

## God of Life 1471

### Chapter 1471: Take care

Fang Yue didn't believe Ling Tianxiao very much. The two could only say that they met right away, and there was no need to reveal all the cards to him.

Fang Yue sent the corpse of the green-skinned monster in front of Gu Yuan.

Those little green bugs flying in the air lost their owners, and all turned into green flames in the air to burn themselves to death!

Gu Yuan took away the corpse of the green monster.

And Fang Han's gleaming eyes had taken dozens of green-skinned monsters out of thin air!

The remaining green-skinned monsters were filled with blank expressions.

In their world, they can also be regarded as the powerhouses of one party, and they are admired by countless little girls and older sisters.

But when they arrived in this world, how could they become weak into this virtue?

It's like fish on a chopping board.

"The remaining green-skinned monsters are mine!"

Without saying a word, Fang Yue directly opened a door to the dimension space, sending these green skin monsters into the unknown dimension.

Before entering the gate, the green-skinned monsters also thought about resisting and struggling, but Fang Yue confined the space with a thought, numbing the bodies of these green-skinned monsters, and was finally sent into the dimension space, becoming Fang Yue's future research material.

Seeing this scene, Ling Tianxiao opened his mouth to say something, but in the end he didn't say it.

There seems to be something wrong with this plot.

Obviously, it was the monster that made Ling's family and the Heavenly Capital City feel alive and dead. How could Fang Yue become a research material for life and death?

However, after so many green-skinned monsters were searched by Fang Yue and others, the movement on the seal was indeed much smaller.

Part of the reason is that the power over there has been weakened to a certain extent, and part of the reason is that at the other end of the seal, the green-skinned monsters also have doubts in their hearts.

Where did Dad go?

Where did Grandpa go?

Where did the teammates go?

"Let's help you here! After all, the Heavenly Capital City has fallen into chaos. As a responsible, ethical, and responsible commander in chief, I still want to serve the entire Heavenly Capital City and the entire Helen Star. Responsible for your safety!"

Fang Yue said with a straight face.

Ling Tianxiao saw Fang Yue's expression, and a blank look appeared in his eyes.

How can there be such shameless people in this world?

This Fang Yue is the commander-in-chief of the Galactic Alliance, right, but brother, didn't you just say that you have completely broken up with the Galactic Alliance?

You can't claim the title of the commander-in-chief of the Galaxy Star Alliance, right! And when you were the commander-in-chief of the planet Helen, you didn't see how much you paid attention to the overall situation of the planet Helen!

Ling Tianxiao looked at Fang Yue.

If you don't want to cause trouble here, just say it.

Don't fool me with this reason for not having an IQ.

However, Fang Yue didn't really fool Ling Tianxiao this time. He wanted to calm down the chaos of Helen Star this time. How could Helen Star now be his territory in name.

And the importance of this Helen star became more and more prominent.

In the future, anyone who wants to explore treasures or go to the ruins will have no problem. At least you must pay the entrance fees first in order to respect my master!

What's more, Fang Yue increasingly believes that the current situation of Helen Star is to preview the overall situation of the entire Milky Way galaxy.

It's always good after one experience, at least he can have a good policy when he comes back next time.

Fang Yue left the Ling's house, just walking out without two steps.

On this day, there was a monstrous demonic energy from outside the capital city!

Fang Yue was slightly startled, stepping through the void and rushing up into the sky. He looked down at the ground, and countless demons gathered outside the capital city.

Although these Demon Races and Destruction Demon Races have two overlapping characters in their names, they are actually in a bloodline relationship that is impossible to tie.

Destruction demons are monsters born out of the chaos outside the universe. Their bodies are formed by countless destructive powers, killing and fighting everywhere, and then plundering the resources in those worlds for their own use.

The demons are the natives in this universe of ten thousand worlds.

They are a huge ethnic group with many subspecies.

In many worlds, human races are competing with demons for territory.

For millions of years, in the universe of Ten Thousand Realms, the human race has the upper hand. The demons have low-key convergence and secretly gathered power, especially on the territory of the Milky Way galaxy. The demons have only a few thousand life planets used for reproduction. .

Compared with the Terran, their territory is simply out of proportion.

But I didn't expect that this time the demons would come out and use so many soldiers and horses to besiege the Heavenly Capital City!

The guard soldiers in the King City of Heaven stood on the wall, lined up, and countless arrows shot down towards the demons below the city like dense raindrops.

Among the demons, the mysterious black shields were raised high!

These shields blocked most of the arrows, and at the same time, the demon's vanguard team approached the walls of the Heavenly Capital City.

They fought unannounced, and wanted to use a surprise attack to take the capital city directly!

"There are at least hundreds of millions of people in this demons, and there are hundreds of sage-level auras in it! Unless all family forces, large and small in the Heavenly Capital City, unconditionally take out their people and trust each other If you don't, I'm afraid the Heavenly Capital City will not be able to defend this time!"

Gu Yuan opened his mouth, and he has roughly understood Fang Yue's position in the Milky Way Galaxy and Helen Star.

Although Shang Yue is the ruler of Helen Star, the problem is that this name is also nominal.

That being the case, the Capital City on this day is not essentially Fang Yue's land card, and spending great effort to defend the Capital City on this day does not make much sense for Fang Yue!

"Why did the demons also come out at this time to make fun of it? Millions of years ago, there was a fierce war in this galaxy. The battle between the human race and the demons for hundreds of years has caused thousands of life planets to be destroyed. In the end, even some of the oldest guys were dispatched. The demons defeated and signed an agreement that they would not be allowed to act on the human race for tens of thousands of years, otherwise they would be condemned by fate!"

Alice didn't know when she appeared next to Fang Yue, her body was full of scars, and the silvery and solid armor of the past became increasingly dim at this moment!

A bone wound on his arm was still bleeding with gurgling blood!

Fang Yue glanced at Alice and couldn't help being slightly surprised: "Alice, you are injured? Who can cause you such a serious injury?"

Alice casually took out a bandage and tied it on her wound and said, "It's too late to elaborate. Let's block these demons first! This time, the entire Celestial Capital City, large and small, will unite. Fight against foreign enemies, once the capital city falls, no one will survive then!"

A bit of fatigue appeared between Alice's eyebrows.

Fang Yue couldn't help asking: "What happened in Helen Star during my absence?"

"Someone has reported that Helen is the place where the gods once fell. Every indigenous inhabitant of Helen contains the blood of the gods. This blood can not only refine the elixir to strengthen the blood, but also it can be used to unlock the treasures of the gods! This statement is widely circulated in the entire galaxy of the Milky Way, so the major forces want to capture a large number of the natives of the planet Helen, and some of the planet Helen is hidden. The powerhouses have also come out to protect the safety of Helen planet, including the three forbidden places. Their strength is extremely strong, and they have resisted several attacks from outsiders. However, the number of powerhouses in the outer domain is increasing. The more! The entire Helen Star Orb has completely sunk into the flames of war! The Galaxy Alliance has already begun to send troops after knowing the situation on the Helen Planet. However, in the Galaxy Alliance, there are still serious infighting personnel who have sent waves of people to their own affairs! Some people say that the survival of Helen will affect the catastrophe of the entire galaxy. If Helen can keep it, the calamity of the galaxy will be delayed for a period of time before it erupts. If Helen is completely lost, the catastrophe of the entire galaxy will happen. It will come in an instant, and no planet in the Milky Way galaxy will be preserved. Under the baptism of the calamity, life will be completely wiped out!"

"That's it!"

Fang Yue nodded slightly, this Helen Star was more important than he thought!

However, Fang Yue didn't really care about whether Helen Star could be preserved.

He can only say that he will do his best, and Fang Yue does not have a strong sense of belonging to this entire galaxy.

And this calamity will come sooner or later, the Galaxy Star Alliance started to prepare thousands of years ago, even if it is to save Helen and delay the arrival of this calamity for a period of time, what about?

From the very beginning, Fang Yue was not prepared to be a hero who would save the world.

What he can do is to preserve the earth as much as possible, and strive for a higher position for the earth in the Galaxy Alliance!

"Fang Yue, this matter is at stake for the future destiny of the entire Milky Way galaxy, you must not be arrogant!"

Alice said her words sincerely. She knew that the Milky Way galaxy was sorry for Fang Yue. She was worried that Fang Yue would be picky at this juncture, so she said earnestly.

Fang Yue looked at Alice and grinned: "Alice, do you think I am that kind of person? If I choose to leave at this time, it means that a thousand people are pointing! This will give those in the Galaxy Star League disapproval. My people used excuses to act on me openly, and at this critical juncture, if I can fight in blood, no matter if I win or lose, I will be a hero! And those who hide behind the scenes will not be eligible to act on me!"

Fang Yue thinks very clearly, this time he will not act for others, for himself, for the destiny of the earth!

Alice took a deep breath, "It's best if you can think about it this way!"

Fang Yue nodded slightly, and then looked at Alice: "If you give the same words to you, don't be arrogant. The Galaxy Alliance is a lot less than you, but your friends, family and all those who care about you will be able to be without you! Alice, take care!"

Fang Yue's tone was slightly heavy, as if saying goodbye!

### **Chapter 1472: Much-anticipated**

"Take care!" Alice said with a fist, Yue.

After Alice left, she needed to dispatch the troops of the Galaxy Star Alliance under her!

Fang Yue looked at the Hungry Wolf Taoist and others.

"This over 100 million demons are not easy to deal with!"

Gu Yuan said with a sigh, Yue Chang.

Although Fang Yue has a reason to have to fight, Fang Yue's strength to fight against hundreds of millions of demons is tantamount to hitting a stone with a pebble to die!

"I know that these billions of demons are not easy to deal with, but it is not necessary to use normal fighting methods to deal with them! Although thousands of people are going to go, in fact, no matter success or failure, as long as I dare to fight, it is equal to success!"

Fang Yue has a clear plan for the future.

Gu Yuan took a deep look at Fang Yue. He knew that once someone like Fang Yue made up his mind on something, it would be difficult to shake and change.

Gu Yuan didn't persuade anything, just sighed faintly: "I hope you know what you are doing! I don't want my daughter Gu Na to become\* before she passes the door!"

Fang Yue smiled and said: "This is definitely not possible. What is here is just a clone of my spiritual energy. Even if it is unfortunately lost, my deity will come to marry Guna!"

Fang Yue smiled, but he understood the deeper meaning of Gu Yuan's words!

He is not really worried about his life but does not want to wade into this muddy water!

The catastrophe of the Milky Way galaxy is extremely vast, and the billions of demons in front of them are just the beginning.

Even if it blocks the pace of these demons, what can it be?

This Milky Way galaxy will surely become the fat of countless galaxies and countless worlds in the future, the resources, the techniques and secrets in it, and some legendary secrets are all things that make people look greedy.

What the Milky Way galaxy will face is not only the content of catastrophe, but also the invasion and devouring of other worlds!

Fang Yue also understands this. He doesn't have too many methods or plans for the future of the Milky Way galaxy. Now, what Fang Yue can do is to take one step at a time!

Anyway, because of the imminent catastrophe, Fang Yue will move the entire solar galaxy as a whole!

Of course, this was because Fang Yue didn't have the ability to do this. If he could really do it, maybe his character would really take the entire solar system away.

"I'm leaving the city! Fight against the demons with the bravest attitude!"

The laughing expression on Fang Yue's face disappeared, replaced by a serious look!

Fang Yue left, he walked towards the city gate step by step, the autumn breeze was bleak, and the dead leaves were dancing. From this perspective, he really felt a sense of wind and water!

