

## God of Life 1271

### Chapter 1271: Rapid retreat

In the afternoon, a piece of news spread throughout China.

The Ice and Snow Empire on the Dark Moon plane attacked the southern city of Beijing. The southern city occupied by Fang Yue suffered heavy losses and lost a large number of prisoners of the Dark Moon plane!

Fang Yue himself was seriously injured and life-threatening.

All the soldiers of Fang Yue's army gathered back and guarded around the southern city of Beijing to guard Fang Yue's wounds.

As soon as this news came out, the whole China was shaken.

For the first time, the name of the Ice Empire appeared in front of the people on earth.

Some people were extremely furious about this news, but more warlords were relieved, and a sharp blade hanging above their heads disappeared!

"Fang Yue, is it really good for you to do this?"

Jingnan City, Fang Yue's residence.

Wei Yuan, who hurriedly rushed in, saw Fang Yue, who was supposed to be seriously injured, actually fishing by the river.

Wei Yuan was extremely annoyed by his graceful appearance.

Everyone was deceived by this guy.

He was not injured at all.

"I have been in the limelight during this period of time! It's time to converge! Otherwise, the wood will show up in the forest, and the wind will destroy it. I'm afraid I won't have a good end!"

Fang Yue still looked peaceful and laid back.

Today's Jingnan City has become an ultra-modern city of the future under Fang Yue's effort to build it!

The level of science and technology is at least more than the thousand years of today's earth.

With the criss-crossing formations on the ground, I am afraid that even the strongest of the leader of the leader will be planted here.

"Then you are preparing to retreat in the rapids, and you don't care about the things behind China?"

An urgent expression appeared on Wei Yuan's face.

Now that the seal on the earth is loosening again, the earth has entered a new era.

The leader of the leader realm can come one after another. If Fang Yue leaves his hand, what should the leader of the leader do again?

Hua Xia now knows that there are only three or five strong people in the leader realm.

And there are four of them related to Fang Yue, Peng Ling, Rubaha, Fang Hua, and the Hungry Wolf Taoist. If Fang Yue did not come forward, Fang Hua and the Hungry Wolf Taoist would definitely not make a move for China.

Peng Ling is the guardian of China, but will help China at critical moments.

But what about Rubaha?

He was originally a demon cultivator, and he did whatever he wanted.

Without Fang Yue, who can command him to move him?

Wei Yuan suddenly realized that Fang Yue was so important.

Fang Yue looked at Wei Yuan's aggrieved expressions and some expressions that he didn't dare to speak, and smiled slightly in his heart.

"Don't worry, this new era is coming, and your opportunity has arrived! At the entrance of the Demon Realm, I once killed your predecessor body. Of course, it was just your past life body, in which a wisp of obsession became the lord, and it was already enchanted. I helped you keep this body. You can refine it into an external incarnation. It is a real master-level physical body. As long as you practice a little bit, you can command like an arm! Then you can barely enter. The sequence of the master realm level! Become an indispensable pillar of Huaxia! This is to ask for help, it is better to ask yourself, you are strong, and it represents the true strength of Huaxia!"

Fang Yue decided to return Wei Yuan's previous life to her.

Wei Yuan's xinxing passed Fang Yue's test.

Upon hearing this, Wei Yuan was stunned.

My previous life?

The existence of the leader level?

Is this dreaming?

It was not that Wei Yuan had never thought about the day when she would rise to the top of her life and cultivate to the level of the leader.

But she thinks that this day will be in the hundreds even if it will come, and most of it will be ten years later.

The more she cultivated, the more she understood how far away she was from the level of the master realm.

But she never thought that this surprise would come so soon.

The strength of her and the master realm level is so within reach!

Fang Yue handed over Wei Yuan's previous life to her, and then asked her to calm down by the water and accept this reality.

This surprise is the same as the anger, it is a heart disaster, and the past is a trial, which will make the xinxing more stable!

Fang Yue then came to Fang Yunshan's Fang family.

Gong Qianqian was guarding her side, her face full of worry.

"How's it going?"

Fang Yue glanced at Fang Yunshan, who was still sitting cross-legged on the bed. He asked Gong Qianqian in a low voice.

Fang Yunshan has been in retreat ever since she discovered that there was a robbery demon brand in Fang Yunshan's body. She didn't want to be a robbery demon, and she didn't want her reason to be confused by the robbery demon's impulse and destroying nature.

Gong Qianqian shook his head slowly.

"Yun Shan is a good boy, but she exhausted all of her strength to suppress it, but she was still unable to stop the state of the Tribulation Demon Brand! In the confrontation with the Tribulation Demon Brand, Yunshan was about to raise her realm to a rotation level! However, the robbery demon brand seems to be stronger when it is strong. The more Yunshan suppresses, the more powerful the robbery demon brand's counterattack!"

Gong Qianqian is really concerned about this student.

She couldn't wait to treat each other with her body, let the Jie Yao brand appear on her body.

Gong Qianqian and Fang Yunshan have deep feelings, like sisters.

With Gong Qianqian guarding him, Fang Yue had time to make arrangements.

"The brand on Yunshan's body, if I deduced it well, it should be the tribulation demon brand. Once recovered, it can give Yunshan a strength equivalent to the first level of the rotation realm, and as her killing aura deepens. , The brand of Jie Yao will continue to recover, allowing Yun Shan to enter a stage of rapid growth, and the stronger the war!"

Fang Yue whispered to himself, he was inferring Fang Yunshan's future.

The brand of this robbery demon is indelible, unless Fang Yunshan is killed now.

"If only this is the case, it would be fine! But once you bear the robbery demon brand, the demon spirit's instinct in the brand will continue to impact Yunshan's sanity! Over time, Yunshan's temperament may also change. At that time, Fang Yunshan It is no longer herself, but will become a monster that only knows how to kill!"

Gong Qianqian frowned, this was the most terrifying thing.

Once Fang Yunshan incarnates into a real robbery demon, at that time, she will bring troubles to the world, even if she is facing someone close to her, she will not show mercy.

"No! I have already figured out a way out for Yunshan. I have a bodhi jade pendant with the mana blessings on it. This is a magic weapon at the rotation level. As long as the tribulation demon brand recovers The speed is not too fast, this bodhi jade pendant is sufficient to suppress the power of the inner demons in it."

Fang Yue took out a jade pendant that looked like a bodhizi, on which was carved the look of an unknown Buddha.

It smiles with flowers, and the light of Buddha radiates. Through the jade pendant, it can give people a sense of peace and tranquility!

For this piece of jade pendant, Fang Yue spent a lot of money, he spent a full 30 million spirit stones to exchange this piece of jade pendant.

This thing is quite rare. It can suppress the demons of the heart and is a treasure to aid in spiritual practice.

Although it is the level of the rotation realm, its value is no weaker than the treasures of the ordinary yin and yang realm.

Fang Yue put this jade pendant on Fang Yunshan's body, and the expression of pain on Fang Yunshan's face was instantly relieved. Her brows stretched, and there was a touch of relief.

The sweat bead on the pale little face turned into a white mist and evaporated.

"brother!"

Fang Yunshan slowly opened her eyes, and she sensed the existence of that jade pendant.

At the same time, Fang Yunshan also understood how much his brother had paid for himself.

"Yun Shan, don't speak! This one-foot-high demon is one-foot tall. Although Brother doesn't have the ability to drive the Jie Yao brand out of your body, it can help you temporarily suppress it! This is a drop of Rank 2 soul fluid. , You blend it into the sea of knowledge for refining, it can help you strengthen the essence of your soul, and the stronger your soul, the stronger the ability to suppress the imprint of the evil demon!"

Fang Yue has formulated a series of plans for Fang Yunshan.

This tribulation demon brand is born, although it is insoluble, but it may not have no way to suppress or even transform.

"Yes, brother!"

Fang Yunshan carefully put away this drop of Second Transformation Soul Liquid.

Although Fang Yunshan didn't know exactly how Fang Yue obtained this second-level soul liquid, after spending a long time in the world of practitioners, Fang Yunshan also vaguely knew the preciousness of this soul-enhancing treasure.

At least she has not heard of any treasures that enhance the soul's essence by anyone around her!

Rare means expensive.

Fang Yunshan still knows this well.

"You will suppress this evil demon brand for the time being, but while suppressing it, you have to peel off the cocoon and release some of its power for refining and tame. After all, this brand represents the will of the earth. It is impossible for you to cultivate. Stay suppressed all the time! Only accept slowly and make use of it is the ultimate kingly way!"

Fang Yue was also helpless with the Jie Yao brand.

Time is also fate.

Fang Yue rummaged through the classics, and no one can completely remove the Jie Yao brand from the body of the creature!

"Brother, don't worry about this! I will definitely conquer this evil demon brand. This is dangerous and also an opportunity! If I can control it, maybe I can grow up quickly in the future, and I will be able to help at that time. Brother, you're killing the enemy and Fumo!"

Fang Yunshan smiled reluctantly, trying to make Fang Yue not worry too much.

Fang Yue nodded slightly and said to the outside: "Bring in that horse!"

"horse?"

Fang Yunshan showed a slightly surprised expression.

What does this have to do with horses.

For a moment, a soldier from the plane of Sirius led a dark unicorn at the level of heaven and earth into the room.

Fang Yue looked at Fang Yunshan and said, "Sister, kill it!"

Hearing Fang Yue's order, Fang Yunshan was completely in a daze.

This seems to be something wrong with donkey lips!

Good thing, let me kill a dark unicorn.

However, out of Fang Yue's trust, Fang Yunshan pointed slightly, and a scarlet light burst directly from her.

The red light fell.

The center of the eyebrow of the dark unicorn was hit instantly.

It wailed and fell to the ground.

Fang Yue looked at Fang Yunshan again.

"Do you feel any changes in your body?"

"Change? No! No, wait, I seem to feel that the Jie Yao brand in my body is a little stronger than before!"

### **Chapter 1272: Fang Yue's strategy**

Fang Yunshan immediately realized the problem.

Her little face also became serious.

"Yes! This horse comes from the Dark Moon plane! You killed it and absorbed part of the original power of the Dark Moon plane, making your Jie Yao brand stronger!"

Fang Yue has already said this.

Fang Yunshan immediately understood the meaning of Fang Yue's words.

"Brother, you mean, the responsibility of this robbery is also to kill the invaders outside the territory, but the robbery has changed the way of fighting?"

"Yes, that's probably what I mean. The so-called robbers or the sons of despair represent the unruly and no-line killing of invaders outside the territory, while the sons of destiny are more inclined to the role of guardians, but no matter what They are the Jie Yao or the Son of Destiny. Their real goal is to maintain the stability of the corresponding world, and to exterminate or drive out the invaders outside the territory! In this process, both the Jie Yao and the Son of Destiny will gain the power of the world they are in. Blessing!"

Fang Yue expressed his speculation according to his own understanding, and this speculation is related to the future growth direction of Fang Yunshan!

