.

Fang Yue understood that, because he had hidden the second sword just now, the sword three of the man in white was not complete.

This is not even Jiansan, this is just an ordinary move.

Powerful, but without the taste of the previous fit and Tao.

However, with Sword One and Sword Two, Fang Yue gradually understood the principle of Sword Three.

So Fang Yue used the sword instead of the sword, and used the sword three he understood once.

Three swords.

The yin and yang two qi surging in the chaos.

Open the world, live in it, and the three are one. This is the sword three.

Fang Yue's world was extremely vast and vast, and those divine beasts entering into it, it was simply difficult to get to Fang Yue's body.

Fang Yue's sword three, pioneered the evolution of the world, inclusive of all things.

Seeing this sword, the man in white suddenly smiled brightly.

"My three swords have passed, I didn't expect you to be able to comprehend the truth! Dao begets one, one life is two, two is born three! Hahahaha!"

The man in white turned his back with his hands on his back.

His figure dissipated between heaven and earth, contented.

Taring appeared again.

"You have realized the essence of the Three Swords, and have been recognized by the gatekeepers! Get the reward level upgrade, get a Time Orb! This Time Orb is also a relic unearthed in ancient times, and it contains three years of time. Power, you only need to break this bead, and you can practice in an independent space for three years. In three years, there will be no changes in the outer space and time!"

Fang Yue was stunned by Ta Ling's introduction.

Are the things in this ancient ruins really so awesome?

Even the independent space that makes the outside time stand still has been researched. Are you tempting me to take a trip to the ancient ruins?

Fang Yue received Taring's reward without hesitation.

The calculations of the creator of this Samsara Tower are really profound!

He probably knows that his requirements for passers-by are of no use. At this stage of cultivation, everyone has their own ideas, and who will listen to you!

But if there is a huge interest temptation, the result will be different!

In the face of interest, few people are unmoved.

Rule stone statue!

Time Pearl!

These things were enough to make Fang Yue startled.

Ok! I count you as successful. I have taken the bait, but as for when this big fish, buddy, takes the bait, it depends on mood and time!

The fourth floor of the Samsara Tower!

Fang Yue stepped forward again.

The Sima style on the other side is still enlightening the law on the second level of the Samsara Tower!

"Huh? Why is the law here so thin? Is it because I have enlightened too many times and my body has begun to develop resistance to the second layer of the Samsara Tower? Forget it, forget it, no matter what, it's me This unparalleled talent will surely be able to comprehend a law within three to five days! At that time, I must brighten Fang Yue's dog's eyes, hahahaha! I am the best!"

Sima Fengshang comprehended the law, and the smile on the corner of his mouth became brighter.

And all the elders in Tiandao Palace covered their faces.

Who gave him such a strong confidence?

Rejoice?

Whoever took this wicked barrier, hurry up, clean up the door, don't be ashamed here!

And Fang Yue's side, it really hurts people!

They had all seen Sword One, but Sword Two and Sword Three had seen each other for the first time, and an outsider was even more dependent on the creation of the Samsara Tower than they did.

The disciples and the disciples are not shameful, so that the ancestors and ancestors are shamed!

The fourth floor of the Samsara Tower.

This is a world of flames.

Fang Yue felt that fortunately he stayed sober, otherwise, he would definitely think that he had gone to the wrong set.

Why is this place so similar to Flame Mountain?

The endless peaks were ups and downs, and flames surged from the ground.

On a mountain in the distance, there is a beautiful young woman leaning on a half-person-high rock. Her eyes are looking at the sky with some wonder, seeming to be able to penetrate everything and see different things.

Are you sure this is not Princess Iron Fan?

Fang Yue looked around with some guilty conscience. There won't be a red boy or a bull devil around here!

Ta Ling's voice echoed in Fang Yue's ears.

"This is to imitate the scene of the flame world in the ancient ruins. All the creatures bred in this flame world exist in the form of elements. They continue to grow by absorbing the same kind of elements that are free between the world and the earth. Physical structure!"

Taling was extremely enthusiastic after Fang Yue successfully cleared the two-story reincarnation tower in front.

In the third floor of the reincarnation tower, he introduced the situation of the fairy spirit, and in the fourth floor of the reincarnation tower, he took the initiative to introduce the problem of the flame world!

"This world is full of fire, and other laws will be quite suppressed, especially the Avenue of Water. If it is displayed, I am afraid that its power is less than one percent of the normal time! The world of flames

uses fire as its power. Lord, fighting in this place, the flame creatures will have the advantage of the home court!"

Fang Yue is analyzing this flame world.

What he wanted was not ordinary customs clearance, Fang Yue had gradually understood through the previous three levels of customs clearance experience.

The rewards of this reincarnation tower are actually divided into two levels.

The first level is ordinary customs clearance. Although the rewards are good, they are far from being able to be put into Fang Yue's eyes.

The second level is to pass the level by comprehending the meaning, or through violence, this way of clearing will let him get a gift from the owner of this reincarnation tower!

The gifts given to people really made Fang Yue's heart stunned!

Fang Yue's thoughts just moved.

The flames at this foot were transformed into giant pythons cruising in his direction!

This is the horror of the fourth floor of the Samsara Tower.

Wherever the flame goes, every place may evolve boundless flame creatures.

They are full of hostility towards outsiders, and they will never stop killing them.

"Flame comprehension, flame supreme!"

Without hesitation, Fang Yue stomped his foot and directly released his own flame field.

Because it belongs to the same origin, Fang Yue's flame realm has no sense of disharmony with this flame world.

But in Fang Yue's flame domain, he is the master of this flame domain, and all flame creatures rushing into it will become extremely docile the moment they step into this domain.

"This Fang Yue also understands the law of flame. It's against the sky, it's really against the sky! The three avenues are all domains, and his cultivation level has not reached the level of Yin and Yang, and he has great potential to be tapped! The little guy must be included in the reincarnation palace. It's really not good. We old guys teach together! I don't believe it, this time we can't teach a god-defying evildoer!"

Elder Sparrow felt that he was going to die.

Chapter 1265: Queen of Flame

This Fang Yue's body seemed to be mysterious.

The more you dig, the more cards he has!

All three avenues have reached the level of the domain.

Such an accomplishment, even ordinary saints are longing for it.

Fang Yue's flame field slowly spread out, trying to absorb all these flame creatures and then refine them.

However, with the expansion of the flame field, his control of the flame field has a slight sense of loss of control!

The glamorous young woman leaning on the rock seemed to be aware.

A pair of her eyebrows surged with a ripple of expression like water waves.

"The flame field? It's really interesting. I didn't expect someone to come to this flame world to compete with me for the power of flame!"

The vermilion lips of the beautiful woman opened slightly.

The whole world has become more dazzling because of her.

She seems to be the queen of this world, the whole world was born for her!

"Flame, peel!"

The beautiful woman spoke again, and the creatures in Fang Yue's flame field were stripped out.

They regained their freedom and once again held hostility to each other.

In front of the Haotian Realm, the elders of the Heavenly Dao Palace all showed unbelievable expressions.

"This Flame Queen actually has her own wisdom? When we rushed through the barriers, didn't she always lean on the rocks and never move?"

The elders of the Heavenly Dao Palace looked at each other and suspected that what they had broken into was a false reincarnation tower.

Fang Yue's reincarnation tower gave them a new understanding of this reincarnation tower.

The same tower of reincarnation, if it is a simple mode in front of them, then it is simply a nightmare or even purgatory level here in Fang Yue!

Those flame creatures had nowhere to escape that had chased them down, and if the flame queen came back to life, they might not even be able to survive five minutes later.

"This time Fang Yue is in difficulty. Every three floors of the Samsara Tower is a hurdle. Within the scope of the three floors, the difficulty increases gradually. Once it exceeds three floors, the difficulty of the Samsara Tower will show a leap. growth of!"

Elder Sparrow's face sank slightly. Expecting silently in his heart.

