

## God of Life 1571

### Chapter 1571: True homing banner

"No, there's nothing to be forgiven. There is nothing wrong with the word that Special Envoy Chen Mu said! This one-hundred-eight-faced soul-recruiting banner is indeed only a semi-finished product. It can only summon the souls of the newly fallen creatures within a hundred miles of the undead castle. It is far from enough to summon the martyrs of Vulcanism through the long history of history! Of course, this holy flag is still in the experimental stage. When the experiment is successful at this stage, we will naturally strengthen the powerful effect of this holy flag!"

Tatarus was blunt.

He felt that if Chen Mu was able to say this, he must be regarded as a knowledgeable person.

In front of the expert, his method of blowing Dafa conch in front of the Vulcan Sect simply didn't work!

But Tatarus didn't know that the envoy in front of him was also a Xibei.

This is equivalent to Li Gui met Li Ergui.

The manager was shocked, Chen Mu was so powerful.

Not only has extraordinary attainments in flames, but also understands the methods of death.

"This soul-recruiting banner, you should also make it based on the ancient fragments, and I was fortunate to have some inheritance from the death path. I have a little understanding of this soul-recruiting banner. It is better for you and I to discuss here a little bit. ?"

Chen Mu spoke to Natalus.

Tatarus said with great interest: "I don't know how this little friend will learn from me?"

"This soul-inspiring banner needs countless souls to be filled to show its power, and the soul-inspiring banner itself needs to be equipped with a formation, the soul-attracting formation! This soul-attracting formation can involve all the souls of all directions in this soul-attracting flag. ! Let the power of the soul-bearing banner soar!"

As soon as Chen Mu spoke, he involved the ancient Xinmi.

But Natalus' face changed drastically in an instant.

Of course they know this soul-attracting formation, and even the best at setting up is this soul-attracting formation.

Originally, they were still planning to use this soul-attracting formation to slaughter the Vulcan Sect. Unexpectedly, there will be a large number of talents in this Vulcan Sect. Before their people can display this soul-attracting formation, there are already people in the Vulcan Sect. Knowing that the soul-attracting formation and the soul-attracting flag need to cooperate with each other to be able to exert the greatest power.

Tatarus' expression became serious, and he refuted Chen Mu.

"It's nonsense, this holy spirit banner was carefully researched by my horde, and its carrying capacity is limited. If you rashly use the soul-catching array, it is very likely that these holy spirit banners will not be able to withstand such a huge astral power, leading to the holy spirit banner. I collapsed, and all my previous efforts were burned!"

Na Tatarus turned his face, he wanted to prove that Chen Mu was talking nonsense.

Otherwise, this Chen Mu is really being reused by the Vulcan Sect, and many of their previous layouts of the Underworld need to be pushed back!

And Chen Mu smiled faintly: "Why is Master Tatarus excited? I didn't say to use these spirit banners for experiments! In fact, the material of these spirit banners is a massive amount of death air. The condensed death crystals, one on each side of the soul-recruiting banner can be strengthened, and at least it can withstand the power of the soul that becomes a magic weapon of the rotation realm!"

Chen Mu's words fell, and Tatalus' face paled instantly.

Unexpectedly, this Chen Mu's research on the spirit banner was so profound and thorough. That's right, the first step of strengthening the spirit banner is enough to melt one death crystal on each side!

All of these spirit-calling banners have reached the level of the rotation realm, and the combination becomes one hundred and eight spirit-calling formations, the power of which can definitely be raised to a big level!

At the very least, this spirit banner can summon some powerful souls in nearby time and space. Although it may not be a strong soul of the Vulcanism in the ancient times, the incredible magical powers contained in the spirit banner can at least initially manifest. come out!

"Who on earth are you? There is absolutely no way in this Vulcanism who is proficient in spirit-calling flags!"

Tatarus looked at Chen Mu, his face changed again and again.

He couldn't believe that there were people in the Vulcan Sect who knew how to use this holy flag better than their Hades.

"Me? Of course I am a practitioner in this Vulcan Sect? Don't you Nether Clan look down upon our Vulcan Sect. In Vulcan Sect, it's not surprising that someone who knows the Way of Death and the Spiritual Banner appears. !"

Chen Mu is already completely in the play.

He said proudly from the perspective of Vulcanism.

Natalus was silent.

But Chen Mu glared at the steward who was standing next to him.

"Why are you still staying here? Don't hurry up and give me 108 death crystals on the second floor!"

Chen Mu shouted at the manager.

The manager just woke up like a dream and staggered out of the building.

When he arrived on the second floor, the witty steward did not follow Chen Mu's instructions to produce 108 death crystals, but chose to report the true master of the undead castle as soon as possible.

A disciple of the Yin-Yang level in the Vulcan Sect-Yan Gang.

This Yan just now was the real master of this undead castle. In fact, every undead castle has a strong man of this level.

This undead castle is an important place for the Vulcan Sect. It is only for practitioners at the rotation level to take care of it. They are still not assured!

It's just that Yan Gang is practicing in retreat on weekdays, and he doesn't have much interest in the normal operation of this undead castle.

In Yan Gang's eyes, all of these are foreign objects, and they are using crooked ways. It is enough for Tatarus to preside over the normal operation of the Castle of the Dead, and he still puts his main energy into daily practice. Enlightenment of Taoism, and constantly improve one's cultivation level.

Bravery and diligence are the eternal heart of a practitioner who will never change and become stronger!

But this time Yan Gang was awakened by the manager.

There was also a vague displeasure in his heart.

"Why are you so anxious to wake me up? I am at the critical moment of enlightenment. If you can't tell me the reason, I will not forgive you!"

Yan Gang is not a good temper, on the contrary he is considered a tyrant.

In Vulcan Sect, the practitioners of the heaven and earth realm and rotation realm are nothing at all.

If he kills, he will kill it, and this Vulcan cult will not pursue anything.

Guan Shi tremblingly said: "Report to the Lord, in the Castle of the Undead came a human race claiming to be a special envoy of the gods, and his name is Chen Mu. Chen Mu is extremely proficient in the way of flames, and has reached the level of the third flame. And he himself is just a cultivator at the pinnacle level of the heaven and earth realm! Not long ago, the minion took him to the third floor of this castle. Unexpectedly, Chen Mu was also proficient in spirit-calling flags and confronted Master Tatarus. This Chen Mu wants a minion to come to the second floor of this castle and take out 108 death crystals, saying that these death crystals can be used to strengthen the spirit banners and make them more powerful!"

Yan Gang heard this, the impatient look on his face completely disappeared.

"The level of the heaven and earth realm can actually use the method of the third flame. Why have I never heard that there is such a \*\*\*\* among the gods? Is it because I don't know which faction recruited the newcomer? However, this Tatarus Recently, it is indeed too arrogant. Relying on myself as the

Underworld, knowing that the production and maintenance of this holy flag is to looting the resources of my Vulcanism. In fact, among the resources he wants to take away, there is only less than one. The amount of success is used to make and maintain the spirit-bearing banners, the other ones are all in his pocket!"

Yan Gang was also quite dissatisfied with Tatarus. He always felt that this Tatarus was a scourge of abduction.

If this Chen Mu really knew some methods of homing flags, it would be a good candidate to balance and restrain this Tatarus.

On the contrary, it was the true or false identity of Chen Mu's special envoy, which Tatarus didn't care about in his heart.

how?

What about pretending?

Can a small cultivator in the realm of heaven and earth make some waves under his nose?

"With one hundred and eight undead crystals, I also want to see how sacred Chen Mu is!"

Yan Gang spoke, and then he went to the third floor with the steward.

"Yan Gang, you are here! You Vulcan Sect also don't take care of your subordinates. This spirit-calling banner doesn't even dare to say 100% of my Underworld Clan's understanding. Your special envoy actually said that he could improve my Underclan's Spiritual banner!"

Tatarus was shocked when he saw Yan Gang, and he was the wicked person who sued first.

Yan Gang looked at Tatarus who seemed to be aggrieved, and sneered, because he saw a rare nervousness on Tatarus' face.

It seems that this Chen Mu should have some abilities, otherwise, he would not be able to make Tatarus nervous.

"Tatarus, don't worry, I believe in your Underworld, and this Chen Mu claims to be my special envoy of the Vulcan Sect, but I have never seen him before, so let him show whether he can really interact with himself. It's the same as bragging, using death crystals to transform and upgrade the spirit-recruiting flags. If he can't do it, then it proves that he is bragging, and you don't need to do it then. Naturally, my Vulcanism has a canon to punish him!"

Yan Gang is also an old slipper.

On the surface, he believed in Tatarus and wanted to punish Chen Mu severely, but in fact he was still willing to give Chen Mu a chance!

Yan Gang was actually a little curious in his heart.

Can Chen Mu really use his own means to transform and upgrade the spirit-inspiring banners!

Chen Mu glanced at Yan Gang and ignored him. The winner is the king and the loser. If he can really use the death crystallization to transform and upgrade the spirit banner, then Yan Gang will naturally treat him as a treasure and treasure it. Fainting every day, hoping that he can make greater contributions to Vulcanism.

And once you and he fails, this Yan Gang is also the one who pounced on him.

Human nature is so, there is no need to approach Yan Gang at this time and talk about friendship!

"Master Yan Gang, it is absolutely unwise to let this liar waste the crystal of death!"

Na Tatarus became more nervous, he didn't want Chen Mu to experiment!

Once the test is successful, their monopoly status of the Hades will disappear immediately, and it will not be so easy to request resources from the Vulcan Sect in the name of making and maintaining the holy flags!

Yan Gang waved his hand: "It's okay, it's okay, I just want to watch this man make a fool of himself, even the Ming Clan's methods he dare to say he can master, this guy really eats the courage of the bear heart and leopard!"

#### **Chapter 1572: The usage of the spirit banner**

Tatarus stared at Yan Gang for a while, then sighed: "Well, it's up to you!"

Tatarus knew that he was not the opponent of this cultivator.

The same level of Yin and Yang, but the difference in cultivation level between him and Yan Gang is really big, like an adult and a baby.

Chen Mu grinned at Tatarus, as if provocatively.

Tataros watched his nose, his nose and mouth, and his mouth and heart, as if he hadn't seen Chen Mu's provocation.

In the eyes of Tatarus, Chen Mu is still an ant even if he really mastered the refining and strengthening of the spirit banner. If Chen Mu really dares to use the spirit banner, he has a thousand ways to make Chen Mu die. !

This is the case in the world of the Underworld, the stones that hinder them must be kicked to pieces.

Chen Mu is that if Yan Gang dared to expose the true intentions of their Underworld clan, Yan Gang will be too in the future!

"This holy flag is actually composed of two parts, one is the trunk of the thousand-year-old locust tree, the main body of the holy flag, and the other is the shroud! Sophora tree, there are ghosts in the wood, this kind of wood is yin, the easiest to absorb yin. The shroud is a very yin thing, and it can also contain souls! There is no problem with this material, but the death energy in it is not strong enough. The death crystal is melted with water, and it can be turned into the liquid of death, which can be applied evenly On the shroud, it can enhance the capacity to contain the soul!"

As Chen Mu said, he melted a death crystal into a basin of clear water. Sure enough, the death crystal melted instantly in the clear water!

Chen Mu randomly dipped a little bit of water, and smeared the shroud twice at will. On the shroud appeared a series of inscriptions!

"There is such a mystery in this?"

Yan Gang's eyes straightened, he didn't expect that in this Vulcan Cult, it turned out to be Hidden Dragon and Crouching Tiger, and there were still people who knew this method.

And Tatarus next to him was also a little surprised, this Chen Mu is definitely not nonsense.

Such skillful movements and natural popular explanations can't even be done by him, a serious underworld clan!

