

God of Life 1341

Chapter 1341: The ending of Yan Tong

This confession is lenient, sits in prison, resists strictly, and goes home for the New Year.

Some things are typical for the courageous and starve to death.

Fang Yue's aggrieved expression made Yan Tong even more hateful.

He thought to himself, how did this golden great ape clan provoke such a celebrity.

Based on his years of experience in handling cases, he will quickly determine that Fang Yue is a repeat offender.

Such people use ordinary methods, intimidation, inducement, threats, etc., basically of no use.

If this is the case, then simply and rudely, convict Fang Yue, put him to death, and give an explanation to the golden great apes.

Over the years, he has been in charge of the solar system, using his power to kill many people.

The wrongdoer was handled by the enemy, but no one dared to do anything to him.

Yan Tong's heart was flat, and his attitude towards Fang Yue was even more indifferent.

"Fang Yue, you murdered the golden giant ape clan ancient Fang and other strong men, the evidence is solid, whether you admit it or not, you will be sentenced to death!"

Yan Tong's tone changed suddenly.

Originally, he wanted to follow the rules, but now, Yan Tong feels that it is no longer necessary!

After disposing of this Fang Yue, the favor he owed to the golden great ape clan was basically paid off!

The corner of Fang Yue's mouth suddenly curled up with a strange smile.

"Master Yan Tong is sure he wants to avenge the golden great apes?"

"Yes, the golden great apes are the pillars of my universe. Their ancestors have made great contributions to the Galaxy Star Alliance. Their children and grandchildren cannot die in vain! Their blood cannot be shed in vain!"

Yan Tong suddenly said this matter extremely high, extremely important, and even Fang Yue could see a trace of holy light on his face!

"Master Yan Tong is really a noble sentiment! Fang Yue is really convinced!"

The sarcasm in Fang Yue's tone was extremely rich, and he didn't even cover it up. Since he had already torn his skin, there was no need to cover it up!

"Fang Yue, what do you mean? Do you think what I said is wrong?"

Yan Tong suddenly had a faint heart palpitations at this moment.

Something is wrong, something is wrong!

Why I have already seen it in a hurry, this Fang Yue is still so calm, so unmoved.

At this time, Fang Yue should be furious!

It should be furious!

"Yan Tong, you have colluded with the Golden Great Ape and rebelled against the Ten Thousand Realms. I declare that you have been arrested!"

An indifferent voice appeared out of thin air.

The void was torn apart, and a figure in silver law enforcement armor appeared.

Yan Tong's eyes widened, almost asphyxiated.

"The Law Enforcer of the Galaxy Star Alliance? Why did you appear here? And when did I collude with the Golden Great Ape to rebel against the Ten Thousand Realms! I didn't have it, I didn't!"

Yan Tong almost roared hysterically.

The law enforcers of the Galaxy Star Alliance, how could they come to the door?

All the law enforcement officers of the Galaxy Star Alliance are selfless and ruthless! They are the eternal nightmare of almost all members of the Galaxy Alliance!

"Fang Yue has entrusted Zhang Zhao to hand over the golden giant ape's corpse. It is preliminarily determined that the bloodline of the golden giant ape contains the aura of destruction of the demons. The evidence is like a mountain, and there is no room for beaks, and you just wanted to remove Fang for the golden ape. Yue can be judged as colluding with the golden great ape to wipe out dissidents for him!"

The law enforcers of the Galaxy Star Alliance made things clear and clear!

Yan Tong fainted almost instantly!

It turned out that Fang Yue was waiting for him here!

This little beast set a trap to harm him! And that Zhang Zhao is also unforgivable. Damn, damn, **** them all!

Yan Tong looked at Fang Yue, his eyes full of anger.

"Fang Yue, wait for me, I won't let you go!"

Yan Tong's figure faded and disappeared gradually.

As the highest in charge of the Galaxy Alliance in the solar system, Yan Tong has almost unimaginable resources.

He also studied very thoroughly the methods of life-saving.

The law enforcement officer of the Galaxy Star Alliance sneered and pointed his finger.

The surrounding space actually solidified instantly!

Yan Tong's constantly imaginary figure became real again, and Fang Yue noticed that there was a silver ring on the index finger of the left hand of the law enforcement officer of the Galaxy Star Alliance.

The ring is shining and solidifies the space!

This is actually a product of technological civilization!

Yan Tong was horrified. This blurring technique was a new method he researched at infinite cost, and it was used to save his life at the critical moment.

Although this is just a puppet clone, its combat power is comparable to that of a saint, and it is equally terrifying, so he must keep it!

Unexpectedly, his years of research results were like a kid's trick in front of this law enforcement officer, which was easily punctured.

The secret technique fails.

Yan Tong was taken away by law enforcers.

It is a great sin to rebel against the world and collude to destroy the demons! No one can escape the trial and punishment from the Galaxy Star Alliance.

Watching Yan Tong being taken away by law enforcement.

Fang Yue couldn't help sighing and said: "The wall is down and everyone is pushing!"

Wait for the law enforcement to go far.

Zhang Zhao appeared beside Fang Yue.

There were complex expressions in his eyes. Fang Yue had done a lot of work to kill Yan Tong this time!

In this way, the director of the Galaxy Star Alliance in the Saint Realm solar system was taken away, and Yan Tong's fate was actually conceivable.

This betrayal of the ten thousand realms, but there are several serious crimes in the Galaxy Star Alliance, once this crime is settled, only the end of the beheading and falling, the soul is scattered, and even a trace of divine thought can not be left!

And all these calculations came from the hand of Fang Yue in front of him, and the power he could mobilize was truly amazing.

Fang Yue saw Zhang Zhao's expression and understood what the other party was thinking.

Fang Yue smiled slightly: "Master Zhang Zhao, in fact, you don't need to look at me like this. This time Yan Tong was arrested, and it was not because of me alone. I just played a role in threading the needle! If it wasn't for Master Ziyu to help me collect Evidence proves that the golden great apes colluded with the Destroyer and integrated the bloodline of the Destroyed Demon. I couldn't get the golden great

apes, and the big people behind you also played a role in fueling the flames. They will help Yan Yan within the Galaxy Alliance. All hits."

Although Fang Yue's words were true, Zhang Zhao was still filled with emotion.

The internal disagreement of this galaxy alliance, there are many factions, and even the well-known things in the entire galaxy.

But I know, Gui knows, but there are not many people who can unite like Fang Yue and use faction fights to push to a giant of the Galaxy Star Alliance like Yan Tong!

But in the final analysis, this is still profit.

The golden great apes fell and the three parties were full!

The golden great ape clan has become the candlelight in the wind under the backlash of destroying the blood of the demon clan. At the end of the crossbow, they are more than ten thousand times weaker than the state of their heyday.

Many major forces in the galaxy are staring at the fall of the golden great apes.

They sharpened their knives, only one excuse to take action. In the past, the golden great apes clan in the heyday was so powerful. They accumulated extremely terrifying wealth, but now they have become the source of disaster!

And Fang Yue gave them this excuse, the two oligarch-level giants of the Galaxy Star Alliance and the Galaxy Bank, with the help of this excuse given by Fang Yue, carried out the cruel slaughter and extermination of the golden great apes!

Overnight, the whole family was wiped out.

And the poor worm, Yan Tong, is just a side effect of a struggle!

As for the wealth left by the golden giant apes, it was divided between the two. It is said that the purple jade of the Galaxy Bank obtained 3% of the wealth of the golden giant apes, and the big man behind him received the golden giant apes. A family of 5% of the wealth, and Fang Yue was also fortunate to be the executioner who gave a fatal blow to the Golden Great Ape family, and got 1% of the wealth. The remaining wealth was swallowed and divided by the two major forces.

Of course, as a messenger, Zhang Zhao was not wronged by the Galaxy Star Alliance.

He was rewarded with three ten thousandths of the wealth of the Golden Great Apes!

These wealth have not yet been fully received, but when Zhang Zhao checked his account yesterday, there was already an extra 300 billion stars in wealth.

Zhang Zhao is ready to use this wealth to improve his strength, purchase resources and secrets, and strive to reach the peak of the leader realm as soon as possible!

Zhang Zhao understood that all his opportunities came from Fang Yue!

If it weren't for him, he would still be a small, the lowest envoy in the Galaxy Alliance.

After plotting to kill Yan Tong and the Golden Great Ape clan, Fang Yue suddenly felt a little disappointed.

Even if it is as powerful as the golden giant apes, even if it is as powerful as Yan Tong, what about?

In the end, the dust did not return to the dust. Under the crush of the giants of the Galaxy Alliance, it disappeared in an instant.

Fang Yue suddenly understood why some sages and great abilities on the earth had already awakened, but they always refused to appear.

Perhaps they are worried that they will attract the attention of giants like the Galaxy Covenant, and they will not be able to protect the earth, but will cause disasters for the earth!

"Master Zhang Zhao, has there been any movement of the creatures on the Dark Moon plane near this screen city recently?"

Fang Yue quickly regained his spirits, decadence and giving up were not a solution. Only by quickly strengthening himself and making the entire earth stronger can this Galaxy Star Alliance not drop a cruel butcher on the earth.

"Have!"

Zhang Zhao quickly gave Fang Yue's response. Zhang Zhao was more sensitive than Fang Yue to the movements of all ethnic groups near the curtain city!

Calculating the golden great ape clan can only bring huge wealth to Zhang Zhao, and this matter will not make it to the stage after all, and it is impossible for him to be promoted to a higher status!

But if he can do the work of the Star Wars near the screen city, he will be marked in the Galactic Alliance's military merit book!

At that time, he can climb to a higher position and become hot in the Galaxy Alliance!

Therefore, Zhang Zhao paid more attention to the Fengshui and grass movements around Mucheng than Fang Yue!

"This time on the Dark Moon plane came an incredible strong man—— Qi Song, this Qi Song has a good reputation, even the strong man of the saint realm is not willing to deal with him more! Because Qi Song is said to be He was a strong man at the pinnacle of the Saint Realm who was reincarnated and awakened the memory of his previous life. Although his cultivation realm still stays at the eighth level of the leader realm, his real means and strength can never follow this. Measured by numbers!"

Chapter 1342: Alliance seed

"This time Qi Song came to Mucheng, it is said to dig a treasure under Mucheng, this treasure is related to the final ending of ancient biochemical civilization."

Zhang Zhao said Fang Yue quite seriously.

On the earth, Zhang Zhao had already stayed for a long time. During this time, his understanding of the earth has become more and more profound.

He has no intention of despising the earth anymore, because there are endless secrets hidden on the earth, and once some secrets are solved, it will be shocking.

Fang Yue nodded silently.

This scene city seems to be a place of chance.

If not, why did the twelve stone steles appear around the Mucheng?

There are also biochemical research institutes. It seems that although the appearance is shabby, there are big secrets hidden in them!

The owners of these biochemical research institutes are quite extraordinary, and the Wanyuan Biochemical Research Institute is just a small example!

"In that case, I will go back to the Wanyuan Institute of Biochemistry and dormant for a while!"

Fang Yue made the decision that the safety of this earth is more valuable than the so-called military exploits in the Alpha Star Territory!

What's more, Fang Yue has made corresponding arrangements in the Nine Nether Plane. If he succeeds, maybe he will get a huge amount of military merit!

Fang Yue has not returned to Wanyuan Research Institute, an invitation letter has been sent to him.

The name on the invitation is gilded, and it contains a hint of saint's breath!

This invitation letter is written by the saint himself. It contains threads of law and will, and at the same time contains a trace of the saint's spiritual refinement. If Fang Yue burns this invitation letter to release the energy in it, its power may not be weaker than The power of one blow from a strong person at the ordinary Yin-Yang level.

"What is this?"

Fang Yue saw the gilded invitation and drew out the paper.

This paper is also made of unknown precious wood, with a trace of ancient and unpretentious meaning flowing in it.

