

God of Life 1321

Chapter 1321: cellar

Fang Yue's eyes lit up when he heard the words.

"Lead the way ahead!"

"Yes, my lord!"

"Fang Yue, absolutely! This Tam City was built on an ancient battlefield, and there are unknown secrets hidden underground. Back then, when the Jiuyou Empire was first established, countless powerful men have explored this area. However, they Most of them died without knowing it! There is a mysterious power in this ancient battlefield. Once an ordinary person is infected, even a saint will have no return!"

Li Hanyun tried his best to dissuade Fang Yue.

Today, they are grasshoppers tied to a rope.

Prosper together.

If Fang Yue falls because of this, it is also their loss.

"This cellar is very shallow from the ground, because the battle has just been revealed. It may not have anything to do with the ancient battlefield. I will explore it carefully. Once I find a problem, I leave immediately!"

Fang Yue did not heed Li Hanyun's dissuasion.

For this ancient battlefield, he is quite persistent.

This ancient battlefield is probably related to the ancient ruins in Shiyukou.

The civilization in it was once highly developed and has come to the end of many branches!

Fang Yue followed the soldier.

Li Hanyun stopped Li Mingwei who was eager to try.

After all, Fang Yue was an outsider, and he died when he died, while Li Mingwei was a direct line of the Li family. If there was a slight difference in the city of Tam, even if Li Hanyun died a hundred times, it would not be enough to redeem him!

Fang Yue quickly arrived at the location of the cellar.

The surroundings of the cellar have been cleared, and there are some scattered weapon fragments in the soil next to it. Although these weapon fragments are old, Fang Yue can recognize that the method of refining these weapons is completely different from today!

There are traces of the civilization of practitioners, but there are also some technical interweaving of rune civilization, magic civilization, and mechanical civilization.

The civilization system contained in these weapons is rather complicated and crosses each other, so Fang Yue had to take it seriously.

"These metals are all alloys, and the value of alloys is much cheaper than a single pure metal. However, the practitioner civilization, used to forge weapons above the cycle level, most of them are pure metals, even if there are several types. Metals are mixed, and they are also independent to ensure mutual growth and restraint, and each is pure. And the fragments of these weapons are at least at the level of Yin and Yang, but they are all made of alloy!"

The more Fang Yue analyzed, the more he had a taste of shock!

If his inference is not wrong, in the era when these weapons were forged, the cost of manufacturing cultivator weapons was ten times lower than it is now, a hundred times lower!

Fang Yue quietly took away the fragments of these weapons.

These weapon fragments are of great research value, and he has never seen the runes above.

If the research is clear, his harvest will be extremely great!

Immediately afterwards, Fang Yue began to study the door of the cellar.

The door of the cellar is indeed as the soldier said, the material is mysterious, if he expected it, the material of these doors is exactly the same as the alloy used by the weapon fragments!

Alloy, low melting point, strong hardness.

This is their universal feature!

Without saying a word, Fang Yue raised his hand, a hot flame hunting and burning, pushing towards the metal gate.

The moment Fang Yue's palm collided with the metal gate.

Suddenly a layer of lavender light flowed away on the surface of the metal gate.

This lavender light swallowed the flame in Fang Yue's hand.

Then the lavender light disappeared, and the door became dim.

"That's it! The rune on this weapon turned out to be a rune of flames. This rune can swallow the external flames and avoid the high temperature from melting the weapon! This kind of thinking is amazing, and it avoids the biggest weakness of the alloy! However, do you think that having a rune makes me rare?"

Fang Yue's palm came out again, and he stretched out the index finger of his right hand to lightly stroke the metal gate.

A narrow crack had formed above the gate.

Fang Yue just used the Space Heaven Dao, and the Space Heaven Dao claims to be the number one escape and the number one attack.

This space crack, at least below the level of the Great Sacred Realm, is difficult for any creature to resist!

Fang Yue used the same method to completely cut down the entire gate and put it in a storage bag.

Among other things, if only this door is sold to Galaxy Bank, at least tens of billions of spirit stones will be fine!

The door of the cellar was violently demolished by Fang Yue, and the complete cellar was presented to him.

There are various metals piled in the cellar. These metals are rare metals, each of which is invaluable and can be used to refine weapons of the Yin-Yang realm and even the leader realm.

"This cellar should be a warehouse for refining weapons and materials. There is a cave in the cellar, and its space is at least more than 5,000 cubic meters!"

Fang Yue waved his hand and collected all these rare metals into his stone pendant space.

Fang Yue pretended to be nonchalant, but his heartbeat betrayed his true inner feelings a long time ago.

Be rich, be rich, be rich!

Fang Yue's heart is extremely excited!

These rare metals are counted in grams when they are placed outside. The cheapest piece of each gram is worth tens of thousands or even a hundred thousand spiritual stones! In the warehouse, these metal materials are all measured in tons. There are thousands of rare metals, the least of which has a weight of at least ten tons, and the most numerous metals are as many as 1,000 tons.

Where is this a warehouse? It is the only big vault in ancient times!

Fang Yue went deep into the cellar, and the walls of the cellar were carved with complex runes.

These runes can keep the time in the cellar in a relatively static state and prevent the material from decay.

It's a pity that Fang Yue searched the cellar but did not find the relevant weapon refining secrets.

However, Fang Yue was not in a hurry. Since there is a cellar for storing materials, there must be a place for refining weapons nearby.

"Continue to dig this place for me, and report any problems to me at any time, as well as the armor on the corpses here. All the wealth is stripped off from me and all turned in! These people are dead, but the armor and weapons on their bodies They are all intact and can't be wasted! The mission is completed, I will give you a reward of one hundred spirit stones, but if I find someone stealing something, stealing things, raping, and putting to death, I'll never show mercy!"

Fang Yue's army was originally a good imperial elite.

But it fell into his hands and all turned into a corpse collection team.

But even so, they are quite happy. Although this task seems to be harder, it is better to be paid!

One hundred spirit stones for one person, this is also a small unexpected fortune.

And they don't have to be born or die, they are more at ease!

Fang Yue walked out of the ruins in Tam City.

Fang Yue's order was heard verbatim by Li Mingwei.

"Sure enough, General Fang Yue has a lot of things worth learning for me!"

Li Mingwei's eyes towards Fang Yue were already full of worship.

Fang Yue said with some shame.

"This poor family has too many poor days, so I don't want to waste a single bit of it. How can it be compared to the rich family like the Li family, who has a thousand years of age, can not see this little money!"

Fang Yue is humble.

Li Mingwei also had a polite greeting with Fang Yue.

Li Mingwei had sent the wealth he collected from Luotian City to Li's house and reported the situation here.

The Li family got a windfall, which was naturally quite a surprise.

Li Mingwei's status in the Li family has also risen, and it has been upgraded.

A disciple who knows how to feed back the family is a good disciple. Otherwise, no matter how good your talent is, no matter how high you climb, it is also your personal achievement that has nothing to do with the family!

"Who is Fang Yue?"

At this moment, a white-skinned, neatly dressed man in a blue official suit came over. His voice was slightly shrill, with a haughty look on his face.

"I am! Why, is there something to do with me?"

Fang Yue walked out of the crowd and asked.

"I am Zuo Le, a servant of the Trial Department of Tiannan Province. Today someone accused you of slaughtering imperial soldiers. Deputy Director Li Changqing specially ordered me to bring you to the Trial Department to find out the situation."

Zuo Le glanced at Fang Yue, then snorted coldly.

He looked down upon Yue quite a bit, and the judges usually judged by the rich, powerful and well-known.

This Fang Yue was just a mud-legged man, and by chance, he was promoted by the royal family.

This guy ate the guts of the bear heart and the leopard, and even went against the Wang family.

This time it was the Wang Family who was behind the control and entered the Judgment Division. Fang Yue guessed it would be difficult to come out alive!

"Judgement Division? I have been waiting for you for a long time!"

Fang Yue not only didn't have the slightest surprise, but an expression that you are finally here.

This performance made Na Zuo Le a little surprised.

"I am coming too!"

Li Mingwei saw that the judge was doing bad things, and he wanted to follow it.

"you are?"

Zuo Le glanced at Li Mingwei, who was on his body, and saw a trace of the style of a big family disciple.

"Li Family, Li Mingwei!"

Li Mingwei reported his family.

Zuo Le's face changed slightly, this time things are in trouble!

Why didn't this Wang family say it earlier?

Isn't Fang Yue a muddy leg without a background? How did it have something to do with Li Ming from the Li family?

The Li family is also a big clan of the Jiuyou Empire. Although the power of fame is not as good as that of the Wang family, no matter whether the Wang family or the Li family, he can not afford to offend a small judicial officer!

"The son of the Li family, this Fang Yue is going to be so bad, why should you follow this muddy water?"

Zuo Le persuaded him, and worked hard.

Li Mingwei's confidence is unshakable.

Li Mingwei has seen the value of Fang Yue and learned a lot from him.

Let him give up Fang Yue easily, he naturally refused, let alone this Fang Yue offended the Wang family because of their Li family, how could he easily retreat?

"No need to persuade me! This time I have to participate in my affairs!"

Li Ming spoke slightly, confident.

Upon seeing this, Zuo Le did not want to dissuade him again.

"Okay, okay! Anyway, I'm just a messenger, and let the Deputy Director Li Changqing decide on your affairs then!"

"Master Zuo Le, please wait a moment!"

Fang Yue knew that this time the Wang family must have arranged a heaven and earth net to wait for him.

But Fang Yue is not a good crop, he can be the turtle in the urn.

"What are you doing?"

Hearing Fang Yue's request, Zuo Le showed a look of alertness.

Fang Yue smiled gently: "Nothing, nothing."

Chapter 1322: The army is coming

As Fang Yue said, he ran into the ruins of Tam City.

He moved away a few broken boulders, and a teleportation formation appeared in front of the people.

Fang Yue put the spirit stone in the eyes of the teleportation array as if he didn't need money.

A group of soldiers walked out of the battle. These soldiers are all soldiers from the underworld. They come from different ethnic groups, but each ethnic group is well-known. There are three-eyed ghost tribes at the level of adulthood and rotation. The ghost royal family with the blood of the ghost king, they used the rich death energy in the city of Tam to cross the boundary.

Teams of soldiers quickly occupied Zuo Le's entire field of vision.

The spirit stone in Fang Yue's hand quickly evaporates, and the rich lifelessness in the city is constantly dissipating.

However, the number of soldiers in the underworld has also reached an astonishing number.

One hundred thousand Yin Soldiers, even the weakest cultivation base, are in the third level of the Rotating Realm. Among every one hundred Yin Soldiers, there is a powerful person in the Yin Yang Realm acting as the captain.

Among the 100 teams, there is a general Yin general from the leader realm.

With a hundred thousand Yin soldiers, a thousand teams, and ten strong masters from the leader realm appeared, Zuo Le was about to be scared to pee!

The powerhouse of the leader realm is also considered to be a giant in the Nine Nether Empire, a powerhouse standing up to the ground.

Although their adjudication department is well-known, the chief director and five deputy directors are standing at the level of the leader.

This is already the top configuration in the southern province!

The powerhouses in the saint realm are all comprehending the way of heaven and the mystery.

Ten powerhouses in the master realm, leading one hundred thousand Yin soldiers, this force is enough to run wild in the southwestern province, and even some great forces that have been based for a century and a thousand years are jealous!

"Master Zuo Le, let's go! I am said to be uneasy and peaceful on my way. I am worried about encountering robbers or something. My status is humble. Even if it is robbed, it is nothing. But Master Zuo Le is of noble background. What's wrong, I'm not easy to explain! So, I summoned some people along the way to protect the safety of Lord Zuo Le!"

Fang Yue's smile was full.

Zuo Le could hear the deep irony.

However, Zuo Le dared not speak. I just complained endlessly in my heart, who said that Fang Yue had no background, no background, and no identity!

How could such a Sanwu boy summon so many undead army!

One hundred thousand! One hundred thousand! Every time he thought of this number, Zuo Le's heart trembled slightly.

Zuo Le leads the way.

Fang Yue and others followed.

Zuo Le is in front, Li Mingwei, Li Hanyun and Fang Yue are behind.

The four people were on the road, looking a little alone.

However, only Zuo Le knew that all the undead army summoned by Fang Yue was temporarily stored in a different-dimensional world that he could summon at any time.

When did the Jiuyou Empire control the undead army with such a high-level method?

If the empire had long been mastered, and one person sneaked into the interior of the empire of light, and then released the boundless and massive army of undead, then the empire of light would have long been gone.

