

## God of Life 1521

Chapter 1521: The Age of Heroes

The old man was still doing his work in silence, ignoring Fang Yue's call.

He remained silent.

As if he hadn't heard Fang Yue's call at all.

Fang Yue silently put down a top-grade spirit stone, and instead of taking away the talisman he was fond of, he was about to turn around and leave.

"Fang Yue, what are you doing?"

Wu Siyu's face was full of puzzled expressions about Fang Yue's actions.

In her heart, Fang Yue is not an emotional person.

Fang Yue patted Wu Siyu on the shoulder and whispered, "Let's go!"

However, at this moment the old man suddenly raised his head, and there was a sharp brightness hidden in his muddy eyes.

This seems to be a contradiction, but it is so natural to this old man.

"Young man, although I am old, I don't need to be charity to me to survive!"

The old man's voice was hoarse, with a trembling feeling. He stretched out a hand that was as dry as a chicken's feet and picked up the top-quality spirit stone, and then handed it back to Fang Yue.

Fang Yue shook his head and did not accept.

"This is what you deserve!"

After Fang Yue finished speaking, he turned to leave.

The old man showed a rare smile.

"Unexpectedly, when my old man suppressed an era when he was young, he would be pityed by a young man when he grows old! But this is a kind of comfort to me! After all, this old man has not completely abandoned me in this era. !"

At this time, in the sky, a piece of demons appeared.

Fang Yue had fought the demons outside of the Heavenly Capital City for many times.

He can easily distinguish the general categories of the demons!

Wing Mozu!

Fang Yue clearly saw the types of these demons. They were the overlords in the sky, and they were born with the ability to soar in the sky.

Even if human beings can fly into the sky, their ability to fight flexibly in the sky is far inferior to that of the Wing Demon!

The sharp long sound pierced the tranquility of the city.

This is the sound of the air defense alarm being sounded in Dream City!

Following this, beams of light intertwined in the air, directly dismembering the heads of Wing Demon in the sky.

However, the winged demons were dismembered by the light, and their bodies fell towards the ground!

"Be careful, those Wing Demon clan's residual limbs are the true ultimate move of Wing Demon Clan. Their bodies are already contaminated with poison. No matter where they fall, they will become a cloud of poisonous smoke, poisoning the surrounding people!"

After all, Wu Yan is veteran, he doesn't know how many years he has been in the wasteland.

Even some of the older generations of generals in the Dream City may not be as familiar with the demons as Wu Yan.

With the falling of Wu Yan's voice.

The corpses of those Winged Demons had begun to explode in the air.

Not poisonous smoke, but countless tiny worms.

The bodies of these Gu worms are extremely small, as pervasive as gravel!

Their bodies entangled the residents of this city after another. Fang Yue even saw that the leader of the soldier who had let go of the Destroyer was rushed into his eyes and nose by a group of gu worms, and then just a few The time to breathe is to swallow its body, and then release more Gu worms.

These Gu worms are all bloodthirsty, they can \*\*\*\* up all the blood in the living beings in an instant, and eat the remaining flesh and skin!

Then Gu worms relied on the abilities contained in these blood to reproduce.

In just a few breaths, the number of Gu worms has skyrocketed dozens of times, and hundreds of residents died there, becoming food for Gu worms, with no bones left!

Fang Yue had a horrible feeling. This kind of sub-world warfare was incredible. Although he had seen Gu worms before, it was the first time he had met such a sturdy Gu worm.

"These ten thousand gu worms, I didn't expect that so many years have passed, and there are people who control this way of raising gu worms!"

Among the crowd, a resident of the Dreaming City at the rotation level came out. This was a middle-aged man. His black skin was covered with gullies of different depths!

"Everything is gone!"

As soon as this middle-aged man made his move, he called out a huge amount of destructive power. These destructive powers turned into a pure black color, as if it were the tide in the sea. A tidal wave surged in an instant. Annihilated all those Gu worms.

"Law of Destruction! Destroyer!"

There was a gleam in Fang Yue's eyes.

This middle-aged man is definitely a standard destroyer, but he turned out to be on the side of the human race to deal with these deadly Gu worms.

This made Fang Yue a little unexpected, is it possible that the destroyer of this era is different from the destroyer of his era?

This is the destroyer of the era, who believes in love and justice and swears to defend peace?

A vague question just appeared in Fang Yue's mind, in an instant. A terrifying breath of destruction fell from the sky.

Another destroyer appeared.

He was wearing a black robe and holding a sickle, as if he was the legendary \*\*\*\* of death, sickening his life!

"Keynes, I didn't expect you to betray the great destroyer and become a running dog of the humble human race! Your choice is really disappointing!"

There was a trembling horror in the destroyer's voice.

The big man who had become Keynes raised his eyelids slightly.

"I was not a Destroyer. My Destroyer's transformation ritual was interrupted by me. I ate the Destroyer Demon who performed the destruction ritual for me and took his soul! At the same time I also gained freedom to allow me Continue to stay in the human camp, I like the human camp, because this camp makes me feel full of warmth and a sense of belonging! The coldness and cruelty of the Destroyer makes me tired! Since I have never been a Destroyer, where did I come from? What about betrayal?"

There was a calmness in Keynes's voice.

And the destroyer was slightly silent.

"This time the attack on Dream City cannot be interrupted! With your strength alone, it is simply powerless."

The Destroyer issued a ultimatum to Keynes.

This Keynes stood in the camp of the human race, and its influence was far greater than that of a practitioner in the rotation realm.

Because although Keynes does not recognize that he is the destroyer, he has the ability to belong to the destroyer or even part of the demons!

If this Keynes stands in the camp of the human race, he can restrain the many weird methods of the Destroyer!

"Even if I am unable to return to heaven, I have to try it! Anyway, my life is not worth money. Before I die, some proud destroyers will be buried with them!"

There was a crazy and fiery look in Keynes' eyes!

Unyielding blood is flowing in Keynes's body!

Fang Yue saw the hero's heroism in Keynes.

I just hope that he won't end up with the inherent cruelty of a hero in the end!

"We have hundreds of thousands of Gu worms. How many can you destroy with your own power? You also have part of the memory of destroying the demons. You should know the terrible aspects of Wanhua Gu worms. They are the cruelest of a civilization. Terminators, they are not afraid of fire and severe cold, but they will be annihilated and crushed under the power of destruction! But in this huge city, there are a few people besides you who can master this terrible power of annihilation!"

The voice of the destroyer fell.

Countless Gu worms were madly released from under his black robe.

Gu worms turned into black clouds, covering the sky and the sun to annihilate everything!

The destroyer suddenly showed a crazy smile.

This city is bound to be destroyed by Gu worms.

However, Fang Yue appeared.

He stepped forward and shook his sleeves.

"Sorry, I want to bring back some of these Gu worms to study and study!"

After Fang Yue expressed his apologies, he unceremoniously took away eight thousand gu worms.

At this moment, the mood of the black-robed destroyer was inconsistent.

Where did you come from?

To say that taking away our destroyer's gu worm will take away our destroyer's gu worm.

What do you think of us destroyers?

Orphanage?

"Hahahaha!"

Keynes suddenly burst into laughter.

He laughed and even tears were about to splash from the corner of his eyes.

It was not a day or two for Keynes to deal with the Destroyer.

But it was the first time in his life that he saw the Destroyer deflated.

"who are you?"

The black robe destroyer looked at Fang Yue unkindly.

Fang Yue pondered for a moment.

The Black Robe Destroyer said impatiently: "Could it be that you were frightened by the reputation of our Destroyer, and then you dare not say it?"

Fang Yue held his chin: "Are you destroyers so narcissistic? You understand, I'm thinking about whether you are qualified to know my name!"

The Black Robe Destroyer was speechless.

You also said that I am narcissistic, don't you think you are more narcissistic than me?

Fang Yue glanced at the black robe destroyer again.

"Forget it, give you a chance! As long as nothing happened just now, I can still consider letting you survive!"

Fang Yue was too lazy to join the guard of this dream city.

He didn't have any good feelings about this dream city. Does the survival of this city have anything to do with him?

Nothing!

The destroyer sneered.

"As if nothing happened? Impossible! If you dare to intercept our Destroyer's Wanhua Gu worm, you will be ready to be hunted down by the Destroyer of the World!"

"This is what you said! I gave you a chance!"

Fang Yue stared at the destroyer with a pair of eyes.

Then he stomped lightly.

The power of destruction slowly spread out.

This destructive power is soft and pure.

Fang Yue has grasped the power of destruction to the extreme level!

The destroyer's eyes widened.

This is definitely a familiar force!

But this familiar power was not in their hands, but was mastered by the humble human race that they didn't look at!

"It's impossible! How can the humble human race have a stronger power of destruction than our noble, great destroyer!"

The destroyer was so surprised that he couldn't close his mouth.

The power of destruction slowly spread, and all the Gu worms shattered into powder, disappearing!

Chapter 1522: The Past and the Poor

What's happening here?

Am I dreaming?

Whether I am the destroyer or the human being in front of me is the destroyer.

If I am the destroyer, who is this person?

Why does he use six more destructive powers than mine?

The Destroyer was caught in a deep contradiction.

The question of survival or destruction is.

"As I said, I didn't intend to have trouble with your destroyers. The survival of this city has nothing to do with me. Although you fight at will, don't involve me. I love peace and don't like it. Fight!"

Fang Yue opened his eyes and said nonsense.

However, the destroyer turned his head silently.

"What happened just now, I feel like I am amnesia!"

Although the destroyer has an instinctive and powerful desire to destroy, what he wants is to destroy others, not himself.

Otherwise, why is this intrusion? Just wipe your neck at home if you have nothing to do.

Survival or destruction.

This destroyer obviously chose the first option.

Watching the destroyer turn his head silently.

Fang Yue's figure also gradually disappeared from the crowd.

Although he was still at the door of the shop, everyone seemed to have chosen to ignore him.

This is an uncle who can't afford to offend, not to mention that the destroyer can't offend, even if the manager of this city comes and meets Fang Yue, he has to stay away.

Keynes looked at Fang Yue, his eyes gradually glowing.

"Brother, can you kill this destroyer for the dream city and save the millions of creatures in the dream city?"

There was expectation in Keynes' eyes.

The pedestrians around also turned their eyes to Fang Yue's body.

Fang Yue shook his head slightly, and said blankly, "Of course it is, no! This Dream City has nothing to do with me. Why should I take action for the Dream City and provoke a life and death enemy like the Destroyer?"

"But the Destroyer keeps his grudges. If you don't kill him, he will definitely mobilize more Destroyer to kill you when he returns! Then you will be doomed!" dc

Keynes was like persuading Fang Yue.

He could feel the essence of Fang Yue's grasp of the power of destruction far beyond his imagination, and also beyond the imagination of the destroyer.

Once Fang Yue agreed to take the shot, even if the two of them were unable to take down the Destroyer together, they would at least be able to protect this Dream City!

Fang Yue looked at the destroyer very seriously.

"I just killed so many Ten Thousand Transformation Gu worms, are you going to attack me?"

The Destroyer's expression was stiff.

"What happened just now, I have forgotten all about it, how could I shoot you? What is your relationship with me?"

The brain of this destroyer turned quickly, and the answer was full of strong desire to survive.

