

God of Life 1411

Chapter 1411: Check it out!

This knowledge just made the fear in his heart deeper and the despair thicker.

Death, like a shadow covering it, swallowed all the silver armored soldiers in a blink of an eye.

They are like newborn babies in front of the power of the curse.

It is a completely unknown and unsolvable system.

All the silver judges perished in the curse.

Only the leader of the silver-clad judge is still struggling.

The saint, after all, has an essence different from the ordinary.

Others cannot resist, but he can barely support.

"Fang Yue, you killed us, and you can't explain it to the Galaxy Star Alliance! Leave me alone, I can cover you!"

The arrogance before, turned into a humble bow before life and death.

If he is lucky enough to get a bit of life, he is willing to crawl under the devil's scepter.

"What does your death have to do with me? You let me unlock the chains of laws!"

Fang Yue pondered for a moment, and then said: "You should have died in the assassination of the Assassin of the Alpha Galaxy. You are all warriors of the Galaxy Alliance. The death is heroic, and the death makes people sigh!"

At this moment, the leader of the silver armor judge finally understood.

It turned out that Fang Yue was in the layout from the beginning.

This guy is too insidious, they have actually fallen into Fang Yue's calculations.

There was despair in his eyes.

"Fang Yue, you must die!"

"thank you for your good wishes!"

"Look!"

Fang Yue's voice fell, and the cursed shadows that had swallowed the flesh and blood of the other silver-armored judges and turned them into their own power flew towards the leader of the silver-armored judges.

Originally, the leader of the silver armor judge could barely resist one or two, but at this moment, he couldn't resist even one or two.

There are too many of these cursed shadows, and their power is too strong.

Just a few breaths.

A saint has been swallowed and divided up by the cursed shadows!

He didn't even leave a single hair.

It's so bleak to die!

Then, the shadows of the curse disappeared one after another, and escaped into the void.

They seem to have nothing to do with Fang Yue, but anyone with a discerning eye knows that this is Fang Yue's calculation.

But in the Galaxy Star Alliance, guessing is useless, everything must pay attention to evidence.

Especially when it comes to Fang Yue's level, the platinum-level Rotational Realm seed, the status is said to be high or not, and there is not much real power in hand, but if it is low or not, he can be said to be at the Rotating Realm level outside, the Galaxy The leader of the Star Alliance Tianjiao strong.

Wanting to defeat Fang Yue is no longer something that can be done under the table.

To be honest, this time the silver armor judge came, but it was a faint move, trying to provoke Fang Yue and make him feel sick.

But in the end, they didn't disgust Fang Yue, but caused them a lot of trouble.

Especially the death of a sage-level silver armor judge, this influence can definitely not be eliminated in a moment.

The son Yan gave Fang Yue a deep look.

This guy is really not a good crop.

Not only courageous, but also strategic.

In a blink of an eye, people are counted. It's amazing, amazing!

"Hey, Lord Ye Wushuang? I was assassinated on this planet of Helen, and I was seriously injured. I am afraid that the next gambling fight will be greatly reduced. You must be prepared for my failure!"

Fang Yue said quite earnestly.

However, both Gongziyan and Zhang Han were speechless for a while.

He was hurt by a fart.

From the beginning to the end, he pressed that Wang Qian, was it good?

Speaking of injuries, it was only a little oppression at the end.

That point of injury can be healed in a blink of an eye when Fang Yue's realm is reached!

"You are hurt?"

When Ye Wushuang heard this, his work was also put down.

Fang Yue, now is the sweet pastry in the hands of the senior leaders of the Galaxy Star Alliance.

The more he wins, the greater the benefits he wins for the Galaxy Star League.

Fang Yue is the one who the Galaxy Star Alliance believes can be in the top ten of the 0-500 gambling battle capital.

If he loses now, then the next plan will be completely messed up.

"Who did it to you? The assassin of the Alpha system?"

Murderous intent was revealed in Ye Wushuang's words, even if he was talking with a light brain, Fang Yue could feel the chilling murderous intent after countless hours.

"They are knives, and the one who really wants to kill me is the Silver Judge!"

Fang Yue said decisively.

If things don't get back in revenge this time, it's not Fang Yue's style.

Fang Yue doesn't like blindly passive defense. He takes the initiative to strike, marking all his opponents and enemies with a red cross that represents death. This is his greatest achievement!

"understood!"

Most of Ye Wushuang's murderous intent dissipated.

The reason for this can be guessed just by passing his thoughts.

"Where is Alice? Isn't she sitting among the stars of Helen?"

Ye Wushuang somewhat blamed Alice.

If it hadn't been for his 100% trust in Alice, he would have sent a strong man to protect Fang Yue's safety.

"It has nothing to do with Alice, she was left by me in the first palace, and I was in other places, this Helen star is tricky, I guess, maybe it won't be necessary to stay until the end of the gambling battle, this Helen star will Shocking news broke out!"

The rest of the words were already private messages from Fang Yue and Ye Wushuang.

As Fang Yue spoke, he glanced at the palace where it was said that the upper **** once lived.

"This Helen star will undergo great changes? It's not you who are bluffing me!"

When Ye Wushuang heard this, he immediately became nervous. As a senior member of the Galaxy Star Alliance, he had also vaguely heard some rumors and legends about Helen Star.

When the Helen Star was calm, there was not much difference from an ordinary planet, but there were more masters in it.

But if the secrets in Helen are solved, the entire Milky Way galaxy will completely boil and burst.

Some of the secrets are related to the reincarnation of eternity and the succession of civilization.

"Of course I don't lie, this kind of thing doesn't make sense even if I lie!"

Fang Yue calmly said: "This time I say this not because I want you to help me much, but to let you make your own deployment on Helen star earlier, lest there really be drastic changes, but you have lost control of Helen. The power of the star! As for the silver armor judge, to be honest, my heart is really angry. This time I will bleed them. If you want to help me, you can help it. If you don't If you are willing to offend the silver armor judge, it doesn't matter, you can completely stand by!"

After Fang Yue finished speaking, he took the initiative to shut down the communication software of Guangbrain. This was not because he personally had any opinion on Ye Wushuang, but precisely for the benefit of Ye Wushuang.

He didn't want Ye Wushuang to make a statement in this situation.

But after letting him really think carefully, make the most valuable choice for him!

Fang Yue's first game of gambling began ten minutes after the communication.

This battle reversed the judgment of many people.

Fang Yue's opponent is not very strong. He is just a practitioner of the third level of the Master Realm in the Alpha Galaxy. He is a sword repairer who attacks Wushuang. The reason why he can do this is more because His cultivation realm was too fast, he reached the level of the leader realm before he was five hundred years old, not because he really had any secret skills, able to leapfrog and fight against immortals.

Originally, it was a very easy battle for Fang Yue.

However, many caring people have discovered that Fang Yue feels a little weak during the battle.

Often he mainly avoids, and occasionally makes moves.

It is very different from the style of rolling along the way in the past.

In some moves, he was even caught by his opponent and injured three or five times in a row. Only then did he get lucky and defeated his opponent in a storm.

Fang Yue's battle exposed many of his problems.

Originally, he was a popular candidate to win the championship.

But this time, his popularity has plummeted out of the top ten!

Then, many people dug up the gossip.

Fang Yue was actually assassinated by an Alpha Star Territory Saint Realm assassin in Helen Star. He was not injured when he fought against the killer of the saint realm, but was conspired by the silver armor judge in the galaxy star alliance, was murdered with a knife, and let the saint of the Alpha star field wound him.

The killing character was rumored to be the result of the law of killing. Fang Yue suffered a Dao injury on it and his Dao heart was shaken, which caused him to become abnormal in the gambling fight.

Dao wounds are the most terrifying and serious of many injuries. It is difficult to cure by ordinary medicine stones.

It takes a very high level of knowledge of the law to be able to heal and expel it.

This also means that the impact of this battle will cause Fang Yue to be extremely passive in the subsequent gambling battle.

His glorious achievements in the past may be marked with a terminator.

This incident immediately set off an unstoppable stormy wave in the entire Galaxy Star Alliance.

From the day Fang Yue defeated Lincoln in the opening ceremony of the gambling battle between the two galaxies.

Fang Yue entered the field of vision of countless galaxies in the Milky Way.

His battle played out the majesty of the entire Galaxy Alliance, the pride of the entire galaxy, and the pride of billions of people in the galaxy.

Fang Yue is the hero of countless people.

And one day, this hero was not killed by the enemy but was stabbed in the back by others.

Can these people accept it?

Of course it is unacceptable.

Therefore, there was a wave of petitions in the entire Milky Way galaxy, asking the Galaxy Alliance to investigate this time thoroughly.

If only this is the case, the Galaxy Covenant can easily fool things over.

Because this silver armor judge is equivalent to the knife in their hands, so that the Galaxy Star Alliance will judge the knife and spear in their hands because of a little public opinion?

This is almost impossible.

At that time, the responsibility can be shifted to those silver armor judges who have fornicated the Alpha galaxy, so they will target Fang Yue and attack him, and then send a symbolic mission to condolences Fang Yue.

Give him a little reward and subsidy, and this matter can be regarded as a major event reduced to a minor event.

The Galaxy Covenant has not dealt with this kind of problem once or twice, and they are all familiar with the routines.

But could Fang Yue let the game he set up so easily be cracked by the senior officials of the Galaxy Star Alliance?

Obviously, this is impossible.

Fang Yue is like a poisonous snake hibernating in the dark. He seldom makes a shot at ordinary times, but every shot is bound to kill with one blow.

Dealing with the golden great apes back then was a **** example!

During the investigation of the Galaxy Alliance, Fang Yue also mobilized his secret forces to intervene in the investigation.

Does Fang Yue have no power of his own?

impossible!

Chapter 1412: Stabbed a hornet's nest

Of course he has his own power. The first person willing to help Fang Yue investigate is the Galaxy Bank. The relationship between the Galaxy Bank and the Galaxy Alliance has always been poor. When dealing with foreign enemies like the Alpha Galaxy, they naturally chose. Stand on the side of the Galactic Alliance.

This is the overall view, and it cannot be shaken by a little private grudge.

However, Galaxy Bank is particularly active in dealing with the Judge of the Silver Armor.

The Galaxy Bank is quite happy to be able to add to the high-levels of the Galaxy Star Alliance.

At the same time, the Vientiane Pavilion also cooperated with Fang Yue.

In the eyes of Vientiane Pavilion, the Galaxy Star Alliance is nothing at all.

If it is offended, it is offended, and they still dare to use Vientiane Pavilion to make an operation.

But Fang Yue is different!

His value is dozens of times higher than the Galaxy Star Alliance in the eyes of Vientiane Pavilion.

Fang Yue's understanding of Wanxiang Pavilion far exceeds that of the Galaxy Star Alliance.

Apart from anything else, just the big man standing behind Fang Yue is worthy of investment in Vientiane Pavilion. There are many signs that Fang Yue and Yin Yang Tianzun have an unclear relationship.

Yin and Yang Tianzun is an unimaginable existence that once stood on top of all beings in the entire universe.

Furthermore, it is Fang Yue's master Ruyizi, who disappeared in the universe of the universe for 100,000 years.

But he came back again, and his first shot was to capture a demon bird at the peak of the Great Sacred Realm.

According to speculation, the lowest realm of Ruyizi is in the middle realm of the virtual fairyland, and there are some clues that Ruyizi deliberately concealed his strength and that he can live his second life in 100,000 years. It is very likely. This Ruyizi had already broken through the profound entrance of life and death, took a crucial step, and reached the level of true fairyland.

If these are not enough to prove Fang Yue's value, then Fang Yue's medicine is a more direct proof of his value.

Fang Yue's Suichen Pill has benefited more than just one saint, and the other various elixirs he refines are also secretly collected in the Wanxiang Pavilion. Each type of elixirs has different functions, although Fang Yue is in alchemy. His attainments are not as good as the real alchemists of the ranks of Zhuzi, but the pill he refined can not even be reproduced by the alchemists of Zhuzi level.

This time, in order to get the Vientiane Pavilion to participate, Fang Yue handed over ten Suichen Pills and fifty drops of Rank 5 Soul Liquid to Vientiane Pavilion.