He only has a little knowledge of this spirit-calling banner, and the elders of the Ming clan who truly understand will never come to the world easily!

"For the same reason, if the top of this one hundred and eight-faced spirit banner is painted with the melted death liquid of death crystals, this spirit banner will steadily raise the spirit's containment capacity by a level!"

Chen Mu gave the rest of the work to other people of the Vulcan Sect. He was not being lazy, but preaching, indicating that he had no selfishness, and he did not have any tricks!

On the third floor of the Castle of the Undead, the Vulcan Sect has placed a lot of disciples of the Vulcan Sect. One is to help Tataros work, and even consciously wants to learn some tricks from the hands of the Underworld, and the other is In order to supervise Tatarus, it is clear that Vulcanism is also not at ease with Tatarus!

The disciples of the Vulcan Sect were finally put to use, melting the crystals of death one by one, and then smearing them on the spirit banner.

When all the 108 soul-bearing banners are painted.

These spirit-inspiring banners suddenly resonated, and they turned out to be promoted to the level of the rotation realm magic weapon at the same time!

There was a surprise in Yan Gang's heart.

This is definitely a great achievement.

Although he thinks that these holy flags are all deceptive ghosts, but the senior officials of the Vulcan Sect attach great importance to holy flags!

These spirit banners have been promoted from the level of the heaven and earth realm to the level of the rotation realm, and they have also mastered the promotion method of this spirit banner. If this is passed to the ears of the high level of the Vulcan Sect, it will definitely give him a big reward!

The Vulcan Sect has never spared any reward for meritorious officials!

Tatarus' face was dark.

Unexpectedly, this Chen Mu actually understood the promotion method of this holy spirit banner, and what made him even more surprised was that Chen Mu actually actively sent out the promotion method of this holy spirit banner!

If Chen Mu didn't say anything, then he could completely use the promotion method of his own spirit banners to let the Vulcan religion award him, and then exchange it for great benefits!

But he never thought that Chen Mu was not a disciple of Vulcan Sect at all.

He came here just to mess up and verify some guesses in Fang Yue's heart!

"These spirit-calling banners have all been promoted to the level of the rotation realm, and can be used to summon the dead souls that permeate this area and sleep deep in the space!"

Chen Mu introduced to Yan Gang that he is the real master in this castle of the dead.

Yan Gang's attitude towards Chen Mu was very useful, taking credit without being arrogant, and maintaining enough awe of him, the master of the undead castle!

"You can demonstrate it once. If it is really successful, I will report everything you did today, including all the credit for my Vulcan Sect!"

Yan Gang made a promise. He knew that Chen Mu had an extraordinary background as a special envoy.

It is impossible for him to take the credit of Chen Mu, the smartest way is to tell the truth.

I believe that the senior officials of the Vulcanism will never treat him badly, after all, this experiment was completed with his support!

Moreover, this Chen Mu will definitely remember a part of his own favor. When Chen Mu grows up, he is in a high position and has greater authority. Maybe he can be given some support!

Chen Mu nodded and raised his palm.

One hundred and eight soul-raising flags revolved around his body.

The gusts of yin wind seemed to be able to tear the space apart and completely open the gap between the human world and the underworld!

Tatarus was stunned.

This Chen Mu's command of the soul-recruiting flags was surprisingly smooth, and even the creator of the soul-recruiting flags could not do this!

Special code, whether I am the Underworld or you are the Underworld, why are you so skilled in the use of the Underworld.

Tatarus didn't know that Chen Mu's practice represented the most advanced practice in the underworld—"The Hades of Hades" is the turn of the power of death and the power of the underworld. Chen Mu is more than him. One chip!

The spirit-inspiring flags are running.

Suddenly, Tatarus had a strange smile on his lips.

These hoisting flags are constantly refined by him. As a refiner, he naturally has a hand in these holy flags!

Tatarus suddenly pinched the magic trick.

The breath of death in the 108 soul-raising banners broke out instantly.

This is beyond Chen Mu's control. If an ordinary practitioner at the pinnacle level of the heaven and earth realm, he would be completely submerged in the vastness of death and become a pile of bones, a dead body!

However, Fang Yue was watching, how could he allow Chen Mu to be conspired by Tataros.

At the moment the breath of death erupted.

Fang Yue secretly made a move to suppress and seal those violent death auras in the spirit-calling banners again!

The spirit banner continues to run, still smooth!

"How is this possible? I just clearly felt that some spirit-recruiting banners were echoing me, and the death aura in them all exploded. Even the practitioners at the pinnacle level of the rotation realm could not suppress it! How could Chen Mu have such a skill? It is able to suppress all the breath of death and seal it in the spirit-bearing banner again!"

Tatarus was shocked, he felt for the first time that the scene in front of him had gradually got out of his control!

This Chen Mu Bufan and the ant-like cultivator in the heaven and earth realm he expected were completely different!

"The soul returns, the sun and the moon are blurred! The soul returns, the universe is reversed!"

Chen Mu chanted ancient spells, summoning the souls that fell on this land in the past!

And what he used is the method recorded in the "Truth of Hades" that is more powerful than the method of summoning souls known by Tatarus!

In an instant, the space trembled.

It turned out to be a return of soul!

This is a soldier whose armor is almost broken.

There is also a short halberd in his hand, stained with blood!

He is a soldier who doesn't know what age he is on the earth. The vitality and blood on his body have not dried up, even if he has become a remnant soul, he still has a strong fighting spirit!

"No!"

Tatarus' eyes opened wide, and he didn't expect that Chen Mu could actually summon the remnants of the ancient heroes who once slept in this land!

Tatarus wants to stop Chen Mu. If Chen Mu is really successful, then their Pluto clan will lose most of the capital to cooperate with Vulcan Sect.

The Underworld has been asleep for too many years in the underworld, and needs the help of the Vulcan Sect to set foot in the disputes in the human world again!

And if they lose the help of Vulcanism, they will have difficulty getting out of the underworld!

This is no longer a question of his personal grievances but relates to the future prospects of the entire Ming clan.

Tatarus summoned a \*\*\*\* sword. The big sword is black, as if it can swallow all the light in this world.

With one sword cut, Tatarus wanted to kill Chen Mu's life. As long as Chen Mu is dead, the method of using this spirit-calling flag is still in the hands of their Underworld. This Vulcan Sect wants to summon their ancient ancestors and still obeys their Underworld's command and dispatch!

At the moment when the black sword fell.

The soldier whose eyes were perplexed in the void suddenly had clear and sharp eyes.

"Duh!"

A character spit out the soldier's mouth.

In a blink of an eye, the characters turned into the size of a millstone, blocking Chen Mu's body.

The black big sword collided with the grinding disc.

With a dingdong sound, the black big sword was shattered!

The soldier came from nothingness and evolved into his own body and armor with the air of death!

"My Tianlong Dao soldiers are fighting for the race. Who can violate my Chinese territories? Who can kill my Chinese athletes!"

The soldier's voice was exhilarating, his aura was revealed, and the soldier had reached the level of Yin and Yang just after he recovered, and the strength of this level of Yin and Yang was far from his peak state!

Fang Yue was surprised: "I didn't expect to actually be able to summon a Chinese ancestor out!"

Jona's expression was solemn.

"Tianlong Dao soldiers, Fang Yue, do you know the true identity of this soldier and the age he has experienced?"

When Jonah saw this Heavenly Dragon Dao Soldier, the look on her face was horrified and solemn. As a powerful person comparable to the Great Sage Rank, she would show such a posture in front of the Heavenly Dragon Dao Soldier. This thing itself contained something unusual. taste!

## Chapter 1573: Tianlong Taoist Temple

"This Heavenly Dragon and Dao Soldiers existed in an extremely ancient era. That era can be traced back to the origin period of your Chinese people! In fact, this earth existed in ancient times. It once died and then revived. In the ancient times, This Heavenly Dragon Dao Soldier is so famous! Even if some of the extremely ancient powers have a sense of awe for the Heavenly Dragon Dao Soldier!"

Jona spoke, she seemed to be remembering something.

And the moment the Dragon Dao soldiers appeared that day, the earth was shaking!

"This fallen is fallen. Since it has been erased from this world, why should it appear again!"

In an instant, an aura of the leader realm level appeared above the castle of the undead.

A gray-haired old man appeared, his face was full of pity and compassion in his hand!

The castle of the undead was crushed under the pressure of his breath.

Everyone was exposed in front of the old man!

"Why are they here too?"

When the old man appeared, Jona's brow furrowed deeper.

"Who is this old man? How do you feel that there is a breath of antiquity in him?"

Fang Yue was also very surprised. This old man was definitely not a human being on Earth, but the way he appeared was extremely strange. Before he appeared, Fang Yue hadn't insight into any spatial fluctuations based on his mastery of space and heaven!

"I don't know this old man, but there is a wave of energy familiar to me in him! He should be a member of Luo Tianmen! Another ancient power that should disappear in the long river of history and still exists today! "

Jonah took a deep breath, the appearance of the Heavenly Dragon Dao Bing and Luo Tianmen at the same time is definitely of extraordinary significance!

"In the ancient times, the Tianlong Taoist Temple and Luo Tianmen to which the Tianlong Dao soldiers belonged were considered first-class forces, but these two forces should have disappeared in the endless river of history. With the end of the ancient times, the two The big forces should have completely disappeared!"

Endless confusion rose in Jonah's heart: "Could it be that some people in that era didn't completely fall, but chose to hibernate and prepare to make a comeback in this era?"

When Fang Yue heard the words Luo Tianmen, his ears moved slightly.

"If you talk about other forces, I don't know yet, but Luo Tianmen seems to have never disappeared in this world! Luo Tianmen once tested zombie viruses on a technologically civilized planet, and I was even mistakenly mistaken I was involved in it! If it wasn't for my fate, I might have died on that planet now!"

"Luotianmen?"

That day Long Daobing gradually regained his consciousness. He looked at the old man floating in the air with a bit of hatred in his eyes.

"I didn't expect that the betrayers of the year could survive to this age, but you Luo Tianmen were backlashed back then. I am afraid it is not clear. In your body, I can no longer feel the spirit of Luo Tianmen that swallows the world and enslaves all beings! "

The Tianlong Dao Soldier laughed loudly, and had no fear of the sudden old man of Luo Tianmen! The old opponents of the year did not actually defeat them in the end!

"Hmph, although our Luotian Gate was not preserved intact, the essence is still carried through to this day! And what about your Tianlong Taoism? Stupidity and the destruction of the demons are enemies, and now there is no trace of existence! Only in some of the oldest The traces of your existence can be vaguely seen in the classics! Since your Tianlong Taoist temple has disappeared, you should never come back again!"

There was a trace of hatred in the old man's tone, but every time he mentioned the four words Tianlong Taoist Temple, his body would involuntarily tremble, as if it was an attack of fear rooted in the depths of his soul!

"Hahaha, my Tianlong Taoist temple is eternal, and now it is finally time to return to the world! I am only the first returnee, the Tianlong Taoist soldiers of the Tianlong Taoist temple will eventually return, and the universe of the universe will once again be under the majesty of my Tianlong Taoist temple. Impressed!"

Tianlong Dao soldiers are unparalleled, he said to Chen Mu: "Let me use this one hundred and eight strokes of the soul-raising flag!"

"That's my homing flag!" Tatarus said unwillingly, but the Heavenly Dragon Dao Bing simply ignored Tatarus.

Who owns this soul-recruiting banner? The Heavenly Dragon Taoist soldiers think who is the owner of this soul-recruiting banner!

"Senior, take it!"

Chen Mu presented a handful of soul-seeking flags with eight strokes!

Among other things, just this Heavenly Dragon Dao Bing defending China is enough to make him willingly hand over the hoisting banners.

