

## God of Life 1301

### Chapter 1301: The end of the golden great ape

In a blink of an eye, two semi-saints came together, and they shot at the same time, beheading the last leader-level powerhouse of the golden great ape clan.

The remaining creatures of the golden great ape clan are already trembling, and they can no longer see the arrogance they had before!

"Kill them all!"

Fang Yue ordered to fall.

The two semi-sages resolutely implemented it.

The golden great ape clan came to an end this time.

The blood and corpses all over the floor were shocking.

The corpses of three master-level powerhouses made many people tremble!

The existence of the leader of any clan is already the old patron of the clan, and their status is detached. If the saint does not appear, they are the top existence.

On weekdays, the loss of one person makes them feel distressed, and the fall of the three can be said to have shaken the luck of the ethnic group to some extent.

"The golden great ape clan is nothing but this. What if the good fish die and the net is broken? What a disappointment!"

Fang Yue sighed quietly.

Many disciples of the younger generation are speechless.

In the end, who is a native without a foundation, even if they were born into a big family, it is impossible to have two semi-holy powers defend the way, let them drive it!

"Originally, I even prepared a big meal for you! I didn't expect the two semi-sages to kill you!"

Fang Yue said, in a certain direction behind him, another half-holy breath flashed away.

Everyone is shocked and speechless, this fairy tale will be a lie!

He is a semi-sage again, and the semi-sage of this earth does not need money.

Who said that this earth has fallen, and even a decent strongman can't be taken out.

Isn't it half holy?

"Receive the corpses of these golden great apes. Go back and extract the blood in their bodies. If anyone wants to buy them, please contact us!"

Fang Yue smiled and turned from an iron-blooded warrior to a merchant businessman.

This kind of change makes many people feel a little bit overwhelmed.

But Shi Yu showed a slight smile.

This lonely moon is the lonely moon she is familiar with.

The corpses of the golden great apes were quickly cleaned up. In fact, the corpses of these golden great apes are a huge asset. They are just three master-level powerhouses, and the armor they wear with them. The wealth on him is immeasurable.

And the protectors and Tianjiao at the Yin-Yang, Rotating, and Heaven-Earth levels, each of them also holds a large amount of the wealth of the Golden Great Apes!

This time, Fang Yue definitely made a lot of money.

But no one has hit his mind anymore.

The three companion guards, and Fang Yue may still have various unknown methods in his hands.

As long as you don't think you live too long, you must resist the greedy impulse in your heart this time!

At the same time, Fang Yue's status is gradually increasing.

He vaguely changed from a small aboriginal who was not influential to an existence that could sit on an equal footing with them!

"Guyue, this time you killed the three master-level powerhouses of the Golden Great Ape Clan, and at the same time destroyed so many of their Tianjiao, you must be careful of this clan's revenge! However, I recently got a news, maybe This is a good thing for your planet! This galaxy alliance is about to go to war with the old enemy Alpha Galaxy! Once this battle is started, some planes and planetary forces in the galaxy will send troops to fight across the galaxy! If this is this Give credit in the midst of the war, and the earth will be rewarded unimaginably! At that time, a prince like you can also stand out and get the key training of the Star Alliance! At that time, whether it is the dark moon plane or the golden great ape, see you again I always have to detour, and dare not show any disrespect to you anymore!"

Shiyu Fang Yue told a shocking news.

Under this whole world, is it possible that the king's soil, the shore of the soil, is it the king's minister!

No matter which planet or plane in the galaxy is, it belongs to the Galaxy Alliance!

Once the Galactic Alliance starts a war, they all need to do their part, either by giving money or contributing, regardless of whether you are in the flow or not, no one can escape!

Fang Yue was slightly happy when he heard the words.

The level evaluation of each planet or plane will affect the amount and difficulty of the tasks assigned by the Galactic Alliance.

At this time, the name of civilization that does not flow into the earth, but a boost.

The difficulty of the mission on the earth will be drastically reduced!

Even if you really want to go on an expedition, the casualties will not be too great!

"Thank you Fairy Shiyu for the suggestion, Gu Yue has no teeth to remember!"

Shi Yu nodded, she had already given Gu Yue a chance. As for whether she can seize it, it depends on Gu Yue's own ability!

"This Galactic Alliance and Alpha Alliance are going to war again?"

The news soon spread to the eyes and ears of those Tianjiao around.

This news is indeed good news for the earth.

But it is not a good thing for a huge part of the galaxy.

Every time they go to war, they consume countless manpower, material resources, and financial resources.

The fall of a powerful person may be accompanied by the subversion or even death of some forces!

This is an exercise for those with vested interests, but it is a great opportunity for an emerging power like the earth.

Under the influence of the news of the war between the two galaxies, Fang Yue did not have much thoughts to comprehend the runes on the stele again. The golden great ape has been destroyed, and the three semi-sages have already shocked all forces. .

There is no need for him to continue to show his strength!

This is too strong, but it is easy to cause dissatisfaction and alertness of the major forces. Everything needs to maintain a measure!

In the next half month, there was a strange tranquility in the curtain city. A Tianjiao stopped showing up, either he was practicing with peace of mind, or he returned to his family and started planning a star war!

Fang Yue occasionally came to practice in front of this stone monument.

The twelve-sided stele, he turned it almost once in half a month.

A series of runes came out, allowing him to go deeper and further on the road of rule practice.

From time to time, a silver light would fall, giving Fang Yue magical treasures and pills.

Originally, people were still full of curiosity, but over time, everyone became numb.

As for the rumors related to the stele remains and the treasure of the Void Race, it is gradually dissipating.

This Fang Yue had already understood the true meaning of at least three to five hundred runes, but the stone stele showed no signs of change.

Perhaps, the stele itself is the treasure itself.

It is a great opportunity to understand the true meaning of the rules and get the corresponding rewards!

The people in the curtain city also gradually dispersed, and each had its own plane or planet.

And just one day after half a month, the peaceful life was finally broken!

A big man came to Mucheng.

"This messenger of the Galaxy Star Alliance is here!"

"The first thing the messenger of the Galaxy Star Alliance does when he comes to the curtain city is to summon Guyue!"

All kinds of rumors spread in the small Mucheng.

In Shi Yu's residence, in the drawing room, Fang Yue was indeed sitting opposite Zhang Zhao, the messenger of the Galaxy Star Alliance.

There was Shi Yu sitting next to him. During this time, Shi Yu was also very rewarding in the stone stele. Although the number of runes he had learned was not as good as Fang Yue, it was over a hundred!

As she deepened her understanding of the rules, her realm unexpectedly broke through one level unconsciously!

This made Shi Yu's position in poetry rise, and the little one entered the first floor.

When Zhang Zhao saw Shi Yu, there was no arrogance at all, and even the humility he showed did not match the identity of the messenger of the Galaxy Star Alliance.

Zhang Zhao comes from the Galaxy Star Alliance, and is a strong man of the sixth level of the leader realm. If it is placed on other planets or planes, even if it is not a show of power, it is definitely a call forward.

But this time, Zhang Zhao took the initiative to give salute when he saw Shi Yu.

There is no other reason, the poetry behind this poetry rain is too big.

Even if he lends Zhang Zhao some courage, he does not dare to be arrogant.

As for this lonely moon, it is also a thorn.

He was bold enough to be the one who moved the Golden Great Ape. It didn't matter if he moved, this guy also wiped out all the Golden Great Apes that came to the curtain city in one breath!

At first glance, this is a violent master.

Hard to deal with, hard to deal with!

"Guyue has seen Master Zhang Zhao!"

At the first meeting, Zhang Zhao felt that the rumors might be a bit exaggerated.

This lonely moon is polite, not as arrogant as the legend!

Even seeing Fang Yue's succinct dress, clean face, and pleasant smile, Zhang Zhao still gave birth to a trace of goodwill.

"You are Welcome!"

Zhang Zhao let Fang Yue sit down.

"I'm here this time, it actually represents the will of the Galactic Alliance. This is the news of the full-scale war between the Galactic Galaxy and the Alpha Galaxy. You must have heard! This battle is about the survival of the entire galaxy, every civilization, Every planet and every plane has an unshirkable responsibility! As a member of the Galaxy Alliance, every civilization must contribute its own strength! As a planet rated as a five-star non-streaming civilization, the earth also needs to contribute. Give your own strength!"

The meeting was straightforward and directly stated the theme of this time.

Fang Yue smiled.

"I don't know what mission Zhang Zhao brought this time?"

"The earth is a civilization that has not yet entered the twelve-star level. When you send soldiers to kill the Alpha galaxy's 100 million innate, five million heaven and earth, 200,000 rotations, 500 Yin and Yang, and 20 leaders of the leader, it is also Or waiting for the strongest!"

Opening his mouth, his voice is overwhelming. At this moment, he does not represent himself, but the Galactic Alliance behind him!

Fang Yue's smile narrowed.

This is not an easy task.

The difficulty of this task does not match the current evaluation of the earth's civilization level in the galaxy.

"I haven't entered the twelve-star civilization?"

Fang Yue's fingers pulled the upper armrest.

"I don't know where this civilization assessment comes from?"

Fang Yue looked at Zhang Zhao, Zhang Zhao unexpectedly felt a chilly breath escaping from his spine.

Madman, this Fang Yue is indeed a lunatic, even when facing himself, he dares to use murderous aura.

"The Galaxy Alliance has its own set of standards for rating civilizations. For example, civilizations that have not entered the stream are divided into one star to twenty-four stars from low to high, with one star being the lowest and twenty stars being the highest! Originally, the evaluation of the earth It should be a ten-star civilization, but the Golden Great Ape clan sent a document stating that the strength of the earth far exceeds the rating of the Galaxy Covenant. Therefore, after the high-level discussion of the Covenant, the civilization level of the earth was upgraded to the next level. Into the twelve-star civilization!"

## Chapter 1302: Galaxy war

Zhang Zhaojiang said the cause and effect of the incident very clearly.

Fang Yue gritted his teeth and said: "These \*\*\*\* apes are actually stirring up in secret. It seems that I have not killed many of them, so I didn't hurt them!"

Seeing Fang Yue's somewhat sullen expression, Zhang Zhao secretly worried for the golden great apes.

"Actually, this task is not as difficult to complete as you think. If you encounter a real master who can't kill, you can use a low-level practitioner to offset it! For example, the military merits of killing ten innate realms can be exchanged. One world realm, ten world realms can be exchanged for a rotation realm, ten rotation realms can be exchanged for a yin-yang realm, and ten yin-yang realms can be exchanged for a leader-level powerhouse! This exchange is still quite cheap, no matter how bad, Donating materials to avoid war and offsetting military merit is also a way out!"

Zhang Zhao's attitude was a bit ambiguous, not as condescending as Fang Yue imagined.

Fang Yue seemed to think of something suddenly. He suddenly asked, "Master Zhang Zhao, are you the only messenger of the Galaxy Alliance that is coming to Earth this time?"

Fang Yue suddenly asked an irrelevant question.

But Zhang Zhao showed a surprised look.

"No, the Galaxy Star Alliance attaches great importance to the earth. A total of 18 envoys have been sent to 18 places!"

Fang Yue knew it, and it really was.

Each envoy of the Galaxy Star Alliance is responsible for supervising the combat situation of various civilizations. They are in charge of different forces. Which force makes the greater contribution, the greater the corresponding credit of the alliance envoy.

And this call should be the city of the curtain.

Although it cannot be said that the Mucheng City is a single power, the gathering of heroes, if they can unite, is also a large power.

Seeing Fang Yue's clear expression, and the divine light that flickered in his eyes.

Zhang Zhao nodded slightly, he really chose a smart person.

"Among these eighteen earth messengers, the weakest one is at the third level of the leader realm, and the strongest should have reached the peak of the leader level!"

Zhang Zhao spoke again, revealing a little information he knew to Fang Yue.

Fang Yue nodded slightly, everything was not unexpected.

"Alliance messengers are coming, I am considered to be one of the eighteen messengers on the earth that is relatively late. One of the questions, it has already come in two days! He chose the position of Huaxia Emperor, and the thunder of conquering has been dispatched. Three thousand biochemical warriors stepped into a certain planet in the Alpha galaxy. That planet is also in the ranks of influential civilizations. The specific level should be around ten stars. As far as I know, those three thousand As soon as the biochemical warriors stepped into that planet, they were killing them. The number of natives killed by these biochemical warriors exceeded one hundred thousand, and his military merit points under his name reached the level of over eight thousand!"