Give it back.

Vientiane Pavilion also quickly figured out the details of the entire silver armor judge.

The cultivation base of each member was placed on Fang Yue's desk.

On the second day, the senior officials of the Galaxy Star Alliance came out to clarify that those silver armor judges who were disadvantaged by the opponents that day were skilled individuals and had nothing to do with the other silver armor judges.

At the same time, in order to compensate Fang Yue and appease him, the Galaxy Alliance gave him 3,000 points of internal points of the Galaxy Alliance.

After Fang Yue got the news, he couldn't help but sneered: "Are the senior leaders of the Galaxy Alliance planning to send a beggar?"

"They are also embarrassed to take the three thousand points of the internal points of the Galaxy Star Alliance? It seems that this silver armor judge's unscrupulousness is not without any reason!"

Fang Yue sighed quietly.

He has always been in the high-level attitude of the Galaxy Star Alliance. If they punish the Silver Judge, even if it is just a symbolic punishment, Fang Yue can feel a little comfort in his heart.

However, the first thing this Galaxy Star Alliance thought of was to exonerate the Silver Judge.

And these three thousand points of internal points showed another attitude of the Galaxy Alliance-the Galaxy Alliance did not recognize Fang Yue's actions this time.

"Since the Galaxy Star Alliance treats me like this, don't blame me for its ruthless action!"

Fang Yue sighed quietly.

The next day, a message spread wildly throughout the galaxy.

Fang Yue sued the Galaxy Star Alliance Silver Armor Judge for a large number of spies who destroy the demons! The identities of each person who requested the investigation of the Yinjia trial judges shall ensure that no spies exist in the entire Yinjia trial group.

This time the lawsuit caused huge waves in many galaxies around the Milky Way galaxy.

Destroying the demons, an existence that should have withdrawn from people's vision in a long time ago, did not expect that their names would be spread again in the universe at this time!

The appearance of the name Destroyer Demon immediately plunged the Galactic Alliance into a state of general anxiety and panic.

Because these four words are too heavy, they represent destruction again and again.

Countless universes are destroyed in their hands!

And this race actually appeared in the galaxy.

I would rather trust it to have something than to trust it without.

If the Destroyer Demons really appeared in this silver armor judge, then it would be a nearly devastating blow to the Galaxy Alliance.

The silver armor judge did not expect that Fang Yue's counterattack would come so fiercely.

The tide of public opinion is surging, and the major forces are taking advantage of the situation. No matter if what Fang Yue said is true or false, it doesn't matter to them.

Because their real purpose is to deal with the Silver Judge, while taking this opportunity to weaken part of the strength of the Galaxy Star Alliance.

The Galaxy Covenant has made too many enemies in the galaxy, and they have been steadily occupying the top position in the galaxy all year round, making many of the strong in the Galaxy Covenant become quite pampered.

Zhang Taicang is a typical example. In his eyes, there are only interests and no right or wrong.

These accumulative grievances suddenly broke out this time.

The Silver Judge bear the brunt and bear the pressure.

"What does this Fang Yue want to do? Will both lose?"

The leader of the silver armor trial, the first judge Kang Yue said almost ashamed into anger.

There was already a mess in his study, with broken teacups and some glass everywhere.

On weekdays, he was gentle and gentle, and never showed the slightest irritable appearance. Even if his subordinates made mistakes, he was patiently reminding him that he had never acted so violently.

But this time, Fang Yue really touched the inverse scale of the silver armor judge.

If Fang Yue really caught the unfavorable evidence of their silver armor judges, even if they wouldn't be destroyed this time, they would have to pay a very heavy price!

Fang Yue's trick of drawing a salary from the bottom of the tank was too fast and too ruthless, making them feel caught off guard.

"Let the order go on and kill Fang Yue with all his might. Only when he is dead will the storm really calm down!"

Kang Yue's orders were passed on layer by layer immediately!

Every silver-clad judge in the Galaxy Star Alliance moved upon hearing the sound!

However, they have not had time to reach the planet Hella.

A video was circulated throughout the galaxy.

This video was circulated by Fang Yue.

The protagonist of the video is Fang Yue and a leader-level silver-clad judge.

Fang Yue is treating a wounded man who failed to explore the palace.

At this moment, in an unremarkable dark corner.

A figure suddenly violent, and the opponent Yue delivered a fatal blow.

Fang Yue was caught off guard from being stabbed by the long sword of the figure.

There was a look of horror on his face.

But soon Fang Yue reacted and mobilized the surrounding formations, and the blue sky became an endless star, and all other rules were suppressed.

Fang Yue and the figure fought dozens of times, and finally defeated the opponent with a slight advantage.

After the figure was killed, it turned into an icy corpse, and his corpse was also wearing a silver armored judge's iconic clothing-a silver battle suit.

Afterwards, the corpse in the silver armor turned into the body of a destroyer, with strands of destructive power flowing through his body.

irrefutable evidence! Real hammer!

If the news spread by Fang Yue could still be a rumor, then this time, Fang Yue's words have been fully confirmed.

There is indeed a Destroyer in this silver armor judge, and the Destroyer is the running dog that destroys the demons.

For a while, the entire silver armor judge was caught in a precarious state.

No one thought that before just trying to make things difficult for Fang Yue and to please Zhang Taicang's silver armor judge, he eventually stabbed such a big hornet's nest.

The dirty water spilled by Fang Yue could not be washed away even if he wanted to clean it.

And Kang Yue, who was sitting in the headquarters of the Galaxy Star Alliance, quickly summoned all the silver armor judges who had been dispatched to assassinate Fang Yue.

If Fang Yue has not exposed this video to prove that there is a Destroyed Demon in the Galaxy Star Alliance, their silver armor judge will kill Fang Yue as well!

This is a personal grievance. Just give Fang Yue a hat that slanders the silver armor judge. Although it is a bit unreasonable, it is estimated that no one will speak out for him after Fang Yue's death. But now, Fang Yue has confirmed that there is a Destroyer among the Silver Armor Judges. What is it to kill Fang Yue this time?

Murder?

Still want to protect the destruction within the Galactic Alliance?

This Fang Yue must have already predicted the silver armor judge's reaction, so he will grasp the point of this time and expose the silver armor judge's identity.

This Fang Yue is too cunning and too insidious!

Kang Yue hated Fang Yue because of it.

Looking at him, the silver armor judge is aloof, this Fang Yue should show his humbleness and respect when encountering the silver armor judge.

How could his humble ant provoke the majesty of the dragon in the sky!

"Let me investigate whether the silver armor judge who Fang Yue killed was really the one I was waiting for!"

Kang Yue's voice was cold and serious.

Soon, the following feedback report came out.

The silver-clad judge that Fang Yue killed was a nail they placed in Helen Star.

Kang Yue was not surprised, this investigation was just a fluke.

How could Fang Yue leave them such a big flaw.

"Kang Hui, go talk to that Fang Yue! Ask him what he wants so that he can understand what's right and wrong this time!"

Kang Yue recovered her calm. Although they were giant dragons across the sky, sometimes the situation was better than others, and they had to choose to compromise.

Chapter 1413:

"Yes, my lord!"

Kang Hui was a capable officer under Kang Yue. He was cultivated at the level of a saint, and a three-inch long scar was horizontally on his forehead, making him look quite evil.

This scar is not impossible to remove.

But Kang Hui insisted on choosing to save.

This is what he left behind when he was chopped by bandits when he was a child, and has remained until now.

Kang Yue believes that he is brave after knowing his shame, and this scar energy stock has always supported his belief in becoming stronger.

Only by constantly getting stronger can people around him keep awe of him.

There was always a twisted look in Kang Hui's eyes.

Half a day later, Kang Hui came to Helen Star.

He stood in front of Fang Yue, like a cold stone statue.

Kang Hui's gaze crossed Fang Yue's cheek, and stayed on Zhang Han's face for a while, then he turned his attention to Young Master Yan.

As a saint, Kang Hui always has the pride of a saint.

Fang Yue did not have the qualifications to talk to him at all.

The ant is always the ant, how can he be qualified to let a dragon come to him!

"Fang Yue?"

Kang Hui's gaze turned to Fang Yue again.

His tone was cold and proud.

"Yes, you are Kang Hui in the silver armor trial?"

Fang Yue's face was full of smiles.

He seemed to have seen a long-lost old friend.

Kang Hui nodded slightly, his attitude still cold.

"Fortunately, you still have some knowledge! This time, I want to represent the silver armor judge to express the goodwill of the negotiation to you!"

"My silver armor judge will not do things that don't give people a chance! Fang Yue, why don't you dedicate all your property to us and let me imprint an eternal slave brand on you, and all kinds of things in the future? , Listen to my dispatch, life and death are under my control, and then confess your mistakes in front of the entire galaxy, saying that you are telling the truth, spreading rumors and making

trouble. This matter is considered to be the case. My silver armor judge is How about no longer being held accountable?"

Kang Hui's tone was arrogant.

He had no sincerity to make peace at all, and he even took advantage of the situation to suppress others. The conditions put forward were extremely harsh, which made Fang Yue totally unacceptable.

"Kang Hui, you are unreasonable making trouble! This matter was originally a problem with your silver armor judges. Why did you let me apologize, let me submit, and let me dedicate all the wealth in my hands!"

Fang Yue retorted with force.

Kang Hui laughed and said: "Fang Yue, you are such a small reptile, you really think that the Galaxy Star Covenant will give you the status of a platinum-level Rotation Realm seed to run rampant in the Galaxy Star Coven! , Don't be naive, you so-called seeds are just dogs raised by the Galactic Alliance. Before you fully grow up, the Galactic Alliance can kill you for various reasons at any time! And I'm a great saint, Why did you come to negotiate with you in a low voice? You are dreaming! The status of a saint is beyond your imagination! The status of the Silver Judge in the Galaxy Alliance is also unimaginable! Even if it is my Silver Judge There are really Destroyer and even Destroyed Demons in it. The Galaxy Star Alliance will not really investigate us, thoroughly investigate us, but will do everything possible to cover us!"

Kang Hui's laughter was insane, and his eyes were extremely dark.

Fang Yue smiled at the corner of his mouth: "I wanted to stimulate you a little more and let you say these things, but I didn't expect that with such cooperation, you actually finished all the words in one breath!"

Fang Yue's smile was even brighter.

It would be great if there were such idiots among the silver armor judges.

Kang Hui realized something was wrong.

"Fang Yue, what do you want to do?"

"Master Kang Hui, in fact, you should not ask me what I want to do, but what I have already done!"

Fang Yue's voice just fell.

The optical brain communication device on Kang Hui's wrist had already sounded.

Ke Kangyue's voice came from inside, and Kang Yue roared almost hysterically: "Kang Hui, you idiot, what are you doing? Fang Yuejiang, what you said just now, has been broadcast live throughout the galaxy! Come on! Get me back!"

"Fang Yue, I want to kill you!"

Kang Yue's voice came, and Kang Hui's mind was almost a frying pan.

He was so crazy that he was slaughtered like a wild dog.

Fang Yue turned off the live broadcast equipment, and the smile on his face gradually faded.

"Kang Yue, Kang Hui can't go back! How about he killed me, the platinum-level seed of the Galaxy Star Alliance?"

There was a hint of indifference in Fang Yue's voice.

"Kang Hui killed Fang Yue? Do you want Jin Chan to escape? Kang Hui, you idiot, come back to me, come back soon!"

Kang Hui has turned a deaf ear to outside sounds...

The urge to kill is all in his mind now!

The direction of the long sword is full of energy!

"Niezha, what are you going to do?"

Ye Wushuang rushed to see the scene in front of him, and he roared like thunder.

Kang Hui's body almost burst, the blood in his body boiled, and his seven orifices were bleeding!

Kang Hui snorted, spouting a mouthful of old blood, and his gaze returned to clarity.

Ye Wushuang's babble just now contained a trace of a heart-cleansing spell, which instantly removed those magic barriers in Kang Hui's heart.

"Ye Wushuang..."

Kang Hui glanced at Ye Wushuang, who was floating in the air, with fear.

