Chapter 1361: Awakening in the Lake of Reincarnation

Alice's small mouth was pouted.

Fang Yue's side with him turned out to be just a spiritual energy clone!

His deity is still hidden in a certain place in the depths of time and space.

And he didn't even have the slightest difference between Fang Yue's deity and the aura clone.

"Fang Yue, you are really a good person. With the ability to switch between yourself and the clone, it is estimated that even the ordinary Great Sage can't find your deity!"

Alice said unhappily.

Fang Yue sneered: "I'm used to it, I'm used to it, my deity usually retreats deep in time and space, and only appears in special times. After all, this clone level is killed, and it can still be shaped. And if the deity is finished, it is really finished!"

The moment Fang Yue's deity appeared, even Chen Mu's calm and watery face was full of rare ripples.

As a virtual fairy, he did not immediately distinguish the difference between Fang Yue's deity and clone, which is extremely rare for a strong man in the virtual fairyland.

"Okay, I am going to enter the lake of reincarnation and awaken! Do you have anything else to tell?"

Fang Yue looked at Alice again, Alice thought for a moment, then shook her head: "This awakening process is so simple, there is nothing to say!"

Alice's voice fell.

Fang Yue's deity was thrown into the lake of reincarnation.

Fang Yue just jumped into the lake of reincarnation.

The lake water is boiling.

"This is the awakening? Am I wrong? This Fang Yue's potential is limited, and he didn't hold on in the lake for a moment?"

Seeing the scene in front of her, Alice was a little suspicious.

She thinks it is impossible for her to misunderstand the wrong person, and she will not be able to achieve such outstanding results on the Tongtian Avenue and the Martial Arts Arena!

However, according to tradition, this Samsara Lake does stay in it for as long as possible.

Because the water of Samsara Lake is said to contain strange substances, the longer the soaking time, the greater the nourishment for practitioners!

In an instant.

A silver blade of light glided across the sky, and the void trembled and cracked slightly.

The light of the knife passed by and turned into a long, silvery river, forming a river after another, as if it echoed the entire Milky Way.

Daoguanghe!

The moment Fang Yue entered the Samsara Lake, he had a new understanding of this.

This galaxy is the ultimate evolution of the sword light river. Although it is only a little bit of meaning now understood, it can echo the entire galaxy. The power of this sword technique can also be imagined!

"This... is indeed a very domineering sword. The power contained in this sword is definitely not weaker than the essence of an ordinary saint's sword technique, especially the ability to echo the Milky Way, and there will be extras when used within the range of the Milky Way. The mighty blessing of, if other Tianjiao comprehend this sword, it is a lifelong good fortune, but for Fang Yue, if he came to this lake of reincarnation and comprehended only this, it would be too wasteful!"

Alice shook her head slightly. She was trying to find a reason for herself. Perhaps this Lake of Samsara might not be suitable for everyone?

Some people can comprehend the profound artistic conception in the Samsara Lake and awaken the transcendent bloodline, while other people, such as Fang Yue, are not suitable for this Samsara Lake by nature?

There was still a mess of thoughts in Alice's mind.

The shadow of Daoguanghe gradually disappeared.

However, Fang Yue didn't mean to come out of Samsara Lake at all.

The idea in his mind changed again and became the most used move when he debuted, the golden bell.

This golden bell is actually not a trick that is too subtle and too powerful in the Ten Thousand Worlds Universe.

However, under Fang Yue's successive improvements, it is already so completely different that even the creator may not be able to see it!

The golden bell jar in Fang Yue's hand is mixed with different artistic conceptions and comprehensions, which has become a brand-new secret technique and martial arts.

It was layer after layer, almost to the point of endlessness, it was difficult to cut, and it hurt Fang Yue's body!

This martial artist appeared in Fang Yue's mind.

It immediately gave birth to improvements!

First of all, a big golden egg appeared, bright and dazzling.

"What is this again?"

Alice was stunned, she found that Fang Yue's experience in the Samsara Lake seemed a little different from normal people!

The big golden egg just appeared, and there were clouds floating in the sky. These clouds, as black as ink, are almost incapable of being rich!

"Jie Yun, it is the Jie Yun of the Heavenly Tribulation! What kind of secret method Fang Yue awakened from, actually summoned the Jie Yun!"

There was an incredible brilliance in Alice's beautiful eyes.

In the end, this Fang Yue is different, he is a arrogant talent in an era.

He actually attracted Jieyun in this reincarnation lake.

Chen Mu, who had been fishing all the time, couldn't hold back.

He has been on the shore of this reincarnation lake for thousands of years!

The first time I saw such a vigorous awakening scene.

For a moment, a thunder with a width of ten feet crashed down.

Thunder's speed reached the extreme, and he rushed straight to the big golden egg.

Jin Dan's big egg, motionless, let the thunder chop.

There was a crackling, thunder and electric arc wandering on the surface, but the golden light was still shining.

"This seems to be... some kind of defensive secret method, with the help of Heavenly Tribulation to temper the secret method's defensive power!"

This Chen Mu was an existence at the level of imaginary fairyland. He had a lot of knowledge and finally determined what this golden big egg was.

But the blow just now has the style of a blow from the leader of the master realm!

Such a powerful blow did not even break the outermost layer of this defensive secret, which to some extent has proved the power of this move.

At the level of the rotation realm, it is possible to display the secret method to resist the strong blow of the master realm. This is already very good, very good!

However, these are the beginnings.

Jie Yun is brewing, Thunder will continue.

The rumbling thunder was deafening.

The big golden egg is still being baptized by Thunder.

Another thunder fell, and thunder transformed into a creature, transformed into a dragon traveling through the void. This thunder seemed to have its own life, and the energy contained in it was even more powerful than the previous thunder!

The dragon groaned softly, mobilizing the aura of heaven and earth, turned into a trial blow, and suddenly fell towards the golden egg.

On the surface of the big egg, the shell is cracked.

Such a violent blow was equivalent to a full blow from the third-tier powerhouse in the leader realm.

It was normal to break under such a blow, and no one would think that Fang Yue's secret method was not good.

However, the broken golden egg does not mean that this secret method is broken.

What this thunder has broken is only the outermost eggshell, and there is a world of five elements inside.

The Five Elements World trapped the Thunder Flood Dragon in it, and the Flood Dragon whispered and struggled, but it was difficult to escape the fate of being assimilated by the Five Elements World.

The cycle of the five elements constitutes a unique world, which can transform all attacks and completely digest them!

Amazing!

admire!

At this moment, Chen Mu wanted Yue Gao to take a look!

This Fang Yue's comprehension of the law had reached the point where it was so wonderful.

The attack from the outside world by Fang Yue from the world of the five elements, Fang Yue's fantastic ideas, is simply admirable.

It is a pity that his realm is too low. If it reaches the level of Yin-Yang realm, it is afraid that the general leader realm powerhouse will not even be able to break through his defense!

The Galaxy Star Alliance indeed recruited an outstanding talent this time.

He has unlimited potential and unlimited innovation!

However, Jieyun in the sky did not give up the idea of continuing to attack because of Fang Yue's fantastic ideas.

If one hit fails, then another hit, if it fails, then continue!

Jie Yun opened fire with all his strength.

This time it is more powerful!

The boundless thunder light seems to be a mountain ridge down, oppressing the world of the five elements!

This blow was already a full blow that was comparable to the seventh-tier powerhouse in the master realm.

The confrontation between the Five Elements World and the mountains is like a confrontation between two worlds.

This time the Five Elements World's methods of digesting power cannot be displayed, and can only be used to offset each other with pure power.

The Five Elements World quickly shattered and disappeared like a bubble.

But within the Five Elements World, there are also eighteen layers of hell.

The eighteen layers of **** are endless, and the resentment and hostility in it rush out, as if it can corrode everything.

This thunder and even the force of the yang can restrain all evils in the world.

But this Yin and Yang restrained each other, and the power of Yin and Evil condensed much, and at the same time, it could restrain the thunder.

Therefore, the power of Thunder and Yin Xie collided with each other and annihilated each other, but in an instant, the power of Thunder and Yin Xie was annihilated and vanished.

Eighteen layers of hell, layers of resentment and filth.

This Fang Yue has already understood the essence of the eighteenth **** to the extreme, otherwise, it is impossible to summon the illusion of the eighteenth **** at will!

Chen Mu spoke, his voice hoarse.

These eighteen layers of **** are not some secret mystery.

On the contrary, many moves are integrated into the artistic conception of eighteen layers of hell.

Thoughts of tragedy, destruction, despair, pain, etc. are intertwined, and go forward indefinitely.

However, there are very few practitioners who can really master the essence of the eighteenth layer, and Fang Yue integrates the eighteenth layer of **** into his own defensive moves, thoroughly refining the methods, and even more so Chen Mu was surprised.

Thunder and Hell entangled each other, and eventually annihilated each other.

After eighteen layers of hell, the golden egg has not disappeared, replaced by a thirty-three day illusion.

"It's not over yet!"

Chen Mu couldn't help but sighed and said, this move cannot be inherited or imitated, because to cultivate this defense secret method, one must have a fairly deep understanding of the Five Elements Heaven, and then eighteen layers of **** and thirty-three days.

Under the provocation of that golden egg, the tumbling Jieyun also gave birth to changes.

Lanes of thunder light repeatedly collided and stirred.

The thunder rumbling continuously fell down, and these thunder lights crisscrossed and turned into a purgatory.

The level of this purgatory has reached a level comparable to that of the top level of the leader of the leader. The endless purgatory is earth-shaking, and the golden egg is wrapped in it, and it is difficult to break through.

Lightning bursts, locking the universe.

Even the thirty-three days of Taoism couldn't fight this piece of purgatory.

Thunder Purgatory is the place where all sentient beings who violated the rules of heaven were judged in the legend.

"ended!"

Chen Mu spit out these three words softly.

The golden big egg can reach this point is already to the extreme, if it can continue to break through, then it is a bit too exaggerated.

"Thirty-three days, sentient beings reincarnate, but I dominate!"

Fang Yue in the Samsara Lake, a hoarse voice came out from it.

The faint voice made the entire sky tremble.

In the thirty-three days, people walking around the size of rice grains appeared. They sat cross-legged in silence, chanting and singing, as if they were mourning the heavens and the endless reincarnation!

Chapter 1362 Chen Mu's sigh

These thirty-three days actually confronted each other with Thunder Purgatory, and they were similar for a while.

"The power of faith, what has this kid been studying all these years!"

Chen Mu looked up to the sky and sighed. Fang Yue's age was not big at first glance. This was not distinguished from the appearance, but Fang Yue's bones and the breath of time on his body had fully proved this point.

But what Fang Yue dabbled in was something that most masters of the older generation who had practiced for hundreds of thousands of years had never involved in his entire life.

Especially the power of faith, this thing has been listed as a taboo in the past years, and it has never been mentioned in many places.

A whole generation of people have deliberately forgotten these things. Although the control of these things in the Ten Thousand Worlds Universe is no longer so strict, but a young person like Fang Yue should not be involved in this field.

The illusion of thirty-three days was finally destroyed in another thunder that Jie Yun released.

"The power of this last thunderbolt should have reached the level of the Saint Realm! The secret technique displayed by the practitioners of the Rotating Realm can actually withstand the attack of the Saint!"

The big golden egg gradually disappeared in the void.

And the robbery cloud in the sky also disappeared.

But Chen Mu always felt that there was still much left in this golden egg.

It's just because the robbery cloud dispersed and lost the object of the contest, so it disappeared.

And Alice was stunned, and it took a long time to come back to her senses.

"This Fang Yue's method is simply against the sky. The level of the rotation realm just now can resist attacks from the saint realm. If he breaks into the Yin Yang realm, can he break his wrist with the ordinary sage? What? Does he want to compare with the powerhouse at the peak of the Saint Realm, or even challenge the Great Saint?"

Alice was surprised at her speculation!