"The future of this earth will inevitably coexist with chaos and killing. In fact, you get the tribulation demon brand, to some extent, it can also be regarded as a special opportunity, as long as you can master the power of the tribulation demon, not It is to let the power control you! The brand of the evil demon will give you unlimited possibilities in the future! In fact, the brand of the evil demon, you can treat it as a wild horse without the rein! You can't tame it for sure. Let it lead you, but once you treat it as your own slave, it obeys you obediently!"

Fang Yue's remarks made Fang Yunshan's heart suddenly clear.

This question can actually be reduced to a question of whether you control power or power control you!

"In the past few days, I have been thinking about how to tame the power of the evil demon. I have summarized three ideas, which can be regarded as the three directions for you to conquer the power of the evil demon. The first direction is my time. It can continuously provide you with treasures that nourish your soul, and keep your soul in a state of rapid growth. A powerful soul can suppress the recovery of the robbery brand. No matter which sect of practice, this soul is always ten thousand The essence of the spirit! Even if you practice to a certain level, even the physical body can be abandoned, Fang Yunshan, the stronger your soul essence, the stronger your ability to control power! The second direction is that you need to continuously improve your control of subtle power Strength, the same problem is obvious to me. You and I have increased too fast. Others need decades or even hundreds of years to improve their cultivation strength. You and I have reached it in just a few years. There are many

hidden dangers behind the surge in strength. You and I are not precise enough in the control of power. Ten percent of the power can often only display less than 50% of the combat power in battle! I am in the Galaxy Bank , Found a very good equipment, virtual combat aircraft, you can choose any level of opponents, use virtual technology to fight in the sleeping cabin, from weak to strong constantly re-adapt to each level of combat rhythm. For power Controlling the details is the key to tame the power of the evil demon, but it takes time and effort. Don't be impatient. The third way is to exercise willpower! The influence of the imprint of the evil demon is more similar to that of the heart demon. The bewitching of force, if the heart is like a rock, and everything is regarded as a spring breeze supporting the mountain, naturally there will be no problems!"

Fang Yue said his thoughts in one breath.

These thoughts were summed up in detail after he spent a few days.

If he were replaced by another person, Fang Yue wouldn't bother to worry about it!

But as a beloved mad demon, Fang Yunshan encountered this problem, and he had to exhaust his mind to study it.

Fang Yue's retreat quickly made both sides of the war forget his existence!

It turns out that people are forgetful.

Whether it is the people of the Dark Moon plane or the major organizations and forces on the earth.

Above the earth, the wind is surging, and some previously unknown existences have emerged one after another.

Their bravery and strong momentum soon replaced Fang Yue's position in China. Some people even stood up and commented on Fang Yue, saying that he was just a meteor in the sky and could only release a moment of brilliance.

Fang Yue did not make any response to this.

The entire Jingnan City seems to have become a dead city.

In or out.

Fang Yue was seriously injured and was unable to take care of all parties in China.

There are even rumors that Fang Yue had already fallen on the spot under the sneak attack of the Ice and Snow Empire.

As if to match these rumors.

Some videos have also surfaced on the Internet.

Although the content of these videos is vague, they are all scenes of the attack on the southern city of Beijing by the Ice and Snow Empire.

Fang Yue was besieged by two master-level powerhouses and was seriously injured. He screamed at the sky and wanted to kill the thief, but he was unable to return to the sky!

There are also a large number of soldiers from the plane of Sirius falling down, and even a large number of soldiers from the Dark Moon plane are taken away by the generals of the Ice Empire.

These videos spread more and more widely, and finally reached the point where they were out of control!

Fang Yue's weakness seemed to have been exposed to many forces.

He is destined to become the dust of history.

Fang Yue's figure was gradually overwhelmed by latecomers.

In China, some new heroes appeared.

For example, Gai Tianling.

Gai Tianling was a genius who suddenly appeared in China ten days after the army on the Dark Moon plane retreated.

He was born in a well-off family in Nanhe Province.

Since he was young, he has shown a clever side. He was able to write poetry at the age of three, and completed all the content of elementary school textbooks by himself at the age of five... In the era of rejuvenation of spiritual energy, he was even more preached to the neighbors around him as a supernatural existence!

In just one month after the resurrection of the aura, he had changed from an ordinary literary teenager to a master of the innate realm.

Then, he broke through the realm all the way, from the first level of the Xiantian realm, the third level of the Xiantian realm, and the fifth level of the Xiantian...

Just ten days ago, he finally pierced the layer of window paper in Rotating Realm.

On the day he broke the border, a vision descended from the sky, a purple dragon soared in the sky, and the sun appeared.

Gaitianling seemed to have received the blessing of the gods, and as soon as he broke through to the level of the cycle, he reached the third level of the cycle!

Moreover, he smoothly killed three generals of the Dark Moon plane at the rotation level!

The story of Fang Yue is too far away from ordinary people!

What kind of leader realm, what yin and yang realm, those are the existence of gods, or the people around them are more trustworthy.

Fang Yue is more like a myth, like a legend, and Gai Tianling is a tangible existence around them!

Gai Tianling became famous overnight and was highly regarded by the Chinese military.

As soon as he debuted, he was the rank of colonel, and he was also equipped with a special mission commando of five hundred people composed entirely of practitioners of the heaven and earth realm!

Immediately after that, in just ten days, Gai Tianling had a wonderful experience for China, and participated in more than 20 battles and battles, each of which was to kill the creatures on the plane of Dark Moon. At least four digits, many of which exist at the rotation level!

At the same time, Gai Tianling's cultivation base went one step further, reaching the sixth level of the rotation realm!

According to the momentum of this breakthrough, this Gaitianling reaching the level of Yin and Yang is just around the corner!

China, Imperial Capital, in the Forbidden City.

"Do you think that Fang Yue was really seriously injured or dead or pretended to be!"

A middle-aged man with a delicate face and a purple and gold crown asked softly.

There was a breath of real dragon in his gestures.

In front of him, there was a round table, and everyone sitting around the round table was a famous strong man in China.

Thunder is one of them. At this moment of thunder, there is no arrogance on his face, but his cultivation realm has also broken through from the peak of Yin-Yang realm to the level of leader realm!

There are a total of twelve people around the round table, and Thunder is only sitting in the last seat.

This seat is a representation of identity, but also a symbol of strength.

The leader realm is already at the peak level on the bright side of China!

Even the strength of the first level of the leader realm is enough to have a reputation and dominate one side, but on this round table, Thunder's status is the lowest. This aspect shows the high rules of this gathering.

"From my understanding of Fang Yue, this is probably a scam! This Fang Yue is extremely cunning, and his careful and cautious character is actually quite inconsistent with his age!"

Lei Ming was the first to speak. He didn't suffer a loss in the fight with Fang Yue, but Fang Yue paid more attention!

The thunderous voice was a little hesitant, and he didn't know much about Fang Yue.

In the previous judgment, he did not have a solid basis, and more of a simple intuition from him!

"Leiming, you are scared by this Fang Yue! Even if he has some trump cards, he is a modern person of Yin-Yang level!"

There was a frivolous voice from Thunder's side. This was a middle-aged man with a bit of a scorpion. He didn't need a white face, and his narrow and long eyes gave people a mean and acrid feeling.

"Wang An, let Lei Ming continue!"

There was a low voice from the middle-aged man sitting in the upright position.

"Yes!"

Wang An said no more.

Wang An looked at the person in the front seat with a look of timidity in his eyes!

Wang An didn't dare to disobey this adult. He was a human emperor hundreds of years ago. In that era, he alone suppressed thousands of powerful people.

Hundreds of years have passed, and the strength of this emperor is bound to be stronger under the precipitation of the years!

What level of strength is he?

Wang An didn't dare to figure it out easily.

Sage pinnacle?

Or is it the Great Sage?

Recovering in an era with this adult is a great sadness for everyone.

"On that day, I also witnessed the battle between Fang Yue and the leader of the Dark Moon plane. Fang Yue did not show much strength, but his Fang Hua and Hungry Wolf Taoists were all at the level of the leader. A rather senior presence in China! The two of them joined forces, and the usual three or five leader-level presences should not threaten Fang Yue's safety! What's more, Fang Yue and Peng Ling have a better relationship, the one who was attacked in the southern city of Beijing. On the day, no Peng Ling appeared.

This means that Fang Yue has not yet reached the moment of life and death! Fang Yue probably used this opportunity to quickly retreat in the doubtful situation! After all, if the son of destiny and the son of destruction are coming, if Fang Yue is not among them, he will definitely become the background of those gods, and he may become a stepping stone for others. It is hard to do anything! "

### **Chapter 1273: The army is coming**

Lei Ming sorted out the guess in his heart briefly.

He whispered, making the big man wearing the purple and gold crown nod frequently.

"This Fang Yue needs to observe carefully, maybe the future is a personal thing! As for those so-called gods like Gai Tianling who jumped out from the beginning, they don't need to spend too much effort to pay attention! So impatient. , Even if there is some blessing, it is easy to die halfway!"

The big man in the purple gold crown no longer speaks.

They turned to the discussion of the next thing!

"This hateful Fang Yue must die! If he does not die, the humiliation suffered by my Tianfeng Empire cannot be erased!"

A Scarfaced General, standing on the border of China, his face was full of hatred! He is the royal family of the Tianfeng Empire, for Fang Yue, he simply hates him!

Had it not been for Fang Yue's troubles, troubles and destruction, how could they have suffered such heavy casualties during the battle of China!

Tens of millions of troops have been destroyed, a large number of Rotating Realms, the strong of Yin and Yang realm have fallen, and even the strong of the leader level have been destroyed on the territory of China.

This is simply an unbearable loss for the Tianfeng Empire, who vowed to victory before the expedition!

The halberd of the Tianfeng Empire in the process of conquering Huaxia Kingdom directly affected the progress of several other battlefields. A large number of soldiers and generals were left in the territory of Huaxia Kingdom forever, causing some other battlefields to become tight!

If only these were the case, General Scarface would not have such a strong hatred against Yue, after all, this victory or defeat is a common matter for soldiers. From the moment of expedition, it is necessary to make a good chance of failure!

The latter thing is the real pain of the Tianfeng Empire.

Some time ago, the Ice and Snow Empire attacked the southern city of Beijing. Fang Yue was defeated. It is said that his life is dying.

The Ice and Snow Empire robbed a large number of captives of the Tianfeng Empire.

Now, this time the captive actually appeared openly at the sacrifice ceremony of the Ice and Snow Empire, and became the most pious believer of the Ice and Snow Goddess.

This is Chi. Nakedly telling people that the Tianfeng Empire is so incompetent, their people were captured and abandoned, but in the end they regained their freedom and new life by relying on the faith in the ice goddess of the ice and snow empire!

The Ice and Snow Empire and the Skywind Empire were born as enemies. For tens of thousands of years since the founding of the country, there have been frictions on the borders. Each friction will cause a large number of casualties. Until now, the Ice and Snow Empire and the Skywind Empire, as neighbors, are still Did not turn the fighting into jade silk, hatred is as deep as the sea.