No matter how strong he is, he is still at the level of the Saint Realm after all, but Ye Wushuang is a veteran great sage, his strength is unfathomable!

"Fang Yue, wait for me. Sooner or later, I will still be killed!"

Kang Hui roared bitterly, then turned and left.

When Kang Hui left, Fang Yue's eyes showed endless regret.

Originally, he wanted Kang Hui to split his clone to death, but unfortunately, people are not as good as the sky, and Ye Wushuang is here.

Ye Wushuang landed slowly, he did not expect that the silver armor judge was already arrogant to such an extent!

"Fang Yue, what happened this time is that the Galaxy Star Alliance can't help you!"

When Ye Wushuang spoke, he apologized to Fang Yue for the Galaxy Star Alliance.

This made Fang Yue unable to say some of the bad things in his heart before!

"Ye Wushuang, is this your choice?"

Fang Yue hesitated for a moment, and finally uttered such a sentence.

"Fang Yue, don't be so extreme, you haven't reached the point where you are at odds with the Galaxy Star Alliance!"

Ye Wushuang was poignant, what he worried most finally happened.

The contradiction between Fang Yue and the Galaxy Star Alliance broke out!

From the very beginning, Fang Yue had never received the normal treatment of the seeds of rotation at the platinum level!

Whether it is the exile of Helen or the Judge incident.

All belong to the Galaxy Star Alliance.

The most serious thing is that Fang Yue still holds the handle of the Galaxy Star Alliance!

In the gambling battle between the two galaxies, Fang Yue is an excellent seed of the Galaxy Alliance in the age of 0-500!

He is expected to enter the top ten, and each of his victories represents the ownership of massive resources for the two galaxies.

From a certain point of view, the outcome of this gambling battle may affect the tilt direction of the balance between the entire Galaxy Covenant and the Alpha Galaxy!

Fang Yue did not speak.

His attitude has already stated everything. He wants to use Kang Hui's hand to kill him. The real goal is to get rid of Jin Chan.

He didn't participate in this gambling battle of the Galaxy Star Alliance, and he didn't even want the rewards promised by the Galaxy Star Alliance.

And then, the Silver Judge and even the Galaxy Star Alliance will be torn to pieces by the anger of the Galaxy Star Alliance crowd.

Fang Yue's battle at the opening ceremony boosted the morale of the people of the Galaxy Alliance. From a certain perspective, Fang Yue already has countless fans in the Galaxy Alliance.

He is a Tianjiao and a hero, and such a hero did not ultimately die under the assassination of the Alpha Galaxy, but fell into the hands of the Galactic Alliance.

Especially this so-called "owner" is also mixed with spies that may exist to destroy the demons.

This will be a huge prestige blow to the entire Galaxy Covenant. If it is in peacetime, the Galaxy Covenant will not care about these things.

Because of time, the masses will always forget these things, but the problem is that they are now in a state of war between the two galaxies.

There are countless people who have left their lives to fight for the Galaxy Covenant, and at this moment, the Galaxy Covenant has reported such a scandal about handling heroes, which will cause the morale of the army outside the Galaxy Covenant to plummet.

This will affect the battle between the two galaxies!

Think about it, Ye Wushuang shuddered.

Before he knew it, Fang Yue had grown from an insignificant chess piece to this point!

He already has his own influence in the galaxy!

If he is really ready to throw the table, the chess game of the entire galaxy war may be completely disrupted!

Ye Wushuang looked at Fang Yue and calmed down his emotions a little bit and said, "Fang Yue, how are you going to deal with this matter!"

Fang Yue sneered, "Ask me? How do I know? You are the great figures above all, determining the survival of the entire Galaxy Alliance! Not long ago, I just learned that Zhang Taicang had actually attacked my home planet Earth. He sent a saint to come, wanting to conquer my home planet, and let me cast a rat! Unfortunately, he underestimated the power of my mother, and an unknown strong appeared, and the saint who sent him was already before he got close. Suck it dry and become a piece of human skin!"

"It's not for my family, this Taicang really wants to put me to death so desperately, and does not hesitate to tear my skin? At the opening ceremony, he cheated for the Alpha Galaxy, I have not said much ! And he still wants to threaten my family, this has already touched my bottom line!"

Fang Yue didn't use his will. On the contrary, his tone was quite calm. Since the opponent had already torn his skin, he didn't have to move under the constraints of the rules.

Ye Wushuang was slightly taken aback when he heard the words.

He doesn't know this thing either.

"Zhang Taicang sent someone to the earth? Does this matter need to be investigated carefully, in case it is caused by Alpha Star Territory..."

Ye Wushuang still couldn't believe that Zhang Taicang would do such irrational things!

"People get stolen goods, and even the spacecraft is still on the earth! However, I advise you not to go to the earth to verify that you don't have the blood of a human being on your body. If you approach rashly, I am worried that you will also be implicated. Misunderstanding, was killed by a hidden power on earth!"

Fang Yue's tone was full of sarcasm.

Fang Yue was quite disappointed in Ye Wushuang's weakness.

Ye Wushuang was speechless and got along with him in different places. If someone targeted his home star, maybe he had already gone crazy!

Fang Yue's last sarcasm made Ye Wushuang shudder even more.

Chapter 1414: Zerg Army

If he goes, he may also be killed by the guardians of the earth. Is the water on the earth really that deep?

Fang Yue is an earthling, and he may have a deeper understanding of the earth than himself!

If this is the case, then their previous inferences may be all wrong. This Fang Yue is not without any background, but rather a profound background!

"Fang Yue, I just hope that you, as a citizen of the Milky Way galaxy, will make some contributions to the Milky Way galaxy! If you really want to reverse the Galaxy Covenant, you have to take these last few bets first. Let's talk about it next!"

Ye Wushuang's tone was almost begging, and the further forward, the more resources represented by each gambling battle!

The gambling in the previous session was just a foreshadowing.

Fang Yue sighed slightly.

"Ye Wushuang, this is the last face I gave you. I promise you to complete the last few gambling battles! But this is also my last bottom line. I want to kill this silver armor judge cleanly, and it's a matter of Kang Hui. , The Galaxy Covenant must also compensate me! Don't fool me with those things before, the compensation of 30,000 points? Oh, the Galaxy Covenant is really generous!"

When Ye Wushuang saw Fang Yue finally let go, he nodded immediately.

"This is no problem! This time Kang Hui's matter has been broadcast live throughout the galaxy! Even if the Galaxy Alliance is domineering, it is impossible to perfuse you like last time! Otherwise, don't say I don't agree, the entire galaxy None of the people agree!"

A cold light flashed through Ye Wushuang's eyes, this time the silver armor judge was really too much!

Does Kang Yue really think that no one in this galaxy can sanction them?

A slight smile appeared on Fang Yue's face again. However, his smile at this moment was only indifferent, and there was no longer any kindness and warmth!

Ye Wushuang sighed in his heart, this Fang Yue had a complete estrangement with them.

This gap is irreversible.

Perhaps, after this gambling battle is over, they will really become strangers from then on!

Ye Wushuang left.

Fang Yue immediately entered the exchange office of the Galaxy Star Alliance. He wanted to exchange all his military merits and internal points into resources.

These things are useless in his hands. Once they leave the Galaxy Alliance, they will be a bunch of worthless data!

At the same time, Fang Yue devoted more time to the road to the sky and the martial arts arena.

He is still in the scope of the inspection period, and has the advantage of a tenfold increase in points!

The internal points of the Galaxy Alliance are extremely valuable.

If you make good use of it, you can redeem a lot of materials that he can't buy in normal days.

The gambling is still going on.

The spark collision between the two literary star departments is always in full swing.

You come and I meet with each other, winning each other, and Alpha galaxy has long been prepared, and has developed different strategies for different opponents.

They win more and lose less, and the fruits of victory in the Alpha Galaxy are getting bigger and bigger!

And in this weird silence.

There was no movement from the silver armor judges, they seemed to have completely evaporated from the world, and they would no longer carry out any crusade against each other, but at the same time they would not give any treatment or punishment to Kang Hui.

Everyone is watching.

Watch Fang Yue's performance in gambling!

If Fang Yue can really sing all the way in the gambling fight, continue to win.

Then, in order to quell the anger, Kang Hui will be punished extremely severely to quell the anger.

And if Fang Yue's performance is poor and he loses halfway through, all the auras on him will fade away.

At that time, Fang Yue is a real ant, life and death are just between the thoughts of the silver armor judge!

Seeing such a situation, Fang Yue certainly understood the calculations of the silver armor judges!

Fang Yue is not in a hurry, as the gambling and fighting competitions become more and more*, the interval between each game is gradually lengthening.

Fang Yue has now squeezed into the top 500 of the 0-500 competition.

The interval between each of his games has reached three days.

At least before Fang Yue's defeat, no one in the Galaxy Star Alliance dared to attack him secretly.

And the people of the Alpha galaxy maintain a mentality of watching a show.

The so-called enemy's enemy is a friend.

Fang Yue had already torn his face with the Galaxy Alliance. If Fang Yue fell, he would be helping the Galaxy Alliance.

Therefore, Fang Yue is now in a strange state of absolute security!

Neither the Afar galaxy nor the Galaxy Covenant dared to attack him.

Fang Yue is obviously surrounded by enemies, but no one will do anything to him!

"This is probably my last peaceful years. One after another, I just wait for the real stormy waves to be set off between the two star regions! However, they are all waiting for my value to run out, and then they will shoot me again? If this is the case, How could I agree to Ye Wushuang's condition?"

A strange smile suddenly appeared at the corner of Fang Yue's mouth.

By now, his layout is almost complete!

Maybe you can't wait for the end of this gambling game.

This monstrous wave will tear the calmness of the two galaxies to pieces!

And the Guardian of Silver Armor will become the first sacrifice when darkness falls!

Fang Yue's palm tightly held a stone tablet that was about to break.

And this stone monument originated from the palace floating in the ocean in the distance!

The crazy look on Fang Yue's face could no longer be suppressed.

This storm is coming, I hope he is just a witness, not a participant!

That night, a news came from the battlefield of the two galaxies.

On the Nine Serenities of the Alpha Galaxy, three consecutive cities in the Bright Empire were slaughtered and cleaned.

Witnesses said that this was done by the Zerg!

The Zerg army passed by, leaving nothing.

At least 10 million people died in this massacre in the Alpha Galaxy.

This is a triumphant carnival for the Galaxy Star Alliance, which is at a disadvantage in the gambling battle!

The inferiority of the gambling battle has made the strength and prestige of the entire Galaxy Star Alliance be questioned by the Milky Way Galaxy.

And this victory is timely rain, which seems to be able to wash away the incompetence of the Galaxy Alliance!

The Propaganda Department of the Galaxy Star Alliance began to publicize this victory.

Although I don't know who made this victory, it is the victory of the Galaxy Alliance, and there is nothing wrong with the publicity!

The night is over.

The day fell.

Fang Yue publicized that this zerg army is his subordinate!

This victory belongs to the earth and belongs to Fang Yue!

The senior officials of the Galaxy Alliance seemed to have eaten fly shit, and their faces turned green!

This Fang Yue did it deliberately!

Is it deliberately disgusting them!

The relationship between Fang Yue and the Galaxy Star Alliance is stiff and broken, which is almost a well-known thing.

In the end, the face of the Galaxy Star Alliance actually needed Fang Yue to fight for them.

This is not a slap in the face and what is it?

But by the way, the people of the Galaxy Alliance are dumb and eat coptis, and there is hardship to tell!

This gambling fight still needs Fang Yue to support them.

As for the war against Alpha Star Alliance, Fang Yue always seemed to have been fruitful.

The Alpha galaxy was originally attacked by people and slaughtered three cities. It should be emotionally quite angry.

But when they saw the faces of the senior leaders of the Galaxy Alliance, the anger in their hearts didn't seem to be so strong.

Some people even think, die if you die!

Where are the undead in the war? What's more, during this massacre, they were caught off guard, and the Bright Empire did not even react.

Without the fall and death of the saint-level powerhouse, the death of some people under the saint, in exchange for the high-level slaps of the Galaxy Star Alliance, seems to be worthwhile.