"This Fang Yue should be on the path of the strongest. Your speculation is not unreasonable. In every era, in the Milky Way or other galaxies, there are always several such existences who will set foot on such a strongest. Road! According to legend, only with this level of existence can it be possible to become immortal in the future. Otherwise, every realm will be ordinary, and reaching the level of the virtual fairyland is the end! Such as me, etc., are examples. I spent my entire life asking questions about the mountains and rivers, the stars, and the sentient beings in the world, but I ended up at the third step of the virtual fairyland, and I couldn't see the way forward!"

Chen Mu's eyes were dim.

For a practitioner, there is no way to go, it is the real pain!

If there is another choice, even if it is ten times more difficult, he will have to embark on the road to the strongest!

But time is like a river, surging away, there is no possibility of turning back!

"Old Chen, being able to reach the level of the virtual fairyland is already standing on top of all beings! How many people have been able to become true immortals since ancient times? There are mostly bones on the road to the strongest, and most of them may not even be strong in the saint realm. Achievement is loss and fall! And Chen Lao's achievements are enough to overlook most practitioners!"

Alice comforted Chen Mu.

Chen Mu shook his head: "Alice, you don't understand. You will understand when you reach the level of the virtual fairyland. This virtual fairyland is just the beginning. It is looking at a higher realm."

Chen Mu stopped speaking, he looked at Fang Yue in the Samsara Lake.

Fang Yue was dormant in the lake, and there were no waves or changes on the lake!

Fang Yue's awakening and transformation are very different from others.

The transformation and awakening of most people are accomplished unconsciously.

This lake of reincarnation will draw out the strongest force, or secret method, or blood in their body, to help perfect and deduct it.

On the other hand, Fang Yue can master the power in the Samsara Lake, actively deduct and perfect his own power in all aspects.

This kind of method is unheard of, at least Chen Mu has been guarding this Samsara Lake for so many years, and has never seen a similar situation!

For the rest of the time, it became peaceful and quiet. Fang Yue seemed to be trying to hide his own means without being discovered, so no visions were born, but he was silently deducing and perfecting himself.

It took a full seven days for Fang Yue to jump out of the Samsara Lake.

His own breath is different from before, as if a piece of raw jade is more gentle, more introverted, and more like an ordinary man, rather than a sharp-edged practitioner!

"Thank you, senior guardian!"

Fang Yue thanked Chen Lao with a fist.

"Should!"

Chen Mu returned to the indifferent and arrogant attitude he had before.

At this point he has reached the level of desirelessness.

Power, he has stood at the top of the entire galaxy pyramid.

Cultivation base, unless the legendary true immortal makes a move, few people can beat him.

"The younger generation has an epiphany in this reincarnation lake, and it takes a while to meditate and digest, so if there is nothing else, the younger generation will leave!"

Coming in a hurry, Fang Yue intends to leave in a hurry.

Chen Mu didn't do much to detain him just to let Fang Yue leave.

Alice left with Fang Yue, only to bid Chen Mu a short goodbye.

After leaving, Alice looked at Fang Yue reproachfully, "Senior Chen Mu values you very much. If you stay and say a few more words, maybe Seniors will give you pointers when they are happy, so you can walk a lot less. What about detours?"

Alice felt sorry for Fang Yue, what a great opportunity.

missed!

"It's not a pity, it's not a pity!"

Fang Yue raised his eyebrows with joy, and his cultivation instantly broke through from the third level of the cycle to the fourth level!

Fang Yue has been trapped in the rotation realm for some time. He has no shortage of resources and realm perception, but he lacks foundation-building objects.

His foundation is too high in style.

At every turn, it is something like the burial pagoda that is higher than the immortal artifact.

The first realm in the front is an item of this level, and the foundation-building objects in the back are at least the existence of the fairy artifact level.

Where did Fang Yue get so many good things in his hands, this also caused his cultivation level to always stagnate.

But this time, the water in the reincarnation lake that Fang Yue got was definitely a good thing.

Fang Yue spent a full seven days refining one percent of the water in the Samsara Lake into his body, as the foundation of the fourth realm of Samsara.

He used special means to cover up the theft of the water in the Samsara Lake. Otherwise, Chen Mu found out that he had to slap Fang Yue to death.

This Lake of Reincarnation is specially used for the awakening of the seeds of the Galaxy Covenant.

No half-point difference is allowed, which is tantamount to the root of the Galaxy Alliance.

Fang Yue left in a hurry just now because of his guilty conscience.

He didn't even dare to break through to the fourth level of the cycle of rebirth in the Lake of Reincarnation, for fear that Chen Mu would see any clues.

Fang Yue's realm breakthrough, a feeling that is almost the coercion of heaven fell.

For an instant, Alice's hairs exploded, and she almost couldn't control her instinct, and Fang Yue shot!

"how is this possible?"

Alice's instinct made her herself startled in a cold sweat.

Only when she encounters a serious threat, will she give birth to the instinct and desire for self-protection, but Fang Yue's cultivation level should not have reached that level!

There was more doubt in Alice's heart.

On the spaceship, Alice clicked on a 3D projection map.

"The place I will take you next is your territory! This is the Karente star field, in which there are a total of three stars, eighteen planets, 324 mineral stars, and tens of thousands of meteorites. Seven of these eighteen planets are adapted for living, and one of these seven planets is your territory. The name of this planet is Helen. It is said that this planet was created by a strong female named Helen from the stars. Found in."

Alice's slender jade finger lightly clicked on the 3D map, and the Helen star was immediately enlarged in front of Fang Yue's eyes.

"The surface area of Helen is about three times that of your earth, 60% of which is ocean, and the rest is land.

Helen is a colonial star in the Milky Way. The natives did not obey the discipline of the Galaxy Covenant before. There are still many unruly people trying to break free from the Galactic Covenant with their unnecessary struggles.

And your task is to maintain the Galactic Alliance's rule over Helen.

In Helen Star, there are four admirals, all of whom are strong in the saint state. The soldiers of the four of them are close to ten million. Even the weakest one has 20 under them. The powerhouses of the leader realm follow their dispatch at any time!

And entering Helen Star, this nominal status is naturally higher than these four admiral adults! But these four admirals are all very ambitious, I am afraid that even if you arrive at Helen Star, they will not easily obey your arrangements.

On Helen, there is your first palace of Helen. This is a territory arranged by the Galaxy Alliance. Among them, there are nine masters at the master level in charge of your arrangements. You will also have 500,000 Galaxy Alliances under your control. Elite soldiers! But they are also bullying and bullying the natives on Helen Star. If they are asked to help you fight for your position in front of the four admirals, I guess you can't count on it!

I still have some time during this period. I don't need to go to the battlefield for the time being. I can help you sit on Helen for a while. Although I can't directly intervene in Helen's internal affairs and help you subdue the four admirals, they dare not be right at least. how are you! "

Alice took great care of Fang Yue, especially after experiencing the events of the Samsara Lake, Alice realized Fang Yue's value and potential even more, and helped Fang Yue to help Fang Yue. It would be considered a good fate. If Fang Yuezhen is in the future Being able to cultivate to the level of the Saint Realm is definitely an existence that cannot be ignored in the Galaxy Star Alliance!

"Thank you Sister Alice!"

Fang Yue's mouth is very sweet, and along the way, the name for Alice has also changed from an adult to a sister.

Of course, this sweet mouth is useless. Fang Yue gave Alice a dust pill, which can reverse the traces of the years, which made Alice's heartbroken assistant Fang Yue.

"My points during the observation period are not growing slowly!"

Fang Yue seemed to have no fear of the four Admirals of Helen Star.

He transferred the stubbornness to his own points.

"This star field killing points, I have reached almost 1.2 million points!"

Fang Yue's voice fell, and Alice also gave a surprised look.

Fang Yue's clone and deity never traveled to the Alpha Galaxy. He only relied on the undead army summoned by himself to slaughter the Quartet on the Nine Nether planes, accumulating magnificent combat exploits.

Chapter 1363: Arrangement of the Galaxy Alliance

Behind this huge number of points, it represents the faceless bones of the Nine Yous.

"This 1.2 million points can be exchanged for the internal points of the Galaxy Star Alliance and 12,000 points! This is not a small amount. It is difficult to get so many points in one breath if it is outside the observation period. integral!"

Alice was also a little envious of Fang Yue.

When she was in the same realm as Fang Yue, she didn't have that ability. When she passed the inspection, she was able to earn more points for herself with ease!

"In fact, every inspection involves both risks and opportunities. In the eyes of others, this inspection is a challenge, but in my eyes, this inspection is an opportunity!"

A light of excitement flashed through Fang Yue's eyes.

"In fact, I understand what the senior leaders of the Galaxy Alliance mean. Originally, they asked Xu Ying to be my investigator. They just didn't want me to break this rule, and deliberately made things difficult for me to let me retreat. But they didn't expect that their The plan failed, the Tianfeng Empire was repelled by me, and the national strength was greatly damaged, and he declared defeat, while Xu Ying was destroyed by the demons. He reached a tacit agreement with me and recognized that I passed the assessment!"

The high-levels of the Galaxy Star Alliance would naturally not be willing to let this little bug escape their control, so they designed such a game to deal with me! If my guess is correct, even if I am a platinum-level seed of rotation, it is generally impossible to serve as the commander of the Galaxy Covenant on such an important planet! "

Fang Yue looked at Alice.

Alice's face showed a look of shock again, this Fang Yue was really so wise and close to the demon, his guess was not wrong at all.

For other platinum-level rotation seeds, the Galaxy Alliance will naturally give them enough resources, but the position rights given to them are also quite limited. Being able to become an admiral is already a very high position!

As for the commander-in-chief of a planet, it is still too difficult for them! Moreover, other platinum-level seeds will be guided and assisted by family members. Fang Yue is a lonely family member, giving him such a hot position with bare hands, and the taste of cheating is self-evident!

"If I really control this planet, the resources in it will be mine! If the resources in it are transported back to the earth by me, it will be enough to forge a large number of weapons and increase the overall strength of the earth by a large margin. !"

Fang Yue's ideas were crazy.

Let Alice feel that Fang Yue is whimsical.

Does Fang Yue know how dangerous the planet Helen is?

Does he know how terrible the four admirals are?

He knew that Rao was the Galactic Alliance who had invested a lot of viable power on Helen, including the four powerful saints. There are still 40% of the land on Helen that has not been conquered. The natives are still fighting. Doesn't even the saint have the slightest solution?

"Fang Yue, I advise you to put aside your crazy thoughts. It is pretty good that you can keep your inherent territory from being violated. As for conquering the entire planet of Helen, you have to forget it, otherwise, it will become you. The root of destruction!"

The spacecraft landed.

Fang Yue walked out of the planet Helen.

The first to greet Fang Yue was his personal guard-a guard composed of three master-level powerhouses and a hundred powerhouses of Yin-Yang realm. This is the treatment that a platinum seed deserves.

They are the hope for the future of the Galactic Alliance.

The seed of hope can't be killed so easily!

Therefore, the power of protection is essential.

At the same time, there was a strong man from the third layer of Saint Realm standing on the side of the guard.

As a strong man in the saint realm, he would not obey Fang Yue's command, but he was Fang Yue's secret protector, responsible for protecting Fang Yue's safety.

The moment Fang Yue stepped off the spaceship, he reached Fang Yue's side.

"Honor Alice, Douglas salutes you!"

The protector of Fang Yue did not immediately greet him, the platinum-level rotation seed of the Galaxy Star Alliance, but instead paid tribute to Alice.

Alice is the leader of the first echelon of saints in the Galaxy Star League! It is second only to the existence of the Great Sacred Realm!

And he Douglas is a very mediocre person in the Saint Realm, otherwise he would not be sent to this remote place, far from the core of the Galaxy Alliance, to protect a little ant at the rotation level.

Although Fang Yue's potential is unlimited, his realm is too low. Before Fang Yue can truly transform his own potential into strength, Fang Yue is an insignificant little ant in front of Douglas!

Douglas looked down on Fang Yue from the heart, no matter how good Fang Yue's deeds were.

Fang Yue's attitude towards Douglas was also in his eyes.

But he didn't pay attention to him at this moment, because Fang Yue had more important things to do.

"His Honorable Fang Yue, we have been waiting here for a long time!"

Hela, a leader of Fang Yue's guard with the highest cultivation base, bowed slightly to pay tribute to Fang Yue.