The journey to the Trial Department of Tiannan Province is not very long, only 1,800 kilometers in total. If you change to a mortal on the road, you can't say it will take ten and a half months.

However, this little distance is only three to five hours' time for Fang Yue and others who can fly into the sky and escape.

It seemed that Fang Yue had just given birth to a crow's mouth.

On the way, I really encountered an ambush.

While the four were on their way, they encountered a group of bandits.

"This mountain was driven by me, and I planted this road. If you want to pass this way, you will be left to sell your fortune!"

The old-fashioned rhetoric has not changed the slightest from the earth to the other world since ancient times.

"Uncultured, it's terrible. If a company doesn't understand innovation, it's a dead end. The bandit doesn't understand innovation, and he has stepped on the edge of dispersing with one foot. How old is it, you still use such old-fashioned things with me? Lines! Tsk tsk tsk, your separated partners are not far away!"

Fang Yue saw the aggressive and fierce bandits, and there was no trace of fear on his face! He had expected the appearance of these bandits.

Come on, be happy!

Fang Yue's eyes are silky, very enchanting.

The bandits stunned immediately, their backs chilled.

This meow is abnormal! We are bandits, you are robbed by us, you should be trembling in our evil laughter!

Why are you so cute? You're even more awkward than us, and awesome?

"Stop talking nonsense, hand over the money to buy roads, five million spiritual stones per person, one less spiritual stone, I will kill you!"

One of the bandit leaders spoke, a scar across his cheek.

The breath of Yin and Yang realm exudes, like a Tyrannosaurus rex from ancient times coming across the long river of time.

To be honest, this group of bandits is very unusual.

There are a total of ten people, all of them are strong at the Yin-Yang level, and the scarfaced man headed by them is actually a strong at the seventh level of Yin-Yang!

"You said that you are a good yin and yang strong man. If you do something bad in business, you have to fall into the trap.

Not to mention his own depravity, the brother who was still dragging him fell into the abyss! If you don't learn well, if you don't learn well, it is really unfortunate for your brother to have a big brother like you.
"

Fang Yue shook his head and made a comment on the bandit leader.

He looks like a storyteller.

The Scarfaced Bandit was trembling with anger. He had been a bandit for hundreds of years. The number of people intercepted and killed was not 1,000 or 800. There are some angry people, some people who ask for mercy, and some people who run away, but it is like Fang Yue's constant chatter. There is no bullshit.

"I changed my mind. Even if you hand over the money to buy your life, I will kill you to vent your anger!"

The scarred bandit looked at Fang Yue's gaze, showing his fierce light!

"My Black Wind Pirates have been established for so many years, and no one has ever dared to speak to me like this!"

The Scarface Bandit's attitude became more and more arrogant, he remembered the glorious years when Black Wind Pirates was founded.

The entire Tiannan province is left to them, no one dares to violate their wishes.

"Isn't there yet?"

Fang Yue suddenly said something thoughtlessly.

The scarred bandit was stunned.

Li Ming froze slightly!

Only Zuo Le shook his head slowly, his expression gloomy, and at the same time his heart fell to the bottom.

As early as when they encountered this group of robbers, Fang Yue asked him to secretly send a message to the Justice Department for help.

Time has passed so long.

However, the rescuers are late.

This in itself represents a signal.

"This group of bandits was killed by Wang Jiagu!"

Fang Yue said it through.

The scar-faced bandit was stunned, his mouth opened wide, and he could completely put an egg in it.

Damn it, is this okay?

I haven't disclosed any information yet. You even guessed the identity of my employer?

good job!

It turns out that you are delaying time by talking nonsense to me here.

Is this trying to crush me in terms of IQ?

So mean and shameless.

"However, even if you know it? When I am here today, your destiny is doomed! You have no second choice other than death!"

The Scarface Chief laughed.

He shot this time, but received two weapons at the level of Yin and Yang from the Wang Family.

This yin and yang level weapon is priceless.

In order to obtain these two weapons at the level of Yin and Yang, you people must also die and not live!

"Brothers, give it to me! Cut off these four people!"

The Scarfaced leader gave a grinning grin. He waved the long knife in his hand and roared at Fang Yue and the others. The other bandits behind him swarmed up.

They are bandits of the new era, high-quality bandits.

At the level of Yin-Yang realm, even if you take refuge in the Jiuyou Empire, you can become the lord of a small city!

Hula la.

A team of bandits charged.

Fang Yue said blankly: "I know that you have blocked the channels for the news to pass. No matter how we beg for mercy, no one will come to rescue us! But what if my distress signal is before you come out to rob us?"

Fang Yue's voice fell.

The grin on the Scarface leader's face instantly solidified.

"Gah? What are you talking about? Before we appeared, you could have expected that we would come out to rob you? Brother, stop teasing, you are not a fortune teller, you can predict the opportunity, how can we know where we are ambush? "

The Scarface leader's voice did not fall.

Flying arrows are like locusts.

A series of sharp arrows pierced the sky, and came to the front of Scarface Leader and the others with a low howling sound.

It's an archer.

Archers all over the mountains!

The Scarface leader suddenly saw an archer at the rotation level one after another.

How many archers are there?

three hundred? five hundred? one thousand?

There was a dazed look in the expression of the Scarfaced leader.

Where did this special code come from so many elite archers at the rotation level.

According to the truth, although there are a lot of strong people in the rotation, but it is not enough to jump out so many archers at the rotation level!

Rotation, heads-up is certainly not their opponent.

Even ten of them can be destroyed with one hand.

But a certain degree of quantitative change will always cause a qualitative change!

Thousands of archers at the turning level are gathered together, even if they are the powerhouses of Yin and Yang, they dare not carelessly!

What's more, would so many archers at the rotation level not have the powerhouses of Yin and Yang?

The Scarface leader was suffocated.

He really took his brother to death this time!

Special mother's.

Wasn't it foolproof to be killed by the people of the royal family?

"Withdraw! Withdraw! Withdraw!"

The Scarface leader ordered his men to leave quickly.

These are all the elite of his men, and if one died, he could hardly add.

But can he run if he wants to run?

The three powerful soldiers in the Yin and Yang realm appeared instantly, and they stood blankly in front of the Scarfaced man.

The Black Wind Rogue is well-known!

Their strength is tyrannical, and there is really no way to catch them in general.

It is not impossible for more than a dozen strong men of Yin and Yang realm to join hands to smooth out a small city.

But I often walk by the river, where are my shoes without wet!

Black Wind Pirates, this time they are the shoes under their feet wet.

They even offended the people of the Judgment Division, and the Judgment Division has a transcendent position in the entire Jiuyou Empire.

The black wind thief who dared to rob the Judgment Division was simply impatient, not to mention that there was another Li family son in this team.

If something goes wrong with Li Ming, the son of the Li family, then as the garrison of the southern province, they are to blame.

The appearance of three military powerhouses in the Yin-Yang realm made Scarface's leader completely extinguish the thought of escape in his heart. None of them can escape under his nose!

"This time, Lao Tzu has accepted the plant, but Fang Yue, don't let Lao Tzu go out alive, otherwise, you will be over in this life!"

The scarred bandit looked at Fang Yue viciously, his eyes full of fierce light.

Chapter 1323: Black Wind Thieves

Fang Yue didn't panic when he saw the Scarfaced Bandit.

"Do you know my name? You also said that your ambush was not prepared? Come on, who wants to kill me this time, maybe I can let you survive!"

Fang Yue's voice had a hint of indifference, and this indifference made the scarred bandit's heart tremble slightly.

This is the trembling from the soul, which makes the Scarface Bandit like an ice cellar.

"Hahaha, what if I show my feet? I don't want to say, you will never know who is in the dark! Hahahaha!"

The scarfaced bandit was laughing wildly, with a splash of black blood spilling from the corner of his mouth.

His face paled instantly, his blood faded, and he fell on his back.

He unexpectedly chose to commit suicide at a critical moment.

A strong man on the seventh layer of Yin Yang realm was actually forced to death by Fang Yue in despair.

"Pity!"

Fang Yue sighed, then beckoned and put the corpse of the Scarfaced Bandit into the storage bag.

The scarfaced bandit fell, and the other bandits became a mob.

It is as if a person's head has been chopped off, and the body has no vitality.

Soon, the army from the southern provinces swarmed and captured all the remaining bandits.

A catastrophe disappeared like this.

In the southern provinces, all the famous Black Wind thieves were captured and perished.

The leader of the garrison of the southern province, Chang Rushan also clasped his fists and left.

They are the garrison of the Tiannan Province, and they represent the Tiannan Province. They cannot become the running dogs of the Judgment Division or the guards of the Li family.

This time they were able to be mobilized entirely because Fang Yue defeated the 100,000 army of the Guangming Empire. This was originally the responsibility of the Tiannan Provincial Defense Army, and Fang Yue did them a great favor, Tiannan. The provincial garrison owed Fang Yue a favor.

This time, they are here to pay back the favor!

Fang Yue watched the garrison of the southern province leave.

This time, they owed another favor to Fang Yue.

The number of black wind thieves is small, but they do a lot of evil. Each member is extremely strong. On weekdays, they act separately and rarely gather together. If Fang Yue had not provided the opportunity, he would use himself as a bait. All the wind thieves are dispatched, this time it is difficult to catch the black wind thieves in one swoop and solve the troubles of the confidant!

"Fang Yue, is the Wang Clan sent to kill us this time? They have already fallen to such an unscrupulous state!"

Li Mingwei's face was full of shocked expressions.

This Wang family is simply brave, the officials and bandits colluded, even he and Zuo Le dared to kill.

Although Zuo Le's position in the Trial Division is not very high, he also represents the face of the Trial Division.

If Zuo Le died in the hands of the black wind thief, and then it was found that the Wang family was behind the scenes, then the Wang family and Liang Zi of the Judgment Division would be completely behind.

In the southern province that day, the officials and cronies of the Wang family will probably be purged like never before.

How dare this Wang family gamble like this?

Fang Yue glanced at Li Mingwei, who was still in shock.

He couldn't help but chuckle: "My son, there are some things that can't be thought of so simply. Maybe there is the shadow of the Judgment Division behind the Black Wind Rogues this time? The Judgment Division's duty is to suppress all discordant existences in the southern province, such as some officials who are not subject to the imperial royal family or some powerful local powers. Black wind thieves, although powerful, but if the trial department were serious, they should have been removed from the map of the southern province. Erased! And they always existed, perhaps because of the acquiescence of the unspoken rules, and if Zuo Le died here, it would be able to prove that the Judicial Division never participated in this matter, so that they would not be opposed to the Li family!"

After Fang Yue finished speaking, his eyes fell on Zuo Le.

"Whether my analysis makes sense, I think Brother Zuo knows best!"

A bitter smile appeared at the corner of Zuo Le's mouth.

"Although I don't want to admit it, Fang Yue's analysis is very reasonable! I don't have any background in the trial department, and even if I die, no one will be held accountable!"

"Actually, these are my guesses. In order to verify this guess, I also made a special test. I asked people from the Tiannan Provincial Defense Army to protect them along the way! Originally, this has nothing to do with their duties. However, they agreed! As the saying goes, one mountain cannot tolerate any second words. The garrison of the southern province is actually a mortal enemy with the Judgment Division. They promised this enthusiastically because of the black wind thief and The Judgment Department has an inseparable relationship! The enemy's plan must be destroyed by them, so they will take such active actions to get rid of the Black Wind Bandit!"

Fang Yue's analysis is in order.

He is using the complicated relationship of forces in this southern province to deal with the black wind thieves!

Sometimes, wisdom is the greatest strength, and pure force will always be suppressed by stronger force.

Only wisdom can solve the biggest hidden dangers with the least cost.

According to the military merit standard of the Galaxy Star Alliance, this kind of enemy killed by the opportunity is also regarded as his military merit.

In fact, this is also a guide for the Galaxy Star Alliance.

Letting the soldiers in the Star League use their brains is not a violent madman who only knows how to use force.

"Then we can use the power of the garrison to deter the Judgment Division?"

Li Mingwei's eyes suddenly lit up, and he found a glimmer of hope of breaking the game!

"Impossible! The people involved this time include the Judgment Division and the Wang Family. The garrison is a snake in the southern province. They can destroy the Judgment Division's plan, but they will definitely not deal with the Wang Family for the sake of us."

Fang Yue's words stifled Li Mingwei's hope.

"However, when I get to the Judgment Division, I naturally have a way to deal with the Wang Family and the Judgment Division!"

