

God of Life 1391

Chapter 1391: Refugee shock

Zhang Taicang is a bachelor!

He summoned the other two saint-level fierce beasts from the lava volcano to kill Fang Yue together.

Zhang Taicang is almost crazy.

Fang Yue also showed a weird smile.

"Are you arrogant to me? It's a pity that you have left me a touch of life in the rules!"

Just when the three-headed saint-level fierce beast besieged Fang Yue.

Fang Yue laughed loudly.

In the laughter, the void shattered, and this doomsday battlefield was originally a fragile plane completely collapsed!

The world is collapsing, no matter whether you are a beast in the sage state or the nine apes, there is no possibility of surviving!

Zhang Taicang's eyes widened, watching his meticulously arranged doomsday battlefield collapse, and another piece of the world appeared under Fang Yue's feet, protecting him from any interference from spatial turbulence.

Lincoln was defeated, and his remaining seven lives in the countercurrent of space were obviously not enough.

The time and space around Fang Yue returned to normal.

At the opening ceremony, the first battle between 0-500 years old, Fang Yue wins, Alpha Galaxy loses!

"Zhang Taicang, I need you to give me a reasonable explanation!"

After the battle at the opening ceremony finally ended, Gong Yunsheng was the first to come to the door!

The high-level tearing force of the Galaxy Star Alliance is obviously quite far away from Fang Yue, he can't know, and he doesn't want to know!

Fang Yue is now facing a new challenge.

When he was attending the opening ceremony, the whole Helen star had unprecedented movement!

The Kalunku Sea, the largest ocean in Helen, has risen by nearly three meters, directly submerging hundreds of thousands of kilometers of land. Nearly 70% of the creatures on that land have died. This is because in Helen. Most of the creatures are proficient in the reason of cultivation.

Of course, the inundated land has nothing to do with Fang Yue in fact!

But what really surprised and concerned Fang Yue was that a huge palace appeared in this ocean. This palace was suspended directly above the ocean, and underneath was a vast expanse of blue waves, and this palace was built on the boundless waves. Among.

"Is this an ancient ruin?"

Fang Yue spoke and asked Drucker.

After all, this old guy is the real earth snake. It is his turn to understand Helen Star, and few people can match him even after the entire day is completed.

"No!"

Drucker shook his head slightly: "I have survived in Helen for so many years, and I can almost see through the ruins and mysteries in Helen. In the last opportunity of civilization, Helen was actually built on a space node. I don't know. Why, when the civilization of the universe was destroyed, other things disappeared, but Helen star still existed! This space node is more like a portal, which is the door to the treasure house but it is impossible to directly manifest the treasure house. Come out! And my other clones have already investigated this palace! There are many unknown rooms hidden in the palace! There are a total of 891 rooms in these rooms, this number does not correspond to any strange and mysterious in ancient civilization books Numbers, but it seems to have a different connotation!

The doors of each room are embossed with sculptures of various ancient creatures. If anyone wants to push open the corresponding door, those statues will be resurrected, as guards and intruders in a duel, if they win, You can enter the room, but if you fail, you will only have a tragic end. At least no one who is a temptation can come out alive! "

Drucker has investigated the basic information of this palace clearly in a short period of time. What he can say in Helen star is the real hand and eye, and any little secret that is swaying by the wind can not be hidden from his eyes.

Fang Yue frowned slightly.

"If it is not a relic of ancient civilization, what is it?"

What Fang Yue hates most is this unknown variable.

Especially at this juncture.

The gambling battle between the Galaxy Covenant and the Alpha Galaxy has officially begun. Any bit of trouble in the Galaxy Covenant may be used to hype up to the sky and win the attention and attention of countless people!

"do not know!"

Drucker gave these three words, and then he didn't speak again.

"In that case, let the natives of Helen star explore by themselves! It's not too late to let me know if you really have any conclusions!"

Fang Yue decided to temporarily put aside his exploration of the palace and devote all his attention to gambling and fighting.

"However, Fang Yue, I would like to remind you that the situation in Helen is extremely complicated, and any change cannot be underestimated. Moreover, the sea water has grown and spread, and many natives of Helen have already fallen! A conservative estimate is that at least 300,000 Helen's natives died under the spread of the sea, and there are still 70,000 to 80,000 refugees who have nowhere to live. At this time, as the messenger of the Galaxy Alliance, you must come forward to comfort solve!"

As a veteran leader, Drucker has a far-reaching and profound view of these messy things than Fang Yue.

No matter in any position, rights often correspond to obligations, and even in many cases, this obligation is greater than right.

The position of the commander-in-chief of the Galaxy Star Alliance is not so easy to sit firmly.

When Fang Yue heard this, he immediately responded and said: "If this is the case, can I resign?"

As soon as Fang Yue's words came out, Drucker was immediately stunned.

He saw the previous commanders of the Galaxy Star Alliance, many of them useless and decadent, but Fang Yue was the only one who resigned.

This is the position of the commander-in-chief of the planet Hela appointed by the Galaxy Star Alliance. Is it the one you want to sit on and leave when you want to leave?

"Do you think the senior management of the Galaxy Alliance will agree?"

Drucker sneered.

This location is the role of a crater.

It's not a good place, it's like a sea of fire, do you want to leave?

no problem!

But your little life may not be saved!

Fang Yue put on a bitter melon face.

The previous victory in the opening ceremony was gone!

"My lord, it's not good! Someone came to make trouble in front of the mansion, saying that he was a refugee and wanted to attack the palace!"

A young man suddenly broke in, he whizzed and panted.

The refugees outside were simply too arrogant, saying that if they were not allowed in, they would attack the mansion.

"Kill, kill! Where's the archer? Where's the guards? Kill him, kill him for me!"

When Fang Yue was irritable, he waved his hand and made a decision directly.

"My lord, no! This refugee represents the collective will of the refugees on the planet Helen. He is dead, I am afraid that the natives on the planet Helen will rebel!"

That young man was also a loyal man, he did not act according to Fang Yue's instructions.

Fang Yue had invested a full 300 million yuan of spirit stones in the First Royal Palace to improve people's treatment, and the money was not a waste of money.

At the very least, it is immediate in terms of buying people's hearts!

"I said, kill him! If you don't kill him, these refugees will bother me! Want to kidnap me with morals? No way!"

Fang Yue rubbed his teeth and said, "If it wasn't for this palace, there might be a problem, I suspect it was a conspiracy that someone deliberately arranged in secret! The coast where the refugees are located is far away from me. For a distance of 3,000 kilometers, even if the practitioners in the rotation realm fly with full strength, they may not be able to come to the heavenly city in this short period of time. Come to me and file a complaint. If it is in the Yin-Yang realm, you will give me the person in the Yin-Yang realm. Pretending to be a refugee! The tsunami in this area can't drown you, even if it's a volcanic eruption, it's probably fine!"

Fang Yue's mind was very quick, and he saw through the troubled so-called refugees. Someone must have been found to pretend to be a disgusting person on purpose.

Fang Yue is not the kind of monarch who cherishes his people!

I care if you are a real refugee, as long as there are suspects, you will all be killed.

How did Fang Yue make his fortune?

Destroy other people, slaughter their cities!

Fang Yue's decisive attitude made Drucker look at him differently. A person who can make decisive judgments like Fang Yue and bear the consequences might really be able to gain a foothold in Helen Star!

Seeing that his persuasion had no effect, the young man had to take Fang Yue's order back to the door of the mansion in an annoyed manner and let the city guard directly kill the so-called refugee.

"Killed! Killed! The people of the First Palace are killing!"

The refugee saw the imperial guard coming from the palace and shouted loudly!

However, his voice quickly changed.

"Fuck, it really came to kill me!"

The refugee thought that the people in the First Palace did not dare to kill him, because he was a refugee, a weak person, and standing at the highest point of morality. You must help me unselfishly.

Then, the people of the royal palace will give him a lot of resources and entertain him with delicious and delicious food. His task is to stab Fang Yue by saying all kinds of bad things about the palace to slander

Fang Yue, arouse popular anger, and bring the indigenous people of Helen Star to unite. , Against Fang Yue.

However, this time, it was really done in one step!

Don't you want my handle and arouse public anger?

OK! I will follow your ideas!

However, I am sorry, this process, I am too lazy to go, just kill the refugee and it's over!

"Pop" "pop" "pop"

Three plus five divide two.

This refugee was killed by the royal guard.

This being killed by a rod and being looked at by the head are two concepts, although they both died in the end.

But cutting the head is a one-shot thing, simply refreshing, and the pain is just an instant.

But the stick was beaten to death by a stick, and it must be undead with two strokes!

It is said that the so-called refugee was beaten to death alive after being beaten a dozen times.

After he died, all the feces and urine came out of his body, and his body was bloody, and even his mother could not recognize him!

Then this was not over yet, and Fang Yue's body was hung on the mast at the gate of the city.

There is also a small sign below.

"Pretending to be refugees, kill!"

There are not many words on the brand, but it is murderous.

Fang Yue's determination is fully demonstrated!

This is indeed a deterrent to many Xiao Xiaojun.

This commander-in-chief is really not a soft persimmon.

The previous ones were basically lying down when they encountered this situation.

But Fang Yue is different. He kills decisively and kills people at every turn.

Chapter 1392: Zhang Kui's conspiracy

Some people who originally wanted to pretend to be refugees to find things for Fang Yue, immediately curbed their minds!

However, this can scare the civilians, but it cannot pose the slightest threat to the real bigwigs in the Heavenly Capital City.

"Fang Yue killed the young and vigorous in the end, this royal city, there are rules in the royal city! This Fang Yue killed the matter, it looks happy, but in fact, there are endless troubles!"

Yan Wang Mansion, Yan Wang Zhang Kui is watering the flowers.

Zhang Kui, a veteran earl in the capital city of this day, is called the King of Yan because of his nickname.

He is known for his extraordinary speed and once killed three practitioners of the same realm in a battle!

And before the head of the first man fell, the other two enemies were already in different places.

Zhang Kui is a powerhouse at the pinnacle of the leader realm!

His position in this royal city is quite high, not only because of his cultivation level, but also because of his qualifications. Some small forces are vaguely headed by King Yan.

The refugees this time were sent by Zhang Kui, and he was quite dissatisfied with Fang Yue's recent actions.

For one thing, Fang Yue was too strong and sent his soldiers directly to clean up the rogues in the capital city.

This seems to make the Heavenly Capital King City become clean and upright, which is good for everyone.

But this chaos has the advantage of chaos. Only when the water is mixed can Zhang Kui fish!

Really, many of the gangsters in the royal city of the heavenly capital are his Zhang Kui's people, and cleaning up those gangsters is tantamount to breaking his financial path.

Another reason and the main reason is that Fang Yue actually destroyed the Zhang Family!

The Zhang family's family name is Zhang, and he is also Zhang.

Can there be no trivial relationship in this?

Zhang Kui is from the Zhang family. On the surface, the two sides have not been in contact for hundreds of years, but those are for everyone to see. In fact, Zhang Kui and the Zhang family are really close and close because of the blood relationship. .

They are in the offensive and defensive alliance in secret, watching and helping each other.

Now that Fang Yue has destroyed the Zhang family, Zhang Kui's lips are dead!

As for finding the real culprit Qiu Meng for revenge?

He Zhang Kui didn't have the courage yet, so Zhang Kui put the account on Fang Yue's head.

He didn't want to show his minions so quickly.

But there was a big man who wanted Fang Yue to die, and Zhang Kui was chosen as the knife in that big man's hand!