Fang Yue stepped onto the city wall, but the situation was quite embarrassing. No one stopped him, because they were afraid. Fang Yue is also the commander-in-chief of Helen star appointed by the Galaxy Star Alliance anyway. At this crucial point, no one can stop him. Unwilling to come to stun the brow of the Galaxy Star Alliance because of a moment of anger.

But who will greet Fang Yue?

No!

Fang Yue has too many enemies, and even the Galaxy Star Alliance has broken up with him. At this time, if you behave too close to Fang Yue, you will inevitably hurt Chi Yu!

Therefore, Fang Yue stood alone on the wall like this, and the leaders of large and small forces were responsible for directing their own affairs on the wall!

There was no soldier under Fang Yue.

In the hurrying figure, he seemed to be an outsider!

Fang Yue narrowed his eyes and looked around.

There are so many colorful clothes on this city wall. Every kind of clothes represents a force!

Fang Yue roughly counted, there are at least hundreds of these forces!

They do not have a unified command. Although on the surface they are polite to each other, they still fight on their own. Their main purpose is to preserve their strength. When the time comes, they will retreat the demon army, and they will all become themselves. A polished division. Ling, then was annexed by other families!

This is not their selfishness, but a rather serious problem!

When there is a common enemy, they are allies and close together.

But once the external pressure disappears, they are enemies again, competing for territory and resources with each other!

"Fang Yue, why are you on the city wall too!"

Finally, Fang Yue stood awkwardly on the wall for a long time and someone ran out to take care of Fang Yue.

Alice hurried over. She didn't have a lot of military power under her. The Galaxy Star Alliance allocated five thousand people to her. Originally, her cultivation qualifications shouldn't be so bleak.

But Alice and Fang Yue walked too close, so they were implicated. The Galactic Covenant's attitude towards her became more and more indifferent. If it weren't for Alice's disobedience towards the Galactic Covenant, she would In the eyes of the bones, if a person who is accustomed to warfare like Alice is still worthwhile, the Galaxy Alliance has long since sent Alice to the frontier or found an excuse to kill him directly.

Giving Alice five thousand people is also an expression of distrust of Alice.

The task they gave to Alice was quite arduous, but the number of people was extremely stingy.

These five thousand people are almost all old, weak, sick and disabled. The highest level of cultivation is at the pinnacle level of the rotation stage, while the lowest level of cultivation is at the level of the world realm!

If it were not for Alice's incomparable strength, once these five thousand men and horses were thrown into this vast battlefield, even a cluster of splashes could not be stirred up, and then they would all die!

Alice saw Fang Yue, the exhaustion on her face was even more obvious, even her breathing became heavy and weak, and her strength was almost overdrawn!

"Alice, you are too tired and need a rest!"

Fang Yue found a place for Alice to settle down, and then sent a few spirit pills to Alice.

These spirit pills weren't made by Fang Yue, but he didn't know which hapless person grabbed them.

The pill is precious, and it is at the level of the master realm. It can be used to save lives on weekdays, but in Fang Yue's hands, it becomes a jumping bean, used to restore Alice's strength and invigoration!

Alice was not polite either, she knew that Fang Yue was worth a lot, and that these pills were not Fang Yue's own.

So she didn't feel the slightest guilt when eating.

Soon, a few pills entered the abdomen, all of which were refined by Alice, and her face returned to her normal look.

The eyes looking at Fang Yue were also shining.

"Fang Yue, you shouldn't wade in this muddy water! Even the billions of people with the Galaxy Star Alliance in this billions of demons, no matter how mighty they are, it will be impossible to break the

capital city in a short while. And once you get involved, I don't know how many pairs of eyes are staring at you. When you want to wait for you to end, secretly calculate, give you something, and send you to the west!"

There was a slight bitterness in the corner of Alice's mouth.

It's already this time, but the people of the Galaxy Star Alliance still can't forget their little bit of grudges, and they are \*\*\*\* in the same room!

This may be the sorrow of the Galaxy Alliance, but also the sorrow of the entire galaxy!

If we are always united, how could the Milky Way of Nuo Da have fallen to the land it is now?

Fang Yue shook his head: "Alice, don't worry! Those young people are not qualified to take action against me! By the way, what is your task? I will help you complete it, those guys from the Galaxy Star League in the province see you I'm together, and I've started calculating behind the scenes again, using all kinds of excuses to make things difficult for you!"

Alice shook her head: "Forget it, Fang Yue, don't worry about me. Although the Galaxy Star Alliance is not friendly to me, they still use me now! Even if my mission cannot be completed, they dare not use me. How is it! Instead, it is you. Worry about your safety. Your opponent is not only the enemy in front of you but also the teammates behind you!"

"teammate?"

Fang Yue snorted lightly.

"I have never regarded these people as my teammates!"

There was a hint of indifference in Fang Yue's smile.

Alice opened her mouth looking at Fang Yue's expression, but she couldn't speak anyway.

"Since you feel that you can solve the tasks assigned to you by the Galaxy Star Alliance, then I won't say anything! If you need help, feel free to contact!"

Fang Yue walked to the highest point of the city wall and jumped down like a big Peng spreading his wings.

Exceptionally conspicuous.

"what is this?"

Those demons saw a person flying down from the wall of the Heavenly Capital King City.

But they don't know exactly who it is.

"Is this suicide? I'm too desperate in the Heavenly Capital City, so I want to die?"

The hearts of those demons are all speculating wildly.

After all, this scene is too strange and rare.

On this day, the highest point of the city wall in the capital city is a full one thousand meters high. The average practitioner, even at the level of the innate realm, can directly become a meatloaf if he does not have the ability to master the wind system to fly!

Moreover, even if it can fly, it is useless!

The following are all Wuyangyang Demon Races, hundreds of millions of them, even if they are immortal, these Demon Races can tear you alive!

How desperate this person is, and how hard he can think about it, that's why he chose such a tragic way of death!

Fang Yue fell in the air, as if it were a free fall!

At this moment, both the officers and soldiers defending the city above the Heavenly Capital City or the demons who besieged the Capital City below stopped their movements.

All the attention, watching Fang Yue jump from the city!

Against the background of the vast sky, Fang Yue's figure looked extremely small.

But there is a smell of determination in that smallness!

"At this moment, I am the protagonist of this world!"

"At this moment, I am the focus of everyone's eyes!"

Fang Yue adjusted his falling posture, and he shouted his slogan during the fall.

However, no one thinks he is handsome, he just thinks he is a second grader and a little crazy!

Are you proud of just jumping a wall?

Now it looks like you are watching a monkey, you are really not admirable at all!

The soldiers on the city wall fell into deep guilt.

### **Chapter 1473: Fire comes**

The demons who jumped from the city didn't know him, but they all knew his identity!

The commander-in-chief of Helen Star sent by the Galaxy Alliance.

It's because they didn't pay attention to this guy just now, which caused him to be depressed. Do you want to use this method to attract attention?

If I knew that his heart was so fragile, I wouldn't use such cold and brutal violence against him. In fact, thinking about the things that Fang Yue did in the Heavenly Capital City during this period of time, it was quite good, at least he didn't abuse them blatantly!

"At this moment, it will eventually be recorded in history!"

The activity in everyone's mind is different.

And Fang Yue's declaration was beyond everyone's expectations.

What he wants is this kind of attention, and what he wants is this kind of heroism that cannot be erased by the black-hearted historian!

"Let go!"

A commander of the demon clan finally couldn't bear Fang Yue's sorrowfulness, he opened his arrow to shoot Fang Yue into a hedgehog!

Obviously their army of hundreds of millions of demons is attacking the Heavenly Capital King City, but how can these limelights be taken away by an unknown person?

It is us, not you, who should be the subject of much attention. You will eventually become the background of history, an inconspicuous cluster of waves in the long river of history!

Arrows are like springs.

At least hundreds of demons shot arrows at Fang Yuecuan.

These people are all carefully trained archers from the demons, even those with a low level of cultivation have the level of heaven and earth. Their physical fitness is destined to be extraordinary in archery skills.

Countless arrows swarmed towards Fang Yue.

Fang Yue's mouth lifted up a cold smile!

"Fire!"

Fang Yue shouted, and countless flames were stripped out of the void by him, and the flames burned in the void, turning into a hundred-foot-long pike.

The arrows that were there were all rolled up by the flames, beeping, burning instantly, turning into countless ashes and falling to the ground!

This scene stunned the demons.

So gorgeous, so luxurious!

This piece, this piece, this piece of heaven and earth, seems to have become a stage for Fang Yue alone, and everyone else has become a trump card, a group performance, and a background wall of history.

Among those billions of demons, there are also people who are not inferior. How can they take away the limelight they have accumulated so hard to take away by Fang Yue.

This time they are going to pay attention this time, they are going to make a big push, and they will go straight to Huanglong.

And what is this guy?

How dare to \*\*\*\* all the brilliance from them!

"Kill, kill, kill! Kill this guy for me!"

Someone called.

Then hundreds of demons took off. Their black bodies, with black scaly wings on their backs, were able to fly freely in the air, which was the air power of the demons.

The Winged Demon Race, which is a very broad branch in the Demon Race.

They have absolute supremacy in the air, can fly freely, and are good at various spells!

These hundreds of Winged Demon Races are all at the level of Rotational Realm, not because there is no more powerful Winged Demon Race among the Demon Races, but because they have the pride of the Demon Race, Fang Yue is the level of Rotating Realm, they naturally Soldiers at the rotation level will also be dispatched.

It is not their style that the demons are martial arts, suppressing the low realm with high realm!

"Dark Prison!"

Hundreds of winged demons call sign at the same time!

They condensed all the dark powers in their bodies into one place, forming a huge prison around Fang Yue's body, which gradually condensed into a real building from virtual to real.

This prison can imprison the strong at the Yin-Yang level, even the newcomer to the master level may not be able to easily break their prison!

Fang Yue took a deep breath, and the pupils of his eyes turned a faint purple.

The blood of the Star Demon Race is displayed.

The coercion of the superiors and the coercion of the subordinates are revealed instantly!

Those Wing Demon races collapsed one after another, their souls trembled, and they kept shrinking.

The Star Demon Race is the royal family among the Demon Race. This kind of coercion at the bloodline level has been passed down since ancient times. The trembling millet stemming from the instinct of the soul cannot be overcome by acquired will.

The dark prison collapsed naturally.

Fang Yue took out the white jade Xiaoding and held it above his head, faintly spit out the word "Close!"

All the hundreds of Winged Demon Races were sacrificed alive, and they didn't even have the ability to resist under the suppression of Fang Yue's bloodline!

All the essence of the Wing Demon Race that was sacrificed alive rushed into the void and melted into Fang Han's body!

Fang Han, who was on the city wall, saw this scene, and he was indescribably strange.

Did Fang Yue's sacrifices to him come like this?

Fight to support war?

At this moment, both the demons under the city and the human race on the wall were deeply shocked by Fang Yue's actions.

Although Fang Yue's performance at the beginning was inexplicable and somewhat second, his results were heartbreaking.

Hundreds of demons of the same rank were sacrificed alive by him, and the three armies faced thousands of horses in a single body.

Even if it is defeated, it will be recorded in history and become a hero!

"Who else would dare to fight?"

Fang Yue let out a loud shout, his body suspended in the air, he stood in the air, standing at a height of several hundred feet from the ground.

He has an aura of my invincibility!

For a moment, the Mozu was silent, and no one dared to challenge Fang Yue!

"Is this Fang Yue's plan? Sure enough, it is extremely smart. If it is integrated into the army, even if it kills countless enemies, it will be difficult to get ahead, let alone be remembered by history, and he is alone against the army, Who would dare to neglect him and leave him out, even if the senior level of the Galaxy Star League does not deal with him, he must be regarded as a hero and set an example for the whole people!"