Tianlong Dao soldiers laughed heroically, and then threw all those spirit-inspiring flags into the sky.

His mouth opened, a jet of black smoke spewed out, and the spirit-calling banners all shattered into endless death air!

The Heavenly Dragon Dao Soldier absorbed all the death aura into his body.

In just a moment of effort, his cultivation arrogantly reached the eighth level of Yin-Yang realm!

"Not enough, not enough! These death breaths are far from enough!"

Tianlong Dao soldiers know that this Luo Tianmen old man is absolutely not lacking in means and fighting experience. If he relies on his current body, he will definitely be beaten to death, and then the dust will return to the dust, the dirt will return to the earth!

"Let me use this death crystallization!"

This time, Taoist Tianlong moved his gaze to Fang Yue's body.

"Use it! Use it!"

When the old man of Luo Tianmen appeared, Fang Yue had already revealed himself!

The Tianlong Dao Bing obviously thought that this undead castle belonged to Fang Yue, so Fang Yue made a request!

And the Yan Gang of the Vulcanism wanted to cry without tears. Isn't this castle of the dead mine?

When did you become this guy!

However, how come this earthly person looks so familiar? It seems to have seen it from somewhere!

Yan Gang was thinking hard, trying to find out where he saw Fang Yue from.

With the palm of the Tianlong Dao Soldier waved, all the undead were shattered and turned into a strong death air.

The Heavenly Dragon Dao Soldier absorbed these death auras, and the corpse formed by his death aura was more solid, and in a blink of an eye he was promoted to the level of the leader realm!

"Now that you and I are in the same realm, you can take action. I want to see if this Luotian Gate has existed for another era, whether your methods have improved!"

The voice of the Tianlong Dao soldiers was open and hearty, and he had no fear of this Rashomon old man!

At this time, Luo Tianmen's old man suddenly shot. Nine portals emerged behind him, and each portal led to an unknown world!

From the nine gates, endless suction came out, like nine small black holes!

"Luo Tianmen, Luo Tian divine art! If you cultivate this technique to the peak state, you can summon three thousand portals, symbolizing three thousand avenues! But your nine portals are still weaker, far from the Luotian divine art. The true power contained in it! If you only have this little means, I am afraid you can go to death now!"

Tianlong Taoist soldiers suddenly roared.

The sound was like a wave, and it shattered all the nine portals!

"Tianlonghou! Back then, even among the Tianlong Dao soldiers, there were not many people who mastered this Tianlonghou! I didn't expect to encounter a big one this time, and they actually mastered the magical power of Tianlonghou!"

The old man was not in a hurry. Since he dared to come in person this time, he had the trump card to defeat the Heavenly Dragon Dao Soldier.

In the past, they were once ranked as the first-class strength in the universe of Ten Thousand Worlds, and the understanding of the means between the two parties is extremely profound!

The nine portals behind the old man appeared again, as if the nine portals that were shattered just now were not them at all.

"Eternal immortality! The gate of the world! Exile sentient beings! Ten thousand realms have no boundaries!"

The old man chants a spell. The most powerful thing about this world portal is not its transmission function, but that the nine world portals are eternal and immortal, even if they are destroyed, they can quickly regenerate!

The face of Tianlong Dao Bing changed slightly.

He didn't expect that after so many years, Luo Tianmen would even develop this kind of doorway.

Fang Yue saw the look of the Heavenly Dragon Dao Soldiers and knew that he had just recovered and had not returned to a state of heyday, and that Luo Tianmen's methods had changed, and for a while he lacked the method to deal with!

"Leave this Luotianmen guy to me! In my Huaxia territory, he dare to make a public statement?"

Fang Yue took the initiative to ask Ying, he wanted to fight for the Tianlong Dao soldiers.

And that day Long Daobing shook his head slightly: "This is my fateful battle! This battle can't let others take action for me, otherwise, a crack will be created in my heart!"

"This method can't trap me! The heavenly dragon emerges and rules the world!"

Tianlong Dao soldiers chanted in a low voice.

A long black dragon unexpectedly emerged!

This long black dragon is a dark dragon formed by the air of death.

Minglong groaned softly, and he took the initiative to enter one of the world portals!

The dark dragon wobbled its tail. It overwhelmed the river and the sea in that world portal, tossing the sky and the ground, occasionally a fragment of shattered peaks would be thrown out of it, and occasionally a cloud of dark flame would spew out!

The strength of this dark dragon is extremely strong, and even a world portal is tossed to pieces!

The old man vomited blood and looked pale!

"Sure enough, as I guessed, you are not running Luotian magical power! Luotian magical power is immortal, even if hundreds of millions of years have passed, no one in Luotianmen will change this exercise, and you only operate It is a spiritual method. The nine world gates that have been transformed with spiritual power have made me fall into the wrong guess and be misled by you. Use the method of

dealing with Luo Tian's magical power to deal with the nine world gates that your spiritual power has transformed and exceeded. !"

Tianlong Dao Bing is not only amazing in force, but also extremely high in combat wisdom!

In one sentence, he exposed the method of the Luo Tianmen old man, making the old man's face more difficult to look!

"How? How does my dark dragon taste? This is a magical power that I have just realized in combination with the power of death! My sonic attack has no destructive effect on spiritual methods, but my dark dragon is dedicated to devouring and corroding this A magical thing constructed by mental power!"

Tianlong Dao soldiers have the upper hand.

But a vicious divine light appeared in the eyes of the old man of Luo Tianmen.

At this time, anomalies suddenly occurred!

#### **Chapter 1574: Hellfire Crystal**

"If you are not of my race, your heart will be different. You two will die for me!"

Suddenly, Yan Gang chose to shoot.

Two crimson crystals emerged in his hand.

These two crystals turned into blazing meteors in his hands, and they were dropped to the old man of Luo Tianmen and the Tianlong Dao soldiers respectively!

The crimson flames hunt and burn.

Both the Tianlong Dao soldiers and Luo Tianmen's elders were caught off guard by the scarlet flame.

"Ancient Weapon-Hellfire Crystal?!"

Fang Yuexu squinted his eyes. He had long heard of this weapon, but it was the first time he saw it.

The \*\*\*\* fire is sealed and solidified in the \*\*\*\* fire crystal. This \*\*\*\* fire can burn the soul and the flesh shell at the same time. Below the level of the saint realm, he ignores any soul and physical defenses.

If the two fires of \*\*\*\* fall, according to the usual law, all the practitioners under the saint will be burned to ashes!

"Eternal immobile, blocking hell, body like glass, clear and transparent!"

The old man from Luo Tianmen put his palms together, he made a majestic appearance, no matter how the \*\*\*\* fire hunts and burns, his body will not be affected in the slightest!

The Tianlong Dao soldiers are also fearless of this \*\*\*\* fire crystal, "We are hell, full of vibes, containing everything, and devouring flames!"

The Heavenly Dragon Taoist soldiers actually swallowed the incomparably pure \*\*\*\* fire energy contained in that \*\*\*\* fire crystal.

Energy transformation, the energy contained in the original violent, cold, and deadly Hellfire Crystal has now been transformed into the essence of the temporary physical body that strengthens him!

With the help of this \*\*\*\* fire crystal, the Heavenly Dragon Dao Soldier's own power level turned out to be a step up!

"how can that be!"

Yan Gang stepped back, and the sight in front of him was astonished. This \*\*\*\* fire crystal was a big killer carefully refined by their Vulcan cult according to the drawings unearthed in the ancient ruins, but who would have thought that this big killer He was directly defeated right after he was born.

"This rigorous brain is probably broken during the cultivation process! This hellfire crystal is a big killer in the ancient times, so, as the survivor of the ancient times, whether it is a Tianlong Dao soldier or this Luo The elders of the Tianmen should be very familiar with this kind of things. If this \*\*\*\* fire crystal is used on modern practitioners, it may be unexpected and reap unexpected results, but put it on these two people, such a familiar weapon , How could the two of them have no way to deal with it?"

Fang Yue said to himself, he didn't expect that Yan Gang would use such a faint move!

At this time, the flamingoes in the sky suddenly swooped down and furiously attacked the old man of Luo Tianmen and the Tianlong Dao soldiers!

"No, this hellfire crystal is not only a killing weapon, it is also a signal flare! Once used, thousands of flamingos on this earth will be attacked and killed by the attackers of the hellfire crystal. This is the real purpose of Yan Gang. His surprise just now was a disguise. This is a trick to show weakness. We were all deceived by him!"

Fang Yue saw the flamingoes culled.

He immediately realized that something was wrong!

As the master behind an undead castle, Yan Gang couldn't be so mentally retarded, using Hellfire Crystals to attack people from the ancient times.

Now everything is clear.

This Yan Gang's real idea is to use Hellfire Crystal to warn, while not attracting the attention of Tianlong Dao soldiers and Luo Tianmen elders.

After all, whether it is the Tianlong Dao Soldier or the Luo Tianmen old man, his cultivation base and methods are more than one level higher than him!

If he used other methods to warn him, even if he died thousands of miles away, it might attract the attention of the two. Although there are many strong men stationed near the castle of the dead, none of them will be the opponent of the two.

Only by attracting the more powerful Vulcan saints to come, he has the hope of liberation. However, if his warning was discovered by two people, without the Vulcan saint coming to him, just these two people could solve him thousands of times before the Vulcan saint came!

This conspiracy is not feasible, so come to Yangmou. He pretends to use Hellfire Crystal to attack the two, and at the same time tells the nearby Vulcan saints to come. At the same time, this Hellfire Crystal can also attract a large number of flamingoes. People are constrained.

But this rigorous idea is really good, but other people are not fools!

At the moment the flamingo dived, Fang Yue had already seen through Yan Gang's conspiracy.

However, it seemed to be too late at this time. These flamingoes swooped down and entered the burning range of hellfire crystals. These flamingoes were immediately reborn from the ashes, and their entire bodies became as black as ink. A strong \*\*\*\* breath comes out!

The sharp cry tears the sky!

Their sharp black beaks turned into sharp blades that pierce everything in a blink of an eye!

These flamingos seem to have become more wild and violent after being contaminated with the aura in the hellfire crystals!

Every attack contained a strong killing and killing aura, and his eyes turned into cold blood red!

"These flamingoes have at least reached the level of the Yin-Yang realm, but their improvement is not eternal but temporary. This hellfire seems to have touched some special mechanism in their bodies. The cost of burning the vitality in the body is to awaken the last trace of potential! The price of this instant explosion is probably the exhaustion of the fighting power and the complete fall!"

Fang Yue calmly analyzed, he seemed to have seen the future of these flamingos.

But before death, these flamingoes will burst out their last brilliance like fireworks!

"Quantity has no meaning in the face of absolute strength!"

Luo Tianmen's old man still looks like he is still, and there is no wave of fear in his heart when the dense scalp flaming birds are coming!

The old man of Luo Tianmen clasped his hands together, chanting ancient scripture mantras.

Those crazy firebirds turned into his guardian \*\*\*\* birds when they approached him.

"The death of the flamingo will bring me new power!"

The Tianlong Dao Soldier also started talking to himself. As his voice fell, the bodies of the flamingo around him suddenly exploded and turned into masses of blood fog. At the moment of death, they released all the power of death. Have been absorbed by the Heavenly Dragon Dao soldiers!

The various killing moves meticulously arranged by the Vulcanism were so pale and boring in front of these two people!

"These ancient creatures are so terrifying and powerful! Just resurrect two, and they can produce such a level of terrifying force! The ancient creatures are so terrifying, it is beyond ordinary people's imagination and comparison!"

Fang Yue praised again and again.

Storms and waves were already in his heart.

Whether it is the Vulcanism or the old man of Luo Tianmen or the Tianlong Taoist soldiers, they have demonstrated all kinds of incredible methods.