"My lord, what should I do next?"

Next to Zhang Kui, the butler Wu Zhong asked in a low voice.

"Find dozens of refugees and send them to the residence of the First Royal Palace, watching whether Fang Yue continues to kill or choose to compromise. I don't believe that Fang Yue dares to kill all the time. This Galaxy Star Alliance rules Helen. There are a lot of people's grievances. But on weekdays, they dare not say anything, but this time, if Fang Yue's killing spirit is too much, it will definitely cause those resentments that have accumulated for so many years to erupt at the same time! It's just a huge gunpowder keg. Ignore him, naturally it's fine. If anyone dares to light it, he will definitely be blown to pieces!"

In Zhang Kui's eyes, a cold murderous intent flashed past.

Then Wu Zhong retreated.

Zhang Kui's eyes softened.

"Zi'er, I am coming to rescue you! As long as Fang Yue dies, I will have the capital to save you! You must hold on!"

Fang Yue's first palace.

He is talking with Ye Wushuang.

"Fang Yue, you did a beautiful job this time. You defeated the strong with the weak at the opening ceremony, and the gap between the two of you is still that big! This battle won to the Galaxy Star Alliance really has a long face, even among the Galaxy Star Alliance. Some elders who originally had some slight opinions on you are now extremely praising you! The most important thing is that this time your talent has entered Gong Yunsheng's eyes, and he is already one of the best in the Galaxy Star Alliance. Characters, as long as those old immortal guys who travel through the void don't come back, Gong Yunsheng in this galaxy star alliance is just saying one thing, he is optimistic about you, no one can move you! In the future, you will be considered in the galaxy star alliance. Have a firm foothold."

Ye Wushuang looked a little excited.

Seeing the elders who were originally opposed to Fang Yue standing as platinum-level disciples deflated, slapped, annoyed, and regretted, he felt dark and refreshing in his heart!

"Isn't there any substantive reward for this Galaxy Alliance? It took me a lot of energy to kill this Lincoln! And many of my hole cards in my hand are exposed. If there is no substantive reward, really it makes people very chilling!"

Fang Yueban said jokingly.

Ye Wushuang was startled slightly, and then he laughed and said, "This reward is naturally indispensable for you. Part of it is the internal points of the 100,000 Galaxy Alliance, and the rest will be mixed with

your final score in this gambling battle. The rewards received will be distributed together! Don't worry, the senior leaders of the Galaxy Alliance will not be confused about this matter!"

Ye Wushuang said Fang Yue's reward.

Fang Yue frowned slightly.

The internal points of 100,000 Galaxy Alliance are indeed quite a few.

It can be seen that the senior leaders of the Galaxy Alliance are also bleeding this time.

But compared with Fang Yue's credit, this reward is still a bit thin!

Fang Yue defeated the ancient fierce beast Lincoln at the level of the revolving realm, let alone 100,000 points, even 1 million points is not too much!

Seeing Fang Yue's expression, Ye Wushuang also understood what Fang Yue was thinking.

One hundred thousand points is indeed not a small number, but compared to Fang Yue's contribution to defeating Lincoln, it still seems a little too small.

"Fang Yue, you must not think too much about this time. The senior leaders of the Galaxy Alliance did not mean to treat you badly. They just want to see where your potential is. They have already agreed. If you can come to this bet The position of the top ten in the fight is to convert the remaining rewards this time into a saint-level innate magic weapon!"

Ye Wushuang's promise made Fang Yue relieved slightly.

It seems that the Galaxy Star Alliance still doesn't believe in his potential and strength.

They are looking at what they are doing. If Fang Yue shows sufficient strength and potential, Fang Yue will be rewarded with higher value, allowing him to grow faster.

And if Fang Yue is only a flash in the pan, then it will be official and will not give him additional resources.

Fang Yue was quite clear.

This kind of mentality, as the controller of the Galaxy Alliance, is indeed no problem!

The entire Galaxy Star League looks like a giant, but the real high-end resources are quite limited!

"it is good!"

Fang Yue just responded with one word, Ye Wushuang could not see any mood swings on his face.

Ye Wushuang looked at Fang Yue deeply, and that was the end of the fairy tale. Fang Yue's next game was scheduled an hour later, although his opponent was far less brutal than Lincoln in terms of information.

But the lion fights the rabbit also needs to do everything possible, Ye Wushuang didn't want to delay Fang Yue's cultivation time and ultimately affect Fang Yue's competition!

Fang Yue quietly waited for the arrival of the envoy behind this scene in the palace.

The two of them seemed to be playing chess with each other. The refugees and the guards were all pawns on their chessboard.

It's just that Fang Yue is in the dark, and the other party is bright!

Fang Yue can only find the opponent's flaws when the opponent makes a move, and then counterattack.

"I hope you don't let me down!"

Fang Yue waited for a long time.

The news came.

"My lord, it's not good, dozens of refugees showed up at the gate of the palace, wanting to ask the adults for an explanation!"

Another guard came in.

There was a hint of panic on his face.

They had seen this scene before, and then the master of the palace was replaced.

Among the Helen Star, the most difficult thing to deal with is the relationship between the Galaxy Covenant and Helen's natives.

You appease, compromise, these Helenite natives will definitely climb up the game, intensify your efforts and extortion.

And if you resist, their various methods will all come up, bright, dark, and endless, making people hard to guard against!

Fang Yue sighed slightly.

"The one who should come is still coming! Don't panic, do as I said! Shoot all the refugees to me on the wall, and you can't keep alive! It must be publicized and let everyone see. The bigger the outrage aroused, the better!"

Fang Yue paused for a while, as if talking to himself.

"This contradiction between Helen Star and the Galaxy Covenant is like an abscess. If you always cover it and keep it from seeing the light, sooner or later it will become a big trouble. On the contrary, if some things are said, it will be fine!"

Fang Yue's tone became much calmer, sitting in his seat, quietly waiting for the storm to arrive.

"Haha, brother Wang, you are here!"

"Unexpectedly, Brother Zhang, you are here too!"

In a dense forest on the right hand side of the gate of the First Palace, a group of literati met here, but their gathering this time was without tea or wine.

Only a pair of eyes looked at the gate of the first palace, one by one in the direction of the first palace.

A group of ragged refugees squatted at the door of the palace. Yin, all kinds of pleading, but groaning there. In addition to groaning and pleading, he could also hear a slight threat of threat.

Needless to say, these refugees were all hired by Zhang Kui.

They are not refugees at all, but the ruffians in the capital city of this day.

Regardless of whether they are really capable of killing people, but it is the turn of the acting, but they are all first-class standards.

Many of them started from touching porcelain, and they are all in their own right in acting!

The clothes on his body were snatched from the beggar on the side of the road.

Some were afraid that they didn't look pitiful enough, so they smeared some mud on their faces and bodies.

That kind of despair, full of performance.

In order to be able to complete this big order, it was praised by Master Zhang Kui.

Zhang Kui's handwriting is unexpectedly generous this time.

If you do well, one person will reward one hundred thousand spiritual stones.

What is the concept of this hundred thousand spiritual stones?

It will cost them half a year to spend a small amount of money. In the Yi Cui Building next door, the average girl is the price of fifty low-grade spirit stones at a time!

"Master Fang Yue, please, take in us if you see me poor!"

"Oh, my injury is so serious! I'm going to die soon, if I don't save me, I will die!"

All kinds of hum. Yin, there are all kinds of things, in short, their purpose is only one, and that is to win the sympathy of people around them by pretending to be miserable.

Chapter 1393: Wear help

Their purpose is to get involved in the first palace and make trouble!

This dressing up as a refugee is only the first step of the plan!

"This level is not good! Compared to Huaxia's good voice, it is simply not an order of magnitude worse!"

Fang Yue was also bored in the room, walking out to breathe.

As a result, he heard pleading voices from outside the First Palace from a long distance away.

Fang Yue shook his head, and then walked out of the First Palace.

I wanted to let the guards kill these people.

But Fang Yue pondered for a moment, he should do it himself, otherwise the hatred might not be big enough!

Fang Yue pushed the door and walked out of the gate of the First Palace.

Those guards were stunned.

"My lord, why did you come out? You are a body of ten thousand gold, and you cannot come here to be with these dirty refugees!"

One of the guards had a face. When he saw Fang Yue going out, he just ran out, his eyes were full of concerns.

It was just that Fang Yue felt a taste of hatred and contempt in his emotions.

"What is your name? You are so good, why haven't I seen you before?"

There was a smile on Fang Yue's mouth.

When the guard heard the words, he straightened his chest and said, "How can you recognize all the guards of the First Palace? The younger one is named Zhang Meng, who is the guard of the First Palace. It's been over ten years, but on weekdays, I usually take care of some flowers and plants in the backyard, and I don't have the opportunity to get in touch with adults, so it's normal for adults not to know the little ones!"

Zhang Meng's heart was extremely proud.

He glanced at these refugees contemptuously.

Everyone is also Master Zhang Kui's person, but ability determines identity!

You hate Fang Yuela, you need to wear this tattered clothes, smear your face with mud, be a refugee, pretend to be a beggar, and I, with a dignified identity, can put Fang Yue into an injustice in a few words.
!

In Zhang Meng's heart, infinite pride and arrogance suddenly rose. I am really too good. How can I be so good?

But when Zhang Meng was narcissistic, Fang Yue had already commanded and said: "This excellent guard is simply a model in the First Prince's Mansion! Since you have such thoughts, then I will give you this task. Come on! You will kill all these refugees, I want to see their **** appearance!"

Fang Yue spoke, Zhang Meng was immediately stunned.

Water?

Let me do it?

This script is not written like that!

I'm just a small undercover, a small guard, and I have only reached the level of heaven and earth.

These little bastards, even if they are no longer useful, they are all cultivated at the heaven and earth level!

Some of them have reached the level of rotation, and none of them are good crops. They are definitely worse than the regular army.

But it's younger than me, that's eight streets away from me!

Zhang Meng's heart was shaking.

What should I do?

Online etc.

anxious!

Fang Yue looked at the excellent brother standing in the same place, and didn't bother to pay attention to him. He had to live, live well, and need to be on the stage while acting.

Fang Yue turned his attention to those refugees.

"Tsk tusk, you said that you are dying! But how do I feel that you are as fine as a cow, and the blood in your body is rushing like a river? Brothers like this kind of physique, raising a hand and killing a cow shouldn't Question!"

Fang Yue walked to the side of a refugee and said caringly to the refugee.

He held the opponent's wrist at a speed that could not cover his ears, held his pulse, and observed the true condition of their bodies!

The other party's pulse was strong and powerful, and Fang Yue seemed to be able to feel the rush of the torrential river.

This is definitely an actor, but it is an amateur dragon set. If you look at it at first glance, you may still feel that the costumes, props, and so on are very professional, but if you watch it carefully, there are flaws everywhere.

This time the opponent is not as strong as imagined.

What a disappointment!

The person was hairy, and he immediately thought of some of Fang Yue's previous actions.

This is a cruel and cruel master, how could he get troubled by greed to find Fang Yue?

The Su family provoked him, murdered, and the whole family was neat and tidy, and there was no one who could kick his legs!

The Zhang family provoked him, and they went directly to Qiu Meng to file a complaint, which was another big purge.

Is it their turn this time?

The more he thinks about it, the more fear is in his heart.

"Don't tremble! Don't tremble! You are acting as a refugee, not Su Daqiang who has Alzheimer's disease. What are your hands shaking when you are idle? Could it be that you still have Parkinson's problems?"

