

## God of Life 1331

### Chapter 1331: Discipliner

"Brother Fang Yue is right!"

After a moment of silence, Fang Kong temporarily agreed, but he had already sworn in his heart that if he could return safely, he would kill Fang Yue.

Dare to threaten him so much, this guy is the first one!

"Well, then you can only hide behind, not stand in front of the stage. Is this your industry rule?"

Fang Yue asked with a smile.

Fang Kong was completely shocked!

You are right, you are a big brother, and you are right!

But this is our industry rule, how did you know it!

What Fang Yue said is indeed good at half a word!

But without in-depth understanding of their business, few people will know this rule.

"Fang Yue, what do you want?"

Fang Kong's heart was even more shocked!

"Those who make mistakes will be punished! You took the initiative to attack me, you ask me what I want? I am really innocent!"

Fang Yue's expression is extremely wonderful and rich.

Fang Kong's emoticon in Fang Kong's heart kept brushing!

"Come out! Don't hide, push the square hole out as a pathfinder, is it really interesting?"

Fang Yue seemed to shout into the air out of thin air.

But his voice settled, and two old men in black robes suddenly jumped out.

These two old people are both the peak strength of Yin and Yang realm, and they are definitely big bosses in the two empires.

They are the closest people to the master realm.

Once that crucial step is taken, it will immediately be a huge leap!

However, in Beiyuan, they are willing to only be commanders hiding in the dark.

After Fang Kong saw the two old men, he was about to pee.

Discipline!

Specially deal with the subordinates of Beiyuan who made mistakes.

Fang Kong didn't expect that he sneaked up to threaten Fang Yue that he would be discovered by the discipliner.

"No, don't! I know I was wrong, I change it, and I will definitely not violate the rules again from behind the scenes and go to the front of the stage!"

Fang Kong Sapo rolled around asking for forgiveness.

Knowing that the disciplined person was staring at him, how could he have made such a low-level mistake.

"Don't cry, don't worry! This time the matter is not over yet! Come, everyone sits down and talks, your appearance scared my young and fragile heart, what price do I need to compensate me!"

Fang Yue's smile was even stronger.

When Fang Kong appeared, Fang Yue sensed the existence of these two discipliners!

Fang Kong is still crying and howling, begging for forgiveness from the two commanders.

And one of the old people, Fang Yue, said: "Fang Kong's coming out this time really broke the rules. After we go back, we will punish him severely and give Master Fang Yue an explanation!"

The old man is methodical.

To Fang Yue, everything seems to be rehearsed!

"No, no, no! The two preceptors misunderstood! What I said was being scared was frightened by you and Brother Fang Kong! Brother Fang Kong came here to threaten me justifiably, and the two adults started from the beginning. The tail is hiding in the dark, staring at me abruptly, making me really frightened and terrified!"

What Fang Yue said was like a cuckoo cuckooing blood, and he was in panic all day long.

But the calm expression on his face betrayed his true emotions.

You guys, I'm not afraid of you at all, want to single out? come!

"What? You two preceptors have already come?"

Fang Kong was shocked when he heard this, then he became calm.

If the two preceptors have just appeared, they must have come looking for clues and then caught an existing one.

But if the two of them had come long ago, the script of the story would be completely different!

Although the square hole is stupid, it is not yet stupid and breathable.

The pupils of the two old men in black shrank.

This snake bites three points into the bone.

Unexpectedly, this Fang Yue was so vicious, even they had calculated it!

"Fang Yue, this meal can be eaten indiscriminately, but you can't talk indiscriminately! This Fang Kong's words intimidate you, what is there to do with us?"

One of the old men is still arguing.

Fang Yue said innocently: "If the two adults say they have nothing to do, then treat it as nothing! After I leave here, I will publicize what I have encountered, and see if the senior officials of the Nine Nether Empire think this matter. Nothing to do with the two adults!"

Fang Yue's smile groaned.

Let the two commanders have cold hands and feet.

Somehow the trick.

What a sinister means!

The two commanders naturally heard the hidden meaning in Fang Yue's words.

In this chaotic sea of merchants, there is not only Beiyuan, but Beiyuan can be regarded as a larger one at best.

Following Yan Wuxin, he talked about the origins of Fang Yue.

Zhang Feng paid more and more attention to Fang Yue, because this Yan Wuxin was his confidant, and what he said was generally correct.

"This Fang Yue even knows how to arrange field formations. Why didn't such a talent appear in the army of my Guangming Empire! This marching battle, the force is only part of it, and the time, place, and people are right!"

Zhang Feng's voice was a little low.

Sure enough, this Jiang Yu won't talk about it, aimlessly!

However, even so, this Fang Yue is still going to die. This time the Guangming Empire annexed the southern province of Tiannan is the general trend, even if Fang Yue wants to stop it, it is just a man's arm!

"Send me a shadow to end this Fang Yue!"

Zhang Feng finally spoke and made a choice!

"Shadow! Your lord, this is too important for Fang Yue! According to the previous agreement, whether it is the Nine You Empire or the Bright Empire, the Shadow has only ten opportunities to use it every 100 years! Although these years, my Bright Empire has always been I haven't used the shadow to make a shot, and I have accumulated a lot of times, but this war of overwhelming nation has just begun. At this time, it seems that it is not appropriate to use the shadow!"

Someone spoke to discourage Zhang Feng.

The existence of this shadow is the killer of the Bright Empire.

Whether it is the Guangming Empire or the Jiuyou Empire, there are actually similar existences.

Every shadow is a master who has carefully cultivated the master realm of the two empires.

These masters in the master realm can only kill people, they are tamed by the way of raising Gu, if they don't make a move, it's okay. Once shot, it must be earth-shattering!

Before, there was a precedent of a shadow on the eighth floor of the leader realm who successfully assassinated a saint.

Therefore, the shadow is not allowed to participate in the dispute between the two countries at will, this is the tacit understanding established by the Guangming Empire and the Jiuyou Empire!

Subsequently, this supplement to the regulations became a battle between the two countries, and the number of shadow shots must not exceed ten times in a hundred years! This number can be accumulated, but it must not be violated!

In the hearts of the generals of the Guangming Empire, this shadow shot was at least to bring back the head of a general of the leader of the Jiuyou Empire.

As for letting the shadow assassinate Fang Yue at the Yin-Yang level, this business is not worth it!

"Are you questioning my decision?"

Zhang Feng spoke again.

There is an overbearing, unquestionable taste in his voice!

"Subordinates, dare not!"

The man lowered his head, his voice trembling.

Zhang Feng is strong and domineering, and some people were slapped to death by him for refuting his opinions!

"If Fang Yue is alive for one day, the warriors of my Bright Empire may be killed by tens of thousands! In terms of the threats on the battlefield, he has surpassed the commanders of many leaders in the Nine Nether Empire! Let the shadow give this Fang Yue Kill it!"

Zhang Feng feels that he has paid enough attention to Fang Yue!

The shadow can assassinate even a saint, let alone Fang Yue at the Yin-Yang level!

It's a pity that it's an opportunity.

Zhang Feng's heart secretly said.

That night, Li Dongjun, the assassin of the Bright Empire, received the task to assassinate Fang Yue, the general of the Jiuyou Empire!

Walking out of the dark room, Li Dongjun was a little unacceptable to the outside sunlight.

Li Dongjun practices the law of darkness. He prefers to stay in dark places, such as an abyss, such as a cemetery, or at least a room without light.

Only by contacting more darkness can his understanding of the essence of darkness be more profound.

In order to comprehend the essence of darkness, Li Dongjun demands himself in the strictest way!

"Fang Yue!"

Li Dongjun was not in a hurry to assassinate Fang Yue. Instead, he came to the Intelligence Department of the Bright Empire to learn all the information about Fang Yue.

If something goes wrong, there must be a demon.

It was not normal to waste an opportunity to use the shadow to assassinate a general of the Jiuyou Empire with only Yin and Yang level.

However, the order was issued, and the person who signed the mission letter was still Zhang Feng.

Zhang Feng is a veteran general of the Guangming Empire. He has a sophisticated method and never makes a fuss.

There are not many records about Fang Yue in the Intelligence Department.

Because most of the people who have seen Fang Yue are dead!

"Where is Fang Yue now?"

Li Dongjun asked the deputy director of the Intelligence Department.

"No, I don't know!"

The deputy director said in fear.

"Huh? I don't know. Didn't it mean that the intelligence of your Intelligence Department covers the entire Jiuyou plane? Fang Yue is a general. There will be many soldiers in marching battles. If you grasp the eastward direction of his soldiers, it is easy to judge Fang. Do you still need me to teach you about the position of Yue?"

Li Dongjun's face was a little unhappy.

It's no wonder that the army of the Bright Empire has been losing battles recently, knowing oneself and the enemy, and a hundred battles are never broken, even a layman who doesn't know how to lead soldiers to fight.

This Intelligence Department couldn't even determine the position of a general of the Nine Nether Empire, how could Li Dongjun not be angry!

"Waste, all waste!"

Li Dongjun was furious.

"No, sir, don't get angry, this time it's really not our fault! This Fang Yue is different from the other generals of the Jiuyou Empire. Most of his soldiers are idle and hidden everywhere in the southern

province. Gathered on this dark red blood mountain. Fang Yue walks alone and does his own way. The army of the undead summoned by him is used to attack and kill the army of the Bright Empire repeatedly!"

The deputy director of the Intelligence Department directly complained.

This Fang Yue really didn't play cards according to the routine.

When encountering such an enemy, the Intelligence Department is also a headache!

Li Dongjun walked away, personally looking for Fang Yue's whereabouts.

At this time, Fang Yue still didn't know anything about Li Dongjun. The Intelligence Department of the Bright Empire couldn't find Fang Yue's position. It was actually no wonder they were.

Because Fang Yue had already returned to Earth, the intelligence department didn't know Fang Yue's location.

### **Chapter 1332: Explosive merit value**

No matter how big their brains were, they really opened a scoop for themselves, but they couldn't guess that Fang Yue came from a distant galaxy.

Shi Yu came back with Fang Yue.

This time the feats of the two people have basically been exhausted.

Before leaving the earth, Zhang Zhao handed out a merit token to Fang Yue and Shi Yu.

The token contains the power of cause and effect, and the enemies they kill or the people who die because of them will be converted into corresponding merits!

The number of merits on Fang Yue's token now is seven hundred and sixty-two thousand and five hundred and sixty-three merits.

The number shown on Shi Yu's merit token is eighty two nine thousand six hundred merits.

Shi Yu's feats are only a fraction of Fang Yue's.

However, in terms of personal merit, this number is already quite shocking.

After all, what Shiyu did was to continuously overthrow the gathering points of the Bright Empire, if you encounter the army of the Bright Empire, destroy some!

Even if some senior Yin-Yang realm powerhouses are struggling hard, the number of merits won may not be as good as one-tenth of Shi Yu's!

But Fang Yue and Shi Yu didn't show the merits.

This call may not be reliable!

For Zhang Zhao, both Fang Yue and Shi Yu always had a bit of guard.

There is no special reason to guard against others.

When the number on the merit token reaches a certain level, the above will correspondingly enable many functions!

For example, when the number on the merit token reaches 10,000, the first level function of the merit token is unlocked. The first level function is to disguise the number, specify and display any number below the current merit number.

One hundred thousand feats can be connected to the first-level exchange treasure house in the galaxy and exchange more than one hundred thousand common resources.

Millions, tens of millions, and one hundred million have corresponding functions, but Fang Yue hasn't thoroughly studied it yet.

The figure that Fang Yue formulated and displayed was three thousand meritorious services, which could show his value, but it would not be too exaggerated.

The number on Shi Yu's merit token is two thousand six hundred meritorious deeds. As a disciple of the poet, she can't look too weak.

"You two are back? How did you get away!"

Fang Yue and Shi Yu Fengchen returned home, still unwashed hostility.

Joining the army and raising your hand to kill, if there is not a bit of hostility, it is abnormal!

"Three thousand feats!"

Fang Yue directly showed his merit token.

"Not bad!" Zhang Zhao's eyes lit up, which exceeded his Fang Yue's expectations!

