

## God of Life 1291

### Chapter 1291: Shi Yu's calculation

This poetry rain is definitely not a pure social flower, she should be a wise man cultivated by a poet.

The larger the family, the more detailed the training direction of the disciples in the family. It is far from enough to have a genius for cultivation. Sometimes the development of a family depends on not only the strength of the force value, but also the ministers of internal affairs. Supplying resources requires foresight and wise men to develop strategies for the family.

In the eyes of many people, it must be the strength of the family's top combat power that affects the decline of the family, but in fact every family is an extremely cumbersome and meticulous behemoth, and the value of force is just the tip of the iceberg.

Although Fang Yue had never been in direct contact with this Shi Yu, Shi Yu's reputation had long been spread in the nearby planes.

These rumors have a very high evaluation of Shiyu, whether in terms of learning and attracting people, they are all in the top category among their peers!

"Unexpectedly, a banquet I hosted would actually become an investment promotion meeting for Lord Lonely Moon. It seems that my banquet is already capable of bringing you back to the full!"

The smile on Shi Yu's face was like a spring breeze. Although she was laughing, Fang Yue secretly remembered one of her favors.

"Good means!"

Fang Yue sighed inwardly.

If you change to someone else, if you encounter this situation, you will either be furious, thinking that Fang Yue is arguing for the host, what are you going to sell for the banquet I held! Or it's just as if it didn't happen and keep silent.

However, Shi Yu took the matter over in a joking manner, saying that he would no longer be held accountable, and at the same time let Fang Yue owe her a small favor.

This fully demonstrates Shiyu's skill and talent in communication.

Other people of the same age are more inferior in this respect.

"Thank you Fairy Shiyu for this opportunity! If there is a chance, Guyue will definitely repay Fairy Shiyu!"

Fang Yue casually raised a wine glass to toast Shi Yu.

There was no embarrassment on his face, it was his sincerity to pick up the glass and drink it all.

Fang Yue coped with ease, filling Shi Yu's heart with appreciation.

In her words, facing the plight of the earth today, she may not be able to think more long-term than Fang Yue, being able to see through the force crisis on the earth's surface, the deeper crisis is the lack of spiritual stones.

It's a pity that although this lonely moon is talented and detached, the background is too weak. Today's earth is like a candle in the wind in their eyes. A slight violent cold wind can make the earth. Hope is completely shattered, and then reduced to a situation where it will never be restored!

"Prince Gu Yue, you are polite! This time, I invite everyone to come. First, I want all the young talents to get together and get to know each other. If there is a need in the future, everyone can support and keep each other. People with family backgrounds have boundless scenery on the outside, shouting from the front and back, but the real crisis often comes from within the family. What makes you successful is also the source of your destruction!"

Shi Yu is straightforward, quite unceremonious.

She pointed out what worries you the most.

That is the resource competition from within the family.

"This family conflict can actually be solved by external forces. For example, the projects that Mr. Lonely discussed just now are good. Those businesses are not big, but somehow they have something from outside the family. If there is no restriction on resources, everyone will not be so concerned about and afraid of competition within the family!"

Shi Yu spoke again, but was standing on the side of Gu Yue.

She said this, so that those dudes who were originally just playing tickets have a clearer understanding of the contracts just now!

"What Fairy Shiyu said is that most of my dependence on the family comes from resources. If we have more harvesting channels in terms of resources, we can pay off the debts we have owed to the family for many years. There is no need to pay so much attention to the attitude of the family!"

Fairy Shiyu's argument immediately received the support of those dudes. Their main purpose of coming this time was to meet the legendary Fairy Shiyu, and to get some breaking advice and wisdom from her.

Fang Yue stood beside him with a smile.

This fairy poetry rain seems to have other ideas besides the purpose of this rune.

"I'm here to initiate an initiative. There are 32 Tianjiao among the people present, representing 32 forces. It's better to sign an agreement to establish an offensive and defensive alliance, of course, because everyone It's not a special understanding! The relationship between this offensive and defensive alliance can be temporarily limited to the sharing of resources and mutual assistance."

The struggle of this family force is, at a deeper level, a competition in terms of resources and connections.

If you can sign this covenant, you can leave yourself an extra retreat and take a breather when the family struggle falls into the wind in the future. Room for interest! "

Shi Yu's statement made Tianjiao present quite moved. Her analysis was well-organized, and everything was in the right place.

What they need most in their hearts is this kind of help in times of despair.

When people go uphill, they are often very smooth, but when they go downhill, those who once saddled you with the icing on the cake will become the culprit.

Deep down, everyone understands this truth, but no one can avoid this situation from happening. Now Shiyu has provided them with a solution, making them unwilling to desire.

"This agreement of the offensive and defensive alliance, for the time being, I only drafted three articles. The first one is that the people present, including me, each provide five million spirit stones or equivalent resources and put them in the resource pool. If anyone has, if necessary, after my review, some of the resources can be used to solve the immediate crisis. When the crisis is resolved, the resources must be returned within three days, otherwise, they will be met by other covenants. People's common crusade!"

Shi Yu struck the iron while it was hot, and didn't give these people time to think deeply.

She announced the draft covenant she had planned.

As soon as Shi Yu's draft came out, it was immediately upheld and approved by everyone.

Everyone only needs to pay five million spiritual stones, but in the end they get the help of 160 million resources.

Moreover, Shi Yu's reputation is outside, she upholds fairness and justice, and will never ruin her reputation because of this small amount of money.

"agree!"

"agree!"

"Seconded!"

People all agreed.

The first draft was passed as quickly as possible.

"The second draft is to establish a more extensive trade relationship. The trade agreement signed by the son of the moon with everyone before is a preliminary model. Different planes, different regions, and their respective specialties are also different. Some raw materials, which are extremely cheap in some places, may be precious treasures if they go to other places! The thirty-two people present come from thirty-two different planes. If everyone can establish a wide range of trade cooperation. If you have a relationship and exchange what you have, you may be able to make huge profits in trade and finally get rid of dependence on the family!"

Shi Yu's voice is sweet.

But Fang Yue was a little stunned. He looked at this delicate face, but he felt that she was not like a delicate princess, but more like a strong woman in a shopping mall.

She held herself up before.

It turned out that there was another purpose. The layout and pattern of the little princess were bigger than he had imagined.

Thirty-two different planes communicate with each other, constructing a huge business system framework.

This Shiyu is definitely a foresight person, as a think tank, she deserves it!

"no problem!"

"agree!"

"agree!"

Fang Yue's transaction opened an opening for them, and then let them accept Shiyu's proposal on the business system, and they did not have any refutation!

Article 2 Agreement reached.

A bright smile appeared on Shi Yu's face.

"As for the third agreement, it is hoped that when one party is besieged by others, others can provide some help as much as they can! Of course, because you don't know each other deeply and friendship is not enough, I don't want everyone to be able to fight each other hard. Everyone can grasp this scale as far as they can! I am just a matchmaker!"

Shi Yu stated the third agreement.

This agreement can be said to be irrelevant, without any binding capacity.

But in Fang Yue's view, the significance of this agreement is greater than the above two agreements.

Because this is to lay a solid foundation for this loose alliance that can be expanded in the future!

"no problem!"

"no problem!"

Soon the third agreement was approved by everyone.

When all three agreements were passed, Shiyu quickly came up with thirty-two contracts for everyone to sign.

This contract has certain rules and binding force, and if it is violated, it will be subject to quite strong backlash.

The contract was signed, and each person took out five million spirit stones into the fund pool.

Shi Yu looked at the thick contract, her face couldn't help showing a happy expression.

"The following is the second content. This time the stele is said to be about the treasure of the Void Race. This rumor has not been confirmed so far, but it cannot be ignored. Even if the stele has no

relationship with the Void Race, it is just The treasures obtained from the insight of the stone tablet are worthy of everyone's heart. Now, I have some insights and experiences about the insight of the stone tablet, and I will share it with you here!"

Shi Yu Zhu's lips opened slightly.

Everyone here is a little dazed.

Is this poem rain so generous?

Nowadays, no one knows the value of the runes on this stone tablet. If they can gain something, who is not hiding and waiting for accumulation.

This poem rain shared generously, which really surprised them!

But it's cheap and non-sticky.

All of them are listening carefully with their ears.

"There are a total of twelve stone steles, each of which depicts a rule. The essence of the stele is to enter the Tao with runes. Each rune is constructed by the power of a part of the rules. Through the steles, there are a total of There are two levels of value. The first level is just a superficial understanding of some furs and runes. The combination of several runes can open the rewards of some stone tablets. The more the number of runes combined, the reward The higher the value! The second level is to thoroughly penetrate the runes. This is the comprehension of the rules. I don't need to say that everyone knows the value of the rules!"

Shi Yu paused for a while.

The others nodded.

In fact, the true value of this stone tablet lies in the comprehension of the rewards and rules.

The so-called treasures of the Void Race are actually second, and they may not be able to take away the treasures of the Void Race if they are really excavated.

More importantly, in fact, most people are dubious about the rumors of this Void Race treasure.

### **Chapter 1292: Official formula**

The Void Race, that was how many years ago.

Whether they have any treasures or not are two things to say, let alone whether they are their treasures under the stele.

"The second stone monument is the Avenue of Flames. The first five runes in it, I have already penetrated the runes!"

Raising his hand, there were five more talismans in Shi Yu's hand.

The rune engraved above is exactly the rune on the flame stone tablet.

Shi Yu's move made everyone more serious.

This Shi Yu seems to want to play for real!

"I can share the runes of these five flame stones with you. I can roughly describe the rules involved. Although words cannot express the true meaning of the rules, the runes on the stone tablets can greatly reduce your comprehension. The difficulty of the law."

As soon as Shi Yu said this, those Tianjiao all glowed in their eyes. Compared with comprehend the rules, what is the resource?

The more rules they comprehend, the stronger their strength will be, and the more powerful they will be among practitioners in the same realm.

Their status in the family will also increase, and the resource allocation will also be inevitable.

"I have rubbed the relevant information of these five runes in this jade slip, so you may wish to have a look at it."

Shi Yu's performance is quite generous.

This information should be top-secret, or important transaction capital, but now, she actually took it out generously. This kind of courage is unmatched!

Fang Yue also received a copy of jade slips, and he looked at it with his spiritual thoughts, and he was shocked.

This poem Hu is really knowledgeable and talented, and part of the rune structure is described in the language of practitioners.

The rune structure of the other department is described in mathematical language.

The formulas are extremely profound, but the smooth lines themselves have a feeling close to Tao.

It is the foundation of the development of high-tech civilization, and it is also an extremely important thinking tool.

The more Fang Yue looked at it, the more he felt the talent of this poetry rain, and it was so amazing.

Uncontrollably, Fang Yue actually danced.

As soon as the descriptions of different runes came out, Fang Yue's mind flooded with wisdom. These descriptions, like a golden key, opened the door of his own wisdom!

"That's how it is, that's how it is! Haha, this mathematics is actually a kind of language, and every letter formula represents a trend and change!"

Fang Yue laughed loudly, and he tapped off casually.

The rune on the fourth light stele was penetrated by him instantly, and the pen and ink fell off.

A rune slowly rose into the air.

The night is like day.

This mansion is brightly illuminated by the lights!

This Talisman culture has become an endless rain, spreading everywhere.

The bright rain and dew fell down, but everyone who was bathed felt a clear heart, and all the anxiety and sorrow before them were gone.

In the end all disappeared under the nourishment of this bright rain and dew!

"This fourth rune of light is the essence of the heart demon. The heart demon is the distracting thoughts. Too much distracting thoughts will stain one's heart with dust! The accumulation of dust will not even give birth to innate wisdom!"

Fang Yue talked freely and expressed his understanding of the fourth light rune.

"Is this lonely moon comprehending again? Bright runes, comprehending the true meaning of the rules, this is already the fourth!"