Fang Yue was full of confidence.

Li Ming glanced at Fang Yue deeply and stopped talking.

And Zuo Le said in horror: "Why, why? Why did the trial department abandon me!"

Zuo Le could not accept the fact that was abandoned by the trial department for a while.

Fang Yue didn't pay attention to Zuo Le either.

Since he won't be able to accept it for a while, wait for a while, he will always accept it anyway!

Fang Yue and others continued to move forward.

This is not the way to learn from the West, there is no difficulty.

Even the Black Wind Rogue's ambush has already been declared a failure, and if others come to deal with Fang Yue and them, it is tantamount to sending them to death for nothing, without any value or meaning!

So they successfully resisted the Trial Division.

The Trial Department of Tiannan Province is built on a high mountain.

This mountain is said to be quite famous among the undead empire.

It is called Dark Red Blood.

The whole body of this high mountain is reddish-brown, and it is said that the essence and blood of a god's mansion dripped down and condensed before his death.

Fang Yue and the others boarded the Dark Red Blood, and the mountain top was the location of the Judgment Division.

The first moment Fang Yue stepped into the Judgment Department, he felt a cold breath, which made people shudder!

It's not that the temperature in the trial department is too low, but that there are too many dead souls in this trial department.

These unjust souls are entrenched and do not enter the underworld, which makes this judge especially cold!

An expressionless male waiter with a white mask, sickle and robes received Fang Yue and others.

"Come with me! The Judgment Division will give you the most fair verdict! All crimes will be burned to ashes by flames, and all justice will be released here with brilliant light!"

"Deadpool?!"

Fang Yue gave this guy a surprised look.

Zuo Le stood on the left side of Fang Yue, close to Fang Yue's position.

Zuo Le said in surprise: "You actually know Deadpool? It took me a full twenty years to come to the Judgment Division before I knew the secret of Deadpool."

"Deadpool? What is Deadpool?"

Li Ming asked curiously.

He is the young master of the Li family. He has read all the classics since he was a child, but he has never seen an introduction about Deadpool.

"Dead waiter is a kind of puppet between life and death that is tempered by the use of nether air. This kind of puppet needs to be tempered with living human materials and a little bit of nether air is injected. The body of the dead waiter is extremely tough. , Has the fighting skills before living, and the fighting consciousness is ten times as much as before living! Deadpool is loyal to refiners, their strength is strong, even low-level Deadpool start at the level of Yin and Yang This should be regarded as a more advanced species among the puppets! Originally, even if the existence of dead servants in the underworld and the underworld was quite rare, I did not expect that the judge would actually refine high-level puppets like Deadpool!"

Fang Yue's introduction about Deadpool came from the Ring of the Underworld God, and even the detailed refining method of the Deadpool was in the ring.

Deadpool is the guard of Pluto.

The original method of tempering Deadpool was also invented by Pluto.

"In this Judgment Division, Deadpool is the most feared law enforcer. They are indifferent by nature and powerful. Every time they make a shot, they do not care about life and death. Only I know that there are more than 108 Deadpools in the Judgment Division. If you fight alone, any dead waiter can be comparable to the strong on the fifth level of the Yin and Yang realm, and their cooperation is even more terrifying! I have seen the eight-headed death waiter join forces and set up a gossip array, placing a Yin Yang realm first. The murderers on the eighth floor were tortured to death in the formation."

Zuo Le showed a look of panic.

The trial department is really unfathomable.

This Deadpool is only one of the methods of the Judgment Division, and there are many other hole cards, and he doesn't even have the qualifications to touch!

"Oh, one hundred and eight dead servants, this judge is indeed a good method! The conditions for the refining of this dead servant are extremely harsh, and the living person who is refined must reach the level of Yin and Yang before he is alive. In the process of refining, this living person does not have one in ten! If you want to refine these one hundred and eight dead servants, you need at least a thousand yin-yang realm powerhouses as raw materials. This yin-yang realm powerhouse, even if it's a mighty one in the undead empire! Big deal, this is really big deal!"

In Fang Yue's eyes, light flickered.

And that Deadpool was silent, as if there was no such wisdom at all.

This is the biggest shortcoming of Deadpool. Although their combat effectiveness is bursting, they lack the necessary wisdom!

Therefore, puppets are puppets after all, and they are stronger than those of different realms!

Fang Yue went deep into the trial department.

Quiet as night in the trial department.

Among them, the rules are strict, and most people cannot walk around at will.

Finally, after walking through the long corridor, Fang Yue and others finally arrived at the court of justice under the leadership of Deadpool!

The Court of Justice is about the size of a football field and extremely spacious.

At this moment, several people were already waiting for Fang Yue and them.

Wang San of the Wang family was expressionless, and beside him stood Luo Tiancheng's city advocate thinking.

Behind them there are two old men from the Wang family who protect the way. The two old men are all stuck on the bottleneck of the Yin-Yang peak and break through hopelessly. They just walked out to protect the way for the juniors.

Chapter 1324: Li Changqing

"Master Zhang Si, haven't seen you for a long time!"

Fang Yue greeted Zhang Si as soon as he appeared.

This time, Zhang Si is the gun in the Wang family.

If he can't beat the gunner, if the gun is broken, he can survive this level!

As soon as Fang Yue spoke, Zhang Si's face was flushed, and he hated Fang Yue to his bones.

"Fang Yue, you and I have no grudges in the past, and I have no enemies in recent days. I and you have never met before, but why do you pretend to be the army of the Bright Empire to slaughter my city and plunder my wealth in Luotian City!"

When Zhang Si spoke, it was the accusation of Yue.

Fang Yue still smiled: "I pretend to be the army of the Bright Empire to slaughter your city? Where are you talking! This slaughter of friendly forces is a big crime. You can eat this meal, but you can't talk nonsense!"

Fang Yue's calmness made Zhang Si's heart beat.

There was a slight breakdown in his mentality that he was holding the winning ticket.

It's not that he doesn't have self-confidence, but that he has played against Fang Yue many times.

This Fang Yue's wisdom is close to the demon, who knows what medicine he sells in his gourd.

"Zhang Si is naturally not nonsense, he has witnesses and evidence in his hands!"

Wang San spoke at this moment. He opened his eyes, and a cold light burst into his eyes.

Wang Sanyi spoke, and Zhang Si's heart calmed down immediately.

Yes, there is the support of the Wang Family behind him, even if Fang Yue's wisdom is so good, under the oppression of the absolute strength of the Wang Family, he has little room to stand up.

"Quiet, quiet!"

A coercive voice sounded in the courtroom.

Slowly, a figure appeared in everyone's field of vision. His footsteps fell, and the sound of bang dong dong sounded like the beating of the heart of the earth. The rhythm gradually matched the heartbeat of Fang Yue and others.

The figure freezes.

A deep face was revealed.

This person is indeed the deputy director of the Trial Department, Li Changqing, whom Zuo Le said.

The breath of the leader realm, even if it is between breathing, makes everyone feel depressed and dull in their hearts.

This is the oppression of the upper ones on the lower ones.

"Hello Lord Evergreen!"

Wang San comfortably greeted Li Changqing, and he was quite intimate with Li Changqing's name.

Wang San, although he is also at the level of Yin-Yang realm, his true combat power level has reached a level that can be equal to that of ordinary masters.

"Wang San?"

Li Changqing's eyes condensed slightly on Wang San's body.

Then he angrily rebuked: "Bold, you dare to talk to me like this! This is the Judgment Division, not your royal family. In the Judgment Division, everyone should respect me as the Deputy Chief Judge!"

Li Changqing's reprimand made Wang San's eyes condensed slightly.

Wang San saw a look of anger in Li Changqing's eyes.

They said yes, although they will help the Wang family to replace a favor they owed before.

But this does not mean that the Judiciary will stand in line and stand on the side of the Wang family to deal with the Li family.

If Wang San's familiar name is accepted by Li Changqing, it means that Li Changqing is on the side of the Wang family.

What followed was a complete break with the Li family.

And this is totally inconsistent with the interests of the Trial Division and his interests of Li Changqing.

"Li Changqing, good, you are good!"

Although Wang San had some thoughts, he didn't expect Li Changqing to dare to reprimand him in front of so many people.

The scene before him made Fang Yue's mouth curl up with a faint smile. It seems that his enemies are not so harmonious and friendly!

"My lord presiding judge, Wang San doesn't seem to respect the Judiciary, nor the presiding judge! Even if we win such a trial, we may not be able to get a fair verdict!"

Although Fang Yue respected on the surface, his words revealed a provocative taste.

"If you can't even rectify the Wang Family, then there is no need for this trial!"

Fang Yue's voice fell.

Li Changqing's complexion was green.

"Fang Yue, don't worry about this. Our Judgment Division still has some status in this southern province. If you are really innocent, we will naturally pronounce innocence, and if Wang San is guilty, he will not escape punishment. !"

Li Changqing glared at Wang San fiercely.

Wang San also became calm.

Wang San was just arrogant. Now that he calmed down, he immediately realized that this was still in the jurisdiction of the Trial Division.

"Li Mingwei, Fang Yue, Li Hanyun, let you come this time, I think you all know it well. Zhang Si sue you, disguised as the Bright Empire army to bloodbath the entire Luotian City, massacred millions of residents, and looted the wealth. Gu Jae, I don't know what else you have to say!"

Li Changqing set his gaze on Fang Yue.

He has a lot of experience and is very old in seeing people.

He naturally saw that Fang Yue among these people was the real backbone.

If there is anything, Fang Yue will also say.

"The vice-presiding judge, I will finally be wronged! That day, Master Li Mingwei led the army, and I waited to bring the city's lieutenants and the people out of the city to welcome them, but when we came back, Zhang Si had already led the army in Luotian City, General Tam City Occupy and slaughter the lieutenants of Tam City! I waited for this photo when Zhang Si's army was afraid to enter the city, so I had to hide in nearby villages! There were only a few thousand soldiers in Tam City, and I brought my men. In other words, there are tens of thousands of horses, and there are hundreds of thousands of horses in the garrison in Luotian City. Wouldn't I wait for the attack to hit the rocks with pebbles?"

Fang Yue took a bite directly, pretending to be extremely aggrieved.

Li Changqing was not stunned. The things Fang Yue said were indeed reasonable.

"Zhang Si, what do you have to say?"

Zhang Si was shocked when he heard the words. He thought it was logical to convict Fang Yue, but he just stood on the platform as a victim and walked through the scene. Unexpectedly, there is still a chance for him to speak.

After brewing for a while, Zhang Si just said: "This matter, the villain has something to say! I led the army to the city of Tam, not to capture the city of Tam, but the army of light is coming soon, I am willing to lead the whole city of soldiers Help City Lord Li! In Luotian City, I only left five thousand soldiers to guard, so this Luotian City was poisoned by Fang Yue and others, and the souls were disgraced!"

Zhang Siming was wronged.

Fang Yue smiled slightly: "City Lord Zhang, what you said seems to be a bit logically inconsistent! It is natural that you are willing to support Tahn City, but this support should only be done when there is

spare capacity! You! Support is coming out of the nest, leaving Luotian city empty. You have been the city lord for so many years, you should not make such a low-level mistake again!"

Zhang Si was silent for a moment.

He immediately realized that he had fallen into the text trap set by Fang Yue.

Sure enough, this Fang Yue was as cunning as a fox.

The more he said, the more wrong!

Li Changqing glanced at Zhang Si and sighed.

This Fang Yue is too cunning, Zhang Si is no opponent at all!

But now that an agreement has been made to take Fang Yue down, he still has to wait for someone to wait for him when necessary!

"Fang Yue, pay attention to the trial content of this case. This time I'm trying to judge whether you will pretend to be the army of the Bright Empire to attack Luotian City! Please do not divert the focus and mention other issues!"

Li Changqing stopped Fang Yue's topic.

If Fang Yue is allowed to continue speaking like this, perhaps Fang Yue hasn't settled the law yet, and Zhang Si will be beheaded in public!

Fang Yue's confrontation with Zhang Si was completely a crush on IQ. These generals paid too much attention to the power and power in their hands, and forgot the importance of resourcefulness.

Li Changqing sighed slightly. This Fang Yue is definitely a good seedling. If he meets another occasion, he will definitely cultivate Fang Yue, but in the current situation.

He could only endure the pain and kill Fang Yue!

