

## God of Life 1561

### Chapter 1561: Shameless!

Sure enough, a figure suddenly appeared in front of Fang Yue and Wu Siyu.

The owner of this figure is the only Ye Wushuang among the high-levels of the Galaxy Star Alliance who has some face with Fang Yue.

Ye Wushuang glanced at Fang Yue deeply, and then at Wu Siyu again.

"Fang Yue, I didn't expect that I underestimated you in the end, and also underestimated the Wu family."

Fang Yue grinned, his lips were red and his teeth were white. In front of the Great Sage, perhaps he was the only one who dared such a presumptuous rotation state!

"Senior Ye Wushuang, do you have any instructions this time?"

Fang Yue's voice is hearty, without fear!

"Haha, Fang Yue is still smart for you, retreating as advancing, this time the persecuting Galaxy Star Alliance has to bow to you!"

Ye Wushuang's laughter actually showed a sense of helplessness. After all, from a certain point of view, he is also a member of the Galaxy Star Alliance. The dignified Galaxy Star Alliance bowed his head to a junior. Thinking about it, I felt a little aggrieved. .

How powerful was the former Galactic Alliance.

Today, the Galaxy Star Alliance has been smacked by a group of villains.

"Now bowing my head is probably for stronger revenge in the future!"

Fang Yue's smile remained undiminished, everything he had thought of.

"Fang Yue, the Galactic Alliance canonized you as the Supervisor of the 108th Legion of the Galactic Alliance, and your status has been upgraded to the Diamond Seed of the Galactic Alliance Rotational Seed!"

Ye Wushuang's appointment of Fang Yue's identity was quite simple, and he didn't even have a word of nonsense.

Because the high-level of the Galaxy Star Alliance estimated that even if Fang Yue gave Fang Yue more rewards, it would be nonsense!

The relationship between the two parties, both sides know very well, but they do not tear their skins, or if they tear their skins, they should be treated as not torn!

"My permissions in the Galaxy Star Alliance have also been restored?"

Fang Yue looked at Ye Wushuang with a smile.

Ye Wushuang nodded slightly: "All are restored, and the authority is greater than before!"

"Okay! Then I'll just run for it!"

Fang Yue looked at Ye Wushuang, waiting for his next stubble.

If there is nothing else, Ye Wushuang doesn't need to be there, as long as he finds a subordinate at the Saint level to announce the appointment!

Sure enough, Ye Wushuang groaned for a moment, and then he said, "The Galaxy Star Alliance wants you to be a scapegoat this time! This 108th Legion has a very bad reputation! The people in it will not listen to your dispatch. Moreover, their combat mission is to destroy the Feitian tribe. This has become the responsibility of the legion commander. You are just an inspector and you are defeated. Maybe the Galaxy Star Alliance will shirk all the responsibility on you!"

Ye Wushuang's voice trembled a little. He did not expect that the Galaxy Star Alliance would be so vicious!

If he knew this, he would rather not introduce Fang Yue into the Galaxy Star Alliance!

"I know!"

Fang Yue waved his hand and said impatiently. He didn't expect that Ye Wushuang would come here just to say this.

After that, Ye Wushuang hesitated for a moment, and he said again: "One more thing, Fang Yue, you must be careful that Kang Yuehui will use it! This appointment was personally proposed by him!"

Fang Yue nodded: "The Vulcan Sect has nothing to do with Kang Yue! But Kang Yue's relationship with Vulcan Sect is about to break! The Vulcan Sect has killed so many saints, but the Kang family is. Don't even dare to put a fart!"

Fang Yue laughed loudly.

Then, Ye Wushuang told him a few more words and left!

"Fang Yue, do you really decide to go there?"

Wu Siyu couldn't help looking at Fang Yue.

Fang Yue said with a sneer: "It's just a ray of spiritual energy. If you lose it, you will lose!"

"But this Hundred and Eighth Legion is one of the elites in the hands of this Galaxy Star Alliance. They are not worried that I will sell this Legion?"

A touch of evil appeared on Fang Yue's face!

Wu Siyu has no bottom in his heart, and I don't know what abacus Fang Yue is playing!

Three days later.

In a planet in the north of the Milky Way galaxy.

Fang Yue's spiritual energy clone descended!

This planet is the planet occupied by the Feitian tribe, and the name of the planet is Feitianxing.

In fact, from the name, you can tell that this planet was originally from the Feitian clan, and the reason why it was ultimately reduced to the human race's hands was because the Feitian clan was sleeping!

It used to be the dove occupying the magpie's nest, but now it is the original owner.

But this flying star was besieged by the 108th Legion of the Galaxy Star Alliance.

Now even a fly can't fly in.

"Take me to see your emperor!"

Fang Yue appeared in front of a palace of Flying Star.

He calmly looked at a flying warrior guarding the gate.

The Feitian clan only determines the level of identity based on blood line and cultivation, and the strongest in the clan is the emperor.

The Feitian tribe has a population of one billion.

Among them, there are as many as three emperors, and each emperor is equivalent to a virtual fairyland powerhouse in the human race!

These three emperors are said to be clones of a powerful flying clan, but no one confirmed!

This time Fang Yue saw the most powerful of the three emperors Yuhuang, his position in the flying clan is extremely high!

"welcome!"

The soldier in front of the palace has not yet spoken.

Emperor Yu had already sensed Fang Yue's arrival.

Emperor Yu's voice was powerful and mighty, and Fang Yue was invited into the palace!

"please!"

The flying fighters in front of the palace led Fang Yue into the palace.

Fang Yue entered the palace, and there was only Emperor Yu in the huge palace.

This feather emperor is not majestic, dressed in blue clothes, holding a scroll in his hand, like a teacher, behind him is a pair of wings evolved from energy, giving people a feeling of detachment!

"Unexpectedly, the Supervisors of the 108th Legion in this Galaxy Star League would actually be private to me?"

Emperor Yu looked at Fang Yue with a smile.

The arrival of Fang Yue was actually in his expectation!

Fang Yue is one of the few young people below the saint level in the Galactic Alliance that Emperor Yu pays attention to!

Emperor Yu also understood Fang Yue's character.

"Private meeting? Haha, let alone I seem to be betraying the human race! Lord Yu, what you hide is really deep! I am afraid that the flying race in this flying planet has already awakened a long time ago! Then you all pretended to be the human race and lived on this planet! Then, yesterday, you collectively showed the appearance of the flying race, so there are rumors outside that you ate all the human races on the planet!"

Fang Yue's words broke the secret of the Flying Clan.

Emperor Yu closed the scroll in his hand.

"I didn't expect this to be seen through by you!"

Emperor Yu did not deny, in fact, denying also made sense.

Because this is true.

Can't hide or hide it!

"I want to join forces with Emperor Yu, I wonder if Emperor Yu is willing?"

Fang Yue looked at Emperor Yu with scorching eyes.

Emperor Yu was slightly moved, "How to join hands, why not speak out and listen!"

"Let the Flying Clan become a human race again, and then turn this Hundred and Eighth Legion into yours and mine!"

Fang Yue was generous when he spoke.

"Fang Yue, do you know that there is a strong man in the Great Saint Realm in this 108th Legion, and there are also a hundred strong men in the Saint Realm as the commander? This one hundred and eighth legion can be regarded as the Galaxy Star League A trump card in my hand, even I dare not say to destroy the 108th Legion of the Galaxy Alliance!"

The Emperor Yu looked at Fang Yue, frowning slightly.

Fang Yue spoke again.

"That great saint is actually his own! As long as I speak, he will definitely close one eye! As for the hundred saints, you only need to remove some of the disobedient!"

Fang Yue's voice shocked Emperor Yu again.

"Your own person? Fang Yue, apart from Ye Wushuang in this Galaxy Star Alliance, it seems that there is no strong man in the Great Sacred Realm standing by your side!"

Emperor Yu hesitated, Fang Yue's tone seemed too loud!

Fang Yue laughed loudly: "This great sage is a clone of Lord Ye Wushuang! Everyone in the Galaxy Alliance knows that Lord Ye Wushuang is weak, but who knows that his layout is deeper than anyone else!"

Emperor Yu was completely stunned.

He didn't even know the news.

"But it is said that the great sage Bai Ruyu who is in the 108th Army and Lord Ye Wushuang have always been at odds!"

But as soon as the emperor's words were spoken, he immediately patted his forehead.

"I said this wrong! I'm afraid this is also Master Ye Wushuang's layout!"

Fang Yue nodded.

"exactly!"

Emperor Yu now understands thoroughly.

It turns out that Ye Wushuang is the deepest hidden veteran in the Galaxy Star Alliance.

Seeing Emperor Yu's calm expression, Fang Yue also admired Emperor Yu's effort.

Three days ago, when Ye Wushuang came to him, he was telling him on the face, but in fact he was secretly speaking to explain the real situation of the 108th Army!

The emotions in Fang Yue's heart at the time were like a wave of waves that could not be calmed down.

But today's Yuhuang has seen many winds and waves.

He didn't take Ye Wushuang's methods into consideration either!

"If Ye Wushuang really has this intention, my Feitian Clan will naturally agree. In fact, everyone knows the truth of this shot. I don't want to be the target of the Feitian Clan! And my Feitian Clan has no malice towards Humans, even We are willing to live in peace with the human race!"

Yuhuang spoke, politely.

However, Fang Yue just smiled, and he couldn't believe what Yu Huang said.

"This is the avatar token given to me by Senior Ye Wushuang. All you need is a ray of Yu Emperor's spirit to fall into it, and Senior Ye Wushuang will evolve a projection clone to communicate with Yu Emperor. To be honest, Master Ye Wushuang would not dare Come and talk to Emperor Yu himself! If the emperor Yu shoots Senior Ye Wushuang's deity to death, then he won't even have a place to cry!"

Fang Yue directly told Ye Wushuang's mentality!

Emperor Yu was also slightly taken aback.

After that, Emperor Yu laughed loudly: "You kid is confessed. I'm afraid you are not the deity!"

"Aura avatar, I am also afraid of death!"

Fang Yue spoke honestly.

Emperor Yu smiled and said: "You bastard, you are honest. In fact, even if you are the deity, I dare not take you. Yesterday, Fang Han, a senior of your Fang family, had already transmitted to me. If my Feitian

clan dared to touch one of your hairs, the Fang family would have destroyed my entire clan! That Senior Fang Han is unfathomable, even I can't provoke him!"

Chapter 1562: Help from the Galaxy Bank

"Senior Fang Han's reminder?"

When Fang Yue heard this, he couldn't help but startled a little. He didn't expect Fang Han to warn Emperor Yu in advance. No wonder, the process of seeing Emperor Yu went so smoothly. It turned out that there was Fang Han's factor!

"Master Yu, please keep it secret. Don't easily reveal the existence of Master Fang Han of our Fang family! Although I am not an enemy of the Fang family, Yomo also knows some plans about the Fang family! The Fang family secretly observes the Ten Thousand Realms, Lao Zi Layout, I don't want to be too aware of the Fang family's existence!"

Fang Yue is still polite, but since Fang Han came forward to support him, then he was a lot harder.

This Fang Han must have appeared from the deity, but he did not expect that he has recovered to this level now!

Fang Yue also knew that Fang Han had never been idle in the Heavenly Capital King City. He was collecting various materials from everywhere, so that the deity could speed up the pace of recovery, and strive to surpass the siege of the ruined demons as soon as possible!

Emperor Yu smiled and said: "I understand this naturally! Although I haven't seen some things about the Fang family with my own eyes, I can hear some things too! The hands of the Fang family are all over the universe, even the universe. Other universes have their own layout! Although I am not weak in the Feitian Clan, compared with the Fang family's masterpiece, it is still more than one level behind!"

"I don't want to die! So naturally, I won't reveal all the information about Fang's family!"

After the emperor Yu finished speaking, Fang Yue's aura clone had temporarily retired!