The several Tianjiao were stunned. They are all watching the jade slip, the content in the jade slip is the same. Although they are also inspired, they are not like Fang Yue, who casually understand the true meaning of a rule!

"This lonely moon is definitely a true genius. His potential and talent are rare for hundreds of years. If the earth is defeated and declined, this lonely moon must be saved. If it is cultivated well, it is likely to become a benefit to the family. sword!"

Many people have this idea in their hearts.

Their eyes burned, looking at Fang Yue.

Shi Yu's talent is only stronger than Fang Yue.

But behind Shi Yu is the poet who is more powerful than the forces behind them, and Shi Yu is a high fairy, goddess, they dare not even think of blasphemy!

And Fang Yue is just an aboriginal mortal, and the identity gap between the two determines that people have completely different attitudes towards them!

"Since Shiyu Fairy has already shared the understanding of this rune, then I am not kind enough to cherish myself. This rune actually has emotions, as if every rule has emotions! Like some people with bright minds, is more suitable for comprehension of those who are inclined to light, and those who are compassionate, are more suitable for comprehension of treatment methods! Just like the fourth light rune I have just learned, it is more suitable for those who are compassionate. People who are bright and righteous in their hearts understand it! Find the rune that corresponds to your emotions, and then resonate, it is easier to understand the true meaning of the rune!"

Fang Yue opened his mouth, telling some of his skills in comprehending runes.

Those Tianjiao listened with their ears erected. These are all their future practice experiences!

"In addition, it is also possible to use the stones of other mountains to attack jade. In fact, these ten directions of heaven, three thousand avenues, and one hundred thousand trails constitute the rule

system of the entire universe! This kind of rule is not only practice The civilization of science and technology can be understood, and the civilization of science and technology can be understood! For example, the electromagnetic principle of science and technology civilization is a combination of Thunder Avenue and Yuan Magnetic Trail! Different circuits form different magnetic field energies, which is also another aspect of the formation method. An application! Different civilizations look at the world from different angles, regardless of high or low!

If you really can't understand it from the perspective of a practitioner's civilization, you can start from the perspective of technological civilization! "

Fang Yue's voice has a hoarse magnetism.

Shi Yu was fascinated!

Just as Fang Yue can learn the most from Shi Yu's jade slips, so the knowledgeable Shi Yu benefited most from Fang Yue's speech.

Others heard a little cloud and mist, but in the sense that what Fang Yue said was correct.

"I also described the rules of the four light runes that I have understood in the jade slips. You can watch them. Although it may not be able to make everyone understand the true meaning of the corresponding light rules, it can be a good idea for everyone. The perception of runes and light is deeper!"

On the spot, Fang Yue created a jade slip, branding his own understanding.

Everyone present has a jade slip.

All of them treat it like a treasure and cherish it well!

"Thank you Young Master Gu Yue!"

"If you have any difficulties in the future, Lord Lonely, don't hesitate to say, I will do my best to help!"

The people present are all dandy disciples, but they are also Tianjiao.

Although they are arrogant, they are not bad in character!

After receiving Fang Yue's favor, they know that they know the reward!

Fang Yue nodded slightly, never refused, maybe when they will really use their favor!

"These two things have been completed, everyone is gone!"

Shi Yu spoke and ended the banquet.

She is a person who is simple and neat, has a strong purpose, and will never procrastinate.

Goodbye, everyone, and the banquet is gone.

In the end, only Xia Yue was left.

Shi Yu was slightly surprised: "I don't know where there is any advice for Master Gu Yue to stay?"

"Fairy Shiyu is polite! I just stayed and wanted to discuss this rune with Fairy Shiyu."

Fang Yue spoke, and Fairy Shiyu smiled politely.

"I'm just scratching the way to this rune, and I'm not proficient! If Master Lonely wants to exchange ideas, Shiyu is afraid that he will sweep Master Lonely's Yaxing."

The meaning of Shi Yu's refusal is quite obvious.

But Fang Yue didn't care about this rejection!

"In addition to the few runes I learned on this stone tablet, I have other gains I want to learn from and exchanges with Fairy Shiyu!"

Fang Yue spoke for himself, as if he didn't even care about Fairy Shiyu's thoughts.

Fang Yue stretched out a finger and drew two strokes in the void, seemingly random, but it drew the power of heaven and earth to form a baby's fist-sized rune in the void.

At the moment the rune was formed, a small black hole immediately formed in the void.

In this black hole, there was a huge suction force, as if it could swallow the spiritual energy of the surrounding world and continuously strengthen oneself.

"What is this technique?"

Fairy Shiyu's eyes clearly flickered with excitement.

This is the joy of seeing the hunt, as if the door to another world has been opened.

"This is the rune I have researched. This rune can be the carrier of rules, but if you give it a certain emotion, this rune may also become a little creature!"

Fang Yue whispered, without any expression on his face.

However, Fairy Shiyu already understood in her heart that she had been caught in Fang Yue's trap and had been tested out. Those runes were all cracked by herself!

Fairy Shiyu showed a helpless look.

"Prince Guyue is really amazing and brilliant. Shiyu's talent in runes is hard to match. Shiyu admits that the previous flame runes were all realized by Shiyu himself, and Shiyu has realized it. The flame runes of the are not five, but there are a total of thirty-two, but Shi Yu has never been shown in front of the flame stone stele, so the vision of that day has not been born. It must be like the rain of poetry, I have understood the true meaning of the runes, but not There are at least more than ten people displayed in front of the stele!"

Fang Yue nodded slightly.

"This time, the arrogant gatherings are all in the curtain city. It is not surprising that there are rune geniuses hidden in it! However, Gu Yue wants to know the general strength of the major forces this time. The strong on this earth are sparse. , If you really encounter some calamity, I am afraid it will be difficult to suppress!"

What did Fang Yue say.

I directly spoke out the worries in my heart.

It is not necessarily a good thing for today's earth that this earth exhibits this level of relics at this time.

If there is a big treasure in the ruins of this screen city, the battle for the treasure will start in the screen city.

At that time, there will be wars, and those strong in the Yin-Yang realm and the leader realm may not necessarily care about the constraints and rules.

Once they fight, even if it is not deliberate, the aftermath of energy can make the cities collapse and turn into powder.

"All parties, the number of people dispatched this time is not too small! Only I know, there are at least dozens of cult masters who protect the way in the dark. As for the existence of Yin and Yang, the number can range from hundreds to thousands. For example, my poet, there are three master-level masters in charge!"

### **Chapter 1293: Old woman's point**

Shi Yu didn't care much about exposing these things that were almost known in the hearts of the major forces.

Fang Yue clasped his fists and bowed deeply.

"Thank you Fairy for the suggestion!"

Shi Yu glanced at Fang Yue, pondered for a moment, and then said: "This earth is now as tiny as a goose egg, and there are few strong ones. The peak level of combat power is also the strong support of the digital leader realm! If it develops secretly! It's okay to have not been discovered by Ten Thousand Realms, but nowadays, the earth has no chance to dormant and develop in secret! If Lord Lone Moon keeps on guarding the earth, it may delay his future and provoke a group of enemies.

What this cultivator pays attention to is a detached freedom. The son may wish to let go of the obsession in his heart and come to my poetry as a guest. I can guarantee that the talent of the lonely son will definitely be valued and will be able to regain it in a short time. Step up! "

Shi Yu has already spoken for this purpose.

It is impossible for Fang Yue not to understand.

This is soliciting oneself and giving up the earth.

If you stand here by another person, you might be obedient to the temptation of the poet!

But Fang Yue's faith is firm, his foundation lies in the earth, and his soul lies in China.

If he wants to develop freely, he has teachers at the level of virtual fairyland like Ruyizi as his backing. This backing is probably much harder than the poet's backing.

Moreover, the earth contains endless mysteries.

Now even the tip of the iceberg has not been revealed.

Once all the details in the earth are exhausted, I am afraid that even the entire heavens will tremble!

"Thank you for the kindness of Fairy Shiyu, Guyue is not that kind of free and easy person, with a mundane disposition and too heavy obsession! She is destined to be incapable of becoming a great weapon by nature, I am afraid that she will disappoint the fairy!"

Fang Yue finally didn't talk to Shiyu.

What Fang Yue wants is cooperation, but Shi Yu just wants to win over a good subordinate.

The purpose of the two is different, it is useless to say more.

The inequality in status is destined to make it difficult for the two to have too deep intersection.

After discussing with Fairy Shiyu on the way of runes, Fang Yue left with a few greetings.

After Fang Yue left.

An old woman behind Fairy Shiyu came slowly from the depths of the mansion.

"Fairy Shiyu is tempted by this lonely moon?"

The old woman spoke with a hoarse voice, and her body was covered with a haze like black veil.

If Fang Yue was present, he would be able to recognize at a glance, this old woman was one of the three master-level poets that Fairy Shiyu said.

Moreover, she is also the protector of the leader-level peak, and her personal strength is unmatched.

"A good seedling, but it's a pity that it's not born at the right time!"

Shi Yu sighed quietly, expressing her feelings.

The old woman sneered: "Ms. Shiyu, don't be too superficial. This Gu Yue's choice today may be the most correct! This earth is not as simple as people think! Yesterday, there was a guardian of the peak of the Yin-Yang realm of the Liu family. The person walked into a cave on the earth, and then lost contact. Until half an hour ago, the body of the protector at the peak of Yin and Yang was sent out, and the life essence in his body was sucked. When he entered He is a good living person, and when he comes out, only a human skin is left!"

Shi Yu was slightly surprised.

"There is still such a strong man hidden on this earth?"

"I am afraid that it is not a weak person in the master realm! And this master realm is not among the ranks of the known master realms of the earth! Those strong masters whose identities have been exposed on the earth have been followed, and there was no change yesterday! If your cultivation reaches the Yin-Yang level, you can be considered a strong one among the ten thousand realms, and if you have reached the complete level of cultivation, you will be considered a hero! The more master-

level strong people, the chance of being promoted to a saint is also The bigger! As long as there is a saint recognized by the ten thousand realms out of the earth, even if the earth's civilization does not enter the stream, you can't wait for it!"

The old woman's tone was a little light and light.

But it was extremely heavy when it fell to Shiyu's heart!

"Besides, this lonely moon is not easy! I have tried in secret, and my dark auras can't get close to his body. You know, what identity am I? At the peak of the leader level, half of my foot has already entered. If the level of the saint is not unexpected, I will cross the calamity within a hundred years and formally enter the saint. My dark road has been enlightened to the fourth level! Even if it is a strong person who is the same as the leader of the leader, I will not see It must be able to block out the dark breath that I am exuding."

The old woman's eyes became a little serious this time.

There are saints on the earth, just guessing.

But Fang Yue's ability to block her detection of the power of darkness is a real thing!

what does this mean?

The old woman is not quite clear in her heart, because such a thing is still her first experience since her debut!

"You mean, this lonely moon may be a strong man at the peak of the leader realm who has hidden his strength? And his law perception is no longer under your mother Lin?"

Shi Yu was completely shocked this time.

She is usually a self-proclaimed wise man, but she did not expect that she far underestimated Fang Yue's strength.

"I don't know, I don't want to guess, it's okay to guess right, guess wrong, if it is used as the basis of the layout, it may lead to a defeat, and a result of losing all the games!"

The old woman shook her head slightly, then turned and left.

Although she is Shiyu's protector, but there is no need to respect Shiyu.

She is a semi-holy, and her position as a poet is extremely detached.

Although Shi Yu is a wise man, and has unparalleled talent in cultivation.

But after all, this kind of talent is potential. Before the potential is truly transformed into combat power, there is no qualification to be respected!

Soon after Fang Yue left Shiyu's mansion, a heavy rain fell in the sky.

The endless darkness and rain seemed to flood the whole world in an instant!

Fang Yue stopped in the heavy rain.

He suddenly said quietly: "Since you are here, then show up! Don't you, the golden great ape clan, are known to be not afraid of the sky and the earth? Such pride and fear of the head and tail are what a hero!"