This Fang Yue must not die in this reincarnation tower, they are still expecting that in the future Fang Yue will use the stone statues in the reincarnation tower to help them get the fragments of the law, and then make a lot of money!

"The flame, dissipate!"

Fang Yue stretched out a finger and pointed at the flame creatures who showed hideous expressions to him.

The shadow of the finger fell, and a force of rules spread out.

Those flaming creatures disappeared, as if they had never appeared in this world.

Fang Yue and the Flame Queen are like the creators in this world, and they use the most mysterious power of rules.

One move, one move, all reveal extremely profound mystery.

The Flame Queen smiled slightly: "Yes, yes, it's rare that a kid who can fight with me on the Avenue of Flames came on the fourth floor of the Reincarnation Tower. Your understanding of the Avenue of Flames has indeed reached a rather profound level. If what I expected is good, your flame avenue will never stop at the third level! But your understanding is too rough, and the methods used are quite clumsy. The flame avenue falls into your hands, like a jade covered in dust It's better to let me strip it off and give it to someone who is destined later!"

Although the Flame Queen is smiling and feasting, her words have an overbearing taste.

Strip off Fang Yue's insight into the Avenue of Flames and give it to others?

Suddenly, Fang Yue's heart burst out with a strong anger.

"If you have the ability, come and try it!"

Fang Yue shot again, and his flame field became more solid.

This flame comprehension seemed to have undergone a qualitative change.

Even the face of the Flame Queen became a little serious.

"Sure enough, your understanding of the flame avenue is beyond your realm. The flame avenue on the fourth floor is not at the level of the Yin-Yang realm. It is interesting. It is really interesting! Even in my flame royal family, there are only some Only then can the princes and princesses of the royal family possess your accomplishments in the same realm as you!"

The Flame Queen flicked her finger lightly.

A purple flame turned into a small snake and rushed towards Fang Yue's flame field.

Fang Yue's flame field was instantly torn apart!

His face became pale with a brush.

A mouthful of blood spurted out.

"How? Did you feel it? This is the real power of flames, the fire of purgatory. The flame rules in it are only the third-level realm of the avenue, but it can easily tear the fourth-level flame field on your body!"

The Flame Queen looked at Fang Yue again, her smile undiminished.

After staying in this tower of reincarnation for so long, I finally met a junior who can give pointers!

Fang Yue's heart trembled.

The light in the eyes was first bright and then dim.

A life-origin force circulated in his body, and the backlash of the domain being broken was completely relieved in an instant.

The Queen of Flame was right.

His use of power is indeed too clumsy.

This is actually not his reason. Fang Yue's various aspects of power are too quick to comprehend, and he improves too quickly, and he is too young to think that these are the use of power!

If it were one or two hundred years of precipitation in a certain realm, Fang Yue's grasp of power would definitely be stronger than the flame queen in front of him!

However, this gap in power operation cannot be made up for a while.

What Fang Yue can do is to prove the Tao with force.

"Fifth Floor of Flame Avenue!"

Fang Yue's low voice rolled in the flame world.

His domain is ten times stronger again! Moreover, this time the flame field is no longer a red color but a faint cyan color.

Furnace innocent, this is caused by the power of flame sublimation!

At the same moment, the light in the Haotian realm gradually dimmed.

Ta Ling blocked the peep of the Haotian Realm.

She knew that this was Fang Yue's hole card time, and once the hole card was leaked out, there would be no life-saving effect.

"What's the matter? How did this Vast Sky Realm fail?"

Elder Sky Sparrow showed a look of surprise, the Haotian Realm is a great saint-level magic weapon in the Heavenly Dao Palace.

Liu Feng injected his true energy into it again, and the Haotian realm flowed normally.

His expression moved slightly, and then he revealed a complicated face.

"The tower spirit of this reincarnation tower may have already felt that we are secretly peeping at this little guy with the help of the Vast Sky Realm, so in order to protect this little guy who broke the tower, the tower spirit blocked the peeping of the Clear Sky Realm!

Liu Feng's explanation made the elders think about each other.

Especially the Haotian elder who guards the Samsara Tower day and night!

"Lioufeng's guess is probably correct! This tower spirit has shown a preference for this tower-breaker before! But in that case, we don't have to worry too much about the life and death of this tower-breaker, since There is Ta Ling's preference, even if there are some accidents in the process of rushing to the tower, the Ta Ling will surely save this little guy's life!"

Elder Sparrow gave relief to the other elders.

In the process of observing the tower, in fact, many of the elders have already had the heartbeat of Fang Yue.

"Elder Tianque, every reincarnation battle is recorded in the Reincarnation Tower. Go and check the name and identity of this little guy, and then we can collect this little guy into the Heavenly Dao Palace. If he is caught by others If the forces of the empire have discovered it, I am afraid it will not be the turn of the Heavenly Dao Palace!"

There are other elders of the Heavenly Dao Palace that are quite anxious.

Elder Tianque nodded his head and closed his eyes, and he began to communicate with the tower spirits of the Heavenly Dao Palace with his spiritual thoughts.

Soon, he had the result.

"This little guy is named Fang Yue, a creature on an ancient aboriginal planet named Earth!"

The news that the elder Sparrow had fed back from Taling immediately told the other elders of the Heavenly Dao Palace.

Liu Feng's expression suddenly changed when he heard the word earth.

"Earth? The one in the solar system?"

Elder Sparrow nodded slightly: "Yes, the location of the earth is the solar system, how come you have heard of this planet?"

"Unprovoked, unprovoked! This Fang Yue, I advise you not to accept as a disciple of Tiandao Palace!"

Liu Feng spoke again and again, and the proud look before it faded instantly when he heard the word earth.

"Huh? Elder Lioufeng, what's going on? Do you know some secrets of this earth?"

Elder Tianque looked at Elder Liu Feng, and couldn't help showing a deep curiosity.

Elder Liu Feng is the famous Heavenly Dao Palace in this Heavenly Dao Palace who is not afraid of the sky and the earth. When did he begin to fear the earth in that wild land?

"I was led by my master to visit the planet once when I was young. At that time, the earth had not entered the end of the Dharma era. On the road, my master was tired from walking and rested on the side of the road. The cow wants to slaughter and eat to satisfy his hunger.

Then my master stepped forward to kill the blue cow, but the blue cow kicked him out of the galaxy with a hoof. It took almost three years for Master to fly before he returned to the earth and found me! And I have also survived on the earth for three years. In those three years, I have a deeper understanding of the earth than you, among which the people are like forests and the saints are like rain. The blue cow that kicked my master was a superb imaginary immortal. After my master flew back, he took me very low-key to visit a powerful archery expert——Hou Yi. Then Hou Yi is said to have even shot nine heads of the Golden Crow in the realm of True Immortality! My master is as clever as a child in front of him! The earth's water is too deep, and the true immortals may not be enough to see after entering. Although it is said that they entered the Age of Domination, those mythical characters must be either sleeping or wandering. ! "

While Liu Feng said, he took out the white handkerchief and wiped the beads of sweat from his forehead.

It's terrible, the earth is terrible!

Randomly encountering a green bull on the side of the road is the peak of Xuxian.

This kind of strength is simply not something that their Heavenly Dao Palace can look up to!

Elder Sparrow and others looked stiff.

Chapter 1266: Now he is dead

They originally thought that the strength of their saint realm level was able to walk sideways in this galaxy. As long as they didn't encounter the powerhouse of the great saint level, they were the one and only overlord.

But listening to this Liufeng say that, does this earth seem to be unattractive?

"Liu Feng, you are not scaring us by saying this! Do you want to swallow this Fang Yue by yourself without letting us share it with you?"

One of the elders was quite suspicious of Liu Feng's statement.

How can such a terrifying planet exist in this galaxy?

"Hey, I said it anyway, believe it or not, if you are willing to go, go by yourself! I will not go anyway! And don't forget, this young man is exceptionally talented, but your surname is not easy to provoke! Fang, do you think it is a coincidence or something else?"