At the very least, it is submissive on the surface, without any contempt.

But the real thoughts in their hearts are estimated to be known only by them!

"Hela, right! I will leave my safety to you in the future!"

"We are happy to help!"

Afterwards, Fang Yue led his own guard and swaggered into the first palace.

The area of this first palace is very large, almost the size of a Forbidden City.

There are thousands of servants alone.

They were already domesticated by the Galaxy Star Alliance, so Fang Yue took over very smoothly.

But before that, the nine masters of the leader realm in the first palace and the powers of the Yin and Yang realm under their command were all gone.

They each returned to their own mansion, without declaring allegiance to Fang Yue.

Fang Yue glanced at the territory of his jurisdiction.

The map shows that the area under the jurisdiction of the Fangyue First Prince's Mansion is about 500,000 square kilometers, which is roughly equivalent to a small province in China.

The population of this one is about 100 million people, of which 90% are the natives of Hailun Star.

They mainly plant all kinds of plants, but also dig out minerals in the nearby mountains!

The colonists of Helen star actually ruled in a very simple and backward way.

One of the natives who squeezed these Helen Stars did not pay attention to any strategy, and a little pleasing to the eye was shouting and killing!

It's no wonder that mobs are rampant in Helen Star, and bandits are infested.

"How many gardeners are there in the mansion?"

Fang Yue summoned Chen Wenqing, the housekeeper in the first palace.

Chen Wenqing belongs to the resolute wall-riding faction. I will listen to whoever belongs to the first palace.

This first palace has changed so many masters, and every one of them has been served by him properly!

"A total of three thousand seven hundred and twenty-five people!"

Chen Wenqing knew everything about the situation in the palace, and he knew whether his pants were white or flowers today.

"Well, with so many people, how many people can you send out for work?"

Fang Yue looked at the roster in his hand and asked Chen Wenqing.

"Probably five hundred people can be deployed, and the others have their own jobs. Once they leave their posts, it may cause the entire mansion to not run smoothly!"

Chen Wenqing's figures are not very different from those estimated by Fang Yue in the roster.

Fang Yue nodded slightly: "Well, you will allocate these five hundred people and let them be responsible for maintaining public order in this city. If you don't obey, you don't have to have a positive conflict with those bandits, just let my guards bring people back, my free method!"

The first palace is located in the Heavenly Capital City of Helen Star.

There are hundreds of thousands of people in the royal city, which is a mixture of fish and dragons. When the Helen Stars ruled by themselves before, the public order in this city was fairly acceptable. After all, it was at the feet of the emperor, and few dared to make trouble!

With the arrival of the colonizers of the Galaxy Star Alliance, the old order completely collapsed, and the city became chaotic. The public security of the most prosperous Heavenly Capital city in the past was not as good as that of the day, and now it has become a bandit. The land of drifting!

Fang Yue wants to make the capital city run normally on this day. This rectification of public order is a top priority.

These personal guards under Fang Yue are idle anyway, it is better to let them move around and catch some bandits and thieves!

"Yes, my lord!"

When Chen Wenqing heard Fang Yue's instructions, a strong light flashed in his eyes.

He has served so many masters of the royal palace in this royal city. This is the first one to start with public security and establish order for the royal city.

Not to mention whether this Fang Yue is a master, but at least he is knowledgeable in governance!

"Well, how much money is left in this palace now?"

Fang Yue asked again what the family status was in this palace.

The personnel expenses, the management of up and down, the purchase of fields, and the army's food and allowance all require a lot of spiritual expenses.

And as soon as the cannon fired, the gold was ten thousand taels. This really fought. It was the economy and the resources.

"This... Lord Fang Yue, there is no one in this palace all year round. The fields and minerals under the palace's name are all occupied by some powerful people nearby. Now, the annual income of the palace is only a trivial figure. The millions of spirit stones are barely enough to maintain the normal operation of the palace, and some subsidies are needed in other ways!"

Chen Wenqing's cold sweat drenched.

He was worried that Fang Yue would explode into a thunderous anger and anger himself.

However, Fang Yue closed his eyes slightly, his expression extremely calm.

"I have a hundred million spirit stones here, you take them to maintain the normal operation of this palace!"

Fang Yue is wealthy, but he doesn't care about this mere 100 million spirit stones. The impoverishment and weakness of this palace for many years is also in his expectation!

"One hundred million spirit stones!"

Hearing this number, Chen Wenqing was stunned.

This was the first time he saw that the owner of the palace was able to take out money from his pocket to subsidize the operation of the palace.

This Yilingshi can do a lot of things in the account, and the palace formation that was half-closed in order to save costs can all operate normally!

"Give me another list. Over the years, the powerful and powerful forces in the city have greeted the property of our palace, and write them all to me! Those who come out are always to be paid back, and I will let them eat. Spit it out to me again!"

"Yes, my lord!" Chen Wenqing felt a rare warmth of hope in a deadly heart.

The masters of each session of the palace finally bowed their heads in their form.

Become a puppet-like existence, holding on to his one-third acre of land, waiting for the time to come, and then being transferred away.

The power of this palace has long been inferior to the past. To say something that shouldn't be said, this palace has become a puppet in this palace, just a nominal leader, and it will always be so nameless!

"Heh! The people who divide the royal palace are really not too few. Almost all the forces in the entire royal city have been included. There are more than five thousand forces going up and down."

Chen Wenqing quickly listed the list and handed it to Fang Yue.

Chapter 1364: Sima Zhonglie

Everyone in Fang Yue watched it from beginning to end.

Then he sneered: "These people are doing a good job! They have the handle to copy their homes. Otherwise, the teacher will be unknown. How can I kill them?"

In Fang Yue's laughter, a chill came out of Chen Wenqing's heart!

"Hela, give you a task. I will allocate five thousand points to you in a while to help me buy five hundred Yin-Yang level slaves in the Galaxy Alliance. As long as you are obedient, don't have special abilities! If this point is rich If you do, it is the right to be my errand money for you!"

Fang Yue's wealth and wealth shocked Hela at once.

They are Fang Yue's guards and have a fixed resource quota granted by the Galaxy Star Alliance.

As a guard at the master realm level, Hela can get 100 internal points of the Galaxy Star League every year. This is already a very high resource quota in the master realm level, and Fang Yue's shots are so generous. His fifty years of resource cooperation.

More importantly, Fang Yue said that he would give him all the remaining points.

This powerful person in the Yin-Yang realm is extremely precious among those small planets. Everyone is a powerful person, but in the Galaxy Star Alliance, it is really not a rare item.

The Galaxy Covenant expands its territory every year and will conquer a large number of planets and planes. Those who are strong in the planetary planes are captured alive and will become slaves of the Galaxy Covenant.

For these slaves at the Yin and Yang level, they usually have ten points each, but if you buy in large quantities, you will definitely have a discount.

Hela has been in the Milky Way Star Alliance for hundreds of years. Over the years, the progress in his cultivation has not been obvious, but he has established extensive personal connections in the Galaxy Star Alliance.

If these five-hundred Yin-Yang-level slaves used his contacts, they would spend at least five hundred fewer points in the internal points of the Galaxy Alliance.

The five hundred internal points of the Galaxy Star Alliance are equivalent to his five-year income!

Hela, who was only holding a perfunctory attitude towards Fang Yue, was convinced at this moment.

There are benefits to mixing with Fang Yue, and the benefits are still great!

Hela heartily convinced that at least this is the case now, he respectfully left the First Palace, and promised to bring back the five hundred Yin-Yang slaves within three hours!

After that, the entire palace was invested with 100 million Lingshi funds and turned into a behemoth-like machine, and it began to run wildly.

Everyone's enthusiasm was mobilized, and they performed their duties and started their own work.

Tiandu Wangcheng, Tianying Baron Mansion.

Sima Zhonglie, Baron Tianying, was drinking and laughing with his concubine.

In the capital city of this day, Sima Zhonglie counted as the number one person, with more than 3,000 people, more than 3,000 acres of fertile land, and three small mineral veins.

On this day, the capital city is full of aura. The fertile fields are not ordinary food crops such as wheat and corn. All kinds of spiritual plants are planted in the heavens and the earth, and the spiritual fruits and vegetables are planted. It can slowly and gently improve the cultivation level and physical quality of the practitioner, even if one or two of them require at least ten spirit stones to be able to purchase.

Sima Zhonglie's good land can earn about five to six hundred tons of spiritual stones every year. Apart from the daily expenses and personnel training, it can save about 30 to 40 million spiritual stones.

And the ore mined from those minerals can also provide him with a steady stream of financial support.

Therefore, he can be regarded as a small local tyrant in the royal city.

"The slave family heard that recently I heard that there is a new owner in the first palace?"

Sima Zhonglie's concubine Wu Qiaoyue opened her lips slightly and said.

Her voice is very pleasant, like the crowing of an oriole, the words are crisp and sweet as a bell.

"Yes, I also heard about this incident. It seems that the Galaxy Star Alliance arranged an unwilling seed, a lonely family, and offended a high level in the Galaxy Star Alliance. It is considered exile and has no authority or personal connections."

Sima Zhonglie was quite dissatisfied with Fang Yue's existence. He was well informed and even had many internal responses in the First Royal Palace.

All kinds of intelligence are continuously gathered to him.

He checks it every day in detail.

"The new owner of the first palace is said to be a rich man. As soon as he arrived, he allocated 100 million spiritual stones to restore the palace to normal operations. This is not a small sum! Although the house has a lot of daily income, the cost is also large! It is scattered, and the annual balance is generally only about 30 million spiritual stones! If, if we have time, we can go to this first palace to scare this party Yue, deduct tens of millions of spirit stones from him to subsidize the family?"

Wu Qiaoyue smiled happily, but all her words were vicious.

Sima Zhonglie shook his head slightly and took a sip of wine.

"The origin of this Fang Yue is unknown, and it is definitely not an ordinary person who can offend the high level of the Galaxy Star Alliance and is still alive. We can't be such a bird in this juncture. Let's talk about this slowly."

Sima Zhonglie's ability to achieve such a degree of family business is not comparable to ordinary people in terms of mentality.

Wu Qiaoyue could only see that Fang Yue had no ambition and was suppressed, but she didn't understand that Fang Yue must have the ability, so he would be exiled by the high-level Galactic Alliance, rather than directly executed.

Wu Qiaoyue was not reconciled: "But if you wait for a long time, the wealth in Fang Yue's hands will be cleaned up! Let alone eating meat, I am afraid that there will be no more bites left!"

Sima Zhonglie changed the subject and stopped discussing this matter.

Although Wu Qiaoyue wanted to say more, she glanced at Sima Zhonglie's stare at him, and in the end she could only give it up!

Among the first palace.

Fang Yue was counting the boxes of wealth carried to the mansion.

There are a total of thirty-two large iron boxes, each one half a person high and one meter long and wide.

The box opened, and the shining ones were all bright and brilliant ore. The lowest level of these ore was the main material used to forge the heaven and earth level magical artifacts!

"Report your lord, this is what you got from killing the bully Wang Xiao in the city and searching for his property. There are thirty-two boxes of Xuanhan iron ore, totaling 7,600 catties! There is also Wang Xiao's belongings, which are equivalent to spirit stones. Probably 13 million spirit stones! All of them are here!"

Chen Wenqing's heart trembled slightly.

This Wang Xiao is a bully in the Heavenly Capital City!

There are seven mineral veins under his name, and these veins need to pay him a certain amount of ore every year as a protection fee.

Although Wang Xiao also needs to honor most of his income, after years of accumulation, Wang Xiao has become a tyrant among the bullies.

Now, Wang Xiao falls and the palace is full.

Just confiscate the wealth of a bully of his, the palace has reaped the equivalent of thirty million spiritual stones!

"Sure enough, all of these bullies are doing evil and unforgivable, and even dare to hide the Xuanhan Iron Mine?"

Fang Yue hadn't had a fair reason for these land ruffian bullies to rob their families and exterminate their clan, but seeing these mysterious cold iron mines, this reason is now present.

The Xuanhan Iron Mine is one of the most consumed mineral resources in the Galaxy Star Alliance. According to the truth, ordinary people like Wang Xiao are not qualified to keep such things privately.