In the darkness, two golden eyes suddenly lit up.

The figure of a golden great ape appeared.

The qi and blood in his body turned into a field with a diameter of half a meter.

The rain can't knock it down, as if it's another world!

"The golden giant ape at the first level of the Yin and Yang realm, you really value me very much!"

Fang Yue glanced at the opponent's strength.

After an assassination that crossed a great realm, it is no wonder that this golden great ape is so fearful and afraid to reveal his true identity.

"Guyue, my golden great ape clan pity you for being young and energetic, you have never seen the world, and don't know how to weigh right and wrong, so I want to give you a way of life and let you become a slave to my golden great ape clan! This is already great! Kindness, you should cherish it! As everyone knows, how many people want to serve as servants with our golden great ape clan will never have a chance!"

The golden great ape was quite arrogant towards Fang Yue.

What if your generation is invincible? My golden great ape clan has its own powerful old generation to suppress you, and can give Fang Yue a way to survive. In the eyes of this golden great ape at the first level of the Yin-Yang realm, he is quite tolerant.

Fang Yue looked left and right, and said with some surprise: "Is it really only you here?"

The golden great ape nodded and said proudly: "Kill you, why do we need a second person to kill you?"

"The torrential rain obscured the exploration of Divine Mind, and the thunder of thunder concealed the movement of you and me. In order to kill me, the golden great ape painstakingly set up such a game, it is really painstaking!"

Fang Yue didn't know if it was a mockery, or said with a sincere sigh.

Fierce light was revealed in the golden great ape's eyes.

"See your attitude has made a decision?"

Fang Yue nodded: "My choice is to fight to the end and let you die! Perhaps only your bones and blood can make the golden great apes really sober and understand that they are not really as invincible as they thought. !"

Fang Yue shot suddenly, as fast as a rabbit.

With awe-inspiring killing intent, the golden great ape drew a long sword from his waist.

On the top of the long sword, there were ancient runes engraved, and a total of 108 runes appeared in the air.

The lion fights the rabbit and needs to do its best.

What's more, this battle must be completed in the shortest possible time. Their golden great ape clan bullies the weak, and it is already a violation of the rules to send the strong from the Yin and Yang realm to attack the younger generation of the rotation realm level Tianjiao!

Once this matter is discovered, the reputation of the golden great apes will definitely be greatly damaged!

This rune sword is his big killer, excavated from an ancient ruin. Although the level of the weapon is at the level of the Yin-Yang realm, its power is several times more powerful than the Yin-Yang realm of this era!

The sword has not yet arrived.

The one hundred and eight runes have been wrapped around Fang Yue's body!

Every rune is like a wall, making Fang Yue trapped in a narrow space and unable to move!

"Exit!"

Fang Yue's mouth spit out an ancient rune, which was condensed from the rules of Destruction Avenue.

This is the method he has just developed with the help of his perception on the Guangming Stone Tablet and Shiyu's research on the power of rules.

Runes can be the simplest carrier of the rules of the world.

This method does not exceed the level of the rotation realm, but all the 108 runes are broken.

These one hundred and eight runes are just a simple understanding of the way of runes.

And his destruction rune contains a huge number of road rules!

"Do not!"

The golden great ape found something wrong, and its eyes were splitting.

This rune sword has been recognized by his blood, and with the help of his heart and blood, it has become a natal magic weapon. The natal magic weapon is connected to his life. Once the law is destroyed, he will also be hit hard to heal, and the rune sword is damaged. The runes were all shattered, and he was also implicated, and even the light in his eyes became much dim.

I thought it was paying enough attention, but I did not expect that Fang Yue's methods would be underestimated in the end!

Fang Yue raised his hand, wanting to slap the golden great ape to death.

But Fang Yue suddenly felt the detection of two divine thoughts. One of the divine thoughts belonged to the rain of poetry, with a detached taste, very faint, but extremely condensed, and the other was extremely vicissitudes of life, with a wave of decay, aging and The smell of darkness!

Both divine thoughts came from Shiyu's mansion.

Fang Yue realized that they had discovered his battle with the Golden Great Ape!

Fang Yue immediately changed his moves, and a bright golden text appeared in his palm.

This text was obtained from an ancient house, and a big "Lin" word fell down, like a sky collapsed, oppressing all directions.

### **Chapter 1294: Beware of earthlings**

"This is the method of the Yin-Yang realm strong, you have the Yin-yang realm strong to provide you with a hole card to save your life!"

The golden great ape gave birth to an instinctive fear that came out of his heart!

He roared loudly, and injected all the qi in his body into the fur, each of the monkey hairs stood up, like an upright expression, its skin is like copper and iron, strong and unbreakable!

The word near, collapses the void.

The golden great ape fought hard, but in the end it was crushed into meatloaf by the golden text!

A magnificent golden great ape at the first level of the Yin-Yang realm. He should have laughed proudly in the world, guarded one side, and acted as a blessing.

However, he failed to attack Fang Yue this time, instead he was killed by Fang Yue. He was wisely ruined once, and was finally buried in this rainy night. There were no bones left, and death quietly, but it was quite desolate and miserable!

Fang Yue put away the corpse of the golden great ape. Although this golden great ape is hateful, the blood in his body is still quite valuable, and the armor and weapons on his body are all at the level of the Yin and Yang realm. A lot of income!

The golden great ape fell, neither Shiyu nor Lin's mother was surprised.

The origin of this lonely moon is mysterious, and the methods are amazing, and it is no longer possible to examine him with the eyes of the younger generation.

And this golden great ape clan is too arrogant, they are arrogant and defiant. During this period of time, they have offended many forces intentionally or unintentionally.

This family is destined to suffer a big loss.

The fall of this golden great ape in the Yin-Yang realm is just the beginning!

"There are really masters in this earth. The golden character that Guyue just displayed should be the handwriting of a strong master of the master level. The mana is poured into the calligraphy and painting. Any character can crush one. The fleshy shell of a strong person in the Yin-Yang realm, the ordinary Yin-Yang realm cannot do such a thing! And the breath of this character is unfamiliar, and it does not belong to any known strong master in the earth! Perhaps this is the earth hidden in The strong in the dark, usually dormant, at critical moments, used to come back for the earth!"

The old woman Lin's mother said, she paid more and more attention to the earth.

Everyone, in all worlds, without saints on weekdays, the leader-level combat power is already at the top level of ordinary warfare.

If there were no saint-level battles, the number of leader-level powerhouses would represent the strength of a plane and a world!

There are not many leader-level powerhouses displayed outside the earth, but the number of leader-level powerhouses who really dormant in the dark is unpredictable!

If in the dark, the earth is really dormant with dozens or hundreds of masters of the leader realm, then they need to seriously weigh this emerging realm again!

And the old woman has a hunch that there must be saints on this earth, and it's not a problem of one or two!

"Miss, you need to be more cautious when walking on the earth in the future. Don't turn your face with the natives of the earth if you are not a last resort."

The old woman thought of some ancient and vague legends. She frowned slightly, and said seriously to Shiyu, without any joking.

Shi Yu nodded. She also felt the extraordinary of this lonely moon. In the previous confrontation, Shi Yu vaguely felt that it was easy for this lonely moon to kill the golden great ape.

It was just to hide his true strength and guard against the prying eyes of the two, so in the end Guyue changed his trick temporarily and sacrificed the golden character.

"This earth is not simple, and China is not simple too! Mother Lin, help me order other people to tell them that I feel like something is going to happen in the recent period of convergence! The sky of this earth is about to change!"

Shi Yu raised her head and looked at the endless darkness and pouring rain outside the mansion.

She is not only a wise man, but also a prophet. She has a special physique, and her premonitions often come true!

Fang Yue returned to Wanyuan Institute of Biochemistry.

There was no rain on his body.

Fang Yunshan has not rested yet, she is reading at Bingzhuye, looking up some materials in the research institute.

"Brother, you are back!"

When Fang Yunshan saw Fang Yue's return, she immediately smiled.

Fang Yue nodded and glanced at the information on the table.

"Looking at these things, do you see some clues from them?"

Fang Yue said half jokingly.

Fang Yunshan's face was tight, revealing a dignified smell.

"Brother, after you left, Jiang Lin had a problem. He was attacked and almost fell on the spot! The attackers must be Chinese, and their bodies were covered by a hazy white mist, and their spiritual consciousness could not penetrate. It was invisible to the naked eye. There were three assailants, all at the level of heaven and earth! They shot quickly, and we almost didn't react. When a senior of the Jiang family who secretly defended Jiang Lin appeared, The three have turned into three beams of escape light and left!"

Fang Yunshan reported to Fang Yue what had happened before.

She is now a master at the rotation level, but at the moment Jiang Lin was assassinated, she almost didn't even have time to react!

Fang Yunshan's heart was also secretly wary. If these three people came for her, she might not be able to retreat.

"How about Jiang Lin now?"

Fang Yue was alert.

In this broad daylight, someone really dared to make a move!

And why the old director didn't make a move. According to Fang Yue's estimation, the old director's cultivation base was shocking, and the three assassins of the heaven and earth realm, no matter how clever the means, if he was willing to make a move, the three assassins of the heaven and earth realm would also It is definitely doomed!

"Jiang Lin is still in the research institute. His injury is not very serious. It's just the left arm stabbed by a dagger. The wound on his arm has healed, but he is still in a sluggish state and his expression is quite tranceful! Jiang! Lin should have grown up under the protection of the Jiang family since he was a child, and he should have never seen and experienced this kind of life-and-death struggle! Therefore, he was suddenly assassinated, and he was not frightened. This time, the incident came to him. It can be regarded as a kind of growth!"

Fang Yunshan said quite rationally.

"Ok!"

Fang Yue nodded, approving of Fang Yunshan's analysis. For Jiang Lin, Fang Yue is not a must to solicit!

Fang Yue had a hunch that this Jiang Lin was probably not in Yingjie this time, he was a evil demon, destined to grow up in countless trials.

The Jie Yao brand in his body will be activated amidst hatred and blood, unable to decompose the power in it as peacefully as Fang Yunshan.

This is due to fate, no one can help him out!

The appearance of the three assassins was an arrangement of fate. Even if they did not appear, someone would let Jiang Lin experience one after another catastrophe and storm!

"The identities of these three assassins don't need to be investigated for the time being. As long as Jiang Lin is okay and the robbery is branded on him, he will quickly recover."

Fang Yue resolutely abandoned the investigation of this clue.

His energy is limited, and he is destined to be unable to take into account all aspects.

"Well, what I said is right, but this time, I saw such a piece of information in the database of Wanyuan Institute of Biochemistry! It records that five years ago, Wanyuan Institute of Biochemistry had received a batch of Ancient samples, these samples, according to my estimation, should be a certain era in the prehistory of the Chinese civilization. The scientific and technological achievements in them are more advanced than the current biochemical technology, and I don't know how many eras!"

Fang Yunshan pushed the information in front of Fang Yue.

These materials are all written in confidential text, which involves Xu Du's code names and formulas. If it is replaced by another person, even industry experts will not be able to interpret this document.

However, Fang Yue's biochemical knowledge comes from other planes and worlds. The knowledge of biochemical civilization he understands is more advanced than the current earth. Even the so-called top domestic experts are inferior to Fang Yue. I don't know how many light years.

Fang Yue quickly understood the importance of those specimens.

"This batch of specimens is clearly a sample of biochemical beasts. Simply extracting DNA and then cloning can make these biochemical beasts reappear!"

Fang Yue was a little bit horrified. He saw that the data models of these biochemical beasts were quite powerful.

Even the weakest first batch of X code biochemical beasts, in terms of power and speed, can be comparable to today's powerhouses at the world level! And the most powerful biochemical beasts have reached a level comparable to the Yin-Yang realm, and the genetic locks in their bodies will be loosened and unlocked as soon as they are born!

This level of biochemical technology is at least the result of the present Earth one hundred thousand years later. Even the deep blue planet that Fang Yue had descended on before is not known how many years behind this information in terms of biochemical civilization.