Surprisingly, Fang Yue's zerg army had killed the tens of millions of people in the Alpha Galaxy, without a piece of armor, but it did not cause anyone's revenge. Fang Yue stood on a weird balance point.

There is no reason for the Galaxy Alliance to take action.

People in the Alpha galaxy feel that there is no need to take action!

"The army of the Zerg!"

After Kang Yue heard the news, she couldn't help but smoke. Twitched.

What kind of trump card does this Fang Yue have? Even the horrible existence of the Zerg army has been torn out by him!

Zergs, with their own destructive attributes, are generally rarely found in densely populated places in the universe.

This race can continue to evolve as long as the insect emperor is immortal and has enough energy and food. The most important thing is that the creatures of this race seem to have no taboos.

They eat flesh and blood as well as spirit stones, and even some metal substances in the universe are delicious in their mouths.

If the number of Zerg is enough, destroying a civilization will be a matter of minutes.

And Fang Yue actually had an army of Zerg in his hands, which was absolutely sensational.

The only good news is that they have temporarily concluded that the number of Zerg army in Fang Yue's hands is not very large. There are only a few million in total. The average realm level is at the level of the rotation realm. The insect emperor seems to have a leader. The cultivation base of the realm level, but it is not yet certain!

For the time being, this kind of Zerg army cannot pose a real threat to their army and saints!

"This Fang Yue, it will be a curse to keep it sooner or later!"

Kang Yue's eyes flashed with a fierce smell.

Fang Yue's realm is low, and his room for growth is huge. Now he can defeat the ordinary saint realm powerhouse. When his realm rises to several levels, who knows what level of combat power he can reach.

What's more frightening is that the hole cards in his hand seem to be infinite, one by one is what other people dream of.

Especially the Zerg army shown this time is absolutely loyal and has great potential for growth!

Give Fang Yue a period of time to allow this zerg army to fully grow, and it will be difficult to kill Fang Yue again!

Suddenly, Kang Yue's room door opened.

Zhang Taicang came in uninvited, his face was quite ugly.

Kang Yue glanced at Zhang Taicang, "I don't have a green face yet, what's wrong with your face? Fang Yue is arrogant again, so I should not dare to move your people for the time being!"

Zhang Taicang gave a cold snort.

"This time we are in big trouble! This is Fang Yue's recent record of gaining internal points from the Galaxy Star Alliance, look!"

Zhang Taicang threw a list in front of Kang Yue.

Although both of them are veterans of the Great Sacred Realm level, Zhang Taicang is still a lot higher than Kang Yue in terms of status!

Kang Yue didn't care about Zhang Taicang's rudeness.

He picked up the note on the coffee table.

Fang Yue's latest income from the internal points of the Galaxy Star Alliance is the points of these Zergs for killing millions of people in the Alpha Galaxy.

A total of ninety-five thousand six hundred and seventy points, the fraction below the single digit has been erased.

Chapter 1415:

"Why did he kill so many points?"

Kang Yue was taken aback for a moment, then patted her forehead and said.

"Look at my memory, forget that this guy is still in the expedition period! But during the expedition period, there can be such a violent means, but it is much better than when we were seed players!"

Kang Yue was a little bit self-deprecating, but apparently didn't take the internal points that Fang Yue got into her eyes.

The internal points of the 100,000 Galaxy Star Alliance seem to be very large below the level of the Saint Realm, but in fact, they seem to be nothing at the level of their existence.

Such a number of points cannot be exchanged for precious treasures, and it would take a long time for ordinary resources to be digested and transformed into strength.

"Don't talk nonsense, look down!"

Zhang Taicang was upset, and continued to scold Kang Yue.

Kang Yue did not refute, and continued to look down the list.

Fang Yue received 1200 internal points.

Fang Yue received 1500 internal points.

Fang Yue received 1,600 internal points.

...

The following internal points are obtained only with a rough date and no specific time.

Every time Fang Yue gets a lot of points, he gets more points.

The superposition of these internal points is also an extremely objective number.

"How did Fang Yue get these internal points?"

Kang Yue was a little surprised. This was not like the internal points exchanged for military exploits. Obviously, Fang Yue's internal points numbers were quite neat.

"These internal points are all obtained by Fang Yue by relying on the road to the sky and the martial arts arena. Because he was within the scope of the inspection period, all the points are amplified by a certain ratio! Now the **** Fang Yue, the road to the sky is already on the way. At the top of the two hundred and fifty-sixth steps, the martial artist challenged him from back to front, and he has reached the ninth three hundredth place! The points list I brought is only for Fang Yue within this hour."

Zhang Taicang's voice fell.

Kang Yue was silent suddenly, then stared at Zhang Taicang.

"Then how many internal points does he still have?"

"Not all of them have been exchanged into various resources! Especially for some elixir and old medicine, he exchanged them in tons!"

Zhang Taicang's smile was a bit bitter.

Get paid from the bottom of the pot!

This Fang Yue didn't act on the Silver Armor Judge for the time being, but secretly he was already planning to leave the Galaxy Star Alliance!

The number of internal points that Zhang Taicang could not estimate was so huge that they were redeemed into low- and middle-level spiritual resources, and the number of exchanges was huge.

As a result, some resources within the Galaxy Star Alliance began to appear some deficiencies and shortages.

But this is not the point.

The key is that Fang Yue's performance has attracted the attention of some other elders in the Galaxy Star Alliance.

In the past, these elders did not ask about world affairs.

But this time, the trouble between Fang Yue and the Silver Armor Judge was too much, and the whole galaxy was about to see public resentment.

Those veterans who did not ask about world affairs also mobilized their forces to investigate the origin and background of Fang Yue.

If you don't investigate, it's okay. If you investigate, they all have seen Fang Yue's achievements in the Tongtian Avenue and the Martial Arts Arena.

This performance is definitely a peerless arrogant one seen in a million years.

If it is really well cultivated, it may create a pillar for the Galaxy Alliance in the future.

Regarding the actions of Zhang Taicang and Kang Yue, the veterans have some opinions and opinions, although they are still not obvious.

But once it breaks out, make sure that both of them can't eat.

Kang Yue and Zhang Taicang are both senior figures in the Galaxy Star League.

But their right to speak hasn't been so heavy as to cover the sky.

At the same time, Ye Wushuang continued to persuade and wander within the Galaxy Star Alliance.

In the end, no one can say which direction this matter will develop.

In another gambling battle, Fang Yue easily won the victory. His opponent was an Alpha galaxy's seventh-tier strong man. His combat power has reached a level comparable to that of the ninth-tier strong man. To the point!

In the Afar galaxy, he is known as the arrogant of the generation. It is said that he is the successor of a certain big family and the future is brilliant.

However, in Fang Yue's battle, he was kicked by Fang Yue without even performing three tricks. Based on the judgment of the virtual world system, he concluded that he had failed.

Fang Yue's expression was impatient. Some people judged that he has urgent things to do in the real world.

That foot was regarded as a classic. Someone slowed down the video playback by a hundred times. They found traces of the circulation of at least five rules on Fang Yue's foot!

Fang Yue was touted to the altar again, he is no longer a matter of defeating the strong with the weak.

On the road to the law, Fang Yue walked a long way. He had a deeper understanding of the law than some old saints.

The veterans of the Galaxy Star Alliance looked strange when they saw this scene. Although the Galaxy Star Alliance won this game and the victory was simply majestic, they did not have the slightest joy.

Because Fang Yue is so anxious because he wants to defeat the strongest in the martial arts arena in the shortest time.

For every second delay, he may lose thousands or even tens of thousands of internal points of the Galaxy Alliance!

In the martial arts arena, Fang Yue is simply crushing and sweeping all the way, the road to the sky, and perhaps certain levels can trap Fang Yue for a while.

But in the martial arts arena, some people estimate that within 9,000 people, it is estimated that Fang Yue's enemy can not be found.

This is not a test, but a machine for Fang Yue to brush points.

A lot of resources have already been exchanged by classmate Fang Yue. This is something that has never happened in the Galaxy Star League for many years.

Many people have the internal points of the Galaxy Covenant in their hands, and the number is huge, but these people are either high-ranking, and only exchange some corresponding resources when needed, or they have a relationship with the Galaxy Covenant. Long-term trade relations will not do this kind of killing.

And Fang Yue has become a special case.

He can continuously acquire the internal points of the Galaxy Covenant through the particularity of the inspection period, and then the internal resources of the Galaxy Covenant!

"Can you temporarily suspend Fang Yue's right to swap? The resources he has exchanged are a bit too much, and Fang Yue doesn't exchange high-level resources. He specifically selects some low- and middle-level materials for exchange! He just came from the Galaxy Star Alliance. Three million plants of Bailingcao were exchanged in his treasure house. This Bailingcao is a relatively low-level herbal medicine. Generally, the pill that is refined is only effective for practitioners at the innate and heavenly realm levels. He makes so many. What is the Bailingcao doing? Are you going to build thatched cottages?"

The elder Sun Wang, who is in charge of the treasure house of the Galaxy Star Alliance, said silently.

He and Fang Yue had no grievances and no grudges, and had no interest in any connection, but the things Fang Yue had exchanged really made him a little bit confused.

Bailingcao, this is a basic herbal medicine necessary for the Galaxy Alliance to deploy low-level pill.

The price is extremely low, and the internal points of the Galaxy Star Alliance can be exchanged for 50,000 plants of this medicine.

Generally, they are kept in a treasure house and no one cares about them. They exist as strategic material reserves for emergency use.

But Fang Yue didn't know what was thinking in his head.

They exchanged 3 million larks in one go.

This makes the larks inside the Galaxy Alliance almost out of stock.

To say that Fang Yue is going to stock up on odd goods, then he should also choose those rare and unpopular herbs.

Lark, with the forces of the Galaxy Covenant, as long as a little bit of information is revealed, countless medicinal vendors in the galaxy will cruise around like sharks smelling blood. Provide a steady stream of larks for the Galaxy Alliance.

Fang Yue bought so many larks, what a picture, what a picture!

"It is definitely impossible to stop Fang Yue's exchange. This is not in line with the relationship that the Galactic Alliance has established over the years. What's more, why did the 90% of the strong people attracted by the Galactic Alliance join the Galactic Alliance? For the whole Is the galaxy too safe? For your own lofty ideals and self-realization needs? Everyone, be sober! Those who deceive outsiders can't deceive ourselves! Isn't their real appeal aimed at the internal points that can be exchanged for various

resources? And once the opponent Yue's resource exchange is stopped, what will those masters who enter for the resources of the Galaxy Star Alliance think? Will the Galaxy Star Alliance also terminate their resource exchange for them? The Star Alliance is eccentric!"

Gong Yunsheng analyzed this issue rationally and rejected the proposal of Chang Sun Wang.

A group of veterans suddenly looked at each other. They had never thought that these people would be helpless because of a small practitioner in the cycle of rotation.

"Ahem, I can tell you, I seem to be able to guess why Fang Yue bought the lark!"

Ye Wushuang coughed twice before speaking.

"I have investigated before. Fang Yue and Vientiane Pavilion seem to have a very good relationship. He and Vientiane Pavilion have a long-term trading partnership and are an important source of Vientiane Pavilion's pill! The Baicao Liquid produced by Fang Yue is ours The most important refining material of the panacea that is often out of stock in the treasury is Bailingcao! Fang Yue's purchase of massive amounts of Bailingcao is probably preparing to refine the Bailingcao in batches!"

Ye Wushuang's voice fell.

Countless eyes fell on him.

"What? The Wan Ling Ye was refined by Fang Yue?"

"Ye Wushuang, are you sure this news is true?"

"Ye Wushuang, why didn't you talk about such an important thing earlier!"

Each of the veterans took a breath, especially Gongsun Wang, who is in charge of the treasure house, showed a hint of anger in his words.

"Is this news important?"

Ye Wushuang looked at these elders hesitantly, as if he had revealed an incredible secret.

But he didn't know the value of this secret.

