

## God of Life 1491

### Chapter 1491: A deal!

"In fact, this time I came here, really wanting to see what the descendants of my old friend look like, and whether they have lost the prestige of the Fang family. When I look at it now, it really deserves a reputation. I really envy my old friend and future generations. They are all such arrogant talents, but they are much better than my ineffective disciples and grandchildren!"

Secretly laughed.

Then Fang Yue was invited to sit on a small pavilion on the stream.

A saint in a pink palace dress actually came to serve tea and pour water in person.

She bowed her knees and smiled, she looked like a slave, without the majesty that a saint should have!

Fang Yue looked at the female saint, she turned out to be of standard human origin.

Unexpectedly, this Anfang was such a slave to the human female saint.

"Senior Anfang, what do you mean?"

Fang Yue looked at Anfang, although there was still a slight smile at the corner of his mouth, a trace of anger had already risen in his heart.

This Anfang sent a human saint to serve as a servant and serve him tea and water. What is the point?

Is this a demonstration to him, or is it a demonstration to the human race?

Although Fang Yue didn't like the people in the Heavenly Capital City, he was also a member of the human race.

This kind of behavior by Anfang is a blatant contempt for the human race and is challenging Fang Yue's bottom line.

Fang Yue's mouth twitched slightly. Twitch, but quickly suppressed the emotions in my heart.

For this hidden party, Fang Yue still doesn't know whether it is an enemy or a friend.

Turning over now, it is a bit sloppy.

An Fang saw the change on Fang Yue's face, and waited for the results of Fang Yue's inner thoughts with a smile.

In the end, he saw Fang Yue's expression calm down, and then slowly said, "It's worthy of being a disciple of the Fang family. This character is also commendable. The person you see who pours tea for you and me is not My servant, but my three disciples, I have no kind of teaching, and I have transcended the boundaries of racial concepts. Of the nine disciples under the school, only three are demons, and the rest are from different ethnic groups. The disciple serves the tea for Master, do you still think this is human humiliation?"

Fang Yue's response surprised Fang Yue.

Fang Yue was also ashamed of the secret way, but he didn't expect to save the gentleman's belly with the heart of a villain.

"Fang Yue, when you reach my level of cultivation, you will begin to understand that what kind of race, calamity, and glory are all fake. It is really longevity, cultivation, and immortality. A soul that will last forever!"

Anfang paused for a while and then said, "I'm here to find you! First, I want to see how the descendants of my old man are, and another reason is that I hope you can solve the problem on this drawing! "

An Fang slowly took out a dark golden drawing from his arms, on the drawing, there were countless dense strokes.

Each of these strokes is a link between the world and the earth, and the mystery in it is extremely profound, even now Fang Yue can hardly guess it!

"Dare to ask Master Anfang, what kind of drawing is this?"

The more Fang Yue looked at this drawing, the more mysterious he felt.

This drawing is definitely not something ordinary people can draw!

Every stroke, every painting is an extremely deep understanding of the law of heaven.

"This is what I unearthed from an ancient relic on Helen Star. To be precise, this thing was not unearthed, but one of my apprentices got it by accident and then honored it to me! I was quite confident about my attainments in runes and formations, but I studied this thing for three days and three nights, but I still didn't find the slightest clue. I don't know what this thing is used for? These strokes Every stroke is extremely delicate, but when connected together, I can't understand it a little. This is not like a talisman or a formation! And the strokes on this paper are obviously not made by one person. There are three of them. The five broken marks were obviously added by later generations!"

"Fang Yue, if you can help me understand the clues of this thing, I will give you a chance!"

It turned out that the secret party sought Fang Yue for this purpose.

Fang Yue finally secretly breathed a sigh of relief.

As long as it's not the Graycastle thing.

Fang Yue pushed to Chen Guangming and Shuai pot, but sooner or later this demons would interrogate them, and Chen Guangming didn't take away the Grey Castle and the eighth treasure house.

When the time comes, the Mozu will investigate again, and it is easy to lead the suspected object to him.

"Um, do you believe this thing is homework?"

Fang Yue suddenly made a very bold conjecture and said to Anfang.

Anfang was taken aback for a moment: "Homework, what is that? Forgive me for my ignorance. I have never heard of this term. Fang Yue, can you explain it to me?"

Fang Yue cleared his throat and explained what the homework was.

Then Anfang looked at the drawing again, and suddenly laughed: "Yes, yes, this is homework. The original strokes on this drawing are all mature and old, and the new strokes are obviously crooked. It feels relatively new and tender, and it seems to be drawn by a newcomer! Poor, I thought about breaking my head, thinking about all the possibilities, but in the end I was stumped by a small homework. My mind is really confused. what!"

Anfang laughed for a while, and finally stopped laughing.

He stared at Fang Yue tightly and said, "What do you think this drawing represents?"

"The ancient civilization of the past may have been extremely prosperous, and even the method of runes has matured to the point where it can be taught in batches! Otherwise, this kind of homework should not exist. In other words, the ancient civilization of the past is developed. The extent of this is beyond your imagination!"

Fang Yue had guessed what the Anfang wanted to ask, and at the same time he knew that the Anfang was laughing. It wasn't that he was stupid, and he didn't guess that this thing was homework.

He laughed at the people of today, sitting in the well and watching the sky all day, self-righteous, fighting every day, but he didn't know that the ancient civilization had been so prosperous but he still didn't escape the baptism of this calamity.

Fang Yue's heart was also sad.

His research on ancient civilizations has also become increasingly profound.

Regardless of the path of civilization, people today are lagging behind the ancient civilization by many steps, but today people don't spend their energy on research and development. The daily struggle and internal friction is indeed a bit short-sighted. !

"I am going to use this struggle between Human Race and Demon Race to gradually push away some of the achievements of ancient civilization!"

Fang Yue took a sip of the fairy tea in secret, and then said calmly.

"You don't hate the nobles of the Heavenly Capital City, or the people of the Galaxy Star Alliance?"

Anfang looked at Fang Yue with a smile on his face, but Fang Yue could not detect the slightest joy in his smile.

"Hate! Who said I don't hate it anymore! I just let them play their best value before they die. Do you think there is no sparrow behind your Demon Race's mantis catching cicada this time? They have already set up camp on the planet of Helen. They are waiting for the war between the human race and the demons to break out. In the end, the fisherman profited and swept away the people of the two major races, and collected all the relics of the ancient civilization you harvested! This human race! Be stronger, you can drag down more Destruction Demons, so that I can also start my own follow-up plan!"

Fang Yue didn't care about concealing his inner thoughts, and told his plan and account.

Anfang sighed slightly: "It's a pity that the people of the Galaxy Alliance have turned you into their enemy! Otherwise, if you are a true platinum-level rotation seed of the Galaxy Alliance, they won't be able to spend much. Resources can turn you into a powerful person who can change the future pattern of the entire Milky Way galaxy. This Milky Way galaxy is not in the current situation!"

"There has never been a regret medicine in this world. Since they made the decision themselves, they have to bear the consequences for their own decision!"

Fang Yue gently shook the tea in his cup.

Anfang no longer speaks.

"I promised you before. As long as you unlock the secrets on the drawing, I will give you a chance. Although the drawing is not as precious as I imagined, I will not lose my word! I give you a crystallization of the inheritance of ancient civilization. It can make your mind travel back to the era of ancient civilization, and then stay in that illusory world for a hundred days. It's a pity that this thing can only be withstood. The soul below the level of the leader, otherwise, I also want to return to the ancient civilization, live for a period of time in that era, and feel the unique world!"

An Fang said with regretful counterpart Yue.

Fang Yue accepted the crystal and thanked him softly.

"Fang Yue, I hope you can be merciful when you meet my disciple on the race battlefield in the future. This counts as I owe you a favor. As for who my disciple is, you will know naturally if you meet him. !"

Fang Yue held his fist secretly.

Fang Yue nodded and agreed.

Afterwards, Fang Yue and An Fang talked about the situation of the Milky Way from the ancient civilization to the present day for half an hour.

Time passed quickly and the sky was getting dark, Fang Yue said goodbye to Anfang, and then left Anfang's other courtyard.

A few kilometers after Fang Yue walked out of the other courtyard, his heart suddenly moved, and he turned his head again, where there were other courtyards behind him, all of them were a vast wilderness!

Soon, Fang Yue returned to the Heavenly Capital City.

At the door of his shop, a young man in silver armor was waiting anxiously.

There are strands of melancholy between his eyebrows.

Fang Yue glanced at his costume, it was from the Galaxy Star Alliance.

"Master Fang Yue, you are finally back!"

The young man in silver armor saw Fang Yue, as if he had seen the great savior, and directly attached to Fang Yue's body.

Fang Yue pushed away, frowning slightly.

"Stay away from me, I have no interest in men!"

The brother-in-law talked, but didn't get angry.

Because he knew that the only person who could save their family now was Fang Yue!

### **Chapter 1492: Mysterious monuments**

"Master Fang Yue, you must save us! Our royal family has all hopes placed on you! If you don't make a move at this time, our royal family will probably become the eternal past in this heavenly capital city! "

The young man still did not give up, because he knew he was not representing himself now.

He also represents the Wang family behind him!

A family that once squeezed into the three big families in the city of heaven in its glory and heyday, but today is gradually declining, and even dying!

"Wang family? The Wang family under Wang Feng?"

Fang Yue raised his eyebrows and looked at the young man.

"Yes, our patriarch is Lord Wang Feng!"

Fang Yue pondered for a moment, "Take me a look!"

If it were other families, Fang Yue would definitely ignore it.

After all, he deeply felt the attitude of the Tiandu Wangcheng towards him.

But if it was Wang Feng, that would be another matter!

In the Heavenly Capital City, Wang Feng is a very special existence!

He is a saint, but he is also an expert in the field of ancient civilization research in this heavenly capital.

Or in other words, since three thousand years ago, every clan leader of the Wang family was an expert in the field of ancient civilization research!

The Wang family was once so brilliant and prosperous. There were even five great sages in the family. Although these five great sages appeared in different eras in the past ten thousand years, this is enough to prove that the Wang family was once powerful. Place.

It's a pity that in recent years, the Wang family has continued to decline over time. The main reason is not knowing why. The Wang family turned its attention to the exploration and development of ancient civilizations. The previous ten thousand years of accumulation and accumulation were quickly

consumed. Light, if it weren't for the Wang family, there are still some heritage handed down from the ancestors.

The royal family that has become a second-rate force in the Heavenly Capital City has already been divided up and cleaned up by other families in the Heavenly Capital City as if by poor wolves and hungry tigers!

For Wang Feng, Fang Yue only heard of his name and never met.

This time, Fang Yue wanted to see what the mystery of this famous Wang Feng in the heavenly capital was.

Fang Yue followed the young man in Yinjia to Wang's house.

The Wang family was in order, without the slightest panic.

This is completely different from the panic displayed by the silver armor young man!

However, under the calm appearance of those people, if you observe carefully, you can still see the traces of panic and uneasy deep in their eyes.

"Master Fang Yue, please come with me!"

The Yinjia young man led Fang Yue into the Wang's house, and the journey was unimpeded, without any interrogation and search.

Then, the young man in Yinjia took Fang Yue to a very closed room.

This shouldn't be a place where any big man resides!

"My lord please!"

The silver-armored young man pushed open the door, and the room was completely dark, and there was no half of a figure!

"What's inside?"

Fang Yue had some doubts.

He still doesn't know what happened to the Wang family!

"Our Patriarch is waiting for you inside, because there are some special things inside, so there can be no light!"