"Yun Shan, what is your guess?"

Fang Yue looked at Fang Yunshan, she had been in contact with the information earlier than herself, and she must have been deliberate.

"This is just a simple introduction. There are no real biological samples. I don't know how many such genetic samples were obtained by the Wanyuan Institute of Biochemistry. If all are obtained, I suspect that they have mastered a complete prehistoric history of biochemical civilization. Ruins." When this guess blurted out, even Fang Yunshan shivered involuntarily.

In fact, in the age when the aura of the earth has not yet recovered, many scientific and technological scientists have suspected that before today's human civilization, there were many prosperous civilization systems on this earth! Those civilization systems involve all aspects, such as the cultivation civilization of China, the ancient pyramid civilization of Egypt, the Buddhist civilization of India, and the magical civilization of the West.

There are also those ancient civilizations that have disappeared in the long river of history but have attracted endless reveries.

Such as Atlantis civilization.

And the closer it is to the modern era, the more the utensils unearthed in the monuments prove the existence of these civilized systems.

There are frescoes of flying butterflies in the pyramids of Egypt, and mobile phone-like communication devices have been unearthed in a certain basin in China.

All these things prove that before China's culturally recorded history, there was still an age of civilization that was extremely prosperous.

However, there are many monsters recorded in Shanhaijing. Now it seems that these monsters are the products of biochemical civilization. They are the products of genetic grafting of different ethnic groups. Although they have not survived, they do not mean that they have never appeared.

"If this research institute really has a complete relic of biochemical civilization, the water in it will be too deep. It is very likely that they have already begun preparations in the age when the aura has not recovered! Then this research institute has The power may also be extremely terrifying!"

The more Fang Yue said, the more excited he felt that his deduction was extremely correct!

"If this is the case, then this research institute might not participate in the stone monument relics this time, and even Jiang Lin's work in the institute is not necessarily an opportunity or coincidence!"

### **Chapter 1295: Five-color Lupin**

Fang Yunshan continued thinking in accordance with Fang Yue's thinking.

Her eyes lit up, and her heart was filled with uncontrollable excitement!

Huaxia's current strength on the surface is too small, poor and weak, and it can't be compared with the Tianjiao and the strong guardian who descended on many planes!

This made both of them shackled, even afraid to show their true strength.

And if Huaxia really has such a terrifying hole card, then their backs will be straighter and their speech will be harder!

"I guess that tomorrow I will go to the front of the stone monument, and there will be a fierce battle. This golden great ape clan will die a strong man in the Yin and Yang realm. Although their temperament will not bring this matter up to me. , But it's affirmative for me to make an excuse! I'm going to take people out first and get them to heal them! Then I will kill them and beat them to death!"

Fang Yue already had a clear plan. If he wanted to play with him, these golden great apes were still too tender!

"But the golden great apes may become irritated to a certain extent, and let the masters of the clan besiege me. At that time, you sent thirty little demons to me to copy the nest of the golden great apes!"

While talking, Fang Yue summoned thirty little demons, this is a masterpiece of the universe.

Not only do they have traces of biochemical civilization, they are also influenced by some special laws and bloodlines.

Thirty little demons are on the seventh or eighth level of the rotation realm. This realm is very embarrassing. It is said that it is not high or low, but if it is used as a magic weapon, it will definitely give the golden ape family back. Cause a lot of damage.

"Each of these little demons has a blazing fire spirit in the body. I bought this at a high price from the Galaxy Bank. Each blazing fire spirit is worth ten million lower-grade spirit stones. Activate, you can burn the strong of Yin-Yang realm alive! If there are strong ones in the Yin-Yang realm in the Golden Great Ape Clan, send these little demons to me and burn them to death! If they still have master-level strong Sitting in town, I will give you a phantom rune. When necessary, you will summon a phantom of a leader-level peak powerhouse and slap them to death!"

This time Fang Yue was going to use the golden giant apes to operate.

They have no blood, and it is difficult for all the forces invading China to understand how terrible their counterattack is!

Fang Yunshan looked at Fang Yue in surprise.

This time Fang Yue is determined to attack the Golden Great Apes!

Fang Yunshan had known for a long time that Fang Yue was the real thorn in China.

He doesn't show off his power on weekdays, and once he shows off his power, he can definitely beat the family.

It's just that Fang Yue didn't want to show his strength too obvious, so that other forces would be taboo.

But this time the Golden Great Ape clan violated the rules, and even let the powerhouse of the rotation realm touch Fang Yue's inverse scales on the mundane ground, and this will allow him to spare no effort to start the Golden Great Ape clan!

"This golden great ape clan is only part of the threat, and the other part of the threat comes from the stone monument. I always feel that there is a lot of weirdness in this stone monument! These descendants from different worlds have to guard against, but the same There must also be more consideration for the stone monument ruins!"

Fang Yue spoke again.

Fang Yunshan nodded slightly.

"Leave these things to me! If you are really in danger, give me news and I will go to the ancient house to ask for your help. You are the prince of the earth, and I don't believe that this ancient house will be dead in time!"

Fang Yunshan also knew about the ancient house, and she also kept an eye on her.

Fang Yue smiled and said: "Stupid girl, whoever encounters danger, I will not encounter danger! The big deal is that I flee as a ten thousand world. Once I merge into the void, I don't believe they can find me, kill It's me!"

A faint murderous intent appeared in Fang Yue's eyes.

If it's really time to be compelled, he doesn't mind killing it!

When the time comes, a strong person at the peak of the leader realm will come, enough to shock the Quartet, if these people don't know what is good or bad, then he will let the destruction come.

Today's destruction clone is a serious saint-level powerhouse. The saint comes, who will fight for it?

Soon, dawn.

Fang Yue once again pretended to be a lonely moon and went to the place where the stone monument was located.

This time, there are more people around the stele ruins, and many of them are masters of runes, from different worlds and planes, traveling thousands of miles and crossing boundaries.

The reputation of this relic is getting bigger and bigger, and more and more people are devoted to it.

This time, the light soared to the sky, and someone constantly understood the true meaning of the rune.

The reputation of these rune masters is not covered, they soon saw some clues from those runes.

Fang Yue sat down in front of the Guangming Stone Stele again, meditating.

The golden great apes have not come yet, so he took advantage of his time to study this stone tablet.

Fang Yue had a hunch that these steles would not exist for long.

If you can get more benefits, you can get more benefits.

With the points raised by Shi Yu last time, he understood the law faster this time.

In just a moment, Fang Yue's fifth rune was to comprehend success.

Then came the sixth and seventh!

In less than an hour, Fang Yue realized the ninth rune!

Nine runes rushed up into the sky, connected end to end, a beam of silver light burst out of the sky, and the power was filled, and it fell on Fang Yue's spiritual energy clone.

The aura avatar received the initiation of Daigo, and immediately formed a silver ball in the body, which contained endless power.

If it is absorbed, this clone can directly rush to the fifth level of Yin Yang Realm!

At the same time, there is also a five-color fan gathered in front of Fang Yue.

This five-color fan is obviously an imitation, but this does not affect its magical powers.

"The five-color feather fan, a magic weapon at the level of Yin and Yang. It is said that this fan can fan out the power of the five elements to form a whirlwind of the five elements, restrain all the spells in the world, and can instantly assimilate it. If people who have studied the power of the five elements can also use this The fan displays the power of annihilation! This power of annihilation, which claims to be able to destroy all magic, is also powerful and supernatural, incomparable. This five-color feather fan is an imitation of the innate spiritual treasure, although it is a magic weapon at the Yin and Yang level, but The true value is higher than the magic weapon of the ordinary master level!"

A lot of onlookers appeared beside Fang Yue, they all muttered to themselves, their eyes showed envy involuntarily!

It is not a day or two for this stone monument to be erected in this position. Everyone knows that understanding the true meaning of these runes has great benefits, but no matter how painful they are, they are no way.

In the eyes of these people, there is envy, jealousy and deep greed!

Fang Yue ignored all these gazes, and finally focused on the group of golden great apes that had just emerged from the crowd.

This time, the golden great apes were mobilized, and hundreds of them came, most of them were the descendants of the golden great apes, the tianjiao from the heaven and earth realm to the rotation realm level. But there are dozens of golden great apes that have reached the level of Yin and Yang. They are the protectors of those golden great apes, their tyrannical strength and superb status, and the three golden great apes have reached the level of the master realm.

They came out all this time!

According to the information Fang Yue had obtained, this time the Golden Great Ape had two leader-level existences in total. As for today's extra one, it should be a thug who just crossed the border!

"Guyue, the five-color feather fan, you are not qualified to use it. This kind of treasure should be occupied by the virtuous. How can you control this kind of treasure? If this five-color feather fan falls into your hands, it will be like a jade and dust! You surrender it quickly, and only the strong of my golden great ape clan are qualified to use it!"

A golden great ape at the Yin and Yang level directly spoke, and he denounced Fang Yue Ji.

When he looked at the five-color feather fan, his great ape eyes were full of greedy light.

The golden great apes are not good at refining soldiers, and this five-color lupin-level treasure is even more missed.

This time it was his luck, he had the chance to get this five-color lupin.

As for Fang Yue, the owner of the five-color feather fan nowadays, he didn't take it seriously!

A beaming clown in a wilderness, what qualifications does he have to compete with the golden great apes?

He is even less worthy of possessing such a level of treasure as the five-color feather fan.

When the five-color feather fan fell into his hands, it was like being dusted with jade!

Fang Yue heard this, without the slightest surprise or anger on his face. In the current scene, he had long guessed that if the Golden Great Ape Clan did not come to look for things this time, he would be surprised!

"Suwen's golden great ape family bloodline is strong and invincible of the same rank! Whether I am eligible to have this five-color feather fan, it may be my decision to fight! But all the young golden great apes can challenge me! Who is it? If I can beat me, I will give him this five-color feather fan!"

Fang Yue's reaction surprised the golden great apes.

They were holding their stomachs in their hearts to say.

But unexpectedly, Fang Yue made such a decision!

"it is good!"

The golden great apes agreed in one go. With this opportunity to take Fang Yue's five-color feather fan openly, why should they bully the weak and act as villains?

My golden great ape also wants face.

Although this is said, it is indeed a bit shameless!

At first, everyone was comprehending the true meaning of the runes in the stele, but this sudden scene turned the painting style into a wonderful show.

Everyone present opened the field.

No one is unwilling to watch the excitement or something.

Especially Shi Yu hidden in the crowd, she was eager to try, and the taste of excitement in her bright eyes.

This Guyue was indeed a smart person, and he chose to take the initiative to fight in the way he was best at.

All these stupid golden great apes have agreed to them without thinking!

Sure enough, this is Chi. Naked IQ is crushed!

"In this battle of Tianjiao, it wouldn't be good if I didn't point the head! I took out a multicolored feather fan. Wouldn't the golden giant ape clan take the color head?"

Fang Yue worked step by step and had already calculated everything.

Those golden great apes vaguely felt something was wrong, but in that powerful state of pride, they didn't pay much attention to Fang Yue.

### **Chapter 1296: Gamble**

"Huh, you little slippery head, do you think you can defeat the arrogance of my golden giant ape clan? My golden giant ape clan is extremely rich! There is still this color head, this is a sun and moon flag, but it is 18 kinds It is woven from precious silk. It absorbs the power of the yin and yang of the world and the essence of the sun and moon. A sun and moon flag, a spiritual stone worth tens of millions, can be used to summon the scorching sun, the bright moon, and tear the night starry sky."

A golden great ape in the Yin-Yang realm spoke, and his face still showed a trace of pride!

"Hey, this golden great ape clan is really stingy! Although the Sun Moon Banner is a magic weapon of the Yin and Yang level, it cannot be compared with the five-color feather fan in terms of grade and power! They actually took this thing out with a shy face The bet on the bet, it turns out that the golden great apes have fallen to this level!"