If it weren't for this time he followed Chen Mu and waited until the castle of the undead really exploded, I am afraid the earth would suffer a big loss!

"This Vulcanism really kills the heart of my earth! There is a time bomb like the flamingo on the earth. When this \*\*\*\* fire crystal sounds, in an instant, countless flamingo will burn life. , Burst out the brightest radiance in his life. At that moment, the masters on the earth wanted to stop it, and it was too late. It can be imagined that there will be a piece of life on the earth, and everything will wither!"

Fang Yue's eyes were already condensed with a faint coldness, but he did not expect that the Fire God Sect would deal with the earth so deliberately!

However, it is not Fang Yue that is the most anxious now, but classmate Yan Gang.

Yan Gang's heart is panicked now.

All his backhands have failed.

Doesn't this flamingo say that after being infected with the breath of hell, it will become the killer of their Vulcanism?

But now these flamingos have become food and pets.

Are the creatures of the ancient times really so terrifying?

When the two of them appeared, he almost had no confidence in the fight!

At this time, the Vulcan saint finally appeared.

The person here is the Taoist Binghuo, and the Taoist Binghuo now has a trace of embarrassment and fatigue on his face, and he does not have the spirit of being a strong saint at all.

He had just got rid of the entanglement of the big bear, and he was slightly happy.

But when he saw Fang Yue and the others, the pleasure disappeared!

"Yan Gang, your opponents are Fang Yue and Jonah?"

The Taoist Ice and Fire have an urge to kill Yan Gang, don't you know that these two uncles can't afford it?

This signal is to save your life, not to make you cheat!

Yan Gang saw the slightly distorted expression on the face of Taoist Ice and Fire.

A little bit of a circle.

What happened to the Taoist Ice and Fire? When I see them on weekdays, they are all amiable. How murderous when I saw him this time, and the murderous aura was clearly aimed at him!

"No, my lord, two ancient humans appeared this time. I hope my lord will capture these two ancient humans alive and send them back to the headquarters of the Vulcan Sect for detailed research!"

Yan Gang still didn't recognize Fang Yue and Jonna, but even if he did, his first goal was still these two ancient humans!

The ancient humans themselves contain endless mysteries. They are a treasure house that can walk. If the two are captured and sent back to the headquarters of the Vulcan Sect, it is definitely a great achievement, and both of them will be greatly benefited from the headquarters of the Vulcan Sect. Reward!

"Two ancient humans?"

At this time, the Ice Fire Dao talents turned their attention to the Tianlong Dao soldiers and Luo Tianmen elders, and the auras on these two people were all good.

But they are still at the level of the leader realm. The most important thing is that both of them have the aura of the ancient times. If they are captured together, they can exchange resources that allow him to promote at least two small realms. .

Binghuo Taoist aimed at the Tianlong Taoist soldiers and Luo Tianmen's old man is preparing to shoot.

The void cracked.

"Husband!"

A soft and charming voice made Taoist Binghuo's body tremble, the calm and murderous intent that had just been condensed disappeared in an instant, and the smoke ran away!

Chapter 1575: The Power of Ancient Times

"Husband, wait for me!"

After that, the \*\*\*\* bear appeared again, she broke through the air, chasing the ice and fire Taoist step by step.

Fang Yue and others were dumbfounded.

The love between this \*\*\*\* bear and the Taoist Ice and Fire is really touching.

Now they are all chasing to such a place!

Yan Gang was even more jaw-dropping.

His whole worldview collapsed.

This is his most trusted and admired saint realm powerhouse!

Originally thought that the Ice and Fire Taoist would be at ease in his heart.

As a result, this ice and fire Taoist actually delayed his career because of love.

He is indeed at ease this time, he can die safely!

Without the assistance of the Binghuo Taoist, facing this powerful enemy, he has no chance of surviving by chance!

And Fang Yue looked at this hapless Yan Gang in silence. In fact, both the scheming and the methods are the best choice for tourists.

It's a pity that he was pitted by the Ice and Fire Taoist this time.

That's why I completely miscalculated and killed my own way.

Of course, even if Yan Gang didn't kill him, he would not end well in the end.

Fang Yue's principle is that as long as he is an enemy, he must kill them all. He doesn't want to stage the story of the farmer and the snake on himself!

Binghuo Taoist left, no troubles.

But this Tianlong Dao Bing and Luo Tianmen's old man also stopped separately.

"Forget it, forget it, it's boring, let's fight again in the future!"

"Yes, there are not many old guys who can survive that year!"

Tianlong Dao Bing and Luo Tianmen old man sighed separately.

Then the two stopped at the same time.

The preparation is to go back to each house and find each mother!

Fang Yue looked stunned.

Is it really appropriate for you to be so casual?

Just now they were showing their magical powers, and they were incompatible.

But now, the two of you actually stopped each other, this plot is not quite right!

"Boy, are you going to watch the theater next to you? I feel the breath of the ancient witches in your body!"

The old man of Luo Tianmen even shifted his gaze to Fang Yue's body.

"The breath of witches?"

Fang Yue said in surprise, "Senior, can you even feel this?"

"Yes, your body is mottled and mixed. It seems that you have practiced a lot of mixed methods. As a person who has passed, I advise you, the path of practice is dedicated and precise! The life of the practitioner is limited. If you can only provide one, it may be possible. You have gone a long way, and if you practice different ways to share your energy, at a certain stage, you may look strong, but when you become holy, you will naturally suffer from it!"

The old man of Luo Tianmen said with a gesture of pointing Jiangshan.

What he said was actually a kindness.

However, Fang Yue was cold in his heart.

He dismissed what Luo Tianmen old man said, those are the ideas of mediocre people like you, and buddy is a real genius.

What is genius?

A genius is someone who breaks conventions!

Seeing Fang Yue's expression, Luo Tianmen's old man basically also knew Fang Yue's mental activities.

He shook his head slightly, this is often the case!

He was cherishing his talent just now, so the opponent Yue called a little bit, but some people just didn't hit the south wall and didn't look back!

But when they hit the south wall, even if they wanted to look back, it was too late!

"Senior, go slowly. Haven't asked Senior Gao for his name?"

Fang Yue grabbed the old man of Luo Tianmen.

Luo Tianmen's old man wanted to go hard, only to find that he couldn't move his own.

The old man's forehead went black.

This kid is better than himself!

The force just now was a pretense, and he would have said nothing if he knew it!

"Chen Ting! Deacon elder Luo Tianmen!"

Luo Tianmen's old man said proudly.

Then Fang Yue nodded slightly. In fact, the deacon elder, although the word elder was tainted, they generally manage some miscellaneous things in the sect, and they have little real power.

This is like the deputy director of office in some units. You say this position is not low, but the specific job is to approve office supplies or something, in fact, it is the small transparent, small bottom in the unit!

"Elder Chen Ting, can you take a step to speak!"

Fang Yue beckoned, saying that he would discuss something important with Elder Chen Ting.

Chen Ting snorted coldly, obviously looking down on Fang Yue, he was going to walk away.

But he still couldn't pull the corner of his clothes!

Moreover, Chen Ting vaguely felt that the surrounding space was almost frozen. Is he trapped here by Fang Yue?

Is this a matter of discussion?

You are kidnapping me in minutes!

"Let's talk, what's the matter? My Luo Tianmen has always been upright, sitting upright, and disdainful of those sneaky things!"

Chen Ting looked righteous and Ling Ran.

Fang Yue did not reluctantly take a step to speak.

"Presumably everyone knows the current situation of this earth. Now that we are in troubled times, it is very difficult to protect ourselves from the many calamities! I hope you can help the earth. If you can really help, we Fang Yue Naturally I am grateful!"

After Fang Yue finished speaking, everyone present was silent.

Chen Ting continued to have a high-cold attitude, hummed coldly, and looked in other directions.

The Tianlong Taoist soldiers observe their nose, nose and mouth, and mouth and heart.

He has realized that the current China and the China of his time are no longer the same thing!

The vicissitudes of life, the changes in the world, his little love for China has long been exhausted!

Jonah looked at Fang Yue with a faint smile, your red-mouthed and white-toothed mouth opened and closed to ask us for this, but the Galaxy Bank started as a businessman, so I would definitely not do any voluntary help!

As for Yan Gang.

I am especially your earth is the enemy.

My rival? is it possible?

Seeing that everyone was reluctant to contribute, Fang Yue showed a slightly disappointed expression. It seems that my ability to fool is still far from enough!

"Ahem, since everyone is unwilling to help the earth, then I can exchange some price for everyone's help! For example, this life crystallization!"

In Fang Yue's open palm, a life crystallization appeared in his palm.

This life crystallization is like exquisite agate, from every angle, it is so flawless, so dazzling and moving!

The moment the life crystal appeared, everyone's eyes were concentrated on it.

And Chen Ting suddenly realized something, and gritted his teeth and said: "Fang Yue, the life crystallization in your hand belongs to Luo Tianmen!"

Chen Ting did not expect that Fang Yue had such a wide range of activities.

This deep blue planet is separated from the earth by dozens of galaxies.

Fang Yue smiled slightly: "Senior Chen Ting, don't get excited! This life crystal is completely different from your Luo Tianmen's life realm. Otherwise, you can see if there are small red lines inside this life crystal. staggered!"

Fang Yue put the life crystal in front of Chen Ting, Chen Ting was taken aback, and then looked at the life crystal.

Sure enough, this life crystal was very different from the life crystal of Luo Tianmen he had seen before.

The internal structure of Luo Tianmen's life crystal is a rhombus, while the life crystal in Fang Yue's hand has countless tiny blood vessels intertwined like a dense cobweb!

Chen Ting was slightly taken aback.

He said suspiciously, "Could it be possible that there is still a second kind of life crystallization in this world?"

Fang Yue smiled and said: "Naturally not! This life crystal was made by me with the help of Luo Tianmen's life crystal! The internal structure of this life crystal is the structure of a real life body! It can slowly swallow the life force around it. , Realize self-evolution!"

Chen Ting belongs to the category of Wu Xiu, and he is not proficient in this life crystallization. He can see whether the life crystallization comes from Luo Tianmen or because the old people in the life science research department show off this thing to him every day. Under the influence of his eyes and ears, he also learned some knowledge about the crystallization of life!

"Is there any difference between these two people?"

After holding back for a long time, Chen Ting just asked.

To ask him shamelessly ask a junior, for him, it is really a shame.

But if he can't figure out the difference, he vaguely feels that he will regret it!

Because this life crystallization is related to Luo Tianmen's big plan!

If there is any mistake in the aspect of life crystallization, it is likely to cause the failure of their entire plan!

"I bought this crystal of life on behalf of the Galaxy Bank! We can clean up ten practitioners of the Vulcan cult leader level for you!"

At this moment, Jonah suddenly spoke, she was different from Chen Ting, who was shallow.

Jonah has been in the Galaxy Bank since she was a child, and she also has profound research on this life science!

This life crystallization is the core of the biological mecha!

Once they have mastered the core material of this biological mecha, they can mass-produce biological mechas that can achieve self-growth.

This is a leap forward.

Jonah felt it was worth it even if it was a price.

Yan Gang beside him felt a toothache directly.

Are you when I don't exist?

What does this Galaxy Bank mean?

The method of payment has been changed to use the head of my Vulcan cult leader realm powerhouse to calculate it!

"I'll give you ten crystals of life. You can study them. I will exchange a hundred heads of the powerful people of the Vulcan cult leader level. Of course, I will decide whose heads are! If you can't find the truth, I We can sell you this method of making life crystals, but of course this price is not this price!"

Fang Yue originally only wanted to negotiate with Luo Tianmen, but he didn't expect a Jonah to come out.

Jonah happily agreed, in fact, their Galaxy Bank has already established the Vulcan Alliance with Vulcanism!

