

God of Life 1351

Chapter 1351: Bribes that cannot be refused

Zhao Kuo squinted his eyes slightly. As expected, the information is not false. Fang Yue himself is a real local tyrant. He is rich in the enemy's country, ordinary resources, spirit stones, star coins, etc., all the temptations to him are Not big!

"Brother Fang Yue is polite! Interstellar mercenaries are all trivial things, but Brother Fang Yue's generous moves are indeed a blessing to the people of the earth. If there are really outstanding talents, cooperate with these star currency resources in the hands of Brother Shang Yue , Enough to grow to the peak of Yin-Yang realm."

Zhao Kuo did not dare to easily promise the level of the master realm.

The master realm and the yin-yang realm are another shocking span.

The yin and yang realm just divides the yin and yang and merges the sun and the moon, while the leader realm needs to perceive the calamity and fight against the evil.

The Yin-Yang realm is a great power, and it can be regarded as a powerful one in the ten thousand realms, and the leader realm has the capital to start being called the ancestor, because his vision is wide enough, and the methods and supernatural powers are also shocking!

"However, I hope that Pavilion Master Zhao will not tell the story of the interstellar mercenary! Otherwise, it is easy to be caught and threaten me with the safety of the people on this earth!"

"This is a little thought, not respectable, I hope Pavilion Master Zhao will not dislike it!"

When Fang Yue spoke, he launched a square and square small brocade box.

Zhao Kuo opened the brocade box. Among them was a Suichen Dan that the two of them had mentioned during the conversation.

Zhao Kuo's heart trembled slightly, and finally Sui Chendan was subordinated silently.

Zhao Kuo knew that this was a great favor, a great cause and effect.

As long as he accepted it, he would owe Fang Yue a lot, but Zhao Kuo couldn't resist this temptation.

Even as a saint, there is an end to this lifespan, and there will be a day when the blood dries up and the blood dies.

At that time, this old dust pill might be the place for him to reverse the traces of the years and make the last wave of hope!

"Brother Fang Yue, don't hesitate to talk about anything in this Star City in the future, I will come to support you!"

Afterwards, Fang Yue actually rented a booth with Zhao Kuo to set up a stall in the Vientiane Pavilion.

Fang Yue sells the medicinal medicine he recently developed.

There are only three kinds of pill.

One turn of pure body pill, one turn of iron armor pill, one turn of Wuhen pill.

When the three elixirs appeared, even Zhao Kuo had the urge to take all the elixirs into his bag.

Nothing else, the key is that the effects of the three medicines refined by Fang Yue are too great!

This pure body pill is fortunate. It is mainly aimed at practitioners at the Yin-Yang level and below. After taking it, it can strengthen their meridians, bones, and muscles by 30% to make up for the lack of physical aspects of the Qi refiner. Such a pill, Although it is rare in the market, besides Qufang Yue's family, there are other medicines with similar or even better effects!

However, it is the effect of this pill that makes Zhao Kuo jealous.

After taking this medicine, there is a 100% chance of awakening a kind of talented supernatural power, King Kong.

This kind of magical power can only be used once in a month, which can double the physical defenses and attacks. The time to perform each time should not exceed ten breaths, and it will easily lead to a lack of physical strength after the display, and fatigue will appear within three days.

However, this magical power is a magical power to save life at a critical time. Compared with the almost negligible cost, it is simply a means against the sky.

The second kind of medicinal pill turned to Iron Armor Pill, and it was also quite effective! The iron armor pill is effective for practitioners below the Great Sage. This iron armor pill is a kind of medicine, but it is also an ancient auxiliary technique, the introduction to "Iron Armor Magic Technique".

Taking an iron armor pill is to instantly understand the initial chapter of the iron armor pill. With the help of heaven and earth aura, a layer of armor can be condensed on the surface of the body, providing a lot of defense!

With the deepening of "Iron Armor Magic Power", the effect of this armor will continue to improve.

The effect of the first layer of armor can resist attacks from the ordinary world level.

The effect of the second layer of armor can resist attacks at the ordinary rotation level.

The effect of the third layer of armor can resist attacks at the ordinary Yin-Yang level.

The effect of the fourth layer of armor can resist attacks at the level of ordinary leaders.

The effect of the fifth layer of armor can resist attacks from ordinary saints.

The effect of the sixth layer of armor can resist the attacks of the ordinary great holy realm level.

Although the name of this iron-clad magical power is not very resounding, the name of this set of auxiliary exercises is often spread among practitioners at the level above the master realm.

This set of exercises is notoriously difficult to learn, and even most people can't even understand the initial chapter. But once this technique is completed, the defense power is quite abnormal!

However, Fang Yue's refining iron armor pill can draw people into it and overcome the most difficult level of this technique.

The effect of the first two elixirs is extremely against the sky.

And Fang Yue's last Wuhen Pill was good fortune yin and yang, a pill that even the strongest of the Great Sage level would be greedy.

The meaning of this Wuhen Pill is that there is no trace of time! After taking it, it can treat all kinds of open wounds and dark diseases in the practitioners, and even the dark diseases of the strong in the Great Holy Realm can be relieved or even cured.

This pill is already beyond people's imagination.

Only the elixirs unearthed from the ancient ruins can have similar effects.

However, the pill that Fang Yue refined had a good effect, and the price was also quite expensive.

No pill can be purchased with spirit stones or star coins.

The three kinds of medicines must be exchanged with various grades of materials, following the oldest bargaining model.

However, Fang Yue's conditions for letting go are relatively loose. If there is no material, it is completely no problem to exchange something unearthed in the ancient ruins!

The three medicines are sold in limited quantities.

And Fang Yue only sells for three days.

One turn of Cui Ti Dan is limited to 100 pieces a day.

It is limited to ten pieces a day.

A turn of the year old dust pill, limited to one a day!

As soon as Fang Yue's pill came out, it immediately attracted the attention of all parties.

However, Fang Yue's offer was not low, but it left most people on the sidelines.

Among other things, Fang Yue's body-tempering pill turned out to be an extra 3,000 ice fruit.

This ice fruit is actually not a rare thing. There are traces of ice fruit in many snow-covered places, but this ice fruit is still in short supply.

Because this ice fruit is the raw material for the refining of a variety of high-grade pill, and some rare materials need to be smeared with the juice of the ice fruit.

If Fang Yue only needs one or two Fore Frost Fruits, each family can take them out at will, and Fang Yue will have three thousand Frost Fruits when he speaks, they can't help being more cautious!

The prices of the remaining two elixirs were even more outrageous.

Some of the materials Fang Yue asked for were even the main materials for forging saint-class weapons.

These materials, all belong to the kind that is hard to find.

They still have a lot of hesitation to exchange such precious materials for the medicinal pill that has just appeared and the effect is unknown!

An afternoon when Fang Yue put out the medicine.

Finally someone came out and wanted to buy Fang Yue's medicine.

This is a tauren with a burly stature and a height of three meters. A thick flame burns on his body, making the surrounding air extremely hot.

He carried a giant axe behind his back, five meters in length, giving a strong sense of oppression.

However, he is not the real buyer.

The real buyer was a young man in Tsing Yi with a weak body and some like bamboo poles. His eyes were long and narrow, sharp as a knife, giving a light like a poisonous snake.

His eyes catch people, giving people a trembling feeling.

"Hell world, Lei Feng! Give me this body tempering pill!"

Lei Feng's voice was indifferent, which made people feel extremely uncomfortable.

"This reward..."

Fang Yue didn't worry that this Lei Feng would kill people more and more, because this was the Star Hua City, the Vientiane Pavilion, and even the powerhouse of the Saint Realm had no guts to act rashly here.

"boom!"

Lei Feng left a broad sword on the ground in front of Fang Yue, and the top of the broad sword was still dripping with red blood.

"The weapon of the master realm level!"

Fang Yue was a little surprised.

"I don't have the materials you want, but I think this stuff is worth it!"

Lei Feng's voice is still cold, but he has no intention of buying or selling.

He was right. If this master-level weapon were sold, it would definitely exceed the materials Fang Yue asked for, and even more than enough.

"I took this weapon by killing people outside the city. It is not clean, but it is more than 50% of the price you asked. It depends on whether you dare to accept it. If you dare not, I can give you other things. Come as a reward, the origin of those things is clean but there will be no premium!"

Lei Feng looked at Fang Yue, with a playful smile on his mouth.

Fang Yue hesitated for a moment, then gritted his teeth and said, "This wealth is in danger, even if the backing of things is not clean? What if the backing of things is not clean? This world is so big, how many backings are clean, this leader-level weapon also said, At the level of the weapons of the Saint Realm, there are very few under the sky, absolutely no more than the number of Saints.

A few of the weapons in their hands are really clean and not the culprit for you to fight for me, stained with blood. "

Fang Yue's words made the look on Lei Feng's face even more weird, but Lei Feng finally gave a thumbs up and said, "Good boy, courageous! Although I don't know your origins, I can Smell a breath from the origin of hell, maybe one day, we can see you in hell!"

After speaking, Lei Feng picked up Fang Yue's pill and left.

The giant behind him followed, and every step he fell made the earth tremble.

Fang Yue picked up the leader-level weapon and played it in his hand, a faint smile curled up at the corner of his mouth.

The real value of this giant sword is not in the giant sword itself, but in the blood of a saint-level beast that has not been dried yet, and the essence is still there.

These blood Fang Yue collected at least twenty drops.

Every drop of blood of this saint-level creature is extremely precious.

Chapter 1352: Crazy order

If these things are made of words, the value of a drop of essence and blood is even better than an ordinary yin-yang realm peak level weapon.

This weapon was taken by Lei Feng after killing the saint?

Fang Yue's expression changed, and Fang Yue had a preliminary understanding of Lei Feng's ferocity and strength.

Soon after the deal was completed.

Zhao Kuo came in a hurry.

When he saw the broad sword in Fang Yue's hand, his face changed slightly, a little pale.

"Fang Yue, you actually dare to make a deal with Lei Feng? Do you know his true identity? He is one of the ten most murderous people in this Star City! What he does is the sale of killing people and selling goods. He himself is a saint. The strong man at the pinnacle is said to contain the blood of the ancient Raksha tribe in his body! The more he fights, the more bravery he fights, the stronger he kills! Few things in his hands are clean!"

Fang Yue saw Zhao Kuo's slightly changed face, he couldn't help but shook his head slightly. As expected, Zhao Kuo's mind was not huge enough!

What are the murderers of Star City afraid of?

The more such a person, the more unscrupulous and the more worthy of friendship.

Such people tend to have quirks and have no scruples.

After a good relationship, you can live and die for you, and it is the best reliance and support.

And the saints of the so-called big forces have too many scruples behind them, and they are often **** one by one.

When you need them, you think about them one by one, making it difficult to make a decision.

"Forget it, since you have a choice, I won't dissuade you anymore. Anyway, you can do it for yourself. I have already reported your affairs to the senior management of Wanxiang Pavilion. They think they can buy one of the three medicines! As for the price you offered, they also think it is acceptable. Anyway, the Vientiane Pavilion lacks everything, but there is no shortage of money or resources!"

What Zhao Kuo said made Fang Yue all kinds of envy and hatred.

However, it turned into three transactions at once, and Fang Yue achieved a good start.

Seeing that Zhao Kuodu had bought Fang Yue's pill on behalf of the Wanxiang Pavilion, some other forces that expressed wait and see also started buying Fang Yue's pill.

Vientiane Pavilion's vision is right.

In judging the value and efficacy of the pill, they are much more professional than themselves.

Fang Yue's medicine was quickly sold.

For the next three days, every day!

By the fourth day, Ye Wushuang and Alice came together.

Fang Yue was still guarding his booth, with a stack of orders in front of him.

Fang Yue's three elixirs have recently gained fame in Xinghua City.

Especially the third kind of pill, the Third Rank Wuhen Pill, each pill is to cure a saint-level powerhouse from a dark illness for many years, and it is simply Luoyang Zhigui for a while.

Some began to hesitate and didn't buy Fang Yue's pill, all of them beat their chests and feet!

All of them have red eyes!

Knowing that Fang Yue's pill is so effective, even if they trust someone to build a relationship, they still have to get some of Fang Yue's pill.