Gongsun Wang gave a dry cough, cleared his throat and said, "This news is no longer important, but very important! Fang Yue's herbal liquid has a very different function from ordinary herbal liquid. It contains a trace of pure essence. If the number of books is enough, it can even restore some vitality to the self-appointed strong men who are about to die, and live longer! If you don't take this herb If they are resuscitated, they may deplete the vitality in their body once resuscitated, and if they take Baicaoye, they may be able to resuscitate themselves, and then they will truly sit down after resuscitating twice or even three times!

Chapter 1416: Beware of the comrades behind

In the Galaxy Star Alliance, someone once did an experiment. As long as three thousand drops of Baicao Liquid can completely revive a self-proclaimed Yin-Yang realm powerhouse! And after doing his best, he once again set himself up, waiting for the next recovery! Some people have also tried to use this Baicao Liquid on the masters of the leader realm, and the effect is also excellent! Even if the amount of the Baicao Liquid is sufficient, even the saint-level foundation can be fully recovered, and as long as they don't fall, those strong in the saint-level can also use some secret techniques to self-appoint themselves and become my galaxy star. The heritage of the alliance!

This Baicao Liquid is so effective, how much do you think it is worth? Do you think he is important or unimportant! "

Gongsun Wang's tone revealed strong dissatisfaction, not only against Ye Wushuang, but also against Kang Yue and Zhang Taicang.

The main reason for Fang Yue's rebellion came from these two people. If they hadn't been too overbearing and bullying, Fang Yue would definitely not have a rebellious heart against the Galaxy Star Alliance!

"The value of Fang Yue is more than that. It is said that the refiner of this Baicao Liquid and the refiner of Suichen Pill are the same person. This Pill can erase the years and moon dust of all the strong below the Great Holy Realm. This is tantamount to extending their life span of sixty years and restoring their state to the state they were sixty years ago! If this year-old dust pill is used by those who are dying and self-styled, its value is higher than that of Baicao Liquid. Of course The price of this Baicao Liquid is relatively low, while Suichen Dan is much more expensive!"

Gongsun Wang spoke again, and Fang Yue's value gave many veterans present a breathless, incredible feeling.

Fang Yue, a small practitioner in the rotation realm, was upgraded to become a heavyweight existence affecting the future development of the entire Galaxy Star League at this moment!

"Fang Yue, Fang Yue..."

Ye Wushuang said this name in a daze. In fact, Ye Wushuang knew that Fang Yue's methods were extraordinary and his future was boundless, but he didn't expect that Fang Yue's methods would be so unimaginable!

"Then what are we going to do next? At any cost, win over Fang Yue and let him return to my Galaxy Star Alliance?"

One of the elders said hesitantly.

Although Fang Yue's value is great, he has not yet been able to make the Galaxy Star Alliance condescend to him!

"This contradiction between the Galaxy Star Alliance and Fang Yue may have spread throughout the universe. Now it is a great gift to him to let Fang Yue complete this bet! Let my Galaxy Star Alliance bow to him, this Absolutely impossible! Big deal, I will search for his soul directly to see how many hole cards and secrets he still has! Only by mastering these secrets in the hands of my Galactic Alliance, can I guarantee the eternal strength and status of my Galactic Alliance. Not threatened!"

A vicious look appeared on Zhang Taicang's face.

"On the day when this gambling battle is over, that's when Fang Yue falls!"

Zhang Taicang's voice fell, and Kang Yue also silently walked behind Zhang Taicang. This obviously proved that Kang Yue was on the side of Zhang Taicang.

Ye Wushuang stared: "You two are so vicious!"

Gongsun Wang frowned slightly, pondered for a moment, and finally sighed: "Although Zhang Taicang's method is extreme, one of his words is correct. Only when this formula is in the hands of my Galaxy Star Alliance can we guarantee The eternal prosperity of the Galaxy Covenant, extraordinary things, naturally have to be dealt with in extraordinary ways. For the future of my Galaxy Covenant, I have to apologize to Fang Yue!"

Gongsun Wang showed his attitude, and the other elders also acquiesced in this decision.

Although Fang Yue is excellent, there is no need for the entire Galaxy Star Alliance to bow to him!

Ye Wushuang laughed loudly: "You old guys have lost your eyes by the power in your hands, you will regret it sooner or later! Fang Yue is definitely not as simple as what you see!"

Ye Wushuang's laughter was bleak and spread all over the surrounding space.

"Ye Wushuang, you and Fang Yue have a close relationship. In order to prevent the content of the meeting I'm waiting for from spreading, during this period of time, I have to wrong you to stay in the residence temporarily and stop contacting the outside world!"

Zhang Taicang looked at Ye Wushuang, his lips curled up with a sarcastic smile.

The more Fang Yue's value is, the faster he will die.

Ye Wushuang just said that Fang Yue had the ability to refine Baicao Liquid, but he actually made a faint move.

"Dare you!"

Ye Wushuang glared. Although his status among the senior leaders of the Galaxy Star Alliance is not very high, he is at least a senior-level existence.

These people dare to imprison the elders. This is something that hasn't happened in the Galaxy Star Alliance for many years!

"excuse me!"

Gongsun Wang shot from behind Ye Wushuang and subdued Ye Wushuang with a trick.

Ye Wushuang's body was stiff, and the true energy in his body seemed to be frozen and unable to move. He slowly turned his head back, but he didn't expect that Gongsun Wang, who is usually invisible, would have such a method!

Ye Wushuang was placed under house arrest by the senior officials of the Galaxy Star Alliance.

However, Fang Yue in Helen Star had no idea about this matter.

But even if he knew it, it would not affect his plan, and even just advance the time of his plan!

In Helen, in the cities of some indigenous people, a strange virus began to spread. This virus enters the body and gradually hibernates, but as time goes by, the elderly and children will suddenly lose all vitality in between, turned into a monster that only knows to bite other creatures and devour flesh and blood, and this kind of monster will continue to grow stronger and evolve after eating those flesh and blood creatures!

This caused widespread panic among the natives of Helen Star, but no one was able to investigate where the virus appeared!

The people who started to infect were probably just ordinary old people and children who didn't have the talent for cultivation. Later, it spread to the young and middle-aged. Later, even the strong in the innate realm would be infected! This virus spreads very quickly, as if it had come overnight.

It is like a messenger of death, wherever it spreads, there is a haze of death.

On the other hand, Fang Yue was sitting cross-legged on the beach, either breaking through on the road to the sky, or fighting the martial arts arena. Occasionally, he would open his eyes and take a look at the palace on the sea!

And Young Master Yan was guarding Fang Yue's side, saying that he didn't care, but he seemed to care more about Fang Yue's safety than anyone else.

Zhang Han also felt that Helen Star seemed to be suppressed by a heavy atmosphere, and the information in his hand was continuously reported from all sides.

In many places of Helen Star, various strange and strange changes have appeared.

Some are viruses that have evolved, and powerful monsters have evolved, killing all quarters. No one can stop them.

In some places, some ancient temples appeared, and there were even sacrifices that had almost disappeared and began to preach and gather believers!

Fang Yue and Young Master Yan seemed to know something.

But both of them were silent.

It's just that in the night of one day, Zhang Han vaguely heard that Young Master Yan once said to himself when he was watching the moon: "The past will never die, the past is also the future!"

This sentence made Zhang Han feel a bit philosophical, but he didn't know what it represented and meant.

As time passed, Fang Yue and Young Master Yan became more and more silent.

Fang Yue's gambling competition also entered the top 100 list.

In the gambling battle, Fang Yue seemed to be an invincible warrior in the Galaxy Star Alliance.

Every time he makes a shot, he is swift and neat, without fighting, without procrastination, as long as his opponent hasn't reached the level of a saint, he is hardly an enemy of one move!

Fang Yue's fans and voices in the Galaxy Star Alliance are also getting higher and higher.

But the insects are constantly sneaking in the Alpha Galaxy, and their appearance is no longer limited to the Nine Serenities.

They will appear in any corner of the Alpha Galaxy!

But every time the Zerg appears, there will be a large-scale massacre, but it will never kill any saint-level powerhouse in the Alpha Galaxy.

This seems to be a kind of tacit understanding, as long as the Alpha Galaxy does not die of saints, it can't hurt itself.

And Fang Yue's hunting targets will always be the lower-level civilizations in the Afar galaxy that have no right to speak!

The two are strangely peaceful.

In the Galaxy Covenant, there are no reports of the Zerg killing the Alpha Galaxy.

Fang Yue's popularity among the people is high enough.

If we go further, I am afraid that Fang Yue will truly become the idol of countless people in the entire Galaxy Star League!

until one day.....

"It's about to compete in the top 100!"

Fang Yue suddenly woke up from the retreat. He had already reached the 570th step on the road to heaven.

For his comprehension of runes, he became more and more profound, and even these runes can be used for reference and confirmation from the runes on the stone tablets outside the city, and become an extremely complete rune system!

Fang Yue muttered to himself.

On the white light brain on his wrist, a message popped up.

"I am defeated! Stop the top 100, be careful of everyone in the Alpha system, be careful of your comrades behind you!"

The message is simple, and the signature is Alice.

Fang Yue was silent.

This Alice's defeat was actually expected by Fang Yue.

Alice played for the Galaxy Star League. She fought south and north. Although she has established a reputation, she is too conspicuous and she takes too many shots.

All the hole cards are almost exhausted, and the hole cards are exhausted, it is easy to be targeted, even if she is unparalleled in combat talent!

Then, Fang Yue's optical brain popped up another message.

"The eyeliner of the Galaxy Alliance in Rocky City on the northern continent of Helen has been cleared!"

Luo money is Drucker.

Everything is ready only east wind!

"Please enter Fang Yue, a player from the Galaxy Star Alliance!"

The reminder on Guang Brain sounded.

Fang Yue closed his eyes, and a ray of spiritual thought entered the virtual world!

This is a vast prairie, and it is also the battlefield of Fang Yue's battle!

"Fang Yue may lose this game!"

A discordant voice sounded from among the elders of the Galaxy Alliance.

The exporter was Zhang Taicang, and he hated Yue the most.

"Fang Yue's stopping in the top 100 has already gained enough benefits for the Galaxy Star Alliance! If he goes too far, he may be beyond our control!"

Zhang Taicang's voice was calm and cruel.

Compared with the gambling and fighting later, Fang Yue may have won the benefits for the Galaxy Star Alliance.

Chapter 1417:

Zhang Taicang paid more attention to the pill in Fang Yue's hands.

Having mastered the pill of Baicaooye and the pill of Suichen Pill, many experts in the Saint level would bow to him and bow to him.

Thinking of this, Zhang Taicang's face was full of enthusiasm.

There was even a light almost like flames in his eyes.

One of his clones had sneaked into Helen Star quietly and without interest, as long as Fang Yue was defeated, he would kill Fang Yue with lightning speed.

He had even thought about the cause of Fang Yue's death.

Fang Yue died of a mental attack from the Alpha Galaxy!

Fang Yue's complexion was quite calm.

When he received the news from Alice, he had a hunch in his heart.

This battle will be an extremely difficult one.

However, this difficulty is when Fang Yue wants to win.

If you admit defeat, you can always!

Fang Yue no longer cared so much about gambling.

Everything is ready, just waiting for Dongfeng!

"one two Three....."

In the grassland, a powerful Alpha galaxy of the saint level appeared, oppressing all directions

"Fang Yue died!"

The other party was a bald head, but he was not a disciple of the Buddhist school. His head was very bright, and his family turned into a sun in the blink of an eye!

"Is this your ultimate move? It's a bit too clever!"

Fang Yue glanced at his bald head, strong in the outside and dry in the middle, with an unstable breath. The level of this saint state has been forcibly lifted recently!

Kimiao encourages, his potential has been exhausted.

Such a saint is at best a false saint.

Fight with all your strength, Fang Yue will win!

However, Fang Yue had no intention of fighting for the Galaxy Star Alliance to fight for benefits.

Fang Yue waved his palm, the darkness obscured the sun, and the Night King's methods suddenly appeared.

The law of darkness that is so deep and unpredictable swallows all the light.

The bald saint is like falling into the ice cave.

The two people's understanding and application of the law are not at the same level!