Zhang Zhao wanted to put some pressure on Fang Yue. Before coming, Zhang Zhao had already investigated Fang Yue's identity.

The so-called Lonely Moon is just a fake identity, and his real identity is Fang Yue.

As for the grievances between Fang Yue and Lei Ming, he is also clear, the intelligence system of the Galaxy Alliance is far from comparable to those of other large and small forces!

"Thunder..."

Fang Yue already knew that this call must have guessed his identity. He didn't mention it in black or white, but used thunder as an example. This is obviously a problem!

"Fang Yue, don't underestimate the military merit points of this Galaxy Star Alliance. This thing is a hard currency in the galaxy! Only by killing a practitioner in the heaven and earth realm can you get a military merit point. The innate realm is only one tenth. A military merit point, for each level higher, the number of merit points is increased by ten times. Of course, some natives can kill the fighters of the Galaxy Alliance, and the natives will also generate corresponding reward orders, and the military merit points will increase! Or maybe they are some natives who are talented, the number of military merit points will not be calculated according to the realm! However, you must understand that these military merit points can be exchanged for various treasures in the Galaxy Alliance, including those that are not available on Earth. Various advanced cultivation methods, various resources, and even military ranks in the Galaxy Star Alliance, noble status, etc.! Eight thousand military merit points, if this thunderous is willing, can even be exchanged for the status of a one-star noble, from the earth The immigrants leave, go to a higher civilization system, and receive a certain degree of shelter from the Galactic Alliance!"

Zhang Zhao talked endlessly, spitting wildly.

Fang Yue and Shi Yu listened silently, and neither of them interrupted.

The number of wars between these two galaxies is actually very small. Generally, it may not happen once in hundreds of thousands of years or even millions of years, but each occurrence will lead to unimaginable devastating consequences, whether it is Shiyu or Fang. Yue didn't dare to take it lightly.

Fang Yue remained silent, his mind was constantly analyzing the extremely limited information he had just received from Zhang Zhaokou.

This galaxy war is definitely an opportunity for the carp to jump through the dragon gate. The most cost-effective exchange of merit points is the basic technology of scientific and technological civilization and the wonderful secrets of the practitioners' civilization. These things can speed up the development of a

civilization ten times a hundred times faster. Perhaps a scientific and technological achievement is the progress of civilization for tens or even hundreds of years.

This time the war must be won, but also beautiful and fruitful.

If we say that the life and death battle between the earth and the dark moon plane, then this galaxy war is a battle of rise and fall for the earth.

If the earth is victorious in the battle of the galaxies, it will be the leap to the dragon gate one step at a time. Even if it is civilization, it is not impossible. However, the performance was not good, the mission could not be completed, or even a complete failure. The civilization of the earth has never recovered, and it is not impossible to be occupied by the dark moon plane.

Therefore, the outcome of this war is very important!

The final victory will affect the future direction of the earth's civilization!

"So how do we get to this Alpha Galaxy?"

Fang Yue posed a crucial question. If the teleportation array was used, the cost would be too high. Fang Yue was proficient in space and heaven and understood the principle of the teleportation array.

The farther this distance is, the greater the energy consumed by the teleportation array, and it is almost impossible to complete a teleportation across the galaxy. And even if the distance of this teleportation is split, one teleportation array is turned into dozens of teleportation arrays, and the cost of transmitting one or two people is measured by hundreds of millions of spiritual stones, it is simply not worth the loss!

Unless they, like Fang Yue, have studied the space and heaven to the extreme and mastered the ancient Yin-Yang teleportation method, Fang Yue can hardly think of any other teleportation methods that can cross the creatures at a small price. Teleportation of the galaxy.

"Space Crack! The Galaxy Alliance has the technology to create two-way space cracks in a directional manner. Each of the Galaxy Alliance messengers has a space crack maker in their hands. However, once the space crack is created, it will last for at least ten days. Time, and every time you create a space crack, the cost is not small. The first time you can make it for free, but if you want to continue to make it later, you need to provide this price!"

Zhang Zhao took out a box the size of an adult's palm.

The surface of the box is as smooth as a mirror, with silver light.

When Zhang Zhao held out the box, he was cautious, as if he was a beloved baby, and he took care of everything.

The cost of this space crack maker is extremely expensive, no less than a master-level magical device. If it is slightly damaged, it will cost a lot to repair it.

"How much does it cost to create a crack in this space?"

When Fang Yue saw this manufacturing machine, a faint light flashed in his eyes.

"If you use military merit points, you need about five thousand military merit points, but if you use resources, the cost is higher, and it will cost about 500 million spirit stones!"

Zhang Zhao answered, Fang Yue was silent.

No one knew what Fang Yue was thinking at this time.

"This space crack maker actually opens space cracks in a designated location in the Alpha Star Territory. You'd better choose some hidden and unmanned places to open the space cracks. Otherwise, the people from Alpha Planet will counterattack in, but it will give the earth. This has caused a lot of waves. If the powerhouses of the Alpha galaxy cross the boundary, the strength of the earth today may not be blocked!"

Zhang Zhao handed out a jade slip. This jade slip marked the azimuth map of the entire Alpha galaxy. The map is very detailed and contains a huge amount of information.

Its value is simply inestimable.

"You two choose a place to open this space crack, but you need to be cautious about opening this space crack!"

Zhang Zhao's extremely cautious counterpart Yue and Shiyu said.

Fang Yue immediately realized that this matter was simply a big pit!

The place where this space crack opened for the first time, if you choose to be in some more conservative areas, the strength of the creatures is generally weak. In this case, although you can ensure safety, but you can't get too many military merit points.

After all, the number of military merit points is closely related to the strength of killing creatures.

When the Alpha Star Territory in this area has been killed, it will be necessary to open a more powerful space crack again.

And to open the space cracks, there is a price!

The tricky inside is really not small.

"Let Shiyu and I consider this matter!"

Fang Yue and Shi Yu looked at each other and responded.

This matter is very important and cannot be careless.

Zhang Zhao nodded slightly: "This kind of thing is really sloppy, but you also need to step up time when discussing it. There are nine messengers on this earth, and six of the other eight messengers have already opened the space crack. If you start it too late, I am afraid that the speed of accumulating combat exploits will fall behind others!"

Fang Yue nodded, and then he chatted with Shiyu and Zhang Zhao for a while. Zhang Zhao bid farewell and went to build his own residence!

As the messenger of the Galaxy Star Alliance, Zhang Zhao has a special status and cannot live in a shabby place.

Every messenger has a castle to carry with him. This castle is not only magnificent, but also has hundreds of powerful puppet slaves!

After Zhang Zhao left, Fang Yue and Shi Yu got together. In recent days, the two of them have been gathering together to discuss this rune stele. The relationship between the two of them has become closer and closer, and they have become close friends.

### **Chapter 1303: Undercurrent**

"In fact, the place where this space crack opened is the second place. The key is why the Galaxy Covenant is at war with the Alpha Galaxy this time! This call seems to be kind, but in fact it is not honest. There are many things to hide in his words. , In some places, if we are a little reckless, we may make big mistakes!"

Fang Yue said to Shi Yu calmly.

Shi Yu nodded and approved Fang Yue's statement.

Zhang Zhao's attitude is difficult to distinguish between enemies and friends. Perhaps when they have common interests, they are friends, and when they do not have common interests, they can hurt and abandon each other.

This is not something that is difficult to understand and accept for Shi Yu, who came from a big family.

In other words, in Han Clan, this is the norm.

Fang Yue didn't speak, he was waiting for something.

After a moment of silence, a harrier pigeon flew over and landed in front of Fang Yue.

There is a finger-wide note on the Harrier's ankle bone.

The content on the note is very simple, the imperial capital was in chaos and fell apart.

The signature is Li Qingyun.

Shi Yu glanced at Fang Yue in surprise, then showed a faint smile.

"Fang Yue is indeed Fang Yue, they are not at the same level of wisdom as you."

Originally, Shi Yu didn't know Fang Yue's identity, but as she had more contact, it was easy to reveal clues. Coupled with this time Zhang Zhao's reminder, Shi Yu also understood Fang Yue's identity.

Fang Yue clasped his fist and said, "Mistaken, hiding your identity these days is not deliberate."

Fang Yue's explanation didn't have much guilt, or that he didn't need to be guilty at all.

He didn't deliberately hide his identity. If he really wanted to hide it, Shi Yu would never see the slightest flaw in him.

"Those people think that by sitting in the Imperial Capital, they will be able to grasp the overall situation, and in your eyes, this Imperial Capital is probably also a chess piece on your chessboard!"

Shi Yu's thinking was very active, and she understood the letters on Harrier Pigeon at a glance.

It is true that the people of the Galactic Alliance came to the Imperial Capital, but not everyone believes in the Galactic Alliance. Their interests are different and it is normal to choose to have differences.

In fact, staying in the Imperial Capital is not good, there is a mixed bag, and accidents are easy.

"What information do you have about this galaxy war?"

Shi Yu comes from a poet, and he must have more information than him.

Therefore, Fang Yue asked directly.

Shi Yu was silent for a moment, "Although you and I are allies, we have not yet achieved information sharing. Allies are built on an equal basis. I don't want to be a unilateral Chu Mansion!"

Fang Yue grinned and said: "Of course, I also bought some information from Galaxy Bank, for example, the resource distribution map of certain places in Alpha, for example, the Galaxy Star Alliance's reward method for each civilization's mission!"

The eight immortals cross the sea, each showing their magical powers.

Shi Yu has the number of channels to get the news, and Fang Yue also has it.

"Galaxy Bank? I didn't expect you to be related to them. I really underestimated you! These two pieces of information, what kind of information do you want to exchange with me?"

Shi Yu looked at Fang Yue's eyes with a touch of splendor.

Galaxy Bank, many influent civilizations may not have contact, and Fang Yue was able to obtain information from them, to a certain extent, proved his ability.

"Two copies for two copies! I want the expedition list of the big forces in the Galaxy Star Alliance, as well as the overall influence of Alpha Planet!"

"it is good!"

Shi Yu pondered for a moment, and immediately agreed.

"I can exchange these two materials with yours. It takes a very high price for my poet to obtain the information. As a disciple of the poet, although I can obtain it unconditionally, I will eventually owe favor to the family. Those who come out of this mess will always have to pay it back. If you owe it to others, it's harder to pay it back to the family!"

In fact, Shi Yu didn't have any ready-made information in her hands. To get the information, she had to apply to her family.

The two traded and reached an agreement instantly.

After half an hour, Shiyu's information was available.

The two studied the data together, discussed for a long time, and finally got some useful information.

First of all, the overall strength of the Alpha Galaxy is actually stronger than that of the Galaxy Covenant, but the civilization system of the Alpha Galaxy is single, and there is only one cultivation civilization. Although the overall strength of this Alpha galaxy is strong, it is not much stronger than the Galaxy Alliance. It is only about two to thirty percent stronger than the Galaxy Star Alliance, and this advantage can easily be wiped out in a long war. The purpose of this war, according to the two men's guesses, is that there are probably two possibilities. One is to plunder the spiritual resources of the Alpha galaxy. After all, the area of the Alpha galaxy is three times that of the Milky Way, and the various resources in it are even more. Ten times as much as the Milky Way. The second possibility is that something extraordinary has been discovered in the Alpha Galaxy recently, or it is a magic weapon, or a technique or something like a monument. This thing is invaluable, and it has touched the heartstrings of the power of the Galaxy Alliance.

Secondly, the rewards of this galaxy war for all civilizations are divided into levels!

For example, after the basic missions on the earth, challenge missions can be carried out!

If all the creatures on the earth obtain one hundred million military merit points after the basic mission is completed, they will be able to obtain additional resources of ten billion spirit stones and five hundred additional guardian puppets at the pinnacle level of transit.

Obtaining one billion military merit points, you will be able to obtain additional resources of one hundred billion spirit stones and twenty third-level guardian puppets of Yin-Yang realm!

