

God of Life 1311

Chapter 1311: Fenghou

pick one of two!

This is a simple and difficult choice.

Success or failure.

Everything is in one thought.

The assassin had no choice, his figure was divided into two points, and every figure pierced that extremely fierce sword, and the creatures at the level of Yin and Yang were irresistible!

"Wrong shadow clone!"

The name of this style of martial arts whimpered in Han Yi's throat.

He had heard of this method, but he had never seen it before!

This assassin was not arranged by him, and even Han Yi was sure that he did not belong to the Bright Empire.

However, the assassination of Fang Yue appeared at this time, but Han Yi still had an infinite affection for the assassin in his heart.

As long as Fang Yue died, the culprit would be punished. The disaster dissipated naturally.

"It turns out that you chose this method."

Fang Yue whispered, two sword lights fell at the same time.

The illusory figure disappeared.

Both figures seemed real, but in the end none of them was Fang Yue's real figure.

Assassination is only a choice between life and death. If you choose the right one, kill with one blow, if you are wrong, you have to save your own life.

In the void, a pale palm protruded, Fang Yue split into ten thousand realms long ago, and grabbed the assassin's neck.

The two figures are merged into one, and the wrong figure clone is just a martial art after all, and it is impossible to maintain the state of the two bodies for a long time.

"Do not kill me!"

The assassin's begging for mercy was obviously not as spicy and decisive as a professional assassin.

At the moment of life and death, he chose to beg for mercy.

Just as he wailed, a sharp murderous intent flashed across the assassin's eyes.

Suddenly, the assassin violent again.

A black dagger suddenly appeared in his hand.

The dagger stabbed out and rushed towards Fang Yue's heart.

Everything just now turned out to be a disguise, and what the assassin was waiting for was this momentary opportunity!

"Do you think I will be fooled by you?"

A sarcasm smile appeared at the corner of Fang Yue's mouth.

These rivers and lakes are sinister, Fang Yue's heart has long been prepared, let alone an assassin, he can't go back to the mountain.

Fang Yue's head tilted, avoiding the black dagger assault.

The assassin's heart suddenly burst, and the secret path is not good.

Fang Yue's palm suddenly squeezed his neck.

Fang Yue threw the assassin's body aside, he clapped his hands and said, "I have been waiting for you for a long time. I didn't expect you to be able to bear it until now! Come out, stop playing peekaboo!"

Fang Yue's voice was cold.

A burly and strong middle-aged soldier walked out of Han Yi's 30,000 soldiers.

His face is simple and honest, and his thick lips give people the most unpretentious feeling.

But Fang Yue knew that this person was ten times more dangerous than Han Yi.

"who are you?"

When the middle-aged soldier walked out, Han Yi suddenly felt like his hairs were standing up!

In this middle-aged soldier, he felt an inexplicable danger, which was even more dangerous than the Yin-Yang realm assassin just now.

The middle-aged soldier simply ignored Han Yi. In this round, only Fang Yue and him were the chess players. Han Yi was at best a **** and was not qualified to have an equal dialogue with him!

"Fang Yue of China is indeed a well-deserved reputation. In order to get the earth out of the crisis, he went to this Nine Nether Realm!"

There was a hint of appreciation in the middle-aged soldier's tone.

"Exceeded prizes, passed prizes! It's just a whim, and you can't get into the eyes of the wind!"

Fang Yue is exceptionally humble.

The middle-aged soldier booed and sighed: "If you were born in my dark moon world, you must be a peerless hero. It's a pity that you were born on the earth. In this life, I have no chance to come and talk

to you! This time! I'm defeated! But this Bright Empire has been infiltrated for thousands of years. It is almost impossible to subvert our layout with your own strength!"

The words of the middle-aged soldier gave Han Yi a creepy feeling.

What is the Bright Empire? They have been deployed for a thousand years. Isn't the other party's purpose to kill Fang Yue and help him resist the invasion of the Nine Nether Empire, but to have ideas in it?

"Come on, the first time I fight, I will make three moves. You can resist, and the ray of divine consciousness attached to this soldier will naturally dissipate. If you can't resist, this will be our last fight! "

The tone of the middle-aged soldier was provocative.

Fang Yue also chuckled slightly: "Then let me see what kind of methods Feng Hou, who ranks second among the Yin-Yang realm strong in the Dark Moon Empire, does!

"Then I have to take action!"

Feng Hou reminded that he did not bother to use sneak attacks, or use strong attacks to defeat Fang Yue with one and a half moves.

He is Fenghou, the number one genius in the Dark Moon plane.

He disdains those tricks, and if he wants to win, he must win upright, so that Fang Yue has no complaints.

"The sky is full of stars!"

Fenghou's starting style is to mobilize the power of the surrounding heaven and earth, and directly operate the law to display the means of changing heaven and earth.

In a blink of an eye, the stars are shining and the cloth falls to the world.

This is the three-layer law domain!

Han Yi gave birth to a feeling of being deterred, as if it was the influence of the law of the jungle, and the little white rabbit would tremble when meeting a big bad wolf.

When he meets someone with a higher level of evolution and a stronger understanding of the laws, he will also have an irresistible feeling of depression!

The strength that Han Yi was proud of seemed so weak at this moment.

Fang Yue saw the sky full of silver stars flashing continuously, and there was also an excited smile on his face.

This Feng Hou really lived up to his hopes and walked a path beyond ordinary people at the level of law.

The three-layer domain of this law is definitely not his limit, Fang Yue can see that this Feng Hou is at ease in his domain!

"This dark night is my domain, and I am the master of this dark night!"

Fang Yueshi exhibited "Night King" to confront Han Yi, and Fang Yue's voice fell.

The darkness around him suddenly became insoluble!

The dark realm, this is an absolute law realm, and beyond this dark realm, there is also a dark night realm summoned by the "Night King".

The scope of this dark night realm is wider, but wherever darkness spreads, this dark night realm rules.

But the Dark Night Realm does not have the absolute binding force of the Law Realm.

Even Fenghou is the first time to see such a strange field.

At this moment, Han Yi completely became a bystander sitting on a small bench. Although he is also a strong person in the Yin-Yang realm, the highest level of law he understands is the second level! He is still far away from the realm!

The two domain-level great gods confronted each other, and he didn't even have the ability to join together!

"A thousand stars have fallen!"

Fenghou lightly chanted a spell.

Countless stars cut through the starry sky and smashed in Fang Yue's direction.

Each star is several kilometers in diameter, and it drags its long flame tail towards Fang Yue.

All this suddenly seemed like the end of the world.

"Darkness swallowed!"

Fang Yue also responded with magic techniques, and a series of dark vortices appeared from the void, quietly swallowing all the meteors!

The game between the two was silent.

But the shock to Han Yi and the army behind Han Yi was indelible.

The two confronted each other, like a battle between gods, they had gone beyond the scope of martial arts and magic, and it was a collision of two worlds.

Both of them seemed to be masters of one world.

The shot is earth-shattering, making people feel shocked!

"The galaxy leaks!"

If one move failed, Feng Hou immediately displayed the second move one after another. His star field level was promoted, and the star power was more concentrated, and all the star power in the sky was concentrated on him. The endless silver light poured down like a waterfall hanging upside down, the earth roared, and the endless silver light directly flooded everything around Fenghou. Many soldiers of

the Bright Empire were shaken and impacted, and their bones were directly submerged by the power of stars.

Feng Hou's destructive power is amazing, he just spread out the aftermath of his moves.

But many soldiers of the Bright Empire died in it, all of them were dead, and there was no chance to resist!

Fang Yue drew the ground as a prison, and a finger was drawn out in front.

A barrier of law emerged, and a black wall protected all the Zerg army.

No matter how surging the silver wave was, it couldn't penetrate the black wall.

Within this wall, it is like a pure land world, without any impact or impact!

"Does Fenghou only have this means? It really disappointed me! On the Dark Moon plane, the second-ranked powerhouse among the dignified Yin Yang realm masters can't shake one of my hairs!"

Fang Yue didn't conceal the disappointment in his eyes. He thought that this wind could give him some inspiration and make his cultivation path go further.

But I didn't expect that under this prestigious name, it would be difficult, and the so-called Tianjiao would be nothing but you.

Feng Hou was not angry.

He looked at Fang Yue calmly: "This is not my deity, it's just a ray of divine thought into the body of a soldier. Most of my methods can't be used, otherwise, you will have no room for survival! But it's pretty good that you can get to this point! Compared to some of the long-famous old people in the Yin-Yang realm in the Dark Moon plane!"

Feng Hou was not irritated by Fang Yue's words, he was just evaluating Fang Yue very calmly.

Fang Yue sneered: "Don't put gold on your face, you are not my opponent, even if your deity comes, what will you do? I will beat him like a dog!"

Feng Hou didn't reply to Fang Yue again, because his body was completely cracked, and eventually burst into a cloud of blood.

The original owner of this physical body had only the level of the rotation realm. Although it had been strengthened by some secret techniques in Fenghou, it still could not withstand the baptism of the secret technique of the Yin and Yang realm.

Feng Hou's clone fell, and Fang Yue's face was not happy. Fang Yue has collected a lot of information about Fenghou. This man has a lot of tricks. Not only is he talented in cultivation, he is also an expert in life-saving and trickery.

It is said that he has tens of millions of clones, and each clone has good combat power.

As for the combat power of the Fenghou deity, few people really know it, and even on the ranking list of the Dark Moon plane, the second place in the Yin Yang realm may be fake.

That may be the strength of his clone. Before the deity came out, it defeated the heroes and won such glory. If the deity showed up, perhaps even the strongest person in the Yin-Yang realm on the Dark Moon plane might not be his opponent. .

And this Feng Hou, it was the Dark Moon plane that was one of the undercover agents that had been inserted into the Nine Yous plane a long time ago.

Chapter 1312: Tucheng

The Dark Moon plane has long coveted the Nine Nether planes.

As early as a thousand years ago, they would have discovered the existence of the Nine Serenities and used some means to open up the passage between the two worlds.

They secretly corroded the high-levels of the Nine You Empire and the Bright Empire on the Dark Moon plane and instigated them to fight and consume them, reducing the overall strength of the Nine Nether Planes.

The ultimate goal of the Dark Moon plane is to replace the Nine Serenities and become their new colony.

Originally, the plan of the Dark Moon plane was progressing smoothly, but who knew it was Fang Yue who knew about their plan!

Fang Yue used the opportunity of the Galactic Alliance and the Alpha Galaxy to run over to make trouble!

He wanted the Dark Moon plane to involve more power on the Nine Serenities, and he had no time to consider the invasion of the earth.

This Fenghou was a big fish that Fang Yue deliberately caught!

Even Mingyue City was a bait in Fang Yue's plan.

This Mingyue City had already been controlled by the Fenghou of the Heavenly Wind Empire in the dark! Their resources will be continuously transported to the Tianfeng Empire through various channels.

When Fang Yue took this Mingyue City, Tianfeng Empire would cut off an economic lifeline.

This led the snake out of the cave, Feng Hou had to come out to stop Fang Yue!

Feng Hou met Fang Yue, in fact, he was unlucky.

Feng Hou is good at calculations, Fang Yue is even better, not to mention that Fang Yue had mental calculations and unintentional this time, and won a round steadily.

"A clone of Fenghou is dead! This Bright Moon City no longer has the power to resist my waiting! Take it down for me. Bright Moon City, Slaughter City, don't leave one!"

Fang Yue gave an order! The endless zerg directly flooded the entire Mingyue City.

No matter whether it is ordinary residents or elite soldiers in Mingyue City!

This is a battle of subjugation of the nation and species, and no mercy is tolerated.

Mingyue City eventually became a ruin under the invasion of the Zerg army.

The destruction of Mingyue City spread throughout the two empires overnight.

Two hundred thousand elites evaporate overnight, leaving one million residents. Such a very spicy method is extremely rare in the battle history of the two empires!

Cruel, this word is no longer enough to describe Fang Yue today.

The Bright Empire was outraged and offered a bounty of 500 million spirit stones to reward Fang Yue's Xiangshang head!

But the Nine Nether Empire was completely another kind of feeling.

During this period of time, because the main force was confined in the war quagmire of the new plane, they had no time to take care of the affairs of the Bright Empire.