Gu Yuan tut admired!

He really did not choose the wrong son-in-law!

"I come!"

With a burly head holding two hammers, the demon race at the pinnacle level of the rotation realm jumped out.

Soldiers against soldiers, will against generals.

Since Fang Yue was calling in front of the army, their demons could not send a strong person beyond the rotation level to oppress Fang Yue.

"You are not qualified!"

Fang Yue glanced at the Demon Race, his voice indifferent, not proud or arrogant, he seemed to be just stating a fact, saying something that everyone knows!

"If you don't fight a battle, how do you know that I am not your opponent!"

That person's voice was dull, like thunder, he was also a royal family of the demon, and he was no different from the demon of the stars in blood!

A faint smile appeared at the corner of Fang Yue's mouth: "The courage is commendable, but you don't know how to judge the situation! Since you dare to jump out, then I will give you a chance to defeat me. Since you are from the strong demon clan, you are known as In the world, the power in the same realm is invincible, then I will defeat you with pure physical power!"

As soon as Fang Yue said this, all the demons believed that Fang Yue was arrogant.

Since Fang Yue knows that this guy is the Strong Demon Clan, he dare to compete with his physical strength?

But every group that can become a demon royal family has its own uniqueness!

Dali Demon Race is dominated by strength, Siamese Xiu always avoids after encountering Dali Demon Race.

Because their power is really abnormal, the level of the acquired realm has the power to pull the mountain, as the cultivation realm improves, their physical strength will continue to rise!

At the level of the rotation realm, as long as they are close, even the powerhouse of the ordinary Yin-Yang realm is not their opponent!

Dali Mozu shot, and he blasted a punch around the air turbulence.

The deep roar formed a sound wave, slapped towards Fang Yue layer by layer!

Fang Yue glanced, a finger pressed against the fist of the Dali Demon Race!

"Is that just the strength? You are still far behind!"

Fang Yue stabbed forward with a finger, and the fist of the Dali Demon was directly pierced.

"what!"

The Dali Demon roared, his \*\*\*\* face was flushed, and the blue veins on his fist were violent. Even if it was severely injured, he must work hard to move forward, proving that the Dali Demon was not a vain name!

However, Fang Yue's finger seemed to be forged with steel, but he did not move backwards!

Competing for strength, the Dali Demon is defeated!

Fang Yue then blew a gust of wind from his mouth to blow the Dali Demon Race to the ground.

The Dali Demon Race was like paper, and was blown up by the wind immediately, Fang Yue's soles collapsed, and he stepped through his chest in mid-air.

The blood of the Vigorous Demon was falling in the air.

He fell immediately, no longer alive!

"Who dare to come?"

Fang Yue scanned the surroundings.

There is no expression on his face.

When the two races are clashing, there is no such thing as benevolence. Each race is fighting for its own living space. Talking about justice and kindness is too hypocritical!

The death of the Dali Mozu deeply shocked the hearts of both parties.

This Fang Yue is not like a warrior, but more like a demon \*\*\*\* descending on the world!

He swept the invincible, and he actually defeated the opponent in the field of strength that the Dali Demon was best at. Especially the last wind turned out to blow the Dali Demon known for its power. This is an absolute advantage. Absolutely crushing, completely shattering the thousand-year myth of the Dali Demon Race, and falling apart!

"Fang Yue, you actually killed my Dali Demon Clan disciple in public. You are really cruel and unforgivable by nature!"

Among the demons, an old man stood up. He stood at the level of the Yin-Yang realm. He was also the Great Demon Race. He should be the elder of the Strong Demon Race who had just been killed by Fang Yue.

The face at the moment is extremely sad and angry.

This is a young handsome man among his Vigorous Demon Clan, full of vigor, yet he hasn't fully grown up, he was trampled to death by Fang Yue without any vitality.

"Since you dare to stand up, you must have the courage to bear life and death! If he doesn't even have this courage, then he will stay at home and cultivate! Since he is to stand up, he must be prepared to be killed. I believe the devil The clan doesn't even have this responsibility!"

Fang Yue made a mockery.

The old man was taken away by an old man of the Demon Race.

The two armies are facing each other, and they are willing to bet and lose, their demons cannot afford to lose this person!

"it is good!"

A general of the Demon Race came out. He was at the level of the Saint Realm. He should be regarded as one of the leaders of the Demon Race who attacked the Heavenly Capital King City this time. He took a deep look at Fang Yue.

"Sure enough, it's a hero who came out of a boy! What you just said is correct. If you dare to stand up, you must have the courage to bear life and death! You have the blood of the Star Demon Race in your body. Perhaps it is the disciple of my Demon Race left out. If you are I am willing to return to the embrace of my demons, and I am willing to accept you as a righteous son and focus on cultivation!"

The general of the demons seemed extremely generous.

**Chapter 1474: Soul shock**

If Fang Yue really turned back in front of the battle, then the human race of the Milky Way galaxy will be a great joke!

However, the conditions set by the demons are indeed heart-pounding. If they were replaced by another human practitioner in the rotation realm, they might really surrender.

After all, now that the Demon Race is strong, the Heavenly Capital City is already at the end of the battle. If Fang Yue says the odds of the two, the Demon Race is nine, then the Human Race of the Heavenly Capital City is one.

It is a saint who is above the top and has a transcendent status. He who can become his son will also have a high status in the demon race in the future. As for the tilt and training of resources, it is even more trivial.

But the object facing this demon saint was Fang Yue.

Fang Yue would never agree to this condition!

Fang Yue himself has the strength comparable to that of a saint, and he is a son of a demon saint?

He will do it when he is full!

And Fang Yue is also a person with his own teacher's inheritance. His master is an existence at least at the virtual fairyland level, while his father-in-law is a top virtual fairy.

The recruiting conditions of this demon saint was so ridiculous in Fang Yue's eyes.

"Xiu want to say more, the blood of the demon in my body is not born with it, but the result of killing a star demon and then tempering his blood!"

Fang Yue directly rejected the solicitation of that demon saint.

The saint of the Demon Race didn't have any anger on his face either.

This was originally expected. Since this human race dared to do it in front of thousands of troops, it was naturally not a greedy and fearful person of life and death.

It's just that he feels a little pity that such a talented arrogant was born into a human race rather than a demon race.

"My Demon Race Wangyuehou, Mucheng promises that as long as you are willing to defect to my Demon Race, I will definitely leave you a place in my Demon Race!"

Fang Yue felt that the saint of the Demon Race was really interesting.

In front of the three armies, he thought of cherishing his enemies. It's a pity that the Tao is different, and it's not the same, otherwise, you can really find a good time to drink 300 cups!

"No one in the rotation realm of my demons is your opponent. Of course, this is not because my demons have no one, but because the invincible Tianjiao in the same realm will not appear in these three armies! If you want to fight the ring If you don't, my demons can send a strong man in the Yin-Yang realm to confront you in front of the battle!"

Mochizuki Hou Mucheng Fang Yue said.

Bullying the weak, this goes against the beliefs of the demons.

However, between faith and victory, the Mozu is more eager for the latter.

This is the first battle of their comeback, they can only win but not lose!

Mucheng looked at Fang Yue and waited for his reply. If Fang Yue refused, it would be a force of thousands of troops attacking the Heavenly Capital City!

Fang Yue was slightly taken aback.

He didn't expect Mochizuki Hou to be so decisive, and made no secret of it.

"Since the Demon Race is willing to send a powerful person in the Yin-Yang realm to give advice, then I am disrespectful!"

What is Fang Yue doing?

save the world?

Fang Yue didn't think he was a superman.

His purpose is to let more eyes see him, and treat him as the hero of the entire galaxy!

Since it was Mochizuki Hou who was willing to complete Fang Yue and let Fang Yue perform for a while before the army, he would naturally not refuse.

As for the opponent's cultivation level or Yin Yang level, Fang Yue didn't care at all.

As long as he doesn't enter the realm of a saint, Fang Yue doesn't think he will pose a life or death threat to him!

"Yan Jun, come on!"

Mucheng stepped back half of his position, and he called out a young generation master from behind him.

His age will not be very large, at most only about a hundred years old. It is really rare that he can reach the level of Yin and Yang at such an age.

He was wearing a black robe, his face was pale, and there was a big golden bow behind him.

This Jun Yan is not a pure Demon. In his body, Fang Yue felt the blood of the Star Demon and the incomparable dragon blood.

"Jun Yan, a master in my demon army, he used to be ranked in the top ten of the demon in the galaxy when he was in the rotation level! Three years ago, he broke into the Yin and Yang level. Although he was not named on the list, his own Strength is still not to be ignored!"

Mucheng gave Fang Yue a detailed introduction to Yan Jun's situation. He paid particular attention to the fact that Yan Jun once ranked among the top ten masters of the Yin Yang Ximo clan in the rotation realm.

Fang Yue nodded slightly: "Understood! This is a battle of Tianjiao, and it also represents the dignity of the race. I will value this battle!"

Yan Jun's face was solemn, and his lips were gently pursed. There was no savage demons on his beautiful face, but a slightly shy appearance.

Yan Jun raised his hand, and the golden bow was drawn into a full moon.

He is not talking nonsense, raising his hand is a killer move!

The aura of the sky turned into an arrow.

The arrow left the string, and with a hum, Fang Yue could feel the spiritual energy around him resonating slightly.

The arrow locked Fang Yue's throat, the speed was extremely fast, and it was impossible to capture its movement in the air with the naked eye!

Fang Yue sighed slightly.

The aura arrows dissipated.

The power of this arrow is certainly not weak, but at most it is the power of the third and fifth layers of the Yin Yang realm.

In the past, did the top ten players in the rotation realm among the demons of the galaxy only have this strength?

If this is the case, Fang Yue would feel too disappointed!

Hearing Fang Yue's sigh, Yan Jun became more nervous.

He bent his bow again.

Endless spiritual energy rushed into the golden longbow.

Mucheng reminded: "Fang Yue, you have to be careful. Yan Jun's truly famous trick is to shoot seven stars in a row. This first arrow is only the weakest among them. The arrows behind are stronger than the other! "

In fact, Mucheng didn't need to remind him, Fang Yue already felt the power in the arrows of the Mucheng. The sun was in the sky, and the force of the sun was also drawn from the sun by the arrows and integrated into it. , The power contained in this arrow is at least several times that of the previous one!

Fang Yue's face was serious and treated seriously.

This is the strength that Mozu Tianjiao should have!

The arrow left the string and buzzed, this time the arrow dragged the long flame tail to the center of Fang Yue's brow.

Fang Yue did not despise this time.

Two destructive beams shot out from his eyes.

The force of destruction and the arrow collide, and the two annihilate each other and eventually die!

This time, the power of the arrow theory is no less than the full blow of the seventh layer of the general Yin Yang realm! Moreover, the strongest and most powerful force contained in that arrow is also something that ordinary Yin-Yang realm powerhouses did not possess!

The confrontation before the battle was silent.

But everyone can feel the tension in it!

Between the two of them, all gestures were meant to kill fiercely.

In particular, can Fang Yue only have a rotation realm's cultivation level, can he really withstand the attack of this demon tianjiao?

"Not bad!"

Fang Yue spoke slowly and gave a two-word evaluation!

This evaluation is a bit like an elder is evaluating a junior, but in Yan Jun's heart, Gu Jing Wubo, without any emotional ripples.

Go against each other!

This Fang Yue had already set off the fighting intent in his heart, and all his spirit was poured into the arrow in his hand.