"Star Wars, Fang Yue performed well! Included as a candidate for the Bronze Seed Investigation of the Galaxy Alliance! The investigation period is three months. If he performs well, he will become a Bronze Seed of the Galaxy Alliance. If he does not perform well, he will be listed as a Black Iron Seed! "

When Fang Yue saw this invitation letter, he felt a little thoughtless.

He had never heard of bronze seeds and black iron seeds. He hadn't even heard of it!

Zhang Zhao got the news and rushed to him as soon as possible.

When he saw the invitation letter in Fang Yue's hand, he couldn't help showing an expression of envy.

"Fang Yue, I didn't expect you to get this invitation letter. I thought that even if you were listed as a seed candidate by the Galaxy Star Alliance, you would at most be a candidate for the Black Iron Seed investigation. I didn't expect you to get the Bronze Seed Investigation directly. Qualifications!"

When Zhang Zhao saw the invitation letter in Fang Yue's hand, the envy in his eyes flowed out involuntarily. This Fang Yue didn't know how many people paid a huge price for this invitation letter!

"What kind of bronze seeds, black iron seeds, etc. I have never heard of it!"

Fang Yue looked at Zhang Zhao blankly.

He does not know these things.

Zhang Zhao couldn't help but said with a serious face: "This matter is actually not a secret in the Galaxy Alliance! If you want to know, I will tell you! This so-called seed selection is for the Galaxy Alliance to replenish its own blood. And a competitive mechanism developed! Generally speaking, these seeds are all practitioners of the world, rotation, and yin and yang, and some very good practitioners of the innate level will also be included in the seed investigation. In. Once it becomes the seed of the Galaxy Covenant, this status will be unique!"

"The seeds of the Galaxy Covenant are generally divided into seven levels: black iron, bronze, silver, gold, platinum, diamonds, and chaos! Each level of seed cultivation consumes different costs and resources! Take the lowest level. For Bronze Seeds at the Heaven and Earth Realm level, they can get resources worth one billion spiritual stones every year, and the level of this resource bank is extremely high. Many resources that are not accessible to the outside world will be open to you! Heaven and Earth Bronze The teachers of the seeds are generally very good Yin-Yang realm powerhouses in the Galaxy Alliance. And they can also complete some special trial missions and get high internal points rewards of the Galaxy Alliance! This internal points of the Galaxy Alliance Compared with the so-called military merits, it is more valuable! Higher-level master teachers can give pointers!

And at the Yin-Yang level like you, if you can be selected as a candidate for Bronze Seed, you can reach the sky in one step and get the guidance of the top saints. The various resources obtained every year are unimaginable! Even if you can't pass the inspection, you can still get the guidance and instruction of an ordinary saint, there will be absolutely no problem with the future leader! "

Zhang Zhao continuously introduced the benefits of becoming the seed of the Galaxy Alliance for Fang Yue.

Fang Yue doesn't care so much about these things. His current teacher is quite good, Ruyizi, a powerful person at the level of virtual fairyland, maybe Ruyizi has exceeded the level of virtual fairyland, which can overlook the whole The super boss of the Ten Thousand Worlds Universe, he doesn't need the teacher of the Galaxy Star Alliance to teach!

Seeing Fang Yue's absent-minded and dismissive expression.

Zhang Zhao had the urge to beat Fang Yue to death.

However, he finally resisted the impulse in his heart, and said in a persuasive manner: "Becoming a seed in the Galaxy Covenant means that you can get in touch with some of the core figures in the Galaxy Covenant! And the seeds themselves are rights. A symbol of! If you become a bronze seed at the Yin-Yang level, you can use your identity to mobilize a guard of 10,000 people. The ordinary members of this guard are all powerful at the Yin-Yang level, and 100 centurions are all With the existence of the leader level, the two principal and deputy commanders are both saint-level existences who are accustomed to fighting! At that time, even if the Dark Moon plane wants to deal with you, you must weigh the strength of this guard!"

When Fang Yue heard this, his eyes finally lit up.

It turns out there is such a good thing!

It seems that the identity of the Bronze Seed of the Galaxy Alliance is still a bit interesting!

"The competition before this kind of child is also quite fierce. Not only will the inspector itself be tested, even the forces behind it may also participate! This becomes the seed of the Galaxy Alliance is a matter of one person's ascent to heaven. Once the Alliance Seed becomes a leader-level powerhouse, it will serve in the Galaxy Alliance based on its own power, performance during the seed period, and the level of the seed. For example, the subjective position of the solar system, Fang Yue, if you can use silver The status of the seed has advanced to the level of the leader of the leader, this position will be at your fingertips! At that time you can mobilize the financial resources of the galaxy alliance in the entire solar system to fully support the earth! This is tantamount to a large official of the border, and the status is extremely high! "

Zhang Zhao kept bewitching Fang Yue.

If Fang Yue can really become a bronze seed at the Yin-Yang level, then his future can become his own stronger ally.

"Well! I hope Master Zhang Zhao will bother with this investigation!"

Fang Yue's voice did not fall.

A beautiful figure appeared before Fang Yue's eyes.

Long fiery red hair, dazzling.

She is like the sun in the sky, taking away all the splendor in this world.

The beautiful figure is impeccable, and the silver armor makes her look like a Valkyrie who has just walked off the battlefield!

What makes Fang Yue's heart tremble most is the opponent's cultivation realm-the peak of the Saint Realm!

"Subordinate Zhang Zhao pays homage to His Royal Highness Alice!"

Zhang Zhao directly knelt down on one knee when he saw the arrival of the woman. He lowered his head, and even glanced at the other person as a blasphemous!

Alice nodded slightly.

"I just came back from the Alpha Star Territory when I received news from the Star Alliance! This time I will be the chief examiner for Fang Yue's assessment! During the inspection period, no cheating is allowed!"

Alice is completely business-like, her voice is cold to the freezing point, as if it does not contain any human emotions!

"it is good!"

Fang Yue's performance is very refreshing, fair and good, as long as there is nothing tricky in it, Fang Yue thinks that he should have no problems passing the assessment!

"However, I request that my assessment criteria be downgraded to a Bronze Seed assessment at the rotation level!"

As soon as Fang Yue said this, both Alice and Zhang Zhao were involuntarily surprised.

Downgrade!

Does this Fang Yue have no confidence to pass the examination of the Bronze Seed at the Yin Yang level?

But I am afraid there is no way to pass such an application!

Are you a cultivator at the Yin and Yang level, those group of kids at the rotation level?

This obviously does not conform to the principle of fairness and justice.

Fang Yue smiled slightly in the surprised eyes of Zhang Zhao and Alice, he suddenly took a step, his figure illusory.

"This is not my deity, but the incarnation of my spiritual energy condensed with a ray of divine thoughts. My deity is practicing in retreat in another world. The two of you wait a moment, and he will appear in front of them! "

Fang Yue knew that he couldn't hide the matter of this spiritual energy clone, and Fang Yue didn't want to hide it!

If he hides it now, he has become the seed of the Galaxy Alliance, and there is still one more level to pass!

"This turned out to be just an aura clone!"

Zhang Zhao clearly felt his heartstrings tremble!

What Fang Yue actually appeared in front of them was not the deity, but just a dispensable spiritual energy clone.

Then what level of existence should this Fang Yue's deity be!

"Aura clone?!"

Alice frowned slightly, she didn't even see the clues of Fang Yue's aura clone just now.

This Fang Yue is really a supernatural power, a good method! Even the saint's eyes can be hidden.

A little curiosity arose in Alice's heart to Fang Yue.

But her face still had the same indifferent expression before.

moment.

Space torn.

Fang Yue's deity came through the void.

At this moment, Fang Yue's deity had already cultivated to the third level of the rotation realm. He walked out of the three ultimate paths, and each level of the small realm was built with the supreme magic weapon.

On the first floor of the Rotating Realm, the foundation is the burial tower.

On the second level of the cycle, the foundation is the Ring of Death.

On the third level of Rotating Realm, the foundation is a broken chessboard!

These three things have great backgrounds! And Fang Yue actually used it to build the foundation, and if he said it, he was afraid that a group of people would have the urge to strangle him.

Chapter 1343: Accept the assessment

Fang Yue on the third level of the Rotating Realm, the resources consumed are afraid that he can train a powerful person in the digital saint realm!

He smiled and stood in front of Alice and the others.

Alice's eyes swept across Fang Yue's body slightly.

Then he nodded and said: "Sure enough, you are a practitioner at the rotation level! However, you are very peculiar. Most people will use the main resources to cultivate the deity, but you have cultivated an aura to the level of Yin and Yang, but The deity still stays at the level of the rotation realm. Perhaps you have your own ideas in your heart and want to take the strongest path. Reach the strongest in every realm, and eventually become the most dazzling existence among your peers."

Fang Yue smiled silently.

A faint disgust flashed in Alice's eyes.

A boy in the rotation realm, even though he was considered a great talent among his peers, he still didn't count as much in her eyes.

"Since your deity is at the rotation level, then I will call the shots and adjust your assessment content to the evaluation of the bronze seed at the rotation level! There are three items in the evaluation of the bronze seed at the rotation level!

The first assessment content is to pass through Tongtian Avenue, which has a total of 99,999 steps! Each step contains different laws and mysteries! You only need to step up to the twenty-seventh step to be considered a preliminary pass for the bronze seed assessment! Going up further, you will get an extra reward for every nine floors!

The content of the second assessment is the martial arts arena. You will be able to summon a martial arts arena at any time within a month! There will be a list on this arena. The list has the names of famous and stunning warriors in various rotation levels. You choose the corresponding warrior and get points through the challenge. If you reach 100 points, you will be considered as a bronze seed. , The excess points will also give you corresponding rewards!

The third test is to kill the enemy in the star field. You can kill the enemy across the border and go to the Alpha Galaxy. Only the strong who kills the peak of the rotation stage and above can get points. This point needs more than 10,000 points to be considered preliminary. qualified! Similarly, if you exceed this ten thousand points, you will also get corresponding rewards!

These assessments can only be completed by you alone, and I am responsible for supervision. If you use external forces, your qualifications for the assessment will be cancelled and you will automatically be downgraded to become a black iron seed! "

Alice briefly introduced the basic rules.

Fang Yue nodded then.

"This Tongtian Avenue and Martial Arts Arena, don't know how I am going to go?"

Alice threw a watch to Fang Yue.

"Put on it, drop your blood to recognize the Lord, and enter a ray of your spirit into it, and you can enter a virtual world. In that virtual world, there are two options for entering the Tongtian Avenue and the Martial Arts Arena. You can go here Choose to enter at any time within a month! Whether it is Tongtian Avenue or Martial Arts Arena, a data body exactly like your real body will be constructed according to the basic situation of your deity! This virtual body will allow you to interact with In the warrior arena, give full play to your strength without worrying about casualties!"

"it is good!"

Fang Yue's performance is very refreshing, fair and good, as long as there is nothing tricky in it, Fang Yue thinks that he should have no problems passing the assessment!

"However, I request that my assessment criteria be downgraded to a Bronze Seed assessment at the rotation level!"

As soon as Fang Yue said this, both Alice and Zhang Zhao were involuntarily surprised.

Downgrade!

Does this Fang Yue have no confidence to pass the examination of the Bronze Seed at the Yin Yang level?

But I am afraid there is no way to pass such an application!

Are you a cultivator at the Yin and Yang level, those group of kids at the rotation level?

This obviously does not conform to the principle of fairness and justice.

Fang Yue smiled slightly in the surprised eyes of Zhang Zhao and Alice, he suddenly took a step, his figure illusory.

"This is not my deity, but the incarnation of my spiritual energy condensed with a ray of divine thoughts. My deity is practicing in retreat in another world. The two of you wait a moment, and he will appear in front of them! "

Fang Yue knew that he couldn't hide the matter of this spiritual energy clone, and Fang Yue didn't want to hide it!