The irony in Fang Yue's words became stronger.

Originally, I wanted to shoot these people directly, but it seemed that they could stage some other dramas before killing them.

"Such an unprofessional actor is not qualified to trouble me, so let's do it, since you are not dying, come here! Give him 30 to dying!"

Fang Yue raised his throat.

Two city guards came immediately.

Their eyes were filled with excitement.

In their eyes, this difficult game would be solved. They didn't expect Master Fang Yue to solve it!

"Ah, no!"

When the dying refugee heard the words, he immediately stood up, and he left in a hurry!

Fang Yue looked at the figure of the refugee running faster than a rabbit, and the smile on the corner of his mouth was even brighter and stronger.

"Yeah, this refugee is of good physical fitness. They are almost dying and run so fast? But, no matter how fast they run, will my guard be as fast as possible? You chase this person back to me, I want to see See who sent them!"

This scene was staged.

The other refugee actors all had their hearts shaking.

This will help.

This script is wrong!

Then, Fang Yue turned his gaze to the small forest again.

"What are you guys doing? Are you outing or taking pictures! What does it mean to hide in the dense forest next to my palace? Is it possible that you are a local spy and want to spy on the intelligence of our palace? Ah! I caught all these people, caught them! The sneaky ones are not good at first sight!"

Fang Yue glanced at the literati.

The other party's preparations are quite complete.

If he killed these refugees, he would definitely not be able to escape the verbal criticism of these literati.

Their pen and ink can most stir the people's emotions. When the time comes, every article will fall like snowflakes, and Fang Yue will definitely become a heinous villain!

Gee, it's only one step away from the villain boss.

Sinister, too sinister!

Unfortunately, a group of pig teammates, buddies were not fooled!

Fang Yue's voice fell, and the literati panicked.

This is inconsistent with the script, seriously inconsistent!

Why are these refugees dressed up?

Also, why did Fang Yue arrest them!

One of the righteous literati brothers stood up and said, "Fang Yue, you are not qualified to arrest us! The Heavenly Capital City is the heavenly capital of the people of the world. We are standing outside the palace and did not enter the territory of your house. You can't punish us for both reason and emotion!"

"Yes, Fang Yue, this is the heavenly capital of the world, you can't punish us!"

When other literati heard this, they immediately found the backbone, their voices became louder and louder, and their momentum continued to increase.

Fang Yue, Fang Yue, you are still too shallow after all, and you can't stand your temper.

You did not wait for us to show our feet. Didn't this let us grab your braid and stom on you?

Fang Yue gave those scholars a glance.

Do you think I will reason with you?

wrong!

I don't even want to reason with you, knowing right and wrong!

"Grab these people and kill them all! What legal principles, principles, I never said that you came to my site illegally, that's why I killed you, I just saw you not pleasing to your eyes, I think you appeared in front of me , Stained my eyes, so I murdered, why? Do you feel wronged?"

Fang Yue's unreasonable attitude made the literati confused.

They finally understand what it is that a talented person meets a soldier, and it is unreasonable.

You will reason, but people don't even want to reason with you.

Each of them became flustered. They were all eloquent and good at policy and poems, but few were proficient in martial arts.

Generally, it is at the level of the congenital realm. It is strong and healthy. It is amazing that some people have cultivated the realm of the world realm. They are considered the best martial arts among the literati.

But compared with Fang Yue's elite soldiers and strong generals, they are really weak as little chickens, and there is no room for resistance!

"Fang Yue, you can't arrest us. We are the representatives of the literati in the royal city of Tiandu. The so-called not to be punished by the literati, if you move one of our hairs, you are tantamount to offending all the literati in the royal city of Tiandu. That's it!"

Those literati began to threaten Fang Yue.

Fang Yue held his chin, pondered for a moment and said, "It seems to make sense!"

Hearing Fang Yue's words, the movements of the guards of the First Palace couldn't help but slow down a bit. Is this Master Fang Yue preparing to change his mind?

The literati who threatened Fang Yue just now saw Fang Yue hesitate to think, so they all thought that Fang Yue was afraid of them.

"Fang Yue, it's too late for you to regret it now. Hurry up and let us go, then kneel down and confess our mistakes, and offer a heavy gift to apologize for us. We will also consider forgiving you for your recklessness!"

One of them fluttered immediately. He dusted his sleeves, and the other party Yue said with great pride.

Fang Yue gave him a cold look.

"I just said that what you said makes sense, come here! You shaved me off this guy, I hate someone threatening me the most in my life!"

Fang Yue's words fell.

That person is like falling into the ice cave.

"Fang Yue, you are audacious. If you dare to do this, you will definitely be spurned by the people below the sky!"

The man snarled hysterically at Fang Yue.

Fang Yue smiled coldly and said: "Spit? Whoever dares to spit on me, I will kill anyone. If one person spit on me, I will kill one person. If ten people spit on me, I will kill ten people. If a hundred people spit on me, I will kill one. Hundreds of people, if the whole world spit on me, I will level the whole Helen Star!"

At this moment, Fang Yue faintly revealed a sense of the world's greatness and self-respect.

Then, the executioner came, and he really tied the literati to the post.

The other scholars are almost scared to pee!

My grass, what is this for?

This Fang Yue is actually playing for real!

Chapter 1394: Zhang Kui appeared

"Ah! Fang Yue, you must die!"

"Ah, Fang Yue, the people below the sky will avenge me!"

When the executioner cut a knife, the literati wailed.

In the beginning, he was quite spine, constantly cursing Fang Yue and insisting on himself, but when the 200th cut went down, he was really tortured to death.

"Fang Yue, please, kill me! Give me a good time!"

He began to beg Fang Yue to kill him with a single knife.

However, Fang Yue pulled out a wicker chair and sat on it. The old **** was watching the executioner execute the execution.

Kill him?

Where is that simple!

After finally catching a mouse that jumped out, didn't it have to be ravaged so that people know that Fang Yue is not that easy to provoke?

At this time, the protagonist finally took the stage!

Yan Wang Zhang Kui came late.

Behind Yan Wang Zhang Kui there were two gray-haired old men. Although the blood on the two old men had begun to wither away, no one could conceal the majesty of the Saint Realm!

"Fang Yue, what are you doing? It's cruel, stop quickly, stop!"

When Zhang Kui saw this scene, his eyes were splitting, and he made an extremely angry expression.

The literati who had been Ling Chi had only half of his body left at this moment.

The other half of the body is full of bones, and it looks extremely scary!

Fang Yue glanced at him: "You're the one again, what can I do?"

Fang Yue naturally knew Zhang Kui. The two had never met, but Fang Yue, the leader of the big and small forces in the city, knew each other.

This Kui is one of them. Fang Yue has seen his portrait and learned about his information!

Unexpectedly, the mastermind of this shot turned out to be this Zhang Kui.

Wasn't it enough that he killed the Su family and the Zhang family before?

This time he jumped out again!

"It's a pity, this time you will need a slaughter knife to kill the chicken!"

Fang Yue had secretly prepared a butcher knife, whoever jumped out, he would kill anyone!

But it was a pity that the knife was used on Zhang Kui.

Fang Yue was hesitating whether or not to use that trick.

At this moment, Zhang Kui had already spoken. He stretched out a finger and pointed at the bridge of Fang Yue's nose, "Fang Yue, you are really rebellious against the literati. Do you know that these literati are the pillars of the entire Tiandu King City? "

Zhang Kui's words were filled with a sense of righteousness.

The two gray-haired old men behind him nodded secretly.

All the princes of these heavenly capitals now only know to protect themselves, and they have no sense of responsibility at all.

They watched Fang Yue's wanton massacre of refugees and literati in the Kingdom of Heaven, and there was no one who dared to stand up to protect the interests of the people in the Kingdom of Heaven!

This Kui is still good!

When you encounter problems, come to them in time, so that they can surrender the wicked and stop doing evil!

Fang Yue looked at Zhang Kui with a smile.

"I said Zhang Kui, don't patronize and accuse me! Come, introduce the two behind you! What are their identities and their origins, come to support you?"

Fang Yue looked at Zhang Kui with a smile.

He was unmoved by Zhang Kui's accusation.

If this thing is useful, what do you need to fist for?

What's more, Zhang Kui is not the protagonist in this crusade against Fang Yue, the real protagonist is the two white-haired saints behind Zhang Kui.

"Fang Yue, a despicable person like you does not deserve to know the names of the two adults!"

Zhang Kui snorted coldly at Fang Yue, showing a very cold attitude.

Zhang Kui's eyes showed indifference.

He did not put Fang Yue in his eyes at all, in his eyes Fang Yue was an ant that could be crushed to death at any time.

This time he made the next round, a series of killer moves, interlocking, if Fang Yue can escape and ascend to heaven, then he will take off Zhang Kui's head and kick Fang Yue!

"Why, Zhang Kui, do you think you can control me? Since you don't want to introduce me, I am too lazy to listen. This time you are here to interfere with the commander-in-chief of the Galaxy Star Alliance and operate your rights normally. Please also You leave now, otherwise, the former Su family and Zhang family will be your fate now!"

Fang Yue didn't want to play with Zhang Kui at all, this guy rushed forward, and Fang Yue responded accordingly.

As for tearing his face, this guy has already torn his face with himself. Does he still need to take Zhang Kui's face into consideration without giving him a face?

"Fang Yue, you are threatening me in public!"

Zhang Kui was trembling with anger by Fang Yue's words. Of course, whether this is true or not requires careful consideration in the future, anyway, what he is showing is exactly like this now.

Fang Yue sneered: "What's the matter? Started to pretend to be pitiful? Does your dignified earl even have no ability to bear this? It is really a waste of this earl's reputation!"

Fang Yue is a straight man, exactly like the rhythm of the air.

Isn't you Zhang Kui awesome?

Then our Fang Yue will be even better than you!

The two old men behind Zhang Kui couldn't stand it anymore.

This Fang Yue is simply too arrogant, too arrogant, this Kui is a veteran earl at any rate, and can be regarded as the number one person in the capital city of this day.

Even if there is a contradiction between you Fang Yue and Zhang Kui, you still have to give him some face in the public!

But the two old men still had no exit, as if they were standing in a neutral position and not helping each other.

Because Zhang Kui didn't feel very good when he came this time. At the beginning, Zhang Kui ran to their residence and cried out Fang Yue's various guilt. They still had great pity for Zhang Kui in their hearts.

But seeing this piece of Kui was completely a look of inquiring about sin, this kind of strength and the kind of humbleness before them, that kind of humility seemed to be completely two people.

And Fang Yue's words are rough and not rough. Although it sounds quite harsh, some words have indeed become a thorn in their hearts.

For example, support, for example, pretend to be pitiful.

These words made the two of them vaguely sensed the purpose of this Kui.

It would be fine if it was just for supporting, but they still smelled a scent of a dead ghost from it.

Although these two elders don't ask about world affairs on weekdays, they don't know much about the various changes in the capital city this day, but they are mature and thoughtful. If not, it would be difficult for them to live to the present age. Years old, cultivate to the level of sainthood.

What kind of identity is Fang Yue?

The commander-in-chief assigned by the Galaxy Star Alliance, if they really made an appearance for Zhang Kui and accidentally killed Fang Yue, would the Galaxy Star Alliance give Fang Yue revenge for the sake of face!

The two elders in the saint state looked at each other with a hesitant look in each other's eyes.

This time, shouldn't it be a game that Kui deliberately set up to borrow a knife to kill people, and at the same time count them into it.

To be honest, Zhang Kui is not shrewd at all.