The rest is just the negotiation between Ye Wushuang and Yuhuang!

What kind of agreement they reached in private, Fang Yue didn't care!

In fact, Fang Yue only played a role as a matchmaking bridge this time, and in return, Ye Wushuang would transfer a part of the one hundred and eighth army to Fang Yue's subordinates, and he would no longer interfere with any actions of these people. .

At the same time, Fang Yue's deity has returned to the earth!

This Vulcanism is war or peace, and there will be a conclusion during this period!

If the Vulcanism is really the \*\*\*\* who eats scales and is determined to open fire with the earth, Fang Yue will not be merciful!

Some killer features that have been prepared for Vulcan Sect will naturally be taken out in the same way, let Vulcan Sect know how powerful the earth is!

Fang Yue just returned to the earth, Fang Yue saw a bright red light in the atmosphere!

Heads of scarlet flamingo flew in the air, causing the earth's temperature to rise drastically, at least by about ten degrees!

The flamingoes on these heads were expressionless. They spewed flames from their mouths and burned the earth, trying to burn the earth to ashes!

Fang Yue saw this scene, his heart was slightly cold!

From a certain perspective, this flamingo should also be regarded as a creature of the ancient times. This is a powerful and terrifying race. The individual strength is extremely high. They live by swallowing fire and have a strong understanding of the flame avenue!

"Who put the flamingo on top of the earth! Are they sincerely trying to destroy the earth?"

Fang Yue said to himself, his anger was burning again!

"No, these flamingos are not real flamingos. They only have the strength of part of the flamingo, and they don't have the feeling of being sheltered by the avenue of flames!"

Fang Yue calmed down quickly. He was going to take action and kill all these flamingoes!

But he suddenly realized something was wrong!

There are definitely a lot of masters on this earth today. Among them, there are at least dozens of experts in the saint realm. Some of them may be held back by the people of Vulcanism, but the remaining large numbers of experts want to destroy It is not difficult to drop these flamingo judging in the air!

So why didn't the saints on earth put out these flamingos?

There must be reasons why those are saints!

Fang Yue figured out the key, but he didn't attack those flamingos.

He flew from the atmosphere to the ground of the earth!

Landed in a small city in Nanjiang Province, China!

In the city, the sound of screaming for killing rose to the sky, and the earthlings and the missionaries of the Vulcan sect were fighting hard!

They attacked each other, you came and I met, and in terms of fighting skills, the missionaries of the Vulcanism were obviously higher.

They were fighting street and street battles, not the two armies facing each other. Three or five people from both sides formed a small battle group and played against each other separately. The missionaries of the Vulcanism were more good at various arts and martial arts! But the people of the earth are not letting the wind fall in the slightest. They use all kinds of messy methods together, including guns and artillery! Some people even went directly into battle wearing a mecha!

Fang Yue was stunned. Are the inhabitants of this earth already sturdy enough?

A mecha is only about three meters in height, and its hard iron shell can barely resist attacks at the rotation level!

The man who controls the mecha is a young man from the earth. He is full of attention, his limbs and body are covered by mecha, and the star crystals behind him are providing energy for him!

With every shot, the mecha will amplify his power several times!

He himself is only at the pinnacle level of the heaven and earth realm, but under the protection of the mecha and the magnification of the power of martial arts moves, every move has a power comparable to that of the ordinary beginners in the rotation realm!

At the same time, there are particle laser cannons on his shoulders, which can instantly penetrate the body of the Vulcan missionary at the rotation level!

He holds a big sword in both hands, slashing at will, he has the power of breaking the earth!

"Is this a combination of technological civilization and cultivator civilization? There is even such a fighting method! If this is seen by those old antiques, it will definitely be subverted!"

Fang Yue said to himself, did not rush to intervene, the fighting and fighting between the two sides!

Because Fang Yue could see, this young man had gradually mastered his fighting rhythm.

He and the five missionaries of the Vulcan sect at the pinnacle level of the heaven and earth realm fought with each other, and he was able to guarantee that he would not fall into the wind!

Occasionally, beams of particle light swept down, and they were able to intervene in the distant battle.

The particle beam takes advantage of the situation, and often kills some missionaries of the Vulcan cult at the heaven and earth level in the distance!

"The growth potential of the people on Earth is amazing! This is the battle plan provided by our Galaxy Bank! I didn't expect that the speed they mastered is so amazing, and they have mastered all these methods in such a short period of time! "

Beside Fang Yue, Jona's voice appeared. She was dressed in a black lady's suit, just like an earth professional woman.

The faint mouth is decorated with vermilion lips!

A shawl with long hair!

Jona's perfect figure was wrapped and shaped by that black suit. It was curvy and bumpy!

"Master Jona, is it your battle plan for the inhabitants of the earth?"

Fang Yue looked at Jonah in surprise. Although he and Galaxy Bank have a close cooperation, the real relationship has not yet become so close.

Fang Yue knew very well in his heart that his alliance with the Galaxy Bank was entirely due to the common enemy Vulcanism, and at the same time, the relationship between him and the Galaxy Alliance was more of a use relationship!

Jonah smiled, all smiles.

Her eyes are curved like crescent moons, and her eyebrows are like daisies. There is a smell of a woman in the painting!

Fang Yue turned out to be a little silly for a while.

But Fang Yue is also a decisive and determined person.

Soon, Fang Yue returned to his normal state.

"This time, the Vulcan Sect is acting against it, and even the Kang family and other families want to form the Vulcan Alliance to contend for the galaxy. My Galaxy Bank, as a member of this galaxy, should help the earth fight Vulcanism!

Jonah's words are very informative.

"This Vulcan Sect is acting against it and wants to form the Vulcan Alliance? Why don't I know this? What is the attitude of the Galaxy Star Alliance?"

Fang Yue's eyes widened, the result of this was completely beyond his expectations!

"This news has not really spread, but according to the list in our hands, the initial members of the Vulcan Alliance cover almost one-third of the Milky Way galaxy! You must know that although this Galaxy Alliance is nominally this The leader of the galaxy, but the real territory that can be controlled is less than one-fifth of the entire galaxy!"

"Besides, what else can the Galaxy Alliance say? I can only pretend that I don't know anything! In this Galaxy Alliance, 30% of the family forces have already taken refuge in the Vulcan Alliance. If the gods turn their faces, I am afraid that the Galaxy Star Alliance will face a situation of disintegration in the first place!"

Jonah curled her lips and was quite disdainful of the Galaxy Alliance. The current Galaxy Alliance is no longer the former Galaxy Alliance. The former Galaxy Alliance is so powerful, so united, so worthy of respect, and now the Galaxy Alliance The inside of the league is full of mist.

Fang Yue was silent for a moment.

"Did you give me the earth's equipment free of charge by your Galaxy Bank or sold it to me?"

"The essence of my Galaxy Bank is a merchant. We can't give these things to you for free! But these equipment, we are based on the cost price, some of the equipment is even only 30% or 50% of the market price!"

Jona was not embarrassed when she was doing business.

Merchants, doing business, this is the case.

"Then Earth has paid you all these equipment at the price?"

Fang Yue looked at Jonah.

He felt that the people on earth should not have so much wealth.

"The total price is 3 billion lower-grade spirit stones. In the first transaction, the quantity of this goods is not as large as you think! The strong people of the earth are very happy to use spirit stones to pay for it!"

Jonah smiled and said: "In fact, you have to thank the previous war on the plane of the dark moon before the earth. That war was protracted. Although it caused a lot of casualties on your planet and some loss of resources, it was also for the planet. A group of warriors with perseverance and good fighting skills have been created!"

"The most important thing is that those practitioners of the Dark Moon plane fell to the earth and brought massive resources and spirit stones to the earth! The mere 3 billion spirit stones are actually not too big for today's earth. number!"

Jonah said in praise.

Chapter 1563: There is no free lunch in the world

Fang Yue was silent for a moment.

"The flamingo in the sky is also a masterpiece of Vulcanism?"

Jona nodded: "Naturally, these flamingoes are actually ferocious beasts raised by the Vulcan Church and do not completely obey their orders. From a certain perspective, they can be regarded as defective products! But these flamingoes are from a certain kind of To a certain extent, it is not a special fault. At least their strength is not weak, and their fierceness is extremely strong. Those bloodthirsty instincts have penetrated into their bones! Release them, no matter where they are placed, they can be extremely powerful. Destruction!"

"These flamingoes are not killed. The saints on earth deliberately did it. Their real idea is to use these flamingoes as whetstones for the natives of the earth?"

Fang Yue had already guessed about the intentions of those earth saints.

Jonah nodded: "This is the point worthy of admiration for the saints on the earth. They are all foresight and profound wisdom! If they were changed to other planets, the saints would have taken action when they saw this scene. ,? But the saints of the earth are secretly helping the earth's practitioners, spreading advanced techniques, and arranging various fairy relationships, but none of them personally helped!"

Fang Yue took a deep breath.

He suddenly realized that the saints on this earth are not simple.

"The rise and fall of this earth is not determined by a single person or a few people! If this earth wants to become truly strong, it must be passed on from generation to generation to achieve the strength of the entire ethnic group!"

Fang Yue finally understood that in fact, some of the things he did before have fallen into paranoia!

The sage does nothing and governs by hanging down.

This inaction is not an absolute spectator and cold-eyed, but a secret promotion, doing everything!

The longevity and prosperity of this earth is not his own responsibility, but it requires the joint efforts of all peoples on the earth to make this earth peaceful forever!

"How about it? Fang Yue, do you want to deepen the cooperation with our Galaxy Bank? As I said earlier, our Galaxy Bank started as a business. You know that if we can afford the resources that make my Galaxy Star Alliance heartwarming, our Galaxy Bank It can make the earth prosper quickly!"

Jonah bewitched, this Fang Yue is the real gold master!

Leaving aside the numbers in his account, just the unique resources in his hands are enough for Galaxy Bank to include him in the ranks of key customers!

Fang Yue shook his head slightly: "Let's go with the flow! Now, the Galaxy Bank actually has a lot of resources to the earth! If there are too many resources, it is inevitable that the natives of the earth will not know whether to cherish and not spend every minute of the resources. On the blade!"

Fang Yue doesn't want to interfere with the growth of the creatures on the earth too much, it is enough to give them hope and proper protection!

There was no loss in Jonah's eyes.

"Young Master Fang Yue is really foresight!"

"But in fact, some of these resources should be given! Your Galaxy Bank should have a very deep network and many observers on our planet. If you find people with outstanding talents, you can give them some resources for in-depth training! As for the cost of resources can be deducted from my account, the annual number should not exceed the number of tens of billions of spirit stones!"

Fang Yue spoke again. He didn't make a move, and he made a big move.

The resource investment of this pepper-spreading mode is actually like finding a needle in a haystack! And if some resources are given to some talented and transcendent earth arrogant, the effect will be completely different!

"Besides, there are 1,000 drops of Yizhuan Baicao Liquid, 500 drops of Innate Water, and 100 drops of Divine Demon Liquid. You can also give the Tianjiao of the earth you think is gifted as a foundation! The foundation of this practice must be solid, otherwise, the road to practice will become narrower and narrower in the future!"

Fang Yue once again made a big deal.

The smile on Jona's face gradually faded.

"The innate water is a rare treasure to build a foundation, cleanse the foundation, and even increase the qualifications to a level. There is no inventory of this innate water in our Galaxy Bank, and Fang Yue's yours One-turn Baicao Liquid is not only capable of prolonging lifespan. We have studied that your One-turn Baicao Liquid can protect the internal organs and its value is infinite! Even some powerful elders want to spend a lot of money in exchange for it. , Build a foundation for your children and grandchildren. Are you really willing to arrange these things for us to cultivate the natives on earth?"

Qiao Na knew that Fang Yue had rich and rare resources, but she did not expect that the resources in his hands were so rich and rare!