"Can Fang Yue win?"

Gongsun Wang showed an incredible expression in the audience.

"I surrender!"

Fang Yue suddenly spoke, and the corner of his mouth even showed a sarcasm.

He was not frustrated, everything was planned.

Gongsun Wang instinctively felt something was wrong.

But it was too late.

According to the rules, Fang Yue was teleported from the battlefield!

The bald saint looked at where Fang Yue left with a blank face.

Did your special mother tease me?

So strong, do you admit defeat?

What kind of routine is this!

Is this Fang Yue's brain circuit different from ordinary people?

The bald saint's guess.

A shocking news burst!

A stable space channel appeared in Helen, with the Galaxy Covenant on one side and the Nine Serenities of the Alpha Galaxy on the other!

The message appeared unexpectedly, and even the specific location was not displayed.

The approximate location is only determined to be Rocky City on the northern continent of Helen.

"Rocky City, aren't there our spies in that city?"

Gongsun Wang frowned slightly, the ominousness in his heart became more intense!

"A total of 2,700 of our spies have been wiped out! We know this news too late! Once this two-way channel is firmly established, it will not be destroyed in a short time!"

A saint said to Gongsun Wang respectfully.

But Gongsun Wang's heart suddenly stopped beating.

Reminiscent of the scene where Fang Yue gave up just now.

"Could it be that this is Fang Yue's masterpiece?"

"Quickly, help me investigate whether the vicinity of Rocky City is an important building or a base for the Galaxy Star Alliance!"

Where is the calmness of the elders of the Galaxy Star Alliance in Gongsun Wang at this moment!

As a veteran of the Galaxy Star Alliance, Gongsun Wang should not be surprised at all changes.

But Fang Yue left a deep impression on Gongsun Wang's heart.

He has a variety of methods, and his calculations are precise.

The sage investigated a little and got the corresponding information immediately.

"There are eighteen youth training camps for the Silver Judge near the Rocky City. Among them are the geniuses collected by the Silver Judge over the years. The number of them exceeds three thousand, and

all of them are instructors. The real silver armor judges, they start from the level of the leader, the strongest two are the positive and negative battalion leaders of the training camp, and their cultivation level is at the level of the saint! He is a veteran saint, quite famous in my Galaxy Star Alliance!"

The saint told Gongsun Wang all the information in his hand.

He knows everything, and can say nothing!

"Silver Armor Inquisitor Training Camp, hahaha, what a Fang Yue, what a Fang Yue! It really is his layout, he must have guessed that on the day of his defeat, it is my Galaxy Star Alliance that will attack him. At that time, so he simply acted first to make the pool muddled! I underestimated him, this time the silver armor judge's face is probably going to drop!"

Gongsun Wang's eyes flickered.

His mood calmed down a little, it was reasonable for Fang Yue to attack the Silver Armor Judge.

As long as the fire didn't burn his head.

Gongsun Wang can watch a good show safely!

As for the loss of the silver armor judge, it has half a dime to do with him!

Gongsun Wang's mouth even raised a faint smile: "These silver armor judges are indeed a bit too arrogant over the years. Even I and others have never looked at them, let them suffer a little loss and lose some strength. It is also a good thing. At the very least, it can make Kang Yue become more restrained, knowing that the world is so big that someone can stop him."

There is also no unity within the Galactic Alliance.

The relationship between Gongsun Wang and the Judge of Silver Armor is not so friendly. It can be seen that these Judges of Silver Armor are crushed, and Gongsun Wang's heart even has a taste of ecstasy.

But then, the saint reported another piece of news to Gongsun Wang.

Gongsunwang's face changed drastically.

"Fang Yue just exchanged some of the last internal points of the Galaxy Star Alliance in his hand. He swept away 30% of the elixir from the innate to the heaven and earth level in the inner treasure house of the Galaxy Star Alliance! Especially some rare elixir, even There has been a temporary out-of-stock situation!"

Gongsun Wang scolded bitterly.

"This Fang Yue did not forget to stumble me on the Galaxy Star Alliance when he was leaving!"

At this moment, Zhang Taicang's clone has sneaked into Helen Star quietly and without interest.

His only goal is to take advantage of this opportunity to wipe out Fang Yue!

As long as Fang Yue is killed and his memory is plundered, his status in the Galaxy Alliance will skyrocket in the future, and even Gong Yunsheng will not be able to tell him!

Zhang Taicang's heart has endless longings and reveries.

As for being able to kill Fang Yue all at once, Zhang Taicang had no doubts!

This clone of him is the combat power he has cultivated over the years to possess the Great Sacred Realm. Although the number of shots is limited, there is still no big problem in killing Fang Yue, a junior at the rotation realm level!

Zhang Taicang appeared on the beach where Fang Yue was.

The scenes of loud voices on the beach have disappeared.

Fang Yue's 30,000 army didn't know when they had all disappeared, as if they had evaporated from the world.

Only Fang Yue sat cross-legged on the beach.

Seeing this scene, Zhang Taicang had a bad feeling in his heart.

When did those people disappear? Why is Fang Yue alone on the entire beach?

Fang Yue opened his eyes slowly, and he looked at Zhang Taicang.

"Master Zhang Taicang, you seem to be a bit too late!"

There was a slight smile on Fang Yue's face, and Zhang Taicang's appearance did not surprise him.

"Fang Yue, where is your deity?"

Zhang Taicang's complexion was ashen, and he saw at a glance that this somewhat illusory figure was not Fang Yue's deity.

Why did he come to this Helen star not far away?

In order not to grasp Fang Yue's deity, extract his own memory, and obtain the formula of Baicao Liquid and the refining method of Suichen Pill.

But who could have imagined that Fang Yue, who had been quietly stiff Li Daitao, had already transferred his deity.

He ran for nothing, even his everything was in Fang Yue's calculations.

"My deity has never appeared in this Helen star. The figure of me that you see all rises up from an incarnation of me, but cultivating that incarnation also consumes a lot of resources. I am afraid of you. In a rage, kill my clone to vent your anger. My little clerk can't help you toss like this, so I simply hid the clone, leaving only this spiritual energy clone!"

Fang Yue's tone was quite calm, and he was not surprised by Zhang Taicang's attack.

However, Zhang Taicang was not as furious as Fang Yue imagined. Instead, he stood in front of Fang Yue extremely calmly.

"Fang Yue, this time I admit that I underestimated you! The moment you gave up, I actually knew that you might have run away, but I didn't expect that you dare to leave a clone here waiting for me!"

This is the first time Zhang Taicang looked at Fang Yue. Before, he always treated Fang Yue as an ant! Ant, there is no qualification for him to face it.

But now when Zhang Taicang looked at Fang Yue again, his evaluation in his heart had been greatly improved.

Even if Fang Yue is an ant, it is also a clever ant who can play with the entire Galaxy Star Alliance in applause!

"It's not that you underestimated me, but that you underestimated the enemy! The more humble people like me, the more unscrupulous to try to figure out the world with the greatest malice!"

Fang Yue said that the situation was calm and calm, and he didn't mean to start with Zhang Taicang.

Because Fang Yue knew that he would definitely not be Zhang Taicang's opponent, even if it was just a clone, Fang Yue couldn't match Zhang Taicang!

"Since you have left this clone, you have something to tell me, let's talk, just ask if you have anything. I will try to tell you what I know, there are countless secrets hidden in this galaxy. , Many even I don't have the right to understand and touch!"

Zhang Taicang had a patient conversation with Fang Yue.

Because this is a match for opponents.

Even Zhang Taicang's heart still has a feeling of sympathy.

"Actually, I left this clone to ask you two things. The first thing is that Ye Wushuang should be under house arrest by you! And he didn't participate in the whole process of dealing with me!"

Fang Yue already had his own speculation. This time he asked Zhang Taicang only to verify his guess.

Zhang Taicang nodded slightly: "It's true, but you didn't plant a spy at the top of the Galaxy Alliance, but why can you tell the truth of this matter so surely?"

Chapter 1418: Hu San

"Because Ye Wushuang knows me better than you. I have countless clones. Ye Wushuang knows this. Therefore, your assassination is extremely stupid to me."

Fang Yue's voice fell.

Zhang Taicang clenched his fist slightly, that's why, no wonder Ye Wushuang didn't toss during this period of time under house arrest, he was surprisingly quiet.

Originally thought he was giving up Fang Yue, but he didn't expect him to be Fang Yue with full confidence and confidence!

"Then how do you know that he is under house arrest?" Zhang Taicang asked more questions than Fang Yue.

"Because Ye Wushuang didn't contact me before this gambling fight, I have already felt your murderous intentions in this gambling fight. If Alice is defeated, I should also be defeated! We cannot go too far, otherwise, if we fall, there will be great waves in the Galaxy Alliance!"

Fang Yue's words were more calm.

Zhang Taicang felt that a thin layer of sweat appeared on his back.

This was not because of his hotness, but because of Fang Yue's wisdom.

Fang Yue can actually see so many things with such a little detail!

"Actually, you guys shouldn't let Alice down before I moved me. It's a bit of a startling scent! But the layout in this Helen star is almost complete, so even if you don't do anything to Alice, I am ready to lose this game too!"

Fang Yue's voice made Zhang Taicang feel frightened.

They are calculating Fang Yue, and Fang Yue is calculating them!

"Your layout?"

Zhang Taicang frowned slightly, with Fang Yue's wisdom, his layout is definitely not a trivial matter.

"Yeah! It's just adding fuel to the flames. In fact, it's my layout that I have put some gold on myself. The real layout is not me, but the masters of the past generations on Helen. I just turned on the institutions they set in advance. Up!"

Fang Yue's smile was faint, not proud.

"Masters of Helen Star?"

Zhang Taicang's brows tightened.

"I don't know who they are. Maybe they are from the Galaxy Covenant, or from other galaxies! The secret hidden in Helen is beyond your imagination."

Fang Yue communicated with Zhang Taicang as if he were a good friend.

The two knew everything.

"Then your second question?"

Zhang Taicang didn't want to be too far off with Fang Yue, his avatar had to wander among the Helen Star to see what kind of changes had taken place in the Helen Star.

Know it a day earlier, and prepare it a day earlier!

Fang Yue was silent for a moment, and then said: "The second question is what is the real purpose of this war between the Galaxy Alliance and the Alpha Galaxy?"

This is a question that Fang Yue has held in his mind for a long time.

In the eyes of the senior leaders of the Galaxy Alliance, there are only interests and no hatred.

As long as there are enough common interests, even if the two sides are dead and alive enemies, they may be able to talk to each other.

Zhang Taicang looked at Fang Yue with a complicated look in his eyes.

"I said I don't know if you would believe it?"

"Yes!" Fang Yue gave an affirmative answer.

"Well, in your eyes, the elders in the Galaxy Alliance are all high above, but they are actually just pawns placed on the surface! The real powers in the Galaxy Alliance are actually those companies. We have never seen the old immortals at the imaginary fairy or even the real fairyland level. All major decisions are made by them. We are very beautiful to outsiders. A single word can determine the life and death of countless people, but in fact , We are just puppets! Even the so-called high-level veterans of the Galaxy Star Alliance and the powerhouses of the Great Sacred Realm are in their hands! Every high-level person in the Galaxy Star Alliance wants to make a breakthrough as soon as possible. The level of the Great Sacred Realm has reached the point where it can be on an equal footing with those old immortal guys! However, it is so difficult to take that most critical step!"

Finally, Zhang Taicang sighed and stopped discussing this issue.

"In fact, we have already prepared for the change of Helen Star. Otherwise, we would not bury so many eyeliners and chess pieces in Helen Star! But people are not as good as heaven. Who would have expected this Helen Star? The upheaval ultimately fell on you, and you and the Galaxy Covenant fell out, causing the Galaxy Covenant to lose the opportunity to resist this upheaval."

Zhang Taicang's figure was faint and finally left.

He needs time to understand all the changes that have taken place on Helen Star.

Fang Yue watched Zhang Taicang's departure. After Zhang Taicang's figure really disappeared, he slowly said: "The game I laid out carefully, if you can crack it so easily, then I have been here for so long. Isn't the effort in Helen Star going to waste? Zhang Taicang, Zhang Taicang, you are now facing me squarely as your opponent, isn't it a bit too late?"