Fang Yue lightly coughed: "Your Honor, Deputy Chief Judge! What I just said was not to confuse the audience and escape the guilt, but to explain something! Fang Yue is the real victim of this matter, and Zhang Si He always wanted to persecute me! The reason why he came out and invaded Tam City, his real purpose was to take the opportunity to kill me! And, there is a video in my hand as evidence!"

Fang Yue directly took out a photo-taking stone. Before everyone could react, a ray of true energy was injected into it. The scene of Zhang Biao trying to compromise and surrender to the army of the Bright Empire appeared in the photo-taking stone before he died.

Especially his last sentence "Don't kill me, don't kill me, we have a common enemy, I was sent to kill Fang Yue!"

This made Zhang Si's face directly green!

Fang Yue said slowly and slowly: "It is clearly Zhang Si who murdered his colleagues first, why do you have to ask me to blame?"

Li Changqing's face was green. He gave Zhang Si and Wang San a cold look.

What a cheating!

You two do things so dirty, how can I wipe your ass?

Even the video has been obtained.

I want to help you speak but I am powerless!

Li Changqing feels really tired!

He has been the deputy presiding judge for such a long time. He has done a lot of unjust, false and wrong cases, but he has never met such a pig teammate!

"This is Zhang Biao's one-sided statement, not enough to prove anything! Maybe he is deliberately planting something on me?"

Zhang Siqiang was irrational. He knew that he had already lost a lot in reason.

But the problem is, this time is his home court.

This Li Changqing is theirs, so he still has hope of comeback!

"Really? If Zhang Biao's words can't represent your will, how about your communication with the Bright Empire in Tamm?"

Fang Yue took out another photo-taking stone.

Zhang Si immediately took advantage of Fang Yue's unpreparedness and grabbed it like a hungry tiger.

Then his palm suddenly smashed into pieces.

"Hahaha, this evidence is gone, I think you have any other way?"

Zhang Si laughed, his face was full of triumphant expressions.

Fang Yue glanced at Zhang Si, "What I took out just now was not the shadow stone, but a sky smoked magic stone. Why did you crush that thing? Sky smoked magic stone is highly toxic. The saint can't save you even if you make a move!"

Fang Yue's voice fell.

The smug smile on Zhang Si's face instantly solidified.

He saw his palm quickly become a dark green color.

"Fang Yue, you are so cruel!"

Suddenly, the poison attacked the heart.

Chapter 1325: Collaborate with the enemy

Zhang Si had to suppress it with the cultivation level behind him.

This sky smoked magic stone is not uncommon in the death empire, and even before him there was more than one sky smoked magic stone in Luo Tiancheng's collection.

The appearance of the sky smoked magic stone and the shadow stone are quite similar.

No, this sky smoked magic stone crushed by him is the treasure he left in Luotian City before.

Tianxun Magic Stone contains highly poisonous, but this poisonous poison does not happen immediately, but gradually penetrates the meridians, and then slowly causes death.

Zhang Si used Xiu to suppress the poison, and the time for the poison to enter the body was extended from three days to five days.

When the time came, he died immediately.

This is so terrible that it can no longer end badly.

"Bold Fang Yue, murdered Luo Tiancheng in the trial department to advocate thinking. This person has evidence and evidence. Even the presiding judge Li Changqing is a bystander. What else can you say?"

There was an expression of excitement on Wang San's face, he finally grasped the handle to make Fang Yue sure to die.

This Fang Yue is extremely arrogant!

He even slapped a black hand in front of Li Changqing, is this not putting the majesty of the judge in his eyes?

Fang Yue glanced at Wang San, and said innocently, "No! Wang San took the smoked magic stone this day, and I didn't force it to him! It was entirely his own death, half of me. Dime relationship?"

Fang Yue's words caused Wang San to be speechless.

Yes indeed!

As everyone saw it, Zhang Si himself crushed the Sky Xun Magic Stone!

If this thought is dead, it is dead for nothing, and it cannot create any value for him.

"My lord vice presiding judge, this is proof that Zhang Si has communicated with the enemy that day. Please also the vice presiding judge!"

Fang Yue respectfully presented the photo-taking stone with the scene of Zhang Si collaborating with the enemy to Li Changqing.

Li Changqing played it in public, and the evidence was as strong as a mountain.

This thought is unclear after jumping into the Yellow River this time!

Collaborating with the enemy and treason, this is a big crime!

Whoever has a little relationship with him is inevitable.

At this time, Fang Yue spoke again: "Oh, yes, Zhang Si, didn't you say that someone saw me pretending to be the Bright Empire slaughter you Luotian City? Who is that person? Stand up and confront me!"

Fang Yue's voice fell.

Zhang Si immediately looked at Wang San, and finally, it was his turn at home!

Although I am definitely going to die this time, you can't get better!

If you want to die, you have to pull a back cushion.

With Wang San testifying, this Fang Yue is dead!

However, the final result disappointed Zhang Si.

Wang San watched his nose, closed his mouth, and watched his heart. He didn't say a word at all.

What he said just now, he must have just come out to testify to Zhang Si.

But now you Zhang Si is collaborating with the enemy and treason. Doesn't I stand on your side prove that I have a relationship with you?

When the time comes to find the Wang family's head, the Wang family will definitely not spare me!

So just discard your chess piece!

"Wang San, Wang San, testify for me!"

Zhang Si yelled at Wang San, anyway, he was already a dying person, and he was not afraid of Zhang Family, Wang Family!

Wang San remained silent.

Man, silence is golden!

Li Changqing couldn't help but sighed when he saw this. This time, the matter has been settled.

"Zhang Sitong treason to the enemy, I declare not guilty! Zhang Si sued Fang Yue to massacre the city, and the evidence was insufficient. Fang Yue was acquitted!"

Li Changqing's voice fell.

Zhang Si was completely in a state of madness. After tossing with him for a long time, he was going to die!

His foundation was ruined, and he even got in!

And Fang Yue didn't move a single hair, and he wiped him out!

Zhang Si tried to kill Fang Yue with his teeth and claws.

As a result, the two dead servants were expressionless, one on the left and the other, and they directly took him away.

The winner is king, the loser is the thief.

This is the rule of the game!

If you Zhang Si lose, you will end up with a dead end!

Zhang Si was dragged out and shot to death without any severe poisoning. As the lord of a city, collaborating with the enemy and treason was a dead word.

Zhang Si is dead. It is estimated that even the ashes will be used to feed the fish bones, but Fang Yue's revenge did not end there.

This thought is also a substitute for death, and the Wang Family is the mastermind behind it!

And your Judgment Division, you actually took action against me?

None of you will end well!

Fang Yue cursed in his heart, but the expression on his face was still respectful: "Thank you, the three kings of the Wang family, for not being a tiger and framing me. Thank you Li Changqing for his fair trial!"

Fang Yue's words are very ironic.

In the end, this result was naturally not what they two expected.

Their idea is to kill Fang Yue!

However, since the matter has ended.

They have no other way.

"Boom! Boom! Boom!"

Heavy, rapid footsteps came from the corridor.

The usually well-behaved Trial Division was interrupted by the sound of this footstep!

A knight in heavy armor hurriedly stepped into the judgment hall.

He knelt down on one knee and reported to Li Changqing: "Report your lord! The big thing is not good. The Bright Empire mobilized its army overnight and captured forty-eight cities in the southern province of Tiannan! Your majesty personally ordered to fight!"

The report of the heavy armored knight caused Li Changqing, Li Mingwei, and Wang San to be hammered to the heart.

The army of this Bright Empire dared to be so arrogant!

"Is it an all-out war?"

Li Changqing resisted the shock in his heart and continued to ask, if it wasn't okay, if it was, he would also go into battle in armor!

"The Bright Empire employs 72 leader-level powerful superintendents."

The heavy armored knight said this.

Li Changqing's face was pale.

"Finally here, finally here! This poisonous snake dormant in the grass finally showed its fangs!"

Li Changqing no longer cares about the agreement with the Wang family, nor Fang Yue.

If the skin does not exist, Mao will be attached.

If this southwestern province is completely occupied, the majesty of their judges will no longer exist in the future!

"Where is the army of the Bright Empire now?"

Li Changqing smelled solemnly.

"Just under the Dark Red Blood Mountain!"

Li Changqing is a little bit painful, this is directly high before foreplay. Tide?

The dark red blood is their nest, this time they have to fight.

"Wang San, please mobilize the royal family of the southwestern province to help me guard the dark red blood and protect the Judgment Division!"

Li Changqing spoke politely, but there was a vaguely threatening tone in his tone.

Over the years, the Judicial Department has helped the Wang family do a lot of bad things in the southwestern province. If you dare not come to support, hum, wait!

Wang San also hurts!

He can only partially mobilize the soldiers of the royal family.

Although his strength is strong, he is only an outsider after all! The rights in the Wang family are quite limited.

"My lord vice presiding judge, my status is not high. I can only mobilize 100,000 horses. If I need other reinforcements, I need to ask the Wang family for instructions!"

"Go!"

Li Changqing urged.

Wang San took the order to leave.

Then Fang Yue and others are left.

Li Changqing opened his mouth, but in the end he was not ashamed to ask Fang Yue and the Li family to send troops to support.

Fang Yue still has tens of thousands of troops in his hands, and Fang Yue's own record is outstanding, and he is fascinated by soldiers. If he is willing to help out, it will definitely be a big help. Li Mingwei's status in the Li family is much higher than that of Wang San in the Wang family.

He asked for help, and the Li family's reinforcements would definitely come in continuously.

But he just cooperated with the Wang family's game against Fang Yue and Li Mingwei.

He has a request, and the two will definitely not agree!

Li Changqing finally left.

Fang Yue and others are still in the hall.

"Fang Yue, shall we go out together?"

Li Mingwei still couldn't hold his breath after all, and wanted to see what was going on outside.

Soldiers approached the city.

He has never encountered such a crisis in Li's house for so many years.

"If you don't go out, it's rare to be peaceful. Don't stay here for a long time. Why go out so early? The southern province will be in chaos, and the entire Jiuyou Empire will be in chaos. There will be few leisure days in the future!"

Fang Yue said to himself.

And Li Mingwei had no idea what Fang Yue was thinking.

"Why didn't the Bright Empire send troops early and late, so why did it send troops at this time?"

Li Mingwei kept talking to himself.

Fang Yue was in a good mood, and answered for him: "Because the city of Tamu and Luotian are both critical sites for the Guangming Empire to invade the Nine Nether Empire! And we were summoned by the Judgment Division. The defenders are also hiding! Without the two major obstacles, the Bright Empire naturally drove straight in, and from Luotian City deep into the city, there were small cities in succession, and they were all the inner cities of the Jiuyou Empire. They were rich, and more. Jin, more importantly, the soldiers among them have not experienced wars and rarely see blood. They are all on paper, and they are easy to kill! How can you not eat the fat! So the Bright Empire took advantage of the trend and went straight to launch a full-scale war. Spreading out in the southern provinces, as for the fact that they came to fight the Judgment Division this time, it was actually a shock.

The Judgment Department is a hard bone, and it is not easy to gnaw it off, but once the Judgment Department is besieged, they will not be able to support other places. This will make the Guangming Empire's invasion of the Jiuyou Empire smoother! "

Fang Yue's analysis is extremely reasonable.

Li Mingwei couldn't help but admire him.

Maybe those old fritters in the family are just that!

"Then what shall we do next?"

Li Mingwei looked at Fang Yue, he was already obeyed by Yue Yan!

"Turn this pool of water into the mud, so that the people of the Judgment Division have to fight with the army of the Bright Empire!"

This is not acceptable, but Fang Yue is definitely a good hand.

"It is estimated that the Judgment Division will see through the tactics of the Bright Empire soon, but will cooperate with the Bright Empire to act. The two sides will have casualties, but they will not be too big. When the troubled times come, the Judgment Division will also save their own strength, and they are too lazy. Go to rescue the cities in the southern province of Tiannan Province if you are tired and thankless!"

Fang Yue paused for a while, then said.

"Although the Judgment Department will form a tacit agreement with the army of the Bright Empire, the tacit understanding of their hostile relationship can easily be broken. Therefore, if we want to break this tacit agreement, we only need to crack their trust! For example, the army of the Bright Empire attacked the premises of the Judgment Department. For example, the dead servant of the Judgment Department appeared in other parts of the southern province to attack the army of the Guangming Empire! Trust is broken, and this so-called tacit understanding is naturally not attacked. broken!"

Fang Yue's wisdom is like a demon. Originally an insoluble game in Li Mingwei's eyes, countless flaws appeared under Fang Yue's analysis.