The silver armored young man briefly introduced: "The Patriarch Wang Feng fought against the demons in a battle and encountered a joint siege by three demons saints. Although he managed to escape, the Patriarch was seriously injured. , If there is no special means to suppress, our Patriarch may have fallen three hours ago! He has been waiting for Master Fang Yue's arrival until now. The Patriarch said that if even Master Fang Yue could not save him, then there would be no People can save him!"

Fang Yue nodded slightly, and then entered the black hole. In the secret room of the cave.

The moment his soles stepped into the secret room.

The surrounding space was switched upside down, and Fang Yue obviously felt that the space velocity in it had accelerated several times.

In other words, one minute of outside time may pass, and the time in this room may pass several minutes or even tens of minutes.

Fang Yue's heart trembled slightly, but he did not expect that the use of the ancient relics by the royal family had reached this level.

The formation and magical tools in terms of time are still relatively superficial and naive in the current cultivator civilization. Although some powerful people above the sage level have begun to develop and use, there are still few that can be stable. Spaces with different time flow rates.

"You are Fang Yue!"

A pair of green eyes stood out in the dark.

The shining green light made Fang Yue's heart tighten slightly.

"Wang Feng?"

Fang Yue asked a little surprised.

Isn't this Wang Feng personal?

I thought it was a cat demon!

I'm not a banknote, ah, why are your eyes green!

Fang Yue closed his eyes, his brows exuded circles of spiritual power, and suddenly, the darkness in this room turned into day!

This is a rather simple room. Zhang Feng is sitting on the bed, his body is covered with colorful butterflies.

The wings of these butterflies flap slightly, constantly absorbing the power of darkness in Zhang Feng's body.

Wang Feng's body was covered with butterflies, except for his green eyes.

He spoke slowly, his voice slightly hoarse.

"I didn't expect to meet so early, I thought I could delay it for a while!"

There was a touch of helplessness in Wang Feng's voice.

Fang Yue frowned: "You have already planned to meet with me?"

"Under the envelope of the Galaxy Star Alliance, who doesn't want to get rid of the shackles and gain freedom! Thousands of years ago, my royal family planned how to get rid of the surveillance of the Galaxy Star Alliance. My royal family wanted to cooperate with Master Fang Yue, but they wanted Choosing a more appropriate and appropriate time, but people are not as good as the sky, but in the end we chose the most untimely time to meet you!"

Fang Yue chuckled, "So that's it! Get rid of the surveillance of the Galaxy Star Alliance, I'm afraid your royal family hasn't really fallen like outside observations and rumors!"

Wang Feng nodded slightly: "Decline is just an illusion of getting rid of the surveillance of the Galaxy Star Alliance and letting them relax their vigilance. My king's great sage has come out in large numbers, and there are so many powerful saints. How could it be that a few ancient relics have fallen? ?"

Wang Feng straightened his chest slightly and said with some pride.

The prosperity of the king's family cannot be destroyed under the corrosion of time!

"Then your injury?"

Fang Yue looked at Wang Feng.

"The injury is real, but the real reason is not the demon. The three demon saints joined forces and really made me suffer a little loss, but with their methods, I can't keep me! My real injury is the source. After escaping from the demon race, I strayed into a dense forest. In the dense forest, I was chased by a nine-tailed cat demon handed down from the ancient civilization. After nine deaths, I only became what I am now!"

The bitter taste in Wang Feng's smile is stronger.

"Who would have thought that the ancient civilization of the past was so prosperous that even creatures with top bloodline levels like the nine-tailed cat demon could be copied by them!"

There was a hint of fear in Wang Feng's voice.

I thought that thousands of years of research by their Wang family had already gained a fairly deep understanding of ancient civilization.

But now he knew that the ancient civilization they were studying was not even the tip of the iceberg of the real ancient civilization.

Fang Yue was also slightly stunned when he heard this.

"Then you were injured by the nine-tailed cat demon, and you were hit by the dark curse of the nine-tailed cat demon?"

Fang Yue knew the group of nine-tailed cat monsters. In fact, even in this era, the nine-tailed cat monsters are still active in the universe of the universe.

Their level is roughly the same as that of Medusa, and they belong to the ranks of sub-sacred beasts.

The bloodline level of the nine-tailed cat demon is a day-level bloodline, although it is not the top one, but it is absolutely no less painful than the average divine beast.

The nine-tailed cat demon has nine tails in total, representing his nine lives.

Unless you can kill the nine-tailed cat demon nine times, it will always haunt you lingeringly.

Nine-tailed cat waist is good at toxins, curses, and other methods. These things are the most annoying. They can't kill you from the front, but they can torture you from the back!

Especially the Curse of Darkness, which the nine-tailed cat demon is best at, can almost be heard.

In the process of fighting with the nine-tailed cat demon, once injured by the nine-tailed cat demon, the dark curse will follow the blood and enter the body of the injured person, and the dark curse will strike, and the injured person will become the nine-tailed cat demon. The cat slaves have some of the characteristics of the nine-tailed cat demon, but the orders of the nine-tailed cat demon are obedient!

Even more frightening is that the dark curse of this nine-tailed cat monster is almost insoluble!

Once a curse is planted, only death can be truly detached.

Otherwise, the soul will be enslaved endlessly in the body, and cannot survive or die!

"This dark curse is the most vicious and vicious curse since ancient times! I can't get rid of this curse again!"

Fang Yue shook his head slightly, shattering Wang Feng's hope.

Wang Feng smiled and said: "Of course I have no idea for you to help me solve this dark curse. In fact, our Wang family's research on ancient civilizations is enough for us to find a way to crack this dark curse! But this method is rather special. need your help!"

"You have found the formula to untie the Dark Curse?!"

Fang Yue looked at Wang Feng with surprise in his expression.

"That's not the case. The dark curse in me is not deep. The first moment I was cursed, 90% of the curse was expelled from my body. The remaining 10%, I also use this colorful divine butterfly to \*\*\*\* and resolve. Part of the power, so I can sustain it until now! This ancient formula of mine is a universal formula to untie the curse. Even if it can't completely resolve the curse in my body, it can be suppressed for at least a hundred years. It won't happen! It's just that my formula requires a lot of vitality, so we hope to be able to buy high-grade herbal liquid from your hands. Of course, our Wang family will also pay the price of the corresponding ancient relics!"

### **Chapter 1493: Early appearance of ancient civilization**

"Advanced Herbal Liquid? How did you know that there are more advanced versions of this Herbal Liquid?"

Fang Yue was taken aback for a moment, then asked.

His Baicao Liquid has rarely released high-grade goods of the first and second levels recently.

On the one hand, he didn't have time to refine, and on the other hand, this ordinary herb liquid was already jealous. If he were to get out the first and second turns of herb liquid, he would immediately become Tang Seng's flesh, and he would be killed every day. The forces from all sides stared at him, and obtained the Dan Fang in his hand by all means!

"Our Wang family also has its own information channels. In order to get rid of the surveillance of the Galaxy Alliance, secretly, our Wang family has already secretly contacted the Galaxy Bank. We have

purchased a lot of Baicao Liquid from the Galaxy Bank at high prices. Including some ordinary herbs and some advanced herbs."

Wang Feng did not evade the slightest.

Without a force that can compete with the Galaxy Bank as their trump card, their royal family will never be able to surpass the control of the Galaxy Alliance.

The Galaxy Covenant has too much control over this galaxy, unless the entire royal family is moved out of the galaxy, otherwise, they will still not be able to escape the control of the Galaxy Covenant.

"That's it! But the price you spent to buy those high-grade herbal liquids should not be small! Even this price now even your Wang family feels a bit unbearable, otherwise you will not take the initiative to come to me, from me Bought Baicao Liquid directly in his hand!"

Fang Yue looked at Wang Feng with a smile.

Wang Feng nodded slightly: "That's true! We are using some advanced herbal liquids exchanged with information related to ancient civilizations, and the number is not very large, but this time I need a large amount of advanced herbal liquids to maintain my vitality, and strive to be able to Take advantage of this opportunity to rebirth from Nirvana and stand after breaking! And such a large amount of high-grade herbal liquid, one is extremely precious in the hands of the Galaxy Bank, and cannot be easily sold to us. Second, even if we really get these Baicaoye will also be severely slaughtered by the Galaxy Bank. It may cause our Wang family to be hurt. This is an asymmetric transaction. Our Wang family is destined to suffer. It is better to deal directly with you, at least it will be relatively fair!"

Fang Yue nodded. He understood the current situation and situation of the Wang Family. However, Fang Yue is not a charity organization. Understanding is due to understanding. This Baicao Liquid still needs to make the Wang Family pay some price!

"For example? What can your royal family give me this time in exchange for high-grade herbal liquid?"

Brothers, it is clear to settle the accounts, Fang Yue will hand over the Baicao Liquid to the Wang family only after the business is negotiated.

"Ordinary Herbal Liquid, I want a thousand drops. As for the price, we will exchange it with the annihilation bomb produced in the ancient ruins! When you deal with the demons, you should use technological civilization! It just so happens that this annihilation bomb, go It is also the route of scientific and technological civilization. The power of annihilation is unmatched by the current technological achievements of the Galaxy Star Alliance! If you get this annihilation bomb in your hands, the technology team behind you may be able to get the technology if you study it carefully. Ideas to get something similar!"

"A thousand drops of ordinary herbal liquid can be exchanged for an annihilation bomb!"

Although Wang Feng seemed to be seriously injured, he didn't have the slightest shortness of breath when talking about business!

"Deal!"

Fang Yue is not really interested in things like annihilation bombs, after all, his understanding of technological civilization is far less profound than Wang Feng imagined.

But if this thing is sent back to the earth and let Earth scientists study it, and there will be little results, then his business will be a big profit!

"As for the high-grade herbal liquid, there are two kinds, one is what you call the one-turn herbal liquid, which has ten times the life force of the ordinary herbal liquid, and it is purer and easier to be absorbed by the body! I Eighty-one drops, in case you need it! I used some of the biological materials from the ancient ruins to exchange for this batch of herbal liquid. There is a formula to artificially create orc warriors! These two different genes Mutual fusion will result in rejection, and by removing the gene sequence related to this rejection, a mature orc can be created!"

Wang Feng's exploration of ancient civilization is extremely profound, and he has personally personally studied and studied almost every relic product of ancient civilization.

This orc warrior's technology is creative, which is equivalent to artificially creating a new race, and through the deletion of its genetic sequence, it can even determine the strength of this orc warrior after birth!

"Deal!"

Fang Yue is more interested in this biological gene. The gene map of this orc is what he has been looking for.

Fang Yue suspected that several of the most prosperous biological civilizations in the universe of Ten Thousand Worlds were destroyed in his own hands.

They created monsters that they couldn't even control, and eventually led to the destruction of their civilization!

"On top of the one-turn Baicao Liquid, there is also a more advanced two-turn Baicao Liquid. The concentration of life essence in this two-turn Baicao Liquid is said to be ten times that of the One-turn Baicao Liquid! I don't have any of this two-turn Baicao Liquid. I have seen it, I just heard that it is in the Galaxy Bank, but my VIP level does not have the right to purchase! For the second rank Baicao Liquid, I am willing to exchange the body of an orc warrior sleeping in the ice as a price! After the sample, it may be more able to determine the direction of the research!"

Wang Feng is extremely decisive!

The price he offered was something ordinary people could not refuse.

The same is true for Fang Yue. For him, neither the first-rank Baicao Liquid nor the second-rank Baicao Liquid is very precious!

"Deal!"