With Liu Feng's reminder, the expressions of these old guys also changed.

They may not believe this statement about the earth, but they all have vaguely heard of this.

That is a level that they can't get around. Even if it is rumored that they only know a scale and a claw, but only a scale and a claw is enough to make them feel endless awe!

"Forget it, forget it, if you have time, find someone to show you okay with Fang Yue! Such a person must be a friend even if he can't become his own, especially he may be a disciple of the Fang family!"

Elder Sparrow waved his hand and said with some interest.

It was hard to find that a genius could not be accepted as a disciple of the Heavenly Dao Palace. This is indeed disappointing!

Liu Feng was helpless.

Elder Liuyun next to him asked weakly: "Then can my origin come back from Fang Yue's hands?"

Liu Feng glanced at him: "Have you ever seen anything from the dog's mouth come out? Liuyun, let me advise you, if this Fang Yue is really from the Fang family, he is not something you can provoke. Last time it's the Riyue Pavilion that provokes the Fang family! Tsk tsk, the top five powers in the galaxy, now the grass on the graves of the elders of the Riyue Pavilion is one foot high! If it's another puppet, I think it's necessary to organize the Tiandao Palace. The disciples of him go to the old site of the Riyue Pavilion to make a sacrifice to let them understand that this background is too big to support them!"

Reincarnation tower.

The level of the confrontation between the Flame Queen and Fang Yue continued to increase.

Fang Yue's flame avenue reached the fifth level, and the flame queen actually raised the level of the flame avenue to the fifth level.

The whole world is full of flames, and endless flames burn in the void.

Fang Yue was crushed and beaten by the Flame Queen, and had to admit that the degree of Fang Yue's manipulation of the power of the Flame was quite obvious from that of the Flame Queen who had played with fire for a lifetime.

The flames are soaring, the snake descends into the world, and the long tail sweeps Fang Yue flying out.

This was the thirty-third time that Fang Yue was hit by a fire creature.

His nose is blue and his face is swollen, and the fire poison in his body is jumping!

"Is it so difficult for everyone on the fourth floor of this reincarnation tower to clear the level? Even the flames on the fifth floor of the avenue are displayed! And the means of this flame to transform a living thing, it is clear that it is almost no match for all kinds of beasts and monsters It's a big difference!"

Fang Yue complained with grief and indignation, this is too difficult!

"No, this is for your specific difficulty. If ordinary people break the tower, I will not do it myself!"

The Flame Queen is blunt, but the excitement in her eyes is getting stronger and stronger, it is not interesting to ravage those small dishes B who pass through the barriers on weekdays!

It is better to beat Fang Yue, a guy who is proficient in Flame Avenue!

In fact, Fang Yue was also constantly absorbing experience in the battle with the Flame Queen, learning the opponent's fire control methods.

Fang Yue knew in his heart that the flame queen didn't mean to kill him from start to finish, but hoped that he would continue to grow in the battle and hone his flame manipulation skills!

Ten minutes have passed.

Fang Yue was knocked into the air by the summoned creature of the Flame Queen again.

This time, Fang Yue was completely lying on the ground and couldn't get up.

The fire poison in the body jumped, and a fire snake could be drilled from every pore.

Fortunately, Fang Yue's understanding of the Flame Heavenly Dao is extremely profound, and it can be smoothly suppressed. If it is replaced by someone else, it is estimated that it has become charcoal now.

"How? Do you want to continue?"

The Flame Queen still looked at Fang Yue with a smile.

The ravages just now were so cool!

This Fang Yue is resistant to beating, resistant to beating, and tenacious. It is simply the best human sandbag!

Fang Yue said angrily: "Don't fight, don't fight!"

Taling descended.

"According to the rules, Fang Yue is still engaged in a war of reincarnation. If you give up first, you will be punished by the reincarnation tower and be sealed in the reincarnation tower forever, becoming the nourishment of the reincarnation tower!"

Taling's voice was cold and ruthless, and he no longer meant to be close to the people.

How could Fang Yue give up so easily?

He obviously still has the power to fight!

"What if the Sima fashion hangs up early?"

Fang Yue stood up with a carp, and inside his body, the sixth level of the Flame Avenue was displayed, and the fire poison in his body was immediately refined.

This is true of any principle!

One level higher, it has a nearly crushing effect on low-level methods.

At the same time, the eyes of the Flame Queen were also lit up, as if he had discovered the New World.

At this time, Fang Yue hadn't displayed all his strength.

At the same time, the flame aura on the Flame Queen's body also skyrocketed.

At the same level on the sixth floor of the Flame Avenue, the Flame Queen also hooked her fingers at Fang Yue, as if saying to Fang Yue: "Master, come and play!"

Fang Yue couldn't help but shudder.

He waved his hand and said: "No, no, no more, you are almost playing the uncle!"

Ta Ling hesitated for a moment, and then responded: "If this Nangong style falls prematurely, you will be determined to be the victor of the Samsara battle!"

"Well, now he is dead!"

Fang Yue said blankly.

Ta Ling was stunned. The two reincarnation towers were separated from each other. How could Fang Yue influence the life and death of Nangong style?

This is not a joke!

But a picture emerged in front of Fang Yue.

It is the Nangong style that is still struggling to understand the law in the second-level reincarnation tower.

His head tilted, and suddenly he died.

"how can that be!"

The Taling of the Samsara Tower is always checking the situation of the Nangong style.

He was just fine, his vitality was like fire, his soul was like water, he was energetic, and his thinking was active.

Why did he hang up suddenly?

Is it possible that someone can kill in the Samsara Tower?

Fang Yue said blankly, "Don't look at me! It has nothing to do with me!"

Ta Ling was silent for a moment: "Fang Yue, tell me how this Nangong style died. I will give you the mark of the Samsara Tower. You can enter the Samsara Tower any time you want in the future! I only want the truth!"

Taring is serious this time.

This truth is quite important relative to it.

In so many years, no one has ever been able to kill under its nose!

"What you said is true?"

Fang Yue's eyes lit up.

He was actually quite unwilling to leave the Samsara Tower like this.

Fang Yue understood that there were still many good things waiting for him in this reincarnation tower.

It was just that Fang Yue realized that the Flame Queen was too abnormal, and only by defeating her in the skill of controlling the flames, could he successfully pass the fourth floor of the Samsara Tower. That's why he gave up decisively!

However, given the opportunity to continue, Fang Yue would naturally not miss it.

"What I say is always counted!"

Taring's patience has reached its limit!

It is quite concerned about this truth.

"This Nangong style was indeed killed by me! Have you heard of such a thing as the Avenue of Curses? I put a curse on him before Nangong style entered the Samsara Tower! As long as my mind moves, my curse will happen !"

Fang Yue spoke, telling the truth.

Ta Ling breathed a sigh of relief when he heard this.

"It turned out to be the Avenue of Curses. This kind of avenue is extremely side-tracked. I am afraid that few people in the entire ten thousand realms are proficient. I didn't expect you to know this method! With the avenue of cursing, when the Nangong fashion enlightenment, evolve the heart demon and hit him. Kill, I really didn't notice this way of killing!"

Ta Ling has roughly inferred the cause of death of Nangong Fashion.

He didn't die in Fang Yue's hands. Fang Yue's curse was actually just a catalyst and played a role in fueling the flames.

This Nangong style essentially died under his own demons.

"Since the Nangong style has fallen, then this war of reincarnation is the real winner! As a winner, all the wealth of this Nangong style is at your disposal, but his corpse will remain as the nourishment for my reincarnation tower to maintain reincarnation. Do you have any comments on the normal operation of the tower?"

"No comments!"

Fang Yue responded.

"Well, according to the previous agreement, I am now granting you the mark of recognition for the Samsara Tower. In the future, as long as you think about it, you can enter the Samsara Tower to enlighten the way! But in the future, I still hope you can go to the relics of the ancient times. Turns around, the universe of the Ten Thousand Worlds is about to sink into a boundless calamity. With the current civilization system alone, I am afraid it will be difficult to cope with this boundless catastrophe! Ancient civilization may be the first line of life!"