When the door of the Vientiane Pavilion opened on the fourth day, representatives of the various forces surrounded Fang Yue and Tuantuan!

They prescribed various conditions to buy Fang Yue's medicine.

Some big families even invited Fang Yue to be their guest.

This will enable Keqing to do long-term business!

There are always these families in Star City, with all kinds of requirements.

After hesitating for a long time, Fang Yue decided to accept part of the order, but the price is more than 30% higher than when it was sold at Wanxiang Pavilion!

The messengers of those families all agreed as if a chicken pecking at rice.

These pills are effective for the saints, and each saint is the pillar of the family behind them.

It's about the combat power and practice of the saint strong, this is no longer the time to care about resources.

These medicinal pills are difficult to obtain even if they have money on weekdays, and resources.

Even if Fang Yue doubled the price of pill, they would not refuse!

In the end, Fang Yue received hundreds of orders and corresponding deposits, and the envoys of these families just stopped.

"What is this scenario?"

Ye Wushuang stared blankly at the black human head in front of him.

Fang Yue was surrounded by him, and he couldn't see Fang Yue's shadow at all!

Zhang Zhao's bitter melon look.

"Fang Yue was idle in this Star Huacheng and had nothing to do. He borrowed the site of the Vientiane Pavilion to sell pills! Look, isn't this being trapped in the center and asking him to accept orders?"

Zhang Zhao has been completely squeezed out of the crowd!

Each of these messengers were extraordinary existences, the lowest realm surpassed him by a small realm, the powerhouses at the top of the leader realm accounted for the majority, and there were even a few saints who came personally.

Regarding the pill that affects the future of the saint, no family is willing to miss the opportunity!

As a result, the result was the scene that Ye Wushuang saw with his eyes!

"Hey, even Zhang Teng is here! What kind of pill is Fang Yue selling? This Teng is an old saint five hundred years before I became a saint!"

Alice saw a familiar figure from behind.

Zhang Teng's reputation in the entire Star China City is quite large, not because of his amazing combat power, and his cultivation reached the level of a saint.

Although the Saint Realm is rare, there are still quite a few people in Star City.

However, Zhang Teng's knowledge in the formation is amazing, and he has reached the level of the masters. The formation he set up has once killed several great sages, so it can be regarded as an ancestor-level existence in this Star Huacheng. !

Zhang Teng came to buy the pill in person, no wonder Alice was surprised.

"Alice, are you here to buy the pill too? This Fang Yue's pill is indeed effective. My old partner Sima Zhutian bought a One-Range Wuhen Pill the day before yesterday. He took it that day, and he kept it for hundreds of years. His injuries and dark illnesses were wiped out. It is estimated that in ten days and a half, he will be able to return to the top and become the strongest of the first echelon in the Saint Realm, even with so many years of insight and precipitation of the law. I will be no exception if he can reach the level of the Great Sacred Realm!

Zhang Teng is a person with status, and of course he will not be crowded with those messengers.

Zhang Teng saw Alice talk to her.

Alice grew up in the Galactic Star Covenant from the time of rotation.

Many strong people of the older generation have personally pointed her out.

Zhang Teng is also one of them.

The saint has no jokes.

Zhang Teng's words made Alice's heart even more turbulent.

Sima Zhutian, who is that? That was the existence that ranked the top ten in strength among the saint-level powerhouses in the entire galaxy three hundred years ago.

He claims to move the heavens with one thought, and with one as a hundred, even if hundreds of powerful people of the same realm besiege him, he can barely support him.

If it weren't for the later siege of several great saint realm powerhouses, which caused heavy damage to the internal organs, damaged souls, and disappeared, now the entire Galaxy Star League should still be his legend.

Sima Zhutian's injuries are difficult to heal because the entire Milky Way galaxy is extremely famous. In recent years, Sima Zhutian has traveled to the residences of many famous doctors in order to treat his injuries, seeking medical advice.

But every time he returned without success, even the great pharmacist of the great sage level was helpless against Sima Zhutian's injury.

But Fang Yue's turn Wuhen Pill completely cured Sima Zhutian's injuries.

This is simply something that can shake the entire Galactic Alliance.

How many in the galaxy seem to be the older generation of strong men like Sima Zhutian because of injuries and illnesses on their bodies, so they hide themselves and dare not go out of the mountains.

Many of these older generations of powerhouses are brazen and tyrannical. If their injuries can be cured by Fang Yue, the strength of the entire Galaxy Star Alliance will increase by at least 10%.

Alice's eyes widened.

She has a deeper understanding of Fang Yue.

"Wait, I'll sign a contract with you later."

Fang Yue saw the shadows of Ye Wushuang and Alice, and finally squeezed out the crowd.

"Good senior Ye, good senior Alice!"

When Fang Yue saw the two, he was extremely respectful.

After all, the fate of our family is in the hands of others. If he has the attention and identity of the Galaxy Alliance, he will be able to mobilize more resources to contribute to the earth.

"Fang Yue, you have done a good job in this business!"

Ye Wushuang looked at Fang Yue with a smile.

Originally, he was only worried about what would happen to Fang Yue on Earth, so he let Fang Yue come to Xinghua City to temporarily avoid the wind.

Unexpectedly, Fang Yue came to this Star China City and was immediately stunned. He and this Wanxiang Pavilion had no pretense, and it was impossible to set up a stall here to sell things.

But having said that, we have worked so hard to obtain more resources for you. Is the higher-level quota just for you to set up a stall and sell things here?

Ye Wushuang thought of the efforts he and Alice had made, and then looked at Fang Yue, who was full of competition, and suddenly an indescribable feeling grew in his heart.

"Hey, average, average, make a little pocket money!"

Fang Yue deliberately concealed the huge stack of orders in his hand.

Ye Wushuang glanced at the numbers above, and suddenly felt a little bit nervous.

Tyrant!

Big money!

This is just today's time, the numbers on the order even touched him!

However, as a great saint-level powerhouse, Ye Wushuang still has the demeanor as a peerless powerhouse, he was naturally embarrassed, and he lowered his worth to grab food from Fang Yue.

"Fang Yue, Alice and I have fought for your rights in the Galaxy Star Alliance these days. We tried our best to win you a chance! Your expedition period can be extended to half a year! If you are here It takes half a year to make a satisfactory result to the Galaxy Star Alliance, and you can be promoted to a platinum-level rotation seed status. Before that, all you enjoyed were the gold-level rotation seed status!"

Ye Wushuang was quite satisfied with his results.

How difficult it is for this seed to move from gold to platinum level.

Ye Wushuang, who was well versed in the internal system of the Galaxy Star Alliance, understood it best in his heart.

Without background, without identity, this is almost impossible!

But now that the Galaxy Star Alliance is willing to give Fang Yue an exception, it is an unprecedented thing!

Chapter 1353: New survey

"Oh!"

For this news, Fang Yue's face was neither joy nor sorrow.

This is really not good news.

"Fang Yue, what is your attitude? Will this matter not let you see a glimmer of light and opportunities, and make you excited about it?"

Ye Wushuang was quite dissatisfied with Fang Yue's attitude.

He used the strength of his old nose to win the benefits for Fang Yue. This Fang Yue didn't even know how to cherish and thank him.

Fang Yue smiled and said, "Lao Ye, I admire you better than me when it comes to fighting power! But when it comes to people's hearts, I understand better than you! You fought for a long time, and the Galaxy Star Alliance tells you what specific conditions I need to achieve to get Will their recognition become the seeds of the rotation of the platinum level?"

When Fang Yue spoke, Ye Wushuang's heart slammed.

"The Galaxy Alliance said that this kind of thing is unprecedented, and they will naturally have their own considerations! At that time, there will be a powerful saint who will investigate you specifically! He will know the content of the investigation on you!"

Ye Wushuang told Fang Yue what the Galaxy Star Alliance had said to him.

Fang Yue said with a faint smile: "That is no? No good! If not, no matter how far I achieve it, the Galaxy Star Alliance can say that I have not reached the standard, and then prevaricate you. In this case, the Galaxy Star Alliance will give you and Alice enough face, and at the same time, you can not break the existing rules!"

Ye Wushuang's heart had realized that this possibility would happen, but out of subconsciously maintaining the Galaxy Star Alliance and his own dignity, Ye Wushuang wanted to subconsciously rule out this possibility!

But Ye Wushuang was surprised to find that the more he wanted to eliminate this possibility, the more he felt that this possibility would happen.

This is in line with his consistent understanding of the Galaxy Covenant.

If this is true, doesn't it mean that he was completely in vain on this trip?

Fang Yue left Ye Wushuang, who was stunned in place, and fell into the crowd again.

Nothing is free in this world.

Behind the free bills, there are often bigger bills!

Fang Yue's reservation finally ended in the evening.

The list in Fang Yue's hand is over a foot thick!

These orders are all from Fang Yue's future contacts!

In this Star Huacheng, a mixture of fish and dragons, with many forces, many of them are the existence of talking in the galaxy!

At this time, Ye Wushuang saw Fang Yue again, a little disappointed.

"Fang Yue, what you said is correct. I have verified through various information. This time the person who came to evaluate you is Xu Ying. Although Xu Ying is only the third level of the Saint Realm cultivation base, his methods are very good. Spicy, vicious in mind, belongs to a saint in my opposing camp, but anyone I value, he will suppress it at all costs, I am afraid that the high level of this Galaxy Star Alliance did it deliberately!"

Ye Wushuang gritted his teeth a bit.

Unexpectedly, it would end up like this in the end.

In the process, he paid quite a lot.

"Lao Ye actually doesn't need to be angry! Some things, bad things may not turn into good things!"

Fang Yue sneered.

Ye Wushuang looked at Fang Yue with apologetic expressions in his eyes.

"Fang Yue, you don't know how vicious this promise and the forces behind him are! They are the kind of people who do nothing to achieve their goals! If they know that you and I are in the same line, they will definitely I will try my best to kill you!"

Ye Wushuang's tone revealed a gloomy taste.

Originally, he wanted to use his personal connections and status in the Galaxy Star Alliance to cultivate Xiaoxia, but he didn't expect to become Fang Yue's fate.

The higher Fang Yue showed his talent.

Xu Ying's line of Fang Yue's attack was more ruthless.

Fang Yue said calmly: "Lao Ye, I am willing to worship you as a teacher. Are you willing to accept me as an apprentice?"

Ye Wushuang was stunned, and then eagerly said: "Fang Yue, I admit that I really have taken a fancy to your talent and strength, but let's forget about your apprenticeship! If your relationship with me is indifferent, Xu Ying There is still a very small possibility that the line will let you go, and if you become my disciple, Xu Ying will definitely kill you even more impatiently!"

Ye Wushuang knew too much about the temperaments of Xu Ying and others, and they fought for a lifetime. With each other, they really have achieved the level of knowing the roots and knowing the bottom, knowing oneself and the enemy!

Fang Yue smiled and said: "I become your disciple, which naturally means that I am willing to bear your cause and effect! This promise and the whole line wants to harm me, we may not be able to stand by the soldiers, and the water will cover the earth, in order to keep changing. , Take them down!"

"This....."

Ye Wushuang still subconsciously believed that Fang Yue's cultivation was too shallow after all.

Letting him participate in this level of struggle is extremely irresponsible to the opponent Yue!

At this time, Alice, as an outsider, saw it better than Ye Wushuang.

"Lao Ye, that is to agree to Xia Yue's request! This Fang Yue has created too many miracles and myths, even I am surprised! I believe he will handle these things!"

Even Alice spoke for Fang Yue, what else could Ye Wushuang say.

He had no choice but to sigh and said, "My child, I am to blame for everything this time! If you need compensation, just say it!"

Fang Yue took a deep look at Ye Wushuang: "I just hope that we will kill the people on the promise side, and you can share more of the trophies on them!"

Ye Wushuang was shocked and dumb.

When is this, this kid is still thinking about his spoils.

"Okay, no problem!"

Ye Wushuang fully agreed.

Fang Yue smiled knowingly: "Then you just watch it!"

"Alice, do you really think Fang Yue has no problem this time?"

In the Star City, Ye Wushuang and Alice agreed to Fang Yue's request to stay in this Star City, not going anywhere, waiting for the news of his victory return.

