

## God of Life 1441

### Chapter 1441: Void Fire

Fang Yue shook his head slightly and said, "This is my secret, how can I tell you?"

Fang Jiuzhong, who was standing next to him, was smiling. This Taurus constellation person could not understand, but his heart was like a mirror.

The scene just now played out in his heart at a hundred times slower speed.

Fang Yue appeared behind Chen Feng in an instant using teleport. He cut off Chen Feng's arm, and then appeared in front of Chen Feng again.

This teleportation is just a matter of one thought. Under the world, there are no martial arts moves faster than thoughts.

Chen Feng was too careless.

In this world, the realm does not mean everything, and there are not one or two people who capsize in the ditch under the hands of non-sages.

Black blood was flowing from Chen Feng's wound.

Behind Fang Yue, there was an extra strong support.

This is the silver armor zombie, he was branded by Fang Yue, and he was put away just now when he entered the stone gate of the Vientiane Sect.

Unexpectedly, he came to use so soon.

As a native of this secret realm, the silver armor zombie's cultivation base has not been suppressed, on the contrary, he still has certain blessings in this secret realm.

"Yemei, don't think it's just that you have a protector, I also have someone to protect the path, paving the way for me!"

Fang Yue's silver armor zombies appeared, causing Chen Feng and others to show solemn expressions.

They saw that this silver armored zombie should be a native of this secret realm. In the secret realm, he has a great advantage!

Whether it is the state or the familiar aspect of the environment.

"The mud legs of the galaxy, I admit that I underestimated you! Give this silver armored zombie to me, let him be my servant, I allow you to follow me!"

The arrogance on Ye Mei's face remained unchanged, even if Fang Yue slashed his subordinate Chen Feng Yemei still did not change her arrogant attitude.

Chen Feng's defeat was just a coincidence. Chen Feng had more methods, and this close combat was just one of his worst problems.

Fang Yue was a little surprised: "I really don't know who gave you the courage and dare to speak to me like this!"

Ye Mei sneered: "Don't think that you can talk to us on an equal footing if you just rely on the sneak attack to hurt Chen Feng. I tell you, it's impossible! We Taurus people are always high above us, and mud legs like you connect us. Can't reach the heel!"

Ye Mei's attitude is open, her arrogance and rudeness have reached the extreme state!

Fang Yue didn't speak, because at this time, words could not justify anything, only blood could write the truth.

"Silver Armored Zombie, you first stand on the side for me, I want to learn, what is Chen Feng's ability to challenge me!"

Fang Yue is ready to personally compete with Chen Feng.

Fang Yue's heart is also quite curious, what kind of talents this Taurus constellation have so that they are so proud and so defiant!

Chen Feng glanced at Fang Yue, and the arrogance on his face was actually gone!

Just now, the fight between Fang Yue and him has actually proved that Fang Yue's strength is at the same level as him.

The mud legs of the Milky Way galaxy seem to be difficult to deal with.

But Chen Feng still has the information to kill Fang Yue.

Close combat is not his specialty. If he hadn't been careless just now, he couldn't have been defeated so badly.

"The mud legs of the Galaxy Star Alliance, I am going to use my best skills to send you an end. This is the greatest pride and honor of your life!"

Chen Feng's voice became hollow, and runes appeared around him, wrapping his body.

This Chen Feng's understanding of spells had reached a new level.

In other words, the Galaxy Covenant resonates with the surrounding elements by chanting spells, thus casting a variety of spells.

And this Chen Feng directly used the power of the law to evolve into a series of runes to order the elements between heaven and earth to form more powerful spells!

The two are judged against each other.

Chen Feng's magic power is at least three to five times stronger than the former!

Accompanied by the emergence and improvement of runes.

The endless flame element also rushed towards his body madly!

The eyes of these flame elements constantly change from red at the beginning, then to orange, and then to yellow. As the color changes, the temperature of the flame is getting higher and higher.

It changes in the order of red, orange, yellow, green, blue, and purple. If it reaches the green or cyan state, the flame may be able to distort the space and burn the void! It's just that Chen Feng's cultivation realm was suppressed, and he was only able to evolve the flame to yellow for the time being.

Chen Feng melted the flame that was constantly surging like a surging river to the fingertips of his fingers, flicked it lightly, and burned in Fang Yue's direction!

The void distorted and turned into a huge black hole, which swept Fang Yue into it, with nowhere to escape.

"Void Fire, this is the fame of my youth. I don't know how many young talents in the Taurus constellation who have grown up with my generation have been killed by this trick. You can die under this trick. It is considered dead!"

The proud expression on Chen Feng's face is self-evident.

His talent in spells and physical skills are not the same.

Fang Yue was able to defeat him in physical skills, but in terms of skills, 10,000 Fang Yue were not his opponents.

"Is it?"

Fang Yue, who had disappeared in the black hole, cut through the void and reappeared.

He didn't even have the slightest injury on his body. It was empty and exiled all beings. If other people were attracted by the black hole and exiled into the void, perhaps this life would be explained.

But Fang Yue is different. He is good at space and heaven, and one thought can return from the void.

This Chen Feng used Void Fire to exile him, quite a bit like playing a big knife in front of Guan Gong.

"No, it's impossible!"

Chen Feng saw this scene, his face suddenly changed.

This is not in line with his perception.

Void Fire, even the strong of the Saint Realm can be exiled.

Although his cultivation realm is at the level of the leader realm, the power of this void fire is greatly reduced, but he is already watching Fang Yue being involved in the void. It should be powerless to return, but how can he escape the black hole? Restraint, return to normal time and space?

"There is nothing impossible. You know the way of flames, but you just happen to incorporate a trace of the laws of space and heaven. And I have unimaginable accomplishments in space and heaven! Your so-called void fire is My eyes are like pediatrics!"

Fang Yue's words dealt a merciless blow to Chen Feng.

He did not leave any face to Chen Feng.

Runes rose up around Fang Yue's body.

This is the technique for casting spells that Chen Feng just used, but it was learned by Fang Yue at this moment, and it was perfectly reproduced!

Around Fang Yue's body, the space was shattered, as if it were rippling waves under the moonlight.

Chen Feng's face was pale, he realized something.

This Fang Yue only had to fight against him in the instant that he had learned the secret of the rune technique he was proud of.

Moreover, Fang Yue still cultivated to an extremely powerful and rare space heaven.

There are not many people who master space and heaven, even in Taurus.

And the mud legs in the Galaxy Star Alliance actually mastered this method.

"Space Heaven? Very good, very good. Chen Feng captured this guy alive for me, and then brought it back to the Taurus constellation to let the ancestors of the virtual fairyland strip out all the law fragments in his body, these space law fragments If everything fits into my body, I can instantly grasp the way of heaven and earth that he has now!"

The greedy light in Ye Mei's eyes was overwhelming.

In the Taurus constellation, the ancestors of the virtual fairyland level mastered the means of transferring flowers and trees, not only can transfer the rules, but also transfer the blood and talent.

Now, Ye Mei's talent is that the ancestor of the virtual fairyland has transferred to her after killing several Tianjiao.

"Sure enough, a vicious person!"

Fang Yue shuddered even more when he heard this.

The most poisonous woman's heart, this is not wrong at all.

Mei looks coquettish and beautiful this night, but her mind is extremely vicious.

There was a bit of bitterness in Chen Feng's heart.

This Yemei is simple, but in this special environment, who can guarantee that this guy will be captured alive!

Space Tiandao was originally ranked first in terms of life-saving.

Among the ten directions of heaven, there is no one that can match the life-saving ability of the space heaven.

If Fang Yue wanted to escape, even the Great Sage would not be able to catch up.

What's more, if Fang Yue is really accomplished in technical cultivation, after mastering the skills of rune magic, the two will confront each other, it is still unknown who will die!

This is a hard stubble.

Chen Feng paid more attention to Fang Yue.

"It's the so-called coming and not being indecent. You just brought me a Void Fire, and I will use Void Fire to respond to you!"

Fang Yue flicked his fingers, the flames condensed, and the three thousand runes represented the road of flames.

They are put together to form a regular chain.

The void fire in Fang Yue's hand was red at first, and then quickly turned into orange, and after a while, the orange turned into yellow. At this moment, Chen Feng's expression had become extremely ugly.

When he was a boy, the assassin that he worked hard to study was actually learned so quickly.

What's more important is that this method, working out of Fang Yue's hands, is not even weaker than him.

"Turn again!"

Fang Yue spit out two words.

The yellow flame became green!

Chen Feng's heart was directly cold for half!

It's not that it's not weaker than him, but stronger than him!

He hadn't reached the level of green when he manipulated the void fire, but Fang Yue turned out to be blue and achieved it first.

"Turn again!"

Fang Yue was engrossed, and did not feel surprised because the color of this void fire surpassed Chen Feng.

This Void Fire is a combination of the Avenue of Fire and the Way of Space and Heaven.

This Chen Feng has a huge flaw in the understanding of the heavens in space, and naturally it is difficult to turn this flame to the extreme realm.

And Fang Yue is different, this void fire in his hands is simply a secret method tailored for him.

Whether it is the space heaven or the flame avenue, he is best at it. Combining the two, combined with the rune technique, the potential of this void fire should definitely not stop at the green level.

Cyan Void Fire!

**Chapter 1442: Stone stele exercises**

Fang Yue added the runes evolved from the heavens in the space to the void fire, and the color of the void fire finally changed into a azure blue.

Perfect!

This is the highest level of flame color!

This flame has reached the level of pure blue and has reached the extreme level. Although there are theoretically blue and purple levels, the flames of that level have not even been seen by Fang Yue, and there will definitely be other changes. At least the fusion of two different laws cannot reach that level.

At this moment, Chen Feng's eyes were all dull.

Fang Yue's flame change has reached the extreme of his theoretical deduction.

The cyan flame, this is the level he dreams of. Who could have imagined that the short time he played against him was to have his fame and peculiar knowledge be completely imitated by Fang Yue, and he also completely perfected the parts that he had never performed before. .

"Void Fire is really a shocking weapon. I admit that I have not seen similar secrets in the Milky Way galaxy. It has exceeded the level of ordinary secrets and has come into contact with the true meaning of law fusion. The text is the carrier, combining different laws with each other, exquisite, this is simply too exquisite!"

Fang Yue laughed, his face was full of open smiles.

Void Fire should be regarded as a secret method of the Great Sage level.

Only when you reach the level of the Great Sage can you barely come into contact with the understanding of law fusion.

The fusion of different laws can release huge energy.

This is no longer as simple as one plus one equals two.

This Taurus is amazing, really amazing!

Fang Yue even felt a little convincing. Of course, the Chen Feng in front of him should be killed or he should be killed!

"Thank you for teaching me the true meaning of Void Fire. Although you have only initially shaped the prototype of this secret method, I will continue to perfect this secret method according to your ideas! In return, you are in your own secret method. Be burned to ashes!"

Fang Yue released his fingers, and the blue flame covered half of the sky.

The beeping flame burned the sky.

The void shattered and collapsed in pieces.

This is the result of Fang Yue deliberately suppressing the burning range of this void fire, otherwise, a cluster of flames the size of a thumb is enough to burn a hundred miles of space.

Chen Feng opened his mouth, but all his voices were annihilated by Void Fire.

His body shattered from inch to inch, and eventually became a powder and disappeared completely.

Chen Feng fell and was burned to ashes in the flames.

Locked in the void, he is like an insect in amber, unable to move any minute.

Space seal, flame burning.

This is the way to change the void fire that Fang Yue has studied.

And the void fire, burning the void, even if the opponent can survive the burning of this flame, he will eventually be exiled into the endless void in the void of annihilation.

After using Void Fire, Fang Yue didn't feel the emptiness of using a powerful secret technique.

On the contrary, his energy is full and consumes very little.

The power of this void fire mainly lies in the fusion and change of the law, but the output and requirements for the true energy are not high.

The more Fang Yue appreciates, the more frightened.