Fang Yue glanced at Keynes: "Have you seen it? He won't come to retaliate against me!"

Keynes looked desperate, how could there be such a rascal Fang Yue in this world.

"you....."

What else would Keynes want to say.

But Fang Yue interrupted him.

"Keynes, I don't have any opinion on your willingness to be a hero in this world, but you do not require everyone in this world to become a hero like you. That is your wish, not everyone's wish, let alone Strictly speaking, there is still a grudge between this city and me. I didn't take advantage of the fire at this time. You should thank me if you add fuel to the fire!"

Fang Yue said to Keynes with a sharp glance.

Keynes' heart sank to the bottom.

The Destroyer gave an evil smile.

"Hahaha, Keynes, did you hear that? This son will not help you!"

"Well then! Since you are unwilling to pay for this dream city, then I will fight to the death, even if I lose, this city will remember my name!"

Keynes' eyes shone with determination.

A slender sword in his hand was slowly pulled out.

The black sword is full of destruction.

The sword was raised above his head, and Keynes's spirit gathered and cut down suddenly.

The black light smudged the whole world!

Keynes' knife light is not only the power of destruction, but also the will to die.

If he can't get rid of the destroyer in front of him in the shortest time, with the devious character of the destroyer, he will definitely release a big killer that has a stronger lethality to this dream city.

The blade fell.

The sky is dark.

The expression of the destroyer also gradually became serious.

Although he underestimated the enemy on the surface, he remained extremely vigilant in his heart.

This Keynes is different from ordinary people, he himself is a supreme genius among human beings, otherwise he would not be valued by the Destruction Demon Race.

In the Destroyer's transformation ritual, he forcibly broke away from the transformation formation, and then he became what he is now. His body is almost combined with the advantages of the three major races of humans, destroyers, and destroyers. .

It would be ridiculous to measure his strength in a pure state!

"Dark cloak!"

The black robe on the Destroyer suddenly floated into the air, and the black robe turned into a cloak, as if to snare Keynes.

However, this dark cloak turned out to be vulnerable under the knife light of Keynes.

The cloak tore and became two halves!

Keynes was about to behead this destroyer completely.

Suddenly, a sharp pain came from the position of his heart.

"this is?"

Keynes was unable to succeed, and the fatal blow was not completely cut out.

The destroyer finally escaped.

Keynes slowly turned his head and looked at the dodging figure in the crowd behind him.

"Let me tell you, this is the heart-biting gu, the gu worm that I let your disciple lay in your food! I had long expected you to appear to destroy our Destroyer good things, so I am early Just keep one hand! Give you a fatal blow at a critical time!"

Panic on the Destroyer's face, all the nervous expressions disappeared.

Instead, all the pride.

"you guys!"

Keynes looked back at his most proud disciple.

This is where his pride lies. Even if he is dead, his disciple will be able to pass on his swordsmanship and ethics smoothly!

"Master, this was not my intention! They tempted me and threatened me! Master, you are so good, so good that this City of Dreams cannot accommodate you!"

Keynes's disciple walked out of the crowd, he said madly.

"Yeah, you love this city, but this city doesn't love you! The Dream City that you have guarded all your life has become the deadliest dagger to kill you! To tell you the truth, I will give you this time Gu was not my own idea! If it weren't for the support of the big families in this dream city, how could I be so seamless? Have you ever wondered why I've been raging in this dream city for so long, But the so-called masters and guardians of the major families in the Dream City have not yet appeared? Because today, this killing is only aimed at you! At this moment, they are allies fighting side by side with me!"

The Destroyer unlocked the \*\*\*\* truth, it seemed that he was hoping to see the desperate expression on Keynes's face!

Fang Yue glanced at the Destroyer.

A soft sigh!

"Keynes, the wood is beautiful in the forest, the wind will destroy it, too good, no friends, this is the reason why I don't want to be a hero! You saved the people in this dream city, but you saved yourself again?"

Fang Yue took a pitying look at Keynes, and to be honest, in some aspects of fate, his experience with Keynes was quite similar.

He has made such a great contribution to the Galaxy Covenant, but in the end, how did the Galaxy Covenant treat him?

Fang Yue didn't help him at the beginning, just to allow Keynes to see the truest side of the world clearly.

"Keynes, you die! No one will come to save you!"

The Destroyer stepped forward and raised the butcher knife in his hand.

There are smug smiles all over his face.

It is also a kind of glory for a great human hero to make the final journey!

Fang Yue suddenly stood between the Destroyer and Keynes.

"What are you going to do?"

The Destroyer looked at Fang Yue vigilantly. In this action plan, he always believed that Fang Yue was the biggest variable in his actions.

"I don't think what you said just now is not very credible. You are so treacherous. You must have lied to me. When you return to the Destroyer, you will definitely gang up and deal with me, right?"

Fang Yue said to the destroyer seriously.

"No! We destroyers have always kept promises!"

Although my heart is very irritable.

But the destroyer still resisted the anger in his heart, and the other Yue said solemnly.

I really can't beat it.

What else can I do?

"I don't believe you! How about you swear?"

Fang Yue said to the destroyer.

The heart of the destroyer sneered.

"Sure enough, it is a naive human being, and we don't understand at all about our destroyers. The so-called oath may be useful to the strong humans, but it can't restrain us destroyers at all!"

The destroyer put up \*\*\*\* and started to swear.

However, the Destroyer just opened his mouth and there was a bang, and a bucket-thick lightning bolt fell from the sky and slashed on the Destroyer's body.

The body of the destroyer was directly chopped into ashes.

The spectators around are fascinated.

Your thunder came a little fast.

People have not spoken to swear, this is condemned by God!

Brother, you are acting, but acting also needs logic!

Fang Yue was taken aback for a moment, but also felt a little anxious.

emmmm, what should I say?

"You, the Destroyer, are a little too insincere in your mind. I haven't spoken yet. That ungodly belief was sensed by the will of heaven and earth, and then killed by lightning!"

Fang Yue talked to himself, using a very bad reason to lie to himself.

Wu Siyu, who was next to him, saw this scene, and laughed, smiling like a flower, all over the country!

Chapter 1523: The Awakening of Keynes

Seeing this scene, Keynes was also stunned.

The destroyer he thought of as a great enemy was destroyed like this?

swear? Scourge?

Come on, is this an insult to their IQ?

As expected, Fang Yue's methods did not disappoint his hopes, no, as far as Fang Yue was concerned, it had already far exceeded his expectations!

Originally thought that he and Fang Yue could work together to keep the Destroyer, or it would be quite good to kill it.

But it turns out that too strong teammates are not good.

One person destroyed the opposite crystal.

He is a soy sauce maker.

The white gloves are gone.

None of the big families of Dream City will personally show up to give Keynes a final blow.

It doesn't matter how dirty or dirty it is to shoot in private, but on the bright side, everyone still needs to take care of some face.

Fang Yue squatted down, his palm pressed against Keynes's chest.

In a moment, the feeling of colic from Keynes's heart disappeared instantly!

Keynes was slightly surprised.

This method is unheard of.

He knew the power of this Gu worm, and this Heart-Eater Gu basically belonged to the category of unsolvable.

But Fang Yue took it easily, just the palm of his hand pressed against Keynes's heart or the gu worm disappeared?

In fact, Keynes didn't know that Fang Yue was the killer of these Gu worms.

Other people's seemingly troublesome Gu worms are like grandsons in front of Fang Yue. There is no way. Fang Yue's life heaven can swallow the life essence of all creatures. If this life essence has been dispersed, those gu worms and the like There is no longer the ability to do mischief!

"Kindness without saying thanks!"

Keynes knelt on one knee, and the opponent Yue knocked his head.

Keynes was not a kowtow, on the contrary, he was still a famous hard bone in this dream city, and even the Destroyer did not take him down.

But this time, he did indeed owe Fang Yue his life.

Fang Yuebai gave Keynes a glance: "Now you understand why I don't want to be a hero?"

Keynes was taken aback for a moment, and then smiled: "I understand, but I understand, but I still want to be a hero and protect the people I want to protect!"

Keynes is unswerving, this is not a kind of ignorance, but a kind of faith!

When Keynes said this, Fang Yue didn't stop him, but when he looked at Keynes, his eyes showed deep appreciation.

Only in this way can one achieve something in this world.

After this incident, Keynes probably had a deeper understanding of heroes and the two words.

"This time the Destroyer did not kill you, I am afraid they will send a stronger force to kill you next time. After all, your existence is a great threat to the Destroyer itself. I have never heard of it before. There is a precedent that someone can break free from the Destroyer's transformation ritual and eat the Destroyer Demons who presided over the ritual!"

There was also a hint of admiration in Fang Yue's eyes when he looked at Keynes.

At the same time, he also remembered the existence of a forbidden place-Mo Yu.

This Mo Yu and Keynes have a lot of similarities. Mo Yu also has the identity of a part of the destroyer, but she still has her own will that is not controlled by the Destroyer Demon!

And Fang Yue Fang Yue remembers that he once promised Mo Yu would help her return!

Fang Yue was lost in a moment.

Keynes said to Fang Yue: "Don't worry about this destroyer. If it wasn't for my care this time, it would not be easy for them to kill me!"

For his own strength and methods, Keynes still has considerable confidence.

Since Keynes said so, Fang Yue didn't say much.

"I am saving you this time because I think you are like an old friend of mine. In the next moment, even if you are in a desperate situation, I will not help you! After all, this path of cultivation still requires a step-by-step approach. Come and walk, relying on the help of outsiders, it is difficult to take this road to the end of the peak!"

Fang Yue exhorted Keynes and left.

Fang Yue's figure disappeared among the crowd, and Keynes could no longer find Fang Yue's trace.

For a moment, Keynes' eyes felt a little confused.

In fact, he also began to shake his beliefs, wondering whether the path he chose to become a hero was right or wrong!

The old man at the grocery store walked out slowly, and he looked at Keynes pityingly and said, "Young man, lost? Lost?"

There was a tone of pity in the old man's voice.

"Why didn't I be like this back then? If you really can't find what to do next, then stay in my grocery store for a while! This time will wash away the blood left by the heroes in this city. And footprints, but at the same time, time can also clean up the confusion in your heart!"

"Ok!"

Keynes took a deep look at the old man and then settled in the grocery store.

As for the disciple who poisoned him, Keynes did not pursue him.

In this vast world, encountering, being able to become a master and apprentice is a kind of fate.

And abandoning each other, is it another kind of fate?

Keynes thought very clearly about these things!

He has no reason to ask others for anything, nor is he qualified to resent and resent!

"Fang Yue, why did you choose to save Keynes in the end?"

Wu Siyu had read Fang Yue's materials long ago.

Fang Yue is not an enthusiastic person, and he will not help others for no reason.

Chasing profit, rascal, be careful. This is the evaluation of Fang Yue from the Galaxy Star Alliance.

This evaluation is actually very pertinent, without any personal disparaging color.

In fact, many of these many beings have this face. They may be saints, but they are just saints in their hearts!

Fang Yue sighed: "I think this Keynes is actually not worthy of death. I also saw his own shadow in him. I joined the Galaxy Alliance and fought for the Galaxy Alliance. Although I have some personal ideas, The real blood comes from a responsibility to the Galaxy Covenant, but the final result? Is it on the same historical path as Keynes? The only difference may be that I am stronger than him. At the same time, he is even more cunning, he has reservations when he pays, and he has left a way for himself to save his life!"