The Bright Empire, on the other hand, took advantage of the emptiness and kept creating friction on the border.

Is the monarch of the Jiuyou Empire angry when this happens?

Of course he is angry, but does the ruler of the Jiuyou Empire have a way?

These troops are all involved in the newly developed planes, and the only troops they dare not mobilize to defend the frontier cities.

Therefore, the senior leaders of the Jiuyou Empire can only be anxious, angry, and angry during this period of time, and they have no temper at all for the army that is continuously dispatched by the Bright Empire!

And Fang Yue restored Anru City overnight, and slaughtered Mingyue City, which was tantamount to giving the Jiuyou Empire a sigh of ill will, winning glory on his face, and causing the senior officials of the Jiuyou Empire to look sideways!

Good news!

This is a great news!

If it were in normal times, the gains and losses of such one or two insignificant small cities would be nothing to the entire Jiuyou Empire.

But at this juncture, such a big victory is to win glory for the country and vent your majesty.

Fang Yue's deeds must be well rewarded!

As for the two cities eventually turned into dead cities by Fang Yue?

None of this is a problem. The key to victory is face. Do you think the huge Jiuyou Empire will covet such a small amount of resources and population?

The Jiuyou Empire lacks everything, but there is no shortage of people!

As long as there is a place to send hundreds of thousands of people over, it will not take long for these two cities to flourish again!

On the eve of Li Min, Fang Yue's reward was issued from the empire.

Fang Yue, the third-rank school officer, has merit in killing the enemy, honors the empire, has outstanding merits, special gift of tens of billions of spiritual stones, three thousand drops of Jiuyou Dew, one set of Yin-Yang level battle armor, and five thousand sets of rotation battle armor. One hundred thousand imperial soldiers, five thousand guards!

The rewards of the Jiuyou Empire are quite appalling.

Among other things, these tens of billions of spiritual stones are a lot of resources!

The average yin and yang cultivator would be tempted to see these spiritual stones. Yes, the lower-grade spiritual stones are indeed not valuable, but the problem is that they are superimposed on a number of tens of billions, and the worthless things become valuable!

This time, the Nine Nether Empire can also be considered as a capital!

Fang Yue's military rank was directly promoted to the third rank, and at the same time the rewards were extremely greedy. This can also be regarded as a kind of disguised daughter buying bones, encouraging others to use their private soldiers to fight against the Bright Empire.

That's right, the private soldier is the private soldier!

This is the crux of the problem. Indeed, most of the forces of the Jiuyou Empire have already been invested in plane warfare.

But is the Jiuyou Empire now out of soldiers?

Nothing!

There are tens of thousands of climatic families in the Jiuyou Empire. Which of them does not circle. Raise thousands, tens of thousands or even millions, tens of millions of private soldiers.

If these forces can be mobilized, it would be difficult for even the Bright Empire to invade the half border of the Jiuyou Empire.

But the problem is that there are restrictions on the rules of the game.

Private soldiers are raised by families and trained by families at any cost.

Regarding their existence, the empire can only open one eye, close one eye, and has no right to mobilize them. If the empire really wants to mobilize those private soldiers, it needs to let the families actively cooperate.

As for the reason for this active cooperation, it is nothing more than two words-benefit!

Fang Yue became a typical model for the establishment of the Jiuyou Empire.

A soldier from his empire took two cities in a raid without any use!

This is the real reason why Fang Yue has received the attention of the empire's senior management. Otherwise, no matter how brave you are, and then win glory for the empire, it is impossible to have such a big reward and such a good treatment!

Jiuyou Empire, Luotian City, City Lord's Mansion.

The city advocates thinking of watching the newly inherited map in the city.

Zhang Si has paid close attention to the border between Jiuyou Empire and Guangming Empire recently.

It is not how much he loves the Jiuyou Empire or how high his enthusiasm for work is.

It was because Luotian City also belonged to a city that was a buffer zone between the Nine You Empire and the Bright Empire. Although it was not directly bordered by the Bright Empire, it was also a close range.

If Tam City is broken by the Bright Empire, then Luo Tian City will be directly exposed to the vision of the Bright Empire!

Although Luo Tiancheng's strength was more powerful than Tam City, it was not only a grade, but compared with Bright City, it still seemed rather weak.

Zhang Si's heart is quite anxious recently.

Although Fang Yue had a new victory, defeating the 100,000 armies of the Bright Empire and breaking through two cities in a row, it seemed that he had brought back a round for the Jiuyou Empire.

But Zhang Si is very clear about the current situation. Fang Yue's victory is only an occasional one. He won by surprise! Winning is surprisingly winning.

And the same method is obviously impossible to use twice, although the Bright Empire underestimates the enemy, but their high-level generals are not all fools.

As long as the Bright Empire is prepared, the tricks Fang Yue used before will probably not be able to make waves in the future.

Tam City was breached, only sooner or later.

Once Tam City is broken, it will be his Luotian City.

Zhang Si was meditating. Outside the study, Master Zhang Ye stood silently behind Zhang Si.

Zhang Ye is Zhang Si's home and confidant.

Zhang Ye has a lot of tricks and has helped him solve many problems, and Zhang Ye's own cultivation is not weak, the eighth level of the rotation realm, if he is in the army, he can definitely be an official and a half!

But Zhang Ye has always been loyal to Zhang Si and will never leave.

This moved Zhang Si very much, and he did not defend Zhang Ye.

"Zhang Ye, how would you deal with the current situation if it were you?"

Zhang Si asked Zhang Ye, hoping to hear constructive comments.

Zhang Ye was silent for a moment, and then said, "There is one thing under my subordinates, I don't know if it is inappropriate to talk about it!"

"Say!"

Zhang Si said impatiently.

"It is said that this young and frivolous Fang Yue offended the Wang family before, and even he personally killed Wang Rongsheng, the powerful Yin-Yang realm of the Wang family before his hands. This made the elders of the Wang family angry! The elders of the Wang family once gave orders, anyone can Killing Fang Yue and presenting Fang Yue's first level to the Wang Family will receive the protection of the Wang Family and obtain a magic weapon of Yin-Yang level!"

Zhang Ye paused for a while.

Zhang Si's eyes rolled and he immediately understood what Zhang Ye meant.

"Your idea is to let me kill Fang Yue and sacrifice his head to the Wang family? However, if you do so, you will definitely offend the royal family! Fang Yue led his private soldiers to kill the 100,000 army of the Bright Empire, and even Breaking through two cities! He is now on the cusp of the storm. There are many people who are jealous, but there are more people who follow! If this is the point of view, we will kill Fang Yue and be tracked down by the royal family, I am afraid that we can't eat it!"

Zhang Si was able to sit in his seat now, and he was also a person who knew how to judge the situation.

This city was broken seriously, but it was even more terrifying to be watched by the royal family!

"The Lord of the City is too worried! This Fang Yue was awarded the royal family's award only because the royal family wanted to use him to show their determination, that as long as they worked for the royal family, they would get rich rewards and bestow the glory of the first life! But this is just showing the royal family. It's a kind of attitude that they can reward Fang Yue or adults! Instead of passively waiting, it is better to send troops out and use private troops to kill several gathering spots in the Bright Empire! In this way, adults can also get the royal family The rewards of Fang Yue are valued, and the rewards are also very rich. And once someone imitates Fang Yue, Fang Yue's demonstration effect is not so valuable! At that time, the city lord will borrow a knife to kill people, let Fang Yue defeat, and take advantage of it. Kill and dedicate the head to the royal family, and the royal family will not hold the adults accountable for the future of a defeated army!"

"If we have the protection of the royal family, we will try our best to defend the city. Even if Luotian City is broken and the adults are injured and leave, the royal family will certainly not condemn the adults excessively. With the good words of the royal family, the affairs of the adults will be small and trivial. If it's transformed, maybe I can even find another city and get a city lord Dangdang!"

Chapter 1313: The script is wrong!

The bad water in Zhang Ye's stomach was poured out directly.

When Zhang Si heard this, he couldn't help but screamed!

This Ye Fu is his confidant of brains, and even a few words broke his troubles.

"Where is the closest gathering point of this city of light to our Luotian city? You show me! I immediately ordered people to break through the stronghold and seize the spoils of it. As the so-called raising soldiers for a thousand days, I have a total of 20,000 under my hand. Private soldiers, I have consumed a lot of wealth in my hands on weekdays. This time it is time to let them move their muscles!"

Zhang Si's eyes lit up.

I can't defeat the army of the Bright Empire, but can I still do nothing about your strongholds?

At the same time, Zhang Si said to himself: "Sweeping a few strongholds is easy and there is no problem. The killing of Fang Yue should also be put on the agenda. It is said that the Guangming Empire has recently offered a huge reward for Fang Yue's head. Killing Fang Yue, am I not busy? How can this make Fang Yue fail? I still need some advice from Master!"

Zhang Si set his sights on Fang Yue.

Zhang Ye stroked his beard and said triumphantly.

"This matter is actually very simple! As long as I wait to send two thousand soldiers to support Fang Yue, and at a critical time, turn back and procrastinate, this Fang Yue will naturally fall into a panic situation, and then under the iron hoof of the Bright Empire Defeated."

Zhang Ye's eyes flashed with a cunning look.

Zhang Si laughed loudly: "Master still has the idea, come here! Summon Zhang Biao and lead the two thousand people in the city to support General Fang Yue! General Fang Yue raided the Guangming Empire city and worked hard. I will wait for one or two to help. Solve the problem!"

Zhang Sibing is divided into two groups, one is to send the city's general Zhang Biao to lead two thousand troops to support Fang Yue.

The other way is to let his private army general Yuan Shang lead five thousand elites to attack the gathering spot of the Bright Empire.

And Zhang Si was waiting for good news in Luotian City.

In his opinion, his plan is foolproof, and Fang Yue will definitely die this time!

Three hours later, Yuan Shang had led five thousand hands down to the first gathering point of the Bright Empire.

As a result, in the gathering spot, there is no personal shadow! The ground was flat and clean, as if it had been eaten by a mouse.

Yuan Shang was stunned, what happened, and the people who gathered in the light?

"There are some mottled bloodstains at the general gathering point. There may have been fierce fighting, but watching the blood dry, it should be several hours before the fierce fighting!"

When Yuan Shang heard this, his face turned black for a while, but he didn't expect them to come here for nothing!

"The next gathering point!"

Yuan Shang angrily ordered, leading the army to the next gathering point.

However, the second gathering spot was cleaner than the previous one, even digging three feet into the ground, and a large pit several meters deep appeared on the ground.

This is enough!

"It seems that some people have already taken the first step, taking the first step to capture the gathering point of the Bright Empire, but there are so many gathering points around this, I don't believe that they can capture every gathering point and finish plundering!"

"Next!"

Yuan Shang led his men to move on.

The third, fourth, and fifth gathering spots are exactly the same as the situation just now.

Yuan Shang couldn't help being mad, who was in front of him to conquer the gathering spot and search for resources.

"Next!"

At this moment, Yuan Shang's voice was a bit weak, he was not sure whether the next gathering spot would still be empty!

The sixth gathering spot turned out to be brightly lit.

A group of soldiers from the Bright Empire are patrolling.

This gathering spot is unharmed, and there are hundreds of people.

Yuan Shang finally cried with joy!

Heaven, earth! Finally, Yuan Shang was given a chance to do meritorious service!

"The soldiers rushed with me and killed all the beasts of the Bright Empire in this stronghold!"

Yuan Shang waved his arm, and the army swarmed.

They are already suffocated! I met so many empty gathering spots just now, and they were already full of fire.

This time there is finally a chance to vent, how can they not take it well!

Five thousand soldiers came down like a poor wolf and hungry tiger.

The patrol soldiers of the Bright Empire immediately found their tracks.

"Enemy attack!"

A stern voice resounded across the sky.

The tent curtain of the Bright Empire opens.

Teams of hidden soldiers appeared!

At the original gathering point of hundreds of people, there was an army of the Bright Empire with nearly 10,000 people, and these soldiers were all elites of the Bright Empire, and the weakest were the levels of the world.

Yuan Shang was surprised, the rhythm of special code is wrong!

We are here to attack Judian just to find a soft persimmon, to express our position, and make meritorious service. We really don't want to fight against the army of your Bright Empire!

