

## God of Life 1431

### Chapter 1431: Looting

This Fang Yue is really good.

This lone wolf is powerful, he is even more powerful.

It seemed just a test just now, Fang Yue really made a move, and the lone wolf was killed in one move.

"Fang Yue, was the mountain and river clang you just took out?"

Great Sage Aoki asked cautiously.

"Yes! It's easy to use!"

Fang Yue waved the weapon in his hand, and the ghost knew who had snatched it from.

"But why do I think you have a brick in your hand?"

Great Sage Aoki told his true feelings in his heart.

Shanhe Dang, isn't it in the legend that sound waves were used to attack and kill?

When has this thing been used as a brick?

"This, used to it, used to it!"

Fang Yue laughed, he really didn't know how to play with this weapon!

Fang Yue did not speak, and then silently dissected the lone wolf's body.

He took out a purple spar from the head.

"This... is it the legendary purple star crystal?"

Fang Yue weighed the spar in his hand, it was only the size of a baby's fist, but the energy in it was extremely pure, and it exuded a faint star power.

Great Sage Aoki nodded slightly: "It is indeed a purple star crystal. This thing is extremely rare even in the Alpha Star Alliance. It cannot be synthesized. It can only be found in the deepest part of the Star Crystal Mine. Its energy density is extremely high. And the energy form is stable! Rare, rare, and it is a priceless consumable!"

Fang Yue's surprise: "How much spirit stone is this thing worth?"

"Lingshi? Don't you know Fang Yue? Star crystals above the cyan level are not measurable by Lingshi. Only by exchanging objects can their value be reflected!"

Great Sage Aoki felt that the Milky Way Star Alliance had destroyed the child.

A good fairy seedling makes it so ignorant and ignorant.

Fang Yue stuffed the purple star crystal into the storage bag.

I didn't expect it to be a surprise.

Of course, this lone wolf is not so easy to kill.

For another person, even at the level of a newcomer to the master realm, facing such a comprehensive lone wolf, there are more defeats and less victory.

In this kind of competition, failure is death!

The lone wolf doesn't understand the concept of letting go!

"This wolf meat is also a good thing, it is rich in the essence of this lone wolf body, eating a piece of meat is worth an ordinary pill of Yin and Yang level!"

Great Sage Aoki did not hesitate to advise.

Now he and Fang Yue are grasshoppers on the same rope.

Only then has the periphery encountered such a tough opponent.

If it goes deeper, there is no teammate or anything, the Great Sage Aoki is really afraid that he will eventually capsize in the gutter!

"it is good!"

Fang Yue released dozens of Zerg at the rotation level.

Then let them share the corpse of the lone wolf.

Great Sage Aoki looked at Fang Yue in amazement again.

"You can summon the Zerg?"

"This is the power of the contract. This power allows me to summon the creatures who signed a contract with me, but it cannot let you and me leave!"

Fang Yue glanced at Great Sage Aoki.

The stronger the person, the more afraid of death.

This is true!

Fang Yue always thought he was timid, but he didn't expect this Great Sage Aoki to be even less timid.

Finally I was able to despise others in such things as greedy for life and fear of death.

This feels so cool!

Great Sage Aoki can't read minds, and doesn't know Fang Yue's mental activities.

The lone wolf was quickly eaten by Fang Yue's Zerg, and these dozens of Zergs in the rotation realm really benefited a lot. Half of them stepped onto a new step, and the other half entered two small realms!

The Great Sage Aoki finally understood why people in the entire universe were afraid of the Zerg.

This growth method is too simple and rude!

"The meat of these lone wolves is indeed a good thing, and I am worried that I can't cultivate these zergs!"

Fang Yue looked at the continuous evolution of the Zerg under his hand and felt happy.

The stronger the Zerg's strength, the stronger the power he controls!

"Don't kill me, don't kill me!"

There was a hurried begging for mercy in the forest.

A ragged guy stumbled out of the forest, his eyes were full of horror.

And behind him is chasing a big bear from the third floor of the leader realm. The big bear is fast, not the slightest big bear, the clumsy appearance of Xiong Er.

Sure enough, the cartoons are all deceptive!

The ragged guy saw Fang Yue and Great Sage Aoki, as if he had met the savior, and called them frantically, "Help me, help me!"

Fang Yue slowly took out a longbow at the master level.

With the bowstring full of the moon, a cyan arrow composed of faint star power appeared on his bowstring.

Whoosh.

The arrow fell off the string.

The arrow did not hit the big bear, but pierced the shabby guy through his brows!

"Why, why?"

The ragged guy fell and died, he couldn't stand his eyes.

Obviously, they have already seen the same clan, but they not only failed to save them, but also fell into trouble.

"Kill the wrong thing?"

Seeing Fang Yue shooting the rags, Great Sage Aoki was also a little surprised.

"Yes, just kill him!"

"He brought this big bear to us, obviously with the idea of causing trouble. I'm tired of playing this set. He actually wants to use it to calculate me?"

Fang Yue put away the long bow in his hand.

The big bear stopped.

"Are you tired of playing?"

The Great Sage Aoki was speechless again. What was it that he had encountered, the guy who was kidnapped, kidnapped and committed all evil, slapped and threw bricks behind others every day?

However, Fang Yue's cold-bloodedness and rationality made the Great Sage Aoki Fang Yue's evaluation even higher.

Only such a character can survive smoothly in this sinister environment!

"Are you the team leader of this forest?"

Fang Yue talks with Big Bear.

Fang Yue got the ability to talk to all creatures from the Xuanhuang world.

Yan Dong, a hapless man killed by Fang Yue.

His ability is to command the beasts.

Fang Yue's orders are hard to say, but there is no problem with equal communication!

Big Bear is very upright.

He has not yet evolved the IQ for lying and deception.

What did Fang Yue ask and what did he answer.

After the two talked and exchanged, Fang Yue quickly learned about the forest.

"You can speak beastly?"

Great Sage Aoki felt that Fang Yue was omnipotent.

"A little bit, not too much!"

Fang Yue is very humble.

Be careful to make Wannian ship.

People who are too ostentatious die early.

In the last life, he was pretending to be B too much, and he was struck by lightning.

Big Bear soon left.

It has the intuition of a beast.

Fang Yue must be better than him.

At least, Fang Yue's fur just couldn't resist the arrow.

Seeking advantages and avoiding disadvantages is the instinct imprinted in the bones of every creature!

"Is there any key information?"

Great Sage Aoki asked anxiously.

"Not many. This big bear is also a member of the outer forest. Although it can be regarded as a small lord, it is more than a grade different from other creatures!"

Fang Yue told Great Sage Qingmu what he knew.

"There are five levels in this forest. The highest level is the king, the generals are below, then the leaders, and finally the bosses and pawns! The lone wolf I killed just now belongs to the level of the boss, and the big bear is the leader. , If this realm is classified according to the great realm, there may be sages and great sacred realms in this forest, and there is no seal cultivation base at all, you are a half-hearted great sage!"

Then, the air suddenly became quiet.

Great Sage Aoki looked at Fang Yue with eyes full of resentment.

I want to go home!

Fang Yue understood the meaning in the eyes of Great Sage Qingmu.

But love can't help.

"The good news is that in this forest, as long as you have spared the king and the commander's trump card, you and I should be able to run wild. The bad news is that the stronger the creature, the more opportunities to guard. The lone wolf just now, guard A glance at the cold pool, if this cold pool is immersed in the body, the body's potential can be radiated and strengthened! The water in the cold pool will have the same effect!"

Fang Yue opened his mouth.

The resentment in the eyes of Great Sage Aoki disappeared.

"What you are talking about is the ancient cold pond of thousands of years, the water in it can refine the elixir of the Saint Realm! Although it is not the main material, it can still be said to be invaluable!"

At this time, Great Sage Aoki didn't mention anything about going back.

On the one hand, it is said that it is meaningless, and on the other hand, if a lone wolf at the Yin-Yang level can guard the cold pool of 100,000 years.

What about the existence of a more powerful leader, generals and kings?

This is really tempting!

"The bad news is that many other people have entered this forest. I am worried that their presence will lead the king and generals of this forest to patrol and clean the snake! And the person I killed just now is not the Milky Way. The people of the Star Alliance are not from the Alpha galaxy, but from the more distant Pegasus constellation! The people from the Pegasus constellation are also eyeing this secret realm, and they may send quite a few people!"

Fang Yue and Great Sage Aoki kept talking.

Great Sage Aoki gradually lowered his guard against Fang Yue.

Of course, friends still have nothing to do.

After all, the camps and positions of the two sides are different.

But they can join forces temporarily! Although no one pointed out, they have secretly become an alliance of mutual assistance.

"Wait a minute, the trees here are pretty good, I'll bring some back!"

Fang Yue said astonishing again.

Great Sage Aoki began to wonder if his decision to form an alliance just now was wrong!

Is this Fang Yue a peeler?

Why does he want everything!

Everyone is here to look for opportunities, do you think they are here to search the land?

Pull the tree, your sister!

Isn't it that the movement is not big enough to attract those kings and generals?

Fang Yue did what he said. He summoned thousands of little skeletons, and these little skeletons received Fang Yue's resource subsidy after helping Fang Yue to work. Now they have basically reached the level of innate realm, and some have even evolved to the realm of heaven and earth!

They saw that all Fang Yue's summons had come.

Because every time Fang Yue benefits them, they will benefit a lot!

Some of the little skeletons are holding shovel, some are holding shovel, and some are driving an excavator. The name of Lan Xiang is printed on the excavator.

Fang Yue's team made Great Sage Aoki subvert his cognition again.

What exactly has Fang Yue encountered over the years, such a realm, such a cultivation level, has fallen to the point where he is demolished every day.

But soon, the expression on Great Sage Aoki's face became stiff.

Is this Fang Yue crazy?

The little skeletons under his hands soon consumed nearly ten acres of forest in front of him.

The bare wasteland gives people a feeling of potholes.

### **Chapter 1432: Large pythons**

Not to mention that the trees are gone, even the flowers and plants that grew on the ground are all gone.

There was no expression on Fang Yue's face.

It seems that this kind of thing has become accustomed to him.

"Fang Yue, are you really down to this level?"

The Great Sage Aoki has a feeling of subverting the three views.

In his eyes, Fang Yue was also a peerless arrogant of the Milky Way galaxy anyway, a man of face and status.

Even though it is not favored by the Galaxy Star Alliance, it is said that Fang Yue has a close relationship with Galaxy Bank and Vientiane Pavilion?