These assessments can only be completed by you alone, and I am responsible for supervision. If you use external forces, your qualifications for the assessment will be cancelled and you will automatically be downgraded to become a black iron seed! "

Alice briefly introduced the basic rules.

Fang Yue nodded then.

"This Tongtian Avenue and Martial Arts Arena, don't know how I am going to go?"

Alice threw a watch to Fang Yue.

Alice gave the watch to Fang Yue.

Fang Yue immediately recognized the master with a drop of blood, and opened the interface in the watch.

There are only four options displayed on the interface.

First, the military service exchange system.

Second, the points exchange system.

Third, Tongtian Avenue.

Fourth, the warrior arena.

Fang Yue didn't care about the so-called Tongtian Avenue, but instead opened the military merit exchange system.

This military merit exchange system is ten times more than the service options provided by the military merit exchange system on the token in Fang Yue's hand. Various rare materials and secret techniques are no longer gray words.

Sure enough, the more you touch the core of the Galaxy Covenant, the greater the authority you have. The same exchange system can play different tricks.

And the points exchange system, in which items and services are hundreds of times more than the military service exchange system! But there is only one common currency among them, the Galaxy Star Alliance points!

Below the system is marked the ways to earn points: 1. Complete the designated missions of the Galaxy Star Alliance and earn points. 2. Get points by breaking through Tongtian Avenue. 3. The martial artist will get points. 4. Get points by killing the creatures of the Galaxy Star Alliance offering rewards!

Fang Yue involuntarily took a breath, because the items corresponding to the points system were too abnormal.

Especially for one of them, to get a pointer (three hours) from a saint realm powerhouse, which consumes 100 points of the Galaxy Star Alliance!

What kind of existence is the power of the saint realm, the dragon sees the head but the end, and it is probably difficult for ordinary people to see one side in a poor life.

How precious are their guidance?

A sincere guidance may make many practitioners change their own destiny!

From an ordinary ugly duckling to a white swan!

They are not greedy for worldly wealth, and want to let a powerful person in the saint state personally point out, it will cost an unimaginable price. And this Star Alliance points even 100 points can let the strong of the dignified Saint Realm give pointers once.

No wonder this galaxy alliance can have its current power.

Enough and bold enough!

Fang Yue's heart secretly added a point to the Galaxy Star Alliance!

Chapter 1344: Tongtian Avenue

The corner of Alice's mouth provoked a faint smile: "Fang Yue, don't watch it anymore. You only have three months to pass the assessment. It's best not to waste every single bit of your current situation, although because of your deity, your assessment has been reduced to the assessment of the Bronze Seed at the rotation level, but as long as you fail the assessment, you may miss the identity of the Bronze Seed!

As for this point redemption system, if you become a bronze seed, it will take time to study! However, Star Alliance points are not so easy to obtain! In this assessment process, everything is calculated by ten times the points, so this is a rare opportunity. Whether you become a bronze seed or a black iron seed, you must make good use of this opportunity! "

Alice's kind reminder made Fang Yue's attention finally return to the watch itself.

Before Fang Yue could speak again.

Suddenly there were three more points on the watch.

Bronze seed assessment at the rotation level begins.

Tongtian Avenue: 0 points.

Martial Arts Challenge: 0 points.

Star Kills: 0 points.

The next moment, the points jumped.

The immediate change became:

Tongtian Avenue: 0 points.

Martial Arts Challenge: 0 points.

Star Kills: 10 points.

"Huh? The Star Territory's points for killing enemies have actually changed? The watch system can't be damaged!"

Alice was surprised. Although in name she was sent by the Galaxy Star Alliance to supervise Fang Yue to ensure that the trial was fair, but in fact, there was a watch developed by the Galaxy Star Alliance, and Fang Yue did not cheat at all. Possible!

The optical brain in the watch represents the top technological achievement in the Galaxy Star Alliance!

Among them is the causal sensor, no one can hide the power of causality.

But Fang Yue is right in front of him, how could he be able to kill the enemy in the Alpha Star Territory?

There was endless confusion in Alice's heart.

Fang Yue smiled and said: "Oh, I forgot to introduce me to the undead department. The five thousand undead creatures I summoned are killing enemies in the Alpha Star Territory! Maybe they brought me these points!"

"Undead creatures... this situation does exist! But what level of your undead creatures are, you need to know that you want to display points on the content of the star field killing enemies, and the ones you kill must be stronger than the peak of the rotation stage. By!"

Zhang Zhao couldn't help but interject.

This Fang Yue was always extremely mysterious before his meeting!

With the help of Alice this time, he finally had the opportunity to uncover the mystery on Fang Yue's face.

"They are all levels of rotation!"

Fang Yue's opening made Alice frowned slightly.

"Your deity is only at the level of the cycle, and the undead creatures you summon are also at the level of the cycle? Is it possible that your major is the undead line?"

Alice said, with a sense of keeping away.

The practitioners of the Undead family are the most popular in the war!

However, people in this line often have weird personalities and even have unbearable hobbies!

Unexpectedly, Fang Yue had red lips and white teeth, as if he was a boy next door, he turned out to be an undead practitioner.

During the conversation between the three of them, the number of star kills on Fang Yue's watch changed again, and it had already become 30 points!

Alice couldn't help but sigh in her heart that the task of killing enemies in the Star Territory is simply too easy for Fang Yue, an undead genius!

His own deity is here to talk with them comfortably, and his undead warriors can charge for him, continue to kill enemies, and accumulate massive points.

At the same time, Fang Yue's military merit numbers are constantly jumping.

Zhang Zhao finally understood why Fang Yue had entered the Alpha Galaxy for such a short period of time, and he had obtained a number of terrifying military exploits!

"The Undead Department is only the object of my research, besides, I also know many methods!"

In front of Alice, Fang Yue didn't mean to conceal anything. The better he performed, the easier it was to get the attention of the senior leaders of the Galaxy Alliance, gain more resources and authority, and then made a blockbuster and became the most in the Galaxy Alliance. Dazzling seeds.

"In addition to the undead family, there are other methods to study. That would be considered better! Each law actually has its own emotions. The emotions of this law will affect the mentality of the practitioner! For example, practicing the dark law. People generally don't like to live in the sun, and those who practice the undead have a bias towards darkness! The deeper the law of practice, the greater the impact of this law, unless it is offset by the opposite law. If you do, the road will go further and further!"

Alice reminded Fang Yue again, she felt that she had said enough in front of Fang Yue this time!

After chatting, Fang Yue's Star Territory Killing Points has reached 50 points!

Fang Yue began to plan the matter of breaking through the Tongtian Avenue.

In the process of communication, Fang Yue discovered that Alice seemed to have a different tone and attitude when referring to the Tongtian Avenue and the Martial Arts Arena!

Perhaps, the Galaxy Star Alliance places more emphasis on these two assessments.

Fang Yue's spirit fell.

On the watch, an introduction to Tongtian Avenue immediately emerged.

Tongtian Avenue: A total of nine thousand nine hundred and ninety-nine floors, each step will have a barrier composed of different laws and runes! The more you go up, the stronger the rune barrier will be. Break the rune barrier before you can step onto the next step.

The introduction of Tongtian Avenue is quite simple, but Fang Yue understands that the shorter the news, the bigger the matter!

Fang Yue's ray of spiritual thoughts had already possessed a digitized body and stepped onto Tongtian Avenue.

He is the only person on this Tongtian Avenue, and a seemingly endless step stretches towards the sky!

Fang Yue stood under the first step.

In front of his eyes is a thin rune barrier!

The runes are like little tadpoles roaming on the translucent film, with different colors and very lively!

"These runes are the most basic rules!"

Fang Yue carefully observed that every rune on the barrier was the most common one! However, the runes represent the rules!

This rune is weak and common, and it represents the basic elements of some laws!

"Five element runes, gold, wood, water, fire, and earth! Among these runes, I have seen the runes of gold, wood, water, and fire among the layers, but the rune of this earth is a bit strange!"

Fang Yue understood for a moment.

It is to understand the true meaning of this earth rune.

Afterwards, Fang Yue took a step forward, and the first rune barrier turned out to disperse on its own.

During Fang Yue's assessment, both Zhang Zhao and Alice watched in their light brains.

The average person who crossed the Tongtian Avenue has no authority to watch, but Alice is the supervisor of Fang Yue's assessment and therefore has this authority.

And Zhang Zhao has a more special status. He is the messenger of the Galaxy Alliance in this scene. Before Fang Yue became the seed of the Galaxy Alliance, he was also in charge of the Galaxy Alliance's rule system!

"This Fang Yue, did he know the correct entry mode of Tongtian Avenue before? Otherwise, how could he comprehend runes from the beginning?"

Alice was slightly surprised. This Tongtian Dao essentially tested the level of comprehension of the law, but in addition to the comprehension runes, there are other ways to pass the examination of the Tongtian Dao!

The simplest way is to break through the skill, but the points gained by breaking through the Tongtian Avenue in other ways are only one-tenth of the comprehension rune.

Of course, not everyone knows how to understand runes and understand the rules.

After all, there are only a few practitioners studying runes in this world. The real mainstream in the Galaxy Alliance is to cultivate spiritual power, all kinds of true energy!

"I can guarantee that Fang Yue didn't even know what the Tongtian Avenue was before! He got the bronze seed observation quota completely by luck! However, he was able to choose the most correct way to break through the Tongtian Avenue for the reason. It's quite simple! Because twelve rune steles have recently descended near the city, and the runes on the steles are the portrayal of the rules! And Fang Yue has done a lot of work on these rune steles. , He directly chose the way of enlightening runes when he broke through the Tongtian Avenue, fearing that it was because he had some factors of thinking inertia in it!"

Zhang Zhao quickly clarified for Fang Yue.

Because Alice is the supervisor of Fang Yue's assessment, her attitude will affect some of Fang Yue's achievements and future training direction.

A flash of brilliance flashed in Alice's beautiful eyes.

"There is such a thing on this earth?"

Zhang Zhao's little chicken nodded like pecking rice, "It's not far away. If the adults have time, I can take them to see them. Many powerful people of the plane have come personally and come to observe the stele and understand The mystery!"

Alice nodded slightly.

She continued to focus her main attention on Fang Yue.

Fang Yue's performance in the first pass through Tongtian Avenue is a very important observation in the Bronze Seed Assessment. If Fang Yue can pass the Bronze Seed Assessment, she needs to write a report and report it!

This supervisor is not a simple job. It seems to be just supervision, but in fact there are many detailed observations. Each content will determine the future direction of seed cultivation in the Star Alliance and cultivate resources!

After Fang Yue stepped onto the first step, he quickly broke the barrier of the second step!

Although the barriers of this second step are slightly more difficult than the barriers of the first step, in Fang Yue's eyes, they are still the same as pediatrics, and they quickly understood all of them!

Followed by the third step, the fourth step.

Fang Yue climbed up the steps, and each step was cracked after comprehending the content of the rune.

There was a slight ripple in Alice's heart.

This Fang Yue's talent for comprehension of runes is so amazing!

Although his enlightenment time for each step will be gradually extended, but when he reached the seventh step, he cracked the rune barrier. It only took ten breaths, which is almost better than most masters in the master realm. When running the rune, it should be straightforward.

Then the eighth step, the ninth step!

When Fang Yue stood on the tenth step, he finally slowed his pace a bit!

Alice was not surprised to see Fang Yue frown.

"Although Fang Yue is an enchanting evildoer, it is estimated that he will not be able to choose to penetrate the rune barrier again in front of the tenth step! The rune barrier of the Tongtian Avenue, every nine steps is a threshold! Fang Yue can smoothly break through. Going through the nine steps ahead is not easy! This performance will add a lot of color to him during his assessment!"

Alice still quite recognizes Fang Yue's performance!