However, five thousand soldiers have swarmed, and the army of the Bright Empire is ready to go!

The confrontation between the two suddenly became extremely tragic.

In terms of elites, the Bright Empire's is the best, and the soldiers of Luo Tiancheng are not bad either!

These are all the hard work of Zhang Si, and I don't know how much hard work he spent to train these private soldiers.

Almost 30% of his net worth was spent on these private soldiers, and he even deducted military resources from the imperial army to train these private soldiers.

The two sides clashed, shouting!

After that, the enemy was extremely jealous.

It was a whole hour of fighting.

Both sides lose out.

The five thousand soldiers under Yuan Shang only had less than three hundred men, while the nearly ten thousand soldiers of the Guangming Empire had a thousand left!

This is a very tragic battle.

Yuan Shang's eyes were scarlet, and his heart was full of anger. The five thousand soldiers under him, it's over, it's over!

Even if he brought back these three hundred people, Zhang Si would not let him go!

Zhao Han, the general of the Bright Empire, laughed, his armor had been chopped to pieces by Yuan Shang in the fight just now.

But this still does not damage Zhao Han's image.

"Your undead empire sneaked attacks on the gathering spots of my Bright Empire. This time it finally caused you a big loss! How? Have you tasted the power of my Bright Empire army? Although it was a tragic victory, it can be eliminated for the empire. A disaster is also my Zhao Han's merit!"

Zhao Han put up a spear, quite the power of Changshan Zhao Zilong.

Yuan Shang vomited blood.

"It's really not me who attacked the gathering place of your Bright Empire everywhere!"

"Not you? Who believes it? Did you lead five thousand elites to drink with me and admire the moon?"

Zhao Han didn't believe it.

Yuan Shang also knew that he couldn't tell how many mouths he had this time.

It's all because of his luck that he came across such an ambush gathering spot, plainly carrying a pot.

"It's not him, it's not him!"

A hearty voice appeared from the forest.

Then a dashing and heroic female general appeared in silver armor.

This female general is Shi Yu, and behind Shi Yu there is a large army of Jiuyou Empire.

"Zhao Han, it is me who attacked your empire gathering spot!"

Shi Yu frankly admitted her identity.

And Zhao Han's eyes widened.

What's wrong with this Nima?

Is it possible that there are still two groups of people who attacked the empire gathering spot?

"I said, it's really not me!"

Yuan Shang said weakly.

Both of them are already fighting to lose and lose, even if they understand the truth, what can they do?

"This, this, this..."

Zhao Han understood the truth, but he didn't come up in one breath, and he was mad at himself!

He fell from heaven to hell, no wonder he had such an emotion.

"I am Yuan Shang of Luotian City. I was ordered by the city lord to attack the gathering place of the Bright Empire. Unexpectedly, I encountered an ambush and fought fiercely. There were very few soldiers left. I also hope that the friendly army will give me assistance and send me back to Luotian City!"

Yuan Shang is sonorous, he thinks his request deserves it.

No one can refuse such a request.

The corner of Shi Yu's mouth suddenly curled up with a faint smile.

"You said that you are a friendly army, do you have the order of the regular army of the Empire?"

Upon hearing this, Yuan Shang was immediately dumb.

He is the leader of a private army, the order of the regular army!

Yuan Shang defended: "I am the personal guard of Master Zhang Si, and I have no military orders in my hand!"

"If there is no military order, that would be a spy! Kill me to avoid future troubles!"

Shiyu is not a good stubborn, otherwise, how could she become a think tank of poets.

Yuan Shang was killed, she was responsible for destroying nearly ten thousand Guangming Empire soldiers.

She hasn't seen any private army or private army!

Shi Yu started with a cruel heart.

Yuan Shang wanted to say something more, but Shi Yu had already slapped his head to pieces.

Shi Yu's subordinates are already gearing up and eager to try.

These hundreds of remnants of defeated generals are quite simple to kill, and the credit for the beheading will ultimately be counted on them.

This is a non-losing business, don't kill nothing, don't kill!

In a moment, hundreds of private troops under Yuan Shang were killed like a storm.

The head fell to the ground.

Thousands of corpses were lying on the ground, and blood flowed into rivers.

However, on top of the tired bones, a female general of the empire slowly rises!

On the other hand, Fang Yue's army has already embarked on the road to return to Tamm City.

On the way, Fang Yue encountered a team of two thousand people and blocked their way.

In this dark night, if Fang Yue discerns that the opponent is indeed the army of the Jiuyou Empire, he will directly send his hand to shoot into a hedgehog when he sees the person blocking the way!

"Who is here?"

Fang Yue asked.

"Report to the lord, I am waiting for the guard of Luotian City, and I am ordered to help the lord to attack the city with the order of the city to advocate thinking!"

Zhang Biao is a vulgar name, but his mind is delicate!

He is eloquent, otherwise, Zhang Si would not send him to confuse Fang Yue!

"Follow the order of Luo Tiancheng City Lord to come and assist me?"

Fang Yue repeated, frowning slightly.

So kind? Pie in the sky?

It's a pity that I don't believe it!

The corner of Fang Yue's gaze lightly swept over the two-thousand-man team, all of which were elite cavalry, among which the ratio of the rotation state to the world state actually reached one to twenty.

This is an alarming ratio, quite rare in the army of the Empire.

If you talk about combat effectiveness, perhaps this cavalry contingent of two thousand men is better than ten thousand ordinary infantry.

This is a piece of fat, sent to Fang Yue's face, why don't you eat it?

Chapter 1314: Zhang Biao's conspiracy

"Since City Lord Zhang has such kindness, then I am not as respectful as smart!"

Fang Yue smiled and brought this cavalry under his command, and they stood side by side with the army of five thousand undead.

The undead army, neat and solemn, the monstrous power of death, rolling and surging, made Zhang Biao frightened and hesitated. Can they really compete with Fang Yue's five thousand undead army?

Is the calculation of the city lord really successful this time?

"This time I will support Tamm City, mainly by encircling and fighting aid! According to the latest information in my hands, 50,000 Light Empire troops have been gathered under Tamm City. Then there are more troops, or three to five thousand people. , Or tens of thousands of troops, are coming from all directions. If the army of the Light Empire is truly encircled, then Tam City will fall!"

Fang Yue was extremely calm and rational.

This time, the Bright Empire has lost its blood!

Two successive cities were broken. The 100,000 army was destroyed, which made the senior officials of the Bright Empire feel a great shame!

If they don't resist, how can their face survive?

How are they doing blessings in front of the surrounding small countries?

Therefore, this time they made up their minds to attack Tam City and massacre all the defenders in the city.

They gathered a total of 150,000 people, and among them were three thousands of judges of the Light God Sect!

These judges start at the level of the rotation realm, practice hard since childhood, and are good at all kinds of light spells.

Their combat effectiveness belongs to the fighter planes.

The first support soldiers Fang Yue chose were not very strong. There were only 5,000 people in total, and all of them were walking on foot.

Each of the five thousand soldiers of the Bright Empire was a cultivation base of the peak of the heaven and earth realm, and there was not even a strong person in the rotation realm.

When Fang Yue saw this team in the distance, his eyes narrowed and his heart paused slightly.

This support soldier is too weak, and still a little too weak.

There are only soldiers, and there is not even a leader in the rotation world. This is abnormal in itself. Is it possible that this team is here to let him ambush and give him food?

Fang Yue's heart is quite cautious!

Zhang Biao, who was beside him, glanced at Fang Yue, thinking in his heart how to give Fang Yue a fatal blow.

Judging from Fang Yue's current performance, he has no faith in himself. If he continues under this situation, he has a very small chance of stabbing Fang Yue in the back.

As a qualified agent, his first step is to gain Fang Yue's trust. How can he gain Fang Yue's trust?

Zhang Biao glanced at the team of the 5,000-member Light Legion in the distance, chance! This is a good opportunity!

The 5,000-person team sent by the Bright Empire didn't even have a general at the level of heaven and earth!

This is a typical cannon fodder team, if he leads the people to crush this team, this Fang Yue will definitely have a good feeling for reducing his defenses.

"Subordinates are willing to invite Ying to fight!"

Zhang Biao clasped his fists in both hands, and the other party Yue said very seriously.

Fang Yue's heart was wondering what was so tricky about the reinforcements of the Bright Empire!

This Biao is good, and it will help him solve problems directly.

Let this Biao's subordinates go off the court first. If the support army has no problem, it will be killed by Zhang Biao's men. This is a certificate of voting.

And if there are any problems, let Zhang Biao's hands bear it!

"Okay! If you can successfully crush this team, I will remember you, and I will give you a few words when I return to the city!"

Fang Yue nodded and allowed Zhang Biao to play.

Without saying anything, Zhang Biao rode his horse galloping, and with two thousand men, he rushed towards this support army!

Zhang Biao approached, and the team of the 5,000-man Bright Empire immediately became flustered.

Although they are wearing exquisite battle armor, they seem to be powerless.

All of Zhang Biao's subordinates are exquisite in martial arts and rich in combat experience. They are full of energy and blood, charging into the battle, as if eating and drinking water.

The butcher knife was brandished and the corpses piled up all over the ground. Amidst the wailing and screams, the team of 5,000 people in the Bright Empire was directly slaughtered, leaving none!

Zhang Biao couldn't help but feel complacent. After slaughtering the team of 5,000 people in the Bright Empire, he actually lost 32 men and injured less than a hundred people. Their guard army in Luotian City is getting stronger and stronger, and there is bound to be a boundless future in the future!

But Fang Yue was not as optimistic as Zhang Biao, and he finally discovered the trickiness.

Although these people are all martial artists of the world realm, yes, they are not soldiers of the Bright Empire.

He has also come into contact with the army of the Bright Empire. Not to mention his personal martial arts, he will never be deterred by Zhang Biao's mere two thousand in terms of cooperation and courage!

When the crisis is approaching, they are too scattered, there is no order, even if it is resistance, it is the behavior of individual people, it is not like the powerful force of the Bright Empire fighting all directions!

This army doesn't seem to come to support, it's more like being put out and killed.

Wait, put out the murdered!

The previous scene suddenly appeared before Fang Yue's eyes. The army of the Bright Empire attacked the city. They drove the prisoners to be cannon fodder and then used their flesh and blood as sacrifices to summon the behemoths of war!

Will this be the conspiracy of the Bright Empire?

If so.....

Before Fang Yue's thoughts fell, he saw the corpse all over the floor suddenly burst into thick blood fog.

These blood mists turned into five behemoths of war and suddenly appeared in front of the guards of Luotian City under Zhang Biao.

A huge shadow fell through, not only in front of the eyes, but also in the heart.

"Help!"

Zhang Biao suddenly spoke. He felt the vitality of these five giant war beasts. Each giant war beast was at least at the peak of the rotation realm. Their soles trampled down, and at least dozens of cavalry died.

Fang Yue's heart was cold, and his guess was correct!

This Guangming Empire sacrificed five thousand cultivators in the realm of heaven and earth, disguised as warriors as bait to induce themselves to kill. Then, the flesh and blood of these bait became the sacrifice for summoning the behemoth of war.

This is a trap, set against him from beginning to end.

As for the rescue of this tiger?

Hey, I just don't do it!

Nothing to show courtesy, steal or steal, this Biao is not a good person by his name!

Moreover, he always glanced at himself with thief and mouse eyes, and no one could say what kind of thoughts were hidden in his heart. He just borrowed the knife to kill people, and let the war behemoth of the Bright Empire get rid of this sturdy!

"Zhang Biao, block these five thousand war beasts for me!"

Fang Yue is not welcome at all!

There is a free shield in front of you, why not use it.

As soon as Fang Yue's voice came out, Zhang Biao immediately lost his head.

Isn't this the plan they set before? He turned back and watched, but in the end why Fang Yue used it.

Their role is wrong!

Zhang Biao's heart was extremely anxious.

Is this also considered to be a steal?

Uncle, this Fang Yue is not a thing! Zhang Biao cursed in his heart.

But the five behemoths of war don't care about this!

The war behemoth recognizes the people of the Jiuyou Empire, this Biao and his two thousand men are the elites of the Jiuyou Empire!

Killing them must be able to greatly damage the strength of the Jiuyou Empire.