Killing one hundred more Vulcan cult masters at the master level and killing a hundred Vulcan cult masters at the master level is of little importance to Galaxy Bank!

#### **Chapter 1576: Conditions of Tianlong Dao Bing**

In this way, Jona and Fang Yue had a deal.

Chen Ting next to him stared anxiously.

He has a different identity from Jona. Jona is already a senior figure in the Galaxy Bank, although she may not be a member of the core decision-making level in the Galaxy Bank. What about him? In Luo Tianmen, it was just a deacon elder, and the identities of the two were compared.

He is the deacon elder, and Jonah is a senior figure.

He is the cultivation base of the leader realm, and Jonah is comparable to the existence of the Great Sage.

Jonah's offer was a hundred times more attractive than what he could offer.

Therefore, Chen Ting didn't even think about fighting with Jonah. One was because he couldn't compete, and second, he couldn't compete!

Wait until Fang Yue and Jonah reach an agreement.

Chen Ting just said, "Boy Fang Yue, this life crystallization is also given to me. My cultivation base is not as good as Jonah, and my status is not as good as Jonah. I can't give Jonah the conditions, and even I can't. Determine the future attitude of Luo Tianmen towards you and towards the earth!"

Chen Ting's words are quite true.

Fang Yue just said: "I didn't want you too much. To be honest, I don't know what resources you Luo Tianmen have worth acquiring! Chen Ting, what I want you to give me is one This technology, this technology is the technology of Luo Tianmen zombie virus manufacturing! And as a price, I can exchange a thousand life crystals for you! The value of this life crystal must be known to you, it can form a

complete by itself Living body. Whether it is used for research or as a raw material for biological armor, it will have extremely high value!"

Chen Ting took a deep look at Fang Yue: "Fang Yue, don't you think that this kind of transaction is very unequal to me? The technology for making zombie viruses is also very precious. As an equivalent exchange, you need to use this life crystal to make it. Technology to exchange!"

Fang Yue said coldly: "Precious? Don't fool me with that kind of fooling children!"

"If the technology for making this zombie virus is really precious, it won't be in the hands of several forces. If you Luo Tianmen don't give it to me, I can also get the making of this zombie virus from other forces at the same price. Method! I just want to have a good relationship with you Luo Tianmen, so I chose you! Otherwise, do you think I can't get this zombie virus from other people's hands?"

Fang Yue looked at Chen Ting.

Chen Ting was slightly startled.

"The teeth are sharp and the mouth is sharp, I didn't expect the future to be terrifying!"

Chen Ting was indeed a little angry at first, and Fang Yue had a taste of taking advantage of the fire.

But then, he understood that what Fang Yue said was true. The method used to produce the zombie virus was not exclusive, and this had already given them the zombies the capital to negotiate.

"Okay! I can't do this, the Lord has to report to the top of Luo Tianmen!"

Chen Ting must follow the process.

But if Luo Tianmen's high-level officials knew about this matter, his plan would definitely be ruined.

How arrogant the senior leaders of Luo Tianmen are, how can they accept the extortion of such a small rotation practitioner like Fang Yue since ancient times!

Chen Ting reported this matter, and the final result would definitely be to leave and even make Fang Yue and Luo Tianmen guilty, and none of this was Fang Yue's true purpose!

"Actually, you can make your own decisions about this matter! Anyway, this zombie virus is not exclusive. It doesn't really matter whether it was passed from your hands or not! And if this transaction is done privately by you and me, you will hand in a thousand crystals of life. , That is a great achievement, and I can also give you an extra Sui Chen Dan. These years are not forgiving, and there will always be growth rings and marks on the practitioners! And this Sui Chen Dan, you can Let your young age be more dominant on the way to prove to the sky!"

Fang Yue followed the temptation, causing a look of hesitation in Chen Ting's eyes.

Although he was a strong man in the ancient times, he only awakened in modern times. In this era of sleep, his lifespan was not small.

Now, he doesn't have much lifespan to squander, and if there is this old dust pill, it can slightly alleviate his urgent need.

More importantly, if he turned over these thousand life crystallizations and was completely regarded as his own credit, then he could definitely be valued by Luo Tianmen, but he gave some resources to promote his cultivation to the leader. The peak of the realm is even the level of the Saint realm.

Practice is for longevity and for invincibility!

If you can be sanctified and live longer, who can refuse such temptation?

"This matter must be kept secret, otherwise, once Luo Tianmen knows about it, neither you nor I will benefit! The production of this zombie virus is actually not a big secret in Luo Tianmen! I have a complete copy in my hand. data."

Chen Ting is already a little eager to try, and the exhausted mental energy in his heart seems to be withered in the spring, recovering again.

"it is good!"

Fang Yue and Chen Ting completed another transaction.

The Tianlong Dao Soldier had a feeling of being unable to sit still at this moment, and both Jona and Chen Ting had gained, and he returned empty-handed.

An inexplicable sense of crisis was born in the mind of Tianlong Dao Bing, as if he was about to be abandoned by some power.

"Fang Yue..."

The Heavenly Dragon Dao Soldier called Fang Yue, but he wanted to speak but he didn't know what he had to exchange with Fang Yue.

Fang Yue smiled and said: "Senior, you have protected me from ancient times to the present, and you have made great contributions. You and I are a family, so you don't need to see outsiders!"

"This is a corpse at the pinnacle level of the leader realm. The vitality in it has not completely dissipated. The seniors can seize the master and have their own new body!"

Fang Yue laughed heartily, and he gave a big gift as soon as he opened his mouth.

This gift is definitely extremely heavy.

That day Long Dao Bing was a little ashamed, just now he felt that this vicissitudes of life, he no longer needed to guard the current Chinese ethnic group.

However, no matter when it was, this Chinese ethnic group had a very strong and cordial feeling towards him.

"Then thank you little friend!"

The Heavenly Dragon Dao Soldier has just recovered, and his body formed by the aura of death is just a stopgap measure. Although he is proficient in the methods of death, he never wants to be an undead.

And with the fleshy shell, he immediately condensed the death energy in his body into a bead the size of an adult's fist, and then put it away!

The remnant soul of the Tianlong Dao Soldier entered the body of the peak level of the leader, and he has a new body. I believe that with time and serious practice, he can return to the peak level of his previous life and reach the level of the saint!

"I don't know how seniors are called?"

Fang Yue saw that the Heavenly Dragon Dao soldiers succeeded in winning the house, and his heart was finally relieved. As long as the Heavenly Dragon Dao soldiers were willing to ask for this fleshy shell, this meant that he still recognized his identity as a Chinese.

As long as this is the case, this Heavenly Dragon Dao Soldier is a human being in the ancient times, and the methods and techniques he has mastered are not comparable and comparable to those of the people of this era!

The true value of this Heavenly Dragon Dao Soldier is definitely not something that can be measured and matched by the corpse of a strong master in the master realm.

And when he received things, he would give Huaxia people an extra help in the future.

In fact, the person with the deepest round of calculations is Fang Yue. Although this Heavenly Dragon Dao Soldier has infinite cultivation realm and infinite means, he is still far from Fang Yue in terms of intelligence.

"My name is Ding San. We Tianlong Dao soldiers had their own names before becoming Tianlong Dao soldiers, but from the moment we became Tianlong Dao soldiers, we only had code names instead of our own names. A code name will last forever. When the previous owner of the code name dies, a new person will immediately inherit his code name."

Ding San had obviously gotten close to Fang Yue a lot, and knew almost everything about the secrets of the Heavenly Dragon Dao Soldier.

Fang Yue nodded, that's it.

"In fact, everyone thinks it's good to be a Tianlong Dao soldier. Only after you truly become a Tianlong Dao soldier will you know that this Tianlong Dao soldier represents a responsibility and responsibility. From the moment we become a Tianlong Dao soldier, we are already no longer a free and easy practitioner, we must always shoulder our own responsibilities and move forward!"

Ding San recovered, he seemed to have many words in his heart.

"Behind every name of the Tianlong Dao soldiers is a kind of inheritance that is present with the world. Every Tianlong Dao soldier will sign a contract with an inheritance token corresponding to his name. After death, the soul will be This token will lead you to live forever. All memories will be imprinted in the Tianlong token. Those who inherit this Tianlong token can directly see all the memories and martial arts of the previous master in this Tianlong token. This makes every Tianlong Dao soldier grow extremely fast, but the price paid is quite tragic!"

Fang Yue suddenly, no wonder there are almost no weak people among the Heavenly Dragon Taoist soldiers recorded in ancient books. After becoming a Heavenly Dragon Taoist soldier, every genius has grown extremely fast. Fang Yue was once wondering that this Heavenly Dragon Taoist Temple had What

kind of magical powers can empower the heavenly dragons and soldiers of the past dynasties, and it turns out that the mystery is here.

However, the price is tragic enough, the soul is trapped in this inheritance token, and there is no chance of transcendence and reincarnation again!

"Then when you died, why was your soul broken up by life and not attracted by the Tianlong token?"

Fang Yue suddenly thought of a critical question. This Ding San situation seemed to contradict the Tianlong token he described!

Ding San smiled bitterly and said: "Because I am the last Ding San of the Tianlong Dao soldiers! This Tianlong Taoist temple suffered a devastating blow at the end of the ancient era, and the ancestral hall dedicated to the Tianlong Dao soldiers was also beaten for life. Broken! Once we Tianlong Dao soldiers die, they are really dead! Without the token's link, I am a lonely ghost!"

"Therefore, I have an unrelenting request. I hope my little friends can find the remains of the Tianlong Taoist Temple for me, so that I can reshape and restore the glory of the ancient Tianlong Taoist Temple!"

#### **Chapter 1577: Tianlong was born**

"Restore the glory of Tianlong Taoist Temple? This is probably not a simple thing!"

Fang Yue's so-called Tianlong Taoist view is only limited to the description of some ancient books.

But as for the remains of the Tianlong Taoist Temple, his eyes are really black!

"The Tianlong Taoist Temple of the year was not completely destroyed, and part of the core of the Tianlong Taoist Temple sneaked into the boundless void! And the core of the Tianlong Taoist Temple, waiting for a suitable opportunity to recover. This time I am from the endless void. It is not accidental that the remnant soul that was summoned out of the room can recover by chance, but it means that the opportunity for Tianlong Taoist Temple to re-appear has arrived!"

Ding San spoke, his expression full of excitement.

Fang Yue suddenly realized that there is such a relationship among them.

Or, he really thought that Chen Mu was so powerful just now. The first time he used the spirit-recruiting banner, he summoned a big boss from the ancient times, and he was also a Tianlong Dao soldier.

And Yan Gang next to him finally coughed slightly at this time. He couldn't hold on anymore!

What do you big guys want to do with the little ones?

Don't think I don't exist!

My life is in the hands of others. It is really hard to wait for others to judge my own destiny, right?

Fang Yue was taken aback for a moment, he looked at Yan Gang.

"You are a member of the Vulcan Sect, forget it, let's go now! You are only at the level of Yin-Yang realm, and it is not worth me to kill you at all!"

Fang Yue waved his hand as if he was driving away a fly.

Yan Gang was stunned, he thought Fang Yue would do his best to eliminate evil.

After all, this Fang Yue had already killed many of their Vulcan cultists, and if he killed one more, his hatred with the Vulcan cult would not increase much.

But this Fang Yue actually let him go, which made Yan Gang feel quite not growing.

"Young Master Fang Yue, are you really going to let me go?"

Yan Gang confirmed in disbelief.

"Well, let's go, let's go! This Vulcan Sect will not lose much without you! With the help of your Undead Castle, you can summon the Heavenly Dragon Dao Soldiers, and you can also get to know Senior Chen Ting. I think this It's worth the time!"

Fang Yue has a feeling of being refreshed in happy events.