Ye Wushuang had lost the immovable demeanor of a great saint at this moment, and he was anxious like an ant on a hot pot.

If he changes another person, he doesn't need to care so much regardless of life or death.

However, Fang Yue's talent was too high before. If Fang Yue died because of him, he would be the sinner of the entire galaxy!

Alice stretched her hands and said, "Do you think I can do anything? There is also a great sage standing behind Xu Ying, and that great sage's cultivation base is higher than you! If you force a move, the one behind Xu Ying The great sage will definitely also take action. When the time comes, you two will fight, and a little energy fluctuation will be able to shake Fang Yue alive! On the contrary, you and I are both hidden in the dark, which is the safest situation. With a slaughter knife, Xu Ying and the people behind him killed Fang Yue. This does not violate the rules of struggle within the Galaxy Star League, but if they really send people who are much higher than Fang Yue's cultivation level to kill Fang Yue , This will lead to many alliances within the Galaxy Star Alliance, everyone is in danger, and they will be promised together. If they can really do that, this Fang Yue can look down even if he is dead!"

Zhang Xun has been in an ambush outside the Star City for a full six hours. If he was a professional killer in normal times, he would naturally not have a wave of waves in his heart.

But this time is different.

The success of this assassination is related to the fate of the Tianfeng Empire behind him!

The object of his assassination was Fang Yue, who was constantly obstructing their advance and making waves in front of the army on the Dark Moon plane during this period.

This time the message to him was a big figure from the Galaxy Star Alliance.

Just how old this big man is, Zhang Xun is a humble killer like this, unknown.

Anyway, the only thing Zhang Xun knew was that Fang Yue had to die.

As long as Fang Yue dies, the reward given by that big man is enough to expand the territory of the Tianfeng Empire tenfold in a hundred years!

If he fails, he will be the sinner of the entire Tianfeng Empire, and he will die!

Unconsciously, drops of sweat leaked from the palm of Zhang Xun holding the hilt.

His breathing became a little disordered!

When was the last time I was so nervous?

Maybe it was the day of sanctification three hundred years ago!

He dignified that a saint who wanted to assassinate Fang Yue, a junior whose cultivation was at most at the Yin-Yang level, would actually sweat his palms.

Zhang Xun laughed at himself.

It really is old!

At this moment, Zhang Xun waited for Fang Yue, who was still still, to leave the city!

Fang Yue walked out of Xinghua City with a bunch of local specialties carrying big bags.

Zhang Xun adjusted his breathing a little, this Fang Yue didn't know that he was about to die, he was really too careless.

Such a goal, he has the confidence to kill with one blow!

This killer's way, the best situation is this kind of mental arithmetic!

Hold your breath!

cohesion!

Keep your interest!

Shot! ! !

In a certain moment, Zhang Xun's sword light pierced Fang Yue's throat like a poisonous snake emerging from a cave.

The silver light is stunning, like a flying fairy outside the sky!

Fang Yue's eyes widened.

It seems to be shocked by the sight in front of me!

Sword out.

Fang Yue's body was shattered, there was no time to defend, no time to dodge, Fang Yue's body turned to dust under the crush of the sword light, and completely dissipated!

Ding dong.

A sturdy storage ring fell to the ground!

"It's too easy, it feels like being in a dream!"

Zhang Xun couldn't believe it. He stabbed to death the target who had been nervous for a long time.

He thought there would be a lot of fights between them!

Zhang Xun exhaled a foul breath.

Picked up the storage ring on the ground, you can call it a day!

However, Zhang Xun hasn't waited for Zhang Xun to relax completely.

A giant hammer banged down, like a sky collapsed!

"The **** guy actually killed Fang Yue one step ahead of us! I had to capture him alive and go back to practice alchemy!"

A giant appeared, the sledgehammer in his hand crashed down, and the earth cracked under his feet, and the world seemed to belong to him!

The crisis is coming!

Zhang Xun turned around and was a sword!

The sword light swept through the air, cut off the giant's neck, blood spurted, and the head fell.

This is Zhang Xun's cultivation as a saint-level killer!

When he shot, Zhang Xun was able to hide his breath, making it difficult to see his details.

Chapter 1354: Pit kill

This giant thought that Zhang Xun had only the cultivation base of the leader realm, so he dared to make a bold move.

If he knew that the object of his shot turned out to be a saint, he would definitely hide how far he would go!

Before Zhang Xun had time to see the giant's body, another cold murderous intent locked him.

Zhang Xun's heartstrings are tense, and this murderous intent is even sharper, and it also comes from a strong man in the realm of saints!

The sword light rained down, Xiaoxiao.

The sword light in the sky is like a continuous spring rain everywhere!

"You should kill Fang Yue, you should die!"

The voice of the killing saint emerged.

Zhang Xun's eyes were dark, he was already in a different place.

Killers, kill them all!

As a killer Zhang Xun, he died in the hands of a powerful man who was also a killer saint. It must be said that it was a fateful reincarnation.

A black shadow appeared and picked up the ring in Zhang Xun's hand that had not been checked.

Divine consciousness penetrated, and the inside was empty.

Click.

The shadow crushed the ring in his hand.

"All this turned out to be a scam? Hahaha!"

The black shadow looked up to the sky and laughed. He, such a shrewd person, would have fallen into such a clumsy scam arranged by Fang Yue, becoming his gun and killing for him.

This has to be said to be a great irony!

At this moment, Ye Wushuang and Alice walked out side by side in Xinghua City.

"Someone dared to assassinate the Golden Seed of the Galaxy Star Alliance during the trial period. The crime deserves a million deaths. All those involved will be taken away, and the two bodies will also be taken away!"

Ye Wushuang's voice was cold.

He knew that once Fang Yue got out of Xinghua City, the promised person would do it, but he didn't expect the other party to do it so quickly!

However, Ye Wushuang was also secretly frightened, all of this was actually under Fang Yue's control and calculations.

With the help of the fake death of the spiritual qi clone, he killed a killer! How can such a method not make people tremble and frightened?

Ye Wushuang did not stop the black shadow from leaving.

He has a good background and an extraordinary background. Even if Ye Wushuang stopped him by himself, he would still be asked to leave. Instead of that, it would be better to let him be calm.

In this way, Zhang Xun's body and the giant's body were taken away by Ye Wushuang.

Ye Wushuang's face was full of indifference.

At this moment, the murderous intent on him is so strong that no one is willing to get close and touch this brow.

"This promise is really decisive! Fang Yue was targeted by his people as soon as he left Xinghua City!"

On the wall of Xinghua City, the pavilion owner of the Vientiane Pavilion, Zhao Kuo, stood on it, with a faint smile on his mouth.

He saw the end of this scene from the beginning!

Who is Fang Yue?

Zhao Kuo might know them better than Ye Wushuang.

His origins are mysterious and his background is unfathomable. Fang Yue has spanned several worlds. He has been in crises countless times and he can be safe and retreat. Even if it is a saint-level ambush, Zhao Kuo has never worried. Fang Yue will be in any danger!

Ghosts are bad!

Heavenly messenger!

Any identity is a hundred times, thousand times more honorable than the seed of the Galaxy Star Alliance!

There are even rumors that he has been recognized by hell!

More importantly, Fang Yue's surname Fang is very likely to be a chess piece laid out by the Fang family. If he is really dead, I am afraid that the entire Galaxy Star Alliance will be broken!

"Pavilion Master Zhao, don't just talk cold words here! I have been hunted down and killed. If I really die, our previous order business will all be ruined!"

Fang Yue's aura clone seemed to be a ghostly shadow condensed in Zhao Kuo's expression.

The look on Zhao Kuo's face couldn't help being stiff.

When did this product come out!

"Fang Yue, what do you want me to do? Although my Vientiane Pavilion has power across the world, it has always been operating with the concept of harmony and wealth. What you are involved in is the internal conflicts of the Galaxy Star Alliance. It is the so-called strong dragon. Don't press down on the snake, you let me join in, I am afraid it is not suitable!"

Before Fang Yue could speak, Zhao Kuo had already expressed his attitude.

Although Fang Yue's value is great, it still hasn't reached the point where it will turn them over with the Galaxy Star Alliance!

"I understand this. When doing business, there are always rules!"

Fang Yue patted Zhao Kuo's shoulder with a look I understand your expression well.

Then he said again: "If I don't let you deal with the Galaxy Star Alliance, but help me deal with the Dark Moon plane? This killer is already dead. He said he was sent by Xu Ying, he would definitely erase everything. Then I took a bite. I said that I framed him, but the assassin's corpse was left here, and the aura of the dark moon plane on his body could never be erased! They dark moon plane assassinated the seeds of the Galaxy Alliance, This is a heinous crime that provokes the majesty of the Galaxy Alliance!"

Fang Yue's eyes narrowed, he hadn't planned to shoot Xu Ying.

But Xu used the trick of killing people with a knife.

The crime of using the Dark Moon plane as a knife cannot escape!

"Fang Yue, you are preparing..."

"Take the opportunity to kill the Dark Moon plane! It is no problem to kill the Skywind Empire if the Dark Moon plane is not defeated!"

Fang Yue was cruel.

This day, the wind empire poses too great a threat to China.

If you don't get rid of it, Fang Yue will have trouble sleeping and eating!

"If it's just a Tianfeng Empire, it's worth considering, but in business, the friendship is the friendship, and the interests are the interests!"

Zhao Kuo smiled, but what he said was quite cold.

"One million drops of Baicao Liquid will help me kill two leaders of the Heavenly Wind Empire at the critical moment!"

Fang Yue offered his own terms.

Zhao Kuo was slightly surprised.

"Cooperate on this point?"

Zhao Kuo thought that Fang Yue would bleed this time, and then fiercely uprooted the Tianfeng Empire!

"This is just the first step! I want to see the capabilities of your Vientiane Pavilion! Of course, I will also store 500 million spiritual stones with you. If there is a temporary change, help me deal with it."

Fang Yue played a big game, and at this time, it should be time to close!

"no problem!"

Zhao Kuo glanced at Fang Yue deeply, without saying much.

At this moment, Zhao Kuo suddenly realized that he was probably only part of Fang Yue's chessboard, not even the main force.

Zhang Xun is dead.

The corpse was taken away by the Galaxy Star Alliance!

Lin Jiang at the moment is a little restless!

Zhang Xun is a killer of the Tianfeng Empire, and his existence is a strategic existence for the entire Tianfeng Empire!

The saint does not participate in the war, but when it comes to life and death, the saint will also come forward, break the rules, and fight to the death.

The poisonous snake dormant in the dark is more heart-shaking than the tiger with its teeth and claws!

I thought that Zhang Xun would become Zhang Xun's assassin for the Skywind Empire, but who could have expected that he would fall when assassinating a small Fang Yue.

As the twenty-first emperor of the Tianfeng Empire, Lin Jiang was a Mingjun who opened up territories and conquered the world.

But who could have expected that he was repeatedly blocked in the process of conquering a little earth!

Their losses are huge, and the strong men in the Yin-Yang state and the leader state have fallen in batches.

This has already damaged the national strength of the Tianfeng Empire, but who would have expected that this is just the beginning!

The death of Zhang Xun has caused the power of the Tianfeng Empire to plummet.

Every strong man in the Saint Realm is the pillar of the Tianfeng Empire.

Today, a pillar has collapsed.

This also means that the edifice of the Skywind Empire that stands on the plane of the Dark Moon is no longer stable!

"Give me the promise of contacting the Galaxy Star Alliance. He asked me to do this. If he fails, he will also bear certain responsibilities!"

Lin Jiang was a little flustered.

Only if Zhang Xun fell, there was no strong fear in his heart.

After all, Tianfeng Empire has more than one hole card, and more than one saint.

The key is the attitude of this Galaxy Covenant.

Assassinating the Golden Seed is a big crime!

If the Galaxy Star Alliance is really ready to do it, then the entire Tianfeng Empire may decline in this punishment, or even become annihilated!

moment.

Xu Ying's figure appeared, which was a projection of Xu Ying's landing.

His figure was hidden under the black cloak, and a pair of blood-red eyes pierced out in the darkness, shining with permeating light.

"Master Xu Ying!"