Someone behind him must have given him advice. This plan is all good, but Zhang Kui, the executor, is so stupid, there are flaws everywhere, and Fang Yue feels a little unbearable to bully.

"Hey Fangyue, don't be too proud. You have committed a lot of evil in the slaughter of refugees this time. You have committed the anger of my Helen Star. This time, I have invited An Ru, An Shi, two adults to come to preside over justice and suppress it. Your arrogance!"

Zhang Kui turned sideways, letting two elders at the Saint level stand in the forefront.

Those two old men in the saint state feel very abrupt and surprised. Are we on the court now?

As the finale, shouldn't you have played a game with Fang Yue first, and then finally lost, then let the two of us play to turn the tide and defeat Fang Yue?

The two saints felt like they were being sold by Zhang Kui at this moment, but it didn't matter, they hadn't really expressed their opinions.

"Well, the two of us are indeed here to uphold fairness and justice! Fang Yue, in the face of Zhang Kui's accusation, do you have anything to refute?"

An Ru stood up, he looked fair and just, and he looked a bit like Captain Dragonfly in Little Treasure.

He was impartial and did not express his position and attitude.

In Zhang Kui's body, he saw too much trickiness.

"Master Anru, I admire your reputation like a surging river! I know that you are a symbol of fairness and justice and safeguard the interests of the indigenous peoples on the planet Hella. You will never be fooled by Zhang Kui's rhetoric. And lose the pursuit of truth!"

Fang Yue came up with a flattering slap.

An Ru immediately felt fluttering, almost wondering what his surname was!

This Fang Yue is so good, so talkative!

He has lived in vain for so many years, and has never heard such nice words.

If others say that they admire themselves, maybe he doesn't care at all. An old saint of his dignity is already at the pinnacle of sentient beings. Does it need you juniors to worship?

But this Fang Yue is completely different.

What is Fang Yue's identity?

He is the commander-in-chief sent by the Galaxy Star Alliance on the planet Hela, regardless of whether Fang Yue's words are flattering or sincere.

An Ru feels that he can play for ten or eight years!

Seeing An Ru's intoxicated eyes, Zhang Kui immediately felt a bad feeling in his heart.

He was a little anxious, why did Anru fall so easily?

I let you come but let you be thugs.

Indiscriminately, under my bewilderment, you will fight on the other Yue. It is best to join hands, so that Fang Yue will no longer have the power to fight back, and give this shameless Fang Yue alive as if he was crushing an ant. Crushed to death, I don't let the two of you stand for fairness and justice, listening to Fang Yue's nonsense and flattering.

Seeing An Ru's fall, Zhang Kui rolled his eyes and immediately approached An Shi silently.

His abrupt appearance now reminds Master An Ru not to fall into Fang Yue's rhetoric, it must be inappropriate.

Only at the same level as the Saint Realm, the brother An Shi can make An Ru sober from Fang Yue's words.

Zhang Kui gave An Shi a look, but An Shi was indifferent.

Zhang Kui gave An Shi another look, and An Shi was also indifferent.

Zhang Kui glared and gave An Shi a fierce look. He didn't believe that An Shi couldn't even understand this look.

Then, Zhang Kui didn't know how many eyes he gave An Shi, and An Shi finally moved.

Zhang Kui laughed loudly in his heart, as expected, I was still clever and witty, able to quietly remind Lord Anshi to pierce Fang Yue's conspiracy!

Chapter 1395: Boast

Anshi stood up.

He was quite dissatisfied with Yue.

"Fang Yue, do you only know An Ru's reputation but not my name?"

An Shi's words made Zhang Quina's sour eyes suddenly widened.

He was stiff and stood still. The boss with an open mouth has an ignorant expression on his face.

There was a row of barrage across his mind.

What a fuck, what a fuck, what a fuck...

Dozens of crows croaked across his heart, in groups, quite bleak.

Brother, I asked you to stand up to expose Fang Yue's conspiracy, not to ask him to come over to ask Fang Yue's appreciation.

Zhang Kui's heart at this moment is extremely painful, extremely tangled, why is he so confused in his mind and found such two pig teammates?

"Master Anshi, of course I have heard your name? Your name is simply thunderous to me! Your law of thunder can control the thunder of the world, and the calamity is less than one ten thousandth of the power of your thunder. , From the time when there is a level of Yin and Yang realm, you begin to break through the realm, and then go all the way to the current realm! You are the patron saint of the entire Hella star, I am coming to this heavenly capital city On the first day, I wanted to visit you, but unfortunately, I don't know where you live, so I always have this regret in my heart. Today I finally saw you, and this regret has been made up!"

Fang Yue's eyes were full of sincerity and hope.

An Shi was moved by Fang Yue's praise.

This Fang Yue is simply too clever to know people. Fang Yue knew his hidden identity so profound!

An Shi is the same as An Ru now, with a feeling of ecstasy.

As for the bad things Zhang Kui said before Fang Yue.

Humph is all slander, all slander!

It seems that someone like Fang Yue who knows right and wrong can do such a thing?

Both the Anruanshi brothers were lifted to heaven by Fang Yue.

The whole person was refreshed, and all stood on Fang Yue's side in the bottom of my heart.

Fang Yue cleared his throat, and then said: "This time, someone wants to frame me! These people are not refugees at all, otherwise, how could they have been able to span the distance in just a few hours? Thousands of kilometers came to the Heavenly Capital City and found my mansion to cry. There are also problems with their clothes. How can the tsunami that just happened make their clothes so tattered, like beggars!"

Fang Yue began to explain the matter to the brothers Anruan Shi.

Anru Anshi nodded slightly.

Yes, so obvious evidence.

Someone planted Fang Yue.

How could Fang Yue, such a clever and generous person, do such a rebellious thing?

Obviously, this is someone who is planting up, someone is planting Fang Yue!

"Besides, there are many flaws!"

Fang Yue grabbed the literati who had been slashed half of his body, but still half a breath, and threw them in front of An Ru and An Shi.

"They, literati, never pass by my door for a year or a half on weekdays, but now they are here in the small forest so many? What are they doing? You can tell when you think about it. Organized and premeditated!"

The more Fang Yue said, the more pitiful, the more he said, the more he felt his incomparable grievance.

There was even a faint mist of tears on his eyes.

Fang Yue's pitiful appearance made the brothers An Ru and An Shi feel even more distressed for Fang Yue!

Yes indeed!

Such a smart and generous person is certainly not a murderer!

The two brothers An Ruan Shi nodded fiercely now, extremely approving of Fang Yue's evidence.

And Zhang Kui felt a little bit cold in his hands and feet.

It's over, it's over, how come all your subordinates are such idiots?

Can't even do this little thing!

Such flaws and evidence were all caught by Fang Yue.

Let An Ru and An Shi see through their true purpose, he must be the end of the dead!

This is how to do ah!

Or just run now!

Zhang Kui had the thought of running away, but he just turned his body sideways.

A cold breath locked his body.

There are already more than one real saint-level master in Fang Yue's mansion. Although they have not really come forward, there is no problem in secretly controlling Zhang Kui.

Zhang Kui is also an ordinary practitioner at the master level. Although his status is relatively high, his level of cultivation is average.

Zhang Kuiru fell into the ice cellar, which still prevented him from leaving.

There is a conspiracy, there is a big conspiracy!

Zhang Kui's heart shouted loudly.

But he opened his mouth, but he couldn't even utter a word!

Fang Yue glanced at Zhang Kui and sneered in his heart. Since he is here, don't leave!

I will take you to Liwei today, you are the treasure of King Yan Mansion, but I covet it!

"Fang Yue, do you have any other evidence? The evidence in your hand is sufficient to prove that you were framed and wronged, but it cannot point to the origin of the black hand behind the scenes!"

An Shi spoke with a calm voice.

He naturally knew that Zhang Kui was the man behind Fang Yue.

But guessing and imagination are of no value at this time!

Only solid evidence can be convincing.

Fang Yue hesitated for a moment, and then said: "If I really tell the murderer behind the scenes, I am worried that both adults will be implicated, so I will not say anything. The two adults can come forward to prove my innocence. For Fang Yue, it is already a great kindness!"

Fang Yue's words made An Shi's hesitant heart immediately turned into a raging fire.

"I am a symbol of fairness and a representative of justice. In this city, I am already at the top of the food chain. I still don't believe it. There is nothing in this city that I cannot offend!"

An Shi spoke very excitedly.

He couldn't bear Fang Yue's thoughts and improvisations everywhere.

In fact, not all the natives in this heavenly capital city rejected the rule and colonization of the Galactic Alliance.

Because after the Galaxy Covenant descended on the planet Hela, it did not actually have much impact on the planet Hela itself. The planet Hela was originally chaotic. It was chaotic before, but now it is still chaotic, but there is an extra power to compete. Regardless of the origin, in fact, there is not much change!

As for populationism, it has already faded in their hearts.

Although this Helen star gave birth to them, it did not give him much gift.

They grew up in the incomparably cruel forest law, step by step, step by step, step by step on the flesh and blood of countless enemies!

These are their own hands, blood, and battle. What does it have to do with Planet Helen?

Therefore, Anru and Anshi don't care who dominates the planet Helen.

But I care about whether I was deceived and fooled.

This fairness and justice, that is, their playful mantra, as far as Fang Yue's beard and horses are really made them very comfortable, but because of this infatuation, it will not make them stunned!

There are actually two reasons why they are really standing on Fang Yue's side.

One is that Fang Yue is the commander-in-chief of the Galaxy Alliance. This is the identity of the Galaxy Alliance. Although the natives of Helen are powerful, they are not even the grains of rice under the

bright moon. If the Star Alliance really exerts its strength, all the major clan powers of Helen Star and the three major taboos will all be swept away.

Being conquered is the ultimate destiny of this Helen Star.

In fact, everyone understands this in their hearts.

In the face of absolute strength, there are no miracles and no fluke.

The higher your cultivation base, the more you understand this truth!

And if you take refuge in the Galaxy Star Covenant earlier, your future status in the Galaxy Star Covenant will be higher.

They are all powerhouses in the Saint Realm, and it is impossible for them to coexist and die with Helen Star stupidly!

They have to consider for their future, take refuge in Fang Yue, and give him a hand when he is embarrassed. Perhaps in the future, he will be able to promote their brothers after becoming a senior figure in the Galaxy Star Alliance.

The second point is that this piece of Kui used their brothers to kill Fang Yue, which made them quite unhappy.

They are saints, not idiots.

This kind of trick of killing people by borrowing a knife to use on them is simply an insult to their IQ by Zhang Kui!

They already had a bad feeling towards Zhang Kui in their hearts, and naturally they needed revenge. With the help of Fang Yue's incident, removing Zhang Kui would be justified.

The brothers are acting with Fang Yue, and Fang Yue is not cooperating with them.

It was just this silent tacit understanding that made the brothers Anru and Anshi think that Fang Yue was a right choice!

Zhang Kui looked at Fang Yue, he was frightened, but he went through it in his mind.

Hey, it seems that Fang Yue's hand is really a stone hammer with no evidence that he framed Fang Yue.

All these things were done by him letting his subordinates hide their identity.

They do not know who their real employer is!

But Zhang Kui hasn't come to be seized and proud.

Fang Yue has found new evidence.

"Bring out that outstanding brother and let him know if his master is this Master Zhang Kui!"

Fang Yue's voice fell to the ground.

The guard who had just encouraged Fang Yue to kill the refugees was brought up.

What are you two rushing to do?

Why did you catch me!