And Yan Gang really let out a sigh of relief.

"In that case, then I am leaving!"

Yan Gang kicked his legs on the ground and rose into the air. He summoned a golden cloud, carried himself, and instantly disappeared from Fang Yue's vision!

Then, there was only one Tatarus left to deal with!

"I am from the Underworld, you can't do anything to me!"

Tatarus said with a stern stern Fang Yue.

In Tatarus' heart, since this Fang Yue can let go of even the Yan Gang of the Vulcan Sect, and there is no direct hatred between them and the earth, he will be let go by Fang Yue!

Fang Yue looked at Tatarus sincerely.

"I'm sorry, I can let go of this Yan Gang, but Tatarus, I really can't let you go with him, because he has no use value anymore. If you leave, you are leaving, but you are a Ming clan Ah! How about my sincerely representing the earth in inviting you to be my earth's Nether Clan advisor?"

"Pluto advisor?"

Tatarus was astonished. He looked at Fang Yue, but he didn't expect Fang Yue would not let him go, and it was the reason for such a strange thing.

Wasn't they still a hostile relationship just now?

Why is it a consultant now, this smile is a grudge, uncle, the girl hasn't smiled yet...

Fang Yue's thinking jumps at an amazing speed.

This makes Tatarus feel that he can't keep up with the speed of Shangyue!

Fang Yue said with a smile: "Master Tatarus, there are no eternal friends in this world, only eternal benefits. As long as you are willing to be the adviser of the Dark Race of my earth, I can promise you to give you a four-revolution soul liquid! As your reward for becoming my earth consultant, besides that, my earth will pay you an extra drop of soul liquid every year!"

After Fang Yue opened his bargaining chip.

Tatarus' heart was shaken immediately.

The most important thing about the Ming clan is the eternal soul. This body is just a stinky skin, so the Ming clan pays special attention to the cultivation of the soul.

For them, the strength of the soul is the real strength.

Of course there are soul refiners in the underworld, who can refine precious soul fluid, allowing the soul to grow fiercely. However, in the underworld, this soul fluid is still scarce, and only those who are high above can get it!

Tatarus had never thought that one day, he would have the opportunity to enjoy the precious soul fluid.

After Tatarus was excited, he looked at Fang Yue suspiciously: "Fang Yue, you are not kidding me! Even in the underworld, the soul fluid is extremely precious treasure, which can directly enhance the user's soul level and restore the soul. The size of the injury! Generally, only the saint-level Underworld can enjoy something like the soul fluid, and you actually have this kind of thing in your hand, I don't believe it, unless you take the soul fluid out for me to see!"

Fang Yue smiled, and took out a drop of Transformation Soul Liquid.

The palm of his hand was spread out, and on the palm of his palm, there was a drop of soul fluid suspended, and the soul fluid revealed a feeling of chaos and confusion, as if it was the beginning of chaos, which made Tata Rose recognized at a glance, this is definitely a real soul fluid without any adulteration!

Although Tatarus' status is not high among the underworld, hasn't he eaten meat and watched pigs run?

Once this drop of Rank 4 soul liquid is refined, his soul level will immediately rise a step!

And there is also a reward for a drop of Three Transformation Soul Essence every year. The reward given is far more generous than the reward given by the Vulcan Sect.

"Tatarus is willing to become the earth's meditation advisor to help the earth understand the meditation and communication!"

Tatarus succumbed immediately, and the man died for food and money.

The choice is easy to make!

Fang Yue used the means of wealth to subdue all the forces of these many factions!

Jonah looks a little fascinated by this method.

"Fang Yue, you are really too talented as an earthling! If you are an elite cultivated by my Galaxy Bank, I will cultivate you well, let you become my right-hand man, and then be my own side for the Galaxy Bank. This will Making money is not a skill, but spending money is ability. I really want to make you a member of my Galaxy Bank, but unfortunately, I know you will not agree!"

Jonah said regretfully.

"Di di di di"

Optical brain information push on Fang Yue's wrist.

Fang Yue glanced roughly, his expression slightly solemn.

"Unexpectedly, this calamity came so quickly. There are already more than 300 planets in the galaxy that have been occupied by foreign races that have just recovered. Of course, most of these planets are in this galaxy. A marginalized planet with weak defense forces and a low level of civilization. However, this also represents the resurgence of alien races this time!"

The information on Fang Yue's optical brain was first pushed by the Galaxy Alliance. Today, his position in the Galaxy Alliance is extremely high. Although there is no specific real power, the right to obtain information is still extremely high. !

"The forces in this galaxy are still fighting tirelessly, and this external trouble is already coming!"

Jonah couldn't help but sigh.

She felt that the Milky Way galaxy might really be doomed!

Immediately afterwards, Fang Yue continued to browse the information.

"Here is an interesting piece of information. Mars has openly joined the Vulcan Alliance and has become a member of it. Mars absolutely blocks all trades from the Earth. The interstellar channel opened by this Mars is not allowed to pass through the Earth!"

A smile suddenly appeared at the corner of Fang Yue's mouth.

This is probably deliberately pushed to him by the Galaxy Alliance.

Although this Mars has reached a one-star level of civilization, it still does not receive such intense attention from the Galaxy Alliance.

This obviously wanted Fang Yue to use Mars to attack the Vulcan Alliance.

The forces in the Galaxy Star League crisscross, and many families are vacillating. If the Vulcan Alliance is strong, they must be embraced by the Vulcan Alliance, and if the Vulcan Alliance is not as strong as imagined, then these family forces will temporarily stay on the sidelines and continue to wait and see. They will not directly interact with the Galaxy Star. League torn up!

"Want to use me as a knife? It's not that simple! Isn't Mars temporarily deciding to interrupt trade with the Earth and blockade? Then continue the blockade! They will definitely have further intentions after the blockade, one of which is to please Vulcanism, on the other hand, will definitely make conditions to the earth!"

Fang Yue didn't rush to Mars angrily to ask for justice.

Since this Mars has made a complete break with the earth, then they have the corresponding confidence, maybe now there is already a net of heaven and earth in Mars, waiting for Fang Yue to enter the urn!

But Fang Yue was unwilling to follow this Martian's wish.

He decided to stand still and waited for the Martian's second attack.

"Fang Yue, are you really calm?"

Jonah looked at Fang Yue.

Fang Yue yawned and said, "I have something to lose my breath. The Martians and the Galaxy Covenant are more anxious than me now! This Mars and our earth are breaking off trade, this is a harm to the enemy. Thousands, self-defeating strategy of 800, the recent trade exchanges between the Earth and Mars are in full swing. The Earth has special products of the Earth, and Mars has the calculations of Mars. The two planets have exploded a lot of wealth in the process of trade docking. And this way of wealth is suddenly blocked, and there will definitely be some voices of opposition inside Mars. With the delay of time, such voices of opposition will become louder and louder! So it is estimated that it will not take too long. This Mars will send messengers to negotiate with our earth and put forward all kinds of harsh conditions, forcing the earth to agree to it! And the Galaxy Alliance is even more anxious than Mars. Once Mars succeeds in taking the earth's power, it means The expansion of the Vulcan Alliance has officially begun. Those who are watching the wall will likely be tempted by profit to truly rebel against the Galactic Alliance and become a member of the Vulcan Sect. When the wall falls, it will be scattered, and the Galaxy Alliance is the galaxy. The position of the boss will be completely shaken!"

### **Chapter 1578: Come from mars**

Sure enough, as expected by Fang Yue, this Mars only lasted three days before sending an envoy.

This time the Earth is blocked, the purpose of Mars is to anger the Earth.

But in the end, the earth didn't even make a sound.

The earth seemed to have no idea that Mars was going to block the earth, which made Mars quite aggrieved.

If I punch you, I can feel good if you call it hurt.

What do you mean by not responding!

The number of missions sent by Mars this time is not very large. There are a total of four practitioners at the rotation level and dozens of practitioners at the heaven and earth level.

What they meant to humiliate the earth is self-evident.

This secretly means that your earth is only worthy of negotiating with the messenger at the bottom of our Mars.

"This Mars is really interesting. It has repeatedly provoke the Earth. Do you really think we can't help it?"

Fang Yue stood in the atmosphere, with Jona standing beside him.

This Martian spacecraft traveled through the wormhole, and a space crack suddenly opened up less than 100 kilometers in front of Fang Yue.

This is the call for Mars to travel through space and will soon arrive on Earth.

Then, Fang Yue teleported to the front of the space crack, "Hey, who made a space crack here! Fix it quickly!"

Fang Yue said to himself: "The space around this earth is simply too weak! Why did a space crack appear casually? No wonder so many people have descended from other planets during this period of time!"

As Fang Yue spoke, he pressed one hand on the crack in this space.

The space cracks were instantly closed, and the surrounding space continued to remain flat, as if the space cracks had never appeared before.

Then, Jona was stunned by the operation of classmate Yue!

Is this okay?

This space crack is the exit of the Martian spacecraft!

You have blocked the exit of the Martian spacecraft.

Did your teacher teach you this way?

The exit is gone!

The spacecraft of this Martian mission is worthy of being able to wander in dark space, and with the energy contained in an ordinary spacecraft, they simply can't stay in dark space for too long!

Therefore, this will also send the Martian mission into a mortal environment, and even the strong of the Great Sacred Realm, as long as they are not strong in the space line, cannot save them.

The dark space is so big, who can lock their whereabouts without special means!

"Fang Yue, I should remind you that if the two countries are at war, don't cut them!"

Jona hesitated and felt that she should remind her of the uniform rules in the universe.

Although Fang Yue's doing this is cool for a while, in the long run it will be rejected by other forces!

Fang Yue was stunned.

"What am I doing? Did I cut off the messenger? I obviously saw a space crack outside the earth and kindly repaired it!"

"Well, you are great, you are all right!"

When Jona saw Fang Yue's expression, she knew that Fang Yue didn't plan to behave to Mars this time.

And Fang Yue was originally a person who didn't know how to behave, when he decided that he really should not follow the rules, suddenly, Jona started to mourn for the Martians!

Then, just like that, the Martian envoys didn't even know what the earth was, and then got lost in the dark universe.

At the same time, the earth also sent a message that the Martian envoys lost their way in the dark universe, and the earth people mourned as friends.

Among Mars, Lin Ping, the emperor of the Martian family, gritted his teeth angrily.

Is there anything more shameless than Fang Yue?

It was he who blocked the wormhole, but in the end, he reported to the entire universe that the Martian mission was lost and was buried in the dark universe.

Is this sarcastic that we Martians are road idiots?

Lu Chi has not lost his way in the dark universe!

This Fang Yue is really horrible, horrible!

Their Mars is really embarrassing this time, they have thrown out of the solar system and rushed to the entire universe!

"My lord, what shall we do next? Do you still send a mission to Earth?"

The leftist Feng Qing said respectfully to Lin Ping for instructions. This time Lin Ping suddenly decided to join the Vulcan Alliance and completely block the earth, cutting off the exchange and trade with the earth. In fact, it has already occurred among the Martians. There was a great response.

Support Lin Ping?

This does not exist!

You are a monarch and cannot control our will!

In the transaction between the earth, the spirit stones that they received were real gold and silver, but what good is there to listen to your royal family?

More taxes, more stringent government orders?

The Lin dynasty of Mars' rule over the planet's ability is no longer stable.

If the various decrees of the Lin dynasty had to strictly restrict their trade so that they could not even earn spiritual stones, then they would really have to rise up!

"Send another mission! This time we will land in a place far away from the earth! I don't believe that Fang Yue can manage the vicinity of the earth, can he still manage the surrounding planets?"

Lin Ping knew that this mission had to be dispatched, otherwise, they would not be able to consume the earth!

"Yes!"