How could he fall to this point?

Fang Yue said with a surprised look: "Sage Aoki, you have a mine at home! This is a baby everywhere, you don't even look at it? Look, what is this flower I picked off? Yinhua, this is a peerless treasure for refining the Yin-Yang level pill, Wuyin Dan! Each misty hidden pill can create a misty hidden spirit body, although this physique is not very strong in combat, but they it can atomize one's own physique, which is difficult to kill!"

"Big guy is big guy, it really is different!"

Fang Yue praised.

Great Sage Aoki was flushed.

Misty Flower, why didn't you say it earlier!

I have also heard of this misty pill.

Although it was only an elixir of Yin and Yang level, it was able to forge a kind of spiritual body. This elixir was priceless, and it was a legendary existence in the Alpha Galaxy.

But then again, even though I am a strong person at the Great Sacred Realm level, I am not proficient in pill medicine. How can I accurately distinguish these flowers and plants, which one is useful and which one is not? What is it for?

Just take it all away, then take it back and let your subordinates slowly recognize it!

Great Sage Aoki finally understood why Fang Yue would make such a crazy move, because Fang Yue guessed that he didn't know these flowers, flowers and plants, those were really useful, and those were useless at all!

What a treacherous kid.

Great Sage Aoki's face changed slightly.

He also started pulling trees and weeding.

However, the Great Sage Aoki is just a person after all. Although he is very efficient, he can't use his supernatural powers, change the world, and be rude. In case of damage to the flowers, there is no value.

On the other hand, Fang Yue's work was in full swing.

The professional is different from the non-professional.

This Fang Yue should be from a robber and bandit major!

Great Sage Aoki complained in his heart.

Fang Yue has already consumed 30 acres of forest.

At this time, the owner of this forest was finally alarmed.

A white big python snake with the thickness of a bucket appeared in front of the two slowly from the depths of the forest.

"The boa constrictor of the fifth level of the leader realm!"

Fang Yue swallowed his saliva.

Although this python had a profound realm, it was not enough to make Fang Yue so shocked.

The point is that the python is still young, not in a truly mature state.

This also means that the python should have parents behind it.

Pythons in their juvenile state have this kind of cultivation strength. What level of realm are adult parents?

This young python is not easy to kill!

A feeling of helplessness grew in Fang Yue's heart.

Unexpectedly, when I first came to this ruin, I met a difficult master.

"I'll deal with this big python!"

Great Sage Aoki didn't have as much as Fang Yue thought. When he shot, he covered the sky with one hand.

A huge palm covered the sky and the sun, stirring the universe, and even the sun, moon and stars on the horizon became dim, as if all the brilliance was lost under the palm of Great Sage Aommu.

The shot of the Great Sage is really extraordinary, and the shot of the Great Sage Aoki is a big scene, great magical powers.

The palm pressed down with a bang.

That python was crushed directly into a meatloaf!

A snake gall appeared from the body of the python, which turned out to be an extremely rare purple gold snake gall.

This thing can be used to cultivate magical powers such as pupil art, which is quite precious.

The snake gall of the python was caught by Great Sage Aoki, and his face couldn't help showing a triumphant smile.

"With this purple gold snake gall, I can practice unparalleled pupil art. The value of this thing can keep pace with an ordinary saint-level magic weapon. It can be used as medicine, and it is also quite precious. It can dissolve almost all saint-level objects. Very toxic!"

Great Sage Aoki triumphantly, as if he was rejuvenated and turned into a child, he put the purple gold snake gall in his hand, showing a cheerful smile.

He was showing off to Fang Yue.

And Fang Yue pointed to the back position of Great Sage Qingmu.

"Ok?"

Great Sage Aoki looked back following the direction pointed by Fang Yue.

A super python with a diameter of tens of meters appeared behind the Great Sage Aoki, its pupils exuding colorful brilliance.

The huge fangs are like inverted mountains.

Dasheng Aoki's body is stiff.

This turned out to be a huge python of the third level of Saint Realm.

"The young ones have come to the old ones! Great Sage Aoki, you have caused a disaster!"

Fang Yue reminded the Great Sage Qingmu next to him.

But this time reminded that the day lilies are already cold.

Great Sage Aoki ran away.

"Fang Yue, why didn't you say it earlier!"

Great Sage Aoki ran faster than anyone else. He ran the law of the wind. This law had reached the fourth level, and at the same time, he ran his supernatural powers. This speed couldn't even catch up with ordinary saints!

"I want to remind you too, but you are so fast!"

Fang Yue stood in a different place, shouting in the direction of Great Sage Qingmu's escape.

Fang Yue didn't have to run away, because the death of the young snake had nothing to do with Fang Yue even half a dime.

From the start to the autopsy, it was all the actions of Dasheng Aoki alone.

This Great Sage Aoki is simply too bad. If the snake is dead, he still has to extract the treasure from the body?

The huge python looked at Fang Yue.

A hesitation flickered in its eyes.

In the python world, there is only life and death, only revenge, and there has never been such a word as innocent.

According to the truth, if his own child is dead, this human being has an unshirkable responsibility to stand by.

But the problem is that this human being has an unfathomable feeling.

This is from the instinct of wild beasts, which is the greatest reliance and means given to them by God to survive.

It must be true if it feels Fang Yue's unfathomable.

In the end, the python spared it and frantically began to hunt down Great Sage Aoki.

Fang Yue's mouth curled up with a slight smile.

The IQ of this python seems to be quite good.

If the python makes a move, Fang Yue doesn't mind letting the python know what life and death is.

Although this sage-level python was powerful, Fang Yue already had dozens of more talisman in his hand.

All these talismans were purchased by Fang Yue from the Wanxiang Pavilion before entering the secret realm.

The cultivation base is suppressed in this secret realm, but the power of the talisman is not suppressed.

Every talisman burns, and the power emanating from it will not be weaker than the power of a saint realm powerhouse with all-out effort.

One or two pieces of talisman may not kill this python, but if ten pieces and twenty pieces fall down, the python will definitely die!

In a short while, Great Sage Aoki strolled around and then came back by himself. There were beads of sweat on his face, crystal clear, reflecting colorful light in the sun.

"Tsk tusk, this great sage is different, even sweat beads are colorful colors!"

Fang Yue said strangely.

Needless to say, that huge python had been killed by Great Sage Aoki.

This python looks extremely cruel, it may be at the third level of the Saint Realm, the pinnacle level, but even if the Great Sage Aoki is suppressed and cultivated, it is impossible not to be the opponent of this python.

Great Sage Aoki has many methods, all at the level of the Great Sacred Realm, any of them can suppress the ten directions, far from what this big python can match.

The two are not on the same level at all, even if the boa constrictor can suppress the great sage Aoki in the realm, the reason why the great sage Aoki made that embarrassed appearance just now is because he wants to draw the boa constrictor away. Fang Yue did not see his method of killing the boa constrictor.

This belongs to the personal trump card of Great Sage Aoki, and everyone who has seen it is dead!

Fang Yue is naturally very clear about the calculations of the Great Sage Aoki, but the relationship between the two is still an ally, although the friendship is fragile, not even as good as plastic, but there is no time to tear this layer of skin.

"Fang Yue's big boa constrictor is really powerful! Its body and soul are all intact, and it is considered to be outstanding in this realm. Moreover, its deity is huge, and its true energy is several times that of the same-level human cultivator. So many!"

Great Sage Aoki wiped the sweat beads on his forehead.

Fang Yue complained about the power of this big python, but the smile on the corner of his mouth couldn't hide it.

This means that the Great Sage Aoki may have received a lot of goods in the process of killing the boa constrictor!

"Great Sage Aomu, there are dangers everywhere in this secret realm. They are all institutions. Although I know your strength is strong, if possible, next time you attack the beast, try to figure out the identity and background of the other party first! The python that I encountered at the beginning has not yet completely shed its skin for the first time. It should be an infancy python, and its realm has reached the level of the leader realm, which proves its extraordinary bloodline. Even in this forest there may be the existence of its parents or even grandparents. This kills one, and it is likely to attract a nest!"

Fang Yue is reminding Great Sage Qingmu to think twice before doing it.

The Great Sage Aoki whited Fang Yue and said, "If you reminded me earlier, I wouldn't have done anything with that baby python. We are now grasshoppers on a rope. We will have this kind of thing next time. If you do, you have to say it earlier!"

Great Sage Aoki also complained against Yue.

Fang Yue didn't take care of the great Sage Qingmu.

You are the Great Sage, how many years have you lived?

Your life experience should be more abundant than mine, do you need me to remind?

### **Chapter 1433: Unreasonable**

Fang Yue's eyes were filled with faint resentment.

Great Sage Aoki blushed a little too.

He didn't say anything.

Wait a moment.

Fang Yue bent over and drew a small circle gently with his fingers on the soil on the ground.

"What are you doing?"

Great Sage Aoki asked curiously.

"Outline the rune! Don't look at me, this is just a small circle, which contains a breath of the laws of the earth. This breath can merge with this land and form resonance, so that I can listen to the sound of the earth and know the radius All changes within a hundred miles!"

Fang Yue closed his eyes, and one picture after another appeared in his mind.

This rune civilization is powerful, and some extremely fine fragments of civilization contain such methods.

This is not weaker than a kind of innate supernatural power, but it is expressed in the most basic runes.

Great Sage Aoki nodded slightly, thoughtfully, this time he didn't speak easily, but thought about the meaning of Fang Yue's move.

If they were to cover the surroundings with divine minds and explore the surrounding area for a hundred kilometers, they would naturally be able to do it easily.

But the ghost knows whether there is a horrible existence within a hundred kilometers that can detect their divine consciousness.

If there is, it is dangerous.

In that case, it's like saying, I'm here, come and play with me!

And Fang Yue's use of runes to detect the surrounding environment will have such bad side effects?

Obviously not!

Rune explores the ground, this is a means of rune civilization, and rune civilization has long disappeared in the long river of history, I don't know how many years it has been!

A rune can resonate with the earth.

This is exploring with the help of the will of the earth.

And will the fierce beasts in this forest be wary of the will of the earth?

Obviously impossible!

"Rune civilization, rune civilization, really incredible! However, I also have a lot of rune civilization achievements in the Alpha Star Territory. Unfortunately, for so many years, I really want to know rune civilization, but there are few people who dig into it. There are so few, almost non-existent!"

Great Sage Aoki sighed slightly, his face was full of regrets.