Fang Yue did not bargain, because he wanted to give Wang Feng a better impression. He had a foreboding that the cooperation with the Wang family was just the beginning, and Fang Yue had to show his good faith to lay a solid foundation for future cooperation. .

"These are Baicao liquids, you can count them and see if there is anything wrong with the numbers!"

Fang Yue sent three delicate small porcelain bottles to Wang Feng.

Wang Feng pulled the cork off the bottle, and his spiritual thoughts penetrated.

"You gave me a little bit more of this ordinary Baicao liquid. What I wanted was 1,000 drops. Why did you give 1,200 drops!"

Wang Feng was a little surprised.

Fang Yue smiled and said: "The extra Baicao Liquid is my sincerity of cooperation! You are tired of the monitoring of the Galaxy Star Alliance, and I also don't like the Galaxy Star Alliance. In the future, we may really hope to become a side by side. My comrades, and for my comrades, I will be more generous!"

"The Wang family accepts your favor!"

Wang Feng did not reject Fang Yue's kindness, and sometimes accepting others' contributions is also an important step in building a good relationship!

"This Baicao liquid is complete. Next, I will take a life-and-death pill made by an ancient pill. This pill has no grade, and even has some evils. It can make people feel like living and not living. The state of death.

Only in this state can the curse in my body mistakenly think that I am dead, and then the curse flew out of my body and no longer entangled me! "

Wang Feng had already prepared. He took out a brocade box from the head of his bed, opened the brocade box, and one of the longan-sized pills came into sight.

The surface of this pill is as black as ink!

Wang Feng glanced at it and delivered the pill into his mouth.

Then a painful expression appeared on Wang Feng's face.

The wisps of death gradually diffused from his body surface.

The principle of this life-and-death pill turned out to be to collect death energy, then condense all the vitality in the body, and then the death energy invaded the body.

Only in this way can the dark curse be truly deceived. In order to get rid of the curse, this Wang Feng has already paid a great price.

Moreover, he is purely playing with fire. Once this lifelessness completely transforms his physical body into a corpse, even if he releases the vitality in his body again, he is still in a half-human and half-corpse state, unable to compare with the previous state. Compared!

Wang Feng's body surface was soon overwhelmed by the rich lifelessness.

A green shadow filled Wang Feng's body surface.

The green shadow was manifested by the curse of darkness, and the outline and details of the green shadow gradually became clear and turned out to be the appearance of the nine-tailed cat monster.

A pair of emerald eyes suddenly fell on Fang Yue's body.

Fang Yue snorted coldly, and the green shadow was suddenly startled and jumped out of Wang Feng's body.

Next to Wang Feng, a body full of vitality suddenly appeared, and this body contained Wang Feng's breath.

The green shadow wanted to return to Wang Feng's body while leaving Wang Feng, but he looked at Wang Feng hesitantly, and then at the vibrant body!

After a few breaths of hesitation, the green shadow finally decided to enter the vital body.

Since then, Wang Feng's life and death pill began to gradually lose its effect and the dead energy on the surface of the body was exhausted, and then Wang Feng swallowed Fang Yue's ordinary herb liquid.

The majestic vitality contained in these herbal liquids expelled all the dead energy on his body surface.

Some of the newly formed corpses receded!

Wang Feng's plan was successful, and he survived the disaster!

And the body containing the curse is spontaneously ignited without fire, burning the curse and the body into ashes in the flames of hunting, and nothing exists!

A light of relief flashed in Wang Feng's eyes.

This dark curse almost killed him just now!

"What is this body?"

Fang Yue looked at the body burning in the flames, and looked at Wang Feng hesitantly.

"My clone is just one. It was refined in the early years, and it was never used. I didn't expect this clone to save my life at a critical time! It was really unintentional, Liu Chengyin!"

Wang Feng explained vaguely.

But Fang Yue knew that this was definitely not a clone.

This body is similar to Wang Feng's deity's breath, but there are some slight differences!

The clone is exactly the same as the deity's aura, there will never be any difference.

Otherwise, it would be impossible for Fang Yue to be a clone of aura, fooling so many masters, and stupidly not knowing the distinction all day long!

Fang Yue didn't ask too much, because everyone has their own secrets.

Wang Feng has it, and he has it too. As long as this secret does not harm his interests, he will not be nosy!

## Chapter 1494: Time House

The curse was resolved, and the colorful divine butterfly flew away. Wang Feng finally revealed his body. The scars on that body were deeply visible, and the blood dried up.

Some of these scars were left by the demons, and some were left by the nine-tailed cat demon.

When the curse was there, these wounds could not be healed because of the curse. When the curse disappeared, Wang Feng applied a turn of Baicao liquid. I believe that it does not take too long for the rich vitality to restore these wounds. !

"I have already felt that the rich vitality contained in these herbal liquids is indeed well-deserved!"

Wang Feng handed over to Fang Yue, his face was delicate and beautiful, like a talented scholar who read poetry!

Fang Yue smiled and said: "Thank you! This time the crisis is resolved, I think we can also explore the cooperation between me and your Wang family in ancient civilization!"

This is what Fang Yue really expects.

These nobles in the Heavenly Capital City paid too much attention to the improvement of surface power and neglected to understand ancient civilizations and deeper things.

In Fang Yue's eyes, no matter how strong they are, they are also reckless. Only a family with profound background like the Wang family can be included in Fang Yue's eyes as their research partners!

"My Wang family's research results on ancient civilization belong to the painstaking efforts of countless ancestors of the Wang family. I can't share it at will, and I hope Master Fang Yue forgive me!"

Wang Feng clasped his fists and apologized sincerely.

Fang Yue smiled and said: "Don't worry, I am not the kind of insatiable, empty-glove white wolf person! I will not plunder the previous achievements of the royal family, but can trade, of course, we can also study the unearthed objects of the latest relic on Helen. !"

Fang Yue's words made Wang Feng let out a sigh of relief.

If Fang Yue really forced their Wang Family's previous research results, he would really be a little embarrassed to turn his face with Fang Yue, because Fang Yue had just saved his life.

He Wang Feng is not the kind of person who crosses the river and tears down the bridge and turns his face in denial!

"The ancient civilization has many different genre systems! I dare not say that I am proficient, but we have learned and understood every ancient civilization system that appeared on Helen Star! If there is nothing in the hands of Master Fang Yue You can send the things you live in, and my Wang family can help you identify them, and the news will never go out!"

Wang Feng said heartily.

"Well, what I am more interested in is this room. The time flow does not change with the outside world, and the spatial structure is relatively stable. I don't know if this room is unearthed from ancient civilization or is refined and researched by your royal family. of?"

Fang Yue looked around a room.

Wang Feng was taken aback for a moment, and then said: "I didn't expect Master Fang Yue to have such a savvy eye and to be so sensitive to the flow of time. If it were someone else, it would not be the moment he entered this time house. You may feel the change in the flow of time inside and outside! This time house was mined by the ancestors of my royal family in a relic of ancient civilization. There are nine time houses in total, all of the same size as this one, and the time flow is involved. The changes in the empire contain the profound ways of time and nature. My Wang family has no one who is proficient in the methods, so this house is the product of ancient relics. My Wang family has not the ability to imitate and manufacture!"

There was a sense of regret in Wang Feng's eyes. Of course he knew the value of this time house. If it could be mass-produced, then what would the Galaxy Star Alliance count?

Their king family can definitely create a large number of masters in a short time!

Sometimes there are empty houses, as long as there are enough exercises to theoretically mass produce masters.

Of course, the combat experience of these mass-produced masters is definitely not as good as those masters of the same realm who have gone through countless blood and blood, step by step, to their current position!

But the problem is that as long as the realm is high, everything is not a problem!

I am not your opponent in the rotation state, but my yin and yang state kills you in the rotation state, even if you have rich combat experience, it is no use!

After all, the world's masters are not all Fang Yue who can leapfrog the ranks casually like this.

Fang Yue was suddenly shocked. How many masters did the Wang Family master the House of Time and have been silent for so many years? They hid these master Xuexue and made the illusion of the decline of the Wang family!

And no one knows how deep this Wang family is.

They can contact the outside world. Since they can do business with Galaxy Bank, can they not hook up with other forces and communicate with others?

The more Fang Yue thought about it, the more frightened.

This Wang family is probably not as simple as it seems.

And the Wang family said that they couldn't make a time house, so can they really make it?

Thinking about it in another way, if Fang Yue is where Wang Feng is now, I am afraid he would not reveal all the real hole cards of the Wang family and expose it!

"I hope to become a strategic alliance with the Wang family. Of course, the relationship between this alliance is equal to each other! The Wang family is strong, and I will show my value! In the future, at least I can do it in a period of time. To advance and retreat together and share resources!"

Fang Yue said, he only said it after thinking about it for a long time.

This is not a whim, and today's era is no longer an era of fighting alone.

With his personal strength, it will be difficult to gain a foothold in this era of gradual chaos, and even his family and friends cannot be protected.

Wang Feng smiled and said: "Our Wang family has long wanted to cooperate with you. Since you have the intention of forming an alliance, I am naturally welcome as the head of the Wang family! However, this time the guarding battle of the Heavenly Capital King City, our Wang family is more than necessary. Some contributions, at least like you, can become heroes in the eyes of the galaxy people of the galaxy, so as to make the galaxy alliance not be able to turn face with my king on the surface!

These are all in need of your help! This will be the first cooperation between us, and I hope this will be a good start! "

"no problem!"

Fang Yue readily agreed, and Wang Feng and Fang Yue shook hands with a smile.

Perhaps at this moment even they did not expect that this is the first time that the two giants of the future Galaxy Star Alliance have truly stood together!

"Since the decision has been made to cooperate, it is better to hit the sun instead of choosing a day! We have selected a location as a sniper site for ambushing the demons!"

Wang Feng unfolded a map.

This Wang Feng was definitely prepared.

Perhaps, he expected this when he invited Fang Yue here.

On the map, colorful lines criss-cross!

On the top of the map, a detailed description of the layout of a very famous gorge outside the Tiandu King City—Split Sky Grand Canyon!

The mountains and rivers are ups and downs, and the hills are high and low.

"This map depicts the general picture of the Rift Sky Canyon. The Rift Sky Grand Canyon can be regarded as one of the most famous forbidden places on the Helen Star! The Rift Sky Grand Canyon, three thousand kilometers across, this grand canyon presents The cross shape divides the surrounding area into four areas of Earth, Fire and Fengshui! The closer you get to the center, the more dangerous the Rippling Grand Canyon! But there are all kinds of geniuses and treasures in the Rifting Grand Canyon. It's hard to get!"

"Recently, there has been an abnormality in the cracking sky Grand Canyon. Someone found hundreds of ancient relics in the cracking sky grand canyon! These ruins are not very large, but everything unearthed in it is invaluable! This cracking sky The Grand Canyon has been brought into the field of vision by the demons. They have recently prepared to send troops to conquer the Rifting Grand Canyon. The same people from the Galaxy Alliance are also preparing to let the oriole be behind and let the demons explore the way in front. Follow, enter the Grand Canyon, and get the relics and treasures in it!"

Wang Feng's eyes narrowed empty. No matter how much his royal family fell, his control of Helen Star was still unmatched by ordinary people!

Whether it is the Demon Race or the Galaxy Star Alliance, although the surface power is huge, there is still a certain difference from the old terrarium like the Wang family!

"Split Sky Grand Canyon?! Are you really sure that you want to set up in that place?"

Fang Yue looked at Wang Feng and confirmed his decision again and again.