Fang Yue's voice drifted away in the wind, and was eventually put into nothingness.

Zhang Taicang didn't know that Fang Yue had put him on the list of kills!

It took about half a time.

A thief-eyed, gray-clothed and felt-hat guy walked over on a catwalk.

The wretched aura on his body could almost be smelled after eight hundred miles.

Fang Yue glanced at him, "Are all the people like you in the Vientiane Pavilion now sending messages?"

The thief-eyed guy smirked, and he took off the round cap on his head.

"Fang Ye, this is what the above asked me to bring to you. It is worth a hundred thousand herbal liquid. Cheng Hui!"

The thief-eyed guy smiled at Fang Yue, he looked extremely harmless.

But Fang Yue understood that the more such a guy, the more powerful.

Since Wanxiang Pavilion gave him such an important thing, it means that he must have the strength to bring this thing to Fang Yue smoothly.

"Old rules, pay with one hand, deliver with one hand!"

Fang Yue took out an exquisite lower porcelain bottle the size of a thumb belly. There was a lot of heaven and earth inside, and it was filled with 100,000 drops of Baicao liquid, all of Fang Yue's exclusive secret.

Nowadays, the Baicao Liquid brewed by Fang Yue is becoming more and more popular, and even things have become the hard currency for trading between Fang Yue and Wanxiang Pavilion.

The thief and mouse-eyed guy squinted, and a ray of spiritual thought penetrated into it.

"One hundred thousand drops, yes, they are all good stuff, and Master Fang is really magnificent!"

The thief-eyed guy smiled, somewhat humble and humble.

Fang Yue saw a trace of pride in the opponent's eyes.

People live two skins, one for oneself and the other for outsiders.

"What about things?"

"Here!" The thief and mouse-eyed guy carefully took out an oil-paper bag from his arms. The oil-paper bag was square, as if it were brick-sized.

"Ancient Energy Stone, the energy reserve in it is roughly equivalent to tens of billions of star crystals. The energy density is extremely high. Fang Yue keeps it carefully. If this thing explodes, I am afraid that even the strong of the Saint Realm will not live in the center of the explosion. Come down! This time, Wanxiang Pavilion sold you at the price of 100,000 drops of Baicao Liquid, but it was a big loss!"

The thief-eyed guy spit and talked endlessly.

Fang Yue only glanced at it for a moment, and the thing was right, it was in the storage space of another dimension.

That's right, he has his own use.

"What do you call it? I am younger than yours and have a lower realm. Just call me Fang Yue. There is no need to be so humble!"

Fang Yue and the thief-eyed guy said calmly.

This guy has an extraordinary background, Fang Yue guessed that he might have a Saint-level cultivation base, but on the surface, this guy's aura has converged so much that he can't see how deep the water is!

"Hey, happy! The Vientiane Pavilion calls me Hu San. I am a handyman, errands, and I'm responsible for traveling through the world and giving me something!"

Hu San was still humble and did not reveal his true identity.

Fang Yue didn't mind, the most taboo thing about this exchange is to talk shallowly and deeply.

"Brother Hu San, you are not allowed to come here, and you are still taking great risks on the way. There are 10,000 drops of herbal liquid here, which is a hard expense for my brother!"

Fang Yue handed out a delicate small porcelain bottle again.

There are 10,000 drops of herbal liquid inside.

Fang Yue had a large number of Baicao Liquid in his hands. As long as he had time, he could refine and refine the herbs of Baicao Liquid without any restrictions. Fang Yue collected a lot of herbs in his hands.

So this piece of Baicao Liquid is nothing to Fang Yue.

"Brother, this is too polite!"

Hu San's mouth declined, but his hand movements were not slow, so he put the things away!

Looking at Hu San's hand speed, he definitely has the potential of someone in my generation.

"These herbal liquids are so precious that they can not only be used to heal injuries, but they can also extend the last breath for those old guys who are about to die and have stepped into the dying age, brother, the herbal liquid that you refined and age. The dust pill is simply a perfect match! Their appearance has made many old guys who have died of their lives ecstatic!"

Hu Sanxiang Fang Yue said intentionally or unintentionally.

Fang Yue nodded slightly, and heard something in it.

"From now on, brother, I will deliver your express mail! Although I have no other skills, Hu San, there is no problem in delivering things safely on time!"

Hu Sanbao Dalan and Fang Yue had a few more conversations before leaving.

Fang Yue's brain rang after Hu San left.

The other side of the light brain is Ye Wushuang.

"Fang Yue, are you really ready to leave the Galaxy Star Alliance?"

On the other end of the light brain, Ye Wushuang said emotionally.

"There is nothing to miss, and my gambling fight has already been lost. Among the elders of the Galaxy Alliance, most of my utilization value should have been dissipated! However, I really didn't expect it. I can't do it. When they went to fight, they actually looked at my Baicao Ye and Suichen Dan again. If it weren't for the reminder from Wanxiang Pavilion, I hadn't thought of this crucial link. I was still wondering just now! I am such a **** that has lost its use value. How could it be worth a personal shot

by a big man like Zhang Taicang? It turns out that he valued the pill in my hand because he was ready to take it by hand!

Fang Yue said that he was free and easy, and there was even a hint of self-deprecating taste.

The guilt in Ye Wushuang's heart is even more obvious. He introduced Fang Yue into the Galaxy Star Alliance. He originally thought that the Galaxy Star Alliance could give him enough shelter, give him resources, and help him grow. Fang Yue had a counterproductive effect!

"Fang Yue..."

Ye Wushuang called out.

Chapter 1419: Goodbye Li Mingwei

Fang Yue waved his hand and said, "You don't need to be so numb! All this is my own choice. Originally, I am not the kind of person who likes big organizations, big forces, and admiring people. I am used to being free and loose. This is the rules of the Galaxy Alliance. Too many, too strong bureaucracy, so it's better to leave! However, even if I oppose the Galactic Alliance, you and I are still friends in private!"

Fang Yue's performance was extremely magnanimous, but this magnanimity made Ye Wushuang a little more uncomfortable!

"As a friend, let me remind you that you should try to participate as little as possible in the confrontation between the two galaxies, including your subordinate Alice! The water in it is very deep, and it may be as deep as you can't imagine. !"

Fang Yue solemnly issued a warning to Ye Wushuang.

Ye Wushuang was slightly taken aback.

"What have you already guessed?"

"A little bit, but the truthfulness still needs to be verified in the next step! If my guess is correct, even the Great Sage is likely to play the role of cannon fodder in it, this will be an unprecedented change! All those who are implicated in it will not end well!"

Fang Yue's voice fell.

Ye Wushuang sighed sadly.

"The scenery is only temporary. Only by breaking through the shackles of the existing realm can you become a chess player from a piece of chess!"

Ye Wushuang closed the conversation between the two.

He has already said what he wants to hear from the other side, and he has heard what he wants to hear. The next thing is not something Fang Yue can intervene!

Helen, the northern continent, in Rocky City.

Li Mingwei's mood is rather heavy!

Recently, in the Nine Nether Plane, their Nine Nether Empire's situation is quite good, but the power of the Li Family is constantly tightening under the aggressive pressure of the Wang Family.

They encountered great resistance in the process of conquering the alien planes. Seventy percent of the Li family's power fell into it. The Li family and horses who remained on the Jiuyou plane were simply not enough to fight against the powerful and powerful Wang family.

Even his disciple of the Li family, who has not yet fully grown up, was dispatched to explore this spatial channel that suddenly appeared.

It would be great if Fang Yue was still by his side.

Li Mingwei missed the days when Fang Yue was there.

Although it was a bit ridiculous during that time, Fang Yue was able to take him to sweep the Quartet, and no one was Fang Yue's opponent, no matter if it was a plot or force.

"Li Mingwei, long time no see!"

A familiar and unfamiliar voice suddenly rang in Li Mingwei's ears.

Li Mingwei was taken aback.

"Fang Yue, I will not have hallucinations!"

Li Ming rubbed his eyes slightly, his eyes filled with incredible expressions.

"Of course it is me!"

Fang Yue's smile was full, and Fang Yue didn't expect that the general sent by the Nine Nether Empire would actually be Li Mingwei.

In this case, the pre-prepared plan might be slightly changed!

"Fang Yue, it's really great to be able to see you again, last time you left Jiuyou plane silently, I don't know how worried I am about you!"

Li Mingwei still looks like that little cream boy, and becoming a leader of the party has not affected his youthful mentality in the slightest!

"But this time, I'm afraid I'm in the doomsday! I came with 500,000 soldiers from the Jiuyou Empire. I'm afraid I won't be able to survive this exploration at all. I have already understood this initially, and it is not in the Alpha Galaxy. Coverage! And the creatures in it are all powerful, their average cultivation base is higher than that of the Alpha Galaxy, at least three to five smaller realms!"

Li Mingwei already has the charm of a general and an overall thinking.

Fang Yue nodded slightly, what Li Mingwei said was indeed correct!

If he didn't come, the little soldiers and horses in Li Mingwei's hands would not be enough for the natives of Helen Star to kill.

But Fang Yue is here, he already has his own arrangement in this Helen Star, how could he let Li Mingwei lose so easily?

Used well, this Li Mingwei will be a nail he placed in the Alpha Galaxy military.

Fang Yue smiled slightly, and then said: "Don't worry, you can't lose with me!"

Seeing Fang Yue's smile, inexplicably, Li Mingwei gave birth to a sense of peace of mind, just like a crying baby, suddenly saw his mother and became peaceful!

"How many people have been sent by the Bright Empire this time? And besides you, this Nine Nether Empire should have sent other people!"

Fang Yue's question was extremely determined.

Li Mingwei's face showed a look of shock.

"Fang Yue, how do you know these things?"

If it hadn't been for being a general of the Jiuyou Empire, he didn't know that the Jiuyou Empire had also sent three more powerful teams to secretly penetrate into this Rocky City.

These arrangements and deployment seem to belong to a big figure.

It is top secret.

According to reason, these things should not be easily revealed!

Fang Yue smiled and said, "There are still many things you don't know. I naturally have a way to get my information!"

In fact, these things were also guessed by Fang Yue, and he used the substitution method to place himself in the high-level position of the Alpha Galaxy.

Many things, if viewed from this angle, everything is easy to understand and understand!

The high level of Alpha Star Territory should not have obviously intervened in the Nine Serenities.

Therefore, they were only remotely commanding it in the dark, and the Jiuyou Empire didn't know the depth of the Helen Star, but the high level of the Alpha Star Territory must know it.

The mere 500,000 army of Li Mingwei was not enough to even kill the natives of Helen Star.

Alpha Star Territory's senior management will inevitably choose a multi-pronged approach.

The soldiers and horses of the Guangming Empire and Jiuyou Empire shot at the same time.

Even each empire sent more than one man.

These eggs must not be placed in the same basket at the same time, but that is the case, it is estimated that the senior officials of the Afar star field do not think that these people can explore any truly valuable information.

Their value is to test it with the possibility of one in ten thousand!

"The Nine Nether Empire actually just regarded me as a cannon fodder to attract firepower. The real main force of this exploration is the other three elites. These three elites are hidden in the dark and penetrate the planet. And the Bright Empire seems to be too. Made a similar arrangement!"

There was a trace of sadness in Li Mingwei's eyes.

He had never thought that Jiuyou Empire would treat their Li Family like this, and treat him like this.

Back then, he was a very close disciple of the imperial family of the Jiuyou Empire, and promised to give him high-ranking officials.

Fang Yue nodded, exactly as he had guessed.

"It's okay, with me here, you can't be a cannon fodder! Turn around and give me the intelligence of the other three armies of the Guangming Empire and the Jiuyou Empire!"

There was a cold look in Fang Yue's eyes.

It would be a great contribution to resist the army invasion of Alpha Star Territory, and how much prestige it could give him.

Now people know that a stable two-way channel leading to the Alpha Star Territory has been opened in this Helen star.

The panic has spread throughout the Galaxy Star Alliance like a plague.