At this time, Fang Yue already knew all the creatures in a hundred li radius.

There was a colorful light in his eyes.

"I know, I know! This forest structure with a radius of 100 miles actually presents a three-layer structure of outer layer, middle layer, and inner layer. Our position is in the transitional position between the outer layer and the middle layer. If we continue to deepen, You can enter the inner layer of the forest, and there is the oldest ruin in the inner layer of the forest, and in this ruin is the biggest treasure around here!"

Fang Yue's excitement is that these fierce beasts who are responsible for protecting the ruins can get such a rich harvest after beheaded.

And if the ruins in this forest are excavated, the value is definitely priceless!

"Come on! There are treasures everywhere here!"

A cheerful voice came from a distance.

Then the voice quickly approached.

Fang Yue saw that a space portal suddenly opened about ten kilometers away.

A group of figures followed the direction of the portal into this forest.

Each of these figures gradually changed from outlines to real figures. About twenty or so people, all of them were cultivated at the master realm level. This is the result of being suppressed by this secret realm. As for their presence in the outside world Fang Yue couldn't know how powerful it was.

These people are all from different planets and different planes in the Galactic Alliance. Their clothes are different, and even their races are different. Some of them have the horns of real dragons, and some of them are gray. Dilapidated wings!

They do not belong to the human race, but are powerful men of different races.

After they saw the forest, their expressions were quite surprised, especially when one of them seemed to have discovered something incredible.

"Here, right here, this is where a piece of the divine fire mine is located. The divine fire mine is the raw material for forging saint realm weapons, even if it's just a palm-sized piece, it's priceless!"

One of them had a confident expression on his face, and he was full of confidence, quite sure that there was a sacred fire mine at the feet of Fang Yue and Great Sage Aoki.

He is a military refiner, and he is particularly sensitive to the raw materials of weapons. At the same time, he travels all year round. Sometimes in order to refine weapons, he has to find materials that are not available on the market.

Other people also have their own professions, and can find the value of different materials.

Their team is more professional.

On the contrary, it is Fang Yue and the Great Sage Qingmu, who are more like bandits. They are indiscriminately plundered together.

"Why are you two still standing here? Didn't you expect us to come? The place we fancy is ours!"

The refiner who discovered the sacred fire mine yelled at Fang Yue.

They have a large number of people, not to mention that everyone in this secret realm can only use the cultivation method at the master level at the most. No one is afraid of anyone, and a large number of people often represents a strong influence. From this aspect In other words, they have an advantage.

Great Sage Aoki was taken aback for a moment, he was about to make a move, but Fang Yue reached out to stop him.

"Fang Yue, what are you doing?"

Dasheng Aoki's tone was a bit bad.

He has been a great saint for so many years, no matter where he goes, everyone treats him respectfully, even breathing carefully, for fear of disturbing him.

But what are these people doing?

Berate him, provoke him.

Is this looking down on him in the heart?

Dasheng Aoki became more angry as he thought about it.

He raised his fist and was about to greet the soldier's cheek.

However, Fang Yue stopped him and told him to stay calm.

"This place is very complicated, let them explore the treasure, dig it out, and then we kill them all before leaving the secret realm! What are you doing with the death?"

Fang Yue's words were transmitted in secret.

When the Great Sage Aoki heard this, he couldn't help being slightly surprised, and then took a deep look at Fang Yue.

This Fang Yue had a thick skin and a dark heart, and was even more cruel than him.

But his suggestion has to be said to be very exciting.

"In fact, these people also have the role of pathfinder. If they die here, it will be cheaper for them!"

Fang Yue added another word secretly!

Great Sage Aoki nodded slightly and agreed with Fang Yue's idea!

However, Fang Yue and Great Sage Qingmu were going to let these people go for a while, but these people didn't plan to let them go.

"You came here early, we should have already got a lot of benefits in this forest, I don't make it difficult for you, hand over one-third of your income, we protect you two in this secret environment!"

One of them came out with a jet-black beard on his face, and each beard was as tough as a wire, attached to his face like a ball of steel wire.

His eyes rolled. Round, fierce and evil.

The Great Sage Aoki is on fire again. It is tolerable or unbearable. How can a great Sage of mine be smashed and robbed by your group?

He raised his fist again, murderous,

"Yeah, it's hard, you dare to do it to me!"

With a beard full of disdain, he looked at Great Sage Aoki as if he was looking at a dead person!

Their twenty-odd people are all cultivated at the master level in this secret realm, and if they join hands, it will not be a problem to deal with the two people in front of them!

"Uncle, calm down, my brother offended the uncle on impulse, it is our fault! One third of the income, good, good, good! Do you think this is enough?"

Fang Yue walked to the beard in a low voice and reluctantly took out a jade bracelet from his storage bag.

This bracelet looks quite beautiful from the outside.

A faint glazed lustre flowed under the sun. The most important thing is that there is a sleeping dragon inside this bracelet if you look closely.

"The master-level bracelet contains a sleeping dragon, which should also be in the early stage of the master-level! If you drop blood to recognize the lord, you will not only get a treasure bracelet, but also the master-level flood dragon. Amazing, amazing! I didn't expect you to get such a precious jade bracelet in such a short time in this secret realm!"

The beard repeatedly praised Fang Yue, and his eyebrows were beaming.

And Great Sage Aoki frowned slightly and stopped the movement in his hand. What kind of medicine did Fang Yue sell in the gourd?

This bracelet was not obtained in this forest at all, if he expected it to be not bad, it should be Fang Yue's own personal belongings.

But why would he take out this bracelet to honor his beard?

After playing with the jade bracelet for a while, the beard became vicious and said: "Bold thief, stealing my baby, you are really guilty of death!"

When the other party Yue yelled, the beard's gaze settled on the storage bag on Fang Yue's waist.

Fang Yue glanced at his beard and naturally understood that the greed in the other party's heart was already a harvest that made him dissatisfied and unwilling to be content with a small jade bracelet.

He must be thinking that since this guy can come up with this jade bracelet at the master level, it proves that there is something more important on him!

Fang Yue saw through the beard's mind.

And all this is exactly what Fang Yue wanted!

"Not stealing, not stealing, this is what I got in the forest!"

Fang Yue pretended to be sincere and fearful, and you quickly defended.

But how can the beard hear this?

He was framed and slandered, and he didn't care about the truth of the matter at all!

His purpose is to find a crime indiscriminately, then kill Fang Yue and take his possessions as his own!

The brutality of the beard is disgusting.

However, the current situation is that the situation is better than the people, and the bearded gang has an absolute advantage in terms of number.

It is definitely not something that Fang Yue and Great Sage Aoki can compare!

Fang Yue looked at his beard, his eyes were full of fear.

"I have given you my baby, why do you want to kill them all!"

Fang Yue's pitiful and hopeless and helpless look didn't let the beard's conscience discover it, but made him worse off as if it had strengthened the evil thoughts in his heart.

#### **Chapter 1434: Mining army**

"Haha, this is all you asked for! Whoever made your cultivation level so low came to this secret realm to explore treasures, you can rely on your cultivation realm to be able to gain something even in this secret realm Can you still take the treasure you got out of this secret realm? There are no doors. Entering this secret realm above the sage is the most basic level of cultivation. You are the cultivation base of the rotation realm. , Can't even hold one of our little thumbs!"

The tone of the beard was full of mockery.

His wicked look is now too poor to see, and there is no cover up!

Fang Yue was a lamb to be slaughtered in his eyes. Although the Great Sage Aoki next to him seemed to be suppressed at the level of the leader, he should not be a weak one, but his beard did not put him in his eyes.

There are more than twenty people, and there are so many people, this Great Sage Aoki must have died even if his little companion really died, he has no courage and courage to retaliate!

Fang Yue shook his head a little when he saw this beard chasing him and persecuting him so hard.

"You guy really doesn't know if you see it right! Didn't your teacher remind you? Some people you can afford, some people you can't afford, before you want to do something to some people, you must first It's good to find out the details of the opponent! Is it true that the level of the rotation realm can't beat the leader realm? Not necessarily!"

Fang Yue suddenly straightened his back, this plan couldn't keep up with the changes.

Alas, if you don't do it, you won't die, but some people just want to do it by themselves!

Fang Yue didn't bother to play with these people again.

"Give you a choice, either get out now, or stay here forever, no one will leave!"

Fang Yue's patience was limited, and he broke out instantly.

And the Daoist Qingmu next to Fang Yue stopped him and kept reminding him: "Be calm, be calm, and expect them to take us to find the treasure and lead us the way!"

Taoist Qingmu took out what Fang Yue had just advised him to dissuade Fang Yue.

Brother, who's got the fisherman's profit just now.

Are you calm?

What about your sanity?

This petty temper!

"Hmph, even if I kill them all, I still have a way to let them lead the way!"

Fang Yue's tone was cold and blunt. This time he was really angry. It was just a clown who dared to jump around in front of him?

It's really a tiger who doesn't show off your power and treat you as a sick cat

Fang Yue's attitude made the bearded people look funny and unexpected.

Wasn't you very scared just now?

Why did it suddenly break out!

"You are crazy! A mere spinner guy actually talked to us like this!"

The bearded counterpart Yue sneered.

A bright smile suddenly appeared on Fang Yue's face.

"Introduce yourself, my name is Fang Yue! You should be familiar with my name!"

Fang Yue said his name.

The twenty-something people all showed a dazed expression.

"Never heard of it!"

"Really never heard of it!"

"Who, is it famous?"

The expression of the twenty-something person instantly solidified Fang Yue's expression, his heart seemed to have been hit by a truck with hundreds of thousands of tons.

"Don't you watch the gambling between the two galaxies?"

Fang Yue asked further.

"Cut, what does those things have to do with us?"

"The sky is falling and there is a tall person against it, even if we pay attention to it, what can we do? In the end, the Galaxy Star Alliance should be defeated or will be defeated. We can't change it!"

They gave you a glance and I said what they really thought in their hearts.

Fang Yue became more and more speechless.

"Hahahaha!"

The Great Sage Aoki next to him was already laughing from ear to ear, but he didn't expect that his calculations were as savvy as Fang Yue would have a stalemate.

Interesting, it is really fun!

"It's embarrassing! But you didn't know it was OK before, you will know later!"

The expression on Fang Yue's face became gloomy.

A faint radiance of stars condensed on his fist.

Bits of brilliance condensed toward his fist, pushing slowly, and the light was brilliant.

A punch fell, crushing all directions.

The whole world seemed to collapse completely.