As for whether these people are the target of their ambush, the war behemoth's limited IQ cannot think about such a profound and complicated problem.

Zhang Biao led his subordinates to resist, expecting Fang Yue to be completely useless. Their city lord and master were insidious, and this Fang Yue was also so wicked.

Is this the so-called mercilessness?

That's what it meant!

Zhang Biao led his men to besiege the five behemoths of war. Fortunately, his men are well-trained and well-trained. They are not without the power to fight these behemoths.

Your realm is high, then I will use the battle formation to restrain you!

Suppression of the superiority in numbers has made the war behemoth gradually fall into a passive situation!

Fang Yue led his own army of five thousand undead to rest next to him.

Fang Yue felt that the world was really wonderful. Originally, this was a trap set for him, but now someone stepped into it for him and then fought hard.

This Zhang Biao is really a good person!

At this moment, if Zhang Biao, who was fighting in blood, knew that Fang Yue had issued him a truly good person card, he would not know what he would think.

With just a cup of tea, the first war beast was successfully killed by Zhang Biao!

The price is the fall of three hundred elites.

This has to be said to be a battle that hurts both sides.

But Fang Yue didn't care about the war before him.

The behemoths of war are enemies in Zhang Biao's eyes.

But in Fang Yue's eyes, it was not. The level of these war behemoths was too low, and he could knock one down with two shots.

This Bright Empire should have already estimated its own level of strength in the previous battles, so it would never simply let such four giant war beasts kill him.

So what traps are hidden behind the behemoths of war?

Fang Yue didn't know, but he didn't want to know either!

Suddenly, Fang Yue made up his mind. He took the army of five thousand undead and left!

There are pitfalls here, why should you step into it in accordance with the ideas of the Bright Empire.

The rhythm of the war should be controlled by him, Fang Yue is a person who doesn't like being passive!

Fang Yue left, Zhang Biao was stunned!

Li Yunfeng, who was hiding in the dark, was also stunned!

This time the layout was controlled by Li Yunfeng himself, and it was a very common idea in war.

Fang Yue could figure it out, and their Guangming Empire could also guess.

The Empire of Light, underestimating the enemy's arrogance, but definitely not a fool!

If the high-level members of the Bright Empire were all mentally retarded, it would be impossible for the Bright Empire to survive for such a long time by the side of a behemoth like the Jiuyou Empire!

Li Yunfeng is a famous general in the Guangming Empire. Not only is he good at martial arts, he has cultivated to the level of Yin and Yang realm at the age of two hundred, and he is still on the road of dual martial arts, which is quite difficult. What is even more rare is that Li Yunfeng is amazing in martial arts. Besides, he also knows how to march and fight.

This time Li Yunfeng took the initiative to ask Fang Yue to kill Fang Yue. Fang Yue killed the 100,000 armies of their empire and broke two cities in succession. He had already repeatedly slapped the Bright Empire. If Fang Yue is still alive in this world, then What face do the so-called famous generals in the Light Empire have to survive?

Li Yunfeng spent a lot of effort to design today's bureau.

Chapter 1315: Li Yunfeng's ultimate move

From the beginning of the layout, he designed several schemes.

The emergence of the two thousand elite cavalymen led by Zhang Biao was indeed outside of Li Yunfeng's plan, but Li Yunfeng was not a step-by-step person. Since this Biao and his two thousand cavalymen appeared on the field, he took the initiative to meet and let them. People see how good they are.

Of course Li Yunfeng knew that these five war beasts could not kill Fang Yue.

But after all the behemoths of the war died, Fang Yue's greed should come to harvest the spoils!

And Li Yunfeng had already set up a net of heaven and earth in the place where the war behemoth was, waiting for Fang Yue to enter the urn!

As long as Fang Yue dares to come, several large formations will operate at the same time, leaving Fang Yue dead without a place to be buried.

That was a killer formation at the leader level, and putting the curtain on Fang Yue's life should allow him to die without regret.

But by the way, Fang Yue didn't have Li Yunfeng's plan to enter the urn, but left with his own elite.

This gave Li Yunfeng a feeling of punching the cotton.

If Fang Yue left this time, wouldn't all his plans fail?

The cannon fodder at the three thousand heaven and earth level that was sacrificed before is all in vain?

The cannon fodder at the three thousand heaven and earth levels are all prisoners of the Guangming Empire. If they can really use them to kill Fang Yue, then they are indeed dead.

But the problem is that they are dead, and Fang Yue left peacefully, so his name as Li Yunfeng must have fallen.

"Kill! Fang Yue must die this time, he absolutely cannot leave here!"

Li Yunfeng gritted his teeth cruelly, although there was some discrepancy with the previous plan, but overall he still hadn't deviated from his calculations.

Suddenly, under Fang Yue's feet, a large formation suddenly rose.

The surrounding mist is hazy, as if entering a fairyland.

The dense fog turned the surrounding into a blank white snow.

The dense mist seemed to be unable to dissolve.

Fang Yue's heart suddenly moved, and as expected, Tuqiang saw it, and the killer came.

Avenue of the Misty, this is a very partial method, few people understand it, even Fang Yue saw not many descriptions in the ancient books.

But once this kind of avenue is displayed, it is extremely difficult, and it is almost impossible to find a way out from the mist!

Li Yunfeng's killer was finally revealed.

"The archer come out to me and shoot arrows into the mist!"

Li Yunfeng couldn't help laughing when he saw Fang Yue lost in the mist.

"I thought this Fang Yue was so difficult, I didn't expect it to be a stubborn man! A mere mist formation trapped him, and this Fang Yue's previous victory might have been tainted by the raid!"

Li Yunfeng couldn't help being extremely happy when he saw such a scene.

In a blink of an eye, three thousand archers appeared, and every archer was a powerhouse at the peak of the heaven and earth realm. Their arrows had explosive power attached to them, and the arrows were all fired, all falling into the boundless mist. in!

In the Mist Array, as long as this formation is not broken, the people trapped in the formation can only be beaten, and there is no way to fight back!

The endless fog swallowed Fang Yue's entire figure.

He seems to have fallen into a dead end, no longer able to fight back.

"Archers at the heaven and earth level, you seem to underestimate me! Such an arrow would be tickling even if it fell on me!"

Fang Yue's voice came from the fog array.

Fang Yue didn't seem to worry about his safety at all when he was trapped in the fog array.

Li Yunfeng sneered: "Don't worry, this is just an appetizer! Fang Yue didn't you find any special place on the arrows of these archers?"

Before Li Yunfeng's voice fell, there was a flame of fire in the mist array.

These flames are not ordinary flames, but the boundless karma fires that almost all practitioners fear most.

This kind of flame can burn the soul, even if it is a person with a high level of cultivation, if you encounter this kind of flame, you must obediently catch it!

Because this boundless karma fire can cause terrible damage to the soul.

This kind of flame is mixed in some tribulations, and has killed many dead heroes.

Li Yunfeng used this immeasurable karma fire which was specially prepared for Fang Yue. He stored the spar containing a small amount of immeasurable karma fire on the arrow of the arrow, and the arrow burst into the mist formation. Those immeasurable karma fires The spar also exploded at the same time.

These immeasurable karma fires are burning fiercely, trying to burn Fang Yue into ashes.

The flames of the misty array reflected on Li Yunfeng's proud face, and another Tianjiao died in his hands, which made him feel a sense of accomplishment!

This Fang Yue's bones will become a stepping stone for him to reach the position of top general.

The honor of killing powerful enemies to share the worries of the country belongs to him.

The rewards for Fang Yue issued by the Bright Empire are also his.

When Fang Yue fell, Yunfeng was full.

Li Yunfeng was floating at the moment, he was even considering what kind of reward the Empire would give him after killing Fang Yue.

"Are you calculating me?"

An extremely calm voice suddenly appeared behind Li Yunfeng.

Li Yunfeng's body was stiff, and his head seemed to be plunged into chaos.

Impossible, impossible!

Wasn't Fang Yue trapped in the mist formation, he should not be able to break through the restrictions!

Li Yunfeng seemed to hear his own heartbeat.

He slowly turned his head.

Sure enough, he saw Fang Yue's figure.

Behind Fang Yue, the army of five thousand undead had extraordinary momentum, and the billowing death air turned into dark clouds on the horizon to cover the sky!

At this moment, Li Yunfeng, with 10,000 grass and mud horses running past.

Isn't Fang Yue already trapped in the formation, calling for Tiantian's refusal and calling the ground unsound?

How did he come out?

Feitian still escape!

"Fang Yue, this is fake, all of this is fake!"

The calculations failed, feeling that his IQ was crushed, Li Yunfeng's fragile heart tolerance actually showed signs of collapse!

Li Yunfeng's hysterical roar, he was originally a famous general, but because he was too conceited, he ended up like this in the end.

Fang Yue looked at Li Yunfeng almost crazy, his expression of pity in his eyes could not help becoming stronger.

"Your Mist Array is indeed ingenious, but it is a pity that it is still the rule of the Great Realm. What I practice is the Space and Heavenly Dao. If I want to determine the direction, I can control the flow of space power!"

Fang Yue solved the truth for Li Yunfeng.

However, Li Yunfeng already showed signs of madness in the blow just now.

"Hahaha, Fang Yue, even if you break through my fog array, what do you do? I have already set up a net here. After all, it is difficult for you to escape the fate of being killed by me! My third floor layout is The army of the thirty thousand empires! The army of the thirty thousand empires is the elite of the elite, starting at the level of the rotation realm. The three ten thousand chiefs in the 30,000 army are all performed by the strong of the Yin and Yang realm!"

Li Yunfeng revealed his final trump card. Li Yunfeng is naturally cautious. He can become a famous general in the Bright Empire. In addition to his own military ingenuity, his cautious character has also made great contributions!

It is a pity that mobilizing these 30,000 troops will inevitably face Fang Yue's dying counterattack, and it is difficult to build his reputation as a famous general. When facing the siege of these 30,000 troops, Fang Yue will inevitably make a dying struggle.

In the course of this struggle, the casualties of 30,000 troops are inevitable!

"I said, I know the way of space and heaven!"

Fang Yue emphasized again that he was expressionless and not surprised.

Fang Yue was not surprised, Li Yunfeng was startled, the figure of Fang Yue faded away in front of him!

"Space heaven, space heaven!"

Li Yunfeng repeated Fang Yue's words, and he finally understood the meaning.

Among the many Taoisms, the Space and Heavenly Tao is the best at escape.

Unless it is a blockade of the void, a practitioner who is able to comprehend the Heavenly Way of Space can almost freely go in and out of any place!

Fang Yue disappeared, and even the five thousand undead army behind him was taken into a different dimension.

Li Yunfeng's ambush completely failed, and in the end he didn't even catch a single piece of Fang Yue's hair.

Li Yunfeng failed to kill Fang Yue, and his heart was extremely irritable.

At this time, Zhang Biao next to him was almost desperate!

The five real behemoths were finally killed by him, but there were only a handful of 800 elites of his 2,000 elite.

But this is not the most desperate.

The 30,000 army of Li Yunfeng who had previously failed to kill Fang Yue, who really made Zhang Biao feel desperate, gathered slowly.

Fang Yue couldn't kill, but they couldn't return without success.

Killing Zhang Biao is also an explanation to the above!

"Don't kill me, don't kill me, we have a common enemy, I was sent to kill Fang Yue!"

In order to make a living, Zhang Biao made clear his intentions. He hoped that Li Yunfeng would spare his life for the sake of his usefulness.

Li Yunfeng was indeed slightly stunned when he heard this.

This guy came to kill Fang Yue too?

Zhang Biao saw that Li Yunfeng hesitated and thought there was a play, so he immediately stated Zhang Si's plan verbatim.

"This big pit, no wonder he took the initiative to defect to me and gave me two thousand elite cavalry!"

Fang Yue didn't leave, he used the Ten Thousand Realm Body to melt his body into the void and watched silently beside him.

What Zhang Biao said, caused an unknown fire to rise in Fang Yue's heart.

I worked **** the front line to kill the enemy, and you are at ease in the back. This is also thinking about cutting off my head as a nomination for seeking protection from the royal family.

You people have no conscience yet!

Fang Yue's heart was extremely sad and angry. Although he knew that he was not bad and kind, he would never give them good fruit for those who calculated himself.