Chapter 1326: It's all broken

"Then Fang Yue, why don't we take action yet?"

Li Mingwei's heart is fierce. If they can use the hand of the Guangming Empire to weaken the power of the Judgment Department, then their Li family's power in the southern province can be completely rooted and continue to grow! Tiannan Province is the domain of the king's family, and they can gain a firm foothold only with the head snake of the Judgment Division.

And if the Judgment Division falls, or declines from prosperity, then the foundation of the Wang family in the southern province of Tiannan may not always be so solid.

"You can't be too active with any of these methods. If you are too active, it is easy to be seen by others. Only when everything seems to be under the control of the other party can the other party lower their alertness and surprise them!"

Fang Yue is the old yin. He is the best at things like yin people.

Li Mingwei seemed to be a primary school student, nodding his head like a chicken pecking rice. He wanted to find a notebook to record what Fang Yue said word by word, and then form a quotation!

Li Hanyun covered his face.

It's over, it's over!

Master Mingwei was completely damaged by Fang Yue's yin root!

The Li family has always given people an upright image.

When did it fall to relying on conspiracy to win by surprise!

Of course, Li Hanyun's words just dared to say something in his heart.

If he really dared to tell Fang Yue and Li Hanyun, they would have to hack him to death.

Fang Yue comforted Li Mingwei to explain his doubts.

However, it didn't take long to settle down before Li Qingyun came back.

At this moment, he was very ashamed.

There are still many wounds on the body, these wounds. It is criss-crossed and has different depths, but every wound has one thing in common, that is, the breath of law is on it.

Dao hurt!

This kind of injury is difficult to heal!

Dao is hurt, and it is destined that Li Changqing's injury will not be healed in the short term. His combat strength has declined, and at most he can only display 70% of his usual strength.

"My lord vice judge, what's wrong with you?"

Fang Yue showed an expression of great concern and asked earnestly.

There is nothing to be courteous, whoever commits crimes or steals, what's more, their relationship was tense before, this Fang Yue must have no good intentions.

"roll!"

Li Changqing responded to Fang Yue with one word.

He kicked Fang Yue away, maybe this kid wanted to see if his injury was really in his eyes, and then shot him to deal with him.

Fang Yue was kicked away, without the slightest anger on his face.

Instead, he said with great grievance: "The deputy judge, people just want to care about you, how can you treat them like this?"

Fang Yue's voice seemed to be an angry little wife.

Li Changqing was numb all over, and even got goose bumps.

"Fang Yue, listen to me! In the name of the deputy presiding judge, I will ask you to immediately mobilize the army and kill at least one hundred thousand troops of the Bright Empire. For the trial division, if you can't complete the task within ten days, then you Just wait to die!"

Li Changqing can't take care of so much now. The army of the Bright Empire outside is really too fierce. If no one comes to help, it is estimated that they will be breached within ten days of the trial division. Although the Judgment Department will certainly make the Bright Empire pay a heavy price, the

problem is that even if the Bright Empire pays a hefty price, if the Judgment Department is gone, the power they have accumulated in the first half of their lives will disappear in an instant!

"My lord vice-judge, this seems to be a bit out of order! I am under the jurisdiction of the military department, and the military department in the southern province corresponds to the garrison of the southern province. You and I are not in the same place. In the system! You do not have any right to dispatch me, and I am a military general. Although my level is not high, I need to be reviewed by the military department if you want to deal with it. You said nothing!"

Fang Yue smiled, he smiled very cheaply.

He has been waiting for Li Changqing here long ago!

The empire has the rules of the empire and cannot be easily surpassed.

Li Changqing was furious and almost did not hold his breath.

When is the time, this kid is still talking about these rules to himself, do you think the knife in my hand is vegetarian?

Even if you have some injuries, there is no problem in killing you!

"Why, Master Li Changqing is threatening me? Master Li Changqing, don't forget, the garrison of the southern province of the Tiannan Province rescued me before! I can be considered theirs to some extent, you can not give me face, But you can't help but give face to the garrison in the southwestern province!"

Fang Yue directly pulled out the tiger skin of the Tiannan Provincial Defense Army.

Li Changqing's face changed.

At this point, he really forgot.

At that time, the garrison of the southern province captured the black wind thieves and rescued Fang Yue and others. This naturally represented that Fang Yue had a special relationship with the garrison of the southern province.

And if this is the case, Fang Yue has something good or bad, he was found out by the garrison of the southern province, didn't he pull their pigtailed and kill them?

Li Changqing felt a headache for him.

Why did he meet Fang Yue?

"Actually, Lord Evergreen, it's not that difficult for me to help. I heard that this is a specialty puppet warrior in the Judgment Division. Warrior? You know, the role of this puppet warrior in war is not that great. It is no problem for a puppet warrior to kill one or two enemies of the same rank, but if it is against three or more enemies of the same rank, it will be crushed. Squeezing effect! Ten to one, very cost-effective!"

Fang Yue brazenly offered the conditions.

This made Li Changqing's expression completely frozen on his face.

He has been in the Trial Division for so many years, and for the first time someone dared to blackmail him.

This Fang Yue really took the courage of the bear heart and the leopard, he even dared to rip off the judges.

However, Li Changqing looked at his wounds.

Hear the crazy shouts outside.

Li Changqing's heart was taken out fiercely.

He is nervous! Worry!

If this war continues like this, maybe they will really lose the trial department!

If the trial division fails, then they will become homeless!

"Okay, okay, okay! I'll promise you this time!"

Li Changqing hesitated for a long time, and finally decided to compromise.

Fang Yue didn't say anything, and directly took out a contract.

"Come, come, come, sign him!"

The contract that Fang Yue took out had already been prepared in black and white, and every regulation in it was well-organized.

Li Changqing's eyes went black and almost fainted.

You are already ready to co-author.

You already knew that the Trial Division would lose.

It turned out that you led the imperial army here!

Li Changqing looked at Fang Yue and his eyes were about to burst into flames.

Before Li Changqing opened his mouth to speak, Fang Yue already stretched out his hand to plug his mouth!

"Don't talk nonsense if there is no evidence, otherwise, even if you give me more benefits, I won't help!"

Li Changqing was very aggrieved.

He has lived for such a long time, when will he fall into this field!

An unnamed boy would dare to do this to him, if it were changed to normal, he would have turned the table upside down!

After a moment of silence, Li Changqing weighed the pros and cons.

"Okay! I agree to your terms and sign this contract!"

After all, Li Changqing is a veteran and cunning, it is impossible to be influenced by his emotions.

In the face of reality, he can only compromise! Because if there is no compromise, Fang Yue will definitely walk away, letting the last ray of hope be cut off!

"Dispatch troops and set off immediately!"

Fang Yue accepted the contract without saying a word and left directly.

Li Changqing looked at Fang Yue's back.

A cold smile appeared at the corner of his mouth.

"Hmph, I will only play some clever things. When the army of the Bright Empire retreats, it will look good with you!"

Fang Yue left the Judicial Division and dispatched troops directly down the mountain.

In a blink of an eye, the soldiers of the Five Hundred Heavens and Earth Realms didn't know where they came from, and gathered under Fang Yue's men.

Li Changqing couldn't help being taken aback.

Where did these people come from?

This is the territory of the Trial Division.

If it is a strong person in the Yin and Yang realm, who is proficient in concealment, maybe he can't notice the existence of the opponent.

But the realm of heaven and earth could even hide around the Judgment Division without being noticed. That would be very scary.

Unable to help, a cold air burst from Li Changqing's spine.

This Fang Yue is not as simple as the Wang family said!

Fang Yue led five hundred men and horses to slay out, and the army of the Bright Empire had no response at all.

Joke, in order to besiege the Judgment Division this time, they have mobilized almost 8 million men and horses, and they are all elites.

There is no cannon fodder at the Innate Realm level. As soon as they are shot, they are all elite warriors at the Heaven and Earth Realm level. There are even a large number of Rotating Realms. Powerful players from the Yin and Yang Realm participate in it. The army of the Bright Empire is like a drop of water in the ocean by comparison, it is insignificant at all, and it is not even qualified to be concerned!

Fang Yue's five-hundred heaven and earth level fighters walked around the flank of the Guangming Empire army.

"Let go!"

Fang Yue gave an order, five hundred heaven and earth level fighters all bowed and shot arrows.

There are too many people in this Bright Empire, and they are extremely dense. There is no need to aim at all, even a blind shot can kill a few people!

The arrows fell like rain.

The army of the Bright Empire noticed the existence of Fang Yue and others!

"act recklessly!"

A centurion at the rotation level gave a disdainful smile at the corner of his mouth.

People in the five-hundred-world realm would dare to attack them.

Arrows fell like rain, suddenly.

Dozens of soldiers of the Bright Empire fell with arrows.

However, these dozens of soldiers of the Bright Empire are still too insignificant compared to the huge base.

Their death did not arouse the fear of other soldiers of the Bright Empire, but it seemed that the hungry wolf saw the blood, but it aroused the fierceness in their hearts!

The soldiers of the Bright Empire whizzed out and followed after another.

"Withdraw!"

Fang Yue ordered his men to leave immediately.

Each of the five hundred soldiers under Fang Yue put a light charm on their legs, their speed increased by 50%, as if they were rehearsed, and they were evacuated in an orderly manner!

The soldiers of the Bright Empire pursued them, and they separated a team of two thousand people to pursue Fang Yue and others.

This wolf has more meat and less meat. Wanting to kill the soldiers of the Jiuyou Empire in order to gain military merit is not easy in this army of millions.

Chapter 1327: Assault

And these five hundred soldiers became the source of their military merits.

However, they just chased out not far and turned around.

In the place that other light empire army can't see.

The army of five thousand undead had already been waiting for them.

Lich, corpse dragon, skeleton archer, and other legendary and terrifying undead creatures sharpened their swords.

Looking back, there is still a way out.

All the retreats have been blocked by Fang Yue with a formation!

Soldiers at the level of five hundred heaven and earth are just a decoy!

This ultimate move is an army of undead at the level of five thousand rounds!

Slaughter, one-sided slaughter!

Only 10% of the two thousand bright empire's men and horses are at the rotation level, and the rest are small shrimps in the world.

Twenty to five thousand.

In terms of absolute strength, the Bright Empire is at a disadvantage.

The two thousand men and horses of the Guangming Empire were dead without even a bubble!

The corpses were everywhere.

Then Fang Yue put the body away, not even letting go of a copper plate.

Fortune!

These are wealth!

Thank you Guangming Empire, thank you Jiuyou Empire, thank you cctv, and thank you very hot TV in Tokyo!

All this should be in the eyes of Li Changqing.

What a poison!

So insidious!

So awesome!

The two thousand people of the Bright Empire were killed in this way!

Two thousand men and horses, for the army of the Bright Empire, is at most a drop in the ocean, not even hurting the fur.

However, Fang Yue set up a trap so that his men did not lose a bit. This would be able to kill the 2,000 soldiers of the Bright Empire, which is more advanced!

They all went head-to-head, with life-for-life style.

Injured the enemy a thousand, self-defeating 800, even if they win the Bright Empire to repel them, it will be difficult for them to end well in the end.

But Fang Yue's strategy is different.

It's just a conspiracy, a strategy of war.

Everyone has learned these things, but there are only a few that can be used, but few can be used well!

"Next wave!"

Fang Yue went round and round, changing places to continue to cheat people.

The army of the Bright Empire has too many manpower, which is certainly a deterrent, but at the same time it also causes the internal information to be unable to circulate.

Fang Yue seems to be cutting a wave of leeks, after cutting one wave, then another wave.

After such a wave of waves, Fang Yue killed tens of thousands of people from the Bright Empire!

Fang Yue killed a few more people, and the dead souls of the Guangming Empire under his men reached 20,000.

Fang Yue stopped suddenly! Begin to take the men to rest.

Li Changqing looked upright, but when he saw Fang Yue resting, he suddenly stared.

What is this kid doing? Is there still an intermission for this job? Don't you know if you move your hands for a while this night, thousands of people in this judge will die?

Does Fang Yue know?

Of course Fang Yue knows!

However, the death of the Judiciary Division has something to do with him.

The little master is tired, just want to take a break, he has the ability to bite me!

Fang Yue released himself completely, and he even pulled out a single bed.

Fang Yue lay on the single bed, with Erlang's legs tilted, his face full of old gods.

Seeing Fang Yue's virtues, Li Changqing was stunned. Is this a march or a tour, even with a single bed?

Could it be that this is the legendary lunch break?

How does Fang Yue look more at ease than traveling!