The people of the Ice and Snow Empire saved the people of the Tianfeng Empire, which is a great shame for the Tianfeng Empire.

Especially as a high-level member of the Tianfeng Empire, Scarface felt the faint pain on his chest.

This Fang Yue must die in the hands of their Heavenly Wind Empire soldiers to be able to wash away the shame of defeat in one fell swoop!

"Come on, send me someone to besiege South Beijing! I want everyone to know that the glory of my Tianfeng Empire is indelible, and the army of our Tianfeng Empire is invincible!" Scarface roared low. .

Troops lined up and heads moved.

The army of 15 million Darkmoon planes came here, rushing towards the direction of Jingnan City!

This battle will win!

In order to kill Fang Yue, the Tianfeng Empire had already used its main force. This time the 15 million army was originally intended to conquer a small plane.

"The report has detected that a large-scale Darkmoon plane army has invaded our territory in the south! According to satellites, the enemy's number should be around 15 million!"

Imperial Capital, the headquarters of China's military.

After a soldier fought and stood at attention for a while, he reported the latest situation with a resolute voice!

"Do you know where their goals are? Also, do you have corresponding data analysis on the structure and personal strength of this Darkmoon Army?"

A middle-aged man in a uniform with a hard face spoke.

He is Lin Shuai, one of the three most famous marshals in the Chinese military.

The continuous invaders have caused the entire China to be full of turmoil. As China's military, at least one of the highest commanders in name, Lin Shuai can really be said to have exhausted himself and died.

He usually eats and stays in the headquarters of Huaxia. If he really encounters a raid war, he will take the lead and stand on the front line of the war!

"According to analysis, there are at least five leader-level powerhouses in the army of the Dark Moon plane this time. It is difficult to detect the specific small realm, but it does not rule out that there are other leaders-level powerhouses in the army who have amassed aura. The general number of Yin-Yang-level powerhouses in the army is between 100 and 120. It is roughly estimated that there are at least 800,000 strong people in the Rotating State! The remaining 80% are elite martial artists at the heaven and earth level, and some Cannon fodder at the innate level!"

The soldier truthfully reported the information he had gained.

A look of surprise appeared on Lin Shuai's face first, and then he waved his hand slightly to signal the soldier to retreat.

A tense atmosphere filled the Huaxia Military Command.

This heavy military sentiment fell to their ears.

All the soldiers looked at each other, seeing a sense of tension, seriousness, and helplessness from each other's face.

"Actually, when this army was assembled, I had already obtained the corresponding information. However, the target of their attack was not the Imperial Capital but the Southern Beijing City!"

Lin Shuai drew a red line on the map behind him. This red line was the marching route of the army on the Dark Moon plane as he inferred.

"The Heavenly Wind of the Dark Moon plane has regarded Fang Yue as their old enemy, and has been ashamed of the previous defeat in Fang Yue! So this time, they have to do their best to take Fang Yue's hand with the momentum of thunder. Jingnan City, and behead Fang Yue, wipe out the previous shame."

Lin Shuai's voice was a bit tired.

His eyes that were as sharp as a lion in the past have become a little hesitant and hesitating at this moment.

"What do you guys mean? Are you preparing to deploy troops to help Fang Yue defend the southern city of Beijing and wipe out the 15 million army? Or use Fang Yue of the southern city to delay the army on the Dark Moon plane for a while, shut down the fire across the bank, and wait until Fang Yue's troops and this army are about to lose and consume each other, and then send troops to conquer, with the smallest loss in exchange for the greatest victory?"

The tiredness in Lin Shuai's voice gradually thickened.

He bluntly put forward these two plans.

There were more than fifty senior Chinese generals sitting down, and they all kept their eyes and nose, nose and mouth, mouth and heart, and silent.

Lin Shuai immediately understood what they meant.

According to normal rules, morally speaking, they naturally go all out to support Jingnan City, help Fang Yue, and take advantage of Jingnan City's geographical advantage to block the steps of the Heavenly Wind Empire on the Dark Moon plane. select.

However, they still have their own careful thoughts in their hearts.

To support Fang Yue, the source of troops did not fall from the sky.

It is bound to draw a considerable part of the army in their hands to leave. At that time, their rear is bound to be empty, and it is very likely that the Dark Moon plane will take advantage of it to take advantage of it. At that time, Fang Yue can't be saved.

To tell the truth, none of the people present is a saint who can sacrifice himself so much, and Fang Yue and the others have never known each other, so why bother to help him so desperately.

"I am willing to choose the first plan!"

Li Qingyun stood up suddenly.

His crisp voice interrupted the brief silence in the venue.

Among the more than fifty generals present, Li Qingyun can only be regarded as the one with relatively shallow qualifications, and his cultivation base and the number of troops under him ranks quite low among the crowd.

"Qingyun, you still have too little qualifications and don't know how to weigh the overall situation. I know that you have a good personal relationship with Fang Yue, but you are not the reason for disregarding the overall situation. Your 300,000 troops need to be stationed in and protect the capital. The safety of the masses! You are so reckless and impulsive, it will be difficult for us to pass the commander power in the hands of you young people in the future!"

A general from Nanhe murmured at Li Qingyun.

In fact, the minds of many generals on the scene were the same. Since the 150,000 army on the Dark Moon plane had already suppressed the realm and was coming towards Fang Yue, then they would just let the opponent Yue do it!

It just so happens that Fang Yue's fictitiousness and reality can be investigated. Is he really seriously injured, strong outside and doing everything, or everything is just a disguise, wanting to lead the emperor into the urn!

Even if Fang Yue didn't help, with the various methods he had shown before, at least it would be no problem to wipe out the army of 15 million to 1 to 2 million.

When Fang Yue fell, Jingnan City was their bag.

Recently, all kinds of caves and blessings on this earth have begun to emerge one after another, and a large number of sacred places for cultivation have appeared on everyone's territory. This grabbing for territory has become their main goal.

The more sites you grab, the more resources you have for practice!

The southern city of Beijing occupied by Fang Yue is, after all, an enviable place!

"I propose to proceed according to the second plan!"

"agree!"

"Seconded!"

"Seconded!"

"..."

One of the generals jumped out and became a bad guy, and agreed to Lin Shuai's second plan, and the others also secretly put on the masks of hypocrisy before.

"You will regret it if you don't go!"

Li Qingyun said angrily.

Jingnan City, Fang Yue's residence.

Recently, Fang Yunshan's progress is good. With the help of the power of the soul liquid, she has successfully raised the essence of the soul to the level of the first level of the rotation realm!

With the absolute suppression of the soul, the erosion of the Jie Yao brand on her consciousness is gradually weakening.

At the same time, Fang Yunshan's speed in refining the Jie Yao brand continued to increase.

The wisps of energy were gradually stripped out and gradually used for her.

The power of the robbery demon is quite powerful. Fang Yunshan only refines one-tenth of the total strength of the robbery demon in his hand. The cultivation base provided by the robbery demon power for her is close to that of an ordinary rotation realm powerhouse Up!

"Fang Yue, don't worry, the army of the Dark Moon plane is about to oppress it!"

Wei Yuan's recent cultivation has made considerable progress. Her body in this life and the body in her previous life resonated with each other, and her realm improved to a small level.

As for her previous life, she had no obstacles in the process of refining.

Now she has refined her previous life into her external incarnation.

Once the external incarnation of this previous life is displayed, its combat power is not weaker than that of a strong person who enters and exits the master realm!

Originally, Wei Yuan had already completed her cultivation yesterday, and she should have come to say goodbye to Fang Yue today.

But she received the news that the 15 million troops on the Dark Moon plane were pressing down and coming towards Southern Beijing.

Wei Yuan immediately dispelled the thought of leaving in her heart.

Fang Yue gave him her previous life, which was a great blessing to her. If she left now, wouldn't she become an ungrateful person?

#### **Chapter 1274: Give up Jingnan City**

"Come and come! Anyway, there is still no place in this Jingnan city! On the contrary, there are millions of elite soldiers in Jingnan city, at least three leaders of the level of existence are sitting in the town. This Jingnan city is a hard piece to eat. Hard bone, doesn't the commander of the Dark Moon plane know?"

Fang Yue did not rush, and was not too nervous about the upcoming storm.

Wei Yuan looked at Fang Yue, her face was surprised and puzzled.

"Is it possible that the army of this dark moon plane will make a detour?"

Wei Yuan found it incredible that the wind empire's opponent Yue hated his bones this time. This time it was a must-kill battle. Even if there was no amount of temptation, the army on the Dark Moon plane would probably not bypass Jingnan and attack other cities.

"At that time you will know!"

Fang Yue smiled mysteriously, and then waited for work in the southern city of Beijing.

A day later, the army of the Skywind Empire on the Dark Moon plane approached the city and came to the gate of Jingnan City!

The crowd of people who can't see the head surrounds the southern city of Beijing, making people feel depressed, and even breathing seems to become a lot more difficult.

Fang Yue boarded the wall of Jingnan City and watched the crowd move.

A smile appeared at the corner of his mouth with everything under control.

Then he shouted loudly: "Who is here?"

Fang Yue's voice was vigorous, like a thunderous surging!

The scared-faced general of the leader of the Tianfeng Empire responded: "I am Chu Jiangyue, the second-class Viscount of the Tianfeng Empire, and I am ordered to kill the enemy Kou Fangyue!"

Scarface's response was straightforward, and there was no boring move to persuade him to surrender.

The two armies had not yet confronted, and Chu Jiangyue knew that Fang Yue would definitely not surrender easily.

Therefore, he was too lazy to waste his tongue and directly invited the battle.

Fang Yue's face was slightly pale, and his body shook involuntarily.

He deliberately showed a weak taste, which seemed to fit the legend of serious injury.

"My Jingnan City is not willing to fight with your army, and I have to withdraw your army from the area of my Jingnan City!"

Fang Yue spoke again, a little lacking in confidence, he wanted to play the exemption card and not confront the army on the Dark Moon plane.

This behavior is a cowardly expression in the eyes of all generals.

And the scarred face laughed and said: "Yellow-mouthed kid, who is coming from mountains and rivers, would you just leave because of your half-word?"

"I am willing to contribute 3 billion spirit stones to supplement your army's losses!"

Fang Yue spoke again, his words were amazing!

Opening the mouth is to compensate for the 3 billion spirit stones, and it is to cause commotion within the army of the Dark Moon plane.

It's not that they don't observe military discipline, but the compensation offered by Fang Yue is too attractive!

If they agree, they will be able to obtain the resources of 3 billion Lingshi without a single soldier.

This result was definitely a great victory.

Although joining the army, you can still get benefits without going through a life and death crisis. Who doesn't want this kind of thing.

Fang Yue's words were to shake Scarface's military spirit.

Scarface Chu Jiangyue's complexion was dark, this Fang Yue is really a deep calculation!