Innate water, this is what they all dream of, but this thing can't be met. The foundation of this talent is a gift from heaven, how could it make them change so easily!

"Actually, your Galaxy Bank is also located on the earth, isn't it? You want the earth to attract as many Vulcanism or Vulcan Alliance's manpower and resources!"

"Everyone is willing to set up the main battlefield on the territory of other people's homes instead of firing at their own door, right?"

Fang Yue looked at the Galaxy Bank with a smile.

This Galaxy Bank has spared no effort to help the earth, they also have their own selfish hearts!

The stronger the earth, the more manpower and strength this Vulcanism is involved.

At this time, their Galaxy Bank will be able to free up their hands to carry out raids and layouts in other places!

There is no embarrassment on Jona's face, even though their thoughts are exposed by Fang Yue, Jona does not think there is anything wrong with this calculation.

"Why, Fang Yue, do you think my Galaxy Bank is using you?"

Jonah looked at Fang Yue with an unabated smile on her face.

"No! Use each other. Without the resources provided by your Galaxy Bank, the indigenous peoples of the earth would not have grown so fast! It's just that there are some things, it's better to say it! Of course, this earth will definitely not always delay The main battlefield for the expansion of the main Vulcan cult! If the earth really grows up one day, we will expel all the Vulcan cult from the territories of the earth!"

Fang Yue's eyes were full of firm divine light!

Jonah smiled and said, "I hope this day will come soon!"

At this time, the young man with the manipulator mech combat slashed three missionaries at the peak level of the Vulcan Sect. He was covered in blood. Of course, the blood spilled on this mech was the blood of the powerful Vulcan Sect!

However, killing the three Vulcan sect missionaries at the heaven and earth level was not without cost. The three Vulcan sect missionaries at the heaven and earth level joined forces to counterattack and almost maimed the boy's mecha.

The iron plates in many places have been sunken in!

And the energy in the mecha has been exhausted!

The boy had no choice but to get out of the mecha and looked at the tattered mecha. The boy had no regrets. A mecha could kill three missionaries of the Vulcan religion at the peak level of the world. He felt that the price was also high. Worth it.

At this time, seeing the boy lost his mecha, five or six Vulcan world missionaries who had kept a distance from the boy came over unkindly.

They bully the soft and fear the hard, and if the young can still manipulate the mecha, they absolutely dare not provoke it.

However, the boy who lost the mech looked like a tiger with its teeth removed in their eyes!

The smiles on their faces were cold, and a pair of eyes flashed with cold light!

"Chen Mu you are dead this time!"

One of the Vulcan missionaries spoke up.

Chen Mu is silent and has no joy or sorrow on his face. Once he has emotions, he cannot guarantee his sanity. Although his power may be blessed and exploded with the help of emotions, his control over himself will also decrease accordingly. !

With a click, Chen Mu removed the particle laser cannon on the shoulder of the mecha. Although the mecha was damaged, some parts and weapons could still be used!

In an instant, the muzzle of the particle laser cannon was aimed at the Vulcan monk who opened his mouth.

No screaming, no anger.

Chen Mu pulled the trigger.

A beam of light penetrated the chest of the cultivator of the Vulcan Sect of Heaven and Earth level.

"This is? Am I dead?"

The cultivator of the Vulcanism world level couldn't help being stunned. He lowered his head and looked at the bowl-sized wound on his chest, his eyes filled with incredible expressions!

The mecha was damaged. He thought that Chen Mu had already reached the end, but who could have imagined that Chen Mu would be able to disassemble the particle laser cannon in a short time and kill him mercilessly!

"the fourth!"

Chen Mu said three words, and he silently counted the number of Vulcan world missionaries he killed!

The remaining four Vulcan missionaries are all vigilant, a lesson for us!

Chen Mu, who thought he would be the end, was able to explode such terrifying lethality!

When Fang Yue saw this scene, he also showed appreciation.

"This kid is ruthless and calm enough. Although the talent and aptitude for cultivation are not very good, the fighting spirit alone is enough for me to focus on training!"

Fang Yue was still thinking about cultivating a few young talents of the earth, but he didn't expect someone to send a pillow when he just wanted to fall asleep!

This Chen Mu is exactly what he wants!

Even Jonah next to him praised: "Although this earth is remote, the quality of the practitioners is good! If you weren't here today, I would definitely bring this Chen Mu back to the Galaxy Bank. Be a seed and cultivate it!"

At this moment, Chen Mu was fighting with the other four Vulcan missionaries again!

Chen Mu pointed the particle laser cannon at another Vulcan missionary.

However, the other three Vulcan missionaries were personally culled.

The missionaries of the Vulcan religion have also experienced rigorous training!

Their methods of killing one by one are extremely tacit.

This long-range attack weapon is most afraid of close-to-hand combat!

Three fierce Vulcan missionaries were culled.

However, Chen Mu's lips squirmed.

"moron!"

"There is no more energy in the particle laser cannon! That was the last blow just now! This Chen Mu is deceiving those Vulcan missionaries!"

Jona's eyes narrowed slightly, and she understood Chen Mu's fighting rhythm!

#### **Chapter 1564: Fang Yue's guidance**

Sure enough, just as the three Vulcan missionaries at the heaven and earth level approached, Chen Mu's face suddenly changed. He raised his hand to throw away the particle laser cannon in his hand, the particle laser cannon without energy. It is no different from a scrap.

Chen Mu suddenly shot, his fists clenched, and he drew towards the heart of one of the Vulcan missionaries.

Chen Mu's movements are simple and crisp, and fast as wind.

With a punch, there is quite a momentum of death.

The missionary of Vulcanism's heaven and earth realm couldn't help being horrified, his eyes opened in anger, and he even completely held his breath.

Changquan digs out his heart.

Fierce!

With a punch, the heart of the Vulcan missionary crashed!

Caught off guard!

In fact, the Vulcan sect missionary can be regarded as a person with superb martial arts. If he and Chen Mu face off one-on-one in the ring, his martial arts might not be as good as Chen Mu.

However, he suffered from underestimating the enemy with carelessness. He did not expect Chen Mu to give up the particle laser cannon in his hand.

With mental arithmetic and unintentional, this Vulcan missionary was naturally defeated by Chen Mu's full blow.

The heart of the Vulcan missionary was hollowed out by Shengsheng, but at the same time, the other two Vulcan missionaries had been culled like hungry wolves.

The light of the sword struck Chen Mu's back directly.

Chen Mu's upper body had a piece of golden soft armor, and the soft armor collided with the light of the knife, creating a series of golden firelight.

But the soft armor did not finally resist the attack of the knife light, the soft armor opened and the flesh and blood was blurred!

Chen Mu was panting, his face pale.

The sharp pain in his body didn't make him look painful or struggling. On the contrary, he laughed and exclaimed with joy.

"I died alone and replaced five Vulcan missionaries. It's worth it!"

Chen Mu laughed and gave generously.

From the moment he stepped onto the battlefield, he never thought that he could go back alive!

Chen Mu's voice spread everywhere!

The two Vulcan missionaries who had hurt Chen Mu and Chen Mu's scarlet and fierce eyes collided with each other, and they were all taken aback.

At a certain moment, endless fear swallowed the reason in their hearts.

"This Chen Mu has been seriously injured this time, he must be in a disaster. Killing him is a great credit. Go to Te Niang for fear of birds!"

One of the Vulcan missionaries at the Heaven and Earth Realm level spit out the stars.

Murderous intent was in his eyes.

Kill Chen Mu and make contributions!

The icy blade flashed a shimmering light in the sun.

"about there!"

Fang Yue said to himself.

If he didn't interfere, Chen Mu would naturally die in nine deaths.

But he was here, how could he watch Chen Mu die?

The Vulcan preacher raised the sword in his hand, and Chen Mu slaughtered him again!

At this moment, Chen Mu was completely desperate. He was unarmed, and blood spurted from the wounds on his body. But he has no fear at all!

He wants to burn out the last brilliance of his life in exchange for the final blow!

Chen Mu's figure appeared in front of the Shenhuo missionary!

At this moment of life and death, his potential exploded, and he actually realized his talent in space!

"First Generation!"

Jonah actually spoke.

"The first generation in space and heaven, if sent to our Galaxy Bank for good training, we can make him a strong man in the Saint Realm within a thousand years!"

Jonah's heart was beating, she never expected that Chen Mu would be a first generation, the first generation has unlimited potential, and Qi has a very strong natural grasp of the law of awakening!

This is definitely a good fairy seedling.

It's a pity that Jonah glanced at Fang Yue next to her with fear.

"You don't need to worry about it, I will naturally cultivate the arrogant of my earth in the way of an earth person!"

Fang Yue's voice was faint, as if he had no feelings.

He didn't want to leave the slightest illusion to Jonah, genius, the earth is more in short supply than the Galaxy Alliance, especially this Chen Mu has fiery loyalty and endless blood for the earth!

"Awakened? It's a pity it's too late!"

The face of the cultivator at the peak of the Vulcan Sect's world realm suddenly showed a hideous look, and he looked at Chen Mu.

After the awakening Chen Mu beheaded, he could gain greater feats than after the Chen Mu beheaded before the awakening!

The blade fell.

Chen Mu also introduced the half-moon-shaped space blade.

Two beams of sword lights slashed on each other's body at the same time.

The eyes of the missionary in the world of Vulcanism opened in anger, and he was cut off in the middle.

His eyes were unwilling.

Who would have thought that when Chen Mu was dying, he could still grab himself and go to Huangquan together!

There was a cold smile at the corner of Chen Mu's mouth.

"Six! I, Chen Mu, died just fine!"

The knife light had touched his back, and this time he had no soft armor.

Chen Mu's eyes were closed tightly, as if waiting quietly for death, but the imaginary pain never appeared!

"You can't die with me!"

Fang Yue's voice rang in Chen Mu's ears!

Chen Mu slowly opened his eyes, and he found that he was not dead.

And the long knife that the Demon Clan slashed out in the air into countless fragments!

The demons were cut off by the waist, but the internal organs were not injured, and they had not died.

He saw this scene with endless horror in his heart.

The knife he had just put in his full strength, even if it is a strong person in the rotation realm, it may not be able to stop it, but what happened between that light flint, the long knife in his hand broke by itself!

Fang Yue ignored the demon, he stretched out a hand and gently stroked Chen Mu's wound.

The faint chill on the wound made Chen Mu feel soaked in his heart and spleen!

The originally hideous wound healed instantly, as if it had never been hurt!

Chen Mu looked at Fang Yue.

This is a completely strange face.

"Senior, did you save me?"

Chen Mu gave birth to a feeling of aftermath. Although he didn't know who Fang Yue was, he had an inexplicable sense of security next to Fang Yue, as if as long as Fang Yue was there, the world would be very safe!

"Senior? Am I so young?"

Fang Yue rubbed his smooth chin. Although it seemed to be a long time experience, his actual age was in his twenties!

It was the first time someone called him a senior, Fang Yue was still a little uncomfortable!

Chen Mu talked.

"Don't know how to call it?"

"If you want, call me your master!"

Fang Yue's voice never settled in Chen Mu's ears.

The figures of the surrounding hundreds of heaven and earth realm and even the Vulcan missionaries at the rotation realm level are all frozen!

The space freezes.

Space is shattered!

The bodies of the Vulcan missionaries were all broken, like broken glass!

Chen Mu took a deep breath.

He thought he was not a weak person on the earth, but compared with Fang Yue's quiet method of killing hundreds of demons, he felt that he was not as good as a newborn baby!

"The disciple sees Master!"

Chen Mu knelt on one knee and immediately realized that this was a great opportunity!