"Yes, Rift Sky Canyon! This place has a complex terrain and involves the movement of the heavens. My Wang family has carefully laid out in this Rift Sky Canyon for hundreds of years! We can use the right time and place to win against the strong!"

Wang Feng was full of confidence.

Fang Yue was slightly silent.

After a while, Fang Yue said again: "This matter is probably not as simple as you think. During this period of time, I traveled in and out of the Heavenly Capital City. I have set foot in many places, especially this Rifting Canyon. I have been there. More than one trip! This Sky Splitting Canyon is also a place I focus on. There are countless dangers in the Sky Splitting Canyon. Some people have arranged a series of formations around the Sky Splitting Canyon, and even the saints enter it. Some people have used Feng Shui metaphysics around the Rift Sky Canyon to change heaven and earth and reverse the universe."

Wang Feng's brows raised slightly.

"You mean, someone has already taken the first step and started preparing to go around Rifting Canyon?"

Wang Feng, who was still full of confidence, had a hesitation in his heart at this moment.

He suddenly understood that since he can get the news, other people can also get the news!

The mantis catches the cicada, and the oriole is behind.

Some people want to be the hunters behind the oriole, maybe secretly giving them a fatal shot.

"If this is the case, wouldn't everything I prepared me carefully be in vain?"

Wang Feng said unwillingly. In order to prepare for this ambush, he has paid a lot of hard work!

"If you don't want all the people who want the Wang family to go to the Rift Sky Grand Canyon to be the stepping stones for others to climb the road to success, I hope you make this decision carefully!"

Fang Yue gave Wang Feng a deep look and said meaningfully.

The rise and fall of a family depends not only on the power and cards of the family, but also the character of the helm of the family.

It is the hero who can be resolutely willing!

And if this Wang Feng is indecisive, Fang Yue would not take this Wang family too seriously in his heart!

### **Chapter 1495: Fang Yue's wisdom**

"Fang Yue, I will send out my king's spies. If they really discover that there will be various other forces deployed in this Sky-Splitting Canyon, I will no longer participate in this fight for Sky-Splitting Canyon!"

Wang Feng made up his mind instantly.

Facts have proved that Wang Feng's ability to become the patriarch of the royal family is by no means pure force.

He is equally good in strategy and belief.

Fang Yue smiled and said, "It all depends on your Wang family's intentions between these choices!"

"However, if this opportunity to split the sky canyon is gone, how should my royal family behead the demons and become the great hero in this heavenly capital?"

Wang Feng gathered his brows again. If you want to get rid of the control of the Galaxy Star Alliance, this step must be taken!

Only by making the Wang Family famous in the Milky Way galaxy can the Galaxy Star Covenant have nothing to say when it is out of the control and surveillance of the Galaxy Star Covenant!

"If the king really wants to be famous in the galaxy, you can do it in multiple ways! This so-called hero is not the demon you killed. There are so many people who are heroes. Heroes need to have stories of heroes. All the people. They are all people who like to listen to stories! Whose stories are played well and told well, the people will have a good opinion of whom! The reason why my story can be spread is mainly because I am alone against the demon army. The horse is very tragic and majestic. Later, the nobles of the Kingdom of Heaven and the people of the Galaxy Star Alliance have perfected the ending of my story. Betrayal is also a major factor in my story!"

Fang Yue's words suddenly opened up a new idea in Wang Feng's mind.

Fang Yue's words hit the nail on the head.

Indeed, what their Wang family needs is not a memorable victory, but a story that can be passed on from word to mouth and talk about tirelessly after a meal.

"So, your royal family needs to find a suitable story point so that people can be interested and spread it! For example, defeating the strong with the weak, for example, revenge for the other nobles in the Heavenly Capital City!"

There was a narrow light in Fang Yue's eyes.

"Vengeance for the other rules?"

When Wang Feng heard Fang Yue's suggestion, he was slightly taken aback.

"what do you mean?"

"The human race of the Tiandu King City was defeated, and the lives were frustrated. At this time, the Wang family, as an old family that had been impoverished and weak for countless years, suddenly rose up. It would not hesitate to fight until one soldier and one soldier to protect the Tiandu King City! Or in times of despair, The king's magical soldier descends from the sky, and it is a comeback for the heavenly capital and the royal city!"

Fang Yue's words made Wang Feng's heart vaguely uneasy.

This Fang Yue is still playing with fire!

"If this Demon Race really enters the city, there will be no eggs under the nest? By then, the entire Heavenly Capital City will fall, and my royal family will not be the opponent of the Demon Race even if it takes out all its heritage!"

Wang Feng felt that Fang Yue was a lunatic.

And Fang Yue sneered and said: "Do you think that with the current situation, this Helen Star noble and the alliance of the Galaxy Star Alliance can withstand the invasion of this demon army?"

"No!"

Wang Feng bowed his head.

If possible, he is still thinking about leaving Helen star as a dog, away from the surveillance of the Galactic Alliance!

"But, if the capital city is broken this day, what about the residents of the city?"

Wang Feng is still kind, after all, this Wangcheng is the hometown of his Wang family!

"You said that when the Wang family was in decline, anyone helped your Wang family?"

Fang Yue asked back.

Wang Feng bowed his head and remained silent.

"Since all beings don't love you, why should you love all beings?"

Mo zu

As soon as Fang Yue said this, Wang Feng also decided to be cruel.

"Good Fang Yue, you help me make suggestions, I'll listen to you!"

Wang Feng looked at Fang Yue with firm conviction. As the head of the Wang family, the people he really wanted to protect were the disciples of the Wang family and the Wang family's foundation, not those who seemed to be related to the Wang family, but actually had nothing to do with them!

"Don't worry, this war will need to last a long time. It's easy for the demons to destroy the human alliance in the capital city, but they want to spend the smallest possible price to destroy the human alliance, but it takes water mill work!"

"Before again, how about you and I jointly make a fortune while also creating some trouble for the demons?"

Fang Yue's mouth curled up with a weird smile.

The Patriarch of the Wang Clan is indeed a bit bad to fool!

"Make a fortune?"

Wang Feng had some thoughts about not jumping with Shang Yue.

Just now I was still thinking about the extinction of the human race in the Heavenly Capital King City, but now I have to make another money!

"These days, the royal family's family is destined to perish anyway. Instead of letting them rob all the family property by the demons after they perish, it is better to search some. Your royal family wants to escape the control of the Galaxy Star Alliance. It will definitely be suppressed and squeezed out by various aspects of the Galaxy Star Alliance for a period of time. The Galaxy Star Alliance will not openly act on the Wang Family, but it is hard to say what kind of means are used behind the scenes! For example, I am also by the Galaxy Star Alliance. A member of the Alliance's suppression, the Galaxy Star Alliance did not show any oppression on me, but secretly I opened a small shop, the Galaxy Star Alliance ordered all the forces in the Kingdom of Heaven not to buy! If your royal family also encountered similar How can the economic blockade be dealt with with the current strength of the Wang family?"

Fang Yue followed in good faith.

Wang Feng felt that he was still a little too simple!

These things were things he had never thought of.

For ducks, Fang Yue's analysis makes sense!

What should they do if they encounter such a thing?

With the current wealth of the royal family, it may not be enough for the people of the Galaxy Star Alliance to toss!

"Therefore, accumulate food, build walls high, and slowly become king. It is still not possible to rush out of the monitoring of the Galaxy Star Alliance!"

Fang Yue's words made Wang Feng like a divine enlightenment, and his mind was instantly bright and clear.

In fact, this is a common problem in each family, and most of the family leaders are the ones with the highest cultivation level in the family!

But a high level of cultivation means that these people have spent their main energy on cultivation, and they often have deficiencies and deficiencies in terms of strategy!

Learning strategy is not just a matter of experience, but more importantly, talents and qualifications in this area!

"Gathering food, building walls, and slowly becoming king! Hahaha, you deserve to be someone who can contend with the Galaxy Star Alliance in the dark! What you said is right and classic! There were originally some clan elders in my royal family. There is still a trace of doubt in my heart about whether to join hands with you. Now, I will tell them what you said today, they should rest assured!"

Wang Feng laughed.

Fang Yue secretly squeezed a cold sweat!

Does this king's family still have an old man?

It seems that this Wang Feng is not the real power holder of this Wang family!

If his guess is correct, some or all of the powerful men in the Great Sacred Realm of the Wang Family who have been driving to the west of the legendary land should not die. They are hiding in the dark, turning from the front of the stage to behind the scenes. Only at the turn of life and death will he reappear on the stage of this planet of Helen.

Those old guys are more cunning than the other!

What he said today was foolish and pure-hearted Wang Feng may not be able to fool those cunning and ghostly old guys!

"Then Fang Yue, how will the cooperation you just mentioned proceed?"

Wang Feng has vaguely moved about Fang Yue's plan, but he is definitely not alone in deciding whether to cooperate and the depth of cooperation!

"I have two kinds of products, Baicaooye and Jinjiafu, which are difficult for others to prevent. They are cheap and cost-effective! Later, I will develop some other special products, which are guaranteed to be on the market. No! And it can have a certain impact on the immediate war!"

Fang Yue paused for a while, and then said: "If the Wang family wants to participate, I can help you sell some special products of the Wang family, such as some special weapons produced by the technology of ancient civilization! Or the Wang family can also open A small shop similar to mine, run its own products!"

"But your shop is being blocked by the Galaxy Star Alliance."

Wang Feng said hesitantly.

Fang Yue chuckled: "Blockade? The blockade of the Galaxy Star Alliance is actually just a joke! In the face of life and death, who would care about this blockade? In the face of real interests, who would still

consider the views of the Galaxy Star League? When the time comes, the Human Race has really defeated a few times, and this Galaxy Star Alliance will try its best to buy more golden armor charms from my hands!"

"It is not pure force that really makes the Galaxy Covenant the leader in the galaxy. There are indeed a lot of powers in the Saint Realm and the Great Sacred Realm in the Galaxy Covenant, but compared with the Galaxy Bank, there is no To achieve absolute crushing advantage, on the contrary, in recent years, Galaxy Bank has become more and more prosperous in its network talents. In terms of pure strength, there may be a gap between Galaxy Bank and Galaxy Alliance, but it has never reached it. It is irreparable! As for why the Galaxy Bank is always the second in the millennium, it is because the entire galaxy is more willing to recognize the strength and dominance of the Galaxy Alliance! And once the Galaxy Alliance is not as powerful as people think, then other forces There is a chance to rise, so the Galaxy Star Alliance must not appear too weak in front of the public. Even if a battle against the demons is destined to lose, they will not be so ugly to lose, at least in terms of battle damage. Give a relatively beautiful number!"

Fang Yue has thoroughly studied the situation of the Galaxy Star Alliance.

If there is a high-level presence in the Milky Way Star Alliance, they will definitely regret squeezing Fang Yue out of the Galaxy Star Alliance.

Because Fang Yue not only represents an extraordinary talent for cultivation, but more importantly, Fang Yue's wisdom, there is absolutely no one among the peers of the Galaxy Alliance can match it!

"Fang Yue, did you analyze these things yourself?"

Wang Feng widened his eyes, and asked dumbfounded.

He finally noticed the gap between those who really knew how to make a deal.

Fang Yue's analysis convinced Wang Feng!

#### **Chapter 1496: Chen Musheng's suspicion!**

"Fuck!"

"It's wonderful!"

At this time, a young man dressed in white walked into the time house.

His face is handsome, with red lips and white teeth, just like a flamboyant young man.

His appearance is too young to look good. But Fang Yue clearly felt a trace of aging on his body.

This is definitely an old monster who doesn't know how many years he has lived.