However, her self-talk has just ended.

The rune barrier of the tenth step in front of Fang Yue disappeared in no time!

Chapter 1345: Amazing results

Fang Yue stepped up a step, Alice was petrified instantly, and she was speechless in surprise!

"How is this possible! This tenth step is no longer a simple single basic rune, but a combination of two basic runes into a compound rune. The difficulty of comprehension is several times higher than that of the basic rune. It is a saint-level powerhouse who wants to enlighten it and it takes at least an hour!"

Alice showed an unbelievable expression.

Ninety-nine percent of the seeds of the past dynasties of Tongtian Avenue are tested for breaking the law with strength!

It's not that they don't even see the best way to clear this Tongtian Avenue, but sometimes it's one thing to understand, but it's another thing to do it!

At the barrier of the tenth step, the time for comprehending the rules of runes skyrocketed.

The trivial three-month assessment time simply cannot penetrate all the barriers of the previous 27th level!

Eleventh level, twelfth level...

Fang Yue stepped up, although the speed of comprehension slowed down a bit, it was much faster than the increasing difficulty on this level!

Alice was shocked. Is this Fang Yue a genius evildoer in runes?

These runes that even her feel a headache, Fang Yue realized that it was as simple as eating and drinking!

Alice's self-confident respect was seriously challenged.

Then Fang Yue stepped on the eighteenth step smoothly.

The rune steps on the nineteenth floor were placed in front of Fang Yue.

"Sure enough, the rune steps from the tenth floor to the eighteenth floor use a combination of two basic runes, and from the nineteenth floor, the rune barrier uses a combination of three basic runes. The barrier of success! The difficulty of this understanding is several times higher than that of the previous stage! But the benefits and the depth of understanding of the law are far from the previous rune barriers!

The road to the sky, the road to the sky, if you can comprehend these rune barriers to the extreme, your understanding of the law will reach an incredible level! This road leads to the sky, so it means that! "

Fang Yue began to gather his energy to comprehend.

Alice never imagined that Fang Yue only used less than one percent of his energy when he was comprehending those runes just now. His more energy and attention were spent on the deity's enlightenment and walked out of the fourth ultimate way. Step onto the fourth level of the cycle of rotation.

But after understanding the benefits of this road to the sky, Fang Yue began to gather his energy and spent 2% of his attention to study these rune barriers!

Alice was horrified to discover that Fang Yue didn't slow down much when he was comprehending the rune barrier of the third stage.

He was like scattered in a leisurely courtyard, and he broke through these rune barriers one after another in a leisurely manner.

This is no longer a question of genius or genius!

It's a complete evildoer!

The nineteenth floor, the twelfth floor...

Fang Yue, as a barrier-breaker, didn't feel much, but Alice, who was observing from the side, already felt that there were beads of sweat on her forehead, rolling down one by one!

Could it be possible that Fang Yue had to pass through the twenty-seventh floor of Tongtian Avenue at once?

How does this make future people live!

However, no matter how Elise's heart squatted. Yin.

Everything that should come is back.

The step barrier on the 27th floor did not stop Fang Yue's footsteps.

It took Fang Yue only half an hour from the first step to the 27th step.

recording!

A new record is born!

Fang Yue became the third seeded player to successfully break through the 27th rune barrier after stepping on Tongtian Avenue for the first time in these ten thousand years.

And the two seed players in front of him, one is the golden seed of the peak of Yin and Yang, and the other is the diamond seed of the peak of rotation!

And Fang Yue was the only one who could break through the 27th rune barrier in one breath.

And he spent the shortest time, and it took half an hour from beginning to end!

Without hesitation, Alice immediately reported Fang Yue's results.

She questioned that Fang Yue's seed positioning was obviously wrong!

In half an hour, he broke through the twenty-seven rune barriers in one go. Could such a guy be a bronze seed at the rotation level?

Is this giving the silver seed, golden seed, platinum seed, diamond seed, chaos seed a face?

It's loud!

Alice's email was quickly uploaded to the senior management of the Galaxy Star Alliance, but as for when the senior management saw it and dealt with it, it was not something she could interfere with!

However, Fang Yue's Tongtian Avenue was not completed.

He is still moving forward.

"The 28th floor is a barrier formed by a mixture of four runes! It is even more difficult to analyze this rune!"

Fang Yue studied with great concentration, and soon the twenty-eighth barrier was broken by Fang Yue.

At this time, Alice was expressionless.

metamorphosis!

It's so abnormal!

The 28th floor of the rune barrier, it took less than a cup of tea to crack!

This is already an achievement that surpasses most saints, is this Fang Yue the reincarnation of a certain great saint-level powerhouse?

Twenty-nine floors, thirty floors...

Fang Yue spent a whole day and night in the Tongtian Avenue.

The rune barrier on the 45th floor was cracked by Fang Yue!

At the moment the rune barrier disappeared, Alice had a dreamlike illusion!

Is this world still the original world?

After all, the world has changed, or I have changed!

Alice is good at strength and combat skills. Even though she is a saint, she doesn't have a deep research on the law.

Today, her Tongtian Avenue has only reached the 108th floor!

And when she broke through that Tongtian Avenue, what realm was she?

Is the first level or the third level of the leader realm coming?

Alice suddenly felt a little fuzzy in her memory.

genius?

Did I forget it?

In front of Fang Yue, Alice's self-doubt became deeper and deeper!

On the forty-sixth step, Fang Yue suddenly woke up!

How long has he been immersed in Tongtian Avenue?

What changes have taken place outside?

I was really too involved just now, completely forgetting me!

It's no wonder that many practitioners say that one day in the middle of the mountain, thousands of years in the world, this feels really too easy for people to silence, and then forget the time!

Fang Yue exited from Tongtian Avenue.

His comprehension of the rune barrier has not encountered a bottleneck, but the earth in its current state will undergo drastic changes every moment, and he cannot tolerate him being immersed in the Tongtian Avenue for too long, always comprehending the law!

When Fang Yue walked out of Tongtian Avenue, Alice was in tears.

It's really great and can't be hit anymore!

At this moment, Zhang Zhao already had no insight into Fangyue Tongtian Avenue to pass through the barrier.

Although he is the messenger of the Galaxy Star Alliance, his knowledge in law is not very high. So far, the level of Zhang Zhao Tongtian Avenue is only the pitiful twenty-first level!

He walked the road of breaking the law with strength, and the gains on the Tongtian Avenue were not much.

There is a rigid restriction on the observation of Tongtian Avenue, that is, low-level people cannot observe high-level people breaking through.

This is not because the broom cherishes itself or protects privacy.

In fact, cracking the rune thing, even if you observe it thousands of times, you do not have that talent, it is still useless.

But the rune barrier is too advanced, it is easy for them to give birth to the inner magic barrier.

This is a protection! It is also a limitation!

"Fang Yue, how many steps have you taken on this Tongtian Avenue? Level 27 or level 36!"

Zhang Zhao's authority was insufficient, and he didn't understand what this Tongtian Avenue meant.

It was the first time that he even watched the seeds of the Galaxy Star Alliance break through.

In his opinion, Fang Yue is very good in this respect, but he can hardly measure how good it is!

"Level forty-five!"

Fang Yue responded with a smile.

Hearing this number, Alice felt her fragile heart was stabbed fiercely again, it hurt!

"Forty-five steps!"

Zhang Zhao also held his breath, staring at Fang Yue with wide eyes.

"Fang Yue, you have made a fortune! Do you know how many alliance points you can get every time you cross the steps of Tongtian Avenue!"

Zhang Zhao showed a surprised expression.

Fang Yue is still in a daze. In his opinion, being able to comprehend the essence of the rune combination and the corresponding rules in the rune barriers is a great harvest!

As for more things, Fang Yue didn't even think about it.

Fang Yue now has no shortage of resources, and collection is just a habit.

Fang Yue's thoughts are unknown to Zhang Zhao.

Even Zhang Zhao knew that he would sneer at Fang Yue's thoughts.

Is the wealth that the Galaxy Star Alliance can exchange for internal points the same as those bought with spirit stones and military merits?

The points exchanged in the Galaxy Star Alliance are priceless!

"If you pass the first step of Tongtian Avenue, you can generally get 1 point! By breaking through the runes, the points will increase ten times, that is 10 points. Cleared during the assessment period, the points will increase ten times, that is, 100 points! If you pass the second step, you will generally get 2 points..."

Zhang Zhao explained to Fang Yue quite clearly that for every step on Tongtian Avenue, he gets 1 more point than before!

Fang Yue climbed a total of forty-five steps.

The average person gets 1035 points, and Fang Yue is a rune **** and is still in the observation period, so the points he gets are one hundred times that of others.

His points are 103,500 points.

"Oh!"

Fang Yue responded indifferently, he really didn't feel much about these points.

His deity's cultivation has reached a bottleneck period, and no resources can help shake it!

"Oh? What do you mean? Do you know the value of points in the Galaxy Star Alliance? If you are willing to buy and sell, 1 point can sell 10 million stars! And there is still a market that is priceless, because star coins It's easy to get, but it's hard to get points! Generally on the black market, one point inside the Galaxy Covenant is exchanged for twenty to thirty million stars! Do you know, this time I became the messenger of the Galaxy Covenant and came to Earth for a mission The points are only 10! Generally, the tasks that practitioners below the saints take over rarely have more than 100 points!"

Zhang Zhao said to Fang Yue excitedly.

This Fang Yue is really in the blessing and not knowing it!

Fang Yue gave a hum, and then there was nothing to say!

Brother, I really don't lack resources.

This is the true portrayal of Fang Yue's heart, but he did not speak because he was worried that Zhang Zhao's mind would be hurt too much!

Chapter 1346: Samurai stand

Alice's rare counterpart Yue He Yan Yue said.

"Fang Yue, Zhang Zhao is right. You must try your best to grasp the opportunity of this investigation and earn more points! In the Galaxy Alliance, some of these points are useful, even inside the Galaxy Alliance. , Lingshi, Starcoin, these low-level currencies are not universal. Only the internal points of the Galaxy Alliance can be regarded as hard currency! You can even use the points to ask the Saints inside the Galaxy Alliance to help you maintain The safety of the earth!"

"These three assessments, in addition to Tongtian Avenue, the other two can also help you get a lot of points! For example, the points you get in the warrior ring are ten times as much as usual! And the points of the warrior ring and the internal points of the Galaxy Star Alliance The exchange ratio is also one to one! Including Star Territory Kill, although the points for this item do not have an additional bonus of 10 times increase, and the exchange ratio with the internal points of the Galaxy Star Alliance is one hundred to one, but this point is for you But it is quite easy to obtain, as long as there is enough undead army, you can continue to build military exploits from the Alpha Star Territory and earn points!"

Alice sees Fang Yue's potential. As long as he doesn't fall in the middle, he will surely become a holy ancestor. The two will sit on an equal footing, and maybe there will be some time when Fang Yue will be used. So now she has a good network foundation. There are only advantages, no disadvantages!

"Star points!"

Fang Yue suddenly lowered his head and saw the numbers on his watch.

The number of points for Star Territory kills has suddenly become 15020 points!

According to the points exchange ratio mentioned by Alice, this is 150 points.

Suddenly Zhang Zhao has a feeling that he deserves to be thrown away!

He descended on the earth and became the messenger of the Star Covenant.

While Fang Yue was undergoing the assessment, he didn't even move a little finger, and he had already scored 150 points!

Alice suddenly said blankly: "This Fang Yue will be the fastest person to complete the bronze seed assessment in recent years! Tongtian Avenue and Star Territory Killing, his scores have reached the minimum requirements! The following one I am afraid that Xiang Wuzhe can't help him!"

"Yes, quickly complete the assessment of the martial arts ring! In this case, you will still have the benefits during the assessment period, but at the same time you can become a bronze seed as soon as possible and get the benefits and status bestowed by the Galaxy Star Alliance!"