Fang Yue's words are different from the hippie smiles of the past.

This time, Wu Siyu saw a rare and mature side in Fang Yue's body!

"Fang Yue, maybe the Galaxy Star Alliance really can't help you!"

Wu Siyu was speechless, she hesitated for a moment and could only say sorry to Fang Yue on behalf of the Galaxy Alliance.

In fact, if the Galaxy Star Alliance really treats Fang Yue sincerely, maybe all the Demon soldiers outside the capital city that day will no longer exist.

"This is the grievance between me and the Galaxy Alliance and it has nothing to do with you!"

Fang Yue waved his hand, and did not let Wu Siyu continue to speak!

In fact, Fang Yue was no longer willing to reconcile with the Galaxy Star Alliance when he reached this place.

"I want to find a school to learn about the civilization technology of this world! Although the destroyer outside the city is a spy from a foreign race, what he said is quite reasonable. Those schools can make it easier for me to get it. Knowledge in this world civilization!"

Wu Siyu nodded: "I will go to school with you!"

Fengyun Academy is one of the top five schools in Dream City.

Its reputation for teaching and learning is the best in Dream City.

Compared with other schools, tens of thousands of spiritual stones are collected every year.

This Fengyun Academy just wants all students to collect three hundred Lingshi symbolically every year as tuition fees.

Because this Fengyun Academy also has the largest number of students.

There are thousands of people at every age.

And among these students, the age is different.

Some are just young children who are babbling, and some are middle-aged and elderly people who have been stained with white cream.

Fang Yue and Wu Siyu did a simple registration procedure and joined the fifth class of the first grade.

For the transfer students, the students of Fengyun Academy are not surprised at all.

It is said that the founder of this school is a great good man himself. He organized this school with the idea of benefiting others and self-interest. Of course, how convenient it is and how it came!

The number of students in a class varies, with more than a hundred students, and a few with dozens of students!

After Fang Yue and Wu Siyu entered the class, they were randomly arranged in the third and fifth rows.

There are a total of 60 people in this class, which can be regarded as a relatively small class!

Fang Yue's deskmate is a beautiful girl with long hair, a face with melon seeds and big eyes. Although she looks pretty, she doesn't have any dressing or dressing.

The clothes on her body are also white skirts, which have been washed white!

Fang Yue sat down and watched what the teacher said on the podium.

He was embarrassed to find that he could understand every word of the teacher, but he didn't quite understand it in series.

"Hey, classmate, can you tell me what the teacher is talking about?"

Fang Yue has never had such an embarrassing time since high school.

Fang Yue knows roughly that the teacher on this stage is explaining the content of Fu Wenxue, and even the teacher should be extremely responsible for explaining the contents in simple language during the lecture.

However, Fang Yue was a monk halfway through. When he came, the teacher had already explained the more simple parts, and Fang Yue understood a little bit about the rest of the advanced things, while some were more confused.

Fang Yue's deskmate didn't seem to hear him, and he seriously lowered his head to record every word the teacher said on the podium.

"Uh, I didn't expect to run into a schoolmaster!"

Fang Yue was taken aback for a moment, then smiled bitterly, reluctantly listening to the teacher's explanation.

Although he didn't understand the previous article, Fang Yue's knowledge of runes allowed him to understand 80% of the teacher's explanation in class.

As for Wu Siyu, he has a thorough understanding of every word on the teacher's podium.

The eldest lady who was born in Wu's family had an understanding of ancient civilization far beyond Fang Yue's imagination!

This is the power of the Wu family that can rank well in the galaxy!

Chapter 1524: Goddess Liu Xiang

Fang Yue struggled to remember the knowledge explained by the teacher on the podium.

The iceberg next to the table suddenly pushed a pink-skinned notebook over.

Fang Yue opened the notebook, and the beautiful handwriting on it gave a gentle and elegant feeling.

Rows of characters are like flowers in full bloom.

The scent of ink rushing towards his face made Fang Yue feel relaxed and happy!

An entire notebook was filled with neat and beautiful writing.

Fang Yue read it slowly from the beginning. From the beginning of the class to the present, the content of each class has been recorded verbatim!

Through the words, Fang Yue seemed to be able to feel the serious study attitude of this iceberg at the same table.

If on the earth, she should be a proper schoolmaster!

Sure enough, with Xueba's notes, Fang Yue became so easy in learning!

He reads each text carefully, and some of the obscure knowledge points before, are integrated in an instant.

The knowledge of runes and circuits has been completely broken through some jerky barriers!

"That's it, that's it!"

The more Fang Yue looked at it, the more he felt the mystery contained in these words. This is no longer the content of a mere teacher lecture on the stage.

A lot of words were personally comprehended by the iceberg beauty next to him, and then they were written next to the teacher's lecture notes!

For a moment, Fang Yue saw the rise, and the two-month course he had absent before was quickly completed!

The teacher on the podium saw Fang Yue's head down and refused to look at the podium, thinking that he was distracted.

The teacher gave a dry cough, then pointed to Fang Yue under the stage and said.

"This classmate, please come to the podium to explain this question!"

No matter which course the teacher is, he will not like students who do not listen to the class. To be able to become a teacher in this Fengyun Academy, everyone will be branded with pride in their hearts!

Fengyun Academy is one of the top five schools in this city.

Every teacher's achievements and qualifications in related fields naturally do not allow anyone to question them.

Fang Yue watched six directions and listened to all directions. Although he did not raise his head to listen to the lecture, his spiritual thoughts were swept away, and he naturally knew the content of the teacher's lecture on the podium all the time.

Fang Yue immediately stood up and walked onto the podium generously.

The teacher was shocked immediately.

What are you here for?

I just remind you not to get lost in class, but you actually got up from your seat.

Go to the podium.

Fang Yue looked at the runes on the blackboard, he shook his head slightly, and then said: "The teacher just explained the knowledge of rune fusion, which involves many nuclear concepts! It also raised a question related to rune fusion!"

"The teacher asked whether the runes of different rules can be merged, and my answer is yes! But the difficulty of merging runes of different rules is very different, and the effect is completely different! For

example, the attributes are similar. Dark Rune and Destruction Rune! Both runes are similar runes leading to the mystery, unknown, and disorder! If these two fusion runes are merged, they can increase their power by about 30%. !"

"For example, like this!"

Fang Yue stretched out a finger and randomly sketched in the void in front of him.

In the void, a huge amount of dark power converged, and soon a black rune was formed in Fang Yue's hands!

This black rune is like a black hole, which can swallow all the power of light in the void!

The rune freezes, constantly devouring the dark elements in the void to replenish its own energy, and even over time it can continue to grow itself!

The teacher on the stage immediately gave Fang Yue half of his position, the expression of dissatisfaction on his face disappeared, replaced by a deep dignity!

This newcomer is much more profound in runes than him!

Especially this kind of void drawing amulets, at least a master of runes can do it!

And this also requires a deep understanding of the power of related rules! It is impossible to make such a rune in a three-level realm without rules!

The reason why this rune can condense in the void is mainly because Fang Yue has fixed the power of the domain on the rune, and the rune body is equivalent to a small dark domain!

The students in the audience are silent!

All of them held their breath and widened their eyes, watching the magical scene on the podium.

Such means, they have never heard of it, they have never seen it.

Although the teacher on the podium often draws symbols and examples for them when giving lectures, they always use paper as the carrier, and in the most traditional way, when can they be condensed in the void like Fang Yue? A dark talisman!

Fang Yue paused for a while, and then drew a talisman with the power of destruction in the same way.

This rune is faintly gray, representing the power of the source of destruction.

The two runes blend with each other in the void.

Among them was a roar of a beast that tore the void!

Rune fusion, like water and milk, naturally.

Fang Yue's finger pointed at a boy sitting in the third row!

"Come on, this classmate, please try the fusion power of my two runes!"

The boy suddenly panicked.

He waved his hand and said, "No!"

There was a faint sneer at the corner of Fang Yue's mouth: "Since I have the courage to lurch deep into this school alone, why should I have the courage to pick up one of my runes?"

The rune trembled.

In the void, a flood dragon formed impressively.

This is the evolution of runes and became a lifelike creature.

Jiaolong leaned forward.

All the clothes on that boy are torn!

The fine scales are exposed, and the strong destructive power blows everything around the body!

However, Fang Yue's figure at the same table as the iceberg sitting behind the boy remained unchanged. A thin light blue ice cover formed around her body to isolate all the power of destruction and protect herself perfectly. Live, everything will not invade!

Her expression was indifferent, and she was not surprised at the fact that this classmate was the destroyer.

The Destroyer roared with a grim look.

"You, mud legs from the wasteland, have repeatedly and again and again badly destroyed my good deeds of destroying the Demon Race. We will certainly not spare you by destroying the Demon Race!"

The destroyer said to Fang Yue extremely hideously.

Fang Yue glanced at him lightly.

"It's not that I'm targeting you to destroy the demons, but you often appear under my nose. Anyway, you are already at odds. If you kill a destroyer, you will kill it! Whatever happens!"

The Destroyer drew a gray long sword from the void.

The gray long sword is also formed by the force of destruction.

Jianguang cut out.

There were fine cracks in the void, and layers of ripples slowly dispersed.

This sword definitely has the power of the pinnacle level of the rotation realm.

At least these students here can't take it down.

The teacher on the podium also had a similar level of power, but his expression was solemn, because he could not guarantee that he could protect all the students and kill the destroyer without being affected.

"Tsk tsk, the dignified Destroyer, it is really embarrassing for you to study the power of destruction before reaching the second level!"

Fang Yue continued to ridicule!

He raised his palm.

The grey rune dragon rose into the sky and swallowed the Destroyer's sword abruptly!

The body of the Rune Dragon is also constructed by the power of destruction, and the power of destruction in this Rune Dragon is even more refined than the power of destruction in the Destroyer's Longsword!

This destroyer is really shameful!

The dignified destroyer, in the name of destruction, is not as good as Fang Yue in terms of the power of destruction.

"Do not!"

The Destroyer's Destroying Sword was destroyed, he already knew that he was definitely not Fang Yue's opponent.

This is not to say how powerful the rune dragons evolved by Fang Yue, but that Fang Yue himself is an unshakable existence!

The destroyer turned around and ran away.

But can he run under Fang Yue's eyelids?

The Destroying Flood Dragon chased after it, and it opened its mouth and swallowed the Destroyer and even the belt bones, with no dregs left!

Crush!

Victory!

This scene left an indelible impression in the minds of middle school students!

Fang Yue proved the power of this rune fusion with his actual combat.

Of course, Fang Yue is the only one who can achieve this degree of integration!

Fang Yueshi Shiran stepped off the stage!

And all the students' eyes have followed Fang Yue's figure from the podium!

Awe, admiration, envy!

All kinds of eyes were revealed from the eyes of these students!

Even the eyes of the teacher on the stage looking at Fang Yue are completely different!

He felt that if Fang Yue's level were to be a teacher of the runes course, he would definitely be a hundred times better than him!

"Hey, how your opposing runes should be integrated have not been explained yet!"

The iceberg girl suddenly spoke to Fang Yue.