Secretly, someone made a fuss.

During this period of time, this golden great ape clan was too arrogant and self-righteous. They offended many people. Although people were too lazy to conflict with this clan on the front, they could not figure out how to point to them behind the scenes. !

Those people can do this secretly stumbling thing.

As soon as these words came out, the golden giant ape who had just spoken immediately lost its arrogance.

"Who the \*\*\*\* was talking about just now?"

The golden great ape looked around everywhere, he naturally knew that the sun and moon flag in his hand was far less precious than Fang Yue's five-color feather fan, but their clan was not good at refining weapons and was able to take out a sun and moon. The flag is actually the limit for them!

"That's it, that's all! Although I have lost this bet, this golden great ape is what it takes!"

Fang Yue raised his hand, and an arena slowly rose from the ground.

This arena is hard in texture, and a thick energy shield covers it.

When the golden great apes saw this scene, their anxiety immediately rose.

This Fang Yue is ready, waiting for them to drill!

But things have come, and they have no chance of retreating.

If they step back, they will be laughed at.

The golden great apes have the best face and pride, and are often equated with vanity clubs!

"Gu Jiang, go!"

A strong man in the yin and yang realm of the Golden Great Ape Clan spoke, his voice hoarse and thick.

A sturdy golden giant ape of the rotation level leaped up and jumped onto the ring. He also wielded a machete in his hand, majestic, with a posture of a monkey king.

"This golden great ape clan really pays enough attention to Gu Yue. From the beginning, he let Gu Jiang play. This Gu Jiang is not a good crop. He has a vicious atmosphere. It is said that when he was five years old He knocked his enlightenment teacher to death with a stick. The strength of his subordinates was extremely strong and his hands were cruel. He was born with a bit of evil spirit. At the same time, his physique was special. It attracted a trace of the aura of a chaotic beast! Among the same generation, it is rare to meet opponents, even among the young generation of this generation of golden great apes, it is enough to step into the ranks of the top 100, this time the disciples brought by the golden great apes clan In, this Gu Jiang should be the top three among the younger generation!"

Some people secretly marveled that this golden great ape family attaches great importance to Gu Yue, far beyond their imagination!

Gu Jiang ranks among the top ranks among the arrogances who descended on the screen city.

In his battle with Gu Yue, there is almost no possibility of defeat.

According to the latest information, just six months ago, Gu Jiang challenged a martial arts master of the human race on the third layer of the Yin Yang Mirror. He vomited blood with three punches and died.

"Guyue, please enlighten me!"

Fang Yue stepped onto the ring and his attitude was quite polite.

However, a look of disdain appeared on Gu Jiang's face.

"An ant like you has no right to know my name at all!" Gu Jiang's face was full of jealousy, and he was arrogant, completely assuming an invincible posture of me.

Gu Jiang, standing at the eighth level of the Rotating Realm, but he lacks the ability to defeat the older generation of powerhouses on the third level of the Yin-Yang Realm alone, he does have such arrogant capital.

Fang Yue also quite understands Gu Jiang's sluggishness.

"Let you have a trick, this may be the last chance in your life!"

Gu Jiang spoke again.

Guyue smiled slightly and said along the line: "Then I'm welcome!"

"Sword One!"

Fang Yue took out a long sword, which looked unpretentious from the outside.

However, when his sword slowly pierced out.

Between this world, it seemed that only this long sword was left.

Everyone's eyes were involuntarily attracted by this long sword, as if at this moment, this long sword has become the only protagonist in this world!

"This sword technique has gone beyond the scope of ordinary moves, and it has integrated a trace of the artistic conception. There are tens of thousands of people who use swords in these ten thousand worlds, but there are hundreds of thousands of people who can use such a sword. It may not be possible for one person to reach it. This is a kendo master-level figure! If this lonely moon does not die, he will surely be able to achieve greatness in the future!

The onlookers around, all opened their mouths in amazement, and a stunning look appeared in their eyes.

It would be great if this solitary moon was a disciple of their clan, not to mention, it was just a shocking sword technique, and it would surely be able to accomplish a great cause in the future.

"The fierce ape destroys the world!"

Although Gu Jiang felt an unprecedented pressure in the shadow of the sword, he did not succumb under the shadow of the sword. This sense of pressure aroused a fierceness in his heart. The great ape figure appeared.

The machete in his hand slashed towards the sword shadow that was oppressing the sky.

The clang of metal collision immediately sounded.

The flames flickered, and the moment the two met, the world shook. The ring was swaying, and people at a lower level felt a sense of almost collapsed!

"I feel a kind of breathless depression in my heart!"

"Ahhhhhh! My brain is about to explode!"

The powerhouse of the world realm has limited realm and spiritual strength, even if it is just a glance, endless panic and fear are born in his heart!

If it were not for the protection and blessing of the elders around them, I am afraid they would plant an indelible mark of the heart demon in their hearts.

Someone in the golden great ape clan proudly said: "Even if it is Tianjiao? The genius in the clan is not dead and alive after meeting me? This demon ape body, once defeated the strong man in the Yin and Yang realm, this lonely moon is destined to be irresistible. Even his swordsmanship is useless no matter how detached! Sometimes, people need to be self-knowledge, understand their own identity, know who can provoke and who can't."

In the eyes of the golden great ape, they were set to win this game.

Fang Yue and the long sword that straddled the Qiongxiao were shattered by the muffled roar of the golden giant ape.

The earth is shaking, the sun and the moon are dim!

Fang Yue's eyes were a little dignified, his face was slightly pale, a ray of blood overflowed from the corner of his mouth, and an indescribable persistence revealed in his eyes.

Many people are sighing, this lonely moon is not strong enough, among the younger generation, he can be regarded as a leader.

But when encountering the existence of such a perverted level as Gu Jiang, even the leader is not useful.

"The golden great apes are really powerful, not only their blood and flesh, but more importantly their fighting consciousness."

As an adversary, Fang Yue was also sighing. This is his respect for his opponent, and the pride of this clan has its own proud capital.

"Guyue, it's too late for you to regret, your mistakes have been made, and your blood is destined to be used to wash away the shame of my golden great apes!"

Someone happened in the golden great ape clan, and the smell of noise was even stronger!

However, the jealous look on Gu Jiang's face gradually faded, replaced by a solemn look.

This real battle situation is not optimistic, it is not that he has the advantage as people see. In fact, Fang Yue was not weaker than him. To some extent, Fang Yue had the upper hand during the confrontation just now.

That sword one seemed to be one with the heaven and the earth, and it cut out with one sword, so that his connection with this piece of heaven and earth was gradually interrupted.

He couldn't absorb the spirit of the world around him to recover his loss.

Although Gu Jiang knew that this was only a temporary situation, it was also extremely deadly in battle.

This lonely moon is stronger than he thought!

"Devilish energy!"

Gu Jiang decided to take the initiative. The true energy in his body was temporarily unable to recover. He could only solve the battle in the shortest time, and then search for a way to restore contact with this world.

Before Gu Jiang's voice fell, there was endless black magical energy billowing over the sky, covering the sun and the moon, as if the end had come.

The world has become chaotic and dark.

Some physical bodies are slightly weaker, and even feel cold into the body, and the blood flowing in the body becomes slow and stagnant!

At this moment, it was like the demon king descended, the end of the world.

"Bright!"

Fang Yue's feet were lifted off the ground, and he performed the \*\*\*\* transformation technique, and his whole body was shrouded in endless light, with a holy expression on his face.

Nine different runes rose slowly, and finally turned into an endless flow of light.

This flowing light is like a long river, pouring down from the nine heavens, dispersing all the dark magic energy.

This is the confrontation between Tao and Dharma.

It looks like a gentle wind and drizzle, but in fact the undercurrent is surging and it is extremely dangerous.

"Roar!"

Gu Jiang roared loudly, the blue veins on his forehead violently, red lines criss-crossed, making his expression extremely hideous!

"Devil nature backlash! This demon nature can give you boundless power, but again, you have to pay a price equal to it. When your strength can suppress the demon nature in your body, this demon nature is your chance to help you Used, but when your power can't suppress it, it is your biggest obstacle and enemy!"

Fang Yue smiled, and he looked at Gu Jiang. This golden great ape is actually just mediocre in terms of talent, but before it was born, someone forcibly injected the blood of a chaotic beast to change its fate. Want to embark on a completely different path in life.

Facts have proved that this choice has indeed brought Gu Jiang a glorious first half of his life.

But this brilliance ends here!

**Chapter 1297: slander**

After all, the blood of this extremely demonic chaotic beast is not the right way.

All the benefits that Gu Jiang had obtained from it, this time will all be vomited out!

"Do not!"

Gu Jiang's face was hideous, and the ferocious magic lines on his face became denser, and he had sensed that every word of Fang Yue's words was not bad.

But he was unwilling to be conquered by the devil, and since then became a beast monster that only knows how to kill.

However, his will was being swallowed by the tumbling evil thoughts in his mind, and his reason became more and more blurred!

After a few breaths, the blood in Gu Jiang's body was completely backlashed, causing him to lose his wisdom as a normal creature.

The blood-colored magic patterns spread all over Gu Jiang's body, and his eyes were scarlet. From then on, there is no such thing as Gu Jiang in this world!

The demon monster looked at Fang Yue, his body was more murderous, and the boiling blood seemed to burn at any time. After demonization, the strength of Gu Jiang was more than twice as strong as before!

However, the demonized Gu Jiang also strengthened the instincts of living things!

He could sense that Fang Yue had a power he couldn't match in his body!

He roared and said in a hoarse voice: "You, very nice little guy, thank you for activating the Demon Seed in Gu Jiang. In return, I will turn you into another puppet clone of me and walk the world!"

Unexpectedly, the magical Gu Jiang seemed to be born with another sense of reason.

On his body surface, the demon flame is overwhelming, and a black flame burns up like a demon king from hell.

His breathing was heavy and he smelled of sulfur all over his body.

Even through a thick energy cover, people outside the ring can feel a heart-trembling magic.

"Only this body?"

The corner of Fang Yue's mouth provoked a sarcasm.

Although I don't know who the consciousness born in the body of Gu Jiang after demonization belongs to, but where is the foundation of Gu Jiang's physical body, even if it is strong and strong, where can it go?

It's the golden apes clan will have a big trouble!

This kind of magical power violates the rules of the game of the Ten Thousand Realms. If it is secretly used in secret, everyone can open one eye, close one eye, and pretend to be unaware and invisible.

But this time the fight between Fang Yue and Gu Jiang was in full view. Even if the golden ancient apes have a hundred mouths, I am afraid it is not clear!

"Naturally I won't! In this universe, this is my first body. I will cultivate it so that it will continue to grow stronger, and then I will clean up you!"

After the demonization, Gu Jiang knew more about time and situation than before.

He Fang Yue showed a menacing smile, and then his fingers cut a human-high spatial crack in front of him, stepped into it with one foot, and the figure disappeared, as if he had never appeared in this world.

After the demonized Gu Jiang left, Fang Yue couldn't help but secretly let out a sigh of relief.

If this guy really wants to smash himself, although he will not be defeated, it will be inevitable to expose some strength.

In that case, his next plan will be changed.

Gu Jiang turned into a demon, and the golden giant apes had already lost this battle.

Fang Yue held a five-color feather fan and looked at the other powerful golden giant apes present.

He smiled and said: "It seems that this time, I am slightly better! Even if it is a warrior of the golden great ape clan, it is not my opponent with mud legs in the wilderness."

Fang Yue is running against those golden great apes and extraterritorial powerhouses who look down on the people of the earth.

They always look at the people on earth with a bird's eye view, which makes Fang Yue feel very uncomfortable.

Fang Yue's words made the golden giant apes even more angry.

Gu Jiang is the dignity of the younger generation of their golden great ape clan. He lost to Guyue in this way. The aboriginal hands of such a remote area made the golden great ape clan powerhouses extremely unwilling.