This Taurus man is indeed extraordinary in strength, and his grasp of various methods has reached a level beyond the reach of the practitioners of the Galaxy Alliance.

Among other things, this Void Fire alone surpassed most of the secret arts in the Galaxy Star Alliance.

Of course, the conditions for the display of this void fire are quite harsh, and the starting point is to comprehend the flame avenue to at least the fourth level.

In addition, you need to have an understanding of the heavens in space, and the combination of the two methods can barely display this void fire.

Even though this secret technique was spread in the Galaxy Star League, it is generally difficult for practitioners of this Galaxy Star League to comprehend the true meaning of this secret technique.

Chen Feng's soul flies away.

Ye Mei's face changed slightly.

She watched the entire battle between Chen Feng and Fang Yue, and Fang Yue's combat effectiveness was completely different from the reptiles of the Galaxy Alliance in his impression.

They were like beings in two worlds. Compared with Fang Yue, those practitioners in the same realm in the Galaxy Alliance were simply not as good as scum.

There was no change in Fang Yue's face.

He turned around and continued to watch the change of figures on the Yanwu Stone Tablet.

Fang Jiuzhong looked at Fang Yue with a smile, and he was able to abandon his grievances and focus on the most important aspect. This guy is indeed a child to teach.

This stone tablet will exist for a total of three days. After three days, the stone tablet will break and they will be sent to a new pass.

Unless it is another newcomer, this stone monument will come out again, and it is basically impossible for them to return to the place where they just started.

Even if Fang Jiuzhong has obtained extremely high authority in this Vientiane Sect, and can return again, he can only sense the existence of the stone tablet in this place, but cannot see the change of the figure on the stone tablet, and hear the hidden content in the stone tablet. Scripture.

This is the brilliance of Vientiane Sect.

Even the most humble little means can make people feel the glory and greatness of this sect.

In the eyes of Taurus people, Fang Yue is just a reptile, and in Fang Yue's eyes, they are not just reptiles.

A silver armor zombie stood silently beside Fang Yue, standing like a benchmark.

The others looked at each other, and no one dared to provoke Fang Yue.

Especially Ye Mei, when she looked at Fang Yue's back, there was a little doubt in her eyes.

Chen Feng's death did not seem to be a blow to Ye Mei.

Anyway, there are many domestic slaves like Chen Feng in their family. In the real big family of Taurus, even the saints will be domesticated and become slaves.

Their level is far beyond what Fang Yue can guess and imagine from the poor rural soil buns in the Milky Way.

Fang Yue kept comprehending the shaking figures on the stone tablet and comprehending the profound meaning of their movements.

The first stone tablet was quickly understood by Fang Yue, and he slowly began to drill according to the movements on the stone tablet.

His palm was slightly lifted, but it seemed to hold up an infinite sky, and the spirit of his whole person was condensed in his palm!

At the same time, his body began to produce unusual qi, which was born in his dantian and quickly flowed through the limbs.

These infuriating qi is a faint green, which contains rich vitality, but this vitality is not exquisite enough, not pure enough. Compared with Fang Yue's life truth, it is more than ten thousand miles away, but Fang Yue is here. There was a strange and weird power in Zhen Qi.

This strand of power seemed to be a key to unlock Fang Yue's maximum potential.

Only after completing the exercises in the first stele, Fang Yue's realm has not changed the slightest, but his combat power has been abruptly increased by at least 20%.

You know, Fang Yue's profound background is that he was able to challenge the existence of a saint at the level of the rotation realm. The 20% increase in strength is simply incredible. If you follow the normal cultivation method, you need to smash down resources like mountains and seas. Can achieve this effect.

When encountering such a situation, most practitioners will be extremely pleasantly surprised, but Fang Yue's eyebrows have a sad cloud.

Because when there is no pie falling in the sky, the exercises recorded on this first stone tablet are not so difficult and profound. As long as a slightly wise practitioner, a little bit of insight can successfully cultivate! And its effect is almost completely different from the normal exercises in Fang Yue's cognition.

Fang Yue was silent immediately.

And Ye Mei and others have also begun to practice the exercises on this stone tablet.

The second, third, Fang Yue watched all the shadows and exercises on the stele like a horse and a flower.

However, this stone tablet has its own principles. If you do not successfully cultivate the stone tablet on it, the subsequent stone tablets will not be open to the public temporarily!

Therefore, Fang Yue walked around and obtained the content of the exercises in the second stone tablet.

The exercises in this stele are not profound. But it is almost contrary to the practice content of the exercises on the first stone tablet.

Fang Yue felt that the exercises on this stone tablet were a bit evil, so he no longer dared to practice rashly. Although only a spiritual energy clone appeared this time, if Fang Yue's clone was destroyed by someone, it would be difficult for him to enter this secret realm again.

After about half a day, Ye Mei's eyes opened suddenly and she woke up from the immersion and practice of the exercises. She stood up and waved her embroidered fist. On top of her fist, the brilliance of a layer of green clothing was extremely bright. Dazzling and eye-catching.

"The exercises in the Vientiane Sect are really magical. It's just the exercises in the first stone tablet. The success of the practice has increased my combat power by 20%! If I can comprehend all the 18 stone tablets in front of me, wouldn't I? Can it triple or five times its combat power?"

Ye Mei's eyes were filled with excitement.

And the long-haired boy is much lower-key than Ye Mei, and his body surface is also rippling green. Obviously, he succeeded in cultivating the first layer of exercises in the stele, but he did not show the mountains or show water, and it seemed that there was nothing like that at all.

And the elder who followed him into the saint realm who was responsible for protecting him and Ye Mei, although he was also very aware of it, he did not complete this exercise in a short time!

Among them, the superiority is obvious.

The comprehension of this Ye Mei and the long-haired boy is not as good as Fang Yue, while the old man's comprehension is not as good as that of Ye Mei and the long-haired boy.

"There is a problem in this exercise!"

Fang Yue secretly spoke to Fang Jiuzhong who was standing next to him.

Fang Jiuzhong smiled slightly: "Unexpectedly, you discovered the secret in the first stone tablet you just cultivated. That's right, there are many secrets hidden in this stone tablet, but good fortune and misfortune depend on each other. You can really bear it. Only by breaking the illusion can you get the opportunity. There is never a free benefit in this world. It is impossible to get the world-famous secrets by comprehending a few stone tablets! But if you don't get into it, it's hard to see. Baoshan, the choice depends on your own choice."

Fang Jiuzhong obviously knew more about the tricks of this place than Fang Yue.

It was just his specious point that Fang Yue still had nothing to learn from Yunshan Mist.

"Where is the problem with this technique?"

Fang Yue began to recollect every detail in this technique, but he still didn't find any flaws.

#### **Chapter 1443: Ripped skin**

"If you don't enter Hushan, you will get a tiger!"

Fang Yue took a deep breath and decided to continue cultivating the contents of this second stele.

Fang Yue has to be said to be unparalleled in terms of cultivation, especially since he uses the three celestial scriptures as the foundation, and the ordinary exercises are simply easy to come by.

In just a few familiar times, Fang Yue completed the practice of the content in this second stele.

His combat power took another step, and the content of the two stone steles made his combat power abruptly increased by four levels.

The exercises in this stele are too magical, and even Fang Yue has a feeling of eagerness for the following exercises.

"No, I understand that this technique itself is stimulating the potential in my body to transform it into combat power. Once all the potential is exhausted, I will be exhausted! But before the potential is exhausted, my combat power can be Unlimited promotion, different steles have the potential to burn in different aspects! The method of the first stele is to burn my lifespan, my lifespan is too long, so it consumes a little, I don't have any feeling. Only during the battle can I feel the real violent consumption of Shouyuan! And the second stone stele is afraid that it consumes other convenient potential, I have not seen and realized it!"

Fang Yue finally understood the trickiness, but his heart became calmer.

The most terrifying thing is the unknown, and once the unknown becomes the known, there is not so much fear and consideration.

Fang Yue quickly plunged into the practice of the third stele.

Soon the content was well understood by him and it worked smoothly.

Immediately after the fourth, fifth, and eighteenth stone steles, in front of Fang Yue, as if it were a textbook of a college student studying a primary school student, it quickly became clear, without any bottlenecks or obstacles.

Three days' time was up in a blink of an eye.

In the end, the long-haired boy understood the mystery of the nine stone steles.

Ye Mei is a bit inferior, just comprehending the mystery of the seven stone tablets.

The most pitiful is the old man who protects the road, a dignified saint, who is far inferior to Fang Yue and others in comprehension of the exercises, but in the end he only comprehend the three stone monuments.

The space shattered and the stone tablet disappeared.

Fang Yue and others appeared in the ruins again.

And Fang Jiuzhong also appeared with Fang Yue.

However, Fang Yue discovered that it seemed that only he could perceive Fang Jiuzhong's existence, and even if the divine intent and gaze passed over him, other people didn't know that he was there in that place.

On the ruins of Vientiane Sect.

There were rows of corpses spreading across the board, Fang Yue glanced at it, and the number of these corpses turned out to be as many as hundreds.

All of these corpses were physically mutilated. Each death is quite ugly.

Some people's hearts were poached, some heads were knocked open, and the back of their heads were lifted, directly sucking away the brains.

Fang Yue's mood sank slightly when he saw this scene.

Looking at the traces of the scene, the person who can do this kind of thing is definitely not a beast.

"Hahahaha, Fang Yue, your end is here!"

After leaving the secret realm of Vientiane Sect, Ye Mei became arrogant again.

She saw the debris under her feet as if she had seen something through.

The attitude towards Fang Yue is again cold.

And this time, Fang Yue didn't need to spare time to understand the mystery in the stele, the previous nonchalantness also turned into carelessness.

This thing is faintly expensive. If these Taurus constellations are captured and captured alive, how much value can be squeezed from them,

They come from different civilization systems and have their own different understandings of practice.

The previous void fire gave Fang Yue a great reference.

In Fang Yue's eyes, these people are long-legged treasures, each of them living secrets.

"The mud-legs of the humble Galaxy Star Alliance, now surrender to me, let me imprint an eternal imprint on your soul, you still have a ray of life, otherwise, I will completely erase you from this world. "

Ye Mei became arrogant and contemptuous again. Her eyes seemed to reflect endless indifference.

She looked down at Fang Yue as if a giant dragon was looking at a reptile on the side of the road.

Fang Yue chuckled: "Let you imprint your mark on my soul? Haven't you seen the form clearly yet? You are not my opponent, even if you ask the saint protector behind you to help you. There is no possibility of defeating me! Chen Feng's fate is your future. I was just trying to find an excuse to attack you. I didn't expect you to take the initiative to attack me, saving me the time to make excuses! "

Ye Mei sneered, her expression arrogant.

"Just now in front of the eighteen stone monuments, if you did it, you might really be able to kill people, but after you left there, how could you be our opponent? This time, I have more than one team from Taurus. , We are just one of the weaker ones. As long as we send a signal, all the Taurus teams within a hundred miles around will come to support, and you will surely die without a place to be buried!"

Ye Mei's arrogant expression became more and more obvious. When she looked at Fang Yue, she always smelled of squinting.

It seems that Fang Yue is not worthy of being confronted by him.

Lineage and origin are above all else.

"But when you send a signal, it will always take a while for the surrounding teams to arrive. During this time, I can kill you a hundred times!"

Fang Yue said helplessly.

This woman really couldn't see the form clearly.

A strange purple light flashed in Ye Mei's eyes.

"The Gaze of Medusa!"

Ye Mei did not declare a fight, and directly attacked the opponent Yue.

Fang Yue felt a stiff feeling on the surface of his body, and even the blood in his body turned to stone.

Medusa's gaze is not a rare supernatural power, but it is a clever pupil technique that can often be unexpected.

Ye Mei's gaze caused Fang Yue to recruit.

Ye Mei chuckles: "Maybe I don't need other people to help at all, I can easily take your life by myself!"

On Fang Yue's body surface, a faint khaki halo filled.

Medusa's gaze was instantly resolved.