However, can this little bug make him hard to beat?

"A mere three billion spirit stones want to make the soldiers and horses of my Heavenly Wind Empire retreat, do you think this is sending a beggar? Since you can take out three billion spirit stones to let my army on the Dark Moon plane? Retreat, this is proof that you have more resources in your hands! Killing you and stepping down the southern city of Beijing, maybe we will get a hundred times, a thousand times the benefits of these three billion spirit stones!"

Although Chu Jiangyue had a few words, it aroused the greed of the soldiers.

What Chu Jiangyue said was correct!

Fang Yue was able to come up with 3 billion spirit stones, proving that he must have more resources.

If it is 30 billion, 300 billion!

After finishing this order, they can all go home for retirement!

Thinking of this, the army of the entire Dark Moon plane is boiling!

They instantly transformed from soldiers into beasts.

Fang Yue could even feel a greedy desire, silently surging in the hearts of the army of these Dark Moon planes.

And all this was actually in his expectation.

"let's start!"

Fang Yue muttered in his heart.

"The army goes out!"

Chu Jiangyue raised her fist and roared at the sky.

A faint blood color spread slowly in the sky.

Fang Yue's mouth curled up with a cold smile.

"Fry me!"

Fang Yue's voice fell decisively, and under the feet of the army on the Dark Moon plane, pieces of X bombs exploded one after another.

The white light turned the earth into a bright color!

The rock melted and became water droplets.

The earth collapsed and turned into a cave.

Chu Jiangyue felt that she was suffocating.

This Fang Yue had been in ambush long ago, and a heaven and earth net had been placed under their feet, waiting for them to enter the urn.

However, I have already eaten it once so that the Tianfeng Empire cannot fall in the same place.

"The Third Surgery Legion takes orders! Rock Spell, seal the earth for me!"

Chu Jiangyue gave an order, and the tens of thousands of Shuxiu who had been integrated into the Legion shot at the same time.

One after another rock art fell, making the big floor knot and indestructible!

The power of the X bomb was immediately weakened to the minimum, and a large amount of energy was consumed when breaking through the rocks!

The thousands of X bombs that Fang Yue had buried before were directly invalidated, and they did not play an ideal role.

Chu Jiangyue raised the sky and whispered: "Such a trick of carving insects can be successful once. Do you think it can still bury my soldiers on the Dark Moon plane for the second time?"

Fang Yue's face was slightly pale, his fists were clenched, and his veins burst.

Then he let out two dry coughs, and even his breathing became a little dull.

This battle is about the destiny of the entire Huaxia Kingdom and the life and death of the earth!

As a result, it wasn't just Fang Yue's winning or losing. More importantly, if Fang Yue lost, he would be able to defeat the army of Dark Moon before he died.

The army of 15 million Darkmoon planes, several strong masters in the master realm oppressed.

If this strength, as long as there is no miracle in Jingnan City, Fang Yue is destined to be exhausted, and there is no way to survive!

"This Fang Yue is really disappointing! I thought that he might even fight to the death and make the Dark Moon plane pay a heavy price, but he didn't expect that he was still such an old routine and was relaxed. Avoiding the past, he is a Jiang Lang, is he exhausted?"

Imperial Palace, the highest meeting room.

In Huaxia Middle School, representatives of all major forces gathered here to watch the Battle of South Beijing.

The impact and significance of this battle is so great that it will even be recorded in the history of the earth!

They need to quickly summarize the results of the battle based on the situation of this battle, and work out a corresponding response plan.

With such a large army of Dark Moon planes, even if they were maimed in the first battle against Jingnan City, any of them would not be able to eat.

This time it was a strong man who was sitting on the seventh step of the Yin-Yang realm in Anhe County. His name was Song Qiang. Before the resurrection of his aura, he was only a leader of the Anhe County. A small secret realm in Anhe County was opened, and its spiritual energy rose greatly, and some ancient cultivation scriptures were discovered one after another.

Song Qiang took advantage of this opportunity to take Tiancai Dibao and made breakthroughs. Song Qiang, who is not weak in his aptitude, is now a bigwig at the Yin and Yang level, and five of his thousands of brothers have reached the rotation level. , And another 50% have reached the peak of the heaven and earth realm or the ninth level, all of them are reserves for the future rotation realm.

Song Qiang's status among the thousands of warlords, large and small, in this highest conference room is not low, not because of his own cultivation base and the strength of his subordinates.

The key is that Song Qiang holds a small secret realm resource in his hand.

Song Qiang couldn't eat these resources alone, and everyone else was wondering how to get a share of the pie!

Song Qiang was full of disappointment with Yue, and the other warlords also complained about Fang Yue's unfavorable teaching.

"I was expecting this Fang Yue to be able to share our worries. It turns out that he has only this ability, and he is strong outside and doing it. This guy who doesn't seem to be useful, deserves to be destroyed!"

Some people spoke rudely and showed strong contempt for Fang Yue.

"Hmph, if you knew Fang Yue was so weak, the resources in his hand would not be as good as the early share! The province will fall into the hands of the enemy forces on the Dark Moon plane, instead, it will make the army of the Tianfeng Empire even more powerful. To be powerful!"

All kinds of dissatisfaction words are flying all over the sky.

The scene on the big screen is constantly changing.

The X bomb had no effect.

Fang Yue's face was pale on the southern city of Beijing.

After that, swish.

Thousands of arrows were fired, and countless arrows surged down like a shower of madness!

Arrow secret skills, each arrow is attached with a different rune.

Fire, lightning, meteorites, darkness, turned into a sea of elements!

"Resist me!"

These are all means of conventional warfare.

Chu Jiangyue has experienced it many times! He gave an order, and the battle formations immediately condensed, forming a milky white shield, covering the heads of all soldiers.

Those arrows with elemental runes, after encountering the milky white shield, instantly melted and disappeared.

The corner of Chu Jiangyue's mouth curled up with a cold smile.

This Fang Yue is really poor in skills, and he doesn't have the courage to kill Jiuyouhou and the others before!

"In one effort, rush to open the city gate!"

Chu Jiangyue waved his arms.

The soldiers under his men seemed to be crucian carp who had crossed the river, rushing towards the city gate!

The city gate shook, and then the whole land trembled!

The dust was everywhere, and even the sun's rays were obscured.

The city gate opened.

Soldiers in armor charged out!

The tragic close hand-to-hand combat began, followed by a fierce melee!

All of Chu Jiangyue's soldiers were extremely brave and experienced a hundred battles.

Soon, the soldiers under Chu Jiangyue were like a broken bamboo, and they wanted to behead all the defenders in the southern city of Beijing like cutting melons and vegetables!

Fang Yue personally intercepted, but he was chopped by Chu Jiangyue with two stabs, and finally he was in a different place!

Everything went well almost as if it were written in the script, making Chu Jiangyue feel unreal in her heart.

He just killed thousands of cannon fodder, and successfully seized Jingnan City from his hands.

But when he walked into Jingnan City, he was immediately stunned. There were already people going to the entrance of the Jingnan City, and there was no green grass!

"What about wealth? Where are the treasures? What about Fang Yue's high-tech weapons?"

Chu Jiangyue's heart sank, and he immediately realized something was wrong.

## Chapter 1275: The missing Fang Yue

"The general is not good! The corpses on the ground have corroded into black water and disappeared!"

"Fang Yue's body is gone!"

"All the cores of the defensive array outside the city have been removed, and the rest is the skeleton."

Soldiers brought bad news.

Chu Jiangyue's heart grew deeper and deeper.

Special code, fooled!

I said how easy it is!

It was clearly Fang Yue's plan to get rid of the cicada!

At this moment, all Chu Jiangyue's heart was filled with the urge to scold her.

From the beginning, Fang Yue had no plan to confront them head-on. At the beginning, Fang Yue's idea was to use them to create illusions, from bright to dark!

This is equivalent to Fang Yue giving him a great contribution.

If he doesn't say anything, he is the hero of the Tianfeng Empire.

Kill Fang Yue, the head of the enemy, and kill millions of troops!

A shame for the empire.

These are all great contributions, enough to allow him to give him the title of honor and worship, and to take his position in the Tianfeng Empire to a higher level!

And if Fang Yue was reported to have deceived them into the empty city, it would definitely make the royal family angry.

The credit is definitely gone!

In the end, he might be questioned.

The trade-off between the two is easy to choose!

Chu Jiangyue turned her head and said to the Chuan Lingbing: "Everything that I found just now is not to be spread! Reporting to the royal family, I, Chu Jiangyue, conquered the southern city of Beijing, beheaded Fang Yue, and destroyed millions of enemy troops! Serve the Empire! !"

Chu Jiangyue's voice came out, and all the soldiers under his command were reveling!

Win without a fight, they won a big victory without seeing what the enemy looks like!

This is definitely good news!

In the highest meeting room of the Chinese Imperial Palace, the warlords looked at each other.

This is really \*\*\*\* with us!

In just such a short time, this southern city of Jing was conquered by the army of the Dark Moon plane?

All the monitoring of Huaxia Kingdom can only monitor the situation outside Jingnan City. As for everything inside Jingnan City, Fang Yue has long since blocked it!

What happened in it, Huaxia people can only make up for it!

But Fang Yue was beheaded by the Scarface General Chu Jiangyue on the Dark Moon plane. This was a certainty, and no one would question it.

Jingnan City was conquered, the next step is their turn!

It's just that this scene came too suddenly, so suddenly that it caught a little by surprise, and his face was completely blank.

"Who is closest to Jingnan City?"

In the highest meeting room.

Suddenly there was a faint voice legend.

Everyone's hair is horrified.

But after thinking about it, the question is very deep and reasonable!

This Jingnan City was conquered, and at least tens of millions of troops were still entrenched in the Dark Moon plane, and they would definitely not remain in the Jingnan City.

The next step is to continue to invade China!

Whoever is closest to Jingnan City will be the first to suffer.

Song Qiang's eyes were green.

The closest place to Jingnan City must be Anyang County!

That is his place!

My sloppy Fang Yue! If you can't hold the southern city of Jing, Lao Tzu will immediately become the fish on the cutting board of the Dark Moon plane!

A cold breath slid into Song Qiang's back.

This is too terrible, too desperate!

"Who wants to send troops to support me!"

"who can help me!"

With red eyes, Song Qiang looked for the last straw in the crowd. However, the leader of the warlord who was still extremely hot just now turned his face and refused to recognize anyone.

who are you?

Do I know you?

Why should I help you?

Everyone is a stranger, and there is silence in the entire meeting room.

"No, my Anyang County will not necessarily be attacked by the Dark Moon Plane. After all, Anyang County is only a small county seat. Starting from Jingnan City, there will be several alternative routes! Anyang County is just one of them!"

Song Qiang spoke again, and he kept making strong hints and self-comfort.

"It's not impossible, it's very possible! Look at what these people found?"