But marveling and marveling, Li Changqing still had to ponder the motivation to inspire Fang Yue and let him continue to kill the army of the Bright Empire.

Fang Yue's success in this wave was not small, killing more than 20,000 soldiers of the Bright Empire.

This is worthy of the victory of a 100,000-strong team of the Supreme Judicial Division!

The most important thing is that Fang Yue's subordinates are not compromised in strength, which represents an absolute advantage.

If the people of the Judgment Division can reach the level of Fang Yue, what is the army of this mere millions of Bright Empire?

Unfortunately, this is simply impossible.

Fang Yue is just an odd number after all.

How many people can apply conspiracy and tricks to Fang Yue's level?

"Or, give Fang Yue more rewards so that he can rise up to kill the enemy and be more motivated?"

Thoughts flashed in Li Changqing's mind.

He was considering whether to lure Yixia Yue.

The more talented person Fang Yue is, the more he will eat soft but not hard.

You threaten, insist, are useless, maybe he will give you some tricks.

But if you are tempt, Fang Yue's mind may be shaken under the benefit! All this is unknown.

At this moment, Wang San had already returned with excitement and flushing.

"Deputy Chief Judge, I will not be disgraceful, and mobilize a million troops to assist the Judgment Division. The 100,000 horses I can mobilize have been assembled at the foot of the mountain and are on standby to assist the Judgment Division. Other troops will also arrive at the foot of the mountain within five hours. ."

Wang San's words finally stretched Li Changqing's brows a little.

This is the biggest good news he has heard recently. Although Fang Yue relied on tactics to kill the 20,000 Bright Empire army.

But this is just a drop in the bucket, and it cannot really turn things around.

But the royal army is different!

Once the millions of troops arrive, there will be a lot of pressure to judge the division separately.

"Hahaha, God really helped me. This time of kindness, my trial department must keep in mind. In the future, if the Wang family is in the southern province of heaven, if there is anything hard to come up with, my trial department will definitely help!"

Sending carbon in the snow and icing on the cake are definitely different effects.

Before, the friendship between the Wang Family and the Judgment Division belonged to the former, but this time, the Wang Family's help to the Judgment Division belonged to the need for help.

Fang Yue was also aware of the Wang Family's arrival, but all of this did not exceed Fang Yue's expectations.

"You stay here first, and I will go back!"

Fang Yue left the soldiers at the five-hundred heaven and earth level under the mountain, and then went to the Judgment Division alone.

"My lord vice-judge, I waited for the **** battle, and finally fulfilled my mission. I tried my best and risked life and death to kill 20,000 troops of the Bright Empire. According to the previous contract, I hope you Able to pay my corresponding puppet price first!"

Fang Yue asked Li Changqing for credit.

And Wang San didn't even know the previous agreement.

Wang San's face went black when he saw this!

"Misunderstandings, misunderstandings, all misunderstandings, I just signed a temporary contract with Fang Yue!"

When Li Changqing saw this, he immediately bowed his head. Just now, he was able to be proud, because this is in his territory, Wang San must respect him.

But now, Li Changqing has completely lost the qualifications of being proud.

The Wang family has come to the Million Coalition Army. If he declares something wrong and the Million Coalition Army withdraws, he is the millennium criminal of the Judiciary Division!

"Fang Yue, this is your reward. Your contract with me has expired. From then on, you and I will not owe each other, and there will be nothing to do!"

Li Changqing threw a storage bag.

There are puppets for Fang Yue in the storage bag, one is quite a few, and the level is right!

Wang San's expression only slightly eased!

"Fang Yue, the matter between you and the Judgment Division is over, but you and my Wang family should always have an explanation!"

Wang San looked at Fang Yue unkindly.

Fang Yue said with a face full of ignorance: "Ah? What's the explanation? Did I have a holiday with your Wang family?"

Fang Yue pretended to be silly, but everything was useless.

Murderous intent was boiling in Wang San's heart, his heart proudly secretly said: Fang Yue, Fang Yue, you have finally fallen into my hands!

"Don't talk nonsense, no one can protect you this time. My Wang family will let you die, and you will have no way to survive. Now if you have any last words to say quickly, otherwise, you will not have this chance!"

The corner of Fang Yue's mouth suddenly curled up in a strange arc!

"Wang San, Wang San, don't be too ostentatious. Your 100,000 army will not last long under the iron hoof of the Bright Empire army! When they die, you will become a polished commander again. !"

Fang Yue's voice fell, and his figure curled away.

This turned out to be an illusory figure. As for Fang Yue's real body, it had completely disappeared when Wang San was talking nonsense with him!

"The **** Fang Yue dare to fool me, but this time my king's master arrives, he will be doomed!"

Wang San was full of confidence.

However, Li Changqing felt an inexplicable anxiety in her heart.

Looking down the mountain, Fang Yue withdrew.

Both the soldiers from the five hundred heavens and the earth and the army of the two thousand undead have disappeared without a trace!

"General Wang San, please take me to see Wang's one hundred thousand army!"

Li Changqing spoke.

Wang Sanzheng had this intention. It was possible to make the leader-level powerhouse bow his head to him, and it also gave Wang San an inexplicable sense of satisfaction.

Soon, Wang San led Li Changqing to a clearing.

The Wang family's 100,000 army ambushes among them, ready to go.

There are dozens of formations that capture the atmosphere around here, and these formations are arranged very well, even if he is not near, it will be difficult to find these royal soldiers!

Suddenly, Li Changqing was full of confidence in the Wang family's methods.

At the foot of the mountain, Fang Yue's five-hundred heaven and earth realm warriors sneaked up again, and the routine was still the same.

Shoot a wave of bows and arrows, pull the hatred, and run away.

But this time, a general of the Yin and Yang level appeared in the army of the Bright Empire.

He snorted coldly: "Repeat the old technique. Do you think that our army of the Bright Empire really has no brains? The same plan has been put on display, and it has been successful several times, but still want to work? This time, I will look at you. What kind of Longtan Tiger's Lair is displayed for us to break through! The first team, the fifth team, and the tenth team follow the order! Follow me to investigate and kill the mouse!"

The generals of the yin and yang level of the Guangming Empire gave an order, and the 30,000 army launched a mighty pursuit.

They were not in a hurry to chase Fang Yue's five hundred soldiers.

The soldiers of the Five Hundred Heavens and Earth Realms are just small shrimps, and only the ambushers behind them are the real big fish.

"The king dispatched by the royal family is indeed an elite division, with one hundred thousand soldiers and horses, and the ratio between the heaven and earth realm and the rotation realm has reached a

figure of seven to one, even if it is the elite of the empire! The strong will sit down to ensure that they will not fail in the top combat power!"

Li Changqing admired Wang San's one hundred thousand army.

This Wang family deserves to be the top giant in the empire.

It's awesome, it's really awesome!

With such an army in hand, why can't worry about repelling the army of the Bright Empire!

Wang San floated, and he didn't care about the usual flattery and admiration.

But the speaker was Li Changqing, the presiding judge of the Judiciary Division, and a prominent and powerful leader-level powerhouse!

Such praise made Wang San self-inflated and felt extremely beautiful.

"Presiding Judge Fu is absurd!"

Wang San said modestly: "Although my subordinates are elite, they are still far behind the Imperial Guards!"

Chapter 1328: Bureau

"I am going to let these 100,000 troops attack the rear of the Bright Empire! Cut off their food and grass, so many people and horses, the daily consumption of logistics materials is an astronomical figure, once the materials are robbed, they will definitely be in a mess. , It's difficult to hold on for too long, at most three to five days, the army of the Bright Empire will definitely withdraw! At that time, we can win without a fight!"

Wang Sanyang proudly introduced his plan.

Very clumsy, but if it can be achieved, you can definitely avoid the army of the Light Empire!

Li Changqing just wanted to flatter a few words.

However, a shout of killing suddenly came from outside.

"do not run!"

"You have no retreat!"

All kinds of shouts continued one after another.

Wang San's heart was tight.

Li Changqing's apnea!

Subsequently, the army came.

Wang San's carefully-arranged convergent formation was trampled and demolished.

"Hahahaha! We finally found your nest!"

The army of the Light Empire swept across like a torrent of steel.

Thirty thousand horses suddenly arrived, and to Wang San's army it was like the arrival of heavenly soldiers.

This is totally inconsistent with his plan!

How could the army of the Light Empire find their place?

The five hundred men and horses led by Fang Yue disappeared quietly.

Only Li Changqing caught the shadow of Fang Yue's back!

The worry in Li Changqing's heart came true.

Fang Yue set up the bureau from beginning to end.

These people were attracted by Fang Yue.

He previously attacked and killed the army of the 20,000 Bright Empire just to pave the way for the present scene!

This Fang Yue is so insidious, his scheming is so deep!

But now, what can he do?

The one hundred thousand army under Wang San is indeed elite, but if exposed to the millions of horses in the Bright Empire, it is still just a mouse in front of an elephant!

Wang San bit his head and passively faced off.

They collided with the 30,000 horses of the Bright Empire!

The two sides are entangled and intertwined, not giving way to each other!

After all, the 100,000 troops under Wang San were well-equipped and had a higher cultivation base, and soon suppressed the 30,000 horses of the Bright Empire.

But this does not mean victory.

It is too close to the garrison of the Light Empire Army.

The sound of shouting to kill, the sound of war horses neighing, shocked Jiu Xiao.

The main force of the Bright Empire arrived and surrounded the king's army led by Wang San!

"It turns out that you rats are secretly attacking the army of my Light Empire, killing, not leaving one!"

A leader-level powerhouse descended from the sky, and he led the 300,000 Guangming Empire army under him to surround the 100,000 horses of the Wang family.

Wang San looked up to the sky and howled.

"It's not us, it's really not us!"

However, Wang San's defense had no effect. The army of the Bright Empire only believed in their own eyes and brains.

They saw with their own eyes that the warriors of the Five Hundred Nine You Empire Heaven and Earth Realm led them here.

If it weren't for the fact that they had 30,000 horses this time, perhaps they would have been killed by these 100,000 horses while breathing, and they would not be able to stir up even a little wave!

What a vicious trick, what a vicious Jiuyou Empire.

The army of the Bright Empire swept across, and Wang San's men were not opponents at all. One hundred thousand to three hundred thousand, and they were surrounded by a lot of them. Wang San was not Fang Yue, and there was no such fancy as Fang Yue. Victory's strategy.

The 100,000 army of the Wang family was completely destroyed.

The Bright Empire lost 180,000 horses!

It is worthy of the elite of the Wang family, even if it is a fight against the trapped beast, even if it is a desperate fight, it has also exerted an extraordinary combat power.

It's a pity that all the people in the Bright Empire are still dead.

"Look at it!"

Fang Yue sighed softly.

He stood not far away and displayed the Ten Thousand Worlds Body. His body merged with the void. As long as he didn't make a move, unless he was a powerful person above the level of the Great Sage or his attainments in space and heaven exceeded the eighth level, otherwise if so, no one can discover his existence at all!

Then Wang San ran away.

It was Li Changqing who stopped the leader of the Guangming Empire for Wang San.

Wang San represents the face of the Wang family. These 100,000 elites can be lost, but Wang San cannot die.

If he is dead and Li Changqing is alive, some things will be unclear even if he has ten tongues and heads.

In order to stop the leader-level powerhouse, Li Changqing also paid a lot of money. He resisted three times and his back was thin.

In the end, Wang San fled.

Li Changqing was seriously injured.

Similarly, the loss of the Bright Empire is quite heavy, with 300,000 horses leaving less than 120,000!

"It's time for us to play!"

Fang Yue spoke slowly, he had enough rest.

With his hands on his back, a piece of green grass dangling from his mouth, appeared in front of everyone.

"Fang Yue, is it you?"

The leader-level powerhouse of the Bright Empire showed a surprised look after seeing Fang Yue. As the leader-level powerhouse of the Bright Empire, he naturally understood the reward list issued by the Bright Empire.

Fang Yue, the bounty is tens of billions of spirit stones and 30 drops of spring water from the Spring of Light.

Ranked seventh in the ranking of the yin and yang realm of the Nine Nether Empire by the Bright Empire.

As for Wang San, although his fighting strength is strong, he can't even make the top ten on the reward list.

The reason is very simple, Wang San's combat power is not weak, but the Guangming Empire can get him to death if he gets an old leader-level powerhouse.

And Wang San was not a direct disciple of the Wang family, even if he was an outsider no matter how important he was, the training resources allocated to him would be quite limited.