Fang Yue just glanced at it and judged it very firmly!

This age can't just look at the appearance, but also how many years of dirt he has on his body. This dirt is not visible to ordinary people, but Fang Yue can easily see the time dirt of this guy after practicing the law of time.

Looking at the dust of time, this buddy has lived for five to six thousand years at least!

If you follow upward, for five to six thousand years, this king's family should be a powerful person with a great holy realm!

Moreover, he is not a strong man in the Great Sacred Realm, even if he is a saint, it is estimated that he is old and dead!

"Junior Fang Yue, meet your lord!"

Fang Yun is polite, even though his heart is slanderous, but in front of the Great Sage, he still has to be polite and abiding by the rules, at least Fang Yue can't do the power of the Great Sacred Realm now!

If it wasn't for this reason, Fang Yue could also be a brother to this old thing!

"Ancestor, aren't you in retreat? Why did you come out!"

Wang Feng's eyes were shocked.

How long has he not seen this ancestor?

It seemed that the last time we met was three to five hundred years ago!

The young man looked at Wang Fengbai and said, "If I don't come out again, you guess you're going to pack up the entire Wang family and sell it to Fang Yue! Your calculations are not as good as Fang Yue's, are these years of paternal experience? It's all about the dog!"

The teenager is rude, laughing and cursing, completely casual.

This is the true demeanor of a strong man at the Great Sacred Realm level, and there are very few things that can restrain them after reaching their realm.

They are the existence at the top of the pyramid in this world!

Wang Feng smiled, then introduced to Fang Yue: "This is Wang Kai, the ancestor of my royal family!"

Fang Yue handed over: "I have seen the ancestors!"

Wang Kai snorted coldly: "Who is your ancestor, your ancestors are probably those \*\*\*\* from the Fang family who are immortal! Unexpectedly, their grandsons would stretch their hands to our Wang family, you \*\*\*\* Boy, get out of here before I get angry, go back and tell you those old \*\*\*\* in Fang's family, who they like to calculate, and who they calculate, but don't put their ideas on our Wang family!"

Wang Kai let out a low growl.

Fang Yue touched his nose, and it seemed that his ancestor, who had never met, had indeed traveled a lot of places, and everyone knew his reputation.

However, the reputation of the Wang family does not seem to be very good, and the above is just a curse!

Fang Yue said: "Senior, this time it was really not our ancestor of the Fang family who asked me to come. In fact, I have never seen the ancestor of the Fang family in your mouth. I sincerely hope that the Wang family can Cooperate, otherwise, with the current situation, there is really little hope that the Wang family can escape the control of the Galaxy Alliance!"

Wang Kai snorted: "We don't have to worry about your Fang family's affairs with your Fang family. Wang Feng, see off the guests. In the future, you will have less contact with the Fang family. They don't have a good thing! The entire Ten Thousand Worlds Universe has become their chessboard even worse than the people of the Galaxy Alliance!"

Wang Kai kept pushing Fang Yue out!

Wang Feng also smiled bitterly: "Brother Fang, I'm really sorry for what happened today, but our ancestors of the Wang family have such a temper!"

Fang Yue looked at Wang Kai earnestly: "Senior, I once again declare that I am here really for the sake of the Wang family, and I have not yet recognized my ancestors and returned to the Fang family, so the Wang family's grievances Don't put it on me! How about this, give me one hundred disciples of the most common rotation level of the Wang family, I will let the Wang family perform a play first, and let the Wang family's reputation in the Helen Star and the Galaxy Alliance How about one magpie?"

Fang Yue's eyes are extremely serious and persistent. If the ancestors of other families dared to talk to Fang Yue, Fang Yue would have been your love Na, go!

But this Wang family is really different!

They have a huge amount of ancient civilizations in their hands, these are exactly what Fang Yue lacks right now!

"roll!"

Wang Kai only gave a one-word reply.

Wang Feng felt that his ancestors were indeed too much!

So he discouraged him and said, "Old ancestors don't do this. The Fang Yue brothers have talked with me for a long time and they have indeed given me a lot of enlightening suggestions! I believe that Fang Yue brothers really want to help our Wang family. Really separated from the monitoring of the Galaxy Covenant, it is very likely that a massive supply of resources will be needed to maintain the operation of the entire family! If you don't make a fortune this time, just relying on the previous savings may not use the Galaxy Covenant at all. If we attack our family, our family has already starved to death!"

Wang Feng's words eased Wang Kai's disgusting look a little bit.

"Since you believe in Fang Yue's words, as the patriarch of the royal family, I respect your suggestion. We are all old and can only support you juniors occasionally. In fact, the king's family is still you juniors. of!"

Wang Kai's attitude towards Wang Feng was surprisingly good.

This even led Fang Yue to maliciously figure out whether Wang Feng was Wang Kai's illegitimate child!

Of course, these were Fang Yue's own defamation, and he would never say it.

"A hundred disciples of the Wang family in the rotation realm, let us see that your Fang Yue plan is feasible!"

Wang Kai looked at Fang Yue, his eyes still full of mistrust.

Fang Yue smiled bitterly in his heart, what did the ancestors of the Fang family do to this Wang Kai, that made the ancestors of the Wang family hate it until now!

"no problem!"

Fang Yue agreed.

And Wang Kai said to Wang Feng earnestly and earnestly: "Feng'er, don't forget that people in this world have sinister hearts, and often those who treat you on the surface don't know how much darkness and darkness are hidden in their hearts. Dirty!"

Yes, this treats me as a negative textbook.

It is estimated that this Wang Kai wants to use a hundred of Wang's disciples to buy lessons, so that Wang Kai will no longer trust others easily!

Fang Yue's heart was extremely speechless.

What is the situation!

His work in the blink of an eye has become a negative teaching material for others.

And you can say such bad things secretly, it is at least a respect for me, and it will not prevent me from getting off the stage!

Wang Feng smiled bitterly, this probation period has begun!

"Fang Yue, one hundred disciples of the Rotating Realm of my Wang family, we will all be sent to the First Palace in the future!"

After Wang Feng finished speaking, Fang Yue didn't even bother to greet him.

Because the ghost knows that if he stays in this Wang family, will Wang Kai say more disgusting things!

Fang Yue bid farewell and soon left the Wang family.

Then he returned to the first palace, quietly waiting for the one hundred disciples of the rotation realm of the Wang family to send him.

As a result, the Wang family's efficiency is indeed very high. It's just that after an hour's time, all the hundred disciples of the Wang family have come. Among the people who came, not only the one hundred disciples of the Wang family, but also Wang Feng himself and That Wang Kai with a \*\*\*\* face!

"Wang Feng, why did you come in person?"

When Fang Yue saw Wang Feng personally send the people, he hurriedly went out to greet him. No matter how big the opinions of Wang Kai were towards him in Wang's house, at least Wang Kai was kind to him!

Wang Feng said with some embarrassment, "My ancestor Wang Kai asked me to come!"

Then, Wang Kai took the conversation and said: "I let him see with his own eyes how these people died, so that he can experience lessons!"

Wang Kai is still such a poisonous snake.

Fang Yue's face was also dark.

"Wang Kai, please pay attention to your words. This is my place and not your royal family! Don't think you are a strong man in the Great Sacred Realm. I am afraid of you! The formations in this first palace are all activated, and they can definitely destroy you. It dropped ten times!"

Of course Fang Yue was alarmist, because he had not yet mastered all the formations in the First Palace.

But these formations are crisscrossed, at least it can ensure that Fang Yue and the strong of the Great Sacred Realm will have the power to fight!

Wang Kai looked around, and then he saw Fang Han in the yard, he also stood there with an old face cold.

Wang Kai shut up immediately.

He is also afraid of death!

He saw that Fang Han had the feeling of an abyss. Although it was also a cultivation level at the Saint Realm level, this Fang Han definitely had a cultivation level comparable to that of an ordinary Great Saint Realm.

Then Fang Yue's cheap old man Gu Yuan also strolled out.

Gu Yuan smiled.

But in Wang Kai's eyes, this buddy is typically a smiling tiger.

In the first palace, Wang Kai felt that his heart was choppy. The number of masters gathered in the first palace was a bit too much, to the point where he was unexpected!

Both Fang Han and Gu Yuan are at least the clones of the peak powers of the Great Sacred Realm. Even if they are only clones, they are not weak. Perhaps the two will join forces to keep him in this first palace!

People under the eaves have to bow their heads.

Wang Kai showed an expression even worse than crying.

"Fang Yue, I hope you can fulfill your promise!"

Fang Yue patted his chest and said, "Senior, don't worry, no problem!"

After Fang Yue finished speaking, he dragged Wang Feng out and went to a room.

When he arrived in the room, Fang Yue spread out the map around the capital city of the day. This map belonged to Fang Yue. A good map was originally painted by Fang Yue!

"What is this!"

Wang Feng was stunned. Fang Yue marked different patterns on the map, including bone forks, skulls, and a few patterns of rabbits and tigers.

This is not like a battle map, but rather like a still graffiti.

Wang Kai, who had not been invited by Fang Yue, floated beside them uninvitedly like a ghost.

He was also curious as to how Fang Yue wanted to use one hundred ordinary disciples of the Wang family to make the Wang family famous!

### **Chapter 1497: The conspiracy of the demons**

Fang Yuebai gave Wang Kai a glance, and then did not show any surprised expression.

This Wang Kai can't hold it back.

Fang Yue had already guessed that he would come!

Fang Yue introduced the Peugeot on this map one by one.

"These are the patterns I painted with my own hands. These patterned skeletons represent taboo places that neither of you nor I can set foot in. The dangers in it can at least ruin the strong of the Great Sacred Realm. The tiger represents a relatively dangerous place. After ordinary saints enter, There must be death or no life. The rabbit represents the seemingly dangerous place, but in fact it is not so dangerous. At least the strong people above the leader level can generally survive! Practice will give you real knowledge. In fact, during this time, I too It's not very leisurely, I always wander around the capital city on this day, and I personally drew this map!?"

Fang Yue's words impressed Wang Feng.

At the level of Fang Yue, there are countless people under his hands, and they can completely let the people below do these unpleasant and dangerous tasks.

Fang Yue said: "In fact, the easiest way for the Wang Family to establish a reputation in this Milky Way galaxy is to win a big victory in the Rift Sky Canyon!"

As soon as Fang Yue's words were spoken, Wang Feng would show a strange expression.

"Didn't you tell me before, telling me not to participate in the affairs of Rift Sky Canyon?"

Fang Yue patted his forehead.

"You have to understand me well! If you get the treasures or ancient ruins in it, I certainly don't mind if you go to the Rift Sky Canyon, but if you want to establish a reputation for the Wang family, you can hunt in the outskirts of the Rift Sky Canyon. Kill the demons, and then it is known to the world! Now both the various forces in the King City of Heaven or the strong men of the Galaxy Star Alliance are setting their sights on the top of the Sky-Splitting Canyon! This place of great interest is the easiest to become famous Li Wan's! Otherwise, if you find it in Xiao Hutong, even if you kill 10,000 demons alone, it's useless! Others' goal is ancient ruins, and your goal is this demons' army. With different goals, there will be no competition between you!"

Fang Yue analyzed it.

Wang Feng still looked like he didn't understand.

Fang Yue sighed secretly in his heart, is there really no one in this Wang family?

How come such a person who doesn't know how to use strategy came to be the head of the Wang family!

"Forget it, I won't explain it to you! The next activities will be directed by me! But this ugly thing must be said first, if my plan is really successful, the pills and equipment I paid Your royal family must not fall back on the bill!"