Generally, practitioners in the Yin-Yang realm, even if they have extraordinary strength, enter other galaxies to fight for the first time, and they can gain hundreds or even thousands of merits, even if it is quite good!

After all, the time is short and the forces formed by alien creatures crisscross, and it is difficult to find a suitable target to start.

"Two thousand six hundred military merits!"

Shi Yu also showed her own achievements.

This number shocked Zhang Zhao's heart.

Unexpectedly, I really caught a big fish this time.

A Fang Yue is already very good, and now there is another poetry rain.

The combined military merits of the two have a total of five thousand six hundred military merits, which is worthy of the military merits accumulated by an army of 10,000 people in a foreign land!

"Okay, okay, okay, I really am a poet's disciple, and the women don't let the eyebrows. If this result is sent back to the poet, it will definitely shake the senior poets and make the poet's father quite excited!"

Zhang Zhao's attitude towards Shi Yu was obviously flattering.

No way, the form is better than people.

If Shi Yu really has something to do in the Alpha Galaxy, with the poet's short-term character, he will definitely not be spared. Even if he doesn't say anything on the bright side, it can still be done by giving him some color in the dark!

"Two, this time you two's performance is commendable! But the performance of other forces on the earth is also quite eye-catching! They have achieved good results in the killing and expedition, especially a commander in the Western world. , The dragon Clark, he led five thousand elites into the Alpha galaxy and directly conquered a small country with a backward civilization. Not only did he obtain a lot of resources, but he also gained 60,000 military exploits!"

Zhang Zhao said with a smile at Fang Yue and others.

This Clark's record can be regarded as impressive in the influential civilization of the galaxy!

Conquering is more difficult than killing, especially for different civilizations, different races, and different galaxies. Clark's actions made him feel a special civilization charm of this earth.

With the help of their special influence, the golden great apes have raised the evaluation of the entire earth by two small steps. Originally, he thought it was because the Galactic Alliance had overestimated the earth's rating, but now it seems that this is not the case. Overestimation, but an underestimation.

There is a mysterious power in the blood of the people on earth, and with the passage of time, this mysterious power is gradually unfolding and transforming into a bright sun, releasing an unparalleled light!

"Clark!"

Fang Yue chanted the name, but his attention did not stay on the name for too long!

"We ran out of space crack free times this time, and next time we want to enter the Alpha galaxy, we need to purchase access times! However, the creation of this space crack requires one hundred thousand military merits. Even if the two of us add up it's less than one-tenth of this number!"

Fang Yue looked at Zhang Zhao with a smile, and Zhang Zhao felt a little hairy in his heart.

Could it be that Fang Yue has discovered something?

No, this is impossible!

Fang Yue was in this barren land, far away from the core of the Galaxy Alliance.

It is impossible for him to know the inner news of the Galaxy Star Alliance.

"This matter is easy to say. I believe in your potential. I can lend you one hundred thousand military merits. I only need one thousand military merits as interest per month. Of course, if you have some

precious resources in your hands, I can convert them into military merits. I'm a very good person, and I won't embarrass you!"

Zhang Zhao showed a self-righteous smile.

Fang Yue finally understood the purpose and intention of this call.

Tu Qiong sees that this is Zhang Zhao's true goal.

In this way, he deprived them of the spoils of military exploits they had obtained from fighting in blood.

Fang Yue had already had the authority to exchange into the space crack.

It only takes three thousand military exploits to open a space crack.

Unexpectedly, this call turned out to be such a black heart, and opening one's mouth is a hundred thousand military merits.

This makes it difficult for Fang Yue to recognize his sincerity.

"Hehe, Master Zhang Zhao really made a good calculation. The opportunity to open a crack in space that can be exchanged for three thousand military merits actually requires me one hundred thousand military merits, and I need 1,000 military merits as interest every month!"

Fang Yue still smiled.

However, Zhang Zhao showed a ferocious expression.

"Unexpectedly, you really know the inside story with your hands and eyes connected to the sky, but even so, what can you do? I said one hundred thousand military merits is one hundred thousand military merits. If you are not at your level, you can't exchange it with the Galaxy Star Alliance. If you can't enter the Alpha Star Field, you will not be able to complete the tasks set by the Galaxy Alliance, but when the punishment appears, your entire planet will be reduced to an impossible situation!"

Zhang Zhao threatened directly. He tore his face and didn't bother to use any mask to disguise.

In his eyes, Fang Yue is just a mud leg in the wilderness, and he is not worthy of equal treatment!

"It turns out that Master Zhang Zhao is so fierce, it's no wonder that this Galaxy Alliance can rule the entire galaxy!"

There was obviously a bit of sarcasm in Fang Yue's tone.

Zhang Zhao stared, his expression unkind.

"Fang Yue, don't think that you are on this earth. You dare to speak rudely with me if you have some abilities. Our Galaxy Alliance is not a dark moon plane, and it's not something you can resist!"

Fang Yue sneered: "I just want to deal with you, but I don't want to fight against the Galaxy Star Alliance, so it doesn't take that much trouble at all! Three thousand military exploits open the space cracks, and I can act as if nothing happened! And you want to continue like this I'm afraid we won't have any talk about the cooperation between us!"

Fang Yue dismissed Zhang Zhao's threat.

"Cooperation? Why are you talking about cooperation with me? It is a great gift for me to eat meat and give you a sip of soup. Who do you think you are, do you really regard yourself as a hero who saves the Galaxy Star Alliance? To be honest, I am not afraid to tell you that in our eyes a force like yours is a broiler! What a broiler knows? Let others slaughter, life and death are only between our thoughts!"

Zhang Zhao's tone is even more chilling.

Fang Yue was not angry.

"You think we are qualified to negotiate, do you have it now?"

I don't know when, Fang Hua has already appeared behind Fang Yue, and the aura of the leader realm is under pressure to fight against Zhang Zhao.

A touch of fear flashed through Zhang Zhao's eyes.

This Fang Yue really dared to turn his face, and even the powerhouses of the leader realm were invited out!

"not enough!"

However, Zhang Zhao has his own confidence. If he wants to make a leader of the leader realm and let him succumb, this face is still a little too small for him.

"What now?"

Behind Fang Yue, another strong man from the leader realm appeared, the hungry wolf Taoist, with a faint smile on his mouth, but that smile was filled with endless coldness!

Two powerhouses in the master realm!

"Still not enough!"

Zhang Zhao pretended to be strong, but he already had a guilty conscience.

Who with this special code told himself that Fang Yue was in the weakest power?

There are two powerful masters hiding with you!

"So now!"

Behind Fang Yue, an illusory figure slowly emerged.

This illusory figure gives people a feeling like a abyss, and it is impossible to see through it at a glance!

Sage projection!

Zhang Zhao's breathing was a little short.

Sure enough, there is a Saint Realm on this earth, and this Saint is still standing behind Fang Yue!

Zhang Zhao didn't dare to speak easily, for fear of offending the saint.

The strong in the saint realm, even in the Galaxy Star Alliance, are not considered weak.

Just how big is Fang Yue's background, even a saint can be summoned.

Zhang Zhao didn't know that the saint behind Fang Yue was the clone projection of his destruction guard.

The two are originally one, so they can naturally be summoned easily.

"Fang Yue, I know that your origins are not simple. Not only do you have so many strong guards, but also the attention and optimism of the big figures of the Galaxy Bank. However, everything has just passed easily. benefit!"

### **Chapter 1333: reconciliation**

Zhang Zhao's tone finally softened.

Equal strength is equal negotiation.

Fang Yue showed his muscles, and this call had to give in temporarily.

"I didn't want to get into a stalemate with Master Zhang Zhao. After all, you are the messenger of the Galaxy Star Alliance descending on the earth to get into a stalemate with you. I naturally know that there will be no good fruit to eat, but you can't bully me too hard. Otherwise, it will be a dead end anyway, we might as well resist to the end!"

Fang Yue's attitude was quite decisive.

This barefoot man is not afraid of wearing shoes. I have planned for the worst. Who else can you scare?

Zhang Zhao stared, trying to say something, but after pondering for a long time, he finally swallowed the words back.

"This space crack opens five thousand military merits once, this is my bottom line! And besides your direct lineage and Shiyu, if you want to exchange the resources obtained in the Alpha Star Territory into military merits, you must go through my channel. I came here, and it took a lot of money to win this position. It is impossible to really go back empty-handed."

Zhang Zhao compromised.

Five thousand military merits are much cheaper than the previous one hundred thousand military merits.

This is already within a range that Fang Yue can accept. As for the resources obtained by the nearby personnel entering the Alpha Galaxy and giving them to Zhang Zhao to exchange military merits, it has nothing to do with him.

"The profit from the exchange of this item for you cannot exceed 50%! After all, these items are also obtained through hard work. You squeezed too hard, and they may not be willing to exchange the resources in their hands for military merit!"

"Deal!"

Zhang Zhao agreed that this matter has not completely broken through his psychological bottom line.

This truly profitable business has not yet begun. As for the business of space cracks and the exchange of military merits, it is just a little appetizer!

"Earth, the potential displayed today has attracted the attention of some nearby planes. Not only the Dark Moon plane, but other planes have also begun to observe the development of the Earth in secret! During the time you left, the Earth Tianjiao of Tianjiao appeared like bamboo shoots after a rain! Although most of them are at the level of the heaven and earth realm and the rotation realm, they are not yet a climate, but the talent and physique shown by some people are already quite against the sky!

For example, in this scene, there is a young man named Jiang Lin, who is usually mediocre, but he suffered a sneak attack last night and his friend Yuanfeng fell. This Jiang Lin has a great temperament. In an instant, he broke through to the eighth level of the heaven and earth realm, and transformed into an ape-man to capture and tear the sneak attackers who had entered the rotation realm alive! In terms of combat, he showed an extraordinary talent for combat, and his whole body was filled with evil spirits, not weaker than some veterans who had battled. "

Zhang Zhao chatted out a very important news.

Fang Yue's heart sank slightly, and he did not expect Jiang Lin to awaken the Jie Yao brand in his body when he was no longer!

"That's it!"

Fang Yue pretended to be in a daze and didn't reveal too much. At this time, talking to him about these things in this call might be a temptation!

"There is also a young boy named Fang Yunshan. Her talent is equally amazing. Three days ago, at the Wanyuan Biochemical Research Institute, she was attacked and was attacked by a strong man in the Yin-Yang realm from the Dark Moon plane. This Fang Yunshan usually sees There was nothing special about it, but she actually took the palm of the strong man in the Yin-Yang realm and was unharmed, and a puppet of the Yin-Yang realm jumped out from her side to repel the sneak attacker! She also received a lot of attention. A strong man at the peak of the leader of the demon temple of the galaxy came to personally want to accept Fang Yunshan as a disciple, but she refused! This little girl is also a little uninterested, she still does not understand that the demon temple is in the galaxy The significance of ranking in the top ten!"

Zhang Zhao sighed softly.

Fang Yue's voice immediately became a little low.

Jiang Lin was sneak attacked, he can still accept it, after all, it is only his observation target, miss it, miss it.

However, some people dare to play against Yunshan.

The people on the Dark Moon plane are really impatient!

Fang Yue smashed the handle of the wooden chair under his seat, grasped his fist, and the handle immediately turned into powder!

"Zhang Zhao, what you said is true?"

The murderous intent on Fang Yue suddenly leaned out, and the temperature in the whole room dropped by ten degrees.

Zhang Zhao, as a strong man in the master realm, felt a biting cold!

In his heart, he secretly calculated that this evaluation of Fang Yue's strength might be a step up!

"Yes, what I said is true. This Fang Yunshan is surnamed Fang, and Fang Yue is also surnamed Fang. There will be no special relationship between the two of you!"

Zhang Zhao seems to be in hindsight.

But Fang Yue had already got up and left!

"Raksha tribe, it's up to you to help!"

Fang Yue opened his palm, and a blood-colored paper crane broke through the air and left!

"Fang Yue, don't be impulsive, I guess this 80% is a trap!"