Thinking about it, Fang Yue took out a small notebook and wrote all the names of Luo Tiancheng City's advocates and master Zhang Ye!

As long as Fang Yue remembered the names on his notebooks, Fang Yue wanted them to die.

Let you calculate the little master, kill you, kill you, kill you!

When Li Yunfeng heard Zhang Biao's plan, a scornful smile appeared at the corner of his mouth.

This Luo Tiancheng Zhang Si still wants to calculate Fang Yue with this ability?

Chapter 1316: Conspiracy

What Fang Yue cultivates is that the heavenly path of space is slippery like a loach. He couldn't catch it, let alone this Luo Tiancheng city advocate thinking?

Therefore, Li Yunfeng has no intention of cooperation.

This Fang Yue's head is his own, no one can grab it!

No one can steal it!

"This Zhang Biao, kill it, and his subordinates are also killed! Then he reported the situation of the battle to the truth. Li Yunfeng led his troops to ambush Fang Yue, killing Fang Yue's two thousand elites, Fang Yue Fleeing from wasteland, nowhere to go!"

Li Yunfeng's words fell, and the book reporter next to him recorded it word by word!

That said, Lao Tie is fine. Although he did not catch Fang Yue and beheaded him in the end, he was defeated by Fang Yue and fled. This was also a small victory for Li Yunfeng!

Li Yunfeng was about to return to the Bright Empire with his own small victory. As for the subsequent battles, he was still fighting against him, how other people like to make trouble, anyway, Li Yunfeng is not ready to attack the opponent Yue.

The strength Fang Yue showed just now really stunned Li Yunfeng - he had fallen into the mist formation, but he got out in a blink of an eye.

Do all of you who can comprehend the way of heaven play this way?

There are still five thousand undead army waved in, and the thoughts dissipated. The proper rhythm is the personal bodyguard!

How can such a flexible army fight?

Anyway, Li Yunfeng is gone.

Being able to become a famous general, Li Yunfeng is not only amazing in combat power, but more importantly, he knows how to advance and retreat and how to cherish feathers.

Under Li Yunfeng's butcher knife, Zhang Biao and others were all destroyed.

Fang Yue didn't mean to act at all, it was a silent conspiracy.

Fang Yue personally slaughtered Zhang Biao, it was too ugly, but with the help of a knife to kill, let Li Yunfeng kill Zhang Biao and others, no matter how the Jiuyou Empire pursued it, it would be difficult to shirk the blame on him!

More importantly, Fang Yue needed a seemingly tragic failure without loss.

Fang Yue's recent performance is really eye-catching and invincible, but this is not necessarily a good thing for Fang Yue. People are afraid of being famous and being strong.

Fang Yue's invincibility will attract the envy of allies and the attention of enemies.

Li Yunfeng and Zhang Si are the best examples.

And when he showed a little bit of frustration, it was able to make those around him look down upon him a bit, and would not continue to be aggressive.

It can be said that Fang Yue and Li Yunfeng are taking what they need.

Both were the victors of this battle, and the only loser was Zhang Si.

Luotian City, City Lord's Mansion.

Wow!

Zhang Si was furious and pushed everything on the table to the ground.

Yuan Shang is dead!

Zhang Biao is also dead!

Their army was buried with them all!

This was a disastrous defeat. The key is that Zhang Si didn't even know how the two teams lost. They were like a small stone thrown into a rushing river, and they were submerged instantly, without a sound, even a bubble. No rumbling came out.

"Fang Yue!"

Unable to find a reason for failure, Zhang Si could only record all the hatred under Fang Yue's name.

If it wasn't for destroying him, how could his seven thousand men lose so terribly.

The whole army is destroyed!

When thinking of these four words, Zhang Si's heart felt an involuntary pain!

In the end what happened?

Why would God punish him so cruelly!

Zhang Si only wanted to roar, only to question.

Behind Zhang Si, Zhang Ye stood behind him like a ghost.

There was no wave of expression on Zhang Ye's face.

If you lose, you lose. Victory or defeat is commonplace in the military.

Those who can't afford to lose are destined to not win.

Although Zhang Si was the lord of the city, he was far inferior to Zhang Ye in terms of mentality.

"Zhang Ye, what do we do next?"

After venting, Zhang Si finally calmed down.

The loss is irreparable, they can only go tentatively step by step!

Zhang Ye's eyes opened and closed, and a ray of light flickered.

"Master City Lord, I have invited Wang San, the messenger of the Wang Family, and he said he can share our worries and solve problems for us!"

Zhang Ye's voice was calm and old.

Zhang Si's heart stopped beating slightly.

Wang San!

When he heard this name, Zhang Ye already knew the identity of the other party.

The royal family of the royal family is the loyal lackey of the royal family.

Wang San, in fact, is not surnamed Wang, he should have changed such a name just for the joy of the royal family elder!

Wang San's full name is Wang Sandao more appropriately.

He had only practiced three swords in his entire life, but these three swords made him one of the top ten strong men in the Yin Yang realm of the Nine You Empire.

Wang San, if you don't make a move, you will definitely kill!

It is said that his sword is devilish, and the strong man who died in Wang San's hands is unknown.

Wang San came in person, which made Zhang Si a little flattered.

Wang San, his status is extremely high, even from a visual point of view, his status in the Jiuyou Empire is about comparable to the lord of a big city!

The lord of this big city is only a strong person in the leader realm. Such existence makes Zhang Si afraid to compare and can only look up!

"grown ups!"

Zhang Si clasped his fists and bowed deeply. Although Wang San was only a slave in the Wang family, his status outside was even higher than that of ordinary city owners!

"I am here this time to kill Fang Yue. There are some weirdness in Fang Yue's body, so the Wang Family must kill them!"

Wang San's voice was a little low, but behind this low, there was a trace of desire and greed!

"When an elder in my royal family was playing Fang Yue, he saw an endless cemetery, and this cemetery runs through the underworld and the Yang world! Fang Yue's army of five thousand undead may not be summoned from the underworld. Instead, it opened the channel between Yin and Yang by special means. If this is the case, this Fang Yue is likely to have the means to penetrate the Yin and Yang realms! If this means is in the hands of my Wang Family, the status of my Wang Family is in this Jiuyou The empire can go one step further!"

Wang San said here.

Zhang Si slowly opened his eyes.

This Fang Yue actually allowed him to have the means to penetrate the two realms of Yin and Yang. This is a big news!

"This time, my king's family will give you a chance to do meritorious service! You immediately lead this 100,000 army from Luotian City to Tamm City to support. At the critical moment, open the city gate of Tamm City, create chaos, and then take the opportunity to kill Fang Yue! Of course, you are not Fang Yue's opponent now, but my Wang family will give you a killer!"

After saying this, Wang San spread out his palm, and in his palm, a drop of black liquid was suspended in the center of his palm.

Zhang Si involuntarily took a breath, and his eyes widened again. In the depths of his eyes, a strong greed could not be contained.

"The next supernatural power?"

Zhang Si's chin trembled slightly, his divine power, it was a heaven-defying existence, he was at the level of Yin-Yang realm, but if he took a drop of divine power, he could raise his strength to the leader level in a short time.

Whether it is to kill the enemy or save your life, this lower power is a god!

"This Fang Yue is certainly powerful, but it is impossible to truly guard against the sky. A practitioner in the Yin-Yang realm may not be able to match him, but if you have this divine power, you will be able to exert your leader-level strength for a short time. At that time, Killing Fang Yue should be easy for you, and my Wang family will mix in your army a master who is good at soul methods, capture Fang Yue's dead soul, and then search for the soul, grab Fang Yue's memory, let His secret becomes the secret of our royal family!"

Wang San had no expression on his face, and he had no worries in his heart for this action.

In this Nine Nether Empire, countless Tianjiao appeared in the air, but most of those Tianjiao were short-lived and eventually fell.

Their chance will eventually become the chance for Wang's disciples!

For so many years, the Wang family has not missed a single shot!

And this Fang Yue is in the end, and no one can defeat the will of the Jiuyou Empire King's family.

"It's an adult!"

Zhang Sibi is respectful and has no idea of rejection.

"Of course, my royal family has always done things fairly. As long as you are willing to serve the royal family, my royal family will not treat you badly! If this plan can be achieved, I can promise for the Wang family to ensure your prosperity and prosperity throughout your life, and send the king's masters to use it. Secret Medicine, in order to improve your strength, you have to go up two small steps on the current realm!"

Wang Er's promise made Zhang Si's breathing suddenly thicker, and his eyes even revealed a frenetic smell.

This royal family's promise is extremely tempting.

Zhang Si's cultivation had already reached a bottleneck several decades ago, and he was trapped in the fourth level of Yin-Yang realm.

This cultivation level limits his official career development. If he wants to get a higher status, he must have a stronger cultivation level.

If the cultivation base of the two small realms is normal, it will take at least hundreds of years. Yes, once the cultivation base reaches the level of Yin-Yang realm, if there is no supply of resources against the sky, it would be very difficult to enter another small realm. The difficulty is that it needs to be measured in hundred years!

"Thank you for your reward!"

Zhang Sixian, as if he had already seen the scene when Fang Yue had a big victory.

Although the previous two teams have been completely destroyed, this still does not hinder Zhang Si's confidence in the success of this plan.

Before, he was struggling alone, but this time he was standing on the shoulders of giants, with the Wang family behind him. What was Fang Yue worth? What does Tam City do?

When Fang Yue returned to Tam City, Tam City was already under martial law.

If it wasn't for Fang Yue's unique army of five thousand undead as the identity certificate, it is estimated that the garrison of Tam City would directly open fire when he arrived under the city.

Skeleton archers stand on the wall.

Each head is the elite of the elite.

There are a total of five thousand skeleton archers, three thousand are the peak level of the heaven and earth realm, and another thousand are the skeleton archers of special attributes, the level of the half-step rotation realm, and the arrows have special magic marks attached to them! The remaining thousand skeleton archers, all of them exist at the rotation level!

This time, the Li family had spent money in order to protect the city of Tamu!

This skeleton archer was not summoned, but the Li family selected the strong from the heaven and earth realm and rotation realm before his death and used a lot of materials, resources, and manpower to refine it.

Chapter 1317: Li Family, Li Mingwei

Every skeleton archer is as powerful as a creature in the same realm!

Use them to protect Tam City, there is a feeling of overkill!

Fang Yue entered the city.

Oncoming was Li Hanyun's extremely enthusiastic and hypocritical old face!

Fang Yue ignored Li Hanyun, and his eyes fell on a handsome man who was tall and tall and looked like a javelin behind him.

This man is really handsome, and Fang Yue is a little jealous of being handsome.

"People from the Li family?"

Fang Yue asked tentatively.

"Li Family, Li Mingwei."

The man's answer was simple and straightforward, his eyes were pure, without any intriguing look.

Return to the basics, and wash away the lead.

Fang Yue immediately gave the man his own evaluation.

This man should be an important figure in the Li family.

Fang Yue made a judgment right away, because this man stood at the level of Yin-Yang realm, but his breath was a bit erratic, making Fang Yue unpredictable.

Such a person must be the best in the Yin-Yang realm level. Standing at the Yin-Yang realm level, his true strength may not be much weaker than those who have just entered the master level!

"Oh, I forgot to introduce it. This is Li Mingwei of the Li family, the arrogant of the Li family's younger generation! In the ranking of the Yin and Yang realm of the Nine You Empire, the Ming Wei is the top five existence! , You can fight and kill the leader-level powerhouse! This time, Master Li Mingwei brought a 150,000 army of reinforcements to the city of Tahm. The reinforcements are of various types and excellent quality! This time, my city of Tamm has become an iron fight. City! Even if the army of the Bright Empire is assembled, I won't have to fear them anymore!"

There was a hint of excitement on Li Hanyun's face.

He is stationed in this deserted town. Although he is the name of the Li family, he is a marginalized figure in this family.

For the first time, an important person from the Li family came to his city to garrison.

This kind of excitement that is valued is hard for ordinary people to understand.

"Master Li Mingwei, fortunately meeting!"

Fang Yue smiled and shook hands with Li Mingwei!

Li Mingwei's palm and Fang Yue's palm touched, and it was cold, as if the owner of this palm was not a living person.