Obviously Fang Yue praised me just now. I have a rhythm in this first palace!

The outstanding brothers were still immersed in Fang Yue's praise and couldn't extricate themselves, dreaming of getting Fang Yue's appreciation to reach the sky in one step.

However, this dream is short-lived.

Then the outstanding brother woke up!

He suddenly discovered that he had become a prisoner in front of Fang Yue!

"It was he who was belittling the refugees just now, and he wanted me to massacre the people of Helen Star! In the first palace, everyone is a central servant, but he is unique, some are different from others. Too the same!"

Fang Yue looked at the excellent brother.

This piece of Kui is all these stupid things that Shangwu got to undercover and frame him.

Such talents are really rare!

The pit master, the pits are boundless!

Sure enough, the most unreliable thing in this world is people!

Chapter 1396: The end of a good brother

Fang Yue couldn't help but express such emotion in his heart.

The outstanding brother was stunned!

Has he been discovered?

But how can I be discovered by Fang Yue if I am so good?

"Let's say, who are you sent here?"

An Ru's eyes showed a colorful and blurred look.

Ecstasy, a small technique, displayed when the soul level is absolutely suppressed, allows the other party to tell all the secrets in his heart without reservation!

"Master Zhang Kui sent me here!"

Excellent brothers directly confided their true heart!

Zhang Kui's complexion at the moment was earthy, it's over, it's all over!

All plans this time will be revealed.

There is no need to ask about the rest.

An Ru and An Shi clasped their fists to Fang Yue.

"The appearance of a scum like Zhang Kui in Helen Star is indeed a mistake of our lax discipline. I hope Brother Fang Yue can tolerate it!"

The evidence is as strong as a mountain, and the stone hammered directly.

An Ru and An Shi looked at each other, but they no longer had the determination to deal with Zhang Kui before.

Zhang Kui can be regarded as a representative of the local forces in the typical Heavenly Capital City.

If the two of them execute Zhang Kui to death, it may cause a frantic counterattack by the local forces in the Heavenly Capital City.

Fang Yue smiled faintly: "Naturally let the two adults handle it. I just hope that the two adults can understand the truth about raising tigers. Today, this Kui can use my hand to murder the two adults. This Kui might use the hands of others to deal with the two adults.

Zhang Kui asked two adults to support him, and his purpose in his heart was more clear than the two adults! He just wants to make arrangements to intensify the conflict between the Galaxy Covenant and the native inhabitants of Helen, and then get the unknown benefits from it! In his heart, he is no longer standing on the position of Helen Star, nor is he standing on the position of the Galactic Alliance, he has his own position and purpose! "

Fang Yue left without staying after speaking.

This time, he used Zhang Kui's hand to puncture some hidden grievances between him and Helen Star's native inhabitants, which may not be a good thing.

They could also understand that Fang Yue didn't want to completely change his face with the natives of Helen Star, as far as he was concerned, there was still an opportunity for the two to live together peacefully.

On the contrary, some people with bad intentions want to use this contradiction to make the Galactic Covenant and the natives of Helen star a fierce contradiction, and thus start confrontation, but they are the fishermen benefiting.

"Thank you, Master Fang Yue!"

Fang Yue walked almost tens of meters away and almost entered the First Royal Palace. An Shi's voice came from behind Fang Yue, his voice filled with unprecedented sincerity.

All the dialogue between him and Fang Yue just now was almost a tacit understanding, a kind of performance.

Only this sentence is true from the heart.

"Zhang Kui, a good thing you did yourself!"

An Shi gave Zhang Kui a fierce look.

If it weren't for Zhang Kui's inferences, he and An Ru might still be practicing in retreat in the mountains and wilds, comprehending the mystery of the world, and would not participate in the right and wrong.

Zhang Kui was taken aback for a moment.

He opened his eyes and looked at Anshi.

"Master Anshi, won't you kill me?"

An Shi lightly sighed and said, "What can I do if I kill you? You are a chess piece placed on the surface. Even if you kill me, the player behind you will still send others. Chess pieces against Fang Yue, to take advantage of our native residents of Helen! I just hope that after this time you go back, you can do it for yourself and stop being used by others. Zhang Kui said something you might not like to hear, you and Fang Yue. The difference is not one and a half at all. You are not a good person, and you will never be able to keep up with his progress!"

With the voice of An Shi fell.

The person who secretly sealed Zhang Kui's body and flesh and blood stripped his breath from Zhang Kui's body.

Since Fang Yue wants this Kui to be handled by An Ru and An Shi, they will not intervene arbitrarily. Fang Yue has his own plan, and a little Zhang Kui, to be honest, Fang Yue hasn't really done it yet. In the eyes, because he didn't have the qualifications to make Fang Yue take it seriously.

What Anshi said just now is right.

This Kui is just a chess piece placed on the bright surface.

Once the piece is on the table, it is already an abandoned piece!

Zhang Kui's position does not mean that Fang Yue's competition has won a big victory. On the contrary, Fang Yue's competition has really begun.

This Kui was just a **** that the opponent used to disgust him. Fang Yue didn't believe that the opponent would put the real killer move on Zhang Kui, an idiot. Even if his status is really high!

So what is the real killer of the other party?

And why did you send such a fool as Zhang Kui to die?

Fang Yue is not a very smart person, it is impossible to see through all the conspiracy of the other party at a glance.

He can only find the true purpose of the other party in the step-by-step exploration.

Fang Yue closed his eyes, and all the shots were played back repeatedly in his mind!

"Is it that palace or some other place?"

Fang Yue was thinking.

Soon, there will be an answer!

With a sound, they want me to focus on this Kui's body, and then attack the palace.

"It's a pity that I didn't want to explore the palace. After all, I don't know anything about the palace itself. If I rush to explore it, I will easily become a pathfinder for others!"

Fang Yue muttered to himself, and finally radiated his divine thoughts from the king's city of this day, and began to monitor the movement of soldiers and horses of the king's city and the eight hundred miles around the city.

Fang Yue's soul was too strong, as if it were enveloped by heaven.

In terms of quality, it is already comparable to the real Great Sage, and in terms of quantity, it is ten times more powerful than the ordinary Great Sage!

His divine consciousness radiates, unless it is perceived carefully by people beyond the level of the Great Sacred Realm, otherwise, it will cover all living beings, and no one can gap.

Fang Yue began to observe the movement of soldiers and horses in the entire Tiandu King City. Dozens of forces in the Tiandu King City dispatched men and horses and quietly left the Tiandu King City.

And the forces within eight hundred miles near the Tiandu King City also began to quietly start to gather towards the palace by the sea!

Fang Yue roughly estimated that the personnel sent by these forces were not too many, but when added together, there were at least tens of thousands of personnel, and all of them were elites among the elites, and the weakest cultivation bases were at the rotation level. , The leader is often the existence of the master realm level.

It can be seen how much they value the palace.

Then, when the time came, Fang Yue entered the virtual world for the second round of the arena.

In the second round of the arena, Fang Yue's opponents were very mediocre. Although they were considered top and outstanding powerhouses in the two galaxies, they were simply vulnerable to Fang Yue's hands.

Spike and win.

From his debut to the end, Fang Yue didn't even use a minute!

This also includes the referee Rory's wordy announcement of the rules of the game.

It was really a minute of preparation, and the game blinked.

Fang Yue continued to pay attention to the various changes of the clouds in the Helen Star.

In the outer space of the earth, a spaceship has quietly approached the earth.

"Is this Fang Yue's home star?"

A slightly hoarse voice came from a space capsule of the spacecraft.

The speaker was a scarred face, and his body exuded a saint-level aura.

In front of him was a thin man dressed in black. He knelt on the ground, expressing his respect for Scarface.

"My lord, it is true! Fang Yue was born on this earth, and according to the data, this Fang Yue attaches great importance to the mother planet of the earth! It took him a lot of effort to defeat the invasion of the Dark Moon plane. Speaking! But the earth's civilization is not strong. It will only take a few years before the aura will recover, and there are very few practitioners! The adults can conquer this planet at any time!"

"Hahahaha, conquer? An uncivilized civilization is not worth conquering at all. I want to exterminate this earth and destroy it!"

The scar face smile became more and more mad.

"This Fang Yue dared to go against our will and become the seed of the platinum level of this Galaxy Star Alliance. I will let him know the price of doing so!"

Murderous awe in the laughter of the scarred face.

He represents the voice of a certain high-level power in the Galaxy Star Alliance.

"Is the Aurora Destruction Cannon ready? Give me power to devour the energy of the stars near the earth. You must evaporate the earth from this space with one blow!"

Scarface's voice was distorted with excitement.

What he likes most is destruction and destruction again!

Gathering when Scarface is already excited to the extreme.

An icy voice suddenly penetrated into the spacecraft.

"It's a great pleasure to have friends coming from afar! The benefactor is naturally here, so why do you wander outside the door again?"

This voice is arrogant, cold, and polite, but it has a detached taste that despises the world.

"The Great Sage..."

Scarface was panicked, and he immediately guessed the identity of the opponent.

I saw a white beard and the old man with white eyebrows appeared in the cabin.

The subordinate in black didn't know when the blood in his body had been stripped away, leaving only a thin piece of human skin!

"How is this possible? Doesn't it mean that the earth has just begun to regain its spiritual energy? How could there be a strong man in the Great Sacred Realm?"

Scarface is a bit incoherent!

This is simply too, too, incredible!

"Ashamed to say, I didn't just cultivate to the Great Sacred Realm level in this era, but the elders of a civilized era on earth."

The old man with white eyebrows stroked his beard and said with some shame.

Scarface was completely shocked.

I wait?

This means that there are still such old monsters on earth?

This is the Great Sage!

Represents the top group of people in the pyramid in the Galaxy Alliance.

Even in the power circle at the core of the Galaxy Alliance, the powerhouses of the Great Sacred Realm are not without the right to speak.

Moreover, this earth is probably not a strong man in the Great Sacred Realm, but a large area when it appears!

The soul is pale, the soul is pale!

What kind of unlucky information is this, what kind of unlucky task.

"I'm harassing, I'm harassing!"

Scarface turned the flying direction of the spacecraft and was ready to leave!

With the Great Sage sitting in town, this earth cannot be destroyed, no one can be destroyed!

The Scarface now has already thrown his mission out of the sky, and to the country of Java!

However, the old man with white eyebrows remained motionless.

"Since you are here, don't leave!"

Scarface felt his body burning, and his vitality was like a candle in the wind, shaking.

Chapter 1397: The Secret of the First Palace

"No, no, I am a saint of the Galaxy Alliance, I cannot die here like this, otherwise, the entire earth will suffer catastrophe, no one can resist!"

Scarface's voice became smaller and smaller, and eventually his breath disappeared.

Scarface's body fell to the ground without the slightest injury. On the flesh, the power of the saint was still there, but the soul in it had fallen into **** reincarnation!

The white eyebrows disappeared, the spaceship disappeared, everything seemed like it had never appeared before!

Fang Yue knew nothing about what was happening in the earth.

But when he saw the records in the ancient books left by the masters of the first palace, he felt cold all over.

This classic was written by hand, and it was hidden in a very corner, very marginal, and very inconspicuous place on the first floor of the Cangjing Pavilion.

But when Fang Yue discovered this classic, a bad feeling arose in his heart.

"When I saw this book, I must have died!"

"Hahaha, I was once the overlord of the Galaxy Star League back then, 300 years old, and 500 years old! It is also an extremely rare genius in the entire Galaxy Star League."