Walking hurriedly, Shi Yu caught up with Fang Yue's pace.

Fang Yue's impulsive departure made her really worried that Fang Yue would fall into a trap!

"I don't want to look for them, they dare to provoke me! This time I will let their blood flow in a river, and their corpses will be everywhere!"

Fang Yue's anger soared.

He directly killed the stronghold on the Dark Moon plane closest to the curtain city.

As long as the saint does not come in person, Fang Yunshan should not be in danger for the time being. Fang Yunshan's body has a phantom rune of the highest level of the leader realm given by Fang Yue.

At the critical moment, it can mobilize the phantom protector at the peak of the leader realm.

What Fang Yue wanted was the most direct and violent revenge against the Dark Moon plane.

The best way for this kind of revenge is to kill the men and horses of the Dark Moon plane with corpses all over the field, to make them tremble, and to kill them with fear!

When Fang Yue descended on the stronghold of the Dark Moon plane, they were still drinking and having fun!

In their opinion, as long as they don't take the initiative to attack, the people on Earth must not dare to attack them.

Zuo Xiang is the leader of this stronghold.

He joined the army fifty years ago and has now experienced hundreds of wars.

To be honest, this battle for the conquest of the earth is not the most difficult war he has experienced.

On earth, although he encountered danger, every danger was not deadly enough.

The earth people have some abilities but their foundation is too weak, after all, they still have to succumb under the ravages of the dark moon plane.

Yesterday Zuo Xiang received the above information, saying that he would launch a general attack on the curtain city in three days.

A large number of products of biochemical civilization are hidden in the curtain city.

This biochemical civilization is a civilization system that the Dark Moon plane has never been exposed to, and all unknowns should be killed in the bud.

After today's banquet, Zuo Xiang is about to lead a team of thousands of people to begin infiltration of Mucheng. They want to combine inside and outside, and take the curtain city in the shortest time.

"Mucheng, it's over!"

Zuo Xiang threw the map of the curtain city in his hand into the brazier on the ground.

The fierce flame burned the map to ashes instantly.

There was a smug smile on Zuo Xiang's mouth!

"Is it?"

A cold voice appeared behind Zuo Xiang.

Zuo Xiang's hair exploded!

His neck was stiff and he turned slowly, and then he showed a smile that was uglier than crying.

"Fang Yue!"

no respond.

Only a ray of silver knife light cut across his neck.

The strength of Zuo Xiang's sixth level in the wheel of rotation didn't even have a chance to fight back in front of Fang Yue!

In a different place on his head, a round head landed.

Eyes opened in anger, never squinted!

Fang Yue offered a small white jade cauldron, which floated in the air and buckled down.

A black vortex formed at the mouth of the tripod, like a black hole, and the sudden rush of suction engulfed all the soldiers on the other dark moon planes in the stronghold.

Outside of Zuo Xiang, no one's cultivation base surpassed the third level of the rotation realm.

Living sacrifice.

After a while, Fang Yue left.

There is no vitality in the entire stronghold!

On the Dark Moon plane, a stronghold of a thousand people was pulled out by Fang Yue.

All property in the stronghold was taken away by Fang Yue.

There are a total of 21 similar strongholds around Mucheng.

In order to get rid of the curtain city, the Tianfeng Empire has been deployed for a long time.

These strongholds are their eyes to monitor the curtain city.

In each stronghold, the Tianfeng Empire has invested at least a thousand troops.

On the other hand, Fang Yue was like a \*\*\*\* of death walking around. The twenty-one strongholds around Mucheng were pulled out by him in just half an hour.

When the Dark Moon plane got the news, there were no more than 20,000 people in the stronghold!

At the same time, the news spread throughout the curtain city.

"Really cruel!"

After getting the news, Zhang Zhao gave a two-character evaluation.

You kill my family, I will destroy your family.

In Zhang Zhao's mind, there was a scene of Fang Yue walking with a knife, dripping blood.

Mucheng, in an ancient house, an old man beat his chest and his feet, his eyes were full of bloodshot eyes like a spider web.

"Fang Yue, the old man Yunzhongzi vowed not to share with you!"

Yun Zhongzi roared and roared, it was his game to kill Fang Yunshan, in order to lead Fang Yue and make him panic. He had been staring at Fang Yunshan's residence secretly for almost a few days. He laid a net around the sky, and once Fang Yue played out, he would immediately kill him.

Unexpectedly, this Fang Yue didn't follow the routine. The first thing he did to show up again was to pull out all the strongholds arranged by the Tianfeng Empire around the city.

Twenty thousand horses died of fate, Yun Zhongzi was almost vomiting blood by Fang Yueqi. Fang Yue's choice surprised him, and the fall of tens of thousands of imperial warriors hurt him even more.

The Tianfeng Empire fought in all directions, and the power that could be used on the earth was destined to be limited, and this limited power was redistributed to the small curtain city, and there were not many manpower left.

This loss made Yun Zhongzi feel distressed.

Twenty thousand horses have been lost. If it is in vain, he is afraid that he will be severely punished if he returns to the Tianfeng Empire!

"Well, Fang Yue, you didn't play cards according to the routine. If that's the case, then you can blame me for being ruthless!"

Yun Zhongzi narrowed his eyes and shot directly. He was about to capture Fang Yunshan and let her die in front of Fang Yue, revenge for what Fang Yue did.

Yun Zhongzi walked out of his residence and appeared at the Wanyuan Institute of Biochemistry the next moment.

He stands out of thin air, the cultivation base of the master realm is undisguised!

### **Chapter 1334: The end of the cloud**

"Fang Yunshan, come out! Your brother slaughtered 20,000 elites on my Dark Moon plane, and you have to pay his debts! If you dare not come out, I won't track down your whereabouts, but all the Chinese people in this city will be because of you. And die!"

Yun Zhongzi's voice was filled with cold murderous intent.

This massacre of the people in the city is actually a matter of violation of morality, but Yun Zhongzi is already in a state of madness at this moment and can no longer take care of so much!

"Kill! Just kill! If you can kill one of the people in the city, our surname is Fang Yue!"

A chill fell and enveloped the clouds.

Yun Zhongzi is like falling into an ice cave, and at this moment, he has a feeling of trembling millet!

Fang Yue descended silently.

He also carried nine deadly heads in his hand, and the owner of each head was a strong man in the Yin and Yang realm of the Tianfeng Empire.

They were originally a prince, and their status was quite high in the Dark Moon plane.

Either dominate one party, or the guests of a large power have endless glory and wealth.

But Fang Yue killed them one by one, taking their lives like weeding!

There are a total of nine powerful men in the Yin-Yang realm, none of them survived.

These are the nine masters of the Yin and Yang realm of the Skywind Empire, not any cats and dogs on the roadside.

Yun Zhongzi's hands and feet were cold, and he seemed to be strangling his throat by some force.

"This is the price you paid for provoking me, don't you want to find me? I'm here, you can do it to me!"

Fang Yue's expression was indifferent, and his eyes were as narrow as a knife.

The boiling murderous intent has rendered the whole world, and the dark clouds are billowing like ink stains!

"It seems that the corpses of those golden great apes are not enough to wake you up, not everyone in this world can afford you! They are just the beginning of my revenge, more blood, more bones, It will be the price you pay for recklessness!"

Fang Yue at this moment gave people a feeling of unattainable.

He was originally full of faith, thinking that his cultivation of the master realm was enough to suppress Fang Yue.

At the same time, there are nine Yin-Yang level subordinates in secret, but now it seems that his idea is too simple!

Now even the heads of those nine Yin-Yang-level subordinates were cut off mercilessly by Fang Yue.

His layout was broken, and he himself couldn't guarantee that he would survive smoothly in Fang Yue's hands.

The surrounding world quietly changed and became Fang Yue's domain. The rules were so chaotic that Yunzhongzi couldn't tell.

so horrible!

Yun Zhongzi had never imagined that Fang Yue could be so powerful.

"My dark moon plane's invasion is unstoppable. Sooner or later this planet will become my dark moon plane's bag!"

Yun Zhongzi snarled frantically, the blood in his body burned, and he wanted to break the shackles of Fang Yue's domain and leave.

This Fang Yue is terrible!

He seemed to be the demon \*\*\*\* who came to the world, and he did not belong to this world.

After only getting along for a short time, Yun Zhongzi felt that his spirit had begun to show some signs of collapse.

This is the result of the interlocking oppression of different laws, and is an individual's instinct in awe of the movement of heaven!

"Whether this dark moon plane will eventually invade the earth I don't know, but I know that those who offend me must die. Perhaps one day the earth will really fall under the iron hoof of the dark moon plane, but this day, you have already I can't see it!"

Fang Yue's body is in harmony with the Tao, and it seems that he himself has become a part of the vast heaven.

With gestures, the wind is surging and the sun and the moon are dark.

Yunzhongzi's heart was trembling, trembling.

Only endless regret was surging in his heart. Why did he have to choose Fang Yue as his opponent when his mind was so hot, and he also used Fang Yunshan as a bait to lure Fang Yue out!

"If I were to choose one more time, I would definitely not choose the opponent Yue to start! It's a pity, there is no next time!"

Yun Zhongzi's eyes were dim.

All his vitality gathered in the direction of his chest.

At the location of Yunzhongzi's chest, his clothes shattered and turned into countless fragments, dancing in the air like a butterfly.

There is a brown seed tattoo on Yunzhongzi's chest.

This tattoo is not visible on weekdays, only when Yun Zhongzi is in crisis of life and death.

"Fang Yue, this is my Yunzhongzi's last killer move. I come from the Tianzhi family and raise this sky blue grass as soil. When I die, the vitality in my body will be absorbed by the sky blue grass. Will avenge me, slay and swallow the enemy who killed me! Hahahaha, how good are you even if you are strong? You don't have the horror of the dark moon plane at all, the dark moon plane you touch is just the tip of the iceberg. The real creatures of the Dark Moon plane have completely disappeared thousands of years ago!"

Yun Zhongzi's body continued to wither, and all the flesh and blood in his body was absorbed by that seed!

However, his voice echoed in the void!

Yun Zhongzi showed a crazy side.

After a while, Yun Zhongzi's body turned into ashes and dissipated.

And that seed is sprouted. It gave birth to ninety-nine eighty-one vines. Each vine has the thickness of a baby's arm. It can extend as long as 100 meters. The dark green vines are filled with one. The breath of magic!

"Pop!" With a sound, the vine slapped towards Fang Yue's body, its strength was tremendous.

Fang Yue opened more sideways, but a rock behind him shattered at any time.

The aura pervading this sky blue grass is at least at the level of the leader of the leader.

"This is the taste of the law of life! This plant is beyond the life level of ordinary plants. It takes another extreme evolutionary route. It absorbs the flesh and blood in the host, inherits power, melts the rules, and becomes the leader once born. The level of the environment is extremely high!"

It was not the first time that Fang Yue saw this kind of plant. He even understood the characteristics of this plant.

This kind of plant comes from the destruction of the demons and is clearly recorded in the classics of the Wu family.

This is the seed that breeds demons.

"Life stripped!"

Fang Yue has a special way to deal with this kind of plant.

He has an extremely profound understanding of the laws of life, and when his palm touches this plant life, he feels a strong and incomparable breath of life flowing into his body.

Blue Grass realized the danger that day, as if it had encountered a natural nemesis.

The previous arrogant posture suddenly disappeared. It was like a strong man breaking his wrist, breaking a vine, and Fang Yue took the breath of life from it. The vine withered and then dissipated into ashes.

Afterwards, this sky blue grass gathered up all the vines without saying anything, turned his head and ran.

The sky blue grass ran very fast, and the smoke was already invisible.

Fang Yue was dumbfounded, you are also a plant at the master level.

How can this run without a fight?

What about your morals?

What about your courage?

Fang Yue beat his chest, and watched the sky blue grass leave his field of vision and finally disappear.

The bottom line of Bluegrass this day has exceeded Fang Yue's cognition, forget it, don't chase, anyway, if you can't catch up, let him go.

Fang Yue's attitude towards Sky Blue Grass is very Buddhist!