Don't be in awe of Fang Yue, but from her eyes, Fang Yue didn't see anything.

"Liu Xiang!"

The teacher on the stage scolded Fang Yue's tablemate.

He is protecting Liu Xiang.

Because the teacher already understood that Fang Yue couldn't afford to offend him!

In case Liu Xiang offends Fang Yue and Fang Yue wants to kill Liu Xiang in a rage, even if he wants to intercept it, he can't stop it at all!

A smile appeared on the corner of Liu Xiang's mouth.

She stared at Fang Yue.

"First Generation?"

Fang Yue formed a sound insulation ban around him.

Except for him and Liu Xiang, no one knew what they were talking about.

"Goddess Liu Xiang, meet for the first time, please take care of me!"

Liu Xiang spoke, his body exuded a faint breath of spirit, Liu Xiang at this moment was completely different from the obedient female student just now!

Liu Xiang seemed to have become a lofty goddess, arrogant and inviolable.

Fang Yue can also feel that Liu Xiang's aura is also changing.

The Yin Yang realm level's cultivation base was revealed, and there was a stronger force in her body!

### **Chapter 1525: Taste**

"What are you two doing?"

Quietly, Wu Siyu stepped into the prohibition.

In front of her, Fang Yue actually talked with another woman and arranged a restriction to isolate her voice, which made her feel uncomfortable!

Of course, Wu Siyu also knew that nothing should happen between Fang Yue and Liu Xiang, but can a woman's jealousy be controlled rationally?

"Goddess, the first generation!"

Fang Yue briefly introduced Liu Xiang's identity to Wu Siyu.

Wu Siyu is a smart woman. Although she was a little jealous, she was quickly overthrown by her cold reason.

The first generation, goddess.

Wu Siyu naturally understood what these two words meant.

In the first generation, these two words were synonymous with potential and talent!

The goddess is a kind of identity, representing the messenger of a certain temple.

The word goddess is not common in the Galactic Alliance.

Because the power of the gods has been reduced to the past, there may still be people practicing the godhead on some relatively backward planets, but this practice method has been banned in most places.

As for the reason for the prohibition, no one knows.

All I know is that the ban was issued by the top of the Ten Thousand Worlds Universe.

Even the Galaxy Star Covenant was able to resolutely execute it without the ability to intervene.

It was a catastrophe, which once caused the entire universe to be filled with smoke.

This is the beacon smoke, which soon goes out. Because after all, the arm can't twist the thigh, the difference in strength is crushing!

Many families in the Galaxy Star Alliance have risen because of this. The Wu family, including the Wu family, also suffered a lot from that catastrophe, but Wu Siyu didn't know what the Wu family got from it. The reason was simple and not enough authority!

Wu Siyu is the eldest lady of the Wu family, she has extremely high authority, and there are very few things she can't ask.

Seeing the goddess again, Wu Siyu was actually very curious.

What kind of secrets are contained in this inheritance?

"Wu Siyu, it's nice to meet you!"

Wu Siyu took the initiative to shake hands with Liu Xiang, and Liu Xiang showed a sincere smile to Wu Siyu.

Obviously, Liu Xiang is less alert to women than to men!

Soon, Wu Siyu and Liu Xiangpan talked together and left Fang Yue by the side, which made Fang Yue a little embarrassed.

Then Wu Siyu dominated Fang Yue's deeds and drove Fang Yue behind.

Seeing Fang Yue's deflated appearance, those classmates laughed loudly. They originally felt strong and indifferent students felt that Fang Yue did not seem to be as scary as they thought!

The order of the classroom was restored.

But no matter which student it is, it is very clear!

The Destroyer was discovered one after another in the Dream City, which means that the Dream City has been completely infiltrated by the Destroyer.

No one can guarantee that one day the classmates around him will suddenly violently attack them and send them to the Yellow Spring!

Everyone is in danger, this is something more frightening than the attack of the destroyer!

Fang Yue and Wu Siyu stayed in this Fengyun Academy for half a month.

They seemed to have completely forgotten the war between the external human race and the demons outside the heavenly capital city.

In fact, this war is already irrelevant to Fang Yue. The person he cares about is Amitabha if he doesn't attack the Demon Race. As for provoking, unless it is the Demon Race's brains that show up.

When Wu Siyu is no longer, the Wu family will naturally send someone to replace her.

Even if Wu Siyu was there, the Wu family wouldn't let you a disciple of the Wu family such a young man command a war of this magnitude!

And Wu Siyu's departure made Wu Siyu and the Wu family look good, and even the senior officials of the Wu family would think that Wu Siyu was a sensible performance to secretly add points to Wu Siyu.

Fang Yue was also familiar with teachers and students in Fengyun Academy. Although Fang Yue lacked some knowledge, he was a master in many fields of knowledge, even at the level of grandmaster.

The advancement of knowledge lies in communication, research and discussion, which are created behind closed doors, and will always make people ignorant and backward!

Fang Yue and Wu Siyu have benefited a lot from this school, no less than a knowledge inheritance!

However, a military order suddenly fell to Fengyun Academy, which broke the peaceful life of all teachers and students in the Academy.

Conscription!

All the residents in Dream City of the right age must unconditionally obey the deployment of the military headquarters in Dream City!

There are no conditions!

There is no reason!

As for war preparations, even individual or collective materials may be unconditionally requisitioned by the military for no reason!

This conscription order is like a bolt from the blue for the students of Fengyun Academy!

Fang Yue murmured: "Is this person related to war? Wherever I go, war will be caused?"

Wu Siyi glanced at him.

"may be!"

"Will you go for this conscription?" Fang Yue looked at Wu Siyu.

Wu Siyu pondered for a moment, then said: "You can take a look!"

"War is the time to unleash the potential of civilization to the greatest extent! This war may be a nightmare for the residents of Dream City, but for you and me, it is a great opportunity to learn from this ancient civilization. "

Wu Siyu showed a cold side.

Her analysis drove into it.

But she considered more of her and Fang Yue's interests.

Of course, Fang Yue also has this idea!

Then there is the work of filling in the recruitment form. Not everyone needs to fill in the form. In fact, the technology of this Dream City is quite advanced!

Every resident has his own optical brain, which contains complete personal information.

And Fang Yue and Wu Siyu came from the wasteland, they belonged to the standard black households in this dream city!

Kuroto naturally does not have sufficient personal information in Dream City.

So the two people need to fill out forms and serve in the military.

Fang Yue quite shamelessly wrote down the cultivation level of the world realm on the form.

Wu Siyu also glanced at Fang Yue, and hurriedly wrote the three words of heaven and earth!

Unexpectedly, the goddess Liu Xiang is also a black household, and she also filled in the three words heaven and earth realm on her form.

"You three are in the world?"

When the teacher of the rune class received the form, he saw the content filled out by Fang Yue three people.

He knows this is obviously cheating!

He didn't know the strength of this other person, but Fang Yue was absolutely able to deal with the strength of the rotation realm and even the Yin Yang realm.

The Destroyer at the pinnacle of the rotation realm was crushed and beaten by Fang Yue, and the two runes were destroyed.

This is an ability that ordinary Yin-Yang realm powerhouses do not have!

"Well, in the realm of heaven and earth, my family often tells me that you should keep a low profile!"

Fang Yue exclaimed to the teacher of the rune class.

The teacher of the rune class twitched his mouth. He really wanted to say, "Fang Yue, do you have any questions about this sentence!"

Seeing Fang Yue's nonchalant appearance, Wu Siyu finally got out of the siege.

"Teacher, I think the world is safer! The higher the strength, the higher the position in the army. The world belongs to the order of the most common grass-roots soldiers, and it completes some relatively basic tasks! High-level generals have a higher chance of death. Shoot the enemy first, shoot the horse first, and capture the thieves first! If I were the enemy, during the war, I must capture and kill the opponent's general leader first!"

Wu Siyu talked freely, telling Fang Yue's true thoughts.

The teacher of the rune class was taken aback for a moment, but he didn't expect these little guys to have this kind of logic in their minds!

He didn't know that Fang Yue and the others had far more turns on the battlefield than him.

Both Fang Yue and Wu Siyu are veterans on the battlefield. I don't know how many enemy bones they have stepped on to survive to this day!

Soon, the conscription mission program was launched urgently.

Fang Yue was surprised to find that the students of Fengyun College were all compiled into a sequence.

The official statement is that this is for ease of management.

But Fang Yue smelled conspiracy from it.

Fang Yue, who is familiar with the military, knows that if it is a conventional distribution method, the students of Fengyun Academy are better to disrupt them into different battle sequences.

Because of this, mutiny can be prevented.

The students of Fengyun College are familiar with each other, and it is easier to get together in the same small group!

And they are recruits into the army, without sufficient discipline and awareness, they really clash with their superiors, they are easy to mutiny, and collectively leave the battle sequence.

The person who compiled the battle sequence for them this time either had a brain problem, was stupidly missing one, or had a thick conspiracy.

Fang Yue entered the army and was soon issued a weapon.

Each person has an energy protective suit, a laser pistol, and ten black bombs.

This is the standard equipment in the military, and the energy protective suit can withstand three or ten attacks at the level of the heaven and earth when it is full of energy. And the laser pistol is able to kill the masters of the heaven and earth realm, killing them with one shot! Hei Teng bombs, the range of lethality is within a radius of 100 meters, each drop can kill the masters of the world within the effective explosion range, and can even cause strong damage to the strong of the rotation realm!

Fang Yue studied the energy protective suit and other combat equipment he had obtained.

The energy materials used are all star crystals!

Everyone can get a hundred orange star crystals to charge their weapons before going into battle.

As for later, if you want to get more star crystals, you need to use military merit to exchange it!

"This is a conspiracy!"

Wu Siyu walked to Fang Yue's room.

The male and female soldiers in this barracks are mixed.

The rooms of Wu Siyu and Liu Xiang are all around He Fangyue's room.

"Well, I already feel it! Three of the ten black bombs in my hand are problematic!"

Fang Yue is a very careful person. Before going into battle, he would naturally check whether the weapon is in good condition.

The result is unexpected!

Three of the ten black bombs had quality problems. Including ten of his orange star crystals, the energy has been exhausted.

There is a problem with these armaments. On the battlefield, the students who rely on these weapons to fight for self-defense are a dead word, and there is almost no room for maneuver!

"Because these students are all from Fengyun Academy. Although they have high personal qualities, they have no identity background. It is normal for them to die on the battlefield. No one will check whether their armaments are intact before the battle! This is a conspiracy. But I don't know where it is pointing!"

Chapter 1526: The strongest cannon fodder in history

Fang Yue saw through the conspiracy.

But he did not expose the conspiracy.

He was watching the changes, waiting for the black hands behind the conspiracy to surface.

War is about to start.

But the entire Dream City has completely quit smoking, and conscription orders have been posted everywhere.

However, the soldiers who had been forcibly called up, including Fang Yuezai, did not even know who their opponents were so far!

Finally, on the third day when Fang Yue was forced to sign.

Reality finally opened.

Zombies all over the sky came staggering from a distance.

These zombies have different levels of evolution, some are only the level of the innate realm, and some have reached the realm of Yin and Yang or even higher levels.

The army of zombies is not just a group of zombies composed of humans.

The main force among them is still the zombies transformed from animals. Animals are inherently sensitive and have amazing fighting consciousness!