The third arrow is already ready to go!

The mighty heaven and earth aura poured into it, and the aura arrow materialized. This time the aura was compressed by him. After that, the power of the sun was also ten times richer!

At the moment when the arrows condensed, Fang Yuezhen received the mighty power in it.

This arrow is at least equivalent to the one-stroke power of a strong person in the Yin and Yang realm!

Even the strong who are new to the master realm will feel the great threat.

Because this huge amount of energy is concentrated.

The arrow whizzed out in the wind, and this time, it didn't collide with the surrounding air. The rotation of the arrow actually formed a tornado during the flight!

This time the arrow has added the power of the wind, not only the concentrated power is stronger, but the murderous intent contained in this arrow is also stronger!

Fang Yue took out a piece of paper talisman, which burned into a shield of light.

This is a paper talisman at the master realm level, with a strong shield that can withstand the power of a blow from a strong master realm.

The arrow collided with the shield.

Countless traces of cracks appeared on the shield immediately.

The shield was shattered, and the arrow's power was weakened by 30% and continued to rush towards Fang Yue's heart!

Fang Yue found that he was lower than the power of this arrow. It broke a little. In terms of energy level, it was equivalent to a full blow from a powerful yin and yang realm, but it was absolutely no less powerful than a long-famous leader realm. Attack of the strong.

"Scatter!"

Fang Yue roared.

Fang Yue used the power of the law when he spoke the law.

The arrows scattered less than three centimeters from his heart.

Fang Yue already felt a serious threat from Yan Jun.

If you let him shoot one arrow, one arrow, maybe when the seventh arrow is actually reached, this arrow will really contain the power equivalent to a powerful saint!

If that were the case, it would be difficult for him to resist!

Fang Yue decided to act first.

"The power of these arrows is really good! It's a pity that in a real life-and-death battle, your opponent may not give you the opportunity to shoot all these arrows! So, this time the battle should end!"

Fang Yue's figure appeared next to that Yan Jun.

"During the war, I will protect his safety as his protector."

A tower-like man appeared beside Fang Yue.

This iron tower-like man is a master at the leader level. He is also a mixed blood, containing half of the blood of the Vigorous Demon in his body, and half of the blood of the Dragon!

He stood in front of Fang Yue and was about to defend Yan Jun's safety.

The two seem to be one.

Yan Jun is also absolutely assured of the man like the iron tower.

The fourth arrow slowly took shape. This time the arrow not only contained rich spiritual energy, but also began to deplete the essence of all things in the world. There is no power of the sun, but there is the power of resuscitation contained in all things!

The arrow hadn't completely formed yet, Fang Yue had judged that the energy contained in the arrow had reached the energy of the leader realm.

This arrow integrates the power of heaven and earth, as if it can resonate with the will of the world!

Fang Yue finally understands why Yan Jun can become the top ten master in the Mozu Rotation Realm, and this is not something ordinary people can match!

"Soul Impact!"

Fang Yue sighed quietly.

### **Chapter 1475: Dark quagmire**

A ripple that didn't exist in nothingness spread.

Both the tower-like man and Yan Jun felt an unspeakable pain from the depths of their soul.

Especially Yan Jun lost consciousness in an instant, the spiritual arrow on the golden longbow lost control and was about to explode.

If this arrow exploded, Yan Jun would be the first to die.

Fang Yue stretched out his palm and erased the unformed arrow with one hand.

The man like Yan Jun and Iron Tower eased his mind.

Looking at Fang Yue blankly.

They knew that Fangyue had already won this match!

In the instant just now, Fang Yue clearly had the opportunity to kill both of them!

However, Fang Yue Mingming could kill both of them, but in the end it was his subordinates who were merciful and spared their lives.

This made Yan Jun a little puzzled, "Fang Yue, why didn't you kill us just now?"

Fang Yue glanced at Yan Jun, drifted away, and left the demon camp.

"It would be a shame if you two die here, Jun Yan, I admit that you are a real genius. Before you have fully grown up, I don't think you should fall into my hands!"

At a certain moment, Fang Yue also had a rare heart of cherishing talent.

In fact, if it is another occasion, Fang Yue would like to see the fourth arrow, fifth arrow, sixth arrow and seventh arrow behind Yan Jun!

Hearing this, Yan Jun couldn't help being convinced by Fang Yue's mind, and to be honest, it is better to die than to live. If you can live well, who would be willing to die by himself?

Yan Jun clasped his fists: "Fang Yue is considered to be I owe you his life this time. If you meet again on the battlefield and you fall into my hands, I will spare your life and repay today's kindness!"

Fang Yue laughed loudly: "I'm afraid there is no such day!"

"Who would dare to challenge me in this demonic yin and yang realm!"

Fang Yue's sword flew immediately, standing on the void like a \*\*\*\*\* of war.

Mucheng looked at Fang Yue's gaze and couldn't help but like it!

It would be great if Fang Yue were from their Demon Race!

There was no sound among the demons.

It's not their strict discipline, but no one is sure that their strength can be stronger than Yan Jun.

Even Yan Jun lost, do they still need to play?

In some demons in the high stage of Yin-Yang realm, there are also a few who claim to be good, but they have their own arrogance, if they end up playing with Fang Yue.

Winning is a matter of course, victory is not martial.

And if they lose, the prestige they have accumulated with their hard work is likely to be destroyed!

Mucheng smiled bitterly: "Fang Yue, no one in the Yin-Yang realm is suitable for your opponent! Today's battle in front of the battle is considered you have won a match, but with your personal strength, you can't stop my demon. The pace of the army to conquer the heavenly capital king! Get out of your position, we can see that you will not kill you for the sake of your talent!"

Mucheng's voice became cold.

No matter how much he cherishes Fang Yue's talent, it is impossible for Fang Yue alone to obstruct their demon war and human race's millennial plan!

This is their first battle, they must win, not lose.

Fang Yue let out a sigh of relief: "Since you are here to attack the capital city of this day, just step on my corpse!"

At this moment, Fang Yue's face was extremely firm.

He is a hero!

No matter it was the people of the many forces on the wall, the other side Yue had a big opinion before.

At this moment, Fang Yue was able to squabble in front of the Heavenly Capital City, killing the Demon Race Rotation Realm, and no warrior at the Yin-Yang realm could stand a fight. This was already a great face for their Heavenly Capital City!

And Fang Yue is willing to coexist and die with the Heavenly Capital King City!

This imprinted an extremely deep impression in their hearts!

"In that case, don't blame me for being ruthless!"

Mucheng's face was stained with a faint murderous intent.

"Listen to my orders for the whole army to attack!"

"If you want to conquer the Heavenly Capital City, you just step on my corpse!"

Fang Yue was suspended at the gate of the Heavenly Capital City.

The voice was sonorous, and said firmly and forcefully!

Behind Fang Yue, all the soldiers on the walls of the Heavenly Capital City were boiling.

Even Fang Yue, the commander-in-chief of the high Helen Star, is so firm and resolute, willing to fight for the Heavenly Capital City and defend the integrity of the Heavenly Capital City with his flesh and blood, and they have any reason to cringe behind. Don't dare to fight!

"Kill! Get on it!"

The power of role models is infinite, especially Fang Yue, the nominal leader of Helen Star, took the lead!

A team of people walked out of the Heavenly Capital City, and these people were all the death squads in the Heavenly Capital City!

"The darkness where I am."

"Everything I have traveled is an abyss."

"Everyone I kill falls to hell."

"All the knives I produce are all beings!"

Fang Yue recite a very domineering scripture, which he created!

In an instant, the night king descended, day and night turned upside down, day and night!

The endless starry sky is falling down.

A dark quagmire evolved around Fang Yue's body that moved with him.

Fang Yue moved forward step by step.

All the people who came into contact with the dark quagmire, but those whose cultivation level was not in the Yin and Yang realm were all silently swallowed by the dark quagmire.

Fang Yue was faltering at this moment, but wherever he went, all life was gone!

This scene is horrifying, even if it's just like a gangster, a warrior who is as fierce as a demon and dare not easily approach this weird quagmire!

"Kill him! Don't let the demons be ashamed!"

A saint of the demons spoke.

As his voice fell, a strong demon at the leader level among the endless demon clan jumped out, and he swung his knife down.

It smashed the mountains with great force, as if even the whole world could be split in half.

"Fang Yue died!"

The man roared, he was a brave general among the demons who had killed countless enemies!

However, as his body jumped down and then fell, the endless darkness enveloped him and swallowed him, and then his body disappeared completely.

As if he had never existed in this world at all, he just evaporated from the world alive!

This weird scene is chilling and heart-shattering!

A living strong man in the leader realm just disappeared from their eyes, how can such a scene not let the heart be horrified!

All the soldiers of the Demon Race were deterred, no one dared to approach, and no one was willing to try an unknown spell from their own lives.

And Fang Yue was not a hurdle they couldn't get around. The dark quagmire covered by it was not too wide, it was only a hundred meters in diameter. After Fang Yue's quagmire, right before the gate of the King of Heaven.

The dead soldiers of the Heavenly Capital and King City who had left the city suddenly became a group with the soldiers of the Demon Race.

The two sides will not give way to each other!

The soldiers of the demons are brave and good at fighting, and the dead soldiers who walk out of the heavenly capital are not to be outdone!

They had a lasting fight and had the will to die. They were not prepared to return to the city alive. Their biggest wish was to drag a few demons to the Yellow Spring before they died.

Therefore, the two sides turned out to be equal in battle!

After Fang Yue killed hundreds of Demon Warriors, a strange scene happened.

Wherever Fang Yue went, the surrounding Demon Warriors evaded one after another. As a result, Fang Yue seemed to be a plague god. He was clearly surrounded by endless Demon Warriors but no one dared to kill him.

Let alone killing him, there is no one who has the courage to run over and approach him!

Fang Yue couldn't help but admire those human warriors who were fighting bravely, and then added blessing and blessing witchcraft to them one by one.

What power is infinite, what is doubling agility, anyway, all kinds of BUFF, don't need money to add to those dead in the capital city.

Fang Yue's witchcraft is quite exquisite.

This led to scenes of weird scenes under the walls of the Heavenly Capital City.

A human warrior who was fighting a demon warrior had already been cut through his chest by the opponent, and he was about to bleed to death in the next moment.

As a result, a beam of white light fell from the sky to this buddy.

The hideous wound on his body healed instantly, as if he had never suffered any harm before!

Then he rose up to fight back, leaped high, and chopped the long knife in his hand.

The warrior of the demons was killed.

He didn't know why a mortal man would kill himself until he died.

There is also a scene where Shuxiu has been blessed with an infinite BUFF, strangling a demon that has finally been close to.

Although these scenes are not related to the overall situation, at most hundreds of thousands of demon soldiers will die. The number of these demon soldiers is equivalent to a drop in the ocean for hundreds of millions of demon army.

But it still feels quite disgusting!

Fang Yue affected the battlefield in this way, and still no demons dared to attack him.

Fang Yue had a good time now, and he started a new trick.

Isn't Ling's magic kiln sealed with a group of green-skinned monsters?

Send it out and make trouble for the demons!

Fang Yue raised his hand, and a spatial crack emerged.

Hundreds of green-skinned monsters appeared out of thin air in the center of the demon army.

The demons' army was stunned. Where did all these \*\*\*\* things come from?

And those green-skinned monsters were also stunned.

Didn't you still try to break the seal of the world just now, why did you change a place in a blink of an eye!

They had big eyes and small eyes with dumb expressions.

Then fall in love and kill each other, not giving way to each other!