"No problem, wrap it on me!"

Fang Yue, who was overwhelmed by Wang Feng said.

The Mozu stationing point outside the Tiandu King City.

Recently a genius general finally arrived!

Goba!

This is an extremely famous young genius among the demons. He reached the peak of Yin-Yang realm at the age of only 30. This Goba's true talent is not only in cultivation. He is 30 years old. At his age, he became one of the top 100 handsome talents among the demons in the entire galaxy!

This demons is based on war, and the generals that emerge from each generation are like crucian carp who cross the river, there are countless!

Being able to rank in the top 100 among the demons of the galaxy is enough to prove Goba's talent!

Goba is a high-level demon. His body is said to be flowing with the blood of the noble demon royal family. If you look at it from the outside, you can hardly see any difference between Goba and the human race. It's just that his pupils are deep. There was a trace of dark tyranny everywhere.

Goba came to the eighth camp of the demons.

His youthful appearance is easy to be despised.

From the appearance alone, Goba can't help but feel weak compared to other demons or their scaly or muscular, rock-like appearance, Goba is a little chicken!

But when Goba came to the eighth camp, no one dared to look at him.

Because of the rumors, Goba hates people looking at him most.

In the world of genius and handsome, he is the most shining star in the world.

A lowly soldier has no qualifications to treat him equally.

"This time I came to Camp No. 8 to take over all of your generals and soldiers! I believe that you have also received the appointment letter from the high-level demon clan. Okay, let's not talk more nonsense. Your performance is quite dissatisfied. It took so long for my brave demons to conquer this small heavenly capital city! And the battle damage between the great demons and the humble human race has reached The figure is 1:1.3, do you generals eat shit!"

When Goba spoke, Cyclonus expletive!

He pointed to the old-brand demon generals and furious.

The generals of these demons are all powerful at the Saint level, but in front of Goba, they don't even have the courage to raise their heads!

Because what Goba now represents is not himself, but the royal family of the demons!

Among the demons, absolute obedience to their superiors is their creed, and no one dares to break it!

"Master Goba, it's not that our generals command improperly, but the strange methods in this human race are endless!"

Finally a desperate general of the Demon Race stood up. He only had the cultivation base of the Yin and Yang Realm, and he was a middle-level soldier of the Demon Race.

He didn't know so deeply about the majesty of the Mozu royal family!

In the past few days, they have tried their best. Both the soldiers at the bottom and the generals at the top have gone all out. They have used their courage and lives to pile up the results of the battle!

They tried their best to attack the Heavenly Capital City, but they didn't expect to have such an evaluation in the end.

This evaluation is unfair to him, and it is also extremely unfair to the dead Demon heroes!

"who are you?"

Goba glanced at the man, and he frowned slightly with a look of disgust.

"Subordinate No. 8 Camp, Captain of the 12th Squad, Dark Cloud!"

The man knelt on one knee and responded with his head down.

"Drag it down and die!"

Goba looked cold and immediately issued an order.

No one dared to refute the military orders.

"I'm not convinced!"

Dark Cloud said.

"In the military camp, the commander's command is heaven! You will die if you obey or refuse to obey it! Who taught you to run into the officer? Speak out, drag out a stick and die!"

Goba's voice was cold, without the slightest pity!

Soon, the two guards of Goba at the Yin-Yang level entered the camp. They dragged the dark cloud out and beat them to death.

Dark clouds cursing and screaming can also be heard in the camp.

It wasn't until half an hour later that Dark Yun died.

When he died, all the bones on his body had been broken by life, and there was no whole body!

The whole camp was silent.

Goba snorted coldly: "Are there anyone dissatisfied with me?"

There was silence in the camp, and all the generals, including the powerhouses in the Saint Realm, didn't even have a breather!

"Since there is no! I will be in charge of the eighth camp from now on! Come here! Replace the armor I brought!"

"In the afternoon, I set off to march and station in the Rift Sky Grand Canyon. This time, the meaning of the Mozu imperial family is quite clear. If the Rift Sky Grand Canyon can be captured within ten days, or the Tiandu King City cannot be captured within half a month. , This time all the Demon Race soldiers don't have to go back!"

Goba's voice fell.

Beads of sweat ooze from the foreheads of all the demon generals.

This is the ultimatum given to them by the Mozu royal family!

The demons have no shortage of population, only big wins.

If they could not capture the Rift Sky Grand Canyon and the Heavenly Capital City within the time limit, they would have no need to survive!

In the afternoon of the same day, the demons were stationed on the outskirts of the wind area in the Rift Sky Grand Canyon.

In order to clear the traps outside the wind zone, the demon army suffered thousands of casualties.

However, Goba remained indifferent to these losses.

Where are the undead who come out to fight!

As long as these people are worthy of death, then his military order is correct!

The human aspect also had its own actions at the same time.

"The Demon Race can't bear the temperament and take the first step!"

In the mansion of the lord of the Tiandu King City, Li Ruoyun, the lord of the Li family, approached Wu Siyu with a smile on his face.

Who could have imagined that the actual highest commander sent by the Galaxy Star Alliance this time turned out to be a girl. The key is that the girl looks beautiful, but the realm of cultivation is only at the peak of the Yin and Yang realm, and her age is only Twenty-five!

Wu Siyu was dressed in a palace costume, and she was studying the chess record on the wicker chair.

Wu Siyu frowned slightly at Li Ruoyun's interruption.

She put down the chess record in her hand and said: "I said it before, don't move! This kind of thing, don't bother me in the future!"

Wu Siyu said impatiently.

"Yes, my lord!"

Li Ruoyun smiled and withdrew.

Back at Li's house, Li Ruoyun's face showed a contemptuous expression.

"Father, how is it?"

Li Qiuge, Li Ruoyun's second son, came over.

"Not so good! This new baby girl from the Galaxy Star League is probably a baby girl, she can't count on it at all. She will not move, she will not move! She will only keep a single sentence. If this relic has been captured by the demons, then we these days What else can the families in the capital city have to catch!"

"The praying mantis catches the cicada. The oriole is behind. This mantis has already taken action. As the oriole, we should also go! It is said that although the demons have paid the price of some soldiers and casualties in sweeping the periphery of the wind zone, they also got it. Some treasures from ancient ruins!"

Li Ruoyun said: "Give me the order to dispatch a transportation brigade of 3,000 people to kill the Demon Race! The benefits that the Demon Race has worked so hard to get, in the end, it will be cheaper for our Li family in the end!"

Li Ruoyun gave an order.

Li Qiuge smiled suddenly.

It's finally opening!

This day, the capital city will definitely not be able to keep it!

But before leaving the Heavenly Capital City, their Li family had to reap enough benefits before leaving as a whole.

With resources and masters, no matter where they go to survive, their Li family can quickly take root and rise!

Ancient ruins, here I am!

Li Qiuge ordered his soldiers and horses and set off!

### **Chapter 1498: Goba's strength**

Anqiu Canyon is a dangerous place outside the Rifting Grand Canyon.

The rocks here are rugged, and there are thousands of cliffs standing on both sides!

The aisles in the canyon are quite narrow, allowing only a team of cars to pass by.

Li Qiuge chose this place as the place to ambush the demons.

For this ambush mission, Li Qiuge has 100% confidence.

In terms of their pure combat strength, they may not be as good as the Demon Race, but in terms of their familiarity with the combat environment around the Heavenly Capital King City, the Demon Race is hard to beat compared to their Li Family!

There are countless tall stones on both sides of the Anqiu Canyon. These stones are the best shelters that can hide the figure of their Li family soldiers!

Three thousand soldiers of the Li family scattered into the Anqiu Grand Canyon, and disappeared in a blink of an eye. They each converged their auras, and even the powerhouses of the leader realm could hardly find them with their spiritual detection!

This time the Demon Race's Yunshun team had only 300 people, and most of them were cultivated at the level of the Heaven and Earth Realm. Among the billions of Demon Race's army, the Heaven and Earth Realm was still the main force. Only a few bosses have reached the level of the cycle, but none of them have reached the level of five or more levels.

On the other hand, on the Li family's side, there are definitely strong soldiers and strong horses.

There are a total of 3,000 people, and first of all they have an absolute advantage in number! In terms of quality, the lowest level of cultivation among the 3,000 members of the Li family is at the peak of the heaven and earth realm, and about 30% of them have reached the level of the rotation realm.

The three team captains headed by them are all masters of the Yin and Yang realm.

Li Qiuge himself is also a powerhouse of Yin and Yang level!

Three thousand horses, four powerful men in the Yin-Yang realm, their strength here, both in terms of numbers and personal combat power, are far behind the eight streets of the demons.

If this ambush fails, Li Qiuge will commit suicide by swallowing dung!

Li Qiuge waited patiently.

Finally, he heard the sound of reeling horses and carts from a distance!

"coming!"

Li Qiuge's heartstrings were slightly tight, and emotions of excitement and excitement were mixed in his heart.

Ambush the three hundred people of the Demon Race and \*\*\*\* several unearthed items from the Demon Race's ancient relics.

This will be the first time their Li family has shown their prominence in this war!

The demons marched slowly, with three hundred people and five carts and horses. It was exactly the same as the news in their hands!

The demon's carts and horses traveled to the center of the canyon.

Li Qiuge growled: "Do it!"

Three thousand Li family soldiers appeared in front of the Mozu.

Countless arrows shot toward the demons under the canyon like raindrops.

Different spells are attached to the arrows.

The arrows with flame, frost, lightning, poisonous, and other attributes are colorful!

However, the panic look of the imagined demons did not appear!

On the contrary, those demons seemed to have been prepared!

All the demons crushed a small stone in their hands.

A layer of black light film enveloped them all.

The arrow was resisted!

Li Qiuge's heart suddenly burst.

Could it be that this demons had long expected that we would attack or kill?

If so, then they are in danger!

"Be careful!"

Li Qiuge shouted immediately.

Unfortunately, it was too late.

Those demons actually took out a bottle of green potion.

The potion was thrown out, the bottle shattered, and green smoke filled the canyon in an instant.

The black mask prevents the intrusion of green smoke, except that all other places are occupied by green smoke.

The smoke is very toxic and you will die if you touch it!

Moreover, the green smoke diffused extremely fast, and it took only a moment of effort to occupy the entire canyon.

The three thousand men and horses of the Li family are all within the range of green smoke.

They were corroded by the green smoke, and all of them became pus in an instant!

Three thousand people from the Li family, including Li Ruoyun's second son Li Qiuge, all died.

They can't steal a handful of rice.

Originally wanted to rob the demons, but didn't expect to become the name on the demon's merit book!

News of this battle spread quickly.

Demon Goba won the first battle. Without showing up, he dispatched three hundred Demon soldiers, disguised as rhymingists, and killed three thousand elites of the human race, unscathed and wiped out the enemy.

Goba's fame instantly started.

This is a rare complete victory for the Mozu to enter this battlefield.

In the barracks of the demons, the cold-blooded, violent, and veiled voices of Goba disappeared instantly.

The demons are innocent, as long as you are powerful, I will recognize your status.

There is no such intrigue and jealousy in the human race.

Terran defeated, even though it only lost 3,000 troops.

But since the start of the war, they have never lost so badly!

Heavenly Capital City, in the city lord's mansion.

The young girl Wu Siyu finally put down the scroll in her hand. She stretched her waist, her lazy figure fascinating.

"Finally, the Li family can't help but do it? What a pity! I originally thought that Li Ruoyun from the Li family was a person, but I didn't expect it to be a reckless thing too!"

Wu Siyu was not shocked by this news!