This time the change has become a zombie, and their lethality is even more terrifying!

"It turned out to be a corpse tide?"

This result was beyond Fang Yue's expectations.

Fang Yue originally thought that it would be an army that would destroy the demons, but he didn't expect it to be a tide of corpses.

An endless army of zombies!

"Zombie!"

Seeing these zombies, Wu Siyu's beautiful eyes revealed a little bit of loss.

I thought it would be some other unknown creature!

Bai was excited!

Liu Xiang will always look aloof, and her face is always hung with a holy light!

She walked out slowly, even the heavy energy protective clothing could not hide the holy breath of her body!

"Any evil will eventually be wiped out!"

Liu Xiang's voice was firmly heard through the energy protective suit.

Hundreds of Liu Xiang's body were from the cannon fodder of Fengyun Academy, all covered with a thin layer of holy light!

The zombies in the distance, from far to near, slowly come!

"Strike!"

The horn of the army behind Fang Yue came.

The gates of Dream City opened wide.

This horn means that it is time for them to go out of town to fight!

A large number of soldiers walked out of Dream City.

Fang Yue felt the atmosphere of the conspiracy getting heavier in his heart!

This is simply not in line with the thinking of conventional operations.

The vitality is the essence of whatever army is!

According to the normal combat thinking, it should first consume a wave of zombies with technological artillery fire, missiles and other long-range attack weapons, and then conduct short-range combat!

Fang Yue directly carried out a single shoulder-mounted bazooka.

Standing in place, there was a bang, and a cannon with a diameter of about 20cm popped out of the chamber!

There was a bang.

The cannonball exploded in the air!

The area of fifty meters in diameter has all turned into an area shrouded in white light!

Within this range, all zombie bones are gone!

This shell was modified by Fang Yue with X bombs!

On the wall, Nangong Qianchuan frowned slightly.

As a general in charge of the war, he shouldn't say this in fact.

But if he didn't say anything, he couldn't hold back.

"Wang Wenchang, did you personally recruit this cannon fodder army?"

Wang Wenchang was standing next to Nangong Qianchuan, his cold sweat rippling, he naturally saw the problem!

Isn't it good not to equip students of Fengyun Academy with heavy weapons?

What is this special? How can I use a single shoulder-fired rocket launcher!

And this single shoulder-mounted rocket launcher is a rocket launcher!

What's the matter with the shells inside?

Why is it so powerful?

Zombies with a diameter of 50 meters are all turned into fly ash!

"Master Asakawa, these are all our mistakes, mistakes!"

Wang Wenchang took out a tissue and wiped the sweat beads on his forehead.

"If there are only such individual cases, it shouldn't affect our overall plan!"

Wang Wenchang tried his best to argue with Nangong Asakawa.

Nangong Asakawa glanced at Wang Wenchang faintly, and then he said nothing.

He quietly looked at the battlefield under the city wall, but his heart was abnormally irritable!

After the cultivation base reaches a certain level, it will always feel like a whim.

Nangong Asakawa has reached the pinnacle of the rotation realm, and he is extremely sensitive to the occurrence of some special things!

From the moment he just stepped on the city wall, a strong ominous premonition rose in Nangong Asagawa's heart!

Fang Yue hit with one shot and immediately caused a strong kill to the zombies!

Zombies are not idiots. In fact, after they become zombies, they can swallow each other, or swallow humans to gain a lot of life force, and thus continue to evolve.

The process of evolution is also a process of rapid improvement of their own intelligence. Zombies at the heaven and earth level already possess intelligence that is no weaker than that of a normal 10-year-old child.

Fang Yue's shoulder-mounted bazooka caught their attention!

Dozens of zombies ran in his direction!

Kill the threat in the cradle!

Obviously, Fang Yue at this moment has become the thorn in the eyes of the zombies and the source of danger in their eyes!

Dozens of zombies rushed.

Fang Yue is not surprised!

He raised the laser gun in his hand, aiming at a shot.

Raise your hand, aim, and pull the trigger.

Fang Yue's actions are like going with the clouds and flowing water!

The eyebrows of the zombie that was flying towards him were instantly pierced, and then fell to the ground!

"Good marksmanship! Wang Wenchang, this person seems unusual!"

Nangong Qianchuan softened his slightly raised temples, and said to Wang Wenchang a little dissatisfied.

Wang Wenchang was trembling, he didn't dare to refute or talk.

He knows the status of Nangong Asagawa, this family has more control in the City of Dreams than on the bright side!

If Nangong Asakawa is really dissatisfied with him, it is possible to drag him down and kill him!

After all, there is no shortage of everything in this dream city, but there is no shortage of people, no shortage of slaves for the Nangong family!

This person is indeed quite extraordinary, and the use of firearms is generally forbidden in Dream City. No matter which school it is in, it is not allowed to teach firearms and other courses.

However, this laser pistol was in the hands of this man, and it turned out to be a commanding arm!

Even if he has served as a soldier in Dream City for ten years, a twenty-year veteran may not be able to use this thing skillfully!

Fang Yue raised his hand but killed one zombie, and the speed of the other zombies did not decrease.

The power of this laser pistol is indeed not small, but it has a fatal flaw that it must have a cooling time of 0.5S between each shot!

And between the master clashes.

0.5S minutes of time can already determine life and death many times!

Those zombies were slaughtered. Never give him time to fire a second shot!

"Fry me!"

Fang Yue took out a black bomb and exploded it in the direction where the zombies were densest.

Then, the bomb misfired.

It fell to the ground with a bang!

Fang Yue frowned slightly.

"What kind of bomb can't explode!"

Fang Yue's voice is loud!

All the people present were practitioners above the heaven and earth realm. All of them had ears and eyes. They understood Fang Yue's every move, every word and deed very clearly!

"What, can't this black bomb explode?"

As soon as Fang Yue's voice came out, the army behind him immediately went into chaos.

These people were originally cannon fodder who were temporarily recruited, unorganized, undisciplined, and even without special training. They were full of complaints about being forced to be recruited.

And now, after this battle, the weapon has a problem, which naturally disrupts the military's mind!

"This \*\*\*\* guy, there really is a problem!"

Nangong Asakawa finally understood why he had a whim.

It turns out that there is such a thing in the army!

At this time, the group of zombies had all been culled.

Fang Yue seems to be sure to die.

Fang Yue saw that the goal he wanted had been achieved.

He immediately yelled: "Let's die with me!"

Another X bomb exploded.

All the zombies within a radius of 50 meters were directly vaporized and evaporated!

Fang Yue used his own death to bury dozens of zombies!

This move is absolutely epic!

Many people looked in Fang Yue's direction, and they were all in awe.

Regardless of the era, there is the highest respect for the hero. He died for the Dream City.

"Damn it, it's cheaper for you!"

Seeing that Fang Yue had died in the explosion of the X bomb.

Nangong Asakawa couldn't help but let out a sigh of relief.

"Send regular troops to supervise the battle. Those useless cannon fodder will be killed if they retreat!"

Charity does not control soldiers, righteousness does not practice business.

Nangong Asagawa is also a veteran in the military.

Three thousand regular troops followed out of the city gate.

They are all loaded with live ammunition, and it is their turn to control the weapons and the sophisticated equipment compared to these cannon fodder. I don't know how many blocks they have dumped!

Even the two sides are not one world at all in this respect!

After the white light is annihilated.

Fang Yue's figure unexpectedly appeared again.

There is a jade pendant on his chest. The jade pendant activates and forms a white light mask, which gives him all the energy when the X bomb explodes!

The heart that Nangong Asakawa had just let down suddenly mentioned his throat again.

Sure enough, good people don't live long, and they have lived for thousands of years. This guy didn't die!

"You despicable and shameless guys, the energy protective suits you gave me are also inferior products! If it weren't for my ancestral jade pendant, I'm afraid I would have died in the explosion of this X bomb this time!"

Fang Yue roared again.

He targeted those elite regular troops who had just left the city!

Fang Yue's appeal increased again.

The scene where Fang Yue desperately killed one person and killed dozens of zombies just now, everyone has seen with their own eyes.

Today, he is a hero-like existence in everyone's hearts!

And his words are extraordinarily weighty!

Fang Yue said that, the hearts of the cannon fodder army became unbalanced.

Moreover, all of them are in danger, and their dissatisfaction with the army of this Dream City is even more intense!

There is a problem with this black bomb, even with the energy protection suit?

These things are things they use to kill the enemy or to save their lives. These things have problems. Then after they step onto the battlefield, what will they take to protect their lives and what they use to protect their lives and interests!

Although they are cannon fodder, they are not here to die meaninglessly!

Mutiny in the army!

All winds are reversed immediately!

Chapter 1527: The Nangong Family's Thousand-Year Conspiracy

"Damn guy, \*\*\*\* cannon fodder! They didn't fight well with zombies, they were both sides injured. They wanted to rebel against our rule. They really turned against them! Shoot, shoot, shoot me, whoever is not obedient Kill them!"

Nangong Asakawa couldn't help being furious.

He never expected such a scene to happen.

At this time, an elderly figure appeared in front of Nangong Asakawa.

"Boy of the Nangong family, are you planning to slaughter my Fengyun Academy students?"

This old man's fairy-style bones, although thin and thin, gave people a sense of spirit.

More importantly, Nangong Asagawa felt a little suffocation when standing in front of the old man.

Powerful of Yin and Yang Realm!

Nangong Asakawa's eyes widened. A master of this level is extremely limited even in Dream City!

At this moment, the zombies are already pouring in the direction of Dream City like a rushing tide.

And those cannon fodder regiments under Fang Yue's guidance, they gave way and went straight to the three thousand elite!

Aren't you great?

Have the ability to kill zombies!

The three thousand elite regular army was just a majestic gangster, but now they are about to pee!

It's not that they are timid, but that there are so many enemies!

They are only three thousand people, but what about the zombies on the opposite side?

Rushing like a tide, endless!

"Where did you old man come from? The resistance military order delayed the fighter plane and must die!"

Nangong Asakawa was ruthless.

He moved out of the name of Dayi.

He knew that he was definitely not the opponent of this old man, even in the weak Yin and Yang realm, he could pinch him to death with one finger!

The old man sneered: "I am Sima Changsheng, the principal of Fengyun Academy! I did not expect that I had been in retreat for ten years. In this dream city, your Nangong family turned out to cover the sky with one hand, and even wanted to use the lives of our Fengyun Academy students to raise zombies!"

Sima Changsheng spoke.

Suddenly, everyone around showed a look of astonishment.

Raise zombies!

This is too terrifying!

Upon hearing this, Nangong Asakawa's face changed drastically.

"You nonsense, our Nangong family is the patron saint of this dream city, how could we do such a thing!"

Sima Changsheng let out a cold air.

"Don't think I don't know, your Nangong family colluded with the Tinder Company as early as a hundred years ago, and even went together! Spread zombie viruses in the wasteland, so that the residents in the wasteland have become villages as a unit. One after another cold-blooded and murderous zombies! Then you use special means to control those zombies and obey your command! If anyone does not listen to your arrangements and commands, let the zombies attack them outside the city! Those people were killed by the zombies, swallowed, and made the illusion that their intentions fell!"

Sima Changsheng's voice is getting colder and colder!