A person faintly pointed to the outside of Jingnan City, a ecstatic soldier on the Dark Moon plane seemed to be a second fool, waving a treasure map towards Jingnan City to show his merit.

After this treasure map was enlarged several times, the lines in it were clearly visible.

This is the point near Jingnan City, or to be precise, the treasure map near Jingnan City.

What is the treasure?

Arrows branched out one by one, all the little blessed places on the earth that had just been revived, Xiaodongtian!

There are six thick red lines and six bright arrows.

The strips diverged and pointed to six different locations, one of which happened to be Song Qiang's Anyang County.

"I rough you | Mummy's Fang Yue!"

When Song Qiang saw this picture, as long as there was a little bit of wisdom and a little bit of IQ, he would understand that this was Fang Yue deliberately setting up a situation to frame him.

Don't you refuse to send troops to support me?

OK!

Let's all die together!

Without this map, the army of the Dark Moon plane has only about a one-seven-eighth chance of entering Anyang County.

And with this map road.

Song Qiang could figure out the next rhythm of the Dark Moon plane army even with his ass!

Sure enough, Chu Jianguyue was ecstatic after getting this map!

This is because I can't find the target of the next attack!

I just wanted to find a resource-rich place to attack, this time I have a target!

"Well, the nearest place to this southern city of Beijing is this Anyang County! There is actually a small secret inside, conquer this place first! I will use 30% of the resources to reward everyone!"

Chu Jianguyue's eyes lit up.

It's finally the harvest season!

When conquering South Jingcheng just now, although he didn't encounter any losses, Fang Yue was already empty of the building!

Not to mention the spirit stones and resources, even the bird feathers have not seen a complete one!

Chu Jianguyue's heart was about to move, missing the resources in Fang Yue's hands. If he could break the secret border of Anyang County and take away the resources, it would be considered a good compensation.

"This Chu Jianguyue wants to attack my Anyang County, and I want to notify my subordinates to leave as soon as possible!"

Song Qiang reacted immediately, and he wanted to minimize the loss.

But he was stopped by the gangster as soon as he took the shot!

Want to let his men escape, then where will these dark moon planes go after they kill Anyang County?

Will it be their chassis?

In line with the idea that the dead dao friend will not die the poor dao, the leader of several warlords intercepted Song Qiang. Want to report?

No doors!

Although your four thousand troops are small in number, they have elite backbones. All of them are extraordinary in strength and martial arts. With the advantage of the secret realm, it is estimated that you can hold the army on the dark moon plane for a period of time, and let the dark moon position The army in front of you loses and loses troops, and fight for a chance to breathe for them!

Song Qiang was desperately confined by a group of wolves and ambitions. He could only watch the army of the Dark Moon plane on the big screen. After a little rest and recuperate, he moved towards the position of Anyang County under his control. Go ahead!

Song Qiang felt a little bit of Fang Yue's despair and helplessness at this moment.

However, it was too late, and even if he made another decision, he would definitely give up rescuing Fang Yue according to his previous thinking.

Who would give up his inherent advantages for a stranger?

In fact, it was not as desperate as Song Qiang thought.

Chu Jianguye stayed firmly in the southern city of Beijing, and wanted to manage it as a base on the earth for the Dark Moon plane.

As for Anyang County, it's just a small secret place, how many people can be stationed?

Allocate 100,000 horses, and then send a confidant of Yin and Yang to go.

Enough to defeat Anyang County, and harvest the resources in it.

So, the 100,000 army set out, and because they were all practitioners, one by one, they walked like flying, they seemed to be ignorant of fatigue, and it only took less than two hours to reach Anyang County.

A patrol team around Anyang County immediately discovered the whereabouts of the 100,000 army on the Dark Moon plane!

"Who is here?"

A squad leader of the heaven and earth level in the patrol team shouted angrily at the leading soldiers of the 100,000 army.

He had only seen the first three or five people.

Therefore, relying on the support of the Anyang army in Anyang County, they shouted at the three or five people, showing their power.

But when he saw that there were more and more people behind, and the heads were moving, and he couldn't see the end at a glance, he immediately understood in his heart.

The war is coming!

His subordinates are only five people, and all of them are cultivation bases of the innate realm, so there is definitely no problem with dealing with ordinary people.

But encountered an army of 100,000 Dark Moon planes.

Oh my god, run now!

Before he had time to turn around, he saw that the flow arrows that fell from the sky had pierced his chest and head!

With a bang, the arrow exploded, and the patrol team leader was blown to pieces, and there was no whole body!

The blood on the ground soaks the earth.

The other members of the team screamed with exhaustion: "Enemy attack!"

Before the sound fell, the rainy arrows had drowned them.

All that Chu Jianguye brought this time were elite.

The soldiers of Jiuyouhou are simply incomparable!

All members of the patrol team were shot and exploded.

But the faces of the soldiers on the Dark Moon plane had no emotional fluctuations, as if they were just crushing an ant to death!

Years in the military career have wiped out the last bit of weakness and humanity in their bones.

In their eyes, only winning or losing, the spoils and military merits, can be ignored for everyone else!

"kill!"

The 100,000 army on the Dark Moon plane rushed towards the location of Anyang County like a torrential torrent!

However, as soon as they arrived at the gate of Anyang County, missiles fell in the sky!

The Anyang Army in Anyang County is a military background and has a good command of thermal weapons!

The moment they learned of the enemy attack, they decisively adopted thermal weapons for defense.

Missiles fell one after another, the mountain shook and the ground shook, caught off guard!

The outpost on the Dark Moon plane was killed and a man turned his back!

The mushroom clouds bloomed one after another, and then went out!

There are 18 missiles in total, which also represent the only 18 missiles in Anyang County.

The Dark Moon plane was blown up by a person, and then hundreds of cold corpses were left on the ground.

### **Chapter 1276: Ambush**

These hundreds of corpses were the result of these eighteen missile attacks.

If it is for credit, it is no small.

After all, these hundreds of people are elite warriors at the heaven and earth level.

Normally, if you want to kill their Huaxia, you must pay a considerable price, even several times this number.

However, how many people did the Dark Moon plane send to fight for Anyang County this time?

Full of 100,000!

Hundreds of people died, just like plucking a feather from a sparrow. Although it has an impact, it doesn't hurt or itchy!

The warriors of the Dark Moon plane trampled on the bodies of their companions.

The moment they set off, they are ready to die.

They are not even afraid of their own death, let alone their comrade-in-arms robe?

Every army on the Dark Moon plane has a steel-like will and a spirit of intrepidity!

"Is this the army of the Dark Moon plane? They are not humans, they are demons!"

In the highest conference room, a warlord finally couldn't help but sigh.

These warlords, large and small, separatist side. Although their men are strong and powerful, most of them have not dealt with the official army on the plane of Dark Moon.

There is a fight, that is, a small group of soldiers from the Dark Moon plane have been killed. It is amazing to kill 800 people, that is very good!

Really seeing this kind of army in front of me, the inner shock is unparalleled.

The response of Anyang County is already very fast!

The missiles they use should be considered very powerful!

But is it really in front of the army of the Dark Moon plane?

It's like a worm shaking a tree!

Only a few hundred people were killed, while the others seemed to be unaffected and moved on!

Before, they often saw the battle report stating that Fang Yue had killed the army of the Dark Moon plane of several million, several million.

I really want to cut melons and vegetables.

They were still sneering. Thinking that the army of the Dark Moon plane is too weak, that's why Fang Yue can do such a thing.

But I saw this scene today.

I've been a goddess, it's not like this at all!

The army on the Dark Moon plane is so strong.

How did Fang Yue achieve those achievements!

Anyang County is full of silence and silence.

Eighteen missiles failed to intercept the march of the dark moon plane army.

However, all the people in the city were given the warning, they returned home one after another, waiting for rescue!

Before Anyang County, I don't know how many times it has trained how to deal with the situation!

Nangong Ao, the leader of the 100,000 army on the Dark Moon plane, also revealed a faint coldness in his narrow eyes!

He glanced around, the eagle looked at the wolf, and he saw the source of danger in Anyang County!

It has been hundreds of years since Nangong Ao led troops on the expedition. He has fought in all directions and swept Liuhe. He has outstanding military exploits and rich experience!

He will not make the low-level mistake of underestimating the enemy, even if the lion fights the rabbit, he needs to do his best!

Nangongao's subordinates are also cautious. Although the previous surprise attack did not cause them much danger, it has also affected their understanding of this battle.

Even if it is a county town, it will not be simple, there will definitely be experts in it, otherwise, it will not be so quick to defend and counterattack them!

"I'm so tired!"

In the camp of Anyang Corps in Anyang County.

Fang Yue stretched his waist and rubbed his aching shoulders!

In this short period of time, the core components of those formations were disassembled, which consumed a lot of his energy, and then the army moved silently, and he also used a lot of effort!

Later, he will come to Anyang County non-stop to persuade the steward of Anyang Corps.

The brain cells consumed are countless!

"My lord, what should I do next?"

Wang Fugui, deputy head of the Anyang Corps, looked at Fang Yue tremblingly.

People under the eaves have to bow their heads!

Wang Fugui was beaten with a bruised nose and swollen face, if not because Fang Yue had just lost a treatment technique to him.

I'm afraid I can't even open my mouth now!

This adult is simply too violent!

At the beginning, he was still showing facts and reasoning with him, but later found out that the facts and reason were unreasonable, and then he started directly!

These three plus five divided by two have beaten him into such a virtue!

Until now, there is still a tingling sensation on his cheek!

He ordered the launch of the previous eighteen missiles!

The timing was just right, causing the loss of hundreds of people in the 100,000 army on the Dark Moon plane!

Originally, Wang Fugui was unconvinced with this arrogant and unreasonable adult, but he was also a veteran of marching operations.

Seeing Fang Yue's ability to grasp the timing, he gradually had a trace of admiration!

"Fang Yue, is this your layout?"

Wei Yuan beside Fang Yue didn't understand and support Fang Yue's abandonment of Jingnan City and his move to Anyang County.

Jingnan City, after all, is an ancient city in China. In terms of emotion and reason, Wei Yuan feels that Fang Yue should stick to it, not give up!

Fang Yue glanced at Wei Yuan.

"The most important thing to be a human being is to know how to be willing! Only with abandon can you get it! The strategic significance of this Jingnan City is of course important, but the temporary abandonment is to pay less to reap more results! "

"In my eyes, the life of my subordinates is above all else! Being able to pay the smallest price and reap the greatest success is my belief and criterion in life!"

Fang Yue dismissed Wei Yuan's so-called emotion and meaning.

Everyone has different beliefs.

In Fang Yue's heart, life is the first!

So quiet? Is there no danger?

Nangong Ao discovered that the people in Anyang County didn't even threaten them at all!

The strongest people are the first to enter the heaven and earth realm, and the rest of the innate and acquired realms are the mainstream!

Ok!

I was worrying too much!

Nangong Ao casually broke into a family of residents, and grabbed a middle-aged man and asked, "How can I get to this secret place in Anyang County?"