"Sorry for letting you down. I have a higher level of understanding than you on the Great Dao of Earth, and your ultimate move has no effect on me!"

Fang Yue shrugged slightly, expressing helplessness.

Ye Mei was stunned, even in the Taurus star, she was considered a genius.

She seldom meets opponents in the same rank, and originally thought that she could travel thousands of miles in such a deserted land as the Galaxy Star Alliance.

Unexpectedly, she encountered hard stubble this time.

In the past, the unfavorable gaze of Medusa turned out to have no effect on Fang Yue.

"Ye Mei apologize and give up! You are not destined to be Fang Yue's opponent. Before coming to this Galaxy Alliance, I had investigated some information about the Galaxy Alliance Tianjiao, and it happened that Fang Yue was among them. If he is considered to be the leader of his peers in the Galaxy Alliance, if it is not because of a conflict with the Galaxy Alliance, he should be in the top ten or even the top five in the battle between the two major galaxies of the 0-500 year-old level.

Ye Mei, you are not wronged when you lose to him, just to defeat the arrogance in your heart. Even in the twelve signs of the zodiac, it is impossible to capture all the masters of the entire universe. As the saying goes, there are heavens outside the sky, and there are people outside the human world. Your Taoism is a little too shallow! "

The long-haired man said, he showed no mercy to Ye Mei.

Mei was spoiled at home this night, and she didn't know how high the day was and how thick the ground was when she walked out.

Tianjiao like Fang Yue is not comparable to Ye Mei.

Ye Mei said unwillingly: "This Fangyue is just a mud leg in a galaxy star alliance. Why is he stronger than me? He must have got some chance and mystery to become so strong. I want to catch him. Stay and dig out his secrets bit by bit. When the time comes, his secret will be my secret. Cousin, you must help me!"

Ye Mei is still unwilling to die.

The long-haired man shook his head slightly: "Even if I take the shot, I am not necessarily Fang Yue's opponent. In my data, his combat power has already surpassed his realm and age!"

Ye Mei's eyes suddenly became cold: "Ye Xiao, don't you think I can't see what you really think in your heart? How many people in the same generation of Da Di Da are your opponents? You are not willing to help, Do you want to swallow this opportunity from Fang Yue, huh, don't forget that I am the main disciple of the Ye Family, you are just a small disciple, because you have the appreciation of my father, you can have a real chance You have entered the main vein of the Ye Family for cultivation!"

This night Mei actually tore her face and her attitude became extremely fierce.

Fang Yue couldn't help but stunned slightly.

How come these two people turned their faces before they started!

Ye Xiao resumed her previous cold posture again.

"I was able to enter the Qingyun Pavilion in the Ye Family because of my talent and sweat. It was not because of who I was appreciated or the kindness I inherited. Ye Mei, I just promised your father to tell you to experience it, but I didn't say it would I will accompany you to find death, I have already told you that neither you nor I will be Fang Yue's opponents, even if you die with a guardian, this will still end. If you really want to die, you can die by yourself, I will not accompany you!"

Ye Xiao's tone became tough. As a genius, with the pride of genius, it is impossible for him to bow his head to Ye Mei.

Because once the spine is interrupted, it is difficult to stand up and be a man again!

Seeing Ye Xiao's attitude, Ye Mei couldn't help but snorted.

"Well, you Ye Xiao is naturally rebellious. My father has misunderstood you. We have treated you badly these years and you have returned me like this? You don't kill Fang Yue, I kill, I don't believe in using taboo techniques. Can't kill him!"

Ye Mei's eyes showed a paranoid look.

"The technique of taboo?"

When Fang Yue heard these four words, he was immediately alert.

However, there is no method that is not extremely powerful when it comes to the word taboo. Although the price paid is quite huge, Fang Yue has never thought of ending up with this Ye Mei!

"Chen Hao, come up and weigh whether this Fang Yue is really as invincible as Ye Xiao said. If necessary, use taboo techniques. Even if you have suffered an irreversible injury, I will take you back to Yeja. It will help you seize the body of a saint and make you stronger!"

Chen Hao couldn't help but tremble slightly when he heard this.

Obviously, his emotions are not calm in his heart.

**Chapter 1444: Zhang Kuan**

He knew exactly what this taboo technique meant, that there was a building in the night house called the old man's cave.

There are a lot of old people living in them. These old people are weak, trembling, and have turbid eyes. They have lost hope in life. These people are all loyal to Ye Jia and have performed taboos. Their cultivation base is scattered, and even an ordinary person is inferior, and the night family circled them. Raising them is nominally for them to support their lives, but only Ye Jia and themselves know what treatment they suffer in Ye Jia.

As for the promise made by Ye Mei just now, Chen Hao only had a bitter smile in his heart. Although Ye Mei's status in the Ye family was not low this time, she did not have the authority to let herself take away the body of a true saint.

In Ye Jia, there are many people who are ready to seize the house after performing the taboo technique, and it is impossible for him to take turns.

Chen Hao was silent for a while, with a dull look in his eyes.

He knew that he was not qualified to resist Miss Ye Jia's decision, because all his wealth and life were pinched in Ye Jia's hands.

How about the saint?

In the eyes of the Ye family, there has never been a saint, but in their hearts there are only direct descendants and slaves.

"Come on Fang Yue! The battle between you and me is about life and death, and about the future of you and me. Although I don't want to fight you so much, there will always be a lot of force in my life!"

There was a touch of determination in Chen Hao's tone.

Fang Yue looked at Chen Hao, and saw a trace of lifelessness and despair on his face.

At the moment of standing out.

Chen Hao has made a decision.

He knows what direction the wheel of fate will be thinking about

The king wants the minister to die, the minister has to die!

Chen Hao took a deep breath.

His eyes condensed and fell on Fang Yue's body.

Fang Yue shook his head slightly: "Why are you? You a sage, why do you humbly serve a yellow-haired girl. I know you have resentment and unwillingness in your heart. You don't have to make such a decision. !"

Fang Yue moved a trace of compassion, not because this Chen Hao was strong, so Fang Yue wanted to win him, he just thought that Chen Hao might actually be a poor person.

Chen Hao smiled bitterly: "People have to bow their heads under the eaves. Since the day I was born, I have no right to choose. I can't understand what kind of horror it is to be born in the night house. We have no freedom, even our souls. They are all reinforced, and there is Yejia's most indifferent and ruthless mark on the bottom of life."

"Chen Hao, what are you talking nonsense with Fang Yue? If you want to do it, hurry up, my patience is limited!"

Ye Mei urged, with an impatient voice in her voice.

"Why bother!"

Fang Yue sighed again.

He waved his palm, and the big net of the half-sacred instrument level floated up again.

The true energy of reincarnation floated and flickered in the direction of the silk thread in the big net, spreading.

In the end, the big net recovered.

Falling from the sky.

Chen Hao wanted to escape, but was trapped by the big net, unable to move around.

He felt that the true energy in his body was sealed, and he could only use pure physical power.

Chen Hao's struggle can make him unable to resist. If the cultivation base of the saint realm is not suppressed, he can naturally break the big net with his own cultivation base.

However, his cultivation is now suppressed, and he does not have a saint-level magic weapon in his hands.

A big net of the semi-sacred artifact level was actually trapped and became a turtle in the urn.

There was a faint mourning in Chen Hao's heart.

Although the family trained them this night, they did not give them the corresponding resources.

He has been holy for five hundred years, and he can make him not even have a saint-level magical tool. The magical tool in his hand is still a second-hand sage-level magical tool that Yejia's logistics elder bought from. Talisman!

"Chen Hao!"

Ye Mei showed a horrified expression. She didn't expect Chen Hao to be captured alive without even having time to perform the taboo technique.

This is completely different from the plan she expected.

"How? Do you want to continue?"

Fang Yue's smile was bright, like a flower blooming in spring.

However, Fang Yue's smile did not have the slightest sense of beauty in Ye Mei's eyes, which was even more hideous than the smile of the most evil demon in the world.

"Fang Yue, I have released the signal. It does not take long for a strong man in my Taurus to come from all directions to support me! At that time, you will definitely die without a place to bury you. If you still want to save your life, run quickly. Maybe you still have a glimmer of hope of surviving!"

Ye Mei felt that even her voice was trembling.

Although she can be regarded as a leader among her peers in the Taurus constellation, she still does not have the ability to capture Chen Hao's level of power alive, even though this Chen Hao's cultivation is suppressed in the special environment of the secret realm.

But his vision is still there, fighting experience is still there, it is definitely not comparable to an ordinary practitioner at the master level!

"Fang Yue, Ye Mei has already lost, so let's stop here! If you offend Ye Family, you can't escape the calamity! You don't know the power and deterrence of Ye Family in Taurus!"

Ye Xiao also stood up at this time, begging for mercy for Ye Mei.

Although this Ye Mei is domineering and often even threatens him, Ye Mei is also a disciple of the Ye Family after all, and her blood and status are quite noble.

Otherwise, if she travels, she won't be equipped with two saint-level strong guards.

To tell the truth, Ye Xiao actually has a lot of favor with Fang Yue. While helping Ye Mei, he didn't want Fang Yue to fall for it.

He looked forward to Fang Yue's growth, hoping to see where Fang Yue could go when he reached the realm of saints and even the realm of great saints!

Fang Yue shook his head slightly and looked at Ye Xiao.

"The Way of Martial Artists is brave and diligent. What's more, I represent not only myself but the Galaxy Covenant behind me. I can retreat, but how can the Galaxy Covenant retreat? You have all killed the Galaxy Covenant to \*\*\*\* us. It's a chance for me to treat everyone in my Galaxy Star Alliance as ignorant natives. Anyone must resist and struggle for this kind of thing!"

Fang Yue's tone was sonorous and powerful, with a trace of tragic and solemnity.

The calamity of the Milky Way Star Alliance is approaching, and now all the ghosts, ghosts and snakes are gathered in the Milky Way galaxy.

They came to divide the cake to grab resources, treating the Milky Way galaxy as a cow and sheep to be slaughtered!

Ye Xiao sighed softly, he could understand Fang Yue's current situation.

If he was stronger, he might be able to kill chickens and scare monkeys to give people in other galaxies some fear, and if Fang Yue was also weak, it would definitely boost the opponent's arrogance and attract more ghosts and snakes.

"If this is the case, then I won't say anything!"

Ye Xiao stopped persuading Fang Yue.

But Ye Mei's eyes were filled with despair.

"Hurry up, come on!"

Ye Mei said something in her mouth, pinning all her hopes on the practitioners of the Taurus constellation around her.

Ye Xiao has now completely broken with her torn face.

Ye Mei's heart also had a vague remorse at this moment. Why was she so arrogant just now that she had offended everyone around her!

"Did Ye Mei hit her to death by herself or let me do it!"

Fang Yue's tone was light, and now the roles of the two have changed.

Fang Yue had the upper hand, holding Ye Mei's life and death in his hands.

"Hehe, I didn't expect that the young lady of Yejiia would one day be threatened by the natives of the Galaxy Alliance!"

At this time, a thin figure came straddling a mammoth elephant. This mammoth was an aboriginal in this secret realm, at the level of Yin and Yang realm, with red flames burning under its four hooves.

It can travel in the air and travel thousands of miles a day with infinite power. It is the most suitable means of transportation!

This person was on the ninth level of Yin-Yang Realm, with a blue bamboo sword at his waist.

A scar pierced through his lanky cheeks, and his body was covered with green clothes, with a trace of the attire of an ancient knight.

"Zhang Kuan!"

When she saw this person, the blood on Ye Mei's face faded.

Her long-awaited rescuer did not expect it to be this guy!

"Zhang Kuan, how could it be it!" It's not just that the blood on Ye Mei's face fades, even Ye Xiao's face is not so pretty.

"Zhang Kuan, a murderer of the Taurus constellation, he burns, kills, loots and does no evil, even some immortal families of the Taurus constellation have suffered in his hands!"