This is a violation of the laws of the Galaxy Star Alliance.

More importantly, Wang Xiao belongs to the aboriginal of Helen Star. The status of this aboriginal is quite low. Unless it becomes a leader-level existence, otherwise, there is no right to speak in the Galaxy Star Alliance!

"These iron mines and the wealth that Wang Xiao did not find on Wang Xiao's body are all used to pay for the daily expenses of the staff in the palace! Over the years, they have been squeezing food and clothing in the palace and have suffered, and it is time to compensate them!"

Fang Yue allocated the wealth of 30 million Lingshi, not leaving any cents, but dedicated to the royal palace. This courage moved Chen Wenqing's heart.

But Chen Wenqing also understood that it was easy to kill Wang Xiao, he was just a white glove put out by those powerful people, and he would kill if he killed him, and he would not encounter much resistance. But then, it was to face the counterattack from the people behind Wang Xiao.

To cut people's wealth is tantamount to killing parents.

Although the financial path is not right, those people don't think so.

In this counterattack, if Fang Yue could survive, it would be equivalent to passing the test of the first level and initially having the right to take charge of the palace.

And if Fang Yue loses, there are only two ways.

One is to obediently return to the Galaxy Star Alliance and change a position.

The second is to die on this Helen star.

"Chen Wenqing, have you checked out the clan forces behind Wang Xiao? He will pay tribute to those clans and forces every year for his wealth?"

Before Chen Wenqing reminded him, Fang Yue had already sharpened his sword, and he was about to take action against the forces behind Wang Xiao!

But before Chen Wenqing could speak.

At the door of the palace, there was a fat voice: "Su Wenzhe, the third elder of the Su family, please see Your Highness!"

The voice hasn't landed yet.

An old man with white beard and hair has already walked into the hall of the palace.

His face was full of smiles: "The old man can't afford to be natural, but I hope His Highness Fang Yue can atone for his sins!"

When the old man saw Fang Yue, he had no luggage or paid homage. He looked at Fang Yue with a condescending attitude.

"Atonement? The third elders of your Su family are really so majestic! When you see me, you don't pay respects, don't pay respects, don't ask yourself to come in, and let me make atonement? Do you think I'm the slave of your Su family? Heir?"

Fang Yue snorted and turned his face directly!

The Su family is just a merchant family in the Heavenly Capital City. Although the family has a wealth of wealth, it does not have any titles in it!

One of the three elders in their family was so mad at the owner of the palace, which shows how little the owner of the palace is in the capital city.

"Fang Yue, are you angry because of such a small matter? With this measure, you can't be the master of this palace!"

The third elder Su Wenzhe saw that Fang Yue's attitude was wrong, and did not apologize, but even educate Fang Yue with the attitude that I am an elder.

Fang Yue didn't say anything, he shot the shore directly.

"Come on! Su Wenzhe is uninvited, the commander of the Galaxy Star Alliance is rude, and he doesn't understand the number of manners, so he is responsible for five hundred!"

Fang Yue cleared his throat and spoke directly. All he wanted was to kill chickens and scare monkeys, to show off the power of the commander-in-chief.

"Bold, let me see who dares to do it!"

Chapter 1365: The arrival of Su Wenzhe

Su Wenzhe saw Fang Yue directly tore his face. I was too lazy to pretend, and with a scream, no one in this palace came forward to blame Su Wenzhe according to Fang Yue's order.

The impoverishment and weakness of this palace for too long, the servants above and below all lost the courage to fight against the forces in the palace.

Even Su Wenzhe, the third elder of the Su family dared to be so presumptuous, and there were many reasons for the cowardice of the palace.

Fang Yue sighed slightly, it seemed that he still looked at the potential of the palace, they had lost their basic courage.

Even if they were given more resources and more training, they would no longer have the majesty of the first palace before.

Su Wenzhe saw that no one dared to confront him.

So Su Wenzhe laughed and said, "You dare to fight against me! Fang Yue, I am now giving you a chance to hand over 50 million spiritual stones and apologize to my Su family. However, in addition, your palace

will give me 30 million Lingshi from the Su family every year as a protection fee. Otherwise, my Su family will definitely make your palace restless!"

This Su Wenzhe became more and more arrogant.

No one dared to treat him anyway!

He recklessly extorted the opponent Yue.

Fang Yue laughed and said jokingly: "The people in the palace dare not move you. You really dare to come and make offers to me. Tsk tsk, 30 million annual protection fee, your Su family is really big. Your appetite!"

Su Wenzhe sneered: "This palace has been weak for many years, and you are not favored in the Galaxy Star Alliance. With your humble rotation realm, you dare to challenge my Su family? May I tell you Fang Yue, this Wang Xiao It was my Su family who was cultivated in the royal city. If you move him, it is tantamount to moving a way of making money for my Su family. If I don't do anything to you, it will be difficult for God to tolerate it!"

"Okay! Now that you have said these words, I don't have to deliberately continue to search for evidence! People of the Su family, the following crimes, blackmail the Helen Star Galaxy Star Alliance commander's property, blackmail, extortion, heinous, cultivate evil Overlord Xiao is exploiting the people and anointing the people, doing evil for evil, and the sin cannot be redeemed. In the name of the commander-in-chief of the Galaxy Star League, I will give you the Su Family to rob and destroy the door!"

Fang Yue's voice fell.

Su Wenzhe's smile was more cheerful.

"Scatch the house and destroy the gate, hahaha! Fang Yue, you are really a majestic man! But how many people can you mobilize in this palace? Who really listens to you!"

Su Wenzhe's voice became even more arrogant. He looked around, and even the guard responsible for guarding the courtyard lowered his head silently.

For a time, Fang Yue had a tinge of betrayal.

Fang Yue is a little sad. If the backbone of these people is interrupted, they can no longer survive?

"Su Wenzhe, I will do it without them!"

Fang Yue personally started Su Wenzhe.

Su Wenzhe showed a fierce look.

"I don't know how many practitioners in this round of transition have been killed! But this is the first time I have killed the seeds of the Galaxy Alliance like you! Your noble blood will eventually stain this ground!"

Su Wenzhe is quite unscrupulous.

A phantom of a demon head appeared behind him.

"Transfer you into a demon!"

This Su Wenzhe turned out to be a strong man in the Yin-Yang realm, and he was also an upright magic repairer!

Su Wenzhe officially started with Fang Yue, and in a blink of an eye, the devilish energy was overwhelming, and the gloomy aura pressed on the entire First Palace.

Fang Yue smiled and sat back in his seat. He gently sipped tea while Chen Wenqing was responsible for pouring Fang Yue water.

"Wenqing, these years, you have given too much to these families in the royal city! You have spoiled their principals, and you can't tell the situation!"

Fang Yue's tone was slow and reasonable, not hurriedly, and there was no such arrogant smell as he had just now.

"What the commander-in-chief said is that the third elder of the Su family is indeed a bit stupid!"

Chen Wenqing added clear water to Fang Yue's tea. The addition of water was also very particular about the water temperature, water quality, and even the amount of water, how to add it.

Chen Wenqing devoted himself to serving Fang Yue, without a trace of panic at all.

On the contrary, Su Wenzhe was a little panicked. Fang Yue is still enjoying it at this time. Could it be that he still has some hole cards?

"Fang Yue, don't pretend to be here. The servants of the palace, big and small, are no longer in the same mind with you. You are alone and widowed. What qualifications do you have to fight against my Su family!"

Su Wenzhe's expression became more severe.

Fang Yue smiled slightly: "Qualifications? What qualifications do you need to fight against your Su family! Have you heard that when I just took office, I allocated 100 million spiritual stones to restore the normal operation of the palace? Oh, probably you just listened. The arrival of this billion spirit stones means that someone on our side is a big fat sheep, let you slaughter them and let you divide them, but have you noticed the movement of this billion spirit stones?"

Su Wenzhe's hands and feet were cold in an instant, and his soul flew away.

Fang Yue used 100 million spirit stones to restore the normal operation of the palace!

The palace has a large array of guardians, which is extremely profound. According to legend, at the peak, even the saints will be blocked.

But because the operation of this guardian formation is too resource-intensive, it has not resumed operation for more than a thousand years!

So that the people in the entire royal city have forgotten the existence of this formation.

"Fang Yue, you can't!"

Su Wenzhe has already felt the power of Fang Yue's body formation. In this palace, Fang Yue's strength is no weaker than a true saint!

"Exit!"

Fang Yue's finger clicked and landed on Su Wenzhe's forehead.

Su Wenzhe felt a weak force spread all over his body in an instant.

Fang Yue didn't kill him, but he abolished his cultivation base, completely and thoroughly!

Su Wenzhe fell feebly and sat in front of Fang Yue.

But the vicious look in his eyes never disappeared.

I'm all to blame for losing my cultivation, but what you did on me will definitely be repaid.

"Fang Yue, it is useless for you to abolish me. On the contrary, it will arouse the anger of the Su family! The Su family is a merchant family in the royal city. It is rich in the enemy's country. Abandon the Su family and cultivate a large number of strong people over the years! If the Su family knew Given my situation, I will definitely take action against you. At that time, the princely mansion in this district will not be able to protect you!

Su Wenzhe laughed, full of tragic and desolate laughter.

"Is it?"

Fang Yue raised his eyelids.

There was a hint of mockery in his smile.

For a moment, a soldier hurried forward.

"The commander-in-chief of the report, the 120 shops of the Su family have been checked, and I have obtained 1.55 billion spiritual stones, and various resources are still being counted!"

The words of the soldiers changed Su Wenzhe's expression suddenly.

Get paid!

This Fang Yue had already done something to the Su Family?

These 120 shops are 80% of his Su family's property!

Every year, they can provide their Su family with more than 500 million spiritual stones.

"Fang Yue, dare you!"

Su Wenzhe was uneasy at this moment, and the smile holding the winner had already disappeared from his face!

This Fang Yue's methods were vicious, and he had already begun to calculate their Su Family when he killed Wang Xiao!

"Fang Yue, even if you seal up my Su family's store, you still can't shake my Su family any bit. The Su family's background is not here, these are all things on the surface!"

Su Wenzhe gritted his teeth with hatred.

But he still shouted arrogantly.

If the Su family only relied on these shops, I am afraid it would have already decayed and died!

Fang Yue couldn't imagine the background of the Su family. This royal city was chaotic, but all the forces that could survive in the royal city over the years had unusual methods.

And these methods are also where they rely the most!

"It's true! These are the things on your Su family's face, but as long as it is meat, it will be fragrant in my mouth!"

Fang Yue continued to provoke Su Wenzhe very much.

Then, the second messenger came to report.

"Report to the commander-in-chief, the Su family's first treasure house, second treasure house, and third treasure house have been exhausted and confiscated. All the recalcitrants were shot dead on the spot!"

The words of this messenger made Su Wenzhe's legs tremble.

His complexion was pale and as pale as paper!

There are five treasure houses in the Su family, among which the first, second and third treasure houses are the real lifeblood of the Su family!

The wealth inside is amazing.

The contents inside are no longer measurable by spirit stones. Most of them are priceless, and there are even minerals and resources for casting saint weapons!

"Impossible, impossible! All of the five treasure houses of the Su family are heavily guarded. The strong guards of the treasure house, at least ten people are above the level of Yin and Yang, Fang Yue, you are a lonely family, where can the mobilized people seize us? Treasure house!"

Above Su Wenzhe's eyes, bloodshot congealed, and he was almost crazy!

Fang Yue said indifferently: "Who said that I was not treated by the Galaxy Star Alliance, and came here alone? Chen Wenqing, you said that!"

Fang Yue glanced at Chen Wenqing.

Chen Wenqing said very shyly: "I said it!"

Seeing Fang Yue and Chen Wenqing sing together, Su Wenzhe finally understood that all this was Fang Yue's layout.

The news they received was deliberately disseminated by Fang Yue, just to check them out.

Unfortunately, the Su family was the first family to hit the gun!

After a while, another messenger came.

"Report to the commander-in-chief, the fourth and fifth treasury of the Su family have been blocked, and all those who resisted have been killed! The number of treasures in the treasury is being counted."