Green-skinned monsters start at the level of the rotation realm, and the demon army is mainly based on the demons of the world realm.

Qualitatively, the green-skinned monster is definitely crushing the demons, but in terms of numbers, the green-skinned monsters looked at the mountains and seas of the demons and gave birth to endless despair in their hearts-so much food, when should I eat them? That's it!

Then a crazy fight began. Both the green-skinned monsters and the demons are fierce, and the green-skinned monsters have extremely tough vitality, and ordinary swords and guns can hardly cause real damage to them!

It was just a moment of fighting, and the green-skinned monsters caused heavy damage to the demon army, at least thousands of them were killed and swallowed.

Although the taste of Mozu is not very good, the flesh and blood energy in it is still very delicious!

Mucheng was stunned. They thought they had a high estimate of Fang Yue, but they still didn't calculate it. Fang Yue still had this hand!

### **Chapter 1476: Demons retreat**

The defenders in the Heavenly Capital City saw this miraculous scene and their confidence greatly increased. This endless army of demons is not undefeated. When they met Fang Yue, they were deflated again and again.

The realm of these green-skin monsters is not high, but they are quite annoying. The green bugs they spit out like mist are constantly consuming the vitality of the surrounding demons.

And even if a master appears to kill these green-skinned monsters, they will not die directly but choose to self-detonate. The large amount of green viscous liquid produced by self-detonation is strongly corrosive, and even strong people in the Yin-Yang realm will get on their upper body. Was hit hard.

The lethality of these green-skin monsters is still higher than Fang Yue's previous estimates.

Especially in the war, they are definitely real \*\*\*\* sticks!

Hundreds of green-skin monsters were really killed by the demons. The demons suffered tens of thousands of men and horses, including several powerful men in the Yin-Yang realm. In the end, it was a demon of the master realm. With the momentum, the hundreds of green-skinned monsters were just beheaded!

The eyes of the powerful demon clan turned to Fang Yue again.

The reason for not attacking him before was because Fang Yue didn't have much lethality, and at best he was making trouble from the side.

But since Fang Yue summoned this green-skinned monster, Fang Yue's risk factor must be re-evaluated!

"Kill this Fang Yue!"

Mucheng sighed slightly.

The demons on the eighth floor of the leader realm next to him moved. His body looked like a praying mantis, and his arms evolved into two huge sickles.

Mantis Demon Race, this is a very famous branch of Demon Race!

They are good at speed and power, and have a strong immunity to the power of the dark vein.

Letting the Mantis Demon Clan take action can restrain Fang Yue's dark quagmire.

The mantis demon clan was silent, as if it turned into a black shadow and rushed towards Fang Yue at an extremely fast speed. It reached the dark quagmire and then disappeared!

It was like throwing an inconspicuous pebble into the vast ocean, without even a bubble coming out!

All the demons were horrified, and their hairs burst.

What exactly is going on?

This is a mantis demon clan of the eighth level of the leader realm who is extremely capable of resisting dark power!

Fang Yue cursed an idiot in his heart.

The Mozu never saw through his tricks from beginning to end.

The dark quagmire is just a guise, and what lies deeper is the power of space.

Whether it was the previous Demon Race at the Master Realm level or the Mantis Demon Race at the next Level 8 Master Realm, they were actually teleported away by him, directly thrown into the trapped world of Fang Han's deity, refined and refined into pure Fang Han's life origin is now a tonic for Fang Han!

The Mozu looked at Fang Yue's eyes differently.

For example, Mucheng, his attitude towards Fang Yue has risen from being a junior to that of his peers!

There is no way, the means Fang Yue showed is really amazing!

He actually killed two demon masters at the leader level one after another, and the way they disappeared was so weird, but he, the demon master who is known for his knowledge and knowledge, did not understand that. How did the two demon clan at the master level disappear!

Fang Yue didn't speak, he still raised his hand and summoned hundreds of green-skinned monsters into the demon army.

Although this green-skinned monster can't directly cause a strong and severe damage to the demon, it has a good effect on disturbing the military's spirit.

Just imagine, you are fighting, struggling to move forward, in front of you, behind you, to the left, and to the right. A group of such monsters suddenly jumped out. Are you disgusting or afraid?

Those sage-level bosses of the Mozu wanted to personally end the scene and beat Fang Yue to death.

However, they dare not!

Although the powerhouses of the Saint Realm sit in this demons army, they are always a strategic threat.

As the so-called soldiers against soldiers and generals, the creatures below the saint level are clashing, generally speaking, the strong above the saint level are not allowed to interfere.

If the power of the saint level of the demon clan is attacked by Yue Xia, then the powerful saint in the heavenly capital city can also attack the soldiers of the demon clan.

In that case, the war will be all messed up.

How strong are the strong men above the Saint Realm? There is no problem at all with one hand flattening a large area of ordinary soldiers. Once they are off the field, neither of the soldiers on both sides wants to live.

And the hundreds of millions of demon armies want to invade the Heavenly Capital King City, and their planned casualty rate is 12%.

If they are all killed, then the demon clan's rompers will be gone!

Therefore, Fang Yue suddenly became an unsolvable existence on the entire battlefield!

No one at the Saint level and above can do him, but the Saint level is not able to personally end the game against him!

Fang Yue went wild on the battlefield of the race, as if it were his own back garden, wherever he went, the soldiers of the Demon Race retreated like Haibo!

However, this situation can't last too long.

The group of dead men who ran out of the Heavenly Capital King's City were already dead. Even with the assistance and protection of Fang Yue's magic techniques, they were still unable to fight against the mountain-like demon race.

Thousands of dead men finally fought twice as many demons as theirs. This was a small victory, and it was a death worthy!

However, these demons are still a drop in the ocean compared to the vast number of demons, and the small loss is almost negligible.

The soldiers in the Tiandu King City saw the dead soldiers die, their bodies were even trampled by the war horses of the Demon Race to become muddy, and their hearts collapsed!

In the vast and vast war, the individual's power is still too small, and the blood and courage alone cannot ultimately save the entire Heavenly Capital City, and cannot reverse the pace of this demonic invasion.

Fang Yue sighed slightly in his heart when he saw this scene.

The arrows on the walls fell like locusts.

The demon's iron shield will resist all the arrows.

The two sides were once again caught in a tug-of-war confrontation, however, the pace of this demons was moving forward step by step!

The destruction of the Capital City on this day seems to be irreversible, and Fang Yue's astounding method is nothing but a cluster of meager waves in the vast ocean of the Demon Race!

"Is there no way?"

Seeing the demon's footsteps approaching little by little, Alice on the wall also showed a look of despair.

The five thousand men and horses under her are simply not enough to squeeze the teeth between the Mozu's teeth, and even the mantis can't do it as a car!

This time her task is to stop the invasion of the demons!

This task is simply impossible to complete!

"Miss Alice, my master Fang Yue brought you his gift!"

The hungry wolf Taoist silently appeared beside Alice, bowing slightly, respectfully.

"gift?"

Alice was taken aback for a moment, and immediately looked at Fang Yue who was surrounded by the demons.

"Isn't he down? How can I still give me a gift?"

Alice's brains are not enough.

The Taoist Hungry Wolf smiled and said: "This gift is prepared by the master for Miss Alice long ago. The master said that when the war is in trouble, I will take out the gift again, the effect will be better!"

"what gift?"

Alice's tone was heavy, and she didn't have much hope for Fang Yue's gift!

The entry of this demons into the city is the general trend, who can withstand the advancement of these billions of demons!

"it!"

The hungry wolf Taoist handed a small red button to Alice.

Alice saw the red button and didn't know what effect it had.

"This thing is..."

"Miss Alice just press it!"

After hearing the words, Alice couldn't help but darken the red button according to the instructions of the Taoist Hungry Wolf.

With a bang, a mushroom cloud slowly lifted into the sky.

The sky was shaking, and an area of at least hundreds of acres near the Tiandu King City was shrouded in white light.

An enhanced version of the X bomb.

These bombs were prepared by Fang Yue a long time ago. He bought several warehouses from Galaxy Bank and was waiting for this moment.

Massive demons were directly melted and evaporated, and they were directly vaporized before they even had time to escape.

The whole army of demons was silent.

What is this thing?

When was it buried underground!

Alice was also shocked by the sight in front of her. Even a saint's full blow might not be able to achieve such a shocking effect!

"The master asked me to give you a word, in addition to the civilization of practitioners, the human race in this world also has a more terrifying technological civilization!"

The attitude of the hungry wolf Taoist is still respectful.

But there was also a fanatical light in his eyes.

Fang Yue's wisdom and methods are far beyond their reach.

For others, war may be a test of life and death, but for Fang Yue, it is a stage for him to show his personal wisdom.

Alice's mind gradually calmed down, and she realized a glimmer of hope of breaking the game from Fang Yue's words.

Yes, the civilization of practitioners is shared by all races, but the civilization of science and technology is exclusive to the human race.

If a technological civilization breaks the situation, another way of thinking may be that the situation and direction of the entire war are completely different from their expectations.

The demons are deterred.

A solemn expression appeared on the faces of the leaders of the saint level.

The loss of the demons this time is not small, but what is more serious is the new weapons used by the human race that they did not expect. They broke out silently and without warning. The power is huge, even the demons in the ordinary rotation realm. It is difficult to resist, and the survivors are the existence of Yin-Yang and above.

However, in this war, the demons in the world of heaven and earth and the circle of rotation are the main force among their main forces!

The confrontation of different civilizations always makes people vigilant.

The army of the demons will definitely avoid the edge for the time being.

This is not because cowardice is born in their hearts, but the army of hundreds of millions of demons is the elite of the demons, and they are unwilling to pay too much to win this heavenly capital.

Soon, the demons retreated like a tide.

## Chapter 1477: Feast without good feast

Tiandu Wangcheng got a short breath. Opportunity for interest.

However, all the commanders on the city wall still have solemn expressions, because they know that this is far from the end but a beginning, and the next wave of demons' offensive will become even more tragic.

Fang Yue also returned to the top of the city wall, his strength today is quite sufficient.

Although the final X bomb was detonated by Alice, before again, Fang Yue's appearance on Qian Jun alone had left a very deep impression on people.

His heroic image has been erected in people's hearts, and he will be recorded in the annals of history, even if the Galactic Alliance does not want to recognize his status!

"Fang Yue's contribution this time is entirely yours and I will report this matter!"

Alice looked at Fang Yue with a look of guilt in her eyes.

Fang Yue said: "This was originally given to you. Even if you gave me it, it has no use at all. My relationship with the Galaxy Alliance has become rigid to this point. Would you still think that they will give me the corresponding? Reward?"

Fang Yue's smile was all over his face.

Alice immediately understood Fang Yue's meaning, and the credit was given to her. Although the senior officials of the Galaxy Star Alliance saw her not pleasing to the eye for the time being, they would still follow the rules and rewards. It just ends up getting a title and nothing else.

On the night of that day, a feast of merits and deeds was held in the Tiandu King City.

This banquet was jointly organized by the Galactic Star Alliance and the natives of Helen Star, and the rewards were also jointly organized by the two parties.

Fang Yue, as a hero of the Galaxy Star Alliance, was also invited to the banquet.

In fact, Fang Yue's performance this time was quite a blow to the Galaxy Star Alliance.

The relationship between Fang Yue and the Galaxy Alliance is something that the entire universe knows.

However, the Galaxy Star Alliance still had to brazenly say that Fang Yue was theirs for their own face.

Or in other words, for the Galaxy Covenant, things like faces are no longer important to them.

"There is no good banquet!"

Fang Yue went to the banquet and brought Guna with him.