The man was so caught by Nangong Ao, he was scared to pee when he asked!

Although I am quite big, I am not bold.

If you ask me so fiercely, it will scare me!

Alright alright!

I hired!

"Cross this main road, and then go all the way south, you will encounter a colorful arch, this arch is the passage to the small secret realm!"

The man said tremblingly.

Nangong Ao was a little skeptical.

Is it so easy to ask the whereabouts of this small secret realm?

The simplicity of this task seems a bit weird!

This guy won't be the \*\*\*\* arranged by the enemy to fool us!

"You, lead the way. If what you say is true, not only will we not make things difficult for you! You will also give you a hundred low-grade spirit stones as a reward! If there is half a word of lies in what you say, Humph, then be careful of your head!"

Nangong Ao threatened the man.

The man lowered his head slightly, with an expression of trepidation, "I'm sure the truth! You have to believe me!"

"lead the way!"

"Yes!"

The man walked ahead, and Nangong's proud army of 100,000 followed closely!

Soon, they crossed the main road of Anyang County and came to the door of the secret realm.

The small secret realm was indeed joined by a rainbow arch.

There is also a strong aura from this arch. Just taking a breath outside makes you feel refreshed and ecstatic!

"You really didn't lie! But, isn't there any guards near this small secret?"

Nangong Ao was suspicious again.

This small secret realm, for Huaxia, should be regarded as a rare blessed land!

You don't even have a guardian.

This is too random!

"Report to the lord, there are some people from the Anyang Corps stationed and patrolled around this small secret realm. Maybe they saw the adults coming! This time they all escaped!"

The big man slapped his horse, estimated.

Nangong proudly said: "Well, it should be too! Anyang County is just a small county with limited defensive power. Seeing me waiting to come, it will be mighty and mighty. If they resist, they will definitely be a car! This escape saves their strength, but instead The wisest choice! However, the authenticity of this small secret realm requires a little more consideration! Your team, enter this rainbow arch. Then come out to report the situation."

Nangong Ao randomly assigned a team of a hundred people into the small secret realm.

This arrogant and cautious character of Nangong is undoubtedly evident at this moment!

Without 100% certainty, he would certainly not act rashly.

Then, a team of one hundred people set off.

Filed in, into the rainbow arch!

They entered the small secret realm, and in less than half an hour, they soon walked out one after another, with joyful expressions on their faces.

"My lord, this is indeed a small secret realm. The area of it is about a thousand acres. The aura is abundant and rich. It is about ten times that of the outside world. It is extremely suitable for cultivation. There are also two spiritual stone veins that are only mined separately. Less than 30%, the number of spirit stones contained in it is at least ten million! In addition, there are some minerals that can be used to refine magical artifacts! Your lord, this is a great harvest!"

After the one hundred team reported.

Nangong Aocai is relieved!

"You are waiting outside, and my three thousand guards follow me into this small secret realm to watch one or two!"

After hearing the spy's report, Nangong Ao finally had a heartbeat!

This man has no windfall or wealth, and horses have no night and grass or fat.

Since this opportunity was met by him, then he must make enough money!

Nangong proudly led the army straight in.

Wang Fugui of the Anyang County Base immediately became anxious.

"This Nangong proud has entered the secret realm. If this secret realm falls into his hands, we will be the sinners of Huaxia Kingdom forever!"

Wang Fugui's distressed Fang Yue sighed.

At this moment, his face was full of painful expressions.

On the other hand, Fang Yue raised his eyebrows slightly, and said, "This sinner is me, not us! I am the one who gave the order! When something happens, I will naturally take care of it!"

Wang Fugui glanced at Fang Yue, intending to curse.

Can you afford it?

But he touched his swollen cheek silently.

Forget it!

What he says is what he says!

**Chapter 1277: Multi-layer secret?**

In front of this fierce fellow Fang Yue, he finally chose to compromise.

These days, the fists are big, the form is stronger than the people!

"Nangong Ao has entered, and Nangong Ao has occupied the small secret realm in Anyang County! Song Qiang, how did you educate your subordinates? This secret realm came from the ancestors of my Huaxia Kingdom. Don't you know that they should be guarded? Keep it firmly, even if you sacrifice your life, do you want to keep this secret realm?"

This Jingnan city is lost.

The secrets of Anyang County are also gone!

The point is that these two places did not delay the half-step of the tens of millions of troops on the Dark Moon plane.

Just now Anyang County came very violently, and the first thing to do was to use missiles to kill the hundreds of troops on the Dark Moon plane.

I thought it was a battle.

As a result, the dragons all played, and the tiger slid away by himself!

In the highest conference room, someone yelled at Song Qiang, saying that he was incapable of teaching his subordinates.

But Song Yang just sneered: "This eldest brother doesn't talk about the second elder brother, it's really the army of the Dark Moon plane coming, knowing that it's unmatched, you probably slid faster than me with your own men!"

The man's face was stiff, and he did not expect to be pierced by Song Qiang's words.

He did not refute, because he was afraid of being slapped in the face.

After finishing Anyang County, the army of this Dark Moon plane is afraid of his territory.

When Song Qiang saw his subordinates retreat, he breathed a sigh of relief, leaving the green hills, not afraid that there would be no firewood.

This person is alive, he has hope of a comeback!

Nangong Ao entered the small secret realm, and he could hardly contain the surging heart!

This place is finally his!

The resources in it are his.

Nangong Ao entered the small secret realm, taking a deep breath of the rich and incomparable spiritual energy, looking around, the mineral veins everywhere, large and small, appeared on the surface.

These are all resources, all of which he will rely on for promotion in the future!

As for Chu Jiangyue's side, he will be fooled with 30-50% of the resources at that time!

Who didn't let himself come?

How does he know how many resources there will be in this small secret realm.

Nangong proudly feels proud.

After a moment of complacency, Nangong Ao began to explore this small secret realm.

There is no shadow of half a creature, and there is no danger!

Three thousand guards were scattered in the small secret realm.

They are all dead men under Nangong Ao, one by one, they are loyal and will not play tricks with Nangong Ao!

"Master Report! At the core of this small secret realm, a stone gate was found. This stone gate is tightly closed and is suspected to be a passage to the next small secret realm!"

A guard came back to report that he knelt on one knee, showing respect to Nangong!

Nangong proudly heard the words and immediately refreshed.

what?

There are other secret realms under this small secret realm?

Could this place be a legendary multi-level secret?

This time God is making him rich!

Nangong Ao wanted to pinch her waist and smiled up to the sky.

This multi-layered secret realm has only been seen in the oldest classics on the Dark Moon plane.

The multi-layered secret realm is destined to be a great blessing.

The deeper the secret, the better the treasures and resources.

Generally, the formation of a multi-layer secret environment will never be two layers.

At least it is a three-tier start!

There are many mineral veins in the secret realm of the first level, so what good things will there be in the secret realm of the second level, I really look forward to it!

"Send me a hundred soldiers from the realm of heaven and earth, and let them open the door of this second secret realm!"

Nangong Ao pondered for a moment, and then dispatched troops from the outside world to let them open the door to the second secret realm!

The three thousand guards who followed him in were all his confidantes and team members, and they were cultivated at a high cost and with great energy.

How can they be used for such trivial things as path finding?

What a pity to die!

As for the soldiers outside, they are all his temporary subordinates. Once the expedition is over, he will be deprived of his military power.

Therefore, Nangong Ao will not feel bad about how many they die!

These cannon fodder is simply suitable for exploring the road!

At Fang Yue's base in Anyang County, a finger was slightly outlined in the void.

Immediately, that was a mirror.

The reflection on this mirror shows the situation in the small secret realm!

This hand immediately stunned Wang Fugui.

Does this practitioner still have this kind of operation?

Wang Fugui and the others, obtained the secret realm, relying on the resources in it, to quickly improve themselves, it is equivalent to the poor becoming rich, although they have a strong strength and cultivation realm all at once.

But for practitioners' various methods, the typical mastery is insufficient!

Fang Yue's circular light technique was displayed.

He was shocked immediately!

No electronic equipment could be installed in that secret realm. Without monitoring, Fang Yue could observe the situation inside from the outside world.

The methods Fang Yue displayed made Wang Fugui shocked, and his awe of Fang Yue increased a little.

The elite warriors of the Tianfeng Empire in the 100-world realm walked to the stone gate on the second floor of the secret realm, and two of them pushed open the stone gate hard.

The seemingly heavy stone gate was pushed aside easily!

In Shimen, two monsters with emerald green skin and a lion-like body rushed out of it. They had vertical eyes on their foreheads, and their purple pupils were filled with a sense of strangeness!

The moment the two monsters rushed out of the Shimen, one hundred elite martial artists of the world level closest to Shimen felt their bodies stiff at the same time. Their bodies turned into amethysts, crashed and turned into powder.

Wang Fugui showed a look of horror.

They had never seen those two stone gates before, nor did they know the existence of the second layer of the so-called secret realm.

But fortunately in his heart, fortunately, they did not try to open the stone gate, otherwise, the gate of \*\*\*\* would be opened.

The elite warriors of a hundred heaven and earth level fell at the same time, the stone gate was closed, and the figures of the two monsters gradually disappeared.

However, seeing Nangong proud of this scene, there was no expression of panic or regret on his face. Instead, in his eyes, a touch of excitement suddenly rose.

"This legend is really true. The richer the resources in the second level of the secret realm, the stronger the monsters responsible for guarding. In an instant, one hundred world-level elite warriors were killed in seconds. According to this guardian beast Judging by his strength, there must be a great treasure hidden in this secret realm!"

Nangong Ao thought for a moment, and then once again dispatched five hundred heaven and earth level elite warriors from the outside world.

Two of them are responsible for pushing open the stone gate, and the rest are arranging battle formations to resist the appearance of the two emerald-skinned monsters at any time!

Nangong Proud's command is methodical.

Shimen was pushed open again, and the two monsters arrived as expected!

The purple pupils opened instantly, and thousands of rays burst out from it.

The five-hundred heaven and earth level elite warriors under Nangong Ao formed a battle formation in an orderly manner without panic.

A rune barrier appeared between them and the two guardian beasts.

The purple light crashed down and washed over the rune barrier.

The rune barrier trembled slightly, and then blocked the invasion of the purple light.

Two beams of sword light with a length of ten feet suddenly fell down.

The bodies of the two monsters seemed to be sliced tofu, with their bodies in two halves, and light green blood was flowing from the wounds, rolling endlessly!

There was a dazed look in the eyes of the two monsters!

Their bodies are illusory and disappear again!

However, this is not the end, but just the beginning!

In the Shimen, a team of skeleton soldiers in rusty armor came out from it.

They have different weapons, either spears or war knives, and in the deep eye sockets of every skeleton soldier there is a surging ghost fire constantly beating!

The surface of their bodies was surrounded by a black death breath.

Every single skeleton soldier turned out to be a powerhouse no weaker than the peak of the ordinary world!