Although Lin Jiang's cultivation was four small levels higher than Xu Ying, when he saw Xu Ying, Lin Jiang still had to respectfully address him as an adult.

This has nothing to do with cultivation base but with status.

In the galaxy star alliance, Xu Ying, who is in a high position, can destroy their Tianfeng Empire when he raises his hand!

"What? Panicked?"

Xu Ying appeared, and he looked at Lin Jiang with a smile.

Lin Jiang beat the drum in his heart and slowly said: "Naturally not, with the support of Master Xu Ying, Fang Yue is just a jumping clown. How could he escape from the palm of Master Xu Ying?"

Lin Jiang gave Xu Ying a picture of a horse with no emphasis.

Xu Ying laughed loudly and said: "Sensible! This matter is indeed my responsibility. Don't worry, the Galaxy Alliance will never find your head this time! Fang Yue is just a golden seed after all, and it is still rotating. At the level of the realm, no matter how high his talent is, no one in the Galaxy Star Alliance speaks for him. What if he is really stabbed to death? Presumably, Fang Yue is now planning how to deal with you! He is a man A wise man, knowing that my status is noble, he can't move. So he will snare you against you, and then punish your Skywind Empire! But I have me, his plan will not succeed, I will speak

for you, let him You can't get any assistance in the Galaxy Star League! When the time comes, when you attack you, it will be your best chance to kill him! If you can't control this opportunity anymore, you can stop. Blame me for not thinking about my old love!"

Lin Jiang was relieved immediately after hearing this.

As long as there is no support from the Galaxy Star Alliance.

This Fang Yue couldn't turn over any waves by himself!

He dared to attack Tianfeng Empire, then Lin Jiang could slap Fang Yue to death.

What golden seeds, silver seeds, these so-called geniuses, can't get rid of any waves in the face of absolute force!

Fang Yue, who had returned to the screen city, did not rush to the Dark Moon plane as eagerly as others thought.

But Fang Yue had already mobilized his army on the plane of Sirius, and began to sweep the army on the plane of Dark Moon within the scope of China.

The army of the Dark Moon plane has rarely existed in China with the scale of millions of millions. Most of them are a few wandering soldiers scattered throughout China.

Chapter 1355: Ruins appear

Under the sweep of the army on the plane of Sirius, they were wiped out without even having room to struggle.

Moreover, Fang Yue never accepted captives.

In Fang Yue's words, they and the Dark Moon plane are endless enemies, and the guys on the Dark Moon plane are also a disaster if they are left, it is better to kill them all.

He is a hero of a generation.

I have never thought of plotting the name of a benevolent teacher.

So he was his executioner, no matter how many people opposed it, it was useless!

"Has there been any movement in this ruin recently?"

Fang Yue asked Fang Yunshan.

Fang Yunshan has been stationed in the curtain city all this time.

The Jie Yao brand in her body was constantly awakening, and Fang Yunshan's cultivation was as if he was sitting on a rocket.

Now she has reached the fifth step of the cycle of rotation!

Because of the rapid increase in power, Fang Yunshan recently felt that he could not control his own power.

"The ruins did not appear. Instead, many unidentified people have recently appeared in the curtain city. These people do not belong to earth people, but they are not people from the dark moon plane. They are often just discovered, and then They disappeared quickly! I have sent people to track down many times, but they never caught their tail!"

Fang Yunshan was a bit distressed.

The recent enemy is getting more and more cunning.

And the unknown enemy is more terrifying than the people on the Dark Moon plane.

The latter is known, at least in the clear.

The former hides in the dark and will jump out without knowing when, giving them a fatal blow!

Fang Yue nodded slightly.

"Those people don't care!"

Fang Yue knew that these people were probably sent by Xu Ying or the Galaxy Star Alliance to monitor him.

But there are some things that can't be said clearly and can only be regarded as a game under the table!

They really dared the black hand of each other, as long as Fang Yue didn't die, they promised to vacate all the people behind them, and they would be sorry if they didn't bloodlett.

"There is no movement in the ruins? Is the information on the Dark Moon plane wrong, or is there an unknown change in the ruins?"

Fang Yue frowned, this ruin itself was an extremely important part of his layout!

During the conversation between the two.

There was a bang.

The earth trembled, as if the sky fell apart.

This is not the same as an earthquake.

Earthquakes are divided into transverse waves and longitudinal waves, and then tremble according to ripples.

And this time, the feeling is that the whole earth is being torn and cracked!

"I have a feeling! It's that ruin finally appeared!"

Fang Yunshan's eyes were a little red, and the evil spirit in his body suddenly soared, unable to restrain it.

The sixth floor of the cycle!

The seventh floor of the cycle!

The eighth floor of the cycle world!

Fang Yunshan's cultivation base continued to grow upwards as if there were no bottlenecks!

"Is this fate dictated?"

Fang Yue murmured to himself, he felt that there were at least ten places of the same crazy enhanced aura in this scene. Although they did not grow so violently as Fang Yunshan's aura, each of them also grew at a rate of aura. It's amazing!

All of them are tribulation demon born in response to the catastrophe. At this moment, the wheel of fate rotates, and the tribulation demon brand in their bodies finally unseals, and they truly begin to grow rapidly!

At the same moment, the central location of Mucheng.

A huge black vortex was born, with a diameter of at least tens of meters and a height of almost 300 meters from the ground.

The black vortex turned slowly, as if it could shatter everything.

In any corner of the curtain city, as long as you look up, you can see the existence of this shocking vortex!

Fang Yunshan's crazy growth of her own breath finally stopped at this time!

"Yunshan, are you feeling better?"

Looking at Fang Yunshan, whose cultivation realm stayed on the ninth level of the rotation realm, Fang Yue didn't know what to say. Ordinary people lived a life of poverty and didn't know how much risk it would take to grow to the realm, and Fang Yunshan It was reached in an instant.

The pinnacle of rotation!

It is only half a step away from the level of Yin and Yang Realm.

Fang Yunshan's small face was pale, it was obvious that she could not make up for it. This sudden increase of so much power was not a good thing for her.

At the very least, his cultivation base aura soared so that Fang Yunshan's physical body needed a period of growth and tempering to fully adapt.

"It's much better. This time, the tribulation demon brand is stimulated by the relic atmosphere, not only has my realm soared, and my strength has soared, but it has also opened up some memories of the previous generation of tribulation demon and the corresponding secret law inheritance! Passing down from generation to generation, my tribulation demon brand has gone through eighteen generations of masters. What I got this time is the memory and inheritance of the previous generation masters. That person's cultivation level finally stayed at the sixth level of Yin-Yang realm!"

Fang Yunshan raised his eyebrows with joy. This time, with the memory and inheritance of the master of the Jie Yao brand of the previous generation, she can exert the power that matches her realm!

The cultivator at the pinnacle of the rotation realm can be regarded as the upper reaches of the earth, no longer simply dragged down by Fang Yue!

"congratulations!"

Fang Yue rejoiced to Fang Yunshan.

Fang Yue realized that his sister Fang Yunshan had her own chance and didn't have to follow her own path!

This opportunity may be greater than the help he deliberately gave his sister.

Therefore, Fang Yue somewhat let go of the influence and control of Yun Shan's future.

"Brother, I probably already know what the ruins of this scene city are from the memory of Jie Yao's imprint! It is the ruins of a biochemical civilization more than 5,000 years ago, and its real owner is not an earthly person! It is this ruin that a civilization wanted to invade the earth and was finally defeated by the mighty power on the earth. There are three most precious things in the ruins. The first is the bloodline of Jie Yao! After taking it, it can be improved. The bloodline level of the Jie Yao! This thing is related to the level of my Jie Yao brand. The Jie Yao brand on my body is only the level of the Great Demon. It can only provide me with the power of the peak level of the Yin and Yang realm. Once I reach the level of the demon general, I can have the potential to become the pinnacle level of the leader realm! This bloodline of the Tribulation Demon is fatal for all Tribulation Demon! The second type is the Ten Thousand Gu Box, which is sealed Tens of thousands of different kinds of Gu worms! The third is the evolution potion, which can loosen the seal of the genetic locks in various creatures and promote the evolution of all souls!"

Fang Yunshan introduced the contents of the ruins according to his own memory.

Fang Yue asked: "Then do you know how to enter the ruins, do you have any dangerous tests or institutions in the ruins?"

Fang Yunshan shook his head slightly: "My previous life only knew a little about the ruins of this scene city, and I didn't know the specific content, but based on the memory of the previous life, the traps and mechanisms in the ruins might be quite dangerous. Because The civilization that established that ruin was defeated by the people on earth, so they hate them very much, even if they all fall, they will not easily give up their civilization essence to the people on earth!"

"Well, I got it! In this case, it just happened to my liking!"

Fang Yue's eyes were wiped out.

"This time, the Dark Moon plane caused trouble on its own. I can't blame me for the deaths of too many people!"

Fang Yue said to himself, even Fang Yunshan could feel the faint murderous intent and chill that filled Fang Yue's body!

Fang Yunshan knew that this time Fang Yue had a real murderous intention against the Tianfeng Empire.

The appearance of this ruin was the beginning of Fang Yue's complete counterattack against the Dark Moon plane!

"Sorry, I didn't win you the support of the Galaxy Star Alliance!"

There was a fatigue on Alice's face.

She did not expect that the internal struggle of the Galaxy Alliance had reached such a point!

The Golden Seed was attacked and killed, and was exposed lightly.

"There is nothing I'm sorry about! I've already expected this result! It is not surprising that people in Xu Ying's line are so powerful that they can react like this!"

Fang Yue didn't accept Alice's apology, because some things were beyond Alice's control!

"The response from the Galaxy Alliance is that the assassination of this dark moon against you is one of the investigations for you to become the seed of the platinum level rotation! Only if you can survive this assassination after the end of the inspection period You haven't died yet, so you truly deserve the identity of the seed of this platinum-level rotation world!"

Alice was exhausted.

How could this Galaxy Star Alliance become like this?

Could it be promised that they can really cover the sky with one hand and do whatever they want?

Fang Yue was silent for a while and said, "That's fine, if this is the case, I will deal with the dark moon planes, at least no one will dare to stop them!"

Fang Yue's mood changed quickly, and his eyes shone like a gem.

"However, with your current strength, how can Fang Yue be able to confront Dark Moon, even if it is just a Skywind Empire, you can hardly resist their strength!"

Alice has recently done enough homework in the history of the Darkmoon Plane. She was shocked to find that the real strength of the Darkmoon Plane has surpassed the level that a low-level plane should have, and is close to a middle-level plane. In the past, the Galaxy Covenant had underestimated the strength of the Dark Moon plane.

This is not good news for the Galaxy Alliance. The Galaxy Alliance can control the entire galaxy. A large part of the reason is the accurate assessment of the major forces within the Galaxy Alliance.

Know yourself and the enemy, a hundred battles will never end!

The underestimation of the Dark Moon plane means that the Galaxy Covenant is gradually losing its ability to control all forces in the entire galaxy!

"It's okay. The Galaxy Alliance underestimated the strength of the Skywind Empire, so it didn't underestimate the strength of the earth. According to the previous assessment of the Earth's power by the Galaxy Alliance, under the invasion of the Dark Moon plane, the earth has long fallen and became

The colony of the Skywind Empire, but the earth now exists well, and even the armies, eyes and ears of the Skywind Empire are being gradually cleared away from our earth!"

Fang Yue's smile was full.

The earth has been growing steadily since the rejuvenation of the aura.

The masters of the leader realm have recovered one by one, crawling out of ancient ruins or graves. Now, the number of strong leaders of the leader realm is more than a hundred people on the surface. They have different goals, but there is no doubt that they have the same heart for safeguarding the sovereignty of the earth.

Chapter 1356: Storm is approaching

As for the powerhouses in the Yin-Yang realm, there are even more numerous on the earth, and the official statistics have reached at least ten thousand people.

Not to mention the cultivators of the rotation realm, the world realm!

Today's earth has entered the stage of national practice, politics in various places. The government issued various cultivation techniques and guaranteed spiritual stone resources for its people.

It can be said that even a child playing on the street may be a practitioner of the first and second levels of the Houtian Realm. Although the cultivation level is not high, it is releasing a terrible signal-the rise of the earth!