Of course, this is the request of Fang Yue's father-in-law Gu Yuan. In nominal terms, it means that to let Guna get in touch with the outside world and increase his knowledge, he can better adapt to the outside world, but the real purpose is probably to use this method. Come to announce the identity of Gu Na, let

people know that Fang Yue has such a fiancée, some little girls from the province ran out to harass Fang Yue.

Fang Yue actually felt unnecessary for Gu Yuan's approach.

It seems that Gu Yuan is still not quite sure about Fang Yue's position in this galaxy alliance. It looks very beautiful, but he has to face the oppression of this galaxy alliance all day long.

If anyone is a girl, they would avoid it for fear, who would dare to stick to Fang Yue!

But since Gu Yuan had spoken, Fang Yue brought Gu Na by his side.

Enter the place where the banquet is held.

Fang Yue looked at the flow of people, and immediately realized that this banquet was very unusual.

The vast majority of the people who interact with are actually strong people above the leader realm, and some of them have reached the level of saints. They are people of supernatural status in Helen Star or in the Galaxy Alliance. , Holds great authority.

"Yeah, isn't this the commander-in-chief? Why, you are still hanging around here and have not been invited to participate in the Tiandu meeting?"

An old man with gray hair was holding a wine glass in his hand, and the slightly drunken counterpart Yue said.

There was a hint of ridicule in his tone.

He was condescending and looked at Fang Yue with slight contempt. Even though he was only a cultivation base of the fifth level of the leader realm, his identity and background made him proud.

Fang Yue tried hard to recall the origin of this guy, he should be the elder of the Chen family, a middle-class family in the Heavenly Capital City.

There are three saints in the Chen family, but each of them is a relatively mediocre person among saints, the strongest one, in Fang Yue's impression, seems to be the cultivation level of the fifth layer of saint realm.

A family of this level should also be a small shrimp in front of the Galaxy Star Alliance. The top combat power determines the ceiling of a family's development.

Like a family like the Chen family, the family where even a sage-level powerhouse sits is like gravel in the wind, even if the family's power is bigger, it will be scattered.

"Chen Guangming, what do you have to say to this maddened fellow? He is just a gun in the hands of the Galaxy Star Alliance. When you use it, let him fight in blood. When you don't use it, naturally put it aside! This meeting is about What is the relationship between the distribution of interests of the major relics of My Helen Star and Fang Yue?"

An old man came over, his hair was white, but he was full of energy.

A pair of piercing eyes, sprinting with dragons and tigers, turned out to be a powerhouse at the leader level.

Fang Yue could clearly see his appearance. This person was an elder of the Cheng family, and the Cheng family did not belong to the sphere of influence of the Heavenly Capital City.

But in this Helen star, it is also considered an ancient planet.

This old man's name, Fang Yue, also remembers clearly, Cheng Fangyuan!

He has a special position in the Cheng family, and he is good at refining all kinds of pill, and he is regarded as the most famous figure on the entire Helen Star.

Fang Yue did not expect that many of the legendary characters would have met this time, and this banquet must be very lively!

Chen Guangming and Cheng Fangyuan left proudly.

Yue Ai ignored them.

In their eyes, Fang Yue was just a wild dog abandoned by the Galaxy Star Alliance, there was no need to waste too much talk with Fang Yue.

Fang Yue watched the old man leave.

"Interesting, interesting! There was even a meeting to carve up the remains of Helen at this celebration party!"

A faint smile turned up at the corner of Fang Yue's mouth, and there was no slightest anger on his face. The result now was actually what Fang Yue had expected.

A feast is not a good feast. If these people don't toss out some moths, Fang Yue would be surprised.

"Fang Yue, do you want to attend that meeting?"

Guna looked at Fang Yue, her eyes were simple, and she didn't understand why Fang Yue was a great hero protecting the heavenly capital, but would be ridiculed.

Fang Yue shook his head: "Since they are willing to carve up the treasure on Helen, let them divide it up by themselves! I don't think this matter is that simple. The Galaxy Alliance will not distribute real benefits to the natives of Helen. Tigers will not cooperate with sheep, and the dragons flying in the sky cannot truly respect those humble ants in their hearts!"

Fang Yue can almost imagine the outcome of these people in the future. They will be used by the people of the Galaxy Alliance, and eventually they will be skinned and excavated, drained of all their value, and then thrown into the wilderness.

Fang Yue has never been highly humane, nor will he underestimate humanity. Although these people are arrogant and domineering in front of Fang Yue, they will become another one in front of the Galaxy Star Alliance. Kind of like.

They are the licking dogs in front of the Galaxy Star League, and even the licking dogs can't satisfy the owner's requirements even if they give everything. Identity determines everything.

The senior officials of the Galaxy Alliance will not be grateful for their contributions!

"How's Alice?"

Fang Yue looked at Gu Na. The task he had just given to Gu Na was to look at Alice's situation.

The protagonist of this banquet should be him and Alice in principle, but the banquet has not officially started yet, and the natives of the Galaxy Covenant and Helen have used this time to hold a small meeting here to distribute the benefits.

"Sister Alice's position is also very embarrassing, she came to this banquet but no one took the initiative to speak to Sister Alice!"

Gu Na said to Fang Yue, she was quite simple as if she was a piece of white paper.

Fang Yue nodded slightly. He was not surprised by Alice's situation. The people who came to this banquet were all high-ranking leaders of various families. They did not respect the heroes. They only had interests in their eyes. Even Fang Yue was sure if in the previous war, if he and Alice hadn't taken the initiative to save the whole situation, I am afraid these people who have forgotten righteousness would have chosen to betray the human race and throw themselves into the arms of the demons.

This is human nature. In their eyes, there is only interest, only seeing the wind and steering the rudder, and there is no such thing as ethics.

From an individual perspective, they don't have any problems, but if you look at the overall situation, they are traitors to the human race.

After finally waiting for half an hour, the sky gradually dimmed, and the banquet finally began.

Fang Yue and Alice also slowly entered.

The red carpet is extremely bright, as bright as a bright flame.

Fang Yue and Alice entered at the same time.

The audience burst into enthusiastic applause. The two people who had ridiculed Fang Yue just now were all present, and both Chen Guangming and Cheng Fangyuan had expressions of appreciation.

They looked at Fang Yue's expressions without the slightest contempt, as if they were not the same two people outside just now.

This is the ability of high-level people to change their faces. They have been at ease in the capital city for too long. Their interests have been divided up long ago. They have their own sides, and no one dares to challenge the rules they have established.

They spend most of their time in communication, long-sleeved dancing, because once they reach the level of the leader, there is no need for them to compete with the juniors for things like cultivation strength, it is not a level at all. The presence.

As long as they participate in upstream banquets on weekdays and mobilize the power in their hands, they can take in a lot of precious resources!

They are good at changing faces and being good at steering the rudder, but they are no longer good at blood and fighting.

This may be the sad part of the advanced stage of civilization development!

Excessive ease has made them forget that everything they get today is actually all other people's use of war and fists.

Fang Yue and Alice walked to the high platform. On the platform, a strong man in the Saint realm had been waiting for them for a long time.

He was polite and looked extremely gentleman in a black tuxedo.

However, behind the friendly smile, the faintly surging aura full of aggression, Fang Yue became involuntarily vigilant.

### **Chapter 1478: Poison**

The powerhouse at the peak of the Saint Realm!

Fang Yue immediately made a clear judgment on his cultivation realm based on his breath!

"First of all, allow me to introduce myself. My name is Shao Heng as the host of this banquet! At the same time, I will present our rewards and prizes to the two heroes! It is you who defended our heavenly capital, and you protected us. The home of you is your \*\*\*\* fighting and fighting, and letting the soldiers of the Demon Race choose to retreat! I want to know what kind of things you have in your hearts to talk to us!"

Shao Heng's voice is extremely sensational, he has the temperament of being a host.

Fang Yue couldn't help but look sideways. He didn't expect that there would be such a character among the powerful in the Saint Realm. Not only his own cultivation base is superb, but also host this kind of awards party!

"I hope that this time the Galaxy Star Alliance and the Heavenly Capital City can give me some more affordable rewards! Heroes should be treated as heroes. Don't just get some honorary titles, such as lip service!"

Fang Yue smiled at Shao Heng and said, this made the expression on Shao Heng's face suddenly become embarrassed.

Are you really shameless?

Shouldn't you say some humble and lofty reflections on this occasion?

When you speak, you are telling us to reward what rhythm is this?

You are a hero!

Can't express the personality so humble and compelling.

"Hahahaha, Hero Fang Yue is really joking!"

Shao Heng smiled awkwardly, feeling the atmosphere around him a little bit cold.

However, Fang Yue looked at Shao Heng with serious eyes.

"I'm kidding? Do you think I'm joking? No, every word I say is from my heart! This cannon rang out, and I killed so many demons. You should not be rewarded by merit. Would you give me some substantive rewards? You hold a secret meeting to divide up the relics on Helen star and don't call me! After killing the enemy, I will hold a celebration banquet for me. Shouldn't you continue to stingy! , Anyhow, give me a taste of a hundred thousand-year-old fairy medicine, or give me a saint-level magic weapon! Don't let the hero shed blood and tears! Otherwise, it's all. If this kind of treatment fights against the demons in the future, who would rush to the front line stupidly, \*\*\*\* sacrifices without fear of death?"

Fang Yue's words are true.

But his words are also poignant.

The thick-skinned old guys in the VIP seats at the banquet all wished to rush to the ring to take Fang Yue off!

What kind of occasion is this, how can Fang Yue just talk nonsense without rules?

Does he know whether the transaction under this table can't be said casually.

Some things are destined to be hidden in the dark and never see the light.

The hearts of those old guys are almost grabbing.

This Fang Yue really dare to say!

Now, the most embarrassing person should be the host Shao Heng. How did Fang Yue want him to continue? The things for Fang Yue and Alice are all ready, it is indeed some bells and whistles, it looks exquisite and gorgeous, but the form is greater than the meaning.

If these things were taken out, wouldn't it be right by Fang Yue?

At that time, it will be the faces of the nobles like the entire Galaxy Star Alliance and Helen Star!

"Hehehe, Alice, what do you say?"

Shao Heng reluctantly changed the subject, and he focused on Alice's body.

This Fang Yue has nothing to do with him, a typical two-skinned face, he disregards the rules, holding on to what he says, but this Elise is different, she should be an old man in the Galaxy Alliance, she should not look like Fang Yue's mouth is all nonsense!

"Actually, my requirements are not very high, just to add more capable men to me. There is really no way for five thousand old, weak, sick and disabled to complete the tasks set by the Galaxy Star Alliance!"

Alice is not a good stubble either. When she heard that the invitees of the previous small meeting did not have her, she immediately gave birth to a feeling of abandonment. Although she is not a typical cautious eye like Fang Yue, But why did I have me when I was charging, and I was removed from the list when the benefits were really distributed?

Shao Heng was directly stunned by Alice's words.

Wait, Fang Yue, don't go, I'll continue to interview you!

At any rate, Fang Yue only needed to order things and belongings.

But Alice, what are you doing?

Do you want to seize power in such a fair manner?

This is poking the pain point of the Galaxy Star Alliance!

Shao Heng felt that it was a mistake to come here to host the banquet. Originally, I wanted Fang Yue and Alice to say something lofty, and then help them to continue to charge for the Galaxy Star Alliance and fight foreign enemies.

But the two of them are more realistic than the other, and the other is more dare to say, they are two debt collectors.

Let him already don't know what to say.

