

God of Life 1421

Chapter 1421: Phantom

"Welcome to the underground prison of the First King City!"

Fang Yue's voice made Wang Ruoan like Lei Cheng.

"Earth, underground prison? Isn't this the first palace?"

The first moment Wang Ruoan saw Fang Yue, he knew his identity.

Wang Ruoan has a portrait of Fang Yue in his hand and has seen it more than once.

"Yes, this is indeed the first palace, but it is not part of the other courtyard, but the underground prison. I originally complained when accepting this first palace, why is this first palace built so big? A prison in China, now I suddenly understand that this is specially prepared for war!"

Fang Yue said to himself, which made Wang Ruoan quite embarrassed.

What made him even more embarrassed was that there was a seal formation in this prison, so that his entire cultivation base was sealed, and he couldn't use it!

Behind him is an army of fifty thousand that followed him.

The cultivation base was also sealed, like a mortal.

"Our teleportation array has been modified by you to teleport direction! There is a traitor in our army!"

Wang Ruoan quickly figured out the reason.

Fang Yue clapped his hands.

"No loss is a war genius carefully cultivated by the Wang family. It is indeed quite flexible in thinking, quite agile, but unfortunately, there is no reward for your agility and flexibility! But I can tell you your news is Li Mingwei told me of!"

Fang Yue's smile gradually appeared.

Wang Ruoan couldn't help but his face was pale.

"Li Mingwei, he actually collaborated with the enemy!"

"No, no, no! Not a collaborator, I was a supporter of the Li family! Don't you think my name is a bit familiar?"

Fang Yue's smile became brighter.

It is indeed a very pleasant thing to plant spies in the enemy's army, and it is possible to solve the army of a million without blood.

Gee tee.

This really makes the Alpha Galaxy slap in the face!

Wang Ruohan's face was as gray as death, and he finally understood the reason for everything.

"Fang Yue, Fang Yue, are you the Fang Yue who often slaughters cities to the Bright Empire?"

"If there is no second person on the Jiuyou plane to go to the Guangming Empire massacre without any problems, the person you are talking about should be me!"

There was a hint of shyness in Fang Yue's smile.

But Wang Ruohan confirmed the guess in his heart, and the expression on his face became more and more desperate.

Why did I get into this evil star?

If he had known that Fang Yue was Fang Yue in the Nine Nether Plane, Wang Ruohan would not dare to do anything with Fang Yue even if he had ten courage!

Regarding the information on Helen Star, Wang Ruohan was actually quite poor, and most of them were inquired from the natives who captured the Helen Star.

"Well, I have talked to you enough, you don't need to understand the following things!"

Fang Yue's smile narrowed, and a faint murderous intent radiated from him.

Wang Ruohan begged for mercy: "Fang Yue, you can't kill me, the Wang family will definitely be willing to redeem me with a big price!"

Wang Ruohan's voice was full of panic, and even the most powerful general would succumb to life and death.

Fang Yue said lightly: "I'm sorry, I won't take prisoners this time! What I want is the reputation in the Galaxy Star Alliance and the rewards that the Galaxy Star Alliance gives me!"

Fang Yue's mouth curled up with a strange smile!

An hour later, another news spread throughout the Milky Way galaxy.

Fang Yue avenged the Silver Armor Judge and slaughtered one million invaders from the Alpha galaxy!

Although the corpses of the creatures in the Alpha galaxy were not turned in, Fang Yue had already broadcast relevant video materials throughout the galaxy.

Fang Yue's fame was shaken.

Some even regarded him as the patron saint of the entire galaxy.

In the battlefield where the gambling fight and the two major galaxies are fighting, the current Galaxy Star Alliance is at a disadvantage, especially after Fang Yue took the initiative to withdraw from the gambling fight.

There is no such dazzling presence as Fang Yue in the 0-500 year-old group.

The reputation of the Galaxy Star Alliance was greatly damaged, and at this time, Fang Yue's sudden emergence made the Galaxy Star Alliance his foil.

At the same time, the senior officials of the Galaxy Star Alliance gritted their teeth and announced that Fang Yue would be rewarded accordingly.

They awarded Fang Yue the entire Helen Star as his territory, and they also gave Fang Yue five artifacts of the highest level of the leader realm as a reward!

This time, the Galaxy Star Alliance has lost its blood.

But after a defeat, Fang Yue used his own greater victory to wash away the shame of the Milky Way galaxy. This reward is what Fang Yue should bear!

In fact, the real content of this reward is only the five top-level magical artifacts in the Galactic Star Alliance. As for the planet Helen, since opening the space channel, it has become a place of right and wrong, a hot potato. .

If Fang Yue couldn't keep the passage of that plane, he would be the sinner of the entire Galaxy Alliance, and the planet Helen had not been completely conquered by the Galaxy Alliance, it was just a nominal colonization.

Fang Yue made some comments on this reward.

But it was quickly suppressed by the strength of the Galaxy Star Alliance!

Fang Yue finally became the true master of Helen Star at the official level!

"Hahaha, this time the Galaxy Alliance is going to suffer a big loss! They don't even know the true value of this Helen Star. It's easy to give Helen Star to me last time, but if you want to go back again, it's all right. No more!"

In the First Palace, Fang Yue's smile was very cheerful.

At the same time, the millions of Alpha galaxies' army all became the rations of the Fangyue Zerg army.

This army of bugs can be said to be a bottomless pit, and the resources needed to train them are almost endless!

But the improvement of their strength is also immediate.

With the disappearance of these million troops, another 5,000 Zerg tribes under the Insect Sovereign have broken through to the Yin-Yang level!

"My lord, someone at the gate of the First Royal Palace wanted to see the lord, saying that the lord and him are old friends!"

A gatekeeper suddenly walked in and sent a message.

Fang Yue gave birth to a hint of curiosity.

So pay?

Does he have any old friends in this Helen star?

"Let him come in and have a look!"

Fang Yue passed on the order and let that person enter the first palace.

Soon, a man in black appeared in Fang Yue's first palace. Under the black robe, the gloomy ghost air made Fang Yue a little familiar.

"Yuzuki?"

Fang Yue didn't expect to see Xiyue Guichai here.

Oh, no, now Xiyue has reached the level of the leader realm. According to the rules of the underworld, he is at least a ghost general!

"Come uninvited, and I hope Brother Fang Yue won't be offended!"

After Xiyue saw Fang Yue, she was quite excited.

Back then, both of them were quite weak when they first met.

Fang Yue only had the level of the Innate Realm. He wondered how to fight the Heavenly Tribulation every day, but he didn't expect to see each other a few years later. Their respective identities and status have been greatly improved, and are far beyond their previous status and status!

"Where is Brother Yuzuki!"

Fang Yue's smile was quite polite when he faced Xiyue Guichao. He had some memories and thoughts, as if he had returned to the world of Xuanhuang.

"I don't know why Brother Xiyue came to me this time!"

Fang Yue withdrew his thoughts.

Now that Xiyue Guichai is a member of the Wanxiang Pavilion, and his status is extremely high, he may not come here as simple as reminiscing!

"Speaking of a bit embarrassed, I came this time to hope Brother Fang Yue would do me a favor and give me ten drops of Rank 6 soul fluid. One of my clan uncles is at the level of the Great Sacred Realm and belongs to my Xi family. The pillar of the pillar, he suffered a serious injury in a fight some time ago. Now his spirit power is weak. Without the support of a considerable quality spirit fluid, I am afraid it would be difficult to survive a hundred years! If Brother Fang Yue could help me I am grateful for providing these ten drops of Sixth Transformation Soul Liquid, and even the entire Xi family owes you a great favor!"

Xiyue said two steps forward, and even held Fang Yue's hand excitedly.

Fang Yue pushed away suddenly.

"Who are you? How dare you pretend to be Xiyue?"

Fang Yue's hand was cut with a long knife.

A superb golden light burst out of Xiyue's figure, blocking Fang Yue's long knife to Shengsheng.

"As expected of Fang Yue, this reaction is quick, and he can see through my illusion and disguise!"

Xiyue's figure disappeared and replaced by a rickety old man with bright yellow teeth and a gray mantle.

If you see him on the street, Fang Yue will definitely think that this is an ordinary old farmer, but when you meet on this occasion, the identity of this person is also self-evident.

"People from the Galaxy Alliance?"

Fang Yue asked tentatively.

"Yes, Master Gong Yunsheng sent me to test you! If you can really see through my identity, it proves that you have the value of cooperation, and if you are deceived by me, then you are dead. No wonder someone else!"

Regarding his identity, the old man did not hide the slightest amount of disguise, and even Fang Yue's look of contempt was still in his eyes.

Fang Yue smiled and said: "It turns out that it is Gong Yunsheng's illusion demon, who is proficient in mind demon and illusion, but I heard that your strength is not very good. Although you are good at disguise and illusion, your combat power is also at the level of Saint Realm. It's the level of the middle rank!"

The threat in Fang Yue's words is self-evident.

And the body of the magic demon shook slightly.

"Fang Yue, stop bluffing, I am Master Gong Yunsheng's subordinate, you dare to do something to me?"

Fang Yue sneered: "Didn't you already do it to me? How can I do it to you in self-defense? What's more, I didn't know that you were Gong Yunsheng's subordinate. I was hit by your illusion, and then I missed it. You killed, you didn't say anything to me just now!"

Fang Yue's attitude finally gave the phantom a shuddering feeling.

Fang Han quietly appeared in the corner of the hall. The moment the magic demon appeared, Fang Han had already appeared.

He could see through the identity of the phantom demon at a glance. The illusion technique of the phantom demon is useful for ordinary people, but for a powerful person like Fang Han who doesn't know how high his realm is, all the methods are just children's tricks.

The corner of Phantom's gaze reached Fang Han's body.

His heart was finally shocked.

There are strong guards around Fang Yue!

This person's breath is like a deep prison, seeming to be at the level of a saint, but in fact it gives him a sense of incomprehension, like an ant looking up at Mount Tai.

Chapter 1422: Star Alliance Master

"Fang Yue, what do you want?"

Phantom's tone softened, and finally no longer seemed as strong as before.

"Nothing, leave everything on you! Then tell Gong Yunsheng, don't think that you are a high-level veteran of the Galaxy Star Alliance and think that you can decide everyone's life and death, and that everyone must follow his arrangements. I have I broke with the Galaxy Star Alliance and offended Zhang Taicang, so I am not afraid to offend him again! This is the first offense, I don't care about it, but if there is another time, the future silver armor judge will be his fate!"

Fang Yue's tone was cold.

The phantom was very obedient and handed over all his belongings.

He understands very well that after he has cultivated to the level of the Saint Realm, his life is the most important.

If you lose something, you will lose it. Sooner or later it will be time to return.

But if he died in Fang Yue's place, it's unclear whether this Gong Yunsheng really might avenge him.

What's more, even if Gong Yunsheng could kill Fang Yue to avenge him, he wouldn't be dead and resurrected!

The magic demon leaves.

Fang Yue sighed softly.

"I didn't expect this Gong Yunsheng to investigate my affairs in such a detailed manner. Is it because he knows all about my past?"

Fang Yue shook his head slightly, thinking this was a little weird.

Fang Han walked over, looked at Fang Yue, and sat beside him.

"Fang Yue, no one in the Galaxy Star Alliance in this district has such a method to truly reach the sky with hands and eyes. If I guess, this Gong Yunsheng may have bought some Vientiane Pavilion and knows that you and Xiyue are friends. , And then let the phantom imitation become the image of Yuzuki! But this time you can let the phantom go away, it proves that your heart is mature, and you have no intentions. This phantom should be Gong Yunsheng's more important chess piece, if You really killed him, whether you know his identity or not, it is enough to make Gong Yunsheng angry and at odds with you!"

Fang Han saw Fang Yue's performance during this period of time.

As a giant of the Fang family, Fang Han has trained countless disciples of the Fang family. Fang Yue should be regarded as the better one among the many disciples of the Fang family. Of course, there are countless arrogances in the Fang family. If Fang Yue is ranked Top, he may not be qualified!