The voice of Taring fell and drifted away.

In a blink of an eye, Fang Yue returned to the original time and space.

Fang Yue returned.

Nangong style has disappeared.

Win or lose points.

There was a look of surprise in Ziyu's eyes.

Even she didn't have the confidence that Fang Yue could win the war of reincarnation. In Ziyu's eyes, although Fang Yue performed amazingly, there was still a limit!

Since this war of reincarnation began to be implemented in the Heavenly Dao Palace, few people have been able to survive smoothly.

This is also known as the killer of the disciples of Tiandao Palace.

Fang Yue actually defeated Nangong Fashion in the battle of reincarnation. This was absolutely a shocking event.

His potential may be beyond his imagination, and the future cooperation may be more in-depth.

"Congratulations on your smooth return!"

Zi Yu hugged Fang Yue and said with a smile.

"Tongxi, Tongxi!"

The way Fang Yue spoke to Ziyu was slightly perfunctory.

Because Fang Yue felt an extremely powerful pressure from the horizon!

"Who killed the disciple of my Nangong family! Come and die quickly!"

Chapter 1267: Sage forced palace

One wave has not settled, another wave has risen.

A projection of a saint fell.

Under the suppression of the earth's heavenly path, he only showed the combat power at the peak level of the leader realm.

However, the saint's coercion flowing out of the gestures made people breathless!

"The Nangong family! One of the thirteen families in the galaxy, they are famous for protecting shortcomings. I didn't expect this Nangong fashion to be their disciple!"

Ziyu's face changed slightly.

This Fang Yue is in big trouble!

The Nangong family, in terms of power, is a thousand times stronger than the Dark Moon plane!

"The Nangong style pressured me with force and sent me into the Samsara Tower for reincarnation battle! Rebirth in the Samsara battle, regardless of life or death, relatives, friends and family members of both parties shall not be held accountable! This is a rule set by ancient times, don't you Nangong family? Can't you afford to lose like this?"

Fang Yue replied neither humble nor overbearing.

"Can't afford to lose? Hahaha! Our Nangong family has nothing to lose, but in front of you without a background of ants, our Nangong family does not have to be fair and just with you. The Nangong fashion died because of you. You have to pay the price of blood!"

The sage of the Nangong family is obviously not ready to reason!

His attitude was extremely arrogant, he didn't even look at the earth at all, a planet that had just passed the end of the Dharma era, perhaps even a saint had not been born yet.

What's the truth to them?

"If I say, this Fang Yue is the person that our Galaxy Bank values?"

Ziyu stood up again.

Fang Yue's ability to pass the test of the war of reincarnation has proven his strength.

Fang Yue's value in Ziyu's heart increased again, so she stood up to defend Fang Yue at any cost.

The saint of the Nangong family stared at Ziyu for a moment.

"Little girl, you still can't represent the Galaxy Bank. If your mother comes, I will turn around without saying anything. I will give the Galaxy Bank's face, but your face is not big enough!"

The sage of the Nangong family is still arrogant. If a cat or dog in the Galaxy Bank cuts out and asks him to compromise, then he has no face to talk about.

Ziyu showed a touch of anger, but he did not expect that the saint of the Nangong family refused to be so decisive.

"Nangong mad, don't think that being sanctified is so great! Don't forget that even if you're sanctified, you haven't passed the completed saint's tribulation! Eight hundred years of precipitation only allows you to have means comparable to ordinary saints. If you want to go further, no one can supply you the genius treasure you need, except for Galaxy Bank!"

Ziyu tore his face instantly.

Her identity makes her position in the entire galaxy quite detached.

Although the cultivation base is not high, she is still the little princess who is high above.

This time Nangong Clan, the saint of the Nangong family, deeply hurt her fragile pride in her attitude towards her.

Fang Yue's palm slowly lifted.

"Ziyu, there is no need to turn my face with this old guy. Similarly, in the interior of this earth, there is the suppression of the rules of heaven. He can't do what about me!"

Fang Yue looked at the projection of Nangong Kuang, and said softly: "I don't want to go to war with the Nangong family, and this matter is also because of the Nangong fashion. If you insist on killing me! Then I have to take your Dao Projection will stay here forever!"

Fang Yue's words have ended.

Nangong mad laughed and said: "Humble ants, what qualifications do you have to come and talk to me! Your only choice now is to die and apologize. Only your blood can make your planet and your home truly real Redemption!"

Nangong Kuang's voice did not fall.

Fang Yue already closed his eyes.

"I really don't want to get to this point, but you forced me to do everything!"

"Phantom Rune! Help me!"

Between Fang Yue's fingers, a talisman suddenly appeared.

The talisman burned, and the soaring flame radiated pale light.

"Kill, let's start!"

Fang Yue's voice was very low.

But the flame light on that talisman is even more intense!

An illusory figure appeared, the realm of the leader of the pinnacle!

His indifferent Nangong Kuang was even more arrogant than Nangong Kuang looked down on Fang Yue just now.

"Give you a chance to disperse this projection yourself and disappear from my eyes. I don't want to dirty my hands because of killing you!"

The creator of the Phantom Rune must be a saint, and even among the saints, it is considered to be the more senior and powerful kind.

Even if it was Nangong mad, he didn't take it seriously.

He overlooked Nangong Kuang aloft, and Nangong Kuang was instantly angered.

Everyone is a projection of saints, who is weaker than whom?

Apart from anything else, Nangong madly spread out a pair of milky white wings, and countless feathers fell like arrows in the sky!

Each feather is comparable to the full attack of a powerful person in the Yin-Yang realm. If such an attack is performed in a war, it will kill a large number of people in an instant.

However, the figure manifested by the Phantom Rune still looks indifferent, as if this Nangong mad attack was a toddler showing his vigorous posture to him.

"After all, too weak!"

The figure transformed from the phantom rune sighed slightly.

His eyes pierced through the void and hit Nangong Kuang's heart.

Although it is just a projection, there is a causal connection with the deity.

Nangong Kuang's projection face was pale, and he shouted loudly, "You will pay the price!"

At the same moment, Nangong Kuang's deity staying outside the earth was also pale and weak in blood and energy.

The projection clone condenses part of his original power, and his original source disappears after the projection is destroyed!

With a bang, Nangong's projection dissipated.

The figure manifested by Fang Yue's phantom rune still had part of its power not displayed.

Nangong Kuang's clone is too weak to allow him to use up all the power in this phantom rune.

The figure of the Phantom Rune looked at Fang Yue, showing him a kind and kind smile.

"The power in this phantom rune is less than 30%. It would be a pity if it dissipated in such a flat manner. It's better for me to condense him into the power of a blow to the peak of the ordinary leader level, and you will save it. At the moment of life and death, it can burst out to resist a life and death crisis for you!"

The figure of this phantom rune is definitely quite wise.

Such a good after-sales service is obviously not because of how good their service quality is, but because they know that Fang Yue is their real financial father.

Fang Yue's pill that can prolong lifespan made them covet.

In order to win Fang Yue's favor, that's why there was the scene just now.

For the appearance of this scene, Fang Yue did not reject the slightest.

This was originally a transaction, but this method of transaction made Fang Yue feel more intimate.

"Nangong Kuang's projection was destroyed?!"

Ziyu couldn't believe what happened before him.

Nangong Kuang, even though he didn't even experience the complete saint's calamity when he was sanctified, he relied on a special method to become a saint with insufficient sanctification.

But Rao is so, he is also a saint!

Although his projection can only be maintained at the level of the peak of the leader realm, the average practitioner of the peak of the leader realm will not be his opponent at all.

So, does Fang Yue still have a powerful guarding power?

Ziyu squinted his eyes slightly, and the evaluation of Fang Yue in his heart once again raised a level.

Ziyu doesn't want her partner to be a weak person who needs them to protect from time to time. Even if this weak person has unlimited potential, he may become a saint that ordinary people can hardly reach or even a stronger existence in the future!