"Host Shao Heng, do you have anything else to say? If you don't have one, please give us the prizes! Our time is precious. The demons are still stationed outside the city. I don't know when they will hit this place. City, we are still responsible for the people of the city!"

Fang Yue turned against the guest and urged Shao Heng to present the award, and he moved out of the banner of righteousness.

Shao Heng was somewhat speechless.

"Then let's move on to the awarding session! The elder Chen Mu of the Galaxy Star Alliance and the representative Zhang Hua of the Heavenly Capital City presented Fang Yue and Alice with awards respectively!"

With the sound of grand music sounded.

Two gray-haired elders walked to the podium tremblingly, and they handed a head-sized box to Fang Yue and Alice respectively.

Fang Yue opened the box on the spot and contained a crystal ball the size of an adult's fist!

Fang Yue glanced at this crystal ball, the brilliance on it was shining, especially dazzling.

But its level is just like that, a magic weapon at the rotation level. Fang Yue felt like he wanted to hehe.

Together, the two are really stingy.

Needless to say, the thing in Alice's box is also a crystal ball.

"The two crystal \*\*\*\* are the special glory crystals of Helen Star, and the implication of which is to hope that the two heroes will be as eternally bright as these two crystal balls! Shining everywhere!"

Shao Heng said the lines he had prepared before, but he felt that the lines were a bit out of date.

Didn't what he did exactly the words Fang Yue said before?

The lip service is not true, his face is really lost.

"Hmph, you like this kind of bells and whistles and keep it for yourself! I killed the Demon Race to protect the capital city of this day, not for your fake rewards! On the contrary, your rewards made me feel chilled. In order to live and die for the human race, I didn't expect this kind of treatment in the end!"

Fang Yue smashed the crystal ball to the ground with a snap.

A red mist rose from the crystal ball and enveloped Fang Yue's body.

The mist contained the smell of cold curse.

This crystal ball is not a reward, but a killer move specially refined for Fang Yue!

Fang Yue was stunned. He didn't expect that the Galaxy Star Alliance would be shameless to this point. He has become a hero of all eyes, and these Galaxy Star Alliance guys have chosen to plot against him and put him to death!

Fang Yue looked at Shao Heng, and the red mist was controlled by his thought.

Then Fang Yue asked Shao Heng, "This is how you treat heroes? Shao Heng, I suspect that you are a traitor to the human race, and you are guilty of collaborating with the enemy!"

Fang Yue's suspicion was quite reasonable.

And Shao Heng was stunned at that time!

He didn't know the mechanism in this crystal ball at all!

If this kind of thing is publicized, how would he be a man in this galaxy, Shao Heng! Fang Yue was on the front line to kill the enemy in blood, but he actually conspired.

Shao Heng's face turned green instantly.

Fang Yue simply ignored what Shao Heng was thinking. He took the goal from Alice's hand to one hand.

Then he smashed the crystal ball to the ground.

The same red mist, the same curse breath.

Shao Heng had a kind of urge to draw his sword and hacked to death the person who made the crystal ball. Could this person have hatred against him?

The traces of this framing is too obvious.

In Shao Heng's heart, 10,000 grass-mud horses rushed past.

Fang Yue directly took out a long knife and cut it towards the ground.

His knife was not directed at anyone, nor was it directed at Shao Heng.

However, Fang Yue roared: "From then on, I will no longer guard the human race in the capital city of this day. I will break with you from now on!"

Fang Yue's words fell.

Everyone was shocked.

And Alice also looked at Shao Heng with a cold face, and then slowly swept her gaze over the so-called gentlemen present.

"Unexpectedly, I dedicated my life to the Galaxy Covenant, and in the end, the person who wanted to kill me the most was from the Galaxy Covenant. My heart was uncomfortable. I hope this is a nightmare. When I wake up, Everything is still the same.

But I know that all of this is impossible, so from then on, I, Alice, also broke up with the Galaxy Alliance, and I will no longer guard this heavenly city! "

When Alice spoke, the audience fell silent.

Fang Yue originally had a stiff relationship with the Galaxy Alliance. He broke with the Galaxy Alliance. Everyone expected it. However, Alice was different. She almost grew up in the Galaxy Alliance. , But also a person who has made great contributions to the Galaxy Star Alliance.

Unexpectedly, even she was feeling cold now, and finally decided to sever ties with the Galaxy Alliance.

They all felt a kind of sadness from the rendering of Alice's mental power.

Fang Yue and Alice both broke through the air under the attention of everyone.

At this time, no one can do anything for Yue and Alice. This reward contains a cursed mist. Such a method is already chilling, cold, and incomparable.

If they choose to attack Fang Yue and Alice to stay in the Heavenly King City forever, then they would be a little too inhuman!

After Fang Yue and Alice left, a man wearing a clown costume and a clown mask came out. His voice was high-pitched and a bit harsh.

"Unexpectedly, Alice and Fang Yue escaped from my secret calculation smoothly, but next time they won't get away so easily!"

The figure of the clown makes everyone like a sinking ice cave. Although no one can see his full picture, no one dares to treat him with the slightest contempt.

**Chapter 1479: Joker King**

The reason is very simple, this clown turned out to be a great saint-level powerhouse.

Who is this person?

It seems that this figure has never appeared in the Galaxy Alliance!

After Shao Heng saw the clown, the endless fire and grievance in his heart disappeared at this moment.

"Big Brother turned out to be you?"

After Shao Heng saw the figure of the clown, he was stunned.

Because this clown is his big brother who should have been dead for three thousand years.

The big brother of the year used to take good care of him, and even most of his cultivation was learned from his big brother.

But he clearly remembered that in the catastrophe that year, Big Brother and Master had already died to protect him.

But why is his big brother able to die and resurrect, even breaking through to the level of the Great Sacred Realm?

"Who are you? Why do you want to participate in our banquet!"

A powerful man from the fifth floor of the Saint Realm in the Heavenly Capital City asked, he came from a mysterious power of Helen Star, and he believed that this clown did not have the guts to treat him in front of so many people!

"Hahaha! Who am I? I am the King of Clowns! Could it be that I have left the Milky Way galaxy in such a short time, and no one in this galaxy knows me except my little brother?"

"But that's right, you were not born when I was famous in all directions in the Milky Way galaxy! Your master should know my name!"

The clown king laughed, his laughter smelled of sadness and sorrow.

At the same time, the saint who stood up to question the King of Clowns withered like a failed flower, and eventually withered!

A strong man in the saint state has fallen so terribly, this clown king turned out to be terrifying!

Fang Yue and Alice left the place where the party was.

They returned to the first palace.

There was a palpitating expression on Fang Yue's face: "I didn't expect that in this world, besides me, there are people who understand the true meaning of the law of curse!"

There was still a trace of tears on Alice's cheek.

"The law of curse? Isn't this law that no one can grasp at all in the legend? It was born in the darkest and most chaotic place at the beginning of the universe of Ten Thousand Worlds!"

When Alice heard Fang Yue's words, she was temporarily relieved from the sadness of abandoning the Galaxy Star Alliance.

Fang Yue shook his head: "There are no laws in this world that cannot be mastered! I understood the laws of curses a long time ago, but I never thought that there was a second person in this world who mastered the laws of curse. , If it weren't for me just a little bit better than him in the law of curse, maybe now we two have become a pile of bones!"

Fang Yue also had some doubts in his heart. The person who was secretly confronting him didn't seem to be so proficient in the application of the law of curse, otherwise he would not be able to gather the law of curse in the crystal ball smoothly.

And if it is the curse law that he has cultivated, his comprehension of the power of curse can be extremely profound, how can he not be proficient in the mastery of this law.

"Then we really don't care about the capital city this day?"

Alice looked at Fang Yue and said pitifully.

Although she said just now that she resolutely sever all ties with this Galaxy Star Alliance, she still couldn't accept it for a while if she really let him leave this Galaxy Star Alliance completely.

Fang Yue shook his head slightly: "How is it possible? This war will not lack their presence. This is definitely necessary to help the Galaxy Alliance, but it is impossible for them to get our help as if they were before. !"

Fang Yue already had his own plan in his mind. In fact, the power of the curse in the crystal ball was just an accident for him, but he took advantage of his strength to complete his plan.

Otherwise, he would always follow the orders of the Galaxy Star Alliance, and I don't know when the Galaxy Star Alliance killed them.

"So how should we act?"

Alice has already regarded Fang Yue as her backbone.

Fang Yue smiled and said: "Don't worry, when Guna comes back, I want to know what else happened at the banquet after we left!"

After about tea time, Guna returned.

She portrayed the appearance of the King of Clowns one to five to ten.

"The Clown King, a character from three thousand years ago! It's really interesting!"

Fang Yue was not surprised after hearing about the clown emperor.

"Then what is the identity of the clown emperor, how can he blend into the banquet and curse us?"

The person who heard this curse was the Joker King, not the Galaxy Covenant.

Alice felt better in her heart.

Fang Yue rubbed his own temple and said, "Unexpectedly, even the people who destroyed the demons would start to do something to me this time!"

"Destroy the demons? What does this have to do with the destruction of the demons?"

Alice is totally different from the thinking of Shangyue!

"Destroy the demons have the ability to piece together the corpses of the people they have killed and become their puppets. This kind of puppets are called sinkers, but ordinary sinkers don't have any thinking. This time, the clown king turned out to have his own thinking, so there are two possibilities. One is that the clown king was in desperation and was not completely dead, and the other is that the clown king is more advanced Those who perish can have the wisdom of their lives!"

Fang Yue's experience is entirely from the remains of the Vientiane Sect.

He discovered that the relics of Vientiane Sect actually have considerable value to him.

At least he deepened his understanding of Destroyed Demons!

"Has this Destroyed Demon Race already penetrated the Galaxy Star Alliance to such a point? But the clown emperor is at the level of the Great Sacred Realm, why didn't he show up in person and kill the two of us, using our cultivation level Look, as long as a strong man in the Great Sacred Realm is willing to take action to kill us, that is not a problem!"

Alice raised a series of questions.

Fang Yue sneered: "Because he wants to kill the two of us is completely drunkard's intention not to drink! The strength of the two of us still cannot enter the vision of destroying the demons. The goal they want to achieve is to celebrate. At the banquet, we will kill the two of us with the rewards given to us by the Galaxy Alliance. In this case, the Galaxy Alliance will be muddy and splashed on the crotch mountain, not \*\*\*\* or shit!

"The Galaxy Covenant treats the meritorious people in this way, so that everyone in the galaxy knows it, so will all the forces in the galaxy still look at their Galaxy Covenant's horse heads? Not only that, I am afraid that this matter will be announced by those who are interested, even the Galaxy Some insiders of the Star Alliance will also be afraid!"

Fang Yue analyzed this matter in an orderly manner.

Fang Yue's analysis was extremely reasonable, which convinced Alice.

"If this is the case, doesn't it mean that this matter has nothing to do with the Galaxy Covenant, and the Galaxy Covenant still only rewards me without any punishment?"

Alice still has deep feelings for the Galaxy Star Alliance, and Fang Yue's words are unbelievable.

Fang Yue sneered: "Alice, have you ever heard of such a sentence called the egg that flies don't bite? Since this clown king is using this opportunity to provoke the relationship between you and me and the Galaxy Alliance, it's It means that there is at least a part of the intention within the Galaxy Covenant to hope that the two of us will die! Do you think this Galaxy Covenant has no control over this banquet? Just now, when I was receiving the reward, I at least felt three divine thoughts above the Great Sacred

Realm level passing by you and me! This clown emperor is only one of them, so what about the other two? They acquiesced to this behavior."