This means that the two galaxies start to meet each other. If the forces of the Galaxy Covenant are lost, the entire Alpha Star Territory's army may come out from this channel to burn, kill, and plunder their Galaxy Covenants.

The opening of this channel represents the approach of death.

However, even the high-level leaders of the Galaxy Star Alliance, who hated him so deeply, did not put the charges of opening this channel on Fang Yue's head.

Because according to common sense, Fang Yue simply did not have the ability to establish such a channel. Even the strong of the Great Sacred Realm do not possess this method.

Fang Yue was not dead, even though he had already lost in the gambling battle, he still gained a high reputation.

The Galactic Alliance has not announced that he will be expelled from the Galactic Alliance!

Therefore, Fang Yue is still a member of the Galaxy Star Alliance.

Still has the identity of the noble platinum seed!

Even he can enter the road to the sky and the martial arts arena, but the points he gets can no longer be exchanged for anything from the treasure house of the Galaxy Star Alliance!

These are actually a way for the Galaxy Star Alliance to protect oneself wisely.

If Fang Yue is expelled from the Galaxy Alliance for no reason, he will definitely be criticized by the entire Milky Way galaxy. Some hostile forces will spread rumors and come to the Galaxy Alliance, which is terrifying.

Over the years, the senior management of the Galaxy Star Alliance has already learned something.

However, retaining Fang Yue's status as a platinum-level seed does not give him substantial benefits, and this will not damage the interests of the Galaxy Alliance.

If Fang Yue insisted on leaving the Galaxy Star Alliance, then they wouldn't stop him, but Fang Yue and the Galaxy Star Alliance expelled him from the two things!

And Fang Yue is also prepared to do everything, don't you want to disgust me deliberately if you don't drive me away?

Well, I will make a great contribution to killing a large number of invaders in the Alpha Star Territory in this Helen Star.

The concept of killing these invaders and going to the Alpha Star Territory to kill is completely different.

One is that the robber is still on the horizon and killed. At most, the people who eat melons clapped and applauded, but there was no real gratitude and gratitude.

But if the robbers ran to the door of the house, they were driven away.

That is to solve the urgent need, those people must be grateful!

Fang Yue has his own calculations.

These troops sent by the Nine Nether Empire and the Bright Empire will eventually become cannon fodder.

But how they die requires careful study, consideration, and consideration.

But in the first step, Fang Yue is ready!

"Li Mingwei, you take this place first! This place is a more important place in Helen Star. As long as you take it down and kill all the people in it, you can seize some important information of the Galaxy Star Alliance!"

Fang Yue took out a map directly, and there was a small red dot on the map.

This little red dot is in Rocky City, and there are less than three thousand guards in it.

Chapter 1420: Capture Research Institute

But this place is extremely important, a research base for the Judge of Silver Armor.

Among them are maps of Helen and all nearby areas, as well as some research results of Helen's monuments.

Its value is immeasurable, and it may be useless for the Jiuyou Empire, but if the Jiuyou Empire transfers it to the high level of Alpha Star Territory, then Li Mingwei will have made a great contribution!

"no problem!"

Fang Yue, Li Mingwei is 100% trusted.

From a certain perspective, Fang Yue is Li Mingwei's enlightenment teacher in war. Anyway, according to normal circumstances, when they entered Hailun Xing, they were already sentenced to death!

So it's better to use a dead horse as a living horse doctor.

In the end, whether it is a blessing or a curse, it depends on God's choice!

Soon, night fell.

Li Mingwei swept through Rocky City with his 10,000 men.

Any sporadic resistance, under the violent crush, has become a dead soul under the sword.

Finally, Li Mingwei's voice freezes at the door of the Tiandu Research Institute.

The research institute is said to be a research institute, but its area is huge. It is built with high-rise buildings of scientific and technological civilization. The cold cement structure is incompatible with the overall civilization style of Helen.

The entrance of Tiandu Research Institute.

Teams of soldiers are still patrolling, with a meticulous and stereotyped expression on their faces.

Everyone is a soldier, and is a cultivation base at the rotation level, and can be described as an elite in the army.

"Kill me!"

Li Ming waved his hand slightly, and he gave an order, arrows raining.

With mental arithmetic and unintentional.

The fate of these soldiers on patrol had already been decided at the moment Li Mingwei decided to take action.

However, before they were dying, they sent out a distress signal, which was considered to have completed their early warning mission!

Zi Zi Zi!

Red rays of light fell from the sky, almost piercing the tower shield in the hands of the tower shield soldiers standing in the front row under Li Mingwei.

Those red light beams are the products of technological civilization, and can easily kill invaders at the rotation level, and even if they are not guarded, even the strong of Yin and Yang will be injured.

This is the outermost protection system of the institute, it is extremely tight, but it is not powerful enough!

"This Li Mingwei has indeed grown!"

When he saw Li Mingwei mobilizing his soldiers in an orderly manner, Fang Yue felt that Li Mingwei was different!

Sure enough, the tiger father had no dogs. This Li Mingwei came from a family. Although he was not deeply involved in the world, he was very good at marching and fighting.

The tower shields in the hands of these tower shield soldiers are not high grade, but they are extremely sturdy. They are obviously magic weapons at the heaven and earth level, but they can withstand attacks at the rotation level.

Of course, the slow movement of tower shield soldiers is a fatal malaise.

In the process of guerrilla warfare and mobile warfare, tower shield soldiers easily suffer losses.

"Continue archery!"

After blocking a round of attacks, Li Mingwei did not let his men rush in.

He continued to shoot and test.

Sure enough, all the arrows were annihilated and dissipated in the void.

Annihilation device, this is the second round of defense of the Institute.

Fang Yue was watching from the side, his heart palpitated slightly.

This silver armor judge can have such a position in the Galaxy Star Alliance, it really can't be supported by the bravery and pride of the brain.

Looking at this research institute, he can see the other side of the silver armor judge.

Rigorous, powerful, and watertight.

This defense is one link after another.

If it weren't for the arrow temptation, the soldiers rushed into this research institute, I am afraid it was their bodies that were annihilated.

"Who dares to offend my Tiandu Research Institute? Do you know that this is the place of my silver armor judge!"

At this time, someone from the Tiandu Institute finally came out!

This is a middle-aged man with a majestic face and gray hair, but he feels like a lion.

"Jiuyou Empire, Li Mingwei!"

Li Ming spoke slightly and reported his home.

After Fang Yue's notification, Li Mingwei knew that his battle would be recorded by the satellites of the Galaxy Alliance.

Therefore, he must play the majesty of Alpha Star Territory.

In this case, when this video is submitted to the senior leaders of Alpha Star Domain, he will have the opportunity to show his face and receive higher-level rewards!

"It turned out to be the Takeshi from the Barbarian Land!"

The middle-aged man didn't see the Jiuyou Empire in his eyes. Although he was well informed, he had known before that the plane channel between the Alpha Galaxy and the Milky Way galaxy was opened, and people from the Jiuyou Empire entered this Loki. In the city, but for the research institute's defense, he has enough confidence!

Even the saint's relatives could not open the defense of the institute.

"Zizzi!"

Suddenly, the middle-aged man changed his color, and he heard a sizzling voice, and then the lights in every room of the research institute behind him became dimmed.

"What's going on? How did the institute's energy source be cut off!"

"Signal, we can't send a signal to the outside world!"

Exclamation came from all directions.

In a dark corner, Fang Yue moved a jammer with a complicated circuit in his hand.

The energy block that Fang Yue bought from the Wanxiang Pavilion was to provide energy for it.

This thing was obtained by Fang Yue from Helen Star and was contributed by a subordinate. It is said that it is a product of ancient ruins.

In Helen, no one knew this thing and no one could use it.

But after researching, Fang Yue discovered that this thing is specially used to shield signals, its power is huge, and it can emit radio waves that can affect the normal transmission of energy.

This thing was named an energy signal jammer by Fang Yue.

Its only disadvantage is that the energy it needs is a very old energy block with a great energy density, and all the rest are advantages, almost the nemesis of technological civilization.

With the energy cut of the Tiandu Research Institute, all the scientific and technological defense methods are ineffective.

At this moment, all Li Mingwei's soldiers were incarnations of poor wolves and hungry tigers.

"No, no, you can't do this!"

The gray-haired middle-aged man's complexion changed drastically, without the indifferent and calm look just now.

Without the technological defense system, their research institute is the little rabbit exposed in front of the tiger!

All life and death are controlled by others!

"kill!"

Li Mingwei ordered his men to break into the research institute.

In an instant, the blood burst into the sky!

During the battle, more than 370 people under Li Mingwei died in battle, more than 2,000 were injured, and all 3,700 people in the institute were killed, and none survived!

Li Mingwei seized a detailed map of Helen and its surroundings within 30 light years, and also obtained 520 scientific research results of the Tiandu Institute.

Fang Yue took away all these scientific research results, it was useless to leave it to Li Mingwei anyway.

Of course, Fang Yue copied all the materials to Li Mingwei before taking it away.

Ask Li Mingwei to turn over the map and twenty research results to the senior leaders of the Alpha Galaxy.

The next day, the news spread in the two galaxies.

The Alpha Star Field is publicizing the results of this battle.

Originally, they really didn't have any hope for Li Mingwei, but the final result gave them recognition for Li Mingwei!

This is a big victory, followed by casualties. The key lies in the research results of this map and those twenty technologies.

They are of immense value and can lay a solid foundation for the Alpha Galaxy to occupy Helen in the future.

Time, location, and harmony, the three should be indispensable!

Li Mingwei received the award from the Alpha Galaxy and promoted Li Mingwei to the Bronze level seed of Yin and Yang in the Alpha Star Alliance! And dispatch five thousand Alpha Star League elites as Li Mingwei's guard.

The Jiuyou Empire values Li Mingwei very much. There is no way. The situation is better than others. Even the Alpha Star Alliance praises Li Mingwei. Even if they are not optimistic about Li Mingwei, they can only bleed and feed Li Mingwei.

The Jiuyou Empire rewarded Li Mingwei with thirty-six cities as his territories, and the Li family was again favored by the Jiuyou Empire.

Since then, the Li family has risen again. Although it is still unable to compete with the Wang family in power, at least the Wang family has no guts to do anything against the Li family.

It can be said that Li Mingwei became famous in the first battle after this sneak attack.

No matter it is in the Alpha galaxy or in the Galaxy Covenant, he is considered the number one person.

At the same time, there is also the Silver Armor Judge's Institute. They handed over so many years of research materials, and allowed the Alpha Galaxy to get a map of Helen Star and have the confidence to successfully land. This is already a serious mistake. .

This research institute is gone, but the silver armor judges behind them still exist!

These silver-clad judges all have green faces like eating flies and shit. All their forces have been concentrated in the training camps of those silver-clad judges, and even they have set up a net of heaven and earth, waiting for the Alpha galaxy army Coming, but I didn't expect that they would not pay attention to you at all, but turned around and captured one of their research institutes.

The research institute, in fact, is not very high in the eyes of the silver armor judges, but its status was suddenly highlighted during the war.

Those silver armor judges all beat their chests and feet, why didn't they think of this weak link earlier.

The Silver Armor Judges had been infamous because of Fang Yue's affair. Whether there was a Destroyer and Destroyer Demons lurking among them has not been investigated.

The news of the scandal and defeat this time made the Silver Judge once again nailed to the pillar of shame in history.

Even due to public opinion, the senior leaders of the Galaxy Alliance had to decide to punish the Silver Judges for cutting some of the resource supply.

As the initiator, Fang Yue just dropped his chess piece first!

"What he Li Mingwei can do, Wang Ruoan can do the same!"

In a certain city of Helen Star, dressed in silver armor, the young and energetic Wang Ruoan broke the cup in his hand.

There was a look of inferiority on his face!

Wang Ruoan, a disciple of a certain branch of the Wang family, was entrusted with an important task to carry out this task because he possessed extraordinary talents in the military field and had a decent pedigree talent.

The Wang family dispatched quite a lot of troops this time, a total of one million people, all of them were teleported to the Hailun star the moment the space tunnel opened.