"Guyue, what kind of evil method did you use just now to make the Tianjiao of my golden great ape clan change into a demon? I ask for a thorough investigation of Guyue's identity. He may also come from some chaotic beasts or from a different universe. There is an affair with the creature, otherwise, how could he, a junior born in such a remote and desolate territory, be the opponent of my disciple of the Golden Great Ape!"

A golden great ape on the third level of Yin-Yang realm spoke, and he represented the will of the entire golden great ape race.

This is a backlash, splashing all the dirty water on Fang Yue's head and letting him take the blame. And lay down the bet just now, Sun Moon Flag.

Fang Yue sneered and looked at the golden giant ape on the third level of the Yin Yang realm.

"Is this the incomparably proud golden great ape family in the legend? You are so unbearable, even a flag of the Yin-Yang level has to be destroyed, but you want to commit a crime, so why is there no reason? I can defeat you gold The disciples of the Great Ape Clan are spies of another universe, this is really a big crime!"

Fang Yue's attitude towards this golden great ape was rather indifferent.

He had already prepared for the golden giant apes to turn their faces, but he never thought that the golden giant apes would have such an unbearable face when they turned their faces.

"Hmph, if you are really innocent, then stand up and let us search for souls to prove that you have nothing to do with the strong in the different universe!"

The golden great ape is aggressive.

"If I promise to be searched for by you, is there still a possibility of surviving? The soul is the most vulnerable and most secret place of a person! Once I am touched by you, my life and death will be in your hands!"

Fang Yue sneered at the golden great ape.

Others watched indifferently.

They do not support the decision of the Golden Great Ape clan, because this clan is really too arrogant and unruly, and has offended many groups.

But they didn't mean to help Fang Yue half-heartedly, Fang Yue was just a native of this earth.

His status is too low, there is no need to turn his face with the golden great apes because of such a native!

"My golden great ape clan speaks arbitrarily, do you think you can refuse if you want to refuse?"

Finally at this time, a strong man from the Golden Great Ape Clan on the sixth layer of the Yin-Yang realm spoke. His attitude was indifferent, and his voice was full of indisputable dominance.

He raised his hand, transformed into a sky, and grabbed Fang Yue directly.

This method is decisive and very spicy. Once it falls, Fang Yue will inevitably be photographed into meat sauce.

"The confrontation between the young generation of Tianjiao, the golden great ape clan's Yin-Yang state sixth level of power can also be regarded as the younger generation of Tianjiao? Lost to the same generation, it is to let the older generation of strong people take action, this golden great ape clan Means, I've seen it alone!"

Fang Yue spoke, he didn't rush, and in his hand, golden characters rose into the air one after another.

Each character is equivalent to a full blow from a strong man in the Yin and Yang realm. Fang Yue summoned three golden words, and they all soared into the air, sprinkling brilliant brilliance!

The golden character and the golden great ape's palm collided with each other.

The palm of the hand that was as big as the sky cracked, and a drop of blood dripped from it.

He snorted and staggered back two steps!

"Hmph, you who are in collusion with the other world, everyone is punishable. Do you still need to follow any rules when you attack you and kill demons?"

The yin and yang realm of the golden great ape clan snorted coldly, and he continued to buckle Fang Yue's poop!

"Obviously, the blood of your golden great ape clan contains the blood of chaotic murderers, full of evil demon nature, but you are slandering me on the contrary."

Fang Yue was still unafraid of the strong yin and yang realm of the golden giant ape clan.

The crowd around was a little restless.

Many people can see that the golden characters activated by Fang Yue just now, and the master-level powerhouse's methods, although their power level is at the level of Yin and Yang, does not mean that the character maker is also The realm of Yin and Yang!

It seems that this lonely moon is not a lonely person, he has a background, and he is not small!

If this is the case, the situation at hand may not be clear!

Among the golden great apes are backed by strong leaders in the leader realm, and the background of Gu Yue is also extraordinary!

"The bold natives dare to resist!"

The golden giant ape on the sixth level of Yin-Yang realm made another move, and they had to send an arrow on the string!

Now that he has completely turned his face with Fang Yue, he must be completely killed in the bud.

They admit in their hearts that the talent of this lonely moon is not low, and even surpasses some of the arrogances of the generation in their ethnic group that they are proud of!

But the more so, this lonely moon must die.

He shot again.

Fang Yue's mouth curled up with a sneer.

The palm of the golden great ape fell again, the ground cracked and the vegetation was annihilated.

But Fang Yue's figure faded and disappeared instantly.

What he hit turned out to be just a virtual body.

"Are you bullying? I will do this too!"

Fang Yue appeared hundreds of meters away, and he was carrying a golden great ape of the heaven and earth level in his hand.

That was the arrogant talent they brought out of experience and insight. Although young, they were talented.

In the future, he has the hope of hitting the master realm, and he was placed high hopes by some big figures in the golden great ape clan!

But he was captured by the Lone Moon God unconsciously.

This made all the strong men of the Golden Great Ape clan feel a burst of tension in their hearts!

"Guyue, you put down Gu Qing, you still have a way back! If he loses one hair, we will destroy the entire China and cultivate for him!"

Just now, the golden great ape on the sixth floor of the Yin Yang realm spoke.

His voice was stern.

Fang Yue had already seen the guilty conscience in it.

"It turns out that his name is Gu Qing, and his aptitude is really good. Compared with the pseudo-genius of Gu Jiang just now, he should be regarded as the real tianjiao among your golden great apes! Tsk tsk, this is the body of thunder, and he is born with thunder. Get close, the level of the Heaven and Earth Realm just now means that you have entered the Dao in Thunder. If my guess is correct, you should have cultivated to the first level of Thunder Avenue! If you continue to practice, you will reach Thunder before the rotation realm. The realm of the second level of the avenue should not be a problem. It's a pity that you took a wrong step and should not choose to come to the muddy waters this time! Even if your golden great ape has a huge power, how old is your bloodline? Background, if you go to the underworld, you will still be just a lonely ghost!"

Fang Yue carried the Gu Qing.

### **Chapter 1298: Ambush**

At this moment, Gu Qing was scared by Fang Yue. He was the arrogant of the Golden Great Ape Clan. Yes, but because his talent was too high, the Golden Ape Clan also took extra care of him.

Every time he travels, someone is dedicated to protecting him!

This ensures that he will not encounter any danger, but at the same time it also blocks his path of growth!

His xinxing is not good enough, he has never experienced such a moment of life and death.

"I beg you, don't kill me! As long as you don't kill me, I can plead with you and let our race let you go!"

Gu Qing trembled, he felt the extremely murderous intent on Fang Yue.

Every inch of his bones was infiltrated.

"Guyue, let go of Gu Qing quickly, otherwise you will be extremely guilty! If you are caught by us, you will be peeled and digged, and your soul will be used to keep the eyes of the sea forever."

The golden great ape on the sixth layer of the Yin-Yang realm hated her teeth.

He thought that as long as he did it himself, the indigenous kid of this terrible rotation level of the earth would not let it be determined?

But the reality is cruel.

He not only appeared one after another and returned without success, but was caught by Fang Yue's key figures, threw a rat-in-the-mouse, and did not dare to make another move.

"I think you seem to have made a mistake! Now it's whether I want to let you go. Don't forget, this is our territory! Do you think that the earth will only be handled by me?"

The corner of Fang Yue's mouth showed a faint smile.

The golden ancient ape on the sixth layer of the Yin-Yang realm gave a thud in his heart.

Sure enough, Fang Yue's voice hadn't completely fallen.

A \*\*\*\* old slave fell from the sky, his body was scarred, his face was full of shock.

"My lord, it's okay! Young Master Gu Yun was killed in ambush during the trial. The villain had to fight for his life before he made a \*\*\*\* way to report."

The vitality of the old slave continued to weaken, and he was dying, seeing that he could not live for too long.

The golden ancient ape on the sixth level of the Yin-Yang realm couldn't help being furious, "Unreasonable, how noble my golden ancient ape is, how can anyone dare to kill the Tianjiao in my clan halfway!"

The anger of the golden ancient ape burned, and he couldn't bear this situation.

Gu Yun, a Tianjiao who is second only to Gu Jiang in talent, he has a high status in the clan, and he has the hope of breaking into the master realm level in the future!

He came to Earth to increase his knowledge and experience. Who knows, he was intercepted and killed on the way, and eventually fell.

"Who is the murderer? Are you with this lonely moon?"

The murderous intent in the golden apes on the sixth layer of Yin and Yang was boiling, and the faces of the golden apes were trampled underfoot one after another. This was already touching his bottom line!

"The man claimed to be Gai Lingtian, a genius from the plane of China. He should not be in the same group as Gu Yue, but his origins seemed even more amazing. When he shot, the old slave vaguely saw a The powerhouse at the pinnacle of the Yin and Yang realm is protecting his way, pointing to his cultivation! Na Gai Lingtian and Young Master Gu Yun are also standing at the level of the rotation

realm, but with the momentum of thunder, he kills Young Master Gu Yun and hits Young Master Gu Yun had no power to fight back. It only took three tricks to kill Young Master Gu Yun!"

The old slave recalled the scene at that time, and a look of horror appeared on his face again.

"There are strong guards at the peak of the Yin-Yang realm, and Huaxia should have a limited number of practitioners who can step into the peak of the Yin-Yang realm. Have you seen that person's face clearly? Do you know what it is and where it comes from?"

The golden ancient ape on the sixth layer of the Yin-Yang realm asked successively.

Nowadays, he is no longer contemptuous and arrogant, but instead has endless caution.

This earth is weird, not as simple as they had imagined before. In this region, they have suffered successive losses, and it is no longer a loss of one or two talents!

"That person does not belong to any of the earth natives at the pinnacle of Yin-Yang realm that we know. If I have a good estimate, he should be a hidden master on earth. His methods are old and hot, and there should be countless levels of Yin-Yang realm. A hundred years!"

The old slave seemed to be returning to the light, speaking extremely sharply.

The golden ape on the sixth layer of the Yin-Yang realm became more frightened as he heard it.

How deep is the water on this earth?

He thought he had checked it out long ago, but he didn't expect that he just saw the tip of the iceberg.

"I accept this little fate of Yuan Qing! This is a warning to your golden great apes."

Fang Yue was also a little surprised. He didn't expect that before Fang Yunshan could do it, he would have already acted on the disciples of the Golden Great Ape Clan outside.

Gai Lingtian, Fang Yue had heard of his fame. He was a son of destiny, and his first appearance was a Hummer for China. He fought against the strong on the Dark Moon plane and led the soldiers under his command to make outstanding achievements.

Unexpectedly, he would actually appear near the screen city and kill the Tianjiao of the Golden Great Ape clan.

"Damn mud legs, don't be proud of you! A Gaitian spirit can't turn the sky, today, I will kill you, and use your blood to wash away the shame of my golden great ape clan! If this ancient Qing died in you With the hand, I will kill your whole family to bury him!"

The golden great ape on the sixth layer of the Yin Yang realm finally stopped hesitating. He furiously rushed to the crown, and the opponent Yue attacked.

With a click, Fang Yue was more decisive than the golden giant ape. He broke Gu Qing's neck and his figure was illusory again.

As soon as the golden giant ape on the sixth level of the Yin-Yang realm was shot down, his heart immediately stopped beating.

"No, be careful!"

His voice just fell.

Behind, a long spear made from white bones pierced from the void.

The target of this spear was not him, but another Tianjiao of the golden great ape family at the heaven and earth level.

His heart was pierced by a spear, leaving a scar the size of a bowl.

Blood stains the earth, a gloomy atmosphere.

The golden great ape clan lost another Tianjiao and was killed on the earth by a bone spear.

Guyue walked on the blood, his face was full of stubborn expressions.

"I know I'm going to die, but before I die, I have to drag a few of the golden great apes and get off the horse."

Fang Yue's tone was harsh, with a scent of wind and water.