Without resources, no matter how high Wang San's talent is, it would be difficult to break through to the level of the leader.

Personal force does not enter the realm of the leader, and it is not a threat to the Guangming Empire!

"Yes, I am me, the mighty and invincible little Nezha!"

Fang Yue swaggered in front of the Bright Empire.

Li Changqing's eyes are extremely complicated.

Sure enough, all of this was done by Fang Yue, who used the knife to kill and deal with the Wang family!

Fang Yue's contribution to the destruction of the king's one hundred thousand army was indispensable.

But Li Changqing could not find any position to condemn Fang Yue.

The Wang Family and Fang Yue were originally at odds. If Fang Yue were replaced by him, they would definitely do things more ruthlessly!

"Fang Yue, do you know the reward offered by the Bright Empire! Of course, Yan Wuxin personally appreciates your military talent. If you are willing to be loyal to the Bright Empire, I promise you can get more than Ten times the treatment of the Jiuyou Empire! During this period of time, it seems that you were not very good in the Jiuyou Empire! I offended the Wang Family and invited you to the Judgment Department. If you are not conspiring to exonerate, I am afraid you will be killed. I was wronged!"

However, there are people from the royal family and the Judgment Division looking forward to it, you will never have a good life in the Jiuyou Empire! It's better to join me in the Empire of Light, I promise that there will be no such intrigue in the Empire of Light! "

Yan Wuxin started to pull people without saying anything!

This living Fang Yue is more valuable than dead!

This is definitely a military talent, and the Bright Empire is desperate for talent at the moment!

Having Fang Yue alone is better than mastering an army of 100,000!

It's a pity that Fang Yue doesn't take this set at all. He is here to make trouble, not to seek long-term development.

"Forgive me, although some people in the Jiuyou Empire have a bad heart, but I can learn from my loyalty to the Jiuyou Empire."

Fang Yue refused decisively, simply agile.

"In that case, it would be a pity, although you are more valuable alive, but if you die, it can be regarded as a wish of my Guangming Empire." Yan Wuxin shot decisively, and Fang Yue's ink was too long. It's easy to go wrong!

"Who is out to kill Fang Yue?"

Yan Wuxin overlooked the yin-yang level generals behind him. As a leader-level powerhouse, he still had integrity and character.

If the opponent is Wang San, he must not say anything, just copy the guy and do it!

Although Wang San is still at the level of Yin and Yang, his reputation is outside, and his own cultivation is comparable to that of the master of the leader. He personally leaves the game, which is not a drop.

But Fang Yue is different. Although Fang Yue is also at the level of Yin-Yang realm, his reputation stems from using soldiers like gods.

If he is singled out, a strong man in the master realm of his will be regarded as bullying, and his reputation will not be very good if it is spread out.

"I come!"

A savage with Tan Lu's upper body and flamboyant leopard-print animal skins around his waist came out. He carried a sledgehammer in each of his hands. Every step he fell would make the earth tremble!

"Savage Wang Jun, is your Bright Empire really shameless? Against a general like Fang Yue, you actually let Savage Wang Jun take action?"

Li Changqing was seriously injured and pale, but he still couldn't forget to join him.

This time Fang Yue was fighting for the Trial Division.

Although Li Changqing knew that his grievances and grievances could not be wiped out, he still had to stand on Fang Yue's position morally and strive for greater vitality for him.

"On the battlefield, there is only life and death. There is no fairness. Li Changqing, you are also an old man fighting on the battlefield. Will you let it go because your opponent is in the world realm and the rotation realm?"

Yan Wuxin's voice was sonorous and powerful, and he sneered slightly.

He dismissed Li Changqing's statement.

Fang Yue showed a look of panic.

"Oh, what a powerful aura, I am about to be stunned! What to do, what to do!"

Fang Yue's exaggeration was obviously provocative.

Savage Wang Jun slammed his legs on the ground, and he lifted the heavy hammer in his hand and slammed it down towards Fang Yue.

The two heavy hammers in Wang Jun's hands are both legendary star irons!

The law Wang Jun comprehend is also the Avenue of Stars.

Star iron is most suitable for people who understand the laws of stars. It is said that at certain times it can explode 120% or even 150% of the damage.

However, Xingchen Iron is quite rare, and its price remains high. The magical artifacts forged from Xingchen Iron even surpass certain master level magical tools!

"It hurts, it hurts, it hurts!"

Fang Yue was already wailing before being hit by the twin hammers.

But in his eyes, a smile has betrayed his heart.

In Wang Jun's heart, there was suddenly an inexplicable anxiety.

Yan Wuxin also felt something wrong.

That said, does Fang Yue still have arrangements?

But what arrangement does he have?

"kill!"

Just when Wang Jun's giant hammer was about to hit Fang Yue's body, Fang Yue's counterattack suddenly shouted a kill.

The sound is not loud, but the character floats, floating up like a dark cloud.

Wang Jun's body was shrouded in killing words. His whole body was cold and stiff, and all his movements stopped instantly.

Chapter 1329: Withdrawal

"It's a pity a yin and yang realm Tianjiao!"

Fang Yue's robe sleeves flicked, and the last trace of life in Wang Jun's body was wiped out by him!

Then Fang Yue took the body away.

Yan Wuxin's breathing suddenly froze.

Is Fang Yuemo not like a **** or a monster?

A single word killed his general, Wang Jun, and asked himself, Yan Wuxin couldn't do this himself.

"I understand, this is the power of the field! Fang Yue knows the formation method, and he probably also knows the geomantic topography. These geomantic topography can evolve to the extreme state to form the field. The field is invisible, relying on the landscape, this piece of land. The place may have been guided by Fang Yue to arrange a legendary field."

The first one to see Fang Yue's body was Li Changqing.

Although Yan Wuxin has a higher cultivation base, he spends most of his time fighting around and expanding for the Bright Empire.

As for other miscellaneous legends, he didn't even have any research skills!

Who is like Li Changqing, who is idle all day long, staying in a high position, searching the world's unique classics, thinking about some silly things.

"Which field is not field! It's all in the sidelines, not orthodox, whatever you can do, I will break it by oneself!"

Yan Wuxin roared, he was quite decisive!

The roaring sound shocked the four wilds.

Fang Yue closed his eyes slightly, and the countless bones around him all disappeared!

"This field, called the field of death, is based on not the mountains and rivers, but the corpses that have just died. Two hundred and eighty thousand soldiers are buried here, and the resentment and evil spirit in it can be imagined! You and My duel is equivalent to a duel with the ghosts and heroes of 280,000 soldiers!"

Fang Yue's voice slowly, without any cold, oppressive taste.

But no matter Yan Wuxin or Li Changqing, the heart is cold at this moment.

The two of them are the only two strong masters in the leader realm present.

Their spiritual sense is the most acute. Among their spiritual senses, this Fang Yue has become the only master of this world, a **** of death, supreme, no one can touch his height.

"Yan Wuxin, I don't want to fight you. You are a strong man in the leader realm, a body of gold, and you and me are in a battle between five and a half. If you can exhaust my field power, naturally I can kill me, and if I can kill you before the power of the field is exhausted, the Bright Empire will lose one leader of the leader realm, and the family power behind you will also fall and be divided by countless people. I just need you to leave this field and I won't do anything to you again!"

Fang Yue's voice roared, resounding in the depths of Yan Wuxin's consciousness.

Yan Wuxin's thoughts also trembled.

After a moment of silence, Yan Wuxin raised his left hand.

"The Bright Empire army will withdraw with me!"

This time, he has already killed one hundred thousand troops of the Jiuyou Empire. He has made outstanding achievements. There is no need for him to risk his life and death against Fang Yue!

Yan Wuxin is a veteran general and he has no hesitation.

The 120,000 army retired.

Only Fang Yue and Li Changqing were left.

"Although the contract is no longer counted and it was unilaterally abolished by you, I still saved you a little life. How should this account be calculated?"

Fang Yue's aura like a divine residence dissipated.

He stood opposite Li Changqing and talked.

Li Changqing cursed secretly in his heart.

Is this taking advantage of the fire?

For Fang Yue's death field, Li Changqing has great fear! Even Yan Wuxin was scared away. He didn't dare to try the law by himself to see how powerful this domain was.

"A thousand puppets at the rotation level!"

Li Changqing rubbed his teeth and said.

He knew Fang Yue quite well.

This guy is very realistic!

"A thousand? It turns out that my deputy chief judge's life is so worthless!"

Fang Yue's tone was quite ironic.

Li Changqing's forehead is black, and he is really a big stomach king.

"Ten thousand!"

When Li Changqing spoke, he increased the number of puppets tenfold!

Fang Yue's eyes lit up, this judge is really fat and oily!

Ten thousand puppets at the rotation level are not a small number. If they are used well, they can play a decisive role in small-scale wars!

Especially in large-scale wars, these puppets can be used as a cavalry.

"The level of the puppets at the turning level is too low to be a success. How about adding ten more puppets at the Yin-Yang level?"

Fang Yue's lion opened his mouth.

This yin-yang level puppet is dozens of times more powerful than a puppet at the rotation level.

Its price has also doubled!

Fang Yue originally asked for it with the mentality of a try.

No, this Li Changqing really agreed.

"it is good!"

Now Li Changqing has figured it out, this Wang Clan is unreliable, and in the end it is Fang Yue who is great.

What about a hundred thousand army?

What about elite teachers?

In the end, it was not that Fang Yue borrowed the knife to kill someone, and slaughtered them all!

Therefore, if you really want to cause fatal damage to the Bright Empire, you still have to rely on Fang Yue's methods!

Li Changqing's heart is biased towards Fang Yue, and he will naturally be inclined to Fang Yue's remuneration.

The elite of one hundred thousand kings killed the army of 180,000 Guangming Empire.

In fact, thinking about it, this is not an unacceptable result.

Anyway, it is the people of the Wang family who die, and the dead daoists do not die the poor dao.

This king's family is also deeply entrenched in the southern province, and it is not necessarily a bad thing to let them suffer some losses.

In the event that after this catastrophe, the power of the Judgment Division weakens, and the Wang family seized the opportunity to rise up, they will come first and press on the head of the Judgment Division.

This result is absolutely unacceptable to Li Changqing.

"Since the vice presiding judge is so polite, then I will be disrespectful!"

Fang Yue accepted the things and didn't know what politeness was.

This is what Li Changqing should do. If he doesn't do this, he might be able to persuade the army of the Bright Empire to bring down the entire Judicial Department tomorrow.

"You have seen the situation now. The 100,000 elites of the Wang family can't stand the siege of the Bright Empire. Although our trial department is like a cloud, after all, there are too many ants to kill the elephant. According to the current situation. Going down, my trial division will definitely be captured by the army of the Bright Empire within three days!"

Li Qingyun was worried.

He has made many wrongdoings when he served as the deputy presiding judge in the Judicial Department over the years.

Over the years, how many rich and wealthy has he offended!

If all of these people came to the door at one go, he would definitely be stripped of his skin.

Under the covering of the nest, there are no eggs.

With the background of the Judiciary, he is the uncle, under one person, above 10,000.

If the judge is over, he will be over too!

Li Qingyun understands her own situation and simply can't understand it anymore!

"I'll show you a clear road! There are masters among the people! This huge southern province has a population of at least nearly 100 million. Among these people, there are masters in the Yin and Yang realm, and there are many masters in the rotation realm!"

Fang Yue pointed out the way out for Li Qingyun.

Li Qingyun said in a puzzled way: "There are many folk masters, I naturally know, but how can I mobilize these people? They are hidden in the folks, and there is no official record! Even if I hold the Buddha's feet temporarily and gather people, I may not be able to mobilize them. Summon these people from the people!"

Fang Yue cast his eyes: "I really don't know how your IQ is at this position. Who asked you to summon it and directly offer a reward! The head of the soldier of the Bright Empire, a five-hundred spirit stone in the realm of heaven and earth. A 10,000 spiritual stone in the realm, one in the Yin-Yang realm, kills and directly rewards a magic weapon of the Yin-Yang realm level! I believe there will definitely be many hidden masters in the folk who are willing to take the reward!"

Fang Yue's voice fell.

Li Qingyun's breathing became unstable.

"Such a high price, I am afraid that the Judiciary Department cannot afford it!"

Li Qingyun is sour.

With so many people from the Bright Empire, they all offer rewards, and they need massive wealth.