"The crisis was only temporarily lifted! The projection that defeated Nangong Kuang this time could not substantially solve the problem. This will only make the contradiction more acute. I believe that because of the defeat of the projection, I lost my origin. Nearly 20% of the Nangong mad will not give up like this!"

Fang Yue was not complacent because of the victory of the Phantom Rune.

He is well aware of the embattled situation of the earth today.

Under the unbridled erosion of the Dark Moon plane, they offended the Nangong family.

For the earth, this can definitely be called worse.

Upon hearing this, Ziyu fell into silence.

Fang Yue is more rational and sober than her.

Even Ziyu felt that Fang Yue's thinking was so clear that it would not match his age at all. If it weren't for Ziyu's previous investigation, Fang Yue was indeed born from the earth, and she was born twenty years ago. Would think that this is an old antique pretending to be tender!

"This is not a place to talk. Should we change another place, such as the Imperial City?"

Fang Yue stretched out his hand to express his invitation to Ziyu.

Ziyu did not hesitate, and instantly agreed to Fang Yue's request.

Why did she do so much before?

It's not to get Fang Yue's favor and to carry out deeper cooperation.

All return to the Imperial Palace.

But at the moment, the emperor had no longer the tense atmosphere of the mountain rain.

The dark moon army is still besieging the emperor, but the army on the dark moon plane at this moment does not have the power of the Yin and Yang realm, and even the middle layer of the reincarnation realm has been damaged by more than half.

Although there are still many people, they are only paper tigers!

"I want one third of the population of the remaining army of the Dark Moon plane!"

Just after landing, Rubaha made his own terms.

He is a magic repair, he is not a decent character.

Moxiu is not necessarily evil, but most of them are fighting for profit.

"My deep sleep over the years has consumed too much of my own strength. I need to eat a lot of flesh and blood before I can recover to my peak state faster! The seal of heaven has gradually loosened, and the era of yin and yang as king is over. In the future, when the masters of the master realm will rise to the spine of the earth, I will recover my strength faster, and the Chinese people will be able to get more shelter and safety!"

Rubaha had already figured out the wording.

This hard grab is definitely not enough.

Fang Yue, Fang Hua, and Hungry Wolf Taoist, none of them is good.

Fang Yue glanced at him: "If you have a reward, you must be rewarded, and if you have a punishment, you must be punished. Just now you took a fight and trapped the strong man on the Dark Moon plane. You have already made great contributions, but one-third of the population is too much. Many, at most I can only give you one hundred thousand dark moon planes, heaven and earth level soldiers to swallow you!"

As soon as Fang Yue spoke, he compressed Rubaha's request by nearly a hundred times.

"Two hundred thousand! Two hundred thousand soldiers in the heaven and earth realm are all refined, and I will be able to recover a small step!"

Rubaha bargained.

In the end, Fang Yue gave him 180,000 heaven and earth soldiers.

Fang Yue didn't believe what Rubaha said.

After all, he was a magic cultivator in the Qing Dynasty, and Fang Yue didn't dare to trust him completely.

Although Rubaha was still a little reluctant in the end, he accepted this condition.

Because Fang Yue promised to compensate him with three Yin-Yang level elixirs in addition to the 180,000 Heaven and Earth level soldiers to help him restore his somewhat exhausted consciousness.

Chapter 1268: Distribution of results

Swallowing flesh and blood can only help Rubaha restore his physical body and mana, and without the help of the elixir, he needs years and years to be able to slowly recover.

Fang Yue's three Yin-Yang level elixirs were simply more valuable than the flesh and blood of the soldiers on the Dark Moon plane of the Million World Realm. After all, soldiers on the Dark Moon plane are everywhere, but Fang Yue's medicine is hard to come by!

"The remaining soldiers, the Taoist Hungry Wolf and Fang Hua each have 200,000, devouring and refining, no matter what means, I don't care, but these soldiers cannot have a living."

At this time, Fang Yue showed a decisive and very spicy side.

If the Imperial City is broken this time, it means that the entire China is in danger, and all the residents of the Imperial City will be exposed to the iron hoofs of the soldiers on the Dark Moon plane.

At that time, the soldiers entering the city on the Dark Moon plane would not have the slightest compassion.

"no problem!"

"Ok!"

Daoist Hungry Wolf and Fang Hua didn't expect that they could share a piece of the pie. This was already a surprise.

The Taoist Hungry Wolf is a demonic cultivator, and his body is a beast, so devouring creatures is not a burden to him.

And Fang Hua is following the path of orthodox practice, and will not swallow the path of refining flesh and blood, but he can definitely use the flesh and blood to the maximum!

"Our Huaxia military did its best when we were besieged by the Imperial Capital. And I can't bring back anything back, and it's not easy to explain!"

Simakong, who represents China's military, lacked confidence.

The main force of this Dark Moon plane was almost all killed by Fang Yue and others, and they almost did not intervene.

This time he asked for credit, he was also shy.

Helping the emperor to break the siege is already the greatest help of the Chinese military.

"The military's consumption of these days is not small. In the days of war, many people's spirits are quite exhausted! In this way, I will hand over the soldiers of the millions of dark moon planes to you! As for how to deal with it, you decide for yourself. The resources on the body are enough to make up for the losses of the military, and even the amount of surplus wealth is not a small number."

The overall situation, after all, requires the Chinese military to respond.

Fang Yue understood that he could only be regarded as a wandering straggler, which could affect the local battlefield, but could not change the situation of the entire war.

"Okay, okay, okay! This time, I will definitely show my merits to the above. You are the hero of the Huaxia people, and I express my high respect to you on behalf of the Huaxia people!"

Fang Yue assigned millions of soldiers captured by the Dark Moon plane to the Chinese military, which was already a surprise.

The remaining men and horses of the Dark Moon plane were taken away by Fang Yue.

He contributed the most in this war, and naturally he also gained the most benefits.

"Fang Yue, the war situation is critical now, and China's resources are severely lacking! The speed of cultivating the strong is far less than the speed at which the situation deteriorates. Although I know that this is a bit excessive, I hope you can stand for the entire China. From the standpoint of the government, we should contribute to the country and give up more resources!"

Sima Kong held back for a long time and saw that Fang Yue was about to end the meeting.

Only then did he speak.

In the eyes of Simakong and others, Fang Yue is a big rich man. With the resources in Fang Yue's hands, it is conservatively estimated that it will be able to train more than one million powerhouses in the world!

With these million world realm powerhouses, China's overall strength will reach a new level.

Only then did Sima Kong brazenly request Fang Yue to donate some resources.

Fang Yue glanced at Sima Kong.

"Don't use righteousness to overwhelm people. I don't want to give these resources, but I feel that if they are given to you, I am afraid that most of these resources will be greeted in various names in the middle, and it will be difficult for the Chinese practitioners who really need the resources to fall into the hands. Here! Who is not greedy? Who doesn't want to have more wealth? Some people will take risks for these resources, and some will fill their own pockets! Eventually my kindness has become a means to satisfy individual greed!"

Fang Yue's words were to smash Simakong's army.

Sima Kong was immediately speechless.

Human nature has determined the occurrence of this phenomenon.

Sometimes, everyone just avoids talking about it. The more complicated the black box of the system, the more likely it is to have the kind of problem Fang Yue said!

Fang Yue didn't donate resources. To put it bluntly, he was not unpatriotic, but he just didn't like to let his resources go to waste.

This is a manifestation of distrust, but such trust is also difficult to establish.

"Actually, I think Fang Yunshan's school's point-based redemption method is good. They complete tasks of different difficulty and get corresponding points. Every point is gained through hard work! Beihe is my

hometown. I now express that I am willing to donate 100 million Lingshi to the points exchange bank of Beihe College!"

Fang Yue made a statement on the spot.

One hundred million spiritual stones, if placed in the hands of the military, is actually not too many resources.

But if it only falls into Beihe College, it is enough for Beihe College to train a large number of outstanding students!