Ye Xiao muttered to himself, he did not deliberately lower his voice.

Because as long as Zhang Kuan comes, there is no difference between offending and not being guilty. Most of the people he met are dead.

"Zhang Kuan ranks nine thousand and eight hundred on the list of practitioners of the Yin and Yang realm of the Taurus constellation! However, anyone who can enter the top 100,000 of this list has the strength to overcome the power of the ordinary master realm. , And Zhang Kuan's methods are weird and hard to defend against! Fang Yue, let Chen Hao be released! Let's join forces, and there may be some possibility of defeating Zhang Kuan! Otherwise, we will all die here in the end!"

Ye Xiao discouraged Fang Yue, his expression dignified.

His words are not alarmist, but Zhang Kuan's name in the Taurus constellation has such power!

"Just one Zhang Kuan, is it worth our teamwork?"

Fang Yue sneered a little, he didn't take Zhang Kuan too much in his eyes.

You know, in the Milky Way galaxy, even if Fang Yue ranks the strong in the Yin-Yang realm, he can beat the players within a thousand!

And although this Taurus is stronger than the Milky Way galaxy in many cities, it is not enough to make him unable to deal with a guy who is about to drop ten thousand in the Yin and Yang realm.

"Hahaha! Good spine, the ignorant is really fearless! Do you know what happened to the people who said this to me before? They were all dead, and I had skin and bones, and there was no blood left. Next drop!"

Zhang Kuan laughed loudly when he heard Fang Yue's words, and the laughter was full of madness!

"What is your dependence on? The humble native of the Milky Way galaxy? Is it this cult-master level silver armor zombie?"

Zhang Kuan squinted at the silver armored zombie behind Fang Yue.

"Tsk tsk, it is indeed very strong to be able to display the peak level of the leader in this secret realm!"

In Zhang Kuan's words, sarcasm or contempt cannot be heard, anyway, these two emotions are almost the same.

#### **Chapter 1445: Ancient armor**

"Time!"

Zhang Kuan stretched out an index finger, whose nails were slender, and he swiped slightly in the void in front of Fang Yue.

The void shattered and swept away towards the silver armor zombies.

"set!"

Fang Yue spit out a word, and the void that had been shattered was returned to its original form.

Zhang Kuan's face moved slightly.

"Unexpectedly, in this remote Milky Way galaxy, I really met a master! He speaks the law and is a practitioner of space and heaven?"

Zhang Kuan also didn't expect that Fang Yue was walking the path of space and heaven.

What can he rely on to run rampant in the Taurus constellation by virtue of his Yin Yang realm peak level cultivation base?

Relying on the insight of the unparalleled space and heaven, the space and heaven come without a shadow, go without a trace, and the attack power of Dimension Slash is extremely strong, and it can even leapfrog and kill people. Even the saints have bloodied under his men.

The space he displayed just now was shattered, and he had already incorporated all the laws and comprehensions of the heavens in the space that he had reached the third level.

Unexpectedly, Fang Yue recovered easily.

This Fang Yue is at least the fourth level in terms of space and heaven.

Based on this, Zhang Kuan couldn't keep the mud legs in this Milky Way galaxy this time.

Zhang Kuan's evil spirit disappeared in a flash.

"Haha, brother Fang Yue, right? I was joking with you before. I heard your name when I came to the Milky Way galaxy. Although I haven't really seen you before, I also know that you are the Milky Way. Young talents in the galaxy, tsk tsk, great, great!"

Zhang Kuan laughed and joked, and walked to Fang Yue's side, his palm casually patted Fang Yue's shoulder.

The light of a silver needle flickered between his fingers.

It was about to fall on Fang Yue's shoulders between the lightning and flint.

However, Fang Yue intentionally or unintentionally tilted his body, avoiding the silver needle.

If it doesn't work, it's overcast.

Zhang Kuan deserves to be a murderous man who spread throughout the entire Taurus constellation!

Fang Yue stared at Zhang Kuan for a moment.

At the same time, Ye Mei had also bit her red lips lightly and activated Medusa's gaze.

On the wide body surface, layers of stone flakes condense and climb.

Although Fang Yue refused to cooperate, in Ye Mei's heart, this Kuan was still regarded as her greatest enemy.

Without it, this wide, evil name is really too big in Taurus.

If this piece is not dead, she will not only die as simple as that.

The abuse she received before her death was something she couldn't even imagine!

Ye Mei's eyes had firm conviction.

Zhang Kuan must be killed this time.

Unfortunately, her gaze of Medusa was not enough after all.

Zhang Kuan shook his shoulders indifferently, and the crashing stone fell to the ground.

"This little sister, do you really hate me so much? It's worth using this kind of killer move against me? I am very popular with girls in the Taurus constellation. Cute and beautiful little sisters like you are caught alive. You have been in love for a few days, then take out your bones and flesh and blood, and then leave a lovely human skin, hang it in my cellar, as my trophy!"

Zhang Kuan's voice was filled with uncontrollable excitement.

His name as a murderer is not just because he kills countless people and does many evils. There are some evil people who kill many people, and there are many evil people who do many evils.

But what really deserves the name of this murderous man is his bad hobby.

"what!"

Ye Mei wanted to do it again, but a figure suddenly appeared in front of her.

This figure is exactly the figure of Zhang Kuan, which looks exactly like the deity.

"Space reflection?"

Fang Yue's eyebrows were slightly raised.

It is also the practice route of the way of space and heaven.

Fang Yue had heard of this spatial reflection method, but it was the first time he saw it.

"Yes, I didn't expect you to have heard of space reflections in a remote place like the Milky Way galaxy!"

Zhang Kuan laughed.

There was a narrow look in his eyes.

What do you know?

This Galaxy Alliance's understanding of techniques and techniques is too shallow and rudimentary, and it cannot be compared with the Taurus constellation!

Fang Yue nodded slightly.

It really is a reflection of space.

Behind the reflection of Zhang Kuan space, another figure immediately took shape.

This is the spatial reflection condensed by Fang Yue's thoughts, and it looks exactly like the deity.

The smile on Zhang Kuan's face instantly freezes.

how can that be! His spatial reflection is a secret technique that is not taught, and how could Fang Yue understand the principle at a glance, and he is now selling it now.

Fang Yue smiled faintly: "Well, my method is very powerful! Actually, this spatial reflection is just a combination of some spatial laws, splitting the world, and then strengthening the projection, superimposing several projections to form a spatial reflection. Before I have never seen it before, and it is really difficult to use this secret technique by imagination, but this time I saw you perform it once and I knew how to use this technique!"

Fang Yue's face was lightly excited.

After mastering this method, when facing the enemy, he played an extra hole card to kill.

Zhang Kuan shuddered.

Yes, every principle Fang Yue said is correct.

But can you understand the principle of this spatial reflection just by relying on such a short contact?

This Fang Yue is a man or a ghost, why is it so terrible!

"Disappear!"

Fang Yue's spatial reflection dropped his palm and patted it on the shoulder of Zhang Kuan's spatial reflection.

The reflection of Zhang Kuan's space disappeared instantly.

This action was exactly the same as the sneak attack that Zhang Kuan had just asked Yue to make.

Ye Mei and Ye Xiao also had cold hands and feet.

Is this Milky Way galaxy really the legendary one that has been dilapidated and fallen, but is it just a galaxy that has been extended by its ancestors?

Why in this poor country, they saw something that made them fearful of all the arrogances from the Taurus constellation.

Why is Fang Yue's method of engraving Zhang Kuan so similar to the picture they have seen between Fang Yue's engraving of Chen Feng's Void Fire?

The secret technique they are proud of can be displayed after Fang Yue takes a look at it, even the power of this secret technique is blue?

"Fang Yue, to what extent have you mastered the Heavenly Way of Space? Why do I feel that your spatial reflection has at least 60% of the strength of your deity?"

Zhang Kuan's face was serious, and he panicked a little.

The more he looked, the more frightened he became. The spatial reflection he showed just now was only 40% of the deity's power.

The perfect replica deity exists only in theory.

In fact, it is inevitable that there will be power loss during the projection process.

"Sixty and a half!"

Fang Yue said with some dissatisfaction: "This process of superimposing projections has caused too much damage to power. According to my understanding of space heaven, if I calculate it normally, my spatial reflection should almost reach 70% of the strength of the deity. ."

Zhang Kuan's hands and feet were cold, like falling into an ice cave.

This spatial reflection is also a killer he is proud of. He didn't expect that there were so many flaws in front of Fang Yue.

More importantly, the power of Fang Yue's spatial reflection can theoretically reach the power of the seven-level deity. Doesn't it mean that his control of the space heaven has reached at least the fifth level or even higher?

The more Zhang Kuan thinks about it, the more frightened he is. Since ancient times, there has been a lack of great avenues, and heavenly paths have been impossible. Generally, it is difficult for a saint to break through the fourth realm at this realm level even if he enters the saint through the heavenly way.

The difficulty of breaking through the laws of each level is ten times that of the previous level, and even the powerhouses of the Great Sacred Realm will stop at the fifth level of Heavenly Dao.

If Fang Yue really had the cultivation base of the fifth layer of Space Heavenly Dao, he would definitely not be Fang Yue's opponent.

The secret technique is powerful, but the level of understanding of the Tao is fundamental.

However, the greater the risk, the greater the value. This Fang Yue can comprehend Space Heavenly Dao to the fifth level. If it is captured alive and let the ancestors strip all the fragments of the law in his body, then he will His strength will at least increase several times or even dozens of times. In the Yin Yang Realm ranking list, he can enter the ranks of the top 1,000 or even the top 100. At that time, even in the Taurus constellation, he will be hot.

As for the previous murderous name, it will also be erased. What counts for a Yin-Yang realm Tianjiao who is in the top 1,000 or even the top 100 to kill a few women? Naturally someone will help him settle those things.

Zhang Kuan became more excited as he thought about it, his palm involuntarily approached the storage bag around his waist.

There is a taboo in it, which can exert a power beyond the suppression of this secret at a critical moment.

This is something the family gave him to save his life.

If it is not for the critical moment, life and death cannot be easily used.

But the interests are ahead, no hesitation, this Fang Yue is a great opportunity for him.

Zhang Kuan gritted his teeth cruelly. He took out a dilapidated piece of armor from the storage bag, which was still stained with a little bit of red blood, which has not dried yet.

"Fight!"

Zhang Kuan was cruel, he put the armor on his body, the armor was torn and there were red rust on it.

However, Zhang Kuan's breath suddenly changed when the armor was put on his body.

He was forced by his armor to raise his cultivation level to the fifth level of the leader realm, and even the suppression of this secret realm was invalid for him.

Zhang Kuan's eyes opened and closed, and strands of wild magic were exuded.

Zhang Kuan fell into a demon, he was affected by the armor on his body, and he had lost himself for a while.

"What is this? I feel a trace of immortal power on top of this armor."

Fang Yue asked Ye Xiao, his expression became serious.

Ye Xiao drew a sigh of relief: "This Zhang Kuan is really crazy. This is the vestige of the ancient times. Even if the number unearthed in the Taurus constellation is not many, it can ignore all rules to suppress and improve. The level of cultivation that is worn, but most people don't use this kind of thing. Firstly, this armor is full of demonic nature. If worn for a long time, it will inevitably affect the xinxing and even directly become demonic. Secondly, the armor itself is incomplete. There won't be too many opportunities. Every time you use it, the life span of the armor will be shortened once. Like Zhang Kuan's armor, there are at most three or five chances to use it!"

#### **Chapter 1446: The mystery of armor**

When Zhang Kuan looked at Fang Yue again, his eyes were completely different. He was already enchanted. The scarlet bloodshot eyes in his eyes seemed to be densely packed like spider webs. There was a wild smell on his body, as if he had come out of a magic kiln. Devil, every black hair is dancing.

The magical energy in his hand formed a Fangtian painted halberd.

Zhang Kuan waved Fang Tian's painted halberd in his hand and slashed in Fang Yue's direction suddenly, as if it was Lv Bu's rebirth, the God of War is invincible.