"This Gong Yunsheng should have known that I have the ability to refine soul fluid, so he would let the phantom to test me! However, it doesn't matter anymore, this phantom's trial failed, Gong Yunsheng's guess is still a guess He dared to do something to me, and I also have a way to deal with him! And mine is just a clone, even if they really destroy me, the loss will not be too great."

Fang Yue has prepared for the best and the worst!

As for his worries-the earth, there is not much problem anymore.

Fang Yue got news from Fang Yunshan yesterday.

There are some legendary characters on the earth that have already boarded one after another.

Shang Zhou, Daji, and Shen Gongbao, as soon as they appeared, they were all at the peak of the Saint Realm cultivation level, especially Da Ji, who had vaguely breathed from the Great Saint Realm.

They are all recovered from an ancient ruin, and they just came out to shock the powerhouses of other planes and planets.

Before, the earth was weak, mainly because there were not enough saints to suppress it.

Before, when dealing with the Dark Moon plane, some ancient sects on the earth already had traces of saints. This time, the earth has emerged from the ruins of three powerhouses at the peak of the saints. If the Galactic Alliance once again evaluates the strength of the earth, it will at least be a level of first-level civilization, rather than the previous influx!

It is said that there are still some relics on the earth just around the corner. Recently it is very likely that other masters will jump out.

Some people say that they have seen Zhang Sanfeng on Wudang Mountain. Others say they saw the legendary ancestor of Bodhidharma in a temple in Shaolin.

These are rumors, true or false, but if all these rumors are true, then the earth is really a civilization that can't be offended!

Fang Yue's main energy now is on the excavation of Helen Star civilization.

The civilizations of Helen Star have all developed to the point of extreme prosperity, and the many relics made him feel incredible and unbelievable.

At the same time, this also triggered some of Fang Yue's associations.

Phantom Demon returned to the Galaxy Star Alliance, and he saw Gong Yunsheng again.

Gong Yunsheng couldn't help laughing when he saw the angry and embarrassed look of Illusory Demon.

"What? Lost?"

Phantom nodded fiercely.

"This Fang Yue is simply too insidious. He actually quickly saw through my disguise, and beside him there was a powerful man who seemed to be a saint, but who actually had an aura far beyond this level to

protect him! Everything on my body was searched by Fang Yue! Gong Yunsheng, I'm working for you, and you are still laughing at me like this. What do you mean?"

The phantom was angry everywhere, seeing Gong Yunsheng's smile, he was also a little unhappy!

Gong Yunsheng couldn't help but explain, "I told you a long time ago. If you want to test Fang Yue, you must be careful and don't offend him. This guy has a very small mind. Look at the people in the silver armor judge. Now that you are deflated and embarrassed, you should know how difficult Fang Yue is!"

Gong Yunsheng's ridicule made the fantasy demon's heart even more uncomfortable.

It was indeed his own opinion this time that he found Fang Yue, wanting to test his secrets.

Gong Yunsheng did not give him the slightest instructions behind his back, and the magical demon reported the name of Gong Yunsheng at the time, but only hoped that Fang Yue's heart would be a little jealous of him, and would not really kill him!

"This Fang Yue will definitely be the number one person in the Milky Way galaxy in the future. His performance on Tongtian Avenue is already very amazing. His understanding of rune rules has reached a terrifying level. It can be said that even if it is an ordinary beginning Those who have entered the Great Sacred Realm level are more inferior than Fang Yue in understanding the rules of runes!"

Upon hearing this, the phantom frowned slightly, and the angry look on his face quickly disappeared.

I am willing to bet and lose. As a strong man in the saint state, I still have a bit of mind and measure.

At the very least, Fang Yue had released his life, but if Fang Yue was really mad, maybe he might not even come back.

"Tongtian Avenue was left by the creators of our Galaxy Star Alliance. It is more important than the Martial Arts Arena. This Fang Yue has really walked a very long distance on the Tongtian Avenue. The creator of the sensation in the dark!"

The words of Phantom Demon gradually reduced Gong Yunsheng's smile.

"I just don't know whether that person is still there. Some people say that he was already at the level of the real fairyland when he left the Galaxy Covenant. He left the Galaxy Covenant to pursue a higher level! And now the entire galaxy is facing an unprecedented level. If we can't resist the catastrophe, the entire galaxy alliance will be completely destroyed, no, not only the galaxy alliance, no one within the scope of the galaxy will be able to survive. The Centaur galaxy has already encountered that devastating It's really hard to say how long the Milky Way galaxy can support! In fact, if Fang Yue can truly become the top of the Galaxy Covenant, maybe our galaxy will be able to have a little more vitality, but this thing can also imagine that Zhang Taicang, Kang Yue and the others will definitely not agree to this proposal. The grievances between them and Fang Yue are too deep! Alas, at this time, the inner galaxy is still fighting and unable to unite. I really don't know where the future of the Milky Way is!"

"Old ancestor, you said that this time I took the initiative to open the plane channel of the Milky Way Galaxy and the Alpha Galaxy, is it right or wrong?"

Fang Yue supported his chin with one hand and said to himself.

There was a look of confusion in his eyes.

Fang Han sat beside Fang Yue, answering questions for him.

On weekdays, Fang Han spends most of his time in the First Royal Palace in meditation and cultivation. It is rare that when he takes the initiative to show up, he usually only points to Fang Yue's cultivation base instead of choosing him. Talk, talk about the future, talk about the past!

"Where are there any right and wrong things in a person's life, as long as you have a clear conscience, since someone wants to bully you, then fight back! No matter how high the price is, you can't admit it. If you admit it, you won't be able to raise your head for the rest of your life, because this matter will become a knot in your heart, making you insurmountable!"

Fang Han seemed to be talking about Fang Yue, but he felt that it was talking about himself.

Back then, if he hadn't escaped, maybe Fang's house would be different now.

Forget it, don't think about such a remote thing, the huge Fang family can't change their destiny just because I am a junior!

Fang Han laughed mockingly.

Fang Yue took out a stone tablet from his arms.

The writing on the stele was complicated, Fang Yue couldn't understand it, but the top of the stele was still surrounded by the imprint of eternal spirit.

Both Fang Yue and Fang Han can easily read the contents.

"We have no time!"

"We can't support it for long!"

"Who will save us, who will save us!"

A groan was passed through the stone tablet.

There was always a touch of emotion on Fang Yue's face.

"Those monsters are coming, who would have thought that the real calamity of the universe of the universe comes from the reincarnation change of the universe of the universe, under the footsteps of the reincarnation, who can stop the advance of destruction!"

"Hahaha! These destruction demons are only the first calamity, and then the fierce beasts in the universe will become the destroyers of civilization, aliens, chaotic beasts, zombies, who can escape under their footsteps? What about the calamity of the fourth floor? We don't know, no one knows!"

Only the sound was recorded in the stele, but the information provided Fang Yue with massive amounts of information and guesses.

Fang Han's face didn't move.

"You mean that Helen is just a condensate of the changes in the entire universe, or starting from the beginning, this Helen is a test product?"

Chapter 1423: Fang Han's guidance

Fang Han's thinking jumped quickly, and he could see through what Fang Yue wanted to express at a glance.

Fang Yue nodded slightly. I did have this kind of speculation. Although I don't know whether my speculation is true in the end, Helen star is the source of every calamity that has fallen asleep.

Moreover, digging out the record of the process of Helen Star's calamity may become our extremely precious experience in the future.

"Destroying the demons is only the first calamity. Who can survive this calamity smoothly!"

Fang Yue's voice smelled of despair.

He is not the kind of person with weak personality, but Fang Yue has too much contact with the Destroy Mozu, so he understands the terrible of this group better. They are bodies composed of pure destructive power in the universe, as long as there is a place for destruction. They can appear and become stronger!

Who knows the number of those destroying demons, and what level they can eventually evolve to!

Fang Han sighed faintly, without refuting what Fang Yue said.

Because it was the time to contact the Destruction Demon Race, I am afraid that no one in the entire galaxy can compare with Fang Han. For these years, he has always been fighting against the Destruction Demon Race!

However, he hasn't achieved more than the slightest result. At best, he has restrained the destruction of the demons and did not lose.

His deity is even trapped by the Destroyed Demons and cannot escape!

Fang Han's sigh made Fang Yue even more helpless.

"But I saw your positivity in your actions. I don't believe you are a person who is waiting to be captured!"

Fang Han looked at Fang Yue.

Fang Yue nodded and said: "Even if it is desperate, I have to struggle a bit, so what I am preparing is to fight against the calamity! My idea is to create the following calamity creatures in advance and let them fight against the destruction demons. If the plan is successful, some price may be paid in this universe of Ten Thousand Worlds, but at least it can be used to fight against the hope of destroying the demons, so as not to fall directly into the despair of destruction at the very beginning. Moreover, the creation of the Universe The Destruction Demon Race that came out also gave me experience. Their Destruction

Demon Race was forged from the body of the Destruction Demon Race and used the Spear of the Son to attack the shield of the Son. In addition, they also transformed the Alien into something more Mighty little devil!"

Fang Yue's eyes flashed with brilliant colors.

Even if he knew he would lose, Fang Yue wanted to give it a go.

"The idea of the other side universe is indeed a good idea. If Fang Yue can grasp the essence of it, you may not be able to take an unprecedented path for the Milky Way galaxy! Although there is a price, although some people may be sacrificed in the process, For the sake of the overall situation, these sacrifices and sacrifices are necessary!"

Fang Han encouraged.

"My clone is about to return to the eighth level of the Saint Realm recently. Once it returns to the level of the Great Sage Realm again, I will leave you temporarily! The quiet time of this universe is running out. I also want to do my part to make this universe able to preserve a ray of vitality under the calamity!"

There was a firm look in Fang Han's eyes.

If one day his deity really can't hold it, let those ruined demons try the taste of despair and abyss!

Nangong Qingri found herself in a dilemma.

He is the royal heir of the Jiuyou Empire.

His status is very high. Although he is not the parent and child of a contemporary emperor, his father is a strong man in the saint realm and has the blood of a saint in his body.

At just one hundred and twenty years old, he has reached the sixth level of the Yin-Yang realm. Among his peers, he is unique and can be regarded as a top powerhouse!

This time Nangong Qingri was the commander-in-chief of the Jiuyou Empire.

In Li Mingwei, he wiped out the Silver Armor Judge's research institute, allowing him to make a fortune in his merits. Although there was nothing wrong with him in the process, he was also a commander in chief anyway?

However, his reward was reduced by half the next day, and the imperial family of the Jiuyou Empire still had to question him.

Those are all Wang Anru's own opinions. He didn't ask for a word before sending troops. Now the Wang family's army of one million soldiers has been destroyed. It's his problem?

Why should he be implicated and reduce or exempt rewards?

Nangong Qingri's mood was a little upset, and the Wang family really made trouble.

In the Nine Nether Empire, there are a set of things to play, and when it comes to business, one by one will die faster than anyone.

"My lord, please see Li Mingwei outside the house!"

An **** came to report.

Nangong Qingri immediately put on a smiling face: "Hurry up!"

Soon, Li Mingwei came to Nangong Qingri, he knelt down on one knee, "Subordinate Li Mingwei, see your lord!"

Nangong Qingri saw Li Mingwei kneeling down in front of her with a refreshing taste.

This Li Mingwei is still the Li Mingwei of the year. He is the most disciplined and the most comfortable when dealing with people.

Taking credit without being arrogant, not wanting to be like the Wang Family, once the momentum is overwhelming, in front of him, there will always be that kind of nostril upturned, as if even the imperial family of the Jiuyou Empire didn't even look at it.

"Brother Mingwei, please hurry up!"

Nangong Qingri quickly stepped forward to help.

The appearance of the two is completely a model of a Mingjun and a loyal minister.

However, only Nangong Qingri and Li Mingwei know how much sleazy there is.

"I don't know if Brother Xian is here, what do you want to report to me!"

Nangong smiled on the sunny day, and the thing he looked forward to most every day was the arrival of Li Mingwei.

Every time Li Mingwei comes, he will bring himself a lot of gifts.