The beard's face gradually became dignified, and this fist actually contained the law of light!

Fang Yue, Fang Yue, this name seems to be an impression.

"I see! This is Fang Yue who is facing the silver armor judge. He is powerful against the saints. He is only at the level of the rotation realm. This secret realm will not suppress his cultivation at all!"

There was a look of horror on the bearded face.

Damn, it really kicked the iron this time.

His voice has not fallen, his fists have fallen, and the brilliance of his dazzling brilliance is so dazzling that the entire world is completely illuminated.

It was like a round of sun slowly setting.

Everything is silent, everything is annihilated.

The bearded body became fly ash.

He opened his mouth wide and watched his body disappear inch by inch!

The other people are all standing upright.

They knew the strength of the beard, and in the outside world, he was a powerhouse at the pinnacle of the leader realm.

Although he has never reached the level of the Saint Realm, it is the first-order existence below the Saint Realm!

But this kind of strength is so vulnerable in front of this Fang Yue.

This Fang Yue's true strength is really terrifying!

The others were silent.

The hand that Fang Yue revealed shocked their hearts!

"Is this Fang Yue really a cultivator at the rotation level? Even the strong masters of the leader level can't withstand a single blow in his hands. If he becomes a defeated general, he will reach the level of Yin and Yang in the future, wouldn't he be able to shock the saints!"

In the team of twenty people, one of the women spoke, and she sighed. She was not surprised by Fang Yue's strength just now. It is not possible that all of them were unaware of Fang Yue's existence.

She is one of the people who knows Fang Yue's roots.

Her name is Yan Ling, and she has cultivated to the realm of a saint decades ago. Although she has not joined the Galaxy Alliance, she is always concerned about the movements of the entire Galaxy Alliance.

She witnessed the first battle at the opening ceremony.

That battle left a deep impression in her heart. Fang Yue's cultivation and combat power had already exceeded the limits of her realm.

The reason why she didn't remind the beard just now was mainly because the relationship between the \*\*\*\* was not so close. Their team of more than 20 people was originally put together on a temporary basis!

She actually knew that bearded beard for less than three months.

Under the introduction of the middleman.

As a strong man in the Saint Realm, Yan Ling didn't treat this beard as his teammate in his heart!

A saint is a saint, and the master realm is in the master realm!

Even the weakest saints look down on the most powerful leader realm.

"Is that Fang Yue? I have been admiring the name for a long time!"

Yan Ling took the initiative to walk out of the crowd and said to Fang Yue with a smile.

Her smile was like a flower, and she didn't see the high cold before!

Fang Yue was a little surprised, this Yan Ling's cultivation base before entering the secret realm should be at the level of the saint realm!

When did his face become so great, even the strong at the Saint level level would give him face.

However, just as the saying goes without hitting the smiling face, Fang Yue also clasped his fists and smiled: "This fairy is really beautiful and beautiful, which makes me very happy!"

Fang Yue and Yan Ling exchanged greetings.

There was no expression on the faces of the others.

Their team was organized by one person as an intermediary. They are not very familiar with the beard. The longest time to know the beard is half a year, and the shortest one is only three days!

"I don't know if Little Brother Fang Yue is willing to join our team! This beard is a deadly guilty one just now, but his friendship with us is not deep, and his behavior cannot represent the will of our team!"

Yan Ling directly wooed Fang Yue!

Others have no opinion.

This Fang Yue can kill Beard, if Fang Yue joins their team, it will definitely be more effective than Beard.

And beside Fang Yue, there was another existence that was also suppressed to the level of the leader.

As long as they prove their strength, they don't mind dividing a part of their gains and drawing in a stronger ally.

"Happily!" Fang Yue directly expressed his thoughts.

Exploring this secret realm, Fang Yue didn't know if he had the ability to protect himself!

After all, there are too many ancient legends about this secret environment.

Even the Great Sage had more than one bloodshed in this secret realm, and his cultivation level was simply not enough.

Great Sage Aoki also has no opinion.

In this way, the two are joined in this team!

"But, Jack is dead, how do we need to develop this vein?"

A young man in the team spoke. He was wearing a white robe, and he was very cold, and the breath of the saint on his body had not completely faded.

Obviously before entering this secret realm, he was also a strong saint realm.

His attitude was rather blunt and strong, and when he opened his mouth, he was almost questioning.

"The approximate location of this vein has been found, and the rest is the process of digging! The search for the vein requires professional personnel, but if it is excavated, I believe I can do this job!"

Fang Yue leaned slightly, with a smile on his face.

Then a series of space portals appeared behind him, and a massive army of skeletons was summoned from the underworld.

Like this kind of little skeleton with a level of cultivation that doesn't even reach the realm of heaven and earth, Fang Yue can summon as many as he wants to call it!

And these little skeletons are all doing their best and working tirelessly to complete every task. It is precisely because of their wisdom that they will not have the slightest complaint when completing their work, no matter how hard or tired it is.

Seeing the small skeletons clacking across the mountains and plains, clacking the \*\*\*\* in his hand, he cleared the ground, and then began to dig deep into the ore.

Those people were stunned.

Including the white robe youth, he was also dumbfounded.

#### **Chapter 1435:**

This Fang Yue is really not easy!

Even when he came to explore the secret realm, he still took a group of younger brothers with him to do some rough and heavy work.

However, Fang Yue's value is indeed much greater than that of Jack the Beard who just died.

Because of Jack, at most the location of the vein can be determined.

This excavation is also a huge project, and the process of this excavation is also quite dangerous. Who knows how many dangerous things are buried in the ground under this secret environment.

And if there is a little skull to do it for you, then there is no problem at all!

The logic is very simple for the dead daoists not to die for the poor dao!

This little skull mining really encountered sudden danger, and the first one to be killed must be the little skull.

And the moment the little skeleton died, it would give them warning and buffer time!

Unexpectedly, there are such strange people in the secret realm.

You must know that even in the universe of Ten Thousand Realms, there are not many people who can cultivate the undead methods to such an extent.

The methods of the undead are very strong, but when the cultivation reaches the level of the world, you must understand the relevant laws before you can continue to practice.

The undead means corresponds to the way of death.

One hundred thousand trails, three thousand avenues, ten directions of heaven.

The power of the three rose in turn, but the difficulty of cultivation also increased exponentially.

There are very few people who can truly understand the way of heaven.

Therefore, most people who practice the methods of the undead give up the opportunity to continue practicing at the level of the world, and they transfer their energy to other aspects, such as the weaker Dao Law or the methods corresponding to the Small Dao Law. on!

"This Fang Yue is indeed a well-deserved reputation. If he can survive when he leaves the secret realm, I must suggest that the sunset palace behind me absorb him and cultivate it! The high-level brains of the Galaxy Star Alliance definitely enter. The water is gone, and they ignore such arrogance. No wonder the Galaxy Star Alliance will be so tragic in the confrontation between the two galaxies!"

Yan Ling said to herself, she never concealed her inner thoughts and purpose.

The sunset palace is also one of the top ten forces in the Milky Way galaxy, and even the sunset palace ranks quite high, stabilizing in the top ten all year round!

The Sunset Palace is known to be the most mysterious among the ten major forces in the Milky Way. So far, the Galaxy Alliance and the Galaxy Bank, which have the longest stretch of hands and the densest messaging network, dare not say that they have all the secrets of the Sunset Palace.

Fang Yue only smiled upon hearing this.

Whether it is the Galaxy Star Alliance or the Sunset Palace, he no longer needs to join any forces.

Although these forces are huge in scale, they have a feeling of being cool under the big trees.

But only by joining it can you appreciate the sharpness of the factional struggle.

As soon as you enter the Hou Gate, it is like the sea.

And the inside of these great forces in the Milky Way galaxy is more than as deep as the sea, it is even deeper than the galaxy.

What's more, his real purpose in joining the Galaxy Alliance was to save the earth through his own efforts, but now, the saints of the earth are all moving towards recovery, one by one from behind the scenes to the foreground.

Now the earth is becoming stronger and more prosperous, no need for Fang Yue to make sacrifices to save the entire earth!

"Let's talk about being able to get out of this ghost place!"

The white-robed boy poured cold water on Yan Ling.

Yan Ling smiled bitterly, and then fell silent.

There are too many legends about this secret realm. Before entering, they also did a lot of homework. If they were not forced to be helpless, no one would personally enter this secret realm to explore its treasures!

There are more than 20 people in their team. In fact, everyone is burdened with more than one reason to become stronger!

There are many secrets hidden under their glamorous appearance.

The veins were quickly excavated and then separated.

The distribution of ore is based on the principle of distribution according to work and more work for more rewards.

This principle was proposed by the Great Sage Aoki.

The twenty-odd people of them came to this secret realm together, unless they worked together, otherwise the whole army would be easily destroyed.

In the face of interest, they can easily produce content, especially in the most critical link of distribution.

Therefore, the Great Sage Aoki made this rule, and the more people who contribute, the more they get.

Fang Yue got 80% of the minerals, and the others distributed the remaining 20%.

This distribution method is fair.

Fang Yue ate meat and they drank soup, so everyone did not come here in vain.

Tens of kilometers of mineral veins were raided in a flash.

There was no wave in Fang Yue's heart.

This sacred fire mine is indeed priceless. He obtained 80% of the mineral veins, probably worth hundreds of billions of spirit stones, but for Fang Yue now, hundreds of billions are no longer considered to him. The above is a big number.

Shenhua Mine is not a resource that Fang Yue needs urgently. He needs at least a magical tool above the Great Sage level to build the foundation of his own deity and promote the foundation of the realm!

Fang Yue's deity chose an extremely difficult path of practice. If he succeeds, he will be invincible in the world.

But this road is too difficult to walk, and it requires huge resources!

With Fang Yue's strength alone, according to normal methods, it is difficult to support, only if the sword goes slanting forward, can there be hope of achieving success!

Fang Yue as the team gradually deepened in the forest, they were cautious. Every step is extremely difficult.

The beasts in this forest are too strong, each of them is a rare alien species, they are bloodthirsty and murderous.

Every shot is dripping with blood.

The team of more than 20 people soon saw a reduction in staff. A female member was suppressed in the second level of the leader realm in this secret realm. She was hit by a black shadow in the process of moving forward. The essence and blood in the body was drained instantly, and when others reacted, she had become a corpse, skin and bones, with endless fear in her face.

Even the Great Sage Aoki with the highest cultivation level in the entire team did not notice the true identity of the black shadow.