Feng Qing took the order, then retreated respectfully.

Thus, the second spacecraft of Mars was dispatched.

This second spacecraft landed about 30,000 kilometers from the earth.

The wormhole opened and the spaceship appeared.

There is no shadow of Fang Yue at all!

A bunch of people on the spaceship waited to breathe. They were really afraid that Fang Yue would cut off their back path again!

This Fang Yue is still really unreasonable. If the wormhole is really sealed, they won't even have a place to cry!

"Where did this spaceship come from? It looks so luxurious! Now this spaceship belongs to me, Louis XXI!"

Those Martian messengers just breathed out.

Immediately afterwards, pirate spaceships appeared around their spaceships and surrounded them!

All those Martian messengers had their eyes widened. This is so unscientific!

Is our luck so bad?

It was stopped by space pirates just after landing.

The people of the envoy group even had the courage to resist, and then they captured the second group of envoys on Mars, and even the people and the spaceship were robbed by space pirates!

Hearing this news, Lin Ping on Mars jumped into thunder again.

Then, on behalf of the earth, Fang Yue issued an announcement to the entire universe that the Mars messenger was unfortunately taken away by space pirates and even the spacecraft in the universe during the mission to the earth!

This time, Mars is even more embarrassing.

Such a thing can't even be done by an uninfluenced civilization!

Is this Mars so fragile?

Is their civilization level fake?

A dignified mission can't even do a pirate group in the universe?

Martian civilization has become an object of pastime for the entire universe.

Two consecutive missions to the earth, once the mission was lost in the dark universe! Another time it was robbed by space pirates.

Is there anything more ridiculous than this messenger group in the whole universe?

Of course, this time the cosmic pirates were also made by Fang Yue sent earthlings.

Isn't this Mars trying to anger the earth?

sure!

But you must be prepared to fail. The journey from Mars to the earth is far away. The strength of your messenger group is too weak, I am afraid that even the earth cannot reach it!

Then, due to the pressure of public opinion inside Mars, the third wave of Mars envoys set off.

This time the configuration of the mission group is set according to normal standards. The leader is Lin Qiang, a strong man in the Saint Realm of Mars. This Lin Qiang is a real power in the Martian royal family, regardless of his name. The characters and his deputies are all existences at the master level.

One saint, four masters of the master realm, and a hundred strong masters of the Yin and Yang realm.

This configuration is definitely worthy of the earth.

No way, if you don't send a regular team of messengers, who knows what moths Yue will give to Martians halfway through?

This Fang Yue had too many ghost ideas, which made Lin Ping a little scared. If the third wave of the messenger group was destroyed by the earth, then they should not be confused!

This time, Fang Yue was really not prepared to intercept the third wave of envoys from Mars.

He has prepared a feast for these messengers on earth.

However, the third wave of the envoys of Mars finally produced moths.

A big space storm was born around the earth.

It doesn't matter what this storm or something, this thing often happens during cosmic voyages, and the equipment level of the envoy group of Mars is also high enough, but the problem is that the space storm accidentally hangs a great sage. come out!

This great sage, traveling in time and space, was inexplicably involved in a space storm.

Then when he appeared again, he was already near the spacecraft of the Martian messenger.

He slapped the spaceship to fall apart, and ate all those Martian messengers, whether saints or strong men in the Yin-Yang realm, without leaving any bones and dregs!

This great sage is called the Swallowing Demon Saint, and he is a famous great sage in the entire universe. Starting from the Houtian realm, he has swallowed all the way to the level of the Great Sage realm. His deity is a gluttonous beast. , No one is his opponent.

And what this Heaven-Swallowing Demon Saint likes most is wandering in the universe and devouring all kinds of creatures in the universe, whether you are a human saint or a star beast, in the eyes of the Heaven-Swallowing Demon Saint, everything is delicious on his plate!

This time Swallowing Devil Saint's shot is purely unlucky on Mars.

As a result, the third group of the Envoy of Mars was destroyed.

The earth once again announces the whole universe!

"Sage Lin Qiang! My messenger group! My reputation on Mars!"

Lin Ping sits paralyzed on the throne, and the powerhouse of the Saint Realm is extremely rare among Mars. Each of them is a pillar and pillar of Mars.

Now one was eaten by the earth because of his mission!

Such a large loss makes Mars unbearable!

The messenger group was destroyed before, and the whole universe was announced, at best, it could only be regarded as a reputational damage, but this time the fall of the saint is a real crit for Mars!

### **Chapter 1579: The messenger is finally here**

But the fall of this saint can't resist the Martian's determination to continue to serve the earth!

In the end, Lin Ping established a long-distance two-way transmission formation after paying a certain price! This formation was built by the Galaxy Bank to help Mars.

No way, when other people arrive on Earth, they won't let people establish a teleportation formation.

This price is the price of a magic weapon at the peak level of the leader realm.

After the teleportation array was established, the peak-level magic weapon of the master realm became a spirit stone resource, which was then evenly divided by Fang Yue and Jona!

If Lin Ping knew this was the result, even if he did not send an emissary, he would never let the Galaxy Bank establish a teleportation array.

He originally wanted to make things difficult for the people on earth, but they actually lost their wife. Now even the magical tools of the master realm level are equally divided by the people on earth and the Galaxy Bank.

Finally, the mission of Mars arrived.

The leader was Zhang Yang from a saint-level powerhouse, and there were five master-level powerhouses behind Zhang Yang as deputy envoys of the mission.

When they first came to Earth, they followed Lin Ping's orders and showed a domineering attitude.

This is for the people of the earth, but also for the people of Vulcanism!

Fang Yue personally received the Martian messenger.

Then he is the only negotiator on the earth side!

In terms of identity, Fang Yue is definitely qualified.

Fang Yue is not only a human being on Earth, but also a platinum-level rotation seed in the Galaxy Alliance! And he is also the master of Helen Star, the monitoring room of the 108th Army.

This status is actually higher than the emperor of Mars!

"Master Zhang Yang, I really admire my name for a long time! Come, come, come, find a place to sit down, I have prepared good wine and food for the adults in the mission to wash the dust for the adults!"

Fang Yue's enthusiasm is nothing like that!

But Zhang Yang was quite embarrassed, as the saying goes to reach out and not hit the smiley person.

With this unexpected enthusiasm for Fang Yue, how embarrassed he would continue to be domineering.

However, thinking of the inexplicable disappearance of the three missions before, and Lin Ping's previous instructions, Zhang Yang once again acted in a shameless manner and decided to stick to it.

"Humph!"

Zhang Yang snorted coldly, and the other party Yue simply dismissed it.

"Is there no one on your planet? You sent a junior from the rotation realm to receive me!"

There was a strong disdain in the public tone.

And Fang Yue turned his face immediately, and the smile on his face gradually faded.

Then he stared at Zhang Yang and said: "Zhang Yang, what do you mean? Do you look down? Or do you look down on the Galaxy Alliance? What is your status, what am I? I am exalting you when I come to meet you in person! I know, I am the platinum-level rotation seed of the Galaxy Alliance or the monitor of the 108th Legion, the master of the planet Helen, do you think your status is more noble than me? Or is your Mars joining the Vulcan Alliance? China has looked down on the authority of the Galaxy Alliance!"

When Fang Yue saw Zhang Yang's indifferent and arrogant attitude, his heart was actually secretive!

He was still worried that he couldn't guide the fire to the Galaxy Star Alliance. This Yang gave him such a perfect opportunity!

Zhang Yang was stunned.

This Fang Yue can't talk too much.

This is the contradiction between their Mars and the Earth, how can they have something to do with the Galaxy Alliance.

Their Mars can offend the Earth, but they can't offend the Galaxy Alliance.

Although everyone knows that there must be a battle between the Vulcan Alliance and the Galaxy Star Alliance, no one dares to instigate the relationship between these two behemoths before this battle has officially started.

He now needs to be cautious in his words and deeds. One wrong answer is to push the Martian to the forefront.

What, you Martians look down on the Galaxy Covenant?

If these words really spread, then the Galaxy Star Alliance, which is nowhere to spread the fire, will dispatch an army to destroy the sparks immediately!

"Fang Yue, you are inverting black and white! My Martian is very respectful to the Milky Way Star Alliance! What I said just now, your cultivation is not equal to me!"

Zhang Yang reacted accordingly and immediately distinguished the relationship between this matter and the Galaxy Alliance!

Fang Yue glanced at Zhang Yang and said: "So that's it! You look down on it! If you look down on it, look down on it! I'll take care of you first!"

"Come here! Bring the adults of the Martian Mission to the restaurant area!"

Fang Yue was not angry, but rather graciously crossed this field!

Instead, Zhang Yang was stunned for an instant.

This plot is wrong!

In his information, there is an introduction about Fang Yue's character. This Fang Yue is definitely not such a good-tempered person!

Who is Fang Yue?

Javier will be reported, small belly chicken intestine!

How could he be so calm after being provoked!

Then Fang Yue left, and as expected, someone invited Zhang Yang and others to the restaurant to entertain them with delicious food!

In this way, the first day passed!

Then on the second and third day, Fang Yue never appeared again!

Zhang Yang Mao.

He is here to negotiate, not to travel!

This Fang Yue even ignored them!

what does this mean?

Want to delay the negotiation date?

But the earthlings can afford it, the Martians can't afford it!

"Fang Yue, I need Fang Yue to negotiate with me!"

After being forced by publicity, he finally compromised. Actively looking for Fang Yue to negotiate. He knew that once he fell into a passive position, he would definitely be at a disadvantage in the negotiation process. However, Fang Yue did not come, only an emissary told Zhang Yang.

Fang Yue said that Zhang Yang thought that his status and status were not enough, so he went to negotiate with him with a status and status comparable to that of Zhang Yang, hoping that Zhang Yang would be safer.

Zhang Yang understood instantly, it turned out that Fang Yue didn't refute that he was actually waiting for him here!

Zhang Yang's heart is cold, he just came to this earth, he actually fell into the earth's calculations!

At the same moment, Fang Yue was in contact with the Galaxy Star Alliance!

The person connected with Fang Yue is Kang Yue, the leader of the silver armor judge.

After seeing Fang Yue, Kang Yue first had an expression of disgust. Even through the screen of the light brain, Kang Yue could smell the thick conspiracy.

"Fang Yue, what do you want me to do?"

Kang Yue's tone was filled with a strong smell of impatience, but because of Fang Yue's special status, Kang Yue couldn't take it seriously.

Fang Yue had just become the Supervisor of the 108th Army, and he immediately conquered the Flying Planet by the 108th Army.

This caused Fang Yue to be immediately added to the Galaxy Star Alliance. He is a hero of the Galaxy Alliance. For this credit, the Galaxy Alliance has no way to reward Fang Yue!

"Dear Kang Yue, the earth where I live is blocked by Mars. As the silver armor judge who presides over the fairness and justice in this galaxy alliance, I hope you can send some people to help my earth tide over this difficulty! "

Fang Yue's attitude was extremely respectful, which made Kang Yue a little enjoyment.

But Kang Yue also understood in her heart that the reason why Fang Yue was so respectful was that she wanted to use the silver armor judge to deal with the Martians!

Is this Martian easy to deal with?

Easy to deal with!

But can their silver armor judges take action?

No way!

This time the Martians came to deal with the earth and block the earth, which represents the will of the Vulcan Alliance, and their Kang family and the Vulcan Sect are extremely close, and they are even ready to join the Vulcan Alliance at any time!

Isn't Fang Yue asking him to deal with the Martians just to disgust them and the Vulcanism?

After pondering for a moment, Kang Yue said: "Fang Yue, I know your difficulties, but now in this galaxy galaxy, there are ancient races recovering, and some rebellious people try to subvert my Galaxy Star

Alliance, our Silver Judge The task is arduous and the manpower is tight, so I cannot help you to protect the earth this time!"