Zhang Zhao's eyes lit up!

Hastily urged Fang Yue.

This becomes a bronze seed and a non-bronze seed, but two treatments, two statuses!

Fang Yue also nodded slightly, checked the phone, and after no special message was displayed on it, he decided to complete the bronze assessment as soon as possible!

The martial arts arena, the introduction is simple.

Killing the projection of Tianjiao in the list, according to different Tianjiao's strength, give different rewards!

The list in front of Fang Yue is a list of 100,000 people from bottom to top.

These 100,000 people are the most powerful 100,000 rotation realm-level tianjiao since the establishment of the Galaxy Star Alliance.

Fang Yue looked at the last one in the ranking, which was shown as Liu Daobin.

Liu Daobin, Shu Xiu, created his own Silver Snake Electric Dance. From his hands, stick to three moves and get 1 point, stick to ten moves to get 5 points, stick to 100 moves to get 10 points, and tie for 30 points. , Beat to get 100 points!

"This warrior ring does not need to defeat the opponent to get points?"

Fang Yue showed a look of surprise!

This warrior ring is easier to earn points than Tongtian Avenue.

In Fang Yue's eyes, this is definitely a treasure for points!

Alice and Zhang Zhao entered the world of the warrior arena at the same time, and they sat in the audience!

Then, another old figure appeared, and he was beside Alice!

"The younger Alice has seen Elder Ye Wushuang!"

When Alice saw the old man, she showed a look of surprise, she saluted respectfully, and she didn't have the color of pride before!

"Ye... Elder Ye Wushuang!"

When Zhang Zhao saw Elder Ye Wushuang, he immediately became excited, and even his words became stuttered and no longer coherent.

Who is Elder Ye Wushuang?

Few in this galaxy alliance do not know this exists.

He is one of the veteran figures of the Galaxy Alliance, and he can already enter the decision-making level of the Galaxy Alliance!

Elder Ye Wushuang has broken from the level of the Saint Realm to the level of the Great Saint Realm thousands of years ago. His status is extremely high, and he ranks in the middle of the 100 Great Saint Realm powerhouses of the Galaxy Star Alliance. Level!

"Alice, I didn't expect that the crying little girl in the past has become a master of solo! I only received the news a few days ago that you killed two powerful saints in the battle on the Alpha plane. , To severely inflict twelve great masters in the Saint Realm of the Alpha Galaxy! Your strength is getting more and more, I am afraid that it will not be long before you can become another master in the Saint Realm who can compete in the Saint Realm! "

Ye Wushuang looked at Alice's eyes with dotting expressions. This Alice was at the level of the heaven and earth realm. She passed the seed selection of the Galaxy Alliance and successfully became the silver level seed in the Galaxy Alliance. , And then they gradually grew up under the care and attention of many high-level members of the Galaxy Alliance, and eventually became platinum-level seeds at the level of Yin and Yang.

This platinum-level seed is not considered a top-level genius in the Galaxy Star Alliance, but Ye Wushuang forcibly tempered his body to a level comparable to the Great Saint Realm after an adventure. , So Alice became the top arrogant of the Galaxy Star Alliance.

That's why Ye Wushuang and other powerful elders pay more attention!

"Thank you Ye Wushuang for your respect!"

Alice responded politely.

This Ye Wushuang didn't treat her as an outsider, but she couldn't show any disrespect to Ye Wushuang.

"Alice, that Fang Yue you are talking about is the person right now? He has extraordinary attainments in runes. The first time he stepped on the road to the sky, he drove through the forty-five steps at the level of the rotation realm. ?"

Ye Wushuang's eyes fell on Fang Yue with a little surprise.

There are indeed not many people like Fang Yue who have no background but can achieve such an achievement at the level of the rotation realm!

"Yes, this Fang Yue's performance really surprised me. In addition to his talent in runes, his methods in the undead are also surprising! Fang Yue is on the earth, but his five thousand undead elites It was a sneak attack on the Nine Serenities of the Alpha galaxy. After killing people, drawing the breath of death, they could still evolve slowly! The five thousand undead troops at the beginning were at the level of the rotation realm. The remaining three thousand undead troops are even more elite, and one in ten has broken through to the level of Yin and Yang!"

Alice Fang Yue has made a meticulous investigation during this time, even if Fang Yue's undead army is on the Nine Serenities, Alice can also get a steady stream of intelligence!

"Besides, I have another piece of information in my hand. The army of undead under Fang Yue is just the power he used to confuse his sight on the surface of the Nine Serenities, and the existence of two master realms is vague. Protecting the way for this army! The opponents they attacked, before the two

sides officially met, the masters above the leader level disappeared inexplicably! And later based on Fang Yue's military exploits and star area kills points. , Are all dead, and the line of cause and effect points to these people who were killed by Fang Yue!"

Alice also had some doubts about the information in her hands.

Fang Yue Mingming is just a practitioner in the rotation realm, so why can he have two clones of the master realm?

However, no matter how abnormal things are placed on Fang Yue's body, it may not be impossible.

After all, the first time Fang Yue appeared, he appeared in the state of a clone of spiritual energy, and it was difficult for them to tell the truth of that clone!

That spiritual qi clone has reached the level of Yin-Yang and surpassed the realm of the deity's cultivation base a lot!

Even such an aura clone Fang Yue can create, and it is not impossible for him to create two clones of the leader realm!

"Everyone has their own secrets. There is no need to explore too much. If the water is clear, there will be no fish. As long as Fang Yue has no rebellious heart for my Galaxy Star Alliance, he can attract it!"

Ye Wushuang smiled slightly.

He is very open to this matter.

Even if Fang Yue passed the assessment to become the seed of the Galaxy Star Alliance, his realm is too low, that is, the level of the rotation realm is far from being able to access the core secrets of the Galaxy Star Alliance, even if he is a little careful in his heart, he can't do it. What a big bad thing to come.

"Then Fang Yue's previous results of Tongtian Avenue..."

Alice looked at Ye Wushuang again.

This kind of thing is like Ye Wushuang's powerful elders, and the final rank given to Fang Yue is just one sentence.

"After all, Fang Yuejin's Bronze Level Rotation Level seed assessment is not appropriate. It is not appropriate to raise him too high next time. If Fang Yue really has the potential and strength, he can naturally stand out from the many seeds and win even more. More resources! In this way, if Fang Yue can obtain more resources through other means, I decided to give him the identity of a silver-level rotation stage seed. In this way, it will not make people gossip too. It can also prevent his talent from being buried!"

Ye Wushuang opened his mouth.

Zhang Zhao was surprised.

This big man is indeed a big man, and a mouth is to raise Fang Yue's rank!

The Silver Seed has a higher authority in the Galaxy Alliance than the Bronze Seed, and the monthly resource quota is five times that of the Bronze Seed!

The two cannot be the same at all.

Regarding the decision of the Galaxy Star Alliance, Alice also felt that it was reasonable, and for Fang Yue, it was a good thing to lose in the sky!

"Let me see how powerful this little genius is!"

Ye Wushuang smiled and determined Fang Yue's future identity in the Galaxy Star Alliance.

Alice laughed and said: "This Fang Yue is outstanding in the study of runes, and may not be excellent in combat. What's more, Fang Yue is good at the methods of the undead, and has more advantages in group battles. It may appear mediocre in personal combat!"

It's not that Alice is not optimistic about Fang Yue, but Fang Yue is too young and the level of cultivation is too low, it is impossible for him to be comprehensive.

Even if it is lacking in personal strength, it is understandable!

Chapter 1347: Beat Ryu Dobin

On the ring.

Fang Yue stood on one side, and the legendary master Liu Daobin was opposite!

Although Liu Daobin is ranked ten thousand on the list of ten thousand people, whoever can be ranked on that list is not a world-shattering arrogant talent. Maybe a thousand years and a hundred years, there will be an existence of this level. Any of them is a force. Overcome the existence of an era!

Liu Daobin appeared, wearing a Tsing Yi like a bamboo leaf.

Without saying anything, he tapped his toes on the ground and pierced out a bamboo sword in his hand to shoot Fang Yue!

"Special code, don't play cards according to the routine! Didn't it mean that Liu Daobin is a skill repairer? Your uncle's, it is a sword move!"

Fang Yue panicked.

This is a little different from the routine he thought!

Fang Yue waved his hand, while a tall bone shield appeared in front of him.

Jingle.

The bamboo sword collided with the bone shield.

As soon as Liu Daobin's sword light turned, the bone shield was instantly shattered, and the sky of bone powder flew all over the sky.

At the same time, Fang Yue pinched the seal technique, and a lightning bolt fell from the sky.

The silver light of the thickness of the bucket fell straight down, like a silver snake circling thousands of miles in the air!

Liu Daobin's sword skills changed again, he cut Lei Guang from the air, this sword technique has reached the point of extraordinary, with a sword in his hand, cut through all kinds of magic!

Alice on the viewing stage spoke up.

"This Liu Daobin had three faculties in his lifetime, one is thunder technique, the other is physical technique, and the third is sword technique! This sword technique is just one of his worst methods. If you can't even beat his sword technique, he will There is no need to use other methods!"

Alice solves Fang Yue's confusion.

Fang Yue understood the reason.

But isn't it just swordsmanship?

Fang Yue also summoned an ancient sword.

This martial arts arena is a virtual space, and all magical instruments from the outside world cannot be brought in!

The ancient sword in Fang Yue's hand was also strong and dexterous, the long sword pierced and the void burst. He actually faced Liu Daobin with his sword against the sword!

Liu Daobin's eyes lit up.

He saw Lie Xinxi, although this was only a projection clone of him, but it still contained some of Liu Daobin's personalities during his lifetime.

Swordsmanship duel!

Fang Yue turned out to be weaker than Liu Daobin!

The two sides fought hard, recruited murderous intent, and implied the meaning of Tao. For a time, it turned out to be a comparable situation!

Alice was also slightly surprised when she saw this scene.

This swordsmanship is not Liu Daobin's best method, but his level of genius, what kind of precision he learns, Liu Daobin's swordsmanship is at least the top of that era!

Liu Daobin's sword, I don't know how many rounds of barriers have been defeated.

But this Fang Yue actually used a sword move to kill a match with him, could it be that Fang Yue is also an all-rounder?

"Ten tricks!"

Ye Wushuang counted silently beside him.

Sure enough, as he expected, how could a person with such attainments in this rune lag behind in martial arts close combat?

Fang Yue should also be a distinguished person in close combat, and a little bit of demand will give him the qualification to become a master of kendo.

"Forget it, I'm too lazy to play with you!"

Fang Yue was suddenly uninterested, because this was how Liu Daobin's swordsmanship was.

It may be possible to rule the roost in the rotation level, but Fang Yue's level has long surpassed the rotation level.

Fang Yue's sword light suddenly shattered, and he actually shattered Liu Daobin's bamboo sword.

A fine rune was born on Fang Yue's bone sword!

These runes form the five-element pattern, which is endless, blessing his sword skills several times more power!

"Liu Daobin's swordsmanship has been defeated, but he is not defeated in swordsmanship, but in runes!"

Alice was a little surprised, Fang Yue was able to defeat Liu Daobin's swordsmanship.

This proves that Fang Yue's close combat power in the rotation realm level, even among the many seeds of the Galaxy Star Alliance, is enough to rank in the top 100!

Liu Daobin's swordsmanship was defeated and he was not discouraged. He changed his methods, and his blood rushed like a volcanic eruption. The rich blood spurted out, covering the world in a blink of an eye.

"Why come and compete with me physically?"

Fang Yue smiled, he was not weaker in this physical aspect.

A phantom of a six-foot golden body emerged, making Fang Yue stand still as if a reef in Liu Daobin's world of blood and energy!