Fang Yue's words fell, and Alice's heart sank to the bottom of the hope she had just burned, and in an instant she fell back into the abyss of despair.

"And I always feel that things are not that simple this time. Getting out of the quagmire may not be a good thing. What was the task assigned to you by the Galaxy Alliance last time? Let you take those five thousand old and weak Sick and disabled hold the demon's billions of troops? As long as their brains are not faulty, they should know that this is an impossible task for you, but they still assign this task to you, which proves them It is intentional, not to let you complete the task and make things difficult for you! What is there to be nostalgic for in such a galaxy alliance?"

Fang Yue's constant beating on Alice, this child is really a little bit solid!

If it were him, he would definitely not be mixed up in the Galaxy Star Alliance! I grew up in the Galaxy Star Alliance since I was young, but I didn't even have a personal network of my own at the top!

"Fang Yue, Fang Yue, the demon army outside the capital city has gathered again this day. They seem to have known the news that you and the Galaxy Star Alliance have completely fallen out, so they must gather the army again and prepare to attack the city!"

The Taoist Hungry Wolf was inquiring about information outside, and he suddenly returned to the First Palace to report the situation outside to him. His face was full of excitement. Without Fang Yue, without Alice, look at them. Secondly, how to solve the hundreds of millions of demon army outside.

Fang Yue thought for a moment.

"This time things will not be that simple. The people from the Galaxy Star Alliance and the Heavenly Capital City, when they set up a banquet for us and handed out rewards, should have guessed that there is a certain chance that we two will use this human race system. In this case, they must have a chance to deal with the 10,000 army of the demons!"

Fang Yue knows too much about the old and cunning guys in the Galaxy Star Alliance. Maybe they can't let them go to the front line to fight one by one, but let them make a conspiracy. The eyelashes of those people are empty, and all of them are in their stomachs. Countless bad water.

"Then what shall we do?"

Now Alice's IQ is about to drop to a negative number.

Even if Fang Yue abducted her to a personal dealer, she estimated that she would still help Fang Yue count the money.

Of course, for such a sturdy female player, ordinary traffickers dare not want her.

"We are now outflanking the logistics department of the Mozu and grabbing their logistics resources!"

Fang Yue's eyes glowed, this is his old line.

His first pot of gold was to steal a logistics warehouse of the Mozu, and now it is time for him to return to his old business!

"Looting the logistics warehouse of the demons?"

Alice was a little stunned when she heard Fang Yue's plan. She hadn't completely transformed from the role of a good baby in the Galaxy Star Alliance.

Fang Yue and Alice are almost completely different personalities.

In fact, Alice is the hero who really sacrificed and dedicated to everyone, and Fang Yue is at best a man of opportunism!

### **Chapter 1480: Reincarnation**

"Yeah, since we cannot be regarded as heroes, and the various forces in the Galaxy Star League and the King City of Heaven are not benefiting us, we can only benefit from the war ourselves! There are two common people who make war fortune. One way is to sell arms to both sides, and the other is to plunder both sides' wealth! This arms is temporarily estimated to be unnecessary for both parties. Only when the two families really fight, the weaker party will rush to find us to buy arms! And most of the wealth of these two parties is concentrated on their logistical support. The value of each of the armors that are replaced, the pills that are consumed daily, and all kinds of weapons are quite expensive! The logistics support materials for this army of billions must be an amazing number! If I take this opportunity to \*\*\*\* the logistics of the Demon Race, I think it must be a big profit!"

Fang Yue is someone who doesn't see rabbits or scatters eagles, and he is also the kind of person who can't afford to be profitable. If he wants to move, he must have enough benefits and incentives to be true.

Fang Yue's plan left Alice dumbfounded. She felt that she was dumbfounded much more today than in the past 100 years.

Alice re-examined Fang Yue. She felt that she had never really known this person in the past.

When the two armies are at war, who can not care about the victory or defeat of the two sides, but instead focus on how to make war fortune.

This Fang Yue refreshed Alice's three views again.

And Fang Yue seemed to have anticipated that Alice would not accept her plan soon, so Fang Yue had already paid attention to the person next to her.

For example, Fang Yue's nominal father-in-law Gu Yuan.

"If this plan is successful, I will have a huge amount of resources. I will allocate these resources to the zombies, so that they can at least have a foothold in this Galaxy Alliance!"

Fang Yue directly offered Gu Yuan a price.

Fang Yue understood that Gu Yuan actually belonged to those people who valued love and justice, and the dedication to Gu Na was evident.

And Gu Yuan can attach so much importance to Guna, he must also attach great importance to the zombie brothers in the ruins.

Gu Yuan really moved.

"There are three thousand zombie generals under my command, and eighteen zombie marshals! The curses on them are all strong, cat, can you get rid of their curses, and then transfer them to this galaxy?"

Gu Yuan knew in his heart that only when he truly walked out of the ruins could he gain true freedom. As for the ruins, it was actually a naturally formed cage!

Fang Yue nodded: "Of course it can, but this process needs to be gradual and cannot be done overnight! And they also need to be well placed in the Milky Way galaxy! Otherwise, the appearance of those zombie marshals and zombie generals may immediately cause What a panic!"

Fang Yue also felt quite frightened when he heard the numbers Gu Yuan said.

The zombie generals are the powerhouses at the leader level, and the zombie marshals are at the saint level.

Regardless of the fact that Fang Yue met the saints one by one, this is because Fang Yue's realm of strength is also at this level. In fact, the powerhouse of the saint realm in Yinhe Xingzhong is already a dragon without seeing the end. The powerhouses in the general leader realm are already the top of the gold towers of most powers!

Fang Yue agreed, and Gu Yuan nodded: "Since you said that, then I am also the kind of hypocritical person. This time I will help you once, but the resources you get need to be allocated to me 10%! My zombie It's impossible for brothers to come to this galaxy to be poor and white, but if they ask you for resources, they will not be able to lose their face! So I want 10% of the resources to settle down for the zombie brothers who came to this galaxy. People!"

When Alice heard the conversation between Fang Yue and Gu Yuan, she felt like a cloud of mist.

But Alice vaguely understood one thing, that is, this Gu Yuan is a great existence.

Otherwise, Fang Yue, the ordinary saint, would not take it seriously, let alone take the initiative to trade to ask them anything!

But where on earth this Gu Yuan was, Alice searched her own memory but failed to find any information about this Gu Yuan. This Gu Yuan was like a person jumping out of a rock.

"This Fang Yue is really getting more and more mysterious! The saint who appeared next to him is not clearly recorded in the Galaxy Star Alliance. Both Gu Yuan and Fang Han have an unfathomable aura, and that Guna looks young, but she has unlimited potential. There is a terrifying breath in her bloodline, so I dare not explore and approach too much!"

Alice said secretly in her heart.

But the more mysterious and powerful Fang Yue is, as a comrade in the same trench, Alice just feels safer!

Only if you can't figure it out can you escape the control of the Galaxy Covenant, and finally create a world of your own in the confrontation with the Galaxy Covenant.

At this time, a pink paper crane fell from the sky, it broke through the clouds and fell directly into Fang Yue's hands.

Fang Yue was a little surprised. There was a faint feminine fragrance on this paper crane.

Whose paper crane is this?

Fang Yue was also surprised by this strange thing.

These thousand paper cranes are folded by women, but Fang Yue is a straight old man of a thousand years. His relationship with women has never been very good. Whether he is an enemy or a friend, he is not much female!

The thousand paper cranes unfolded and turned into a piece of pink paper, spinning and falling into Fang Yue's hands.

On these thousand paper cranes, the two characters are written beautifully, giving people a gentle feeling.

"Where to go?"

Fang Yue asked subconsciously.

The words on this paper have an unclear feeling.

Speaking of it, the space outside is big, where can he go to find the owner of this paper crane?

The pink paper suddenly turned into a paper crane again, and it flew toward the sky with flapping wings.

Qian Zhihe, Fang Yue's follower, followed in the footsteps.

Walking out the door, these thousand paper cranes have already flown towards a high mountain.

Fang Yue saw the thousand paper cranes flying to a distant unknown place. He turned around and told the Taoist Hungry Wolf: "When I leave, I must protect the First Royal Palace. I am worried that this is the capital of the day. The royal city and the Galaxy Star Alliance's plan to adjust the tiger away from the mountain! Of course, Fang Han and Gu Yuan are sitting in the first palace. Even if the Galaxy Star Alliance wants to attack it, it is unlikely!"

Fang Yue's voice fell, and then the whole person turned into a beam of light and disappeared into the sky.

Looking at Fang Yue's disappearing figure, Gu Yuan couldn't help but praised: "It seems that the son-in-law I chose this time did not find the wrong person! This method should have understood the law of light to the point where it is quite profound!"

Fang Han chuckled: "It seems that the wheel of fate has finally started to turn. Among the pink paper cranes, I feel that there is a great opportunity to find a young disciple of my clan!"

On the other hand, Gu Na looked at the two old antiques Gu Yuan and Fang Han blankly. She didn't know what these two old guys were muttering!

After a while, Fang Yue appeared at the place where the paper cranes disappeared.

Just now, Fang Yue had already imprinted a spiritual mark on the top of Qianzhihe!

As long as his mind moved, he could sense the location of the paper cranes. Even if the paper cranes disappeared from his eyes, Fang Yue could still find the place where the paper cranes disappeared.

"You came!"

A faint voice came from behind Fang Yue.

Fang Yue turned around and saw a very cute young lady wearing a goose yellow dress. This young lady had an oval face, not so beautiful, but she gave Fang Yue a very friendly and cute feeling.

"you are?"

Fang Yue looked at this young lady, he was pretty sure he had never seen this young lady!

"You can call me the messenger of reincarnation! When every cosmic civilization is about to fall or face the test of calamity, we will appear and choose some people who can accept our test to become the reincarnation of this universe, and their respective identity ages Everything is different. Some talents are amazing and have infinite potential, some are lucky, even if they eat and drink water, they can meet the baby, and some have become famous and become a generation of emperor-level existence! And my palace dream is to choose you Become my reincarnation. Of course, there are still many reincarnations under my name. You can only become the true reincarnation under my test only after you have tested and competed and even killed!"

This Gong Youmeng's body seems to be hazy in another time and space, even if Fang Yue and her face each other, they can't sense the real existence of this Gong Youmeng!

This is beyond the scope of Fang Yue's comprehension of the law. Her comprehension of the law and order has reached an incredible level, beyond Fang Yue's understanding!

Fang Yue frowned slightly: "Gong Youmeng? Why did you choose me to be the reincarnation in your name, and what are the benefits of being this reincarnation?"

Gong Youmeng said with a smile: "Becoming a reincarnation will be able to come into contact with the ultimate civilization of this world. This ultimate civilization is an existence beyond your understanding! For example, my means of creation! When a thought falls, it can be created. Everything I can imagine!"

Gong Youmeng stretched out a finger and tapped lightly on the rock beside him. The rock turned into a fleshy bird spreading its wings and flying into the sky!

Fang Yue didn't change his face: "If only this method is used, I'm afraid it's not enough to make my heart move. It's not because I have a cousin named Li Tiezhu. I am afraid it is not worse than you!"

The proud and smug expression on Gong Youmeng's face was slightly stiff.

I am so special, how come I have encountered such a stubbornness.

Every time she showed this method, she would get countless fresh applause and even envy shouts.

But did Fang Yueye pull out a cousin Li Tiezhu just because he didn't cooperate?

And this name is really good!

How can these little fairies of mine come to your mouth to compare with such a native person?

If it wasn't because I was appointed by the above to make you a reincarnation, I would have slapped you to death with the violent temper of my aunt's grandma!