Fang Yue said with a grin, "No gift, no gift, since you call me Master, then I am giving you a meeting ceremony! This paper talisman was painted by Master himself, and only a ray of your mind is needed to activate it. This paper talisman will evolve into an independent world. At least the ordinary yin and yang powerhouse can be trapped by this world. It is a life-saving trump card for you!"

Fang Yue gave Chen Mu a paper charm, but he didn't give him anything too precious.

On the path of cultivation, Fang Yue can only give him a little help and guidance. If he helps too much, it will disrupt Chen Mu's own growth pace!

Fang Yue could feel the blessing of great fortune in Chen Mu's body!

Heroes emerge in this chaotic world, and Chen Mu should be a hero in this chaotic world!

Chen Mu bowed his head and bowed.

In his eyes, the strong person in the Yin-Yang realm is already an unbelievable existence.

The talisman Fang Yue gave him is precious!

Afterwards, Chen Mu was helped by Fang Yue and stood beside Fang Yue.

"This stingy, the meeting gift for your apprentice is just a paper talisman at the level of Yin and Yang!"

Jonah glanced at Fang Yue contemptuously, but she was not surprised that Fang Yue was proficient in paper charms.

There are enough miracles in Fang Yue, and it is not surprising that there are more of them. Even Jona doesn't know when she has become accustomed to seeing the birth of various miracles in Fang Yue!

Fang Yue smiled slightly.

"Then the first time you see my disciple, don't you mean anything? It means that if you don't get it in place, I'm afraid you will lose the face of the Galaxy Bank! I am a little monk in the rotation world is not afraid to be ashamed! But Jona, you But a master of the Great Holy Realm!"

Fang Yue teased.

Of course, he was secretly transmitting to Jonah.

If Chen Mu were to know the true identity of him and Jonah, this peaceful state of mind would probably be broken!

Jonah was taken aback for a moment, and then gave Fang Yue a coquettish look.

"You little slipper!"

After speaking, Jonah gave Chen Mu a stainless steel ring.

"Come on, the elders don't have any valuable gifts for you, this stainless steel ring is for you, this ring is my personal belongings for decades! It's not a good thing, don't dislike it!"

Fang Yue was slightly stunned by Jona's ring.

This Jonah is not precious, it is her modesty.

Even though it is really a mortal thing, this great saint realm powerhouse's hand-held object for decades can definitely be comparable to ordinary master-level magical tools under the influence of the great sacred realm powerhouse breath, not to mention, How could there be any ordinary objects on Jona's body!

"Thank you senior!"

Chen Mu respectfully handed down this ring, although he didn't know what it was used for! But intuition tells Chen Mu that this ring is extremely precious, even countless times more precious than his favorite mecha before!

At this time, in the sky, a colorful auspicious cloud fell down.

Above the auspicious clouds, a disciple of the Vulcan Sect in the Yin-Yang realm looked down!

### **Chapter 1565: This master is a bit bullish!**

"Bold! Your earth is arbitrarily using combat power above the Yin-Yang level to violate the rules!"

The disciple of the Vulcan Cult's Yin-Yang realm yelled at Fang Yue, and he was responsible for inspecting the fighting situation in this side.

He saw the scene on the ground in a mess, and the hundreds of disciples of the Vulcan Sect's Heaven, Earth and Rotating Realms were instantly killed!

He immediately determined that the earth must have used combat power exceeding the level of Yin and Yang, otherwise they would definitely not be able to create such a terrifying battle scene!

Fang Yue glanced at the disciple of the Fire God Sect.

"Do you think I'm beyond the level of Yin Yang Realm?"

Fang Yue's breath let go.

The ninth floor of the cycle!

The disciple of the yin and yang realm of Vulcanism was immediately dumb, this is so unscientific!

In such a terrifying battle scene, it is absolutely impossible for the opponent to have a combat power lower than the Yin-Yang level. However, that breath is definitely the breath of the Rotational level, and it does not violate the rule that the strong above the Yin-Yang level cannot participate in the battle!

"There is a problem with you, I need to bring you back to the Vulcan Sect for a good research and investigation! Come with me!"

The disciple of the yin and yang level of the Fire God Sect said Fang Yue slowly.

If Fang Yue is really not at the level of Yin-Yang Realm, then his potential is definitely enormous and even more terrifying!

It must be a great achievement to catch this Fang Yue back.

Fang Yue glanced at the Yin-Yang level disciple of the Fire God Sect, and couldn't help but sighed slightly: "You just explained to you that you are giving you face, but you can't be shameless, you really think you are a Characters, you can act recklessly, if you capture me back to your Vulcan Sect, will I still be able to come back?"

Fang Yue asked rhetorically.

The disciple of the Vulcan Sect could not help showing a hideous expression.

He didn't have the attitude of discussing with Fang Yue! If Fang Yue agrees to learn Vulcanism with himself, then it is naturally best, but if Fang Yue refuses, then he is ready to come hard!

"Earth people, this time you can go if you want to go, and you have to go if you don't want to go! The will of my Vulcanism is not something that a small earth person of rotation level can refuse!"

This disciple of the Vulcan Sect is going to come hard!

He roared and took a step forward, and he grabbed it with a big hand!

"Jona, this time you want to prove that I am not bullying people this time! It is because the disciple of the Yin and Yang realm of the Vulcan Sect has to attack me so that I can justify defense!"

Fang Yue spoke to Jonah.

Jonah couldn't laugh or cry: "Fang Yue, what level of person you are, you still care about with a small Yin-Yang level Vulcan sect disciple!"

At this time, the Vulcan Sect disciple's palm had been grabbed towards Fang Yue's direction.

Fang Yue's body shook slightly.

That palm broke immediately!

The blood mist swayed in the air.

The disciple of the yin and yang level of the Vulcan Sect immediately realized that something was wrong!

"No, you are definitely not a combat power at the rotation level!"

His voice has not yet spread.

Fang Yue teleported him in front of him.

"Apprentice, you can not only use it for yourself at this moment, but you can also envelop the other party's body with mental power, and then drag the space element to make the other party be teleported by you!"

Fang Yue shot the disciple of the Fire God Sect while educating his own disciple.

The disciple of the Vulcan Sect's Yin-Yang realm stood beside Fang Yue, and his heart was really flustered at this moment!

What kind of players are these!

Anyway, there is no existence that can teleport him in the Vulcan Sect.

In general, being able to teleport oneself is very powerful, coming and going without a trace, if you are an assassin on the battlefield, the head of a thousand armies is like a sack.

And you can even teleport to the front of the enemy.

Is this the legendary gift of thousands of miles?

Chen Mu's eyes straightened, nodding his head like a chicken pecking rice, and honestly wrote down the methods Fang Yue had taught him.

He doesn't even know the simplest teleportation, but he is still eager to teach Fang Yue's advanced skills!

Teleporting enemies, what a legendary idea.

Chen Mu felt that his master for nothing seemed to be a little brave!

The disciple of the Yin-Yang realm of Vulcanism instantly calmed down.

The ninth floor of the cycle of rotation, space and heaven.

Such a young look.

Combining these elements, he instantly guessed the identity of the person in front of him.

"Fang Yue?!"

The disciple of the Vulcan Sect Yin-Yang realm asked tentatively.

Fang Yue rubbed his chin and said, "Is this handsome face of mine so recognizable?"

The disciples of Vulcan Sect of Yin-Yang Realm were a bit speechless.

Is this the narcissistic virtue of the legendary man who can obstruct Vulcanism on earth?

"For your sake of recognizing me, just stay here as a training partner for my apprentice!"

The disciple of the Vulcan Sect's Yin-Yang realm was fascinated. He sneered and said: "Then you are not afraid that I will take the opportunity to kill your disciple?"

Fang Yue slapped his thigh and suddenly woke up!

"Yeah! It seems that I want to imprint a mark in your sea of knowledge, and I cannot let you kill my disciple!"

The yin and yang disciple of the Vulcan Sect's mouth twitched, wishing to give himself two big mouths.

What is he doing so talkatively?

This Fang Yue branded himself with a spiritual imprint, and he will not be able to run in the future!

Fang Yue did what he said, staring at the center of the eyebrows of the Vulcan Sect Yin-Yang Realm disciple.

The Yin-Yang realm disciple of the Vulcan Sect immediately had a silver lotus at the center of his eyebrows, and he changed his mind subconsciously, and he must always put the interests of Fang Yue's master and apprentice as the most important.

This Chen Mu was immediately fascinated!

In his impression, the powerhouses of the Yin-Yang realm are aloft, just like gods, and they are generally at least in white-clothed sacrificial positions in the Vulcan Sect.

That is an unprovoking existence, even if he encounters a strong person in the Yin-Yang realm of Vulcanism with his courage, he needs to walk around.

And in front of him, his own master casually made himself a powerful person in the Yin-Yang realm as a training partner?

This is not awesome, but too awesome!

"Fang Yue, be careful not to destroy the tacit understanding between the Vulcan Sect and you. Right now, the main energy of the Vulcan Sect is actually on the formation of the Vulcan Alliance. They don't have much energy to take care of the earth, so the firepower of the attack on the earth has been temporarily suspended. This kind of attack and killing below the Yin and Yang level where you come and I go is actually a training for both parties, and it is also an opportunity for the growth of the people on earth!"

Jonah asked Fang Yue to converge, and it was almost enough to get a disciple of the Yin-Yang realm of Vulcanism as his apprentice's sparring partner!

If you make any more publicity, this Vulcan cult will probably tear its skin!

Fang Yue looked at Jonah, and then snorted coldly: "This Vulcan sage really dares to come, I still have a catastrophe waiting for them!"

"and also?!"

Jonah looked at Fang Yue in surprise.

The tribulations of other people's houses are rare in a thousand years, but how can Fang Yue's tribulations always come when they are idle!

However, having said that, Fang Yue's Heavenly Tribulation tactics are really quite incomprehensible.

The stronger the existence, the more afraid of Fang Yue's catastrophe!

Come on, hurt each other!

This kind of mutual harm is probably the true essence of Fang Yue's tactics!

"Master, my mecha is damaged. Can I find a place to repair it now?"

Chen Mu walked to the side of his mecha with a painful and regretful expression on his face.

The battle just now raged and damaged his mecha.

If he had an organic armor, his combat effectiveness could be improved a lot!

"Mecha! Come, come, come, this is a meeting gift from Master!"

Fang Yue saw that his apprentice was so cold and stared at a broken mecha of the rotation level. He took out a set of protective clothing.

"This protective suit is also driven by star crystals! When the energy is full, it can withstand the full blow of the third-tier practitioners of the Ordinary Cycle Realm!"

Fang Yue took out a set of silver protective clothing.

Then Chen Mu straightened his eyes immediately.

This protective suit is light and soul. Although there is no damage from the hot weapons on the mecha, it is stronger than his mecha in terms of defense and mobility!

"Master, your meeting gift has already been given just now. I can't ask for such a precious thing anymore!"

Although Chen Mu's heart was about to move, he liked this protective suit quite a bit.

However, he is a principled person, he can't ask for others' things, he is too greedy!

Fang Yue admired Chen Mu. Only if he could resist the greed in his heart, he could do great things in the future!

"It's okay! This protective suit is considered to be another meeting gift from Master. Whoever stipulated that there can only be one meeting gift! As the saying goes, it's not weird for many people to present!"

Chen Mu declined but put on his protective clothing!

Then Fang Yue took out a small silver bead.

"This is a biological mecha researched for the teacher. Although it is not very mature, it can be used to save life at a critical moment. You drop a drop of blood, and then let the biological mecha recognize the master. If a thought falls, it will naturally cover On you!"

Fang Yue put a silver bead into Chen Mu's hand.

Chen Mu drops his blood and recognizes the Lord. As expected, there is an extra layer of scale armor on his body. The scale armor has a high defense power, which can offset part of the damage when he is in the rotation realm. More importantly, Chen Mu's When the mind falls, his elbows, knees, and even his forehead can give birth to a sharp unicorn, which becomes his weapon, taking advantage of it to assassinate the enemy!