It is said that the female member is also an existence that calls the wind and the rain in the outside world. The cultivation realm is at the peak of the leader realm, and even has the ability to break the wrist with the strong who has just entered the realm of saints.

Yan Ling smoothed the person's eyes, as if to calm her resentment.

"That should be a vampire bat, but the level of evolution is too high and it is no longer the same as the vampire bat they usually understand!"

Fang Yue was quite calm, he saw the true origin of the dark shadow.

The one with the highest cultivation base may not necessarily be the one with the best vision.

Fang Yue's power to operate the space, at the first moment that the female member was killed, he locked the space and realized the true identity of the other party!

"bloodsucking bat?"

Great Sage Aoki was surprised.

In his impression, this is a very ordinary beast, not even a beast.

It should be regarded as a beast.

It seems quite powerful in the eyes of ordinary people, but in the eyes of practitioners at their peak level, it is not worth mentioning!

"Vampire bats did not have high potential when they were just born, but they have a talent that is to transform part of the talents of blood-sucking creatures into their bodies. These acquired talents cannot be passed on to future generations. Their generation is free to use, and vampire bats that have evolved to a certain degree will become very unpredictable and terrifying!"

Fang Yue has a deep understanding of this ethnic group.

Because the first generation of vampire bats is actually the offspring of the Devourer, and Fang Yue himself is the first generation of Devourer of this generation, so he has studied this system quite deeply.

This kind of system can rank among the top three in terms of growth in all the bloodlines of the heavens and the world. If it grows up completely, it may be able to become the existence of an era.

In a sense, the vampire bat is a weakened version of the Devourer, but this kind of weakening is not ten times a hundred times weaker.

But the key is that every tens of thousands of years, there will be a tens of thousands of devourers, but these vampire bats are everywhere, almost endless, endless!

"Vampire bats, it turns out that they still have such secrets on their bodies. I am really a little ignorant!"

Great Sage Aoki frowned.

This is an area he has never touched upon.

Fang Yue smiled: "This vampire bat can really absorb the powerful blood and refine it thoroughly. After all, it grows up too little, so few people know the secret of this vampire bat. I believe if it weren't for this. In this special environment, the vampire bat just now cannot kill the members of our team, but the figure of the vampire bat just now is indeed quite terrifying. If my guess is correct, it should have reached The level of the saint realm is now. The local creatures in this secret realm will not deliberately suppress their cultivation realm! They can show all the strengths that match the realm! Next time you encounter this vampire bat, Let's be more careful! The fierce beasts in this secret realm cannot be treated as ordinary beasts!"

Fang Yue finished.

Great Sage Aoki nodded slightly, and everyone else felt lingering.

"However, I found another problem in this secret environment. The recovery speed of my true energy is at least a hundred times slower than the outside world!"

Yan Ling spoke, her face showing a little solemnity.

This zhenqi is their life-saving capital in this secret realm. Few people are really like Fang Yue, taking many paths such as refining qi, pure physique, and skill cultivation.

"what?"

Fang Yue really didn't notice this problem, he felt that he was extremely comfortable in recovering his true energy in this secret realm.

Doesn't this secret world exclude me?

Fang Yue thought quite excitedly.

If so, that would be great.

But soon, Fang Yue realized that he was passionate.

He remembered that this clone of his was originally an aura that evolved, and what he was cultivating was the body of the ten thousand realms, and he could integrate his body into the ten thousand realms.

As long as it is a thought, he can draw a steady stream of aura from the world.

This has something to do with his physique and cultivation technique.

It is not that this secret environment does not exclude him.

"Using spirit stones to speed up recovery, the spirit stones brought from the outside world contain a large amount of spiritual energy, which can make Zhen Qi recover at a normal speed!"

Great Sage Aoki has already discovered the problem.

In his hand, pieces of spiritual stones turned into powder.

Only by keeping your true energy at its peak at all times can you have the greatest chance of surviving in this forest!

Fang Yue glanced at Great Sage Qingmu, this buddy is really quite wealthy.

All high-grade spirit stones are used to restore true energy. The higher the grade of this spirit stone, the more expensive it is.

### **Chapter 1436: Treat the other body by his way**

If it was Fang Yue, the lower-grade spirit stone would be used to restore true qi. Anyway, the effect was similar, even if it was a little bit different, it was not very big.

From this perspective, Fang Yue still lives very well.

Yan Ling couldn't help but froze for a moment, and then smiled bitterly: "I usually don't bring spirit stones when I go out. I usually use pill to restore my cultivation, or I can directly breathe in the spirit of the outside world, who You can lend me some spirit stones in your hands!"

Yan Ling's voice fell, everyone in the team watched their noses, noses, mouths, and mouths.

All of them were silent, and no one would lend out the spirit stones in their hands.

Because this spirit stone is the real life-saving capital when it reaches this secret realm.

Moreover, everyone is above the level of the leader, and usually disdains such things as spirit stones.

Even with preparations, the number of spirit stones in everyone's hands is not very large!

Who would lend to Yan Ling and put himself in danger?

"This big sister, I will lend it to you!"

Fang Yue took the initiative to walk out, making a generous appearance.

With a wave of his hand, piles of low-grade spirit stones were directly turned into a small mountain, which amounted to millions.

Yan Ling couldn't help but feel a hint of joy in her heart.

This adversity sees the true feelings, but at the critical moment, Fang Yue extended a helping hand to her.

Although these millions of low-grade spirit stones would be dismissive even if they were placed in front of her on weekdays, at this time, these low-grade spirit stones might be able to save her life once at a critical moment.

"Millions of low-grade spirit stones, the boy in this revolving realm is quite wealthy, with a low realm, and carrying spirit stones on his body, it is normal!"

A white man with a pale face and a slightly sullen look looked at Fang Yue, with a weird smile on his mouth.

When he looked at Fang Yue, his eyes were full of unkindness.

In this team, Fang Yue is obviously the best bully.

His realm was the lowest, and he was actually the easiest to kill. As for the fear of the scene where Fang Yue killed Jack before, they had slowly dissipated in their hearts.

Time can destroy everything.

Including the fear of death.

He secretly analyzed in his heart that the combat power Fang Yue had shown before was probably not his own ability.

It was the means he used external forces to display, which shocked their hearts.

At the same time, Jack's strength also belongs to the middle and lower in this team. If he is allowed to shoot, this Jack will still be inevitable.

"Chen An, what do you mean by this?"

Yan Ling stood up and stood up for Fang Yue. At the critical moment, Fang Yue's fight with justice has already won her heart's favor, and at this time, someone is aiming at Fang Yue.

Of course he wanted to make an appearance for Fang Yue.

"Huh, Yan Ling, please pay attention to your words. You and I are in the same realm, but in terms of combat power, I can stabilize you. I am a snake spirit body, and Fang Min is not comparable to you in terms of physique and combat power!"

The meaning of Chen An's threat is self-evident.

At this time, Great Sage Qingmu also moved slowly and stood beside Fang Yue.

Great Sage Aoki firmly believes in his heart that the value of Fang Yue alone is greater than this disunity team.

He was brought into this secret realm by Fang Yue.

He also believed that Fang Yue could take him out of this damned secret realm.

Chen An's eyelids twitched slightly.

His eyes looked at Great Sage Aoki with a sense of dread.

Chen An never knew the hole cards of this Great Sage Aoki, nor how strong he was.

This knows oneself and the enemy, a hundred battles never end.

The unknown is what they fear most.

But thinking that he would stay in this secret realm for at least another ten days, and the number of spirit stones in his pocket was not too much, a bad thought surged from his heart.

"Fang Yue, this spirit stone is also cumbersome to fall into your hands. It's better to take them out and let us share our responsibility to protect your safety. The cultivation level of the rotation realm is too weak to survive in this dense forest!"

Chen An's eyes rolled, and he placed himself in a righteous perspective.

A large number of people means justice, and the acquisition of this spirit stone is not his own monopoly, but an equal share.

And his words seem to make sense.

Fang Yue is at the level of the rotation realm after all, even if he is unparalleled in talent, his combat power cannot be against the sky. Can truly rival them.

Put the spirit stone in their hands to be able to maximize its value.

At this time, a white-bearded old man, Zhang Yinyang, also stood up, and the other party, Yue, persuaded with a bitter heart: "Young man, I know that there are a lot of spirit stones in your hand, and they are all replaced by your hard work, but this good steel If you want to use the blade, you hand over these spirit stones and give them to me. I can promise to protect you in this secret realm and not let you suffer!"

Zhang Yinyang seemed kind, but there was a cold light flashing in his eyes.

Fang Yue and Zhang Yinyang looked at each other and caught this cold light.

"You can't even protect yourself, and you said you want to protect my safety? I wonder if there is anything more ridiculous in this world!"

Fang Yue sneered, disdain for what Zhang Yinyang and Chen An said.

Chen An approached Fang Yue quietly, his footsteps shifted, marking lines of formations.

Unexpectedly, this Chen An turned out to be a master of formations, and the outline of formations could be outlined while moving.

And Fang Yue sneered. If this method was used to deal with other people, he might still be caught off guard. Before Great Sage Aoki and Yan Ling could protect him, they would kill him.

But the person Chen An met was Fang Yue, which was destined to fail his calculations.

Who is Fang Yue? He has already reached the level of Grandmaster Realm in terms of formation, which is better than Chen An in terms of formation.

Chen An's footsteps moved, and Fang Yue saw the clue.

In addition, Fang Yue stepped back again and again, using the soles of his feet to outline his formation.

In addition, the formation pattern outlined by Fang Yue is more advanced and conforms to the law of heavenly movement.

Chen An didn't think that Fang Yue would be accomplished in the formation, and even more so that Fang Yue was even more accomplished in the formation than him.

So when Fang Yue regressed, Chen An just thought that Fang Yue felt his murderous intent, so he wanted to dodge.

And the corner of Chen An's mouth showed a grin. Once his formation is completed, there is no room for Fang Yue to hide.

The last foot stepped down.

The finishing work of the formation is completed.

The formation is formed, and the Tao revolves.

The monstrous flame burned towards Fang Yue, the flame turned out to be pitch black.

"Where is this? There is such an institution?"

Chen An's face paled slightly.

As members of this small temporarily formed team, there is not much trust between each other.

Pursuing wealth and killing will make Chen An rejected by this small group.

So he pretended to touch a certain deadly trap, and let Fang Yue die in this secret trap. He died in an accident. Then he could openly plunder Fang Yue's storage bag and get what he was holding. All spirit stones.