By analogy, the more military merit points you get, the more rewards the Galaxy Alliance will issue!

This reward has a total of 1,000 small levels, but the difficulty span of each reward level is also increasing in geometric multiples!

On the individual side, there will also be a corresponding military merit award system.

This person's reward system and reward content also change with the power represented by the joiner and his own realm.

Like Shi Yu, if she represents the earth to participate in this war, she needs to complete the basic personal military merits of 500 points, and then gain the military merits, you can get rewards!

On the other hand, Fang Yue is the level of Yin-Yang realm, representing the earth to participate in the war. After gaining three thousand military exploits, Fang Yue completes basic tasks and then receives rewards.

Of course, these basic military exploits can be used to redeem the items of the Galaxy Star Alliance, but there are no additional rewards!

Fang Yue is quite enthusiastic about these rewards.

This is the opportunity for the earth to rise from now on. Today's earth has no shortage of talented people, but also various techniques and secrets. As long as there are enough resources, the earth can soar into the sky and advance quickly!

In addition, there are rewards for meritorious service from every force.

For example, the power that Fang Yue belongs to is defined as the Mucheng power.

This force has a low level and weak strength. It only needs to accumulate 200,000 military merits to complete basic tasks.

The sum of all kinds of information made Fang Yue look forward to this interstellar battle.

The next day, Fang Yue and Shi Yu found the location of Zhang Zhao's residence.

They said that they have agreed on the location of this space crack.

"Shiyu, you also want to participate in the war on behalf of the forces of the curtain city on earth? I have to explain this matter in advance. Once this force is set, it cannot be changed!"

Zhang Zhao immediately showed a cautious and surprised expression when he heard Shi Yu wanted to participate in the battle on behalf of Mucheng.

Shiyu is a poet, how can she participate in the war on behalf of Mucheng?

"No problem, I have already agreed with the family! This military merit is the same no matter where you get it. As for the rewards for this basic task, if I return to the poetry school, I am afraid it will take eight thousand military merits to complete it. The basics are anything! But in the curtain city, I only need five hundred military merits to complete the basic tasks and start to hit the rewards! This choice is more beneficial to me!"

Shi Yu blinked.

Zhang Zhao didn't do much to dissuade him. He was able to remind Shi Yu that he had done his best. If the poet is not satisfied in the future, he will be able to defend himself one or two!

"Since this is your choice, then I won't say more!"

Zhang Zhaoyan returns to the subject.

"The location where the space crack opens this time is very important. You two must be careful!"

"Well, thank you Envoy for reminding us that this time we chose to build this space crack at the foot of Jiuyou Mountain outside the curtain city! As for the opening position on Planet Alpha, it is probably here!"

Fang Yue evolved a 3D map out of thin air, and with a quick finger, he pointed out the location of Zhang Zhao.

"This place...Fang Yue, are you sure you want to open a space crack here?"

Zhang Zhao looked at Fang Yue in an incredible way.

Fang Yue nodded solemnly.

"Yes, it's here!"

Therefore, the outcome of this war is very important!

The final victory will affect the future direction of the earth's civilization!

"So how do we get to this Alpha Galaxy?"

Fang Yue posed a crucial question. If the teleportation array was used, the cost would be too high. Fang Yue was proficient in space and heaven and understood the principle of the teleportation array.

The farther this distance is, the greater the energy consumed by the teleportation array, and it is almost impossible to complete a teleportation across the galaxy. And even if the distance of this teleportation is split, one teleportation array is turned into dozens of teleportation arrays, and the cost of transmitting one or two people is measured by hundreds of millions of spiritual stones, it is simply not worth the loss!

Unless they, like Fang Yue, have studied the space and heaven to the extreme and mastered the ancient Yin-Yang teleportation method, Fang Yue can hardly think of any other teleportation methods that can cross the creatures at a small price. Teleportation of the galaxy.

"Space Crack! The Galaxy Alliance has the technology to create two-way space cracks in a directional manner. Each of the Galaxy Alliance messengers has a space crack maker in their hands. However, once the space crack is created, it will last for at least ten days. Time, and every time you create a space crack, the cost is not small. The first time you can make it for free, but if you want to continue to make it later, you need to provide this price!"

Zhang Zhao took out a box the size of an adult's palm.

The surface of the box is as smooth as a mirror, with silver light.

When Zhang Zhao held out the box, he was cautious, as if he was a beloved baby, and he took care of everything.

The cost of this space crack maker is extremely expensive, no less than a master-level magical device. If it is slightly damaged, it will cost a lot to repair it.

"How much does it cost to create a crack in this space?"

When Fang Yue saw this manufacturing machine, a faint light flashed in his eyes.

#### **Chapter 1304: Go beyond the border**

Afterwards, Zhang Zhao took a deep look at Fang Yue, and said, "Since your idea has been decided, I can't say much, but you have to remember that once this space crack appears, it cannot be known to others. Especially the Alpha galaxy's centaurs, if they use this springboard to invade the Galaxy Covenant, no one can save the earth!"

Fang Yue smiled and said: "Don't worry, this time I enter, only me and Shi Yu, don't you worry about the strength of the two of us?"

Fang Yue patted Zhang Zhao's shoulder. Some were not big or small. There was an angry expression on Zhao's face, but he was quickly suppressed and his angry expression dissipated.

This time he has to rely on Fang Yue to get the top value.

But when the matter is over, see how he cleans up this guy.

An influential civilization is nothing more than, how can such precious military merit points really make you waste and squander it.

A look of contempt and greed flowed past Zhang Zhao's eyes.

He obviously has his own plan in his heart!

"Remember, every time this space crack is opened, it can only last for ten days. If you two cannot return smoothly within ten days, you will always stay in the Alpha Galaxy!"

Zhang Zhao exhorted again, looking extremely eager.

Fang Yue nodded, and then the three of them opened a space crack in a remote place around Mucheng, and Fang Yue and Shi Yu stepped into it at the same time.

Fang Yue and Shi Yu disappeared, and Zhang Zhao's expression instantly became gloomy.

"Boys who don't know the fun, I hope you two can come back smoothly! Choosing a one-star civilization as a starting point is really a bit of a life and death!"

The scene in front of Shi Yu and Fang Yue changed, and in an instant it was replaced by a vast expanse of yellow sand. The sky of yellow sand made their faces hurt.

The wind is still mingled with strands of qi!

If ordinary practitioners come, even elite martial artists from the world realm, stepping into it, will be eroded by these qi, and then their body will be torn apart and become fragments.

However, this gang wind and yellow sand are not the slightest threat to Fang Yue and Shi Yu. They don't even need the slightest defensive means to come out from time to time. A small area will automatically form around the body to resist. External attack.

Gangfeng Desert, this place is worthy of the name.

This is one of the three major forces in the Nine Nether World, a relatively marginal barren land in the Chaos Sea.

There is no grass growing in the Gangfeng Desert, and there is nothing in it except the endless yellow sand.

This place is rarely visited, so Fang Yue chose this place as the place to open the space crack!

Only by opening the space cracks in such a place can people not be discovered and disturbed.

"This yellow sand is all quartz sand. These sands are extremely hard and can be cast into innate realm-level artifacts. The purchase price of Galaxy Bank is 100 kilograms of Huang Yingsha, worth fifty low-grade spirit stones! If all the boundless quartz sand were dug away, what a fortune would be!"

As soon as Fang Yue landed, he hit the top of Huang Yingsha.

Shiyu was a little dumbfounded, this guy is crazy!

This kind of broken material, even if it is given to her, she doesn't want it.

I remember that in the back garden of my home, the paving soil is all three-color soil, which is the material for the cultivators of heaven and earth to cast weapons.

Didn't this Fang Yue sound rich? The VIP level in Galaxy Bank is still not low, why is he blindfolded by this little money at this time?

Shi Yu hesitated, do you want to remind Fang Yue that the task is important, as long as they have completed the meritorious task assigned by the Galaxy Star Alliance, both of them can fly into the sky! Even the earth behind Fang Yue will also benefit, and can be improved by more than one in terms of overall strength and civilization level.

But when Shiyu hesitated and hesitated.

Fang Yue has summoned a thousand puppets at the pinnacle level of the heaven and earth realm!

Fang Yue's thought fell, let these puppets each have three storage bags to hold these Huang Yingsha and fill the storage bags.

Each storage bag in Fangyue has a volume of at least 1,000 cubic meters, and the density of Huangyingsha is extremely high. One thousand cubic meters of Huangyingsha weighs at least 100,000 kilograms.

One hundred kilograms is fifty low-grade spiritual stones, and that one hundred thousand kilograms is fifty thousand low-grade spiritual stones!

One puppet is three storage bags, and one thousand puppets is three thousand storage bags.

If Fang Yue's plan goes well, this would be a 150 million low-grade spirit stone!

Shiyu calculated such an account silently in her heart, and her heart suddenly twitched!

The 150 million low-grade spirit stones were not a small number for her.

But looking at the endless yellow sand, she felt a little weak in her heart. When she went out, she didn't carry so many puppets to dig the sand!

Moreover, she didn't have so many storage bags to hold the sand, Fang Yue, why did she carry so many storage bags when she went out!

She didn't know that all of Fang Yue's storage bags were obtained by him.

He killed too many people, and there were so many idle storage bags!

Shi Yu at the moment, looking at Fang Yue, she is often touted as the think tank of poets, and she is smart in calculation.

But now it seems that compared to Fang Yue's calculations, her level of calculation is nothing short of inferior!

The puppets at the pinnacle level of the Thousand Heavens and Earth Realm sent by Fang Yue are extremely fast. They are scattered across the desert to collect quartz sand, so that they can prevent people from seeing too obvious marks!

Just waiting for the cup of tea, the tasks of these puppets have been completed.

The sand on the ground sank a thin layer. According to Fang Yue's estimation, it was about three to five centimeters!

Seeing that the storage bag full of quartz sand was delivered to Fang Yue's hands, Shi Yu was stunned.

In this way, a simple one-hundred and fifty million low-grade spirit stones can be obtained?

The legendary lie down to make money, but that's it!

Fang Yue put away a thousand puppets and smiled.

"Let's go, let's go! Let's go to Jiuyou Empire!"

"it is good!"

Seeing Fang Yue finally stepping into the topic, Shi Yu gave a sigh of relief.

He was worried that Fang Yueli would be tempted, so he patronized the business, and finally forgot the business!

Walking out of the Gangfeng Desert less than 3,000 kilometers away, the two encountered a small battle.

Thousands of skeletal archers at different levels guarded the wall of a small city, their arrows were like rain, and they kept shooting towards the ground.

On the ground, the corpses became mountains, and there were teams of people on the corpses trampling on the corpses of their companions and charging toward the city wall desperately!

The cultivation realm of both sides is probably at the level of the heaven and earth realm.

If this level of war were to be placed in normal times, neither Fang Yue nor Shi Yu would even look at it!

However, this time, this war was the beginning of their military career!

"Is this the border friction between Jiuyou Empire and Guangming Empire?"

Fang Yue whispered.

This war is actually quite tragic.

The guards on that city wall are obviously the people of the Jiuyou Empire. They admire the power of death and are even more adept at using the rules of the dead!

The soldiers and horses of the Bright Empire are constantly charging.

It seems that the soldiers and horses of the Bright Empire are temporarily located at the lower peak, but in fact, it is not the case.

There were a hundred thousand people in the Bright Empire this time. All the cannon fodder in the empire of light was the cannon fodder who was charged and shot just now, and these cannon fodder were those who committed serious crimes or committed blasphemy against the mansion of the light.

If they can gain military merit in the war, they can alleviate their sins and even regain their status as civilians again. If they die on the battlefield, they are dead in vain!

Their death can consume the arrows of the skeleton archer, which is also a kind of contribution!

"How many people in the Cannon Fodder Corps are probably dead?"

A middle-aged man in a white robe, who appeared to be a clergyman, asked the adjutant next to him in a shrill voice.

"Three thousand!"

The adjutant was respectful, and walked in the Guangming Empire based on the path granted by the kingship.

The prime minister of this empire and the emperors of the past must be recognized by the Light God Court in the Bright Empire before they can be recognized by the people.