Kang Yue directly rejected the matter, but his tone was quite euphemistic, because Fang Yue's identity was special. If he refused to be too direct, it would easily cause Fang Yue's dissatisfaction or disapproval!

If Fang Yue makes a whole network live broadcast or something again, his Men Kang family will really fall!

Fang Yue nodded slightly, "Hey, this silver armor judge also has his own difficulties. Since Master Kang Yue is embarrassed, then I won't force it anymore!"

Fang Yue followed Kang Yue down and said, this made Kang Yue a little surprised.

In his impression, Fang Yue was definitely not like this.

If Fang Yue is so easy to talk, then why is he calling himself this video call?

Unable to help, Kang Yue asked: "I don't know what other arrangements you have next?"

"Is there any arrangement, the Galaxy Star Alliance doesn't care about me, then I will temporarily compromise! Anyway, if I compromise, I won't lose my face alone!"

Fang Yue said it right and bold, of course.

Kang Yue immediately understood that Fang Yue's emotions were the reason for preparing for this opportunity to excite the Galaxy Star Alliance!

As long as Fang Yue suffered a loss this time, the face of the Galaxy Star Alliance would be immediately lost.

This is because Fang Yue is an important figure in the Galaxy Alliance, and he has even made extraordinary contributions to the Galaxy Alliance. If even such a character's hometown cannot be preserved, how would the outside world comment on the Galaxy Alliance?

Is the foreign strong and the medium capable or the end of the strong?

To think at a deeper level, the defeat of the Earth represents the defeat of the Galaxy Alliance in the first confrontation with the Vulcan Alliance.

In that case, the prestige of the Galaxy Alliance is greatly reduced, and who else will come to the Galaxy Alliance in the future.

The weakness of the Galaxy Star Alliance does not do any good to the current Kang family. The main interests of the current Kang family are still in the Galaxy Star Alliance!

And even if the Kang family wants to join the Galaxy Star Alliance, they need to choose a suitable time!

A strong Vulcan alliance, a weak Galactic Alliance, this Kang family's joining the Vulcan Alliance is just icing on the cake, and if the Galaxy Alliance and the Vulcan Alliance are evenly matched, even if the Galaxy Alliance is slightly stronger, So if the Kang family took refuge at this time, it would be tantamount to giving charcoal in the snow, and their status skyrocketed!

## Chapter 1580: Turn face

Alliance, or the call of ideals, or the unity of interests.

These are two completely different ecological strains!

The Vulcan Alliance belongs to the latter, it can't be said to be sad or right or wrong, but there are always gaps that people can scratch.

Kang Yue was silent for a long time.

He raised his head and looked at Fang Yue again: "What kind of support do you want? The Martian can't win, but it's impossible for my silver armor judge to take action!"

"One hundred magical weapons at the master realm level! Plus 50 billion spirit stones or equivalent war resources!"

Fang Yue's lion opened his mouth. From the beginning, he was not prepared to let the silver armor judge to intervene in the earth's affairs!

"it is good!"

Without bargaining, Kang Yue directly agreed to Fang Yue's terms.

He knew that he did not have any bargaining capital at this time.

But now he was blackmailed away by Fang Yue, and sooner or later he would vomit out thousands of times!

"Faithful! As expected of the Kang family!"

Fang Yue's words were more ironic than praise, but Kang Yue seemed to have not heard her, and cut off contact with Fang Yue with a snap.

However, Fang Yue's optical brain immediately added a piece of logistics information.

A hundred artifacts of the master realm level were on the way, and the 50 billion spirit stones were directly injected into Fang Yue's personal account!

Blackmail succeeded.

Fang Yue made a fortune on the head of the Galaxy Star Alliance.

Of course this kind of thing can't be repeated.

This Martian invasion has this lesson, and it will not happen again in the future.

If the Vulcan Alliance declares war on the earth again, there will be no negotiating missions coming, but crazy attacks like violent storms!

Fang Yue came to the residence of the Vulcan Mission.

Zhang Yang, who was almost suffocated, finally saw Fang Yue's figure again.

"Fang Yue, do you dare to leave us here and ignore it?"

Zhang Yang waved his fist, trying to hammer Fang Yue.

After he was sanctified, his status was high among Mars, and no one had the guts to treat him like this!

"If you dare to say one more word, I will turn around and leave and come again next week! Now the interior of your Mars is already a skyrocket! I can wait, can your Lin Dynasty wait?"

Fang Yue's words were like a sharp dagger, and it hit the key point all at once.

The panicked dagger is so dazzling.

It's so public that I can't open my eyes!

"Fang Yue, you!"

Zhang Yang wanted to threaten again, so Fang Yue turned around and left.

Zhang Yang suddenly stopped what he was saying, and Fang Yue also stopped his steps.

"Fang Yue, what do you want?"

Zhang Yang abruptly swallowed the back cruel words back into his stomach.

Before the negotiation started, he had already lost.

Originally, Zhang Yang wanted to find a bit of ground, but he did not expect that Fang Yue had already pinched his seven inches!

Powerless to struggle!

These four words are the only feeling in Zhang Yang's heart at this moment.

"Actually, my request is not high. Let the Martians untie the ban on the earth, and then compensate the people on earth for their losses! I have counted it before, and it is about 50 billion Lingshi for the loss of goods. You can use materials to compensate. Of course the spirit stone is the best!"

Fang Yue's reply made Zhang Yang stunned.

What's special, this means that we have blocked you for a long time, and then we have to compensate you for your losses?

"Fang Yue, don't take an inch! If we Martians continue to blockade, your earth will suffer greater losses than Mars! What's more, earth people have just come into contact with cosmic civilization, and more advanced civilizations have just started, and we block the earth and All the communication with the outside world is tantamount to knocking you back to your original form and locking you back in chaos and darkness!"

Zhang Yang threatened again.

They think that this is the weakness of the people on earth.

Only Fang Yue is as powerful as a single person, and cannot create the powerful as a group of people on earth!

Civilization is slowly evolving in opening up!

"It's okay, it's okay, just block it if you want to block it! We can abandon the trade with Mars, and then exchange and learn to do business with other civilizations! Don't forget, I am the master of Helen! Today's Helen, do not At the intersection of ethnic civilizations, we have opened up our own market in Helen Star!"

Fang Yue squinted his eyes and said in an indifferent tone.

Once the passage of civilization is opened, the difference between 0 and 1 is very big, but the difference between 100 and 101 is not so obvious!

"Helen Star... that place is still fighting the demons with continuous wars! There is no stable trading and survival environment at all!"

Public confidence is not so sufficient anymore!

The speed of the development of earth civilization is a bit unexpected!

Originally, they thought that the earth had just mastered the transition technology in space, but they did not expect that they could already establish a teleportation array that jumped the space plane!

Their blockade became a joke!

"It's okay! This Helen star is at least in my hands. The huge Helen star is only one-tenth of the place where the war is really encountered. Peaceful trading can still be done in the rest!"

Fang Yue squinted his eyes and smiled as before, everything is in my grasp!

Suddenly, Zhang Yang dumbfounded, facing a Fang Yue who had exhausted such organs, he didn't know what to do!

"Anyway, our Mars will never agree to your conditions!"

Zhang Yang is poor, he is not a good negotiator.

As a saint, he may be good at practicing, but he doesn't know how to have a three-inch tongue to fight for the benefits of the forces behind him!

"The negotiation is over, then start a long war!"

Fang Yue suddenly turned his face and overturned the table directly.

Talk while playing.

Distant contact and close attack were originally one of Fang Yue's established strategies!

The vigorous development of the people on earth has made the small earth space unable to accommodate the next rising nations.

And the boundless starry sky is exactly the next target of conquest of the earth people.

The moon is very close to the earth, but it needs huge resources to transform it into a place suitable for living on earth.

As for Mars, both the living environment and other resources are very suitable for living on Earth.

If the Martians don't turn their faces, Fang Yue must find a reason to fight with the Earthlings!

Zhang Yang suddenly felt a little painful.

Is this the end of his negotiation journey?

Who can tell him how to answer Fang Yue's words?

Is he going to wipe his nose to kneel and beg Fang Yue to forgive Mars and continue to return to the negotiation table, or straighten his back to represent that the Martians and the Earth are declaring war?

Neither of these two results were what the Martians wanted, nor were they in the interest of the Lin Dynasty!

Their original expectation was that the people on earth wanted to compromise and then sign a series of unequal treaties.

But now it seems that this result seems to be reversed!

"Fang Yue, I can't decide what you said, I need to go back to Mars and ask the royal family for instructions!"

Even a saint is not qualified to determine the future direction of Martian civilization!

"welcome any time!"

Fang Yue, who had been fighting back just now, seemed to be a waiter at this moment, with a smile on his face, sending him farewell!

Zhang Yang hurriedly returned to Mars with the delegation, and a negotiation ended without a problem!

"Crazy man, this Fang Yue is simply a lunatic, he actually wants me to compromise with Mars, no way!"

Lin Ping smashed the drinking glass angrily when he heard the public report!

But after a frantic vent.

He suddenly calmed down!

"The real purpose of Fang Yue is to provoke Mars, and then attack the earth! Today's earth is unfathomable, maybe even the people on earth don't know how strong it is! I can't be fooled by Fang Yue! They Since they don't care about the benefits of the starry sky, let them completely lose it!"

Lin Ping is like a crazy gambler. After losing a round, he didn't reflect and stop.

He decided to get a bigger bargaining chip, stud one game!

"Tell those merchants! My royal family is willing to subsidize a part of the spiritual stone resources for them as compensation, and open up you to negotiate with the people of the Vulcan Alliance! Let them send more resources to support our consumption of the earth, and, The Vulcan Alliance has so many trade channels. Ask if they can help us open up two more on Mars, so that those merchants who have lost profits from trading with the earth can reopen!"

Lin Ping is a mature king after all.

After underestimating the enemy before, he began to make a long-term plan to fight a protracted battle with the earth!

And the other side.

The earth has also begun to actively respond.

In front of Fang Yue, an information network about Martian civilization has been spread out.

In the process of contact with Martian civilization, the people on Earth did not relax their vigilance.

They regarded those arrogant Martians as their imaginary enemies early on!

Therefore, the people on Earth planted their nails on Mars early.

The Martian intelligence will be fed back all the time.

"Mars civilization began to rise about 12,000 years ago, and began to enter the cosmic age two thousand years ago! Among them, the civilization system is mainly based on the civilization of science and technology and the civilization of practitioners! The number of strong saints on the surface is about seven. Ten! The ruling power in Mars is the Lin Dynasty, and the Lin Dynasty occupies 80% of the territory of Mars! However, there are still thousands of consortia, large and small, active in Mars. The stability of Martian civilization is a great hidden danger!"

In Fang Yue's hands, the people on Earth collected the information on the Martian civilization quite meticulously. Fang Yue looked at each page, and he would not miss a word!

Know yourself and the enemy, a hundred battles will never end!

Earthlings are actually far more sensitive to war than Martians!

"This Martian civilization has risen at an amazing speed and before stepping into the cosmic civilization, there are at least forty powerful saints in Mars! This Mars was originally a pure practitioner civilization, but Less than two thousand years after being exposed to the civilization of the universe, it has developed a semi-practitioner civilization and semi-technical civilization model!"

Fang Yue was talking to himself while looking at the information.

The history of the rise of Martians has many strange and weird places!

The rise of a civilization is measured in units of ten thousand years.

The earth is special because it had a very brilliant and brilliant civilization before.

Some old antiques from the previous generation of civilization have always secretly protected the rise of earth civilization.

And what did the Martians rely on to rise rapidly in just ten thousand years, and then a new civilization system was born in two thousand years of civilization?