Just when Chen An thought that his merits were fulfilled.

Fang Yue stomped his foot, and a milky white mask suddenly appeared and enveloped Fang Yue. No matter what the flame burned and slapped, it was isolated by the mask without any threat.

Chen An's eyes were dull.

What is this scenario?

His carefully arranged ultimate move was actually blocked.

And why there are traces of the formation at Fang Yue's feet.

Could it be that he is also a cultivator in formation, and he is more accomplished in this respect?

impossible.

impossible!

Chen An shook his head and felt that his thoughts were too ridiculous.

This formation method needs to study the operation of the heavens, and it is not possible to copy and lay out the formation method after learning a few formation diagrams.

Even he has an extremely high talent in the formation, it took nearly a thousand years to comprehend the formation to the master level.

And if you want to go further, it will take at least three to five thousand years to reach the level of the master realm.

Fang Yue had only lived for a few years, and he couldn't even figure out the way of the formation, let alone pass his own formation and set up a more complex and mysterious formation.

But the facts were before his eyes, Fang Yue's formation suppressed his formation, and it turned out to be a sure winner.

This made Chen An's mind shake, and the other party Yue had a trace of fear.

"I understand, I understand, you are not a contemporary tianjiao at all, but an old monster reincarnated and rebuilt. You have the memory of the previous life, so you can have such a high level of attainments in formation and be able to turn around. At the level of cultivator, there is the ability to break the wrist with masters at the master level!"

Chen An thought he had seen through Fang Yue's hole cards, and the more he talked, the more likely he felt that this possibility was true.

And Fang Yue was too lazy to argue.

Stomping again, the earth shattered.

A pale and rotten palm of one hand protruded from the depths of the earth, and then he held Chen An's ankle tightly.

Chen An struggled hard, but all was ineffective.

His ankle trembled and the void shattered.

The palm of his hand was like an iron hoop, tightly locking his ankle, leaving him nowhere to escape!

"what is this!"

Chen An yelled in horror, his eyes filled with a trace of gray death.

This palm did not belong to a living person, but came from a corpse that did not know how many years he had been dead. The corpse aura permeated him, which caused his vitality to be constantly obliterated and turned into death.

"I don't know what this is!"

Fang Yue didn't bother to cover up at all. He honestly and generously admitted that the fragmentation of the earth had an inseparable close relationship with him.

"I just set up the ground-breaking formation, and then let this big hand get out of trouble! This should be a trap in this secret realm!"

Fang Yue's voice was cold and indifferent.

He looked at Chen An as if he was a dead person.

He deserves to die. If he doesn't die, it is very likely that Fang Yue will die.

### **Chapter 1438: Tianluodiwang**

Zhang Yinyang's anger began to grow from his heart to the bile, step by step close to the edge of the seam.

He was ready for the killer blow, and as soon as Fang Yue came out of the crack in the ground, he would slap Fang Yue to death.

Although Fang Yue's combat effectiveness was extremely high, he didn't believe that he couldn't kill Fang Yue because of mental arithmetic and unintentional.

In the ground crack, Fang Yue, who was constantly flying upwards, watched the silver armor zombies approaching behind him.

His jumping ability is extremely strong.

This seam with a depth of nearly a thousand feet was actually crossed by him in one step.

Whoosh.

The silver armor zombies surpassed Fang Yue.

"I wiped it, is this the car can't stop? It ran by all of a sudden."

The silver armor zombie surpassed Fang Yue and went straight to the ground.

He wants to wait on the ground for Fang Yue to slay him back to the coffin of immortality!

This buddy runs really fast.

Fang Yue watched the zombie pass by his side, showing a dazed expression.

Brother, aren't you chasing me?

How did you become a waiter.

"Come up, come up!"

Zhang Yinyang's emotions became extremely agitated, and he could clearly feel a strong breath approaching him.

Although it feels like something is a bit wrong, it must be Fang Yue right.

He just jumped into the crack of the ground alone, who is it?

Mingguang panic, extremely dazzling, go all out, kill him in one blow!

Zhang Yinyang held his breath, and the long knife in his hand fell suddenly.

The knife seemed to have turned into a flash of lightning and fell into the air.

A faint light illuminates Jiuxiao.

This is as if a round of sun sets, and the earth is quietly annihilated in silence.

"Sun Knife!"

Zhang Yinyang's strength seemed to be drained, and a figure emerged from the white light.

The life was full, covering up the day.

The silver armor of the silver armor zombie turned into ragged clothes.

His eyes were wide open, and they were full of superb light.

"Do you dare to hit me?"

The silver armor zombie is at the pinnacle level of the leader realm, and the armor on his body is extremely strong, even if it is an attack from the ordinary saint realm, it can greatly weaken its power.

Although this yin and yang sword is extremely powerful, it still has a certain distance from the level of the Saint Realm. He has not really stepped into the Saint Realm level in the outside world, and his realm is suppressed in this secret realm.

Naturally, this silver armored zombie can't be hacked to death.

And the silver armor zombie's original IQ was not high. At this moment, his heart was burning with anger and he had thrown Fang Yue's affairs behind his head!

Whoever beats him, he kills whoever.

This yin and yang became his primary target of attack.

An extremely angry expression appeared on the silver armor zombie's face. He opened his mouth, and a mouthful of gray corpse gas spewed out towards Zhang Yinyang.

Zhang Yinyang was stunned. Shouldn't the person coming out of the crack in the ground be Fang Yue?

When did he become a silver armor zombie?

The realm of this silver armor zombie is very high, and it has the highest level of the leader realm.

Afterwards, a feeling of weakness penetrated into his limbs, and this corpse breath contained extremely toxic substances, which made the blood on the silver armor zombie's body stop flowing and became stiff. .

"How did you two fight?"

Fang Yue got out of the cracks in the ground, seeing the scene in front of him was filled with stunned emotions.

There seems to be something wrong with this scene and the style of painting.

Zhang Yinyang saw Fang Yue, and then looked at the silver armor zombie. Did he make a mistake just now?

Zhang Yinyang's intestines are going to regret.

The knife just now consumed 50% of the true energy in his body. In this special environment, the speed of regaining true qi was originally very slow.

With this cut, his combat power basically dropped by 30%.

"Fang Yue, die!"

Since he had already torn his face, Zhang Yinyang would hack Fang Yue to death even if he bit the bullet.

The sword in his hand has just been raised.

With a bang, Zhang Yinyang's body stiffened and fell down.

The corpse gas entered the body, and in a blink of an eye, he was already in doubt.

"This silver armored zombie is indeed a well-deserved reputation, and even Zhang Yinyang died with a breath of corpse!"

Fang Yue couldn't help but admire.

Fang Yue conveniently stuffed Zhang Yinyang's body into his storage bag.

In the eyes of others, many treasures in this secret realm were their chance, but Fang Yue changed his mind. Aren't these killed explorers also a rare treasure?

Among them are the powerhouses at the top of the leader realm, the world-famous saints, and even the rare great saint-level powerhouses. They don't say anything else, the corpses are priceless, and the storage bags on their bodies are already because of limited space. Disdain to load spirit stones, these people are all top tyrants.

"Fang Yue, why did you put Zhang Yinyang's body up!"

Someone had sharp eyes and directly saw Fang Yue's actions.

Fang Yue's thoughts were quickly guessed by them.

Many of these people were born in grassroots, and some even got the first pot of gold by touching the corpse.

Seeing Fang Yue had taken Wang Yinyang's body away, they were also jealous.

But at this moment, they are more and more unclear about the depth of Fang Yue.

The silver armor zombie turned his attention to Fang Yue's body again, his murderous aura was overwhelming, like a river rushing down.

The silver armor zombie has a strong aura, which can collapse the sky and dim the sun and moon.

There was an extra large net in Fang Yue's hand, which was tough and comparable to the net of heaven and earth.

Fang Yue throws it casually, and the net is overwhelming.

A sage's coercion filled the big net, which turned out to be a quasi holy artifact.

Its material is special, and it has the potential to become a saint-level magic weapon, but the person who sacrifices it is obviously not enough in cultivation realm, and he hasn't sanctified himself, so this magic weapon cannot become a saint-level magic weapon.

"Is this Fang Yue stupid? Even though the power of the quasi-sacred weapon is great, it consumes a great deal. He is only at the level of the rotation realm. Maybe this big net will be enough to remove the inside of him before it falls. Take your time out."

Some people argued that he kept his voice low, and he didn't dare to be too public, for fear that Fang Yueqiu would settle the account.

Now Fang Yue's reputation for being cautious has spread anyway.

Generally, there is no hatred of life or death, or a compelling reason, no one wants the other Yue to start.

If Fang Yue can't be killed by the time, it would be embarrassing to be killed by Fang Yue instead.

Jack and Zhang Yinyang are all typical examples.

"Get up!" Fang Yue yelled, his palms lightly pressed.

The true Qi in the body was surging down like a flood that opened the gate, rushing more and more.

This big net was sacrificed and rose into the sky in an instant.

Fang Yue's Dantian was almost drained, and the quality of his Rotating True Qi was comparable to that of the Saint Realm level, and it was somewhat unsupportable!

But fortunately, he opened up a different-dimensional space in his dantian. The volume of his dantian is limited, but the reserves of that different-dimensional space are infinite.

A huge amount of Zhen Qi was added, and Fang Yue's dantian was quickly filled.

However, in order to prevent the problem from being discovered by the people around him, he suddenly had a large amount of spirit stones in his hand.

The aura of these spirit stones surged crazily towards Fang Yue's body.

The aura inside the spirit stone was quickly absorbed.

In a blink of an eye, the white powder left behind after the Lingshi was soaked up was a thick layer under Fang Yue's feet.

The people around who watched this scene felt distressed for Fang Yue.

Local tycoon!

Prodigal!

Be careful!

The label on Fang Yue changed from one to three.

But Fang Yue's effort was worth it. The big net was completely activated, and it really became a net of heaven and earth.

The pressure of the saint fell from the net, strands and strands, like a heavy mountain.

The silver armor zombie roared, and he fought hard, and the billowing death breath surged towards the big net frantically.

This death air can contaminate treasures, as long as it is contaminated with a trace, it can make it lose its spirituality and eventually become mortal.

However, all the death qi gushing out of his mouth was absorbed by the reincarnation true qi that filled the big net.

The top of the big net shone with a blue color.

All the death gas is absorbed by the big net, and then used for sacrifice.

Reincarnation Qi is composed of three different powers of life and death soul. This death Qi specifically absorbs death Qi and then strengthens itself.