In a flash, he was transformed into a desperado, with a strong and decisive look in his eyes!

Fang Yue's attitude made the golden great apes even more afraid.

Such desperadoes are usually desperate!

"The people present, whoever can kill this lonely moon, can obtain the eternal friendship of my golden great ape clan!"

The golden great ape on the sixth level of the Yin-Yang realm spoke. He felt a chill in his heart when he saw the appearance of Fang Yue fighting against the water.

He urged the people present to take action, in exchange for the eternal friendship of the golden great apes.

It's a pity that everyone present is not stupid, and no one wants the opponent Yue to take action.

Who knows what other methods Fang Yue can do, this guy is usually scary enough, if he fights back, he might show ten times more power than usual!

"The golden great apes, insulting my China's majesty, today's battle, I will die for the longevity of China!"

Fang Yue's voice fell.

His breath suddenly became more violent.

Under the feet, countless arrays of Wenshu spread out, like a huge chessboard, but all the creatures within the scope of this chessboard feel a sense of oppression that I can't help but let go of my life.

"This is the formation of Yin and Yang level. Guyue has already set up a Tianluodi net and waits for me to enter the urn!"

The golden ancient ape on the sixth level of the Yin-Yang realm was in this formation.

His eyes opened wide, showing a look of horror.

This formation is isolated from the surroundings, like an independent world.

He and Gu Yue are at the core of the formation, and the other key nodes are all standing disciples of the golden ancient apes.

This is a conspiracy.

From the very beginning, Guyue has already started this layout!

"Guyue, what are you going to do? I tell you, you are doing this to plant endless blights for China! I can promise that if you give up the idea of resisting, you will catch it with your hands. I can guarantee that you will not move China. wood!"

The golden ancient ape on the sixth layer of the Yin Yang realm was scared.

He had already smelled death in this formation.

Life and death that were once remote are now within reach.

Fang Yue's mouth provoked a sneer: "What do you think is the difference between your golden giant ape clan's promise and farting in my ears? You have no shame at all! A strong man in the Yin and Yang realm actually treats me like this. The younger generation of disciples made a murderous bet and lost in a bet, but they turned their faces and refused to recognize people. Not only did they not pay the bet, but they also poured dirty water on me, unfounded and wanton slander! Although my lonely moon has no ability, But before dying, it is still possible to drag a few people into the funeral!"

Fang Yue's voice was sonorous and loud.

Many of them were infected by his blood, and gave birth to an inexplicable excitement deep in their hearts!

"If the disciples in my clan also have this spirit, why don't my Zhao family worry about it?"

An old man from a foreign land sighed in his heart. When he looked at Fang Yue, there was a lot of appreciation in his eyes.

"Guyue, you are too presumptuous! You speak nonsense, slandering the prestige of my golden great apes!"

A strong man at the peak of the Yin-Yang realm of a golden great ape clan spoke, he took the initiative to walk out, stepped on the palm of his foot, and the mountain shook.

He intends to destroy Fang Yue's formation and forcefully break the game with the strength of the peak of Yin and Yang realm. Their golden great apes cannot afford to sacrifice.

Before they had lost enough people, Tianjiao, if they added a few more people, their arrival on the earth this time would be a failed operation.

"Gu Sheng, it's a bit too much for your golden ancient apes!"

At this time, an old man behind Shi Yu took the initiative to stand up for Fang Yue.

He stood at the pinnacle of the Yin-Yang realm, and his life was almost exhausted.

He has dried up with blood and blood, and he is almost skinny and skinny, but no one dares to underestimate this old man. If he is mad, he may be able to drag one or two powerful people in the same realm to bury him.

The more this kind of dying person, the more terrifying and terrifying!

They don't care about life and death, if they go all out, they will be able to display earth-shattering magical powers.

"Wang Han, what do you mean? Do you represent yourself or the will of a poet?"

Gu Sheng's face was covered with frost. There was a threat in his tone.

You may not care about your own life or death, but you must not care about the future of the poet.

If this incident caused the Golden Great Ape and the poet to go to war, Wang Han could not afford it!

Shi Yu walked out from behind Wang Han, her small face tight and extremely serious.

### **Chapter 1299: Great Wilderness**

"He can represent the will of the poet. Although the poet has nothing to do with the region, your golden great ape clan has done too much! Now you are bullying the weak, attacking the natives of the earth, and stifling the Tianjiao with the strong of Yin and Yang. Second, did your golden great ape clan prepare my poet's disciple to start? Or, are you ready to personally attack and kill me?"

Shi Yu made a choice at this moment.

She is betting that the earth's water is too deep, and the real strength is definitely not just on the surface!

The aggressive expression on Gu Sheng's face immediately became rigid.

He dared to speak to Wang Han like this, but he definitely did not dare to speak to Shi Yu like this.

Wang Han, who is actually a subordinate of the poet, his will and actions do not represent much!

But Shi Yu is different. She is a direct disciple of a poet, and she is famous in all directions. Perhaps not the most core group, but her status as a poet is absolutely extraordinary!

If he dares to reprimand Shi Yu, it is tantamount to being an enemy of poets.

At this price, their Golden Great Ape clan also couldn't afford it.

"Miss Shi Yu, where are you, how dare I wait to deal with you?"

Gu Sheng smiled, not daring to put on the posture of God blocking and killing God, Buddha blocking and killing Buddha.

At this time, the battle between Fang Yue and the sixth layer of the Yin-Yang Realm Golden Great Ape had begun.

When Fang Yue read the scriptures, he actually sacrificed the eighteen golden great apes who were in the key link of the chessboard array. Their bodies were stiff and their thoughts were stagnant, although they felt a mysterious power. Brewing in the body, but there is no resistance at all!

These eighteen golden great apes are all the leaders of the same generation of disciples in the clan, and each bloodline is quite powerful.

But this time they became trapped beasts in the cage, and they exploded on their own without the strength to fight, becoming a cloud of blood mist.

These blood mists were integrated into the formation, providing continuous strength for the formation, and the formation was revived, just like an ancient beast waking up from a faint sleep, the ancient beast's breath was long and long, and it seemed to be true.

"The Great Wilderness Array, doesn't this formation mean that it has been lost in the ancient times? Why does it reappear in the world!"

The first person to recognize the origin of this formation was not the Golden Great Ape who was trapped in the Yin-Yang Realm sixth level cultivation base, but Shi Yu, who was stalemated with Gu Sheng.

She is very knowledgeable and has a lot of research in the field of formation.

She had seen the great wilderness formation arranged by Fang Yue in an ancient book. This formation was so exquisite that it could use the terrain of mountains and rivers to reshape the great desolate beast's power during the Primordial Age.

If this formation had evolved to the extreme, it could even summon the great wild beast from the endless nothingness.

Shi Yu took a deep breath. What is the origin of this lonely moon, and he knows such a mysterious formation.

Fang Yue didn't know all of these, even if he knew it, he could only shout injustice.

Fang Yue's various formation methods were obtained in a very simple way, and most of them were plundered from the opponents he had killed.

Even Fang Yue himself didn't know which hapless man had snatched this great wild formation from!

He just thought that this formation hadn't been used before, and wanted to use it for practice, so he arranged it.

If you let him know, there are so many doorways in it.

He would rather keep a low-key, hide this formation without arrogant, let others see that he is special.

Walk out of the crowd, people are better than non-his.

Fang Yue still understands this truth!

The Great Desolate Beast came out, its figure is huge, its skin is hard, showing the color of earth yellow like the earth.

It shook slightly, the mountain shook, and even the ground almost cracked and shattered, revealing its boundless power.

It is like the little overlord of a whole world, a pair of huge eyes, as if the sun and the moon are hanging in the air.

A little yawn, it turned into a violent storm, as if it could sweep a whole world in an instant!

"The \*\*\*\* ape is born!"

The golden great ape on the sixth layer of the Yin-Yang realm had no other care. He felt an unstoppable atmosphere of depression in this formation. He could hardly resist it and could only do his best to protect himself.

A huge ape descended, a hundred feet tall, and the fur all over his body was red.

Its body was on fire, and the ground under its burning feet made a beeping sound.

The vegetation withered, all withered in the flames.

The birth of this divine ape is the inherited supernatural power of the golden great ape family, but it is the talent and great power.

Once they are cast, they will burn their own blood, their physical talents will be doubled, and various spells will be powerfully blessed.

But this great ape came to the world, and each golden great ape can perform a limited number of times in his lifetime.

Because it burns blood, once the blood is exhausted, then the golden great ape's death period will come. From a certain perspective, this is a fight with life.

The ape manifests, and the waves are overwhelming.

The Golden Ape roared, and the layers of sound waves shattered the sky. He was mad, and stepped on the sole of his foot to stamp Fang Yue directly into meat sauce.

"The majesty of my golden great apes is not to be offended! How can it be possible to match my golden great apes with a trivial formation!"

Incarnate as a divine ape, the golden giant ape on the sixth level of Yin-Yang realm became extremely wild.

"Great Desolate Beast, kill him for me!"

Fang Yue is also quite simple and rude.

What face does defeating such an arrogant leave them?

The figure of the great wild beast gradually solidified, and the rather powerful power of heaven and earth brewed in its body!

These powers come from the golden great apes.

The flesh shells of the eighteen Tianjiao burst into pieces, providing it with massive vitality!

Its body moved slightly, and it had an aura of a mountain whirring and a tsunami.

The great wild beast and the golden great ape clashed, and the two actually fought and killed one another.

The bodies of the golden great apes are more flexible, and ordinary attacks can't touch his body, and his fists are exquisite, and each punch can make extremely mysterious moves.

These moves are in harmony with the way of heaven and are extremely lethal. Even the great desolate beast can hardly resist. Every punch that hits the great desolate beast's body is enough to make the great desolate beast's figure illusory.

The Great Desolate Beast moves awkwardly, but its power is stronger, and every move has the power to tear the world apart. Even if only one of the three or five moves can hit, it can make the golden giant ape suffer a big loss and suffer severe damage.

"This great desolate beast is just a mere appearance. Although it is powerful and can be called a behemoth of war, it is seriously inconsistent with the strength of the chaotic beast described in ancient books!"

A look of disappointment was revealed in Shi Yu's eyes.

This great desolate beast was too far away from what she had imagined. Perhaps the formation that Lone Moon had obtained was only a fragment, not all the essence of it.

Finally, the golden great ape found an opportunity, he seized the flaw of the great wild beast, suddenly shot, swung his sword and cut it down, the void was torn apart, and the great wild beast was hit.

The desolation of the big wild beast's figure has become more serious to the point of almost disappearing!

And the golden giant ape finally breathed a sigh of relief, and it roared arrogantly: "Guyue, this time you are in a catastrophe, I will kill this great wild beast, see what qualifications you have to challenge me!"

The golden great ape itself was not very comfortable either. There was a wound several feet long on his body, the wound dripped blood, and the breath of the law was constantly tearing and destroying. This is the way, and it is difficult to heal with ordinary methods.

The blood poured in, and the spring gushed out.

But his heart is still happy, because this lonely moon is about to fall under his feet, and there is no way to survive.

The Great Desolate Beast was dead, and Gu Yue was the next one.

The golden great ape grinned, and the phantom of the divine ape on him slowly receded.

The maintenance of the sacred ape requires him to consume the power of blood. The longer the maintenance time, the more blood is consumed.

The Great Wild Beast's figure faded and almost disappeared, and the remaining lonely moon would not be a problem.

At this moment, the golden great ape was relieved, he wanted to look up to the sky and laugh, this lonely moon was finally dying.

At this moment, Fang Yue looked at the golden giant ape very calmly, his palms caressing the phantom of the great wild beast that was about to dissipate, the great wild beast at this moment, lowered his head and let out a low wailing sound.

The whimpering sound was very bleak, giving people an urge to hug it tightly and help it.

"Guyue, I see what hole you have!"

The golden great ape walked up to Fang Yue and said with great pride.