And this kind of treatment, he had never enjoyed it on the side of the Wang family.

Li Mingwei offered a pair of earrings made of red agate.

"This earring was discovered by the little one in the star of Helen. It is well-made. It can release the shadow of a real dragon at the moment of life and death, and resist the fatal blow of the enemy that does not exceed the level of the leader. The little one feels that he was born humble. I'm not blessed to enjoy this gift, so I dedicated this pair of agate earrings to adults!"

"How can I afford such an expensive gift?"

Nangong Qingri declined on the surface, but the movements in his hand were not slow at all. As soon as he raised his hand, the things were in Nangong Qingri's pocket!

This Li Mingwei has gained quite a lot from Helen Star, and he has become more and more generous with each shot.

Nangong Qingri's heart was delighted. According to Li Mingwei's description, this pair of agate earrings was of extremely high value, at least as high as a high-level magic weapon in the Yin-Yang realm. Sure enough, it conquered other planes and directly plundered and accumulated wealth faster. Hurry up!

Nangong Qingri's mind also became active.

The fact that Li Mingwei was able to dedicate such a precious pair of earrings to him proves that Li Mingwei still has something worth ten times and a hundred times the value of these earrings.

If you want to take Li Mingwei's things, you always share some soup, what if you do it yourself?

Plundering the planet Helen, wouldn't he be able to get rich overnight?

On the surface, Nangong Qingri is quite polite to Li Mingwei, but deep down, like the Wang family, he looks down on Li Mingwei.

What hole cards and qualifications does his declining Li family have to take away such precious resources on Helen Star, but it was because of good luck that he encountered a research institute, so he got the attention of the royal family and the high-level Alpha Star Alliance. Praise.

Give him the same opportunity, and he will definitely be able to do this and even better!

However, these things are just to think about it. This Li Mingwei has already taken the lead and obtained the map of Helen Star. This first step is equivalent to step by step!

Although his Nangong Qingri's status in the royal family is not low, he is not yet qualified to access the map of Helen Star with such a high level of authority!

Nangong Qingri's heart was a little fierce.

Then he looked at Li Mingwei again.

As soon as his eyes rolled, his heart came to mind.

"Brother Mingwei, you have almost digested the results of this research institute. In the next step, where are you going to conquer?"

Nangong Qingri became extremely warm, and this enthusiasm made Li Mingwei a little uncomfortable.

On weekdays, Nangong looks high on the sunny day, and occasionally the people are pretending to be close to the people, and in their bones they still look down on the world. And these Nangong sunny days suddenly became scorching eyes, giving Li Mingwei a bad feeling in his heart.

"This... I plan to rest and rest for a while in this Rocky City!"

Li Mingwei looked a little embarrassed.

His eyes drifted away, obviously with a different kind of careful thinking.

Nangong Qingri snorted secretly in her heart, it seems that Li Mingwei is not going to tell me the truth!

Well, you Li Mingwei, is it true that you won't put me in the eyes of the merits?

Nangong's thoughts on a sunny day have changed.

But his surface was calm.

"Then Li Ming is very old, I have been very quiet for a while, and want to walk around the Helen Star. I wonder if my brother can provide me with a map of the Helen Star!"

Nangong Qingri didn't bother to pay attention to some roundabout tactics with this Li Mingwei.

He was straight to the point, just looking for a reason and asking for it directly.

Li Mingwei hesitated: "I'm afraid this is not good! This Helen star is full of crises. If a person encounters any danger, his subordinates will never die!"

Li Mingwei's face was slightly ugly.

Nangong Qingri suddenly changed his face, and with a snap, he slapped the white jade table in front of him.

"Well, you are Li Mingwei, I asked you for a map of Helen Star and you all shirk in every possible way. Do you really think that my Nangong Sunny Day is not as good as you? Even if you can make a contribution in this Helen Star, I am afraid of the trivial natives. Nothing?"

Nangong was furious on sunny days.

Li Mingwei's face was pale.

"The subordinate dare not, the subordinate dare not! This map is placed in the mansion by the subordinate, and the subordinate will get it!"

Nangong Qingri sneered.

"Li Mingwei, Li Mingwei, it's this time that you still don't tell me the truth! I also have spies' eyeliner by your side. I know that you never leave the map of Helen Star. Come here, give me Li Mingwei Tied up and searched out the map on him!"

Nangong shouted on a sunny day.

Two powerful masters at the master level rushed in at the same time, they suppressed Li Mingwei, and found the map of Helen Star from his sleeve.

Nangong opened the map on a sunny day and was overjoyed.

Chapter 1424: Please enter the urn

"Hahaha! I finally got the map of Helen Star. From now on, Nangong Qingri will make contributions and create a solid foundation in this Helen Star. Even if I cannot become the first heir of the Jiuyou Empire in the future, I can also break the ground. Hou, you have become a royal minister!"

Nangong smiled and left.

Li Mingwei was imprisoned in Nangong Qingri's palace.

"My lord, don't! There are so many dangers in Helen Star, I must not act without authorization!"

Li Mingwei's voice gradually diminished as Nangong cleared away.

Although Nangong Qingri is all listening to his ears, his heart is simply too lazy to pay attention to Li Mingwei.

Wherever Li Mingwei can go, can he not go?

However, this Li Mingwei has studied this map very deeply, and the place he was going to attack next time was painted with red marks!

"Yes, I'll start with him next time! The youth training camp of the Silver Judge, hahaha, the place where Li Mingwei made his contributions last time seems to belong to the site of the Silver Judge! Wonderful! Wonderful! Wonderful! Really. It's wonderful. My Nangong Sunny Day is destined to make contributions and become a real powerhouse in the Jiuyou Empire!"

In a mansion hundreds of kilometers away.

Fang Yue was tasting tea, and the man sitting opposite him was Li Mingwei who was supposed to be imprisoned in Nangong Qingri's mansion.

"Fang Yue, it doesn't seem to be good for you to do this! In case someone investigates it, I gave this map to Nangong Qingri. If his army is destroyed, I will have no escape!"

Li Mingwei was not brave after all.

This time the incident was planned by Fang Yue.

The "Li Mingwei" imprisoned by Nangong Qingri was actually created by Fang Yue's divine mind. The real Li Mingwei drinks tea in Fang Yue's office.

Li Mingwei is still a good-natured baby, and his heart is always nervous after hearing Fang Yue's plan.

If this matter is successful, if it is revealed, it would be the crime of collaborating with the enemy and treason and murdering his colleagues, especially since this Nangong Qingri is a member of the royal family. After investigation, their entire Li family will be difficult to preserve.

Fang Yue saw Li Mingwei's palm trembling slightly while holding the teacup.

He couldn't help putting down the tea cup in his hand and Li Mingwei said, "Don't worry, this Nangong Sunny Day can't go back, and even if he really escaped and ascended to heaven, aren't you still under house arrest in his mansion?"

When Fang Yue saw Li Ming's nervousness, he couldn't help but shook his head slightly. He was still too young to experience the trials and hardships of wind and rain!

This real general should be able to plan tactics and make decisions for thousands of miles, and this Li Mingwei still has a trace of accomplishing great things.

"Those guys on the Nine Serenity Plane are estimated to be afraid to come! The reputation of my silver armor judge is spreading everywhere, who dares to come to our site and make trouble?"

In the youth training camp of the Silver Judge, Li Qing, who is in charge of patrol, is eating melons under the shade of the trees.

Regarding the patrol missions arranged above, he felt a little fussy.

He is a real silver armor judge and there is a huge difference from the little guys who have not yet grown up!

Li Qing never thought that those guys from Jiuyou plane would dare to come to the youth training camp to make trouble.

This place is the core place of their silver armor judges!

Among them, the guards are strong, not only are the strong people of the leader realm sitting in town, but also the strong people of the saint realm often patrolling.

Whether it is in the Alpha galaxy or the Milky Way galaxy, once the powerhouse reaches the Saint Realm, it is definitely the overlord-level existence of the Megatron side.

Li Qing's heart was thinking about how to get the persuasion to stop this boring patrol mission, and the powerhouses of the Saint Realm would sit here, and even if they gave those Nine Nether planes ten courage, they would not dare to come here. The training camp is messing up!

Just when Li Qing was bored.

A gloomy figure suddenly appeared behind him.

The hair on Li Qing's back exploded, his neck stiffened and turned slowly.

"enemy....."

Before the attack word came out, Li Qing was already covered with his mouth, struggling with his limbs, and then turned his eyes white and passed out.

Li Qing was dragged away by the figure.

A strong man in the leader realm was captured alive in this way.

"This Nangong Qingri's subordinates are indeed the elites of the Jiuyou Empire. Any one of his subordinates is several times stronger than Li Mingwei's. A killer who has just entered the level of the leader can actually sneak into the silver armor quietly. Behind the judge. This lurking method makes people chill!"

Fang Yue's clone had been waiting in this place for a long time.

There are countless clones of him, and a random strand of divine thought can be transformed into a clone.

However, this clone of Fang Yue is different. He was condensed by Fang Yue when he was on the earth, and he has exceeded the realm of the deity and reached the ninth level of Yin-Yang realm!

This clone is also Fang Yue's temporary main battle clone, this time he wants to muddy the pool of water.

Li Qing was dragged away.

And his teammates didn't know anything. They continued to talk and laugh. As for Li Qing's disappearance, they didn't know where to be lazy as this guy!

Anyway, Li Qing would often do such things on weekdays!

"This silver armor judge is nothing more than that!"

Ten kilometers away, Nangong Qingri smiled triumphantly at Li Qing who was unconscious.

This black-clothed assassin, but the elite he brought from the Nine Nether planes, he has a total of nine people, all of whom are at the leader level, but as long as the opponent is not prepared, he can even be a strong person at the peak of the leader level. Assassinate the captives.

The imperial family of the Jiuyou Empire is unfathomable, and a random trump card is enough to give people endless awe!

"Send someone to sneak into the youth academy and slaughter all the people inside. All I want is victory regardless of the means!"

Nangong Qingri spoke, and his three thousand elites immediately took the lead.

In a sneak attack, the fewer people, the easier it is to act.

If these three thousand people succeeded in a sneak attack, it would be enough to destroy the youth academy!

As for the two sage-level powerhouses in this training camp, they have been temporarily restrained by Nangong Qingri.

In order for this action to achieve the goal, the Nine Nether Empire has laid its blood!

Not only did they come from the powers of the leader realm, but more than one came from the powers of the saint realm.

He must finish his work, play the power of the Jiuyou imperial family, and let the Alpha Star Alliance take a high look at them!

"These fools of the Silver Armor Judge are used to relying on the name of the Galaxy Covenant in this Milky Way galaxy, and they don't even have the least vigilance!"

Fang Yue shook his head slightly. He thought it was a good scene of a snipe and clam fight, but seeing the youth academy until now, he hasn't responded, and he couldn't help being disappointed.

According to the current rhythm, it may become a one-sided massacre!

Fang Yue's reaction to the silver armor judge was quite speechless!

However, the elites of the Jiuyou Empire infiltrated the youth training camp quietly and without interest, and then there was no more.

Those camps are like the mouths of monsters, and all the creatures that will enter them are swallowed silently, and they can't get out of alive!

"*!"

Pieces of soul jade slips shattered one after another.

The smile on Nangong Qingri's face suddenly stiffened.

These soul jade slips represent the lives of the three thousand elites under his men.

The jade is broken, the soul is gone!

What horrible thing in that youth training camp can make his three thousand elites go like a mud cow into the sea, and even a wave can't stir.

The smile on Fang Yue's face was also stiff.

Unexpectedly, this silver-clad judge still had two shots. He actually looked away and underestimated the silver-clad judge.

Floating, the previous path went too smoothly, making him a little bloated.

Fang Yue quickly reflected on himself and corrected his attitude.

This silver-clad judge was able to achieve today's position in the Galactic Alliance, definitely not composed of a group of idiots.

In the end, I underestimated these silver armor judges.

However, he underestimated the Silver Judge, but Nangong Qingri paid the price.

At this moment, Nangong Qingri's heart was bleeding.