After the arrival of Goba, the Demon Race is no longer the original Demon Race!

They have gone from being dumbfounded to being green, and instantly transformed into two-headed belly.

Wu Siyu also felt right about Goba's ambush.

Without this calculation, Goba would not be a Goba!

"Come here! Bring up Goba's poisonous mist that wiped out the three thousand elites of the Li Family!"

Wu Siyu's voice was crisp, but there was an unquestionable majesty.

Although she is a female player, it is her turn to be vicious, but she may not be as good as Goba!

She knew the news that Li Qiuge went out of town to kill.

Goba will deploy anti-killing methods in the canyon, and Wu Siyu also knows it!

But Wu Siyu never thought of stopping the Li family.

Because there is nothing to stop at all!

What is the relationship between the Li family and her, and what is the relationship with the Galaxy Alliance?

It's just an unfamiliar wolf cub, it is better to let them step on the thunder of the demon race and see what kind of methods this Goba has!

In the first palace, Fang Yue also planted flowers and grass in the palace.

"The Li family was defeated, and three thousand men and horses were killed by the three hundred men and horses of the Demon Race! The soldiers of the Demon Race were not injured at all! The matter of the Sky Splitting Grand Canyon really can't be involved in random!"

When Wang Feng came, the rejoiced counterpart Yue said.

Fortunately, Fang Yue's dissuasion was made before, otherwise, those who died would not belong to the Li family, but their Wang family!

Fang Yue nodded slightly, and his news in the Demon Race was also well-informed.

Fang Yue had heard of the demon change in command.

After all, Goba was a stand-off.

This kind of thing can't be hidden, can't be held back, and it's easy to be found out!

"If you have time, start to prepare! Revenge for the Li family! Suppress the demons atrocities!"

Fang Yue stood up suddenly.

He didn't even bother to explain to Wang Feng.

IQ is no longer on the same channel, and it's a bit hard to talk!

"At this time, do you have an operation on the demons?"

Wang Feng looked shocked.

"The demon's new victory! At this moment, the edge is strong, our men and horses are rushing, I am afraid they will hit the rocks with pebbles!"

Wang Feng looked worried.

This Fang Yue's decision is a bit too crazy!

"Internal fighting exists in every force! Human race has it, and the same is true for the Demon race. The appearance of Goba has severely damaged the internal military control structure of the Demon race. If Goba hadn't won so beautifully this time, Maybe it won't happen, but Goba's big victory was a blow to the veteran generals of the demon clan. If this is the case, it will inevitably cause the old generals of the demon clan to counterattack, look! Goba will estimate next There won't be any new moves, on the contrary, the old generals who are not good at war skills will come out and jump!"

Fang Yue's eyes narrowed slightly.

I have already estimated the next move of the Mozu!

Wang Feng was taken aback for a moment, unexpectedly there were so many doorways in it!

"Then even in the face of the old demon generals, we have to be careful! They must be sure of winning before they make the move!"

There was a hesitant look on Wang Feng's face.

And Fang Yue smiled and said: "Do you think the Li family is not sure of winning before the shot this time? The battlefield is changing rapidly, and the so-called winning is non-existent!"

Fang Yue's words made Wang Feng's heart tremble slightly.

People are not as good as heaven.

Fang Yue's words just verified this point.

"What's more, the old demon warlords can count Goba, is Goba ready to sit still? No, from the appearance of Goba, I can feel that he is a very proud man! When the warlord takes action, in order to maintain his pride, he will definitely help us secretly, and then defeat the old warlord. Only the defeat of the old warlord can show the strength of his Goba!"

Fang Yue analyzed. The more it gave Wang Feng a feeling of finding the truth.

"This time we avenge the Li family and defeat the veteran demons. It is tantamount to conspiring with Goba. What we want is a big victory, to be famous within the Milky Way galaxy! What Goba wants is the veteran warlord. The defeat is for him to gain a firm foothold among the 100 million demon army! In fact, what everyone asks is not for the ethnic group behind it, but on the contrary, everyone is fighting for the ethnic group!"

Fang Yue showed a mocking smile.

This world is really a weird world!

"Let's get started! Send out the one hundred disciples in the rotation realm of your royal family, and this drama is about to be staged!"

At this moment, in the camp of the demons.

Goba was drinking tea and reading in the camp.

His face did not have the slightest color of arrogance in the camp before, instead, his face was full of piousness.

Opposite Goba.

Anfang was fiddling with the rosary in his hand.

On the rosary, there are reliefs of the devil gods, which are extremely delicate!

"Goba, you have to think clearly about this time. If you make continuous shots and win big wins, your position in this barracks will become more and more stable. If you let those old guys take shots and win one or two games. Victory, the advantage of the big victory you just won will be gone!"

An Fang bowed his head and reminded Goba.

This Goba is a disciple of Anfang, but he is quite liked by Anfang!

#### **Chapter 1499: Silent collusion**

"If they can really beat the Human Race, they won't have to take the Heavenly Capital King City after so long!"

Goba sipped his tea and said.

There was a leisurely expression on Goba's face.

He was not at all nervous or uneasy.

Everything was in his expectations, and everything was developing in the direction he wanted.

"Is there a very powerful person on the human side?" Anfang looked at Goba with a faint smile.

"In terms of pure record, in fact, Human Race does not have particularly powerful people, but if you look closely, Fang Yue should be regarded as my opponent! Unfortunately, he is not a member of the Galaxy Star Alliance, nor is he a member of the Kingdom of Heaven. So, he and I could have a close conspiracy before and let those old guys stumble!"

A narrow smile appeared on Goba's face.

He has never focused on the overall situation.

All he wants is victory and his position in the demons. As for the life and death of his subordinates, what does it have to do with him!

As long as those heavenly capitals can take down the Rifting Grand Canyon and get all the relics of ancient civilizations nearby, he Goba will be a worthwhile trip this time.

What he wants is the result, and the process is somewhat irrelevant!

Goba's attitude made Anfang hesitate slightly.

"This Fang Yue, I have seen him before. His methods are unfathomable. I am worried that if you cooperate with him, you will eventually become a tiger seeking skin!"

Anfang reminded his disciple-grandson that this disciple-grandson has gone too smoothly since his debut.

Because it goes well, it is easy to swell. Once he swells completely, he may be stunned and can't see his strength clearly!

Goba shook his head slightly: "Don't worry, Master, I am sure of this. In fact, it will not benefit Fang Yue to win a big victory. This will only make him even more hated by the people of the Galaxy Alliance! Galaxy Alliance and Fang Yue He has come to a complete opposite. Unless it is a high-level substitution of the Galactic Alliance, there is no possibility of reconciliation between the two parties! Therefore, even if he wins, he can only hand over the fruit of the victory to someone else. It was the same as last time. It was obviously the X bomb that Fang Yue planted himself, but in the end the detonation button was handed over to Alice!"

Goba still knows quite a bit about the record of the previous demons.

He is not the kind of person who is truly arrogant and proud.

Those are all aspects of himself that Goba deliberately let others see.

The purpose is to let people reduce their guard against him.

"Since you made the decision, then I absolutely support it! But Master still has to remind you, be careful of Fang Yue!"

"Goba got it!"

Goba nodded and said nothing.

The two sat opposite each other, silent.

"This time, my demons must win! And it's a rare big victory!"

Banu, the leader of the third camp among the other camps of the demons, shouted!

The voice of Ba Nu almost lifted the entire tent!

There was a crazy and fiery obsession with victory in his eyebrows!

"Master Baru, this time we have set up a net of heaven and earth, and we are waiting for the human race to enter the urn! As long as we win a big victory, we can crush Goba's limelight!"

The speaker was Andrews, the confidant of Banu.

Andrews is a strong demon. Although he looks muscular and simple-minded, anyone who really knows him knows that Andrews is not a small person!

In the battle between human race and demons, dozens of battles were won by him.

He was a general who crawled out of the dead, and was refined step by step from the bottom of the demons!

There is almost no precedent for failure in the battles he commanded. The only difference is that the level of battle damage is different after each battle!

A fanatical light appeared in Andrews' eyes!

This time, it will be his chance for Andrews to become famous!

All parties are ready!

The king's revenge army has left the city.

There are a hundred men and horses, and everyone carries a banner of revenge in their hands.

Even the Li family did not respectfully send them out of the city, which is already a bit too shameful!

The three thousand men and horses of their Li family have all been wiped out. Is your Wang family's brain convulsed?

Only one hundred people were sent to avenge my Li family!

And you all want to drop a banner.

I'm afraid that others won't see your Li family, right?

Li Ruoyun feels a little wobbly in his mind!

Since this king's family fell a few years ago, he has really withdrawn from the ranks of the first-class family in the heavenly capital city, he has not spent much energy paying attention!

But I didn't expect the decline of the royal family turned out so fast, and now even a fool can become the patriarch of the royal family!

The disciples of the Wang family at the 100th rotation level dared to provoke the authority of the demons.

Is this an army of death?

The Wang family's march has attracted much attention.

Of course, there are many people watching the jokes, and there are few people who really think that the Wang family can win!

"What a shame! What a shame! Wang Feng, have you really decided to follow Fang Yue's plan and let the hundred of Wang's disciples go to death?"

Wang Kai covered his face, he knew that Fang Yue was not very reliable, but he did not expect that Fang Yue's unreliability could reach this level!

Wang Feng hesitated too!

Can these Wang family disciples really create miracles on the battlefield for their Wang family?

Is the number of people a bit less!

And what is Fang Yue's real plan?

Wang Feng is still confused so far!

In the Rift Sky Grand Canyon, can Fang Yue's plan really succeed?

The news spread quickly to the demons as if they had grown wings.

Andrews of the Demon Race laughed loudly when he heard the news, his face was almost full of creases!

"Is this human race desperate? It sent a hundred men to test the bottom line of my demons. I will command three thousand men and horses this time to create another miracle of the demons!"

"All the people obeyed my orders and stationed at the outskirts of the wind area of the Rift Sky Grand Canyon!"

Andrews ordered.

The three thousand people under his team responded!

The three thousand demons are mighty, and the volume is moving with dust!

It is still the periphery of the wind zone, and it is still the army of the demons.

But this time the result will be different!

"Arrived!"

Fang Yue also stationed in the periphery of the wind area.

That's right, Fang Yue personally led the army of the Wang family.

It's just that Fang Yue didn't reveal his identity, but was wearing a set of silver armor.

He didn't reveal the slightest from head to toe, unless someone who was very close to Fang Yue saw it with his own eyes and sensed it with his divine mind, he would definitely not be able to discover Fang Yue's true identity!

Fang Yue's men and horses were stationed at a distance of 20 kilometers outside the wind area.

The ghost wants to go shopping with you!

I am number one hundred, and you number three thousand!

Really fight, I am definitely not your opponent!

Fang Yue is really very clear about the strength of the 100th man under his team!

Fang Yue said he wanted the one hundred most mediocre disciple of the Rotational Realm of the Wang Family, but Wang Feng really selected him a hundred disciples of the 100 most mediocre Wang Family.

They don't have much combat experience, almost all of them are piled up with resources!

Even if the Wang family sacrificed them, they would not feel distressed.

Fang Yue also secretly said in his heart. Fortunately, he hadn't made the idea to reach the combat power of the rotation realm disciple of the No. 100 King Family.

"Why doesn't Fang Yue move on?"

Wang Kai, who was watching secretly, frowned slightly.

He didn't even understand Fang Yue's plan.

Fang Yue said some general outlines, but he didn't mention the details!