This day, Blue Grass actually only used Yunzhongzi as its own fertilizer and soil, of course it would not avenge him.

Sky Blue Grass is a \*\*\*\* to destroy the demons, but Fang Yue still doesn't know its true function.

Fang Yue shook off a grass seed on the vine that had absorbed the life essence of the sky blue grass.

He is going to use this grass seed as a research object, cultivate it, and see what purpose this thing has!

Fang Yue became famous in the first battle. A strong master of the Dark Moon plane fell, and the heads of nine masters in the Yin-Yang realm were cut off by him.

This battle shocked the entire curtain city.

Fang Yue attacked the sky retrogradely, beheading the master of the leader realm with the level of Yin and Yang realm.

This battle is going on in Fang Yue's domain, and neither spiritual thoughts nor eyes can penetrate it!

Therefore, no one can see the process of the battle. Some people say that Fang Yue only used external force to kill Yun Zhongzi.

Different people have different opinions on Fang Yue.

Some people say that Fang Yue is a genius with a mysterious origin and strong strength comparable to some arrogant talents in the big world. At the level of Yin and Yang, he can compete with the strong at the master level. If he grows up, he will definitely become the earth pillar.

There were also people who dismissed this statement and sneered at them. They believed that Fang Yue was able to kill Yun Zhongzi completely because he had special means and took advantage of his lack of preparation.

In short, opinions vary.

And Fang Yue didn't care about outside messages.

He sent troops directly and swept the three surrounding counties that had been occupied by the Dark Moon Plane. In each county town, there were 350,000 troops on the Dark Moon Plane.

This Dark Moon plane lacks everything, but there is no shortage of soldiers and warriors at the bottom, even if they are still in a shortage of personnel, they will not hesitate to send heavy troops to guard the occupied city.

Fang Yue's army is even more mighty, full of millions of people, even with a number of people, the garrisons on the Dark Moon plane in these counties can be piled up alive.

Fang Yue's move was like sweeping a hole in a plowing court, without taking prisoners at all. Once the soldiers occupying the city and encountering the Dark Moon plane are slaughtered and cleaned, not even a single hair will be left.

The soaring murderous intent is surging, this is a cruel contest, with endless bones to accumulate the glory of the winner!

"The people on the Dark Moon plane are too much. They violated the rules and slapped my family brutally. This is a warning. If anyone dares to commit the crime again, be careful of the forces behind me incarnate madness!"

Fang Yue let out a word, threatening the forces around the city.

This earth has its own heritage, and there are surviving strong men hiding in the dark. If there is a real chaos, someone will naturally come forward to calm the blood and war.

What Fang Yue needs to care more about is the safety of the people around him. For example, Fang Yunshan, this is his heart and soul, and is his key!

When Fang Yue said this, the world was shaken.

Although there are beacons everywhere on the earth, not many experts at the leader level have fallen.

Practitioners, once they step into the level of the leader, are almost always regarded as overlords of one side. They are high above and beyond the world, and do not participate in wars on weekdays.

### **Chapter 1335: Jiuqiao Linglong Pill**

In ordinary wars, few experts at the leader level have fallen. Generally, the fall of one or two experts at the Yin-Yang realm can already cause shocking waves.

A strong person in the leader realm can easily live for thousands of years, and he can often keep a family prosperous for thousands of years.

Fang Yue actually beheaded a leader of the Dark Moon plane, and the reason was only because the leader of the leader had offended his sister. This reason made many people feel far-fetched and speechless.

Fang Yue's sister, Fang Yunshan, is just a practitioner at the rotation level. Although her talent is good, she is far from being able to compare with a strong master at the master level.

In fact, after reaching the level of the master realm, most people are already quite indifferent in terms of family affection!

Their longevity is too long, and a retreat is the passage of hundreds of years.

Time is enough to dilute everything, especially for those strong in the master realm.

Not to mention the brothers and sisters, even if their descendants fell, they would not care too much, at most they would offer some conditions and ask for some compensation from the other side.

And Fang Yue beheaded Yun Zhongzi because of a Fang Yunshan, this news made the powerhouses of the Dark Moon plane somewhat unacceptable.

But regardless of whether people accept it or not, with the death of Yun Zhongzi, Fang Yue's reputation has risen throughout the earth. Powerful people from different planes know that there is such a number one killer on the earth.

At the same time Zhang Zhao was most stimulated.

"Is this a demonstration to me?" Zhang Zhaozai muttered to himself in a secret room, his eyes were shining, and he was somewhat unacceptable about this matter.

He originally thought that the natives of the earth were a group of Mianyang, and let him take care of it.

But now it seems that in the eyes of others, he is Mianyang. This Fang Yue not only has a saint secretly defending his own combat power level, but also at the level of the leader.

Moreover, Zhang Zhao has successively received the battle reports of Fang Yue and Shiyu in the Alpha Galaxy. The content displayed on the battle report is completely different from what Fang Yue said to himself.

Just when others just entered the Alpha Galaxy and have not yet fully established their foothold.

Fang Yue and Shi Yu are already in a turmoil, and they have created a world of their own.

Fang Yue fought in the Northern War, and the army of the Guangming Empire was completely unable to raise his head.

The dead souls under his men need to be measured in millions, and the accumulated combat achievements are staggering.

It was just that Fang Yue hid his true traces and lowered the number on the token.

But Fang Yue's tricks could deceive him, but they could not deceive the Galactic Alliance's eyeliner in the Alpha Galaxy.

Fang Yue has now been included in the list of key observation objects by the Galaxy Star Alliance. He is a young generation of talent who has performed particularly well in this war across galaxies and civilizations.

If he can continue to dazzle, and if he does not fall in the middle, he is likely to be promoted by the Galaxy Alliance and become a senior general in the Galaxy Alliance in the future.

Of course, Fang Yue's actions are also quite dangerous.

This method of cultivating young people in the Galaxy Alliance is more like raising Gu. Once Fang Yue is listed as a key observation object of the Galaxy Alliance, there will definitely be competitors.

At that time, the competitors around you will be more dangerous than the enemies from the Alpha Galaxy.

Just when Zhang Zhao was speculating and worried about Fang Yue's future.

Fang Yue has already arrived at his residence.

"Master Zhang Zhao, it is not easy for you to come to the earth. There is a little gift here. Please accept Master Zhang Zhao!"

Fang Yue took out a brocade box from the storage bag around his waist, opened the box, and contained a pill.

In the nine orifices of the medicine pill, wisps of fairy aura wafted from each orifice.

Zhang Zhao was immediately stunned when he saw this pill.

"This is the Nine Orifices Linglong Pill?"

Fang Yue smiled and nodded: "I don't have such a precious medicine to offer a Buddha by borrowing flowers. I just killed Yun Zhongzi on the Dark Moon plane and got this kind of thing from him!"

Although the essence of Zhang Zhao's corpse was absorbed by the blue grass that day, the storage bag and armor weapons on his body remained.

If this day, Blue Grass abducted all these things.

Even if it runs to the ends of the world, it will be caught by Fang Yue!

Zhang Zhao greedily glanced at the things Fang Yue sent. He could hear his heart beating in his chest.

This Jiuqiao Linglong Pill is a good thing.

It is worth at least tens of millions or even hundreds of millions of spiritual stones.

And this thing has always been priceless, and only high-level figures in the Galaxy Star League can buy and enjoy it at will.

The Nine Orifices Linglong Pill is a pill specially tailored for the strong masters of the master realm. The master realm is also called the evil realm.

The Earth Demon Realm is worthy of its name. They need to pass through the seventy-two layers of Earth Evil before they can step into the Saint Realm, which is the level of the Tongtian Realm. And this evil spirit is extremely corrosive to the flesh, and most practitioners don't pay much attention to and practice the flesh before the Yin and Yang realm! Even at the level of the Earth Demon Realm, they will use armor magic weapons and other external forces to resist the Earth Demon and reach a higher level.

But this external force is ultimately an external force. Even if these external forces pass through the level of the Earth Evil Realm, they will be at least 30% weaker than those who rely on themselves to pass through.

Therefore, someone invented this Nine Orifices Linglong Pill, which can temper the body after taking it, not weaker than washing the essence in one go!

This Jiuqiao Linglong Pill can be used repeatedly, each time it is used to cleanse the essence.

However, the rich and noble people do not have the capital to repeatedly use the Nine Orifices Linglong Pill to cleanse the essence.

For example, Zhang Zhao don't think he is beautiful in front of outsiders, but inside the Galaxy Star Alliance is a small employee.

After he stepped into the master realm level, he used it to cultivate and upgrade the realm without many resources, such as the precious pill of Jiuqiao Linglong Pill, he even thought about it in his dreams.

Unexpectedly, this Fang Yue actually made his dream come true, and got a nine-aperture exquisite pill!

If he washes his essence once, his own cultivation strength will naturally step onto a new level.

"Fang Yue, I accept your favor!"

When Zhang Zhao looked at Fang Yue, his eyes were grateful.

Fang Yue smiled, this was his method. If he blindly flattered him, the messenger of the Galaxy Star Alliance would definitely despise him, even if he was given a pill, he would think it should be right.

Not only won't be grateful, but will become more and more greedy.

Suppress him for a while and give him some benefits.

This guy will be grateful and convinced.

Human nature is like this. If you are consistently good to a person, that person will think it should be.

But slap in the face and give a sweet jujube to the other party.

"The Galaxy Alliance has recently sent envoys to the Dark Moon Plane, and the Dark Moon Plane will also be fully involved in this Star Wars within a few days, and the Nine Serenity Plane you have chosen is this Dark Moon Plane. One of the goals of the key to descending and conquering! The Dark Moon plane has placed a lot of secrets in the Light Empire and Chaos Sea. Some forces are the chess pieces arranged by the Dark Moon plane earlier."

Give it back.

Zhang Zhao got the benefit, and Fang Yue immediately became friendly. Originally, there were some information that shouldn't be confided easily by Fang Yue, this call was also revealed.

Fang Yue immediately showed a thoughtful expression upon hearing this.

The appearance of wind weather has made Fang Yue aware of the purpose of this dark moon plane!

Moreover, in the process of fighting with the wind, Fang Yue felt that the dark moon plane was not as simple as the surface. The earth has the strength and means to hide for many years, how could the dark moon plane not have it.

The sky blue grass in Yunzhongzi's body is an example. This Dark Moon plane is more likely to have completely taken refuge in the Destruction Demon Race.

If this is the case, this dark moon plane needs to be treated with caution.

The undercurrent surging under the calm ocean is likely to eventually sweep across the entire Galaxy Covenant and make it restless.

"Thank you, sir, for your mention!"

Fang Yue clasped his fist and thanked him.

Zhang Zhao's value lies not in his strength, but in his position and the Galaxy Star Alliance behind him.

His news and contacts are unmatched by Fang Yue!

Although Fang Yue in Galaxy Bank can sometimes buy some news.

However, those news still have a certain lag and are vague.

And if Zhang Zhao's source of news is used as a supplement, Fang Yue's news will definitely be richer and more comprehensive!

"There is a great contribution placed in front of Master Zhang Zhao, Master Zhang Zhao doesn't know if he dares to take it!"

Fang Yue thought about it for a moment, before speaking to Zhang.

Zhang Zhao couldn't help being slightly surprised when he saw Fang Yue's serious appearance.

"What great credit?"

If it weren't for Fang Yue's astonishing strength and a saint-level powerhouse guarding the way, Zhang Zhao would definitely sneer at Fang Yue's mystery.

Fang Yue smiled and said: "This Dark Moon plane hides the Destroyer Demon Race or the Destroyer. I don't know if Master Zhang Zhao dares to claim this credit!"

"Destroyer! Destroy the demons!"

Zhang Zhao's breathing couldn't help but become rapid.

"Could it be that the Ten Thousand Worlds Universe has entered the end of the civilization era again, but they are here again?"

Unexpectedly, this call had been heard by both the Destroyer Demon Race and the Destroyer, and he couldn't help but become nervous when he heard the names of both.

There is no end egg under this covering nest. If the Destroyer and Destroyer Demons appear, this means that the universe of the universe will encounter an irresistible disaster.