Fang Yue's donation is an attitude and a signal.

In fact, he is more inclined to cultivate a new generation of Tianjiao than to invest resources in this bottomless pit of the Chinese military.

"Ok!"

Sima Kong knew that it was difficult for him to change Fang Yue's decision.

However, he did not have much hope for his persuasion.

Human nature is like this! Those resources are Fang Yue's private property, and any righteous name should not shake Fang Yue's wealth.

It was an unexpected surprise to be able to let Fang Yue donate 100 million spiritual stones to fund Beihe Academy.

Beihe College has cultivated more students, which can be regarded as strengthening China's strength in disguise!

The benefits are divided up.

The meeting disbanded.

In the huge chamber, only Fang Yue and Zi Yu remained.

"Fang Yue, by doing this, you are actually gradually severing the relationship between you and your ethnic group! You occupy too many resources. The remaining soldiers on the Dark Moon plane have nearly 10 million soldiers. The resources on them, as well as them Its own value is a huge cake. This cake will be coveted, and some greedy people will come like moths into the fire to eat away your wealth!"

"At that time you will suffer from the enemy and be isolated and helpless!"

Ziyu shook her head slowly, but she did not agree with Fang Yue's decision.

To be able to take up a high position in the Galaxy Bank, she can rely on more than just her mother's nepotism.

In the handling of interpersonal relations, Ziyu has its own set of methods!

Fang Yue smiled slightly: "Then what do you think I should do? Hand over most of the harvest this time to the Huaxia military? Not to mention, how much these gains can be transformed into real combat

power under the hands of the Huaxia military. After China has swallowed this big piece of cake, won't it be coveted by all parties? The winning country and China are already at odds, and other countries will also take the opportunity to make trouble. When the time comes, allies will turn their faces and the enemy will attack. China is the real name. Not every day, the earth is not bad! Don't forget, in this world, there are no eternal friends, only eternal interests!"

Fang Yue's analysis subverted Ziyu's outlook on life.

Originally thought Fang Yue was just a stingy, but he didn't expect that he would have such a profound calculation.

"So, this wealth is in my hands, it will attract the attention of many forces, and at the same time, let Huaxia get rid of it. The resources in the soldiers of the millions of heaven and earth are enough for today's Huaxia to digest for a while! At the same time, there are more The most important point is that the value of these millions of heaven and earth soldiers is not only the resources they carry with them, but also their flesh and blood and soul. I don't believe that Huaxia's military has such a strong control. Are the two sleeping places for the old guys? With millions of soldiers as sacrifices, it should be enough for a few old guys from before the founding of the country to climb out of the coffin and become China's trump card and backing!"

There was a glimmer of light in Fang Yue's eyes.

His calculations are much deeper than ordinary people!

Wang Feng, Rubaha and Fang Yue believe that they are just the beginning.

As time goes by, there will be more ancient Chinese powerhouses coming from the depths of history.

At that time, the earth will be different again!

Ziyu nodded slightly after hearing the words: "Since you understand in your heart, then I will not dissuade you much, but in the end, I still have to send you a piece of advice. As the saying goes, the times make heroes, every time turbulent times, cows, ghosts and snakes will emerge This is caused by the luck of an era, and sometimes attacks from behind are more dangerous than those in front of you!"

After Ziyu finished speaking, he took a deep look at Fang Yue, and then fell into a deep silence.

"Thank you for reminding!"

Fang Yue clasped his fists and interrupted the slightly awkward silence.

Ziyu then talked to Fang Yue about cooperation, and finally left without staying on the earth for a long time!

Fang Yue's deity also left the earth.

The earth is the autumn of troubled times, and it is too dangerous for his deity to stay here.

If something happens, just take care of the Reiki clone! And the speed of growth of this spiritual energy clone is actually very fast!

Maybe one day in the future, it will reach the level of the leader state or even the saint state.

For the next half month, the entire China was exceptionally quiet.

The Dark Moon plane seems to have temporarily given up China after the imperial capital suffered a big loss.

They put a lot of troops into other places, and Huaxia, although it is often harassed, is only two or three big cats and kittens!

In this brief silence, Fang Yue smelled an undercurrent and undercurrent.

In the past two weeks, Tian Linghou has also visited China several times.

He and Fang Yue exchange information with each other.

Fang Yue also had a general understanding of the dark moon plane.

Eighteen princes of the Tianfeng Empire fell, and thousands of soldiers were buried in China. Although it caused a lot of waves, the impact on the Tianfeng Empire was not as great as Fang Yue had imagined!

On the contrary, it was the fall of Zhangjiajiao master class powerhouse, which caused a lot of waves in the Tianfeng Empire.

The Zhang family abandoned part of the fief, and threw it to other family forces to swallow it, only to calm the wave.

Allies are sometimes the most terrifying enemies.

The Zhang family is a **** lesson.

However, the Tianfeng Empire was frustrated in China, and did not back down. On the contrary, they are gathering more strength and preparing to make a full blow against China.

"This time the Dark Moon plane invaded China's army, the leader must be a leader-level existence! And this number is more than one! But every leader-level powerhouse is a giant in the Sky Lantern Empire. It belongs to the rank of the great official of the border! If you want to dispatch, even the royal family of the Tianfeng Empire will need a lot of effort!"

Tian Linghou analyzed the information for Fang Yue and said.

Chapter 1269: News from Tianlinghou

Fang Yue listened to a series of yawns

"If you only said these things, then you can go back now! Even the covenant between us can be lifted!"

A touch of tiredness appeared on Fang Yue's face.

This information is of no value to him at all. He doesn't need any news, but can guess what happened just by guessing in his head.

There are leaders at the leader level on the earth, and there are still more than one.

As long as the imperial family of the Tianfeng Empire can't show off their brains, they will definitely send a leader-level powerhouse.

These are all obvious things about lice on bald heads.

There is no need for the spirits to come all the way around this day to pretend to be people and sell information.

An awkward expression appeared on Tian Linghou's face.

It is not that he does not have key information in his hands, but this information also needs to be sold.

Fang Yue is now a rich native, and even the Dark Moon plane has spread!

Although it was a cooperative relationship, his information could not be given to Fang Yue for nothing.

"Overwhelmingly asking prices, return the money after landing?"

Fang Yue glanced at Tian Linghou, he was more familiar with these routines than Tian Linghou.

But Fang Yue got up and patted the dust on his body.

"I don't have time to wrestle with you here. I will give you information if you like, but don't want to get it! I don't bother to participate in the affairs of your Skywind Empire and Frost Empire!"

Fang Yue turned around and wanted to leave, it seemed that he was really out of interest to follow the Linghou ink.

Tian Linghou's heart was tight, and he hurried to catch up to make amends.

"I'm not good, I shouldn't go in circles! I still have important information in my hands. For example, this time the Tianfeng Empire's army is preparing to officially enter the territory of China in half a month. Before that, Tianfeng The empire will continue to send small-scale harassing troops to paralyze China's defense system!"

Tian Linghou is definitely a big spy on the Dark Moon plane.

This is not enough, even the strategic fighters of the Tianfeng Empire are speaking out.

"One blast, then decline, and exhaustion! There is an expert in the wind empire that is directing behind the scenes!"

Fang Yue sighed, the tactics of the wind empire on this day were indeed good. Small harassment made China's garrison exhausted, and then the army invaded. The momentum was like a broken bamboo, and the Chinese military was most exhausted to overcome the defense in one fell swoop.

"If this information is finally verified to be true, I will not treat you badly!"

Fang Yue didn't trust Tian Linghou's intelligence easily. All this was a means by which Huaxia people would not want to play again.

Tian Ling Hou surrender?

Who knows if it is true or not.

What's more, someone has insight into the relationship between him and Tian Linghou and deliberately released smoke bombs?

Tian Linghou looked at Fang Yue deeply, and he naturally understood what Fang Yue meant.

However, these did not surprise Tian Linghou.