"Biological mecha! Fang Yue, you even researched such an unfavorable thing?"

Jonah was shocked when she saw the biological mecha worn by Chen Mu.

The strength of this biological mecha is far from being a layer of scale armor or a single horn that emerges suddenly!

The key to biological mechas is that they can interact with their owners, share life, and continue to evolve with the increase in combat, and the evolution of mechas will also promote the evolution of the owner!

The growth of this biological mecha is beyond the reach of a mechanical mecha!

Fang Yue said modestly: "I just fumbled to the threshold but there is still a big gap between the mature technology in Galaxy Bank!"

### **Chapter 1566: Ice Fire Taoist**

"Master Fang Yue, you are too modest! What we have researched out of this biological armor is only a mere appearance! Although our biological armor also possesses strong self-intelligence, it cannot contribute to life with its owner. Continuous self-evolution! The biological battle armor researched by the Galaxy Bank is incomplete. We originally thought that no one would be able to study the oldest method of making biological battle armor in this era. Unexpectedly, my noble Fang Master Yue, you can actually restore the masterpiece of civilization that has disappeared for so many years!"

Jonah's tone was extremely respectful, and there was a hint of admiration.

The civilization of the biological battle armor is now extremely far away, as powerful as the Galaxy Bank, it is only able to study the production methods of some biological battle armor, and the core technology has all been lost!

And when Jona saw that Fang Yue had restored all the core technologies of the biological armor, she would naturally have a sincere admiration!

Fang Yue smiled and said: "Ashamed, ashamed! In fact, I am just a chance to win!"

The two exchanged greetings for a while!

Fang Yue took out another mechanical armor. This mech armor was a level higher than that of Chen Mu before. If it was launched with all its strength, it would be enough for Chen Mu to match the third layer of the ordinary rotation. The practitioner!

"Since you are more accustomed to operating mechanical armor, then this mechanical armor is for you!"

The mechanical armor that Fang Yue sent was silver-white all over, with the most advanced streamlined shape!

The weapon configuration in it is also quite advanced. This is what Fang Yue found out from his storage bag. He didn't know how he got this mecha!

When Chen Mu saw this mechanical mech, his eyes lit up. In fact, relatively speaking, he likes to manipulate this mechanical mech the most!

"Thank you Master!"

Chen Mu couldn't wait to debug.

And Jona next to me was slightly silent. For a while, Jona said again: "Fang Yue, I now seriously doubt who is from the Galaxy Bank. Why is there not as much variety in me as yours? At the beginning, it was a protective suit, a biological mech, and a mechanical mech! These things, even I need to make a request to the Galaxy Bank, and then they will send them!"

Fang Yue scratched his head and smiled.

This is really hard to explain!

He can't say that he usually has the habit of touching corpses and likes to collect loot, so he has such odds and ends!

Chen Mu is still debugging the newly acquired weapons and mechas.

At this time, a storm has already swept in from afar!

No need to look up.

Fang Yue knew that these people were the people of the Vulcanism!

Eight powerful men of the Yin-Yang realm of Vulcanism came. They stood in eight different positions and could be combined to form a gossip battle formation. At the same time, they could block all the paths of Fang Yue and Jonah!

"There are eight more here? Are there no one in your Vulcan Sect? Can't you come to a saint with the right to speak? You come, purely to die!"

Fang Yue didn't have any politeness, and said directly with disdain.

Only the existence of sage level and above is qualified to talk to him!

"Let the strong man above the saint state come to talk to you? You are so arrogant! I waited for eight people and combined the battle formation, which is comparable to the strong man at the peak of the Yin and Yang state! You even dare to say crazy words in a small rotation state. Let us see how well you are?"

One of them spoke, and he shouted angrily at Fang Yue.

Fang Yue was too lazy to work with them and stood in the middle of the eight.

"Look at who I am?"

Fang Yue's gaze scanned all directions, and all the eight masters of the yin and yang levels of the Vulcan Sect felt a chill that pierced the bones!

The eight people were taken aback for a moment, and then all their complexions changed in shock.

"Fang Yue, why are you!"

One of them recognized Fang Yue's face. Shouldn't Fang Yue still be in the Buried Sky Canyon?

How come back to Earth in a blink of an eye!

One person broke Fang Yue's identity, and the other seven people were all uneasy, and there was no more prestige and prestige to criticize all directions!

This Fang Yue is a real uncle!

Even if the eight of them joined forces, they might not be Fang Yue's opponents with one finger.

The saints who died in Fang Yue's hands are almost a wad, and what is their yin and yang level shrimp in the eyes of others?

"Young Master Fang Yue, we didn't mean to offend!"

Those strong men in the yin-yang realm of Vulcanism tremble.

They both used modest words in their address.

No idea!

The majesty of the people is too great. Didn't you see that even the saint died in his hands when he was in the Funeral Canyon before?

Nothing in the house of the steward can smash the saint to death is a bull!

Fang Yue nodded slightly, seeing these people know each other, he didn't bother to threaten them with words!

"Get me the powerhouses above the saint level in your Vulcan Cult. I did not mean to break the rules when I died just now!"

As soon as Fang Yue spoke, the eight disciples of the Yin-Yang realm of the Vulcan Sect all nodded like a chicken pecking at the rice, contacting the strong in the Sage Realm in the teaching.

Just a cup of tea time, a strong man in the sage state of Vulcanism has personally arrived! He drives the purple glow, surprisingly fast!

"It turns out to be a Taoist Binghuo, it's been a long time since I saw you!"

This Vulcan sage appeared, he was dressed in a Taoist robe, holding a whisk in his hand, but his fierce face was a bit incompatible with the appearance of a Taoist priest!

And Jonah seemed to have known this Taoist priest a long time ago, and greeted him as soon as she came up.

The expression of the Taoist Ice and Fire changed immediately!

Then he glared fiercely at the eight Yin-Yang disciples around him.

Didn't it say that Fang Yue was the only one present?

Why is there Jona!

Binghuo Taoist naturally knows Jonah.

This Jonah is actually a famous figure in the galaxy!

Jonah definitely has a cultivation level comparable to that of the Great Sacred Realm, and her hole cards are numerous.

The last time Jonah became famous was that her cultivation base at the peak of the Saint Realm killed a strong man who had just entered the Great Saint Realm!

Since then, Jonah has established her own position in the Milky Way galaxy!

Some people even say that after killing the great sage, Jonah took away the great sage's body and made it into a puppet that was an external clone of her!

If this is the case, then Jona's strength still needs to be overestimated.

Taoist Binghuo said without a smile, "I have seen Lord Jona!"

Although it is the same cultivation level of the Saint Realm, this Ice Fire Taoist is only the fifth level of the Saint Realm cultivation level, and Jonah is already the first echelon in the Saint Realm, and it's all right, even the Great Sage can kill!

Jonah nodded slightly, but didn't say much. If the two are in the same camp, maybe Jonah can make a polite conversation with the Ice and Fire Taoists. However, the Vulcan Alliance was destined to go with Galaxy Bank since its inception. To the opposite of the ground.

Jonah feels that she has nothing to say about the Taoist Ice and Fire

Binghuo Taoist is also very interesting and didn't say much.

Turn to look at Fang Yue.

"Fang Yue, although you are the cultivation base of the Rotating Realm, but in terms of means and combat power, in this galaxy, you are already recognized as the level of the Saint Realm! And this war is

negotiated between the Vulcanism and the Earth. Yes, in the early stage, practitioners below the Yin-Yang realm are not allowed to interfere!"

Taoist Binghuo said to Fang Yue calmly.

He has never been tense!

Because Daoist Ice and Fire knew that although he was on the fifth level of Saint Realm, he was not necessarily Fang Yue's opponent.

This Fang Yue's method is weird, and if he makes another tribulation or something, it is also very possible to kill him.

Therefore, this time Binghuo Daoist is ready to negotiate with Fang Yue and be reasonable!

"Well, I know about this, and I won't arbitrarily intervene in battles below the Yin-Yang level!"

As soon as Fang Yue spoke, he held back the words that Binghuo Taoist wanted to say.

This Fang Yue is so easy to talk?

"I am not an unreasonable person. It seems that from the beginning to the end, your Vulcan sect is unruly. I also know that signing this agreement with the earth this time is a mitigation strategy. The main purpose is to form Vulcan Alliance, don't let the earth involve too much of your energy, but since my earth has signed this agreement with you, then I completely promise you! In the future, the soldiers will fight against the soldiers, and will fight against the generals! If you really want to make the Yin and Yang realm For masters above the level, I will accompany you Vulcan Sect to the end at any time!"

Fang Yue said clearly.

Daoist Binghuo smiled slightly and said: "If this is the case, it will be easier! Before, the disciple of my teaching who was killed by Master Fang Yue, we don't care about it anymore!"

Binghuo Taoist mission is complete, ready to leave.

But he has not left yet.

Behind, a shadow emerged on one side!

"Binghuo Taoist, accompany me to meet Black Wind Mountain!"

That shadow gradually stared at it turned out to be a bearish bitch!

Fang Yue was stunned, what rhythm is this?

How did this \*\*\*\* bear entangled the Taoist Ice and Fire!

And the strength of this \*\*\*\* bear is really strong!

Although Fang Yue hadn't gotten close to the \*\*\*\* bear, he could already feel the blood in the \*\*\*\* bear's body soaring to the sky. If it moved a little bit, it could shake the surrounding space!

This is an absolute force to break the law!

"President Fang Yue, if your earth is willing to abide by the rules, please leave this \*\*\*\* bear!"

The appearance of that \*\*\*\* bear made Daoist Ice and Fire's face pale green and pale green!

He had just landed on the earth when he was admired by this \*\*\*\* bear. This \*\*\*\* bear's cultivation realm has reached the eighth level of the saint realm. Moreover, it has a thick skin and infinite strength. Enough for the first half of the level of the Great Sacred Realm!

Every day, it wants to catch it as its husband in Heifeng Mountain.

This makes Daoist Binghuo quite helpless!

If you are a beautiful fairy, I will recognize it, but look at your beauty...

Fang Yue said solemnly: "I have a saying on the earth, I would rather demolish ten temples than one family! I won't get involved in this matter of your love and my love!"

### **Chapter 1567: Chen Mu's battle**

"Come with me, husband! The slave will love you very much!"

The \*\*\*\* Xiong said softly to the Taoist Binghuo.

Ten thousand grass and mud horses in the hearts of Taoist Binghuo have already rushed past!

Fang Yue looked at Taoist Binghuo, praying for him silently in his heart, hoping that his small body would not be crushed by the \*\*\*\* bear!

"Husband, the slave house is here!"

The \*\*\*\* bear pounced on Taoist Binghuo, and Taoist Binghuo ran away without saying a word!

This earth is terrible, I want to know the Vulcanism...

"Nujia, don't run so fast, wait for the slave house, wait for the slave house..."

The \*\*\*\* bear chased Bing Huo Taoist away.

Fang Yue watched the loving couple leave.

"This earth is really unfathomable, unfathomable!"

Jonah muttered to herself while looking at the back of Taoist Ice and Fire and the \*\*\*\* Xiong.

"I hope this ice and fire Taoist will be happy for the rest of his life!"

Fang Yue crossed his arms, praying silently for the Taoist Ice and Fire.

"Chen Mu, can you dare to fight me?"

I don't know when, a silver-haired boy carrying the sunset, walked towards Chen Mu step by step.

It is also the cultivation base of the peak level of the heaven and earth realm, but there is an invincible aura on the silver-haired boy.

"This silver-haired boy turned out to be an invincible road!"

Fang Yue was in a daze, he was familiar with this kind of aura!

Because he has this invincible aura on his body, but in weekdays, his way of fighting is a bit too cheap, so this kind of aura will not really show when it is absolutely not part of it!