The status of clergy is therefore extremely high, at least one rank higher than the officials of the Bright Empire.

This white-robed priest is at the pinnacle level of the rotation realm, and the adjutant is also at the same level.

But the status of the two is worlds apart!

"Well, it's almost there, it can be used for sacrifice!"

The white-robed priests spoke lightly, they were not prepared to give those cannon fodder any hope of survival.

"Yes!"

The adjutant spoke respectfully.

Then he shouted at the people behind him, "Start offering sacrifices!"

When the voice fell, one hundred and eight military powerhouses in the rotation realm formed a mysterious formation, and each of them had a sacrificial text in their hands.

The one-hundred-eight soldiers in the rotation realm recited sacrificial texts.

The corpses on the ground and their voices resonated with each other.

"What is this?"

Fang Yue outside the battlefield suddenly felt a sense of curiosity.

And Shi Yu seemed to have seen something, her face was green and she said, "Blood sacrifice, I didn't expect that the Guangming God of the Guangming Empire would actually take this path!"

Before Shi Yu's voice fell, those corpses had all burst into pieces, and mottled bright spots had long been injected into their blood.

Those smashed corpses turned into a cloud of blood mist, and there were strands of light power hidden in the crimson.

All the blood mist and light blended with each other, and finally became a monster.

This monster is ten feet tall, the surface of the body is gray fur, and the fur is sturdy. The arrows of those skeleton archers fell on the fur of the monster without leaving a trace!

The monster walked towards the wall of the small city step by step, moving extremely slowly, but it seemed to be a steel and iron bone, invincible in the world, with an unbreakable defense.

"Death Corruption!"

Behind the thousands of skeleton archers above the city wall, an old man dressed in black robe and hidden in the breath of death opened his mouth tremblingly.

He was also extremely shocked by the scene before him.

However, after being shocked, he made a firm move. He is one of the only three powerhouses at the pinnacle level in this small town!

If he is defeated, this city gate will definitely be breached.

Because the two remaining powerhouses at the pinnacle level of the rotation realm in the city are pure warriors, not suitable for such a large-scale war!

### **Chapter 1305: Irresistible**

"Send another three thousand cannon fodder to keep up! With the cover of the giant war beasts, climb the wall and slaughter these skeleton archers!"

The command of the white clergy is decisive. In his eyes, these are all routine things. Using this method, he will not be disadvantaged in every war.

In the last three months, he has captured five cities.

And this one is about to become the sixth city.

The cannon fodder of the three thousand heavens and earth levels followed.

With the help of the huge body of the war beast, they quickly came under the city wall, built a ladder, and climbed up.

As a warrior of the heaven and earth realm, the fifty-meter-high city wall could not stop them at all.

On the wall, rolling wood, hot oil fell one after another.

This time the cannon fodder army suffered losses again, but this loss was not unbearable.

They charged forward, not afraid of life and death, and 60% of the people rushed to the city wall.

Skeleton archers are good at long range, but in melee combat, their fragile bodies are as easy to tear as paper.

"Skeleton soldier, come on, protect the skeleton archer!"

On the wall, the three thousand skeleton soldiers who had been ambushing for a long time waited for a long time, and they began to fight in close hands!

Skeleton soldiers are also at the level of the world realm, and they have the upper hand in strength.

And that war behemoth and the skill repair of the peak of the rotation stage on the city wall have already begun to confront each other.

On the chaotic city wall, the skeleton archers no longer have the power to suppress, the regular army of the Bright Empire finally began to slay towards the city wall, and there is a light milky white light film on their heads. There are arrows falling, this light can also resist individual arrows, so that the army will not be harassed by arrows!

"Go!"

A warrior at the pinnacle of the rotation realm led Kaicheng to fight against him. Behind him were the elite ghost warriors in five thousand cities. The cultivation bases of these warriors varied from the world to the rotation realm! This is the last elite in the city, if defeated, the city will change owners.

"Huh, dying to struggle!"

The white robe clergyman snorted coldly, and didn't pay attention to these underworld warriors at all. If there is a threat, the only threatening person is the warrior at the pinnacle level of the rotation.

It's a pity that in this kind of war with a sea of people, the individual powerhouses will not be able to turn things around unless they exceed one or two big realms!

"Bright Fire!"

The priest speaks, his voice has a trace of contempt in his arrogance!

His scepter waved, and clusters of sparks from the power of light fell.

Every cluster of sparks landing will be accompanied by the spontaneous combustion and fall of a samurai!

Light and death are inherently restraining each other, including these underworld warriors trained with the help of underworld!

The underworld warrior is quick with the help of underworld, but at the same time has a fatal weakness!

This seems to be a balance of laws between heaven and earth!

In a short time, more than three hundred samurai were turned into ashes!

suppress!

This is naked suppression!

Fear and despair have been born in the hearts of those samurai.

Even the resistance on the wall is no longer so tenacious.

The clergy of the Guangming God Sect had already felt the feeling of holding the magic ticket.

Um, are these the taste of victory?

There was a pleasant look on his face.

But this time.

The delightful color on his face freezes.

A silver flying needle fell from the sky, piercing the center of his eyebrows!

His head pierced through, and his eyes were unwilling.

But the annihilation of the soul left him no room for resistance.

"Soul Destruction Needle?"

Looking at Shi Yu who had just shot, Fang Yue showed a surprised expression!

He had heard of this thing, but he had never seen it.

Soul-killing needle is a relatively vicious kind of hidden weapon.

Once in the body, it can directly attack the soul. The soul of ordinary people has no defense.

The toxin of the Soul Destroying Needle spreads, and even the leader-level powerhouse cannot escape the doom of death.

"Ok!"

Shi Yu nodded slightly.

With the fall of a clergyman, the army of the Bright Empire immediately went into chaos.

Among the three armies, the commanders have been killed. Can they not panic?

"What's happening here?"

The old man at the pinnacle of rotation on the wall slowly moved his gaze to the direction the flying needle had pierced.

An ordinary-faced teenager and a stunningly beautiful girl stood side by side, expressionless.

The messenger of the Light God is dead!

At this moment, the old man just wants to look up to the sky and laugh, even if their city of Tam has been conquered, it is worth it!

Because the culprit has been put down!

"Surrender and not kill!"

Fang Yue also walked out.

His voice is low and soothing.

That voice seemed to have an inexplicable power, making the soldiers on the side of the Bright Empire feel depressed in their hearts.

On the side of the Nine Nether Empire, their hearts are extremely comfortable at this moment. They are relieved, feeling that their hearts have become more relaxed!

"Surrender and kill! Don't leave one!"

Shi Yu behind Fang Yue's tone was cold, and her eyes revealed an astonishing murderous intent.

"The believers of these false gods of light deserve to die! The power of light illuminates the earth and nourishes all living beings. They don't understand the true meaning of light, but only understand the power of light. All those who intend to do evil should be killed and cut!"

Fang Yue was a little stunned, Shi Yu had always been calm, she was a wise woman, and when did she get so angry.

However, since she had spoken, Fang Yue was too embarrassed to refute.

"Hahaha! You just killed a messenger of the Light God Sect, do you mean we will definitely lose this time?"

The adjutant laughed, without a trace of humility on his face.

The messenger of the Light God Sect died in battle, and he was the leader of this group of people.

These people are all trained by him alone, and he is like an arm to this 100,000 army.

Fang Yue smiled and said, "Really? You might as well have a look behind me!"

Fang Yue gave up half of his position.

Lines of undead soldiers lined up.

There are a total of five thousand undead, but these five thousand undead are all at the level of the rotation realm!

The adjutant's face became a little ugly.

Although this guy couldn't see through his breath, he was at the level of Yin-Yang realm at most. If he was in the leader realm, he would have a whim feeling when he appeared.

However, it is impossible for the Yin-Yang realm to summon so many undead troops at the rotation realm level!

In fact, Fang Yue did not summon so many undead army, this is not because he can not do it, but too much trouble.

Fang Yue opened a summoning formation leading to the underworld, and then asked Xiyue Guishang to dispatch him an army of five thousand undead to frighten these guys from the Light Empire.

Of course, there is a price for this employment, and the price Fang Yue pays is a Yin Soldier at the rotation level. If these people suffer losses, Fang Yue needs to pay other expenses.

As far as Fang Yue is concerned, a Yin Soldier of the Rotational Realm level is also within the scope of his tolerance!

"kill!"

Fang Yue waved his arm.

The undead army at the level of five thousand rotations roared in unison.

Their morale is like a rainbow. Although this one hundred thousand army is large in number, they are all at the level of the heaven and earth realm. The sporadic rotations are also generals in the army. They may not add up to a hundred people. Not their opponent!

"Damn fellow, you obstructed the good deeds of my Guangming Empire and beheaded the messenger of Guangming Divine Sect. You are not good to die, you are not good to die!"

The adjutant roared at Fang Yue and Shi Yu.

He was extremely angry. If these two people hadn't appeared, they would have taken the city!

"Withdraw, withdraw!"

The adjutant is a person who knows how to judge the time and the situation. The average realm of the five thousand undead army is a lot higher than them. Although they are inferior in number, only half of them are less than half. But in a real confrontation, the opponent will definitely win!

"Want to go? Is it that easy?"

Fang Yue's voice was cold, and this was his first victory in the Alpha Galaxy.

It is impossible for him to lose the fat in his mouth.

"Death knight, surprise me!"

Fang Yue gave an order, and a thousand death knights on nightmare horses in heavy armor rushed towards the troops of the Bright Empire!

This army of five thousand undead is the foundation of Fang Yue's battle in the Alpha Galaxy, and he is naturally carefully selected.

A thousand death knights, a thousand witches, a thousand skeleton archers, a thousand corpse dragons, a thousand death giants.

This configuration can already be regarded as extremely luxurious. Every unit can be regarded as an advanced unit in the underworld.

Long-range close combat, raid and air control are combined with each other, without any weak links!

Death knights come and go like wind. Not only are the knights on the nightmare horses strong in the cycle, but every nightmare horse under their crotch is also at the level of the cycle.

The nightmare horse, from the outside, is just a pile of black bones, but the dark green flame burns in their depths.

Every nightmare horse is good at speed and fire, and when it grows to the level of the world, it will understand the corresponding rules of the road!

The strength of the Nightmare Horse is definitely not weaker than the human warrior in the ordinary rotation realm.

Thousands of soldiers of the Bright Empire were directly beheaded under a wave of impact!

Only the impact of the Nightmare Horse was to directly kill a thousand warriors of the Bright Empire!

Crush!

This is pure crushing!

With the arrival of this wave, the warriors of the Bright Empire had to rise up to resist.

They were delayed by the death knight, and their escape plan failed completely.

A thousand-round death knight charged and quickly emptied an area of the Bright Empire army.

Afterwards, Fang Yue shot again, he ordered a thousand skeleton archers to shoot at the army of the Bright Empire.

When these skeleton archers reached the level of the rotation realm, they all understood the existence of the law.

What kind of flame arrows, frost arrows, multiple arrows, there are simply so many varieties.

But the power of each arrow is so great that even after shooting through a person, it can immediately penetrate the body of the person behind him! The hundred thousand troops of the Bright Empire lost nearly ten thousand people in a blink of an eye.

This one-sided massacre also gave the army of the Bright Empire a sense of despair.

In this war, in addition to absolute armed confrontation, morale is also a key factor.

The spreading of corpses on the ground caused the soldiers of the Bright Empire to panic, and gave birth to fear of death.

At this time, the adjutant had already settled down. He had experienced a lot of battles, and understood that if this continued, he would eventually be defeated.

### **Chapter 1306: Lao Tzu is the protagonist**

"Combine the battle formation to kill that arrogant man. He is a cultivator and has a weak physical body. As long as he dies, these spirit creatures will naturally disappear and disappear!"

The adjutant was worried that he would not be able to kill Fang Yue, and had to use the power of the battle formation. In a blink of an eye, the adjutant's body around eight practitioners of the rotation level gathered and scattered in eight more important positions around his body.

The eight powerhouses at the rotation level corresponded to the eight directions of Qiankun Likan Zhen Duigen in the gossip. With the power of the gossip, they affected the world and at least doubled the strength of the adjutant.

The adjutant jumped out, and he understood that this kind of blessing and maintenance would not last long.