"But who would have thought that I would eventually be framed by someone and sent to this place where the bird does not shit. This Helen has nothing to do, but when I arrived, I discovered its shocking secret!"

"This is not a planet at all, but a huge plane node. There are countless channels running through all realms. The water in it is too deep. Almost any big force with a name and a surname in the Milky Way galaxy is here. The root is broken and the nail is set."

...

"I originally thought that Qiu Meng was on the side of the Galaxy Star Alliance, but I did not expect that she had betrayed the Galaxy Star Alliance!"

...

"Scams, all are scams! Why is there such a thing in the Galaxy Star League!"

"I can feel that they are devouring my brain and corroding my body! My soul will be plunged into a place of eternal depravity, not even reincarnation!"

"I hate it! I hate it! Although I am dying, I can't make you feel better. I want to leave some clues for the people who follow. I have found a way to deal with them!"

"I don't know how many masters of this first palace you are. You and I may never see each other, but I still have to leave you a serious advice. This Helen star may belong to the entire galaxy. The land of the future, the future is also the past! Its value is immeasurable, but the terror contained in it is enough to destroy the entire galaxy!"

The book in Fang Yue's hand was turned to the last page, when Fang Yue's last glance passed over the red book.

The red-skinned books turned into a flame and burned out!

The black ashes fell in Fang Yue's palm.

Fang Yue's feet felt cold, as if he saw a different Galaxy Star Alliance!

"Am I really wrong?"

Fang Yue doubted his guess.

"Qiu Meng is a traitor, I can guess that, but is the land of the future really here?"

Fang Yue muttered to himself, and then walked out of this Tibetan Scripture Pavilion!

Back in the study of the First Palace, Fang Yue hesitated and summoned Drucker.

"My honorable commander-in-chief, I am willing to serve you!"

Drucker always has an elegant gentleman's demeanor.

The black tuxedo makes him look like a polite nobleman.

But Fang Yue understood what a filthy soul was hidden under the appearance of this nobleman.

"Drucker, can you tell me how the master of this first palace passed away?"

Fang Yue took a deep breath and looked at Drucker intently.

The hippy smile on Drucker's face disappeared.

"Young Master Fang Yue, why would you want to ask about this?"

Drucker did not answer, but hesitated.

"I want to know some truth! Instead of being kept in the dark by your joint efforts!"

Fang Yue continued to question, his voice was extremely serious, and at this moment, Fang Yue even radiated his spiritual power, making Drucker's clone feel an unprecedented pressure.

As if the surrounding space had frozen, he was like a small bug in Amber, no matter how hard he struggled, he could not escape Fang Yue's palm.

Drucker understood that Fang Yue was serious this time.

"The official explanation is that the masters of these First Royal Palaces were framed to death by the Diao Min in the Helen Star."

"So what do you know the truth?"

"It's horrible! They came into contact with the truth and secrets of the Helen Star, and tried to control these things in their own hands, and then suffered retribution, and ultimately no good end!"

Drucker took a deep breath.

"Actually, including me, are considered to be one of the successive masters in this first palace. My deity once discovered some secrets in this Helen star. In order to escape the existence of retribution, he left Helen star and was trapped in In the unknown world, then the second, the third, and up to you, the seventh master of the first palace of Helen, all the masters of the first palace of Helen, regardless of their cultivation level, They are all the top smart people in this galaxy, and even the three masters of the

first palace in the cultivation base have reached the peak of the Saint Realm. However, they eventually fell! The reason why I was able to survive may be because of me. The deity was sealed in the unknown world!"

There was a look of rejoicing on Drucker's face.

If this is not the case, maybe he has been wiped out like the masters of the first palace, becoming the eternal dust of history!

Fang Yue nodded slightly, he said he understood the corresponding situation.

"Then can you tell me the real secret of Helen Star? I feel that as one of the successive masters of this first palace, I am qualified to know this!"

Fang Yue became more and more curious about the secret of Helen Star.

Drucker shook his head slightly.

"I can only tell you that there are some secrets that you can't tell even if you know them, and I advise you not to go to the muddy water of Helen Star. This is not a good thing for you!"

Drucker's advice is faithful.

Fang Yue could tell from his expression.

"But, I have come into contact with certain things!"

Fang Yue was silent for a moment, his palm opened.

A spatial crack shattered from his palm.

In that space crack, strands of cold breath flowed out of it.

This cold breath does not belong to the yang, but the product of the yin!

"What is this?"

Drucker was a little scared, this fear stems from the unknown, from instinct.

"The passage leading to the underworld is very small, but it is extremely real! In other places, if I open such a space passage, I will definitely be interfered and affected by the will of the universe and the universe. The crack was quickly wiped out! Because it violated the normal operation standard of the universe, and the space crack opened this time without any interference from the will and law of the universe!"

"Fang Yue, who are you?"

For the first time, an expression of extreme fear appeared in Drucker's eyes.

As far as he knows, although the platinum-level seeds in this galaxy alliance are powerful, they are generally manifested in their own combat power.

In other respects, it is the average level.

At least it will not open the passage between the underworld and the yang world.

This yin and yang division is an inherent rule of the ten thousand realms.

And this rule can only be broken in rare cases.

"I am a ghost in the underworld! People with the same identity as me should have appeared in the galaxy, and even underworld messengers with higher status than me should have appeared."

Fang Yue slowly introduced his identity.

Even if his identity was told to Drucker, Drucker would not dare to tell others.

This netherworld is different from other worlds, it is the place that controls human reincarnation.

If Drucker dared to reveal his secrets, there would be nothing when he was alive. No matter how strong Fang Yue is, he can at best destroy his clone.

And his deity is trapped in an unknown small world, even he himself doesn't know where the deity is.

But in case one day his deity falls and his soul returns to the underworld, there may still be Fang Yue Yongdao.

When he arrived in the underworld, he was unfamiliar with the place, even the powerhouse of the Great Sage level would be weakened to the extreme, and he did not dare to breathe in front of Fang Yue.

"The ghost of the underworld, the ghost of the underworld! Hahaha, the people of the Galaxy Alliance actually exiled you to this Helen Star. If they know your identity, they will definitely find ways to provide you, and they dare not move your half follower. Shame! It's a pity that they all have eyes and no beads and can't see through your true identity. They sent you here, when they will cry!"

Drucker previously took refuge in Fang Yue because Fang Yue might be able to save his deity from the unknown little world, and at this moment, Drucker is sincerely submitting.

With a human ghost like Fang Yue covering him, even if he arrives in the underworld, he can get mixed up.

Fang Yue smiled.

Drucker bowed deeply this time.

"Okay! Since Mr. Fang Yue has such an identity, I can speak out the secrets in my heart frankly! These secrets, in fact, cannot be said, but they are reasonable, because some of them involve taboos, and only Mr. Fang Yue can look, guess for yourself, think for yourself, once we export, it will lead to the fate of the rules of heaven and earth, so we cannot say, but there are some things that can be revealed a little!"

"Helen Star has actually experienced nine civilizations in total. Each civilization is vigorous and has walked a long distance on the road of evolution, but all of these nine civilizations have been destroyed under a series of inexplicable crises. , As far as I know, the reason for the last time Helen's planet died was invaded by a group of alien races. These alien races appeared to be only half a meter tall in appearance, with blue skin, as if they were children. Their own cultivation skills are not counted. Very strong, ordinary aliens have only the cultivation base of the heaven and earth realm when they are just

born, but the aliens can continue to fuse and swallow the host to enhance their strength. They can also lay eggs in the bodies of all flesh and blood creatures. Their flesh and blood serve as a parasitic environment, and finally their new tribe is born!"

Chapter 1398: Prehistoric civilization

"Alien?"

When Fang Yue heard these two words, he immediately thought of the famous "Alien" series of movies he had seen on Earth before. The aliens described by Drucker were almost the same as the monsters described in the movie. Afterwards, Fang Yue thought The one is the little devil in the universe.

Those little demons seem to have similar abilities to Alien and are more terrifying than ordinary Alien.

"Where did you know this? Could it be that the first civilization left a record?"

"Records? All records have been completely ashes in the changes of history! Those are all I saw in the ancient ruins of Helen Star, and I even found a lot of alien eggs in the ruins. , They are still sleeping and have not been released, otherwise, the appearance of those aliens is likely to cause the current Helen Star to immediately fall into chaos and destruction!"

Drucker's eyes were filled with horror.

"And the most terrifying record I have seen is that the civilization of Helen was not actually extinct by external forces, but self-destructed. After experiencing alien battles, the entire civilization did not fall into extinction. , Obviously, that time Helen Star's civilization was extremely powerful, far beyond the control of Alien, but that time, Helen's humans made an amazing decision, that is, they were ready to use Alien's Genes are integrated into their own body, so as to obtain the long and tough characteristics of alien life force. At the beginning, their plan can be said to be successful! Hundreds of people in Helen have participated in this experimental plan, and they are integrating After taking part of the alien genes, they immediately become stronger! Not only the body's recovery capacity has increased by nearly ten times, but their lifespan has also become extremely long, and they only need to enter into a decade-long sleep and genes every 100 years. In the repaired Shui Miao, you can reach a state of almost immortality! But later, for unknown reasons, after the plan was greatly pushed out, some of the people of Helen were genetically backlashed and lost. Sense has become a real alien, and this alien is more terrifying than the original alien. They have super spiritual power and combat ability, relying on devouring other creatures for food, they can improve their strength with almost no restraint. This part had a fierce battle with other Helenites. In the end, the Helenites almost died. Although they won the final victory, they suddenly became extinct after three hundred years due to unknown reasons. Helen Star's first civilization has come to an end and disappeared!"

Drucker described a change in the general experience of Helen's first civilization.

Fang Yue's body shook slightly.

It seems that there are similar records in some movies and novels on the earth.

Are they all insinuating Helen's changes?

"Then what evolutionary path did Helen Star take in his first civilization? The path of cultivation or the path of biochemical civilization?"

Fang Yue looked at Drucker, his breathing was slightly short.

"Mainly on the road of cultivation, but in the later period also embarked on the road of biochemical civilization! Because the human body and genes are themselves a huge treasure! Only when this treasure is thoroughly unearthed can people's potential be fully utilized. !"

Fang Yue felt that the first civilization experienced by Helen star had many similarities with the current situation of the earth. The only difference may be that the current level of the earth is far from the level of civilization of the previous Helen star.

"Although the first civilization of Helen has been completely annihilated, it has also left endless treasures on Drucker planet. There are still large and small relics of the first civilization on Drucker planet. There are a lot of potions that can create a powerful bloodline for practitioners. These potions are miracles created by combining the civilization of practitioners and biological civilization. Each of them is priceless, which represents the first civilization of Helen. Brilliant crystal! I am afraid that some potions, even the Galaxy Star Alliance, may not be easily available!"

A look of pride appeared on Drucker's face.

Fang Yue nodded slightly. Fang Yue's in-depth understanding of the Galaxy Alliance has found that the Galaxy Alliance is not as powerful as it seems.

His specific expression is fat but not big, fat but not strong.

The radiant power of the Galaxy Alliance is very large, but the number of real masters among them is not as many as his base should have.

"Helen's second and third civilizations are blank in my research, but vaguely I have heard some people vaguely say that these second and third civilizations are essentially mechanical civilizations. In combination with biological civilization, they have already used machinery to the extreme, but the human body is extremely weak. Some people grafted the human soul onto the mechanical body through mechanical transformation to achieve eternal immortality. purpose."

Drucker didn't have a deep understanding of the second and third civilizations, and his understanding of mechanical civilizations was not even as good as Fang Yue's, so he just said it roughly, without discussing them in detail.