"It's best if you can not resent the Galaxy Alliance! In this inspection, according to the rules, I still can't do it, but I am qualified to supervise your inspection process during the inspection, so as not to make things difficult for you. , Let you die on purpose!"

Fang Yue smiled and said: "Don't worry, I'm under this favor, but Xu Ying may not have anything to do with me! He is also on the side of the Dark Moon plane, and it may be that he has fallen into bottomlessness. The beginning of the abyss!"

A sly light flashed through Fang Yue's eyes.

Suddenly, the sky fell apart!

Another huge spatial crack appeared outside the curtain city.

This spatial crack extends horizontally to a length of a full kilometer.

Teams of people walked out of it.

All of them are the army of the Dark Moon plane!

They are majestic, proud, and the one with the lowest cultivation base is at the peak of the heaven and earth realm!

Among the ten people, there is a strong person at the rotation level to act as a commander.

The qi and blood soaring up all night made the entire sky sway slightly!

"Are the people of the Dark Moon plane crazy? They actually opened up this semi-permanent spatial rift! This requires the use of the plane origin of the Dark Moon plane, which is already on the verge of collapse. If you do, it will accelerate the collapse of the Dark Moon plane!"

There were expressions of horror on Alice's face.

This time, the handwriting on the Dark Moon plane was too big, too big for her to accept it!

"The Dark Moon plane is not crazy! They want to take the way of civilization integration. As long as they get the remains of the curtain city, they can merge the biochemical civilization with their own practitioner civilization, and the overall power of the dark moon plane can at least increase 30%!"

Fang Yue's leisurely opening did not mean the slightest panic.

All this is in his expectation.

"But doing so is against the agreement of the Galaxy Covenant! The existence of every plane is the most precious treasure of the Galaxy Covenant. Any person, organization, or force is not allowed by the high-level collective resolution of the Galaxy Covenant. No one can use the plane source without authorization!"

Seeing the crazy performance of the Dark Moon plane, Alice swallowed a swallow involuntarily.

This is desperate madness!

Haven't waited for the assembly of these people to complete.

Battle fortresses are floating in the air!

The battle fortress that Fang Yue bought heavily from the Galaxy Bank is finally in handy now!

Thousands of battle fortresses vacated at the same time, each of them in place, bunches of thick rays of light burst out of the air, like a dragon going out to sea, unstoppable!

The elite troops of the thousands of Dark Moon planes that had just emerged from the space crevices were completely evaporated in a blink of an eye!

Whether it is the peak of the heaven and earth realm or the level of the rotation realm, it is difficult to resist the crazy burst of this kind of beam!

Alice's eyes opened wide.

She has experienced a lot of wars, but most of them are the clash of cultivators and civilizations.

This is the first time that she has seen the tumbling and crushing of different civilizations!

The thousands of people and horses who have just emerged from the rift in space are all elites carefully cultivated on the Dark Moon plane.

They were supposed to kill the enemy in blood, and eventually halved on the battlefield or returned in glory, and spent their entire lives rich and glorious.

But who could have imagined that they would be easily crushed and annihilated the first quarter of an hour after they boarded.

An iron-blooded elite, vaporized into a bubble, evaporating directly, leaving no bones!

"Fang Yue, are all this in your plan?"

Alice asked Fang Yue in disbelief.

It turned out that people didn't even think about using the power of the Galaxy Star Alliance to destroy the army of the Dark Moon plane.

Thousands of elite breakages.

It did not affect the determination of the Dark Moon plane to attack, where are the undead in the war!

Whether it is an ordinary soldier or an elite in the army, in fact, it is their best choice to die in battle!

Although they died a bit wrongly, they were destroyed by Fang Yue's battle fortress if they were not successful, but they at least provided a good reference for the soldiers of the subsequent Dark Moon plane.

"This Fang Yue, after all, is still young and a little uncomfortable. We have only passed. Thousands of elite soldiers made him use his own assassin skills. The trick has also failed! Tell the people behind that everyone is equipped with a giant shield, so that these beams have no room for use!"

On the side of the Dark Moon plane, a bearded general laughed loudly. The other party Yue had never looked at him. In his eyes, Fang Yue was just a nasty child. How could he be qualified to compete with them. Compare the generals?

As a result, the army of the subsequent Dark Moon plane took out different weapons, and they were all wearing a thick tower shield in front.

This shield is strong and can withstand the threat of extremely high-level energy weapons.

Teams of people filed out through the cracks in space.

There are thousands of people as soon as they appear!

In less than a moment, the elite of the tens of thousands of Dark Moon planes walked out of the space crack.

They are so energetic that they have not been affected by the fall of their previous companions, and have become demoralized!

"Fang Yue, die!"

A wild voice echoed in the air.

A strong man in the Yin-Yang realm of the Dark Moon plane, Fang Yue provokes loudly.

There was a strong evil spirit in his pair of tiger eyes!

Fang Yue sat in the curtain city, looked into the distance, and saw the existence of that person at a glance!

This is the Zuobang, one of the leaders of the Darkmoon Plane this time. He is a member of the Darkmoon Plane. He is best at attacking the city and slaying the enemy's generals before the three armies. level!

In order to deal with the fact that Fang Yue's Dark Moon plane had really lost his blood this time, they not only sent elite divisions, but also used every general with outstanding military merit.

Fang Yue didn't say a word, it was just the beam of a particle cannon greeted him.

The white light was as thick as a bucket, and the light penetrated the void and struck across the body of the Zuobang.

"Small bugs, how can you hang your teeth?"

Zuobang smiled faintly, and dodged sideways.

The light really passed him by.

However, Zuobang was not hit by the light, but it did not mean that the light was useless.

Behind Zuobang, a piece of void twisted, one after another, flesh and blood figures appeared, evaporating, begging for mercy and groaning. There was no time for the sound of Yin!

"What's happening here?"

Zuobang was stunned. He didn't ask anyone to lay an ambush behind him!

Fang Yue got up slowly, rose into the air, and stood opposite Zuobang.

"Of course this is not your arrangement, but the arrangement of the Emperor Tianfeng Empire behind you. These people are all powerful at the Yin and Yang level. There are nine in total. They burn their lives and arrange battle formations. At the critical moment of the confrontation between you and me. , Blatantly attacked me, let me fall on the spot, and wiped out their confidant troubles!"

Fang Yue's mouth smiled faintly.

The arrangement of this dark moon plane is indeed well-intentioned.

"Impossible! I don't even know about this, how can you possibly know?"

Zuobang didn't quite believe Fang Yue's words.

Fang Yue's smile was even brighter: "They didn't tell you, they were worried that your performance would be revealed by me. It's a pity that their methods of hiding your breath are too clumsy. I have already caught them when they appeared. It's that trace of vanity! Tsk tsk tsk, nine strong men in the Yin-Yang realm charged up for sneak attacks, abandoned their own defenses, desperately, and wanted to make a fatal blow to me, it's a pity that you still didn't have the rhythm of this battle. Grasp it! After all, too young, a little uncomfortable!"

Fang Yue's words are exactly the same as the evaluation value of the generals behind the Dark Moon plane.

This surprised the beard for a long time.

Is this a coincidence of fate, or is Fang Yue already planting spies by their side, knowing their every move and understanding all their plans!

Their arrangement should be seamless, especially the nine Yin-Yang realm powerhouses who are hidden in the void, using the void cloak exclusively researched by their Dark Moon plane! As soon as this cloak came out, it gathered aura, and even the existence of the peak of the leader realm could not detect their existence.

How could Fang Yue's insight into this trivial distortion of the void?

Is there Fang Yue's spy in our army?

who is it?

Who will it be?

Among the high-level commanders on the Dark Moon plane, a suspicious mind slowly rose up!

They looked at their comrades-in-arms around them, everyone had big eyebrows and big eyes, but each one could be a so-called spy!

The good guys and bad guys have never written on their faces.

The previous unity of unity fell apart in this anxiety and suspicion!

Fang Yue had already guessed the attitude of the commanders of the Dark Moon plane through the space crack, and this was the result he wanted.

In fact, there are really no spies in the high-level command of the Dark Moon plane.

But they couldn't expect that Fang Yue himself had an extremely profound study of the heavens in space, reaching the point where the heavens and ghosts were weeping!

Although it was separated by a spatial crack, Fang Yue was able to sense the situation at the other end of the spatial crack with his spiritual thoughts, and their every move was under Fang Yue's monitoring.

This is equivalent to being under the plane of Dark Moon. Mingqi!

"After this time, regardless of the victory or defeat of the Skywind Empire on the Dark Moon plane, it will definitely suffer heavy losses and fall into a period of weakness."

Alice is watching the battle in the screen city. She is a saint-level existence and a general of the Galaxy Star Alliance. Her status is extremely high, and she cannot easily participate in this kind of battle between planes.

Because if she intervenes, it will represent the will of the Galaxy Alliance.

But Alice still has no problem watching the battle!

She muttered to herself, looking at Fang Yue's methods, she became more and more surprised.

"Nine powerhouses of the Yin and Yang realm! Every one placed on the Dark Moon plane is the overlord of one party! It was evaporated in a fire, and the war between different civilization systems is really terrifying!"

Chapter 1357 The Death of Zuobang

"Humph, Fang Yue, whether you say it is true or false, today you will be one of those strange and obscene things in your hands. After all, it is an external force and cannot last for long. Only continuous practice and self-strengthening is right. way!"

In Zuobang's tone, there was a sense of disdain for Fang Yue's tricks.

After they have cultivated to the level of the master realm, there are very few external means to restrain them!

Unless it is a confrontation with the same realm, the same level of means, otherwise, it is almost impossible to defeat them!

Fang Yue did not argue again.

It seems to have acquiesced to the words of the leftist!

In front of the three armies, Fang Yue's slaughter square before, the aura of indomitable advancement suddenly weakened.

It seems to be admitting his invincibility!

However, Zuobang frowned slightly. According to the information, Fang Yue could never be as cowardly as he saw before his eyes.

He slaughtered the Quartet, and many leaders of the leader level died in his hands.

Although his power is heavy, it is absolutely impossible for Fang Yue to retreat without a fight!

unless.....

In Zuobang's eyes, Fang Yue slowly raised his head. He raised an index finger and pointed at Zuobang!

"Hui Fei, annihilated!"

Fang Yue's voice fell.

Zuobang looked at that finger, there was no energy fluctuation in it!

"Hahahaha! You kid, you are obviously bluffing!"

Zuobang was unharmed and did not feel any discomfort.

But in the arrogant laughter of Zuobang, his body was suddenly mutilated in the void, his neck and limbs were all separated.

But his eyes were still widening, and he muttered to himself: "How is this possible!"

In full view, in Zuobang's heart in the surprise of the stormy sea.

Zuobang's body split in four or five and fell completely.

The red blood spilled on the ground, like a rainstorm!

On the Dark Moon plane, the leader of the leader realm, Zuobang has fallen!

"How did this Zuobang die?"

At the other end of the space crack, the bearded general also opened his eyes wide, unbelievable.

Zuobang is an outstanding general in the Tianfeng Empire. He has rich combat experience. Even if he encounters a strong man in the Saint Realm and is defeated, he will not be silently divided in his body and fall into the three armies. Before the battle.

"External force?"

A mocking smile appeared at the corner of Fang Yue's mouth.

The death of Zuobang was an extremely severe blow to the army on the Dark Moon plane!

Before the army formation, the general gave the leader!

What a tragic lesson, what an ominous sign!

Outsiders were horrified, and Fang Yue's heart was also astonished.

This Vientiane Pavilion is the Vientiane Pavilion, and the methods are more powerful than he thought.

He spent the Baicao Liquid to buy the lives of the two masters of the Dark Moon plane.

Unexpectedly, this first person was killed so cleanly and without leaving a trace.

Such a shocking effect is definitely worth the money.

The Vientiane Pavilion, the Vientiane Pavilion, has been able to take root in the universe for so long, it is really not simple, well-deserved reputation!

"Zuobang is dead!"

Alice's heart was also very shocked, but she was the most powerful group of people below the Great Sacred Realm, and she wouldn't be able to see the situation there like everyone else!

This Zuobang was killed by several strands of Void Sword Qi. This Void Sword Qi was a fusion of Sword Qi and Void, and suddenly shot, killing people.