The voice of the messenger was extremely cold and serious.

They were selected by Fang Yue from the army of the Sirius plane, but they were not the cowards in the palace who were scared of fear.

"The remaining two treasure houses are gone, and the Su family's five treasure houses are gone!"

Su Wenzhe lost his soul.

Sitting slumped on the ground muttered to himself.

The resources in these treasure troves are the foundation of the Su family's settlement.

With these resources gone, where is the future of the Su family?

"No, that's not right, the Su family still has a chance to stand up."

Su Wenzhe seemed to be thinking of something, his eyes lit up suddenly, giving birth to resourcefulness.

"The biggest chance for the Su family to comeback lies in the force of the Su family. Wealth in this world is only a form of power, but force is the eternal theme. My Su family has been rooted in the royal city for so many years, and the strong people trained are not counted. The number! If they join forces to besiege the palace, the palace will definitely not be able to withstand such a great pressure. Even if there is a battle formation, it is no use!"

Su Wenzhe finally found a glimmer of light from the vast darkness.

Fang Yue looked at Su Wenzhe like an idiot.

"Besiege the palace, okay! I'll wait for them to come and watch them go!"

Chapter 1366 Collusion

Fang Yue's words seemed to be prophecies.

His voice has not yet landed.

The people from the Su family are here!

There was a loud voice outside the First Palace, and the Su family came fiercely.

"With this battle and momentum, at least nearly 10,000 people have come to the Su Family this time! However, all the forwards are from the Heaven and Earth Realm. You Su Family are also a little too cautious! This is already burning eyebrows, and it is so step-by-step, tusk, I didn't expect that there will be an expert in the Su family who is in charge. It is indeed not to be underestimated!"

Fang Yue smelled of cool talk.

This Su family didn't dare to make a desperate move at this time, and tried their best to see their family's indecision.

"Fang Yue, come out!"

"Fang Yue, get out!"

"This is the chassis of our Helen Star. It is not your turn to be a member of the Galaxy Alliance to be the commander-in-chief."

There was a shout of shouts outside.

Fang Yue heard every word and sentence in it very clearly.

"Does this slogan mean that my Galaxy Star Alliance is not worthy to occupy your planet Helen? This is a big rebellion!"

Fang Yuexu squinted his eyes. He knew that the Su family members were arrogant, but he didn't expect them to be so arrogant. This was a blatant provocation of the Galactic Alliance's dominance over Helen Star!

As soon as this slogan came out, the meaning of this duel changed.

The previous duel was at best a personal contradiction between the tyrants in the royal city and Fang Yue himself, and once this problem was raised to the level of the contradiction between the Galactic Alliance and the Helenite natives, it meant that this matter was tricky.

Fang Yue couldn't back down. If he backed down, it would be difficult for the Galaxy Alliance to establish authority on Helen.

And he couldn't open the killing ring, because in the entire process of conquering the Galaxy Alliance, he took a more gentle route.

A Helen star with corpses everywhere and a Helen star with a prosperous population that can bring a steady stream of wealth to the Galaxy Covenant, as long as the brain is not pretty, they can easily make a choice!

This put Fang Yue into a dilemma.

There are experts behind these refugees!

But this kind of thing can be difficult for other people but not for others!

"Damn these refugees!"

Fang Yue dropped such a sentence lightly, he picked up the tea cup next to him and took a sip of hot tea.

"But they can't die in my hands!"

Fang Yue immediately added the second sentence.

Su Wenzhe's expression changed again. He did not expect that Fang Yue had such experience in dealing with problems, and one sentence would hit the core of the problem.

"How about letting these refugees die in the hands of your Su family? Tsk tsk, Su family, it's very majestic! It's not too late to be more majestic!"

Fang Yue's voice fell.

Afterwards, Fang Yue took Su Wenzhe to the wall of the palace.

This palace is like a city within a city, and the outermost wall is made of a ten-meter-wide city wall.

Fang Yue ascended the city wall, and at the same time there were hundreds of raw faces standing on the city wall.

"Cycle, Rotary..."

Su Wenzhe's gaze across these raw faces turned out to be the all-round guards at the rotation level.

They have strong bows and crossbows in their hands, and their indifferent faces are clearly the expressions of murderous executioners.

They don't even care about their own life or death, let alone others.

Where do these people come from?

At this moment, Su Wenzhe's mouth was full of bitterness.

This Fang Yue is too mysterious, no matter where he is a lonely family, he is clearly a hero in the Galaxy Star Alliance.

No wonder these people just dared to slap in the mouth, they really came forward, maybe they were corpses all over the floor.

Su Ru, the Patriarch of the Su family, watched the scene in front of him from the Tianyu teahouse a hundred meters away, and his eyes flashed with a fierce light from time to time, like a vulture.

This time the matter was related to the future of the Su family and the lifeblood of the Su family, so it was not careless or careless. In the end, Su Rulai was in charge.

"The soldiers in Fang Yue's hands are all unfamiliar. Obviously they are not from the palace. This is a bit beyond what I expected!"

Su Ru spoke, and the few white-haired old men beside him remained silent.

They are representatives of other families, and this time they are going to join forces with the Su family to defeat Fang Yue and divide up his wealth.

"With these soldiers here, it is difficult for the people gathered by my Su family to attack the palace. If this happens, it will not only be my Su family who will benefit. Do you all have to do your part!"

Su Ru clarified the matter.

Because they were the first to jump out to deal with Fang Yue, their Su family received an extremely fierce counterattack from Fang Yue. Not only was the whereabouts of the three elders in the Yin-Yang

realm unknown, their life and death were unknown, their Su family's shop was also sealed by Fang Yue, and the treasure house was also given. Moved away!

Even the twelve guardians of the Yin-Yang realm level had fallen, which caused the Su Family's strength to drop by more than 50%.

If this plan fails, even the entire Su family will face the danger of being out.

On the face of it, Su Ru is not moving, and the wind is calm, but in fact, he has a lot of grievances against the man who is secretly trading.

"This matter, let me do it!"

One of the old men, Zhang Yuan, spoke slowly.

The Zhang family is also a prominent family in the royal city, but unlike the Su family, the Zhang family is a strong family by force. They did not place hope on money, but continued to cultivate generations of talents. , Became the pillar of the family.

"There are dozens of people from my Zhang family in this crowd! I let them take action and kill a few soldiers on the wall. These people will naturally rise up to fight back. At that time, the conflict between the two sides will make it difficult for Fang Yue to control the whole In the situation, my Zhang family sent a few more people to assassinate Fang Yue, and this matter was done!"

Zhang Yuan is a Wufu, and Wufu has the thinking of a Wufu.

Although his idea is simple, it is the most feasible way.

"it is good!"

Su Ruying down.

In the noisy crowd, a cold arrow suddenly pierced the air.

A faint silver light pierced the throat of a soldier on the wall.

"coming!"

Fang Yue's pupils condensed suddenly.

As Fang Yue's voice fell, that Leng Jian directly turned into powder in the void.

In this scene, Fang Yue had long expected that this rabbit would bite people in a hurry, not to mention the Su family and his behind-the-scenes pusher.

The other party's purpose is quite simple, is to use blood to stimulate the archers on the city wall to shoot the refugees, create chaos, and take the opportunity to assassinate him, but how can Fang Yue make these people do what they want?

He had long been wary of the opponent's move, so he always observed it in secret.

Cold Arrow shattered.

The person who shot the cold arrow evaporates directly from the world.

He seems to have never appeared in the world.

The white jade small tripod in Fang Yue's hand flashed away.

Today's white jade small cauldron has evolved to a new level with the increase in devouring flesh and blood. Practitioners below the fifth level of the rotation realm can directly swallow it for sacrifice, and within a radius of ten miles around the small cauldron, this small Ding can devour creatures at will, regardless of distance!

The top of Xiaoding has revealed a vague magical nature.

But Fang Yue didn't care about the devilishness.

After all, this weapon is a dead thing, and it is precisely the means by which the evil chief looks at the user.

A strong person at the rotation level just disappeared.

This made the boiling, noisy refugees a little frightened.

This is completely out of their scope!

They are not afraid of bloodshed or sacrifice. Before they came to make trouble, they had actually made corresponding psychological preparations.

But that is within the scope of their opponents being the same practitioners.

But letting the people around them evaporate and disappear directly is already a ghostly method, and it is not something they can resist!

"Anymore?"

Standing on the wall of the palace, Fang Yue finally spoke.

His mouth is full of provocation.

The refugees were even more shocked.

This script is wrong!

They are making trouble, Fang Yue should try his best to appease them, avoid the situation from expanding, and agree to their unreasonable demands.

In this case, it is a good ruler.

But how did Fang Yue speak in this tone!

The hearts of the refugees panicked.

This is a different script, a different story!

At this moment, their hearts were hanging up, and they were secretly thinking, if this Fang Yue is really ignorant of current affairs, what to do with them!

Just when they want to live.

Someone has done it again!

Flop, white knives in, red knives out!

The corpse fell down, breathless.

Fang Yue glanced at the corpse on the ground.

It's finally time to do it!

"It's killing! It's killing! Fang Yue is killing!"

The bright blood stimulates the tense nerves of the refugees!

The scene they most worried about finally happened!

The person was extremely fast, pulled out the dagger in his hand, and then killed the other people around!

In a moment, two people died and three were injured.

He looks crazy, beheading people around him one after another!

All the figures fell, making the panic in the hearts of the surrounding refugees deeper!

"Bold, to kill the people of my King City, are you impatient?"

Fang Yue scolded, his expression was fake.

But the movements in the hands are not slow at all.

Fang Yue's palm leaned towards the void and directly sucked the person into his hand.

Even though that person was the third-tier cultivation base in the rotation realm, he didn't even have the ability to resist in Fang Yue's hands.

His body was wrapped in black clothes and a veil, and he couldn't see the specific appearance at all.

Fang Yue let out his energies and made a pounce.

The black clothes and black yarns are all shattered, and disappeared!

"This is from the Su family?!"

Someone immediately recognized the identity of the man in black.

The anger of those refugees immediately shifted to the Su family. Fortunately, you are the Su family. At the expense of asking me to besiege the palace, but you are watching from the shore.

Originally, paying the money in one hand and the goods in the other hand belonged to normal business operations, and we had no complaints.

But at a critical moment, you stabbed us in the back, this matter needs to be discussed!

The anger of the refugees immediately focused on the Su family.

The Su family wanted them to die, so why are they still making trouble at the door of the palace!

A large group of people and horses in Wuyangyang ran towards the Su family.

Su Ru's face in the teahouse changed slightly, extremely ugly.

Zhang Yuan glanced at Su Ru: "That person is not yours?"

"I belong to the Su family, but I never gave him an order to kill these refugees!"

Chapter 1367: Anti-kill

Su Ru's voice was a little hoarse.

Their plans fell through.

It seems that this time I can only storm!

Conspiracy or something is useless!

"Su Ru, get out of here!"

"Su Ru, get out of here!"

Below Tianyu Teahouse, a group of mobs are shouting loudly!

That sound is like ocean waves, wave after wave, one wave is better than one wave!

Su Ru and Zhang Yuan thought they were watching from the sidelines, but in fact, their whereabouts had already been exposed!

The voices of those mobs were about to overturn the entire teahouse.

Su Ru's face was as pale as paper, and it became more and more ugly.

"Kill me, kill all these mobs. Things that didn't work well or failed. They took my money and came to me to make noise!"

Su Ru closed his eyes.

The previous plan will not succeed!

Now, it can only be a violent armed force to solve everything.

Although the loss was even greater, Fang Yue must have died this time!

Upstairs at Tianyu Teahouse, more than three hundred Su family's elite went downstairs, they were responsible for killing those angry mobs.

This is a one-sided massacre. Even if the unorganized and undisciplined refugees are not weak, they are still fragile in front of the well-trained elite of the Su family.

The blood stained the ground under the teahouse.

Fang Yue was indifferent to the scene before him.

He is not a benevolent monarch. These mobs have already touched his bottom line by collecting money from the Su family and besieging the palace.

They died in the hands of the Su family, it was a reincarnation!

Looking at the blood on the floor and the broken arm.