"Fortunately!"

Li Mingwei was still as cold as he was just now, there was no politeness in his eyes, no waves of expression.

"What are your thoughts on this battle?"

Li Ming went straight to the subject and was too lazy to circle with Fang Yue.

Everyone is a happy person, the same goal, the same dream!

Fang Yue smiled and said: "There are two choices. If it is for the Li family to stand up for power, head-to-head, and lose both sides. If the Li family is strong enough, the command victory of the general should not be a problem, but the price paid is not me. As expected!"

Fang Yue's words paused for a while.

Li Mingwei immediately responded: "Most of the strength of the Li family is involved in the newly developed plane, so the combat losses are too great to be worth!"

"The second plan is to take advantage of strength. If I didn't expect it to be bad, this royal family member is coming soon! I killed their royal family's messenger, and the Wang family's domineering personality will definitely find the place. And they want Kill me, you don't necessarily have to do it yourself. During my return to Tam City, I encountered a wave of robbery from Luotian City. Tsk tsk, two thousand elite cavalry, disguised as the illusion of taking refuge in me, waiting for me. Stabbed me when I was weak! Then, they were killed by me with the knife of the Bright Empire! This Luotian city's city proposition will definitely not be reconciled! And the Wang family can hit it off with them!"

Fang Yue's words made Li Mingwei's heart slightly cold.

"This Luotian city's city advocate thinking actually sent someone to kill you?"

Li Mingwei's tone was solemn. Zhang Si was originally a city lord standing in line, but he didn't expect that they would actually stand on the side of the Wang family.

"Yes, Zhang Si wants to kill me. The purpose is to get the appreciation and blessing of the royal family. Tahn City is broken, and Luotian City is the next goal of the Bright Empire. Although Luotian City is more

prosperous and stronger than Tam City, they Can't resist the iron hoof ravages of the Light Empire army!"

Fang Yue's analysis was included. Although Zhang Biao didn't confess so much to Fang Yue at the time, Fang Yue still revealed the real reason by virtue of his reasoning ability.

"This Zhang Si is really bold!"

Li Ming roared in a low voice, and there were faint flames of anger flowing from his eyebrows.

Fang Yue said with some carelessness: "Human nature is nothing!"

"What about your second plan?"

"Let's do this..."

Three hours later, Zhang Si led the army to the north gate of Tahm City.

No way, the army of the Guangming Empire gathered at the south gate, and when they really encountered it, they went straight to war.

Zhang Si's goal was to kill Fang Yue, but they didn't have the idea of supporting Tam City and working for Li Hanyun.

"Boom, boom, open the door!"

A vanguard general under Zhang Si rudely knocked on the gate.

The tranquility that Tahm City gave at this moment did not even make a sound!

Zhang Si led the army, and no one greeted him.

According to reason, this is not in line with normal logic at all.

It doesn't matter whether it is an angry refusal or a resumption of welcoming.

This Tam City must have an attitude!

The general vanguard knocked on the door for a long while, and his voice shook the sky, presumably even the bright army on the other side of Tam City had heard it.

But there was still no movement in Tahm City!

"Bump directly into the city gate! We are here to support the city of Tam. Whether they like it or not, they must open the door to welcome them!"

At this moment, Zhang Si showed a domineering side. This time, he came in full force. In addition to leaving five thousand necessary guards in Luo Tiancheng, he brought all the rest of the 230,000 soldiers and horses. Come out!

This is a big bet by Zhang Si. If he wins, he is prosperous and wealthy, and his cultivation level is raised two small steps. If he loses, he will not lose!

Zhang Si secretly tried so hard in his heart!

The next moment, the city gate opened.

Zhang Si saw through the city gate that the entire city of Tam was empty!

Zhang Si's heart trembled slightly, and he immediately realized what was wrong.

Li Hanyun and Fang Yue in this city of Tam turned out to abandon the city and escape?

This lost city is certainly abhorrent, but fleeing without a fight touched the bottom line of the Jiuyou Empire.

Are these two people crazy?

At this time, the army of the Bright Empire had already rushed in along the south gate of Tamm City and entered Tamm City.

Ximen Chong, the general of the Bright Empire, was extremely happy in his heart.

The army of the Bright Empire is indeed unparalleled, and there is no official confrontation yet, the defenders in the city of Tam have already fled.

Although he eventually occupies an empty city, there is not even a small mouse that hasn't opened his eyes. But this is also a big win after all! The final feat is enough to allow him to improve one or two skirts on the existing level!

What Fang Yue, what is the army of the five thousand undead, it is simply an error.

How good can he be?

Seeing that the army of my Bright Empire was so scared to pee, didn't even have the courage to fight and run away with his men?

The more Ximen rushed to think about, the more proud he was, and he had already reached the north gate of Tam City with his men.

Wait, what is this?

Ximen Chong saw that the location of the north gate unexpectedly had a dampness of soldiers entering the city.

This breath, this costume, it was clear that all were from the Jiuyou Empire.

Is it possible that they are here to retake Tahm City?

Want to grab food from the little master's hand, how is this possible? How could the city that fell into the hands of my Ximen Chong be seized back by you!

Ximen Chong's heart was furious, and he raised the sword in his hand: "Brothers give me a duck and kill these remnants of the Nine Nether Empire!"

Before Zhang Si could react, what was going on.

The Ximen Chong army had already rushed towards the North Gate.

Zhang Si was stunned, he felt the icy murderous intent that was like a sea wave, and there was a strong smell of blood mixed in it!

The endless and endless army of the Light Empire gathered from all sides of the city of Tam.

Zhang Si's face changed immediately.

"Oops, it was calculated by Fang Yue!"

But at this time, he can only bite the bullet and fight.

If you want to run now, you can't get away!

If Zhang Si explained that they were not from Tam City, would the army of the Bright Empire let them go?

Obviously, this is impossible!

It doesn't matter whether you are from Tam City or Taddy City.

As long as the army of the Jiuyou Empire is our enemy!

The two sides clashed, cut off the troops, and for a time the blood rushed to the sky, and the sky was stirred.

Ten kilometers outside the city of Tam.

The three figures stood on the top of a barren land, concealing their breath.

"Tsk tusk, this confrontation is really fierce enough!"

As Fang Yue watched it, he was talking coldly.

Li Mingwei's body is slightly stiff. He is a straightforward boy. Is it really good to kill his empire's friendly army like this?

Li Hanyun was also swaying from watching. When he looked at Fang Yue, there was a vague awe in his eyes.

This Fang Yue was too terrifying, and he slayed a person when he caught him.

It was obviously Zhang Si who was calculating Fang Yue, but instead, Fang Yue was enlisted.

Li Hanyun secretly vowed in his heart not to confront Fang Yue head-on. With such an enemy, it simply makes people sleepless.

His calculations are beyond defense.

Shouting to the sky, the two armies met like a torrent of steel, and various visions appeared one after another, and the void trembled, like the end of the world.

Different rules are intertwined. The armies of both sides are elite teachers. Among them, there are strong men in the rotation realm who understand the laws. They master secret techniques and are associated with supernatural powers. Once they are used, the sun shines and the divine light flows.

The small city of Tamm was almost shattered by the confrontation of various magic soldiers.

It was just an instant confrontation, and endless cracks appeared on the ground around Tam City. In the sky, the wind and clouds changed, sometimes meteorites fell, smashing the ground, and sometimes hail everywhere, leaving people with nowhere to escape.

Lightning and thunder, dazzling stars, various methods, make people look dazzling!

This is a battle of life and death, and there is no way out.

Both parties can only do their best to obtain that faint vitality!

Chapter 1318: Slaughtered castle

Fang Yue felt the death rippling in the city of Tam. In just a few dozen breaths, there were corpses in the city of Tam. Fang Yue roughly estimated that at least nearly 10,000 people were killed!

"Go! Turn the horse's head to go to Luotian City. At this time, Luotian City is the most empty time, and the Luotian City is captured. All the wealth in it belongs to us!"

Fang Yue's eyes glowed, and he was going to copy Zhang Si's old nest.

If you are unkind, I am unrighteous!

Li Mingwei looked at Fang Yue who was about to move, he always felt that Fang Yue was not like a soldier from the empire, but more like a bandit coming down the mountain!

"Fang Yue, it doesn't seem very good to do this!"

Li Mingwei hesitated.

After all, this Luotian city is also the city of the empire.

They burned, killed and looted like this, if the Wang family caught the pigtail and played a book on it, their Li family couldn't eat it, so they would go around!

"No, no, no! Of course it is not you and me who plundered Luotian City! It is a large army of the Bright Empire! They took advantage of the emptiness and captured Luotian City, slaughtered wantonly in the city, and even snatched it away. Wealth in Luotian City! The army of these Bright Empires is extremely abhorrent, we will inevitably destroy them in order to show the empire's glory!"

Fang Yue talked serious nonsense.

The light in Li Mingwei's eyes is uncertain. Although he is the arrogant of the Li Family, he is still not smooth enough in handling things. In terms of cruelty, he is too far behind Fang Yue.

Seeing that Li Mingwei was still hesitating, Fang Yue spoke, and said painfully to persuade him.

"My eldest master, you should understand that the most important thing in this so-called practice is the four words "Fa Di". Although the Li family is strong, it cannot do without the support and supply of

various resources. If the resources are sufficient, The Li family was able to cultivate more powerful men and possess a deeper foundation! The wealth in Luotian City's hands has accumulated for many years. There must be various resources and some scarce weapons and armors in the city. These things, in the war years, every time The same are precious things. If you can bring these things back, the Li family will definitely take a high look at you."

Fang Yue's words were true and meaningful, and Li Mingwei's mind was slightly shaken.

Of course, Li Hanyun felt that Fang Yue's words were correct. If he had enough resources, he would not stay in such a small city of Tam.

But he had a bad premonition, as if he saw a rising star falling rapidly at an incredible speed.

Fang Yue's bandit thinking must not tarnish Young Master Li Mingwei's pure heart.

But seeing the trace of heartbeat in Li Mingwei's eyes, it means that the trace of worry in Li Hanyun's heart is gradually coming true!

"Go! Order 20,000 soldiers and horses, march into Luotian City, plunder Luotian City up and down, and I will share the captured wealth equally with Young Master Li Mingwei!"

Fang Yue shouted, soldiers and horses gathered.

If these soldiers were to go to the front line to fight the enemy, they would definitely be unwilling to one million, but if they were to burn, kill, and plunder, they would be very positive about this kind of good thing!

In this process of looting the family and exterminating the clan, they can share a lot of benefits.

Fang Yue and Li Mingwei led troops and horses towards Luo Tiancheng.

Li Hanyun was left here in charge of the gambling battle.

Seeing Li Mingwei's figure following Fang Yue, Li Hanyun frowned.

This time, Mingwei Boy won't really be led astray by Fang Yue!

A few hours later, Fang Yue led a large army of soldiers to the city, and the five thousand defenders of the 20,000 elite who were left in Luotian City at a stop in Luotian City directly peeed!

It's not to blame them for being too embarrassed, but Fang Yue and the signals brought by them are really bad!

The army led by Fang Yue is all wearing the clothes of the Bright Empire army at the moment. They have already hit here, so will the main force of the Bright Army be far away?

Not to mention their five thousand old, weak, sick and disabled, even when Luo Tiancheng is in good condition in the entire city, the army that wants to resist the Bright Empire is still a man.

In the end, these five thousand old, weak, sick and disabled defenders opened the gate directly, hoping that the Bright Empire would spare them a small life.

If it were a real army of the Bright Empire, it might have spared these five thousand old, weak and sick, but Fang Yue was different, he came with a mission!

The more people he kills in the Alpha Galaxy, the more military merit points he gets.

For the sake of the earth, for the sake of military merit, he can't be easy to be merciful!

Fang Yue's army spread, and the iron hoof trampled!

Fang Yue attacked his cruel heart and directly let the army kill, there were no residents and defenders left in the city!

"Fang Yue, this is a slaughter city! And it was my own city of Jiuyou Empire that slaughtered, you are crazy!"

Li Mingwei finally found something wrong.

This Fang Yue is indeed extremely clever, but his murderousness is too heavy, even killing his own!

Fang Yue turned his head slowly and looked at Li Mingwei.