And the color of horror on Nangong Asagawa's face gradually faded!

"Hahaha I didn't expect that Sima Changsheng, you old man, knows a lot, but don't you know that the more you know, the faster you will die?"

A triumphant look appeared on Nangong Asagawa's face.

The army of zombies about to attack the city gate also stopped.

The three-headed Yin-Yang-level zombies soared into the air, actually standing behind Sima Changsheng!

Although Sima Changsheng can be regarded as the veteran powerhouse in this dream city, Nangong Asakawa does not believe that this old man can be worth three zombies at the Yin and Yang level!

"I didn't expect the final answer to be like this. The Nangong family cultivated quick zombies, and then came to secretly strengthen their own strength! The students of Fengyun Academy are indeed the best food for these zombies, and the students of Fengyun Academy are almost People who don't have much background will not be investigated even if they are dead. Secondly, the students of Fengyun Academy are strong enough, and the worlds are everywhere, and some of them have even reached the level of rotation! The students of "are not strong enough, but the students of the rotation level are already qualified to be the high-quality rations of these zombies!"

Fang Yue said to himself that he finally figured out the causes and consequences of the whole thing.

"Sima Changsheng, how about it? You old man knows how great it is!"

That Nangong Asagawa no longer concealed his hideous face.

And Sima Changsheng's face also had a calm look.

"Nangong Asakawa, do you think I came to expose your conspiracy to come to the Nangong family by yourself? Don't forget that this dream city is not only the dream city of your Nangong family, but there are several other old-fashioned families in the city! "

Soon, above the clouds, a woman dressed in purple appeared, and the realm of Yin Yang realm was revealed.

Her eyes turned out to be frosty!

"Li Family, Li Qingshuang!"

The woman came.

The arrogance of Nangong Asagawa has been reduced.

"Li Qingshuang, this Li family is not the top home in this Dream City. This Li family is prosperous because of you. If you fall here, this Li family will probably disappear in an instant!"

Mobilizing three zombies at the Yin-Yang level is already the ultimate authority of his Nangong Asagawa!

If it were three-headed zombies in the Yin-Yang realm, it would be more than enough to deal with Sima Changsheng, but if you add a Li Qingshuang, it would be a bit difficult!

"Since I debuted, Li Qingshuang has never been afraid of threats! I died to defend Dream City. Where can I die? As long as I have Li Qingshuang, you Nangong family should not use zombies to invade the entire City of Dreams!"

Li Qingshuang's voice was crisp, and there was a slight chill on her beautiful cheeks.

"Hahaha, the Li family and the Sima family have joined forces to deal with the Nangong family! If the people from my Tinder company don't come, how can they be worthy of the covenant with the Nangong family!"

A sound of wild laughter came, and a middle-aged man in a suit and shoes also fell from the sky.

He himself is a strong man in the Yin-Yang realm, and behind him there are three zombies at the Yin-Yang realm level, guarding his safety!

The balance just established was instantly broken, and the situation once again appeared to be detrimental to Sima Changsheng!

"Shall we go up too?"

Fang Yue turned his head and looked at Wu Siyu.

"I hate people from the Nangong family!"

"I understand!"

Fang Yue's foot is in the void, and his steps are clear.

He stepped on the void step by step to the wall of the city!

The yin and yang level aura was released, and he stood with Sima Changsheng.

Seeing Fang Yue, Nangong Asakawa immediately gritted his teeth with hatred.

"It turned out to be a master of Yin and Yang level, no wonder!"

Nangong Qianchuan looked at Wang Wenchang: "Is this the cannon fodder you found for me?"

Wang Wenchang was sweating coldly and was afraid to reply.

Now this is a big fight, everyone is the top existence of the pyramid in this dream city!

"not enough!"

The middle-aged man from Tinder Company shook his head slightly.

His immediate meaning is very clear, now that Fang Yue and their lineup are not strong enough to compare with them!

"What if you add me?"

Wu Siyu also quietly appeared on the city wall.

Her figure seemed like a ghost, and no one knew when she appeared except Fang Yue.

The middle-aged man from the Tinder Company was taken aback.

Unexpectedly, there are so many yin and yang level masters in this dream city that his fire company has never mastered!

"And I!"

Liu Xiang also appeared.

Her waist is slender, with cherry petals falling around her body.

He was another master at the Yin and Yang level, and the face of the middle-aged man from the Tinder Company suddenly became serious this time!

How did this intelligence department work? There are so many yin and yang level masters who have not even controlled the Tinder company in this dream city!

The appearance of three masters of Yin and Yang level is enough to have a great influence on the existing pattern in this entire Dream City!

"Three powers of Yin and Yang level! I, Chen Zun, on behalf of Tinder Company sincerely invite you to join!"

The middle-aged man changed his face.

Their Tinder Company and Li Qingshuang and Sima Changsheng are indeed endless.

They had old grievances before, and their grudges were as deep as the sea and could not be resolved.

However, the faces of the three masters at the Yin-Yang level are very strange, and they may not be allies!

"Tinder Company? What temptation do you have for us to join? Are there biochemical technologies?"

Fang Yue sneered.

A little demon appeared behind him.

This little demon has evolved to the seventh level of the Yin-Yang realm. He doesn't know how many masters he has swallowed. There are several laws in his body.

As soon as the little devil appeared, all the zombies of this kind of company took a half step back subconsciously!

There is a huge gap in the level of life between them.

This is the relationship between the upper and the lower!

"This is... another biological weapon?"

When Chen Zun saw the appearance of the little devil, not only did he not show the slightest expression of panic, on the contrary, he was happy to see the hunt.

"Brother, you can open the conditions at will. As long as you can transfer the manufacturing technology of this biological weapon to us, our Tinder company will be your forever friend in the future!"

Chen Zun has no fear.

The water depth of Tinder is unfathomable.

Yin and Yang is not the limit of Tinder in this dream city!

Fang Yue glanced at Chen Zun.

"What if I want your Tinder Company to kill all the Nangong family members?"

Fang Yue's voice was cold.

From the day he came to Dream City, he had no intention of letting the Nangong family continue to exist!

Chen Zun reluctantly smiled: "Brother, you are really joking. This Nangong family is an ally of my Tinder Company. How can we attack our ally?"

"Who is your brother! How precious is the manufacturing method of this little devil, and your Tinder company will not even agree to the small condition of destroying the Nangong family! I really don't know how sincere your Tinder company is to me!"

Fang Yue glanced at Chen Zun.

He winked at the little demon behind him.

"Go and kill this Nangong Asagawa! If anyone blocks it, kill it!"

Fang Yue gave an order.

The little demon flapped its wings and flew over.

Nangong Asagawa is just the cultivation realm of the rotation realm, and there is no way to fight against the little devil of the Yin and Yang realm!

His only reliance is the three zombies at the Yin Yang level.

But the little devil appeared, and all three zombies bowed their heads, and they didn't even mean to protect him!

### **Chapter 1528: Nangong Change**

The little devil's betrayal made Nangong Asakawa feel a kind of surprise. He had never imagined that such a new little devil would stab him in the back at a critical moment.

Nangong Asakawa's face was surprised.

He seemed to have foreseen his fate.

Killers, kill them all.

Nangong Asakawa has long understood this truth, but the truth is all the same, and it is clear to understand, but no one thought that these things would eventually be fulfilled in their own body!

"kill!"

Fang Yue's voice fell.

The little devil hadn't done anything yet, and the three Yin-Yang level zombies had formed a character-shaped formation, besieging the Nangong Qianchuan.

They look at the little demon in the same way, which is the lower-level person's wagging pity to the upper-level person.

The little devil didn't even bother to do anything to Nangong Asakawa.

The three zombies have already started at the same time, each of them smashed Nangong Qianchuan with a single knife!

Nangong Qianchuan fell, not even a complete body.

The many soldiers on the wall were all stunned.

This is a shocking change!

It seems that this city is about to change ownership.

The Nangong family is almost the supreme existence in this dream city.

They said no two, any will can make a world-shaking change in this dream city!

For so many years, the Dream City has always been led by the major warlord families headed by the Nangong family. At the beginning, they had the idea of resistance, but as time passed, something called servility gradually deepened into the bone!

The Nangong family seems to be the sky of this dream city.

This day is so far away that no one can touch it, let alone destroy and shake.

Even if the folks occasionally appeared masters of the Yin and Yang level, either they chose to leave the Dream City, or they were thrown into the sect of the great warlord headed by the Nangong family to become their lackey!

No one has thought about shaking the status of the big families and warlords in this dream city.

The rise of Fengyun Academy seems to be a representative of the prince and general Xiangning!

However, Sima Changsheng alone is weak in power after all, and it is impossible for the students of Fengyun College to really be able to compete and compete with the major families in Dream City!

However, Fang Yue's arrival broke all these rules.

Nangong Qianchuan fell, and the zombies rebelled.

Even the middle-aged man in the suit of Tinder Company gave birth to a trace of panic.

For a long time, the unshakable myth of the Nangong family in this dream city has been shattered.

Does this young man still challenge the myth of Tinder Company?

Chen Zun looked at Fang Yue.

The light in his eyes flickered.

"Young man, you have offended the Nangong family, no one can protect you in this dream city! You should escape quickly!"

Originally, Chen Zun wanted to tell Fang Yue that only by investing in Tinder Company would you have a way to survive, but before he could say this, he just hesitated for a while and swallowed these words back. Up!

Chen Zun was silent.

The temple of Tinder Company is small, and it cannot accommodate the great Buddha of Xia Yue. Today's Tinder Company is still in the stage of wretched development, far from the stage of recruiting the world's heroes, revealing its brilliance, and competing for the world!

Fang Yue glanced at Chen Zun.

The smile on his face suddenly brightened.

"This Nangong Asagawa was killed by a zombie researched by your Tinder Company, what does it have to do with me?"

Fang Yue's voice was an understatement.

However, Chen Zun was speechless.

When he looked at Fang Yue again, he couldn't help but feel a blast of hairs and a cold sweat.

Fang Yue's slander was obvious, and they asked Tinder to take the blame for him.

However, he dare to say no?

Dare not!

Because the most famous method of Tinder Company is the research and control of zombies, once people find that the zombies under Tinder Company will go out of control.

The powerful wolf skin of Tinder will be torn off by life immediately, and then reveal the essence of a weak sheep!

Regardless of the dynasty or the empire, in fact, their strength in many cases is just the strength that imprints in people's hearts.

Because of this strength, they dare not resist when they oppress others, and they can only hand over the limited resources at hand to become the spoils of those dynasties or empires!

But when this powerful coat was exposed, it was the result of everyone pushing the wall down.

The whip that shepherds sentient beings has always been the fear imprinted in the hearts of sentient beings, not their powerful force.

Tinder Company must carry this scapegoat.

And the back is upright, so that people can't see the slightest flaw!

In the face of life and death, allies, what is it?

Chen Zun once again remembered the conditions Fang Yue had proposed to him.

Tinder company destroys the Nangong family, and then obtains the production technology of the little devil.

This is not a joke or a delusion, but a prediction made by Fang Yue, a prediction that is about to be realized!

"Fang Yue, your strength is really beyond my expectations!"

Chen Zun took a deep look at Fang Yue, and his breathing became calm.

Fang Yue smiled slightly: "The really powerful company is Tinder, not me. I'm just a clever person in Tinder!"