There are very few people in the galaxy who can use the Void Sword Energy, and they are all proud generations, and even the Galaxy Star Alliance can't invite them.

They will come out to help Fang Yue make a move?

This is simply incredible!

At this point, the Galaxy Star Alliance may be really wrong!

This Fang Yue is not a person without background, on the contrary, his background and background may be powerful and terrifying!

Perhaps, even the top of the Galaxy Star Alliance may not be shaken!

The corpse on the ground lay horizontally.

The side of the Dark Moon plane suddenly became silent.

The strong of the leader realm is no longer weak, but before the three armies, they are still defeated.

They have to consider whether their military power this time can really sweep the earth!

Can China really be wiped out under their power?

Everyone thought.

Before the space cracks, regeneration changes.

Those soldiers at the Heaven and Earth level on the Dark Moon plane holding the tower shield suddenly evaporated from the world, and disappeared quietly!

They were gone, and even the tower shield in their hands disappeared at the same time!

This is nearly ten thousand elites, and when put on the battlefield, it is the existence of everybody!

But they are gone!

It's not surprising, it's not shocking!

This scene is more shocking than the fall of Zuobang just now.

Zuobang was beheaded in front of everyone. Although the cause of death is unknown, it will always be clear after investigation.

But what about the elites of the nearly ten thousand dark moon planes?

It was like throwing grains of stones into the vast ocean, and their disappearance didn't even cause a wave to appear.

The rest of the rotation state, the elite of the Yin and Yang state, stood alone in front of the space crack. They felt the cool breeze passing by, there was a kind of wanting to find a crack in the ground, so that Fang Yue would not see himself. Impulse!

This situation is a bit weird!

Every scene is challenging their common sense that they have formed over the years!

This Fang Yue seemed not to be an aboriginal on an uncivilized planet, but a demon crawling out of hell, possessing the terrifying ability to control the life and death of all beings.

"Do you still fight?"

Fang Yue stood out of thin air, standing in the void, he looked at the remaining defeated soldiers on the Dark Moon plane, with a pity in his eyes.

"Why are the vultures' subtotals hanging on? You killed ten thousand people in my Tianfeng Empire, and you killed one hundred thousand, one million, and ten million? My Tianfeng Empire, even if it came out in full force, To defeat you! As long as we defeat you, we will be able to occupy the remains of the curtain city. At that time, our Heavenly Wind Empire will become extremely powerful, unify the surrounding countries, and become the top power in the Dark Moon plane!"

The general of the Dark Moon plane, the bearded general walked out from behind the scenes.

The cultivation base of the peak of his leader realm has reached the critical point where ordinary wars are allowed to participate.

His tone was sonorous and powerful, leading the way and driving the morale of the Dark Moon plane.

Sure enough, as the bearded general walked out, an army of one hundred thousand and one million came out from the cracks in the space.

This time, what he brought was the elite division of the Skywind Empire, and the mainstay of the Skywind Empire.

Not to mention the world, the rotation, there are hundreds of strong people in the Yin-Yang realm alone, and there are 32 strong people in the leader realm, including Zuobang and bearded generals!

This time, it can be said that the Tianfeng Empire is desperate to fight for the relics and kill Fang Yue.

If they were defeated, the national strength and military strength of the entire Tianfeng Empire would be directly hollowed out and become an empty tiger!

And if you win, the savings of the Tianfeng Empire will be even stronger!

From then on, the Tianfeng Empire will dominate the surrounding countries, and no one dares to mess with it!

"Is it a monarch like a gambler? There is courage, but, what a pity!"

Fang Yue looked at the bearded general with pity.

The bearded general felt a different meaning in Fang Yue's eyes.

"Boy, what do you mean? Do you play mystery? This time, the army of the Dark Moon plane will not be defeated and cannot be defeated!"

The bearded general called Fang Yue angrily.

Fang Yue smiled lightly: "Really? Presumably, your messenger should come now too!"

"The messenger? What messenger?"

There was an ominous premonition in the heart of the bearded general.

"Report! My lord, three hours ago, the Ice and Snow Empire launched a sneak attack on the six cities bordering our Tianfeng Empire. The interior of the six cities was easily seized by the Ice and Snow Empire because of the emptiness of the defenders. All the resources in the city were plundered, and the people in the city were warriors. Everyone was slaughtered, and no one was spared!"

The voice of the messenger echoed in the air.

Time freezes, space freezes!

The bearded general suddenly felt dizzy!

how can that be!

An astonishment was born in the heart of the bearded general.

Those six cities have hundreds of resident populations. They provide a large amount of taxes for the Tianfeng Empire every year. Resources are emptied and the population is killed. This Ice and Snow Empire is clearly launching a general attack against them, an endless rhythm!

At this moment, the bearded heart is bleeding.

"Ice Empire, you must die!"

The hysterical roar and roar of the beard made the surrounding ground tremble and crack.

Some plants and trees even became ashes in an instant because they could not withstand the violent sound wave vibration!

Even if they can defeat Fang Yue this time, the influence of the ice and snow empire on them will not be eliminated in the short term!

However, this is only the beginning.

Soon, another messenger arrived.

"Report the generals that the province of Bitter Winter has fallen, all eighteen cities in the heyday have been killed, the resources in the city have been looted, and the defenders are unable to resist, the general of the province of Bitter Winter, Dong Guanglie, was killed outside the mansion!"

When this news came, the palms of the beard really trembled!

They wielded a butcher knife against the earth, and before the knife fell, their nest was handed over.

Where is Bitter Winter?

That was the place where the Tianfeng Empire produced troops. Among his elite, three of them were dispatched from Bitter Winter Province.

Now the Bitter Winter Province has been breached, and the people in the eighteen cities have been slaughtered.

How stable their military spirit is!

This is clearly cutting off the lifeblood of their Tianfeng Empire!

The bearded general looked at Fang Yue with blood in his eyes.

"All of this is your conspiracy, is your conspiracy, right!"

The bearded general snarled and snarled frantically at Fang Yue, and he suddenly understood the true meaning of Fang Yue's pitying gaze just now!

The old nest has been given, still in the mood to attack the earth?

Fang Yue waved his hand and said: "No, no, no, of course not, you can ask your messenger, the person who took away the Bitter Winter Province is half of my Chinese? This pot, I don't want to recite it!"

"Yes?"

The bearded general looked at his messenger, and asked eagerly in his voice.

"No! It's all the army of the Zerg. It was the army of the Zerg who suddenly came and made the 18 cities of Bitter Winter Province too late to react before they were taken away in a flash!"

The messenger was also from the Bitter Winter Province, his hometown was wiped out, and his heart was extremely sad!

"Zerg, army of Zerg! Damn, how could our Skywind Empire be attacked by Zerg for no reason? It's all you, you're all in trouble!"

The bearded general pointed at Fang Yue, roaring hysterically!

If the Ice and Snow Empire wiped out the six nearby cities of the Tianfeng Empire and only caused some damage to the economy of the Tianfeng Empire, then the fall of Bitter Winter Province means that the strength of the Tianfeng Empire will at least decrease in the next hundred years. 15% of the supply!

This is a fundamental blow to the Tianfeng Empire. If it is not handled well, it is likely to bring devastating disasters to the Tianfeng Empire.

Chapter 1358: Report...

The Dark Moon plane is a world of the weak and the strong.

If you are weak, we will beat you, if you are strong, we will flatter you and let you be the boss!

"This meal can be eaten indiscriminately, but you can't talk about it! Did your eye see me commanding the army of the Zerg to slaughter the soldiers of your Dark Moon plane?"

Fang Yue turned his face and refused to admit it, it was a matter for him.

Do you have evidence?

If there is no evidence, don't talk nonsense, be careful I will sue you for false accusations!

Fang Yue's attitude made his bearded lungs almost explode.

But he really couldn't even use Fang Yue at all!

"Fang Yue, what do you have, use them all together! I don't believe that the vast territory of the Wind Empire will fall overnight!"

The beard is also anxious this time.

He roared frantically at Fang Yue.

"Report!"

Before Fang Yue could speak, the messenger came again.

"General, Tianfeng Empire's Tianmo City is occupied by the Huaxia Shushan Sword Sect, and the people in the city will never survive!"

The beard almost fainted.

Isn't Tianqi City his hometown?

What Shushan Sword Sect, why haven't you heard of it in the past!

"Impossible, it is absolutely impossible. There are saints in the city of Heaven, and there are eight master-level powerhouses to protect them. How could it be occupied?"

Tianmo City is an extremely important city in the Tianfeng Empire. Among them are the eight springs of spiritual springs, which can assist practitioners in fast practice. There is also a high-grade spirit stone mine outside the city, which can produce 30,000 high-grade spirit stones every day. It is an important source of the Tianfeng Empire's high-grade spirit stones. Not only are saints sitting in town, but also heavily guarded! Some small countries on the Dark Moon plane do not have such a huge power!

"It is said that the Shushan Jian sent three saints and thirty-six masters of the leader realm. They set up the Tiangang Zhoutian formation and directly wiped out the saints and leaders of the city in the city!"

A look of horror flashed through the eyes of the Chuan Lingbing.

That scene is simply terrible. He just glanced at it from a distance, the entire city was enveloped by the boundless sword rain, and all the creatures were pierced by the sword aura for a lifetime.

That is simply **** on earth! If he was given another chance, he would definitely not approach that city.

"Three saints, thirty-six masters of the master realm! Who can tell me where the earth comes from such a powerful force?"

The bearded general was shaking.

Doesn't it mean that there is no strong man in the saint realm in the earth?

Why don't they appear? Once they appear, there will be as many as three, and there are thirty-six masters of the master realm. They should not be included in the list of the previous statistics of China's strong!

And these people are all sword repairers!

In the world, attack the first existence!

The bearded mind is flustered, this is the calamity of the entire Tianfeng Empire!

If the earth doesn't make a move, it will give them a sign of the destruction of the Tianfeng Empire!

"Anymore?"

The beard's voice trembled a little, even if he returned in glory this time, he guessed that he saw a Tianfeng Empire in ruined walls!

"amount....."

Seeing the trembling face of his beard, he almost couldn't bear it.

Fang Yue is embarrassed to say there are more!

But the problem is that his game has already been set up, so he won't send it out. What a shame!

"Yes!"

Fang Yue's voice spit out.

The beard almost fell to the ground with black eyes.

"Report! The Raksha tribe and the Ocean tribe opened the plane channel to cross the border, conquered the five cities of our Tianfeng Empire, and drove away!"

"Report! Millions of troops from the plane of Sirius entered the Skywind Empire from the earth, borrowing the cities occupied by the Ice and Snow Empire, successively conquered the six cities of our Skywind Empire, plundered the sky, and slaughtered thousands of people!"

"Report! The Chinese Maoshan faction entered my Tianfeng Empire and ordered three thousand golden armored corpses to conquer the three cities of my Tianfeng Empire!"

"Report! China Shaolin Temple sent 100,000 monks and soldiers to the five cities of the Tianfeng Empire to provide 8 million people and convert to Buddhism!"

The news of Chuanbing kept on.

The beard has a feeling of embarrassment on all sides, and the building is about to fall.

"Fang Yue, you...puff!"

His beard flopped and spewed out old blood.

Fang Yue said with an innocent look: "It's not me, it's really not me! These sects, I just called them out of the ward, there are meat to eat, come? I didn't expect them to be so powerful, they are all here!"

His beard kicked his legs, his eyes closed tightly, and even Fang Yue's breath was closed!

"You guys, come on! Give your generals to the savior! The generals of the Tianfeng Empire indeed have some problems with their psychological endurance! Can they not bear such a little blow and pressure?"

Fang Yue was beside him, still talking coldly.

The side of the Dark Moon plane was almost speechless.

But this beard should be saved or saved!

If he really died here, they wouldn't be able to live if they went back!

Alice looked at the scene in front of her, trying to laugh but couldn't.

Combining horizontally and horizontally, this Fang Yue is a ghost in terms of war.

Moreover, she has already got the latest battle report in her hands.

The number of saints of the Huaxia Kingdom that appeared in the Tianfeng Empire has exceeded fifteen.

With this number of saints, this earth is already enough to advance to several levels.