These three thousand elites are one of the cards he brought out from the royal family.

Three thousand horses, 80% of which are at the pinnacle of the rotation stage, and the remaining two horses are all strong at the Yin Yang stage.

All these three thousand men and horses were destroyed, and now Nangong Qingri's eyes felt a little black.

The youth training camp of the Silver Judge is simply a magic kiln.

If he had known it a long time ago, even if he gave him ten more guts, he would not dare to venture into the youth training camp.

However, now he has to send his arrow on the string.

All these three thousand people died. If he had nothing to gain, there was definitely no way to explain to the royal family of the Jiuyou Empire.

Regardless of his noble background, his blood is extraordinary, but if he makes a big mistake, it is a dead word.

This Jiuyou Empire has the rules of the Jiuyou Empire, and the prince commits the same crime as the common people.

There is only one road in front of Nangong Qingri.

That is a desperate bet to use all the power in his hands to deal with the youth academy. As long as the youth academy is eliminated, it is understandable even if his men lose more!

After all, this youth academy belongs to the Silver Judge, and the Silver Judge once caused the Alpha Galaxy to suffer heavy losses during the confrontation with the Afar galaxy, and it can be regarded as a fierce reputation!

"Lord, if you rashly use all of your subordinates to attack the youth academy, I am afraid that you will lose more than you will win. The previous sneak attack by Li Mingwei has already filled the silver armor judges of the Galaxy Star Alliance with vigilance. It may have been guessed that we will make a desperate move and start with them, and they must have laid a net and wait for us to enter the urn!"

A horrendous counselor did not know from which corner he got out.

Nangong couldn't help being stunned by the sunny day.

Chapter 1425: Yangmou

"who are you?"

In Nangong Qingri's impression, it seemed that there was no such a person.

But he called his lord should be his own!

"I'm Zhang Liang, lord! Don't you know me anymore? I offered my lord 30 years ago!"

The heartbroken expression on that eight-character Hu's face was full of disappointment in his eyes.

Zhang Liang?

Nangong Qingri's mind seemed to have a vague impression.

But time has passed too far, and it is only a counselor, how can he remember clearly?

That's right, the eight-character Hu Mouteng was disguised by classmate Fang Yue.

According to Nangong Qingri's dispatch, even if all his staff were put in, this youth academy could not be broken by him.

The bureaucratic style of this Jiuyou Empire is too serious.

With so many people, it turned out to be an officer who sent them a pig brain.

Fang Yue was heartbroken, and then pretended to be Zhang Liang.

This Zhang Liang is indeed a man, and he had a plan for Nangongqing thirty years ago.

But the real Zhang Liang had been killed by Fang Yue a long time ago, and even the corpse was probably eaten clean by wild wolves now.

All that was left was Zhang Liang, who was disguised by Fang Yue.

Nangong Qingri was suspicious for a long time but finally chose to believe in Fang Yue.

There is no way!

At this time, his mind was full of paste.

Although Nangong Qingri is stupid, he has a great advantage, that is, he is admonishment. Am I not stupid?

I know I am stupid!

But there are smart people around me, so I can let them advise me!

Knowing stupidity is also a kind of ability, a kind of ability, as the saying goes, it is a person who knows himself!

"Zhang Liang, what strategy do you have, why don't you let it go?"

Nangong Qingri looked at Fang Yue, although there was still alertness and vigilance in his eyes, there was already a trace of desire in the depths of those eyes.

He hopes to hear operable opinions from Fang Yue.

It is indeed extremely stupid to pile people up all at once!

Fang Yue shook his head and pondered for a long time before he said: "The minister's strategy is actually quite simple. It is to do everything! Didn't these youth academies set up a net of heaven and earth? Why do we want to break through? With the army of our Jiuyou Empire The people who come together are also the army of the Bright Empire! Seduce them and then attack the youth training camp. The snipe and the clam fight for the profit of the fisherman. At that time, it will not only consume the strength of the Bright Empire army, but also wear down the youth. The trump card of the training camp, when the strength of both of them is exhausted, we will swagger to wipe out these two forces! At that time, the prestige of the lord will be famous throughout the Nine Nether planes! Such a feat, even the Alpha Star All the people in the alliance will be rewarded heavily!"

Fang Yue opened his mouth.

Nangong Qingri's eyes lit up.

Yes, dead fellow Daoist, not dead poor Dao.

Why didn't I think of such a simple strategy?

Oops, it's really too tired these days! You need a good rest to restore your spirit!

Nangong rubbed her temples on a sunny day, and the dark clouds between her eyebrows completely dispersed.

This method has been approved by him, as long as it can be truly implemented, he must be a great achievement!

Jiuyou Empire and Guangming Empire have been enemies for generations.

If you can take the opportunity to wipe out the army of the Bright Empire, no matter how much loss he brings, it is worth it!

Nangong Qingri seemed to see her own bright future, seeing the official position of the chief official of the Jiuyou Empire before beckoning to herself!

Fang Yue secretly sighed in his heart when he saw Nangong Qingri's longing look, and he had already completed most of his mission.

As for how to attract the people of the Bright Empire, Fang Yue has his own plan!

Sure enough, Nangong Qingri awoke from the endless longing for a while, and his eyes looked at Fang Yue different.

At the beginning, it was resistance and defensiveness, but now it seems to be looking at the concubine he just took.

"Zhang Liang! Your strategy is very good, but how do you bring the disaster to the east and let those tortoises from the Bright Empire come to this youth training camp to fight them?"

Nangong Qingri found the key to the problem.

If the Light Empire does not come, no matter how much he thinks, it will be no use!

Fang Yue smiled slightly, and then said: "This is simple. This Bright Empire actually has the purpose of chasing profit. The greed in their hearts will definitely be shaken under the temptation of huge profits!"

"I have a magical tool in my hand. This magical tool can enable a person who cultivates the Law of Light to reach the peak of the first level or even step into the second level overnight! This light empire may not be all of them. People who understand the law of light, and even those who can understand the light otherwise are only a very small part of it! But the Light Empire has a rule, that is, people who understand the law of light are believers of the **** of light! They are in the light The status of the empire is extremely lofty, and it is more than one level higher than that of practitioners of the same level! Therefore, every person in the Light Empire has a great desire for the understanding and promotion of the law of light! Just put this bait down , I don't believe that the people of the Bright Empire will not take the bait!"

Fang Yue's words made Nangong Qingri's eyes brighter.

Sinister, sinister!

There must be bad water in this good belly!

The leader of the Bright Empire this time is Prince He. Although Prince He is a strong man at the top of the leader realm, he is extremely cautious and conservative.

Ever since he descended on Helen, the Prince and the prince hadn't let the soldiers under him really take action!

The work that rushed to the forefront was always done by their Jiuyou Empire.

But this time, the tortoise locked with the prince is about to break its shell!

The pride in Nangong Qingri's heart is beyond words!

On the second day, a man in black appeared in the palace of Nangong Sunny Day.

"Subordinate Chen Si has seen Lord Nangong Qingri! Last night, subordinates sneaked into the youth training camp, found out the details of the youth training camp, and obtained a treasure from it, which can improve the understanding of the law of light!"

The drama set by Fang Yue began.

This scene in the Nangong Qingri Palace was quickly learned by the people of the Guangming Empire.

Whether it is the Bright Empire or the Nine Nether Empire, they don't know how many spies have been planted in the other's kingdom.

They are old opponents, knowing themselves and enemies, and they won't end up in battle!

Only by grasping the other party's dynamics at all times can we make the fastest judgment.

In the mansion of the Guangming Empire and the prince, the spies reported what had happened in the Nangong Qingri mansion one to five to ten!

After hearing the words with the prince, he pondered for a moment.

There are two generals of the Bright Empire, Cheng Mu and Cheng Ying beside him.

The two brothers have stayed with the prince for at least a hundred years and the prince has enough trust in them.

"This time the news is true or false, what do you two think?"

The Prince He's burly figure, sturdy back and waist, and a pair of tiger eyes like torches, make people afraid to look directly.

His conservative character is extremely inconsistent with this appearance.

The two brothers looked at each other, and both saw a hint of hesitation in each other's eyes.

Because if this news is true, then for the Bright Empire, it will be a big shocking news for the whole country. The Bright Empire, every family worships the body of light, and the more practitioners of the Law of Light in the Bright Empire, Their light **** will also give more rewards and blessings.

If it is true, even if there is a net in the youth academy, they have to make a breakthrough at any cost.

But in case the news is false, Nangong Qingri must be holding snipes and clams to compete for profit.

In comparison, the commander of the Bright Empire was wiser and wiser than that of the Jiuyou Empire.

This has something to do with the systems of the two countries, and it has something to do with the fact that the Bright Empire has been suppressed by the Nine Nether Empire all these years!

"Actually, I think that whether this news is true or not, we have to take action against the youth academy, because this time Nangong Qing is using Yangmou!"

Finally speak with the prince.

When he spoke, he made the two brothers of the Cheng family frown.

"Yimou?"

Cheng Mu whispered the words that he said with the prince softly!

"Yes, this will be a conspiracy, even if it is you and I think this news is false, but will our soldiers believe it? The soldiers believe, will the general understand the letter? They will think that this is our desire to monopolize the benefits. Don't give them money. The suspicion in this army is a serious illness, but on the contrary, the human heart is separated from the belly. This suspicion has been indispensable since ancient times!"

Say this with the prince.

The two brothers of the Cheng family were silent.

This is exactly what the prince said. It is the turn of the grasp of human nature. This and the prince are indeed more than twice as powerful as them!

"But this conspiracy is definitely not something Nangong Qingri can think of, and even his subordinates have no one who can come up with such a method! I guess this is the plan of Fang Yue, the nominal master of Helen Star! It is to use Nangong Qingri as a chess piece!"

"Fang Yue?!"

Cheng Mu was even more stunned. He had indeed heard this name, but it was not in Helen Star but on the plane of Jiuyou.

This Fang Yue had repeatedly slaughtered the city with a knife at the Bright Empire. His methods were quite tragic, but Fang Yue's scheming was also recognized.

Isn't this guy on the plane of Jiuyou?

When did he become the master of Helen Star again!

He chuckled with the prince: "Although you two lead soldiers to fight every day, and have been loyal to my men for many years, you are still talents. You have not reached the level of handsome talents. Generals are related to the victory or defeat of a war. Being handsome is about the quality of the whole situation!"

After talking with the prince, both Cheng Mu and Cheng Ying bowed their heads in shame.

Strategizing, winning a thousand miles, and the prince taught them more than once, but they still did not grasp the true essence!

"This Fang Yue is actually a member of the Galaxy Star Alliance. He previously opened up a plane channel and came to my Nine Nether planes to instigate wars, and let the Nine Nether planes' people internalize and profit from it! And later, He returned from the Nine Serenities and became the nominal master of Helen Star again. Fang Yue's scheming, full of wicked eyes, should not be underestimated by him!"

Shaking his head with the prince and stunned the two brothers of the Cheng family, he was actually quite proud.

In the military, a very important point is coercion.

This coercion is not only in terms of force, but more importantly in terms of wisdom.

Only when you make your subordinates feel that you are inferior to you, will you not be rebellious and treasonous!

This time about Fang Yue's news, he also learned from the people in the Galaxy Star Alliance.

Chapter 1426: I want your kindness

"Fang Yue and Li Mingwei have made a good relationship. At the very beginning, Nangong Qingri entered the youth academy because he had an inseparable relationship with Li Mingwei! Later, seeing that Nangong Qingri was so useless, Fang Yue felt that his calculation of losing both sides would be lost. That's why I figured out a way to pretend to be the people around Nangong Qingri and help Nangong Qingri in such a shameful way!"

And the prince's guess turned out to be eight. Nine does not leave ten.

If Fang Yue was there, he would definitely sigh long and elbow!

"Knowing this is a trap, shall we still jump in?"

Cheng Ying felt a little nervous.