Su Ru also formally walked out of the teahouse and walked from behind the scenes to the front desk.

"Fang Yue, they died because of you. This palace is not where you should stay. Now that you are here, you should die obediently, okay? Just now, if you are subdued, they will be all right. We can still be peaceful. Get along!"

Su Ru's voice was extremely cold.

He shifted all the responsibility to Fang Yue's body!

"Patriarch Su, this is very reasonable! But the same thing, I will give it to you, and some people will die because of you! Come on! Take out the gift for Patriarch Su Ru!"

Fang Yue gave an order.

Dozens of heavily armed soldiers took out square brocade boxes.

When Su Ru saw these square brocade boxes, he had an ominous premonition in his heart.

no, I can not!

"The brocade box is open!"

Fang Yue gave an order, and these dozens of boxes opened one after another.

Among them, the heads are dripping with blood, and they are impressive!

They won't look down.

There was a gloomy death all over his body.

"No, no, no!"

Su Ru looked up to the sky and screamed, spitting out a mouthful of blood.

He was so angry that he almost fainted!

These heads are the heads of his descendants and family members.

Before going out, Su Ru clearly placed them in an unknown outside house of Su's family!

"Tsk, the people of the Su family, Guitu Sanku, it's really hard to find! If it weren't for me to plant a spy in the Su's family and watch your Su family arrange everything from start to finish, there's really no way you can do it. what!"

Fang Yue's laughter was a bit gloomy.

But Su Ru's heart almost burst.

"Spirit, spy! Who on earth betrayed my Su family!"

Su Ru's eyes froze suddenly and fell on Chen Wenqing beside Fang Yue.

"Chen Wenqing, it's you, your old dog, right!"

Su Ru's eyes are like torches.

Instantly understood the truth of everything.

Among the palaces, the most unfathomable is Chen Wenqing, the general manager who is usually low-pitched.

He has been in charge of the palace for many years. Although the palace has declined, it is the camel that suffers more than horses.

He was already full of his eyes, eyes and eyeliner in the royal city.

Chen Wenqing had a rickety waist.

He said with some humility: "Patriarch Su Ru, it was indeed made by the old slave! Originally, the old slave thought that this palace was just like this. At least in this life, the old slave will not see its revival and glory! But it is time! Master Fang Yue gave the old slave a glimmer of hope, so the old slave had no choice but to fight this old life and assist Master Fang Yue!"

Chen Wenqing's voice is neither overbearing nor overbearing, as if to state a fact, a journey of his mind!

And Su Ru broke out instantly.

"Chen Wenqing, you old dog, I should have thought it was you, and should have killed you long ago!"

Su Ru gritted his teeth with hatred for Chen Wenqing.

Chen Wenqing still stood there as if it were a dead tree.

There was no panic in his heart.

Because Chen Wenqing knew how terrifying the power in Fang Yue's hands was!

"Okay, okay, I'm done with what you have to say! Now all your cards are revealed!"

Fang Yue spoke again.

He smells impatient.

I was supposed to be the person you Su Ru hated the most. How come I am on the bar with Chen Wenqing now, I am the protagonist.

"it is good!"

Su Ru took a deep breath and suppressed the rolling anger in his heart.

Since Fang Yue wants to die, then fulfill him!

"Wu Anwei, come out!"

Su Ru gave an order!

Five thousand neatly guarded guards appeared.

The Five Thousand Wu Anwei is the most elite army trained by Su Ru these years.

Among them, the lowest cultivation level is at the level of the Rotating Realm. The centurion and above are all powerhouses in the Yin-Yang realm, and Wu Anwei's positive and negative commanders are all at the peak of the Yin-Yang realm!

Although he came from a family of merchants, if he didn't have a knife in his hand, the Su family would be a fat sheep in the eyes of others.

"Hey, Wu Anwei, really powerful!"

Fang Yue opened his mouth on the wall.

No surprise to Wu Anwei's appearance.

Su Ru is right.

He should have killed Chen Wenqing long ago.

Chen Wenqing has been in the royal city for so many years, and he has already figured out the cards of each family clearly!

Chen Wenqing is a poisonous snake hibernating in the grass.

"Fang Yue, don't be arrogant. My Wu Anwei was carefully selected by my Su family. They use the best armor and practice the best secret techniques. Every Wu Anwei is here. All members of the same rank can be called elites, enough to be one enemy to three, one to five! If they join hands, even the formation of this royal city cannot protect you!"

Su Ru's waist gradually straightened, and he recovered from the crazy shock just now!

The daughter is gone and come back.

It's not a problem for him if his family's wealth is gone and his relatives leave. As long as he still has Wu Anwei in his hands and this army that can be used to fighting, he can start from scratch again and build a stronger one. Su family!

"Fang Yue, do you have any last words? This is your last chance!"

Su Ru glanced at Fang Yue on the city wall.

His voice was extremely proud.

The previous slump was wiped out, as long as he wins this one, those previous failures are nothing!

According to the promise of the big man before, everything he paid in this process will be doubled.

"Su Ru, do you really think you are determined to win this time? I really don't know who gave you such a strong confidence!"

Fang Yue still had a winning expression on the wall.

This is not a pretense, it is true, Fang Yue had already won before the battle started!

"Line up! Set out!"

Fang Yue's voice fell.

A team of people lined up from the palace.

It is also five thousand soldiers and horses but five arms!

Lich, corpse dragon, death knight, skeleton archer, golden skeleton soldier...

It's really bad!

Is this an exhibition of advanced undead creatures?

And the configuration is really high-end!

Two-thirds of the soldiers and horses are at the pinnacle level of the rotation stage, and the remaining one-third are even more impressive, all at the level of the Yin-Yang stage!

What is this fight?

High-level undead creatures usually fight ten against ordinary humans.

What's more, this time Fang Yue's undead troops are all more than one or two small realms higher than Su Ru's soldiers.

This is really crushing!

Wu Anwei under Su Ru has also become a group of obedient little sheep from just now.

What the hell.

Isn't this Fang Yue rumored to be a lonely person?

Where is this lonely or widowed.

Is it clear that a big warlord is easy to kill?

"Give you a chance to surrender and take refuge in me. You don't have to kill, otherwise, you will be buried with the Su family!"

Fang Yue spoke again, he looked like I was righteous.

Su Ru's face was green.

This Fang Yue and the person on the profile simply can't match!

What is the experience of a hundred battles and what is the ability to be used to fighting? His Wu Anwei and Fang Yue's skeleton soldiers are almost a thousand miles away!

The blades in the hands of these skeleton soldiers are still dripping blood. I don't know where they just came back from the battle.

As for Wu Anwei, his subordinates were suppressed to the refugees on weekdays, such as in the Su's shop and the mines in the town.

Where have I really experienced life and death, I have seen blood.

There is no need to fight this battle, Su Ru knows that he has lost, and he still lost completely, convinced!

He had been trapped in Fang Yue's layout from the beginning, and the smartest thing Fang Yue did was that he didn't take the initiative to come to trouble the Su family.

If he came to move the Su family, it would definitely lead to dangers of every powerful family in the capital city, and then join forces to fight Fang Yue.

But this time it was Su Jiabing coming down to deal with Fang Yue, this Fang Yue was purely self-defense to counterattack.

Although this will also cause other families and forces to have a strong sense of crisis in their hearts.

But it will not reach the point where everyone is in danger.

Fang Yue's meaning is very clear!

If you don't bully me, I won't move you either.

And if you move me, I will definitely kill you in one bite!

"Fang Yue, I still have the last hole card, don't be proud of it too soon!"

Su Ru seemed to be ten years old suddenly, and there were a few more silver threads in his original black hair.

Originally, he really didn't want to use this hole card.

Fang Yue forced him.

"Fang Yue, do you know how my Su family started?"

Su Ru lowered his head, his voice was hoarse and inexplicable, and a black cloud appeared above his head.

The sunlight above Su Ru's head was covered, and his whole person was integrated with the surrounding darkness.

Chapter 1368: Su's last hole card

"My Su family is actually a family of demon gods. It has gradually grown up because of enshrining our demon **** Drucker. The devil gods give us endless power, and we are responsible for contributing our beliefs to the demon god!"

Su Ru's voice became deeper and deeper.

Behind him, a vague phantom of the Demon God gradually emerged, ten feet tall, muscles like a rock, three heads and six arms, and a hideous face!

"Each generation of the Su family's family has the blood of the demon **** flowing in it. When the Su family is in desperation, the Patriarch will contribute everything he has to summon the legendary Lord Druck!"

Su Ru suddenly raised his head, the demon ghost behind him merged with his deity!

The aura in Su Ru, who was originally only at the peak of Yin and Yang realm, instantly soared to the level of the leader realm.

The Master Realm is considered a top master in this day's capital city!

Originally, there was no strong leader in the Su family, but at this moment, the Su family had its own strong leader and jumped into the ranks of the first-class family in the royal city!

Su Ru's body is devilish!

His eyes were red as blood.

At this moment, Su Ru is no longer Su Ru, but the spokesperson of the Demon God Drucker in this world!

"Suffer Fang Yue! As long as you kill you, the Su family still has a chance to comeback!"

The sounds of Su Ru and Drucker are mixed into one.

He came to Fang Yue's fierce oppression.

All Wu Anwei's eyes became blood red at this moment, and his body also exuded the aura of a demon god.

This is the strongest ultimate move that Su Family has always hidden for many years!

This is the real trump card of their Su family!

It's a pity that a hole card that has been seen can't be called a hole card again!

Fang Yue couldn't help but shook his head slightly and sighed softly.

"Su Family, is this just the bottom line? It disappoints me too much!"

"Hela, kill me Su Ru!"

Fang Yue gave an order.

A figure hidden in the darkness appeared.

Hella!

The guard assigned to Fang Yue by the Galaxy Star Alliance.

The real powerhouse of the leader realm!

"The strong man in the master realm, no!"

The moment he saw Hella, Su Ru turned around and ran away.

He relied on burning his blood to get Drucker's power, and his ability to temporarily break into the leader realm was definitely not as powerful as Hella!

Su Ru 10,000 did not expect that Fang Yue had such a hole card.

One Hella is enough to kill all of their Su family!

"ended!"

Hella chased it out, and after a while, he returned with Su Ru's head. On the head of that person, his eyes opened in anger, and he couldn't squint!

If they had known this a long time ago, they would not have made the previous decision-they would have done the right thing with Fang Yue for a little profit!

Wu Anwei was quickly cleaned by Fang Yue's undead army, and after all was captured alive, he was sacrificed by Fang Yue and dedicated to Fang Han.

Recently, Fang Han, who has been sacrificed by Fang Yue one after another, has been a bit relieved!

He was able to spare more and more energy while fighting the Destruction Demon Race, and he would chat with Fang Yue if he was okay.

And Fang Yue knew that Fang Han was using the flesh and blood soul he sacrificed recently to make a clone, which would come down at the right time.

"The Su family is gone, Su Wenzhe, what do you think?"

The Su family was ransacked by Fang Yue, not even a panting mouse was left, and even the mouse who hadn't opened his eyes was thrown to death. Only Su Wenzhe, who was abolished by Fang Yue's martial arts, was left behind.

Su Wenzhe's mind was ashamed at the moment.

This Fang Yue is simply a little yin, he deliberately released the news, making everyone look down on him. Then he seduced the Su family to jump out and fight him.

Fang Yue showed the tiger's fangs again at this time and swallowed the Su family in one bite.

The Su family can't use force, but they are good at making money.

How many spirit stones and materials Fang Yue earned, even Su Wenzhe, the third elder of the Su family, didn't even know!

If Fang Yue is allowed to digest all the wealth of the Su family, then how far will Fang Yue's first palace swell?

unimaginable!

"Just kill me!"

Su Wenzhe closed his eyes.

The Su family is gone, and he doesn't have much meaning to live.

What's more, will Fang Yue's character let him go?

No, definitely not!

Rather than live in pain, it's better to be a hundred after you die!

Fang Yue smiled: "Am I that kind of cruel person?"

Fang Yue's compassionate smile made Su Wenzhe feel extremely hypocritical.

Yes, of course you are that kind of person!