All the death energy is absorbed by the reincarnation true energy and used to strengthen the big net itself.

The silver armor zombie can be said to be his various killers are all restrained by this big net.

The breath of death was absorbed, and the complexion of the silver armor zombie suddenly changed. Although he did not have deep wisdom, he still had biological instincts. He could feel that there was a certain force in the big net that could restrain him.

He turned around and ran, preparing to run to the seam to rescue soldiers. In fact, there are many stronger and older existences in the seam. They are also responsible for protecting the coffin of eternal life, just because of his cultivation. The realm was the lowest, so he was dispatched to run errands.

Fang Yue's cultivation level is too low to attract the attention of those big bosses. It is precisely because of this that Fang Yue can move the coffin away smoothly.

However, once the big guys awaken and understand the cause and effect, they will definitely run out of the cracks in the ground and make a big fuss. At that time, let alone Fang Yue this little thief, even this land will be destroyed. Flatten, and then lose all vitality!

However, he was destined to have nowhere to escape.

Fang Yue's big net has fallen by this time.

The silver armor zombie was covered by a large net, and all the power in his body was temporarily sealed.

At this moment he became a real corpse, no longer possessing any supernatural powers and abilities.

Fang Yue took the silver armored zombie away.

After all, this is the existence of the pinnacle of the leader realm. Looking back, he can use a certain secret technique recorded in the death scriptures to imprint his master on this zombie. This silver-clad zombie will become his most loyal slave. , Eternal life and eternal life cannot betray.

Compared to these unreliable teammates who are likely to stabbing a knife in the back at any time, Fang Yue likes this silver armored zombie even more.

Watching Fang Yue capture a silver armored zombie at the peak level of the leader realm alive.

Other talents sincerely felt the tyranny of Fang Yue's strength, especially in this special environment, where everyone's strength was suppressed, while Fang Yue's realm was too low to be suppressed. He was originally The ability to fight across several big realms is increasingly highlighted.

No one beside Fang Yue placed a finger on the center of the silver armor zombie's brow.

A yin and yang fish took shape in an instant, and the silver armor zombie no longer struggled, and the expression in his eyes became confused.

At this moment, he became Fang Yue's most loyal servant and follower.

Fang Yue withdrew the big net, and the silver armor zombies followed Fang Yue's back, and there was no more chance to kill.

### **Chapter 1439: Outer disciple**

"There are eighteen saint-level zombies and three great saint-level zombies sleeping in this seam, and one and a half zombies that have reached the level of virtual wonderland, but there are also endless treasures! It is said that it can reverse life and death. If a person whose life is dry and exhausted, if he takes this pill, he can retreat from his aging body and revive his soul to the glory of the second life, or it is in a congenital magic weapon. The best colored glaze lamp is said to have been left by the Buddha when he became enlightened."

Fang Yue generously shared the memory of this silver armor zombie with everyone.

But none of the team members expressed interest.

This treasure is indeed very tempting, but it has to be fate.

The average level of zombies among them is too high, and even the zombies of the saint level are only the third echelon.

"It's a pity, there is no courage!"

Fang Yue commented lightly.

But he was not ready to go any further.

An immortal coffin is already a treasure of existence for him!

It was used to raise the deity to a small realm, and his basic task of entering this secret realm was almost achieved.

As for this zombie is incidental.

Fang Yue understands that one cannot be too greedy, otherwise, sooner or later, he will wet his shoes by the river.

"Since no one is going to sew in the ground, let's keep going! There is a monument of the Great Church. It is said that the Great Church has given birth to more than one powerful man in the virtual fairyland before it declined! That is for future generations. Where opportunities are left, any test leaves a ray of life. Even if you fail, you will not get nothing. Of course, you must have your life!"

Fang Yue was generous and continued to share his information.

Fang Yue walked ahead, leading the way for everyone.

Fang Yue's men have silver armor zombies to lead him, and his familiarity with this forest has not only increased tenfold.

They never encountered any existence above the Saint level.

And those fierce beasts of Yin-Yang realm and leader realm are just providing them with treasures.

The people in this team gradually broke away from the feeling of danger, and their hearts were filled with greedy desires again.

Although Fang Yue, Great Sage Qingmu, and Yan Ling shared 60% of all the harvest.

There is no way, who will let the silver armor zombie with the greatest effect belong to Fang Yue.

But even so, other people have gained a lot, and everyone has at least got a rare treasure from the outside world.

Soon, the relics of this ancient Great Church arrived.

Here is a piece of ruins and ruined walls, stretching for tens of kilometers, with gravel and rubble everywhere.

In the ruins also stands a huge portal on which is hung the golden plaque "Vientiane Sect".

This is a sectarian name on a bad street.

Fang Yue could find at least three to five Vientiane Sects in any world.

Its popularity is actually the same as Wang Wei, Li Gang, etc.

"What's so great about this place? Is it for us to pick up the rubble among the rubble?"

A Tsing Yi sword repairman complained. His name was Chen Minghong. Although he was a human race, it was said that he had a sliver of Shura blood in his body. At a critical moment, he could burn the only Shura blood in his body, turning him into a world-destroying Shura.

In the beginning, he was relatively tame.

But as the treasures gained in the forest increased, his heart swelled again.

Fang Yue glanced at him.

"I said before, if you are willing to go with me, just go, if you don't want to, you will fall down! You don't need to follow me, and I don't need to give you directions!"

Fang Yue's tone already revealed a touch of impatience.

These people are all awkward, and they are big bosses in the outside world. Let them pretend to be grandsons in front of a junior who only has a rotation level cultivation base like Fang Yue. Naturally, all of them have deep grievances in their hearts.

It's only because Fang Yue still has use value for the time being, and they don't estimate the strength to deal with Fang Yue, so they endure secretly. Once they leave this secret realm, these people will probably join the other party's black hand!

Fang Yue had already seen the friendship of the plastic team clearly.

It's just that he didn't point it.

When Fang Yue said this, everyone was silent, even Chen Minghong glared at Fang Yue and remained silent.

Fang Yue sat in the ruins, his body suspended in mid-air.

This place is indeed different from other opportunities, everything is without clues, and you need to slowly find and feel it yourself.

Fang Yue's eyes closed tightly, and his spirit became inexhaustible and spread to the surroundings.

The time and space around him are vaguely compatible with his spiritual power.

Fang Yue's spirit gradually merged with this land, and his will became the will of this land.

This is not because Fang Yue has something to do with this world, but because his study of the Great Way of Earth is too profound.

"Mystery, above this gate, the text on the plaque contains the power of order!"

Fang Yue quickly focused his attention on the plaque. There were ruins everywhere, but only the three characters of Vientiane Sect were alive and well, as if they had just been carved out.

Because these fonts contain profound magic power.

These mana can hold time and space, even after thousands of years have passed, these characters are still extremely fresh and immortal.

The more Fang Yue looked at these characters, the more mysterious he felt from them.

"I seem to have touched a forbidden mystery."

Fang Yue spoke to himself.

His spirit resonates with the characters on this plaque.

He unconsciously stretched out a finger and tapped it, and a beam of golden light extended toward the door under the plaque.

A door opened.

This door appeared extremely abrupt.

This is a stone gate, ten meters high and five meters wide, very simple and unpretentious, without any traces of carvings on it.

"This is the stone gate leading to the real remains of the Vientiane Sect. If you are willing to go in and explore, I will not stop it!"

A huge amount of information suddenly appeared in Fang Yue's mind.

All these messages came out of the three big characters of Vientiane Sect.

In his palm, there was an extra wooden token, a diamond-shaped token, with the three characters of Vientiane Sect on the back and the four characters for Outer Sect Disciple on the front.

This understanding of the true meaning of the three words of Vientiane Sect is to be able to become an outer disciple of Vientiane Sect.

At the same time, the information in Fang Yue's mind is all the information that the outer disciples of Vientiane Sect can grasp.

Part of it is an introduction to the history of the Vientiane Sect, but more of it is a hundred thousand secret techniques and three thousand basic exercises.

"Is this an alternative continuation of Vientiane Sect?"

Fang Yue muttered to himself, and then regardless of other people stepping forward, he stepped into the stone gate.

Fang Yue understood that there must be more inheritance of Vientiane Sect hidden in this Shimen!

At the same time, Great Sage Qingmu and Yan Ling hesitated a little and entered the stone gate one after another.

After observing for so long, they have discovered that it is absolutely right to follow Fang Yue.

They entered the stone gate.

The others looked at each other and seemed to hesitate.

Because they didn't know what the other end of Shimen was, whether it was a blessing or a curse.

One after another, some people gritted their teeth and walked in, while more people chose to wait outside.

Passing through the stone gate, Fang Yue came to a lawn. There were eighteen stone steles. On each of them, there was a figure who was practicing martial arts continuously.

Fang Yue observed for a moment and saw that the martial arts performed by these figures were all different.

But everyone's martial arts exercises are unique, not clever, but ingenious.

"This is a stone stele for performing martial arts. There are a total of 18 martial arts monuments. If you cultivate one of the martial arts on it, you can get a time and space crystal!"

A slightly feminine, feminine young man wearing loose training robes and long hair cape came over. His attitude towards Yue is quite friendly, as if the two had been close friends long ago.

"you are?"

Fang Yue looked at the person, and Fang Yue unexpectedly felt that the young man had a familiar feeling on his body.

This familiarity wasn't because Fang Yue knew him, but the young man had a similar soul aura.

"Fang Jiuzhong!"

The young man spoke, with a hint of playfulness in his smile.

The nine-fold cultivation realm of this side is not very high in this secret realm, it is just the third level of Yin Yang realm.

But in Fang Jiuzhong's body, Fang Yue could feel the breath no less than a saint!

Fang Yue immediately understood that this should be an important chess piece arranged by the Fang family.

"Fang Yue!"

Fang Yue introduced.

On Fang Jiuzhong's body, Fang Yue felt a kind of goodwill, although it was not strong, but at least he wouldn't immediately face each other with swords.

"This relic of the Vientiane Sect is a very great place of opportunity! If the benefits of it are taken, it will be equivalent to a fifth or fourth-level opportunity! Originally, I had already obtained the status of an inner disciple. One day, I passed the test of these eighteen martial arts steles. It was only because I sensed your breath that I turned back to see what you can do here!"

Fang Jiuzhong seemed to be no stranger to Fang Yue.

He is very interested in Fang Yue.

"you know me?"

Fang Yue said with some surprise.