He shook his head with the prince and said: "If a small loss can be used to exchange great success, then this shot is also worth it! This time, I am going to send 50,000 horses to test the youth training camp and make a false impression of what we are planning. At this time, Nangong Qingri will want to profit from the fisherman, gather the troops on display, and then we will disclose the movements of Nangong Qingri to the youth academy, and let them play against Nangong Qingri! At that time, who is the praying mantis and who is The oriole can tell the difference!"

On that day, Prince He dispatched fifty thousand troops to attack the youth training camp.

However, these fifty thousand troops had already been beaten up with meat buns and dogs before they arrived at the youth training camp, and they would never go back.

Fang Yue dispatched his 30,000 troops to intercept the Prince's 50,000 horses, and the situation became one-sided, and the 50,000 troops never survived.

Fang Yue straddled a steed horse, not knowing where he got a parasol for a soldier behind to give him an umbrella.

"The people of the Bright Empire are not strong! They want to seduce me, but they only used such a bait, which is not attractive to me at all!"

Fang Yue was tasteless.

Looking at the messy corpse, he sighed softly.

Zhang Han behind Fang Yue rolled his eyes.

This army of 50,000 people is actually quite not weak for the Bright Empire, most of them have reached the level of the heaven and earth realm, and a few generals are at the level of the rotation realm. The overall army of the Bright Empire is far below this level, no matter how strong the Bright Empire is, in the final analysis it is actually just a prince on a small plane!

And what about Fang Yue's 30,000 men?

Most of the tiger-wolf divisions are at the level of the rotation stage, then the Yin-Yang stage, and the leader stage. The most important thing is that there is a strong man in the saint stage. The quality of the two armies is not at all. Comparability!

It is a normal phenomenon that the fifty thousand army of the Bright Empire was easily destroyed.

If they still have the power to resist, this would be really strange!

"The corpses of these 50,000 horses will be transported to my Zerg army for dinner! Although the energy in it is not a lot, it is also a 50,000 master, no matter how small a mosquito leg is, it is meat!"

Fang Yue was uninterested and ordered his men to transport the corpses of the fifty thousand Bright Empire army away to the Zerg who was supporting Fang Yue.

As for the number of the Zerg army under Fang Yue's hands, how many were there.

It's a mystery in the entire Milky Way galaxy!

Today Fang Yue is in a very special position in the Milky Way galaxy.

You say he is strong, he only has a cultivation base at the rotation level. In many big forces, the rotation level is only at the level of a disciple, and he can't even get the position of an outer door elder.

But you say he is weak! That's pure nonsense.

Fang Yue has left a reputation in the gambling between the two galaxies. So far no one knows how strong Fang Yue's real strength is, because although he conceded in the last game, he did it deliberately. , I don't want to give my life to the Galaxy Star Alliance! If the fight continues, Fang Yue's hope of victory will be at least 80%.

Moreover, Fang Yue's hole cards in his hand were stronger than one.

Gong Ziyan has already announced that he owes the Fang family a favor. If Fang Yue needs it, he can keep this favor on Fang Yue at any time!

Who is Gongziyan?

A strong man comparable to the Great Sage, or that his own combat power level has completely reached the level of the Great Sage Realm, the only thing that is lacking is to take the last step, the people he wants to protect, ordinary people don't dare to do it!

At the same time, Fang Yue also had two masters, Zhang Han and Alice.

That's right, because Zhang Han is by Fang Yue's side, people have already assumed that he is a member of the Fang Yue faction! And Alice completely took refuge in Fang Yue after failing in the gambling fight, and she did not listen to the orders of the Galaxy Star Alliance.

The reason is simple. Alice's defeat was not because she was defeated by the people of the Alpha galaxy. She was defeated by the Galaxy Star Alliance. Someone put poison in her tea before the battle, if not for Fang Yue. Rescued her from the ghost gate in time, I am afraid there is no longer Alice in the Milky Way galaxy!

Alice, Zhang Han, and the two saints protect the way, even those seeds in the Galaxy Star Alliance rarely have this treatment.

In terms of top masters, Fang Yue has no shortage of manpower.

In terms of the army, he is more than 30,000 elites, as well as the immeasurable zerg army.

Especially the Zerg army, multiply fast and grow fast.

With each passing day, as long as the resources are sufficient, they can continue to grow without limit!

Today's Fang Yue, a person's combat power is probably worth a small plane!

"Send the news to me, our Lord Fang Yue has a lot of things. Regardless of the past, we will abandon our grievances in front of righteousness, intercept the army of the Bright Empire, and kill them all!"

Fang Yue spoke.

Zhang Han looked at Fang Yue in surprise: "Fang Yue, are you ready to compromise with the silver armor judge?"

"Compromise? If you compromise, will they spare me? I am not for them, but for ordinary people in the galaxy! As a victim, I have already ignored the predecessors, and they are embarrassed. Do I do it?"

The corner of Fang Yue's mouth showed a sly smile.

From the beginning, Fang Yue was in the layout, of course, he was not smart enough to predict the enemy like a god.

The news with the prince was also passed on by him!

He made people pretending to be the Galactic Alliance to disclose their information, causing the Prince to make a misjudgment and send out bait.

Then he eats the bait!

By the way, really push the army of the Bright Empire to the forefront!

As long as Fang Yue spread the time of the 50,000 army of the Bright Empire to the entire galaxy, the army of the Bright Empire will become the thorn in the eyes and the flesh of the silver armor judges!

They dare to attack the youth academy. If the silver armor judge does not immediately respond like thunder, it will have a great influence on the reputation of the silver armor judge.

In the process of dealing with Fang Yue, the Judge of Silver Armor repeatedly failed, and his reputation has plummeted recently.

If they were to be mounted on the head again by the Light Empire this time, they would really become an influent little force in the galaxy!

From the beginning, Fang Yue had set the chess game, he just waited for the pieces to be in place!

Now this first step has been completely settled.

We will see how the Galaxy Star Alliance responded to him later!

"Whoever wants Fang Yue's kindness, who wants him to do nothing!"

Kang Yue tore the map on the desk to pieces, and he almost roared.

This Fang Yue is simply too much!

Such a posture was put on at this time.

What is he doing?

Do you want to use your magnanimity to show that their silver armor judges have little belly?

He Kangyue does not need Fang Yue's support, and the army of the 30,000 Bright Empire is not even a fart in the eyes of their youth training camp!

However, Kang Yue can only talk about these words in her own heart. If it is spread out, people will say that Kang Yue is a small belly chicken intestine, and then she will be pointed out by Qianfu.

Because this was already an established fact, Fang Yue helped the Yinjia Judge's youth training camp escape.

The silver armor judge owed Fang Yue a lot of favor. Until this favor was paid off, the silver armor judge would not be able to take action against the other Yue, otherwise it would be grace and revenge!

Kang Yue's face turned green as if she had eaten fly feces.

This hateful Fang Yue, sooner or later, he will fall into his own hands, unable to survive or die!

Fang Yue seemed to be a okay person, still wandering around this Rocky City.

The 30,000 army under him is fierce and evil, and it seems that it is possible to wipe out all the invaders from the Jiuyou plane at any time.

However, Fang Yue just didn't make a move, he seemed to be waiting for something!

The strange tranquility lasted for three days.

Fang Yue hadn't waited for the silver armor judge to encircle and suppress the army of the Bright Empire on the Jiuyou plane, but he was waiting for a shocking news.

The Galaxy Alliance had already defeated in the 0-500-year-old level gambling battle ahead of time, and none of the top eight positions came from the Milky Way galaxy.

This means that in this gambling battle, the Milky Way galaxy suffered a terrible loss!

In other stages of the gambling battle, the situation of the Milky Way galaxy is also quite bad, only one or two people have entered the quarterfinals!

Dissatisfaction with the Galaxy Alliance in the Milky Way galaxy instantly detonated.

Especially for Fang Yue's injustice calls louder than waves.

These calls indicate that they are civilians from the galaxy, but in fact these are all organized and premeditated attacks!

Regarding the power and hegemony of the Galaxy Star League, the attack is disregarding fairness and justice!

At least, Fang Yue saw the shadow of the Galaxy Bank behind this, as well as the Vientiane Pavilion.

There are even more shocking existences standing behind many big forces!

Fang Yue even smelled the breath of the sea of reincarnation in some people.

"Is this a fate of the Galaxy Star Alliance? I am just a fuse, but I have exposed all the internal and external troubles of the Galaxy Star Alliance!"

Fang Yue murmured to himself, he quickly analyzed the information that he kept submitting.

The treatment of Vientiane Pavilion to him has been raised to a considerable level. Various top-secret information fell into Fang Yue's hands, and Fang Yue didn't even need to pay a penny.

Of course, these are superficial phenomena.

There is no free lunch in this world, not to mention these shrewd businessmen at Vientiane Pavilion.

The investment in Fang Yue is their biggest goal.

Chapter 1427: How about making a deal?

Wanxiang Pavilion placed a bet on Fang Yue, betting that Fang Yue could grow up smoothly and become a great figure in the Milky Way and even the entire universe!

After Fang Yue becomes a big man, his favor value will be increased by a hundredfold!

At that time, all investments in Vientiane Pavilion will recover costs smoothly!

Finally on the fourth day.

The army of Silver Judges came, and it only took half a cup of tea to crush and kill all the troops stationed in Rocky City of the Bright Empire!

Millions of people have become annihilation.

This silver armor judge's army has only a hundred people in total, but 90% of them are strong at the leader level, and the remaining ten people are all holy!

This kind of series rolling is rare in the world!

The silver armor judge should take this opportunity to let the entire galaxy see their majesty and see the silver armor judge's fierce, decisive, and non-offensive side!

The army of the Bright Empire is their tool to build power!

Their bones will be recorded in the history books.

"does it worth?"

Fang Yue appeared in front of the silver armor judge's army, and opposite him was Kang Hui, the leader of the silver armor judge.

At this moment, Kang Hui no longer had the old jealousy on his face, and replaced it with a seriousness and heaviness that is rare on the face of the silver armor judge.

What happened before had a big blow to him.

This blow made him painful and also made him transform.

"worth it!"

Kang Hui gave a two-word response.

His eyes are slightly hollow! Those eyes, like two black holes, seemed to be able to swallow all the light.

Seeing Fang Yue again, he was calm.

There is no hatred, and no anger.

Now, in the eyes of outsiders, the silver armor judge still owes Fang Yue a small favor.

It would be ungrateful if he did the opponent Yue now!

I have to say that Fang Yue's tricks made the silver armor judges feel quite speechless.

It's obviously an enemy, but he can't make a move. This feeling is really amazing!

"Hey!"

Fang Yue smiled honestly.

"Come on, how about a deal?"

Fang Yue took out a palm-sized silver box before Kang Hui agreed!

"The proof of the runes! I have unearthed the Helen star, and there are only eight in my hand! Weapons made of runes are rare and rare, and represent the direction of a civilization once! It's a pity, this Helen star It is not the origin of this rune certificate. According to my inference, it should be something left by the invaders who invaded Helen!"

"Runic Proof? What is this?"

It was also the first time that Kang Hui heard of such things.

Fang Yue opened the silver box. Inside the box, a series of runes were spinning, colorful, and each rune was as large as a snowflake.

On the top of these runes, Kang Hui sensed a faint breath of law.

The combination of different runes can form a unique cycle.

Kang Hui couldn't help holding his breath.

rule!

All powers involving laws and rules are worthy of his attention.

Runes are the limitations and condensations of the laws, and the arrangement and order of different runes are the embodiment of the rules!

Kang Hui never thought that Fang Yue could come up with something like this.

A manifestation of civilization he had never seen before!

Kang Hui's heart became more excited and anxious.

"Go ahead, Fang Yue, what are your conditions?"

"Give me the bodies of all the dead in the Legion of Light, plus one hundred billion spirit stones!"

Fang Yue offered the price simply and neatly.

Kang Hui announced his agreement with almost no hesitation.

Those corpses had no value to him, and the one hundred billion spirit stones were just a number in his eyes.

For the saints, ordinary spirit stones have no value, they are no different from the stones on the street.

What's more, the Milky Way Star Alliance manages the wealth of the entire Milky Way galaxy. They lack everything, but there is no lack of spirit stones!

moron!