If you are not that kind of person, there will probably be no one in the world!

However, Su Wenzhe dare not say.

If he said this, Fang Yue's character with a small belly and chicken intestines, the flaws must be reported, will definitely make him worse than death.

But Fang Yue had already seen his heart from Su Wenzhe's expression.

"Okay, okay! You are right! Su Wenzhe, I left you to show off my success! You are the first person I came to this palace to provoke me! So, my victory must I want to share with you!"

Fang Yue's evil taste is indeed disgusting to Su Wenzhe.

It is really hard to imagine how you, such a vulgar, shameless, and full of evil taste, became a seed in the Galaxy Alliance!

"The spirit stones that I seized in the Su family this time amounted to about 30 billion! This is pure spirit stones without discount of other resources. The Su family is really making money, and the daily Jindoujin is all underestimated. You are here! These spirit stones are now mine. They can be used to replenish my palace and fill my pockets! In addition, your Su family also has stores, a total of 230, good land eight Thousand acres, 23 houses, 77 small-scale veins, 21 medium-sized veins, and three large-scale veins! These things are money-making machines and can earn at least 5 billion spiritual stones every year. ! And then there are five treasure houses of your Su family, in which all kinds of weapon materials and medicines, if converted into spirit stones, would be at least 120 billion!"

Fang Yue praised.

Su Wenzhe was shocked when he heard this!

Fang Yue seized more property in the Su family than he had imagined.

However, these things belonged to the Su family in the past, but they are not now. There is no Su family anymore.

Everything has become Fang Yue's spoils. Su Wenzhe felt like a mouthful of blood spurted out of his chest for this hateful Fang Yue.

Fang Yue looked at Su Wenzhe's extremely weak look, very proud.

"The revenge this time is really cool! Didn't you still go to the door to ask the crime? Why are you so weak now, tusk, no wonder it is not too late for a gentleman to take revenge for ten years. The feeling of revenge is really sour and cool! "

Fang Yue's words were incomparably beaten, and Su Wenzhe felt even more collapsed after hearing it.

The Su family was gone, and everything was cheaper by this guy.

At the moment when Su Wenzhe's faith collapsed.

Fang Yue's owed voice suddenly disappeared and turned into a majestic, mysterious tone.

"At this time, are you still not coming out? My Lord Drucker! If Su Wenzhe's psychological endurance is not good, your last sustenance in this world will be gone!"

Fang Yue's voice fell.

Su Wenzhe couldn't help being surprised, Lord Drucker?

Do you still have Lord Drucker's will in your own body? Isn't that the bloodline that only the patriarch has? We are just tainted with the breath of a devil!

"You kid is really cunning, you can even see through this!"

Behind Su Wenzhe, an illusory figure gradually solidified. This is a very handsome middle-aged man, dressed in black, with an elegant posture completely different from the Drucker sculpture enshrined in their family.

However, when the phantom left his body, Su Wenzhe felt that he was even weaker, and all the power in his body seemed to be instantly deprived. The whole person was hollowed out!

"Master Drucker, save me, save Su's family!"

Su Wenzhe hugged Lord Drucker's thighs and groaned in pain. This was his last straw!

Drucker gracefully pushed Su Wenzhe away, and Su Wenzhe flew upside down like a straw, light and light as if there was no weight at all.

"Don't contaminate my body with your dirty body! Tsk tsk, I really didn't expect that the former Su family would be so downhearted!"

Drucker dusted the place where Su Wenzhe had touched.

The last trace of fantasy in Su Wenzhe's heart was disillusioned.

But he was still madly asking for help.

"Master Drucker, you can't be like this. The fairness you get is what our Su family has worked so hard to find for you. You should abide by the previous contract and promise and protect our Su family forever!"

Su Wenzhe still holds the last trace of illusion, hoping that Lord Drucker can find out with conscience, not to mention that Fang Yue can be destroyed, at least he should be taken away to restore the cultivation base, leaving the last trace of recovery for the Su family Seeds and hope!

Drucker cleared his throat and looked at Su Wenzhe pityingly.

"The blood of the Su family, right! I'll tell you one last time, my full name is the Demon God Drucker. The Demon God, do you understand?"

Drucker's voice suddenly became sharp, extremely harsh.

"The devil is the representative of non-trustworthiness. We are loyal fans of the chaotic camp! You want to use a contract to blackmail me? It's really ridiculous!"

Drucker's voice fell, and one of his pale and powerful palms fell on Su Wenzhe's head.

Su Wenzhe's head was spurted with blood, his skull was shattered, and his death was extremely miserable.

"Come here! Pack this Su Wenzhe's body and take it away!"

Fang Yue pinched his nose, as if disgusted with blood.

Soon, several maids came to clean the blood stains on the ground very professionally.

They turned a blind eye to the existence of Drucker Demon God.

This Drucker Demon God can hide people who he doesn't want the opponent to see him.

"Master Drucker, the last bloodline of the Su family is severed in your hands. It is the reincarnation of the Su family's destiny. They prospered because of you, and finally extinct because of you. What a sigh of reincarnation!"

Fang Yue's words were thorny, and Fang Yue was not afraid of this other person in awe of Drucker.

If Drucker's deity descended, Fang Yue would just kneel on the ground and call grandpa without saying a word.

Like the existence of Drucker's level, the deity is at least the level of the Great Sacred Realm.

However, this is just a small projection, oh, he has also absorbed the power of blood in the blood of all the Su Family, but his current clone is at most the power of the leader level.

Although Fang Yue is also a clone, it is still appropriate to deal with a leader-level existence!

Demon God, the most terrifying thing is not power but their various and varied methods.

When they act as the behind-the-scenes promoters, it is naturally a headache, but when they are really standing in front of them, they can sit down and have a good chat.

Chapter 1369: Recruiting Drucker

"Boy, what do you want to do?"

Drucker randomly found a chair and sat down on all fours.

If he comes, he is safe. As a demon, Drucker's psychological quality is also leveraged.

"Come on, make a deal! Don't you demon gods like trading the most?"

Fang Yue was very enthusiastic like a peddler on the edge of the road, Drucker could not see the slightest appearance of the seeds of the Milky Way Star Alliance in him.

Are the seeds of the Galaxy Alliance now reduced to this point?

It really disappoints him too much. If this is the case, then the prosperity of the Galaxy Alliance should not last long!

These are all talking to himself in Drucker's heart.

But there was still a trace of contempt on his face.

What are the main conditions for this negotiation? It is to completely grasp the initiative in his own hands.

Isn't this Fang Yue going to negotiate?

Then give him a negotiating gesture!

"Deal, what's a good deal, haven't you seen the way I was just now? This Su family has supported me at all costs for nearly a thousand years, but in the end, the last seed of the Su family died in me. Hands!"

For Fang Yue, Drucker was quite unhappy.

If Fang Yue hadn't been so fierce and had destroyed the Su Family in one go, he should still be able to enjoy more Su Family tributes.

"Master Demon God, don't be angry, don't be angry! I have believed in the character of Lord Demon God. There are no eternal enemies but eternal interests. As long as our interests can be negotiated, everything can be traded, right?"

Fang Yue didn't care about Drucker's attitude at all!

Fang Yue is very knowledgeable about the negotiation.

He knew that as long as Drucker was willing to speak, there was hope for negotiation. As for Drucker's attitude, Fang Yue understood more that he wanted to repay the price with himself!

Does Drucker have old feelings for the Su family?

Do you miss it?

Nothing!

For the Su family, will Drucker and Fang Yue turn their faces?

Fang Yue's evaluation is only two words: Ha ha!

"Master Drucker, this Su family is gone, but I am willing to support your clone! I know that your deity must be trapped in a small world and cannot break free, so you can only rely on your clone to walk the world. Then find a way to rescue his deity, right!"

As soon as Fang Yue's voice fell, he felt a chill wind on his neck.

This is certainly not because Fang Yue's sweater was worn upside down.

But Drucker's murderous intent had fallen on Fang Yue's body.

"Boy, who told you this?"

The fierce light was revealed in Drucker's eyes!

This matter is the biggest secret in him. If it weren't for being trapped by the respect, he would let a **** merchant family come to worship him so idly and slowly cultivate a clone of the leader level?

But this matter should be top secret.

This Fang Yue didn't know his identity.

The devil was suspicious, at this moment, Drucker had even thought of killing Fang Yue.

However, Fang Yue turned a blind eye to this chilly murderous intent, and instead said casually.

"Because I have seen people similar to Lord Drucker in many places. They are all trapped in the deity, and I have no choice but to let the clone walk in this world! So, this thing is not told to me by others, but I Guess it yourself! How about it, my brain is smart enough!"

Fang Yue glared at Drucker with cute eyes, and looked at Drucker bashfully. The light in his eyes clearly said, come, come, come and praise me!

But the murderous in Drucker's heart is even more intense.

A wise man knows his secret, will he use it to threaten me?

As a demon god, small belly chicken intestines, with the heart of a villain, save the belly of a gentleman, this is the most normal operation.

Just when countless thoughts were rolling in Drucker's heart.

Fang Yue spoke again.

"I know Master Drucker must hate me now. If you want to do it right away, I will do it right away! But Master Drucker is also very hesitant and entangled! This news is indeed very weak, but his The status and status are not low! This is the seeds of the rotation of the Galactic Alliance Platinum level. No matter whether the senior leaders of the Galactic Alliance like me or not, as long as I die, the Galactic Alliance will definitely track it down for the sake of face. Who killed it? I, whoever has to pay the price of life, can maintain the face of the Galaxy Alliance!"

Fang Yue said it was extremely light.

But Drucker's murderous intent on Fang Yue was scattered.

This Fang Yue is simply too smart, as if he was a monster living in the world.

He can guess all the thoughts and thoughts in your mind at a glance.

Since he knows he has murderous intent and dare to say so, he must have a hole card to save his life!

"Go ahead, what business do you want to talk about!"

Drucker's murderous intent dissipated, and his tone became weaker.

"Master Drucker, I think we can actually become comrades-in-arms fighting side by side! Because what you need most is in my hands!"

In Fang Yue's eyes, a cunning light fell.

Drucker sneered softly: "What do I need most? I don't know what I need most now. You dare to say that the thing I need most is in your hands. This is really absurd!"

Drucker's laughter was full of contempt.

Fang Yue turned a blind eye to Drucker's contemptuous tone.

"Master Drucker, I just said that your deity is trapped in that unknown little world, and even your deity doesn't know the location of this little world. So, now you hope that the most necessary thing is to let Your powerful deity will get out of trouble as soon as possible, and get rid of the troubles of this weak clone! If your deity is out of trouble, you don't need to be patiently negotiating here with such a vulgarity like me, right!"

Fang Yue's voice fell to the ground, at this moment, the string in Drucker's heart was indeed tightly choked.

What Fang Yue said was not wrong. What he needs most now is to find a way for his deity to get out of trouble, even if there is a glimmer of hope!

"Well, as sincerity, I can talk about the first step for your deity to get out of trouble! Now what you need most is to find a master who is good at the law of cause and effect, and use the law of cause and effect to establish the connection between your deity and the clone! Then use this Contact and find a master who is good at space power. In this way, you can probably know what kind of small world your deity is trapped in!"

Fang Yue's strategy came out.

This Drucker was immediately stunned!

Regarding the matter of the deity getting out of trouble, Drucker can be said to think every day, every day, and every night!

But no matter how hard he thought about, he couldn't find a corresponding way.

And as soon as Fang Yue appeared, he immediately pointed out the road ahead.

Drucker's gaze at Fang Yue suddenly changed from disdain to fiery.

And Drucker also understood that at the moment when he showed this kind of scorching heat, this business, or negotiation, he had already fallen to the absolute bottom!

But as long as the deity can be found, what if it is a disadvantage in the negotiation?

His deity was born, this Fang Yue is no more than a humble ant!

"However, these people who are good at the law of cause and effect are almost all in Buddhism. There is hardly a master who is good at Buddhism in Helen Star! And very few people are good at Space and Dao."

Drucker frowned again, this method is indeed a good method, the chance of success should not be small.

However, this condition is too harsh, whether it is a master who is good at causal power or a master who is good at space and heaven, there are very few.