"The supernatural powers of the flesh! This Fang Yue turned out to be an innate physical body! The flesh is strong, not weak in melee combat, and he also knows the undead methods and magic attacks. This Fang Yue is an all-rounder and has no obvious shortcomings. Such a person is quite satisfactory. The energy is scattered, but once it grows to a certain level, it becomes the hardest bone to chew!"

Ye Wushuang became interested, and he didn't need him to show up in person for such a small matter.

I just want to walk around at will and take a look at it. By the way, I want to see how the seeds of the Galaxy Covenant are.

Unexpectedly, there will be a surprise!

This Fang Yue's practice is comprehensive and has no obvious weaknesses. Such a little guy is like a jade that has not been carved. The more he goes, the wider the road of practice!

"Not only is the physical innate, he has also embarked on the road to a hundred levels of physical body!"

The corners of Alice's mouth are a bit bitter, and Fang Yue's talent is even jealous of her!

Because Fang Yue's blood ran away, he swept the sky in an instant!

His energy and blood are rising steadily, as if there is no end, between the sky and the earth, the sun and the moon are dim, and the stars are not shining, as if only Fang Yue is left to dominate the world, no one can shake him!

This is a character like a devil, and Liu Daobin can't breathe under pressure.

Although his physical body is strong, he has forged a diamond body, which is as clear as colored glaze inside and out, but it is still inferior to Fang Yue's 100-level physical body!

Liu Daobin lost again in physical skills.

Now, he had no choice but to use the thunder method that he was most proud of.

Nine-day thunder robbery, in an instant!

The purple thunder light straddles the sky, as if a purple mountain stretches down, capable of smashing the earth and shattering the sky!

This is no longer a means of the rotation realm level, but Tianwei, Heaven's Punishment, and Heavenly Tribulation, enough to kill most of the Yin-Yang realm powerhouses.

Liu Daobin, at the level of the rotation realm, it can shake the existence of the leader realm!

He is the evildoer of that era, once shining on an era!

"ended!"

Alice closed her eyes, even at the level of the rotation realm, she couldn't catch the power of Liu Daobin's thunder.

"Humbling mountains and rivers!"

The Zhang Liujin body behind Fang Yue turned into a Baizhang Demon God, standing upright, he opened his mouth and turned into a black hole whirlpool, and even swallowed Liu Daobin's purple thunder and tribulation!

Baizhang Demon God took advantage of the momentum to chase the soles of their feet and lifted them, crashing down!

Liu Daobin's projection was annihilated, and the ring dissipated!

In the first battle of the warrior ring, Fang Yue won!

"This is impossible!"

Knowing the result, this was Alice's first reaction.

Although Fang Yue was strong, he should still be far away from Liu Daobin, the proud man of the age.

Fang Yue actually defeated Liu Daobin in the same realm. Doesn't it mean that if Fang Yue was born in that era and could be in the rotation realm, the entire Galaxy Star League would be invincible?

However, whether Alice believed it or not.

The 10,000th place on this list has been replaced by Fang Yue's name!

Fang Yue defeated Liu Daobin, and he occupied Liu Daobin's ranking!

"Interesting, really interesting!"

Ye Wushuang laughed when he saw this.

He also didn't expect that he would be able to see the name change on the martial artist list with his own eyes when he watched the game casually!

The changes in the names on this list are very big!

Each name represents a strong person who can overwhelm an era.

Even Ye Wushuang himself didn't know how many years he hadn't heard of the name change on this list!

Although it is said that there are talents from generation to generation, and each has led the way for hundreds of years, but every name on this list is the strongest person in a certain realm that has appeared in the galaxy since the establishment of the Galaxy Alliance. How easy is it to replace them!

"This Fang Yue, at a young age, can have this kind of achievement is not easy! His seed status should also be adjusted! When he passes this martial arts arena, he will be given a golden seed. Identity!"

Ye Wushuang opened his mouth lightly, causing Zhang Zhao's pupils to shrink suddenly.

Golden seed.

This Fang Yue's future status in the Galaxy Star Alliance has actually improved a lot!

The identity of this golden seed is much higher than that of the silver seed. Not to mention the advantage in terms of authority, it is just that the ratio of resources is ten times that of the silver seed.

The higher the identity of this kind of child, the greater the difference between each level!

Once this golden seed reaches the level of the leader of the leader, if it is released, at least it will be a great official in frontiers!

His official position may be very scary. If he is in charge of a galaxy like the solar system, he will be in charge of at least seven or eight before he is worthy of his identity!

In other words, once Fang Yue obtains the status of Golden Seed, he will not die in the future and can successfully grow to the level of the leader of the leader, the lowest achievement is also a high-ranking official, and he will be under the jurisdiction.

"Golden Seed! Is this status lower!"

Zhang Zhao was shocked at the identity of the Golden Seed, but Alice had a little doubt.

"The achievement of Tongtian Avenue may be said to be a deviation in the direction of the cultivation base. It does not wait for combat power, nor is it equal to talent and strength. However, the performance of this martial arts arena is real combat power! Like Fang Yue. A genius of this level has not appeared in many years! Only giving the identity of a golden seed, I am afraid it will be criticized, saying that my Galaxy Star Alliance cannot tolerate people!"

Alice is still a little bit grudging about the identity of the Golden Seed.

In Fang Yue's body, she seemed to have seen herself.

The same outstanding, equally outstanding, but did not get the identity and power that he deserves.

Ye Wushuang glanced at Alice, then sighed and said, "Alice, you haven't reached the level of Great Sage, and you don't know the division of genius by the Galaxy Star Alliance. Potential and talent are certainly part of it! But this part But it's not the most important thing. In addition, there are backgrounds. Geniuses with background are easier to grow up, while geniuses without background are easy to fall! To reach the level of platinum seeds, in addition to amazing talents, you also need There is at least the full support of the major forces above the second-rate!

If not, do you think that with your talent, you can't break through the level of golden seeds? This Fang Yue is actually subject to this restriction. Today's earth is still too weak. Not only is it unable to provide Fang Yue with the slightest support, but instead needs Fang Yue to personally feed back, so I can give him the identity of a golden seed. The given identity limit is high, and no matter how high it is, the elders of the entire Galaxy Covenant must personally decide and hold a meeting! "

Ye Wushuang made the matter quite clear.

Chapter 1348: Streak

Alice had no objections at this time.

"Is Elder Ye's identity and status really that important?"

Alice looked at Ye Wushuang, her eyes burst into light!

If it weren't for her lack of background, she would now be able to enter the middle and high levels of the Galaxy Covenant. Although she hasn't reached the decision-making level yet, her position in the Galaxy Covenant would not be so embarrassing.

Say her status is low, this Galaxy Star Alliance attaches great importance to her! Regardless of resources, secret methods or various secret realms, she was given extremely generous treatment.

But let's say her status is high. Many major strategic decisions of the Galaxy Star Alliance are hindsight. For example, this time the official war with the Alpha Star Territory, she knew it was relatively late, after the two galaxies officially declared war. , She just realized later!

Ye Wushuang pondered for a moment and said, "The foundation of this Galaxy Alliance is actually the many forces in this galaxy. Although the Galaxy Alliance is the nominal leader in the entire galaxy, many big families and powerful forces are not weaker. The power of the Galaxy Covenant, the Galaxy Covenant has their support to be able to prosper to this day, so the struggles and trades in it are beyond your reach!"

Ye Wushuang also had a trace of guilt in Alice's heart, but there were some things that he could not decide alone!

After a moment of silence, Alice suddenly smiled: "Thank you Elder Ye for your guidance. Actually, the Galaxy Alliance has given me a chance to grow and become a talent. I am already very grateful!"

Fang Yue had already begun to challenge now, the Tianjiao Projection ranked 99,999 above Liu Daobin.

This arrogant is named Kardon, he is the genius of the Titans.

The Titans can be regarded as a strong clan in the universe of Ten Thousand Realms. Their blood is strong but the number of clan members is scarce.

Every member of the Titan tribe is a natural warrior, they have a strong offensive and almost invincible defense of the same level!

Caton showed extraordinary power in his early childhood.

The confrontation between Fang Yue and Caton was a complete regret of the flesh.

This Titan clan has an innate advantage in physical body, and Fang Yue's physical body is not weak at all. The two sides fought dozens of moves, and finally Fang Yue defeated each other with physical advantage!

Caton was crushed and crushed by Fang Yue in his body, and this scene fell in the eyes of Ye Wushuang and Alice, revealing an unbelievable look!

What level of physical body has this Fang Yue already cultivated to? Could it be said that he is stronger than the Titans in terms of physical body, even more perverted?

Caton's projection disappeared, and Fang Yue's ranking on the list rose again.

Ye Wushuang was a little silent.

Alice looked at Ye Wushuang and said, "I feel that the rules you set before do not seem to be suitable for Fang Yue. He broke two consecutively on the list. His talent is no longer an enchantment, and his strength is beyond. Common sense, I think his treatment in the Galaxy Star Alliance should be more than ordinary people!"

Alice's voice fell, and she sat quietly in her place.

She was watching Fang Yue's battle, as if she was enjoying one art performance after another!

Ye Wushuang was also a little silent. He was also amazed by Fang Yue's performance, but he was amazed, but he couldn't give Fang Yue any more treatment!

Fang Yue challenged ten martial artists on the list in a row, and his ranking on the list was finally fixed at the ninety-ninth ninety-ninth place!

In every battle, Fang Yue won't win more than a hundred moves, and even eight of them were defeated by Fang Yue in the opponent's best field!

One hundred points per game.

Ten games are one thousand points!

Because Fang Yue was still in the investigation period, the points he got increased tenfold.

In the end, Fang Yue's internal alliance points in the martial arts ring was 10,000 points!

"People are better than people, maddening, and shopping around, the goods should be thrown away!"

Seeing Fang Yue's points, Zhang Zhao stomped jealously!

How long has it been for Fang Yue, he has already gotten a full close to 120,000 points within the Star Alliance.

So many points are comparable to those of some saints in the Galaxy Star League!

And Fang Yue still looks indifferent, he doesn't seem to care about these Star Alliance points at all!

After winning ten games in a row, Fang Yue still has a lot of extra energy.

However, Fang Yue was no longer willing to fight anymore.

It's not that he really doesn't value the points within the Galaxy Star Alliance, but Fang Yue is unwilling to delay too long in this martial arts arena.

This warrior ring, you can play at will when you are fine.

The situation outside is changing rapidly. If the delay is too long, the army of the Dark Moon plane in the curtain city might change!

Mucheng is a key part of China, which contains a large amount of biochemical civilization materials and products!

If there is a slight mistake, and finally falls into the hands of the Dark Moon plane, then they are sinners of the ages, and they are hard to redeem!

"Since this martial artist Fang Yue has also successfully challenged and won ten games in a row, then I have to apply for as many benefits as possible for him!"

Ye Wushuang also slowly got up from the auditorium. He realized that Alice was right. The identity of a golden seed alone was not enough to match Fang Yue's current strength!

Every peerless strong man has grown up from weak to strong in this way.

If the Galaxy Star Alliance gave some help when it was weak, then the strong one would still be grateful in his heart even if he is strong!

The greater the help, the greater the gratitude!

And if Fang Yue were only given the identity of a golden seed, it might make Fang Yue feel resentful, but instead would turn good things into bad things!

However, Ye Wushuang couldn't easily decide the identity above the golden seed!

He wants to discuss with other senior leaders of the Galaxy Alliance, and finally make a decision!

Ye Wushuang turned and left.

Alice also began to exercise her relationship and contacts to fight for more rights and interests for Fang Yue!

Before leaving, Alice instructed Zhang Zhao to go to the Starlight City to walk more when he had time!

Anyway, Fang Yue will also become the seed of the Galaxy Star Alliance, even if their negotiation fails, Fang Yue is just a golden seed, and sooner or later, he will come into contact with Xinghua City.