In Kang Hui's heart, Fang Yue became more and more contemptuous.

If it were him, he would definitely use this rune proof to put forward higher requirements and conditions!

For example, a kind of peerless inheritance, or a magic weapon at the level of a saint.

Redneck, really is a redneck.

Kang Hui's original contempt for Fang Yue resurfaced again.

A faint smile turned up at the corner of Fang Yue's mouth.

This Kang Hui was really fooled!

The proof of runes, there is indeed such a thing in the Helen Star, but it is not the one in Kang Hui's hands.

The Rune Proof in Kang Hui's hand was forged by Fang Yue himself!

The true rune testimony should be stronger, stronger, and more able to represent the glory and brilliance of an ancient rune civilization.

Whether it is the Great Avenue, the twelve stone steles on the earth or the stone carvings of the laws obtained from the reincarnation tower. In fact, they are all products of the system of rune civilization. This civilization is powerful and mysterious. Even if Fang Yue only spied a corner, he was full of shock in his heart!

Fang Yue has an extraordinary talent in runes.

Whether in front of the stele or on the Tongtian Avenue, he has amazing performances.

At one point, Fang Yue also thought that his comprehension of runes had reached a rather profound level.

But now, he realized that he had never even reached the level of a beginner.

Just getting started.

The proof of runes is a vast and boundless world, and its complexity and prosperity far exceed the rune system in Fang Yue's cognition.

The rune testimony given to Kang Hui was only a simplified version made by Fang Yue himself.

A true rune testimony should consist of 3,600 different runes.

The Rune Proof given by Fang Yue is only composed of three hundred and sixty different runes, but this is already in its infancy, with a basic element of the Rune Proof. If there is no one among the silver armor judges I have seen the real rune proof, then the rune proof produced by Fang Yue is the real rune proof!

The transaction between the two parties was quickly completed.

Fang Yue floated away.

The corpses of one million soldiers of the Light Empire are enough to give birth to dozens or even hundreds of Yin-Yang-level existences in his Zerg army!

Kang Hui also carefully preserved Fang Yue's rune testimony and brought it back to the base of the silver armor judge. He sent the things to Kang Yue.

The first time Kang Yue saw this proof of rune, she burst out with an overwhelming aura.

Under Kang Yue's momentum, Kang Hui almost didn't get pressed down.

In a moment, Kang Yue came back to her senses and reduced her breath.

Kang Hui looked at Kang Yue's eyes with a look of jealousy. The momentum and power that Kang Yue released at the moment was at least three to five times greater than the power he usually showed.

Is this the real Kang Yue?

He has always been hiding in the Galaxy Star Alliance, hiding his true strength.

"I'm sorry, Kang Hui was a little gagged just now, but I hope you can forget the scene you just saw. Where did you get this Rune Proof?"

Although Kang Yue was apologizing to Kang Hui, there was no slightest apology in his tone.

Kang Hui understood that in Kang Yue's eyes, he was just an insignificant chess piece. Even if one day he really died for the silver armor judge, it is estimated that Kang Yue would not shed a tear because of him.

"This rune certificate was exchanged from Fang Yue..."

Kang Hui explained the whole process of his transaction with Fang Yue in detail.

Kang Yue's palm repeatedly stroked the rune proof in her hand.

"What kind of medicine is sold in Fang Yue's gourd? He knows that this is the proof of runes and should know the value and purpose of this thing! He sold this thing to me? Isn't it afraid that I will use this thing to capture the Milky Way? The Star Alliance has a higher rank, and then come to deal with him?"

Kang Yue is not a mindless guy like Kang Hui.

On the contrary, he is more vigilant than anyone else.

Kang Yue knew that Fang Yue had many tricks, but he could not think of the purpose of Fang Yue giving him the proof of the rune.

"Forget it, don't care about him! As long as this rune certificate falls into my hands, it is equivalent to having the key to open many rune relics! Also, Kang Hui led the three thousand judges to completely take down Helen Star! Since this planet can unearth the proof of runes, it shouldn't fall into Fang Yue's hands!"

Kang Yue gave the order immediately, he was strong and domineering.

No matter what Fang Yue's calculations were, they were not what he considered.

Just a ant, do you really think that you can shake the big tree of the Silver Judge?

Kang Hui said with great excitement: "Yes, my lord!"

After Kang Hui finished speaking, he led his subordinates arrogantly and left angrily!

"Everyone, completely exit Helen Star and enter the dimensional space channel I opened up!"

At the same time, in a certain city in Helen Star, Fang Yue spoke lightly, everything was as expected!

The 30,000 army under him entered the dimensional space channel in an orderly manner.

Fang Yue stood alone outside the passage, and naturally said to himself: "According to the time calculation, this Kangyue team is coming soon! I really look forward to it. He knows how surprised this final ending is!"

The passage of the space is completely closed!

All of Fang Yue's men disappeared in Helen Star.

The only ones left were Zhang Han and Gongziyan who were closely related to Fang Yue.

Zhang Han asked to leave, but Fang Yue did not stop him.

Gong Zi Yan continued to follow Fang Yue's side, quietly waiting for a good show.

The son Yan has been alive for such a long time, and he has rarely had the opportunity to see the exciting drama that is about to draw the curtain!

Fang Yue's plans and calculations made him amazed. He appreciated the process of Fang Yue's layout from beginning to end.

I have to say that Fang Yue is a genius in this regard, even though Gongzi Yan himself only understood part of it.

Following this, an army of silver-clad judges descended, and in addition to the three thousand silver-clad judges, there was an army of nearly 20 million people from the Galaxy Star Alliance.

These armies belong to the periphery of the Judge of Silver Armor, and they are under the direct jurisdiction and control of the Judge of Silver Armor.

They are well-trained and well-equipped. Once someone is promoted to the level of the leader, it is very likely that they will be promoted directly to the Judge of Silver Armor.

There are hundreds of silver armor judges in this kind of army, and they dormant in every corner of the Galaxy Covenant on weekdays. Once there is a major situation, they will be mobilized in the first time.

The entire process from the Silver Judge's arrival to the invasion was exceptionally smooth, to an unbelievable level.

Chapter 1428: Rune Proof!

Throughout the entire process, there was no resistance, Fang Yue's army and the indigenous powerhouse of Helen Star seemed to have evaporated from the world in an instant.

This smoothness has made Kang Hui's heart very vigilant, no matter how stupid he is, he can smell a strong smell of sleazy.

"Go all out to smooth out all the invaders of the Nine Serenities in Helen Star!"

Following Kang Hui's order, the mighty sweep began immediately.

Whether it is the army of the Nine Nether Empire or the Bright Empire, under such a strong crush, all have nowhere to hide, and even if they don't even have time to react, they have suffered a catastrophe!

The hearts of these people are full of astonishment. Who are we to provoke? Let your Galaxy Star Alliance send such a big battle against us!

In just half a day, the half-person shadow of the Jiuyou Empire could no longer be seen in the entire Helen Star.

And Li Mingwei and his army were secretly taken away by Fang Yue before again!

This is a nail that Fang Yue will ambush in the Alpha Galaxy in the future, and it cannot be removed by the silver armor judge so easily.

Kang Hui led a mighty army of 20 million to station in Helen Star.

As the owner of Helen star changed, the outside world was in an uproar. Not long ago, the Galaxy Alliance announced that this Helen star had been awarded to Fang Yue.

Only a few days later, Helen Star had truly changed hands and became the territory of the Judge of Silver Armor.

It is said that the sly rabbits die, the lackeys cook, the birds die, and the good bows hide.

But the key is elder brother, you guys can cook quickly, Lianggong is too deep!

The strong dominance of the Silver Judge and the rebelliousness of the Galaxy Star Covenant have made some peripheral forces and members attached to the Galaxy Star Covenant panic.

This Galaxy Star Alliance turned its face faster than it turned a book, and Fang Yue was the last to deal with it.

So next time, who are they going to take the operation!

There are game rules in this game, but recently the Galaxy Star Alliance has become less and less careful about the rules of the game and has played cards randomly!

This is an extremely serious blow to the prestige of the Galaxy Star Alliance.

Gong Yunsheng was black for the first time and summoned Kang Yue to his office.

"Kang Yue gave me a reason, why did you start with Helen Star? You agreed to the award of Helen Star to Fang Yue at the beginning!"

Gong Yunsheng has a headache for Kang Yue.

Although he is nominally the origin of the Galactic Alliance, almost everyone knows that he has other powers and backgrounds in other parts of the universe.

This force even exceeds the size of the existing Galaxy Star Alliance.

The Galaxy Star Alliance has no place to restrain others at all!

Kang Yue's eyes flickered, thinking for a moment.

"I'll give you an explanation, can you believe it? An unexpected change occurred in this Helen star. This change made me completely control this planet in my own hands even if I took a shot against the rules!"

"Unexpected change? Why didn't my people tell me!"

Gong Yunsheng snorted coldly. What does Kangyue mean? What happened in the Galaxy Alliance, he didn't know, but Kang Yue knew everything well. This was telling him that Kangyue's control over the Galaxy Alliance was already beyond his palace?

Kang Yue glanced at Gong Yunsheng, as an old partner who had come up with it for hundreds of years,

Kang Yue naturally saw through what Gong Yunsheng was thinking about.

"Things are not the same as you thought! This change happened to Fang Yue, and he traded such a thing to me! You see if it's worth turning my face on!"

Kang Yue obviously knew that she couldn't get through this time, so she simply revealed the truth.

"Runic Proof!"

Gong Yunsheng recognized this rune proof at a glance.

There was a solemn and shocked look on his face.

Gong Yunsheng knew the value of this thing better than Kang Yue.

Although they are all high-level veterans of the Galaxy Star Alliance, Gong Yunsheng's position is vaguely higher than all other elders.

If the Great Sage-level powerhouse does not come out, his Gong Yunsheng will be the nominal master in this galaxy star alliance.

It is also very normal to know more about the deep secrets of the Galaxy Alliance.

In the Galaxy Star League, there are hidden locations of many civilization sites. Some of them are rune civilization sites, but most of these sites require Rune Proof as the key to unlock. A ruin must consume at least one Rune Proof.

Countless years ago, there were many rune proofs in the Galaxy Covenant, but these rune proofs were worn out and disappeared in the long river of history.

Some are used to open up the remains of rune civilization.

Eventually, the last rune proof in the Galaxy Star Alliance was consumed 300 years ago.

The Galaxy Star Alliance is now guarding hundreds of thousands of rune ruins, but there is no way to open it.

If they get enough rune proofs, they will open one rune ruin after another, which will greatly increase the power level of the entire Galaxy Star Alliance.

"Is this thing obtained from Helen Star?"

Gong Yunsheng felt his voice tremble.

Now the Milky Way galaxy is in a disadvantaged position in the confrontation with the Alpha Galaxy. If this continues, the Galaxy Covenant will undoubtedly be defeated. Then, the Galaxy Covenant will most likely be cede land and sign various unequal treaties. conditions of!

And if this rune ruin is fully opened, it may be a great turning point for the Galaxy Star Alliance.

"Yes, this rune proof was found in Helen, and it was discovered by Fang Yue. He used this rune proof to trade away from my hand a million corpses of the Bright Empire army and hundreds of billions of them. Lingshi, but it is difficult for me to judge right now, whether Fang Yue really doesn't know the value of this rune proof or if he uses this thing as bait to get us hooked!"

Kang Yue's voice was a little deep and hoarse!

Gong Yunsheng also became silent a lot.

Fang Yue, this name has been mentioned less and less now in the senior level of the Galaxy Star Alliance.

It's not that he has become unimportant, but Fang Yue's existence has gradually become an indelible pain in the hearts of the senior leaders of the Galaxy Star Alliance.

Fang Yue's value is beyond doubt.

From gambling fights to the war between the two galaxies, he is all the limelight.

If Fang Yue would really serve the Galaxy Star Alliance sincerely, although the Galaxy Star Alliance might not be able to reverse the current situation, at least he would not lose so dismal.

Unfortunately, the Galaxy Star Alliance gave up Fang Yue.