Because in other words, he would only be more suspicious and alert than Fang Yue in this situation.

"This message is an extra gift from me, but the next message, if you don't pay a certain price, I will never give it to you!"

Tian Linghou's words changed, suffocating Fang Yue's appetite.

His eyes flashed with pride, and Tian Linghou seemed to be a cunning hunter, waiting for the bait of his prey.

Everything just now is to pave the way for the present.

"Come on? Ha ha, you are smarter and more cunning than I thought!"

Fang Yue chuckled, seeing through Tian Linghou's tricks.

"Go ahead, what is your message about!"

Fang Yue's repeated questioning gradually took the situation into his own hands, and he once again changed from a passive position to an active one.

Tian Linghou was a little surprised, he didn't know when he would occupy the passive position of negotiation again.

Obviously he took the initiative!

Tian Linghou was a little frustrated.

"About your future position on the earth!"

"Then I guess, this news should have something to do with the son of destiny or luck, right?"

In Fang Yue's words.

This made Tian Linghou's eyes widen instantly, and his breathing became slightly quicker.

This Fang Yue Duozi approaching the demon is simply terrifying!

There is nothing to hide from him.

He had never said this to anyone. After the news was confirmed and it was confirmed, he ran over to trade with Fang Yue. But I didn't expect that Fang Yue had mastered the trouble in advance!

Seeing the surprised expression on Tian Linghou's face, Fang Yue's heart also felt a little satisfaction.

"In fact, I don't need you to talk about this matter. I have already guessed and heard about it. Every world or plane will always show the chaotic side of luck when it encounters catastrophe! Hope, it will focus on certain people. He became the savior and the son of destiny, and despair descended on other people and became a destructive force! Although the power of despair and hope is displayed in different forms, both of them It contains a huge amount of energy that makes people unable to reject the changes it brings, right?"

Fang Yue said slowly.

In fact, Fang Yue hadn't paid attention to these things, but Ziyu's reminder before he left before made Fang Yue put his understanding of these things on the agenda!

Tianling Hou Ning nodded: "That's right! In fact, from a certain perspective, you should be the son of destiny on this earth, but I have not seen the slightest trace of luck in your body. Obviously, you are ignored or given up by the will of the earth! Therefore, you should pay more attention to the children of destiny. They are created by the times and heroes are created by the times! In the special environment of the earth, they are easier to get opportunities and grow easier than you. Get up and threaten you!"

Tianlinghou continued to talk about Fang Yue's topic, and he didn't mention the cost anymore.

Fang Yue had already guessed the generality of the matter, and there was no point in concealing it!

Fang Yue was silent for a moment.

The relaxed expression on his face gradually faded.

Instead, his face was solemn.

"Tian Linghou, you can tell me in detail about this son of destiny and the latter being created by the power of despair! Don't worry, as long as your words are valuable, I will not treat you badly in terms of rewards! Just now you said I think they are worth two million spirit stones! What do you think of this price?"

"This Fang Yue is really vulgar, it is simply intolerable! Open your mouth and shut your mouth is the spirit stone, and all of it is copper!"

Tian Linghou's heart is full of emotional waves.

But he quickly recovered his calm.

"Wait, what did I just say? He gave me two million spirit stones! Two million spirit stones, a big number, let him use more spirit stones to kill me. Right!"

Tian Linghou likes partners like Fang Yue.

Just ask, who doesn't like spirit stones in this world?

"What the power of hope condenses is the son of hope, and what is condensed by the power of destruction is the son of destruction! The sons of hope, when they come, generally show a different place or a vision from heaven. , Or abnormal bloodline, some even get great opportunities in the mother's womb. Once they make a move, they will be able to practice at a rapid pace! This son of

destiny has strengths and weaknesses, and the ultimate achievement will be different! This kind of destiny son, generally referred to as Mingzi, or a kind of dark child, is seemingly unremarkable, but the day after tomorrow will go through some things, after training, and finally obtain great achievements! Mingzi, Anzi, both are the children of destiny, but the latter is often more terrifying than the former!"

Tian Linghou paused for a while, then looked at Fang Yue eagerly.

Fang Yue is a little speechless, does this guy not believe in himself so much?

"The ones you just said, give you five million spirit stones!"

Fang Yue made a promise.

Tian Linghou contentedly continued: "There is hope, there is destruction. Even in times of great calamity, the power of despair is stronger than the power of hope. This power of despair will evolve into many forms, the most of which the most common one is the robbery demon. The robbery demon is not an ordinary demon spirit, but a special power that is a mixture of the power of calamity and despair, and is a special existence born from the body of the creature! The ranks are so high that the upper ones can directly decide the birth and death of the lower ones!"

When Tian Linghou mentioned Jie Yao, his eyes also showed a touch of awe.

This robbery demon is actually more terrifying than the Son of Fate.

The latter was born to guard this hope. Even if it is strong, it has a bottom line, and it is a decent role to put it in order.

Jie Yao does not follow rules, is strong, and has a strange temper. He is elusive.

"Tell me more about the robbery! I will give you another five million spirit stones!"

Fang Yue was sitting in front of her, and he was particularly interested in information about the robbery!

Tian Linghou's heart was slightly startled, even Xuan felt quite happy.

These three superpositions are 12 million spirit stones!

Although these spirit stones are not a big number to him, they are too easy to get after all.

"The robbery monsters are generally divided into different levels. The first robbery monsters are called the little demon, and then there are several levels of the big monster, the demon general, the demon king, the demon king, and the demon god! The starting point for each level of the robbery is it is quite high! Jie Yao's body has a god-given demon spirit brand, which will transform Jie Yao's body and make it stronger, and different Jie Yao will have different talents and supernatural powers!"

The voice of Tian Linghou fell.

Fang Yue was suddenly anxious.

"Go on! In the previous paragraph, how about I count you three million spiritual stones?"

"I want to continue talking, but there is no more! The number of calamities encountered on the Dark Moon plane was still 86,000 years ago. The records on the Son of Destiny and the Son of Destruction are

quite limited. You ask me, is it because of me? Only by being knowledgeable and knowledgeable can I tell you so much. If you change one person, you may not even be able to say a word or two!"

Fang Yue suddenly had the urge to choke this Tianlinghou to death.

And the irritable mood in his heart was like a monster, as if it could rush out of his body at any time.

There is no other reason. Three days ago, Fang Yue discovered the power of the sleeping Jie Yao in Fang Yunshan's body!

The brand of the robbery demon is still in a state of being sealed and sleeping.

Once activated, Fang Yunshan will definitely change into an out-and-out robber!

Chapter 1270: Ice goddess

Fang Yue was able to deal with other people's affairs calmly, but when it came to his family and friends' problems, his mood was immediately disturbed!

What is the end of the robbery monster?

Fang Yue knows from watching TV series that it is the whetstone of the son of destiny, a typical cannon fodder.

Often very strong when playing, but this kind of power is just a flash in the pan!

"You said, who knows about this robbery demon?"

Fang Yue's voice became a little low.

The earth in the future will be chaotic, the heroes will rise together, and the gods will be in the air.

Fang Yue is not willing to let Fang Yunshan participate too much!

"This one....."

Tian Linghou hesitated.

He didn't want too many people to participate in the transaction between him and Fang Yue!

"Say!"

The sound in Fang Yue's throat became more and more hoarse, as if a fierce beast was about to break free from the cage of reason.

Tian Linghou felt that all the hairs on his body were erected, and Fang Yue could turn into a demon and tear him into pieces at any time!

"I said, I said!"

After all, Tian Linghou was not the enemy of Fang Yue's coercion.

His breathing was a little disturbed.

"There is a goddess of ice and snow in the ice and snow empire. She is a close to god, and her strength is unfathomable. At the same time, she is known for her erudition throughout the Dark Moon plane. She knows the calamity better than anyone else!"

Tian Linghou finally said the name.

But when the four words Ice and Snow Goddess were uttered, Tian Linghou's body trembled involuntarily.