Even if it is still an influential civilization, at least it is already the first and second echelon in the influential civilization!

"Actually, these are just side dishes, the real big meal is still to come! You people, since you are all here, then don't leave!"

The smile on Fang Yue's face suddenly became strange and rich.

"The ruins of this scene of the city have discovered the stones that need to be explored, so you all go in! Fight to the stars!"

Fang Yue's voice fell, and no one noticed that there was a teleportation array at the feet of the soldiers on the Dark Moon plane. This teleportation array was extremely simple, but extremely large, and its teleportation distance was very short, just in front of the ruins. .

Once you get to the front of the ruins, even the saints cannot resist the huge attraction, and all will be drawn in, but if there is a distance, no one will feel the huge attraction!

"No!" At this moment, his beard woke up quietly, his eyes opened in anger, and there were incredible expressions in them!

He did hope to enter the ruins, but not in this way.

However, his transformation was too late, and Fang Yue's formation was launched too suddenly.

Everything is irreversible!

Millions of troops were stuffed into the ruins, and they were all sucked into it before the black whirlpool.

These are the hopes of the Dark Moon plane, the elites of the Dark Moon plane, if they all fall, I really don't know how the royal family of the Dark Moon plane will react!

Fang Yue watched these people disappear and made a gesture of goodbye.

The black whirlpool disappeared unexpectedly.

The legendary Mucheng ruins disappeared.

"What's going on? Why are the ruins of Mucheng disappeared?"

Countless lives showed horrified expressions.

Some of them want to enter this ruin to get the treasure in it, and then rise instantly!

"That is not the real ruins of the curtain city. I am afraid that the real ruins have been obtained and divided up! The black whirlpool is just a huge trap. People who enter it are dead or alive, and even the saints may not be able to get from it. Survive!"

Fang Yue's voice was light, but the hearts of other people gave birth to endless fear.

If Fang Yue's words are true, and they step into it, the final result will be unexpected!

"I'm right! Master!"

Fang Yue suddenly turned his head and his eyes fell on Zhou Jinren, the director of the Wanyuan Institute of Biochemistry, who was hiding in the crowd.

Zhou Jinren was taken aback for a moment, then showed a kind smile.

"Yes, the real thing in this ruin has long been taken away by the old man, and the rest are traps."

The appearance of Zhou Jinren gave Alice an instinctive vigilance.

She seemed to feel that Jinren was stronger than her this week!

The sage turned out to be a saint again, and he was also the kind of sage state. It is difficult to find one or two people in his contemporaries who can compare with him!

Alice is going crazy. How deep is the water on this earth? The saints appear as if they don't need money. Even some top-notch civilizations may not be able to give birth to so many saints!

Who said that Fang Yue had no background, if all the saints of this earth stood on his side.

This is a strong background.

"Unexpectedly, I hid in the curtain city for such a long time, but you eventually discovered it!"

Zhou Jinren spoke slowly, and his breath relaxed.

The breath of the saint is overwhelming everywhere, as if he has become the master of this world, the only master of this city.

"Fang Yue, I want to know how I hid so well, how did you know my true identity, and how did you know that I had the treasure under this scene!"

Zhou Jinren's gaze towards Fang Yue was different from just now, that kindness only lasted for an instant, and then it became a kind of superior interrogation.

Fang Yue is not qualified to communicate with him on an equal basis. This is an instinctive arrogance as a saint!

Fang Yue looked at Zhou Jinren and sighed faintly: "I worked in your research institute for a while and saw some technologies far beyond the existing biochemical civilization! Since then, I have been

suspicious of you. After Jiang Lin appeared in your research institute, I even doubted your identity! This scene is too small, and there are too many robbers, and many of them are inextricably linked to you."

Fang Yue's key to Zhou Jinren.

Zhou Jinren was suddenly speechless.

"It turns out that there is a problem here. No wonder you can guess my identity. However, your and Fang Yunshan's biotechnological accomplishments are indeed quite rare in the entire earth. If you replace those information with other mediocre people, it is fundamental I don't see any clues! What a pity, you ended up walking the path of a practitioner, otherwise, China Huaxia can speed up a lot of progress in biochemical technology!"

Zhou Jinren's breath disappeared.

He had long since cherished each other's talents, Yue and Fang Yunshan, otherwise, he would not let the two enter his biochemical research institute, let alone the top-secret information for them to watch.

"Senior, although I can't use my wisdom to help you graduate the remains of civilization, I have already exchanged some of the corresponding cohesive technologies through various channels! There are specific technologies and corresponding theories, and I hope to help you You can use all the help to make China stronger!"

Chapter 1359: Vestige

Fang Yue had anticipated this scene a long time ago, and he had even waited for Zhou Jinren to admit his identity for a long time.

It doesn't matter if the ruins did not fall into his hands. Anyway, even if he obtained the ruins, he didn't have time to study the contents and various valuable technologies.

Fang Yue threw a jade slip, which seemed to have wings, and flew into Zhou Jinren's hands.

When Zhou Jinren saw the jade slip, his heart was extremely excited, and a ray of his spiritual thought penetrated into it, and the massive amount of information immediately flooded his mind.

"Where did these technologies of biochemical civilization come from? They are too precious, too precious!"

Zhou Jinren's voice trembled a little. Over the years, he has been exploring related technologies since he obtained the remains of biochemical civilization.

But the progress of his research is very small, because the research on the earth's biochemistry is too basic and backward.

He has also tried to exchange the corresponding technology and basic knowledge to some other civilizations, but every time he exchanges, the price offered by the other party makes him a little unacceptable.

Zhou Jinren merely exchanged the convergence technology that exceeded the earth's biochemical civilization for two decades and consumed nearly 100 million spiritual stones.

Even as the pinnacle powerhouse among the saints, this is not a small number for him.

After all, he still needs cultivation fees, where did so many idle spirit stones come from to exchange for these biochemical technologies.

And the technology contained in Fang Yue's jade slips is at least more than a thousand years of current earth biochemical technology. All the basic knowledge and technologies are extremely detailed and easier to understand than textbooks!

His value is immeasurable, Zhou Jinren can't imagine how much Fang Yue had to pay to get this information.

To know this information, it does not represent a string of simple words.

It's the blowout development of a civilization across the age!

"Fang Yue, this..."

For Fang Yue's trust, Zhou Jinren had mixed feelings in his heart. Fang Yue is a hero, a hero of the Chinese people, and a hero of the entire era.

With some of these technologies, he can create biochemical weapons comparable to the Yin-Yang realm and the leader realm level. Although it is costly, it also represents that the earth's combat power will be worth a leap!

"Older Zhou, don't need to say anything. Our goals are the same. There is nothing to be polite. I will give you this information for the same purpose to defend the glory of China!"

Fang Yue smiled and said to Zhou Jinren, Zhou Jinren has been observing Fang Yue during this period of time, why has Fang Yue not been observing Zhou Jinren?

He saw Zhou Jinren's behavior in his eyes.

He is definitely the kind of person who can do everything for the glory of China.

Zhou Jinren was silent and nodded fiercely at Fang Yue. At the same time, he silently said in his heart that this Fang Yue is the seed of China's future. If Fang Yue encounters any danger in the future, even if he does everything he can, he will protect Fang Yue.

Soon, a storm dissipated.

The huge space gap traverses between heaven and earth, but no one dares to cross the boundary easily.

The rear of the Tianfeng Empire has been messed up!

The millions of elites ahead do not know the life or death.

At this moment, the Tianfeng Empire could not have enough power to deal with Fang Yue.

It is not easy for them even to be able to secure their own territory!

This battle almost destroyed the national power of the Tianfeng Empire for hundreds of years. Without a long period of recuperation, it would be difficult for the Tianfeng Empire to return to its original peak!

And the initiator of all this is Fang Yue alone!

In the imperial palace of the Tianfeng Empire, Lin Jiang knelt down in front of the tablets of the ancestors of the Lin family, silently repenting and repenting.

"Huh! Is it still useful to confess now? The biological remains have fallen into the hands of the earthlings, and Fang Yue is still alive! What you should do now is to do your best to kill Fang Yue and take the remains to avenge the dead soldiers. Xue Hen, not like a coward kneeling here and making a vow of repentance!"

Xu Ying's harsh voice came.

Lin Jiang still bowed his head to pray and repent in the ancestral hall.

He didn't realize Xu Ying's arrival.

For this incident, the Tianfeng Empire had already paid a sufficient price, and if Huaxia were to die, there would be absolutely no benefit.

Today's Huaxia is no longer the Huaxia they knew before!

Among them, the strong are like forest, and every one of them is earth-shattering.

The saint, the leader-level powerhouse, appeared frequently, and was even no weaker than the high-level combat power on the surface of the Tianfeng Empire.

Of course, the Tianfeng Empire has its own background and cards.

But who can say that China has run out of cards?

Now that the things in the ruins have been obtained by Huaxia, it is estimated that they are almost finished.

Even if they killed Fang Yue, occupying the curtain city would not help.

Therefore, Lin Jiang hopes to temporarily stop the invasion of China, but to gradually restore the strength of the Tianfeng Empire in a short period of time.

The emperor is responsible for the prosperity of a country. What they want is not a struggle of will.

Lin Jiang's voice of prayer is extremely pious, and as an emperor, he should be responsible for his choice.

"Lin Jiang, have you given up on attacking China? I can tell you with certainty that the earth is a huge treasure, and the treasures in it are beyond your imagination. The remains of this city are just the tip of the iceberg. The earth is truly There are so many treasures that you can't imagine!"

Xu Ying's voice echoed in Lin Jiang's ears for a long time.

"There is a life to grab and you need to use life. The power shown by the earth today is no longer weaker than the surface strength of our Tianfeng Empire, and Fang Yue's layout in our Tianfeng Empire

has been completed. If you really want to go shopping In the end, even if our Tianfeng Empire can win, it will be a terrible victory. When the time comes, the national fortune will decline, and everything we get will be worthless to other countries."

Lin Jiang is a hero. Before encountering the earth, he fought north and south for the Tianfeng Empire and plundered a large number of territories, making him a powerful monarch.

Although he is arrogant, he is not arrogant.

At the critical moment, Lin Jiang knew what was the most important thing.

Xu Ying lightly scoffed: "Lin Jiang, you would be too cowardly to do this. Even a small earth is always looking forward and backward, so what can you do in the future."

Lin Jiang dropped his eyelids.

It seems that an old monk enters samādhi.

"Don't talk about me, why don't you dare to attack Fang Yue directly, as far as I know, your subordinates are also at a disadvantage in the curtain city! A total of nine Yin-Yang level spies have all evaporated in one night! "

Lin Jiang's words made Xu Ying's body slightly stiff.

He gritted his teeth and said, "This **** Fang Yue, sooner or later he will make him pay!"

Lin Jiang remained silent, not commenting on Xu Ying's statement.

"Lin Jiang, this time, as the Deputy Chief Judge of the Third Judgment Division of the Galaxy Star Alliance, I order you to make every effort to kill Fang Yue, otherwise, even if Fang Yue let you go, I will not let go of you!"

See the poor picture.

Xu Ying finally showed Lin Jiang a bright blade.

Lin Jiang had predicted, "Is this your method?"

Lin Jiang's voice was still calm, as if Xu Ying's threat had nothing to do with him.

"Lin Jiang, what do you mean?"

Suddenly, Xu Ying felt a gloomy atmosphere cruising in the ancestral hall of the Tianfeng Empire.

Each breath is extremely powerful and pure energy.

This level is not much weaker than Xu Ying's own cultivation level.

"We need a spokesperson in the Galaxy Star Alliance, Xu Ying, congratulations, you have been selected!"

Lin Jiang stood up, his whole temperament was sudden.

The sheep that had been docile before suddenly became poor and evil tigers.

Lin Jiang's pupils turned into a weird and deep purple, and the purple light caught people, making Xu Ying unable to move at all.

"Lin Jiang, dare you!"

Xu responded to Lin Jiang's annoyance, his heart was extremely frightened, he hadn't figured it out. At this critical moment, Lin Jiang actually dared to do it on himself.

"The Chief Judge of the Third Judgment Division of the Galaxy Star Alliance in our city, if I have anything to go wrong, the Galaxy Star Alliance will definitely pursue it, and no one can keep you!"