And under this disaster, even if he hides in the ends of the world, he will be punishable by the Destroyer and Destroyer Demons!

"Yes, the Destroyer and Destroyer Demons have appeared again, but they should still be in the incubation stage, and have not really appeared! And in the Dark Moon plane I found traces of the Destroyer and Destroyer Demons! If adults can Reporting this news will be a great credit, and this credit is even enough to raise the status of adults by four or five small steps, worthy of hundreds or even thousands of years of struggle!"

Fang Yue's temptation sound was like a devil. He stretched out his palm and pushed it gently to open the door to the greed in Zhao's heart.

Hundreds of years or even thousands of years of struggle, the opportunity to reach the sky in one step!

The light in Zhang Zhao's eyes was uncertain, and he was obviously also struggling with the opportunity to choose in his heart.

If this news is true, once it spreads out, it must be a shocking shock.

The entire Galaxy Star League will be shaken by it, and the Dark Moon plane will inevitably fall into a state of immortality.

And if the news is false, then perhaps what he needs to pay is life!

Therefore, Zhang Zhao was particularly cautious at this moment, but the cautiousness in his heart could not suppress the surge of the flame of greed.

**Chapter 1336: Magic plant**

"Fang Yue, where did you hear the news?"

Zhang Zhao looked around and even set up a barrier to prevent others from eavesdropping!

"My guess!"

Fang Yue's light and fluttering words almost made Zhang Zhao angry.

My net worth is gambled on my life, this matter turned out to be your guess?

Are you kidding me?

If it wasn't because I couldn't beat you, I would have beaten you to death!

"But I have evidence that I guess. This is the scene after I killed Yunzhongzi!"

Fang Yue took out a picture stone, which immediately showed the scene of the blue grass breaking through Yun Zhongzi's body the day after his death.

The scene of the demon growth of the blue grass that day shocked Zhang Zhao.

Fang Yue slowly said, "This kind of demon plant is a master at destroying the demons! And Yun Zhongzi's last words are also thought-provoking. The real Dark Moon plane was actually completely destroyed thousands of years ago. !"

After reading it, Zhang Zhao was silent for a long time.

"Although I know that this Dark Moon plane may have been infiltrated by the Destruction Demon Race, the evidence you showed is simply not enough to show that the Dark Moon Plane has been infiltrated by the Destruction Demon Race! If you submit this shadow stone To the Galaxy Star Alliance, I believe that no one will believe that there is a Destroyed Demon in this dark moon plane!"

Zhang Zhao looked towards Fang Yue.

He stabilized from the previous ups and downs of emotions.

Zhang Zhao knew that people like Fang Yue would not aimlessly.

He said that the Dark Moon plane is tricky, and he must have said so with great confidence.

"I have other evidence, and this is just one of them! But for the remaining evidence, I can't say more and can only provide you with a basis for guessing! This dark moon plane lives according to the plane life I have sensed, If it were really a small plane, it would have died and completely collapsed as early as 1,500 years ago! What I cultivated is the space heaven, and the space heaven is particularly sensitive to things like the plane world!"

Fang Yue's words made Zhang Zhaosheng a terrifying feeling!

"You mean this dark moon plane disappeared as early as 1,500 years ago?"

"Perhaps it has disappeared, or the Dark Moon plane has undergone some positional change!"

Fang Yue's tone is extremely determined!

The more Fang Yue was like this, the more terrifying Zhang Zhao felt.

The plane is not just a weapon, a pill, or a creature visible to the naked eye.

It is vast, unknown, and mysterious, unless it is a profound existence that is studied in space and heaven.

Otherwise, it would be difficult to explain the principle and reason of existence of plane formation!

"Fang Yue is responsible for saying something!"

Zhang Zhao said Fang Yue very seriously.

Fang Yue's inference involves planes, which is already a category outside of Zhang Zhao's knowledge.

If Fang Yue's inference is true, then the plot to destroy the demons is very big, and their layout range exceeds his imagination.

"Have you ever observed, what do these people from the Dark Moon Empire do with the corpses of the earthlings after they kill the earthlings? Sacrifice, sacrifice in one place, inexplicable existence!"

Fang Yue took out a small bronze altar, which was stained with red blood.

The top of the altar was mottled with green rust, causing Zhang Zhao's pupils to shrink slightly.

Although the level of the bronze altar is not high, he can feel the weak and pure aura of destruction on the altar!

The bronze altar itself does not possess any attributes, it is only a vessel that undertakes the sacrificial function.

What can really make this altar have a pure aura of destruction is because it often bears the arrival of unknown existences in another world with the aura of destruction.

"Although this law of destruction is pure, it still cannot prove that the existence it is connected to is the destruction of the demons! In this world, in addition to the destruction of the demons, there are many other masters who have a fairly deep understanding of the power of destruction! "

Zhang Zhao shook his head.

In fact, he believed Fang Yue's statement 80% in his mind.

Various signs indicate that the Dark Moon plane has an affair with the Destruction Demon Race.

But these evidences can convince him, but they can't convince the senior leaders of the Galaxy Alliance.

Fang Yue smiled and said: "I don't want Master Zhang Zhao to convince the senior leaders of the Galaxy Star Alliance through these evidences. I just want Master Zhang Zhao to have a spectrum in his heart!"

"When the Dark Moon plane is confirmed to have an affair with the Destroyed Demon Race, the Destroyed Demon Race in this Dark Moon Plane may be dispatched with an entire army, causing the entire Galaxy Star League to face an unprecedented catastrophe!"

Fang Yue's eyes revealed a deep smell.

Zhang Zhao couldn't figure it out.

What does Fang Yue mean?

However, Fang Yue suddenly changed the subject, as if he was unwilling to entangle on the topic of the Dark Moon plane and the destruction of the demons!

"Master Zhang Zhao, my subordinates are ready to go. This time, I am going to really go to the Alpha galaxy to gain military merit and contribute to the Galaxy Alliance! Therefore, this time I hope Master Alpha will make this space crack longer. Some, at least it can allow dozens of people to pass side by side!"

Fang Yue's jump of thinking made Zhang Zhao a little at a loss.

However, since Fang Yue made the suggestion, he was happy to implement it.

Although Fang Yue bargained, the price of the space crack was reduced to five thousand military merits.

But in fact, even five thousand military exploits are still profitable for Zhang Zhao.

"No problem! But I want to remind you a little bit, the location of this space crack must not be known! Whether it is one end of the earth or the Alpha galaxy, you are all enemies everywhere! Not only the strong hostility of the dark moon plane For you, there are also many old elders from the Golden Great Ape Clan who have come to find you trouble!"

Zhang Zhao reminded Fang Yue.

Fang Yue smiled and said, "I have my own calculations for all this, I only need you to help me open the space cracks!"

Upon seeing this, Zhang Zhao stopped dissuading him.

The next day, Zhang Zhao opened a 30-meter-long space crack in a relatively remote place outside the city, allowing Fang Yue and others to enter the Alpha Star Territory smoothly.

As expected, Fang Yue led five thousand men to come, these five thousand men and horses are all very elite troops on earth.

The weakest person is at the level of the heaven and earth realm, and among the twenty martial artists of the heaven and earth realm, there is a strong person in the rotation realm as the commander!

Such an army, even in the Dark Moon plane, is already an elite!

Fang Yue did not conceal the existence of this team, quite a smell of demonstration!

In a moment, Fang Yue led his subordinates into the space crack and disappeared.

And in the dark, a spy of the Dark Moon plane suddenly poked his head out of the grass, watching from left and right to see that no one found himself, then quietly got up and flew back to the resident of the Dark Moon plane.

At this moment, Qi Song, the commander of the Dark Moon plane, is eating. Compared to complicated Chinese food, he prefers Western food with a little \*\*\*\* taste.

With the knife and fork in his hand, he cut the blood-stained steak on the plate.

The steak is only half cooked, but Qi Song likes this taste!

"Report!"

The spy came and knelt before Qi Song.

"Is there any news?"

Qi Song saw the spies coming, and did not interrupt the rhythm of his meal.

Qi Song believes that this daily meal is the greatest enjoyment!

"The subordinates saw Fang Yue leading the five thousand elites of the earth into the rift in the space, and I don't know if the lord has ordered the pursuit."

"Chasing? Are you not suffering enough? This Fang Yue is so cunning and so daring to enter the cracks of space so violently. He must have made arrangements. Now Fang Yue has almost gained a foothold in the Nine You Empire. , He climbed onto the big tree of the Li family, maybe he set up an ambush at the other end of the space crack!"

Qi Song was still eating his steak slowly.

The cuisine of this earth still has some characteristics.

"Then why do you just watch?"

A dark moon general near Qi Song said anxiously.

He was once Yun Zhongzi's subordinate, and Yun Zhongzi's death greatly stimulated him.

There was a bit of eagerness in his tone.

"Liu Yuan remembers that this barracks is a place of respect and inferiority! I am the coach and you are my generals. When I make decisions, you, as my subordinates, just listen quietly. There is nothing here. Where you are talking! You can't even interfere with any command of my coach! This time you are the first offender, I will forgive you once, and if you repeat it next time, I will never forgive me!"

Qi Song's movements were slow and there was no trace of firework at all.

His chopping of steak is extremely elegant, even the nobles of the empire that never sets in the sun cannot match it!

Qi Song's voice is not loud, but he has a strong sense of oppression and superiority.

Liu Yuan's face was still a little unwilling at first, but soon the unwillingness on his face was replaced by a kind of heartfelt respect.

And no one knows what happened in the middle.

"Remember, our goal this time is to find the underground ruins below the screen city. This will be the top priority of this operation. As for Fang Yue, he is just a clown. This time, the underground ruins of the

screen city are about To the future of the entire Dark Moon plane! If the ruins of this screen city are thoroughly excavated, even if a few more Yunzhongzi are sacrificed?"

Qi Song's eyes suddenly became sharp.

The sharp eyes could almost throw Liu Yuan's heart from the middle.

Liu Yuan's heart shrank suddenly, and a shadow of death enveloped him.

"Yes, my lord!"

Liu Yuan bowed his head deeply.

Qi Song continued to cut the beef under his hands, the knife fell and the cut was smooth as a mirror, and the blood was rolling down!

"This Fang Yue has finally left the earth! Going to the Alpha Star Territory to kill him this time will probably not have so much trouble!"

The hair of a golden great ape is a bit dull, and a few gray hairs are already mixed in those golden hairs.

After he heard the news of Fang Yue's departure, he immediately became excited, and he gritted his fists, wishing to scream from the sky.

His name is Gu Fang, and one of the golden great apes hunted by Fang Yue before is his great-great-great-grandson, and that great-great-grandson is amazingly talented and is very much loved by him. But after coming to the earth to experience, his great-great-grandson was actually killed by Fang Yue!

This made Gu Fang's heart mad with hatred! That's why he dragged his old body out of the clan land to meet Fang Yue for a while.

### **Chapter 1337: Gufang**

Although Gu Fang was old and the blood in his body had begun to decay, his own cultivation had reached the peak of the leader realm, and he had stood in this realm for no less than a hundred years.

He still has four to five hundred years of life available!

If there is no accident, he will sit down in this state.

But before sitting down, Gu Fang wanted to take Shang Yue to bury him!

He had heard of Fang Yue's retrograde record of cutting the sky, but the corners of Gu Fang's mouth sneered, without any fear.

The Yunzhongzi that Fang Yue slaughtered probably just entered this realm for the first time.

The same as the master realm, the difference between this peak and the first entry is like cloud and mud!

This Fang Yue may use some despicable means to kill Yun Zhongzi, but encountering him will definitely be like a mouse encountering a cat.

"This time I will mobilize forty elite members of the Yin and Yang level in the clan. I want Fang Yue and his men to capture all of them alive, and then use the most cruel means to abolish his cultivation base, and gradually he will Torture to death."

Gu Fang's voice is cruel, and Fang Yue's hatred in his heart has long been like flames!

He mobilized his troops and marched towards the crack in the space where Fang Yue was.

In just a few breaths, the forty golden great apes from the Yin-Yang realm have gathered together.