"Xinghua City? What kind of city is this?"

When Zhang Zhao invited Fang Yue to Xinghua City, Fang Yue involuntarily showed a look of surprise.

"This Star City is one of 108 prosperous second-class starry sky cities in the Galaxy Alliance. Above the second-class starry sky city, there are 36 first-class starry sky cities in the Galaxy Alliance. Nine special-class star-sky cities, three hundred and sixty third-class star-sky cities and 1,000 fourth-class star-sky cities!

This starry sky city has a huge area, even the lowest-level fourth-class starry sky city occupies a medium-level space, and the second-class starry sky city is even higher-level space! This being able to enter the starry sky city is actually a symbol of identity and status!

Even the lowest-level fourth-class starry sky city requires at least one hundred million spiritual stones or equivalent wealth to enter it! And the third-class starry sky city needs at least one billion spiritual stones or equivalent wealth to be eligible to enter! The second-class starry sky city needs to be armed with tens of billions of spiritual stones or equivalent wealth, or some core passers of major forces can enter it. In the Galaxy Star League, at least the powerhouses above the Silver Seed in the rotation realm can enter the city! "

Zhang Zhao looked at Fang Yue with envy in his eyes.

Ten years ago, he had made up a wealth of tens of billions of wealth, and he was only qualified to enter the second-class star city!

Don't look at him on earth, but in fact, Zhang Zhao's position in the Galaxy Covenant is on the same level as the Bronze Seed at the rotation level.

This is because he is a strong man in the master realm, and the Galaxy Star Alliance gives him a little face!

In terms of potential, he is far behind the Bronze Seed at the rotation level in the Galaxy Alliance!

Under the cultivation of the Galaxy Star Alliance, the bronze seed can become a saint as long as it does not fall in the middle!

And the level where Zhang Zhao can reach the peak of the leader realm is already Amitabha.

As for becoming a powerhouse at the Saint Realm level, he himself couldn't even think about it.

"The City of Stars is extremely prosperous. Among them, there are merchants from the Galaxy Alliance and some peerless experts commissioned to auction some rare treasures, and some of them come from other worlds, other planes, and star merchants from other galaxies. Selling souvenirs! A huge part of the treasures can also be seen in the treasure house in the Galaxy Star Alliance, but the biggest advantage in this city is that you can use star coins, spirit stones, etc. to pay, without the difficult to obtain stars. The internal points of the alliance to buy!"

"Fighting in any form is forbidden in Star City! If you violate the rules, a patrol team in the city will take you away, and even the Galaxy Star Alliance can't help you!"

Zhang Zhao said that Fang Yue had already been brought into Xinghua City.

Because this Star Huacheng can be said to be an absolutely safe place!

Before Ye Wushuang and Alice return, Zhang Zhao must let Fang Yue stay in Xinghua City to avoid any accidents that Fang Yue would encounter in the process!

Fang Yue was actually not very willing to go to Xinghua City. In the end, Fang Yue took advantage of Zhang Zhao's carelessness to split up an aura clone to confuse the audience, and let Zhang Zhao bring him to Xinghua City, and his deity It is back to the deep space and time to retreat.

Fang Yue's third-layer clone of Yin-Yang realm stayed on the earth, waiting for the creatures on the Dark Moon plane to move!

Fang Yue's foreboding of this Darkmoon Plane's recent move against Screen City is getting stronger and stronger!

"Gene potions, superb gene potions! Awakening the elementary genetic level in the body, improving the life level of a race! One only needs three thousand stars, and the price is favorable for large quantities of shipments!"

"Beast blood medicine, after taking it, you will have the blood of the bear of the earth, you only need to step on the earth with your feet to never get tired!"

Fang Yue shuttled through the stall streets of Xinghua City.

I heard a continuous shout.

Fang Yue did feel the prosperity of this Star City, and many of the medicines in it could change a person's aptitude, turning a person of average talent into a rare genius!

But the prices of these medicines are not cheap!

Chapter 1349: Star City

For example, the kind of gene medicine Fang Yue first heard was not that it could make people reach the level of innate realm in one step, but made preliminary improvements to some genes so that the user could reach the third level of acquired realm. If it is taken by a newborn baby, it can indeed save some time for practice!

The blood of the earth bear contained in the animal blood potion is extremely thin. It is estimated that a drop of earth bear's blood will be paired with 1,000 kilograms of white water. After taking it, there is a very small chance that the earth bear can be awakened. Bloodline talent!

"I am ashamed to sell these things?"

Fang Yue looked at Zhang Zhao with a faint smile, showing a rather playful smile.

"The area of this Star Huacheng is very large, and it is a mixture of fish and dragons. There are all kinds of merchants. Some are lower and some are quite high. This demand varies from person to person. Fang Yue doesn't need it, and it doesn't mean that others don't need it either. !"

To Fang Yue's questioning, the answer to this call seemed neither humble nor overbearing.

His name Fang Yue has changed a little, from Fang Yue to Fang Yue's son.

And when Fang Yue's Golden Seed status is confirmed, Fang Yue's name will become His Royal Highness Fang Yue!

Every seed of the Galaxy Alliance is called His Highness.

This means that the seeds of the Galaxy Covenant will become the actual power holders and successors of the Covenant in the future!

"It turns out that the products of every level of civilization will be favored here. This gives me a very good idea. Zhang Zhao, or help me find a place, I will set up a booth to share some of the Sell some specialty products?"

Fang Yue rubbed his chin and suddenly had an idea.

Zhang Zhao was a little dumbfounded.

Your Highness, you are the seed of the Star Alliance, at least a golden seed of the rotation level.

In the future, the resources given to you by the Galaxy Star Alliance will be inexhaustible, at least at the level of rotation and yin and yang!

Set up a stall on the edge of this Star City, aren't you surrendering your status?

If Master Alice and Master Ye Wushuang knew about this, they would definitely be holding a forty-meter machete and chop me into meat sauce in minutes!

My lord!

Please be merciful and let the little ones go!

There was a feeling of sorrow in Zhang Zhao's heart.

Why did he stand on such an unreliable Highness!

"Oh, by the way, you don't need to look for a stall anymore. Since this city is so big, there must be a branch of Vientiane Pavilion!"

Fang Yue mentioned Vientiane Pavilion, and Zhang Zhao nodded quickly like a chicken pecking at rice.

This Vientiane Pavilion is a well-known big merchant in all the worlds!

In Xinghua City, there is naturally a branch of Vientiane Pavilion.

Let Fang Yue go to the Vientiane Pavilion for a stroll, the treasures in it will surely make him forget about setting up a stall.

As for Fang Yue who wants to set up a stall at Vientiane Pavilion?

This possibility does not exist!

Where is this Vientiane Pavilion? That is a well-known big business in the entire Ten Thousand Realms, and its level and status are extremely high, and ordinary people are not qualified to enter it and sell things at all!

Zhang Zhao took Fang Yue around, and finally arrived at the branch of Vientiane Pavilion in Xinghua City.

The branch of Wanxiang Pavilion is still as luxurious as Fang Yue remembered.

Fang Yue and Zhang Zhao stepped into it. Before Fang Yue showed any expression, Zhang Zhao himself was the first to sink!

The things inside are so good, it's simply too luxurious!

The pill can actually prolong the life of the strong at the master level, but the price is a bit too expensive. The pill for 30 years of life extension actually costs 300 million spiritual stones! And you need to provide some identity information. People who are not from a big power will not sell it at all!

Slaughter! Slaughter!

Three hundred million spiritual stones, it is not a small number for a strong leader in the master realm!

There is also a barrier-breaking pill, how could this Wanxiang Pavilion have such a heaven-defying pill?

It can assist in breaking through the bottleneck barrier from the peak of the leader realm to the level of the saint, and it can increase the chance of breakthrough by 10%.

But this price is really expensive!

Five billion Lingshi, taking the second one is invalid.

Why don't you rob!

Zhang Zhao's face was sometimes surprised, sometimes depressed, and extremely rich, while Fang Yue glanced at it a little, and then walked forward blankly!

"The first floor of the Vientiane Pavilion is open to everyone. If you think of the second floor, you need the status of a VIP of the Vientiane Pavilion!"

When Zhang Zhao and Fang Yue were upstairs, they were stopped by a waitress.

Her appearance is sweet and her voice is pleasant, but in her tone there is a smell that cannot be denied.

The rules of the Vientiane Pavilion are very strict, and the identity of the customers has also been divided into three, six and nine.

"Fang Yue, let's just stroll around on this first floor!"

Zhang Zhao stopped Fang Yue. He knew that the Vientiane Pavilion could not be provoked, even if Fang Yue had truly obtained the identity of the Golden Seed of the Galaxy Star Alliance Rotation Realm.

The Wanxiang Pavilion is a behemoth in the universe, and their magnitude far exceeds the Galactic Alliance.

At best, the Galaxy Covenant is to rule the roost in such a small galaxy as the Milky Way, but there are no known how many such galaxies in the Ten Thousand Realms.

The Vientiane Pavilion is a well-known organizational force in the entire Ten Thousand Realms, and its scale is beyond his imagination.

The tentacles of the Vientiane Pavilion extend to every corner of the entire universe.

It definitely cannot be shaken by a small galaxy alliance.

"I am a guest of Vientiane Pavilion, this is my identity token!"

Fang Yue smiled and took out a Vientiane Pavilion identity token from his storage bag.

Fang Yue's identity token is universally used by Wanxiang Pavilion in Wanjie.

This was handled by Xiyue Guichai to help him, because Fang Yue was all free, and the world was always chaotic, and the identity tokens of individual domains were really useless to him.

"Fang Yue, do you have the identity token of Vientiane Pavilion?"

Zhang Zhao's eyes widened!

The identity token of the Vientiane Pavilion is not so good, and to enter the second floor of the Vientiane Pavilion, the lower-level identity tokens can't enter. At least a token with more than five stars can enter Vientiane. In the second floor of the pavilion!

"May eight-star distinguished customer, Mirage, you come to the Vientiane Pavilion!"

The maid immediately became extremely humble after seeing Fang Yue's identity token.

The VIPs in the Vientiane Pavilion are also divided into three, six and nine categories. VIPs who can reach more than three months are already regarded as old partners in the Vientiane Pavilion.

If you want to obtain the VIP status of Vientiane Pavilion, you must either be able to provide rare sources of goods for Vientiane Pavilion, or be a major customer who has long-term cooperation to purchase the treasures of Vientiane Pavilion!

She can't afford to offend both of these!

Fang Yue nodded slightly and put away his identity token.

"May eight stars!"

Zhang Zhao swallowed a mouthful of saliva, obediently, what exactly is Fang Yue's origin, and who is the aboriginal who has yet to come out of the wilderness.

Zhang Zhao felt like an earth leopard.

The VIP status of the Vientiane Pavilion is also a status symbol.

Generally, business transactions with Vientiane Pavilion have accumulated to the level of a master-level magical tool before they can reach the VIP status of the January level!

And Fang Yue's VIP status is the Eighth Star of May, did this guy buy a saint-level artifact with the Wanxiang Pavilion?

Zhang Zhao couldn't help but be more curious about Fang Yue's origin and identity!

Who said that Fang Yue has no background, his status as a VIP guest of the May 8th Star in the Vientiane Pavilion is enough to make him walk sideways in the Galaxy Star Alliance!

Fang Yue stopped a little bit, before he could go upstairs.

A middle-aged man in a cyan robe ran over very warmly.

"Young Master Fang Yue is here, I really miss you! Quick, quick, quick, prepare some cakes, and invite Master Fang Yue to this VIP pantry! I have important things to discuss with Master Fang Yue! "

The middle-aged man saw Fang Yue as if he saw his own father, no, maybe he would not be so respectful when he saw his father.

"you are?"

Fang Yue frowned, this guy is too enthusiastic!

We don't seem to know each other, so don't make it as if we were involved in the foundation!