"Charity is not in charge of soldiers and righteousness in business. What if we keep these residents and reveal our identity? This is a crime of treason against the empire! What's more, the lord of Luotian city has already submitted. After the Wang family and my Li family are on the opposing side, how can the enemy talk about kindness?"

A strong murderous aura flooded Fang Yue's body.

This is not the murderous aura accumulated from occasional duels.

This is the murderous aura accumulated by crawling in the pile of dead people all the year round. The murderous aura that seems to be the substance alone makes Li Mingwei no longer have the idea of arguing and resisting Fang Yue!

Crazy, all crazy!

There was only one thought in Li Mingwei's mind.

But now he and Fang Yue are firmly bound in the same big ship, and there is no other thought in his mind except for the massacre.

In an instant, a good-looking Luotian City became a **** on earth.

A million residents were slaughtered.

The residents of this city have no shortage of martial artists with superb cultivation levels in the world and even the rotation level, but they may be able to fight alone, and when they encounter this poor wolf and hungry tiger, the imperial army that is good at enclosing directly lie down.

The wealth in the city is equally terrifying. From the city lord's mansion to ordinary residents, their wealth has been robbed again.

Only the present spirit stones are piled up like a mountain!

Low-grade spiritual stones are 65 billion, middle-grade spiritual stones are 1.2 billion, high-grade spiritual stones are 5.5 million, and top-grade spiritual stones are 130,000!

Such a large sum of wealth was placed in front of Li Mingwei.

Li Mingwei's breathing became heavy.

His eyes are completely red! The benevolence, justice and morality before these spirit stones were all thrown into the middle of Java.

Go for special kindness, go for special morality.

This Luo Tiancheng is so rich! Just these spirit stones, separated in half, is enough for him to cultivate to the level of the leader!

It's no wonder that these city masters are all rich and rich, they can be called a small prince, a small Luotian city is like this, what other cities are like!

The wealth was donated to the family, how would those senior members in the family treat him differently!

Li Mingwei is also a selfish person, and he prefers to put his future in the first place than he cares about those who are irrelevant!

"The rest of the materials, medicines, armors, and armors cost more than 600 billion spirit stones!"

Fang Yue said the balance to Li Mingwei again.

Li Ming turned his head slowly to look at Xiang Fang Yue.

"General Fang Yue, is there still a task of copying the house? Next time, go together!"

Li Mingwei's mentality has undergone earth-shaking changes!

How much resources does he get from the family in a month?

In the Li family, he was already considered a very core disciple, with a boundless future, comparable to the combat power of the leader.

But his one-month resource quota is only a mere five million spiritual stones.

This time ransacking the house is worth the resources he has obtained from the family for hundreds or even thousands of years!

Fang Yue smiled secretly, this Li Mingwei really couldn't control it anymore.

However, this Luotian city is really not rich, a large city with a population of one million, only this accumulation of wealth.

Originally, according to Fang Yue's estimation, this Luotian City could at least exceed the value of two to three hundred billion spiritual stones.

It seems that in recent years, Zhang Si has been quite ruthless in searching for wealth in Luotian City.

Otherwise, the huge city will not only have this wealth.

But the wealth in front of him was enough to make Li Mingwei, a young man who had never seen the world in the deep house compound, sink in his heart.

This Luotian City was three feet away by Fang Yue, plundering all the treasures!

Afterwards, Fang Yue and Li Ming walked away slightly and returned to the surroundings of Tam City.

The battle in Tam City has not ended, and the entire Tam City has been razed to the ground.

The confrontation between the two sides became more and more fierce, and many battle formations showed their power, and every shot down was no weaker than the confrontation of the Yin-Yang realm strong!

The wall buildings of Tam City simply couldn't stand such a violent energy impact.

Luo Tiancheng's city advocate thought has already flown to the sky and fought a decisive battle with a strong man in the yin and yang realm of the Bright Empire. The two sides are comparable to each other, and the fight is extremely tragic!

Zhang Si displayed the supreme profound arts and turned into an ancient giant elephant. With its feet collapsed, even the sky could be trampled on, while his opponent became a golden-winged roc, whose golden wings are more dazzling than the sun. !

"Nearly 100,000 horses have died on both sides!"

Li Hanyun saw this battle with lingering fears. He originally thought that with Li Mingwei joining, Tam City was already an iron bucket, and he had no worries ever since, but after watching this battle, Li Hanyun realized that he was too naive!

Both Zhang Si's men and Nangong Chong's men of the Bright Empire Nangong Chong are a group of arrogant soldiers with unmatched combat power. Even if they can resist one of the attacks, they are absolutely unable to resist two. Such a terrifying army!

Fang Yue's strategy is correct. Let them fight against each other. In the end, they are sitting on reaping the benefits of the fisherman.

Looking at Fang Yue's eyes, Li Hanyun showed a little more admiration. Sometimes, this ingenuity is indeed more important than pure force!

"It seems that the Bright Empire has the upper hand!"

Fang Yue glanced at the corpses on the ground, the number of corpses, the number of people wearing the armor of the Jiuyou Empire is more!

This was actually what Fang Yue expected. After all, his previous performance was too amazing. The Bright Empire must have gathered talents from all sides.

The level of its forces and types of arms is not comparable to that of Zhang Si's army.

To be fair, it was beyond Fang Yue's expectation that Zhang Si was able to carry it so far.

Zhang Si's army is superb, and its command is orderly. If it were not the enemy, Fang Yue would definitely save Zhang Si.

This is a talent, especially when it comes to training soldiers, it's a pity that they are different from each other and not conspiracy. Due to the surprise of the camp, the two can only meet each other in battle.

Zhang Si displayed a taboo secret technique in the sky. He spent a hundred years of life and used his essence and blood to gather a three-inch small sword between his brows.

The small sword stabbed, caught off guard, and hit the golden bird's heart.

Chapter 1319: Retreat

Pengniao wailed and fell blood.

This is his key point, he is inherently fragile and cannot be hurt!

Peng Bird fell, but Zhang Si's face didn't have much joy. On the contrary, his face was pale, and a few strands of silver thread were drawn from the temples.

Zhang Si felt uneasy. Where did Fang Yue leave with the soldiers in Tam City?

Now, his soldiers have been completely maimed. When they came, there were a total of 230,000. Now there are only more than 170,000 points left!

Moreover, the living soldiers are not considered prosperous. Their qi and blood have deteriorated severely. Some people's spirits have become trance. The struggle between life and death is too obvious and intense for practitioners.

"Now can you cease the war? Although your Bright Empire has the upper hand, I am not a good bone to gnaw at. I can tell you very clearly that I am also Fang Yue's enemy. Our goals are the same! We should unite, and Not fighting each other here!"

The Yin-Yang realm is also quite high in the army of the Bright Empire. Zhang Si hopes that the fall of the golden peng bird can calm the army of the Bright Empire from madness.

He has spoken more than once to persuade the army of the Bright Empire to stop.

Because such a war is meaningless to them, his real target is Fang Yue, not the soldiers of the Bright Empire.

Ximen Chong frowned slightly.

He was panting. As a strong man in the Yin-Yang realm, he was invincible on the battlefield. Except for practitioners of the same level, no one would be his opponent according to the truth.

However, war is often so unreasonable.

Zhang Si's subordinates were powerful, and battle formations were built one after another. He was trapped among them, and his left branch was relieved. Although there was no danger to his life, he was still unable to fight Zhang Si head-on.

Now, his adjutant has fallen, making his burning vitality gradually calm and calm down.

His damage this time was huge, and more than 40,000 soldiers of the Bright Empire fell to its borders!

This is not a big victory, at most it is a slight advantage, because the strength of the two sides is not equal, and his soldiers are more elite than Zhang Si's!

"Zhang Si, can everything you say before is guaranteed to be true?"

Ximen Chong temporarily stopped, he looked at Zhang Si in the sky, and he felt a little tired.

"I swear to the heavens, I, Zhang Si, didn't make any false statements just now. I came to kill Fang Yue, and I can quit this Tam City and let the Bright Empire continue its occupation!"

Zhang Si raised his palm and swears solemnly. This practitioner's oath can't be said nonsense, because it will affect the stability of Dao Xin.

Zhang Sili vowed to have great credibility.

Fang Yue took out the photo crystal and recorded Zhang Si's figure and words.

This is his testimony against Zhang Si in court in the future.

Hearing Zhang Si's oath, Simon Chong finally let go of his heart.

"In that case, I will believe you once and let you retreat and leave!"

Ximen Chong's voice did not fall.

Fang Yue has used his method again!

In the ruined walls of Tam City, the array patterns light up one after another.

Fang Yue had expected the scene before him. Although Ximenchong and Zhang Si's armies would consume each other, they were destined not to die!

Fang Yue's goal is to destroy both sides without leaving alive.

What's the matter with you who killed half?

Isn't the next thing I want to finish?

The formation is activated, and millions of spirit stones evaporate directly!

All the spiritual energy rushed into the formation.

Ximen secretly said that it was not good.

But it was too late.

The formation was activated, and the golden rays of light came one after another.

The boundless rays of light continue to resonate with the entire city of Tahm!

In the city of Tam, there are fascinating figures, and every figure is a ragged armor. They are not real, but figures dropped from a certain world.

These soldiers were full of murderous intent, and they rushed towards the army of the Bright Empire!

In the city, the fountain of death gushes out the nether air, which makes the soldier's figure more solid.

"The former heroes now come back to this territory! Let them come to the world again after death!"

Fang Yue's voice was low and depressed, and his eyes were full of fanaticism.

This formation was made by himself! The details and ideas are all made by God.

This is the first time he has set up the formation he researched, connecting with the battlefield on the ground with the help of mouthfuls of death fountain!

The mutilated corpses on the ground exudes a strong death aura, and these death auras are also one of the energy sources of the formation!

"See you! Fang Yue, you must die!"

The troops trapped in the formation, apart from the soldiers of the Bright Empire, Zhang Si and his 80,000 soldiers also had not had time to withdraw from the area of Tahm City.

His eyes were blood-red, and he was absolutely defensive. He didn't expect Fang Yue to follow him like this.

Simple and fierce, like a dagger, piercing his throat straight!

Zhang Si's heart sank.

He knew the origin and horror of the fountain of death in Tam City, and even knew better about the fountain of death than Li Hanyun, the lord of Tam City.

I don't know how many years ago, he was still the city lord of Luotian City. One hundred and eight fountains of death in Luotian City rioted at the same time, and the ghostly air burst out!

These ghostly auras turned into a huge figure, this figure descending like a demon, killing people at sight, unmatched!

He was already a strong man in the Yin-Yang realm, but in front of the giant he seemed to be a child who had just walked out of the baby.

He was weak and defeated by the huge figure.

In the end, a strong man from the leader of the Jiuyou Empire came and fought fiercely with the demon-like figure for three days and three nights before suppressing it.

However, the strong man in the leader realm was also extremely traumatized. It is said that after returning to the imperial capital of the Jiuyou Empire, it took less than half a month to sit back and return to the West because of the overdraft of his vitality!

This matter was blocked by the high-levels of the Jiuyou Empire, and Zhang Si never mentioned it.

But the strong master of the leader realm once warned Zhang Si before he left, that in the future, he must be careful of the Nine Nether Qi in this fountain of death. The disaster of the complete destruction of Tiancheng! If a one-thousandth of the power appears, even the powerhouse of the Saint Realm will be unable to suppress it!

Zhang Si has always kept in mind the teachings of the strong leader, so he has been paying attention to and studying the fountain of death in Luotian City for these years.

Unexpectedly, this Fang Yue was bold enough to hold the sky, and he even dared to mobilize the power of the Fountain of Death!

If this matter spreads out, I am afraid that even the senior officials of the Jiuyou Empire will come forward and personally investigate it!

With a glimpse, Zhang Si wakes up from his inner contemplation.

In front of him, there are a series of demon-like figures condensed by the Qi of the Nine Nethers!

Their strength is superb. Although the number of them is small, they seem to have only a few thousand people. Each of them is an undead veteran. The armor on their bodies is extremely tattered, and the blades are dim and rusty.

Ravaged, this is a unilateral ravaged.

Whether it is the army of the Bright Empire or the army of Luo Tiancheng, in front of these veterans of the Hundred Wars, they are all fragile as if paper.