"The famous Fang Yue, no one in this galaxy knows, no one knows!"

Fang Jiuzhong and Fang Yue joked.

"Are you also from the Milky Way galaxy?"

Fang Yue continued to ask.

Fang Jiuzhong smiled faintly, and then said: "I am not from the Milky Way galaxy, but from the Alpha Galaxy. The Fang family's disciples are all over the universe. Well, no, even in other universes, there are many Fang family disciples. ! However, the time I have been in this Milky Way galaxy is not very short, so I learned something about you!"

"Before, I participated in a 0-500-year-old gambling battle between the two major galaxies. Originally, I thought I could meet you during the gambling battle. I didn't expect you to give up the gambling battle in the middle. It makes me feel quite different, but this Milky Way Star Alliance is really decayed internally to the extreme. Heavenly arrogants like you have chosen to give up decisively. No wonder the current Milky Way Alliance has declined as a whole!"

"Why don't you join me in the Alpha Star Alliance, your talent and potential will definitely be valued by the senior leaders of the Alpha Star Alliance, when you and I will work together to create a piece of your own world in the Alpha Star Alliance! "

#### **Chapter 1440: Make a big fight**

Fang Jiuzhong said indifferently from the other Yue, but from his eyes, Fang Yue could detect the heat.

Every disciple of the Fang family has its own unique talents and resources, and the higher their realm, the more obvious this advantage is.

If Fang Yue can be drawn into his camp, this will rapidly expand his power.

Fang Yue shook his head slightly: "Although the Galaxy Alliance is sorry for me, my home planet Earth still belongs to the Milky Way. If I really betrayed the Galaxy Alliance and join the Alpha Galaxy, this Galaxy Alliance will definitely be the first. Time, then my home planet Earth vents its anger!"

In this matter, Fang Yue was quite mature.

He was not affected by his emotions.

The Galaxy Alliance is sorry for him, but he cannot be sorry for the earth.

The earth is now in a time of spiritual recovery, although some existences that should have disappeared in the long river of history have occasionally appeared.

But if the Galaxy Covenant really locks the Earth to its idea, using the strength of the Galaxy Covenant to deal with the earth will still be devastating!

"Okay! I also know that you said so in a vacuum that it is unlikely that you will submit to the Alpha Alliance, but I can tell you on behalf of the Alpha Alliance that if you are willing to join, the gate of the Alpha Alliance will be open at any time. You open up, you used to be treated as a platinum seed in the

Galaxy Covenant, and the Alpha Covenant was able to give you diamond-level disciple treatment. This is not a gift but a well-deserved one. We will not blame the damage done by the galaxy!"

Fang Jiuzhong was not surprised by this choice, even if Fang Yue happily agreed to join the Alpha Star Alliance, Fang Jiuzhong would be truly surprised.

Afterwards, Fang Jiuzhong glanced at the back of Fang Yue.

"Others are coming soon! Let me make a long story short. You and I are all seeds cultivated by the Fang family in the universe of the Ten Thousand Worlds. You and I are a family. You can't argue over the interests of the two galaxies. Remember, Fang Yue The interests of the Fang family are the highest thing in the Fang family. As for everything else, if you are really in danger or difficult to cope with, you can tell me at any time and I will do my best to come. Help you!"

Fang Jiuzhong's voice fell, and his face became indifferent, as if he didn't know Fang Yue at all.

In the next moment, a group of figures appeared in front of the eighteen stone steles.

They are also transmitted in from outside.

All of them were surprised or surprised.

"Opportunity, this is the real opportunity." One of them had long hair with a shawl, and his voice was full of excitement.

There is a token in his hand that is exactly the same as the token in Fang Yue's hand, which represents the identity of the outer disciple of the Vientiane Sect.

And there were three people behind him, apparently the portals of Vientiane Sect opened by this person's token.

Among the three, there are two old men, who are vaguely exuding the breath of saints.

They should exist at the level of saints in the outside world, but their cultivation is suppressed in this secret realm.

And another is a woman, dressed in purple, quite enchanting.

This long-haired young man and the purple-clothed woman are all extraordinary. They are both at the peak of the Yin-Yang level, but their real combat power is definitely not weaker than the general leader level.

They should be arrogant talents who didn't know which school was cultivated.

Fang Yue didn't pay attention to them and began to think about the meaning of each movement in the figure from the first stone monument.

"The sky is blue, the sun and the moon rotate, the universe is upside down, and the universe rises and falls!"

The voice was old and grand, echoing in Fang Yue's mind.

Fang Yue held his breath and listened carefully. There was a heritage of scriptures in this martial stele.

But this scripture is extremely profound.

It represents a unique system inheritance.

But Fang Yue didn't practice rashly, but frowned slightly and thought carefully. There was a mystery in this, and the exercises in this stone tablet were not so easy to practice.

Different infuriating qi clashes in the body, and will blow him into a boy chicken with a bang.

If this stone tablet is cultivated for those who have no inheritance, it will naturally be a great happy event.

However, it is impossible for a person without cultivation level to go to this place and get the inheritance of this stone tablet.

This is a contradiction!

"Cultivating exercises can't cause them to conflict!"

Fang Yue muttered to himself, thinking about the key to it.

At this time, the purple-clothed woman showed a look of disgust, "The mud legs in the galaxy of the Milky Way are also worthy to come to this Vientiane Sect's martial arts stele to comprehend the scriptures? This is really pulling down. You and me!"

The purple-clothed woman did not lower her voice at all, and even the expression of disgust and disgust on her face was extremely exaggerated, specifically targeting Fang Yue.

Fang Yue ignored her, she was studying the critical moment of this stone tablet.

"There are actually two ways to solve the conflict of true Qi. The first method is to create another clone to practice the exercises on this martial stele. A piece of white paper is used to kill the painting on it, and the foundation is mellow. , There won't be any problems! Another method is to accept all the rivers and tolerate, and treat this different method of smelting as a kind of tempering!"

Two different plans soon emerged in Fang Yue's mind.

On the safety factor, the first option is naturally higher.

But if the second scheme is successful, the gain will be even greater.

Because there are a total of eighteen stone steles here, the exercises recorded in each stele are all different.

If you use the first scheme, you need to cultivate eighteen clones, and the development potential of these eighteen clones will not be too strong!

So Fang Yue directly focused his attention on the second solution.

He was about to study the exercises recorded in this first stele.

The purple-clothed woman stomped with anger when she saw Fang Yue ignored her.

"You, muddy legs, dare to ignore me, you are really brave!"

The purple-clothed woman opened her mouth as the opponent Yue's reprimand.

Fang Yue glanced at her and said: "You don't respect me, I don't have to care about you! And the people in my Milky Way galaxy do you think they have mud legs. Is your blood line much higher than ours? I see how you look. It's not much different from me!"

The purple-clothed woman sneered: "Huh, really an inexperienced hillbilly, do you know that Yemei is from the most respected zodiac sign Taurus, which is the most powerful constellation in the universe! Born! The creatures that come out are much stronger than humans in small galaxies like yours!"

Fang Yuebai gave her a glance.

"The zodiac signs, I'm still Saint Seiya!"

Fang Yue snorted coldly, expressing his disdain for the purple-clothed woman.

The woman in purple immediately showed an angry face.

"Chen Feng, teach this hillbilly, he dared to be disrespectful to me, I want you to take out his tongue. Head!"

This night Mei saw Fang Yue's expression suddenly showing an arrogant side.

The old man behind her nodded slightly, not seeing Fang Yue at all.

One thing is that their Taurus constellation is indeed hundreds of times stronger than the Milky Way galaxy. In the same realm, the people of the Milky Way are definitely not their opponents. What's more, this Fang Yue is only a level in the rotation realm, I don't know if it is in the galaxy. The disciple of any family will be killed if they are killed. It is like killing an ant on the side of the road. No one dares to trouble them!

Chen Feng's beard and hair were all white, he waved his sleeves, and a yin wind blew out immediately.

This yin wind can corrode the flesh and soul of human beings. If an ordinary practitioner in the rotation realm is blown by this yin wind, he will immediately lose most of his body's qi and blood, become extremely weak, and then let them kill.

Fang Yue said angrily: "He is really a ruthless and rude guy. If he doesn't agree with him, he will fight me with a sword and pull out my tongue?"

Ye Mei said casually: "What's your identity? You are just a hillbilly from the Galaxy Star Alliance. How can you be compared with me? There is no need to be polite to you. In my eyes, you are listed as pigs and dogs. Beast, being able to be punished and slaughtered by me is the greatest glory in your life!"

Ye Mei became more and more arrogant, she was arrogant, she never put Fang Yue in her eyes from beginning to end.

Fang Yue sneered: "Are you really taking me down?"

"Chen Feng, pull out his tongue, I don't want to hear his voice again!"

Ye Mei gave orders to Chen Feng.

Chen Feng sneered and approached step by step.

In the outside world, he is a strong man in the Saint Realm, and even in this secret realm, there is the third level of the Leader Realm.

His eyes were like electricity, locked Fang Yue, and his murderous intent made Fang Yue unable to move!

"Young man, you should be grateful. This time it was Miss Ye Mei's kindness and did not take your life. This time you suffered a loss. This is a lesson for you. Next time you see the Taurus constellation, stay away, because in this world, it is destined that there are some people you can't provoke!"

Chen Feng's voice fell.

Fang Yue's hands and feet were cold, and he already felt the hair on his neck being pressed by the blade.

A saint is a saint, even if the cultivation base is suppressed, it is still not comparable to others in terms of combat power.

Chen Feng moved his feet and landed silently. He was like a professional executioner. What he was best at was taking people's lives silently!

Fang Yue sighed quietly.

"Is this your hole card?"

The light of the knife passed, and Chen Feng's arm flew out through the air.

Chen Feng was horrified, and a chill emerged from his tail.

He was like a prickly cat, nervous all over, with an incredible light in his eyes.

He didn't expect that one day he would be hurt by the mud legs of a Milky Way galaxy he had never seen before.

There is still Dao Ze's breath in this wound, and it will be a short while, unable to recover and heal!

"What kind of method is this, why do I not even feel you make a move?"

Chen Feng's figure retreated violently, and his eyes looked at Fang Yue with a look of horror.

He asked Fang Yue that the scene just now was not in line with common sense and was outside of his cognition.

He is a saint. Although his realm is suppressed, his vision and reaction are still there. Even if he is a powerful person in the same saint realm, it is impossible to make such a clean move and remove one of his arms.