Fang Yue patted Li Qingyun on the shoulder and said, "Young man, don't be so conservative in your mind! This killed a soldier of the Bright Empire, and he might be hacked to death by the people of the Light Empire in a blink of an eye. He can truly receive the award alive. How many people are there? What's more, their purpose is to create chaos and delay the light empire's deployment of troops to the Judgment Division! Don't have too much hope for those folk masters. You can make trouble, but it's true! If you kill the enemy, you still have to rely on your own men and the regular army of the empire!"

Fang Yue's words made Li Qingyun's main point, he happily returned to the Judgment Department and began to arrange the reward.

The Judgment Department has been operating in Tiannan Province for so many years, and the accumulated wealth is simply a huge treasure house.

A little spirit stone is nothing to them!

If the Judgment Department is gone, all these wealth will belong to someone else's family!

Under the pressure of the life-and-death crisis, the senior officials of the Judgment Department quickly passed the offer of reward.

Kill one soldier at the Heaven and Earth level of the Bright Empire to reward five hundred spirit stones.

Kill one general in the rotation level of the Light Empire to lead ten thousand spirit stones.

Kill a commander of the Yin and Yang level of the Bright Empire to lead a magic weapon of the Yin and Yang level!

Moreover, in order to prove his determination, the Trial Division opened the treasure trove of exchange when the reward order was issued.

Among them, tens of billions of spiritual stones were directly placed, as well as a hundred yin-yang realm-level artifacts.

This trial division has a great cause and is extremely generous.

Fang Yue's plan worked immediately.

The Judgment Division itself had not yet formally started, the Bright Empire had already begun a large-scale reduction in soldiers.

The people have talents, and the people have masters.

What kind of poisoning, beauties, sneak attacks, assassinations, and curses, all kinds of methods, a swarm of people appeared!

In just half an hour, the Bright Empire had more than 30,000 soldiers at the heaven and earth level died for various reasons, more than a thousand generals at the rotation level were assassinated, and three commanders at the yin and yang level disappeared inexplicably.

This made the interior of the Bright Empire inexplicably chaotic.

There can be casualties. Since it was a marching operation, there is no reason for casualties.

But like this, so many people were killed in one breath, and there were no signs and no truth at all, the high-level of the Bright Empire could not accept it.

Although a large number of rewards in the redemption treasure chest were taken away.

But the senior officials in the Judgment Department are full of joy!

This trick is good for killing people with a knife!

They killed so many soldiers and high-level officers of the Bright Empire without a single soldier.

In particular, the fall of the three yin and yang level powerhouses made the chief judges of the Judgment Division feel ecstatic.

Chapter 1330: Crooked trick

The death of these three yin and yang realm-level powerhouses should make the high-levels of the Bright Empire feel a little painful!

However, this is just an appetizer!

As long as their rewards continue, there must be brave husbands under the rewards. Their various quandaries cannot save people, but there is still no problem with killing!

At the foot of the dark red blood, Fang Yue erected a sign, directly collecting the corpses of practitioners of all levels, the fresher the better, and the better price.

In the world realm, one piece of five hundred spirit stones, one piece of rotation realm, one piece of five thousand spirit stones, one piece of yin and yang realm, the fragments directly given to the law, the more complete the corpse, the higher the corpse's cultivation base during the lifetime, and the number of fragments of the law The more it is!

Those folk masters killed the people of the Guangming Empire, and the wealth on the corpses was divided up. This corpse was left useless, and it happened to be handled by Fang Yue!

Of course, there were also soldiers of the Bright Empire secretly selling the corpses of the comrades in the morgue and the enemies to Fang Yue.

No way, this wealth is touching!

Fang Yue's spirit stones and fragments of the law radiated out like flowing water.

And the corpse he received was 50% sacrifice, dedicated to Fang Han, and 50% used to feed the Zerg army.

Fang Han has been quite moisturized recently. Although it seems that he is still dry and may extinguish the fire of life at any time, in fact, Fang Yue sacrificed more and more corpses, and the formation of the original Qi also provided him. More and more serious, years of losses, there are signs of moisturizing to make up!

If the Destruction Mozu knew about this, I am afraid it would be vomiting blood.

And Fang Yue's Zerg army is becoming stronger and stronger. The most direct manifestation is the improvement of the insect emperor's cultivation. Now it has reached the peak level of the Yin and Yang realm. As the insect emperor of the Zerg, he has a huge amount of energy to grow in his childhood! And the best source of these energy is the corpses of those strong men provided by Fang Yue!

The strength of the insect emperor has increased, and the strength of his Zerg warriors has also risen!

The number of Zerg warriors under the Insect Sovereign was only in the millions, but now they have exceeded tens of millions.

Fang Yue even doubted that if the worm emperor breaks through to the level of the leader of the cult, whether the army of the zerg under his hands can exceed one hundred million, and whether it can directly flatten the Skywind Empire on the dark moon plane!

Of course, the Zerg army is now his trump card, and it should not be revealed too early.

But Fang Yue was already full of harvest this time.

With the passage of time, the loss of the army of the Bright Empire became more and more serious. The number of soldiers at the level of heaven and earth has reached 120,000, and more than 10,000 people died in the cycle of various reasons. The strong are dead as many as twelve!

The Jiuyou Empire is really a master of the folks!

The most powerful person among them, stepped directly through the space, turned into a **** of death on earth, and cut it down with a single blow.

The void shattered and the reflection continued.

Directly cut a strong man of the Yin-Yang state of the Bright Empire into two halves from the middle. At the moment when the strong man of the Yin-Yang state of the Guangming Empire fell, there were other strong men of the Yin and Yang state in the camp. They were eight. Join forces to release a full blow.

A silver lightning flashed across the sky, trying to leave the guy incarnate as a **** of death in the camp of the Bright Empire.

The man raised his hand slightly, smashed the silver lightning, and then left calmly. The shocked Guangming Empire had to send a strong person from the leader realm to patrol himself to avoid similar dangers again!

The people of the Guangming Empire were panicked.

And Fang Yue finally ran into trouble here.

A middle-aged elegant man in a white robe came.

With a smile on his mouth, he looked at Fang Yue with a haughty look in his eyes.

"What are you doing?"

Fang Yue is a straightforward person, too lazy to chat with others.

He was straightforward and straightforward.

In terms of tone, he is also quite bad!

Because he felt that this middle-aged elegant man was too pretending. Forced!

Installed. Forcing is my hobby, how can I make you specialize in beauty?

"Introduce myself, I come from Beiyuan in the chaotic sea. Everyone likes to call me Fang Kong."

When the middle-aged elegant man spoke, he gave people a sense of arrogance and indomitableness.

This is not like introducing his own history, but more like showing off to Fang Yue, threatening!

"Fang Kong? I haven't heard the name."

Fang Yue went back directly.

But Beiyuan, he did know.

Who is deep in the chaotic sea.

The entire Nine Yous plane can be said to be the Nine Yous Empire, the Bright Empire, and the Chaos Sea.

On the bright side, the Jiuyou Empire is the most powerful, followed by the Bright Empire, and the Chaos Sea next.

But anyone who really knows the Nine Nether planes knows it.

In fact, the most powerful and mysterious power of the Nine Serenities is the Chaos Sea.

Because the Sea of Chaos is not a single organization, there are hundreds of principalities, tens of thousands of princes, and some are as small as a city with a population of hundreds of thousands.

But these countries have their own foundations, and this foundation is not on the Nine Nether planes, but on other planes or worlds!

The chaotic sea connects a turbulent flow of space, and many planes and worlds are connected to them.

Among them, fish and dragons are mixed, and there are countless monsters.

Beiyuan is a well-known force in the Chaos Sea. They are a consortium that lends money to provide various resources to support the battles and killings of some small countries in the Chaos Sea!

In the Jiuyou Empire and Guangming Empire, Beiyuan also controlled a group of people through various means!

"It doesn't matter if you haven't heard of my name. Just know Beiyuan! This war is our Beiyuan loan and various resources provided to the Guangming Empire! The price is that the Guangming Empire has three transactions to Beiyuan in the city occupied by the Jiuyou Empire. Five hundred years in business! Young man, do you know what this means?"

The pupils of the square hole shrank suddenly, like a poisonous snake that suddenly sprang out of the grass.

The threat is self-evident.

If you prevent the Guangming Empire from capturing the city of the Jiuyou Empire, you will have trouble with Beiyuan!

"Consortium, Beiyuan! I'm so scared!"

Fang Yue pretended to look terrified, but everyone could tell that Fang Yue was teasing Fang Kong.

"Fang Kong, Fang Kong, a good name, you have been in the eye of money all your life!"

Fang Yue kept mocking.

Fang Kong is from Beiyuan.

Will Fang Yue be afraid of him?

If you change to another general of the Nine You Empire, you will definitely be afraid, because Beiyuan's control is amazing, especially in terms of economic lifeline.

Over the years, the Jiuyou Empire and Guangming Empire owed Beiyuan a huge amount of wealth.

If Beiyuan came to collect debts, the people of the two empires would not be easy to talk.

However, Fang Yue is different.

He was not originally from the Jiuyou Empire, in name, he was wearing the hat of the Jiuyou Empire.

But in fact, he is an earthling from the Galactic Alliance!

Therefore, Fang Yue teased Fang Kong.

Fang Kong was trembling all over.

"Boy, remember it for me! This is your attitude towards me, and you will pay a heavy price for it!"

Fang Kong was about to walk away.

He is a noble man who doesn't care about a small man like Fang Yue.

After he was going back, he forced the palace against the imperial family of the Jiuyou Empire, using various pressures to force them to kill Fang Yue, using various names and various means.

However, Fang Kong has not left yet.

Groups of burly and mighty soldiers surrounded him.

Fang Yue's elite has arrived, and it is entirely the posture to keep Fang Kongqiang here.

"I said Brother Fang Kong, since you are here, you are staying here for a while, leaving in such a hurry, it seems that I am inadequate to entertain you. What a bad thing to do!"

Fang Yue's smile was extremely cheap.

Fang Kong trembles all over his body, and his breathing becomes heavier instantly!

The hateful Fang Yue, the two armies are at war, not beheaded.

Is he breaking the rules?

"Fang Yue, what do you want to do? Stop me and kill me?"

Fang Kong's attitude is extremely tough. At any rate, he is also a strong man in the Yin-Yang realm. Although he has rarely done anything in recent years, there is still nothing he can do with Fang Yue's rabble!

"Brother Fang Kong, you misunderstood me, is Fang Yue the kind of unreasonable person who likes to fight and kill? That's something crude people do, I don't want to do it!"

Fang Yue looked like I was a good person, and said Kong, who was smiling.

But the more Fang Yue was like this, the more disturbed Fang Kong was.

He regrets a bit, why should he take this task.

What if someone like Fang Yue doesn't play cards according to the routine, if his brain gets so hot, what should he do?

Fang Yue is a hillbilly, the life of mud legs is worthless, but he is a daughter!

Miscalculation, miscalculation, it's really a miscalculation!

There was endless regret in Fang Kong's heart.

Fang Yue looked at Fang Kong as if he was watching a clown.

When did this kind of cat and dog dared to jump in front of him.

You are a businessman, but you should act according to the rules of a businessman.

You are right to support the War of the Bright Empire, and it is right to send them money and supplies!

But you forced me to give way to the empire of light and surrender, what kind of rule is this.

Investment is risky.

Since you want to make big money, you have to take big risks!

If you want to make a lot of money, but don't want to take risks, that's a robber.

Not what a businessman should do!

"Brother Fang Kong! There are rules in this industry, you who do business should have your own rules too!"

Fang Yue has a very restrained smile and is very approachable. He has red mouth and white teeth, giving people a harmless look like a boy next door.

But the more Fang Yue is like this, the more Fang Kong beats the drum in his heart!

What is Fang Yue doing?

What does he want to express?

At this moment, Fang Kong's psychological activities have turned into a barrage, swishing across his heart!

This guy's behavior is so weird!

And what are you doing with your hands on my shoulders when you are idle.

Fang Kong looked at Xia Yue's palm with disgust, and wanted to push it.

However, he pushed, and was shocked to find that he couldn't push at all!

Power suppression, this is a complete suppression.

Even the bitter water in Fang Kong's heart was about to roll out! This Fang Yue is too cruel.

So much higher than his own strength, he is still pretending to be a pig and eating a tiger.

His strength is considered midstream in the third level of Yin-Yang realm, and Fang Yue can completely suppress him, definitely reaching the seventh level of Yin-Yang realm.

And Fang Yue's strength was completely inconsistent with the description of the information he saw!

This means that this **** Fang Yue completely concealed his true strength!