Although their weapons have been stained with rust, each shot can still take away a strip of fresh lives.

Their moves are simple and straightforward, without any fancy, but they are sternly angled, and they can be assassinated from unexpected angles every time.

Picking diagonally, cutting horizontally, and stabbing straight, these moves are so simple and rough, but they have the upper hand in the battle!

Whether it is first-to-one or one-to-many, or even one-to-tens, these veterans can often deal with it easily.

The veteran contingent of a few thousand people has become a nightmare for the two armies.

The efficiency of their slaughter is amazing, just a few breaths before hundreds of soldiers have fallen.

The death aura in Tahm City is getting stronger and stronger, and these strong death auras will be fed back to the veterans, making them stronger and more solid.

This is an endless loop, almost insoluble.

It's not that Zhang Si and Ximen Chong didn't think of a way to break the game.

But even if the two of them attacked and killed a few veterans, they would be resurrected in death.

If lifelessness persists, veterans are immortal!

And the reborn veterans will continue to slaughter all the creatures they can see!

"This ancient formation in Tam City is really effective. These invaders of the Light Empire have all received their due retribution!"

Fang Yue was full of praise for the formation in this city.

Li Hanyun was taken aback for a moment, and then echoed: "It's true! These are the brainchild of my ancestors of the Nine Nether Empire, but it's a pity that the veteran soldier summoned by this formation is irrelevant, and the army of Luo Tiancheng is also trapped in it. Even if we want to support, we are powerless!"

Black heart, thick skin!

Fang Yue and Li Hanyun are both veterans of this.

Although the enemy and friends of this formation slaughtered a large number of soldiers of the Bright Empire, Zhang Si and others would inevitably be destroyed!

Therefore, the formation must be arranged by the seniors in Tam City.

Even if many people saw Fang Yue wandering around in Tam City before, and what was arranged, it cannot be said that Fang Yue is using the fountain of death in Tam City to arrange such an extinction formation!

Seeing the shameless Fang Yue and Li Hanyun's exchange, Li Mingwei suddenly felt that he was still too simple!

If he wants to grow up, he should learn a lot from Fang Yue and Li Hanyun!

As the two talked and laughed, there were more soldiers who died in the city of Tam, from hundreds to thousands!

Both Ximenchong and Zhang Si were bleeding in their hearts, but they had nothing to do with the spread of such a scene!

This formation is really terrible! They are completely sealed off in the city of Tam, unless they can uproot all the fountains of death in the city, otherwise, no one can get out of the range of the city of Tam!

Thousands of soldiers are all elites in their hands. They may only be a number on the casualty table, but for them, that is where they are relying on the fierce soil and the conquest!

Chapter 1320: Intervention

"Fang Yue!"

Zhang Si clenched his fists and gritted his teeth.

All this must be Fang Yue's conspiracy.

From the beginning, the empty city of Tam City is!

No matter how Zhang Si and Xi Menchong hated Fang Yue, this unilateral massacre never stopped its pace!

The veterans were expressionless, killing like weeding!

The blood stained the earth red.

The veterans walked on the bones.

What used to be Tam City, now it has become a City of Death!

Those fountains of death seemed to be stimulated by the rich death aura, and the Nine Nether Qi that surging out of them became more rich, even three to five times as much as before!

At this moment, the casualties of the army of the Bright Empire and the garrison of Luotian City have all exceeded 10,000!

The faces of Ximen Chong and Zhang Si were desperate.

How could this be?

They all came for Fang Yue. They thought they would be able to make contributions. Since then, they have risen to the top, stepping on Fang Yue's corpse, climbing to a higher position, and being appreciated by big men.

But their plan was not only unsuccessful, on the contrary, they didn't even see Fang Yue's face once, and they were already going to die.

After a half-stroke.

Ximen Chong and Zhang Si had no idea of living.

The soldiers under them have been killed by nearly fifty thousand each.

The once mighty lions have now become a group of true remnants of defeated soldiers. They were scared by the veterans.

Even the living soldiers have no courage to resist.

Just when Ximen Chong and Zhang Si thought they would definitely die in this city of Tam this time.

An incomparable beam of light fell from the sky and split the city of Tam from the middle.

By the way, the entire formation in Tam City was also destroyed.

An old man from the Light Empire on the eighth floor of the Cultist Realm appeared. He was dressed in a white robe, with a touch of solemnity in his face.

"Master Qianying!"

When he saw the figure of the old man, a touch of surprise appeared on Ximen Chong's face.

Qianying is a famous leader in the empire of the light, in fact, as long as the leader of the leader is a powerhouse, everyone is famous as long as they walk in the empire on a daily basis!

Generally speaking, in this level of siege warfare, the strong in the leader realm disdain to participate.

But once you participate, it means that the outcome of the war has been locked in advance.

All conspiracies and formations are children's toys in front of strong leaders in the master realm.

Qianying stood out of thin air, standing above the void, looking in all directions, quite the majesty of a peerless powerhouse.

Simon cried with joy. Finally saved!

But Zhang Si and his men are fighting two wars. Who are we to provoke?

A small war actually attracted the participation of a behemoth at the leader level.

That's it! That's it!

It's dead this time!

Even the strong from the master realm have appeared, where will they have the slightest way to survive!

Zhang Si was even more desperate than he was trapped in Tamm City just now. Although Tamm City's formation was strong, the veterans still hadn't killed him.

And this strong master in the master realm, one look can knock him off!

Why, why did God do this to me, what did I do wrong?

Just when Zhang Si was extremely desperate.

A figure flew from the horizon.

From small to large, from a small black spot, the figure turned into a little giant three feet tall.

Nether Giant, the guardian of the Nine Nether Empire.

The Nether Giant's skin is dark, and every inch of his body is burning with turmoil.

The tears in Zhang Si's eyes freeze, breaking into a smile.

Saved, saved!

The Nether Giant came to rescue me!

Nether soldiers can be said to be one of the most powerful races in the underworld.

Adults have the strength of the Yin and Yang realm. After a little experience and growth, the level of the master realm is just like playing!

This nether giant is a powerhouse at the master level.

From the master realm to the master realm, this Qianying must not dare to be excessively presumptuous!

"In the Jiuyou Empire, the strong leaders of the Bright Empire are not allowed to enter for half a step! Otherwise, they will be treated as provocative, and the two countries will go to war!

The ghost of the giant urn sounded violently.

Although the war on the border is in full swing, a large number of soldiers will die every day, and some territories and cities will change hands every day.

However, in the eyes of the senior officials of the Jiuyou Empire, these are actually just innocuous slaps.

The true backbone of the empire is the creatures above the leader level. As long as the strong people above the leader level of the Bright Empire do not participate in the war, it is not a real war!

However, Qianying's entry has brought the height of war to another level!

Qian Ying took a deep look at this clumsy nether giant, and rushed to Ximen: "Go!"

It's not that Qianying couldn't fight this nether giant, but that he couldn't fight this battle, and he didn't dare to fight at the same time!

He is not easy to estimate the strength of the Nether Giant, but once he does it, it represents a complete war between the two empires.

He couldn't bear that kind of responsibility.

His task is to rescue Ximen Chong and others, lest the defeat is too ugly!

In a blink of an eye, Ximenchong led his army out of the area of Tam City, and would not follow Qianying to leave this desperate place.

Qian Ying evacuated, and the Nether Giant also left.

Qianying didn't want to fight this battle, and the Jiuyou Empire didn't have the determination to start a full-scale war!

The departure of the two masters of the master realm made Zhang Si the little overlord on this territory again.

"Withdraw troops and leave!"

Zhang Si looked at the corpses everywhere, and his heart was dripping blood!

This battle has almost lost 60% of the elite in his hands, and the remaining soldiers have to take a good rest. They are exhausted and cast a psychological shadow. It will be incurable for a while!

However, they came eagerly, and they didn't even see the figure of the target Fang Yue, which made Zhang Si extremely hated!

"Fang Yue!"

Zhang Si gritted his teeth, his eyes could almost emit flames!

"Fang Yue, chase it?"

Seeing Zhang Si and the others leaving, Li Mingwei asked Fang Yue hesitantly.

Now Zhang Si's subordinates are all defeated soldiers, no longer the **** bravery before, if they chase them with all their strength, it shouldn't be a big problem to wipe them out!

"Don't chase! This massacre of compatriots has violated the great taboo of the empire! They can be unkind, we can't be unrighteous! To kill them must be killed by cutting grass and roots, and wipe them from this world with the help of the empire!"

Fang Yue's eyes flickered coldly.

People who offended Fang Yue still want a good end?

Tell you, it's impossible!

Several hours later, Zhang Si took his remnants and returned to the city.

Zhang Si was stunned immediately!

The gate of Luotian City opened.

There is a steady stream of blood flowing from the city.

There is no one in the city.

Empty, even the body disappeared!

"Well, what is going on?"

Zhang Si was shocked! How could his nest be copied?

His people, his territory, his treasure!

Zhang Si wowed and spit out a mouthful of black blood!

It was pitch black before his eyes.

After a while, Zhang Si woke up from a coma.

Then he said tremblingly: "Check it out for me, check it hard! Who did this on earth! I want to break his body into pieces!"

Zhang Si roared hysterically.

In the city, a figure floated out.

Wang San.

Zhang Si saw Wang San and immediately saw hope. Yes, Wang San stayed in the city when he set out.

Since he was not dead, he must know that Luo Tiancheng was robbed.

Zhang Si looked at Wang San hopefully.

"Don't ask, this city belongs to Fang Yuetu, and the Li family also participated in it! But at the time they were all wearing the military uniforms of the Bright Empire, so no one besides me should be able to recognize them!"

Wang San's voice was extremely cold, as if the life and death of the people in this city had nothing to do with him.

In Wang Er's eyes, all the civilian soldiers of Luotian City were ants-like existences, and even Luotian City's propositions were actually a chess piece that could be discarded at any time in his eyes.

Wang Er's true concern is Fang Yue's secret. As long as he can catch Fang Yue, he can return to Wang's house smoothly.

The years of being a slave in the Wang family have completely turned Wang Er into a loyal dog of the Wang family. In his eyes, only the interests of the Wang family are available, and even the Jiuyou Empire is a dispensable existence in his eyes!

"This time Fang Yue has violated the taboo of heaven and earth! Although he destroyed my Luotian City, he also violated the rules of the Jiuyou Empire. Even if there is a great grudge between me and him, it cannot be implicated in the innocent in Luotian City. People, he dared to pretend to be the army of the Bright Empire and slaughter the people in our city. He was born to be destined to die for Fang Yue!"

After Zhang Si thought about it, a poisonous trick was born. This Luotian city has been slaughtered by Fang Yue, no matter how grief and anger, it will not help. Instead of meaningless grief, it is better to use the bones of this city full of Luotian city to send Fang Yue a ride.

As long as Fang Yue can be killed smoothly, the people of Luotian City can be regarded as unintentional in their death, and their death is worthwhile!

"My lord, I'm going to trial the Secretary to sue Fang Yue. I don't know if I can testify for me. He disguised the military rules of the Bright Empire and killed my people in Luotian City?"

Zhang Si's eyes burned, looking at Wang Er.

Wang Er nodded indifferently: "Yes!"

What Wang Er wants is the result, but the process is not important.

Zhang Si became extremely excited again. He clenched his fists, as if he had already seen the scene where he fell to Fang Yue and made him cry on the ground begging for mercy.

Fang Yue was clearing the battlefield. This time Tamm City was completely beaten, the city wall was cut off from the middle, and countless houses collapsed. Seeing that this place is no longer a master.

The residents of Tam City need to find a new home for a foregone conclusion.

However, an abandoned Tamm City is more valuable and more temptation to Fang Yue than an intact Tamm City!

Tam City was built on an ancient battlefield, some of the iconic buildings were actually built to seal the ancient battlefield!

On that ancient battlefield, Nine Nether Qis can be continuously produced. These Nine Nether Qis are of great value. If they can ingest massive amounts of Nine Nether Qis, Fang Yue's trip would be considered worthwhile!

"My lord, we found a cellar. The cellar was sealed by an unknown metal gate. We couldn't enter it!"

A soldier came to report. He knelt on one knee with a serious expression.