He must kill Fang Yue in the shortest time.

As soon as the adjutant's body moved, the wind and clouds surging around him, and a thin layer of white mist rose under his feet. Make this adjutant look like a person among gods.

These bells and whistles were deliberately created by the adjutant.

The more mysterious, powerful and sacred he showed, the more confident his soldiers would be.

"Kill this guy and pretend to be 13 in front of me."

Fang Yue doesn't care about you! Lao Tzu is the protagonist this time!

Fang Yue's order, bursts of shots, arrows fell like rain.

The adjutant had already prepared, he smashed a token on his waist, which was rewarded by the Light God Sect back then.

The token was shattered, and a spell of Yin-Yang realm level stored in it was unfolded.

A thin light film was formed on his body surface. This light film seemed weak but actually very strong. No matter what those arrows fell, it didn't suffer any damage.

"The humble blasphemer, the pace of our empire of light does not allow anyone to stop it. Only death will become the best confession you can make for your ignorance!"

The adjutant sticks up.

His posture immediately became tall in the eyes of the soldiers behind him.

Fang Yue grinds his teeth, he is still addicted!

Without further ado, Fang Yue went up to the attack and raised his hand with a big ear scraper to directly shatter the light film!

What about the yin and yang level of spells?

After a round of shooting, the energy in it has been consumed nearly half.

And Fang Yue is also a powerful person at the Yin-Yang level. His big ear scraping force is so powerful that even the spells on this adjutant can't hold on!

In Fang Yue's heart, a hostile spirit emerged.

The adjutant flew out like a scarecrow.

Blood spurted from his mouth, and the loss was extremely miserable.

The adjutant's previous efforts were all in vain. The more extraordinary his performance just now, this slap in the face was slapped by Fang Yue, the more it made Fang Yue look irresistible!

"Who wants to kill me?"

Fang Yue snorted coldly, his gaze fell on the face of the 90,000 army of the Bright Empire.

Nearly 10,000 of the previous 100,000 troops were massacred and now only 90% are left.

The army of the Bright Empire was even more frightened, and there was no thought of resistance.

Fang Yue's army of undead swept across. It was half Zhuxiang's time. The 100,000 soldiers of the Bright Empire rolled their heads and all landed!

Among these five thousand undead army, only a hundred people were injured, and none of them fell.

As for the injuries suffered by these undead, Fang Yue condensed a drop of death power, and then he diluted the death power to smear those undead creatures on his wounds.

In just a moment, their injuries are completely healed!

This is a complete victory.

For Fang Yue, it was also a harvest!

It's a pity that he can only get the number of military service statistics after returning to the earth.

Otherwise, Fang Yue will be able to know how much he has gained this time.

After beheading the army of the Bright Empire, Fang Yue asked his undead creatures to turn in all the armor of these people.

Fang Yue found out that this Alpha galaxy is indeed rich in resources, and the wealth of these people is about twice as much as the wealth of people in the same realm of the ten thousand realms!

"Fang Yue, what did you use to heal undead creatures just now with the \*\*\*\* of death liquid?"

Shi Yu's expression moved, and she spoke to Fang Yue.

This death liquid can be produced by few people in the world, and it can be regarded as an extremely precious and rare treasure.

Some people who practice the way of death or the methods of the undead often use this kind of thing.

Fang Yue nodded: "Occasionally, occasionally!"

The methods of refining this soul liquid, life divine liquid, and death divine liquid are all records in the fairy scriptures.

If others know that he can refine these things and ask the source, the leakage of the fairy scriptures would be a catastrophe for Fang Yue!

Fang Yue told a little lie.

But Shi Yu didn't suspect him, Fang Yue's methods were mysterious, and some adventures were normal.

"If you still have excess death liquid in your hand, I want to exchange some. My brother cultivates the heavenly path of death and wants to refine the body of the nine deaths. Now it has reached the critical moment of the first turn! If there is a death liquid Support, the effect of this tempering can be increased by 20 to 30%! The number of death divine liquid required for the first turn is not more than ten drops. As for the exchange price, how can I ask you for a puppet of the third level of Yin and Yang? You may not need this thing with your strength, but today's earth, with an additional puppet of the Yin and Yang level, can also guarantee more safety!"

Shi Yu said her thoughts.

Fang Yue took out a delicate small porcelain bottle casually.

"There are a total of twelve drops of death power in it, enough to temper your brother! As for this yin and yang level puppet, I don't need it for the time being. If you really want to trade, you might as well get me some nuclear weapons. According to the relevant information, as long as it is thirty to fifty years higher than the existing civilization on the earth! This civilization is more valuable than adding individual powers!"

Fang Yue actually has no shortage of thugs at the Yin and Yang level.

It's really not possible, it's no problem to borrow some people from the underworld!

The key is that the level of civilization on this earth is not enough. The scientific and biological civilization of the earth has a solid foundation. With a little development, the combat effectiveness of the earth will be greatly improved!

"no problem!"

Data is very valuable. If you don't have access to it, it would be a delusion to get information that is higher than the current technological civilization.

But for those with channels, the materials are not valuable. The stuff is just some text and information. The cost of copying is extremely low, even negligible!

The deal between the two was quickly reached.

The old man on the wall walked down and tremblingly came to worship Xie Fangyue and Shi Yu.

If it weren't for these two men to descend like cavalry, slaughtering the hundred thousand army of the Bright Empire, they would probably have been killed without leaving a piece of armor, not even a living mouth!

"Old man Li Hanyun thanked the two young heroes for saving your life, and thanked the two young heroes for helping me, Tam."

Although the old man's voice trembled, his powerful mental power was whizzing out.

This old man Li Hanyun, in terms of pure spiritual power, has barely reached the level of Yin-Yang realm, but he cultivates the path of death all the year round, and comes in contact with death aura, causing the vitality in the body to be corroded severely, so the physical aspect is not as good. An ordinary ordinary old man.

"When the road sees injustice and draws a knife to help, it should be!"

Fang Yue's courteous sentence.

The old man continued to clasp his fists.

The excitement in Li Hanyun's heart is simply beyond addiction. They are already at the end of their lives. If Fang Yue doesn't make a move, they will be truly desperate this time!

This kind of charcoal in the snow is the easiest to be grateful and remember.

"You don't have to be polite! Let's go to the city and talk about it!"

Li Hanyun apologized: "Of course, this is of course! Two please!"

Soon the three of them entered the city of Tam. The area of Tamcheng is not very large. Fang Yue calculated it a little. The population of Tamcheng is almost three to five million people. Excluding the old, weak, women and children, the remaining young and middle-aged people are almost all soldiers. The proportion of underworld warriors at the world level is very high.

There are a total of more than 8,000 dark warriors in the entire Tam Cheng. The lowest threshold for this dark warrior to be selected is an elite warrior in the world!

Three to five million people have 8,000 strong people in the world. This ratio is already very high!

"I'm from the Chaos Sea, and I don't know much about the situation in the Nine Nether Empire! I take the liberty to ask, is there anything special in Tahm City? Why are there so many Underworld Warriors?"

Fang Yue opened the door and asked the doubt in his heart.

A faint color of doubt flashed through Li Hanyun's eyes, and then smiled and explained: "This Tam City and the 35 surrounding cities are all built on an ancient battlefield. Each city has nine eyes. The fountain of death, this fountain of death can refine the death aura in the battlefield into a nether aura and spray out from it. Under the nourishment of the nether aura, the warrior can grow rapidly and reach the level

of the heaven and earth realm, but after the heaven and earth realm , This practice can only rely on the individual! After all, if you want to break through to the level of the rotation realm, you need not only resources, but also insight talent!"

Li Hanyun's words solved Fang Yue's doubts.

Fang Yue nodded, knowing in his heart that this Alpha galaxy is really different from the Milky Way galaxy, and the resources in it are far beyond what the Milky Way galaxy can compare.

There is such a magical spring in such a humble small city.

"However, these days, the frontiers of my Jiuyou Empire have been quite unstable. More than twenty cities with the Fountain of Death like Tam City have been conquered by the Bright Empire! If it weren't for the arrival of the young hero, I Tamm City is probably hard to preserve!"

Li Hanyun looked lingering.

Fang Yue calmly said: "The old man doesn't need to be like this! Although I practice in the chaotic sea, I still have heard about the strength of the Jiuyou Empire. There are billions of powerful Jiuyou Empire, and its overall strength is more than that of the Bright Empire. A star and a half! If the senior officials of the Jiuyou Empire hear the news of the war in this frontier, they will definitely send troops to suppress it immediately, and the bits and pieces of the Guangming Empire will not be able to set foot on the territory of the Jiuyou Empire!"

Li Hanyun smiled bitterly and said: "The news that the young man has heard is true, but recently the Jiuyou Empire has discovered an undeveloped plane and is dispatching a large army to capture it. A large number of the empire's troops are all involved in that new piece of land. Among the planes discovered, there are very few troops that can truly be deployed to protect us! If there is a war, the Bright Empire may be able to quickly occupy a large amount of the territory of the Nine Nether Empire, and the attack on us is probably just a test."

Li Hanyun's words gave Fang Yue a better understanding of the Jiuyou Empire.

### **Chapter 1307: Law fragments**

But the more this is the case, the more convenient it is for him to play!

"This Guangming Empire entered the void and invaded the frontier territory of my Jiuyou Empire! It is really hateful! I am willing to work and expel these hateful guys from the frontier of my Jiuyou Empire!"

Fang Yue finally got the point, why did he come to Jiuyou Empire?

I didn't want to get involved and bring people from the Jiuyou Empire to fight the Bright Empire.

This infighting to create the Alpha galaxy and the victory of slaughtering the Alpha galaxy can be regarded as the military merit point of the Galaxy Alliance!

The mission issued by the Galaxy Alliance is just to weaken the overall power of the Alpha Galaxy as much as possible, but they didn't say how to weaken it!

"It turns out that the young man has such ambitions, I will try my best to recommend it, but it is a pity that I am just the lord of this small frontier town. I am humble and light. Even recommending young man will not have any effect!"

Li Hanyun is telling the truth.

The master of the Nine Nether Empire is like a cloud, and only at the level of the Yin Yang realm will he have a certain right to speak.

He is just the pinnacle of the rotation realm, and he is quite reluctant to act as the lord of the city of Tam.

Above, his influence is quite weak.

Even if I wanted to help Fang Yue with a few words, I was powerless!

"Thank you for the old man's help! This is something you can't respect Xiao Cao's thoughts!"

Fang Yue offered a brocade box with both hands.

Li Hanyun wanted to refuse, but they rescued him and saved the entire city of Tamu. If he wants Fang Yue's stuff at this time, wouldn't it be too brutal?

However, he just wanted to refuse, when his finger touched the brocade box, his whole body froze immediately.

"This is... a fragment of the law!"

Li Hanyun's hand tremblingly opened the brocade box.

In the brocade box, ten pieces of the law were impressively packed.

In this Tam Cheng, there are at least hundreds of practitioners who are trapped at the pinnacle level of the heaven and earth realm. Because they cannot understand the true meaning of the rules, it is difficult to break through.

With these ten law fragments, they can add at least ten more powerful players in the rotation realm in Tahm City!

With the addition of these ten powerhouses in the rotation realm, the strength of the entire city of Tahm will be greatly improved!

"Young hero, these fragments of the law are too precious, how can I get these fragments of the law!"

Li Hanyun's heart trembled. Although he refused, the desire in his heart was tumbling and uncontrollable!

"These fragments of the law are occasionally obtained by me, and they are not of much use in my hands. They are like jade and dust. It is better to give them to the city lord to train subordinates and enhance the overall combat power in the city of Tam! It's better to use it than to leave it in my hands!"

Fang Yue was quite polite, but Li Hanyun understood that all this was an excuse.

Of course, Li Hanyun knew the value of this fragment of law. A fragment of law was equal to the powerhouse of the rotation realm in the future. Even if Fang Yue doesn't use it, it's auctioned. The price of a fragment of law is at least ten million spirit stones. He has a lot of wealth in his hands, but he hasn't been able to break through to the rotation level because of his aptitude and talent. There are so many practitioners in this Nine Nether Empire! If the fragments of law were placed in front of them, they would definitely take down the fragments of law for refining at any cost and improve their strength!