Xu responded to Lin Jiang's threats.

Lin Jiang smiled and said: "Who said I would kill you? In the future, Xu Ying will appear in the Galaxy Alliance, and he will become stronger, more background, and more capable! But at that time, Xu Ying, it may not be the promise now!"

A gray layer of destruction aura gradually surging out of Lin Jiang.

Xu Ying's face was pale, and he said in disbelief: "Lin Jiang, you turned out to be a ruining demon!"

"Got it? Unfortunately, it's too late!"

In the ancestral hall, a ghost sprang out from a corner, and it was attached to Xu Ying's body in an instant, swallowing the soul, and occupying the body. The previous generation of Xiao Xuying came to an end!

Mucheng.

Fang Yue and Alice had a barbecue at a roadside stall.

Huaxia's barbecue is unique, making Alice a joy to eat.

After a tense battle, occasional relaxation is also of great help to spiritual practice!

Just when the two talked happily.

Alice's communication watch suddenly buzzed and vibrated.

"Fang Yue, wait!"

Alice glanced at the information on her watch.

Her expression became complicated: "Fang Yue, the Skywind Empire announced that it will no longer attack the earth, and at the same time, Xu Ying dispatched one hundred thousand elite guards from the Galaxy Star League to the Skywind Empire to express its protection! "

"Is it?"

Fang Yue heard this news without any surprise.

The two enemies have joined forces!

"At this time, Xu Ying should have been taken away by the people of Tianfeng Empire!"

Fang Yue said lightly.

"Taking home?"

Alice said in surprise: "How is this possible! This promise is the deputy judge of the Third Judgment Division of the Galaxy Star Alliance. Who dares to take him away? If this matter is investigated by the Galaxy Star Alliance, it must be the sky-shaking thing, the Skywind Empire will definitely be burned to ashes in the anger of the Galaxy Star Alliance!

Fang Yue smiled and said, "Destroy the demons!"

"This Dark Moon plane has long been contaminated by the Destroyed Demons. Perhaps the soldiers and people at the bottom can't feel anything, but I'm sure that the royal families of those countries on the Dark Moon plane and the clan elders of the major families are old. They have already quietly taken refuge in the embrace of the Destruction Demon Race. The Destruction Demon Race's ambition is definitely not just as simple as occupying the Dark Moon plane, they will infiltrate the Galactic Alliance, and Xu Ying happens to be the best. His cultivation base is not high, but his status is extremely high. It is easy to take homes, and he can get in touch with the high-levels of the Galaxy Star Alliance. If he doesn't take homes, who else will take homes!"

Chapter 1360: Fang Yue's calculations

Fang Yue said word by word in a hurry.

"Destroy the demons?!"

Alice heard these four words like a cat stepping on its tail, her voice suddenly became sharp.

How could this dark moon plane have been corroded by the dark moon plane?

They are always monitoring the movement!

"Alice, don't overestimate the control of the Galaxy Star Alliance, and don't underestimate the Destruction Demon Race. But this time Destruction Demon Ancestor did me a small favor and killed Xu Ying for me, otherwise if you let me do it myself, there will be a lot of trouble, and if they control Xu Ying, Xu Ying shouldn't trouble me anymore!"

"Don't bother you? You destroyed so many cities and so many people in the Skywind Empire, might they let you go?"

Alice glanced at Fang Yue, thinking it was impossible.

Fang Yue smiled and said: "This is the tacit understanding between me and the Tianfeng Empire! I know they are destroying the demons, and they also know this matter, I don't report it, and they will not continue to chase me! "

"Fang Yue, how can you be like this..."

Alice was extremely dissatisfied with Fang Yue's statement.

"This Galaxy Alliance is the patron saint of the entire galaxy. How can you sell the interests of the Galaxy Alliance in exchange for the peace of the earth?"

Alice accused Fang Yue, a small face showed faint anger.

Fang Yue shrugged and said with a sneer: "Who is the Galaxy Star Alliance guarding? Is it protecting me or the Earth? When the earth was invaded by the Dark Moon plane, I had never seen the Galaxy Star Alliance help me! "

"This....."

Alice hesitated for a moment, what Fang Yue said was indeed correct.

From the perspective of Fang Yue and the earth, Fang Yue's approach is indeed without any problems.

Anyway, Fang Yue had not received any help or benefit from the Galaxy Star Alliance, so there was no psychological burden to pit the Galaxy Star Alliance.

Alice did not have any way to persuade Fang Yue's self-interested behavior.

Indeed, this matter could be that the Galaxy Star Alliance first apologized to Fang Yue first. With Fang Yue's ability, he could already become a platinum-level seed disciple.

But by the way, the high-level of the Galaxy Star Alliance was indecisive and cut in the middle, blocking Fang Yue's path forward, and replacing him with someone else. In this situation, the final situation is estimated to be similar to Fang Yue!

They may even be ruthless, and they will take refuge in destroying the demons and become their pawns.

People tend to be like this, fail from one extreme, and often throw themselves into the other extreme!

"Alice, don't look at me like that. Actually, you can understand me from another perspective. I'm humble. Even if the promise is taken away from me, does anyone believe it? I said it was dark The moon plane has been eroded and occupied by the destroyed demons. Would anyone believe it?"

"No one! No one will believe me. I am at odds with Xu Ying. I blocked his way. He is making things difficult for me. If I say Xu Han was taken away from me, there is no basis for it. People will definitely think that I am wanton slander. As for my saying that the Dark Moon plane is polluted by the evil demon outside the sky, it is the same reason. My position is doomed. Even if I tell the truth, I will be regarded as false by people! "

Fang Yue's analysis makes sense.

Even Alice was persuaded by Fang Yue's fallacies.

"So, the next time is the time for the earth to recuperate. If the Dark Moon plane really wants to take advantage of promises to gain a foothold in the Galaxy Alliance, it will take about thirty to fifty years. During this time, the dark The moon plane will not come to my trouble, and this time the earth has gained a lot of benefits in the Skywind Empire, which should be digested quickly, and the basic combat

power of the earth humans should be improved in a short time. And what I have to do is to gain a foothold in the Galaxy Covenant as soon as possible and have my place!"

Fang Yue has made a very complete plan for his future prospects.

His thinking is so clear that Alice can point fingers!

Such people are too cold, so cold that they can immediately put down their hatred, and then pursue the best interests.

In a sense, Fang Yue is a hero, a great hero!

"That's true. This time you can defeat the Skywind Empire, and you have almost completed the impossible test set before the promise! Next, you should be officially recognized by the Galaxy Alliance and become a member of the Galaxy Alliance. A platinum-level Rotary Realm seed! Regardless of its own cultivation level, this level of Rotary Realm seed is not very high, but its status in the Galaxy Alliance is extremely high, even higher than the silver-level Yin-Yang realm. The seed status is still high, vaguely comparable to the seeds of the golden level of Yin and Yang level!"

Alice is still quite optimistic about Fang Yue's future. Once Fang Yue takes a high position in the Galaxy Alliance, he will immediately develop a corresponding sense of belonging to the Galaxy Alliance!

Sure enough, after three days.

The senior officials of the Galaxy Alliance officially recognized Fang Yue's status as the seeds of the Platinum Rank Rotational Realm of the Galaxy Alliance. Of course, Ye Wushuang and Alice also contributed.

But more importantly, the reason is that the Galaxy Star Alliance saw Fang Yue's ability to plan and strategize when dealing with the Tianfeng Empire.

In the eyes of the senior leaders of the Galaxy Star Alliance, Fang Yue became a rare general, and such a general was especially precious in the war years.

After just being promoted to the platinum-level rotation level seed, Fang Yue was summoned by the Galaxy Star Alliance to go to the headquarters of the Galaxy Star Alliance to receive the baptism of the platinum level rotation level seed due.

This kind of baptism is specially given to gold and above seeds when they join the Galaxy Star League for the first time.

This baptism has two effects. The first effect is to prevent some creatures outside the Galaxy from disguising themselves as geniuses in the Galaxy and mixing into the Galaxy.

The Galaxy Alliance will give a huge amount of resources to every seed above the gold level. If such resources are stolen by people from other galaxies, it would be a big joke.

The second effect is that this baptism can awaken the potential of being baptized in the body! The potential size and direction of this awakening are determined by the person being baptized. Some people have broken through several small realms in one breath during the baptism process, and some

people have awakened some talented supernatural powers or simply returned to their ancestors. The existence of strength against the sky.

"This is the headquarters of the Galactic Alliance?"

When Fang Yue came to the headquarters of the Galaxy Alliance, even he had eaten it. The headquarters of the Galaxy Alliance was not built in a world full of aura and rich in resources. Instead, it was just an ordinary-looking one. Little Thousand World.

Its area is equivalent to hundreds of earths, which is not small to speak of, but it is simply too small for the Galaxy Covenant that rules the entire galaxy.

In this small thousand world, mountains are criss-crossed, and it looks like a hilly world, without any otherworldly place.

"How about it? Surprised? It was the same feeling when I came for the first time, but you will understand after staying here for a long time. The headquarters of the Galaxy Alliance has so many resources that it no longer needs mineral veins and aura. Those who can enter the headquarters to practice, no one needs those miscellaneous resources. What they need more is the headquarters. This kind of environment is full of laws and secret resources everywhere!"

"This small piece of the world is called the Galactic World. It is named after the Milky Way to prove its importance. The Galactic World is the center of the entire galaxy! There are all kinds of incredible adventures and opportunities in this world. Even me Under normal circumstances, there is no free access to the galaxy world. Even if you are a platinum seed, you are only eligible to enter the galaxy world at this time of baptism! In addition, unless you have obtained great feats, it is also Or you can be promoted to a higher diamond level seed, otherwise, before you become a saint, you will probably be the last time in this galaxy world!"

Alice introduced Fang Yue about the situation in this galactic world.

She didn't come to the galaxy world many times. When she first came, she was also full of curiosity about this world!

The two soon flew to the front of a silver lake.

Waves rippling in this silver lake.

Next to the lake, there was an old man fishing, his body was covered with dust, and a fishing rod was a bit bad, as if it might be broken anyway!

However, Fang Yue felt an illusory smell in this old man.

Xuxian, this old man turned out to be a rare virtual fairyland powerhouse.

At this level of cultivation, it is almost the pinnacle of existence in the entire Galaxy Star Alliance.

Fang Yue bowed respectfully to the old man.

The old man did not respond, and continued to stare at the fishing line that was hanging down from his fishing rod.

"Junior Elise, lead Fang Yue to be baptized! I hope Senior Chen Mu will protect Fang Yue!"

Alice stepped forward, using the most pious tone and the most brief words to explain her intention.

The old man is still motionless, like a stone sculpture!

The scene was embarrassing, neither Fang Yue nor Alice received the slightest response.

However, Alice seemed to have expected this scene. She reminded Fang Yue: "Senior Chen Mu is the guardian of the Galaxy Star League. Unless it is a senior of the same realm, Senior Chen Mu will not You will be separated from the state of wandering. As long as we greet Senior Chen Mu, Senior Chen Mu will protect you no matter what happens during the awakening process!"

"This lake is called Samsara Lake. The water in it can make people reborn. Your awakening ceremony is carried out in this Samsara lake! Fang Yue, as long as you enter this Samsara lake, you can naturally awaken yourself. The gift of magic!"

Alice gave a brief introduction to Fang Yue. After she became a gold-level seed, she also awakened in this lake of reincarnation.

Therefore, she is familiar with the process of awakening.

"The longer you awaken in the lake of reincarnation, the greater your potential. I spent three days in the lake of reincarnation, and awakened the innate magical powers of the dark hell. This talented magical power, for countless years, The talented supernatural powers awakened in the lake of reincarnation rank in the top 100! I also leap over the dragon gate and stand out from the many golden seeds. I hope you can awaken more powerful supernatural powers in this lake of reincarnation!"

Alice gave high hopes to Yue.

The person who can defeat the strong on the list in the martial arts arena and leave his name, the talent contained in him should not be too weak!

"it is good!"

Fang Yue's eyes were shining, and he also realized that this was a rare opportunity.

The void burst, and Fang Yue's deity crossed over.