Fang Yue did not hesitate, he lit a group of void fire.

The cyan flame swallowed faintly in front of him, vomiting the void, as if there was endless mystery.

Flame and Fang Tian's devilish energy collided with each other.

With a bang, the void within a radius of ten miles was shattered.

Ye Xiao had been prepared early, hit the ground on his toes, and flew into the air without being affected by energy.

However, Chen Hao was trapped in the net of heaven and earth, but was protected by the net of heaven and earth, resisting most of the energy.

Only Ye Mei caught her off guard. She didn't expect that the immortal fight would hurt Chi Yu. She was bombarded by violent energy fluctuations. She was lying on the ground, the real energy inside her embarrassed face was chaotic and tossing, and it was obvious that she had suffered serious injuries.

Ye Mei looked incredibly at the battlefield where Fang Yue and Zhang Kuan were fighting. The first confrontation between the two of them was beyond the energy range of the ordinary master-level confrontation. Even the confrontation between the saints is nothing more than this. This is the real world in this world. Genius?

She has always been a self-proclaimed genius, and she is extremely domineering under the protection of Yejia, and no one dares to provoke her.

But when she really saw Fang Yue fighting Zhang Kuang, she instantly felt her insignificance and humbleness.

The difference between her and the two people in front of her was not even a little bit or even no longer at the same level.

Fang Yue's void fire was actually smashed by the life of Fang Tian's painted halberd composed of devil energy.

And that armor made a clattering sound. It seemed to have its own will. It felt instinctively excited because it encountered a powerful opponent. It wanted to conquer the opponent in front of it and let Fang Yue completely surrender to its lewdness. Under power.

"Strike the mountains and rivers!"

Zhang Kuan roared like an enraged beast.

Fang Tian's painted halberd fell instantly, the world was cut off, and the force was split in half.

Fang Yue took a deep look at Zhang Kuan. The other party had already lost his will. He was controlled by his armor to be influenced by emotions, and he fell completely into the boundless magical nature.

This armor inherits the prestige of the ancients, and at the same time it is not something ordinary people can control.

It has its own will. If the owner is too weak, it will dominate and oppose the guest.

"One thought of reincarnation!"

Fang Yue's voice was faint, but it resonated with the heavens and the earth, which seemed to be the voice of the heavens, beyond contending.

The sun and the moon rotate, and the stars come and go are all affected by this will.

The armor is weathered, and the energy in it is passing quickly.

Since this armor was the main body, Fang Yue targeted the armor.

The force of breaking the mountain and river shattered Fang Yue's body, but the broken body was reorganized again.

This body is originally composed of pure aura, even if it is broken, it can be reorganized.

This force splits the mountains and rivers even if there is a wild and strong force that can really break the rivers and mountains, but it does not have any actual attack effect on Fang Yue's body.

Ye Xiao was stunned. When he looked at Fang Yue, his eyes were puzzled, but soon he thought of a distant legend in the Taurus constellation.

In each realm, if it can really break through the extreme, it will cultivate supreme supernatural powers.

The magical powers that can be cultivated at this level of the world and the earth are the magical avatars. As long as there is aura, a magical power similar to the deity can be condensed.

The aura is immortal and the body is immortal.

But Ye Xiao had regarded it as an absurd legend before.

If anyone can practice this kind of supernatural powers and walk in the rivers of heaven and earth by virtue of their aura avatars, who can be his opponent who can kill him in this world.

But today, he actually saw it in Fang Yue's body, this method is simply terrifying!

It was completely beyond his imagination.

Zhang Kuan was also stunned.

The armor was hunting, but Zhang Kuan's will was instantly restored.

"Is this an aura clone?"

Like Ye Xiao, Zhang Kuan is also from a big family.

His understanding and mastery of some legends is not weaker than Ye Xiao.

If it's really an Aura clone, then he's a fart.

The outcome is unpredictable, and even if this spiritual energy clone is ruined, Fang Yue is not a big deal, just gather one more!

Zhang Kuan turned around and left, regardless of the fighting intent that was constantly passing from the armor.

He is the master of this body and has a strong will. Even if his will is taken away by armor for a short time, he can barely recover.

"I want to go now, don't you think it's too late?"

Fang Yue's rebirth of thoughts has formed a world between reality and nothingness. As long as Fang Yue's mind lies, this world is boundless and unbounded.

Zhang Kuan fell into Fang Yue's world of mind.

This is an ancient battlefield, with broken halberds and sand, withered vines and old trees, winding thin snakes, and corpses of gods and demons.

Zhang Kuan felt the vitality in his body fading quickly in this world.

He roared and waved Fang Tian's painted halberd again.

The halberd covered the sky and cut through the dark clouds in the sky.

Nine rounds of red sun emerged, and in each round there was a figure of the big sun golden crow.

"What is this place?"

Zhang Kuan felt the power of the Great Sun Golden Crow, each one was not weaker than the virtual fairyland level, they could burn him to ashes even if they just breathed out a ray of true energy from the sun.

"This is the world in the memory of your armor!"

Fang Yue has also appeared in this world, and his thoughts and memories are moved by the thoughts and memories in this armor.

Because Fang Yue's real goal is not Zhang Kuan, but this armor full of mystery and magic.

Fang Yue said it didn't count what this world would eventually become.

"Ugh!"

A sigh came from the armor, it disintegrated automatically and fell off Zhang Kuan's body.

The armor was alive, and it was out of Zhang Kuan's control.

Zhang Kuan's pupils shrank slightly, and he didn't expect the armor to change like this.

"Unexpectedly, in this era, there are such great magicians who can reflect the world in my heart. This is the world of my time. Although it was later refined into an armored soldier, my heart is still full of reluctance for that world. ."

A ghost appeared in the armor.

He is a burly middle-aged man with animal skins wrapped around his waist, looking rough and bold.

Fang Yue smiled slightly: "Sure enough, it is the power of witchcraft. In ancient times, witchcraft was flourishing, changing the world, omnipotence, later generations, the way of witchcraft has declined, and the refining of Qi is prosperous, but the essence of real witchcraft has always been preserved in the ancient ruins. Come down!"

Fang Yue also understands witchcraft, and even his avatar is constantly practicing and understanding witchcraft in the world of witchcraft.

The ghost nodded slightly: "You can see where I am from, but your vision is actually better than those of the old Taurus constellations!"

"you!"

Zhang Kuan saw this scene appear in series, and tens of thousands of such ancient armored soldiers were displayed in the treasure house of Zhang family.

If these armored soldiers had their own independent will, then the Zhang family would be insecure.

"Me? What's wrong with me? Do you think that as a weapon I should not have my own complete wisdom and soul?"

The ghost looked at Zhang Kuan mockingly.

Zhang Kuan's heart suddenly stopped beating.

"Conspiracy, all conspiracy!"

Zhang Kuan turned around to leave. He wanted to bring this news back to Taurus and tell everyone.

"Can you still go?"

The ghost of the armor mountain whispered and said, "I lend you strength, and you contribute your soul and life. This is a fair deal!"

Upon hearing this, Zhang Kuan suddenly felt that his body was unprecedentedly floating and weak.

"How is this going?"

Zhang Kuan's heart is now full of fear.

The armor's betrayal scared him more than Fang Yue's strength, the former was the big deal that he died.

The latter will make the entire Taurus constellation turmoil.

"It's nothing, just when you put on me just now, I have drained all the energy in your body. According to my estimation, you can live another three or five breaths. If you have any wishes, you can hurry. Tell me, maybe if I am in a good mood, I will help you satisfy!"

The ghost in the armor became more and more unscrupulous at this moment. He looked at Zhang Kuan as if he was looking at a dead person.

Zhang Kuan was desperate.

Eyes closed tightly.

His heart died like a lamp, and he died suddenly.

Zhang Kuan's body turned into a human skin, and the essence in it was completely absorbed by the armor.

Fang Yue suddenly thought of the people who were killed by Zhang Kuan that Ye Xiao said before became a piece of human skin. Such a thing was a coincidence, and Fang Yue didn't believe it.

"You already controlled him?"

Fang Yue looked at the ghost on the armor.

"Yes, he was already affected when he wore me for the first time 500 years ago. This idiot wanted to control me at the level of the world, but he was planted by me as a demon. seed!"

Armor is outspoken.

There are some things to avoid.

Since he had been frank and honest, he had no plans to hide from Fang Yue.

"Zhang Kuan saw through your conspiracy and true identity, you killed him, and I also know these secrets, are you ready to do it with me too!"

The corners of Fang Yue's mouth curled up slightly with a mocking expression.

"No, this is your world, I am not your opponent!"

Armor said regretfully.

"I admit that you are stronger than I thought, and even stronger than most people see. Even in our time, you can be regarded as a real strong! But you may You have been born in the wrong era, and the calamity is approaching. You may not have the chance to grow up smoothly!"

The armor of Fang Yue's future is not optimistic, and now the power of calamity sweeps the entire Milky Way galaxy, it is difficult to have an egg under the covering nest.

Fang Yue smiled lightly: "You don't need to worry about whether I can grow up, as long as you know, no one can keep you today!"

"You want to kill me?"

Armor stared at Fang Yue, showing a surprised expression.

### **Chapter 1447: You are crazy**

"Don't forget, the enemy's enemy is the friend. Our goal is the Taurus sign. You just killed the disciple of the Zhang family of the Taurus sign. They will retaliate against you. According to the truth, you and I should join forces. That's right!"

The tone of the armor was full of puzzlement.

"Friends? We are not friends, because you want to subvert not only the Taurus constellation but also the civilization of the entire universe. Don't forget, where we are now is the world evolved from your inner world, this world Everything in it represents your memories and your real thoughts! I can perceive

the flow of every obsession in your heart! The ancient civilization is indeed much stronger on the surface than the current civilization, but after all It's gone, it's over, and you still want to drag those things that have died out from the long river of history, you are going against the long river of history!"

Fang Yue's refusal of armor was sonorous and powerful.

The idea of this armor is simply too scary.

They want to sacrifice all the creatures in the entire universe, and then turn back time and reverse the origin of the universe!

"Hahaha! I didn't expect your thoughts to reincarnate so powerfully. Even the stubborn old guys of the Taurus constellation didn't see it through, but it was finally broken by you, but it doesn't matter! I'm just a chess piece the size of a sesame rice grain left over from ancient civilization , Even if it perishes, it won't affect the overall operation of the whole situation! It's your Fang Yue, now it's at stake. Once the Taurus constellation catches your eye, let your great magical powers be difficult to fly, I can give you more A chance to choose, join hands with us, I can help you pass Zhang Kuan's death, and let the people of Yejia not do anything to you! Don't be too busy to refuse, this may be what you can survive now The only chance!"

The armor's voice became more public.

Fang Yue condensed the armor with a deep glance.

"I have to say that your conditions really make me very excited, but there is no proof. How can you make me believe that you can do this?"

Armor's heart was slightly loosened, and as expected, Fang Yue still hadn't borne the temptation of his words.

As long as it is bait, all this is easy to say!

The armor brewed a bit of language, and then slowly said: "In the Taurus constellation, we have mastered the thinking of a huge number of strong men. Although not completely seizing the house, let them become our puppets, but in the subconscious mind. , But they can change their decision silently! Among them, it happens to be the veteran figures in the two families of Ye Family and Zhang Family. In fact, whether it is Zhang Kuan or the two of Ye Family, they are in their families. The status is not very high, as long as the high-level operation is a little bit, even if they die, they are dead for nothing!"

After the armor finished speaking, he looked at Fang Yue eagerly.

Fang Yue nodded slightly.

"The method you said is indeed feasible! But just like this, I can't let you go. After all, you are so cunning. Even the saints of the Taurus constellation and even the powerful men of the great saint level can be fooled. How can I Believe that what you told me is true or false. If I bring you by my side, how can you be honest and make sure that I won't take the shot?"

Fang Yue never thought of extinguishing this armor from the beginning.