Chen Zun saw Fang Yue's seemingly humble expression, and he deeply understood that there was a deep pride hidden behind this humbleness, unshakable!

"After passing everything that happened here back to Tinder Company, the top management of Tinder Company will determine the current situation!"

There was a zombie crow in Chen Zun's palm. The zombie crow's face was lifeless. With its wings flapping, it quickly disappeared in front of Fang Yue and the others.

This is a unique communication tool belonging to Tinder Company.

It is difficult for others to seize their information.

Just a few breaths.

That zombie crow flew back with flapping wings!

In the crow's \*\*\*\* eyes, two bright red rays of light illuminated Chen Zun's forehead.

This is the communication of brain waves, a means of information communication that is similar to divine mind, but the principle is completely different!

Chen Zun was taken aback for a moment, and then he received instructions from his superiors.

"My three distinguished guests, the chairman of our Tinder Company in Dream City invites you to visit Tinder Company as a guest!"

Chen Zun's language was gentle and humble, without the high-mindedness of the beginning.

Others are all left here.

Even Sima Changsheng didn't say much.

Compared with the Nangong family, this fire company is the real demon dormant in the Dream City.

How powerful this Tinder company really is, I am afraid that even Chen Zun, who is the spokesperson of Tinder company in Dream City, cannot clearly describe it!

"it is good!"

Fang Yue agreed to Chen Zun's invitation, and he won't get into the tiger's lair!

At the same time, Chen Zun also arranged.

"The Nangong family has violated the cooperation agreement with my Tinder Company. Let the Nangong family pay the price today, and the dust will return to the dust!"

Chen Zun's voice fell.

All the zombies outside the city received instructions.

Fang Yue took a deep look at Chen Zun. The Nangong family, as powerful as they could almost dominate a city, was nothing more than a \*\*\*\* that could be sacrificed in the eyes of the Tinder family!

The strength of the Nangong family was created by the Tinder Company.

In the same way, Tinder Company wanted to completely destroy the Nangong family, and it was only Chen Zun's matter!

After that, endless zombies poured into the City of Fantasy Dreams like a tide, and the soldiers who used to obey the Nangong family turned a blind eye to them, allowing these zombies to rush into the city and run towards the station of the Nangong family. go with!

Fang Yue suddenly laughed: "This Nangong family is also really sad! They always think they are powerful, and they think they are the real masters of this dream city, but when Tinder Company really wants to destroy them, the former powerful Nangong The family has actually suffered a betrayal, and even their so-called trump card is nothing more than the fire company handed over to them!"

Fang Yue's laughter was full of irony.

And Sima Changsheng also lowered his eyebrows and pleasing his eyes, and he ignored the zombies entering the city.

He blocked the Nangong family, but he couldn't stop the pace of this Tinder company!

Tinder Company is the veritable owner of this dream city.

The Nangong family is nothing but an arrogant puppet launched by Tinder Company!

In one day, there was no Nangong in the dream city.

And Fang Yue followed Chen Zun's steps and entered the Tinder Company's residence in the Dream City!

"You are Fang Yue!"

The branch of Tinder Company in Dream City is not unassuming, it is just a five-story office building with only about 200 rooms!

Chen Zun led Fang Yue into a laboratory.

A gray-haired middle-aged man is still working tirelessly in biological experiments in front of the experimental platform.

Fang Yue and the three stood behind the middle-aged man and waited patiently.

No one urged, no one looked impatient.

After a long time, the middle-aged man completed the last process of the experiment in his hand, and then he slowly turned his head, and looked at Fang Yue with a smile!

He recognized Fang Yue at a glance.

And said Fang Yue's name.

Fang Yue frowned slightly.

"Are you from the Fang family?"

Fang Yue felt a sense of blood connection in this middle-aged man!

This blood connection does not come from flesh and blood but from the soul of the other party!

This soul is extremely powerful, and it can even make the surrounding time and space almost distorted!

It seems that this means that if he wants to, he can break free from the shackles of this sub-world at any time and leave here to go to the outer universe!

"you are?"

Fang Yue's attitude is relatively humble!

This should be an elder of the Fang family.

For now, although Fang Yue has not officially returned to the Fang family.

But everyone in the Fang family that I met had a very friendly attitude towards him!

"Fang Yu, a seed of the Fang family who stayed in this sub-world! I had heard a long time ago that a surprisingly talented Fang family disciple emerged in the Ten Thousand Realms Universe. Meet you in this environment!"

Fang Yu took off the white gloves.

Chen Zun also leaned back and left.

"This fleshy shell is not yours?"

Fang Yue raised his eyebrows. Although this physical body was not weak, it was still a natural difference compared to Fang Yu's unspeakable soul!

### **Chapter 1529: Fangjia everywhere**

"Yes, this is a clone that I temporarily borrowed. It belongs to one of my subordinates. Well, it's actually pretty good. In a place like Dream City where resources are scarce, you can cultivate to the peak of Yin and Yang realm. He is practicing talent. This aspect is still worthy of praise and praise! Before I leave, I will elevate him to the level of leader realm, which is my little feedback!"

Fang Yu said with a smile.

For him, raising from the peak of Yin-Yang realm to the realm of leader realm is nothing more than raising his hand.

But I don't know how many people dream of this kind of improvement!

This threshold, I don't know how many people will sit and die!

This threshold, I don't know how many people feel desperate and distressed for a lifetime!

But in Fang Yu's eyes, it was a thin layer of window paper. He casually took a bucket and banged, and it was broken!

This is the difference in realm.

A lot of things that are out of reach are just casually done in the eyes of others.

"People from the Fang family?!"

A strange color flashed in Wu Siyu's eyes!

As the eldest lady of the Wu family, Wu Siyu naturally knew the existence of the Fang family.

Even within the Galaxy Star Alliance, because of Fang Yue's surname, people once caused discussion. They were guessing whether Fang Yue was from the Fang family!

After all, there are simply too many people with the Fang family name in the universe of Ten Thousand Worlds, but there are really not many people in the Fang family.

Even Kang Yue once denied that Fang Yue was a member of the Fang family. The reason is quite simple!

If Fang Yue is really a member of the Fang family, why didn't the Fang family ever stand for Fang Yue when Fang Yue was suppressed by the Galaxy Star Alliance.

But when Fang Yu appeared, all the dust fell to the ground.

This Fang Yue turned out to be a disciple of that mysterious Fang family.

Fang Yue was silent, and did not reply to the ancestor of the Fang family.

The levels of the two are so different that even Fang Yue feels that they are not in the same world!

Although Fang Yue was only a clone, he still had his vision.

In his eyes, Fang Yu's existence is like Ruyizi and Fang Han's deity at the same level of existence!

It was an unpredictable level creature, unable to figure out their thoughts.

Seeing Fang Yue's cautious appearance, Fang Yu couldn't help but say, "Relax. Although our Fang family likes to raise disciples in the free-range family, if you come across a Fang family that you like or a better one while traveling outside, Disciples will take it with you!"

The smile on Fang Yu's face was quite rich.

But Fang Yue couldn't read any kindness from this smile.

This smile is more like a joke.

"Well, Fang Yue, you came to this sub-world, the real purpose is to get the civilization inheritance in this sub-world! In fact, you have acquired some of these civilization inheritance long ago! You summoned them before. That little devil is actually part of this heritage!"

Fang Yu's words came to an end.

This is testing Fang Yue's ability to understand.

"What the predecessors meant is that something in this ancient civilization is connected to the civilization of the other side of the universe? The results of the civilization are also very similar?"

Fang Yue said the guess in his heart.

The zombies and the little devil are obviously two species, but why do zombies obey the command of the little devil.

Fang Yue had already had his own thoughts on this phenomenon.

Just these thoughts, these guesses, never found a suitable person to verify him!

"Connected? Fang Yue, in fact, you are more like saying that the two civilizations are originally one! Two different civilization systems are isolated from each other, but in the end they produce the same species. This coincidence is not non-existent, but too small. Right!"

Fang Yu saw that Fang Yue was still smart, and started to give him some tips!

"Fang Yue, have you ever wondered why this Bian Universe is called Bian Universe? I feel a faint breath of Buddha in your body. You should know something about Buddhist scriptures! Bian is heaven. The place where the sea of bitterness and \*\*\*\* swim! And where is the sea of bitterness? In these three thousand worlds, there are thousands of elephants, and the sea of red dust is the bitter sea!

"Actually, this Buddhist scripture is telling us a truth. The people of this universe have escaped from these three thousand worlds. They are the inheritors of the true ancient civilizations, and this universe of ten thousand worlds has been living again and again. Complete destruction in the catastrophe!"

Fang Yu lightly revealed a shocking truth!

Fang Yue also verified the speculation in his mind.

"Actually, Buddha cultivators are truly ideal and ambitious people. After arriving in the universe, they have not forgotten the suffering sentient beings in this universe. Many Buddhas and Bodhisattvas have returned to spread the seeds of civilization. Cultivating sentient beings, so that the universe of the universe has hope again! If you have time, you can get in touch with some Buddhist civilizations, and you will gain a lot!"

Fang Yu enlightened Fang Yue.

Fang Yue couldn't help but nod. Many of the questions he couldn't figure out before, all suddenly came to light!

"Actually, I can provide you with a clue! That is the existence of the wasteland! This kind of sub-world can actually be regarded as a condensed version of the universe of the universe. The real prosperous place of the universe of the universe is just one of the worlds. Only face, these world planes are like cities in this sub-world! And beyond these prosperous cities, there are extremely vast wastelands, some of these wastelands have been completely deserted, Put an end to vitality, and some places still have traces of ancient civilizations. Those worlds are so-called taboo places!"

All the points are connected to form a thread, and countless threads are woven into a net.

Fang Yue was silent.

His heart was completely lit up all at once.

He finally understood the structure of this universe of Ten Thousand Worlds!

"Wasteland, forbidden place, city, world and plane! In fact, this universe of ten thousand worlds has long been hurt to the point of being wounded all over in the battle of civilizations. The universe of ten thousand worlds we see is only It's just the best aspect!"

Fang Yue suddenly realized!

This Fang Yu stayed here as if to completely enlighten him!

Following that, Fang Yue asked piously: "So how did the predecessors, the universe of ten thousand worlds, have to go through the calamity formed?"

"Degenerate and degenerate! This is the truth of the Buddhism, in fact, it is also the truth of the universe of the ten thousand worlds! The universe of the ten thousand worlds is a universe that is constantly nirvana and constantly changing! Every transformation requires the phoenix nirvana and rebirth from the ashes! It is a flame. If it can survive it, it can be stronger. If it can't survive it, it will gradually move toward Nirvana and defeat!"

Fang Yu's words, let Fang Yue and others carefully consider.

Except for Liu Xiang's own low level of vision and little understanding, both Fang Yue and Wu Siyu have gained a lot!

Their vision immediately improved by a level.

In fact, sometimes it is not that you can see far when you stand high, but you can stand high when you see far!

"Thank you seniors for teaching!"

Fang Yue clasped his fists to express his gratitude.

No matter what purpose this Fang Yu serves to teach himself these contents, this knowledge has a kind of feeling for Fang Yue.

He naturally wanted to thank Fang Yu!