"Since Fang Shaoxia said so, then I am disrespectful. This recommendation is covered by me, and I will definitely let Shaoxia be reused!"

This Li Hanyun actually has his own network, otherwise, it would be impossible for him to become the city lord of Tam City with his rotation realm.

This Tam City is indeed not big, but the cultivation base has reached the level of Yin-Yang realm, but there are many strong people who are not the city master.

Being able to secure the position of this city lord, Li Hanyun's own background is not simple!

"Then thank you City Lord!"

Fang Yue squinted, then retired.

After Fang Yue left, Li Hanyun hurriedly came to a secret room.

The inside of the secret room was empty, except for a silver mirror at the opposite door.

Li Hanyun bit his finger and dripped a drop of blood onto the mirror.

In a moment, a figure appeared in the mirror.

"Li Hanyun, what are you calling me?"

The figure in the mirror was a middle-aged man with a long beard. He was dressed in a brocade robe, and his whole body showed an unbelievable aura.

"Three elders, you really have something important to report this time. Three hours ago, the 100,000 army of the Bright Empire suddenly landed and attacked the city of Tamm. Tamm City could have been difficult to resist the army of the Bright Empire, but it came out halfway. A young man and a young girl! This young girl is a cultivation base of the rotation realm, but with a soul-killing needle in her hand, raising her hand is to destroy the commander of the 100,000 army—a white-clothed priest of the Holy See! And that! The young man is even more serious. His own realm is difficult to figure out, but according to my judgment, it should be at the Yin-Yang realm level, and he summoned an army of the undead at the level of five thousand rounds! Then, the five thousand undead army Massacre all the 100,000 armies of the Bright Empire, leaving none!

This young man wants to join my Nine Nether Empire, hoping to get a seat and get the empire's attention! He also gifted me ten pieces of the law! How to deal with this young man I hope the three elders will reply. "

Li Hanyun reported all the situation to Li Mu, the third elder of the clan.

Li Mu frowned slightly. In fact, if Fang Yue was just an ordinary Yin-Yang realm cultivator, he could just send him a position in the army.

But if he still has an army of five thousand rounds of undead in his hand, his value is completely different!

Behind him is the Li family of the Jiuyou Empire.

The Li family can be considered as the top twenty family in the Nine You Empire.

Li Gang, the Patriarch of the Li Family, was the Lord Zhentian of the Jiuyou Empire, who was considered a pivotal figure in the entire Jiuyou Empire.

If it were in peacetime, their Li family wouldn't care about such a yin and yang practitioner, even the undead creatures under his command at the level of five thousand rotations.

The generals of the Li family are measured in thousands.

Everyone is a master at the level of Yin and Yang, and even some families have had some insights and breakthroughs in recent years. Half of their feet have reached the level of uniformity. Perhaps in the near future, they will be able to become leaders. The existence of level, incarnate as a giant, to stand alone for the Li family.

In that case, the existence of a yin and yang state is dispensable to the Li family, but it is different now.

The Nine You Empire discovered a new plane. In that plane, the natives were quite strong. They actually rose up against the invasion of the Nine You Empire army. Now the two sides have shown a stalemate state, Li Seventy percent of the family's forces have been dragged into that plane.

On the mainland of the Jiuyou Empire, the Li family's soldiers and horses have been weakened to the lowest point in nearly a thousand years. But at this time, internal and external troubles are coming together. At this moment, the Li family is in short supply, so this time, Fang Yue's five The army of a thousand undead is also included in the consideration of their Li family!

"This Tamu city is a subordinate city of my Li family. If it is lost, it will be nothing in normal times. But now that some upstarts in the Jiuyou Empire are in power, the Li family's influence on the empire has been reduced to the lowest! If the city is lost, those people will rush forward, and it will definitely damage the prestige of the Li family. These things have to be considered carefully!"

As the city lord of Tam City, Li Hanyun naturally didn't want the Tam City to fall under his hands. His many years of management have been in the Tam City.

As the saying goes, people are in the city and the city is destroyed.

If Tam City was lost, this Nine Nether Empire would definitely not let him go!

Therefore, Li Hanyun actually hoped that Fang Yue could stay in Tam City to help him garrison the city.

Therefore, Li Hanyun helped Fang Yue say a few more words.

"Never mind! This Fang Yue's contribution to resisting the army of the Bright Empire is to grant him the rank of a third-rank academy. Then I will allocate another 3,000 troops to help you station in Tam City, lest you be conquered by the army of the Bright Empire!"

The three elders pondered for a long while, and finally made a decision!

With his opening, a huge rock in Li Hanyun's heart finally fell.

"Thank you three elders for your understanding!"

Li Hanyun leaned slightly, revealing a relaxed look.

As long as the family's three thousand men and horses are in place to cooperate with Fang Yue's five thousand rounds of undead army and the city's dark warriors are garrisoned, unless the Bright Empire really wants to attack Tam City at any cost. Otherwise, they will definitely take a detour when they meet Tam City again.

The bottom line of the Li family's private army is the level of the rotation realm, which is a realm higher than the average combat power of the imperial army.

"By the way, Li Hanyun, sent me the ten fragments of the law. This thing is just a way to express your opinion and please the Wang family and the two favored sons of the Wu family. Those two sons are enlightened at the level of heaven and earth. , But the achievement of comprehension of one kind of Taoism is different from the achievement of comprehension of many kinds of Taoism. Sending these fragments of the laws to them may comprehend many kinds of Taoism. If it wins the favor of the Wang family and the Wu family, my Li family has recently No worries!"

The third elder asked for the fragments of the law, and Li Hanyun sent the fragments of the law without any hesitation!

The figure of the three elders disappeared from the silver mirror.

Li Hanyun also left the secret room and went straight to Fang Yue's residence.

"Fang Gongzi did not humiliate his life. After discussing with the elders of the clan, the old man finally decided to grant him the rank of third-ranking school lieutenant!"

Li Hanyun's face showed joy.

Fang Yue's face was blank.

Lieutenant, this rank doesn't sound very high!

And why are the school lieutenants classified into ranks?

Seeing the blank look on Fang Yue's face, Li Hanyun suddenly remembered that Fang Yue came from the sea of chaos. He might not know the organization of the Jiuyou Empire.

He slapped his head and said: "Forgot to introduce Young Master Fang! The ranks of this empire are divided into five ranks: lieutenant, lieutenant, college, general, and commander. Each rank is divided into nine ranks, one of which The highest and the lowest of the 9th rank! The third rank is actually at the

level of the school. The third rank can obtain 50,000 soldiers from the Empire and privately raise 2,000 guards!"

Fang Yue immediately understood Li Hanyun's explanation!

The captain seemed to be in a good position.

"I don't know when these fifty thousand empire soldiers will be in place?"

### **Chapter 1308: Are you a fragment dealer?**

"Fang Yue, you are a butcher and an executioner. If you do this, you violate the rules of the Jiuyou Empire. The Wang Family will avenge us!"

Wang Xiong cursed Fang Yue.

His heart is dripping blood at the same time, and these ten thousand soldiers are his foundation!

If the foundation is gone! He will no longer have a place to stand in the Jiuyou Empire!

"They died because of you. Without your instigation, how could they kill and control? So he deserves to die, and you deserve to die! As for the king, they might avenge you, but maybe I will send them down to reunite with you!"

Fang Yue raised his hand and slapped Wang Xiong's head to pieces.

This is killing chickens and scaring monkeys.

But Fang Yue's formation is unprecedented!

Looking at the corpses all over the floor, and the blood flowing under the feet.

As if nothing happened, Fang Yue said to the other four ten thousand chiefs in a melodious manner:

"That guy just now belongs to the Wang family, what about you? Which family? Song family? Qian family? Or is it? From the Zhao family?"

Fang Yue's smile was quite amiable, but in the eyes of the four generals, it was as hideous as a devil!

This Fang Yue is simply terrible! He kills people like a numb, and dies at every turn.

"We are all following the command of the empire. What is the background."

Seeing Wang Xiongweihan's bones, they were all shocked.

Where is this special mother like a dude disciple, where is a little naughty baby who knows nothing about the world.

This guy is simply a reincarnation.

It was even more terrifying than the most ferocious officer they had ever seen.

"If this is the case, then you will obey my command honestly, otherwise, this Wang Xiong will be your future fate! Let me tell you that I am not the Li family's mercy and appointment, but resistance. This position was only obtained by killing the hundred thousand army of the Bright Empire and slaughtering them all!"

Fang Yue said it was an understatement, but each of the soldiers felt a swish cold wind from their spine!

They can even imagine in their minds that when Fang Yue was fighting the Bright Empire, the head was rolling and the earth was stained with blood!

"Leave these bones on the ground here! It happens to feed the undead army under me. They rely on devouring flesh and blood for their livelihoods, and they wouldn't mind these corpses!"

Fang Yue's voice fell.

The 40,000 soldiers were even more frightened.

These bones on the ground were all their colleagues during his lifetime!

"Hmph, I know that these guys are not useful, even a small Fang Yue can't take it down. In the end, I still need to personally suppress this kid!"

A voice was very loud, coming from far and near.

I saw that a middle-aged man in Tsing Yi came, dressed as a Confucian scholar, hand-cranked a feather fan, and there was a faint smell of a scroll on his body!

"Wang Family, Wang Rongsheng."

The middle-aged man spoke, with a somewhat overwhelming voice in his voice.

He comes from the royal family and has an extraordinary status. The breath of Yin and Yang is hundreds of kilometers apart, and he has been oppressed!

"Fang Yue wantonly slaughtered the soldiers of the Jiuyou Empire and killed my ten thousand chiefs of the Jiuyou Empire. What is the crime?"

This Wang Rongsheng came long ago.

But he always dormant in the dark. If Fang Yue was made difficult by Wang Xiong, it proved that Fang Yue was a counselor, and there was no need for him to act!

However, Fang Yue's previous performance was extremely strong, and there was a vaguely domineering domineering, which made Wang Rongsheng understand that this kid could not stay, if he stays, I am afraid it will become a confidant of their Wang family!

Therefore, Wang Rongsheng made his strong debut.

He wants to kill Fang Yue here!

"The Wang family really came!"

Li Hanyun's heart slammed. When Wang Xiong called out the Wang family background, he vaguely foresees this happening.

The Wang family and the Li family have always been enemies, and the two families had a deep hatred ten thousand years ago.

Since the opponent Yue made the move of the Wang family, it was definitely impossible to just send a small martial artist like Wang Xiong as a chess piece.

But I didn't expect that the person who played in the end would actually be Wang Rongsheng.

Wang Rongsheng is a master of Yin-Yang realm who was famous in the Wang family hundreds of years ago.

He was enlightened for hundreds of years, and now he should be stronger.

Although Fang Yue can be regarded as tyrannical, but after all, his age is too shallow!

"Wang Rongsheng? I have never heard of this name, but looking at you like this, the qualifications are not too good! You have been practicing for hundreds of years before reaching the third step of the Yin-Yang realm. You are also in the Wang family. It is Pingping, this time I was thrown out as an abandoned son. If you kill me, the Li family will not pursue it. If you are pursued, you will definitely be taken out to punish! I am the third rank captain of the Jiuyou Empire. You have made great contributions to the empire, killing one hundred thousand troops of the Bright Empire, which represents the face of the Jiuyou Empire! And although your cultivation is strong, you have never made any contribution to the empire. You are a white body, kill me. Even if the official body is successful, it will be a dead end to be held by the Nine Nether Empire!"

Fang Yue's words immediately scared Wang Rongsheng!

Are these analyses real? But it sounds so reasonable.

In the Nine You Empire, no matter how powerful the major families are, after all, the power of the Nine You Empire is the greatest.

The imperial family of the Jiuyou Empire is simply a bottomless whirlpool. For thousands of years, I don't know how many resources have been swallowed and how many masters have been cultivated.

They gave an order that the royal family, the Li family, and the families like the Tu emperors would all be easily erased.

Fang Yue is an official body, he is a white body.

If he succeeds in assassinating Fang Yue, the empire will be furious, and it is very likely that the Wang family will push it out.

The powerful royal family outside was nothing in the eyes of the Jiuyou Empire imperial family.