For Fang Yue, this is a window for him to contact ancient civilization.

The ancient civilization was powerful and mysterious. Whoever mastered the ancient civilization was the same as mastering the cornerstone of the world.

But Fang Yue was worried that the armor was too arrogant, and he would not cooperate if he negotiated well, so he could only intimidate it first, and then act on it!

The armor took a little while.

Why is this kid getting stronger!

It is good to be able to save your life.

Why do you want me to prove my loyalty to him?

Fang Yue didn't speak, he was waiting for the armor's response.

The armored ghost frowned slightly, "Say it, what can I do to reassure you?"

"Actually, I am not a harsh person, and I will not make any rude requests to you. I don't want to restrain you with imprints or oaths. Of course, it is very likely that this kind of thing is for you. A joke has no effect at all! Let's do it! Risks and opportunities coexist, I can keep you by my side, but you have to explain to me the civilization deeds of the ancient times every day. When necessary, I am exploring the ancient times. We need your help in times of civilization and historical sites! In return, I will provide you with sufficient flesh and blood and even soul power to allow you to grow and grow quickly!"

The ghost of the armor was unexpected for Fang Yue's conditions.

"Give me the power of flesh and soul so that I can grow up quickly? Don't you worry that one day I will attack you?"

The ghost of armor doesn't quite understand Fang Yue's logic.

"I just said that this crisis and risk coexist. Since I want to use you as a window to understand the situation of ancient civilization, I will take the risk that matches it!"

Fang Yue was quite decisive.

He was originally walking on the tightrope, a little careless, and there was an abyss under his feet. Anyway, there are people who want to kill him, not one more, one less.

The armored ghost laughed: "Admire, admire! Other than just this courage and wisdom, you are better than those old guys in the Taurus constellation who sit well and watch the sky. I take back what I just said, maybe you really are. It is possible to grow up smoothly in this fate and troubled times!"

The armored ghost leaned slightly and made a polite look.

"Introduce yourself, Ling Qingkong, D-level armor spirit!"

Ling Qingkong's voice was pleasant to the ear, which made Fang Yue slightly surprised.

"If my guess is correct, you should be the arrogant of a certain tribe in the ancient times. Because of the times of catastrophe, you abandon your physical body and become the immortal of this armor spirit and this armor!"

Based on his knowledge of the witchcraft line, Fang Yue roughly inferred the cause of the volley.

"Yes, I really didn't expect that in this era, there are still people who have such a deep understanding of witchcraft. I have exhausted the power of a tribe to seal my soul in this armor! This armor is immortal. , Is with the long river of time. But every time it shows its power, it will be punished and rejected by the will of the universe, weakening part of its power. If this armor is worn three or four times, it is estimated that it will die. Now, the day when the armor is broken is also the time when my soul dies!"

Ling Qingkong was slightly sentimental.

If it were not for his immortality, those former brothers and sisters would not die miserably.

"There is no immortality under this world. All practitioners say that they are retrograde cultivators, but in the end, no one truly becomes immortal. Even though they are immortal, like the gods, they will eventually wither and fade away from the long river of history. Disappear, exit one by one!"

Ling Qingkong's sadness is stronger, and he associates a lot.

What a glorious past civilization, they thought they could stay with the heavens.

However, in the end, everyone could not escape the fate of destruction, even if he turned into armor and was excavated, turned into a meteor, doomed to flash away in the long river of history.

It will burn away its last brilliance and brilliance, and then die with this world.

Fang Yue looked towards the sky and could feel the waves and sadness in his heart.

"If you are willing, I will tell you the bits and pieces of ancient civilization. If you are willing, give me some flesh and blood and soul, which is a little reward, so that I can linger for a while after this armor is broken, and if you If I don't want to, I have no regrets. I have too many words in my heart to tell. Telling those stories to you is a catharsis to me!"

The words of Ling Qingkong let Fang Yue not know the truth or not.

The higher this cultivation level, the more able to conceal the throbbing deep in his soul.

Fang Yue nodded, condensing the world formed by the reincarnation of that thought, and he walked out of the world with the ruined armor.

Ye Mei and Ye Xiao, the two disciples of the Ye Family, were both dumbfounded, with endless fear in their eyes.

Zhang Kuan was defeated after all.

He is no match for the hero of the galaxy.

They are all Tianjiao, after all, they are superior.

If this news comes out, I don't know how many waves will be caused in the Taurus constellation.

Zhang Kuan is so famous in the Taurus constellation that even those supreme masters, who are immortal for thousands of years, cannot help Zhang Kuan.

But in this humble Milky Way galaxy, Zhang Kuan was defeated by a younger generation of practitioners, and the defeat was that Zhang Kuan was completely removed from the world!

"Yemei, are you going to die by yourself or let me do it!"

Fang Yue's tone was more indifferent.

But Ye Mei was trembling all over, her eyes were gray and she didn't have a trace of life.

She thought that the savior of the Taurus constellation would come to save her and defeat Fang Yue.

But now that even Zhang Kuan has lost, there are still a few people who will be Fang Yue's opponents in this special environment of the secret realm.

"Is there really no room for maneuver?"

Ye Mei said almost pleadingly.

In the face of life and death, she had already let go of her pride, but Fang Yue just shook her head slightly.

"There is no turning back! From the moment you stand opposite me, everything is actually doomed!"

Fang Yue was quite determined.

Ye Mei looked at Fang Yue bitterly.

"You will regret this!"

Ye Mei opened her eyes angrily, and died by cutting her meridian.

The disciples of the Ye Family, even if they die, they must die with dignity.

Yemei fell to the sky, bleeding from Qiqiao.

Suicide is just the last trace of her dignity.

Fang Yue glanced at Ye Mei's body on the ground, and shook his head slightly.

"It's not that I want to kill you, but this galaxy needs your corpse to maintain its dignity!"

Fang Yue wiped away all the finances from Ye Mei, and then looked at Ye Xiao.

"Do I need to use corpses to maintain the dignity of the Milky Way galaxy?"

Ye Xiao gave a wry smile.

Fang Yue shook his head lightly: "I am a lunatic, but I don't kill innocent people indiscriminately! People who provoke me to death, those who touch the bottom line of the Milky Way galaxy die! Other people, I will not provoke, you can leave and kill me The news of Zhang Kuan and Ye Mei spread!"

Ye Xiao was silent for a while, before he spoke again: "Fang Yue, you are a madman, an out-and-out madman, do you know what the outcome will be after this news spreads?"

**Chapter 1448: Honing**

Fang Yue nodded: "The joint pursuit of the Ye Family and the Zhang Family, and even the entire pursuit of the Taurus Constellation! These two people do not have such a heavy weight, but the two big families have the face!"

Ye Xiao took a deep breath and turned to leave.

He didn't want to talk to a lunatic.

Don't want to talk to a dying lunatic.

Fang Yue watched Ye Xiao's figure leave.

Then stood in the ruins of the Vientiane Sect.

Soon, the figure of Great Sage Aoki appeared behind Fang Yue.

"Fang Yue, did you do something with the Taurus sign?"

Great Sage Aoki had injuries on his body, and his back was soaked in blood.

A faint breath came out inadvertently.

Fang Yue nodded slightly: "I killed the two disciples of the Taurus constellation Tianjiao, and then I captured an older generation of saint guardians alive!"

Fang Yue's tone was flat, as if he was talking about what he had eaten tonight.

However, Great Sage Aoki took a breath.

This is the real lunatic!

"does it worth?"

Great Sage Aoki said with some complicated eyes.

"Don't forget how the Galaxy Star Alliance treated you?"

"He can be unkind, but I can't be unrighteous. What's more, I am not doing this for the Galaxy Covenant, but for fulfilling the obligations of a galaxy person!"

Fang Yue's eyes were indifferent and calm, without any anxiety or panic.

Soldiers come to block, water comes to cover, in fact, even worrying is meaningless!

"atmosphere!"

Great Sage Aoki Mudake raised his thumb.

It would be great if this person was from their Alpha Star Alliance.

It is a pity that I was born in the wrong time and place.

"Where are the rest?"

Fang Yue turned aside the topic, unwilling to talk more on this topic.

"They are all dead, only I survived!"

Great Sage Aoki's eyes were a little dim.

He also didn't expect that this secret battle would be so tragic.

"After you stepped into the stone gate, we also entered one after another. But unexpectedly, we were blocked from the void and intercepted by the strong Taurus. We fought hard, but it was almost useless. There are only three people in total. They are not very old, but their methods are all powerful. My opponent is a young man from the first level of the leader realm. He holds a star knife in his hand. He and I The more than three hundred moves in the battle were comparable. I finally resisted a stab and got out of his entanglement and escaped. Others were out of luck. They faced the Taurus ascetics. It's almost a one-sided slaughter. These Taurus guys are too strong, each one is arrogant and unreasonable!"

Great Sage Aoki has some lingering fears. He didn't expect that at his Great Sage level, he would be so embarrassed when facing a Taurus cultivator.

Fang Yue sighed slightly, the practitioners of the twelve constellations of the equator indeed have the capital to be proud, their combat power is extraordinary, and various secret techniques are emerging one after another.

"Great Sage Aoki, take this pill! The danger in this secret realm is endless. Only by maintaining the highest state can there be hope of survival!"

Fang Yue took out a pill, which contained a strong breath of life.

This is a pill that Fang Yue refined casually. The pill is unnamed, and the medicinal materials used are not so cherished, but Fang Yue turned the pill three times in a row, and the effect was a hundred times.

Even if it is for the injury of the Great Sage-level powerhouse, it has a good healing effect!

Without saying anything, Great Sage Aoki took the pill and took it by mouth.

He is not worried that Fang Yue has a trick in the pill. It is not doubtful to employ people, but not suspects. This is the standard of the Great Sage Aoki!

"I have that fragment of the Taurus law on my body. He can lock where I am at any time and hunt me down!"

Great Sage Aoki just spoke, but his words haven't finished.

There was already a figure chasing and killing rabbits and flocks, and the man had come behind the Great Sage Aoki.

The figure raised his hand, and a sword was raised high.

On the top of this battle sword, there are rules of the Saint Realm circulating, which is clearly a magic weapon of the Saint Realm level.

"Let's kill him together, the knife belongs to you, and the rest of his body belongs to me!"

Fang Yue quickly made a decision.

Before this guy entered this secret realm, he should be a strong man in the saint realm, and the time he spent in the saint realm was not short.

"no problem!"

Great Sage Aoki responded. Although this guy couldn't kill himself, he was chasing him every day, like a maggot with bones, which was really annoying.

"Hey, join forces to kill me?"

There was a hoarse laughter in the man's throat.

"The sky and the earth!"

Fang Yue's starting style is to sacrifice the net of heaven and earth.

Chen Hao was released, but his eyes were confused, he had been branded by Fang Yue, lost himself, and became his puppet!

Fang Yue is good at soul methods and is best at spiritual control.

The big net fell, and the power of reincarnation was transmitted from it.

"Huh, a semi-finished saint dare to come to the enemy?"

The figure snorted coldly, and the sound was like waves, tearing the net of heaven and earth from the middle.

This is a semi-finished sacred artifact, it was destroyed like this.

"No! He has peculiar objects on his body that can be used to counter the laws of this secret realm! His cultivation has not been completely suppressed, at least he still retains the power of the saint state level, otherwise, the semi-finished saint is activated Realm-level magical instruments cannot be destroyed so easily!"

As a bystander, Great Sage Aoki finally understood the clues and reasons.

The person of this Taurus constellation is too terrifying, even the power constraints in this secret realm can be broken in a short time.

Fang Yue's eyes were red.

This is a semi-finished sacred artifact. If he is pregnant for a period of time, he is expected to become a true saint-level artifact.

And the net of heaven and earth was destroyed like this, making him extremely distressed!

"Dare you destroy my magic weapon! I want you to regret it!"

Fang Yue roared, the aura of being restrained suddenly burst out!