The skeleton soldiers surging out of this stone gate seemed to be endless.

Ten heads, twenty heads, one hundred heads, five hundred heads, two thousand heads!

Finally, at the moment when the fifth thousand skeleton soldiers appeared.

Finally no skeleton soldiers appeared in the stone gate.

But behind them stood a giant with a height of nearly ten feet, a muscle like a rock, and a hideous demonic tattoo all over his body.

"Death giant!"

A solemn color finally appeared on Nangongao's face.

The death giant is one of the creatures of this \*\*\*\* special product. This kind of creature is the darling of hell. As long as it is born, it is basically the level of the cycle. Even if the adult death giant has not practiced, it is generally the first The cultivation base is above five floors.

The death giant in front of him has at least grown to the eighth level of the rotation realm. It's a relatively powerful death giant!

"Those who disturb the dark Pharaoh's sleep will surely fall into darkness forever!"

The death giant delayed the gloomy voice and pronounced a sentence on Nangongao!

Five thousand skeleton soldiers swarmed toward the five hundred soldiers on the Dark Moon plane.

The white-and-white skeleton soldiers are delaying their gloomy, heavy steps!

The rusty spears are no longer sharp, and the blunt swords are no longer as they used to be.

However, these skeleton soldiers showed a sense of persistence.

They seem to be veterans of all battles, even though their energy and blood are withered and their strength is exhausted, they are still persistent and cling to their last pride.

"My King is immortal!"

"My King is immortal!"

I don't know which skeleton soldier shouted this slogan in a hoarse voice, and the other skeleton soldiers also echoed it, raising the weapon in their hands to echo it.

"Light trial, kill me!"

The five hundred dark moon planes of heaven and earth soldiers condensed the battle formation, and transformed into a sacred sword of light several meters long to pierce the void, cut the world, and slashed at the skeleton soldiers who looked old, weak and sick.

The steps of the Five Thousand Skeleton Soldiers were still firm, and the sword light that slipped from the air had not touched their bodies before the ice melted in the void.

The sword light dissipated.

The breath of death spread, the dark black breath of death, like a hazy smoke, swallowed five hundred soldiers in a blink of an eye.

The elite warriors of the Five Hundred Tianfeng Empire disappeared silently like this. They were like stones thrown into the lake, and they couldn't stir a single wave.

When Wang Fugui saw this scene, he showed a shocked expression first, and then he looked at Fang Yue thoughtfully, could this be Fang Yue's strategy?

Borrow the knife to kill, use the secret realm to consume the vital power of the Dark Moon plane. The army of the Dark Moon plane is well-trained and knows how to fight. If they are allowed to fight, they can be used as carts with praying arms and attacking rocks with pebbles.

However, using the secret realm, he easily killed the elite warriors of the six hundred heavens and earth realms on the Dark Moon plane.

Wang Fugui gradually had a trace of trust with Yue.

### **Chapter 1278: Step by step**

However, neither the trust of Wang Fugui nor the achievements of killing these elite warriors on the Dark Moon plane were enough to cause any waves in Fang Yue's heart.

What Fang Yue really paid attention to was what was behind this stone gate. Fang Yue originally thought that this was an ordinary multi-layer secret realm, and the second layer might contain a lot of resource spirit stones and so on.

But now it doesn't seem to be the case. On the top of this stone gate, Fang Yue saw a trace of man-made.

Could it be that someone in this Shimen deliberately stayed here to guard the second-tier secret realm? Who made this stone gate, and what was the purpose of casting it?

The guard, or do you want to tell future generations some key news?

Fang Yue's heart gradually tightened, and he had some guesses of his own, and these guesses still need people to verify.

The soldiers under Nangongao are the best verifiers.

The skeleton army continued to advance, and they did not stop their pace because they killed five hundred invaders. Nangong Ao and his three thousand guards became the first target of this skeleton army.

Nangong's proud face turned up with a sneer smile. Do these skeletons really think that after killing a few elite warriors at the world level, they can do whatever they want?

The world is nothing but cannon fodder in Nangongao's eyes. These skeletons really don't know what's good or bad, but that's fine, if they want to die, then they will be fulfilled.

"Qin Feng, kill these guys for me without leaving!"

Nangong arrogantly gave an order, and a guard from the eighth layer of the Rotating Realm stepped out. His face was stern, and he randomly drew out his saber from his waist and slashed towards the skeleton army.

The light of the knife turned into a silver curtain, and the black death haze was cut from the middle.

The mist cleared, and dozens of skeleton soldiers scattered and became bones. There was a touch of pride on Qin Feng's face. These skeleton soldiers wanted to deal with him, but they were just smashing the tree.

But his smile quickly solidified, and a ray of blood spilled from his face. Qin Feng felt that his life breath was quickly dissipating, and his whole person became extremely weak, falling into an underestimation.

"Backlash hurt!"

Qin Feng roared loudly. Then he fell to the sky, vomiting blood and died.

"Backlash hurt?"

Fang Yue's eyes condensed, he never expected that the undead army coming out of this stone gate would have such a method.

At the same time, Fang Yue also secretly squeezed a cold sweat.

Fortunately, he has a cautious personality, and the people who tempted the Dark Moon plane entered it first.

Otherwise, the one who vomited blood this time was his crew.

A strong man on the eighth level of the Rotating Realm fell, giving Nangong Ao's face finally a moving expression.

This is his subordinate, his confidant.

He actually fell alive in front of him, it would be impossible to say that he would not be moved!

How much resources does it take to cultivate a dead person on the eighth level of the rotation realm?

How much effort and energy does he need to spend?

His death is unknown and must be thoroughly investigated.

But what did the guard say before he died?

Backlash damage? This word seems to be an impression, but the memory is not clear!

"Who can tell me what is going on with this backlash injury?"

Nangong's arrogant nature did not send anyone to try again.

A guard walked up and said, "Report to your lord that backlash damage is an extremely rare gift of undead creatures. This kind of gifted magical ability can damage the enemy by one thousand and eight

hundred! No matter who attacks When it comes to him, the attacker will be implicated in causality, and will be rebounded by a certain percentage of attacks!"

With this reminder, Nangong Ao finally recovered.

"It seems that there is such a thing, can this backlash damage be cracked?"

Nangong Ao looked at the guard, who was silent for a long while.

"Almost incomprehensible, it can only be filled with human lives, but there is no other way!"

This statement is extremely cruel, and it takes human lives to fill it. How many lives does it take to fight these five thousand skeleton soldiers?

However, the more you pay, the greater the gain.

Even the skeleton soldiers with rare backlash damage are on the stage. What kind of treasure is hidden behind the stone gate, it is worth sending such an army of undead to guard!

"From the outside, dispatch five thousand elite martial artists at the level of heaven and earth, let them kill these skeleton soldiers! No, five thousand is not enough, come eight thousand! I don't believe it, I can't take this small secret realm!"

The current Nangong Ao is already like a gambler with a violent wind. In his eyes, there are only huge benefits and no other distractions!

If five thousand elite fighters are not enough, then eight thousand will come!

He didn't believe it, he used the number of people to pile up, and he could not pile up these skeleton soldiers!

Desperately thrown out.

Nangong Ao has already begun to attack this stone gate at any cost!

"Report to the general that there is a marshal's messenger outside for inquiries. Is the Anyang county party going well this time?"

Before the eight thousand elite warriors came in, a messenger had already arrived!

Nangong frowned slightly.

At this time, Chu Jiangyue came to ask about this kind of thing, what did it mean?

Does he not trust me?

Are you worried that I will be wiped out by these humble natives on Earth or do you think he thinks I will embezzle the wealth in this secret environment?

Nangong Ao's heart was obviously a little unhappy, but out of fear of Chu Jiangyue, he suppressed the anger in his heart and said to the Chuan Lingbing.

"Tell the marshal, everything is fine! If nothing happens, you can plunder the wealth in this small secret realm in one day. Oh, yes, dig two of these nearby mineral veins, and combine the high-grade spirit

stones with All the best spirit stones were brought back to the marshal, saying that it was a little gift I gave him!"

The messenger left the secret realm immediately and responded to the messenger's inquiry!

Nangong proud of the eight thousand heaven and earth realm level elite warriors soon arrived, they entered the secret realm, combined battle formations and skeleton soldiers to fight fiercely.

These skeleton soldiers move slowly, but they are very powerful.

They cooperate tacitly, and there is no obvious key point. On the battlefield, they are definitely the best cannon fodder.

The 8,000-level elite martial artists under Nangong Ao's command are also unwilling to show weakness. They are well-trained, constantly changing battle formations, and slashing with knives, so relentless.

The pace of the battle is very fast, and it is a suicide attack when it comes up!

Just less than a cup of tea, both conveniences were all casualties.

When the last skeleton soldier fell, the number of elite warriors of the 8,000 Heavenly Wind Empire at the original peak was less than five hundred.

This is a tragic victory!

However, as long as they can win, Nangong Ao will not care if it is miserable!

There is the last level.

Nangong Ao looked at the death giant who was still guarding the gate of Shimen, unmoving.

Under my eyes, a touch of indifference flows by involuntarily!

"Get out of the way, I will spare your life!"

Nangong Ao looked at the death giant and threatened.

It's not Nangong's arrogance and kindness, but the guardian of this stone gate is really strange.

Their cultivation is not strong, but many methods are beyond defense!

The figure of the death giant did not move.

He just lifted his palm slowly.

Wow!

The skeletons on the ground and the corpses of the soldiers on the Dark Moon plane were completely shattered with a bang.

Then those substances recombined in the air and became a hundred elite skeleton soldiers!

Each of these skeleton soldiers had three or five levels of rotation, and in the deep eye sockets, the surging ghost fire turned into a blue wink.

There are silver armors on their bodies, shiny!

The sword in his hand has become a standard, shining with a faint cold light!

"Is there such an operation? The death giant has such a skill?"

Fang Yue looked at the barracks base in Anyang County with bright eyes.

He also has this method of summoning death giants!

The methods of summoning various creatures in Hell and Underworld in "The Book of Death", as long as the cultivation base is sufficient and there is no shortage of sacrifices, even the masters of \*\*\*\* and underworld can be easily summoned!

The battle in front of him made Fang Yue feel an eye-opener, and his use of the power of death became more refined and skillful.

The key to death-calling creatures is not the individual's strength, but the collocation between them.

Like the combination of a skeleton soldier and a death giant, it can play a powerful role.

The backlash on those skeleton soldiers just now originated from the spellcasting of the death giant.

After killing five thousand ordinary skeleton soldiers, a hundred more powerful elite skeleton soldiers appeared!

Nangong Ao almost went black and fainted.

Thousands of elite warriors in the world entered the life.

This is the result for him?

At the same moment.

Chu Jiangyue, who was sitting in the southern city of Beijing, had already received a report from Nangong Ao.

He weighed the two superb spiritual stones the size of an adult's fist that had just been dug out of the soil, and he had his own thoughts in his mind.