In the end, Drucker put his focus on the fourth civilization.

"This fourth civilization of Helen is the most profound one I know. It seems that my master, after experiencing it personally in the fourth civilization, chose to fall asleep when civilization was about to be destroyed and then revived in this civilization era. . When I first met my master, he was a strong man at the pinnacle of the Great Sacred Realm. After so many years, perhaps he has touched the bottleneck of the virtual fairy realm! I am the master and only taught me to the master realm level. I just wandered

away. Since then, I have never seen him again, but I have a hunch that he must still be alive in this world, and even alive well!"

"His name is Huang Yao, and he is said to be a royal family in the fourth civilization. Their era was an era without human civilization. Only the four groups of the night race, the wind race, the sun race, and the moon race became the whole of Helen Star. Ruler, these four races follow different civilization routes. For example, the Ye Clan represented by my master is the route of gene lock awakening. He has awakened the fourth layer of gene lock and has cultivated extremely ancient times. Because of the awakening of Gene Lock, he is still the top powerhouse in the Great Sacred Realm! However, I am a great expert in the Great Sacred Realm when he was three thousand years old. Master's understanding is not deep. In my impression, he is extremely mysterious. I only know that in that era, different civilizations collided with each other and showed fierce sparks."

"In the fourth era of civilization, in addition to the civilization route that has awakened from the gene lock, there are also the alchemy civilization route, the witchcraft civilization route, and the civilization route represented by the dark sacrificial ritual. Each of these four civilization routes has its own merits. After getting in touch, these four civilization routes are all weird and unpredictable. I spent many years studying and comprehending, and ultimately did not achieve too high results, but the stones of other mountains can be used for jade, but these things are given to me There is endless inspiration in cultivation. Today's Helen Star is only following the cultivator's civilized route. This route is too single!"

Fang Yue heard that these four civilization systems seemed to have been heard in some cartoons on the earth or in myths and legends.

Could it be that the earth once had traces of these four civilizations?

Fang Yue's mystery of the earth is getting stronger and stronger.

But this Helen star seems to be a weakened version of the earth myth!

"Fang Yue, if you need it, I can use some ancient civilization methods to help you kill the opponents of the capital city. You are a person doing big things, and you should not waste too much energy on these small things."

Since knowing Fang Yue's identity, Drucker's attitude towards Fang Yue has been completely different.

He started to consider Fang Yue everywhere.

He even had to take the initiative to help Fang Yue kill the enemy.

Fang Yue smiled slightly and said: "You don't need to worry about these things. The enemy I have to deal with may be beyond your imagination. There are actually many secrets hidden in the First Palace. Although you are the master of the First Palace, you have some secrets. , You may not know, I guess, some of the former masters of the First Palace may not have died in retribution. He may have hidden himself to escape the difficulties of the Galaxy Star Alliance!"

Fang Yue's words fell.

Drucker's face first showed a touch of shock and then he thought carefully, and he felt that what Fang Yue said was not impossible!

"Fang Yue, what do you mean by those who attacked the First Palace, the driving force behind the scenes might be the former masters of the First Palace?"

Drucker repeatedly chewed what Fang Yue had just said.

Fang Yue nodded slightly and said, "I don't rule out this possibility. Didn't you find out? Zhang Kui, who attacked me before, is actually quite vague. He is not on the side of the Galaxy Alliance, nor is he on the side of the Galaxy Alliance. On the indigenous side of Helen Star, it seems that he simply wants to provoke a fight between Helen Star and the Galaxy Covenant, and it can even be said to be a disaster! According to this line of thinking, the power he represents may be floating in the Galaxy Covenant. And the existence outside the indigenous forces of Helen Star! And when they attacked me, they did not really want to kill me, but wanted me to explore the real secrets of this first palace under this pressure! Maybe, They are wooing and making their own allies! If you say so, all this will make sense!"

Fang Yue's logic is not very meticulous, and there is a strong leap in it.

But Drucker vaguely felt that Fang Yue's speculation was correct.

"Wait, the mice hidden in the dark will appear soon! If I infer it well, I know the secrets of the First Royal Mansion have begun to be spread by them, some secretly guarding the first The palace, the forces that do not want to let the secrets of it be known will soon come to the door, they are the existence that really poses a fatal threat to me!"

Fang Yue sighed quietly.

Drucker only felt a horror, and this calculation was a bit too deep.

It is simply putting people on the chessboard and fiddling step by step!

Chapter 1399: Demon

"Fang Yue, this third game has already begun!"

At this moment, Ye Wushuang suddenly called Fang Yue from Guangmin.

Fang Yue lowered his head slightly, he glanced at the time on the brain.

This is obviously still twenty minutes away from the third game. Why would Ye Wushuang call him at this time?

There was a slight surprise in Fang Yue's heart. But he didn't think Ye Wushuang would be against him at this time.

It's not because of how much Fang Yue trusts Ye Wushuang, but because he wants to gain higher prestige among the senior leaders of the Galaxy Alliance, he must rely on his own achievements in the gambling battle between the two galaxies.

"Drucker, I'll go to a game first, and then I'll talk to you about the civilization of the Helen Planet Earth!"

"Yes!"

Drucker left respectfully.

And Fang Yue came to the virtual world.

Ye Wushuang saw Fang Yue, and he thought about it for a moment before he said, "Fang Yue, I want to tell you a bad news! Your opponent this time is a foreign aid provided by the Alpha Galaxy to restrain you. To be precise, he is not the arrogant of the Alpha Galaxy. This foreign aid comes from an ancient and mysterious world. His methods are quite weird, maybe even you are not his opponent!"

Ye Wushuang gave Fang Yue bad news when they met.

Fang Yue was a little surprised and said: "How strong is this opponent? I can defeat even the strongest in the same realm in the Galaxy Star League of the past. You should be able to see my performance in the martial arts arena. of!"

"This person is not how powerful, but his methods are really unpredictable. All the arrogances of the Galaxy Alliance who met him died in their sleep. I suspect that this person has cultivated a demon. This aspect of exercises can make people fight against their own demons!"

Ye Wushuang said his guess.

In fact, as the veteran of the Galaxy Alliance, he shouldn't reveal the opponent's information before the game.

But this is related to the interests of the entire Galaxy Star League. If Fang Yue passes this hurdle, he is likely to be promoted to the ranks of the top ten in this competition.

"Inner Demon?"

Fang Yue finally understood why Ye Wushuang is so serious. There are two reasons. The first factor is that the strength of the inner demon is often proportional to the strength of the practitioner. The stronger you are, the more the corresponding inner demon is. Strong, this has nothing to do with the strength of the person who seduce the heart demon, but the cultivation base and realm of the person who seduce the heart demon! The second is that once the inner demon really defeats Fang Yue, Fang Yue will die at the same time whether it is the projection in the virtual world or the real body in reality.

Fang Yue is a very important chess piece in Ye Wu's hands. Even if Fang Yue gave up the game, with his shocking performance at the opening ceremony, Fang Yue's platinum disciple's identity could be preserved, and Fang Yue still has There is a lot of room for growth. If he reaches the Yin-Yang realm, the leader realm level, his own strength will definitely be stronger, and his value will also be greater!

If this is the case, it is not impossible for Fang Yue to give up this game.

Ye Wushuang was so anxious to find Fang Yue for this reason.

There is no solution to the demons, Fang Yue can choose by himself whether to give up or proceed with this gambling battle!

Fang Yue was slightly silent.

"This time I insist on gambling!"

Fang Yue was not greedy for gain and adventurous, but that he had accumulated too many tribulations and never passed through.

He has a hunch that he will usher in a big liquidation sooner or later!

And the heavenly calamity contains the heart demon calamity.

Moreover, the Heart Demon Tribulation in Heaven Tribulation can confuse reality and virtuality!

If Fang Yue can understand the calamity of the heart demon in this gambling battle, perhaps it will be of great help to the future when it comes to the liquidation!

"Fang Yue, this game is a matter of life and death, you must think carefully, don't be aggressive! If you don't want to fight against this opponent, there is no shame even if you surrender!"

Ye Wushuang repeatedly discouraged Fang Yue.

Fang Yue is determined.

If he had time, his deity would have to consider finding a place to release his tribulation.

"This is my choice, nothing else!"

No one can change what Fang Yue made up his mind.

Ye Wushuang gave up dissuasion and let Fang Yue participate in the competition.

"Fang Yue, if you really can't hold it, you can give in. As long as you don't die, even in the state of a demon, I have a way to pull you out of the ghost door!"

Ye Wushuang's persuasion can be said to be benevolent.

Fang Yue clasped his fists and thanked Ye Wushuang.

Afterwards, Fang Yue stepped onto the ring of gambling.

This time his arena battlefield is a dense jungle.

Between these two galaxies, the specs of gambling in the virtual world are extremely high.

Every time the scene is different, this can simulate the real battle scene as much as possible. The factors that determine the victory and defeat are not only the pure combat power of the two, but also their ability to use the surrounding environment.

Fang Yue paced slowly in the forest. He didn't leave the place where he started to descend. On the contrary, he started a positional war in his place.

The formations were arranged everywhere, interlocking with each other, and the speed was extremely fast. In just the time of a cup of tea, Fang Yue arranged eighty-one formations.

And Fang Yue's battle was particularly noticeable.

Many big figures in the Galaxy Alliance and the Alpha Galaxy have focused their attention on the two players in this game.

Fang Yue, naturally, needless to say, after winning the opening ceremony, he has become one of the champions in the 0-500-year-old group in the entire galaxy.

And the foreign aid Yuri hired by Alpha Galaxy this time is also a perverted existence. In addition to the methods of the inner demon, he is also good at mental manipulation.

Although it is only the seventh level of the Yin-Yang realm, Yuri can easily invade the consciousness of the creatures at the master realm level with his amazing spiritual power, turning them into his own puppet, fighting for himself, and never change until his death. !

"Is this Fang Yue preparing for a positional battle?"

A big figure in the Alpha galaxy, Kathu's mouth curled up with a sneer smile.

He is a long-known strong man in the Alpha Galaxy, and he plays this extremely important position in the Alpha Galaxy.

This time he paid so much attention to this game. The main reason was that he wanted to watch Fang Yue die in despair and pain in Yuri's hands.

Lincoln is his descendant, although it is not a direct line, but it is also inextricably linked.

If it weren't for Fang Yue, Lincoln should already be the hero of the Alpha Galaxy!

And now Lincoln was punished because of the failure of that battle, and was punished to experience in a terrifying prison in the Alpha galaxy.

There is a 80% chance that Lincoln will not be able to get out of that terrible place for the rest of his life, and that will become his burial ground.

And the remaining two chances are that Lincoln can fade into a butterfly, become even more terrifying, break out of the siege, once again be pardoned by the Alpha galaxy's high level, and eventually become a rising star in the Alpha galaxy.

But in any case, this hatred, Kathu was counted on Fang Yue's head.

"How can a kid who is so timid and afraid of death be able to become the seed of the platinum level of the Galaxy Alliance? Could it be that this Galaxy Alliance has fallen to this point?"

Katu's constant cynicism, not only did he have a strong hatred for Yue Wushuang, he also hated Ye Wushuang to the root of his teeth.

The two can be said to have been old rivals for many years!

Back then, Kathu had three disciples lurking in the Milky Way galaxy to explore its secrets. Originally, his lurking plan was quite successful.

But he didn't know why it was discovered by Ye Wushuang.