And Fang Yue also gave up the Galaxy Star Alliance, the contradiction between the two is becoming more and more irreconcilable.

If there is a choice to choose again, perhaps Gong Yunsheng will choose a different direction.

It's a pity that it will never be useful in this world if!

Fang Yue was destined to walk the opposite of the Galaxy Star Alliance.

"This Rune Proof is now with you! If this thing is really produced from Helen Star, then no matter how much the price is paid, Helen Star must be dropped. Before the opening of the rune ruins, the Galaxy Star Alliance The reputation of the galaxy is not worth mentioning. If this battle with the Alpha galaxy and the Galaxy Covenant are defeated, then the reputation of the Galaxy Covenant will also be destroyed. At least for thousands of years, it will not be able to raise its head in the galaxy. !"

Gong Yunsheng's tone is quite heavy, because he understands what the current situation of the Milky Way galaxy is.

Although at the beginning, the Milky Way galaxy took the initiative and caught the Alpha galaxy by surprise.

But as the Alpha galaxy gradually reacted and the gambling battle progressed, the Galactic Alliance was clearly in a disadvantaged position!

Maybe, if this war is not handled well, it will really humiliate the galaxy.

Kang Yue glanced at Gong Yunsheng unexpectedly. Originally, he thought Gong Yunsheng would obstruct her plan, but Gong Yunsheng was always towards Fang Yue deep down.

Both Kang Yue and Zhang Taicang understood this, but Gong Yunsheng's character was too weak and often compromised. He and Zhang Taicang could only force Fang Yue out of the Galaxy Star Alliance.

Originally thought Gong Yunsheng would be emotional when he heard that he was about to conquer Helen Star, and he would argue with him, but he did not expect that Gong Yunsheng would directly choose to compromise, and even the reputation of the Galaxy Star Alliance could not be taken into account.

"Is the situation of the Galaxy Alliance already corrupted to such an extent?"

Kang Yue didn't care much about the confrontation between the two galaxies.

But seeing Gong Yunsheng's compromise, a slight sorrow and grief came from his heart.

If the Galaxy Star Alliance is truly defeated this time, there will be no eggs under the covering nest, and their silver armor judges will also be greatly implicated and affected.

Gong Yunsheng nodded slightly: "The background of the Galaxy Alliance is not weak, but unfortunately, I can mobilize too little power. Each family has its own plan. Even the Galaxy Alliance has countless factions. Everyone wants to do it. The idea of gaining the benefits and reducing one's own losses is actually human nature, but it is the most unfavorable situation for the Galaxy Alliance! When the war just started, each family sent people to test. , I was caught off guard at the beginning of the Alpha Galaxy, but who would have thought that the Alpha Galaxy had just reacted and caused all the forces to suffer quite serious losses. Fang Yue's matter had a significant impact on the prestige of the Galaxy Covenant. Fang Yue's performance at the opening ceremony was too wonderful, and he repeatedly made feats in the subsequent gambling battles, but the Galaxy Star Alliance could not help him! At the critical moment, he did not give him any rewards, instead Abandoned him!"

Gong Yunsheng's tone was slightly lonely.

He also knows that the driver who caused all this is his responsibility.

The Galaxy Star Alliance is sorry to Fang Yue, Iris, and Ye Wushuang.

Nowadays, under continuous suppression, not only Fang Yue and Alice, but also Ye Wushuang have begun to separate themselves from the Galaxy Alliance.

He also has an unshirkable responsibility for the current disintegration of the Galaxy Alliance.

"If necessary, my Silver Judge will fight for the Galaxy Alliance!"

Kang Yue expressed her attitude.

"Thank you!"

Gong Yunsheng expressed his gratitude extremely sincerely. At this moment, he represents not only himself, but also the entire Galaxy Star Alliance.

Chapter 1429: Aoki Daisho

"You're welcome!"

Kang Yue responded to Gong Yunsheng.

Then he turned and left.

On the way out, for some reason, Kang Yue suddenly saw a large building, magnificent, magnificent and magnificent.

There was a trace of depression in his heart.

Kang Yue thought this might be a kind of doomsday desolation.

"Hahaha, when did my Kangyue become such a sad person! This Galaxy Star Alliance is still so prosperous now, how can it decline so quickly! I was really affected by Gong Yunsheng! The Star Alliance will not fall!"

Kang Yue returned to her place in laughter.

And in Helen Star, Fang Yue stood on top of a low hill.

Next to Fang Yue was Ye Wushuang's figure.

Should have been working at the top of the Galaxy Star Alliance, Ye Wushuang, who was dealing with various things, unexpectedly appeared in Helen Star at this moment, and he was led down as a deity!

On the horizon, the orange-red sunset, not dazzling, dyed the place where the world intertwined.

The orange light fell on the faces of Fang Yue and Ye Wushuang.

Fang Yue's expression was calm, like an ancient well without waves.

But Ye Wushuang's face was slightly melancholy, his eyes lost, as if thinking about something.

"The building will fall, and the emperor star will fall! Fang Yue, this is the fateful lottery I obtained for the Milky Way galaxy at a great price from the Wanxing Pavilion of the Galaxy Alliance. This lot is irreversible, unchangeable, and represents destiny. Supreme Will."

Ye Wushuang's voice carried a hint of helplessness.

Who can contend with fate in this world?

Ye Wushuang understood the meaning of the fate lottery sign better than anyone else.

Fang Yue nodded slightly.

"Since it is destiny, let it be natural!"

Fang Yue did not look shocked, everything was in his expectation.

Fang Yue's situation and report on the current confrontation between the two galaxies may be more comprehensive than Gong Yunsheng's hands.

The Wanxiang Pavilion has fully supported him. Of course, as a price, Fang Yue also completely handed over the Pill of Suichen Pill to the Wanxiang Pavilion.

The Wanxiang Pavilion has mastered the pill, and since then, he can refine this extremely precious pill by himself, and Fang Yue's VIP level in the Wanxiang Pavilion has now reached the level of nine moons! In the entire Galaxy Star Alliance, Fang Yue's VIP level in the Wanxiang Pavilion may have reached the ultimate peak.

It is not an exaggeration, Fang Yue can mobilize 30% of the power of Vientiane Pavilion dormant in the galaxy at any time to crush a medium-sized family power instantly!

"Is there a way to crack it?"

Ye Wushuang was still a little unwilling. To the Galaxy Star Alliance, Ye Wushuang was like an old father with a deep sense of responsibility who was treating his ineffective son with love and hatred.

"Have!"

Fang Yue's tone remained calm.

"Looking for forces other than destiny, such as the forces of other universes or the forces of calamity! They can all resolve the current crisis of the Galaxy Covenant. They are not part of the Milky Way galaxy, and are not even affected by the will of the universe. !"

Fang Yue's words were quite brief, but they pointed out a direction for Ye Wushuang.

But how difficult is it for Ye Wushuang to find the power of other universes?

As for the number of calamities, it is even more mysterious, and ordinary people cannot find it.

"Thank you!"

Ye Wushuang thanked Yue with a fist.

"I have stayed in the Helen Star for a long time, and I need to return to the Galaxy Alliance. As long as this Galaxy Alliance does not abandon me for a minute, then I will always be a member of the Galaxy Alliance!"

A touch of stubbornness appeared on Ye Wushuang's face.

Fang Yue nodded slightly.

This is a stubborn person.

Fang Yue could not persuade him.

If the Galaxy Star Alliance really reaches the critical moment of life and death, Ye Wushuang will definitely fight to the death for the Galaxy Star Alliance!

"Ye Wushuang, to remind you, sometimes baptism is not a bad thing, but removing corruption and keeping essence is also a tempering!"

"As long as you live, there is hope for everything!"

Fang Yue's last sentence was very soft, as if he was speaking to himself!

Ye Wushuang's figure went away without responding to Fang Yue.

Fang Yue continued to sit on top of the hill.

After not knowing how long, Fang Yue said flatly: "Does it really feel interesting for you to hide behind me like this?"

Fang Yue's voice fell.

There was no one around.

As the sun sets, the starry sky appears.

Fang Yue stretched out and spoke again.

"Come out when you are tired! I know you will definitely come!"

With Fang Yue's voice falling again.

A middle-aged man in a starry sky robe walked out. He was floating like an immortal, with a dusty temperament. He was accompanied by a wooden sword at his waist, which seemed to have no lethal power.

"Alpha Galaxy, Aoki!"

The middle-aged man didn't have any pretensions and sat next to Fang Yue. The two seemed to be friends who had been away for so many years to meet again.

Fang Yue nodded slightly.

"I have seen Great Sage Aoki!"

Fang Yue's tone was flat, but there was some respect in his words.

Yes, Aoki is the great sage of the Alpha Galaxy.

If it wasn't the Great Sage, his dormancy could not hide from Ye Wushuang.

"What a great sage is not a great sage! If you want to, give you a thousand years, I believe you can also set foot in this field!"

Aoki Fang Yue's evaluation was extremely high, and his attitude turned out to be somewhat of a peer-to-peer relationship.

Fang Yue smiled faintly: "Unexpectedly, I was not taken seriously in the Galaxy Alliance, but was suppressed. In the eyes of Alpha Galaxy, I became a baby bump!"

"Yes, baby bumps, your description of this word is in place! Many veterans and high-level leaders in our Alpha Star Alliance are very optimistic about you! As long as you Fang Yue nods and agree, our Alpha Star Alliance welcomes you to join and the highest The specifications will train you, techniques, secret skills, holy artifacts, what you want, we will provide you with what!"

Aoki's tone carried a faint expectation.

Fang Yue shook his head: "Thanks to the love, Fang Yue is used to being free and loose, and I don't want to join any organization anymore!"

"Pity!"

Qing Mu said a word, then the conversation turned around and it fell on Fang Yue.

"There are many rune ruins in the Galaxy Alliance, and I have them in the Alpha Galaxy! The key to opening those rune ruins is the legendary Rune Proof. Since you are willing to trade the rune Proof to the Silver Judge, it is the proof. You still have extra rune proof in your hand. How about you and I make a deal? Give us the rune proof, and you can put in terms at will! As long as we can do it, we won't refuse!"

Aoki seemed eager, but his tone was calm.

In fact, this so-called rune proof is of little value to him.

He has cultivated to his current realm level, it is already difficult for external forces to help him continue to improve!

Only an epiphany can take him to the next level!

Fang Yue shook his head: "Forgive me! Although Fang Yue is dissatisfied with the Milky Way Star Alliance, we are not going to betray the Milky Way galaxy and betray the country and seek glory!"

Fang Yue rejected Aoki.

Quite simply.

Aoki smiled and said: "Unexpectedly! Just now I spoke, I just tried a little with a glimmer of hope! If you promised my terms, I would be surprised!"

"Although I can't agree to the conditions you made, we can still talk about the transaction!"

Fang Yue's words changed.

It seems that there is a bright future.

Qing Mu was stunned, this Fang Yue's choice was a bit unexpected!

"I can tell you the ruins with the proof of the rune, the price is that you will give me 500 billion spirit stones!"

"Of course, you can also choose not to believe me, or think that the price is too high, and refuse my request, but as a price you will miss the Rune Proof!"

Fang Yue had an expression of your own choice.

Aoki couldn't help but smiled: "It's just a mere 500 billion spirit stones, even if it is lost, it is nothing!"

The spiritual resources of the Alpha Galaxy are originally richer than those of the Earth, and Aoki's position in the Alpha Galaxy is extremely high.

He really didn't pay attention to the 500 billion Lingshi.

"Pay with one hand, and deliver with one hand!"

Fang Yue spoke.

Without saying anything, Aoki took out a Galaxy Bank card.

"The VIP card of Galaxy Bank, direct transfer, you should accept this!"

Fang Yue was in a daze.

"Do you still have a VIP card from Galaxy Bank?"

"I have been in the galaxy for five hundred years, do you believe me when I say it?"

Seeing Fang Yue in a daze, Qingmu smiled very happily.

This Fang Yue has a lot of tricks, and he is always leading others by the nose, which can surprise him and make Qingmu feel very fulfilled.