Unstoppable fear surfaced on his face.

"Is this power of real name?"

Fang Yue watched Tian Linghou's performance, his inner anger eased slightly.

Fang Yue once read it in ancient books.

The power of real name is a unique method of some ancient gods. They collect beliefs and at the same time delve into cause and effect. When others chant their real names, they can feel inwardly.

However, the divine residence that can sense his real name is at least the existence of a middle **** or higher.

"Ice and Snow Goddess!"

Fang Yue muttered the name silently.

Sure enough, at the moment Fang Yue spoke, he felt a line of cause and effect in the darkness that connected him with an unknown existence!

"Are you chanting my real name?"

A soft voice floated from the void.

It follows the line of cause and effect.

"Ice and Snow Goddess, I am indeed calling for your arrival. I hope you can give me wisdom and let me know more about the robbery!"

Fang Yue didn't see anything outside.

I didn't know this yet, so I started making requests directly.

The Goddess of Ice and Snow was also quite surprised. She had seen someone familiar with herself, and had never seen such a familiar one.

Are you my believer?

Are you related to me?

Do I owe you favors?

Why do you just ask me to help you!

"May the brilliance of the gods spread to all worlds, and let every ignorant and ignorant heart receive the baptism of ice and snow."

Fang Yue prayed.

However, the ice goddess did not feel the influx of the power of faith.

Really an ungodly believer.

The ice goddess' desire to dissipate and leave.

Unexpectedly, ran for nothing.

"Ice and Snow Goddess, don't go!"

Fang Yue's thoughts spread, and an almost independent space was born.

In this space, no thoughts can dissipate and leave.

This is a small method recorded in the "Soul Truth". It is not complicated, but it requires a deep foundation in the power of the soul to rely on to be able to display it smoothly.

Shenmin was stopped!

The Ice and Snow Goddess was a little surprised, this mortal is very unusual.

This is the first time that she has discovered that there is still someone who can stop her mind circle.

"What's the matter with you? Don't come to me to make falsehoods. Everyone is sensible. Don't show them anymore if you confuse the believers!"

The Ice Goddess said impatiently.

How does Fang Yue feel more clever than her.

The weather watching by the side was shocked instantly.

The scene before him simply subverted his concept of life!

This ice and snow goddess was actually stopped by Fang Yue, and he wanted to cheat and fool the goddess.

This, this is simply not a word that can describe him with boldness!

"I hope to get an introduction about the robbery demon. Of course, in return, I will give you some resources. For example, how about this spirit stone?"

Fang Yue took out a way to deal with the weather and weather to deal with the goddess of ice and snow. As a result, people simply did not deny Fang Yue's practice.

A mocking smile wafted from the corner of the ice goddess' mouth.

"Humble mortal, do you think I will lack these cheap spirit stones?"

Fang Yue persevered: "Although you don't need it, but what your believers need, you have more spiritual stones to give believers, and more people will believe in you! This divine residence needs faith, and faith comes from Believers, believers need spiritual stones, and when God's residence provides spiritual stones to believers, believers will provide faith to God's residence. This is a kind of exchange of your wishes. There is nothing wrong with the old iron!"

Fang Yue's set of rhetoric shocked the goddess of ice and snow.

It seems to make sense for you to say that...Ah! The ghost believes what you said!

"Humble mortal, please respect the wisdom of a divine residence, and don't try to blind my soul with rhetoric! Everything has a price, as long as you can pay the corresponding price, I can exchange knowledge with knowledge!"

The voice of the ice goddess became more and more pressured.

But the meaning of the words was a little compromised.

This Fang Yue is simply a standard rascal.

She intercepted her spiritual thoughts here and refused to let her go.

There is no way, the ice goddess can only decide to compromise.

As long as Fang Yue offers a price that she is satisfied with, everything is easy to negotiate.

"The gods need believers. Why don't I give you a hundred warriors from the world of the dark moon plane to become your most loyal believer?"

Fang Yue hesitated for a moment, and released a hundred martial artists of the dark moon plane with bare buttocks from the world level.

The ice goddess was stunned.

What trading method is this?

God's residence, it's really good to need faith, yes, you don't want to ask how big the land controlled by my ice goddess.

The entire ice and snow empire is the site of my ice and snow temple. The number of believers in it has exceeded 3 billion people. How can there be a shortage of you, a hundred bare-bottomed believers?

"Humble mortal, please show your sincerity, otherwise, you will not be able to bear the anger of the gods!"

No matter how good the temper is, there is a limit to the ice goddess.

Fang Yue wanted to exchange her precious knowledge with a hundred bare-butt warriors of the Heaven and Earth Realm level of the Heavenly Wind Empire.

"No, no, no! Your Honorable Ice and Snow Goddess, these hundred dark moon planes of heaven and earth realm warriors have returned to the dark moon plane because of their belief in you! Anyone who

believes you will get eternal Shelter! You love your believers as your heirs! Even if they go astray, you can rescue them from the abyss of hell!"

Fang Yue's expression is pious, and his voice is soft, more like a goddess than the goddess of ice and snow.

Even on Fang Yue's cheek, Tian Linghou felt a holy smell.

A beautiful smile gradually bloomed on the face of the ice goddess.

"Yes, yes! This huge power of faith is what I need! These hundred dark moon planes, heaven and earth level warriors can be used as the price of exchange for you and me! However, what I expect more is you and me for a long time. Cooperation!"

The ice and snow goddess understood Fang Yue's meaning in an instant.

The one hundred warriors of the heaven and earth realm do not represent themselves!

They represent a humiliating defeat of the Tianfeng Empire.

It represented the Tianfeng Empire's indifferent and complete abandonment of its subordinates.

The Ice and Snow Empire and the Tianfeng Empire are neighboring countries, and enemies for generations have hatred that cannot be resolved.

If there is a chance to slap the Tianfeng Empire fiercely, the Ice and Snow Goddess will naturally not give up easily.

"no problem!"

Fang Yue and the ice goddess hit it off.

The enemy of the enemy is the friend.

Having a common enemy makes it easy for two unfamiliar forces to come together and quarrel with each other.

Tian Linghou looked at the two dumbly, what happened between them?

Why do I feel like I can't understand it!

"This jade slip records part of the history, development, and weaknesses of the robbery demon. Of course, these are fragments that I have unearthed from ancient books. The content is already somewhat incomplete, and these things may not be credible.

But based on my knowledge of history, if you have a robbery monster by your side, I have three pieces of advice. The first piece of advice is not to be superstitious about the so-called ranks, whether it is the robbery of the demon or the son of destiny! It's just competing for a plane, a ticket for the protagonist of a certain era in a world. The low-level tribulation demon can continuously strengthen themselves by devouring the son of fate, the same level or the high-level tribulation demon! As long as life and death are not divided, everything can be changed! The second point is that the existence of the robber is not a generation, and the identity of the robber must be viewed from a perspective beyond time and space.

The third point is that the existence of Jie Yao and Son of Destiny both have their tasks, and this task itself is the existence of opportunity! "

The ice goddess wanted to say the more vague, but Fang Yue still understood a lot from this vague warning!

"Thank you for the help of the Goddess of Ice and Snow. These three warnings are worthy of me giving the Goddess of Ice and Snow one thousand soldiers of the Dark Moon plane of the heaven and earth level! I hope they can give the Goddess of Ice and Snow more help!"

Fang Yue's temper, the ice and snow goddess has touched her head.

Completely, one eats soft but not hard.

What's the matter with you, speak well, everything is easy to speak.

But if you threaten, Fang Yue will definitely not follow your wish.

"Thank you!"

With these one thousand and one hundred soldiers at the Heaven and Earth Realm level of the Sky Wind Empire, she can operate a lot of things after she returns!

The Ice and Snow Goddess was able to sit in this position, certainly not a fuel-efficient lamp.

Even when she is idle and fine, she still wants to make waves and add some blockage to the Tianfeng Empire, not to mention Fang Yue sending such good attack materials to her hands.