All his three disciples died tragically in the hands of Ye Wushuang. Although Kathu included thousands of disciples throughout his life, it can be said that there are countless disciples, but he has devoted a great deal of effort to each disciple. Resources.

"You are a veteran of the Alpha galaxy, what's the point of worrying about my galaxy alliance? It's not up to you to decide whether my galaxy alliance has fallen or not. This Fang Yue is taking the path of formation. He gave up the advantage to fight Yuri's mental power? Kathu, you are too naive, right?"

Ye Wushuang sneered at Kathu's remarks. Others were so sophisticated, naturally they wouldn't be fooled by Kathu so easily.

And Kathu didn't want to shake Ye Wushuang's faith, just wanted to disgust him.

The real victory or defeat has to be decided on the battlefield between Fang Yue and Yuli.

In a blink of an eye, Fang Yue had already deployed more formations on the doomsday battlefield. The real formations were like a woven spider web, continuously spreading crazily in all directions.

Each formation is a fairly simple formation, in which the law of operation is single, and even a master in the formation can be arranged, but these formations are interlocking, complementary and supporting each other. This is a bit mysterious.

Even Kathu began to worry a little about Yuri, whether he can survive this level.

Although Kathu is a great saint-level powerhouse, he has a lot of knowledge. In the long years, he has all studied the medicine and the formation.

Fang Yue's formations, he could only understand the average number.

This is a bit startling.

At this moment, Yuri has accumulated a large number of subordinates in this battlefield. There are a large number of creatures in this forest. Some of these creatures are docile and some are vicious, but without exception, they are quite strong and weak. The living beings are all at the level of the rotation realm, and the slightly stronger ones are at the level of the Yin-Yang realm, and individual chieftain kings have reached the level of the leader realm.

What Yuli likes most is this kind of battle. Maybe he doesn't need to do it himself. Just letting these creatures in his grass can make Fang Yue rush and catch him off guard!

It was the time of Banzhuxiang again.

Fang Yue and Yuli each have their own arrangements, and they are not in a hurry to fight each other.

Yuri is collecting more men to enhance his strength.

And Fang Yue is arranging formations far and wide.

Fang Yue wiped the sweat beads on his forehead, and he suddenly discovered another value of this virtual world. All materials were projected from the outside world.

In other words, these materials are all false and will not cause real consumption to Fang Yue. But all the rules in this virtual world are real, and the successful formation methods that are practiced in this virtual world can be displayed smoothly in the outside world.

Follow this logic to go on.

This virtual world is simply a large experimental field!

Chapter 1400: Kathu

At the beginning, Fang Yue set up the formation to defend Yuri, but now he set up the formation to experiment with some of his own whimsical ideas.

The audience who watched this battle felt a little dull.

But everyone who paid attention to this battle knew that whether it was Fang Yue or Yuli, their strength was not a waste of fame.

Therefore, they waited patiently for the devastating collision of the two comets hitting the earth.

Perhaps the real confrontation between the two will only take a moment.

The preparation takes a lot of time.

"These two people are really cautious!"

Ye Wushuang commented faintly. On the surface, he was calm and calm, but his heart was full of anxiety.

Fang Yue, he is quite optimistic, and he has already made a huge investment in Fang Yue. If Fang Yue can win the second gambling fight, he will definitely have a better position in the Galaxy Star Alliance, even broken. Cocoon becomes a butterfly, and if Fang Yue loses this time, he may have lost his life, and everything he invested before will be completely wiped out.

Finally, it seemed to be a tacit understanding.

Both Yuli and Fang Yue raised their heads at a certain moment.

"It's time!"

"Time is up!"

Although it is not known how many kilometers apart, the content of the two people's mouths is surprisingly similar.

Immediately afterwards, the beast tide came suddenly.

In front of Fang Yue's eyes, in the endless forest, a black tide surged out. All the black colors were made up of the beasts in this forest.

All of them had scarlet eyes, and they had obviously lost their sanity.

Their only goal is to bite and tear Fang Yue in front of them.

Fang Yue also slowly stood up from the center of the formation.

His palm lifted slightly.

Among the hundreds of formations, one of the unremarkable gray formations lit up with a faint black light.

"You have subordinates, don't I have one?"

Fang Yue's voice seemed to be babbling.

In that formation, a violent roar resounded through the sky.

The world was penetrated, and hundreds of bone dragons emerged from that teleportation array.

It is also an illusory projection, but it is exactly the same as the bone dragon in the real world.

Undead means.

Summoning!

Fang Yue's method has already been displayed in the Alpha Galaxy, which is not surprising to them.

But when they saw Fang Yue's Undead Summoning Technique, their hearts were still involuntarily shocked!

This method is really amazing!

The vast and majestic momentum made their hearts surrender and admire.

"The confrontation between the two is indeed a miracle or good fortune! Their cultivation is not powerful in your eyes, but the confrontation between the two of them has evolved into a small war! "

Gong Yunsheng finally gave birth to an admiration.

Envy looks all over his face.

At the same age, he didn't have such a terrifying means for these two people. Back then, he claimed to be a rare Tianjiao for hundreds of years, but compared with Fang Yue and the others, he didn't know how much the difference was.

The two sides clashed, Fang Yue's skeletal dragon's gray-white corpses covered the sky and the sun, and their bodies were completely covered by the rich and billowing breath of death.

A head of bone dragon opened its mouth, and gray flames gushed out from it.

Those flames are the fire of death, which can corrode all vitality, and the vegetation withers wherever it passes.

Those fierce beasts that have already killed red eyes don't care about this.

They have been completely under Yuri's control, and their own reason and fear of death have been wiped out by Yuri.

Even the corrosion of death fire can hardly stop their progress.

Fang Yue saw that the dozens of fierce beasts rushing in the front of the forest were rushing towards Fang Yue's direction with their bodies burning with death fire, even if they were constantly running. Withered, the power of flesh and blood in it, madly dissipating, could not stop them from rushing towards Fang Yue and tearing Fang Yue into pieces.

But their vitality was limited after all. After running a distance of about three to five kilometers, their bodies were finally completely burned into ashes, the power of flesh and blood dissipated, but a pile of white bones remained.

However, the fierce beasts behind are still like this.

This is like a death squad, just from a visual point of view, it gives a great impact!

Fang Yue's heart beat slightly along with it.

This Yuri's method is really quite amazing. It can turn all the beasts in this forest into crazy killing, fierce and fearless beasts in a short period of time.

"Yuri is not actually a name. They are a race. This race is best at mental means. Whether it is reading memories or controlling each other's body, they are their strengths!"

I don't know when, Ye Wushuang suddenly spoke, and there was a complex expression in his eyes.

He seems to be explaining the origin and origin of this Yuri.

But I don't know who I'm talking to.

"Hahaha, Ye Wushuang really is Ye Wushuang, you know even a mysterious group like Yuli, but Ye Wushuang, don't you know that it is too late? If you let Fang Yue retreat earlier, maybe he can still save his life!"

Catu laughed loudly. He was not surprised that Ye Wushuang was able to investigate the origins of the Yuri clan.

The friction and hostility between the Alpha galaxy and the Milky Way galaxy began thousands of years ago.

They have done detailed homework to each other.

Among the high-levels of the Galaxy Alliance, this Ye Wushuang is a rather mysterious and terrifying existence, regardless of the person in charge of the Galaxy Alliance, only Gong Yunsheng.

But in fact, there is a saying in the Alpha galaxy that this palace is just a puppet.

His cultivation is indeed not weak, but all the cards and all the methods are on the bright side.

And Ye Wushuang was the real horror.

Because he seems weak, but the hole cards in his hand are connected to each other.

Over the years, Ye Wushuang has no idea how many talents have been excavated in the Galaxy Star Alliance. Some of them are still standing on the battlefield, fighting in blood and making great contributions to the Galaxy Star Alliance, while some talents are hidden by Ye Wushuangxue. , Ready to carry out surprise attacks when necessary.

How many talents can this huge galaxy produce in each era every year?

There are countless, but how many hole cards does Ye Wushuang have in his hand?

Even the Alpha galaxy has no bottom.

"Katu, aren't you afraid that this clan will come back with the help of this war? In the distant past, the Yuri clan set off a **** storm that swept through thousands of worlds in the entire universe! Although it was ultimately because of Yin Yang Tianzun The reason for the suppression made the Yuri clan obediently signed an agreement and decided not to return. But you introduced them to the Star Wars arena again, this is giving them a chance to breathe and recover!"

Ye Wushuang looked at Kathu with complicated eyes.

This Kathu is simply reckless.

This foreign aid is definitely a sharp dagger, but if something like a dagger is not used well, it will hurt itself.

Kathu sneered: "These things don't bother you to worry about them!"

Kathu has his own plans. He believes that he has enough handles and weights to control the Yuri family, and has always served him loyally and served the Alpha Galaxy.

On the battlefield, the war between Fang Yue's bone dragon and that endless beast was quite fierce.

They are equally matched and evenly matched.

And Fang Yue and Yuli were in direct contact.

This is the first contact between the two of them.

"Aven · Yuri! To be able to counter my animal tide, I think you are qualified to know my name!"

Yuri is a bald head, his eyes are blue, tall and tall, and he wears a green uniform.

He is very young, except for his hairless appearance, everything else is almost flawless.

"Ivan is your name! Yuri is the surname of your ethnic group!"

Fang Yue faintly said the origin of Aiwon Yuri's name.

Ye Wushuang was able to investigate the origin of Aiwon Yuri, and Fang Yue could do the same.

Fang Yue and the Galaxy Bank are getting closer, and the Galaxy Bank is not inferior to the Galaxy Star Alliance in terms of information resources.

"Yes! It's a pity that I have been expelled by the Yuri clan. I don't know when I might lose the right to use this surname."

Irvine · Yuri grinned, obviously this is a very sad thing.

But from Irvine Yuri's mouth, there is no sorrow, but a faint taste of relief.

"Able to fight against the beast tide, Fang Yue, you only need to survive your own inner demons to defeat me!"

Aiwen · Yuri never procrastinated, and even his thinking jumped, which made Fang Yue a little unacceptable abruptly.

But this is how smart people are. Every minute and every second of them needs to be calculated carefully and wasted on some boring greetings, which has no value!

Fang Yue pondered for a while, and then said: "Wait, let me finish my last array arrangement! I am worried that my inner demon will really come and this world can't bear it!"

Fang Yue's words stunned the staff of the Galaxy Star Alliance who was responsible for arranging the battlefield.

Then an angry look appeared on their faces.

What do you mean by Fang Yue?

The battlefield we set up can withstand even the battles of the saint level, but when you fight against the inner demon, you actually said that this battlefield can't stand it, it's a bit too arrogant!

However, Irwin · Yuri actually accepted Fang Yue's seemingly absurd statement. Let him arrange the last link of the formation.

"It's OK!"

Fang Yue planted the last formation flag, which was hunting in the wind.

At this moment, Irvine Yuri's blue eyes looked at Fang Yue.

"Be careful!"

Ivan · Yuri's voice fell.

In Fang Yue's body, a faint demon energy floated out of his body!

Externalization of the demon!

Fang Yue was a little surprised. The demons he experienced seemed to be quite different from the demons of the others.

Others have fallen into the illusion and experienced their most fragile things, and his inner demon spontaneously floated out of his body!

"Fang Yue, I am your demon!"

That heart demon turned into the appearance of a weak scholar. He was dressed in white. From the simple appearance, he was even more scholarly than scholars.

However, Fang Yue already felt a dangerous aura rushing toward his face in the body of this inner demon.