"Give me a piece of information to the Imperial City! If the Imperial City agrees to cede a 100-kilometer radius around the southern city of Beijing to me, and agree to pay 500 million spiritual stones for military expenses, I can consider it within half a year. Move on to other places!"

Chu Jiangyue narrowed her eyes, and directly asked her own terms.

Anyway, when the Tianfeng Empire sent him, he said that as long as Fang Yue was killed, it did not have any requirements for conquering China.

Chu Jiangyue is also working hard to find a balance to maximize her gains and minimize risks!

This earth is definitely not as simple as they thought before!

At least one of the sleeping master-level old monsters is more than one or two.

The purple flame of Aragorn is even the amethyst flame obtained in an adventure. This flame is claimed to be able to burn the heavens. Although this description is a bit exaggerated, the ordinary magical objects of the rotation level cannot resist this at all. erosion.

But what is the origin of that pale palm? A simple palm can even withstand the burning of flames than a magic weapon at the rotation level.

Aragorn followed him around to experience, did not die under the hands of those big clans Tianjiao but was finally buried in this desolate land. This has to be said, it is a kind of irony.

The place they look down the most has become their burial place!

Guka's face was blue, and the flame of desire in his heart gradually extinguished.

If you want to take away this ancient ape-man, first of all you have to live alive. His cultivation is actually not much stronger than Aragorn. Aragorn eventually died in this gray air of death. If the other party insisted, he too It is bound to be inevitable.

"I am the ancient card of the golden great ape clan, if you dare to kill me, my golden great ape clan will level down this desolate land in the future!"

Guka snarled at Fang Yue, his voice was a little dull.

### **Chapter 1280: Lin Hong**

The messenger of this negotiation came to the Imperial City in less than half a day and conveyed Chu Jiangyue's meaning to the high-level Chinese military.

In that highest meeting room, the warlords from all over the country have not dispersed yet.

They are observing every move in Anyang County via satellite!

At this time, the arrival of the Dark Moon plane messenger made them a little caught off guard!

The messenger's attitude was arrogant and conveyed Chu Jiangyue's intentions to China's military leaders.

The leaders or representatives of the warlords looked at each other.

"Lin Shuai, you are the highest-ranking commander here! You should take this critical decision!"

A warlord leader was quite cunning and threw the pot directly on Lin Shuai.

This kind of decision-making is often at stake for national affairs.

If it is not signed, there will be wars and more people may die.

If it is signed, whoever makes the decision is the sinner of history.

This status is basically the same as Cixi and Li Hongzhang!

"Are you Lin Hong? You were the one who didn't send troops to support Fang Yue! Now, you are the one who shifted the responsibility to me! Lin Hong, I heard that you secretly organized a group People, known as the Southwestern League, have a total of millions of troops under your command. Or, I will give you the position of the supreme commander of mine! Let you handle this matter?"

Looking at Lin Hong's old face full of wrinkles.

Lin Shuai disgusted from the bottom of his heart.

At this moment, Lin Shuai couldn't help but miss Fang Yue before.

Although this Fang Yue is blatant, greedy for money, and unruly, he still has responsibility and responsibility!

During the last negotiation, Fang Yue turned the whole situation around by himself, allowing China to break the siege, and even killed the tens of millions of troops on the Dark Moon plane.

Now, Fang Yue has fallen.

This huge Hua Xia didn't even have anyone who dared to stand up and challenge the Dark Moon plane.

"Don't dare, don't dare! These are all rumors!"

Although Lin Hong was defending, Marshal Lin could not see the slightest panic or fear on his face.

This Lin Hong is already supporting his own soldiers, he does not believe that Marshal Lin will tear his face with him at this critical moment!

This foreign trouble is already astonishing. If there is another civil war, China will be completely overwhelmed, and there will be no more vitality!

"You tell me, isn't there any room for relaxation this time? This reparation of land compensation will only make me even more cowardly and incompetent! The wolf ambition of the Tianfeng Empire is definitely not that! With a good foundation, it will extend its magic claws to other places!"

Marshal Lin sees human nature transparently, and if there is a struggle, there is still a glimmer of life.

If there is no dispute, then China has really fallen.

However, all of the warlords present were silent.

This Dark Moon plane invaded, and the entire China was reduced to the flames of war, and the heroes emerged.

Separately, each of them is the little king Xiaohouye in their own territory.

On weekdays, domineering, fragrant and spicy.

But what exactly are they relying on? It's not that you have the right to have soldiers in your hands, so you can be so unscrupulous.

In case the soldiers in this hand are gone, then everything they have now has become a passing moment.

Therefore, all the warlords remained silent, waiting for Marshal Lin's decision.

Marshal Lin sighed lightly. These warlords had long forgotten their origin and nature, and now they have all become Chinese moths!

"Cow land and pay compensation! Am I Huaxia going to take the old road a hundred years ago? South Jingcheng is already in the hands of the Dark Moon plane, and what they lack now is just a status! But 500 million spirit stones is not a small number! These spirit stones cannot be borne by our military alone!"

Marshal Lin's gaze swept across the faces that were sitting upright.

There is no contribution, and this contribution is even more impossible.

They finally collected some spirit stones and regarded them as their lifeblood.

Those are the basis for their future cultivation!

There are also recruiting men and recruiting troops, which one does not need spirit stones?

These years, there is a turmoil, and the currencies of various countries are not working well. Only Lingshi is the real hard currency!

However, being so stiff with Marshal Lin is not a solution!

After a long silence, someone finally said: "This Fang Yue had donated some spirit stones to Beihe Academy before. Why don't you get some from them? Now that the national disaster is at stake, these students should feel some pressure!"

Marshal Lin's eyes looked at him faintly.

At this moment, Marshal Lin was already heartbroken!

Counting on them to find a way for him is nothing short of faint!

"The spirit stones of the academy can't move! Those who represent China's future hope for China!"

Marshal Lin took out the courage that belonged to the supreme commander this time, and directly refused this unreasonable request.

The man was silent and stopped talking.

Anyway, we have given you the suggestion. Do you accept that it is all your problem and want to pay from our pocket?

no way!

Li Qingyun stood up at this time.

"I am willing to donate five million spiritual stones to relieve my urgent need!"

Although Li Qingyun was frightened by the national disaster, he could only come forward!

His voice just fell.

Lin Hong jumped out again.

"Li Qingyun, Li Qingyun, he had a good relationship with Fang Yue back then! He must know where Fang Yue's wealth was hidden after Fang Yue died! Fang Yue was a wealthy country when he was alive, as long as he finds the treasure left by him, not only this The 500 million military expenditure has been settled, and even the money and food we will cultivate in the future has a source!"

Lin Hong's eyes lit up suddenly.

This Li Qingyun is a fat sheep!

Since he followed Fang Yue, his cultivation base has risen awkwardly.

If he said that he didn't have anything good in his hand, the ghost would not believe it.

Killing him, Li Qingyun's wealth is divided equally.

This is definitely Qingyun falling, the world is full!

"you dare!"

Marshal Lin was furious, and his anger rushed into the crown. This Li Qingyun was his person at the beginning, although he later followed Fang Yue, but Li Qingyun's loyalty can be learned!

Lin Hong hit Li Qingyun with his idea.

This Lin Hong is really bold enough!

Lin Hong turned his head and looked at Marshal Lin.

He faintly said, "Does Marshal Lin want to swallow the treasure left by Fang Yue during his lifetime?"

Not only Lin Hong, but dozens of warlords present were echoing this statement.

This is forcing the palace!

Marshal Lin did not leave a trace.

"Marshal Lin is wise, this Fang Yue is dead, let him make one last contribution to China!"

"Marshal Lin, please consider from the perspective of the people of the world!"

Marshal Lin was shaking all over.

He didn't expect people to be so shameless!

Li Qingyun's face became paler.

What was wrong with his loyalty to China, why he became the target of everyone's attack!

"The villain is in charge, you are a traitor! Humph, you really have the ability to go to the front to kill the enemy! What's the deal with yourself here?"

The entrance of the highest meeting room.

A beautiful shadow appeared silently.

Her cold snort made Lin Hong and others immediately feel like falling into an ice cellar!

Wei Yuan!

When she appeared, Marshal Lin's heart suddenly sparked a glimmer of hope.

Wei Yuan had always been in the southern city of Beijing, but Wei Yuan was safe and sound.

Does that mean that Fang Yue had another plan and was not killed by a surprise attack on the Dark Moon plane?

"What do you know for female classmates, marching and fighting is a man's business!"

Lin Hong quickly recovered his arrogant attitude. With millions of troops behind him, how could he be intimidated by a small Wei Yuan?

Wei Yuan glanced at Lin Hong.

"Although I am a female stream, I dare to be born and die to fight against the army of the Dark Moon plane, and you people, each of you holding great power, are treated as a tortoise with your head, even the courage to fight the Dark Moon plane. No! I am really ashamed of you!"

Wei Yuan's words pierced the heart.

If it is a passionate young man, he might be blushing when he hears this, wishing to find a place to get in!

However, all of these people present were treacherous and cunning, with a skin thicker than the city wall.

They will not be stimulated by a few words and give up their inherent interests!

"You said that you were born to death and killed the army of the Dark Moon plane? What about this evidence? Jingnan City broke, but you lived alone. Is this saying that you fled without a fight and gave up Jingnan City, so you have lived until now? "

Lin Hong sneered.

"Look at what these are!"

Wei Yuan snorted coldly, and when she raised her hand, she dropped the corpses of three powerful men in the Yin-Yang realm.

Judging from the costumes and faces, these corpses are impressively strong on the Dark Moon plane.

These corpses are her best medals!

Upon seeing this, Lin Hong and others were speechless.

"You killed these people?"

Lin Hong's complexion was a bit ugly. He was still laughing at Wei Yuan just now as a female stream, and was not qualified to participate in the battlefield. Unexpectedly, he would be slapped in the face in an instant!

"Yes! I came this time, and I didn't want you to be able to unite and fend off strong enemies together. We only need one qualification, and that is the qualification for Fang Yunshan to be the messenger of this negotiation!"

Wei Yuan spoke again.

Lin Hong and others all showed stunned expressions.

This negotiator is a hot potato, even if they want to send it back, they can't send it out.

Someone is rushing to do it?

They just can't ask for it!

However, even so, Wei Yuan had to pay some price to get this opportunity.

It is his nature that the goose has plucked its hair.

"This is the position of the negotiator and its importance. Can anyone of unknown origin be able to go?"

Lin Hong once again recovered his righteous expression.

He began to make things difficult for Wei Yuan.

Upon hearing this, Wei Yuan slowly condensed Lin Hong.

"Since this position is so important, OK, Fang Yunshan gives up and you go!"

When Wei Yuan said this, Lin Hong was immediately at a loss. He thought that Wei Yuan's position as a negotiator was bound to win this time. Who would have thought that she would give up so easily!

"you!"

Lin Hong is speechless.