They can't bear the anger of the royal family!

But, now, does he have a way out?

Give up the mission and return to Wang's house?

impossible! Because of the strength of the Wang family, he knew that he would die when he returned. Even if he was a master of Yin and Yang, the Wang family didn't care!

What Fang Yue said just now is right. He Wang Rongsheng is strong outside, but he is also a dog in the Wang family. His talent is mediocre. After hundreds of years of cultivation, he has struggled to reach the third level of Yin Yang realm!

His potential is exhausted, and he does not have much status in the Wang family.

"Fang Yue, don't be here to confuse the crowd! I dare to stand here, but the Wang family has given me enough confidence! I kill you, and the empire's laws dare not do anything to me!"

Wang Rongsheng shouted at the other Yue.

Fang Yue looked at Wang Rongsheng faintly.

"Is it impossible to retreat, start to make excuses for myself, cheer up, and then take a gamble?"

Fang Yue's words became a thorn in Wang Rongsheng's heart.

After a word fell, Wang Rongsheng's heart slammed.

A clever little brother, he can figure out his mental activities exactly!

But what if? There must be this battle. If Fang Yue does not die, he will die!

"Shoot!"

Fang Yue ordered, extremely decisive!

In an instant, arrows pouring down like a torrential rain!

"Small bugs!"

Wang Rongsheng brushed his sleeves, and all the arrows were taken away by him.

"Even though my talent is not good, but there is the secret method of the Wang family, these clowns should not appear in front of me, so as not to be insulted!"

Wang Rongsheng's tone was quite conceited, no matter what the consequences, Fang Yue's life was about to be fixed.

Fang Yue raised his eyes and glanced at Wang Rongsheng. This guy really has some skill.

"Fang Yue will grab it with his hands. Maybe I will give you a whole body. If you fight back, don't blame me for being ruthless!"

Wang Rongsheng stood with his hand holding his hand, his face was full of pride. In his eyes, Fang Yue is already the fish on the chopping board, and there is no room for turning over. His fate can only be slaughtered and become a corpse of his own.

"Starting ruthlessly? How are you ruthless? I want to see how many skills your so-called Wang Family Tianjiao can suppress me!"

Fang Yue leaped up, and behind him appeared door after door. Every portal opened, leading to an ancient and mysterious world. Nine portals appeared at the same time, among them, endless gas of death gushed out from it, sweeping across all directions.

Every portal that appears can crush a world.

Fang Yue was independent of the nine portals, as if he was a ghost in the underworld.

"Sure enough, there are two things!" Wang Rongsheng was not shocked by the vision in front of him, but a hint of excitement was revealed in his eyes.

His talent is mediocre, but his favorite is to kill Tianjiao.

As Wang Rongsheng waved his hand, cutting through the void, a blue light rushed towards Fang Yue's cheek.

Fang Yue squeezed the seal art, and the nine portals trembled together, the endless death air gushing out, turning into a portal to resist him.

The blue light was swallowed by the black death air, and the gray mist kept flowing. The blue light was swallowed by the mist, corroded instantly, and dissipated as a plume of blue smoke.

Fang Yue raised his hand and summoned a bone spear with a length of ten feet to pierce Wang Rongsheng's brow.

Wang Rongsheng's eyebrows evolved into a frost world, Fang Yue's bone spear approached, that frost world expanded, and the bone spear was covered in a blink of an eye!

In that frost world, every inch of the bone spear was frozen and cracked, and eventually turned into countless fragments, scattered all over the ground.

The two played against each other only between lightning and flint. It was slow to talk about, but it was really fast as a fight.

Li Hanyun was slightly focused, and both Fang Yue and Wang Rongsheng showed extraordinary combat power and supernatural powers.

On the small steps on the third floor of the Yin-Yang Realm, both of them are absolutely outstanding. Their methods are numerous and dazzling@!

As for those soldiers, they are even more convinced at this moment.

Fang Yue used Wang Rongsheng to show strong combat power and supernatural powers, so that they couldn't even think of resistance at all.

It turned out that the new general was so powerful!

He can absolutely suppress thousands of troops and horses, and his combat power is extremely strong, even the leader of the ten thousand that they usually admire most is hard to beat.

"Fang Yue, I think you are also a tianjiao, why don't you take refuge in my royal family? What is good about the Li family, they have fallen, and they are destined to be eliminated from the strong clan of the Jiuyou Empire! And my royal family is flourishing, There are endless bright prospects, and sometimes, a person's choice is really important! As long as you throw into the arms of the Wang family, I can guarantee that my Wang family will carefully cultivate you!"

There was a thought of cherishing talents arose in Wang Rongsheng's heart. Of course, the more important thing was that Wang Rongsheng had realized that he was not Fang Yue's opponent through a brief match.

His frosty world hasn't completely formed yet, so he can only manifest briefly with the help of the eyebrows.

And Fang Yue's moves are completely natural, and the power of the law has been contained in the gestures.

### **Chapter 1309: I can not be reconciled**

"Since I chose the Li family, I will not betray! As for your promise, it seems to me that there is no value. Your strength is not as good as mine. How can I guarantee that I will be taken seriously after I arrive at the Wang family. This kind of empty check, I have never Believe it or not, since you have already come, don't leave! Leave your head as my nomination certificate!"

Fang Yue's cold voice gave Wang Rongsheng a shuddering feeling.

The rich murderous intention turned into a world.

Wang Rongsheng seemed to see the surrounding environment change suddenly, and the dead mountain and blood spread endlessly.

Wang Rongsheng knew that this was an illusion and did not exist in reality, but he still could not break this illusion and return to reality again.

"Broken illusion!"

Wang Rongsheng screamed, and he squeezed a talisman in his hand. The talisman burned and turned into an endless light.

The rays of light are like swords, coming out at the same time, directly piercing Fang Yue's illusion.

However, at the same time as the illusion broke open, Fang Yue's \*\*\*\* were close together, and a ray of sword light was already floating!

With a brush, the sword light fell, Wang Rongsheng's eyebrows burst, and red and white liquid gushed out.

"I'm not willing!"

Wang Rongsheng finally roared.

But this sentence also became his final last word. In the face of life and death, what if he is unwilling?

In the end, it was not the dust returning to the dust, becoming a cold corpse.

"This is fate!"

Fang Yue sighed, personally collecting the body for Wang Rongsheng, not to say how much Fang Yue respected the death of Wang Rongsheng, the key is that he is a disciple of the Wang family, and there should be a lot of good things on him. This is the pleasure of a body search, Fang Yue thinks he should Enjoy it for yourself.

The body of Wang Rongsheng was sacrificed by Fang Yue.

Li Hanyun walked over afterwards, his eyes looking at Fang Yue became more complicated.

This Wang Rongsheng's reputation is outside, even if it is not a big deal in the Wang family, but looking at the outside world, he can be regarded as a master.

He once beheaded countless Tianjiao of his generation, and corpses under his feet.

In Li Hanyun's eyes, this kind of task should be elusive, but in the moment of confrontation between Fang Yue, Wang Rongsheng suffered a disastrous defeat.

This Fang Yue's identity became more and more mysterious. He seemed unknown, but in fact he should be a rare master.

Even among the many generals of Li's family, they should be regarded as Chinese tourists, comparable to the cultivation level of some ancient city masters.

"Who else doesn't accept me?"

Fang Yue spoke slowly, without a trace of murderous aura, he was very aloof as an immortal who did not stain the world.

But the more Fang Yue was like this, the more timid the remaining 40,000 soldiers, they were all silent, although some people hadn't really surrendered yet, they were forced by Fang Yue's lewdness. But they dare not say a word more.

The four ten thousand chiefs all expressed that Fang Yue's horse is the leader.

Fang Yue snorted and didn't really believe it, but all this was enough, he was not prepared to convince these people!

"This new defeat of the Bright Empire, they will definitely mobilize people from all sides to besiege Tam City! The cities occupied by the Bright Empire before, should now be the time when the forces are most empty. Tonight, I am going to lead the five thousand undead army to surprise Guangming. The city occupied by the empire."

Fang Yue directly ordered Li Hanyun next to him by surprise.

"Fang Yue, this is a bit too sloppy! Now that the Nine Nether Empire is empty, your soldiers and horses should be stationed in Tam City!"

Li Hanyun looked at Fang Yue as if he was looking at a madman.

The Guangming Empire was in full force, sweeping across all directions, and the strength of the Jiuyou Empire today was so weak that it could not be resisted at all.

"This is a means of offensive and defensive! As long as I surprise the cities behind the enemy, even if the army of the Bright Empire is really close to the city, they will return to the defense city when they get the news! At that time, besiege Wei and save Zhao, even if I can't attack those cities, I can also help Tam City!"

Fang Yue doesn't have time to spend time with Li Hanyun in this city of Tamu. His time is limited and he must obtain the greatest combat exploits before the space cracks heal!

"You 40,000 horses, set aside 20,000 to help Master Li Hanyun defend the city. All actions must follow Master Li Hanyun's dispatch! The remaining 20,000, follow my adjutant Shiyu to attack the supply points established by the Bright Empire between these cities. I want to let these soldiers of the Bright Empire have a taste of the solid walls and the clear!"

"Adjutant? When will another adjutant come out?"

Li Hanyun was taken aback for a while, then he saw Shi Yu slowly appearing.

This is the strategy set by Fang Yue and Shiyu, and this achievement point must be everyone's share.

In the Bright Empire, each supply point is actually three to five hundred defenders at most, if there are more than one thousand, Shi Yu's 20,000 army will definitely be able to crush these supply points with a crushing advantage.

This is a fat difference, and the military merit of the supply point is second, mainly because there are a lot of materials in each supply point! The value of these materials is quite high. If Shi Yu took them back and sent them back to the poet, she would definitely be able to give her a credit!

"Shi Yu is my adjutant? Why do you have an opinion on City Lord Li?"

Fang Yue's red mouth and white teeth looked harmless to humans and animals, but Li Hanyun's heart trembled slightly.

Fang Yue, this is a naked threat!

But he couldn't resist this threat.

Lead the wolf into the room!

Suddenly this thought came into Li Hanyun's heart. He had originally recruited a good officer for the Li family, but he didn't expect that Fang Yue Langzi's ambition would immediately break away from his control.

"City Lord Li, as long as you can hold this Tam City, and our surprise attack is successful, you will definitely have a piece of credit in the military record! I think Master Li Hanyun is not weak in cultivation

and has enough accumulation, but lacks some resources. Impact on the level of Yin-Yang realm! If this credit is made, the empire will definitely not treat its heroes. By then, City Lord Li Hanyun will step into the level of Yin-Yang realm. Don't forget us when it is reused by the Li Family!"

Fang Yue bewitched and spoke, Li Hanyun really moved.

His age is no longer young. If he doesn't break through, the blood in his body will begin to decay in a hundred years, and even if he wants to step into the Yin-Yang realm, he will be hopeless!

Fang Yue grasped Li Hanyun's pain points and immediately shaken his mind.

This Fang Yue is really too smart.

Looking at Fang Yue's strategy with a big knife in his left hand and a carrot in his right hand.

Li Hanyun finally let out a soft sigh, it can only be so!

That night.

Fang Yue led an army of five thousand undead to attack Anru city at night.

Anru City is 3,500 kilometers away from Tam City. If an army of the heaven and earth realm level is allowed to march, it will take at least one day and one night to finish it.

And Fang Yue led the undead army at the rotation level, and it took only three hours to resist the city of Anru.

The gate of Anru City at this moment has just closed.

They sent away the five thousand elites of the Bright Empire in the city, let them join with soldiers from many other cities, and captured Tam City together.

Liu Xiangru, the castle guard in the city, couldn't understand the situation at hand.

A small city of Tamu, with only a few thousand defenders in the city, what is the ability to stop the 100,000 troops of the Bright Empire and slaughter them all?

The army of the Bright Empire is extremely tyrannical, possessing an absolute advantage in number and strength.

Liu Xianghe pondered for a long time, but they didn't figure out the reason, but now there is no need to figure out the reason.

Because this city of Tam was about to be destroyed, the defenders of the thirty-nine cities of the Bright Empire each dispatched five thousand elites to gather in Tam.