"Transfer, transfer!"

The transfer is complete.

Fang Yue harvested another 50 million spiritual stones, which was real gold and silver, a harvest that most people would hardly find in a lifetime.

"This is the site where the proof of runes exists in the star of Helen! It is extremely dangerous. There are nine levels in total. I just got through the first level by chance and got eight proofs of runes. If I go deeper, the number of proofs of runes. The more!"

Fang Yue's caring exhortation made Aoki quite surprised.

"As an enemy, shouldn't you wait for our entire army to be destroyed? Why did you turn your head to care about our troops?"

Fang Yue showed an aggrieved expression, "Am I such a careful person in your hearts?"

Aoki nodded affirmatively, "Yes, you are such a person. Whoever integrates the galaxy does not know your character that Fang Yuejui will report! The silver armor judge offended you, how big the first thing was, you made people famous Chaos, I can't look up until now!"

Fang Yue couldn't help but smile. "This is true, but I think this is also a good thing. At least my reputation spreads. Most people don't dare to offend me, and they don't dare to attack the people around me. If they want to do it, at least think about me. The reaction and the fate that offended me."

Fang Yue was not ashamed, but proud of it, and even gasped as he spoke. He raised his head and showed my proud expression.

Aoki laughed blankly, unexpectedly that Fang Yue had such a character.

This is simply a little Poppy, I really don't know how such a person got here step by step.

Afterwards, Fang Yue looked at Qing Mu in surprise.

"Master Aoki, I have already given you the map, what are you still doing here?"

Aoki smiled and said: "I sent the map back, and someone will naturally be responsible for exploring the ruins, and I personally think that your value is far greater than a map!"

"The Galaxy Covenant has occupied Helen for so many years, and I have never seen anyone discover the traces of the evidence of runes buried in the Helen Star, and you just came here to get such a precious thing! This is not a person representing the Galaxy. Incompetence means that you are too smart! What's more, your potential is limitless. If I can convince you to join my Alpha galaxy, it will be a worthy thing, why not?"

Great Sage Aoki shamelessly even Fang Yue couldn't help it.

Fang Yue suddenly realized how others felt when facing him.

Chapter 1430: Smash it

Sure enough, the wicked have their own troubles.

Bah baah baah.

I am not a villain!

"Great Sage Aoki, thank you very much for your care and love, but I guess I really can't accompany you today!"

Fang Yue smiled suddenly, his smile bright, like the sun in the dark.

An inexplicable vigilance suddenly appeared in the heart of Great Sage Aoki. On the hill, a ray of silver moonlight fell, shining on the ground, and a faint cyan radiance immediately appeared on the ground.

The brilliance gathered and evolved into a cyan portal, which opened wide, as if leading to a mysterious place.

Fang Yue stepped forward, his own figure became blurred, as if he had never appeared before.

Great Sage Aoki's hair exploded, and the pupils in his eyes shrank slightly, "Stop!"

The Great Sage Aoki screamed, and the surrounding rocks collapsed into countless powder.

But Fang Yue's figure had disappeared before his eyes, completely entering the doorway.

Great Sage Aoki took a step forward and followed.

The next moment, his figure also disappeared in the portal.

"Great Sage Aomu welcomes to the secret realm of Qingyu!"

Fang Yue's voice rang in the ears of Great Sage Aoki. Great Sage Aoki saw Fang Yuezheng now behind his back, with his arms around him, with a faint smile on his face.

"Where is this place?" Great Sage Aoki looked around, and the door had disappeared when he came.

And the surrounding heaven and earth are extremely strong, and even suppress his cultivation base, only at the level of the ordinary master realm.

"It's a traditional ancient secret realm of Helen Star. It opens every three thousand years. Every time it opens, three thousand portals emerge. The time it lasts is only tens to hundreds of breaths. Endless treasures and historical sites, and even many fragments of ancient civilizations, this rune proof has a certain chance to be discovered, Great Sage Aoki, you should thank me for providing you with a great opportunity!"

Fang Yue's smile was full, but his smile made Great Sage Aoki's heart full of uneasy feelings.

Because Fang Yue's smile is so weird, why did he come to explore the secret realm, but bring himself with him.

"No, Fang Yue, why is my cultivation level suppressed, but you still have the rotation level?"

Great Sage Aoki instantly discovered the problem.

Could it be that this secret realm just suppressed him and not Fang Yue?

By the way, it's obviously unscientific!

Fang Yue gently shook his head: "The rules of this secret realm are like this, which will only cause a substantial suppression of cultivation bases against strong people above the master realm, and my little reptile at the rotation realm level will never be affected by this secret realm. Put his will in the eyes!"

"The stronger the existence, the easier it is to be paid attention to by the will of this world!" Great Sage Aoki has gradually noticed this.

He can vaguely feel an unfathomable will watching him all the time.

The will is extremely deep, like a deep prison, even as a great sage, Aoki dare not contend with it.

If it is simply suppressed and cultivated to the realm, Great Sage Aoki still feels nothing.

But it hurts to follow Fang Yue next to him.

What kind of master Fang Yue is? No one knows the two galaxies.

Said it was a rotation level, but the ghost knew how strong his combat effectiveness was.

The peak of the leader realm or the level of the saint realm?

Great Sage Aoki felt that if the two of them broke their wrists in their current state, they would not necessarily be Fang Yue's opponent.

This guy did it on purpose!

Great Sage Aoki glanced at Fang Yue, but there was not much fear.

As a great saint, he naturally has his own cards to save his life.

"Great Sage Aoki, we can say that we are in this secret realm this time to help each other in the same boat. We need to let go of past grievances and work together!"

Fang Yue's attitude towards Great Sage Aoki is quite sincere.

Great Sage Aoki is a little flattered, this is not what Fang Yue did in front of outsiders.

Isn't he not even convinced by the Galaxy Alliance?

Do you want to confuse the air every day when you have nothing to do?

"It's dangerous in this secret?"

Great Sage Aoki looked at Fang Yue in surprise.

"The baby you don't want is not dangerous. If you want to gain something, it is likely that neither of us can get out alive!"

"So dangerous?"

The Great Sage Aoki was terrified.

"My life is very precious! If you are adventurous, go and I will go home!"

Great Sage Aoki turned around to leave.

Fang Yue said blankly: "There is no way back! This secret realm has left the passageway, and it will only be opened again on the tenth, thirtieth, and ninetieth day after the secret realm is opened. If these three secret realms are opened and you cannot enter the exit channel, you will have to be trapped in the secret realm and wait three thousand years before you can leave!"

Great Sage Aoki was horrified.

There are such special rules in this secret environment?

"The life of the Great Sage is very precious, but there is definitely more than one Great Sage who entered the secret realm this time! Because this Qingyu secret realm is the first secret realm in the legend of Helen Star, and there are endless opportunities hidden in it! There are even very ancient records that a strong man on the eighth step of the Great Sacred Realm took him in the secret realm for 30 days. When he went out, he reached the realm of Xuxian. His methods were almost universal. The earth is stronger than the general powerhouse in the virtual fairyland!"

Fang Yue's narration is still without any emotion, but when Qingmu heard this, he no longer repelled this secret realm so much.

"Fang Yue, do you mean that someone has achieved the level of the Great Sacred Realm with the help of this secret realm?"

Aoki's body was a little stiff, and he almost held his breath.

When he arrived in this secret realm of Qingyu, not only was his cultivation base suppressed, but his temperament was gradually detached from the transcendent Great Sage, and he became a normal practitioner.

"It's just a legend, no one confirmed it!"

Fang Yue's face was expressionless.

Some things are difficult for him to distinguish between true and false.

But this time, he directed everyone's attention to this Helen star, just to let more people enter the secret realm!

Aoki was silent, but his eyes were hot, and when he reached the level of the Great Sacred Realm, unless they encountered the fairy fate of Tianda, the external force could no longer assist them to break through the existing realm again! From the Great Sage to Xuxian, every step is extremely difficult.

Even if it is only one in a thousand possible, he will use 100% of his efforts to obtain all the opportunities and possibilities in this secret realm!

"Wow!"

A long howl came from the forest not far away.

Then, a lone wolf with blue hair slowly walked out of the forest.

"Aren't wolves a prairie animal?"

Fang Yue felt a little surprised.

"This wolf is at the Yin-Yang level! Are you or me?"

Qingmu's gaze was solemn, and as expected, this Qingyu Secret Realm was extraordinary. They had only first entered the Secret Realm, and they encountered a lone wolf at the Yin Yang realm level.

"I come!"

Fang Yue took out a machete and slashed at the lone wolf.

Afterimage, passing by.

The figure of this lone wolf was unexpectedly agile.

Fang Yue's back was torn apart by the lone wolf's claws, but there was no blood flowing out, just making Fang Yue's figure a little weaker.

Reiki clone!

Aoki had the urge to choke Fang Yue.

It was desperate for him to enter this secret realm. He only had this body, and when he died, he would have nothing.

And Fang Yue had just sent an aura clone to come.

However, Aura clone!

Great Sage Aoki has seen a lot of knowledge, and he naturally understands what this spiritual energy clone means.

This guy is well-deserved.

An aura clone is stronger than other deities of Tianjiao in the same realm!

Even more terrifying is that even he didn't distinguish the difference between Fang Yue's deity and clone!

"The realm of heaven and earth is extremely high, and thereafter godsend supernatural powers!"

Great Sage Aoki reminded him of the relevant introduction he had seen in an ancient book a long time ago.

If that were the case, it would also explain why Fang Yue could use his clone to compete against the saints at the level of the rotation realm!

"Unexpectedly, those legends turned out to be true! And they also appeared in the Galaxy Star Alliance. Fortunately, those people in the Galaxy Star Alliance have eyes and no beads, and don't know the value of Fang Yue. Otherwise, they would hide Fang Yuexue and cultivate Thousands of years, after a thousand years, Fang Yue will become a sage, maybe even the strong of the Great Sacred Realm can't hold him down! Five thousand years, Fang Yue has become a great sage, and he may be able to challenge the Xuxian at his peak!"

Great Sage Aoki looked at Fang Yue with different eyes.

But his eyes were clear, and he didn't want to kill Fang Yue.

An aura clone, killing it is no use.

"This lone wolf is very weird, no matter if it is its own physical body, it is in the ultimate state in the same realm!"

Fang Yue's momentary mistake caused physical injury.

But he was ready, and a pile of spirit stones like small hills appeared beside him.

The spiritual energy evaporates, filling Fang Yue's body, allowing Fang Yue's injury to heal instantly.

This body is originally composed of Reiki, even if it is injured, it only needs Reiki to fill it up!

Fang Yue lacked everything, but there was no lack of spirit stones.

Aoki was dumbfounded.

This aura clone originally had this advantage.

No wonder Fang Yue is so keen on collecting spirit stones, it turns out that this spirit stone still has this effect in his hands.

Turning around, Fang Yue slashed with a knife.

With a clang, the machete in Fang Yue's hand cleaved out a string of sparks.

The lone wolf wailed, and a faint blood leaked from his fur.

However, the blade of the machete in Fang Yue's hand also rolled up, and he couldn't use it anymore.

"What a strong defense!"

Fang Yue exclaimed again.

What he saw in his hand was a magic weapon at the Yin-Yang realm level, and even strong masters in the master realm would be injured if they were not specifically cultivating their bodies.

And the level of the lone wolf Yin-Yang realm was only slightly injured and it even smashed the blade of the machete.

This lone wolf's skin is rough and thick.

"True Qi, physical body, and defense are all in the ultimate state of Yin and Yang, almost without flaws!"

After Fang Yue tried.

He threw away the machete in his hand.

"Useless things, waste time!"

Fang Yue is considered a typical example of bridge demolition across the river.

The Great Sage Aoki was a little speechless.

The lone wolf's eyes were scarlet, and he culled again.

"Fang Yue needs me to help?"

Great Sage Aoki said politely.

Fang Yue had already taken out the mountains and rivers at the leader level, and smashed the head of the lone wolf with a loud sound.

Aoki Dasheng Petrochemical.