A golden great ape at the top of the leader realm took the lead, followed by forty golden great apes from the Yin-Yang realm.

They swaggered into the curtain city, and many forces from different planes gave birth to a feeling of suffocation.

This family is crazy!

They actually sent so many powerful men to besiege Fang Yue.

If all these people and horses fall, even if they are as powerful as the golden giant apes, they will pay a very heavy price!

Although the golden great ape clan is strong, they rely more on their own blood. There are rare weak people in this clan, but they start at the level of the cycle of adulthood. However, the world is balanced, their ability to reproduce is limited, and the number of tribesmen is small. This time, the golden great ape clan dispatched an old ape at the top of the leader realm and forty golden great apes of the young and middle-aged generation, which is somewhat beyond the understanding of many people.

In fact, the golden great apes have no substantive contradiction with Fang Yue, and some of them can be regarded as a dispute of mood at best.

The dispatch of so many people for some spirit disputes seems to be sending out some different signals.

"This golden great ape clan seems to have begun to decline!"

Hearing this news, Zhang Zhao's immediate reaction was that a shocking change might have taken place within the Golden Great Ape Clan.

This change is enough to make this clan rapidly decline from its peak!

If the golden great ape clan is really still strong, even if they are spoiled, they will not send such a powerful team to chase Fang Yue for a Fang Yue, a battle of will, a strong name!

The only reason for this is that the golden great ape clan has undergone internal changes, and it has begun to decline and cannot be hidden, so it can't wait to use Fang Yue's head to stand up.

Come and use this to tell the people of the Ten Thousand Worlds Universe that even if their golden great apes clan begins to decline, they are still strong and still cannot touch the scales, otherwise, they will become everyone's nightmare!

Zhang Zhao is thinking about the cause of the decline of the golden great apes.

At this time, the people of the Golden Great Ape Clan had already come around the space crack.

Forty golden great apes at the Yin-Yang level actually formed a vaguely encircled posture against him, while Gu Fang walked out alone and bowed to Zhang Zhao.

"The Golden Great Ape Gu Fang pays homage to the messenger of the Galaxy Star Alliance!"

Although Gu Fang's etiquette is in place, his tone is rather blunt!

Zhang Zhao gave Gu Fang a deep look. Then he became an official voice: "I don't know if Master Gu Fang came to enlighten me?"

Strong people who are both in the master realm, call each other adults.

This is a kind of courtesy and respect.

However, in this respect, there is a vague taste of alienation.

Zhang Zhao's attitude is already quite obvious!

"Fang Yue layer killed my golden great ape clan, and even a few strong masters of the leader realm died in his hand! My golden great ape clan also belongs to a group with a face and a face in these ten thousand realms. It is absolutely impossible to let this go. Therefore, I will take advantage of this space crack to hunt down Fang Yue, and use his blood and human head to sacrifice to the deceased warrior of my golden great ape clan! I hope Master Zhang Zhao can be accommodating and let me wait into the space crack !"

Gu Fang gave a stern look and made no secret of his purpose.

He was murderous and terrifying. Even the vegetation around the body was affected and began to wither, almost dead.

"This victory or defeat is a common matter of the military family. As far as I know, this incident was caused by your unruly golden apes. Fang Yue killed the creatures of the golden apes only to maintain the rules of the earth. It is very clear in itself, and there is no need for too much argument! In that case, your revenge is unreasonable! Gu Fang, this is the channel for the battle of the stars opened by my Galaxy Star Alliance. It is not your golden great ape clan for revenge. An ad hoc road! You should know the meaning of this, don't make trouble with me anymore!"

Zhang Zhao sternly refused.

There was a raging flame in Gu Fang's eyes.

"Master Zhang Zhao, you are also a powerful person in this Galaxy Star Alliance. You should understand the principle of the weak eating the strong and the strong respecting! This earth is just a civilization that does not enter the stream. How can their rules restrict our behavior? "

Looking at Zhang Zhao, the ancient Fang was clearly prepared to be unreasonable!

"The life on this earth is dead, and it can't be worth the life of one of my golden great ape clan. This time we can only kill Fang Yue and calm the anger of the clan. We have already made a huge concession! "

Gu Fang's attitude was still tyrannical, even in the face of Zhang Zhao, he refused to give up.

The messengers of the Galaxy Alliance can also be divided into three or six. Ninth class, messengers of the level like Zhang Zhao belong to the lowest level even in the Galaxy Star Alliance!

If you say that you don't like it, this call is completely ridiculous, and the fox is fake!

Such a little guy, even if he is killed, what should he do?

Even if the Galaxy Star Covenant is really pursued, they will give the tracers in the Galaxy Star Covenant a little benefit, and it will naturally be able to reduce major issues and minor issues.

Therefore, it is not because the ancients can be so unscrupulous that they have no confidence.

He despised the people on Earth, and at the same time despised Zhang Zhao who was sent to Earth to act as the messenger of the Galaxy Alliance!

Gu Fang's unscrupulous attitude touched Zhang Zhao's pain point.

The more humble and small he is, the less he wants others to expose his disguise!

"Gu Fang, you are really good! This earth is weak, you can not abide by the rules of the earth, if my Galaxy Star Alliance is weak, can you not even save the face of the Galaxy Star Alliance!"

Zhang Zhao questioned, roaring loudly.

What he said is punishable!

If the ancients dared to admit it, the immediate encirclement and suppression of the Galaxy Star Alliance forces would be ushered in.

And if the ancients say no, then this means that the power and power created by their golden ancient ape clan has disappeared in an instant!

Gu Fang coldly snorted, "This Galaxy Alliance is the Galaxy Alliance, and the Earth is the Earth. The comparison between the two is like the scorching sun in the sky and the rice grains in the earth. The gap between the two is like clouds and mud. language!"

Gu Fang is also an old slippery head, his eyelashes are empty, and his teeth are about to fall out!

The extremely rich experience made it impossible for him to be caught by Zhang Zhao's low-level and clumsy tricks!

"Zhang Zhao, are you giving way or not? I want to warn you that this matter is about the face of my golden ape clan. If you keep blocking it, don't blame me for not giving you face!"

Gu Fang said again in a gloomy threat.

And the forty yin and yang people behind the ancient prescription are all more compact!

Zhang Zhao is still persistent.

"Gufang, I am blocking your way here for the sake of your golden ancient apes. The other end of this space is the unknown Alpha Galaxy. If you step into it, you may not be able to survive and return!"

Zhang Zhao's tone suddenly became soft.

But Gu Fang was quite tough: "Even a small \*\*\*\* like Fang Yue can return smoothly from it. Zhang Zhao, are you saying that even Fang Yue's strength is inferior?"

Gu Fang looked at Zhang Zhao with scorching eyes.

Zhang Zhao sneered: "I didn't mean that. I'm just worried that you have entered beyond the cracks in this space. If something is wrong, your clan will blame me for not blocking you!"

Gu Fang said indifferently: "Naturally you don't have to worry about it. Entering the space crack is my decision. Whether you live or die, you have nothing to do with you! Zhang Zhao, you don't have to delay any more time. I have a handwritten letter here. "

Zhang Zhao suddenly shook his palm.

A piece of golden tissue paper appeared in front of him.

The thin paper unfolded and turned into a huge face.

The faint sage pressure spread, making Zhang Zhao immediately respectful.

"Master Yan Tong don't know what to enlighten me?"

This huge face is surprisingly Yan Tong, the director of the Milky Way Alliance, which is in charge of the solar galaxy.

Yan Tong is a strong man in the Saint Realm. Although he is not Zhang Zhao's direct supervisor, Yan Tong is much higher than Zhang Zhao in terms of status and rank. Secondly, he is a great saint, and Zhang Zhao can't help it. To respect.

Yan Tong said lightly: "The golden giant apes chase and kill the enemy, within the sense of love, cannot be stopped!"

Yan Tong said a few words, and the huge face suddenly disappeared.

Before he dissipated, he didn't even look at Zhang Zhao. It seemed that this call was not enough to be included in the eyes of the law! Zhang Zhao lowered his head and sent Yan Tong away respectfully!

The ancients looked more arrogant towards Zhang Zhao.

"How is it? Master Zhang Zhao, do you still want to stop me from waiting?"

This is a real slap in the face!

Zhang Zhao lowered his eyebrows and said, "Naturally, Master Yan Tong let it go and I will let it go!"

Zhang Zhao gave up half of his position so that Gu Fang and the others could smoothly enter the gap in the space.

Gu Fang swaggered into the gap in the space and quickly disappeared.

But when Gu Fang entered the crack in the space, the corners of his mouth were clearly involuntarily drawn. Twitched.

### **Chapter 1338: An ancient recipe with no tears**

This Yan Tong's manuscript is not that easy to use. Every time you use it, you owe Yan Tong a great favor.

This favor is hard to pay, and I don't know how much it will cost. If it were not for Fang Yue to kill, it would be impossible for him to spend such a large price to let Yan Tong speak in person.

After Gu Fang and others disappeared, Zhang Zhao gradually straightened his spine.

There is no humiliating look on his face, and all this seems to be calculating!

"Unexpectedly, this golden great ape clan can even invite Yan Tong! I hope Fang Yue can successfully defeat the golden great ape clan this time. Otherwise, my previous investment will be in vain!"

Zhang Zhao said to himself, his voice was not loud, but many people were clearly audible.

Many people are horrified.

Could it be that this incident was a killer arranged by Fang Yue and Zhang Zhao from beginning to end?

"who am I?"

"where am I?"

"What am I doing?"

When Gu Fang shuttled through the cracks in space, he was in a daze.

Around him is a hot volcano, the flames are surging and erupting! The surrounding air became distorted by the high temperature of the flame and magma.

As a master at the master level, Gu Fang was able to endure such high temperatures.

But, why are there so many flame creatures in this place!

One head, two heads, three heads...ten heads...fifty heads, each of the flaming creatures is so burly, so tall, and so it gives people a feeling of unrivalled despair in their hearts!

Each of these flame creatures looked so powerful, and their breathing caused the surrounding air to become distorted and chaotic.

Gu Fang was crazy, how could he be teleported to such a Jedi.

Could all this be Fang Yue's conspiracy?

Looking back again, the previous spatial cracks have disappeared, as if they had never existed.

This is a Jedi, destined to have no way out.

"Damn Fang Yue, \*\*\*\* Zhang Zhao, they are actually calculating me together!"

Gu Fang was crazy, his eyes were cracked, and a mouthful of old blood came out of his mouth. At this moment, he already understood the cause of the matter.

Zhang Zhao was deliberately obstructing himself, in order to make himself promise, even if he died in this Alpha Star Territory, it has nothing to do with him.

This Fang Yue, this Zhang Zhao, they are absolutely worthy of death!

Gu Fang's heart was filled with endless hatred. He took out the contact talisman in his hand, the golden ancient ape who just wanted to contact the outside world, and asked them to save himself.

But the rune was taken out, the light was dim, and it had lost its due role.

Gu Fang's heart was slightly startled, this talisman was a secret treasure of their clan, even if it was hundreds of millions of light-years away, it could communicate with each other across the entire universe.

Could it be said that this Zhao and Fang Yue have even calculated this point?

Before Gu Fang could understand, the surrounding flame monsters had already been culled.

These flame monsters don't have any reason, as long as they see the flesh and blood creatures around them, they will bite wildly, swallowing their flesh and blood and transform them into a continuous flow of flesh and blood energy.

Every element monster is killed, leaving behind a crystal nucleus filled with flame power.

The flame element in this crystal nucleus is extremely rich, and the higher the cultivation level, the more the energy in the flame creature crystal nucleus is.

A thought faintly flashed in Gu Fang's mind, but that thought passed by instantly like a meteor, so Gu Fang didn't catch it in time.

Gu Fang led his subordinates to slaughter the surrounding flame creatures.

After all, a strong master in the leader realm led forty men of the Yin and Yang realm to kill these flame creatures with ease.