"According to my message, this place should be a place where ancient ruins are buried! Quickly dig it for me! I want to see traces of ancient ruins!"

Fang Yue stamped his foot.

The tone is quite firm.

The disciples of the royal family are messy in the wind.

Brother, this is obviously a flat land, and there are no signs of ancient relics. Are you really sure that there are ancient relics under this place?

The disciples of the Wang family were all messed up in the wind, and they seemed to be abandoned by no family!

This Fang Yue, a certain nerve in his brain seems to be wrong.

People always see all the signs, and then combined with the right time and place, humanistic divination can only get the traces of the ancient relics.

And you stomped your feet and specified that there are ancient ruins here, how can you be so headstrong!

The Wang family's disciples looked at each other.

There was a sneer at the corner of Fang Yue's mouth: "Why, don't you believe what I said?"

Some of the disciples of the royal family nodded secretly, believing you are a big ghost!

There is no evidence of this. Why do you make us believe that there are ruins under this ground? How do you make us believe!

The smile at the corner of Fang Yue's mouth was even stronger.

"Whether you believe it or not, the ancestors of your royal family have already sold your lives to me! My command is the truth, so let me start digging!"

Fang Yue suddenly changed from a democratic leader to an autocratic tyrant.

The disciples of Yigan Wang's family are messy in the wind.

I drafted your uncle!

In that case, you said it earlier!

Ask us, believe it or not, what's the use!

Are you testing the limits of our patience?

However, these hundred people are after all the most mediocre disciples of the Wang family, so mediocre that the last bit of edge has been worn away by life.

They were dissatisfied with Yue, but they didn't have a temper of resistance.

Fang Yue said that although they were reluctant to dig, they had to start digging!

Click, click, click!

The 100 disciples of the Wang family's rotation realm are really fast, even if they are mediocre, but the realm is there.

One person is worth a hundred Lan Xiang excavators.

A big hole soon appeared where Fang Yue had stamped his foot.

The big pit stretched out, and some brick buildings actually appeared below.

"There really are ancient ruins?"

The Wang family's disciples were startled.

Is this Fang Yue a god?

Wherever the soles of the feet are stomped, ancient relics appear.

Wang Kai, who was hiding in the dark, also sketched a slight smile.

### **Chapter 1500: True and false ruins**

"That's it, that's how it is! This Fang Yue must have created a fake ruin to seduce. Lure the demon to the bait! Then he will be led into the urn, and the demon will be introduced into the ruins with the help of the trap layout, so that the demon I'm in a situation where it's impossible to recover!"

Wang Kai's eyes lit up, and he saw Fang Yue's plan.

But to be honest, although Fang Yue's plan is also shrewd, it is easy to be seen by the demons.

After all, the demons are not vegetarian!

In the battlefield where the two races clash, they have suffered several losses from human tactics.

They will not always hang on the same tree.

If it is really seen through by the Demon Race, it is easy to be schemed by the Demon Race as the last time, and Fang Yue's entire army will be destroyed!

"This Fang Yue is so innocent! Really think that all the people in the world are fools, is he the only wise man?"

Wang Kai shook his head slightly. Fang Yue's plan is not approved!

However, after a while, Wang Kai's face changed!

Because Fang Yue really excavated the remains of ancient civilization.

There is absolutely nothing wrong with the breath. If you say that others will be deceived, then he certainly won't.

As the ancestor of the royal family, in addition to retreating these years, he has been digging ancient relics everywhere in Helen Star!

This breath, this scene is exactly the same when they first excavated the ancient ruins!

"Is this ruin real?"

Wang Kai showed a suspicious look!

Did Fang Yuemo find a real ancient relic to act as a bait to fool the demons?

At this moment, the demon spy was still dormant beside Fang Yue's team, using the communication stone in his hand to pass the news.

This communication stone is a new communication tool brought by Lord Goba. As long as you infuse true energy, you can get in touch with teammates hundreds of kilometers or even thousands of kilometers away. It's very simple and fast!

"You said that the king's men are openly digging ancient ruins under the eyelids of my demon army? Hey, do they think that Andrews is a fool, and I can't even see such obvious conspiracy traps? , Don't move! Let the king's men play by themselves! I, Andrews, is also a veteran of the demons! I still understand the principle of unchanging and changing!"

Andrews was obviously Wang Kai who wanted to go together.

This is obviously digging a hole and waiting for Andrews to jump in!

The demons stood still.

However, Fang Yue didn't have the slightest anxiety.

He just asked the one hundred disciples of the Wang family to dig up the ruins in front of the demon army.

Soon a complete relic appeared.

This remains is actually not very big, only a small laboratory covering an area of less than ten acres.

This is typically the remains of biochemical civilization.

The structure of even the house is made of modern reinforced concrete.

Fang Yue entered this laboratory of biochemical civilization.

A large amount of information is well preserved in the form of jade slips!

There are even hundreds of bottles of purple medicine in the cold storage of the laboratory!

In the center of the laboratory, there is a huge freezer.

There was a two-meter-high man sleeping in the freezer.

The man's complexion was pale, his eyes closed tightly, and he was obviously still asleep in a state of slumber and had not really woken up yet!

"Ancient humans?"

Fang Yue's face is weird!

I just wanted to molest the demons, but I didn't expect to meet a big guy!

This is definitely an ancient human. Although it looks exactly the same as a normal human in appearance, Fang Yue can feel the majestic energy almost gushing out of the opponent's body even through the freezer.

"Ancient human beings contain a huge amount of energy, and with every gesture, endless power can be diffused. But I don't know why, the ancient humans suddenly perished in a certain era, and no one survived!"

Fang Yue said to himself, and the information recorded in the classical books came to mind!

Fang Yue cleaned up everything in the ruins.

"Is this ruin real?"

Andrews stared, he could see Fang Yue's process of exploring the ruins clearly through the spies.

I thought it was a bait and a trap, but I didn't expect this to be a real ancient relic, which was searched and cleaned by the people of the Wang family. In the end, there was no hair left.

"If this ruin is true, then the face of my demons is really lost! A hundred practitioners in the rotation realm actually dug a precious ancient ruin under the eyelids of my demons. It's empty! This is a naked ignorance of the majesty of my demons! This king's family is really arrogant, horrible!"

Andrews was furious.

"Hurry up, send troops to chase and intercept, kill all the 100 members of this king's family, and plunder all the ruins they have excavated. This group of human race guys are too hateful, too hateful!"

Andrews' voice echoed in the air.

The demon army swept away in the direction of the one hundred disciples of the revolving realm of the Wang family led by Fang Yue.

As a result, the members of the Wang family had already escaped under Fang Yue's command. There was not even a single hair left, only a deep pit was left.

This time, the members of the Wang family stunned tens of thousands of demons with just a hundred of the most ordinary and mediocre disciples of the rotation realm, and they dug up an ancient ruin under their noses!

This time, I slapped the demons fiercely.

There was a noise.

Before, Goba relied on an ambush to destroy the Li family's 3,000 men and his reputation was instantly defeated by the demons!

Fang Yue brought back the disciples of the Rotational Realm of the One Hundred Kings family safely.

The reputation of the Wang Family in the Heavenly Capital City suddenly rose.

Although this reputation is a bit weird, but in any case, they can be considered a big victory this time.

"Are you calculating this time?"

Wang Kai greeted Fang Yue's arrival in the Tiandu Wangcheng.

When he saw Fang Yue, a strange look immediately appeared on his face.

If this was really all in Fang Yue's calculations, then the Demon Race was really not wronged this time.

Fang Yue didn't speak, just glanced at the Li family behind him.

The Li family followed Fang Yue, their eyes gleaming with greed.

This time the Wang family went on an expedition in the name of revenge for the Li family.

Shouldn't the results obtained be given to their Li family?

"Our Wang family triumphantly, what are your Li family doing behind? Are you planning to reward our Wang family disciples with some spirit stones or resources?"

Wang Kai naturally saw through these people's minds at a glance.

He stepped out, blocking Fang Yue and the others.

Li Bing, a housekeeper of the Li family, came out.

"Meet the ancestor of the Wang family, Lord Wang Kai!"

Although Li Bing didn't have any expressions on the surface, there was a shocking wave in his heart.

Wang Kai!

This turned out to be Wang Kai, the ancestor of the Wang family!

Li Bing once read the portraits and introductions of all the masters in the Heavenly Capital City in the Li family!

This Lord Wang Kai is among them.

Wang Kai is very old and once had a very high prestige and status in the Heavenly Capital City!

When he speaks the law, he was the top powerhouse in the entire Heavenly Capital City at that time!

But this Wang Kai has not really appeared in the Heavenly Capital City for at least two thousand years.

If he always sits in the Wang family, who would dare to say that the Wang family has fallen, and who can remove the Wang family from the ranks of the top first-class families!

Wang Kai is a strong man in the Great Holy Realm, and the strong man in the Great Holy Realm is already at the top of the pyramid in the capital city of this day.

Even among the first-class families, there are not many that can have one or two living Great Saint Realm powerhouses!

Originally, Li Bing wanted to take the opportunity to blackmail and plunder all the results of the Wang family's battle.

But now, Li Bing swallowed all the words back into his stomach!

"Steward Li, are you wrong? Wang Kai is an ancestor. I just look a little similar to my patriarch in appearance!"

Wang Kai denied his identity.

He smiled and said to Li Bing.

However, Li Bing couldn't understand the depth of Wang Kai at all, and he couldn't be sure whether the person in front of him was the Wang Kai who had deterred the entire Heavenly Capital City.

In the end, Li Bing was silent, and then left with the Li family.

Fang Yue also separated from Wang Kai and the others, and exchanged the No. 100 man to the Wang family.

"Before I promised your Wang family's fame, I did what I said! Although this reputation may not be very good, but it is true and false, and the name of wisdom is also a good deterrent!"

Fang Yue finished.

Wang Kai was silent immediately.

Although his opponent's family is not pleasing to the eye, he has not yet reached the point where he is dazzling and turning black and white!

Fang Yue indeed established a reputation for the Wang family this time!

At least the first loud shot was fired!

Because of emotion and reason, he shouldn't have a grudge against Yue Cun in his heart.

After a while, Wang Kai said to Yue Gougou, "Brother Fang Yue, please take a step to speak!"

Fang Yue nodded and walked to a remote corner of Wang Kai.

Wang Kai arranged an enchantment and only after making sure that no one was watching, Fang Yue said, "Brother Fang Yue, this time you have achieved amazing results around the Rifting Grand Canyon, but the ancient ruins are unpredictable. , For you, it may not be a good thing! If you can trust our family, you may as well take out your harvest and enlighten it with our Wang family!"

A solemn look appeared on Wang Kai's face.

Fang Yue shook his head slightly: "I understand the kindness of the predecessors. Although I have gained a lot, it is still not worth mentioning compared with the accumulation of thousands of years of the Wang family. I can digest this gain by myself. of!"

Fang Yue tactfully refused Wang Kai's request.

Although I don't know what Wang Kai really means.

But his harvest this time is indeed amazing, if all the value of it is unearthed. Enough for him to spend a long time!

"Since you don't need it, then I won't force it! This time you helped my Wang family gain a great reputation. My Wang family is also the family of Zhien Illustrated! I have a design drawing in my hand, which has an ancient weapon on it. ——Death pistol! This is a collection of cultivator civilization and technological civilization. This death pistol only needs to consume the gun of death to shoot a black death light. This death light can make all the cells in the opponent's body instantly no matter who hits it. withered!"

Wang Kai sent a drawing to Fang Yue's hands.

The surface of this drawing is white, and there is no text on it.