"you are?"

Chen Mu looked at the silver-haired boy, and he smelled a trace of conspiracy on the opponent. Although he has not really understood the true identity of his cheap master, he has vaguely guessed the master. The respected origin is extraordinary, and even the strong in the saint state can sit on an equal footing.

This silver-haired boy challenged him, it was definitely a drunkard who meant not to drink!

"Lin Guang, Vulcan teach disciple!"

The silver-haired boy said proudly.

He put his name in front of the Fire God Sect, obviously he is extremely conceited about his talent and strength!

"Never heard of it!"

Chen Mu tilted his head in a daze for a while, and then told the truth.

The expression on Lin Guang's face was slightly stiff, but Chen Mu unexpectedly gave such an embarrassing answer.

Shouldn't those who don't know the rules of the rivers and lakes also say something like Lei Guaner?

Can you guys speak?

"You haven't heard it now, you will hear it later!"

Lin Guang was embarrassed for a moment and justified himself!

"Well, are you going to challenge me?"

Chen Mu said again to Lin Guang.

Lin Guang said proudly: "I want to prove that my disciples of the Vulcan Sect are no worse than the people on earth! Your master killed my master and killed him by despicable means in the endless thunder! I can't avenge my master. , But I want to defeat Fang Yue's disciples to prove that we are not weaker than others!"

"Well, boy, you are very ambitious and very thoughtful, but I don't have time for the time being. How about you stand in my line now, and when I have time, I will accept your challenge?"

Chen Mu pondered for a moment.

Lin Guang was sluggish again.

Row number?

Does this challenge still need to be ranked?

"You fool me?"

Lin Guang reacted in an instant, and he sullenly shouted at Chen Mu.

Chen Mu frowned: "This brother, how can you doubt my character? I am really busy and I don't have time to accept your challenge!"

Lin Guang was extremely angry, but Chen Mu couldn't talk about it.

Lin Guang clanged and drew his sword out, the sword light was bright, instantly shining the night sky like day!

Without saying a word, Lin Guang raised his hand with a sword, slashing with the long sword, cutting through the space.

This sword is extremely strong!

There is a vaguely groundbreaking posture.

Chen Mu frowned slightly: "While fighting without declaration, the people of the Vulcan Sect are really unruly!"

At the same moment, Chen Mu teleported and disappeared from the same place, avoiding this mortal sword.

The sword light fell, plowing a huge hole in the ground.

A sword failed, Lin Guang's heart vaguely gave birth to a small loss.

"Space Method, I didn't expect you to understand this method!"

Lin Guang can also be regarded as a serious arrogant in the Vulcan Sect.

It is not surprising that he is well-informed and can see Chen Mu's methods.

"This is how Chen Mu learned to teleport?"

Fang Yue was surprised.

Jonah rolled her eyes: "Do you know all your disciples? The first generations were born with the control and application of the law. They are the true darlings of the will of heaven and earth!"

Fang Yue nodded, looking in a daze.

I came from a wild road, so it's not bad to know how to fight!

Where do you know so much messy common sense.

Fang Yue is not ashamed, but instead feels ashamed to ask, very humble!

"Although this spatial method is weird, under my indiscriminate attack, it is useless to let you escape wherever you go!"

Lin Guang quickly regained his confidence.

"Sword rain is flying!"

Lin Guang raised the long sword in his hand above his head!

Countless sword auras fell from the sky, and every sword aura was extremely sharp.

The range of kilometers around the body is covered!

This time, even if Chen Mu teleported, it would be difficult to get out of the scope of this sword aura!

Chen Mu simply opened the energy shield, operated the mecha, raised the particle cannon in his hand to aim at Lin Guang and shoot!

Range attack has the benefit of range attack, there is nowhere to escape, nowhere to hide.

Whether it is to fight one or a group, it is the same consumption.

But the scope attack also has weaknesses, that is, the power is too scattered, causing each point of attack to not bear too strong power.

The energy shield on the Chen Mu Mecha resisted the rustling sword light, and the energy in it was slowly consumed at a rate of one percent per second!

At the same time, the particle cannon is ready!

A beam of hot white light pierced Lin Guang's chest!

However, there was no blood gushing out of the wound, and the location where Lin Guang was just now suddenly became a paper puppet!

"For the dead puppet!"

Fang Yue whispered.

Unexpectedly, Lin Guang didn't seem to be very good at using his brain, so he still had this method!

Replacing the dead puppet can let Lin Guang save his life at a critical time!

Lin Guang's figure appeared behind Chen Mu, the long sword was cut down, and the energy in the protective shield was consumed instantly!

The mech is bursting!

A smile appeared at the corner of Lin Guang's mouth: "Relying on external forces is not the right way after all!"

However, soon, the smile at the corner of Lin Guang's mouth solidified.

There is a layer of energy protective clothing in this mechanical mech.

Cut through the mechanical mecha, the power of his sword has been consumed seven or eighty-eight, and the energy protective clothing automatically protects it, giving Chen Mu a new layer of protection!

Just when Lin Guang's old power was exhausted and the new power was not born.

Chen Mu suddenly drew the laser sword from his waist and poked it towards Lin Guang's lower abdomen.

The laser was hot and directly incised Lin Guang's lower abdomen.

The dead puppet is extremely precious, and he only has one in his hand.

Just now, the dead puppet was exhausted.

Lin Guang can only resist this sword hard!

"I'm going to kill you!"

Lin Guang growled and roared.

However, Chen Mu had already kicked it.

There was a sharp bee sting on Chen Mu's toes.

The bee pierced Lin Guang's throat.

But Lin Guang opened his eyes angrily, and fell over unwillingly!

He didn't understand until he died, what a wonderful pair of masters and disciples he had met!

Chen Mu quickly understood the essence of Fang Yue!

The two layers of mecha and the energy protective suit are not wasted any more!

"Lin Guang just died like this?"

Jonah stared at Lin Guang's corpse on the ground. In fact, Lin Guang was a figure in the Vulcan Sect, and even Jonah had heard of it.

Lin Guang, among the disciples of the Vulcan Sect's Heaven and Earth Realm level, his strength can definitely be ranked in the top 100. The real combat power level should be regarded as the level of the third and fourth levels of the Rotating Realm. This leapfrog kills It's as simple as eating and drinking.

Although Chen Mu had just realized the power of the first generation of space and heaven, he should be far inferior to Lin Guang in terms of his skills!

However, the two confronted, Lin Guang fell!

This is entirely because Chen Mu has done a good job and made full use of various resources.

He is not winning by absolute strength, but by calculation and by external forces.

At this time, Jonna couldn't help but turn her gaze to Fang Yue's body, why isn't this young man beside her like that?

This master and apprentice is really a match made in heaven!

Jonah didn't know whether this evaluation was a commendatory or a derogatory one!

"Search away all the valuable objects on Lin Guang's corpse!"

Fang Yue commanded Chen Mu said.

Chen Mu proudly stepped forward to search for various valuable resources from Lin Guang!

"Fang Yue, this is a first generation!"

Jonah couldn't help but speak. In Jona's impression, every first generation is a treasure of each family, carefully cultivated, and unlimited supply of resources like mountains and seas! Where is Chen Mu like this, he still needs to touch the body.

"No way, children from poor families have been in charge early, and I grew up like this step by step back then!"

Fang Yue never thought it was a shame to touch a corpse!

Jonah suddenly felt a little embarrassed and speechless when she saw Fang Yue who was expressionless.

Fang Yue came here too!

Once he was so humble, but now, this Fang Yue has become a powerful man in the galaxy, and can even determine the life and death of a saint.

On the other hand, what about the talents carefully cultivated by the major families?

Few people can achieve Fang Yue's achievements!

Maybe their previous training route was wrong.

Fang Yue's starting point is low, but life has given him a lot of stamina, allowing him to have a farther end!

"Actually, I am also a first generation! I just hope that my first generation will never be known about my blood and talent!"

Fang Yue muttered to himself suddenly.

Jonah opened her eyes wide and looked at Fang Yue.

"You, the first generation?"

"Well, the first generation!"

After Fang Yue finished speaking, he sent a brand-new mechanical mech to Chen Mu.

"Chen Mu, remember that in front of life, any foreign objects are not important! The mecha can be replaced if it is broken, but there is only one life forever! Remember to cherish it!"

**Chapter 1568: Fang Yue's teaching methods**

Chen Mu received Fang Yue's guidance, and he nodded slightly.

"Keep the green hills here, don't be afraid that there's no firewood, no matter when, the most important thing is to save your life in the battle! Before, you could go ahead, kill one for enough money, kill two without losing! But from now on, you It is our disciple of Fang Yue, who must learn to fight with his brain instead of relying on brute force and blood!"

Fang Yue reprimanded.

Chen Mu stared.

When Fang Yue started, he could accept it, but he couldn't understand the current concept!

"Master, these Vulcan people invaded the earth and ravaged the people! I don't kill them, they will come to kill us! If everyone doesn't have blood in their chests, only knows to save their lives and retreat! Then what hope does my earth have?"

Chen Mu refuted Fang Yue. He is not a timid person, even if the opposite is his master, he must refute!

Fang Yue stared: "I don't say that I don't kill people of the Vulcanism, but killing is also an art to pay attention to methods and methods! Brute force collision like you is just the most clumsy and superficial way! Humans can rule the roost on earth For thousands of years, it has relied on blood, force, and courage? Neither! Human beings have relied on their own brains and the use of external forces!"

"You can't kill the warriors in this round of turning, but the particle cannon in your hand can do it! You can't resist the siege of the Vulcan cult's several missionaries from the peak of the world, but the mechanical mecha on you can help you block These are all products of wisdom, external forces, but also your internal forces!"

"Practitioner, the land of wealth! Wealth is the first thing. Wealth is resources. The combination and use of resources is the key to whether you can survive the troubled times and even lead the people on earth to defeat the Vulcanism. Where!"

Fang Yue's tone was quite serious, and his voice made Chen Mu lingering.

Chen Mu was taken aback for a moment, he felt that his ideas had been severely impacted!

He had never thought about these things Fang Yue said!

"Rely on wisdom instead of brute force?"

Chen Mu muttered to himself, his inner thoughts seemed to have undergone earth-shaking changes.

When Jonah saw this scene, she couldn't help but say, "Fang Yue, don't be like this. This Chen Mu is an early generation, and your thinking will put him crooked! People who practice cultivation need to erect an invincible one. Heart! Greed of life and fear of death, it will never become a powerful weapon!"

Fang Yue coldly snorted: "The heart of invincibility? It is this heart of invincibility that only so many Tianjiao martial artists died on the road to sanctification! Since ancient times, Tianjiao has been rainy, how many people have become the ancestors of Chengzong? Bone withered, no name left in history! My disciple, I only ask him to live, as long as he has his life, even if he is invincible, he can survive the day of invincibility in the world! What arrogance, what invincibility, all are just fame! What has been able to survive until now is only the brain is wisdom, not the so-called invincible heart!"

There is nothing to say about the disagreement.

Jonah couldn't help being dumb when she heard Fang Yue's words!

In fact, from a certain angle, Fang Yue's truth is correct.

But she is brave and diligent, and I am invincible. This is also the traditional education requirement that she has received as a practitioner from the beginning of her practice. Now Jonna doesn't know whether Fang Yue's path is suitable or inappropriate for Chen Mu!

"Master, I still can't accept your reasoning!"

Although Chen Mu also thought that Fang Yue's words were reasonable, but for a while, he still liked the feeling of intense fighting before!

"I'm talking about my way. It's your business to go or not to go! I offer you choices, but my way may not be right, but I hope you can consider the way I offer you! Qian Don't go astray or go astray!"

Fang Yue's tone eased slightly!

Afterwards, Fang Yue and Jonna walked to Chen Mu's side, disguised as the most common world realm practitioners!