The realm of each flame creature is quite high. Even the newly born flame creatures have at least a rotation realm. The slightly stronger flame creatures are at the Yin-Yang realm, and some flame creatures have reached the level. At the level of the master realm, although it is much weaker than the ancient Fang's strength, but there are too many ants to kill the elephant, and in front of such an endless flame creature, even the ancient Fang feels extremely difficult!

The continuous battle was endless. One day and one night, the side of the golden great ape finally suffered quite tragic casualties.

The flame creatures from the three-headed master realm teamed up to entangle the ancient Fang, and then the other two flame creatures from the master realm attacked Gu Fang's men.

Gu Fang was unable to get away, and his forty yin and yang level subordinates had already become exhausted after the day and night of the battle, and they were unable to resist the joint killing of the two masters of the master realm, and finally in despair. The flame creatures who fell one after another with the two leaders of the leader level fought a loss for both, and then burst their own bodies one after another with a roar, and died tragically. These golden ancient apes are definitely hard-tempered existences, each of them would rather die in battle than surrender, and they are even more reluctant to leave their own flesh and blood for the enemy and let them increase their strength.

Especially the final self-destruction, there is a very song and tearful taste.

"It's a pity that a group of golden great apes, I thought they were just arrogant and hard to train, but I didn't expect to have such courage!" Fang Yue's voice floated in the flames.

Gu Fang, who was still suffering under the siege of the Golden Great Ape at the level of the three-headed leader, immediately showed a big expression of deep hatred. It was this Fang Yue who was plotting against them and deliberately set a trap to let them enter the urn. If it weren't for Fang Yue's establishment, they might still sing, dance, and sing in the clan. All are Fang Yue, all are this guy! Obviously it was the ancient Fang who used strong words to chase Fang Yue, but now he hates Fang Yue's counterattack and calculations. This is the ugliness of human nature. Everyone is defending their justice and beliefs but never knows how to reflect and think deeply.

"I don't need you to evaluate my golden great ape clan! Fang Yue, you actually set a trap to entrap us, you are causing trouble on the entire earth! If this matter spreads out, your entire earth will be flattened by my golden great ape clan. turn."

Gu Fang spoke, a breath of bad breath in his chest.

However, the ancient Fang Fang Yue got angry, and the three-headed flame creature at the master level did not stop his actions.

These three flaming creatures regard the ancients as their lifelong enemies, and they will not give up regardless of life or death!

Fang Yue glanced at Gu Fang.

Under the siege of the three-headed master realm, he gradually lost support, and exhausted all means could not resist the momentum of defeat.

On the other hand, Fang Yue seemed to be walking in the back garden of his home, relaxed and comfortable.

Gu Fang stared, vomiting blood.

"I was besieged by flame creatures, why are you all right?"

Fang Yue glanced at Gu Fang: "If I had something to do, would I still set up traps here to wait for you to enter the urn? My understanding of the Avenue of Flames is completely beyond your imagination! In the feelings of these flame creatures, I actually Is it their companion, or a fire!"

Fang Yue's words made the ancient Fang vomit more blood and vomit. Is there such an operation?

Fang Yue, my mother of grass mud!

You have been calculating me a long time ago!

"Fang Yue, my ancient prescription will not kill you, and I will swear not to be a man!" Gu Fang roared, his blood surged, and his secret technique was used, and the lifespan in his body suddenly decreased for a full 100 years. His hair was even darker, and his white long hair sprang out like weeds, but after the secretary used it, Gu Fang's strength increased by more than a few. He suddenly escaped from the encirclement of the three flame creatures. Yue suddenly started.

This time, Gu Fang really spared his life. He had already decayed his energy and blood, and his life was not much. Every day, he wanted to break into two pieces to use, but this time his opponent Yue used it. Lost a full hundred years of precious lifespan, even if he defeated Fang Yue this time and successfully escaped to heaven, it is estimated that the rest of the day will only be able to survive!

Gu Fang suddenly jumped out of the flame creatures, opened his arms and claws, and slaughtered in Fang Yue's direction. There was a burst of light in his eyes, and his own cultivation base grew like a volcanic eruption. . At this moment, he is comparable to a saint in this world, standing upright, giving people an unmatched feeling, every breath is extremely heavy, as if he can spew a fire dragon!

"Is this the legendary fire-eye golden eye? It is said that only a few ape creatures can cultivate this magical power! Fire-eye golden eye can unlock its own treasure at the moment of opening, and its cultivation level is increased several times, but its consumption is also quite huge. , If you don't have an absolutely powerful physique, I'm afraid it will take at least 70 to 80 years to fully recover and cultivate after opening the golden eyes. Old guy, how many years do you have after burning a hundred years of life? The vitality of this physical body has decayed, can it still restore its lifespan?"

The taunt mode directly opened by Fang Yue.

"Your ancient prescription is very powerful, but now you are still in peace, and your life is not much. If you don't go home to take care of your grandson, come here with me!"

Gu Fang remained silent, he shot directly, his soles fell, and the earth cracked. The flame creatures of the three-headed leader realm who had besieged him before jumped to pieces, turning into strands of blue smoke and disappearing in the wind!

Although his vitality is greatly injured now, after using the secret method, he is comparable to a saint.

Gu Fang has already seen through that his only vitality lies in Fang Yue. Since Fang Yue can enter here, he will definitely have a way to leave. If he can't catch Fang Yue, he will definitely be trapped here. At that time, Even if he wanted to break out, he couldn't do it.

Therefore, the ancient Fang had to give him a fatal blow while Fang Yue was still there.

Even if it is to pay some price, it will not hesitate.

But Fang Yue's thoughts about Gu Fang have long seen how he could be easily caught!

Ancient Fang's eyes glowed, and the two red golden rays of the fiery golden eyes directly hit Fang Yue's body.

Fang Yue's body evaporates quickly, being penetrated straight through, without even a trace of obstruction!

Seeing this scene, the ancients didn't feel the pleasure of revenge and hatred, but instead made a thud in his heart, and the secret path was not good.

This Fang Yue is cunning and unpredictable. It is absolutely impossible to be killed by him so easily. The only possibility is that what he just killed was not Fang Yue's deity, but a phantom body.

### **Chapter 1339: Dead end**

Sure enough, after the two beams of light dissipated.

Fang Yue's figure condensed again.

"I said Gu Fang, you shouldn't have such a big temper! If this person is old, he should cultivate his character, maybe he can live a little more years! People like you have such a big temper and don't pay attention to their emotions. Body, no wonder you grow old so fast!"

Fang Yue's mouth was quite owed, and Gu Fang wanted to kill people after hearing this.

But he could do nothing about Fang Yue. At this time, the ancient Fang had noticed that there was a small formation at Fang Yue's feet that could show his projection.

And Fang Yue's deity might already be outside the world of billions.

He was calculated by Fang Yue this time! Suddenly a feeling of old and sad, dead end came out of my heart.

"Fang Yue, what do you want? Let me go. How about the grievances of our golden great apes this time being wiped out by you?"

Although his life is not much, Gu Fang still doesn't want to die!

He was originally the pride of the golden great apes, and he was only half a step away from the level of the real saint.

Although he would never be able to touch that mysterious and powerful realm in his entire life, he was still a powerhouse at the peak of the leader realm. With the help of the secret medicine of the golden great ape clan and some special methods, he can still survive for at least a thousand years!

"I don't believe a punctuation mark about your golden great apes! If I let you go, I will release the tiger back to the mountain. When you return to the golden great apes clan, you will definitely mobilize more people to kill me!" Fang Yue sneered at what Gu Fang said!

Gu Fang said tremblingly: "I can swear by your heart demon! The heart demon's oath is the heaviest oath of a practitioner. If you don't even believe this, I can't help it!"

Gu Fang never thought that one day, in order to be able to survive, he would be so lowly pleading for a junior he simply looked down on.

Fang Yue slowly shook his head: "There is no need for me to reconcile with your golden great ape clan, because your golden great ape clan will soon be over! I can already feel the trace of destruction in your bloodline is gradually Resuscitation! I really didn't expect that the dignified golden great ape clan is well-known in this world. In order to pursue strength, you have merged the blood of the Destroyed Demons in your body! If the order of the universe is in balance, This destroying the blood of the demon clan will only provide you with a steady flow of power, but the balance of the universe of the universe has been completely broken. Your golden great ape clan has been bitten by this blood, and the power of the blood has become more and more weak, even up Not as good as before!"

Fang Yue ridiculed that he took the corpses of those golden great apes back to study it.

He was surprised to find that these golden giant apes were taking risks in pursuit of powerful power, and the power of purifying the bloodline of destroying the demons was integrated into their own bloodline!

This is a dangerous thing. Blood is one of the most mysterious aspects between heaven and earth. It is full of unknowns. No one dares to say that they have truly understood the truth of the mystery of blood. reason!

And these golden great apes dare to experiment with their own bodies, and use the blood of the destruction demons to achieve overall evolution and transition.

But those who came out always have to pay it back. After millions of years of prosperity, what they have to face is the blood backlash that destroys the demons.

Gu Fang looked at Fang Yue, his eyes were no longer hatred, contempt, resentment, but deep fear and unbelievable.

The mystery of the bloodline of the Golden Great Ape Clan is the biggest secret of their clan, even though he couldn't hide it after the bloodline of the Golden Great Ape Clan began to change recently, and was told a little bit of the content.

Even as an elder at the top level of the leader of the Golden Great Ape Clan, Fang Yue did not know more about the mystery of the bloodline of the Golden Great Ape Clan!

What is the origin of this Fang Yue? How could it be so terrifying!

Gu Fang even had an urge to kneel down, and wanted Fang Yue to give them a way out.

Of course, this was just his impulse. Gu Fang really calmed down and understood that it was easy to discover the root cause of the bloodline variation of the Golden Great Ape clan, but it was almost impossible to find a solution.

This is because when they began to merge the bloodline of the Demon Race, they expected that one day would end today, and countless sages and wise men in the Golden Great Ape family have always been

studying ways to break the game, but until now , They still haven't made any progress, so many sages of the golden great ape clan are helpless, how can such a humble Fang Yue find the right answer.

"Fang Yue, I didn't expect you to have learned such a profound secret, but you still know too little about the universe of the ten thousand worlds, and you don't even have the fur. The most dangerous thing is not our golden great ape family, but Your earth is one line! In order to evolve the most amazing civilization, the earth has forcibly merged several different civilization systems. Although the branches of several civilizations have disappeared in history, they will come back one day! There are also those peerless powerhouses on the earth who have fallen asleep and don't know how many years, they will also appear in this era! The moment they appeared, when the earth was completely involved in the disputes of the universe, it was like It's you who have no background and helplessness. No matter how amazing you are, you can't escape the danger of being strangled and fallen in battle! The torrent of history will eventually overwhelm you. Only then did you understand what powerlessness is , What is true despair! Hahahaha!"

Gu Fang knew that he had no hope of getting out of trouble, so he simply planted a seed of fear in Fang Yue's heart with words.

Gu Fang didn't know much about the earth, but he understood that the earth was not as simple as it seemed!

The existence of Fang Yue is just the pride of an era in the process of the earth's recovery. As the earth's recovery accelerates, Fang Yue will eventually lose attention to his fate and become a bleak dust.

Fang Yue was not in a hurry, anyway, he was consuming the strength and vitality in Gu Fang. It would be a great reward if he could learn some ancient Xin Mi during the chat.

So since Gu Fang was willing to chat, Fang Yue didn't mind chatting with him.

"This matter is not for you to worry about! Actually, I am not the son of the destiny of the earth in this era, nor is it a robbery, a robbery of a demon, I do not have the attention of the destiny of the earth. So even if this era passes, it will not have much impact on me!"

Fang Yue smiled, and the smile on Gu Fang's face gradually reduced.

"Impossible, impossible! If you are not the destiny of the earth generation, how can you have such a powerful formation power and such a powerful cultivation base at such an age?"

The instinctive ancient Fang did not want to believe what Fang Yue said.

He would rather believe that he was defeated in the hands of fate than that he was defeated by an ordinary earth kid.