Fang Yue glanced at the golden giant ape, then lightly patted the body of the great wild beast.

Then, one after another Lingshi came out of his sleeve robe.

Every spirit stone is the least valuable inferior spirit stone.

However, as these spirit stones flew out, the eyes of the Great Desolate Beast showed a little more expression.

There was a look of longing and yearning in its eyes.

The spirit stone shattered and turned into powder. The white powder is floating in the wind, and what is floating together is the aura contained in the spirit stone.

One and two... a hundred, a thousand, those low-grade spirit stones, the few were gathered into more, eventually reached the number of tens of millions.

"Do you know, where is the essence of this great desolate beast? Not just the body of the great desolate beast, but also the immortal formation, the desolate beast will live forever!"

Fang Yue's voice fell lightly.

The golden great ape seemed to be strangling his throat.

His eyes opened wide, watching the phantom of the great wild beast staring again.

That incomparably vast aura pressed again, and it was several times stronger than before!

However, at this moment, he has become a tree of strength.

The thumping heartbeat took all his consciousness in a blink of an eye.

The Great Desolate Beast was resurrected and became more powerful. It slowly climbed up from the ground, lifted the sole of one foot, and crashed down.

The body of the golden great ape was locked and unable to move.

When the sole of the foot fell, its flesh became mud!

Completely defeated!

When facing Fang Yue, the golden great ape on the sixth floor of the Yin-Yang realm didn't even have the power to resist! Under the iron hooves of the great wild beast, it became meat sauce, with no bones left, and it was miserable.

"Is this the powerhouse of the Golden Great Ape Clan? It seems, but that's all!"

Fang Yue muttered to himself, but did not deliberately lower his voice.

At this moment, the strong men of the golden great ape clan looked gloomy and gloomy as water.

In front of everyone, Fang Yue killed a golden great ape at the sixth level of Yin-Yang realm, attacking him with a weak attack and being upright.

What he used was the formation method he had understood, and he did not use any side-by-side methods.

The face of the golden great apes clan was scandalous, this time, they lost completely!

### **Chapter 1300: Resolutely**

"The strength of the golden giant ape clan is not yet your turn to comment! You can kill the strong at the sixth level of the Yin-Yang state of my golden great ape, but can you kill the strong at the eighth level of the Yin-Yang state? You can contend, but what about the leader?"

A golden great ape on the eighth level of Yin-Yang realm spoke, his voice was thunderous and powerful.

This time, they completely tore their faces.

Reason, what reason is needed?

The golden great ape is not at odds with this lonely moon, you die!

Fang Yue closed his eyes slightly.

Sigh gently: "I understand!"

There was a sense of loss in Fang Yue's tone, as well as a vague despair!

Many people were affected by his emotions.

Guyue alone faced a huge and powerful ethnic group. The golden giant apes were inexhaustible to kill, and they even wanted to bully the weak and kill Fang Yue.

How strong this golden great ape clan is at this moment.

And how small is Fang Yue in front of them!

"Guyue, if you agree to join the poet, my poet is willing to shelter you, even if these golden great apes want to kill you, with the majesty of my poet, they dare not take you."

At the critical moment, Shiyu spoke, and she offered to shelter Fang Yue.

Talent is rare.

What's more, Shi Yu had a vague hunch that Fang Yue might be the key to opening this stone monument.

Fang Yue glanced at Shiyu, he clasped his fist and said, "Thank you for the kindness of Shiyu, but my lonely moon is not such a blessing. I am born to be a Chinese person, and die is a Chinese ghost. Since these golden great apes are already there. So shameless, so what if I die with them?"

Fang Yue straightened his waist, like a straight javelin.

A cold wind blows, and the dead leaves fall, like a butterfly dance.

At this moment, he looked extremely desolate.

The strong man of the golden great ape clan at the peak of the Yin and Yang realm breathed a sigh of relief.

He was really worried that this lonely month fell into the arms of the poet.

If the poets are really determined to protect Lone Moon, their golden great ape clan really has nothing to do!

But since Fang Yue was so ignorant, he fell into the grasp of their golden great apes.

Shi Yu sighed, "Master Gu Yue, I'm not afraid that there will be no firewood, so why do you need it?"

Fang Yue grinned, showing a ferocious smile.

This smile looked extremely tragic to the people around.

"Girl Shiyu, my lonely moon is such a cheap bone. Since this golden great ape clan wants to fight to the end with me, then I will fulfill them! But if you want to kill me, you have to pay the price! Your strong man Yunji, they all came to me, but have you ever thought that your weak rear is really as stable as Mount Tai?"

Fang Yue's words touched the heartstrings of the golden giant apes.

But then, a leader-level golden great ape laughed loudly: "You kid, don't want to bluff. There are eight strong men in the Yin-Yang realm stationed in our clan land, and one of them has reached the peak of the Yin-Yang realm. The ancestral land is solid, what are your skills to conquer it?"

Just when the golden great ape's voice fell.

In the distance, a master-level aura burst out violently!

This breath swept across the whole world in a blink of an eye as if it were a terrifying storm.

And the source of the storm is the so-called insurable clan land in the mouth of the Golden Great Ape!

"Is it?"

Fang Yue spoke softly.

The golden giant ape old man's cheek felt hot.

But his heart is even more anxious.

"There is an accident in the clan, you Huaxia dare to use the leader-level powerhouse to participate in the war!"

Fang Yue chuckled: "Since you broke the rules and bullied the weak, letting the strong in the Yin-Yang realm attack me, then why can't I use the human way to treat the human body? Since the rules have been broken Now, let's make it more complete! It's my credit for holding you idiots!"

Fang Yue's words were full of mockery.

The hearts of those golden great apes sank.

This time, the family land is hanging!

"Ancient Tower, quickly support the Hui people!"

The leader-level golden great ape spoke, and shouted at the other leader-level golden great ape.

The footsteps of the ancient pagoda hadn't moved yet, the Great Wild Beast had moved.

Dahuang stood in front of Guta and roared at him.

The great desolate beast at this moment is already a powerful person at the eighth level of the Yin-Yang realm. It is a huge body and possesses some of the instincts of a chaotic beast. At this moment, it is more terrifying than the ordinary strong person on the eighth level of the Yin-Yang realm. !

"Go away!"

Guta's heart was extremely anxious. In the clan land, there are some treasures they collected when they traveled through the Ten Thousand Realms, as well as the Tianjiao among hundreds of clan.

If these treasures are lost and Tianjiao falls, even if he returns to the clan as a leader-level powerhouse, it will be difficult to explain.

Guta suddenly shot, and a black whirlwind was fanned out in the palm of his hand. The force of annihilation was caught in the whirlwind, and ordinary practitioners would not dare to resist even if they were standing in the same realm with him.

The power of annihilation is known to erode everything!

Under the saint, there are few means to resist.

However, the body of the great wild beast did not move, letting the whirlwind mixed with the power of annihilation fall on it.

Its body is invisible, it is originally an immortal body, as long as it has enough energy, it can reorganize and regenerate unlimited times!

"Roar!"

The Great Desolate Beast roared, and it opened its mouth and swallowed the ancient tower into its abdomen.

In the belly of the great wild beast, there is a small world trapped in it, even if it is a leader-level powerhouse with a realm higher than it, it will be difficult to break through for a while.

In a blink of an eye, a leader-level powerhouse of the Golden Great Ape clan was trapped by the Great Wilderness.

The eyes of the leader-level golden giant ape that roared at the ancient tower before were red.

"Guyue, you bastard, this time I swear by Gu Yuan, I will do my best to destroy China!"

Gu Yuan's voice shook the sky, and his anger was overwhelming.

Every time this lonely month delays them, the danger for their people is greater.

"Want to destroy China? Are you qualified?"

The corner of Fang Yue's mouth smiled stronger.

His game has been set up, only waiting for the golden great apes to enter the urn.

Guyuan's heart is about to stop beating!

Because he saw behind Fang Yue, two leaders at the pinnacle came slowly. They were dressed in black robes and stood behind Fang Yue, half of their body wrong.

The two leaders at the pinnacle of the leader state remained silent, one left and the other right, standing behind Fang Yue.

No matter who can see, the honor and inferiority among them, the primary and secondary!

This Fang Yue actually has two leaders at the peak of the leader realm defending the way?

No, there is already a faintly aura of saints on the peaks of these two leaders!

Half holy!

Behind Fang Yue stood two half saints!

Gu Yuan at this moment is almost suffocated!

Didn't it mean that the earth has fallen for many years, and there is no real strong person to protect it?

Didn't it mean that at the end of China's decline, there were only a few strong masters at the master level?

Can anyone tell me what is going on with these two people?

Two half saints!

And there is no record in their previous information!

This is the hidden trump card of the earth?

This hole card is too deep!

"Sure enough, the earth's water is deeper than imagined!" Shi Yu slowly said, nothing unexpected.

This Huaxia can get two semi-sages, saying that it has no saints, Shiyu is the first to not believe it!

Once a force has a saint, it is a strategic threat!

The position of this earth in the universe will be completely different, at least it will not be ravaged as it is now, without the power to fight back!

"Half saint? How about semi saint? There are saints in my golden great ape clan!"

Gu Yuan calmed down from the horror just now, and he hadn't seen him like Semi-Holy!

Even if it was Huaxia's trump cards that were beyond their expectations, Huaxia would still perish!

The races that violated their golden great apes will eventually embark on the path of destruction.

Fang Yue looked at Gu Yuan, his mouth curled up with a sarcasm.

"You golden apes, there are indeed saints, but they don't listen to you, let alone here!"

"I said, this time I'm going to save myself, fight one loses, fight one fish to die, but now it seems to be overestimating you! You golden great apes want to lose both with me, but unfortunately, you are not qualified! "

Fang Yue's voice fell.

The two semi-saints shot, and they joined forces to kill Gu Yuan.

This Guyuan couldn't resist even one, let alone the two teaming up.

Not long after, Gu Yuan was retreating steadily, his face was a little pale!

"Guyue, you dare to kill us, our golden great apes are a clan and won't let you go!"

Na Gu Yuan howled sternly at Fang Yue.

Fang Yue looked at the sky.

"Over there, it should be almost done!"

As if to echo Fang Yue's words.

Before his voice fell, the rain of blood was pouring down. Accompanied by the \*\*\*\* rain, there were also stumps of broken arms of the golden great apes and Tianjiao clan.

In Gu Yuan's bath, his eyes opened wide, and those stumps and broken arms were their geniuses in the ancestral land.

It's over, it's all over!

The seeds of their clan do not know how much they will be destroyed this time.

"Guyue, you can't die! You can't die!"

Accompanied by Gu Yuan's curse, the two half-sacred sword lights cut down at the same time.

Gu Yuan's head fell to the ground, and crimson blood gushed from his neck.

"It is not a good habit to speak ill of people behind their backs, but it is also not good to speak ill of people face to face. I am a small-minded person and will hold grudges!"

The fall of a leader-level powerhouse turned out to be just a few words of sarcasm like Fang Yue.

The ancient original fell, and the death was extremely miserable!

At the same moment, the ancient tower broke open the abdomen of the great wild beast and escaped.

The moment he got out of trouble, he happened to see Gu Yuan's head falling to the ground.

At this moment, his hands and feet were cold.

"Half Saint..."

Guta's throat is a bit dry, why am I coming out? Isn't this looking for death?

Compared with the ancient original, the ancient pagoda's cultivation base is even more unbearable!

The two semi-saints joined forces, and he didn't even follow one move.

The leader-level powerhouse of the last Golden Great Ape clan is already greasy on the soles of his feet.

These are two half saints!

Even if their three master-level powerhouses join forces, they are definitely not opponents!

But the strong poet stopped.

Shi Yu wanted to buy a favor for Gu Yue and sell it to Huaxia.

She felt more and more that the earth's water was too deep, and the ultimate reward of friendship with China and the earth might be even greater!

As for the attitude of the golden great apes, offend it! She doesn't care anyway.