"During this time, your senior Jona and I will practice with you for a period of time. If you have any questions about practice, you can ask the two of us!"

Fang Yue's mind was relaxed. As long as the strong people above the Yin-Yang level in the Vulcan Sect did not make a move, even if the earth people suffered a little, it would not cause too serious consequences!

Therefore, Fang Yue plans to concentrate on training Chen Mu during this time.

At the same time, he was born in a wild way, and many training methods are inevitably unscientific. By pulling Jona, Chen Mu can also have some experience from a formal academic background!

"???"

Jonna's forehead is full of question marks. When did I say that Chen Mu could ask me for advice?

This is Fang Yue's apprentice, how can I cultivate a relationship with me?

However, Jonna was embarrassed to speak.

After all, she and Fang Yue are still allies here!

Jonah was a little angry, this Fang Yue must have seen through this, so he used his face-saving characteristics to let him teach him a student!

This Fang Yue is simply terrible!

But for Fang Yue's shameless behavior, Jona, as a civilized person, is a little helpless. As the saying goes, people want face, trees want bark, and people don't even want face, you still have a hair on him. Way of the ball?

The three of them had just walked hundreds of meters away, and Fang Yue saw an old castle, which was definitely moved by Vulcan cultists.

The castle was surrounded by a faint haze of death.

"This is the castle of the undead built by the Vulcanism. Every distance there is a castle like this! Every day, a large number of dead Vulcanism or the corpses of earthlings are transported to this castle. Among them! It is said that there are ten undead transformation pools in this castle, which can transform the corpses carried into them into tireless undead warriors!"

Chen Mu's expression was gloomy.

He often suspects that the Vulcan Cult's true purpose of starting this war is the collection of corpses to fill this undead castle!

"Castle of the Dead...Isn't this Fire God religion advocating the power of flames? Yedi, they are still preparing to sell dog meat with sheep's heads?"

Fang Yue was also slightly surprised.

Vulcanism is based on the power of flame, and there are people who are comprehending the way of death.

However, he has an extremely deep understanding of the Way of Death, and a little bit of his spiritual sense is to know that this undead castle does contain a strong force of death!

"Disciple, you have to find a way to uproot this undead castle! According to the rules, under normal circumstances, I cannot intervene in this war!"

Fang Yuekou said bitterly to Chen Mu.

Chen Mu clenched his fists, already guessing the result.

"But the strength that I thought was not enough to break this undead castle. The undead castle was heavily controlled by the Vulcan Sect. Even the weakest ordinary soldiers were above the seventh level of the heaven and earth realm. The team leader and The above people have even reached the level of the rotation realm. I even suspect that there are existences above the Vulcanism Yin-Yang realm in this undead castle. If I rely on my own power, even if I have the mecha energy protective suit given to me by the master, it's also an absolute meat bun hitting a dog forever!"

Chen Mu was panicked.

His power is simply not enough to fight the undead castle in front of him.

"Apprentice, how about you and your master go to the old forest and exercise for a few years, and when you are successful in your cultivation, then follow your master out of the mountain and uproot this castle of the dead?"

Fang Yue pondered for a moment and gave Chen Mu a very feasible suggestion.

Chen Mu suddenly, what kind of master is this!

When I go out of the mountain after practicing for a few years, I am afraid that this city has already been turned into a city of the undead by the people of Fire God!

"Master, can you tell me something reliable?"

Chen Mu said unwillingly.

Fang Yue suddenly raised a sly smile: "Remember what the Master told you before? The biggest difference between humans and animals is wisdom! In fact, in terms of power, many animals do not know how many times they are everywhere, but humans know how to think. Ability to respond to changes in the outside world and defeat the enemy!"

Chen Mu pondered.

For the first time, he began to seriously think about what Fang Yue said.

This seemingly unreliable master, but now he is facing an almost impossible task to provide the only possible suggestion.

However, what external force can he use?

Chen Mu fell silent.

After thinking hard for a long time, when he opened his eyes again, his eyes were still blank, not knowing what to do!

"Tui'er really doesn't know how to use external force and ask Master to express it!"

Chen Mu still has a tendon.

Fang Yue didn't click through.

"Actually, you have a lot of external resources now. For example, I am your master! You can learn from me all kinds of methods to mix into this undead castle, and the senior Jona in front of you, she is from Galaxy Bank A veteran! What does the Galaxy Bank do, do you know? This is a place to sell things. Didn't you get a fortune by touching the corpse just now? You can buy useful things or powerful ones. Disposable weapons, have the ability to protect themselves in the castle of the dead!"

Fang Yue taught patiently.

And Jonah next to her is a black line.

How do you Fang Yue describe our Galaxy Bank?

So a tall place is actually a place to sell things in your mouth.

a?

Jonah was really speechless about this Fang Yue!

"Understood Master!"

Chen Mu's eyes lit up, and he finally understood what the master meant by external force and wisdom!

"Master, please teach me the means to mix into the castle of the dead!"

Fang Yue laughed loudly: "Hey, good boy, you are good! Actually, there are two ways to get into the castle of the undead? First of all, you have to understand who can freely enter and leave the castle of the undead! For example, this fire A disciple of the cult, such as someone who knows the methods of the undead!"

Fang Yue followed in good faith.

The light in Chen Mu's eyes lit up!

The more this master said, the more reliable it became!

It seems that I really underestimated my master before!

#### **Chapter 1569: A good boy who went astray**

Jonah stood aside, watching a righteous five-good boy being a little bit astray by a strange scorpion named Fang Yue, there was an unusual helplessness in her heart!

But this Chen Mu is Fang Yue's disciple, and she has no right to interrupt her when someone teaches her own disciple!

Jonah could only stand by and sigh repeatedly.

And Fang Yue became more excited as he spoke!

"Master won't do anything else, but the avenue of flames and the methods of the undead are still slightly the same! This method of flames is the hole card of the Vulcan Sect. As long as you show enough talent for flames, this fire The gods will never doubt your identity!"

Fang Yue said vowedly.

And Jonah next to him sneered and said: "This flame and undead methods are all unpredictable. Even if Chen Mu has the talent in this area, he can't be able to learn something overnight!"

Jonah was not pouring cold water, but telling the truth.

This Fang Yue seemed a little bloated after winning a few tough battles.

And such swollen allies will drag their Galaxy Bank back at a critical moment!

Fang Yue sneered: "Others can't do it, but it doesn't mean I can't do it! Come on, boy, this will put these memory fragments into your mind. This is a total of seven memory fragments. They represent the common magical powers in Vulcanism!"

Fang Yue sent seven snow-like crystals to Chen Mu's body.

Jonah was surprised, her mouth closed.

Maybe Chen Mu still can't understand the value of these memory fragments, but how could Jona not know how precious these memory fragments are! The fragments of memory are stripped from the soul. This is a legendary skill. It seems that only in the ancient times would anyone be able to do this!

And how did Fang Yue obtain the memory fragments of Vulcan Sect disciples!

Chen Mu took the seven memory fragments, and then integrated them into his sea of knowledge.

He suddenly mastered the unique methods of the Flame God Cult disciples, each of which was extremely proficient, as if he had cultivated millions of times!

Later, Fang Yue took out another rule fragment.

The fragment of this law seemed to be red agate, and it was as big as fire, the size of the palm of an adult.

"Come on, the apprentice will refine this fragment of the law. After the refinement, you can immediately have the cultivation base of the second floor of the Flame Avenue!"

Fang Yue gave Chen Mu the fragments of the law.

Jonah is completely speechless this time!

Law fragments, palm-sized.

This thing even hurts Jona!

Jonah is not an ignorant person, on the contrary, she has been in the auction house for a long time in the Galaxy Bank.

But it is precisely because of her knowledge that she knows the value of this fragment of the law!

The largest fragment of law that Jonah had seen before was only one-third the size of this fragment of law. At that time, the piece of law fragment that was auctioned once caused a great uproar in the auction house of Galaxy Bank, and even some long-lasting saints came out from the retreat to buy this piece of law for themselves or their disciples and grandchildren!

This cultivation is easy, but the Tao is hard to cultivate. This is a wise saying in the world of practitioners. To understand so many laws, it requires the accumulation of chance and the accumulation of time.

The fragments of the law are extremely difficult to obtain, and can only be formed under some chance coincidence!

This fragment of Fang Yue's law can definitely be said to be invaluable, so he gave it to Chen Mu, it is really dotting and enviable!

Chen Mu was confused. He didn't know the value of this fragment of law was amazing. He just knew that his master Fang Yue would not harm him, so he honestly refined this fragment of law into his body according to Fang Yue's instructions!

When Chen Mu opened his eyes again, there was already a flame element around him. He had an extremely deep understanding of the Avenue of Flames. Any method of displaying flames would be easy to come by, without strangeness or even power. There is a huge bonus!

Even though Chen Mu was stupid and had no insight, he knew at this moment how precious the seven spiritual fragments Fang Yue gave him and the fragments of the Flame Avenue just now!

Chen Mu didn't say much, but bowed deeply to Fang Yue.

Fang Yue received this worship, because it was a disciple to worship Master, and he deserved it!

"You already have the means for this flame! The following is the means for the death path. This death path is the power of the heavenly path, and its depth is deeper than the avenue! As a teacher, you can glass the avenue and the law of the trail fragments, but it cannot The method of operation of the stripped heaven! This involves the core of the universe, and you can only understand it by your own chance!"

Fang Yue was not so proud this time.

But he gave another thing!

One of his fingers fell between Chen Mu's eyebrows.

An ancient scripture appeared word by word in Chen Mu's mind.

"The Hades"!

This scripture comes from Fang Yue's underworld ring. Now this underworld ring has become Fang Yue's foundation. He occasionally broke the first ten seals in his spare time.

In Fang Yue's view, "The True Scripture of Hades" and "The True Scripture of Death" should exist at the same level.

If "The True Scriptures of Hades" were lost in his hands, it was Fang Yue's sin.

Therefore, Fang Yue intends to use this opportunity to pass on the "Truth of Hades" to Chen Mu. Chen Mu's talent in cultivation is not low, and he has some points to mention. I believe that this scripture will not be insulted!

Scripture of Hades. As for the follow-up methods, Fang Yue will pass them on to Chen Mu after breaking the seal of the Hades ring. of!

After Chen Mu received the inheritance of "The True Scriptures of the Hades", he felt that his mind was muddled. The amount of information contained in the "Trends of the Hades" was too large and the level was too high for him to understand for a while!

Fang Yue casually threw ten spiritual fragments into Chen Mu's mind.

"These are ten commonly used methods in the way of death, and I will also teach them to you. They will help you get started in this area! As for the spatial methods, I don't want to teach you. I don't want to teach it but I can't teach it. The first generation was originally a teacher of heaven and earth. As your cultivation level improves step by step, your understanding of space and heaven will gradually deepen.

This is a gift that God bestows on you! Without others teaching, heaven and earth are teachers. You will be here in the future. The achievements in this respect will naturally be limitless!"

Fang Yue finished.

This Chen Mu nodded vaguely.

Fang Yue then sighed lightly and found that Chen Mu's mental power was not strong enough, and he couldn't completely digest the contents of the "Truth of Hades" for a while.

He flicked a drop of Rank 3 soul liquid into Chen Mu's body. He just felt relieved and regained a clear state in his mind!

"Thank you, Master!"

Chen Mu clasped his fists, this time he was sincerely grateful!

This "Nether King's True Scripture" is extremely profound, if it were not for Fang Yue who really wanted to treat him as a personal disciple, he would never teach him such scriptures!

"You are my first disciple, I will definitely spare no effort to teach you, but I teach you also to let you grow up quickly, and have a right-hand man in the chaotic era of the future!"

Fang Yue told Chen Mu.

Chen Mu expressed his understanding!

Afterwards, Chen Mu turned and left Fang Yue and walked towards the Castle of the Dead!