The heaven and the earth change color, and the universe is shining brightly, and it becomes a bright galaxy in an instant!

"Change the sky and the earth, day is like night! This Fang Yue is starting to go crazy! I feel the breath of madness in him!"

Even the Great Sage Aoki, who was a comrade in arms, felt a little shuddering.

Fang Yue in this crazy state was too terrifying, and the magical powers he displayed were just like those recorded in myths and legends.

"It's so stingy, is this the tradition of the Lao Fang family? If someone ruined a semi-finished saint magical instrument, you will find someone desperately! This Fang Yue is indeed a disciple of our Fang family!"

Fang Jiuzhong always stood by as a bystander, his aura converged, and no one noticed his existence.

Fang Yue was so angry that he changed the world.

Fang Jiuzhong looked in his eyes, a faint smile was drawn at the corner of his mouth.

This Fang Yue has the style of Fang family.

All the guys who don't want to die for money.

If you dare to touch his things, it's easy to kill you.

That Taurus guy is really pitiful, why should he touch the old Fang's inverse scales?

The sun and the moon are dim, and the world is dull.

Fang Yue was really hot this time.

He took "The Night King" to the extreme, as long as the night is in his domain.

This trick is really scary.

The Taurus guy was directly crushed.

He felt a little out of breath, and every movement required a hundred times more strength to complete!

"what are you going to do?"

The Taurus guy is terrified.

"I am Zhang Wuying of the Zhang family. If you dare to do anything to me, you are definitely dead! Even in the entire Taurus constellation, my Zhang family is an immortal family, living with the world!"

Zhang Wuying did not expect that she would capsize in the gutter.

The means displayed by this little guy from the Galaxy Alliance is absolutely equal to him.

And he used the Zhang Family's secret treasure, the Universe Pearl, to be able to briefly display the means belonging to the Saint Realm level, and what does this little guy rely on?

I saw a drop of black water rolling on Fang Yue's chest.

The power of the divine residence radiated from the surroundings.

This is a drop of divine power, which is integrated into Fang Yue's body to make him go to a greater realm in a short time. Originally, Fang Yue was the seventh level of the rotation realm, but after fusing a drop of divine power, he actually rushed up. The seventh level of Yin Yang Realm!

At the level of the rotation realm, Fang Yue dared to challenge the saint.

At the level of Yin-Yang realm and his comprehension of the laws against the sky, even saints like Zhang Wuying were born with great terror!

"I'm going to kill you!"

Fang Yue's words were squeezed from between his teeth.

"Dare to destroy my actions, I will hack you to death!"

Fang Yue immediately had a 40-meter machete in his hand.

That's right, this machete is forty meters long. In order to match the length of this machete, Fang Yue forcibly raised himself to a height of a hundred meters, and became a dark giant, a true eternal and immortal dark king!

Great Sage Aoki was shocked, and he regressed again and again.

Fortunately, he didn't do anything with Fang Yue, this guy burst out is simply unimaginable.

"Kill you, hack you!"

Fang Yue waved the machete in his hand, and waved with a whistling wind.

At this moment, Zhang Wuying was about to cry, and he used his strength to dodge.

This machete, this piece, even if it is slightly scratched, it will end up with a broken arm!

Who says there is no strong in this galaxy, all weak.

It's you, you try?

This buddy is obviously more brave than the prehistoric beast!

At this moment, Zhang Wuying's intestines were about to regret.

Why did I try my best and pretend to be forceful? I had to let out a cold snort to destroy the net that day!

Finished, this time I was beaten in the face!

Under the a hundredfold suppression of the dark comprehension, an extremely common action Zhang Wuying usually consumes a hundred times more energy.

Zhang Wuying is about to cry, life choices, one step in heaven, one step in hell.

Fang Yue sharpened his knife and slashed his body with a machete.

As a saint, there is no room for resistance in Fang Yue's dark realm.

As long as there is dark night, it is the territory of Fang Yue's dark realm, Zhang Wuying's heart sighed. Yin why there are such monsters in the world.

"I beg for mercy, don't kill me!"

Zhang Wuying felt that his body was gradually weakening. Fang Yue would leave wounds of different depths on his body every time Fang Yue fell. It didn't matter what wounds were left, the key was that every fall was a wound.

The breath of the law remains in the wound, so that he has no ability to heal.

"You said you wouldn't kill you if you didn't kill you, why?"

Fang Yue's tone is still full of murderous intent, in his eyes, anyone who violates the safety of others' lives and property deserves death.

#### **Chapter 1449: Ying Long Divine Beast**

"I am a disciple of the Zhang family of the Taurus constellation, you will not end well if you kill me!"

Zhang Wuying threatened with his identity.

Fang Yue's sword force really stopped for a while.

Zhang Wuying's heart secretly rejoiced, and this identity is still used. Their Zhang family in Taurus has a powerful deterrent effect even in remote places like the Milky Way galaxy.

"Zhang Family? Do you know Zhang Kuan?"

Fang Yue asked again blankly.

"Knowing, knowing, that is my Zhang Family's arrogant arrogance, and it is famous in the entire Taurus constellation!"

Zhang Wuying said quickly, but he didn't expect this guy to know Zhang Kuan, so it would be easier.

"It's because of Zhang Kuan's face. Just let me go!"

Zhang Wuying begged again and again.

Fang Yue sighed lightly: "I have already killed Zhang Kuan. Your Zhang family will not let me go. Since your Zhang family will not let me go, then I will kill one and kill ten or one hundred. There should be no difference, right!"

Fang Yue's voice fell.

Zhang Wuying is ruined by Lei Cheng.

Zhang Kuan is dead? And he died in the hands of the young man before him.

"How is this possible?"

Zhang Wuying stayed in place for a while.

Fang Yue's machete fell, and Zhang Wuying was forcefully split in half while breathing.

The saint fell, and the blood was pouring.

Fang Yue silently put away Zhang Wuying's corpse. The value of this thing is extremely high. Every drop of blood contains a strong essence of life.

Sage Aoki watched the scene where Fang Yue took away Zhang Wuying's belongings, and did not dare to mention the previous plan to divide the loot.

After all, this person was killed by Fang Yue, he was a bystander from start to finish, and he was not qualified to share the spoils with Fang Yue.

What's more, just now Zhang Wuying destroyed Fang Yue's looted Tianluodi net from whose hands he didn't know, and it caused him to go into a rage, completely insulted, and hacked Zhang Wuying to death.

If he dared to take food from Fang Yue's mouth, he might turn into meat sauce directly.

There is no such thing as a great saint in this secret realm.

Guys like Fang Yue felt much better than Dasheng.

Fang Yue's current strength is hard to estimate, but the real combat power of this clone should be equal to that of the saint.

"There are many dangers in this secret environment. The real danger comes not only from the environment itself but also from the people who have also ventured into the secret environment. Even the latter is more dangerous than the former."

Fang Yue exclaimed to himself.

Great Sage Aoki secretly added in his heart, I feel that the entire secret realm is your most dangerous.

The whole terrorist, see who kills whom!

At the same time, it was about hundreds of kilometers away in the east.

The blood is pouring down, and the thunder is overwhelming.

There was another strong man in the saint realm who had fallen, and the momentum of his fall was greater than when Zhang Wuying had just fallen.

"That should be the fall of a saint in the Alpha Star Territory, and I sensed a familiar aura."

Great Sage Aoki's expression was indifferent and unsentimental.

Because the practitioners are fighting for their fate with the heavens, even if they die halfway through the battle, it is a matter of course.

"The saint has fallen!"

Fang Yue has a touch of sentimentality: "If in the outside world, every sage would have the power to pour the country, and blood drifted under one word, but in this secret realm, the life of the strong in the realm of sage turned out to be changed. To be so worthless, two of them fell casually, and they all fell when they were at the level of a saint!"

Fang Yue's words made Great Sage Aoki's heart startled. He then noticed that if the strong of the Saint Realm were suppressed and cultivated by the secret realm, even their fall would not trigger any changes in the celestial phenomena, only they showed At the level of the Saint Realm, there will be such a scene of blood rain pouring down when it falls.

In the process of exploring the secret realm, is it that the strong of the saint realm are so vulnerable?

The red rocks in this place are probably all stained with the blood of saints!

"Someone slaughtered the saint, and the person who slaughtered the saint only has the level of Yin and Yang!"

Fang Yue looked into the distance, and he learned part of the truth that just happened with the help of space heaven.

The people who shot are very strong, and they are not old, they belong to the younger generation of practitioners.

"I know who this person is! He is the eighteenth and seventy-fifth Ye Shura in the yin and yang of the Taurus constellation. This is one of the few young people in the Ye family who can squeeze into the Yin and Yang realm ranking list. It is said that he was hidden by the Ye Family Snow for many years, and he came out at the level of Yin-Yang Realm. He should not be more than a hundred years old, but his combat experience is quite rich! The most shocking thing is this. Ye Xiuluo is only the second level of Yin-Yang realm, but he can be excelled in Yin-Yang realm. The first battle of his debut was to defeat an old leader of the master realm head-on, and then he used all the triumphant songs. The bones of the strong came as a stepping stone for him to reach the top of the world. Unexpectedly, Shura slaughtered another saint this night! If he returns to Taurus, he will probably climb up a few places in the ranking!"

Ling Qingkong spoke, he knew quite a few secrets about the Taurus constellation.

Over the years, he has always followed Zhang Kuan, and he knows everything about Zhang Kuan's battles!

"Ye Shura!"

Fang Yue pondered this name. The higher his cultivation level, the more genius he was, the more he cared about his name.

Shura, who presided over the killing, is a notorious ethnic group in the world.

This night Shura, using Shura as his name, I am afraid that he also wants to take the path of breaking into the road.

"This time the Taurus constellation is in order to obtain the same treasure in this secret realm-the Wugui Sword is really a blood base! However, this Wugui Sword is a true fairy weapon, even if it is a great price, as long as If you can get this sword of no return, Taurus is not a loss!"

Ling Qingkong said to himself, he was expressing his value.

"Wuguijian is really in this secret realm?"

Fang Yue looked at Ling Qingkong in disbelief.

Fang Yue had also heard of the legend of the Wugui Sword on Helen Star, but he couldn't believe it was true. Because up to now, Fang Yue hadn't seen a real celestial level magic weapon.

There is no fairy in the world.

There was such a saying in the Xuanhuang world.

This heaven and earth simply cannot carry the existence of beings at the real immortal level.

All the true celestial beings have gone to the higher plane world like the fairy world, the underworld or hell.

In the ordinary world, Xuxian is already a superb.

However, this kind of statement is widely spread and no one can really verify its authenticity.

True immortals do not exist. According to the truth, true immortal artifacts will not exist, but there are still legends about ten true immortal artifacts in the universe of the universe.

Wuguijian is the eighth-ranked existence.

With one sword, there is no return.

This Wugui Sword is refined from the essence of the sun and the moon of 100,000 years, and accompanies the eighteen Xuxian Cross Tribulation in a stormy night.

The eighteen virtual immortals were all turned into ashes, but before they died, all the essence of life was injected into the Wuguijian.

Wugui sword turned into a whirlpool, rolling the universe, absorbing all the thundering calamities,

Thunder turns into a cocoon, wraps the Wugui Sword in it, brews for a hundred years, and finally becomes the supreme real magic weapon.

Fang Yue had seen the origin of Wuguijian in ancient books long ago.

It is so famous that it spread throughout the universe.

Fang Yue had always regarded this Wugui sword as an existence in myths and legends, but he did not expect to have the opportunity to see it with his own eyes this time.

"If it weren't for the Wuguijian, if it wasn't for the exact news of the Wuguijian, how could the Taurus constellation be so aggressively sending so many powerful people."

Fang Yue chewed Ling Qingkong's words in his heart, and he was also planning whether he could take this opportunity to fish in troubled waters and get this Wuguijian in his hands.

Of course, Fang Yue didn't have too strong obsession with Wuguijian.