And there is also a bright judgment group of five hundred people of the gods that will be coming soon.

Together, these men and horses can definitely make Tam City razed to the ground, but any place that offends the majesty of the light \*\*\*\* will be reduced to eternal ruins!

"My lord, my lord is not good! The army of the Jiuyou Empire is coming outside!"

A spy stumbled over to report.

This is the first time he has seen this army move faster than his spy.

To know that to be a spy in the army, the strength and speed must be the highest in the army.

He has reached the level of the rotation realm and is still practicing the secret method of speed!

The general marching speed of an army is several times slower even when it enters a state of rapid marching.

But this time he almost saw a ghost!

The speed of this army is faster than the wind.

This is a lot of time for the conference, and it has been hundreds of miles away to the city.

"Why panic! The army of the Jiuyou Empire from where in the middle of the night, the main force of the Jiuyou Empire is now confined in the plane that has never been launched, they have not been in time since ancient times, where can they have time to attack us? ?"

Liu Xianghe frowned slightly, this year's recruits are still not good.

I yelled when something happened.

There is no such thing as an elite empire, but unfortunately, the best source of troops is occupied by the teaching of the \*\*\*\* of light.

The army of the empire is just a second-rate team in the empire of light!

Before Liu Xianghe's voice dissipated, an army of skeletons came into existence.

At the gate of Anru City, a thousand liches were waving their staffs, summoning one after another skeleton soldiers. On average, each lich summoned ten heaven and earth level skeleton soldiers. Some of these skeleton soldiers are good at In close hand-to-hand combat, some are good at bows and arrows, and some know how to use some spells. In short, they are diverse and diverse.

A thousand liches, summoned ten thousand skeleton soldiers of the world level.

An Ru Cheng soldiers approached the city, lifeless!

The line of undead, the best group fight, Fang Yue has turned this method to the extreme!

"Undead army!"

Liu Xianghe felt his heart stop beating for a while.

He has felt the changes outside the city.

He immediately climbed onto the city wall, and as expected, there was already an army of white flowers and skeletons!

"This Nine Nether Empire is really crazy, it really dares to attack the city!"

Liu Xianghe's eyes opened wide, and his heart was shaking!

The city of Anru at this moment is the most empty moment in this time. Although there are still 30,000 soldiers of the Bright Empire in the city, the 5,000 elites have been all emptied, and those who are left are old, weak, sick and disabled. Soldiers!

"Enemy attack! Enemy attack!"

Liu Xianghe screamed, his voice shook the sky.

But when he shouted the third enemy attack, his neck was suddenly grasped by a cold hand.

### **Chapter 1310: Siege**

"What are you shouting!"

The palm of his hand belonged to Fang Yue, and he did not know when Fang Yue had drifted to the top of the city wall. He grabbed Liu Xianghe by the neck, as if he had caught a little chicken. How could Liu Xianghe's strength at the pinnacle of the rotation stage be Fang Yue's opponent.

Fang Yue's palm was slightly hard, and Liu Xianghe's neck immediately tilted.

Liu Xianghe, the chief general of Anru, fell immediately and died in Huangquan.

"Enter the city!"

Fang Yue gave an order, the undead army entered the city, the skeleton soldiers stood in the front and used as cannon fodder to consume Anru's strength, while the undead army in the rotation realm behind followed behind.

At this moment, the 30,000 soldiers of the Bright Empire in Anru are still asleep.

Fang Yue's army entered the city and slaughtered all the way, and it took only half a time to kill the 30,000 army of the Guangming Empire in the city.

But the final damage was just a bunch of skeleton soldiers summoned by the Lich.

An Rucheng was attacked by Fang Yueqi and recaptured.

At the same moment, Fang Yue returned the victory!

"Why did Fang Yue really \*\*\*\* An Rucheng back?"

Li Hanyun was in a dream after receiving Fang Yue's letter.

This Fang Yue is terrifying! How long did it take to leave the city of Tamm, the army of the Bright Empire is still gathering more than three hours to reach the city of Tamm.

And Fang Yue has already rushed for thousands of miles and won a city!

At the same time, Shiyu's good news came frequently.

This is already the supply point of the eighth Bright Empire that Shiyu has conquered.

Don't think she was a female generation, but wherever she went, all soldiers of the Bright Empire were killed, and there was no fish that slipped through the net.

All the supplies were plundered by her, which caused the army of the Bright Empire to be trapped in the territory of the Jiuyou Empire and lost the final way of retreat.

The cooperation of Fang Yue and Shi Yu gave the Guangming Empire a fierce blow.

Recently, the Jiuyou Empire has been at a disadvantage and passive in the game with the Bright Empire.

The two of them gave the Jiu You Empire back a round!

"Quick, quick, quick, report this news to the empire! Lieutenant Fang Yue and his adjutant Shi Yu broke the Guangming Empire to gather in the city, massacred 40,000 troops of the Guangming Empire, and seized a lot of military resources!"

Li Hanyun smiled with joy. As long as he can hold the Tam City and divide part from Fang Yue and Shiyu's credit, the military credit he gets can gather the resources for promotion to the Yin-Yang level.

As long as he takes one step and reaches the level of Yin-Yang realm, with his connections in the family, his position in the empire can immediately be moved one step further!

Just when Li Hanyun wanted to be wrong.

Fang Yue has searched Anru City clean.

Even those fountains of death had been evacuated by Fang Yue, equivalent to ten years of Nether Qi, and preserved!

In fact, there is not much oil and water in Anru City. The precious materials in it were either taken away by the residents of Anru City, or they were raided by the army of the Bright Empire and turned over to the top!

Some of the slightly valuable resources were taken away by Fang Yue.

This Anru city is now an empty city, without any value!

"Next stop, Mingyue City!"

Fang Yue drew out his troops, just as the saying goes, he is very fast.

Taking advantage of the daybreak, Fang Yue was ready to go to another city, and then turned his spear to kill the reinforcements heading to attack Tam City!

About two hours later, Fang Yue had already arrived under Mingyue City.

This Mingyue City and Anru City are near.

The total distance is only 500 kilometers. If it wasn't for the drag of the skeleton soldiers summoned by the Lich, Fang Yue estimated that half an hour would have come.

When Fang Yue came to the city of Mingyue City.

The lights are already brightly lit, and the army of fifty thousand bright empires are waiting.

Han Yi, the lord of Mingyue City, was stunned!

This Fang Yue has a brain problem, right!

After conquering an Anru city, did he think that the defense of the city of the Bright Empire was so lax?

Mingyue City and Anru City are not the same thing, and it's a big deal!

Anru City is the city of the Jiyou Empire. It has just been conquered by the people of the Bright Empire. The residents in it have disappeared. It is a completely empty city with only 30,000 old, weak, sick and disabled people. It can be said that it is not too big anymore. Of combat power.

Fang Yue can win, winning is a precaution.

But Mingyue City and Anru City are completely two concepts.

Mingyue City is a border city of the Guangming Empire. Although the city itself is not large, it contains as many as 200,000 troops. The 200,000 garrisons belonged to the elite of the Bright Empire. One out of twenty people reached the level of the rotation realm. The rest of the ordinary soldiers were all at the pinnacle level of the heaven and earth realm. Even though Fang Yue's men had 5,000 rotations. The undead army is definitely not the opponent of Mingyue City, unable to conquer this city!

Han Yi looked at Fang Yue's gaze like a dead person.

Fang Yue yawned lazily.

"Give you a chance to surrender and not kill! This Bright Moon City not only has 200,000 troops permanently stationed, but also millions of residents! If I enter the city, I will definitely slaughter the city directly, not to mention that there will be no soldiers left in the Bright Empire. , I will not leave even these million residents alive."

Fang Yue is quite spicy.

Only being cruel can we gather enough military exploits for the earth.

"Hahaha! You kid, could it be that the previous small victories have made you feel like you are already floating, and you don't know how many catties you are? At this time, you dare to speak madly? Your five thousand undead soldiers, It may be considered a threat if it is placed in the eyes of other city guards, but in the eyes of the 200,000 garrisons in Mingyue City, it is not even a fart!"

Han Yi exploded directly. He was a general who led soldiers to fight, and his words were so vulgar.

As soon as he spoke, Fang Yue didn't change his expression at all. This Han Yi's reaction was already in his expectation.

"Oh, I gave you a chance! It's a pity, you don't know how to cherish it! If that's the case, let the entire Mingyue City be buried for you!"

Fang Yue gave an order.

Zergs sprang up all over the sky.

This endless zerg made Han Yi's heart suddenly a dullness and depression.

"Zerg, how could you command the army of Zerg!"

Han Yi's expression was horrified. There were at least tens of millions of Zerg in the sky.

Mingyue City was surrounded by endless Zerg races, and there was no way out in all directions.

"This Mingyue City, slaughter it!"

Fang Yue sighed slightly, as if regretting the soldiers and residents of Mingyue City.

Han Yi panicked at first, then quickly calmed down.

"My Bright Empire has hundreds of thousands of soldiers. Just tens of millions of Zergs are nothing in the eyes of the Bright Empire! I have sent a signal to let the army of the Bright Empire assemble. When the army comes, these Zergs will all be dead ends. !"

Han Yi already maintains enough confidence in the Bright Empire behind him. Although Fang Yue's method has surprised him a bit, it is still under his control!

Fang Yue raised his eyelids, raised his palms, his palms spread out, and a purple signal popped out into his hand.

"Is this what you rely on? It is indeed very well set up. If I had set up a sky and earth net on the periphery of Mingyue City beforehand, and blocked the spread of any news with a formation method, I am afraid I would really have caught you. Tao."

Han Yi never thought that he would die in the hands of an unknown junior. He never thought that because of one of his own decisions, the entire Mingyue City would be buried for him.

This Fang Yue had completely sealed off the surroundings of Mingyue City, not to mention reinforcements, even if the entire Mingyue City was razed to the ground, the people of the Bright Empire didn't know how they died.

"Fang Yue, you will be condemned by heaven if you do this! The people in Mingyue City are innocent, I can die, but the people in Guangming City cannot be implicated!"

Before dying, Han Yi worked hard to fight for the people in Mingyue City.

Fang Yue Youyou said: "Now I think of the people in this city? Why did you go! When your Bright Empire was fighting my Nine Nether Empire, you were decisive in killing and killing the city at every turn. At that time, why didn't you think about it? Are the people in the city innocent?"

"There is no need for this Mingyue City to exist anymore! Let him become eternal history! The soldiers and the people in the city will not stay! They are all food for your evolution!"

Fang Yue gave an order.

The army of the Zerg under them moved in a sensation.

Zerg, not afraid of sacrifice, as long as they have enough energy and flesh and blood, they can multiply a large number of people!

And Fang Yue's 5,000-round undead army was responsible for making up the knife.

If they encounter a stubborn opponent, they will attack!

In a blink of an eye, the two armies clashed, and the smell of blood spread faintly between the heaven and the earth.

Han Yi's face was gloomy, he walked out of the army.

"Fang Yue, if you act tyrannically and arrogantly, you will suffer retribution sooner or later!"

"Talking!"

Fang Yue snorted coldly.

"Do you dare to fight me head-on! If you win, the morale in Mingyue City collapses, you can take it at a lower price. Mingyue City, and if I win, I will leave you with a life. Let you leave with the army! If you still have half blood in your body, don't refuse this battle!"

Han Yi's voice was sonorous and powerful. At this moment, his eyes were full of decisive expressions.

Last stand.

This is his only chance.

Fang Yue sneered softly: "Exciting generals? Do you think I would be so stupid? But if you kill you, there is no need for me to do it."

Fang Yue's voice did not fall.

A beam of sword light burst out of the air, piercing Fang Yue's heart straight.

This sword is almost reaching the point where it is difficult to capture even the spiritual sense. This sword, like an eagle hitting the sky, can only be displayed by the most intelligent assassin.

This is an assassin at the level of Yin and Yang, a sword pierced by the power of his life.

Fang Yue's face was expressionless, not the slightest panic.

"Are you an assassin from the Skywind Empire? I have been waiting for you for a long time!"

Fang Yue's voice fell, and his figure split.

Of the two figures, only one is real, and the remaining one is illusory, even the middle sword is intact.