With the help Fang Yue gave him, he already has the capital to enter the castle of the dead to find out the truth!

Fang Yue and Jonah went in stealth.

"Who are you?"

Chen Mu swaggered to the door of Death Castle.

A disciple of the Vulcan Sect hurriedly asked Chen Mu's identity, and Chen Mu's arrogant appearance was definitely not like an outsider, but Chen Mu didn't have the slightest breath or clothing unique to Vulcan Sect.

"I am a special envoy of the Vulcanism who came to inspect the castle of the undead! Why do you, a little janitor, want to stop me?"

Chen Mu was arrogant and domineering, and completely performed the arrogant taste of the Vulcan teaching disciples to the extreme!

The guard disciple of the Vulcan Sect frowned and said, "If you are a special envoy of the Vulcan Sect, why don't you have any clothes or tokens unique to the Vulcan Sect?"

"Where is so much nonsense? I need to explain to you a little janitor when I come to do things? At least you have to bear my time?"

Chen Mu became more ferocious, but the more ferocious he was, the less dare the guard disciple in this undead castle provoke him!

It looks like this, does this aura really look like someone from above?

Could this adult come to visit Weifu privately?

The disciple of the Vulcan Sect murmured in his heart.

Fang Yue saw Chen Mu's behavior, he should be able to get a golden man back when he went to Oscar!

This is definitely acting with life!

The guard disciple of the Vulcan Sect was constantly replenishing Chen Mu's identity and hesitated.

At this time, a Vulcan sect in the first level of the Rotation Realm in the Castle of the Dead finally came out.

"What are you yelling at the door?"

The attitude of managing affairs is also very bad. He is practicing meditation in the castle!

Why is there suddenly noisy outside?

"The adult said he was a special envoy sent by the gods! The youngest dare not confirm it, please let the manager decide!"

The guard who watched the door was not only not shocked when he saw the steward coming out, but he let out a sigh of relief.

The ball is kicked at the feet of the manager, and the rest can have nothing to do with him!

"Special envoy? Shit special envoy, how does his appearance resemble that of special envoy? There is no trace of Vulcanism's peculiar exercise aura on his body, he is obviously pretending to be a fake! Come here, give this \*\*\*\* I grabbed it, tortured him, to see who he was, and even if he dared to come to my Vulcan sect's special envoy, I dare to pretend?"

### **Chapter 1570: I am a special envoy!**

Chen Mu was slightly silent.

Is the identity of this envoy so simple to be revealed?

Will not!

A ball of flame was born in Chen Mu's hand, and a fierce flame was burning in his palm!

"I am a special envoy of the Vulcan religion, don't you believe it?"

The color of the flame in Chen Mu's hand was red, but the flame heart in it had gradually turned orange!

The steward of the rotation realm said coldly: "If you can manipulate the power of flame, you can claim to be my special envoy of the Vulcanism? There are so many people in the galaxy who know how to manipulate flames. So many people know this method. Could it be you? These people are all special envoys of my Fire God Sect?"

Chen Mu didn't say anything, the flame in his hand continued to change, and the orange flame gradually spread out, and then the outer periphery of the flame also turned a faint orange!

And among the orange flames, bright yellow flames swayed at the position of the flame heart, as if they were water plants, beckoning to the steward of the Vulcanism!

At this moment, the Vulcan sect's manager's face changed slightly.

"The flame turns two?"

In fact, this is not a unique method in the Vulcanism, the flame turns nine, and the nine turns burns the sky!

Ordinary Vulcan disciples who can turn the flames at the level of the heaven and earth realm, turning the red flames into orange flames are considered to have a pretty good talent in flames!

And the second flame, the bright yellow flame is hidden in the orange flame, which is the leader in the Vulcanism!

Such people generally have a high status in the Vulcan Sect, and it is not impossible to even become a special envoy in the Vulcan Sect!

However, that manager still doesn't believe it!

The top of this Vulcan cult never said that it would send a special envoy!

What if this guy is really slanderous?

Putting him in the castle of the undead, if it's making waves, wouldn't he have to bear considerable responsibility?

Just at this time.

The flame in Chen Mu's hand has regenerated, and the bright yellow color covers all of the flame, giving birth to a faint green light in the center of it.

This green flame is extremely coquettish, and there is no hot temperature in it!

However, the green flame seemed to have his own life, capable of devouring his eyes and even his spirit!

"Flaming three revolutions! Envoy, please forgive the little doubts and guesses!"

The manager knelt on his knees with a thud.

Among other things, this flame three revolutions is already 80% of their special envoys in the Vulcan religion, and they are also the upper-level figures among the special envoys!

Flame Three Turns, this is the realm that even the strong people in the Yin-Yang realm in the general Vulcan religion are diligently seeking.

And the envoy in front of him was able to do this at a young age, which already represented his talent.

As for why there was no notice in advance, this manager has already made up for Chen Munao. This Vulcan sect's special envoy is free and willful. He can go wherever he wants. The favor of the high-level Vulcan sect is the best. Do I need any special procedures and tokens for my pass certificate?

Chen Mu successfully entered the castle of the dead, and he displayed the style and posture of a special envoy!

"This undead castle is divided into three levels. The first level is the undead pool. In general, the corpses of the heaven and earth level are thrown into this first level of undead pool, some of which are transformed into undead warriors, and most of them The breath of life and death will melt in the undead pool and be used to resurrect the ancient warriors of my Vulcanism! The second layer is the undead crystal field, and the corpses above the rotation level will be transported into it, the strong of the rotation level. After death, the death aura in their bodies is extremely rich. Those rich death auras can condense into undead crystals in the second special environment! These undead crystals are extremely precious and can be used to trade with the Underworld. It can also be used to further revive the fighting spirit of the Vulcan warriors in the ancient times, and make them a higher level, and gradually restore the majesty of the ancient times! And the third layer is the land of spirits, the powerhouse of Yin-Yang and above. The corpses of will be sent to the third layer. Their bodies contain yin and yang, the circulation of yin and yang, which reverses the universe, and can be used to summon the remnants of our powerful ancestors of the Vulcan sect who sleeps deep in time and space! Gradually recover, complete the piece together, and enter the body of the ancient warrior, so that the ancient warrior can truly resuscitate and become an amazing weapon in my Vulcanism!"

The steward is almost knowledgeable and inexhaustible. His main purpose is to win Chen Mu's joy, like a special envoy of this kind of talented Vulcan cult. Everyone is in the Vulcan cult. Has a very high status.

They are the immortal seedlings of Vulcanism, and after careful training, they will become the real privileged class of Vulcanism!

The flattering expression on the steward's face was extremely obvious. A pair of eyes stared at Chen Mu for an instant, as if to insight into his every move, and then put Chen Mu into his heart!

For the lower-level Vulcan sect's steward, with his talents and connections, being able to reach the level of rotation is already the greatest good fortune. If you want to go further, you can only hold a big thick leg. In his eyes, Chen Mu is this big thick leg!

Before Chen Mu asked, the steward had already confided all the words.

This made Chen Mu a little confused for a while, and he didn't know what to say.

Fang Yue was slightly surprised: "Crystal of death, currency used to trade with the Underworld! I didn't expect this Vulcan cultist to hook up with the Underworld. No wonder it can be so arrogant!"

And Jonah frowned slightly, and she was more concerned about another piece of information from this manager.

This undead castle can actually reshape the body of the ancient warriors of the Vulcanism, and summon the remnants of their ancient heroes, let the remnants of the soul enter the body of the ancient warriors, so as to reach the point of resurrection!

If all of this is true, then the mystery and power of the Fire God Sect is far beyond their imagination! It is very possible that the Vulcanism they will deal with in the future is not the Vulcanism of an era, but a gathering of powerful Vulcanism in the past!

Fang Yue seemed to see Jona's anxiety.

"Actually, this matter is not as horrible as the Vulcan Sect says! If you want to revive the strong of Vulcan Sect, you need to meet the messy conditions! I have heard of this method! For example, the ancients The items used by some powerful people in the era are even part of the corpse. This is the foundation of summoning the remnant soul! And in the process of summoning, there may be some evil spirits taking a ride. This Vulcan is strong in ancient times. The remnant soul of the person cannot return, but some other guys will come back into the world!"

Speaking of the depth of the comprehension of the power of life and death, compared with Fang Yue, Vulcan Sect is no exaggeration to say that it is really just the beginning stage!

Fang Yue's understanding of the power of life and death has reached an incomparably deep level, and the cycle of life and death is difficult to reverse. Unless someone has peerless magical powers, he can get a chance beyond life and death!

"However, this era is different! This is an era destined to be chaotic. The catastrophe comes, and some people who have disappeared may return to this world!"

Jonah was not persuaded by Fang Yue's statement, she muttered to herself, as if she had recalled something!

"I still have some thoughts about the Vulcanism! This Vulcanism is the first force to jump out. In fact, dragons and snakes are hovering in this galaxy. This Vulcanism is only an upper reaches among many major forces. That's all! The real reason why the Vulcan Sect came out so early is probably because it wants to accumulate more resources in the early stages of this calamity, and strive for a little hope of detachment for oneself!"

Chen Mu, led by the turnaround manager, stepped into the depths of the castle of the dead.

The conversation between Fang Yue and Jonah also deepened.

"It's rare, you can see it so clearly! In fact, this Vulcan Sect is just a paper tiger that is strong in the outside world! Although the foundation of Vulcan Sect is behind, it has not yet reached the point of carrying out the long river of history! And this time they summoned the Vulcan in ancient times. The strong in teaching, I am afraid, also want to try to break this historical barrier!"

Qiao Na is analyzing Fang Yue! She looked at Fang Yue admiringly.

Fang Yue and Jonah walked to the third floor of the undead castle with the pace of the steward.

Fang Yue stopped suddenly.

"Jona, do you want to see what the ancient characters in this Fire God Sect look like?"

Fang Yue suddenly spoke.

This made Jonah a look of surprise.

"Fang Yue, what do you mean? Is it possible that you want..."

"Yes, since the castle of the undead has been built, it is better to help the Vulcan Sect and let them summon the souls of the ancient times they dream of! And I am also curious, this Vulcan Sect cost so much With great effort, so many undead castles have been built, can they really summon the strong men of the Vulcan Sect who slept in the long river of history in the ancient times!"

Fang Yue suddenly had an idea.

And Jonah also became excited, and she was eager to try: "I also want to see what this Vulcan cult's hole card looks like!"

"it is good!"

Fang Yue suddenly said to Chen Mu, "Chen Mu, follow my command for the following actions!"

"Okay, Master!"

Chen Mu was taken aback for a while, didn't he say that he should let him decide?

However, he did not dare to violate Fang Yue's instructions!

Chen Mu walked to the center of the third floor of this undead castle, with a 108 ghostly hoisting banner inserted in it!

"This soul-calling banner is a thing of the underworld, and it has no grade itself. This soul-calling banner contains the soul of life. The greater the strength of the soul of the soul, the more the number, the higher the level of the calling flag! The zero-eight-faced soul-recruiting banners are actually semi-finished products researched by the Underworld! Each face is at most the level of the peak level of the heaven and earth realm. The combination of 108 faces is only equivalent to the seven or eight layers of the rotation realm. I want to summon the remnants of the fallen heroic souls of the Vulcan Sect in the ancient times. This power is not even enough for a drop of money!"

Chen Mu spoke word by word according to what Fang Yue taught him.

The Ming Clan, who is responsible for arranging and maintaining the soul-recruiting banners, raised his eyebrows slightly!

This Nether Clan is at the level of Yin-Yang Realm, and it was recruited by the Vulcan Sect at a considerable price.

After hearing this, the manager was frightened, and immediately walked over to appease the Mingzu: "This Chen Mu special envoy is young and ignorant, and does not understand it. Please forgive me, Master Tatarus!"