After all, this kind of thing can be met but cannot be sought, but after understanding the goal of Taurus, Fang Yue is also easier to take the opportunity to layout.

If you can kill a group of Taurus people, you can also kill their aura, let them know that this Galaxy Star Alliance is not so easy to conquer.

In the sky, black clouds suddenly gathered.

The figure of a real dragon haunted the dark clouds.

The real dragon is the highest level of mythical beast. The dragon sees the head but not the end. There are only legendary descriptions and few people have seen it in reality.

Fang Yue was stunned. What day is it? Even the real dragon ran out to join in the fun. Is this Wuguijian really going to be born?

The dark clouds were so dense that the tribulation fell, and the thunderbolt opened the sky and the earth.

This thunder is aimed at Ye Shura split.

Even though Fang Yue was hundreds of miles away, he could clearly sense the power of that calamity thunder.

"This night Shura was guilty of public anger this time! He turned out to be targeted by Ying Long! This Yinglong line, specializing in the punishment of thunder, it is said that there is a general under the Thunder Emperor in this heavenly line who is in charge of controlling Heavenly Tribulation, its body is filled with extremely pure Yinglong blood!"

When Great Sage Aoki saw this scene, he didn't have the feeling to relieve his hatred.

Instead, his pupils shrank slightly, feeling that this secret realm was even more dangerous.

Ying Long, although he is not a real dragon, his body also contains a very rich blood of a real dragon.

Ying Long is already a leader among the sacred beasts. They are at the level of the Saint Realm when they are born. They are unparalleled in talent and invincible at the same level.

Every Yinglong is a terrifying powerhouse.

If it was a translocation, swapping his and Ye Xiuluo's positions, he might not be able to survive that vast thunder calamity.

This secret environment is too terrifying, beyond ordinary people's cognition.

There are traps everywhere, and all of them contain crises that must kill.

"No, this Yinglong is not a real fierce beast, but a puppet made from a refining corpse. Although it possesses the magical powers of the ancient Yinglong, there is still a certain gap between the strength of the real ancient beast!"

Fang Yue realized the strength of this sacred beast was extraordinary, but it had not yet reached the point where it was earth-shaking and unbelievable.

This Yinglong is one-tenth to twelve-tenth of the strength of the real Yinglong, and it does not yet have the kind of real magical power to call the wind and call the rain.

"This puppet Yinglong should be the guardian of a certain ruin! I really didn't expect that the ancient civilization has been annihilated for so many years, but there are still powerful institutions to guard!"

Fang Yue sighed all his life, but did not fly in the direction of Yinglong.

Others have chances of others, and this Vientiane Sect is his chance.

"Wait here, you guys. I have found the entrance of the second chance for Vientiane. I hope this time it can bring me something worthy of surprise!"

Fang Yue opened his mouth, his gaze locked on a somewhat dilapidated bronze sculpture among the rubble.

#### **Chapter 1450: Ancient times**

Fang Yue walked towards the bronze sculpture, which was mottled with green rust.

This bronze sculpture is the appearance of the incomparably exquisite Bifang mythical beast. It spreads its wings to fly, and may soar into the sky at any time, turning into a red sun.

Fang Yue's palm gently stroked the bronze sculpture.

The token of the outer disciple at his waist suddenly lit up.

The token turned into a ball of light and slowly rose into the air, covering a ten-meter radius around Fang Yue in a blink of an eye.

Immediately, the ball of light disappeared, and Fang Yue's figure also disappeared.

Fang Jiuzhong suddenly raised his head, and he showed a surprised expression where Fang Yue's figure disappeared.

"Ying Long, Bi Fang, I didn't expect this to be the main entrance of Vientiane! Interesting, very interesting. The chess piece arranged by this Fang family in the Galaxy Star Alliance is much more interesting than the pieces arranged elsewhere! "

With that, Fang Jiuzhong stepped out and walked to the side of Bi Fang's sculpture.

The purple and gold token around his waist suddenly shined.

He also disappeared next to Bi Fang's sculpture. The scene only left the Great Sage Aoki and the others in a daze, his eyes confused and he didn't know what was thinking in his heart!

"Kill!"

Fang Yue's surprise from the change in the scene in front of him has not been relieved, he heard the sound of killing shouts!

This is a desolate ancient battlefield, with countless figures standing densely outside the city wall of a thousand feet high.

Fang Yue, dressed in bronze armor and holding a bronze sword, was just the most common of these thousands of soldiers.

The cry of killing soared into the sky, and the cold and sharp murderous intent tore through the sky.

There are nine days in the sky, shining on the nine continents, full of aura, just like freezing!

"This is the ancient era! I should have been teleported to a fake ancient era. No, this may be a memory, a fragment of time and space!"

Before Fang Yue had time to think about it, a green-skinned monster swooped down with its green wings, fighting towards him.

This green monster has the size of an elephant, with a big belly, like a big green ball, tiger head, and eagle wings. Fang Yue has never seen a monster before!

"This monster at least has a rotation level!"

Fang Yue said to himself, he swung the bronze sword in his hand and slashed down towards the green monster's head.

The long sword pierced the air, and the green blood flowed across the sky, dripping down, soaking the sandy land under Fang Yue's feet.

"Be careful!"

Before the monster's corpse fell, Fang Yue's hands suddenly pushed over.

Fang Yue staggered and left where he was just now.

Under his feet, a pair of pale hands broke out of the ground, swaying, seeming to be empty.

Fang Yue understood that if he stood still in the position just now, he would definitely be grasped by these hands, and then dragged into the sandy ground. The final outcome was unpredictable.

Fang Yue was also shocked in a cold sweat, even if he had already started twelve points, he still didn't see the danger under his feet.

This ancient civilization is really strong, such as Lin, and I don't know how many grades higher it is than the civilization of later generations.

Fang Yue is no longer careless, he spreads keen mental power all over his body, and every move around him is reflected in his mind.

Every detail is exposed.

"what!"

Suddenly, a scream came, and the comrade-in-arms who pushed Fang Yue away just now had a long knife pierced through his chest.

The white knife goes in, the red knife goes out.

The blade is sharp, flashing cold murderous intent in the sun.

He was accidentally stabbed by a little monster.

This little monster is about one meter, five to six meters tall. His body is thin, his skin is fiery red, and there are lumps on it!

Its big eyes rolled. Round, the cold and cruel light constantly reflected in the eyes.

There are the largest number of such little monsters, overwhelming, almost inexhaustible.

Its appearance is somewhat similar to the little monsters in the universe!

Fang Yue frowned slightly. Could this little monster be the cause of the destruction of ancient civilization?

On this little monster, Fang Yue felt the familiar power of destruction.

His mind was constantly analyzing the similarities between this little monster and the various monsters he saw in later life.

Of course, Fang Yue's hands were not idle either. The buddy who was stabbed to breathe by the little monster just now was picked up by Fang Yue, and red blood was dripping on his chest.

The strands of life force melted into that buddy's body, and the terrible wound on his chest healed almost at a speed visible to the naked eye.

If it hadn't been for his kindness to save Fang Yue's life just now, Fang Yue's character might have saved him, but he would definitely not use the life force to heal him.

Because the power of life has a special meaning, if this matter is spread out, it may be found by people in the Temple of Life.

The Temple of Life, with a long history, runs through the entire history, and even the existence of the Temple of Life can be traced back to several civilizations before. Yes, civilization is destroyed, and the Temple of Life did not die with it. Some people even suspect that there are several in this Temple of Life. Antiquities before the civilization era!

If they really pursue it, Fang Yue can hardly imagine his fate.

The life temple's control of the life force is unimaginable, and they will never allow anyone or forces outside the life temple to master this life force refining method.

The person's injury was quickly healed, and he regained his life and vitality again, but Fang Yue directly cut off the memory of being healed in his mind just now, so as not to cause trouble and attract the attention of the people of the Temple of Life.

Up to now, Fang Yue wasn't quite sure where he was.

It seems to be an independent world, and it also seems to be a virtual world, in which the world is ancient and vicissitudes, filled with a taste of ancient and decay.

This is like the setting sun at dusk, about to fall, but before it completely falls, it will release its greatest brilliance, illuminating the clouds on the horizon!

"Thank you!"

The man thanked Fang Yue, and then plunged into the battlefield again. He burned his vitality straight away, trying to release his last light and heat.

The moment he stepped into the battlefield, he seemed to be unprepared to come back alive.

Every move is offensive but not defensive, and every move is close to full force.

A loud roar, a loud shout, made the sky tremble.

His eyes were stained with red blood, and every step he collapsed was a wave of perseverance.

In the end, after he fought several little monsters, a sharp arrow from the sky pierced his eyebrows. He fell to the sky and slowly fell to the ground, smashing the dust and sand in the sky.

His eyes opened in anger and he couldn't squint.

He still has the will to kill the enemy, how could he die so easily that the invading enemy has not yet been extinct!

"This is a hero!"

Fang Yue said of this person.

At the critical moment of the opponent's life and death, Fang Yue did not save.

Because in the process of burning his life, he has reached a state where the oil is exhausted and the lamp is dead. Even without that cold arrow, he would not be able to survive for long.

This is a mortal man.

Fang Yue would rather die on the battlefield than he wanted to linger and struggle after the oil ran out!

"This is a battle to destroy the world! It is a battle to destroy the ancient civilization. Unexpectedly, you will find the entrance to here! Fang Yue, I seem to be looking at you with admiration!"

Fang Jiuzhong was like a ghost, and he didn't know when he appeared beside Fang Yue.

He looked at the boundless sea of people, the boundless black is full of heads.

Occasionally there was a silver light that was reflecting light from the blade of a handle.

The blood is like splashes in the ocean, one by one!

"The battle to destroy the world?"

Fang Yue looked sideways at Fang Jiuzhong, Fang Yue stamped his feet, and his surroundings turned into a five-element world, flooded by space and the five-element heaven, and no one could rush into it.

All the little monsters who wanted to slay Fang Yue and Fang Jiuzhong were in the moment when they touched the barriers of the Five Elements World, their bodies disintegrated into countless black particles and dissipated in the air.

If Fang Yue's methods are truly displayed, they are not weaker than the saints, at least they are not comparable to these little monsters.

"Yes! The ancient civilization was once extremely powerful, and its splendor is beyond your imagination. But suddenly, the glorious ancient civilization was completely annihilated in just five hundred years. Life is erased, and the five hundred years of ancient civilization from its prosperity to decline is hardly recorded in the real history! The destruction of ancient civilization is always insoluble for scholars of the universe. Mystery! It may be recorded in the oldest base of the Fang family, but for you and me, this is also a secret that is difficult to solve!"

Fang Jiuzhong then turned his gaze to Fang Yue, now that he meets him, let's explore it together?

"it is good!"

Fang Yue had this intention, anyway, he didn't know the way to leave this world, he might as well settle down as he came, and search for the truth in this world and find the truth about the fall of ancient civilization!

"If you want to get in touch with the truth, you must first stand at a higher level. As a low-level soldier, you can't get any secrets and truth!"

Fang Jiuzhong leaped into the sky, his palm suddenly enlarged, and between the fingers, the power of the stars flowed down. These powers of the stars flowed in different directions as if they had their own wisdom, and the power of the stars continued to flow. Flushing, little monsters head after head were annihilated into ashes under the surging force of the stars!

In just a moment of effort, at least thousands of little monsters were annihilated by Fang Jiuzhong.

Fang Yue saw this scene, his mouth opened wide, and a dull look on his face.

Fang Jiuzhong is as young as himself, but his understanding of the law is extraordinary!

With just this move, Fang Yue was restrained. With regard to the Avenue of Stars, Fang Jiuzhong had a deeper understanding than Fang Yue's!

Fang Jiuzhong smiled when he saw Fang Yue's expression.

"You don't need to envy me. I take a different path from yours! You are a master of all things, and you are walking the path of the rivers and seas, but I am turning around and only cultivating this avenue of stars! Mine! The road is much easier than you, but if you and I both reach the same level, I am definitely not your opponent!"