One hundred thousand trails, three thousand avenues, and the ten directions of heaven are the masters who practice many Taoisms with too much choice. There is rarely such a coincidence that the practice of the avenue of cause and effect or the way of space and heaven. And this cultivation base must also be extremely exquisite!

"You can't invite these masters, but I can! Who am I! I am the seed of the platinum-level rotation level in this galaxy alliance, and my status is also very high within the galaxy alliance. , As long as I have enough internal points of the Galaxy Covenant, I can invite a master of the corresponding level, Lord Drucker, you can't trust me, can't you still trust the Galaxy Covenant?"

When Fang Yue said this, Drucker's eyes lit up.

Yes, I can't hire a master who is good at these two methods, but Fang Yue can!

This galaxy alliance is really the most powerful force in the galaxy.

Among them, the masters are like clouds. They must be masters who practice this method!

"So, we are natural comrades in arms, fighting side by side, coexisting with life and death!"

Fang Yue grabbed Drucker's shoulders, looking good!

Drucker frowned slightly and wanted to push Fang Yue away, but thinking about Fang Yue's identity, he finally didn't push Fang Yue away.

Among the people he knows, it seems that Fang Yue is the only one who has such a high status in the Galaxy Alliance.

If Fang Yue died or turned his face against himself, where would he go to find someone with such an identity in this remote Helen star!

Drucker also knows how to weigh the pros and cons.

Fang Yue saw that Drucker was struggling, and finally he acquiesced in agreement. He struck while the iron was hot and said: "Lord Drucker, don't worry! If you are willing to help me, I won't let you do

nothing, you Now you need to improve the strength of this clone, because the stronger your clone's strength and the stronger the sense ability of the deity, if your clone has reached the level of a saint or even a great holy realm, maybe you don't need to be good at causal power and With the help of the masters of the space heaven, you can also sense the location of the deity. When the clone and the deity become one, it must be another step to kill the invincible in the world!"

"But if you want to improve the ability of this clone, it is quite difficult, especially before the leader level. After you reach the leader level, the various resources you need will become more precious, like the Su family. The small family simply can't supply you! And their channels are quite limited, and the things that can be purchased are not good things! And I am different, I am the seed of the platinum level of the Galaxy Alliance, and the channels in hand are difficult for you Imagine that as long as you are willing to pay the price, I can buy all kinds of pills and materials to improve your cultivation!"

Fang Yue hit Drucker with the abacus.

Where are the resources of the Su family over the years?

Chapter 1370 Sima Zhonglie's Choice

The amount of inventory is simply not proportional to the income ability of their Su family!

Fang Yue can find the corresponding channel by thinking about it with his toes.

Honoring upwards and seeking protection must be a major expenditure of their Su family.

But the number of offerings to this Drucker Demon God must be quite large.

After nearly a thousand years of accumulation, Drucker's wealth may be more than the wealth of the entire Su family combined.

In order to hug this thick and big thigh, the Su family must have done it at all costs!

"My value, I have already said very clearly! As the two parties in the transaction, it is the minimum rule to be equal in value. Lord Drucker also talk about the weight in his hand!"

Fang Yue is a person who doesn't like trouble. He doesn't bother to say a word of those hypocritical and polite remarks.

Trading is inherently equal in interest, don't take brotherly feelings.

Drucker glanced at Fang Yue and was silent for a moment before he said: "On Planet Helen, in addition to the Su family, I also have twelve families, three of which are in the royal city! The clone is only one of my twelve clones in Helen Star! Cunning Rabbit Three Caves, my trump card is not so much!"

Fang Yue smiled as soon as Drucker spoke.

"Good, good, good! This time, my plan is easier to succeed!"

At the same time, Zhang Yuan stepped into Sima Zhonglie's residence.

Sima Zhonglie met in the meeting room with an extremely serious expression.

Sima Zhonglie returned to see that Zhang Yuan's specifications were extremely high.

As soon as Zhang Yuan stepped into the door of the meeting room, he waved his hand to make Sima Zhonglie retreat left and right.

"I'm here this time, representing the Zhang Family, and also representing the Nine Shadows Mansion. I hope that the Sima Family can take one shot and strangle Fang Yue!"

Zhang Yuan is straightforward, and he is not sloppy.

His voice was old and his hair was gray, but Sima Zhonglie felt a faint suffocation on his body.

"Nine Shadows Mansion?!"

Sima Zhonglie was immediately astonished.

This Nine Shadows Mansion is the mansion of one of the biggest forces in the capital city of this day!

In the Heavenly Capital City, they are like little overlords of one side, saying one thing, and controlling everyone's life and death.

"This is the will of Jiuyouhou!"

Zhang Yuan sent a red post.

Among them, the faint sage coercion seemed to fill the void.

This is the breath of a sage, and the post should not be fake. It can become the top power in the heavenly capital and the support of the sage in the clan is the basic foundation.

Nine Shadows Hou is the biggest trump card in Hou's mansion!

He is a strong man in the realm of saints, who has been holy for hundreds of years, has a deep foundation and great talent.

Sima Zhonglie glanced at the content on the post.

There are no more in my mind.

This is indeed the style of Jiuyinghou.

If he dares to defy disrespect, the entire mansion may be wiped out by the Nine Shadows tomorrow!

"The Su family are dead and clean!"

Sima Zhonglie suddenly looked at him.

Zhang Yuan nodded slightly: "Cut the grass and remove the roots, no one is left!"

"The next one may be my Sima's turn!"

Sima Zhonglie sighed.

"How can the Su family be compared with the Sima family? The Su family is a merchant family, they are too superstitious about money, and the Sima family is an authentic martial arts family! Moreover, Sima Zhonglie, your title was awarded by the Galaxy Star Alliance. , Even if you really lose to Fang Yue's hands,

Fang Yue can't kill you. You have a knighthood awarded by the Galaxy Star Alliance. Only Helen's black prisoner can judge you. This black prisoner will let you go. One horse, come out as you get in!"

Zhang Yuan had already arranged a back road for Sima Zhonglie.

This Helen has the rules of Helen!

As long as these rules are properly used, isn't it a piece of cake to deal with an outsider like Fang Yue?

What's more, there is a big man behind Zhang Yuan who can't even provoke him.

"Does this mean I have to shoot?"

Sima Zhonglie's tone had a tragic tone.

"The people above have agreed. As long as you take action, no matter what the result is, they will guarantee the prosperity of your Sima family! And in the next three hundred years, the Sima family will remain at its peak, and the size of the power will exceed three times the current size!"

There is a smell of temptation in Zhang Yuan's voice.

Sima Zhonglie remained unmoved.

"At the beginning, I'm afraid you said the same to Su Ru. Where is the Su family now? There is no more!"

Sima Zhonglie said mockingly.

Zhang Yuan still has no joy or sadness.

"The Su family is an exception. We were careless that time, and this time, we won't be careless. If you do, we will send dozens of Yin-Yang-level experts to take care of your Sima family's nursing home. Invincible, at least the safety of your wife and children will be guaranteed!"

Zhang Yuan's voice is still calm.

Sima Zhonglie still sneered: "Whether these dozens of yin and yang masters are here to protect our Sima family or to take my wife and children as hostages, I am afraid that only you will know!"

Sima Zhonglie was at the time when Zhang Yuan fought each other.

Fang Yue received a secret letter in the first palace.

The content of the letter is extremely simple: "The Zhang Family was ordered by the Nine Shadows Mansion to force the Sima family to act on the palace. I hope Master Fang Yue will help. ——Sima Zhonglie."

The content of the letter is simple to the extreme, but the scribbled handwriting reveals the writer's mood.

I'm really worried.

"Zhang Family! Nine Shadows Mansion, are they so eager to do something to me? But this Sima Zhonglie is really surprising. At the critical moment, he actually chose to stand on my side!"

The corner of Fang Yue's mouth lifted up a cold smile.

"Come here! Follow me to the Sima family mansion. The account of Yulou hadn't been cleared the day before. This yuan actually wanted to join the Sima family to harm me again. Could he still Do you really think someone on our side dare not touch Zhang Yuan?"

There was a cold murderous in Fang Yue's tone.

What kind of yuan is this yuan, dare to use his knife.

This Sima Zhonglie has the title of baron.

But he didn't have Zhang Yuan!

Even the entire Zhang family didn't have the title of this galaxy star alliance reward, as long as the evidence of the stone hammer was caught, even if they were killed, they would be killed for nothing.

Fang Yue's body is murderous!

There was a faint cold light in his eyes!

It was about time for a cup of tea.

In the living room of the Sima family, Zhang Yuan and Sima Zhonglie are still fighting each other!

Zhang Yuan already felt a little impatient in his heart!

How could this Sima Zhonglie be so timid and fearful? A mere Fang Yue would kill him if he killed him. What kind of magnificence could he be so looking forward and backward?

"Sima Zhonglie, I will ask you at the end, do you agree or disagree with what the Nine Shadows mean?"

Zhang Yuan has changed from his previous advice to a straightforward threat.

If you do this, it is naturally hello, hello, hello everyone, only Fang Yue is not good!

Everyone is still a friend, a comrade-in-arms, an ally, and if you resist, then I'm sorry, don't blame me for being rude!

At this time, a figure appeared at the door of the hall, silent, as if he were a ghost walking on the world.

Zhang Yuan had a feeling for this figure.

He turned back immediately and was taken aback.

"Fang Yue, is it you?!"

Seeing Fang Yue, Zhang Yuan almost lost his soul.

He witnessed the demise of the Su family.

He said that he looked down on Fang Yue, but in his heart Fang Yue was completely jealous.

This man's calculations are simply terrible.

"It's me, what's the matter? Master Zhang Yuan, do you feel very surprised and surprised?"

Fang Yue's smile was like a flower, with no sign of hostility.

The two seemed to be friends, as if they had seen each other again, and looked extremely enthusiastic.

Zhang Yuan smiled awkwardly: "In front of the commander-in-chief, how dare I call myself an adult!"

Fang Yue coldly snorted: "When you talked to Sima Zhonglie about me just now, you didn't say that. I am a seed of the rotation realm that is not favored by the Galaxy Alliance, and there is nowhere on this Helen Star. Damn, any veteran nobleman can easily pinch me to death without taking any responsibility! As the saying goes, the strong dragon does not crush the ground snake, I am not a strong dragon, in your eyes, it is a little loach at best. , I can't get over any storm at all! Master Zhang Yuan wants to kill me, I am afraid it is easy. If I want to live smoothly in this Helen star, I'm afraid I will need to let you master Zhang Yuan more in the future. The picture is!"

Fang Yue's smile became more and more cold, and his eyes were full of gloomy murderous intent.

If these words fall, it is equivalent to completely torn the skin with Zhang Yuan and others.

Zhang Yuan opened his mouth and wanted to say something, but in the end he didn't even say a word. What's there to say?

Fang Yue, the little beast, had to say everything that should be said.

"Let's say, what is your purpose this time, is you want to fight the Zhang Family thoroughly? Fang Yue, I can tell you accurately, Zhang Family is not the Su Family, there is no money, only warriors, everyone is difficult to eat If you want to move the Zhang family, just try!"

See the poor picture.

Zhang Yuan struck his neck and turned his face directly with Fang Yue.

Since Fang Yue intends to turn his face.

Then he didn't want to be polite with Fang Yue.

Fang Yue lowered his head slightly and said softly, "I dare not move Zhang's family!"

Fang Yue's low and low tone made Zhang Yuan startled for a while, and then he laughed loudly: "So you are a bully and afraid of hardship. I just looked at you highly!"

"However, some of me dare! I have given the best of what Zhang Family has done to Master Qiu Meng, who is in charge of the Star Territory of Karent! Of course, there is no need for you Zhang Family to be afraid. I can't match you, maybe Qiu Meng My lord is no match for you!"

Fang Yue's voice fell.

Zhang Yuan only felt cold in his hands and feet.

Master Qiu Meng!

This is a nightmare existence for every native of Helen Star!

She is the biggest executioner in the entire Karente star field, she never shows mercy!

If it weren't for her to kill the natives of the entire Karente star field, how could the natives of the iron-blooded Helen planet succumb?