Only then did the middle-aged man react, he hasn't introduced himself yet.

"My dear Zhao Kuo, the owner of this Vientiane Pavilion in Xinghua City!"

Zhao Kuo is extremely humble.

And Zhang Zhao continued to be dumbfounded.

Is this guy so passionate?

Isn't the master of the Vientiane Pavilion all pulling, and even the strong of the Saint Realm are not birds?

In addition, Zhao Kuo's realm is extremely high, and his breath is deep, like a abyss like a prison.

At the very least, he should be a strong man in the Saint Realm!

You, a dignified saint, is such a polite junior like Yue?

"It turned out to be Pavilion Master Zhao, you are welcome, you are welcome!"

During the conversation, Fang Yue and Zhao Kuo came to the VIP pantry.

Zhang Zhao was also caught in Fang Yue's light and walked in.

Entering the pantry, Zhang Zhao looked at the layout of the pantry, finally feeling envy.

It really is a local tyrant!

The pebbles used in the random pantry arrangement of the Wanxiang Pavilion are all rare and rare stones.

The primordial stone exudes vitality, and this vitality has a direct effect on improving the speed of practice for practitioners above the cycle.

The level of the elemental stone is higher than that of the spirit stone and lower than that of the immortal stone. It is an excellent aid to practice! It's just that the amount of this primordial stone is extremely rare, and it will not be produced in ordinary mines.

Therefore, Yuanshi is rare, and most people can't buy it even if they want to buy it!

And this Vientiane Pavilion used such valuable treasures to pave the floor of the pantry, it is luxurious, it is a luxury!

"Master Fang Yue, you are really a distinguished guest of my Wanxiang Pavilion, a rare visitor! Oh, by the way, our Wanxiang Pavilion Wandian is the same. We have not settled the balance of the goods you provided us before! The total is three thousand. 7.8 million ghost shells, after the payment is settled, your VIP level in my Wanxiang Pavilion can be raised by one level again, reaching the level of June 1st!"

Zhao Kuo spoke.

Zhang Zhao was stunned immediately!

What kind of business does Fang Yue do, can the balance be settled by ghost shells!

Fang Yue knew that this call was about the balance paid by the Yin Soldier he bought.

Guibei is the universal currency of the underworld!

There is no problem with using ghost shells to settle transactions in the underworld!

Chapter 1350: Big deal

"Okay! These ghost shells turn around and get me a storage bag!"

This is common sense in business.

"No problem! This time Mr. Fang Yue is here, I don't know if he can provide us with some more goods? For example, your exclusive Baicao Liquid, Suichen Pill, and Ghost Soldiers, etc.! The payment is fine. If you choose to buy out, we can settle it immediately, or you can choose to share it, and we will collect a certain service fee after our auction! The transaction flow can be used to upgrade the VIP level! And we can provide you with special protection services To ensure that your safety will not be affected in any way!"

"Sui Chen Dan? You all know this? The Vientiane Pavilion is indeed the Vientiane Pavilion. It really has many eyes and ears!"

This year's dust pill, Fang Yue had never sold it in the Wanxiang Pavilion, and they actually knew that this year's dust pill was definitely inquired by them using their eyeliner.

This year's dust pill has the power to reverse the years.

Its preciousness is beyond words!

Zhang Zhao finally understood why Fang Yue was looking for Wanxiang Pavilion.

Dare to be sentimental, Fang Yue doesn't mention that, the Wanxiang Pavilion rushed to sell him something!

However, isn't Baicao Liquid the most common basic elixir?

Its rank is not even the lowest-level pill.

How could Wanxiang Pavilion beg Fang Yue to let him sell such things?

Zhang Zhao's heart was full of shock, but also countless puzzles.

"I still have about one million drops of this herbal liquid! I can sell all of them to your pavilion. If Guibing, I don't have any ready-made goods in my hand. You need to customize and purchase some materials to refine it. As for the Suichen Pill, there are still three, but the pill of this level cannot be settled with spirit stones!"

Fang Yue talked freely, in business, there is no sentiment to talk about!

"Okay, no problem! We have accepted all the millions of drops of Baicao Liquid, but we know the wealth of Master Fang Yue. This spirit stone is probably of little value to Master Fang Yue. In this way, we use One hundred drops of the Nine Heavens God and Demon Liquid in exchange for these Baicao Liquid, this Nine Heaven God and Demon Liquid is a tightly-selling cargo in the ten thousand realms, even if it is not needed by Fang Yue himself, it can be used in exchange for some rare and precious resources!"

When Zhang Zhao heard the conversation between Fang Yue and Zhao Kuo, he really had an urge to turn his head and leave.

It's too shocking, it's too shocking!

Nine Heavens Demon Liquid, what is that?

Even in the Galaxy Star Alliance, limited redemption is required, and the number of redemption limits is different depending on the authority.

Even within a hundred years of his time, he could only exchange one drop of Nine Heavens God and Devil Liquid at the exchange.

As for Fang Yue, he has a hundred drops of income casually.

And looking at Zhao Kuo's appearance, he was still very frightened, lest Fang Yue would not want it.

You did it on purpose, right?

It must be intentional for you!

This is hitting me sincerely, stimulating me, right!

At this time, Zhang Zhao had countless thoughts in his heart like rolling waves.

His entire human values collapsed.

In the end, who is the native, who is the poor!

Fang Yue! Please take my knees!

Fang Yue didn't know Zhang Zhao's complicated psychological activities, and he didn't bother to know.

"Pavilion Master is polite!"

Although Fang Yue said so from his lips, he did not decline.

Why are you refusing, Nine Heavens God and Devil Liquid! Good things, hard currencies, are considered top-notch goods in the entire universe!

"Young Master Fang Yue, can I customize a batch of this Baicao Liquid in the near future? There is a big man who was shocked to his internal organs when he was fighting against his old enemy. He needs a lot of Baicao Liquid to assist in healing!"

Zhao Kuo smiled apologetically.

Millions of Baicao Liquid is far from satisfying his appetite.

This thing can prolong lifespan. Although there are some limitations in the realm, the rich men have never lacked children and grandchildren to train!

Therefore, the market for Baicao Liquid in Fang Yue's hands is very smooth, and some slightly larger families even have to buy one hundred thousand drops, one million drops!

Their plot is no longer the business of their own generation.

There are next generations, next generations, next generations.

As long as Fang Yue's version of Baicao Liquid has not been made public, and mass production has not been realized, these things will always be in demand.

Because its cost performance is too high!

Therefore, in order to get more share of Baicao, Zhao Kuo did not hesitate to bow down to Yue Bei.

Fang Yue was silent for a moment, and then said: "I can produce at most one million drops of Baicao Liquid in a month. This is already my limit!"

"Thank you, Master Fang Yue!"

Zhao Kuo let out a sigh of relief. Although the 1 million drops of Baicao Liquid is still far behind his expectations, it is still better than nothing, and Liao has gained.

In fact, Fang Yue's silence was deliberate. This silence made him feel entangled, and it seemed that this herb liquid was precious.

People often don't know to cherish the things that are easily available. In fact, to be honest, as long as he has made a million drops of Baicao Liquid with enough materials, he himself doesn't need to spend too much time.

The refining of Baicao Liquid from small iron is an automated process, and one million drops of Baicao Liquid overnight is absolutely no problem!

However, if Zhao Kuo knew about this, would they still co-operate with themselves so peacefully?

Fang Yue will always try to figure out human nature with the greatest malice!

"So other transactions?"

Zhao Kuo stared at Fang Yue, who was a big gold mine that had not yet been fully excavated.

"For ghost soldiers, I accept customization. You have negotiated the price and the other party's requirements. I can customize for employers. Of course, there are only ten ghost soldiers in a month, and all of them are ghost soldiers of Yin-Yang realm and below. ."

Fang Yue hasn't had much thoughts about making money recently. Today's crisis on the earth cannot be solved by spirit stones or any resources!

The reason why he took over Zhao Kuo's task was entirely because he gave Vientiane Pavilion a face.

When Zhao Kuo heard the words, he nodded slightly: "This matter, we can slow down a little bit, and then discuss!"

"By the way, there is one more thing I need to tell you! My hometown Earth recently needs a group of resources for cultivating practitioners to grow quickly. I can use some of the resources from my hometown in exchange for it! I don't know if Pavilion Master Zhao is interested in discussing this business. talk?"

Fang Yue introduced the topic to the topic.

Zhao Kuo raised his eyebrows slightly.

"Your hometown? The earth? According to my understanding, this planet is actually just a small planet without civilization!"

The Vientiane Pavilion has long been investigating Fang Yue's details. For the behemoth Vientiane Pavilion, each of its collaborators must figure out the bottom line. Otherwise, once there is something wrong, there will be a place to cry. No!

"Yes, it's the earth!"

Fang Yue showed a bright smile.

"Although it is only a small planet that is not influential in civilization, it is my hometown after all. You should understand the current situation of the earth. It takes a period of time for strong enemies to grow up! As a member of the earth, I am willing to help mine My mother strives for such a chance to grow up!"

Fang Yue looked at Zhao Kuo.

Zhao Kuo thought about it for a moment, and said, "Then what do you want? You are my long-term partner of Vientiane Pavilion and our VIP. We will naturally try our best to meet your requirements within a reasonable range! Of course, if your request is excessive, you will need to talk about the price!"

Fang Yue smiled and said: "Pavilion Master Zhao is really refreshing. There is no trace of muddle-headedness in business talks. Today's earth is indeed poor and weak, surrounded by powerful enemies. However, the potential of the people on earth cannot be underestimated! Many of them are. It is in this turbulent and turbulent world that they are growing up quickly, and their future achievements are limitless! But what they lack is systematic training and some opportunities for growth! Therefore, I want to have a hundred interstellar space with Pavilion Master Zhao every year Selection of mercenaries!"

"The selection of interstellar mercenaries?"

Zhao Kuo's eyebrows trembled.

"Fang Yue, are you sure you want your planet's arrogant to go to the interstellar mercenaries to exercise themselves? This ugly thing is at the forefront! This interstellar mercenary is so powerful, you should understand! Everyone is an executioner who crawled out of the dead. It's so fierce and evil, people on earth may be dead and dead, and they can't even float a splash of water!"

Fang Yue smiled and said: "I gave them this opportunity. As to whether they can seize it, it depends on their own ability and good fortune. You and I can grow to this point, which one did not grow up in the blood and blood!"

Fang Yue's words gave Zhao Kuo a sense of sympathy, thinking back when he was young, didn't he also crawl out of the dead with his hands filled with blood?

His current high position is piled up on the bones.

Thinking of this, Zhao Kuo's mind was somewhat open-minded.

"I have long heard that you Fang Yue is a hero, and you have a little contact today, and it is true! As long as you are a courageous guy, as long as you don't fall halfway, you will be able to lead the earth to the peak of this ten thousand world!"

"Absurd!"

Fang Yue handed over, very polite.

Fang Yuelian had no channels to enter the selection of interstellar mercenaries. Don't talk about Fang Yue, even the Galaxy Star Alliance doesn't necessarily have such channels. The interstellar mercenary is a very old organization. It straddles the galaxy and its power is so huge that the saints are trembling for it!

Interstellar mercenaries, as long as they don't die, even if they only spend ten years at the bottom, they are rare masters among their peers after returning!

And if something happens, you can be a squad leader among the interstellar mercenaries. When you return to Earth, you will be a powerful one. Even the masters of the Dark Moon plane have to weigh the weight of the interstellar mercenaries!

"There are 1 billion stars here to manage the relationship between the interstellar mercenaries, and 10 billion stars. If you think any of the selected earthlings has the potential to become a big man, please help me. If this tens of billions of stars is not enough, you can ask me for it again!"

Fang Yue's move was 11 billion stars, finally let Zhang Zhao understand what the so-called rich wealth means.