"Do I still have to lie to you at this time? You can feel it in me, but with the blessing of the earth's destiny? Actually, to be honest, I would also like to be a child of destiny or a robbery, after all. That is the blessing of the entire planet's air transport. Although it is only a short period of time, it represents abundant resources and a large number of opportunities for growth. There is more strength and more possibility of self-protection! But unfortunately, I do not The love and choice without the luck of the earth!"

The more Fang Yue said, the more it made Gu Fang's self-esteem unbearable.

In the end he spouted a mouthful of blood, and he was so angry that his heart was broken, and coupled with the forcible use of secret techniques, the whole person fell instantly!

Gu Fang's body fell down, his eyes staring furiously.

A powerful man at the pinnacle of the master realm was actually maddened by Fang Yue. If this matter spreads out, it is estimated that Fang Yue will immediately become famous!

The corpse of Gu Fang was taken away by Fang Yue, and even the corpses of the forty golden great apes before were handed over respectfully by flame creatures.

Afterwards, a huge figure appeared in this flame world.

This figure is indeed the figure of the flame queen Fang Yue once encountered in the Samsara Tower!

She is the real master of this world, even if it is just a projection of will, it can make thousands of flame creatures surrender.

"You have been recognized by my original will and become my spokesperson! You can drive any practitioners below the saint level in this flame world. And all the flame creatures above the saint level have born their own wills. , They stay away from you, but if you want them to help, you have to pay the price that interests them!"

The voice of the Flame Queen is majestic.

Fang Yue stood in front of him and bowed slightly to show respect.

Fang Yue was able to enter this flame world, it was not because of his profound understanding of the law of flame that he pretended to be himself in the flame world.

In the world of flames, there is no such thing as one!

How did these flame creatures grow up?

Isn't it by swallowing each other and killing each other?

Therefore, what Fang Yue said are all lie, and what he really relies on in this flame world is the favor of the flame queen!

Of course, there has never been unprovoked love in this world, and no unprovoked hatred!

"The Flame Queen, this is a little bit of disrespect for me! I hope the Queen will accept it!"

Fang Yue presented a brocade box, which contained a hundred pieces of the law of flame.

"Since you have this mindset, it is also rare, so I will have this gift!"

The Flame Queen nodded slightly, and the brocade box in Fang Yue's hand immediately disappeared! The Flame Queen in this world is the absolute master, and she can take away the brocade box in Fang Yue's hand with a single thought.

**Chapter 1340: Conditions of the Fire Queen**

The fragments of the law of fire still have some reference value for the Queen of Fire.

Although she has powerful and complicated laws of fire, those things are innate and instinct. In fact, the Queen of Fire does not have the slightest understanding of the laws of fire.

With the help of these fragments of the law of flame, she can study the composition of the law of flame, and the application of the law of flame can be more commanding, smooth and natural!

After the Flame Queen handed Fang Yue's law fragments, Fang Yue's attitude became more amiable.

The flame queen belongs to the creatures who are the elemental life system.

The creatures of the elemental life system of the era have competed with Fang Yue for the dominance of the universe and have had extremely fierce wars!

In the end, after millions of years of long war, the creatures of the elemental line were finally lost and defeated.

They eventually retreated, occupying less than one percent of the world planes in the ten thousand realms and became their final territory.

Elemental creatures generally don't easily set foot on the territory of flesh and blood, so the fragments of this law are also quite rare for the Fire Queen.

"You take away all the corpses of these golden great apes and their wealth, but you have to keep all the jade slips and books on them, and other things that record information from the outside world! This flame world has been sealed off from the outside world for too long. Over the years, I need to understand the current situation in the universe of Ten Thousand Worlds!"

The Flame Queen made a condition.

Fang Yue directly responded. These things may be precious to the Flame Queen, but in Fang Yue's eyes, they are all the least valuable things. Since the Flame Queen likes them, then take them all.

However, this Queen of Fire is still thinking about moving, is she ready to go to the realm of flesh and blood?

For so many years, this world of flames has been shut down and no one has stepped out of this world, and the queen of flames is too lazy to inquire about the situation of the universe. And now she is interested, which undoubtedly represents a signal, a signal that an elemental creature may reappear in the universe of the universe!

Fang Yue's thoughts turned around, but none of his thoughts could escape the eyes of the Flame Queen.

The Flame Queen has lived for so many years, with a delicate mind and insight into world affairs.

"No more guessing, these ten thousand worlds will be chaotic, and elemental creatures will come to the world again! As for this specific camp and attitude towards flesh and blood creatures, it is hard to say,

but it will definitely destroy the demons! You have me the Fire Queen! As long as it's not doing too much, ordinary elemental creatures will still give me a bit of thin face and won't move you!"

The Flame Queen saw through Fang Yue's mind.

Fang Yue is not embarrassed either!

He clasped his fists again and said, "Thank you for the protection of the Queen of Flames! The kid has a small profit to give to the Queen, and I hope that the Queen will not dislike it!"

Fang Yue handed out a delicate small porcelain bottle again.

The Flame Queen was a little surprised.

"You still have gifts? There are many surprises today!"

The Flame Queen didn't care. As the master of the flame world, she had never seen any kind of treasure.

In fact, even if it was the one hundred fragments of the law that Fang Yue gave her just now, she just thought it was the icing on the cake, and she was bored to observe it on weekdays, and she didn't feel much heartbeat!

The flame queen's gaze swept away, and the delicate small porcelain bottle in Fang Yue's hand disappeared!

But when she opened the porcelain bottle, her eyes instantly solidified.

"this is....."

She didn't even recognize the contents of the small porcelain bottle.

There are ten wisps of gray, chaotic, obscure, and mysterious, even if she is the Queen of Flames, she can't figure out its source and heels!

You know, she is the Queen of Flames, she has existed hundreds of millions of years ago!

At that time, the flesh and blood creatures and elementary creatures were still in the era of peaceful coexistence, and she also had a good understanding of the things that flesh and blood creatures had researched!

"This thing I will call it the air of reincarnation for the time being, in which there are three different powers of death, life, and soul, and the three mutually reproduce, which is the formation of this air of reincarnation! With this air of reincarnation, the Queen may be able to Evolve a flesh and blood clone that is absolutely compatible with the soul, and there will be no ills of robbing the house! If the Queen wants to see the situation in the realm of flesh and blood, no one will find her true identity!"

The ten wisps of cycling air sent by Fang Yue made the Flame Queen immediately moved.

Such a precious thing, even if the Flame Queen doesn't ask the source, she knows that it won't come easily.

It is almost impossible for elemental creatures to have flesh and blood, because the two cannot be regarded as a biological category at all.

Even if it is to seize the house, the flesh and blood creatures can't withstand the special power of the element creatures, and the slightest use of some means will cause the flesh to collapse and be wiped out.

However, Fang Yue's revolving aura gave the Flame Queen a glimmer of hope, which was equivalent to letting some of her spiritual thoughts step into reincarnation, creating a special body that matched her strength!

"Fang Yue, if these ten wisps of revolving energy can make merit, I will give you my true discipleship, teach you how to use flames, and let you truly understand the true meaning of the power of flames!"

The Flame Queen can be said to be quite excited.

Elemental creatures are born and powerful, and once they become adults, they will have a deep understanding of the corresponding laws.

But their starting point is high, but their growth is extremely slow, often thousands of years of comprehension and practice are not worth the effort of a year of hard work for flesh and blood creatures!

And flesh and blood creatures, although the starting point is low when they are born, the space for growth is extremely huge. For example, human races are not even considered as practitioners when they are young, but many human geniuses can become powerful in the realm of saints within a thousand years of time. Who transcends many elemental creatures!

"Thank you for the Queen of Flames!"

Fang Yue knew that his mission was completed!

His real purpose is not to deal with these golden great apes, some golden great apes, the top leader is only the level of the leader of the leader, if he really wants to kill the ancient Fang, it is easy, but the existence of the flame queen is better than the ancient Fang More important.

This Lord Flame Queen, the deity is already standing at the tip of the Pyramid of Ten Thousand Realms! Fang Yue came into contact with the Fire Queen in this way, and tried hard to win the favor of the Fire Queen is his true original intention!

If the strength of the two sides is not equal, the thing of human relationship will naturally become thinner and thinner.

However, if the two parties can provide value to each other, the process of such exchanges will allow both parties to forge an extremely strong alliance and friendship.

Fang Yue exchanged a few words before leaving.

As long as he is here this time to plant the next seed of cooperation!

The future Ten Thousand Worlds Universe will be extremely chaotic, and what Fang Yue has to do is to lay the groundwork as much as possible under this chaos, whether it is useful or not.

After leaving the flame world, Fang Yue did not immediately go to the Jiuyou plane.

There shouldn't be any major problems with Shiyu on this Nine Serenity Plane temporarily sitting here!

Fang Yue chose to return to the curtain city to welcome the crazy rainstorm on the Dark Moon plane.

Fang Yue beheaded Yun Zhongzi, and beheaded the army of the strongholds arranged by the Dark Moon Plane around the curtain city. It is absolutely impossible for the Dark Moon Plane to retreat so easily.

The plan they made must be completed, otherwise, what status does their Dark Moon plane have in the ten thousand realms, majesty?

Fang Yue returned safely.

Let the curtain city cause a lot of shock.

On that day, Zhang Zhao, under the pressure of the golden giant ape, cleared the gap in space and allowed Gu Fang and the other golden giant apes to enter it, chasing and killing Fang Yue, which was actually on the earth, causing a lot of waves and vibrations!

Unexpectedly, Fang Yue reappeared in the curtain city the next day.

He didn't seem to travel to Alpha Star Field.

But Gu Fang and others have no news, and even many people with more sensitive information. They already know that in the ancestral hall of the golden ancient ape clan, the jade slips that represent the life and death of Gu Fang and others have all been broken. Buried in a foreign land!

Fang Yue's reputation is once again mastered.

He is simply a ghost-like existence!

An aboriginal from an influential civilization has such magical powers to kill the strong masters in the leader realm one after another. This time the ancient ape and others even directly destroyed the group, and there was not even a person who came back to report!

Fang Yue pretended not to know this matter.

It seems that he didn't even know that Gu Fang was chasing him down!

But Fang Yue was able to hide for a lifetime, but he couldn't.

Soon after Fang Yue returned to Earth, he was called for questioning by Yan Tong.

Yan Tong did not come from the real body, he just descended on a puppet incarnation at the level of the leader.

It is said that Yan Tong has a total of nine puppet incarnations of the master realm level, sitting on the nine planets of the solar system.

The people on Earth expelled Pluto from the household registration of the nine planets, but the Milky Way Alliance did not divide the planets of the solar system in the way of people on Earth!

This puppet clone at the master level is a clone carefully refined by Yan Tong. It is said to be able to condemn the powerhouse of the ordinary saint without any damage!

"Fang Yue, where is Gu Fang?"

Yan Tong is straightforward, without any politeness or cover-ups at all.

Previously, he came forward on behalf of Gu Fang and ordered Zhang Zhao to let go of the space crack's access authority and let Gu Fang and others enter it, according to the relationship between Fang Yue and Zhang Zhao.

This Fang Yue must have figured out the causes and consequences of the whole thing!

So now even if Yan Tong pretends to be a good person, Fang Yue will not believe it!

Yan Tong's puppet clone is a burly figure, about two meters in height, with extremely strong muscles, and a light brown hair on his body.

This puppet clone was refined from the remains of a humanoid creature of unknown race, and inherited some of the characteristics and magical powers of that humanoid creature of unknown race.

"Gu Fang? Who is Gu Fang?"

Fang Yue asked ignorantly.

Yan Tong looked bad.

This kid is simply a rascal, dare to do it or not!

Do you dare to say that you came back safely, and Gu Fang and others died tragically, there is no joint arrangement between you and Zhang Zhao?

"presumptuous!"

Yan Tong slapped the case, and the earthquake trembled.

He was furious and snarled at Fang Yue.

He hates such people who pretend to be crazy and behave stupid most.

Real man, dare to be dare!

"My lord, I really don't know who this ancient party is? Would you like to remind me?"

Yan Tong's beard blowing and staring, for the old fritters like Fang Yue, it is useless at all!