"Don't be grateful, I have already said that, as the elders of the Fang family, it is an obligation to appoint outstanding disciples among the younger generations. Only in this way can our Fang family be able to stay in this universe forever from generation to generation. Handed down!"

Fang Yu waved his hand, and then took out a crystal skull.

Fang Yue looked at this crystal skull and looked very familiar. It seemed that there was also such a crystal skull in the earth.

If you stare at it, you will be hypnotized by it!

"This is an inheritance crystal of the seed world, but this inheritance crystal is not an inheritance crystal of biochemical civilization. It represents the witchcraft civilization in the ancient civilization. I hope you two can have this crystal after obtaining this crystal. Benefit!"

Fang Yu actually gave the crystal skull to Fang Yue.

It was obvious to him that the two people he was talking about were Fang Yue and Wu Siyu.

Fang Yue was slightly taken aback.

"Is this inheritance crystal just giving us two?"

Fang Yue felt that this script was completely different from what he had imagined!

In his imagination, this inheritance crystal should be extremely precious, and it takes a lot of hard work to get this crystal in his hands.

Even Fang Yue was ready to fight for life and death.

But this Fang Yu actually gave this inheritance crystal to him so simply?

This is completely different from Fang Yue's previous scene!

The corner of Fang Yu's mouth curled up with a faint smile.

"You can accept Fang Yue this thing! This right is supposed to be a meeting gift I gave you. If you are an elder, when you meet a junior, how can you not have something that you can tell?"

Fang Yu seems to know something.

But he was cunning like an old fox.

Fang Yue couldn't read the real thinking content in his heart from his eyes and expressions!

In the end, Fang Yue hesitated for a moment and had to accept this inheritance crystal!

"The method of comprehension of this inheritance crystal is actually quite simple. It only requires you two to stare at this inheritance crystal, and the ones that meet your own knowledge level will naturally come to your mind! Remember, this inheritance Crystal must ask the two of you to join hands to comprehend. As for the reason for this, you two will naturally know in the future!"

After Fang Yu finished speaking, the soul that could almost tear the void disappeared from the fleshy shell.

Under the influence of Fang Yu's soul, the flesh shell actually reached the level of the leader of the leader. It's a pity that the master of the body is still the peak level of the yin and yang at the level of the soul. If there is no breakthrough, he may only be a lifetime. This half-step teaches the main realm.

Obviously there is the body of the master realm, but there is no knowledge of the cultivation base of the master realm!

### **Chapter 1530: back to Earth**

When Fang Yue left the Tinder company and said goodbye to Liu Xiang briefly, then he and Wu Siyu decided to leave the Tinder world.

The two of them have already obtained a crystal of inheritance and cannot be overly greedy.

Moreover, the situation in this Galaxy Star Alliance is changing day by day. If they delay in this fire world for too long, unknown changes may occur in the outside world!

However, when Fang Yue and Wu Siyu left, they discovered that the place they came was not the Heavenly Capital City.

But came to a strange town.

In this small city, there are missionaries wearing scarlet robes everywhere, and their bodies are surrounded by the aura of flames, and they are all left-handed codes and right-handed scepters.

This seems to be a fairly classic costume.

"Vulcanism?"

Wu Siyu saw these people and identified their identities based on records in some documents in his mind.

"Old man Chen, it's your turn to pay the royal food again today! I heard that your granddaughter looks good, you can also hand over your granddaughter and bring us back to be a concubine. In this case, we can decide to dispense with it. Your royal food today!"

At this time, Fang Yue suddenly heard a familiar voice.

Isn't it Chinese?

And this place is connected with his blood!

If he didn't guess wrong, this should be the earth! And this location should be a certain county in China.

But how could there be Vulcanists in China?

Fang Yue turned his eyes slightly, he saw a fat missionary in front of a store and an old man with a dry figure and snow-white hair.

The oil on the missionary's face shone faintly in the sun.

"Master of the Vulcan Sect, please let us go! The five hundred spirit stones prescribed by the Vulcan Sect every year are too high. Our little family can't afford it!"

The thin old man Chen pleaded bitterly.

The chubby middle-aged monk raised his leg to Old Man Chen with a kick.

This kick kicked Old Man Chen directly.

Then he said fiercely: "Since there is no spirit stone, use the store and people as mortgage! Your granddaughter handed it over obediently, and then passed your store to us!"

The expression on the face of the plump middle-aged monk was even more fierce.

He looked at his brows and raised his eyebrows diagonally, completely bullying and domineering!

The old man Chen shivered, but still couldn't help begging hard.

"My lord, let us go! My granddaughter is only twelve years old, you can't do that!"

Old man Chen hugged the thigh of the middle-aged missionary and pleaded bitterly.

Then the middle-aged missionary suddenly raised his leg and kicked Old Man Chen directly!

How could Old Man Chen's thin body withstand such an attack? He didn't know how many ribs he had broken, and he vomited blood constantly on the ground.

"You old thing, please? You're a fart! To tell you the truth, you earthly ants are not even a fart in the eyes of our Vulcan Sect. If it is not for worrying that there are still dormant saints on the earth. Well, this whole earth has long been taught by our Vulcan God to be sold as a slave planet! You still have a way to survive if you hand over your granddaughter obediently, otherwise, your old Chen family and the whole family, don't even want to live!"

Fang Yue finally couldn't stand it anymore!

He walked over with a sullen face.

"Vulcanism? You are very arrogant on earth, aren't you?"

Fang Yue suddenly appeared in front of the fat middle-aged missionary and asked angrily.

The fat middle-aged missionary was shocked when he saw Fang Yue suddenly appear in front of him, but soon he recovered.

Looking at Fang Yue, he said sadly: "What kind of thing do you dare to question me?"

"What kind of thing am I? Hahaha, you dare to talk to me like that for a little trash at the pinnacle level of the world?"

Fang Yue's breath broke out instantly, and the fat middle-aged monk was forced to lie on the ground!

"Just for you, I will break every bone in your body inch by inch, and let you know what I am!"

Fang Yue's foot fell on the palm of the fat middle-aged missionary, and with a slight force, the palm of the fat middle-aged missionary immediately heard a click, a click.

His bones are cracked, and the pain is sharp!

The fat middle-aged missionary looked at Fang Yue with hatred in his eyes!

"Don't be arrogant, my compatriots of the Vulcan Sect will come right away, and then you will cut your body into pieces and put to death in public!"

Fang Yue slapped the fat middle-aged missionary with a loud slap.

"Noisy! Just you, you don't deserve to speak in front of me!"

The suppressed anger in Fang Yue's voice almost erupted like a volcano!

On earth, in China, he never thought that someone could bully China people like this!

Whoever commits China will be punishable even though it is far away!

No matter what origin or origin of this Vulcan Sect, this Vulcan Sect is destroyed this time!

Although the fat middle-aged missionary smelled of intimidation, what he said was true!

In a moment of effort, there were teams of Vulcan cultivators flying over here.

"Stop it to me!"

Those Vulcan cultivators surrounded Fang Yue and Tuantuan. Most of them were cultivation bases at the Heaven and Earth realm level, and only a few were at the rotation realm level!

Fang Yue glanced at them coldly.

"Noisy, find someone who is above the Yin and Yang level to talk to me! You don't even have the qualifications to communicate with me!"

Fang Yue's sleeves waved slightly.

A gang wind suddenly formed in the air, and that gang wind turned into an infinite blade in an instant, born out of the void, and then slashed towards the group of Vulcan cultivators!

In an instant, the rain of blood was pouring in the sky, and all the Vulcan cultivators were cut into pieces by Fang Yue!

Regardless of whether it is the world or the rotation, in Fang Yue's eyes, all are ants, and he is not even qualified to resist!

Seeing this scene, Wu Siyu also felt a bit chill in her spine. She thought that she had known Fang Yue for a long time, but she had never seen this time when Fang Yue was so angry!

The pouring rain of blood made the entire city become peaceful.

This Vulcanism's lewd prestige is becoming stronger and stronger in China, and it has reached the point where people dare to be angry but dare not speak!

And when Fang Yue was born, he suddenly wiped out dozens or even hundreds of Vulcan missionaries.

Such courage, such means, overturning the clouds and rain, made the surrounding missionaries of Vulcanism all scared.

"You dare to touch my Vulcan sect. You are really impatient to live. Could it be that during this period of time, my Vulcan sect has not killed enough people, and the killing was not cruel enough to let you Chinese ants? Is there any hope of turning over again?"

At this time, a white-clothed chief priest of the Vulcan Sect at the Yin-Yang level slowly walked out.

His figure is burly and huge, like a meat mountain!

His face was fierce, and there was actually a human cultivator's thigh in his hand. He ate that thigh bit by bit, and the blood on the corner of his mouth was not wiped!

Fang Yue's anger burned more vigorously when he saw this scene.

Raw human flesh!

The chief priest of the Fire God Sect turned out to be a man-eating monster.

Originally, Fang Yue wanted to question the Vulcan Sect.

But now, Fang Yue didn't even have the feeling of questioning, he just wanted to slap this thing to death!

"You \*\*\*\* it!"

Fang Yue roared again.

His roar shook the sky, and unexpectedly roared the chief priest in white clothes at the Yin-Yang level to death. His body burst into pieces and turned into a thick blood mist.

One of the frightened souls emerged and was detained by Fang Yue.

How can this white priest think of what kind of evil star he has provoked.

He is a powerful person in the Yin-Yang realm, even if it is placed in the ten thousand realms, it is a large-energy existence that can call the wind and rain.

However, he was actually smashed into pieces by a human cultivator at the rotation level!

This is beyond his understanding!

"Fang Yue, that's enough. This Vulcan sect is an important sect in the Galaxy Star Alliance. It should be included in the top 100 sects. They should be regarded as the existence of almost first-class forces. The real clan elders are dispatched, you are not their opponent at all!"

Wu Siyu discouraged Fang Yue.

She had completely recalled all this information about Vulcanism.

Fang Yue's mouth raised an indifferent smile: "This earth, this China is my mother star, my motherland, this is where my roots are. If this root is gone, how can my leaf be? Go live! No matter how powerful his Vulcanism is, I won't let them trample on my Chinese land like this!"

At this moment, Fang Yue had a hint of magic.

The soul of the white priest of the Fire God sect was trembling in his hands.

"If you dare to eat my Chinese cultivator, I will send you to the eighteenth layer of \*\*\*\* and suffer endless pain and suffering!"

Fang Yue's fingers opened a door in the void in front of him, and then gently pushed the soul of the Vulcan Sect's white priest into the underworld.

"This is the gateway to the underworld! Fang Yue, how many terrifying means are you hiding!"

Wu Siyu originally wanted to dissuade Fang Yue, but she didn't expect Fang Yue to be so powerful!

The underworld is the most mysterious place in this world, and its status can be equal to the immortal world!

Being able to open the gate of the underworld proved that Fang Yue was stronger and more detached than she had imagined!

Perhaps Fang Yue can change the situation of this earth with one person!

"Run, run quickly, this is the birth of a demon from China, and even the white-clothed priest has fallen, so quickly let the strong in the punishment center catch this guy!"

A Vulcan missionary began to flee, and then panic spread like a plague.

Other Vulcan missionaries followed his steps and fled.

And Fang Yue's mouth curled up with a strange smile: "Run? Do you think you can run?"
